Chapter 441: Merciless Fire and Water

As soon as the Darjin Dynasty's Crown Prince became displeased, the atmosphere instantly became heavy.

The gazes of Cui Xiuhong, Wei Muyun, and Leng Qianqiu were suffused with cold lights as they glanced towards Chen Xi and Young Master Zhou with hostile expressions.

"Daoist Brother Pei Yu, these two are the genius experts of my Darchu Dynasty, and their cultivations are deep. We'll be encountering countless dangers while we explore the Isle of Fallen Treasures, so we're stronger with every additional member." Huangfu Qingying's heart jerked when she saw Pei Yu was displeased, and she explained hurriedly.

"Oh? So they're people brought over by you, Qingying. Alright, I won't fuss about it with them for your sake." Pei Yu's expression eased up as a warm smile hung once more on the corners of his mouth, and then he swept Chen Xi and Young Master Zhou with his gaze. His gaze seemed calm, yet it faintly contained a trace of warning.

This was something that Chen Xi and Young Master Zhou naturally perceived, and besides feeling furious in their hearts, they couldn't help but arouse vigilance.

But they had to admit that Pei Yu was a formidable figure indeed. He first put on a display of power to the two of them without discriminating between right or wrong, and then he used Huangfu Qingying to ease up the tension at the scene. Not only did he declare the absolute strength he possessed, he even did Huangfu Qingying a favor, and it could be said as killing two birds with one stone, allowing them to catch a glimpse of how deep and experienced his scheming abilities were.

"Earlier, Huangfu Qingying introduced them and said this Chen Xi's cultivation is even superior to Qing Xiuyi. I wonder if it's true or not. If it is, then he does indeed possess the qualifications to come along with us, and if it isn't, then I feel it's better if he leaves as soon as possible." The silver robed Cui Xiuhong spoke out abruptly.

"What? Is that true?"

"He isn't inferior to Qing Xiuyi? Doesn't that make him a peerless genius as well? Qing Xiuyi is a reincarnated Heavenly Immortal who possessed peerless ability, and she enjoys a great reputation that isn't inferior to all of us in the various Dynasties."

"Is he really so formidable?"

"Wouldn't we know with a simple test?"

"I truly never expected this. I originally thought the Darchu Dynasty only had a single peerlessly dazzling genius like Qing Xiuyi, yet never had I imagined that someone even more formidable than Qing Xiuyi has appeared."

Wei Muyun and Leng Qianqiu who'd come along with Pei Yu were figures that belonged to the ranks of peerless and monstrous geniuses. At this moment, they were slightly doubtful when they heard Cui

Xiuhong's words, and they looked at Chen Xi with a gaze that carried a trace of doubt and contemplation as they discussed.

On the other hand, a trace of a strange light flickered out from Pei Yu's eyes when he heard this, yet he didn't say anything and carried a graceful appearance that was indifferent like water.

"Hmph! I don't believe you're really so formidable. Since it's like this, then I'll test your cultivation and see if you're really a genius or a charlatan!" Wei Muyun suddenly stepped out as his vital energy instantly locked onto Chen Xi, and then his right palm grabbed out in midair, causing an enormous palm that was coiled in dazzling divine lights to tear through the sky.

This person actually disregarded everything and made a move directly, causing how arrogant and overbearing his disposition was to be obvious!

Rumble! The enormous palm soared through the sky while radiating golden light, and it was like a golden platform that had descended from the heavens while emitting a vast and sharp aura as it enveloped down directly. The space in the surroundings were crushing into pieces by it, and its impetus was shocking to the extreme.

"Want to test my cultivation? Have you asked for my consent?!" Presently, Chen Xi had already confirmed that joining forces with these people to explore the Primitive Sea was absolutely an act of assisting someone that would stab them in the back at any moment. This could be discerned from their attitudes and coupled with them repeatedly provoking Chen Xi and Young Master Zhou in a short period of time, no matter how indifferent his disposition was, he couldn't help but be furious in his heart.

At this moment, when he saw Wei Muyun provoke him directly, Wei Muyun was simply like a punching bag that had sent itself over for him to vent his fury, so how could Chen Xi hesitate? He took a step forward right away before smashing his fist out.

Its speed was exceedingly slow, yet it gave others the feeling that it couldn't be escaped. It seemed like the boundless world and everything in the surroundings was locked onto by this punch.

Bang!

This simple and ordinary punch could even be described as plain, but everywhere it passed, the space in the surroundings of the punch collapsed and shattered inch by inch before fluttering about chaotically and being obliterated.

At practically the exact same time, a terrifying force that was filled with the energy to obliterate everything blasted out from Chen Xi's fist and transformed into two flows of air. One flow was vast and surging, and it contained the Water Dao Insight; the other flow was raging and violent, and it contained the Fire Dao Insight. They were like two dragons of fire and water that collided with each other, clashed, shook, and whistled out.

Chen Xi struck out with rage, and he'd executed the first move of the Grand Obliteration Fist that he'd comprehended — Merciless Fire and Water!

The Grand Obliteration Fist was obtained by Chen Xi from Qian Yuan's Treasure Vault. Even though it was merely a Half-step Dao Grade martial technique, its might was extraordinarily great, and its

utilization of Dao Insight had even attained an unprecedentedly terrifying height that was simply unbelievable. Even an old fellow like Ji Yu who'd lived for a million years praised it endlessly upon sight.

This fist technique only contained a mere three moves — Earthly Obliteration, Chaotic Obliteration, and Infinite Obliteration. But every single move was stronger than the previous. Chen Xi had spent an entire few years on this Grand Obliteration Fist, yet up until now, he'd only grasped the utilization technique of two of the moves in this fist technique by relying on his comprehension ability.

Thus, the profoundness of this fist technique was obvious from this.

Moreover, this was the first time in many years that Chen Xi had executed the Grand Obliteration Fist before others! After all, this was one of his trump cards, and he'd not even used it in the Allstar Meeting.

Bang!

The might of the fist was boundlessly vast as it shattered space and swept over to intercept the dazzling and enormous palm that struck straight at him. The enormous palm was shattered with a single strike, whereas, the remaining strength of Chen Xi's fist didn't fade away and penetrated through before directly enveloping Wei Muyun's body.

"Shit!" Wei Muyun felt apprehensive in his heart as he noticed how terrifying this punch was, and he retreated repeatedly, moving explosively by 3km with every step. At the same time, an exceedingly enormous golden wheel appeared before him, and it was like a millstone that surged with talisman markings while emitting a golden light that shook the sky.

"When the golden wheel is in the air, freedom exists. Spin and crush the world!" He shouted out explosively in succession as his hands swept out repeatedly, and the golden wheel suddenly expanded to become like a dazzling sun that hung in the sky and blocked before his body.

"This is... The perfect Dao Grade martial technique, Freedom Goldwheel Technique! This is a trump card of Brother Wei's!"

"According to rumor, this technique contains the perfect Grand Dao of Metal. Once it's executed, it crushes everything in all directions, and Brother Wei had relied on this technique to win the fifth ranking in the younger generation of our Darjin Dynasty."

Cui Xiuhong and Leng Qianqiu spoke out in astonishment, and their tone contained deep fear towards Wei Muyun. But most astonishing to them was that Chen Xi had actually forced Wei Muyun to execute his killer move with a single strike, and this similarly caused them to be shocked.

"Isn't Chen Xi skilled in the Sword Dao? Why is his fist technique so terrifying as well?" Huangfu Qingying knew Chen Xi's strength extremely clearly. At this moment, when she saw that he didn't utilize the Sword Dao nor the School of Fiendgod Body Refinement's Divine Abilities, and he actually struck out with a fist technique that had so easily deal with Wei Muyun's attack, how could she not be shocked in her heart?

"Chen Xi is the number one expert of our Darchu Dynasty, so how could we be able to know how many trump cards he possesses?" Young Master Zhou sighed with emotion. Even though he spoke like this, he was extremely shocked in his heart as well.

“Merciless Fire and Water, Earthly Obliteration! Freedom Goldwheel? It can’t escape the calamity of fire and water as well! Obliterate!” Before he executed it, Chen Xi’s Grand Obliteration Fist wasn’t pure, and it was because it was the first time he was using it against an enemy. But at this moment, once he achieved success with a single move, it instantly developed various variations, causing him to become even more proficient in it, and he’d obtained extremely great amounts of benefit and comprehension from live combat.

Chen Xi strode out once more as his body and the strength of his fist directly shattered the golden wheel that was like a sun, causing a rain of light to spray out as its Dao Insight dispersed. It completely obliterated Wei Muyun’s martial technique, causing it to dissipate in the sky and transform into nothingness.

The Freedom Goldwheel was actually unable to withstand a single strike of the Grand Obliteration Fist!

“What? What fist technique is this? Its might is actually so terrifying!” Even Pei Yu’s eyelids twitched as he started pondering swiftly while trying to learn and pry into a bit of the profundity of Chen Xi’s fist technique.

But he found nothing. Chen Xi’s fist technique actually seemed as if it didn’t exist in the world, and with Pei Yu’s wisdom, he was actually unable to discern the origins of this fist technique.

Bang!

Chen Xi’s second fist was the same move, yet its might couldn’t be compared to before. The might of the fist tore through the sky and actually carried a trace of a terrifying feeling of wanting to obliterate the world and make everything return to silence. After it shattered the dazzling golden wheel that was like the sun, it continued sweeping out and blasting forward.

This time, Wei Muyun wasn’t able to avoid it as well, and he gritted his teeth before going head on with it. But he’d obviously underestimated how terrifying this fist was.

Crack!

His arms broke as his entire body was directly blasted flying, and his countenance went pale as a mouthful of blood sprayed out from his mouth to taint the sky red.

Merely two strikes had blasted flying the peerless genius that was ranked the fifth in the Darjin Dynasty!

Chapter 442: The Overbearing Chen Xi

Rumble!

Not only had the might of Chen Xi’s second strike utterly defeated Wei Muyun, its aftershock spread out to the surroundings of the isle, shaking the sea water to the point of collapsing and shocking waves to pierce through the sky. The peerless might of the fist even affected the depths of the sea, causing some aquatic beasts and demon beasts 3km beneath the sea to be instantly shaken to death, and corpses of various sizes floated up to the surface and tainted the nearby sea red.

“This...this.... What fist technique is this?”

“Fire and water originally conflicted each other. But in this strike, the Grand Dao profundities of fire and water that were two extremes were combined together. Such a martial technique is exceedingly terrifying indeed.”

“He actually defeated Wei Muyun in two punches, then exactly how formidable is his strength?”

At this moment, the gazes of Cui Xiuhong and Leng Qianqiu actually had a trace of terror, whereas, the nearby Pei Yu’s pupils constricted as well, and the warm smile that hung on the corners of his mouth froze abruptly.

He naturally knew Wei Muyun’s strength extremely well, and an existence that was capable of ranking the fifth amongst the younger generation of the magnificent Darjin Dynasty was naturally absolutely not someone an ordinary top expert could compare to. But at this moment, such an existence had lost at the hands of a genius expert from the Darchu Dynasty, and this simply caused him to slightly not dare believe his eyes.

He won! Amazing! Young Master Zhou was happy to the point he almost cried out. Chen Xi defeating Wei Muyun so straightforwardly was equivalent to helping him vent his hatred as well, so how could he not be delighted in his heart?

I never expected that he’d concealed his strength so deeply... If he utilized a terrifying fist technique like this in the Allstar Meeting, then he’d probably have won even more easily. Huangfu Qingying was extremely shocked.

Chen Xi stood on the spot as a shapeless aura that revealed peerless might was emitted from him.

His cultivation should be almost on par with Wei Muyun, because the latter was a peerlessly monstrous genius as well, and even if he was inferior to Chen Xi, it would merely be a tiny difference.

But cultivation was only cultivation, and it couldn’t decide the strength of one’s combat strength. Chen Xi deep understanding of the Sword Dao, his grasp of various top Divine Abilities, and his comprehension and cultivation of a formidable martial technique like the Grand Obliteration Fist caused his combat strength to be extraordinary and be the best amongst his peers. This gave him the qualifications to sweep through cultivators that possessed the same cultivation as him and reign supreme above other monstrous geniuses.

Even the Prince of the Full Moon Kingdom who possessed a Quasi Immortal Artifact had lost at Chen Xi’s hand, so the defeat of Wei Muyun was naturally expected.

“Chen Xi, please show mercy. If you kill this person, then it would probably destroy the alliance between us and Daoist Brother Pei Yu. It would be troublesome if that happened.” Huangfu Qingying noticed that Chen Xi seemed to have the intention to pursue and kill Wei Muyun, so she hurriedly sent a voice transmission to persuade him to stop.

“Young Princess, I’ll listen to you this time. But if an incident like this occurs again, then I hope you can maintain a neutral position. After all, we’re members of the Darchu Dynasty, and blindly protecting an outsider is hardly justifiable.” Chen Xi frowned and was slightly displeased with Huangfu Qingying’s attitude.

Earlier, he did indeed have the impulse to kill Wei Muyun. After all, this fellow didn't even ask him for a battle before making a move against him, and Wei Muyun's attitude was too despicable. If it wasn't him that was in this situation today and was another instead, then the person would have probably been fiercely trampled on and humiliated by this fellow. At that time, who would stop Wei Muyun?

As soon as he finished speaking, Chen Xi restrained his aura and once again recovered to his relaxed, extraordinary, and indifferent appearance. From his outward appearance, it was extremely difficult for others to believe that this was a top expert with peerless combat strength, yet it was precisely because of this that it caused others to feel even more fearful of him.

