

Talisman 1551

Talisman Emperor

Chapter 1551: The Might Of A Single Sword Strike

These bastards truly refuse to go away!

When he confirmed that those people in the distance were sent over by the white robed young man's group from the Dayi Clan, a wisp of dense killing intent instantly arose in Chen Xi's heart.

His expression was cold and indifferent, and it was like a starry sky was surging within his eyes. The imposing aura emanated from his entire body grew more and more blazing, and he was like a peerless divine sword that was revealing its supreme edge!

Swoosh!

Chen Xi didn't hesitate to flash and appear out of thin air on the battlefield that was in midair, and he didn't seem to make any movement, yet he'd already brought Tie Kun out of the battlefield.

"Since they've come for me, then leave it to me to deal with." At this moment, Tie Kun's entire body was dripping with blood, and his aura was on the verge of falling into disorder. If Chen Xi hadn't arrived in time, then it was extremely likely for him to perish in this battle.

"Thanks." Tie Kun gazed at Chen Xi who stood by his side, and he said via voice transmission in a hoarse voice. "They're from different powers in the Ancient God Domain, yet they received the orders of the Dayi Clan's Third Young Master, Yi Tian, and they were gathered together to capture you. You must be careful and flee as soon as possible if you can't defeat them."

"I understand." Chen Xi nodded with a composed expression.

.....

When those World Enlightened True Gods that were in battle with Tie Kun saw this, they didn't pursue Tie Kun, and they gazed at Chen Xi with interest instead and revealed cold smiles.

"Leave it to you? Haha! What an arrogant little bastard!" Someone ridiculed.

"Haha! Forgive this ignorant idiot. Fellows that come from the lower dimensions like them have an exaggerated opinion of their ability, and they think that the Last Days Domain is the same as the world they were within in the past." Someone chimed in and roared with laughter.

"Capture him, don't waste time." Another one of them spoke decisively.

Bang! Bang! Bang!

As they spoke, the three of them had already attacked. They respectively withdrew a violet divine hammer, a green streamer, and an ancient seal, and they erupted with a variety of surging divine radiances as they smashed down towards Chen Xxi.

"Hmph!" When faced with this, Chen Xi flicked his sleeve, causing an expanse of Divine Energy that interweaved into form by talismans to fly out, and it emanated rumbling that shook the soul.

In an instant, this expanse of the heavens and the earth, divine talisman diagrams floated up into appearance while talismans densely covered the surroundings. They seemed as if they were interweaved into form from divine light, and layer upon layer of terrifying phenomena appeared in the heavens and the earth.

Rumble!

All attacks were blasted into dispersal, and divine radiance erupted and illuminated the world.

On the other hand, all those three World Enlightened True Gods were shaken by this strike to the point of staggering a few steps back in space, and this unexpected outcome caused their expressions to change abruptly while they felt extremely shocked.

How formidable! Chen Xi hadn't utilized a Divine Artifact yet was actually able to break apart their joint attack by himself. How could such a strength not be shocking?

"Take this!" Suddenly, a World Enlightened True God charged over while the hammer in his hand carried violet divine radiance that covered the sky, and the peerlessly blazing divine radiance smashed through the heavens and the earth while the fluctuations emanated from it caused the heavens and the earth to dim down.

He had gold hair, a robust and tall figure, and he seemed like a violent and courageous god of war that possessed boundless might.

Clang!

An enormous bang that shook the heavens resounded. Chen Xi moved to greet this attack, and his hand collided with that violet divine hammer, causing a myriad of torrents of air to rumble out from between them.

Chen Xi was completely unharmed and had a composed bearing.

The golden haired man was instead struck to the point his entire body trembled, and then his countenance turned pale while the violet divine hammer in his hand was almost blasted flying.

"Dammit!" He suddenly roared furiously while the golden hair that covered his head stood on end, and he actually didn't retreat but moved to attack Chen Xi once more.

At practically the exact same time, the other two World Enlightened True Gods that held a green streamer and ancient seal revealed solemn expression because they'd already realized how extraordinary Chen Xi was, and they naturally didn't dare hesitate to attack.

In an instant, Chen Xi was locked in combat with the three of them. Explosions rumbled while all sorts of blazing glows surged about, and it shook this expanse of the heavens and the earth while space was blasted into pieces. It was a scene of utter chaos.

.....

"Hmm? This prey from the lower dimensions really isn't bad. No wonder Third Young Master would take a liking to him and not hesitate to utilize all the forces at his command to capture this fellow before making him into a Godslave." When she noticed the situation of the battle in the distance, the yellow

clothed woman that stood far away in space spoke with slight surprise. Her beautiful hair flowed down like a waterfall, and she had a beautiful appearance. Her eyes were clear like gems and suffused with a deep green radiance, and she was like a celestial maiden. Moreover, every single move she made revealed a bearing of supremacy and arrogance.

“Miss Yu Chen is right. A prey that Third Young Master took a liking to naturally wouldn’t be weak. Otherwise, he wouldn’t have sent all of us to find and capture him in the entire Last Days Domain.”

“Hmph! It’s only a barbaric little fellow from the lower dimensions. Why praise him intentionally?”

“Exactly. Even though he looked to be extraordinary, he’s only an ant that came from the lower dimensions, and it’s truly laughable that he dared to come to the Last Days Domain and act so arrogantly.”

All of them spoke and discussed Chen Xi. Even though they were surprised by how ferocious Chen Xi’s imposing aura was, they didn’t reveal any fear. Conversely, all of their words revealed a strand of an indescribable feeling of superiority.

“There’s no need to waste your breaths. It looks to me like Fellow Daoist Le Xun and the others will probably not be a match for him. Let’s attack together and strive to capture him in one go, so as to avoid any other unexpected incidents from occurring.” The yellow clothed woman called Yu Chen spoke indifferently.

“That’s perfect.”

“That’s exactly what I intended to do.”

The others nodded successively and agreed.

But right at this moment, Chen Xi’s chilly and murderous voice suddenly resounded from the distant battlefield. “All of you dare to come capture me with just this little bit of ability?”

Along with this voice, the expressions of everyone here changed in an instant.

In their fields of vision, Chen Xi suddenly drew his sword and slashed out with a strand of sword qi that blazed and seemed like a flowing ray of light. If shot through the sky like a white ray of light, and it traversed the heavens and the earth.

Crack!

A completely straight spatial rift was slashed open in the heavens and the earth, and it extended on boundlessly towards the distance.

This wisp of sword qi was truly too terrifying. It was like the blade of the heavens. It split apart the world, destroyed the five elements, annihilated Yin and Yang, and slashed everything apart. It was ferocious, swift, and dazzling to the limit!

Bang! Bang! Bang!

The violet divine hammer, green streamer, and ancient seal were directly slashed into two!

“Shit!”

“No!!!”

“How could he be so formidable?”

Pu! Pu! Pu!

Three extremely terrified and furious howls resounded, and then a wave of muffled bangs resounded. Those three World Enlightened True Gods that were in battle with Chen Xi didn't even have the chance to dodge before their bodies were successively slashed into two, causing their souls to be obliterated as blood sprayed through the heavens and the earth!

Their voices were still reverberating through the air, yet they'd already perished.

When looked at from afar, this scene seemed to be extremely terrifying, and it was utterly unbelievable.

With a single strike, he'd destroyed three Divine Artifacts and annihilated three World Enlightened True Gods. Would anyone be able to believe that this was something a World Enlightened True God that had just entered the Last Days Domain from the lower dimensions was able to accomplish?

Everyone was shocked, and the surroundings were perfectly silent.

“No wonder, no wonder he was able to surmount a realm and fight a Domain Enlightened Spirit God from the Dayi Clan. Such a heaven defying Sword Dao has probably already been attained to the Sword Emperor Realm....” Extremely far in the distance, Tie Kun was astounded in his heart while his pupils had dilated, and he muttered soundlessly.

Those villagers were even dumbstruck. They seemed like numerous clay statues that were shocked to the point of being stunned on the spot.

On the other hand, the yellow clothed woman, Yu Chen, and the others originally intended to make a move and capture Chen Xi, yet when they witnessed this scene, they weren't in time to assist the other three World Enlightened True Gods, and they could only watch helplessly as all of this occurred. Their expressions changed repeatedly and indeterminately, whereas, the disdain and arrogance in their hearts from before had been replaced by a wisp of an extremely heavy feeling at this moment.

Those three World Enlightened True Gods that had perished possessed strengths that were mostly on par with them, yet they'd been annihilated by a single sword strike from Chen Xi. So, how could they dare to continue looking down on Chen Xi?

This was caused by the might of the Five Element Annihilator!

This was the first Sword Emperor Realm sword move that Chen Xi had comprehended after advancing into the Sword Emperor Realm, and it was extremely swift, ferocious, terrifying, and murderous.

That day, when Chen Xi fought with Ninth Uncle that possessed a cultivation at the Domain Enlightened Spirit God Realm, he'd utilized this move to injure Ninth Uncle and leave behind a bone deep injury on Ninth Uncle's chest. Now, he was only dealing with three World Enlightened True Gods, so its might was naturally not something they could withstand.

.....

Unfortunately, only 70% of my cultivation has recovered now. If I was at my prime, then how could killing them possibly be so troublesome? Chen Xi shook his head before he shot his gaze towards the yellow clothed woman, Yu Chen, and the others.

“I’ll give all of you a chance. Leave behind the Divine Artifacts and Divine Crystals in your possessions, and I’ll allow all of you to live. Otherwise, all of you can leave your lives behind today.” Chen Xi spoke while his indifferent expressions revealed a strand of indescribable imposingness.

“Dammit!”

“Bastard! An ant from the lower dimensions like you dares to speak like this to us?”

All of them exploded with rage while flames of rage arose in their hearts, and their expressions were gloomy to the limit.

Even Tie Kun and those villagers couldn’t help but be astounded when they heard these words, and they gasped. Because all of those people were from the Ancient God Domain and possessed extraordinary backgrounds, yet Chen Xi actually dared to speak in this way. They felt that Chen Xi wasn’t just overbearing, he was simply domineering to the extreme.

“Fellow Daoist, perhaps you’re unaware of it but you’ve already offended the Dayi Clan’s Third Young Master, Yi Tian. Even if you’re lucky enough to escape today, you’ll suffer endless pursuit.” Amidst everyone present, only the yellow clothed woman, Yu Chen, maintained her calm, and she said indifferently, “Why don’t you go back with us. With your strength, it can be considered as an extraordinarily great fortune if you’re able to become a Godslave by Third Young Master’s side.”

“Haha! I originally thought that figures from the Ancient God Domain would be extraordinary, but now it would seem that it’s mostly just a bunch of bastards that act like slaves.” Chen Xi sneered while killing intent was emanated from his eyes.

“You’re courting death!”

“You simply don’t know what’s good for you!”

“You actually dared to insult us! Little Bastard, you’re digging your own grave!”

All of them were infuriated. They were from the Ancient God Domain and had always felt superior and taken others from the lower dimensions to be ants. Moreover, they were even able to as they pleased in the Last Days Domain, so when had they ever suffered such humiliation.

“Since all of you are unwilling to cherish this opportunity, then I can only go take it myself!” Chen Xi couldn’t be bothered to waste his breath when he heard this, and the Talisman Armament in his hand shook as a strand of dazzling sword qi slashed out from it. It was like an expanse of a surging ocean of sword qi, and it rumbled as it pressed down towards them.

This expanse of sword qi was too blazing and extremely vast. It was like a river of stars was sweeping down from the universe, and it was extremely powerful. It was precisely the second sword move Chen Xi had grasped at the Sword Emperor Realm, Calm Before The Storm.

Even though this move wasn’t as ferocious as the Five Element Annihilator, it possessed an all-powerful suppressive force, and it was extremely suitable to be utilized as an area attack.

Bang!

As soon as Chen Xi attacked, the heavens and the earth were overturned and covered in unrest. The sword qi shot through the heavens and the earth, and it transformed the surroundings into an ocean of Divine Energy that terrified the soul.

“This kid is difficult to deal with. Let’s attack together!” When she witnessed how terrifying this strike was, the yellow clothed woman, Yu Chen, was finally unable to maintain her composure, and her expression changed as she cried out loudly.

There was utterly no need for her warning because the others had already realized how formidable it was. They didn’t dare hesitate at all to withdraw their best treasures, and they executed their strongest techniques as they attacked jointly.

Talisman Emperor

Chapter 1552: Strange Slaughter

The battle erupted.

The yellow clothed woman’s group had a total of seven members. At this moment, they attacked with full force, and they withdrew various Divine Artifacts as they charged jointly at Chen Xi.

When looked at from afar, seven gods tore through the sky, and their might was so powerful that it truly seemed as if the heavens and earth would be destroyed by them. Fortunately, this was the Last Days Domain, and if it was in the three dimensions, then the Laws of the Heaven Dao would be utterly unable to endure such destructive might.

“Shit! Move away, quickly!” Tie Kun’s expression changed abruptly when he witnessed this scene, and he practically instinctively utilized his ability to take all the villagers along as he teleported and vanished on the spot in an instant.

At practically the exact same time, a wave of rumbling resounded from an explosion that shook the heavens and the earth.

Chen Xi’s ‘Calm Before The Storm’ collided head-on with them. The sword qi that blazed like a sun successively slashed apart all of their various attacks, causing violent radiance to shoot into the surroundings while Divine Dao Laws flowed, and it tore space apart and revealed an extremely astounding impetus.

All of them were World Enlightened True Gods that had grasped the Divine Dao Laws, utilized various Divine Artifacts, and commanded all sorts of supreme techniques. Once they entered into battle, it was like an expanse of universes was collided with another expanse of universes, and the might created by this collision was sufficient to mince the sun and moon into pieces and obliterate everything in the world.

Reality was indeed so. World Enlightened True Gods had a universe of their own within their bodies, and this meant that they themselves were already a universe, and the might they could exert was naturally astounding to the extreme.

“How formidable!”

The attacks of the yellow clothed woman, Yu Chen, and the others were dispersed. Even though they weren't injured, seven of them had attacked jointly, yet Chen Xi alone had actually utilized a single strike to collide head on with them and not fall into a disadvantaged position. All of this caused their expressions to change indeterminately.

This kid is too formidable!

Chen Xi already possessed such a heaven defying combat strength at his current cultivation, and it simply caused them to wonder if he was really from the lower dimensions.

After all, in their perceptions, besides a few great figures that were born during the primeval times, all the gods from the lower dimensions were pitifully weak, and they were like ants that could be trampled on at will.

