Chapter 1021: Crushing Them One By One

Swoosh!

Within the passageway, the heavy layer of Azuresoul Baleful Qi receded completely like the tide, causing Chen Xi's field of vision to open up, and it revealed a dark and dense expanse of figures.

At the front of the group were numerous ascenders, and the person in the lead was Xiao Yun, whereas a group of guards that wore black armor were behind them. There were over a hundred guards in the group, and all of them revealed ferocious expressions as they roared and cursed furiously without end.

However, when they saw the tall figure that stood alone in the distance, all of their voices stopped abruptly while their footsteps stopped as well.

"Chen Xi! This fellow is Chen Xi! Haha! He's actually still alive!" Xiao Yun was slightly stunned before he started roaring with laughter. But as he spoke, he withdrew to the back of the group instead. It couldn't be helped, he was deeply aware of Chen Xi's strength.

This fellow is Chen Xi?

All the ascenders looked at Chen Xi with gazes that carried a wisp of a complicated expression.

Presently, they'd already inferred that they were captured and brought to this Azuresoul Mine because they'd been dragged down into the matter by this young man before their eyes. So, they could be said to be innocent and have been treated extremely unjustly, and they couldn't help but arouse resentment and hatred in their hearts.

But when they thought of how the Heavenly Immortal Huang Xin and the Five Poison Calamity Mist weren't able to do anything to this young man, they felt both fearful and terrified, causing their feelings to become slightly complicated.

"Oh, it was this little fellow that killed Lord Huang Xin?"

"How could that be possible? He surely utilized some sort of underhanded method to kill Lord Huang Xin!"

"Haha! The heavens and helping us. Since we've encountered him, we'll capture him and seek merit from Lord Wei Zheng!"

All of the guards revealed savage expressions while they criticized Chen Xi from head to toe.

"Quickly! All of you ascenders, quickly go kill this person! So long as all of you complete this task, then we'll let all of you leave!"

One of the guards swung the iron whip in his hand as he commanded loudly.

We'll be able to leave if we kill him?

The eyes of all the ascenders lit up while the gazes they shot at Chen Xi carried a wisp of ruthlessness.

Chen Xi was sizing these people up all this time, and he couldn't help but shake his head when he saw this. "Everyone, all of you were captured and brought over here as well. Could it be that all of you intend to help the wicked perpetuate their crimes and go against me?"

When he spoke up to here, his figure straightened up while his eyes erupted with brilliant lights, and his entire body emanated a dazzling and resplendent radiance while his dense aura started rumbling. He was like an ancient Fiendgod that had awakened from its slumber, and his might was horrifying.

"Besides that, do all of you think that these bastards will let all of you go after you kill me, Chen Xi? Just think about it, all of you have even seen the Five Poison Calamity Mist, so they'll only silence all of you with death in the end and not allow any one of you to leave!" His voice was deep like thunder as it rumbled by the ears of everyone that was present here, and it was a voice that struck directly at the heart.

Everyone that heard this revealed a grim expression because Chen Xi's words were exactly what they were worried about.

"Now, follow me and kill these bastards, and perhaps you'll have a chance to survive. Might I ask all of you, are you willing or not!?" Chen Xi's gaze was like a bolt of lightning that swept past the faces of all the ascenders.

All of them were stunned. Kill our way out?

Instantly, all of them thought in their hearts. Right, since Chen Xi was able to kill Huang Xin and wasn't afraid of the Five Poison Calamity Mist, he probably has some sort of trump card. So there really might be a chance of killing our way out if we fight by his side.

"Don't listen to his nonsense. Don't forget that we only fell to such a state because we were dragged down by this fellow. Only by capturing him would we have the chance to escape!" Xiao Yun instantly cried out with a grim voice when he saw this. "Think about it, there are three more Heavenly Immortals that have condensed the energy of the Laws and a great Mysterious Immortal outside. Do all of you think this fellow is a match for them?"

As soon as these words were spoken, it was as if a bucket of cold water had been poured on all of them, and it completely extinguished the impulse in their hearts.

Because it was just as Xiao Yun had said. There was a Mysterious Immortal holding down the fort outside. As an ascender, Chen Xi had probably not even condensed the energy of the Laws yet, so how could he be a match for a Mysterious Immortal?

A Mysterious Immortal was one that had surmounted the barriers of the three mysteries and was a terrifying existence that has completely grasped the heavenly, earth, and vitality souls!

The gap in their cultivation realms caused a Mysterious Immortal to be capable of crushing all Heavenly Immortal Realm experts.

Chen Xi's eyes narrowed and were sharp like a blade as he gazed coldly at Xiao Yun. For the sake of killing me, this fellow actually didn't hesitate to delude the others to deal with me. He truly deserves death!

When facing Chen Xi's gaze, Xiao Yun started smiling with complacency as his lips parted slightly, and he said without a sound, "You're dead!"

Slap!

The resounding sound of an iron whip tearing through the sky resounded as a guard shouted explosively with impatience. "Bastards! I advise all of you to be obedient and kill this fellow right now! Otherwise..."

He hadn't finished speaking when Chen Xi had moved out boldly. His shoulders lowered slightly as strands of Immortal Shaman Energy surged madly within his arms, and then a blazing glow that was like the glow of a myriad of stars suffused his palms. Moreover, these myriads of stars seemed to intend to leave his palms and fly off.

Bang! Bang! Bang!

Numerous large and ancient palm prints soared through the sky. At this instant, Chen Xi had swung out a few tens of Grand Astral Palms.

Every single one of the Grand Astral Palms he executed this time contained terrifying Shaman Energy that surged like an ocean while numerous profundities circulated within the palm and condensed into stars, causing it to seem like palms that the stars converged at.

Most terrifying of it all was these numerous Grand Astral Palms actually stacked up onto each other and were superimposed like the Myriad Netherwave Palm. They were like wave after wave of enormous waves that whistled out and seemed to intend to crush the surroundings.

Bang!

The guard that spoke earlier seemed as if he'd been struck by a thunderbolt, and he was blasted into pieces with a crack. Blood and flesh flew into the surrounding sky as he perished on the spot.

This was merely the beginning.

In the next moment, the Grand Astral Palms that smashed out like layer upon layer of violent waves had already charged into the group of guards in an all-powerful manner. Everywhere it passed, severed limbs shot into the sky, rains of blood erupted, and shrill cries echoed out without end. There was actually no one that could withstand a single blow of Chen Xi's!

This was absolute domination.

The damp and dark passageway wasn't large to begin with, and now that it was filled with the Grand Astral Palms, it seemed like a torrent that charged through a tunnel. Everywhere his might pointed at, it was as if there was no resistance standing before him!

In merely an instant, he'd annihilated forty six guards, heavily injured thirty seven, and merely another twenty one of them were completely unharmed and still standing!

However, the guards that were completely unharmed were terrified to the point their entire bodies stiffened since a long time ago. Their legs shivered while their souls almost left their bodies, and they seemed as if they'd seen a ghost.

The atmosphere had suddenly become deathly silent, and only the gurgling sound of blood and the dense smell of blood was woven within the silence.

All the ascenders had their eyes wide open while their jaws almost dropped to the floor.

Chen Xi hadn't acted against them this time, otherwise merely this strike would absolutely be able to almost annihilate all of these ascenders.

Bang!

Right at this moment, Xiao Yun let out a shrill cry while he was stomped to the ground by Chen Xi, causing blood to spray from his mouth, yet he was unable to struggle at all.

"It's only a group of Earthly Immortal guards, yet they were able to force all of you Heavenly Immortals to act like prisoners. It's truly pitiable!" Chen Xi stopped attacking while his gaze swept past everyone, and his voice was like a sharp blade that fiercely pierced into the hearts of every single ascender, causing their expressions to change indeterminately.

"Our storage magic treasures were seized, so we don't have any Immortal Stones to cultivate and replenish our Immortal Force. Thus, we're exhausted and fatigued. How could we possibly be a match for these guards?" Someone refused to accept this criticism and argued loudly.

"Yeah, if we possessed sufficient Immortal Stones and recovered our strengths, then even if we didn't condense the energy of the Laws, we would be able to easily annihilate these Earthly Immortal Realm bastards!" The others chimed in.

Chen Xi casually withdrew a storage pouch. "This is filled with Immortal Stones. If all of you think what I said was an insult, then make the best use of your time to recover your strength, and then..."

He raised his hand and pointed at those guards that were still alive and said, "Then kill them and let me see if all of you really possess such courage!"

The eyes of all the ascenders lit up when they saw Chen Xi toss out a storage pouch of Immortal Stones, and they couldn't refrain themselves from revealing a wisp of excitement. However, they couldn't help but hesitate when they heard he wanted them to kill these guards.

They were very clearly aware that if they did this, then it would be equivalent to standing entirely on the other side of Wei Zheng and the others. So once they returned to the surface, they would surely encounter all sorts of trouble.

But if they didn't do this, then they might be killed by Chen Xi on the spot!

"Don't, don't listen to him. Could it be that all of you aren't worried about Lord Xiong Ming's revenge if all of you act in this way?" The guards howled hysterically.

Some guards even turned around and fled towards the passageway that led outside.

"Kneel!" Chen Xi grunted coldly while a vertical eye opened up in the space between his brows, and then it shot out a strand of the Light of Eradication, causing the space within the passageway to be completely sealed off. After that, he slapped out with his palm, causing thumps to resound out

continuously as all those guards had their knees shattered no matter where they'd fled to, and they knelt on the ground while letting out a wave of miserable and shrill howls of pain.

One of the ascenders suddenly cried out when he saw this. "Alright! I agree to charge out with Fellow Daoist Chen Xi! Motherfucker! The worst thing that could happen is only death!"

"What's your name?" asked Chen Xi.

"Yue Zhongshi!"

"Alright, some of the Immortal Stones in this storage pouch belong to you!" Chen Xi waved his hand and tossed the storage pouch over.

Yue Zhongshi was overjoyed and said, "Thank you, Fellow Daoist Chen Xi!"

The other ascenders stopped hesitating when they saw this, and they moved forward successively and expressed their willingness to slaughter their way out of the passageway with Chen Xi.

Chen Xi didn't make it difficult for them. However, he made them kill those guards with their own two hands before they could obtain the Immortal Stones to cultivate, and everyone acted according to his will.

In next to no time, all of the guards had been executed one by one, and the state of their deaths was extremely horrifying.

It couldn't be helped, those ascenders had accumulated a bellyful of resentment and hatred since a long time ago, so how could they not vent the resentment and hatred in their hearts when they had such a chance?

"I... I'm willing as well." On the ground, Xiao Yun was terrified, and he said anxiously, "Fellow Daoist Chen Xi, Lord Chen Xi, please, I beg you. Spare me. I guarantee that that I'll surely reward you heavily once I leave this place, and I'll absolutely not go back on my word!"

Chen Xi lowered his head to look down at Xiao Yun while a wisp of a piercingly cold arc curved up onto the corners of his mouth. "Everyone else can, but only you can't."

Xiao Yun's face suddenly turned pale when he heard this, and he howled hysterically with rage. "Chen Xi, my backup is about to arrive. So you'll be unable to escape death if you kill me now!"

Chen Xi remained unmoved as he said indifferently, "Once your backup arrives, the first person they deal with will probably be me, right?"

Crack!

Chen Xi's voice had just finished resounding in the air when he exerted force with the tip of his foot, and he easily crushed Xiao Yun's neck while being gazed at by Xiao Yun's terrified and despaired gaze.

All the other ascenders felt extremely lucky in their hearts when they saw this, and they were clearly aware that if they didn't comply with Chen Xi's conditions earlier, then they would probably end up just like Xiao Yun.

“Everyone, make the best use of your time. Our enemies might have already noticed the unexpected event that has occurred here...” Chen Xi raised his head while his deep gaze seemed to have already gazed towards the area outside this passageway.

Chapter 1022: Confrontation

It was deep into the night, and the gleam of dawn was about to break through the darkness.

When they heard a wave of miserable cries faintly sound out from within the depths of the passageway before it went completely silent, Wei Zheng, Lou Feng, and Xue Kun’s expressions became extremely gloomy and heavy.

“They’re probably all dead.” Lou Feng frowned as he spoke with a heavy voice.

“That might not be the case. Perhaps those ascenders and that kid are still alive.” Wei Zheng muttered.
“Looks like we’ve underestimated the ability of that kid once more.”

“I’m going to take a look.” Xue Kun gritted his teeth while revealing a savage expression. “Perhaps some sort of unexpected circumstances of occurred in the depths of the passageway.”

“There’s no need.” Wei Feng stopped him with a grim voice. “Could it be that you want to follow in Huang Xin’s footsteps? If you don’t intend to die, then stay here obediently!”

Xue Kun’s face turned grim as he stared at Wei Zheng, and he roared in a low voice. “Then what do you think we should do?”

“What we should do? It’s very simple. It wouldn’t be too late to kill that kid once he emerges from the passageway.” Wei Zheng had recovered his calm, and his gaze was deep and suffused with a wisp of bright light. “Let me ask all of you. If that kid really possesses the strength to defeat us, then would he hide in the depths of the passageway forever?”

Lou Feng was stunned and said, “But Huang Xin died at his hands.”

Xue Kun roared with fury. “Stop mentioning Junior Brother Huang Xin!”

“That might have been an accident, or it might be that he really possesses the ability to annihilate a intermediate-stage Heavenly Immortal that has condensed the energy of the Laws. But after all is said and done, he still hasn’t dared to step out of the passageway. This can only mean one thing, he knows that he isn’t a match for all of us, so he can only stay within the depths of the passageway and seize the opportunity to improve his strength.” Wei Zheng’s sole eye was suffused with a deep, cold, and ghastly glow. “It’s common knowledge that no matter how extraordinary the natural talent of an ascender is, it’s utterly impossible to condense the energy of the Laws within a short period of two days. So if he intends to rely on his strength to defeat us, then it’s utterly impossible to be done in a short period of time.”

Lou Feng and Xue Kun feel into deep contemplation when they heard all of this.

“So we can’t give him anymore time to improve his strength. Moreover, for the sake of preventing any mishaps from occurring, what we should do now isn’t to enter the passageway but to force him out of the passageway!” Wei Zheng said coldly, “In this way, we’ll be able to see with our own two eyes exactly

what ability this kid possessed. Even if we aren't a match for him, don't forget that Lord Xiong Ming has always been holding down the fort here. Under these circumstances, do you think that kid will have any chance of survival?"

Lou Feng's eyes lit up while he clapped and said, "That's the best plan."

