

I CAN COPY TALENT

Chapter 11

The most valuable thing on the body of the fierce beast spot snake is the blood of the fierce beast, and although the snake skin is also worth thousands of dollars, Ye Tian can't take it with him alone, and the skin is also very troublesome.

Mo Shaobei and the others estimated that they would soon find this place, and he could not stay here for long.

"The ferocious beast snake has been crawling over there before it died, so could it be that there are good things over there to treat its injuries?"

Ye Tian looked over.

"That's ..."

He looked different.

Not far away, a stalactite hangs upside down at the top of the cave, and a drop of liquid material drips onto a stone trough that has accumulated a small layer.

This liquid substance emitted a faint white light, and at first glance, it was clear that it was not an ordinary thing.

"What kind of century-old stone stalactites and thousand-year-old stone stalactites are often mentioned in the novel, is this thing it?"

Ye Tian guessed.

However, he did not know such a treasure, and only guessed by the content of the novel in his previous life.

But in any case, this thing must be a good thing.

Thereupon.

Ye Tian took out the last kettle, poured out all the remaining water, came to the stalactite, and put the remaining stalactite (so to speak) into the kettle.

The stalactite is not much, and it is estimated that it was eaten a lot by the fierce beast spotted snake, so it only contained a small half kettle.

Looking at the stalactites and looking at the stalactite slowly accumulating on it, Ye Tian had a plan in mind.

“At this rate, at most one drop of stalactites accumulates a day, I can’t wait, but I can’t cheapen other students, I can only destroy!”

Ye Tianxin said fiercely.

Therefore, he held the fine iron knife in his hand and slashed at the stalactite, quickly cutting off the entire stalactite, and then doing some means to cover up the place.

“Stalactite can be born here, and there may be more precious treasures in the rock layer, but the rock layer is too strong, not that I can open it now, and I will explore it later!”

Ye Tian said sadly.

After almost erasing his own traces, and then gouging out the eyes of the fierce beast spotted snake, Ye Tian left the cave.

Within ten minutes of Ye Tian’s departure, a group of practitioners chased after him along the blood of the fierce beast Spotted Snake.

When they arrived at the cave, they were dumbfounded.

“The beast is dead!”

A warrior exclaimed.

“Damn, someone gouged out the beast’s eyes one step ahead, that’s 1,000 points!” Mo Shaobei said angrily.

The other practitioners were also extremely angry, they had been busy for so long, one by one, with injuries, and many students had died, but now they were the first to board.

“No, the blood of the beast’s heart has also been taken away, leaving only ordinary beast blood!” Another warrior shouted.

Fierce beast blood, spotted snake eyes.

These two most important things were all taken away, and although the entire corpse of the fierce beast was still worth some money, Mo Shaobei and the others did not care about a corpse of a fierce beast at all, and turned around and left.

However, the corpse of this fierce beast was of great value to those ordinary martial artists, and they divided it up one by one.

There were many caves in Ono District, and Ye Tian quickly found a small cave, killed the beasts inside the cave, and occupied the cave.

Now, he had earned the Eyeballs of the Ferocious Spotted Snake, worth 1,000 points, and for the rest of the day and a half, he didn’t need to hunt the beast at all, because he was firmly in the first place.

But he didn’t want to waste time, and he was ready to cultivate here.

“So much fierce beast blood don’t know how much it can increase my strength?”

Ye Tian had some expectations.

He drank a mouthful of fierce beast blood, and immediately used the Forging Body Technique to cultivate.

Rumble!!!

The fierce beast's blood turned into a stream of energy along with the action of the Forging Body Technique and began to refine Ye Tian's body, accelerating the improvement of strength.

Soon, the eighteen movements were cast, and the energy of the beast's blood was basically exhausted.

Ye Tian carefully sensed the changes in his body and was immediately overjoyed.

"Nearly four times the cultivation speed, this is only the blood of low-level fierce beasts, if the blood of medium-level fierce beasts assists cultivation, wouldn't the effect be even more anti-heavenly?" No wonder many people are not talented, but they have become warriors at the age of twenty or thirty, and even elite martial artists, which should rely on a large amount of fierce beast blood! Ye Tian guessed.

After drinking another mouthful of fierce beast blood, Ye Tian continued to cultivate.

He was a medium cultivation talent, so the absorption effect of the fierce beast's blood was far beyond that of ordinary people, and if it was a primary cultivation talent, it would be good to increase the cultivation speed by 2 times.

With the blood of the fierce beast, Ye Tian's growth rate far exceeded that of others.

In the blink of an eye, hours passed.

At this time, Ye Tian found that he had already performed the Forging Body Technique ten times, but it seemed...

"My body is not so tired, can I still perform the Forging Technique?"

Just do it.

Ye Tian practiced the Forging Body Method again, and found that he had really cultivated it with ease, and absolutely did not cause damage to his body.

“I understand that the reason why ordinary people can only cultivate the forging method ten times is because the energy of the human body is limited, and transitional cultivation is the potential of overdrawing the body, but with the blood of the fierce beast, it is different, the blood of the fierce beast replaces the energy of the body, so you can cultivate the forging method many times, ten times is far from the limit, I can even cultivate twenty times, or even thirty times!”

Ye Tian said excitedly.

Perhaps this secret is not a secret to the warriors, but no one has revealed it to the warriors, mainly because it is difficult for the warriors to obtain the blood of the beasts, and the blood of the beasts needed for the cultivation of the warriors themselves is not enough, so naturally it is impossible to disclose this secret, otherwise countless martial artists will go crazy.

Even in the big family, it was simply unrealistic to supply the warriors with a large amount of fierce beast blood.

“Hahaha, so much fierce beast blood is enough for me to cultivate for two days, maybe at the end of the trial, I can increase my strength to 400 pounds of strength.” Ye Tian clenched his fists, secretly saying.

Continue cultivating!!!

While Ye Tian was cultivating, the outside world was in chaos.

In order to get more points, many martial artists rob each other for better rankings, but these martial artists do not dare to kill people, otherwise the

punishment will be very serious, and no one knows whether there are hidden warriors in the dark.

But even so, the weak warriors were unlucky, and the materials they had worked so hard to obtain were robbed one by one.

In the blink of an eye, the three-day trial was coming to an end.

At this time, a famous warrior walked out of Ono District.
