

The Game 991

[Chapter 991 Returning Home To Inherit The Family Business! A Happy Elephant That Can't Grow Up 3](#)

If he couldn't figure it out by the time he set, it would be impossible for him to build the world's number one drifting, so he would go home and inherit his family business.

He didn't want to go back and inherit the family business.

He was a man with dreams and pursuits.

Qin Lin didn't know that Chu Ye was one of his employees. After the meal, he chatted with Liu Yi and the others for a while before returning to the villa.

Naturally, he had someone send Liu Yi a bottle of Linlin medicinal wine.

He didn't lack the Linlin medicinal wine now. Since Liu Yi had asked for it, he could sell him a bottle.

The next day.

Lasda and Master Lin brought a young man to the manor's office. The young man was still wearing a chef's uniform. He looked excited and nervous when he looked at Qin Lin.

Lasda was going back to inherit the family business, so the head chef of Linlin Manor naturally had to be chosen. At Master Lin's age, he was also doing very well in the manor, so he couldn't go back.

This young man was the new head chef that Lasda had recommended. His name was Zhou Xing, and he was the best Chef he had taught at the restaurant.

Master Lin was in charge of the kitchen, and he had agreed to let Zhou Xing be the head chef of the restaurant.

Naturally, Zhou Xing was very nervous. After all, being the head chef of Linlin Manor would mean a meteoric rise. The salary and bonus alone would be higher than those of other restaurant owners.

Furthermore, after becoming the head chef, he would be able to handle high-quality ingredients like Mr. Lasda and Master Lin. As a chef, how could he resist the temptation of those ingredients?

most importantly, if you were a head chef at linlin villa, people would look up to you and look up to you.

Don't talk about vanity, if there really was such an opportunity, who wouldn't fight for it?

Qin Lin was also looking at Zhou Xing's resume. Zhou Xing was originally hired by Master Lin as an assistant chef.

An assistant chef's cooking skills were uneven. An assistant chef in a small restaurant might only be an apprentice, while an assistant chef in a 5-star hotel might be able to easily become a chef outside.

Later on, Lasda arrived, and Zhou Xing was arranged to learn cooking from him. Moreover, he was already good at cooking, and he was willing to work hard, so it was much easier for him to learn than an apprentice.

zhou xing's food was good both in western and chinese cuisine. at least, he was much better than the chefs outside. with the better ingredients in the villa, he could be the head chef.

"Go and make a few dishes!" Qin Lin ordered Zhou Xing after he finished reading the resume.

"Okay, President Qin." Zhou Xing understood his boss's intention. This was also his last test. He immediately suppressed his excitement and followed Master Lin out. Sometimes, one needed to be calm to control the heat better when cooking.

Soon, Qin Lin was also able to taste Zhou Xing's dishes. Although the ingredients were the same, Zhou Xing's dishes couldn't be compared to lasda's, but they were still slightly better than Master Lin's.

&Nbsp; from this, one could see how good lasda was at cooking. In such a short time, his disciple was already so good. It was a pity that he would have to go back and inherit the family business.

in the end, qin lin agreed to master lin and lasda's recommendation to let zhou xing be the head chef of the restaurant.

After the three of them left, Qin Lin looked at the game in his mind. He was about to control his game character to mine when he received a call from Li Fei.

He guessed what was going on and immediately picked up the call. Li Fei's voice came through, "Chairman Qin, the big-eared elephant Cub that you wanted to buy has already arrived in the country and will be shipped to Ming city soon. I'm just letting you know in advance.

Qin Lin's eyes lit up when he heard this. The baby elephant had been waiting for a while, and he could finally get the happy elephant out.

He also looked at the game in his mind and controlled the game character to go to the farm. In the farm, some of the happy elephants were already pregnant.

an elephant's pregnancy age was 10 to 20 years, which was just right according to the time ratio between the game and reality.

If the elephants were transported to Ming city, the happy elephants would have given birth. Would he not need to go to the ranch NPCs to buy Cubs anymore?

What surprised him was the size of the happy elephant.

Because the size of these happy elephants in the game was not big, they were all pregnant and compared to normal elephants, they were a little small and cute.

[Chapter 992 Exciting News! These Elephants Are A Bit Special! 1](#)

In the office.

Qin Lin controlled his game character to finish today's daily tasks and then came back to his senses from the game. He took out his mobile phone and looked at today's Short Video news.

Watching the news was also the best way for everyone to understand the world and the latest current affairs so that they would not be out of touch with the world.

After browsing the news for a while, Qin Lin saw two big pieces of news.

One is that our country's third aircraft carrier has been launched.

The second is that our country's deep space exploration rocket is already in preparation for launch.

The first piece of news was naturally exciting. It represented the country's growing strength.

The second piece of news was related to him.

this was because the deep space exploration rocket was the masterpiece of academician Zhu and his team.

Deep space exploration rockets were the most basic transportation technology for humans to enter space.

Humans had already successfully landed on the moon, and even astronauts could take photos in space in spacesuits.

However, it was still far from the real space era or even the interstellar era.

Without deep space exploration rocket technology, this so-called space era and interstellar era would never be possible. After all, you didn't even have the ability to explore deeper into space.

The research of academician Zhu and the other two made all of this possible. It also allowed their rocket technology to completely surpass the Western world for the first time.

This was definitely more exciting news.

After all, this was the first time they had surpassed the Western countries in this level of technology.

Qin Lin smiled as he watched the exciting and proud comments under the News video.

They were a giant dragon of the East, and once they took off, no one would be able to surpass them.

A giant dragon was destined to look down on everything.

Qin Lin remembered what he had to do and gave Yang Dong a call. "How's the recruitment of an elephant breeder going?"

The young elephant that Li Fei had contacted for them had arrived. After the young Happy Elephant had been exchanged, Linlin Ranch naturally had to make preparations to raise the elephant.

Zookeeper must be recruited first.

Yang Dong reported, "boss, we only found one. The domestic elephant market is small, and there are still very few elephant breeders. It's even harder to find a good one. This one was poached from Xia city. When the time comes, we can only choose two more clever ones from the ranches and let them train them.

Qin Lin also understood this. There was almost no market for elephants in China, especially in inland cities. Elephants could only be seen in large parks.

In fact, 90% of the people had never seen an elephant in reality.

Two days later.

Qin Lin received another call from Li Fei, informing him that the batch of elephant Cubs was about to arrive.

He left the manor and went to Ming city. He rented another remote warehouse without surveillance cameras, then called Li Fei and gave him the address.

Ming City Airport.

