### [Talisman Emperor](#)

#### Chapter 1241: Subduing The Fish King, Capturing Precious Treasures

The battle instantly erupted.

Chen Xi soared into the sky while emanating boundless divine radiance, and he executed numerous supreme Sword Dao techniques that contained the terrifying might of the Five Element Divine Crest with Starclasp.

His Sword Dao was on the verge of attaining the realm of Sword God!

At this moment, he'd utilized his full strength, and it was the first time since advancing into the Golden Immortal Realm that he'd been forced to hold nothing back. When looked at from afar, his entire body emanated an oppressive, arrogant imposing aura that seemed like a powerful dragon leaving its lair.

Rumble!

Various immortal treasures collided in midair and emanated a myriad of divine glows that enveloped the entire Bridge to the Deep. If such a terrifying battle were to occur in the outside world, then it would be sufficient to incinerate oceans and cause rivers of blood to flow!

Needlessly to say, practically none of the students from the other academies that had entered Nightmare Battlefield this time were weak. Conversely, all of them were top figures in the younger generation that had experienced countless rounds of selections, they were geniuses that were pillars in their respective academies.

At this moment, when they attacked along with the three ancient immortal treasures, they truly caused Chen Xi to be unable to gain the slightest advantage.

But obviously, the stalemate before their eyes was something they were absolutely unwilling to see happen.

Or perhaps, they'd never imagined that they would actually be unable to suppress Chen Xi under the circumstances that there were so many of them. Besides causing them to be shocking, all of this caused the killing intent in their hearts to blaze.

This kid has just entered Dao Emperor Academy for two years, yet his cultivation has broken through to the Golden Immortal Realm while the combat strength he has revealed is so freakish and heaven defying. How formidable would he become if he's given time to grow?

All those years ago, there was Yun Fusheng, and now, they were unwilling to see another Yun Fusheng appear!

So at this moment, all of them executed their entire abilities and didn't hold back at all. They'd decided that they would kill Chen Xi no matter what!

This was the Immortal King's tomb, so even if one crushed the message talisman, the Half-step Immortal King Realm experts that led their groups wouldn't be able to arrive here at all. Thus, it was naturally impossible for them to assist Chen Xi.

As for the other students of Dao Emperor Academy, there was no need to mention them at all. Merely based on their attitudes of watching idly from the side, everyone knew that even if Chen Xi were to die, these students from Dao Emperor Academy would absolutely not become enraged and make a move against them.

It was precisely out of such considerations that these students from the three academies had made a move against Chen Xi, and it was also because of this that they acted fearless while filled with killing intent. They revealed ruthless appearances that seemed as if they wanted to annihilate Chen Xi.

Bang! Bang! Bang!

The battle was extremely intense, and they were all locked in battle. The heavens and the earth dimmed down while terrifying waves of aftershock from the battle shook the entire bridge to the point of trembling and droning.

Fortunately, the bridge was suffused with a shapeless force field that dissipated most of the aftershock from the battle, otherwise they would have probably fallen into the River of Fiery Refinement.

Under such circumstances, the strain and pressure Chen Xi felt was enormous. He was clearly aware that if it wasn't for those three ancient immortal treasures, then his strength would be sufficient to crush all of them. Unfortunately, even though he was clearly aware of this, he was temporarily unable to change this situation.

Because he didn't possess such an ancient immortal treasure to collide head-on with them, and he could only rely on the advantage he possessed in terms of combat strength to fight them.

This was also because the tiny cauldron was capturing the Yin Yang Fish King with all its might right now, otherwise if he possessed the assistance of the tiny cauldron, then everyone here could dream of escaping.

Swoosh!

The Bloodmaster Sword that was mottled with rust tore through the sky and assaulted Chen Xi from behind. The shadow of the sword was red like blood, and it seemed as if it intended to swallow its enemy. Moreover, it was suffused with a terrifying aura that belonged to immortal treasures from the primeval times.

Chen Xi executed a backhanded strike and blasted the Bloodmaster Sword back. However, his entire body shook slightly as well, allowing the Greensilk Palace Lantern to emit a strand of crimson flames that scraped past his neck and left behind a terrifying scorched scar.

If he hadn't dodged in time, he would have almost had his throat incinerated!

These bastards really intend to kill me! Chen Xi gritted his teeth while killing intent surged within his eyes. He still had a trace of reservation earlier because he was worried that killing them would bring some unnecessary trouble to Dao Emperor Academy, yet now, he'd tossed all these reservations to the back of his mind.

Hiss!

He stopped hesitating and suddenly executed the Sword of Space. In the next moment, a young man in the crowd was slashed into two from behind, causing blood to spray as he perished on the spot.

“Junior Brother Zhu!” Someone roared with shock and sorrow.

The others were horrified as well. Never had they imagined that Chen Xi would actually be able to kill a companion of theirs under such circumstances. Moreover, that sort of attack... they actually didn't notice when he'd executed it!

“Watch out! This kid seems to have grasped the insight of space. Quickly execute your secret techniques to solidify the space around you. Don't give him an opportunity to take advantage of!” Someone warned in a grim voice, and his expression was extremely solemn.

The insight of space?

The hearts of everyone jerked as they came to complete understanding, and then their expressions changed indeterminately. The Spatial Laws! One of the three supreme Laws in the three dimensions that only existences at the Immortal King Realm are capable of grasping.

This caused all of them to be unable to help but recall Yun Fusheng once more. All those years ago, the reason Yun Fusheng was able to sweep through all the experts of the same generation within the three academies was because he relied on a branch of the Temporal Grand Dao, the Shadow of Time!

Yet now, even though Chen Xi hasn't grasped the Shadow of Time, he'd grasped the profundities of space that could compare with the Shadow of Time. So how could they not be shocked by this discovery?

Kill! We must kill this kid! The enmity between us has already been sowed. If we're unable to eliminate him, then we'll absolutely be unable to sleep in peace from now on!

...

The battle grew in intensity, and it could even be considered as horrifying.

The students of the other academies didn't just give it their all, they even put their lives on the line!

However, they'd underestimated the might of the Spatial Divine Crest that Chen Xi possessed. Since he'd exposed this trump card, Chen Xi naturally wouldn't hold back.

Every single sword strike he executed was imperceptible and impossible to detect. He struck left yet hit right, struck up yet hit down. Every single strand of Spatial Sword Qi appeared out of thin air from all around them as he attacked, and it seemed like a peerless assassin executing a lethal strike. It was unfathomable, untraceable, and impossible to guard against.

Pu!

It wasn't long before the head of another young man was penetrated, causing his skull, brain, and blood to spray into the sky while he left out a shrill cry before falling to the ground.

The situation was faintly moving towards Chen Xi.

“Thousand Decimation — Soul Seal!” Suddenly, Xue Lianqiong spat out a mouthful of Blood Essence onto the Heaven Hatred Seal, and then his countenance swiftly turned ghastly pale while his aura dropped disastrously. Moreover, he seemed as if he’d aged greatly in an instant.

Obviously, this attack was too terrifying, and it caused him to have no choice but to damage his own quintessence in order to execute it.

Bang!

The Heaven Hatred Seal erupted with a jet black and dark red murderous glow before it smashed towards Chen Xi with a bang, and it caused Chen Xi to be blasted back by an entire thirty plus meters.

Pu!

Chen Xi’s figure shook while he repeatedly coughed out blood. He’d suffered a great injury. How formidable! There really are no ordinary people amongst those that entered the tomb this time.

Fortunately, even though this strike was terrifying, it didn’t inflict a lethal injury upon him.

So all of you intend to put your lives on the line? Since it’s like this, then we’ll see who dies first today! Chen Xi’s eyes surged with a frenzied glow, and he was like a trapped and injured beast that had been enraged and intended to fight to the death.

He did indeed hate them to the bone because not only had they tried to rob him, they even intended to kill him. No matter who it was, that person would probably go berserk.

“He actually survived...” Xue Lianqiong was stunned. This was the strongest attack he was capable of executing, and it was his greatest trump card. He originally thought that even if it was unable to kill Chen Xi, it would at least heavily injure Chen Xi. Never had he imagined that Chen Xi would only be injured and cough up blood.

“Seize this opportunity to kill him quickly! Quickly!” At practically the exact same time that Chen Xi was injured, the others shouted explosively and seized this opportunity to swarm towards him.

Bang!

But right at this moment, a matchlessly terrifying fluctuation suddenly arose from the sky above the River of Fiery Refinement, and then the shocked and furious roars of Ao Zhanbei and the others resounded.

“Dammit! Return it to me!”

“How could this be possible! How could this be possible? What exactly is this jade cauldron? How could it be so formidable?”

It turned out that the tiny cauldron had completely captured the Yin Yang Fish King at this moment, and it had actually seized the opportunity to take the Chaotic Yin Yang Diagram away as well!

This unexpected even drew the attention of everyone, and the battle paused for a moment.

Swoosh!

It was at this moment that Chen Xi's figure flashed, and he was carried by a shapeless force and was uncontrollably pulled towards the other side of the Bridge to the Deep.

At the same time, the tiny cauldron's anxious voice resounded by his ears. "It isn't the time to fight desperately yet. I'm suppressing the Yin Yang Fish King with all my strength right now. It won't be too late to seek revenge from them after I absorb this beast!"

Chen Xi was shocked in his heart, and he awakened from his berserk battle intent. When he raised his eyes to look over once more, he noticed the tiny cauldron had already brought him out of the battlefield and was whistling towards the distance.

"He actually...fled?" The students of the other academies were stunned. Never had they imagined that in a moment of carelessness, Chen Xi's figure had flashed towards the distance, and he was moving even faster than teleportation!

"Pursue him! We must pursue him and reclaim the Chaotic Yin Yang Diagram!" Ao Zhanbei was in a frenzy of rage, and he was on the verge of going berserk. The Chaotic Yin Yang Diagram was extremely important later on, and if he were to lose it, then even if they were able to arrive at the core of the tomb, they would be unable to obtain the fortune within it!

"That damnable bastard seized the Yin Yang Fish King away and even took the Chaotic Yin Yang Diagram. I'll kill him! I'll fucking kill him!" Zuoqiu Jun was angered to the point his eyes almost split apart. They'd been watching idly from the sidelines since the beginning, and they originally thought that it was a superb opportunity to capture the Yin Yang Fish King, yet never had they imagined that they would go for wool yet come home shorn!

Swoosh! Swoosh! Swoosh!

Without practically any hesitation, all the senior students of Dao Emperor Academy set out with a murderous aura, and they pursued Chen Xi with all their might.

Needless to say, this was an extreme shame.

They'd watched idly from the sidelines and didn't assist their companion earlier, and now that they'd lose their treasure, they blamed and pursued their own companion instead. If Zhou Zhili and the other Half-step Immortal King Realm seniors were to find out about this, the outcome was truly thought provoking.

The students of the other academies didn't have the time to laugh at these students from Dao Emperor Academy, and their expressions had become extremely gloomy when they saw Chen Xi had fled.

At practically the exact same instant that the students from Dao Emperor Academy set out in pursuit, all of them set out successively as well. It was still for the same reason, if they were unable to kill Chen Xi within the tomb today, then they would absolutely be unable to sleep in peace from now on.

After all, the combat strength and natural talent Chen Xi revealed earlier was too heaven defying, and it was even on par with Yun Fusheng from all those years ago. Once such a young man matured, then there would be absolutely no end to their future troubles!

## Talisman Emperor

### **Chapter 1242: Emperor Yu's Nine Cauldron Palaces**

At the end of the bridge was a lake.

The lake was vast, and it covered an enormous area. When looked at from afar, it was practically no different from facing an ocean.

However, unlike the outside world, this lake didn't contain water but space-time energy!

This energy transformed into waves, ripples, and tides that surged within the lake. It was completely hazy and seemed calm, yet it emanated a terrifying aura that caused one's heart to palpitate.

As it implied, space-time was how space and time were referred to in general. Time was exalted and space was king. There was no difference in superiority amongst them, and the two of them could even fuse perfectly together.

The rotation of everything in the world, the passage of time, and the place where all living beings resided contained the supreme profundities of time and space.

If there was no time, then the passage of history, age, and life naturally didn't exist.

If there was no space, then the mountains, rivers, stars, sun, moon, and everything else were naturally unable to continue existing, and the world would cease to exist as well.

In short, there were two supreme Laws, the supreme order that the Heaven Dao used to maintain the three dimensions, and it was a supreme force that only existences at the Immortal King Realm could comprehend and grasp.

Swoosh! Swoosh!

A wave of spatial fluctuation appeared as numerous figures teleported over, and all of them stopped successively before the space-time lake.

These figures were naturally the students from Dao Emperor Academy, Bitter Silence Academy, Grand Desolation Academy, and Dao Secret Academy. They'd pursued Chen Xi all along the way on the Bridge to the Deep, yet they were a step too slow in the end, and they could only watch as Chen Xi charged into the depths of the lake.

"That fellow is simply crazy. He's actually traversing this space-time lake!" Someone saw Chen Xi's figure flash above the lake from afar, and he couldn't help but curse in a low voice.

The others were slightly surprised and bewildered as well.

They'd seen this place earlier, and they were clearly aware that this lake was too terrifying. Not to mention traversing it from above, even approaching it slightly would cause them to suffer the assault of the lake.

The consequences of that would cause them to either instantly lose their lifespan and transform into a pile of bones or fall into overlapped pockets of space and become lost within it, unable to find their way out for eternity.

Even if they had ancient immortal treasures in their possession, unless they had no other choice, they wouldn't dare take a step near it.

Yet now, Chen Xi had actually disregarded everything and traversed it before vanishing instantly!

Could it be that he's unafraid of death?

All of them were unable to wrap their heads around it, but when they thought about how they had to watch as Chen Xi left, there was nowhere to vent the resentment in their hearts.

The hearts of Ao Zhanbei, Zuoqiu Jun, and the others ached because the Chaotic Yin Yang Diagram had been seized, and they were utterly unconcerned about Chen Xi's fate. They were just worried about how they would reclaim the Chaotic Yin Yang Diagram if Chen Xi perished within the space-time lake.

