

## The Doctor 1641

### Chapter 1641: Targeting Her?

"I don't know this part." Shangguan Jing shook his head.

That battle back then was mysterious to the descendants. It was already extremely rare to be able to unintentionally obtain some clues. It was even harder for him to want to find out a thing or two after that.

Chu Liuyue pondered for a moment and agreed. *The people in the world don't know about it, let alone someone like Ancestor, who comes from outside the realm. Besides, when he came here back then, it was to accompany his friend to look for something. It was accidental that he found out such things.?*

"...Since those treasures are mostly damaged, then... those that can be left behind aren't ordinary, right?" Chu Liuyue finally couldn't help but ask. "Ancestor, the item you were looking for back then really helps true gods to break through to become a legendary warrior?"

Shangguan Jing was dazed and knitted his brows.

He really hadn't thought about all of this. Every time he thought of the God-Killing Tumulus, he would recall the pain of being betrayed. Hence, all these years, he tried his best not to think about everything related to it.

He hadn't carefully considered many of the incidents within, but hearing Chu Liuyue say this now, he then realized that something was indeed amiss.

In the God Residence Realm, there were many cultivators who were stuck as true gods and couldn't improve at all. When they cultivated to this step, it was time to compete with their talents.

No matter how hardworking one was, they wouldn't be able to break through successfully without talent and sensibility. Hence, when he heard of such a treasure back then, he followed that person without hesitation.

Back then, he just felt that that person wanted this thing and didn't doubt him at all. But thinking about it now, there were indeed many things wrong with it.

He didn't need that thing and wouldn't fight with him, so why would the other party drive him to his death? If he was dead, the other party would lose a top supreme Armory Refinement Master!

This could only prove... that the item was worth much more than this supreme Armory Refinement Master to him! And such an item was very rare in this world!

Shangguan Jing suddenly felt that his previous memory was covered by a veil, and it became unclear.

*Perhaps what I think is the truth has other stories??* Shangguan Jing's heart beat wildly. He closed his eyes, took a deep breath in, and appeased his emotions. "Maybe..."

He paused and didn't continue talking about it, changing the topic. "Forget it. Let's talk about these in the future."

He looked at Chu Liuyue. "That person told you to come to the God-Killing Tumulus. Did they state where they would want to meet?"

Chu Liuyue looked forward. "He didn't state it explicitly, but... we should be able to reach it through the guidance of the sea-buckthorn wood."

The other party racked his brains to purposely lure her over, so he definitely would see her.

"We're meeting tomorrow." Chu Liuyue paused for a moment. "Perhaps, he will only appear tomorrow."

Shangguan Jing thought about it and felt that it made sense. "Then, should we carry on waiting here, or—"

"Let's go inside to take a look." Chu Liuyue pointed to the front and slowly clenched her fists in her sleeves.

She had a feeling in her heart. *?The other party definitely has hidden intentions for agreeing to meet me here. Then... what exactly is it for??*

...

The few of them officially entered the God-Killing Tumulus.

The broken tombstones were everywhere, but one didn't see bones. After experiencing tumultuous weather in the past millions of years, everything had been smoothed.

Chu Liuyue passed through it, and her gaze lightly swept across the tombstones.

One could tell that there were once engraved words on it, but the handwriting had been invaded by the years and became blurred. Most of them were left with faint marks.

After walking for a distance, Chu Liuyue felt that all the warmth in her body had been silently absorbed.

The surrounding sinister coldness silently overwhelmed her.

If there weren't these tombstones, nobody would know that countless true gods' white bones were buried underneath this cold land.

Their feelings seemed to be affected by this atmosphere as well.

They walked forward quietly.

Even Tuan Zi—who had always been happy and active—also felt something at this point. She grabbed Chu Liuyue's hands, pressed her lips against each other, and walked forward quietly.

After walking for a distance, Chu Liuyue knitted her brows increasingly tighter. She fell into deep thought for a long while before she asked, "Ancestor, do you know who set these tombstones?"

*If it were their descendants, why were these tombstones crushed??*

Shangguan Jing paused, and his voice became much lower. "These should be made by the strong warriors who participated in the battle back then."

Chu Liuyue's heart jumped. *They hadn't dealt hands, but they had already made a tombstone! They went forth with the determination to risk their lives! It's no wonder that the battle back then was so intense and pitiful.*

*So many legendary warriors were all destroyed! What kind of book could cause them to behave in such a manner??* Chu Liuyue couldn't understand it at all. *Perhaps only those people back then will know the answer...*

*Kada.?*

Something hit her leg.

Chu Liuyue lowered her head and saw a fist-sized rock that seemed to roll over from the side. She had been thinking deeply, so she didn't notice it before.

However, this stone was very ordinary. It did not hurt when it rolled to her feet, and it just stopped. Hence, Chu Liuyue didn't take it to heart.

She continued walking forward.

In no time, another rock rolled over. This time, Chu Liuyue saw it in advance.

She raised her brows slightly. That was because this rock came for her.

She didn't move and just took a step to the side when the rock was about to rush over.

That rock directly rolled across the previous position she was at and quickly stopped.

Chu Liuyue squinted her eyes.

She saw clearly that the rock wasn't obstructed. It stopped by itself!

"Yue'er, what's wrong?" Shangguan Jing detected that something was amiss and turned around to ask.

Chu Liuyue didn't speak as she surveyed her surroundings. *Even though there are many pieces of tombstones here, it is... flat and spacious. Why would rocks suddenly roll to me out of nowhere, and it wasn't just one.?*

Just as this thought flashed across her mind, Chu Liuyue heard tiny sounds from behind.

She turned around. Expectedly, another rock rolled toward her!

### **Chapter 1642: Hold Me Tight!**

Following this, it was the second and the third!

The surrounding rocks seemed to be guided by some force as they started to become uneasy and rolled toward Chu Liuyue!

"T-this is—" Shangguan Jing was also stunned. *When I came here previously, I didn't encounter such a situation! And the more important thing was that this commotion clearly came for Chu Liuyue! What is going on?!?*

Rong Xiu knitted his brows slightly and held Chu Liuyue's hand. "We have to leave as soon as possible. These rocks are all shards of the true god tombstones."

The damaged tombstones were already nerve-racking, not to mention that they belonged to true gods. Besides, some of these rocks might contain some force.

Nobody could say for sure. Hence, Rong Xiu swiftly decided to bring Chu Liuyue away from this place immediately.

Chu Liuyue met his gaze and lightly nodded. "Okay."

...

Chu Liuyue and the rest started going toward the God-Killing Tumulus.

Later on, increasingly more rocks started rolling over.

It was fine if it were only a rock or two, but as time passed, those rocks seemed to have gathered into a water current that went for Chu Liuyue!

This scene was indeed too strange. However, what Chu Liuyue found weird was that she never felt murderous intent from these rocks.

They seemed to be controlled by something and kept gathering around her. But specifically... they didn't seem to be planning on doing anything.

Of course, Chu Liuyue didn't dare to let her guard down and allow her 'gut feeling' to determine if it was dangerous. After all, this was the God-Killing Tumulus.

