

The Gate 121

[The Gate Of Good Fortune](#)

Chapter 121: Controlling The First Position

Now in the 3rd round of the Tournament, of all the participating cultivators, the 1st position was now completely dominated by Ning Cheng. Ning Cheng had a total of 140 points, which was far beyond that of the person in the 2nd position, Situ Yu, with a total of 60 points. The 3rd was Chi Zi Wen with 30 points and the last was Ling Naixin with 20 points which simply couldn't even be compared.

The ranking of the five 5 Star Academies once again shuffled, the 1st place was still taken by Falling Star Academy with a total of 251 points. The God Wind Academy which was placed last till now, was now at the 2nd place with a total of 216 points. The Clear Sky Academy with 190 points, was placed 3rd. Thunder Academy with 158 points, was in 4th place. While the last place was taken by Luo Huo Academy with a total score of 155 points.

Ning Cheng who still standing on the platform swept with his eyes, of the three people left within the tournament, other than Situ Yu, the other two looked fearful and apprehensive. Chi Zi Wen and Ling Naixin knew clearly that they were definitely not a match against Ning Cheng.

But Ning Cheng did not feel the need to challenge Situ Yu, as long as he defeated Chi Zi Wen and Ling Naixin, then the position of the God Wind Academy as the 1st would then be ironclad. But at the same time he knew that he could only challenge two times more, and it just happened that there were only two people that he wanted to challenge.

But against all expectations, after Ning Cheng swept a glance at the rest of the people, he unexpectedly turned around and slowly walked off the platform.

Ling Naixin heaved a sigh of relief, what she most feared was that Ning Cheng would immediately challenge her next. But the one who looked even more relieved was Chi Zi Wen, although he was not sure why Ning Cheng did not go ahead and continue to issue challenges while still standing on the platform, but he was glad that at least he did not have to face against that monster, Ning Cheng.

One of the Essence Building Cultivator from the Clear Sky Academy suddenly said, "Now coupled with our Clear Sky Academy's Situ Yu, there are only 4 people left. Chi Zi Wen and Ling Naixin are definitely not a match for Situ Yu, so as long as Situ Yu challenged them, then we definitely can take the second place."

Ming Hao Kuo said with a sneer. "No one will challenge us. If there is nothing else unexpected happening in this 3rd round. Then it would definitely end here. That Ning Xiao Cheng has no intention of helping the God Wind Academy to take the 1st place, otherwise he would have definitely taken the initiative to challenge Chi Zi Wen and Ling Naixin. Regardless of whatever reason why that Ning Xiao Cheng gave up on taking up the 1st spot, we all shouldn't make any other moves. It truly is regrettable, if not for that bastard who was truly blind, then that Ning Xiao Cheng would have definitely been a disciple of our Clear Sky Academy."

"What Teacher Ming says is definitely right, if I got rid of Chi Zi Wen and Ling Naixin, then indeed we will be able to take up the 2nd position. However, I am sure that once I beat those two people, that Ning Xiao Cheng would definitely challenge me next. The reason why the God Wind Academy does not

continue to issue the challenges. Is so as to preserve their spot of the second place. Even I do not have even half a grasp on that Ning Xiao Cheng, this person is definitely very mysterious. Once I lose to him, the Clear Sky Academy would definitely be ranked last.” The True Condensation cultivator, Situ Yu who was standing behind spoke up.

“Whether it is the 2nd position or the 3rd position, the difference between them was definitely not this big until now. Since Situ Yu will not go out to fight, that Ning Xiao Cheng would also not come out to challenge. Moreover, that Falling Star Academy’s Chi Zi Wen and that Thunder Academy’s Ling Naixin would also not come out to challenge on their own initiative.” Ming Hao Kuo also nodded, showing his approval towards the words spoken by Situ Yu. When he saw Ning Cheng make his move, he knew that if Situ Yu and Ning Cheng fought then, regardless of it they took the 2nd or the 3rd position, it would only end up in Situ Yu’s death.

As Ning Cheng did not continue to issue challenges, and the other people also saw that there was no one else willing to come up to issue or take challenges, as such the scene unexpectedly turned cold.

For the 3rd round really hit such a level. Everyone could see the problem; everyone could see that Ning Cheng was the person who was controlling the 1st position in the tournament. Although none of them knew why Ning Xiao Cheng was doing such a thing. Wasn’t he not willing to let the God Wind Academy to take the 1st position, and as such was not continuing to issue the challenges.

As Ning Xiao Cheng did not come to the platform to issue the challenges, the rest of the people also did not dare to come to the platform to issue their challenges. Although Situ Yu could come up and challenge, but he was afraid of Ning Xiao Cheng. What’s more, even if he defeated Chi Zi Wen and Ling Naixin, he would still not be able to take the 1st place. But in case anyone dared to take away the 2nd position of the God Wind Academy, it would only end up in angering that monster, Ning Xiao Cheng, that kind of gain would definitely not even be equal to half the losses that they would incur in the aftermath.

The old man presiding over the 3rd round also obviously knew about this situation, as he flew up and gently landed on to the platform, and spoke with a clear and resonant voice, “Ning Xiao Cheng, do you still want to continue and issue challenges?”

As he saw it, Ning Cheng was fully in control of what Academy would come 1st, as long as Ning Cheng was willing to challenge, the God Wind Academy would definitely take up the 1st place. If Ning Cheng was unwilling to challenge, then the Falling Star Academy would be the one taking up the 1st place.

Ning Cheng hurriedly cupped his fists in front of him and spoke: “This junior’s strength is limited, for the God Wind Academy to obtain the 2nd position, we are already very satisfied, it is not that this junior is not willing to continue and issue out challenges. However, if some of the people here wish to challenge me, then this junior would definitely accept the challenge.”

The old man then swept his eyes over to Situ Yu, in his eyes, only Situ Yu would be able to resist against Ning Cheng for a bit. Once Situ Yu defeats Ning Cheng, then the Clear Sky Academy would take up the 1st position.

