

## The Game 291

### Chapter 291: Shifting the Blame! Xiangshui Tribute Rice Is Officially Planted!

Li Kai could not believe it. He lay down again and carefully pushed the soil away. He carefully looked at the roots of the rice seedling and could not help but be shocked. "Brother Qin, this... this is the rice seedling of Xiangshui Tribute Rice?"

"Brother Li, you can tell?" Qin Lin could not help but be surprised.

When Li Kai heard this, he was a little unhappy. "Brother Qin, I'm an expert associate professor. Moreover, I've seen the rice seedlings of Xiangshui Tribute Rice before."

When Li Qing heard their conversation, he said in surprise, "Uncle, are you saying that this is Xiangshui Tribute Rice's seed?"

It was common knowledge that Xiangshui Tribute Rice could only be planted in Xiangshui. Furthermore, only that small area could be planted. It could not be planted anywhere else. Even if it was planted, the taste and nutrition were too different from the original.

This was also the reason why Xiangshui Tribute Rice was especially expensive. 90% of the rich could not eat it.

Now, his uncle was saying that the rice in Qin Lin's paddy field was Xiangshui Tribute Rice?

Li Kai explained, "This is indeed Xiangshui Tribute Rice's seed. Brother Qin, how did you do it? Logically speaking, the geographical environment of the city doesn't meet the growth conditions of Xiangshui Tribute Rice at all. It's even impossible for seeds to germinate."

Qin Lin had long thought of this answer and immediately explained, "Didn't they exchange Xiangshui Tribute Rice for my medicinal wine? I asked the other party to get some seeds and wanted to try cultivating them myself. My hometown has a very special old field, so I wanted to see if I could use it to cultivate this seed."

When Li Qing heard this, he recalled what Qin Lin had said previously and could not help but explain, "I remember now. Qin Lin, your watermelon seed seemed to have sprouted in that old field and was accidentally discovered, right?"

"Yes!" Qin Lin nodded.

The reason he had made up before was now rounded.

Li Kai looked at his nephew and asked, "What's going on? What old field? And why is it connected to the watermelon?"

Li Qing explained, "Qin Lin has an old field at home. These watermelon seeds were left in that old field. Qin Lin discovered them when they germinated in winter."

“Qin Lin, you’re smart. That old field can make the watermelon genes mutate and grow in the middle of winter. There must be something special about it. There might be an unexpected harvest when planting other seeds. Didn’t the Xiangshui Tribute Rice seeds grow?”

Seeing that Li Qing was so cooperative, Qin Lin also smiled and said, “That’s right. When I returned to the old residence for the new year, I dug some soil in the old field to cultivate. I realized that this seed could germinate, and the germinating time was even shorter. I dug out two big bags of soil and mixed it into this artificial field to experiment. You saw the result.”

Li Kai was completely surprised to hear their words. “Brother Qin, the soil in your old field might not be simple. It might be a rare and special soil.”

China was vast and had many resources. The land was different, and there were many types of soil. The most common ones were black soil, red soil, yellow soil, pine soil, sand soil, and so on.

However, some of these soil were suitable for planting, and some were not.

Black soil was very suitable for planting, while red soil was more barren.

Other than this soil, there was some rare soil. This soil might be affected by some environment or weather, climate, temperature, humidity, and so on. It contained special elements.

Some of these special elements could promote crops. For example, there were more or less special elements in the soil where they were specially planted.

It was also because of the existence of these special elements that those crops were very different and became precious and rare. Without those elements, the soil elsewhere could not be replicated and planted. Even if it was replicated and planted, it would degenerate.

Naturally, there were also some special elements that were harmful. For example, the land that had been irradiated and the soil of the heavy metal elements. The crops that were planted could not be eaten by humans.

Without a word, Li Kai reached into the soil and pulled out some to rub on his palm.

Brother Qin’s soil was undoubtedly beneficial. After all, it had already allowed the watermelon seed gene to survive in winter and taste better. Now, it could also nurture the Xiangshui Tribute Rice seedlings.

Li Qing looked at the Xiangshui Tribute Rice seedlings and said, “Qin Lin, doesn’t this mean that you can plant Xiangshui Tribute Rice here in the future? I wonder what the final harvest will be like.”

“We’ll only know when it’s planted.” Qin Lin had to answer this question in an uncertain manner even if he knew the outcome.

After all, it was not that there were no other places where the Xiangshui Tribute Rice seedlings had been cultivated, but the rice harvested in the end was too inferior.

Cultivating rice seedlings was only the first step. Harvesting was the second step.

“Qin Lin, if it’s not worse than that Xiangshui Tribute Rice, you can’t forget your friends.” Li Qing immediately played the emotional card.

That was the Xiangshui Tribute Rice. He had to enjoy the benefits of a favorable position, right?

“You only know how to eat.” Li Kai pushed Li Qing away angrily and said to Qin Lin, “Brother Qin, can I analyze the soil composition and see what elements are in it?”

For the agricultural expert, in addition to the study of crops, the study of crop soil was also an ability.

“Of course, Brother Li. Help me see if there’s anything wrong with this soil.” Qin Lin naturally knew that there were elements in this soil that increased the survival rate of crops and improved genes.

### **Chapter 292: Shifting the Blame! Xiangshui Tribute Rice Is Officially Planted!**

However, he had to put on a good show in this situation.

Wasn’t there a lyric saying: I’ll do my best to cooperate with you?

He needed witnesses like Li Kai and Li Qing. Li Kai also had a sense of accomplishment from analyzing, right?

After receiving Qin Lin’s agreement, Li Kai pulled Li Qing into the hall. “Help me move the equipment.”

With that, he pulled Li Qing to the bar and took out the key to the storage room behind the bar.

When he went back previously, he had placed the instrument inside and Qin Lin had also given him the key to the lock.

He opened the door.

The uncle and nephew took out the wrapped equipment and instruments.

Li Kai moved the instruments and props that tested the soil and began to prepare.

He studied crop genetic low-temperature experiments. Crop planting inevitably involved soil problems. Naturally, there were instruments and tools to test and analyze soil in his laboratory.

Li Kai fiddled with the instruments and tools and took out a few utensils to the artificial field in the backyard to take some soil back to the hall.

This time, it was much harder to study the soil than to determine if the duck egg was real.

In the evening, when Qin Lin arrived at the hall, Li Kai was still studying the equipment. Seeing this, he asked Li Kai curiously, “Brother Li, haven’t you analyzed it yet?”

Li Kai frowned. “Not so fast. The soil analysis results will have to wait until tomorrow morning. The key is that I found a special element in this soil. It’s amazing that I couldn’t detect what it was for a while.”

When Qin Lin saw this, he could only shake his head and let Li Kai continue his research. He went to the reservoir to check on the situation.

The pontoons were getting better and better built. Some of the pavilions that had been built at the pontoon junctions could be used for people to rest.