Meanwhile, Wei Muyun had crawled up from the ground and glanced resentfully at Chen Xi, and then he silently walked back to stand by Pei Yu's side like a rooster that had lost a fight and without the slightest trace of arrogance.

"What a formidable fist technique." Pei Yu was silent for a long time before finally speaking in the end. "I've read countless books and recognize the martial techniques and Divine Abilities throughout the three dimensions, and it's even to the extent that I vaguely know about the techniques left behind from the primordial era. But I've never see such a fist technique. May I know what martial technique this is?"

"No comment." Chen Xi replied indifferent and practically without the slightest thought. He naturally knew that Pei Yu wanted to use this to ease up the relationship between them, but he couldn't be bothered to pretend to be polite and compliant, and it was even to the extent that if it wasn't because of Huangfu Qingying, he would have left long ago.

"No comment?" Pei Yu was choked by Chen Xi's words, and a trace of rage flashed past his eyes. But he didn't flare up and changed to a light smile. "Looks like it's a secret of Brother Chen's, and it's I who has been rude."

Chen Xi once again sighed lightly in his heart when he saw this. Pei Yu is an extremely shrewd person that's able to put on airs and lower himself, and his self restraint and ability to utilize strategy is exceedingly extraordinary. I wonder if Huangfu Qingying is really lucky to have joined up with him.

But in the next moment, Chen Xi restrained his feelings, and then his eyes that were like bolts of lightning shot directly towards the nearby Cui Xiuhong before he said icy coldly, "Brother Cui, if it wasn't for you intentionally sowing discord, Brother Wei and I wouldn't have fought, and all these things after that wouldn't have occurred. Now we're already allies, so if you act like this again..."

Even though he didn't finish speaking, but the threatening and warning intent within his voice was revealed completely, and it was even slightly overbearing. He relied on the might he revealed after defeating Wei Muyun just now and seemed extremely overbearing.

Even Young Master Zhou seemed as if he'd met Chen Xi for the first time as he'd entirely never imagined that Chen Xi had such an overbearing side to directly threaten Cui Xiuhong before so many people without holding back in the slightest. The overbearing demeanor Chen Xi revealed caused him to feel extremely delighted in his heart.

He had no other choice. Huangfu Qingying's display before these genius experts of the Darjin Dynasty was slightly too weak, so he could only personally stand up and make a frontal attack. After all, if he

didn't warn Cui Xiuhong and these others that harbored ill intentions, many other incidents would probably occur in the future.

Actually, he originally didn't have to do this and didn't have to provoke so much trouble for no reason, but what else could he do when his relationship with Huangfu Qingying wasn't bad?

Most importantly, Emperor Chu had agreed to protect the safety of the Chen Clan, and this was an extremely huge favor, so it was impossible for Chen Xi to watch idly by as Emperor Chu's daughter was tricked by others.

Cui Xiuhong exploded into rage when he heard this!

He was a proud genius of the Darjin Dynasty, a peerless genius. Even though Chen Xi had revealed a sufficiently strong combat strength that caused him to feel deeply afraid, yet he wasn't a simple figure! So, how could he endure such a terrible humiliation? Instantly, his entire body surged with Sword Insight as he shouted. "Chen Xi, even if you're formidable and have defeated Wei Muyun, but I, Cui Xiuhong, am not necessarily afraid of you!"

"Really? Why don't we have a life and death battle, and we'll agree to disallow anyone else from lending a hand. How about it?" A trace of ridicule arose on the corners of Chen Xi's mouth. He'd long since discerned that Cui Xiuhong's nature was sinister and ruthless, and he was like cancer. If he wasn't eliminated as soon as possible, then there would be no end to future troubles.

"You..." Cui Xiuhong was stunned, and he was angered by Chen Xi to the point his face flushed red, and he gritted his teeth and said, "Why would I not dare? Come, come, come! Let's have a bloody battle that only one of us will survive from!"

"Alright, Brother Chen, give me some face and don't cause pointless battles, alright? Qingying, don't you think so too? We're joined together, and we're stronger the more people we have. If we fight chaotically with each other before we even enter the Isle of Fallen Treasures, then wouldn't others laugh their teeth off when they found out." At the critical moment, Pei Yu spoke out to stop the battle, and he even dragged Huangfu Qingying out as an excuse. Obviously, he'd noticed that Huangfu Qingying had a certain level of ability to affect Chen Xi.

"Alright, I'll give Brother Pei face." Chen Xi moved his gaze away from Cui Xiuhong and spoke indifferently.

"Hmph! I'll surely determine the victor between the two of us once we return from the Isle of Fallen Treasures!" Cui Xiuhong seemed to feel that his display earlier was too embarrassing, and he seized this opportunity to speak ferociously.

"You're very welcome." Chen Xi's gaze became even more disdainful as he'd perceived that this fellow was merely talking bullshit, and if the time really came, Cui Xiuhong would probably entirely lack the courage to wager his life.

"Alright, everyone, let's depart now. The Isle of Fallen Treasures is at the deepest depths of the Primitive Sea, and we have to pass through countless dangerous regions of the sea and there's even no lack of disaster that comes out of nowhere along the way. Everyone, you must be careful." Pei Yu glanced

deeply at Chen Xi before instructing, and then he flashed out on a golden ray that pierced through the sky and was the first to leave Stargaze Isle.

When they saw this, Wei Muyun, Leng Qianqiu, and Cui Xiuhong hurriedly followed up to him, and they flew onto the golden ray beneath Pei Yu. Actually, the golden ray was a rare flying magic treasure that was called the Golden Lightchaser Shuttle, and its speed was so swift that it was entirely capable of comparing with teleportation.

On the other hand, Chen Xi and Young Master Zhou stood on Huangfu Qingying's Thousandplume Dragonboat to follow Pei Yu.

Their group of seven consisted entirely of proud geniuses who were the top experts of the younger generation in their respective Dynasties. At this moment, they were converged together and were speeding to the depths of the Primitive Sea as they'd started their exploration towards the legendary Isle of Fallen Treasures.

Talisman Emperor

Chapter 443: Tempest of Sea Demons

Gales raged and muddy waves surged into the sky above the Primitive Sea, and the deeper they went, the more adverse the environment was.

It was even to the extent that the Necro Baleful Qi that was fused with the heavens, earth, and sea had condensed into numerous pitch black and dazzling bolts of lightning that flowed amidst the heavens, earth, and sea. If a cultivator was struck by it, the cultivator would probably have his vitality reaped away instantaneously and transform into a corpse that was suffused with the aura of death, causing it to be extremely terrifying.

Chen Xi had once captured a pitch black bolt of lightning like this with his bare hands as he wanted to see exactly what traits the Necro Baleful Qi possessed, yet he never expected that his entire right hand would instantly transform into a charred color like burnt charcoal before he inspected it, and it didn't possess the slightest vitality any longer.

Fortunately, his body refinement cultivation was already capable of allowing him to regenerate his body with his blood, and he promptly decided to let go of the pitch black bolt of lightning, allowing him to escape calamity. After that, he utilized his Blood Essence to reconstruct a right hand.

However, he didn't dare bother these pitch black bolts of lightning formed from Necro Baleful Qi any longer, as the strength contained within it was really a bit too terrifying.

"Brother Chen, why haven't I seen you execute the fist technique you utilized before?" After flying for about the time for an incense stick to burn, Young Master Zhou was slightly bored, and he couldn't help but engage in small talk with Chen Xi.

"This is an incomplete Dao Grade martial technique I've cultivated, and it's far from perfection." Chen Xi replied casually. The Grand Obliteration Fist was really only a Half-step Dao Grade martial technique. Moreover, it only possessed a mere three moves, and it didn't even possess the Obliteration Dao Insight. If he wanted to perfect it, then he probably had to comprehend Obliteration Dao Insight first.

Moreover, the Obliteration Dao Insight was similar to the Sword Dao and Devour Dao Insight he'd mastered, all of them were technique Dao Insights that belonged to the utilization of Dao Insights. Under the condition that one didn't possess the corresponding martial technique's assistance, it was extremely difficult to comprehend.

For example, because he possessed the Roc's bone that his Third Senior Brother gave him, Chen Xi was able to comprehend the Devour Dao Insight in an extremely short period of time. But the Obliteration Dao Insight was different. Up until now, Chen Xi hadn't seen a single martial technique that was related to the Obliteration Dao Insight.

"An incomplete Dao Grade martial technique? It can't be? You defeated that fellow, Wei Muyun, with two punches. This might is simply even more formidable than a perfect Dao Grade martial technique!" Young Master Zhou didn't believe it and kept having the feeling that Chen Xi had concealed his secrets rather deeply. But he didn't feel dislike towards it, because everyone had some secrets when wandering about outside, and if one didn't have secrets, one would have died since long ago.

"Chen Xi, were you angry at me on Stargaze Isle earlier?" Huangfu Qingying who'd been silent since leaving Stargaze Isle suddenly spoke out at this moment.

Chen Xi was stunned, and then he said while shaking his head, "No."

Huangfu Qingying laughed bitterly and said, "You surely dislike that I'm putting on a display that's too weak before Pei Yu and the others. But I have no other choice. Because I don't know the way to the Isle of Fallen Treasures clearly, whereas Pei Yu and these other genius experts of first-rate Dynasties possess slight traces of it. I have to rely on them to be able to step foot on the Isle of Fallen Treasures."

Before Chen Xi could speak, Huangfu Qingying continued and said, "Of course, Pei Yu and the others have surely roped me in for the sake of drawing support from my strength to help them explore the isle. I know all this, but I can only temporarily pretend to be polite and compliant until we enter the Isle of Fallen Treasures."

"So that's how it is." Chen Xi secretly heaved a sigh of relief. Finding out that Huangfu Qingying wasn't as simple minded as he thought caused him to feel a wave of relief in his heart, and he said while nodded, "I feel reassured after you've said this."

Young Master Zhou came to an understanding as well, and he couldn't help but say, "The Isle of Fallen Treasures is so important to actually make you inconvenience yourself like this?"

Huangfu Qingying had already recovered her previous expression at this moment, and she said with a smile, "That's because you don't know how shocking the treasures within the Isle of Fallen Treasures are. Amongst the shattered pieces of treasures left behind by the fallen gods of the ancient times, some are comparable to Quasi Immortal Artifacts, some have Grand Dao markings branded on them, and some even have Artifact Spirits living within them! It simply contains everything, and if we're able to obtain one or two them, it would be sufficient to provide boundless benefits to us."

Quasi Immortal Artifacts!

Grand Dao markings!

Artifact Spirits!

Every single one of these were filled with unparalleled temptation. Not to mention all of them being Golden Core Realm cultivators, even Earthly Immortal Realm experts would be unable to refrain from drooling and having their eyes go red from their covetous feelings.

All of this existed amongst the shattered pieces of treasures that were left behind by the fallen gods of ancient times, and it was hidden on the Isle of Fallen Treasures!

Up to this point, Chen Xi and Young Master Zhou had completely understood everything.

“If we’re able to seize the shattered pieces of treasures left behind by the fallen gods of ancient times after we enter the Isle of Fallen Treasures, I hope we can comprehend it together.” Huangfu Qingying put out an invitation.

“Alright!” Chen Xi and Young Master Zhou both agreed. This sort of temptation was truly too great, and they were unable to refuse it.

At the same time, Pei Yu, Cui Xiuhong, Wei Muyun, and Leng Qianqiu who were flying ahead were communicating via voice transmission as well.

“Crown Prince, you asked me to test this Chen Xi’s strength earlier, and it’s really deep and unfathomable. I’m not a match for him. If we enter the Isle of Fallen Treasures, you have to be on guard against this person.” Wei Muyun spoke via voice transmission.

“In a very ordinary Darchu Dynasty, not only have proud geniuses like Qing Xiuyi and Zhen Liuqing that have comprehended the profundities of the Light and Darkness Dao Insights appeared, there’s actually this Chen Xi that’s even more formidable than them. It’s truly peculiar.” Pei Yu’s gaze was deep as he spoke while seeming to be lost in thought. “Looks like what Imperial Father said is really correct. The Darchu Dynasty’s karmic luck has become more and more exuberant in these past few years, and it had arrived at an unprecedented height. Otherwise, it would be absolutely difficult for so many monstrous geniuses to appear.”

“Crown Prince, since Chen Xi is so formidable, why don’t we eliminate him as soon as possible, so as to avoid boundless troubles in the future?” Cui Xiuhong’s eyes flickered as he spoke in a ghastly tone.

Wei Muyun had lost at Chen Xi’s hands yet had only suggested that Pei Yu be on guard against Chen Xi, whereas, Cui Xiuhong directly suggested to kill Chen Xi, and this obviously showed how vicious and ruthless this person’s nature was.

“There’s no need for that, it’s better the stronger he is.” Pei Yu laughed with conceit, and then said slowly, “I still don’t take him seriously. Not to mention my Imperial Father had once bestowed a secret treasure to me before coming here, and its might can shake the world. It’s sufficient to kill Chen Xi countless times! So what’s there to worry about?”

A secret treasure!

Cui Xiuhong, Wei Muyun, and Leng Qianqiu’s eyes lit up and surged with excitement. Could the might of a secret treasure given by Emperor Jin be weak? It was even to the extent that they suspected this secret treasure ought to be a Quasi Immortal Artifact.

“How unfortunate. I agreed to forming an alliance with Huangfu Qingying this time because I originally thought she would be able to gather Qing Xiuyi and Zhen Liuqing over. But unexpectedly, I was still unable to meet them.” Pei Yu suddenly sighed as he seemed to have thought of something.

