

The Game 571

[Chapter 571 300 Yuan For 500 Grams Of Cucumber? 2](#)

Qin Lin was speechless, "this director is bullshitting, isn't he?" I don't even have any acting skills, what kind of show can I act in?"

Lin Lanzi explained, " that's what I told the director, but he said that there are so many internet celebrities filming now. Anyway, as long as they can read the numbers 12345678, it'll be fine. There'll be voice actors in the post-production, and as for acting, the audience is all fools, so it's easy to fool them.

When Qin Lin heard this, he was speechless. It was no wonder that a certain Huang would become the protagonist of the most beautiful man. It was not that the director was stupid, but that the directors really thought that the audience was stupid.

Lin Lanzi looked at the boss's expression and asked with a smile, "Boss, are you going to the director's appointment?"

"Tell him to get lost." Qin Lin said in a bad mood.

Lin Lanzi replied very seriously, "alright, if the other party calls again, I'll tell you to get lost." &Nbsp;

Qin Lin didn't want to talk about this, so he asked, "What's the second matter?"

lin lanzi explained, "didn't your wedding photo with the lady boss go viral the next day?" whether it's the sea of flowers or the pasture, the background is very beautiful, especially the pasture. it's simply perfect, and it's very artistic when you film it. "

these days, more and more people have been asking if we can take wedding photos at Linlin villa. Many fans have even left messages on the official account to ask. I think that if fans come to take wedding photos, our official account can also do a special topic on wedding dresses. It's actually a good selling point.

Qin Lin frowned. but with this kind of program, there will be too many people taking wedding photos. It will definitely affect the experience of other tourists.

In fact, when the triangular plum blossom sea had just opened, people had already asked about this. However, the area of the triangular plum blossom sea was too small, so those who asked had all been rejected.

Lin Lanzi suggested, "boss, why don't we limit the number of couples we can take wedding photos every day, or choose a special day every two or three months or something, and gather all the people who want to take wedding photos together and hold an open day event?"

Qin Lin's eyes lit up when he heard Lin Lanzi's second method.

Wasn't this a little similar to the wedding ceremony in the story of the farm?

Lin Lanzi's words could be called a wedding ceremony.

If that was the case, it was not impossible. Holding wedding ceremonies a few times a year might become a special event in Linlin Manor.

as he thought about it, qin lin also said to lin lanzi, "According to your second plan, you can make a detailed plan first and I'll see if it's feasible."

"Okay, boss!" Seeing that her suggestion had been accepted, Lin Lanzi's face was filled with joy. As a high-level manager of Linlin Manor, she naturally wanted to do something.

Especially when director Ling had suggested that the boss should build an ornamental fish cultivation center as soon as he arrived, as well as set up the Linlin aquarium commemorative coin project, which put pressure on the other management.

She couldn't just be a salted fish. She couldn't do worse than Yaoyao, right?

however, it was not easy to make this plan. first of all, how many people were allowed to take wedding photos at one event, and how many priority levels were given to those who came for the wedding photos. for example, those who were fans of the mountain villa and had been to the mountain villa before, especially those who had been there several times, would definitely be given priority in booking.

And how to arrange after confirming the number of people.

It would take a lot of time to plan all aspects of this.

Just figuring out the process of such activities might take ten days to half a month.

She had a close friend who was in contact with this kind of business, so she could ask her first.

In the following days, the comprehensive sea of flowers was still popular. The Duke's Rose was more attractive than expected, even more so than Linlin Ranch.

After half a month, there was still an endless stream of tourists who came to admire the comprehensive sea of flowers. Every tourist who came would take a photo of the Duke king rose.

there were even quite a few tourists who, after taking the photos, deliberately posted the photos and videos on the internet of the hoshino, clearly trying to provoke the people of the hoshino.

In fact, this had a lot to do with the disgust that the Chinese had towards the Starstreak Kingdom.

The incident of the two bears on the International stage had already clearly displayed the wild ambitions of the star rule.

.....

Linlin Manor.

Early in the morning, Qin Lin moved the things from the game to the villa. He had just arrived at the office when he saw brother Chu at the door.

"senior brother chu, when did you arrive at the villa?" qin lin asked in surprise.

"I just happened to sleep in last night, so I didn't inform you." chu feng explained with a smile.

He had stayed up for more than ten days to deal with a big case, so he came here to take a two-day break to relax.

compared to other places, qin lin's nuptial chamber was supplied with sandalwood, so it was a good sleep. most importantly, she could also freeload off qin lin's food, which was really delicious. it would be perfect if she had some linlin medicinal wine.

Chu Feng continued, " Qin Lin, your integrated sea of flowers has been quite popular recently. Last night, I saw someone post a video saying that everyone in the xingtiao Kingdom is parading. It seems that you've provoked them. They're requesting the White Palace to open up the Duke Rose King to them to view.

"There's such a thing?" Qin Lin didn't think that he would really stimulate them to protest.

Wasn't the endurance of the people from the star-Charax Kingdom too weak?

But why did he feel so happy when he heard this news?

"It's from the news media, so it shouldn't be fake, right?" Chu Feng explained.

As the two of them were chatting, their phones suddenly rang with messages.

Qin Lin picked up his phone in confusion and was stunned when he saw the message.

[Chapter 572 300 Yuan For 500 Grams Of Cucumber? 3](#)

"My dear alumnus, Qin Lin!

Hello!

Time flies, and time flies like a song. Our school is welcoming you. I hope you can come back to our alma mater to attend our University's anniversary!

Obedient

A beautiful blessing!"

"An invitation to the university's anniversary?" Qin Lin was a little surprised. He knew that the school had a ten-year anniversary and a two-year anniversary.

Every time there was a school anniversary, the school would invite some famous alumni who had graduated to hold the school anniversary.

It could be said that being invited to the school's anniversary celebration was something to be proud of. With a post on your WeChat moments, your old classmates, seniors, juniors, and seniors would know that you were doing well.

However, he had never thought that he would receive an invitation to the school's anniversary celebration.

"Qin Lin, you received it too?" chu feng asked.

Qin Lin understood, and Chu Yang also received it. He asked in surprise, " "Why did I receive this invitation? Does anyone in the school know that I'm the owner of Linlin villa?"

Chu Feng laughed. I don't think you were invited because you're the owner of Linlin villa. You were invited because of your identity as an internet celebrity, horse tamer little Qin. Internet celebrities can be considered well-known people.

