Chapter 671: An Earthly Immortal's Attack

Chen Xi's actions of forcing the two peerless geniuses, Wen Daoran and Daoist Crimson Sun, back with a single strike to seize the divine objects on the stone tablet had shocked everyone present within the hall.

Leng Chan'er's arrival was a step too late yet the words she inadvertently revealed was like adding fuel to a fire, and it allowed everyone present to realize once more how formidable Chen Xi was.

No one had imagined that the most renowned madman of the Heavenflow Dao Sect, a peerless ferocious figure that possessed extraordinary natural talent would actually lose at Chen Xi's hands!

The atmosphere instantly became silent, perfectly silent.

Everyone looked at Chen Xi with gazes that carried deep fear.

Chen Xi glanced over and similarly noticed Leng Chan'er's arrival, but, his attention was mostly placed on a thin, tall, snow white haired, and white robed old man who stood by Leng Chan'er's side.

The old man held his hands behind his back and had an indifferent gaze yet his entire body flowed with Immortal Energy, causing him to be like an abyss that gave others an unfathomable and horrifying feeling.

Shockingly, this was an Earthly Immortal Realm expert!

Chen Xi's pupils constricted imperceptibly, and he said in his heart, It really is like that. These immortal sects, devil sects, and primordial clans surely possess their own respective Earthly Immortal Realm experts leading the group, and this white robed old man before me is probably an important person from the Heavenflow Dao Sect!

When Chen Xi's gaze glanced towards the old man, the latter's gaze had similarly rose up to sweep towards him. The old man's gaze was deep and icy cold, and it exploded out like a sharp sword that swiftly locked onto Chen Xi and it was sharp to the point it seemed capable of slashing his soul apart!

Shit! This old fellow seems to have aroused killing intent towards me! Chen Xi felt apprehensive in his heart as he acutely captured a trace of imperceptible killing intent from the old man's gaze.

Even though this killing intent vanished in an instant, the killing intent contained within his gaze was abundantly clear, and it was as if he was staring at someone that would die for sure, icy cold and terrifying.

Swoosh!

Chen Xi circulated the Wings of Disruption without the slightest hesitation. In the next moment, he'd already shot out explosively towards the depths of the hall, and he was like a ray of light that moved at an unbelievable speed.

There were numerous passageways that lead towards this hall, but at its deepest depths was a tightly shut bronze large door that was mottled with rust, and its surface was branded with some ancient and indistinct striations and patterns, causing it to seem ancient and as if it had experienced the tempering of countless years.

Before he'd even arrived at this hall, the tiny cauldron had pointed out to Chen Xi that the core area of the Divine Palace of Creation was behind this door, and further back from there was the mysterious and unfathomable Door of Profundity.

At this moment, Chen Xi had taken this door to be the path of his escape!

He had no other choice. The wisp of killing intent emitted inadvertently by the Earthly Immortal Realm expert allowed him to smell the smell of extreme danger, and if he didn't leave now, then he would probably be unable to leave at all.

After all, it was an Earthly Immortal Realm expert!

The name Earthly Immortal already carried the world immortal within it. Even though it couldn't be compared to a Heavenly Immortal, it was sufficient for an Earthly Immortal Realm expert to look down upon all the cultivators in the world. They possessed extraordinary strength and were the peak existences beneath the Immortal Dimension.

When facing such a terrifying existence, how could Chen Xi dare have the slightest thought of being lucky?

Chen Xi's sudden departure was too sudden, and it caused everyone present to be stunned, and they didn't understand why he did this. But the white robed old man had always been focused on Chen Xi, and he seemed to not be surprised when he saw Chen Xi fleeing.

"Junior, since you've come, then leave your life behind!" In the next moment, the white robed old man flicked his sleeve, and he suddenly struck out a bolt of lightning that glowed violet as it shot over explosively.

Wu~ Wu~ Wu~

Countless black holes were created as soon as this violet colored bolt of lightning revolved slightly, and these thousands of black holes caused a terrifying suction force that caused the space around Chen Xi to start warping and emit deafening rumbles.

Shit! In merely an instant, Chen Xi felt a horrifying coldness gush into his heart, and he practically instinctively withdrew all his strength and formed layer after layer of barrier around his body as he repeatedly executed boundless profound techniques to envelop the surroundings of his body.

Even then, he still wasn't at ease, and he circulated his Blackhole World once more and caused it to rumble madly. Moreover, he gathered the Wings of Disruption behind his back and circulated it with all his might.

Rumble!

The violet colored lightning exploded.

Chen Xi felt a piercing pain while everything in his surroundings were being annihilated as if they'd suffered a great calamity and the end of the world had arrived. His entire surroundings were covered in what seemed like chaotic purgatories as all his defensive Dao Arts were blasted apart layer after layer.

In merely an instant, his body had suffered a heavy injury and was on the verge of shattering, and it was even to the extent that the violet colored lightning had invaded into his Blackhole World!

"Dark Parasol sapling, myriad of profundities, fuse into one, burn and repair!" At the critical moment, his Blackhole World suddenly emitted a wave of rumbling as the divine tree formed from the Dark Parasol sapling sprayed out a tide of Immortal Energy, and it instantly circulated a myriad of times to finally eliminate the violet lightning that had invaded his Blackhole World. But the meridians and internal organs within his body had already suffered a heavy injury and were devastated.

Pu!

Chen Xi couldn't endure any longer and sprayed out a mouthful of blood, and his countenance instantly became translucent and pale to the extreme.

How terrifying!

This is the might of an Earthly Immortal Realm expert?

Compared to the heavy injuries in his entire body, Chen Xi had a stronger feeling of astonishment. After that, a wisp of extreme danger surged once more into his heart, and he instinctively swished to the side.

Bang!

A lightning sword light slashed down from the position he moved away from, and it ploughed out a deep and horrifying gully in the ground.

Chen Xi paid no attention to all this. At this moment, he was like a ferocious beast that had been forced into a hopeless situation. His eyes were completely red as he gritted his teeth and exerted all the strength in his body, causing the blood and vital essence in his entire body to seem as if they were burning madly!

In the next moment, he'd transformed into a ray of light that knocked open the door in the depths of the hall and finally charged into it.

Rumble!

"Old dog! I'll remember this! I'll surely take your lowly life in the future!" The bronze door closed tightly once more and Chen Xi's voice that was filled with boundless resentment and killing intent sounded out from within.

"Hmph!" The white robed old man grunted coldly yet didn't pursue, and he stayed on the spot with a gloomy expression instead. He seemed to be slightly surprised that Chen Xi was able to avoid his attack.

On the other hand, the others in the hall were stunned like clay figures.

All of this had occurred too quickly. From the moment Chen Xi fled to the white robed old man attacking, and to the point Chen Xi escaped while suffering a heavy injury. This string of movements

occurred in an instant, and it was so fast that the others were unable to react to what had happened before Chen Xi's figure had already vanished behind the bronze door!

This instant of combat could be described as occurring in an instant!

Especially because this combat had occurred between an Earthly Immortal Realm expert and a cultivator at the Nether Transformation Realm. Just thinking about such a scene caused the bodies of everyone to go cold and even their breathing became difficult.

It was too terrifying!

Chen Xi was actually able to dodge and successfully escape an assault from behind that came from an Earthly Immortal Realm expert!

Everyone asked themselves that if they were in Chen Xi's place, they would probably have been smashed into bits at this moment, whereas this was also the thing that shocked them the most.

After all, not to mention now, even if they looked back into the boundless annals of time of the entire Dark Reverie, a Nether Transformation Realm cultivator that could escape from the hands of an Earthly Immortal Realm expert was a rare existence like qilin horns and phoenix feathers.

They knew extremely clearly that if news of this incident were to be spread, it would surely cause Chen Xi to rise to fame!

"Martial Uncle Chu Jing, your actions seem to be..." After a short moment, Leng Chan'er stared blankly into the distance as she asked.

"Slightly lacking in consideration of my status?" The white robed old man called Chu Jing smiled lightly yet his eyes were extremely icy cold. "This kid Chen Xi must be killed here this time! It isn't just me, even if it's the other elders of the sect that came here, they would act in the same way, and you ought to know the reason better than me."

Leng Chan'er was stunned as a wisp of bitterness arose in the corners of her mouth. She naturally knew that because of her Martial Ancestor Qing Xiuyi, the Heavenflow Dao Sect had already taken Chen Xi to be a needle in their eyes, a thorn in their flesh, and they wished for nothing more than to pluck out his tendons, pull out his bones, and burn his corpse before scattering his ashes.

But never had she imagined that her senior would actually launch a surprise attack on a junior before the eyes of everyone, and this caused her to feel slightly uncomfortable in her heart.

As far as she was concerned, Chen Xi's competition with Lord Bing Shitian was like throwing an egg against a rock, and Chen Xi was overestimating his ability. Even if they wanted to deal with him, they didn't have to stop at nothing, right?

If news of this were to spread, it probably wouldn't just draw the ridicule of the various powers, and it would cause a great storm if news of it were to enter the ears of the Nine Radiance Sword Sect!

"Haha, that kid is already heavily injured. I'll go kill him right away and seize the treasures back!" A disciple of the Heavenflow Dao Sect roared with laughter and was rather complacent, and he was excitedly intended to charge into the bronze door and pursue Chen Xi.

“There’s no need to pursue him.” Chu Jing suddenly spoke and instructed indifferently. “The other side of that door is filled with boundless danger. The Earthly Immortal Realm experts of the other powers have already entered earlier and are trapped within. That junior was heavily injured by my attack earlier, and he’s doomed once he went in there.”

At this moment, the experts of the other powers lost their composure as their expressions turned grim. The Earthly Immortal Realm experts of the other powers? Isn’t that us?

When they thought about how the Ancestors of their respective powers were trapped behind the bronze door while it was impossible to know if those Ancestors were still alive, all their hearts went cold. Exactly what sort of danger exists behind the door to the point that an Earthly Immortal Realm expert is actually unable to escape?

“Let’s go. Besides that bronze door, this Divine Palace of Creation ought to have many mysteries left. Search carefully and it ought to not be difficult to obtain some fortuitous encounters.” Chu Jing swept the others in the hall with his gaze, and he grunted coldly before bringing Leng Chan’er and the others along as he turned and left.

As an Earthly Immortal Realm expert, he would naturally not make a move against these juniors, because such actions would be too disregarding of his bearing. Not to mention all of these juniors had formidable backgrounds, and he didn’t dare kill them to silence them.

As for making a move against Chen Xi earlier... That was a special case and couldn’t be lumped together.

“Let’s go as well and search the other places.” Daoist Crimson Sun sighed and was slightly dispirited. He shook his head and brought the experts of the Truth Embrace Sect along as he turned and left as well.

“Let’s go. Even the Ancestor is trapped within, and it’s only a path towards death if we go in. Worrying is useless!” Wen Daoran was silent for a long time before making a decision in the end.

In next to no time, these experts from the immortal sects, devil sects, and primordial clans had left successively, and not a single one of them dared to traverse through that bronze door.

It seemed as if an expanse of purgatory or a dead end was behind the bronze door, and death was certain!

Chapter 672: Repairing His Body With Divine Wine

Wu~ Wu~ Wu~

Gusts of wind that were piercingly cold like blades whistled past the pitch black and hard ground while emitting what sounded like wails of ghosts. The mountains, ground, and sky... Everything here was completely pitch black.

Numerous strange rays of light flashed by frequently in the sky like strands of sword lights that pierced through the darkness and flashed out of existence.

This was a strange place that was completely barren as if there wasn’t the slightest vitality in it. It was entirely deathly silent and suffused with a unique murderous air.

Clang! Clang!

When the piercingly cold wings swept past the rock, it emitted the sound of metal colliding as if blades and swords were slashing, and it was extremely horrifying as it reverberated in this deathly silent atmosphere.

Thump!

Suddenly, a black figure fell heavily to the ground like a comet in an extremely sorry state and caused an expanse of dust and dirt to suffuse the air.

His clothes were tattered, hair disheveled, and blood flowed from the corners of his mouth. His handsome and firm expression was completely pale at this moment and practically translucent, and he sat cross-legged on the ground while panting for breath.

This figure was precisely Chen Xi, who'd escaped from the Earthly Immortal Realm expert!

At this moment, his entire body was covered in heavy injuries, and his vital energy was weak and on the verge of disorder. He seemed entirely like an injured person that was on his deathbed, and even an ordinary wild beast was able to take his life at this moment.

I never imagined that the sudden attack of an Earthly Immortal Realm expert is so terrifying. I currently possess six times my combat strength, yet almost lost my life.

Chen Xi gasped rapidly for breath while feeling a lingering fear in his heart. In the past, he'd seen many Earthly Immortal Realm experts and had even seen existences at the Heavenly Immortal Realm. But it was the first time he'd fought an Earthly Immortal Realm expert.

This sort of near death experience allowed him to deep understand the gap between the Nether Transformation Realm and Earthly Immortal Realm, and it was simply like the distance between the heavens and the earth!

If it wasn't for him entering the bronze door and escaping fortunately, the consequences would be unimaginable.

"There's no need to worry. For the sake of the Chaotic Divine Crystal, I wouldn't watch idly by as you died," said the tiny cauldron. It was only around an inch in size and seemed as if it was entirely constructed from jade, and it hung before Chen Xi's neck while seeming extremely mysterious.

"Then why didn't you make a move earlier?" Chen Xi laughed bitterly, and he had a rare moment of complaining about the tiny cauldron.

"I knew you'd be fine. Not to mention fighting an Earthly Immortal Realm expert would allow you to better understand the exact level of your strength. This was a precious piece of experience that an ordinary person would be utterly unable to obtain." The tiny cauldron said, "Now, you should swiftly repair your body. This place is already the core area of the Divine Palace of Creation, and I've sensed many dangerous existences."

Chen Xi felt apprehensive in his heart, and he didn't dare dally to sit down properly before he took a breath and gradually circulated his Blackhole World to start repairing his injuries with all his strength.