“This junior is not much confident in winning, therefore is not willing to continue to challenge.” Situ Yu also responded hastily.

Hearing that Ning Cheng and Situ Yu were both not willing to continue to challenge, Chi Zi Wen and Ling Naixin were completely delighted. Both of them did not wait for the old man to ask them, before they also immediately came forward and clasped their fists as they bowed and spoke that they also had limited strength, and thus cannot continue to challenge. At least Chi Zi Wen had fought once on the platform, but Ling Naixin right from the start to the finish did not even step onto the platform even once.

The old man presiding over the 3rd round nodded his head, and immediately announced in a loud voice, "The Tournament of the 5 Star Academies is now over, the Falling Star Academy takes the 1st place with 251 points. Because the Angry Axe Valley is going to open soon, the Falling Star 5 Star Academy is now promoted to a 6 Star Academy, but the promotion ceremony will take place in 6 months, during this period, the Falling Star Academy can consolidate their resources from the three Lower Class Continents....."

Liu Xian glanced at Ning Cheng, although he also had expected this, but he was not as clear as Ning Cheng on this matter. He now knew that what Ning Cheng had said was right, as the old man had even allowed the newly formed 6 Star Academy to consolidate all the resources of the Lower Class Continents. In addition to the Angry Axe Valley opening in advance, there still was another meaning, it was to look at the overall strength of the newly formed 6 Star Academy, otherwise why would they immediately choose the 6 Star Academy just after finishing the tournament?

Thinking that the God Wind Academy did not currently have a Profound Core Cultivator watching over it, Liu Xian subconsciously shivered in fright. If God Wind Academy was the one to obtain the 1st place, then the God Wind Academy could not do anything without the help from the Intermediate Class Continent. Wanting to consolidate the resources in all the Lower Class Continents, it was simply a dream.

Not to mention any of the other 5 Star Academies, even some of the more powerful 4 Star Academies did not pay much attention to the God Wind Academy. If the God Wind Academy had obtained the first position then it would not have been a prelude to advancing to a 6 Star Academy, but rather a prelude to its death. Because the Falling Star Academy had the strength to back it up, it did not mean that the God Wind Academy also has the same strength.

"Ning Cheng, this time I really have to thank you." Liu Xian spoke with some fear.

"Deacon Liu, you don't have to be so polite, I am also a disciple of the God Wind Academy." Ning Cheng said with a smile, as he was rejoicing in his heart. Although he had already guessed the intentions of those people. But for the most part, he was concerned about Ji Luo Fei. He had never thought that his guess would actually come true. These people from the Intermediate Class Continent. Really made the newly appointed 6 Star Academy to bear the brunt by themselves.

Some of the people who had a bit of understanding towards the situation of the God Wind Academy, immediately understood why the God Wind Academy intentionally did not take the 1st place, as a result they were secretly admiring the savviness of the God Wind Academy.

The old man presiding over the 3rd round continued speaking, "Besides the Falling Star Academy advancing to a 6 Star Academy, they would also be awarded with a limited amount of resources for the time being, moreover the winners of each of the three rounds would also be rewarded separately.

Because the winner of the first and the second round is Falling Star Academy's disciple Yue Ying, Yue Ying will also receive the stated prizes, moreover she is also presented with an opportunity from the Jia Continent's Celestial Globe 7 Star Academy to come and join their ranks, of course the Celestial Globe 7 Star Academy would definitely compensate the Falling Star Academy with appropriate resources."

"As for the 1st position in the 3rd round of the tournament, Ning Xiao Cheng from the God Wind Academy, Ning Xiao Cheng besides obtaining the stipulated prize, would also obtain one of the quotas to enter the Angry Axe Valley, this quota will not be of the 20 stipulated quotas given to the Lower Class Continents. All the cultivators that have filled the respective 20 quotas for the entry into the Angry Axe Valley, will follow us tomorrow to the airship that would carry us all towards the Jia Continent together. After six months, all the cultivators from the Hua Continent who entered the Angry Axe Valley, will similarly be delivered to the Mo Ze Grand Plaza directly by the same airship."

Ning Cheng thought that it really was as he had thought about, that old man really wanted to take away Yue Ying.

Although Liu Xian wanted to get the benefits of the God Wind Academy taking the 1st place and although the God Wind Academy could not take the first spot to advance to a 6 Star Academy, but he was still very satisfied, he had actually got three quotas for entry to the Angry Axe Valley. If he added Ning Cheng, then it was a total of 4 people. It was simply inconceivable to him. If their disciples could come back from the Angry Axe Valley, he knew that they would certainly bring back some good treasures. It would not be such a bad luck to them, as with those resources, they could even help the Dean of their God Wind Academy who was also a Profound Core Cultivator, to recover from his injuries.

Thinking about the Profound Core Dean of their God Wind Academy recovering from his injuries, Liu Xian immediately became excited, as he hurriedly spoke to Ning Cheng, "Ning Cheng, this time in the Angry Axe Valley, can you help my God Wind Academy to look after the other three people."

Ning Cheng had not yet spoken, when at the same time Meng Jing Xiu took the initiative to speak, "Deacon Liu, I would like to volunteer myself to go to the Angry Axe Valley. I also request Deacon Liu, to fulfil my lifelong desire to enter the Angry Axe Valley."

Having said that to Liu Xian, Meng Jing Xiu then turned towards Ning Cheng and gave a deep bow as she spoke, "Senior Apprentice Brother Ning, in the past I used to look down on people, still I ask Senior Apprentice Brother Ning to be generous enough and not bother with a vulgar woman like me. The quota for entering the Angry Axe Valley for the God Wind Academy was obtained by Brother Ning, this Jing Xiu shamelessly asks Senior Apprentice Brother Ning to give her a chance. This Jing Xiu must go to the Angry Axe Valley to fulfil her duties."

Before Meng Jing Xiu was very rude towards Ning Cheng, which made him loathe her a bit. But later on when he came to know that Meng Jing Xiu was just a straightforward person, he did not speak up. She was following her own goal, unaware that she was being impolite to others during her journey, although he did not have a favourable impression towards Meng Jing Xiu, he at least did not despise her or loathe her that badly.

