Chapter 1491: Rebuilding The Academy

Chen Xi intended to enter into closed door cultivation and charge into the Immortal King Realm. However, he'd just succeeded the position of Dean, so even though there were some things that he could allow Zhou Zhili, Wang Daolu, and the others to help him deal with, there were some things that he could only deal with by himself.

"The academy has been destroyed, and most of the restrictions within the academy have been damaged as well. Only you, Dean, can deal with it now." Wang Daolu spoke of some matters that were difficult to deal with.

Presently, Dao Emperor Academy had just experienced a disaster and unrest, and it had been reduced to a wreck. The land had split open, the ground had collapsed, the Immortal Energy within it had dissipated, and the mountains had dried up. Almost everything was on the verge of falling into ruin.

Chen Xi frowned and said coldly, "These bastards really deserve death. After I crush the forces of the Sovereign Sect, I'll definitely make them pay the price for this!"

Even though he gnashed his teeth with hatred, Chen Xi was very clearly aware that the important matter at hand was indeed the recovery of the entire academy. Otherwise, once the enemy invaded, the consequences would truly be unimaginable.

Chen Xi immediately headed to Starpoint Hall with Wang Daolu and Zhou Zhili, and he took away a huge amount of rare immortal materials that were stored there because he intended to utilize these materials to repair the various ancient grand formations within the academy.

After that, all of them returned once more to the area before the Dao Emperor Divine palace.

With Chen Xi's current ability, if he intended to repair the numerous damaged areas within the academy in a short period of time, then he had to rely on the energy of Karmic Luck within the palace in order to accomplish it.

...

Rumble!

In the sky above Dao Emperor Divine Palace, Chen Xi stood upright while his entire body surged with blazing Immortal Force, and then he suddenly took a deep breath before he instantly formed a myriad of seals with his hands.

Suddenly, numerous droplets of auspicious energy descended from the sky like a rain of light, and they poured down to envelop the entire academy.

Within the rain of light was Immortal Energy, the energy of the five elements, Creation Qi, Primordial Qi, Chaotic Qi... As soon as they descended, numerous towering trees rose into the sky, and all of them were ancient spirit trees.

After that, numerous beautiful and lofty mountains started to move according to the set up of various restrictions while boundless gorgeous flowers and plants started to emerge and grow.

In these years, Chen Xi had annihilated countless enemies and seized innumerable storage treasures from them, and there was no lack of rare and precious treasures amongst them. Coupled with the large amount of immortal materials he took from the Starpoint Hall, he'd utilized all of them to repair the academy.

Om!

The Nineflow Jade Seal glowed in Chen Xi's palm while emanating a grand fluctuation that swept out. It instantly caused the Dao Bell of Vie in the outer court, the Nine Profundity Treasured Cauldron in the Pill Reserve, the Heavenflow Divine Mirror in the Dao Development Reserve, the Daolight Jade Scripture in the Scripture Reserve...

At this moment, all of these ancient treasures within the academy had undergone a transformation at this moment, and they emanated all sorts of energies to assist Chen Xi in repairing the restrictions within the academy and rebuilding the academy!

The ground of the academy was refined by Immortal Flames, causing the dirt and rocks that covered the ground to transform into extremely hard jadestone, and they emanated a myriad of strands of illusory and auspicious divine radiance.

At this moment, the numerous restrictions within the academy seemed as if they'd awakened with renewed vitality, and they started to circulate slowly while revealing a myriad of grand phenomena.

The damaged buildings, the fields of herbs that were trampled into ruins, the dried up mountains and rivers, the collapsed landscape... Everything was being repaired at this moment.

Rumble!

The ground settled while every single area within the entire academy underwent tremendous changes. Immortal radiance flowed throughout the surroundings while gorgeous flowers bloomed in profusion, and numerous mountains towered into the clouds. Moreover, pavilions stood like trees within a forest atop these mountains, and they were covered in restrictions.

Everything had been remodeled and rebuilt. Compared to the past, it had a completely new atmosphere, and its defensive ability and effects on one's cultivation were even superior to the past.

At this moment, Chen Xi was like the creator of life. With just a few simple actions, he'd rebuilt the academy and the landscape within it, and his supreme ability and paramount technique deeply shocked every single instructor and student within the academy.

Seven days and seven nights later, the entire Dao Emperor Academy had a completely new look. It was like a phoenix that had been reborn from the ashes, and its majestic appearance from before had reappeared. Moreover, even all the cultivators within Darkombat City had personally witnessed such a world shocking change.

“He annihilated the group of Immortal Kings, resolved the internal strife of the academy, and succeeded the position of Dean while at the Half-step Immortal King Realm. From the ancient times until now, how many people were capable of accomplishing this?”

“He built the academy in seven days of time, and it can truly be considered a magnificent feat. From today onwards, if anyone desires to invade Dao Emperor Academy again, then they would probably have to consider whether they possess the ability.”

“Dean Meng Xinghe chose a good successor!”

“Who could have imagined that a student who had no status or background all those years ago would become the most influential overlord in the Immortal Dimension now? Would anyone amongst all the living beings of the Immortal Dimension still dare to underestimate Chen Xi at all?”

Discussions like these had been occurring throughout the past few days. It wasn’t just within Darkombat City either, and even the entire Immortal Dimension was discussing the matter of Chen Xi annihilating the group of Immortal Kings and succeeding the position of Dean, causing Chen Xi’s reputation to arrive at an unprecedented height.

In the past, there were still some people that compared him to Yun Fusheng or the six blazing suns of the Immortal Dimensions. But now, along with the arrival of the calamity and the disappearance of the gods, no one was able to be compared to Chen Xi any longer.

Could anyone at the Half-step Immortal King Realm be as formidable as Chen Xi was?

On the other hand, was anyone in the Immortal King Realm confident of being able to suppress Chen Xi?

They couldn’t compare to him at all!

Under such circumstances, Chen Xi seemed to have become a unique existence in the entire Immortal Dimension, and he couldn’t be judged by convention because he seemed to be extremely extraordinary and unique.

However, some people were filled with anxiousness and worry. “Presently, the Sovereign Sect has resurfaced, and it’s ceaselessly encroaching on and invading the various powers in the Immortal Dimension. As the number one academy in the Immortal Dimension, Dao Emperor Academy would probably be seen by the Sovereign Sect as a thorn in its eye. When the time comes, would Chen Xi be able to lead the academy to resist the Sovereign Sect’s invasion?”

No one was able to be certain.

The entire Immortal Dimension was in a state of unrest. Battles and conflicts were erupting practically every single day while countless powers were being uprooted daily as well. The entire Immortal Dimension was covered in chaos.

Various conflicts had even erupted repeatedly in the top large powers like the seven great ancient clans and seven great academies, and fatal incidents frequently occurred within them.

If it was said that all of this wasn’t related to the Sovereign Sect at all, then there would probably be no one who believed it.

It was even to the extent that there were rumors that said the Zhongli Clan, Wanqi Clan, Grand Desolation Academy, Bitter Silence Academy, and Dao Secret Academy had fallen completely into the Sovereign Sect's control.

They could foresee that once these top powers were unable to endure the invasion of the Sovereign Sect, then it wouldn't be long before the entire Immortal Dimension would fall into the Sovereign Sect's control!

...

Chen Xi sat cross-legged in the deepest parts of Dao Emperor Academy.

After he rebuilt all the restrictions and landscape within the academy, he'd returned to the Dao Emperor Divine Palace and entered into closed door cultivation, and he paid no further attention to the affairs of the academy.

Zhou Zhili, Wang Daolu, Xuanyuan Pojun, and the other instructors were naturally there to take care of those trivial matters.

At this moment, Chen Xi was silently observing the numerous treasures that floated in midair.

A bronze halberd, a glistening bronze mace, a flexible whip that was covered in a violet glow, and an ancient bowl.

All of these treasures had come from those Immortal Kings that Chen Xi had annihilated, and besides these treasures, there were other immortal materials, pills, and herbs. However, all of these weren't attractive to him at all, and he'd placed all of them within the Starpoint Hall.

The Immortal Artifact with the lowest quality amongst all of these treasures was at the extreme-rank of the Void Grade, and the best was definitely the bowl. It was an Artificial Spirit Treasure called the Heavenfuse Bowl, and it was capable of fusing with the energy of the universe and possessed extremely shocking might.

Besides the Heavenfuse Bowl, I can refine all the other Immortal Artifacts with the Green Spiritbreaker Nightmare Spear and Spirit Lightning Golden Hairpin to become immortal materials to improve the quality of my Talisman Armament. Chen Xi pondered deeply for a moment before he carefully put the Heavenfuse Bowl away. As for the other Immortal Artifacts, he'd classified them as the same type and kept them together.

The Talisman Armament's quality was only comparable to the Cosmic Grade right now, and its might was limited. In order for it to be able to bring forth Chen Xi's entire might, it had to at least attain the extreme-rank of the Void Grade.

On the other hand, if he desired to improve the quality of the Talisman Armament, then he required a large amount of rare immortal materials to refine it, and since a very long time ago, Chen Xi had always been making preparations for this and had finally prepared sufficient immortal materials now.

So long as I improve the Talisman Armament successfully, then with my Talisman Saint Dao, cultivation in the Sword Dao, and Immortal King Energy, it would be sufficient for me to bring forth an even stronger combat strength than before. Chen Xi quickly deduced all of this. However, before all of this,

the important matter at hand is to first break through into the Immortal King Realm. Only in this way would I be completely fearless when facing the threat that the Sovereign Sect poses.

He was very clearly aware that it was impossible for him to stay forever within the Dao Emperor Divine Palace, and this also meant that if he were to go against the Sovereign Sect in the outside world, he would be unable to rely on the energy of Karmic Luck within the palace.

Under such circumstances, only improving his cultivation could guarantee that he would possess sufficient strength to go against the Sovereign Sect.

Chen Xi didn't hesitate to start cultivating.

Within the silent and solemn palace, Chen Xi sat cross-legged by himself, and his entire body was enveloped by strands of blazing divine radiance. Moreover, there were even numerous large dragons formed from Karmic Luck coiled around him, and they caused his aura to seem even more extraordinary.

Rumble!

The universe within his body rumbled while the numerous stars within it emanated dazzling light. Dark golden divine radiance rose from them while boundless Immortal Force transformed into a surging river of stars that surged with great might. It ceaselessly rumbled and circulated within the universe, and it emanated the aura of the eternal cycle of the universe.

Early on before he returned to the academy, Chen Xi had already seized a portion of unprecedentedly great Karmic Luck, and he'd refined numerous Divine Chains of Order. So he was confident in being able to step into the Immortal King Realm at any time.

However, he'd always been forcefully restraining his cultivation and was unwilling to advance until now. The reason was that he intended to establish a perfect Immortal King Grand Dao and condense a Primeval Dao Quintessence that was rarely seen in the annals of time!

Now, after experiencing a great battle and annihilating a group of Immortal Kings, Chen Xi had obtained an even deeper understanding of the Immortal King Realm, and he'd faintly come into contact with the requirement to mend that trace of 'flaw.'

He was very confident that with the assistance of the energy of Karmic Luck within the palace, it would be sufficient for him to grasp the Primeval Dao Quintessence and ascend into the Immortal King Realm during his closed door cultivation this time!

At that time, he would truly be able to accomplish 'breaking the cage of the heavens and the earth with a single step and seeing through life and death,' and he would become a supreme existence in these three dimensions.

Moreover, based on Chen Xi's understanding of himself, he was completely confident that once that moment came, he could be completely unafraid of all Immortal Kings, and he would be capable of crushing all opponents at the same cultivation realm as him!

Chapter 1492: Crowned A King

Recently, the matter of Chen Xi annihilating six Immortal Kings by himself had given rise to much discussion in the Immortal Dimension, and it had become the hottest topic of discussion amidst the calamity.

On the other hand, during this period of time, Chen Xi had chosen to enter into closed door cultivation, whereas Dao Emperor Academy had chosen to close the doors to the academy along with this and started to reorganize itself internally.

It wasn't long before three months had passed.

During this period of time, that door still stood towering in the sky above all the worlds in the universe. Even though it was in a silent state, yet it was like a sword that floated above the heads of all the living beings in the three dimensions. It caused everyone to be terrified and be unsure about when it would descend.

On the other hand, the Sovereign Sect had successively caused numerous rains of blood within the Immortal Dimension. Within the 4,900 continents of the Immortal Dimension, more than half of all the powers residing there had fallen into the control of the Sovereign Sect.

In other words, after the calamity swept through the three dimensions, the Immortal Dimension wasn't at peace any longer, and it was covered in an atmosphere of war and unrest.

Besides a mere few areas of the Immortal Dimension, there weren't any peaceful places left.

...

On this day, the sky was bright and clear.

All the instructors of Dao Emperor Academy were teaching strictly and meticulously with solemn expressions.

After Chen Xi resolved the internal strife within the academy, the academy had overturned the rules of the past and stopped placing any restrictions on places like the Scripture Reserve, Starpoint Hall, Dao Development Reserve, and so on and so forth, and it allowed all the students in the academy to enter these places to study and cultivate.

On the other hand, as instructors of the academy, they took up their responsibilities and guided the students without holding back at all. Moreover, they even provided large amounts of cultivation resources to support and reward some students that performed outstandingly.

All of this was done for the sake of allowing the members of the academy to improve their strengths as far as possible during this calamity, and it was done in order to prepare to resist all sorts of troubles in the future.

It was even to the extent that even Ye Tang, Ling Qingwu, Nie Xingzhen, Gu Yueru, and the other students who'd just advanced into the Half-step Immortal King Realm had taken up the position of instructors in the academy, and they tried their best to contribute to the academy.

Just like this very moment, Ye Tang was passing down his cultivation experience, and the recipients of his teaching were all the members of the Star Alliance.

Since the moment Chen Xi succeeded the position of Dean, because of his unique status, he'd stopped holding the position of leader in the Star Alliance, and he'd passed it to A'Xiu instead while Ye Tang and Ling Qingwu assisted A'Xiu to deal with the affairs of the Star Alliance.

"I cultivate in the path of advancing courageously and killing resolutely. The reason I was able to attain my current accomplishment is none other than because of a single thing — Severing the cage of the Dao Heart and severing the confusion from improper thoughts. Because I was empty from both inside and out, I was able to ascend step by step." Ye Tang spoke in a lighthearted manner as he looked at the students of the Star Alliance. "To put it simply, the heart moves according to will while the will isn't affected by anything from the outside. Thus, I can be free and unrestrained."

"Instructor Ye Tang, how do we sever improper thoughts?" A female student frowned and asked with wonder.

"Comprehend the Heaven's Dao and stay true to your heart." Ye Tang went silent for a short moment before he sighed with emotion. "This was something the Dean told me once. Now that I think about it, these mere eight words seem to be clear, easy to understand, and extremely ordinary, but it isn't necessarily so easy to accomplish."

The words of the Dean!

The eyes of all the members of the Star Alliance lit up, and a wisp of sincere admiration and reverence couldn't help but appear between their brows.

In their hearts, Chen Xi was their Dean, and he was also the leader of their alliance!