On the other hand, Chen Xi was obviously not a great figure that was born during the primeval times, and he was only at the World Enlightened True God Realm. Moreover, his grasp of the Divine Dao Laws was only at the basic-stage. Yet it just so happened that he was able to exert such a terrifying combat strength, and this was slightly unusual!

As it was said, there's always a reason why something is unusual. At this moment, the combat strength Chen Xi revealed wasn't just unusual in their opinion, he was simply a peerless genius!

.....

While thoughts flashed within their minds, the battle was still going on. They didn't dare hold back and dealt with Chen Xi with their full strengths. They fought through the heavens and the earth and transformed an area of 500,000km into their battlefield, causing numerous terrifying scenes like rocks collapsing into piece, the ground to splitting apart, and space exploding to arise throughout the surroundings.

One could even faintly notice lightning flashing, the five elements flowing in reverse, Fiendgods roaring furiously, the blood of gods raining down, and various other extremely shocking phenomena. It was sufficient to cause the hearts of all living beings to tremble.

This was a battle of the gods!

The might of the gods had already exceeded a certain domain, and it had attained a supreme height!

This was merely a battle between a group of World Enlightened True Gods, and if it was existences of a higher realm like Domain Enlightened Spirit Gods or Universe Enlightened Ancestral Gods that were in battle, then the might they revealed would probably be even more terrifying.

Swoosh!

Chen Xi held the Talisman Armament in hand as he charged into the enemy ranks.

His expression was calm while his gaze was murderous, and every single move he made emanated a myriad of talismans. On the other hand, the Talisman Armament in his hand even emanated numerous mysterious divine talisman diagrams that crushed the surroundings and threw the heavens, earth, Yin, and Yang into disorder.

When looked at from afar, he was like an emperor of the sword that commanded the Sword Daos of the universe, and he revealed a peerless demeanor of supremacy.

The battle was extremely intense.

He had an entire seven opponents, yet Chen Xi didn't feel much pressure, and it was even to the extent that it was slightly more relaxed than his battle with that Ninth Uncle from the Dayi Clan.

The only thing that was troublesome to him was the yellow clothed woman, Yu Chen. This woman's divine technique was shocking, and her cultivation was even a thread away from breaking through into the Domain Enlightened Spirit God Realm. Most importantly, she was shockingly a god that took the path of the School of Fiendgod Body Refinement!

Since the ancient times until now, the School of Fiendgod Body Refinement was reputed to be existences that could crush all qi refiners at the same cultivation realm. Even if they suffered a severe injury, so long as a single thought of theirs still existed, then they would be able to be resurrected instantaneously. So, ordinary methods were utterly unable to kill them.

Now, with the presence of the yellow clothed woman, Yu Chen, who was body refiner at the World Enlightened True God Realm, Chen Xi was unable to completely annihilate his opponents in a short period of time.

The reason was that Yu Chen seemed like an extremely solid fort that constantly blocked Chen Xi's lethal attacks in an extremely critical moment, and even though she would be heavily injured by it, she was able to recover instantaneously.

This caused Chen Xi's brows to knit together tightly. He was very clearly aware that if he didn't change his strategy, then he would definitely be exhausted to death by them.

Most importantly, they possessed Divine Crystals to replenish their strengths, whereas, he didn't. It was even to the extent that he'd only recovered 70% of his cultivation now, and this predetermined that if he was unable to kill them in a short period of time, then the situation would only become more and more disadvantageous to Chen Xi!

.....

Swoosh!

After a short moment, Chen Xi's Talisman Armament spun, causing a wisp of sword qi to soar into the sky. It blasted apart layer upon layer of obstruction in one go before heading towards a black clothed man.

However, right at this critical moment, Yu Chen appeared once more, and her crystalline and jade-like fist seemed like a hammer as it fiercely smashed onto that wisp of sword qi.

Bang!

The sword qi collapsed into pieces, whereas, her entire right arm was torn into pieces by that wisp of sword qi. However, in next to no time, her arm had recovered once more and was completely whole.

How annoying! Chen Xi's expression was gloomy while killing intent shot out from his eyes.

"It's utterly impossible for you to win while I'm here. Give up on resisting." The yellow clothed woman, Yu Chen, spoke indifferently. Her beautiful hair flowed down like a waterfall, and she had an extremely beautiful appearance. Moreover, every single move she made revealed a bearing of indifference and supremacy.

At this point in the battle, Chen Xi had repeatedly been unable to kill them. It had already allowed the wisp of terror in their hearts to vanish, and it was replaced by excitement and killing intent instead.

The others laughed coldly as well.

If they were unable to capture Chen Xi and hand him over to the Third Young Master of the Dayi Clan, Yi Tian, this time, then they would be able to obtain extremely great benefits from it. So, in their eyes, Chen Xi had become an extremely plump prey that all of them desired to take a bite from.

Chen Xi grunted coldly as he attacked once more with sword in hand.

"Bastard! It's no use even if you struggle. Quickly allow yourself to be captured!" A silver robed man roared loudly. He seized this opportunity to stab the golden spear in his hand at Chen Xi. The tip of the spear was coiled by terrifying Divine Dao laws, and it even pierced through space.

At practically the exact same moment, Yu Chen's figure flashed and followed by the side of the man like a shadow, and she seemed as if she would help him block an attack once the situation turned bad.

Swish!

However, right at this moment, a wisp of a ridiculing arc suddenly suffused the corners of Chen Xi's mouth, and he stretched out his hand and grabbed. A large net that was chilly and illusory like starlight suddenly appeared out of thin air, and it enveloped down towards Yu Chen.

"Hmm?" Yu Chen's eyes focused while she suddenly executed a Supreme Divine Ability. Her fists opened up like a scissor and swept fiercely towards the large net.

However, to her astonishment, the large net actually didn't move at all, and she didn't just fail to blast it back, it had even enveloped and restrained her entire body instead!

At practically the exact same time he utilized the Overarching Heaven Net, Chen Xi slashed out with his sword as he moved to greet the silver robed man that tore through the sky towards him.

This wisp of sword qi was extremely strange. It appeared abruptly, and then it vanished in an instant. It caused the heart of the silver robed man to tremble because he was actually unable to lock onto this wisp of sword qi.

"Shit!" The silver robed man's heart shook while the hairs on his entire body stood on end, and his soul almost left his body. He sensed a strand of lethal danger suffusing his heart.

"Help... me...." He roared with terror. But right after that, a muffled bang resounded as a wisp of sword qi flashed past his throat. It severed his head and caused his roar to stop abruptly.

Swish!

The blood of a god sprayed while the severed head shot into the sky, and a headless corpse crashed down from the sky.

A World Enlightened True God had perished just like that!

“Dammit!”

“How could this be possible?”

“What sort of sword technique is that?”

The others were terrified, furious, and extremely astounded. All of this had occurred too quickly, and it caused them to be utterly unable to assist the silver robed man in time.

Swish!

After he killed the silver robed man, Chen Xi didn’t stop at all, and he seized this opportunity to charge towards the others.

Presently, Yu Chen was still restrained by the Overarching Heaven Net, and she was struggling violently. So, Chen Xi didn’t just have to control the Overarching Heaven Net, he had to do it while killing his other enemies, and this was an extremely great consumption towards her strength.

If his foundation in the Divine Dao wasn’t extremely deep and far from something others at the same cultivation realm could compare to, merely 70% of his cultivation would be utterly unable to accomplish this.

Swoosh! Swoosh! Swoosh! Swoosh!

Chen Xi seized this opportunity to execute over a thousand strands of sword qi in an instant. Every single strand of sword qi was extremely strange and ruthless, and they arrived abruptly before vanishing in an instant, causing other to be unable to lock onto them.

Vorpal Strike!

The third supreme sword move that Chen Xi had grasped after stepping foot into the Sword Emperor Realm!

During the battle with Ninth Uncle on that day, Chen Xi had relied on this move to destroy Ninth Uncle’s mental line of defense, and it forced Ninth Uncle to have no choice but to fight Chen Xi desperately by utilizing his Divine Dao Altar.

Yet now, for the sake of annihilating all the others in a short period of time, Chen Xi couldn’t be bothered about anything else, and he took the risk of exhausting his Divine Energy and executed over a thousand Vorpal Strikes in one go.

In an instant, sword howls surged like tidewater through this expanse of the heavens and the earth. It was sharp, ear piercing, and terrified the soul, yet no one present in the surroundings could lock onto those strands of sword qi.

They'd clearly seen the traces of those strands of sword qi in their fields of vision, but the sword qi vanished in an instant, and even their vital energy was unable to sense the existence of those strands of sword qi!

This was like seeing a ghost, and it extremely strange!

"Dammit! Exactly what sort of sword technique is this?!" Someone was unable to endure the pressure from this sort of lethal danger, and he cried out in a shrill voice. But right after that, his entire body was simultaneously struck by around 8 strands of sword qi, causing a wave of muffled bangs to resound, and then his entire body was slashed into over 10 pieces. A rain of blood poured down, and the scene of his death was extremely horrifying.

"Flee! Quickly!" When Yu Chen who was trapped within the Overarching Heaven Net saw this, she gritted her teeth and warned in a grim voice.

The others seemed as if they'd awakened from a dream when they heard this, and they intended to flee in a hurry.

Unfortunately, it was still a step too late. Chen Xi had attacked too swiftly, and their reactions speeds were slightly slower. The outcome of this was....

Numerous strands of sword qi appeared out of thin air, and the sword qi appeared in their surroundings before suddenly slashing down!

Pu!

One of them had his head severed, and his soul was obliterated.

Pu!

Another's throat was penetrated, and he perished from a single strike.

Pu!

Another was slashed into two at the waist, and he let out shrill and miserable cries for a long time before breathing his last breath.

All of this had practically occurred at the exact same time, and those World Enlightened True Gods were practically slaughtered by those strands of sword qi at the same time.

Such a scene was strange, bloody, domineering, vicious.... It was a matchless form of visual impact to others.

In merely an instant, besides Yu Chen, all the other World Enlightened True Gods had actually perished beneath this strike!

[Talisman Emperor](#)

Chapter 1553: Shocking Battle

With a single strike, he'd slaughtered all the gods with his sword!

Everyone was shocked.

The blood of gods rained down from the sky along with severed limbs, and their shrill cries before death still reverberated through the air. The scene was beautiful yet horrifying, and it shook the hearts and souls of everyone.

Tie Kun and the other villagers had stunned expressions, and their eyes were opened wide while they still felt disbelief.

Five days ago, Chen Xi was still heavily injured and weak, and he was in an extremely bad state. But in this short period of five days, he seemed as if he'd become a completely different person, and he possessed peerless divine might and seemed like an overlord emperor of the sword. First, he slaughtered three gods with single strike and shocked everyone in the surroundings, and now, he'd crushed and slaughtered six World Enlightened True Gods with a single strike!

Who would have dared to imagine that he actually possessed such a heaven defying combat strength?

If these people knew that Chen Xi had only recovered 70% of his cultivation now, then their jaws would probably hit the ground from shock.

.....

Chen Xi heaved a sigh of relief as well when he annihilated six World Enlightened True Gods with a single strike.

This strike seemed to have been completed with ease, yet he'd actually utilized his strongest ability. First, he utilized the Overarching Heaven Net to restrain the yellow clothed woman, Yu Chen, then he executed over a thousand Vorpals Strikes at once, and it instantly exhausted a great deal of his Divine Energy. Only in this way was he able to achieve such shocking results.

Fortunately, the Divine Energy remaining within my body is sufficient to sustain me until I kill this woman! In the next moment, Chen Xi shot his gaze towards the yellow clothed woman in the distance, Yu Chen.

Bang!

Right at this moment, Yu Chen suddenly executed a Supreme Divine Ability, Myriad Transformation! Her figure shook before it transformed into a silver Fenix, and her entire body flowed with the glow of lightning as she suddenly knocked the Overarching Heaven Net and escaped.

Swoosh!

In the next moment, her figure flashed and recovered its original appearance. Her black brows raised slightly while two beautiful bolts of lightning flash out from her eyes, and her aura had instantly become much stronger.

"I admit that I underestimated you earlier. The strength you possess isn't inferior to any top-rate World Enlightened True God in the 3,000 universes of Snow Ink Region." Yu Chen spoke yet wasn't impatient to attack. Her long hair fluttered while her graceful and slender figure swayed, and her beautiful face was covered in a cold and indifferent expression. "However, you're still unable to harm me with your current ability."

Chen Xi said coldly, "Haha! I really wish to know what gave you the confidence to say that."

As he spoke, he tried his best to recover the Divine Energy within his body. Unfortunately, the efficiency of the Dark Parasol Sapling was far inferior to Divine Crystals, and it was extremely difficult for it to provide any apparent effects in a short period of time.

This caused Chen Xi to have a deeper understanding of the value of Divine Crystals. Within the Last Days Domain where Divine Energy was scarce, it was simply impossible to do anything without Divine Crystals.

"I can't be said to be confident, and I'm just describing a fact." Yu Chen combed the hair by her ear as she suddenly said, "Actually, if you're unwilling to become Third Young Master's Godslave, then I can give you a second choice."

Chen Xi's expression remained unchanged.

"How about you join my Yu Clan?" Yu Chen spoke in a straightforward manner.

"What would you do if my strength was weak?" asked Chen Xi.

"You'd have probably died a long time ago." Yu Chen didn't hold back at all, and she said frankly, "Only those that possess sufficient strength would receive the recognition of others, right?"

Chen Xi started laughing as he said, "So, in this way, I should thank you for thinking highly of me?"

Yu Chen frowned and was slightly displeased by Chen Xi's attitude as she said, "This is an extraordinarily great fortune. I've already displayed sufficient sincerity to you, and if it was any other person, that person would be utterly unable to arouse my interest."

Her tone seemed to carry a superior attitude.

Chen Xi seemed to be lost in thought as he said, "Are all the existences in your Ancient God Domain like you, and they take all the people from the lower dimensions as people that they can do as they please to?"

Yu Chen frowned once more. She'd already realized Chen Xi's attitude towards the matter, and she said, "Looks like you intend to fight stubbornly until the end?"

Chen Xi said indifferently, "I'll strive for the things I want on my own."

"Very good!" Yu Chen's gaze turned cold as she suddenly made a move. She charged over like a wisp of flowing light, and her figure left behind an afterimage on the spot. She was inconceivably swift.

World Steps!

This was a type of Supreme Divine Ability that was even more formidable than ordinary teleportation. It was said that as one moved, the world changed, and everything was but a step away.