Meng Jing Xiu had wanted to participate in the Tournament of the 5 Star Academies, because she desperately wanted to enter the Angry Axe Valley, now that she said that she wanted to fulfil her duties

in the Angry Axe Valley, didn't it also mean that she had a map of the inside of the Angry Axe Valley, or was it perhaps because of some other secret?

Anyways, this quota was up to Liu Xian to fill, he did not have any influence on it, as he already had his quota. Thinking of this, Ning Cheng spoke in a light voice, "Deacon Liu is the Foreign Affairs Elder of the God Wind Academy, so all the decisions for the God Wind Academy will be made by Deacon Liu. No matter what choice Deacon Liu makes, I will always agree to it."

When Liu Xian heard Ning Cheng's words, his mind and heart were both filled with happiness, as he spoke with a smile, "Meng Jing Xiu is one of our God Wind Academy's most outstanding True Condensation Cultivators, not to mention about the previous two rounds, Meng Jing Xiu even proved her strength, so of course, you can certainly have one of the quotas."

"Many thanks to Deacon Liu, many thanks to Senior Apprentice Brother Ning." Meng Jing Xiu was not someone who had cultivated her behaviour, but that did not mean that she did not know how to thank her benefactors.

After Liu Xian agreed to Meng Jing Xiu's request, he turned around to Ning Cheng and said, "Ning Cheng, of the other two disciples from our God Wind Academy that are going to the Angry Axe Valley, one of them is called Cang Shuo, and the other one is called Ruimu Danqin."

At this point, Liu Xian beckoned, and a young man and an even younger girl stepped out from behind him and came to the front.

The young man had almost the same cultivation level of that of Meng Jing Xiu, True Condensation 6th Level, he looked ordinary but had a firm and resolute face. But as for that young girl, Ning Cheng estimated that she would only be around 16-17 years in age, however her cultivation was definitely not low, it was at True Condensation 5th Level. This young girl had a pair of bright eyes but because of her long and abnormally thick lips, she looked a bit ugly, and was even a bit of a match to her name.

"Ning Cheng, these are Cang Shuo and Ruimu Danqin, Cang Shuo's father is the current Dean of the God Wind Academy who is in closed door training. Ruimu Danqin is one of the geniuses that my God Wind Academy managed to rope in, I want to ask you to take care of the two of them in the Angry Axe Valley....." Liu Xian asked Ning Chen in a very sincere tone.

[The Gate Of Good Fortune](#)

Chapter 122: Going To The Angry Axe Valley

Ning Cheng had continuously been on the run outside, plus with his short beard, he looked quite a bit older, but the fact was that Cang Shuo was actually much older than Ning Cheng. Although he was older than Ning Cheng, he had personally seen Ning Cheng fight so fiercely on the duelling platform, even someone as powerful as Lian Hao, was ultimately not able to even get down from the platform, which made him really admire Ning Cheng from the bottom of his heart.

He knew that although his cultivation level looked to be higher than Ning Cheng's cultivation, but if he really fought with him, he was definitely not a match against Ning Cheng.

Now that Liu Xian wanted Ning Cheng to take care of him and Ruimu Danqin, he immediately cupped his fists in front of him and said to Ning Cheng, "Cang Shuo greets Senior Apprentice Brother Ning...."

Although he could definitely call Ning Cheng as his fellow brother, but he did not do so. Let alone his status, compared to Ning Cheng, he did not know how many more times higher was his status than his own.

Ning Cheng also quickly said, "Brother Shui should be older than me, so you can definitely call me by my name directly."

But Cang Shuo immediately spoke up, "My father had always told me, that in the Yi Xing Mainland, only strength mattered. Everybody has already seen Brother Ning's strength, as such for this Cang Shui to call you as his Senior Apprentice Brother is something that is a must."

Ruimu Danqin was obviously not very sophisticated, when she saw Cang Shuo call Ning Cheng as his Senior Apprentice Brother, she also immediately followed his heels and also called him as Senior Apprentice Brother Xiao Cheng. She had also been looking at the fights of Ning Cheng, and listening to the people nearby discuss about her Senior Apprentice Brother Ning Xiao Cheng, she also ended up admiring him from the bottom of her heart.

After the two people greeted Ning Cheng, Ning Cheng said to Liu Xian, "Deacon Liu, even if you had not spoken to me about it, me, Cang Shuo and Ruimu Danqin are all from the God Wind Academy, so by rights we ought to help out each other. There is only one thing that this Ning Cheng wants to entrust to Deacon Liu....."

Liu Xian was already very suave, Ning Cheng had not even said the words, before he knew what Ning Cheng wanted to say. And immediately said, "Ning Cheng, you just go to the Angry Axe Valley. Ji Luo Fei is also a disciple of my God Wind Academy, I will certainly not let her suffer any kind of injustice. I had already agreed to give you your own Immortal's Cave for cultivation. After Luo Fei follows me back to the God Wind Academy, I will let her choose what cave she wants by herself."

Seeing Liu Xian be so tactful, Ning Cheng was filled with happiness, he hurriedly thanked him from the bottom of his heart, and started discussing the matter relating to the Angry Axe Valley.

The commotion caused by the Tournament of the 5 Star Academies had finally subsided. There were a lot of people happy, while there were still many who were unhappy. The biggest winner was the Falling Star Academy, but not only did it not stand out, it even got promoted in rank to a 6 Star Academy, moreover they also obtained a quota of five people to enter the Angry Axe Valley. As for the dead Shui Yu, it simply only had a bit of relationship to the Falling Star Academy.

Therefore, to the Falling Star Academy, other than selecting the elites who would proceed to enter the Angry Axe Valley, the most important matter to them was to proceed with the establishment of their 6 Star Academy.

.....

The next day, Liu Xian and Ji Luo Fei accompanied Ning Cheng, Meng Jing Xiu, Cang Shuo and Ruimu Danqin to the Mo Ze Grand Plaza, this time there was silver coloured airship type Magic Weapon parked at the centre of the Mo Ze Grand Plaza. Apart from them, all the people had already arrived beforehand.