On the other hand, the students of the other academies were resentful because their companions had been killed, and most importantly, they were unable to feel at ease until they saw Chen Xi perish before their eyes.

"What're all of you thinking of doing?" Suddenly, Zuoqiu Jun frowned as he spoke, and he swept the students of the other academies with his gaze. He was able to clearly sense that the gazes these fellows shot at him and the other students from Dao Emperor Academy carried a faint trace of killing intent.

As soon as these words were spoken, it instantly drew the attention of Ao Zhanbei and the others, and all their expressions turned gloomy while they looked over.

"What we intend to do? A student of your Dao Emperor Academy killed our companions. This enmity naturally has to be avenged!" Xue Lianqiong from Bitter Silence Academy gritted his teeth as he spoke.

"With just the few of you?" Zuoqiu Jun spoke with a ghastly tone, and he was extremely furious in his heart. He'd never expected that these fellows would actually set their sights on them at this moment.

"If it was before, we would really not dare rashly make a move against all of you. Unfortunately, all of you've lost the Chaotic Yin Yang Diagram, so how can all of you be a match for us?" Xue Lianqiong laughed coldly and didn't take Zuoqiu Jun seriously at all.

The students of Grand Desolation Academy and Dao Secret Academy laughed coldly as well. Obviously, they'd formed an agreement in secret, and they intended to deal with Zuoqiu Jun and the others.

"Have all of you thought about the fact that if we joined forces with Junior Brother Chen Xi against all of you earlier, then would all of you even be able to survive until now?" Ao Zhanbei spoke with a low voice, and his expression was gloomy and indifferent.

It was fine when he didn't mention this, but as soon as he did, it instantly caused all of them to laugh with ridicule.

"Haha! Are you not ashamed? You clearly intended to use us to kill one of your own, yet you still speak so righteously? If this matter were to be spread to Dao Emperor Academy, would all of you still have the face to walk in public?"

"Are you not ashamed? All of you've completely destroyed the reputation of Dao Emperor Academy!"

When they heard these words, the expressions of Ao Zhanbei and the others sank. Moreover, many of them glanced with a blaming gaze at Zuoqiu Jun, and they seemed to be blaming him for being too merciless earlier, causing them to be ridiculed because of this.

Zuoqiu Jun was extremely infuriated in his heart as well. How could he have imagined that Chen Xi would actually be able to survive? And he'd never expected that the situation would develop to such an extent.

"Haha! Do all of you really think you're able to kill us so easily?" Zuoqiu Jun suddenly laughed coldly and said with disdain, "Amongst all of you, Chen Xi heavily injured everyone from Bitter Silence Academy, and only the students from Dao Secret Academy and Grand Desolation Academy have the strength to fight. Chen Xi can crush all of you without relying on an ancient immortal treasure, could it be that all of you think we can't accomplish this without the Chaotic Yin Yang Diagram?"

As soon as these words were spoken, the expressions of the students from the other academies turned grim and slightly heavy.

Even if Zuoqiu Jun was exaggerating, they had no choice but to treat his words with caution. The reason was none other than because Dao Emperor Academy was able to exist until now and constantly occupy the position of number one academy in the Immortal Dimension, so it was definitely worthy of its reputation.

Not to mention that they didn't dare guarantee that there wasn't an existence even more abnormal than Chen Xi amongst Zuoqiu Jun's group.

For a time, the atmosphere became heavy and silent.

Both sides wished for nothing more than to kill the other so as to avoid leaving behind evidence of what happened today, but both sides were afraid of the other as well, causing both sides to not dare make a move rashly.

Om!

Right at this moment, a wave of ancient and grand ringing of a bell resounded, and it spread through the heavens and the earth. The sound carried an indescribable desolate aura, that caused everyone to feel that they'd returned to the primeval times in their daze.

At this moment, the hearts of everyone present here shook lightly and was affected by the grand ringing. Moreover, they couldn't help but arouse a feeling of reverence and inferiority.

Om! Om! Om!

The sound resounded successively for nine times. Every single ring seemed as if it resounded in the depths of their souls, causing a desolate feeling to arise in their hearts and become dazed.

After an unknown period of time, when Zuoqiu Jun and the others recovered from their daze, they noticed to their shock that nine grand and ancient palaces were suddenly standing towering on the distant space-time lake!

The palaces were ancient and completely built from mottled rocks. It seemed as if it had experienced the passage of countless years, and it was solemn and dignified!

All of them gasped while their attention was instantly drawn by the unexpected event before them. They didn't know exactly when this had occurred, and as for the confrontational atmosphere from before, it was completely forgotten by them since a long time ago.

This was the tomb of an Immortal King, and nine ancient palaces had appeared out of thin air now. So perhaps there were numerous great fortunes within it. Thus, they were naturally not stupid to the point of fighting each other now.

"Do all of you remember that legend that has been spread in Nightmare Battlefield for countless years?" Someone spoke with a trembling voice, and he seemed to have thought of something, causing him to reveal an excited expression.

With this reminder, everyone else was slightly stunned before they revealed shocked expressions, and a wisp of burning desire couldn't help but appear within their eyes.

When nine palaces appear, the inheritance appears!

These few words were like a bolt of lightning that surged in their hearts. Originally, all of them thought it was an ancient legend that was impossible to find, yet never had they imagined that it would actually appear right before their eyes.

"My god! It really is Emperor Yu's Nine Cauldron Palaces!"

"So the true inheritance has always been hidden beneath this space-time lake. No wonder no one was able to find it in the countless years of the past..."

"But why have they appeared at this moment?"

"It's already at a time like this, why care so much about that? Quickly, let's go in quickly!"

Suddenly, a wave of exclams and the sound of the air being split apart resounded. After that, numerous figures rushed over from all around the space-time lake. Shockingly, Ji Xuanbing, Zhao Mengli, Zhen Lu, and various others were amongst them.

Of course, the students of Vastsky Academy and Cloudmist Academy were amongst them.

If Zuoqiu Jun and all the others present here were included, then it could be said that all the students that had entered the tomb this time had converged here. Of course, the dead weren't included.

"Let's go!"

"Quickly! Let's go! Let's go before anything unexpected happens!"

When they saw more people had rushed over after noticing what had occurred here, no matter if it was Zuoqiu Jun's group or the students from Bitter Silence, Grand Desolation, and Dao Secret Academy, all their faces sank, and they practically didn't think at all before setting out successively and flashing explosively towards the nine palaces at the center of the lake.

Meanwhile, the terrifying aura that suffused the lake had vanished along with the appearance of the nine palaces, so they naturally wouldn't feel afraid.

For a time, figures moved about in the sky above the lake, and they charged respectively towards different palaces. This was extremely normal because there were an entire nine palaces, so why would any of them work together?

However, one could roughly discern that the students of the seven great academies had split up into seven groups, and they entered into different palaces.

Of course, there were two palaces where no one entered, and some students that felt they possessed formidable combat strengths acted alone and entered these palaces.

Unfortunately, all of them didn't know that they were actually a step too late.

...

In a large hall that was extremely silent, only Chen Xi's footsteps could be heard. It had been countless years since anyone had entered this place, so as he stood within it, it was like standing alone in a deserted world.

The tiny cauldron had vanished after bringing Chen Xi in, and Chen Xi was unable to find it, so he could only look around by himself.

He walked forward and looked carefully all along the way. No matter if it was the walls, pillars, or floor, everything he saw was filled with the mottled aura of time, and it caused him to arouse a feeling of loneliness.

It wasn't long before a tiny lantern appeared ahead, and it flickered with a dim glow.

"What's this?" Chen Xi was surprised. Countless years had passed, yet this lantern was still burning, and this was extraordinary.

He walked forward and noticed it was an ancient round Dao Platform. Atop the platform was a meditation cushion and lantern. Everything else was covered in dust, and it was obvious that it hadn't been utilized in a very long time.

"Could this be that expert's place of cultivation?" Chen Xi was surprised, and he executed the Eye of Divine Truth and focused his gaze onto the lantern before him.

### [Talisman Emperor](#)

#### **Chapter 1243: Fortune**

A vertical eye flickered in the space between Chen Xi's brows, and it emanated a deep jet black light as he focused it upon the lantern.

Instantly, the lantern that flickered with a dim glow emanated a flaming glow that was extremely dazzling, and it effused a horrifying force that press down upon Chen Xi to the point of feeling suffocated.

Suddenly, he closed the Eye of Divine Truth.

After that, the scenes before him vanished. The lantern was still the same lantern, the glow it emanated was still dim, yet in Chen Xi's heart, this lantern had risen to the level of being a divine object.

He didn't dare inspect it with the Eye of Divine Truth once more, and in this way, the scenes from before didn't appear once more.

A layer of dark gold colored oil lay within the lantern, and it was like a dim lake yet contained a formidable aura of divinity. After the passage of countless years, its aura hadn't been worn away at all.

I wonder what this lantern oil is made of. Why does it emanate such a terrifying aura? Chen Xi puckered his lips as he pondered deeply for a moment. In the end, he refrained himself and carefully lifted the lantern onto his palm before gently touching it. The lantern was heavy, and it felt icy cold and smooth. It seemed as if it was made of jade and metal, and he was unable to discover any secrets from it.

This treasure was probably left behind by the owner of this tomb. I'll put it away for now because it might be of great use in the future. Chen Xi put the lantern away before his gaze moved onto the meditation cushion.

Compared to the lantern, this cushion seemed to be much more ordinary. But when Chen Xi intended to pick it up, he was actually unable to move it at all no matter how hard he tried!

Eh! Strange, moving mountains and seas with my current strength isn't a problem at all, yet I'm unable to move this tiny cushion. Could it be that it's a divine treasure as well? Chen Xi tried every method he could think of yet was unable to move this cushion, so he couldn't help but be surprised and bewildered.

"Eat the Yin Yang Fish and cultivate." Right at this moment, the tiny cauldron's voice suddenly sounded out by Chen Xi's ears. However, he was utterly unable to find the tiny cauldron when he looked around.

He stared blankly for a moment before he stopped thinking about it, yet he heaved a sigh of relief in his heart. Since the tiny cauldron spoke, then it at least proves that it's still alive. That's more than enough.

Subsequently, Chen Xi acted according to the tiny cauldron's instructions. He withdrew the 19 Yin Yang Fishes before sitting onto ground before the platform, and then he started a fire and started to...roast fish.

The consciousness of these Yin Yang Fish had been wiped out by him. They were completely bright red while their tails were covered in illusory and gorgeous scaled. When held in his hand, an aura of divinity assaulted his face.

Aowu!

Starry was let out as well. He squatted by the fire while looking covetously at the Yin Yang Fish Chen Xi lay there, and he seemed to be unable to resist such a supreme delicacy.

After a short while, an extremely tempting fragrance drifted out. It seemed to be able to invade the depths of one's bones and draw out one's entire appetite, and it revealed temptation that was impossible to resist.

Starry was restless and ceaseless rubbed his fluffy head on Chen Xi like a famished glutton.

At this moment, even Chen Xi couldn't help but swallow a mouthful of saliva. The smell of these Yin Yang Fishes were truly too tempting, and it actually even caused his Dao Heart to find it difficult to refuse. This was the first time he'd encountered such a situation.

After another ten minutes passed and when Starry was anxious to the point his tears were almost squeezed out, Chen Xi finally took down a Yin Yang Fish. However, before he could try it, Starry had pounced over and swallowed it.

Chomp! Chomp!

Starry chomped down while his mouth glowed with the aura of divinity. It was the shocking aura of divinity contained with the Yin Yang Fish, and it was even thicker and purer than peerless immortal herbs.

Pu!

In the blink of an eye, Starry opened his mouth and spat out an intact fishbone. Half the fishbone was black like the night sky, and the other was white like day. It was branded with strands of mysterious Dao markings that had an illusory sense of beauty.

Chen Xi hurriedly picked it up and observed it carefully for a moment. Sure enough, he was able to sense that the strands of Dao markings branded on the fishbone actually contained the aura of the Grand Daos of Yin and Yang, and a weak and imperceptible trace of the aura of Darkness and Light!

The tiny cauldron really was right. These Yin Yang Fish really are primeval variant beasts, and they're rare and precious treasures. Merely this fishbone is comparable to a rare treasure... Chen Xi exclaimed with shock in his heart. He carefully put the fishbone away because even if he was unable to comprehend Darkness and Light from it, he could utilize it as a precious immortal material.

Ao! Ao!

Starry's eyes narrowed while it seemed to be reveling in its recollection from before. After that, it gazed at Chen Xi with a pitiable and covetous expression while begging endlessly.

"You're an existence comparable to a divine beast, yet why do you seem like a cat now?" Chen Xi slapped Starry on the head.

The little fellow was intelligent, and he actually let out a 'meow' before grabbing a Yin Yang Fish with its mouth and fled. He seemed to be saying 'I'm a cat, so what about it?'

Chen Xi exploded with laughter and shook his head.

He picked up a Yin Yang Fish before carefully tearing a piece of meat and tasting it. The meat was extremely delicious and melted in the mouth while leaving a fragrant aftertaste on his teeth. At the same time, a strand of pure and burning waves flowed from his throat throughout his body, and it was comfortable to the point Chen Xi almost moaned.

This sort of feeling was like drinking top-quality divine wine. It melted in the mouth and spread throughout the body, and even the soul was nourished. It was boundlessly wonderful.

Delicious! It's truly a supreme delicacy!

In the blink of an eye, Chen Xi had cleaned up the entire Yin Yang Fish, and he'd almost swallowed his tongue as well.

Meow!

Starry come over at this moment as well, and he wagged his large tail while shamelessly meowing like a cat. After that, Starry grabbed another Yin Yang Fish with his mouth.

“Leave some for me.” Chen Xi shouted hastily.

Thus, in the next period of time, this pair of man and beast started to sweep through the Yin Yang Fish and ate voraciously.