Luckily, her ancestor had come here before and was considered experienced, so he could rapidly find a safe route.

On the way, they had shocks but no danger. But after walking for a long time, the surrounding scenery didn't really change.

*Previously, Ancestor had said that as long as we walked to the legendary warriors' tombstones, these strange rocks would definitely stop. But after such a long time, we still seem really far away.?* Chu Liuyue couldn't help but ask, "Ancestor, when can we leave this place?"

Shangguan Jing glanced at the sky and said with uncertainty, "I think... another four to six hours..."

In actual fact, he still gave a lower estimate.

Back then, he had walked here for a total of three days and three nights. Even if it were his first time here, and he didn't know how to walk, it was enough to prove how spacious this place was and that it wasn't easy to leave.

Chu Liuyue's heart sank. She understood her ancestor too well. *?This means that... we will stay here for an even longer period of time.?*

Now that they were moving forward at full speed, the rocks behind couldn't catch up and were still a distance. However, their strength kept depleting, and those rocks kept gathering.

As their numbers increased, Chu Liuyue clearly discovered that their auras and strength were much stronger than before. As this went on, nobody could guarantee that they could make it out in one piece.

Chu Liuyue felt her head ache. *Could it be that I have something strange in my body that caused this commotion? But... there seems to be nothing at all. Wasn't it fine in the past? Why did it suddenly become so strange?*

The key was that... all cultivators couldn't travel through the air here. This caused their situation to be even more difficult.

At this point, a rock suddenly rolled to Chu Liuyue's feet.

Her heart skipped a beat as her body fell sideways uncontrollably!

"Yue'er!" Rong Xiu was standing right beside her and immediately encircled her thin waist, embracing her!

Chu Liuyue just felt that she had fallen into a firm and big chest as the cold fragrance instantly wrapped around her.

Just as she supported Rong Xiu, she heard Shangguan Jing's shocking gasp from behind!

Chu Liuyue secretly felt that something was wrong, so she immediately turned around and saw her ancestor tripping over the stones and falling backward.

The key was that when Shangguan Jing fell halfway, the space behind him suddenly rippled! Half of his body was swallowed by the empty space!

"Ancestor!" Before Chu Liuyue could finish her sentence, Shangguan Jing's figure had already completely disappeared.

Silently, they watched him disappear before their eyes.

Chu Liuyue opened her eyes and was about to go forward when Rong Xiu held her tightly. "There's turbulence in the space!"

Following this, Chu Liuyue indeed saw the rocks that rolled to the side of the ripples turning into powder instantly!

Her heart suddenly trembled!

"Senior Shangguan is a legendary warrior. He can definitely protect himself," boomed Rong Xiu.

She was still a true god and naturally couldn't go over.

Chu Liuyue clenched her silver teeth. *Rong Xiu is right. Ancestor is strong and has come here before, so nothing much will happen to him. Now, I have to protect myself!?*

Gradually, the ripples calmed down. Everything seemed to return to normal as if nothing had happened.

"We—" The moment Chu Liuyue spoke, she suddenly felt a strong suction force beside her! She hurriedly turned around and saw that the rocks showed a strange pattern on the ground.

The strong force exploded from the middle—it was as if it was going to swallow her directly!

The winds were blowing!

Chu Liuyue's hair flew around!

Rong Xiu hugged her tightly and pressed her head against his chest. "Hold me tight."

Chu Liuyue instinctively hugged his thin waist forcefully.

Rong Xiu looked up.

In his eyes, black and gold—two extremely intense colors—suddenly appeared!

### **Chapter 1643: God Realm**

A strong and formidable aura suddenly exploded around Rong Xiu! The next moment, golden and black fire suddenly appeared in the air before him. They intertwined and formed a long whip that harshly slashed forward.

*Slap!*

A crisp and loud ear-piercing sound was heard!

On the ground, the formation of the rocks was directly damaged by this terrifying force all of a sudden!

*Peng! Peng! Peng!*

!!

The rocks exploded one after another! They instantly turned into powder!

That strange force was instantly crushed!

*Rumble!*

The two forces smashed against each other as violent ripples started spreading in all directions.

Chu Liuyue felt that the surrounding space was harshly crushed by some force, causing one to suffocate. She instinctively wanted to look up, but she felt a thick and strong hand gently and determinedly press her back into his arms.

The next moment, the suffocating feeling quickly disappeared as if it had never appeared.

"It's just a small trouble." Rong Xiu's voice was especially low as he hugged Chu Liuyue tightly in his arms. When he spoke, she could clearly feel the vibrations in his chest.

It was warm and firm. It was as if he could block all the sun and rain for her when he was around.

Chu Liuyue nodded lightly.

At this moment, the formation made by the rocks on the ground suddenly started collapsing!

*Crack!*

A crack rapidly spread to the two of them! Following this, Chu Liuyue felt that she had no footing!

The duo's bodies fell forward suddenly!

...

It was pitch black before them, and she couldn't see anything.

Chu Liuyue could only hear the wind howling by her ears, Rong Xiu's beating heart, and his breathing.

Chu Liuyue was about to speak when she realized that there was heavy suppression in her surroundings, causing her to be unable to speak!

*She couldn't help but be secretly shocked. I'm already a true god warrior, and my combat skills are much stronger than most cultivators of the same level. Something that can restrain me to such a state... It shows just how shocking the force here is!*

Suddenly, a faint golden light appeared and covered the two of them. The surrounding terrifying suppression instantly became much lighter.

After some time, the two of them finally stood on solid ground.

When her feet touched the ground, Chu Liuyue heaved a sigh of relief and looked up from Rong Xiu's arms toward the surroundings.

Other than the barrier set up by Rong Xiu, she still couldn't see anything here.

"What kind of place... is this?!" Chu Liuyue knitted her brows and couldn't help but mutter.

What entered her eyes was clearly a patch of black, but faintly, there seemed to be a vague light. But that light disappeared very quickly, and it was very dim, causing Chu Liuyue to suspect that she was hallucinating.

"This is the light produced when God Realms intertwine and the forces hit against each other," explained Rong Xiu.

*"All those... They all are?!"* Chu Liuyue suddenly widened her eyes in shock. *I've seen at least four or five rays of light. If it really is like Rong Xiu has said, doesn't it mean that there are at least four or five God Realms here together?!*

"That's not right!" Chu Liuyue knitted her brows tightly. "How could there be God Realms here?"

If I haven't guessed wrongly, we've fallen underground. But no matter if this is underground or aboveground, this area has many true god tombstones—this is without a doubt. Ancestor said that all the cultivators had died back then, and their souls were destroyed! If so, why would the God Realms of legendary warriors be left behind here?

Rong Xiu looked at his surroundings. The black and gold in his eyes had long disappeared silently, and Chu Liuyue didn't see it.

He raised his hand and produced a fist-sized pearl.

The surroundings became much brighter, but other than the black ground beneath their feet, the duo did not see anything else.

The darkness in the surrounding space seemed unable to split away. Even if the light of the bright pearl could drive away a portion of the darkness, it could only illuminate a ten-step radius.