However, Ning Cheng and the others did not have to wait for long, when a man wearing a yellow cultivator's clothing immediately spoke up, "All the cultivators going to the Jia Continent, enter the airship. The airship is about to leave this place in a short while."

Ning Cheng once more urged Ji Luo Fei to not to leave the God Wind Academy, he once again came back, and again requested Deacon Liu to keep Ji Luo Fei out of trouble, then waved towards Ji Luo Fei as he entered the large cabin.

When Ji Luo Fei saw Ning Cheng enter the airship, she strongly choked back her own tears. She had secretly decided, that she must go all out and desperately cultivate in the God Wind Academy. The prize that Ning Cheng had got, he had already given a large portion of it to her, and the only thing that he kept was the Storage Bag. Even the Essence Building Pill and the other Spiritual Grade Artefact, were also given to her.

The silver airship soon lifted off from the Mo Ze Grand Plaza and rushed into the sky, and soon disappeared without a trace.

Liu Xian also hastily pulled out an airship type Magical Artefact, and in just a moment the rest of the people from the God Wind Academy along with Ji Luo Fei immediately entered the airship type Magical Artefact, as Liu Xian immediately took control of it and left the Mo Ze City.

This was what Ning Cheng had repeatedly stressed on, so once he left, Liu Xian also did not want to stay for even half a bit longer in the Mo Ze Grand Plaza, and immediately left. Ning Cheng guessed that since the 6 Star Academy would only be fully established after the Angry Axe Valley closes up, so in order to help out in the construction of the 6 Star Academy in the Hua Continent, the Shui Clan would definitely be involved, as such Liu Xian took Ning Cheng's advice very seriously.

The airship of the God Wind Academy had just left, when a Profound Congealing Member from the Shui Clan arrived. A Late Stage Essence Building Cultivator also came to the Mo Ze Grand Plaza. When they learnt that the God Wind Academy had already left a moment ago, they somewhat resentfully returned back to the Shui Clan.

.....

This time there were a total of 4 people going to the Angry Axe Valley from the God Wind Academy, but this group of people were indistinctly led by Ning Cheng, although in the eyes of other people Meng Jing Xiu was the most powerful of the group, but at this time she was obediently standing behind Ning Cheng.

This time there were a total of 22 people going to the Angry Axe Valley from the Hua Continent. As Ning Cheng looked, he could see a lot of familiar faces. Chi Zi Wen, Meng Yu Jing, Situ Yu, Ling Naixin, Fang Xin, Pu Li Xin and even Yue Ying. What made Ning Cheng a bit doubtful was the fact that he also saw Yong Gu Yun from the Ping Continent amongst the group. Even now Yong Gu Yun was only at the peak of Qi Gathering 9th Level, but moreover was someone who came from the Ping Continent, just how did she obtain the qualifications to enter the Angry Axe Valley?

Ning Cheng had still not solved the doubts, when he saw another familiar figure, but this figure quickly disappeared from his eyes, which was followed by several other people entering the cabin of the airship. Ning Cheng frowned, wondering just where did he see that figure.

Although Ning Cheng had an extremely strong memory, even then he could not remember exactly where did he see that figure.

An Essence Building Cultivator immediately said, "Four people to a room, hurry up and go. Wait until the airship passes above the Lost Mountain Range, we may have to face attacks from a few formidable Monstrous Beasts, so when you feel the airship swaying intensely or is bumping incessantly, just stay in your respective rooms and do not come out."

As this person passed this message to everyone hastily, Ning Cheng couldn't help but think, this airship was flying at such a high altitude, and would still have to suffer through the attacks of Monstrous Beast, just how powerful were those Monstrous Beast in the end?

"Lost Mountain Range, what a weird sounding name." Ruimu Danqin whispered behind Ning Cheng's back as if underestimating it.

"Junior Apprentice Sister Danqin, it would be better if we do not talk much here, and rather listen to Senior Apprentice Brother Ning alright." Cang Shuo immediately urged her.

"The Lost Mountain Range has a legend since ancient times, because this mountain range does not have a centre, so this mountain range ended up being called as the Lost Mountain Range. There is also another legend, that anyone who dared to walk past the centre of the Lost Mountain Range, whether by ground or by air, they would simply vanish without a trace. It is precisely because of this that this mountain range obtained the name of Lost Mountain Range. Our airship, is also going to pass through the edges of these Lost Mountain Range." It was a young man who was in the middle of the group who took the initiative to answer Ruimu Danqin's question.

Ning Cheng suddenly felt moved in his heart, he finally remembered where he had seen that figure before.

The man who had answered Ruimu Danqin's question walked over to Ning Cheng and cupped his fists in front of him and said, "I am Fang Xin of the Luo Huo Academy, greetings Brother Ning."

Ning Cheng immediately understood that Fang Xin had almost died in the hands of Lian Hao, moreover he also did not have even a half a bit of favourable impressions towards his sinister and vicious nature. Afterwards when he had helped him avenge by killing Lian Hao, he definitely felt a bit grateful towards Ning Cheng, that was why he took the initiative to come up and speak, which was also a pretty good reason.

"So it turned out to be Brother Fang from the Luo Huo Academy, many thanks to Brother Fang to dispel our doubts a moment ago, in fact I did not know that the Lost Mountain Range had such a history behind it." Ning Cheng quickly also cupped his fists in front of him and returned the greeting.

Before the two people even said a few more words, the Essence Building Cultivator once again barked, "The talking between you guys can wait till the airship passes over the Lost Mountain Range, enter your cabins first."

The people who were standing and chatting couldn't stay outside anymore, as they scrambled into their respective rooms. Since there were only four people from the God Wind Academy, so all of them chose the same cabin.

“We will stay in the room, do not go out.” Once Ning Cheng entered the room, he immediately said to the remaining three.

