

The Alpha's Plus Size Urban Human Mate

Chapter 21

Makahi POV:

This can't be happening how the hell did Summer end up pregnant. How the hell could it be my pup she's carrying? Listening to her tell me about a night I had no recollection of and one I would quickly dismiss if it weren't for the fact that I was indeed drunk most of those days because even though the evidence pointed to them been guilty Maka still felt that she was our mate and some part of me wanted to believe it. So getting drunk was the only way I could stop myself and Maka from taking over and going after Jilahni. I also remember the morning I came down stairs and she was in the kitchen I didn't care enough to question her, partly because I didn't want to hear her complain about me canceling on her yet again. so I basically grabbed a bite to eat and got to morning assignments for my guards. I briefly saw her rush out but paid it no mind. Could what she said be true? that I'm the father!? I couldn't be sure so I can't allow her or the pup to be harmed which it doesn't matter if I was the father or not I couldn't let her die.

Zane cleared his throat to get my attention because I was focused on Summer and the pup she carried she was sobbing uncontrollably and winced in pain when the guard jerked her back by the hair and Maka came forward instantly ready to protect her and the pup with his life. "Now that we have all that cleared up. The only way to save your pup's life is to mark my dear niece here which should be no problem since she was supposed to be your mate and Luna anyway." Zane finished shrugging dismissively. "Are you out of your mind if let her go now I'll make your death quick. Because if any one of you touch her or my pup will die slow." I snarled. "Now now alpha I'm trying to avoid killing you and my pregnant niece but if you refuse, honestly leave me no choice." Zane said as his claws lengthened and Summer begins to scream and fight the guards who were dragging her to Zane. "Damn it! STOP! What does it matter if I mated your niece why is it so important that I mate her what do you get out of our mating?" I snarled.

"Let's just say I believe a pup needs both parents." He shrugged. "Bullshit!" I snarled. "Whether you believe my motives or not is of no concern to me it doesn't change the fact that you have only 2 choices and you better make it quick because my mate was in the middle of having my step children." Zane said smiling trying to provoke me into attacking giving his guards more time to reach Ji'lahni who Montego mindlink me that she made it to the chopper but guards were heading their way. him and hunter were still at the exit waiting for me while Shadow was with Ji'lahni. Summer's screaming broke my focus as Zane raised his hand with his claws out coming down to swipe at Summer's exposed belly. "STOP I'LL DO IT!" I yelled.

Zane stopped just as the tip of his claws came so close to Summer's belly that I saw a little blood drip down her stomach. Turning to me with a triumphant smile "Smart choice son I didn't want to add a she wolf and a pup to my list of kills today. He said retracting his

claws. “Well send her to me.” “Please son don’t insult my intelligence again you don’t have time to play silly games. My guard here will bind your legs and then I’ll escort summer to you and once she is marked you’re both free to go. See simple right.” “How do I know you want double cross me once we try to leave.” “Why Alpha I’m offended am I not a man of my word?”. “You’re kidding right?” I snorted. “At this point you’re just gonna have to trust me, again you don’t have the time to waste tic toc times a wasting how much longer are you willing to have your pups without a hospital around remember Ji’lahni is human after all.” Just do it.” I snarled.

One of the guards holding Summer hurried towards me producing a roped obviously laced in the girls blood then dried out the guard had gloves on as he knelt to wrap the rope around my leg earning a growl from Maka he damn near jumped out of his skin which pleased Maka. The guard hurried away once the rope was secure the rope was burning into my skin but I refuse to give Zane the satisfaction of seeing a reaction. He grabbed summer by the hair and yanked her forward using her as a sheild. Which caused summer to cry out and stumbled, he just jerked her up right practically dragging her. My claws lengthen and my eyes changed to Maka and he growled. “Calm down Alpha she’s not hurt maybe a little bruised but not hurt.” Zane said as he shoved Summer in front of me pulling her hair back exposing her neck where my mark is supposed to go. Looking at Summer I could see the fear in her eyes and I felt sorry for her at that moment despite what she did her pup shouldn’t have to die because of it.

Looking at her neck Maka was resisting, he knew Summer wasn’t our mate and didn’t want to betray Ji’lahni, because when we mate Summer we lose Jilahni forever. “Come on Alpha we don’t have all day if you’ve changed your mind I could just rip her throat out right here.” Zane said extending his claws again. “But before he could reach her neck I grabbed her and sanked my teeth into her neck and felt the bond snap into place as Maka howled in sorrow as I felt the connection me and Jilahni pups flickered out replaced with the connection with Summers pups snap into place tears spilled from my eyes as I hear Maka’s deafing howls as he retreated in the back of my mind. Retracting my teeth and licking the wound close I let go of Summer and she dropped to the ground still sobbing as I looked up I see Zane and his men were gone they must have left as soon as I bit Summer, they didn’t need her to bite me back, just me biting her was enough to ensure that we were bonded. “Alpha you need to move your a*s! We have to get outta here.” Montego mindlinked. Snapping me out of my misery, I reached down and picked up Sumner turning to run towards the exit. Summer wrapped her arms around me and breathe in my scent and instantly calmed I had to fight the urge to bury my head in neck and breathe in her intoxicating scent the bond already growing stronger but strangely I still felt a pull to Ji’lahni even with Summer wearing my mark. I’m so screwed I just hope I can get Ji’lahni to understand and wait for me to find a way to undo the mates mark. But I already know this will not end well for any of us. Because I’m bringing the woman who caused all our problems with me and to make matters worse I will have to protect Summer from Ji’lahni and the girls because they’ve been waiting for the chance to kill Summer but now everything has changed and not in a good way.

Ji’lahni: POV

“Oh My God!” I screamed when I saw my cousins racing towards me I had about 5 minutes before another contraction hit so I am going to make the most of it. When we reached each other we cried and hugged each other and cried some more. Before Shawna slapped my arm.” Hey! Pregnant girl in labor here.” I said rubbing my arm. “Well you better be glad that’s all I did. Don’t you ever sacrifice yourself to save us until we tell you too.” Mina said crossing her arms looking at me angrily hers eyes watering up. “I’m so sorry I honestly thought I was dying and I knew yall would never let me do it if I told you. So I did what I had to do to make sure yall made it out. I’m the oldest so I have to protect yall.” I said as my eyes watered.

“OH cut the s**t you’re only 2 months older then me so down play that damn a*s card.” Shawna rolled her eyes. Lynn and Mina nodded in agreement. Just as another contraction hit. I screamed and my cousins quickly helped me onto the chopper all the guards on the chopper where all staring opened mouth at me as I screamed in pain I grabbed the guard closest to me by the hand and he yelped in pain trying to remove his hand from my grip I think I heard one of the others whispered “is his hand turning purple.” The pain was on 10 at this point and I reached out with my other hand to grabbed onto anything for leverage and they all scattered like roaches but one of them was to slow and I grabbed his hand just as the doc check my dilation. Only then did the contraction ease. “Well we are still in the beginning stages your only 3 cintermeter so that’s a good thing.” The doc said. “WE! We’re not anything I’m the only one going through this s**t. You’re just digging my cookies giving me bad news every single time.” I yelled. As I laid-back on the cot trying to get comfortable but it wasn’t happening.

“What is taking Makahi so long I want to get out this God forsaken hell hole. I swear if I have my babies in the chopper I will knocked all his teeth out.” I groaned still trying to get comfortable I knew there wasn’t a comfortable spot on this cot but my body wasn’t getting the picture. ” I’m sure the Alpha will be here any moment.” The doc said smiling reassuringly. I turned away from him because I really wanted to punch him in the face. Giving up on this cot from hell feeling closed in with the urge to just get up and walk around. “I need to get out of here and just walk around I’m really uncomfortable.” I said making a move to get up. Grabbing my shoulders. “I don’t think that’s a good idea Luna.” One of the guards said. Glaring at him. “I promise you if you don’t get your hands off me I will rip them from your body and shoved them so far down your damn throat that you will have to bend over just to wave at people.” I snarled. The guard quickly let go and raised his hands like he was under arrest.” Now help me outta here so I can walk around until Makahi show up.”

I’m sure I will feel bad about this later but right now I don’t give a damn. Lynn came beside me handing me a water bottle and a sandwich. I almost cried because lord knows I was hungry even with them contractions. I bite into the best bologna sandwich I have ever tasted and what topped it off was the lemonade I thought it was water but I should have known my family would come through. I sighed after I ate half the sandwich and lemonade I felt the beginning stages of another contraction I started to breathe heavily the guards who were trailing us came to my side and held me so I wouldn’t fall they even put their hand in mine even though they knew it would hurt. I almost came to tears at how they rallied around me to protect and support me. “Thank you.” I said tearfully. “it’s

our honor luna.” They said just before their eyes lost focus which I now understand is when they mindlink.

“We have to get you back to the chopper the Alpha is close.” the guard said as they literally picked me up like I weighed nothing at all with the girls running trying to keep up with him. Once back at the chopper everyone was scrapped in ready to get out of this hell hole. I was having a contraction when Makahi made it to the chopper so I didn’t see or hear the commotion that erupted until it passed. All I saw was Mina and Shawna were fighting the guys holding them as they yelled and screamed saying “I’M ABOUT TO KILL THAT b***h! LET ME GO!” Mink yelled. “Look somebody has to die whether it’s you or that b***h over there the choice is yours.” Lynn said calmly while trying to approach whoever just got on the plane with Mykahi. I wiggled and squirmed my way to a seated position trying peeped around doc to see who a*s we were about to kill. When I finally use doc shoulder to pull myself up. As if he could sense me he looked straight at me with sadness in his eyes he looked like someone had died. I frowned then my eyes dropped to what or shall I say who he had cradled in his are. My eyes widen in shock.. “I KNOW YOU f*****g LYING! “ I yelled just as another contraction hit.

The Alpha’s Plus Size Urban Human Mate

Chapter 22

Makahi POV:

When we made it to the exit both Montego and Shadow looked at me with the same what the hell expression. But I said nothing I just kept running trying to process to it all myself. Our bond was growing even in this stressful situation but something was off too because I still felt a pull to Jilahni. This has never happened in the history of our community but neither has humans being mates or having our pups or alpha female pups being born. Right now I just need to get Jilahni back to the pack. I’ll handle the rest later. I mindlink the others that we were headed their way and to be ready to fly once we were on board. I also asked the doc how Jilahni was doing. But before he could respond Summer whimpered which caused me to lose focus and hold her tighter in my arms which she then sighed in contentment. Which also calmed me and Maka which he too was having mixed emotions. As soon as we got to the chopper Montego and Shadow stopped me before I stepped on the chopper so they could get on before me. Which I know was because as soon as I got on the plan with Summer on my lap Mina, Lynn, and Shawna who were looking at what I can only assume was Ji’lahni. Would flip out immediately.

So as soon as the guys got on they gentle put their arms around the girls and I looked at hunter with a silent nod for him to do the same which luckily he understood. Just as I got on the girls turned their attention to the guys before looking over at me and frowned confusingly because nobody mentioned another hostage. But Summer thought it was a good idea to turn her head so everyone could see her face and that was when all hell broke loose.

The girls eyes widen in shock which turned into anger in the blank of an eye. They all tried to get to Summer all at once. Glade that the guys know what would happen once the girls saw Summer. "I'M ABOUT TO KILL THIS b***h! I SWEAR YALL BETTER LET US GO." They said trying to get out of the guys grasp. Summer was crying and saying "Don't let them hurt your luna please tell your guards to stopped them." Then it got real quiet Montego face froze looking at me before he looked down at Summers throat but couldn't see it so he looked back up at me with a questioning eye, I just nodded grimly, his look turned sad. All of a sudden I felt this pull that had me turning my head toward the doc just as Jilahni peeked over his shoulder. My eyes locked on hers and I felt my heart beat faster she frown then looked down at Summer her eyes filled shocked, hurt, then anger. "I KNOW YOU f*****g LYING" She said just as a contraction hit and I lost sight of her face that showed the pain of her face after she saw Summer.

I immediately put Summer on the seat next to me and when I get up to go check on Ji'lahni Summer grabbed me sobbing. "please don't leave me. I don't want them to harm our pups. Again the chopper went quiet I turned and glared at her I know she's doing it on purpose and every one looked over at us in disbelief. "I'll be right back no one will harm you." I said peeling her hand away. "I need to go check on Jilahni." I said still getting up. "Why? the doc is already helping her". Summer pleaded. "Yea she's right the doc and we got this Jilahni doesn't need you." Shawna said looking from me to Summer in disgust. "She doesn't need the stress right now and she doesn't want a lot of people crowding around." Mina said just as we hear Jilahni groaned and cried out in pain. Her cousins immediately turned their attention from me and Summer and rallied around her in away to block her from having to see Summer who was still clinging to me.

"Makahi do you mind filling me in on what the hell is going on how did Summer get here? Why is she saying she's your luna and claiming you and her are having a pup?" Montego mindlinked. "It's a long story." I said with I sigh. "Well we got hours before we are back at the pack house." He responded. Taking another look in the direction of where Jilahni is, only to see her cousins still protecting her from me. Maka was howling out in sadness because he nor I could no longer reach our pups we could still feel them but it wasn't strong like earlier. I sighed then told Montego everything that happened once I entered Zane's house. Even how the pups used their alpha abilities to throw Zane across the room when he had Jilahni pinned against the wall by the throat. Which made me think Jilahni has been through this hell for weeks longer then her cousins while carrying not 1 but 2 alpha pups in the process and she still fought for her survival and our pups and still manage to come out it without cowering and showing she still had fight in her. While Summer is acting like she's about to fall apart and now she's my Luna and yet I don't feel complete or even happy at that thought I'm still hoping I can find away I could reverse it without causing Summer pain, death, or even becoming a rogue if I reject her. So I need to find another way I just hope I can convince Jilahni to be patient while I figure all this out.

Lost in thought I didn't hear Montego speak. Mindlinking him. "Say again?" I asked. "I said that's some real crazy s**t you've gotten yourself into. But how do you even know that's your pup that Summer is carrying?" He asked doubtfully. "I don't but what she told me I do remember parts of that day I got drunk that night honestly I was drunk most of those nights." I sighed. Although werewolves can't get drunk off human liquor the doc

created an elixir that allows the liquor to affect us for a few hours. “That night I didn’t give the liquor time to leave my system I just wanted not to think about what was happening to Jilahni. So I couldn’t say for certain nor can I honestly say it didn’t happen. I know I wouldn’t be able to live with myself knowing that a pup was killed because of me. I had no choice but to mark her.” I said in defeat.

“As your Beta I will always have your back. But this entire f****d up situation will affect the both of us unfortunately, because just as I have your back my mate will always have Jilahni’s back. I can’t explain why you’re still having any feelings for Jilahni when you’ve marked another as your mate the bond between you and Jilahni should have broken completely because even if she’s your other half you still needed to mark her to complete the mating. Maybe when Summer marks you it will break the bond completely.” he said shrugging. ” NO!” I yell into the mindlink. ” Sorry. But I’m going to hold off as long as I can to see if there is anyway I can undo this without hurting Summer or the pup she’s carrying.” I said thinking to myself. ” We have never heard anything about breaking a mating that didn’t hurt, kill, or turn the wolf into a rogue. Shadow’s mate died and he barely held on to his sanity. I just don’t know if it’s possible. Even after you marked Summer you’re still saying her pup and not your pup but once you found out Jilahni was pregnant you immediately claimed them as yours. Something is definitely off about this whole thing I just hope we can solve it without losing our women I don’t know if I’ll survive losing Lynn, we haven’t had a chance to talk much, be she feels the mating pull.” Montego mindlinked looking at Lynn and just like she felt him stare she turned to look at him with affection in her eyes but glanced in my direction it went from affection to cold hard hatred.

10 hours later 12 hours labor..... Back at Krystal Moon pack.