"It can be done like this?" "Isn't the school embarrassed?" Qin Lin was stunned. After studying with them for four years, you'll end up taming horses. Wouldn't your studies be in vain?"

you monastic robe! Chu Feng felt that it made sense.

"Senior brother Chu, should we go?" Qin Lin asked with a frown.

Chu Feng hurriedly shook his head. don't mind them. In fact, they've only invited one or two people to go up and brag to the students. They've specially called to invite them.

when others receive the invitation and go there happily, they'll find that they're just a foil to the braggart. No one will pay attention to them at all. After that, they'll be forced to go to the scholarship donation stage to support their juniors. Whoever goes is a fool.

"Senior brother Chu, why do you know so much?" Qin Lin asked curiously.

Chu Feng suddenly fell silent and refused to answer.

As the two of them were chatting, there was a knock on the office door. Yu Shui walked in with a few yellow cucumbers in her hand.

It was a cucumber for beautifying.

After the seeds of the beauty cucumbers were harvested in the artificial paddy field in the hall, the 100 acres of land developed by Yushui and the others were all planted with the beauty cucumbers.

Because the growth cycle of the beauty cucumber was shorter than that of ordinary cucumbers, after such a long time, some of the beauty cucumbers had already matured.

"boss, this is just plucked. the first batch can be put on the shelves tomorrow." Yu Shui put the cucumbers on the desk.

When Chu Feng saw these cucumbers, he picked one up in surprise and said, " "Qin Lin, the shape of your cucumber is a little special!"

Qin Lin smiled. the shape is a little special, but it's very useful. The cheapest one costs 300 yuan per 500 grams.

the beauty cucumber had already been tried by gao yaoyao and lin lanzi, and the quality 1 beauty effect was better than the top ten expensive brands of high-quality facial masks.

These high-quality facial masks cost more than 200 yuan each, so it was not too much for him to sell his 1 Grade one for 300 yuan.

Chu Feng was a bit speechless when he heard this, "300 yuan for 500 grams of cucumber?" Is this cucumber a delicacy? I'd like to have a taste!"

Without giving Qin Lin any time to react, he took a big bite.

Qin Lin didn't have time to react. He saw brother Chu's face turn ugly and ferocious in an instant, and he started to dry vomit crazily in the trash can.

The texture and deliciousness were both -2. Why did he bite it without asking?

After vomiting for a moment, Chu Feng's expression was still unsightly as he said, "F * ck, Qin Lin, your cucumbers are so unpalatable, and you're selling them for 300 yuan a pound? Only an idiot would buy it."

When Qin Lin heard this, he smiled but didn't say anything. When Senior Sister finds out and asks you to buy it, you'll really be a fool.

the next day.

In the Linlin Manor sales center, a waiter had already served up some yellow-skinned, strangely-shaped cucumbers early in the morning.

"What do you think the shape of this cucumber looks like?" A young female waitress asked her colleague as she picked up a cucumber.

"Sister Liu, what are you saying? aren't you ashamed?" at the same time, the people beside her blushed.

"I didn't even say anything. How do you know shame?" sister Liu teased.

stop playing! the head waiter next to him said. look at the price of this cucumber!

Sister Liu also hurriedly put down the cucumber. After all, the price left her speechless. The item Introduction column next to it said, "

[item: Linlin beauty cucumber!]

[special effect: a special cucumber cultivated by professor Li Kai. It contains a variety of vitamins and proteins. It has a very strong whitening effect and a moisturized effect on the skin. It's better than the top ten brands of high-quality facial masks.]

(Attached is a set of data from Linlin laboratory and a third-party laboratory in Ming city on whitening ingredients.)

The price was 300 yuan per 500 grams!

Sister Liu didn't know much about beauty treatments. She rarely even used facial masks. She only knew that a catty of cucumber outside was only 1.60 Yuan.

300 yuan per 500 grams of cucumber was not even enough for her daily salary.

Chapter 573

If 300 yuan per 500 grams was already very expensive, then what made sister Liu's jaw drop was the even smaller quantity of high-quality Linlin beauty cucumbers, which cost 1500 Yuan per 500 grams.

That was five times more expensive.

Naturally, these were the few quality 2 beautiful cucumbers grown from quality 2 seeds, and there were even fewer of them.

"Head waiter, do you think tourists will buy such an expensive cucumber?" Sister Liu asked, puzzled.

The head waiter said confidently, "sister Liu, do you see that no one is buying our 300 yuan and 5000 Yuan face-nourishing eggs?" Since the boss dares to sell it at such a high price, there must be someone who will buy it. "

"Rich people are really generous." When sister Liu heard this, she also felt that it made sense. She mumbled a sentence and began to seriously mess with him.

The entire sales center was very large. The daily goods, such as vegetables, fresh food, and fruits, were basically sold out on the same day. The next day, the suppliers would deliver the goods early. Their workload of organizing the goods was quite heavy.

while the sales center's staff was packing up the goods, the female tourists had already arrived.

Some of them were tourists who had gone to their nuptial chambers, some were tourists who had come to the ranch to experience tents, and some had come early from outside.

The purpose was also very simple, and that was to go to the sales center to buy the beauty eggs.

Which female tourist who came to Linlin villa didn't know about the reputation of Linlin villa as a beauty egg?

Now that he had come to Linlin villa, he would be letting himself down if he didn't experience the effects of this beauty egg.

To sell one big beauty egg a day, one had to buy vouchers, but there were not many small beauty eggs available every day. Even if each visitor could only buy one, it was still more women than meat.

Therefore, the female tourists who came to Linlin villa usually rolled up, which was to see who got up early, and even to which sales counter the beauty egg was placed.

The three women in their 30s had parked their cars in the parking lot early in the morning and rushed to the sales center.

"hurry up, you guys. the face-nourishing egg is gone." Chen aiying said to her two best friends.

"They're here!"

"Slow down,"

Her two best friends shouted helplessly from behind.

"Any slower and the egg will be gone." Chen aiying still urged.

She and her two best friends had been living in Linlin villa for a few days.

After she couldn't stay in the nuptial room at Linlin villa anymore and couldn't book a tent at Linlin Ranch, she ordered the most expensive vip room in you city for half a month.

In order to experience the beauty egg this time, she had worked very hard. Fortunately, she could also deal with her company's Affairs through the computer and mobile network.

If she didn't buy a beauty egg and experience if the effects of this egg were really that strong, she wouldn't be able to understand.

Her two best friends were helpless and could only speed up.

why was this linlin villa so stingy? they only provided such a small amount of beauty eggs every day.

It was as if they couldn't afford it, so couldn't they supply more? they could afford as many as they wanted.