Since Ning Cheng was now the representative of the God Wind Academy, nobody expressed any kind of objections to his words, and immediately sat down in succession with their eyes closed. Meng Jing Xiu wanted to ask Ning Cheng how he had managed to kill Lian Hao, but since she saw that Ning Cheng apparently did not want to talk, she also did not dare to take the initiative to disturb Ning Cheng.

Ning Cheng at this point of time was thinking about the figure he had seen, he had finally remembered who that figure was. It was the figure of that bald man, with the cultivation of True Condensation 3rd Level, that he had seen in the Mo Ze City, that fellow had a Jade Bracelet on his hands which had somehow drawn his interest towards it.

But the reason why he couldn't remember at that point of time, was because he saw that the figure he had seen was dressed up as a woman, moreover a woman with long hair. A bald headed man and a long haired woman, no wonder he took a while to make that connection.

Just who was this young long haired girl that Ning Cheng recognized, was it really that girl from the Thunder Fall Desert, the one who was called King Xiu Xiu. Ning Cheng had met that King Xiu Xiu and her lackey in the desert, and only now did he realize that there were quite a few similarities between her and that man wearing the Jade Bracelet, and to think that these two individuals turned out to be somewhat similar. But to Ning Cheng, as long as there was even a bit of similarity, he could immediately associate them with each other.

Ning Cheng was not sure if this bald man was that Xiu Xiu, but he definitely knew that he definitely had some kind of great relation with her. Moreover, Ning Cheng had already determined that initially when he saw that bald headed man on the Grand Plaza, he was drawn towards him because of his bracelet, it was definitely not by chance.

Regardless of whether that person called King Xiu Xiu came here for the Angry Axe Valley, or whether they came for his Imperial Jade Seal, Ning Cheng became a little more alert in his heart. That young girl had also entered the ruins of the Lan Yi Country, but in the end also came out unharmed, as a result he had determined that she definitely was not a simple person.

“Cang Shuo, how did our God Wind Academy's Dean got injured? Is his injury serious?” Ning Cheng in his mind was a bit suspicious, as the people here were too relaxed. He had not asked Liu Xian about the extent of the Dean's injury, with Liu Xian being a crafty old fox, as long as he asked about it, the others would know what he had meant.

The reason why he had asked about the injury of the Dean Cang, was because he was still somewhat worried about Ji Luo Fei's safety. If the Profound Core Dean of the God Wind Academy was not really heavily injured, then at least Ji Luo Fei would have another level of protection from God Wind Academy.

Cang Shuo apparently did not think much about such things, so when Ning Cheng asked about it, he hastily replied, “Many thanks to the care shown by Brother Ning, at this moment my father is seriously injured, this time the reason why I am going to the Rainbow Axe Valley is to search for the Rainbow Light Grass.....”

“Rainbow Light Grass?” Ning Cheng was really shocked in his heart, looking for the Rainbow Light Grass, didn’t it mean that the Core Lake of the Dean was seriously injured? For a Profound Core Cultivator, if their Core Lake was injured, then it was equivalent to them being a disabled person.

Moreover, he had even obtained a Rainbow Light Grass in the Daan Forest before, but he had auctioned it off, now that he came to think about it, it really was unfortunate.

[The Gate Of Good Fortune](#)

Chapter 123: The Yi Xing Ocean

“That’s right, not only I want to go look for the Rainbow Light Grass, but I even have to find more than one stub of it. A single stub of the Rainbow Light Grass, is simply not enough to refine the Profound Secondary Rainbow Pill.” Cang Shuo said with a low tone.

Ning Cheng nodded, “The Profound Secondary Rainbow Pill is one of the top four, if not the top five pills, useful for the Profound Core Cultivators, and is also one of the truly difficult to refine pills. With the cultivation level of the Dean in the Profound Core Realm, who in the Hua Continent can even hurt him?”

Cang Shuo was silent for a moment, but then suddenly placed a Sound Insulating Restriction around the two of them.

Ning Cheng looked at Cang Shuo in a puzzled manner, but did not ask anything, he knew that the reason why Cang Shuo put a Sound Insulating Restriction was so that Ruimu Danqin and Meng Jing Xiu would not be able to hear their conversation. Could it be that there was still something more to the serious injuries sustained by the God Wind Academy’s Dean Cang?

“Brother Ning should know about the Yi Xing Ocean, right? It is the largest water body outside of the Yi Xing Mainland.” Cang Shuo unexpectedly did not speak directly about the matter of the severe injury to his father, instead he spoke about the Yi Xing Ocean.

Ning Cheng shook his head, “All I know about the largest water body is the Mingot Sea Area, I come from the Ping Continent, thus I am very much familiar with only the Mingot Sea.”

Cang Shuo shook his head and spoke, “The Mingot Sea and its surrounding area is just an inland sea area, although it is large but compared to the Yi Xing Ocean, it is nothing more than just a drop in an ocean. Many people know that the Yi Xing Mainland is incomparably vast, and is divided into 9 different continents, moreover these 9 continents are classified into Lower Class Continents, Intermediate Class Continents and Advance Class Continents. But in actuality, the Yi Xing Mainland is also something that could not be even compared to the vastness of the Yi Xing Ocean. The Yi Xing Ocean can only be seen from the edges of this mainland, moreover in these so called Lower Class Continents, only from the Hua Continent can one access and arrive at the Yi Xing Ocean. But the Ping Continent and the Yuan Continent cannot see the Yi Xing Ocean, and can only see and access the inland sea area, which is the Mingot Sea Area.”

Ning Cheng took a breath, he knew that the Ping Continent was in itself very large, moreover even in the Hua Continent, he knew that he had not even travelled a small portion of it. As for the Yi Xing Mainland, he simply did not know how big was it. Now listening to Cang Shuo say that the Yi Xing Ocean was actually much larger than the Yi Xing Mainland. Just what level of cultivation level would it even require

to travel anywhere they wanted? It was simply laughable that he was still thinking about leaving the Yi Xing Mainland and even returning to Earth.