Xue Kun grunted coldly and said instead, "Force him out? How laughable! Even the Five Poison Calamity Mist was unable to do anything to that damnable bastard!"

"Then we'll just destroy this passageway!" Wei Zheng replied without the slightest hesitation, and his voice revealed a ruthless tone. "So long as we're able to eliminate all future troubles, then losing some Azuresoul Sourcerocks is nothing. Even if Lord Xiong Ming finds out, he wouldn't say anything about it."

Lou Feng and Xue Kun glanced at each other and didn't speak any further.

"If both of you agree, then let's take action right now. Daybreak is almost here, and we can't delay any longer." Wei Zheng raised his head and glanced at the deep and dark night sky.

...

Bang!

A wave of violent shaking suddenly arose within the passageway, causing rocks to collapse and dust to suffuse the air.

All the ascenders that sat cross-legged on the ground with Immortal Stones in their hands while recovering their Immortal Force were affected by this, and they were abruptly jolted awake from their meditation and were slightly bewildered.

"Looks like they were unable to restrain themselves any longer as well, and they intend to destroy this passageway to force us out." Right at this moment, Chen Xi's voice resounded, and it caused the expressions of all the ascenders to go grim.

They were countless of kilometers beneath the ground, so if the passageway were to be destroyed, it would be extremely difficult for them to return to the surface.

It was even to the extent that their lives might be in danger!

After all, this passageway was filled with Azuresoul Baleful Qi, and none of them would be able to persist without sufficient Immortal Stones.

Only Chen Xi had a rather calm expression as if he'd expected this.

"There's no time to lose. Let's go!" Chen Xi instructed them yet didn't be the first to leave, he turned around and walked towards the wall instead before bringing Mu Linglong out.

Actually, there wasn't any need for Chen Xi to instruct them at all. Once everyone found out that the passageway was about to be destroyed, they didn't have any intention to stay here at all. All of them immediately flashed madly towards the exit with anxious expressions, and they were deeply afraid that they would be buried here alive if they were a step too slow.

“How could they do this!? Didn’t they agree to help you? All of them have fled as fast as they can, so how will they be able to be of help?” Mu Linglong’s brows couldn’t help but knot together, and she was extremely angry.

“I never placed any hope on them being of any help. I only gave them Immortal Stones to recover their Immortal Force because I just didn’t want them to help the enemy. Not to mention numerous lines of defense have probably been set up in this passageway, so how could they possibly be able to escape?” Chen Xi chuckled as he flashed swiftly towards the exit of the passageway with Mu Linglong.

“Aren’t you worried they’ll turn around and deal with you instead?” Mu Linglong spoke with worry.

“They killed many guards and have found out about the Five Poison Calamity Mist, so do you think the enemy will allow them to live?” Chen Xi had a calm expression and a deep gaze as he said, “If these ascenders aren’t mad, then they’ll absolutely not go against me again. Conversely, they might even have to rely on my strength to escape in the end.”

Mu Linglong was stunned while her clear eyes glowed, and she couldn’t help but feel admiration amidst her sudden understanding.

Ten minutes later, when Chen Xi and Mu Linglong returned to the surface, they saw those ascenders that arrived here before them were standing outside the passageway with heavy expressions as if they’d encountered a great enemy.

Standing right opposite them was Wei Zheng, Lou Feng, and Xue Kun, and they completely blocked off everyone’s path of retreat.

Rumble!

Meanwhile, the passageway collapsed completely and emitted rumbling that was like muffled thunder while dust and smoke suffused the air. The ground in an area of 5,000km quaked violently as well.

But no one paid any attention to all of this.

No matter if it was the ascenders or Wei Zheng’s group, the gazes of everyone had descended onto Chen Xi in unison.

“Looks like my subordinates were killed by all of you.” Amidst this silence, Wei Zheng spoke abruptly while his sole eye swept coldly past all of the ascenders like a blade. In the end, his gaze descended onto Chen Xi before it erupted with a brilliant glow that was suffused with strands of the Laws, and then he said with astonishment, “The eighth level of the Earthly Immortal Realm in body refinement?”

As soon as these words were spoken, it wasn’t just those ascenders that were stunned, even Lou Feng and Xue Kun were stunned, and they felt slight disbelief.

It was truly impossible to imagine that a body refiner at the eighth level of the Earthly Immortal Realm could possibly break through the barriers of the heavens and the earth to ascend into the Immortal Dimension!

“Interesting, truly interesting. No wonder Immortal Monarch Lin Hao would order your capture. A tiny Earthly Immortal was actually able to ascend to the Immortal Dimension and kill Huang Xin who was at the intermediate-stage of the Heavenly Immortal Realm. Moreover, you were unafraid of the threat the

Five Poison Calamity Mist posed. I'm truly slightly curious. Could it be that you carry some sort of precious treasure in your possession?" Wei Zheng's eyes narrowed as he spoke slowly.

A precious treasure!

Everyone was stunned before a wisp of sudden understanding suffused their eyes. Only this explanation seemed to be perfectly logical and reasonable, otherwise it would be too strange and absurd.

Chen Xi's expression remained unchanged when facing all of this, and he sent a voice transmission to Mu Linglong with a low voice. "That Mysterious Immortal might make a move later, so be careful."

Mu Linglong mumbled in acknowledgement.

"Who cares about whether he possesses a precious treasure? Everything will be completely revealed once we kill him." Xue Kun gnashed his teeth and said, "We can't let any of these ascenders off either. They actually dared to help this kid kill those subordinates of ours. They're simply looking for death!"

The expressions of all the ascenders turned grim when they heard this, and the trace of hope in their hearts was completely extinguished.

Someone couldn't refrain himself from sneering loudly. "All of you despicable pieces of trash. Not only did all of you intentionally plot against ascenders, you even refined a restricted treasure like the Five Poison Calamity Mist. If news of this were to be spread, all of you can dream of surviving!" "Exactly. If we're able to escape this time, I'll surely notify my Ancestor to announce this matter throughout the entire world. At that time, even the Immortal Monarch will be unable to save all of you!"

"Right, let's fight with them to the death. They actually dared to order us about like slaves, so we absolutely can't allow them to get away with it."

The other ascenders roared furiously as well.

They'd obtained Immortal Stones from Chen Xi while they were in the depths of the passageway, so even though their Immortal Force hadn't recovered completely, they already possessed the strength to do battle. Coupled with their numbers and that they'd already shed all pretenses with Wei Zheng and the others, they naturally wouldn't be afraid.

"How laughable! Do all of you think you'll be able to escape today?" Lou Feng sneered gloomily while his thin and ruthless face was filled with disdain. "All of you are all a group of trash that haven't condensed the energy of the Laws. Would anyone find out about what happened today if all of you are killed?"

The expressions of everyone sank because they were indeed afraid of this.

"Just the three of you are probably unable to accomplish this." Chen Xi spoke calmly.

"Hmph! An ant at the eighth level of the Earthly Immortal Realm in body refinement actually dares to speak so boastfully? Truly laughable!" Xue Kun's eyes were bloodshot as he stared fixedly at Chen Xi and didn't conceal his dense killing intent at all.

"Is it laughable? Could it be that you've forgotten how Huang Xin died?" Chen Xi spoke casually.

As soon as Huang Xin was mentioned, Xue Kun's entire chubby face suddenly turned savage as it warped, and his killing intent shot into the sky while he was on the verge of going berserk.

However, right at this moment, a heavy and murderous voice suddenly resounded from the distance. "If the three of them aren't able to do anything against you, then what if you include me?"

Accompanying this voice was a robust and tall figure that strode through the night sky and floated over.

"Lord Xiong Ming!" Wei Zheng and the others were stunned before they bowed solemnly. They seemed to have never imagined that Lord Xiong Ming would be alarmed to the point of coming over here personally before the battle had even started.

The expressions of all those ascenders instantly became extremely unsightly when they saw Xiong Ming arrive.

Even though they were already clearly aware since the beginning that they would surely be unable to avoid the obstruction of a Mysterious Immortal this time, they still felt an extremely heavy and oppressive feeling when they really faced Xiong Ming.

A Mysterious Immortal! A Mysterious Immortal was one that had surmounted the barriers of the three mysteries and was a terrifying existence that has completely grasped the heavenly, earth, and vitality souls! Even though he was only a single person, his strength was sufficient to easily annihilate all of them.

It was the enormous gap in their cultivation, and it aroused despair in the hearts of all like a chasm that was impossible to surmount.

Amidst this bleak atmosphere, Chen Xi raised his head while he gazed at Xiong Ming from afar with a calm gaze, and the corners of his mouth raised slightly and revealed a wisp of a mysterious smile as he said, "If you are included, then one more bastard is going to die today."

His voice was calm yet was like a thunderclap that shocked everyone to the point they almost didn't dare believe their ears.

Chapter 1023: Setting his Sights On A Mysterious Immortal

Bastard!

When Chen Xi's voice resounded through the air, the expressions of everyone that heard it became extremely stiff.

Bluntly saying that killing a Mysterious Immortal was like killing a bastard would be something that was logical if it was spoken by a Golden Immortal.

But when it was spoken by a body refiner at the eighth level of the Earthly Immortal Realm, it was a form of disrespect, and it was reckless arrogance!

It was precisely because of this that everyone was astounded, and they were even shocked and felt disbelief.

“How audacious!”

“How arrogant! You’re simply seeking for death!”

“Damnable little bastard. Just these words alone are cause for your tendons to be plucked out, skin to be peeled off, and bones to be burnt before your ashes are scattered so that you’ll never be able to have a proper burial!”

Before Xiong Ming could reply, Wei Zheng, Lou Feng, and Xue Kun had exploded with rage and berated endlessly with grim voices.

Especially Xue Kun, the Immortal Force in his body erupted, and he’d already intended to make a move and annihilate Chen Xi.

But right at this moment, Xiong Ming suddenly waved his hand instead, causing all of them to withdraw themselves before he swept his gaze towards Chen Xi and started laughing from extreme rage. “Good, very good! How many years has it been? You’re the first person that has dared to speak like this to me!”

His voice was deep, and it rumbled and howled through the world like a thunderclap. It shook all the ascenders to the point their ear drums buzzed while their hearts shook, and their expressions changes indeterminately.

“Don’t think too highly of yourself.” Chen Xi’s expression remained unchanged.

“Could it be that you think you’ll be able to escape from my hand with the help of these pieces of trash?” Xiong Ming took a deep breath to calm himself down while he tried his best to maintain a bearing that belonged to an expert at the Mysterious Immortal Realm.

Trash!

When they heard these words, the expressions of all the ascenders became even more unsightly. However, they could only endure it forcefully because they didn’t dare act rashly when facing an expert at the Mysterious Immortal Realm.

“You’re wrong. I don’t intend to escape today, I intend to level this place.” Chen Xi corrected Xiong Ming with a calm expression that was without the slightest fluctuation, and his casual appearance turned into an expression that was extremely arrogant and haughty in the eyes of others.

“Level this place...” Xiong Ming repeated Chen Xi’s words as if he’d heard an extremely absurd joke, and he had a strange expression while he felt slight suspicion about whether the tiny ant before him had gone mad.

“My Lord, this kid overestimates his ability. Why don’t I personally capture him and hand him over to you to deal with him?” Xue Kun couldn’t restrain the killing intent in his heart any longer, and he loudly made a request to be allowed to make a move.

“There’s no need. Leave this kid to me. All of you just have to wait at the side.” Once he decided to make a move, Xiong Ming became calm instead, and his tone was calm while he said unhurriedly, “Right, don’t kill those ascenders for now. I want them to personally witness how one who dares to go against me dies!”

“Of course, all of you better stay there obediently. Otherwise, don’t blame me for not warning all of you if any mishaps occur.” As he spoke, Xiong Ming glanced coldly at all the ascenders.

Even though it was merely a gaze, yet it was icy cold like a blade, and it struck them to the point they felt horrified to the point their will to fight almost crumbled.

They turned around to glance at Chen Xi before they glanced at Xiong Ming, and they revealed struggling and indeterminate expressions.

Obviously, even if they’d decided to fight by Chen Xi’s side and didn’t have any path of retreat to choose from at this moment, they still didn’t look favorably upon Chen Xi.

Chen Xi only shook his head when facing this scene, and he didn’t say anything because there was no need for him to do so.

The reason was that he didn’t hope that these fence-sitters would be able to help him at all, and it was fortunate enough if they didn’t assist the enemy.

“Come, Little Fellow. Let me see exactly who gave you the audacity to dare speak like that to me!” Xiong Ming roared with laughter while his tall figure shook, and then the vital energy in his body linked up with the heavens and was suffused with strands of dazzling and verdant energy of the Laws.

In an instant, an extremely terrifying pressure enveloped every single inch of space in an area of 500km, causing the bodies of all the ascenders to tremble while they felt a chill run down their spines.

Wei Zheng and the others revealed a wisp of admiration and complacency instead. How could the Mysterious Immortal Realm be something these ants that have just ascended understand?

Chen Xi’s eyes narrowed when facing this, but he suddenly started laughing.

In the next moment, everyone felt something flash before their eyes, and the Chen Xi had actually vanished!

What happened?

Bang!

Right when everyone hadn’t reacted to what had occurred, a vast, dazzling, and powerful aura suddenly stretched out. It was like the awakening of a primeval ferocious beast that had been in slumber for countless years, and the abundant and terrifying vital energy was like a pillar of smoke that shot into the nine heavens!

It just happened that it was right at this moment that a strand of the first ray of sunlight tore through the veil of the night and poured down, and it completely dispelled the darkness in the world.

After that, everyone saw that Chen Xi’s tall figure was still standing on the spot. As the sunlight shone down from behind him, it caused his appearance to be indiscernible, and only his snow white teeth flowed with a strand of cold light.

A tall figure, fluttering long hair, a handsome appearance, and a tranquil and extraordinary bearing. He was still the same person, yet at this moment, everyone clearly noticed that Chen Xi had changed, and it was as if he'd become a completely different person.

His entire body was suffused with blazing divine radiance and flickered with brilliant Immortal Force. Moreover, his body was suffused with strands of dazzling light that was sometimes verdant and luxuriant, sometimes completely red like fire, sometimes sharp like liquid gold, sometimes yellow and dense like the earth...

It was the energy of the Laws!

When they noticed this scene, all the ascenders were shocked to the point their eyeballs almost fell out of their sockets. How did this Chen Xi instantly become a qi refiner at the Heavenly Immortal Realm who'd condensed the energy of the Laws from a body refiner at the eighth level of the Earthly Immortal Realm!?