In an instant, she'd arrived before Chen Xi, and her pure white and crystalline finger swept towards Chen Xi's face like a sharp blade.

Swoosh!

A divine glow flashed as Chen Xi's figure moved to the side. He executed the Roc Divine Technique, causing space to be repeatedly crushed apart, and it wasn't inferior to the 'World Steps' technique at all.

Crack!

Yu Chen's movement was extremely swift. Her clothes fluttered while she moved like a ghost, and her hand descended and slashed the heavens and the earth into pieces in a swift, ferocious, and ruthless manner.

Her figure flashed after she missed, and her slender right leg swept out like a whip.

Swish!

Space was thrown into disorder as it whipped fiercely towards Chen Xi who was in the distance.

This was how experts in the School of Fiendgod Body Refinement fought. They possessed peerless bodies that were hard like Divine Artifacts, and every single inch of their bodies was capable of erupting with extremely terrifying destructive force.

Chen Xi's brows raised. He'd once cultivated in the School of Fiendgod Body Refinement, and this sort of combat technique was extremely familiar to him. He knew that it was extremely difficult to deal with, and it was practically without any weak points.

However, this didn't mean that he would be fearful.

Chen Xi stopped dodging. The Talisman Armament flashed through the sky as an otherworldly sword light shot out.

Bang!

This time, both of them had collided head-on, and it caused dazzling light to erupt from the collision.

Chen Xi's sword qi collided with her leg, and they respectively emanated divine light. After that, the divine light was obliterated, and this expanse of the heavens and the earth was thrown into chaos.

Swoosh!

Yu Chen's figure flashed swiftly and gracefully. Her right leg had been injured by that strand of sword qi, causing fresh blood to flow from it. However, it recovered to its original state right after that, and then she revealed a strand of a fierce and formidable imposing aura.

When looked at from afar, if her figure wasn't slender and graceful, then one would truly wonder if she was an extremely beautiful primeval ferocious beast.

"Look, you've utterly unable to harm me." Yu Chen puckered her scarlet red lips, and her eyes glowed brilliantly as if she'd found the best prey here.

"Hmph!" Chen Xi grunted coldly before attacking once more with sword in hand. In an instant, he executed numerous supreme sword techniques that tore the world apart, destroyed the five elements, and were murderous and ferocious to the limit.

Yu Chen's eyes narrowed, and she didn't dare be careless. Her figure charged as she instantly formed a myriad of seals with her hands. Numerous afterimages moved about while rumbling resounded, and she was like an enraged Primeval Fiendgod that was filled with a terrifying imposing aura.

Bang! Bang! Bang!

In merely an instant, the two of them had collided over a thousand times. One executed the Sword Dao that was peerless and the most destructive within the School of Qi Refinement while the other executed Supreme Divine Abilities of the School of Fiendgod Body Refinement that was said to be capable of crushing all qi refiners at the same cultivation realm. The vie for supremacy between them was simply equally matched, and their imposing auras shook the heavens and the earth, caused the heavens and the earth to dim down, and even the sun and moon were on the verge of falling from the sky.

Bang!

Another collision occurred, and then the two of them were simultaneously blasted flying.

Yu Chen had obviously been injured by Chen Xi's sword qi, and her entire body was covered in horrifying injuries that flowed with the blood of a god. But in merely an instant, she'd recovered to her previous state.

Swoosh!

She immediately charged once more towards Chen Xi. Her way of fighting seemed to have become even more fierce and formidable, and it absolutely didn't conform to her beautiful and indifferent outer appearance.

"Let me see exactly how long you can persist for!" Chen Xi wasn't moved by this, and he held the Talisman Armament in his hand as he once again collided head-on with her.

He was very clearly aware that he was utterly unable to annihilate every single thought she possessed by merely relying on his current cultivation, and this meant that he was at least absolutely unable to kill her now.

However, even though she could rely on her peerlessly formidable cultivation in body refinement to recover without end, every single recovery would definitely exhaust a certain amount of her spirit, energy, and essence. As the amount of times she recovered accumulated, she would definitely be unable to endure it.

On the other hand, Chen Xi was precisely waiting for the moment that she was exhausted!

Bang!

Chen Xi stopped thinking about this and concentrated on the battle, and he resolutely executed his Sword Dao. The Sword Dao he revealed transformed this entire expanse of the heavens and the earth into a chaotic world of swords.

Needless to say, Yu Chen was utterly no match for Chen Xi in terms of combat experience and combat expertise. If it wasn't for her cultivation in body refinement, she would have probably already been killed countless times since the beginning.

Pu!

After a short moment, Yu Chen was struck by a strand of sword qi again, and it severed her neck. Even though she recovered in an instant, her countenance had already become even more solemn.

She'd realized that her combat strength was utterly unable to harm Chen Xi.

Bang!

After another head-on collision, Yu Chen's entire body was blasted into pieces by Chen Xi's sword qi, and it transformed into expanse after expanse of blood, flesh, and severed parts. After that, a buzz resounded before she stood up once more.

On the other hand, her expression was already extremely heavy.

He's too formidable! She'd never imagined that someone was from the lower dimensions and was only at the World Enlightened True God Realm would be able to master such a heaven defying and terrifying Sword Dao. Especially Chen Xi's combat strength, it caused her to feel slightly terrified.

Yu Chen wasn't aware that some time ago, Ninth Uncle who was a Domain Enlightened Spirit God had felt such terror in his heart as well, and he felt disbelief just like she did.

.....

"My god! Isn't that woman's cultivation in body refinement too formidable? She has already been defeated that many times, yet she's actually still able to continue fighting."

"This is why the School of Fiendgod Body Refinement is formidable. So long as a strand of one's thoughts still exist, then one can recover in an instant."

"Exactly. I'd once seen a Natural Fiendgod that was born from within the Chaos, and a single drop of his blood was already capable of creating a magnificent large world!"

"If this battle continues on like this, then it'll probably be bad for that kid."

Tie Kun and all the villages witnessed this world shocking battle from extremely far away, and all of their expressions were heavy while their hearts surged without end. Moreover, some of them even felt faintly worried for Chen Xi.

Bang!

An enormous wave of air erupted, and it warped space and rumbled without end.

Chen Xi and Yu Chen split apart once more on the battlefield.

"You intend to wait until I'm exhausted? Stop dreaming, the Dayi Clan's Third Young Master will hear of this and arrive before then. At that time, it'll be impossible for you to survive." Yu Chen spoke with a ghastly pale countenance, and she was gasping for breath. However, her eyes were still filled with a confident and arrogant expression.

Chen Xi puckered his lips while the murderous aura in his eyes grew even more oppressive. He suddenly raised his hand and utilized the Overarching Heaven Net again, and it enveloped down towards her.

“This again? Have you exhausted your bag of tricks?” Yu Chen sneered. After the lesson she’d learnt from before, she didn’t try to go head-on against the Overarching Heaven Net at all, and she chose to dodge.

Om! Om! Om!

However, right at the instant she dodged, Chen Xi made a move again. Three golden and bright copper coins suddenly tore through space like three long rays of light that could penetrate the sun, and they pressed down towards her.

The Natural Spirit Treasure, Copper Coin of Treasurefall!

These three copper coins formed the shape of the ‘品’ character, and with a single revolution, they instantly suppressed Yu Chen from above her head and at the side of her legs. Shockingly, they’d formed a Tri-Factor Formation.

At this instant, Yu Chen’s expression finally changed, and a wisp of panic and terror surged out from her eyes.

[Talisman Emperor](#)

Chapter 1554: Spoils Of The Battle

The Copper Coin of Treasurefall.

This treasure was round on the outside and square at the center. Its surface was branded with the obscure markings of chaos, and the three copper coins respectively revealed the phenomenon of ‘Heaven’, ‘Earth’, and ‘Man’. They were pure, heavy, and extremely profound.

A long time ago during the primeval times, the Sovereign Sect’s Master had relief on this treasure to seize countless treasure from the hands of all the great figures of that time, and its monstrous divine might was said to be capable of causing all Artificial Spirit Treasures to fall.

On the other hand, amongst the 108 Natural Spirit Treasures that were known of in the three dimensions, the Copper Coin of Treasurefall’s might was even ranked at the 24th position. Merely based on this ranking alone, it was obvious how extraordinary this treasure was.

Yet now, after Chen Xi utilized the Overarching Heaven Net, he’d suddenly utilized the Copper Coin of Treasurefall to suppress Yu Chen’s body in one go, and it worked like a charm.

Bang! Bang! Bang!

The three copper coins seemed to be tiny, yet every single one of them actually possessed the might to crush the world. As soon as they revealed their might, they were like three golden divine mountains that fiercely pressed down and trapped Yu Chen from above her head and beneath her legs. Moreover, it even pressed down upon the surrounding space to the point it exploded inch by inch and emanated rumbling that sounded like thunder.

“The Copper Coin of Treasurefall! Doesn’t it belong to the Sovereign Sect? How could it have fallen into your hands?” Yu Chen recognized this Divine Artifact, and she let out an extremely shocked and furious shrill cry while seeming to be in disbelief.

As she spoke, she struggled with all her might, and the vital blood in her entire body glowed like the scorching sun in the sky while her cultivation in body refinement was circulated to the limit. She was trying to charge through these restrains and escape.

Unfortunately, this was a Natural Spirit Treasure renowned in the three dimensions, and it was passed down from the primeval times. Its might was so formidable that it wasn't just capable of causing all Artificial Spirit Treasures to fall before it, it could even exert an extremely terrifying suppressive force when utilized against one's enemies.

Pu!

Yu Chen coughed up a mouthful of blood while the divine radiance emanated from her entire body trembled, and she was like a sun that was on the verge of being smashed apart.

She struggled with all her might and executed numerous Supreme Divine Abilities, yet she was utterly helpless against the Copper Coin of Treasurefall. Conversely, she was squashed to the point her figure shrunk without end, and the space left for her to struggle was shrinking inch by inch.

"Could it be that... you're a disciple of the Sovereign Sect?" Yu Chen's face was pale while she let out a sharp howl and revealed an expression of terror. It was like the wails of a trapped beast that was on the verge of death.

"The Copper Coin of Treasurefall, the Sovereign Sect.... Could it be that his true identity is.... Wait, if he's a member of the Sovereign Sect, then how could he have possibly been reduced to such a state in the Last Days Domain?" When he saw Chen Xi utilize the Copper Coin Of Treasurefall to suppress Yu Chen to the point of being on the verge of defeat, Tie Kun's expression changed slightly. There was shock, yet there was even more bewilderment on his face.

He'd similarly recognized the Copper Coin of Treasurefall, and it belonged to the Sovereign Sect's Master. However, he was utterly unable to figure out how this supreme Divine Artifact had fallen into Chen Xi's hands.

Chen Xi remained silent towards all of this, and he concentrated on controlling the Copper Coin of Treasurefall and utilized all his strength to suppress Yu Chen.

The commotion caused by this battle was too resounding, and he had to make the best use of his time and crush her. Otherwise, once the Dayi Clan's Third Young Master's group rushed over in time, then the consequences would be unimaginable.

Bang! Bang! Bang!

The Copper Coin of Treasurefall erupted with blazing golden light as it crushed down without end, and numerous obscure markings of chaos floated up into appearance on its surface while emanated an extremely terrifying aura.

Under such circumstances, Yu Chen didn't even have the time to speak, and she was crushed to the point of howling repeatedly. Her long hair hung loosely above her shoulders while strands of blood oozed out from her entire body, and every single inch of bones in her body emanated cracking sounds. She was on the verge of being unable to persist any longer.

“How terrifying!”

“This kid’s origins are probably extraordinary. He’s actually able to possess the Copper Coin of Treasurefall! It’s simply unbelievable.”

“It isn’t just the Copper Coin of Treasurefall, the might of that large net he utilized earlier isn’t inferior to the Copper Coin of Treasurefall at all, and it might even surpass it. Obviously, it’s an extremely rare Natural Spirit Treasure as well. Just think about it, which World Enlightened True God in the lower dimensions were able to possess two supreme Divine Artifacts like him?”

“Now that you say that, this kid’s origins really seem to be extremely mysterious.”

“I think I’ve heard of that large net. It seems to belong to Oracle Mountain’s Master, Fuxi, and it’s called the Overarching Heaven Net. It’s said to be capable of capturing the trace of the Heaven Dao and the Karmic Luck of all things. However, I don’t dare to confirm this suspicion. After all, this treasure is even superior to the Copper Coin of Treasurefall.”

“The Overarching Heaven Net? My god! One if from Oracle Mountain, and the other is from the Sovereign Sect. If he’s a disciple of any one of these two divine sects, then how could he have been pursued by the members of the Dayi Clan in the Last Days Domain?”

“Strange, truly strange.”

Even though those villagers had lost their combat strengths since a long time ago, they were all-powerful gods that commanded great authority in the lower dimensions all those years ago. They still possessed their ability to discern and experience, so they were naturally able to various strange and mysterious aspects of Chen Xxi.

This caused them to feel surprised, shocked, and confused, and Chen Xi’s image in their hearts seemed to be even more mysterious.

Rumble!

Right when all of them were shocked, a world shaking rumble suddenly resounded from the distant battlefield. Dazzling golden light blotted out the sky, and it dyed 50,000km in the surroundings in a brilliant gold hue.

On the other hand, Yu Chen’s extremely disgruntled and miserable shrill cry sounded out from amidst this rumble.

After that, a bang resounded as her entire figure was smashed into pieces. It transformed into countless pieces of flesh and blood. However, to their shock, these people of flesh and blood seemed as if they were alive, and they transformed into numerous blood red arrows that suddenly shot explosively towards all directions.

Even if Chen Xi had taken precautions since the beginning, he was still merely able to destroy most of these pieces of flesh and blood in the end, and a few of them had escaped.

This was something that couldn’t be helped. Cultivators in the School of Fiendgod Body Refinement were too formidable, and they were able to resurrect themselves so long as a single thought of theirs

remained. Unless one's cultivation far exceeded the cultivation of a body refiner or utilized some sort of formidable secret treasure, it was practically impossible to kill a body refiner.

Unfortunately, the Divine Energy within my body was exhausted by too much, otherwise, she would have definitely been unable to escape.... Chen Xi looked at the direction she fled in, and he took a deep breath before he stopped thinking about it.

Experiencing this battle caused him to exhaust too much of his strength, and his strength that was originally recovered by 70% was one more on the verge of drying up. If he was in the three dimensions, he would be able to rely on the Dark Parasol Sapling's might, and he wouldn't need to worry about this at all.