The further places were still a patch of darkness as if all the light had been swallowed.

Rong Xiu squinted his eyes slightly and retracted the barrier around the two of them.

The suppression here was much lighter than above. Even without the barrier protecting them, it wouldn't have much effect on them.

At this point, Chu Liuyue felt the ripples in the surroundings more clearly.

In the dark, it was extremely obvious that a few forces were silently intertwining. Chu Liuyue was very familiar with this feeling.

She held her breath in and raised her wrist slightly.

Countless silver-red lights suddenly appeared in her palm. In the blink of an eye, they surrounded her.

Very quickly, a glowing light appeared in her surroundings and quickly disappeared. However, Chu Liuyue saw it clearly this time!

That was indeed the energy ripple that was produced after the God Realm at the side intertwined with her own God Realm! However, the force in that God Realm was weak. After a slight touch, it moved backward.

Thus, it was also why Chu Liuyue couldn't detect the existence of this God Realm previously.

"This..." Chu Liuyue retracted her own God Realm, furrowed her brows, and fell into deep thought. *God Realms can't exist independently outside of a cultivator. Even for me, who has once experienced life and death, my soul wasn't truly destroyed. Hence, my God Realm could be preserved safely in one piece at Fengmin Mountain.*

*However, this is the God-Killing Tumulus. The tombstones everywhere are sufficient to state the problem!*

"Could it be that a small portion of the people back then left behind their souls?" asked Chu Liuyue with uncertainty.

At this point, a rock suddenly rolled to Chu Liuyue's feet.

Chu Liuyue looked down, and she tensed up! *Where did this stone come from?! Why does it seem like it's pestering me?*

Just as Chu Liuyue was about to take action, Rong Xiu held her back. "Hold on."

Chu Liuyue looked at him strangely.

Rong Xiu lifted his chin.

Chu Liuyue followed his gaze and held her breath in.

She suddenly saw a ray of light in the darkness before her. This light didn't disappear right after flashing like the previous ones and seemed to be approaching them continuously.

*This... This God Realm is coming toward us?*

Just as this guess flashed across Chu Liuyue's mind, the God Realm had already gotten close to the duo.

At this point, using the glow from the pearl, Chu Liuyue finally saw that the God Realm was a faint-blue color. The color was very faint, as if it would disappear with the wind.

Chu Liuyue's entire body stiffened! *This God Realm—*

*Huala!*

Without waiting for her to think clearly, she saw the God Realm suddenly crash down like a waterfall! It entered the rock beside Chu Liuyue's feet!

### **Chapter 1644: Battle Intent Present!**

In just half an hour, the sea of God Realms all entered that rock.

When the last speck of blue disappeared, everything in the surroundings rapidly returned to calmness. It was as if nothing had happened.

Chu Liuyue was dazed. *What... just happened?*

Rong Xiu had already bent down and picked that rock up. After taking a few glances at it, he raised his brows slightly and looked rather amused. "I see..."

"What's the matter?" As Chu Liuyue asked, she leaned over curiously.

!!

Rong Xiu passed the rock to her.

Chu Liuyue took a closer look.

This rock was the size of a fist, and its shape was irregular. It seemed like it was also from the crushed tombstones as it was totally grayish-white and didn't look too different from the ordinary rocks.

Suddenly, Chu Liuyue's gaze focused when she saw a nail-sized blue ink mark on that rock.

That blue ink mark seemed like it was painted on with colored materials and was very bright. One just had to think to understand that it was the mark left behind when the God Realm entered this rock.

But when they held the rock in their hands at this moment, they couldn't feel the existence of the God Realm, and it was the same as ordinary rocks.

If she didn't see it for herself, Chu Liuyue would also find it hard to believe that a God Realm would automatically enter the rock for no reason.

"Take a closer look at the blue mark," reminded Rong Xiu.

Chu Liuyue leaned in closer. Suddenly, she was stunned, and she met Rong Xiu's gaze. "T-this is a... totem?"

Chu Liuyue said the last word very lightly. That was because the blue ink mark was only the size of a pinkie fingernail.

With a glance, it was an entire piece. One had to take a closer look to clearly see the complicated intertwining lines on it.

Rong Xiu nodded. "It seems like this God Realm originally belonged to the owner of the crushed tombstone."

If not, the God Realm wouldn't randomly enter a rock.

Chu Liuyue thought about it and felt that Rong Xiu's suggestion was very possible. *But...*

"The owner of the tombstone should be long dead, right? Why has the God Realm not dissipated, and... it even hid itself in such a place?" As Chu Liuyue spoke, she surveyed her surroundings again.

Recalling the previous scene, a ridiculous thought suddenly surfaced in her mind. "Wait! Could it be... those God Realms are all—"

Before she could finish her sentence, Chu Liuyue felt something hit against her feet. Without even taking a close look, she knew that it was a rock again!

She lowered her head rather stiffly and took a glance.

As expected—the shape was different, but it was indeed a rock as well.

A tiny sound came by her ears as if something were approaching her.

Chu Liuyue turned around.

A God Realm glowing with green floated over. When it arrived before the two of them, the same scene happened again!

*Huala!*

That green God Realm entered the second rock and also left behind a small totem on it!

As the mark was too small, Chu Liuyue couldn't determine if the two totems were the same.

However, what she cared about the most now wasn't this. It was...

*What exactly is this place, and how do we explain everything that just happened?!*

"These rocks fell in together with us previously." Rong Xiu paused for a moment and gazed at Chu Liuyue thoughtfully. "It seems like... their sudden attack previously was just to drag you down."

"Drag me down?" Chu Liuyue reached out and pointed at her nose in shock. "But why is that so?"

*This is my first time at the God-Killing Tumulus, and I've been very well-behaved on the journey. I didn't do anything wrong, right? Why did these rocks pester me for no reason?*

A dark glint flashed across Rong Xiu's eyes before it disappeared. Then, he glanced at the intense darkness at the side.

After a slight pause, he said, "Perhaps... you have something that they want."

Chu Liuyue did not understand it. *Could I be a well-loved item here?*

"If that's so, doesn't it mean... these God Realms and the rocks all have a certain amount of consciousness?" *And these two items can only contain their owner's willpower!*

"Could it be that the people back then have not died?" Chu Liuyue muttered to herself.

"No, they did die," said Rong Xiu calmly.

Chu Liuyue was dazed and looked at him doubtfully. "How.... do you know?"

Rong Xiu paused. "That's because these God Realms don't have an owner."

"Don't have an owner?"

"Normally, when the owner's physical body is destroyed, the God Realm naturally can't survive. However, this place is different. During the battle at the God-Killing Tumulus back then, countless strong warriors died, and the explosion of forces directly destroyed the place. This caused nothing to be able to grow here for the next thousands of years."

"The harshness everywhere and the countless damaged heroic souls intertwined, causing the forces here to be distorted. Hence, all the forces gathered and formed a strange pattern."

"These cultivators were dead, but their battle intent back then was preserved in some way, living in the respective tombstones and God Realms."

"All in all, although the cultivator is dead, their battle intent is still here."