On the other hand, the expressions of Wei Zheng, Lou Feng, and Xue Kun turned grim in unison. As Heavenly Immortal Realm experts, they were naturally able to discern that the energy of the Laws that coiled Chen Xi's body were thick, powerful, condensed, and seemed to have been tempered thousands of times in a furnace, causing them to reveal a perfect, flawless, pure, and bright aura!

Especially when there were an entire five of these Laws!

How could this be possible?

Didn't this fellow just ascend two days ago? How could he possibly condense the energy of the Laws in such a short period of time? Moreover, it's even five types of Laws?

"It's this fellow again. It was he who killed Huang Xin within the passageway that day... Oh, wait, he's still Young Master Chen Xi, and that Young Master Chen Xi who possesses a cultivation in body refinement is probably his clone." The nearby Mu Linglong's clear eyes were glistening brightly like gems, and she instantly came to a complete understanding as she gazed at Chen Xi's tall and mighty figure.

"This is your true ability that you used to kill Huang Xin, right? What a miraculous clone cultivation technique. But after all is said and done, you're only at the initial-stage of the Heavenly Immortal Realm, so do you think you have any chance of winning?" Xiong Ming's gaze was brilliant as he sized Chen Xi up, and he was slightly shocked before his expression was replaced with a cold and proud expression. As a Mysterious Immortal, he naturally had the qualifications to not take Heavenly Immortals seriously.

As soon as these words were spoken, the expressions of Wei Zheng and the others finally eased up greatly. But the gazes they shot at Chen Xi carried a wisp of what seemed to be a feeling of luckiness. They seemed to feel that they were lucky to have not impatiently made a move against Chen Xi.

Clang!

A sword howl shot into the sky.

As Chen Xi held the Talisman Armament, his imposing aura changed once more. It was fierce and murderous while peerlessly brilliant Sword Insight caused him to seem like a god that looked down upon the world from amidst the clouds, causing the hearts of all the tremble violently.

This scene caused the expressions of everyone present in the surroundings to go pale.

This sort of deep and thick Immortal Force and battle intent that was fierce and murderous simply didn't seem like something an expert at the initial-stage of the Heavenly Immortal Realm could possess. Even if it was a Heavenly Immortal that had attained perfection in the Four Pools of heavenly Origin, it was still extremely rare. Perhaps only a Mysterious Immortal realm expert was capable of possessing such thick Immortal Force, otherwise, the Dantian might be blasted apart from it.

"Is a Mysterious Immortal so very difficult to kill?" Amidst his indifferent voice, Chen Xi took a stride forward in the sky, and it was like the rumble of a heavenly drum that shook through the heavens and the earth. At the same time, the Immortal Force within his body surged madly while his Blackhole World drummed like a heart, and the Black Tortoise image within the ocean of Immortal Force emerged to the surface of the ocean before it roared towards the sky.

Bang!

Immortal Force that surged to the extreme poured into the Talisman Armament, causing a sword light that was coiled by a wisp of blazing flames to slash down at Xiong Ming like a wave of flames that could reach the heavens.

When this strand of Sword Qi that contained the Laws of Fire was combined with Chen Xi's grandmaster level cultivation in the Sword Dao that could transform the mundane into extraordinary, the might it emanated could practically incinerate the world!

This strike vividly portrayed the profundities of fire, and it completely displayed the might of the Laws!

At the same time, this was the first strike Chen Xi had executed since he advanced into the Heavenly Immortal Realm and condensed his own energy of the Laws!

"The Laws of Fire? Let me see if your Laws of Fire are stronger or if my Laws of Wood stronger!" Xiong Ming's face sank, and his figure flashed before this sword strike could slash down. His hands fluttered in midair before he lightly pointed out with a finger.

Om!

The ground in an area of 500km suddenly cracked apart before strands of verdant long vines surged out madly from within. They were numbered in the thousands and covered the heavens and the earth as they whipped madly at Chen Xi like numerous winding vines.

Slap!

The green vines tore through the sky and caused circle after circle of ripples to undulate from the impact while space fluctuated violently. Countless green vines stroke down violently, causing the heavens and the earth to be warped, and the earth was covered in the scene of flying rocks and shattered plants.

All the ascenders and Wei Zheng's group had noticed the situation was bad since a long time ago, and they dodge far away to the side.

Bang! Bang! Bang!

The flaming sword light and collided with the thousands of green vines, and they emanated a wave of violent explosions like hot oil that had entered into a wok of water. The light of flames surged as expanse after expanse of green vines were incinerated.

But there were too many vines, they covered the heavens and the earth and actually completely wore away the might of this sword strike. But at the same time, the vines were completely transformed into ashes that drifted through the heavens and the earth as well.

Neither side gained the upper hand in this collision!

The pupils of Wei Zheng and the others dilated when they saw this, and they were dumbstruck. They didn't dare believe that Chen Xi who was at the initial-stage of the Heavenly Immortal Realm was actually able to go head on against Lord Xiong Ming who was at the Mysterious Immortal Realm without falling into a disadvantageous position!

The figures of all the ascenders even stiffened while they revealed stunned expressions. They originally thought that even if Chen Xi survived, he would at least be heavily injured. How could they have imagined that the outcome would be that Chen Xi was on par with Xiong Ming?

But right after that, their hearts were filled with excitement. If it wasn't for their fear of Wei Zheng and the others, they would have almost been unable to refrain themselves from cheering for Chen Xi.

"I never expected that you would actually be able to resist sixty percent of my strength. You can be considered to be an extraordinary figure amongst Heavenly Immortals. Unfortunately, a Heavenly Immortal is only a Heavenly Immortal in the end, and you're only like a mantis trying to stop a chariot when facing a Mysterious Immortal!" Xiong Ming's imposing aura became even more ferocious as he stared icy coldly at Chen Xi, and an expression of surprise flashed within his eyes before it was replaced by a wisp of killing intent that was dense to the point it seemed material.

Chapter 1024: A Battle Of Two Realms

What?

Sixty percent of his strength?

When they heard that Xiong Ming had just used a mere sixty percent of his strength, the excitement all those ascenders felt instantly dispersed greatly, whereas Wei Zheng and the others revealed a wisp of complacency instead.

That's a Mysterious Immortal, how could a Heavenly Immortal possibly go against one?

Bang!

Right when Xiong Ming's voice finished resounding through the sky, he suddenly took a step forward, and he punched without the slightest shred of hesitation.

"Heavenlock Vines!" At the instant this punch was struck, a strand of dense Laws of Wood grew madly, and it coiled within his fist and transformed into a myriad of vine whips that carried a shocking pressure as they swept towards Chen Xi.

Crack! Crack!

Space rumbled violently while sharp and deafening explosions resounded.

Needless to say, Xiong Ming deserved to be called a Mysterious Immortal because as soon as he made a move, his imposing aura was like that of a ferocious god. His fist transformed into wooden vines that contained extremely violent energy of the Laws and were terrifying to the extreme.

“Slash!” Chen Xi’s expression remained unchanged when facing this, and his sword move change. It transformed from fire to metal, and the peerlessly sharp, dazzling, and resplendent Laws of Metal flowed on the surface of the Talisman Armament. It carried a murderous and fierce aura of obliteration as it moved to meet Xiong Ming’s attack head-on.

Bang!

The punch and sword collided, causing the entire heavens and the earth to suddenly start trembling violently while the rocks and hills that covered the ground were directly shattered into powder before transforming into ash that suffused the air.

Swish!

As the fluctuation of energy swept towards the surroundings, Chen Xi’s figure flashed as he utilized the Wings of Disruption, and he transformed into a wisp of flowing light while the Talisman Armament in his hand was suffused with a sharp light that seemed like liquid gold. He directly tore apart the fluctuation of energy before it struck straight towards Xiong Ming’s chest.

“Hmph!” Xiong Ming’s face sank when he saw his attack was broken open once more, and he grunted coldly as a verdant and thick verdant shield of light suddenly condensed at the center of his palm.

“Break!” Chen Xi shouted loudly and didn’t hesitate at all. The glow of the Talisman Armament was condensed and powerful to the limit as it surged out explosively. It pierced fiercely onto the shield of light and instantly caused the shield to shatter with a bang!

The might of the Talisman Armament in this strike had exceeded Xiong Ming’s expectations because this shield of light he condensed was sufficient to resist the full forced strike of a Mysterious Immortal Realm expert, yet it was extremely weak before the Talisman Armament.

“That’s a really good treasure. It’s actually slightly more formidable than an ordinary Immortal Artifact, but do you really think you can rely on it to defeat me?” Xiong Ming’s figure retreated to avoid the sharp light emanated by the Talisman Armament, and then his palm flipped before an extremely verdant and large wooden bell that was suffused with strands of horrifying fluctuations appeared there.

This was the Darkspirit Grade Immortal Artifact that Xiong Ming had refined himself — the Second-Wood Azuresoul Bell. It was a bell of boundless might that possessed the ability to control and annihilate souls!

Dang!

The wooden bell rang, its ring clear and melodious, and it caused circle after circle of verdant green light to ripple out towards the surroundings. The surrounding space seemed to have transformed into a surging green colored tide that actually caused Chen Xi to be forced to retreat a few tens of steps.

“Little Bastard, you can die without regrets from being able to force me to utilize the Second-Wood Azuresoul Bell!” Xiong Ming laughed in a savage manner while he formed seals with his hands, and then he pointed at the verdant wooden bell from afar.

Dang!

A rain of countless verdant arrows that were condensed from soundwaves covered the heavens and the earth as they surged out explosively from within the wooden bell.

The impetus of this attack was extremely terrifying, and if a Mysterious Immortal Realm expert were to be blasted by it, the expert would surely suffer the impalement of a myriad of arrows.

Bang!

The aura of the Talisman Armament in Chen Xi’s hand changed once more when facing Xiong Ming’s attack. It was vast like an enormous river, and it seemed like a stellar river that swept down from the heavens.

The Laws of Water, it accommodated all things!

Bang! Bang! Bang! Bang!

The rain of arrows that covered the sky collided with the vast Sword Insight, causing the sound of explosions to instantly fill the world, and terrifying fluctuations rumbled towards the surroundings like a storm.

Under this sort of fluctuations, Xiong Ming was shaken to the point of taking a few steps back, and he raised the Second-Wood Azuresoul Bell in his hand to form a veil of light before he was finally able to resist the fluctuation.

At the same time that Xiong Ming moved back, Chen Xi was forcefully blasted back a few tens of steps as well. But his aura didn’t weaken in the slightest, and it seemed to blaze more and more while his battle intent seemed to burn.

Presently, he’d just condensed the energy of the Laws of the five elements, and he needed to battle to his heart’s content to temper his strength.

The both of them exchanged numerous blows, each more dangerous than the last, and it caused all the spectators to be extremely shocked and feel suffocated.

Wei Zheng and the others had originally thoughts that so long as Xiong Ming made a move, then Chen Xi would surely be swiftly crushed. But never had they imagined that Chen Xi would actually be able to not fall into a disadvantageous position at all while in a battle where the gap in cultivation was so great.

This scene caused all of the ascenders to be excited and overjoyed in their hearts as they’d suddenly come to an understanding. No wonder Chen Xi dared to call Xiong Ming a bastard earlier and be completely unafraid of him. It turns out that his combat strength has far surpassed the cultivation he possessed!

But Xiong Ming’s expression was extremely gloomy instead.

An ascender that had just condensed the energy of the Laws was actually able to go head-on with him for a few exchanges, and if news of this were to spread, they he would surely die from being laughed at by his peers!

“Needless to say, you’re a freak indeed. With the combat strength you possess at this cultivation realm, it’s sufficient for you to be considered to possess extraordinary natural talent amongst your peers.”

“But since you’ve offended me, then you must die today!” Amidst his icy cold and low voice, Xiong Ming’s tall and robust figure was suddenly suffused with a strand of terrifying fluctuation while the energy of the Laws rumbled, and his Immortal Force drummed like a storm.

His hair, beard, nails, and even every single inch of skin on his body flowed with strands of verdant vines, and he seemed to have transformed into an enormous ancient tree that was coiled with branches and tendrils as it stood towering in the heavens and the earth. He seemed like the one and only ruler of the world while fluctuations of energy that seemed capable of controlling the world gradually stretched out, causing numerous ripples to erupt in space.

Dang!The Second-Wood Azuresoul Bell enveloped the space above his head and resounded with a clear ring, and it was suffused with a myriad of green and lustrous glows that caused Xiong Ming’s imposing aura to seem even vaster.

“What a formidable fluctuation of Immortal Force, is this the true strength that’s possessed by a Mysterious Immortal Realm expert?” In the distance, all of those ascenders sensed the terrifying fluctuation that stretched out from Xiong Ming’s body, and their blood seemed to have been frozen while their entire bodies went cold. Moreover, they felt terrified in their hearts and wished for nothing more than to turn around and flee.

It was too terrifying!

They were like ants before Xiong Ming, and a feeling of being small and powerlessness arose in their hearts. They felt as if they might lose their lives at any moment, and they were utterly unable to arouse the slightest thought of resisting.

“This damnable ascender’s actually able to force Lord Xiong Ming to exert his entire strength. There’s probably no need to watch the battle after this because this fellow will surely be crushed to death beneath this strike!” Wei Zheng’s sole eye revealed a wisp of a ghastly and cruel sheen when he saw this.

“This is the might of the Jadelight Immortal Soul from overcoming the first of the three barriers of mysteries, the Barrier of Heavenly Mystery! It’s might that belongs solely to experts at the Mysterious Immortal Realm. Coupled with Lord Xiong Ming’s Second-Wood Azuresoul Bell, this kid is dead for sure!”

“Looks like Lord Xiong Ming is completely infuriated and doesn’t intend to play with this kid any longer. He should have done this a long time ago. Since this kid was able to condense the energy of five Laws in a short period of two days, his natural talent is too shocking, and he must be annihilated as soon as possible, otherwise, he’ll surely become a great trouble in the future.”

Lou Feng and Xue Kun laughed coldly. Obviously, they felt that as soon as this move was struck, the outcome would surely be decided.

"I wonder if Chen Xi will be able to resist this sort of attack." In the distance, Mu Linglong's eyes were suffused with a wisp of worry because the attack this time might end this battle, and the outcome, life and death, would be decided!

At the same time in midair, Chen Xi similarly sensed a strand of terrifying pressure, and it was natural suppression of a realm and didn't come from one's strength.

This sort of pressured feeling caused even his soul to shudder. But it wasn't fear but excitement, and it revealed heartfelt yearning!