When Starry ate six fishes, his entire body was emanating surging divine radiance. He seemed as if he’d become drunk and fell into deep sleep in the end. This was because the amount of divinity contained within the Yin Yang Fishes was too strong, and it had arrived at Starry’s limits.

On the other hand, Chen Xi was eating continuously. Every single pore on his entire body was emanating dazzling divine radiance, and the terrifying energy of divinity was like surging lava that rolled through his body and was on the verge of breaking free from the restraints of his body.

Bang!

When Chen Xi ate the last Yin Yang Fish, it was like a volcano had erupted within his body, then a strand of divine radiance effused out and enveloped him, and it seemed as if it intended to scatter into the surroundings.

How could Chen Xi dare hesitate when he saw this? He hurriedly ascended the platform and sat cross-legged on the meditation cushion before guiding it into the world within his body to be refined.

At this moment, his consciousness felt as if he’d drank strong wine, and he was in a daze. So, he was guiding the terrifying energy of divinity contained within the Yin Yang Fish by instinct alone.

Logically speaking, it was extremely easy to experience qi deviation while cultivating under such circumstances, yet not only did Chen Xi have no such feeling, he even felt that his speed of cultivation was a few times faster than before. It was extremely relaxed and smooth.

Gradually, Chen Xi’s mind and body entered into an extremely calm state. His mind and body had joined into one, and he’d attained a state of extreme harmony and clearness. On the other hand, the powerful and vast Immortal Force within his body was ceaselessly refining the energy of divinity instead.

The hall was dim and deathly silent.

Chen Xi sat cross-legged atop the platform while his entire body was enveloped by divinity. It wasn’t really dazzling, yet it was extremely harmonious, and it formed into various profundities that seemed like circle after circle of the flames of the gods flickering around him, causing him to seem like a god of legend.

At this moment, the entire hall seemed to be unlike before. It emanated a wave of indistinct chanting, and it seemed like the tune of the Grand Dao was reverberating through the ages.

Under the influence of this chanting, the cushion beneath Chen Xi was suffused with an ancient aura that suffused Chen Xi’s entire body, and it imperceptibly brought unbelievable benefits to Chen Xi’s cultivation.

His cultivation had attained the Allheaven Level of the Golden Immortal Realm, and he was practically unprecedented and invincible amongst his peers. Yet it was precisely because of this that advancement became extremely difficult for him.

Chen Xi was prepared for this since the beginning, so after he advanced into the Golden Immortal Realm, he'd never hoped to be able to improve his cultivation in a short period of time.

However, it was different now!

The energy of divinity contained within the Yin Yang Fished was too powerful and pure. It was a supreme precious treasure that was rare in the three dimensions. At this moment, it had completely fused into Chen Xi's body, and under the influence of the chanting and the ancient aura emanated by the meditation cushion, Chen Xi's cultivation was actually rising steadily and vigorously!

However, Chen Xi was utterly unaware of all of this. He was frowning and grinning from time to time, and his mind and body had fallen into a strange state of comprehension a long time ago.

...

After an unknown period of time, Chen Xi's entire body trembled before a bang reverberated through his body. The blood, flesh, skin, bones, tendons, and even internal organs, apertures, and meridians within his entire body seemed to have been plated with the radiance of divinity and were suffused with a mysterious aura.

At the same time, his cultivation at the Allheaven Level actually broke through into the Embodiment Heaven Level in one go!

In other words, Chen Xi was currently an existence at the intermediate-stage of the Golden Immortal Realm.

Rumble!

There seemed to be countless mountains colliding within his body. It was the sound of his Immortal Force circulating, and it was deafening while seeming like the resounding tune of the Dao. It emanated a terrifying imposing aura that caused others to feel reverence in their hearts.

I actually...broke through here. Chen Xi was dazed in his heart as if he'd had an unbelievable dream. He was truly unable to imagine that there would be such fortune that allowed his cultivation to improve once more.

After all, he'd advanced into the Golden Immortal Realm less than a year ago!

Not to mention the views of others, just he himself was extremely dazed. If he wasn't able to clearly sense the completely new transformation the vital energy within his body had undergone, he wouldn't dare believe such a thing had occurred.

All of this was naturally related to the extraordinary benefits that came from consuming the Yin Yang Fish, and it was similarly slightly related to the meditation cushion beneath him.

Because at this moment, Chen Xi was able to clearly sense that this cushion was absolutely a divine treasure that was able to help one quickly enter into a state of Dao comprehension. It didn't just help

one yield twice the results from cultivating ordinarily, it was even to the extent that it helped one yield ten times the results!

This is what fortune is. If it isn't, then why would so many people have fought to the death with the intention of entering this tomb throughout the countless years of the past? Everything is for the sake of fortune!

Chen Xi took a deep breath and opened his eyes.

Hmm? Right at the instant he opened his eyes, a slender and beautiful figure suddenly flashed within his field of vision. Even though it was only momentary, Chen Xi's heart was fiercely shaken, and his breath was completely taken away.

### Talisman Emperor

#### **Chapter 1244: Unsurpassed Beauty**

In an instant, a slender figure flashed into appearance, and it possessed unsurpassed beauty as it looked down upon the world!

Even though it was only momentary, it caused Chen Xi to feel his breath being taken away while his mind shook. It was an otherworldly bearing, and this figure's body was suffused with the aura of boundless divinity that seemed to be like divine halos, causing this figure to seem like a god.

Yes, Chen Xi had merely noticed a figure and sensed an indescribably unique bearing, yet he wasn't able to see this figure's appearance.

However, even then, it still shocked Chen Xi. At that time, he seemed to have seen the various Grand Dao Laws stand on guard around that slender figure and bowed down in worship to her!

What sort of bearing was this? It could be said to be unsurpassed in beauty and peerless!

After that, Chen Xi suddenly returned to his senses and realized that besides himself and Starry, only the tiny cauldron was present in this spacious and empty hall.

Could it be...that figure from before is the projection of the tiny cauldron? Chen Xi was shocked by his own guess. Even though he'd suspected that the tiny cauldron might be a woman, yet it was only a random guess of his after all, and he'd never taken it seriously.

However, he had some doubts now.

"You've advanced? Not bad, you didn't waste the energy contained within the Yin Yang Fishes." Meanwhile, the tiny cauldron's voice resounded abruptly, and then Chen Xi saw the tiny cauldron transform into a bright light that appeared out of thin air.

The cauldron had become even purer and more clear, and it faintly flowed with a divine aura. It seemed to be even more full of spirit and power now.

Obviously, the tiny cauldron had refined and absorbed the Yin Yang Fish King, and it had brought great benefits to the tiny cauldron.

However, Chen Xi couldn't be bothered to pay attention to all of this. He asked directly when he saw the tiny cauldron make an appearance. "Senior...earlier..."

"You were seeing things." The tiny cauldron interrupted him without the slightest hesitation.

Chen Xi was still unwilling to give up and probed. "Senior, that figure from before was a projection of yourself, right?"

He shook his head after he finished speaking, and he felt the tiny cauldron would probably not answer his question. The peerlessly beautiful figure from before had indeed appeared too suddenly, and if he was the tiny cauldron, he would definitely not admit that he was a woman.

After all, according to Chen Xi's understanding of the tiny cauldron throughout these years, it was proud and aloof to the bone, and it looked down upon the heavens and the earth and frequently spoke shocking words. It was like a senior that came from the primeval times.

"You noticed?" On the contrary to Chen Xi's expectations, the tiny cauldron actually didn't deny it at this moment!

This caused him to be stunned, and he felt slight disbelief. He said after a short while, "Senior, could it be that you're really a...woman?"

"What do you think?" The tiny cauldron asked with a composed voice.

However, it caused Chen Xi's heart to jerk as he said with embarrassment, "I thought..."

Swoosh!

Before he could finish speaking, a scroll flew out from the tiny cauldron and descended onto Chen Xi's palm. "Alright, enough nonsense. This is for you."

Chen Xi sighed in his heart. She changed the topic again! Tiny cauldron, oh, tiny cauldron, you're definitely a girl because only girls like to change the topic when they dislike it.

Chen Xi shook his head and picked up the scroll before scanning it briefly. Shockingly, it was the Chaotic Yin Yang Diagram!

This was one of the precious treasures of Dao Emperor Academy, and it was on par with the Skyeath Gourd, Greensilk Palace Lantern, Bloodmaster Sword, and the other ancient immortal treasures.

"I never expected that Senior would seize this treasure from them." When he thought about the expressions Ao Zhanbei and the others would have from losing this treasure, he couldn't help but start laughing. After that, he felt slightly uncomfortable in his heart because they didn't use such a precious treasure to deal with the students of the other academies and had utilized it to rob him and the tiny cauldron instead...

Nevermind, since they didn't cherish this treasure, then I'll take care of it for now, and I'll hand it over to those seniors after I return to the academy. Chen Xi carefully put the Chaotic Yin Yang Diagram away.

He didn't dare to think about taking possession of this treasure. After all, it belonged to the academy, and he would naturally not return it back to Zuoqiu Jun, Ao Zhanbei, and the others.

Swoosh!

The tiny cauldron withdrew something once more, and it was a crystalline white bone that was an entire 12m long. Half of it was black like the night sky while the other half was snow white like the day, and it was suffused with the aura of Yin and Yang that assaulted the face.

Moreover, the scene of the alternation between light and darkness was even formed atop it, and it was condensed into form from the aura of the Grand Daos of Light and Darkness!

With practically a single glance, Chen Xi recognized this thing. Shockingly, it was the fishbone of the Yin Yang Fish King!

“This is the Origin Bone of the Yin Yang Fish King, and it’s branded with the complete Grand Dao markings of the Grand Daos of Light and Darkness. Comprehend it and perhaps you’ll be able to grasp two rare Grand Dao profundities.” The tiny cauldron guided him casually. “Of course, if you attain perfection in these two Grand Daos, then you’ll be able to condense the Laws of Taichi, and that is where the true value of this bone lies.”

Light, Darkness, Taichi!

All of these were Grand Dao profundities that everyone in the world dreamed of!

All those years ago, Qing Xiuyi and Zhen Liuqing had become renowned throughout the world and shocked the cultivation world of the Darchu Dynasty because they’d respectively grasped the Dao Insights of Light and Darkness. Now, after so many years have passed, these rare Grand Daos were actually right before him.

At this moment, Chen Xi was extremely shocked. He’d never imagined that he would actually obtain such shocking gains in a short period of time, and he would absolutely have no regrets if he was asked to leave the tomb right now.

Swoosh!

Another divine light flashed, and it was an ancient ‘仙’ character that was powerful, piercingly cold, and raging. It was sealed within a jade talisman. Its strokes were scarlet red like blood, and it revealed a supreme energy of Life and Death that assaulted the face.

The tiny cauldron’s voice resounded once more. “Keep this talisman, and you can comprehend the energy of Life and Death within it once you’ve advanced into the Half-step Immortal King Realm. However, whether you’re able to comprehend and grasp it will depend on your own fortune.”

At this moment, Chen Xi felt that he’d become numb to pleasant surprises.

It couldn’t be helped because he’d obtained too much within this tomb. First, he’d relied on the energy within the Yin Yang Fish to break through into the intermediate-stage of the Golden Immortal Realm. Next, he’d obtained the Chaotic Yin Yang Diagram from the tiny cauldron, the Origin Bone of the Yin Yang Fish King, and the jade talisman that contained the energy of Life and Death...

Any one of these could be considered as outstanding fortuitous encounters, yet now, he’d obtained them successively. How could all of this not cause him to be excited and pleasantly surprised?

“Now, we have to go claim the true inheritance of this tomb...” The tiny cauldron spoke once more.

Chen Xi was utterly stunned when he heard this. There are actually more pleasant surprises that haven’t been unearthed...

...

“This is Emperor Yu’s Nine Cauldron Palaces. There are a total of nine, yet the actual inheritance within it is the nine bronze ancient cauldrons.”

“Emperor Yu? This tomb belongs to the primeval Emperor Yu?”

“Yes, Emperor Yu was on par with the Martial Emperor, Equipment Emperor, Spirit Emperor, and Dao Emperor, and they were called the Five Primeval Emperors. They were existences in the three dimensions that stood proudly at the peak of the Grand Dao during the primeval times. This place was left behind by Emperor Yu when he passed away.”

“So...this tomb actually possesses such a great background. No wonder, no wonder it was able to use the might of the Spatial Tide as an entrance and create the Impermanent Path with the energy of Life and Death...”

“This is very ordinary because the supreme Laws of space, time, and Life and Death were supreme abilities that could be grasped at the Immortal King Realm.”

Within the spacious and empty hall, the tiny cauldron spoke with Chen Xi while emanating strands of divine radiance that set up nine mysterious restrictions in the surroundings of the platform.

These restrictions were like numerous jade cauldrons made of light, and they stood around the meditation cushion in the position of the nine palaces. As the tiny cauldron ceaselessly perfected them, they emanated strands of shocking energy fluctuations.

Chen Xi’s attention wasn’t on them, and it was on the tiny cauldron instead. Up until now, he was able to confirm that the tiny cauldron’s level of familiarity with the situation in the tomb wasn’t normal, and this seemed to be extremely unusual.

Thus, he pondered for a long time before he was unable to restrain himself from asking in the end.

“Senior, could it be that you were friends with Emperor Yu?”

“Friends?” The tiny cauldron was stunned, and it stopped what it was doing and went silent for a long time before it said, “No.”

Before Chen Xi could pursue an answer, the tiny cauldron sighed faintly and said, “You ought to be well aware of my bitter detest towards the Xeno-race and how I wish for nothing more than to annihilate all of them. The reason for that is Emperor Yu...died because of them.”

Chen Xi’s heart thumped, and he seemed as if he was listening to a shocking secret that was about to be exposed.

Early on when he met the tiny cauldron for the first time in the Primeval Battlefield, Chen Xi was clearly aware that when the tiny cauldron mentioned anything related to the Xeno-race, it would be unable to refrain from emanating boundless detest and hatred.