After Rong Xiu finished speaking, Chu Liuyue fell into deep shock and silence. *What kind of shocking battle could cause the battle intent to still exist after thousands of years? What kind of stubbornness would cause one to be preserved in the world and not disappear after they are destroyed?*

"Battle intent..." Chu Liuyue subconsciously held the rock in her hands tightly and furrowed her brows.

"Rong Xiu, how do you know all of this?"

### **Chapter 1645: A Little Troublesome**

There was a sudden silence.

Rong Xiu looked at her with a glint in his deep eyes. His thin lips curved slightly as he said indifferently, "There are still quite a lot of books in the Sky-Cloud Empire. Although the world knows very little about the battle back then, there are actually some related rumors that have been recorded and passed down. It's not difficult to find out."

Chu Liuyue nodded in understanding. *That's true. The Sky-Cloud Empire has stood in the God Residence Realm for tens of thousands of years and has a deep foundation. It's normal for them to know something about this.*

Shangguan Jing knew very little about this place, mostly because he was an outsider. Naturally, he couldn't compare to Rong Xiu's background.

"Besides, although these God Realms are still around, their power is basically very thin after tens of thousands of years of depletion. Otherwise, it would be impossible for so many God Realms to exist at the same time in such a small space."

!!

Upon hearing this, Chu Liuyue picked up the second stone.

She looked carefully at the two stones in her hand and pursed her lips. *Rong Xiu's words make sense. When I made contact with the God Realm just now, I indeed felt that nobody seemed to control it.*

*Battle intent... In that case, what exists here is battle intent!? However, why are these stones inexplicably sticking to me?*

She could clearly feel that these two stones didn't have any ill intentions toward her. On the contrary, there seemed to be... a hint of dependence and closeness.

This feeling was very subtle.

Earlier, she had been in a nervous state and didn't feel much. But at this moment, she knew that they were just the battle intent left behind after the war back then.

She heaved a sigh of relief and realized that something was... wrong.

Just as she was thinking this, the third stone rolled to her feet. Soon, another God Realm entered.

From the initial shock and surprise, she was basically used to it now. The only thing she wanted to know now was if she had any role in this.

"Can we still get out from above?" Chu Liuyue looked up.

Rong Xiu paused for a while before saying, "When we came down just now, we also triggered a space vortex. Even if we go up now, it shouldn't be the same place as before."

"Then—"

"Let's wait first. In about two hours, the turbulent space will calm down again. At that time, it will be much more convenient for us to go out."

Chu Liuyue nodded.

For now, this was indeed the best solution.

Rong Xiu took out a few more pearls and hung them quietly around the two of them. Then, he took out a black cloak and spread it on the ground. "Have a seat first."

During this period of time, they had been traveling. Although they had rested a few times in between, in order not to slow the two of them down, Chu Liuyue had been traveling at full speed and had consumed a lot of energy.

After entering the Red Soul Woods, they rushed all the way.

It was always good to rest and adjust their condition for a while.

She held his hand. "You should rest too."

She knew that Rong Xiu hadn't rested much recently.

He traveled during the day and refined Yuan instruments at night. He was the one who consumed more energy.

Sensing the warm and soft touch in his palm, Rong Xiu raised his eyebrows slightly. "It seems that my wife still cares about me."

Chu Liuyue was speechless. *After so many years, this man's skin has really become thicker.*

...

The two of them began a long wait.

Two hours wasn't a long time, but the surroundings were silent and dark. Other than the small area around them, they couldn't see anything else, and it really made them feel vaguely uneasy.

Moreover, Chu Liuyue was still worried about her ancestor's safety, so this time was even more difficult to endure.

After waiting for a while, she simply closed her eyes and planned to immerse herself in cultivation. However, she quickly discovered that the idea was impossible to achieve. That was because... the surrounding stones were still rolling toward her!

One piece after another. Within moments, a neat row had piled up at her feet.

At first, she wanted to resist, but she gave up later.

These stones and the God Realms didn't have any ill intention toward her. They only bumped into her slightly, and she didn't lose anything. Moreover, as the surrounding God Realms entered these rocks one after another, she clearly felt that the inexplicable pressure had decreased a lot.

It was probably because these God Realms had piled up and squeezed each other that it was uncomfortable.

*In that case... so be it! Chu Liuyue looked down. Anyway, most of the stones have piled up around me. When all the stones are filled, it should be over.*

However, reality proved that she was still too naive.

When the last gap around her was occupied by a stone, she thought that was the end of it. But the next moment, she saw that the rocks from before began to retreat suddenly from her side!

New stones appeared from nowhere and rolled over again!

Like a relay race, the stones took turns rolling to her side. When the God Realm poured in and left a mark, they obediently left and changed to the next batch.

Seeing how orderly they were, she experienced her couldn't help but widen her eyes in confusion.

*T-this... What am I being taken as?! She gritted her teeth and moved to the side.*

The stones rolled to the side.

After trying two or three times, she gave up struggling again.

Actually, she had already discovered the problem—these stones had to touch her to accommodate those God Realms. It was also because of this that they were so obsessed with her.

Chu Liuyue stroked her chin. *Thinking about it, after being chased by those stones for so long outside... This is the only goal?*

Chu Liuyue rubbed her glabella. *I've finally seen how powerful and strange this God-Killing Tumulus was... For now, anything that happens here seems particularly strange. I wonder why these stones have decided on me...*

Unable to figure it out, she decided not to think about it and continued studying the Xuan formations.

Ever since she repaired the Heaven-Locking Formation with Big Baby last time, she had made very obvious progress as a Xuan Master. Unfortunately, Big Baby didn't see her after that and left directly. She still had some questions that she did not have time to ask.

She could only wait for the next time they met to spar with him.

...

Time slowly trickled past.

Chu Liuyue held her breath and focused, trying to draw those Xuan formations in her mind.

With her current strength, it was absolutely impossible for her to draw the Heaven-Locking Formation alone. Hence, she recalled and studied the scattered Xuan formations according to her previous memories.

"Yue'er." A low and gentle voice suddenly sounded in her ear.

Chu Liuyue opened her eyes. "What's wrong? Should we go?"

Rong Xiu nodded, looking like he wanted to say something but hesitated. "It might be... a little troublesome..."

"Why—" Her voice abruptly stopped when she accidentally glanced over.

**Chapter 1646: Follow**

Stones.

Large batches of stones.

A mountain of stones!

The empty space in front of her had unknowingly been occupied by countless piled-up rocks! The path was almost completely blocked!

“Why are there so many?!” Chu Liuyue blurted out in shock. *?I had thought it would only be a few dozen stones at most!*

Rong Xiu raised his chin subtly.

Chu Liuyue’s heart skipped a beat as she suddenly thought of something. She then stiffly turned her neck and looked back.

Stones—behind her were still stones!

Surrounding the two of them were stones that had almost piled up into a barrier!

Upon closer look, those stones were clearly shining with totems! Different God Realms had already entered these rocks!

