### **Chapter 3211**

Emily looked up.

She shook her head and said, "I used to command a lot of respect when I was in the Finn family back then too, but I didn't expect that I would leave the Finn family one day!"

Emily finally revealed the reason during Philip's questioning.

Back then, Emily's father was a popular figure in the Finn family, but he was kicked out together with Emily's grandfather because he met Emily's mother in North Battle District. Since then, Emily and her grandfather were left to fend for each other.

Philip looked up and asked, "Do you still want to go back to them?"

Hearing Philip's question, Emily shook her head and said, "I didn't have any feelings for the Finn family in the first place, so I don't care if I go back or not!"

Philip nodded and suddenly asked, "Then do you want to go to the middle floor to look for your mother's family?"

Emily nodded quickly and vigorously.

However, come to think of it, it was probably related to the Finn family.

"If your father wants me to explain about the Finn family's incident, I don't think I have anything to say!"

Hearing that, Arlene was stunned for a moment.

“The Finn family’s incident? Did the Finn family look for you?”

Emily walked over at this time and said to Arlene, “Of course. Philip even got into a fight with Lorna Firm of North Battle District because of this matter. If Cougar Yorkshire of Cougar Squad didn’t step in, I’m afraid this matter wouldn’t be over yet.”

Hearing that, Arlene lowered her head. She whispered to Philip, “I’m sorry, I really didn’t expect that I’d bring you so much trouble...”

After saying this, her head drooped lower.

However, Philip just laughed lightly and said, “You don’t need to apologize to me. It’s not your fault. In fact, it’s not much trouble at all.”

Even without Arlene’s matter, Philip would have joined Cougar Squad. He could not stay on the lower floor forever.

At the mention of her father again, Arlene’s face became sad.

“Patriarch said that he’d only give you three days. If you still don’t return to the Shannon family after three days, I can’t guarantee what will happen next!”

The captain left Leopard’s boxing arena after saying this.

Philip pondered and felt that the patriarch of the Shannon family's purpose in wanting to see him was probably not just because of the Finn family.

Arlene walked up to Philip, and he asked her, "Do you know why your father is looking for me?"

Arlene shook her head.

Her father made all the decisions at home, and no matter what he decided, no one could change them on a whim. Moreover, not everyone knew the reasons either.

### **Chapter 3214**

The captain of the First Team soon brought Philip to the Shannon family, which was unlike most buildings on the lower floor.

The style of the Shannon family's building was more primitive, mostly decorated with wood instead of useless steel accessories. Just looking at the architecture and decoration set them apart in terms of status.

What Philip did not expect was for the door to close behind him as soon as he entered this quaint building.

At this time, a voice rang from the side. "Philip Clarke, the Shannon family has set three challenges for you. You can only meet me, the patriarch of the Shannon family, if you pass these three challenges."

As soon as the words ended, the whole area turned dark.

Philip frowned. Since he came to the land of the other shore, Philip had learned a lot about elemental talent from Emily and Iris.

This should be a scenario created by a dark elemental practitioner!

With a muffled sound, Philip's punch landed on someone. However, this punch only created a ripple on that person.

Philip was taken aback. Since he was here just to pass the challenges, he thought of holding back his attack. He never expected his attack not to hurt his opponent at all.

At this time, the captain laughed and said, "Philip, are you surprised? This is the protective armor newly produced by the middle floor, which is specially used to defend against attacks by star talent practitioners!"

Philip looked at everyone. Since this thing was used for defense, he could attack them without scruples.

Philip promptly rushed toward these people again, but to his surprise, they suddenly dispersed at this time.

In sudden, waves of ripples spread across them, and Philip saw them disappearing from his side one after another. In the next second, they appeared behind Philip.

Philip turned around and threw another punch. This time, the armor of the person who was hit burst into flames.

Philip moved quickly as he blasted out at these people, and fire broke out

Seeing Patriarch Shannon with such a serious expression, Philip narrowed his eyes. This was blatant intimidation.

No matter how Philip looked at it, he was hostile!

However, Philip said steadfastly, "Why are you doing this, then?"

Suddenly, Patriarch Shannon's expression changed, and he said to Philip, "It's nothing more than entrusting my daughter to you!"

Hearing that, Philip's expression changed immediately. If he refused outright, Patriarch Shannon would feel insulted. However, how could Philip promise the other party and be with Arlene?

This was really a dilemma!

"What? Don't you want to marry my daughter?"

Philip adjusted his expression and said, "Patriarch Shannon, it's not that I don't want to, but I'm not worthy of your daughter. Please withdraw your request!"

"Outrageous!" Patriarch Shannon suddenly shouted, and Philip felt a strong wind sweeping over him.

Philip said lightly, "If someone like me can't handle it, can you?"

After speaking, Philip had already arrived in front of the black iron mecha. Philip grabbed the black iron mecha with both hands.

Everyone looked at Philip. They had not seen such a sight in a long time.

Although this mecha had long since become a testing tool in Cougar Squad, the weight of these mechas was no joking matter. Especially the black iron mecha. Maybe no one in the entire Cougar Squad could move it except Cougar.

At this time, Philip's hands exploded with force. He wanted to test the weight of this black iron mecha. The weight of this black iron mecha was incredible, indeed!

#### **Chapter 3218**

It was a corridor to test the speed of reflexes, but as soon as Philip walked in, he realized that something was wrong. That was because based on the speed of an average person, the pendulums, weapons, and even the swinging speed of the guillotine and giant ax would not be so fast.

After all, it was a test, not something meant to kill.

Philip walked in slowly before he smiled and shook his head. To be honest, this level of testing was nothing to him at all.

Since he agreed to the test, Philip would do it seriously.

The man outside laughed oddly as Philip walked in, and the two burly men came over at this time.

"How is it? Did you add something extra for that kid?"

### **Chapter 3219**

Hearing what Philip said, and thinking of what happened earlier, Cougar finally sighed and said, “Well, since that’s the case, you don’t need to continue your test. Once your team is formed, I’ll let you have a group test!”

Cougar had just finished speaking when Philip thanked him, “Thank you, Commander Yorkshire!”

Cougar said, “Don’t take that group test too seriously. As we don’t know how strong the enemy is, I don’t want unnecessary casualties. If your team fails the test, I hope you can agree to my arrangement and enter another team!”

Philip simply nodded.

In fact, Philip already had a candidate in mind. Although Cougar decided that Philip only had one day before he had to take on the fight on Cougar Squad’s virtual battlefield, with Philip’s means, he believed that one day would be enough.

After leaving Cougar Squad, Philip headed to Iris’ bar.

When he walked into the bar, Philip found that the bar was no longer in business. After all, Iris had developed into a star talent elemental practitioner. Since then, Iris had been trying to comprehend her elemental talent.

When she saw Philip walking into her bar, Iris chuckled and said, “What a rare visitor. I’m sure you aren’t here for nothing, so tell me what brings you here.”

Philip was fully aware of Iris' character. She would always say something different and portray her individuality. However, he was not concerned about it. He knew that she was a woman of faith and loyalty. That was why he chose her to form a battle team with him.

At this time, Philip looked at Emily who had not yet made a decision.

He smiled and said, "Emily, I know you may need to take care of Grandpa, so I won't force you. Just follow your heart..."

Hearing that, Emily nodded and said to Philip, "Let me talk to Grandpa first!"

After that, Emily jumped out of the chair and went to the side.

At this moment, Iris looked at Emily who was on the phone.