Although women were like wolves in their thirties and tigers in their forties, at their age, they really couldn't win against those young bunnies. That was why they had been late for a few days and didn't manage to get a single egg.

Today was already the earliest day of waking up.

Finally, Chen aiying and her two best friends arrived at the sales center.

The first thing they did was to go to the sales counter for the beauty eggs. However, when they got there, they could only watch a few young girls in their early twenties happily take away the last few beauty eggs.

Chen aiying was annoyed that she was just a little slower.

"It's too late." one of her besties said in frustration.

"We'll continue tomorrow!" Chen aiying said viciously.

His thoughts were getting more and more incomprehensible.

Suddenly, a surprised voice caught Chen aiying's attention. "This cucumber is so expensive? It's 300 yuan per 500 grams, the price is the same as a beauty egg."

Another surprised voice sounded. this introduction says that it's a beauty cucumber. It's better at beauty, whitening, and moisturizing than the top four brands 'high-quality facial masks. There's also a high-quality beauty cucumber at the sales counter in front. It's 1500 Yuan per 500 grams.

1500 Yuan per 500 grams of cucumber? " The voice from earlier clearly drew in a breath of cold air, clearly shocked by this price.

After all, it was just a cucumber. Even if the introduction was exaggerated, it still felt like the price was sky-high.

Chen aiying and her two best friends were completely attracted by the conversation.

They walked over and saw the cucumbers for beauty.

These cucumbers weren't here yesterday, so they were obviously a new product from Linlin villa.

why does the shape of each cucumber look a little weird! One of her close friends said to Chen aiying.

Chen aiying and her other best friend looked at each other with a strange look in their eyes. Obviously, they both understood what her best friend meant.

At their age, they already knew what they needed to know. Many times, they didn't need to say it clearly and could understand it.

The bestie from before asked again, 'do you think the beauty, whitening, and moisturizing effects of this cucumber is really as strong as the introduction says? With this price, the effect won't be any worse than the beauty egg, right?'

Linlin villa still has this bit of credibility. If they dare to sell it at such a high price, there must be an effect. Otherwise, it's more of a loss than a gain to ruin their reputation. Chen aiying walked to the side and started to put the cucumbers in a bag.

Of course, she was carrying high-quality beautiful cucumbers that cost 1500 Yuan per 500 grams.

She had her own business and didn't lack money.

He hadn't experienced the beauty egg for a few days, so he had to experience the new beauty cucumber from Linlin villa first.

[Chapter 574 In Half An Hour? 2](#)

Every time Linlin villa launched an expensive product, it would explode in popularity and never let people down.

He believed that this cucumber would be the same.

The two best friends looked at the introduction of the high-quality beauty cucumber and also took action.

[item: high-quality Lin Lin beautiful cucumber]

[special effect: this is one of the best special cucumbers cultivated by professor Li Kai. It contains a variety of vitamins, proteins, and other beauty ingredients that far exceed ordinary beauty cucumbers. It also has a very strong whitening effect and a moisturized effect on the skin. If you use it often, it's not a dream to become whiter and younger.]

(Attached is a set of data from Linlin laboratory and a third-party laboratory in Ming city on whitening ingredients.)

Price: 1500 Yuan/500 grams!

How could he not buy it or experience it after reading the introduction?

What they were afraid of now was that if the effect of this beauty cucumber was really so strong, they would have to fight for it again if they wanted to experience it.

Chen aiying and her two best friends each packed some cucumbers. After paying, each of them took three or four pounds, so they all spent four or five thousand Yuan.

However, they didn't care about the money. After buying these beautiful cucumbers, they went back to the Zhong min hotel in you city immediately. Then, they went back to their rooms, took out a knife, and began to cut the beautiful cucumbers happily.

At this time, the sales center was already bursting with people.

This was because early in the morning, the official account of Linlin villa had sent a video to inform the sales center that they had launched a new product: linlin beauty cucumber.

What were the fans and tourists who followed Linlin villa most concerned about? Other than the new projects, there were probably new products from Linlin villa.

Therefore, in a short time, many fans paid attention to the news of the beautiful cucumber, including the female tourists who were already in the villa.

What were they waiting for after seeing the effects of the cucumber salad? One by one, they rushed to the sales center.

No woman could resist the temptation of beauty, whitening, and moist skin.

of course, they wouldn't have fallen for this kind of hype on the internet if it was from other places. they weren't stupid and rich people, but this was a product of linlin manor and professor li kai's research, so it would definitely be effective.

Now, the popularity of the comprehensive sea of flowers Duke Wang rose had not subsided. Linlin villa was still full every day, receiving more than 20000 tourists.

Therefore, the beauty cucumbers provided by Linlin villa didn't last long before they ran out of stock. Then, there were female tourists cutting cucumbers everywhere in the villa, in the bridal chamber, and in the tents.

The area with the most people was the buffet area.

One could rent a stove, table, barbecue grill, and knife to cut cucumbers.

After Gao Yaoyao found out about the situation, she went to the kitchen and asked Master Lin for an apprentice with good cutting skills. She set up a free service in the sales center to help cut the beautiful cucumbers.

Therefore, the Linlin beauty cucumber had already exploded in popularity before its effects were verified.

This was probably the word of mouth.

In another place, even if the price was lower for the same cucumber, there would not be such a rush to buy it.

of course, in reality, the stock was out of stock, and there was a lot of discussion on the internet.

A Weibo user called 'laughing economy' posted a video that went viral:

everyone knows that to make money, you have to grasp the market. Linlin villa has just launched a new type of cucumber that professor Li Kai developed. Yes, it's also a cosmetic product. Did you all notice something strange? "

I'm not saying that the cucumber is useless. Professor Li Kai's research is still worth believing. However, have you all noticed that the more popular products launched by Linlin Manor are products that can beautify women, such as beauty eggs and cucumber, Linlin medicinal wine, and okra, which can strengthen men's yang and kidney? "

that's what I wanted to say. Linlin villa has accurately grasped the market for men and women. This is probably one of the reasons why Linlin villa is so successful.

This video really attracted the attention of many people.

Many people thought about it. There were many special products in Linlin Manor that had such a function, such as Chinese yam, broccoli, and Loach Kasaya.

...

Time always passed by unknowingly.

Chen aiying went back to the hotel room. The first thing she did was to slice a cucumber and put it on her face.

She often put on facial masks, and when she did, she would feel refreshed. Moreover, the better the quality of the facial mask, the better the refreshing and comfortable feeling.