We made it back to our pack land safely without anymore death threats, so that’s a plus I guess. Doc rushed Jilahni to the clinic to do a complete and thorough check on her and our pups to get her comfortable. We don’t know how long labor will last because humans can have long labors and so can she wolves it can last a couple of days for a she wolf. Mom said she was in labor for more then 2 days but dad says it wasn’t quite 2 days I guess to her it felt like it. Mentioning my parents I have to eventually tell them about what happened I told everyone to not mention anything until I talk to them. So I headed straight to them once I had Summer settled at the pack house. Her friend came to give her a check up to make sure she is OK. Summer insisted that she shouldn’t be alone and she should move in officially since she’s the Luna now. I avoided the subject and told her I needed to inform them of what happened. So I’m finally Standing at my parents door I take a deep breathe because I’m m exhausted I haven’t slept in days and it probably will a few more days of n

Little to no sleep... Putting my hand on the knob when it was suddenly snatched out of my hands by my mother jumping into my arms crying and kissing me like I’m a pup.. I returned her hug because I know once I tell her everything she may not speak to me for a while. “Oh my God! I’m so glad you’re home safe and sound. Did you find Jilahni is she and my grand pups OK?”. My mom asked practically shoving me out of the way.. “Mom

they're not with me and yes we found Jilahni she's at the clinic she went into labor while we were rescuing her.

The Doc is getting her settled in she may have a while yet before the pups get here.”
“WHAT! She's in labor and your standing here running your mouth move outta the way why didn't you mindlink us before you landed, we would have been already there.”. My mom yelled pushing me out of the way I stumbled back a little before i righted myself a grabbed her by the arm.” mom I didn't mindlink you or dad because I wanted to speak to you and tell you what happened while we were rescuing Jilahni.” I said guiding her and my dad back into the house they didn't put up a fight because they know it had to be important if I didn't tell them ahead of time that we were back.

With a look of worry on their faces. ” Son what's going on is did something happen to the pups or the girls are they OK?” My father asked with a look of worry on his face although he didn't express it openly like my mother did I could still tell he cared for the girls like they were his daughters. “No all the girls are OK. But I need to talk to you about Summer.”

“Son my grand babies are about to be born and you're holding me up to talk about that slut of a she wolf who put my babies in danger to begin with. If she's dead then she's lucky because I would rip her throat out.” My mother said getting up about to walk out. “Mom she isn't dead and you can't kill her because that would mean possibly killing me.” I said as fast as I could get them out, my mom stopped dead in her tracks turning to face me again. “What did you just say.?” She asked me breathless gasping holding her chest.”. Dropping my head down I told them everything not leaving anything out especially not the part where I wanted to try and find a way to safely break the bond. ” How could you do that to your other half and your pups son. You have no idea if Summer is even carrying your pup be you're absolutely sure jilahni and the pups belong to you how could you just abandon them so easily.”

] My mother said in disappointment. ” YOU THINK THIS WAS EASY FOR ME! I COULDN'T LET SUMMER DIE EVEN IF IT WAS A TINY CHANCE THE PUP IS MINE. this is killing me mom I still care about her even after marking Summer. I don't know what to do.”. I said dropping my head in my hands barely keeping it together. I feel my moms arms wrap around me and I broke down and cried for the first time. I let out all the worry and emotions. I have been holding in everything sense Jilahni first went missing.”Son I'm so sorry this is happening to you. But Ive never heard of someone breaking a bond without causing severe pain but I'll call your aunts and uncle to see what they can find out. But for right now let's just help make sure Jilahni and the pups come out of this healthy.”

My mom said as she let me go and stood.”I don't think her neither her family will want me around.” “Non sense they may hurt you or want to beat your a*s but would never keep your pups away from you. Now let's get the clinic I don't want to miss a thing about my pups birth.” my mom said as she made her way out the door. I might as well get this over with. I said getting up following my parents out the door. I feel like all hell is about broke loose.

The Alpha's Plus Size Urban Human Mate

Chapter 23

Ji'lahni POV:

"I swear to God doc if you put your hands back up my cookies you better be pulling somebody outta there." I groaned uncomfortably. "I apologize Miss Lahni, things are moving pretty normal for a werewolf birth, they can last longer than a normal human birth. We're all new to this so, I need to check you and the pups continuously to make sure everything remains normal." The doc said removing his gloves. Yes I know that's logical and understandable. But if you have ever felt the pains of labor before then you know after a while you start to think irrationally. So give me a break. "You know saying that every time doesn't make it any better or less painful. Now please help me up so I can at least walk, it's the only way I can take these contractions." I said, as the doc came to help me up. Mina, Shawna and Lynn came in as I was standing breathing through another contraction.

"How is everything doc? Are we about to be aunties?" Mina asked excitedly. "Hell no! He is getting closer and closer to getting cut though." I said and they laughed at the look on docs face. "Calm down doc she is joking." Lynn said looking at me. "No I'm not." I said frowning. "Where is Makahi? Because he better have a damn good reason why the hell he had that b***h in his arms." I said looking at my cousins. By the look on their faces they were still pissed but, they also look like they knew something that they didn't want to tell me. Taking a deep breathe. "Just tell me and get it over with. Right after this contraction. MOTHA..." I screamed as I held myself up with the bed as the girls rubbed my back. I swear, these babies move with every contraction.

After the contraction ended we went into the lobby and started walking around and stopping everytime a contraction hit but Lynn managed to tell me everything that Montego told her and everything that happened once Makahi and Summer boarded the plane. I couldn't explain the pain and the weird feeling of betrayal. We were never a couple but his actions said the we had a strong connection and everything that happened in the tunnel made me think we would try being a family, but obviously I was reading it all wrong. I don't know how it ended with Summer being pregnant and them being practically married when he marked her. "Hey what do you want to do? Because whatever it is you know we got you 100% no matter what even if you want to leave we with you." Lynn said and the girls nodded.

"If what you say about mates is true I would never put you in a position where you have to choose between me and Montego or Shadow. I don't know what Im going to do. I have two babies who could potentially turn into werewolves at some point so for now I just want to stay calm and get through this damn birth." I said just as we heard a loud scream, we all jumped patting ourselves for weapons everybody had one except me. DAMN IT. Luckily it was just Lateri and Atoni, as soon as she reached us she hugged us all in a big

hug and Atoni wrapped us all up in his arms as best he could we cried until a contraction interrupted the love fest.. “Guys contraction, contraction God damn s**t! Omg sorry momma Teri and papa toni.” I said breathlessly trying to breathe through the contraction. “Oh hush up no apologies trust me I said a lot worse with Kahi.” She said dismissively. “Yes you did and you broke 3 fingers as well .” Atoni said as Teri elbowed him as they embraced.

I love seeing them love up on each other I thought that I would have that before I started having babies but that plan has gone straight to hell. As another contraction hit I hear yelling which I knew came from my family. After the contraction was over, I looked up only to see Lynn, Mina, and Shawna blocking a very defeated Makahi. Montego and Shadow tried to calm them down but they weren't listening. Damn they moved like cheetahs I didn't even know they left my side. I grabbed onto Lateri and Atoni for support and they walked me to my cousins. I touched their shoulders and they turned to me, their anger instantly changed to sadness they wanted to protect me from this hurt but they can't, although I wish I could deal with this situation after I give birth, but I just have to deal with it now.

Apparently I don't get a chance to f*****g relax and take in the fact that my life has turn completely upside down. I stepped up to Makahi he was looking at me with uncertainty. He was held his breathe bracing himself waiting for me to attack him like my cousins. I had to put my hands on my back in order to look up at him and for some reason I still felt our connection. Holding out my hand. “Can you walk me back to my room?” I asked. His eyes grew wide in shock. But he quickly recovered when Montego elbowed him. “Ye..Yes of course.” He said quickly taking my hand and just like the first time, I felt the same electric shock when we touch I know he felt it too because he hissed out a breathe. Focusing again he came to stand beside me and walked me the short distant to my room I could hear the men telling the women who were about to follow us to give us some space. They grumbled but didn't put up a fight. I don't know how long this was going to last. So I'm not trying to have this labor any harder or stressful then it has to be so I just said f**k IT LET'S JUST DEAL WITH IT.

Makahi POV :

I'm glad I mindlinked Montego and Shadow I know Jilahni's family has every right to hate me and want to kill me but I'm a werewolf an Alpha wolf at that, so it's hard to reign Maka in if he feels challenged or disrespected. He nor I would hurt Ji'lahni so having my beta and 1st commander present was a must. Walking in behind my parents I allowed them to enter first then Montego and Shadow, I came up behind them I wasn't afraid or anything I thought, Maka laughed in my head and called me a lair. I doubt he would even help me if they did attack because he was still pissed about me marking Summer too. “You got that right I would enjoy every second of that beat down I may even help by taking control and keep you still, I can't believe you would do this to my mate.” Maka growled angrily. He's very angry at me he always blocks and locks himself away from me whenever I'm with Summer. Summer says that Maka won't talk to her and I honestly doubt that he would even allow me shift so he can bind with Summer's wolf.” Because she isn't my mate I won't betray my mate like you did.” He growled out. Although he was

automatically bonded to Summer's wolf Sanjay he has managed to keep himself closed off from her when she tries to connect and bond with him, she's was a nice enough wolf but she wasn't his mate so he keeps their interactions to a minimum.

I could hear my mother scream in happiness when she spotted the girls she didn't scream like that for me earlier. I could hear my mom asking them 100 questions at once and when Ji'lahni had a contraction using a few choice words my mother like always talked about my birth. Rolling my eyes walking closer to the crowd just as Mina and the other girls spotted me and immediately created a human shield which caused Maka to growl at the thought of not being able to get to her. What's even more strange is the fact that her scent still affected me. What the hell is going on this has never happened to any mated male wolf. Once you're marked you don't find any other female scent attracted it actually repulsed a male wolf if an aroused she wolf was near Him, that's why we always allow the mated wolves to guard single she wolves in heat.

Snapping out of thoughts taking a deep breathe smelling Ji'lahni scent strangely calmed Maka, we could also scent the pups as well. He howls in pride of knowing his pups are almost here and super excited to be the first Alpha wolf to produce a female Alpha wolf. I had to admit I was excited too. Looking at the girls I could see they planned on protecting Jilahni and my pups with their life if need be and I can't help but respect and be glad that she has them in her life since I don't know how any of this will end.

"So why are you here. Shouldn't you be with your pregnant wife or mate or whatever you want to call it? I promise Makahi, that b***h better not be behind you, because you will have to kill us tonight, I promise before I allow you or her to stress Jilahni or those babies out and put their lives in danger I will kill you and her." Shawna said mincingly meaning every word. It's still shocking to hear this coming from Shawna who was always the quiet one of the bunch. "I would never do anything to hurt her ." I responded. "Are you serious right now? So you're saying you didn't know that lahni would be stressed and hurt if you marked the female who literally had us kidnapped by her sick twisted uncle who almost drained us and Lahni while she was carrying your babies, who continued to drain her and was planning to force her to mate with him. Which she would have done just to keep her babies safe away from his sick influence she was willing to die to keep us safe and was going to end her life once she knew her babies was back with you and safe. Because she would rather die then to be mated to anyone but you. But when it came down to a choice between her and Summer you picked that b***h over her without a second thought. So excuse me if I don't know if you wouldn't do something like that, because your actions shows where your loyalties lie." Shawna said with a voice full of hurt and anger at the thought of every thing they went through because of Summer.

I felt like I got punched in the heart and gut at hearing that she was willing to end her life to save our pups and not be mated to anyone but me. I was so shocked by her words that it felt like I couldn't breathe. Had she really been willing to mate with Zane in order to make sure our pups were safely with me. She was planning to kill herself if I hadn't found her in time. Just the thought of that almost brought me to my knees how could I have been such a fool. I was so deep into my grief that I didn't see when Jilahni had approached me until her delicious scent brought me back to the present. Looking down at her beautiful

tired eyes she still sported the bruise from Zane hitting her, I really want to kill him for what he did to her and I vow I will kill him. "Can you walk me back to my room?" She asked extending her hand out to me. I wanted to pick her up into my arms and never let her go but I know I can't. "Ye... Yees." I nodded like a little school boy and grabbed her hand after Montego elbowed me.

I instantly felt the electrifying jolt that I felt the first time I touched her. How is any of this possible, with Summer, I felt our bond formed from the moment I marked her. But it wasn't as strong as when I'm touching Ji'lahni. My heart's racing and Maka is wanting to take control and mark her even though Summer is wearing our mark. I pushed him back to my subconscious and put up a mental barrier which he fought against. I went to stand beside her and put my arms around her for support and it made Maka calmed down when she leaned into our embrace, he was loving the closeness. The walk back to the room was done quietly. Once we entered, the doc was behind a makeshift desk in the corner. I assume he plans on staying in here as much as possible.

"Oh hello Alpha. I didn't know you were here. I'm glad you're back Lahni I was just about to come get you so I can check on you and the pups." The doc said getting up coming towards us about to help Jilahni onto the bed but I quickly lifted her into my arms and placed her on the bed gently, the doc pulled a chair up so I could sit in while he examined her. He pulled a big machine up beside the bed and was reaching for her gown but he quickly stopped looking at me when he heard a small growl. I quickly pushed Maka back and nodded my head to doc and he covered her legs before exposing her round belly. It was surreal looking at the place where my pups grew. Her belly was so round it looked like if you poked it, it would pop. I only got to touch her belly briefly in the tunnels. But that was nothing compared to what I'm seeing now. I felt the jolt of Ji'lahni's touch and I looked down to see she was holding my hands looking into her eyes she placed my hand on the top part of her belly while the doc squirted some blue gel on the lower part of her stomach.

The babies were moving around like crazy and I have never been as happy as I am now that I actually got to be apart of all this. We both turned to the machine doc pulled over when we heard the loud strong heartbeats of our pups the sound filled me with so much emotion that I felt as if my heart would burst and Maka was prancing around in my head like a proud papa wolf he. Looking at the screen I could see both pups one even looks like they're sucking their finger while the other looks like they are looking at the wand the doc had pressed against her belly the doc must have made them mad because Jilahni screamed as another contraction hit. She was screaming and squeezing my hand which surprisingly hurt a little. The doc removed the wand and wiped the Lubricant off her belly moving away to make notes. Glancing at her exposed belly the babies were moving so much it look like they were trying to come out. The movements had her belly misshapened. Remembering that she said I was able to calm them when we were in the tunnels. Although I haven't been able to mindlink them after I marked Summer I could try doing it verbally using my aura maybe they will recognize my voice. It was worth a shot because anything is better then watching her suffer.

“Hey papa’s here now I need you to behave for momma she’s in pain. I can’t wait to me you my little pups.” I said in a whisper tone rubbing her belly as I gave the smallest push of my aura, hopefully they recognize it was me. I smiled when I heard Jilahni sigh in relief and her face lost the frown of pain.”Thank you.” She whispered. “My pleasure sweetheart. Get some sleep.” I said leaning in to kiss her forehead. “Wow Alpha this is the most relaxed I have ever seen when any she wolf during labor. I think it has something to do with your touch. I want to do and experiment get in next to miss Lahni, I want to see what happens during her next few contraction for now I’ll let her rest as long as possible.” The doc said still looking at her vital sheet. He didn’t have to ask me twice I was easing in next to her on the bed it was the world’s shortest bed and my body was twisted unusually and I was sure that I would need a chiropractor after this. But I would stay in this spot for days if it meant being close and touching Ji’lahni like this. Maka was purring like a damn cat he was so calm and at peace. Ji’lahni turn slightly giving me a little more room looking at me sleepily. “You stayed. Please stay with me.” she sighed snuggling into me I wrapped her into my arms rubbing her belly gently so the pups know I’m still here. “I’m not going anywhere sweetheart. Now get some rest I’ll be here when you wake up. Sighing contently I closed my eyes and drifted off to sleep for the first time since Ji’lahni was taken from my mom’s house.