Chu Liuyue gasped. *?I had only closed my eyes to rest for a while and traced a few Xuan formations. Why did the world become like this the moment I opened my eyes?!*

The only consolation was that the last bit of pressure around them had completely dissipated. Standing here now was basically no different from the outside.

Chu Liuyue’s eyelids twitched harshly. *?If... I don’t think about the fact that those God Realms have already been scattered among these stones, I might feel better.*

“Are we... still... going out?” Chu Liuyue asked Rong Xiu with difficulty.

He raised his eyebrows and chuckled. “These God Realms have already hidden themselves, and the turbulence above has already calmed down. We can naturally get out.”

As he spoke, he had already held her hand.

Their fingers intertwined.

Chu Liuyue calmed down a little and nodded. “That’s great.”

*I have a feeling that something will happen if I continue to stay here...*

“Let’s go.” As Rong Xiu spoke, he was about to bring her up.

“Wait.” Chu Liuyue suddenly stopped him, turned around, and took a step forward.

*Clang!*

The rocks piled up in front of them suddenly rolled to the sides, quickly clearing a wide path in the middle!

Chu Liuyue's movements froze in midair. *?I just... I just wanted to pick up Rong Xiu's cloak!!! What the hell are these stones doing!!!*

Chu Liuyue gritted her teeth and picked up the cloak on the ground. It was stained with some dust, so she turned her wrist and shook it gently.

*Clang!*

The stones gathered again and lined up neatly in front of her.

Chu Liuyue was confused.

"They seem to listen to you." Rong Xiu held back his laughter and took the cloak. At the same time, he leaned close to her ear and said this teasingly.

His warm breath landed on her neck and behind her ear, making her feel a little itchy.

She shrunk her neck and turned around to glare at Rong Xiu angrily. "Nonsense—"

*Shua shua shua!?*

Several stones suddenly flew up and headed straight for Rong Xiu! They were extremely fast and had a cold aura!

Chu Liuyue's eyes turned sharp as she immediately took a step forward with force surging around her.

Sensing her movements, the stones actually stopped!

Chu Liuyue widened her eyes.

The stones floated for a while. Sensing her aura, they hurriedly turned back.

It was unknown if they were afraid of being reprimanded or something, but they actually specially hid behind the other stones and waited obediently.

Chu Liuyue was speechless.

Rong Xiu couldn't help chuckling. "I told you so, but you didn't believe me."

Chu Liuyue's temples throbbed.

...

"Two steps to the left."

"Take two steps to the right."

"Forward—forget it, forget it. Three steps back!"

"Who rushed out and planned to attack just now? Come out, all of you. Yes, I'm talking about the few of you. Hurry up! Dance again for me to see."

"Alright, alright. Go back, go back!"

...

Chu Liuyue rubbed her face. After a period of inspection, she finally realized that Rong Xiu was right.

For some reason, these stones suddenly became obedient to her! If she said to go left, they were afraid to go right. If she said to take two steps, they would never take three.

She chose a few stones to jump, and they actually did as she said!

Looking at the rocks piled up in front of her, she felt a headache. *What is wrong? What went wrong in the middle?*

“Is it because they touched me just now that they’re so obedient now?” Chu Liuyue crossed her arms and rested her chin on one hand as she fell into deep thought.

“Originally, these stones were separated from these God Realms. It’s precisely because of you that they can fuse with each other. This might allow the battle intent in them to last longer... That’s why they treat you like this,” explained Rong Xiu.

“Battle intent?” Chu Liuyue rubbed her temples. *How could there be any battle intent with such a soft and harmless appearance?! What happened to being extremely ferocious? Where is the imposing aura? Why does the battle intent completely change when it comes to me?*

She could not figure it out.

After a moment’s thought, there was no answer.

She sighed. “Forget it; we’ll discuss these questions later. Let’s go out first.”

As she spoke, she waved at the stones in front of her. “Excuse me.”

*Clang!*

The piled stones immediately made way.

The two of them walked forward and flew up together! Without that terrifying pressure, their movements became much smoother.

But after a while, Chu Liuyue heard a strange fluctuation from below.

Her heart skipped a beat; then, she slowly looked down.

A ‘river’ formed by stones was surging from the bottom up!

Unlike the previous time outside, the stones were very restrained, polite, and obedient this time.

They were orderly and neat! Apart from the sound of rushing wind, there was almost no sound of collision between them.

If Chu Liuyue hadn’t sensed something and looked down, she might not have noticed this abnormality.

She felt like she was going crazy. *Why are these stones so difficult to deal with? I’ve offended many people in the past and have never seen anyone as persistent as these stones.*

“Are they going to keep chasing us like this?” she asked in disbelief.

Rong Xiu paused and suddenly smiled. "Don't you think that they're not chasing after you but... following you?"

### **Chapter 1647: Tomb Burial**

Chu Liuyue was suddenly dazed.

Of course, I understand what Rong Xiu means, but... is that possible?

These stones looked ordinary and even had a cold aura because they were shattered tombstones. However, she had personally seen many God Realms surge into these rocks!

Admittedly, the power of those God Realms had already become very weak. Some even seemed to be able to be shattered with a little strength.

However... They were God Realms after all! Moreover, there were so many of them here!

Once this power gathered... it would undoubtedly be an extremely powerful force!

"This..." Chu Liuyue had never thought of this before. This was because not long after they entered the God-Killing Tumulus, the shattered stones began to chase after them aggressively.

In the middle, Shangguan Jing even lost contact with them.

She and Rong Xiu were also pulled down because of this.

These experiences made it difficult for her to take the initiative to think that these things were actually...

But on careful thought, Rong Xiu's words seemed possible. Otherwise, why were they so obedient to her?

Both of them stopped.

The stones also stopped.

In the darkness, countless colorful totems shone with a faint light. And the stones just quietly stood there as if waiting for orders.

Chu Liuyue's heart skipped a beat as she raised her wrist slightly.

A stone flew over and fluttered into her palm.

With a thought, she placed the stone into her Cosmic Ring.

They waited for a moment. Nothing unusual happened.

It seemed like... she had just put an ordinary stone in.

On the other hand, the stones that were still in place were faintly restless. They were eager and envious.

Chu Liuyue suddenly froze. *How can I sense the 'emotions' of these stones? Could it be that... I have established some kind of connection with them because of that touch?*

Chu Liuyue pressed her lips against each other. "Come over."

As soon as she finished speaking, the stones flew toward her.

She didn't know if it was an illusion, but she felt that they all seemed to be excited and emotional.

As some stones were too excited, they rubbed against the stones beside them. After Chu Liuyue glanced at them lightly, they became obedient.

One by one, they lined up and entered the Cosmic Ring.

At first, she was still counting, but she soon gave up. It was really... too many!

When the last stone was finally put into her Cosmic Ring, she finally heaved a sigh of relief. *I'm so tired.*

Rong Xiu watched with interest. *She doesn't seem to realize what kind of trump card she has.*

"Alright, now that everything is settled, let's go." As Rong Xiu spoke, he pulled Chu Liuyue into his arms and flew up.

...

This time, it went very smoothly. It took the two of them about half an hour to return to the ground successfully.