She had also applied it on the cucumbers before. After all, many people on the internet said that applying cucumbers had many benefits. However, after applying it, she realized that the effect was a little bit better, but it was far inferior to the high-quality facial masks of the top ten brands.

Now that she had applied the premium cucumber facial from Linlin villa, she found that the refreshing feeling was far better than any of the top ten brands of facial masks she had used before.

She could immediately tell this feeling.

moreover, it wasn't just a comfortable feeling. he also felt as if all the pores on his face had opened up, as if all the cells in his face were jumping for joy after absorbing the nutrients.

It was the first time she had experienced it.

20 minutes passed by quickly.

Chen aiying removed the cucumber from her face and went into the bathroom to wash up. She was shocked when she looked into the mirror.

In this short period of time, her face seemed to have turned a lot whiter.

She subconsciously moved closer to the mirror to take a look to confirm.

She was in her 30s. No matter how she took care of herself, the skin on her face would inevitably look a little dull when she looked at it up close.

But now, the skin on his entire face seemed to be much more lustrous.

Was this the effect of Linlin villa's high-quality beauty cucumber?

A moment later, she came out of the bathroom and heard the doorbell ring. The high-class rooms that she and her two best friends had booked were single rooms because when they made their reservations, they could not get a large room or a suite.

her best friend must have finished her facial mask and come over now.

When she opened the door, it was indeed one of her close friends.

When her best friend came in, she said excitedly, " Ai Ying, this cucumber is so effective. Look at you, your face is so much whiter. It's much better than those high-quality facial masks.

"En!" Chen aiying quickly nodded in agreement. Then she said, " with such an effect, we must go and buy more and bring some back. As for the beauty egg, if we can't get it, then so be it.

For women who loved beauty, the surprise on their faces could not be concealed.

To them, this beauty cucumber was simply a blessing.

However, her best friend said, " sigh, I'm afraid we won't be able to get it again. If this effect is known, people won't fight for it like they do for the beauty egg.

Chen aiying's expression changed.

After all, in order to snatch the beauty egg, they had not managed to get it for several days.

It wasn't that they didn't remind him to go to bed early the day before, but the more they reminded him, the more awake he became, and then he couldn't fall asleep no matter what.

Sometimes, his biological clock was so disrespectful.

"By the way, where's Weiwei? Is she not done?" Chen aiying asked.

Her best friend shook her head. I don't know. Logically speaking, the hotel we arrived at together should be almost finished. Why did she take so long? "

"I don't know. She might be up to something again." Chen aiying shook her head. She had an unreliable best friend, so they could only wait.

However, the two of them waited and waited. Before Weiwei came over, they felt that something was wrong.

They always gathered together immediately to share the things they had used.

Now that the Linlin beauty cucumber had been used up, the other party should have immediately come over to discuss it.

Half an hour passed, and they heard the doorbell ring. They knew that Weiwei had arrived.

chen aiying opened the door and saw her best friend standing outside.

however, the two of them looked at their best friend with a strange expression because there was something wrong with her. her face was red, as if she had just had sex.

"Weiwei, did you find a man?" Chen aiying exclaimed subconsciously.

At this age, she naturally knew why her best friend was like this.

No wonder it took half an hour!

[Chapter 575 That Rich Second-Generation Student! This Is Really Fantasy-Like! 1](#)

Chen aiying and her other best friend covered their mouths in shock.

Weiwei was too bold.

Cowards in this hotel?

The country is so strict these days, and this hotel still dares to provide such service?

They were in their 30s, and it was obvious from the woman's face that she had just had sex.

Moreover, Weiwei seemed to be enjoying herself.

Otherwise, why would it take half an hour?

Seeing Chen aiying's questioning look, she blushed and quickly pushed Chen aiying into the room. "What nonsense are you talking about? Do I look like such a casual person?"

Chen aiying pulled Weiwei into her arms and started touching her. you're still saying that I'm talking nonsense? let me check. Aren't you afraid that your husband will find out? "

"Yes, she wants us to check." The other bestie didn't believe her either.

Did he think they couldn't tell?

Weiwei hurriedly said, " don't mess around. I'll tell you what's going on. Didn't you say that the shape of the cucumber is strange? " It's this thing."

"....."

"....."

Chen aiying and Chen Yichen were stunned. They immediately understood what Weiwei meant.

Weiwei, don't tell me you're using a Pixiu? " "Is this okay?"

"En!" Wei Wei nodded with certainty,"otherwise, why would I take so long?" I didn't know what I was thinking at that time, so I tried it. And I found that it had some magical effects. Using ****, it really made me feel good!"

chen aiying and her other best friend subconsciously swallowed when they heard weiwei's words.

Is this for real?

It had such a magical effect?

But looking at Weiwei's face, she did not seem to be a fake at all.

If this was true, then this thing was ...

At their age, the couple at home was getting worse and worse. Sometimes, it was also very hard.

Although they had some money, they couldn't do things that went against their morals.

If this thing was

" i left something in my room. i'll go back and get it. " Another bestie said before opening the door and going back to her room.

chen aiying looked at weiwei with a knowing look as if she was saying, " Do you want to go back and get something?

Weiwei didn't seem to understand what Chen aiying meant. She sat down and said excitedly, " "Ai Ying, I'm telling you, that feeling was weird."

Chen aiying gritted her teeth.

This woman didn't know how to read people's eyes.

.....

On the internet.

With the sales of the beauty cucumber, some people who had used the beauty cucumber also posted the video on the internet, which also made the beauty cucumber go viral, just like the beauty egg.

The video that attracted the most attention was naturally a video posted by a beautiful travel blogger.

This beautiful travel blogger was quite famous. This time, she had come to Linlin villa to do a special topic and had just snapped up the beauty cucumber. After using it, she shared the effects.

She had used high-quality beauty cucumbers, which clearly showed the extraordinary contrast between before and after her video. This also made everyone know the magical beauty effects of beauty cucumbers.

However, the last sentence of the beautiful blogger's video made people wonder.

Yingluo, as everyone can see, my face has clearly become whiter after using the beauty cucumber. The effect of the beauty enhancement is too strong. The key is that with this, I feel like it doesn't matter if I get a boyfriend or not. Aiya, I mean, a boyfriend can't beautify me!!

The video was hinting at something.

As long as she wasn't as pure as a little white rabbit, anyone could understand the hint.

Therefore, it didn't take long for the video of this Beautiful Blogger to be banned.

Unfortunately, too many people had seen the video, especially the tourists in the villa.