I was instantly jolted awake when I felt Ji’lahni groaning, my eyes snapped open to see the Doc looking at the paper that was printing out of the machine. “Is Ji’lahni and the pups OK? I asked. “They’re doing great it seems like your closeness calms the pups and lessening the pain of her contractions. Another thing that doesn’t happen to she wolves during labor. I hate to wake her up but I need to check her progression. You can step outside if you can’t handle me checking her.” the Doc said looking at me nervously. “We’re fine Doc go ahead and check her.” I responded as I caressed her belly looking at her face relaxed again. “You need to wake up babe so the Doc can check on you and the pups.” Ji’lahni groaned opening her eyes to look directly at me and smiled briefly. The Doc cleared his throat. Groaning Ji’lahni turned so the Doc could check her. “Doc remember what I told you earlier about the next time you dig in my cookie jar.” Ji’lahni said then smiled when she saw the doc’s head shoot up looking at her then me. I smiled.

“Should I ask why you said that and what is a cookie jar.” I asked playfully. “No need you have progressed pretty far since the last time. You’re now 7 Centimeters dilated both pups have moved in the correct position so it won’t be long now.” The Doc said taking off his gloves. “Thank God it’s about time I didn’t know how much more of this I could take. Can you give us a minute Doc we need to talk before we get this party started. Ji’lahni asked as she got comfortable again and placing my hands back on her belly and instantly sighed as the babies movement ceased almost instantly. I was slightly shakened by her request because I know what discussion she was talking about. Im afraid of what she might say or what she might do, will she say she’s leaving me. Shaking my head mated or not I can’t let her leave me. It for sure would drive Maka insane. “Hey not just me you know you would too.” Maka grunted. He’s right but I won’t tell him that. “You do know I can hear your thoughts right?” Maka said with a laugh.

The Alpha's Plus Size Urban Human Mate

Chapter 24

“So is it true what they say that you’re married or mated to Summer, And she pregnant with your baby?” Ji’lahni asked in confirmation only. I nodded unable to speak the words aloud. She sighed turned her head away from me taking deep breathes I looked at the monitor it wasn’t a contraction that had her breathing hard It was me confirming what she already knew. Turning back to me with watery eye that she quickly tried to blink away. “Look I understand I mean nothing to you and I’m sure you regret everything that has happened I mean we didn’t actually finished the act of s*x I don’t even think anyone counts going half way as s*x, but pre c*m is evil.” She said hurriedly as if to get it all out in one go but failed and she took another deep breath. “I can’t say that finding out you mated that Bitc.. I mean Summer after everything she’s done to my family, my babies and me. I felt betrayed, hurt, and anger that you would do that to me. But I realize that it was crazy to feel that way when the whole reason we came here was to plan your wedding and I was wrong to even allow anything to happen between us. For that I would have apologized to your wife, but no matter what I did or didn’t do what she did crossed a line that I can’t forgive. You didn’t promise me anything we were never together. I guess I saw something that wasn’t there and that is on me everything from your mother’s house, here at the clinic, when you came to rescue us the first time, I thought I saw something in your eyes that I guess wasn’t there, Just like in the tunnels. I see and understand now it can never happen again. But understand your mate or wife robbed me of a chance to come to terms with becoming a mother for the first time. I didn’t get to go shopping for baby things or even put together a nursery or anything. At first I admit that I felt you and her robbed my babies a chance to grow up with both their parents in a loving home together as a family but I was wrong.” she choked out with tears escaping her eyes now. Wiping her tears away.

“But with all that I need you to understand I will never keep our babies away from you. But also understand my children will never be allowed to be anywhere near your wife. That’s something I will never be OK with. I will try my best to be civil with you I’m sure that with time my feeling for you will no longer affect me the need or the electric jolt I feel everytime we touch I hope will also go away.” She finished still whipping every tear that fell. Her words felt like my heart was being ripped out of my chest. Maka howled in sorrow at her words she hopes our bond goes away. How can I tell her that she wasn’t a mistake I don’t regret anything and I want to be with her I just need time. But I can’t say that when I don’t even know if I will be ever to break my bond with Summer but I will do everything I can to find out no matter how long it takes. Looking at her belly where my pups grow then glancing at her. “Ji’lahni I’m so sorry I never meant for any of this to happen. I would be lying if I say I didn’t play a part in any of this after all it does take 2 right? When I met you you knocked my world off its axis and I was confused about my reaction to you and I realized too late that I had feelings for you. These weeks without you drove me crazy not knowing if our pups were OK or even if you were OK. Please believe me I never wanted us to end up like this those months that you were gone was pure hell

for me. I had no plans to mark Summer in those tunnels. But when she said she was pregnant the only thing I thought about was the pup she carried. I had to make a decision and I couldn't let her die if there was a chance the pup was mine. I don't know how all this will end. But I don't want you to give up on me baby please don't give up on me on us please baby please." I begged while I allowed the tears to fall leaning my forehead against hers I didn't mean that last part but I seem to not be able to stop myself.

"Makahi please don't make promises you can't keep I heard how strong a marked and mated wolf bond is. For my own sanity and the emotional well-being of our children I have to let you go Kahi. It's not healthy to hope for something that will never happen. We both just have to move on with our lives, that means you with Summer and your child." she said. I had to suppress a growl at the thought of another male touching her. I would kill them. She came into my pack and made everything we know to be true and impossible false and possible. I just hoped to the moon goddess that I can fix this before I lose her completely. "Let's just talk about all this later." I said pulling her close to me I was glad she didn't push me away. With half my body off the bed we were nearly face to face. When she snuggled even closer moving her head closer to my neck where my mate mark should be. Feeling her breathe on my neck I groaned fighting Maka who was going crazy wanting to mark her and she us. my lips are so close to her neck that feel the heat from it. I could feel my canine trying to extend which is a natural reaction when you find your other half I had to basically force my canines out to mate Summer because Maka refused to mark her. Breathing in her scent made me feel completely at peace. Rubbing her belly to feel my pups, I will find away to make things right.

A few hours later her contractions seem to be getting more intense because I had to push a little more of my aura in order to ease the pain. That could only mean she'll be ready to push soon. She mentioned that she hadn't had a chance to prepare for our pups so I mindlinked one of my omega female to get everything she will need and move it into the house they stayed in when they first got here I was about to say also get things for my mother's house as well but I didn't because I know my mother has brought somebody's store out. I could only imagine the bill she made buying things. I though Smiling shaking my head. All of a sudden I hear shouting, growling, and loud noises outside the door. I frowned looking down at Ji'lahni she only stirred a little but it was pissing me off who's making a commotion right outside her door. "Montego what the hell is going on out there Ji'lahni is trying to get some rest." "You need to get your a*s out here Sumner and Britney showed up demanding to be let in there to get you out. I don't know how much longer we can hold these women OFF. OHH s**t! LYNN DONE PULL OUT A KNIFE! GET YOUR A*S OUT HERE!" Montego mindlinked.

s**t what the hell is she even doing here. I told her not to leave the pack house and I wouldn't be back until late tonight. I didn't want to tell her I would be here with Ji'lahni because I was sparing her feeling I knew she would be upset about it because she wolves were almost as bad as the male wolves when it come to females touching their mate. But this is a different kind of situation and I was thinking Summer would understand that, But that was just stupid as Lynn would say. Hearing what sounded like a chair being pushed. I remove myself from the bed already missing her touch. She felt the lost too but settle

when she moved her head and must have caught my scent because she sighed and settle back down she was between contraction so I had a few minutes.

Turning and heading to the door I needed to settle this fast before Ji'lahni has another contraction. Walking out of the room felt like I walked out of heaven and walked straight into hell. I see Lynn, Shawna, and Mina damn near trying to climb over Montego, Hunter, and Shadow's head while my dad and the Doc are holding Summer and Britney back nobody sees me because the girls were blocking the door. "ENOUGH!" I said pushing my Alpha command to every wolf in the room the only people it didn't affect was my parents and the girls but they did stop when they heard me. Climbing down off my men I looked at them and nodded towards the door gesturing for them to go be with their cousin. They gave a hateful glance at my mate and quickly went into the room. I turn my attention back to the people left in the room "Doc you can go back into the room to check on Ji'lahni her contractions were more intense the last couple of times." I told him. He nodded and started towards the room. Summer rushing pass the Doc towards me putting her arms around me she stopped the Doc before he could pass me. "Kahi baby, I wanted the Doc to check on our pup to make sure everything is OK. I'm sure one of his nurse can take care of her and those babies. After all I'm the Luna now and I'm carrying your future alpha. So I should be the docs top priority." She whined pouting.

"Is she for real?" my mother finally said. during the whole argument between the ladies my mother was oddly silent which if you knew my mother you would know that silence wasn't her strong suit. I can only imagine she stayed out of it because Summer was indeed the new Luna and was probably carrying her grandchild. But Summer had to push it just a little to far. "Listen really well dear . I will let you pass with this display because you haven't even began your Luna training. But the first thing you should know is as the Luna of this pack your first priority is your pack members you never put your needs and wants before the pack." My mother stood in front of us to look Summer directly in the eye. Summer whimpered a little. She looked at me expecting me to come to her defense but I wasn't. Partly because I was about to say the same thing. Realizing I wasn't going to come to her defense. She straightened her shoulders and looked back at my mother. "I will always look out for my pack which is what I have been trying to do for months now. As you said I should put my pack first and I will do that but those humans aren't apart of our pack. I'm carrying the next Alpha of this pack and he should be the docs top priority." She said now confidently. But I know my mother. And apparently so does my father because he quickly put his arms around my mother's waist and I pushed Summer behind me slightly. " Listen here little girl you may be our Luna but I will not tolerate you dismissing my First born grand babies and their mother she and those other girls are apart of our pack and those pups are the next Alpha's of Krystal moon. Now come on Doc let's go check on my chocolate drop and my grand pups have one of the nurses check on the Luna." She said walking the Doc into the room with Ji'lahni.

Damn it why do I feel jealous that they are in there with her and I'm stuck out here. I thought as I stared at the door as it closes. "Your mother can't be serious does she really think those babies will ever be Alphas." she said looking at me wanting me again to take her side. But all I wanted to do was get back to Ji'lahni even with the mate bond pulling me towards Summer, it felt like I was being pulled in different directions. I uncurled her

arms from around me, my body immediately protested it wanted to hold and keep her close but I fought the urge because I didn't want to lose Ji'lahni's scent. I looked at Summer and frowned slightly. "Why do you think my first born wouldn't be the next Alpha of this pack." "Come on honey you know they can't be Alphas they're half breeds and they will be a lot weaker than our son. Our son will be a full blooded Alpha. So it will be expected that our son will be the next alpha. Besides who will train them once they leave." "Leave?" "Yes once we banish them. I'm not going to do it right away I feel like a week is enough time for them to prepare." Summer said shrugging her shoulder. I could hear Montego and Shadow growled lowly, they would never attack their Luna but I know they weren't happy with Summer saying she is planning to banish the girls. Hell even Maka was growling in protest.

"Summer we are bonded and you're the Luna of this pack. But understand I'm the Alpha of this pack I say who comes and goes not you. Understood?" "Oh course, I would never do that I figured everyone knew. I mean it is the obvious next step I know you wouldn't kill or imprison them so the obvious next step is banishment. They committed a crime against your luna the pack will want justice that has always been our way." Summer replied easily with what sounded like excitement. Montego and Shadow were growling louder now trying to hold back their wolves who were trying to break free to protect their women. Just then I heard a loud scream that instantly took my attention. Looking at Montego. "Take them back to the pack house." I said turning to go back to Ji'lahni's room. Summer instantly grabbed my arm and Maka came forward immediately and growled which made Summer jump back in shock but quickly recovered. "Kahi aren't you coming back with me. I thought we could have dinner and spend some time together and finish our mating." She said sadly like she wanted to cry. Again that damn bond was pulling on me again this time much stronger because our mate was hurt. I stepped to her and embraced her which calmed the bond between us down.

"Listen you allow Montego to take you back to the pack house and get dinner started. Once I get things settled and squared away here I will come home and we can talk and have dinner but I need to handle this first." I said leaning down to kiss her so she won't feel so insecure. She sighed and nodded while Montego guided her and Britney out of the clinic. I turned with one thought in my mind that I needed to get to Ji'lahni. I burst into the room like a madman everyone looked up at me when I came in Ji'lahni's eyes snapped in my direction looking at me she gave a small pained smile "I thought you were gone." she said crying I rushed to her side getting back in bed with her. Touching her belly in an effort to ease some of her pain. She immediately relaxed and sighed. "Absolutely not. I'm not going anywhere baby." I said kissing the top of her sweaty forehead I didn't care one bit and Maka groaned like he tasted something delicious. He can be really weird sometimes. Ji'lahni suddenly groaned loudly and said....

The Alpha's Plus Size Urban Human Mate

Chapter 25

Jl'LAHNI'S POV :

"I NEED TO PUSH!" I yelled suddenly as I felt so much pressure that I opened my legs because it felt like something was about to fall out. "Oh my God it's time! I vaguely heard what sounded like Lateri say as everyone kissed my forehead and the nurse escorted everyone except Kahi and Shawna out of the room. It was always a giving that she would be with me in the delivery room because we were only 2 months apart and the only girls our parents had. so our parents always had us dressed alike and we did everything together they raised us like sisters instead of cousins.

"NOPE I CAN'T DO IT! I CAN'T DO IT! CANCEL MY MEMBERSHIP! I DON'T WANT TO DO THIS! DOC JUST KNOCK ME OUT AND CUT THEM OUT!" I yelled. As another contraction ripped through my body causing the pressure to increase and making me bare down and try to push through it. "Sorry Cuz no refunds it's to late for all that. And you got this just think about the babies we have been waiting to see. Just do what you always told us to do, fight through the pain there is no such thing as quit, now let's get this done and over with." Shawna said holding my hands.

"So that's what we're doing now throwing my word back at me." I said scowling at her.

It feels like I had been pushing for hours but it had only been 10 minutes. Once the latest contraction was over I released Kahi who I had in a headlock. "I'm so sorry." I cried. "Sssshhhhh I'm fine don't worry about me you're doing great baby I can already see the top of his or her head and they have a lot of hair." Kahi said kissing my forehead. Even in pain I still feel the jolt of electricity when we touch. But these kids won't let me be great because another contraction ripped through me. "I GOTTA PUSH AGAIN!" I screamed. "Ok Lahni I need a really big push lets get the head out." The doc said. As I yelled and grab Kahi again for leverage pushing with all might while they all yelled "7,8,9, annndddd 10." "The head is out baby." Kahi said kissing my lips. Which is weird since he is basically married but I'm going to let that go and chalk it up to emotions and excitement of the situation. Pressure was coming back faster then before.

"I GOT TO PUSH!" "NO NO DON'T WAIT A SECOND THE AMBILACIAL CARD IS WRAPPED AROUND THE PUP'S NECK. I HAVE TO REMOVE IT BEFORE YOU CAN PUSH AGAIN!" The doc said loudly. "WHAT IS MY BABY OK!" I cried as I tried to fight against the pressure and urge to push. Kahi tried to keep his face calm for me so I wouldn't panic but I can tell his is scared. But he still manages to comfort me." Everything's fine baby. Our pup is already being a little dare devil." He smiled. "OK we removed it when you feel the need to push go for it." The doc said. But as soon as he said that the urge to push came and I bared down as hard as I could and all of sudden I felt as my first baby slipped out like I just didn't feel like I was pushing a car out. "IT'S A GIRL." Kahi yelled crying. He was late to that party because I was already crying. But my girl was angry crying she was so loud I'm sure everyone outside heard her. By all the Cheering of what sounded like everyone from the entire pack was in the waiting room. The nurse placed her on my chest and she quieted down to a whimper. She looked exactly like Kahi but with my complexion. But the strangest thing was her eye color, her left eye was blue like mine but her right eye was silver like Kahi's wolf. "She's so beautiful baby." I said crying. "Yea she is cuz. My niecy

poo is beautiful.” Shawna said. I glanced her way and smiled. She was snapping pictures and crying like we all were. My baby boy wasn’t about to be ignored though. “I have to push again. s**t! why couldn’t they both come out at the same time like a team effort.” I said as I pushed which was a lot weaker then before. I was so weak this time around. “Doc I don’t think I can do this. I’m too tired.” “You got this Lahni you have been through too much to let a little thing like pushing beat you.” The doc said trying to encourage me. “Doc don’t make me slap you, reverse psychology really?” I said taking a deep breath and pushed again. But again I could barely push. I was feeling light headed and really dizzy.