It was already night. The sky was dark and moonless.

As far as the eye could see, it was still a wilderness with broken tombstones scattered everywhere.

Chu Liuyue took a look and said, "This is indeed not the place we went down previously."

Rong Xiu glanced at her. "How can you be so sure? The scenery here doesn't seem to have changed much."

Moreover, the sky was dark, and it was basically impossible to see clearly, making it even harder to distinguish. However, she sounded very certain.

"Because—" Just as she spoke, she suddenly paused. *Oh yeah, how can I be so sure? I have clearly never been here before...*

Suddenly, she looked at the Cosmic Ring on her hand.

"It seems to be... because of those..." she whispered with uncertainty. *After I came out just now, I actually didn't think much of it. I just instinctively knew that this was another place. This 'intuition' must've come from those stones?*

*That's true. They've been in the God-Killing Tumulus for tens of thousands of years and are extremely familiar with everything here. Now, there is a subtle connection between them and me. Due to this, I am naturally more familiar with this place.*

She closed her eyes and held her breath.

As expected, she seemed to be able to vaguely sense everything within a radius of dozens of kilometers! Although it wasn't very clear, it was undoubtedly a great help to those who had come to the God-Killing Tumulus for the first time!

In that case, it would obviously be much easier and safer for them here!

Rong Xiu's lips curled up slightly when he saw her expression. "Can you sense the auras of Senior Shangguan and Lord Chu Ning?"

Chu Liuyue shook her head, but her eyes were still as bright as stars. "They shouldn't be here, but... it should be much easier to find them later."

*It seems that taking in that pile of stones was quite beneficial!*

This made her feel much more at ease.

"That's great." Rong Xiu looked up at the sky. "Tomorrow will be the agreed time."

Now that she had another trump card, she naturally had more confidence.

Chu Liuyue nodded lightly.

Suddenly, she seemed to sense something and turned around.

It was dusk, and the wilderness at night was dark.

"What's the matter?" asked Rong Xiu.

Chu Liuyue frowned. "Rong Xiu... did you feel anything?"

Rong Xiu's eyes flickered. "Something is happening?"

Chu Liuyue clenched her fists tightly as her heart raced. She spoke with difficulty, enunciating each word. "If I'm not wrong, this... is the tombstone area of legendary warriors!"

### **Chapter 1648: A Wall on the Horizon**

The scenery here wasn't much different from what they had seen when they came. Even the surrounding aura was equally cold and lonely.

However... Chu Liuyue indeed felt that this place was different from the previous tombs.

Rong Xiu narrowed his eyes. "Are you sure?"

Chu Liuyue nodded lightly.

Rong Xiu looked around, his expression still calm and composed. He then raised his eyebrows and chuckled. "Even if this is really the tombstone area of legendary warriors, there doesn't seem to be much movement now. There's no need to worry."

!!

As he spoke, he found a flatter spot beside him. "In a few hours, it will be the agreed time. He wants to see us soon, so we'll just wait here."

Chu Liuyue pursed her lips with worry on her face. She knew that Rong Xiu was right.

The other party was here for the water droplet in her body and had even taken her father hostage. Before the two sides fought head-on, he would definitely not do anything to her father. However... she was still worried.

In Country Yao Chen, her father could be considered a top genius and an absolute powerhouse. However, that cultivation level and strength weren't enough outside of Country Yao Chen, not to mention that they were still in a place like the God Residence Realm!

It had been too long since her father had been abducted. She knew that he was still alive, but... she didn't dare to imagine how much pain and torture he had suffered in the process.

Now that she had finally recovered her strength, she could fight the other party completely! But the closer she got, the more she missed him.

And Shangguan Jing... Who knew where he had been carried by the space turbulence?

Rong Xiu walked over and gently rubbed her head, kissing her between her eyebrows. "If you can't sleep, I'll play chess with you."

Chu Liuyue's heart tingled.

In the past, when she was in a bad mood or her emotions were in a mess, she could basically calm down as long as she played chess with Rong Xiu.

Ever since she regained her memories, the two of them had indeed not sparred.

She paused and nodded slightly. "Okay."

...

*Hua!*

The two of them stood facing each other, ten steps apart.

Rong Xiu waved his sleeve, and a stream of light instantly flew out of his palm!

In an instant, the stream of light dispersed into several silver lines. In mid-air, they intertwined and condensed into a huge chessboard!

"Yue'er, you go first." Rong Xiu placed one hand behind his back and smiled.

This was the unspoken rule between the two of them. Most of the time, if she did not specially make a request, she would be the first to make a move.

Even so, she still lost more than she won. Besides... even she couldn't figure out how lenient Rong Xiu was being.

The faint light from the chessboard shone on her face, making her look incomparably beautiful. Her clear black jade-like eyes were even more dazzling.

She raised her hand, and a red chess piece instantly landed on the chessboard.

*Slap!*

With this subtle sound, the energy around the chessboard fluctuated.

Rong Xiu did not hesitate and placed a piece!

*Slap!*

The energy fluctuation this time actually offset the fluctuation produced by her chess piece. The huge chessboard quickly regained its calm.

Chu Liuyue's eyebrows raised slightly.

Using force as chess pieces to compete with each other was a chess game the two of them often played. This was even more troublesome than playing chess on an ordinary chessboard. Not only did it consume a lot of force to condense each piece, but it also consumed even more energy to maintain the stability of the chessboard after each piece was placed.

Now that she had returned to being a true god, she could barely use this method to fight Rong Xiu.

As for winning or losing... it was unknown. After all, even if she had made considerable progress in the past few years, Rong Xiu wasn't to be trifled with.

Time passed slowly, and the huge chessboard shone brighter!

...

On the other side, after Shangguan Jing was swept into the turbulent space, his surroundings fell into darkness.

He could not see anything clearly. The only thing he could feel was that something seemed to have crushed him!

For a moment, Shangguan Jing even felt that all the muscles, bones, and flesh in his body had been completely crushed! Fortunately, this feeling did not last long.

After a period of struggle, a crack appeared in the darkness in front of him. Only then did he take the opportunity to rush out of the space vortex.

*Thump!*

The sky was bright in front of Shangguan Jing, and the dazzling light made him close his eyes unconsciously. Then, his body suddenly landed on air, and he fell to the ground.

*Thump!*

The dull sound was even clearer in the quiet atmosphere.

Shangguan Jing endured the pain in his body and slowly got up to look around.

It was night, and everything was gray and gloomy. But under the black dome, on the distant horizon, a wall stood so clearly.

The wall was completely black, very tall, and extremely long. As far as the eye could see, it was impossible to see either end.

Seeing that wall, Shangguan Jing's heart skipped a beat!

He had seen this wall before! When he first came to the God Residence Realm a thousand years ago, he had seen this wall by chance. At that time, he only felt that it was strange that there was such an endless wall in the God-Killing Tumulus. After all, everyone knew that the bloody battle tens of thousands of years ago was tragic.

Countless legendary warriors had died together, almost causing the world to lose its color.

And here, there was actually such a wall—it was indeed very strange.