Therefore, the number of people who were asking about the beautiful cucumbers in the Linlin villa's sales center suddenly increased, and they were all women over 30 years old.

for some reason, their expressions became more strange.

when the beauty cucumbers were on fire, two cars stopped at the parking lot of qin lin villa.

The license plate of one of the cars was obviously from you City County.

The other car was from another province.

The car door of the car in the county opened, and Chen Li got out of the car with Zhong Lei. He looked at the mountain villa's dense crowd of tourists and felt a little emotional. Back then, when they auctioned off the dilapidated Mountain Villa for one million, who would have thought that there would be such a scene of a gathering of tourists?

A young man and a young woman holding a little girl's hand also got out of the car behind.

Chen Li walked toward the young man and said with a very polite attitude, "Mr. Huang, this is the Qin Lin Mountain Villa. Shall I show you around?"

It was no wonder he had such an attitude. You city had been promoting for so long and had attracted many small investors. They had all invested millions or tens of millions, but big investments were rare.

The young man in front of him looked to be about the same age as boss Qin, but the county had already confirmed that he had no less than 100 million Yuan in funds.

It was the cash flow kind.

Moreover, the other party was looking for a place to invest and build a factory.

Therefore, sun Xian had given a death order to keep the other party's investment in you city.

When the other party came to you city, he just did a little inspection and then suggested to visit Linlin Manor. In order to invest, he naturally accompanied him personally.

"Sorry to trouble you, Chen Xian," Mr. Huang said with a smile.

The woman beside him asked curiously, "Chen Xian, the internet says that Linlin Manor has a lot of good stuff, such as the emperor's supreme set meal, Linlin medicinal wine, beauty eggs, and the beauty cucumber that just came out today. Are these things really as magical as the internet says?"

[Chapter 576 That Rich Second-Generation Student! This Is So Fantasizing 2](#)

"Linlin Manor's items are real. Otherwise, they wouldn't be so popular," Chen Li explained with a smile.

"Really?" "That's a pity?" the woman asked in surprise. I read on the internet that these things can't be bought even if we want to. I don't know if we can get them if we queue up early tomorrow."

"Don't worry, Madam Huang. You and Mr. Huang are our distinguished guests. How can we let you line up?" Chen Li immediately said. Even if I have to give up my old face, I'll have the villa sell you a portion."

"Thank you, County Chen," the woman immediately thanked him.

teacher, " Mr. Huang said to the woman, " we can't force you. They have their own rules. Don't make things difficult for them.

don't worry, Mr. Huang. I'm friends with the owner of the villa. Chen Li said with a smile. For this investment, he had already decided to beg boss Qin to give him some face.

However, Mr. Huang and his wife made him puzzled.

Other people called him their wife, but Mr. Huang called his wife his teacher.

Although wife and teacher only differed by one word, the meaning was too different, right?

Mr. Huang stopped at the entrance of the manor and looked up at the plaque with the words 'Linlin Manor'.

"It's really fragrant Rosewood, and it's quite old." Mr. Huang said in surprise.

Chen Li asked in surprise,"Mr. Huang, you can tell the age of these yellow Rosewood?" Although this plaque is very famous and many tourists check in at this time, not many people know about the year."

Mr. Huang shook his head. I can't tell the details, but I know a little. My old man has a yellow Rosewood plaque in his study, so I've studied it before.

"Mr. Huang, you are very knowledgeable." Chen Li nodded and brought Mr. Huang into the villa.

He looked at the dense crowd of tourists and introduced, " Mr. Huang, Linlin villa has recently opened a comprehensive sea of flowers project. It receives more than 20000 customers a day.

from this, we can see that the investment environment in you city is very good. Otherwise, it would be impossible for a tourism industry like Linlin villa to be able to receive 20000 visitors a day.

moreover, you also know that the owner of Linlin villa has a Linlin food company. Linlin ketchup and Linlin leisure tea are famous all over the country. Their factory is in the industrial area of you city. The other is the Linlin laboratory. The two big bosses in Ming city have also invested 400 million Yuan ...

if the investment environment in you city isn't good, people won't put their other businesses in you city. I can bring Mr. Huang to visit the owner of Linlin Manor later. Maybe you'll have more to talk about.

Linlin Mountain Villa, Linlin food company, and Linlin laboratory had obviously become one of the best business cards you Cheng had shown to investors.

In the past, when he faced investors with millions or even tens of millions, he could easily settle them once he moved out of Linlin villa and Linlin food company.

there were many new factories in the industrial zone. although they were not large, the number was quite large.

He hoped that this would also work on Mr. Huang. After all, this kind of big investor was different from those small investors.

therefore, he still planned to put down his old face and bring mr. huang to visit boss qin.

For such investors, people like boss Qin could give them more confidence in you city's investment environment.

When Mr. Huang heard Chen Li's words, he suddenly smiled and said, " Chen Xian, I naturally trust the investment environment of your you city. However, I have a presumptuous request. Before I meet the owner of this villa, I wonder if I can meet the horse tamer of Linlin villa, little Qin? "

"what?" When Chen Li heard this request, he was stunned for a moment.

The horse tamer little Qin, wasn't this boss Qin?

Wasn't the person he wanted to bring to see boss Qin to see little Qin?

He then realized that outsiders probably didn't know that the horse tamer little Qin was the owner of Linlin villa.

Mr. Huang saw that Chen Li was silent and thought that he was in a difficult position. He immediately said, " Xian Chen, I know that this request is presumptuous, but I don't mean any harm. In fact, little Qin is an old friend I haven't seen in years. I was surprised to see him in the video at Linlin Manor. I also thought of some of my university days, so I want to meet him.

"Tsk." Chen Li clearly didn't believe it.

Didn't they know that little Qin was boss Qin?

Xian Chen, " Mr. Huang explained, " I didn't lie to you. I've slept with Qin in the past.

I was the one who taught him how to ride a horse in the beginning, but something happened in the middle and we stopped contacting each other. I didn't expect his riding skills to be so good now. I'm so envious.

When Chen Li heard this, he was still in doubt.

However, he had planned to bring Mr. Huang to visit boss Qin. They would know each other when they met, so he brought Mr. Huang to the office area of Linlin villa.

Mr. Huang followed behind Chen Li. His eyes were filled with anticipation, as if he was recalling something.

To be honest, although his college days were very bad and regrettable, the only person in the entire dormitory who was worthy of being his friend was Qin Lin.

At the very least, the only person in the dormitory who could make him feel sincere was Qin Lin. He only felt that Qin Lin's temper was more appropriate.