“Didn’t you seize that jade pot? Consume the wine within it and you’ll be able to swiftly repair your body.” The tiny cauldron couldn’t help but guide Chen Xi.

“Jade pot?” Chen Xi was stunned, and then he came to an understanding, and he immediately withdrew the jade pot he seized from the hall earlier. This jade pot seemed as if it was carved out from jade, it was suffused with the glow of spirit energy and flickered with divine lights, and it emitted strands of sweet fragrance that invaded the bone.

Merely this shocking scene allowed one to know clearly that the wine contained within the jade pot was surely extraordinary, and perhaps it was divine wine brewed by immortals left behind by the exalted expert from the primeval times.

Chen Xi stretched out his hand to open the pot, and within it was merely a thin layer of wine that was extremely thick. It seemed as if it had experienced the sedimentation of countless years, causing the liquid to be crystalline like amber, and it flowed with a fragrance that intoxicated the soul.

Just a single whiff caused Chen Xi to feel every single inch of his skin, bones, and veins seem to have awakened, start cheering, and jumping with joy. They were filled with yearning, and even his soul was slightly intoxicated, and it felt indescribably wonderful.

“This isn’t ordinary wine. If I’m not wrong, it was brewed from various spirit medicines, and there’s no lack of divine treasures that could only be found during the primeval times, causing its value to be immeasurable, and it isn’t inferior to the Nine Reincarnations Immortal Pill that’s capable of bringing people back from the dead. So long a single cup is sent into the world, it would be sufficient to be numerous people fight for it with their lives on the line.” The tiny cauldron reminded. “Just a small sip is sufficient, don’t waste it.”

Chen Xi nodded and withdrew a jade cup before pouring in a small bit and swallowing it in one go.

Rumble!

A variety of sweet fragrances curled up. As soon as he swallowed it, a refreshing warm flow gushed throughout his entire body like a wyrm that was moving about within his body, causing his face to flush completely red while he felt slightly dizzy and exceedingly intoxicated. As he breathed, rays of pure divine light flickered from within.

“Swiftly seal up the pot, don’t allow the medicinal effect to leak out,” said the tiny cauldron.

Chen Xi sealed his six senses tightly as he swiftly sobered up, and then he sealed up the jade pot before carefully placing it within the Buddha’s Pagoda along with the jade cup.

This was absolutely a precious treasure. If it was a normal person, then merely taking a whiff of its fragrance would probably cause the person to be knocked out and fall into a strange state.

Even if it was this small sip that Chen Xi had drank, it would surely cause any other cultivator that wasn’t prepared in the slightest to have their body crushed by the tremendous medicinal strength and collapsing to the ground from being drunk, causing the medicinal strength to be wasted.

Fortunately, Chen Xi’s body was sufficiently strong, and he possessed the tiny cauldron’s guidance, so he wouldn’t fall to the extent of wasting this medicinal strength.

Swish!

In next to no time, his practically ruined body was enveloped by the miraculous warm flow, and it was healings and recovering at a speed that was practically visible to the naked eye.

In almost less than 10 minutes of time, every injury in his entire body had been healed! If this scene were to be seen by that Earthly Immortal Realm expert, Chu Jing, that injured him, Chu Jing would surely be left dumbstruck!

In the next moment, Chen Xi's body emitted the rumbling of thunder before erupting with a blazing glow that carried an exuberant aura of vitality. His entire body was crystalline, his blood seemed as if it was burning as it surged and boiled, and his body refinement cultivation almost broke through to the Nether Transformation Realm.

His expression instantly turned to shock when he noticed this and swiftly stopped it because this moment wasn't the time to advance. After all, this was the core area of the Divine Palace of Creation and was filled with danger.

Unfortunately, the medicinal strength of this bit of wine was too strong. After it healed his injuries, there was still another half surging within his body, and it caused Chen Xi to have no choice but to circulate the strength in his entire body to suppress it.

In the end, a ball of blazing vitality was suppressed and shrunk into a ball by him, and then he gradually injected it into his body to be sealed up temporarily while preventing it from leaking and dissipating.

Such a divine wine is absolutely worth an unimaginable fortune. It simply doesn't seem like something that ought to be possessed by the Mortal Dimension! In the next moment, Chen Xi opened his sparkling eyes that were deep yet bright, and his voice revealed a wisp of admiration.

In the past, he was worried about when he would be able to break through to the Nether Transformation Realm in body refinement. After all, unlike qi refinement, every single step in body refinement was difficult and obscure to the extreme.

Moreover, advancing from the Rebirth Realm to the Nether Transformation Realm was a surmounting of a realm, causing it to be even more difficult, and it wasn't inferior to an ordinary person climbing a mountain with his bare hands.

But after he obtained this jade pot of divine wine, Chen Xi instantly saw hope of advancing. It was even to the extent that he firmly believed that so long as he found a safe place and consumed some more divine wine, his body refinement cultivation would be guaranteed to advance to the Nether Transformation Realm!

"Set out. I've already sensed the aura of the Door of Profundity, and it'll surely open within four hours," said the tiny cauldron. At this moment, its voice carried a trace of imperceptible excitement.

Chen Xi awoke from his contemplation right away, and he stood up while his expression had already become extremely serious.

Presently, he could already be sure that the Chaotic Divine Crystal was most probably within the Door of Profundity, whereas during the process he headed over to search for it, it was extremely likely for him to encounter those Xeno-race experts.

But with the tiny cauldron present, he wasn't worried about anything.

In next to no time and under the guidance of the tiny cauldron, Chen Xi flashed towards the depths of this area.

Piercingly cold winds whistled by, the pitch black and hard mountain and ground were completely barren as if they were completely dead, and even the air carried a trace of a murderous and icy cold aura.

This was the core area of the Divine Palace of Creation. According to rumor, the inheritance of that exalted expert from the primeval times was hidden here. Unfortunately, throughout the boundless years, no one had obtained it.

It was even to the extent that saints who shocked the three dimensions had come over here and vanished without a trace to never appear again in the world. This also caused this place to be covered in a layer of a mysterious and dangerous aura.

Chen Xi naturally didn't dare dally and was completely on guard as he flew forward. To his surprise, he didn't encounter any danger all along the way.

There were no lethal traps, no destructive formations, and there wasn't even a trace of life. It was deathly silent, as if only he remained within the entire world.

Not only did this sort of strange silence not cause Chen Xi to feel at ease, he even became much more vigilant. After all, the more dangerous an existence, the more difficult it was to notice.

At the same time, he noticed to his shock that numerous strange lights flashed by frequently in the pitch black sky, and they were like numerous sword lights that flashed by.

But he'd noticed that the place all those strange lights vanished towards pointed at the same direction, and it faintly revealed the feeling of 'all roads leading to one.'

Shockingly, that direction was the direction he was heading towards right now!

Strange, could it be that this is indicating something?

Chen Xi frowned. After he saw this scene, he faintly had the feeling of flying towards a place of great danger.

Right when Chen Xi was just intending to go past this pitch black mountain, the tiny cauldron warned him abruptly. "Be careful. There's a type of terrifying restriction ahead and coming into contact with it means certain death!"

"Restrictions?" Chen Xi's eyes squinted as he stopped immediately before carefully descending onto the pitch black mountain. When he looked over and saw the scene behind the mountain clearly, he was instantly shocked in his heart and couldn't refrain from gasping.

Behind the pitch black mountain was a boundlessly vast plain. The ground was pitch black and hard while suffused with a cold sheen, whereas there was a divine tree that towered into the sky at the center of the plains!

The divine tree towered into the clouds and seemed capable of propping up the heavens. It was extreme thick, while every single branch seemed like a bridge that stretched across the world, and it was extremely grand and magnificent.

But the shocking part was this divine tree's branches were completely empty and charred black, and the surface of these branches were even covered in scars that seemed like ravines. These scars stretched horizontally and vertically, and it seemed like the branches had been chopped by an axe.

This...wouldn't be a shell left behind by the Dark Parasol Divine Tree after it perished during the primeval times, right!? Chen Xi was shocked in his heart. Even though he was only looking at it from afar, he was still able to sense that the surroundings of this divine tree emitted a shapeless force field that enveloped this entire expanse of the heavens and the earth, and it was exceedingly terrifying. It seemed as if so long that one stepped foot into this area, one would suffer a calamity, and it caused one's entire body to go cold.

[Talisman Emperor](#)

Chapter 673: Golden Emperor Ants

This area seemed to already be the end of the Divine Palace of Creation.

Even though this towering divine tree that stood there was completely charred black, mottled, and damaged, yet it carried an aura of looking down upon all the beings in the world and standing through eternity.

The facts were indeed like this. Merely the strand of aura it emitted transformed into a terrifying restriction that enveloped every inch of space within this area, and it seemed as if once one trespassed by a single step, one would suffer a calamity.

"What spirit! You perished a myriad of years ago, yet still resolutely refuse to fall and are still standing towering here until today. If it wasn't for the descent of the calamity of the three dimensions, you'd probably be standing proudly at the peak of the Grand Dao since a long time ago, right?" The tiny cauldron spoke with a voice that carried a trace of admiration for the first time.

"Senior, so in this way, that divine tree is the shell left behind by the Dark Parasol Divine Tree when it perished?" Chen Xi was shocked in his heart and asked with a surprised tone.

"Exactly. Unfortunately, the profundities of the world branded upon it have already transformed into everything within this Dark Parasol's Abyss. Otherwise, merely this shell you've seen would draw over countless storms that would shake the three dimensions." The tiny cauldron paused for a moment and continued. "If I'm not wrong, the Door of Profundity will appear at the peak of that divine tree not long from now. You possess the Dark Parasol sapling, so you naturally don't have to fear the restrictions in this area. But you must be careful because there are many people who have stepped foot on the divine tree now, and they're in battle with some Emperor Ants."

Chen Xi was shocked in his heart and executed the Eye of Divine Truth to look over. Sure enough, he saw that over 10 mighty figures were flashing about on the towering tree, and their bodies were coiled with an immortal glow, causing them to reveal peerless martial prowess.

Obviously, these mighty figures were the Earthly Immortal Realm experts from the various powers, and Chen Xi saw two familiar faces amongst them, the Heartcontrol Swordhouse's Ancestor Ling Ya and Feng Xuanzi from the Truth Embrace Sect.

He'd once seen these two Earthly Immortal Realm experts while at the Primeval Battlefield. At that time, Ancestor Ling Ya had almost made a move against him because the Shang Clan was destroyed, and his impression of Ling Ya was extremely deep.

On the other hand, their opponents were numerous divine ants that seemed to be constructed from gold!

The golden divine ants were an entire 3m long, possessed bodies that were strong and powerful, and they were suffused with a golden divine glow, causing them to emanate an awe-inspiring aura. Besides their color, they were exactly similar to the Primeval God Devourer Ants he saw earlier.

Most terrifying of it all was their strength, they'd actually grasped various terrifying Sword Insights, causing their bodies to rumble with Dao Insight while an immortal glow flowed around them, and every single one of them had strengths that weren't inferior to Earthly Immortals!

Emperor Ants!

They deserve to be the emperors amongst the Primeval God Devourer Ants. Such ferocious strength is sufficient to be worthy of this title.

The battle between the two sides was exceedingly intense, and even Chen Xi felt his scalp go numb and his heart feel cold from the sight of it. If this was in the outside world, it would be sufficient to destroy numerous enormous cities, and it was only because that divine tree carried an imperceptible field of restriction that all destructive force was restrained and didn't affect the outside world.

"Could it be that they've come for the Door of Profundity as well?" Chen Xi asked abruptly.

"Besides the Door of Profundity, there's also the inheritance of that exalted expert from the primeval times." The tiny cauldron answered. "Since the ancient times until now, everyone thought the mantle of that exalted expert was hidden on this tree, but it just hasn't been found by anyone."

"The Door of Profundity, the mantle of the exalted expert... No wonder these Earthly Immortal Realm experts dared to take the risk and come here when the upheaval of the three dimensions is at hand. Such allure really can't be compared to." Chen Xi sighed lightly while it felt slightly heavy in his heart. If the Door of Profundity really appeared at the peak of the divine tree, then he couldn't avoid encountering those Earthly Immortal Realm experts if he wanted to enter the Door of Profundity. Moreover, even those numerous Emperor Ants were troublesome.

As for the mantle left behind by the exalted expert from the primeval times, he didn't take it seriously. From the ancient times until now, even some great figures had been unable to find it, let alone him.

“Don’t worry, that divine tree’s entire body is covered densely with restrictions. Every single step forward one takes upon it would cause one to suffer varying degrees of pressure and attacks. Even if it’s those Earthly Immortal Rank experts, it’s extremely difficult for them to ascend the peak of the divine tree, and coupled with the obstruction of those Emperor Ants, they might even be directly crushed and perish.” The tiny cauldron spoke calmly. “On the other hand, you’re different. You possess the Dark Parasol sapling, so those restrictions are useless against you, and you only need to be careful of those Earthly Immortal Realm experts and Emperor Ants.”

Chen Xi laughed bitterly because the tiny cauldron had spoken too lightly about it. Even if it was those Emperor Ants and Earthly Immortal Realm experts, any random one amongst them was absolutely not someone he could go against.

“I’ll help you if it’s necessary.” The tiny cauldron finally gave Chen Xi an answer that allowed him to be at ease.

“Err, I don’t have to do something in exchange for your help?” Chen Xi scratched his head as he asked because he still remembered clearly that he had to pay a certain price in order to make the tiny cauldron assist him.

“There’s no need. It’s fine so long as we obtain the Chaotic Divine Crystal.” The tiny cauldron spoke very readily, and it didn’t put forward any requests.

This caused Chen Xi to feel slightly guilty, because he’d already obtained the Dark Parasol sapling from the tiny cauldron. Moreover, all along the way, it was all thanks to the tiny cauldron’s guidance that he was able to arrive here, so even though the tiny cauldron didn’t mind, how could he not feel grateful in his heart?