Other Heavenly Immortals would either temporarily avoid Xiong Ming's might or be utterly unable to continue fighting the battle. But Chen Xi was different, his foundation at the Heavenly Immortal Realm was too enormous, and it far exceeded all his peers.

Coupled with his combat strength obtaining a tremendous improvement after he condensed the energy of the Laws of the five elements, it was impossible to know who the final victor would be under these circumstances.

"Little Bastard, you don't have the chance to feel regret anymore!" Xiong Ming strode through the sky while he gazed at Chen Xi with a ghastly expression, and as he felt the surging energy in his body, a wisp of unparalleled confidence arose in his heart. Once this strike was executed, then not to mention a little fellow at the Heavenly Immortal Realm, even an existence that was at the Mysterious Immortal Realm like him would perish without a doubt!

As soon as he finished speaking, Xiong Ming took a step forward and howled as he flashed towards Chen Xi.

"Thousand Vine Dance, World Shatter!"

Bang!

Countless verdant vines shot out violently from Xiong Ming's body. Every single vine was 30km long, and they threw the sky into chaos, crushed the layer of clouds, and were like a myriad of whips that tore through the sky as they descended!

Bang! Bang! Bang!

At this instant, the heavens and the earth were in chaos. Whips fluttered about chaotically like an expanse of devils and demons while the energy of the Laws flowed, and it seemed to intend to lash the world into pieces and throw it into chaos.

As he gazed at the attack that came at him from the front, surging flames suddenly erupted from Chen Xi's eyes, and they blazed like two scorching suns.

The Talisman Armament in his hand seemed to have sensed Chen Xi's excitement, and it shuddered and howled by itself as an answer to its master.

Om!

Sword howls echoed out like waves in a tide. The pitch black and lusterless body of the Talisman Armament flowed with gorgeous and translucent divine radiances that were in the color of gold, green,

blue, crimson, and yellow. They circulated and wove together just like the circulation of the five elements, and the blazing and resplendent glow they emitted shot into the nine heavens!

Swoosh!

An extremely verdant and extraordinary strand of sword qi slashed out and charged into the myriads of vines, causing an expanse of them to shatter into bits. But this sort of attack couldn't be sustained for too long before it was completely drowned within the vines.

It actually merely caused Xiong Ming's attack to stop momentarily and didn't cause a heavy injury to it.

Swish! Swish! Swish!

Chen Xi wasn't surprised by this, and his gaze blazed even brighter while the Talisman Armament soared through the sky before he slashed his sword three more times.

The first strike was like a blazing sun that soared into the sky, and flames danced in the sky.

The second strike was like an ocean that converged together and sealed the world in ice.

The third stride was firm like metal, and it possessed peerless offensive might.

Bang! Bang! Bang!

Under numerous gazes of shock and terror, the two of them collided once more. The entire heavens and the earth seemed to have been blasted open by Immortal Force, and it transformed into a storm that swept through the entire sky while cracks spread open like spiderwebs on the ground.

In the collision this time, Xiong Ming's attack had actually been forcefully resisted head-on, and the both of them seemed to be in a deadlock and were caused numerous waves of shocking fluctuations to erupt.

Amidst the myriad of verdant vines, Xiong Ming's figure was barely perceptible, and his gaze couldn't help but slightly focus while a wisp of surprise flashed within them when he saw that his attack had actually been stopped. But right after that, the surprise in his eyes was replaced by a savage and ruthless expression.

If he didn't kill Chen Xi this time, then would he have any face to stand up in the Immortal Dimension?

"Die!" Xiong Ming suddenly roared with a low voice, and then the vines around his entire body erupted with blazing green light that enveloped the Second-Wood Azuresoul Bell that floated above him. They coiled together and seemed to form a verdant vine mountain before it shook abruptly.

Dang!

The ring of a bell resounded, and it shook the heavens and split the earth.

Chapter 1025: Five Element Sword Veil

Bang! Bang!

The heavens and the earth trembled as a fluctuation of energy that was terrifying to the point it was indescribable swept out like a thunderstorm.

Under the impact of such a terrifying force and under the astonished gazes of everyone, numerous cracks split open on the three extraordinary strands of sword qi that Chen Xi struck out earlier and they were on the verge of shattering.

Is he finally going to die? Wei Zheng and the others' spirits were raised, and they revealed complacent and ghastly expressions.

On the other hand, all those ascenders including Mu Linglong revealed bleak expressions and couldn't bear to watch.

"Little Bastard, remember this lesson. Don't be so ignorant when you're reincarnated in your next lifetime!" Xiong Ming roared with laughter while a ruthless expression flashed on his face, and then the Immortal Force in his entire body circulated as he intended to seize this opportunity to crush Chen Xi.

However, right at this critical moment, Chen Xi was still calm and unfazed. The surging battle intent in his eyes were completely replaced by an expression that was icy cold, merciless, and murderous.

Swoosh!

At this instant, the Immortal Force in his body was circulated to the limit. Powerful might rumbled throughout his body like a tide, and his entire body emanated boundless bright light while the Talisman Armament in his hand slashed down.

This strike was condensed, heavy, and like a lofty mountain that lay across the heavens and the earth. It possessed an imposing aura of holding down the world, and it was the aura of the Laws of Earth.

The Earth was represented by the trigram of Kun that was related to the ground. It was solid to the point of being capable of bearing the weight of all things and was the place all this were born, it was thick and boundless.

In terms of might, this sword strike was actually on par with the four sword strikes Chen Xi had executed before this. But when this sword strike was executed, a wave of strange rumbling suddenly resounded in space.

In midair, the three strands of sword qi that were originally on the verge of shattering suddenly condensed once more. It was even to the extent that the first strand of sword qi Chen Xi executed, the sword qi that contained the Laws of Wood, which was in the depths of the myriad of verdant vines had started to recover to its former state as well...

In the next instant, the dazzling and resplendent energy of the Laws of Fire, Metal, Water, Wood, and Earth were carried within the strands of sword qi as they shot through the sky and transformed into the five elements that acted in coordination with each other and circulated from afar.

Five strands of sword qi hung high above in the sky and formed a circulation!

This sort of terrifying phenomenon was sufficient to crush any Heavenly Immortal Realm expert, and it was even to the extent that Mysterious Immortal Realm experts would feel terrified by it!

The bodies of everyone that stood in the surroundings stiffened when they saw this scene, and they lost control of their states of mind while their eyes were filled with boundless shock. It was as if they were witnessing the birth of a dazzling miracle.

The expressions of Wei Zheng and the others froze. They asked themselves and knew that if this strike were to be directed at them, then they would die no matter how they resisted.

"This is..." Xiong Ming's heart shook while his confident and arrogant expression froze. For the first time, he felt the aura of a lethal threat.

"Die!" It was at this moment that Chen Xi's gaze became icy cold like a blade as he lightly spat out a single word, and it was like the decree of a god. At that instant, the five extraordinary strands of sword qi circulated as they transformed into a gorgeous screen of light that was formed from sword qi, and it completely enveloped Xiong Ming along with his attack.

Bang! Bang! Bang!

A wave of violent rumbling resounded like the eruption of a volcano or the sun and moon falling from the sky. The brilliant sword qi that were woven with the Laws of the five elements easily minced the myriad of vines into pieces, causing pieces of vines to fill the sky.

They were like five heaven ploughing blades, and nothing could stand in the way of these blades!

The Second-Wood Azuresoul Bell was struck to the point it shook violently, and its surface was covered in countless scars, causing it to dim down and lose the terrifying imposing aura it previously possessed.

Xiong Ming's expression was instantly replaced with a wisp of terror and shock. He was obviously unable to imagine that even his strongest attack would actually be unable to resist the sword qi Chen Xi executed.

"The Laws of the five elements forming a circulation! Dammit! How could his cultivation at the initial-stage of the Heavenly Immortal Realm possibly support such an enormous force? How...how...how could this be possible?" After he noticed all of this, Xiong Ming roared with disbelief. Even he who was a Mysterious Immortal had only grasped a single Law to perfection, the Law of Wood. But the tiny ant before him that had just ascended to the Immortal Dimension for a mere two days had actually completely condensed the Grand Daos of the five elements into perfect Laws of the five elements. Moreover, it had even formed a phenomenon caused by the circulation of the five elements. How could he maintain his calm before this?

It was even to the extent that as far as he was concerned, it was utterly impossible to execute such an attack with the Immortal Force possessed at the initial-stage of the Heavenly Immortal Realm!

Bang! Bang! Bang!

But no matter how much disbelief filled his heart, the might of the five extraordinary strands of sword qi that smashed down from the sky grew more and more terrifying, and it shook the Second-Wood Azuresoul Bell to the point of shaking violently, causing it to suffer a heavy injury and be on the verge of being impossible to sustain.

"How could an ant like you possibly defeat me?" Xiong Ming's expression was livid and grim while his eyes were bloodshot. An opponent that he originally thought to be easy prey actually showed signs of suppressing him at this moment, and it was truly impossible to endure for a Mysterious Immortal like him.

“Bastard! You must die today!” Xiong Ming roared angrily like a furious ferocious beast, and he grasped the Second-Wood Azuresoul Bell before slapping it repeatedly, causing circle after circle of seemingly material verdant soundwaves to erupt from it. Obviously, he intended to fight desperately with his life on the line!

Chen Xi’s expression was indifferent towards this, and he remained steady and without moving. Only the Talisman Armament howled as it controlled the sword qi of the five elements from afar and crushed down fiercely on Xiong Ming.

Bang!

The brilliant sword qi transformed into a five colored sword veil that covered the sky, and the Second-Wood Azuresoul Bell had just executed an attack when it was easily crushed. In the end, it was unable to withstand the might of the sword qi, and it was blasted flying with a bang.

On the other hand, Xiong Ming’s entire body had completely lost its defense, causing his expression to swiftly turn pale. He was just intending to dodge yet it was already too late, and his robust figure was directly enveloped within the five element sword veil.

“How could this be possible!? How could an any at the initial-stage of the Heavenly Immortal Realm defeat me?! No!!!” Xiong Ming’s terrified, furious, and frustrated howl rumbled out from within the five element sword veil, yet no matter how he struggled, he was actually unable to struggle free from it.

Pu!

A muffled bang resounded before Xiong Ming’s voice stopped abruptly. After that, under the focused view of numerous astounded gazes, a scarlet red wave of blood shot out in midair and dyed the sky red!

The Mysterious Immortal Xiong Ming had fallen!

“Lord Xiong Ming!”

“How could this be possible!?”

“No!”

Wei Zheng, Lou Feng, and Xue Kun’s faces froze, and they were practically overwhelmed with terror while their expressions were extraordinarily colorful. They truly didn’t dare believe that Lord Xiong Ming who possessed a cultivation at the initial-stage of the Mysterious Immortal Realm would actually lose at the hands of an ascender that had just ascended into the Immortal Dimension two days ago...

Even those ascenders were stunned, and they were shocked speechless.

Who could have imagined that a fellow at the initial-stage of the Heavenly Immortal Realm would actually kill a formidable Mysterious Immortal? If news of this were to spread, then it would probably cause a great commotion in the Immortal Dimension, right?

The atmosphere instantly became deathly silent, and only the dense smell of blood enshrouded the air.

"Now, are the three of you going to do it yourselves, or should I end your lives?" It was amidst this deathly silent atmosphere that Chen Xi's gaze swept towards Wei Zheng and the others, and his indifferent and calm voice revealed a wisp of mercilessness.

The expressions of Wei Zheng and the others turned grim as they recovered from their shock, and they understood the situation they were in.

"Damnable bastard! Do you think you've won? If I'm not wrong, then the battle from before has already completely exhausted your strength. You're only an empty frame now!" Wei Zheng gritted his teeth and berated in a grim voice.

Even though he said all of this, he didn't dare make a move rashly because he'd been overwhelmed with terror from the scene that occurred moment before.

"It's surely like that. No matter how heaven defying your combat strength is, your cultivation is too weak in the end. At this moment, you're obviously putting on a show because if you had the ability to kill us, then would you waste your breath?" The nearby Lou Feng spoke in a ghastly tone.

Actually, both of them said this to probe Chen Xi, and they would instantly flee for their lives if they sensed anything wasn't right. Of course, if it was as they'd expected, then they would absolutely not let go of this superb opportunity to annihilate Chen Xi.

Xue Kun didn't say anything, yet his eyes lit up while the gaze he shot at Chen Xi already carried a wisp of ruthlessness. Obviously, he felt that Chen Xi's strength was completely exhausted as well, and it was impossible for Chen Xi to sustain himself in battle any longer.

Chen Xi's expression remained unchanged when facing this, and he just stared at the three of them with icy cold gazes as if he was staring at three corpses.

Their guesses weren't wrong. His battle with Xiong Ming had completely exhausted the Immortal Force within his body. But they had utterly not imagined that with the Dark Parasol Sapling, it wouldn't take long before he would be able to recover.

At this moment, there was obviously doubt in their hearts. But because they were deterred from the might Chen Xi revealed when he killed Xiong Ming, they would absolutely not dare to rashly make a move at this moment, and this was precisely Chen Xi's opportunity.

But the development of the situation had caused Chen Xi to be bound to not have to make another move.

"Fellow Daoists, let's attack together and kill these three bastards!" Suddenly, an ascender cried out loudly.

"Exactly! Fellow Daoist Chen Xi has already helped us deal with the greatest problem. Now, it's time for us to make an effort as well!"

"Cut the crap! Let's kill these bastards! I've fucking had enough of them!"

At this moment, all the ascenders recovered from their shock, and when they saw that Wei Zheng and the others still dared to speak wildly at this moment, they instantly roared loudly before swarming over.

All of them were great figures in the Mortal Dimension, and they originally thought they could freely cultivate upon arriving at the Immortal Dimension. Never had they imagined that they would be captured and reduced to slaves in a mine as soon as they arrived in the Immortal Dimension. Moreover, they became slaves that didn't dare flare up no matter how they were cursed at or put to work, and they'd accumulated a belly full of rage since a long time ago.

At this moment, when they saw Wei Zheng and the others had lost their greatest reliance, how could all these ascenders restrain themselves?

Even mu Linglong gritted her white teeth as she charged forward. Even though she didn't know how to fight, the Spiritvoid Illusion God Steps she possessed were peerlessly miraculous to the point that even Chen Xi exclaimed endlessly with admiration towards it. As soon as she moved forward, she completely sealed off Wei Zheng's groups paths of retreat, yet she only trapped them and didn't attack, and this won an opportunity for those ascenders.

"How dare all of you!"

"Dammit! All of you damnable bastards actually dare to make a move against us!?"

