Chapter 461: The True Appearance

“Where do you think you’re going!?” How could they allow Chen Xi to escape? They’d scattered around in the surroundings precisely for the sake of locking down all of Chen Xi’s paths of retreat. At this moment, when they saw him fleeing towards the river of bones, they instantly followed.

The bones flowed while gloomy winds howled by furiously. The river water seemed to be boundless and filled with dense amounts of bones and skeletons, yet Chen Xi’s speed was extremely swift while moving through it with the Starsky Wings.

The group of people behind him sneered as even though their speeds were inferior to Chen Xi, the surrounding space had already been locked down by them, causing Chen Xi to be incapable of escaping no matter what and would be chased down sooner or later.

“I heard this fellow possesses a Quasi Immortal Artifact. We have to be careful so that he isn’t able to take us by surprise.”

“A Quasi Immortal Artifact? That’s a great treasure! How did such a precious treasure fall into the hands of this bastard? We’ll seize it from him after killing him!”

“This fellow’s hands are covered in blood. After we capture him, we must dismember him to death before burning his bones and scattering his ashes.”

The group of people sneered repeatedly. In their eyes, Chen Xi was already a trapped beast that was on the brink of a hopeless situation, and besides death, there wasn’t a second choice. It was even to the extent that they were already planning how to divide the treasures in Chen Xi’s possession after killing him.

Suddenly, Chen Xi turned around as a trace of coldness suffused the corners of his mouth, and he held up the Talisman Armament in the sky before fiercely slashing down towards the bones behind him.

Bang!

The innumerable bones at the center of the river exploded and sprayed out a strand of milky white flames, that was like blazing lava and possessed a shocking temperature as it charged into the sky like a wave.

“Looks like this bastard had really exhausted his bag of tricks and thinks that some flames are able to hurt us. Truly laughable.” A genius expert sneered and he held a magic treasure in his hand as he moved to obstruct the milky white wave of flames that charged up towards them.

However, his smile swiftly froze as everyone felt a wave of terror as if they’d fallen into a pit of ice at this moment.

Om!

An extremely terrifying aura shot into the sky and shook the world, causing every single one of them to feel horrified!

A jade ornament that was pure white and crystalline to the point of being translucent floated within the lava and was enveloped by a ball of milky white flames as it revealed itself, and then it suddenly shook as if it was extremely enraged and exploded out with a surging white light.

“AH! No!!” The group of people let out shrill cries as they deeply felt that their lives were strongly threatened, and their situation was extremely dangerous as if they’d encountered a calamity. This jade ornament was too terrifying, and it terrified them to the point their hearts trembled as their fighting spirit almost collapsed.

Bang! Bang! Bang!

The ear piercing and sharp sound of magic treasures shattering resounded out as the magic treasures of six genius experts were shattered on the spot, and along with the people by their sides, they emitted shrill and miserable cries as they fell into the blazing white light.

“Flee! Quickly! This is Whitebone Divineflame, and even Earthly Immortal Realm experts are incapable of subduing it, whereas that treasure is even more terrifying than the Whitebone Divineflames. Hurry up and escape!” The Darqian Dynasty’s Geng Luo let out a loud and frenzied shout as he carried along the few people by his side while turning around to flee for his life.

Unfortunately, he was too close to the Whitebone Divineflame. Moreover, the jade ornament was at the critical moment of its transformation, so being disturbed caused it to be furious to the point of striking madly.

Bang!

Another magic treasure split open as two genius experts of the Darqian Dynasty were directly incinerated into nothingness by the white light, and they vanished in the blink of an eye. On the other hand, Geng Luo exhausted all his ability and even though he was able to escape by luck, he still suffered a heavy injury, causing his entire body to be charred and almost incinerated into nothingness.

In merely an instant, an entire 10 plus people were killed by the jade ornament, and only another few heavily injured people remained with Geng Luo. Fortunately, the jade ornament didn’t chase after them once they escaped the center of the river.

But unfortunately, Chen Xi was waiting ahead. He directly executed the Stellar Lightningform, causing thunderstorm vortexes to rumble and cover the heavens and the earth while moving to swallow them, and it successively minced Geng Luo and the others to death.

“How ruthless! The Crown Prince will avenge us...” These words were the final shrill and miserable cry that Geng Luo let out before his death.

Up until this point, these 15 genius experts that were from the various Dynasties had all been annihilated in only a few moments, and this was naturally the contribution of the jade ornament, whereas Chen Xi had only used the might of it to kill them.

But even then, Chen Xi was still shocked in his heart as this jade ornament was too formidable, and it killed them like slaughtering chickens, without the slightest effort.

Meanwhile, the jade ornament and Whitebone Divineflame had already submerged once more into the river of bones and vanished out of sight.

Chen Xi didn't leave, and he stayed here for an entire half a month more, and he only started probing it after he was unable to notice the faint divine might emitted by the Whitebone Divineflame.

He stood carefully at the bank of the river while maintaining a sufficient amount of safe distance. The Shaman Energy in his body surged as the Starsky Wings were in a ready state, and he intended to turn around and flee at the slightest sign of danger.

After all, the jade ornament was truly too terrifying and was utterly not something his current strength was capable of going against, so he had no choice but to be extremely careful and make sufficient preparations.

Hmm? Why isn't there any reaction? Chen Xi withdrew a flying sword and sent it over to the center of the river before carefully using it to break through the skeletons and bones on the surface of the river. He searched carefully, yet in the end, not only did he not notice the Whitebone Divineflame, even the jade ornament seemed to have vanished.

After contemplating for a long time, Chen Xi gritted his teeth and decided to personally take a look in the end. He arrived at the place at the center of the river where the jade ornament floated earlier, and then he started searching. He didn't dare utilize his Divine Sense as he was deeply afraid of alarming the jade ornament. After all, this treasure was extremely intelligent as if it possessed a mind of its own, and he had to take precautions.

After a long time and after he confirmed there was no danger, Chen Xi utilized the Talisman Armament immediately to dig up the layer upon layer of bones and skeletons that were piled up on the surface of the lake. He dug and dug to the point his entire body was already 3km deep into the river, yet he still didn't notice anything.

I've always been waiting here in these past few days, and I didn't notice any traces of it leaving. Chen Xi didn't give up and continued digging towards the bottom of the river of bones.

6km.

15km.

...

Clang!

When he arrived at an entire 30km below the surface of the river, the Talisman Armament seemed to have hit a hard metal rock and emitted an ear piercing sound of collision.

Chen Xi was delighted in his heart and cleared up all the nearby bones before carefully sizing up the place he was at, and in the next moment, he couldn't help but reveal a shocked expression.

The entire area all around him was covered in layer upon layer of innumerable bones, and it was extremely difficult to imagine how these bones had actually piled up to a depth of 30km. The amount of bones was enormous to the point it was sufficient to cause anyone to be dumbfounded, and it was a mystery how many people had perished here.

But Chen Xi didn't have the mood to care about all these as his gaze was drawn by a corpse on the ground.

This corpse was sitting cross-legged, its bones crystalline like jade and completely pure and flawless, it seemed as if it was constructed from the most beautiful jade stone in the world, and even if countless years had passed, it wasn't tainted by a single speck of dust.

Chen Xi couldn't help but knock the corpse with his hand, causing it to emit a melodious clinking sound that was like a clear sound of nature, the sound of the Dao being chanted lightly, and it shook his heart and actually caused his heart to instantly feel tranquil.

Could this be the corpse of a god? Moreover, the Whitebone Divineflame was emitted from it? A thought flashed in his mind as Chen Xi stared fixedly at the surface of this corpse. However, to his disappointment, he didn't notice any Grand Dao brands on it nor was there any divinity emanating from it, and it seemed to only be an ordinary corpse that looked slightly beautiful.

But in the next moment, Chen Xi's eyes lit up. Shockingly, the jade ornament stood there at the space between the corpse's crossed-legs, and its appearance had changed drastically. It had actually become the size of a finger and was crystalline and translucent.

What astonished Chen Xi the most was that its surface enshrouded with divinity and boundless Dao Insight that was like a sea. Moreover, he could faintly notice a trace of Whitebone Divineflame flowing within it, causing it to seem extraordinarily gorgeous.

Could it be that it swallowed all the Whitebone Divineflame, and even the divinity and Grand Dao brand on this corpse was absorbed completely by it? Chen Xi swiftly deduced in his heart. It's surely like this. Earlier, it was absorbing the Whitebone Divineflame for the sake of achieving a transformation, and after it succeeded, its strength rose explosively, allowing it to absorb the boundless divinity and Grand Dao brand on this corpse as well. Only an explanation like this is rational.

When he figured this out, he instantly confirmed that the corpse before him had surely been left behind by a god of ancient times!

Unfortunately, not only has it already lost its divinity and Grand Dao brand, this corpse will probably not be able to last for long before transforming into ash... Chen Xi sighed endlessly with regret.

Seeming to be for the sake of proving Chen Xi's guess, not even a short moment passed before the pure and crystalline corpse really crumbled with a bang and transformed into a large handful of bone dust that flowed down to the ground.

"There's no end to the Grand Dao, yet I was only enlightened in death, an illusion..." Along with the corpse transforming into dust, a bleak sigh suddenly resounded out and shocked Chen Xi to the point of swiftly retreating back. In the end, he noticed that the voice quickly went silent and never appeared ever again.

Before he could even heave a sigh of relief, he noticed the brilliance emitted by the jade ornament on the ground was completely restrained, and it didn't possess any phenomenon of divinity, Dao Insight, or Divineflames on it as it remained unmoving as if it had gone silent.

Chen Xi couldn't help but emit a strand of True Essence airflow to probe it, yet it still remained the same and didn't cause any effect. In the end, he picked up the jade ornament and placed it on his palm yet it still didn't react in the slightest.

"Uh... This seems to be the shape of a cauldron and not an ornament." When he got a clear view of the true appearance on this treasure from a close distance, Chen Xi instantly felt extremely ashamed. He'd chased it all the way yet actually didn't even see what treasure it was clearly, and it was a little too embarrassing.

But it couldn't be blamed on him. From the beginning until the end, this treasure was enshrouded with auspicious air and flowing rays of light while emitting a terrifying aura, causing Chen Xi to utterly not dare inspect it with his Divine Sense, and this is why he'd mistaken the jade cauldron to be a jade ornament.

This jade cauldron wasn't even 3cm in height and only as long as one's pinky. It possessed three legs, was completely crystalline and translucent as if it was constructed from fine jade, and it was extraordinarily gorgeous. Detailed markings were faintly visible on its surface yet one couldn't see exactly what marking they were. Moreover, there was a conspicuous gap at the mouth of the cauldron, and it seemed to have been knocked off by something.

All in all, if one didn't look carefully, this tiny cauldron was like a gorgeous piece of decoration as it didn't emit the slightest terrifying aura, and it was extremely difficult to imagine that it had emitted such a shocking might earlier.

Chen Xi inspected it repeatedly yet was utterly unable to sense the slightest bit of aura from it, and he couldn't help but be slightly regretful in his heart. But he was absolutely not disappointed as he firmly believed that this tiny cauldron that had experienced the tempering of the Whitebone Divineflame and absorbed the boundless divinity and Grand Dao brands of the corpse of a god was absolutely an extremely extraordinary treasure and not a beautiful decoration.

The reason was extremely simple. He'd tried to place the tiny cauldron into the Buddha's Pagoda yet it actually created a shapeless repulsive force and seemed as if it felt disdain to be together with the Buddha's Pagoda.

Chen Xi wasn't shocked but delighted instead. The Buddha's Pagoda was a damaged Immortal Artifact, and even though it had lost its Artifact Spirit yet a world of its own was formed within it. However, the tiny cauldron and rejected being kept within it, and what did this represent?

This represented that the quality of the tiny cauldron was even greater than the Buddha's Pagoda!

Chapter 462: A Secret Realm Emerges

Swoosh!

At the center of the surging river of bones, a tall figure with an extraordinary bearing flashed out while his clothes fluttered in the wind, and it was precisely Chen Xi.

Earlier, he'd studied the tiny cauldron for half a day, yet came back empty handed, and he could only take it as a piece of jewelry and hung it on his chest.

I heard there are numerous treasures in the deepest depths of the ruins, whereas, most of the genius experts that entered the ruins have headed there. Perhaps I'll be able to find the tracks of the Young Princess and Young Master Zhou there. Chen Xi looked around at his surroundings and pondered briefly before distinguishing the direction and flashing towards the depths of the ruins.

These past few days of repeatedly suffering from ambushes had caused him to clearly realize how many enemies the Darchu Dynasty possessed. Moreover, up until today, he hadn't heard any news about Huangfu Qingying and Young Master Zhou, causing his mood to feel rather heavy as he was worried a mishap had struck them.

After a few days, Chen Xi arrived at the depths of a group of mountains. Along this way, he'd seen over 10 treasures left behind by the gods; some flew out from the rubble, some flickered in the layer of clouds, and some even charged out from underground, and all of them were emitting the glow of treasures and caused one's eyes to go red from greed.

But unfortunately, he was unable to subdue them, causing Chen Xi to be unable to refrain from being slightly regretful. But there was something he was extremely sure of — these treasures weren't as mysterious and terrifying as the tiny cauldron.

This place was a barren group of mountains that were covered in strangely shaped rocks, and it was an extraordinarily magnificent and grand scene.

All along the way here, Chen Xi actually didn't see a single figure, and it seemed as if all the genius experts that had entered this boundlessly vast ruins had vanished completely, causing the ruins to seem extremely desolate.

Could it be that everyone has entered the deepest depths of the ruins? Chen Xi stopped and looked towards the distance while feeling bewildered in his heart. Suddenly, his eyes squinted, as there was actually a corpse at the side of the peak of the mountain at the center!

Swoosh!

In the next moment, Chen Xi had already arrived at the side of the corpse.

This corpse was dark gold in color and sat cross-legged on the ground, the surroundings of the corpse were a charred expanse, while the earth faintly revealed a trace of the energy of lightning, and it caused one's heart to palpitate.

This ought to be someone who'd just failed in overcoming the tribulation to advance into the Rebirth Realm. The Heavenly Tribulation and the tribulation of the heart arrived in unison, causing both his body and soul to be incinerated. Even his bones have almost been incinerated into nothingness by the flames of the tribulation, it's truly tragic. Chen Xi briefly sized it up before guessing everything that had happened, and he couldn't help but sigh in his heart.

When one advanced into the Rebirth Realm, flames of tribulation would emerge in one's body and mind while the Heaven Dao would strike down with tribulation lightning. Both tribulations would arrive in unison, so ordinary people were very rarely able to overcome it.