Li Fei had been waiting for a long time. Even though the transport plane for the baby elephant had not arrived yet, he did not dare to slack off when he was working for boss Qin.

Elephants were generally transported by ship. The cost of transport was a bit high, but in order to get things done as soon as possible, he didn't care about the transportation fee.

As a transport plane landed, Li Fei was also notified.

after the baby elephants got off the plane, he asked the prepared transport team to load the baby elephants. then they left the airport and went to the warehouse that chairman qin had mentioned.

Although he was curious as to why Chairman Qin wanted him to transport the elephant to that remote warehouse, he didn't need to find out since the big shots always had their own reasons for doing things.

Otherwise, he was trying to please Chairman Qin. If he asked too much, he might be annoyed.

Li Fei quickly led the transport team to the warehouse Qin Lin had mentioned and met Qin Lin outside.

"Chairman Qin!" Li Fei greeted Qin Lin as soon as he saw him. "The baby elephants are in the car."

"Unload all the baby elephants and drive them to the warehouse!" Qin Lin nodded.

"Alright!" Li Fei quickly got the men in charge of the transport to work, and it took them some time to transport the baby elephants into the warehouse.

After the people transporting the elephants left, Qin Lin said to Li Fei, " Mr. Li, thank you for your help this time. I'll have a batch of whole snow, beef, and Linlin rice in a few days. I'll call you when the time comes. By the way, the villa has recently increased the production of new vegetables, so I can supply you with more luxury products every month.

"Thank you, Chairman Qin. I won't disturb you any longer." Li Fei's face lit up.

To the business that he was doing, giving him this kind of stuff made him happier than anything else.

then I won't waste your time, " Qin Lin said. I'll wait for you city's people to come.

"Alright, Chairman Qin." Li Fei replied and immediately left.

He still listened to the chairman's words. At this time, if he acted smart and said that he wanted to stay and wait with Chairman Qin, he might be flattering the horse.

Since Chairman Qin asked him to leave, he might have something else to do and didn't want outsiders to know.

After Li Fei left, Qin Lin immediately entered the warehouse and locked the door. After repeatedly making sure that everything was fine, he began to switch jobs.

There were seven baby elephants in this batch, and he needed to exchange them for seven happy baby elephants.

Qin Lin brought the seven baby elephants from the warehouse into the game farm in one go, then headed to the farm.

He had long since sold the happy elephants that grew up on the ranch and replaced them with Happy Elephant Cubs.

Two of the happy elephant Cubs were obviously bigger than the other Happy Elephant Cubs.

[Chapter 993 Exciting News! These Elephants Are A Little Special! 2](#)

These were the young of the previous batch of happy elephants. They had been in the game for a long time, and the reason why they were not sold was naturally because they were more special and of better quality.

Qin Lin stepped forward and touched one of the happy elephant Cubs. He saw the remark:

"Happy Elephant: Grade 2"

[this is the offspring of a special elephant found in the goddess mountain by ore town: Gentle personality +2, intimate human +2, humorous +2, intelligent +2, communication +2, triggered happiness +2!]

Two of the happy elephant's Cubs had mutated and were of Grade 2, which was why he had kept this one.

It could be said that he was very lucky this time.

In the past, when he grew watermelons, a plot of land might not even produce a quality 2 watermelon.

With a thought, Qin Lin brought the happy elephant out of the game. Then, with another thought, he entered the game again. He repeatedly brought the seven Happy Elephant Cubs to reality.

These happy elephants were a little confused when they saw the sudden change in their environment. However, they were smart and followed Qin Lin. They kept reaching out their trunks to Qin Lin to please him.

Qin Lin walked out of the warehouse and opened the locked door. The seven happy elephants followed him out.

However, they didn't run around. They still followed Qin Lin closely. Because of the game's characteristics, they naturally recognized Qin Lin as their master.

the two grade 2 happy elephant cubs even walked to qin lin's side.

One of them squatted down and barked at Qin Lin, while the other one wrapped its nose around Qin Lin's waist and lifted him up, placing him on the back of the squatted Cub.

The squatted Cub finally got up and carried Qin Lin on its back, as if to express its happiness.

Intelligence +2 was indeed a little different.

Qin Lin also smiled and touched the happy elephant under him. "I'll bring you to live in your new home later."

As if it had heard Qin Lin's words, the happy elephant under him raised its head and cried out, as if in response.

Then, the other happy elephants also started to cry out in unison.

His ability to communicate with people was just as good.

In other words, this was probably what the internet meant by animals turning into spirits!

About an hour later, Zhao Liyuan arrived with his team. He was going to transport the happy elephants back to Linlin farm. Naturally, he had asked Zhao Liyuan to do the transportation out of habit. He had also informed Li Fei when he arrived.

When Zhao Liyuan arrived, he saw the happy elephant Cubs and knew what he was going to do. He got out of the car and ordered his men to work.

He quickly felt that these baby elephants were a little unusual. They all looked very cute and stupid. He didn't know why, but looking at them made him feel a sense of joy.

There were many videos on the internet about pets showing silly and cute expressions that were captured by their owners. The animals in these videos could melt people.

However, it was impossible for those pets to maintain that silly and cute appearance all the time. They were only captured by chance, but the elephant Cubs in front of him seemed to always maintain that silly and cute appearance.

It was really amazing.

Zhao Liyuan's employees had already started to build a slope for the cars.

They didn't bring a crane. To load the baby elephants, they had to build a ramp and pull the baby elephants onto the truck.

After a car's ramp was built, two of Zhao Liyuan's employees walked towards a Happy Elephant Cub. Just as they were about to put a rope on it and pull it into the car, something that shocked them happened.

The happy elephant Cub actually moved its two big ears and walked towards the car. It went onto the side road and got on the car. Most importantly, it even barked a few times at the two people who were going to tie it up, as if saying, " why are you guys not following me? why are you in a daze? "

Zhao Liyuan's two underlings were not in a daze, but rather dumbfounded. They simply could not describe their current feelings.

What was going on?

Soon, everyone noticed the difference between these elephant Cubs.

No matter which baby elephant it was, the only thing they needed to do was to put a rope on it. They seemed to understand and actually walked towards the side path.

There was no need for them to do anything.

"Chairman Qin, these elephants are too smart." Zhao Liyuan's face was full of emotion.

They were in the transportation business, what was the most difficult order to take? When there was no crane, it was the most difficult task to transport these large animals.

It was a strenuous task to load these animals into the car.

As long as the transportation place was far away, it was impossible for them to bring the crane, and the transportation cost of the crane alone was huge.

