

I CAN COPY TALENT

Chapter 6

When the Silver Moon Marten died, it was less than three meters away from Ye Tian, and Ye Tian was very panicked at that time, fortunately, the Silver Moon Marten was dead, otherwise he would most likely be killed by the Silver Moon Marten.

All in all, he was lucky.

Seeing that the Silver Moon Marten was dead, he suddenly wanted to check on the Silver Moon Marten to launch the Replication Talent.

Beast: Silver Moon Marten

Bloodline Talent: Inferior

Speed Talent: Elementary

When he saw this talent, Ye Tian was really shocked.

Fierce beasts mainly rely on bloodlines to evolve, just like human cultivation talents, if there is no strong bloodline, there is no way to become a powerful beast.

The Silver Moon Marten is only a second-class bloodline talent, according to the realm, the Silver Moon Marten is at most equivalent to the initial stage of the warrior, but it can easily hit a warrior, and even the Wind Wolf Captain in the late stage of the warrior feels tricky, relying on its other talent – the speed talent.

The Silver Moon Marten with the speed talent turned into an incomparably terrifying beast, otherwise the ordinary low-level fierce beast was on the same level as the warrior, where could it withstand the siege of so many warriors.

At this time, once Ye Tian, who had already copied the speed talent, fused the speed talent, his future speed would far exceed that of the same level, and it was no longer a dream to cross the level and fight.

“Go home!”

Ye Tian ran back in the direction of home.

Back at home, Ye Tian and his sister had dinner and returned to the room alone, ready to try to fuse talents.

“Under normal circumstances, other talents other than cultivation talents need to be slowly awakened at the warrior level, but my replicating talent can break this rule, and it should be safe to fuse speed talents.” Ye Tian estimated the way.

“Leave it alone, fusion!”

Ye Tian bit down on a piece of cloth and began to fuse.

Rumble!!!!

The pain that was second only to the fusion of medium cultivation talents poured into his mind, and Ye Tian, who had been mentally prepared earlier, had to bear it completely.

After ten minutes, the pain disappeared and a feeling of refreshment surged into my heart.

Ye Tian knew that he had successfully fused the speed talent.

With a thought on his part, he checked his talent.

Human: Ye Tian

Cultivation Talent: Medium

Speed Talent: Elementary

Due to being too tired, coupled with the previous attack of the fierce beast, under the exhaustion of his heart, Ye Tian gradually fell into a deep sleep.

The next morning, Ye Tian couldn't wait to come to the academy grove.

At this time, there was no one here.

"Try the speed talent!"

Ye Tian immediately unleashed his speed talent, and his body moved, rushing into the distance like a remnant.

"So fast!"

Ye Tian was shocked.

After testing again and again, he was finally sure that his speed had increased by three times, and that just the primary talent allowed him to have such a speed, almost comparable to the speed of an ordinary warrior, and as his cultivation increased, his speed would naturally become faster and faster.

"According to legend, human beings with multiple talents are the darlings of heaven and earth, and if this is the case, I can probably fight most of the martial practitioners with only one primary speed talent, so I am afraid that it will not be long before I can fight with the warriors!"

Ye Tian was excited.

But he also knew very well that the true root was still cultivation, and if there was no strong cultivation support, no amount of talent would be in vain, and it would be difficult to compare with the truly strong ones.

“I still have a month to replicate the new talent, and the goal of this month is to refine my body and impact 300 pounds of power!” Ye Tian set himself a small goal.

With the goal, Ye Tian’s cultivation worked harder.

Moreover, he also initially revealed to the other students that he could cultivate the Forging Body Method, after all, many students at the same time as him were also able to cultivate, but he did not attract much attention.

In addition to cultivation, Ye Tian also checked the talents of the entire Fifth Academy students, but there was basically no good talent, except for Chen Dong, the best talent was only a junior talent.

Soon a month passed, and Ye Tian reached the small goal as he wished, with 300 pounds of strength.

“The speed is still too slow, if only I could increase my cultivation speed faster!”