The others instantly went silent as all of them knew the nature of this Crown Prince of theirs. He was monstrously astute, possessed shocking strength and extraordinary natural talent, and he was practically a perfect dazzling genius. But his one and only flaw was that he was too amorous, and he intended to embrace and make concubines of all the extraordinary women in the world.

It was even to the point that long ago before entering the Primeval Battlefield, Pei Yu had already set an objective and intended to subdue the top proud female geniuses of the various Dynasties, and Qing Xiuyi and Zhen Liuqing were on his list of prey.

Cui Xiuhong’s eyeballs revolved as he suddenly said while acting surprised, “Crown Prince, I heard that Qing Xiuyi has long since had a son with Chen Xi, and they seem to be Dao Companions. Moreover, that Zhen Liuqing has an intimate and extremely dubious relationship with Chen Xi.”

Pei Yu’s face sank instantly. For the sake of obtaining Qing Xiuyi and Zhen Liuqing, he’d gathered countless amounts of information, so how could he not know these things?

But he was extremely shrewd, so he’d just concealed it within his heart and never revealed it. At this moment, when it was exposed with a few words by Cui Xiuhong, he couldn’t help but feel a wave of irritation in his heart, and dense killing intent instantly arose in his heart as he said with a cold gaze, “Since he dares to take advantage of the women that I’ve taken a fancy to, I’ll let him know how living can be more painful than death!”

When he spoke up to here, he suddenly turned around to stare at Cui Xiuhong, and then he warned coldly. “Brother Cui, don’t try to use these things to upset me. Otherwise, once I’m enraged, I’m afraid you’ll be unable to bear the consequences.”

Cui Xiuhong instantly shuddered, and he repeatedly nodded with agreement, but he was extremely complacent in his heart and thought to himself. “Chen Xi, oh, Chen Xi! You dared to offend me, so I dare to use another to kill you. Let me see how many days you can survive!”

Wuwu! Wuwuwuwu...

Right at this moment, a wave of sounds that seemed like ghosts wailing sounded out abruptly from the distant surface of the sea while countless black clouds that seemed like lead enveloped the entire region of the sea, and it covered the entire surroundings and completely locked down the path forward.

“This is... A tempest of sea demons!” Pei Yu’s eyes constricted as he suddenly exclaimed with shock.

[Talisman Emperor](#)

Chapter 444: Comprehending Fist Insight

The deeper one went into the Primitive Sea, the more dangerous it became. Various types of tempests emerged in an endless stream and swept through the heavens and the earth to swallow everything in their path. Moreover, various aquatic beasts and demon beasts would bore out from these tempests to capture their prey.

The flesh and skin of these aquatic beasts and demon beasts were useful to cultivators and possessed a shocking value. But similarly, the magic treasures, bodies, and cultivation techniques of cultivators were exceedingly useful to these aquatic beasts and demon beasts.

In the Primitive Sea, there were numerous aquatic beasts and demon beasts that hid in the depths of the sea while awaiting an opportunity to launch an assault on human cultivators, whereas the even more formidable beasts would conceal themselves within the tempests and launch attacks on human cultivators from there.

These beasts possessed intelligence, and under the nurturing of the Necro Baleful Qi, their natures had become violent and bloodthirsty, causing them to be extremely terrifying.

Presently, Chen Xi, Pei Yu, and the others had encountered an adverse situation like this — a tempest of sea demons!

Rumble!

The tempest howled furiously, causing the sky to go dark as surging black clouds pressed down onto the heavens and the earth, and it formed a myriad of terrifying tempest vortexes. Everywhere it passed, even space was torn apart into pieces before being obliterated.

Numerous tempest vortexes raging on the pitch black surface of the sea, and countless sea demons that possessed a variety of odd shapes could be faintly seen hiding within the tempests. They were dense to the point they simply seemed like an overbearing sea demon army that could cover the heavens and the earth while demonic qi shook the heavens, and it caused one's scalp to go numb

Chen Xi noticed with a single glance that in the tempest vortex that enveloped the heavens and the earth, the sea demons at the most outer area were at the Violet Palace Realm, and their numbers were the most. Further in were Golden Hall Realm sea demons, and at the center were actually Golden Core Realm sea demons!

These sea demons were mostly fishes, yet their appearances were exceedingly savage and were in all sorts of strange shapes. Their auras were violent while their entire bodies were fully tainted with Necro Baleful Qi, and they were like fish yaksha, asuras of the sea, ferocious and bloodthirsty.

“Humans!”

“Kill!”

Chen Xi's group was fully composed of top experts at the Golden Core Realm, and their auras were formidable. But in the eyes of these sea demons, they were like the most tempting delicacies in the world, causing them to simply seem like flies that had smelt blood, and they roared furiously as they charged over.

The expressions of Chen Xi and the others instantly became heavy. These countless tempest vortexes and the sea demons that were like a powerful army had already completely blocked off the path ahead, and if they wanted to enter deeper into the Primitive Sea, then they could only go against it head on.

The dense swarm of sea demons were like tidewater as they charged out of the tempest and covered the heavens and the earth like locusts as they gushed over.

The first to pounce over was a group of azure-scaled crab demons. These azure-scaled crab demons were completely covered in armor that emitted a brilliant dark light, and all of them possessed an aura at the Violet Palace Realm. They numbered in over 10,000 and actually joined forces to launch a water type technique that smashed down towards Chen Xi and the others!

The water type technique seemed capable of topping mountains and overturning seas as it surged with force that was violent like lightning, and there were strands of Necro Baleful Qi within it. The technique charged into the sky and covered the earth, and it was actually soon to develop the profundities of water.

“A group of Violet Palace Realm minor demons dare be so rampant? They’re truly courting death!” Young Master Zhou roared furiously as Dao Insight sprayed out from his entire body, and then he swept out towards the air before him with a single finger.

Om!

An azure glow shot out and shone brightly in the sky, then an enormous finger that was suffused with an ancient aura tore through the sky like the finger of a god, and it shook the heavens and the earth while revealing boundless killing intent and might as it fiercely pressed down ahead.

Shockingly, this was the Azurespirit Void Finger, a perfect Dao Grade martial technique Young Master Zhou had obtained from the Martial Dao Divine Throne!

At the instant the enormous finger appeared in the sky, it directly blasted apart the technique of the azure-scaled crab demons, and then the might of the finger spread to the surroundings and crushed another thousand plus azure-scaled crab demons to death on the spot, causing them to transform into severed limbs and shattered flesh that tainted the surface of the sea red.

Young Master Zhou was filled with the desire to kill, and he let out a long howl before flashing out of the Thousandplume Dragonboat. He moved within the group of sea demons while his finger swiped out repeatedly, and every single swipe would reap the lives of a few hundreds of thousands of sea demons.

Meanwhile, Pei Yu, Cui Xiuhong, Wei Muyun, and Leng Qianqiu had made a move as well, and all the martial techniques they executed were perfect Dao Grade martial techniques. They moved freely within the army of sea demons while divine lights danced in the sky and beams of light smashed to the ground, and group after group of sea demons were easily crushed by them, causing them to reveal extremely terrifying lethality.

Especially Pei Yu, he deserved being a proud genius of the heavens, the leader of all. His clothes fluttered while he held a sword that was snow white like jade and moved about in the group of demon beasts as if he was strolling in a courtyard, relaxed and at ease, whereas his sword qi was like lightning that suffused the sky and covered the world, causing countless sea demons to be torn apart like paper and lose their lives beneath this sword insight.

Moreover, based on his relaxed appeared, he’d obviously only utilized less than half his strength!

Even Chen Xi had no choice but to admit that Pei Yu was a formidable figure indeed when he saw this scene. Not only was Pei Yu’s scheming ability terrifying, even his combat strength was extraordinary.

Swoosh!

The sea demons were of an enormous amount and seemed boundless, Chen Xi couldn't be bothered to continue thinking about anything else, and he leaped out to charge into the group of sea demons.

Bang!

He struck out directly with his fist, causing vast Fist Insight that was combined with fire and water to directly blast open a 3km long spatial rift. The nearby sea demons instantly lost their lives under this strike and transformed into nothingness, and not even bits and pieces of them remained under this strike that possessed an extremely shocking impetus.

Chen Xi didn't utilize the Talisman Armament nor did he utilize Divine Abilities as his main objective while charging forward and slaughtering in the tempest of sea demons was to temper the Grand Obliteration Fist.

The Grand Obliteration Fist was exceedingly incomplete and lacked the Obliteration Dao Insight. Strictly speaking, Chen Xi's fusion of the Grand Dao profundities of water, fire, Yin, and Yang into it still lacked the tempering of live combat. Presently, there were countless sea demons on the sea, allowing him to kill to his heart's content, so it was precisely the best time to temper the Grand Obliteration Fist.

Along with the passage of time, every fist Chen Xi struck out would allow him to obtain even more comprehension towards the Grand Obliteration Fist, and his Fist Insight became even more condensed. Moreover, his moves stopped adhering to a single pattern and started to become free and nimble, causing it to reveal various variations.

Besides that, the number of sea demons that had perished at his hand was madly increasing at a speed that was visible to the eye.

The Grand Obliteration Fist has a total of three moves. Presently, I'm only capable of executing the entire might of the first move, Merciless Fire and Water, as for the Chaotic Obliteration, I'm only capable of executing its form yet unable to release the intent within it. It seems like I don't lack technique, but...

Live combat!

Right, the tempering in live combat is the best master. So long as it has passed through the test of live combat, one would be able to know the might of any technique and if it possessed any flaws. This is called seeking out the flaws to be mended, eliminating the impure to retain the pure.

I've always been comprehending and pondering about it by myself in the past, and I've instead fallen into the wrong path. It's no different than drawing up plans behind closed doors and idle theorizing, and it will forever be unable to allow me to utilize the entire might of a cultivation technique...

Chen Xi slaughtered as he perceived the tiny changes in the might of his strikes, and numerous comprehensions surged into his heart, causing him to have an enlightened feeling as if he'd suddenly seen the light and seen through everything.

Chen Xi who was immersed in the comprehension of his fist technique and entirely not noticed that he'd unknowingly charged into the depths of the group of sea demons...

"Hmm? What does that fellow Chen Xi want to do? Entering deep into the group of sea demons alone seemed to be slightly risky. After all, the deeper one went, the stronger the sea demons would be, if..."

When he saw Chen Xi was soon to vanish in the depths of the group of sea demons, Young Master Zhou's heart couldn't help but tighten and feel slightly worried.

"Ha! As expected of the number one expert in the Darchu Dynasty's younger generation, he possesses peerless courage that makes one sigh with admiration." In the distance, Cui Xiuhong let out a strange laughter as he spoke sarcastically, and it was filled with ridicule.

"What did you say? Say it one more time if you have the balls!" When he saw this fellow was still making a fool of Chen Xi at a time like this, Young Master Zhou was instantly enraged and shouted out loudly.

Cui Xiuhong didn't get enraged and sneered endlessly as he said, "Alas, I can't even praise Chen Xi? Could it be that you want me to scold him? You're truly unreasonable."

Young Master Zhou had always possessed a lawless and domineering nature, so he was unable to restrain the flames of rage in his heart when he heard this, and he was just about to charge forward to fiercely bash this bastard that deserved a slap, yet was stopped by Huangfu Qingying.

"Enough. We've fallen into the encirclement of boundless sea demons that are impossible to wipe out. It's already at a time like this, yet you still have the mood to quarrel?" Huangfu Qingying frowned.

Meanwhile, Pei Yu spoke out as well. "Exactly, at this moment, we should join forces and resist our enemies together. Brother Cui, don't speak so much."

When he spoke up to here, his expression went serious as he said indifferently, "But isn't Brother Chen's actions of going deep into the group of sea demons slightly too rash? What if a mishap occurs?"

Huangfu Qingying and Young Master Zhou frowned, yet they were unable to refute this.

The corners of Cui Xiuhong's mouth couldn't help but curl into a trace of a complacent smile that flashed briefly when he saw this, and he eagerly looked forward to Chen Xi dying in the group of sea demons.

Bang!

Right at this moment, a bang that shook the heavens suddenly sounded out from within the distant tempest vortex, and it was like a thunderclap that descended from the nine heavens that shook the surroundings with a mighty impetus.

After that, Huangfu Qingying, Young Master Zhou, Pei Yu, and the others saw to their shock that a figure was like raging figure that emerged from the sea, standing proudly in the sky before smashing down with a punch.

Fist Insight tore through the skies and enveloped the surroundings. Instantly, the heavens and the earth in that area seemed to have been overturned, the heavens were below, the earth above, whereas the myriad of sea demons in the tempest had their heads facing the ground while their legs faced the sky, and everything collided with each other and revolved madly.

Just looking at it from afar caused others to feel ill to the point of wanting to spit blood.

"Yin and Yang colliding with each other while overturning the world. This...what fist technique is this?" Shock and bewilderment arose in the hearts of everyone.

Rumble!

Before everyone could come to an understanding, this Fist Insight that contained two completely overturned and entirely repulsive forces had finally exploded out. Instantly, the entire area of the sea was overturned while Yin and Yang turned chaotic, and all the sea demons in an area of 500km were shattered completely into powder. Even the boundless space was shattered into pieces and fell into great chaos.

Especially the surface of the sea, it actually had an exceedingly enormous hole torn apart open it, and the area there revolved madly and was unable to close up for a long time.

The might of a single strike actually put Yin and Yang in chaos and obliterated space!

Everyone stared blankly at the nearby sea. The countless sea demons that charged out from the surging tempest had actually been annihilated completely, and the entire area of the sea was tainted with a crimson red color.

Of course, there were still numerous sea demons hidden within the tempest. But the might of Chen Xi's strike had actually deterred those sea demons to the point of hiding in the tempest and being afraid to come out!