"However, the Heaven Dao has formed a calamity now and sent it down into the three dimensions, and it has restrained the gods and brought calamity to all the worlds in the universe. So how should we comprehend the Heaven's Dao?" A student spoke weakly with slight bewilderment, and it instantly aroused a wave of dissatisfaction from the other students in the surroundings.

Ye Tang couldn't help but chuckle as he said, "The Heaven Dao has always been difficult to grasp, and there's similarly good and bad amidst our comprehensions. It's precisely because we know this that we're able to stay true to our hearts and prevent our Dao Hearts from being deceived and subsequently losing ourselves beneath this calamity."

Everyone came to a sudden understanding when they heard this.

For a time, all of them seemed to be lost in thought.

Bang!

Right at this moment, a wave of world shocking rumbling suddenly resounded from afar. It was like the voice of the gods had descended from the heavens, and it shook the clouds and wind in the surroundings and instantly alarmed everyone present here.

"What's going on?"

"Eh, it's coming from the Dao Emperor Divine Palace!"

The hearts of Ye Tang and all the members of the Star Alliance shook while their gazes simultaneously shot towards the direction of the Dao Emperor Divine Palace. After that, a wisp of shock appeared on their faces.

In the sky above the Dao Emperor Divine Palace, a myriad of strands of dark golden divine radiance rose into the sky and dyed the entire sky dark gold. Moreover, strands of grand and boundless tunes of the Dao undulated from within it and transformed into obscure and mysterious talismans. They drifted, surged, and enshrouded the entire sky and formed numerous phenomena that were rarely seen in the entire world.

There was the praise of the gods, Buddhas and Devils dancing together, sages reading scriptures, a myriad of living beings kowtowing, a myriad of strands of auspicious qi, and a thousand strands of divine radiance. Boundless immortal light descended from the sky, and an enormous golden rain of light filled the world.

Such grand phenomena could be considered as rarely seen in the world and unprecedented!

At this instant, the entire academy was alarmed. All the instructors and students raised their heads and looked up with shocked expressions, and they wondered what had occurred.

“Could it be that...the Dean has advanced into the Immortal King Realm?” Someone spoke with a trembling voice that revealed extreme excitement.

This perception received the acknowledgement of most people because even if it was when one advanced into the Immortal King Realm, such rare phenomena of the heavens and the earth was rarely seen indeed.

On the other hand, in all their minds, such phenomena of the heavens and the earth could perhaps only be drawn out when Chen Xi advanced and was crowned a king!

In other words, this extremely rare and dazzling phenomena of the heavens and the earth was like a crown, and it was prepared for Chen Xi when he stepped into the Immortal King Realm!

What sort of an honor was this?

The heavens and the earth congratulated him!

The heavens and the earth cheered for him!

All sorts of phenomena had appeared to crown him a king!

Their guesses weren't wrong. Right at this instant, Chen Xi's tall figure suddenly appeared above the palace, and his entire body was enveloped by a myriad of strands of dark golden Immortal King Energy. He resonated with the heavens and the earth and was linked up with the universe from afar, and he emanated peerless divine might like a king that ruled over the heavens and the earth and looked down upon the world!

They were able to clearly notice that along with Chen Xi's appearance, the phenomena in the heavens and the earth started to surge into his body, causing his imposing aura to rise steadily and grow in strength.

When looked at from afar, it seemed like even the sun and moon had dimmed in comparison, and everything within the world had submitted beneath his feet, causing him to become the most dazzling wisp of light in this expanse of the heavens and the earth.

The Immortal King Realm!

This was absolutely the Immortal King Realm!

That sort of lofty bearing of controlling the entire world and supreme aura was no different from an existence at the Immortal King Realm, and it was even to the extent that it was even stronger.

At this moment, all the students and instructors within the academy were shocked to the extreme, and they felt incomparably shocked from inside out to the point that they were almost unable to restrain themselves from kneeling down in worship.

Of course, this was merely a type of feeling of shock, and it obviously showed how extraordinary the moment Chen Xi advanced into the Immortal King Realm was and how strong the shock and impact all of them felt from it was.

Swish!

However, right at this moment, the door in the sky seemed to have noticed something, and it suddenly awoke from its deep slumber before a thick and large divine chain that was suffused with a might capable of obliterating the world shot out from within it!

It was a Divine Chain of Order that descended from the sky, and it actually traversed the layers of time and space to assault Chen Xi!

This scene occurred too quickly, and it had completely exceeded the expectations of everyone else. It caused their pupils to dilate while their originally extremely excited hearts rose to their throats while they felt anxious to the extreme.

Why's this happening?

Dean Chen Xi is only at the Immortal King Realm now. Why would he cause the Divine Chains of Order to descend?

Could it be that...it's because the Dean's might is too heaven defying, and it has already caused that door in the sky to feel threatened? Thus, it sent down a Divine Chain of Order with the intent of restraining and capturing him?

"Hmph!" Right when everyone felt anxious to the limit, Chen Xi who stood in midair suddenly raised his head, and a wisp of piercing coldness suddenly surged onto his handsome and calm face before he abruptly stretched out his hand and grabbed towards it.

Bang!

An enormous hand that blotted out the sky soared into the air, and it was filled with the dark golden energy of Immortal Kings. Every single finger on the hand was suffused with strands of mysterious talismans, and it emanated a terrifying imposing aura as it forcefully collided with the thick and large black colored divine chain.

Rumbling that shook the heavens resounded. The divine chain swayed ceaselessly like an infuriated python, and it intended to pierce through the enormous hand.

“Calamity my foot! You didn’t go bully other Immortal Kings, yet just happened to assault me at the moment I stepped foot into the Immortal King Realm. Do you really think I’m nice to bully?” Amidst his cold, indifferent, and calm voice, Chen Xi withdrew the Dao Calamity Sword with a clang, and then he casually executed a slash.

Swoosh!

A wisp of sword qi shot out. It was clearly an extremely simple sword strike, yet when this wisp of sword qi appeared, this expanse of the heavens and the earth fell into extreme terror, and it seemed as if it was wailing.

At this instant, even the originally clear and bright sky had fallen into darkness that seemed like an eternal night had descended, and that wisp of sword qi had become the only wisp of light in the darkness.

No matter if it was the students or instructors within the academy, all of them couldn’t help but feel great terror when they witnessed this scene. They felt as if they were like ants, and the cultivation they took pride in seemed so pale and powerless before this wisp of sword qi.

It was as if... so long as it was willing, this wisp of sword qi was sufficient to throw the stars into chaos and annihilate the myriad of Daos in the universe!

Such a force of the Sword Dao was simply not something that could be possessed within the three dimensions.

This sword strike came from the damaged iron sword that was branded on the mysterious incomplete diagram that appeared on the River Diagram fragments, the iron sword that was partially charred black and partially dyed scarlet red with blood.

Chen Xi didn’t know exactly what it was, but when he first laid eyes on that incomplete diagram, he was clearly aware that with his cultivation in the Sword Dao that had attained perfection in the Sword God Realm, his cultivation seemed to be extremely tiny, pale, and powerless when compared with it.

Now, after he stepped foot into the Immortal King Realm, he’d obtained sudden comprehension in his heart, and he’d comprehended a trace of its profundities, allowing him to fuse it into his Sword Dao and execute this wisp of sword qi at this moment!

Bang!

In an instant, the thick and large Divine Chain of Order was easily slashed apart like a piece of paper, and it collapsed inch by inch.

It was so easy, and so terrifying!

After all, even gods were unable to escape or struggle free from the Divine Chains of Order before being restrained and taken away in the end. Only existences like Chen Xi’s Third Senior Brother, Tie Yunhai, were capable of swinging their weapons up into the sky and destroying the Divine Chains of Orders.

Yet now, Chen Xi who'd just stepped into the Immortal King Realm was able to slash apart a Divine Chain of Order with a single sword strike, and he'd accomplished something that most gods were unable to accomplish. This obviously showed how terrifying this wisp of sword qi was.

It could simply be described as inconceivable and astounding!

Chapter 1493: The Difference Within The Realm

With a single strike of the sword, the Divine Chain of Order was slashed apart and collapsed inch by inch!

When this calamity swept through the three dimensions, practically everyone had witnessed the terrifying scenes of god after god being restrained and taken away.

In the hearts of everyone, the Divine Chains of Order seemed to have become equivalent to invincible existences. But who would have imagined that Chen Xi would actually be capable of destroying a Divine Chain of Order with a single sword strike as soon as he stepped into the Immortal King Realm!?

Everyone was shocked and were dumbstruck like clay statues.

The might of this sword strike had already exceeded the scope of the three dimensions, and it exceeded their imaginations. It was simply like an act of the gods, and it couldn't be described with words!

Swish!

In the sky, after Chen Xi slashed the Divine Chain of Order apart with a single sword strike, he waved his hand and withdrew the Overarching Heaven Net. The enormous net that was illusory and piercingly cold like starlight soared into the sky and instantly captured all the pieces of the shattered Divine Chain of Order.

When they witnessed this scene, all the students and instructors of Dao Emperor Academy were shocked once more. Who could have imagined that the Divine Chain of Order could actually be captured?

Such ability had simply overturned all their past perception.

"Wang Daolu, Zhou Zhili, Xuanyuan Pojun, Chen Haoran... All of you prepare yourselves and refine this Karmic Luck of the heavens!" Chen Xi casually announced a string of names in midair, and then he bestowed the pieces of the Divine Chain of Order he captured to them.

All of them were extremely senior instructors of the academy that possessed cultivations at the Half-step Immortal King Realm, and their foundations were extremely deep. They only lacked a piece of great Karmic Luck in order to step into the Immortal King Realm.

As it was said, it was impossible to become an Immortal King without Karmic Luck.

However, great Karmic Luck was extremely difficult to obtain, and it incomparably rare. Otherwise, it was impossible for all of these instructors to stay at the Half-step Immortal King Realm until now.

Chen Xi had acted in this way because he desired to improve the peak strength of the academy as soon as possible and have a few more Immortal Kings residing within the academy.

Wang Daolu, Zhou Zhili, and the others were extremely shocked in their hearts when they heard this. For a time, they were both moved and excited. Never had they imagined that Chen Xi would actually bestow such extraordinarily great Karmic Luck onto them at this moment!

“Thank you, Dean!” Wang Daolu and the others took deep breaths before they respectfully expressed their gratitude, and they revealed heartfelt respect towards Chen Xi.

Chen Xi smiled and indicated that they should meditate and cultivate before he looked once more towards the sky. The door still stood upright in the sky, and numerous thick and large Divine Chains of Order coiled around it, causing it to seem mysterious and terrifying.

Originally, Chen Xi intended to seize this opportunity to obtain some Divine Chains of Order, yet to his surprise, the door in the sky had actually fallen into silence and took no further action after that attack from before.

“Heh! A true example of bullying the weak and fearing the strong. You know you’re unable to do anything to me, so you shrink back and hide?” A wisp of an arc of ridicule curled up on the corners of Chen Xi’s mouth.

However, he sighed in his heart instead. He was very clearly aware that the door in the sky was probably accumulating strength to deal with those gods that had been restrained and brought into the Last Days Domain, and it was temporarily too busy to pay any attention to him.

Otherwise, it would definitely not let him go so easily.

After a long time, the phenomena of the heavens and the earth vanished while the door in the sky fell into silence, and everything returned to normal.

“Congratulations Dean for attaining the Immortal King Realm!” Suddenly, a wave of simultaneous cheering resounded from every single area of the academy, and they congratulated Chen Xi together. Besides respect and admiration, the face of every single instructor and student carried a strand of pride and confidence.

Yes, it was confidence!

After they witnessed Chen Xi’s actions of destroying a Divine Chain of Order with a single sword strike after his advancement into the Immortal King Realm, it caused the confidence of all the instructors and students to increase greatly and swept away all the worry in their hearts.

It seemed as if so long as Chen Xi was present, then even if the sky were to collapse, it wouldn’t be anything great at all.

In the sky, Chen Xi swept his gaze and noticed everything that occurred within the academy, causing a wisp of indescribable feelings to surge into his heart. He started smiling after some time, and then he turned around and descended to the ground.

...

Chen Xi's advancement into the Immortal King Realm this time was extremely smooth. He'd only spent three months of time since he started his closed door cultivation, and due to his sufficient preparation, he didn't encounter any obstructions from the beginning until the end.

After he advanced into the Immortal King Realm, the most obvious change in him was reflected in the universe within his body!

While he was at the Half-step Immortal King Realm, the universe within Chen Xi's body had only taken shape, and it hadn't stabilized completely. Yet it was different now, the universe within his body circulated on its own and cycled without end. It was densely filled with a myriad of stars, suffused with pure and supreme dark golden Immortal King Energy, and there were signs of the Grand Dao and exuberant vitality all over it.

Moreover, the three supreme Laws of time, space, and life and death had transformed into the Order of the universe, and they enveloped every single area of it and ceaselessly maintained the circulation and operation of the entire universe within his body.

Especially at the center of the universe, there was a surging black hole that was pure, obscure, ancient, and extremely primeval. Strands of mysterious energy ceaselessly shot out from within it, and then the energy surged into the universe and gradually transformed the entire universe.

The mysterious energy was the Primeval Dao Quintessence!

Amongst thousands of Immortal Kings, it was difficult to find a single existence that had comprehended and condensed the Primeval Dao Quintessence that represented perfection in the Immortal King Grand Dao.

From the ancient times until now, only the gods that were born from within the Chaos were able to possess such an energy. It fused into their bodies and was like the quintessence energy born from the Order of the universe within their bodies, and it was extremely shocking.

Because of the varying Grand Daos grasped by existences at the Immortal King Realm, they could be divided into various ranks.

The first rank was considered as 'Ordinary' Immortal Kings. They'd merely grasped the supreme Laws of time, space, and life and death, and they hadn't fused these three supreme Laws with the Saint Dao Laws that they'd established.

The second rank was considered as 'Top' Immortal Kings. Existences at such a rank hadn't just grasped the three supreme Laws, they'd completely fused the three supreme Laws with the Saint Dao Laws that they'd established. The might they possessed far exceeded Ordinary Immortal Kings.

The third rank was considered as 'Peak' Immortal Kings. Existences at such a rank had the foundation of 'Top' Immortal Kings and had started to exceed their own limitations. They'd started to seek perfection in their Immortal King Grand Dao, and that was to condense a Primeval Dao Quintessence.

The last rank was considered as 'Utter Peak' Immortal Kings. Existences like these were incomparably rare and one in a million. The reason was that the comprehension of such Immortal Kings towards the 'Dao' had already arrived at the limits of the Immortal King Realm, and they'd already grasped the

power of the Primeval Dao Quintessence. They either had to seek the path to become a god or comprehend the energy of the gods!

If it was according to this method of differentiation, then Chen Xi who'd grasped the power of the Primeval Dao Quintessence could be considered an Immortal King at the Utter Peak Rank.

However, his situation was completely different from the other Immortal Kings because he'd just stepped foot into the Immortal King Realm, and his grasp of the Grand Daos he possessed had merely arrived at the Top Rank of the Immortal King Realm.

