

The Game 1011

[Chapter 1011 We're Not Qualified To Eat Beef?\(1!](#)

Ma Tianyu squeezed another glass of fruit juice and diluted it with normal water. He wanted to see how the diluted fruit juice was.

Even after he had diluted one cup into two, it still tasted better than Coke.

After the two cups were diluted into four cups, although the taste and texture were not as good as the original, it was still better than Coke.

However, those who could afford to buy these blueberries probably wouldn't dilute it and affect the absolutely delicious taste.

Ma Tianyu also immediately asked his wife to help him shoot the video.

So many fans had requested to review the Cola fruit. Now that he knew how magical the Cola fruit was, he naturally wanted to share it with his fans as soon as possible.

Ma Tianyu wasn't the only one evaluating the Cola fruit. More and more people who had ordered and received the Cola fruit knew about its effects.

More and more people began to upload their videos, expressing the magical effects of the Cola fruit.

The Cola fruit juice was really better than Coke.

At the headquarters of Yuanqi forest.

Thompson had also received his ordered Cola fruit. He was chewing a Cola fruit in his mouth, and his expression was a little ugly. His assistant was helping him make juice.

"President Tang, the juice is ready." The assistant handed a glass of crushed Cola fruit juice to Thompson, which was already filled with ice.

Thompson took a sip of the juice, and after that, he couldn't help but take a few more sips.

After drinking half a glass of Cola fruit juice, he slumped into his chair. sigh, you've given us hope and opportunity for our bubble water. Why did you let Linlin company come up with this kind of thing? "

He felt that Linlin company was really his nemesis.

they were in the sports beverage industry, and they were no match for the linlin leisure tea.

Let's make a gas bubble. Two colas gave them such a good opportunity. It was the time for them to show off. Linlin company released this Cola fruit.

After drinking a glass of Cola fruit juice, he knew that neither the two colas nor their bubble water could be the fruit juice.

This was a very unreasonable product.

Why can Cola grow in the blue plum?

At the local headquarters of Coca-Cola, Luther had also received the Cola fruit that he had ordered from his Secretary.

"Mr. Luther, I've added ice. Please drink." The Secretary handed him a glass of brewed Cola fruit juice.

Luther took the juice. With just one sip, he could not help but sigh. "How can it taste so much better than our Coke? I really can't believe that it's just a fruit."

"Al!" Luther was a little helpless.

It would be a disaster for their Cola to encounter this Cola fruit in such a situation.

At least in this country.

The urgent sound of a video conference connection was heard.

Luther looked over. It was those guys from the headquarters again.

After the video was connected, the people from the headquarters appeared on the other side of the video.

Luther, have you come up with your reform plan? Our stock fell a lot overnight!

"You have to settle this quickly and maintain the stock price."

"That's right, we can't let the stock price continue to fall!"

"....."

Clearly, the huge problem with Coca-Cola in the domestic market had a huge impact, especially on the stock price.

The shareholders were also very clear on how huge a market with a population of 1.4 billion was.

However, Luther was a little helpless. These people clearly knew that this market was very important to him, but they needed it while bullying the people in it, treating them like fools.

Now that something had happened, he could only hide in the headquarters and command remotely.

"Gentlemen, I'm afraid we have a bigger problem to deal with now." At this moment, Luther also said to the people in the video, "A product has appeared in this country. This product will pose a fatal threat to us in this situation."

"You mean that Garden Forest?"

We don't need to worry about that product at all. We've done some research.

"Luther, you seem to have put your energy in the wrong place."

"....."

Seeing that these people still didn't know what was going on, Luther quickly told them about the Cola fruit. In an instant, the expressions of those from Coca-Cola's group changed.

"How could there be such a thing?"

"Why is Coke growing in fruits?"

"Luther, are you sure this is true?"

Luther laughed at the suspicion. He took the juicer and showed everyone how he squeezed a glass of Cola juice. Then, he added ice and drank it.

not only is it real, " he added, " but this Cola fruit juice is much better than our Coke.

At this moment, the expressions of the people from Keke Cola's headquarters changed completely.

For such a thing to appear under such circumstances, it could really be said to be a disaster for them.

"I can't just do nothing!" One of the people with the highest status said, " hurry up and find the Internet Water Army to secretly slander this so-called Cola fruit. What genetic modification, what mutation after eating it, what poison, even if they can cause cancer, just ignore it.

This was also a common method of discrediting, and they were very good at it.

However, at this moment, the Secretary carefully reminded him, " Mr. Luther, please take a look at the news. It's about the Cola fruit. Their official special procurement department has announced an order for the Cola fruit!

Luther was stunned. When he heard the news, he hurriedly took his phone to check the news online.

As expected, he found out about this special purchase.

Luther immediately turned to the people from the headquarters helplessly and said, " "guys, your plan might not work. the government of this country has already supported the cola fruit."

Of course, he knew what special purchase meant. In this country, it was called tribute.

This was equivalent to the country supporting the Cola fruit.

In this situation, it was useless to use these tricks. If you used them, others would know that it was you.

Eternal Cola had also received this news. Its people had also thought of using the same method to defame the company, but when they saw the news of the official purchase of Cola fruits, they knew that this method would not work.

moreover, the two cola companies also knew that something even worse was about to happen.

Once this country stepped up, all of their business tactics would lose their effect. If the other country wanted to support the Cola fruit, what could they do to resist?

Suddenly, they really regretted it.

However, there was no medicine for regret in this world.

When they felt that the people of this world could be bullied as they pleased, they were destined to suffer the consequences of their own actions.

In the next few days, the popularity of the Cola fruit increased, and more and more people had eaten the Cola fruit and drank the Cola fruit juice.

Everyone knew that a Cola fruit was better than two colas.

As a result, the share prices of the two colas fell again and again.

...

linlin manor.

Qin Lin woke up early in the morning and had just arrived at his office when Li Kai rushed in. "Old Brother Qin, this is bad, this is bad."

"Old brother li, what's wrong with you?" Qin Lin asked, puzzled.

"Old Brother Qin, do you still remember that mutated rice seedling?" Li Kai hurriedly asked. Can you believe that the seedlings have grown to half a meter tall in such a short period of time? look at this video!"

as he spoke, he had already opened a video and handed it to qin lin.

Qin Lin didn't find it strange. After all, he knew that the rice seedlings could grow higher than sorghum and produce peanut-sized rice grains.

This was just how far away.

However, looking at old brother Li's excited face, he knew that he had to pretend to be surprised. He played along and pretended to be surprised and praised, " "Old brother li, this Zhu daomiao has grown so tall? It's unbelievable."