But what caused Chen Xi to be bewildered was that all the cultivators that had entered the Primeval Battlefield this time were the top geniuses in the younger generation of the various Dynasties, and their

strengths were good enough that they were entirely capable of easily advancing into the Rebirth Realm. Moreover, this corpse before him probably belonged to one of the disciples of a Dynasty, so how could this cultivator even be unable to overcome the tribulation?

Chen Xi swept the surroundings with his gaze and instantly came to an understanding. The nearby rocks and mountain surface was riddled with holes and mottled marks. Obviously, a battle had occurred here earlier. The owner of this corpse had suffered the surprise attack of someone while overcoming the tribulation, and this is what caused his failure.

“Looks like I must find a safe place when I overcome the tribulation, otherwise I’ll probably end up just like him.” Chen Xi sighed lightly and was just about to leave when his eyes constricted, and then he looked coldly towards a rock in the extreme distance. “Friend, concealing yourself is slightly displeasing.”

“The Darchu Dynasty’s Chen Xi is really not someone an ordinary genius can compare to.” Accompanied by a hoarse voice, a young man that wore black clothes walked out from behind a rock with an even pace. This young man looked to be rather emaciated, especially his face that seemed to be pale with eyes that sunk down deep, and his pupils faintly revealed a trace of a strange ghastly white color that gave others a gloomy feeling as if it was filled with a dense ghastly aura.

“Who’re you?” Chen Xi spoke while maintaining his composure, yet he became apprehensive in his heart because this person had actually advanced into the Rebirth Realm. The vital energy and blood in his body was condensed and fierce, and it actually caused Chen Xi to smell a trace of danger.

“Your luck isn’t bad to have obtained the Quasi Immortal Artifact, Flaming Peacock Fan, from the Full Moon Kingdom’s Xu Lengye. If it wasn’t for that, the Sword Crazy Kid, Taishu Huarong, would probably not have died so easily at your hand.” The emaciated black clothed young man avoided the question and directly exposed the matter of Chen Xi utilizing the Flaming Peacock Fan to kill the Sword Crazy Kid instead.

“What? You’re interested in the Flaming Peacock Fan?” Chen Xi’s eyes narrowed as the True Essence within his started circulating silently.

“If I say yes, then would you immediately make a move against me?” The young man smiled lightly. His voice was hoarse and when coupled with his ghastly bearing, it caused one to have no choice but to treat him carefully.

Chen Xi smiled instead when his thoughts were seen through, and he made no comment. Even though he didn’t know this black clothed young man’s origins, wanting to change the owner of something that was in his possession wasn’t such an easy thing.

“Don’t worry. Even though the Flaming Peacock Fan isn’t bad in my opinion, it isn’t the type of treasure that I can’t do without.” The young man shook his head.

He paused for a moment, then he raised his head to stare at Chen Xi and continue. “I’m not afraid to tell you that it’s far too insufficient if you’re thinking of becoming eminent in the Primeval Battlefield by relying on a Quasi Immortal Artifact. The current you doesn’t even have the qualifications to hold a Dark Reverie Token.”

“Dark Reverie Token?” Chen Xi’s brows pressed together slightly.

“In another half a year, the true test of the Primeval Battlefield will descend, and that’s the final battle. Those that win will be able to obtain a Dark Reverie Token, and not only will they be able to enter the Dark Reverie, they’ll even possess the qualifications to join one of the various supreme powers in the Dark Reverie!

“The last requirement to participate in the final battle is to possess a strength at the Rebirth Realm.”

“Of course, attaining the Rebirth Realm will merely allow one to possess the strength to protect yourself, yet it isn’t likely that one would be able to become eminent in the final test and obtain a Dark Reverie Token. For example, with his strength at the 4th level of the Rebirth Realm, the Sword Crazy Kid, Taishu Huarong, practically had no hope of obtaining a Dark Reverie Token.”

Chen Xi was slightly moved when he heard all of this. Even Taishu Huarong who was at the 4th level of the Rebirth Realm had no hope? Doesn’t this mean that if one wants to obtain a Dark Reverie Token, one must at least attain a level above the 4th level of the Rebirth Realm to have a certain level of hope?

So it turns out that the tests and competitions within the Primeval Battlefield is actually like this... Chen Xi sighed with emotion in his heart, yet his fists had unconsciously and silently become clenched tightly. Perhaps he really didn’t have the qualification to possess a Dark Reverie Token now, but, there was still half a year before the final test. At that time, his strength would absolutely not be what it is now.

“Thank you, Fellow Daoist, for telling me all this.” Even though he didn’t know why the young man would tell him so much, but Chen Xi still cupped his fists and indicated his gratitude.

“Actually, you’ll know about it in the future even if I didn’t tell you. After all, this isn’t any secret, so you don’t have to thank me.” The young man said indifferently, “I just want to let you know that you’re still far inferior when compared to those true genius experts. After all, you’re from an ordinary Dynasty, and wanting to obtain an equal status and prestige with the genius experts of top Dynasties isn’t a simple matter.”

Chen Xi smiled and begged to differ.

“Perhaps you think I’m exaggerating. But once you really witness the strength of the three top Dynasties and the disciples of those Prestigious Clans of Ancient Kingdoms, you’ll entirely understand some differences are like a natural chasm that very few are capable of surmounting.” The young man shook his head before turning around to leave.

“Right, I’m Ling Ze from the Dartang Dynasty, and I’m Ling Yu’s elder brother.” The young man’s figure floated up as he suddenly turned around and told Chen Xi his name, and then he transformed into a strange afterimage that left trippingly.

Chen Xi was stunned as the image of a grinning fatty appeared in his mind. So he’s Ling Yu’s Elder Brother, no wonder he told me so much...

Ling Yu was the disciple of an old freak that lived in seclusion in the Darchu Dynasty and possessed a gentle nature, but his strength was extremely formidable and had fought his way into the top 10 of the Allstar Meeting. Just like Chen Xi, he was one of the young disciples from the Darchu Dynasty that had entered the Primeval Battlefield.

The Dartang Dynasty, that's one of the three top Dynasties. But this fellow is formidable indeed, and if it's really as he said, then it looked like I really have to speed up my charge into the Rebirth Realm... Chen Xi's brows furrowed slightly as he looked at the figure that was disappearing into the distance, and then he stretched himself while yawning and had already made a decision in his heart.

He intended to turn around and leave right away, yet right at this moment, three figures suddenly flashed over from the distance, and their speeds were neither fast nor slow while they chatted loudly as they flew.

Chen Xi's soul's strength was enormous, and he instantly heard the entire content of their conversation.

"I heard an intact secret realm has emerged in the ruins. That secret realm had experienced the passage of an infinite amount of time, yet it actually still has restrictions protecting it. There's surely the inheritance of the mantle of the gods left behind within it."

"Are you sure?"

"It really is true. Many Dynasties have already rushed over. Heh, I heard there are already two fellows that were fortunate enough to obtain the talisman seal to enter the secret realm, and they're able to enter the secret realm to obtain its inheritance at any moment."

"Oh? Which fellow is actually so lucky?"

"It's funny when you speak about it. Those two people that obtained the talisman seals aren't from a first-rate Dynasty, but an ordinary Dynasty. Now, those two misfortunate souls have been trapped, and so long as one is able to force them to hand over the talisman seal, one can enter the secret realm to obtain its inheritance."

"An ordinary Dynasty? Heh, these two fellows are slightly overestimating their abilities. Even though they've obtained an enormous fortuitous encounter, but don't have the fortune to enjoy it. Right, which Dynasty are they from?"

"The Darchu Dynasty! Haha, this Darchu Dynasty is really peculiar. It has numerous enemies, yet its luck just happens to be extraordinarily good. But the benefits of this good luck if probably going to be reaped by others instead."

Chen Xi who'd always been listening to their conversation was suddenly stunned. The Darchu Dynasty, two people... Then the answer seems to be slightly obvious... It's surely Huangfu Qingying and Young Master Zhou. Both of them vanished after the beast tide erupted, yet never had I imagined that they'd entered into the deepest depths of the ruins as well. Moreover, it looks like they've even obtained an enormous fortuitous encounter.

But based on what these fellows are saying, their situation seems to be slightly unfavorable.

Chen Xi took a deep breath before he flashed out to directly appear before those three people, and he didn't say anything before grabbing out, causing powerful thunderstorm vortexes to whistle out and form a pressure that completely and directly suppressed the three of them.

"Where's the secret realm?" Chen Xi forcefully endured the anxiousness in his heart as he asked indifferently. If he wanted to obtain an answer, then using strength to force it out was undoubtedly the

most directly and simplest method, and even though it was slightly crude, he couldn't care about all that at this moment.

Chapter 463: Surrounded By Numerous Enemies

Hiss!

When they noticed the terrifying aura that was emitted from Chen Xi, the three of them gasped right away while glancing at each other, and they didn't dare be disrespectful as they said hurriedly, "The secret realm is in the deepest depths of the ruins, and you'll be able to notice it with a glance once you arrive there."

"So it's at the deepest depths of the ruins..." Chen Xi's eyes squinted as he casually dispersed the pressure he emitted before turning around and leaving.

"Daoist Brother, are you from a first-rate Dynasty?" The three of them asked hastily when they saw Chen Xi leave so readily. They knew that if they were able to pull Chen Xi to their side, then perhaps their chances of seizing the talisman seal to enter the secret realm would become much greater.

"A first-rate Dynasty? If the Darchu Dynasty was a first-rate Dynasty, then there wouldn't be so many enemies that dared look for trouble with us." Chen Xi's figure stopped momentarily and shook his head, and he didn't stop before transforming into a flowing light that instantly vanished into the distant horizon, only leaving behind three dumbstruck figures.

"This fellow is actually from the Darchu Dynasty. When did such a figure appear in the Darchu Dynasty?" The three of them couldn't help but mutter as they looked at Chen Xi's figure that disappeared into the distance.

One of them frowned and seemed to have noticed something, and then his pupils constricted after a moment as he cried out involuntarily. "He's Chen Xi! He'd once defeated four genius experts of the other Dynasties by himself outside the mountain door to the ruins!"

The other two revealed shocked expressions as well, and they seemed to have recalled Chen Xi's identity, causing their expressions to slowly become complicated.

"He'd going to rescue those two unfortunate fellows, right? But it isn't an easy thing to rescue them while the genius experts of so many Dynasties are glaring covetously at them."

...

Swoosh!

An almost translucent figure that was like a wisp of a flowing light flickered repeatedly in the sky, and with a few movements, it had already flashed out a distance of a few thousand kilometers, and its speed was unparalleled.

These ruins are called the Isle of Fallen Treasures, and the treasures of the numerous ancient gods that fell during the expedition are buried here. How could a secret realm appear here? The Young Princess and Young Master Zhou really have good luck to actually obtain the talisman seals to enter the secret realm... Chen Xi flew at full speed while swiftly pondering in his mind.

A so-called secret realm was an independent space opened up by almighty figures, and it contained the mantel and inheritance of these almighty figures or some spirit medicines and magic treasures. Even though each secret realm was different, all of them were exceedingly rare and precious treasures.

Just think about it, could the treasures left behind by an almighty figure that was capable of opening up an independent space possibly be ordinary?

Simply speaking, a talisman seal was the key to open the secret realm.

Without it, even if one knew that a secret realm existed in this area of space, one would be utterly incapable of entering. Thus, it was obvious how critical the talisman seal was.

Chen Xi firmly believed that if this secret realm really existed, then it would absolutely be shocking to the extreme. After all, this was the Isle of Fallen Treasures, the place the treasures of the numerous fallen gods were buried. So it seemed that only a god of the ancient times would be able to open up a secret realm here, right?

Moreover, with such a shocking value, it would be a better situation if the talisman seal had fallen into the hands of some experts that possessed an extremely great deterrent force. Because even though the others would be disgruntled, they wouldn't dare do anything. Yet now, the talisman seal had fallen into the hands of Huangfu Qingying and Young Master Zhou instead, and this was like an ordinary person possessing a precious gem, it was impossible for it to not arouse the greed of others.

It was even to the extent that not only were the talisman seals incapable of bringing enormous benefits to them, it would probably even bring a calamity upon them.

This was as the saying went, wealth brings trouble to an innocent man. Without sufficient strength, even if fortune fell from the heavens, it would transform into a calamity within an instant.

Most importantly, in the eyes of the experts of many Dynasties, Huangfu Qingying and Young Master Zhou were from an ordinary Dynasty like the Darchu Dynasty, so they were utterly unworthy to possess the talisman seal. Thus, they only had two choices, either hand over the talisman seals, or...hand over their lives.

After they see the talisman seals, Pei Yu and the others would probably be unable to restrain themselves from forcing Huangfu Qingying and Young Master Zhou to hand it over, right? Chen Xi muttered to himself, and then he suddenly raised his head to look towards the distance.

An enormous mountain that pierced into the clouds stood towering at the end of his line of sight, the mountain range lay across the ground and spanned an innumerable distance, and it was like a barrier that blocked before him.

This was the deepest depths of the ruins.

Because the sky above the enormous mountain was actually torn apart into a myriad of spatial fragments. Thunder and lightning rumbled while storms overlapped each other in that region, and it seemed like countless bloody mouths that caused the hearts of others to palpitate and not dare approach it.

Have I arrived? Chen Xi swept his gaze towards the distance, and he couldn't help but slightly narrow his eyes after a short moment.

...

At this moment, there was a great commotion before the enormous mountain range that lay across the earth, and numerous figures stood on the vast empty ground before the enormous mountains while clamorous noises converged together and spread out into the surroundings.

Moreover, the gazes of practically everyone were converged on a single spot, the center of the empty grounds where an ancient hall stood. The hall was constructed from enormous rocks and was ruined to the extreme, but compared to the ruins before it, it seemed that it could already be said to be intact.

The hall was ancient with mottled stone walls, its eaves damaged and decayed, and it was covered with moss. It seemed to have experienced the corrosion of countless years, yet emitted a mysterious and aged aura that was solemn and grave.

Most striking of it all was that the surroundings of the hall were coiled with a shapeless force field that was like a restriction left behind by a god, and no one was capable of approaching it.

The gazes of everyone present in the surroundings burned extremely as they looked at the hall, because they'd been here for a long time and knew clearly in their hearts that this hall was the one and only path into the secret realm.

Moreover, the talisman seal to open the secret realm had just appeared.

When they thought up to here, everyone present couldn't help but look towards the area right before the hall. There were two figures standing there, a man and a woman, and they each held a strange talisman seal in their hands, and these talisman seals emitted brilliant divine lights.

Numerous gazes were staring covetously at the talisman seals in their hands, yet carried a trace of pity when their gazes moved onto the two of them, and there was even more feelings of pleasure from the misfortune of these two people emitted from their eyes.

They were staring covetously like tigers staring at their prey!