The second move of the Grand Obliteration First — Chaotic Obliteration. I've finally comprehended it completely... Chen Xi withdrew his fist with satisfaction before flashing out to arrive by the side of Huangfu Qingying. His actions jolted the others awake from their shock, and their gazes at Chen Xi carried a trace of terror.

Even the eyes of the Darjin Dynasty's Crown Prince, Pei Yu, revealed a heavy and fearful expression for the first time.

Chapter 445: Killing Intent

In next to no time, Pei Yu's expression recovered to normal, and he said indifferently, "Let's go charge out of the obstruction of this tempest of sea demons together. Otherwise, the longer we stay here, the greater the chances are we'll be trapped to death here."

It was indeed as Pei Yu had said. Even though the might of Chen Xi's strike had annihilated a mass of sea demons, there were still countless sea demons hiding in the distant tempest. Moreover, their auras were even stronger and practically all their strengths were at the Golden Hall Realm or above. It was even to the extent that there was no lack of existences that were comparable to Golden Core Realm cultivators.

In other words, all the sea demons they'd killed earlier merely possessed strengths at the Violet Palace Realm.

The hearts of everyone went cold, and they didn't dare think about all this any longer before nodding successively.

“Let’s go!” Pei Yu charged out in the lead while the others followed closely behind him, and the shape of their group was like a sharp awl that fiercely pierced towards the tempest of sea demons, and they intended to break through the encirclement to escape.

After an entire half a day of time while charging, killing, and flashing all the way, they’d already moved an unknown distance deeper into the sea, yet the tempest of sea demons actually hadn’t passed and was still sweeping and raging through the heavens and the earth. Moreover, the sea demons that surged out from deep within the sea were getting more and more formidable and experienced.

There were even some sea demons that had formed formidable human-like tribes. They commanded a demon of their own kind to move through the tempest and hunt other sea demons for food.

During this half a day of time, Chen Xi’s True Essence had been consumed extremely greatly. But luckily, he’d carried an extremely large amount of spirit pills with him. The eight million Nascent Condensation Pills were kept by him solely for the sake of being used as currency, whereas the 50,000 Sky Jadeliquid Pills were what he used to replenish his True Essence. If he didn’t execute any formidable killer moves, then these 50,000 Sky Jadeliquid Pills would be sufficient for him to use to slaughter endlessly for a few months.

But the more skilled he became in the Grand Obliteration Fist, the greater its might became, and the True Essence it consumed increased along with this. At the end, every single time he struck out would actually consume almost 20% of his True Essence!

In other words, his entire qi refinement cultivation now was only capable of allowing him to strike out five times, whereas, if he wanted to completely replenish his True Essence, it would instead require him to consume 12 Sky Jadeliquid Pills...

This type of terrifying speed of consumption was something that even caused Chen Xi to feel pained.

Later on, when he felt his Grand Obliteration Fist’s might had already attained his limits, he decisively abandoned his fist technique and utilized Divine Abilities against his enemies.

When they saw Chen Xi stop utilizing the terrifying fist technique, Huangfu Qingying and Young Master Zhou both heaved a sigh of relief in their hearts, and even Pei Yu and the others seemed much more relaxed.

It couldn’t be helped. The Grand Obliteration Fist that Chen Xi executed was too terrifying. Even though it was merely two moves, yet every punch he struck out was capable of crushing apart a 3k length of space. Everywhere it passed, everything was destroyed and annihilated, and its terrifying impetus brought great pressure to them.

“Crown Prince, the strength of this kid, Chen Xi, is growing too quickly. If we still don’t annihilate him, then we’ll probably be raising a tiger that would bite us in the future.” After he witnessed Chen Xi’s terrifying combat strength, Cui Xiuhong felt both shocked and terrified in his heart, and he swiftly sent a voice transmission to Pei Yu.

“Don’t worry, this kid will die for sure. But not now. After all, it isn’t only our group of people that are heading to the Isle of Fallen Treasures, and there are other formidable figures that’re setting foot on there. It’s just nice for us to use Chen Xi go against these enemies. In other words, the stronger Chen Xi’s

strength is, the greater our chance to obtain treasures in the Isle of Fallen Treasures will be.” Pei Yu spoke indifferently. Actually, he’d aroused strong killing intent in his heart as well. Chen Xi’s strength was so formidable that it had exceeded his estimations. Once a person like this matured, the person would absolutely be a great overlord. At that time, it would be difficult to kill him. But for now, he was confident that everything was within his scope of control.

“Crown Prince is really wise in strategy and tactics. This kid is so ferocious and is indeed capable of being used as cannon fodder to charge in the front for us. This plan couldn’t be any better.” Cui Xiuhong smiled as he flattered Pei Yu.

As he spoke, Cui Xiuhong told Wei Muyun and Leng Qianqiu of Pei Yu’s plans via voice transmission, and it won the support of the both of them. Obviously, both of them were extremely afraid of Chen Xi’s strength as well, and they wished for nothing more than for Chen Xi to die as soon as possible. Now, when they found out that Pei Yu was only utilizing Chen Xi as cannon fodder for them, they instantly felt at ease in their hearts.

However, in the next moment, they suddenly noticed that even though Chen Xi wasn’t utilizing that terrifying fist technique any longer, he’d executed a formidable Divine Ability that they’d never seen before!

Rumble!

Shaman Energy raged in Chen Xi’s body as bolts of lightning surged out, and the golden colored bolts of lightning flickered as they formed into numerous thunderstorm vortexes, causing Chen Xi to seem like a god of thunder that was completely covered in the brilliant glow of lightning.

He struck out with a very simple punch, yet it caused countless thunderstorm vortexes to appear and directly shatter the techniques of the group of sea demons before him, and then the vortexes flew out to spread to the surroundings before completely shattering over a thousand sea demons on the spot.

Most astonishing was that the Blood Essence and vitality of the sea demons that were killed didn’t dissipate but were absorbed and devoured by the thunderstorm vortexes around Chen Xi!

Pei Yu and the others clearly saw that after the Blood Essence and vitality of these sea demons were absorbed, the aura in Chen Xi’s surroundings had actually become a bit stronger, and the surging thunderstorm vortexes around him grew even more dazzling. Bolts of lightning glowed brilliantly in the surroundings, and it was dazzling to the point that it was almost impossible to see Chen Xi’s face clearly.

My god! What Divine Ability is this? It’s actually capable of devouring everything for one’s own benefit?

The pupils of Pei Yu and the others constricted abruptly as astonishment arose in their hearts. With their discerning ability, they were naturally able to discern that this Divine Ability contained the Grand Dao of Lightning and Devour.

But, no matter how they wracked their brains, they were unable to recall exactly what Divine Ability in this world was capable of containing two Grand Dao profundities that were so terrifying. Especially the Grand Dao of Devour, it was absolutely an exceedingly rare Grand Dao that was an existence that wasn’t inferior to the Grand Dao profundities of Light and Darkness.

This kid must be eliminated!

At this moment, a strong feeling of danger and dense killing intent appeared in the hearts of Pei Yu and the others. If it wasn't for them still wanting to use Chen Xi, they'd probably have been unable to restrain themselves from striking a vicious blow at Chen Xi long ago.

Chen Xi comprehended and visualized the Fuxi Divine Status all day and night, and his soul was extremely strong to the point of being comparable to a Nether Transformation Realm cultivator, causing his perception of one's aura to be exceedingly sharp. Even though the killing intent of Pei Yu and the others was concealed extremely deeply, how could it escape his detection?

But he couldn't be bothered to fuss about it with these fellows at this moment. Just as Huangfu Qingying had said, Pei Yu wanted to use their strengths to explode the isle, but weren't they using Pei Yu to find the Isle of Fallen Treasures?

Chen Xi's current thoughts were completely placed on the battle before him.

After completely grasping the profundities of the first two moves of the Grand Obliteration First earlier, it caused him to realize the benefits of live combat. Now he wanted to use live combat to continue tempering the Divine Ability he'd comprehended not long ago — The Stellar Lightningform.

This Divine Ability came from the Roc's bone, and it was created by his Third Senior Brother. It contained the Grand Dao profundities of Water, Lightning, and Devour. Moreover, it wasn't restricted by moves as all attacks were made in preparation for devouring, whereas the specific display of devouring was in the vortexes!

In the water, the devouring energy would form into water vortexes.

On the ground, the devouring energy would form thunderstorm vortexes.

Actually, according to what his Third Senior Brother said, when the Devour Dao Insight was completely grasped to perfection, anything in the world could be transformed into vortexes to carry out devouring. For example, wind vortexes, fire vortexes, Yin vortexes, Yang vortexes, vortexes of the five elements, and so on and so forth.

On that day when his Third Senior Brother had displayed three points that shook the heavens and the earth, Third Senior Brother's final point had transformed a myriad of stars into a large vortex that devoured in the universe, and the might it displayed was something that caused Chen Xi to be endlessly shocked even until now.

But with Chen Xi's current grasp of the profundities of the Devour Dao Insight, he was only capable of executing water vortexes and thunderstorm vortexes.

After all, these were contained within the Divine Ability, Stellar Lightningform, and he only had to comprehend and master it. There was no need for him to rack his brains, ponder about it, and create something new.

Of course, vortexes were merely one of the methods the profundity of the Devour Dao Insight was displayed, and it didn't mean that one would surely be able to comprehend the profundities of the Grand Dao of Devour from vortexes.

Bang!

Right at this moment, another group of sea demons appeared from the tempest, and the auras they emitted was actually not inferior to Golden Core Realm cultivators.

In other words, this was an army formed from Golden Core Realm sea demons!

[Talisman Emperor](#)

Chapter 446: Violent Waterflame Apes

This group of sea demons were tall and had the bodies of humans, yet the heads of fish, and they had savage appearances. They wore worn out armor and held bronze halberds, and talisman markings flickered on the halberds that emitted a sharp aura and light.

Particularly, there were actually a pair of pitch black wings on their backs that allowed them to freely and nimbly move about within the tempest, and they emitted the aura of Necro Baleful Qi that caused one's heart to palpitate.

"Watch out, these are Necro Fish Demons, and they're one of the comparatively stronger races of sea demons in the Primitive Sea. They're capable of flying in the sky and diving into the sea, and their strengths are comparable to Golden Core Realm cultivators, causing them to be the most difficult to kill." Huangfu Qingying warned them right away when she saw the army of fish demons that emerged from the distance tempest.

"These Necro Fish Demons are skilled in the Dao Insights of Wind and Water. Moreover, the Origin Pearls condensed within their bodies are greatly beneficial towards our cultivation of the Wind and Water Dao Insights." Leng Qianqiu spoke as she swung out the bone chain in her hand to transform into a rainbow that traversed the sky before directly blasting into the army of Necro Fish Demons and fiercely mincing them apart.

Instantly, the bodies of over 100 Necro Fish Demons exploded apart, causing over 100 glittering and translucent jet black pearls to be swept into Leng Qianqiu's hand by the bone chain.

"Human cultivators!"

"Looks like the Primeval Battlefield has been opened up once again. Hahaha! We can finally eat fresh human meat!"

"Kill, kill all of them. Don't let a single one of them escape!"

A sharp and ear piercing howl suddenly sounded out from within the group of Necro Fish Demons, and it surged with killing intent as it resounded out in the heavens and the earth. These sea demons were already no different than ordinary Golden Core Realm cultivators and possessed high intelligence, so they knew how to work together in battle. In the next moment, they'd already joined forces to launch a counterattack.

Bang!

When these Necro Fish Demon joined forces, they converged into an enormous formation that caused countless bolts of water lightning and blades of wind to blast out, and it actually directly blasted Leng Qianqiu's bone chain flying.

Amazing, they actually already know how to utilize formations in their combat tactics. But, this formation is too shoddy. If it was I who managed the formation, then I would at least be able to bring forth ten times more might from it... Chen Xi was stunned, and then he shook his head before directly circulating the Stellar Lightningform and smashing out with his fist.

As his fist struck out, countless thunderstorm vortexes formed and transformed into a stream of vortexes, and it hit the center of the formation formed by the army of Necro Fish Demons. Instantly, the formation collapsed with a bang, and numerous Necro Fish Demons were instantly crushed into powder, whereas their enormous Blood Essence, demonic qi, and their numerous Origin Pearls were swept into the thunderstorm vortexes.

Devouring the heavens and the earth to transform everything to become useful to me. This Divine Ability Third Senior Brother created is really formidable! Chen Xi praised endlessly in his heart. The Blood Essence and demonic qi of these fish demons were swallowed into his body before a strand of a warm flow instantly moved within his body, and it immediately replenished all the Shaman Energy he'd used.

This effect of refining Blood Essence and demonic qi to become useful to Chen Xi and replenish his Shaman Energy was simply heaven defying. Even though it didn't provide the slightest benefit to Chen Xi's cultivation, so long as he was able to devour sufficient Blood Essence and demonic qi, then he would be able to cause his Shaman Energy to become boundless. When he fought, he would simply be no different than an inexhaustible machine.

On the other hand, the Origin Pearls of the fish demons contained a trace of the energy of Wind and Water Dao Insight, and its value was comparable to Dao Grade spirit herbs!

After all, the strengths of these fish demons were comparable to Golden Core Realm cultivators, and their Origin Pearls were similar to the golden core of Golden Core Realm cultivators, so its value was naturally shocking to the extreme.

320 Origin Pearls... My pockets are completely dried up and squeaky clean. Even though the value of these Origin Pearls is impossible to determine, but if I gather a lot more, they would surely be a considerable amount of wealth. Chen Xi briefly sized them up before placing the Origin Pearls into the Buddha's Pagoda.