Perhaps God couldn't stand him acting like this anymore, so a phone call came in. It was academician Zhu.

Seeing that it was a call from this senior, he answered it immediately.

Academician Zhu's hearty voice was heard. boss Qin, congratulations. Cola fruit is too famous now. Old people like us were lucky enough to have some. The juice is really good.

"Academician Zhu, you didn't make this call just for this, did you?" Qin Lin said with a smile.

Academician Zhu proudly said, " of course. I invite you to watch the news at Noon. Deep-space rocket No. 1 will be launched at noon today.

"Really?" Qin Lin was surprised.

He had seen the news about academician Zhu's rocket launch, but he didn't expect it to be ready so soon.

After receiving the news, Qin Lin went to the TV at noon to watch the live broadcast of Deep Space 1 rocket launch.

At this moment, countless people were watching this historical moment on TV.

the previous news had made everyone aware of the importance of deep space exploration rockets. it also made everyone know that this was the first time they had surpassed the west in this high-end technology.

This time, it was destined to be an honor.

When the deep space No. 1 rocket appeared on the screen, Qin Lin's heart skipped a beat.

The appearance of this rocket was related to his Manor. It was the effect of the moonstone, and he was also proud of it. He even felt a strong sense of participation.

When the rocket was ignited and flew into space, it might bring a new space journey for mankind.

The next day.

The news of the successful launch of deep space rocket No. 1 also became a new hot search.

Even the popularity of the Cola fruit had been suppressed a little.

Qin Lin went to his office and browsed through a few videos on his phone. All of them were about the successful launch of Deep Space 1 rocket.

Some people even claimed that the success of the deep space No. 1 rocket would allow their rocket technology to surpass the West's by more than ten years, and even the domineering country was no exception.

qin lin was very happy about this news, but the next two pieces of news made him frown.

Both were news about Fu sang country.

one is that Fu sang country has publicly announced internationally that they will make the core military base near our Coast as a target to attack when necessary. They will also frequently participate in the Alliance meeting in the North in an attempt to 'untie the military'!

This was a Wolf's ambition. He really thought that his fist was strong enough.

This news naturally caused a huge uproar.

Everyone who saw this condemned him. They were not fools and could see that there was something fishy about this.

no one would forget some of the insults and grudges.

Qin Lin couldn't care less about this kind of thing. After all, his position didn't have the right to care about this kind of thing. If that day really came, he could just donate. After calculating the assets and funds of each company, he could donate 10 billion without any pressure.

however, the second piece of news made him furious.

Fusang's quanxue and beef will be banned from being sold in China. The beef Association, Yagyu yoshichiro, says that people in China are not qualified to eat quanxue and beef!

The meaning of this news and the previous news was obvious. It was a complete counter.

The netizens didn't know whether to laugh or cry, and they commented as if they had never eaten beef before.

Many netizens even expressed that they wouldn't eat the whole snow and beef even if they were offered it.

This was also a fact. How many people in China had eaten whole snow and beef? Even if he didn't eat it, it wouldn't matter.

However, to Japan, all the snow and beef were their national treasures. It was to the point where people could die, but cows could not.

therefore, for yagyama yoshichiro, this was a very effective and intimidating way of targeting him. look, our all-snow and beef are world-famous, and you don't even have the right to smell it now.

"It's really brainless and disgusting!" qin lin frowned slightly when he saw this.

Although he knew that this wouldn't hurt them at all, he still felt a little uncomfortable in his heart. He really wanted to humiliate the other party's national treasure!

[Chapter 1012 You Don't Even Know How To Insult People? Isn't It Just Beef?](#)

She didn't even take you seriously, so why do you have to be so sentimental?

Qin Lin really wanted to say this to Yagy yoshichiro, the president of the Wagyu Association in Japan.

Yesterday, he had seen the news that the other party had announced that they would no longer supply the country with all-snow and beef. To be honest, this news really did not affect the people in the country.

Even if the Fusang cars were not supplied to the country, it might cause a bit of a storm. Unfortunately, the Fusang cars would not dare to do so, unless they really did not want this market.

Now, a day had passed, and this yagyama yoshichiro was making a scene again.

Early in the morning, Qin Lin saw some disgusting news again.

Japanese cattle Association, yagushan Yoshiro, will hold an international beef tasting meeting in China and will ban domestic beef from participating. Yagushan Yoshiro clearly stated that the quality of domestic beef is too poor and is not qualified!

Qin Lin took a sip of water to calm himself down.

What the hell was this beef that not many people ate?

These guys treated the Wagyu cow as a national treasure, but it was not a national treasure to them.

He wanted to humiliate them?

That would be underestimating them.

however, it was uncomfortable to see the other party disgusting people.

He was even more determined to humiliate the other party's national treasure.

You can tolerate a fool, but you really can't tolerate a fool who keeps disgusting you in front of you.

qin lin found yang dong's phone number. just as he was about to call him, he remembered that yang dong had already asked for leave to get married. it would be unromantic to disturb him at this time.

So, he put down his phone and went to Linlin Ranch's cow breeding area.

Linlin pasture and cattle breeding area were special breeding areas and were not open to the public.

qin lin had bought 20 fake wagyu cows and replaced 16 of them with real wagyu cows. after confirming that these 16 were real wagyu cows, the wagyu breeding area was also established.

The number of Masters in charge of breeding and cattle breeding had also increased from one to three.

When Qin Lin arrived, the three teachers also came forward to welcome him. Outsiders didn't know the identity of Chairman Qin, but they did.

"Chairman Qin, that yagyama yoshichiro on the internet is too despicable."

"That's right. The other party treats Wagyu cows like treasures, but they don't know that we have Wagyu cows in our Ranch."

"chairman qin, do you want to pull a kazufuru out to teach that yagyama mashiro a lesson?"

The three breeding Masters had obviously seen the news on the internet and were a little angry.

"can the 16 heifer cows be bred and pregnant now?" qin lin asked.

one of the breeding masters explained, " "President Qin, it's not that fast for Xiao Niu to get pregnant. It will take about 21 months."

"that's still early!" Qin Lin frowned slightly. Not being able to conceive would not achieve the effect of humiliation.

furthermore, the growth time of cows was very slow. it would take some time for these 16 cows to grow into a large scale.

" chairman qin, we have a kazufuru here. should we respond to that yagyama mashiro? " the other master also asked. obviously, they wanted to tell yagyama yoshichiro that they should not keep the things that they already had.

"don't worry, i'll handle this." qin lin returned to his office and turned on his computer. he found a farm website.

It was the website of the ranch where he had bought the fake Wagyu cow last time.

This farm was called Mountain wood and cow farm.