“s**t she’s bleeding everyone get back remember her blood is dangerous. Get full body protection on NOW!” The doc yelled stepping back. “Hey doc, I don’t feel so good.” Whether I said it out loud or in my head I don’t know all I know is the pain was going away the farther into darkness I went. And just like that no more pain.

MAKAHI POV:

“Ji’lahni baby? wake up please baby wake up. DOC WHAT THE HELL IS HAPPENING?” I yelled in panic. “Alpha she bleeding, I have to stop the bleed or she will bleed out. Please let me work.” The doc said as he was sopping the blood up and trying to stop the bleed. I can see the blood that got on his skin passed the glove was burn him but his determination had him only grunting in pain but he kept working trying to save Ji’lahni. When I turned back to Ji’lahni she was losing color. Maka was beating against my subconscious trying to get control he was howling angrily, he had wanted to mark her because if she was marked I would be able to help her heal with my blood. In our species mates could heal their mate with their blood.

The moon goodness granted us that ability because our lives were so tied to our mate that when our mate dies their mate would die or go rogue except for chosen mates they could survive because the bond isn’t as strong as an other half mate who were picked by the moon goddess herself. But we couldn’t help her at all because I marked summer instead of her. She can’t die. I can’t lose her. “Mate is strong she not die.” Maka gritted out. “Please baby you can’t leave me, you have to meet your other pup they both need their momma please baby.” I whispered kissing her forehead then leaned my forehead to hers trying to will her to wake up. “Alpha we have to get your pup out we need to do an emergency C-section.” The Doc said as the nurse grabbed the machines connected to Jilahni as they hurriedly pushed her bed toward the exit. I was helping push her out of the room racing to the operating room still holding her hand in mine.

As we reached the double doors the Doc grabbed my arm to stop me and turns me to him. I growled and Maka surfaced, the Doc beared his neck. ” Alpha please I’m trying to save our luna I can’t do that with you in there. We have never had to do a C section I am confident I can do that but you need to understand that she has lost a lot of blood and is very weak you need to be prepared.” He said still baring his next to me. I couldn’t say anything because of the large lump in my throat so I mindlinked him. “Go save her and my pup.” I did notice he called ji’lahni his Luna and I didn’t correct him because deep down I felt the same way. I heard the loudest cry which brought me back from losing control and allowing Maka take over. Turning I went back to the room seeing the nurse who was

trying to wrap a crying angry baby. The nurse was sweating and shaking. I frowned. "Are you alright Helena?" I asked coming to stand next to her and touched my baby girl's hand and she instantly relaxed. I smiled seeing and feeling the bond and connection we had when she was in her momma tummy was still there she could sense her papa. I also saw the omega relax as well. "I don't know it must be your emotions alpha I felt your aura command wanting me to stop but once you touch her you calmed down and released the command." She said. Picking up my pup and placed her in my arms the feel of her in my arm relaxing me and Maka is filled with so much pride.

"She's beautiful our pup is perfect." Maka said. I allowed him to the surface a little so he can connect with our girl. Once he retreated back and I remember what the omega said, turning to her. "Helena I didn't use my alpha commend on anyone today." Her head snapped up to look at me in shock. "Alpha I promise I felt an urge to stop and walk away it wasn't real strong but I did have to fight not to do it. It was quite painful." She said confused. I looked at my little pup and decided to table it for now. We will find out just how powerful my pups are when Jilahn and my boy are brought out safe and sound. I shake my head to stop the dark thoughts from entering my head. I looked at the pup who was looking at me with bright blue and silver eyes like me and her mom but a face that looks like all my baby pictures on the walls of my parents house. "Hey my beautiful special girl until we can be with your momma and brother there is a lot of people waiting to meet you." I said to her and she cooed, I smiled.

Walking out of the room everyone is looking sorrowful no doubt knowing what is happening because Shawna was out there comforting a crying Lynn and Mina while my dad tries to comfort my sobbing mother. But just like the already diva she is she let's out a tiny growl which had everyone in the waiting room head snap up in shocked surprised which lasted less than a second before my mom almost knocked my dad to the floor immediately taking her grandpup from my arms with Lynn and Mina cooing at the baby over her shoulder.

My girl was loving every second. My dad came to stand by me and embraced me. "You did good son she's a beautiful pup." "Thanks dad." I said as my eyes drifted to the door that they took Ji'lahni through. "She and the pup will be fine. She didn't fight her way back here to you and her pups just to leave again. And if our boy is anything like his sister then he'll be fine too. Just then the doors burst open and the nurse was carrying a little angry crying bundle in her hands she too had a pain expression on her face I immediately grabbed my boy from the nurse and he sniffed and quieted down immediately, he had eyes like his sister but his blue was on the right and silver on the left. "Alpha she is smaller than her sister but as you can hear her lungs are strong the nurse checked her and everything seems fine." I glanced at the nurse frowning. "Girl? The Doc said she was having a girl and boy." "No she is a girl I put her diaper on myself." She said with a smile.

I looked down at my other daughter and she looked at me and I could swear she had the gotcha look in her eyes. I caught the omega before she disappeared back into the operating room. "How's Ji'lahni is she OK can I see her? I asked my voice broke. "Alpha I don't know I left the room to tend to your pup after they delivered her to make sure she was ok. The doctor will be out as soon as he can. It shouldn't be long now." The nurse said

avoiding my eyes, before she rushed back through the doors. My heart felt like it would burst out of my chest something was wrong tears threaten to fall until I felt an arm embrace me from behind it was my mom I scented her coming I turned and wrapped my free arm around her so she can also meet her granddaughter I glanced back to see Lynn handing a nervous Montego my daughter. I smiled as he held my pup like he was a statue eyes wide. Shadow had a look of fear probably praying to the goddess he wasn't next. "He's so handsome son he looks just like his momma." My mom said. Drawing my attention to my daughter who had her forefinger in her mouth currently wide eyes looking at me and my mom.

"Actually seems like this little pup pulled a fast one on the Doc because she isn't a he. But you're right she looks like what I think Ji'lahni probably looked like as a baby. But like her sister she looked like her mom but everything else was me except her eyes. Maka was howling with pride in my subconscious. My mom screamed damn near almost making Montego drop my pup. "OMG GIRLS HE'S A SHE WE HAVE TWO GIRLS CAN YOU BELIEVE IT? THANK GODDESS FOR THIS MICARLE" She cried smiling and the girls ran over loving on her before handing her back to me because apparently now they have to spend more money since they can't use the stuff they brought for a boy. My dad said "What is the big deal they could still use the stuff." Which got a death glare from all the girls which he immediately closed his mouth and looked away acting like he wasn't the one to ask a question Lynn would call, a stupid question.

I headed over to Montego to rescue him. He handed my daughter in my other hand but she immediately grabbed his finger and every time he pulled it away she whimpered and he immediately gave his finger back to her. I already see she has him wrapped around his finger. We sat down with both my pups in my arms looking at me expectantly. They were so tiny probably due to Ji'lahni being held captive and drained daily usually our babies are born at 9lbs or more that's the norm for pups. But my pups were probably 8 pounds together. But I felt their strength their aura was so strong I never felt anything like it from any alpha pup. I couldn't take my eyes off them. They were looking around as if searching for something or.. Someone. As soon as I realized who they were looking for I could no longer hold it in I let the tears fall and let all my emotions go. I felt strong arms wrap around me my dad then my mother wrapped her hands around me and I leaned into her embrace I felt Lynn, Mina, and Shawna surrounded me and the pups in their embrace. I looked up and all my men were kneeling in front of our entire family as a sign of honor and unity. Then the babies let out little howls which broke the sorrowful moment. We all laughed.

"Alpha." I heard the doc say from behind us. My mom and dad got the twins and I walked over to the doc with the girls on my heels. I couldn't read his expression. Which made me anxious. "Doc I swear you better not go to commercial. Spit it out you acting like an old soap opera." Mina said seriously. Clearing his throat. "As I told you she lost a lot of blood we got the pup out without a problem but she started hemorrhaging. We managed to.. to stop the bleeding. She's alive but she's in a coma with the strain on her body during the entire pregnancy the blood draining the kidnapping then being a hostage the physical beating and then the stressful labor all that took a toll on her body. It is now up to her I have done I can for her. They're bringing her back to the room. I'm going to give her a

more private room to make sure she's comfortable. You girls know her best if you can get her some comfortable clothes that she can wear until she wakes and blankets may help." The girl nodded tearfully and went to kiss the pups and headed out the door with their men behind them.

"Doc have an extra bed brought to the room. I had an omega buy some things for the babies, have the things sent here. Have them bring the bassinet and a few things they will need I want them close to her at all times." He nodded and went back through the double doors. I'm sure my mom and dad heard everything they both had one of the twins holding them close. "Dad I know you never planned to." "Say no more son I will always have your back don't worry about the pack I will step in for however long you need me." "Me and the girls will be here with you to help with the twins. I already mindlinked the Doc to have a spare room set up for us we will rotate days so someone will always be here." My mother said. I released a breath I didn't know I was holding. I should have known my parents would know what I needed before I did.

"Now go take your girls to their mother they're hungry. Especially.. Hey what are their names?" My mom asked. Damn I didn't even think about it at all. What will their names be Ji'lahni never said any names when she spoke of them. "Ji'lahni never mentioned names. I don't want to name them without Ji'lahni. But I can give them nicknames." Looking at my first born the thought that came to my mind was. "Beautiful Crystal.. we'll call her beah." I said as my mom who clasped her hand and beamed her approval with happy giggles. Looking at my other daughter looking like her momma and the first thing that came to mind was. "My little trouble maker... Trouble Crystal but we'll call her Tru." "That's a good strong name son." My dad said. "Thanks dad but remember it isn't official until me and Ji'lahni make the final decision. "Oh hush son I know my chocolate drop she will love them. Now go take them to their momma. We'll be back in a couple of hours and I sent someone to bring you food and you better eat you will need the strength for the loooonngggg nights ahead. I groaned thinking about how my guards who had newborns used to look like death warmed over. They would come in for their shift looking all pale and wide eyed like they stuck their finger in a electric sockets. They were jumping at every sound yelling weird things like I'll change the diaper or where's the bottle. It was so bad that we implemented a new schedule that new fathers choose their own schedule for the first year.

Walking towards the room number that the Doc mindlinked me earlier to let me know the room was ready. Holding my pups felt so surreal. I'm a father I knew I would have children one day because it's expected that Alpha's have an heir to pass down the role of Alpha to when it's time for them to step down. It generally takes decades since we age really slow compared to humans. Looking at my pups I didn't know their future yet they seem to have abilities that no other alpha pups have ever had. I plan to find out how special they are but it had to be done privately because It could be dangerous if everyone knew they had special abilities I would kill anyone who look to harm them. Maka and I said almost at the same time. They're the most important thing in my life.

Walking towards the room number that the Doc mindlinked me earlier to let me know the room was ready. Holding my pups felt so surreal. I'm a father I knew I would have

children one day because it's expected that Alpha's have an heir to pass down the role of Alpha to when it's time for them to step down. It generally takes decades since we age really slow compared to humans. Looking at my pups I didn't know their future yet they seem to have abilities that no other alpha pups have ever had. I plan to find out how special they are but it had to be done privately because It could be dangerous if everyone knew they had special abilities I would kill anyone who look to harm them. Maka and I said almost at the same time. They're the most important thing in my life.

Walking into Ji'lahni's room I was hit with a sea of emotions her color had come back and she looked so peaceful now but her lively spirit was missing and it left the room lifeless. But I refuse to have that energy in here I'll make sure that only positive happy energy at all times I'll talk to her all the time make sure the babies bond with her. The first thing to do was getting them fed. I don't know how but we will figure it out. Walking to the bassinet I put them each in their bassinet and they immediately started to cry in protest. I hurriedly drop the arms on Ji'lahni's and my bed and push the beds together I then grabbed the pups who were crying their eyes out once they were back in my arms they immediately quieted I smiled. They're spoiled already.

Climbing onto the bed I placed Tru in Ji'lahni's arm which she sniffed and immediately snuggled into her mother's arms I had to repositioned Jilahni away from the edge and line it with pillows so the pup wouldn't roll off. I then went to the other said and placed beah in her other arm and she did the same thing her sister did and snuggled closer and I laid down and wrapped them all in my arms which I could of sworn I heard Jilahni sigh and relaxed like she knew we were altogether as a family. I felt completely at peace to have them in my arms finally it felt like home. A nurse came in and interrupt our family time. I growled at the intrusion the nurse immediately stopped in her tracks and bared her neck. "Ssoosoorry alpha the doc told me that he wanted to start our luna breastfeeding he says it could help her come out of her coma." the nurse said quietly. I nodded. "No my apologies I'm a little on edge please come in the pups are very hungry they've had a rough few hours of birth." I said getting up in order to assist I wanted to learn how to do this so I wouldn't have nurses in and out every 2 hours and the babies seems to have the ability to push their alpha aura on the omega wolves.

" I will help you I want to learn how to do this myself. I want you to teach her cousins and my mother as well. That way we won't take up the staff's time." "Yes Alpha I'll make sure they all know what to do I will also teach you how to pump her breast in order to bottle feed them " She said holding up a machine. She picked up Tru who immediately began to cry at being taking away from his mother I immediately saw the change in the nurse she looked at me frighten assuming it was me who was commending her, baring her neck to me "Alpha I apologize I didnt know you didn't want anyone touching the babies." She immediately began putting Tru back into her mother's arm. "No it's fine I'm sorry please lift her again." I said releasing some of my aura and when she lifted her up again she began to cry but this time the nurse didn't have the same reaction.

So apparently me, my parents and my beta will have to always be near when the nurses handles the twins I sent out private mindlink to them including the doc to make them aware of the situation so we can formulate a schedule to make sure someone is around at

all times. I headed back to the nurse as she laid the twins in a bassinet together which they stopped crying, maybe that's why they were crying earlier when I put them down they want to be near each other. I made a mental know of that as well. Caring for them is going to be a full time job there's so many things I have to do. The nurse was raising Jilahni bed slightly as I walked over to the bed I separated the beds so I could get a closer look. She lifted her gown over her breast but placed a blanket over them. I will admit I was disappointed she covered them up.

She then lift Ji'lahni's arm and placed a big pillow that looked like the letter U. She explained that the pillow is used to help mothers breastfeed comfortably. She used extra pillows under it because in this case the pillow needed to provide full support. I mimic the same actions on my side. once she was done she checked my side to make sure it was secure she gave me a thumbs up. We each grabbed a pup and she place beah in Ji'lahni's arm and lift the blanket covering her breast and position beah close to her n****e and beah sniffed and immediately opened her mouth greedily and latched to Ji'lahni's breast and started sucking taking long pulls. The nurse chuckled looking at beah sucking like she was starving. The way she was sucking it looked like it would hurt if Ji'lahni was awake. I glanced at her to see if she had any type of reaction, but she didn't. The nurse came to my side as I put Tru in Ji'lahni's arm and lift the blanket uncovering her breast with shaky hands I adjusted Tru closer to her breast and she did just as her sister did. She sniffed and immediately latched onto her n****e. Then we made sure that they wouldnt disconnect if they wiggled she showed me how to use the breast pump to store milk so we don't have to setup the bed every 2 hours she recommended we allow them to breastfeed from Ji'lahni 3 to 4 times a day and uses a bottle the other times and throughout the night. She also said to allow them to feed for 30 minutes but birth them in between to prevent gas. I was feeling overwhelmed with everything a pup needed. I had to make sure I thanked my mother the next time I see her because she was the real Alpha in our family no wonder my dad adores her and gives her whatever she wants he always told me being an alpha with the wars and day to day, is nothing compared to being a mother and I finally understand what he meant.