But he was at the Last Days Domain now, and the Divine Energy here was scarce to the point of practically being nonexistent. It caused Chen Xi to have no choice but to face the problem of consuming and replenishing his Divine Energy.

Chen Xi didn't hesitate to start cleaning up the battlefield.

He'd successively annihilated nine World Enlightened True Gods in this battle and heavily injured Yu Chen, and it was the time to gather the spoils now.

Chen Xi gathered them with extreme care. The Divine Artifacts that he'd slashed into pieces during the battle and even all the treasures in the possession of those World Enlightened True Gods had all been gathered by him.

This couldn't be helped because he'd only brought along the Overarching Heaven Net, Copper Coin of Treasurefall, the Talisman Armament, the Dao Calamity Sword, the Netherworld Register, and the Condemn Evil Brush when he came to the Last Days Domain.

Besides that, he didn't bring anything else along.

In other words, he seemed to be extremely wealthy, yet he was actually extraordinarily poor, and he urgently required some treasures to replenish his strength, like Divine Crystals.

So little? After a short while, Chen Xi finished cleaning up the battlefield, and he couldn't help but be slightly stunned as he gazed at the Divine Crystals he'd gathered.

The Divine Crystals in the possessed of nine World Enlightened True Gods merely totaled up to 87 Divine Crystals. It wasn't even a hundred. Such a small amount caused Chen Xi to be unable to help but be slightly surprised.

This allowed Chen Xi to have a deeper understanding of how valuable and precious Divine Crystals were. At the very least, it was like that in the Last Days Domain.

Besides that, there were a few divine treasures and shattered Artificial Spirit Treasures amongst the spoils. There were merely three completely intact Divine Artifacts, and all of them were extremely ordinary Artificial Spirit Treasures. The three of them together couldn't even compare to a tenth of the Talisman Armament's value.

I can keep these things, and it couldn't be any better if I'm able to exchange them into Divine Crystals in the future. Chen Xi pondered deeply for a moment, and then he put all the spoils away.

He was very clearly aware that even if he left the Last Days Domain and arrived at the Ancient God Domain, Divine Crystals would be a necessity like money. It would absolutely be difficult for him to do anything without them.

.....

After the curtains to the battle were drawn, it wasn't long before all the villagers returned to the village under Tie Kun's orders.

"Without my orders, no one is allowed to leave the village arbitrarily!" Tie Kun gave an order with a stern expression because the battle that erupted earlier caused him to sense a feeling of severe danger.

Those villagers were clearly aware of this as well because once other experts came over here, then it would absolutely be an unimaginable disaster to them.

After he did all of this, Tie Kun left hastily to look for Chen Xi.

"I'm sorry, I caused trouble for you." As he looked at Tie Kun that had come over, Chen Xi spoke apologetically as he utilized a few Divine Crystals to replenish his exhausted Divine Energy.

"This was always something that was predetermined. It isn't your fault." Tie Kun waved his hand. "You don't have to worry about us. I'm from the Ancient God Domain's Violethell Divine Sect, and this medicinal field belongs to the Violethell Divine Sect. Now that we've encountered such trouble, I've already sent a request for assistance from the sect, and the experts of the sect will rush over in less than a day."

Violethell Divine Sect? Chen Xi was stunned, and he seemed to be lost in thought as he said, "Don't worry Fellow Daoist Tie Kun, I'll leave in a while so as to avoid causing trouble for everyone."

Tie Kun said, "Thanks."

He was indeed unable to allow Chen Xi to continue staying here. Even if Chen Xi had relied on his own strength to deal with that monstrous disaster, when he thought of the powers that those dead World Enlightened True Gods represented, his heart felt heavy, and he felt the matter was extremely difficult to deal with.

Amongst these powers were the Third Young Master of the Dayi Clan, the disciples of the Ancient Divine Clan, the Yu Clan, and some experts of the sects within the 3,000 universes within Snow Ink Region.... Their joint forces were utterly not something that Tie Kun could go against.

Chen Xi was vaguely able to guess all of this, and he couldn't help but feel slightly apologetic in his heart. He was very clearly aware that the reason Tie Kun had taken him in was out of consideration for that 'Goddess'.

However, in the end, while Tie Kun had helped him greatly, a great deal of disasters had come along because of him, and Chen Xi couldn't help but be slightly apologetic because of this.

Chen Xi thought for a moment, and then he intended to give those three Artificial Spirit Treasures he gathered from the battlefield to Tie Kun, yet it was refused by Tie Kun.

“I have no use of it, and I don’t dare to utilize it at all.” When he spoke up to here, a wisp of hesitation suddenly surged onto Tie Kun’s face, and he hesitated for a long time before he said, “Chen Xi, if you’re able to enter the Ancient God Domain, then can you help me do something?”

Chen Xi was stunned when he heard this. “Fellow Daoist, feel free to speak your mind. If I’m able to accomplish it, then I definitely won’t refuse.”

Tie Kun was instantly delighted when he heard this, and he said, “It’s just a small matter, and you can accomplish it with ease.”

Chen Xi nodded, and then he laughed bitterly. “The crux is that I still don’t dare say with confidence that I’ll definitely be able to enter the Ancient God Domain. Moreover, I know absolutely nothing at all about it, so please don’t have too high hopes.”

“That’s very simple. I’ll tell you about everything I know of the Ancient God Domain.” Tie Kun spoke with a smile on his face.

Chen Xi’s heart shook because he’d been waiting for Tie Kun to say this since a very long time ago!

[Talisman Emperor](#)

Chapter 1555: Secrets Of The Ancient God Domain

Chen Xi already possessed a rough understanding of the situation in the Last Days Domain, yet his knowledge of the Ancient God Domain was still extremely shallow. Up until now, he was still unable to determine exactly what sort of existence it was.

“There are over 1,000 known regions in the Ancient God Domain. Every single one of these regions at least contains 3,000 universes, and the largest contains 8,000 universes.” Tie Kun pondered deeply for a moment before he started describing everything about the Ancient God Domain.

According to Tie Kun, the Ancient God Domain was formed from over 1,000 different regions and a myriad of universes. It was boundlessly vast, and it could be said to be without end.

Unlike the numerous planes in the three dimensions, only experts at the Godrank Realm could gain a foothold in the Ancient God Domain and roam freely through it.

The world there was filled with the energy of Divine Dao Order that was beyond imagination, and it was suffused with Divine Energy of various different attributes. It was completely different to the three dimensions.

It was called an eternal kingdom that had existed for innumerable years and was said to be eternal. Unless it encountered the great calamity of ‘Chaos Era Renewal’, otherwise, it would absolutely not be obliterated and vanish.

It was common knowledge that the three dimensions had appeared after being born from the Chaos, and the Ancient God Domain was similarly born from the Chaos. However, it was not the same Chaos at all.

But no matter which Chaos it was, it possessed its own renewal of eras.

Every single time a new era began, it represented the process of an expanse of space going from birth to its end, and then from its end to new life.

For example, when the Chaos first split open in the three dimensions, it transformed into the Primordial World, and then the Immortal Dimension, Mortal Dimension, and Netherworld were created. This was a process of going from birth to end, and then to new life.

Something worthy of mentioning was that every single time the renewal of an era occurred, it represented a type of 'world destroying calamity', and it wasn't something the might of man could resist, nor could Fiendgods reverse it. It was a quintessence force that came from within the Chaos and the void, and it was extremely terrifying.

However, the Ancient God Domain was unlike other dimensions. Since the day it was born until innumerable years later, there had never been a renewal of an era.

It was firm and eternal, boundless and grand, and it was suffused with the aura of the gods and enveloped by the energy of Divine Dao Order. Thus, it was called an eternal kingdom, and it was also called the kingdom of the gods.

This caused the Ancient God Domain to become the residence of all gods. In other words, only the gods could roam freely through such a supreme place.

Over 1,000 regions and a myriad of universes.... After he found out about all of this, Chen Xi was extremely shocked in his heart. He finally understood that the Ancient God Domain didn't represent a single plane, and it covered numerous regions, and every single region covered numerous universes!

"I've always been cultivating in Snow Ink Region, so I have a very limited understanding of the other regions, and I'm unable to give you a clear answer about exactly how huge the Ancient God Domain is or what's the difference between each region." Tie Kun sighed and said, "Perhaps you'll only be able to understand everything after you actually arrive there."

Chen Xi nodded and deeply agreed.

After that, Chen Xi asked some things about Snow Ink Region.

Tie Kun naturally told Chen Xi everything he knew.

It turned out that Snow Ink Region could be considered to be rather renowned in the entire Ancient God Domain, and the reason was that the only way to enter the Last Days Domain was through this region.

Similarly, end of the passageway that led from the Last Days Domain to the Ancient God Domain was at Snow Ink Region.

In the eyes of those great figures of the Ancient God Domain, the Last Days Domain was an extremely unique existence. It was linked to the numerous planes in the lower dimensions and was connected to the Ancient God Domain as well, and it played a key role in forming a link between these places.

Moreover, the environment within the Last Days Domain was extremely unique. Its Heaven Dao Laws were able to silently strip an expert at the Godrank Realm of the Divine Dao Laws and various techniques they possessed. It could be said to be utterly unique. It was even impossible to find a place like the Last Days Domain within the Ancient God Domain.

It was precisely because of this that the great figures of the Ancient God Domain had taken the Last Days Domain to be a superb medicinal garden, a hunting ground that they could play in at will.

Moreover, the Divine Daofuse Herb could only be planted within the Last Days Domain, and this was the true value of the Last Days Domain in the eyes of those great figures!

“So, in this way, all the medicinal fields scattered around the Last Days Domain have been distributed amongst those powers in the Ancient God Domain?” Chen Xi’s brows raised as he asked this question.

“Yes.” Tie Kun nodded. “For example, those experts at the Godrank Realm you fought earlier were from various different powers in Snow Ink Region.”

“So, in this way, the passageway between the Last Days Domain and Snow Ink Region isn’t as difficult to locate as the rumors said?” Chen Xi continued.

This was his main concern because he suddenly noticed that since experts from the Snow Ink Region like Tie Kun were able to arrive at the Last Days Domain, then they should be clearly aware of the passageway that led from the Last Days Domain to Snow Ink Region.

“The passageway does exist indeed. But not just anyone can enter it,” said Tie Kun. After that, he told Chen Xi of the reason for this.

“The Sovereign Sect?” Chen Xi’s face instantly sank when he finished listening to Tie Kun.

According to Tie Kun, that passageway leading to the Ancient God Domain had always been in the control of the Sovereign Sect, and the Sovereign Sect had placed numerous experts at the Godrank Realm on guard there. The weakest amongst them was at the World Enlightened True God Realm while there was no lack of Domain Enlightened Spirit Gods, and there was even a Universe Enlightened Ancestral God patrolling the area all year round.

It wasn’t just that, if one desired to pass through the passageway, then one had to pay a huge amount of wealth to the Sovereign Sect and pass through numerous tests prepared by the Sovereign Sect. Once one was found to be hiding experts at the Godrank from the lower dimensions, then one would absolutely be executed on the spot.

In other words, this passageway controlled by the Sovereign Sect prohibited the experts at the Godrank Realm from the lower dimensions from entering it!

“Are the forces of the Sovereign Sect within the Ancient God Domain extremely formidable?” Chen Xi couldn’t help but ask this question.

Because they were actually able to take control of a passageway in the Last Days Domain and collect a ‘toll’ from those powers in the Ancient God Domain, and this obviously displayed that the influence of the Sovereign Sect within the Ancient God Domain was probably not weak.

These words Chen Xi spoke allowed Tie Kun to instantly determine that even though Chen Xi possessed the Copper Coin of Treasurefall, Chen Xi was definitely not a disciple of the Sovereign Sect.

After all, how could a disciple of a sect be unaware of their own sect’s forces?

“Very formidable, extremely formidable.” Tie Kun had a solemn expression as he said, “According to my knowledge, the Sovereign Sect isn’t located within Snow Ink Region’s 3,000 universes at all. But it has always been in control of this passageway, and even the few strongest top-rate powers in Snow Ink Region don’t dare to complain about it. Thus, this obviously shows how terrifying the Sovereign Sect is.”

“It isn’t located in Snow Ink Region, yet it controls a passageway between the Last Days Domain and Snow Ink Region....” Chen Xi’s eyes narrowed. Never had he expected that the forces of the Sovereign Sect had actually penetrate so deep into the Ancient God Domain, and it was even able to possess such monstrous might in the Ancient God Domain. This had truly exceeded Chen Xi’s expectations.

“You... have enmity with the Sovereign Sect?” Tie Kun noticed Chen Xi’s expression changing indeterminately, and he couldn’t help but ask this question.

“Exactly.” Chen Xi spoke casually.

Tie Kun’s heart shook, and he gasped. He’d similarly never imagined that Chen Xi would actually offend the Sovereign Sect, and for a time, he was at a loss for what to say.

“Even if I have enmity with the Sovereign Sect, they still wouldn’t allow a fellow from the lower dimensions like me to pass through that passageway.” Chen Xi glanced at Tie Kun and spoke with a smile on his face.

Tie Kun nodded. “That’s true as well.”

“However, even if they refuse to allow me to pass, it doesn’t mean that I’ll be stopped here....” Chen Xi muttered while a wisp of a firm and sharp glow flashed within his eyes.

No matter what, he intended to enter the Ancient God Domain, and if the Sovereign Sect obstructed him, then he would fight a blood battle and risk his life to enter the passageway.

Of course, if there was a better choice, then Chen Xi naturally wouldn’t choose to fight them head-on until the end. After all, according to Tie Kun, the Sovereign Sect had deployed numerous forces to stand on guard before the passageway.

“If you intend give it a try, then it’s best to do it soon. I heard that it won’t be long before that passageway will be closed, and it will at least take 10,000 years before it’s opened again.” Tie Kun suddenly reminded Chen Xi.

Chen Xi nodded. “I know.”

Early on when he came to the Last Days Domain, a trace of a premonition had appeared faintly in his heart, and he was clearly aware that Tie Kun exaggerating.

“Right, what did Fellow Daoist intend to entrust me with earlier?” asked Chen Xi.

Tie Kun hesitated for a moment and said, “If Fellow Daoist is able to arrive at Snow Ink Region, then please head to the Violethell Divine Sect in Jaderock Universe on my behalf. My only granddaughter is cultivating in Violethell Divine Sect. Her parents passed away while she was young, and her natural talent isn’t great. So, she’s only able to cultivate the simplest cultivation techniques in the Outer Court. Up until now, she still hasn’t stepped foot into the Godrank Realm.