Now, these elephant Cubs didn't need them to do anything at all. They actually walked up to the car on their own. They could only say that they were too smart.

Then, he thought of Qin Lin.

With Chairman Qin's status, he could personally transport this batch of baby elephants, which showed that these baby elephants were different. It wasn't strange for them to be a little smarter.

Otherwise, Chairman Qin wouldn't have come personally. Anything that could attract Chairman Qin's attention must be extraordinary.

Zhao Liyuan saw that the elephant was already on the carriage and ordered his men to get a rope. They had to secure the elephant before transporting it. Otherwise, if the elephant was provoked by something, it would run around in the carriage, which was very dangerous.

Zhao Liyuan personally boarded a carriage.

The elephant in the carriage was one of the two larger ones.

He took a thick rope and tied one end to the car buckle. After that, he was about to grab the other end of the rope when he was stunned.

[Chapter 994 Exciting News! These Elephants Are Somewhat Special! 3](#)

The elephant in front of him was actually using its trunk to wrap around the other end of the rope. It was staring at him stupidly and even handed the rope to him.

zhao liyuan opened his mouth.

He only felt that the scene in front of him was very strange.

He wanted to fix the elephant in place, but it handed him a rope?

What surprised him even more was that when he tied the rope to the elephant's body, the other party was surprisingly cooperative. It was simply incredible.

After packing up the happy elephant Cubs, the transport team set off again, bringing the happy elephant Cubs back to you city.

In the evening, the happy elephant Cubs were also transported to Linlin Ranch.

Yang Dong was already waiting with some of the farm's staff.

most of these employees were farm workers, who were responsible for all kinds of transportation, cleaning the farm, maintaining order, and other things.

there were too many things, and it was not easy to classify them individually, so they were collectively called handymen.

Naturally, the wages of handymen were also very high, a lot higher than the waiters in the tent area.

Yang Dong brought three people with him to welcome them.

He had an impression of two of them. They were probably former employees of the ranch. He had seen them before.

He had never seen the other man before. He was in his forties, but he was wearing a flowery shirt and a straw hat.

Wasn't this the Pirate King Luffy?

Therefore, no matter how old a man was, it was inevitable that he would have a child's heart at times.

The Luffy middle-aged man was also surprised when he saw Qin Lin unloading the car. He asked Yang Dong, "Manager yang, I think that's professor Qin junior from Linlin's laboratory,"

"He's still the boss!" After Yang Dong said that, he hurriedly went up to Qin Lin. "Chairman Qin!"

Luffy's mouth was wide open when he heard Qin Lin's identity, but he could only follow Yang Dong subconsciously.

"Mr. Qin, this is Lu Fei, the breeder we hired." Yang Dong also made an introduction immediately.

"Welcome, I'll leave these elephants to you in the future ..." Qin Lin looked at Lu Fei, who was wearing a Luffy suit, with a strange expression.

"don't worry, chairman qin. i have a lot of experience in raising elephants." Lu Fei also hurriedly assured her, but his heart was still a little difficult to calm down.

The famous professor Qin junior on the internet was the boss of Linlin company? This was definitely a situation that the outside world was completely unaware of.

Zhao Liyuan had already led his men to chase the young happy elephants out of the car. And this time, just like before, the happy elephants were very cooperative.

After handing the baby elephants to the Linlin Ranch staff, he bade Qin Lin farewell and left with his men.

After the happy elephant Cubs came down, they raised their heads and looked at the farm. It was the endless dog tooth grass farm that attracted them.

They seemed to know that this was the new place they were going to live in and were very satisfied. They raised their heads and called out happily.

This sudden action made Yang Dong and the others nervous.

Lu Fei seemed to want to prove his professionalism and hurriedly said, " don't worry. Elephants are like other animals. They'll be uneasy when they're new to an unfamiliar environment. They should be like that now. In this case, they'll be very irritable and need to be pacified. Otherwise, it'll be difficult to let them into the pasture.

he was very confident in this.

after all, he had raised the elephant for so many years. if he didn't even have this bit of judgment, then he would have raised the elephant for nothing.

However, just as he finished speaking, the happiness seemed to have taken a unique and magical step and walked into the pasture by itself.

" ? ? ? ? "Lu Fei was stunned.

[Chapter 995 An Elephant's EQ Is Higher Than A Human's?](#)

Lu Fei immediately felt that these elephants were acting him.

This didn't make sense.

"Chairman Qin, these elephants seem a little different." Lu Fei could only say this in embarrassment.

"Yes, take them to the elephant shelter." qin lin didn't reprimand him. after all, he knew what happiness was.

Lu Fei did not dare to hesitate. He immediately led the two breeder apprentices assigned to him forward to lead the elephant Cubs.

As soon as he saw his boss, he made a big embarrassment in his profession. He had to perform well and not be regarded as incompetent.

Pulling an elephant forward was also a technical skill.

Just as he was about to show off his abilities, he was shocked to find that the elephants were surprisingly smart. He didn't need to pull them. As he walked forward, the elephants followed him.

Even the two breeder apprentices assigned to him, who had no experience in this at all, could easily lead the elephant forward.

The more he thought about it, the more he felt that something was wrong with these elephants.

The elephant's house was not built specifically. When the ranch was built, many extra buildings were built in the ranch so that when the animals were added, these buildings could be transformed into animal houses.

The Elephant House had already been modified.

Qin Lin did not ask anyone to plan the specific activity area of the elephant.

After all, they were docile and close to humans. It was impossible for the happy elephants to harm humans unless the tourists really did something unforgivable to them.

However, if there were such people, the security guards would immediately subdue them and hand them over to Captain Hong.

After leading the seven baby elephants to the Elephant House, Lu Fei said to the two breeder apprentices, as if to make up for his previous failure, "after elephants move to a new environment, they will have a loss of appetite for some time. This is the discomfort caused by the new environment "

Lu Fei was stunned again.

When he was talking, the seven elephant Cubs had picked up a handful of Dogtooth grass with their noses and put it into their mouths, chewing it with great relish.

The two breeder apprentices looked at their master in shock.

This seems ...

Lu Fei naturally noticed the gazes of the two breeders, which made him even more embarrassed.

He seemed to have lost face again.

It was fine to lose face in front of the two apprentices, but to lose face in front of the shop owner twice in a row was a bit unreasonable.

when he applied for the job, linlin ranch paid him a high salary. did they think he was a scammer?

lu fei looked at the happy elephant cubs with resentment.

He felt like he was being played by a few elephants.

The two happy elephants seemed to feel Lu Fei's resentful eyes.