When a water lily seed appeared in the game one day, he could also get some around the pavilion. Coupled with the beautiful willow leaf duckweed, it would definitely be an indescribable beauty.

The sky gradually darkened.

In the original hall.

Master Lin carried the food out of the kitchen and saw that Li Kai was still fiddling with the soil in front of the instruments. He said, "Mr. Li, you can eat now."

Li Kai had always been eating Master Lin's food at the villa and was very polite. "Master Lin, I'll wash my hands before eating."

Master Lin asked curiously, "Mr. Li, you've been fiddling with the soil. Is there anything special about that soil?"

Li Kai did not hide anything and said with a smile, "The soil in your boss's artificial paddy field is very special. Study it."

"Oh." Master Lin entered the kitchen thoughtfully.

He took a notebook from his pocket and wrote on it.

It was the information his boss had asked him to write about how to save the two 500-year-old ginkgo trees.

However, he really did not know and did not specially get it. He just stirred the cow dung and fertilizer as usual. The tree had suddenly come alive before the year.

He wrote it truthfully, but he felt that it was very unreliable to write about cow dung mixed with fertilizer.

If this method worked, it wouldn't have failed so long ago. There had to be a reason. It might not be his credit.

The more he thought about it, the more he felt that something was wrong. His boss had given him a mission, so he could not fool his boss. Therefore, he wrote: Cow dung, fertilizer stirring, and soil from an artificial water field.

That's right. Mr. Li had said that the soil was special. He wrote that down. In the future, when his boss asked, he would say that the soil was special. It was all because of the soil.

Master Lin suddenly felt that he was very smart.

The night passed.

The next day, Qin Lin transported the things he had moved out of the game to the villa and headed to the original hall.

Li Kai had also continued to fiddle with the soil in front of the instrument early in the morning. Clearly, he had yet to analyze the soil.

Qin Lin walked into the artificial paddy field.

He had already asked Chen Dabei to bring people to develop the new artificial paddy field.

In the next day or two, the paddy field would be developed and transplanted.

For those who needed to refine seedlings before they came out, it was best to choose the three-leaf stage for transplantation in order to thrive. If it was only because the one-leaf stage did not grow, the output would be low after planting.

For those who needed to refine seedlings before they came out, it was best to choose the three-leaf stage for transplantation in order to thrive. If it was only because the one-leaf stage did not grow, the output would be low after planting.

However, this was only one of the reasons. Before transplanting, he had to try to soften the soil as much as possible to avoid destroying the roots during the transplantation and causing the rice seedlings to die.

Qin Lin was naturally very diligent in this aspect. After all, there were not many Xiangshui Tribute Rice seedlings.

After spending some time dealing with the Xiangshui Tribute Rice seedlings, he received a call from Chen Li and picked up immediately. "Hello, Deputy Chen."

Chen Li's laughter sounded. "Boss Qin, the procedures for your 5,000 acres of land contract have been completed. You can go directly to the Land Bureau to settle it. I'll get Zhong Lei to wait for you there."

When Qin Lin received this news, he immediately went to the county and arrived at the Land Bureau.

As soon as the car stopped, Zhong Lei smiled and went forward. "Boss Qin, we've already informed Deputy Chen. There's no need to wait in line. Just follow me to the office and settle it directly."

"Yes!" Qin Lin nodded.

Everyone knew that it was very troublesome to run procedures sometimes, especially when there were all kinds of queues in the business window for review. Simple things took a few days.

However, this was only for most people. Some people did not need to queue at all and settled it quickly.

Last year, someone had secretly taken photos of such incidents and posted them online, causing a strong discussion. They even split into two parties and scolded each other.

One faction naturally emphasized that it had to be fair and that there could not be such an improper style. The other faction was a special force that was different from the target group. It was impossible to deal with it absolutely fairly.

### **Chapter 293: Shifting the Blame! Xiangshui Tribute Rice Is Officially Planted!**

In the end, that news was suppressed. No one was dealt with.

The official explanation was that the person who had been secretly photographed was the chairman of a large corporation in the city. Coincidentally, there was a cooperation project with the official that the leader had personally approached.

He did not know if this announcement was true, but one thing was certain. There could not be absolute fairness in this world.

If you went to the bank to do a business, you would have to queue for a number. The salesperson would even speak coldly to you, but your boss would have to receive the bank president with a smile.

This was the norm in society. There was really no absolute right or wrong.

Qin Lin was greeted by Chen Li and accompanied by Zhong Lei. He almost quickly completed the relevant procedures and obtained the contract document.

In other words, from today onwards, Qinglin Villa would have another 5,000 acres of land.

When Qin Lin returned to the villa's office and put the contract away, Chen Dabei reported to him, "Boss, the paddy fields you asked me to develop have been developed. They're all fertilized."

"Let's go. Bring me to take a look." Qin Lin nodded and followed Chen Dabei to the artificial paddy field.

The paddy field developed by Chen Dabei was not far from the reservoir, so it was convenient to irrigate.

It could be seen that Chen Dabei had developed the paddy field very carefully. The field was very sturdy, and the soil and fertilizer were stirred very evenly and delicately.

Qin Lin instructed Chen Dabei in satisfaction, "Bring people to plant the rice seedlings from the original paddy field in these paddy fields. After that, develop more artificial paddy fields."

The special soil brought out by the game would not consume all the special elements in an instant. After this batch was planted, more rice seedlings could be cultivated later on.

"Okay, Boss!" Chen Dabei replied and called for people to go to the original artificial field. He carefully moved the Xiangshui Tribute Rice seedlings out and planted them in the newly developed paddy fields.

Chen Dabei was very attentive. He only knew that he had to do what his boss had instructed him to do well, but he did not know what these rice seedlings he had planted represented and how big a sensation they would cause in the future.

When Qin Lin returned to the original hall, Li Kai had also gotten up from the equipment.

"Brother Li, are you done analyzing?" Qin Lin asked.

Li Kai shook his head and said, "That soil does contain special elements. We can only get a rough idea of their function. The exact elemental information is unknown. We need better instruments to analyze it."

"Besides, that will take a long time. I don't have a clue about my own experiment. There's no need to continue to force it."

“Brother Qin, there’s good news and bad news now. The good news is that this soil does carry elemental substances that can affect the genes of crops.”

“It’s just that this specific effect hasn’t been studied clearly about the soil element, so I can’t judge. However, from the situation of the watermelon and Xiangshui Tribute Rice seedlings, the effect must not be weak.”

“The bad news is that those elements are gradually fading. As we plant them, they will quickly be exhausted. In the future, planting things on them will be no different from normal.”

“Many such soils have been discovered. As soon as they appear, they are taken by some large company’s laboratory or official laboratory to cultivate new crops. Perhaps some of the new crops in the world have the credit of such soil.”