Wei Zheng and the others roared endlessly with rage when the battle erupted. Unfortunately, they were quickly drowned by those ascenders and frequently let out miserable shrill cries.

Even though these ascenders hadn't condensed the energy of the Laws, they won in numbers. There was an entire sixty plus of them, and all of them were ferocious figures that had fought their way through the Mortal Dimension, causing every single one of them to possess abundant combat expression. Wei Zheng and the others were utterly unable to resist their joint forces.

Coupled with Xiong Ming's death having crushed Wei Zheng, Lou Feng, and Xue Kun's will to fight and Chen Xi glaring fiercely at them like a tiger from the side, the three of them were bound to lose.

When he saw this, Chen Xi knew that there wasn't any need for him to make a move any longer, so he put away the Talisman Armament. In the next moment, he started to sort the spoils of the battle.

Xiong Ming controlled the entire Azuresoul Mine, so how could the wealth he possessed be tiny?

Amongst the four requirements of cultivation, wealth, companions, technique, and location, wealth was ranked at the first. Most importantly, it was also extremely important to Chen Xi who'd just arrived at the Immortal Dimension.

[Talisman Emperor](#)

Chapter 1026: The Four Great Immortal Kings

When he ascended into the Immortal Dimension, the only treasures in Chen Xi's possession that could be utilized in an exchange were a pile of Immortal Stones that amounted to over a few thousand in number. Perhaps this was already an extraordinary amount of wealth in the Mortal Dimension, yet it was barely able to purchase an ordinary Immortal Artifact in the Immortal Dimension.

So if he wanted to gain a foothold here, he required formidable strength, and if he wanted to gain formidable strength, it couldn't do without a supply of wealth.

Chen Xi who'd experienced countless tempering and had forcefully killed his way into the Immortal Dimension was naturally clearly aware of this principle.

Most importantly, Xiong Ming was a Mysterious Immortal that controlled the entire Azuresoul Mine, so how could the wealth in his possession possibly be tiny ?

Reality was exactly as Chen Xi had expected, and it even exceeded his expectations. When he found the storage ring in Xiong Ming's corpse and opened it to take a look at its contents, he couldn't help but exclaim with shock in his heart.

8,000 Immortal Stones that were neatly arranged, over 5,000 fist sized Azuresoul Sourcerocks, a high-rank Ordinary Grade Immortal Artifact Bluerain Blade, and a Darkspirit Grade Immortal Artifact, the Second-Wood Azuresoul Bell.

There were also some scattered immortal materials of great value within the storage ring, and if they were converted into Immortal Stones, then they would at least be worth around 3,000 Immortal Stones.

Chen Xi had once plundered the storage magic treasure that belonged to Huang Xin, yet it only contained a mere 700 plus Immortal Stones and over 300 Azuresoul Sourcerocks. So, compared to Xiong Ming, the two of them were simply like a rich man and a commoner!

Chen Xi placed all the treasures he plundered from Xiong Ming's possession into the Buddha's Pagoda, and then he couldn't help but ponder deeply. I wonder if these Immortal Stones can be used to buy some immortal materials to refine the Talisman Armament...

The battle with Xiong Ming from before had allowed him to possess a deep understanding of his current combat strength, and he was very clearly aware that the reason he was able to win was due to two key points.

The first was that the deepness of his foundation far exceeded the scope of the Heavenly Immortal Realm.

The second was his grasp of the laws, and this was the main point. It could be said that if he hadn't condensed the five elements into Laws, then he might have perished in the battle.

Of course, if Xiong Ming had grasped another Law besides the Laws of Wood, then it would similarly be impossible for Chen Xi to be a match for Xiong Ming.

As for in terms of magic treasures and cultivation realms, Chen Xi was completely suppressed. For example, the Second-Wood Azuresoul Bell was a medium-rank Darkspirit Grade Immortal Artifact, and it firmly surpassed the Talisman Armament.

On the other hand, Chen Xi was only at the initial-stage of the Heavenly Immortal Realm while Xiong Ming was at the initial-stage of the Mysterious Immortal Realm and towered over him by an entire cultivation realm. Fortunately, these two shortcomings were made up for with the energy of the Laws he possessed and the denseness of his foundation. This allowed him to turn around a dangerous situation and annihilate Xiong Ming.

This obviously displayed how the depth of one's foundation and energy of the Laws was important in affecting one's combat strength.

It was precisely based upon such understanding that Chen Xi would intend to gather some immortal materials to refine the Talisman Armament once more. At the same time, he wanted to make the best use of his time to condense the Grand Dao profundities he'd grasped into the Laws.

At that time, when he encountered another Mysterious Immortal Realm expert like Xiong Ming, the battle would probably become much easier.

As for the improvement of his cultivation, it was absolutely not something that could be attained overnight, and Chen Xi didn't insist on being able to advance swiftly, and it was sufficient for him to move steadily step by step.

...

Besides the Mysterious Immortal Xiong Ming and the other four Heavenly Immortals, there were over a thousand Earthly Immortal guards residing here.

After those ascenders surrounded and annihilated Wei Zheng, Lou Feng, and Xue Kun, they still hadn't vented their hatred completely, so they moved their targets over to those guards.

On the other hands, those guards noticed the situation wasn't good and started to flee.

For a time, the entire scene was in complete disorder. The cries of battle, the shouts of escape, and miserable wails sounded out everywhere, and it seemed to be clamorous and chaotic to the extreme.

Amidst this expanse of chaos, no one noticed that Chen Xi and Mu Linglong had vanished from the scene.

...

Swoosh! Swoosh!

Under the clear blue sky, two figures were flying through the air.

Under the restraint of the Laws of the heavens and the earth in the Immortal Dimension, all flying magic treasures that were of lower quality than an Immortal Artifact would be restricted, and they were utterly incapable of flying in the Immortal Dimension.

So Chen Xi could only give up the treasured vessel and fly through the sky with Mu Linglong.

"Where're we going?" After they escaped the Azuresoul Mine, Mu Linglong's mood had obviously become very good. Her clear eyes were tender like water and bright like the stars, and her exquisite and white oval face was filled with smiles.

"We're returning to the Ascension Hall of course. We're going to make those two give us Immortal Tokens." Chen Xi spoke with a smile. Even though Immortal Tokens seemed to be of no great use, yet it made doing things in the Immortal Dimension convenient. Moreover, he intended to enter the Dao Emperor Academy, so he needed a clean proof of identity.

"Immortal Tokens? You really considered everything." Mu Linglong chuckled as she praised him.

Chen Xi smiled and asked. "What about you? Where do you intend to head to after we obtain Immortal Tokens?"

This question obviously caused Mu Linglong to be stunned, and she tilted her head and pondered for a long time before she curled her lips into a helpless expression in the end. "My understanding of the Immortal Dimension is extremely shallow, and I only know of the Midnight Continent. But I don't want to head to the Midnight Continent right now. Otherwise, I wouldn't have the chance to wander around the world any longer."

The Midnight Continent? Chen Xi's brows raised. He knew that the Immortal Dimension was extremely vast and practically boundless, and it was densely covered in 4,900 large continents.

A single continent had at least 80,000 cities and a myriad of living beings!

One could imagine how many cities there were and how vast the area they occupied was when the 4,900 continents were added together. Ordinary people were probably unable to wander throughout the entire Immortal Dimension in their entire lifetimes.

But amongst these 4,900 continents, there were four great continents that resided in the surroundings of the Immortal Court that were the most renowned. They were respectively the Valiant Star Continent, the Icesky Continent, the Profound Path Continent, and the Midnight Continent.

The reason these four continents were renowned was that every single one of these continents possessed a supreme Immortal King residing within it!

Moreover, these four continents were named after the title of these four Immortal Kings. They were respectively the Valiant Star Immortal King, the Icesky Immortal King, the Profound Path Immortal King, and the Midnight Immortal King.

Immortal Kings!

Kings amongst immortals!

In the entire three dimensions, there were only a mere four Immortal Kings, and this obviously showed how lofty this cultivation was and how monstrous the authority they possessed was.

Of course, Chen Xi was only aware of a few known details, and he wasn't aware of the exact situation. If it wasn't for the Dao Emperor Academy being located in the Valiant Star Continent and he'd heard Li Yang mention it during their idle chats, he wouldn't even know how many Immortal Kings resided in the Immortal Dimension.

On the other hand, when he heard that Mu Linglong actually wanted to head to one of the four great continents, the Midnight Continent, Chen Xi naturally couldn't avoid feeling slight surprise. According to his analysis, the powers that were capable of residing in the four great continents were the most terrifying existences in the Immortal Dimension.

Mu Linglong had ascended into the Immortal Dimension from the Mortal Dimension's Skyeath World. Could it be that she's related to one of the great powers in the Midnight Continent?

"Young Master Chen Xi, how about I follow you?" Meanwhile, Mu Linglong seemed to have suddenly thought of something, and her eyes glowed as she stared at Chen Xi. She said with a hopeful expression, "Haven't you just arrived at the Immortal Dimension as well? Can you bring me along when you leave?"

Chen Xi was stunned, and then he said, "I can, but..."

“But what?” Mu Linglong was instantly excited and extremely overjoyed when she saw Chen Xi didn’t refuse right away.

“But it’s slightly dangerous to follow by my side. Moreover, you don’t know how to fight, so I’m worried I’d drag you down with me.” Chen Xi thought for a moment and spoke seriously.

Mu Linglong revealed a sense of loss on her face and spoke with a dim expression. “So, it turns out that I’m still too useless.”

Chen Xi was slightly unable to bear this in his heart. He was very clearly aware that even though this young woman seemed to be an ascender, she was actually an inexperienced and ignorant young woman. She’d snuck out of her clan to ascend into the Immortal Dimension this time, so her origins were absolutely not ordinary.

But even if he disregarded all of this, he was really slightly worried to allow such a young woman to wander aimlessly through the Immortal Dimension by herself.

So he pondered briefly before he said, “Alright, you can follow by my side. But I’m going to the Valiant Star Continent and not the Midnight Continent.”

Mu Linglong’s spirits were refreshed when she heard that Chen Xi had changed his mind, and she swiftly said with a clear voice, “It’s fine, it’s fine to go anywhere. I’ll be at ease so long as I’m by Young Master Chen Xi’s side.”

Chen Xi was slightly stunned and asked. “At ease?”

“Yes, because Young Master Chen Xi is a nice person.” Mu Linglong spoke without any consideration.

Chen Xi rubbed his nose and was slightly dumbstruck. A nice person? This reason is really great...

“Right, Young Master, why’re you heading to the Valiant Star Continent?” Mu Linglong asked curiously.

“The Dao Emperor Academy.” Chen Xi didn’t conceal it from her.

“Alas, I knew it. I guessed that it was the reason. The Dao Emperor Academy is extraordinary, and it’s a cultivation paradise in the hearts of countless immortals. I heard my cousin brother say that not everyone in the Immortal Dimension can enter it.” Mu Linglong seemed to be lost in thought as she spoke.

Chen Xi was slightly surprised as he never expected that Mu Linglong would actually know about the Dao Emperor Academy as well. But when he asked about it in detail, he noticed that she only knew some general information about it, and she even knew less than he knew, so he immediately stopped asking her about it.

They chatted just like this, and the Ascension Hall was faintly within their fields of vision after a few hours had passed.

By the side of the grand building and the Immortal Transformation Pool that was coiled by Immortal Energy, the old man and thin middle aged man were still sitting upright behind the table.

Chen Xi couldn't help but sigh slightly with emotion when he saw this familiar scene. If it wasn't for the appearance of that Mysterious Immortal, Meng Xin, I would have probably obtained by Immortal Token and stepped on my path towards the Valiant Star Continent, right?

"Eh, it's the two of you." The middle aged man behind the table raised his head and noticed Chen Xi and Mu Linglong flying over, and he couldn't help but be stunned before he recognized them.

"Didn't the two of you..." The old man was stunned as well, and he spoke halfway before he shut his mouth.

When he saw their expressions, Chen Xi instantly guessed that the two of them were surely aware of where he and the other ascenders had been taken. But the two of them had never imagined that Chen Xi would actually be able to return.

However, Chen Xi couldn't be bothered to make a fuss about all of this. He directly tossed over a storage pouch and said, "Get two Immortal Tokens for us. There are two thousand Immortal Stones there."

The thin middle aged man and old man glanced at each other. Even though they were slightly surprised and bewildered, they still put the storage pouch away and took out two blank Immortal Tokens before they said, "May I know your names and origins?"

Chen Xi nodded to Mu Linglong and the latter said right away, "I'm Mu Linglong from the Skyearth World."

With a few flicks of the brush, the thin middle aged man had inscribed an Immortal Token and passed it over to Mu Linglong, and then he raised his eyes to look at Chen Xi with a questioning gaze.

Chen Xi thought for a moment and answered. "The Dark Reverie, Chen Xi."

"What!? You're Chen Xi?" Both of them were shocked while their entire bodies stiffened.

Chapter 1027: A Golden Immortal Arrives

Chen Xi's eyes narrowed while they swept past the thin middle aged man and old man like blades, and he didn't conceal his killing intent at all.

Being swept by this gaze caused both of them who'd just cried out in shock to seem as if they'd been doused with a bucket of cold water, and their entire bodies trembled while they felt a terrifying aura of danger, causing their voices to stop abruptly.

"Both of you recognize me?" Chen Xi spoke with an icy cold voice.

The events that had occurred at the Azuresoul Mine had only occurred a few hours ago, so the two of them had probably not found out about it so quickly. However, based on their reactions from before, they seemed to have heard his name a long time ago, and this was slightly strange.

After he recovered from his shock, the thin middle aged man couldn't help but get angry from the embarrassment he felt from being terrified to the point of trembling by a little fellow that had just ascended a few days ago, and he immediately said in an icy cold voice, "Presently, there's probably no

one in the Eastern Peace Continent that doesn't know your name! Because you're a villain that the Immortal Monarch's Estate ordered the arrest of!"

Slap!

As he spoke, he slapped the table and stood up before he shouted. "Chen Xi, quickly allow yourself to be captured! If you still refuse to realize your errors, then don't blame us for being merciless!"

"Since you had the intention to return here to obtain a Immortal Token, it proves that your inherent nature isn't bad. Now, perhaps you'll be able to avoid suffering of the flesh if you stay here obediently." The old man stood up with an icy cold expression on his face, and he revealed indifference that seemed as if he was looking down at a prisoner that was at their mercy.

This sort of attitude was simply exactly similar to the treatment Chen Xi encountered when he'd just arrived at the Ascension Hall a few days ago.