In next to no time, Chen Xi restrained his thoughts and circulated the aura of the Dark Parasol sapling as he transformed into a flowing wisp of light that flashed towards the towering divine tree that stood on the extremely distance plain.

Swish!

As expected of something formed from the stand of soul of the Dark Parasol Divine Tree, the Dark Parasol sapling was extraordinary and miraculous. The layer after layer of restrictions that enveloped this area instantly moved to the side upon sensing its aura, and they opened up a path for him.

Chen Xi flew within this path simply as if he was traversing even ground, and he didn’t suffer any obstruction or harm.

All along the way, he noticed that expanse after expanse of bone and magic treasure fragments were piled up all over this boundlessly vast plain.

Some bone fragments were even 300m long, mottled, and lusterless. They’d experienced the corrosion of countless years yet still hadn’t turned into powder that was blown away by the wind, causing them to seem very extraordinary.

“How terrifying! Those ought to have been left behind by those experts that have entered and perished here since ancient times, right?” Chen Xi gazed at the skeletons and magic treasure fragments that lay all over the ground, and numerous stirring and miserable scenes seemed to flash before his eyes.

In the past, numerous experts had experienced many hardships to arrive here. When they saw the divine tree that according to legend contained the mantle of the exalted expert, they felt uncontrollably excited and thought the heavens had shown providence, and they felt an enormous fortuitous encounter was within easy reach.

However, never had they imagined that this wasn't a place that contained fortuitous encounters as they'd thought, and it was a place of great danger instead. Before they could even approach, they'd been engulfed by the restrictions that enveloped every single inch of space here.

They howled with grief, struggled, and felt regret... But in the end, none of them survived and perished on the spot, transforming into a pile of bones that adorned this place to the point it seemed like a boneyard or grave.

Fortuitous encounters and treasure. Since the ancient time, how many people were actually able to obtain them? And who remembers exactly how many people have perished here? Chen Xi sighed lightly in his heart as he had a deeper feeling of how difficult cultivating was.

One has to fight the heavens, others, and even one's self. Fighting, fighting, and fighting, so how many people could still stand until now?

...

In next to no time, Chen Xi arrived silently beneath the divine tree and started climbing it.

Before him were countless layers of dense restrictions that overlapped each other and emanated a terrifying aura that was sufficient to make the face of anyone go pale. Ordinary cultivators would surely be instantly minced to death upon stepping foot into it, and there wouldn't even be the slightest room for survival.

Moreover, the higher he went, the denser the restrictions became. Not to mention a shortcut, there wasn't even a gap, so one could only rely on one's own strength and forcefully go up to step foot on the peak of the divine tree.

Swoosh!

But these restrictions that were covered in killing intent in the eyes of others were utterly ineffective to Chen Xi, and while he was enveloped by the aura emanated by the Dark Parasol sapling, he was like a fish that had entered deep into the sea. Everywhere he passed, the layer upon layer of restrictions seemed as if they only existed in name, and they were utterly incapable of affecting him in the slightest.

All of them caused him to move as if he was walking on even ground, and it was extremely easy.

But Chen Xi didn't dare be careless, and he carefully restrained his aura while approaching the peak of the divine tree.

This divine tree seemed like a mighty mountain that shot into the clouds. When one moved about within it, one was like an ant crawling on a large bridge, and one seemed to be extremely tiny and inconspicuous.

On the other hand, an exceedingly intense and fierce battle was going on at the middle of the divine tree. A group of Earthly Immortal Realm experts were in battle against numerous Emperor Ants, and

they erupted with boundless rays of lights and shook the heavens and the earth, causing it to be exceedingly terrifying.

Presently, Chen Xi didn't have to worry about the restrictions any longer, and he was only worried about those Earthly Immortal Realm experts and the Emperor Ants. If he were to be noticed by any one of them, the consequences would be unimaginable.

Fortunately, the tiny cauldron would make a move if necessary, and it caused him to be much more at ease. Otherwise, if he were to encounter a scene like this at a normal time, he'd have gone as far away from it as he could.

Because he wasn't at the same level as them, and he would only be courting death by going there.

In next to no time, Chen Xi arrived at the middle of the divine tree, and this place was the core of the chaotic battle between the Emperor Ants and Earthly Immortal Realm experts!

Rumble!

Immortal Energy rumbled as numerous mighty figures flickered about repeatedly. Emperor Ants roared furiously while Sword Insight shook the surroundings. All of them fought desperately, and the terrifying fluctuation caused by this completely drowned the middle of the divine tree.

Chen Xi's heart tightened, and he was practically suffocated. This fluctuation was too terrifying, so even though the layer upon layer of restriction on the divine tree had been eliminated, it still caused him to feel a chill run down his spine.

The thing that caused him to be speechless was due to the strength of the two parties in battle being too terrifying, the battle fluctuation caused by them actually blocked his path completely. In other words, he had to pass through this battlefield if he wanted to arrive at the peak of the divine tree!

What should I do? So long as I appear within the battlefield, I'll probably be noticed instantaneously... Chen Xi hid himself in the distance and frowned without end, and he was slightly hesitant about whether he should charge out directly.

Hmm. Chen Xi seemed to have noticed something abruptly. He stretched out his hand to pinch at a spot on his ear, and there was actually an ant in between his fingers. It was a very ordinary little ant that was completely shiny black. Not to mention him, even a child could smash it to death with their fingers.

"Even if ants live on without purpose, you just had to appear in such a dangerous place. The ignorant are truly fearless. Fortunately, you encountered me..." Chen Xi looked at the ant in his hand and felt slightly amused. He never imagined that he would actually encounter such a tiny and weak ant at such a miraculous place and the border of such a dangerous battlefield.

He shook his head, and then he placed this little fellow on the ground in the next moment before intending to leave. However, in the next moment, his entire body froze on the spot, and he revealed a wisp of disbelief on his face.

Right, this place is covered in layer upon layer of restrictions, and it has annihilated countless formidable existences since the ancient times. How could a tiny little ant actually remain unharmed?

Talisman Emperor

Chapter 674: Infuriating Earthly Immortal Realm Experts

A tiny and ordinary ant was actually able to remain unharmed within this layer upon layer of restrictions of annihilation!

This scene was too unbelievable. Even Chen Xi had relied on the might of the Dark Parasol sapling in order to safely step foot here, otherwise not to mention arriving before this divine tree, he would have been crushed into bits the moment he step foot into this area.

Most horrifying of it all was that he'd actually not noticed when this ant appeared on his ear!

After all, the strength of his current Divine Sense was comparable to an Earthly Immortal Realm expert, and he'd left cultivators at the Nether Transformation Realm far behind him since a long time ago. Any movements in the wind or grass within an area of 5,000km was unable to escape his detection.

Yet now, this tiny ant had suddenly appeared on him, so how could Chen Xi not be surprised?

Chen Xi took a deep breath and picked this ant up once more before carefully inspecting it. He noticed it was identical to the ants of the world. It was similarly shiny black and tiny without the slightest different, let alone compare with those Golden Emperor Ants. Both of them were utterly not on the same level.

"Strange, could it be that the restrictions here are ineffective against ordinary existences?" Chen Xi frowned and was extremely puzzled, and it was even to the extent he didn't pay attention to the shocking and fierce battle in the distance.

"Bring it along, because it's immensely useful for when you enter the Door of Profundity." Right at this moment, the tiny cauldron spoke abruptly with a calm voice, and it seemed to have already realized the existence of this ant since a long time ago.

"What!?" Chen Xi was greatly shocked. A tiny little ant is actually capable of being related to the Door of Profundity?

After that, he recovered from his shock. Since the tiny cauldron had said this, then this ant was surely extraordinary, and it was absolutely not something ordinary ants that he was familiar with could compare to.

"Alright, let me see exactly what miraculous effect you possess." Chen Xi raised his hand and place the ant on his shoulder, and he relaxed upon noticing the little fellow was extremely quiet and didn't move about randomly.

"Fellow Daoists, if we don't deal with these three animals swiftly, then not to mention obtaining the inheritance of that exalted expert, we wouldn't even have the fate to enter the Door of Profundity!" Within the battlefield, mighty figure that emitted an immortal radiance shouted out explosively, and it instantly drew Chen Xi's attention over.

At this moment, the battlefield had already entered into heated battle. Many of those ten plus Earthly Immortal Realm experts were injured, whereas those three Golden Emperor Ants were covered in injuries as well, yet they were still exceedingly ferocious as before.

If it was before, Chen Xi would absolutely not dare imagine that three Emperor Ants would actually be able to go head on against 10 plus Earthly Immortal Realm experts, because such a scene was too terrifying.

“Fellow Daoist Feng Xuanzi is right. Everyone, I think there’s no need for us to continue concealing our strengths. How about we utilize our trump cards together and annihilate these three animals in one go?”

“Alright!”

“That works.”

Feng Xuanzi’s suggestion quickly obtained the agreement of the other Earthly Immortal Realm experts. The bodies of these Earthly Immortal Realm experts instantly erupted with boundless rays of lights while Immortal Energy shot into the sky, and they were like numerous burning suns as their imposing auras rose greatly.

Bang! Bang! Bang!

Various dazzling and resplendent terrifying Dao Arts erupted like surging lava, and it instantly swept out with an extremely horrifying impetus. It shook the heavens and the earth in the surroundings and seemed to be on the verge of breaking the sky apart!

“How terrifying!” Chen Xi’s pupils constricted abruptly. Even though he was watching the battle from afar, he was still unable to refrain from feeling a wisp of horror.

If such an attack was released in the outside world, it would absolutely be sufficient to annihilate an entire kingdom!

In merely an instant, those three Golden Emperor Ants were crushed. They emitted howls that shook the heavens as they vanished while carrying their unwillingness, and not even a bit of them remained.

“How dangerous! This core area of the Divine Palace of Creation deserves its reputation as the graveyard that buried numerous experts. Merely the existence of these animals is an extreme headache.”

“Haha. Isn’t it a killjoy to speak of all this now? The important matter at hand is to search for the inheritance of the exalted expert while moving up.”

“Exactly, I’ve already sensed that the Door of Profundity will surely emerge into the world this time. Even if we’re unable to find the exalted expert’s inheritance, we can enter the Door of Profundity and try our luck!”

After they eliminated those three Emperor Ants in one ago, all the Earthly Immortal Realm experts roared with laughter while their spirits were refreshed. Being able to arrive here was rather difficult, and not that they only had to ascend the try before it would be very likely that they obtained an extremely great fortuitous encounter, even they who possessed such cultivations couldn’t help but feel a wisp of excitement.

Rumble!

However, before they could even make a move, a peerlessly vast strand of Sword Insight swiftly converged together. At this moment, this entire expanse of the heavens and the earth was filled with countless strange lights that gushed over from all directions.

It was like countless sword lights had been summoned, causing them to return to their source, and the entire heavens and the earth fluctuated violently with an exceedingly shocking impetus.

Om!

A wisp of golden Sword Insight shot into the sky. In the blink of an eye, it had appeared before those Earthly Immortal Realm cultivators before descending with a bang, causing golden lights to erupt and shake the entire divine tree to the point of trembling.

“Shit!”

“It’s actually another Emperor Ant!”

“Wait! This is probably an even more terrifying Emperor Ant. Merely its aura far exceeds those three Emperor Ants from before by more than a few times!”

When they saw the appearance of the attacker clearly, the expressions of all the Earthly Immortal Realm experts froze before darkening, and their eyes were filled with heavy expressions.

None of them had ever imagined that right after they killed those three Emperor Ants, it would actually draw out an even more formidable and terrifying Emperor Ant!

At this moment, Chen Xi had seen it clearly as well. Shockingly, it was a completely dark gold Emperor Ant that was over 3m long and had limbs that were strong as if they were made from steel!

Unlike the Emperor Ants he saw earlier, this Emperor Ant’s aura was even more terrifying. Its entire body emanated a form of supremely noble dignity, and when looking at it from afar, Chen Xi felt a tiny, horrifying, and powerless feeling.

It seemed as if he was the ant, whereas the Emperor Ant was a god that stood towering in the heavens and the earth while looking down proudly at the world of man.

Bang!

The battle erupted once more as expected. Unlike before, even though there were more than 10 Earthly Immortal Realm experts, but it was extremely strenuous for them to deal with this single Emperor Ant.

Even Chen Xi was able to perceive that they faintly revealed a trace of a sign of being on the verge of being suppressed.

Terrifying!

A single Emperor Ant with peerless Sword Insight suppressing over 10 Earthly Immortal Realm experts by itself yet still in an advantageous position and revealed matchless martial prowess. If this scene were to be seen by everyone in the outside world, it would surely shock a ton of jaws off.

“Seize the moment and go now!” The tiny cauldron’s voice suddenly resounded out in his heart, causing Chen Xi to instantly return to his senses. He took a deep breath and stopped considering if the path

ahead was dangerous, and he carefully moved around the battlefield according to the tiny cauldron's instructions and flashed up from the side.

Even then, when he arrived at the middle of the divine tree, he was still affected by the terrifying fluctuations of the battle, causing his entire body to feel as if a mountain was pressing down upon him, and his blood was on the verge of freezing.

Under these circumstances, not to mention flying, even taking a step forward was so difficult.

But Chen Xi couldn't care about all this and gritted his teeth as he persisted to move forward step by step, and he worked hard to leave this area that was enveloped by the fluctuations of the battle in a short amount of time.

"Hmm? There's actually a little fellow over there!" In the distance, a surprised and bewildered voice suddenly sounded out.

Chen Xi's heart instantly jerked as he knew this was bad. He never imagined that those Earthly Immortal Realm experts would actually still be able to notice him while in a fierce battle.

At this moment, he didn't dare hold back any longer nor did he continue to hide his tracks, and he moved forward with practically all his might and moved up step by step.

"A junior actually dares to seize the opportunity while we're drawing the attention of the Emperor Ant to approach the peak of the divine tree? How could there be such a good opportunity in this world? Leave your life behind!" An Earthly Immortal Realm expert shouted out explosively as he stretched out his hand and swung out an azure colored bolt of lightning.

