

## The First Heir 126

### Chapter 126

Professor Turner had really come for Philip!

This was astonishing.

In the eyes of Juan, Philip was a complete loser!

What was it about him that made Professor Turner treat him so respectfully?

Wait!

Juan recalled the time he saw Philip and Professor Turner in the rest area of the hospital. 'Did Professor Turner also come specifically for him at that time?'

All of a sudden, Juan panicked.

At the same time, he was very angry.

'This is impossible! It must be a mistake!'

Wynn still had her eyes opened wide. She looked at Philip in disbelief, her tiny mouth opening slightly. With her lips trembling, she asked, "Philip... Philip, did you really get Professor Turner?"

'How is this happening?'

If this happened in the past, Wynn would think that this Professor Turner was an impostor.

However, after what happened last night, Wynn got to know the other side of Philip.

Although, even if Philip's family was well to do, it still would not have led to Professor Turner treating him so respectfully.

He was a leading authority of medicine, a big shot who was sought after by countless people.