Moreover, during his cultivation in these past few years, the tiny cauldron had helped him crush numerous Xeno-race experts on many occasions. However, he'd never imagined that the tiny cauldron had so much hatred for the Xeno-race because of Emperor Yu!

"You're very curious why I would act in this way, right?" The tiny cauldron's voice became slightly complicated, low, and heavy as it said, "It's very simple. Emperor Yu...was my father."

Her father!

Chen Xi felt as if a bolt of lightning had struck his heart. Emperor Yu was the tiny cauldron's father!

This had exceeded his expectations, and he felt it very difficult to believe. However, a voice in his heart was faintly telling him that this was logical, and this was the truth...

"I was by his side when he was building this tomb all those years ago, and I'd suffered an injury that was impossible to recover. In the end, I could only watch as he passed away and vanished in the three dimensions..."

"Later on, I finally recovered a trace of my strength, yet I was dispirited. So I left this place and drifted aimlessly through the three dimensions for a million years, and I killed countless Xeno-race experts. Perhaps it was by chance that I encountered a Xeno-race expert that heavily injured him all those years while I was in the Primeval Battlefield. After that..."

"I put everything I had on the line and crushed that fellow in the end, whereas I myself fell into deep sleep because I'd exhausted too much of my strength, and I continued sleeping until a few years ago...when I met you."

The tiny cauldron's low and deep voice drifted through the spacious and empty hall. It didn't contain any emotions, yet it revealed a trace of an indescribable feeling of age and sorrow.

"I was already in despair and had decided that I would never return to this sorrowful place in my entire lifetime. But who would have expected that the will of the heavens would play tricks on me, and I would just happen to encounter you after countless years?"

"Me?" Chen Xi was stunned.

"Yes." When the tiny cauldron spoke until here, it seemed to put its emotions in order before its voice became composed as it said, "You possess River Diagram fragments, are an heir of Oracle Mountain, and even I'm unable to see through your fate. However, I'm able to see a trace of hope from you."

"Hope?" Chen Xi was stunned once more. He was clearly aware that this sort of reaction was very inappropriate at this moment, yet he was unable to restrain the shock in his heart because the pleasant surprise and shock that he'd received in this short period of time was truly too much, and his mind was unable to recover from it.

"I've told you all that I should. Now, let's start to gather the bronze ancient cauldrons that are branded with the true inheritance of Emperor Yu." The tiny cauldron refused to mention the matter from before any longer, and it suddenly surged with a wisp of brilliant divine radiance that surged into the mysterious restrictions that were arranged in the position of the nine palaces.

## Talisman Emperor

### **Chapter 1245: The Arrival Of Trouble**

The nine mysterious restrictions were activated, and they were like screens of light that actually revealed the scene within the nine palaces.

“This is the scene within the Nine Cauldron Palaces. Every single palace has a bronze ancient cauldron residing within it, and it’s precisely because of this that these nine palaces are able to stand towering until now within this time-space lake.” The tiny cauldron explained swiftly. “I’ll utilize the might of the restriction in a moment to take away all those nine cauldrons. You have to stand on guard for me and must not allow me to be disturbed, because I’m only capable of activating such restrictions once with my current strength. This is our only chance!”

Chen Xi was shocked in his heart and was just about to nod in agreement when his gaze swept over inadvertently, and he saw the scene that had condensed within one of the screens of light. Ji Xuanbing, Zhao Mengli, and Zhen Lu were encircled and were in a precarious position!

“Senior, wait a moment!” Chen Xi spoke immediately while his gaze flowed with cold lights.

“You intend to save them? We don’t have much time left!” The tiny cauldron seemed to be slightly displeased.

“Ji Xuanbing and Zhao Mengli have both helped me greatly in the past, I can’t stand by and watch them die.” Chen Xi spoke apologetically yet his expression was extremely firm.

“Go on. You only have ten minutes, otherwise...the inheritance of the nine cauldrons will be lost forever.” The tiny cauldron went silent for a short moment before it agreed to Chen Xi’s decision.

“Don’t worry Senior, ten minutes is more than enough to deal with those bastards!” Chen Xi heaved a long sigh of relief when he heard the tiny cauldron’s agreement, and his handsome face was suffused with a wisp of confidence and arrogance.

He was only at the initial-stage of the Golden Immortal Realm before entering this hall, yet now, his cultivation had broken through once more, and his combat strength had transformed. Moreover, he possessed a precious treasure like the Chaotic Yin Yang Diagram, so how could he possibly take these students of the other academies seriously?

After all, he was able to confront the students of those three academies by himself before he passed through the Bridge to the Deep!

...

“Unfortunately, you probably have to deal with a bit more of trouble before you go.” At the moment when Chen Xi was about to leave, the tiny cauldron spoke abruptly.

After that, before the tiny cauldron’s voice could finish resounding through the air, a wave of the sound of air being torn apart resounded abruptly from far away.

“Quickly! We must make the best use of our time to search this hall and grab possession of the fortune here before the others arrive!”

“Eh, divine light seems to be effusing out from there!”

“There’s someone there! It’s actually him? Chen Xi?”

“This fellow really didn’t die!”

Accompanying this clamorous noise was a group of people tearing through the sky as they arrived here, and they appeared within Chen Xi’s field of vision. Surprisingly, it was Zuoqiu Jun, Ao Zhanbei, and a few other students from Dao Emperor Academy.

All of them were stunned when they saw Chen Xi, but their gazes were quickly drawn by the platform and the nine mysterious restrictions that were emanating divine radiance.

“Could it be that this is where that great figure’s true inheritance lies?” One of them spoke with a trembling voice and a burning gaze. They’d searched a palace before this, yet they’d only obtained some small fortuitous encounters, so they couldn’t help but be worried that the true inheritance within the tomb was taken away by another.

Yet now it would seem like they still had a chance!

“Chen Xi, you did well this time. Give the Chaotic Yin Yang Diagram back to us right now, and we’ll forgive your past misdeeds.”

“Yes, a supreme fortune like this belongs to our Dao Emperor Academy. I’ll ask the seniors of the academy to give you merit for this once we return.”

The others spoke as well, and the gazes they shot at Chen Xi eased up greatly. However, everything they said seemed as if they’d taken everything before them to be something that belonged to all of them, and they intended to take a share of it.

“I don’t have time to waste my breath on all of you. All of you can either leave right now, or I’ll send all of you out. I’ll give all of you three breaths of time to consider it.” When he saw Zuoqiu Jun and the others had actually come over here by chance, the enmity within Chen Xi’s heart couldn’t help but surge up. Early on when he was on the Bridge to the Deep, they’d stood idly by and taken him to be an outsider. Moreover, they’d even taken advantage of the situation he was in and intended to seize the Yin Yang Fish King from the tiny cauldron.

In the end, they failed on the verge of success, yet they still pursued him all the way. Now, they intended to speak about forgiving him instead. He felt that they were truly thinking too highly of themselves!

“What do you mean by that?” One of them immediately frowned and berated when he heard Chen Xi actually speak in such a blunt manner. “As a member of Dao Emperor Academy, we’ve already been sufficiently tolerant, yet you actually still don’t know what’s good for you. Could it be that you really intend to go against us?”

Bang!

This person’s voice hadn’t finished resounding through the air when Chen Xi had attacked with a frown on his face. He’d discerned that it was obviously impossible to make these fellows leave obediently and coupled with the limited time he had where he to rescue Ji Xuanbing, Zhao Mengli, and Zhen Lu within

ten minutes of time before returning to the tiny cauldron's side, he didn't have the time to waste his breath on them.

So he didn't hesitate at all and slapped his palm down with great force upon that senior, and it seemed to carry an ocean as it shot over.

"You actually dare to make a move against us! How arrogant!" The senior shouted furiously before flashing forward and charged out with a punch to go head on against Chen Xi's attack.

Bang!

An enormous bang resounded before that senior staggered back, and his sleeve had shattered into pieces while he coughed up blood. He'd already suffered a heavy injury.

All the others were shocked. None of them had imagined that Chen Xi would actually make a move abruptly, and he'd heavily injured a senior student amongst them with a single strike!

"Bastard! Could it be that you've forgotten that we're prohibited from fighting each other during the exam!?" Ao Zhanbei's gaze went cold, and he shouted loudly with a deep voice.

"Hmph!" Chen Xi sneered and was completely indifferent to him.

Swish!

A golden beam of light tore through the sky towards Chen Xi. It was Zuoqiu Jun that had attacked. He held a golden immortal sword in hand as he slashed. It was like a terrifying dazzling sun descending from the sky, and its golden radiance illuminated the heavens and the earth.

Chen Xi's figure flashed, and he teleported to arrive in front of Zuoqiu Jun before he slammed down with his palm.

"Hmm?" Zuoqiu Jun's expression turned grim. He'd never expected that Chen Xi's reaction would be so swift. He swung the immortal sword in his hand and swept it out horizontally, causing a golden sword light to shoot out like a torrent.

A strike like this was sufficient to slash a mountain apart.

However, Chen Xi didn't dodge, and a bang resounded as he actually slapped the golden strand of sword qi into pieces with his palm. After that, his palm emanated the radiance of the five elements as it grabbed onto the blade of Zuoqiu Jun's sword!

"How...how could he be so strong?" One of them exclaimed with shock.

The others were dumbstruck as well when they saw this. In just a short period of a few hours, Chen Xi's combat strength had actually more than doubled when compared to when he was on the Bridge to the Deep!

At the same time that he was shocked by this, Zuoqiu Jun urged his Immortal Force violently, causing the blade of his sword to glow while he intended to severe Chen Xi's palm.

Unfortunately, how could Chen Xi give him a chance to counterattack? Chen Xi suddenly took a step forward, and his right palm still held onto the blade of the sword while his left palm smashed down fiercely onto Zuoqiu Jun's chest.

Bang!

Zuoqiu Jun's chest sunk down while his entire body bent into the shape of a prawn before being blasted flying.

However, he was extremely formidable. After suffering such a heavy injury, he actually teleported halfway and intended to stabilize himself.

However, Chen Xi's figure flashed in the next moment, and he solidified the surrounding space with a single palm strike, causing Zuoqiu Jun to be struck to the ground.

"I'll fight you to the death!" Zuoqiu Jun coughed up a mouthful of blood and seemed to have gone mad. He was able to sense that Chen Xi didn't care about the rules of Dao Emperor Academy at all and intended to kill him.

Swoosh!

His figure disappeared into thin air once more and ceaselessly slashed out golden and brilliant strands of sword qi that contained a peerlessly sharp aura. They seemed as if they could slice through anything.

Chen Xi stopped pursuing him and stood on the spot, and he casually slapped out with his hands to easily deal with those golden strands of sword qi, causing them to vanish into nothingness.

All the others were shocked once more because Chen Xi was too domineering. Even though he stood there without moving, yet he seemed inviolable!

Bang!

Chen Xi slapped down once more with his palm, and Zuoqiu Jun was unable to resist it this time. He was forcefully slapped down onto the ground, causing his skull to split apart and bleed while the bones in his entire body cracked apart.

However, this wasn't the end. In the next moment, Chen Xi's arm stretched out, and he grabbed Zuoqiu Jun's neck.

All the others in the surroundings looked at this scene with shock and horror. Zuoqiu Jun was extraordinarily formidable, he was ranked at the 2nd position on the Allheaven Golden Rankings of the academy, yet he was held up like a little chick now and was unable to struggle at all.

How could Chen Xi become so strong in such a short period of time?

None of them were able to figure it out.

"You want to kill me? Do you know that if you do, then you'll be expelled from the academy? At that time, let's see how long you can live without the protection of the academy!" Zuoqiu Jun roared with a savage expression, yet he actually seemed to be ferocious in appearance but cowardly in heart.

He was very clearly away that before Chen Xi could be expelled from the academy, Chen Xi would definitely die in the Nightmare Battlefield. So, he really couldn't help but feel terrified.

"Don't worry, I won't allow you to die so easily." Chen Xi's eyes were icy cold as he stared at Zuoqiu Jun for a long time, and then he lightly spoke a few words. He was indeed almost unable to restrain the killing intent within his heart just now, and he intended to kill Zuoqiu Jun.

But in the end, he'd restrained himself. Just as Zuoqiu Jun had said, he had no choice but to rely on the might of Dao Emperor Academy to protect himself.

Bang!

Chen Xi tossed Zuoqiu Jun away like a dead animal, and then he shot his icy cold gaze onto Ao Zhanbei and the others.

"What...do you intend to do?" One of them spoke with fear and anger.

"What I intend to do?" A piercingly cold arc appeared on the corners of Chen Xi's mouth.

Thus, in the next moment, a wave of the sound of violent battle resounded within the hall, and it was accompanied by shrill cries of pain...

It didn't go on for long, and it didn't even go on for a short moment before the hall recovered its deathly silences. However, a few figures lay scattered about on the ground, and no matter how they struggled, they were unable to stand up again.

"Don't worry, I've only temporary restrained all of you, and I'll let all of you go once I've finished rescuing the others. After all, we're...brothers of the same academy, right?" Chen Xi clapped his hands and laughed lightly, and he'd turned around to leave the hall as he spoke.

"Chen Xi, I won't let you off for this!"

"I'll definitely report this to the higher-ups of the academy!"

"Dammit! Damnable bastard!"

All of them were disgruntled and roared furiously, yet it was to no avail. On the contrary, they seemed like a group of pitiable worms that were moaning and groaning for nothing. Perhaps they'd never imagined that they would fall to such a terrible situation.

Actually, Chen Xi was already sufficiently merciful. If it was in the past, he would absolutely not allow a single one of them to remain alive!

...

Since I can't kill all of you, I can kill those bastards from the other academies, right? Chen Xi took a deep breath after he walked out of the hall, and a wisp of piercingly cold killing intent flashed within the depths of his eyes because he recalled everything he'd encountered within the Impermanent Path and on the Bridge to the Deep.

Swoosh!

Chen Xi distinguished the direction and didn't waste any more time before he flashed and vanished into thin air.

### Talisman Emperor

#### **Chapter 1246: Crushing His Enemies**

"Kill! Kill all of them!"