Meanwhile, the others had successively attacked with their full strengths and started to hunt these Necro Fish Demons. The value of the Origin Pearls of these fish demons was so great, and they knew in their hearts that it was absolutely a shocking amount of wealth. In the outside world, it was utterly impossible to encounter such a massive amount of sea demons that one could willfully hunt and kill.

Such fortune could only be encountered in the Primeval Battlefield's Primitive Sea.

"Kill!" Divine light flashed through the sky and Dao Insight surged, and various attacks covered the heavens and the earth with mighty impetus. Wave after wave of Necro Fish Demons were annihilated like the autumn wind sweeping away fallen leaves.

Every single person within their group was one of the top genius experts in the world. Moreover, their cultivations, martial techniques, and magic treasures were far from something these fish demons could

compare to. So once they started slaughter with their full strength, the scene was absolutely one where they swept through the fish demons like sweeping away dead leaves.

But the most striking amongst them was Chen Xi. Every single time he attacked caused him to seem like a ball of surging thunderstorm that exploded apart and caused countless streams of vortexes to envelop out. Every single thunderstorm vortex seemed to transform into a bloody mouth that swept out to devour everything in the surroundings, and in the time of only a few breaths, an entire 10,000 plus fish demons was completely devoured by it.

Later on, the others were utterly not in time to make a move as the fish demons would already be completely wiped out by Chen Xi. He simply seemed to have transformed into an extremely ferocious swarm of locusts that didn't leave anything behind in his wake.

"Exactly what Divine Ability is this? It's so ferocious!"

"Dammit! This kid is too ruthless. He isn't even leaving any scraps for us."

"What should we do? We can't win against him!"

When they saw this scene, Pei Yu and the others were shocked, envious, and in disbelief.

According to normal logic, even a top expert at the Golden Core Realm was unable to slaughter tens of thousands of Necro Fish Demons in a short period of time, and a cultivator would only be able to so casually achieve this if the cultivator possessed a formidable magic treasure like a Quasi Immortal Artifact or had surpassed the Golden Core Realm,

On the other hand, Chen Xi had exploded out repeatedly instead with a shocking Divine Ability that allowed him to kill group after group of Necro Fish Demons in the time of a few breaths. Moreover, not only did his aura not seem to weaker, he seemed to grow stronger as he battled, and this scene that went against common sense was something that no one would dare believe to be real.

"Brother Chen's display is too dazzling. It looks to me like those fellows have aroused killing intent towards Brother Chen." Young Master Zhou's eyes glanced at the expression of Pei Yu and the others before he swiftly sent a voice transmission.

"It's fine. The stronger Chen Xi is, the more valuable he is to Pei Yu. At this moment, he would absolutely not make a move against Chen Xi." Huangfu Qingying spoke with a calm expression.

"What about in the future?" Young Master Zhou asked.

"In the future?" A wisp of coldness arose on the corners of Huangfu Qingying's mouth. "Who knows who will be using who in the future. With Chen Xi's intelligence, he'll surely be able to easily deal with all of this."

"Daoist Brother Pei, this group of Necro Fish Demons have been completely annihilated. We should swiftly carry on with our journey." Chen Xi's indifferent and calm voice sounded out from far away.

"Oh? Brother Chen is formidable. I have no choice but to admire you. In the next part of our journey, so long as Brother Chen is present, then no matter what ferocious sea demon appears, would we have to fear anything?" Pei Yu was jolted awake from his thoughts, and his expression went serious before he

squeezed out a warm smile. However, in the next moment, the smile on his face had already froze abruptly, and his expression revealed rare heaviness.

Because another tempest of sea demons had swept over from where the sky was connected with the sea, and the sea demons in the tempest were actually 30m tall terrifying violent apes that possessed dense fur and sharp fangs!

“Watch out! These are Violent Waterflame Apes, and they’re one of the strongest type of sea demons in the Primitive Sea. They possess violent natures, are skilled in the profundities of the Water and Fire Dao Insights, and they possess boundless physical strength. They’re far from something the Necro Fish Demons can compare to. Amongst the genius experts that entered the Primitive Sea in the past, most of them fell beneath the army of Violent Waterflame Apes!” Pei Yu shouted out loudly with an extremely heavy expression, and he didn’t have the slightest relaxed expression any longer.

Everyone had noticed the tempest that had gushed out once more from the distance. After all, the imposing aura of the tempest that assaulted them this time was too mighty and shocking, and they were utterly unable to overlook it.

There were countless Violent Waterflame Apes concealed within the tempest. Merely the fierce demonic qi they emitted condensed into a pitch black cloud of demonic qi that covered an area of 500km, and it roiled ceaselessly and possessed a shocking impetus.

When he saw this scene, even with Chen Xi’s strength, a trace of fear still arose in his heart.

After all, the number of Violent Waterflame Apes was truly too many. Moreover, every single one emitted an aura that wasn’t inferior to an advanced-stage Golden Core Realm cultivator, causing them to virtually seem like an extremely shocking flood of forces.

A hundred or over a thousand sea demons like this would probably be unable to do anything to any one of them. But, when it was 10,000 or 100,000 of sea demons like this, the sea demons were sufficient to tear any one of them into pieces!

Within the tempest before them was a dense mass of only Violent Waterflame Apes. All of them were 30m in height and possessed violent auras, and they were like numerous giants of the sea that invaded and plundered the sea with overwhelming force.

Moreover, there were even more formidable auras present within this group of Violent Waterflame Apes, and it seemed to be their leaders. Even if Chen Xi was extremely confident of his current strength, he didn’t dare rashly charged in when facing a situation like this.

“It’s actually human cultivators. These stupid humans are dreaming of seizing wealth on the Primitive Sea while tempering their cultivations again, and they even want to go search for the Isle of Fallen Treasures. They really are reckless.”

“The flesh of human cultivators is the most fresh and tasty!”

“Hahaha. Those that are able to enter the Primeval Battlefield are geniuses with the highest natural talents amongst humans. They possess shocking wealth and countless magic treasures, medicinal pills, and cultivation techniques. It’s just nice for us to seize it and use it for ourselves.”

“Kill all of them and seize their techniques, then we’ll be able to increase our strengths and seize even more wealth. After that, we’ll expand our territory even further and rule over the Primitive Sea!”

Meanwhile, the Violent Waterflame Apes in the tempest had noticed Chen Xi and the others as well. For a time, various roars shook the heavens and the earth and resounded out in all directions. The voices revealed an extremely bloody, violent, and ferocious arrogance, and if it was an ordinary person, the person would probably be instantly frightened to death.

At practically the exact same time, numerous violent and icy cold auras enveloped towards Chen Xi and the others.

“Kill!” Amidst numerous roars, group after group of Violent Waterflame Apes leaped out from the tempest and flashed over. The bodies of these Violent Waterflame Apes were either coiled with raging flames or surging and vast streams of water. One flame and one water, all in groups of two, and they revealed formidable control of the Dao Insights of water and fire.

Rumble!

The Violent Waterflame Apes soared through the sky while numbering over 10,000, and they blotted out the sky while bringing turmoil to the heavens and the earth. In practically an instant, they’d already charged over to arrive before Chen Xi and the others.

Talisman Emperor

Chapter 447: Obliteration Tablet

When they came closer, Chen Xi and the others were able to clearly see these Violent Waterflame Apes were four or five times the height of a person, and they seemed like giants. Their limbs were thick like iron poles, their fur dense and thick, and they had a savage appearance with sharp fangs and crimson red eyes.

Moreover, a unique Dao marking was formed on their forehead bone. Some had a wisp of flames that were blazing and leaping about, some had a crystalline and resplendent water droplet, and these Dao markings emitted the aura of the Water and Fire Dao Insights.

Just like the Necro Fish Demons, the bodies of these Violent Waterflame Apes contained an Origin Pearl that held the Grand Dao Insights of Water and Fire, and its value was even greater. Because water and fire repulsed each other, and they were Dao Insights that rejected each other and were of two extremes, yet now, they were contained within a single Origin Pearl, causing it to seem extremely unique and rare. It was precisely because of this that its value was naturally even higher.

Bang!

A group of Violent Waterflame Apes charged towards Pei Yu first. With a single leap, they’d traversed a distance of 3km, and then their enormous arms swept out horizontally like iron pole magic treasures that were coiled with the divine light of water and fire to smash down at Pei Yu. The wind and clouds shook as this ferocious and direct strike crushed space while descending with an extremely shocking impetus.

“These animals actually dare launch an attack first. They’re simply courting death. Could it be that they really think we’re ordinary Golden Core Realm cultivators?” Being assaulted by a group of sea demons

caused Pei Yu to instantly be enraged, and the white jade sword in his hand swept out. It was like a 3km long flowing light that tore through the sky while carrying oppressive Sword Insight.

Bang! Bang! Bang!

Over 10 Violent Waterflame Apes were instantly slaughtered, their severed limbs flew out in all directions as blood tainted the sky before it fully suffused the heavens and the earth.

But after Pei Yu's enraged strike killed some Violent Waterflame Apes, there weren't any Origin Pearls that dropped out from their corpses, and they instead shattered into powder along with the death of the Violent Waterflame Apes.

It seemed as if at the instant the sword light killed the Violent Waterflame Ape, it had activated a type of restriction within their bodies that caused their Origin Pearls to be obliterated right away.

"Dammit! The one valuable treasure is gone! What's the point of leaving all of you alive? Die!" Pei Yu grunted coldly.

Even though he spoke like this, he wasn't willing to give up just like this. Sword lights immediately danced out from his sword and condensed into a brilliant sword net that directly fell deep into the army of apes, and it instantly captured over 10 Violent Waterflame Apes within it before imprisoning and crushed them, causing them to be unable to destroy themselves.

This time, he really was able to gather over 10 Origin Pearls.

Water and fire repulse each other, yet it's contained within a single Origin Pearl. Isn't this the same as the first move of my Grand Obliteration Fist, Merciless Fire and Water? Chen Xi thought in his heart before stretching his hand out to directly grab and capture a Violent Waterflame Ape before him, and then he slapped it to death with a single fierce strike.

During this process, his Divine Sense had stretched out to directly enter the body of the Violent Waterflame Ape. As expected, he saw that when the Origin Pearl within the ape was affected by the strength of his palm strike, it suddenly droned and emitted a trace of a strange fluctuation, causing the Water and Fire Dao Insights within it to abruptly collide with each other and instantly shatter itself.

This...seems to be the energy of Obliteration? Chen Xi was shocked in his heart. The scene he saw earlier, especially the strange fluctuation emitted by the Origin Pearl caused him to have a familiar yet unfamiliar feeling. When he pondered carefully, it seemed to be shockingly similar to the Obliteration Dao Insight that he wanted to obtain with all his heart.

The Obliteration Dao Insight was similarly a Grand Dao Insight related to the utilization of technique, and it was similar to the Sword Dao, Devour Dao, and so on and so forth. The reason the Grand Obliteration Fist Chen Xi obtain was incomplete was because the Dao Insight was incomplete, and a mere three moves were utterly incapable of allowing him to touch the essence of the Obliteration Dao Insight.

This had always been a regret in Chen Xi's heart. Because as far as he was concerned, if he mastered the complete Obliteration Dao Insight, the might of the Grand Obliteration First would at least increase by double!

Now, the Origin Pearl in the bodies of the Violent Waterflame Apes were actually capable of creating a force that was similar to the force of obliteration, and it instantly caused Chen Xi's spirits to be refreshed. For the sake of confirming his thoughts, he didn't hesitate in the slightest to once again charge into the army of Violent Waterflame Apes.

This time, he didn't directly kill the Violent Waterflame Ape but confined it and extracted its Origin Pearl to carefully inspect it. Sure enough, he noticed that a trace of extremely tiny amounts of a strange energy was fluctuating and laying dormant within the Origin Pearl, and it was precisely the energy of obliteration!

But Chen Xi noticed right after that this trace of obliteration energy seemed to be unlike the innate Water and Fire Dao Insights within the Origin Pearl. It wasn't a Dao Insight that the Violent Waterflame Apes were innately able to grasp, and it was cultivated and obtained later on.

Could it be that the Violent Waterflame Ape race possesses something that contains Obliteration Dao Insight, and it can be provided to them to comprehend and cultivate? An unexpected thought swiftly flashed within Chen Xi's heart.

Chen Xi instantly executed a technique that extracted the soul and memories of another after capturing a Violent Waterflame Ape, and he directly invaded its memories. After a long time, his eyes suddenly lit up. I've found it!

At the depths beneath the sea at around 15,000km from here was the lair of the Violent Waterflame Ape race, and at the core area of the lair was an ancient tablet. According to the memories of the Violent Waterflame Ape, this ancient tablet had existed countless years ago, and it's supposedly from the battle amongst the gods of ancient times.

The tablet was very ordinary and without any writing or diagrams on its surface, yet it contained the energy of obliteration, whereas their Violent Waterflame Ape race had comprehended a trace of Obliteration Dao Insight from it and used it to defend themselves.

The reason why ordinary cultivators were incapable of obtaining their Origin Pearls was because of the existence of this trace of obliteration energy, and it was capable of instantly obliterating their Origin Pearls when they died.

Thus, the tablet had become a sacred object that had been passed down and protected by the Violent Waterflame Ape race.

A tablet that's from the battle between the ancient gods and contained the Obliteration Dao Insight... There really are treasures all around this Primitive Sea! Chen Xi's thoughts instantly became lively. The Obliteration Dao Insight is an exceedingly rare Grand Dao profundity, and if I'm able to master it, why would I worry about being unable to perfect the Grand Obliteration First and bring forth its true might?

