Chapter 1311: Origin Disruption Divineligh

Grand Desolation Academy's Wu Fangjun had drawn lot no. 3.

Wu Fangjun had a seemingly overweight figure, a fair and chubby face, and eyes that were small like peas. His entire appearance seemed extremely ordinary, yet during the second round of the Dao discussion, he'd defeated Zhen Lu and revealed extraordinary combat strength that caused others to not dare underestimate him.

But at this moment, when he encountered Chen Xi's gaze, Wu Fangjun's chubby face couldn't help but twitch, and seemed to be fearful and hesitant.

However, in the end, he gritted his teeth before his figure that was fat like a ball actually drew out a graceful arc as it flashed through the air and arrived on the combat arena.

"I'll discuss the Dao with you!" When Wu Fangjun spoke, he'd directly withdrawn a bright silver Immortal Artifact, and it tightly enveloped his overweight figure.

This Immortal Artifact seemed like a bowl. It was completely round and translucent, and it was suffused with strands of piercingly cold silver brilliance while it emanated a dreamlike and extremely beautiful radiance.

"The Origin Disruption Divinelight Barrier!" The pupils of everyone couldn't help but constrict when they saw this treasure. This treasure's attacking capabilities couldn't be considered to be formidable at all, but it was a superb defensive treasure that was said to be impossible to be touched by anything.

The reason was the Origin Disruption Divinelight. It was an extremely unique divine light in the three dimensions, and it was capable of dispelling the attacks of all sorts of energies, causing them to be unable to touch it at all.

A few tens of thousands of years ago, there was a famous Origin Disruption Saint Immortal in the Immortal Dimension, and he'd cultivated the Origin Disruption Divinelight to an extraordinary level. During a battle in the Outerealm Battlefield, he'd fallen into the Xeno-race army all alone, yet there was actually not a single attack that could strike him, allowing him to escape completely unharmed!

This was the strength of the Origin Disruption Divinelight, it dispelled all sorts of attacks into nothingness, causing nothing to be able to touch it!

At this moment, when they saw Wu Fangjun activate this treasure upon entering the combat arena, besides feeling shocked, everyone couldn't help but curse this fellow for being shameless and utterly cowardly.

But Wu Fangjun's expression remained calm as before when facing this. After he'd witnessed Chen Xi's formidable combat strength and extremely ruthless methods, how could he dare play around with his life? He was deeply afraid of following in the footsteps of Yan Yun, Yu Xiushui, and Wang Xuechong, and being thrashed by Chen Xi to the point even his own mother couldn't even recognize him.

“The Origin Disruption Divinelight...” Chen Xi was stunned, and then he couldn’t help but smile. This fellow really is smart. After that, he immediately flipped his hand in a casual manner and similarly withdrew a treasure.

This treasure was a bronze bell. It was 30cm tall while its surface was densely covered by profound Dao markings, and it emanated an obscure and mysterious aura. It was precisely the Valiant Grade Immortal Artifact Chen Xi had obtained from the Immortal Court’s Dong Junhou after the inner court exam in the Outerealm Battlefield ended for his outstanding performance, the Soul Descent Bell!

“A bronze bell immortal treasure?” Wu Fangjun was stunned, and he was slightly puzzled. After that, he raised his vigilance and didn’t dare be careless. This kid possesses too many immortal treasures while his methods are numerous and strange. I have to be on guard against him.

In next to no time, the battle began.

Wu Fangjun suddenly flashed at practically the first possible moment, and his fat figure revolved like a madly spinning top while flicking throughout the combat arena.

Bright silver Origin Disruption Divinelight flew about all over his body, and it was extremely dazzling. It caused others to be unable to capture his tracks, and they could only see the brilliant Origin Disruption Divinelight flowing about throughout the combat arena.

This sort of combat strategy was extremely conservative, and he seemed as if he didn’t seek to defeat Chen Xi but not to make a mistake instead.

Chen Xi’s reaction towards this was extremely simple. His figure flashed and started flickering in midair while a pair of wings that flowed with jet black light appeared behind him, and he started to pursue Wu Fangjun’s figure.

The Wings of Disruption!

The treasure was refined from Profound Disruption Divinelight, and it was said to be capable of eliminating the five elements of the heavens and the earth. Even though its quality was low and was unable to compare to an immortal treasure, when it was utilized together with the spatial energy that Chen Xi possessed, he was even slightly swifter than Wu Fangjun.

Swoosh!

In practically a few flickers, Chen Xi had approached Wu Fangjun, then the Profound Disruption Divinelight swept out to collide with the Origin Disruption Divinelight, and it actually created a strange stagnate force.

It was like two pieces of mud sticking together to each other, and not only was there no violent collision, it created an extremely great attractive force between them!

No matter if it was the Origin Disruption Divinelight or the Profound Disruption Divinelight, both of them were a type of disruptive light of the three dimensions. They each possessed their own profound effects, but they were both of the same type.

Chen Xi instantly started smiling when he saw this scene because he’d made the right bet. Originally, he hadn’t intended to utilize the Wings of Disruption to deal with Wu Fangjun, and it was only because a

flash of inspiration had appeared in his mind upon seeing Wu Fangjun activate the Origin Disruption Divinelight Barrier, causing such a scene to occur.

“Profound Disruption Divinelight! Shit!” Wu Fangjun’s expression turned pale from fear. He didn’t even have the time to react when he felt the scene before his eyes darken, and then a grand bronze bell had smashed down towards him...

The scene before everyone’s eyes flashed, and then Wu Fangjun had been covered beneath the bronze bell.

It was too swift!

As soon as the battle began between them, they’d pursued each other with lightning speed, and their figures flickered as they moved about, causing the eyes of the spectators to be unable to take the entire scene in.

Moreover, before the two of them had truly fought each other, Wu Fangjun had actually been instantly enveloped by Chen Xi’s bronze bell, and even the Origin Disruption Divinelight Barrier that was said to be impossible to be touched by anything was completely useless against Chen Xi!

Dang! Dang! Dang!

The Soul Descent Bell trembled repeatedly while strange ringing resounded and shook through the heavens and the earth. It was capable of seizing the soul and seemed capable of shattering and dispersing one’s soul.

Obviously, Wu Fangjun was struggling within the Soul Descent Bell with the intention of escaping with brute force.

However, how could Chen Xi possibly allow him to succeed? Chen Xi tapped the ground with the tip of his toe and appeared on the Soul Descent Bell, and then he smashed down with his foot, causing the Soul Descent Bell to be completely suppressed and stop shaking.

Only the strange rumbling of the bell resounded without end.

“Wu Fangjun... is finished!” The expressions of all the instructors and students from Grand Desolation Academy turned grim while their hearts felt extremely heavy because even an extremely careful and vigilant student like Wu Fangjun had been caught off guard and was suppressed beneath the bell. This had exceeded their expectations, and it allowed them to clearly understand that Chen Xi’s abilities were so numerous that he simply seemed to be capable of anything.

No matter if it was Wang Xuechong’s formidable or the Origin Disruption Divinelight Barrier Wu Fangjun utilized in this battle, they seemed to be utterly unable to do anything to Chen Xi, and it was even to the extent that they were completely suppressed by Chen Xi!

Where did this little bastard get so many strange abilities?

They were unable to figure it out no matter how they wracked their brains.

On the other hand, cheers erupted in succession from the students of Dao Emperor Academy, and they cheered without end for Chen Xi. Chen Xi was simply like a god that suppressed the world with a single bell, so how could they not be excited?

...

After a short moment, the Soul Descent Bell went silent, and there wasn't a single sound coming from within it.

Chen Xi's figure flashed before he put the Soul Descent Bell away to reveal Wu Fangjun who resided within it.

At this moment, Wu Fangjun's fat figure lay limply on the ground. His face was disfigured while white froth foamed from his mouth, and he seemed like he was born with a mental disability. His soul still being intact could be considered to be an extremely fortunate matter for him.

However, when this scene entered into the eyes of all the spectators, it caused them to be astounded and shocked to the extreme. They seemed to have never expected that the method Chen Xi utilized to obtain victory in this battle would still be so direct and domineering, and it simply seemed as if nothing unexpected had occurred before he'd defeated his opponent in one go!

...

When they looked back to all Chen Xi's battles, since the battle he defeated Yan Yun in until now, he'd practically never revealed a situation where it was an intense and equally matched battle.

His opponents had either been smashed, burned, slapped to the point of kneeling, or directly knocked out by the Soul Descent Bell. From the beginning until the end, the style he revealed could be described in a single word — crushing!

All powerful as if he was sweeping through dried leaves!

This indirectly proved that Chen Xi was much stronger than every single opponent he faced, and he wasn't just slightly stronger. Otherwise, it was absolutely impossible to accomplish this by merely relying on a few treasures.

After the instructors and students from Bitter Silence, Grand Desolation, and Vastsky Academy witnessed this battle, they'd finally understood this.

They'd underestimated Chen Xi!

In the past, they felt that the only student worthy of them attaching importance to in Dao Emperor Academy was Ye Tang, but now, they finally realized that Chen Xi was much more terrifying than Ye Tang!

His combat strength was terrifying, his methods were ruthless, and he acted without any fear. He was simply a cruel and merciless little devil, and practically all the students that were defeated by him were heavily injured and on the verge of death.

This sort of understanding caused them to not dare underestimate Chen Xi any longer. Especially the students who were participating in the final round of the Dao discussion, they simply seemed as if they were facing a formidable enemy, and their expressions became heavy.

On the other hand, in the opinion of the instructors and students of Dao Emperor Academy, Chen Xi took their breath away. He was extremely shocking and outstanding like a dazzling star that was emanating its eternal radiance!

...

No matter what, the Dao discussion had to continue in the end.

Before long, the fourth challenger entered the combat arena, and it was Grand Desolation Academy's Helian Qi. As expected, he similarly chose Chen Xi to be his opponent.

Helian Qi was a tall, thin, and cold young man. During the second round of the Dao discussion, he'd defeated Zhao Mengli and revealed extraordinary combat strength.

However, all of this was utterly insufficient before Chen Xi. After ten minutes had passed, Helian Qi was thrashed to the point of laying limply on the ground. His face was swollen while he himself had fainted before he was kicked off the combat arena by Chen Xi.

All of this was similarly shocking to everyone. The only thing that aroused the curiosity of all was exactly how formidable Chen Xi's combat strength actually was and where his limits were.

No one knew the answer.

...

The fifth challenger was Vastsky Academy's Cai Ta.

...

The sixth was originally Xiao Qianshui, yet for an unknown reason, he gave up this chance and allowed Grand Desolation Academy's Yue Yu to challenge Chen Xi first.

The outcome was similarly as expected. Cai Ta's legs were broken, and he knelt on the ground while letting out shrill cries as he admitted defeat, whereas Yue Yu suffered an even more horrifying fate. Chen Xi seized the whip in Yue Yu's possession before whipping her to the point she turned pale and her flesh and skin split apart. She cried hysterically for a long time before finally wailing as she admitted defeat.

Yue Yu was a beautiful female student, yet Chen Xi had actually acted without any mercy and was as ruthless as before. It caused the students of Dao Emperor Academy to feel that Chen Xi really didn't know how to appreciate a beauty because he'd obviously ruthlessly destroyed this beauty.

However, the attitude of the female students towards this was unexpectedly uniform, all of them supported Chen Xi, and they cursed the male students for being hypocrites and players. All of them felt that Chen Xi was a true man!

Chapter 1312: Shapeless Calamity

At this point in the Dao discussion, six of the eight participating students had been eliminated, and all of them were successively defeated by Chen Xi.

Merely such an accomplishment in battle had already caused Chen Xi to become the most dazzling figure present here, and Chen Xi's name would definitely spread throughout the entire Immortal Dimension as soon as the Seven Academy Dao Discussion ended.

But now, the Dao discussion hadn't ended.

Because Xiao Qianshui still remained!

Xiao Qianshui had drawn lot no. 6 earlier, and he was originally supposed to be the sixth student to issue a challenge, yet he'd given up this opportunity and allowed Grand Desolation Academy's Yue Yu to go before him.

No one knew why he'd done this.

But at this point, when they saw that only he and Chen Xi remained, everyone faintly understood, and they couldn't help but laugh coldly in their hearts. This perverted fellow truly isn't willing to lose to others in any aspect!

Everyone had perceived that Xiao Qianshui had acted in this way because he wasn't willing to challenge Chen Xi, and he wanted Chen Xi to challenge him instead.

It seemed as if it was only the difference of being a challenger and being challenged, but if one pondered on it carefully, then the meaning behind it was greatly different indeed.

...

"Come. Since you so urgently want me to challenge you, then what're you still standing there for?" On the combat arena, Chen Xi raised his head before his gaze that was like a bolt of cold lightning locked onto Xiao Qianshui, and his calm expression revealed boundless killing intent.

After experiencing the six battles from before, Chen Xi didn't feel any sense of accomplishment at all because his target had never been placed on them.

Even though battle would exhaust one's physical strength and Immortal Force, to Chen Xi who possessed the Dark Parasol Sapling and had cultivated his Heart Energy to the Heart Soul Realm, all of this wasn't a problem.

Conversely, this level of battle was even slightly dissatisfying to Chen Xi because since he advanced into the advanced-stage of the Golden Immortal Realm, he noticed that his combat strength had risen explosively by too much. Even if he didn't utilize the Dark Parasol Sapling, he was confident in being able to persist until the Dao discussion ended.

All of this came from his recent painstaking cultivation.

“Hahaha! You’ve finally taken the initiative to challenge me! As you wish!” Suddenly, Xiao Qianshui roared with laughter while his green robe fluttered, and then he instantly appeared on the combat arena to stand in confrontation with Chen Xi from afar.