"These students from Dao Emperor Academy are truly detestable. Earlier, Chen Xi was arrogant and unbridled, and he killed our companions. Now, they actually want to seize the fortune that we intend to obtain. They're simply lawless!"

"There's no need to care about any rules. How could there be no fatalities in Nightmare Battlefield? There won't be anyone who'll pursue the matter and blame us even when we return to Dreamcloud City."

"Cut the crap. Let's kill them and seize the treasure first!"

...

A violent battle was being carried out in a large hall.

One party of the battle was formed from the students of Bitter Silence, Grand Desolation, and Vastsky Academies, whereas the other side was Ji Xuanbing, Zhao Mengli, and Zhen Lu.

The current situation was one where Ji Xuanbing's group of three were obviously in a disadvantaged and precarious position. They were suppressed to the point of being on the verge of losing, whereas the students of the other academies were pressing down upon them step by step and occupied a position of absolute advantage.

This was bound to be an unfair battle.

In terms of numbers, Ji Xuanbing's group was only made up of three people, whereas their opponents were more than twenty people.

In terms of combat strength, the students of the other academies were the seniors of their respective academies, and they occupied an inherent advantage, whereas Ji Xuanbing and the others had only advanced into the Golden Immortal Realm a few years ago.

Of course, the most obvious gap between these two parties in the battle was immortal treasures!

The students of the three academies possessed three ancient immortal treasures, causing Ji Xuanbing and the others to be restrained in all aspects. Not to mention counterattacking, even dodging was difficult.

In short, it seemed that no matter which aspect it was, Ji Xuanbing's group was bound to lose.

"Why don't we hand over the treasure to them. It's only a fragment of an ancient immortal treasure, and it isn't worth us fighting for our lives with them." Zhao Mengli's beautiful brows knit together. Even if the situation was precarious, she still maintained her noble and proud bearing.

Bang!

As she spoke, she gritted her teeth and struck with a strand of True Phoenix Blaze to deal with the attacks that were crushing down at them. However, her countenance became slightly pale as well.

“Even if we hand it over now, it’s impossible for them to let us off. After all, this is the Immortal King’s tomb, and the seniors of the academy wouldn’t be able to come assist us even if we crushed the message talisman. How could they let such a superb opportunity to annihilate us slip from their hands?” A wisp of ridicule appeared on the corners of Ji Xuanbing’s mouth. Just like Zhao Mengli, his countenance was slightly pale while there was no lack of injuries on his body, causing his clothes to be tainted with blood.

“I only regret that Senior Yun Fusheng didn’t annihilate them all those years ago!” Zhao Mengli gritted her teeth as she spoke.

Indeed, no matter if it was Bitter Silence, Grand Desolation, or Vastsky Academy, all their opponents at this moment had been defeated by Yun Fusheng all those years ago, and this caused these three academies to eternally view Dao Emperor Academy’s students as their enemies.

If it was in the outside world, then perhaps they wouldn’t dare act so fearlessly out of consideration for everyone’s identities. But it wasn’t the same here, this was the Immortal King’s tomb, and it was a place of supreme fortune.

Coupled with the fact that a conflict had arisen amongst them, it was impossible for any one of them to stop fighting and put an end to this battle.

“I have a secret treasure that can help us escape. However, this tomb’s surroundings are filled with the energy of the space-time lake. So once we’re teleported, we’ll probably encounter danger.” Zhen Lu that had been fighting silently all along spoke abruptly via voice transmission.

Ji Xuanbing and Zhao Mengli glanced at each other, and their minds were clear as a mirror. As the direct line heir of the Ji Clan and the descendant of a True Phoenix, both of them naturally possessed trump cards that they hadn’t utilized. But when they thought about how such trump cards would actually be wasted on these fellows, they felt a wave of aggrievance, rage, and unwillingness in their hearts.

It was their trump cards, and they were utterly unwilling to utilize it unless they were in a moment of desperation where their lives were on the line.

“Bastards! After I get away, I’ll definitely take revenge from every single one of them!” Ji Xuanbing gritted his teeth, and he’d finally decided to utilize his trump card and get away first.

Bang!

However, before he could act, a terrifying fluctuation that was like a thunderclap suddenly resounded from the space far in the distance, and then a figure crushed through space and whistled over.

Obviously, that figure had actually executed teleportation to the limit, and it caused space itself to emit terrifying booms!

This shocking scene instantly drew the attention of both parties to the battle.

However, before they could make any reaction, they heard a wave of muffled bangs. Figure after figure seemed as if they were smashed into fiercely by a mountain, and they were blasted flying towards the

surroundings. Their figures hadn't fallen to the ground when they coughed up blood without end, and even a wave of the sound of bones breaking resounded along with this.

If one looked down from the sky above the hall, one would be able to clearly see that the figure who'd arrived abruptly was like an awl that fiercely smashed open a path of blood in the crowd of students from the other academies.

Everywhere it passed, figures were blasted flying while blood sprayed into the air. This scene was overbearing and bloody, and it gave others a matchless visual impact.

"AH!!!"

"Who is it!? Which bastard dares to launch a surprise attack against us?"

"Bastard! Bastard!"

Shrill cries and shouts that were mixed with furious roars resounded and filled the entire hall.

At this moment, everyone finally saw the appearance of this figure clearly. A handsome appearance, tall figure, and eyes that were pitch black like an abyss...

Shockingly, it was Chen Xi!

"Chen Xi?" Ji Xuanbing, Zhao Mengli, and Zhen Lu were stunned, and then they were extremely delighted. Never had they imagined that Chen Xi would actually appear out of nowhere while they were in such a precarious position and resolve this disaster they were facing.

"Chen Xi! It's actually you!"

"Bastard! You've come just at the right time! The enmity from before should be resolved in the end!"

"Dammit! We were actually taken by surprise by this fellow!"

On the other hand, when they saw the figure who'd appeared was Chen Xi, the students of the three academies had a surprisingly uniform reaction. They didn't conceal their hatred and rage at all.

"Die!" Xue Lianqiong from Bitter Silence Academy flashed into the air while controlling the ancient Immortal Treasure, Heaven Hatred Seal, and it brought forth a wave of divine radiance that contained surging hatred as it smashed down towards Chen Xi.

Rumble!

Hatred was like a wave that seemed to have flown over from the ages, and it was enshrouded with killing intent as if crushed space into pieces and dyed it red.

"Watch out!" Ji Xuanbing warned. Earlier, he'd suffered a great loss because of the Heaven Hatred Seal.

Chen Xi's expression remained unchanged when facing this, yet his figure flashed and vanished into thin air. In the next moment, he was holding Starclasp while slashing down fiercely. It was simple, direct, and completely plain, yet it carried a might imposing aura of its own that looked down upon the heavens and the earth.

Bang!

Under the astounded gazes of everyone present here, the ancient immortal treasure, Heaven Hatred Seal, was actually blasted flying, whereas Xue Lianqiong cried out in pain as he spat out a mouthful of blood, and his figure was smashed onto the ground, causing a wave of the sound of bones breaking to resound. Merely hearing this sound caused the others to shiver and feel extremely terrified.

He was defeated with a single strike!

At this moment, even Ji Xuanbing, Zhao Mengli, and Zhen Lu stared with their eyes wide open. They didn't dare believe that Chen Xi was actually formidable to such an extent now.

"It was my fault for being unable to kill all of you that time. This time, it won't be the same!" Chen Xi spoke with a calm expression, and his handsome face carried a terrifying and arrogant expression.

Swish!

As he spoke, he'd teleported in midair, and he'd arrived before Xue Lianqiong who was heavily injured.

"What...what do you intend to do?" Xue Lianqiong was terrified to the point of struggling to crawl up. That sword strike of Chen Xi's from before had completely crushed his confidence, and it was even to the extent that he couldn't refrain from feeling despair in his heart.

Om~

A bronze lantern appeared out of nowhere, and it flowed with strands of crimson red flaming radiance.

Swish!

The Skyeearth Gourd flew up into the sky, and it emanated heavy Skyeearth Qi.

Right at this moment, both of these ancient immortal treasures had moved at the same moment and assaulted Chen Xi. They carried a vast impetus and were suffused with a terrifying aura that was extremely astounding.

"Hmph!" Chen Xi grunted coldly and didn't even turn back as he swung out a scroll with a flick of his sleeve. It soared into the air while chaotic Yin and Yang fused within it, and it seemed to intend to sweep the heavens and the earth into it.

At the same time, Chen Xi himself arrived before Xue Lianqiong, and Chen Xi sliced Xue Lianqiong's throat under his terrified gaze. Chen Xi did it without the slightest mercy or a shred of hesitation!

Pu!

A head flew into the sky while blood sprayed.

Bang!

The Chaotic Yin Yang Diagram collided with the two ancient immortal treasures, and the collision emanated deafening rumbling and erupted with divine radiance.

These two actions were practically carried out at the exact same moment, causing very few people to have noticed Xue Lianqiong's terrified, despaired, savage, and unwilling expression before his death...

But there were still some people who'd noticed it after all. For example, the hearts of Ji Xuanbing and Zhao Mengli shook when they saw Chen Xi kill Xue Lianqiong without the slightest hesitation, and their lips twitched slightly. This fellow...is even more resolute and decisive than I imagined!" "Restrain!" After he finished doing all of this, Chen Xi didn't waste a shred of time before his entire body suddenly emanated boundless divine radiance, and he stretched out his hand and grabbed. His palm was like a Roc swallowing water, and it didn't just take away the Heaven Hatred Seal, even the Skyeath Gourd and Greensilk Palace Lantern was swept up by the Chaotic Yin Yang Diagram before flying into Chen Xi's palm.

"How dare you!"

"You're courting death!"

In an instant, Xue Lianqiong was dead and the three ancient immortal treasures had been taken away. It was simply like suffering a matchlessly heavy blow, and it caused the students of the three academies to roar loudly with shock and fury while they attacked fearlessly.

They were absolutely unable to tolerate the precious treasures of their respective academies being seized, they absolutely wouldn't!

Unfortunately, Chen Xi had advanced into the intermediate-stage of the Golden Immortal Realm now, and he was like a completely different person and even possessed the assistance of the Chaotic Yin Yang Diagram. How could they possibly be a match for him?

Bang! Bang! Bang!

Thus, in the next moment, under the horrified and astounded gazes of Ji Xuanbing and the others, Chen Xi was like a tiger that had entered into a group of sheep, and he rampaged about amongst them. Everywhere he passed, he caused string after string of scarlet red and hot blood to spray into the sky while shrill cries resounded without end.

It could be said to be like he was crushing dry leaves and made a clean sweep of all of them!

His peerlessly overbearing and domineering attitude deeply shocked Ji Xuanbing and the others, and they were unable to recover from their shock even after a long time.

No one had imagined that Chen Xi's combat strength would actually attain such a state that even existences at the advanced-stage of the Golden Immortal Realm weren't a match for him, and he'd seemed to have attained an unprecedented level where he was invincible amongst those of the same cultivation realm.

This was absolutely a crushing battle!

It was even to the extent that Ji Xuanbing and the others felt slightly sorry for the students of the three academies. All of you just had to offend Chen Xi, isn't this like...courting death?

"I have important matters to attend to, so I'll be taking my leave first. I'll trouble all of you to deal with the matter here. All of you will probably not encounter any danger after this." After a short moment, Chen Xi stopped because there wasn't a single enemy that could stand up in the surroundings, whereas he suddenly teleported and left after he spoke these words.

It couldn't be helped, his time was truly too limited, and he had no choice but to make the best use of it and return to the tiny cauldron's side.

### Talisman Emperor

#### **Chapter 1247: The Nine Continent Divine Cauldron**

Chen Xi left without the slightest hesitation, and it caused everyone else to be unable to react to what had just happened.

In other words, the entire process from him suddenly charging into the hall to sweeping through all the students from Bitter Silence, Grand Desolation, and Vastsky Academies before turning around and leaving had occurred in less than ten minutes of time!

All of this occurred too quickly, and it seemed unreal.

But when they saw the figures that lay scattered on the ground, smelled the pungent smell of blood that suffused the air, and sensed the fluctuations and aura of battle that hadn't dissipated from within the hall...

All of this allowed Ji Xuanbing, Zhao Mengli, and Zhen Lu to be very clearly aware that it was real!

Chen Xi had crushed over twenty experts from the three academies by himself, and he'd crushed them to the point they were mostly heavily injured and on the verge of death. Moreover, they'd all lost any ability to fight.

Most importantly, he'd taken away their ancient immortal treasures!

"Could it be that this fellow encountered an extraordinary fortuitous encounter within this Nightmare Battlefield? Even the Chaotic Yin Yang Diagram has fallen into his hands. He wouldn't have..." Zhao Mengli's clear eyes flowed with glowing light while she was surprised and bewildered in her heart.

"He won't kill Ao Zhanbei and the others." Zhen Lu spoke abruptly in a concise manner.

"Of course. According to my understanding of Chen Xi, Ao Zhanbei and the others had definitely offended him, and that was why he seized the Chaotic Yin Yang Diagram." Ji Xuanbing let out a long sigh of relief before his gaze turned cold, and it descended towards the side like a piercingly cold blade. There were over ten heavily injured students of the three academies who were struggling on the verge of death, and they were groaning with pain.

"What're you thinking of doing?" Zhao Mengli was stunned as she faintly guessed Ji Xuanbing's intentions.

"Chen Xi helped us so much, so we can't allow him to bear all the hatred and pressure. So..." Amidst his calm and indifferent voice, Ji Xuanbing took a step forward and smashed apart a heavily injured student of the three academies with a palm strike, causing blood to spray into the surroundings, and this scene was extremely cruel. However, Ji Xuanbing's expression didn't change at all, and he seemed to be extremely cold and merciless.

"What're all of you doing? Could it be that all of you aren't afraid of the vengeance of the three academies if you slaughter us like this?" Those heavily injured students cried out with terror and rage, and they struggled with all their might to stand up.