Chen Xi was horrified in his heart as the hairs on his body stood on end. At this moment, he was affected by the fluctuations of the battle, causing it to be difficult for him to move, and he was utterly incapable of dodging swiftly.

At this instant, he placed his hopes on the tiny cauldron making a move, otherwise he would surely die without a doubt.

Rumble!

However, to his astonishment. From the beginning until the end, the tiny cauldron hadn't made a move, yet the attack of that Earthly Immortal Realm expert had been obstructed.

When he saw the being that had saved him in this time of danger, Chen Xi was stunned once again and revealed an expression of disbelief. It was actually the dark golden colored Emperor Ant!

Chen Xi stared his eyes wide open, and he dared to thump his chest and guarantee that he was absolutely not mistaken. It was that Emperor Ant that had lent him a hand earlier.

"Hmm? What's going on?" All of the Earthly Immortal Realm experts were astounded. Some refused to believe it was true and thought the Emperor Ant had accidentally saved Chen Xi's life.

So in the next moment, someone made a move against Chen Xi once again. But, the outcome was without exception, all the attacks were obstructed by the Emperor Ant and were unable to injure Chen Xi in the slightest.

At this moment, all of those Earthly Immortal Realm experts couldn't maintain their composure any longer. They'd fought so fiercely here, yet that kid actually obtained the assistance of the Emperor Ant. Isn't this too unjust?!

This scene angered them to the point they were on the verge of spitting blood. If Chen Xi didn't make an appearance, then it would be fine even if they fought to the death. But, he just had to appear and ascend the divine tree in such a relaxed manner, and this comparison caused these Earthly Immortal Realm experts to be on the verge of going mad.

This is unfair!

He's just an extremely weak junior, so why does he get such special treatment?

If it wasn't for them being aware that this scene didn't occur on a combat ring, nor was there any judge, they would surely stomp their feet and curse at Chen Xi for cheating.

Chen Xi heaved a long sigh of relief instead, and his heart finally returned to its place.

He was similarly unable to figure out why that Emperor Ant would be so protective of him, and it caused him to be extremely bewildered. In the end, he could only give credit for all of this to the Dark Parasol sapling.

At any rate, he'd relied on this divine object all along the way here, so it seemed like only...it was capable of doing all this, right?

After that, Chen Xi stopped thinking about it any longer and started moving. From the beginning until the end, he entirely never noticed that the tiny ant on his shoulder moved its feelers about towards the Emperor Ant that was in fierce battle, and it seemed to be signaling something and bidding farewell.

After a short moment, Chen Xi felt his entire body relax as he'd instantly left the envelopment of the battlefield, and then he immediately transformed into a flowing ray of light that charged towards the peak of the divine tree.

His speed was extraordinarily swift, and he vanished in the blink of an eye.

"This... This junior is actually unaffected by the restrictions!?" When they saw this scene, all those Earthly Immortal Realm experts were shocked to the point their eyeballs almost fell out.

After all, they'd suffered the effect of layer after layer of restrictions since the base of the divine tree, causing it to be difficult for them to make a single step, and they'd exhausted a great deal of effort to arrive here.

On the other hand, Chen Xi had actually charged up onto the divine tree instantaneously and vanished. Moreover, from the beginning until the end, he'd utterly not triggered any restrictions, so how could they accept this?

The heavens are unjust!

The Earthly Immortal Realm experts roared in their hearts, and they felt both envious and disgruntled. The thing that caused them the most grief and indignation was that up until now, the damnable Emperor Ant lay across their path and obstructed their advancing footsteps.

Talisman Emperor

Chapter 675: The Door of Profundity

The magnificent divine tree stood towering in the heavens and the earth, and its crown seemed to have stretched outside of the nine heavens.

After he left that area where the fierce battle was being carried out, Chen Xi flashed madly all along the way while crying loudly about how fortunate he was in his heart. He never imagined that at the critical moment and before the tiny cauldron could make a move, that Emperor Ant would already assist him in dealing with the numerous dangers that approached him.

“Emperor Ant, no matter if it you did it intentionally or not. If I have the chance, I, Chen Xi, will surely repay you.” As he flew, Chen Xi turned around and glanced downwards, and he spoke seriously in his heart.

He sincerely hoped that the Emperor Ant would be fine. As for those Earthly Immortal Realm experts, he didn’t care even if all of them died. After all, if it wasn’t for the assistance of the Emperor Ant earlier, he would have almost been blasted to death by those old farts!

Bang!

Suddenly, a tremor stretched out from the sky above the crown of the tree, and it emitted an extremely terrifying tune of the Dao. It was like the heavens and the earth were being split apart once more, and space erupted with boundless lights.

“The Door of Profundity is about to appear!” The tiny cauldron roared with a voice that carried an indescribable feeling of excitement.

Chen Xi was shocked and hurriedly charged out explosively.

At this moment, the sky above the crown of the tree was already filled with dazzling light while a grand and marvelous door had opened there. Flowers fluttered down from the sky as divine radiances filled the surroundings, and auspicious glows rained down like a rain of light, causing it to seem divine and brilliant.

The sounds of the gods chanting and the wonderful tune of the Grand Dao being recited sounded out from within the door and shook the surroundings as it stretched out into the nine heavens, causing this entire area to fall into a peaceful and tranquil atmosphere.

This sort of phenomena was practically akin to the door of the Immortal Dimension opening up with the intention of receiving and leading a fated person from the realm of mortals.

In an instant, all the restrictions in this area dispersed without a trace like a receding tide. Every single inch of space was suffused with a profound aura that was peaceful and tranquil, causing it to seem like a paradise in the realm of mortals that was untainted by the aura of bloody and battle.

...

All the Earthly Immortal Realm experts at the middle of the divine tree sensed this change, causing them to inadvertently glance towards the sky above them out of the corners of their eyes, and their bodies instantly stiffened as they revealed fervent expressions.

“The Door of Profundity!”

“The most sacred secret realm within the Dark Parasol’s Abyss according to rumor has finally emerged!”

“A shocking secret treasure that aroused the covetous intentions of the gods of the three dimensions is hidden within it!”

All of them exclaimed with shock while they felt indescribably excited in their hearts, and they seemed as if they’d seen a door that contained boundless fortune open before their eyes!

Since the primeval times until now, the Dark Parasol’s Abyss had only appeared four times. But during the first four times, no one was able to lay their eyes on the Door of Profundity. Because from the beginning until the end, it had never emerged into the world, and it remained like a superficial legend that aroused the suspicion of others about whether the Door of Profundity actually existed in this world.

But even then, it was still like a magnificent dream that drew over countless experts to explore the Dark Parasol’s Abyss, and the skeletons and corpses that covered the ground was the proof of all this.

The lives of the many pave the way for the fated. The existence of the Door of Profundity had caused countless experts to perish on the spot, and until the moment of their death, they’d never seen a trace of the true appearance of the Door of Profundity.

Yet now, this door that seemed to only exist in legend had finally emerged into the world, and it had really entered into their fields of vision, causing these Earthly Immortal Realm experts to feel as if they were dreaming.

All of this had happened to quickly and too abruptly, and it was simply like an unexpected pleasant surprise bestowed by the heavens! The thing that overjoyed them the most was the damnable Emperor Ant had actually vanished strangely once the Door of Profundity appeared.

With such a formidable and troublesome opponent gone and the layer upon layer of restrictions on the entire divine tree vanished without a trace, this caused them to have the impulse to cry. The heavens...have finally opened its eyes for once!

“Shit! That junior has probably already arrived at the Door of Profundity a long time ago!” Someone spoke abruptly, and it caused all the other Earthly Immortal Realm experts to wake up from their fervent joy.

“Let’s go! We must not let that junior off this time!” When Chen Xi was mentioned, all these Earthly Immortal Realm experts gnashed their teeth and spoke with tones that revealed resentment.

All of them stopped dallying right away, and they charged towards the crown of the tree.

...

Divine light flowed as the tune of the Dao was emanated in waves. The door that had floated into appearance above the crown of the tree was divine and brilliant.

In next to no time, Chen Xi had arrived above the crown of the tree, and when he looked at it from close distance, he was even able to see that there was an exceedingly grand hall within the door. The hall

emitted blazing divine radiance and was enveloped in surging chaotic qi, and it was vast and magnificent to the extreme as if it wasn't something the realm of mortals could possess.

This is the Door of Profundity?

Chen Xi's heart burned as well, and he was filled with boundless anticipation.

Swoosh! Swoosh!

However, before he could charge into the Door of Profundity, two extremely mysterious shadows suddenly appeared out of thin air, and they were like arrows that had left the bow and charged swiftly into the Door of Profundity before vanishing without a trace.

The entire process occurred too swiftly to the point ordinary cultivators would only think they were seeing things.

But Chen Xi knew clearly that this was real!

In other words, there were people that had already arrived at the crown of the tree even before him and those Earthly Immortal Realm experts, and they silently lay in hiding here while waiting for the Door of Profundity to appear.

"Xeno-race experts from outside the three dimensions!" The tiny cauldron spoke with a murderous and icy cold voice, and it didn't conceal its extreme detest in the slightest. "Quickly charge into the Door of Profundity, we must not allow them to succeed!"

"Xeno-race experts, it really is them!" Chen Xi instantly realized the severity of the situation, so how could he dare hesitate in the slightest? In the next moment, he flashed out and charged into the divine and brilliant door before vanishing without a trace.

Not long after he left, all the Earthly Immortal Realm experts had already arrived here, and they didn't hesitate to charge in as well. At this moment, even if the door was filled with killing intent, they wouldn't hesitate in the slightest to risk their lives.

After all, it was the Door of Profundity!

...

This was a grand hall that seemed to have been constructed within the starry sky in the universe. The top of the hall was actually filled with a myriad of dazzling stars, while the bottom was covered in an expanse of chaotic qi that suffused the entire hall.

It was truly too grand, vast, and magnificent, like the resting place of the gods, and it formed a chaotic world of its own.

A divine tree that was suffused with a divine radiance was rooted at the front of the hall, causing it to seem as if it was enveloped by the milky way. Its branches were shiny silver and flowed with strands of the aura of the Dao, whereas, its leaves were completely round like numerous stars that hung on its branches, and they emanated a silver brilliance that sprinkled down like a flowing rain of light.

The entire divine tree was only a little over 3m tall, thick like a bowl, causing it to seem pure and slender.

However, when looked at from afar, it caused others to arouse the misconception that this tree was like the backbone of the universe. Its branches were like the milky way that stretched across the universe, whereas, its leaves were like numerous stars that circulated ceaselessly, and it seemed to envelop everything in the world!

“Eh? This is the appearance of the Dark Parasol Divine Tree during the primeval times?” Xuan Chen was astounded because he’d seen this divine tree as soon as he entered the hall with Xuan Kui.

The Dark Parasol Divine Tree of the primeval times was a bridge that connected the Immortal Dimension with the Mortal Dimension, and it looked down upon the world and the realm of mortals. The aura emanated from this divine tree did indeed cause Xuan Chen to sense a vast divine might and peerless imposing aura.

It was even to the extent that with his arrogance and conceit, he couldn’t refrain from having a wisp of awe arising within his heart.

A long period of time has passed. Landscapes have changed, and generations have passed by. This Dark Parasol Divine Tree ought to not exist any longer, so how could it appear here?

“Hmph! You’re only a phantom, yet you actually dare to throw my mind into disorder!” After that, Xuan Chen suddenly came to his senses, and he flicked his sleeve as he slashed out with a pitch black and strange beam of light that emanated an obscure and cold aura.

Swish!

The divine tree that was suffused with divine brilliance was shattered into pieces like a shadow, and it actually vanished, causing the empty hall to recover its peace once more.

“Be careful. The Lord instructed that every single step within the Door of Profundity moves to another dimension as there’s a terrifying restriction called the Dimensional Maze present here. Once one takes a wrong step, even a saint would be lost within the restriction!” The nearby Xuan Kui warned with a serious voice.

“I know.” Xuan Chen nodded and didn’t dare take it lightly. He could look down upon the experts of the various powers that had entered the Dark Parasol’s Abyss this time, yet he didn’t dare look down upon a saint.

Even though he wasn’t a member of the three dimensions, he’d still heard much about how terrifying the saints of the three dimensions were. Since even saints would get lost within it, then how could he dare take it lightly?

“Let’s begin. According to the Lord’s guidance, that thing ought to be hidden in the deepest depths of this place. So long as we find it, our assignment would be considered to have been completed perfectly.” As soon as Xuan Kui finished speaking, she took out a copper mirror that was suffused with a metallic sheen before facing it towards the distance. Instantly, a strand of profound light was emitted from it, and it stretched continuously towards the depths of the hall.

“Let’s go!” In the next moment, the both of them swiftly flashed forward according to the direction that strand of profound light pointed towards.

Swish! Not long after the two of them left, a circle of ripples suddenly suffused the sky as a tall figure swiftly appeared at the location they were at previously. It was precisely Chen Xi.

He looked towards the place they vanished and said with a serious expression, “Senior, is the strength of these two Xeno-race experts really that strong?”

He’d arrived here silently with the assistance of the tiny cauldron since a long time ago, and he’d heard the conversation between Xuan Chen and Xuan Kui. Moreover, the tiny cauldron told him that these two Xeno-race experts actually possessed strengths that weren’t inferior to Heavenly Immortals!

This caused him to feel that the matter was extremely difficult. A Heavenly Immortal was an existence that was even more formidable than an Earthly Immortal, and this pair of young male and female Xeno-race experts actually possessed such a formidable strength like this, so even he felt it to be unbelievable.

“There’s no need to be too worried. They’re at most capable of exerting a strength at the Earthly Immortal Realm because they would be noticed by the Laws of the Heaven Dao that envelops the three dimensions if they utilized a strength more formidable than that. To them, that’s a calamity that’s impossible to escape.” The tiny cauldron instructed. “You just have to act according to my instructions and search for that Chaotic Divine Crystal and leave the rest to me.”