He was lacking in his grasp of the Grand Daos he possessed and attaining perfection in all of them.

Strictly speaking, if it was purely based on his cultivation, then Chen Xi was currently at the Ordinary Rank of the Immortal King Realm.

If it was based on his comprehension of the Dao, then he was at the Peak Rank of the Immortal King Realm instead, and it was based on the strength he possessed, then he could rival existences at the Utter Peak Rank of the Immortal King Realm.

In the end, if everything was included and differentiated based on his ultimate combat strength, then Chen Xi had probably arrived at an unprecedented height. He couldn't be said to be capable of completely crushing his peers at the same cultivation realm, but very few people were capable of being a match for him.

In short, the might Chen Xi possessed was entirely impossible to be judged by convention. Otherwise, it would be impossible for him to surmount a realm and annihilate Immortal Kings while still at the Half-step Immortal King Realm.

Now that he'd attained the Immortal King Realm, the combat strength he was able to bring forth couldn't be compared to the past at all.

"Next, I'll start refining the Talisman Armament..." As he sensed the changes in the energy within him, Chen Xi couldn't help but fall into deep thought.

Along with the ceaseless improvement of his strength, ordinary treasures were utterly unable to satisfy Chen Xi any longer. For example, even though the Skyeath Gourd, Heaven Hatred Seal, Greensilk Palace Lantern, and other such ancient Immortal Artifacts were formidable, they weren't suitable to be utilized with Chen Xi cultivation in the Sword Dao during battle.

In other words, perhaps these ancient Immortal Artifacts could be utilized in some special battles, yet they were unable to become the weapon that Chen Xi relied on the most in battle.

For example, he'd already gathered all the various immortal materials required to refine the Flame God Fan, yet he hadn't refined it until now. The reason was that Chen Xi felt that these treasures could only be considered as 'rare treasures,' and they could only bring forth unexpected might during some special circumstances in battle.

In short, Chen Xi had roughly grouped all the treasures he possessed into two types. One type was treasures that were 'primary battle treasures' like the Talisman Armament, and the other type was

‘special battle treasures’ like the Overarching Heaven Net, Skyeath Gourd, Heaven Hatred Seal, and so on and so forth.

On the other hand, if he wanted to bring forth his entire strength, then he obviously had to improve the might of the Talisman Armament first. At the very least, it had to attain the extreme-rank of the Void Grade.

So as soon as he advanced into the Immortal King Realm, Chen Xi had placed all his attention on refining the Talisman Armament.

The Talisman Armament was a secret treasure of Oracle Mountain that wasn’t passed down to outsiders. Besides possessing the special trait of being able to advance in quality, its interior was densely covered with numerous Divine Talismans.

In other words, if he wanted to refine the Talisman Armament, then he needed numerous rare immortal materials and had to inscribe even more Divine Talismans within it.

In terms of immortal materials, Chen Xi was already sufficiently prepared.

On the other hand, in terms of Divine Talismans, Chen Xi had a rough idea. His plan was to deduce various Divine Talismans that were suitable to him from within the Infinite Divine Talisman in the world of stars and inscribe these Divine Talismans into the Talisman Armament.

However, right when Chen Xi intended to enter once more into closed door cultivation and refine the Talisman Armament, A’Xiu had arrived in a hurry, and her clear and lively oval shaped face had a rare wisp of worry on it.

“What’s wrong, A’Xiu?” Chen Xi immediately put his plans aside when he saw A’Xiu in such a state, and he hurriedly asked. “Who bullied you?”

A’Xiu shook her head and hesitated for a short moment before she stuttered. “Chen Xi, my Xuanyuan Clan is in a bad situation right now. So, I wanted...”

Chen Xi instantly came to an understanding, and he patted her on the shoulder before he said warmly, “I understand.”

A’Xiu raised her head with surprise and gaze at Chen Xi before she said, “What do you understand?”

Chen Xi smiled and said, “Isn’t it simple? Since it was able to make you act differently from usual, then your Xuanyuan Clan has definitely encountered something that’s difficult to deal with. According to my inference, it’s probably related to the Sovereign Sect.”

Chen Xi paused for a moment, and then he said with a firm tone, “Don’t worry, A’Xiu. I’ll absolutely not allow anyone to bully the Xuanyuan Clan.”

Actually, as he spoke, he’d already roughly guessed that it was because the gods had ceased to exist beneath the calamity and Xuanyuan Fengchen, Xuanyuan Tabei, and the current Patriarch of the Xuanyuan Clan, Xuanyuan Shao, had headed to the Last Days Domain with his Third Senior Brother Tie Yunhai since a long time ago.

After it lost the presence of these three Immortal Kings, it was obvious that the Xuanyuan Clan would be in a terrible situation now.

A'Xiu had never imagined that Chen Xi had already guessed everything before she could even speak about it, and that feeling of being understood and taken care of caused her eyes to turn red while tears welled up within them.

Chapter 1494: Undercurrents Are Brewing

When he saw A'Xiu in such a state, Chen Xi instantly panicked and stretched out his hands to embrace her, and he patted her on the back as he consoled. "What exactly has occurred? Don't cry, tell me what happened."

This was the first time Chen Xi had taken the initiative to embrace A'Xiu himself, yet there were no lustful thoughts in his mind when her tender and fragrant body entered his embrace, and there was only heartache and regret.

A'Xiu liked to smile, and in his impression, she was always smiling very brilliantly whenever she made an appearance. It seemed as if nothing could make her feel sad, yet at this moment, A'Xiu revealed a rare moment of being on the verge of tears, and it allowed Chen Xi to instantly understand that A'Xiu had probably endured a great deal of pressure during this period of time.

On the other hand, he'd never devoted any care to A'Xiu since he'd returned to the academy, and he'd always been busy with all sorts of battles and cultivation. So he couldn't help but feel slightly regretful, and he felt that he'd truly neglected A'Xiu during this period of time.

A'Xiu's figure suddenly froze when she was embraced by Chen Xi, and her mind was slightly muddled. But right after that, she felt unprecedentedly comforted.

Those wide shoulders, powerful heartbeat, and familiar smell, caused her to feel happy in her heart, and she couldn't help but comfortably tilt her head onto Chen Xi's shoulder and narrow her eyes into two crescents.

After quite some time, she muttered. "I thought that after you'd changed after you became the Dean. So it turns out that you're still the Chen Xi I'm familiar with."

Chen Xi was stunned while a wisp of an indescribable feeling surged out from within his heart. It seemed like pity, yet also seemed like the feeling of heartache, and he rubbed A'Xiu's head as he said with a smile, "No matter how I change, I won't forget you."

A'Xiu's tender lips curled up like a meek infant beast, and she laughed silently for a long time before she pushed Chen Xi away. After that, she took a deep breath and raised her head and looked Chen Xi in the eyes as she said, "Thank you."

It was two very unexpected words, and it slightly unexpected to Chen Xi as well. He suddenly glared fiercely at A'Xiu and threatened. "If you say these words again, then I'll definitely look for trouble with your Xuanyuan Clan!"

A'Xiu burst into laughter. It was like the first blooming flower after the rain, pure, fresh, and extraordinary.

After that, Chen Xi started laughing as well.

...

A'Xiu had indeed come looking for him because of the Xuanyuan Clan. Presently, the Sovereign Sect had already started targeting the seven great ancient clans and seven great academies of the Immortal Dimension, and the Xuanyuan Clan was no exception.

Especially in the recent period of time, the Xuanyuan Clan had repeatedly suffered all sorts of lethal incidents, and many elders and disciples of the clan had suffered bizarre deaths and injuries. This caused the higher-ups of the Xuanyuan Clan to sense the aura of danger, and they knew that the Sovereign Clan had already extended its claws towards their clan.

However, they were helpless because Xuanyuan Shao, Xuanyuan Fengchen, and Xuanyuan Tabei had all left, and only Xuanyuan Poxiao remained within the clan. Once a conflict erupted between their clan and the Sovereign Sect, then the consequences would be unimaginable.

Under such circumstances, A'Xiu could only come looking for help from Chen Xi.

After he found out about all of this, Chen Xi's expression became icy cold. However, he was helpless because Dao Emperor Academy needed his presence as well so as to prevent the Sovereign Sect from seizing the opportunity created by his absence to invade the academy.

In the end, Chen Xi decided to ask A'Xiu to return to the Xuanyuan Clan and tell her clansmen that if it's possible, then move their entire clan into the academy. In this way, all the problems they faced would be readily solved.

Moreover, with the addition of the Xuanyuan Clan, Dao Emperor Academy would obtain another force to assist it, and it could be said to be killing two birds with one stone.

After she obtained Chen Xi's agreement, A'Xiu left hastily because she was worried for the safety of her clansmen.

A'Xiu's visit allowed Chen Xi to suddenly realize a problem. Presently, the entire Immortal Dimension was suffering the frenzied invasion of the Sovereign Sect, and even the Xuanyuan Clan was unable to avoid it now. Then what about the Zuoqiu Clan? The Mu Clan? The Phoenix Clan? The Buddha Dimension?

When he thought of this, Chen Xi didn't have the mood to enter into closed door cultivation any longer, and he hastily teleported away. He intended to look for some instructors that were related to these powers and instruct them with some things.

...

On this day, Chen Xi announced in the name of the Dean that Dao Emperor Academy had decided to join forces with the other powers to jointly resist the invasion of the Sovereign Sect.

On the other hand, only top existences like the Xuanyuan Clan, Mu Clan, Zuoqiu Clan, Buddha Dimension, and Phoenix Clan were amongst the list of these powers that were joining forces with the academy.

Of course, the other powers weren't excluded from joining, but the precondition was that they had to obtain the acceptance of the Dean, Chen Xi. Moreover, they had to obey all the orders of Dao Emperor Academy.

Once this piece of information spread, it instantly caused the entire Immortal Dimension to be shaken, and it caused a mighty uproar.

Since the calamity erupted, the powers in practically every single area of the 4,900 continents within the Immortal Dimension had suffered the invasion of the Sovereign Sect, and up until now, more than half of these powers had fallen into the Sovereign Sect's control.

It could be said that the Sovereign Sect had already taken control of more than half of the Immortal Dimension, whereas the areas that still weren't under the control of the Sovereign Sect were filled with unrest and rains of blood.

Those powers that were unwilling to submit to the Sovereign Sect had been looking for some formidable support and assistance since a long time ago. So the announcement Chen Xi made had undoubtedly allowed those powers to see hope.

However, even though they were moved by it, many powers were hesitant and unable to make up their minds. The reason for this was extremely simple as well. They were worried that even Dao Emperor Academy was unable to resist the Sovereign Sect's invasion, so if they went to join Dao Emperor Academy, then they might be taken to be a thorn in the eye of the Sovereign Sect and be annihilated along with Dao Emperor Academy.

Under such circumstances, only top powers like the Mu Clan, Zuoqiu Clan, Phoenix Clan, Dragon Dimension, and Buddha Dimension had agreed to fight alongside Dao Emperor Academy and form an alliance.

In next to no time, all of this information returned to the academy and entered into Chen Xi's hands.

"Hmph! Our academy provided an asylum for them, yet they're being indecisive and overcautious instead, and they're afraid that the Sovereign Sect will eliminate them along with the academy. They're truly shortsighted and laughable to the extreme." Wang Daolu grunted coldly and was extremely displeased.

He'd just finished refining and absorbing the pieces of the Divine Chain of Order, and he was only lacking a trace of a critical factor in order to advance into the Immortal King Realm. Since he was unoccupied and had nothing else to do, he helped Chen Xi take charge of this matter.

"It isn't their fault. After all, the Sovereign Sect has already attained great strength now, and it's the moment that it's the most arrogant and overbearing. It's within reason that they don't look favorably on the fate of our academy," said Chen Xi with a smile, and he didn't mind at all. As soon as he finished speaking, he asked about other things instead. "Right, have arrangements been made for the Xuanyuan Clan, Mu Clan, and the other powers?"

Wang Daolu nodded. "They've settled down within Darkombat City."

After that, he frowned and said, "However, I heard some bad news recently. According to it, that announcement our academy made has completely infuriated the Sovereign Sect, and they might converge its strongest forces soon with the intention of wiping out our academy in one go."

Chen Xi's brows raised, and he said coldly, "Very good. I'm only too anxious for them to come sooner!"

He was slightly vexed indeed. Because he had to protect the academy and had no choice but to constantly stay in the academy, he was unable to leave on his own and take the initiative to attack the Sovereign Sect.

Now, the Sovereign Sect actually dared to brag boastfully and intended to wipe out Dao Emperor Academy in one go. This had already completely exceeded Chen Xi's limits, and it had infuriated him.

"How many forces do they intend to deploy?" Chen Xi took a deep breath before he asked slowly. Even though he rather detested the Sovereign Sect in his heart, he wouldn't underestimate it.

After all, for the sake of sweeping through the three dimensions, the Sovereign Sect had forcefully brought down the calamity in advance, so the forces it had accumulated would definitely not be weak.

Wang Daolu pondered deeply before he said, "According to my knowledge, it's probably the great ancient clans like the Jiang Clan, Zhongli Clan, Wanqi Clan, and Grand Desolation Academy, Bitter Silence Academy, and Dao Secret Academy that are leading the attack, but we can't rule out the possibility that Elite Disciples at the Immortal King Realm from the Sovereign Sect are present amongst them."

A cold glow surged within Chen Xi's eyes as he said coldly, "These damnable bastards! They really intend to be the dogs of the Sovereign Sect for their entire lifetimes. If they dare to come, then they can forget about leaving!"

A wisp of detest appeared on Wang Daolu's face as well because the Immortal Kings of the Jiang Clan, Zhongli Clan, Wanqi Clan, and various other powers were amongst the Immortal Kings that Chen Xi slaughtered that day.

Yet not only had they not learned anything from this disastrous lesson, they'd gone even further and intended to assist the Sovereign Sect to invade Dao Emperor Academy. He felt that their minds were simply befuddled, and they were courting death!

"No matter what it is, ask everyone from our academy and the forces we're allied with to prepare themselves in this period of time, and ask them to gather within the academy in advance so as to prevent the Sovereign Sect from annihilating them one by one." Chen Xi pondered deeply for a long time before he decided in the end.

Wang Daolu knew that this matter was related to the survival of the academy as well, and it couldn't be delayed. So he left hastily after he received his orders.

Chen Xi didn't delay either, and he returned to the Dao Emperor Divine Palace and started to refine the Talisman Armament.

...

During this period of time, the atmosphere within Darkombat City had suddenly become strange. It had lost its bustling atmosphere from before, and it was even to the extent that people were rarely seen walking on its streets.

In an instant, the entire city seemed to have become an 'empty city,' and it emanated an atmosphere that caused others to feel oppressed and nervous.

All of this came from a single piece of news — The Sovereign Sect would gather its forces soon and wipe out Dao Emperor Academy in one go!

It was like a single stone that caused a thousand ripples. Under such circumstances, would anyone dare to stay in Darkombat City?

It wasn't just Darkombat City, even the entire Valiant Star Continent had been affected. Many cultivators had left successively and headed to other continents because they desired to avoid being affected by this disaster.