They seemed to be very sensitive to this kind of gaze. One of them even used its nose to roll up a bunch of dog teeth grass and handed it to Lu Fei, as if it wanted to share it with him.

" ? ? "Before Lu Fei could react, the other Happy Elephant Cub rolled up a bunch of green Fang grass and handed it to him.

What did that mean?

Two elephants were going to feed him grass?

While Lu Fei was still in a daze, he saw a Grade 2 Happy Elephant Cub behind him. It stretched out its long nose and rolled down Lu Fei's straw hat. Then, it put it in its big ears at an incredible speed and lowered its head as if nothing had happened.

from the outside, it was impossible to see the straw hat hidden in the big ears.

Qin Lin and the others saw this clearly, but Lu Fei didn't.

When he realized that the hat on his head was gone, he quickly turned around, but only saw an elephant Cub with its head lowered as if it didn't know anything. There was no one else.

He didn't even see where his straw hat was, which made him dumbfounded.

What was going on?

he only felt that his state of mind was a little off.

At this moment, the baby elephant looked up at him, rolled up the hat under its big ears, and put it in front of Lu Fei.

it even opened its mouth and showed a happy expression. it barked at lu fei, as if asking how its performance was.

"Magic?" Lu Fei was numb!

Was this a magic show by a baby elephant?

Yang Dong and the breeder apprentice were so amused that they laughed. They had seen the scene just now and never thought that an elephant would do such a thing.

Lu Fei was even more embarrassed. These elephants were not the elephants he knew.

An elephant shouldn't be like this.

There must be a problem somewhere.

Seeing the embarrassed Lu Fei, Qin Lin said again, " Master Lu, these elephants are very different from normal elephants, so you can't treat them the same way you treat normal elephants. You have to understand them more and do more research. I'll leave them to you in the future.

Lu Fei knew that the boss was giving him a way out, so he immediately agreed. "Don't worry, Chairman Qin. I won't let you down."

At the same time, he felt inexplicably emotional. Without Chairman Qin's words, he would have been really embarrassed this time.

Chairman Qin was definitely a good boss.

After Qin Lin handed the happy elephant to Lu Fei, he also called Lin Lanzi over.

Since Happy Elephant had been moved to Linlin Ranch, the villa naturally had to be promoted.

Lin Lanzi knew what she was going to do when she arrived at the farm and saw the elephants.

If Linlin villa and Linlin Ranch had a new project, they naturally had to promote it well.

[Chapter 996 An Elephant's EQ Is Higher Than A Human's?](#)

She immediately called for the media department to start filming the elephant Cubs.

But what surprised her and the cameraman was that the elephant Cubs were very smart and knew how to cooperate with them.

More importantly, they were actually very photogenic. One by one, they were all so stupid and cute that they could make people laugh and put them in a good mood.

The elephants brought in by the ranch seemed to be very special.

She naturally didn't know that this was caused by the attribute of happiness.

Even if they didn't do anything and just let you look at them, it could also trigger happiness.

This was definitely a heaven-defying attribute for a scenic elephant.

At night, Lin Lanzi led the people from the multimedia department to finish the promotional video of the elephant and upload it.

It was the prime time at night, so there were more fans watching Short Video on their mobile phones.

Many fans had seen the promotional video.

however, most of the fans didn't take the publicity seriously. after all, although elephants weren't big in the domestic market, they were still common in tv and movies.

therefore, the elephants in linlin ranch were too ordinary compared to other animals, especially the gym pigs.

Chen Xue was one such example.

She knew quite a bit about the Linlin villa, and had even worked as a summer worker there. Naturally, she knew that there were many magical things in the Linlin villa.

Now that there were elephants in the ranch, it was like adding flowers to the brocade. Although the elephants in the video looked stupid and cute, everyone understood that the angle and timing of the video were good.

However, she still handed the phone to her dejected best friend next to her and said, " Yaya, look, we came just in time. There are more elephants in Linlin Ranch!

naturally, she was doing this to attract her best friend's attention.

The reason why she brought her best friend to you city was because she was being treated badly by a senior.

She had found out that the senior was two-timing.

Therefore, he wanted to take her on a tour of the Linlin Manor, to use the beautiful scenery of the Linlin Manor to make her walk out of her sorrow.

However, it was obvious that even the elephant could not attract her best friend.

Chen Xue could only helplessly sigh.

The next day, Chen Xue woke up her listless best friend early in the morning and went to Linlin Ranch together.

she was familiar with Linlin villa and knew that if she was late, she would have to queue for a long time to buy a ticket.

She had come to Linlin farm because she knew that entering the farm and seeing the vast green grassland would make one feel relaxed and happy.

For people who were in a bad mood, this would help them forget their sadness.

Sure enough, she noticed that her best friend's mood was much better after they entered the ranch. Especially after seeing the gym pigs, she was obviously amused by them.

"Yaya, isn't this Linlin Ranch beautiful?" Chen Xue didn't forget to tell her best friend.

"En!" Yaya nodded subconsciously.

After playing for a long time, the two of them arrived at the newly added elephant area.

There were also many tourists here.

However, compared to the gym pig, there were far fewer people.

However, after seeing the baby elephants, Chen Xue realized that something was different.

Why did these elephants look so silly and cute, making people feel happy at first sight?

It seemed that the promotional video last night was not shot from a chosen angle, but that the elephants were really so stupid and cute.

"Lin Hong, these elephants are so cute."

"Chu Chu, do you think so too? What a pleasant surprise."

At the side.

A pair of men also looked at the elephant Cubs in surprise.

It was just that this man and woman clearly came to the scenic Area to play together, but they were not close together. Instead, there was some distance between them, and they did not seem intimate.

Seeing this, Chen Xue understood.

This man must be pursuing a woman, and from the looks of it, the woman also had a good impression of the man, but she hadn't exposed him yet.

As for why she knew?

It wasn't like she had never been pursued before, and it wasn't her first time in a relationship either.

This couple, on the other hand, seemed to be in a relationship for the first time.

The man was even more embarrassed. He was clearly peeking at the girl from the corner of his eyes, but he had to pretend to look at an elephant. He chatted casually, "This elephant seems to be growing faster than the others, and it's bigger."

The larger elephant seemed to be getting impatient from being stared at and suddenly ran to the man and woman.

There were no guardrails in the elephant area, and both men and women were shocked.

The elephant suddenly raised its long nose and pushed the woman. The woman was shocked. Before she could react, she was pushed into the arms of the man.

By the time the two of them reacted, the elephant had already turned around and walked away, wagging its tail.

The man and woman's faces were a little red.

Chen Xue was stunned by this scene. Were these two guys so coy that even the elephant couldn't bear to watch?