Chen Li led the way and soon saw Gao Yaoyao walking out.

[Chapter 577 That Rich Second-Generation Student! This Is Really Fantasizing \(3\)](#)

"Chen Xian," gao yaoyao greeted chen li politely.

Although Chen Li was still an important figure to her, she had become more generous after meeting him more often. It was not like the first time when Chen Li was still the tourism Bureau chief. She was a little nervous when she saw him and reported it to the boss.

"Manager Gao, is President Qin here?" Chen Li asked Gao Yaoyao with a smile.

the boss is in his office, " Gao Yaoyao explained. I just finished reporting to him.

"alright!" Chen Li nodded his head and said to Mr. Huang beside him, "Mr. Huang, let's go!"

Mr. Huang's face revealed a look of disbelief.

president qin?

Little Qin?

That's impossible, right?

Qin Lin was the owner of Linlin villa?

He heard that Qin Lin's life in school was quite difficult. Something big seemed to have happened to his family, and he owed a lot of money. He should be poor after graduation.

He believed that it was understandable for the other party to become a horse tamer, but it was a bit of a fantasy for the other party to be the owner of Linlin Manor.

A moment later.

He followed Chen Li to an office with the Chairman's sign.

He opened his mouth in a daze when he saw Chen Li knocking on the door.

Is this for real?

Was Qin Lin really the owner of Linlin villa?

what had happened to him in the two years after he graduated? he could actually do such a thing?

He knew very well how much potential Linlin villa, Linlin food company, and Linlin laboratory had, and how difficult it was to start these companies.

This was not something an ordinary person could do.

Even if Qin Lin was a rich second generation, had a high starting point after graduation, and had financial support from his family, it was impossible for him to do well, right?

Thinking about Wang Yiyi giving his son 500 million Yuan to practice, young master Wang's starting point was high enough, right? however, what else had young master wang done other than earning the title of the nation's husband?

In the end, he still made a loss. He almost couldn't pay back the money in the bank and became a deadbeat, his spending restricted.

Therefore, if this Linlin villa was created by Qin Lin, it would be too shocking. This would make all the rich second-generation heirs at high starting point feel ashamed, and this included him.

A person from an ordinary family could actually set up such a business in such a short time? If the outside world knew about this, they would go crazy. In this era, even the two powerful big bosses wouldn't be able to achieve this kind of achievement from scratch, right?

In the office.

After hearing Gao Yaoyao's report, Qin Lin looked at the screen in his mind. He controlled his character to go to goddess mountain and cut down the trees that had refreshed that day.

Moreover, his luck seemed to be pretty good today. When he was cutting down the last tree, he discovered that another agarwood had spawned.

This meant that he could get another two boxes of agarwood incense.

How could he ever have too many of these things?

he immediately controlled his game character to bring the agarwood processing machine to the experimenter and used the machine to process the agarwood into agarwood incense.

Just as he was about to enter the game to bring out the agarwood incense, he heard a knock on the door.

He opened the door and saw Chen Li outside.

"County Chen, what brings you here today?" Qin Lin asked with a smile and welcomed Chen Li in.

"I've brought a gentleman to visit you," Chen Li said as he walked into the office.

Qin Lin also saw the young man behind Xian Chen and the woman holding the child's hand. He was stunned for a moment and asked in disbelief, "Huang Xin? Teacher Chu?"

The other party was the rich second generation student who had treated him well in the dormitory.

"Qin Lin?" When Huang Xin saw Qin Lin, his face was filled with disbelief.

Was the owner of Linlin villa really Qin Lin?

This was really f * cking magical.

[Chapter 578 Using 100 Million Yuan To Practice! Linlin Leisure Tea And The Asian Games](#)

Qin Lin really felt that fate was a wonderful thing.

In the beginning, whenever he took out items from the game, he would always compare them to the expensive food that Huang Xin had treated them to in the past.

She also wondered where this rich second-generation student had gone after he was expelled.

To be honest, the fact that he could still make people talk about him after almost five years showed that he was a good person.

In fact, this was indeed the case. The other party was a rich second generation, and he did not have the arrogance of a rich second generation at all.

In the beginning, they didn't even know that he was a rich second generation. Have you ever seen a rich second generation wearing underpants and cursing in the corridor, lying down, clapping his toes and even putting his nose up to smell?

If it wasn't for the time when he was jealous of a female classmate at a bar outside the school and bought the bill for everyone, no one would have known that he was a rich second generation.

After that, the female classmate that he was jealous of left with another handsome male classmate. At that time, he still believed that love was more important than material things.

That female classmate even apologized to him before she left, and this rich second-generation student also paid for her loneliness.

At that time, they were shocked to realize that this guy was a rich second generation, and not an ordinary rich second generation.

He just didn't know if the female student who had left with the handsome male student would regret it one day if she found out his identity. and then he often said that he didn't agree to the pursuit of a rich second generation?

It seemed that there was a big Boss in China who was like this. In the past, when he failed to woo a woman, the woman later became an old lady. He often said on Weibo that the big boss had wooed her and that he had divorced her, as if he was hinting at something.

the big shot naturally expressed that he didn't know this auntie.

it was also because huang xin was a good person that after he was expelled, he decisively cut off all contact with the others in the dormitory and moved out to rent a house and live together with zhao mochen.

Huang Xin's face was filled with emotion when he saw Qin Lin. He stepped forward and gave Qin Lin a big hug."Qin Lin, you've really shocked me. You're really the boss of Linlin villa. Qin Lin, Zhao moyin, Linlin, I see."

There was even more admiration in his words.

In modern society, he was able to start a business like Linlin company from scratch. Even his father, Big Boss Ma, Big Boss Wang, and the others would admire him, right?

"Boss Qin, when boss Huang came to your city, he said he knew you and wanted to catch up with you." As Chen Li said that, he was a little surprised. They actually knew each other.

It seemed that boss Qin really knew a lot of rich people. Whether it was the two rich people Chen and MA, this was another rich second generation friend with a cash flow of 100 million.

However, after thinking about it, Chen Li's face revealed a happy expression. With this layer of relationship, he should have more confidence in keeping the 100 million investment.

Huang Xin looked at his old classmate, who had once shared a bed with him, and asked with a myriad of emotions, Qin Lin, when I saw the horse tamer little Qin, I really thought that you had graduated and become a horse tamer. Who knew that you would become a legend? how did you do it in such a short time? "

Qin Lin's family history couldn't be told to outsiders, so he could only make it up. it's all a mess. The key is that I have the support of the county. They gave me the first sum of money for expansion. Later, I got to know professor Li Kai and two other friends who are not short of money. That's how I got to this point.