The nurse stayed for the burping in between feeding and said she will be back to check on us in an hour after I reassured her I could handle the last burping. I sat down watching my pups feed from their mother and felt my emotions starting to take over once again. But luckily my mom and dad came in with loads and loads of stuff prepared to transform the room to make it homier. All I could do is nod my head in thanks my parents have always had my back and I can't thank them enough. They demanded that I go take a shower informed the pack that my dad would be taking over and also to eat a proper meal that my mother had the cooks at the pack house prepare which should be done by the time I finished. I protested of course but it was a losing battle after my mother threaten to wack my bottom because apparently I'm not to old or big to not still get my bottom wacked. I sighed in defeat kissed all my girls before I left my parents who were completely ignoring me and cooing over the babies. Dad said he would come by when the other ladies get there. They were all at the pack house now they decided to move in there to be closer to the clinic. Which I didn't mind when Montego asked. I figured Lynn would have been there because that's where all single members lived until they found their mates.

The Alpha's Plus Size Urban Human Mate

Chapter 26

Approaching the pack house felt different. Maka wanted to go back to our pups and Jilahni, and so did I so the quicker I get this done the quicker we could go back to the clinic. Maka huffed and retreated to the back of my mind. As I entered the pack house I was glad the common area was empty. It is always pretty empty a couple of hours before dinner mainly because the guards that worked the day shift were just getting off and they liked to shower and relax before dinner. I headed straight to my office where Montego was at my desk going over paperwork he really did step up to the plate when I needed him most. "Hey new papa how are the twins?" He asked getting up from the desk allowing me to take a seat in my chair. "They're great I left them with my parents so I could come and handle some business and inform the pack that my dad would be taking over as acting alpha until Ji'lahni wakes up." I said with no doubt about the last part because she will wake up.

"I'm glad, because your job sucks a*s, no offense." He said with a shake of his head. I laughed. Thanks for covering for me. I really appreciate it." I said as I sat at my desk. "Don't you dare you know we always have each other back. But there is something I want to run by you." He paused suddenly looking nervous which I found weird. "What is it?" I asked with my brow raised. "Well me and Lynn were talking about it, well mostly me. I want to try and mark her. Diago has been really anxious wanting to mark her. He's getting aggressive not wanting other males in the same room with her." He said shaking his head. "Do you think that's a good idea you're the beta and you know their blood is poisonous to wolves." I said. "I know but Diageo insist that the moon goddess wouldn't give us a mate that would harm us, and being your beta has been my whole life ever since we were pups. But I'm willing to risk it to mark my mate its hard to put into words. She's my peace she's my life." He said with conviction. "I get it, If you're completely sure you want to do this I want you to take precautions. This is not a normal mating so you will mark her at the clinic and you can complete the mating where ever you want. Is that something you can agree with?" I asked. "Yes, I understand I'll tell Lynn tonight after dinner." Montego said relaxing.

After that he helped me finish my work. I would make the announcement about my dad taking over at dinner as well. Glancing at the clock dinner would start in a few minutes. I'll go down for dinner then grab some clothes and head back to the clinic I'll shower there I want to get back to my girls as soon as possible. We headed for the dinning hall but stopped by the girls rooms on the way so Montego could escorts Lynn to the dinning hall. They decided to go back with me to the clinic after dinner, because they have to drop off some stuff, but also wanted to see the twins. They loved the nicknames too they were confident that Ji'lahni would love the names as well.

As soon as I entered the dinning hall in the pack house. Everyone stopped talking and looked up. I nodded to everyone as I walked in. Then out of no where I hear a loud scream

and it was none other than my mate. st! I just remembered she insisted on moving into the pack house. Looking at the girls behind me I can tell this isn't about to end well. fk! "Baby you're back! I missed you so much I have been trying to mindlink you but you mistakenly blocked me. Now that you're back we can finally start our new life together." Summer said as she jumped into my arms. I felt our bond stronger now that we were close together. I wrapped my arms around her and inhaled her familiar scent. The need to be closer to her grew the more we stood there. "OMG! can yall take that s**t to your room we're trying to have dinner and go see my cousin and her babies." Mina said loudly. Snapping me out of that bonded hase. I instantly released Summer she glared at me I see she's hurt that I let her go. But that quickly turned into anger when she spotted the girls behind me.

"What the hell are they doing here. Why aren't they in cages." Summer said with a disgust. "See Montego this is why we didn't want to be here." Lynn said with a calmness that gave me goose bumps. "Well none of us wants you here so maybe yall should take a hint and leave." Summer sneered. This time Shawna laughed. "You really wanna talk about taking hints? Please take this hint if you feel the need to talk about me and my cousins every time we see you then understand your face isn't pregnant." Shawna finished walking by us to take the sit Shadow saved for her. "Can you be civil just once." I said to Summer. "I don't understand why they aren't locked away for trying to attack me." Summer whined. "Listen we'll talk about it later. Let's just get through dinner first." I said stepping around her walking to the empty seat at the head of the table with Summer on my heels she pulled her chair closer to me.

I stood up wanting to do the announcement before dinner was serve. "OK listen up I have a few things I need to share with you. First I'm sure everyone is aware that..." I paused Maka knowing what I was about to say and came to the surface immediately not wanting to acknowledge that we marked Summer and that she was now the Luna of Crystal moon pack. Clearing my throat pushing Maka back to my subconscious I started again. "I know some of you know by now that I have marked Summer and she is to be our new luna." I said quickly. There were a lot of shocked faces and quite a few had sad sorrowful looks on their faces most of them, were omegas, they weren't to fond of Summer because she could be a bit dramatic and hard to deal with so I get it only a few people clapped. Summer immediately stood up bedside me grabbing my hand beaming and glowing. "I want everyone to know that as your luna I will make sure that our pack is ran with class and dignity." She said which made Mina and Lynn go into a coughing and choking fit, causing others to snicker.

Summer rolled her eyes and continued. "I have already thought of some changes that I will be making immediately. The first will be that all over night guess has to be approved by me or my gamma who I have chosen my best friend Britney." I could only shake my head looking at the wide eyed shock expression on my pack house members. I knew I needed to cut her off immediately. I cleared my throat to stop her. I didn't know anything about a damn list and she needs to understand that she's to come to me about any changes she wants to make. "We'll put that discussion on the agenda for another time. Now my father will be acting alpha for the next few weeks. As I have to be there for my twin pups while their mother is.." I trailed off this time Maka had nothing to do with it. This pause

was due to the lump that formed in my throat at the mention of Ji'lahni. My pack members also felt that emotion because they had the look of sadness as well. Swallowing the lump I continued. "Their mother has had a traumatic pregnancy and her body needs time to heal. The girls are really tiny and need to be near their mother right now to be fed. So I will be there until Ji'lahni has fully recovered." I finished. Everyone nodded in understanding.

"WHAT?! You can't be serious Kahi. We're mated now. How will that look my mate staying with another female and her pups. You could assign someone else to stay there with her and she has her family there too. What about me, your mate and our pup. Are you seriously going to stay there? You still can't possibly think those pups are yours. Alpha's only bare males. She obviously lied to you she must have slept with another wolf probably Hunter they were quite close at one time and I heard humans tend to sleep around." Summer said with disgusted look on her face. "Wait did she just call my cousin a lair and a w***e?" Mina asked with a disbelievable smile and a look of confusion on her face. "Girl no, she talking about somebody else because I feel like I told her that if she talk about any one of us that her face not pregnant." Shawna said laughing shaking her head. "If the shoe fits." Britney smiled evilly. Just as a size 7 shoe flew across the room hitting her dead in her mouth. She scream and covered her mouth and spit out a tooth. "Did it fit?" Lynn asked calmly. Mina and Shawna burst out laughing looking at each other as the held up their shoe seeing that they all head the same idea.

"OMG THEY'RE LIKE WILD ANIMALS LOOK AT WHAT THEY DID TO MY GAMMA!" Summer yelled. Britney shifted in a flash and leaped onto the table ready to attack just as the girls each pulled a weapon out and aimed it at Britney's wolf. "Yo! Sum sum you better tell your friend she better back the hell up before her brains joins her tooth on this table. I don't give a fk who she is keep my family's name OUT.... OF.... YOUR.... F*****G.... MOUTH . After everything you and your friend have done to my cousin neither of you have the right to speak her f***g name. The only reason I haven't killed you and your friend is because of the men sitting next to us and Kahi. But I promise none of them will stop me from killing you if you so much as breathe in the same room with my cousin or her babies. No... Matter.... the.... consequences" Mina said angrily while Shawna nodded and glanced at Shadow with sad eyes that showed love, acceptance, and forgiveness. He is bound by our pack to protect his luna at all cost. So her eyes showed that she wouldn't hate or be angry at him if he had to kill her to protect his luna.

Hearing a growl I glanced at Montego I see Lynn also nodding her head in solidarity all three of them were in agreement. "ENOUGH! BRITNEY SHIFT NOW!" I pushed my Alpha commend which caused all the wolves to bow and bear their necks Britney shifted back to human and I released the command and she scumble back to her seat crying into Summer's arms. "Kahi what are you going to do about this?" Summer asked as she comforted her Gamma. "Nothing." I shrugged. "Britney brought it on herself. I will not allow anyone including your gamma to disrespect any member of my pack or their mates. I will be staying at the hospital with MY pups until their mother is healthy enough to care for them. But keep in mind that you and Brittany also committed crimes, luna or not if you want people to pay for their crimes as you say then you should be able to do the same." I

said raising my brows waiting for her answer she lowers her head just like I figured she would.

“Britney I have mindlinked your uncle he will be here shortly.” Turning back to everyone. I needed to nip Summers outburst about the twins paternity. “As Luna Summer mentioned my twins... The pups are actually twin girls we initially thought one of the pups was a boy but we got it all wrong.” We have never had an Alpha bare girls but we have never mated with a human woman. before our mates have always been other she wolves. The Doc think that because Jilahni is human her blood and DNA could be why I was able to bare my girls. So Please make no mistake I have NO doubt that they are mine.” I said confidently leaving no room for doubts. “I can also confirm what my son said, they are indeed my grandpups the alpha aura is present.” My dad said with his chest out like a proud grandpa as he stepped through the door. “Dad is something wrong with Ji’lahni or my pups?” I said in a panic already walking towards him with the girls and their men getting up to follow. He held up his hands to stop me. “Son the girls are fine they were napping. But your mother is spoiling them rotten just so we’re clear on who we blame later.” He said smiling. But anyone looking, would see the truth once they see the drool on each of his shoulders and chest it’s evidence of who is really spoiling them.

“Sure dad. You came just in time I just told the pack that you will be acting Alpha until I return. I will let you reach out to our allies to inform them of the change... Montego will also help as well.” I told him. “Sounds good son. No worries I’ve done this before I think I still got it.” He said looking every bit of the Alpha he once was. “Your mother did say for you to make sure you eat and rest a few hours before you head back to the clinic.” He said with a shrug just as the omegas brought the food out. I nodded and walked back to my chair This is about to be the fastest dinner on the planet. I will eat here, but I’ll rest when I get back to the clinic. Maka was clawing and growling to get back to his pups and Ji’lahni and I must admit I felt the same way. I wish I knew what the hell was happening. Why is my connection with Jilahni still there why didn’t it snap when I marked Summer. Why is my and Summer’s bond not as strong as it should be even with only my mark. I BETTER FIGURE THIS s**t OUT FAST. As the dinner was brought to the was brought to the table.

The Alpha’s Plus Size Urban Human Mate

Chapter 27

Summer POV: 3 hours earlier

“What the hell! I thought when me and Kahi mated he would be mine completely. But he still wants to be around that fat b***h!” I yelled pacing as Britney sat on the sofa looking bored. “Maybe if you completed the mating that will do it.” Britney said shrugging. “It shouldn’t matter Kahi is an Alpha his bite should have broken any bond he had with the human. But she must have done something to him. I think it’s those mutts she’s carrying I bet that is the reason he is still there and insist on being there, you know how he is. Maybe once they are born he can focus on me and his pup.” I smile rubbing my belly. “Do

you really believe that. The alpha is not the type to not take care of his responsibilities.” Brit responded. “Are you trying to ruin my already f****d up day. You’re my gamma you’re supposed to support me.” I growled which made her jump. “I have been supporting you from day one I thought you would want to know the truth.” Britney said in her defense.

The phone ringing distracted me from responding I walked over picking up the phone. “Hello.” I answered. “Hi my beautiful niece.” My breathe literally left my body my knees buckled and I would have hit the floor if it weren’t for Britney. “Why are you calling me? What do you want with me.” I asked, angrily. “Now is that anyway to talk to your favorite uncle who got you what you wanted, Alpha Makahi. You should be thanking me for making your dreams a reality.” He said with a chuckle. “You kidnap me and then held a knife to my neck and tried to kill me.” I yelled and he only laughed. “Oh sweetheart the alpha has a heart of gold which makes him predictable. I knew he wouldn’t allow me to kill you even if you deserve it.” He said. “What do you want?” I asked impatiently. “I just called to see how my mate was doing, Has she giving birth yet?” Zane asked. ” I don’t know, they won’t let me near the clinic and Kahi is still has feelings for her, he’s there right now with her.” I said getting angry just thinking about it. “That’s impossible their bond should have been broken when he marked you he’s an alpha so his mark should have been enough.” he said in disbelief. “You Need to get him away from her I don’t care what you have to do. Remember if I don’t get Jilahn I will make sure that you don’t get the Alpha. Understood?” I swallowed hard at his threat. I really wish Kahi would have just killed him that day in the tunnels then I would only have one problem to deal with. “Yes uncle I understand completely don’t worry about anything she will come running back to you soon.” I said with more enthusiasm then I felt. “Good maybe try getting him in bed and marking him. Then there is no way he will still feel anything for my mate. Once you have bonded with the alpha. you will move on to phase 2 Don’t screw this up. I would hate it if anything happened to that pup you’re carrying. It would be a shame.” He said before hanging up.

“What the hell have you gotten yourself into Summer? why would you scheme with the man who kidnapped and threaten to kill you?” Britney asked. “I don’t know OK! I was so angry at Kahi for blowing me off and focusing on finding the human. He promised me that I would be luna and that we would start a family. But that all changed when those bitches showed up. When we found out I was pregnant you know why I couldn’t tell him it was luck that he was out searching for those bitches. So when we came up with a new plan, I went to my uncles pack because Kahi had already been there and knew he wouldn’t come back. Like we planned if I could find the humans before Kahi did I could get rid of her and be back at the pack house to console Kahi for a day or 2 and then we could be together. It wasn’t hard to find my uncle he always has someone who does all his paperwork. I just paid him a visit it didn’t take long for me to stroke the information out of him. But what I didn’t know was that he would find out I was pregnant from his pack doctor, you already know why I didn’t want to get checked here, that would ruin our plan.

Anyway, so my uncle decided he could use me and my pregnancy to his advantage. I tried to refuse but he gave me no choice. That’s when he told me the plan, it did give me everything I wanted but I really didn’t have a choice. Everything was going according to

plan until that b***h went into labor and Kahi marking didn't break their bond completely. If I don't seal my bond with Kahi everything will be ruined." I finished as I began to sob. Brit came over and put her arms around me." Don't worry we will figure something out. First we need to get Kahi here and once he's here get him alone and work your charm he reacts to you so the bond is there. You just have to use it to get him in this bed." She said smiling at me. This is why she is my gamma she always has my back. And she was right i just have to work my magic and our bond to finish the mating. Then I can put all this stuff behind me. "Your right, I can do this. Once I'm officially Luna and our bond is complete I can finally get rid of all those fat bitches once and for all." I said wiping my eyes. "I'm glad because that will mean I'll finally get Montego once and for all." Brit said which was the pak we made when we were teenagers. I missed the days when life was simple. "Let's go eat dinner.