It seemed as if in the eyes of these two people, all ascenders could be ordered about and were like slaves that were at their beck and call and had to listen obediently to their orders.

This proved that they were really unaware of the incident in the Azuresoul Mine.

Bang!

Suddenly, a terrifying aura that was like an abyss stretched out from Chen Xi's body, and it was like a primeval ferocious beast had awakened in his body.

Bang!

The table was unable to endure the pressure of this imposing aura and transformed into bits that shot towards the surroundings. On the other hand, the figures of the thin middle aged man and old men were shaken as if a mountain was pressing down onto them, causing them to take numerous steps back while emitting resounding stomps, and their figures staggered as they almost fell to the ground. They were in an extremely sorry state.

Their countenance was already ghastly pale and filled with terror and disbelief instead. They seemed to have never imagined that after a short few days of time, this ascender would actually possess such a terrifying imposing aura.

After that, the thin middle aged man cried out sharply. "What are you thinking of doing? We're members of the Cloudray Sect. If you dare use force against us, then my Cloudray Sect will absolutely not let you off!"

Slap!

Chen Xi's expression remained unchanged as he raised his hand and swung it, causing a shapeless slap to strike fiercely on the middle aged man's face. It struck him to the point blood sprayed from his mouth and nose, and he fell to the ground while emanating a shrill cry that sounded like a pig that was being slaughtered.

"You... How audacious!" The old man was both shocked and furious as he shouted angrily with a grim voice. "Doing this will only cause you to fall into eternal damnation!"

Even though his voice was forceful, yet his attitude had already weakened.

“I’ll give both of you a chance to atone for your sins. Obediently tell me everything all of you know, and I’ll spare your lives.” As Chen Xi’s eyes blinked, strands of the Laws surged like bolts of lightning within them, and his gaze suddenly descended onto the old man as he said, “I’ll give both of you three breaths of time to consider.”

This sort of attitude was extremely domineering, and he didn’t give them the slightest room to maneuver, causing the nearby Mu Linglong to be extremely astounded in her heart.

But she really detested these two people, so she naturally wouldn’t speak on their behalf.

“How presumptuous!” The thin middle aged man stood up and stared resentfully at Chen Xi, and he was just about to speak yet was forcefully stopped by the old man.

After that, he looked at Chen Xi with a livid expression and said, “We’re only two nobodies that are in-charge of receiving ascenders, so we probably know very little about what you desire to find out.”

“It’s very simple. Tell me why I’ve become wanted in the Eastern Peace Continent for no reason or rhyme?” Chen Xi asked with an indifferent tone. Actually, he had a vague answer in his heart because since the time he’d killed Huang Xin, Huang Xin had said that all of this was done by the Immortal Monarch, Lin Hao.

It was even to the extent that for the sake of capturing him, Immortal Monarch Lin Hao had deployed numerous experts to capture all the ascenders that had just ascended into the territory of the Eastern Peace Continent, and he seemed to act ruthlessly as if he would rather kill a thousand innocents than let his target escape.

But Chen Xi was bewildered because he was utterly unable to figure out exactly when he’d incurred enmity with the Immortal Monarch, Lin Hao, and that was the reason why he’d asked this question.

“You...actually don’t know?” The old man was stunned, and he seemed to feel slight disbelief.

Chen Xi said coldly, “It’s I who is asking you the questions.” His voice carried a wisp of impatience.

“This was the order of Immortal Monarch Lin Hao. It was roughly a month ago when all the 86,000 cities in the entirety of Eastern Peace Continent received this order, and it was an order to capture all the ascenders that arrived in the Immortal Dimension during this period of time.” When he saw Chen Xi arouse a trace of killing intent, the old man’s countenance turned pale before he hurriedly said, “It was only a few days ago that we found out the reason Immortal Monarch Lin Hao had mobilized so many forces was actually for the sake of capturing you. We have no knowledge of anything other than that.”

Chen Xi’s brows knit together. Even though he’d guessed that it was impossible for the two of them to know everything with their status, he couldn’t help but be slightly disappointed when he heard the old man’s answer.

After he pondered deeply for a long time, Chen Xi said, “Forget it. I’ll spare both of you this time. Give me that Immortal Token.”

The thin middle aged man and old man heaved a sigh of relief in their hearts, and they understood that they’d temporarily escaped calamity.

But when they heard Chen Xi demanding for an Immortal Token, the old man's expression couldn't help but reveal shock as he said, "Fellow Daoist, even though an Immortal Token is of no great use, it's in compliance with the laws of the Immortal Dimension, so names and origins can't be written arbitrarily. If one does this, it's equivalent to abandoning one's identity as an Immortal, and it might cause a calamity of the Laws of the Heaven Dao to descend when one advance in cultivation!"

Chen Xi was stunned, and then he smiled spuriously as he said, "Do you think I would change my name to avoid Immortal Monarch Lin Hao's order?"

He was clearly aware that it was exactly as the old man had said. An Immortal Token couldn't be fabricated because it was equivalent to deceiving the energy of the Laws that circulated in the Immortal Dimension, and it wasn't tolerated by the Heaven Dao.

The old man smiled embarrassedly. "Of course not."

Meanwhile, the nearby Mu Linglong couldn't refrain herself from speaking. "That Immortal Monarch Lin Hao is too detestable. He actually disregarded his identity to make a move against Young Master Chen Xi and even ordered for Young Master's arrest in an entire continent. This is simply an act of bullying the weak, and it's despicable and shameless to the extreme."

The thin middle aged man and old man were stunned, and they gasped. This little girl is truly bold. She actually dares to bluntly criticize Immortal Monarch Lin Hao as despicable. This is truly a great disrespect! If news of this were to be spread, she wouldn't even know how she died.

Chen Xi laughed this off instead because this young woman was inexperienced, so she was naturally afraid of nothing and didn't fear anything.

"Hmph! How dare you not show respect to you elders!?" However, right at this moment, someone seemed to have heard Mu Linglong and suddenly let out a cold grunt. This voice was icy cold and carried bone piercing coldness, and it bore into their ears like an awl of ice, causing the old man and middle aged man to shudder while their faces turned pale.

When this voice entered into Chen Xi's ears, it caused his vital blood to roil, and he couldn't help but be shocked in his heart as he swiftly turned his head to look towards the distance.

Om!

Space tumbled about as a golden ray of light shot suddenly shot through it and moved directly over here. It was suffused with thousands of strands of auspicious qi and a myriad of strands of divine radiance, and it was like a fluttering rain of light that was brilliant and blazing.

After that, a rather handsome figure suddenly walked out from space itself. He stood on golden rays of light as he strode over, and he was like a god that had descended here.

This person wore snow white clothes, and he possessed slanted and sharp brows and starry eyes. His dense long hair was coiled into a bun behind his head, and it revealed a handsome face that was icy cold and proud. His entire body was like an unsheathed treasured sword, and it emanated cold lights that were extremely dazzling.

Merely this shapeless imposing aura shocked the old man and middle aged man to the point their entire bodies shuddered while their souls felt indescribable oppressed, and if it wasn't for them forcefully gritting their teeth and holding on, they would have almost fell to the ground.

A Golden Immortal!

Chen Xi's eyes focused as a wisp of a heavy expression appeared on his face. This person seemed to have merged with the heavens and the earth, and every single move the person made was accompanied by the Laws while he revealed an oppressive imposing might. This person was on par with King Chu Jiang, King Song Di, and the other Golden Immortals that Chen Xi had met in the past!

Why has a Golden Immortal been drawn here?

Could it be that he was sent by that Immortal Monarch Lin Hao to capture me?

Instantly, countless thoughts arose in Chen Xi's heart while his expression gradually became grim, and the nerves in his entire body became strained like a fully drawn bow as he felt extremely great danger.

"Be careful. I might not be able to take care of you later." Chen Xi swiftly sent a voice transmission to Mu Linglong.

He wasn't just unable to take care of her, even he didn't dare confirm if he would be able to escape if a battle erupted.

After all, it was a Golden Immortal!

A Golden Immortal had comprehended Brahma Qi that was capable of enveloping the universe and creating a new world, allowing a Golden Immortal to possess boundless ability. An existence at such a level was a central pillar and overlord in the Immortal Dimension!

Chen Xi had once spent time with Qing Xiuyi who'd comprehended the true essence of the Golden Immortal Realm, and he could be considered to possess an extremely deep understanding of the strength possessed by a Golden Immortal.

Mu Linglong was slightly stunned when she heard Chen Xi's voice transmission, and her lips arched up slightly while her expression was indescribable strange. She said embarrassedly, "Young Master Chen Xi, actually..."

Chen Xi frowned and was slightly displeased with Mu Linglong's reaction because it had already come to this, yet she was still unable to take prompt action.

Meanwhile, the handsome and icy cold young man in snow white clothes had already strode over to arrive before the hall, and his gaze flowed with a wisp of a cold light as he swept everyone that was present here. In the end, his gaze descended onto Mu Linglong as he said, "Why did you scold Immortal Monarch Lin Hao?"

As soon as these words were spoken, everyone was stunned because these words didn't have the slightest feeling of the words that would be spoken by someone that was denouncing the crimes of another. What's going on?

"I was almost killed because of him, so can't I scold him?"

To the astonishment of everyone, Mu Linglong was actually not afraid in the slightest, and she replied in an unconcerned manner. Her attitude and tone simply seemed like a young girl that was complaining about her displeasure.

The icy cold and handsome young man was stunned while a wisp of sharp and frightening light suddenly surged from within his eyes. "Really?"

Mu Linglong said angrily, "Why would I lie to you?"

The conversation between the two caused the old man and middle aged man to shudder with fear and feel their scalps go numb. Even Chen Xi wished for nothing more than to cover Mu Linglong's mouth and make her stop talking.

But in the next moment, Chen Xi and the others were utterly dumbstruck when they heard the young man's reply.

His brows knit together tightly as he went silent for a long time, and then he said with a slightly doubtful tone, "Is he looking for death?"

Chapter 1028: The Six Blazing Suns

He actually said an Immortal Monarch was looking for death?

The middle aged man and old man's mouths gaped while their eyeballs stuck out from their sockets, and they really wondered if they'd misheard.

They were only Heavenly Immortals, so not to mention a Golden Immortal or Immortal Monarch, they were respectful and reverent even when they met a Mysterious Immortal because they were deeply afraid of being disrespectful to the expert. How could they dare imagine that a Golden Immortal would dare to so casually judge an Immortal Monarch as someone who was looking for death?

This couldn't be described as just arrogance, and it was simply a great disrespect!

However, even though they thought like this in their hearts, they didn't dare display their feelings. It couldn't be helped, the young man was a Golden Immortal, and the number of experts in the Eastern Peace Continent who'd attained the Golden Immortal Realm could be counted on one hand.

On the other hand, Chen Xi was similarly shocked. But he quickly realized that based on the young man's relaxed and casual attitude, the young man was obviously not an arrogant and ignorant person, then this could only prove that the young man's origins allowed him to be unafraid of an Immortal Monarch!

"Right, he's looking for death!" Mu Linglong didn't notice Chen Xi's reaction at all, and she waved her tiny little fists as she spoke angrily.

"But what exactly happened? Linglong, tell me about it. If it's really that Immortal Monarch Lin Hao who bullied you, then we can absolutely not let the matter go like this." The white clothed young man frowned and pondered deeply before he spoke.

Linglong? When he heard this method of address, Chen Xi was finally sure that this young man who possessed a cultivation at the Golden Immortal Realm was definitely related to mu Linglong, and the young man hadn't come to capture him.

Reality was just like this. When she saw the young man actually seemed to intend to right the wrongs done to her, Mu Linglong's spirits were refreshed as she moved over to his side and swiftly explained everything that had occurred in the past few days.

During this entire process, the expression of the white clothed young man gradually turned icy cold.

"Cousin Brother Junlin, isn't it infuriating? They captured me for no reason or rhyme and even wanted to order me about like a mining slave. If it wasn't for Young Master Chen Xi's assistance, then I would have almost been killed by those bastards!" When Mu Linglong finished telling him everything, she was still slightly unable to restrain her rage and spoke angrily.

"Looks like I have to seek justice from Immortal Monarch Lin Hao this time!" The white clothed young man's gaze was piercingly cold, and his voice revealed a wisp of indignation that couldn't be restrained.

"Right, who's Young Master Chen Xi?" He raised his head and looked at Mu Linglong.

"Oh, I forgot to introduce him." Mu Linglong slapped her forehead and muttered with slight regret before she pulled Chen Xi's sleeve and said, "This is Young Master Chen Xi, and it's he who helped me to escape."

After that, she pointed to the white clothed young man and introduced him to Chen Xi. "This is my Cousin Brother, he's called Mu Junlin."

Only now did Mu Junlin's gaze descend onto Chen Xi, and he sized Chen Xi up briefly. When he saw Chen Xi was only at the initial-stage of the Heavenly Immortal Realm, he nodded to Chen Xi with an indifferent expression and didn't speak any further.

At this moment, Chen Xi finally come to an understanding, and it turned out that the white clothed young man was the cousin brother than Mu Linglong frequently mentioned.

He still remembered that Mu Linglong seemed to have heard some things from idle chats with her cousin brother, causing her to be unable to restrain her curiosity and snuck out of her clan to ascend the Immortal Dimension.

But never had he imagined that this cousin brother would actually be a Golden Immortal, and this had slightly exceeded his expectations.

As for the middle aged man and old man, they'd been shocked to the point of standing dumbstruck there, and they seemed as if they were slow-witted as they stood there silently with stunned expressions.

"Come, you caused all the seniors of the clan to be furious by sneaking out of the clan this time. If it wasn't because they were unable to extricate themselves due to the upheaval of the three dimensions, they would have probably come to get you themselves." Mu Junlin shook his head and glanced at Mu Linglong with extreme helplessness. Even though he spoke in this way, the depths of his eyes were filled with tender affection.

Mu Linglong stuck out her tongue before she suddenly shook her head and said, "That won't do, I want to go along with Young Master Chen Xi. I owe him a great deal, so how could I leave just like this? That would be too heartless and ungrateful."

Chen Xi was speechless. He was clearly aware that Mu Linglong had definitely not spoken in this way to repay his kindness, and she just wanted to wander about with him and was unwilling to return to her clan.

Right at this moment, he felt apprehension in his heart as he sensed an icy cold gaze descend onto him like a blade. When he raised his eyes to look over, he saw Mu Junlin was looking at him with a calm expression, yet it faintly revealed a strand of indifference.