Looks like I must obtain this tablet, no matter the cost! Even though it's dangerous, relying on the speed of the Starsky Wings and my own strength, so long as I don't encounter an extremely terrifying opponent, I ought to have a great certainty of seizing it. Chen Xi swiftly pondered in his mind.

"Young Princess, Brother Zhou, I'm heading into the depths of the tempest to do something. So long as nothing unexpected occurs, I ought to be able to return very quickly." After a short moment, Chen Xi

had already made up his mind, and he gave a few instructions to Huangfu Qingying and Young Master Zhou before flashing out and charging into the depths of the Violent Waterflame Ape army.

“What does Chen Xi intend to do? Could it be that he wants to carry out a slaughter in the depths of the enemy forces like before?” Young Master Zhou was stunned, and then he raised his hand and pointed out, causing the Azure Spirit Void Finger to appear out of thin air and instantly crush over 10 Violent Waterflame Apes.

He wasn't as ferocious as Chen Xi to the point of being able to gather Origin Pearls while annihilating his enemies, and he could only execute killer moves to directly kill these Violent Waterflame Apes that charged over.

Coupled with him and Huangfu Qingying fighting side by side, even though the amount of Violent Waterflame Apes were enormous, the apes were incapable of injuring them in a short period of time.

“Didn't you hear him say that he's going to do something? Perhaps he has some other plans.” Huangfu Qingying said, “Alright, there's no need to worry about Chen Xi. We should first guarantee that we're able to survive this horrifying battle. After all, the strength of these Violent Waterflame Apes is far from something those Necro Fish Demons could compare to, and the longer this goes on, the worse our situation would be.”

Young Master Zhou felt apprehensive in his heart, and he nodded.

...

“Hmm? Crown Prince, look! Chen Xi has actually charged alone into the army of Violent Waterflame Apes once more. This fellow is really ferocious.” When he saw Chen Xi flash and pounce towards the depths of the dense army of sea demons, Cui Xiuhong couldn't help but hurriedly speak out. But he didn't say Chen Xi was rash this time, and it was probably because he recalled the scene of Chen Xi going deep into the enemy ranks and killing the Necro Fish Demons earlier. “He's really audacious to the extreme! There are leader level existences assuming command at the depths of the Violent Waterflame Ape army. Not to mention trespassing into the depths of the army would cause him to fall into an encirclement, he would probably encounter an even more ferocious attack. He really doesn't cherish his life.”

Pei Yu was stunned, and then he shook his head and said, “Don't bother about him. These Violent Waterflame Apes are unlike the Necro Fish Demons, and their strengths are formidable. Wanting to make a charge and break out of the encirclement with our strengths is no different than courting death. We can only obstruct them at the outer area and wait for a superb opportunity to escape.”

“Indeed. The nature of these Violent Waterflame Apes is extremely brutal, yet lacking in patience. When they're unable to obtain success after attacking for a long time, they would surely cease to attack, and that time would be the best opportunity for us to escape.” Cui Xiuhong's eyes flickered and were suffused with a trace of gloominess. “As for Chen Xi, it doesn't matter whether he dies or not. If he's dead, then it's equivalent to a trouble of ours being taken care of, and if he doesn't die, we'll use him to death after entering the Isle of Fallen Treasures!”

Pei Yu smiled and didn't say anything further.

...

Swoosh!

At this moment, Chen Xi had transformed into a strand of a Shadowless and shapeless phantom that swiftly flickered about. The strength of a myriad of stars circulated on the Starsky Wing on his back, and coupled with the Sky Dao Insight he'd comprehended, it caused his figure to be practically translucent as he swiftly flew about. In practically an instant, he'd flashed out 500km, and it could already compare to teleportation.

Under this unparalleled speed, Chen Xi safely avoided the army of sea demons as it was impossible for those Violent Waterflame Apes to catch up to the speed of the Starsky Wings.

Even if it was a Rebirth Realm or Nether Transformation Realm cultivator, under the circumstances that they hadn't comprehended teleportation, they would probably be unable to compare in speed with Chen Xi's Starsky Wings.

In the time of a few breaths, Chen Xi had already arrived at the region of the sea 15,000km away. This was the core area of the Violent Waterflame Ape army, and he naturally wouldn't foolishly reveal his tracks. He directly dove into the depths of the sea instead while the Starsky Wings were circulated to the limit, causing his figure to flash repeatedly as he swiftly arrived at a depth of 30km.

According to the information he obtained from the memories of that Violent Waterflame Ape, the lair of the Violent Waterflame Apes ought to be at the depths of almost 54k beneath the surface of the sea. It was a vast underwater mountain range that was densely covered with countless caves, and the Violent Waterflame Apes resided within these caves.

The tablet that contained the Obliteration Dao Insight was at the core area of the lair, and that place had extremely tight restrictions set up there, causing it to be extremely easy to find.

"Obliteration Tablet... I must succeed!" Chen Xi had a firm gaze as he flashed swiftly at the bottom of the sea.

Chapter 448: Underwater Kingdom

The depths of the Primitive Sea were filled with dense Necro Baleful Qi, and there were even countless shattered pockets of space and spatial rifts. Moreover, there were usually formidable sea demons residing nearby, causing it to be extremely terrifying.

If an ordinary cultivator entered deep into the depths of the Primitive Sea, then no matter how well they conceal themselves, the fluctuations of their vital energy, vital blood, and soul would draw the attention of countless sea demons, and then they would swarm over and tear apart the cultivator before devouring him.

But Chen Xi was different. His Starsky Wings were soundless as the Shaman Energy in his body circulated within the wings on his back, and it seemed to have formed a world of its own, causing it to be utterly impossible for the slightest aura to be emanated. Moreover, his speed was extraordinarily swift, allowing him to move through the layer upon layer of sea water and shattered pockets of space as if he was teleporting. So even if a sea demon noticed him, it would be utterly impossible for it to pursue him.

After an unknown period of time, Chen Xi's heart jerked abruptly as he noticed a strong fluctuation of demonic qi, and he looked down right away.

In the next moment, countless continuous mountain ranges appeared in his field of vision. These mountain ranges were situated at the bottom of the sea, they were lofty and precipitous, and they were even higher and more imposing than mountains that were on land.

Shockingly, there were dense and enormous caves in the surroundings of the mountain ranges, and innumerable Violent Waterflame Apes were patrolling around it. When looked at from afar, it was simply like a kingdom built beneath the sea, and it was extremely magnificent.

This was the lair of the Violent Waterflame Apes.

Chen Xi was wholeheartedly concerned with the Obliteration Tablet, so his Divine Sense stretched out right away via the Rippling Echo technique, and it instantly enveloped an area of 5,000km before scanning through it.

Doing this would allow him to avoid alarming those Violent Waterflame Apes, and at the same time, he would be able to detect various dangers that could possibly exist, so as take precautions against any mishaps that could occur.

Not long after, Chen Xi noticed his objective.

An enormous and ancient sacrificial altar was constructed on a mountain that emanated a jet black divine light and stood towering amongst the group of mountains, whereas at the center of the sacrificial altar stood a 60cm tall stone tablet.

This stone tablet was old and simple to the extreme. It was covered in mottled marks as if it has experienced the baptism of countless years, and it emitted an ancient and heavy aura that aroused terror in the hearts of others.

Moreover, at this moment, there were numerous Violent Waterflame Apes sitting cross-legged around the stone tablet, and their savage and brutal faces actually revealed a rare trace of a calm bearing.

This stone tablet was obviously the tablet that the Violent Waterflame Apes worshipped as a sacred object, and it was a legendary object that was left behind in the battle fought by the gods of ancient times.

Right, it does indeed contain Obliteration Dao Insight! Chen Xi's Divine Sense stretched out silently, and it had already enveloped the tablet without all the Violent Waterflame Apes noticing. After he inspected it briefly, he sensed an extremely mighty and vast energy of obliteration overflowing from within it, and this energy was pure to the extreme.

The tablet was simply like the source of where the Grand Dao of Obliteration was born, and it brought intense shock to one's heart.

But Chen Xi also noticed that some formidable existences were residing nearby the tablet, and they were protecting it. Merely based on their auras, they were probably all at the perfection-stage of the Golden Core Realm, and there was even no lack of formidable existences at the Rebirth Realm. Obviously, all of these were the elites of the Violent Waterflame Ape race.

The highest cultivation amongst the Violent Waterflame Apes is only at the Rebirth Realm, but this is unable to threaten me. With my current combat strength, I'm capable of defeating ordinary Rebirth Realm experts, and if I want to escape, then so long as it isn't an Earthly Immortal Realm expert, others are probably incapable of stopping me... Chen Xi pondered deeply for a long time, and then he didn't hesitate any longer. He executed the Starsky Wings, causing him to be like a translucent shadow that soundlessly arrived within the underwater kingdom, and then he approached the mountain that the ancient sacrificial altar resided on.

Actually, there were layer after layer of formations and restrictions set up in the surroundings of the Violent Waterflame Ape lair, and it permeated every single inch of space. If it was any other person, the person would probably be unable to sneak in without alerting anyone.

Unfortunately, they'd encountered Chen Xi who was skilled in the Dao of Talismans. He was even able to perfectly inscribe the five great Divine Talismans into the Talisman Armament, so these meagre formations were naturally unable to pose any difficulty to him.

Swoosh!

Without the slightest sound, Chen Xi had already silently arrived at the sacrificial altar. But he didn't make a move to seize it right away as he seemed to have noticed something, and he instead carefully inspected it with his divine sense once more.

Sure enough, he noticed another clue nearby the sacrificial altar. Not only were there numerous Violent Waterflame Apes guarding in the surroundings of the tablet, even the spot beneath where the tablet stood actually had a pocket of space opened up there, and there was shockingly a formidable Violent Waterflame Ape stationed there. Due to the energy of obliteration that the tablet emitted was too dense, it was actually almost able to escape the detection of Chen Xi's Divine Sense.

The aura of this Violent Waterflame Ape was extremely formidable, and it was absolutely not something an ordinary Rebirth Realm cultivator could compare to. Even if it was placed amongst human cultivators, its strength was sufficient for it to be called a top figure in the Rebirth Realm.

Looks like only by dealing with this old fellow first would I be able to safely take this tablet away... A cold light flashed in Chen Xi's eyes as he silently snuck into the restriction and arrived within that space.

This Violent Waterflame Ape had obviously cultivated for an extremely long period of time, its appearance was already no different from an ordinary person, and as it sat cross-legged within the space pocket, it emitted a ruthless aura while its body was coiled with black mist that seemed material.

Within the black mist was actually strand after strand of vengeful spirits fluttering about while struggling, howling out miserably, crying, and laughing strangely, and all of them were filled with boundless resentment. Shockingly, they were the human cultivators that were tortured and killed by this Violent Waterflame Ape, and they were a dense mass of over a few thousand. It was a mystery for how many years he'd refined and tortured them.

It really is bloodthirsty and savage! The killing intent in Chen Xi's heart boiled when he saw this exceedingly tragic scene.

“Who is it!?” Right at this moment, this old freak seemed to have noticed something and suddenly raised his head. Fierce lights shot out explosively from his crimson red eyes as he bared the fangs at the corners of his mouth, and his aura instantly became extremely ruthless and savage.

Swoosh!

Chen Xi directly appeared before the old freak, and the Grand Obliteration Fist struck out explosively. Instantly, this old freak was blasted flying by Chen Xi’s punch before he could even react to what had happened, causing fresh blood to spray in the air, and he was already heavily injured.

Presently, the might of the Grand Obliteration First could absolutely be considered to be one of Chen Xi’s strongest killer moves, and after it experienced the tempering of numerous slaughters, its might had been completely revealed. Coupled with his attack being a fierce surprise attack, it had caught the old freak off guard, and it instantly brought out a miraculous effect.

But, the old freak’s strength was extremely strong indeed. If it was any other Rebirth Realm cultivator, the cultivator would have probably perished instantly, whereas he was merely heavily injured yet didn’t die.

“You...” At this moment, this leader level expert of the Violent Waterflame Ape race had suffered a heavy injury, and he felt both terrified and furious. He wanted to open his mouth and shout out loudly, yet at the next moment, a fist had assaulted his face once more, oppressing him to the point he didn’t even have the time to gasp for breath, let alone speak.

Bang!

Another Grand Obliteration Fist smashed out with Fist Insight that seemed material, and it tore through space as boundless Yin and Yang Dao Insights overturned everything. It directly blasted the old freak flying once more, causing blood to spray out from his body like a storm and taint the sky, and his aura had already become extremely weak.

Chen Xi didn’t show mercy after obtaining success, and he flashed forward once more before once again smashing his fist onto the old freak’s head. Instantly, the old freak’s head exploded apart, causing blood and brains to splash onto the ground, and he’d completely perished.

A mere three punches and a mere instant later, Chen Xi had easily annihilated a top figure in the Rebirth Realm! If this scene were to be seen by Pei Yu and the others, what they would think was truly a mystery.

“Hmm? What’s going on? Why has Leader Tu Xiao’s aura vanished abruptly?”

“Wait, I seem to have sensed a wave of fluctuation coming from beneath the tablet...”

“Could it be an enemy assault?!”

Right when Chen Xi annihilated the Violent Waterflame Ape, a wave of commotion instantly arose in the surroundings of the lair. But these Violent Waterflame Apes were unable to wrap their heads around it no matter how they wracked their brains. Their lair clearly possessed countless restrictions set up around it, so how could someone actually trespass into their lair? Even if it was an enemy assault, it ought to be outside the restrictions, right?

All the Violent Waterflame Apes were slightly taken by surprise by this sudden unexpected event.