After Cang Shuo came to know that Ning Cheng did not know about the Yi Xing Ocean, he tried to explain it even more clearly, "The reason why I know this is not because my experience is broad, but because it was my father who had told me about this. Among the cultivators with a high level of cultivation, there is another kind of thing that they also know about, that is, other than the 9 continents of the Yi Xing Mainland, there is an additional 10th Continent. It is just that this 10th continent is separated by the Yi Xing Ocean, and as such is not something that could be seen."

Ning Cheng nodded. He did not find this strange. In ancient China, even they did not know about the existence of the American Continent that was lying across them on the other side of the Pacific Ocean. For a planet to have more than one mainland, such a situation should be quite normal.

"I heard that this 10th Continent is the place that the truly great masters of the Yi Xing Mainland gather, moreover it is said that the highest cultivation there even surpasses that of the Crucible Transformation Realm. Of course, my dad is also not sure about it."

As Cang Shuo spoke till here, Ning Cheng asked with some doubts, "I have heard that the highest cultivation level that one could cultivate to, in the Yi Xing Mainland, is up to the Crucible Transformation Realm, and if even your father can't say for sure about that, then how can you even know about this matter?"

Cang Shuo said with a sigh, "This place called the Yi Xing Mainland is not as calm and steady as it looks on the surface. Besides the innumerable Monstrous Beasts that come tide after tide from the ocean, the thing that is even more fearful than them, are the foreign invaders that come from the Yi Xing Ocean."

"Monstrous Beasts coming tide after tide from the ocean?" When Ning Cheng heard about the Monstrous Beast tides, he immediately thought about the beast waves that he had encountered in the waters of the Mingot Sea.

Cang Shuo shook his head, "Not only Monstrous Beast, but also the cultivators that come from across the Yi Xing Ocean. Wanting to cross the Yi Xing Ocean is as hard as transcending the heavens, it is even innumerable times much more difficult than cultivating to the peak in the Yi Xing Mainland. Therefore 9 out of 10 cultivators who try to cross the Yi Xing Ocean end up falling over the skies of the Yi Xing Ocean. But there is also a fraction of those cultivators who were able to find a few islands that were comparable to the continents here, in the Yi Xing Ocean, before they kicked the bucket. In these continental sized islands, they ended up spawning multiple descendants."

"Although some of the islands were even bigger than the continents here, but the resources there are very limited. With their descendants growing more and more in number, it ended up in creating a huge deficiency in their resources. So they had to seek out other islands that had more resources, as a result they ended up finding the Yi Xing Mainland with its 9 continents, this kind of thing is as such not much surprising."

Ning Cheng gained a bit of understanding and asked, "Do you mean to say that the people who attack our Yi Xing Mainland come from those continental sized islands? Why is this? The Yi Xing Mainland is extremely vast, those people could also easily come here and find a place to cultivate in secret."

Cang Shuo said, "Do you even know just how many people that they amount to, they are not just in tens of thousands, but even the number of several tens of billions would be insufficient to estimate their numbers. Not only that, they also have some sort of control over the Monstrous Beasts in the Yi Xing Ocean. They just want to turn this mainland into one of the territories of the islands, as such the fight for the mainland has never stopped till now. Because the Hua Continent is far from the battle being fought at the front against the Yi Xing Ocean, as such it is relatively calm here. The reason why my father got injured was because he had fought on the battlefield against those from the Yi Xing Ocean."

"Isn't this the 'War of the 3 Continents' that I heard about?" Ning Cheng said as he nodded his head, when he had arrived at the Cang Qin Province, he had heard about this 'War of the 3 Continents'. He not only heard about it, he also knew that the reason why the Falling Star Academy came to the Cang Qin Academy to select 10 students from there was because there was a Profound Core Master from the Ping Continent who had earned great merits in this War of the 3 Continents.

This meritorious Profound Core Cultivator was called Lian Hao Yan, when Ning Cheng thought of this name, he suddenly thought about Lian Hao who he had killed, as the two names only differed by a single character.

Cang Shuo's tone suddenly became gloomy, "If my father really fought in this 'War of the 3 Continents', then it is highly likely that it was declared that he was actually injured by a cultivator who came from the Yi Xing Ocean. But the fact is, he was played by one of the people from the 3 Continents and as a result received such an internal injury, although my father had vowed revenge on him, but because of his injured Core Lake, even if he was angrier, he could only clench his teeth to swallow air."

Ning Cheng did not ask, he knew that by the tone of Cang Shuo, he would surely speak about who had injured his father.

"The person who had injured my father was the Profound Core Cultivator of the Shui Clan, Shui Yi Han in collaboration with the Profound Core Cultivator Lu Ye of the Luo Huo Academy, these two people are simply too sinister and ruthless. To secretly try and kill people on their own side, while also claiming that the act was in the name of righteousness and justice, these people are just too shameless to the extreme. It is really unfortunate, that my father is the only person to know about their evil conduct."

"Senior Apprentice Brother Ning, since you also have an enmity with the Shui Clan, that is the reason why I am telling you this. That Profound Core Cultivator of the Shui Clan who sneak attacked my father, although my father was also seriously injured, but at the moment he also should be in the process of healing his wounds, but his injury when compared to my father's serious injury is simply too light." Cang Shuo said, as in his eyes flashed sparks of anger.

After listening to Cang Shuo's words, Ning Cheng suddenly stood up, as his face immediately turned ugly. He had never thought that the Profound Core Dean of the God Wind Academy was unexpectedly severely wounded by that Profound Core Cultivator of the Shui Clan.

For him to leave Ji Luo Fei in the God Wind Academy, was it really the correct decision? In case that Profound Core Cultivator of the Shui Clan had healed from his injuries, and then came looking for the God Wind Academy, just how could he not imagine what would happen?

“But I think that Shui Yi Han of the Shui Clan, even if he heals from his injuries, will not dare to casually look for trouble with my God Wind Academy. The God Wind Academy anyways, is a 5 Star Academy. Therefore, even if we do not find the Rainbow Light Grass, I will definitely return to the Hua Continent.” Cang Shuo did not care of what Ning Cheng was thinking about, and spoke in a resolute way.