"Isn't it simple if you desire to return the favor?" Mu Junlin spoke indifferently as he casually withdrew a snow white and silvery Immortal Sword that flowed with hazy immortal radiance. "This is a high-rank Darkspirit Grade Immortal Artifact. To an ascender at the initial-stage of the Heavenly Immortal Realm like you, it's sufficient to repay all the kindness you've shown her. Take it."

As he spoke, he casually tossed it towards Chen Xi.

This sort of casual attitude was very much alike to an action of granting a reward or giving out charity. Perhaps being able to obtain a Darkspirit Grade Immortal Artifact would surely cause others to be overjoyed and feel deeply grateful, but it caused Chen Xi to feel uncomfortable instead. Because he didn't have any desire for her to return the favor when he helped Mu Linglong, so he wasn't seeking anything, thus he naturally detested such actions of granting a reward.

Clang!

As he thought like this in his heart, Chen Xi's expression remained unchanged as he flicked his finger and flicked the Immortal Sword back, and then he said, "I appreciate your good intentions. As for this Immortal Sword, I'm not used to it, so please take it back."

Mu Junlin's eyes became cold as he grabbed the sword in his hand. He stroked it lightly while his expression became more and more indifferent and icy cold, and it even carried a wisp of displeasure as he said, "What do you want? Speak."

Chen Xi was infuriated as well, and he frowned as he said, "Do you think I helped Miss Mu because I coveted your treasures?"

When he saw a little fellow at the initial-stage of the Heavenly Immortal Realm actually daring to speak to him like this, Mu Junlin's eyes become completely icy cold and emotionless as he said, "So in this way, you intend to make my Mu Clan owe you a favor?"

"Enough! Cousin Brother, are you intending to anger me to the point of ignoring you completely?" At this moment, Mu Linglong noticed the situation was far from good, and her beautiful brows immediately knit together as she spoke angrily.

Mu Junlin frowned and spoke with slight helplessness. "Linglong, you're still young and have never come into contact with the outside world, so you still don't understand that the world is dangerous, and the heart of man is unpredictable. I'm only doing this for the sake of helping you repay him."

"You call this repaying him?" Mu Linglong said angrily, "How many times have I told you? Young Master Chen Xi is a nice person, and he's absolutely not the type of person you think he is!"

Chen Xi started smiling when he saw Mu Linglong still intended to say something. He suddenly felt that fussing about it with a fellow that was arrogant to the point of considering everyone to be beneath him was truly meaningless. So Chen Xi shook his head and persuaded her. "Miss Mu, you should listen to your cousin brother and return. There's no need to explain so much."

"But..." Mu Linglong was stunned, and then she stomped her feet anxiously. How could she have imagined that the situation would unfold to this state?

"Go on, you have no choice but to leave today anyway, right?" Chen Xi shrugged and spoke with a smile.

Mu Linglong was stunned. She glanced at Mu Junlin who stood by her side with an emotionless expression then glanced at Chen Xi who had a calm expression with a smile on his face. In the end, she felt extremely dejected and upset. She suddenly noticed that she was really too useless, and she wasn't even able to deal with such a small matter.

"Then...then you have to take care of yourself. I'll definitely come to see you in Dao Emperor Academy when I'm free!" In the end, Mu Linglong sighed deeply and spoke in a slightly unwilling tone.

Chen Xi nodded. "Take care of yourself as well."

During this entire process, Mu Junlin had maintained silence. At this moment, he suddenly said, "Not anyone can enter Dao Emperor Academy. Unless you're able to be ranked in the top 1,000 of the Ascension Immortal Rankings. But this is obviously impossible because only less than a year is left to the time the registration period begins. Of course, you can wait for the next registration period, but that will be a hundred years later."

The meaning within his words was that how could a fellow at the initial-stage of the Heavenly Immortal Realm like Chen Xi become ranked in the top 1,000 of the Ascension Immortal Rankings in this short period of time?

As soon as he finished speaking, he led Mu Linglong on the golden ray of light that penetrated through the sky and walked into space before they vanished.

"Young Master Chen Xi, I believe you'll surely be able to enter Dao Emperor Academy!" Before she left, Mu Linglong who'd been depressed all the time suddenly turned around and formed the shape of a loudspeaker with her hands before she shouted loudly.

Her voice was clear like spring water and spread melodiously throughout the heavens and the earth.

Of course, so long as there's hope, then I, Chen Xi, will never give up. Chen Xi took a deep breath as he spoke in his heart.

But that fellow is really arrogant. When I have the chance, I'll definitely make him taste the feeling of what I felt today. Let me see how he reacts to it... Chen Xi withdrew his gaze and pondered deeply for a short moment before he shook his head, and then he tossed this matter to the back of his mind.

“Mu Junlin... Mu Junlin... I remember now, he’s surely that Mu Junlin!” Meanwhile, the old man recovered from his shock and seemed to have thought of something, causing him to suddenly cry out involuntarily with a voice that carried a wisp of dense shock.

“Which Mu Junlin?” The nearby middle aged man spoke with a frustrated tone, and his head still felt muddled at this moment.

“Who else? It’s naturally one of the six blazing suns of the Immortal Dimension, Mu Junlin who’s reputed in the entire Immortal Dimension to be a genius bestowed by the heavens!” The old man spoke word by word with a forceful tone, and his expression carried a wisp of fervor.

“What!? It was actually him!?” The middle aged man seemed to have thought of something and cried out involuntarily with shock. “No wonder, no wonder! A shocking figure like him does indeed have no need to be afraid of Immortal Monarch Lin Hao.”

One of the six blazing suns?

A genius bestowed by the heavens?

Chen Xi couldn’t help but be surprised when he heard this, and he couldn’t help but ask. “Is that fellow very famous?”

The old man muttered. “He isn’t just famous. In the 4,900 continents and countless cities in the Immortal Dimension, there are only six geniuses that are like blazing suns, and Mu Junlin is one of them. Such a figure is bound to be like a blazing sun that illuminates the world and leads an age.”

Chen Xi was astounded, and he was slightly unable to understand this. “Isn’t it a bit too exaggerated?”

“Exaggerated?” The old man shook his head and said, “These are six blazing suns that have obtained the public acknowledgement of the entire Immortal Dimension. According to rumor, every single one of them possesses the natural endowment to become Immortal Kings, and it wouldn’t be going too far to use all the words of praise in the world on them.”

The natural endowment to become Immortal Kings!

Chen Xi was finally moved because if it was really like this, then all of this would be much easier to accept. After all, according to his knowledge, in the countless years of the past in the boundlessly vast Immortal Dimension, there were only four Immortal Kings that were known of by the public, and they were the Immortal Kings Valiant Star, Midnight, Icesky, and Profound Path!

Besides these four Immortal Kings, did any other Immortal Kings exist?

Chen Xi didn’t know, but all of this was sufficient to prove exactly how extraordinary those six blazing suns who possessed the natural endowment to become Immortal Kings were.

Chapter 1029: Ascensio Immortal Rankings

Finding out that Mu Junlin was one of the six blazing suns of the Immortal Dimension caused the old man and middle aged man to become dazed and exclaim with shock.

To existences like them at the Heavenly Immortal Realm, they probably didn't have the slightest chance to take a step out of Eastern Peace Continent in their entire lifetimes. Yet now they were actually able to personally witness one of the legendary blazing suns appeared before their eyes, so the shock they received from this was obvious.

Chen Xi was similarly extremely surprised. But when he thought of Mu Junlin's attitude towards him, the admiration in his heart was completely wiped away, and he felt slightly indifferent.

So what if he's one of the six blazing suns?

I was taken to be a 'variant' by the Heaven Dao, yet didn't I still forcefully kill my way into the Immortal Dimension?

Perhaps the rumors are true, but so long as I work hard, would anyone dare to determine that I wouldn't be able to surpass him?

A man's effort is the decisive factor, and it can conquer the will of the heavens.

Even though Chen Xi wasn't an arrogant person, he was never one that looked down upon himself.

"If I knew that miss was Mu Junlin's cousin sister, then I wouldn't dare allow Lord Meng Xin to take her away that day even if I was killed." The nearby old man sighed with emotion.

Chen Xi frowned because he slightly disliked Mu Junlin's actions, or perhaps he was extremely unwilling to hear Mu Junlin's name at this moment. He asked right away. "What's the Ascension Immortal Rankings?"

The old man's expression turned serious as he replied. "There's something you don't know, Young Master. The Ascension Immortal Rankings embodies the meaning of rising rapidly in the world. The people on the rankings are the most extraordinary geniuses in the 4,900 continents of the Immortal Dimension. In other words, only the name of those that possess extraordinary natural talent and shocking foundations would appear on the Ascension Immortal Rankings..."

According to the old man, the Ascension Immortal Rankings were divided into 4,900 rankings according to the number of continents. For example, the Eastern Peace Continent possessed its own Ascension Immortal Rankings.

This sort of rankings were called Continental Ascension Rankings.

After all, the Immortal Dimension was truly too vast. Every single one of the 4,900 continents possessed at least 80,000 cities, and there were billions of living beings that resided in each continent.

Obviously, if all the living beings in the Immortal Dimension were to be included, their numbers would be extremely shocking.

It was precisely because of this that the Ascension Immortal Rankings would be divided into continental rankings and the main immortal rankings.

According to the introduction given by the old man, only the experts of the Immortal Dimension that ranked in the top 100 of the Continental Ascension Rankings in the 4,900 continents had the qualifications to try to be ranked on the Ascension Immortal Rankings.

Moreover, they only had the qualifications, and they might not be able to succeed.

According to the records of the past, only a mere ten plus existences that were ranked in the top 100 of the Continental Ascension Rankings of the Eastern Peace Continent would appear on the Ascension Immortal Rankings. Moreover, their rankings would be very far behind and be practically at the end.

This was related to the overall strength of the Eastern Peace Continent. Amongst the 4,900 continents in the Immortal Dimension, the Eastern Peace Continent could only be considered to be one of the most ordinary existences, and it was far from being able to compare to the continents that possessed numerous ancient sects residing within them, let alone compare with the four great continents of Valiant Star, Midnight, Icesky, and Profound Path.

This was merely the division in the Ascension Immortal Rankings. In terms of qualifications to be ranked on the rankings, there were numerous conditions and restriction. The most important condition was that one's cultivation had to be below the Golden Immortal Realm!

In other words, only Heavenly Immortals and Mysterious Immortals had the qualifications to be ranked in the Ascension Immortal Rankings.

It seemed to be complicated yet was actually very simple. Only those below the Golden Immortal Realm could be ranked on this ranking, and only those with extraordinary natural talent could leave their names on this ranking.

Something worthy of mention was that regardless of whether it was the Continental Ascension Rankings or the Ascension Immortal Rankings, both of them were published by the Immortal Court. Moreover, it was checked and balanced by the Laws of the Heaven Dao, so even Immortal Kings were unable to interfere with it.

After he found out about all of this, Chen Xi finally understood why Mu Junlin would speak with an indisputable tone before he left and frankly say that Chen Xi was unable to enter the Dao Emperor Academy.

The reason was the Ascension Immortal Rankings. It was extremely difficulty to be ranked on the rankings, let alone be ranked in the top 1,000. That was extremely difficult.

On the other hand, the basic requirement to register one's self to be tested to enter the Dao Emperor Academy was to be ranked in the top 1,000 of the Ascension Immortal Rankings. Such harsh conditions were indeed not something that anyone could accomplish.

It was even to the extent that amongst all the myriad of living beings in the entire Immortal Dimension, only a small group of people were able to attain this target, whereas, 99% wouldn't have the luck to accomplish it.

I never imagined that just entering an academy would have such harsh requirements. This obviously shows how extraordinary the Dao Emperor Academy is. No wonder Senior Sister would say that so long as I entered the academy, even the Zuoqiu Clan wouldn't dare do anything to me... After he understood all of this, Chen Xi sighed endlessly with emotion in his heart.

It wasn't just the Mortal Dimension, even the Immortal Dimension was filled with competition, whereas strength was always standard to judge everything. It was even to the extent that the measurement of

strength and status in the Immortal Dimension was even more realistic and cruel than the Mortal Dimension.

Subsequently, Chen Xi received his Immortal Token from the old man, and then he asked for a map before he bid them farewell and left.

“That fellow is finally gone.” The old man let out a sigh of relief while his entire body relaxed. Truthfully speaking, he was really worried that Chen Xi would silence them after obtaining the Immortal Token.

After all, Chen Xi was wanted in the entire Eastern Peace Continent now, and for the sake of preventing his tracks from being exposed, silencing them was extremely likely.

But it just so happened that Chen Xi didn’t do this, and this caused the old man to sigh with emotion from surviving this ordeal.

“This kid is definitely not an ordinary figure. He was able to escape the Azuresoul Mine and become acquainted with Mu Junlin’s cousin sister. This isn’t something an ordinary person can accomplish.” The middle aged man took a few deep breaths and muttered. “Not to mention if we disregard all of this. Merely the fact that he made Immortal Monarch Lin Hao deploy so many forces and issue an order for his capture is sufficient to prove that he’s extraordinary.”

“Exactly, even if it’s in terms of strength, have you seen an ascender become as strong as him after ascending into the Immortal Dimension for a mere few days? We’ve already condensed the energy of the Laws, yet we were actually defeated so easily...” As the old man finished speaking, he couldn’t help but be sulky, but he was mostly filled with shock and had an appearance of being scared stiff.

“Alas. It’s unfortunate that he’ll probably be unable to avoid being apprehended by Immortal Monarch Lin Hao within the Eastern Peace Continent.” The middle aged man sighed.

The old man grunted and said, “Don’t forget that Mu Junlin threatened to go see Immortal Monarch Lin Hao and get even with the Immortal Monarch. Perhaps an unexpected event might occur.”

The middle aged man shook his head and laughed bitterly. “Actually, all of this isn’t related to us at all, right? In the end, we’re only two nobodies that guard the Ascension Hall, so it’s better for us to set our minds at rest and stay here. That kid can be considered to be kindhearted for not silencing us, so we can’t expose him. Otherwise, it would be equivalent to running into this pool of muddy water, and some sort of mishap might occur to us.”

The old man nodded and deeply agreed.

...

At this moment, Chen Xi had already left the Ascension Hall.

His current objective was to head to the nearest city, Cloudray City, to obtain information related to the teleportation formation. After that, he would leave the Eastern Peace Continent and head to Valiant Star Continent. During this entire process, he naturally had to work hard to be ranked in the Ascension Immortal Rankings and charge into the top 1,000.

As for Misty Immortal Mountain’s Qiu Yunsheng, he didn’t intend to contact Qiu Yunsheng for now.