Under the stares of so many gazes, these two figures were like sheep that were without the slightest ability to resist and were waiting to be slaughtered at a whim.

This man and woman were naturally Huangfu Qingying and Young Master Zhou that had obtained the secret realm's talisman seals.

At this moment, their expressions were slightly unsightly from being encircled by so many people, and the excitement and delight they originally felt from obtaining the talisman seals had vanished completely long ago.

Both of them knew extremely well that so long as they dared reveal the slightest sign of making a move, they would probably suffer countless fatal attacks. At that time, not to mention entering the secret realm, they would probably be instantly blasted to death.

The matter unfolding to such a state had similarly exceeded their expectations. After the two of them were broken up from the others by a beast tide some time ago, they'd coincidentally obtained two talisman seals in an area of the ruins and activated this ancient and damaged hall, causing the genius experts of the various Dynasties to take notice and rush over.

After the genius experts of these various Dynasties appeared, the overjoyed feeling they had at the beginning when they obtained the talisman seals to the secret realm had vanished completely, and it was like they were showered with a pail of ice water, as their feelings had fallen to rock bottom.

If it wasn't for more and more experts of various other Dynasties rushing over later on, someone would have probably made a move against them long ago, and this situation would have utterly been unable to continue until now.

"What should we do?" No matter how audacious Young Master Zhou was, his heart couldn't help but tighten when facing the greed of so many people, and he asked via voice transmission.

Their strengths were utterly insufficient before the genius experts of so many Dynasties, and it could be said that they didn't even have room to struggle.

At this moment, Huangfu Qingying's expression was extremely gloomy as she gritted her teeth, and an expression of helplessness, pain, and dejectedness flashed within her clear eyes. Right, in such a situation, both of us have utterly no chance of resisting.

Most infuriating of it all was that not only had the Darjin Dynasty's Crown Prince, Pei Yu, and the others not helped her, Pei Yu had actually drawn a clear line between them and turned their allied relationship around with the intention of seizing the talisman seals in her and Young Master Zhou's possession.

Since ancient times, treasures and wealth moved the hearts of men!

The disgusting attitude of Pei Yu and the others caused her to lose all hope, so when Young Master Zhou asked her what they should do now, she couldn't help but mutter bitterly. "What else can we do?"

"We've delayed here for so long, so the news has probably spread out by now. If Chen Xi knows of this matter, he'll surely come." Young Master Zhou puckered his lips as he spoke, and his voice was weak, causing it to seem as if even he lacked confidence towards what he said.

"With such a situation, if Chen Xi comes then he'll probably be implicated as well, and we'll be done for." Huangfu Qingying sighed. She hoped that Chen Xi would be able to come as well, but she also knew clearly that with the current situation, even if Chen Xi came, he wouldn't be able to change anything and might lose his life because of it instead.

"Dammit! If we really can't do anything, then we'll hand over the talisman seals. As long as the green mountains last, there'll always be firewood to burn. Once we regroup our forces, we'll kill these bastards one by one!" Young Master Zhou gritted his teeth as he spoke.

"Hmph! Even if I have to hand it over, I'll absolutely not allow these despicable and vile people to have it easy!" Huangfu Qingying's eyes flickered as she suddenly raised her head to look at the three groups of forces that were the closest to her.

These three forces were naturally the Darqin Dynasty, the Darjin Dynasty, and the Century Pool Dynasty.

The Darqin and Darjin Dynasties were first-rate Dynasties that were respectively led by Qin Xiao and Pei Yu, whereas the Century Pool Dynasty was a Dynasty of demon cultivator that possessed the descendant of a peerless flying beast, Bi Lingyun.

“Haha, how about it? Qingying, have you come around yet?” When he saw Huangfu Qingying raise her head and look over, Pei Yu couldn’t help but speak with a warm smile on his face. “I’ve said it long ago, so long as you hand over the talisman seals to me, I guarantee that you and Brother Zhou will be able to leave safely. Now since you’ve thought this through, you should quickly hand over the talisman seals to me.”

“You’re right, I’ve thought it through indeed. But I won’t hand it over to you alone. After all, even though your strength is formidable, Qin Xiao and Bi Lingyun aren’t inferior. For the sake of our safety, I can only hand over the talisman seals to your three groups. In this way, I presume their groups won’t make it difficult for us as well.” Huangfu Qingying remained expressionless, and she paused for a moment before she continued. “But we only possess two talisman seals, so how will your three groups divide it?”

As soon as she finished speaking, the atmosphere between the three groups froze slightly, and they looked at each other while their expressions changed indeterminately.

Right, there are only two talisman seals, so how do we divide it amongst three groups?

Even though they clearly knew that Huangfu Qingying was driving a wedge between them, they had no choice but to seriously consider how to resolve this situation when facing the talisman seals that would allow them to enter the secret realm.

Chapter 464: Lending A Hand

Huangfu Qingying’s voice still drifted in the surroundings, yet the atmosphere seemed to have frozen instead.

After a short moment, Pei Yu’s expression went cold, and he looked at Huangfu Qingying and said, “Driving a wedge between us? It’s not a bad method.”

“To think the Crown Prince took care of the two of you all this way, yet not only are the two of you not grateful and seeking a way to repay his kindness, you harbor malicious intent and are trying to drive a wedge between everyone instead. Your intentions truly deserve death. If we knew earlier, we should have killed all of you, and we wouldn’t have to suffer so many problems.” Cui Xiuhong laughed gloomily, and his eyes were suffused with killing intent as he stepped out and shouted loudly. “I’ll give both of you one last chance, quickly hand over the talisman seals, otherwise we’ll surely kill both of you!”

“Hand over the talisman seal. There’s no need for both of you to worry about how to divide them.” The nearby Qin Xiao spoke out with a deep voice.

“Exactly. Unless I have no other choice, I’m unwilling to harm your lives as well. Hand over the talisman seals and I’ll allow both of you to live. I think this is already sufficiently benevolent.” Bi Lingyun spoke indifferently.

As the descendent of the peerless flying beast, Inferno Crane, she possessed a noble bloodline and formidable strength. Thus, allowing Huangfu Qingying and Young Master Zhou to live was indeed

benevolent in her opinion, and if it was any other time, she would utterly not waste a single word on time and directly carry out a slaughter.

Huangfu Qingying and Young Master Zhou looked at each other, and they felt extremely dejected in their hearts. But they really did have no other choice, and they could only unwillingly swing out their hands and cause the talisman seal that emitted a brilliant glow to instantly fly out.

As they watched this scene, besides taking pleasure at the misfortune of Huangfu Qingying and Young Master Zhou, the surrounding people couldn't help but sigh in their hearts. Who amongst the people present was capable of going against the undisguised threats and pressure of these three groups?

Swoosh! Swoosh!

As they looked at the two talisman seals that flew out, the members of all three groups revealed burning greed, yet all of them very sensibly didn't make a move right away.

Because they understood that the slightest move at this moment would probably cause the other two groups to unite and make a move against them. Going against two of these groups was undoubtedly an action no different from courting death. After all, the strengths of their three groups was on par.

The scene was extremely peculiar. The talisman seals flew out, yet no one made a move first. However, right when their gazes intersected and seemed to have attained some sort of agreement, causing them to be about to make a move together and seize the talisman seals, a strong gale suddenly flashed down from midair to arrive before them and directly blast onto these two talisman seals.

Bang!

A small bang redounded out, and then the two talisman seals shot out to once again float before Huangfu Qingying and Young Master Zhou under their astounded gazes.

This sudden scene instantly caused everyone present to be shocked.

"Who is it!?"

"Which worthless rat did that? Fucking show yourself!"

"You actually dare disturb the situation at this moment, all of you deserve death!"

The talisman seals that were within hand's reach had flown away once more, causing the expressions of the members of those three groups to instantly darken as they shouted out furiously with voice that contained killing intent and resounded out in the surroundings.

"Even though my Darchu Dynasty is only an ordinary Dynasty, but aren't all of you thinking too highly of yourself to actually think you can freely seize something that belongs to us?" An indifferent voice sounded out from the sky.

Swoosh!

Countless gazes looked over in unison and instantly descended onto a tall figure that had appeared suddenly.

“Chen Xi?!” As they looked at the tall figure, Huangfu Qingying and Young Master Zhou instantly exclaimed with shock, and wild joy and excitement gushed out from their eyes.

But after that, both of them sobered up greatly, causing their excitement and overjoyed expressions to disperse and be replaced by deep anxiousness. Chen Xi coming to lend a hand in time had indeed caused them to be extremely touched, but the situation before them was extremely dim. With only his strength, not only will he probably be unable to save the situation, his life might even be endangered.

“Chen Xi!” Right when the expressions of Huangfu Qingying and Young Master Zhou changed indeterminately, the members of the three groups had all recognized Chen Xi, and after they were slightly stunned, all their expressions were suffused with a trace of disdain. Could it be that this fellow thinks he can change the situation?

All the nearby people shook their heads without end. Most of them had witnessed Chen Xi’s strength long ago outside the mountain door of the ruins, and it was indeed absurdly formidable. But he was only a single person in the end, and it was difficult for two fists to go against four. So was rushing over to lend a hand now any different from courting death?

After all, those three groups were full of talented geniuses that possessed extraordinary strengths, and they were absolutely the three strongest groups amongst all the young experts that had entered the Isle of Fallen Treasures. So wanting to go against them alone was absolutely a path of no return, let alone turning the situation around; that was utterly impossible.

Chen Xi naturally noticed the disdain in the expressions of everyone in the surroundings. But his expression remained unchanged as he arrived easily by Huangfu Qingying and Young Master Zhou’s side before swiftly sending out voice transmissions of unknown content.

In any case, everyone only saw Huangfu Qingying and Young Master Zhou reveal stunned expressions before they shook their heads fiercely as if they disagreed extremely with Chen Xi’s opinions. But in the end, under Chen Xi’s persistence, their attitudes seemed to have changed, causing them to nod and agree to it.

“Hmph! Stop speaking secretly, could it be that you think you’re able to change the situation?” Cui Xiuhong shouted out loudly.

He could be said to hate Chen Xi to the extreme. Originally, he thought that Chen Xi would recognize the danger of the situation and reveal a fearful expression, and then he would be able to freely ridicule and mock Chen Xi.

Yet never had Cui Xiuhong imagined that after this fellow arrived, he actually directly ignored everyone and started secretly conversing with Huangfu Qingying and Young Master Zhou via voice transmission, and from the beginning until the end, Chen Xi didn’t even look him in the eye. This caused his expression to instantly become unsightly to the extreme, and the flames of hatred in his heart blazed even more brilliantly.

At this moment, Chen Xi had finished the discussion with Huangfu Qingying and Young Master Zhou, and he instantly felt relaxed in his heart when both of them had agreed to his plan, so he stared at Cui Xiuhong and said with disdain, “Who do you think you are? Do you think that I’m unable to kill you just because you’re relying on large numbers?”

"You..." Cui Xiuhong exploded with rage, and then he seemed to have recalled something before he said with a ghastly tone, "Hmph! I can't be bothered to fuss about it with a person like you who's about to die. But I heard that you've killed many genius experts of the various Dynasties in these past few days, and there's no lack of disciples of the Snowray Dynasty, Skywolf Dynasty, Eastern Summer Dynasty, and even first-rate Dynasties like the Darqian and Darxuan Dynasty!"

"In other words, you've incurred public wrath long ago and have become the target of all. Now, you actually dare deliver yourself to us? I truly admire and wonder exactly where your courage comes from." When he spoke up to here, Cui Xiuhong swept the surroundings and shouted loudly with a gloomy voice. "Chen Xi, open your fucking eyes and look. See how many enemies that want to kill you are amongst the genius experts of the various Dynasties around here. Do you think you'll still be able to continue living after today?!"

Cui Xiuhong felt extreme enjoyment in his heart as he spoke all of this, and his gloomy expression revealed complacency as if he would be able to see Chen Xi's miserable death in the next moment.

"No matter how many enemies there are, if I put my life on the line, I'm at least able to guarantee that you'll surely die before me." Chen Xi looked at Cui Xiuhong with a gaze that didn't conceal his disdain and ridicule in the slightest.

Of course, he knew that what Cui Xiuhong said was correct. But since he dared make an appearance, he'd naturally considered this situation long ago, so how could his fighting spirit be affected by a few words from Cui Xiuhong?

"Hmph! You're about to die, yet still dare to boast shamelessly? Let me see if you or I die first!" When he saw Chen Xi actually remain indifferent, Cui Xiuhong's expression couldn't help but freeze, as he felt he was preaching to deaf ears and had wasted his time for nothing, so he put down one last ruthless remark before shutting his mouth.

A verbal fight was forever unable to solve a problem.

Especially when there was such a difference in the strengths of both parties. The party that occupied the absolute advantage would forever disdain to discuss the matter as they preferred to use their strength to coerce and threaten.

Because even though this method was crude, unreasonable, and overbearing, but it was also the simplest, most direct, and most effective method.

In the next moment, Pei Yu, Qin Xiao, and Bi Lingyun directly announced their final ultimatum — If you want to continue living, then hand over the talisman seals to the secret realm, and if you don't want to live, then die. There's no other choice!

Instantly, the atmosphere was all set for a battle.

"Then we'll fight with our lives on the line. Let me see who pays the greater price today!" Chen Xi swept the surrounding people with his gaze as he spoke coldly, and then a flaming glow flashed as the Quasi Immortal Artifact, Flaming Peacock Fan, was already tightly gripped in his hand.

Bang!

As soon as the Flaming Peacock Fan appeared, it emitted a terrifying energy fluctuation that spread towards the surroundings and caused everyone to feel suffocated. It felt as if flames blazed around them, and it was as if they were within a furnace of the heavens and the earth.

“This is...” “A Quasi Immortal Artifact!”

“My god! Isn’t this Flaming Peacock Fan the treasure of the Full Moon Kingdom’s Xu Lengye? Why has it appeared in Chen Xi’s possession? Could it be that he killed Xu Lengye?”

“A Quasi Immortal Artifact? No wonder he’s so confident. So it turns out that he possesses such a precious treasure.”

“But unfortunately, even though a precious treasure like this is formidable, the Darjin Dynasty’s Crown Prince Pei Yu, the Darqin Dynasty’s Crown Prince Qin Xiao, and Bi Lingyun surely possesses such precious treasures. It’s obviously wishful thinking on Chen Xi’s part if he’s thinking on relying on the might of the Flaming Peacock Fan to turn the situation around.”

The appearance of the Flaming Peacock Fan instantly caused the pupils of everyone present at the scene to constrict and go into an uproar. Even the expressions of Pei Yu, Qin Xiao, Bi Lingyun, and the others became cautious.