His face was narrow and long while his expression was cold and gloomy, and his entire body emanated a vicious aura that was ghastly and oppressive. As he stood there casually on the combat arena, he was like a god of evil that had descended there, and he emanated a terrifying aura.

“I’ve watched every single battle of yours from before. Truthfully speaking, your strength exceeded my expectations. But the more it’s like this, the happier I feel.” Xiao Qianshui’s gloomy and sharp voice slowly resounded atop the combat arena. “If you’re only a piece of trash, then even if I defeated you, I wouldn’t be able to feel any pride from winning the position of champion in the Seven Academy Dao Discussion. Fortunately, you aren’t trash.”

These words carried an insufferably arrogant tone, and it could be considered a form of acknowledgement towards Chen Xi’s strength.

But when it entered into Chen Xi’s ears, it caused him to be slightly stunned before he smiled. “But what you don’t know is that in my eyes, you really aren’t trash because you’re...even inferior to trash.”

The surroundings exploded into an uproar when these words were spoken. They’d never expected that Chen Xi would actually dare to be so domineering and blunt when facing an existence like Xiao Qianshui who was on par with Wan Jiansheng, and it was astounding.

This bastard is really courting death! Let me see how long you can be arrogant for!

The expressions of the instructors and students from Bitter Silence, Grand Desolation, and Vastsky Academy sank, and they sneered without end. They were extremely confident in Xiao Qianshui, and they felt that Chen Xi’s actions at this moment were no different from courting death!

Xiao Qianshui was similarly stunned when he heard this, and then he stretched out his scarlet red tongue to lick his lips before he suddenly roared with laughter. “Hahaha! The more arrogant you are, the happier I am. I hope that when the battle starts, your combat strength will be as great as your arrogance.”

When he spoke up to here, his smile instantly became icy cold like a blade as he spoke word by word. “Otherwise, I’ll torture you until you’re unable to leave this combat arena!”

This sharp voice revealed a horrifying aura of ruthlessness.

The expressions of many people turned grim as they clearly realized that once Chen Xi lost in this battle, then this perverted fellow, Xiao Qianshui, would torture him to the point living would be worse than death!

Chen Xi just smiled in return. “Then I’ll wait and see.”

At this point of the conversation, the atmosphere was extremely tense and confrontational. It seemed as if a shapeless undercurrent was surging through the combat arena, and it caused even the air to seem to be on the verge of freezing.

The entire surroundings were deathly silent. No matter who it was, all of them were staring fixedly at the combat arena at this moment, and they were extremely anxious and deeply afraid of missing even the slightest detail.

Because everyone was clearly aware that this battle was bound to be the most intense battle in the Seven Academy Dao Discussion, and it was related to the vie for the championship and the reputation of Dao Emperor Academy.

There was one more thing that the others weren't aware of. This battle was a collision between the forces of Oracle Mountain and the Sovereign Sect!

...

Dang!

Amidst this extremely deathly silent atmosphere, the sound of the bell resounded, and it drew apart the curtains to the final peak battle of the final round.

Clang!

At the instant the sound of the bell resounded, an extremely fine and long narrow sword appeared abruptly in Xiao Qianshui's hand. The body of the sword was fine like a finger, over a meter long, completely pitch black, and sharp to the point it was like a wisp of a black flowing light.

"This sword is called Godstab. It isn't an insult to this treasure by using it against you." Xiao Qianshui smiled gloomily. Along with his voice, an indescribably terrifying aura suddenly swept out from him and threw the clouds in the surroundings into chaos!

When looked at from afar, he seemed like a primeval god of evil that had descended into the world. His narrow and long eyes flowed with lightning, and it caused the surrounding space to rumble and wail.

This imposing aura was extremely terrifying, and it wasn't inferior to Ye Tang and Wan Jiansheng at all. Moreover, an even more horrifying thing was that the aura in his surroundings faintly emanated a strand of the aura of calamity that aroused nervousness in the hearts of all.

It seemed as if he was a calamity, and if it descended, it would definitely be accompanied by a rain of blood and boundless death!

"Shapeless Calamity Aura! It really is the inheritance of the Sovereign Sect... This kid is definitely related to the Sovereign Sect!" At this instant, Wang Daolu's face sank, and his eyes flowed with strands of terrifying divine light.

Chen Xi's eyes couldn't help but narrow as well when he sensed the aura of calamity that filled the surroundings, and the vital energy in his body seemed to have been stimulated, causing it to circulate silently by itself and rumble.

Clang!

Starclasp appeared in his hand. In an instant, Chen Xi seemed as if he'd become a completely different person. His clothes and jet black hair fluttered while his handsome face was covered in an indifferent and calm expression.

Especially his eyes, they surged with a scene that was vast like the starry sky, sharp and murderous like a sword, and seethed with terrifying killing intent that was like lava.

This was the first time he'd utilized Starclasp since participating in the Dao discussion, and this displayed that Chen Xi had started to truly battle without holding back at this moment!

Om! Om! Om!

The space in the surroundings were completely shattered by a murderous and fierce aura while the swords of many students in the surroundings even started droning and wailing at this moment as if they were submitting and worshipping a king.

This caused the expressions of many people to change, and they looked at Chen Xi with surprise and bewilderment.

"The realm of Sword God!" Ye Tang who was leaning on the auspicious cloud suddenly sat upright, and the gaze he shot at Chen Xi erupted with brilliant light. He didn't conceal his surprise and admiration at all. "No wonder Junior Brother Chen Xi was so calm and composed. It turns out that he has walked onto the path of a Sword God a long time ago, and he has looked into an even higher path..."

The realm of Sword God!

At the same time, many people in the surroundings discerned this, and they were extremely astounded because Chen Xi had only advanced into the Golden Immortal Realm for a mere few years.

Originally, everyone thought that only his cultivation was extremely abnormal, yet never had they imagined that his Sword Dao had actually attained such an astonishing state.

Sword God!

Amongst all the Golden Immortal Realm experts in the entire Immortal Dimension, how many Sword Gods were there?

On the other hand, Leng Yunsou and everyone else from Bitter Silence Academy were surprised and bewildered because Chen Xi seemed to be able to reveal an unexpected and formidable ability in every single battle. They originally thought that they were already prepared and felt that even if Chen Xi was full of tricks, it would be useless before Xiao Qianshui.

But never had they imagined that Chen Xi didn't reveal an immortal treasure this time nor was it a ruthless combat strategy, and he'd instead revealed an open and impressive ability, the terrifying might of attaining the realm of Sword God!

...

"The realm of Sword God? That's fine as well. Defeating you will be able to display the might of my Godstab Immortal Sword!" Xiao Qianshui's eyes narrowed while a cold glow shone brilliantly from within, and his aura instantly locked onto Chen Xi while the extremely narrow Godstab immortal sword in his hand stabbed through the air.

Rumble!

Sword Insight shook the heavens as it carried a myriad of strands of the aura of calamity, and it was like a torrent of calamity. Everywhere it passed, space actually withered, shattered, and seemed to have suffered boundless calamities and was on the verge of collapse!

When facing this attack, Chen Xi took a step forward before slashing with his sword. Instantly, boundless light surged into the sky from his body, and it was extremely powerful, sacred, and pure. A purifying energy that contained boundless might surged out, and it sprayed onto Chen Xi's sword.

With a swing of his hand, Chen Xi executed the Laws of Light that he'd just grasped!

With a single sword strike, light erupted out and swept through the entire combat arena. Everywhere it passed, the surging Sword Insight of calamity was completely shattered, whereas the might of Chen Xi's sword qi didn't weaken, and it pierced through space as it struck towards Xiao Qianshui.

"The energy of light! How could you possibly grasp the Laws of Light! Isn't that Nuwa..." Xiao Qianshui was finally shocked, and his eyes flickered with cold lights. He seemed to not dare believe his eyes as he suddenly let out a sharp and fierce cry, but he stopped abruptly after speaking halfway.

Because Chen Xi's sword qi had already slashed down at him, and it forced him to have no choice but to flash over and resist it head-on.

In an instant, the sword of light and sword of calamity had collided no less than a thousand times. Sword Insight surged while divine radiance rumbled, and the entire combat arena was enveloped by it, causing the heavens and the earth to dim in comparison.

All the spectators in the surroundings felt suffocated because when two peak Golden Immortals were executing their respective supreme Sword Daos, the visual shock and impact was simply unparalleled, and it shook their hearts to the point they couldn't maintain their calm.

Chapter 1313: Sovereign Tribulation Dao

On the combat arena, the intense battle shook the heavens.

Two figures each executed supreme techniques, and they moved about on the combat arena while fighting without end.

Sword Insight surged.

Divine radiance rumbled.

The might they revealed shook the world and was extremely astonishing.

If it was in the outside world, merely a battle of such extent would be sufficient to obliterate an area of 50,000km, and it would bring calamity to the myriad of living beings in the world.

Bang!

Chen Xi slashed with his sword and blasted Xiao Qianshui back. His entire body flowed with light like a god that walked out from within the light, and Starclasp was filled with supreme purifying energy, and he revealed an imposing aura of supremacy and peerless divine might.

Compared to him, Xiao Qianshui was similarly on par. The Godstab Immortal Sword carried the aura of calamity and transformed into a river of calamity that surged throughout the surroundings, and he actually fought Chen Xi equally.

Something worthy of mention was that even though Xiao Qianshui's attainments in the Sword Dao hadn't attained the realm of Sword God, he was able to fight Chen Xi equally by relying on the aura of calamity. He was extraordinary indeed.

But this sort of situation was something Xiao Qianshui wasn't able to accept at all!

How can a new student that just entered into Dao Emperor Academy for a few years fight me equally?

It was even to the extent that he didn't even take Ye Tang and Wan Jiansheng seriously in his heart, so how could he have taken Chen Xi seriously?

But at this moment, Chen Xi has utilized the ability of the realm of Sword God and the energy of the Grand Dao of Light to actually fight him equally, so he was naturally slightly furious and felt humiliated from this.

Rumble!

In the next moment, under the astounded gazes of everyone in the surroundings, the imposing aura emanated from Xiao Qianshui's entire body rose greatly once more while his expression was gloomy and ruthless to the limit. Moreover, his entire body was filled with a terrifying vital energy.

At this instant, everyone clearly sensed waves of extremely vast energy of calamity being emanated from Xiao Qianshui's body, and it was an icy cold and obscure energy that carried a terrifying aura capable of overturning the world.

This was the aura of calamity. It was like the wrath of the heavens had descended and intended to bring disaster to the world!

Swoosh!

A sharp sword howl that pierced the ear drums resounded as Godstab erupted with a jet black light that shot into the sky, and it seemed like a torrent of calamity was being condensed in Xiao Qianshui's palm.

He slashed out with his sword!

Crack! Crack! Crack!

Everywhere this Sword Insight passed, space shattered while even a web of cracks split open on the floor of the combat arena, and it was a terrifying and horrifying sight.

Fortunately, at this critical moment, the restrictions in the surroundings of the combat arena were completely activated, and it forcefully resisted the impact of this terrifying force. Otherwise, the combat arena would definitely be destroyed.

This obviously displayed exactly how terrifying Xiao Qianshui's attack was!

It caused the eyes of many seniors in the surroundings to focus while they felt extremely shocked in their hearts. As for those students present in the surroundings, they'd been shocked to the point their hearts shook, and they practically forgot to breathe.

Clang!

Chen Xi's expression remained calm when he sensed the might contained within this strike. The immortal sword in his right hand spun while the energy of light filled it, and it emanated a bright and fierce might that swept out with unparalleled force and shot into the sky before moving to collide head-on with Xiao Qianshui's attack.

This sword strike didn't just exceed the restraints of space, it even split space open. Strands of sword lights condensed from the Grand Dao of Light transformed into translucent and divine flames of light that rose up before surging out violently. They were filled with a grand and supreme aura of sacred light that purified the world.

Rumble!

Calamity and light collided. Instantly, space rumbled while the terrifying force of the collision swept towards the surroundings, and this force that was filled with destructive energy rippled towards the surroundings.

When looked at from afar, the entire combat arena was suffused with dust and dirt while radiant light illuminated the sky, causing it to seem as if the end of the world had arrived.

Even if they were clearly aware that the combat arena possessed defensive restrictions, this scene still shocked the nearby spectating students to the point their hearts palpitated while they unconsciously took a few steps back.

All the spectators were shocked. Earlier, the battle between Ye Tang and Wan Jiansheng could be considered the greatest battle between blazing suns, but in terms of terrifying destructive force, it was far inferior and less shocking than this battle before their eyes.

Swoosh!

On the combat arena, Chen Xi and Xiao Qianshui's figures split apart, and they stood in confrontation with each other from afar.

Chen Xi's expression was calm as before.

A wisp of heaviness had arisen in Xiao Qianshui's heart instead.

"Unfortunately, even though you've grasped the energy of light, it has merely attained the state of the Laws, and you haven't condensed it into an Allheaven Divine Crest. That strike from before was only a probe, and I'll allow you to understand what being invincible means next!" Xiao Qianshui took a deep breath while his gloomy face revealed a wisp of a ruthless and ghastly expression.

A probe, huh? A wisp of a piercingly cold arc appeared on the corners of Chen Xi's mouth, and he said calmly, "Since you've said that, then I won't hold back after this."

The intense collision from before was only a probe?

All the spectators were shocked once more when they heard this, and they were instantly speechless.

“Hmph!” Xiao Qianshui suddenly grunted coldly and seize the opportunity to launch the first attack.

Swish! Swish! Swish!

He successively executed over a thousand slashes, and these strands of sword qi instantly overlapped to form countless dense sword seals. Instantly, the aura of calamity surged through the entire sky, and it enveloped down towards Chen Xi.

This aura of calamity was condensed into threads, strings, seals, and wheels. They seemed as if they were material as they shot out violently, and they instantly covered Chen Xi’s entire body and intended to drown him within calamity.