Tie Kun paused for a moment, and then he withdrew a storage pouch and passed it over to Chen Xi. "Fellow Daoist, please pass this to her. Tell her to work hard and cultivate because diligence can make up for one's lack of natural talent and tell her not to worry about my safety. I'll be... satisfied so long as she's able to cultivate without any worries."

Chen Xi was stunned. Never had he imagined that Tie Kun would actually ask for such help from him, nor had he imagined that Tie Kun would actually trust a strange like him.

Indeed, this matter was extremely trivial, but it was related to Tie Kun's own flesh and blood, so it wasn't trivial any longer.

"Alright, I promise. If I'm able to enter Snow Ink Region, I'll definitely make a trip to Violethell Divine Sect." Chen Xi received the storage pouch and spoke in a serious manner.

Tie Kun seemed as if a heavy weight had been lifted from his shoulder, and his usually cold and indifferent face revealed a rare wisp of a relaxed expression. He said gratefully, "Thank you very much, Fellow Daoist. To tell you the truth, since I arrived at the Last Days Domain 6,000 years ago, I've never returned to the sect. It wasn't that I'm unwilling to return, but it's actually that I'm unable to pass through that passageway without the help of the sect."

As he finished speaking, a wisp of sorrow couldn't help but surge onto his face.

"But... why do you trust me like this?" Chen Xi couldn't help but ask this question.

"Because you're someone the Goddess brought over, so you're definitely not be an ordinary person." Tie Kun answered without the slightest hesitation, and his tone even carried a type of blind adoration towards that 'Goddess'.

This caused Chen Xi to have a flash of inspiration, and he seized this opportunity to ask. "Fellow Daoist, that Goddess' identity...."

Before Chen Xi could finish speaking, Tie Kun smiled bitterly and said apologetically, "I'm sorry, I truly can't reveal that. She hasn't personally made a trip to the Last Days Domain for a very long time, yet she suddenly came over this time, and even I was extremely surprised by it."

He paused for a moment, and then he still couldn't help but tell Chen Xi in the end. "Fellow Daoist, if you truly wish to know her identity, then perhaps you can make a trip to the South Sea Region. There's goodwill between you and her, and perhaps you'll be able to obtain a great fortuitous encounter from it."

Talisman Emperor

Chapter 1556: Operation To Kill

South Sea Region? Chen Xi thought for a moment, and then he shook his head in the end. He hadn't even arrived at Snow Ink Region, so how could he have the mood to pay attention to the South Sea Region.

After that, Tie Kun passed a map to Chen Xi, and the diagram of the 3,000 universes within Snow Ink Region was drawn on it. Moreover, it clearly indicated the path to head to Jadestone Universe where Violethell Divine Sect resided.

After he did all of this, Tie Kun bid his farewells and left. He gave Chen Xi time to concentrate on recovering his strength.

No matter what, I have to leave this place today.... Chen Xi took a deep breath and discarded the distracting thoughts in his mind before starting to meditate and cultivate.

Even though the battle from before had ended, his future troubles hadn't been uprooted just like that. He was very clearly aware that if the Dayi Clan's Third Young Master, Yi Tian, caught up to him at this moment, then the consequences would be unimaginable.

So, he had to leave today.

No matter where he went, it was better than staying here.

.....

Swish!

Within an ancient forest that towered into the clouds, a black divine arrow tore through space like a bolt of lightning, and it shot fiercely towards the distance.

In merely a short moment, a miserable shrill cry resounded from afar.

"Good technique. I believe it won't be long before Young Master will be able to advance into the Archer God Realm and become a true master archer of the clan! If the Ancestor hears of this, he'll definitely be extremely happy." Within the forest, Ninth Uncle clapped and praised.

All the guards by his side chimed in without end as well.

Yi Tian that wore a white robe and had a handsome appearance casually tossed the bow to an attendant by his side, and then he smiled lightly as he said, "All of you don't have to praise me, I myself am clearly aware of how far away I'm from the Archer God Realm."

Even though he spoke like this, a wisp of a proud smile suffused the corners of his mouth.

A wave of rustling sounded out as a guard rushed over while dragging a heavily injured and unconscious figure, and then he bowed and said, "Young Master, this is your prey."

"What's the point of keeping him alive if he has such inferior strength? Kill him." Yi Tian didn't even spare the figure a glance before he waved his hand and spoke.

"Yes."

Pu!

The guard slapped his palm down and directly shattered the soul within that body.

"How boring. I originally thought that since the Last Days Domain was opened and the energy of calamity swept through the lower dimensions, I would be able to capture some formidable prey. Yet who would have imagined that the strength of these prey is only getting worse." Yi Tian shook his head with slightly flagging interest, and then he suddenly thought of something and said, "Right, is there any news of that kid?"

As soon as these words were spoken, all of their expressions turned slightly gloomy. They were clearly aware that the Third Young Master, Yi Tian, was speaking about Chen Xi, that cunning and formidable young man from the lower dimensions.

Especially Ninth Uncle, his expression was extraordinarily gloomy because when he pursued Chen Xi that day, he'd almost been killed, and this matter caused him to feel extremely aggrieved in his heart since that day.

The reason was that he was utterly unable to utilize the might of the Dao of Archery that he was best at during that battle, and he could only fight Chen Xi at close quarters and had fallen into a disadvantageous position instead.

"Interesting. That kid was actually able to hide until now. I have a stronger urge to make him submit as my Godslave now." Yi Tian laughed lightly while his eyes revealed a wisp of a contemplative expression.

"But Young Master, we only have another seven days of time. If we still don't return, then you'll be unable to register yourself to participate in the Starhunt Meeting held by Empress Yu Che." Ninth Uncle was slightly hesitant and reminded.

Yi Tian was stunned, and then he waved his hand and said, "Don't we still have seven days of time. We'll make it in time."

Swoosh!

At this moment, a wave of sharp sound of air being torn apart resounded abruptly from afar. Along with this voice, a bolt of blood red lightning arrived instantaneously. It stopped in midair and swiftly transformed into the form of a woman.

She wore yellow clouds, had beautiful hair that flowed down like a waterfall, and her expression was indifferent. Shockingly, it was Yu Chen that had fled and escaped death from Chen Xi.

However, her countenance was ghastly pale and translucent at this moment while her aura was weak. Obviously, she hadn't fully recovered from the heavy injuries she received.

"Yu Chen, what happened?" Yi Tian spoke with surprise.

The others looked over successively as well, and they revealed a wisp of shock. They were clearly aware that Yu Chen was a body refiner, and her cultivation was even on the verge of stepping foot into the Domain Enlightened Spirit God Realm. Even Ninth Uncle didn't dare underestimate her.

But at this moment, she was heavily injured and seemed to be in a sorry state after fleeing for her life. So, how could they not be shocked?

"Third Young Master, I'm sorry. That prey's strength was too formidable, and the operation was a failure...." Yu Chen had a dim expression as she replied bitterly.

All the others glanced at each other. Even if they'd guessed the outcome, they still felt slight disbelief when they heard it from Yu Chen herself.

"What exactly happened?" Yi Tian frowned as he spoke.

Yu Chen took a deep breath, and she didn't dare conceal anything. She described everything that occurred during the battle.

"What? He alone was able to annihilate nine World Enlightened True Gods, and he even almost killed you?" All of them exclaimed with shock, and their expressions changed without end.

Yi Tian and Ninth Uncle exchanged glances, and they both noticed the shock in each other's eyes. However, comparatively speaking, they were quite composed.

It was even to the extent that as far as Ninth Uncle was concerned, even he'd almost been defeated by Chen Xi, let alone a group of World Enlightened True Gods. The fact that truly shocked him was instead Yu Chen's defeat.

She was a body refiner, so how could she have lost so miserably?

"There are two reasons why that kid is so difficult to deal with. Firstly, his combat strength far exceeds an ordinary World Enlightened True God, and secondly, it's because he possesses two extremely terrifying Natural Spirit Treasures." In next to no time, Yu Chen gave them the answer. "One of them is even the Sovereign Sect's Copper Coin of Treasurefall!"

"What?" At this instant, Ninth Uncle and Yi Tian were shocked as well, and they exclaimed with surprise. This obviously showed how great was the shock they suffered from the Copper Coin of Treasurefall.

"Are you sure?" Yi Tian couldn't help but ask this question.

"Absolutely. If he didn't suddenly utilize the Copper Coin of Treasurefall, I would definitely not lose so miserably." Yu Chen gritted her teeth, and her voice revealed a strand of dense anger.

"So, in this way, could it be that he's from the Sovereign Sect?" Ninth Uncle's brows knit together, and his expression was extremely heavy.

"He definitely isn't." Yi Tian didn't hesitate at all to deny it, and he said, "If he's a member of the Sovereign Sect, how could he be unaware of the rules in the Last Days Domain?"

"I suspect he isn't one as well. Firstly, it's because he hasn't grasped the Divine Energy of Calamity at all, and secondly, it's because of the other Natural Spirit Treasure in his possession," said Yu Chen.

"Oh?" The others looked at Yu Chen in succession.

"Because that Natural Spirit Treasure seems... seems to be... the Overarching Heaven Net...." Yu Chen hesitated for a long time before she spoke with uncertainty.

The Overarching Heaven Net!

All of them were shocked in their hearts.

"Now that you say that, he might really be related to Oracle Mountain. I've fought him once, and his Sword Dao contains a supreme Talisman Dao, and it's extremely similar to the inheritance of Oracle Mountain. At that time, I had my suspicions, but I didn't dare say for sure." Ninth Uncle pondered deeply at the side before he spoke.

“Strange, if that kid is related to any one of these two sects, then his origins are slightly extraordinary. But it just so happens that he arrived at the Last Days Domain all by himself, and he seemed to be utterly unaware of the rules here. It’s truly strange.” All the others were extremely bewildered when they heard this.

“Hmph! The more it’s like this, the more I look forward to capture this kid.” Suddenly, Yi Tian revealed a wisp of rare excitement. “Such a prey is a true prey! The others are all a group of sheep that are waiting to be slaughtered, and it isn’t challenging at all!”

The others were shocked in their hearts, and they said simultaneously, “Young Master, you can’t!”

“Young Master, this kid’s identity is unusual. I think we should stop, right?” Ninth Uncle persuaded from the side.

Their Dayi Clan could be considered to be a top-rate power that possessed monstrous authority in the 3,000 universes of Snow Ink Region, and it controlled numerous universes. However, it was slightly weak when compared to the Sovereign Sect.

As for Oracle Mountain, this sect was mysterious. It was even to the extent that none had seen heirs of Oracle Mountain making an appearance in the world, yet this didn’t mean that Oracle Mountain wasn’t sufficiently formidable.

At least, Ninth Uncle was clearly aware that there were countless legends of the Master of Oracle Mountain, Fuxi, within the entire Ancient God Domain, and practically the entire Ancient God Domain knew about him.

“Stop? Hmph! He didn’t reveal his identity, so why should I stop? Ninth Uncle, from this moment onwards, utilize all the relationships our Dayi Clan possesses in the entire Last Days Domain to capture this kid without sparing any effort!” At this moment, Yi Tian seemed to be slightly arrogant, and he spoke with a burning gaze.

The others still intended to persuade him, yet Yi Tian instantly revealed a grim expression and said, “Just do as I said. I’ll take responsibility if any mishaps occur!”

The others instantly shut their mouths and didn’t speak any further.

“Young Master, I feel that it’s best for us to notify the Sovereign Sect about this first. If that kid is a disciple of the Sovereign Sect, then the consequences would be severe.” Ninth Uncle pondered deeply for a long time before he couldn’t help but speak these words in the end.

“Absolutely not!” Yi Tian said resolutely, “Not only can we not notify the Sovereign Sect, I absolutely won’t allow a shred of information related to this kid to be exposed!”

When he heard this, Ninth Uncle instantly understood that his Third Young Master coveted the Copper Coin of Treasurefall and Overarching Heaven Net in that kid’s possession, and his Third Young Master intended to kill that kid to keep him quiet.

“Begin the operation.” Yi Tian waved his hand. “If this operation fails, then we’ll stay in the Last Days Domain forever!”

.....

Swoosh!

Beneath the night sky, a figure shot through space, and it flew ceaselessly towards the distance. If one didn't observe carefully, it was utterly impossible to locate a trace of him.

Unlike other places, the nights in the Last Days Domain seemed to be exceptionally dark and ghastly. There were no stars or moon, and it was pitch black like thick ink.

As expected, this Dao Seal Mark isn't just capable of severing vital energy that sweeps over to lock onto me, it conceals my own vital energy at the same time as well. This flying figure belongs to Chen Xi. He was relying on Divine Crystals to recover his cultivation as he flew, and he'd recovered almost 50% of his strength now.

However, this was far from being capable of allowing him to exert his peak strength, and it was even to the extent that if he encountered experts like Ninth Uncle, then he would absolutely die.

Fortunately, Chen Xi felt gratified because the Dao Seal Mark that enveloped his Soul Divine Flame was capable of concealing his vital energy. Unless he encountered some sort of terrifying existence with extraordinary ability, otherwise, ordinary figures would be utterly unable to sense his aura even if they noticed his tracks.

I'll be able to recover my entire cultivation roughly around daybreak tomorrow.... Chen Xi sensed his own strength, and he felt slightly reassured in his heart. He was clearly aware that once he got through this night, then he wouldn't have to fear being chased by the Dayi Clan's Third Young Master's group.

The only thing that troubled Chen Xi was exactly how he should pass through the Sovereign Sect's guard with his current combat strength and enter Snow Ink Region smoothly.

[Talisman Emperor](#)

Chapter 1557: Woodskin Mask Race

If he wished to enter Snow Ink Region, then he had to pass through that passageway guarded by the Sovereign Sect's forces.

Numerous disciples of the Sovereign Sect were standing on guard before the passageway, and the weakest amongst them was at the World Enlightened True God Realm while there was even no lack of Domain Enlightened Spirit Gods holding down the fort there.

Moreover, Chen Xi was extremely vigilant because a Universe Enlightened Ancestral God was supposedly patrolling the area around that passageway all year long.

When facing such a heavy defense formed from a huge amount of forces, Chen Xi who only possessed a cultivation at the World Enlightened True God Realm now felt that it was extremely difficult to deal with.

Most importantly, according to Tie Kun, that passageway was about to close in a short period of time. Once this matter occurred, then it would at least be another 10,000 years before it opened again.

This meant that if Chen Xi intended to pass through it, then he had to take action in this period of time!

