[Talisman Emperor](#)

Chapter 2071

Bang!

King Gu Yuan's voice hadn't finished resounding through the surroundings when an expanse of dazzling and blazing dark blue divine radiance from Origin Energy suddenly erupted from Chen Xi.

It was dreamlike, illusory, and peerlessly gorgeous!

When looked at from afar, Chen Xi seemed like a brilliant and blazing dark blue flame, and he whistled through the air as he shot towards the Core of Origin World that floated there.

It had been quite some time since King Gu Yuan had passed down the method to fuse with the Core of Origin World to Chen Xi, so that was the reason why Chen Xi had charged forward without the slightest hesitation right now.

Om!

At the instant Chen Xi's figure came close to the Core of Origin World, he felt a boundlessly vast energy assault his face, and it caused him to feel as if he'd been blasted into pieces and had fallen into a boundless ocean of Origin Energy. His mind had instantly gone blank!

After an unknown period passed or perhaps it was just an instant, strange scenes started to appear within Chen Xi's blank mind.

He saw an expanse of chaotic divine radiance surging. It formed countless strands of Order and Laws, and they were like mysterious divine chains that started to coil around and intersect with each other before they transformed into numerous completely different Heaven Daos!

As soon as these Heaven Daos were born, they started to ceaselessly collide, devour, and fuse others into themselves.

After that, the scene suddenly changed. Only two Heaven Daos were left. They were colliding and fighting each other like a battle between fire and water or light and darkness. It seemed to be extraordinarily intense.

Countless Laws and Order transformed into divine chains that struck against each other, causing rains of light to scatter towards the surroundings while all sorts of phenomena were created. Such a scene was extraordinarily mysterious, grand, and beyond imagination.

At this moment, a trace of comprehension had appeared in Chen Xi's heart. Both those Heaven Daos were very familiar to him, and it was to the point he'd practically unconsciously determined that it was the battle between the Godsbane Heaven and Origin Heaven!

The Godsbane Heaven was a supreme existence that represented the Order and Laws of the Heaven Dao in the three dimensions and the Ancient God Domain. After experiencing a period of battle and conflict, it had devoured and fused the other Heaven Daos besides Origin Heaven into itself, and it seemed to have become the strongest Heaven Dao since the Chaos had been split apart.

The Origin Heaven represented the unique Order and Laws of the Heaven Dao in the Origin World. It seemed weaker in comparison to Godsbane Heaven, but even then, it was still unwilling to be devoured and fused into Godsbane Heaven just like that, and it had been fighting with all its strength during this battle with Godsbane Heaven.

But in the end, Origin Heaven had still been defeated. Its Laws and Order were damaged, and it fell into a state of absolute deathly silence.

When it seemed like Godsbane Heaven was about to seize this opportunity to completely devour and absorb Origin Heaven that had no ability to resist, a strange strand of an unprecedented fluctuation suddenly appeared, and it obstructed Godsbane Heaven's attack.

At this instant, even Chen Xi's breathing had almost stopped while his mind surged. Because he'd noticed to his astonishment that it was surprisingly the River Diagram's aura that had obstructed Godsbane Heaven!

Yes, it was definitely the River Diagram!

However, no matter how he searched, Chen Xi was actually unable to locate its whereabouts.

Bang!

Before he could even recover from his shock an unprecedented and world shocking collision had occurred in the scene within his mind.

The force of it was so vast and supreme, and it had enveloped the entire scene in a vast expanse of white. A long time later, Chen Xi finally saw nine obscure and mysterious rays of light taking different trajectories as they flashed through the expanse of white and vanished.

Could those nine obscure rays of light... be the River Diagram that had been blasted apart? A strong feeling couldn't help but arise within Chen Xi's heart. He suspected that when it stopped Godsbane Heaven from devouring Origin Heaven, the complete River Diagram had been damaged, and it had been transformed into 9 pieces!

Could it be that it is as I think? This is how the River Diagram was transformed into 9 pieces?

Chen Xi was unable to confirm his suspicions because those strange scenes from before had vanished at this moment, and it caused his consciousness to enter that empty state again.

However, this didn't represent that Chen Xi couldn't think. He faintly sensed that perhaps it was just as he'd guessed, and it had caused the Godsbane Heaven to be unable to devour the Origin Heaven in the end!

At that time when he was at the Chen Clan in the Primal Chaos Origin, his father, Chen Lingjun, had once told him the River Diagram had been broken into pieces by the Heaven Dao!

At that time, Chen Xi wondered why the Heaven Dao did that. But now, he had an answer, and it was for the sake of stopping Godsbane Heaven from devouring Origin Heaven!

But why did the River Diagram try to stop Godsbane Heaven from doing that?

Chen Xi was unable to figure it out, but he was very well aware that this incident had allowed him to gradually pull apart the mist before him, and he was on the verge of finding out the truth about the River Diagram.

At that time, Chen Lingjun had said that the River Diagram's true name was impossible to trace, but there was no doubt that it had been born from within the quintessence of the three dimension's Chaos, and it was more ancient than anything in this world. It had experienced and survived 8 eras just like the three dimensions.

According to rumor, the true Ultimate Path towards the Dao could be found from within the River Diagram.

Now, when he recalled all of this, thought of the scenes of the battle between the Heaven Daos that he'd just witnessed, and thought of how the River Diagram appeared at the last moment to save Origin Heaven and prevent it from suffering calamity, Chen Xi was slightly enlightened.

Why would the River Diagram constantly emanate fluctuations that carried rejection and detest towards the Heaven Dao? It was because it had been shattered by Godsbane Heaven!

But why did the River Diagram stop Godsbane Heaven from devouring Origin Heaven?

Chen Xi was unable to figure it out, but he was very clearly aware that when he could unravel this secret, then it would be the day he knew the full truth about the River Diagram!

Swish!

Right when numerous thoughts were surging through Chen Xi's mind, a change had suddenly occurred once more within his blank consciousness.

This time, he saw a complete 'Origin World'. He saw the mountains, rivers, sun, moon, landscape, living beings, the shapeless and immaterial Origin Energy, fluctuations of light, the Order and Laws of the Heaven Dao....

It was like the entire Origin World was within his heart. Every being and the actions they took could be viewed by him down to the slightest detail.

It was really no different than being the supreme 'Heavens', and all things couldn't escape his control!

For a time, Chen Xi couldn't help but become immersed in this strange feeling. His thoughts extended along with the scene he witnessed, and it swept throughout the entire Origin World....

He saw Brink Region, he saw the path he'd fled on, and he saw the nest that the Greater Horned Rabbit, Meng'meng, used to reside in.

He saw that the ink black veil of night had silently descended, and the nine dark blue moons had appeared in the sky. Countless inhabitants of Origin World had awoken from their dormant states, and they'd started circulating the Origin Control Technique to cultivate with the energy from the nine moons....

He even saw the Thunderbird, Emerald, discussing the Dao with some other Thunderbirds, and it was having an intense debate on how to create a technique that was suitable to the Thunderbird Clan.

This caused Chen Xi to have a flash of inspiration. He listened carefully for a long time before he created a unique thought that he sent to Emerald.

...

“Our natural talent is in controlling electricity, and we’re most skilled in speed. But we aren’t skilled in battle. In the end, we’re still unable to unearth the true strength in our natural talent!

“Electricity! The Grand Dao of Slaughter! The Lightningray Beasts of Nine Soul Region wield lightning as well, but their technique, Heaven Thunder, emphasizes on destruction and possesses extraordinary might. Why can they accomplish it, yet our Thunderbird Clan can’t?

“Now that we possess the Origin Creation Technique that Master Chen passed down to us, it’s exactly the best opportunity for our clan to create a completely new combat technique. Once we miss this opportunity, then the development of our Thunderbird Clan will definitely fall behind the other clans. Just think about it, are all of you will to see that happen?

“Now, I, Emerald, have roughly formed some thoughts and comprehensions. I need to discuss it and spar with all of you to jointly create a combat technique...”

Emerald spit flew towards the surrounds as it spoke incessantly within the Thunderbird Clan, and it seemed very excited. A group of elders from the Thunderbird Clan were gathered around it, and that included the Patriarch Aba.

But it was very obvious that they didn’t really believe Emerald, and they didn’t seem as fervent and excited as Emerald.

“Emerald, it’s only a thought. But the reality is that it’s very difficult for our clan to perfect a method to create a suitable combat technique for our clan with the wisdom our entire clan possesses.” Aba hesitated for a moment and couldn’t help but say. “Such a matter relies on a fortuitous encounter in the end, and it can only be chanced upon by luck. You will probably suffer from energy deviation if you persist on this path.”

The other elders of the Thunderbird Clan nodded in succession. They felt that Emerald had changed completely after it obtained the Origin Creation Technique, it acted like a lunatic and kept talking about unrealistic nonsense.

Emerald’s face couldn’t help but stiffen when it witnessed this, and it felt a deep feeling of powerlessness. How long more do these old fellows intend to remain conservative as they always have?

“Fine, I’ll just tell all of you that I’ve name this technique Emerald Lightning Rings, and I have a rough idea....” Emerald sighed and wasn’t willing to continue discussing it with them.

However, Emerald hadn’t finished speaking when it was interrupted by a wave of roaring laughter. “Emerald Lightning Rings? Emerald, could it be that you intend to name that technique in your name? Then continue, exactly how formidable is this technique of yours that hasn’t been created?” This voice was filled with a ridiculing and mocking tone.

Emerald was stunned, and then its expression changed indeterminately. Emerald hesitated for a long time yet didn’t know how to start, and it couldn’t help but feel vexed in its heart.

Right at this moment, it felt its sea of consciousness tremble as if it had received sudden enlightenment, and it suddenly aroused all sorts of unique and excellent ideas related to the technique.

This instantly stunned Emerald on the spot.

“Hahaha! Emerald, you shouldn’t talk big like this in the future. Otherwise, you’ll make a huge fool of yourself. Of course, it’s a different story if you can really accomplish it.” An elder of the Thunderbird Clan couldn’t help but roar endlessly with laughter when it saw Emerald seeming to be speechless.

“Who told you that I can’t accomplish it?” But right at this moment, Emerald suddenly raised its head while a strange dark blue bolt of electricity arose in its eyes.

The others roared even more loudly with laughter when they saw this. What a truly stubborn fellow.

Bang!

Right at this moment, Emerald flapped its wings, and then a completely round, brilliant, and translucent emerald ring of light had appeared out of thin air. Moreover, the surface of the ring of light was covered in strands of extremely dazzling dark blue electricity.

As soon as it appeared, this expanse of space had started to tremble while an extraordinarily terrifying and murderous aura of destruction effused out....

In an instant, the roaring laughter in the surroundings had stopped abruptly while all the old geezers from the Thunderbird Clan were flabbergasted on the spot as if they’d been struck by lightning.

Talisman Emperor

Chapter 2072

Crack!

The emerald green rings of lightning flew about while dark blue arcs of electricity flowed through it, and then a sharp strand of lightning suddenly struck out from within it and struck forcefully towards an elder of the Thunderbird Clan.

This old fellow had laughed the loudest just now and was the most indifferent towards Emerald’s suggestion. Now, this old fellow had been caught off guard, and it had instantly struck by the bolt of lightning.

A shrill cry resounded from him while his entire body was charred and smoking. He was thrown into an extremely embarrassing state.

All the higher-ups of the Thunderbird Clan including Patriarch Aba couldn’t help but gasp. What a terrifying attack!

Could it be that Emerald has really created a formidable technique?

The atmosphere here suddenly fell deathly silent. Everyone’s gazes had shot over towards Emerald in unison, and their eyes were filled with shock.

Even Emerald couldn't avoid being stunned by this scene, and it was still muttering. "No wonder... comprehension and sudden enlightenment can be obtained when forced into a corner!" However, even Emerald was unable to determine how it had obtained this sudden enlightenment....

On this day, Emerald had shocked the entire Thunderbird Clan by creating a formidable combat technique called Emerald Lightning Rings, and on that very day, the Patriarch, Aba, announced that Emerald would be the next patriarch of the Thunderbird Clan.

After he saw Emerald comprehend and create a combat technique to win the respect of everyone, Chen Xi withdrew that strand of his consciousness and started to observe the situation in the other parts of Origin World.

...

The Origin World had undergone huge changes! As Chen Xi's consciousness extended incessantly throughout the Origin World, he'd noticed for the very first time that his Origin Creation Technique had actually provided such a shocking and unprecedented transformation to the entire Origin World.

Practically all the living beings throughout Origin World had acknowledged the Origin Creation Technique to be a supreme divine scripture. They studied and cultivated it painstakingly, and some with shocking wisdom had even relied on it to create numerous techniques.

All of this allowed Chen Xi to clearly realize that as these techniques were created incessantly, it wouldn't be long before sects would be born within the Origin World, and the formation of sects was one of the symbols of the initial formation of a system of cultivation.