“Therefore, Brother Qin, if anyone wants to buy your soil in the future, don’t agree. Keep it for yourself and don’t plant anything on this soil to consume those special elements.”

“You’d better plant something valuable. If you’re lucky, you might be able to produce a few more new varieties of genetic breakthrough. Then you’ll be rich.”

“Take me to your old field when you have time to see if you can find anything else.”

“I see.” Qin Lin nodded.

He was really impressed by Li Kai. He had really analyzed something, especially the attributes consumed by the soil as it was planted.

This was the power of science.

Moreover, according to Li Kai, it was only natural for him to take out more seeds in the future, right?

## **Chapter 294: Spectacular Quality 2 Fish Group! Qinglin Villa Has Such Beauty?**

After the 15th day of the New Year, the desire for tourists to travel increased noticeably.

The number of daily customers in Qinglin Villa also began to slowly recover.

However, it would still take some time to recover the 3,000 visitors a day. It was not the peak period for tourists to travel after the New Year.

In the villa.

After the procedures for contracting 5,000 acres of land were completed, Sun Ming’s Youcheng First Construction Company entered again. The manor, villa, and ranch were built at the same time.

Zhao Moqing pulled Qin Lin into a sealed road in the villa with a happy expression.

Not long after, fields of flowers came into view.

This was the villa’s comprehensive Sea of Flowers.

Looking inside, the various flowers planted were neatly colored and arranged without monotony. They were very beautiful.

This was a Sea of Flowers that had just been planted. It would be even more spectacular and beautiful in the future.

There were also workers working in the Sea of Flowers. Some flowers could be planted after the new year.

The most troublesome thing about creating an integrated Sea of Flowers was the different flowers and the different planting seasons.

Qin Lin hugged Zhao Moqing from behind and whispered into her ear, "You suddenly came to see this Sea of Flowers. Do you really want to take wedding photos with me? This Sea of Flowers is almost completed."

Zhao Moqing said, "I just brought you here to inspect the Sea of Flowers project."

However, she was clearly betrayed by her delighted gaze.

After all, Qin Lin had decided to build this Sea of Flowers because she wanted to take wedding photos in such a place.

When the time came, taking wedding photos in this Sea of Flowers would be one of the happiest and most unforgettable things in her life.

Qin Lin and Zhao Moqing inspected the Sea of Flowers and came out. They passed by the artificial paddy fields near the reservoir. Xiangshui Tribute Rice grew in those paddy fields.

"Qin Lin, can these really grow Xiangshui Tribute Rice?" Zhao Moqing asked expectantly.

She ate Xiangshui Tribute Rice every day, so she naturally knew that if Qinglin Villa could plant Xiangshui Tribute Rice themselves, it would cause a sensation.

"Yes, when the time comes, we can't use the name Xiangshui Tribute Rice anymore. We have to give ourselves a name." Qin Lin smiled and nodded.

He had no need to hide it from Zhao Moqing.

"Let's call it Qinglin Tribute Rice. It's simple and clear," Zhao Moqing said as she held Qin Lin's arm and continued, "Let's go to the duck house to take a look at the floating bridge."

"Let's go!" Qin Lin nodded.

The construction of the duck house's pontoon ended yesterday.

Chen Dabei led the security guards to run dozens of rounds but did not find any problems.

Now, the company that built the pontoon bridge had also moved to the two 500-year-old ginkgo trees to build the ginkgo viewing house.

The duck house area was also completely different from the beginning. There was a special scenic stone road that circled the shore of the reservoir for tourists to walk on.

There was also a specially built retro art fence between the duck house and the gravel road. It was for safety and to stop the ducks from running out.

The gravel road connected the two entrances to the pontoon.

Qin Lin brought Zhao Moqing up the pontoon from an entrance and walked to a pavilion.

Zhao Moqing looked at the surrounding scenery with bright eyes. She was attracted by the duckweed that was produced by the system. The snow-white ducks interwoven in the duckweed were really like a painting.

She couldn't help but say to Qin Lin, "Hubby, you're really amazing."

Qin Lin said proudly, "Would I let you wet the bed sheets if I wasn't amazing?"

Zhao Moqing blushed.

Recently, she had also realized that Qin Lin was torturing her more and more.

With that in mind, she glared at Qin Lin fiercely. "I'm being serious!"

She did admire Qin Lin for creating such a beautiful scene with just a simple reservoir, duck, and pontoon bridge.

Who could do this? Even the most professional scenic design masters couldn't do such a thing, right?

She believed that the scenery in front of her would not lose to the Triangular Plum Blossom Sea.

The two of them strolled around the pontoon before Zhao Moqing returned to the office to work.

Qin Lin also headed to the floating bridge beside the duck house. He could see large breeding nets in this area, but there were no fish inside.

The duck house and pontoon had been built, and the accompanying fish should be ready.

Qin Lin pondered.

This time, he was going to take out more than 800 Quality 2 and Quality 1 wild fish in the game.

Moreover, there were too many Quality 2 fish this time. After all, after the fishing rod was upgraded, he could catch more than 20 Quality 2 wild fish every day.

These had to be transported several times even in a small truck. They could not be transported directly to the villa.

After all, 20 to 30 catties of wild goods were rare. It was rare for those rich people outside to eat them. Now that hundreds of wild goods were taken out at the same time, it would definitely cause a sensation.

Therefore, he told Zhao Moqing that he was going to Ming City to buy fish and spent an hour and a half driving to Sand City.

Sand City was originally a county city, but it had already been evacuated and became a district of Ming City.

After Qin Lin arrived in Sand City, he went online to search and temporarily rented a relatively remote warehouse in the suburbs.

After renting the warehouse, Qin Lin took out his phone and went online. He found four fisheries in Ming City and ordered 100,000 bass, black fish, flat fish, black carp, and 3,000 adult fish.

These were also what he wanted to buy. They could be sent back to the villa with the wild fish that the game had taken out.

After placing the order and filling in the temporary rental warehouse address, he paid the deposit and added his contact number. He agreed to deliver the goods at noon tomorrow. After that, he drove back to Youcheng County.

### **Chapter 295: Spectacular Quality 2 Fish Group! Qinglin Villa Has Such Beauty?**

The next day.

After Qin Lin sent the things in the game to the villa, he immediately headed to Sand City and bought large plastic containers for fish at the Sand City market.

After Qin Lin sent the things in the game to the villa, he immediately headed to Sand City and bought large plastic containers for fish at the Sand City market.

It was better to be safe than sorry.

After confirming that there were no problems, he entered the game with the plastic containers of fish he had bought. He scooped up the fish stored in the game and placed them in the containers one by one. When one container was filled, he brought it out of the game and replaced it with a new one.

After moving more than 800 Quality 2 and 1 wild fish out of the game, he took out his phone and called Zhao Liyuan.