Just as everyone had guessed, all of them possessed trump cards that weren’t inferior to the Flaming Peacock Fan. But it was precisely because of this that they were crystal clear about the might of Quasi Immortal Artifacts. They were worried that if Chen Xi held the resolve of certain death, then the matter would become troublesome.

The flaming glow coiled around the surroundings and emitted a terrifying might that converged the gazes of everyone onto it. It seemed as if no one noticed that Huangfu Qingying and Young Master Zhou who were by Chen Xi’s side had seized this opportunity to charge towards the ancient and damaged hall at the side.

This was precisely a part of Chen Xi’s plan. If they wanted to escape the encirclement while being surrounded by numerous enemies, then they could only rely on the talisman seals to enter the secret realm to truly escape danger.

But unfortunately, there were only two talisman seals. However, Chen Xi knew that even if there were three, it was of no use. Because in the end, one person had to stay behind to draw the attention of the enemies and cover the other two to safely charge into the secret realm.

So he’d decided to stay behind himself, and it could be considered as an effort as a friend.

There were numerous things that were the most precious in this world — friendship, love, and family. Perhaps most people would be calculative about how much effort would be worth it to expend. Some people would even take these things like friendship to be obstacles towards their efforts to step foot into the path to immortality, causing them to disregard it, willfully abandon it, and wantonly trample upon it.

But to Chen Xi who’d suffered hardships since a young age, these three types of feelings were so valuable and precious to him, and they were worthy of him using his life to protect.

So he'd stayed behind to face a myriad of enemies alone with a clear conscience and without regret.

Chapter 465: The Battle Erupts

Chen Xi held the Flaming Peacock Fan in hand and faced the crowd of experts with a calm expression that didn't contain the slightest fear, whereas the ancient and damaged hall stood silently behind him while Huangfu Qingying and Young Master Zhou were already approaching the entrance to the hall.

"Shit! Those two people are about to enter the secret realm!" Finally, someone noticed the movements of Huangfu Qingying and Young Master Zhou and shouted out loudly, and it instantly alarmed everyone present at the scene.

Everyone present at the scene instantly reacted to what had happened. Chen Xi didn't withdraw the Flaming Peacock Fan without the slightest hesitation earlier for the sake of deterring them, and it was instead for the sake of covering for his two companions.

"You're courting death!" A genius expert suddenly flashed out explosively from Qin Xiao's group, and he withdrew two sharp flying swords that shot towards Huangfu Qingying and Young Master Zhou like bolts of lightning.

Swish! Swish!

The flying swords were like bolts of lightning that tore through space while emitting sharp and ear piercing sonic booms, and it clearly displayed how swift the speed of the flying swords was. Perhaps it was incapable of instantly killing Huangfu Qingying and Young Master Zhou, but its unparalleled speed was sufficient to stop their footsteps.

Qin Xiao couldn't help but heave a sigh of relief when he saw this. Because the person who shot those swords out was Zhai Di. In the Darqin Dynasty, Zhai Di was famous for his first-rate reaction speed and the speed of his flying swords, and his ability to cope with suddenly events was something that caused even Qin Xiao to feel embarrassed of his inferiority.

So when he saw Zhai Di make a move, he'd already concluded that Huangfu Qingying and Young Master Zhou would be stopped.

Om!

However, Qin Xiao's pupils constricted in the next moment. Suddenly, a pitch black and simple sword appeared in Chen Xi's right hand, and it fiercely slashed down towards the side of the distant hall in a split second.

A clear and melodious sword howl resounded out as an extremely dazzling thick sword light charged into the skies, and then it poured down from high above in the sky like a river of stars. Within this sword move, there were thunderstorms rumbling, water and fire roiling, Yin and Yang flowing, and the magnificent and grand scene seemed as if various Grand Dao profundities were fused within it, causing others to feel reverence and horror.

"Shit!" Zhai Di who was in midair swiftly moved back and felt horrified in his heart, he felt that the might of this sword couldn't be met head on and was impossible to go against.

Even the movements of the other people that intended to charge couldn't help but become momentarily sluggish when they saw the might of this strike.

Bang!

The thick sword light slashed down and directly drowned both of Zhai Di's flying swords. Moreover, they could clearly see the phenomenon of the stellar bodies falling within the sword qi, and the Dao Insights contained within it were shocking. It slashed apart the ground before the ancient hall and caused an enormous black chasm to appear.

Rumble!

The ground quaked as countless cracks appeared like spiderwebs. Huangfu Qingying and Young Master Zhou had seized this opportunity, causing their figures to have already flashed explosively into the hall.

In the next moment, the ancient hall was swallowed by a violent spatial fluctuation, and it vanished along with Huangfu Qingying and Young Master Zhou before the eyes of everyone.

This series of movements were like a flash of lightning. From Zhao Di withdrawing his flying swords, to Chen Xi's sword strike descending from high above in the sky and slashing out a black chasm before the hall, and finally to the figures of Huangfu Qingying and Young Master Zhou vanishing along with the hall, all of this had merely happened in an instant. However, everything that happened in this instant was so breathtaking, and it caused everyone to become dazed for a tiny bit of time.

What a terrifying sword strike!

It was the first time that most of the people present had seen Chen Xi execute his cultivation in the Sword Dao, and it was precisely because it was the first time they saw it that they were even more deeply aware of how terrifying this sword strike was.

Earlier, they'd once seen Chen Xi defeat Di Wanlou, Li Jun, and the others outside the mountain door of the ruins with a few punches, and they thought that was Chen Xi's strongest trump card.

Yet earlier, when they saw Chen Xi withdraw the Flaming Peacock Fan, they thought this Quasi Immortal Artifact was Chen Xi's greatest reliance. But never had they imagined that Chen Xi's cultivation in the Sword Dao would actually be so terrifying as well.

Exactly how many trump cards has this fellow not revealed yet?

No one was able to guess this.

In the next moment, everyone recovered from their momentary daze and looked towards the hall that had vanished, causing the expressions of everyone to become extremely gloomy and unsightly. Earlier, they'd actually allowed their prey to escape from right beneath their noses, and this was simply an enormous humiliation!

For the sake of seizing the talisman seals to enter the secret realm, they'd mobilized all their forces and contended both openly and secretly with each other. Originally, the treasure was within easy reach, and the secret realm was well within reach. Yet now, everything was gone, and their painstaking efforts had come to nothing.

This feeling caused everyone to almost go mad, and they wished for nothing more than to swallow Chen Xi up.

In the next moment, their gazes were already staring fixedly at Chen Xi who was the cause of all this, and they didn't conceal their rage and killing intent in the slightest. If gazes could kill, then Chen Xi would have probably died a thousand times over by now.

"Kill!" Pei Yu's gaze was gloomy, his expression livid, and his killing intent was surging like tidewater. A secret realm that was within easy reach had vanished just like this, and it caused him to hate Chen Xi to the extreme.

"Kill!" Cui Xiuhong and the others who were behind Pei Yu, Qin Xiao's group, and Bi Lingyun's group couldn't restrain their rage and killing intent as well.

"Kill!" Within the distant crowd, all the experts of the Skywolf Dynasty, Snowray Dynasty, Eastern Summer Dynasty, Darqian Dynasty, and Darxuan Dynasty roared at the same time.

Instantly, battle cries shook the heavens and the earth as killing intent bubbled and various lights fluttered about in the sky. Large expanses of martial techniques flowed down as piles of magic treasures blasted over, and everyone had made a move, causing attacks that covered the heavens and the earth to strike towards a single direction.

Rumble!

The earth seemed as if it had exploded open as magic treasures, martial techniques, and Divine Abilities poured down like a storm, like spraying lava, and all of it blasted towards Chen Xi in a dense and vast array that couldn't be resisted.

Chen Xi's eyes squinted. Even he didn't dare go head on against such a formidable force. After all, it was the joint strength of countless experts gathered together to form a killing light that converged right at him.

If he was really struck by it, then not to mention his current cultivation, even if his combat strength was a level higher, it would be impossible for him to endure this attack.

Chen Xi didn't hesitate in the slightest to change his position, and his figure moved as a myriad of stars condensed together and circulated into a pair of divine wings. With a flap of the wings, he soared past the attacks and avoided them.

Bang!

A terrifying wave of air swept out towards the surroundings as the place Chen Xi was moments ago had a deep chasm blasted open on it, causing enormous rocks that were thousands of kilograms in weight to fly towards the surroundings, and it was a terrifying scene.

Swoosh!

Chen Xi's Talisman Armament danced about in the sky as Dao Insights rumbled, and then a myriad of streams of sword lights emerged. They were like numerous divine arrows that densely filled the heavens and the earth as they shot violently towards the group of people that were closest to him.

Clang! Clang!

Clanging sounds resounded out in succession as the sword qi's intersected with each other both horizontally and vertically in the sky to weave together into a divine light that was like a bolt of lightning that struck down.

Pu! Pu!

Six people were annihilated on the spot and emitted shrill cries before their deaths.

"AH!" "NO!"

The sword light was fierce and swift, containing various Grand Dao profundities like the Grand Daos of lightning, sky, wind, and so on and so forth, and it penetrated through their chests, heads, and bellies, causing strands of scarlet red and hot blood to shoot out explosively.

A scene like this was shocking and too terrifying. The Sword Dao cultivation that Chen Xi had cultivated diligently for a few tens of years had erupted with its might, and merely a single strike had taken the lives of six genius experts.

Of course, the numerous top experts had avoided this attack, and it was mainly the people with slightly inferior cultivations that suffered this calamity. But even then, this still caused them to be furious.

"The state of Enlightened Sword Heart! No wonder his sword moves are so swift and fierce! How formidable!"

"But the battle has only just begun. No matter how strong Chen Xi is, it's probably impossible for him to escape death under the encirclement of so many people."

The people that spectated the battle from afar were extremely astounded. There was no enmity between them and Chen Xi, and they'd come here this time merely for the sake of watching the show and didn't hold any hope towards entering the secret realm. After all, the groups of Pei Yu, Qin Xiao, and Bi Lingyun were too strong, and there was practically no Dynasty amongst those that were present who were capable of going against them.

Roar!

Just as everyone had guessed, in the next moment, a demon cultivator of the Century Pool Dynasty flickered with a brilliant silver light that was dazzling and resplendent, and he instantly transformed into ferocious beast that was as tall as a hill, and completely and densely covered with scales the flickered with a metallic and cold light.

Its wide mouth was filled with fangs while a single horn grew on its head, and its figure was like a tiger or panther, yet it possessed the tail of a crocodile and a pair of wings. This was a Moon Devouring Silver Wyrmpanther which was also called a Silver Wyrmpanther. It was a descendant of an ancient ferocious beast and possessed a pure bloodline, causing it to be extremely formidable.

"A Silver Wyrmpanther! It has actually developed the scales of a Wurm, so its bloodline is really shocking! This beast's strength is absolutely terrifying, and even though it's slightly inferior to the peerless flying beast, Inferno Crane, it isn't much inferior." Many people were shocked.

“Aowu~” The appearance of this Silver Wyrmpanther that had a body that was enormous like a hill and emitted a shocking imposing aura pushed the other genius experts that besieged Chen Xi to the side while its limbs stomped on the air as it pounced towards Chen Xi. When looked at from afar, it was simply like an enormous hill flying over from midair, and it enveloped Chen Xi beneath its shadow.

This fellow’s strength is formidable, it’s inadvisable for me to be locked in battle with him for too long. Chen Xi swept the surroundings with his gaze and calmly analyzed his situation. Being tied up in the slightest might cause him to suffer a calamity of annihilation, so he withdrew the Flaming Peacock Fan right away, causing a crimson ray of light to radiate brilliantly.

Bang!

He lightly fanned it, causing the glow of flames to instantly surge into the sky before gushing out forward, and it was like a volcano had spurted out crimson flames and blazing and surging lava to flood the area before him.

“Aowuuuu~” The Silver Wyrmpanther was enormous like a hill, ferocious and savage, but after it was enveloped by this sea of lava, it emitted endless furious roars and shrill cries as well.

“The Quasi Immortal Artifact, Flaming Peacock Fan!” The expressions of the others darkened as their eyes flickered ceaselessly, and some people that intended to launch a sneak attack against Chen Xi had temporarily discarded this thought.

After all, it was a Quasi Immortal Artifact. If Chen Xi fell deep into a hopeless situation and fought desperately, then the consequences were something that they were unwilling to see.

But to everyone’s astonishment, the strength of the Silver Wyrmpanther was formidable to the extreme. The scales that covered its body emanated divine lights, and it actually charged out from the envelopment of the sea of lava.

Presently, its entire body was covered in crimson flames, and it was burned to the point it looked extremely hideous. But its ferocity didn’t reduce in the slightest as it opened up its bloody mouth and spat out surging silver lights that exploded like numerous stars.

When he saw this ferocious beast had surmounted the boundaries of the Flaming Peacock Fan’s attack and intended to fight him in close combat, Chen Xi wasn’t fearful in the slightest, and he let out a long howl instead before charging forward while the Shaman Energy in his body surged. Thunderstorms rumbled as his fist struck out like a bolt of lightning that carried vortexes along with it, and it directly blasted onto the enormous paw of the Silver Wyrmpanther.

Bang!

The Silver Wyrmpanther howled in pain as its enormous body that could compare to a hill was actually struck by this punch to the point of staggering back and almost being blasted flying. Moreover, the scales on its enormous paw were shattered as a hole that flowed with blood had been blasted open on it.

Chapter 466: Rebirth Is Arriving

The Silver Wyrmpanther howled in pain while shuddering with fear, and it didn't dare go head on with Chen Xi again before turning around and intending to flee.

However, in the next moment, Chen Xi had already caught up to it, and then thunderstorm vortexes gushed out from his palm to cover his fist that blasted out and smashed onto the back of the enormous Silver Wyrmpanther.

Bang!

The backbone of the Silver Wyrmpanther exploded into pieces and lost a large piece of its body, and this piece of its body was devoured by the thunderstorm vortexes to transform into a pure warm flow of energy that replenished and recovered Chen Xi's Shaman Energy that was consumed earlier.

As expected of the descendant of an ancient ferocious beast, its bloodline is actually so pure and formidable. Chen Xi exclaimed endlessly with admiration in his heart as he felt the changes in the Shaman Energy within his body.

But his actions didn't slow down in the slightest, and he instantly fanned the Flaming Peacock Fan when he saw the Silver Wyrmpanther emitting a shrill cry and fleeing, causing boundless flames to surge forward and envelope the area ahead before instantly charring the jet black fur of the Silver Wyrmpanther.

In the end, it escaped calamity and transformed into its human form before stumbling to the ground. Everyone glanced over and were instantly dumbstruck. A few bloody holes had appeared on the human form body of the Silver Wyrmpanther, and those holes were blasted open by Chen Xi, causing it to almost lose its life. But even then, it had already completely lost its ability to battle.