Messing around?

Huang Xin naturally didn't believe him. If he could create a product like the Linlin company in such a short time, then wouldn't he be a billionaire? Who doesn't know how to mess around?

Mr. Qin, you're being too humble. Everyone in our County has witnessed your ability. Naturally, Chen Li did not believe boss Qin's nonsense. The county had seen boss Qin develop Linlin villa and Linlin food company step by step.

every step was not planned, and it was taken very steadily. he was not anxious for quick success. it could be said that sun xian was afraid of the other industries in the county falling, but he was not afraid of boss qin.

However, boss Qin said that it was all thanks to the support from the county. Wasn't this helping them?

This was something to be happy about.

"County Chen, I'm a little embarrassed by your praise." qin lin didn't want to dwell on this topic any longer, so he turned to huang xin and asked,"Huang Xin, where did you and teacher Chu go after that? I wanted to contact you, but I found out that your contact number has been canceled."

Huang Xin sighed and said, " sigh, teacher was pregnant at that time. I was just thinking of a way to deal with it, but who knew that such a thing would happen? I don't know who caused this in the dormitory, so in my anger, I deleted all my contact information. Out of sight, out of mind. I just took teacher away.

" after that, i registered my marriage with the teacher. after she gave birth and stopped breastfeeding, my family sent me and her to a famous school abroad to re-study. we also graduated this year. "

"That's good!" Qin Lin looked at the little girl beside Huang Xin and teased, you're a big celebrity in school. You should know that out of the top ten love stories on the forum, the story between you and teacher Chu has always been at the top. All the juniors know that there's a senior Huang who has wooed his teacher, and he sees you as a role model.

Chu Fei's face turned red when she heard this.

She was embarrassed about her past. She had just become a university teacher and felt that her view on love was very upright. She would not do anything ambiguous with her students.

Who knew that she couldn't stand her own student's prodding and fell for it? in the end, she even lost her life. Therefore, things like feelings were really uncontrollable. If she was impulsive, she wouldn't care if he was her student.

[Chapter 579 100 Million Yuan For Practice! Linlin Leisure Tea And The Asian Games](#)

"Huang Xin, do you know who did that now?" Qin Lin was a little curious.

The fact that the other party had thought of reminiscing with ye meant that he was definitely not the one who had done it.

Huang Xin nodded. yes, he joined the Student Union after I left. After graduation, he became a high-level executive in a company. However, I asked a friend to help him. He's now ruined and blacklisted in the industry. He's also in debt of millions.

Qin Lin roughly knew who it was, but he was a little surprised. The other party usually wore a pair of glasses and looked gentle and decent.

When he left, the other party even came to ask him about it and even tried to analyze who might have done it, reminding him to be careful.

Who would have thought of this?

On the other hand, the other party's reputation had been ruined by Huang Xin, and he only had himself to blame for being in a debt of several million.

Qin Lin didn't talk much about these unpleasant things. Instead, he asked curiously, "Huang Xin, what about you now? Why would he appear in your city?"

Huang Xin smiled and explained, "didn't you just graduate and return to China?" I don't want to go to the old man's company. I'm studying perfume and not real estate, so the old man gave me 100 million to start a business."

"Ran ran," Qin Lin.

"Bi an" Chen Li.

The two of them suddenly looked at each other, feeling as if they were being played by Versailles.

100 million for practice?

They really had different lives.

More importantly, this person's family was also in the real estate business? Wasn't this the same as Wang Yiyi?

Do these real estate bosses like to give their sons money to practice? It was either 500 million or 100 million?

The key was that these rich second generations of real estate bosses all looked like losers.

He could even imagine Huang Xin wearing a pair of underpants, holding his toes up and putting them up to his nose to smell. How the hell did he look like those rich second generation kids in TV dramas?

However, the fact that this old man, Huang Xin, was willing to give him 100 million Yuan to practice his skills was enough to show that the other party's family business was not small.

Qin Lin sighed. you rich second-generation heirs are really enviable. You're just starting with a hundred million. Aren't you afraid that you'll lose money? "

Huang Xin shook his head. then I'll just go back and inherit the family business. From this point of view, the old man should be eager for me to lose all my money.

"ran ran," qin lin.

"Bi an" Chen Li.

The two of them felt as if they had been struck by Versailles again. Why don't they give him a beating?

When everyone was lost for their future after graduation and fighting for a job, the starting point of others was to lose a hundred million Yuan and go home to inherit the family business.

huang xin said, " qin lin, i was hesitating whether to invest in you city. now that i see you're the owner of linlin villa, i've decided to invest in you city. "

if you city can accommodate a self-made monster like you to start a business like Linlin company, then the investment environment must be good. You city must have potential.

When he heard this, Chen Li's face subconsciously revealed a happy expression.

He had completed sun Xian's mission just like that?

don't worry, Mr. Huang, " he promised hurriedly. you won't be disappointed if you invest in you city.

"then i'll go to your county tomorrow to discuss it in detail," huang xin said with a smile.

alright, then I won't disturb Mr. Huang and boss Qin's reminiscing. I'll go back and prepare for tomorrow's discussion! Chen Li immediately said. Then, he bade farewell and left in a hurry.

This 100 million investment was not a small project. He had to be anxious.

it seems like you city really values investors. Huang Xin said as he watched Chen Li leave in a hurry.

"County Chen and County sun are both good people." Qin Lin spoke the truth.

Although Linlin Manor had relied on the system to develop to its current state, the county's support and attitude were indeed very good.

After that, Qin Lin and Huang Xin talked about many things that happened during their university days. As they chatted, Huang Xin started to talk about his daughter.

The little girl's name was Huang Ling, and she was very cute.

At the same time, he felt that Huang Xin was in Versailles. After all, he had a daughter in college, and the child would be a few years old by the time she graduated. He kept asking him when he and Zhao Moyu would have a child.

If this wasn't Versailles, what was it?

Just as the two sides were chatting, Chu Feng's senior brother suddenly rushed in. "qin lin, do you have any more of these? your sister-in-law asked me to send some back to her. oh, this is yingluo. she looks familiar! "

"So brother Chu is also in you city!" Huang Xin recognized Chu Feng. Although he hadn't joined Qin Lin and Chu Feng's Club, he had been dragged along by Qin Lin to be a able-bodied man during Chu Feng's romantic confession to the entire school.