Unfortunately, Ji Xuanbing didn't give them the chance to flee. His figure flickered repeatedly, and every single palm strike of his definitely reaped a life away.

This was an undisguised slaughter. His opponents didn't have the slightest ability to resist him, so it was naturally impossible for him to encounter violent resistance. In practically a short moment, blood flowed into rivers on the ground of the hall, and there wasn't a single student of the three academies left alive.

At this point, Ji Xuanbing finally stopped and casually dusted his clothes before he said, "If I'm even unable to bear this little bit of pressure, then I'm not worthy of the surname, Ji."

Zhao Mengli was stunned, and then she went silent for a long time before she said, "Count me in as part of this matter as well."

Ji Xuanbing smiled, and then he glanced at Zhen Lu who stood by his side.

This leading figure of the Buddha Dimension's younger generation who'd always maintained a silent and reserved bearing sighed abruptly at this moment. "When I participated in the second round of the test, I once made a move against Chen Xi with the intention of taking back a precious treasure of the Buddhist Sect in his possession. I offended him that time, yet I never expected that he would rescue me instead..."

Ji Xuanbing and Zhao Mengli were stunned. They'd never expected that there was actually such an issue between Chen Xi and Zhen Lu.

"This is a Buddhist Scripture that can repair that Buddhist treasure in his possession. Please help me pass it over to him. I'll ask those three academies for an explanation for the incident that occurred today." Zhen Lu withdrew a light green book and passed it to Ji Xuanbing, and then he pressed his palms together and chanted the name of Buddha before turning and leaving.

"This fellow is actually even more ruthless than me..." Ji Xuanbing puckered his lips. He'd only killed a group of people that were on the verge of death, yet Zhen Lu actually intended to seek justice from those three academies, and he simply didn't seem like a benevolent Buddhist cultivator at all.

"All the members of the Buddha Dimension are like this. They believe that karma goes around, yet they actually act by avenging any hatred or enmity they possess." Zhao Mengli laughed lightly.

After that, she glanced at the area outside the hall and said, "It's probably impossible to conceal this matter because a figure flashed by outside the hall earlier. Perhaps it was a student from Cloudmist, Dao Secret, or Windstream Academies."

"It's best if they find out. I truly wish to see if they'll dare come looking for trouble with us." Ji Xuanbing stood with his hands behind his back and laughed proudly.

...

Swoosh!

Space fluctuated as Chen Xi's tall figure appeared out of thin air.

"Chen Xi! Quickly let us go. Otherwise, once the instructors of the academy find out, they'll definitely expel you from the academy!"

“You’ve already brought great disaster upon yourself by seizing the Chaotic Yin Yang Diagram. Quickly end this!”

When they saw Chen Xi, the eyes of Zuoqiu Jun, Ao Zhanbei, and the others who were restrained within the hall turned red, and they roared furiously in succession.

Chen Xi’s expression remained unchanged when facing this, and with a flip of his hand, three ancient immortal treasures had appeared. They were respectively the Skyeath Gourd, Greensilk Palace Lantern, and Heaven Hatred Seal. They floated in midair while emanating a flowing glow.

When they saw this scene, the furious roars in the hall stopped abruptly while their expressions transformed into surprise and bewilderment.

“You... You... You killed the students of those three academies just now?” One of them realized something and spoke with trembling voices.

The others were horrified as well, and they faintly felt that it was probably true because every single one of these ancient immortal treasures were precious treasures of extraordinary origin, and they were on par with the Chaotic Yin Yang Diagram. Yet now, they’d appeared in Chen Xi’s possession, so it was obvious that he’d seized them from the other three academies.

“So, as students that are from the same academy as me, all of you ought to feel lucky and not threaten me at a time like this. Because if you infuriate me, then this Immortal King’s tomb might become the place where your bones are buried.” Chen Xi flipped his palm and put the three ancient immortal treasures away.

The hall became perfectly silent. All of them puckered their lips while their heavy expression faintly revealed a wisp of deep fear. Obviously, they were worried that Chen Xi would disregard everything and kill them.

“Alright, I’ll send all of you out right now.” Chen Xi glanced at all of them who were completely dispirited, and he didn’t hesitate any longer. He grabbed all of them up with a flick of his sleeve before tossing them out of the hall like trash.

“Remember that if any one of you dares to take a step in again, then don’t blame me for killing him!” Chen Xi patted his hands together and left an undisguised threat before walking back into the hall.

“Chen Xi, I hope...you die a horrible death!” Zuoqiu Jun’s entire body felt relaxed when the restraints were removed, and he was unable to restrain the rage in his heart any longer and cursed loudly with rage from outside the hall.

“Just you wait, we’ll report this to the instructors once we leave the tomb, and we’ll expose all your evildeed to the public. Let me see how you’ll maintain a foothold in the academy!” The others cursed as well.

But from the beginning until the end, not a single one of them dared to take a step into the hall.

Because they were truly filled with fear from being crushed by Chen Xi. Earlier, Chen Xi had swept through all of them, causing them to almost collapse. Moreover, Chen Xi had killed an unknown number

of students from the other academies in this short period of time and had even seized their ancient immortal treasures...

All of this made them have no choice but to carefully consider Chen Xi's words, and they didn't dare rashly take a risk.

Within the hall, Chen Xi remained indifferent to all of this, and he started standing on guard for the tiny cauldron.

Om~

The tiny cauldron was already impatient from waiting. It immediately executed a secret technique and emanated a myriad of strands of divine radiance that swiftly surged into the nine mysterious restrictions.

At this moment, the entire tomb suddenly trembled in unison, and it was like it had awakened from countless years of slumber!

The nine palaces that stood towering on the space-time lake almost simultaneously resounded with the ring of cauldrons that seemed to have come from the ages.

It was heavy, ancient, and desolate. This sound seemed as if it could directly strike at the depths of the soul, and it caused others to be unable to help but feel reverence in their heart.

Om!

Right amidst this ringing of the cauldrons, an indescribable and shapeless force suddenly rumbled and surged out.

At this instant, no matter if it was Ji Xuanbing's group, Zuoqiu Jun's group who were still cursing furiously outside the hall, or the students of the other academies, all of them raised their heads in unison.

After that, nine ancient bronze cauldrons suddenly soared into the sky above the nine palaces. They effused an extremely grand and terrifying aura that suppressed everything in the world.

Even space seemed to be unable to endure the weight of these nine cauldrons, and it shattered inch by inch. When looked at from afar, it was like the entire sky had suddenly collapsed!

"The Nine Continent Divine Cauldrons!"

"These nine cauldrons were created by the primeval Emperor Yu, and it held down the karmic luck of the Primordial nine continents during the time before the three dimensions had been formed!"

"Sure enough, those seniors weren't wrong. This is true inheritance within this tomb. Emperor Yu perished in battle here all those years ago, and even the renowned Nine Continent Divine Cauldrons were left behind here."

Everyone was shocked, and they couldn't restrain their emotions. This was a primeval precious treasure that greatly surpassed ancient immortal treasures like the Skyeath Gourd.

“What’re all of you still standing there for? Let’s make a move!” Someone roared furiously and jolted everyone back from their shock, and then their expressions blazed with covetous intentions and excitement.

Rumble!

However, right when they intended to make a move, the heavens and the earth suddenly shook as if the world was turning upside down, and the entire tomb started to collapse violently.

They were able to clearly notice that space-time storms, space-time tides, and space-time blackholes, and the energy of Life and Death that were like a surging ocean were actually filling this tomb at the same time, and they flowed and whistled ceaselessly with an extremely astounding impetus.

The River of Fiery Refinement, the Bridge to the Deep, the Space-time Lake... All of them were on the verge of collapse and destruction.

“What’s going on?” Everyone was shocked while the desire in their hearts were replaced by terror, and their souls almost left their bodies while they felt as if they’d fallen into an icy pit.

“AH!!!!” Before they could make any reaction, they felt their entire bodies tremble, and they were carried off by a terrifying force that was impossible to resist. In the next moment, the scene before their eyes darkened, and they’d lost all consciousness.

...

“Hmm?” At the depths of the river that separated the three dimensions from the Outerealm, an exclaim of surprise suddenly resounded, and then an extremely terrifying will swept out. It instantly passed through layer upon layer of space and the boundless river of stars.

“Emperor Yu’s nine cauldrons? This treasure has actually emerged into the world...” After that, an extremely dazzling and mighty figure suddenly appeared in the depths of the river of stars, and his entire body was bathed in a terrifying divine radiance that caused the starry sky behind him to dim in comparison.

Roar!

A completely black and enormous mammoth roared and crushed numerous stars as it charged towards the dazzling and mighty figure.

“Hei Ren, I have something important to attend to. I’ll come kill you next time!” When he saw this, the dazzling and mighty figure left these words before suddenly vanishing into thin air.

[Talisman Emperor](#)

### **Chapter 1248: A Struggle Between Immortal Kings**

The river of stars between the three dimensions and the Outerealm was boundlessly vast, and it continued on without end like a river that lay across the universe.

Swoosh!

But that dazzling and mighty figure passed through this layer upon layer of space in just a flash, and in merely an instant, he'd arrived on Nightmare Battlefield!

After that, Damon Star was reflected within his field of vision.

At this moment, the enormous Damon Star seemed as if it was on fire, and a boundless flaming glow rose into the sky. He was able to clearly notice strands of time-space energy coiled around the surroundings of the star while whistling and surging about. It was like a vortex that could draw over the nearby stars and faintly formed a space-time blackhole.

Space-time blackholes were the most terrifying disaster in the universe. Once one appeared, it was capable of swallowing everything in the vicinity, including stars!

Before him, the energy of space-time whistled around Damon Star, and if it were to condense into a space-time blackhole, then all the nearby stars including Damon Star would be swallowed and crushed into powder.

Om!

However, this scene didn't occur. Right when the space-time blackhole was about to take form, a grand and ancient fluctuation charged out from Damon Star.

After that, the images of nine ancient cauldrons floated above the stars. They resided in the surroundings of Damon Star and practically instantly suppressed the space-time energy in the surroundings, causing it to fall into a motionless state.

When looked at from afar, it was like numerous stars had been grabbed by a shapeless hand, and they had stopped revolving. This sight was extraordinarily shocking.

"It really is the Nine Continent Divine Cauldrons that Emperor Yu created... Perhaps it's my fortune as well?" The dazzling and mighty figure stood upright in space like a blazing divine flame, and he was even more dazzling than the stars, more resplendent than the sun and moon. He was so brilliant that one couldn't look closely at him.

"I'm sorry, this fortune is destined to another." Right at this moment, a warm and clear voice resounded, and then a young man who wore ancient clothes, a high crown, and had a refined bearing appeared abruptly out of thin air.

He had an ordinary appearance, yet his eyes were deep and bright like the stars. He had a smile on his lips while his entire body wasn't enveloped by any divine radiance. However, as he stood before the dazzling and mighty figure, he didn't lose in imposingness at all.

"Oracle Mountain's Fifth Disciple, Li Fuyao?" The dazzling and mighty figure spoke with surprise. As he spoke, the divine radiance around his body was restrained to reveal his appearance. He was actually a thin man with sideburns that were sharp like swords, a broad forehead, and he wore a black colored robe.

His skin was fair and crystalline while his eyes were long and narrow like blades, and there was even a flying sword made that was made of bones and fine like a needle hanging from his left ear. It gave him a strange yet piercingly cold aura.

"Fellow Daoist Shi Yu really possesses a discerning gaze. It is I." Li Fuyao laughed lightheartedly in a warm and modest manner, and it caused others to find it impossible to have a bad impression of him.

"You recognize me?" The brows of the black robed man called Shi Yu raised, and his eyes that were like blades were bright like lightning and were extremely terrifying.

"Nuwa's Dao Palace's Eldest Disciple of protection, Shi Yu. How could you possibly be a nobody?" Li Fuyao smiled as he spoke.

"Since you know who I am, then why're you obstructing me from obtaining my fortuitous encounter?" Shi Yu's eyes narrowed like blades and revealed a murderous aura that struck the heart.

"To tell you the truth, even though Brother Shi has the word 'Yu' within your name, you have no karma or fate with the Nine Continent Divine Cauldrons because it has already been obtained by my Little Junior Brother." Li Fuyao turned around and gazed towards the distant Damon Star before he smiled warmly and said, "If it wasn't for him, it would be impossible for you to see this scene, right?"

Shi Yu frowned while keeping his hands behind his back, and he said indifferently, "But it was noticed by me in the end. Since it's like this, then it means that this treasure is definitely related to me."

Li Fuyao couldn't help but smile, and he shook his head as he said, "You're wrong. If it wasn't for you, it would be impossible for me to make an appearance here. The circulation of cause and effect is just like this. Everything that has occurred today has already determined the ownership of the treasure."

"I don't agree to that. As it's said, it's a fight for supremacy, and fortuitous encounters belong to the Grand Dao, so I naturally have to fight for it in order to determine the final outcome. What do you think, Brother Li?" Shi Yu's bearing changed abruptly. His entire body surged with divine radiance while being enshrouded with strands of terrifying fluctuations of the Grand Dao, and it caused the surrounding space to be solidified while even time slowed down!

If anyone else was here, that person would definitely be able to notice that the time and space in this expanse of the starry sky seemed to have been locked down. There was no sign of the passage of time and movement of space here.

It was even to the extent that if an ordinary person were to stand here, then his lifespan wouldn't reduce at all while countless years passed in the outside world!

Li Fuyao's expression remained warm as before when he saw this, and he glanced mysteriously at Shi Yu as he said, "I heard that there's a new female disciple in Nuwa's Dao Palace, and Brother Shi has a new Little Junior Sister?"

Shi Yu frowned. "So what if I do? So what if I don't?"

"There's some fate between her and my Little Junior Brother. Unfortunately, it has been concealed by the heavens, and you've probably not noticed it." Li Fuyao grinned as he said, "I suggest that Brother Shi should make a trip back to your sect and ask if you can actually seize this fortune. Of course, if Brother Shi insists on making a move, then I can only accompany you until the end."