"Trash! So many people holed up like turtles! Could it be that this is the strength possessed by first-rate Dynasties?" Chen Xi swept the surroundings with his gaze and spoke indifferently, yet he became even more vigilant in his heart.

Up until now, besides this Silver Wyrmpanther, the members of the three great groups hadn't made a move, and they encircled him, yet didn't attack. On the other hand, practically all the people that made a move earlier were genius experts of the Snowray Dynasty, Skywolf Dynasty, and the other Dynasties that had enmity with the Darchu Dynasty. Obviously, those three groups wanted to rely on numbers to completely exhaust him.

The reason Chen Xi had provoked them like this was for the sake of arouse the rage of everyone and cause the situation to be thrown into disorder, because the more disordered the situation was, the safer he would be.

Sure enough, when they heard the word 'trash' within Chen Xi's words, it instantly caused all the members of those three groups to reveal ferocious gazes, and their expressions were as unsightly as could be.

Especially because Chen Xi was only a single person, yet he dared provoke the genius experts of numerous Dynasties, how shameful was this?

“Since you’re anxious to die, then we’ll fulfil your wishes. Everyone, make a move! Kill!” A group of genius experts from the three forces shouted out and didn’t hold back any longer as they struck out with their entire might.

Rumble!

Various magic treasures and martial techniques shot into the sky and covered the heavens and the earth while emitting brilliant rays of light, and they were like an explosive torrent that crushed down at Chen Xi.

At this moment, they ceased their actions of encircling him without attacking, and they took the initiative to attacks. If they were suppressed by a single person, then even if they won in the end, it would cause them to lose face and be ridiculed when news of the incident spread.

This was the burden of reputation. They were proud geniuses of the various Dynasties, and not only did they want to win, they wanted to win brilliantly.

“Kill!” Chen Xi took the initiative to strike out. He took a deep breath as the Starsky Wings unfolded, and he started charging forward into the group of people. The Myriad Convergence Sword Scripture, Flaming Peacock Fan, Steller Lightningform, Grand Obliteration Fist, Deity Transformation, Eye of Divine Truth... Various martial techniques and Divine Abilities were skillfully and freely executed to blast out towards his enemies.

At this moment, he similarly didn’t hold back in the slightest.

Under coordination of the utterly perfect ability of insight possessed by the Eye of Divine Truth, Chen Xi was able to grasp every single change in the battlefield extremely accurately. The strength, flaws, and concealed attacks of his enemies were seen clearly by him, allowing him to avoid numerous fatal assaults.

But it was slightly difficult to turn the situation around. After all, all of his enemies were top experts in the younger generation. At this moment, when they joined forces to besiege him alone, the level of danger was obvious.

Bang!

The battle had erupted completely. For a time, battle cries shook the heavens as martial techniques and magic treasures flew about in the sky while the ground collapsed and caused rocks and dirt to shoot into the sky, and this battle enveloped the entire heavens and the earth.

At this moment, all the spectators in the distance held their breaths in deep concentration while they stared at the battle without blinking because they were deeply afraid of missing the slightest detail, and all of them waited silently for the final outcome.

Because this battle had enormous implications. On one side was a young man from an ordinary Dynasty who was facing the siege of numerous Dynasties by himself. Would he attain supreme prestige or be slain by the group of experts?

“If he really wins then it will surely shake the world, and when the final test of the Primeval Battlefield arrives half a year from now, there’ll surely be a place for him.”

“Just wait and see. Pei Yu, Qin Xiao, and Bi Lingyun haven’t made a move.”

Everyone was waiting, and the situation of the battle had affected the hearts of every single one of them.

...

Those in positions of great power take no risks.

No matter if it was Pei Yu, Qin Xiao, or Bi Lingyun, all of them possessed respected statuses and noble bloodlines, and their strengths were peerlessly formidable. They were the proud geniuses of the various Dynasties, and they naturally wouldn’t go head on with Chen Xi at this moment.

Even if they gnashed their teeth with hatred towards Chen Xi, even if they were extremely confident of being able to crush Chen Xi, but for the sake of taking precautions against Chen Xi’s final counterattack before his death, they chose to temporarily watch from the sidelines.

Because they felt their own status was more than a thousand times higher than Chen Xi, and they were far from having a need to risk their lives against Chen Xi and be injured in the fight along with him.

Moreover, they wanted to receive the final test of the Primeval Battlefield and compete with the disciples of the three top Dynasties and Prestigious Clans from the Ancient Kingdoms to the point of obtaining the Dark Reverie Token and entering the Dark Reverie. All of this caused them to treasure their lives to the extreme, so how could they possibly risk their lives and go against Chen Xi, who was about to die?

It was precisely because of this that they’d endured and waited with the intention of giving Chen Xi the final fatal strike when he was unable to persist and annihilate him in one go!

This was the strategy of one who was in a high position. They knew how to analyze advantage and disadvantage, and they knew how to decide according to the situation. In other words, Chen Xi was far from being strong to the point of forcing them to make a move, and the reason they were enduring and waiting was only because they were worried that Chen Xi would take them down with him at the moment before his death.

As the saying goes, he who’s unafraid of being cut to piece dares to unhorse the Emperor.

If Chen Xi held the resolution of certain death and exchanged his life for theirs, then he would be extremely terrifying as well, and they had no choice but to take precautions against this.

...

Rumble!

The battle became more intense as time passed and transformed into a raging battle. Numerous heaven-rank magic treasures fluttered about in the air and tore through the sky while numerous martial techniques and Divine Abilities poured down and crushed everything in the surroundings. Divine lights glowed brilliantly and illuminated everything for 5,000km as the cries of battle shot into the sky and shook the nine heavens.

This place was where the treasure left behind by the gods were buried, and during the ancient times, it was similarly a vast battlefield. Now, a horrifying battle had occurred here once more, and the only difference was that it was a battle of one person against many.

But its impetus was similarly shocking, and similarly shook the heavens and the earth, causing the ground in the nearby 5,000km to transform into a charred and cracked expanse. Mountains and rock turned to ash, explosions rumbled, and waves of air swept out. The scene was shocking and horrifying.

The alliance formed from the genius experts of the various Dynasties was extremely formidable, yet they were unable to kill Chen Xi after a long time, and conversely, along with the battle fully unfolding, Chen Xi had killed a few more of them.

But Chen Xi's current state was slightly bad. His entire body was covered in injuries and mottled traces of blood. Even though his body refinement cultivation was formidable, he was unable to recover in a short period of time.

Luckily, Chen Xi was sufficiently formidable, and coupled with the combination of the Eye of Divine Truth and the Starsky Wings, it was extremely difficult for these people to kill him. But the exhaustion of his strength was slightly high, causing him to almost be unable to bear it.

All of these weren't important, what caused Chen Xi to be worried was that along with the unfolding of the battle, the golden core within his body had actually trembled slightly, and his soul shook with fear as well, as it seemed to have noticed that some sort of calamity was about to descend.

The Rebirth Tribulation!

Chen Xi quickly guessed the reason, and he cried out in his heart. Shit! It just had to come now. If the Rebirth Tribulation arrives at this moment, then these fellows probably don't even have to continue attacking and I would lose my life.

The Rebirth Tribulation was a dual tribulation of the Heaven Dao and the body and mind, and it was unfathomable. Once it descended, then not only did one have to resist the tribulation flames that emerged in one's body and mind, one had to face the strikes of tribulation lightning that the Heaven Dao sent down. The slightest carelessness could cause one to perish and be transformed into nothingness by the tribulation.

The Rebirth Tribulation, overcoming it was like obtaining rebirth. And one's cultivation would rise to an entirely new height, whereas if one was unable to overcome it, then there was only a single path: eternal death.

This was why the Rebirth Tribulation was terrifying.

Yet now, Chen Xi actually faintly perceived the aura that the Rebirth Tribulation was arriving while being besieged by numerous enemies, and how heavy his heart felt at this moment was obvious.

However, in the next moment, when Chen Xi swept the surroundings with his gaze and saw the savage and bloodthirsty expressions everyone possessed, when he saw the coldness and disdain that suffused the faces of Pei Yu and the other two, a feeling of annoyance gushed out abruptly in his heart.

All of them think I'll die for sure?

Even the Heaven Dao doesn't permit my existence and wants to send down a tribulation?

Is this what it is like to have a natural calamity and man-made calamity arrive in unison?

A feeling of rage gushed throughout his body like scorching lava. Chen Xi clearly knew that the sudden arrival of the tribulation had affected his mentality, yet he wasn't willing to restrain it anymore.

He wasn't willing to perish like this, he wanted to resist until the end!

A true expert was like a fish in the water that swam against the current, like an enormous eagle that fought the sky, and only something that had died would drift along with the stream!

Rebirth, a phoenix bathes in flames to obtain new life; a caterpillar wraps itself in a cocoon to transform into a butterfly. Everything in this world achieves rebirth in different ways. Since I, Chen Xi, have drawn the Rebirth Tribulation while carrying out a slaughter, then I'll achieve rebirth while slaughtering! As he shouted over and over again in his heart, Chen Xi's mind became more and more calm as his gaze once again became firm like a rock and without the slightest ripple any longer.

There were 3,000 Grand Daos, so there were naturally a myriad of methods to overcoming the tribulation. Since the heavens made him experience the tribulation while in battle, then he would bravely resist it until the end.

Wasn't this a type of rebirth as well?

"Chen Xi, you have a truly exaggerated opinion of your ability. I treated you with respect all along the way, yet you didn't appreciate it and went against me in every aspect. You're arrogant and unruly, and you've caused me to lose the chance to enter a secret realm. Today, you must atone for your sins with death!" In the distance, Pei Yu seemed to have noticed a slight problem had occurred in Chen Xi's state, causing his spirits to be refreshed, and then he shouted out loudly.

At the same time, his right arm shook, causing a wisp of a dazzling light to fly out from his hand and charge into the sky.

Rumble!

Suddenly, the heavens and the earth trembled as the sky shook. A terrifying aura erupted out and actually affected the laws in this area of the heavens and the earth, causing the space here to become blurry and warped.

"What!? What sort of might is this? It seems to have broken through the limit of the Primeval Battlefield, and it possesses the might to destroy the laws of the heavens and the earth!"

"Exactly what sort of treasure is this? Why does it cause me to feel nervous and worried, and even my soul is trembling with fear?"

Everyone present felt a chill run down their spines. Along with Pei Yu making a move, they felt the laws in this area of the heavens and the earth seemed to have undergone a change, and it was as if a god was about to emerge in the world.

Chapter 467: Heavenly Immortals Decree

Om!

The laws of the heavens and the earth warped and seemed as if it had fallen into chaos, and only a wisp of a dazzling light remained floating beneath the sky. It was as if a god was emerging into the world, as brilliant lights that were like a scorching sun exploded out and emitted a terrifying aura.

When one looked carefully, one would notice it wasn't a magic treasure, but a yellowing old piece of paper that flowed with a hazy glow and had a single character written on it — '戮'![1]

This word was branded on the surface of the paper with vigorous and sharp strokes, its lines compact like bolts of lightning, and it emanated an extremely sharp and murderous aura. It emanated a great brilliance like a star and brought unparalleled pressure to all.

"The will of a Heavenly Immortal!"

"This is actually writing left behind by a real Heavenly Immortal, and it contains a strand of the Heavenly Immortal's will, so it's sufficient to kill anything in the world!"

"My god! How could such a thing appear here?"

"This isn't a pure brand of a Heavenly Immortal's will, but the decree of a Heavenly Immortal! But even then, it represents the supreme will of a Heavenly Immortal, and the single '戮' character is filled with killing intent to the point of warping the laws of the heavens and the earth. It's truly terrifying."

Everyone present felt their hearts shudder with fear as their souls trembled. This sort of pressure and aura caused them to feel as if their bodies were about to explode and transform into sacrifices to this Heavenly Immortal.

At this moment, everyone that besieged Chen Xi had stopped successively before moving aside. They'd similarly sensed the aura of fatal danger, and they didn't dare continue staying in combat with Chen Xi.

On the other hand, eyes of Qin Xiao and Bi Lingyun constricted when they saw this Heavenly Immortal's Decree, and their gazes were slightly heavy as they looked at Pei Yu. They seemed to have never imagined that Pei Yu had actually brought such a great weapon when entering the Primeval Battlefield.

"Annihilate!" Pei Yu looked up to the sky with high spirits as he shouted out loudly. Just like the Quasi Immortal Artifact, the Skysorrow Sword, this Heavenly Immortal's Decree was a trump card of his, and he obviously wanted to annihilate Chen Xi in one go since he utilized it publicly now.

Bang!

The Heavenly Immortal's Decree rumbled and emanated brilliant lights, and then it shot out countless golden colored beams of light that were like golden arrows that shot out violently and enveloped down directly at Chen Xi.

Shit! At this moment, Chen Xi felt horrified as he sensed extreme danger to the point his hairs stood on end, and then he turned around and fled decisively. The Starsky Wings floated out into appearance before him, allowing his speed to skyrocket.

He was like a drifting flowing light and like a phantom that flashed through the sky as he flew violently with all his strength. At the same time, he repeatedly fanned the Flaming Peacock Fan backwards to obstruct the dense expanse of golden light beams.

Clang! Clang! Clang!

No matter how fast Chen Xi was, there were still some golden beams of light that shot to arrive near him, and they seemed indestructible as they shook the world. When the beams of light collided onto the Flaming Peacock Fan, deafening clangs resounded out, and it caused Chen Xi's arm to become numb and ache as its strength was terrifyingly strong!

Pu!

At practically the exact same moment, a golden beam of light suddenly arrived before him and directly penetrated Chen Xi's right arm, causing fresh blood to spray out immediately.

The golden light beams emitted by this Heavenly Immortal's Decree were too swift and too terrifying, it covered the heavens and the earth while moving with a matchless speed, causing it to be impossible for Chen Xi escape its envelopment.

I can only go head on with it! He instantly realized that fleeing would only speed up his death, so he turned around right away and counterattack the golden beams of light that covered the sky and horizon.

Clang! Clang!

Even though the Flaming Peacock Fan was strong, it was incapable of doing anything to these golden beams of light. So, Chen Xi withdrew the Talisman Armament and slashed out without end, causing layer upon layer of sword images to crisscross together, and he swung the Talisman Armament to the point it seemed like a turbine as sword lights that were like the tide shot out to resist the Heavenly Immortal's Decree.

"No matter how strong you're, you're only a strand of will of a Heavenly Immortal. Since you dare go against me today, I'll surely ascend the Immortal Dimension and annihilate your true body in the future!" Chen Xi was driven to the point of completely exploding out with his strength, and he shouted out loudly with a resolute tone that shook the world.