Chen Xi nodded. He knew this wasn’t the time to strive to be superior, and it was better to act according to what the tiny cauldron said.

After that, he suddenly thought of something and asked. “They wouldn’t have come for the Chaotic Divine Crystal as well, right?”

“I suspected that as well in the beginning, but now I can be sure that they have other intentions. After all, this is the Door of Profundity that was formed from the quintessence of the Dark Parasol Divine Tree, and it stored numerous mysterious things. The Chaotic Divine Crystal is only one of them.” When it spoke up to here, the tiny cauldron’s tone suddenly became cold and ghastly. “But no matter what, and no matter what they intend, we must not allow them to succeed!”

“Then let’s begin!” Chen Xi’s expression turned firm as he really agreed with the tiny cauldron’s words. The Xeno-race Experts had always been the mortal enemy of all the living beings in the three dimensions since the ancient times, so he would absolutely not stand idly by at a time like this.

After all, those that aren’t from the same place would certainly have malicious intentions!

[Talisman Emperor](#)

Chapter 676: Dimensional Maze

What exactly was at the deepest depths of this grand hall that existed within the Door of Profundity?

What had those two Xeno-race experts come here to search for?

Chen Xi didn’t know. He only knew clearly that all he had to do was act according to the directions of the tiny cauldron.

However, before he could make a move, a shadow flashed before his eyes, and a divine tree that was suffused with divine radiance actually appeared once more in midair before rooting itself there once more!

Its trunk was ramrod straight like the backbone of the universe, its branches were silver and shiny like the milky way that lay across the universe, and its leaves were completely round and just happened to be like numerous stars that hung at the end of the branches while spraying down silver radiance and a flowing rain of light, causing it to seem miraculous and extraordinary.

Presently, Chen Xi was already aware that this ought to be the original appearance of the Dark Parasol Divine Tree during the primeval times, but it seemed to be even more slender and pure. The tree was only 3km tall, and it was far from being sufficient to connect the Immortal Dimension and the Immortal Dimension.

However, the aura it emitted was so grand, and it emanated peerless divine might. It seemed to have gathered everything in the world to become the one and only backbone of the universe, causing others to feel a tiny and reverent feeling before it and wish for nothing more than to kneel down in worship.

But Chen Xi knew that this was only an illusory shadow and not a real object. Earlier, that male Xenorace expert had shattered it with a flick of his sleeve, so Chen Xi naturally wouldn't take it seriously.

"Take it!" The tiny cauldron spoke abruptly.

"What?" Chen Xi was astounded. This is a shadow, so how do I take it?

"If there's a shadow, there's naturally a real object. Otherwise, where did the shadow come from? Quickly circulate that strand of the Dark Parasol's soul within your body and sense carefully. Perhaps you'll be able to obtain a piece of the Dark Parasol Divine Tree's Grand Dao quintessence. Its value is so great that Grand Dao Fragments are absolutely incapable of comparing with it." The tiny cauldron explained swiftly.

Chen Xi's heart shook as he hurriedly circulated his Blackhole World to emanate the strength of the Dark Parasol sapling. After a long time, his eyes lit up, and he felt extremely excited in his heart.

Sure enough, he'd already sensed that a divine tree that was suffused with a divine radiance was surprisingly rooted within a mysterious space in the distance, and it was exactly similar in appearance to the divine tree he saw before his eyes.

Swish!

In the next moment, it seemed to have noticed the aura of the Dark Parasol sapling within Chen Xi's body, causing space to tremble as the divine tree in that mysterious space flashed before it appeared before Chen Xi.

Unlike the shadow he'd seen earlier, this divine tree really did exist. No matter if it was its branches or leaves, all of them flowed with strands of the tune of the Dao while their veins were clearly visible. Even the aura it emitted was extremely vast and suffused the entire space while resounding with waves of the wonderful tune of the Grand Dao that seemed like the sound of nature.

“What a treasure! I actually sensed the Grand Dao auras of Yin, Yang, lightning, wind, and so on and so forth from within it!” Chen Xi exclaimed with admiration while his gaze burned.

If it was said that the Grand Dao Fragments he obtained in the Dark Parasol Secret Realm were numerous individual things, then the divine tree before him was a whole. It was formed from numerous Grand Dao fragments, and its value was so great that it simply exceeded the summed-up total of a variety of Grand Dao Fragments!

Strictly speaking, this divine tree couldn’t be considered to be a Grand Dao Fragment any longer, but a strand of the quintessence energy of the Dark Parasol Divine Tree left behind by it after it perished. It contained the various profundities of the Dao the Dark Parasol Divine Tree had mastered, and if it was placed in the outside world, it was sufficient to make anyone kill for it.

Bang!

However, right when Chen Xi stretched out his hand to grab towards the divine tree, he felt the surrounding space tremble as a terrifying energy assaulted him like a bolt of flashing thunder.

This energy was extremely terrifying, and it caused him to feel horrified. He practically didn’t hesitate in the slightest to flash out and dodge to the side.

But unlike the past, his posture when dodging this time was extremely strange. His footsteps flashed repeatedly like a wriggling snake, yet his speed didn’t slow down in the slightest.

Rumble!

A Dao Art that was filled with clear azure light exploded at the place he was standing originally, causing waves of air to surge and stretch towards the surroundings while emitting a wave of sonic booms.

When Chen Xi saw the appearance of the person that launched a sneak attack against him clearly, Chen Xi face sank instantly while his gaze turned icy cold.

“Hmph! Kid, is such a divine thing something you can have a share in?” A cold shout sounded out, and then over 10 tall figures appeared, and they looked at Chen Xi with gazes that revealed a wisp of resentment and killing intent without concealing it in the slightest.

Shockingly, they were those Earthly Immortal Realm experts that came from the various powers!

When facing such figures and a total of 10 plus at once, an ordinary Nether Transformation Realm cultivator would probably have been scared stiff since a long time ago and would flee as far as he could. After all, both parties were utterly not at the same level, and killing a Nether Transformation Realm cultivator was simply easier than squashing an ant to an Earthly Immortal Realm expert.

But Chen Xi didn’t flee, his expression was calm and didn’t even carry a trace of fear.

“Why aren’t you fleeing? Have you been scared out of your wits? That damnable Emperor Ant isn’t here to save you this time!” An Earthly Immortal Realm expert sneered while looking at Chen Xi with a gaze that was like cold lightning, and he spoke hatefully.

“Chen Xi?” Ancestor Ling Ya and Feng Xuanzi recognized Chen Xi with a single glance, and they were extremely surprised. Earlier, when they were fighting with the Emperor Ant, they’d already caught a whiff of something familiar from Chen Xi.

Up until this moment when they saw Chen Xi’s appearance clearly, they completely recognized him. This little fellow is actually that young man we saw in the Primeval Battlefield.

“Hehe! You really could have gone anywhere yet you just had to come here. Because of Yun Lansheng’s obstruction that day, you were allowed to escape calamity, you damnable little bastard! Let me see who can save you this time!” When Ancestor Ling Ya recalled those juniors of his Shang Clan that had been killed by Chen Xi, it felt as if a blazing flame was burning within his heart, and his gaunt and old face turned exceedingly ghastly.

Feng Xuanzi’s gaze flickered without end as well. That day in the Primeval Battlefield, he’d intentionally ignored the names of those disciples from the Darchu Dynasty during the announcement of the recruitment list because he received instructions from Bing Shitian.

Now that he that not only had this little fellow not died, the little fellow was healthy and well to the point of even being innumerable times stronger than that day, it caused him to be unable to help but feel a trace of astonishment.

After that, a wisp of killing intent gushed out into his heart. The enmity had already been sown, so if he were to allow this little fellow to continue growing, then the little fellow might become a great future trouble, so it was better for him to seize the opportunity and utterly annihilate Chen Xi now.

The other Earthly Immortal Realm experts noticed their unusual expressions and undisguised killing intent, causing them to be extremely surprise in their hearts yet none of them asked.

He’s only a little ant at the Nether Transformation Realm! He was allowed to escape a calamity before, but he can’t be let off again this time!

In merely an instant, the atmosphere became murderous, and the air was suffused with killing intent that caused one’s heart to tremble.

On the other hand, those other Earthly Immortal Realm experts looked at Chen Xi with gazes as if they were staring at an ant that was about to die, and their gazes were piercingly cold like ice and even carried a wisp of contempt from being superior.

However, right at this exceedingly critical moment, Chen Xi suddenly started laughing and even warned kindly. “Old Farts, this place is the Door of Profundity, and it’s covered densely in restrictions. Taking a single wrong step would move you far away even though it’s only a step apart, and you wouldn’t be able to find the way out any longer. All of you are already a bag of bones, so it’s best not to be impulsive like young people.”

Old Farts?

Bags of bones?

When they heard such malicious words, it instantly caused the eyelids of these Earthly Immortal Realm experts to twitch while veins bulged out on their forehead. This little bastard actually dared curse at us like this!?

Is he asking for death?

In the entire Dark Reverie, which bastard would dare insult us like this?

“Bastard! Die!” An Earthly Immortal Realm expert couldn’t restrain the flames of his rage, and he shouted out coldly as he took a step forward before raising his hand to cause an exceedingly thick and large flaming bolt of lightning to strike down fiercely at Chen Xi.

All the other Earthly Immortal Realm experts revealed sneers when they saw him make a move, and they seemed as if they were waiting to watch the show.

However, in the next moment, their expressions froze on their faces before seeming as if they’d seen a ghost. The cold shout was still reverberating in the surroundings yet that Earthly Immortal Realm expert that made a move had actually weirdly vanished without a trace!

Even that flaming bolt of lightning he struck out had vanished without a trace along with him, and it didn’t even cause a ripple. It vanished without emitting a sound and without the slightest trace.

This is...

All the Earthly Immortal Realm experts were dumbstruck because an expert that had lived for countless years, gone through innumerable dangers, experienced numerous battles, and possessed exceedingly abundant experience had actually vanished without a trace after taking a single step!?

“I told you, you’re all bags of bones that are already one foot in the coffin, yet you still act so rashly. Aren’t all of you courting death?” The distant Chen Xi started laughing instead.

Earlier, the reason his posture was so strange when he encountered a surprise attack and dodged was precisely for the sake of dodging the various terrifying restrictions that filled the surroundings.

It was just as he said, if one took a single wrong step here, then one would be moved far away even if one only took a single step, and one would become completely lost within the restriction. Moreover, even a saint was incapable of escaping this restriction.

Those Earthly Immortal Realm experts instantly recovered from their shock, and when they saw Chen Xi still dared to make sarcastic remarks, they wished for nothing more than to fiercely strike their fists on Chen Xi’s detestable smiling face.

But when they recalled what happened to that Earthly Immortal Realm expert, they instantly started hesitating. Could it be that it’s really as the little bastard said? Every single step of space is covered in restrictions? A single wrong step would cause us to be moved far away even if we only took a single step, and it would cause us to be completely lost within the restriction?

But this is too fucking detestable!

Their enemy was clearly right before their eyes, yet it just so happened that they were unable to come into contact with their enemy nor hit their enemy, so how could this not cause them to be aggrieved?

Some Earthly Immortal Realm experts refused to believe this, and they stood on the spot while executing formidable Dao Arts that struck towards Chen Xi. But, at the instant these Dao Arts were executed, they instantly vanished without a trace.

At this moment, all of these Earthly Immortal Realm experts immediately understood that all of this was real. This place looked to be close, yet they seemed as if they were separated by an extremely far distance, and it was exceedingly strange.

“Could it be that this is the supreme restriction of legend that’s capable of trapping a saint to death... The Dimensional Maze?” Someone seemed to have realized something and suddenly went pale because the strange scenes before his eyes were simply exactly similar to this legend!

The other Earthly Immortal Realm experts seemed to have recalled it as well, and their faces sank right away. The Dimensional Maze caused a single step to be like traversing a world. Once one fell into this supreme restriction, the chances of finding the way back was extremely tiny because it was a restriction that even saints were unable to escape from!

No one had imagined that such a formidable thing would actually be buried within the Door of Profundity, and it simply contained killing intent with every step.

“Haha, all of you finally admit you’re a bag of bones? All of you don’t even have the courage to take a step forward, and I would rather slit my throat if I were all of you.” Chen Xi roared with laughter as he gestured with his hand and grabbed the divine tree that was suffused with a divine radiance in his palm, and then he turned around and headed in the hall. “Old Farts, excuse me for not accompanying all of you!”

His voice was still drifting through the air, yet he’d already vanished.

Being mocked and ridiculed by Chen Xi right in front of their faces yet being helpless to annihilate Chen Xi caused these Earthly Immortal Realm experts to be on the verge of spitting blood.

Bastard!

He’s simply a bastard!

He had the assistance of the Emperor Ant last time, and he occupied a favorable position this time instead, allowing him to escape calamity once more. The heavens...are unfair!

[Talisman Emperor](#)

Chapter 677: Divine Medicine and Treasures

All the Earthly Immortal Realm experts felt a mix of resentment and hatred, but they were helpless and felt exceedingly aggrieved.

But at the same time, they had to admit that Chen Xi was indeed someone with great karmic luck as he was able to obtain a variety of protection wherever he went, and even the supreme restriction, Dimensional Maze, that even saints would turn pale at the sight of was unable to do anything to him.

Such fortune was something even they couldn’t help but envy.

“Fellow Daoists, calm your anger. I’ve utilized a secret technique and sacrificed 1,000 years of my lifespan to execute a soul branding technique and have locked onto this kid. We just have to follow along the path he took, and we’ll be able to catch up to and kill him!” Suddenly, a wisp of a cruel expression suffused Ancestor Ling Ya’s gaunt face, and he said gloomily, “Doesn’t this kid receive protection at every corner? We’ll make him open up the way for us while we follow behind, and perhaps we’ll even be able to find that shocking secret treasure!”

“Haha! How courageous of you, Fellow Daoist Ling Ya!”