On this day, there wasn't a single cloud in the entire sky.

Om!

A wave of spatial fluctuations arose within the deathly silent and empty streets of Darkombat City before over ten figures appeared. There were men and women of varying ages, and all of them possessed vast imposing auras that were lofty, supreme, and extremely terrifying.

They were actually a group of Immortal Kings!

Especially the person in the lead. He wore black clothes, had his hands behind his back, and wore a dark and lusterless bamboo hat on his head, causing others to be unable to see his appearance clearly. The imposing aura his entire body emanated was like a great abyss of darkness, and along with his appearance, a wisp of the color of eternal night suddenly surged into the originally clear sky, causing dark clouds to surge while the sky was filled with a boundless aura of calamity!

"Junior Sister Jiang, there's no hurry to complete the operation this time. So allow those pawns to make a frontal attack for now. If Chen Xi is really as formidable as you said, then it wouldn't be too late for us twelve brothers to make a move at that time." The man in black clothes stared silently at Dao Emperor Academy that lay in the distance, and he spoke after a short while. His voice was low and feminine, and it was filled with a strange and terrifying attracting aura.

"Eldest Senior Brother is right," said a gentle, refined, and beautiful woman. Shockingly, she was one of the seven Elite Disciples of the Sovereign Sect, Jiang Lingxiao.

Chapter 1495: The Army Presses Down On The City

The world of stars.

The Infinite Divine Talisman floated within the mysterious space, and it emanated a desolate, vast, and mysterious fluctuation.

This was where the true inheritance of the Master of Oracle Mountain resided, the Infinite Divine Talisman that had fully deduced the boundless profundities of the Talisman Dao until the limit.

All those years ago, Chen Xi had once comprehended the inheritance of the swords of the five elements, the swords of Yin and Yang, the sword of wind and lightning, the Star Obliteration Sword, and various other inheritances in the Sword Dao from this place.

In other words, the Infinite Divine Talisman wasn't a true Divine Talisman, and it was a type of inheritance instead!

This sort of inheritance was extremely unique, and it was said to be boundless. The amount one was able to comprehend wasn't determined by one's comprehension ability, and it was determined by the amount of Grand Daos one had grasped and the depth of one's attainments in the Talisman Dao.

At this moment, Chen Xi had a solemn expression as he sat cross-legged before the Infinite Divine Talisman, and he ceaselessly formed numerous obscure and profound seals.

A simple, pitch black, and dark sword floated before him. Its surface glowed lustrously, and it revealed numerous diagrams of Divine Talismans.

These Divine Talismans were respectively the Azurewood Divine Talisman, Whitemetal Divine Talisman, Blackwater Divine Talisman, Crimsonfire Divine Talisman, Yellowearth Divine Talisman, Phoenixwind Divine Talisman, Demonspirit Divine Talisman, Eastern Myrtle Divine Talisman, and Darklightning Divine Talisman.

There was a total of nine divine talismans, and they resided within the Talisman Armament. At this moment, since they were being refined by Chen Xi, the images of numerous divine emperors and empresses had appeared from within the sword, and every single one of them possessed vast divine might and seemed like mighty gods.

Om! Om!

At practically the exact same moment, numerous balls of light that blazed like tiny suns flowed in midair. Every single ball of light represented an immortal material that was rarely seen in the world, and they were currently being refined by Chen Xi via a complicated technique and were transforming into the purest form of equipment refinement materials.

Amongst them were the Green Spiritbreaker Nightmare Spear, Spirit Lightning Golden Hairpin, and various other formidable Immortal Artifacts at the extreme-rank of the Void Grade. Presently, all of them had transformed into pure equipment refinement materials that appeared in the form of balls of light, and they emanated brilliant radiance.

"Huff!" Suddenly, Chen Xi's eyes opened abruptly, and an obscure and strange word resounded like a thunderclap from within his mouth.

Rumble!

At this instant, a myriad of talismans suddenly appeared on the surface of the Talisman Armament that floated in midair. These talismans were dense and vast like the starry sky, and they simply seemed to be boundless.

They ceaselessly circulated, combined, and formed numerous formation diagrams. After that, these formation diagrams transformed without end while echoing with each other, and they formed numerous completely new divine talismans in the end!

Light Divine Talisman.

Darkness Divine Talisman.

Star Divine Talisman.

Eternal Divine Talisman.

Creation Divine Talisman.

Obliteration Divine Talisman.

...

In an instant, nine completely new divine talisman diagrams had actually appeared on the surface of the Talisman Armament!

However, those divine talismans were merely divine talismans in form. In other words, they only contained talisman markings yet didn't possess the might and energy of divine talismans.

Before long, Chen Xi aroused all the Immortal Force within the universe in his body and started to form seals without end. In an instant, he formed a myriad of seals that were filled with boundless profundities, and they surged like tidewater into the balls of equipment refinement materials.

After that, this entire space was filled with bright light as the balls of materials emanated divine brilliance, and they whistled and surged into the new talisman formation diagrams like a gorgeous meteor shower.

Rumble!

For a time, the numerous divine talismans rumbled as they circulated. They emanated brilliant light and caused a rain of divine radiance to spray into the surroundings, causing this expanse of mysterious space to be illuminated to the point of seeming dazzling and resplendent.

Amidst this was light, darkness, illusory and ethereal starlight, the silent and faint glow of obliteration, a clear glow of eternalness, and the lively and overflowing radiance of creation that transformed without end. It was an extremely gorgeous and exuberant sight.

Such a magnificent sight could simply be said to surpass the wonders of nature itself, and it was a rare sight in the entire world.

This was the most critical segment in refining a Talisman Armament. Once it was successful, then the various new divine talismans would be branded within the sword and transform into a part of its might, and it would add boundless might to the Talisman Armament!

This process continued for an entire month of time.

On the other hand, Chen Xi hadn't taken a wink of sleep or a moment of rest during this entire process. His entire attention was gathered in the refinement of the Talisman Armament, and along with the passage of time, his face started to become solemn and pale while a layer of sweat soaked his forehead.

When he refined the Talisman Armament this time, he'd inscribed all the various Grand Daos he'd grasped into divine talismans, and he'd even refined all the rare immortal materials that he possessed into the Talisman Armament because he intended to improve the might of the Talisman Armament from the Cosmic Grade to the extreme-rank of the Void Grade in one go.

Obviously, this was an extremely huge undertaking, and the consumption of his own strength would naturally be extremely shocking!

It was even to the extent that for the sake of avoiding any careless mistakes from occurring during the entire process, Chen Xi didn't slack off at all times. Up until now, even his cultivation in the Dao Heart that was at the Heart Infant Realm was really unable to endure it any longer.

Chen Xi was an Immortal King now, and his foundation was extremely deep, yet he was still slightly unable to endure the exertion when refining the Talisman Armament, and it was even to the extent that it was even more exhausting than fighting numerous Immortal Kings. This obviously showed that when the Talisman Armament was truly refined successfully, its might would absolutely be shocking.

...

During this period of time, group after group of cultivators had suddenly started to appear within the deathly silent streets of Darkombat City. The most conspicuous of them all was the forces of the Zhongli Clan, Wanqi Clan, Jiang Clan, Bitter Silence Academy, Grand Desolation Academy, Dao Secret Academy, and Vastsky Academy.

Besides them, some great powers of the Immortal Dimension had arrived successively, and every single one of them were overlords in the 4,900 continents of the Immortal Dimension. Moreover, they arrived in formidable arrays and with shocking impetuses.

In a short period of less than seven days, no less than over a hundred powers had gathered in Darkombat City!

All of this instantly drew the attention of the entire Immortal Dimension and caused it to be stirred, and everyone felt nervous. They were clearly aware that the Sovereign Sect was definitely behind this, and it intended to crush Dao Emperor Academy with absolute strength!

After all, if it was in the past, if the various great powers were to join forces and take action like this, then it would be sufficient to sweep through any continent in the Immortal Dimension. Yet now, all of them had gathered in Darkombat City, and it was obvious how shocking the imposing aura they revealed was.

At the same time, the entire city fell into a shaken state, and it was filled with a confrontational atmosphere.

Fortunately, Chen Xi had already instructed Wang Daolu to prepare everything, thus the students of the academy didn't fall into a state of unrest because of these events, and it avoided the situation where the academy itself fell into chaos before the battle even began.

However, even then, all the instructors of the academy and the forces from the Xuanyuan Clan, Zuoqiu Clan, Mu Clan, Dragon Dimension, Phoenix Clan, Buddha Dimension, and the various other powers still felt heavily pressured.

Unexpectedly, after those powers that were controlled by the Sovereign Sect arrived in Darkombat City, they didn't attack immediately, and they set up camp instead and seemed to be very calm. Obviously, they were accumulating strength and preparing everything.

On the other hand, Dao Emperor Academy similarly didn't launch an attack because Wang Daolu, Zhou Zhili, and all the other higher-ups of the academy were clearly aware that the most reliable strategy under such a situation was to prepare and wait for the arrival of the enemy.

In short, it seemed like a storm was coming and undercurrents were brewing in Darkombat City now, and the battle would erupt at any moment!

On this day, Wang Daolu, Zhou Zhili, Mu Rongtian, Zuoqiu Feiming, Xuanyuan Pojun, and all the higher-ups of the Buddha Dimension and Phoenix Clan had gathered before the Dao Emperor Divine Palace.

They were waiting for Chen Xi.

The current situation was pressing, and the battle could erupt at any moment. So they needed the Dean to make a decision.

Unfortunately, since he entered into closed door cultivation, Chen Xi had never made an appearance, and it caused all of these great figures to be slightly anxious, yet they couldn't be considered to be worried and fearful.

Even though their enemy was made up of numerous forces, once the battle erupted, it was the supreme existences at the Immortal King Realm that determined the final outcome.

In other words, if this battle erupted, then it would be a competition of the number of Immortal Kings that each side possessed.

Presently, Dao Emperor Academy's Zhou Zhili, Xuanyuan Pojun, and Chen Haoran had already stepped into the Immortal King Realm after refining and absorbing the pieces of the Divine Chain of Order.

Besides them, the Mu Clan's Mu Rongtian, the Zuoqiu Clan's Zuoqiu Feiming, the Buddha Dimension's Profound Silence Buddhist Master, the Phoenix Clan's Zhao Lingxi, and so on and so forth were all at the Immortal King Realm as well.

If all of them were added together, they possessed around ten Immortal Kings, and this number didn't include Chen Xi. Under such circumstances, even if their enemies were made up of numerous forces, they naturally wouldn't feel fearful.

What they were truly worried about was the Sovereign Sect instead. All the powers that had been deployed to Darkombat City this time were under the control of the Sovereign Sect, and they weren't from the Sovereign Sect.

Once the experts of the Sovereign Sect interfered, then the situation was bound to become extremely dangerous.

This was the reason why Wang Daolu, Zhou Zhili, and the others would all come to look for Chen Xi.

“What exactly is the Dean doing?” Zhou Zhili couldn’t help but ask when there were no signs of movement after they’d been waiting here for a long time. The others turned their heads over as well and revealed puzzled expressions. According to their knowledge, Chen Xi had just advanced into the Immortal King Realm, so he was obviously not in closed door cultivation for the sake of improving his cultivation.

“I’m not sure as well.” Wang Daolu shook his head. If it was in the past, perhaps he wouldn’t mind asking Chen Xi about some things, but Chen Xi was already the Dean of the academy now, so he naturally didn’t dare go beyond the rules.

“I’m the Patriarch of the Jiang Clan, Jiang Taizhong. Quickly notify that bastard, Chen Xi, to come out and meet me!” Suddenly, a voice that was deep like lightning rumbled from the distant horizon, and it spread throughout the academy while carrying a firm and murderous tone.

All the instructors and students were shocked in their hearts. Is the battle about to begin?

“Hmph! How lofty is the identity of my academy’s Dean! Is anyone in the Immortal Dimension even worthy to make him meet them personally? It looks to me that you, Jiang Taizhong, are a silly old fool!” Suddenly, Zhou Zhili soared into the sky and looked towards the outside of the academy from afar before he spoke coldly.

Outside Dao Emperor Academy and within Darkombat City, Jiang Taizhong was silent and didn’t speak any further. Chen Xi had already formed his power and influence, and he fully revealed the dignity of the Dean. If Chen Xi didn’t give him face and didn’t come meet him at all, he would be utterly unable to do anything about it.

After a long time, he said, “That day, he cruelly killed the clansmen of my Jiang Clan, the Zhongli Clan, and the Wanqi Clan. This enmity is irreconcilable. Since he isn’t willing to take the initiative to atone for his crimes, then we’ll crush Dao Emperor Academy and have blood for blood three days from now!”

His voice was murderous and filled with a boundless ghastly tone that caused one’s heart to tremble.

Om!

Right at this moment, an extremely grand sword howl that was clear and melodious like the voice of the gods suddenly resounded from within the Dao Emperor Divine Palace, and it shot into the universe, shook the world, and threw the winds and clouds in the surroundings into disorder!

Such might caused the heavens and the earth to tremble while the surroundings dimmed down, and it struck directly at the hearts of all. Moreover, its terrifying and horrifying imposing aura was shocking to the extreme.

At this moment, it wasn’t just everyone within Dao Emperor Academy that were shocked, even all the forces stationed within Darkombat City felt a strand of indescribable terror!

[Talisman Emperor](#)

Chapter 1496: Special Ambassador Of The Sovereign Sec

The sword howl shot out like the tide, and it shook the entire universe.

However, in merely an instant, everything returned to deathly silence, and in their daze, almost everyone felt that it was a delusion they'd had.

But all of them were clearly aware that it wasn't a delusion. The terrifying imposing aura created from that sword howl at that instant had long since affected their Dao Hearts, so how could it possibly be a delusion?

It was even to the extent that because of this sword howl, Jiang Taizhong's voice had been completely drowned out, and it caused his imposing aura to utterly cease to exist!

Exactly what sort of Immortal Sword emanated this sword howl? And who did it belong to?

Everyone was curious.

Only Zhou Zhili, Wang Daolu, Xuanyuan Pojun, and the others were clearly aware that the sword howl had come from within the Dao Emperor Divine Palace!

In other words, all of this was greatly related to the Dean, Chen Xi.

They shot their gazes towards the entrance of the palace in unison, and they all had a feeling that Chen Xi was about to emerge from his closed door cultivation. This caused all of them to feel excited.

...

Om!

A wisp of faint light flashed on the body of the sword that was smooth like a mirror, and then it vanished, causing the entirety of the over 1m long pitch black sword to seem even more ordinary. Moreover, it emanated an aura of shedding all splendor to return to simplicity.

Chen Xi held the newly refined Talisman Armament in his hand and observed it carefully. He was able to clearly sense that there was an extremely oppressive aura amidst the calm aura of the Talisman Armament.

Especially when he immersed his mind into it. He was even able to notice numerous divine talismans ceaselessly circulating and cooperating with each other from afar, and there was a form of unique link between them. It was the interior of a mere sword, yet it was vast to the point it seemed capable of accommodating a large world!

Crack! Crack!