Chen Xi only smiled coldly when he saw this. Instantly, the clouds and wind surged around him while he casually slashed down with Starclasp. Light shot out and shattered, purified, and eliminated all the strands of sword qi that contained the aura of calamity.

At the same time, his figure suddenly spun and flew through the air like an ethereal speck of imperceptible dust, and he instantly arrived before Xiao Qianshui. At the same time, Starclasp soared through the sky and slashed down like the sword of the heavens.

Xiao Qianshui struck out in an arrogant and overbearing manner with a flap of his hand.

Bang!

An enormous bang resounded as his sword destroyed Chen Xi’s attack. However, to his surprise, the sword qi of light that was shattered didn’t disperse, and it instantly transformed into strands of needle shaped lights instead before shooting fiercely towards him once more.

Bang! Bang! Bang!

Xiao Qianshui was caught off guard and felt as if his body was struck by a sledgehammer. The sword lights that were shaped like needles actually contained energy that was vast like an ocean, and it was abundant to the point it was impossible to resist. Even if he dealt with them one by one, it shook his figure to the point of staggering slightly while his vital blood roiled.

Right at this moment, Chen Xi moved over through space once more, and then he slashed down once more with his sword. It was like a blade of light that was crystalline, translucent, sacred, and filled with extreme might.

Xiao Qianshui’s face instantly sank. He executed his ability with all his might and dodged this attack immediately.

Swoosh!

However, before he could launch a counterattack, Chen Xi had actually stepped through space once more, and he seemed to be pressing down upon Xiao Qianshui step by step while in hot pursuit.

“God dammit!” Xiao Qianshui dodged once more and dealt with this strike while in a slightly sorry state. After that, his expression turned gloomy to the extreme. He was like a god of evil that was filled with

boundless rage, and his aura grew even stronger because this sort of situation where Chen Xi had the initiative and he could only resist was absolutely not something he could tolerate!

“Shapeless and boundless, calamity in the form of tribulation!” Xiao Qianshui suddenly let out a fierce and long howl while his entire body seethed with surging black clouds and mist. He was actually like the tribulation clouds that appeared when cultivators faced a tribulation, and he was icy cold, murderous, emotionless, and filled with an extraordinarily destructive aura.

One could vaguely notice that a violent and thick aura of calamity existed within the surging tribulation clouds, and it actually condensed into strands of black colored lightning that rumbled, surged, and was extremely shocking.

Tribulation lightning!

“The Sovereign Tribulation Dao!” In the distance, Wang Daolu’s face sank while he lightly spat out a few words. He’d recognized this sort of technique, and it was an inheritance from the Sovereign Sect.

This technique transformed calamity into tribulation. Once it was executed, not only would it might be akin to the descent of heavenly tribulation, it was capable of drawing out the aura of tribulation within the target’s body, causing the person’s blood to flow in the opposite direction and fall into qi deviation!

The aura of tribulation was the aura accumulated within the body after a cultivator stepped onto the path of cultivation and experienced numerous heavenly tribulations, and it was normally impossible to notice.

In the three dimensions, no matter if it was cultivators or immortals, all of them had experienced tribulations on their path of cultivation! It could be said that the Sovereign Tribulation Dao possessed extraordinary lethality towards all the cultivators in the three dimensions. So long as one had overcome a tribulation in the past, then it was impossible to avoid the might of the Sovereign Tribulation Dao.

Only those that had attained the Saint Immortal Realm and exceeded the path of cultivating themselves and stood on the path towards becoming gods and saints were able to completely cleanse their bodies of the aura of calamity.

In other words, only existences at the Saint Immortal Realm and above possessed the ability to avoid being affected by the Sovereign Tribulation Dao, whereas practically all the cultivators in the three dimensions below the Saint Immortal Realm would more or less be threatened by it.

At this moment, Chen Xi was only at the Golden Immortal Realm, so who could he possibly avoid the threat of the Sovereign Tribulation Dao?

...

At this moment, when they witnessed the aura of tribulation lightning formed from the aura of calamity that circulated around Xiao Qianshui, it wasn’t just Wang Daolu, all the seniors from Dao Emperor Academy that were observing this battle and even the instructors that led the groups from the various academies were shocked, surprised, and anxious.

The Sovereign Tribulation Dao! This is a secret technique inheritance from the Sovereign Sect! This indirectly proved that Xiao Qianshui was definitely closely related to the Sovereign Sect, otherwise it

was utterly impossible for a student of Bitter Silence Academy to come into contact with such a supreme inheritance.

In an instant, the gazes of many seniors present in the surroundings towards Leng Yunsou had changed. Xiao Qianshui was from Bitter Silence Academy yet had grasped the Sovereign Tribulation Dao now, so how could Bitter Silence Academy possibly be unaware?

Leng Yunsou's expression was slightly gloomy as well while his gaze flickered, yet what he was thinking in his heart was unknown.

Actually, if one observed carefully, then one would notice that the expressions of the instructors from Vastsky and Grand Desolation Academy were rather normal, and they clearly knew about this since the beginning.

However, this matter involved the Sovereign Sect, so all of them puckered their lips and kept silent while treating this matter with indifference.

...

All of this only occurred in an instant.

On the other hand, on the combat arena, Xiao Qianshui had an arrogant and haughty expression. His clothes fluttered while his entire body was enveloped within the black colored tribulation cloud, and he seemed to be icy cold, emotionless, and indifferent to the extreme.

It felt as if he'd suddenly lost all emotions, and he's truly transformed into one that wielded the tribulation lightning.

The Sovereign is without emotion!

Chen Xi's eyes narrowed as well when he witnessed this shocking scene, and his icy cold gaze surged with strands of piercing coldness. This is the inheritance of the Sovereign Sect?

Bang!

At this moment, Xiao Qianshui didn't speak any further. A wisp of a cold and cruel smile appeared on the corners of his mouth before he stabbed lightly with the narrow Godstab Immortal Sword, and a myriad of strands of tribulation lightning appeared out of thin air.

The tribulation lightning was like a waterfall that poured down!

In an instant, the entire combat arena was covered by it. This was the Sovereign Tribulation Dao, it was like the descent of the wrath of the heavens, and it was a true tribulation!

Moreover, Chen Xi's figure had been drowned within it as well.

Chapter 1314: Chen Xi's Strength

The tribulation formed from the aura of calamity drowned Chen Xi completely!

When they saw such a shocking scene, many students that were present in the surroundings turned pale from shock, and their hearts rose to their throats.

The might of the Sovereign Tribulation Dao was too terrifying, and it was impossible to dodge like the descent of a true tribulation!

“It’s impossible to obstruct?” On the auspicious cloud, the lighthearted and wild expression on Ye Tang’s face had vanished, and it was replaced by a heavy expression. At this moment, even with his strength, he couldn’t help but feel a trace of terror.

It was even to the extent that he felt that he would be unable to avoid it if he was in Chen Xi’s place.

“Will Chen Xi...be fine?” Zhao Mengli was nervous and uneasy while her beautiful eyes stared fixedly at the combat arena. Unfortunately, she could only see an expanse of black colored tribulation lightning, and she was utterly unable to find a trace of Chen Xi.

This caused her heart to sink, and she was slightly worried.

“The outcome hasn’t been decided yet. Wait a while longer. If Chen Xi’s life is in danger, then he’ll definitely be teleported out by the combat arena.” At this moment, Zhen Lu was rather composed. However, his tightly clenched fist exposed that his heart wasn’t as calm as he seemed on the outside.

It wasn’t just them. At this moment, all the instructors and students of Dao Emperor Academy that were present in the surroundings couldn’t help but be overwhelmed with anxiety, and they didn’t dare believe that such a scene would occur.

If Chen Xi were to lose, then the championship of the Seven Academy Dao Discussion this time would indeed fall into the hands of the other academies...

They were nervous, perturbed, and uneasy.

These various oppressive emotions transformed into deathly silence, and it caused their chests to feel stifled while they revealed unsightly expressions.

On the other hand, all the students and instructors from Bitter Silence, Grand Desolation, and Vastsky Academy exclaimed with shock, delight, and excitement... Is this damnable bastard finally going to be defeated?

Chen Xi had fiercely thrashed Yan Yun, Yu Xiushui, Wang Xuechong, and the others earlier, and it had caused them to be filled with a bellyful of rage. At this moment, when they saw the arrogant Chen Xi was about to be crushed, how could they not be excited and complacent?

...

“Hahaha! Don’t worry, I won’t allow him to be eliminated so easily!” On the combat arena, Xiao Qianshui whose entire body was covered with the aura of tribulation lightning formed from the aura of calamity roared with arrogant and unrestrained laughter, and it was filled with the pride of a winner.

His words caused the hearts of all the students and instructors of Dao Emperor Academy to twitch while their expressions became even more unsightly.

This Xiao Qianshui is cold, ruthless, and perverted. If Chen Xi falls into his hands, then wouldn't he be tortured to the point of being unable to live or die?

"Bastard from the Sovereign Sect! You actually act so complacently? If anything happens to Chen Xi, then just you wait once the Dao discussion ends!" At this moment, Wang Daolu was angered to the point he had a livid expression, and he gritted his teeth without end.

With his status, he actually hated a junior so deeply, and it obviously showed how furious he was at this moment.

Xiao Qianshui was even more complacent and delighted when he saw the reaction of all the instructors and students from Dao Emperor Academy, and his sharp laughter roared without end.

Moreover, when he thought about how he was about to publicly trample upon and torture Chen Xi who was a peerless figure in the younger dimension and was renowned throughout the world, Xiao Qianshui was excited to the point his entire body trembled, and his narrow and gloomy face flushed red with a ruthless expression.

However, in the next moment, his laughter stopped abruptly.

Because in his field of vision, the tribulation lightning that completely drowned Chen Xi's figure had actually been silently slashed apart from the center, and it separated to the sides.

After that, Chen Xi's tall and handsome figure appeared. His clothes and jet black hair fluttered while his expression was calm, and the skin on his entire body was fair and clean. He was actually completely unharmed!

Xiao Qianshui seemed as if he was struck by lightning. His pupils dilated while he looked forward with disbelief, and then he cried out involuntarily. "You...you... How could you have possibly been unharmed?"

At the same time, all the spectators noticed this scene as well. All of their figures stiffened, and they simply seemed as if they'd seen a miracle. They felt an indescribably suffocating feeling fall upon them, and their hearts and minds surged to the extreme.

Earlier, they were anxious and worried about Chen Xi's fate.

Now, Chen Xi had actually appeared before their eyes while remaining completely intact, and he wasn't harmed at all!

The contrast from this had caused their hearts to rise and fall greatly, and they felt as if their hearts were tortured to the point of being on the verge of stopping. But all in all, they still mostly felt pleasantly surprised.

On the other hand, the instructors and students from Bitter Silence, Grand Desolation, and Vastsky Academy similarly felt disbelief and shocked, but their hearts had instantly dropped from excitement to rock bottom.

"How...how could this be possible? How did that damnable bastard do it?" A student from Bitter Silence Academy was unable to control his emotions and cried out involuntarily.

A single sentence instantly drew out the rage of all the students and instructors from Dao Emperor Academy.

“Little bastard! Do you know how to speak?”

“Dammit! After this Dao discussion ends, I’ll definitely teach a lesson to a little bastard that’s full of shit like you!”

“You actually dare to curse at our Senior Brother Chen Xi in our Dao Emperor Academy’s territory? Motherfucker, just you wait!”

The student from Bitter Silence Academy was instantly scolded to the point his expression was extremely unsightly, and he was furious to the extreme. However, he didn’t dare retort. It couldn’t be helped. He had no choice but to be worried that he would incur public wrath and be unable to leave Dao Emperor Academy.

...

“Is that all you’re capable of?” On the combat arena, a wisp of ridicule appeared on the corners of Chen Xi’s mouth as he gazed at Xiao Qianshui, and the fair and slender tip of his finger still had a strand of tribulation lightning coiled around it, yet the tribulation lightning wasn’t able to injure him at all.

At this moment, Xiao Qianshui had recovered from his shock. However, he was still unable to believe it. How could he possibly remain unharmed before the tribulation lightning formed from the aura of calamity?

Chen Xi naturally wouldn’t tell Xiao Qianshui that since he’d started cultivating, his fate had been concealed from the workings of the heavens because he possessed the River Diagram’s fragments, and he’d been taken to be a Variant by the Heaven Dao. Even when he overcame the lightning tribulation to advance into the Earthly Immortal Realm, he had no choice but to cultivate the secret technique, Immeasurable Virtue, obtained at the top level of the Talisman Dimension’s Grand Deduction Tower in order to conceal his aura.

It could be said that he didn’t have a trace of the aura of calamity in his entire body, otherwise he would have died a long time ago, and it would have been impossible for him to attain his current accomplishments!

It was precisely because of the Immeasurable Virtue technique that the tribulation lightning wasn’t able to harm him at all!

“This is absolutely impossible! I don’t believe it!” Suddenly, Xiao Qianshui roared towards the sky, and the aura of calamity in his entire body seethed before spraying out from Godstab Immortal Sword. It transformed into layer upon layer of black tribulation lightning that shot down violently once more.

This time, Chen Xi stopped holding back.

Swoosh!

A wisp of sword qi flashed through the sky, and then wind and lightning appeared abruptly!

It was the might of the Tempest Divine Crest!

This was a sword strike formed from the merging of the Sword of Wind and Sword of Lightning from the inheritances obtained from the Infinite Divine Talisman, and it was executed via an Allheaven Golden Crest that contained the aura of wind and lightning while assisted by the supreme might of the realm of Sword God. Its might could be said to be like a tempest that shook the nine heavens!

Bang!

The layer upon layer of tribulation lightning were shattered into powder, whereas Xiao Qianshui's entire body was blasted flying like a cannonball, and he couldn't refrain the blood in his body from suddenly spraying out from his mouth.