The man hugged the woman. He wasn't too stupid. Seeing the situation, he also said ruthlessly, "Chuchu, I actually like you very much."

Hearing this, the woman became even more embarrassed. Instead, she asked, "Can you promise to treat me well?"

Chen Xue was stunned as she watched from the side. This was really like an elephant aging.

More importantly, was this woman stupid? Could a man's promise be trusted?

She was a woman who was in love for the first time.

"Wuwuwu!"

Just as Chen Xue was thinking about this, she heard someone crying beside her. It was her best friend.

She immediately thought to herself that this was bad. Wasn't this just like stuffing dog food into her best friend's mouth? Her best friend was the scumbag.

[Chapter 997 An Elephant's EQ Is Higher Than A Human's?](#)

This sudden cry was a little violent, and the man and woman were shocked. They looked at each other and left silently.

Yaya, don't cry. Chen Xue didn't know how to persuade her.

At this moment, she saw an elephant Cub walking towards them. The elephant was her crying best friend.

when yaya saw the elephant, she stopped crying. even though she was very sad, she had a strange feeling when she saw the elephant's cute and stupid look. she wanted to cry, but she also wanted to laugh.

"Swish!"

The baby elephant suddenly cried out, and the next moment, the other elephants ran over.

The young elephant suddenly lowered its head, rolled up a bunch of grass, and handed it to Yaya.

The grass seemed to be for her.

Seeing this, Yaya forgot to cry.

before she could react, the other six elephants also donated a bunch of grass and handed it to yaya, then looked at her with a silly and cute look.

This time, Yaya finally burst out laughing.

No matter how much he was a scumbag, no matter how sad he was, he was now amused by the happy elephant and subconsciously wiped his tears.

Chen Xue was completely stunned by this scene.

These elephants were too smart, weren't they?

Not only did they know how to matchmake others, but they also knew how to make people happy together?

The key was that her best friend, who she had tried to persuade the entire night, was actually amused by these elephant Cubs.

He was too smart.

The tourists around them were obviously attracted by it.

Everyone suddenly felt that it was unbelievable.

These elephants were a little magical.

Something even more shocking happened. One of the bigger elephants seemed to have discovered something and ran towards a couple with a very magical pace.

The couple had been watching from the side, and the woman was holding a large bouquet of roses.

When the grade 2 Happy Elephant ran over, the couple was stunned for a moment. However, after witnessing the scene just now, the two of them did not know why they were not afraid of the elephant at all.

The woman even greeted the grade 2 Happy Elephant, "Hello!"

"Swish!" The grade 2 Happy Elephant responded with a meow and grinned happily. It then pointed at the bouquet of flowers in her arms with its long nose, as if it was asking.

"It's Asking for Flowers?" The woman asked the man beside her in surprise. She even subconsciously handed the flower to the grade 2 Happy Elephant.

The grade 2 Happy Elephant did not stand on ceremony. It rolled up the bouquet and ran to Yaya, handing her the flowers.

Yaya was so happy that she covered her mouth. She suddenly felt that she was very lucky today.

Who could be comforted by a group of elephants when they were unhappy?

An elephant could even send her flowers?

She couldn't help but hug the grade 2 Happy elephant's head. The grade 2 Happy Elephant didn't react and was very cooperative with her.

The woman who was asked for flowers was equally shocked. "Hubby, it's so smart. It knows how to present Buddha with borrowed flowers."

Indeed, who among the surrounding tourists wasn't shocked?

It was said that animals had turned into spirits. These baby elephants were really animals. Otherwise, how could they do such an incredible thing?

Whether it was to make people laugh or to know how to lend flowers and give flowers to others, most people probably didn't have such emotional intelligence.

[Chapter 998 Someone's Taking The Blame For This?](#)

The magic of the Linlin Ranch's elephants quickly spread among the tourists, and more and more people came to the elephant area to watch.

Because the happy elephant had the attribute of being close to humans, it was not afraid of crowds at all. On the contrary, because it conveyed the attribute of happiness, its casual actions could make everyone very happy.

Especially when they met unhappy people, they would actually roll up a bunch of grass and offer it to the other party. In addition to their stupid, cute, and happy attributes, they could always make people happy.

More and more people realized that the elephant was smart. When a girl asked for comfort and asked the elephant if she was pretty, the elephant actually responded.

The girl also said that it wasn't pretty to call out once, but it was pretty to call out twice. The elephant actually knew how to call out twice.

There were also girls who asked the elephants on the ranch for hugs. The elephants would actually use their long noses to wrap around her waist and use their heads to gently rub against each other.

This could only be said to be a demon.

The magic of the happy elephant was quickly spread on the internet. Moreover, the behavior of the happy elephant was completely in line with the potential to become popular.

With the popularity of Linlin villa, Happy Elephant exploded in popularity at the fastest speed in the next few days.

No matter if it was comforting a crying girl, answering questions, or asking for a hug, the video would receive countless likes.

naturally, the most frequent video was the one where happy elephant liked to roll grass with his nose and give it to people.

Almost every day, there would be videos of people being happy like delivering grass being filmed, which made people laugh.

Ming city.

Li Fei was in a good mood during this period of time, because he had gotten closer to Chairman Qin.

At least, it was not the first time he had gotten some snow, beef, and Linlin rice from Chairman Qin.

Moreover, Chairman Qin also promised to supply more new vegetables, so his Jinlin District could also be maintained for a long time and not be out of stock.

More importantly, Chairman Qin had already successfully developed and cultivated the Linlin rice. It wouldn't be as difficult to get Xiangshui tribute rice in the future.

"hubby, are these the elephants you brought in for chairman qin?" Lin Haiyan jogged over in surprise and handed the phone to him.

Li Fei took the phone in confusion and saw the news about Happy Elephant on the internet.

When he saw the news about the happy elephant, he was shocked.

These young elephants were too smart.

These were really the ones that he had brought in for Chairman Qin, and these two were obviously bigger. Were there two bigger ones among the seven?

He actually couldn't remember.

He had been so focused on how to please boss Qin that he didn't notice this.

Just as he was thinking about it, his phone vibrated. He saw that it was Chairman Qin's number and quickly answered, " "Chairman Qin, do you have any orders?"

Qin Lin's voice was also heard. quanxue, beef, and Linlin rice are here. Come over when you have time.

When Li Fei heard the news, he said anxiously, " "Chairman Qin, if you have any instructions, when will I be free?"

He didn't mention the meat and rice. These words were blurted out without thinking. For a thick and heavy thigh, he had to be prepared to hug it at all times.