Chen Xi placed the Talisman Armament in the air before him and hadn't utilized any strength, yet the space and time around the Talisman Armament was torn apart by a shapeless edge, causing explosions to resound while time and space transformed into shattered ripples. Moreover, the time and space were in a ceaseless cycle of destruction and recovery, and it formed a strange scene.

In other words, merely the might of the Talisman Armament itself now was already capable of easily tearing both space and time apart!

Such might had even exceeded the strength of Immortal Artifacts at the extreme-rank of the Void Grade, and only the Artificial Spirit Treasures of legend could rival its might!

Artificial Spirit Treasures were precisely Divine Artifacts, yet the Talisman Armament clearly didn't carry a trace of the aura of divinity.

This meant that the Talisman Armament's current grade was still equivalent to the extreme-rank of the Void Grade, yet its might could already compare with Artificial Spirit Treasures!

Chen Xi was extremely gratified by the transformation of the Talisman Armament's might, and he said to himself, I didn't waste numerous Immortal Artifacts at the extreme-rank of the Void Grade and over a hundred types of matchlessly rare immortal materials in vain. So it's within reason that it's able to possess such might, otherwise I would have really suffered a huge loss.

Chen Xi was especially happy because once the numerous divine talismans branded within the Talisman Armament were utilized, they would be able to flawlessly fuse with the Talisman Dao he possessed, and it was sufficient for him to bring forth an even more formidable combat strength.

This was the thing that Chen Xi placed the most importance onto.

Perhaps other immortal swords possessed shocking might, yet they were unable to give Chen Xi the unique feeling of being linked to him by blood. Only the Talisman Armament seemed to have become a part of his body.

Of course, the Dao Calamity Sword could be considered as a unique existence as well. It naturally contained a strand of mysterious energy, and once this mysterious energy was utilized, it was capable of releasing a myriad of clear colored sword lotuses that similarly possessed boundless might.

Most importantly, the Dao Calamity Sword faintly carried a countering effect towards the Sovereign Sect, and it was entirely capable of being utilized as a trump card.

After observing it carefully for a long time, Chen Xi put the Talisman Armament away, and he stood up with satisfaction. After that, he left the world of stars and returned to the palace.

Hmm? As soon as he arrived at the palace, Chen Xi instantly sensed that Wang Daolu, Zhou Zhili, Xuanyuan Pojun, and the others were waiting outside the palace at this moment.

I just entered into closed door cultivation for less than a month. Could it be that something major has occurred again? As he thought, Chen Xi commanded in his heart, and the entrance to the palace suddenly opened up.

"Everyone, please come in."

The spirits of Wang Daolu and all the other great figures were refreshed when they saw this, and they entered successively. They only stopped moving when they saw Chen Xi's figure sitting cross-legged at the deepest depths of the palace, and then they bowed in unison.

"Dean!" When they were truly facing Chen Xi, all of these great figures that ruled over an area restrained all their thoughts and didn't dare be disrespectful at all. The reason was extremely simple, the scenes of Chen Xi annihilating the group of Immortal Kings by himself on that day was still vividly visible before their eyes, so they naturally didn't dare to take Chen Xi as a junior.

Coupled with Chen Xi's current status as the Dean of the number one academy in the Immortal Dimension, his reputation that was like the scorching sun in the midday sky, and the fact that he represented the dignity of the entire Dao Emperor Academy, they didn't dare be disrespectful to him.

Chen Xi waved his hand before numerous meditation cushions floated out from within space, and then he invited all of them to sit before he shot his gaze at Wang Daolu and asked. "Everyone, there's no need for formalities. Exactly what's going on?"

Wang Daolu briefly thought over the recent events, and then he told Chen Xi about everything that had occurred recently.

"Hah! They're using those great powers as cannon fodder? The Sovereign Sect really cherishes the lives of its own." Chen Xi couldn't help but sneer when he found out about all of this, and then a wisp of coldness that was extremely terrifying appeared between his brows. "Have you found out how many Immortal Kings have been gathered this time?"

"Presently, there are roughly over ten of them. They're mostly from the Zhongli Clan, Wanqi Clan, Jiang Clan, Bitter Silence Academy, Grand Desolation Academy, Dao Secret Academy, and Vastsky Academy." Wang Daolu replied calmly. "As for the other powers, their primary forces consist of Half-step Immortal Kings. So long as we kill those existences at the Immortal King Realm, then the other powers would be nothing to worry about."

Chen Xi nodded while strands of cold lightning flowed within his gaze, and he went silent for a moment before he asked. "Did you detect any traces of the Sovereign Sect's disciples?"

Wang Daolu shook his head. "Even though we haven't noticed any trace of them for now, it's predictable that the Sovereign Sect will definitely not stay out of this matter."

"Dean, everyone in the entire Immortal Dimension is watching this confrontation between us and the Sovereign Sect, so it's of vital importance. Please make a decision as soon as possible." Zhou Zhili suddenly spoke from the side, and the others nodded successively as well.

The current situation was already extremely tense, and it caused Darkombat City to become the center of attention in the Immortal Dimension. So if Chen Xi still didn't make a decision, then Dao Emperor Academy would probably lose the opportunity to launch the first strike.

Chen Xi stood up and glanced at all of them before he said indifferently, "If I'm not wrong, all those powers in the Immortal Dimension that haven't been taken over by the Sovereign Sect are watching from the sidelines, and they're worried that they'll suffer the Sovereign Sect's attack if they work together with us."

He paused for a moment before his gaze suddenly became icy cold, and then he said slowly, "Since it's like that, then we'll use actions to tell the outside world that if they're reduced to becoming dogs of the Sovereign Sect, then they'll similarly suffer a cruel slaughter from my Dao Emperor Academy!"

As he finished speaking, his voice already carried a wisp of a cold and resolute tone.

Yes, Chen Xi was extremely disappointed in those powers that still intended to wait and see. Because if they still had some hot blood in them and held on to some basic principles, then they would absolutely not be hesitant and indecisive at such a moment.

After all, the Sovereign Sect was the public enemy of the three dimensions! Since the ancient times until now, it had caused countless rains of blood and brought harm to innumerable innocent living beings!

Now, the Sovereign Sect had resurfaced, and it intended to take control of the three dimensions and rule over all the myriad of living beings in the world. Under such circumstances, those powers were actually still afraid of the power and influence of the Sovereign Sect, causing them to be hesitant and indecisive. Such actions were more than just stupid!

Of course, Chen Xi was clearly aware that they were afraid that working together with Dao Emperor Academy would make the Sovereign Sect eliminate them. But could it be they would be able to avoid such a tragedy by not working together with Dao Emperor Academy?

Chen Xi understood their worries, yet he was unable to accept it. This was his attitude towards this matter.

The hearts of everyone jerked as they'd sensed a strand of undisguised killing intent within Chen Xi's words. They were clearly aware that Chen Xi was already slightly infuriated, and he intended to make a show of strength with all of those powers that had gathered in Darkombat City.

"Dean Chen Xi, there's another situation that I have no choice but to speak about." Suddenly, Mu Rongtian finally spoke after hesitating for a long time.

Chen Xi's brows raised. "Presently, all of our forces are allied together, so we should naturally act as one. Feel free to speak about anything you wish."

"To tell you the truth, there are still many people within the academy that are in contact with the Zhongli Clan, Wanqi Clan, and Jiang Clan. Even though those instructors and students aren't related to those clans by blood, but they have rather close relationships." Mu Rongtian spoke in a low voice.

Chen Xi suddenly fell into silence and had an emotionless expression.

Wang Daolu, Zhou Zhili, Chen Haoran, and the other instructors of the academy felt extremely uncomfortable. All of this was something that should have been managed by them, yet it was exposed by Mu Rongtian now, and it caused them to feel extremely embarrassed.

The great figures from the other powers sighed in their hearts as well. In the past, Dao Emperor Academy was extremely formidable, and it looked down upon all the powers in the Immortal Dimension. Yet now, after it suffered a calamity, some of its instructors and students didn't hesitate to collude with powers from outside the academy and intended to cause harm to the academy. When these two situations were compared, it naturally caused others to sigh without end.

"When I killed those Immortal Kings that day, I'd already given them a chance, and I didn't purge the academy completely. Yet now, since they still refuse to realize their mistakes, then they can't blame anyone." Chen Xi spoke calmly.

Wang Daolu opened his mouth yet didn't know what to say. This was a problem that was difficult to deal with indeed, and some instructors and students had really gone too far. Even at a moment like this, they still refused to give up, and it was truly disappointing.

“Instructor Wang, Dean Zhou. The two of you will deal with this matter. My request is very simple. At such a moment, absolutely no traitor can appear from within the academy!” Chen Xi decided in an indisputable manner.

When they heard this, Wang Daolu and Zhou Zhili glanced at each other, and then they immediately stopped hesitating and left after receiving their orders.

Right at this moment, a grey clothed old man arrived outside Dao Emperor Academy. He proclaimed his name and asked the students at the entrance to report that he sought an audience with Chen Xi, and he was from the Sovereign Sect!

“The Sovereign Sect? Hah! How unexpected! I thought they would immediately launch the battle against me. I never expected that they would actually send over a special ambassador.” Chen Xi’s eyes narrowed slightly, and he merely pondered briefly before he instructed them to permit that old man to enter the academy.

“Greetings Dean. I’m Sui Wenjing. I’m ranked at the 4th amongst the seven Elite Disciples of the Sovereign Sect.” The old man from the Sovereign Sect was shocked in his heart when he entered the Dao Emperor Divine Palace and saw Chen Xi who sat cross-legged at the center of the palace. He really has attained great strength as it’s rumors, and he has already stepped into the ranks of Immortal Kings.

“I’ve come here this time to convey good intention to you on behalf of the Sovereign Sect. If you’re willing to work together with my Sovereign Sect, then there’ll naturally be a place for the Dao Emperor Academy within the Immortal Dimension in the future. I hope you’ll think it over carefully.” Sui Wenjing spoke in a neither arrogant nor humble manner, and he was extremely direct. He appeared to be extremely brave and seemed to be not worried that Chen Xi would become infuriated and strike him down where he stood.

Chapter 1497: The Army Presses Down

A special ambassador of the Sovereign Sect standing on the territory of Dao Emperor Academy wanted Chen Xi to agree to working together with the Sovereign Sect. It did indeed require extremely great courage to carry out such actions.

But wasn’t this a type of arrogance as well?

Obviously, Sui Wenjing was confident that with his own identity and all the forces set out within Darkombat City right now, it would be sufficient to make Chen Xi feel fearful and not dare act rashly.

Unfortunately, to his disappointment, Chen Xi didn’t say a single word from the beginning until the end. Chen Xi had a cold and indifferent expression as he sat upright on the meditation cushion, and there wasn’t any emotion on his face. Even though he didn’t move, while the energy of Karmic Luck within the palace coiled around him, it caused him to seem to possess an extraordinarily great dignified aura that terrified the hearts of all.

For no rhyme or reason, Sui Wenjing actually faintly felt slightly terrified from being stared at by Chen Xi, and this caused his expression to unconsciously become slightly solemn.

“Dean, you ought to be clearly aware that the gods of the three dimensions have been restrained within the Last Days Domain now, whereas the Sovereign Sect controls the Heaven Dao and upholds justice for the heavens. We’ve already swept through the three dimensions, and it’s impossible to stop us. All struggling is futile. My Sovereign Sect isn’t willing to allow blood to flow into rivers, so I hope that you’ll think through it carefully.” Sui Wenjing spoke once more in a deep voice. “I presume that you wouldn’t watch as this number one academy within the Immortal Dimension is obliterated in the annals of history just like that, right?”

Chen Xi still remained silent, and he just gazed at Sui Wenjing. The shapeless imposing aura Chen Xi emanated actually caused Sui Wenjing to be terrified in his heart, and he felt slightly nervous with fear.

Sui Wenjing couldn’t help but feel slight disbelief. Chen Xi has only just advanced into the Immortal King Realm, yet isn’t the imposing aura he reveals a little too terrifying? He’s merely keeping silent, yet it’s oppressing me to the point of feeling slightly suffocated.

Sui Wenjing’s heart palpitated while he faintly sensed that the situation seemed to be bad. He hurriedly spoke with the intention of seizing the initiative in the conversation and relieving the pressure he faced. “To tell you the truth, for the sake of displaying our sincerity, my Sovereign Sect has deployed twelve Elite Disciples, and the overall situation is being commanded by our Eldest Senior Brother Yin Huaikong.”

Finally, Chen Xi broke his silence, and a wisp of an arc suddenly suffused the corners of his mouth. It seemed to be an arc of ridicule, yet seemed like a sneer as well, and he said, “I’ve finally heard something useful from all your nonsense.”

“Hahaha! Dean, you’re too kind.” Sui Wenjing didn’t get angry at all, and he roared lightheartedly with laughter. He seemed to be extremely composed, and he suppressed his voice and said after a short while, “Actually, if we talk about it in detail, then there’s an extremely deep relationship between you and my Sovereign Sect.”

As soon as he finished speaking, he revealed a secretive smile.

Chen Xi’s eyes narrowed, and his pupils were like blades as he said coldly, “I don’t have the mood to beat around the bush with you. Speak frankly if you have something to say. Otherwise, I don’t mind sending your head out of the academy.”

He didn’t conceal the killing intent within his voice.

Sui Wenjing was horrified in his heart. Is this fellow really a new Immortal King? Why is he so terrifying?

Chen Xi made a chill run down his spine, and he felt as if he’d fallen into an icy pit. He was very clearly aware that Chen Xi wasn’t joking.

“Dean, you’re probably already clearly aware now. But during the primeval times, my Sovereign Sect’s Master had a Little Junior Brother called Tai Ling, and he’s related to you by blood.” He didn’t dare conceal anything and spoke frankly.

The Junior Brother of the Sovereign Sect’s Master!

Tai Ling?

The hearts of everyone within the palace shook when they heard this, and they didn't dare believe their ears. Because they'd never heard about something like this, and they were unable to believe that this Tai Ling was related to Chen Xi.

"How presumptuous! What nonsense!" Chen Haoran shouted loudly because Sui Wenjing had actually said the Dean of Dao Emperor Academy was related to the Sovereign Sect, and he felt that this was simply disrespect!

Sui Wenjing felt slightly aggrieved. He was one of the seven Elite Disciples of the Sovereign Sect, an existence that had stepped foot into the Immortal King Realm countless years ago, and his status was extremely respected. Yet when he was here, not only did he have to endure Chen Xi's terrifying pressure, he was even berated by an instructor, and it caused him to be extremely infuriated in his heart.

Chen Xi waved his hand to indicate that Chen Haoran should calm himself, and then he said calmly, "You're wrong. My Father is Chen Lingjun, and not the Junior Brother Tai Ling of your Sovereign Sect's Master. Even though the two of them are related, he's unrelated to me."

Even though Chen Xi seemed calm on the surface when mentioning Chen Lingjun, yet waves were rising and falling within his heart. This was like a knot in his heart, and even though he'd let it go now, he was unable to completely eliminate it.