This senior brother Chu was an influential figure at that time.

"Senior brother Chu, this is Huang Xin. Both of you are the male leads of one of the top ten love stories in the University Forum," Qin Lin introduced.

you're a romantic confession. Huang Xin is the one at the top of the list. The one beside him is the female lead, teacher Chu.

"F * ck!" Chu Feng was immediately astonished.

This was a God.

Have you ever seen a teacher-student relationship so fierce? not only did she hook up with her own teacher, but she also left with her teacher when she was expelled?

"I remember that brother Chu is a law student, right?" Huang Xing suddenly asked.

"Senior Chu is now a senior lawyer in the Quan ye law firm, you'll be a business partner soon," Qin Lin explained.

Huang Xing's face lit up, " I know Quan ye law firm. It's the most well-known law firm in the country. It just so happens that I need a lawyer for my investment this time. Since senior brother Chu is here, I wonder if you can help me. It will save me the trouble of looking for a lawyer outside to come to you city.

[Chapter 580 100 Million Yuan For Practice! Linlin Leisure Tea And The Asian Games](#)

Qin Lin said again, " senior brother Chu, Huang Xing plans to invest 100 million in you city. There should be a lot of legal documents involved. If it doesn't affect your vacation in the villa, just do it.

"What are you saying? It definitely won't affect anything." Chu Feng immediately smiled and said. To be honest, a hundred million investment was no small business.

Even if they didn't have this relationship, there was no reason not to accept this free business.

He suddenly remembered the reason why he was here and hurriedly said to Qin Yang,"Qin Lin, your sister-in-law wants a cucumber salad. I'll transfer the money to you."

"Brother Chu, someone said that only a fool would buy this cucumber," Qin Lin teased.

"I'm that idiot." Chu Feng decisively admitted this fact and said, " as long as there's a cucumber salad, it's fine. If I don't mail it back now, I'm afraid that your sister-in-law won't let me sleep with her.

sure, " Qin Lin said with a smile. since senior brother Chu is so sincere, I'll ask them to leave some for me when we pick the cucumbers for the beauty in the afternoon.

"Good brother!" Chu Feng didn't care whether he was a fool or not. As long as he could complete his wife's task, it was fine.

"Senior brother Chu, please show Huang Xin around the villa for me. I'll prepare some ingredients and serve you tonight," Qin Lin said with a smile.

"The emperor's supreme set meal?" Chu Feng's eyes brightened.

the best food he had ever eaten in his life was qin lin's supreme emperor set meal. he couldn't forget it after eating it.

"en!" Qin Lin nodded with a smile.

Chu Feng immediately said, " Qin Lin, don't worry. Leave Junior Brother Huang Xin to me. You can prepare the ingredients at ease.

After that, they left the office and asked brother Chu to show Huang Xin around the villa. He went to the warehouse and took out a batch of quality 2 items from the game. Then he brought them to the villa and handed them to Master Lin for safekeeping.

That night, he asked Master Lin to prepare another Supreme Emperor set meal for Huang Xin. This meal had clearly shocked the rich second generation Huang Xin.

Huang Xin exclaimed in surprise. He turned to Master Lin and said, I finally know why you call it the emperor's supreme set meal. This chef's cooking is even better than a three-star Michelin chef's. I've never eaten this kind of food in those Michelin restaurants.

Master Lin was obviously a little disdainful when he heard that it was a three star Michelin chef. He said, " "a michelin company's tire maker, what kind of food can he cook? there was a three star michelin master named lev mirov who came to our villa to challenge us. in the end, he still lost and left with his tail between his legs."

"ladas? Is that true?" Huang Xin was shocked when he heard this. He studied in the West and often went to high-class restaurants because he didn't lack money, so he had some understanding of Michelin three star masters.

He was one of the top Western chefs in the world.

This radas was one of the 10 Michelin Masters. Recently, his strength had increased and he had defeated other Michelin Masters in a row. He was on the verge of becoming the most awesome Michelin master.

And now, the best Michelin chef had failed at Linlin villa and left?

"how could it be fake? i took a picture of it." As Master Lin spoke, he actually took out his phone, opened a video, and handed it to Huang Xin. In the video, it showed how radas apologized respectfully after losing the competition, and then left in a dejected manner.

"It really is Ardas." Huang Xin's face was filled with shock. It should be known that radas 'cooking skills were very popular in the shij O nation, and he was even faintly regarded as the number one chef in the world by the people of the shij O nation.

If the people of the Hoshino found out that Lev Mirov had apologized for losing his cooking skills in Linlin Manor, what would those arrogant fellows think?

At night.

qin lin ordered someone to arrange a bridal chamber for huang xin's family. the next day, senior brother chu accompanied huang xin to the county to discuss the investment.

Huang Xin's major was in the field of integrated perfume, so he wanted to invest in the construction of a perfume company and create his own brand.

This was not an easy task. After all, there were many perfume brands on the market.

However, it seemed to be easier for Huang Xin to start a perfume brand than others. After all, he had 100 million Yuan at the start.

When Qin Lin was delivering the in-game items to the villa, Deng Guang, who was so busy that he could not be seen, came to find him.

"Old Deng, you've been working hard recently." Qin Lin pulled Deng Guang to the tea table and sat down. He took out a Grade 2 wild Tieguanyin and personally made a pot of tea for him.

Linlin leisure tea had found several agents in other provinces. Therefore, the factory in ning city had expanded again during this period. Deng Guang had been so busy in ning city that he could not be seen.

"This is what I should do." As Deng Guang spoke, he took out a stack of tickets and placed them on the tea table. Mr. Qin, these are the tickets for the Asian Games. Didn't we sponsor the Linlin leisure tea for the national team? the tickets were sent here, and they are the best front row viewing tickets. Do you have anyone who needs tickets to watch the Asian Games? "

Qin Lin didn't pay attention to this matter and had almost forgotten about the sponsorship of Lin Lin leisure tea for the Asian Games. He didn't expect that the other party would return the favor by sending these tickets.

Looking at the tickets, he called Zhao mochen, his mother, and his mother-in-law to ask. After finding out that no one wanted to go, he also said to Deng Guang,"i don't have time to go either. you can deal with these tickets as you see fit."

Deng Guang nodded. okay, then I'll take it as a reward for the outstanding employees. Let's organize a party for them to watch the Asian Games!

"En!" Qin Lin had no opinion on this.

However, he was looking forward to the Asian Games.

After all, the Linlin leisure tea had the attribute of recovering strength and stamina, which would definitely be of great help to those long competition events.