Otherwise, if the leg was swaying in front of you, you would see the leg hair swaying in front of you, or even smell it, but you didn't have time to hold it, then it would be a waste of an opportunity.

Li Fei hung up and said to Lin Haiyan, " " honey, president qin called. he said he has snow, beef, and linlin rice. "

"Then hurry up and go, don't waste time." Lin Haiyan urged.

She naturally knew the importance of hugging his thigh tightly.

If this Chairman Qin had any instructions, they would do it immediately if they could. Not to mention, if Chairman Qin called to get the goods, they would have to rush over without stopping.

Li Fei nodded.

He immediately left for Linlin villa.

You city.

After Qin Lin hung up the phone, he drove the small truck out of the warehouse.

There were a few hundred kilograms of snow, beef, and Linlin rice in the car.

Li Fei was working for him, and he would not go back on his word. Moreover, after his recent days of happiness, as expected, he had also thought of something.

In the future, the happy elephant would not grow big, but its size would be too different from a normal elephant. He had to make some preparations.

Qin Lin transported the meat and rice back to the manor and asked the security guard to transport them back to the warehouse first. Then, he returned to his office.

After locking the door, he entered the game and once again headed to the goddess mountain to explore.

Two hours later, he reappeared in the office. His clothes were already stained with a lot of mud.

It was inevitable to explore the barren mountains and wilderness.

He took out a set of clothes from his office, entered the game again, and took a good shower in the ranch house.

In order to prevent such a situation from happening, he had prepared a lot of clothes in the office.

When he came out of the farm after taking a shower, he received a call from Li Fei. He only found out that Li Fei had arrived at the manor after he answered the call.

The other party's speed was indeed fast.

A moment later, he saw Li Fei again in his office.

"Boss Li, come and have a seat. Let's make a pot of tea first." Qin Lin welcomed Li Fei to the tea table and made him a pot of Grade 2 wild Tieguanyin tea.

"Chairman Qin, you've never gotten tired of drinking this tea." "Or rather, you won't be able to find such a good tea like Chairman Qin anywhere else," Li Fei said sincerely.

"Mr. Li, have you read the news about the elephants?" Qin Lin asked with a smile.

When Li Fei heard this question, he immediately nodded and said, "yes, those elephants are very smart."

"Mr. Li, are the elephants that you've brought in any different from ordinary elephants?" Qin Lin asked again. Our people did some tests and found that the elephant was a little different."

" ? ? ? "When Li Fei heard this question, he was stunned for a moment. He did not know how to react for a moment and hurriedly said, " "Chairman Qin, is there a problem with this batch of elephants? I'll go back and help you ask about it. "

Li Fei was a little anxious.

The elephants in Linlin farm were very popular now, but if something went wrong, he would have to take responsibility.

The key point was that Chairman Qin had Linlin's laboratory. There should be some problems detected, right?

This was his first time handling Chairman Qin's matter, so he couldn't mess it up.

Li Fei had thought of many things in a short time, and he felt that he was right.

Therefore, after he got the meat and rice from Qin Lin, he rushed back to Ming city as soon as possible.

as soon as he returned to the luxury goods store, he ordered someone to bring meat and rice and rushed into the office.

"Hubby, what's wrong?" Lin Haiyan asked, confused. You look like you're in a hurry?"

Li Fei sighed. there's definitely something wrong with the elephants that I lured in for Chairman Qin. I'll have to ask Nanyun about it. We've known each other for so many years. They wouldn't trick me, would they? "

" that's true, " lin haiyan nodded. " we can't slack off on chairman qin's matter. hurry up and ask. "

Li Fei nodded and immediately took out his phone to call his contacts in Nanyun province.

He had used his connections to get the big-eared elephant Cubs from Myanmar before.

after the call went through, li fei complained to the other party, " "Chief Huang, you've really screwed me over this time."

On the other end of the line, President Huang was obviously a little confused. "Boss li, what's going on?"

li fei said directly,"director huang, is there a problem with the elephants that you've helped to bring in?" I'm helping a Big Boss. I can't afford to offend him. He said that there's a problem with the elephant."

President Huang was stunned. that's impossible. I asked my cousin to do it. My cousin is the person I trust the most. He wouldn't lie to me.

Li Fei immediately said, " I bought these elephants for the boss of Linlin company. They have Linlin's laboratory to test them. Mr. Huang, do you think such a big company would spout nonsense just because of a few elephants? "

"Linlin company?" When President Huang heard this, he was stunned for a moment. After a while, he said hurriedly, " "I'm going to find my cousin. This bastard wasted my trust in Him. President li, wait for my news."

When Li Fei heard the call end, he felt a little guilty.

This CEO Huang didn't even look confident. Could he have really been scammed?

After waiting for a long time, Li Fei finally received a call from Mr. Huang. He picked it up immediately.

CEO Huang: " CEO Li, I'm sorry. It's all my cousin's fault. He pulled this batch of elephants from a contaminated ruin. They were obviously infected. I had to force him to tell me. He's greedy for my money. I'm so disappointed.

"CEO Huang, I'm going to die because of you." Li Fei hung up the phone in frustration. At the same time, he was even more impressed by the power of Linlin's laboratory.

The elephant's problem could be detected as soon as it was in their hands.

However, he was in trouble now. Something had indeed gone wrong with the matter he had helped Chairman Qin with.

However, he wasn't someone who would shirk his responsibilities.

As he thought about it, he immediately took out his gold and Jade luxury items. He could only go to you city to apologize.

Linlin Manor.

Qin Lin was accompanying Zhao Moyi on a walk in the fields of the manor. After Zhao Moyi's stomach got bigger, she insisted on taking a walk every day.

this was indeed beneficial for pregnant women and babies.

As her husband, he naturally had to find time to accompany her.

However, he did not expect Li Fei to come in such a hurry. After accompanying Zhao Moyu for a walk, he once again welcomed Li Fei into the office.

Li Fei apologized as soon as he sat down. Mr. Qin, I'm really sorry. I didn't handle this batch of elephants well. I've already asked Nanyun, and his cousin took the elephant Cubs from an abandoned and polluted area for the money. Fortunately, you detected it. I didn't expect this to happen. I'm really sorry.

Qin Lin was a little surprised to hear this. Someone could take the blame for this?

Or rather, someone had taken the initiative to take the blame.

So, what was there for him to worry about? He didn't need to hide anything.

Thinking of this, Qin Lin's mood was inexplicably better. He then said to Li Fei, " boss li, don't worry. The elephant has indeed been infected and might mutate. As for whether the mutation is good or bad, I don't know. We'll have to observe further. So, you'd better help me ask the other side about the plot of the elephant's infection. It's best if you can get me a detailed report.