The introduction was still selling authentic and young cattle at 15000 Yuan each. Naturally, there were also authentic adult and cattle breeding cattle for 350000 Yuan each.

last time, he had bought 20 cows and cubs in one go.

this time, he placed an order for 10 adult fake and cows in one go.

they only noted that the mature fake wagyu had some wagyu bloodline. at the same time, some of the marked people had not been castrated and had the opportunity to breed real wagyu.

Even if there was a chance, it meant that it would never succeed.

Obviously, this was another trick, and the buyer had to be willing to take the bait.

It was no wonder that the scammer's farm had not fallen.

Since that was the case, Qin Lin did not hold back. This time, he would let the other party take the blame again. Moreover, this time, he would directly let the other party take the blame.

After all, who knew how many people had been scammed by this swindler's farm?

It was even more expensive to mature a cow here. One actually cost 350000 Yuan. Other than him, who else would be fooled?

Qin Lin clicked "confirm" and placed the order.

The address was still the same warehouse where he had exchanged for elephants in Ming city.

That warehouse was remote enough, and there were no surveillance cameras around it. Just like the warehouse in you city, he had bought it for convenience.

at the same time.

in the mountain wood cow farm, mountain wood had also received an order in front of his computer. when he saw the 70000 deposit for 10 adult cows, he stood up excitedly and shouted, " Mr. Chu, we have a new order. Get ready!

"Mr. Shanmu, how big is the order?" Lord Chu ran in.

"10 adult Wagyu cows!" Shan mu said happily.

"10 mature ones? There were people buying this? But it's really a big order, I'll go prepare." Chu Jun's face was full of excitement. Such a big order was rare, and it was one less order.

After all, it only took a year and a half to raise and kill cattle.

in other words, many people would realize that they had been tricked after raising it for a year and a half, and they were not buying young cows at all.

in the beginning, they could still say that the other party was not well taken care of, but the more people there were, the more difficult it was to fool them. sooner or later, they would not be able to continue.

Soon, the 10 adult cows were delivered by Shan mu. He took out a glass of red wine and poured it for Chu Jun and himself to celebrate.

[Chapter 1013 You Don't Even Know How To Insult People? Isn't It Just Beef?](#)

"Lord Chu, get rich!" Shan mu raised his cup with a smile, saying, " the order for 10 adult Wagyu cows this time seems to be a little closer to the previous one. They're all from Ming city. It might be the same person who ordered them, or they might know each other.

He really hoped that there would be more and more fools who were so gullible.

.....

ming city.

In a remote warehouse.

Qin Lin had to point the way for a long time before the delivery man from shanmu Ranch arrived.

the person in charge of the transportation asked the workers to unload the cattle and drive them into the warehouse. after qin lin received and signed the papers, he didn't stay any longer and left with his men.

Qin Lin wasn't in a hurry.

After those people had left for some time, he then informed Zhao Liyuan to bring a truck to transport the goods. He then opened the door of the warehouse and walked in.

The next step was to replace it with a fake one.

Qin Lin looked directly at the two adult cows. These two were specially selected by him. They had yellow hair all over their bodies without a trace of impurity. There were two raised cows in the game that had such hair, and the key was that their sizes were similar.

That was why he chose these two.

With a thought, Qin Lin brought the two Bulls into the game. After a while, two adult Bulls were brought out. These were the two adult male Bulls in the game.

Then, Qin Lin brought the remaining eight fake adult Wagyu cows into the game and began to control the game characters to drive the adult Wagyu cows to the butcher for slaughter.

After slaughtering eight of them in a row, he had more than 4000 catties of quality 1 snow and beef in his warehouse in reality.

The grade 2 ones were all left in the game.

This time, he didn't take out the quality 2 one.

this was because using a grade 1 weapon to humiliate others was already enough. on the other hand, using a grade 2 weapon was a little too much.

After that, Qin Lin looked at the two adult Wagyu that he had specially selected. These two would become super breeding cattle.

Don't people like yasuyama Yoshiro in Japan care about their national treasures and cows? Did they think that quanxue and bull's entry into the country was their punishment?

then, he would inform the others that Linlin Ranch would provide Wagyu cattle for breeding. All the farms in the country could bring cows for breeding. As for whether they could breed and raise Wagyu cattle, it would depend on the ability of each farm.

You care about the national treasure, you care about the cow, and if * cking breed for free. Who will be humiliated then?

It was like a person who had been licking a goddess for a few years and had not managed to get her, but suddenly found out that this goddess had been slept with by many people, even people he looked down on, and she was the kind that could be bought for 2000 Yuan. What kind of feeling would that be?

This was the true humiliation.

This was probably what it felt like to kill someone.

However, the young could be said to have mutated because of the dog tooth grass on the farm, but what about the adult one?

After all, the two adult cows were very big, and there was no way they were raised by Linlin Ranch.

So, he had a bad idea. He took out his phone and called Wang Yang.

The call immediately connected, and Wang Yan's voice came through, "Chairman Qin, do you have any orders?"

"Transfer 5 million Yuan to an account for me," Qin Lin said directly. "I want to use an account that's hard to trace. I'll transfer the money to you later."

"Chairman Qin, just leave this small matter to me."

In the provincial capital of Min Province, Wang Yan hung up the phone. Although he was a little confused, he didn't probe further. It was his honor to have something from Chairman Qin.

Besides, this was just a small matter.

He knew what it meant to use an account that no one could trace.

So, he took out his phone and dialed a number. He said, "Brother Xiaohei, long time no see. Haha, sure, I'll organize one in two days. Now, I'd like to ask Brother Xiaohei for a favor. Transfer 5 million to an account. Well, I'll wait for the money to be transferred to your normal bank account ...

Ming City.

Qin Lin was waiting for Zhao Liyuan after he was done with his plan.

Not long after, Zhao Liyuan also brought a transport team to transport the cattle and beef.

When Zhao Liyuan took the car back to You City, Qin Lin followed behind.

At this moment, Wang Yan's call came in again. "Chairman Qin, it's done. I've already transferred the 5 million."

"I know. Come to the villa to make tea when you're free." Qin Lin's lips curled into a smile.

Yang Dong had taken leave from his marriage, so he could only instruct these three people about his matter with the cow.

as soon as qin lin got out of the car, the three tamers surrounded him.

Mr. Qin, look at the latest news. The president of the Wagyu Association, Yagyu Mashiro, is up to no good again.

"Yeah, we can't let this guy continue to disgust us."

"Chairman Qin, can you announce that we have news of a bull?"

When Qin Lin heard what the three breeders said, he took out his mobile phone and looked at the internet. Sure enough, there was another news about Yagyu yoshichiro.