Since all the fish had been moved out of the game, they naturally had to be transported back. When Zhao Liyuan brought people to Sand City, the fish he had ordered should have arrived too. They could be transported back together.

Youcheng County.

Zhao Liyuan was explaining to a few teachers at the convoy's base. "Bring more new people along during this period of time. You can't neglect Qinglin Ketchup's business at all."

This was because Qinglin Food Company had contracted the transportation business to their transport team. As Qinglin Ketchup Factory expanded, their convoy also expanded and recruited many new people.

Zhao Liyuan picked up Qin Lin's call immediately. "President Qin, what can I do for you?"

His attitude was respectful. After all, the convoy was completely relying on Qinglin Ketchup to make a living.

“Bring some people to Sand City. I want to transport 100,000 fish seedlings and 3,000...” Qin Lin told Zhao Liyuan what he wanted him to transport and asked him to estimate the number of people needed himself.

Zhao Li did not dare to hesitate. He hung up and personally led his men to Sand City. At the same time, he received a message about the location of the warehouse.

When Zhao Liyuan brought them to the warehouse, he saw that there were already transport vehicles parked inside. The breeding boxes containing fish had been unloaded.

Those were the fish seedlings and adult fish Qin Lin had ordered.

Zhao Liyuan got out of the car and went up to Qin Lin immediately. “President Qin, are these fish?”

Qin Lin nodded and instructed, “Transport them back. There’s still more in the warehouse.”

“Okay.” Zhao Liyuan nodded. After the fish delivery cars left, he instructed the people he brought to move all the fish into the truck.

In the beginning, the fish and fish seedlings ordered by Qin Lin were nothing.

When Zhao Liyuan brought people into the warehouse and saw the fish in the plastic containers, he was shocked. “F\*ck... These fish.”

Many of the fish in those containers were unbelievably big. They were probably 20 to 30 catties, right?

The fish President Qin bought were too shocking.

When Zhao Liyuan’s subordinates saw these fish, they also looked incredulous.

“Captain Zhao, these fish are so big.”

“I’ve never seen a fish this big. And so many at once.”

“This seems to be a wild big item!”

“...”

Qin Lin had expected these people’s reactions. Other than the fact that he had personally caught these fish in the game and looked calm all day...

With so many wild goods, even a tycoon like Chen Shengfei would find it difficult to calm down.

While Zhao Liyuan was surprised, he immediately shouted at his subordinates, “Hurry up and work. Be careful when you move the goods.”

After moving all the fish into the car, Qin Lin also drove out of Sand City with Zhao Liyuan’s convoy and spent more than an hour returning to Youcheng County.

When he was about to reach the villa, he called Chen Dabei and asked him to bring people to wait for the fish.

Therefore, when the fish was transported to the reservoir, Chen Dabei was already waiting with his men. When the car stopped, he went forward to help Zhao Liyuan and the others unload the goods.

“Boss, there are so many wild goods?” Chen Dabei climbed into a truck and was shocked to see the wild goods inside.

After some time, the fish that were transported back were moved into the reservoir.

Qin Lin walked to the pontoon. Chen Dabei had already brought people to put fish in the breeding boxes in different areas.

Because the willow leaf duckweed produced by the game had the attribute of purifying water, the water in this area was already very clear. One could clearly see the fish swimming in the water, especially those wild goods of Quality 2. They were swimming very vigorously.

Furthermore, when the wild goods of Quality 2 gathered and swam together, it actually gave off a spectacular feeling.

Perhaps this would also be a very attractive view.

After all, such big goods were rare, but they could be seen in groups here.

Yang Dong walked onto the pontoon and arrived beside Qin Lin. “Boss, the fermented duck dung is here.”

The duck keepers were already pouring fermented duck dung into the water with dustpans.

As soon as the duck feces entered the water and spread out, they saw dense fish swimming over quickly and snatching the food.

Especially when the big fish squeezed past, the other fish scattered. Some impatient big fish stuck half their bodies out of the water and smashed the other fish in shock.

This scene was very interesting again.

Qin Lin asked Yang Dong, “Do you think people will feed the fishes? Many scenic spots with fish have tourists feeding them, right?”

“There should be!” Yang Dong nodded, then asked, “Boss, then we’ll provide duck dung feeding service? Will we charge?”

“...” Qin Lin was stunned by the question.

### **Chapter 296: Spectacular Quality 2 Fish Group! Qinglin Villa Has Such Beauty?**

What was this guy thinking?

The tourists had to feed the ducks with the villa’s supply of food because the ducks might get sick otherwise.

Did tourists even have to buy their own duck dung to feed the fish? To think this guy could think of this.

This was even more speechless than the 25 yuan corn experience, okay?

After a while, Chen Dabei also came up to the pontoon and reported, "Boss, the fish have been thrown in."

Qin Lin nodded and instructed Yang Dong, "The preparations here are almost done. Bring some people to wrap up and see if there's anything else to prepare. If there's no problem, cooperate with Chen Dabei to hang up the signboard, road signs, warning signs, and so on."

"Don't worry, Boss. I'll handle it." Yang Dong immediately promised. He was happier than anyone else that the floating bridge was open.

Because he was the intern supervisor of this pontoon viewing area, he was in charge of the ducks, fish, and pontoons. He was waiting for this place to open and become official.

Qin Lin left after giving the instructions. Yang Dong, Chen Dabei, and the others got busy.

Time passed. When the sun began to set, the tourists who had to stay behind to cook in the evening also began to head to the buffet area of the villa restaurant to register.

Chen Xue also followed her parents, brother, and sister-in-law to the restaurant.

This was the third time she had come to Qinglin Villa to play.

The first time was when he accidentally discovered Qinglin Villa. The second time was when he brought his university classmates.

This time, he came with his family.

He would not get tired of the Sea of Flowers in Qinglin Villa no matter how many times he came. On his third visit, he took many photos and videos with his family.

"Xiao Xue, hurry up. You're still playing with your phone when you're walking."

"Coming."

Chen Xue had just finished photoshopping a photo and responded with a smile. Just as she was about to follow her family, she saw two security guards standing by a stone road with a sign.

That got her attention.

If she remembered correctly, there were also roadblocks when she passed by today.

"The floating bridge viewing area?" Chen Xue asked one of the security guards curiously, "May I ask if this is a newly opened area?"

When the security guard saw that it was a beautiful tourist, he nodded. "Yes, it just opened."

After the two security guards left, Chen Xue could not help but be surprised and curious.

A new area had opened in Qinglin Villa?

This sign had just been set up. No tourists had entered, right?

Chen Xue could not suppress her curiosity and walked in. She might be the first tourist to experience this viewing area.

She walked toward the gravel path, forgetting her family's shout.

Chen Xue walked in along the stone road and saw a row of duck houses made of bamboo.

Although the duck house was neatly built and had some beauty, such buildings were not unheard of in other scenic spots.