All the others were shocked in their hearts when they heard this. Only now did they understand that Chen Xi's father actually had such a complicated identity, and it was truly unexpected to them.

"But no matter what, you're still related to my Sovereign Sect. If it wasn't for that, my Eldest Senior Brother Yin Huaikong wouldn't have sent me here to display our sect's goodwill." Sui Wenjing tried his best to utilize a gentle tone that revealed a trace of closeness.

The expressions of all the others became slightly uneasy when they heard this.

"If I'm not wrong, your Sovereign Sect has probably already started to declare to everyone in the world that I, Chen Xi, am a pawn placed within the Immortal Dimension by your Sovereign Sect, and my identity is the Martial Nephew of the Sovereign Sect's Master, right?" Chen Xi's eyes narrowed slightly while coldness surged within them, and he revealed a wisp of undisguised and piercingly cold killing intent. "Sowing discord and inverting the truth is what your Sovereign Sect is best at. Tell me, yes or no!"

The last three words he spoke were simply like thunderclaps, and they rumbled throughout the palace. In an instant, Sui Wenjing was dazed, and he almost fell flat on the ground.

Never had he imagined that Chen Xi would actually directly expose their plans. This caused him to simply feel as if he'd been stripped naked, and Chen Xi had seen through all his secrets down to the smallest detail. He felt utterly uneasy, and he was at a loss for what to do.

After a short moment, Sui Wenjing had a dazed expression while his entire body was soaked in cold sweat, and he left Dao Emperor Academy at a hasty pace while feeling extremely fearful in his heart. He felt that Chen Xi was too terrifying and was simply even more terrifying than a monster, and it caused him to feel indescribably terrified and helpless.

Looks like this plan won't work, and we can only enter into battle! After a long time, Sui Wenjing gritted his teeth and decided to report this matter to his Eldest Senior Brother, Yin Huaikong.

...

"The Sovereign Sect really does harbor ill intent! They actually intended to throw mud on the Dean's reputation and make the entire world be suspicious towards the Dean!" Within the palace, Chen Haoran was furious as he spoke in a cold voice.

"There's no need to get infuriated. If I did agree to their request, then I would have fallen for their trap instead. Unfortunately, all along my path of cultivation, I, Chen Xi, have never known what compromise is." Chen Xi waved his hand and seemed to be extremely calm instead. "Didn't they desire to sow discord? Tomorrow, I'll kill all of those bastards that're acting as dogs for the Sovereign Sect! And it couldn't be any better if I'm able to force those bastards from the Sovereign Sect to make an appearance."

Everyone felt shocked in their hearts, and all of them knew that Chen Xi intended start the war!

However, before Chen Xi could take any action, those forces gathered within Darkombat City had taken action before him.

...

The flaming blood red glow of dusk from the setting sun enveloped Dao Emperor Academy, and it emanated a strand of a solemn and divine aura.

The lofty ancient building that stood numerous like trees in a forest and the extremely beautiful landscape of Dao Emperor Academy flowed with a golden glow beneath the setting sun. It was dreamlike, vast, and grand, and it was tranquil to the point it seemed like the residence of gods.

Bang!

But in next to no time, this tranquility was destroyed. The earth quaked while space was suffused with a murderous and bloody aura, and a group of people teleported over from afar like a dark cloud pressing down on a city.

Every single member of that group of people were divine and supreme. Their entire bodies were enveloped by dark golden Immortal King Energy, and it was like numerous kings had arrived to patrol the world and sweep through all obstruction. It was an extremely oppressive sight.

There were even more rows of cultivators following behind them in a formidable array. They seemed like a dragon leaving its lair when gathered together, and merely the imposing aura emanated by them caused the wind and clouds in the surroundings to be thrown into disorder while the heavens and the earth dimmed down.

The forces of the Zhongli Clan, Wanqi Clan, Jiang Clan, Bitter Silence Academy, Grand Desolation Academy, Dao Secret Academy, and Vastsky Academy had arrived together!

There were actually over ten Immortal Kings amongst them. Every single one of these Immortal Kings possessed monstrous imposing auras, and their entire bodies were brilliant. When they made an

appearance together, merely their imposing aura caused the heavens and the earth to fall into deathly silence, and it was extremely shocking.

Within the Academy Guarding Grand Formation that enveloped the entirety of Dao Emperor Academy, no matter if it was the instructors or the students, all of them felt terrified. This wasn't a sign of cowardice, and it was instead a type of innate suppression. It was like how ants were tiny and powerless when facing eagles.

The difference in their cultivations was too great. So when Immortal Kings arrived, they were utterly unable to endure the extremely supreme and dignified imposing auras the Immortal Kings emanated. Not to mention that there were over ten Immortal Kings gathered together, and that sort of imposing aura caused numerous students to be practically on the verge of falling weakly to the ground.

These were Immortal Kings, supreme existences that stood proudly at the peak of the three dimensions. Along with the departure of the gods in the three dimensions, they'd seemed to have become the strongest existences in the three dimensions.

The sun and moon dimmed, the earth collapsed, and all beings fell into great terror beneath the rage of an Immortal King. This was their imposing aura. Even though it was shapeless, it was sufficient to decide the fate of most living beings in the world!

Normally, it was utterly impossible to see a single Immortal King. They were mysterious and supreme existences that held down the fort in the powers they belonged to respectively. Even though they didn't make an appearance in the world, they deterred all in their surroundings from invading.

Yet recently, over ten Immortal Kings had appeared here in a short period of time, and they'd set their sights directly onto Dao Emperor Academy. This scene was simply like the sky collapsing, and it caused others to be unable to restrain the terror in their hearts.

A battle was about to erupt!

Today, Dao Emperor Academy and even the entirety of Darkombat City was bound to flow with rivers of blood!

"Open up the restrictions. Don't struggle pointlessly." Suddenly, a ferocious middle aged man from the Jiang Clan that was in the lead spoke. He had thick brows, bronze skin, and eyes that flowed with cold lightning. He was filled with an oppressive imposing aura.

He was the Patriarch of the Jiang Clan, Jiang Taizhong, and an Immortal King! Jiang Tingfang that perished at Chen Xi's hand on that day was his junior in the clan.

It was just a simple sentence, yet it was filled with a terrifying pressure. It shook some of the students within the restrictions to the point their entire figures swayed, and they almost coughed up blood while their countenances instantly turned pale.

"Activate the formation!" An instructor shouted loudly.

Om!

In an instant, all the restrictions that were set up in the sky above Dao Emperor Academy were activated at this moment. They emanated strands of terrifying fluctuations, and they protected the entire academy within them.

“Hmph! It’s just a desperate struggle!” Jiang Taizhong grunted coldly, and he directly stretched out his hand and clawed. An enormous hand that blotted out the sky and was coiled with dark golden Immortal King Energy shot through the sky, and then it slapped down fiercely.

Rumble!

It suppressed the restrictions in the distance to the point of droning violently without end, and they were on the verge of shattering into pieces.

“Chen Xi really is conceited. He dared to obstruct our path by setting up this little bit of restrictions?” All the Immortal Kings in the back laughed with ridicule, and they were disapproving.

When Immortal Kings arrived, the cultivations of these instructors and students were utterly insufficient, so how could they possibly control the grand formation of the academy? As far as Jiang Taizhong and the others were concerned, this resistance was just a desperate struggle before death.

Chapter 1498: Fighting The Group Of Immortal Kings

As they spoke, Jiang Taizhong pressed his palm down once more. An enormous hand blotted out the sky as it descended, and it shook the restrictions that protected Dao Emperor Academy to the point all of them dimmed down, and they faintly showed signs of destruction.

“Energize the formation!” That instructor within the grand formation shouted loudly once more.

Om!

The entire grand formation was filled with the fluctuation of restrictions once more, and it flickered with talismans. It was faintly suffused with an aura that was deep like an abyss, and it was extremely brilliant, causing the entire Dao Emperor Academy to seem like a scorching sun.

“Hmm? They really are willing to pay a heavy price and actually utilized various rare immortal materials as the source of the formation’s energy. Unfortunately, this is obviously a waste.” An Immortal King at the back seemed to have noticed something and laughed lightly.

This grand formation was extraordinary indeed. It was grand and magnificent, and it defended the entire academy. It stood before the academy like an extremely solid fort.

This time, Jiang Taizhong stopped attacking, and he said loudly instead, “Everyone within Dao Emperor Academy, hear me! We’ve come today for the sake of capturing and killing Chen Xi. I’ll give all of you once last chance, quickly make that bastard, Chen Xi, come out here, otherwise don’t blame us for obliterating this place and annihilating all of you!”

His voice resounded like a bell. It spread throughout the academy and surged towards the surroundings.

It wasn’t that they were unable to destroy the formation and enter, and it was instead because they were unwilling to fight Chen Xi within the academy. After all, Chen Xi had relied on the energy of Karmic

Luck within the Dao Emperor Divine Palace to annihilate a group of Immortal Kings by himself, so they had no choice but to be careful.

“How could my academy’s Dean be someone that all of you can meet at will? How laughable!” The instructor spoke from within the grand formation. Even if his countenance had gone pale from fear, he still gritted his teeth and spoke fearlessly.

“Hmph! With our status, even if it was the previous Dean, Meng Xinghe, he would still have to come greet us. Chen Xi is only a fledging little kid, what qualifications does he possess to put on airs like this? Quickly ask him to come out, don’t bring harm to yourself!” Jiang Taizhong spoke in an icy cold voice and in an ordering tone. He’d completely not taken all the instructors and students behind the grand formation seriously, and he carried a form of conceit and contempt.

All the instructors and students were infuriated when they heard this, and one of them said, “You bastards came here with ill intent and even wishfully hope for my Dean to come greet all of you? Do you think my Dao Emperor Academy has no one that’s capable?” His voice was resolute and utterly fearless.

“You ant! You dare to be disrespectful!? You’re simply courting death!” Jiang Taizhong’s face sank, and he berated in a cold voice.

His voice was filled with the imposing aura of an Immortal King, and it was still able to shake those instructors and students after it passed through the restrictions, causing their countenances to turn even paler while their entire bodies trembled. However, not a single one of them took a step back.

“Who’s courting death?!” Suddenly, Chen Xi voice resounded abruptly, and it resounded outside the academy like a thunderclap.

It’s the Dean!

The spirits of all the instructors and students in the surroundings were refreshed, and the pressure they felt in their hearts was greatly dispersed.

“Bastard! Quickly get the fuck out here and receive your death!” Outside Dao Emperor Academy, Jiang Taizhong’s gaze was like a bolt of lightning as he shouted loudly in a cold voice.

His constant use of the word bastard caused all the instructors and students of Dao Emperor Academy to feel infuriated. The Patriarch of the Jiang Clan is going too far!

They felt that he was simply presumptuous and haughty to the limit because he addressed their Dean in that manner.

“A group of dogs of the Sovereign Sect dare to come and bark before my academy? Do you really think there’s a lack of dog slaughterers in the world?” Chen Xi’s voice sounded out from within the academy. This grand voice carried a strand of a dignified aura, and his piercingly cold tone carried a strand of an oppressive murderous aura.

With a single sentence, he’d taken Jiang Taizhong and all the other Immortal Kings to be dogs, and it caused their faces to turn grim.

“How presumptuous!” Jiang Taizhong was infuriated. His entire body surged with strands of dark golden Immortal King Energy as he stood there, and it transformed into a myriad of rays of divine light that suddenly whistled out with the intention of destroying the grand formation.

Rumble!

The divine rays of light descended like raindrops and carried a strand of supremely powerful might, and they vividly displayed the might of an Immortal King. In an instant, the heavens and the earth dimmed while time and space warped and collapsed before transforming into shattered black holes and chaotic streams.

Everyone within the grand formation felt shocked, and they felt lethally threatened. Because this was the might of an Immortal King that was executed in rage, and it caused them to feel powerless against it.

“You old dog that doesn’t know what’s good for you! You truly deserve death!” Suddenly, a loud shout resounded, and a strand of sword qi was even swifter than this voice. It was an extremely simple strand of sword qi, yet it blotted out the sky, and with a single light slash, it caused the myriad of divine rays of light to shatter inch by inch before dispersing completely.

After that, a ray of light that was paved by golden lotus flowers shot through the sky, and Chen Xi wore green clothes as he arrived on this ray of light. The pitch black and dark Talisman Armament was held casually in his hand while his gaze seemed like bolts of cold lightning, and he seemed as if he was capable of seeing through the secrets of the world.

Zhou Zhili, Chen Haoran, Mu Rongtian, Xuanyuan Pojun, Zhao Lingxi, and the other Immortal Kings were by his side, and they formed a formidable array that caused Chen Xi’s power and influence to seem even more boundless.

When they saw this scene, all the instructors and students within the grand formation cheered and were overjoyed.

On the other hand, the eyes of Jiang Taizhong and all the other Immortal Kings behind him had narrowed. After that, all of them revealed a wisp of cold smiles. Chen Xi had been forced out of the Dao Emperor Divine Palace now, so he was naturally unable to rely on the energy of Karmic Luck within the palace. In this way, the threat he posed would reduce greatly.

“Bastard! I never expected that you would be pretty courageous. I’ll give you a chance. If you want to guarantee the existence of the academy, then step down from the position of Dean, allow yourself to be captured, and leave yourself at our mercy!” Jiang Taizhong spoke coldly, and his tone was extremely blunt.

“Jiang Taizhong, to think you’re the Patriarch of the ancient Jiang Clan, yet you actually spoke such shameless words. Not only are you not embarrassed from siding with the Sovereign Sect, you even take pride in it. You’ve simply brought shame to all of your ancestors!” Mu Rongtian spoke at Chen Xi’s side, and he didn’t conceal his contempt at all. “Dean, why don’t I make a move and kill this old dog!”

As he spoke, he was about to make a move.

However, he was stopped by Chen Xi who said, “It’s only a group of mad dogs. Leave them to me!”

Chen Xi was filled with extreme hatred indeed. He'd never expected that it wasn't the Sovereign Sect that came looking for trouble with him, and it was actually these forces of the great powers in the Immortal Dimension. This caused him to feel bitterly disappointed and extremely infuriated.

As soon as these words were spoken, it wasn't just Mu Rongtian who was stunned, even the expressions of Jiang Taizhong and all the other Immortal Kings turned pale from anger. This kid is simply too arrogant! He doesn't take us serious at all!

Chen Xi's attitude that was haughty and contemptuous deeply provoked them.

Swoosh!

As he spoke, Chen Xi's figure actually flashed, and he took the initiative to leave the grand formation and arrive outside the academy.

Under the blood red setting sun, Chen Xi stood by himself while facing Jiang Taizhong and all the other Immortal Kings. His dense jet black hair fluttered while his imposing aura was like an abyss, and he seemed to emanate an air of being able to hold back all enemy forces by himself.

Clang!

The Talisman Armament let out a clear howl that tore through space and time before it threw the sky into disorder. In an instant, Chen Xi seemed to have transformed into a god of the sword, and the space between his brows was filled with a murderous and fierce aura.

"Hahaha! How audacious! Bastard, you intend to sacrifice yourself in exchange for the survival of Dao Emperor Academy?"