Yagyu yoshichiro of Fusang has announced again that the International beef tasting conference will not only be held in China but will also reject the participation of domestic beef, and any domestic person will be allowed to attend!

Qin Lin was speechless. It was as if they really wanted to participate.

The main point was that this news account was brainless. Why would a disgusting person post such news for no reason?

Naturally, it could also be that they paid the money to release this kind of news for the people in the country to see. After all, it was a national treasure, and they always thought that it was embarrassing.

It was understandable since he was paid to do it. After all, these news accounts should not be able to speak with their conscience.

However, the three breeding Masters were right. They couldn't let the other party continue to disgust them.

Qin Lin took out his phone and dialed Lin Lanzi's number. He ordered her, manager Lin, make two videos about kazufuru.

one of them will say that our villa is holding an event, and that the next few days, tourists will have a chance to draw a lottery. The lucky winners will have the chance to enjoy a 20 yuan pork chop and a similarly-sized premium whole snow and beef steak that is worth 1 yuan!

Didn't the other party think that his quanxue was very valuable? A national treasure?

Then I'll use your whole snow and beef to set the pork. For the same size, my pork is 20 yuan, but your whole snow and beef are only 1 yuan.

Tell me, who was more humiliated?

These Fusang people didn't even know how to insult others, so he would teach them a lesson.

"Alright, Chairman Qin!" lin lanzi more or less knew that the boss was targeting the wagyu beef. she then asked,"What about the other video?"

Qin Yu said, " the other video says that our Linlin Ranch has already bred a Wawa and will soon be able to raise it on a large scale. In addition, there are two adult high-quality Wawa. If the ranches 'bosses in the country want to breed them, they can bring their own cows over.

"Achoo!" Lin Lanzi was shocked by her boss's arm when she heard this.

She had also seen the news about yagyama yoshichiro and the beef Association. If they knew that her boss was going to do this, she wondered if they would still dare to be so ostentatious.

After this incident, the price of beef in China would drop. If a few ranchers really managed to produce it, then beef might even be removed from the list of high-end ingredients.

After all, who was the best in the country? It was pirated, even if it was a pirated version of the cow. Moreover, this was not considered a pirated version. If the breeding was successful, it would indeed be a cow breed.

Lin Lanzi felt that yagyama yoshichiro, the people from Japan, and the beef Association would definitely regret making her boss feel disgusted.

Linlin Ranch.

Qin Lin hung up the phone. He was looking forward to seeing the faces of the Japanese.

The three cattle keepers hurriedly stepped forward.

"Chairman Qin, we still can't breed our cows!"

"Yeah, they're too young to be worthy!"

[Chapter 1015 Impossible? It's A Complete Insult! 1](#)

Qin Lin naturally knew that the wakefits were too young, so he smiled and explained to the three masters, " I'm not talking about those young ones. This time, I brought back two mature cows. You can take a look at these two.

as he spoke, he also asked zhao liyuan to drive the two adult cows out of the car.

The three master breeders were instantly attracted by the two adult Wagyu. They hurriedly walked over and started to touch the two adult Wagyu in disbelief.

"Such a strong body, he must be very strong!"

"This bone Gu, this shape, and this big ***, it's really a good breeding cow!"

"It's really a Wagyu. Furthermore, this Wagyu is extremely pure. It's truly unbelievable."

"....."

Since the three of them were Masters in breeding and raising Wagyu cows, they were naturally capable. After observing the two Wagyu cows, they made a judgment.

"chairman qin, how did you get this wagyu?" One of the Masters couldn't help but ask Qin Lin.

It must be known that Japanese would never let such a level of Wagyu out in the world, let alone in their country.

After all, they were guarding the border of Fusang like they were guarding against thieves.

This was also what he was most shocked about.

Now, Chairman Qin had actually brought back a breed of this level.

Another worker immediately said, "Aren't you talking nonsense? As long as you have money, what can't you get? do you think that the people of fusang don't love money?"

Hearing this, the master did not continue to ask.

This was indeed the truth.

"Chairman Qin, are we really going to let these two cattle breed in the ranches outside?" the master asked.

"Why not?" Qin Lin nodded. It would be best if all of these breeding farms could breed wakefu."

These words made the three breeding and cattle Masters look at each other.

It seemed that Chairman Qin liked to do things that insulted other people's national treasures. For example, the Duke's Rose, wasn't it the national flower of that domineering country?

Of course, this kind of thing was very satisfying, but it would also give them more competitors. Otherwise, their Ranch was the only one in the country that had Wagyu cattle.

The three of them naturally didn't know the properties of the dog tooth grass.

The Dogtooth grass on ranches all had a quality of 2, which was A +2 attribute of rich nutrition for animals. The cattle they raised would definitely be better than others.

Moreover, the dog's tooth grass would lose its attribute effect if it was continued to be transplanted and cultivated, so no one else had any way of getting the dog's tooth grass from the ranch.

More importantly, his first batch was produced by the game. In the future, he would only allow the game to produce offspring. The bloodline would be the purest, even purer than the purest Wagyu in Japan to a certain extent.

When people outside went for breeding, only the bull's bloodline was the same as the cow's. If the cow's bloodline wasn't, then the difference in bloodline would be huge.

even if those farms managed to breed wagyu, their quality would be lower. at most, they would be comparable to those in japan. there was no way they could compare with the wagyu in their farms.

Therefore, there was no competition.

after handing the two adult wagyu to the ranch and cattle breeding area, qin lin called chen dabei to bring the 4000 catties of quality one whole piece of snow and beef to the villa.

The beef was used to set off the pork for the event.

Many people had seen the disgusting news about Yagy Mashiro, the president of the Bulls Association. Especially at night.

The three pieces of disgusting news made it to the hot search.

Ma Tianyu naturally saw it too.

As an internet celebrity, he had naturally evaluated beef before, so he knew the quality of all kinds of beef.

But aren't these Fusang people too infuriating?

The quality of the beef and you is good, but don't be so disgusting.

to be honest, it wasn't that he couldn't afford to eat beef. he liked to eat beef usually, but it wasn't because he couldn't eat whole snow and beef.

The other party was making him feel like he was going to die if he didn't eat full snow and beef.

"Hubby, aren't these people from Fusang too full of themselves?" His wife, who was watching the news with him, was speechless.

he Niu is their national treasure, " Ma Tianyu said. they probably think that he Niu has the same status in our country.

As the two of them chatted, Ma Tianyu's background suddenly received a message.

When he opened the messages, he found that many fans had tagged him to watch the new video released by Linlin villa.

This made him puzzled.

What had happened at Linlin villa?

"Honey, look at the new video posted by the official account of Linlin villa," he said to his wife immediately.