After all, this was the Immortal Dimension. Even though Qiu Yunsheng had been subdued by him, Qiu Yunsheng possessed the support of the Misty Immortal Mountain. Once Qiu Yunsheng schemed against him, then he would really be unable to take precautions against it.

Similarly, the Eastern Peace Continent wasn't a place he could stay for long. Even though he didn't know why Immortal Monarch Lin Hao would order his arrest, it had already threatened Chen Xi, so if he stayed here, then his situation would only become even more dangerous.

Once I join the Dao Emperor Academy, I'll start investigating the whereabouts of my parents. Before this, I must improve my strength, otherwise not to mention rescuing them, even gaining a foothold would be difficult... Chen Xi pondered in his heart as he flew in midair.

He was very clearly aware that he'd just arrived at the Immortal Dimension in the end. So, before he merged completely into the Immortal Dimension, he had to go step by step towards realizing his objective, and he couldn't be impatient.

I wonder if Cloudray City has an ancient teleportation formation that leads to the other continents? It's difficult to traverse between continents in the Immortal Dimension with my cultivation. Chen Xi had already found out that under the Laws of the heavens and the earth in the Immortal Dimension, moving between continents was extremely dangerous. The path was filled with numerous chaotic flows of spacetime and miasma. Once one fell into them, the consequences were unimaginable.

Only an existence at the Golden Immortal Realm was capable of executing teleportation to move between continents without getting lost in between them.

Those beneath the Golden Immortal Realm could only rely on ancient teleportation formations to move between continents.

The ancient teleportation continents had all existed since the primeval times until now. Later on, they were taken control of by the Immortal Court, and they were in the control of the Immortal Monarch Estates of the various continents.

Cloudray City was a city of rather large scale in Eastern Peace Continent, and it was a flourishing and prosperous city where countless cultivators gathered. So gathering information there was far better than him searching blindly.

As he flew, moved through the sky, and viewed the scenery of the Immortal Dimension, Chen Xi silently condensed the Laws.

He didn't utilize his clone to transport himself, and he'd left it within the world of stars to enter into closed door cultivation to improve its cultivation and charge into the Heavenly Immortal Realm in body refinement. It couldn't be helped, compared to his main body, the strength of his clone was obviously too weak, so once an unexpected event occurred, it would be utterly unable to avoid such an event.

Even though his clone was able to kill those ascenders like Xiao Yun, Nangong Hui, and the others, yet it was utterly no match for a Heavenly Immortal that had condensed the energy of the Laws.

The Heavenly Immortal Realm in body refinement is the reconstruction of the body, the tempering of the bone and tendons, the condensing of Immortal Shaman Blood. After attaining this cultivation realm, the combat strength my clone possesses will probably be even more formidable than my main body. But

it's a bit too difficult... Chen Xi recalled the harsh conditions required to advance into the Heavenly Immortal Realm in body refinement, and he couldn't help but knit his brows together tightly. He has no lack of body refinement cultivation techniques nor did he lack comprehension in Dao Insights, and he only lacked a single thing, sufficient Immortal Shaman Bloodsoul Stones!

[Talisman Emperor](#)

Chapter 1030: Floating Wall Of Light

Immortal Shaman Bloodsoul Stones contained pure Immortal Shaman Energy, and these precious rocks were extremely rare. Since the calamity of the Fiendgods that erupted before the Primordial Era and affected the three dimensions, and after those true members of the Fiendgod Clan had perished, this sort of precious rocks had become even rarer.

The reason was extremely simple, the bloodsoul stones were refined from the blood of true Fiendgods!

Without the blood of Fiendgods, all of this had lost its source.

It was precisely because of the scarcity of the bloodsoul stones that the number of immortals that cultivate in body refinement in the Immortal Dimension was rather low. Amongst a thousand immortals, one might not even be able to find a single one that took the path of the School of Fiendgod Body Refinement.

According to Chen Xi's knowledge, besides tempering one's body to the limit, an enormous amount of bloodsoul stones were required to sustain one's advancement into the Heavenly Immortal Realm in body refinement.

Moreover, an extremely high risk was present during this advancement. If one failed, it was very likely for one's Blood Essence to charge in the opposite direction, causing qi deviation and death.

In the history of the three dimensions, it was an ordinary occurrence for cultivators to fail in their advancement into the Heavenly Immortal Realm in body refinement and suffer from qi deviation.

Looks like if I want to advance into the Heavenly Immortal Realm in body refinement, I have to exhaust effort to gather some Immortal Shaman Bloodsoul Stones. In this way, the amount of Immortal Stones I consume will probably increase. When he thought up to here, Chen Xi felt his head ache slightly. He still had to improve the quality of the Talisman Armament and prepare to charge into the intermediate-stage of the Heavenly Immortal Realm... All of this required an enormous amount of wealth.

I'll sell off the Azuresoul Sourcerocks I plundered after I arrive in Cloudray City and see how many pieces of immortal materials and immortal stones I can exchange them for. If it really won't do, then I'll even sell off those immortal treasures I plundered... Chen Xi resolved himself. It could be helped, for the sake of being ranked in the top 1,000 of the Ascension Immortal Rankings and smoothly enter into Dao Emperor Academy, he could only act in this way because only this would allow him to improve his cultivation in a short period of time.

As he flew like this beneath the sky, countless sceneries of the Immortal Dimension flashed past him all along the way, and he passed by innumerable mountains, lakes, and forests.

Needless to say, the Immortal Dimension was indeed a paradise that cultivators dreamt of. In the eyes of Chen Xi, all the mountain ranges, lakes, and forests he passed by were filled with extremely abundant Immortal Energy, and there was even no lack of immortal veins scattered across them.

Some places that were dense with immortal veins even had villages, kingdoms, and ordinary living beings like there were in the Mortal Dimension.

Of course, the lowest cultivation of these ordinary living beings was at the Nether Transformation Realm or above!

Existences of this level were experts in the Mortal Dimension, yet in the Immortal Dimension, they were only the most ordinary existences. Because this was the Immortal Dimension that was filled with Immortal Energy that nurtured the world.

Even if a pig were to cultivate here and breathe Immortal Energy all day and night, it would be able to develop intelligence and transform into a demon.

Just like this, he flew all along the way. Two days later, his field of vision suddenly opened up, and a vast and magnificent ancient city appeared on the horizon.

Countless shadows, strands of auspicious qi, and rays of light rose from the ground while the aura of countless experts surged into the sky, causing the entire city to seem like an immortal paradise of legend.

Clouday City!

One of the 86,000 cities of Eastern Peace Continent. Instead of calling it a city, it could be called a kingdom, and it wasn't much different when compared to Stone Kingdom and Golden Supremacy Kingdom that Chen Xi had wandered through in the Dark Reverie.

When looked at from afar, the sky above the vast city surged with the aura of various experts, and countless immortals were lingering within it.

At this moment, there were many Heavenly Immortals and Mysterious Immortals riding immortal beasts, utilizing immortal treasures, or riding immortal carriages as they moved about within Clouday City that was bustling and flourishing.

This is a city of the Immortal Dimension? Chen Xi couldn't help but exclaim endlessly with shock when he saw this scene. Strictly speaking, this was the first time he'd truly witnessed the style and view of the Immortal Dimension, and even thought it was only the tip of the iceberg, it was sufficient to be extremely shocking.

Swoosh!

Chen Xi descended to the ground and sized up the surroundings for a short moment before he walked into Clouday City.

...

Clouday City was ancient, vast, flourishing, and prosperous. It was the place of residence of one of the great sects of Eastern Peace Continent, the Clouday Sect.

As soon as he entered the city, a wave of clamorous and bustling noise assaulted his ears, and the smooth and even streets that were around 300m wide were filled with row after row of stores, restaurants, medicinal pill shops, treasure pavilions... Streams of people bustled about on the streets while immortal energy drifted through it, and it was an extremely bustling sight.

Compared to the Mortal Dimension, it carried an aura of its own.

As he hesitated to move through these bustling streets that were streaming with people and carriages, Chen Xi couldn't help but feel slightly dazed. The Immortal Dimension really is the Immortal Dimension. Immortals can be seen everywhere, and prosperous sights unlike anything in the Mortal Dimension can be seen all around here.

But in next to no time, Chen Xi recovered his senses. Compared to how bustling state of Cloudray City, he'd also witnessed how cruel and realistic the Immortal Dimension was while in the Azuresoul Mine.

This allowed him to see everything in the Immortal Dimension in an extremely calm manner, and he wouldn't naively think that the Immortal Dimension was a paradise devoid of battles and slaughter.

Conversely, in terms of the strictness of hierarchy and the cruelty of reality, there wasn't any world or dimension in the three dimensions that could compare to the Immortal Dimension.

As the saying goes, where there is light, there is also darkness.

Behind extreme prosperity was perhaps a world that was extremely cruel and realistic.

"Seniors, please wait a moment. Our shop has just captured a Firehorn Flame Dragon from the Blaze World. Its flesh is delicious, whereas its scales are the best choice to be refined into immortal treasures. The best price I can give is only 800 Immortal Stones for one kilogram of its flesh and 150grams of its scales! This price is only valid for today, and it's an opportunity that can't be missed!" Before a restaurant that was decorated in a grand manner was an Earthly Immortal Realm attendant holding an octagonal copper mirror while shouting with all his strength. Light flowed within the copper mirror to reveal the figure of an enormous dragon that seemed to be completely blazing in flames. Its horns were sharp like swords while it was roaring furiously towards the sky.

"Guest, even though dragon meat is rare, but have you tasted the 'amber heart' of the Xeno-race Cerulean Clan? This is something my shop has exhausted a great deal of money to purchase from a Golden Immortal that just returned from the Outerealm Battlefield. After being cooked by our chefs with three thousand spirit materials, its taste is unique and can be considered to be a supreme enjoyment." Before another restaurant was a charming and beautiful female attendant that wore clothes made of fine gauze and held a copper bell. The copper bell spread her voice towards the surroundings with a light shake, and it was low and carried a sense of magnetism that revealed indescribable allure.

"Take a look, take a look. Master Bao personally brewed this Azureleaf Wine. There's only this 500grams of it, and its quantity is limited! A thousand years of waiting was all for today, and it'll be too late to regret it once you miss it!"

"Hurry! Hurry! Hurry! A first-class abode on Jade Radiance Immortal Mountain, and it comes with ten plots of immortal fields. The environment is quiet and beautiful, and its immortal veins are superb.

Moreover, it's neighboring to the Cloudray Sect, so there's nothing to worry about in terms of safety. It's absolutely the best choice for you to cultivate, meditate, and advance in cultivation."

As he walked on the streets of Cloudray City, he was frequently able to see some things that were very rare in the Mortal Dimension, and he heard some stories that were unique to the Immortal Dimension.

They were strange, unusual, and in great variety, and they expanded Chen Xi's horizons.

"Quickly! Quickly go take a look. I heard our Cloudray City's Immortal Ran Jing has killed his way into the 138th ranking on the Continental Ascension Rankings!"

"What? Could it be that it's true?"

"Come on, let's go take a look. That Immortal Ran Jing is an outstanding disciple of Cloudray Sect. It's truly shocking that he was able to be ranked at the 138th ranking of the Eastern Peace Continent's Continental Ascension Rankings after advancing to the Mysterious Immortal Realm for only a few years!"

Suddenly, an excited cry sounded out from afar, and it caused the crowd to become restless before all of them swarmed towards a certain direction.

Chen Xi was stunned, and then he raised his eyes and looked towards the distance. He saw a wall that reached the skies far away in the distance, and it stood towering beneath the sky while suffused with strands of hazy divine radiance, causing it to seem rather extraordinary.

Could it be that it's the 'floating wall of light'?

Chen Xi pondered deeply for a moment before he walked over with the crowd.

Meanwhile, the area before the wall was crowded with people, and all of them raised their heads and were looking up.

Chen Xi moved forward and saw the words 'Eastern Peace Continental Ascension Rankings' written in ancient writing inscribed at the top of the wall, and these words were written with heavy and forceful strokes.

At the side was the seal of the Immortal Court. It was square, filled with deep golden light, and revealed a supreme aura of authority.

When he saw this supreme seal that belonged to the Immortal Court, Chen Xi instantly knew that this was definitely the floating wall of light.

In the countless cities within the 4,900 continents of the Immortal Dimension, every single one of them had a 'floating wall of light,' and it recorded the Continental Ascension Rankings of the various continents.

According to rumor, these walls were created by the primeval Equipment Emperor. It was exquisite to the point of being able to rival the creations of nature, and it echoed the Laws of the Heaven Dao in the Immortal Dimension. It was only later on that the Immortal Court took control of it.

As for how it was created, no one knew.

"The first, Lin Xinghun."

“The second, Yuwen Chong.”

“...”

Chen Xi raised his eyes to look, yet it was filled with unfamiliar names, and there was a total of a thousand from top to bottom.

However, even though he didn’t know who these names belonged to, Chen Xi was very clearly aware that those who were able to be ranked in the top 1,000 of the rankings were absolutely the 1,000 most outstanding figures in the 86,000 cities of Eastern Peace Continent.

“Sure enough, Immortal Ran Jing is ranked at the 138th ranking.” Someone cried out excitedly from the crowd.

“Yeah, according to this speed of advancement, perhaps there’ll be hope for Immortal Ran Jing to charge into the main Ascension Rankings!”

“That’s difficult to say. Being ranked on the Ascension Immortal Rankings is too difficult, and every single one of the people capable of being ranked on it are the top geniuses in the great continents.

The crowd discussed animatedly.

Chen Xi knew that for the sake of differentiating the Continental Ascension Rankings and the Ascension Immortal Rankings, people were usually used to calling the Ascension Immortal Rankings as the main Ascension Rankings, whereas the rankings related to the various continents were called the secondary Ascension Rankings.

Chen Xi didn’t have the slightest interest towards Lin Xinghun, Yuwen Chong, and Ran Jing. The reason was extremely simple, he didn’t know them and wasn’t even aware of their origins, so it was impossible for him to arouse fervent feeling of worship that others felt towards the figures on the rankings.

He’d come to the floating wall of light this time merely for the sake of confirming his position on it at this moment, so that he could prepare to charge into the main Ascension Rankings.

So after a short moment, Chen Xi came to the side, and he held his breath in concentration before he slowly stretched out a strand of his Immortal Sense and allowed it to surge into the floating wall of light.

Om!

A strand of strange fluctuation surged throughout his body, and then the scene before his eyes flashed. A row of golden and brilliant ancient words floated up within his mind, and it was shockingly his ranking in Eastern Peace Continent.