Ning Cheng was already not in the mood to talk with Cang Shuo anymore, he at this moment was impatiently waiting for the Angry Axe Valley to close, so that he could get back to Ji Luo Fei in the God Wind Academy. If he had known about this beforehand, then even if it was extremely risky, he would have brought Ji Luo Fei with him.

Cang Shuo saw that Ning Cheng was silent, so he also did not speak again. At this time, the cabin that they were in suddenly started shaking. Not only was it shaking, but the shaking was even growing more intense by each passing moment.

“Senior Apprentice Brother Shuo, what is going on?” Ruimu Danqin immediately asked in panic, she was the youngest among them, and as such was unable to adapt quickly to unexpected events.

Cang Shuo also did not know what was going on, when the Sound Jade Tablet in the room suddenly emitted a voice, “The airship is encountering attacks from the Monstrous Beasts from the Lost Mountain Range, everyone be in your rooms, and do not come out casually.”

Ning Cheng was secretly horrified, this airship was flying at an extremely high altitude, for the attacks of the Monstrous Beasts to reach this high, just what level of Monstrous Beasts were they, aren’t they a bit too powerful?

The jolting and tumbling, lasted for almost a full day, before it slowly stabilized.

“Those Monstrous Beasts should have been killed off....” Feeling the room finally calmed down, Meng Jing Xiu said as she heaved a sigh of relief.

The rest of the few people also felt relieved, if the airship was compromised in anyway, since it was flying at such a high altitude, even if they didn’t die in the fall, they would end up falling into the Lost Mountain Range and would then be in an even more perilous situation.

Just as the feeling of calmness was setting in, the airship jolted once again. Just like that, the airship continued to once again shake uncontrollably, the people staying in the airship had already lost interest in cultivating, as they were living in trepidation as every single day passed by, everyone was fearing that the airship would finally end up being broken through by one of the attacks from those damned Monstrous Beasts.

It was only half a month later, that the airship finally calmed down and steadied itself. In this half a month, only a very few people came out of their cabins, and that too only when the ship was occasionally calm and steady, and would only come out to eat dinner outside their cabins, before immediately going and hiding in their rooms. Even Ning Cheng had gone out several times, but he never saw that King Xiu Xiu again.

After experiencing another half a month of constant turbulence, the airship finally smoothed down, as Ning Cheng also relaxed a bit. He did not want to fall into the Lost Mountain Range, once he fell into the Lost Mountain Range, then he did not know when would he be able to return to the Hua Continent.

“Ning Xiao Cheng, Senior Kang has invited you to come meet him.” At this time Ning Cheng saw an Essence Building Cultivator open the door to his cabin and spoke out to the few people inside.

This person was known by Ning Cheng and the other few people in the room, when Ning Cheng had first come onto the airship before, Ning Cheng and the others had met him before entering their room.

Ning Cheng stood up with some doubt, he did not know who this Senior Kang was. But since he was, at the moment, on someone else’s airship, then no matter which senior called him, he can only go and visit them.

Following the Essence Building Cultivator, he arrived at the deck of the airship, Ning Cheng then discovered that the deck was covered in bloodstains as the traces of fights had not yet fully been erased. Ning Cheng had also studied a bit of Array Formations before, so he knew that the Defensive Array Formation on the deck had been rearranged recently.

This airship’s deck was clean when they had departed from the Mo Ze Grand Plaza, but now it was filled with a lot of bloodstains, it was obvious that in the second half of the month that they were traveling, the ship was attacked quite a bit.

A dignified man was sitting on a green wicker chair on the edge of the deck, there was a white jade table in front of him with a cup of Spiritual Tea placed on it, this Spiritual Tea was apparently freshly brewed as it was still giving off steam.

When Ning Cheng saw this man, he immediately recognized him, he was the majestic looking man who had presided over the 1st and 2nd round of the Tournament in the Mo Ze Grand Plaza. He immediately knew that he should be that ‘Senior Kang’, he hastily came forward and bent forward to give a respectful salute and said, “Junior Ning Cheng meets Senior Kang.”

“You are Ning Cheng?” The dignified looking man asked with a light voice.

“This junior is indeed him.” Ning Cheng replied with a bit of anxiety in his heart, he did not understand what the hell did this person asked to see him for.

This dignified looking man nodded and actually did not inquire about why Ning Cheng had changed his name, instead he simply pointed to the green wicker chair opposite to him and said to Ning Cheng in a genial way, “You can sit down, I want to ask a few questions.”

[The Gate Of Good Fortune](#)

Chapter 124: Outside The Angry Axe Valley

Ning Cheng suppressed the fears inside his heart as he spoke, “In the presence of Senior, this Junior doesn’t dare to sit. Senior can freely ask what he wants to ask, and this Junior will definitely answer everything he knows.”

A person under another’s roof, has to bow down their head, Ning Cheng thought in his mind as he sighed internally. This Cultivator surnamed Kang has definitely surpassed the Profound Core Realm, and was, at the least, a Cultivator of the Soul Essence Realm. A cultivator in the Soul Essence Realm, as the name implied had their own Soul Essence. Even if their physical body was damaged, as long as their Soul Essence existed, they can seize another body and resurrect themselves. Or perhaps even reshape their body if they wanted. A Soul Essence was not only the person’s soul, it can be said that it was an

alternate body without the flesh, as such most of the cultivators with Soul Essence have such a capability.

The dignified looking man simply nodded, as he expressed his satisfaction with Ning Cheng's tactfulness. He slightly hesitated for a moment as he said, "What are your Spiritual Roots?"

"This Junior has not been tested in detail, but when this junior joined a 2 Star Academy before, this Junior had taken the test once, and as such knows that he only has 4 fairly good Hybrid Spiritual Roots." Ning Cheng replied without hesitation.