Shi Yu frowned as he glanced at Li Fuyao, and his expressions turned even more indifferent. "I heard since a long time ago that amongst the thirteen disciples of Oracle Mountain, you, Li Fuyao, love to make things seem mysterious the most. Now it would seem like it really is true."

Li Fuyao didn't mind at all, and he continued grinning at Shi Yu. "So, in this way, Brother Shi intends to fight me?"

"Of course...not." Shi Yu suddenly restrained the aura around his body and sighed. "If we do fight, then it would be absolutely impossible to decide the outcome in a short period of time. In this way, I would definitely lose the fortune I seek. So what's the point of fighting you?"

Li Fuyao smiled as he cupped his hands and said, "Thank you, Brother Yu, for fulfilling my wishes."

As he spoke, he suddenly turned his head and gazed towards the depths of the river of stars, and then he said, "For the sake of returning Brother Shi's favor, I'll help you deal with that beast."

His voice had just finished resounding through the air when his figure had vanished into thin air, and he could be said to be elusive and unfathomable.

"You..." Shi Yu was stunned. Shi Yu originally intended to ask Li Fuyao if Li Fuyao wasn't worried about him seizing this opportunity to take the Nine Continent Divine Cauldron. But in the end, he forcefully swallowed back these words and sighed angrily before stamping his feet and vanishing.

"Li Fuyao stop right there! Who asked you to help me deal with Saint Emperor Hei Ren?" In the depths of the river of stars, a displeased cold grunt resounded, and it was like a thunderclap that shook the nearby stars to the point of shaking violently.

...

Swish! Swish! Swish!

Not long after Li Fuyao and Shi Yu left, numerous figures appeared out of thin air and stood where they stood moments before. These figures included Zhou Zhili, Wang Daolu, Taba Tianxi, Zuoqiu Taiwu, and the instructors of the other six academies.

Moreover, even the great figure of the Immortal Court that held down the fort in Dreamcloud City, Dong Junhou, was amongst them.

All of these great figures of the various academies had converged here!

"Who were those two?"

"They were probably not one of the four great Immortal Kings. Their auras were completely different from the four great Immortal Kings, but they were similarly formidable."

"So in this way, they might be heirs of Oracle Mountain?"

"They might have been members of Nuwa's Dao Palace as well."

"That might not be the case. The Dragon Dimension and Buddha Dimension have Immortal Kings as well."

“No matter what, those two figures were definitely Immortal Kings, and it’s even to the extent that...”

All of them conversed with their will while their expressions were extremely heavy, and they faintly revealed a trace of fear and reverence. Moreover, they even didn’t dare speak about some uncertain guesses they had.

“The Nine Continent Divine Cauldrons have emerged into the world. Why would they have turned around and left before such a precious treasure from the primeval times?” One of them frowned and asked.

“Who knows? Look, the Nine Continent Divine Cauldrons have been taken now. I wonder which academy’s student actually possessed such heaven-defying good luck.” Dong Junhou stared at the distant Damon Star and sighed with emotion.

At this moment, Damon Star had returned to normal since a long time ago. The images of the nine ancient cauldrons had vanished along with the energy of space-time that suffused and whistled through the surroundings, and it seemed to have recovered to its previous calm state.

“It’s a pity indeed. Those two great figures were present here earlier, so we didn’t dare rashly approach Damon Star, otherwise...” One of them sighed and felt that losing such an extraordinary fortune was a pity.

“Haha! This shows that this fortune isn’t related to all of us old goats here. Perhaps only those young people are able to allow it to reclaim its former glory?” Dong Junhou laughed heartily and seemed to be rather open-minded. “Come, the exam hasn’t ended, so we can’t affect the fairness of the exam.”

As he spoke, he flicked his sleeve and left.

The others could only shake their heads and leave successively when they saw this.

...

Damon Star.

Within an utterly desolate gorge.

Chen Xi gazed towards the distance with a lingering fear in his heart. He was able to clearly notice that the Spatial Tide entrance that led to the tomb had already collapsed and was obliterated. Only a terrifying black colored spatial rift was left behind.

The tomb of a great figure that had existed for countless years was obliterated just like that? Chen Xi was still unable to calm himself when he recalled the scenes from before.

When the tiny cauldron activated the nine mysterious restrictions within the hall, it caused the nine ancient cauldrons to float up into appearance, whereas just like the other students, he was carried by an irresistible force and lose consciousness.

When he woke up once more, he’d been teleported to this desolate gorge.

At this moment, as he looked towards the distance and recalled the various fortuitous encounters he had in the tomb, even with Chen Xi's composure, he couldn't help but feel that it was unreal like a dream.

Looks like that tomb has really vanished, and it's impossible for it to emerge into the world in the future... Chen Xi took a deep breath, and then he completely recovered his calm.

"Earlier, the wills of two Immortal Kings enveloped this star." Suddenly, the tiny cauldron spoke words that caused Chen Xi to be astounded.

Immortal Kings! Two of them!

This caused Chen Xi to be shocked to the point of asking hastily. "Senior, then the nine cauldrons weren't taken away, right?"

"Of course not." The tiny cauldron's voice carried a trace of pride as it said, "Without the secret technique I inherited, could anyone take the Nine Continent Divine Cauldrons away? During the Primordial times, these nine cauldrons resided at various different areas of the world, yet not a single person was capable of taking them away."

Chen Xi heaved a long sigh of relief when he heard this, and his entire body relaxed. It couldn't be helped, existences at the Immortal King Realm were too terrifying, and merely this title was sufficient to induce despair in others.

"Senior, can I observe the Nine Continent Divine Cauldrons?" In the next moment, Chen Xi's eyes revealed a wisp of blazing yearning, and he asked with slight anticipation.

### [Talisman Emperor](#)

#### **Chapter 1249: Divine Blood Resin**

The tiny cauldron refused Chen Xi's request without the slightest hesitation. "Aren't you worried that its aura would be exposed and draw the greed of others?"

After that, Chen Xi instantly shut his mouth.

Earlier, two Immortal Kings had just left, and he wasn't willing to see a large group of terrifying experts rush over from sensing its aura. After all, the Nine Continent Divine Cauldrons were a precious treasure, and even revealing a shred of its aura would probably cause a disaster.

The tiny cauldron consoled Chen Xi in a timely manner. "I'll probably be able to completely refine the cauldrons when we're leaving the battlefield. At that time, it won't be too late for me to allow you to have a look at it."

Chen Xi nodded.

The gains he'd obtained from this trip to the Immortal King's Tomb were numerous, they included the '仙' character talisman that contained the energy of Life and Death, the Yin Yang Fish King's Origin Bone that contained the Laws of Taichi, the Nine Continent Divine Cauldrons... It was even to the extent that his cultivation had advanced once more by chance.

If he counted the Skyeearth Gourd, Heaven Hatred Seal, and Greensilk Palace Lantern, then these gains were even sufficient to make the seniors of the Immortal Dimension drool and burn with greed.

Of course, Chen Xi was unable to be certain that he would be able to keep the three ancient immortal treasures. After all, it was the ultimate treasures of the Bitter Silence, Grand Desolation, and Vastsky Academies. Now that these treasures had fallen into his hands, they would surely not let the matter go.

However, Chen Xi wouldn't give it back to them easily, and everything depended on whether they were able to show sufficient 'sincerity.'

"You have to be careful from now on. I exhausted too much of energy to claim the nine cauldrons earlier, and I need to cultivate in meditation for some time." The tiny cauldron instructed before falling into silence.

Chen Xi took a deep breath when he heard this, and then discarded the distracting thoughts in his mind before sweeping the surroundings with his gaze. After that, his figure flashed and vanished on the spot.

The commotion caused by the appearance of the nine cauldrons and the destruction of the tomb was too great, and it had caused the will of two Immortal Kings to envelop Damon Star earlier. It would probably not be long before even more experts rush over, so under such circumstances, Damon Star was extremely dangerous right now.

So Chen Xi intended to immediately leave this place.

I've killed nine Golden Immortal Realm Xeno-race experts earlier, and then I seized another fourteen from Zuoqiu Jun's group... In other words, I still lack another seventy seven... This won't do. A hundred kills are only considered as the basic requirements of the exam, and if I want to enter the academy's Ancient Dao Emperor Grounds, then I must ascend into the top five of the inner court exam. Fortunately, there's more than two months left before the inner court exam ends, and it's sufficient for me to hunt and kill a good number of Xeno-race experts...

Chen Xi pondered as he flickered repeatedly through space, and he charged out of Damon Star in the time of a few breaths.

According to the information I obtained from those students of Cloudmist Academy, there seems to be a group of over thirty plus Golden Immortal Realm Xeno-race experts on Bloodink Star... Now that I've advanced into the intermediate-stage of the Golden Immortal Realm, I can go temper myself there. Chen Xi withdrew the jade slip that contained the map and quickly found the position of Bloodink Star. After that, he immediately teleported and head over swiftly.

...

Bloodink Star.

No matter if it was the mountains, lakes, or even sky and air, everything on this star was crimson red like blood, and it was filled with a dense baleful aura that gave others an extremely oppressive feeling.

If an ordinary expert were to arrive here, then that expert's Dao Heart would be very easily invaded by the baleful aura, causing the expert to become irritable, bloodthirsty, and even be at risk of suffering qi deviation.

However, all of this was obviously unable to affect an existence at the Golden Immortal Realm.

Om~

A wave of ripples arose in space before Chen Xi's figure appeared out of thin air above a boundlessly vast blood colored wasteland.

At the same time, a terrifying and powerful Immortal Sense swept towards the surroundings with Chen Xi as the center, and it practically swept through the entirety of Bloodink Star in a short period of a few breaths of time.

...

On a bloody desert, decaying rocks of all shapes and sizes stood towering atop it. At this moment, there were surprisingly numerous figures standing in the surroundings of these rocks.

Some of them were in the shape of large trees and were completely covered in arms that seems like vines.

Some were completely covered in dense scales, had indigo eyes, and a pair of golden wings.

Some were even like enormous blood colored balls of flesh with bell sized eyes that were studded on the balls of flesh. They had no limbs and bounced on the ground, causing them to seem extremely amusing.

They had strange and varied appearances, but their auras were extremely formidable. At the instant when Chen Xi's Immortal Sense swept past them, they noticed it at the first possible moment.

"Hmm? Who is it?"

"It's definitely the natives of the three dimensions!"

"Hmph! They've come just at the right time. It's already been so long since we've played with a woman from the three dimensions. I hope that it's a tall, slender, and beautiful woman this time. HAHAAH!"

"Calm down! Our assignment is to unearth Divine Blood Resin here. No one is allowed to leave arbitrarily without my orders!"

A Xeno-race expert that was covered in scales, had indigo skin, and a pair of golden wings behind him frowned as he shouted in a stern voice.

The restlessness in the surroundings vanished instantly, and they went silent.

This was their commander, and he was called Lan Qi. He was an expert from the Outerealm's Lilywave World, and he was an existence comparable to experts at the advanced-stage of the Golden Immortal Realm. He was one that acted cold-bloodedly, and he was cruel and merciless.

"Commander Lan Qi, Divine Blood Resin are formed from the divine blood of the primeval gods that rained down here during the battles of the past. Now that they'd experienced the corrosion of countless years, they've become extremely rare a long time ago. It isn't easy to unearth a huge amount of them."

"It isn't just that. Divine Blood Resin even contain a trace of the will of the gods, and it's as if they possess intelligence of their own. Even if we're able to locate the place they reside, the slightest carelessness would allow them to escape. They're extremely difficult to deal with."

"Commander Lan Qi, we've bitterly exhausted half a year here, yet we've only unearthed three thumb sized Divine Blood Resin. If this continues, then we'll be utterly unable to complete the orders of Saint Emperor Zi Qing."

All the Xeno-race experts instantly frowned when Divine Blood Resin was mentioned, and they voiced their grievance and complained without end. Obviously, they were extremely dissatisfied because they had to accomplish such an assignment.

"Hmph! If Divine Blood Resin was easily obtainable, then would we have to do it?" Lan Qi was displeased and berated loudly.

The others puckered their lips and instantly didn't dare speak another word.

...

Chen Xi had concealed himself in the space extremely far away from them, and he'd clearly heard everything Lan Qi and the others had said. Especially when he found out that these Xeno-race experts were actually unearthing Divine Blood Resin, he couldn't help but be slightly shocked in his heart.

When he was reading through the books in Dao Emperor Academy's Scripture Reserve, he'd once read the introduction of Divine Blood Resin. It was condensed from the blood of the primeval gods, and it contained a trace of the quintessence will of these gods. Not only could it be utilized as a precious pill refinement material, most importantly, this treasure was simply a supreme precious treasure to those that cultivated in the School of Fiendgod Body Refinement.

If one utilized Divine Blood Resin to cleanse the body, then it would allow one's body to undergo a shocking transformation. The body would be able to hold the aura of divinity, and it was called the Body of Gods. Once it was cultivated successfully, then the body was practically eternal, and it was extremely terrifying.

Of course, this was only one of the most commonly known effects of Divine Blood Resin.

If my clone cultivates the Nethergod Nine Cauldron Form with Divine Blood Resin, then its speed of advancement would probably be not as difficult as it is now, right? Chen Xi thought of his clone, and he seemed to be lost in thought.

Chen Xi's clone was cultivating the Nethergod Nine Cauldron Form, and it had always been advancing at a very slow pace. Even though its body refinement cultivation had advanced into the perfection-stage of the Mysterious Immortal Realm since a long time ago, the Nethergod Nine Cauldron Form was still at the first level until now.

Before this, the tiny cauldron had once promised that so long as he was willing, the tiny cauldron would guide his clone in cultivating the Nethergod Nine Cauldron Form. However, guidance was only guidance after all. If his clone didn't have the assistance of other treasures, then the effect of this guidance was probably be reduced greatly.

“Commander Lan Qi! Quickly! Another Divine Blood Resin has emerged from the ground!” Suddenly, a loud and pleasantly surprised shout resounded, and it drew Chen Xi’s attention.