This strike was extremely terrifying, and the might of wind and lightning swept through the surroundings!

The entire crowd of spectators were stirred. None of them had imagined that the situation would be turned around so quickly, and it could be considered to be full of twists and turns!

"You...you...you were concealing your strength since the beginning?" Xiao Qianshui stood there while his gloomy face was pale and suffused with a wisp of surprise and bewilderment.

"You only realized now?" At this moment, Chen Xi seemed to be extremely calm, and he didn't pursue Xiao Qianshui. He said, "Exactly, I just wanted to see exactly where you learned some of your abilities from. Now it would seem like it's nothing great."

Where was the place Chen Xi spoke about?

Chen Xi didn't mention it directly, yet Xiao Qianshui was very clearly aware that Chen Xi was definitely speaking of the Sovereign Sect. This caused him to be unable to maintain the calm in his heart, and his expression was even more surprised and bewildered.

On the other hand, when the surrounding spectators heard Chen Xi, they couldn't help but be dumbstruck. Earlier... Chen Xi has actually been concealing his strength all the time? And he did this merely for the sake of finding out exactly how great Xiao Qianshui's ability was?

"Junior Brother Chen Xi really is extraordinary! Hahaha!!!" On the auspicious cloud, Ye Tang roared with laughter.

He's extraordinary indeed. He's simply an incomprehensible freak! Everyone else was astounded and endlessly exclaimed with surprise in their hearts as well.

"Hmph! What shameless boasting!" As he looked at Chen Xi who seemed composed, Xiao Qianshui couldn't help but feel a trace of uneasiness. He didn't dare hesitate and charged explosively towards Chen Xi once more.

He'd given this strike his all, and the sword qi that covered the sky transformed into a thick and shocking strand of tribulation lightning that caused the heavens and the earth to be cast into a shade.

Swoosh!

Chen Xi remained still on the spot when facing this strike, and then he casually slashed with his sword. In this strand of sword qi, Yin and Yang fused, black and white converged together, and it was a sword strike that had fused the Sword of Yin and Sword of Yang that came from the Infinite Divine Talisman!

This sword strike was vast and brilliant, and it seemed as if it wanted to divide the heavens and the earth, good and bad, dawn and dust, and black and white to return a peaceful universe to the world!

Bang!

After a collision that shook the heavens and the earth, Xiao Qianshui was defeated once more, and his figure staggered back while he coughed up blood repeatedly. It was the second time he'd been blasted back by Chen Xi, and it had caused his face to be covered in astonishment and disbelief.

All the spectators were shocked as well because the difference in the combat strength Chen Xi displayed previously and now was simply as if it was two different people revealing this combat strength!

This allowed them to finally firmly believe that perhaps Chen Xi was telling the truth earlier. The reason Xiao Qianshui could fight him equally earlier was entirely because Chen Xi hadn't utilized his full strength at all!

"Is that all you're capable of?" On the combat arena, Chen Xi's expression was indifferent as he repeated these words once more. "Looks like you aren't a personal disciple from that place, otherwise, how could you possibly be so weak?"

The reason he said this was extremely simple. As far as he was concerned, he was the weakest personal disciple from Oracle Mountain, yet Xiao Qianshui was actually even inferior to him. Thus, it was definitely impossible for Xiao Qianshui to be a personal disciple from the Sovereign Sect. Because as one of the three supreme sects of the three dimensions, the personal disciples of the Sovereign Sect ought to not be as weak as Xiao Qianshui.

Xiao Qianshui's narrow and long face couldn't help but twitch when he heard this, and it seemed as if these words had stabbed fiercely into his heart, causing his expression to instantly turn extremely gloomy.

"Bastard! Talk after you've defeated me!" After he finished saying these words, Xiao Qianshui's figure vanished once more.

In an instant, tribulation lightning surged once more on the combat arena, and its impetus grew even more terrifying.

Chen Xi was finally getting slightly impatient when facing this, and a cold light appeared abruptly from his sword. The Five Element Divine Crest suffused it and seethed within it as it transformed into a murderous and icy cold streak that suddenly vanished in the air.

Bang!

In the next moment, boundless rumbling resounded on the combat arena. The terrifying tribulation lightning were crushed apart inch by inch before they shattered into pieces, and they seemed as if they couldn't withstand a single strike. After that, a wisp of all-powerful sword qi that seemed capable of making all sword submit shot down while filled with supreme might!

Xiao Qianshui's face turned grim, yet he didn't have the time to dodge, and he could only face it head on. After that, his entire body seemed as if it had been struck by a primeval dragon.

Crack! Crack!

Under the astounded gazes of all the spectators, the bones in his entire body were instantly shattered while fresh blood flowed in streams and soaked his entire body. Moreover, his face was smashed to the point of sinking by an enormous force, causing him to be beyond recognition!

Chapter 1315: Champion's Prize

Pu!

Xiao Qianshui was blasted flying, and then he laid limply on the ground like a bloody pool of mush while letting out shrill cries.

The might of Chen Xi's strike was that terrifying!

The surrounding spectators were in an uproar, and they practically didn't dare believe it. Even though everyone had confirmed a long time ago that Chen Xi had held back, they'd never imagined that when he really revealed his might, Xiao Qianshui would actually be unable to withstand a single blow.

This was too shocking!

After all, the combat strength Xiao Qianshui revealed earlier wasn't inferior to Wan Jiansheng and Ye Tang at all. Moreover, he possessed a supreme secret technique like the Sovereign Tribulation Dao, so how could he be compared to an ordinary Golden Immortal?

Yet it just so happened that a monstrous figure like this was easily defeated by three successive sword strikes from Chen Xi, and Chen Xi simply accomplished it as easily as blowing off dust!

All of this couldn't prove that Xiao Qianshui was extremely weak, and it could only prove that Chen Xi's current combat strength had far exceeded his peers. It could be said to be unparalleled and unprecedented.

"In the Golden Immortal Realm, Junior Brother Chen Xi is capable of reigning supreme above all and suppressing blazing suns!" On the auspicious cloud, Ye Tang roared with laughter as he sighed with emotion. He seemed to be sighing yet it carried a tone of pride.

When they heard this, Zhen Lu and Zhao Mengli were fiercely shocked in their hearts. They were very clearly aware that since Ye Tang said this, then it was equivalent to admitting his inferiority to Chen Xi!

Yet who could have imagined that Chen Xi had just stepped into the Golden Immortal Realm for a mere few years?

At this moment, Zhen Lu and Zhao Mengli had extremely complicated feelings, and they couldn't take Chen Xi to be an opponent of equal level any longer.

Because... Chen Xi had unknowingly surpassed them by too much!

"Formidable! Truly too formidable!"

“He isn’t just formidable. In my opinion, even the blazing suns of the Immortal Dimension will probably dim in comparison before Senior Brother Chen Xi.”

“Cut it out, it’s an offense if such words enter the ears of Senior Brother Ye Tang and Senior Sister Ling Qingwu.”

“Hmph! That Xiao Qianshui was even mouthing off about turning the situations of the past around and defeating Senior Brother Chen Xi and the others in our Dao Emperor Academy’s territory. Now, he was directly thrashed to the point of being half dead instead!”

All the students from Dao Emperor Academy were delighted and seethed with excitement. The gazes they shot at Chen Xi’s handsome and tall figure that stood on the combat arena revealed a wisp of admiration.

Some female students didn’t even conceal their adoration for him, and their beautiful eyes flowed with light and burning fervor.

At this moment, all of them had completely relaxed. They were anxious or worried any longer because they knew that along with the defeat of Xiao Qianshui, the position of champion in this Seven Academy Dao Discussion belonged to Chen Xi!

...

Compared to the bustling excitement over here, Bitter Silence, Grand Desolation, and Vastsky Academy were deathly silent. No matter if it was the instructors or students, all of them had stiff expressions and seemed as if they’d lost their souls. They were unable to accept such a scene.

It was too great of a surprise!

None of them had expected that Chen Xi would be formidable to such an extent. It was simply impossible to imagine that someone in the world was capable of possessing such terrifying and heaven defying combat strength in the Golden Immortal Realm.

Even if he was compared to the six great blazing suns of the Immortal Dimension, they were unable to cover up his brilliance.

“If it wasn’t for Chen Xi, then in this Dao discussion, we would have...won...a long time ago.” A student spoke weakly with a disgruntled expression.

As soon as these words were spoken, everyone else felt sorrow in their hearts while their expressions grew gloomier.

In the Dao discussion this time, one of the six blazing suns, Ye Tang, had been defeated, whereas the leading figure of the Buddha Dimension’s younger generation, Zhen Lu, the heir of the ancient Ji Clan, Ji Xuanbing, and the descendant of a True Phoenix from the Phoenix Clan, Zhao Mengli, had all lost...

Yet no one had expected that when they were about to obtain the final victory, Chen Xi would suddenly rise. Not only had he defeated Yan Yun to enter the final round, he even fought seven students successively and swept through all of them!

...

“First there was Yun Fusheng that swept through his peers from the three academies by himself; now there is Chen Xi that saved the situation in the Dao discussion all by himself! Hahaha! Outstanding, truly outstanding!” Wang Daolu roared with laughter and was extremely happy.

...

In the opinion of everyone present here, the outcome of the battle had been decided, and the curtains were about to be drawn.

However, it hadn't ended in Chen Xi's opinion.

He arrived before Xiao Qianshui that lay on the ground while being on the verge of death and letting out endless shrill cries, and then he looked down with a calm yet icy cold gaze before he said, “Now, I've defeated you.”

His voice was calm and didn't carry a ridiculing tone at all, and he was only describing a fact that had occurred.

However, when it entered into the ears of Xiao Qianshui, it seemed extremely ear piercing. It caused his entire body to tremble like a ferocious beast that was in a hopeless situation, and his bloodshot eyes stared resentfully at Chen Xi while he spoke in a hoarse and sharp voice. “You spoiled the plan. You're bound to pay a heavy price. You've only won for now, yet it's bound to bring you a lifetime of pain and torture that's impossible to forget!”

As he finished speaking, he was practically roaring.

Chen Xi's expression remained unchanged as he said, “Idiot. Looks like you haven't understood your status clearly. You're only a pawn in the hands of another. Did you think you would be able to leave with your life even if you won today?”

Xiao Qianshui was stunned, and then he seemed to have thought of something, causing his expression to turn grim before he said in a sharp voice, “This is the Seven Academy Dao Discussion. Could it be that your Dao Emperor Academy even intends to kill me to keep my mouth shut?”

As soon as these words were spoken, it drew the attention of everyone, and all of their gazes focused over. Could it be that Chen Xi intends to kill this fellow?

“The wage of sin is death.” Chen Xi remained indifferent towards this, and he just stared at Xiao Qianshui before he spoke in a light voice. He wasn't speaking to Xiao Qianshui, but to the Sovereign Sect that stood behind Xiao Qianshui!

As soon as he finished speaking, Chen Xi kicked Xiao Qianshui off the combat arena.

At this point, the Seven Academy Dao Discussion had ended.

Dang!

The clear and melodious sound of the bell resounded and spread towards the surroundings, and it spread towards every corner of Darkombat City. Along with this ring of the bell, the news of Chen Xi defeating Xiao Qianshui to win the position of champion in the Seven Academy Dao Discussion spread throughout Darkombat City like a gale.

For a time, the entire city was stirred, and it gave rise to a mighty uproar.

If nothing unexpected happened, then it wouldn't be long before the outcome of the Seven Academy Dao Discussion would spread throughout the Immortal Dimension's 4,900 continents, whereas Chen Xi's name was bound to receive the attention of all like the blazing sun in the sky!

...

The Seven Academy Dao Discussion had ended, yet some things hadn't.

The students and instructors of Windstream, Cloudmist, and Dao Secret Academy had become utter spectators in the Dao discussion, so they couldn't help but have complicated feelings. They'd left hastily a long time ago as they felt ashamed to continue staying here.

However, when the instructors and students of Bitter Silence, Grand Desolation, and Vastsky Academy carried a boundless sense of loss and rage while intending to leave, they were stopped by a figure that appeared abruptly.

"Everyone, it's rare that we're all gathered here today. Why leave so hastily?" The figure was thin, short, and withered. His hair was grey and disheveled while wrinkles ran across his ruthless and unreasonable face like ravines. He seemed to be extremely ordinary, yet when he casually stood there in midair, he revealed a terrifying imposing aura that was lofty like a mountain and boundless like an ocean, causing others to be unable to overlook him.

He was the Inner Court's Dean, Chi Cangsheng!

"Geezer Chi? What do you mean by that?"

"Could it be that you intend to make all of us stay here?"

When they saw Chi Cangsheng make an appearance, the expressions of the instructors from the three academies turned grim. They were very clearly aware that Chi Cangsheng was absolutely a figure that acted without any restraint or fear, and he had an extremely ruthless and unreasonable temper. There was practically nothing that he didn't dare do.

"Hmph! I'm only making all of you stay to have a gathering. Could it be that all of you're afraid I'll eat all of you up? If anyone refuses, then don't blame me for being rude!" Chi Cangsheng grunted coldly, and he spoke in a direct manner.

Chen Xi was astounded. Before he could think too much about it, he was stopped by Wang Daolu.

"Come, leave the rest to this old fellow."

His voice hadn't finished resounding in the air when Wang Daolu directly led him away.

After that, Chen Xi noticed that all the instructors and students present in the Dao Development Reserve seemed as if they'd received some sort of order and were leaving this place like a receding tide.

Could it be because of the Sovereign Sect, so some seniors of Dao Emperor Academy intend to get even with these fellows? A thought suddenly flashed in Chen Xi's mind.

Wang Daolu seemed to have discerned Chen Xi's thoughts and said, "I presume you've probably heard some rumors about the Sovereign Sect. The Seven Academy Dao Discussion this time seemed off, and there're some things that should be investigated properly."