However, after taking a few steps inside, Chen Xue saw a snow-white figure spreading its elegant wings. Its appearance was too beautiful.

"Swans?" Chen Xue was a little surprised. Did Qinglin Villa already have swans?

As she was thinking, she saw the elegant swan quack and splash into the water.

"???" Chen Xue was immediately stunned. Was it a duck, not a swan?

Was this a joke?

How could there be such a big duck? It was bigger than a swan.

Chen Xue curiously passed by the duck house. Then, her eyes quickly widened in disbelief.

The entire pontoon viewing area was imprinted in her eyes.

Under the setting sun, how beautiful was the duckweed in that area?

That area was filled with Quality 2 willow leaf duckweed.

Beauty +2, attractiveness +2, and a higher artistic conception were given to it by the beauty of the setting sun. Chen Xue was deeply attracted.

She did not expect Qinglin Villa to have such scenery other than the Sea of Flowers.

Instinctively, she picked up her phone and took photos of the beautiful scenery in front of her.

However, when she looked at the video taken by her phone, it was actually as artistic as the video taken by the Sea of Flowers. It made her addicted to this scenery.

The setting sun was beautiful, and the clear pool was filled with duckweed! This was a completely different beautiful scenery from the Triangular Plum Blossom Sea.

No, she had to share this beautiful scenery with her best friends in the dormitory and seduce them to death.

### **Chapter 297: It's Really Qinglin Villa! Men Are No Good?**

Chen Xue was surprised by the video taken by her phone and decisively sent it to her university dormitory group to share this beautiful scene. Then, she could not wait to get on the pontoon.

The pontoon bridge was retro and artistic. It matched the floating duckweed very well, especially the pavilion above. It would definitely be beautiful to sit inside and take a selfie with the beautiful duckweed on her back.

Chen Xue thought about it and walked towards a pavilion. In the end, she bumped into Chen Dabei and a security guard holding a sign that said 'Do Not Climb Over the Railing'.

"Who are you? It's not open yet. Why did you sneak in?" The security guard frowned at Chen Xue.

Chen Xue was a little embarrassed. "I'm sorry. When I saw that there was no one around, I couldn't help but come up."

Chen Dabei hurriedly smiled and said, "It's fine. Since you're here, take a good look. We're going to charge an entrance fee soon. Remember not to feed the ducks."

With that, he did not forget to pat the head of the security guard beside him. "Go over there and hang up the sign. After you're done, help Master Ma connect the wires and install the lights."

Didn't this guy need a lesson?

What did he mean by tourists sneaking up?

The fact that the other party could enter meant that it was their own negligence.

They, the security guards, were just service people.

He felt that he had to pay attention to this problem too. He will say it at the morning meeting tomorrow. He could not let the security department embarrass the scenic area in terms of quality. Otherwise, how could he face his boss?

Chen Xue heaved a sigh of relief when she saw the two security guards leave.

She had indeed sneaked in. Fortunately, the security guard of Qinglin Villa did not blame her.

"Quack!"

A duck's cry attracted Chen Xue's attention.

She went to the railing immediately and saw a big snow-white duck playing between the duckweed water.

This time, she saw it more clearly. The duck in front of her was really too big. It was more than 40 catties, right?

Furthermore, its feathers were abnormally snow-white, as if they were spotless. Its mouth and neck were closer to a swan's, and its arc was beautiful.

She had seen swans in university because there were a few swans in the university's artificial lake, but this duck actually surpassed those swans in size, appearance, and posture.

She even saw a pride in this duck that even a swan did not have.

No one would believe that this was a duck in front of them...

"Quack."

Well! The duck seemed to have proven its identity with its cries again.

Chen Xue took out her phone again and took a video of the snow-white duck. The beautiful snow-white duck was also very beautiful with the pool full of duckweed.

She opened the university dormitory group again and planned to share this video in the group. Her best friends had definitely never seen such a big duck, right?

When she opened the group chat, she realized that it was already filled with denunciations of her:

“What a beautiful place? This place won’t be inferior to the Sea of Flowers in Qinglin Villa.”

“Xue Xue, where did you secretly go to play again?”

“Xue Xue is just heartless. She secretly goes to good places alone and takes videos to tempt us.”

“That’s right. She did this with Qinglin Villa before. Now she’s doing this again.”

“Xue Xue, I’ll give you a chance. Tell us about this place and help us book a room. Otherwise, there won’t be a place for you in the dormitory when school starts.”

When Chen Xue saw these words, she smiled and typed, “This is Qinglin Villa.”

The group became lively again.

“I don’t believe it!”

“I don’t believe it either. It’s not like we haven’t been to Qinglin Villa before.”

“That’s right, Xue Xue. Hurry up and tell me the truth.”

Chen Xue smiled and sent another message. “It’s really Qinglin Villa. I’ll share another video with you. Have you seen such a beautiful duck?”

With that, he sent the video of the beautiful snow-white duck to the group.

The girls in the group opened the video and felt that Chen Xue was fooling them.

Was this a duck?

How could a duck be so big?

Was it not a swan?

“Quack!”

As the duck cried, the girls in the group fell silent.

“Is it really a duck?”

“Really? There’s such a big duck?”

“Why do I feel like it’s prettier than a swan?”

“Na Na, you didn’t feel wrong.”

“I feel so too.”

“...”

Chen Xue had already put away her phone again and was walking leisurely on the pontoon. Speaking of the impact of the beautiful scenery, this pontoon viewing area seemed to be inferior to the three triangular plums in the center.

However, in this special environment, the water, the bridge, the duck, and the setting sun were not inferior when combined. There was even a vivid poetic feeling.

She realized that there was more than one of those big ducks. Two of them were actually swimming side by side, as if they were snuggling together. There was actually a group of little ducks behind them, looking very harmonious.

There were also groups of snow-white ducks elsewhere. Although they were smaller, they were still very beautiful.

Chen Xue followed the pontoon bridge and walked slowly and quietly alone. She looked at the beautiful scenery and took photos and videos. She felt that it was really a pleasure.

If she could find a boyfriend this year, she would definitely bring him here to hold hands.

As she walked, Chen Xue suddenly made a new discovery. She saw many fish. They seemed to be fish raised in the villa, right?

Fish were naturally not surprising. It was not like she had never seen them before. However, when she saw the black carp weighing more than 30 catties swim past the floating duckweed, it was different.

She immediately thought of the rumored wild goods in the villa. She had never eaten these wild goods, but she had seen them. It was exactly the same.

### **Chapter 298: It's Really Qinglin Villa! Aren't Men Good Things?**

But now, the first thing she thought of was not to eat the big fish, because soon, the second big fish appeared, then the third, the fourth... They appeared consecutively.

She could only say that the feeling of seeing so many large fishes was shocking. She hurriedly picked up her phone again and took photos of the fish.