His wife nodded and opened mouyin. She found the official account of Linlin villa and saw the newly posted video.

It was Lin Lanzi who had brought the Linlin villa doumei sports department to upload the activity video of the lucky draw and the free pork, snow, and beef.

Hello, everyone. I'm Lin Lanzi. We meet again. I'll tell everyone a piece of good news. From tomorrow onwards, Linlin villa will be holding a lucky draw in order to give back to the tourists. The tourists who win will receive a piece of pork chop of the same size that is worth 20 yuan and premium whole snow and beef that is worth 1 yuan. Before the end of the event, they will be given 1000 points each day. Remember, it's 1000 servings a day.

Ma Tianyu was completely stunned when he saw the video.

He first thought about how big a 20 yuan pork chop was, and then how much the fine snow and beef of this size would cost.

The market price was probably over ten thousand Yuan, but Linlin villa was offering one Yuan?

This price was impossible.

[Chapter 1016 Impossible? It's A Complete Insult! 2](#)

"Honey, we might have to make a trip to Linlin villa." Ma Tianyu immediately understood that Linlin Manor was doing this to target yagyama Mashiro and the people from the Bulls Association.

However, this was the most crucial point.

Would Linlin villa really give him premium snow and beef?

If they really gave away the premium snow and beef, it would be a great blow to yagyama Mashiro and the people of the Kazuki Association.

If Linlin villa couldn't provide high-quality snow and beef, yagyama Mashiro might take the opportunity to mock their country's people for not being able to eat high-quality snow and beef, but using ordinary beef as food.

This was as awkward as people who couldn't afford to wear Adidas and Nike but bought adaddis and Nike.

After all, 1000 copies a day was a huge sum of money.

With Linlin villa's popularity, this video naturally became a hot search very quickly. That was why so many people @ Ma Tianyu.

But at the same time, the internet had already been stirred up by this video.

It was not only because Linlin villa had not held any activities for a long time, but also because many people were really disgusted by yagyama Mashiro and the Kazuki Association of Fu sang country.

666, Linlin Manor is still the best way to deal with these arrogant foreign guys.

don't you treasure all the snow and beef? Linlin villa will give them to you for 1 RMB.

haha, our pork is 20 yuan, but your premium whole snow and beef are only 1 yuan.

I'm inexplicably relieved. If I win the prize, I'll definitely give this beef to my dog.

" that's a good idea. i'll take the dog to linlin villa tomorrow. if i win the prize, i'll give the dog the beef. "

"....."

The news on the internet was so lively that it was naturally known by the people from the beef Association.

Since yagyama yoshichiro could post three pieces of news in a row, he would naturally pay attention to this matter. He might even want to see the anger and protest of the people in the country.

Moreover, the International beef tasting conference was going to be held in Min province, so they had put in a lot of effort to disgust people.

Min province.

In a hotel owned by Fusang capital.

Yagyama yoshichiro was rolling around with a woman in his arms.

The woman was an internet celebrity in this country. She served him very well with some money.

It was a different feeling to f * ck the women in this country, and it made him feel a sense of accomplishment.

After 30 seconds, under the resentful gaze of the internet celebrity, there was a knock on the door.

Yagyama Mashiro got up and opened the door, satisfied, and saw his assistant standing outside.

"Mr. Yagyama yoshichiro, I have something to report to you," the assistant said as soon as the door opened.

"Did the people of this country protest when we blocked their snow and beef?" yagyama yoshichiro immediately asked.

"Mr. Yagyama yoshichiro, the people of this country did not seem to protest. Your plan to use beef to support our Japanese strategy against this country did not seem to work," the assistant said hurriedly.

also, a scenic spot in this country has announced a lucky draw for our quanxue hehe beef. Take a look at this video.

As he spoke, he handed a video to yagyama yoshichiro. It was the video posted by the official account of Linlin Manor.

When yagyama yoshichiro saw the video, he was furious. What kind of joke was this? it was bad enough that they gave their whole snow and beef as free gifts, but they even said that their whole snow and beef were only worth one yuan, and they were even comparing it with pork that was worth 20 yuan?

Didn't he mean that their beef couldn't even compare to the other party's pork?

This was a great humiliation.

The other party was deliberately insulting them.

The assistant obviously knew this too, so he said, " Mr. Yagyama yoshichiro, the other party is doing this on purpose. We have to give a response.

"Of course I know," yagyama yoshichiro said coldly, "but do you think this scenic spot can afford 1000 servings of fine snow and beef the size of 20 RMB pork?" That piece is worth more than ten thousand!"

The assistant reacted and said, "that's right, how much does 1000 copies cost?" No matter how rich the other party is, they can't possibly give it away like this. Besides, it's impossible for them to get so much premium whole snow and beef. We've clearly banned the whole snow and beef from entering this country."

"So?" Yagyama Mashiro nodded and asked.

"The biggest possibility is that they'll use normal beef as a substitute, so they're giving us a chance to grab it," the assistant immediately said.

"Isn't this another form of protest from the other party?" It's obvious that our ban and sealing of them has provoked them."

they came up with this method because they were angry. Unfortunately, they are too brainless. They don't know that this method can be easily caught. So, let our people mix in and figure out the situation of the beef.

"Mr. Yagyama yoshichiro, I understand." The assistant walked out with a smile. He was even starting to look forward to the expression on the other party's face when he got hold of the other party's weakness and released the news ...

...

The next day.

Linlin villa and Linlin Ranch became very lively.

The number of visitors had stabilized at around 30000, but it had exceeded 30000 in just one morning.

These extra people were obviously here for the Linlin villa's all-snow and beef event. Naturally, some people also wanted to know if the beef given by Linlin villa was the best quality all-snow and beef.

Ma Tianyu came with his wife. His son was at school, so he asked his parents to pick him up.

However, he didn't expect that there would be so many people here even though he was already here with his wife.

Ma Tianyu parked his car in the Linlin villa's parking lot. As soon as he entered the villa, he saw an announcement for the whole blood and beef event at the entrance.

[Chapter 1017 Impossible? This Is A Complete Insult 3](#)

The event at Linlin villa this time was very simple. Tourists who entered the villa only needed to spend more than 1 yuan and pay attention to Linlin villa to have a free lottery. The winner would get a free pork chop, premium snow and beef.

The spending requirement for this event was only one Yuan.

This also indirectly showed that the premium whole snow and beef were worth this price, which was another kind of insult.

only linlin villa could use such a method to insult quanxue and beef.

After all, no one could get all the snow and beef for free like Qin Lin, and no one could get so many high-quality snow and beef at one time.