As they spoke, they'd left the Dao Development Reserve, and only Chi Cangsheng's unreasonable and resounding roars were still drifting over from afar.

Chen Xi seemed have thought of something and said, "Senior, could it be that there's some conflict between our Dao Emperor Academy and the Sovereign Sect?"

Wang Daolu shook his head. "Do you know that the greatest enemy of the three dimensions isn't the Outerealm's Xeno-race nor the Cosmos Beasts, but the three dimensions itself?"

Chen Xi was shocked in his heart. "The Sovereign Sect?"

Wang Daolu nodded.

This had exceeded Chen Xi's expectations. He originally thought that because of the death of the Chaotic Divine Lotus and Evil Lotus, only he took the Sovereign Sect to be his enemy, yet never had he imagined that the Sovereign Sect was the public enemy of the three dimensions!

"The sovereign is without emotion. Since the primeval times, it has given rise to countless vast calamities, and every single one of them affected the three dimensions and caused great upheavals and deaths." Wang Daolu sighed lightly. "The Sovereign Sect can be found behind most of the calamities in history, so no one can remain unafraid of such a sect."

It was the first time Chen Xi had heard of such a secret, and he was extremely shocked in his heart. Moreover, it allowed him to have a deeper understanding of the Sovereign Sect.

"In short, you just have to remember that the Sovereign Sect pursues the path of emotionlessness. They sever all emotions and desire. So if you encounter an heir of this sect in the future, you must be careful." Wang Daolu instructed Chen Xi with a solemn expression, and then he smiled lightly and changed the topic. "Do you want to know the rewards given by the academy to the champion of the Dao discussion?"

Chen Xi was stunned. Only now did he recall that there was indeed a reward from the Dao discussion.

"Please provide me with your guidance." Chen Xi couldn't help but arouse a wisp of anticipation. In terms of rewards, it was naturally the more the better, and he would never feel it was too much.

"Come with me and you'll find out." Wang Daolu grinned as he glanced at Chen Xi, and then he flicked his sleeve before flashing in midair to arrive before a grand and beautiful palace.

[Talisman Emperor](#)

Chapter 1316: The Dean

The beautiful palace was constructed at the center of a mountain, at the end of a winding path that led to a secluded spot.

After he walked in it, the scene before his eyes suddenly lit up. The glow of treasures flower and illuminated the area brightly. Surprisingly, it was an extremely large hall. Within the hall was row upon row of crystal counters, and there were piles of various precious treasures placed on the counters.

Immortal Artifacts.

Immortal Herbs.

Secret Techniques.

Formation Diagrams.

...

They simply covered and contained everything, and it was like walking into an immortal treasure vault.

This was the Starpoint Hall!

The Starpoints earned by the students of Dao Emperor Academy could be exchanged here.

This was the first time Chen Xi had come to the Starpoint Hall. As soon as he entered, his eyes were instantly filled by the glow of various treasures. Everywhere that met the eye was glittering and glowing precious immortal treasures. Chen Xi was dazed by this sight, and he was extremely astounded in his heart.

At this moment, many students were already gathered in the Starpoint Hall, so its atmosphere was rather bustling. Most of them were selecting the treasures they took a liking to.

Wang Daolu led Chen Xi into the hall yet didn't stop and moved through the hall to arrive at the fourth floor.

During this entire process, Chen Xi noticed that along with the increase in floors, the quality of the immortal treasures placed there became more and more precious and rare.

For example, most of the immortal treasures in the first floor were at the Darkspirit Grade, and it was suitable to be chosen by students at the Mysterious Immortal Realm.

The second floor contained Cosmic Grade immortal treasures instead, and it could satisfy the requirements of many Golden Immortals.

The third floor only contained Valiant Grade immortal treasures, and it wasn't just Golden Immortals, even Saint Immortals could search for treasures they liked here.

On the other hand, the fourth floor...

It contained various precious treasures that Starpoints alone couldn't obtain!

In other words, if one wanted to exchange their Starpoints for the treasures displayed in the fourth floor, then besides Starpoints, there were some additional conditions. If one wasn't able to meet these requirements, then even if one possessed sufficient Starpoints, one was unable to obtain it.

This caused Chen Xi to remember the River Diagram fragment that he'd remembered in his heart since a long time ago. It similarly carried an additional condition — it was to obtain the inheritance of the Dao Emperor within the Ancient Dao Emperor Grounds!

...

The fourth floor of the Starpoint Hall was grand and spacious. Once Chen Xi entered it, he was able to clearly sense that the air was filled with layer upon layer of extremely terrifying ancient restrictions.

With Chen Xi's knowledge of the Dao of Talismans, he still couldn't help but be terrified because he was very clearly aware that if he acted rashly here, then he would be annihilated in an instant.

The hall was extremely silent, and there was only a young man sitting upright behind a table at the corner. He had a calm and tranquil bearing, and he held an ancient scripture inscribed on jade while reading it carefully. His other hand was playing Go on the table with two fingers, and he was enjoying himself.

He had an ordinary appearance, fair skin, and a composed and elegant bearing, yet the space between his brows carried the aura of age and experience. He seemed to have experienced the passage of countless years. When looked at from afar, Chen Xi felt as if he wasn't looking at a person but a boundlessly vast and deep starry sky.

This sort of feeling was too unique, and it caused Chen Xi to be unable to help but arouse a trace of reverence.

This is absolutely a senior of the academy that possesses extraordinary might!

Chen Xi's eyes focused while he instantly determined that even if this person had the appearance of a young man, the boundlessly vast imposing aura that was like a starry sky wasn't something that a young person could possess.

It was even to the extent that even Wang Daolu who stood by his side seemed to be slightly inferior in comparison!

Who is he? A wisp of wonder arose in Chen Xi's heart. However, unfortunately, since he entered the hall, this young man hadn't raised his head and seemed to take no notice of him.

However, Wang Daolu didn't have even the slightest intention to introduce the young man to Chen Xi, and he directly led Chen Xi to a counter.

"Look, this is the reward you deserve." Only a single treasure was displayed on the counter, and it was an uneven fragment. The fragment was only the size of a palm and sealed within a jade box, and it was suffused with strands of an obscure aura.

There was a label before the jade box — Chaotic Quintessence Fragment. Requirements: 160,000,000 Starpoints!

Chen Xi was completely stunned. He was too surprised because he'd never imagined that after he seized the position of champion in the Seven Academy Dao Discussion, he would actually be able to obtain such a precious reward!

Most importantly, this was a treasure that he dreamed of obtaining!

Could it be that the academy knew I required this since the beginning? Chen Xi couldn't help but ponder swiftly.

"This treasure's effects are unfathomable, and it possesses shocking profound uses. Even I'm rather tempted to obtain it. Unfortunately, according to the rules of the academy, only those that make a major contribution to the academy can obtain this treasure." At this moment, as he looked at the Chaotic Quintessence Fragment, Wang Daolu's expression carried a trace of envy that was impossible to conceal. Obviously, it was similarly extremely attractive to an existence at the Half-step Immortal King Realm like him.

Chen Xi took a deep breath and couldn't help but speak hesitantly. "Senior, if I want to obtain this treasure, then I wouldn't have to pay 160,000,000 Starpoints, right?"

Wang Daolu couldn't help but smile. "Of course not."

As he spoke, he'd flicked his sleeve, causing a wisp of clear radiance to effuse out and directly withdraw the Chaotic Quintessence Fragment along with the jade box, and then he passed it to Chen Xi. "You're going to charge into the Saint Immortal Realm soon. This Chaotic Quintessence Fragment contains the quintessence aura of the Grand Dao, and it's sufficient to guarantee that you'll be ranked amongst Natural Saint Immortals upon advancing."

Chen Xi hurriedly received it with both hands and asked. "The quintessence aura of the Grand Dao?"

"It isn't so simple." Wang Daolu shook his head and said, "That's only one of the profound uses of this fragment, and you'll understand its benefits after you refine and absorb it."

Chen Xi nodded as he carefully put the jade box away. He'd already obtained a strand of the Grand Dao's quintessence energy from the River Diagram fragments, so he naturally didn't need to rely on this Chaotic Quintessence Fragment to cultivate.

Moreover, he'd never intended to utilize it himself, and it was to be given to the tiny cauldron instead.

"Cultivate properly after you leave because the Ancient Dao Emperor Grounds will be opened in less than three years from now. If you're able to attain the Saint Immortal Realm in this period of time, then the benefits you obtain there will be greater." Wang Daolu smiled as he encouraged Chen Xi, and then he led Chen Xi out.

On their way back, Chen Xi couldn't help but glance at the young man that sat at the corner of the hall because he kept having the feeling that even though the young man seemed like he was reading while playing Go, the young man had actually always been observing him since he entered the hall.

This was an indescribable feeling.

At the point when they left the Starpoint Hall, Chen Xi was finally unable to refrain himself and asked Wang Daolu in a low voice. "Senior, who was that senior on the fourth floor?"

Wang Daolu seemed to have expected that Chen Xi would ask this question, and a grin that carried deep meaning appeared on the corners of his mouth. "You'll understand who he is in the future."

Chen Xi was almost unable to restrain himself from rolling his eyes. All of these old fellows really like to keep others in suspense!

Actually, he already had an answer in his heart, and he just didn't dare confirm it.

...

After Chen Xi and Wang Daolu left, the young man that had been sitting silently at the corner of the fourth floor suddenly grinned and put down the light green jade book in his hand before placing his gaze onto the table.

On the table was a Go board. It was ancient and suffused with piercingly cold starlight.

However, it didn't seem like a Go board because its surface didn't carry any horizontal and vertical lines. There was only an expanse of stars that were boundless like the starry sky.

When one's gaze descended upon it, it was like one could see a pathway that led to the starry sky in the universe.

Thump! Thump! Thump!

The young man flicked his sleeve while his right index finger moved about repeatedly on the board like drumming raindrops, and it resounded with a forceful sound that was filled with a murderous tune.

After a short moment, a strange fluctuation droned in the surroundings, and then the figure of a True Phoenix and Green Dragon appeared on the board. They swam about in the starry sky while filled with supreme might.

"Come back." The young man spoke calmly.

In the next moment, he flicked his sleeve and put the board away.

Right at this moment, a wave of footsteps resounded from the entrance to the fourth floor.

"Dean, we can roughly confirm that Bitter Silence, Grand Desolation, and Vastsky Academy have fallen to become pawns of the Sovereign Sect. Should we..." The person that arrived had a thin and withered figure, disheveled gray hair, wrinkles that covered his face, and was filled with a ruthless aura. He was the Inner Court's Dean, Chi Cangsheng. However, at this moment, he'd slightly restrained his ruthless expression when facing the young man sitting behind the table.

The reason was very simple, only a single person in Dao Emperor Academy could be called Dean by him. Obviously, the young man behind the table was the Dean of Dao Emperor Academy!

Even though he was said to be a young man, it was only based on his outward appearance. Actually, when one faced him, one would only feel an aura of age and experience.

"Since you know they're only pawns, then why take their lives? Let them go." The young man spoke casually before picking up the light green jade scripture and reading it carefully once more.

Chi Cangsheng was stunned, and then he grunted. "It would be too much of a pity if we don't kill them."

"If we kill them, then the Immortal Dimension will really undergo an upheaval. Perhaps, that's the true objective of the Sovereign Sect. Endure it for now and wait for the news from the Prehistoric Ruins." The young man spoke in a light voice while his gaze was deep and seemed like a river of stars was roiling endlessly within it.

“The Prehistoric Ruins...” Chi Cangsheng’s eyes flickered with bright light, and he seemed to be eager to take action. “Should we interfere as well?”

“Too many tribulations, it’s better not to go.” The young man suddenly put down the jade scripture in his hand, and then he went silent for a long time before he said, “That’s the place where the upheaval of the three dimensions began. It’s very likely for even Immortal Kings to perish upon going there...”

...

Within the Sword Room.

After he returned, Chen Xi couldn’t wait to see the tiny cauldron and give the Chaotic Quintessence Fragment to it. However, he was met with rejection because the tiny cauldron was guiding his clone in the cultivation of the Nethergod Nine Cauldron Form and couldn’t make any time at all.

“How ruthless...” Chen Xi was able to sense the state of his clone’s cultivation at this moment, and it wasn’t just something that could be described with the word horrifying alone!

Presently, I’ve already attained the advanced-stage of the Golden Immortal Realm, and that mysterious woman, Dian Dian, will probably come looking for me in less than half a year. At that time, if I’m able to obtain a River Diagram fragment, then it couldn’t be any better. Chen Xi took a deep breath and fell into deep contemplation.

Chapter 1317: The Seventh Blazing Sun

After the end of the Seven Academy Dao Discussion, Chen Xi’s cultivation life returned to its calm state.

Besides meditating in cultivation every single day, he condensed the profundities of the Laws, and he occasionally drank wine and discussed the Dao with Ye Tang and Qing Ye. He passed his days in a rather rich and calm manner.

However, in the 4,900 continents of the Immortal Dimension, everything related to him had become the hottest topic recently.

The topic that everyone indulged in talking about the most was definitely the battle where he defeated Xiao Qianshui. Many experts felt that within the Golden Immortal Realm, no one in the Immortal Dimension could fight Chen Xi!

Even the six blazing suns weren’t capable of it!

Of course, some refuted this, and they felt that even though Chen Xi had defeated Xiao Qianshui, he may not necessarily be able to suppress the six blazing suns.

In short, during this period of time, discussions like these had practically occurred in every corner of the Immortal Dimension. Even though everyone had varying opinions on whether Chen Xi could suppress the six blazing suns, it was undoubtable that Chen Xi’s current reputation and combat strength could rival the six blazing suns.