"Hah! He really is young and is unable to endure provocation. Since you've come out here, then it's impossible for you to turn back!"

"This bastard really is arrogant! Could it be that he intends to go against all of us by himself? Hahaha! He wouldn't be thinking that he'll be able to annihilate a group of Immortal Kings like he did that day, right? That's simply laughable!"

When they saw Chen Xi had actually left the academy, it caused Jiang Taizhong and the others to be surprised and delighted. Could it be that this kid is really tired of living?

All the instructors and students within the grand formation were anxious, and they couldn't understand why the Dean intended to face all their enemies by himself at this moment.

Even the hearts of Chen Haoran, Mu Rongtian, Xuanyuan Pojun, and the other Immortal Kings couldn't help but jerk. They were shocked by Chen Xi's courage, and they couldn't help but be worried for him.

After all, the enemy was large in number. Under such circumstances, even a god would probably not dare to enter deep into the ranks of the enemies by himself.

"One, two, three... twelve old dogs at the Immortal King Realm. Not bad, such a force is sufficient indeed. However, put up a performance that's not too disappointing to me." Chen Xi seemed as if he'd utterly not noticed all of this, and his expression was calm and indifferent while he swept Jiang Taizhong and the others with his gaze.

What was being domineering like!?

This was exactly it!

He was all alone, yet he dared to disregard all the Immortal Kings in the world!

“Bastard! You dare act so presumptuously after just advancing into the Immortal King Realm? Quickly receive your death!” Jiang Taizhong’s face sank while he suddenly attacked. An immortal blade that was coiled by violet lightning appeared in his palm, and then he suddenly chopped down with it. It seemed like a silver river of lightning was descending, and it crushed down towards Chen Xi while accompanied by peerlessly violent might.

At practically the exact same time, the figures of the other Immortal Kings flashed. They respectively resided in the surroundings and withdrew their Immortal Artifacts to lock down all Chen Xi’s paths of retreat.

Swish!

He slashed with the Talisman Armament in his hand. A wisp of brilliant sword qi shot out, and it instantly moved to greet that blade light from Jiang Taizhong. The two of them collided like the explosion of a star, causing the heavens and the earth to quake while time and space shattered into pieces and formed raging waves that swept towards the surroundings.

Fortunately, Dao Emperor Academy was protected by the grand formation that confined this expanse of the heavens and the earth and locked it down. Otherwise, this strike would have probably destroyed more than half of the buildings within the academy, because a casual attack from an Immortal King already possessed the might to incinerate mountains, boil seas, and move the world.

Jiang Taizhong’s face sank, and he thought in his heart. This bastard has just advanced into the Immortal King Realm, yet he was actually able to forcefully resist my attack. Looks like he has some ability. This caused him to not dare be careless.

Rumble!

At this moment, Chen Xi had already passed through space and time, and he strode over towards Jiang Taizhong. Every single inch of his skin was covered in sword qi, and he seemed as if he’d transformed into an extremely shocking ocean of swords.

“Slash!” Jiang Taizhong attacked once more. The Immortal Blade in his hand transformed into a myriad of violent torrents of thunder, and they swept towards Chen Xi as if they were capable of sweeping through an army.

The other Immortal Kings resided in the surroundings and stood on guard for Jiang Taizhong while blocking Chen Xi’s paths of retreat. They weren’t in a hurry to make a move, and they were observing and sensing Chen Xi’s flaws with the intent of finding an opportunity to annihilate Chen Xi in one strike.

As far as they were concerned, Chen Xi had just stepped into the Immortal King Realm, and he’d lost the support of the energy of Karmic Luck within the palace, so Jiang Taizhong alone was already sufficient to crush him.

Swoosh!

Suddenly, the Talisman Armament in Chen Xi's hands soared into the sky and revealed numerous divine talismans. They transformed into numerous grand and mysterious sword formations, causing it to seem like numerous scorching suns were soaring into the sky, and they emanated a myriad of strands of sword lights that crushed down towards Jiang Taizhong.

Rumble!

The violent torrents of thunder from the Jiang Taizhong's immortal blade were easily crushed into pieces, and they were utterly unable to obstruct these sword lights at all. Moreover, the violent torrents of thunder had dispersed so quickly, and it was so unexpected that Jiang Taizhong's pupils constricted while he himself was slightly taken by surprise.

Swish!

Before he could recover from his shock, countless strands of sword qi tore through space and time as they shot over violently. They were like a torrential rainstorm that enveloped the surroundings, and they minced the heavens and the earth into pieces, causing it to transform into a chaotic region of sword qi.

On the other hand, Jiang Taizhong had shockingly been unable to avoid being trapped at the center of this region of sword qi!

Shit! The expressions of the other Immortal Kings changed abruptly. Never had they imagined that while the battle had only just begun, the situation would actually undergo such a shocking transformation in an instant. Moreover, the might Chen Xi revealed had greatly exceeded their imagination, and it had slightly taken them by surprise.

In an instant, Jiang Taizhong's countenance turned ghastly pale, and he felt a lethal aura of danger surge throughout his body!

Chapter 1499: Surging Battle Inten

All of this had occurred too quickly. In just an instant since the battle began, Chen Xi had actually trapped Jiang Taizhong with a single strike and caused the latter to fall into a dangerous situation. This had exceeded the expectations of everyone.

Mu Rongtian and the others were surprised and felt disbelief.

On the other hand, those forces that followed Jiang Taizhong over were even terrified, and they felt disbelief as well. They wondered how Chen Xi could possibly be so formidable.

Chen Xi had just stepped into the Immortal King Realm and was even unable to rely on the energy of Karmic Luck within the Dao Emperor Divine Palace, so how could he possibly suppress Jiang Taizhong so easily in one go?

After all, as the Patriarch of the Jiang Clan, Jiang Taizhong had stepped foot into the Immortal King Realm countless years ago, and he was even a Peak Rank Immortal King that had fused his own Saint Dao Law with the three supreme Laws long ago. Moreover, he'd started to seek a perfect Immortal King Grand Dao and to condense a Primeval Dao Quintessence.

Such an existence was even sufficient to crush experts like Valiant Star, Midnight, Profound Path, and Ice Sky Immortal Kings that possessed a great reputation in the Immortal Dimension!

Yet now, something like this had occurred...

Could anyone believe their eyes?

Clang!

At this critical moment, a black colored tortoise shell suddenly floated up into appearance from Jiang Taizhong's hand, and it emanated jet black light that was extremely blazing. It enveloped his entire body and instantly helped him resist the rain of sword qi that covered the sky.

However, along with an enormous bang, cracks instantly appeared on the black colored tortoise shell, and then it trembled violently before it exploded into pieces.

"My Dark Myrtle Armor!" Jiang Taizhong escaped death, yet when he witnessed the destruction of his treasure, it caused him expression to turn gloomy and livid while he roared furiously without end.

Swoosh!

Chen Xi carried a terrifying gaze as he swung his sword and attacked once more. Sword light flickered while talismans appeared, and it swept through the surroundings.

This time, the other Immortal Kings stopped watching, and they attacked alongside Jiang Taizhong. They withdrew all sorts of Immortal Artifacts and executed extraordinary and supreme techniques while they smashed down towards Chen Xi from all directions.

For a time, violent winds raged, chilly gales roared, lightning rumbled, time and space collapsed, and the heavens and the earth revealed all sorts of phenomena. All the Immortal Kings had attacked, and they caused all sorts of terrifying and world shocking scenes to arise.

When they saw this, the eyes of Mu Rongtian, Chen Haoran, Xuanyuan Pojun, and the others narrowed, and they felt worried to the extreme in their hearts. They intended to head over and assist Chen Xi.

After all, it was twelve Immortal Kings that Chen Xi was up against, and he'd just advanced into the Immortal King Realm. Moreover, Chen Xi didn't have the assistance of the energy of Karmic Luck from within the Dao Emperor Divine Palace, so how could he go against them?

"Everyone, calm yourselves and watch me slaughter this group of old dogs!" However, before they could make a move, Chen Xi's cold and murderous voice suddenly resounded by their ears, and it caused them to be slightly stunned.

It wasn't just them that heard these words, everyone present in the surroundings had heard it, and all of them felt that it was inconceivable. Moreover, some felt disbelief, some were anxious and doubtful, some were disdainful, some laughed with ridicule, and so on and so forth.

But in next to no time, everyone in the surroundings couldn't be bothered to think about all of this, and their attention had been drawn over by the battle.

In the sky, Chen Xi was all alone while he held the Talisman Armament in hand. He teleported in midair as he collided head-on with the pincer attacks of the twelve Immortal Kings, and his figure flashed amidst them. However, not only was he not suppressed, he faintly showed signs of fighting them on par!

This caused everyone in the surroundings to be shocked, and they were both dazzled and terrified as they watched. Twelve Immortal Kings are attacking jointly, yet they're actually unable to do anything to a young man?

This was extremely shocking because Chen Xi had just stepped foot into the Immortal King Realm, and he was still extremely young. Yet he was actually able to accomplish this while not relying on the energy of Karmic Luck within the Dao Emperor Divine Palace, and this was simply an unbelievable feat.

In the Immortal Dimension, a peerless genius that was heaven defying to such an extent could absolutely shock others to death. He'd just stepped foot into the Immortal King Realm, yet he was actually fighting a group of senior Immortal Kings equally. It caused all of them to be dumbstruck. Especially those forces that had come here along with Jiang Taizhong and the others, all of them were terrified and astounded.

Swish!

After a short moment, a strand of sword qi flashed by. It sliced off a bunch of Jiang Taizhong's black hair, and it was just a little bit away from slicing into his neck. It terrified Jiang Taizhong to the point his countenance turned pale and he dodged madly without end.

When they saw this scene, a wave of shock instantly swept through the surroundings.

"What's going on? Isn't Chen Xi's combat strength too heaven defying? Hasn't he just stepped foot into the Immortal King Realm?"

"Don't forget that when he was at the Half-step Immortal King Realm, he was able to rely on the energy of Karmic Luck within the Dao Emperor Divine Palace to annihilate a group of Immortal Kings. This kid is so difficult to deal with that he can't be compared to a normal Immortal King at all."

All those forces that were siding with the Sovereign Sect had unsightly expressions, and they were anxious and bewildered.

"Bastard! Die!" An old man roared furiously in the sky, and he was like a god of water while he controlled a dark blue jade bottle that emanated a myriad of tons of mysterious black water. It swept down like the Milky Way with the intention of crushing Chen Xi.

"Old Dog, are you even worthy of bragging like that?" Chen Xi blasted the other attacks away with a single strike of the sword, and then Chen Xi's murderous gaze instantly locked onto the old man. At the same time, this expanse of the heavens and the earth shook violently while the Talisman Armament glowed, and it emanated a myriad of talismans as it slashed down fiercely.

With a single strike of the sword, the world dimmed while a horrifying aura exuded out, and this aura pressed down upon all the living beings in Darkombat City to the point they trembled and were on the verge of kneeling on the ground.

Rumble!

The sword qi destroyed everything before it with all powerful might, and it forcefully crushed through the restraints of time and space as it rumbled and surged out.

Pu!

It directly slashed off the old man's right arm!

Dazzling golden blood shot into the sky while the old man let out a shrill cry, and his face was covered in shock. Never had he imagined that he would actually be injured by a young man even while they were in such a situation.

All the other Immortal Kings that were besieging Chen Xi were horrified as well, and their expressions turned gloomy and solemn. Through the exchange of blows they'd had with Chen Xi until now, they were already clearly aware that even if this bastard before them had only just advanced into the Immortal King Realm and wasn't relying on the energy of Karmic Luck within the Dao Emperor Divine Palace, his combat strength was sufficient to be ranked amongst existences at the Utter Peak Rank of the Immortal King Realm!

In other words, in their senses, Chen Xi's current strength had faintly arrived at the highest peak that Immortal Kings could achieve. So how could they dare be careless when facing him?

Moreover, he'd just stepped foot into the Immortal King Realm now, yet he already possessed such combat strength. This obviously showed that if he was given a period of time to cultivate, then it would probably be impossible to find a single existence in the three dimensions that could suppress him!

"Kill! No matter what, we have to kill this kid today, otherwise he'll definitely become a disaster for us in the future!" Jiang Taizhong roared furiously while he exerted his entire strength, and he actually withdrew an Artificial Spirit Treasure that was suffused with the aura of divinity. It was a pale white colored sword that as thin like a cicada's wing, and it was called Silver Radiance. Jiang Taizhong slashed it down towards Chen Xi's head.

Om!

At practically the exact same time, a bowl soared into the sky from Chen Xi, and it emanated strands of illusory white divine radiance that collided with Silver Radiance.

"The Icewave Bowl!" Jiang Taizhong was furious as he recognized the bowl. It was precisely from his junior in the clan, Jiang Tingfang. Obviously, this Artificial Spirit Treasure had fallen into the Chen Xi's hands after Jiang Tingfang had been killed by Chen Xi.

Chen Xi remained indifferent and directly disregarded Jiang Taizhong before his gaze locked onto the old man that lost his right arm earlier, and Chen Xi pursued the old man without stopping.

Even though he was encircled, they were utterly unable to do anything to him. Moreover, the extremely terrifying combat strength he revealed caused all of those Immortal Kings to be shocked and furious, and they felt more and more terrified the more they fought.

This kid is really too heaven defying! If he isn't eliminated today, then no one in the three dimensions will be able to suppress him in the future!

At this moment, they stopped holding back and withdrew their trump cards while they besieged Chen Xi with all their strength. Their attacks grew even more ferocious, and it caused this expanse of the heavens and the earth to fall into a state of great chaos and destruction.

For a time, Immortal Artifacts rumbled and surged throughout the universe while the glow of treasures whistled through the surroundings while blazing like numerous scorching suns. Moreover, the terrifying fluctuations of the battle was even like a powerful gale from the heavens, it whistled and raged through the surroundings while tearing time and space apart as it swept out, and it actually forcefully destroyed more than half of the entire Darkombat City!

After all, Darkombat City covered an extremely enormous area, and it was like a large world. Now, more than half of it was actually destroyed, and this obviously showed how shocking the current situation was.

Fortunately, the residents of the city had noticed that the situation was bad a long time ago and fled, allowing them to avoid the possibility of suffering calamity and perishing.

“Should we make a move together and assist him?” Within Dao Emperor Academy, Chen Haotian revealed a worried expression because the situation of the battle had already arrived at its peak, and it was extremely horrifying, causing him to be unable to help but worry about Chen Xi.

“No, it’s best to listen to the Dean’s instructions.” Mu Rongtian shook his head with a calm bearing. However, right after that, he noticed a wave of displeased gazes, and he instantly understood that the others had misunderstood.

He hurriedly said, “It’s not that I’m unwilling to make a move, but the truth is that there’s no danger to the Dean’s life based on the current situation. Moreover, according to my deduction, the Dean made such arrangements because he wants us to pay attention to the overall situation so as to prevent the Sovereign Sect from seizing this opportunity to make a move.”

The Sovereign Sect!