He believed that if the Origin World continued developing at this rate, then the day would come when it formed its own unique and perfected cultivation system. At that time, the grand scene of a hundred school of thoughts competing against each other and a period of great prosperity would definitely appear in the Origin World.

However, Chen Xi didn't know if he should laugh or cry when he found out that the living beings throughout Origin World had actually praised him as Master Chen. They respected him as their Master, and it truly surprised Chen Xi.

Master Chen!

It was a supreme honor to be respected as their Master by a myriad of living beings! At the very least, even King Gu Yuan had never possessed such a title.

...

As his consciousness extended incessantly, it wasn't long before Chen Xi's heart shook, and then his entire consciousness converged onto a single spot.

Because at this moment, he'd clearly sensed the barrier that covered the Origin World! This barrier was like an eggshell that isolated the Origin World from the outside world, and it was formed from the supreme Laws and Order of the Heaven Dao in the Origin World, so it was impossible to even shake.

It was even to the extent that a Daolord would probably be unable to break through it and enter the Origin World! However, Chen Xi believed that once he succeeded in taking control of the Core of Origin World, then he could utilize the Laws and Order of the Heaven Dao within it to leave the Origin World.

...

After an unknown period of time, Chen Xi felt his consciousness being peeled away successively while the scenes within his mind started to vanish as well.

Along with a strand of indescribable trembling, Chen Xi's entire body shook while he woke up from that strange state.

Huff!

He let out a long breath of air. Only now did he notice that a pure, translucent, dazzling, and blazing ball of dark blue light had suddenly appeared in the region within his body, and it was emanating a primitive, ancient, and grand aura.

Surprisingly, it was the Core of Origin World! In other words, this ball of light represented the Heaven Dao of Origin World. It represented the Order and Laws of Origin Heaven, and it belonged to Chen Xi now.

But in next to no time, Chen Xi noticed that he merely possessed it yet was utterly unable to control it.

Chen Xi couldn't help but be stunned by this, and he shot his gaze towards King Gu Yuan.

Since Chen Xi had started to take control of the Core of Origin World, King Gu Yuan had remained silent while thoughts surged through his heart.

When he noticed Chen Xi's questioning gaze being shot towards him, he couldn't help but smile as he said, "It's very normal. After all, it's the Law and Order of the Heaven Dao in the Origin World. Not to mention you, even I've never been able to truly take control of it, and I can only utilize its energy." Chen Xi thought for a moment, and he was able to come to an understanding. The Heaven Dao was an extremely obscure and supreme existence, so how could it fall into his control with the strength he possessed right now? "However, when your cultivation arrives at a state that can rival the Heaven Dao in the future, then perhaps you can try to truly take control of it." King Gu Yuan had a slightly complicated expression on his face. He seemed to be sorrowful and emotional.

As he spoke, he suddenly thought of something, and his expression became solemn as he stared at Chen Xi. "Chen Xi, if you're really able to accomplish that in the future, then what will you do to the Origin World?" This question carried great implications and was related to the future of the Origin World, so even Chen Xi had no choice but to become cautious and serious.

He thought for a long time before he said, "It'll definitely be different than the Godsbane Heaven!" As for how it would be different, he was unable to say for sure. After all, it was impossible to deduce and determine the future.

But the only thing he dared to guarantee was that it wouldn't follow the path that Godsbane Heaven took! "Different?" King Gu Yuan was stunned. In the beginning, he seemed to be quite disappointed by

this answer, but after he thought for a long time, he realized that this answer was exactly what he wanted! Yes, Origin World had to become different!

Grand yet different, and boundless like the Dao!

"I've never felt so relaxed in my life. Perhaps entrusting the Core of Origin World to you is the wisest decision I've made in my lifetime." King Gu Yuan started smiling, and then he roared with laughter that shook the clouds and swept towards the surroundings. It was filled with happiness like a rock that was weighing down on his heart had been lifted.

Chen Xi couldn't help but sigh endlessly with emotion with he witnessed this scene. Who could have imagined that I would experience such a marvelous encounter after entering the Origin World by accident?

Origin Energy, Origin Heaven, the battle between the Heaven Daos, the reason the River Diagram had been shattered.... All of this made Chen Xi feel that this trip was really worth it.

...

A month later, Ming's combat strength had recovered completely to its past state, and Chen Xi intended to leave at this point in time.

Almost 3 years had passed since they entered the Origin World, and if the period since he left the Primal Chaos Origin was included, then a few dozen years had passed by now.

If Chen Xi still didn't return, then the outside world would definitely think that he'd suffered a mishap.

King Gu Yuan didn't oppose Chen Xi's decision because he knew that Chen Xi and Ming would leave, sooner or later.

"You know how to leave. You can utilize the energy within the Core of Origin World to create an exit." King Gu Yuan instructed before Chen Xi left. "However, you must take precautions against one thing when you leave." Chen Xi's brows raised. "What?" King Gu Yuan said, "You possess Origin Energy and even carry the Core of Origin World now. So long as you arrive in the outside world and expose all of this by accident, then you will definitely suffer the attacks of the Godsbane Heaven! If you suffer calamity, then the entire Origin World would be affected as well. So, you must be careful." Chen Xi had considered this problem as well. However, he didn't think that it would be that severe. After all, he'd gone against the Godsbane Heaven on more than one occasion since he started cultivating! Coupled with the fact that he possessed the River Diagram, he'd already learned how to conceal his aura. So, even if he had Origin Energy and the Core of Origin World with him right now, it still couldn't make Chen Xi feel very worried.

The true problem he found difficult to resolve was whether the Origin Energy within his body would undergo any unexpected changes once he returned to the outside world! Would it act just like the Divine Energy I possess and fully lose its might once I arrive beneath the Laws and Order of a completely different Heaven Dao?

If it's like that, then these few years of hard work cultivating in the Origin World would have been for nothing....

Of course, he would only be able to know the answer to all of this once he entered the outside world.

Ming and Meng'meng were reluctant to part with each other, and Ming had even mentioned her intentions to bring Meng'meng along on many occasions.

Chen Xi refused this request without the slightest hesitation. It wasn't that he was acting cruelly, but he was very clearly aware that once a living being of the Origin World like Meng'meng were to enter the outside world which was covered by the Godsbane Heaven, then it would definitely be noticed by the Godsbane Heaven. The consequences of that were unimaginable! After all, the outside world wasn't like the Origin World that only possessed three supreme kings. The situation there was too complicated, so bringing Meng'meng along would undoubtedly put Meng'meng in harm's way.

Ming understood that clearly, so she accepted Chen Xi's decision in the end.

King Gu Yuan was quite generous, or perhaps it was for the sake of the Origin World's future development, but he agreed to take good care of Meng'meng, and only then was Ming's mind set at ease.

Chen Xi was rather satisfied with this arrangement. King Gu Yuan was the most supreme existence in the entire Origin World, so there was utterly no need to worry about anyone offending Meng'meng when she was under King Gu Yuan's care.

...

Om! On this day, a wave of strange fluctuation suddenly arose throughout Origin World. It was right in the middle of daytime, yet the nine moons had actually appeared in the sky! This scene instantly shocked all the residents of Origin World.

"You must take care of yourselves for the sake of Origin World...." King Gu Yuan had his hands placed behind his back as he stared up into the sky with a complicated expression.

On this day, all the residents of Origin World knew that the existence who'd created the supreme divine scripture, the Origin Creation Technique, and had been praised by them as Master Chen had left....

Many couldn't help but feel sorrowful because of this, and some were even unable to stop themselves from shedding a few tears in secret.

They didn't know if Master Chen would return, but no matter how long passed, Master Chen's status in their heart would absolutely not change at all.

This day was engraved in the minds of all the residents of Origin World. It became their 'day of prayer', and it was created to pray for Master Chen who'd left.

In the years to come, all the beings within the Origin World would automatically pray for him when this day arrived, and they maintained this tradition eternally to display their never-ending gratitude towards Master Chen's kindness.

Author's Note: Allow me to provide a little hint. The Origin World will become a key factor in Chen Xi's future journey of supremacy. Please do look forward to its arrival.

— End of Book Nineteen —

Talisman Emperor

Chapter 2073

Book Twenty – The Ultimate Path

Lofty peaks towered throughout the surroundings.

These lofty peaks pieced into the sky while the foot of the mountains was murky grey. Some strange vines, brambles, and flowers grew on the ground, and they emanated a dense aura of divine energy.

Chen Xi stood in front of some brambles as he took a deep breath, and as he sensed the divine energy that filled the air, Chen Xi was finally sure that he'd really left the Origin World!

But where exactly was this place? Did it belong to the Ancient God Domain or the boundless expanse of stars around the Primal Chaos Origin? Even Chen Xi couldn't determine the answer.

At this moment, he was even unable to determine if he was on a star or a continent right now.

After a short moment of feeling dazed, Chen Xi quickly recovered his calm and gazed towards the side, and he heaved a sigh of relief when he saw Ming's graceful and aloof figure.

Yes, they really had left the Origin World!

Crack!

Suddenly, a strand of an indescribably terrifying aura descended from the sky. It was supreme and filled with extraordinary majesty. In an instant, the lofty peak standing before Chen Xi had been instantly struck by lightning and transformed into powder!

It was a strand of grey lightning that seemed like a divine Chain of Order. It was sharp like a blade of the heavens, and it carried the terrifying might of heavenly wrath.

Just looking at it from afar caused a chill to run down one's spine and horror to fill one's body.

Shit! It's the energy of Heavenly Wrath!

Chen Xi was horrified. How could he have imagined that they would suffer the merciless attacks of the Heaven Dao as soon as they left the Origin World?

What exactly is going on?

Chen Xi didn't hesitate at all nor did he have the time to think about anything else. He'd grabbed Ming at practically the exact same moment that the mountain had been struck into powder, and he flashed swiftly to the side.

At practically the exact same moment, he circulated the Daoseal Mark within his soul with all his strength to completely conceal both Ming and his own aura.

However, to Chen Xi's surprise, the River Diagram fragments that were slumbering within his sea of consciousness had awakened unexpected at this instant, and they emanated a strange and obscure force that enveloped Chen Xi's entire body.

Rumble!

A strand of descending grey lightning was just about to smash down onto the area that Chen Xi and Ming resided at when it suddenly stopped in midair.

It seemed as if it had lost its target, and it surged endlessly in midair while emanating a merciless, indifferent, and supreme aura of Order.

A long time later, that grey strand of lightning finally dispersed without a trace, and it seemed as if it had never appeared here.

Huff~

Chen Xi let out a long sigh of relief. His forehead was covered in cold sweat because that strand of grey lightning was merely 3 inches above his head, and it was extraordinarily shocking. If it had struck down, then the consequences would be simply unimaginable!

"I never expected that we would be noticed by the Order of Godsbane Heaven as soon as we left the Origin World...." Ming's countenance was pale as well while fear still lingered in her heart because everything that occurred just now was truly terrifying.

"It probably noticed the aura of Origin Energy that doesn't belong to this world within our bodies. Most importantly, the Core of Origin World is in my body, and it's an old enemy of Godsbane Heaven." Chen Xi quickly recovered his calm, and he carefully analyzed the incident from before. He was clearly aware that the River Diagram was the reason why they could survive the danger they'd just faced.

"I assume that should be the reason. All those years ago, the Godsbane Heaven wasn't able to devour the Origin Heaven, so it'll definitely not give up. I suspect that the energy of Godsbane Heaven had enveloped the surroundings of the Origin World since the beginning, and it just hadn't made a move until now because the Origin Heaven is in a completely sealed off state."

Ming had found out about the battle between the Heaven Daos from Chen Xi while they were still in the Origin World, and that was the reason why she'd made such an analysis.

"I think that it should be as you said." Chen Xi approved of Ming's point of view because such a dangerous encounter would have definitely not occurred if it weren't for that.

Hmm? Right at this moment, Chen Xi's expression suddenly changed, and his figure started to tremble as if he was shivering with fear.

After that, a wisp of pain appeared on his face, while numerous veins started bulging on his forehead.

"What's wrong?" Ming noticed Chen Xi's unusual state and couldn't help but be shocked.

"The Origin Energy and Divine Energy within my body have started to clash with each other...." Chen Xi gritted his teeth as he swiftly sat down cross-legged.

"Clash?" Ming was shocked, and then she suddenly noticed that the Shaman Energy within her body had started to awaken. On the other hand, the Origin Energy she absorbed in the Origin World seemed to have gone out of control, and it started to become restless as well....

Shit!

How could Ming not understand that she was in the same state that Chen Xi was in?

She didn't hesitate to sit down cross-legged as well, and then she started to gather her entire consciousness to guide the energies within her.

...

Origin Energy was an energy that belonged to the Origin World, its source was the Origin Heaven, and the cultivation technique utilized to circulate it, the Origin Creation Technique, was created according to the Order and Laws of the Origin World.