Even if I recover my peak strength, I would probably only be able to fight Domain Enlightened Spirit Gods, and if I encounter a Universe Enlightened Ancestral God, it would absolutely like throwing an egg against a rock.... Chen Xi fell into deep thought beneath the veil of night.

A Universe Enlightened Ancestral God was a terrifying existence that had grasped 'Universe Energy' and possessed a strength that had already attained a state of conforming with the strength of the ancestors of gods. A single Ancestor established a myriad of Daos, and it meant that they possessed shocking divine might.

Chen Xi's Fourth Senior Brother, the Old Scholar, was extremely formidable, yet he was merely a Domain Enlightened Spirit God, whereas, an Universe Enlightened Ancestral God was an entire realm above a Domain Enlightened Spirit God!

Nevermind. I'll look for a chance to investigate the actual situation before I make any further decisions. The important matter at hand is to recover my strength, and it couldn't be any better if I'm able to temper my Talisman Divine Dao to the initial-stage.... After thinking about it for a long time, Chen Xi was unable to think of a superb idea, so he shook his head and stopped thinking about it in the end.

.....

Beneath the veil of night that was deep and dark like ink, Chen Xi's figure teleported swiftly all along the way.

All along the way, he noticed expanse after expanse of medicinal fields and numerous villages, and the situation within these villages and medicinal fields was practically exactly similar to the village he lived in before this.

There were numerous Herb Slaves working within the fields while an expert from the Ancient God Domain guarded it, and Divine Daofuse Herbs were planted within all these medicinal fields.

If it was at any ordinary time, Chen Xi might seize this opportunity to plunder some Divine Daofuse Herbs. Unfortunately, he was being pursued, and he had to exhaust a great deal of thought on a method to enter Snow Ink Region. So, he didn't have the slightest mood to create unnecessary problems for himself. Moreover, he wanted to avoid any unexpected events from occurring and affecting his plans.

Besides the medicinal fields and villages that he saw all along the way, the Last Days Domain was mostly covered in desolate mountains, wildernesses, and areas with adverse environments like deserts and swamps.

Most of these areas were completely devoid of vitality, but there was no lack of some extremely obscure and formidable auras laying dormant there. They seemed like demons and devils, and they were filled with a terrifying vicious aura.

Chen Xi directly moved around these auras, and he didn't investigate exactly what sort of existences they were because curiosity killed the cat.

I'll pass through the Hunting Area soon. Many experts from the lower dimensions were forced to reside there, and there are even some experts from the Ancient God Domain hunting there.... Chen Xi withdrew a map and observed it carefully.

This map was given to him by Tie Kun, and the rough outline of the Last Days Domain was drawn on it. It was extremely simple, yet it was able to allow Chen Xi to determine exactly where he was.

So long as I'm able to enter the Hunting Area, then even though I'll encounter a great deal of danger, I'll be able to locate even more opportunities to fool those experts that the Dayi Clan's Third Young Master sent after me. After he put the map away, Chen Xi pondered for a moment before he decided not to go around it and enter the Hunting Area instead.

But right at this moment, a circle of ripples suddenly arose from the Daoseal Mark that surrounded Chen Xi's Soul Divine Flame, and then a wave of faint voice fluctuations sounded out and were instantly captured by him.

It really is miraculous. This Daoseal Mark is actually able to capture voice transmissions. Chen Xi thought in his heart while he concealed his vital energy, and then silently descended to the ground before approaching a dark forest.

"Idiot, be careful!"

"Hmph! Can anyone even notice us in the dead of night?"

"Exactly, exactly! In terms of disguise, can anyone within the entire Last Days Domain compare to our Woodskin Mask Race?"

"What a bunch of idiots! Could it be that all of you haven't heard that the Divine Vine King couple living in the gorge 5km away from here were captured by a great figure from the Ancient God Domain because they were too careless? They're bound to be refined into divine medicinal pills for those damnable gods to enjoy. Could it be that all of you intend to be refined as well?"

This dark forest only covered an area of 5,000km. The trees within it towered into the clouds while its surroundings were deathly silent, and it was like a shadow the night had reflected on the ground.

However, in Chen Xi's eyes, there were over 10 trees within the depths of the forest that were utterly different from the other trees. Or perhaps it could be said that they were exactly like the other trees on the surface, yet they carried a strand of an extremely obscure aura.

That aura was like the aura of vitality possessed by ordinary trees, yet it carried a trace of an indescribable rhythm of life, and if was scanned hastily past them, it would be utterly impossible to notice anything different about them.

Even with Chen Xi's current strength, it was utterly impossible for him to distinguish the difference between them without relying on the Daoseal Mark.

Those voice transmissions that entered Chen Xi's ears earlier had come precisely from those trees.

The Woodskin Mask Race? Interesting, they actually called those Divine Vine Kings a couple.... Chen Xi remembered that when he was rescued by that Goddess and the young woman, Hui Cong, they'd precisely come for the sake of gathering the Divine Vine Kings.

On the other hand, based on the conversation between these members of the 'Woodskin Mask Race', they'd obviously taken the Divine Vine Kings to be members of their own kind.

:Just be careful. I heard that Third Young Master Yi Tian from Snow Ink Region is doing everything in his power to capture a young man from the lower dimensions. Supposedly, he made use of many forces, so it's best for us to restrain ourselves slightly during these next few days."

"Who's Yi Tian? Who's that young man from the lower dimensions?"

"Wait a moment, Seventh Brother and I will transform into them for all of you to see."

"Splendid, splendid indeed."

Suddenly, within Chen Xi's field of vision, a strand of black light suffused the surroundings of two trees, and then they suddenly transformed into two people.

One wore a white robe, had a handsome appearance, and a wisp of a slight smile hung on the corners of his mouth. It was exactly the Third Young Master of the Dayi Clan, Yi Tian. On the other hand, the other person wore green clothes, had a handsome appearance, and his eyes seemed vast like the starry sky. Surprisingly, it was actually Chen Xi's appearance!

This caused Chen Xi to be shocked in his heart, and he was extremely surprised.

Merely the Dao of Illusory Transformations was naturally unable to pique Chen Xi's interest. The true reason Chen Xi felt shocked was that they hadn't just transformed into 'Yi Tian' and 'Chen Xi's' appearance, even their disposition, aura, and bearing was actually exactly similar to Chen Xi and Yi Tian. Chen Xi was utterly unable to locate a single flaw in this transformation!

When Chen Xi stared at the 'Chen Xi' that the tree had transformed into, he almost wondered if that really was him....

Could it be that this is the Innate Dao Technique grasped by the Woodskin Mask Race? Chen Xi exclaimed with admiration in his heart. This sort of technique was too heaven defying, and it was even more terrifying than the Thousandeye Ghost Ape Chen Xi had seen in the Netherworld. If this was the three dimensions, then once they transformed into his appearance and utilized it to deceive others, even if they caused endless trouble, there would probably be no one that would suspect it wasn't him!

"Shit! Shit! I lost another piece of skin from transforming, then was condensed from an entire 3,000 years of cultivating." 'Yi Tian' suddenly cried out loudly while strands of dark light emanated from his entire body, and a layer of skin actually fell off before he suddenly transformed once more into the appearance of a tree.

"Hehe, it isn't a 'Shapeless Skin' formed from your quintessence energy anyway, what're you making a fuss about, Sixth Brother." That 'Chen Xi' smiled and seemed to take slight pleasure in his Sixth Brother's misfortune.

"Hmph! Seventh Brother, it's easy for you to talk. Amongst us 13 brothers, only Big Brother is capable of condensing a 'Shapeless Skin' with his quintessence energy. That's a supreme technique to deceive the senses of the gods!" Sixth Brother grunted coldly.

Shapeless Skin? It's able to deceive the senses of the gods? Chen Xi thought in his heart and seemed to be lost in thought.

“Shut up! How many times have I said it? All of you’re not allowed to mention anything related to our secrets. Once those damnable gods find out about it, they’ll definitely dig out our Quintessence Hearts and create ‘Shapeless Skins’!” A tree that had always been silent spoke with extreme rage. Obviously, it was the Big Brother that member of the Woodskin Mask Clan had mentioned.

As soon as their Big Brother spoke, all the others instantly went silent like cicadas in the winter.

“Big Brother, the corpses of the gods we stored up are already insufficient for us to sustain ourselves on. Should we take action and hunt some gods?” That fellow that had transformed into ‘Chen Xi’ asked in a low voice.

“How many are left?”

“16 corpses. They’re all prey from the lower dimensions, and the quality of their flesh is terrible. They’re far inferior in taste to those fellows from the Ancient God Domain.”

“That little?” Their Big Brother was stunned, and then he said, “Alright, hasn’t that Third Young Master, Yi Tian, sent out numerous gods to pursue that young man from the lower dimensions lately? Seventh Brother, I’ll trouble you to temporarily transform into that young man’s appearance and play the role of bait to trap some gods.”

Seventh Brother that had transformed into Chen Xi’s appearance let out a shrill cry and said, “Why me?”

“Hmph! If our Woodskin Mask Clan wasn’t skilled in battle, would there be any need to trouble you? It’s decided. All of you must remember that our combat strengths are at most sufficient to annihilate World Enlightened True Gods, so quickly flee if we encounter a Domain Enlightened Spirit God. Understand?” Their Big Brother instructed.

“Understood!” The others agreed successively.

“Everyone, you’ve understood that a bit too late.” Right at this moment, an indifferent voice suddenly resounded.

“Who is it!?” All of them cried out with shock, and they seemed like terrified monkeys. Their figures shook while they actually intended to flee.

Swish!

A large net that was chilly like starlight enveloped down, and it locked down the surroundings, causing all of their paths of retreat to be forcefully blocked off. They had no way to escape!

At the same time, Chen Xi’s tall figure appeared. His gaze swept past those panicked trees, and he said, “All of you intend to take my appearance and kill? Have you obtained my permission?”

“He... he’s that young man from the lower dimensions!”

“Dammit! How could he have possibly noticed us?”

“My god! How many years has it been! Someone was actually able to locate us!”

“Idiot! Is this the time to be concerned about that?”

All of them spoke successively and clamorously, and they were extremely flurried.

“Idiots! Why are all of you still making noise! Fight him to the death!” Their Big Brother suddenly roared with fury.

Talisman Emperor

Chapter 1558: Obtaining A Treehear

Bang!

All the members of the Woodskin Mask Race attacked. Surging green light rose from their bodies and swayed like thick and large branches and leaves that seemed as if they were chains, and they smashed down fiercely towards Chen Xi who stood in the distance.

Their true form was that of towering ancient trees. Even though they seemed to be weak, as soon as they attacked, all of them revealed powerful bearings as they shot through space like gods amongst trees, and they emanated terrifying might.

In an instant, this expanse of forest swiftly transformed into powder while the heavens and the earth dimmed down, and the dark veil of night was replaced by peerlessly dazzling green light.

“Kill! Kill this kid!”

“He eavesdropped on our conversation, so we can’t allow him to escape!”

“Right, we must kill him.”

Chen Xi’s brows raised, and he didn’t hesitate to flash before a clang resounded as he withdrew the Talisman Armament.

Swoosh!

A strand of sword qi that was vast like the ocean tore through the sky.

The second move at the Sword Emperor Realm — Calm Before the Storm!

Bang! Bang! Bang!

Those attacks that surged over were crushed into pieces by this strand of sword qi, and they were utterly unable to resist before they were smashed into pieces like bubbles.

After that, rumbling resounded as all of those 10 plus members of the Woodskin Mask Race that were charging towards him were struck by the ferocious sword qi. They swiftly fell backwards while countless branches and leaves on their entire body were tore apart.

These fellows are really not skilled in battle, and their strengths can only be considered as ordinary amongst World Enlightened True Gods. After attaining success with a single strike, Chen Xi instantly determined their ability.

This caused him to heave a sigh of relief in his heart. Actually, he was very clearly aware that these strange living beings were most adept in concealment and transforming into all sorts of false appearances.

Unfortunately, their strongest ability had been seen through by Chen Xi. On the other hand, under the circumstances that it was a head-on collision, then even if all 10 plus of them joined forces, it would be impossible for them to pose any threat to Chen Xi.

“How formidable!”

“Shit, what if we’re killed this time?”

“If that happens, then wouldn’t we meet the same end as that Divine Vine King couple and be refined into divine pills?”

“No! No! If we’re killed, we’ll at most be refined into all sorts of skin masks to deceive others. How could we possibly be refined into divine pills?”

“Oh, that’s wrong as well. Our skin is the most valuable.”

“Idiot! A bunch of idiots! This is a battle! All of you... all of you dimwitted idiots deserve to be killed and skinned!”

To Chen Xi’s shock, after these members of the Woodskin Mask Clan lost in this collision, they actually started to clamor loudly, and it angered their ‘Big Brother’ to the point he roared loudly without end.

Actually, Chen Xi wasn’t aware that the Woodskin Mask Clan was a strange race within the Last Days Domain, they were born with the bodies of gods, and they would grow a Treeheart every 3,000 years.

They were only considered a true god when they’d grown 36 petals on the Treeheart and formed a true Treeheart, and then they would possess vast intelligence and start to comprehend the Divine Dao Laws.

On the other hand, the intelligence and composure of those that hadn’t condensed a complete Treeheart would seem extremely terrible. Besides possessing the bodies of gods, their intelligence and mentality would be no different than ordinary demon beasts and monsters.

To put it in a simpler manner, all of these members of the Woodskin Mask Race that hadn’t grown a complete Treeheart were dimwitted.

Amongst all of these members of the Woodskin Mask Race, only their Big Brother had condensed a complete Treeheart. Thus, he’d repeatedly called his companions idiots.

However, even though Chen Xi was unaware of this, he was able to roughly determine that only that ‘Big Brother’ amongst them could be considered as normal, and the other members of the Woodskin Mask Race were no different than wild beasts.

Swoosh!

These thoughts flashed within his heart, yet Chen Xi’s movements didn’t stop at all. After he determined their strength, he’d already decided to end the battle quickly.

Another wisp of vast sword qi shot through the sky.

Space was like canvass while this wisp of sword qi was like the sharpest blade in the heavens and the earth.

Swish!

It sliced through space while its edge swept towards those members of the Woodskin Mask Clan.

“AH!!!”

“Flee! Quickly! I feel like I’m going to die!”

Amidst a wave of wailing and cries, that wisp of sword qi directly slashed down horizontally onto one of them and split it into two.

After that, a swish resounded as its body transformed into an expanse of extremely dense green light, and then it suddenly condensed into a Treeheart that seemed like translucent jade. It revolved in midair before it intended to flee.

Swish!