“Fellow Daoist Ling Ya, if we’re able to locate that enormous fortune this time, we’ll surely not let you suffer a loss!”

“I’m ashamed, so ashamed. All of us has been angered by that bastard kid to the point of losing our heads, and only Fellow Daoist Ling Ya thought it through. It’s truly admirable.”

The spirits of the other Earthly Immortal Realm experts were refreshed when they heard this, and they smiled to Ancestor Ling Ya.

Ling Ya roared with laughter as well, but he sneered endlessly in his heart. Once we find that shocking secret treasure, would all you old goats allow me to take sole possession of it? Even the words of ghosts can be trusted, but not all of you!

...

Swoosh!

Chen Xi’s figure flashed swiftly towards the depths of the hall. Under the guidance of the tiny cauldron, every single step he took would step on a ‘safe point’ of the Dimensional Maze.

In this way, he didn’t have to worry about going the wrong way and being completely lost within the restriction.

This hall that existed within the Door of Profundity was very vast, boundlessly deep. It was filled with all sorts of bizarre scenes and mysterious and unfathomable areas.

Some areas surged with the aura of treasures and seemed to contain precious treasures.

Some areas were suffused with strands of refreshing fragrance, and it seemed like a herb garden filled with divine medicine was present there.

Some even emitted waves of howls that were like the furious roars of Fiendgods and howls of beasts. They were terrifying and caused it to seem like an area that was filled with ferocious beasts.

Chen Xi had seen numerous areas like these all along the way, and they were extremely mysterious and seemed like numerous treasure troves. If it was any other person that had come here, the person would have been unable to refrain himself from charging in one after the other.

But Chen Xi paid no attention to them and remained indifferent. According to what the tiny cauldron said, these mysterious areas were linked to some strange spaces. Perhaps they did indeed contain precious treasures, ancient spirit medicine, and mighty profound techniques... But once one entered

these places, one would surely miss the opportunity to obtain the shocking secret treasure that was the most precious in the Door of Profundity, and this was without exception.

As expected of the Door of Profundity, it contained boundless profundities that are unimaginable. Perhaps any single one of the secret realms within it would be sufficient to cause a mighty uproar... Chen Xi sighed emotionally in his heart while he moved forward. If it wasn't for the tiny cauldron's guidance, it would surely be impossible for him to resist such temptation, and he would have charged into one of the secret realms to search for treasure a long time ago.

"Have you finished refining it?" asked the tiny cauldron.

Chen Xi shook his head. The tiny cauldron was speaking about the divine tree that was suffused with a divine radiance. It was a strand of the quintessence energy of the Dark Parasol Divine Tree, and it had already transformed into a fist sized crystalline ball that he placed into the Buddha's Pagoda.

He'd tried earlier, yet even with the energy of the Dark Parasol sapling, it was extremely difficult to refine and absorb it in a short period of time, and he could only go into closed door cultivation for a period of time before gradually transforming it into a part of himself.

After all, the quintessence energy contained the force of numerous Grand Dao, and it was sufficient to be equivalent to the sum of numerous Grand Dao Fragments, so it was absolutely not something that could be refined and absorbed overnight.

Moreover, he'd already grasped some Dao Insights within it to a state of perfection, so absorbing them was undoubtedly an enormous waste. So it would be better to spend some time and extract these Dao Insights so that he could give them to Ling Bai, Huo Molei, and the others instead.

"Be careful. Those Earthly Immortal Realm experts left behind a brand on you. Even though you intend to draw them over and make them fight the Xeno-race experts instead, it's slightly dangerous in the end." The tiny cauldron reminded.

"I understand." Chen Xi smiled.

"We've arrived!" After a short moment, the tiny cauldron spoke, and its voice carried a rare wisp of trembling. "I sense the aura of a Chaotic Divine Crystal!"

Chen Xi was shocked in his heart as he raised his eyes to look over, and he saw an ancient sacrificial altar floating in the distant sky.

The sacrificial altar was as tall as a mountain and constructed from greyish brown rocks, causing it to seem extremely ancient and ordinary, and it didn't reveal a divine appearance. But it made others feel even more reverent and sense an aura that had shed all grandeur to return to simplicity.

The Grand Dao moved towards simplicity, and there was nothing showy about it as the Dao was natural. There was only a type of simply fusing with the heavens and the earth and everything within it, and it stood towering within the dusky universe.

When looked at from afar, it was like the sacrificial altar constructing by the ancestors of this world for the sake of offering sacrifice to the heavens, and it naturally carried an imposing aura that shook one's mind.

Especially shocking to Chen Xi was that the entire ancient sacrificial altar was covered in spirit medicine that flickered with divine lights which sprayed down like a rain of light, and they were surging with vital essence.

Some of these spirit medicines were even miraculous and actually seemed to have formed intelligence. They took the form of tiny light figures as they sat cross-legged on the branches while surrounded by a rain of light, and their expressions were solemn as if they were comprehending the Dao.

This didn't seem to be intentionally fostered, but these excellent and extraordinary spirit medicines were nurtured from the excellent spirit energy contained within the heavens and the earth here and the vital essence here that was too dense.

Chen Xi saw an Icestar Soul Herb that had gone extinct in the outside world a long time ago growing between the cracks of the rocks on the sacrificial altar. It was completely white and clear as if it was carved out from crystalline snow. Its leaves had tiny silver stellar veins that flowed with a silver brilliance, and they seemed like a pouring waterfall that was exceedingly gorgeous.

This was absolutely a divine medicine that could be utilized as an immortal material to refine an immortal pill, and due to it being extinct, such a divine medicine had become priceless long ago!

"Hide for now." The tiny cauldron suddenly spoke via voice transmission. "Those two Xeno-race experts are hiding in the surroundings of the sacrificial altar."

Chen Xi was shocked and returned to his senses before silently moving according to the tiny cauldron's instruction towards a remote corner at the other side of the sacrificial altar. At this moment, the tiny cauldron had already executed a technique that completely concealed his aura.

Unless it was someone that possessed something like the supreme Divine Ability, the Eye of Divine Truth, it would be utterly impossible for him to be noticed.

"We've missed so many secret realms all along the way. If we're unable to find that shocking secret treasure, then I'll surely make that kid wish he could die!"

"But it's strange that every single step that kid took actually avoided the killing intent within the Dimensional Maze. I on the other hand feel that we'll surely be able to obtain some precious treasures from this trip!"

"Eh! Everyone, look. That's..."

Right after Chen Xi had just concealed himself, a wave of talking sounded out, and then those Earthly Immortal Realm experts arrived in unison. When they saw the ancient sacrificial altar that was as tall as a mountain, all of their bodies shook while they revealed shocked and fervent expressions.

"There are so many spirit medicines! A divine medicine like the Icestar Soul Herb actually exists amongst them. I'll be entirely capable of refining a cauldron of Profound Clearjade Dao Pills and easily charge into the 9th level of the Earthly Immortal Realm!"

"It isn't just the Icestar Soul Herb, there's even the Dragonblood Flower, Nine-leaf Soulrestore Fruit... My god! These are all rare spirit medicines that have been extinct for a long time!"

“This is surely the most mysterious place in the Door of Profundity. Perhaps that shocking secret treasure is hidden on the ancient sacrificial altar.”

All of the Earthly Immortal Realm experts exclaimed with shock while revealing burning gazes. Once one was at their level of cultivation, it was difficult for ordinary spirit medicines of the world to move them, yet every single one of the spirit medicines they saw now were actually precious treasures they’d only dreamt of. So how could they not be surprised?

An Earthly Immortal Realm expert was unable to restrain his excitement and stretched out his hand to grab a spirit medicine.

Bang! However, right when he made a move, a stream that was like the tide descended abruptly and dissipated his entire attack, and the aftershock caused him to stagger backwards.

This scene instantly caused the hearts of everyone to jerk, and they sobered up from their burning greed.

That’s...

But when they saw the true appearance of the stream, they were instantly shocked in their hearts while even their breathing became heavy.

At this moment, there were a few divine objects floating on the sacrificial altar. All of them were coiled in divine light and flowing with Immortal Energy. They were respectively a fist sized black colored crystal, a damaged turtle shell, and a pitch black broken sword.

At the center of these divine treasures was a bronze pagoda that was extremely special. It was mottled with rust, carried dark black colored bloodstains, and possessed a mysterious and terrifying aura. It caused one’s heart to feel cold just from looking at it from afar.

Actually, besides its terrifying aura, this bronze pagoda didn’t have anything else special about it, and it was just mottled with rust and ordinary. It was even inferior to the other divine treasures by its side.

But the gazes of these Earthly Immortal Realm experts were extraordinarily discerning, and they noticed with a single glance that all of these divine treasures were precious treasures that were difficult to come by in the world. However, if it was in terms of the best, then it would be the bronze pagoda without a doubt.

The reason was extremely simple, the aura emanated by the bronze pagoda actually caused these Earthly Immortal Realm experts to feel a wisp of horror and uneasiness!

“Could it be that the heavens are showing favor and have specially bestowed such a great fortuitous encounter to all of us?”

“These are probably immortal treasures that shook the world during the primeval times. Merely this sort of aura is absolutely not something an ordinary Immortal Artifact can compare to!”

“Treasures, treasures!”

All these Earthly Immortal Realm experts were shocked, and their bodies trembled while they muttered excitedly. The sacrificial altar before their eyes was covered in divine medicine that had become extinct

a long time ago and displayed many immortal treasures that according to legend were from the primeval times, and this caused them to feel disbelief.

But in next to no time, they had a headache. These immortal treasures were too formidable and were protecting the sacrificial altar. They'd tried numerous times, yet not to mention these immortal treasures, they weren't even able to obtain a divine medicine.

A shocking treasure trove was clearly before their eyes, yet they could only look on helplessly. This sort of feeling was exceedingly complicated, and it caused these Earthly Immortal Realm experts to feel extremely depressed and anxious. There were so many shocking divine treasures that were difficult to come by right before their eyes, but they were unable to approach it, and this was too tormenting!

"Since the Door of Profundity has already emerged, it's surely prepared for someone who's fated. These precious treasures were left behind to be bestowed to people of the later ages. Otherwise, it would be impossible for us to arrive here..." All of the Earthly Immortal Realm experts wracked their brains to find a way to overcome this problem because they wouldn't leave just like this. Entering a mountain filled with treasures yet returning empty handed was simply intolerable!

On the other hand, at this moment, there were two pairs of icy cold eyes staring coldly at them from the space at the other side of the sacrificial altar.

Talisman Emperor

Chapter 678: Octopole Darklight

A mysterious and strange force had opened up a space in the sky at the side of the sacrificial altar, and the Xeno-race experts, Xuan Chen and Xuan Kui, were standing within this space at this moment.

"Is everything ready?" Xuan Chen's eyes were dim, cold, and cruel as he stared at the bronze pagoda on the distant sacrificial altar, and a wisp of indescribable excitement couldn't help but arise in his heart when he thought of everything the Lord had instructed him with.

"Wait a moment, it just lacks the final step." At the side, Xuan Kui held a silver blade that was curved like a snake as she lightly slit open her finger, and then a strand of deep blue colored blood actually flowed out and gradually entered into a piece of beast skin on the ground.

The beast skin was completely shiny black, its surface was glossy like water and branded with numerous strange and bizarre patterns that seemed like demons yet weren't demons, seemed like devils yet weren't devils, and they were like numerous savage infant mouths that were ceaselessly absorbing the deep blue blood that flowed out from Xuan Kui's finger.

Xuan Chen couldn't help but be slightly anxious when he saw this. This beast skin was handed over to them by the Lord. Supposedly, it was extracted from a formidable demon in the depths of the universe called the Soulsmite Beast.

The Soulsmite Beasts possessed a ferocious strength, and the weakest amongst them were comparable to an Earthly Immortal Realm expert. They formed packs as they wandered about the depths of the universe while feeding upon stars and meteoroids, and they loved torturing and killing the souls of various living beings the most. They were cruel, irritable, and extremely formidable.

The entire essence of this cruel creature was in its skin, and it contained various mysterious brands, causing it to be a supreme material to refine formation disks.

Presently, Xuan Kui was refining a formation called the Octopole Darklight. Once it was refined successfully, it was capable of annihilating enemies, yet most importantly, it was capable of eliminating various terrifying restrictions!

Their goal this time was the bronze pagoda on the sacrificial altar, and if they wanted to obtain it, then could only eliminate the terrifying restrictions that densely covered the surroundings first.

Om!

After 10 minutes had passed, Xue Kui's peerlessly beautiful face was completely pale from losing too much Blood Essence. But the effect was extremely obvious. At this instant, the best skin suddenly emanated circle after circle of mysterious ripples that were ghastly, cold, and caused one's soul to be unable to refrain from trembling.

"It's done. Now, we only need the blood of these natives of the three dimensions as sacrifice in order to bring forth the strongest might of the Octopole Darklight formation and utterly destroy the restrictions on that bronze pagoda." Xue Kui took a deep breath as she hurriedly consumed a bottle of medicinal pills, causing her pale countenance to recover greatly and become slightly rosy.

"Haha, talking about these natives of the three dimensions. It truly is laughable. I originally thought that they would be utterly incapable of stepping foot here with their natural endowments, yet never had I imagined that they would actually make their way here." Xuan Chen laughed lightly while a cruel and bloodthirsty arc appeared on the corners of his mouth. "But they've come in vain in the end, and they'll play the role of supplying sufficient blood for us. In this way, the assignment this time will absolutely be able to be completed easily."

"Right, there seems to have been another little fellow that had come over before we entered the Door of Profundity." Xuan Kui smiled, and then seemed to have thought of something, causing her to frown as she said, "Yet now, he has actually vanished without a trace. It's slightly strange."

"What's there to make a fuss about? He's only a little native at the Nether Transformation Realm. Even if he enters the Door of Profundity, it would be impossible for him to escape the restriction of the Dimension Maze. He's probably already completely lost within it right now." Xuan Chen shook his head, and his handsome face was covered in disdain and indifference.