Now that they'd entered the world that was covered by the Godsbane Heaven, the Origin Creation Technique had instantly lost its original might, and it caused the Origin Energy within both Chen Xi and Ming's bodies to see like wild horses that had struggled free of their reins and were impossible to control.

The worse part was that they'd left the Origin World now, so the cultivation they possessed before they entered the Origin World wasn't in a still state anymore, and it had started to awaken....

All of this caused the two completely different energies within their bodies to start clashing, and the consequences of that were simply unimaginable. Because if they lost control of these two forms of energy then they would either suffer from qi deviation or even die!

While he was still in the Origin World, Chen Xi had once considered his options if the divine energy and origin energy within his body clashed upon returning to the outside world, and he wondered if these two completely different energies born from two completely different Heaven Daos could be merged together!

Unfortunately, Chen Xi could only think about it at that time. He hadn't had the time to explore and put it into practice before he noticed that he was in such a dangerous situation.

Needless to say, their luck was truly quite horrible. They were attacked by the lightning of Heavenly Wrath as soon as they left the Origin World, and they almost lost their lives. Right after they avoided this calamity, the energies within their bodies started to collide, and it caused them to fall into an extremely dangerous situation once more.

If these successive unexpected events had occurred to anyone else, then it would have probably caused them to panic and be thrown into a state of confusion.

However, Chen Xi had experienced a huge amount of danger throughout his lifetime, and he'd lingered at death's door on countless occasions, so it had tempered his mental strength to an extraordinary degree.

At this moment, he didn't panic or fall into confusion, and he started to fully concentrate on the disorder within his body with an extremely calm state of mind.

Rumble!

Chen Xi's vital blood seethed, the apertures and meridians throughout his body trembled, the region within his body spun in a frenzy, and even his soul had started to surge violently.

Everything was caused by Origin Energy!

The reason Origin Energy was unique was because it could cover a cultivator's entire body, both inside and out. Moreover, it was beneficial towards all sorts of aspect like body refinement, qi refinement, the soul, the Dao Heart, and so on and so forth.

But now, this energy had lost control, and it instantly caused an adverse effect in all the forms of energy throughout Chen Xi's body.

They were ceaselessly clashing within Chen Xi's body. Every single inch of his skin and every single corner of his body was covered in terrifying clashes of energy.

It was simply like a horrifying scene of chaos and disorder, and even Chen Xi didn't know what to do.

He'd tried to take control of the Origin Energy within him, but the Origin Creation Technique seemed to have lost its ability, so he tried to circulate his Divine Energy to suppress the raging Origin Energy within him instead. However, he noticed that the Origin Energy he possessed was too enormous and suffused his entire body, so it was utterly impossible to suppress.

What should I do?

Boundless pain swept throughout Chen Xi's body, yet he couldn't be bothered about it as he was madly deducing all sorts of methods to deal with the situation.

He was clearly aware that the method to overcome such danger was to fully merge the Origin Energy with the Divine Energy within his body.

But... how should I accomplish that?

One was energy form the Godsbane Heaven while the other was from the Origin Heaven. Could two completely different forms of energy merge together?

Suddenly, Chen Xi thought of the battle between the Heaven Daos that he'd witnessed. Godsbane Heaven had once defeated numerous Heaven Daos before it devoured and fused them into itself....

Since even completely different Heaven Daos could be merged, then why can't energies from two completely different Heaven Daos be merged? It's definitely possible!

Chen Xi was sure that there was definitely a way to accomplish it. But how exactly should I accomplish it?

Chen Xi deduced incessantly....

He was completely indifferent to the torture of the pain he experienced and was completely oblivious to the passage of time. The state within his body was growing increasingly worse while the clashes within his body were intense to the limit, and it was on the verge of damaging his foundation.

Ming's current state was roughly similar to Chen Xi, and the strong feeling of danger she experienced similarly compelled her to deduce a method to resolve this dangerous situation.

...

Three days later, Chen Xi's body shook while two words appeared in Chen Xi's mind, Daoseal Mark!

While in the world covered by Godsbane Heaven, Chen Xi had relied on the Daoseal Mark to avoid the pursuits of his enemies on more than one occasion, and he'd utilized it on numerous occasions to avoid the detection of the Heaven Dao.

When Chen Xi was in the Origin World covered by the Origin Heaven, Chen Xi had once caused phenomena of the heavens and the earth to arise when he cultivated the Origin Creation Technique for the first time, and the phenomena it created was noticed and even shocked the inhabitants of Origin World.

At that time, Chen Xi had relied on the Daoseal Mark as well to avoid being detected by King Mo Luo, King Jiu Ling, and King Gu Yuan.

In other words, Chen Xi could utilize the Daoseal Mark while he was in the Origin World as well.

Now, after deducing for a very long time, Chen Xi suddenly noticed that since the energy of the Daoseal Mark could be utilized between the worlds covered by the Godsbane Heaven and Origin Heaven, then couldn't he rely on it to deal with the dangerous situation he was facing within his body?

The Daoseal Mark was from the River Diagram. It was obscure and mysterious, and it had been constantly residing within Chen Xi's soul throughout these years.

Even right now, Chen Xi hadn't been able to fully comprehend what sort of force it was because it was too obscure and mysterious.

But at this moment, Chen Xi couldn't be bothered about there. The collision between the energies within his body had arrived at a critical state, and it caused him to be on the verge of exploding apart.

So, how could Chen Xi care about everything else right now?

As soon as he thought of the Daoseal Mark, he'd immediately carefully circulated its energy out from within his soul, and it extended out like a stream towards his entire body....

Talisman Emperor

Chapter 2074

The energy of the Daoseal Mark was like a stream that flowed soundlessly as it spread through his entire body....

After that, a scene that Chen Xi hadn't expected occurred. As the energy of the Daoseal Mark started spreading through his body, the energies that were originally colliding within him had suddenly stopped clashing with each other before retreating madly. It was like they were extremely afraid of being touched by the Daoseal Mark's energy.

This scene was very interesting. It was like mice that had encountered a cat. Regardless of whether it was the Origin Energy or the other energies that Chen Xi possessed before this, all of them seemed to have fallen into a state of panic.

Chen Xi couldn't help but be stunned by this. Indeed, this scene he witnessed proved that the method he utilized was effective indeed. However, it was the first time he'd noticed that the energy of the

Daoseal Mark was actually so miraculous and formidable because merely its aura was actually capable of completely suppressing the energy within his body!

What does this represent?

An extremely strong feeling of curiosity arose in Chen Xi's heart. He didn't stop all of this from occurring. Conversely, he converged all his will onto the energy of the Daoseal Mark.

Along with the passage of time, the energies within his body had been retreating incessantly, but it was impossible to continue retreating anymore. Unless they flowed out from Chen Xi's body.

Obviously, it was impossible for that to happen.

Rumble!

In the end and along with a wave of rumbling, the Origin Energy that was raging throughout Chen Xi's body was the first to come into contact with the energy of the Daoseal Mark, and then it was like a fish that had fallen into a net. It merely struggled for a moment before it was completely enveloped by the energy of the Daoseal Mark.

After that, the Origin Energy throughout his body fell into a deathly silent state. It was merely rendered motionless, but it hadn't been refined, absorbed, or destroyed by the energy of the Daoseal Mark.

Since the Origin Energy within him had stopped rampaging, it was equivalent to instantly resolving the 'great enemy' that caused the danger Chen Xi faced. Under such circumstances, Chen Xi merely had to circulate his cultivation, and he could calm and control his divine energy, vital energy, soul energy, energy of the Dao Heart....

However, he didn't do that. He was very curious about what sort of scene would appear if the energy of the Daoseal Mark were to envelop all the energy he possessed within him.

Rumble!

It wasn't long before another wave of rumbling resounded. Just like his Origin Energy, the Divine Energy within him wasn't able to struggle free at all once it came into contact with the energy of the Daoseal Mark, and it was completely enveloped by the energy of the Daoseal Mark and fell into a motionless and deathly silent state.

It's as I expected! Chen Xi's eyes lit up as he continued watching.

Along with the passage of time, the vital energy, soul energy, and energy of the Heaven Heart within him had suffered the same fate, and they came into contact with the energy of the Daoseal Mark, were enveloped, and fell into a motionless and deathly silent state.

At this instant, Chen Xi suddenly had a feeling of transcendence from taking complete control of himself and standing supreme above all the forms of energy he wielded.

It was like so long as he willed it, then he could instantly annihilate the Origin Energy, Divine Energy, vital energy, soul energy, and energy of the Dao Heart within his body....

Similarly, so long as he willed it, then he could completely merge them together and transform them into a form of energy that he wanted!

This was an extremely unique feeling of control. It was a feeling of absolute control as if he could control anything and everything, and nothing could escape his notice.

This was the feeling created when the energy of the Daoseal Mark had spread throughout his entire body and made all the energies he possessed fall into a motionless and silent state.

It was like a process of 'removing energy'. All the energy he possessed had been 'removed' as they'd fallen into a motionless and silent state, and it presented itself before him in a completely different state.

When the characters '去力' which represented the removal of energy were joint together, they formed the character '劫' for calamity!

At this moment, Chen Xi felt like he'd overcome all calamities that loomed around him and attained a state of enlightenment that revealed the truth of things. Unfortunately, this feeling had merely existed for an instant.

Because there was still a strand of energy being circulated throughout his body, and it was the energy of the Daoseal Mark.

If I'm one day able to utilize this process of 'energy removal' to destroy or merge the energy of the Daoseal Mark as well, then what sort of scene would be revealed before me?

Such a thought had suddenly arisen in Chen Xi's heart, and then he couldn't help but chuckle. The Daoseal Mark is from within the River Diagram. Unless I'm able to completely suppress and control the River Diagram in the future, I'll probably never be able to accomplish that, right?

...

Chen Xi didn't think further. He gathered his concentration, discarded all distracting thoughts, and then took a deep breath before a voice resounded like a thunderclap within his heart.

"Merge!"

It was like a decree of the heavens. At this instant, all the energies within Chen Xi's body awoke from their 'slumber'.

They weren't unruly anymore, nor did they seem like wild horses that were impossible to tame. Conversely, they'd become extremely gentle and tame under the watch of the Daoseal Mark's energy.

Rumble!

The Origin Energy stretched out incessantly and started to gradually merge together with Chen Xi's vital energy, soul energy, energy of the Dao Heart, and the Divine Energy in the region within his body.

They didn't collide, clash, or fight each other. It was natural like snow melting into water.

After that, Chen Xi felt that the various forms of energy he possessed were becoming stronger, and they were improving steadily....

...

Chen Xi had cultivated for more than 3 years in the Origin World. He'd consumed countless precious treasures and had even absorbed an innumerable amount of Origin Energy essence.

Even if he didn't possess cultivation that was based on divine energy, he could still display the combat strength of a Seventh Star Region Lord while he was in the Origin World.

Yet now, this extremely powerful Origin Energy had started to merge with the energy within Chen Xi's entire body, so it was obvious how enormous the benefits Chen Xi received would be.

In just a short period of six hours, his cultivation had actually broken through to the Eighth Star Region Lord Realm, and another dazzling and resplendent Violet Gold Imperial Sovereign Star had risen above his Soul Divine Flame.

After that, his vital energy started to undergo a transformation. The vital energy was a reflection of his ability in body refinement, and it could also be called Shaman Energy. Chen Xi's main body originally possessed a cultivation in body refinement that was merely comparable to the Nether Transformation Realm.

But in this short period of time, his body refinement cultivation had started to improve by leaps and bounds. It pushed ahead through realm after realm, and it finally stopped at a level comparable to the Immortal King Realm.

If this had happened in the outside world, it would definitely cause the jaws of countless cultivators to hit the floor in shock, and it could be considered as a world shocking miracle even if it was during the Shaman Era.

Next, the energy of Chen Xi's Dao Heart started to transform. It started from the 4th forging of the True Heart Sutra, and it rose to the 6th forging in one go!

The improvement in his Dao Heart represented that Chen Xi's ability to stay in combat grew stronger and stronger, and it also carried immeasurable benefits to comprehending the Sword Dao.

The final transformation was in the energy of his soul. Chen Xi's soul was originally like a vortex, and an extremely dazzling Soul Divine Flame surged above the vortex.

Now, that Soul Divine Flame had transformed into a five colored ocean of flames. It was gorgeous, blazing, grand, and boundless, and it illuminated his entire sea of consciousness.

Such a change caused the strength of Chen Xi's consciousness and his abilities of deduction to undergo a completely new transformation and improvement!

If Chen Xi's consciousness was said to be capable of covering an expanse of the starry sky in the past, then it could cover a galaxy now. It could instantly reflect a myriad of scenes within his mind.

In short, after he merged his Origin Energy into the various energies that he possessed, every single one of those energies throughout his body had undergone a tremendous change.

Such changes could be considered to be unparalleled and unprecedented!

...

The Eighth Star Region Lord Realm.