The announcement also explained the process after winning the prize: Linlin villa would distribute all the snow, beef, and pork to the winner in public.

At this time, the winner could choose to ask the villa to help make the steak or to cook it himself.

Ma Tianyu heaved a sigh of relief.

In this case, there was no need to worry about Linlin Manor faking it. If they could do this, they would definitely give the real whole snow and cattle, and the people of Fusang would not be able to find any evidence.

However, some people didn't think so.

Two short men in suits were looking at the announcement.

One of them asked, "it takes three hits for a monarch to be born. Do you really think they have that much premium whole snow and beef?"

that's impossible, Hinata Buju-kun, " he said hurriedly. you have to understand that it's because they used such a method that you think so. This is a psychological tactic.

we have to believe in Mr. Yanagama Yoshiro. The Association has banned the sale of all the snow and beef. Mr. Yanagama has also investigated and found that there are no records of all the snow and beef being sold to Linlin villa.

yes, I understand, " said Hatsuda without a head, " I was almost fooled by slice. If they distribute the whole snow and beef like this, it will be easier for us to get a hold of it.

Sancai Sheng and Hinata Buju were obviously sent by yagyashan yoshichiro to catch Linlin villa.

Time flew by quickly, and the popularity of the Linlin villa's lucky draw became more and more intense.

those who could come to linlin villa today could afford to spend 1 yuan. this also meant that everyone could draw a lottery.

After one morning, a few hundred tourists had won the prize.

Ma Tianyu's luck was very good, and he won the prize directly. This made it easier for him to evaluate. Otherwise, he would have wanted to buy a spot from other people who won the prize.

the place where the pork chops, premium whole snow, and beef were distributed were in the restaurants and buffet area. there were special people to guide and register, and then there were special staff to distribute the premium whole snow and beef.

Those who won the lottery were naturally very happy. To be honest, if they had not won the lottery today, they might really have never eaten the premium whole snow and beef in their lives.

In their happiness, many people greeted each other, regardless of whether they knew each other or not.

Someone greeted Ma Tianyu, so he also greeted the two short men beside him.

Cai Sheng and Chu Tian buru ignored Ma Tianyu. They were only here to catch him off guard. When they saw the Linlin villa staff pushing the beef out, their eyes lit up.

" everyone, you've all registered. we'll distribute the pork and steak in order later. please cooperate. " A staff member reminded him as he handed out the beef.

Soon, everyone, including Ma Tianyu, after three tries, and Hatu, received their pork chops, snow, and beef.

The three of them lowered their heads and looked at the premium snow and beef that they had received.

This was especially true for those who were born after three tries and those who were born in Hinata Buju.

They were here to catch him red-handed, and now was the best time to do so.

After a while.

MA Tian Yu's smile grew wider as he examined the items. He couldn't help but ask, " " hahaha, it's just fine snow and beef. the quality of the meat is too good. "

someone immediately agreed. " that's right. i also have premium whole snow and beef. linlin villa is really domineering. "

Immediately after, someone else chimed in. I really didn't expect Linlin villa to really give out premium whole snow and Bulls. Haha, this will definitely cause a huge amount of damage to the Fusang Nahe bull Association.

Obviously, among these tourists, there were a few who had eaten all the snow and beef before. They could tell.

Only after three tries and Hatsuda butu's faces were very ugly. They had also received high-quality whole snow and beef.

Didn't Mr. Yagyama yoshichiro say that it was impossible for Linlin villa to distribute all the snow and beef?

This was definitely not right. These voices were definitely fake.

After the two confirmed this idea, they began to look at the others. First, they looked at the meat on Ma Tianyu's small table.

ma tian yu looked at the two of them strangely, but he didn't stop them. it was normal to be curious. he also wanted to see the others. thinking about it, he also went to the small table where cai sheng and hinata buju were sitting. there were also fine snow and beef.

Cai Sheng and Chu Tian Bu ju looked at MA Tian Yu's beef in three tries, but their faces turned even uglier. Then, they looked at two more pieces of beef at random, and then their faces turned pale.

Every piece of snow and beef was of high quality. It was impossible to find any ordinary beef that could be used to hold snow and beef.

the result was completely different from what they had expected.

Then wouldn't they be unable to get hold of the other party's weakness?

This Linlin villa was not protesting out of anger, but was completely humiliating them.

Yagyama yoshichiro-san was completely wrong.

[Chapter 1018 How Is It Possible That They Still Have A Bull? 1](#)

Ma Tianyu chose to cook his own steak because he wanted to do an evaluation. His steak cooking skills were quite good.

There were many people who had the same choice as Ma Tianyu, such as 'give birth in three times' and 'don't have a hatchling'.

They didn't want to catch him now. They only wanted to see the quality of the steak. They only hoped that the taste and texture of the steak were of poor quality.

If that was the case, it could only mean that the other party had obtained frozen beef that had been stored for a long time, which meant that the event had not been held for long.

Moreover, the price of beef that had been frozen for a long time was very low, so it could be considered as processed goods.

This could still be considered a little bit of leverage.

as people in the beef industry, the two of them were quite good at cooking steak. soon, they also fried a piece of steak.

However, as the two of them worked, their mood fell to the bottom of the valley. Just from the frying alone, it could be seen that the whole piece of snow and beef was definitely of good quality.

The oil-out state and the frying state were perfect.

finally, ma tianyu's steak was done.

He had eaten all the snow and beef before, so he knew the texture and taste of all the snow and beef.

however, with just one bite, he could tell that the whole piece of snow and beef from linlin villa had a better texture and taste than the absolute beef he had eaten before.

Cai Sheng and Hinata bu tu also finished roasting the steak. The two of them ate the beef in their mouths, but they found it difficult to swallow for a long time.

It wasn't because it was unpalatable that he couldn't swallow it, but because the texture of the whole snow and beef was so good that he couldn't swallow it.

The two of them were from Fusang and cattle Association, so they were naturally familiar with the whole snow and beef. They immediately recognized that the texture and taste of the Linlin villa's whole snow and beef were better than their Fusang's.

This should be impossible.

In the entire world, their Japanese had always been the best in terms of all snow and beef.

the two of them did not dare to waste any time. no matter how delicious the snow and beef were, they had no appetite at all. they had to report this situation to yagyama yoshiro.

in the hotel of fusang capital.

Yagyama yoshichiro was holding a tall beauty in his arms. This was another female internet celebrity that his subordinates had arranged for him.

This country's female internet celebrities were very skilled. After cleaning in the toilet for a minute, he was already very satisfied.

to be honest, as long as one had money, one would be happier playing in this country than in japan.