Pack house dinning area:

"Where is Khai? He said he would be here for dinner so we could spend some time together and spend time alone." I said irritated. "It's early still. He'll be here I heard someone say they thought they saw him come in earlier so he may just be doing some business before dinner, so he could spend some uninterrupted time with you." Britney said encouragingly. "Yea you're right let's go sit down since I'm luna I get to sit beside Kahi at the head of the table. I hope he announces our mating tonight to confirm my position so I can make some real changes around here. I plan to be a better luna then his mother. I don't know why they insist I need training because I don't plan to run the pack like none of the luna's before me we have evolved and luna's can have more important roles, then cleaning snotty noses and catering to whining she wolves all day. We'll have balls and dinner parties so the top packs will see that we're the most prestigious pack in the country." I said giggling. One of the guards walked in narrowing his eyes at us as he walked our way. Blaze was a pain in my a*s he always had something smart to say. I'll be glad when Kahi makes the announcement that I'm now the Luna so he will have no choice but to respect me. "What do you want glaze?" I said and Britney stifled a laugh. "It's blaze but you knew that just like you know that the seat that you are sitting in belongs to the Luna." He sneered. "Yes I do know who sits in this chair for your infor..." "The Alpha and Beta are here." Britney interrupted.

I looked up and saw my mate enter the room he looked like a Greek God my heart always skips a beat when he enters a room. It was strange that I didn't feel or sense him. That was weird I know I heard mates say they could feel their mates when they are near or before they even enter a room. Maybe it will be stronger once we're fully mated. Which only made it vital that I complete the mating tonight. I screamed excitedly hopping up and running to him and practically jumped into his arm and kissed him passionately feeling the tingles all mates feel once they're marked. "Baby you're back! I missed you so much I have been trying to mindlink you but you must have mistakenly blocked me. But now that you're back we can finally start our new lives together." I said. As he wrapped me in his arms. It felt so good to be in his arms.

"OMG! can yall take that s**t to your room we're trying to have dinner and go see my cousin and her babies." The miniature one they called Mina said loudly. Which made Kahi

instantly released me and she had the nerve to glare at me. It hurt that Kahi let me go so quickly like he did something wrong but that only pissed me off. “What the hell are they doing here. Why aren’t they in cages.” I said with a disgust. “See Montego this is why we didn’t want to be here.” Lynn said calmly but that don’t scare me . “Well none of us wants you here so maybe yall should take a hint and leave.” I sneered. This time Shawna laughed. “You really wanna talk about taking hints? Please take this hint if you feel the need to talk about me and my cousins every time we see you then understand your face isn’t pregnant.” Shawna finished walking by me to take the sit Shadow.

“Can you be civil just once.” Kahi breathed tiredly. “I don’t understand why they aren’t locked away for trying to attack me.” I pouted. “Listen we’ll talk about it later. Let’s just get through dinner first.” Kahi said stepping around me walking to the empty seat at the head of the table I followed by with my head held high as everyone followed me with their eyes. I pulled the chair closer to Kahi. He stood up to make an announcement and I just know he’s about to announce to everyone that I’m the new luna. I could barely contain my happiness. “I know some of you knows by now that I have marked Summer and she is to be our new luna.” Kahi said. There were some shocked faces but who cares now that they know they have to respect me they can’t say anything to me.

I immediately stood up bedside my mate grabbing his hand. “I want everyone to know that as your luna I will make sure that our pack is ran with class and dignity. I have already thought of some changes that I will be making immediately. The first will be that all over night guess has to be approved by me or my gamma who I have chosen my best friend Britney.” I said wanting them know that I’m serious about changing this pack for the better. Before I could finish Kahi cut me off. Clearing his throat. “We’ll put that discussion on the agenda for another time. Now my father will be acting alpha for the next few weeks. As I have to be there for my twin pups while their mother is..” He paused. Why is he claiming those mutt its obvious they’re not his. “Their mother has had a traumatic pregnancy and her body needs time to heal. The girls are tiny and need to be near their mother right now to be fed. So I will be there until Ji’lahni has fully recovered.” He said and I immediately saw red. “WHAT?! You can’t be serious Kahi. We’re mated now. How will that look my mate staying with another female and her pups. You could assign someone else to stay there with her and she has her family there too. What about me, your mate and our pup? Are you seriously going to stay there? You still can’t possibly think those pups are yours. Alpha’s only bare males. She obviously lied to you she must have slept with another wolf probably Hunter they were quite close at one time.” I sneered loudly.

“Wait did she just call my cousin a lair and a hoe?” Mina said chuckling in confusion. “Girl no she talking about somebody else because I feel like I told her that if she talk about any one of us that her face not pregnant.” Shawna said laughing shaking her head. “If the shoe fits.” Britney smiled evilly. Just as a size 7 shoe flew across the room hitting her dead in her mouth. She scream and covered her mouth and spit out a tooth. “Did it fit?” Lynn asked calmly. Mina and Shawna burst out laughing. I jumped out my chair going to Britney. “OMG THEY’RE LIKE WILD ANIMALS LOOK WHAT THEY DID TO MY GAMMA!” I yelled. Just then Britney jumped up and shifted and leap on to the table ready to attack but the girls who each pulled a gun out and aimed it at Britney’s wolf. “Yo Sum Sum you

better tell your friend she better back the hell up before her brains joins her tooth on this table. I don't give a f**k who she is keep my family's name out of your f*****g mouth. After everything you and your friend has done to my cousin neither of you have the right to speak her f*****g name. The only reason I haven't killed you and your friend is because of the men sitting next to us and Kahi. But I promise none of them will stop me from killing you if you so much as breathe in the same room with my cousin or her babies. No... Matter the. Consequences" Shawna said.

"ENOUGH! BRITNEY SHIFT NOW!" Kahi used his Alpha commend which caused all the wolves to bow and bear their necks Britney shifted back. I looked at Kahi. "Kahi what are you going to do about this?" "Nothing." He shrugged "Britney brought it on herself. I will not allow anyone including your gamma to disrespect any member of my pack or their mates. I will be staying at the hospital with MY pups until their mother is healthy enough to care for them. But keep in mind that you and Brittany also committed crimes, luna or not if you want people to pay for their crimes as you say then you should be able to do the same." He said waiting for me to answer I decided to let it go for now and just lowered my head.

2 hours later.....

"I can't believe this I can't believe Kahi is going to stay with that fat b***h and her mutts." I paced as I mindlinked Britney. "I know those bitches are ruining everything I can't believe that w***e knocked my tooth out. I want to kill that little b***h and the one Montego is with." Britney said through mindlink. "Kahi is here in the shower but he has packed a bag so he can go back to the clinic with those mutts." I said sadly. "You need to find a way to get him to complete the mating if he plans on staying then this is your only shot." She said. "I know but how?" I asked frustratedly. "Do you still have that bottle of liquor from before." Britney asked. I immediately jumped up and went to our closet I pulled the shoe box from the back of the closet. Inside was a bottle of kahi's favorite liquor which was especially made by our pack doctor in order to make wolves feel tipsy or even drunk but we added something extra to cause a wolf to crave s*x. "Yes I still have it." I said. "Well you need to use it and finally complete the mating so we can get rid of those bitches once and for all." She replied. "He's getting out of the shower gotta go." I cut the link and rushed to grab a shot glass for Kahi and a wine glass for me I filled his up and poured me some wine and waited on him to exit.

He came out wrapped in a towel his body was glistening still dripping wet. He had a 6 packs that made you want to lick every single one. Kahi clearing his throat brought me back to the moment. I walked over to him handing him his liquor. "I shouldn't the twins will need me to be focus I may have to stay up all night." He said with a shake of his head. I panic trying to think of something. "But we haven't spent any time together at all since we've been back we're finally mates and we have not spent any time together at all. You tell me you're going to be staying at the clinic and me your mate will be left alone and you can't even be bothered to have a drink.." I said turning away from him. He suddenly grabbed me from behind and buried his head in the crook of my neck where his mark was I shivered feeling his breath on my mark. "I'm sorry I understand how difficult this must be and I promise once all this is over everything will be as it should be please just be

patient.” He said turning me around taking his glass and walking me over to the sofa and when he sat down I sat on his lap instead of the sofa. I wanted him to drink the liquor right way because I don’t know how long he was going to stay. “Let’s toast to celebrate our new life as alpha and luna of Crystal Moon pack.” I said clinking our glass. He drank the whole shot glass. Now all I need is for the liquor to start working. Taking his glass and putting mine and his glass on the floor.

“Kahi I know the way we became mates isn’t how you nor I thought it would be. But we always planned to mate we just didn’t expect it to happen like that but we’re still mates regardless and I love you.” I said with tears in my eyes. He pulled me further into his lap. ” I’m sorry, I never wanted to hurt you. We’ll figure this all out.” he said taking a deep breath...”Ummm you smell so good.” He said close to my ear. The liquor must be kicking in. I straddled him and just started kissing him.” He kissed me greedily and grabbed my hips. I immediately started grinding on him and he moaned and thrust his hips up to apply more pressure on my p**y and his d**k. I broke off the kiss and lifted my dress over my head I made sure I had something that I could get off easily... throwing the dress on the floor I immediately started kissing him again. I slid my hand down his chest and reached for his towel which was the only thing standing between us. Just as I was about to remove it Kahi stopped me. And I groaned as he broke the kiss. “I can’t do this.. I mean we can’t do this. I have to get back to the clinic.” he studded. “Nnnooo baby I want you so bad and I can feel you want it as much as I do.” I said as I reached for his c**k and started stroking him his hips jerked at my touch and he groaned loudly I took that moment to put his d**k at my entrance and took him in as I started riding his d**k as his head fell back and he groaned in pleasure. I was moaning and riding his d**k it felt so good I almost forgot the mission. I started kissing his neck as I rode him faster. My teeth elongated and they brush against his neck. I lift my head slightly and just as I was about to mark him he all of a sudden he lifted me off his lap and carried me to the bed and dent me over and thrust his d**k inside. He always loved it from the back and knew how to make me c*m non stop. I moaned loudly as I came hard when I felt him explode inside me and I literally passed out when he pulled out of me and climbed on the bed. Damn it I can’t believe I didn’t mark him. What the hell am I going to do now.

MAKAHI POV:

“SON!” I jumped up looking around at the sound of my mother yelling in my head threw the mindlink. I quickly looked around and everything came crashing back in my head. JI’LAHNI, THE TWINS! Jumping up. “Mom what happen is it the twins or Jilahni!?” I mindlink in a panic my heart feels like someone was squeezing it inside my chest. “Calm down son you weren’t answering your door or anyone’s mindlink. We were expecting you back to the clinic tonight. I left the girls there with Jilahni and the twins. If you need to rest I’ll head back over right now.” she said. “No no I’ll be there I’m leaving now. I’m fine I had some business I needed to finish time got away from me that’s all.” I say as I take in the scene and spot Summer laying naked in bed looking down at my d**k coated with her c*m. I closed my eyes as guilt and pleasure crashed into me. I shouldn’t be feeling guilty she is my mate after all. A flash of earlier struck me as I remembered feeling Summers teeth on my neck I quickly touch where my mark would be and felt only smooth skin I

sighed in relief. I have to be more careful I can't let anything like this happen again not until I found out if I can get it removed.

I picked my towel up off the sofa and saw the glasses from earlier on the floor I didn't intend to drink or get tipsy but Summer was so upset and I know the situation isn't easy for her. Despite everything she has done the bond doesn't allow me to hate her and us having s*x only makes the bond stronger. Grabbing some black basketball shorts and a black wife beater I headed to the shower. "Hey baby where are you going come back to bed." Summer said stretching looking sexy as hell as much as my body wanted to go back my heart and mind wanted to get back to the clinic to my family. Again the guilt of sleeping with Summer while Jilahni and my girls are in the hospital fighting for their life hit me hard. "I can't I have to go back to the clinic my mom left so I have to get back." I said as her face flashed with anger but quickly changed to sadness. "Isn't her family there they could take care of them along with the clinic staff I could even mindlink Britney she used to work there I'm sure she wouldn't mind going and helping." Summer said. "Britney is never going anywhere near my pups. I don't trust her, and the doc already know she's not allowed at the clinic as long as my pups are there." I said so harshly that Summer flinched.

"How long do you expect this to last we're mates and have a pack to run. It seems as though ever since those humans got here everything is about them and making sure they're happy while everyone else suffer." she said angrily. "As long as my girls are in the hospital that's where I'll be and let's not forget all this happened when you decided to call your sick twisted a*s uncle onto my pack allowing him to take humans that were under my protection. So let's take accountability for your part. This isn't how I wanted things to be. But I'm going to do what I think is right. I will try my best to make sure we spend as much time as possible. Please just be patient." I said not waiting for a response I honestly didn't have time to deal with her drama I needed to get back to the clinic.

I took a quick shower and dressed in the bathroom I left the bathroom and headed straight to the door thanking the goddess I packed my bag earlier. "Will I see you tomorrow?" Summer whimpered softly. "I'll try my best to see you tomorrow I promise." I said walking back to her and kissed her softly, which she immediately tried to take advantage of. Although tempted I pried her arms from around me and walked out of the room as she continued to whimper. I ignore the pinch of guilt, because my need and Maka's need to be with our girls was greater. I rushed out of the pack house and ran the short distance to the clinic. Everything was quiet except for the cries of what can only be my girls.

Walking into Jilahni's room which looked nothing like a hospital room it had art on the walls a radio and 2 rocking chairs a fluffy rug in the center of the room the windows had nice curtains the bed was a big bed with a small makeshift bassinet in the middle beside Jilahni's still sleeping form. My heart skipped a beat at just the sight of her, she was so beautiful. I felt guilty that she is in a coma because of me and doing everything she could to make sure she survived so our pups were born safely. At the thought of my little pups I looked to where Shawna and Lynn were pacing and bouncing each twin trying to quiet them which wasn't working but what I also found odd is that the babies weren't trying to

use their aura on the girls. They can't possibly know the girls aren't wolves. I walked over to them and the girls immediately piled the girls in my arms and dropped in the rocking chairs looking like they just got finished chopping trees all day.

"Where's Mina?" I asked looking around. "Bed she can't stay up late. If we would have let her handle the girls they would be crying in the dark while she would be in that bed sleep. Mina could be talking and laughing and be sleep in the next second. It's crazy we always thought she had the drops. Shawna said and they both laugh loudly but quickly shut their mouth remembering the girls who were currently looking in my face silently. They glanced at them and then looked at each other.. "Do you see that s**t what kind of foolery is that they been crying for the pass 15 minutes and time you come in they quiet. Ok we see how this about to be. Don't come to your tee tee when daddy don't let you talk to boys when you get older." Lynn said as they both came over to kiss the girls on the cheek. "I will kill any male that comes close to them." I growled out. The girls both burst out laughing shaking their heads. "Oh man you're about to be big mad. I know I want front row seat and a brand new phone when that day comes." Shawna laughed. "I promise we're going to record the whole thing from start to finish he gone have a heart attack and die then come back to life and have a stroke die again then have both when dudes come over to pick them up for a date." The girls said laughing walking out the door still talking about something that was never going to happen.

They will never date or mate any male I will make sure that everyone knows to keep their male wolves away from my girls I thought. Me and Maka were pleased with that plan because he didn't mind killing any boys that would try and come around his pups. We agreed on that 100%. Looking at the girls who were looking at me. "Don't give me that look, you better not even think about boys ever." I said, walking over to Jilahni's side of the bed the nurses left the pillows in place so I placed one pup on each side of her and climbed in bed beside them and wrapped my arm around them making sure my hand was on beah who was on the outside of the bed even with the rail up I still needed to make sure she was safe. Staring at Jilahni I felt a little guilt creep into my heart at what I did with Summer earlier. "I kissed her lips softly and that small connect caused her body to jolt at the familiar electric tingles we feel every time we touch and her lips moved to kiss me back. I sat up on my elbow quickly, eyes wide. "Jilahni baby can you hear me. Baby can you hear me. Please baby wake up." I said as a lumped formed in my throat when she didn't make any other move or sound. I guess it was just all in my head. I laid back down beside them. I needed to try and get some sleep while the pups were sleeping.