The sixth forging in his cultivation of the Dao Heart.

A complete transformation and improvement in the energy of his soul.

A leap into the Immortal King Realm of body refinement.

All of these were like an inconceivable dream, and it caused Chen Xi to feel like he was experiencing one of those legends where a single moment of enlightenment allowed one to ascend into the heavens!

The completely new energy that surged through his entire body was that formidable and abundant, and it was even to the extent that Chen Xi felt it was slightly difficult to get accustomed to.

These were the changes that Chen Xi had experienced after he'd merged his Origin Energy completely with the energies within his body!

However, in next to no time, Chen Xi couldn't be bothered to sense the changes within him because a grunt of pain had resounded by his ear, and it carried despair and unwillingness.

It was Ming!

Chen Xi's heart shook while all his thoughts vanished from his mind. He swiftly opened his eyes, and he saw the Ming was actually showing horrifying signs of being on the verge of death.

Her clear and gorgeous face was ghastly pale while her slender and graceful figure was trembling violently, and her clothes were drenched in cold sweat.

She was gritting her teeth tightly while her glistening and curved cherry lips had even turned pale from her exertion of force. She seemed like she was enduring a form of indescribably intense pain. It caused her to emanate a dispirited and waning aura, and she seemed to be on the verge of death.

Shit! Chen Xi revealed a solemn expression while he placed his hand on her shoulder without the slightest hesitation. At the same time, he circulated the energy of the Daoseal Mark to surge along her shoulder and into her body.

Ming wasn't like him. She didn't possess the River Diagram fragments, so she naturally didn't possess the Daoseal Mark. Under such circumstances, how could she possibly suppress the violent energies that were clashing and colliding within her?

If Chen Xi hadn't noticed in time, then perhaps Ming might have really perished in a short while!

Swish!

As the energy of the Daoseal Mark surged into her body, Chen Xi noticed that the situation within her body was even worse than he'd imagined.

Her blood vessel, veins, and even every single inch of her body showed horrifying signs of disorder and damage.

When he saw this, Chen Xi didn't dare hope that Ming could benefit from this misfortune like he had and undergo a tremendous increase of strength as well. Because it would be very fortunate if she were able to fully recover from her injuries and stabilize her foundation.

Needless to say, the energy of the Dao Seal Mark was mysterious and formidable indeed. In merely a short moment, the energies that were rampaging through Ming's body had fallen into a motionless and silent state.

Chen Xi couldn't help but heave a sigh of relief when he saw this, and he decided to fully merge her Origin Energy into her Shaman Energy.

However, right at this moment, a wave of clamorous fluctuations of consciousness suddenly arose from afar.

"It's right over there. A bolt of the Lightning of Heavenly Tribulation destroyed that mountain last night. It was extremely terrifying."

"So, a heaven defying divine artifact might have been born there?"

"Let's go take a look quickly!"

Cultivators are actually coming here! Chen Xi's eyes narrowed slightly, and then he glanced at Ming who was in a very weak state. In the end, he decided to resolve the danger she was facing first.

As for everything else, he didn't have the mood to pay attention to it for now.

Talisman Emperor

Chapter 2075

As if she'd noticed something, Ming who had an extremely pale countenance and a weak appearance gasped for breath as she spoke in a low voice. "Watch out. It seems like someone is coming."

Chen Xi spoke casually. "There's no need to pay any attention to them. I'll help you merge the energy within your body first."

As he spoke, Chen Xi circulated the energy of the Dao Seal Mark, and it started to flow ceaselessly through Ming's body.

He was really unable to stop at this moment, because once he did, then the energies within Ming that had fallen into a silent and motionless state of slumber would awaken once more, and then they would collide violently with each other. If that were to happen, then Ming would suffer even more pain and torture, and it was even to the extent that it would cause irreparable harm to her foundation.

So, he could only completely calm and merge the energies within Ming in one go, and only then could he resolve everything once and for all.

At this moment, both Chen Xi and Ming were like clay statues that sat cross-legged on the ground. They seemed to be calm and tranquil from the outside, but a battle between energies was actually being carried out within her.

Swoosh! Swoosh!

A wave of rapid and ear piercing spatial fluctuations resounded, and then numerous figures appeared out of thin air in the distance.

There were over 10 figures in this group. All of them were clothed in rags yet their auras were extremely dangerous. They were at the Universe Enlightened Ancestral God Realm at least!

Especially the huge and robust bale man in the lead who was over 10m tall. He actually possessed the imposing aura of an Imperial Monarch!

The muscles on his bare upper body seemed like they were made of copper, his pupils were red as fire, and he had a prickly beard. His thick arms that seemed like stone pillars were covered in blood red chains that had a metallic gleam.

He seemed like a ferocious barbarian from the primitive times, and he had a violent, arrogant, and bloodthirsty aura.

As soon as they appeared here, their gazes had locked onto Chen Xi and Ming, and they were quite surprised when they noticed Chen Xi and Ming's appearances.

"A pair of man and woman?" Some were stunned.

"Motherfucker! Who said that a heaven defying divine treasures appeared here? Where is it?" Others cursed.

"Wait! These two don't seem to be from the Grand Heaven Mine. What are they doing here?"

"Could they have seized the treasure?"

"How terrifying was the Lightning of Heavenly Wrath from last night? All of us didn't dare to approach this place for a very long time, yet these two people have arrived here before us. There's definitely something strange about it."

All of them discussed animatedly while their gazes towards Chen Xi and Ming carried slight surprise and bewilderment. They were unable to discern exactly where Chen Xi and Ming had come from.

Because Chen Xi had gathered all his strength to help mind resolve the danger she faced within her body, his aura was completely restrained to the point these cultivators were unable to discern anything by solely sensing the imposing aura he displayed.

"Hehe. Interesting! How many years has it been? The Grand Heaven Mine has always been filled with laborers those that were captured and brought here. I've never seen anyone who comes here on their own accord to suffer here." Suddenly, the bald man who led the group spoke with a ghastly smile on his face, and he revealed a mouthful of snow white teeth.

"Lord Kui Sen, what should we do? Should we report this matter to...." A emaciated man with a hideous appearance spoke in a low voice while a sly expression flashed in his eyes. However, he hadn't finished speaking when he was interrupted by the bald man.

"No. It's just a pair of dogs that came out of nowhere. There's no need to bother the Lord priests!" The bald man called Kui Sen spoke with a savage expression. "Most importantly, the two of them appeared

here after the heavenly lightning descended last night. So, if there really had been some sort of heaven-defying divine treasure, then it was definitely taken by them!

As soon as these words were spoken, the gazes the others shot towards Chen Xi and Ming had changed. There was a little less surprise and bewilderment, and there was a little more greed and viciousness.

“Look, we’ve already arrived here for so long, but they actually remain indifferent. Perhaps they were injured by the heavenly lightning last night while seizing that divine treasure and are busy recuperating.” Kui Sen’s expression grew even more ferocious while his fiery red pupils were filled with a bloodthirsty and vicious aura.

Sure enough, the others noticed that the pair of man and woman had remained motionless after they arrived here, and it was like the two of them hadn’t noticed their arrival.

Are they feigning ignorance, and have they really suffered a heavy injury like Lord Kui Sen said?

“Ba Ming, go capture the two of them.” Kui Sen spoke in a low voice. His cautiousness made him forcefully restrain himself from acting himself.

Ba Ming, the hideous and emaciated man, hesitated for a moment before he chuckled with a savage smile on his face. “That’s exactly what I intended to do!”

As he spoke, his figure flashed through the air, and then he suddenly clawed with his fingers, causing an expanse of jet black divine radiance to sweep out like a large net that enveloped down towards Chen Xi and Ming.

Swoosh!

Right at this moment, Chen Xi who was originally motionless like a statue had suddenly opened his eyes, and then a strand of cold lightning surged out from within them. The lightning tore through the sky and blasted the jet black divine radiance into powder.

This scene immediately shocked Kui Sen and the others.

“Don’t tempt fate!” Chen Xi glanced coldly at them before he closed his eyes once more.

Just these words that were complimented by Chen Xi’s extremely indifferent gaze caused the expressions of many to change, and they felt fearful in their hearts.

“What an arrogant fellow!” Kui Sen’s face fell, and then he ordered once more. “Ba Ming, capture them!”

“My Lord....” Ba Ming was hesitant. Chen Xi had crushed his attack into powder with just a single gaze, and this made him arouse a feeling of danger while apprehension filled his heart.

“Hurry up!” Kui Sen glared while flames seemed to burn within his pupils, and it was like it was on the verge of incinerating the sky itself.

“Alright!” Ba Ming gritted his teeth while surging jet black light erupted from his entire body, and he withdrew a black streamer that flickered brilliantly as he waved it with force.

Swish!

Numerous strands of baleful energy charged out like smoke from within the streamer, and it was accompanied by the ferocious and vicious wails and howls of ghosts as it corroded and melted that expanse of space.

However, this attack hadn't even accomplished anything when Chen Xi and Ming's figures had actually vanished from the ground ahead, and it was like they'd evaporated into thin air.

Ba Ming's heart couldn't help but twitch when he witnessed this. He realized that the situation was bad, and his soul almost left his body.

"Watch out!" A wave of exclams of surprise sounded out by his ears. Ba Ming was just about to dodge when a strand of indescribably terrifying energy smashed forcefully against him from behind.

In the next moment, it was like he'd been tossed flying. The heavens and the earth spun in his vision while his mind droned, and then his vision darkened as he immediately lost consciousness.

In the eyes of everyone else, it was like Ba Ming had just attacked when the man who was like a statue had suddenly appeared behind Ba Ming. After that, the mind flicked his sleeve lightly, and then Ba Ming was blasted flying like he'd flicked off a speck of dust and Ba Ming had vanished into the distance....

The most inconceivable part was that the man had actually constantly kept one of his hands on the woman's shoulder without moving it at all.

Hiss!

All of them gasped. How formidable! Ba Ming was a peak Universe Enlightened Ancestral God, yet he'd been instantly blasted away like a speck of dust and had vanished in the horizon. Is that a little too terrifying! Who exactly is he? How formidable is his cultivation?

At this instant, even Kui Sen's pupils couldn't help but constrict while his ferocious and savage expression changed indeterminately. He said in a low voice, "Who are you? Why have you come to the Grand Heaven Mine?"

Ba Ming's miserable defeat allowed him to realize how extraordinary Chen Xi was, and he felt fortunate that he hadn't been impatient and acted on his own.

The other cultivators shot their gazes over as well.

Ming and Chen Xi remained seated cross-legged in space, and they maintained the same completely motionless state from before. It was like they were completely unaware of everything that occurred around them.

But at this moment, no one dared to underestimate them.

No one spoke, so it was equivalent to directly disregarding Kui Sen's question. This made his ferocious expression turn slightly gloomy, and he said coldly, "Friend, don't blame us for being merciless if you still refuse to speak!"

He was still ignored.

Half of Ming's Origin Energy had merged with the other energies within her body, and she was on the verge of success. So, how could Chen Xi have the mood to pay attention to anything else.

The bale man, Kui Sen, was merely a Third Star Imperial Monarch, and such a combat strength was nothing to Chen Xi.

As for the others, they were even more beneath his notice.

Under the gazes of everyone present, Chen Xi and Ming remained indifferent, and it made it seem like Kui Sen was talking to himself. The scene here was indescribably strange and embarrassing.

All of this infuriated Kui Sen even more. He was annoyed to the extreme, and he spoke in a ghastly and ferocious tone. "Friend, this is the Grand Heaven. You've caused a lethal calamity to befall yourselves by rashly entering this place! If you continue refusing to realize your mistakes, then the consequences will be worse than death!"

The hearts of the others shook. All of them had discerned that Kui Sen was furious and had aroused killing intent.

But even then, they were surprised to see that Chen Xi and Ming still seemed indifferent and as if they hadn't noticed at all.

Kui Sen's gaze became extremely icy cold when he witnessed this scene, and he gestured to the others and shouted explosively. "Attack together and capture these bastards alive!"

His figure flashed and was the first to set out while his 10m tall figure that was robust like a small hill emanated dazzling golden light.

Bang!

He made a clawing motion with both hands. A sun and a moon revolved respectively in each of his palms, and they emanated a myriad of Divine Dao Laws that formed into terrifying divine radiance before blasting down towards Chen Xi and Ming.

Right at this moment, Chen Xi who'd stayed motionless like a statue until now had finally moved.

He withdrew his palm from Ming's shoulder and stood up, and then his dark and deep eyes opened up before they locked coldly onto Kui Sen.

This string of movements was completely smoothly and naturally, yet they were done at an extraordinary speed and had been completed in an instant.

"I gave you a chance, but you didn't cherish it. Looks like I can only send you on your way." Chen Xi flicked his sleeve once more amidst his calm and indifferent voice, and the movement of his hand was casual and otherworldly.