A blood red and dazzling crystal soared into the sky above the blood colored dessert, and it emanated a terrifying energy of blood. It actually tainted the entire expanse of the heavens and the earth around it into scarlet red.

At this moment, a Xeno-race expert that was completely covered in arms that seemed like vines was moving countless vines to keep the blood crystal from escaping. However, the might of the blood crystal was extremely terrifying, and it actually dragged the Xeno-race expert all around in the air and faintly showed signs of escaping his control.

“Quickly! Quickly make a move together and capture it. We must not allow it to escape!” Lan Qi roared and was extraordinarily excited.

Before his voice could finish resounding through the air, the other Xeno-race experts had moved out in succession, and they flashed in midair as they blocked off all the paths of retreat from all directions.

Rumble!

In the next moment, various terrifying attacks sprayed down towards the scarlet red crystal like a storm, and it drowned the entire heavens and the earth while revealing an extremely terrifying impetus.

“Has it been captured?”

“Who got it?”

“Bastards! If anyone dares to take possession of it for themselves, then I’ll kill your entire clan if I find out!”

After a short moment, the dust and dirt dissipated. The excited expressions on the faces of Lan Qi and the others vanished gradually, and then they glanced at each other with gloomy and doubtful expressions.

Especially Lan Qi, his ferocious gaze swept all the others, and it seemed as if he was on the verge of swallowing them up.

The reason was extremely simple. They’d moved out in unison, yet the Divine Blood Resin had actually vanished into thin air!

“Commander, look over there!” One of them glanced over inadvertently and suddenly noticed a figure flashing momentarily before vanishing into space. However, that expanse of space was enshrouded by a wisp of scarlet red light, and it was because of the scarlet red light that his tracks were exposed.

“Bastard! You actually dared to seize something that belonged to us!”

“Eh! That fellow wouldn’t be that native of the three dimensions we sensed earlier, right?”

“Kill! No matter who he is, we’ll kill him and reclaim the Divine Blood Resin first!”

All the Xeno-race experts roared with savage appearances, and they seemed ruthless and bloodthirsty. In the next moment, all thirty plus of them actually moved out simultaneously, and they teleported towards that figure.

The person that seized the Divine Blood Resin was naturally Chen Xi.

However, he'd never expected that the trace of the will of the gods contained within the Divine Blood Resin would be extremely tenacious, and he had no choice but to expose his tracks for the sake of suppressing and eliminating this trace of will.

Of course, Chen Xi had never intended to flee.

"Wait a moment!" When he saw those Xeno-race experts comparable to experts at the Golden Immortal Realm had swarmed over, Chen Xi said immediately, "Can I ask all of you a question before the battle begins?"

"Speak! I'll fucking satisfy this wish of yours before you die!" Lan Qi waved his hand, and all the other Xeno-race experts suddenly stopped moving. They sealed off all Chen Xi's paths of retreat, and then they laughed coldly as they looked cruelly at him.

"Who amongst all of you is the best at unearthing Divine Blood Resin?" Chen Xi asked in a straightforward manner.

### [Talisman Emperor](#)

#### **Chapter 1250: The Mantis That Stalked The Cicada**

Chen Xi's question was obviously a bit too unexpected to these Xeno-race experts, and it even seemed as if he was mocking them.

What does he mean by who amongst us is the best at unearthing Divine Blood Resin? This fellow is obviously mocking us! Especially when they were on the brink of battle, he was actually unconcerned about his fate and had asked such an incomprehensible question, it was indeed extremely difficult to not arouse their rage.

"He actually dared to joke with us at a time like this! Kill! Kill this damnable native!" Lan Qi exploded with rage, and he pointed at Chen Xi while shouting with a grim voice.

"Kill!" The other Xeno-race experts were furious as well, and they charged ferociously.

Instantly, various terrifying and ruthless attacks soared into the sky and rumbled like thunder, and the sky was suffused with various blazing glows that drowned the heavens and the earth.

Rumble!

Space shattered while the blood colored desert raged violently and rocks shattered into powder in an area of 5,000km around Chen Xi, and it had completely fallen into chaos.

However, to the astonishment of Lan Qi and the others, they'd actually lose track of Chen Xi's figure in the battlefield. In other words, they were actually unable to lock onto Chen Xi since the instant they attacked.

All battles between experts required capturing opportunities through one's Immortal Sense and will, and it allowed one to turn the situation of the battle around in an instant before deciding the outcome.

Yet they weren't even able to lock onto their enemy, so the consequences were obvious.

Pu! Pu! Pu!

In the next moment, a figure suddenly flashed out of nowhere, and it flickered repeatedly. Every time it flickered, there would definitely be a Xeno-race expert who was killed, and they either had their throats pierced, had their heads slashed off, or were directly cut into half at the waist...

All of this occurred too swiftly. In the blink of an eye, only Lan Qi remained from the thirty plus Xeno-race experts that were present here.

He seemed to have been stunned by this terrifying and shocking scene before his eyes, and he stood dumbstruck on the spot as if he was a soulless puppet.

It was too swift and too terrifying!

Lan Qi felt as if he was dreaming, and he didn't dare believe that a native of the three dimensions at the Golden Immortal Realm was capable of erupting with such a heaven-defying combat strength. This sort of ability to kill simply decided life and death in an instant!

"No, this isn't real... When have the natives of the three dimensions become so formidable? This is impossible..." Lan Qi muttered while his entire body couldn't help but shiver and tremble while he felt death approaching.

Because at this moment, he suddenly noticed that Chen Xi's figure was surprisingly standing 3m away from him.

"Don't kill me. I know who's best at unearthing Divine Blood Resin!" Lan Qi was horrified, and he roared repeatedly.

Chen Xi smiled. "I don't feel like knowing that now. Hand over the Divine Blood Resin in your possession and I'll allow you to die a swifter death!"

His handsome face, and he had a gentle smile on his face, yet when it entered into Lan Qi's eyes, this smile was even more horrifying than the most terrifying demon on Lilywave World.

"Don't go too far!" Lan Qi roared. "The Divine Blood Resins are something my race's Saint Emperor Zi Qing requested. Even if I were to give it to you, would you dare accept it?"

Chen Xi was stunned. "Would I be afraid of taking anything?"

"You..." Lan Qi stared with his eyes wide open. He didn't dare believe that this fellow before him was a native of the three dimensions. Could it be that he's unaware that he'll die a horrible death if he takes a treasure that belongs to an Outerealm Saint Emperor? If it was any other ordinary native, that person would probably think it over when encountering such a threat, right? But this fellow's reaction was so casual... My god! What sort of freak is he?

Lan Qi was on the verge of going mad while terror, rage, horror, frustration, and various other emotions interweaved within his heart. For a time, he stood there like a fool and stared at Chen Xi while actually being at a loss for words.

Chen Xi similarly felt that this fellow's reaction was extremely weird. He's already at the verge of death, yet he's actually standing there like an idiot. Such an opponent is truly rare.

However, even though it was rare, Chen Xi wouldn't feel any sympathy and let Lan Qi go.

"Haha! You want to kill me? It's impossible! I'd rather die at my own hands than allow natives of the three dimensions like you to defile my body!

"Just you wait! The upheaval of the three dimensions is at hand. All of you natives of the three dimensions must die!" Suddenly, Lan Qi roared while his expression of terror and frustration had vanished completely. All that was left was devotion that was fervent to the bone and extreme hatred towards the three dimensions!

As he spoke, his body rumbled and erupted with green flames. In an instant, he was incinerated into ash and vanished without a trace.

He died without the slightest hesitation!

These words seemed to be strange, yet Chen Xi was unable to find any word to describe the scene before him.

"This hatred...really is irreconcilable..." When Chen Xi recalled Lan Qi's fervent expression and the deep-rooted hatred in Lan Qi's eyes before his death, Chen Xi's heart felt slightly heavy for no rhyme or reason, and Chen Xi couldn't help but sigh lightly.

The hatred between the three dimensions and the Xeno-race had lasted since the primeval times until now, and it was irreconcilable indeed. Perhaps only a war of blood and flames, and the complete destruction of one side would be able to allow this hatred to vanish.

In the past, Chen Xi's understanding of this wasn't very deep. However, Lan Qi's death had inadvertently touched a string in his heart, causing him to have an even deeper understanding of this hatred that had been accumulated for countless years.

...

After a short moment, Chen Xi took a deep breath and discarded the distracting thoughts in his mind before starting to clean up the battlefield. In the end, he obtained four more thumb sized Divine Blood Resins.

The aura of blood within this treasure was shocking, and it was scarlet red and bright like the most dazzling red diamond in the world. Merely holding it in his hand caused a thick aura of blood to assault his face, yet it wasn't bloody, and it seemed like numerous little suns that caused his entire body to feel warm and comfortable instead.

After he put these spoils away carefully, Chen Xi utilized the Eye of Divine Truth and started to search this area that had been dug up by Lan Qi and the others.

The Divine Blood Resin was an extraordinary treasure, so it was naturally best to gain as many as he could.

Since Lan Qi and the others had unearthed a few Divine Blood Resins here, then there were definitely more buried here, and they had just not discovered them yet.

Swoosh!

The vertical eye between his brows emanated a deep jet black light that seemed to be able to see through reality, and it revealed the essence of all things before him.

“Hmm? There really are many left...” After a short moment, a wisp of excitement appeared on the corners of Chen Xi’s mouth.

Within his field of vision, there was actually a natural and obscure blood colored fluctuation at the depths of the ground beneath the blood red dessert, and it was like a restriction that caused the layers of ground beneath him to become extremely solid to the point of even being able to obstruct the detection of one’s Immortal Sense.

However, all of this was unable to hide from Chen Xi’s Eye of Divine Truth. At this moment, he cleared noticed that at the depths of the obscure blood colored fluctuation 30km beneath the surface was numerous dazzling, blood red, and extremely blazing glows buried there. Shockingly, they were all Divine Blood Resins!

“Thirty seven of them!” Chen Xi’s eyes lit up. The primeval gods definitely had a battle on Bloodink Star, and they shed a great deal of blood. Otherwise, it’s impossible for so many Divine Blood Resins to have condensed into form.

As he thought like this in his heart, Chen Xi flipped his palm, and a square shaped ancient seal appeared before he fiercely smashed it towards the ground.

The ancient immortal treasure — Heaven Hatred Seal!

Rumble!

A divine glow erupted while hatred shot into the sky. Merely a single strike had forcefully smashed upon a bottomless abyss in the ground, and the ground in an area of 500km was shaken to the point that sand shot up and filled the sky.

If the seniors from Bitter Silence Academy were to see that the ultimate treasure of their academy had actually been utilized in this way, they would probably be infuriated to the point of spitting blood.

Chen Xi was clearly unconcerned about whether he was utilizing this ancient immortal treasure wrongly. He put the Heaven Hatred Seal away before withdrawing the Skyeath Gourd, and then he jumped onto it and charged into the depths of the ground with a swish.

...

Om~

Not long after Chen Xi had left, a wave of spatial fluctuation arose before a few figures appeared.

Surprisingly, they were Xeno-race experts. The only difference was that their auras actually surpassed Lan Qi and the others, and they could compare with Saint Immortal Realm experts of the three dimensions!

“Lan Qi and the others are dead!”

“The culprit just left and entered the depths of the ground!”

“Don’t pursue him! The aura of blood there is too thick, and it’s too dangerous. Waiting here for him is enough.”

“Dammit! He actually dared to meddle in Lord Saint Emperor Zi Qing’s affairs. I’ll definitely skin that native of the three dimensions alive when he emerges!”

These Xeno-race experts conversed via their thoughts. Their expressions were ruthless to the extreme, and they didn’t conceal their killing intent at all.

Time flowed by slowly.

After the time for an entire incense stick to burn, a wave of fluctuations suddenly arose from underground, and it was flying towards them at a terrifying speed.

This scene was instantly noticed by those Xeno-race experts that were comparable to Saint Immortals. They instantly restrained their auras while accumulating strength and waited for the moment to attack. They were like the most experienced hunters that were waiting for the moment their prey took the bait before killing it in one go.

“Nightmare Battlefield doesn’t allow the appearance of existences at your cultivations.” However, right at this moment, an indifferent voice resounded. Accompanying this voice was a figure that appeared out of thin air. He wore a grey robe, had an emaciated figure, a face that was covered in crisscrossed wrinkles that were deep like ravines, eyes that were narrowed into slits and sunken into their sockets, and he seemed as if he was sleeping. He was actually the inner court instructor of Dao Emperor Academy, Zuoqiu Taiwu!

“Who is it!?” The Xeno-race experts were shocked and couldn’t be bothered about restraining their auras as they turned around successively and locked onto Zuoqiu Taiwu.

Bang!

Unfortunately, Zuoqiu Taiwu didn’t speak another word and attacked directly, and he seemed to be extremely domineering. With only a flick of his sleeve, the entire heavens and the earth seemed as if it had collapsed, and it was locked down by a terrifying shapeless force.

After that, he took a step forward while his grey robe fluttered, and then raised his hand before grabbing lightly.

Bang!

A Xeno-race expert comparable to a Saint Immortal was actually crushed apart from afar and transformed into pieces of meat!

He annihilated an existence comparable to a Saint Immortal with a casual attack!

This was a Half-step Immortal King. Even though they were unable to compare to Immortal Kings, yet their strengths were sufficient to look down upon all Saint Immortals in the world!

“Dammit! He’s actually a Half-step Immortal King! We’ve fallen into an ambush! Flee!” The other Xeno-race experts were terrified, furious, and extremely shocked, and they turned around and fled without the slightest hesitation.

“It’s a rare occasion that I make a move. So wouldn’t I seem to be too useless if I allowed all of you to escape? Leave your lives behind!” Amidst his indifferent voice, Zuoqiu Taiwu’s clothes fluttered while his aura shook the surroundings, and he swung his aged and broad palm. Every time he slapped out with his palm, a Xeno-race expert would definitely be slapped into pieces and perish on the spot, and even teleportation was unable to escape such attacks!