The Internet said that such wild goods were very rare. Rich people might not even be able to eat them.

The dense school of fish in front of her made her feel that the Internet was full of nonsense. Who said that this wild fish was rare? She could not even count how many there were.

Chen Xue sent the video to the group for the third time.

This time, the girls in the group silently clicked on the video. When they saw the shocking scene of the large fishes wandering around, they sent a message in unison:

“Xue Xue, please wait for me at Qinglin Villa.”

“Xue Xue, please wait for me at Qinglin Villa +1.”

“Xue Xue, please wait for me at Qinglin Villa +2.”

“...”

Chen Xue looked at these messages and looked at the floating bridge viewing area in front of her in surprise. The boss of Qinglin Villa was really impressive. The originally inconspicuous reservoir was actually given a new life like this.

In the end, when she received a call from her family asking where she was, she could only leave reluctantly. She went to the restaurant and found her family.

“Xiao Xue, come over quickly. I want to show you something.” A woman called out to Chen Xue.

“Sister-in-law, what’s wrong?” Chen Xue ran over.

Her sister-in-law took out two very big eggs and said, “Guess what eggs these are?”

Chen Xue looked at the eggs in her sister-in-law’s hand in confusion. It was bigger than chicken eggs and duck eggs. It was almost 10 centimeters tall and 6 centimeters in diameter, right?

“Duck eggs?” Chen Xue thought of something and asked subconsciously.

“Xue Xue, how did you know?” Sister-in-law asked in surprise, “At first, when I saw the sign that said ‘Beauty Enhancement Duck Egg’, I couldn’t believe it. One egg costs 100 yuan. It’s said to be able to nourish and beautify the face. Moreover, there’s a duck egg as big as an ostrich egg there. It costs 1,000 yuan each. I wonder if that egg is real. What duck can give birth to such a big egg?”

When Chen Xue heard this, her expression was clearly a little off.

Because she knew what duck could lay eggs that big.

...

Qin Lin received a court notice from Senior Brother Chu in his office. It was naturally the case of Chun Chun’s defamation last year.

To be honest, if not for the order this time, he would have forgotten about this slander.

However, this notice did not mean that the case was over. It was a notice from the court that Chun Chun had already appealed.

In other words, the case had entered the process again.

This was also the reason why many people eventually chose to settle privately on cases in this area. A judgment process would originally take a lot of time, and it might even take more than half a year to come to a conclusion.

However, this might not be the final outcome. When it came to a shameless appeal, it would have to be delayed again.

Wasn’t this the case of a famous Internet celebrity slandering his boss and a certain song?

Neither case came to a conclusion.

A certain song case even shamelessly chose the last day of the appeal period to appeal. It made all the onlookers helpless.

Many times, after a rights case, ordinary people would have to run for their lives and go bankrupt in a lawsuit.

Therefore, in the end, they were exhausted. Even if it was unfair, they could only admit it and could not afford to keep fighting.

Clearly, Chun Chun wanted to play this game too.

Senior Brother Chu said, "The other party is very smart. She didn't appeal with the sentence of defamation. Instead, she appealed with the ridiculous excuse of her private privacy being leaked. I'll help you continue to sue her."

Qin Lin also replied, "Thank you, Senior Brother Chu."

He had to say that Internet celebrities were really similar.

It seemed that the other Internet celebrity was also playing this trick. After slandering his boss, he used an unrelated name to appeal. His motive was self-evident.

For example, Chun Chun had nothing to lose even if she lost the unrelated appeal about her private privacy being leaked. If it was accepted and she won, in an attempt to win back the fan, she could take this appeal judgment and send it to others to say that she had won.

Some brainless fans would only see that she had won the appeal. They would not see what she had won in the appeal, so they would be guided blindly.

A certain cross-dressing Internet celebrity had given a good demonstration to the other Internet celebrities.

He really had to leave such a matter to a professional like Senior Brother Chu. Otherwise, wouldn't he be annoyed to death?

He put down his phone and left the office, planning to talk to Zhao Moqing about the floating bridge viewing area. Now that the floating bridge viewing area had ended its construction, it was time to open it to the public. Before that, he had to take a video to promote it.

When he arrived at Zhao Moqing's office, he saw her talking to a tall and beautiful woman.

Wasn't this Lin Lanzi, the host of the year-end banquet?

He remembered that Zhao Moqing had recruited her before. Now, she had agreed to come to the villa?

"Boss," Lin Lanzi called out respectfully when she saw Qin Lin. Clearly, she had already been hired.

Zhao Moqing also said, "Hubby, Sister Lanzi will be in charge of the media department in the future. She will be in charge of the official media accounts, filming, publicity filming, villa activities, villa advertisements, and so on."

"Welcome!" Qin Lin nodded and shook hands with Lin Lanzi.

As the villa developed, there were more and more things to do. Some departments indeed had to be divided into jobs. Zhao Moqing alone could not handle it.

“Moqing, Boss, I’ll get Xiao Zhao and Xiao Min to show me the villa first.” When Lin Lanzi saw Qin Lin come, she also said to the two of them and left the office.

Xiao Zhao and Xiao Min were the photographer and female planner recruited by the villa.

Zhao Moqing originally thought that if this media department was established, she would choose one of the two to be in charge and recruit two people to supplement it.

Unfortunately, most people belonged to the idle fish type, especially those who played with pens and photography.

Xiao Zhao and Xiao Min were not suitable to be managers. The two of them were a little idle, so Zhao Moqing planned to recruit Lin Lanzi.

Not only was the other party a member of the Literary Committee, but she was also good at dealing with people. She had a good image and temperament, and also had a strong foundation in hosting. The key was that she was in a relevant major in university. This was an advantage that others did not have.

“Lin Lanzi’s conditions are not bad. I wonder why she’s staying in a small place like Youcheng County?” Qin Lin said curiously after sitting down.

To be honest, the salary of Youcheng County’s art troupe was not high. With Lin Lanzi’s conditions, she could easily find a good job in a big city.

“She’s tired because she got hurt in a relationship.” Zhao Moqing sighed, her words a little regretful.

“How did you know?” Qin Lin asked curiously.

“Do you think I’m a fool? I’ll definitely ask around before I recruit her.” Zhao Moqing looked at Qin Lin angrily and said, “I heard that she had a flirtatious boyfriend in Xia City previously. At the wedding, an ugly rich woman came to ruin the wedding. Then, her boyfriend even left with that rich woman.”

“Uh...” Qin Lin was stunned.

Wasn’t this too melodramatic?

Indeed, money could do whatever it wanted.

With money, he could let the young lady choose the old man or the handsome man choose the auntie.

“Some men are really bad,” Zhao Moqing said fiercely. Clearly, she hated men like Lin Lanzi’s ex-boyfriend.

Qin Lin hugged Zhao Moqing. “If it were me, I wouldn’t exchange a hundred rich women for you.”