However, Kui Sen actually seemed as if he'd been struck by lightning. His eyeballs bulged from their socket, his face warped, and his entire body stiffened as if he'd encountered something extremely terrifying.

Bang!

After that, his 10m tall figure exploded into pieces, and it transformed into a blood misty that dyed that expanse of space red. It was a gorgeous yet horrifying scene.

A monstrous and arrogant Third Star Imperial Monarch had actually been annihilated just like that!

When the other cultivators who were about to attack with Kui Sen witnessed this scene, it terrified them to the point they couldn't help but shudder and feel like they'd fallen into an icy pit.

Talisman Emperor

Chapter 2076

An expanse of deathly silence filled the surroundings, and only the whistling of the wind could be heard.

The figures of all the cultivators had stiffened while terror drowned their hearts.

If Ba Ming's death just now might have been because he was taken by surprise, the Kui Sen's death wasn't a fluke at all!

He annihilated a Third Star Imperial Monarch with a flick of his sleeve! Exactly how formidable is his cultivation to accomplish that?

At this moment, Chen Xi seemed to have transformed into an unfathomable and terrifying figure in their eyes, and he was filled with an aura of danger.

They didn't dare act rashly nor did they dare to seize this moment to flee. Because they were clearly aware that fleeing before Chen Xi was no different than courting death!

Chen Xi's reaction towards all of this was very calm and composed, and it was like he'd done something that couldn't be any more ordinary.

"How do you feel?" When Chen Xi turned around and moved back to where he was just now, he saw that Ming had already woken up, and she was staring at him with her pair of pitch black and pure eyes.

"Thank you." Ming spoke lightly. Her countenance still seemed pale while her ink black brows were filled with exhaustion and weakness that couldn't be eliminated.

Even though Chen Xi had helped her deal with the danger she faced just now, she was still unable to fully recover for a while, and she needed some time to meditate and recuperate.

Fortunately, merging with the Origin Energy had allowed the injuries within her body to be completely healed, and she didn't have to worry about any injury to her foundation.

"Is there any need for such words between the two of us?" Chen Xi smiled. In the end, Ming agreed to his suggestion to enter the region within his body to recuperate.

...

After he finished doing all of that, Chen Xi's gaze shot once more towards those cultivators.

He noticed that while their cultivations weren't bad and were at the Universe Enlightened Ancestral God Realm, their clothes were tattered. Moreover, they didn't seem like arrogant fellows and seemed like a group of bandits instead.

Chen Xi said, "Now, I have some questions to ask all of you. I'll let all of you live if your answers satisfy me, otherwise...."

"Senior, please go ahead. Please go ahead." Those cultivators had nodded and agreed in succession before Chen Xi could even finish speaking, and they seemed humble and fearful.

Chen Xi said frankly, "Where is this place?"

"The Grand Heaven Mine."

"Where exactly is it located?"

"We don't know. We've only heard that the Grand Heaven Mine is the place where the energy of the Heaven Dao is densest, so peerlessly rare treasures are frequently born here."

"Oh, then how did all of you get here?"

"We...."

At this point in the conversation, a complicated expression had appeared on all their faces, and there was resentment, anger, bitterness, and frustration on their faces.

Right when Chen Xi was quite curious in his heart, he heard one of them speak. "To tell Senior the truth, we're laborers that were captured and forced to work here. So, it's probably impossible for us to leave this place throughout our lifetime."

"Laborers?" Chen Xi's eyes narrowed. "Who's behind all of this?"

"The Sovereign Sect." Those cultivators had spoken at practically the exact same moment.

Chen Xi's heart shook. Never had he imagined that this mysterious Grand Heaven Mine would be under the Sovereign Sect's Control.

The most absurd part of it all was that he'd been pursued all the way by the Sovereign Sect while he was travelling to the Ancient God Domain from the Primal Chaos Origin, and he'd been forced into the Origin World in the end.

Yet now, both he and Ming had just left the Origin World yet had unexpectedly arrived within the territory of the Sovereign Sect. This clearly showed how unreal the matters of the world were.

However, Chen Xi didn't think it was a coincidence!

For the sake of guaranteeing his safety during his journey, only a few existences within the entire Chen Clan knew of his departure from the Primal Chaos Origin.

However, it just so happened that the Sovereign Sect had been waiting for him on the way like it could predict the future, and this clearly showed that someone had exposed information about him in secret.

According to Chen Xi's deduction, the greatest suspect for this was the Supreme Elder of the Chen Clan, Chen Lingkong!

In the same way, their arrival at the Grand Heaven Mine which was under the Sovereign Sect's control right after they left the Origin World was absolutely not a coincidence.

After all, the descent of heavenly lightning from Godsbane Heaven right after they left the Origin World was very unusual.

Now, after he found out that the Grand Heaven Mine was under the Sovereign Sect's control while the Sovereign Sect was like Godsbane Heaven's guard dog, Chen Xi was able to roughly guess the reason when he thought about it carefully.

The Origin World's existence had definitely been noticed by the Godsbane Heaven for a long time, and that was why a huge amount of the energy of Godsbane Heaven densely covered its surroundings.

The so-called Grand Heaven Mine was one of these places. As the Sovereign Sect which 'upholds justice on behalf of the Heaven Dao', perhaps it wasn't aware of the Origin World's existence, but it would definitely not hesitate to carry out the will of the Heaven Dao.

After that, all of these things before him had occurred.

As for the peerlessly rare treasures those cultivators spoke of, it was very understandable. Because such a huge amount of Godsbane Heaven's energy covered this area, so it would definitely give birth to numerous divine treasures.

However, Chen Xi hadn't imagined that the Sovereign Sect would actually capture these cultivators as laborers to help it unearth and discover divine treasures.

...

When they saw Chen Xi fall into silence for a long time, those cultivators couldn't help but become slightly anxious and bewildered.

One of those cultivators wasn't able to restrain himself and said, "Senior, you killed Kui Sen just now, so it probably won't be long before those Priests of the Sovereign Sect will realize it and rush over here...."

"I understand." Chen Xi directly interrupted that cultivator. "How huge are the Sovereign Sect's forces here in the mine? Who's the strongest amongst them?"

Those cultivators were stunned. If the combat strength Chen Xi revealed earlier wasn't too formidable, they would have been doubted their ears.

This Senior before us was able to arrive here, yet he doesn't know how many forces the Sovereign Sect has stationed around here?

However, when they thought about how Chen Xi wasn't even aware of the Grand Heaven Mine's name, those cultivators came to a slight understanding, and they instinctively taken Chen Xi to be an expert who'd arrived here by mistake.

"We don't know exactly how many forces the Sovereign Sect has stationed here. However, according to our knowledge, the strongest is a red robed Grand Priest who's a Ninth Star Region Lord! The other priests of the Sovereign Sect address him as Lord Lin Dong." A middle aged man with a capable aura said, "Besides Lord Lin Dong, there are numerous other red robed Grand Priests at the Imperial Monarch Realm. They manage the various areas within the Grand Heaven Mine, and it's precisely because of their presence that all of us who've been captured and brought here have never been able to escape."

"A Ninth Star Region Lord and numerous Imperial Monarchs?" Chen Xi couldn't help but feel slightly surprised because such a force could be considered to be extremely formidable. Why would the Sovereign Sect dispatch such massive forces to guard this place? Could it be merely for the sake of unearthing even more divine treasures? It's definitely not so simple! Chen Xi pondered deeply for a moment before he asked another question. "Do any of you know the way back to the Imperial Region?"

The Imperial Region?

Those cultivators instantly determined that this Senior before them was definitely a great figure from the Imperial Region.

"Senior, so long as you can leave this place, then I should be able to determine the way back to the Imperial Region!" Meanwhile, a grey clothed man stepped forward, took a deep breath, and spoke slowly. Even though his clothes were tattered, his movements were steady, and he was clearly a rather impressive expert in the past.

The other cultivators instantly came to an understanding when they heard this. This fellow intends to seize this opportunity and allow this Senior to bring him along as this Senior escapes! When they thought up to here, some felt envious, yet most felt indifferent. This was the Grand Heaven Mine, and it was the Sovereign Sect's territory while no one had escaped since the ancient times until now. So they felt that no matter how formidable this Senior was, it was impossible for him to resist the Sovereign Sect by himself!

So, the grey clothed man was clearly desperate by acting in this way!

Chen Xi noticed the minute changes in the others' expressions, yet he didn't say anything and just gazed at the grey clothed man and said, "Oh, what's your name?"

"I'm Yea Ze," said the grey clothed man.

"Yea Zhe? Are you a descendant of the Eternal Yea Clan?" Chen Xi seemed to be lost in thought.

"Yes." Ye Ze seemed to be very calm. This surname of his was very unique, and only the Eternal Yea Clan possessed it within the entire Imperial Region, so it was very easy for others to guess his identity.

"Then do you know Yea Chen?" asked Chen Xi.

"Yea Chen is my cousin brother," said Yea Ze, and then he seemed to have realized something and raised his head. "Senior, you know my cousin brother?"

Chen Xi nodded. "We're friends."

The others couldn't help but feel a wave of envy when they heard this. How could they have imagined that this Senior would actually be friends with Yea Ze's cousin brother? Their relationship has gotten even closer now.

Even Yea Ze couldn't help but be stunned. No matter how he wracked his brains, he was unable to figure out when his cousin brother had become friends with such a formidable and monstrous figure.

Meanwhile, Chen Xi's brows raised as he said curiously, "The Sovereign Sect actually dares to act so fearlessly and even dared to capture a member of your Yea Clan?"

As soon as these words were spoken, all of them actually gazed at Chen Xi with a strange gaze, and it was like they felt this question was very immature.

“Senior, you’re probably unaware but the Ancient God Domain is covered in unrest and endless slaughter. The flames of war have raged throughout it, and it isn’t as calm as it used to be.” Yea Ze took a deep breath and explained. “This chaos can be said to be unprecedented, and even the Imperial Region has been affected. With the Sovereign Sect fanning the flames to the chaos, even Oracle Mountain, Nuwa’s Dao Palace, the Divine Institute, and the Dao Institute were unable to keep out of it and have been swept into the vortex of this storm.”

“Chaos has erupted throughout the Ancient God Domain?” Chen Xi’s heart shook fiercely, and he almost didn’t dare believe his ears. I’ve only left for a few years, yet such an incident has actually occurred in the Ancient God Domain? Why has this happened? Could it be because the Calamity of the Last Days is arriving?

For a time, all sorts of thoughts arose in Chen Xi’s mind, and he was slightly stunned. This piece of information was too sudden to him, and it had even caught him a little of guard.

Yea Ze seemed to have not noticed anything unusual about Chen Xi and continued. “All of us suffered sneak attacks from the Sovereign Sect during this chaos, and we were unfortunately captured by them.”

The other cultivators had sorrowful and resentful expression that revealed indescribably hatred. Lives were like grass amidst troubled times, so could anyone avoid this monstrous storm?

A long time later, Chen Xi took a deep breath and muttered. “If it’s really like that, then I must leave this place as soon as possible....”

[Talisman Emperor](#)

Chapter 2077

Chen Xi suddenly felt a sense of urgency when he found out that such an unexpected change had occurred in the Ancient God Domain.

Especially when he heard that even Oracle Mountain had been unable to avoid being swept into it and had been swept into this chaos. Chen Xi even started to unconsciously worry for his Eldest Senior Brother and the others.

“Lead the way. Let’s go.” Chen Xi took a deep breath while a firm expression arose in his eyes.

“How?” Yea Ze was stunned. After all, it was the Grand Heaven Mine that was heavily guarded by the Sovereign Sect, and no one had been able to escape since the ancient times.

Under such circumstances, shouldn’t we make some proper plans and strategize before we act? Or perhaps this Senior has already perfected a way out? Impossible! He doesn’t even know the Grand Heaven Mine nor does he know exactly how many experts that Sovereign Sect has stationed here, so how could he have possibly thought of a perfect plan?

Yea Ze was dazed.

The cultivators in the vicinity were stunned as well. They hadn't expected that Chen Xi would actually be so decisive and intended to leave just like that. Does he not know how severe the consequences would be if he's noticed by those experts from the Sovereign Sect?

Chen Xi didn't waste his breath at all.

Clang!

He withdrew the Talisman Armament that he hadn't utilized for a very long time, and his gaze was like a bolt of lightning as he said frankly, "How will we leave? We'll naturally kill our way out!"

His voice was flat yet carried a resolute and decisive tone.

Kill his way out!?

At this moment, even Yea Ze couldn't help but arouse a trace of regret in his heart. Why did I rashly agree to this madman's request just now? If only I knew that this would happen! I should have been more cautious!

Yes, Yea Ze had instinctively taken Chen Xi to be a madman when he heard Chen Xi. Otherwise, would a normal person speak such absurd and practically stupid words in such a situation?