Ye Tian sighed.

On the way out of the academy, a voice came: “Ye Tian, wait for me!”

Ye Tian looked back and found that it was Zhang Bao, so he stopped.

“Ye Tian, have you become a martial artist?” Zhang Bao asked in a low voice.

“Yes!”

Ye Tian nodded, it is not difficult to become a martial artist, this is nothing to hide, as long as he does not disclose that he has three hundred pounds of strength.

“Ye Tian, do you want to improve your cultivation faster?” Zhang Bao asked hurriedly.

“Do you have a way?” Ye Tian was shocked.

“Have you ever heard of the blood of a fierce beast?” Zhang Bao said.

“Of course I heard it!”

Ye Tian nodded, his parents were also warriors, and naturally knew a lot of things from their parents that ordinary people didn’t know.

The blood of the fierce beast contains powerful energy, and if you take the blood of the fierce beast when cultivating the Forging Body Method, it can accelerate the refining of the body.

Unfortunately, his parents were gone, and there was no way to get the blood of the beast.

“Ye Tian, our talent is not too good, if we cultivate step by step, we will have the hope of being promoted to the level of a warrior when we are old, but with the blood of a fierce beast, it will be different, maybe when we are 20 years old, we will be able to step into the level of martial artists, and then even if we are limited by talent, we will not be able to improve our cultivation, but we can also live a good life by relying on the strength of our martial artists.” Zhang Bao said.

“That’s right, but we can’t get the blood of the beast!”

Ye Tian said helplessly.

He also wanted to get the blood of the beast, but there was no way to do it!

“Ye Tian, we have a good relationship, I’ll tell you.” The five major colleges of the Linhai Base were preparing to open a trial, and the high-level people of the Linhai Base had opened up a small wild area in the wilderness, and the fierce beasts inside had all been killed, leaving only some fierce beasts, the beasts of prey were the descendants of the fierce beasts, and the cultivation could not reach the level of the fierce beasts, and even ordinary people in the martial realm could deal with them with weapons. Once you kill the beast, take

the valuable things from the beast in exchange for the blood of the beast, and I heard that the first place also has a reward of intermediate beast blood. Zhang Bao said, and he became envious.

Intermediate Beast Blood!

Ye Tian was also moved, the intermediate fierce beast was a powerful fierce beast that only elite martial artists could kill, once he had the blood of the intermediate fierce beast, he would have the hope of becoming a martial artist in half a year.

“How do you know?”

Ye Tian frowned, he hadn't received any notice!

Zhang Bao said triumphantly, “I know an old student who has 500 pounds of strength, and listening to what he said, it's just that this trial is a bit dangerous, so the academy didn't notify the students who have just become martial artists.” ”

“Ye Tian, the benefits of fierce beast blood, I know better than you, my talent is not good, but some time ago, my parents spent most of their savings to buy a low-level fierce beast blood, and now I have become a martial artist by relying on the blood of low-level fierce beasts, your talent is better than mine, once you have the fierce beast blood, the absorption effect is better, and the cultivation speed is faster.” Let's sign up together, organize a group to test, and definitely hope to get a piece of beast blood! Zhang Bao said seductively.

“Zhang Bao, you didn't just invite me, did you?” Ye Tian asked.

“Of course, there is more than one invitation to you, we have just stepped into the martial arts, if we don't hold the group, how can we compete with those powerful martial artists?” I've asked for eight martial artists, and they've all agreed, and it's up to you! Zhang Bao showed a look that was definitely right with me.

“I’m sorry, I don’t really want to form a group!”

Ye Tian refused.

“Okay then!”

Zhang Bao showed regret and turned away.

He just asked, Ye Tian refused and refused, anyway, Ye Tiancai had just become a martial artist, and it was of little use.

However, what Zhang Bao did not expect was that Ye Tian did not refuse to participate in the trial, but simply did not want to form a group.

“The trial may be an opportunity for me!”

Ye Tian murmured.