"Alright, there's no time to waste, let's make a move right now!" Xuan Kui knew herself that she had been thinking a bit too much as a little fellow at the Nether Transformation Realm was utterly not worth mentioning.

"Alright!" Xuan Chen's eyes erupted with a cold glow that was bloodthirsty and ruthless.

...

At the other side, Chen Xi stood silently at a remote corner of the sacrificial altar. He'd already obtained the guidance of the tiny cauldron and knew that the two Xeno-race experts were hiding on the other side.

Even though their strengths were formidable, he wasn't afraid because there was no need for him to be too worried with the tiny cauldron present.

"Senior, is that the Chaotic Divine Crystal?" Chen Xi's gaze focused onto the fist sized black colored crystal on the sacrificial altar.

This crystal flowed with misty chaotic qi that was jet black, dazzling, and sprinkled down like a rain of light. It possessed a unique quintessence aura that seemed to come from the moment the heavens and the earth were split apart.

"Exactly. It's capable of recovering a small portion of my injuries, and it's a rather shocking treasure. Unfortunately, there are too few still remaining in the world, and within the Mortal Dimension, it can only be found in the Dark Parasol's Abyss," answered the tiny cauldron.

Since very long ago, Chen Xi knew that the tiny cauldron had suffered a heavy injury and required divine materials to repair itself. At that time in the Primeval Battlefield, it had once utilized the sacred object of the Violent Waterflame Apes, the Obliteration Tablet, to recover its injuries.

But when he heard that this Chaotic Divine Crystal that was like a divine treasure was actually only capable of recovering a small portion of the tiny cauldron's injuries, Chen Xi still couldn't help but be astounded in his heart. In his heart, the tiny cauldron had always been a practically all powerful existence that was mysterious and formidable, yet it actually had such a terrifying injury. Who gave it this heavy injury all those years ago?

"Hmm? That damaged turtle shell seems...seems...." Chen Xi inadvertently glanced out of the corners of his eyes, and when he saw the damaged turtle shell at the side of the Chaotic Divine Crystal, he couldn't help but be stunned, and he sensed a unique and familiar aura from it.

"A River Diagram fragment!" In next to no time, Chen Xi reacted to it, and that strand of familiar aura was precisely from the River Diagram fragments that he was so familiar with!

Once he realized this, a wisp of excitement couldn't help but suffuse Chen Xi's heart. Besides the three River Diagram fragments that floated within his sea of consciousness, he hadn't seen this thing for a very long time.

If he was able to take possession of this River Diagram fragment as well, then he would possess four pieces, and he would only lack the final piece of gather the complete River Diagram!

Of course, this wasn't the main point, the main point was that when he obtained a River Diagram fragment last, it was in Silken City. At that time, he clearly remembered that after he fused those three River Diagram fragments together, he grasped a supreme Divine Ability that shook the ages from it, the Eye of Divine Truth!

Now, if I'm able to gather four fragments, then what shocking inheritance would I be able to obtain from it?

Merely thinking about it caused Chen Xi to be filled with yearning.

The Chaotic Divine Crystal and River Diagram fragment. Then what shocking divine treasures are the broken sword and bronze pagoda that's mottled with rust? Chen Xi took a deep breath, and he obtained

an even deeper understanding about why the Door of Profundity would be chased after by so many people and cause all the great figures of the three dimensions to arouse covetous intentions. Any single one of the treasures within it was capable of causing a mighty uproar if placed in the outside world.

“Be careful. Those two Xeno-race experts are about to make a move. At that time, wait for them to break open the restrictions before you seize the opportunity to grab the Chaotic Divine Crystal.” The tiny cauldron reminded with a voice that was murderous and icy cold. “On the other hand, I’ll look for an opportunity to make a move against those two!”

“Alright!” Chen Xi took a deep breath and started to silently circulate his Blackhole World. His mind was empty while his will was completely concentrated, and he stared fixedly at the Chaotic Divine Crystal on the sacrificial altar.

Bang!

In the next moment, a beast skin suddenly flew out from the space at the side of the sacrificial altar before floating in midair, and then it surged with strands of dazzling and blazing profound light, causing it to seem like a river of stars that swept out towards the surroundings while emitting rumbling that shook the heavens.

In merely an instant, it actually enveloped the entire surroundings of the sacrificial altar!

[Talisman Emperor](#)

Chapter 679: Seizing Treasures

Swish!

The Octopole Darklight enveloped every single inch of space in the surroundings of the entire sacrificial altar.

This sort of strange dark light was weird and ghastly, yet filled with an extremely hot energy that seemed capable of melting the world and incinerating everything in the world into ash.

At the instant it appeared, it burned space to the point of emitting a wave of hissing sounds before space started to warp and roil violently. All the restrictions that originally enveloped the surroundings of the sacrificial altar were activated, causing them to erupt with a rumble. A surging airflow that was blazing and terrifying swept through the surroundings and caused the world to turn dim.

It was too terrifying!

The might of this formation was practically capable of crushing the sun, smashing the moon, and destroying the sky. It suddenly swept out and enveloped down, and it instantly caught those Earthly Immortal Realm experts off guard, causing them to dodge endlessly in a sorry state.

“This is?”

“Dammit! We’ve fallen into an ambush!”

“What a terrifying grand formation! This dark light is actually so vicious, and it even corrodes the flesh and soul!”

“Shit! This is the Darkflame Devil Light of the Darklight World that’s outside the three dimensions! The person that launched this attack is a Xeno-race expert!”

These Earthly Immortal Realm experts had lived for countless years and possessed wide knowledge from their age. They practically instantly discerned that this dark light grand formation that had appeared abruptly was actually a terrifying force that was solely possessed by a world outside the three dimensions!

In other words, they’d fallen into the ambush of Xeno-race experts!

How many years has it been since Xeno-race experts have made an appearance in the three dimensions? The last time they made an appearance was during the Primordial Era a million years ago, and it’s truly too far away from now. It’s far away to the point the three dimensions have practically forgotten the existence of these heretics.

However, now, at the depths of the Door of Profundity and before the sacrificial altar, Xeno-race experts had actually made an appearance once again. Could it be that the three dimensions are really about to enter a period of great chaos?

When they thought up to here, the expressions of all the Earthly Immortal Realm experts turned grim, and they couldn’t care about the numerous divine medicines and treasures on the sacrificial altar any longer. Immortal Energy rumbled around their bodies as they withdrew various terrifying magic treasures and Divine Abilities as they exerted all their strength to resist the terrifying dark light that corroded towards them from all direction.

Rumble!

Immortal Energy charged out like a shocking dragon swinging its tail, causing various blazing rays of light to collide with each other like numerous volcanoes colliding and erupting. They shook the heavens and the earth and caused space to be shattered before falling into an expanse of cause. It rather seemed like the descent of a calamity, and it was like the scene of the end of the world.

At this moment, when facing the ambush set up by the Xeno-race experts, all these Earthly Immortal Realm experts didn’t dare hold back in the slightest, and all of them executed their strongest abilities. All of their figures seemed mighty like gods as they stood towering in the heavens and the earth. Every single one of their attacks practically possessed the might to annihilate an entire city.

However, what caused their hearts to feel heavy was that this grand formation was actually terrifying to the extreme, and they were actually incapable of destroying it after gathering together the might of all 10 plus of them!

After all, with their collective strength and under the state that they exerted all their strength and put their lives on the line, even an immortal formation would be destroyed and crushed by them. But now, they were unable to do anything against this formation before them, so how could they not be shocked?

It was even to the extent that those exceedingly vicious dark lights became even more violent, and they formed into numerous strange phantoms that seemed like countless savage and bloodthirsty devils that encircled the Earthly Immortal Realm experts with the intention of feeding on their souls and drinking their blood.

At this moment, the hearts of those Earthly Immortal Realm experts fell to rock bottom as they felt the situation was very bad. They knew extremely clearly that if this were to continue that they would probably be unable to obtain the divine treasures and might even perish within the Door of Profundity.

“Dammit! When did these Xeno-race experts come here? How did they avoid the detection of the Laws of the Heaven Dao in the three dimensions?”

“It’s useless to speak about all this now. Fellow Daoists, the situation is extremely disadvantageous to us now, and it’s even to the extent that our lives are in danger. If we still don’t resist with all our strength, I’m afraid...”

“Kill! Let’s go all out! Even if we give up our lives, we must kill these Xeno-race bastards!”

“Kill!”

Under the stimulation of death, the eyes of all the Earthly Immortal Realm experts turned red as their beards fluttered with rage. They seemed as if they’d gone mad as they charged forward while roaring, and they carried a ruthless appearance as if they intended to risk their lives.

Sure enough, the Octopole Darklight grand formation started to shake violently under their desperate attacks. It shook while being on the verge of shattering, and it was about to be destroyed.

“Hmph! You group of bumpkins! You’ve entered my Octopole Darklight formation, yet still intend to live?”

However, before they could feel delighted, a ghastly and cold voice suddenly sounded out, and accompanying this voice was a male that wore a golden robe that appeared abruptly within the grand formation.

His figure was tall, his appearance was handsome, and his golden robe was embroidered with numerous strange and warped patterns that caused him to carry an even more strange and ghastly bearing.

Shockingly, this golden robed man was Xuan Chen. At the instant he appeared, he stretched out his white and long finger before swiping it in the sky, causing a wisp of pitch black and gloomy light that slash out.

This pitch black light was suffused with an obscure, terrifying, and icy cold aura that seemed capable of passing judgment on everything in the world. At the instant it appeared, it appeared before an Earthly Immortal Realm expert as if it had teleported, and then it swiped down lightly.

Spurt!

A head that was tainted with blood flew into the sky while a scarlet red fountain of blood sprayed out from his neck, and the Earthly Immortal Realm expert didn’t even let out a shrill cry before collapsing to the ground.

In merely a single strike, he’d actually annihilated an Earthly Immortal Realm expert!

Most horrifying of it all was that after this Earthly Immortal Realm expert died, his flesh, muscle, bones, and internal organs were completely incinerated into nothingness, whereas his blood gurgled out and

was entirely absorbed by the dark light within the grand formation instead. In only an instant, the might of this grand formation had actually risen greatly!

This scene almost terrified those Earthly Immortal Realm experts to the point their souls left their bodies. Never had they ever imagined that this Xeno-race expert that suddenly made an appearance would be so formidable and annihilate one of their companions with a single strike.

“Hahaha! Die! You natives of the three dimensions should have been rendered extinct countless years ago, and it’s already sufficiently benevolent that you’ve been allowed to live until now!” Xuan Chen roared with laughter, and his voice was vicious and bloodthirsty like a god of devils. “Now, allow me, Xuan Chen, to end your lives and utilize your flesh and blood as sacrifice for the Octopole Darklight formation!” As he spoke, he moved with footsteps that shook the sky, and his hands struck out with countless black and silent lights that seemed like eternal night. These lights drew upon the energy of the grand formation and fused with the might of the grand formation to utilize the might of the grand formation, and it directly assaulted those Earthly Immortal Realm experts.

“Fight with him to the death!” All of the Earthly Immortal Realm experts roared furiously while their eyes almost split apart. At this critical moment of life and death, how could they be willing to resign themselves to death?

Rumble!

The battle erupted once more as various violent lights covered everything here.

...

At the other side, under the tiny cauldron’s protection, Chen Xi didn’t suffer the attacks of the Octopole Darklight formation. At this moment, all his thoughts were converged onto the Chaotic Divine Crystal on the sacrificial altar.

Swoosh!

Right when Xuan Chen made an appearance and entered into battle with the Earthly Immortal Realm experts, he made a move as well. He executed the Wings of Disruption and swiftly flew onto the sacrificial altar before he stretched his hand out to grab the Chaotic Divine Crystal.

According to what the tiny cauldron said, only by obtaining the Chaotic Divine Crystal and consuming it would the tiny cauldron possess sufficient energy to completely put an end to these two Xeno-race experts. Otherwise, with its current state, it could only heavily injure them and be unable to make them leave their lives behind.

After all, even though these two Xeno-race experts could only be exerted to the level of the Earthly Immortal Realm, that was because they were affected by the Laws of the Heaven Dao in the three dimensions. Otherwise, if they were to erupt with their entire strengths, their strengths wouldn’t be inferior to Heavenly Immortals.

Bang! However, before Chen Xi could approach, an exceedingly terrifying and enormous force suddenly assaulted him from the side, and it shook him to the point he was blasted flying. The bones and tendons in his entire body ached intensely as if his body had fallen to pieces, and he suddenly spat out a mouthful of blood.

It was even to the extent that if he didn't possess the might of the tiny cauldron protecting him, merely this strike would be sufficient to take his life!

"Eh, a tiny Nether Transformation Realm cultivator is capable of withstanding a strike of mine?" A voice that was pleasing to the ear sounded out, and it revealed a wisp of surprise.

Chen Xi raised his eyes to glance over and saw a young woman in a golden robe who had a peerlessly beautiful appearance was suddenly standing at the side of the sacrificial altar. Shockingly, it was one of the Xeno-race experts!

A wisp of bitterness instantly suffused his heart. I really started off on the wrong foot. I was only a step away from success, yet never had I expected this obstacle would suddenly make an appearance.

"You little native, your cultivation is so low yet you're able to arrive within the Door of Profundity and appear at the side of the sacrificial altar while actually deceiving my senses. It's truly strange."

This woman was naturally Xuan Kui. She sized Chen Xi up with surprise, and her deep gaze seemed to intend to see through all Chen Xi's secrets.

"In my opinion, you Xeno-race people from outside the three dimensions appearing here is the true strange thing." Chen Xi took a deep breath as he secretly circulated his Blackhole World, causing the injuries on his entire body to swiftly recover to its original state.

Xuan Kui stated laughing yet disregarded the ridicule and detest in Chen Xi's words, and she glanced at the Chaotic Divine Crystal and said, "This object is a quintessence crystal from the chaos when the three dimensions hadn't been formed, it's a natural divine treasure. Your discerning ability can be considered to be not bad since you were able to select it from all these treasures."