Kill his way out? Does he think those experts of the Sovereign Sect are just decoration? There's even a Ninth Star Region Lord amongst them! Unless it's a Daolord, would anyone dare to brag about killing their way out? Could this fellow be a Daolord? He clearly isn't! Then why does he dare to boast like that? He's clearly mad!

These were Yea Ze's thoughts right now, and he felt extremely regretful and upset.

However, he'd already agreed, so it was clearly impossible to go back on his word now. Thus, he could only forcefully suppress the emotions in his heart and speak after careful consideration. "Senior, do you want to give it a little more consideration? If we do that...."

Swoosh!

He hadn't even been able to finish speaking when he saw Chen Xi suddenly raise his hand. Chen Xi grabbed his clothes, and then tore through space and teleported towards the distance.

From the beginning until the end, he hadn't given Yea Ze any room to struggle.

"Senior! Senior! Acting in this way will only kill both of us! No!!! I regret my decision! Please put me down...." Yea Ze's howls and wail resounded from afar as he begged Chen Xi, and the other cultivations couldn't help but be visibly moved by this.

"Kill his way out? I never expected that fellow to actually be a madman!"

"Exactly. That's no different than walking into a trap and courting death. Poor Yea Ze, he urgently desired to escape this place, yet never had he imagined that he would cause himself to lose his life in advance."

"But that fellow's combat strength was truly shocking. He annihilated a Third Star Imperial Monarch like Kui Sen with a flick of his sleeve. That isn't something an ordinary figure can accomplish."

Those cultivators discussed animatedly. Practically all of them didn't look favorably upon Chen Xi, and they even felt pity towards Yea Ze who'd been 'taken' away by Chen Xi.

"No, I'm going to have a look. If that fellow is able to kill his way out successfully, then perhaps he'll be able to provide us with a chance at escape as well." Suddenly, a cultivator stepped forward and then teleported towards the direction which Chen Xi had left towards.

This scene instantly astounded the others, and then they started contemplating in their hearts as well.

Right, if that fellow were to succeed, then it would be an absolutely rare chance for us to escape! What should I do? Should I follow him and have a look? Even if that fellow really fails, I presume I wouldn't be killed if I don't head over to lend him a hand.

When they thought up to here, some of them couldn't help but say. "Alas, I've had the best relationship with Yea Ze in the last few years. Now that he's in a dangerous situation, how can I possibly stand by idly? Nevermind, I'll head over to take a look and await an opportunity to act. It was great if I'm able to rescue him."

As he spoke, divine radiance flowed throughout his body, and he'd transformed into a wisp of light that whistled towards the distance.

"Ptooey! What a stupid excuse! That fellow really is shameless." One of the others had spat on the ground.

However, to his surprise, his voice hadn't even finished resounding through the air when a few more cultivators had flashed towards the distance in pursuit.

That cultivator couldn't help but gaze at the others who remained here. "All of you... intend to go have a look as well?"

However, they couldn't even be bothered to pay any attention to him, and they shot off in pursuit while seeming to be in a hurry.

"What..." Only that cultivator remained on the spot. His expression changed indeterminately for a long time before he gritted his teeth in the end, and then he teleported through space while he muttered angrily. "Fine, I'll fucking risk everything as well. Dammit! I would have gone after him a long time ago if I knew all of you would act like this...."

...

Swoosh!

Space fluctuated as the scenery in the surroundings flashed by.

As he teleported forward, Chen Xi noticed to his surprise that the Grand Heaven Mine was extremely wide, and it seemed boundless.

He raised his head to glance at the sky yet noticed that it was completely grey and dim without any stellar bodies within it. The entire sky was covered by a layer of extremely thick, dignified, and dense energy of the Laws and Order of the Heaven Dao.

It was the aura of Godsbane Heaven!

This caused Chen Xi's heart to tremble, and he started to make the energy of the Dao Seal Mark which was already covering his entire body to circulate to the extreme. He was deeply afraid that a trace of his aura would be exposed and noticed by the Order and Laws of the Heaven Dao, causing it to send down lightning to kill him again.

Even though he'd fully merged the Origin Energy within his body, the crux of the matter was that the Core of the Origin World still resided in the region within his body. It was the Laws and Order of the Origin Heaven, so it was obvious how terrifying the consequences would be if it were to be noticed by Godsbane Heaven.

"Senior! Senior! You can't do this! You're my cousin brother's friend, so how can you drag me to hell with you? That's very unjust and not something a friend would do...." Yea Ze muttered while being carried like a little chick by Chen Xi. His expression was dim and dejected, and he seemed to be failed with despair and sorrow as if he were at a funeral.

"It's exactly because I take your cousin brother to be a friend that I'm rescuing you, but you're ungrateful instead. It truly makes me quite disappointed." Chen Xi searched the path ahead as he spoke.

Yea Ze almost started crying when he heard this, and he begged. "Please let me go. I don't want to die earlier. I still have my parents, wife, child...."

"Shush!" Chen Xi suddenly stopped moving.

Yea Ze was stunned. When he saw the situation ahead clearly, he instantly opened his eyes wide while a chill ran down his spine.

Numerous figures had appeared in the distant horizon, and they were like numerous dazzling, blazing, and scorching suns that moved through the sky.

All of them wore dark robes. Surprisingly, they were the Universe Enlightened Ancestral God Realm experts of the Sovereign Sect who were stationed in the Grand Heaven Mine!

Especially the figure in the lead. He wore a red robe, had a mighty figure, and a monstrous aura. Obviously, he was a red robed Grand Priest of the Sovereign Sect who was at the Imperial Monarch Realm!

Yea Ze had witnessed Chen Xi's combat strength, so he was very clearly aware that this group of experts from the Sovereign Sect were no match for Chen Xi.

The true source of his worry was that along with this scene, it meant that they'd been completely noticed by the Sovereign Sect!

The most damnable part of this was that he was still being carried by that madman! So, if the madman were to die, then he, Yea Ze, would definitely be dragged down by the madman!

Yea Ze's heart was filled with sorrow when he thought up to this point.

“Yea Ze! Who’s he? What happened earlier? Why did Kui Sen’s aura suddenly vanish?” That group from the Sovereign Sect had noticed Chen Xi and Yea Ze, and they whistled over while the red robed Grand Priest’s dignified, cold, and indifferent voice sounded out before they could even arrive.

“Lord Yun Qi, I....” Yea Ze opened his mouth and intended to say something, but a wisp of extremely dazzling and thick sword qi had soared through space. It pierced his eyes to the point they hurt, and he wasn’t able to see anything any longer.

Bang!

A monstrous wave of air rumbled towards the surroundings like scorching flames surged through a plain or snow covering the sky. From the beginning until the end, there was no sound of battle or collision, and there were no shrill cries as well.

In merely the time of a single breath, everything had returned to calm.

When Yea Ze opened his eyes once more, he was unable to notice any traces of those experts from the Sovereign Sect, and the only thing within his field of vision was a chaotic expanse of space that had collapsed into rifts!

Yea Ze immediately gasped with his mouth wide open. As a Universe Enlightened Ancestral God, how could he be unaware that those experts from the Sovereign Sect had been annihilated by that strike?

Moreover, they didn’t even have any room to struggle! Otherwise, it was absolutely impossible for not even the slightest shrill cry to have resounded!

This fellow... is simply ruthless! Yea Ze was shocked.

Before he could even recover from his shock, Chen Xi had continued flashing ahead as if nothing had happened.

That calm, composed, and relaxed expression caused Yea Ze to be dazed. Who exactly is this fellow? How formidable is his cultivation?

It wasn’t Yea Ze’s fault, nor was he ignorant. It was because the energy of the Daoseal Mark had suffused Chen Xi’s entire body. So, not to mention him, even a Daolord would probably be unable to detect Chen Xi’s true strength.

No matter what, even if he was shocked in his heart, Yea Ze couldn’t help but feel worried and anxious when he thought about how a Ninth Star Region Lord was in charge of the Grand Heaven Mine.

Yea Ze took a deep breath and spoke seriously. “Senior, these fellows are merely trash to you, and they are nothing worth mention. If you stop now, then perhaps there’ll be a slight chance to turn the situation around. Because we can discuss it from the start and create a reliable and detailed plan of escape. Otherwise, if we are to encounter some formidable figures....”

Swoosh!

Before he could even finish speaking, his body was lifted up into the air by Chen Xi who’d suddenly sped up, and then the violent streams of air that flew against him had shot into his mouth, causing him to

cough incessantly to the point even tears had started to flow from his eyes. He wasn't even able to speak a single word....

Talisman Emperor

Chapter 2078

It wasn't long before Chen Xi noticed something special about the Grand Heaven Mine.

It was like a boundless continent that was sealed off by dense and powerful energy of the Heaven Dao. This meant that he had to locate the exit if he wanted to leave.

But where's the exit?

Chen Xi had asked Yea Ze about it on the way, and the latter told Chen Xi in a tone which was practically filled with despair that the Grand Heaven Mine probably had many exits. However, according to his knowledge, the only definitely safe exit was set up where the Ninth Star Region Lord of the Sovereign Sect, Ling Dong, cultivated!

When he heard of this, Chen Xi decided without the slightest hesitation that they would kill their way out from there!

On the other hand, Yea Ze almost collapsed when he found out about Chen Xi's decision.

After all, it was the place of cultivation that belonged to a Ninth Star Region Lord, and it was even a core stronghold of the Sovereign Sect here with countless forces guarding it. So, wasn't leaving from there no different than leaping into the mouth of a tiger?

However, Yea Ze was clearly unable to change Chen Xi's decision, so he'd practically given up on struggling throughout the way, and he seemed to be filled with despair as if he'd fully accepted his fate. He stopped pleading and stopped feeling worried....

This made it much more peaceful for Chen Xi. He hadn't expected that this fellow who seemed so steady would actually be so timid.

Actually, Chen Xi had misjudged Yea Ze. If it were any other ordinary person in Yea Ze's place, that person would probably act in the same way.

After all, the forces of the Sovereign Sect were too formidable, and there was even a red robed Grand Priest at the Ninth Star Region Lord Realm managing the Sovereign Sect's forces here, so just that was sufficient to throw most into despair.

Under such circumstances, it was truly impossible for others to understand Chen Xi's decision to kill his way through such forces.

It wasn't long before a group of experts from the Sovereign Sect appeared once more.

This was clearly a mining area, and Chen Xi could see many cultivators in rags that were moving about like laborers.

Chen Xi and Yea Ze's sudden arrival instantly drew the attention of those experts from the Sovereign Sect.

Swoosh!

Unfortunately, Chen Xi didn't even give them the chance to ask a single question, and he just raised his sword and swung it horizontally.

A storm of blood sprayed towards the surroundings while space shattered apart, and all of those experts in the group hadn't had the chance to react before they'd been easily annihilated by Chen Xi.

After he finished doing all of that, Chen Xi didn't slow down at all as he continued flashing forward, and he simply emanated a fierce and ferocious aura of advancing forward without any obstruction.

"My god!"

"Who's that fellow? He actually slaughtered the experts of the Sovereign Sect. Is he looking for death?"

"How many years has it been? A madman that dares to resist the Sovereign Sect has finally appeared again. Come, let's follow him and watch."

"What's the point of watching? Weren't all those fellows who dared to resist the Sovereign Sect crushed in the end and perished with everlasting regret?"

"Alas, that's true. Our fates were sealed once we were captured and taken to the Grand Heaven Mine, and all struggling is in vain."

"But no matter what, this is a fresh incident that has occurred in the recent years. So even if there's no hope, it doesn't hurt to follow and watch the outcome."

After that group of experts from the Sovereign Sect had been slaughtered, it instantly caused an uproar amongst the cultivators in this area.

Just like Yea Ze's companions, they chased after Chen Xi as well because they wanted to see how great the commotion Chen Xi caused would be, and whether Chen Xi would be crushed just like those fellows in the past.

...

Two hours later.

Chen Xi couldn't even remember how many members of the Sovereign Sect he'd annihilated all along the way. In any case, those he encountered were bound to suffer death.

At this moment, he was like a sharp awl that met no resistance and seemed utterly invincible, and he'd caused a bloody storm and countless uproars all along the way.

Chen Xi hated the Sovereign Sect to the bone, so he didn't need any reasons to kill them, nor did he have to think about it. He was unable to forgive himself if he didn't eliminate the entire Sovereign Sect.

After all, the Sovereign Sect had schemed against him on numerous occasions throughout the years, and it had repeatedly caused him harm!

So, he couldn't rest at ease without washing them off with blood!

As Chen Xi moved forward incessantly, the calm throughout Grand Heaven Mine had been destroyed, and it started to become chaotic.

The experts of the Sovereign Sect that stood on guard at the mine were clearly aware that after numerous years had passed, someone intended to break his chains and resist them again.

However, unlike the years of the past, the commotion created by this person was extraordinarily huge. It had continued for an entire two hours of time, and that madman had actually not been stopped.

That was quite unusual.

“Quickly report this to Lord Lin Dong!”

“Besides that, gather all our forces throughout the mine and make them converge!”