“What about the 101th?” Zhao Moqing asked teasingly.

Qin Lin teased, “Then I’ll consider it.”

“You still dare to consider it?” Even though Zhao Moqing knew that Qin Lin was joking, she still glared at him fiercely.

Qin Lin could only laugh and get down to business. “By the way, the floating bridge viewing area has been wrapped up. It can be opened at any time. You can do some publicity here first.”

“Yes.” Zhao Moqing nodded and said, “I’ll get Sister Lanzi to take a video at the floating bridge viewing area tomorrow.”

With the villa’s current reputation and number of fans, taking a video and uploading it was already the villa’s best publicity channel.

However, what Qin Lin did not expect was that before the villa could film a video the next day, the floating bridge viewing area became popular.

### **Chapter 299: Battle for the Duck King! The Guinness Book of Records is Gone Just Like That!**

At night.

Yang Dong rushed to Qin Lin’s office with his phone and excitedly showed him a video. “Boss, look at this video. Our floating bridge viewing area is popular.”

“What’s going on?” Qin Lin looked at the video in confusion.

The floating bridge scenic area had not even begun its promotion. Why was it popular?

The video was taken by an ID called ‘Xiao Xue’. The video already had 150,000 likes and was on the hot search.

The title was: “The beautiful sunset, the clear pool full of duckweed!”

The video started with a girl’s voice. “I discovered beautiful scenery today. If you don’t clock in once, I guarantee you’ll regret it.”

As soon as he finished speaking, a beautiful scene appeared in the video. Floating duckweed, floating bridge, white duck, big fish, and the setting sun intertwined like a painting.

Wasn’t this the video of their villa’s pontoon bridge viewing area?

Yang Dong explained, “I heard from Supervisor Chen that the security guards didn’t watch the entrance in the afternoon. A girl ran in. It should be that girl who posted the video and it’s even trending.”

“That works?” Qin Lin was stunned.

However, on second thought, Qinglin Villa was popular to begin with. The duckweed produced by the game also had a photogenic attribute. It would naturally look good when it was filmed. In addition, it was the first time that the floating bridge scenic area had been released. For such a high-quality video, it would be supported by Douyin the first time it was released. It was not surprising that it would become popular.

At the end of the video, the girl also announced the location. "I'm sure everyone wants to know where this is, right? This is also Qinglin Villa in Youcheng County."

At this moment...

The video comments section was also very lively.

"Where is this beautiful scenery? It can't be worse than Qinglin Villa."

"Didn't you see the end of the video? This was taken in Qinglin Villa."

"I was shocked. There are so many reservoirs in the country, but this is the first time I've seen a reservoir so meaningful and beautiful."

"No wonder Qinglin Villa's Triangular Plum Blossom Sea became popular. So many scenic spots want to imitate it, but it's inappropriate. That's entirely because of the difference in the creator's ability. I can imagine that there will be many reservoirs imitating it next."

"Brothers, I've already booked the bridal chamber at Qinglin Villa. Don't blame me for not reminding you what to do after your girlfriend sees this video."

"Thank you for the reminder!"

"Don't thank me. You can't book it anymore."

"There's no room available."

Qin Lin returned the phone to Yang Dong and teased, "This is really unexpected. Be prepared. There should be a lot of people coming to this floating bridge viewing area tomorrow. Get Gao Yaoyao to arrange for someone to cooperate with you. Don't let anything happen."

"Okay, Boss!" Yang Dong nodded hurriedly.

Neither Qin Lin nor Zhao Moqing expected the floating bridge viewing area to suddenly become popular. Fortunately, she had a lot of experience managing the villa's official account. She immediately downloaded the video of "My name is Xiao Xue" and edited it again. She then posted it on the official account and wrote the title "First Meeting with Everyone on the Floating Bridge Viewing Area."

This was a free popularity. He had to make good use of it.

When the official account of the villa posted this video, it was clearly more popular. Firstly, many fans who followed the villa saw it.

Furthermore, after a night of fermentation, the video of the floating bridge viewing area became a trending topic the next day. More people saw it. Those scenic bloggers also reposted the video one after another, riding on the popularity and making it even more popular.

Qinglin Villa was flooded again.

Countless people in charge of scenic spots were envious of this. They could not understand why it was so difficult for them to be on the trending searches, but it was so easy for Qinglin Villa.

Especially those famous 5A scenic spots. Logically speaking, they should be stronger than Qinglin Villa. They did not know where they were lacking.

In Min Province.

In a luxurious hall, Wang Yang was watching a short video with Su Juan. Su Juan leaned into his arms and asked worriedly, "Hubby, do you think there's something wrong with the fetus after we drank so much in the past?"

"Baby, don't worry. Wasn't the checkup very good yesterday?" Wang Yang comforted Su Juan. He didn't expect to be a father.

After returning from Qinglin Villa, he had gotten married to Su Juan as promised before the New Year. He had not used a condom the night they got married. Who knew that he would immediately hit the target? He felt that he was quite powerful.

"Okay." Su Juan felt much more relieved with Wang Yang's comfort and started watching videos again. When she was bored, reading novels and watching short videos was really a good way to kill time.

"Huh?" Su Juan looked at the video of the sunset against the pontoon bridge and duckweed on her phone and said in surprise, "Hubby, this scenery is so beautiful. Qinglin Villa isn't so beautiful, right?... Ah, this is actually Qinglin Villa."

When Su Juan saw the end of the video, she was even more surprised. "We didn't go to such a place last time, right?"

"It should be a newly opened area." Wang Yang also took out his phone and opened the Qinglin Villa he was following. As expected, he realized that there was also this video. He said with heartfelt admiration, "The boss of Qinglin Villa is really amazing. He developed another popular attraction."

However, what surprised Wang Yang even more were the ducks and groups of wild goods.

That duck was even bigger than a swan. It looked like it weighed more than 40 catties, right?

He had never seen such a big duck in his life.

According to Qinglin Villa's laws, such a rare thing in the outside world was definitely very delicious or very nutritious.

### **Chapter 300: Battle for the Duck King! The Guinness Book of Records is Gone Just Like That!**

There was also that kind of wild fish. He had fallen for the Supreme Set last time and knew how delicious it was.

When he returned to Min Province, he had also asked someone to inquire about such wild goods, but there was no supply at all. It could be seen how rare these things were.

Now, Qinglin Villa was densely packed. As expected of Qinglin Villa.

Looking at the large group of goods, he was a little greedy. He said to Su Juan, "Baby, let's go to Qinglin Villa first on our honeymoon?"

Su Juan nodded sweetly. "Yes, I'll listen to my husband."

Wang Yang continued to watch the video, but after a few videos, he saw an interesting video.

The video title was: "Haha, after a few years of nurturing, my duckling has finally registered through the Guinness Book of Records today."

