

I CAN COPY TALENT

Chapter 9

“Beast Spotted Snake!”

Ye Tian stared at a two-meter-long giant snake five meters away in front of him, this snake strength is not strong, ordinary apprentices can deal with it, as long as they are not entangled by the spotted snake, once they are entangled, even a martial artist with four or five hundred pounds of strength cannot break free.

Swish!

The spotted snake swooped over and launched an attack on Ye Tian.

Ye Tian didn't dodge, with his speed talent it was too easy to try to dodge the spotted snake, but it was not necessary.

Boom!

As soon as the sword flashed, the figure of the spotted snake froze, fell to the ground, struggled for a while and died.

If you look closely, you can see that the seven inches of the spotted snake have been cut, which was cut by Ye Tian's knife.

“Too weak!”

Ye Tian shook his head.

Immediately, he removed one of the eyes of the spotted snake, which was one of the items required by the trial, proving that he had killed a spotted snake and could be exchanged for 1 point.

It is said that there was a fierce beast giant snake in this small wild area, and these beasts were the bloodline descendants of the fierce beast giant snake, and one day several elite warriors joined forces to kill this fierce beast giant snake, and then cleaned up other fierce beasts in this small wild area, making this place a small wild area.

This gossip was revealed by the teacher on the road, and the authenticity is unknown.

In the blink of an eye, most of the day has passed, and the night is about to fall.

“I haven’t gained much today!”

Ye Tian opened the bag and counted carefully, and the various beast materials were equivalent to 23 points.

For the average student, these points are very good, but they are far from being able to compete for the top three, and even the top ten is difficult to enter.

Night is very dangerous, because human eyes are affected by the night It is difficult to find some beasts, so it is best not to hunt beasts at night, otherwise it is easy to be hunted by beasts.

There are basically only beasts of prey on the tree, but as long as you are careful and pay attention to the surrounding environment, it is not easy to be attacked by the spotted snake.

Even if the spotted snake came, Lin Tian’s reaction and speed were enough to deal with it.

A night without words.

The next morning, Ye Tian roasted a rabbit and continued to hunt the beast.

At this time, he headed deeper into the Ono area, because only the deeper part of the Ono area had more powerful beasts, and hunting one was equivalent to five or six points, which was far easier to earn more points than the periphery.

“Help!”

“Who will save us?”

A sparse cry for help reached Ye Tian’s ears.

At the same time, it was accompanied by a series of wolf roars.

“Someone has encountered a pack of wolves?”

Ye Tian Dark Road.

After thinking about it for a moment, he sped away in the direction of the wolves.

It wasn’t that he wanted to save these people, but that the wolf beast was worth points, especially the tooth wolf, which was worth 10 points, which was far more cost-effective than hunting ordinary beasts.

After a while, Ye Tian came to an empty place, not far away, about a dozen tooth wolves were besieging seven or eight practitioners, and there were several corpses lying on the ground.

“Zhang Bao!”

Ye Tian saw one of them, it was Zhang Bao, who had a good relationship with him.

However, at this time, Zhang Bao was very embarrassed, with blood on his body, his face was also very white, holding an empty bow and constantly waving, obviously he was at the end of the road.

For the encounter of Zhang Bao and others, Ye Tian felt very normal.

After all, Zhang Bao and the others were too weak, even if there were more than a dozen people in a group, they really encountered a more powerful beast, and this number of people was just delivering food.

Ye Tian already knew that this group of people had no hope of obtaining the blood of the fierce beasts, but he didn't say it explicitly, after all, everyone had that little desire in their hearts.

Holding the bow, Ye Tian aimed at a toothed wolf and shot an arrow.

Poof!!!

The arrow shot into the body of a toothed wolf, but unfortunately the shot was deflected, did not hit the key point, but also injured the toothed wolf.

"Wow!!!"

The tooth wolves spotted Ye Tian and rushed towards Ye Tian.

Not far away, Zhang Bao and the others also saw Ye Tian who was coming, and originally lit up a glimmer of hope, but after seeing it clearly, it was full of despair.

Zhang Bao knew Ye Tian and knew Ye Tian's strength, just like him, he had only entered the martial arts.

"Ye Tian, run fast, these tooth wolves are not something you can deal with!" Zhang Bao shouted.

"This fat man is not bad, he doesn't want to bother me!" Ye Tian's heart was warm, and he really wanted to save them.

If Ye Tian exploded with full strength, he would be able to kill these tooth wolves in a short period of time, but that would undoubtedly expose many problems.

"Keep it a little longer!"

Ye Tian Dark Road.

The strength of the Tooth Wolf was very strong, not weaker than the strength of four or five hundred pounds of martial artists, if he were to touch it hard, Ye Tian would undoubtedly suffer some losses.

As a result, Ye Tian gave full play to the sharpness of the sword technique and a little speed.

He maintains 1.5 times the speed of these tooth wolves, and with a talent for medium knife skills, he can accurately grasp the timing and issue a fatal knife at a critical moment.

Burst!!!

The blade slashed through the neck of a toothed wolf, killing him with a knife.

No matter how the Tooth Wolves attacked Ye Tian, Ye Tian always seemed to have the ability to foresee, and he was always able to dodge.

And every time he made a knife, he would inevitably take the life of a toothed wolf!

After a while, there were already more than a dozen tooth wolf bodies lying on the ground, but Ye Tian's body was also stained with some blood, which was the blood of the tooth wolf.

"Are you all right?"

Ye Tian put away his knife and looked at Zhang Bao and the others.

"Didn't... Affair! "

Zhang Bao's pupils widened, his throat swallowed his saliva, and he stuttered.

"I killed these tooth wolves, I took the wolf teeth, don't you mind?" Ye Tian asked in a deep voice.

"Don't mind!"

A group of people shook their heads.

Where did they dare to mind, such a ferocious tooth wolf pack was actually killed by Ye Tian alone, their lives were saved by Ye Tian, even if they had no brains, they would not be able to say the requirements of dividing the wolf teeth!

Wolf's tooth is the only proof to hunt tooth wolves!

Of course, Ye Tian didn't need to take away all the wolf teeth, just the two largest front teeth of the wolf wolf.

A dozen wolf teeth, wolf teeth collected together, enough for a large bag.

Fortunately, Ye Tian's strength was 300 pounds, and this little thing was nothing on his back.

"Give you a piece of advice, or go out as soon as possible, with your strength it is difficult to get the reward of the blood of the beast, don't lose your life, there is only one life, and the blood of the beast will still have a chance to get it later!" Ye Tian persuaded.

After speaking, Ye Tian was ready to leave.

At this time, Zhang Bao's expression changed a little, "Ye Tian, with your strength and the wolf teeth obtained this time, it should not be a problem to obtain a copy of the blood of a fierce beast, but you should want a good rank, I have a message, I don't know if I should tell you?" "

"Speak!"

Ye Tian said curiously.

"A pseudo-fierce beast spotted snake appeared in Ono District, and the students of the First Academy went to hunt down that spotted snake, and that spotted snake is worth 500 points!"

Zhang gritted his teeth and said.

He didn't know if revealing the news to Ye Tian was good or bad, but he said it anyway.

“What, pseudo-ferocious beast-spotted snake!”

Ye Tian was completely shocked.

What's more, he was attracted to that 500 points.

If you get the eyes of the pseudo-fierce beast spotted snake, the first place in the trial is stable.