“Warn those laborers that they’ll be immediately killed if they dare to add fuel to the flame and cause trouble right now!”

“Quickly! Hurry up! Act immediately!”

Orders like these had started to appear successively throughout every single area of the mine. All the experts of the Sovereign Sect who were scattered throughout the mine were like sharks that had sensed blood, and they set out and converged from numerous different areas.

At the same time, those cultivators throughout the Grand Heaven Mine who’d been captured and forced to serve as laborers here had successively obtained news about this. All of them exploded into uproars. Some sighed, some felt indifferent, and some clicked their tongues in admiration.

In the history of the mine, such an incident had occurred on more than one occasion, but it had always been swiftly suppressed and no one had ever been able to leave alive.

Would the outcome be different this time?

No one dared to be sure, and it was even to the extent that many didn’t hold much hope.

However, numerous cultivators had still been driven by their curiosity and intentions to watch they show, and they rushed over successively. They wanted to see exactly who was it that had caused such a commotion and if that fellow would suffer the same fate as those in the past.

...

If one looked down from the sky, one could clearly notice that numerous rays of light had arisen throughout the Grand Heaven Mine, and they were converging like streams towards a single point.

These rays of light belonged to the forces of the Sovereign Sect that were stationed here in the mine. They were originally scattered throughout it, but they’d converged together now because of this unexpected event.

On the other hand, Chen Xi was moving forward constantly in a straight line. He’d started killing his way forward from extremely far away, and he was ceaselessly charging towards the center of the mine!

If he was still not stopped, then it wouldn't be long before this blood red straight line would charge into the central area of the mine. At that time, the situation would be much more severe.

...

At the core area of the Grand Heaven Mine.

The area here was empty, and there was only an extremely striking, grand, and ancient palace standing towering here.

This was the where the red robed Grand Priest of the Sovereign Sect, the Ninth Star Region Lord Lin Dong, cultivated at.

Since the Grand Heaven Mine had been discovered all those years ago, Lin Dong had been dispatched here to manage the entire mine.

Throughout the countless years of the past, none of the cultivators which the Sovereign Sect had captured and sent to Grand Heaven Mine had been able to escape while the mine was under Lin Dong's control.

Never!

This fact undoubtedly and indirectly displayed how formidable Lin Dong's ability and strength were.

At this moment, Lin Dong had one of his hands behind his back as he held a brush with his other hand, and he was writing something on a fine and white piece of paper within the palace.

The tip of the brush was soaked in ink which was scarlet red like blood. No, that was the actual blood of gods, and it was taken from the cultivators that had resisted his rule.

The blank paper was fine and smooth, and it was made from the skin of gods. Of course, it was removed from those cultivators as well!

The blood of gods as ink and the skin of gods as paper. It was a truly horrifying sight. However, Lin Dong remained composed as if he was accustomed to this and enjoyed it.

His face was fair and handsome, and he had slanted and sharp brows, starry eyes, red lips, white teeth, and dense jet black hair. Even though he was wearing a blood red robe, his entire body was covered in the aura of a refined scholar.

If one didn't know him, one would think that Lin Dong was a refined and learned scholar who possessed an extensive knowledge in literature and scriptures.

However, those who truly knew him were aware that he was definitely a cold blooded and merciless demon that killed without batting an eyelid!

Swish! Swish! Swish!

As Lin Dong moved the tip of the brush, a row of scarlet red words appeared on the 'skin paper'....

"Lightning of calamity descended from the sky last night, and it's a truly rare occurrence. According to my subordinates, it should be the birth of a peerless treasure...."

Lin Dong's brush suddenly stopped when he wrote up to this point, and then he frowned. It should be? Could they have still not found out exactly what it was? Lin Dong didn't like vague answers. Regardless of whether it was an important or trivial matter, he wanted an accurate and precise outcome and not a guess!

It was precisely such a meticulous attitude that allowed Lin Dong to feel a sense of absolute control, and he was unable to tolerate any uncertainties.

Even if it was a trivial matter!

"Looks like I've been lenient with my subordinates...." Lin Dong placed his brush down on the table as he sighed lightly, and then he turned around and walked to the side. There was a bookshelf there, and it was covered in numerous pieces of skin that he'd written on.

The content of those skin was extremely simple. It was a record of the changes in the Order and Laws of the Heaven Dao above the Grand Heaven Mine, and he recorded every single change in it.

This was a request of the Sovereign Sect's Master, and he'd been constantly doing this since he was sent to the Grand Heaven Mine.

He didn't know why the Sovereign Sect's Master made such a request, but he didn't dare go against the Sect Master's will. So, he'd been constantly doing this throughout the countless years of the past, even if it were boring and dull.

"I have to send the latest changes in the Heaven Dao to the Sect Master tomorrow, so I must get to the bottom of this matter...." Lin Dong muttered as he withdrew his gaze from the bookshelf.

Right at this moment, a wave of rapid footsteps resounded from outside the palace, and then an anxious voice entered it....

"My Lord, another madman that has violated the rules and intends to flee has appeared in the mines again!"

Lin Dong frowned when he heard this, and then he said slowly, "Looks like I really have been too lenient to all of you. You even have to report such a trivial matter back to me? What a disappointment!"

His voice was warm and calm, but it carried coldness that struck directly at the heart!

Talisman Emperor

Chapter 2079

Swish!

Sword qi shot towards the surroundings like bolts of lightning, and they crushed everything standing before them!~

As Chen Xi travelled forward all along the way, expanse after expanse of space was crushed into powder and transformed into an area of desolation; group after group of experts of the Sovereign Sect were slaughtered. From the beginning until the end, they didn't even have the chance to struggle against him.

His green clothes fluttered along with his jet black hair while his expression was calm and indifferent, and his eyes that seemed like two deep abysses didn't reveal even a trace of emotion.

He was like a god of death who had emerged from the boundless pits of purgatory, and everywhere he passed was bound to be covered in a storm of blood and annihilation!

The Talisman Armament's clear howls resounded through the heavens and the earth, and it sounded like bloodthirsty howls.

Kill! Kill! Kill!

There was no surging hot blood or shouts that were filled with passion. From the beginning until the end, Chen Xi had remained silent, and he was cold like a blade made from ice as he slaughtered his way forward.

Just one man and a sword had caused a merciless slaughter!

...

Exactly how strong was Chen Xi right now?

Even he didn't know the answer to that.

Because his strength had clearly been transforming incessantly throughout these few dozen years, and it had transformed at a speed that was much faster than before.

He'd advanced into the Sixth Star Region Lord Realm while at the Chen Clan within the Primal Chaos Origin. Now, he was an Eighth Star Region Lord, and this string of changes had occurred in just a few dozen years!

Being able to accomplish this in such a short period of time was unimaginable to any Region Lord!

It was even to the extent that a peerless monstrous genius like Chen Xi who advanced so quickly in the Region Lord Realm couldn't be found throughout the annals of history.

Or perhaps, Chen Xi's speed of advancement could be described as unprecedented!

After all, every single advancement in the Region Lord Realm was extraordinarily difficult. If it was any other ordinary cultivator, then it could be described as astounding if one were able to advance a single level within 1,000 years. It was even to the extent that those who advanced every 10,000 years were still considered as outstanding.

But... Chen Xi had merely utilized a few dozen years, and he'd even advanced by two levels in succession!

How could this not be shocking?

The fuel for all of this was none other than the Era Brands and Origin Energy.

Comprehending, refining, and absorbing the inheritances of the civilization within every single Era Brand could make Chen Xi's cultivation undergo a transformation without facing any obstructions.

Such an exceptional and unprecedented fortune was something that other cultivators were utterly unable to possess.

For example, Chen Xi had comprehended, refined, and absorbed the Seal of the Shaman, the Seal of the Martial, and the Seal of the Illusion, and there were another five Era Brands within the River Diagram fragments that he hadn't utilized yet.

Besides that, the 3 years he experienced in the Origin World had allowed him to obtain an enormous amount of Origin Energy essence. After he merged this Origin Energy essence with the energies within his body, it had caused his cultivation to break through once more and attain the Eighth Star Region Lord Realm.

Of course, the merge with Origin Energy was that simple. It had provided immeasurable benefits to Chen Xi's cultivation in the Dao Heart, body refinement, soul, and so on and so forth. It caused Chen Xi's to undergo a comprehensive and shocking transformation.

So, when he faced a change in strength that transformed so swiftly and rose steadily, even he didn't know exactly how strong he was!

Just think about it, while he was still at the Sixth Star Region Lord Realm all those years ago, Chen Xi had relied on the Godslaughter Burst to defeat Chen Qiushui and Chen Xiaoyun who were Eighth Star Region Lords, and then he'd even fought a Ninth Star Region Lord like Chen Daoyuan equally.

Yet now, he possessed a cultivation at the Eighth Star Region Lord Realm, so how formidable would his combat strength be?

...

Yea Ze's mind was blank.

Chen Xi had been carrying him by his clothes all along the way, and it was very aggrieving to him, yet he wasn't able to struggle free. However, when he saw Chen Xi break through all obstacles with all-powerful and invincible might, he was shocked to the point he couldn't be bothered about to aggrievance he felt.

He was unable to image how those experts of the Sovereign Sect who were usually so awe-inspiring would seem so weak right now. They were simply like crops that were being reaped in bunches, and it was simply inconceivable.

However, as a descendant of the Eternal Yea Clan and a Universe Enlightened Ancestral God who possessed extraordinary accomplishments in battle, Yea Ze was able to clearly realize that it wasn't those experts of the Sovereign Sect who'd become weak, and it was Chen Xi's combat strength that was truly too formidable.

They weren't existences on the same level at all!

Of course, all of that wasn't enough to make Yea Ze shocked to the point his mind became blank. The true source of his shock was that over 2 hours had passed now, but the forces of the Sovereign Sect had actually been unable to crush Chen Xi until now, and they weren't even able to stop his footsteps.

That was simply inconceivable!

According to Yea Ze's knowledge, amongst all the cultivators who'd intended to escape the Grand Heaven Mine like Chen Xi, the cultivator who'd persisted for the longer had merely persisted for 45 minutes before being crushed.

That person was reputed to be the cultivator who had the best chance of escaping the Grand Heaven Mine throughout history. Unfortunately, he'd still perished.

Yet now, Chen Xi had actually persisted for over 2 hours and even swept through all obstacles that laid before him. So, how could anyone not be shocked?

Yea Ze thought in his heart. Could it be that this fellow really has a chance to kill his way out of here and escape?

However, when Yea Ze thought about how a Ninth Star Region Lord, Lin Dong, resided at the core area of the mine, the trace of hope that had arisen within his heart had been instantly extinguished while his face dimmed down.

What difference does it make even if he kills so many? He can't avoid failure in the end....

Yea Ze sighed in his heart.

...

Along with the passage of time, numerous cultivators were following Chen Xi from behind.

All of them were the laborers that had been captured and brought here. As Chen Xi continued fighting through the mine, their interests had been aroused, and they intended to watch the conclusion to all of this.

"How many has he killed?"

"86 Universe Enlightened Ancestral Gods and 5 Imperial Monarchs."

"My god! This fellow is simply too ferocious! Do all of you think he'll be able to succeed in the end?"

"It's difficult, very difficult. The true Region Lord Realm experts amongst the forces of the Sovereign Sect stationed here haven't made a move yet."

"Let's not mention all of that. Just Lin Dong is sufficient to crush all hope!"

"Alas. No matter what, this fellow is much stronger than those fellows in the past. I really hope he'll be able to kill his way out of here."

"Shhh! That doesn't look good! Quickly look over there! My god!"

Those cultivators were discussing animatedly when one of them suddenly seemed to have noticed something, and he quickly warned the others.

All of them raised their eyes to look over, and they saw a spacious area appear within their fields of vision. Moreover, numerous figures had gathered at this spacious area.

There were over 30 figures amongst them. All of them wore blood red robes, possessed monstrous imposing auras, and revealed an arrogant bearing of supremacy as they stood there casually.

Imperial Monarchs! Over 30 of them!

The hearts of those cultivators who were following Chen Xi from behind shook, and they felt a chill run down their spines. After all, every single existence who could don red robe in the Sovereign Sect was at least at the Imperial Monarch Realm!

It was even to the extent that there might be some Region Lords amongst them!

This scene had truly surprised those cultivators, and it was the first time they realized that there were actually so many red robed Grand Priests of the Sovereign Sect in the Grand Heaven Mine!

In the past, they'd been forcefully sent to various areas and lost their freedom. So, it was impossible for them to find out exactly how many red robed Grand Priests resided in the mine.

They were only able to obtain bits and pieces of information and various guesses of their own.

So, that was the reason why they'd lost their composure and felt so shocked when they saw a group of red robed Grand Priests appear here at this moment.

This allowed them to finally realize why no cultivator had ever escaped the Grand Heaven Mine since the ancient time!