All of their hearts shook, and they calmed down. Right, the battle before us only includes those forces that have sided with the Sovereign Sect, and the true experts of the Sovereign Sect haven’t shown themselves!

When they realized this, all of their expressions were murderous while they became vigilant to their surroundings. They were standing on guard to protect Chen Xi, and they were also vigilant against the Sovereign Sect.

...

In the battle, the pressure upon Chen Xi had increased greatly, yet he wasn’t fearful. Conversely, he grew more and more courageous as the battle continued. Strands of Primeval Dao Quintessence surged in the universe within his body, and they provided him with an extremely great imposing aura.

Especially after the Talisman Armament had been refined once more, its might was comparable to a Divine Artifact, and it allowed Chen Xi to completely bring forth his own strength. The more he fought, the more the surging flames of battle within his heart blazed, and his attacks became more and more fierce and ferocious.

“Old Dog, leave your life behind!” Suddenly, Chen Xi let out a long howl that sounded like the roar of a tiger. His long hair fluttered while the Talisman Armament in his hand rumbled, and it blasted away the attacks of all the others before he slashed out with a brilliant strand of sword qi that shot towards the one-armed old man.

Swish!

That wisp of sword qi contained a myriad of talismans and the energy of Order, and it was sharp and dazzling as it tore through the entire sky. In the eyes of everyone else, it was like a thick and large bolt of lightning that soared through the sky while glowing brilliantly.

However, in the eyes of the one-armed old man, it was like the scythe of the god of death, and it intended to reap his life. He suddenly spat out a mouthful of Blood Essence and burned his quintessence energy with the intention of resisting it head-on.

He’d acted haughtily when he arrived and repeatedly called Chen Xi as bastard while revealing an overbearing air. Yet now, he’d fallen to such a situation, and when these two situations were compared, it was really the epitome of how life was always changing.

Rumble!

Time and space collapsed. That wisp of sword qi was too fierce and all-powerful, and it caused the others to be unable to lend a hand in time. The old man was forced to teleport repeatedly, and he dodged this sword strike with extreme difficulty.

However, Chen Xi didn’t intend to let the old man off this time. Strand after strand of sword qi shot through the world, and they formed into innumerable talismans of sword qi that illuminated the world.

All of these strands of sword qi were swift and violent, and no matter how the old man dodged, he was struck by a strand of sword qi in the end!

Pu!

That wisp of sword qi was boundlessly vast and filled with terrifying might. In an instant, it forcefully slashed apart the Immortal Artifact that stood before the old man, and then it didn’t lose momentum at all as it slashed him in two at the waist!

A rain of blood poured down while a miserable shrill cry suddenly tore through the heavens and the earth, and it shocked everyone in the surroundings.

Chapter 1500: Successive Annihilation

The one-armed old man was killed, and his corpse had been cut into two, causing golden blood to rain down while his miserable shrill cry tore through the sky.

An Immortal King had perished just like that. His eyes carried bewilderment and even a feeling a great terror, and he’d died without closing his eyes just like that.

This scene caused everyone's scalps to go numb while they felt suffocated. All of them were shocked, and they were unable to accept what had just occurred. How could this have happened? This had exceeded their imagination.

While under the joint siege of twelve Immortal Kings, Chen Xi had actually launched a mighty counterattack and crushed an Immortal King in one go. How imposing and powerful was such an action?

That was an Immortal King. An existence that could overturn the world with a single thought and destroy an enormous area in a single moment, and extremely formidable and supreme existence.

Presently, the gods had ceased to exist in the three dimensions, and Immortal Kings were already the most supreme existences. They could move freely and invincibly throughout the three dimensions, yet at this moment, one had actually been easily annihilated here!

Many others had even clearly noticed that during the process where Chen Xi annihilated the one-armed old man, it wasn't that no one had tried to rescue the old man, but all of them had been blasted away by Chen Xi, and not a single one of them was able to turn the situation around at all.

How could all of them not be shocked by Chen Xi's peerless bearing?

If it was said that Chen Xi's achievements of killing the group of Immortal Kings within the Dao Emperor Divine Palace was a peerless and splendid achievement in combat, then this was a miracle.

It caused everyone to feel disbelief and be unable to accept it because he'd just stepped foot into the Immortal King Realm and didn't possess the assistance of the energy of Karmic Luck from within the Dao Emperor Divine Palace, yet he possessed such shocking and heaven defying combat strength. What would his combat strength be in the future? It was impossible to imagine, and it would probably be unprecedented and reign supreme amongst all the Immortal Kings in the world!

Only a small portion of people understood exactly how terrifying the combat strength Chen Xi possessed was.

Because when he was still at the Half-step Immortal King Realm, he'd similarly not relied on the energy of Karmic Luck within the divine palace to annihilate Wanqi Qing and go head-on against the senior of the Mu Clan, Mu Rongtian, causing Mu Rongtian to retreat in the face of difficulties!

At the square outside the Dao Emperor Divine Palace, Chen Xi had even gone head-on against the joint forces of two Immortal Kings, Jiang Cangyun and Zhongli Gui, and he'd annihilated both of these Immortal Kings in the end.

At that time, he was still only at the Half-step Immortal King Realm!

Yet now, he'd advanced into the true Immortal King Realm, and his combat strength had undergone a tremendous transformation. He'd stepped foot onto a perfect Immortal King Grand Dao, and he'd condensed the Primeval Dao Quintessence.

That was a type of extremely formidable energy, and it was difficult to find a single Immortal King that had condensed the Primeval Dao Quintessence amongst thousands of Immortal Kings!

Coupled with the assistance he received from the Talisman Armament that had been refined once more and was comparable to an Artificial Spirit Treasure, could anyone at the same cultivation realm within the three dimensions be a match for him?

At this moment, it wasn't just everyone within Dao Emperor Academy that were shocked, even all those forces that came to attack were shocked. They were dumbstruck while it was impossible for their hearts to calm down because Chen Xi was too terrifying, he was like a peerless and formidable enemy, and he was simply unreasonably heaven defying!

"Ancestor!" A group of people roared loudly while their faces were covered with terror. That old man was the senior of their clan, and now that he'd perished, they'd completely lost any form of protection.

The other Immortal Kings were all terrified, and they couldn't help but retreat while feeling terrified and uneasy. Even if their group was large in numbers, it was unable to give them an absolute feeling of safety.

...

In the sky, the one-armed old man had been killed while Jiang Taizhong and the other ten Immortal Kings seemed as if they were facing a formidable enemy. All of them circulated their entire cultivations, and their entire bodies were suffused with brilliant Immortal King Energy. They stood side by side like numerous divine mountains that emanated blazing light which echoed with each other from afar, and it caused the heavens and the earth to be suffused with boundless light while a rain of light filled the surroundings.

After this unexpected event, all of them had fully understood how formidable Chen Xi's combat strength was. It exceeded their understanding, and it didn't conform to the situation they expected.

This was a very dangerous situation!

They were originally fearless as they thought Chen Xi had just advanced into the Immortal King Realm and didn't possess the assistance of the Karmic Luck within the Dao Emperor Divine Palace, so it would definitely be easy to annihilate him if all twelve of them joined forces against him. Yet now...Chen Xi's shocking combat strength that couldn't be judged by convention caused the situation to become dangerous.

Swoosh!

All of this didn't affect Chen Xi at all. After he annihilated the one-armed old man, he didn't stop at all before flickered through space, and the Talisman Armament in his hand shook while he executed a dazzling strand of radiance from it.

Rumble!

It pressed down with Jiang Taizhong as its target!

This wisp of sword qi was too exuberant. It was accompanied by numerous divine talisman diagrams, and it flowed with boundless light, causing everyone single Immortal King's heart to feel heavy.

“Bastard! Don’t you dare be arrogant!” Jiang Taizhong’s face sank while he roared furiously. The ‘Silver Radiance’ Divine Sword in his hand tore through the sky and emanated strands of sword lights of divinity as it moved to meet Chen Xi’s attack head on.

Bang!

The heavens and the earth quaked while an expanse of a gorgeous rain of light covered the surroundings and shot into the sky. This area had become an ocean of sword qi that was spreading towards the surroundings with an extremely grand impetus that pressed down upon one’s soul.

Pu!

Jiang Taizhong coughed up a mouthful of blood while his expression was extraordinarily livid. This was even greater proof that if it was a one on one battle, then he would utterly not be a match for Chen Xi.

This caused the other Immortal Kings to not dare slack off at all. They joined forces with Jiang Taizhong to launch attacks at the same time, and they fought with all their strength. They seemed like eleven divine mountains that were moving about with the intention of crushing Chen Xi.

In an instant, this expanse of the heavens and the earth was filled with the exuberant and supreme dark golden glow of Immortal Kings, and it emanated a terrifying pressure that smashed down towards Chen Xi.

Such a joint attack was terrifying to the point it caused one’s heart to tremble, and it was difficult for one to arouse the strength to resist it.

However, Chen Xi, who was within the battlefield, seemed like a dragon that left its lair. Not only did he not dodge, he moved to greet these attacks instead. The Talisman Armament swished through the sky as a myriad of strands of sword qi were slashed out from within it, and they collided head on with the joint attacks of the eleven Immortal Kings.

Rumble! Rumble!

The heavens and the earth seemed as if they were about to collapse and be destroyed. The terrifying fluctuations of the collision threw this area into chaos, and a rain of light rumbled through the surroundings, causing the vision of others to be obstructed.

Because it didn’t have any defensive strength, the entire Darkombat City had transformed completely into ruins at this moment. All of the buildings within the city had shattered into powder, and it had become a barren land!

It was a horrifying sight!

A battle of such a level was too terrifying. No matter if it was all the students and instructors of Dao Emperor Academy or those enemy forces that had come to attack, all of them were horrified and unable to calm down at this moment.

Bang!

Suddenly, a wave of ear piercing rumbling resounded from within the battlefield that was covered by a rain of light.

After that, an extremely shrill howl resounded. “Bastard! You actually destroyed my precious treasure. I’ll fight you to the death!!”

“Old Dog, are you even worthy of trying to take me down with you?” At practically the exact same moment, Chen Xi’s calm and murderous voice resounded.

His voice hadn’t finished resounding through the air when Chen Xi’s figure suddenly appeared within the fields of vision of everyone in the surroundings. He wore green clothes while his entire body emanated brilliant light, and he seemed otherworldly. He suddenly took a step forward, and he’d already arrived before a yellow robed middle aged man.

Swoosh!

A wisp of sword qi arose along with his appearance. It was like a strand of light within the depths of the starry sky, and it suddenly shot down before a head soared into the sky and a rain of blood poured down!

This head flew really high up into the sky. Its face carried terror and anger, and it was filled with bewilderment and disbelief.

In his last moments, that young man seemed to be so otherworldly. The young man was calm, composed, resolute, and decisive after killing him, and the young man’s entire body was enveloped with a shapeless imposing aura.

Thump!

The headless corpse fell to the ground before it exploded into pieces. Another Immortal King had been annihilated and had perished here.

The blood of an Immortal King was extremely brilliant, it was bright golden. In next to no time, it transformed into an ethereal glow that dissipated in the heavens and the earth, and it was a horrifying sight.

This scene shocked everyone once more, and it caused them to be dumbstruck like clay statues. They were practically on the verge of being suffocated, and they were unable to imagine how another Immortal King had perished at Chen Xi’s hands when just a moment had passed!

Does this mean that even if all of these Immortal Kings join forces, they still wouldn’t be a match for Chen Xi?

...

The battle was still going on, and it didn’t stop because of this.

It was even to the extent that the death of the two Immortal Kings had caused the situation of the battle to become even more intense.

Not a single person dared to be careless any longer. Moreover, Jiang Taizhong and the others didn’t dare hold back and they fought Chen Xi desperately.

On the other hand, Chen Xi didn't hesitate at all as well. He moved about amidst the pincer attack of the ten Immortal Kings all by himself. His jet black hair fluttered while his gaze was like a cold bolt of lightning, and every single move he made caused strands of talisman diagrams to coil around his entire body while a myriad of strands of misty sword qi shot towards the surroundings. He was like an invincible and peerless monarch that was proud and mighty.

His lofty and heroic bearing caused everyone present in the surroundings to be shocked, and their minds shook while they were unable to maintain their calm.

Pu!

It wasn't long before Chen Xi grabbed an opportunity to flash forward, and he actually forcefully kicked the head of an Immortal King into pieces!

Swish!

A rain of blood poured down explosively. That Immortal King didn't even have the chance to let out a shrill cry before he'd been annihilated on the spot, and the state of his death was so miserable that it deterred everyone in the surroundings.

Bang!

However, right when Chen Xi annihilated this Immortal King, he'd revealed a trace of a weak point from behind, and it was grabbed by an old man. The old man approached Chen Xi from behind, withdrew an Immortal Artifact that seemed like a bone before forcefully smashing it down onto Chen Xi's left shoulder.

Chen Xi's figure swayed from suffering this heavy blow, and the vital blood within his entire body roiled while he almost coughed up a mouthful of blood.

However, to the surprise of everyone in the surroundings, Chen Xi didn't retreat but advanced instead. He seized this opportunity to suddenly smash himself at the old man's chest.

The old man was originally feeling overjoyed from succeeding in his surprise attack, and he intended to seize this opportunity to annihilate Chen Xi. Never had he expected that Chen Xi would actually not dodge and charge towards him instead, and it had instantly taken him by surprise.

Crack! Crack!

A wave of the sounds of bones shattering resounded. The old man felt as if a divine mountain had smashed down onto him, causing every single inch of skin, bones, and even energy, essence, and spirit within his body to explode. Thus he couldn't help but let out a shrill cry.

Bang!

After that, his entire body was actually forcefully blasted open, causing blood and flesh to shoot into the surroundings!

All of this had occurred too quickly. From the moment Chen Xi kicked that Immortal King's head into pieces, to the moment his left shoulder was injured, and then until the moment he smashed the old

man into pieces with his body right now, all of it had occurred in an instant. It was swift to the point others were unable to react at all!

When all of these sudden and dangerous successive annihilations had occurred, there were two less Immortal Kings in the surroundings.

On the other hand, Chen Xi's left shoulder was injured, causing his clothes to be tainted with blood. However, his expression was still calm and murderous. He seemed as if he hadn't been injured at all, and the imposing aura emanated from his entire body was exuberant, monstrous, and extremely oppressive as it was before.

At this point, there were already four Immortal Kings that had been annihilated by Chen Xi in this battle.

From the beginning until the end, less than ten minutes had past!

"Damnable Bastard!" All the other eight Immortal Kings including Jiang Taizhong roared furiously while their expressions were livid and gloomy to the extreme. Their eyes almost split apart from rage while their hairs stood on end from anger.

In merely an instant, Chen Xi had actually successively annihilated two of their companions. Besides causing them to feel infuriated, they couldn't help but feel terrified and horrified.

This was too terrifying!

It had caught them off guard, and they were unable to accept it.

It wasn't just them, everyone in the surroundings were shocked to the point of almost losing their minds. Their pupils had dilated while they stood dumbstruck as if their souls had left their bodies because Chen Xi's might had once again struck a tremendous and powerful blow on them, and it was inconceivable to them.