On the other hand, Chen Xi seized this opportunity and didn't hesitate in the slightest to directly stretched out and grab with his hand, and he grabbed the tablet from within the space beneath the tablet. After that, he didn't have the time to size it up before placing it into the Buddha's Pagoda with a raise of his hand.

In the next moment, he'd executed the Starsky Wings with his entire strength to transform into a wisp of an illusory and translucent shadow that flashed out explosively.

"Shit, our sacred object has been stolen!"

"Dammit! Lock down the surroundings, we must not allow the enemy to escape!"

"Pursue! Everyone set out and kill any outsider you see! Someone actually dared to enter my race's lair to steal our sacred object, that person is simply tired of living!"

The sudden disappearance of the tablet instantly caused the Violent Waterflame Ape race to go into chaos. That was their race's sacred object, yet it was actually stolen right under their noses, and it was simply a terrible humiliation!

These Violent Waterflame Apes innately possessed extremely violent tempers. When they suffered such provocation, they instantly seemed as if they'd gone mad, and they roared and howled furiously while they moved and dived about at the bottom of the sea with the intention of finding the tracks of the thief, causing the sea water to be disturbed to the point it started roiling intensely.

Meanwhile, Chen Xi had already escaped the underwater kingdom of the Violent Waterflame Apes, and he was flashing towards the surface with extreme speed. Every single time the Starsky Wings flapped, he would flash out a distance of 500km, and his speed was something even these sea demons that were born in the water were unable to compare to.

But due to the number of Violent Waterflame Apes being too many and no less than a few hundreds of thousands, they were distributed all along the sea and spread throughout the region of sea. At this moment, when their entire race set out, they instantly noticed a trace of Chen Xi's.

"Look, quickly, he's over there!"

"It's actually a human cultivator!"

"A human cultivator? Dammit! How many years has it been? Only we torture and kill human cultivators, yet when have they ever bullied us? Kill! We must kill him!"

Instantly, all the Violent Waterflame Apes in the lar set out. They rose violent streams of water as they pursued Chen Xi in a formidable array, and their impetus was shocking to the extreme.

Shit! I've actually provoked them to the point their entire race has set out. Right when Chen Xi was almost arriving at the surface of the sea, he suddenly noticed that a violent flood of forces was charging up from the depths of the sea, and when his Divine Sense swept over, he noticed it was a dense amount of Violent Waterflame Apes that numbered in a few hundreds of thousands, causing even him to feel terrified in his heart.

Looks like I must notify Huangfu Qingying and the others as soon as possible. Otherwise, once the entire Violent Waterflame Ape race encircles them, it would absolutely be a situation of certain death... Chen Xi swiftly pondered in his mind as he leaped out from the surface of the sea, then his Divine Sense swept out, and he instantly noticed the figures of Huangfu Qingying and the others.

Chapter 449: Skysorrow Sword

On the surface of the sea, the tempest of sea demons became more and more violent.

The army of Violent Waterflame Apes were a black mass that encircled over, and they attacked Pei Yu, Huangfu Qingying, and the others in wave after wave.

But they were formidable top experts of the younger generation, so they didn't have to worry about encountering danger while only holding their ground at the outer area of the tempest.

They were waiting, waiting for the tempest to pass before they launched their counterattack.

Because the patience of the Violent Waterflame Apes was extremely bad, they would surely cease the attack after being unable to attain success after so long, and that time would be the best opportunity for them to break out of the encirclement.

"Chen Xi has gone into the depths of the army of sea demons, yet why hasn't there been any movement up until now?" Wei Muyun blasted over 10 Violent Waterflame Apes to death with a single punch, and he seized this gap to ask the nearby Pei Yu.

At this moment, they'd already gathered together and were fighting side by side, causing their strength to increase greatly while the pressure created by the Violent Waterflame Apes reduced.

"Hmph! It's best if he's dead. The army of Violent Waterflame Apes possesses Rebirth Realm leaders in command. Even though Chen Xi's strength is formidable, two fists are unable to go against four, so he has probably been struck with misfortune." Pei Yu hasn't spoken yet when Cui Xiuhong had taken the chance to reply first, and his voice revealed a feeling of taking pleasure from Chen Xi's misfortune.

"Why care about him?" Pei Yu didn't become enraged when Cui Xiuhong answered for him, and he smiled and said slowly, "Of course, I hope he'll be able to survive. After all, I'm still looking forward to using him as a shield after we enter the Isle of Fallen Treasures."

Rumble!

Right when he finished speaking, a brilliant ray of light that was like the scorching sun soared up from the depths of the army of Violent Waterflame Apes. Chen Xi stood upright in midair while his entire body emitted balls of dazzling thunderstorm vortexes, and he was like an extremely striking god of lightning that had emerged into the world.

"Everyone, the situation is critical! The entire Violent Waterflame Ape race beneath the sea have set out, and they're no less than a few hundred thousand in number. We must break out of the encirclement and leave now, otherwise..." Chen Xi's voice was like a thunderclap that instantly shocked Pei Yu and the others to the point their faces went pale. A few hundred thousand Violent Waterflame Apes? The entire race has set out?

God damn it!

Exactly what sort of existence has this bastard, Chen Xi, offended to actually bring out so many enemies?

Pei Yu and the others instantly guessed that the occurrence of such a huge and unexpected event was surely related to Chen Xi. When they thought of this, they gnashed their teeth with hatred and wished for nothing more than to annihilate this troublemaker right now.

“Let’s go! Break out of the encirclement!” But everyone knew that it was more important to break out of the tight encirclement now. Otherwise, once they were encircled by so many Violent Waterflame Apes, it would absolutely be certain death.

Everyone converged together right away and executed all their ability as they charged towards the depths of the tempest.

Rumble!

Everywhere they passed, various techniques and magic treasures sprayed out and covered the sky while colliding with their targets, and they were dazzling and resplendent. Every single strike would reap the lives of hundreds or thousands Violent Waterflame Apes, causing severed limbs and blood to spray about and taint the sea.

Everyone within this group of people was a genius expert, so they naturally had no lack of killer moves and magic treasures that possessed formidable might. At this moment, when they attacked with their entire strengths and without holding back in the slightest, they simply seemed all powerful, and in the time of a few breaths, they’d already charged into the depths of the tempest.

Meanwhile, Chen Xi had converged with them as well, and he joined forces with them to break out of the encirclement.

“Chen Xi, exactly what sort of horrible crime have you committed to make these monsters to seem to have gone mad?” Young Master Zhou did his best to annihilate the Violent Waterflame Apes that charged over fearlessly like tidewater from all directions while he asked swiftly.

“I only took something from them.” Chen Xi laughed bitterly as he shook his head. Even he hadn’t expected that he would alarm the entire Violent Waterflame Ape race at the last minute.

“What is it? Could it be a rare treasure?” Young Master Zhou’s eyes lit up as he asked.

“Enough! Break out of the encirclement first before chatting, alright?” Huangfu Qingying blasted a few tens of Violent Waterflame Apes flying with a raise of her hand, and then she turned around to glare fiercely at Young Master Zhou.

Young Master Zhou instantly shut up. But in his heart, he was even more curious about the treasure that Chen Xi obtained. Since it was able to cause the entire Violent Waterflame Ape race that numbered in a few hundreds of thousands to set out, its value is at least not inferior to a Quasi Immortal Artifact, right?

“Kill!”

“Kill these human cultivators and seize back the sacred object of our race!”

“Kill! Our race’s sacred object absolutely can’t be lost, and we absolutely can’t let these despicable human cultivators go!”

Right at this moment, a wave of enraged howls that were like rumbling thunder shot into the sky as countless Violent Waterflame Apes flashed out from the bottom of the sea while emitting ruthless auras, and they were like numerous explosive torrents that pursued Chen Xi madly.

Battle cries shook the heavens and the earth as a few hundreds of thousands of Violent Waterflame Apes gave rise to surging waves as they smashed down onto the surface of the sea like a black mass of frenzied devils. That scene was simply like the end of the world had arrived, and it caused one’s scalp to go numb.

“The sacred object of the Violent Waterflame Ape race?” When they heard these howls that contained boundless rage, the hearts of Pei Yu and the others jerked as their gazes flickered endlessly. But at this moment, the army of apes was approaching and brought boundless pressure to them, so they didn’t have the time to get to the bottom of things, and all of them started fighting even more desperately.

Especially Pei Yu, he actually withdrew a sword with an extraordinarily great might at the critical moment. Every single strike he struck out was like a shocking ray that emerged into the world and slashed apart an extremely large expanse of sea, and it easily annihilated a few thousands of Violent Waterflame Apes.

This sword was a Quasi Immortal Artifact, and it was called Skysorrow. Sword lights flowed out as divine lights danced in the sky, and it contained boundless divine might. If it wasn’t for him being in this moment of danger, Pei Yu would absolutely not easily reveal it in public.

With a Quasi Immortal Artifact in hand, Pei Yu instantly seemed to have transformed into a god of death. Sword qi struck out horizontally and vertically the sea demons in 500km around him were annihilated, tainting the jade sea red, and its might was unparalleled.

The pressure everyone felt eased up instantly, and they held admiration in their eyes as they looked at Pei Yu. Only Chen Xi’s expression had always remained calm and without the slightest movement.

A Quasi Immortal Artifact was strong indeed. For example, the Full Moon Kingdom’s Xu Lengye similarly possessed a Quasi Immortal Artifact, the Flaming Peacock Fan, but he still lost to Chen Xi in the end.

At the bottom of it all, even though a Quasi Immortal Artifact was formidable, in the hands of a Golden Core Realm cultivation, less than half of its might could be brought out at most. If a cultivator’s own strength wasn’t sufficient, then even if the cultivator held a Quasi Immortal Artifact, it would just be a waste.

All in all, without a sufficiently strong strength, even if one possessed a precious treasure like a Quasi Immortal Artifact, it would only be a waste, and it was even to the extent that one might encounter trouble because of possessing it. In the end, it would benefit another instead.

Of course, Pei Yu’s own strength was extremely formidable as well, and coupled with the Quasi Immortal Artifact, Skysorrow Sword, he was absolutely capable of being at the top amongst those of the same generation.

But Chen Xi wasn't afraid of him either. Not to mention Chen Xi's cultivation and the martial techniques and Divine Abilities he'd grasped, even if they were to compete in magic treasures, he similarly possessed a Quasi Immortal Artifact, the Flaming Peacock Fan, so he entirely had no reason to be afraid of Pei Yu.

Swoosh! Swoosh! Swoosh!

Under Pei Yu's lead, everyone had finally charged out of the black mass of Violent Waterflame Apes, and then they surmounted the surging tempest to once again see the light of day.

"Fortunately, Crown Prince's divine might is unparalleled, and we were able to easily get through it." Cui Xiuhong smiled. At this moment, everyone heaved a long sigh of relief, and their expressions were greatly relaxed.

Chen Xi turned around and saw the tempest that enveloped the heavens and the earth was getting further and further away, and he was faintly able to see that the black mass of Violent Waterflame Apes that resided within the tempest were still roaring with rage and unwillingness as they chased after them, but unfortunately, they were unable to catch up any longer.

...

In the following period of time, everyone flashed towards the depths of the sea as they recovered their strengths. After all, the deeper they went into the Primitive Sea, the greater the danger they would face, so the pressing matter at the moment was to make the best use of their time to recover their strength.

"Chen Xi, exactly what sort of treasure is that sacred object?" Young Master Zhou raised the old topic of discussion.

"It's just a tablet that contains a Grand Dao profundity, and it's no different than a Dao Insight Origin Pill, as one can comprehend a Grand Dao from it." Chen Xi smiled as he answered.

"Then it's surely an extremely extraordinary Grand Dao profundity." Young Master Zhou was rather envious. But he didn't ask for details as it was fine knowing what sort of thing it was, and there was no reason to ask even more. Everyone had their own secrets, and one had to know to respect that so that friends could get along properly.

"Chen Xi, you have to carefully take care of it. It would be troublesome if Pei Yu and the others covet it." Huangfu Qingying sent a voice transmission from the side. The three of them were communicating via voice transmission, so they didn't have to worry about being overheard by Pei Yu and the others.

Chen Xi nodded and said, "I naturally understand this."

But as the saying goes, speak of the devil and he shall appear.

In the next moment, the nearby Cui Xiuhong suddenly said in a clear voice, "Brother Chen, may I ask what sacred object you obtained from the Violent Waterflame Ape lair? Why don't you take it out and let us broaden our horizons?"

His voice wasn't loud yet guaranteed that Pei Yu, Wei Muyun, and Leng Qianqiu were able to hear it. Sure enough, all of them shot their gazes at Chen Xi when they heard this.

“Yeah, Brother Chen, everyone suffered greatly earlier because of you, and we were almost unable to escape. We’re already safe now, so take out the treasure you obtained so that all of us can have a look. This is justifiable, right?” Wei Muyun spoke out as well.

“Yes, I’m extremely curious what shocking treasure Brother Chen obtained as well that it actually drew out the entire Violent Waterflame Ape race. Ordinary treasures are probably unable to cause such an effect, right?” Leng Qianqiu asked curiously.

This woman wasn’t an ordinary figure, her words seemed to be casual yet faintly pointed out that Chen Xi had surely obtained an extraordinary treasure, and he better not take out some ordinary treasure to fool them now!

Huangfu Qingying and Young Master Zhou glanced at each other, and they both cried out in their hearts. Shit! What should Chen Xi now?

As the saying goes, one can take precautions against a normal act of thievery, yet once targeted by a thief, the thief will always have a way.

But Chen Xi’s display greatly exceeded their expectations. He swept Pei Yu and the others with his gaze before smiling lightly, and then he answered readily without the slightest hesitation. “Since every has already spoken like this, then how can I refuse?”