At this moment, a single thought had simultaneously arisen in all their hearts while they gazed at Chen Xi's figure in the distance — That fellow is probably finished!

...

On the spacious and boundless area were no mountains or streams, and there was only a dark, grey, and desolate scene.

This place could be considered to be the core area of the mine, and according to the information that Yea Ze provided Chen Xi, the palace Lin Dong resided in was within this area.

If Chen Xi wanted to leave the mine, then he had to kill his way into the palace, kill Lin Dong, and then take the safe exit that led towards the outside world.

Chen Xi's footsteps paused for a moment when he arrived here. His black pupils swept like a bolt of lightning towards those red robed Grand Priests who'd clearly been waiting here for a long time.

At this moment, Yea Ze couldn't help but raise his head to observe Chen Xi's expression carefully. However, he noticed that Chen Xi was still calm and indifferent as before. It was like Chen Xi didn't possess any emotions and was a machine of battle that felt nothing, and there was no change in his emotion from the beginning until the end.

Yea Ze couldn't help but feel dazed in his heart. The true attack has arrived, but how could this fellow still maintain such calm and composure? Could he be unafraid of death?

Swoosh!

Yea Ze didn't even have time to recover from his shock when Chen Xi's figure started moving again and flashed forward.

He was all alone, and he was even holding someone that couldn't be of any help in his left hand. However, he seemed as if he hadn't noticed the danger ahead and was continuing forward.

This scene instantly stunned all the cultivators that were at the back. Isn't this fellow a little too ferocious?

"Interesting."

"Looks like it is this fellow."

"He killed so many of ours. So, we can't sentence him to death so quickly."

"Yes. Perhaps we can pull out his tendons and skin, and then cage his soul amidst Skyspace Gales to suffer the pain of eternal damnation. Only in that way could we make an example of him and deter the others."

The eyes of those red robed Grand Priests narrowed when they saw Chen Xi's figure appear here, and they revealed a wisp of undisguised icy coldness and killing intent.

Especially when they saw Chen Xi flash towards them without saying a single word. It caused their expressions to grow even more icy cold.

This was like a silent form of provocation, and it was contempt towards them!

This fellow is really courting death!

[Talisman Emperor](#)

Chapter 2080

Swoosh!

Space fluctuated as Chen Xi pressed down towards them.

Yea Ze's entire body felt cold while he couldn't help but close his eyes, and he howled with sorrow in his heart. "I'm going to die! I'm going to die! I'm really going to die now...."

Being disregarded like that caused one of those red robed Grand Priests of the Sovereign Sect to be unable to restrain himself anymore, and he suddenly shouted in an icy cold voice. "Bastard! Stop...."

Pu!

He hadn't finished speaking when a strand of sword qi had appeared out of thin air, and it seemed like a wisp of ethereal light that had drowned out all other light within the entire world.

A bloody hole directly appeared on that Grand Priest's neck, and then his eyeballs bulged out from their sockets while the vitality within his entire body was obliterated. He perished on the spot!

An Imperial Monarch like this had actually been killed in an instant!

Even if Chen Xi had accomplished this on numerous occasions all along the way here, when they saw Chen Xi remain firm and ferocious even when in such a situation and kill a red robed Grand Priest in such a cold and decisive manner, it still caused those cultivators to gasp and feel astounded.

Isn't this fellow a little too decisive? He didn't even say anything....

Those Grand Priests of the Sovereign Sect were shocked. They instinctively circulated their cultivations and withdrew their respective treasures.

Chen Xi had attacked too quickly, and it had caught them off guard just now. So, they were unable to stop all of that from happening, and this made them extremely furious and shocked.

Another Grand Priest roared furiously. "How dare you! You actually still refuse to realize your mistakes when it has come to this...."

Pu!

Another strand of sword qi flashed like an illusory shadow that was simply otherworldly.

After that, the neck of that Grand Priest was slashed before he could even finish speaking, and his head flew into the air while blood sprayed throughout the surroundings.

It was too terrifying!

Every single attack reaped a life, and none were shown mercy!

All of this caused the eyes of the remaining Grand Priests to almost split apart from rage while killing intent surged within them. They didn't waste their breaths again and immediately attacked.

Bang!

All sorts of supreme techniques shot into the sky and seethed with multicolored and blazing divine radiance that illuminated the world.

The attacks of Imperial Monarchs could instantly incinerate mountains, boil oceans, destroy the stars, and crush the moon. They possessed boundless might, and it was even a group of Imperial Monarchs attacking right now!

The scene here was clearly 10 times more terrifying, and if this occurred in the outside world, then it would definitely cause a calamity.

Most importantly, there weren't just Imperial Monarchs amongst those red robed Grand Priests, and there were even Region Lords amongst them!

Now that all of them had attacked at once by executing all sorts of supreme technique through various weapons and treasures, the might created by it instantly covered the heavens and the earth here, and it seemed like the world was about to be obliterated!

"Shit!"

"Retreat! Quickly!"

The cultivators who were following Chen Xi from behind were instantly terrified by this astounding scene to the point their souls almost left their bodies, and they hurriedly dodged towards the side in extreme panic.

After all, it was a joint attack by over 30 red robed Grand Priests of the Sovereign Sect. Once they were struck by the aftershock of the battle, they would definitely perish on the spot!

However, their worries were clearly very unnecessary. Because right at the instant that they'd dodged, a wave of a powerful, clear, and melodious howl of the sword resounded abruptly, and it was deafening as it resounded through the heavens and the earth.

Moreover, this howl of sword was accompanied by a wave of muffled sounds that resounded rapidly like a drum.

After that, all those cultivators noticed to their shock that Chen Xi was flashing through the group of Grand Priests, and his sword danced about while emanating a myriad of strands of sword qi.

At that instant, it seemed like a storm of sword qi had covered the world!

They could clearly see numerous supreme techniques being destroyed while divine artifacts were being slashed apart one by one, and then Grand Priest after Grand Priest weren't able to dodge in time and their bodies were riddled with holes from the storm of sword qi!

The rain of sword qi was so ferocious and terrifying, and it simply seemed all-powerful!

String after string of blood erupted like fireworks, The scarlet red spray was a gorgeous yet horrifying sight, and it was like numerous blood red fireworks erupting in midair.

It was an extremely horrifying scene!

After all, it was over 30 red robed Grand Priests who were all at the Imperial Monarch Realm, and there was even no lack of Region Lords amongst them.

Yet now, they seemed so weak and powerless beneath the rain of sword qi that Chen Xi created, and they'd been torn apart like paper without the slightest ability to resist!

A rain of blood poured down while shrill cries rose and fell, and corpses crashed down incessantly.

At this moment, that area seemed like it had transformed into an extremely bloody purgatory while Chen Xi who held the Talisman Armament was like a merciless and cruel asura, and he was slaughtering all those who lived before reaping their souls!

The bodies of those cultivators stiffened while indescribable coldness surged from their hearts and covered their entire bodies, causing them to be unable to help but shudder while their pupils dilated.

It was unimaginable to them!

They'd witnessed Chen Xi killing all along the way, but when they saw him still able to kill with such ease and in such a direct manner when facing those red robed Grand Priests, they were unable to find a word that could describe the shock in their hearts right now.

Who exactly is he? Exactly how formidable is his combat strength?

At this moment, Chen Xi's image in their eyes had become mysterious, dignified, cold, and horrifying.

In merely a short moment, the howls of the sword had suddenly stopped and there wasn't a single red robed Grand Priest left!

The ground was drenched with blood and covered in piles of severed limbs, bones, and divine artifacts that were damaged and dim.

Only Chen Xi stood all alone there with his sword in hand while his green clothes and long hair fluttered. Moreover, he was still holding onto Yea Ze's clothes with his other hand.

He was completely untainted by blood, yet his enemies had been annihilated!

Only deathly silence remained in the surroundings. All the cultivators in the distance were stunned speechless, and it was like they were still unable to believe everything they'd witnessed.

On the other hand, Yea Ze was horrified to the point his countenance was ghastly pale, and his mind was blank. As he smelt the dense and pungent smell of blood in the surroundings, he suddenly had a strong feeling to vomit, and it caused his expression to grow even more unsightly.

He really had been terrified. Chen Xi killed in a way that was too fierce and domineering. As he watched a group of enemies being mercilessly chopped apart like weeds, the strong visual impact he experienced caused Yea Ze to find it difficult to control his emotions.

Who could have imagined this? Who could have imagined that this fellow would actually be so ferocious and annihilate so many red robed Grand Priests? No, it wasn't an annihilation, it was a slaughter! A one-sided slaughter! An absolute slaughter! Bang!

Right amidst this deathly silent atmosphere, an expanse of jet black lightning clouds suddenly surged over from far away in the horizon.

The lightning clouds surged and flickered with a terrifying aura of destruction. It instantly covered the heavens and the earth, and it caused the entire world to be filled with an oppressive pressure.

In an instant, the expressions of all the cultivators in the distance had changed.

Chen Xi raised his head while his black pupils focused on the lightning cloud in the distance, and his handsome face that was calm and indifferent face still remained tranquil as before.

Bang!

Lightning surged and rumbled through the heavens and the earth, and the sound it emanated grew even more shocking. It was simply like the heavens were furious and shook the world.

A strand of lightning that was dazzling like the scorching sun had appeared far away in the horizon. If one looked carefully, one would be able to notice a mighty figure walking over slowly from afar.

His entire body was bathed in arcs of lightning as he strode through space. A single step of his was definitely accompanied by a myriad of arcs of lightning that even space couldn't obstruct, and everything seemed to bow in submission. It made him seem so dignified and divine.

He had a handsome appearance and a refined bearing. Even though he wore a red robe, every single move he made carried an extraordinary and otherworldly aura.

“Lin Dong!” The figures of all the other cultivators shook while horror surged into their hearts. The words Lin Dong represented a cold and ruthless demon.

He was an overlord at the Ninth Star Region Lord Realm who had managed the Grand Heaven Mine for countless years!

Until this very day, not a single captured cultivator had ever been able to escape the Grand Heaven Mine that was under his control!

Now, when they saw Lin Dong suddenly make an appearance while being covered in lightning, all the cultivators even had a strong impulse to turn around and flee!

This was Lin Dong’s power and influence, and it was the imposing presence of a Ninth Star Region Lord!

Will that fellow be able to survive when facing Lin Dong?

No one knew the answer to this question.

At this moment, Yea Ze’s heart was filled with despair while despair and helplessness filled with eyes as well. Because Lin Dong’s arrival represented their death!

While it seemed to take some time, it had actually occurred in an instant, and Lin Dong had already arrived here when terror arose in their hearts.

“Looks like I blamed them unjustly. They weren’t too indolent, and it was because a ruthless variable appeared within the mine.” A shocking cold glow arose in Lin Dong’s eyes as he swept his gaze through the surroundings, and he instantly determined that his subordinated had died miserably here.

A wisp of coldness couldn’t help but surge onto his refined, warm, and handsome face, and his gaze was like a sharp blade as it locked onto Chen Xi.

In an instant, boundless killing intent surged explosively from Lin Dong’s body. It caused the heavens and the earth to wail while the surroundings were thrown into disorder!

“Bastard! Speak your name....” Lin Dong spoke indifferently like a supreme emperor issuing a decree.

However, he hadn’t even finished speaking when Chen Xi who was standing there motionlessly had suddenly slashed with his sword.

Swoosh!

The sword qi was simple, faint, and filled with a primitive and natural aura. It seemed to be extremely simple and without any strength at all.

However, the heavens and the earth seemed to have fallen into a frozen state when it was executed, and only a strand of a clear and melodious howl of the sword reverberated.

Hmm? Lin Dong’s pupils constricted.

He raised his fair palm with the intention of grabbing this strand of sword qi.

“Eh!” However, his pupils constricted again after merely an instant passed. He seemed to have noticed some sort of danger, and then a dazzling and exquisite bronze shield appeared in his palm.

“Wait!” When the wisp of sword qi was about to strike him, Lin Dong’s expression had changed a little once more, and it was like he’d noticed that something was off.

He didn’t hesitate to evade towards the side.

However, at the very same time, a howl suddenly resounded from that strand of sword qi, and then it sped up abruptly and flashed by.

Swoosh!

An extremely dazzling glow of the sword suddenly erupted, and even Lin Dong’s eyes couldn’t help but narrow while indescribable horror arose in his heart.

He felt that something was slightly off, but he was unable to put a finger on it.

This sort of tiny change caused Lin Dong to feel an unprecedented feeling of discomfort, and it was like an uncertain ripple had arisen in a situation that he possessed absolute control over.

What’s going on? Could I have underestimated my opponent?

At this instant, all sorts of thoughts flashed through Lin Dong’s mind.

Pu!

After that, he felt a strand of warmth that was bloody and hot spray onto his face. He swiftly lowered his head, and only then did he notice a headless body crashing to the ground....

Lin Dong’s expression instantly changed!