The Alpha's Plus Size Urban Human Mate

Chapter 28

Jilahni's POV :

What the hell? I remember holding my little girl in my arms and then feeling the urge to push again but then I started to feel dizzy and the pain went away and I just felt the urge

to sleep. Oh s**t am I dead damnit stop cussing lahni if you are you about to meet God and you cussing are you trying to go to hell. “Your not in heaven sweetie you’re in limbo while you’re body tries to heal itself.” said a voice that came into view. She was a beautiful brown skin woman that looked like an African queen she had on an African head wrap with African inspired jewels on it. she had a white wrapped dress with a African belt she had eyes that looked iridescent. You couldn’t say they were a specific color they looked so beautiful like if you stared long enough you would be hypnotized.

Shaking my head to clear my thoughts. “Are you God if you are God then I’m telling you right now that they got it all wrong down there and I had nothing to do with that.” I said and the God lady laughed. “I’m not God as I said you’re not dead so you won’t be meeting him just yet. I’m Silene the Goddess of the moon the creator of all werewolves.” She said with pride. “Wow.... I’ll be honest with you I didn’t even know you were a thing until.... Hell I didn’t know werewolves were a thing. Oh s**t my bad I’m sorry.” I said. Thinking even if she isn’t God she close enough to one and cussing is a no no. “No worries child feel free to express yourself however you wish you have been through a lot.” The God lady said. I frown if she is the moon goddess why am I here I’m not a wolf. Oh s**t am I a wolf now? when? how? oh damn I don’t want to be a wolf... I thought freaking out on the inside. “Calm down child you’re not a wolf. I came to you because you my dear are the mother of the first ever Alpha halfbreed shifters.

They are very special pups they will be very strong and have more powers then any other shifter in the world, and because of this, they will be targeted by people who will try to use, take, or harm them because of their abilities they’re I graved danger some have already found out about them and their gift and will try to take them, But you must protect them.” she said urgently with sadness. “How can I do that I’m just a human I don’t have any super human strength to go against Alpha’s and entire packs.” I said with fear and anger taking over my entire body at the thought of someone trying to hurt my babies. “Why me? Why would you do this to my babies why did you choose me to be their mother when I can’t protect them?” I asked as I started to cry. The God lady laughed which made me look up at her like she was crazy. See she about to make me mad because I don’t see a damn thing funny. Ain’t s**t funny about my babies being in constant danger. She came to stand directly in front of me and bent down to look me in the eyes.

“Child I have giving you everything you need to protect your pups. Why do you think you and you family survive ingesting wolfsbane. Your blood can kill werewolves. And your friend Lynn, I made sure she came into your lives I saw that she was a strong Warrior a protector she her bloodline has special abilities that she has yet to tap into but her time hasn’t come just yet. She’s an outsider to her own people and she needed a family and so did you and your cousins who lost your entire family. I choose you because when you lost your entire family you immediately took on the role of leader even as you suffered from that lost. You fought through it for your cousins who needed your strength to get overcome your tragedy. It was never a question you step into it without thought those are characteristics of a strong Alpha female you and Kahi are the strongest pair that can raise, protect, and love the first set of alpha twins that will change the werewolf world.” she finished, straighten to her full height.

I was speechless trying to process everything she just said, after a second. “Wait how is all this supposed to happen Kahi has marked Summer and she is pregnant with their son the next alpha?” The God lady snorted. “That she wolf is a nasty one you will have to deal with her the most. I can’t fight your battles, you and Kahi still have a connection, even after he marked her and that doesn’t happen in the werewolf community if you love him then you need to fight for him I don’t take away their ability to choose. The werewolves have a choice between their other half mates that I have chosen for them and a chosen mate that they choose for themselves. The mates I have paired, holds the other half of their wolves souls you my dear Chile hold the other half of Makahi’s soul and no one not even Summer can change that. But you can not tell him that he has to choose you on his own. It is up to you whether you let him in when and if he chooses you. You tell him everything about your pups when the time is right.” She said turning to leave to go back the way she came. “Hey where are you going are you going to leave me here? How do I go back?” I yelled looking around not seeing no door no exit stage left sign nothing. The God lady stops and turns to me with a smile. “Well Chile that’s easy just wake up.” She said then disappeared.

“Well how the hell do I do that?” I yelled. Just as I feel something like a strong hand push me back and I fell ready to fight who ever pushed me. Then suddenly I’m in complete darkness and I can hear crying and people talking I’m trying to open my eyes but they seemed to be glued shut and I’m so exhausted it feels like I ran a marathon everything hurts and I’m just so tired maybe if I sleep for a while I’ll have more strength to open my eyes. I feel myself drifting off again but this time it’s different and feels like I’m simply falling asleep. Thank God because I damn sure don’t want to go back to limbo. That was my last thought before I drifted off to sleep.

Makahi POV :

DAY 10

I’m officially a walking zombie I know what it feels like to be dead on your feet. It has been a little over a week since the girls were born and Jilahni was still in a coma. There has been no changes at all which I guess is a good thing. The girls are keeping everyone on their toes. Even with my parents and the girls we are all tired. But the girls are spoiled and loved up on by each one of us. No matter how tired we were we still wanted to hold and love up on them every chance we get. The twins were bonding with Jilahni as well. We make sure they get fed and have skin to skin contact with her. Her cousins pulled up old videos so they can hear their mommas voice and you can tell they know it because every time someone turns it on they react in some way. We put them in her arms and put the phone next to her head so they can see and hear her. We don’t know if they actually get what we’re trying to do but they react positively so we will continue to do that until she wakes up.

It’s 6 am and the girls are ready to be fed they are putting up a fuss because I had to change their diapers first. “Well if you want to be fed first then you should try not pooping in your diaper before a feeding.” I said over beah’s cries while Tru doesn’t cry but stares daggers at me for making her sister cry. “Hey don’t give me that look I didn’t poop

she did.” I said leaning to kiss her little nose. “Who is making pop pop babies cry do I need to knock somebody’s head off.” My father said coming into the room he always came here for an hour before he started his day, an hour at mid day and after he leaves the pack house for the day and even comes back after dinner sometimes. He spends all his free time with his chocolate sundaes. “Whose bothering pop pop chocolate sundaes.” He says in his baby voice as he pushes me out of the way and picks them up. They wiggled excitedly at seeing their pop pop all the anger they had about being fed forgotten as they cooed and grunted talking baby gibberish trying to tell their pop pop how I treated them.

I smiled rolling my eyes as he act like he understands everything they’re saying and even talks back. Shaking my head I head over to Ji’lahni to set of the feeding bed for the twins. I’m practically a pro now. “Hey baby.” I whispered kissing her lips it’s a habit now ever since the first night when she reacted I have been doing it ever since. She still reacts but doesn’t wake up. The reaction reassures me that she is still in there and it calms Maka. “Are you going to wake up today its supposed to be a beautiful day outside. The doc says I can take them outside for a walk around the community. There’s so many people who are dying to me them. I would love it if you could be with me to introduce them to our pack. All you have to do is open those beautiful eyes of yours.” I say as I finish with the bed and my dad comes and hand them to me one at a time. once I have them settled and feeding, me and dad sit in the rocking chairs to wait for the burping break.

“So the doc is allowing them outside today? Are you going to get everyone together or are you just going to keep it to the people you may see while you’re out?” He asked rocket in the chair he eyes on the girls waiting to see if they even move the wrong way. Shaking my head. “I think I just want it to be low key I was thinking about walking to your house maybe the pack house when it’s pretty empty, like right after lunch. The doc doesn’t want too many people near them because he still doesn’t know what qualities they inherited from our side and what they inherited from their human side they could be vulnerable to sickness and by them being so small he want to play it safe.” I said looking over at my girls. “That’s great news son just call when you’re on the way and I’ll make sure only a few people are in the pack house . They are really small for wolf pups and human babies, How much do they weigh now? It seem like they’re putting on weight.” He asked. “Yea they are, but not much. Beautiful weighed 4lbs 6oz she’s now 5lb 12oz Trouble weighed 3lb 15oz she’s now 4lbs 13oz. Their lungs are fully developed which the doc think it is because they’re half alpha wolves. He doesn’t know if they will shift or not and I don’t want them to run any test on them while they are so small and I don’t want them to do anything until Ji’lahni is awake. No one will treat my pups like lab rats. I understand we all have questions and want to know more about how this all happened and we will get some answers eventually but it will be at a pace that me and Ji’lahni set.” I told my father that nodded his head in agreement.

“The doc informed me that rumors have been spreading about them and other wolf medical experts from different pack clinics who want to come and run test on them and some have gone so far as to say they want to take them to their facilities for testing because they aren’t me and my mates children but pups with an unmated human so they assume I wouldn’t care. Which I immediately shut down and inform the doc to tell them that if my nose twitch and their scent is even on a breeze I will rip their throats out. I will

kill anyone who tries to take my pups.” I growled out and Maka came to the surface remembering the conversation I had with doc a few days ago. “You got that right. But they will have to go through me and everyone of us to get to them. Your mother especially and you know what happens when you mess with your mothers pups. She even scares me sometimes.” He said and we both laugh as the alarm beeped to burp the girls who protested being taking from their mother’s breast. We burped them and place them back in their mothers arm to finish their feedings.

“Well son I’m going to go I have a conference call with your uncle about some pack issues. That I think it is just him wanting to hear about the girls he acts like their his grandpups but my chocolate sundaes only has one pop pop isn’t that right?” he asks going to the girls kissing their little feet before he leaves, once alone I mindlinked Montego and Shadow. “Montego you and Shadow meet me at the clinic around 1pm.” ” We’ll be there.” They both answered. I also mindlinked feonia to have one of the omegas bring over a scroller from my mother’s house. She had all the baby stuff moved to her house until Ji’lahni wakes up since her cousins are staying at the pack house. Once I had everything set for their first outing I burped them and got us all settled kissed their heads and decided to sleep while they slept.” By 1pm I had the girls dressed in purple and pink rompers with polka dots Tru had on the pink with purple polka dots and Beah had on the purple with pink polka dots both had matching socks and head bands I only brush their curly hair because that is the extent of my abilities. I had bottles of breast milk, diapers, and wipes.

Just then Montego and Shadow came and poked their heads in “Hey is everybody decent.” Montego asked. “Yes. Come on in we’re almost ready.” I said picking up Tru. “Ready for what? Shadow asked. “You and Montego have Alpha’s guard duty today.” I said handing Tru to Shadow and then handed Bea to Montego. I laughed at the sight of them frozen in place as they held both pups on their shoulders while the girls wiggled and squirmed. Still laughing I went over to Jilahni. “Hey baby I’ll be back in a couple of hours I’m taking the girls for a walk mom is coming to sit with you while I’m out.” I said before kissing her that seem to shock both Montego and Shadow. When I lift my head they were looking at me questioningly. “What was that? You marked Summer how is it that Jilahni’s touch doesn’t repulse you or physically affect you or Summer?” Montego asked curiously. “I don’t know after I marked Summer. I thought me and Jilahni’s bond and connection would be broken but when I touch her I still feel the same jolt and connection I had from when we first met.” “How is that possible no wolf has ever had 2 mates before.” Montego said in disbelief.

“I don’t know. The only thing me and the doc can think of is because Jilahni’s Is human and my other half mate and Summer isn’t and I practically forced Maka to mark her. I feel the mates bond with Summer but it isn’t strong and I haven’t allowed Summer to mark me and I don’t plan to until I know for sure that I cant undo the marking without hurting Summer and her pup.” I said in deep thought. “Her pup? Don’t you mean you and her pup?” Montego asked with a raised brow. “Yea that’s what I meant.” I said quickly not wanting to get into why I don’t feel a connection with our pup. Because I honestly don’t know why but my feelings are different then my feelings when I found out about the twins.

So until I can figure it all out I won't dwell on it. Grabbing the scroller and diaper bag I headed to the door I gave the men blankets to cover the pups. "Hey where are you going with the scroller we haven't put them in yet." Shadow said in a panic. "That's because they're not going into the scroller until they need to feed or nap. They're wide awake so I want them to be able to look around, so let's head out." I said walking out the door with them walking slowly behind me like they were carrying boiling water that was filled to the rim. As we walked people came up to us and the babies which Montego and Shadow protected the girls from being touched and kissed growling at everyone that got too close to them.

I smiled as I watched as they relaxed more and more as we walked. The girls were on their best behavior talking, grunting, and passing gas which Shadow found hilarious. They now had the girls in the center of their chest facing forward so they could see everything. The girls were kicking their blankets off repeatedly. But every time they did the guys put it back on, then girls would just kick it right back off. I now think the girls are doing it on purpose at this point. We walked until it was time for them to be fed and changed. I decided to do it at the pack house my dad said Summer and Britney went on a shopping trip to redecorate the pack house. I will have to talk to her about this I have been spending time with her in order to keep her stable and not causing drama.

We haven't had s*x since the first time I went to the pack house after the girls were born. She always tries to have s*x and mark me but I always have an excuse or claim to be to tired. But I need to let her know that she needs to start taking on more important luna duties that being luna is more then shopping and redocorating. But it wont be now not with my pups present. Walking into the pack house. My dad met us at the door. Again pushing me out of the way almost knocking me over. "Hey!" I said in fake outrage. "Well move out the way faster. Nobody wants to see you son we've been looking at your ugly face for 25 years. I want to see my chocolate sundaes I haven't seen them in a long time." He said cooing at the pups. "You just saw them this morning." I said rolling my eyes. "Yea like I said a long time." he said as I laughed. I heard a loud exciting gasp and giggles. I turn around to see Mina, Shawna, and Lynn coming out of their rooms running my way and once again I'm knocked out of the way by them as well.

"Ok so everybody acting like they don't see me today?" I said cross my arms over my chest. "Oh we see you, but you act like you don't know we want to see our tinker bells way more then you. You be in the way and move to slow. You're a wolf you should be able to move out the way faster then that." Mina said. "I just told him that he moves like a turtle." My dad said. As he went to the sofa with Bea in his arms nuzzling her neck inhaling her scent. His eyes flash to his wolf and the pride his wolf had was the same pride Maka has being the first Alpha to have female Alpha's in their bloodline they don't feel what most would feel like they wouldn't be strong enough to lead because they were girls and half human all our wolves felt was pride and love. This is the first time I have ever seen my dad's wolf seem so soft and gentle.

Once the girls are older we will have to shift in front of them in order for them to bond with our wolves but that will have to wait and it seems as our wolves are content with just coming forward without shifting. Shadow handed Tru to my father when he reached

out for his other grandpup. The girls following and sitting on the sofa surrounding them then took their diaper bag from me. Basically saying they no longer have use of me. “Well since I’m no longer needed here. Dad I’ll go over the paper work you mentioned earlier that you want me to read before you sign. It’s time for there feeding everything is in the diaper bag.” I said to them. “Yea yea its on the desk.” My dad said not even bothering to look at me. “I don’t know if I should be offended that nobody cares about me anymore or not.” I mumbled smiling. “Awe we care about you alpha. Do you want hug.” Montego said giving the fake concern look. “Montego if you touch me you won’t have to worry about having pups.” I said as we entered the room. Laughing.