At the same time, he didn't retreat but charged forward instead, and he actually launched an attack. Moreover, he seemed to have completely fallen into a frenzied state, causing the True Essence in his entire body to become violent and blaze extremely.

The Talisman Armament in his hand became more and more dazzling as the five great Divine Talismans that resided within the sword started circulating slowly, causing talisman markings to surge and emit a vast brilliant while he slashed ceaselessly towards the Heavenly Immortal's Decree in midair, and it emitted resounding clangs as he attacked ceaselessly.

Everyone was stunned, and they felt this scene was too absurd. This fellow, Chen Xi, actually wants to go against the decree of a Heavenly Immortal? Isn't this courting death? It's even to the extent that he wants to head to the Immortal Dimension to annihilate the true body of this Heavenly Immortal... Isn't this absurd?!

“Is the decree of a Heavenly Immortal something that an ant like you can go against? You’re courting death!” Pei Yu was stunned as well, and then he sneered while shouting out loudly.

“Hmph!” Chen Xi grunted coldly as he revealed dense disdain, and he fought even more desperately. Because he knew that once he relaxed, he would die without a doubt.

All those years ago, he’d once experienced how terrifying this type of will of an Immortal was. At that time, it was in the depths of the Oceanic Desert, and the will of the owner of the Netherworld Register, the third Netherworld Emperor that grasped the six paths of reincarnations had once entered into his body and a single attack of it possessed monstrous might that seized away the magic treasures of Huangfu Chongming and the others.

It was from that day that Chen Xi knew what the will of a Heavenly Immortal was. Only Heaven Immortal Realm experts that had experienced and survived nine waves of heavenly tribulations to ascend were capable of distributing themselves in numerous worlds by way of ‘will brands,’ and it was like clones of themselves that wandered the boundless universe to observe the workings of the heavens.

Every single strand of ‘will brand’ contained the thoughts, wisdom, strength, and grasp of the Laws of the Heaven Dao that the Heavenly Immortal Realm expert possessed, and cultivators that hadn’t experienced the heavenly tribulations were utterly not a match for it. Even if it was Earthly Immortal Realm experts, unless they had no other choice, they would absolutely not dare offend the will of a Heavenly Immortal.

Because no one could guarantee that when they annihilated the will of a Heavenly Immortal, its owner wouldn’t tear through the boundless space in the universe and instantly arrive before one’s eyes. That would absolutely be a calamity.

On the other hand, the ‘戮’ character on this decree of a Heavenly Immortal that Pei Yu utilized wasn’t a pure will brand of a Heavenly Immortal, and it was only writing left behind by a Heavenly Immortal. But even then, this word still contained a trace of the aura that was unique to Heavenly Immortals, and it didn’t allow any offense, so it was absolutely not something an ordinary person was capable of going against.

So, Chen Xi firmly believed that it was impossible for an old piece of paper left behind by a Heavenly Immortal to be as heaven defying as a will brand, and only ferocious resistance would perhaps allow him to avoid this great calamity.

“Kill!” Chen Xi’s offensive was like an explosion as the Enlightened Sword Heart and various Dao Insights were completely utilized within the slashes of the Talisman Armament that sprayed out. He emanated boundless potential as his overwhelming Sword Insight slashed ceaselessly onto the Heavenly Immortal’s Decree, to the point the heavens and the earth trembled.

The shock everyone felt grew stronger. This fellow is too ferocious and isn’t even afraid of the decree of a Heavenly Immortal. Could it be that he isn’t afraid of suffering the revenge of a Heavenly Immortal? Or perhaps he thinks that he’s able to go against the might of a Heavenly Immortal’s Decree?

Pei Yu frowned as well. The Heavenly Immortal’s Decree hadn’t scared Chen Xi, but had aroused his stubbornness and resistance, and he was fearless and defiant.

“Truly laughable! Since you’re anxious to seek death, then I’ll send you on your way!” Pei Yu laughed with disdain before raising his hand and pointing towards the sky.

Bang!

The ‘戮’ character on the old and glowing paper in the sky floated up into appearance. It was the ink drawn personally by a Heavenly Immortal and contained the dignity and will of the Heavenly Immortal. At this moment, it suddenly started resounding with rumbles as a supreme brilliance that shook the hearts of all was emanated.

Instantly, the old piece of paper seemed as if it had come to life, and it was filled with inviolable dignity as golden beams of light flowed out violently while blotting out the sky.

Everyone was astounded. How could someone in the Golden Core Realm go against such divine might?

“You only left behind a single piece of lousy paper, yet dare to stir up trouble in the world? So what if I disrespect a Heavenly Immortal? I’ll surely kill you today!” Chen Xi became even more frenzied as his sword moved surged, and his entire body rumbled from inside out as he exerted all his strength without holding back in the slightest.

“What!? This fellow’s strength had actually become stronger again!”

“An extraordinary genius! Such a figure was able to appear in an ordinary Dynasty, his ability is sufficient for him to be called a lion amongst men!”

“Probably only the disciples of the three top Dynasties and the Prestigious Clans of Ancient Kingdoms would be able to go against him, and ordinary people would really be unable to rely on their own strength to crush him.”

The expressions of everyone revealed a wisp of shock as they looked at the tall figure that grew more valiant as he fought, and their hearts couldn’t help but tremble. Never had they imagined that Chen Xi’s strength was actually formidable to such an extent.

After all, the Heavenly Immortal’s Decree wasn’t an ordinary treasure, but a treasured piece of writing that was personally written by a Heavenly Immortal, and it contained the spirit and will of a Heavenly Immortal, causing it to be superior even to a Quasi Immortal Artifact. Yet it was actually resisted, so it was obvious how formidable Chen Xi’s strength was.

Pu! Pu! Pu!

But in the next moment, a string of bloody holes appeared on Chen Xi’s body, and his entire body was bathed in blood. Moreover, coupled with his disheveled hair, he seemed to be in a rather sorry state.

This caused the hearts of everyone that were shocked to the point of being at their throats to finally ease up slightly. This is how it should be, how could the decree of a Heavenly Immortal be resisted so easily?

However, even then, Chen Xi’s fighting spirit didn’t reduce in the slightest, and his gaze grew even brighter and resplendent while his entire body glowed. The Talisman Armament in his hand erupted with a myriad of sword qi that ceaselessly slashed towards the Heavenly Immortal’s Decree that was like

the sun high above in the sky, and the aftershock of each and every one of his sword qis were capable of flattening a hill and slashing a river apart.

Om!

Under the repeated strikes of this rain of sword qi that was like a storm, the Heavenly Immortal's Decree erupted with a brilliant glow instead, and it blazed every brighter. The '戮' on it grew fiercer and even more piercingly cold as it emitted an immortal dignity and shook without end.

Bang!

Innumerable golden beams of light erupted from the Heavenly Immortal's Decree, and they rumbled and shook the sky to the point it started swaying before blasting onto the Talisman Armament while resounding out with clangs. Even though Chen Xi's body was strong and possessed shocking defensive capability, he was still unable to avoid it completely.

Pu!

A bloody hole the size of a bowl was penetrated open on his chest, and it was just a little bit away from hitting his heart!

Chen Xi puckered his lips and remained indifferent while his battle intent rose like the tide and became even more violent, and he slashed down ceaselessly with the Talisman Armament in his hand. The Talisman Armament shook greatly as he slashed it out countless times, and at the end, sword howls surged as droning sounds resounded out ceaselessly, causing even the heavens and the earth to shake and tremble without end.

Clang!

The Heavenly Immortal's Decree trembled violently, and it obviously displayed how ferocious Chen Xi's attacks were that even the Heavenly Immortal's Decree was slightly unable to endure it and was unable to float stably in the sky.

Everyone was astounded and gasped. How terrifying would this sword qi have to be to actually be able to go against the decree of a Heavenly Immortal and make it tremble? Moreover, most terrifying of it all was that Chen Xi was actually able to go against the Heavenly Immortal's Decree up until now and not show the slightest sign of being suppressed, and he even seemed like he wanted to counterattack.

However, right at this moment, the Talisman Armament that Chen Xi held up dimmed down, and brutal reality struck him — The True Essence in his body had been completely dried up!

1. Character for slaughter

Chapter 468: Inescapable Doom

Chen Xi had fought the group of genius experts for a long time earlier and had fought the Heavenly Immortal's Decree madly now, and he'd slashed the Heavenly Immortal's Decree to the point of shaking endlessly with great difficulty and was about to launch a counterattack. However, at this moment, the True Essence within his body had actually dried up!

Everyone present noticed this scene, some sighed regretfully in their hearts while others took pleasure in Chen Xi's misfortune. Normally speaking, so long as a Golden Core Realm cultivator possessed sufficient spirit pills, they would entirely not have to worry about the situation of having their True Essence dried up.

Chen Xi was similarly capable of this. But the might of the Heavenly Immortal's Decree was too vast and covered the heavens and the earth, and it pressured him to the point he didn't even have the time to consume a spirit pill. Thus, such an embarrassing situation had been created.

However, to everyone's astonishment, right when they thought Chen Xi didn't have the strength to go against it any longer, Chen Xi had instantly changed his method of combat. Shaman Energy surged and gushed in his body as he executed the Heavenly Transformation, Deity Transformation, and Stellar Lightningform before continuing his battle with the Heavenly Immortal's Decree.

Bang!

An enormous palm print that covered an area of 300m soared through the sky, and it was coiled with brilliant starlight. Moreover, the five elements, Yin, and Yang circulated within it as it slapped down.

Divine Ability — Grand Astral Palm.

This Divine Ability was from the Master of the Manor. It possesses boundless stars and boundless Dao Insights, causing its might to be boundless as well, and it even surpassed the Stellar Lightningform created by his Third Senior Brother.

Moreover, Chen Xi spent the most time on this Divine Ability, and compared to before, the might of the Grand Astral Palm was even stronger. Besides the five elements, Yin, Yang, lightning, wind, star, and the other Dao Insights that numbered over 10, there were also the rare Grand Dao Insights of Devour and Slaughter. At the instant it appeared, it was like a hand that could hold up the sky, and it caused the sky to go dim.

Merely the terrifying fluctuation emitted from the palm print had shattered space itself and pressed down onto the ground to the point it exploded open inch by inch, and countless cracks that were like spider webs split open on the grounds.

Besides that, along with the myriad of stars on the striations of the palm starting to circulate, various Dao Insight energies rumbled and seemed to have extracted the light, air flow, and spirit energy in an area of 500km and condensed it into this palm, causing its enormous impetus to shock everyone present to the point their pupils constricted.

Rumble! Rumble!

Waves of sounds that were like thunderclaps surged out from within the Grand Astral Palm, and it shook the world.

Everyone noticed to their astonishment that large expanses of clouds instantly appeared in the area the enormous palm print enveloped. The clouds covered the sky densely and contained Second-Wood Divine Lightning, Seventh-Gold Divine Lightning, Fifth-Earth Divine Lightning, Third-Fire Divine Lightning, Ninth-Water Divine Lightning interweaved and surging within it. Multicolored arcs of lightning rumbles like the roar of enormous dragons and shook the surroundings.

This was one of Chen Xi's trump cards, and he hadn't utilized it since entering the Primeval Battlefield. At this moment, it shocked everyone present as soon as it emerged into the world.

"What Divine Ability is this? How terrifying!"

"Dao Insights toleration each other and actually developing the Divine Lightning of the five elements within the palm! My god! Could this be one of the existences that are ranked in the top 100 in the Divine Ability Gold Rankings of the three dimensions?"

"His Sword Dao cultivation attaining the state of the Enlightened Sword Heart was already sufficiently shocking, yet never had I imagined that this fellow's body refinement cultivation is actually so formidable. Is this fellow human?"

Everyone looked at the 57m tall giant that had three heads and six arms from afar, and a tempestuous storm couldn't help but arise in their hearts.

Chen Xi had too many trump cards, too many to the point it caused others to feel horrified, and they had no choice but to refresh their appraisal of him over and over again. According to their current estimations, they even suspected that even if Chen Xi didn't advance to the Rebirth Realm, his strength would be sufficient to allow him to have a place in the final test of the Primeval Battlefield.

On the other side, the expressions of Qin Xiao and Bi Lingyun instantly became extremely heavy. Obviously, the ability Chen Xi had revealed caused them to feel extremely fearful as well.

As for Pei Yu, the formidableness of Chen Xi's strength caused the killing intent in his heart to burn even more brightly. He knew that if he didn't eliminate Chen Xi now, then Chen Xi would absolutely become a great calamity for him in the future.

Bang! Bang! Bang!

The Divine Lightning of the five elements descended like a hail storm as green, yellow, crimson, gold, and blue lightning transformed into a multicolored ocean of lightning that enveloped the Heavenly Immortal's Decree.

Bang!

The Heavenly Immortal's Decree trembled violently as its glow instantly dimmed down, and it was blasted flying by the terrifying Divine Lightning of the five elements.

Bang!

The Divine Lightning of the five elements blasted down ceaselessly, causing the Heavenly Immortal's Decree to be blasted off successively and became dimmer and dimmer as it suffered strike after strike, and the supreme brilliance that enveloped its surface showed signs of being extinguished.

Everyone felt their scalps go numb. This Divine Ability was too terrifying and actually showed signs of crushing the Heavenly Immortal's Decree, and this was something that was simply unbelievable.

"You're courting death!" Pei Yu was furious when he saw this. Never had he imagined that after he withdrew such a terrifying trump card, not only was he unable to crush Chen Xi, Chen Xi was about to destroy the Heavenly Immortal's Decree.

“With my blood, I offer sacrifice to the gods. So long as my enemy remains, the slaughter shall never end!” In the next moment, Pei Yu sat cross-legged on the ground and a boundless bloody glow exploded out from him and gushed into the Heavenly Immortal’s Decree, whereas his appearance and skin actually aged greatly in an instant, and even his hair became grey.

Everyone was shocked. He actually forced Pei Yu to sacrifice his own lifespan and Blood Essence!?

Om!

The ‘戮’ character on the Heavenly Immortal’s Decree was filled with a bloody glow that was scarlet red, and it resounded out with clear sounds as it emitted an aura of eternity. Moreover, its killing intent surged, causing it to become much stronger than before. It was like it had awakened from its sleep, and it was rumbling as it transformed into a dazzling golden crow.

At the same time, golden beams of light exploded out like a rain of sunlight that poured down. This was the profundity of the Laws grasped by the Heavenly Immortal, and it was its furious attack after recovering its essence, energy, and spirit.

Heavenly Immortals stood proudly above the sky, and their wills were supreme, inviolable, and allowed no disrespect. Even though it was only the writing of a Heavenly Immortal, it had its own dignity. At this moment, being offended by Chen Xi had caused it to immediately explode with rage.