As yagyama yoshichiro was thinking about it, a phone call came in. He knew that there must be a result, so he immediately answered, " "How is it? Have you caught them yet? what kind of beef did they use to fake our quanxue beef?"

An anxious voice was heard three times, " Mr. Yagyama yoshichiro, they only used premium quantui and beef. They didn't use any other fake beef.

"Where did they get so much fine snow and beef?" Yagyama yoshichiro frowned. We've already sealed them off."

"Mr. Yagyama yoshichiro, not only that, but their premium snowy and beef seem to taste better than our Japanese," sanatsu continued.

"Impossible!" "Our snow and beef are the best," Yagyama yoshichiro immediately refuted.

"But we've tasted it, and it's true," Sheng said hurriedly.

"Then they must have added something. They must have used our whole snow and beef." Yagyama yoshichiro firmly believed in this. No other snow and beef could compare to their.

He continued, " now it seems that Linlin villa must have some sort of channel for all snow and beef. Someone is actually supplying them. This is a betrayal. We must investigate it thoroughly.

This was the only possibility that came to yagyama yoshichiro's mind.

If it wasn't for the traitor, the other party wouldn't have been able to get so much snow and beef. After all, the Australian side had promised them.

Yagyama yoshichiro immediately called his assistant and asked him to investigate the matter.

The assistant also knew the seriousness of the matter and immediately went out to investigate.

However, in less than half an hour, the assistant rushed to Yagyama yoshichiro.

"How is it? You've found out?" When yagyama yoshichiro saw his assistant return, he immediately asked, " "Who is the traitor?"

The assistant said in a panic, " Mr. Yagyama Yoshiro, it doesn't seem like anyone has betrayed us. Linlin Manor has released another piece of news. It seems like something big is going to happen.

"What are you panicking for? What's going on?" Yagyama yoshichiro asked with a frown.

The assistant hurriedly said, "that Linlin villa said that they have already bred Wagyu!" The whole snow and beef might be the beef they raised themselves."

"Impossible!" Yagyama yoshichiro did not believe him at all. let's not talk about the fact that we have always banned the export of Kazuki to this country. They don't have the technology to cultivate them at all. It's even more impossible for them to cultivate a whole snow Kazuki that is better than ours.

The assistant shook his head and handed a video to yagyama yoshichiro. "Mr. Yagyama yoshichiro, please watch this video first."

yagyama yoshichiro took the video and looked at it with a frown. "

"Qianqian will tell you another piece of good news. Our Linlin villa has bred our own Waka. We have also bought two very pure and high-quality Waka breeding cattle. We welcome all ranches in the country to taste and breed with them. You can buy a portion of the breeding cattle essence for 200 yuan."

It took a long time for the heifer to come to the farm for cattle breeding, so Linlin farm chose to sell the cattle's essence.

Most of the breeding in ranches nowadays also used this method, which was convenient and fast.

[Chapter 1020 I'm Selling Fake And Awesome! I Can't Go Back! 1](#)

Yagyama yoshichiro not only found that it was a young Wagyu cow, but after checking it, he could easily judge that the quality of the Wagyu cow was very high with his experience.

He was really panicking.

There were really Wagyu cows in Linlin Ranch. He immediately looked at the barn and saw the other young Wagyu.

Judging from his experience, these seemed to be young cows.

The ranchers also started to check the young cow. After a while, they exclaimed, "

"It's really a kazufuru!"

Linlin Ranch is amazing. They really bred Wagyu cows.

"Furthermore, it's a wagyu in such good condition!"

"..."

The people brought by yagyama yoshichiro all had strange expressions.

They had come to expose the Linlin Ranch's fake and fake beef, but the situation seemed to be a little off.

After confirming that Linlin Ranch had Wagyu cows, the ranchers' faces were filled with surprise.

"three masters, may i know where the cattle are now?" one of the ranchers asked.

"That's right, can you let us see that kind of cow?" Another rancher said.

don't worry, everyone. We're here to let you taste the breeding cows. We'll drive the two out immediately. The three masters who were in charge of raising and breeding Wagyu cows drove the young Wagyu cow back to the cattle house.

After that, they drove out the two yellow-furred cattle from the other side.

The ranchers' attention was immediately drawn to the scene the moment the Bulls were driven out.

They were all cattle keepers, so they could tell at a glance that these two were very good breeding cattle. They subconsciously went up to the two cattle.

When the two Bulls came out, yagyama yoshichiro's heart sank to the bottom.

He could tell at a glance that they were definitely two high-quality breed cattle.

This was his ability.

Otherwise, he wouldn't have become the president of the Tauren Association.

But didn't that shanmu Ranch sell fake cows to Linlin villa?

Why did it become real now?

after the ranchers saw the two high-quality cattle, they exclaimed, "

these two Wagyu Bulls are too incredible. They're definitely of high quality!

I've been to Japan. I'm sure that there aren't many cattle of this level in Japan.

this kind of cattle is considered a real national treasure in Fusang.

the people from Japan and the cattle Association are playing tricks on us, but they don't know that a Wagyu of this level has already arrived at Linlin Ranch.

"....."

"Damn it!!!" Yagyama yichiro cursed in his heart.

It turned out that shanmu farm was the traitor.

No, he was still a traitor.

the other party actually dared to bring this level of wagyu cattle to this country and sell it to this ranch, letting the other party humiliate them.

At this moment.

The ranchers were even more excited as they asked, "

"Three masters, is Linlin Ranch really willing to let us breed?"

"Yeah, this is high-quality and awesome!"

"....."

Although these ranchers had come for this matter, they were not sure of the truth after seeing the Wagyu.

One of the workers laughed. don't doubt that. Since our Linlin Ranch has made the announcement, it must be true. We'll definitely let you guys breed.

Another master also laughed and said, " that's right, it's just a cow. Our boss said that the people of Fu sang treat this thing as a treasure. They are nothing in our country. You can buy the essence of a cow for 200 yuan.

our boss only has one request, and that is to raise these cows all over the ground. He wants to make the National Treasure of Japan become ordinary food on the table of us ordinary people.

These words made the ranchers laugh. At the same time, they admired the boss of Linlin Ranch from the bottom of their hearts. Only he could do such a thing.

Otherwise, this Wagyu cow would definitely represent a huge benefit, and no one would be willing to take it out and waste it like this.

The people brought by yagyama yoshichiro were all looking at him, their eyes full of questions.

the situation in front of them clearly couldn't go according to their plan.

"Let's go!" yagyama yoshichiro's face was ashen as he spoke to those people, and then left in a hurry.

This scene, however, attracted the attention of the others. They were all somewhat curious as to how they were going to leave.

He hadn't even talked about the matter of breeding with cows.