The Alpha’s Plus Size Urban Human Mate

Chapter 29

SUMMER POV:

“I CAN’T BELIEVE THE PACKS CREDIT CARD WAS DECLINED!” I yelled as we made our way back to the pack house. Me and Brit went to a nearby town to shop. I took the card from his drawer in our bedroom. I wanted to redecorate our room and then the pack house I want it to have a classy elegant feel to it. “Did you let him know what you wanted to do?” Brit asked me. “Brit I’m the Luna of the pack I shouldn’t have to tell him things like this it is my job as luna to make sure we look presentable. He hasn’t even bothered to get me my own card yet. Since he spends all his time with that slut and her half breed mutts. I have been calling every pack and clinics in the country to tell them about the mutts, hoping they would try to take them away which would mean Jilahn and her cousins would follow but apparently Kahi always refuses. I contacted the counsel and informed them of the birth of the mutts and that Kahi is refusing anyone to test them in order to learn more about them and that he couldn’t be the father because they were twins and girls which isn’t possible for an Alpha. Hopefully they will force him to hand them over.” I said hopefully. “Do you think that will work?” Brit asked. “I hope so because I don’t know how much longer I can take this. He spends almost all his time at the clinic and when we’re together I know he feels the pull of our bond but he will not act on them. We haven’t slept together since the last time and I can’t get him to drink either. So I can’t mark him, he says he wants to wait until we can do it properly. But I’m not so sure if that is the real reason or not.” I said frowning.

“Well let’s just hope that this works because I can’t even get Montego alone to talk to him. That Asian b***h is always around and I heard he was planning to mark her knowing her blood is tainted with wolf bane. I’m trying to talk some sense into him but I can’t get him alone. We were getting to know each other before they got here. But now I can’t even talk to him alone.” Brit said in frustration. “What? Does Kahi know about this? I can’t believe he would allow Montego to take a risk like that being he’s his beta. I’ll talk to him, he can’t allow him to mark that thing.” I said as we walked into the pack house, we were so in gross in our conversations that we didn’t notice anyone in the common room. But the scent of my mate had me stopping in my track I immediately got excited looking around

the room, that's when I noticed the fattys on the sofa with my father n law and in his arms were those mutts. I can't believe he brought them into our pack house. His dad shouldn't be bonding with them either , he knows that they can't be his grand children my pup is his only grandpup and future alpha. Jealousy filled my head and I touch my belly where my pup was growing. They haven't even acknowledged or even asked about their grandpup. I'm so tired of everyone treating them like they're more then weak half breeds.

Marching over to them. "What the hell are those.... those halfbreeds doing here?" I yelled. As my jealousy overwhelmed me. It was one thing to know why he wasn't staying with me every night. But it was another to see the reason. Why allow the half breeds to be flaunted around the community letting everyone see his infidelity and his bastard pups. It was embarrassing and like a slap in the face for him to allow them out in the open for everyone to see. Like always the fattys jumped up. I swear I'm going to kill them once and for all, as the Luna their mates were loyal to me, not them and if they threaten my life their mates must protect their luna at any cost. "Wait what? What did she just call our babies? Please repeat it just so we're all clear. Because we don't want any misunderstandings." The short one they called Mina said. "Like I said what the hell are those things doing here they should be in the clinic or some testing facility." I sneered. I smiled as they all charged at me. NOW THEY WILL FINALLY GET WHAT THEY DESERVE.

MAKAHI POV:

"So once they make the changes I noted in the contract, we can set up a date and time to finalize our agreement." I said to Shadow and Montego. "Ok I'll make sur...." Montego was saying when all of a sudden we heard yelling. "What the hell are those those.... Those.. halfbreeds doing here?" We heard the familiar voice of Summer but she was supposed to be out shopping. "Wait what? What did she just call our babies? Please repeat it just so we're all clear. Because we don't want any misunderstandings." We looked at each other wide eyed. "s**t SUMMER!!!" We said jumping up running out because all hell was about to break loose. We were at the top of the stair when we saw Summer and Brit let their wolves come forward and the girls getting up reaching behind them for their knives. s**t why were they always strapped. We all broke out into a run catching Summer and Brit who were in mid air before they could attack and by then the girls had pulled a second knife from somewhere waiting for Summer and Brit to attack. Montego and I grabbed Summer and Brit while Shadow blocked the girls from attacking.

"DAD TAKE THE TWINS IN THE DINING HALL!" I yelled. He quickly gathered them up and exited the room. While I was distracted Summer used that opportunity to swing at Lynn who saw the attack and countered with a swipe of her own with her knife cutting Summer's forearm. She cried out in pain. Montego reacted on instinct alone to protect his luna and grabbed Lynn by the throat. Lynn eyes grew wide with shock she clawed at his hands around her throat. Montego's wolf had come forward his eyes were dark blue almost black. I grabbed Summer and placed her and Brit behind me. "Don't move!" I said using my alpha command to ensure they didn't attack again. Turning to the girls who were yelling at Montego to let Lynn go. I approached Montego quickly. "Your luna is safe." I said and Montego's wolf receded instinctly and his eyes changed back to their green color.

He gasped. "Lynn baby." he said quickly letting her go. She backed away from him when he reached for her. "Don't touch me." She choked out as she rubbed her neck where his hand print was already visible. Montego looked like he wanted to breakdown as he stared at her helpless pleading for her to understand. But she was human and will not understand he had little control as a beta he is bonded to protect his alpha and luna him and Lynn weren't mated yet so he reacted on pure instinct.

"I want that b***h arrested now she attacked me." Summer yelled coming forward once the girls walked Lynn back to the sofa and was whispering asking her if she was good and what she wanted them to do. But Lynn didn't say a word her eyes were on Montego in disbelief, hurt, shock, and sadness. Then her face changed in an instant and her face was now devoid of emotion she finally broke eye contact and looked at the girls saying she's good. Montego looked like someone had punched him in the chest. "What the hell is going on?" I asked trying to break the tention I could hear the twins starting to get fussy. "Didn't you hear what I just said. They attacked us!" Summer sneered as she still held her arm which I know is probably healed already. I looked at the girls on the sofa they said nothing, obviously taking their que from Lynn, because now they looked as if they had no emotion at all they were silent.

"Lynn would you like to say something in your defense." I asked since she was the one Summer accused of attacking her. Lynn looked at me and raised a brow. Shaking her head in disbelief. "Does it matter everybody in this room knows your mate and her friend are bat s**t crazy. You also know she finds every opportunity to run her f*****g mouth about my family. She came in here disrespecting YOUR kids and my nieces calling them halfbreeds do you know how racist that is to say about babies. Unlike you and your guards." Throwing a disappointing look at Montego then back at me. " We refuse to let anyone feel like they can disrespect our babies I don't give a f**k who they are. She swung at me and I reacted. We're human and yall are wolves so we're at a disadvantage so we have to protect ourselves by any means necessary. You can arrest me if you want but have someone else do it I don't want nobody in this room to touch me." She leaning back on the sofa crossing her arms over her chest not looking at any of us.

"See she confessed have a guard come and take them to the cellars." Summer said to Shadow. "Summer we heard everything from my office. You disrespected not only my pups but their nieces. I will not punish them for protecting my pups. Lastly you have one more time to mention using my pups as test subjects and you will be in those cellars." I said as Maka also came forward and my eyes flash silver and a growl erupted from my chest. Summer whimpered and backed away from me. " Well at least make them leave the pack house. I don't feel safe with them in here and youre not here to protect me." Summer cried. I breathed loudly. "You don't have to worry I'm leaving anyway I'll just move my stuff at the vacant house and stay at the clinic with the babies and Jilahni." Lynn spoke up. "No! Please baby. You can't do that let's talk about this. You can't leave me like this. Please baby just let me explain." Montego pleaded his eyes wild with emotion and panic when Lynn volunteered to leave the pack house. She didn't show any emotion at his pleads or even respond.

“Yea.. I think we should all leave we just want to wait until Jilahni is up and make a decision on what we are going to do.” Shawna said staring at Shadow who growled and balled his fist. “I’ll get the pups ready to take back to the clinic.” Shadow said walking into the dinning room. I needed to get the girls back to the clinic its almost time for them to go down for a nap. “Summer you go up to my room and don’t come out until I get back. Brittany you are dismissed for the rest of the day do not enter the pack house until tomorrow.” I said eyeing them both using my alpha command so there is no question. Britney scurried out without a word and Summer tried fighting my command but she knew it was pointless and reluctantly left the room. I turned back to the girls on the sofa. “There is a house that is vacant two houses down from the clinic you can stay there. I’ll have some guards show you where it is and get you settled.” I said glancing at a now silent Montego who’s staring at Lynn trying to will her to look at him but she refuse. I sighed and head in the direction of the dinning room where the girls are.

“Alpha Makahi I would like to have a couple of hours to pack my things alone. Can you please ask your Beta to give me time to pack my things and be out of his room? ” Lynn asked. Montego’s gasped and took a step back like he was punched. I felt so bad for my best friend. But if he had any chance he needed to give Lynn time. Looking at Montego I knew he would not allow her to leave without a fight. Sighing I mindlinked my dad and Shadow telling them to take the girls back to the clinic and have my mom put the girls down for their naps. Once they responded I turned to Montego and stepped in from of him blocking his view. only then does he snap out of his daze. “Hey let’s head to my office to set up the meeting to finalize the agreement with the Silverstone pack.” I said. Montego made a move to step around me I held my hand up to stop him and shake my head. He visibly sagged and lowered his head in defeat. I turned us both towards the stairs and bounding up the steps to my office glancing back to the sofa as the girls were getting up. Lynn who showed no emotion a second ago is now crying silently rubbing her neck as the girls hugged her and walked her quickly out of the room. Turning back to Montego who also glanced back at the girls and saw Lynn breakdown and rubbing her bruised neck. With seeing that he let the tears fall and I escorted him into my office.

The Alpha’s Plus Size Urban Human Mate

Chapter 30

MONTEGO POV :

I can’t believe what just happened. What did I just do. “My mate. I want mate. I didn’t mean to hurt mate.” Diego whined. “I know that buddy but she doesn’t. She’s human and doesn’t know how packs work.” I said to Diego. We are bonded by blood to our pack as a beta the bond is instant and the need to protect the alpha and luna of the pack is ingrained into a beta’s DNA once we take the blood oath. So When Lynn swung at Summer because she had officially become luna my instinct was to protect her from the threat and in that moment it was my Lynn. The look in her eyes showed deep hurt and betrayal. She had

been so guarded with me at first she didn't understand anything about other half mates but still let her guard down even after everything she's been through.

I know what she went through as a child what her family put her through the training how they used her as a punching bag. She was the one that got abused. her siblings would attack her almost everyday but when she would defend herself her elders would punish her. And I just did the exact same thing. I walked into Kahi's office sat down and dropped my head into my hand. "Are you ok man? I know you want to go down there but it is best to give her some time to cool off and you need time to explain to her what happen I'm sure once you explain it she will understand." Kahi said as he sat behind his desk. "She won't." is all I could get out over the lump in my throat. "She'll understand if you just explain it to her." "You don't understand all her life she was beaten by her family when her siblings abused her she would always get beaten when she defended herself. When she did better then her siblings during training they would get jealous and abuse her afterwards, and I just did the same exact thing her family did." I said angry at myself.

"Damn man I'm sorry. But she's your other half mate. You can't give up on her no matter how hard she tries to push you away don't give up." Kahi said sadly. "I hurt her Kahi, I hurt my mate." I said as I heard talking downstairs it was the guards who came to help Lynn move out of our room. I got up and raced out of the office and headed towards my mate with the alpha hot on my heels. I threw open my door with a bang and thank the goddess Lynn was alone putting her clothes in her luggage. She jumped and pulled a knife from the luggage at the sound of the door banging open. Once she saw it was me she quickly turned her back to me and quickly tried to wipe her face to remove the fresh tears. "Montego I can't do this now please just leave." She said quietly. "Baby you gotta let me explain. I'm so sorry. Baby I would never hurt you." I pleaded... That stopped her packing. "You would never hurt me? Does the bruises on my neck prove that to me." She said coming close enough to show me the bruise I put on her neck.

I winced looking at the ugly mark which also had claw marks were I broke the skin a little. "I told you that my job is to protect my alpha and my luna, It's instinct." I pleaded. "Montego I know and understand that but that doesn't change what you did. It only proves to me that we would never work especially if Summer is your luna. I would only be putting you in the position to kill me or my family when your luna attacks me or those I love because she's insecure. I'm saving us both heartache by ending it now. If we mate it would only put your life in danger when you rip my throat out like you were about to do earlier. As I understand it when your mate dies you would become a rogue or die, I can't do that to either of us." She said turning away from me going back to her luggage.

I followed her and wrapped my arms around her waist placing my forehead against the back of her head inhaling her scent. "Please baby don't leave me. I don't think I can take it." I said lowering my head to brush my lip across the spot where my mark would be. The electric jolt of our mates bond caused her to gasp and moan, she leaned her neck to the side exposing her neck her ugly bruise on full display the guilt that washed over me almost took my breath away pushing pass my guilt I licked the spot where my claws had broken her skin, it burned my tongue from the dried blood, but I welcomed the pain

because that physical pain wasn't anywhere near the pain my heart was enduring at the thought of losing my mate.

She let out an open mouth moan. I spinned her around quickly catching her opened mouth with my lips and I poured all my emotions into the kiss groaning when she finally wrapped her arms around my neck. We have kissed numerous times but never this hungry, or with so much emotions pouring out of us. We hadn't had s*x because she wasn't ready to take our relationship to that level although I respected it, it didn't stop my need and aching c**k from wanting her. One of her legs lift and I immediately caught her by the thigh and lifted her so she could wrap her legs around my waist. I walked to the bed and swipe the luggage off the bed and they hit the floor across the room. I gentle laid her on the bed never breaking our kiss her hand pulled up my shirt and I reluctantly broke the kiss and pull the shirt over my head while I did that she grabbed the buckle of my cameo pant and loosen it with ease. I leaned down and kiss her lips as she slid her hand down my pants and grabbed my c**k and stroke it.

"Oh my Goddess." I moaned around our lips. She began to pick up her rhythm I began to pump my hips against her hand. While I kissed her lips. I ripped her yoga pants off with my lengthen claws and I was immediately hit with the scent of her arousal. I grawled and slide my hand to cup her slick wet p**y and groaned at how wet she was for me and I wanted to taste every bit of it. I used my finger to draw circles around her clit which made her groan loudly and started moving her hips. "Your so f*****g wet baby. Goddess you're so wet for me." I grawled out trying to hold Diego from coming forward and marking her. I refuse to do that until she accepts us. I quickly grabbed her by the thighs and lifted her then flipped us so I'm on my back and slide down so I'm face to face with her dripping p**y I immediately used my tongue to suck her clit into my mouth and played with her clit with tongue as my lips held her clit in place. I let the clit go and lick from the hole to the clit several times before I spread her lips to look at the clit before i went in and again started licking and sucking it until she was f*****g my face.

"Please don't stop I'm so close don't stop please." She begged and I clamped don't on her clit with my mouth and tongued her clit using my tongue to apply pressure hardening it to run it across her clit. "I'm cumming, I'm cumming." she screamed out. I quickly sat up and laid her on the bed and kissed her lips which still had her juices on it and she grabbed my c**k and guided my aching c**k to her wet entrance. I slowly pushed into her and paused when I met resistance. Oh goddess she was a virgin. I opened my eye to look down at my mate she must have known what I was trying to ask and she nodded and pulled my head down and kissed me. I grabbed her hips and slowly entered her to the hilt I stopped and waited until she adjusted to length and size of my c**k. When she squirmed I begin to grind and pump in and out of her wet dripping p**y. Her juices were coating my balls causing it to make wet sounds every time I entered her tight p**y. I felt my balls tighten just as her p**y gripped me so painfully tight I could barely move goddess it was like she was pulling me back in every time I tried to pull out. "I'm cumming." she groaned and I could feel the wettness of her c*m coating my c**k as it held me hostage as her organs had her p**y contracting against the head of my c**k sucking me in and it felt like it was pulling my seed from my balls all the way up my shaft and I exploded... I groaned so loud that I was damn glad we all had sound proof rooms because I yelled like a Lil b***h. I

collapsed beside her pulling her in my arms and kissing her soft lips and whispered I love you before I allowed sleep to take over.