In merely an instant, the Grand Astral Palm was penetrated by the boundless golden beams of light, causing it to be obliterated. Moreover, the beams of light didn’t lose momentum as they directly crushed down towards Chen Xi.

It has become stronger again... Chen Xi puckered his lips and had to admit in his heart that this Heavenly Immortal’s Decree was truly too terrifying, and he had no choice but to avoid it.

But the golden beams of light were violent like the ocean and present everywhere as they covered the heavens and the earth as they descended down upon him, and they directly drowned him beneath them and caused him to be unable to avoid them.

Pu! Pu! Pu!

Chen Xi’s entire body instantly had densely packed bloody holes penetrated upon his entire body, causing him to be riddled with holes and covered in blood, and he’d suffered a severe heavy injury. If it wasn’t for him protecting his head and heart in time, he’d probably have been killed beneath this attack.

During these past few years of battles, Chen Xi had never experienced such a tragic battle where he was almost killed. The will contained within the Heavenly Immortal’s Decree was truly too terrifying and formidable, and it caused him to be in an extremely passive position.

Rumble!

When it saw Chen Xi had actually survived, the Heavenly Immortal’s Decree became even more furious, and it caused golden beams of light to pour down like line after line of rivers that struck once more at Chen Xi.

Chen Xi gritted his teeth. He already had no path of retreat and was forced into a hopeless situation, there was no one for him to count on nor any way for him to escape, and he could only rely on himself to fight until the end.

Bang! Bang! Bang! Bang! Bang!

At this moment, Chen Xi exerted all the Shaman Energy in his entire body to execute five Grand Astral Palms at the same time, and they blotted out the sky as they fiercely crushed towards the golden beams of light that covered the sky.

Both attacks collided and exploded out with boundless brilliant lights, causing it to seem like a volcano had erupted or a group of stars had fallen from the sky, and it was an extremely violent scene that caused the entire heavens and the earth to fall into chaos.

Everyone present was astonished, and their eyes were pierced by these brilliant lights to the point of almost being impossible to open.

On the other hand, the genius experts of the Darqin, Darjin, and Century Pool Dynasty, and the genius disciples of the various other Dynasties like the Skywolf Dynasty felt deep unease in their hearts. Chen Xi's strength was too strong and was actually able to go against the furious strike of the Heavenly Immortal's Decree, and it had far exceeded their expectations.

They felt anxious in their hearts as they stared nervously at the battlefield, and if it wasn't for the battlefield being too terrifying and would affect them, they'd probably have made a move long ago. Now, they only hoped that the Heavenly Immortal's Decree would be able to annihilate Chen Xi right away.

Bang!

A figure was blasted out from the blazing brilliant light, and the figure staggered as streams of blood flowed out from all over the figure's body. The figure didn't have an inch of skin that was intact, and even the figure's tattered clothes and disheveled hair was tainted with blood, causing his appearance to be extremely miserable.

It was Chen Xi.

Even though he'd blocked the strike of the Heavenly Immortal's Decree in the end, he'd suffered a heavy injury that was fatal, and if his body hadn't been cultivated to the point of being capable of re-growing itself, he would probably be utterly incapable of standing up.

"The day will come where I'll surely head to the Immortal Dimension to slaughter you!" Chen Xi gritted his teeth. His face was tainted with blood, causing his appearance to be blurred, and only his pair of eyes revealed a hateful, unyielding, and firm expression.

Yes, even if it was now, he'd still persisted and had not given up, as if he were to give up now, then he would surely die a graveless death.

The hearts of everyone went cold without reason or rhyme as they looked at this tall and unyielding figure. What a tenacious vitality! What a shocking will to fight! If he's able to survive, then he'll probably

really be able to enter the Immortal Dimension and slaughter the owner of this Heavenly Immortal's Decree?

After that, everyone couldn't help but be shocked by their absurd thoughts, and then they shook their heads. How could that be possible? No matter how terrifying the strength Chen Xi possesses is, or how supreme his fighting spirit is, he's about to fall before the Heavenly Immortal's Decree and perish. He's bound to be buried here and be unable to see tomorrow's sunrise. So how could he possibly fight his way into the Immortal Dimension?

"Eh, the Heavenly Immortal's Decree has dimmed down!" Right at this moment, someone noticed the unusual state of the Heavenly Immortal's Decree.

"Could it be that both Chen Xi and the Heavenly Immortal's Decree were injured in that collision from before?" Everyone raised their eyes and noticed the unusualness in the Heavenly Immortal's Decree, causing them to be unable to help but be horrified.

On the other side, Pei Yu's countenance was already pale to the extreme and without the slightest sign of rosiness. No matter how proud and confident he was, he couldn't help but be terrified at this moment. Why is it like this? I've already exhausted everything, yet I'm actually unable to annihilate Chen Xi?

"NO! I want you dead! No one can save you today!" Pei Yu suddenly stated, shouting madly as infinite bloody glows gushed out from his body, causing his long hair to turn snow white abruptly, and his young appearance became extremely aged as his vitality dimmed.

Bang!

The Heavenly Immortal's Decree glowed once more and even started burning, only leaving behind the '戮' that had turned scarlet red and emitted a sound of slaughter that shook the heavens, and it sounded like the chanting of gods as it transformed into a bolt of lightning that directly shot towards Chen Xi.

"This is... He actually forced out all the energy within the Heavenly Immortal's Decree for the sake of a final devastating strike!" As they looked at the '戮' character that descended from the sky while emitting boundless piercingly cold killing intent, everyone who felt the terrifying might contained within it felt suffocated and as if they had fallen into an icy pit.

Moreover, they were able to sense that Chen Xi would probably be unable to escape the calamity this time.

Chapter 469: A Slim Chance of Survival

At this instant, everyone present thought that Chen Xi would die without a doubt.

Because the might of the final strike of the Heavenly Immortal's Decree would surely be terrifying to the extreme, and there was probably rarely anyone amongst the cultivators of the world that were capable of going against it.

Time seemed to have frozen at this moment, and it became slow.

Chen Xi raised his head and was able to clearly see the '戮' character that blotted out the sky was completely soaked in fresh blood as it struck down at him, whereas the distant Pei Yu, Cui Xiuhong, and the others seemed to think that he would die for sure and revealed savage and delighted expressions.

Besides that, the expressions of Qin Xiao, Bi Lingyun, and the others carried ridicule, mocking, disdain, and indifference... It seemed...as if everyone was only too anxious for him to die as soon as possible.

Chen Xi was like a lone wolf that had fallen deep into a hopeless situation. At this moment, his mind was extraordinarily calm, and he lightly puckered his mouth that was overflowing with blood and paid no further attention to these detestable enemies of his. He instead stared fixedly with a burning gaze at the '戮' character that descended from the sky, and his face was covered in an unyielding and stubborn expression.

Bang!

The '戮' character emitted its final brilliance and flooded the entire surroundings. No one was able to see what happened clearly, and they were only able to sense a powerful force spread out.

Even though his life was in danger, Chen Xi was still trying hard. His arms swung into the sky and exploded out with a dazzling thunderstorm vortex that struck towards the '戮' character.

Unfortunately, the final strike of this Heavenly Immortal's Decree was too terrifying, and it was practically capable of annihilating most cultivators in the world. Even though the thunderstorm vortex was formidable, yet after it collided with the '戮' character, it was easily crushed and annihilated like a piece of paper, and it was incapable of obstructing it in the slightest.

When he saw this, Chen Xi was ready to risk everything, and he fearlessly exhausted all his strength to squeeze out all the Shaman Energy in his body and blast countless thunderstorm vortexes out once again.

However, it was still too weak. It practically didn't cause the '戮' character to be affected in the slightest, and the '戮' character charged through the layer after layer of obstruction to arrive before Chen Xi and strike down towards him!

Has this moment finally arrived? Chen Xi raised his head and looked towards the '戮' character that had descended from the sky and was right before him. His eyes were still unyielding as he still hadn't extinguished the firm will in his heart.

Even if he would surely die in the end, he wouldn't compromise or show weakness in the slightest. This was his unyieldingness towards his own life. So long as his back remained straight, the heavens and the earth were incapable of making him submit!

Right at this extremely critical moment, Chen Xi suddenly felt his chest blazing extremely, and a terrifying aura suffused out as strands of divine light were emitted and grabbed onto the '戮' character.

It was as if there was a black hole on his chest, and it swallowed madly, causing Chen Xi to suddenly feel as if he was burning within a furnace while his entire chest was emitting lava. The exceedingly scorching and blazing energy caused him to be unable to refrain from crying out in pain, and his body felt as if it was about to explode.

“AHHHH!” Within the boundless dazzling brilliance, Chen Xi’s cry of pain resounded out.

Everyone that was spectating the battle from the distance sighed in their hearts. What a pity! Such a talented and brilliant figure has died here! There was no need for them to think any further because he’d surely been annihilated by the Heavenly Immortal’s Decree.

Pei Yu laughed coldly, Cui Xiuhong laughed coldly, Wei Muyun laughed coldly... Everyone from the three groups and the genius experts from the Skywolf Dynasty, Snowray Dynasty, Eastern Summer Dynasty, Darqian Dynasty, and Darxuan Dynasty that had enmity with Chen Xi were laughing coldly as well. So what if you possess the potential of a proud genius? One who dares disrespect the will of a Heavenly Immortal’s Decree has to die in the end.

Chen Xi’s cries of pain were continuing yet in the ears of Pei Yu and the others, it was like listening to the melodious sound of nature, and their faces were covered with complacent and delighted expressions.

Regretfully, the brilliance was dazzling and caused no one to be able to see what exactly was happening. So they guessed according to logic that the final strike of the Heavenly Immortal’s Decree was slowly killing Chen Xi bit by bit.

“What a pity! Otherwise, he would absolutely be an outstanding genius, and if he didn’t die, he would surely be able to pass through the final test of the Primeval Battlefield and enter the Dark Reverie to cut a striking figure!”

“Yeah. If it wasn’t for this Heavenly Immortal’s Decree, probably no one amongst the people present would be capable of killing him... Is this why they say the heavens are jealous of geniuses?” Besides Pei Yu and the others, there were numerous people that were unrelated to this matter, and they had no enmity with Chen Xi. At this moment, all of them felt pity towards what Chen Xi had encountered.

Such a peerless and monstrous genius had fallen like this, and it was truly too much of a pity. Otherwise, he was bound to become renowned in the world and become an extremely formidable expert!

Unfortunately, it was too late now.

“This bastard should have died long ago. The exalted Immortal is high above us all, and how could he be someone that an ant like Chen Xi could go against? What a waste of the secret realm talisman seals. Even if this bastard is dead, we’re unable to regain our losses.” Cui Xiuhong laughed coldly, and he was indescribably delighted from being able to see Chen Xi die with his own two eyes.

The others deeply agreed as well. If nothing unexpected happened, then Chen Xi would die without a doubt and be crushed into a lump of mush before perishing. Because this was a Heavenly Immortal’s Decree, and it contained the will of an exalted Immortal. It didn’t tolerate any disrespect, and if anyone went against it, then the person would surely face the end of being completely obliterated.

Only Pei Yu was extremely depressed in his heart even though he was laughing coldly. He originally thought that annihilating Chen Xi would be an extremely easy thing, yet never had he imagined that up until now, not only had he expended an enormous amount of Blood Essence and lifespan as a sacrifice, he’d even completely consumed his greatest trump card, and it caused him to feel that all this was extremely not worth the price he paid.

...

Amidst the surging and blazing rays of light, Chen Xi's skin revealed a jade like sheen. Especially his chest, it was like a piece of jadestone that emitted a ball of dazzling and resplendent milky white divine light, and it emitted a shocking aura of divinity.

It was a tiny cauldron the size of a person's pinky, it was completely crystalline and translucent as if it was constructed from the most flawless jadestone in the world, and it was precisely the treasure of the gods that Chen Xi had obtained.

At the bottom of the river of bones earlier, this tiny cauldron had absorbed all the divinity, Divineflames, and Dao Insight brand from the corpse of a god, and then it had fallen into silence, causing it to seem mysterious and terrifying.

Due to him being unable to put the tiny cauldron away in the Buddha's Pagoda, Chen Xi could only hang it on his chest, yet never had he imagined that it would suddenly awaken at this moment and help him resist this fatal strike.

Hiss! Hiss!

The tiny cauldron glowed, and these rays of light were like strands and threads that wrapped around the '戮' character and was actually absorbing the essence and will contained within it. Moreover, during this process, due to his chest and the tiny cauldron touching each other, there was actually a portion of a strange warm flow that transformed into vast energy that gushed into Chen Xi's body.

A shocking scene emerged. Chen Xi's body that was covered in countless bloody holes started to recover swiftly along with the entrance of this vast energy.

The injuries vanished one by one, and the bloody holes healed up one after the other.

Even if it was his broken bones and meridians, and his dried up Dantian seemed as if they'd received rainfall after a long drought and were recovering, being perfected, and being filled at a shocking speed.

Rumble!

His True Essence that was exhausted to the point of drying up appeared once more like a great river that circulated with great strength through the meridians in his body, whereas his extremely dim golden core emanated boundless golden lights that were dazzling and resplendent.

At the same time, strands of powerful Shaman Energy appeared once more, and the Shaman Energy surged and whistled as it flowed within his body, causing his body to be filled and radiate boundless vitality.

The stains of blood on his entire body was evaporated as his skin became crystalline like glass and without the slightest stains, and his eyes were deep and dazzling like the stars. At this moment, besides his clothes being slightly tattered, he was practically no different from his peak condition.

What a formidable energy. It seems to contain a trace of divinity, and it was actually capable of allowing me to recover instantly. This tiny cauldron's origins are surely formidable to the extreme, and it's even to the extent that it might be a precious treasure in the possession of the gods! Chen Xi sensed the surging and vast energy within his body, and boundless heroism and fighting spirit was rekindled within his heart.

Bang!

Right at this moment, the ‘戮’ character shattered and vanished forever, whereas the tiny cauldron seemed to have eaten its fill, causing its divine light to be restrained before it once again fell into silence.

The disappearance of the dazzling rays of light caused this place to return to calm, and only Chen Xi’s tall and lonely figure remained like a great spear that pierced through the sky.

“What!? He actually survived! Even the Heavenly Immortal’s Decree’s final attacks were incapable of annihilating him?!” All the experts present were astonished and didn’t dare believe their eyes. This outcome had exceeded the expectations of everyone, as all of them thought that he would die without a doubt, and how could they have imagined that he would still survive?

It was even to the extent that the injuries on his entire body had recovered and healed, and his aura had become even more formidable!