The Overarching Heaven Net enveloped down and directly restrained that Treeheart, and Chen Xi grabbed it in his hand.

Three petals on the Treeheart. Perhaps this treasure is its quintessence.... Chen Xi sized it up briefly before putting it away.

“My god! Ninth Brother has been killed!”

“What should we do?”

“Let’s flee! I don’t want to fight this fellow! It’s so terrifying!”

All of them roared loudly while fleeing in panic, and they seemed as if they’d been terrified out of their wits.

“Idiots!” Their Big Brother stamped his feet with rage while roaring endlessly with fury, and he was on the verge of going mad.

Swoosh!

Right at this moment, a wisp of sword qi slashed down. It instantly terrifying their Big Brother to the point his entire body shivered while his branches and leaves trembled, and then his figure flashed as he actually intended to flee as well.

Unfortunately, no matter if it was their Big Brother or all the others, their vital energy had been locked onto by Chen Xi since the beginning, so they didn’t even have the time to flee before their paths of retreat was sealed off by the Overarching Heaven Net.

In the end, Chen Xi killed a few more of them, causing the others to be instantly terrified to the point of completely losing their will to fight. A wave of thumps resounded as all of them knelt on the ground before begging endlessly for mercy.

“Great God, Great God spare us!!”

“We’re willing to give up everything we possess, and we only hope that Great God will spare our lives.”

“Right, right. So long as you allow us to live, we’ll agree to anything.”

Chen Xi even had a slightly absurd feeling as he watched this scene.

Since he’d started cultivating until now, it was the first time he’d encountered such a battle. His opponents clearly had the strength to fight, yet they just so happened to not concentrate on the battle. If they were said to be cowards, then how could they have possibly had the ability to clamor with a bunch of nonsense while in battle? If they were said to not be cowards, then why would they kneel and beg endlessly for mercy? They didn’t have even a trace of dignity or limits.

In short, this battle was extremely strange, and it was the first time Chen Xi had encountered such strange opponents.

“I can spare your lives.” Chen Xi pondered deeply for a moment before he spoke.

“Great God, please tell us your conditions!”

All of them were overjoyed.

“Hand over a Shapeless Skin, and I’ll let all of you live,” said Chen Xi. This was his true objective.

A Shapeless Skin?

Swoosh!

All of them immediately shot their gazes towards their Big Brother at the side.

Only a member of the Woodskin Mask Race that possessed a complete Treeheart with 36 petals could condense a Shapeless Skin, and their Big Brother was the only one amongst them that could do it.

The expression of their Big Brother changed indeterminately, and he said, “If you want my Shapeless Skin, then you should just kill me!” As he spoke, he raised his head as if he would face death calmly.

Clang!

When he heard this, Chen Xi directly shook the Talisman Armament while its tip pointed towards him, and then a wisp of murderous and sharp aura pressed down towards the Big Brother of the Woodskin Mask Clan. “Then I’ll do as you wish.”

“Wait!” His body suddenly went limp, and he prostrated himself on the ground. “I... I’ll hand it over....”

Chen Xi couldn’t help but shake his head. These fellows really are cowardly. He seemed as if he would take death calmly earlier, yet he directly broke down in the next moment.

Om!

A strand of a strange fluctuation arose as their Big Brother open his mouth and spat, and he spat out a Treeheart that seemed like a lotus flower. It revolved while emanated dense green light, and Chen Xi could clearly see that this Treeheart had 36 petals. Every single petal was branded with clear veins and diagrams that looked like Divine Dao Markings, and it emanated an intoxicating aura.

With merely just a single glance, numerous diverse and unusual scenes appeared within Chen Xi's field of vision. It was the appearance of all living beings, and even their emotions and desires were clearly revealed by it.

It was even to the extent that if Chen Xi's Dao Heart wasn't firm, then his soul would have almost been lost within it.

"This is the Shapeless Skin?" Chen Xi took a deep breath as he flicked his sleeve, causing an expanse of azure light to shoot out and take the Treeheart away, and then he raised it up near his eyes and observed it.

On the other hand, the Big Brother of the Woodskin Mask Race's members seemed as if he'd lost his vital energy, and the aura emanated from his entire body waned to the limit. Moreover, the skin on its entire body became dim as if it was on the verge of death.

"That's my Treeheart. If you utilize it, you'll be able to transform into the appearance of anyone at will, and even Universe Enlightened Ancestral God's are unable to see through it." Their Big Brother spoke in a hoarse voice. "However, in the hands of your human race, it can only be utilized three times. After that, it'll vanish completely..."

As he finished speaking, his voice couldn't help but emanated a strand of sorrow. That was his quintessence energy. One petal could only be condensed every 3,000 years, and since it was an entire 36 petals, it meant that he'd spent 108,000 years on it!

Yet now, he was asked to give his own Treeheart to another, thus he naturally felt horrible in his heart.

The others revealed a wisp of sorrow when they saw this as well. Moreover, some of them had even started crying and seemed to sympathize with him.

Chen Xi thought for a moment, and then he tossed a storage pouch over. "You can consider this as a little repayment from me. Keep it."

As soon as he finished speaking, he left swiftly.

Within the storage pouch was some of those divine treasures that he'd plundered from Yu Chen's companions that day. They couldn't be said to be extremely valuable and utilizing it to compensate those members of the Woodskin Mask Clan could be said to be Chen Xi's kind intentions.

Sometimes, stopping a slaughter often required more courage than slaughtering.

After one attained a cultivation like Chen Xi's, one's mentality would have changed, and one would obtain a completely new understanding of slaughter. However, no matter what he did, it was enough for him so long as he didn't betray his heart.

.....

With this Shapeless Skin and the Copper Coin of Treasurefall in my possession, I can disguise myself as Yin Huaikong. In this way, perhaps I'll be able to trick my way through that passageway.... Chen Xi was rather happy in his heart while he traveled swiftly in midair.

The Copper Coin of Treasurefall belonged to the Sovereign Sect while Yin Huaikong was an Elite Disciple of the Sovereign Sect. Now that Chen Xi had obtained a complete Treeheart from the Woodskin Mask Race by chance, it just so happened that he could take Yin Huaikong's appearance and go through that passageway that was guarded by the Sovereign Sect.

If his luck was good, then he wouldn't even have to expend any effort to enter Snow Ink Region!

Hmm? There are so many formidable auras. Looks like that's the Hunting Area.... After the time for an incense stick to burn, Chen Xi suddenly stopped moving while he looked towards the distance. The scene in the distance was completely different to the scenes he'd seen before this, and it seemed as if the world had been overturned.

It seemed as if there was an invisible line in the distance, and it split the heavens and the earth into two. One half was pitch black like ink while the other was scarlet red like blood. The scenery was still the same, yet the atmosphere had become mysterious and ghastly.

Chen Xi knew that the Last Days Domain's Hunting Area was within that blood colored expanse of the heavens and the earth!

[Talisman Emperor](#)

Chapter 1559: Stripping The Laws Away

A single line clearly divided the heavens and the earth into two completely different areas.

One half was pitch black like ink, deep, and deathly silent; the other side was scarlet red like blood, desolate, and horrifying.

Chen Xi stood before that line. The pitch black veil of night resided behind him, yet his field of vision was filled with a gorgeous world that was blood red.

He was clearly aware that the night represented the Medicinal Field Area, whereas, the blood red world in the distance represented the Hunting Area.

This was something Tie Kun had told Chen Xi. The heavens and the earth in the Medicinal Field Area alternated between night and day, and besides the Laws of the Heaven Dao there, it was no different from an ordinary world.

On the other hand, the Hunting Area wasn't the same. It was a world enveloped in a blood red color. There was no day, nor night, and no matter if it was the landscape, forests, or gorges there, everything revealed a color that was crimson red like blood.

It was even to the extent that the heavens and the earth there was covered in a scarlet red color!

Of course, Chen Xi was very clearly aware that the Medicinal Field Area and Hunting Area weren't just different in terms of outer appearance. Most importantly, the Laws of the Heaven Dao in these two areas of the heavens and the earth was completely different as well.

.....

Swoosh!

Without any hesitation, Chen Xi's figure flashed and passed through that line in the heavens and the earth, and he entered the Hunting Area.

If the Medicinal Field Area was said to be an expanse land that was without vitality, then the Hunting Area could absolutely be considered a land covered in bloody slaughter.

This area was filled with experts, and many experts from the Ancient God Domain had taken this place to be their hunting area and roamed freely within it. At the same time, numerous gods that had been restrained and dragged into the Last Days Domain were placed within this Hunting Area and had been reduced to prey.

Simply speaking, the Hunting Area was a place of battles and slaughter, and pity and benevolence had never existed in the battles between the hunters and their prey.

Similarly, the roles of hunter and prey had never been fixed. Perhaps one was still a hunter a moment ago, yet in the next moment, one would be reduced into prey in the eyes of others.

In the annals of history, there was no lack of experts from the Ancient God Domain that were hunting here yet were killed by the those they regarded as prey.

All of this was something that Tie Kun had told Chen Xi clearly. So, as soon as he entered the Hunting Area, Chen Xi immediately raised his guard and restrained his vital energy. He was like a vigilant jaguar that had entered into a forest that was filled with danger.

.....

Swoosh! Swoosh! Swoosh!

Not long after Chen Xi had just entered the Hunting Area, numerous figures tore through the sky and arrived here. Shockingly, the person in the lead was that Third Young Master from the Dayi Clan, Yi Tian.

"He has actually entered the Hunting Area? This kid is pretty vigilant. Ninth Uncle, send the word to our forces to start converging from all over towards the Hunting Area to trap and kill this kid!" Yi Tian pondered deeply for a moment before a wisp of a murderous expression flashed past his eyes, and he waved his hands as he spoke.

"Young Master, the situation is slightly difficult. Why don't we converge our forces and make a move after we draw up a sound plan?" Ninth Uncle spoke in a low voice from the side.

"You're worried that kid will utilize the Shapeless Skin?" asked Yi Tian.

On their path of pursuit of Chen Xi, they'd noticed the place Chen Xi had battled the Woodskin Mask Race, and they'd captured those Woodskin Mask Race members that were lucky enough to survive.

The outcome was self-evident, the cowardly Woodskin Mask Race practically didn't resist at all before they exposed everything.

However, regretfully, Yi Tian's group weren't Chen Xi. After they found out about all of this, they annihilated all of them and stripped them off the Treehearts within them.

This matter allowed Yi Tian and the others to grasp even more information related to Chen Xi. Thus, they pursued him all along the way, and they arrived before the Hunting Area in the end.

“Exactly. The transformations completed via the Shapeless Skin is said to be even impossible to be detected by Universe Enlightened Ancestral Gods. Once that kid utilizes the Shapeless Skin to transform into other appearances, then it would be no different than searching for a needle in a haystack, and it would be utterly impossible to find and kill him.” Ninth Uncle’s brows knit together tightly as he pondered deeply before he spoke.

“Hahaha!” Yi Tian suddenly started roaring with laughter. “Ninth Uncle, you’re worrying too much. Presently, that passageway that leads to Snow Ink Region is about to close, and besides those prey that were restrained and brought here, most of the other experts from the Ancient God Domain had already left. Under such circumstances, we don’t have to care about what appearance that kid took and just have to annihilate anyone we notice in this Hunting Area.”

“Kill them all?” Ninth Uncle’s eyes focused.

“So long as we’re able to capture that kid, then so what if we annihilate all the prey within this Hunting Area?” Yi Tian glanced at Ninth Uncle while he was slightly displeased with the latter’s cautious attitudes.

Ninth Uncle sighed and said, “The more prey we kill, the more Divine Crystals we have to pay to the Sovereign Sect, and this is quite a huge expenditure. At the very least, Young Master won’t be able to obtain sufficient Divine Crystals from the clan for the next ten years.

“It’s just some Divine Crystals.” Yi Tian laughed with ridicule, and he was rather indifferent. “So long as we’re able to capture that kid and seize those two Natural Spirit Treasures from him, then mere Divine Crystals are nothing! After all, even our Dayi Clan only possesses a mere few Natural Spirit Treasures.”

Ninth Uncle instantly stopped giving advice when he heard this. Because he’d already discerned that his Young Master was determined to seize the two treasures in Chen Xi’s possession.

I only hope he isn’t related to Oracle Mountain and the Sovereign Sect.... Ninth Uncle sighed deeply in his heart.

Swoosh! Swoosh! Swoosh!

After that, Yi Tian’s group didn’t hesitate to simultaneously charge into the Hunting Area.

.....

Under the sky that was scarlet red like blood, Chen Xi flew swiftly beneath the surging red colored clouds and mist.

Comparatively speaking, the mist high in the sky is the safest place.... Chen Xi glanced at his surroundings, and his right hand held the Talisman Armament while he’d never let his guard down.

On the other hand, two Divine Crystals were held within his left hand while he continued to replenish his cultivation.

At this moment, his strength had long since recovered to around 90%, and it was on the verge of attaining its full and peak state, whereas, he's consumed over 10 Divine Crystals to achieve this. Now, there were merely less than 70 Divine Crystals left in his possession.

With my current cultivation, I have to consume roughly 12 Divine Crystals every single time I recover my strength. This means that all these Divine Crystals that remain are only able to allow me to recover around six times.... Chen Xi calculated in detail. Presently, his wealth was running dry, and he was practically in a state of poverty. He had no choice but to make accurate calculations. According to his calculations, the Divine Crystals that remained were barely able to support him to fight six times with his full strength.

This seemed to be already sufficient, but one couldn't forget that once he encountered an extremely dangerous battle, then the Divine Energy he exhausted would be immeasurable!

Alas, if only the Dark Parasol Sapling could replenish Divine Energy.... Chen Xi sighed in his heart. The Dark Parasol Sapling that possessed unbelievable profound effects in the past had become almost useless now, and this caused him to feel rather helpless.

Hmm? Right at this moment, Chen Xi's heart shook as he suddenly stopped amidst the clouds, and then his enormous will swept out from his body and shot towards the area beneath him.

Through the thin red mist high above in the sky, a large mountain entered into his field of vision. The mountain was tall, strange, completely crimson red, 3km in height, and it was covered with crimson red rocks and ancient trees. There was nothing special about it.

However, when Chen Xi's will swept past it, he noticed to his shock that a black clothed old man with a haggard face was hiding beneath the mountain.

The old man had restrained his aura and seemed like a clay status, and there weren't any fluctuations of vitality in his entire body. If the strength of Chen Xi's soul didn't far exceed an ordinary expert, he would have almost been deceived.

This fellow is obviously an expert from the lower dimensions that was exiled here.... Chen Xi's heart eased up, and he retracted his will.