Yagyama yoshichiro's anger was difficult to suppress.

He would never allow Linlin Ranch to sell the premium products and the essence of the cattle at a price of 200 yuan.

The other party was insulting them and trying to make their country's and cattle worthless. They had to protest and let the diplomatic protest.

And that person from Shanmu Ranch, how dare he do such a thing? We can't let this traitor off.

After leaving Linlin Ranch, Wagyu Yoshichiro hurriedly took a bus back to Min Province. At the same time, he immediately called the Foreign Affairs Department.

.....

Naturally, there were many people in Beijing who were paying attention to the actions of people from Japan and the Cattle Association, Wagyu Yoshichiro.

They all understood that these people from Fu Sang were cooperating with their target. Previously, Fu Sang had participated in the Alliance meeting in the North and had even declared that they would target the core military base of their coastal area. Their purpose was self-evident.

Minister Lu was also paying attention to this matter. Seeing what Linlin Manor had done to Fu Sang and Niu, he could only say that it was well done.

To be honest, since when was it the Beef Association's turn to get involved in the affairs of two countries?

This was a typical case of not putting herself in the right position, so she was suppressed by Boss Qin without any trouble.

A national treasure? It would soon be a past tense.

As Minister Lu was thinking, he received a call from his leader. He immediately answered, "Leader, do you have any orders?"

Fu Sang is protesting against Linlin Ranch's 200 yuan price for spreading rumors of cow dung," the leader said. They say we're insulting their national treasure.

Minister Lu didn't know whether to laugh or cry when he heard this. "Leader, are those people from Japan crazy? You're the one who started this, and you still have the face to protest?"

The leader smiled and said, "So, the higher-ups have decided to approve a sum of money. You can write an application for it to be used specifically for the research of Wagyu beef. Help to promote Wagyu beef. Strive to let every household eat Wagyu beef as soon as possible. I want the kind that is cheap.

"Understood, leader!" Minister Lu laughed when he heard this.

That's how it should be done.

If a small Association like Japan dared to cause trouble, they should have destroyed their industry and made their national treasure worthless.

Minister Lu didn't waste any time and immediately wrote the application. At the same time, he asked someone to make an announcement: The Chinese Academy of Sciences would set up a research group and set up special research funds to help promote Heniu.

The announcement came out almost at the same time as the Japanese protest news.

The protests of Japan and the Bulls Association naturally made everyone excited.

This undoubtedly meant that Linlin Ranch had really bred Wagyu cows. These Fusang people were helpless. Otherwise, why would they protest?

Everyone felt relieved.

Didn't he take the bull too seriously and disgust people before? Now you know how to protest?

Lin Lin's company was the best way to deal with these foreigners.

Of course, what was even more satisfying was the announcement of the Chinese Academy of Sciences 'support and promotion of Bulls.

In other words, the higher-ups didn't even bother with the Fusang people and even threw a taunt.

with the chinese academy of sciences helping to promote it, could this japanese heniu still be saved? hurry up and find a place to cry?

Yagyama yoshichiro and some people from the Kazuki Association wanted to cry when they heard the news.

They had never thought that a seal of their own would cause things to turn out this way.

They didn't expect that the other party would ignore them and even help to promote and promote them.

This was to completely trample on their national treasure and bull.

Yagyama yoshichiro suddenly felt a little regretful. He seemed to understand how stupid his Association had been.

Someone suddenly ran in and reported, " Mr. Yagyama yoshichiro, I've done the investigation as you said. Sanmu's farm did receive a sum of 5 million dollars, but it's difficult to find out the source of the money. There are no transaction records, and it was transferred out of thin air. Something's wrong.

it was obvious that shan mu had bought the two wagyu breeding cows for five million yuan and sold them to linlin ranch. that was why linlin ranch could produce wagyu.

" we can't just let it go if we're not afraid. that traitor sold and destroyed our national treasure for five million. " Yagyama yoshichiro was inexplicably angry.

the root of all this was because of this greedy shan mu.

He could not be forgiven.

...

at shanmu farm, shanmu was looking at the statistics of the sales of the fake and young cattle. it was related to how much money he could make.

He was curious about how things were going with the bull Association.

He had told the Association about the Linlin Ranch's fake and cow incident. The Association must have exposed it. The Linlin Ranch probably didn't know about it.

Just as Shan mu was thinking about this, Chu Jun ran in hurriedly and said in disbelief, " "mr. shanmu, how can the wagyu we sold to ming city be real?"

Shan mu shook his head and said, "Chu Jun, what are you thinking?" Don't you already know that those cows are fake? How can it be true?"

Chu Jun said in disbelief, " that shouldn't be. The news is out. The Wagyu at Linlin Ranch are real, including the two adult Wagyu. Those Wagyu are almost the same as the two we sold. The Foreign Affairs in Japan are protesting now, but the Chinese Academy of Sciences has issued a notice that they will set up a special fund to help cultivate and promote these Wagyu.

"What?" Shan MU's expression changed when he heard this.

He heard two pieces of information.

First, Linlin Ranch had zhenhe cattle.

Second, the Japanese protested, but they were ignored. The Chinese Academy of Sciences in this country still had to help with the cultivation and promotion.

wouldn't that mean that their japanese wagyu was done for?

"No, you're saying that we sold the Wagyu cows to them? How is that possible?" Shan mu suddenly realized the severity of the situation.

What kind of joke was this?

The goods he was selling were all fake. How did they become real in Ming city?

"Yeah, the news is out." Chu Jun hurriedly found the news and handed it to Shan mu.

When Shan mu saw the news, his face turned pale without a trace of blood.

Would Yueyue be misunderstood as him selling zhenhe cattle to Linlin Ranch?

He didn't. He could swear to everyone that what he sold were fake and not real.

At that moment, Shan mu received an international call from his father.

He hurriedly picked up the call. Just as he was about to speak, he heard his father's anxious voice. Shan mu, why did you sell the Wagyu to the people of that country? now they're going to arrest you for selling it. Don't come back! Get lost!!!!

The sound of fighting came from the phone, followed by the sound of the phone hanging up.

"A traitor who sells property and country? No, no, I'm really selling fake and bull!" Shan mu was dumbfounded. He also realized the seriousness of the matter.

If China really thought that he sold the zhenhe cow, then he would never be able to go back in his life.

Chu Jun saw his partner's reaction and asked, " "lord mountain wood, what's wrong?"

Shan mu looked at Chu Jun as if he had found a Savior. "Lord Chu, didn't you say you have a sister? introduce her to me and I'll be your brother-in-law. I can marry into your family. Chu mu or Chu Shan is fine."

"..... ?"Chu Jun.