“How can this be possible!? That’s the strongest strike that represents the will of an exalted Immortal! How could a tiny ant like him survive!?” Cui Xiuhong seemed as if he’d seen a ghost, and he couldn’t help but cry out.

The cold smile on Pei Yu’s face froze abruptly as his pupils dilated. That Heavenly Immortal’s Decree was my trump card, so how could it possible be unable to annihilate him?

At this moment, the hearts of Qin Xiao, Bi Lingyun, and the other experts that had enmity with Chen Xi jerked, and their expressions became extremely heavy.

Too terrifying!

Not only did this fellow survive the Heavenly Immortal’s Decree, he seems to have even recovered all his strength and attained an all time peak state. Is...is he still human?

“The heavens are unfair! The heavens are unfair!” Pei Yu’s vision went dark, and he was angered to the point his entire body trembled before he directly spat out a mouthful of blood. He’d already expended an enormous amount of Blood Essence and lifespan earlier, so at this moment, his fury struck his heart and almost caused his vital energy to go into disorder, which would in turn cause him to suffer from qi deviation.

The distant spectators couldn’t help but feel slight pity when they saw this scene. As the Crown Prince of a first-rate Dynasty, the Darjin Dynasty, Pei Yu possessed a noble status and a formidable strength. However, he was instead helpless against a young man from an ordinary Dynasty, and it was even to the extent that even utilizing a Heavenly Immortal’s Decree was useless. If it was any one of them, they would probably be furious like Pei Yu and fall to his current state, right?

“This kid absolutely can’t be allowed to live. Everyone, let’s make a move together. We must annihilate him today, otherwise, if he’s allowed to continue growing, then it’ll be a calamity for every single one of us!” Cui Xiuhong roared loudly.

“Right, we can’t let him go! Even a Heavenly Immortal’s Decree was unable to do anything to him. So once he has the chance to become stronger, he’ll surely become all our nightmares!”

At this moment, Qin Xiao, Bi Lingyun, and the others couldn't restrain the killing intent in their hearts any longer. All of them knew that they'd already completely offended Chen Xi today, and if he was allowed to continue living, all of them would probably be unable to eat and sleep peacefully!

After all, the strength Chen Xi displayed was truly too formidable and too extraordinary. If a figure like this were to mature, he was bound to become a peerlessly formidable enemy. So how could they allow such a situation to occur?

Talisman Emperor

Chapter 470: Both Tribulations Arriving In Unison

Killing intent blazed up in the hearts of all the experts as they rose up to battle, and all of them wanted to annihilate Chen Xi.

Because they knew clearly that they'd become utter enemies with Chen Xi today, and if they allowed him to live, then to what extent would he grow to in the future? Just thinking about it caused them to feel terrified.

Om!

The Talisman Armament in his hand let out a clear howl. Chen Xi's gaze were like bolts of lightning as the corners of his mouth was suffused with coldness, and he was the first to launch an attack. He'd even fought the Heavenly Immortal's Decree, so what was there to fear?

The battle erupted instantly.

Chen Xi's entire strength had recovered to its peak state, so he naturally wouldn't hold back in the slightest any longer, nor would he be benevolent and merciful, and he charged into the crowd before giving rise to a rain of blood.

It could be said that so long as they didn't utilize a great weapon like the Heavenly Immortal's Decree, Chen Xi's strength was absolutely capable of crushing everyone that possessed a similar cultivation as him, and he was almost invincible. Not to mention these genius experts of the various Dynasties, he would even kill Rebirth Realm experts without the slightest hesitation! In merely an instant, a few bloody heads had flown up into the sky, and they died with everlasting regret.

At this moment, Chen Xi was like a devil god as he struck mercilessly and he swept through all his enemies. He'd recalled everything he'd encountered earlier and recalled the savage cold smiles these fellows revealed when they intended to kill him, and the killing intent in his heart blazed even brighter.

Bang!

Chen Xi swung his sword to slash the person before him into two, and then he directly arrived before Cui Xiuhong as he swept out his sword towards him.

Early on when he saw Chen Xi resisting the Heavenly Immortal's Decree and surviving, Cui Xiuhong was already shocked to the point of being stupefied, terrified, and uneasy. At this moment, how could he dare go head on against Chen Xi? So he immediately turned and dodged to the side.

“Thinking of fleeing? Let me see who can save you today!” Chen Xi gnashed his teeth with hatred towards this person, so how could he let him escape so easily? Chen Xi flipped his left hand right away, causing the Flaming Peacock Fan to float up into appearance, and then he fanned it out fiercely.

Rumble!

A sea of flames surged out like lava, and it transformed into a torrent that swept out towards Cui Xiuhong. Not to mention Cui Xiuhong, even a Rebirth Realm expert would be extremely fearful of the might emitted by a Quasi Immortal Artifact like this.

After all, the Sword Crazy Kid, Taishu Huarong had advanced to the Rebirth Realm, and he was even the number one figure in the younger generation of the Snowray Dynasty, yet he still perished miserably beneath the monstrous sea of flames emitted by the Flaming Peacock Fan.

Even though Cui Xiuhong was from a first-rate Dynasty, how could his strength possibly compare with Taishu Huarong? He was instantly drowned by the sea of flame, and he became a flaming figure that ceaselessly emitted shrill and miserable cries.

Cui Xiuhong was instantly incinerated into nothingness. Cui Xiuhong was a person that harbored evil intentions, drove wedges between people, and was both vicious and malicious. At this moment, Chen Xi naturally wouldn't feel pity when Cui Xiuhong was killed within the sea of flames.

“Kill!” Chen Xi's expression was indifferent as he continued charging forward and slashed off numerous heads. Corpses piled upon each other behind him as he forcefully slaughtered out a true path of blood.

“You're too arrogant, and you'll surely be slaughtered by the experts of my Snowray Dynasty!” A genius expert roared loudly. He was the last disciple of the Snowray Dynasty that had entered the Isle of Fallen Treasures this time. His companions had either died early like Taishu Huarong at the hands of Chen Xi or had been mercilessly slaughtered by Chen Xi now, and only he remained.

Bang!

Chen Xi's figure was like a bolt of lightning as the Starsky Wings flapped behind him. In the next moment, he'd already arrived before this person and penetrated his throat with a single strike, causing blood to spray out as his corpse fell to the ground.

At this moment, all the genius experts of the Snowray Dynasty that had entered the Isle of Fallen Treasures had perished.

The expressions of the genius experts of the Skywolf Dynasty, Eastern Summer Dynasty, and the other Dynasties went grim when they saw this scene. The Snowray Dynasty suffering a calamity seemed to forebode ill, and they wonder if they would be sought out by Chen Xi and completely wiped out.

“Kill!” When they thought up to here, everyone went mad and fought with their lives on the line.

However, to their despair, Chen Xi was too formidable. With the Quasi Immortal Artifact, Flaming Peacock Fan, in hand, he simply seemed to be matchless. Not only were they unable to kill him, he'd seized this opportunity to kill a few more of them instead.

In the time of a few breaths, only two genius experts of the Skywolf Dynasty remained.

All the spectators in the distance gasped in their hearts when they saw this scene, and they felt their scalps go numb. Never had they imagined after Chen Xi narrowly escaped death, he actually became more valiant as the battle progressed, and his strength became stronger and stronger. After the Snowray Dynasty, the Skywolf Dynasty's genius experts were about to be wiped out by him, and such a combat strength was too terrifying!

Right at this moment, the last two genius experts of the Skywolf Dynasty revealed resolute expressions, and they looked at Chen Xi as they pounced at him while laughing madly. "If we're going to die, then everyone will die with us!"

Bang!

This area of the heavens and the earth exploded abruptly, causing waves of air to shake the sky and True Essence to rumble in the air. It was like two volcanos had suddenly erupted and two mushroom clouds shot into the sky. Not only was Chen Xi blasted flying by this explosion, even a few nearby genius experts of the other Dynasties that were directly blasted apart, and they hadn't even made a sound before transforming into a mist of blood.

"How ruthless!" The hearts of all the experts trembled as they shuddered. Those two people had actually detonated their golden cores and abandoned their lives, and no one could avoid being moved by such ruthless and resolute methods.

"Are you dead? If you aren't, then fucking show yourself!" Qin Xiao roared ferociously. The energy of the explosion from before had blasted apart a few genius experts of his Darqin Dynasty, so how could Qin Xiao not be enraged?

Pei Yu possessed a great weapon like the Heavenly Immortal's Decree in his possession, and he, Qin Xiao, naturally possessed one as well. But it wasn't a Heavenly Immortal's Decree, but a Soulwipe Divine Needle refined by a Heavenly Immortal. It was extremely overbearing and capable of eliminating the soul of a person, causing the person to forever be unable to be reborn.

Chen Xi had indeed suffered a heavy injury from this explosion, and his body was covered in blood and had almost been split apart, causing it to seem as if spiderwebs had spread all over his body. Even someone as strong as him with a body that was hard as a rock was heavily injured like this, and this obviously showed exactly how terrifying the might of a golden core being detonated was.

Chen Xi gritted his teeth while his lips pursed together, and he seriously reflected on what had happened. He felt he'd been slightly careless and thought that after he destroyed the Heavenly Immortal's Decree, the remaining people were nothing to fear, and it had almost caused him to lose his life in battle.

Exactly. His injuries were too severe, his body was in a terrible state and almost broke apart, causing him to be utterly incapable of completely repairing his body in a short period of time while relying on his body refinement cultivation.

"Very good. Since you haven't died, it's just nice for me to annihilate you with the Soulwipe Divine Needle and cause you to perish forever from this world!" The Darqin Dynasty's Crown Prince, Qin Xiao, spoke coldly.

The experts in the distance were stunned as they never imagined this battle would be so full of twists and turns, and it had actually turned around once more. Chen Xi, who originally had only a slim chance of survival, was finally able to survive in the end, yet never had they imagined that he would actually unexpectedly suffer a heavy injury now and once again fall into danger.

“Want to kill? Impossible!” Chen Xi was fearless as the essence, spirit, and energy in his entire body burned, and then surging Shaman Energy repaired his body as all the potential within his body exploded out.

Bang!

At the same time, an expanse of dark clouds that were jet black like ink suddenly surged over in the sky, and it roiled without end while enveloping the sky above Chen Xi. Crimson red bolts of lightning that were dazzling like fireworks interweaved with each other within the dark cloud, and it emitted a destructive force that caused one’s heart to palpitate.

“Eh, that’s...”

“Heavens! What’s going on? This is a tribulation cloud! Could it be that this fellow wants to overcome the tribulation while in battle?”

Everyone that witnessed this scene was dumbstruck. Even though numerous cracks had appeared on Chen Xi’s body, causing it to be on the verge of splitting apart, but there was a scorching and vast aura raging within his body.

Shockingly, that aura was the tribulation flames within the depths of his body, and it conformed to the tribulation clouds that appeared in the sky. Thus, how could everyone be unable to guess what was going on? These were the two tribulations that one had to face when charging into the Rebirth Realm!

Even Chen Xi himself was stunned, as he hadn’t imagined that his actions of exerting all his strength to arouse his potential would actually drew the Rebirth Tribulation completely. But he’d perceived that this scene would occur since the beginning of the battle, so he wasn’t anxious in his heart.

Exactly. He’d planned long ago that if the tribulation occurred in battle, he would slaughter while overcoming the tribulation of Rebirth!

A phoenix bathed in flames to achieve rebirth, a caterpillar bound itself in a cocoon to transform into a butterfly. He, Chen Xi, would go against the heavens and the earth in his most fearless state. So long as one’s heart was free from flaws, then why would one have to worry about where one’s tribulation occurred?

“Has he gone mad!?” Everyone cried out with shock, and they didn’t dare believe their eyes.

Normally, every single person would search for an extremely safe place to overcome the tribulation and ask experts to stand guard for them, as they were deeply afraid that any accidents that disturbed their effort to overcome the tribulation would appear. However, Chen Xi acted in the opposite, and he actually wanted to overcome the Rebirth Tribulation while being besieged by numerous people. Was such an action any different from self destruction?

Everyone was unable to believe that Chen Xi would actually be stupid to the point of doing such a thing no matter how they racked their brains. Could it be that he has really gone mad?

“Quickly! Seize this opportunity to annihilate him!” Qin Xiao was extremely happy, as he felt even the heavens couldn’t bear to look at Chen Xi’s arrogance, so he shouted out loudly and called out to the others to ask them to go all out and annihilate Chen Xi.

“Something’s not right! He seemed to be extremely confident towards overcoming the tribulation. If he’s really able to overcoming both the tribulations and advance to the Rebirth Realm, then it would absolutely be a calamity. Even though the chances of such a situation occurring is tiny, we have to take precautions against it!” Bi Lingyun’s clear eyes spun and were suffused with a sheen of wisdom, and she seemed to have seen through Chen Xi’s thoughts, causing her to speak out in a heavy tone.

Everyone else was instantly shocked when they heard this. Right, if by any chance Chen Xi advanced to the Rebirth Realm in battle, then his strength will probably rise explosively to a terrifying height. At that time, how would we face it? They simply didn’t dare imagine it anymore.

All the experts in the distance were stunned, and they felt Bi Lingyun’s words conformed most closely to Chen Xi’s current state. After all, he’d already suffered a heavy injury, and even if he persisted in the battle, he would probably be unable to avoid death. Perhaps it was precisely because of this that Chen Xi would think of overcoming the Rebirth Tribulation and seek a chance a survival within a hopeless situation, right?

Rumble!

In the sky, the dark clouds roiled and roared endlessly as crimson red bolts of lightning flickered within it like flaming serpents that were dancing madly, and it was filled with a terrifying destructive force that caused the heavens and the earth to tremble without end.

This was the true might of the heavens, a punishment that came from the Heaven Dao. Under the envelopment of this type of heavenly might, everything in the world would be in a suppressed state and feel horrified and uneasy.

At this moment, Chen Xi’s entire body was enveloped in a scorching aura as if he’d caught fire, and the shocking waves of heat caused even the surrounding space to warp and become blurry.

“Quickly, kill him! No matter what, seizing this moment to kill him is absolutely not a wrong move. Otherwise, once he’s allowed to luckily overcome the tribulation, then none of us will be able to survive!” Qin Xiao shouted out loudly when he saw this scene.

“Kill!” Everyone launched an attack. They understood that they couldn’t delay any longer and had to disrupt Chen Xi’s efforts to overcome the tribulation and cause him to either die miserably at their hands or be directly annihilated by the dual Rebirth Tribulations. They just couldn’t allow him to safely overcome the tribulation successfully.

Instantly, a myriad of various magic treasures, martial techniques, and Divine Abilities converged together and were like a rainbow that shot through the sun, and they interweaved together to form a dense net of light that seemed like the laws of the world were striking down to annihilate Chen Xi.