It was also after these vigorous discussions that Chen Xi had become the seventh blazing sun! Moreover, he was the most resplendent and striking amongst them!

...

Besides that, after the Seven Academy Dao Discussion ended, information related to the Sovereign Sect swept throughout the entire Immortal Dimension like a gale and caused a great stir.

The Sovereign Sect.

This was the public enemy of the three dimensions. In the boundless years that the cultivation world had existed, this sect that pursued the path of emotionlessness had caused countless rains of blood and calamities of the heavens and the earth.

Since a million years ago when the Fiendgod Calamity ended, even though the Sovereign Sect had vanished and entered into seclusion, no one would forget the bloody incidents throughout the annals of history.

Presently, news of the Sovereign Sect had actually surfaced after countless years of time, and it naturally drew the attention of many.

There were some rumors that said Bitter Silence, Grand Desolation, and Vastsky Academy had fallen to become pawns of the Sovereign Sect.

There were also rumors that said the Sovereign Sect's sudden appearance in the world was probably related to the upheaval that was about to arrive, and the Sovereign Sect definitely intended to seize this opportunity to once again bring calamity to the three dimensions.

In short, all of these were only rumors in the end. At the very least, most of the powers in the Immortal Dimension hadn't made their stand clear.

...

At the same time.

Iris Continent, within the Zuoqiu Clan.

Zuoqiu Kong who wore white clothes and a feathered crown silently looked through the jade slip in his hand, and then he fell into a long period of silence.

The seventh blazing sun of the Immortal Dimension?

A combat strength superior to Ye Tang?

The Champion in the Seven Academy Dao Discussion?

He recalled the information recorded within the jade slip in his mind, and then a wisp of anger couldn't help but arise in Zuoqiu Kong's heart. It raged up into his chest and couldn't be restrained at all.

Bang!

The jade slip in his hand exploded into pieces, and then it transformed into powder that drifted out from the cracks between his fingers.

Zuoqiu Kong's expression was gloomy and livid.

Only such a short period has passed, yet a bastard that ascended to the Immortal Dimension actually possesses a strength that's on par with my own? If I knew earlier, I would have annihilated him in the Mortal Dimension! When facing the strength Chen Xi revealed and the stirring rumors related to Chen Xi, Zuoqiu Kong had a rare moment of losing control of his emotions, and his mood was severely shaken.

He wondered exactly how Chen Xi cultivated because Chen Xi had no resources or a web of relationships to assist him. *Exactly how did his strength rise so quickly?*

This won't do! I absolutely can't sit by idly. This kid is about to develop successfully. If this continues, then he'll be a calamity for the Zuoqiu Clan! Zuoqiu Kong took a few deep breaths and worked hard to restrain the detest and restlessness in his heart before his expression gradually returned to calm. Only his eyes still flowed with a wisp of icy cold and bone piercing killing intent.

"Manager!"

"Young Master, what're your instructions?" An old man that looked like a manager appeared out of thin air.

"Send out our people. So long as they find a chance where Chen Xi leaves the academy, then use all means to kill this kid!" Zuoqiu Kong spoke word by word, and his voice seemed as if it was squeezed out from the cracks between his teeth.

The old man was shocked and said, "Young Master, this matter has very large implications. Should we notify the Patriarch before deciding?"

Zuoqiu Kong frowned and said with displeasure, "What? You think my current authority in the clan isn't sufficient to give a single order?"

The old man hurriedly said, "I don't dare say such a thing."

After that, he explained patiently. "However, sending out Clan's elders who're at the Half-step Immortal King Realm requires the direct orders of the Patriarch."

At this moment, Zuoqiu Kong felt uncomfortable as if he'd eaten a fly, and he couldn't restrain himself from roaring with a grim voice. "It's already at a time like this yet you're still talking about the lousy rules of the clan with me? Could it be that we must wait for the damnable bastard to come looking for trouble with us before we decide to make a move?"

"Young Master, you've lost control." The old man was unusually calm when facing this. "Nothing can be accomplished without rules, and a little impatience spoils great plans. Young Master, please think twice before acting."

Zuoqiu Kong's chest rose and fell from anger, and he pointed at the old man yet was actually angered to the point of being unable to speak.

After a short moment, he gritted his teeth and said, "Could it be that you think that only experts at the Half-step Immortal King Realm will be able to annihilate that damnable bastard? What about the Saint Immortals of the clan? Are they all useless pigs?"

The old man sighed. "Young Master, don't forget that our clan paid a great price to make Dao Emperor Academy's Taba Tianxi act against Chen Xi in the Outerealm Battlefield. But in the end, it failed on the verge of success."

"That was because Ancestor Zuoqiu Taiwu forcefully interfered. Otherwise, how could that kid possibly survive until now?" Zuoqiu Kong berated in a grim voice. However, as soon as he finished speaking, he seemed as if he'd instantly come to an understanding, and his expression returned to calm and was even slightly gloomy.

"Young Master, you finally understand now?" said the old man.

Zuoqiu Kong puckered his lips and said indifferently, "It's because a portion of our clansmen aren't willing to see Chen Xi die?"

The old man remained silent, and it could be considered as tacit approval.

"Hehe! Little Aunt, you really are capable! What ability!" Zuoqiu Kong roared with laughter as he sighed emotionally, yet his laughter was extremely cold and without any emotion.

The old man couldn't help but glance at Zuoqiu Kong with worry upon seeing this, and he said, "Young Master, perhaps all of this will be easily solved once the Patriarch emerges from closed door cultivation."

Zuoqiu Kong stared blankly at him in silence, and then he smiled bitterly after a long time. He said while seeming slightly dispirited. "At the bottom of it all, I have to rely on my father, right?"

He took a deep breath and waved his hand. "Alright, there's no need to speak any further. I understand what I should do."

"Young Master, you must not act rashly. It's only a little fellow, he can't continue jumping around forever. Our Zuoqiu Clan has stood within the Immortal Dimension for countless years, and it isn't something a single person can shake." The old man couldn't help but remind Zuoqiu Kong when he heard this, and then he turned around and vanished into thin air.

Is he really just a single person? Zuoqiu Kong stared blankly towards the sky, and he suddenly had an indescribably powerless feeling.

...

Time flowed by like a shuttle and passed in the blink of an eye.

Unknowingly, two months had already passed since the Seven Academy Dao Discussion had ended.

On this day, Chen Xi didn't cultivate, and he came to the cliff outside his abode by himself.

He sat casually on a rock atop the cliff while holding a wine gourd in hand, and he drank while looking towards the roiling sea of clouds in the distance. His expression was calm while the space between his brows was filled with a careless relaxed expression.

Presently, it was impossible for his cultivation to improve in the slightest by solely relying on painstaking cultivation behind closed doors, unless he was able to breakthrough and advance into the Saint Immortal Realm.

However, Chen Xi was clearly aware that he was still quite far away from the Saint Immortal Realm, and it wasn't because of his cultivation but because he lacked tempering, a critical factor, and accumulation.

This sort of things couldn't be rushed, he had to take it step by step because haste doesn't bring success.

On the other hand, in terms of condensing the Laws, he'd made great progress in these past two months. Presently, he'd grasped the Five Element Divine Crest, Yin Yang Divine Crest, Tempest Divine Crest, Star Obliteration Divine Crest, and the fourth level of the Spatial Divine Crest, Spatial Chains!

The Star Oblivion Divine Crest was the Allheaven Divine Crest formed from the fusion of the Star Laws and Obliteration Laws.

Amongst the over ten Grand Dao Laws that Chen Xi possessed, Star and Obliteration were the most compatible and the easiest to condense successfully. However, its might was extraordinarily great. It was even slightly superior to the Tempest Divine Crest and Yin Yang Divine Crest.

After he fused the supreme inheritances of the Sword of Star and Sword of Obliteration that came from the Infinite Divine Talisman, the combat strength he revealed when utilizing it with the Star Obliteration Divine Crest was even more terrifying than before. At the very least, if Chen Xi were to go against Xiao Qianshui once more now, then he would absolutely be able to slash Xiao Qianshui to death with a single strike of the sword.

The reason the Star Obliteration Divine Crest was the easier to condense was because amongst the other Grand Dao Laws that Chen Xi had grasped like the Grand Daos of Eternal, Creation, Devour, Light, Darkness, and so on and so forth, all of the others were truly a bit too difficult to condense.

All of these Grand Dao Laws were rare Grand Dao profundities and supreme existences. If it was any other expert at the Golden Immortal Realm, being able to grasp one of them was sufficient to benefit that expert for an eternity.

It was precisely because these Grand Dao Laws were too formidable that they instead seemed especially difficult to fuse together.

In short, it was impossible for him to condense them and transform them into various Allheaven Divine Crests within a short period of time.

As for the Spatial Chains, it was the might of the fourth level of the Spatial Divine Crest. Once it was executed, it was capable of transforming the energy of space into chains that could be utilized. These chains possessed unfathomable ferocious might, and no matter if it was for trapping his enemies, killing, launching surprise attacks, or rescuing others, it possessed an unbelievable effect.

Most importantly, as his comprehension of the Spatial Laws deepened step by step, Chen Xi's understanding of space had arrived at a terrifying height, and this was absolutely extremely beneficial to him when he charged into the Immortal King Realm in the future.

“Senior Brother Chen Xi, so you’re here.” Suddenly, a voice interrupted Chen Xi’s deep contemplation. He raised his eyes to look and saw Qing Ye approaching swiftly, and Qing Ye smiled at him in a reserved manner.

“Junior Brother Qing Ye, is there anything you need?” Chen Xi stood up from the rock and smiled as he asked.

Qing Ye nodded and withdrew a transmission jade slip before passing it over. “Senior Brother, this is for you. It was sent over by a woman called Dian Dian.”

Dian Dian?

Could it be that she intends to take action?

Chen Xi was stunned, and then a wisp of bright radiance suffused his eyes.

Chapter 1318: Unexpected Meeting

Brightsnow Continent.

Endless City.

In ten days.

Meet at Dragonsoul Restaurant.

This was the information Chen Xi obtained from the jade slip, and it was concise and comprehensive.

She actually wants me to rush to Endless City within ten days... Chen Xi pondered deeply without end after putting the jade slip away.

According to his knowledge, Brightsnow Continent was at the northernmost area of the Immortal Dimension, and further north from there was an ocean formed from spatial storms called the Endless Sea. Endless City was situated on the banks of the Endless Sea.

“Senior Brother Chen Xi, are you going to the Endless City?” Qing Ye couldn’t help but ask from the side.

“Yes.” Chen Xi nodded.

“Senior Brother, Endless City is at the northernmost border of the Immortal Dimension, and all sorts of experts both good and bad reside there. Another name for it is Sin City. Even the forces of the Immortal Court are unable to take control of Endless City. If you head over there, then you must be careful.” Qing Ye reminded.

Sin City?

Chen Xi was instantly stunned. It was the first time he’d heard this, and he wanted to ask and get to the bottom of it, yet Qing Ye indicated that his knowledge was limited.

“Senior Brother, if you want to find out more about it, then why not make a trip to the Immortal Secret Pavilion. There are all sorts of information there, and you’ll definitely be able to figure it out there.” Qing Ye suggested in a low voice.

"Alright." Chen Xi nodded.

He originally intended to set out right away, but it was precisely because he heard what Qing Ye said that he didn't dare underestimate this Endless City that was called Sin City.

...

Immortal Secret Pavilion.

"Senior Brother Chen Xi!"

"Greetings, Senior Brother Chen Xi!"

"Senior Brother, do you need any help?"

When Chen Xi's figure appeared within the Immortal Secret Pavilion's hall, he instantly created a stir in the hall. Many students looked at him with gazes that didn't conceal their respect at all.

Chen Xi had become accustomed to this long ago. He immediately nodded with a smile before flashing into the depths of the hall.

"Senior Brother Chen Xi is extraordinary. Since he won the position of champion in the Seven Academy Dao Discussion, his reputation has spread throughout the Immortal Dimension, and it's simply like the sun in the midday sky."

"Of course, just last month, I personally witnessed Senior Brother Chen Xi obtain the first position on the Violet Ribbon Gold Rankings, and he even surpassed Senior Sister Ling Qingwu!"

"It wasn't just that, just a few days ago, Senior Brother Chen Xi renewed his record on the Passage Stone Stele for the 37th to 72nd level of the Illusory Heaven Immortal Domain, and he took the first position."

"How formidable! In the past, I had slight doubts and felt Senior Brother Chen Xi was inferior to Senior Sister Ling Qingwu and Senior Brother Ye Tang. Now it would seem like Senior Brother Chen Xi is obviously superior."

A wave of heated discussion instantly arose in the surroundings when they saw Chen Xi's figure vanish.

The hottest topic was that during these two months after the Seven Academy Dao Discussion, Chen Xi had respectively obtained the first in the Violet Ribbon Gold Rankings and Passage Stone Stele of the Illusory Heaven Immortal Domain.

It was precisely because they'd witnessed these accomplishments that many inner court students felt that Chen Xi was absolutely superior to all the other six blazing suns of the Immortal Dimension, and he could be said to be unprecedented and invincible in the Golden Immortal Realm!

...

When Chen Xi left the Immortal Secret Pavilion, he felt that his trip here wasn't for nothing.

The reason was extremely simple, he was surprised by what he got to know. It turned out that Endless City was simply the haven for the villains of the Immortal Dimension, and there were all sorts of experts

both good and bad residing there. There was no order there, and countless fugitives roamed about there.

All these villains were at various cultivation realms, and according to rumor, the most formidable were even at the Half-step Immortal King Realm!

This city was neighboring to the Endless Sea, and the Endless Sea was filled with spatial storms, spatial rifts, and mysterious black holes and vortexes... Moreover, terrifying natural disasters frequently erupted from it and affected Endless City, causing even the Immortal Court to be unwilling to reside there.