Li Fei heaved a sigh of relief when he heard that Qin Lin did not blame him. "Don't worry, Chairman Qin. I'll go back and tell the people over there."

[Chapter 999 Can The Tea Trees Be Transplanted?](#)

Linlin Manor Office.

After Qin Lin hung up the phone, he walked to the computer and started working.

A moment later, the printer started and printed out several documents and photos.

The information was sent from Myanmar. It was information about an abandoned and polluted area, as well as photos. One of them was about the incident of the infected elephants being brought in from Southern Cloud.

Qin Lin did not expect Li Fei to settle things so quickly.

The information was here, and he would give a copy to the ranch when the time came. In the future, he would just have Yang Dong write a brief introduction according to the information and promote it.

Qin Lin put the documents into the drawer with a smile.

He could put this matter aside for the time being. Then, he focused his attention on the game in his mind's screen. He controlled his game character to go directly to the spring Mine and start mining again.

Unfortunately, he didn't seem to have enough luck in the spring Mine.

For half a day, other than the special soil and the spring water of the earth, they did not find anything good.

This was very wrong.

[current level can not enter!]

When he reached the 60th floor, the system prompted again.

this meant that the fountain field had been restricted again.

qin lin controlled his game character to return to the farm. just as he was about to continue mining in the lake mine, huang xin came over with a specially designed box, his face filled with excitement.

"What's making you so happy?" Qin Lin asked as he led Huang Xin to the tea table.

"qin lin, the perfume has been successfully extracted and separated. this is the finished product," huang xin explained with a face full of achievement.

As he spoke, he opened the special box, and inside it was a transparent crystal bottle of perfume.

"Did you succeed?" Qin Lin asked in surprise.

The perfume formula that he had obtained from the game before had a special effect on men and women, so it was only sold through restricted channels.

Even though it was still very popular after being handed over to Wang Yan and the other agents to sell it in special products, the market was always restricted.

If the perfume's special effect on men and women could be removed, it would be different. It could be openly advertised and sold.

Now, Huang Xin had separated the perfume.

"Have you found someone to try it?" Qin Lin asked cautiously.

"Yes, no less than a hundred people have tried it, and none of them have had any problems," Huang Xin nodded.

"That's good!" Qin Lin was relieved.

Qin Lin, the test report for this perfume is about to be out, " Huang Xin said. this time, you have to help me advertise your Linlin Manor.

"En!" Qin Lin didn't refuse.

After all, he owned a large share of the perfume company.

previously, the perfume couldn't be advertised because of its gender-specific effects. now that it could be openly advertised, it wouldn't be a problem to use the official account of linlin manor to advertise.

After all, they were all his things, and nothing bad would happen.

As for the products of other companies, he didn't care how much money they paid. He didn't need to earn this little bit of advertising money at all. If there was a problem, it would be a whole body of lice that he couldn't get rid of.

There were many celebrities who were destroyed because they didn't choose a good spokesperson. Naturally, they couldn't rule out the possibility that they would be lucky and take on an advertisement because they were attracted to money.

Outsiders did not know about this.

"By the way, Qin Lin, I have something to ask you." Huang Xin suddenly asked,"what do you think of Wang Yan?" The new perfume is out, and our company is looking for an agent through the normal channels."

"Out of all the previous perfumes, Wang Yan's sales were the best, even better than all the other agents combined. So, I want to continue to let him be the agent for New Xiang Shui, but it's just a normal perfume this time."

"Huang Xin, you can just let wang yang be the agent for all the women's Affairs. He has never let us down in this area," Qin Lin said with a smile.

Are you doubting wang Yang's ability to sell women's products? When he thought about the female Army, he might as well first doubt whether his ability in that aspect of women was too short and too fast.

"I'm relieved to hear that." Huang Xin nodded. He then made another pot of tea and left.

Qin Lin also picked up the bottle of perfume that Huang Xin had left behind and brought it into the game to see its attributes:

[specially modified perfume: grade 1]

[this is a specially separated and modified perfume: [alluring fragrance +1, charm men +1, make people happy +1] Qin Lin saw the remarks. Although there were still the attributes of charming men and making men happy, the attributes of arousing men's desire were gone.

Moreover, the attributes of ordinary perfume also had the effect of seducing men.

For a woman, apart from pleasing herself, wasn't the purpose of perfume to please the opposite sex?

After all, many women bought expensive perfumes just to date the opposite sex, and many women even bought special perfumes for their boyfriends to like.

Naturally, this view would be opposed by some women, but if you were against it, you could just not buy this perfume. No one forced you to do it, as long as you did not fight.

After Huang Xin left Linlin Manor and returned to the company, he immediately contacted wang yang.

when a new product was released, especially when the two perfumes were sold in different channels, it was important to find a reliable agent to sell it.

Since Qin Lin said that there was no problem with the king's appearance, he naturally believed it. Therefore, he had to make a decision with the other party immediately.

Min province.

In an office building, Wang Yan looked around the new office, and then said to Fei Fei, who was beside him, " "How is it? The renovation is okay, right?"

"Brother Yan, the decorations here are better than the original one." Feifei nodded.

"Okay, then you'll be in charge of this perfume branch from now on." Wang Yan also pulled Fei Fei into his office with a smile.

Of course, he didn't move the original Linlin leisure tea agency here. Instead, he split up the perfume business and made this office.

He couldn't do anything about it. After all, he couldn't stand the sight of sister Lingling and Feifei together, even with the Linlin leisure tea and the Linlin medicinal wine.

It would be good if sister Lingling and Feifei didn't get into a fight. If they quarreled and sister Lingling went into his office to vent her anger, Feifei would be unhappy and would definitely come to find him after a while.

The key was that the one at home had already given birth, so he had to pay the public grain. If they had it on the same day, wouldn't he be asking for his life?

The key point was that it seemed to have happened on the same day more than once.

How could he endure this? For the sake of his own health, he had no choice.

After locking the office door, Wang Yan was about to ask Feifei to squat down when her phone rang.

When he saw that it was a call from Huang Xin, he quickly stopped Feifei and pulled her up again under her resentful gaze.

Although he had made a mistake that many men would make, he still knew what was important and what was not. He hurriedly picked up Huang Xin's phone.

...

Qin Lin exited the game after reading Huang Xin's message about the bottle of perfume. He controlled his character to complete the day's daily tasks.

his luck today was pretty good. when he entered the goddess mountain, he found that a yellow rosewood and purple sandalwood had been refreshed.