As soon as he finished speaking, his palm flipped and a 60cm tall tablet appeared on his palm. The tablet was covered in dense mottled marks and seemed to have experienced the baptism of countless years, and it emitted a heavy and ancient aura.

Most striking of it all was that this tablet didn’t have any writing nor diagrams on it, and it was very ordinary, yet it was suffused with a terrifying energy that caused one’s heart to palpitate.

“This tablet actually contains a Grand Dao profundity!?”

“What Dao Insight is this?”

“It’s absolutely a rare Grand Dao Insight. Otherwise, how could we possibly be unable to recognize it?”

The pupils of Pei Yu and the others constricted as they’d all perceived the value of this tablet. For a time, dense envy gushed out from their hearts, and they wished for nothing more than to make a move and seize it for themselves.

Even Huangfu Qingying and Young Master Zhou’s had a wisp of shock and admiration arise on their faces. This tablet contains a rare Grand Dao profundity. No wonder the Violent Waterflame Ape race valued it as a sacred object...

Chapter 450: Skywolf Dynasty

Right when everyone was sighing with admiration, Cui Xiuhong’s eyes spun as he spoke out abruptly. “Brother Chen, I feel that we contributed to your success in obtaining this treasure, and especially Crown Prince’s contribution is the greatest. Without him suppressing the sea demons, I presume it would be impossible for you to escape the encirclement of those Violent Waterflame Apes as well.”

He paused for a moment before he continued. "How about this, lend this tablet to the Crown Prince to comprehend for a period of time as repayment of Crown Prince's favor of lending a hand. Once Crown Prince comprehends the profundity within it, the tablet will be returned to you intact. How about it?"

Wei Muyun and Leng Qianqiu looked at Pei Yu when they heard this, whereas, Pei Yu shook his head and laughed lightly without end. He didn't decline nor did he refuse, and his attitude was something that was worthy of ruminating.

The faces of Huangfu Qingying and Young Master Zhou sank as they knew Cui Xiuhong had malicious motives. Obviously, he wanted to intentionally cause conflict between Chen Xi and Pei Yu.

"Brother Cui, what do you mean by this?" Huangfu Qingying frowned.

"What do I mean? Could it be that he shouldn't indicate his gratitude after we wiped his ass for him? There isn't such an easy advantage to gain in this world. Not to mention this request isn't going too far, and I only asked him to borrow the treasure. Could it be that he can't even fulfil such a simple request?" Cui Xiuhong sneered without end.

Huangfu Qingying still wanted to say something yet was stopped by Chen Xi with a shake of his head.

"I believe that this is surely not the intentions of Brother Pei, right?" Chen Xi played with the tablet in his hand as he looked at Pei Yu with a spurious smile.

Pei Yu was stunned, and he was just about to say something when he saw Chen Xi turn around to look at Cui Xiuhong, and the Chen Xi suddenly denounced coldly. "Who do you think you are? How can the thoughts of Daoist Brother Pei be decided by you? It's only a treasure, yet has become the excuse for you to drive a wedge between us and stir up trouble. Your intentions simply deserve death!"

At this instant, Chen Xi seemed to have become another person. His backbone was straight like a sword that pierced the sky as his entire body emitted exceedingly cold and sharp killing intent. Moreover, his voice seemed flat yet resounded out like thunderclaps, and it seemed as if he was reprimanding a junior right in the face and without holding back in the slightest.

"You!" Cui Xiuhong was reprimanded to the point he was fuming as his face flushed red, and he exploded with rage. "Chen Xi, there'll come a day when I'll let you know how miserable the consequence of offending me is!"

"I want to know how formidable you are right now." Chen Xi suddenly took a step forward before stretching his hand out to grab Cui Xiuhong. "You've ceaselessly instigated trouble all along the way with malicious intent, and you're simply despicable to the extreme. Looks like only by killing you would you become completely silent!"

Bang!

At this moment, Pei Yu made a move.

He swung out his palm, causing it to press down like a mount and blocked Chen Xi's hand from above. Instantly, True Essence collided and brilliant lights shot out in all directions, and their strikes were on par.

Chen Xi withdrew his hand and moved back right away before he said with a frown, "Brother Pei, this kid is so crafty. If he's left by your side, he'll just continue using deceiving words to repeatedly make enemies for you. What's the point of keeping him alive?"

"Alright, I'll decide this matter." Pei Yu glanced deeply at Chen Xi, and then he said with a smile, "No matter what, XiuHong spoke that way for my sake, but his methods were slightly wrong. I hope Brother Chen doesn't take it to heart. As for this tablet, it's Brother Chen's possession, and a gentleman doesn't seize something that another has taken a fancy to. I'll naturally not brazenly ask for it, so Brother Chen doesn't have to worry about this."

"Brother Pei is frank and forthright, I truly feel heartfelt admiration." Chen Xi smiled, and as he spoke, he'd long since put away the tablet.

As he looked at Chen Xi's smile, Pei Yu's expression was calm, yet he felt a wave of discomfort in his heart as a trace of killing intent flashed in his eyes. He seemed to be unable to endure it and wanted to immediately make a move against Chen Xi, kill Chen Xi, and seize the tablet.

But with a quick thought, he endured it in the end, and a poised and faint smile appeared once more on his face. "Brother Chen is too kind. Let's not mention this matter anymore, and we should quickly hurry on our journey, as exploring the Isle of Fallen Treasures is the most important matter."

As soon as he finished speaking, he'd turned around and flashed towards the distance, and he seemed to be extremely afraid he would be unable to stop himself from making a move against Chen Xi if he continued staying here.

"Hmph!" Cui XiuHong glanced resentfully at Chen Xi before flashing out as well.

...

"Chen Xi, why did you take out the tablet earlier? If you didn't do this, it would draw so much trouble to you." After Pei Yu and the others left, Huangfu Qingying came over and asked him.

"If I don't take it out, these fellows will probably be unable to stop themselves from making a move against me on the way." Chen Xi's eyes were deep as a trace of coldness appeared on the corners of his mouth. "One can take precautions against a normal act of thievery, yet once targeted by a thief, the thief will always have a way. Especially when Cui XiuHong who's extremely skilled in sowing dissension is following by Pei Yu's side, warning them at this moment would at least cause them to not dare make a rash move before entering the Isle of Fallen Treasures."

Young Master Zhou came to an understanding at this moment, and he said with a smile. "You've thought through it thoroughly. It's difficult to take precautions for a long period of time, as it's easy to overlook something, so Brother Chen's actions had resolved a great deal of trouble."

"But that tablet has already been exposed, and you've already shed all pretenses between Cui XiuHong earlier. Moreover, even Pei Yu seems to have aroused killing intent towards you. I'm afraid your situation will become more and more dangerous once we arrive at the Isle of Fallen Treasures." Huangfu Qingying was still worried.

"I'll just kill them." Chen Xi replied carefreely and succinctly, yet the resolutions and killing intent in his words were completely revealed.

This caused Huangfu Qingying and Young Master Zhou to instantly understand that Chen Xi had probably thought of everything long ago. Pei Yu and the others had aroused killing intent towards him, and he'd aroused killing intent towards them!

Suddenly, the sky gradually turned dark.

Chen Xi, Huangfu Qingying, and Young Master Zhou raised their heads to look ahead, and they couldn't help but frown. In the distant horizon, a large expanse of black crept over, and it stretched far to the point its borders were beyond their field of vision, causing it to seem as if the darkness of night was corroding the light of day.

"What a large expanse of dark clouds!" Young Master Zhou exclaimed with shock.

"It's probably not dark clouds." Chen Xi's Divine Sense had spread out to arrive 5,000km away, and when it encountered the black color that was creeping over, he said with a heavy voice, "It's hummingbirds, Savage Hummingbirds!"

Young Master Zhou was stunned, and then his expression became heavy as well.

Savage Hummingbirds possessed ferocious natures, and they were a few tens of times more formidable than ordinary hummingbirds. They moved like bolts of lightning while their bodies emitted Necro Baleful Qi, and their joints were extremely sharp like blades and were comparable to earth-rank magic treasures.

Most importantly, Savage Hummingbirds moved out in a few tens of thousands or even a few hundreds of thousands, and they covered the heavens and the earth.

The 'dark clouds' in the extreme distance that they were unable to see the end of was shockingly the vast scene caused by a group of Savage Hummingbirds flying over.

"In this way...the Isle of Fallen Treasures is already not far away?" When she saw this scene, Huangfu Qingying wasn't terrified, but delighted instead. Her gaze was deep and overflowed with multicolored flowing lights as she said excitedly, "According to rumor, Savage Hummingbirds were also called birds of the fallen, and they were from the Isle of Fallen Treasures. Every time Savage Hummingbirds appeared, it meant that the Isle of Fallen Treasures wasn't far away."

In next to no time, the boundless black color that crept over like the veil of night had arrived to a point 50km away from them, and it was extraordinarily swift.

"Pei Yu and the others have probably already charged into it. Let's go, we'll charge through as well." Huangfu Qingying's delicate hand swung out, causing the Thousandplume Dragonboat to drone, and it didn't retreat but moved forward instead, charging head on towards the boundless expanse of black.

Om! Om! Om!

A wave of sharp droning that rose and fell like the tide shook the heavens and the earth. In merely the time of a few breaths, the Savage Hummingbirds that covered the sky had already spread out, and they were a dense black mass that blotted out the sky.

“Azurespirit Void Finger!” Young Master Zhou was the first to launch an attack. A finger flashed through the sky, causing a large mass of Savage Hummingbirds to be shattered into powder before pouring down from the sky.

“Grand Dragon Imagery!” Huangfu Qingying attacked ferociously. Her delicate hand fluttered in the sky as an enormous dragon that was coiled in golden rays of light coiled around the in the sky and emitted surging dragon roars. Its claws were like pillars that held up the heavens, its body was 3km in length, and it emitted the vast might of a dragon that put everything in the world into turmoil.

This was similarly a perfect Dao Grade martial technique. It was an ultimate technique of the Imperial Family that Huangfu Qingying inherited from Emperor Chu, and it possessed boundless might.

But there were truly too many Savage Hummingbirds that replaced each other successively, and they were utterly unable to see the end of the Savage Hummingbirds. Both of them went all out, yet were only able to temporarily guarantee their own safety.

“Heavenly Thunderstorm!” At this moment, Chen Xi had finally made a move, and the effect it brought about was the greatest.

His figure flashed as countless vortexes crackles into appearance around his body, and thunderstorms that rumbled and surged with bolts of lightning appeared. The thunderstorm vortexes spread out in a fan shape with him at the center, and at the instant the dense mass of Savage Hummingbirds encountered the thunderstorm vortexes, they were instantly shattered into powder before their Blood Essence and demonic qi transformed into a warm current that was completely swallowed into Chen Xi’s body and replenished his consumed Shaman Energy.

This was one of the methods of devouring in the Divine Ability, Stellar Lightningform. It took one’s self as the heart of the vortex that enveloped out in all directions, and it was absolutely a great killer move that was most suitable for attacking in an area.

With Chen Xi’s addition, Huangfu Qingying and Young Master Zhou instantly felt much more at ease.

But the situation was still not promising. Because their surroundings were covered in a dense mass of black, causing them to be utterly unable to distinguish the directions. So long as the Thousandplume Dragonboat moved slightly to the side, it would cause them to be lost within this boundless sea of Savage Hummingbirds.

“Hmm? There’re people ahead, and it seems to not be Pei Yu and the others.” As he attacked, Chen Xi noticed that a bright light emerged and flashed from the group of Savage Hummingbirds in the distance ahead of them. Obviously, someone was in battle there. But it didn’t seem to be Pei Yu and the others because the group of people ahead of them consisted of five people, whereas Pei Yu’s group only had four people.

They charged and slaughtered all along the way. In next to no time, Chen Xi and the others had clearly seen the group of people ahead of them. The strengths of these five people were extremely powerful, their appearances young, and they were obviously genius experts that had entered the Primeval Battlefield this time.

The strongest amongst them was a man and woman. The man used a spear, and his movements were large and straightforward. He seemed imposing as he pierced out with the brilliance of a myriad of stars, and his might was peerless and impossible to resist.

On the other hand, the woman used a jade green curved blade instead. Blade lights shot out clear jade colored flames that were vicious and overbearing, and everywhere it passed, even space was charred by it.

“Those two people are Li Jun and Yan Yu’er. Both of them are genius experts of the Skywolf Dynasty.” Huangfu Qingying recognized the identities of these two people. The Skywolf Dynasty and the Darchu Dynasty had bitter feuds with each other, so she naturally recognized the identities of Li Jun and Yan Yu’er.

“In this way, it would seem that these five people are all from the Skywolf Dynasty.” Young Master Zhou spoke coldly. He similarly knew that because of the hatred between their respective Dynasties, they’d imperceptibly become enemies since the moment they entered the Primeval Battlefield.

“Breaking out of the encirclement is more important, don’t make contact with them and fly over them.” Chen Xi made a prompt decision. At this moment, they were within the army of Savage Hummingbirds, and if a clash arose between them and these fellows, it would probably cause them to completely lose their direction.

Huangfu Qingying knew the gravity of the situation as well, and she immediately controlled the Thousandplume Dragonboat to swiftly flash towards the side.

“Senior Brother Li Jun, there’s a treasured vessel flying over there.” Yan Yu’er’s condition was extremely bad. The five of them had already been trapped for half a day, and the most horrible thing was that they were unable to find a point to break out from. If this continued on, they would only be trapped to death. However, right at this moment, she’s inadvertently noticed the Thousandplume Dragonboat with a glance, and her eyes couldn’t help but light up.