Chen Xi puckered his lips and maintained his silences while he swiftly communicated with the tiny cauldron in his heart. "Senior, why don't we seize this opportunity? I'll distract her while you go obtain the Chaotic Divine Crystal yourself, and then put an end to the two of them."

"Are...you sure?" The tiny cauldron hesitated.

"How would I know if I don't try?" Chen Xi's voice revealed a wisp of firmness and resolution.

"Alright, so long as a breath remains in you, I'll surely rescue you back to life!" As soon as it finished speaking, the tiny cauldron swiftly transformed into a wisp of light that shot towards the Chaotic Divine Crystal.

"Hmm? You actually dare to play tricks under my nose?" Xuan Kui's eyes went cold as she flicked her sleeve towards the tiny cauldron with the intention of stopping and destroying it.

Om!

However, right at the instant she made a move, the damaged turtle shell that originally floated silently atop the sacrificial altar trembled abruptly before flying down as if it was summoned.

This scene couldn't help but cause Xuan Kui to be slightly stunned, and her movements slowed down slightly.

"I forgot to tell you. My objective was only this turtle shell." Chen Xi smiled lightly as he stretched out his hand with the intention of grabbing the damaged turtle shell.

At this moment, Xuan Kui couldn't care about stopping and destroying the tiny cauldron, and she stretched out her hand to strike out with a strange jet black light that flew right at Chen Xi.

She was already dazed by the scenes that had occurred before her, and she was unable to discern the truth within Chen Xi's words. But she knew very clearly that so long as she killed Chen Xi, everything would be resolved!

Bang!

Xuan Kui's strength was too terrifying, and her attacks seemed to have broken through the shackles of space a long time ago, causing it to be extraordinarily swift and terrifyingly mighty. Chen Xi didn't even have the time to react when he was blasted flying while his flesh split apart, innumerable injuries appeared on his body, and countless bones in his body were broken.

Merely a single strike had caused him to suffer a fatal heavy injury, and he was on the verge of death!

Chapter 680: Heavenly Suppression Pagoda

This woman was extremely terrifying, she possessed a peerlessly beautiful appearance, yet was icy cold and ruthless in personality, and coupled with her formidable strength, she was simply like a goddess of slaughter!

Since he started cultivating until now, Chen Xi had encountered many female opponents that were difficult to deal with, but it was the first time one was so formidable like Xuan Kui, to the point he was powerless to resist.

Her attack was executed casually, yet seemed as if it had broken through the boundaries of space and enveloped the surroundings, causing him to be unable to avoid or escape it. In the end, he was heavily injured and on the verge of death.

But the only thing that made Chen Xi feel slightly at ease was the tiny cauldron had seized this opportunity to obtain the Chaotic Divine Crystal and was refining it, so he believed it wouldn't be long before the tiny cauldron would be able to erupt with shocking divine might and crush these two Xeno-race experts.

However, the next scene caused his heart to fall to rock bottom because Xuan Kui didn't give him a chance to catch his breath at all, and she charge over towards him once more.

"A weak little native actually dares to play tricks on me? It'll be impossible to eliminate the hatred in my heart without burning your bones and scattering your ashes!" Xuan Kui grunted coldly. Her eyes were icy cold and filled with killing intent as she raised her hand with the intention of annihilating Chen Xi.

However, right at this critical moment, rumbling that shook the heavens resounded out abruptly, and then an extremely terrifying flow of air swept out towards the surroundings of the sacrificial altar, giving rise to a storm of dirt and surging baleful energy that threw the entire surroundings into chaos.

It felt as if a peerless expert had awoken from his deep slumber and stood up proudly while revealing a terrifying aura that was capable of shaking the nine heavens and the entire world.

“Hmm?” Xuan Kui’s eyes lit up.

“Hahaha! I’ve finally completely sacrificed all these natives to the Octopole Darklight formation. Xuan Kui, swiftly come help me break open this bronze pagoda!” Amidst the chaos, Xuan Chen’s icy cold and cruel voice sounded out, and it was filled with joy and complacency.

“Alright, I’m coming!” The corners of Xuan Kui’s mouth curled into a wisp of a smile, and she couldn’t be bothered to pay attention to Chen Xi any longer. She flicked her sleep and struck a jet black light out towards him before turning and leaving. As far as she was concerned, this strike was sufficient to annihilate Chen Xi.

After all, this weak little native was already on the verge of death, and it would be strange if this strike was unable to kill him.

Swoosh!

Unfortunately, Xuan Kui didn’t notice that at the instant the wisp of jet black light she struck out was about to arrive at the space between Chen Xi’s brows, a strand of shapeless sword light appeared abruptly and slashed down, and it crushed the jet black light with ease.

The entire process occurred in less than a millisecond, and it was swift to the point Chen Xi hadn’t even reacted to what had happened before that wisp of lethal jet black light had been completely disintegrated. From the beginning until the end, not even the slightest sound was emitted, it was silent like snow melting in water, and everything was so natural and calm.

But when Chen Xi who’d escaped death reacted to what had happened, he gasped instead because that wisp of sword light wasn’t executed by him nor was it the tiny cauldron, and it was someone else!

Who was it?

This person was actually capable of dealing with the strike so easily? That was the lethal strike of a Xenorace expert, and if it was an Earthly Immortal Realm expert resisting it, it would be impossible for them to achieve it with such ease!

Chen Xi was shocked, yet he didn’t notice anyone when he looked towards the surroundings.

But in next to no time, he couldn’t care about thinking about all this. He made great efforts to circulate the Shaman Energy in his entire body and repair the broken bones and injuries in his entire body. At the same time, he utilized the energy of his Blackhole World to regulate his internal circulation and quickly calm down his internal circulation that was on the verge of falling into disorder while nourishing his vitality that was on the brink of depletion.

That strike of Xuan Kui’s from before had almost taken his life. But fortunately, his body refinement cultivation was sufficiently strong. So long as his Soul Core wasn’t destroyed, he would be able to be reborn from a drop of blood and coupled with the assistance of the Dark Parasol sapling, his injuries were stabilized in practically a short moment and was quickly healing.

During this process, the tiny cauldron had flown back to him, and it was refining and absorbing the Chaotic Divine Crystal with all its might. Unfortunately, the damaged turtle shell had been stopped by Xuan Kui and seized away.

But Chen Xi wasn't worried because the tiny cauldron had already seized the Chaotic Divine Crystal back, and it wouldn't be long before it would be able to condense an even more terrifying strength to completely crush those two Xeno-race experts.

Presently, it was the scene occurring in the distance that caused him to be horrified.

Xuan Chen and Xuan Kui floated in midair there like two gods of devils with fluttering golden robes and long hair, and they struck out numerous profound and obscure seals towards the Octopole Darklight formation.

In next to no time, the grand formation erupted with a blazing bloody glow that seemed like a shocking dragon had started to roar and roll about violently, and then it actually condensed into a millstone sized bloody cloud in the end.

Obscure talisman markings surged on the bloody cloud while ghosts, ferocious beasts, evil spirits, skeletons, and various other phenomena flickered frequently within it, and it was suffused with a monstrous aura that caused the heavens and the earth to be thrown into a shade.

At the instant it appeared, the bronze pagoda that was mottled with rust had been smashed down.

Bang!

A bloody glow shot out explosively while emanating deafening rumbling, and waves of obscure and indescribable howling faintly sounded out from within it. It sounded bizarre and ghastly, and it was like the god the Xeno-race offered sacrifice to was roaring with fury.

The bronze pagoda trembled and seemed to have been infuriated, its body that was mottled with rust glowed with spraying out a myriad of profound talisman markings as it violently resisted the bloody cloud.

"You actually still dare to resist! Destroy!" Xuan Chen shouted out explosively as a wisp of madness flashed within his eyes, and then he spat out a mouthful of blue colored Blood Essence before pouring it into the Octopole Darklight formation, causing the bloody cloud's aura to rise steadily.

It became strenuous for the bronze pagoda, causing its entire body to emit cracking sounds of trembling, and it seemed to be on the verge of being destroyed, but its aura remained terrifying and emanated a resolute aura of refusing to yield even until death.

In the distance, Chen Xi was greatly shocked because he clearly discerned these two Xeno-race experts seemed to have not come here for the sake of obtaining the bronze pagoda but for the sake of completely destroying it!

What do they intend to do?

An existence like the bronze pagoda was an immortal treasure that had survived since the primeval times, and its value was much higher than the Immortal Artifacts in the world now. Even though it

looked to be mottled with rust and damaged, its divine might that remained eternal through the ages was something that other Immortal Artifacts were unable to compare to.

Even Chen Xi had discerned that even if Heavenly Immortals saw such an existence like the bronze pagoda, they would covet it to the point of fighting to the death to obtain it!

But these two Xeno-race experts seemed to want to utterly destroy it. What do they want to do this? Could it be that the existence of the bronze pagoda forms some sort of lethal threat to the Xeno-race?

Bang!

During the moment Chen Xi was pondering, the bronze pagoda was struck by the bloody cloud to the point of being blasted flying, causing numerous cracks to appear on its body that was mottled with rust, and it seemed to be on the very of shattering.

“Hahaha! Heavenly Suppression Pagoda, you were able to hide within the Door of Profundity, but for how long will you be able to hide? You had the audacity to suppress a Saint Emperor of my race all those years ago, yet did you even think that this day would come?” Xuan Chen roared with laughter than was filled with madness and complacency.

“Don’t talk nonsense and swiftly destroy it. The commotion created here is too great, and if it’s noticed by the Laws of the Heaven Dao of the three dimensions, then both of us will be unable to hide!” Xuan Kui’s expression was icy cold and resolute.

“Alright! We’ll accomplish it in one go and crush it!” Xuan Chen took a deep breath as a wisp of an extremely ruthless expression flashed within his eyes.

A wisp of burning anxiety arose in Chen Xi’s heart for no reason or rhyme when he saw this scene, and he seemed to have sensed that great chaos would ensue if the bronze pagoda was destroyed by the two Xeno-race experts.

“All those years ago, the gods led an expedition outside the three dimensions and crushed the 3,000 Xeno-race worlds, taking a myriad of lives and causing blood to spray throughout the universe, and it established the renowned and supreme reputation of my three dimensions. Now, two tiny little Xeno-race dare to come over and cause trouble, could it be that you’ve forgotten the lesson from all those years ago?” Right when Xuan Chen and Xuan Kui were about to make a move and utterly destroy the bronze pagoda, a voice that was filled with murderous coldness drifted out abruptly.

Chen Xi instantly heaved a sigh of relief as his entire body relaxed because the tiny cauldron had finally made a move, and it caused him to be filled with anticipation.

“Who is it!”

“Get the fuck out here!”

Xuan Chen and Xuan Kui were shocked, and their expression became gloomy.

“Who am I?” You’ll know after you die!” Accompanying this voice, a jade cauldron appeared out of thin air with a bang!

It was completely jade-like and crystalline while flowing with a divine radiance, and it flickered with divinity. The surroundings of the cauldron flowed with a thousand rays of light, a myriad of rays of auspicious glows, and surging profound divine markings. Moreover, the sound of the chanting of the gods sounded out faintly, causing it to possess an exalted aura that was vast, lofty, and encompassed everything in the world.

But regretfully, there was a gap at the mouth of the cauldron, causing this perfectness to have a law. However, even then, this jade cauldron was still formidable to the extreme, and it caused Xuan Kui and Xuan Chen to both sense a trace of an extremely dangerous aura.

Both their expressions turned grim right away because this jade cauldron was too terrifying, and merely the aura it emitted caused their hearts to tremble.

“Quickly! I’ll deal with it, and you crush the Heavenly Suppression Pagoda!” Xuan Chen shouted out explosively while his expression was completely serious, and he flashed out to pounce towards the tiny cauldron.

At the same time, Xuan Kui made a move as well. She arrived above the bloody cloud while her entire body flowed with boundless dark lights, and she poured her entire cultivation into the bloody cloud before it smashed down towards the bronze pagoda.

“No matter who you are, since you dare obstruct our plans, then you must die!” Xuan Chen roared explosively and gloomily while his arms shook, causing a myriad of strange and cold jet black lights to spray out explosively, and they condensed into an obscure and warped pattern that struck towards the tiny cauldron.

“Die!” The tiny cauldron lightly spat out a single word while emitting a strand of peerlessly vast divine radiance that swept out, and it seemed as if it had torn through space to arrive before Xuan Chen before fiercely smashing onto his body.

A muffled hiss resounded out before Xuan Chen’s entire body was crushed apart like a mass of paper, and his deep blue colored blood sprayed through the sky. He was actually killed on the spot with a single strike! Even if he knew since the beginning that the tiny cauldron’s divine might was invincible, Chen Xi still couldn’t help but feel deep shock when he saw this scene.

Formidable! Truly too formidable!

After all, Xuan Chen had relied on the Octopole Darklight formation to slaughter an entire 10 plus Earthly Immortal Realm experts! Yet now, he was actually crushed into pieces by a single strike from the tiny cauldron, and it was impossible to describe this shocking scene with words.

“Xuan Chen!” Xuan Kui’s pupils dilated as well when she saw this scene, and a wisp of astonishment appeared on her face. She didn’t dare believe that the jade cauldron that appeared suddenly actually possessed such terrifying strength.

But right after that, a wisp of resolution appeared on her peerlessly beautiful face, and she seemed to have made some sort of decision.

“Dark light of the Netherworld, take me as sacrifice and link up with the myriad of spirits. Transform all immortals and devils into ash, transform all evil into nothingness...” A string of obscure and unfathomable chanting echoed out from Xuan Kui’s mouth.

After that, Chen Xi saw her entire body actually started to burn up before transforming into a blazing dark light that flew into the bloody cloud.

Bang!

The bloody cloud expanded swiftly while turning dense to the point it seemed materials, and it roiled without end while strands of evil energy that seemed like a curse coiled out from within it.

Bang!

It directly crushed the bronze pagoda into pieces!