Even now, he didn't have much need for these two types of wood.

However, since this thing had been refreshed, he could just cut it down and store it. If there was no place to use it in the future, even if he made a few coffins, it would still be useful, right?

The ancient people often talked about coffins made of gold nanmu wood. What was the difference between Rosewood and red sandalwood?

After Qin Lin had cut down all the trees that had spawned on goddess mountain, he continued to control his game character to head to the area where the mountain goods were spawned.

This time, he seemed to be a little lucky.

The mountain goods section had also refreshed. Furthermore, it was actually wild Tieguanyin tea.

[congratulations, you have obtained 30 pounds of wild Tieguanyin!]

Qin Lin controlled the game character to pick a wild tea tree and then moved on to the next tea tree. Just as he was about to pick it, he suddenly thought of something.

the next moment, he entered the game with a thought.

Qin Lin looked at the tea tree in front of him, which was a little taller than him, and his eyes began to shine.

when he had entered the game, he had not been able to go anywhere else, so he had not thought too much about it. now that he could enter the goddess mountain and pick the tea leaves, he suddenly had an idea.

You can only eat an egg once, but if you hatch it, you can eat a lot of eggs.

Since he could now enter the goddess mountain, and the whole tea tree was in front of him, he might as well transplant the whole tree out instead of picking it once under the game's mechanism.

If he could successfully transplant the tea tree, then at least he could harvest the tea leaves in the real world during the time the tea leaves grew, right?

[Chapter 1000 The Possibility Of Completely Curing Cancer? 1](#)

Qin Lin thought about it and reached out to pick a few tea leaves from the tea tree. He lowered his head and saw the remark:

[(rare) wild Tieguanyin leaf: Quality 2]

[this is a type of Tie Guan Yin that grows in the wild. It's definitely the best among the tea leaves, but it's a pity that it's extremely rare. It can be used to stir-fry and brew tea. It has many effects: Tea fragrance +2, sweet aftertaste +2, greasiness removal +2, digestion promotion +2, mind refreshing +2, cancer prevention +2!]

the tea leaves that were picked this way had the same attributes as the ones that the game characters picked.

It was especially important for its anti-cancer properties.

If the tea tree was transplanted, Linlin's laboratory staff could test it and find out its properties.

In that case, he could try to cultivate the tea tree.

If it could be cultivated, even if it was a quality 1 or a normal condition, how good would it be if it really had the effect of preventing cancer?

There were no different types of cancer treatment, and it was effective for all types of cancer.

Does this mean that there's a chance for our country to be completely rid of the threat of cancer?

Many countries had been defaming tea leaves and praising coffee. When the time came, the whole world would come to drink tea. Their tea was the king.

No, when the time came, he would not let those foreigners drink it.

If it was really as he thought, then it would really be a great merit.

Seeing this, Qin Lin exited the game with a thought. He found some digging tools in the manor and drove to the warehouse.

Qin Lin entered the game again after he locked the warehouse from the inside. He replaced his game character and walked to the tea tree. Then, he began to dig carefully at the tea tree with his tools.

In order to prevent the roots of the tea tree from being destroyed, he dug very carefully.

It was just that a mature tea tree was taller than his entire body, and its crown was very long. It would take some effort to dig it out without affecting the whole Vermillion tea tree.

Of course, it was not necessary to maintain all the roots of the tea tree, but at least it should not affect the normal survival of the tea tree.

Therefore, he had to first figure out the root system of the tea tree before digging.

Moreover, this required a lot of effort. If it were a normal person, they wouldn't be able to do it. Fortunately, he had eaten two fruits of the tree of strength.

In the end, Qin Lin dug out all the soil at the bottom of the tea tree.

The soil carried by the entire tea tree and its roots was very large and heavy. If it was a normal construction, it would be impossible to pull the tea tree out without a crane.

Fortunately, he touched the tea tree with his palm and brought it out of the game with a thought, appearing in the warehouse.

Qin Lin looked at the tea trees and couldn't help but smile.

The first step was completed.

He looked at the screen in his mind again and controlled his game character to go to the next tea tree, then continued digging.

This time, one of the tea trees in the mountain goods area was picked by the game character, and only three were dug out by Qin Lin.

After Qin Lin dug out the three tea trees, he brought out three bags of special soil.

Many of the tea trees' roots had been cut off when he was digging, so he planned to use special soil to transplant them, so that the three tea trees would not die.

After that, Qin Lin took out his phone and called Zhao Liyuan again.

Zhao Liyuan did not dare to disobey Qin Lin's order. Soon, he arrived with a crane and three transport trucks.

"Chairman Qin, such a tall tea tree?" Zhao Liyuan couldn't help but look around the three tea trees.

Tea trees weren't rare in your city. After all, one of your city's major industries was tea leaves. Who knew how many people made a fortune from tea leaves?

It was just that your city's tea industry was considered fast food tea. It mostly relied on Tea City. The routine was to invite some beautiful young ladies to sell tea, make tea, and chat.

Nowadays, most men who liked to play would go to three places for leisure: foot spa, bar, and tea!

These three places had one thing in common—they had young ladies.

Therefore, in the state of the fast food tea industry, no one would carefully build the tea industry, and there were no tall old tea trees, nor famous good tea trees.

help me transport the three tea trees to the manor. Then, use the crane to plant them for me. Qin Lin ordered Zhao Liyuan.

"Alright, Chairman Qin." Zhao Liyuan immediately replied.

After transporting the three tea trees back to the manor, he had the transport truck drive directly into the villa. This thing also attracted the attention of others.

Academician Li was making tea in a pergola made of yellow Rosewood. When he saw Qin Lin get out of the car, he asked in surprise, "Boss Qin, where did you get this tea tree?"

"It's from the mountain. I've always wanted to buy it, but the other party didn't agree." Qin Lin laughed and started to make up a story. This time, the other party contacted me himself. He said that someone in his family is getting married and wants to buy a house and a car. He just asked for more money, but it's all worth it. After all, good tea is rare.

academician li agreed with this. " indeed, only chairman qin can drink this kind of good tea often. ordinary tea wouldn't catch your eye. this tea tree is obviously extraordinary. "

"Academician Li, you can tell?" Qin Lin asked in surprise.

" because your boss qin bought it, " academician li replied seriously. " if it was an ordinary tea tree, would it catch your boss qin's eyes? "

Qin Lin didn't know whether to laugh or cry, but he didn't know what he was thinking.

There was once a piece of news that said that the fallen Boss Ma had bought a stock, which caused the stock to rise sharply the next day.