He wasn't willing to address these experts from the lower dimension as 'prey' because he himself was similarly from the lower dimensions. If one considered it carefully, he'd probably been taken to be prey by the Dayi Clan's Third Young Master, Yi Tian, since a long time ago.

I hope you'll be able to survive here forever.... Chen Xi shook his head before turning around and leaving. If it was at any ordinary time, he might have had the thought to become companions with the old man and pass through the passageway towards Snow Ink Region with him.

However, he was being pursued now, and he wasn't able to guarantee his own safety, so he naturally wouldn't disturb the old man.

Swish!

However, right when Chen Xi moved, a wisp of sword qi suddenly flashed out from beneath that mountain. It was a shimmering jet black wisp of sword qi that carried a fierce and ghastly aura, and it tore through space as it slashed fiercely towards Chen Xi's back.

"Hmm?" Chen Xi's eyes narrowed slightly, and he instantly noticed that this wisp of sword qi had shockingly been executed by that black clothed old man.

"Hmph! Out of consideration that we're both the same, I didn't intend to make things difficult for you, yet you didn't know what's good for you and wanted to launch a sneak attack against me. You truly deserve death!" Chen Xi's face sank while the Talisman Armament soared through the sky, and it easily shattered this wisp of sword qi.

"Fellow Daoist, please know your place. If this happens again, don't blame me for being ruthless!" Chen Xi sent a voice transmission to warn that black clothed old man.

Rumble!

The mountain exploded from within, and then a figure emerged. It was exactly that black clothed old man. However, his expression was icy cold at this moment while his eyes flickered with a vicious and bloodthirsty expression. He was completely different from the utterly lifeless clay status from before.

"Ruthless? Haha! Junior, if it was at an ordinary time, I would naturally not make things difficult for you, but it's different now. That passageway leading to the Ancient God Domain is about to close, and I don't want to be exiled here forever and become prey that's at the mercy of others!" The old man spoke with an icy cold voice, and his voice carried resentment that was impossible to conceal. "On the other hand, so long as I kill you, I'll be able to obtain the Divine Dao Laws and various techniques you possess, allowing my strength to improve once more. In this way, my efforts to pass through that passageway will be slightly safer."

"It really is like that." Chen Xi's brows raised.

Before he came over to the Hunting Area, he'd heard from Tie Kun that the Hunting Area was completely different from the Medicinal Field Area, and that different was at the Laws of the Heaven Dao!

The Laws of the Heaven Dao in both areas were able to soundlessly strip away all the Divine Dao Laws and various techniques possessed by a god.

However, after the Laws of the Heaven Dao at the Medicinal Field Area stripped those gods of their Divine Dao Laws and techniques, it would be utilized to nourish the heavens and the earth, and only by planting the Divine Daofuse Herbs could this energy be absorbed to be gathered and utilized.

On the other hand, so long as one killed an opponent beneath the Laws of the Heaven Dao in the Hunting Area, then the Divine Dao Laws and techniques possessed by one's opponent would be instantly stripped away into one's spoils of the battle, and it would be possessed by the victor!

What did this mean? It meant that so long as one ceaselessly hunted and killed in the Hunting Area, then one didn't have to waste any time on cultivating and comprehending before being able to obtain even more Divine Dao Laws and techniques in a short period of time!

Talisman Emperor

Chapter 1560: Refining and Absorbing Divine Dao Laws

Under the Laws of the Heaven Dao at the Hunting Area, once one annihilated an opponent, the Divine Dao Laws and techniques within one's opponent would be immediately stripped away and obtained by the victory.

This was practically no different to directly devouring one's opponents Divine Dao Laws and techniques for one's own use!

All of this was the fact that appealed to those experts from the Ancient God Domain the most.

Besides enjoying themselves, they'd come to the Hunting Area within the Last Days Domain mostly for the sake of seizing the Divine Dao Laws and techniques from their prey.

Now, that black clothed old man had obviously taken Chen Xi to be prey, and he intended to annihilate Chen Xi and seize the Divine Dao Laws and techniques Chen Xi possessed.

"You intend to go against me merely for the sake of being a bit more confident when passing through that passageway to Snow Ink Region?" Chen Xi's expression instantly became cold, and his voice carried a wisp of a murderous tone.

"Young man, looks like you still don't understand how terrifying the Last Days Domain is. All of us from the lower dimensions don't just have to suffer the willful slaughter of those experts from the Ancient God Domain, we even have to go against the Laws of the Heaven Dao here at all times. Once we stay here for 10 years, then the Divine Dao Laws and techniques in our possession would be stripped away mercilessly, and we'll be completely reduced to a piece of trash!" The old man became more agitated the more he spoke, and his aged face was covered in a resentful and vicious expression. "Reduced to pieces of trash! Are you willing to allow that to happen to you? So, we'll only be able to obtain new life, become a true supreme god, and possess an eternal lifespan after we leave this place and enter the Ancient God Domain!"

Chen Xi's eyes revealed a wisp of disdain and pity because this old fellow was still hoping to exist eternally by entering the Ancient God Domain. Obviously, he was utterly unaware of exactly what sort of existence the Ancient God Domain was.

As if he was offended by the disdain on Chen Xi's face, the old man stopped talking, and a rumble resounded as he withdrew a jet black sword and attacked.

Rumble!

This jet black sword was suffused with surging baleful qi, and it was covered with violent Divine Dao Laws. As soon as it flashed through the sky, it was like an expanse of black clouds covered the sky as they crushed down, and it was rather shocking.

"Since you're courting death, then I'll fulfil your wish." The last trace of anger in Chen Xi's eyes vanished without a trace when he saw this, and it was replaced with bone piercing coldness, indifference, and killing intent instead.

Swoosh!

The Talisman Armament soared through the sky while numerous divine talisman diagrams appeared. They were blazing and dazzling as they crushed space into pieces and rumbled as they smashed down.

Bang!

An enormous bang that shook the heavens resounded. The jet black baleful qi was destroyed by this sword strike, whereas, the old man's figure was shaken to the point the vital blood within his entire body seethed.

"What a formidable Sword Dao!" The old man was shocked and felt slight disbelief. Originally, he thought that Chen Xi was a young man at the World Enlightened True God Realm, and it was enough for him to easily attain victory. Yet never had he expected that he would actually suffer quite a big loss after a single collision.

"Looks like I underestimated you." The old man's face sank while his aura became even more violent. He was like a Fiendgod that had awoken, and his entire body emanated divine light that shot into the sky and carried a rather powerful impetus.

"You can only blame yourself for being too stupid." Chen Xi spoke with an emotionless expression. This old fellow was at most only a World Enlightened True God that was even inferior to Yu Chen, so he was naturally unable to pressure Chen Xi at all.

Bang!

The old man held the jet black sword and instantly executed a myriad of sword images that smashed fiercely at Chen Xi.

This time, Chen Xi didn't hold back any longer, and he executed the Five Element Annihilator. A peerlessly ferocious strand of sword qi transformed into the sharpest blade in the heavens and the earth as it whistled over.

Bang! Bang! Bang!

The myriad of sword images executed by the old man were shattered beneath Chen Xi's attack, and they rumbled as they transformed into a rain of shattered sword light before vanishing without a trace.

This move could simply be said to be all-powerful!

"Shit!!!" The old man's expression changed abruptly. A muffled bang resounded before he could react at all, and his entire right arm flew into the sky while the blood of gods sprayed into space.

"AH!!!" The old man howled with pain while his face twisted into a savage appearance. He finally understood that he'd bit off more than he could chew, so he didn't dare hesitate and flashed towards the distance to flee.

"Since you attacked, then leave your life behind!" Unfortunately, he was still a step too late, and he was easily caught up to by Chen Xi and was annihilated on the spot with a single strike, causing practically translucent blood of the gods to swish as sprayed throughout the sky.

Om!!

At practically the exact same time, Chen Xi acutely noticed that a dark and mysterious blood colored vortex had suddenly floated up into appearance above the sky where the old man had perished. It suddenly revolved and forcefully stripped away two extremely blazing balls of light from within the old man's corpse.

One ball of light was suffused with pure energy of the Divine Dao Laws while the other ball of light revealed a variety of techniques, and it was extremely impure.

Swoosh! Swoosh!

As soon as these two balls of light appeared, they moved towards the blood colored vortex like two arrows that had left the bow and were on the verge of being devoured by it.

When Chen Xi who'd been accumulating strength and got ready since a long time saw this, he didn't hesitate at all to utilize the Overarching Heaven Net, and he instantly captured the two balls of light before they could be devoured by the blood colored vortex.

Om!

The blood colored vortex formed from the Order of the Heaven Dao suddenly trembled before it rumbled and shattered. It once again transformed into the Order of the Heaven Dao before vanishing on the spot.

On the other hand, Chen Xi's figure flashed and left the battlefield.

10 minutes later, at the interior of a low mountain range.

I never expected that this ball of Divine Dao Laws is actually extremely pure and without any impurities. In this way, even if I refine and absorb it, I don't have to worry about these Laws conflicting with my own.... Chen Xi sat cross-legged as he carefully sized up the two balls of light in his hand.

As for this ball of light that contains techniques, it contains too many techniques, and is in an extremely impure state. Most of these techniques obviously don't belong to that old fellow. Looks like he'd killed numerous experts at the Godrank Realm in these years that he was within the Hunting Area, and he seized the Divine Dao Laws and techniques in their possession. After he pondered briefly about it, Chen Xi understood the reasons behind it, and he couldn't help but sigh in his heart. This is the Hunting Area, and they've gone mad with slaughter. It's filled with blood and danger, and slaughter is utterly unavoidable.

Swish!

Without any further hesitation, Chen Xi started to refine and absorb that ball of light that contained Divine Dao Laws, causing strands of Divine Dao Laws to surge into the universe within his body like a gurgling stream, and then it started to circulate and seethe....

.....

After the time for an incense stick to burn after Chen Xi killed the black clothed old man and left, a group of experts tore through the sky and arrived here. There was around eight of them, and a violet clothed young man amongst them took a deep breath before he closed his eyes and sensed carefully.

“A battle occurred here earlier.”

“The battle was between two people, and the deceased is a prey captured from the lower dimensions. The aura of the other party is extremely similar to Third Young Master’s description.”

“Thus, our target this time has definitely just left not too long ago.”

As he spoke, the violet clothed young man suddenly opened his eyes, and he was slightly surprised and bewildered. “Wait, I’m actually unable to determine the route he utilized to flee.”

“Oh?” The man in the lead who had snow white skin, a tall figure, and a pair of golden pupils frowned and said, “Could it be that his aura has vanished?”

The others shot their gazes towards the young man in succession.

“Exactly. He probably possesses some sort of supreme technique that can conceal his vital energy. Even my Godsearch Divine Technique is unable to locate his aura.” The young man spoke in a serious tone.

The hearts of the others shook as well.

This young man in violet clothes was called Lu Ting, and he possessed a rare detection technique called the Godsearch Divine Technique. Thus, all auras in the heavens and the earth were unable to evade his senses.

Yet today, Lu Ting said that he was actually unable to lock onto the target’s aura with the Godsearch Divine Technique, and it instantly allowed all of them to sense how severe the situation was.

“Notify the Third Young Master that this kid had made an appearance in this area. Ask the Third Young Master to mobilize his forces to search this area without sparing any effort!” The man with golden pupils frowned and pondered deeply for a moment before he decided.

“Yes!” One of the members of their group bowed and received his orders. After that, he withdrew a dark grey colored jade talisman and branded it with a strand of his will before crushing it with force.

Pop!

The dark grey jade talisman exploded into pieces, and then it transformed into a wisp of golden light that flashed in space.

The young man in violet clothes, Lu Ting, asked. “Big Brother Qin Tong, what should we do next?”

“Take action and spare no efforts to search this area. Besides our own forces, annihilate anyone you encounter!” The young man with golden pupils spoke with a murderous air.

.....

Swish! Swish!

Chen Xi’s surroundings were suffused with strands of the energy of Divine Dao Laws. They took the form of talisman markings as they circulated without end, causing Chen Xi to seem as if he sat upright within the quintessence of the Grand Dao, and he was solemn and dignified while the space between his brows was covered in an expanse of clarity.

After a short moment, rumbling resounded while a strand of the grand tune of the Dao resounded from within Chen Xi's body. In an instant, the Divine Dao Laws that coiled around his body immediately surged into him and vanished.

At practically the exact same moment, Chen Xi opened his eyes.

In merely less than 10 minutes of time, it allowed my grasp of the Talisman Divine Dao to improve slightly. Isn't such a speed of comprehending the Dao a bit too inconceivable? As he sensed the changes in the Divine Dao Laws within his body, Chen Xi couldn't help but exclaim with surprise. That ball of Divine Dao Laws from the black clothed old man was simply like a medicinal pill, and it allowed him to directly improve his grasp of the Talisman Divine Dao by a trace without comprehending and studying it at all!

This sort of divine effects wasn't just shocking, it was simply astounding!

After all, it was the Grand Dao of the gods, and it was paramount and profound. If one relied on one's own self to comprehend it, then even if one exhausted a very long period of time, it might not necessarily improve by a trace at all!

No wonder those experts from the Ancient God Domain had come to the Hunting Area to slaughter. Merely such temptation is probably impossible to be refused by anyone. Chen Xi took a deep breath while a trace of anticipation couldn't help but arise in his heart. If it continued according to this speed of Dao comprehension, then it probably wouldn't be long before he would be able to attain the initial-stage of the Talisman Divine Dao!

At that time, if he encountered top-rate Domain Enlightened Spirit Gods like Ninth Uncle, Chen Xi was absolutely confident in his ability to kill such an existence.

Unfortunately, the various techniques contained within this ball of light is too impure and limited in might. Moreover, it's utterly not suitable to me.... Chen Xi withdrew the other ball of light, and he pondered deeply for a brief moment before he decided to seal it.

If he had the chance to enter Snow Ink Region, then perhaps he could utilize it in exchange for some Divine Crystals, yet he wouldn't cultivate it himself.

The reason was extremely simply. The techniques he possessed were sufficient for him to bring forth even stronger might. So, cultivating the techniques within this ball of light would undoubtedly be no different than cultivating things of little to no value., It was useless to him, yet it was a pity to throw it away.

Hmm? Chen Xi stood up and was just intended to leave the interior of this low mountain range when he suddenly senses something. He swiftly circulated the Dao Seal Mark and completely concealed the vital energy within his entire body.

At practically the exact same time, a wave of conversation sounded out from extremely far away.