This caused the sinners and villains within the city to be even more fearless. When they were pursued and had nowhere to run, they would take Endless City to be their place of residence.

As time passed, it formed the current Sin City!

Endless City is neighboring to the Endless Sea, whereas, according to the information I obtained earlier, the Prehistoric Ruins seem to be at the end of the Endless Sea. Could it be... that Miss Dian Dian's objective is the Prehistoric Ruins? Chen Xi moved swiftly as he pondered, and he quickly returned to the Sword Room.

Earlier, when he was in the Immortal Secret Pavilion, he'd once tried to find out information related to the Prehistoric Ruins. Unfortunately, he came back empty handed, and this obviously showed how mysterious the Prehistoric Ruins were.

...

"No! I'm coming as well!" When he heard Chen Xi was going to leave for a period of time, Ling Bai instantly cried out with the intention of accompanying Chen Xi. Moreover, A'Man, Starry, and Bai Kui chimed in as well. They looked eagerly at Chen Xi as if they were deeply afraid Chen Xi would leave them behind.

Chen Xi laughed bitterly and helplessly, yet he still didn't agree to it in the end.

The reason was extremely simple. Miss Dian Dian's strength was unfathomable, yet she actually wanted to work together with him and even provided a River Diagram fragment as the reward. Thus, the objective of this trip was definitely not simple, and it could even be said to be filled with danger.

Under such circumstances, how could he dare bring Ling Bai and the others along?

It was even to the extent that Chen Xi had already decided to even leave the tiny cauldron and his clone behind. In this way, even if any mishap were to occur to his main body, he would still at least have his clone as backup.

The reason he did this was extremely simple, it was for the sake of obtaining the River Diagram fragment!

Presently, Chen Xi already possessed five River Diagram fragments, and he only lacked four more to complete the River Diagram. So he was naturally unable to refuse such temptation.

After all, since the moment he'd stepped onto the path of cultivation, the River Diagram fragments had helped him on countless occasions. No matter if it was the Eye of Divine Truth, his experiences in the Talisman Dimension, or when he comprehended and cultivated, the River Diagram fragments had assisted him at all times.

If he was unable to complete it, then Chen Xi couldn't avoid having regrets.

A day later, Chen Xi left the academy by himself and didn't alert anyone else.

...

Brightsnow Continent.

This continent was at the extreme north of the Immortal Dimension, and it was covered in snow and ice all year round. The air here was filled with extremely abundant icy Immortal Energy, and it was extremely suitable for immortals that cultivated water element cultivation techniques to cultivate here.

Wu~ Wu~ Wu~

In an expanse of snow, piercingly cold winds blew like the wailing of ghosts, and it resounded through the heavens and the earth. It swept up the snowflakes to cover the sky, and it tainted the heavens and the earth in a murderous and icy cold aura.

The air here was too cold to the point it formed ice baleful qi that filled the surroundings, and even an ordinary immortal would probably be unable to endure the assault of this ice baleful qi.

Om~

Space fluctuated before a handsome and tall figure walked out from within. His clothed and long hair fluttered while his handsome face was covered in a calm expression, and he was exactly Chen Xi that had rushed over here from Dao Emperor Academy.

The energy of space really is extraordinary. It allowed the speed of my spatial teleportation to obviously become much faster... Chen Xi sighed with emotion before he swept the surroundings with his gaze.

Even if he was standing on this land of ice that was covered in snow, the ice baleful qi wasn't able to affect him at all. Conversely, along with his breathing, the roiling ice Immortal Energy in the heavens and the earth surged like a clear torrent into his body instead. It was like his entire body was bathed in snow, and his entire body felt refreshed from the inside out.

This is definitely Brightsnow Continent, and there isn't any human habitation in an area of 50,000km around here. According to the map, this should be the Darklight Iceland that's 10,000,000km away from Endless City... Chen Xi sized up the surroundings and roughly determined his exact location.

However, just when he intended to make a move, a wave of intense energy fluctuation suddenly arose from afar, and it seemed like someone was rushing over here swiftly...

"Help! Young Master, help me!" Suddenly, space trembled before a graceful and beautiful figure appeared. She had an unkempt appearance, disheveled hair, and her clothes were soaked in blood. Moreover, her beautiful face was completely ghastly pale and covered in terror.

Chen Xi's brows raised. He'd never expected that he would actually encounter a woman that was fleeing for her life in this desolate iceland.

"Young Master, you must save me. Please stop that person for a while when he chases over soon. I'll definitely repay you generously once I escape." The woman seemed to be extremely anxious, and she glanced at the area behind her with terror. After that, she didn't wait for Chen Xi to answer her before she turned around and fled once more.

Obviously, she didn't entrust Chen Xi with her hopes of being saved at all.

"Wait!" Chen Xi's figure flashed and obstructed the beautiful woman's path.

"Young Master, what is it? Quickly move aside, otherwise, I'll probably endanger your life as well!" The woman was stunned, and then became even more anxious while the space between her brows was filled with terror and anger.

Clang!

At this moment, Chen Xi actually didn't waste his breath and swiftly drew Starclasp before pointing it coldly at the woman as he said, "Wait a moment. It wouldn't be too late to leave after that."

The woman's face turned grim, and she said in a sharp voice, "Could it be that you're a friend of that damnable bastard?"

Even though she said this, she actually didn't hesitate at all to swing her fair hand, and a bright silver jade hairpin flew into the air. It emanated a myriad of layers of misty silver radiance as it whistled explosively towards Chen Xi.

She actually took the initiative to attack!

Moreover, this attack was ruthless, direct, and carried a ferocious aura as it smashed through space. Obviously, she intended to take Chen Xi's life with a single strike.

Pu!

Chen Xi's reaction towards this was extremely simple, he swung his sword.

In an instant, a wisp of sword qi appeared and easily slashed apart that silver radiance that covered the sky. After that, its momentum didn't reduce and slit her throat before she could even react, causing blood to spray into the air!

The beautiful woman's head flew into the sky while her eyes were open wide. Even until the moment of her death, she didn't dare believe that she would lose so quickly because it only took an instant!

You actually placed your hopes on me, you deserve to suffer this misfortune... Chen Xi put his sword away and let out a light sigh before he gazed towards the distance.

Om~

Right at this moment, space fluctuated before a thin figure appeared out of thin air. He had a murderous and fierce appearance, and his expression was indifferent. His clothes were black colored and fitting

while he carried a sheathed sword on his back, and the sword had blood red tassels that swayed in the cold wind.

Only his left arm was empty, causing his figure to seem slightly inharmonious.

Surprisingly, it was Wan Jiansheng!

He glanced at Chen Xi with slight surprise and seemed to have never expected that he would encounter Chen Xi here. After that, he shot his gaze towards the corpse on the ground and said, "You killed her?"

Chen Xi nodded with a smile.

Talisman Emperor

Chapter 1319: Immortals Hunters

Chen Xi was similarly surprised that he was actually able to encounter Wan Jiansheng here.

After all, this was the extreme north of the Immortal Dimension, and it was even an uninhabited iceland. So it was really a coincidence indeed that they were able to meet here.

Wan Jiansheng glanced coldly at the corpse on the ground, and then he looked at Chen Xi and frowned as he said, "Do you know her identity?"

Chen Xi said, "The sin on her is too heavy. Even if I didn't know her, I had no choice but to kill her."

He was telling the truth. Since he first laid eyes on this woman, he'd sensed a strand of dense aura of sin. Even though it was very well hidden by the woman, Chen Xi had killed many great villains and possessed the Eye of Divine Truth, so how could he possibly be deceived by her?

If it wasn't for that, he wouldn't be so merciless as soon as he attacked.

Wan Jiansheng's proud and indifferent expression eased up greatly when he heard this, and he said, "She does deserve death indeed. This woman is called Lan Yufeng, and she has another nickname, the Fair Handed Rakshasa. For the sake of cultivating a secret technique, she cruelly murdered 3,600 children, and I've already been pursuing her for three days out of righteous indignation. Yet I never expected that she would actually die at your hands."

Chen Xi was stunned. He thought that there was great enmity between Wan Jiansheng and the woman, yet never had he imagined that Wan Jiansheng had done all this merely out of righteous indignation.

He couldn't help but admire Wan Jiansheng even more because of this. Even though Wan Jiansheng was proud, arrogant, and possessed an oppressive and icy cold aura, yet he was virtuous and heroic, so how could others not admire him?

Figures that were virtuous and heroic like Wan Jiansheng were extremely rare in the world now.

"Farewell." Wan Jiansheng didn't intend to have any more interaction with Chen Xi, and he turned around with the intention of leaving.

"Wait." Chen Xi hurriedly chased up to him and said, "Senior Brother Wan, are you intending on heading to Endless City?"

Wan Jiansheng frowned as he said, "How did you know?"

Chen Xi smiled and didn't mind Wan Jiansheng's unapproachable and cold attitude at all. He pointed ahead and said, "There's only a single destination if you head in this direction, Endless City."

As he spoke, Chen Xi said directly. "To tell you the truth, I'm heading there as well. Why don't we travel together?"

Wan Jiansheng's brows knit together even more tightly, and he refused decisively. "No, I'm going there to kill and eradicate sin, and my path will be filled with danger. If you follow me, then it'll probably bring harm to you instead."

Eradicate sin!

Chen Xi couldn't help but ask when he heard this. "Senior Brother Wan, you wouldn't be intending to head to Endless City this time to deal with all those villains by yourself, right?"

"It's Sin City. If I don't eliminate it, then what's the point of possessing the ability I have? Wan Jiansheng's reply was similarly simple. "So why can't I head over there?"

Why can't I head over there?

It was merely a few words, yet it was spoken in such a natural manner and was filled with the feeling that it was only right and proper for him to do it, so he had to do it!

Right, why can't he? Chen Xi carefully digested Wan Jiansheng's words, and he felt even greater admiration for Wan Jiansheng in his heart. In this world, there are some things that clearly can't be done, yet one still does it. Is it really a very stupid action?

"There are too many unjust things in the world, and I only desire to kill some people that deserve death. Not for the sake of honor or the living beings of the world but only for the sake of not letting down my heart towards the sword..." Amidst the blizzard that covered the sky, Wan Jiansheng that wore black clothes left swiftly. The scarlet red tassels on the sword on his back swayed with the wind, and it was like a wisp of hot blood that fluttered in the heavens and the earth!

...

Senior Brother Ye Tang's Dao is to seek freedom, Wan Jiansheng's Dao is to right injustice. There isn't a difference in superiority, and both these Daos are rare and valuable because they've persisted on them until now... Chen Xi muttered. On the other hand, my Dao is to... stay true to my heart!

If the heart is filled with spirit, then everything will contain the Dao, and where the heart points to, even the boundless universe is only a grain of sand.

Chen Xi took a deep breath and shook his head before turning around and walking into the blizzard that covered the sky.

There was an entire 10,000,000km from here to Endless City. If it was an ordinary person, then it would probably be impossible for the person to traverse this distance in a lifetime. However, to Chen Xi that had grasped the technique of teleportation, he could arrive there in a few hours.

After the time for an incense stick to burn, Chen Xi suddenly stopped teleporting. He swept the surroundings with his gaze before he was shocked in his heart.

The silver blizzard that covered the sky had actually turned black in color. The black colored snowflakes drifted to the sky while emanating a horrifying aura. It was the energy of sin that carried resentful, malicious intent, curses, and various other auras. While one resided within this energy, even an Immortal would be affected, causing the mind to gradually become vicious and ruthless. Moreover, the slightest provocation would cause the immortal to carve out rivers of blood and cover the ground with corpses.

Of course, one could temper one's cultivation here as well. While one resided within this chaotic land of sin, if one was able to stay true to one's heart and avoid being shaken, then one would be able to temper one's will and Dao Heart.

I haven't even arrived at Sin City, yet the aura of sin is already so dense. This obviously shows that countless great villains are residing and cultivating here... Chen Xi seemed to be lost in thought. The great villains of the Immortal Dimension were unlike those from the Mortal Dimension. All of them were immortal cultivators, and in terms of strength, they were extremely terrifying. All of their hands were dyed red with blood, and they possessed ruthless dispositions, causing them to be even more difficult to deal with than disciples from great powers.

The Immortal Dimension isn't really great. The more I understand it, the less different it is from the Mortal Dimension. Eternal life? At the bottom of it all, if one desired to attain all of this, then it depended on one's strength.

Swoosh!

Chen Xi's figure didn't stop here and flashed into the black blizzard that covered the sky.

Not long later, Chen Xi saw a group of figures from afar. It was over ten immortal cultivators that consisted of both young and old members, and the leader was two Golden Immortals.

He was able to discern that this group had suffered a heavy injury, and some of its members had damaged armor and were tainted with the traces of blood. Moreover, their expressions more or less revealed vigilance and heaviness.

These are probably Immortal Hunters that rely on killing villains to obtain great rewards... Chen Xi was stunned, and then he quickly recalled that the information he obtained from the Immortal Secret Pavilion had mentioned that even though Endless City was called Sin City, in the eyes of Immortal Hunters, it was a place where wealth gathered because the Immortal Court would bestow them with an enormous reward for every single villain they killed.

This was a business where one lived on the edge of a blade. It was extremely dangerous, yet the rewards were equally high.

Normally, Immortal Hunters would act in groups, and they wouldn't take risks within Endless City. They would instead choose the area outside Endless City to seek an opportunity to kill villains that passed by.

In this way, the risks would undoubtedly be reduced greatly.

This group before him was covered in a ferocious and bloodthirsty aura, but they didn't have the aura of sin on them. So they were definitely Immortal Hunters.

Wan Jiansheng is killing villains out of righteous indignation, whereas these people are hunting villains for benefit. Comparatively speaking, the difference amongst them is obvious. However, even though their methods are different, all the people of the world seek benefit. Thus, since the actions of these Immortal Hunters still kill villains, they do really deserve to be encouraged... Chen Xi pondered as he flew forward.