This was a video of a duck owner named Duck King Wu

The duck raised by the Duck King Wu weighed 38 catties. It has passed the Guinness Book of Records of the largest duck in the world. Immediately, someone from the official Guinness Department came to certify the duck.

When the time came, his duck would be the largest duck in the world certified by Guinness.

Therefore, Duck King Wu posted this video and even held a live broadcast to celebrate.

However, when he looked at the video, he felt that something was wrong.

This was because he realized that the ducks recorded by the Duck King Wu were not as big as the three ducks in Qinglin Villa.

"That works?" Wang Yang immediately found the video of the floating bridge in Qinglin Villa.

In serious comparison, the duck weighing 38 catties was indeed not as big as the three ducks in Qinglin Villa.

This Guinness record was getting more and more unscrupulous, right?

No wonder someone asked if he could apply for a Guinness record at most once.

After seeing the ducks in Qinglin Villa and looking at the video of the Duck King Wu, wasn't this Guinness application an insult to one's IQ?

Wang Yang immediately used his account to take a selfie. "Today, the floating bridge viewing area of Qinglin Villa is very popular and beautiful. However, other than the scenery, you guys didn't notice something very important, and that's the weight of the three big ducks. Furthermore, a smaller duck is actually applying for a Guinness record."

He even tagged Duck King Wu.

After the video was sent, it was even more popular. He paid 20,000 yuan to promote it. He did not lack this money. He was just unhappy that his IQ had been insulted by this Guinness Book of Records.

Of course, if it were any other time, he would not have bothered to leave. But who asked this guy to insult Qinglin Villa's ducks?

This was also a very strange psychology for him.

After eating the good food and seeing the effect of the Qinglin Medicine Wine, he felt that he was a fan of Qinglin Villa.

Unfortunately, although he wanted to spend it on Qinglin Villa, Qinglin Villa did not give him a chance. The bottle of Qinglin Medicine Wine in his Supreme Set was already empty. He really wanted to buy another bottle.

A man could only be good after drinking that wine.

What was the power of 20,000 yuan Dou+? It was that the video would quickly become popular. The special video was also related to Qinglin Villa, Guinness, and so on.

The video posted by Wang Yang's account quickly caused a sensation. Those who had seen the video of Qinglin Villa's floating bridge viewing area were awakened by a single sentence.

"F\*ck, I was attracted by the scenery when I swiped it previously. I really didn't notice the duck."

"I just realized that the ducks are unbelievably big. I've never seen it in my life."

"I also saw the video of Duck King Wu. I compared it and indeed felt that the ducks in Qinglin Villa were bigger."

"This Duck King Wu has been promoting his duck for a long time just to fish up this Guinness record. Now..."

"Duck King Wu seems to be live streaming because of Guinness. My heart suddenly aches for him."

"..."

Some of them did not mind the situation getting out of hand and even tagged Duck King Wu.

At this moment...

On the other side, a young man was also smiling at the phone in front of him. In his arms, he was holding a very big duck and touching its head gently as if it was a precious treasure.

The duck clearly enjoyed it too. It seemed to have developed feelings for the young man and kept rubbing its head against him.

The young man was the Duck King Wu.

It was obvious that he was in a good mood. The official Guinness Book of Records will be here in a few days.

At that time, the duck in his arms would be the number one in the world. With this identity, he could reap enough benefits. Even if he sold the duck, it would be more expensive than others.

"There are many things to pay attention to when raising ducks, especially large ducks with genetic mutations like my duck. That requires even more rigorous technology," Duck King Wu said confidently. "Besides, I'm sure no one in the world can raise ducks better than me, and no duck can surpass my duck."

He had been advertising for half a year for the Guinness record of his duck.

He had also been investigating all over the world for the past six months. There was no duck bigger than his.

However, after Duck King Wu finished speaking, the comments in the live-stream suddenly became strange. The number of people watching the live-stream was actually increasing rapidly. Four words appeared in the comments: "Qinglin Villa!"

There was a dense 'Qinglin Villa'.

In the end, only the words "Qinglin Villa" were left on the screen.

This made Duck King Wu irritable.

He knew Qinglin Villa, but with his carefully prepared live broadcast, wouldn't these people be causing trouble?

Duck King Wu did not understand and said in frustration, "As a scenic area, the most important thing for Qinglin Villa is quality. Are the fans of Qinglin Villa so uncultured? Are they causing trouble in someone else's live-stream?"

At this moment.

His assistant hurriedly ran over and whispered in his ear, "Someone on the Internet is targeting you. They said that your duck is not the number one in the world. There are three ducks in Qinglin Villa that surpasses it."

When Duck King Wu heard this news, he was no longer in the mood to live-stream. He directly closed the live-stream and asked his assistant, "What's going on? Where's the video?"

The assistant immediately took out a video and handed it to Duck King Wu. "It's a video posted by an ID called 'Knife Beating People'."

When Duck King Wu saw the video, he immediately said angrily, "What does this guy know? How can Qinglin Villa have three ducks that are bigger than my Duckie? If they really have them, why didn't Qinglin Villa publicize them earlier? How much popularity can that bring them?"

The assistant frowned and said, "There are indeed ducks in the video at Qinglin Villa today. They're not small."

Duck King Wu still did not believe it. He immediately found the video of Qinglin Villa and saw the three ducks. Then, he frowned and asked his assistant, "Do you think these three ducks are heavier than Duckie?"

The assistant said awkwardly, "Boss, from the size of the video, those three ducks seem to be a little bigger than Duckie."

Duck King Wu frowned even more. "No, that's definitely impossible. If Qinglin Villa really has such a big duck, it should have been publicized long ago. How big of an honor would it be to be named the world's biggest duck?"

This was very irregular, so he did not believe it.

Seeing Duck King Wu like this, the assistant could only comfort him. "When the duck in Qinglin Villa spread its wings, its feathers seemed to be very long. Perhaps this is why it looks so big?"

When Duck King Wu heard this, it was as if he had grabbed onto a life-saving straw. "Yes, you're right. This can also explain why the other party didn't apply for the Guinness Book of Records. They didn't respond to us once in the past six months because we released Duckie's weight of 38 catties."

Then, he actually picked up his phone and took a video of the response. "First of all, I seriously condemn this 'Knife Beating People'. My duck has been preparing for the Guinness Book of Records for half a year. Doesn't Qinglin Villa know about this for the past six months? Why didn't they come out and express their opinions on my duck?"

"That's because the ducks in Qinglin Villa only have longer feathers and look larger. If the other party's ducks really surpass my ducks, why didn't he ask to apply for the Guinness Book of Records? Then would I still apply?"

After filming the video, he immediately chose to send it. He even tagged Knife Beating People and Qinglin Villa.

He definitely did not believe that the ducks in Qinglin Villa were bigger, unless the other party applied for a Guinness record and suppressed his duck's 38 catties.