Unfortunately, he had just been betrayed at the time and wasn't in the mood to think about anything else. Therefore, after taking a look from afar, he quickly left in another direction.

Unexpectedly, when he came here a thousand years later, he actually... saw the same scene again!

There was nobody around. It was so quiet he could hear his heart beating.

Shangguan Jing took a deep breath and walked forward! *The God-Killing Tumulus is vast. If I'm not wrong, this place is far from the place I had come from. It is probably not that simple to meet up with Yue'er and the others again...*

*And in this wilderness, the wall is the only obvious landmark. If they can see it too, perhaps... we can meet there!*

As Shangguan Jing walked forward, he kept trying to search for their auras. Fortunately, he didn't encounter much trouble on the way.

Although he had not sensed their auras, Shangguan Jing wasn't too discouraged. On the one hand, Chu Liuyue had many trump cards and was extremely strong. On the other hand, Rong Xiu would definitely protect her.

If it were before, Shangguan Jing might've been a little worried about this. But after seeing with his own eyes that Rong Xiu had only used less than ten days to refine a royal Yuan instrument, he knew that he had far underestimated the other party in the past.

### **Chapter 1649: Kill Them!**

Time always passed particularly quickly when one was focused on something.

She and Rong Xiu sparred and played chess. After four hours, they were only halfway done.

On the shimmering chessboard, the golden chess pieces and the red chess pieces fought each other. Each occupied half of the space, and the battle was intense.

However, Chu Liuyue did calm down during this process. Moreover, her long-awaited battle with Rong Xiu had given her a lot of insight.

When the sky was slightly bright, this chess game had finally reached the last moment!

*Slap!*

Chu Liuyue put down a piece with her eyes sparkling brightly.

Not only did she not look dispirited after a sleepless night, but she also seemed to be in high spirits.

Her eyes were fixed on the chessboard, but her mind was spinning crazily. In this short period of time, she had already gone through countless possibilities!

Rong Xiu looked up at her. Seeing her shining eyes, he couldn't help but chuckle. *It has been so long, but nothing has changed.*

*Slap!*

Rong Xiu waved his wrist gently, and a golden chess piece condensed from force suddenly flew out of his slender and fair fingers and landed on the chessboard!

In an instant, the situation on the chessboard changed drastically!

It was as if two dragons of similar strength were fighting fiercely. They were originally evenly matched, but at this moment, a sword suddenly tore through the air and cut off the dragon head on her side.

One move—the outcome was decided!

Chu Liuyue suddenly froze and widened her eyes. *Rong Xiu's move was actually not within all my previous rehearsals! Without batting an eyelid, he killed me!*

She stared intently at the chessboard. At this moment, she realized that Rong Xiu had already set up a trap and was just waiting to lure her into it step by step.

She had mistakenly thought that their combat strength was equal, but in fact, she was already under his control.

*Thump!*

The chessboard shattered with a bang and turned into countless light spots that quickly dissipated! However, Chu Liuyue was still stunned on the spot as if she had yet to recover.

Rong Xiu was about to step forward when she suddenly said, "Rong Xiu, guard me first. I'm thinking of something."

Rong Xiu raised his sharp brows slightly. *Since my wife has given the order, I naturally have to agree.*

"Okay." He didn't step forward again and just stood there with his hands behind his back, waiting patiently.

Chu Liuyue sat cross-legged with her hands on her knees, closed her eyes, and held her breath.

A complicated Xuan formation quietly appeared in her mind. Then, a second and a third...

More and more Xuan formations appeared.

At a certain moment, she finally tried to connect these Xuan formations.

These were the Xuan formations she had learned from Big Baby in the past. Strictly speaking, they were more or less similar to the Heaven-Locking Formation.

Previously, she had always wanted to gradually figure out the Heaven-Locking Formation's mysteries by establishing the connection between these Xuan formations, but she had never succeeded.

But after this game of chess with Rong Xiu tonight, she instantly understood something. Vaguely, she seemed to have touched an invisible barrier.

Chu Liuyue's brows moved slightly. *That is... the threshold of a Great King Xuan Master!*

Even someone as arrogant as her was stunned. She didn't expect that she could actually touch the opportunity to break through to become Great King Xuan Master in such a short period of time!

She had successfully broken through to become a King Xuan Master some time ago. However, there was a huge difference between a King Xuan Master and a Great King Xuan Master.

Even Elder Hua Feng had been a King Xuan Master for decades before he could finally break through that threshold and officially become a Great King Xuan Master!

And she had only reached this realm for a few months... It was too exaggerated!

Perhaps it was because she had already memorized countless high-level Xuan formations in the early years, or perhaps it was because she had forcefully repaired the Heaven-Locking Formation. Maybe it was because of her competition with Rong Xiu that she suddenly understood... In short, the surprise came too quickly!

Since an opportunity had descended from the sky, she naturally had to grasp it tightly!

At this point, a bright white light flashed across the sky!

Rong Xiu looked up slightly, and there seemed to be waves in his eyes that disappeared in the blink of an eye.

...

At the same time, in another place in the God-Killing Tumulus, a few people were slowly moving forward.

"Elder Wu Peng, let's rest for a while?" Nan Yiyi looked at her brother beside her. Seeing his pale face, her heart ached.

Elder Wu Peng frowned slightly, but before he could speak, Nan Yuxing shook his head. "We're almost there. Let's go over directly."

Nan Yiyi had cried all the way, so at this moment, her eyes were as red as walnuts and bloodshot. "B-But Big Brother, your body—"

In the Red Soul Woods, Nan Yuxing had been surrounded by those red leaves, and they had spent a lot of effort to finally escape.

The two elders and Nan Yiyi were both injured, let alone Nan Yuxing. He had almost lost his life.

His entire body was covered in injuries, and there wasn't a single good place.

Those red leaves were even poisonous. If the two elders hadn't brought him out in time and used extremely precious medicinal pills, Nan Yuxing would probably still be unconscious.

Along the way, it was Elder Bai Tong and Elder Wu Peng who supported Nan Yuxing forward.

Elder Bai Tong hesitated for a moment and advised, "Young Master, that thing is in the God-Killing Tumulus anyway. We've already entered, so there's no hurry. Right now, your health is more important!"

Nan Yuxing gritted his teeth.

He knew that they were all doing this for his own good, but the more this was the case, the easier it was for him to remember how sorry he looked at this moment!

He had always been proud and had never been in such a sorry state!

"No, there's no need—" He struggled forward, but his legs suddenly gave way, and he fell to the ground!

"Young Master!"

"Big brother!"

Elder Bai Tong and Nan Yiyi's faces were filled with worry as they hurriedly supported him.

Elder Wu Peng clenched his fists in his sleeves and finally spoke. "Eldest Young Master, you should stop and rest for a while. There's still poison in your body that hasn't been expelled. It's probably not good to advance rashly now."

When Elder Bai Tong heard this, he hurriedly echoed the same thing.

Helpless, Nan Yuxing could only nod.

Just as they were about to stop and rest, Elder Bai Tong suddenly saw a familiar tall figure in the distance.