After cultivating to a realm like his, one would start noticing the traces of the Grand Dao in everything. As it was said, one had to understand one's self, and one could comprehend supreme and deep profound truths from these minor details.

This was how one could move from the path of one's self to the path towards becoming gods and saints.

It was utterly impossible to advance into the Saint Immortal Realm and obtain the extraordinary ability to spread the Dao throughout the world by merely meditating behind closed doors.

This was a type of experience and accumulation. For example, these Immortal Hunters were acting for the sake of benefit while Wan Jiansheng acted out of righteous indignation, and both of these carried a type of force. It was the force of 'benefit' and 'righteousness!'

These two things seemed to be shapeless, yet they affected the situation within the three dimensions. Just like how the saints educated the people in the Dao. Righteousness, courtesy, benefit, morals, trust, honor, shame, kindness... All of these shapeless forces of education were the true foundation of the order in the three dimensions.

The path towards becoming a Saint Immortal was to comprehend this path of education, and only then could one attain the Dao and become a Saint.

"Fellow Daoist, please wait a moment. The infamous Sin City is right ahead. Don't continue heading forward, otherwise your life will be in danger." A beautiful woman in the group noticed Chen Xi, and her beautiful brows immediately raised before she warned Chen Xi.

A robust middle aged man at the side was shocked, and he said via voice transmission in a low voice, "Su Su, this fellow's origins are unknown. He might be a villain that's fleeing to Sin City. Your actions are too rash!"

The young woman called Su Su was stunned, and then she stuck out her tongue before she said with slight embarrassment, "I just... I just felt that he didn't seem like a villain."

"Oh you! You still lack experience. What you see isn't always the truth." The robust middle aged man sighed, and then he glanced at Chen Xi and said, "He possesses a cultivation at the Golden Immortal Realm, and his strength is obviously not weak. We can't make any rash judgments before we figure out his background. Who knows if he's good or bad?"

Su Su was instantly reprimanded to the point she lowered her head and was extremely embarrassed.

Chen Xi wasn't in a rush to leave this time. He stood in midair and glanced at Su Su and the robust middle aged man. Even though he was unable to hear their voice transmission, based on their

expressions, he'd roughly understood what they were speaking about and a wisp of a smile couldn't help but suffuse the corners of his mouth.

"All of you seem to have suffered a pursuit earlier?" asked Chen Xi.

"How did you know?" Su Su blurted out. As soon as she finished speaking, she was embarrassed once more and looked shyly at the robust middle aged man beside her.

The middle aged man revealed a vigilant expression as he waved his hand, causing the others to be on alert before he said coldly, "This matter isn't related to Fellow Daoist. Please leave quickly."

The atmosphere was instantly slightly murderous.

Chen Xi shrugged when facing this, and he glanced at the beautiful woman before he said with a smile, "You warned me earlier, so now, I'll help you deal with some trouble. Take it as...me returning a favor."

"What do you intend to do!?" The robust middle aged man's face sank as he shouted explosively. He felt that Chen Xi was going to play some sort of trick, and he seemed as if he would attack at any moment.

At the same time, the others became vigilant as well and accumulated their strength while waiting to attack. They seemed as if they'd taken Chen Xi to be their enemy.

Chen Xi paid no attention to all of this. He suddenly turned around, and his clothes and long hair fluttered as his handsome and tall figure stood in the black snow that covered the sky.

After that, magnificent and boundless energy of light rumbled out from his body and shot into the nine heavens.

At this instant, it was like a blazing sun had risen into the sky, and it illuminated the world!

Chapter 1320: Sin City

Inky black snow filled with the energy of sin filled the sky.

Yet at this moment, a wisp of dazzling and blazing light shot into the sky, and it was like the wisp of light at daybreak that tore through the darkness. It illuminated the entire world!

Hiss! Hiss!

One could clearly see that the boundless light emanated a purifying energy, and it swept out like an all-powerful whirlwind as it enveloped the blizzard that covered the sky. The surging black energy of sin was completely incinerated and emanated waves of rumbling.

This scene was too terrifying. The boundless light purified the sin, and it was like a god was judging all sinners, and it carried a grand, blazing, brilliant, and powerful impetus.

Everyone was shocked and felt suffocated.

Everyone including the beautiful woman and the robust middle aged man were dazed by this shocking scene, and they practically didn't dare believe that such a scene was actually accomplished by a single person.

Pu!

Pu!

“AH!!”

“Dammit!”

“How did he notice us?”

“Light! Purification! Could this damnable thing be the...?”

A wave of muffled shattering resounded, and it was accompanied by waves of miserable and shrill cries that suddenly resounded in the surroundings.

After that, everyone noticed to their shock that there were numerous figures falling to the ground from within the blizzard that was purified by the energy of light. All of them had horrifying and savage expressions, and their entire bodies emanated strands of jet black sin.

But in next to no time, these figures were annihilated and purified by the energy of light that filled the surroundings, and then it incinerated their bodies into ashes that dispersed into the air.

After a short moment, the blizzard still remained, yet there wasn't a trace of sin remaining in the surroundings!

The snow was white like silver, pure and divine, and it wasn't dark any longer.

Light illuminated the surroundings and enveloped all of them, and it was like they were bathing beneath sunlight, causing all of their hearts to be filled with warmth and tranquility.

After a long time, all of them seemed as if they'd awakened from a dream, whereas Chen Xi's figure was nowhere to be seen.

“Earlier...those villains that were pursuing us were...hiding nearby?” One of them gulped with great difficulty, and his face surged with a wisp of terror.

The expressions of the others turned slightly pale when they heard this, and they were extremely shocked in their hearts. Right, if it wasn't for that young man from before, we would have been utterly unaware and would have been surrounded!

“If he didn't act...then...we would really be finished this time...” One of them couldn't help but take a few deep breaths, yet it was still impossible to conceal the shock in his heart.

All of the others went silent, they were clearly aware that the young man from before had saved them.

When they thought about how they'd eyed him with hostility, all of them felt a wave of remorse.

Only Su Su puckered her cherry lips and muttered. “Even though I lack experience, I still firmly believe that good always comes to those that do good. Just like...just now.”

The middle aged man by her side stood there while staring blankly into the distance, yet he couldn't find a reason to rebuke Su Su.

It was even to the extent that it was precisely Su Su's warning that obtained a good impression from that young man from before, thereby making him decide to lend a hand and help them ward off this calamity!

"It looked to me like the young man from before seemed to be...Chen Xi?" An old man hesitated before speaking abruptly. "After all, his appearance is truly too similar to the rumors of Chen Xi. Moreover, he'd grasped the Laws of Light, and Chen Xi utilized the energy of light during the Seven Academy Dao Discussion."

Chen Xi?

All of them were stunned while they revealed shocked expressions. They recalled the young man that was renowned throughout the Immortal Dimension now, the seventh blazing sun of the Immortal Dimension!

"Was it him? No wonder he was so formidable..." Su Su was stunned as well, and her beautiful eyes flowed with extraordinary splendor.

...

Helping Su Su's group was only something Chen Xi had done without any difficulty. After he finished all of this, he didn't attach any importance to it and turned around to continue rushing towards Endless City.

All along the way, no other unexpected events occurred.

Endless City.

He hadn't arrived at the city, yet Chen Xi noticed a layer of sin from afar. The sin was like a mist that enveloped the entirety of Endless City. It was like dark clouds were covering the sky, and it caused Endlessly City to seem like a ghastly place where demons and devils resided.

This sort of scene was extremely terrifying!

Sin had transformed into clouds that blotted out the sky, and it obviously showed exactly how much sin was contained within the city. No wonder it's called Sin City.

It was even to the extent that Chen Xi noticed from afar that there were many figures standing before Endless City. Every single one of them was covered in jet black halos of sin, and they seemed to be villains whose hands were covered in blood.

Chen Xi restrained his aura and concealed the energy of virtue within him, causing him to become completely obscure. Unless it was an existence with a cultivation superior to his own, otherwise, it was absolutely impossible to discern his strength.

After he did all of this, Chen Xi's figure flashed towards Endless City.

According to the information provided by the mysterious woman, Dian Dian, she would naturally come as promised so long as he arrived within Endless City's Dragonsoul Restaurant within ten days.

Chen Xi deeply believed this because her strength was unfathomable, so it was impossible that she would deceive him.

Right when Chen Xi arrived before the entrance to Endless City, a middle aged man with a sneaky appearance approached him and asked. "Friend, are you entering the city?"

"Yes." Chen Xi glanced at the middle aged man, and he instantly noticed the ring upon ring of sin that covered the middle aged man. Obviously, this was a villain whose hands were covered in blood.

However, this was Endlessly City, the haven for sinners. Moreover, Chen Xi didn't come here to eliminate evil and uphold justice, so he didn't harm the middle aged man.

After all, once he killed the middle aged man, he would probably become enemies with the entirety of Endless City. In that way, it would be extremely easy for disputes to occur, and it was extremely disadvantageous to the objective of his trip.

"Oh, that makes it easy. I presume it's your first time to Endless City, and you still don't know the rules here. However, since it's rules, you'll become familiar with it soon enough. It's very easy, and all of it depends on whether you're understanding." The sneaky looking middle aged man sized Chen Xi up, and his eyeballs revolved before he stretched out his hand and said, "Pay first... Hmmm, one thousand Immortal Stones. I guarantee that you won't be bullied upon entering the city."

"Alright." Chen Xi swept the surroundings with his gaze and noticed many ferocious gazes sizing him up with ill intent. He immediately agreed with a nod, and he took it as paying up to avoid disaster.

The sneaky looking middle aged man couldn't help but be stunned when he saw Chen Xi pay so readily, and then he scratched his head and said with difficulty, "Friend, I'm sure you're aware, this is Sin City. I presume you fled over here from the outside world, but you're an unfamiliar face in the end, and it's the easiest for unfamiliar faces to cause misunderstandings..."

"Five thousand Immortal Stones, take me to Dragonsoul Restaurant." Chen Xi frowned as he interrupted the middle aged man's chattering.

He didn't mind being misunderstood as a villain that fled to Sin City, but in the end, the middle aged man was chattering so much merely for the sake of Immortal Stones, and he wasn't willing to waste time on this fellow.

As he spoke, he'd tossed over a storage pouch.

The middle aged man's eyes lit up, and he stretched out his hand to receive it before he put it away carefully. After that, he said with a smile, "Friend, you really are wise. I'm Huang Lang, feel free to look for me if you need anything in the future."

As he spoke, he led Chen Xi into the city.

"That kid's aura is slightly strange. Might he be an Immortal Hunter?"

"I don't know. But since he came here all alone, he probably has something to rely on. It's better to continue observing a fellow like this that we can't see through."

“Hehe, we have the patience, but that fellow Li Bao might not necessarily have such patience. That fence-sitter, Huang Lang, is working with Li Bao now, and his discerning ability isn’t as great as before. I hope he doesn’t make a blunder this time.”

At the area before the entrance to the city, many people laughed coldly without end as they watched Chen Xi head into Endless City behind Huang Lang.

Endless City was really chaotic, and there wasn’t any order at all.

In a short period of ten minutes since he entered the city, Chen Xi had at least sensed a few murders. The first was two people fighting intensely on the streets, the second was a drunk man who didn’t succeed in teasing a woman and was struck to death by a single blow from her, the third was even more absurd, an old man at the Golden Immortal Realm had actually cruelly torn apart the owner of a restaurant and destroyed the restaurant merely because he felt the food didn’t taste nice.

In short, Endless City was filled with unrest, and it was utterly chaotic. It was filled with dense energy of sin, causing it to be like a purgatory of darkness that was filled with a ruthless and bloody aura.

It was extremely unbridled!

There was no order and laws here, and everything depended on strength. On the streets and in the restaurants, villains covered in sin could be seen everywhere, so the city really deserved its name, Sin City.

“Friend, you seem to have gone the wrong way?” Chen Xi suddenly stopped moving and asked in a calm voice.

“How could that be possible? Isn’t Dragonsoul Restaurant just up ahead.” Huang Lang was stunned, and then he hurriedly pointed ahead and explained.

“There are six restaurants 500km ahead, yet none of them are called Dragonsoul Restaurant. A further 2,500km up ahead is a messy expanse of ruins that encompasses an area of 4,000km. Further up from there is a boundless ocean. I guess that’s probably the Endless Sea.” Chen Xi turned around and looked at Huang Lang as he said, “This isn’t the right path. Don’t you think you owe me an explanation?”

Huang Lang’s expression turned grim. Never had he imagined that Chen Xi’s Immortal Sense would cover such a far area, and for a time, he actually didn’t know how to give Chen Xi an explanation.

“Hmph! If you can’t explain, then what’s the point of explaining!” Right at this moment, a cold grunt sounded out from the streets far away. It resounded abruptly like a thunderclap, and along with this voice, over ten figures flashed out explosively from the sides of the street.

These figures had actually been lying in ambush here since a long time ago. There were both men and women that were young and old amongst them, and there were even some other strangely shaped living beings.

Their only common point was that all these ten plus figures were covered in varying densities of sin. Especially the bald middle aged man in the lead, the energy of sin around him had even transformed into black armor that enveloped his entire body, causing him to seem extremely terrifying.

“Boss Li?” Huang Lang was stunned, and then he raised his legs with the intention of fleeing.

However, before he could move, Chen Xi stretched out his hand and grabbed Huang Lang from behind. Chen Xi grabbed Huang Lang's neck tightly as he said, "I paid Immortal Stones to you, so it's too dishonest of you if you flee now."

His voice was flat, and it carried a murderous force that struck at the heart.

When this scene appeared before him, how could Chen Xi not understand that these fellows were obviously from the same group, and they'd targeted him!