At this moment, the sky was about to brighten. He stood in the morning light, looking like an immortal.

"It's... It's him!?"

Not far from him, a woman in a red dress was sitting cross-legged as if she were cultivating.

It was the two people from before!

Elder Bai Tong's voice attracted the attention of the other three.

Nan Yuxing looked up. When he saw the two figures clearly, endless anger and resentment suddenly surged in his heart! *If not for them, how would I have fallen into this state?*

“Kill them... Kill them!”

### Chapter 1650: Doll in Disguise

He was agitated, and his blood rushed up to his head. The moment he said this, he suddenly spat out a mouthful of blood!

“Big Brother!” Nan Yiyi retracted her gaze. Seeing her brother’s increasingly pale face and the fresh red blood by the corner of his lips, her heart was a mess. “It’s all my fault—all my fault!”

As Nan Yiyi spoke, her tears welled up again. She bit her lips tightly, and a metallic taste filled her mouth. *“If I wasn’t so stubborn, Big Brother wouldn’t—*

“Eldest Young Master, your body is still very weak now. You don’t have to rush the revenge. When you’ve healed, it’s not too late for us to pursue them and kill them.” Elder Wu Peng still didn’t have any expression, but his voice was colder with thick murderous intent.

Nan Yuxing slowly wiped away the blood from the corner of his mouth. Staring at the two figures for a long time, he said with vengeance, “Okay! I’ll let them live a little longer!”

*Anyway, we’re already at the God-Killing Tumulus. No matter what, those two people can’t escape from our control!?”*

Elder Bai Tong and Nan Yiyi helped him to the side to rest. Then, Elder Bai Tong took out a pill again and gave it to Nan Yuxing.

“This is the last Yu Qing Pill. After you eat it, Wu Peng and I will join forces to help you clear the remaining poison. Your body can approximately recover by 50% to 60%.” As Elder Bai Tong spoke, an orange fire emerged in his palm!

*Thump!*

He hit the back of Nan Yuxing’s head!

The hot warmth immediately spread throughout his body!

Nan Yuxing grunted. His originally colorless face instantly flushed red!

At the same time, Elder Wu Peng walked to his side and took out another two silver needles. “Eldest Young Master, bear with it for a little.”

As he spoke, he had already rapidly and swiftly stuck the two silver needles into Nan Yuxing’s index finger.

Very quickly, black-red blood flowed out from Nan Yuxing’s hands and dripped down along the silver needles.

Nan Yuxing closed his eyes tightly. His body was icy for a moment and burning hot the other, torturing him to the point he kept shivering.

Nan Yiyi watched from the side and whimpered softly. Seeing her big brother being tortured, she couldn't help but turn around, her bloodshot eyes filled with vengeance!*?I have... to take revenge!?*

...

Rong Xiu was originally watching Chu Liuyue cultivate when he suddenly heard noises by his ear.

His gaze turned slightly, and he glanced over nonchalantly.*?Oh, so it's them... They really never go away.?*

Murderous intent flashed across Rong Xiu's eyes before it instantly disappeared. Then, he retracted his gaze and gazed at Chu Liuyue again.

He whipped his sleeves, and a golden string swam across the ground!

That golden string was extremely thin, and it buried itself in the ground. Without taking a closer look, it wasn't easy to detect it.

...

After about an hour, the blood dripping down Nan Yuxing's hands finally turned from black to red.

On the other hand, those two silver needles had turned completely black.

Elder Wu Peng took the two silver needles out, and force turned in his palms. The hard silver needles directly turned into powder.

Elder Bai Tong finally removed his hands from the back of Nan Yuxing's head and heaved a long sigh of relief. "Okay, the poison in Eldest Young Master's poison can be considered to be totally removed. As long as we carefully treat it, he can recover in ten days."

At this point, Nan Yuxing was totally drenched because of the pain, and he looked especially disheveled.

"Ten days..." Hearing Elder Bai Tong's words, Nan Yuxing lowered his head and muttered, clenching his fists slowly.*?Ever since I broke through to become a true god, I have never suffered such a serious injury! And this time, I was tricked by two people that I don't even know the names or statuses of! How can I take this lying down?!?*

Elder Bai Tong had followed him for so many years, so how could he not know what Nan Yuxing was thinking now? His lips moved as he said, "Actually, the leaves in Red Soul Woods are very poisonous. Luckily, Eldest Young Master, you always take medicinal baths, so you can last till now. If it were an average person, I'm afraid it would be hard for them to handle it."

Hearing this, Nan Yuxing did not feel comforted. To him, he felt that he would've long left the Red Soul Woods successfully if not for Chu Liuyue and Rong Xiu. Why would he suffer such an injury?!

He completely forgot that they caused trouble for them first.

Nan Yuxing took a deep breath in and suppressed his tumultuous emotions. Then, he stood up and looked forward.

Suddenly, he knitted his brows. "Why are there only the two of them there? Wasn't there also a man with them previously? Oh yes, there's still that little girl..."

He said the last sentence with gritted teeth.

As he said that, Elder Bai Tong and the rest also noticed that something was amiss. "Yeah. Did they hide?"

Elder Wu Peng looked over and shook his head. "There's indeed only the two of them nearby."

"Did they go missing? Or..." Countless guesses surfaced in Nan Yuxing's mind. Then, he sneered. "No matter what, they deserve it!"

*The minority can't fight against the majority. In such situations, it will be even easier to handle the two of them! The God-Killing Tumulus is dangerous everywhere. It's very normal for an accident to happen or for someone to go missing. These people don't know what's good for them, so who can they blame??*

Just as he was about to go forward, Elder Wu Peng stopped him. "Eldest Young Master, let's wait a while first."

Nan Yuxing knitted his brows. "What else are we waiting for?"

*The two of them are just in front. It would be easy to just directly go over and kill them! What is there to hesitate or wait about??*

Elder Wu Peng glanced at him. "Have you forgotten where this place is?"

Nan Yuxing's expression changed slightly. *Oh right, this is where the legendary warrior tombstones are located. It's extremely hard for an ordinary person to enter this place. Even a legendary warrior might not be able to reach this place in such a short amount of time, let alone the two of them. The more important thing is that the two of them don't seem injured.?*

"Could it be... that they also have a way to come to this place directly? They indeed came for that thing!" Nan Yuxing's expression changed.

Elder Wu Peng paused for a moment. "I can't confirm this now, but... the only thing we can confirm is that they indeed have some skills, or they have some extraordinary treasure."

If not, it was impossible for them to reach this place safely.

"Besides, I don't have a clue about that little girl's identity." Speaking of this, Elder Wu Peng furrowed his brows tightly. *This problem has bothered him for a long time, but I still can't find an answer. That little girl looked like she was three or four, but her combat skills were shocking. Without circulating force, she used one punch to make Eldest Young Master fly back. And the most important thing was that the little girl had never revealed her face before then. Yet, when Eldest Young Master wanted to kill that woman, she suddenly appeared! It's really too strange.?*

Nan Yuxing clenched her teeth. "That little girl... definitely disguised herself!"

*I still remember the taste of that punch to this day!?*