Ning Cheng already knew that by now a lot of people had already acquired the information that he had a 4 Line Hybrid Spiritual Root, so he did not necessarily have to conceal anything. The reason why he said that his own Spiritual Roots were Hybrid Spiritual Roots rather than Hybrid Support Spiritual Roots was also to explain his cultivation.

"I watched the competition, you could have easily helped the God Wind Academy to take the first place, why did you finally give up on it?" The dignified looking man continued.

Ning Cheng calmly replied, "After this Junior joined the God Wind Academy, only then did he come to know that the Dean of the God Wind Academy was seriously injured, Deacon Liu Xian thought that the God Wind Academy would not remain standing without the help from the seniors from the Intermediate Class Continent. Even if it was promoted to the status of a 6 Star Academy, we all knew that we could not hold that place of the 6 Star Academy. Moreover, this Junior had a deep discussion with Deacon Liu, and as such came to the conclusion that the God Wind Academy was really not eligible to qualify for the title of a 6 Star Academy, and therefore took the initiative to give up on the idea of the God Wind Academy taking the first position. It is not that this Junior deliberately tried to not take the first position, I hope that Senior would see this point."

Ning Cheng did not intentionally pretend to be confused, although it was obviously his idea, but he had vehemently imposed it on Liu Xian, he believed that the person in front of him, would not go and confront Liu Xian for this kind of small matter.

The dignified looking man nodded. "What you said is right, the tournament was conducted too hastily, the third round of the tournament truly was not a good way to select the strongest 5 Star Academy. At best, they could only select their most formidable True Condensation Realm Cultivators. Well now that we have touched upon this matter, I would still like to ask again, with your 4 Hybrid Spiritual Roots, properly speaking your cultivation should not have risen this quickly. Why are you at the cultivation level of True Condensation 3rd Level?"

Ning Cheng did not hide anything and immediately replied, that it was because he had encountered a Spiritual Essence Pool in the Daan Forest. And even took the initiative to draw the directions to its location for the dignified looking man.

The dignified looking man had already known that Ning Cheng had obtained his current cultivation through the Spiritual Essence Pool, so when Ning Cheng answered, he did not find it strange, he only glanced at the directional map that Ning Cheng drew, and simply did not show any approval or disapproval towards it. "I saw that in the tournament, you even comprehended the Axe and Spear Intent, moreover even your Spear Intent had touched on the Realm of Minor Accomplishment. For an

ordinary person, even if his intelligence went against the heavens, they would not be able to comprehend two different types of Killing Intent at such an early age as you, can you help me understand this please?”

Ning Cheng was secretly relieved, he was not afraid of this man asking why his cultivation was so high. What he feared was this person asking about the time when he had encountered the Spiritual Essence Pool. If the opposite party had asked about it, then he really did not know how to answer it. If he had lied to the opposite party, then he feared that the opposite party would clearly investigate this matter, and if they found that he had indeed deceived them, then he knew that he would simply die without knowing what had happened.

Now that the opposite party had not asked that question, Ning Cheng was certain that the other party had not investigated him in detail. Thinking about this made Ning Cheng feel a bit calm in his heart. He slowly explained that he had encountered a large battlefield in the Daan Forest, and even clearly stated about the Spear and Axe marks that were present there. Moreover, he even took out the broken Spear from his Storage Bag and passed it over to the dignified looking man.

The dignified looking man took the broken Spear in his hands. And spoke to Ning Cheng in a slightly complacent tone, “I realized that this kind of comprehension ability is something innate, it was because of this reason that I had selected that particular topic for the disciples of the 5 Star Academy, because of it, it was very easy for me to find the answer that I was looking for.”

Ning Cheng hurriedly spoke with the best of his ability when he heard the other party ask about how he comprehended the 2 different types of Killing Intent. But in his mind and heart, he felt even more fearful and alarmed. The thing called as Origin was not something that he could understand right now, but he was sure that the reason why he could understand the origins of those types of Killing Intent this early had something to do with the Mysterious Yellow Bead.

Moreover, the man in front of him had obviously figured out that Ning Cheng also had powerful computing capabilities.

After checking the broken Spear in his hands, he simply handed the broken Spear back to Ning Cheng and asked, “Since you have a Hybrid Spiritual Root, so it is normal that you could not see the changes in the leather parchment. But with your comprehension ability, you should have been able to answer the first question which asked if there was any change, so why did you write that the leather parchment did not change at all? As long as you wrote that it changed, even if you did not know the answer to the following questions, wouldn’t you be able to score 5 more points?”

Ning Cheng quickly replied in a respectful manner, “After this Junior had seen the questions, he knew that there definitely was at least a single change. However, this Junior thought that it was simply an opportunistic thing, and did not attempt it. Although if I had done it, this Junior may have gotten an additional 5 points, but it would not have helped in acquiring any position other than what I had already obtained, so rather it would only be better that I filled in the truth. Moreover, even if this Junior filled out that there was a change, Senior now already knows that this Junior would not have written it truthfully. This Junior, who had yearned to go to the Angry Axe Valley, really did not want to give a bad impression to Senior.”

The dignified looking old man nodded, giving a slight 'hmm', showing that he was satisfied with Ning Cheng's reply, "That's good, to have such a formidable comprehending ability at such a young age, and also able to restrain one's desire, you surely will have a bright future ahead of you."

Ning Cheng had a bit of contended look flash in his eyes, although he was able to notice this look in Ning Cheng, but he did not think much of it. After all he was still in his youth, as Ning Cheng did not seem to be over 30 years of age. Since he was able to have some small achievements till now, such kind of contended look in his eyes was understandable.

Because Ning Cheng had a beard, and had experienced many things in the Daan Forest and the Thunder Fall Desert, as a result he looked much older than his true physical age. If this man knew that Ning Cheng was only 19 years old, he would have definitely not have thought like that.

"If you have any questions, you can ask me." The dignified looking man finished asking questions, as his tone and expression also softened a lot.

Ning Cheng hastily asked, "Senior, is the entrance to the Angry Axe Valley in the Jia Continent?"

The man gave a faint smile, "That's not it, rather the Angry Axe Valley has a total of 6 entrances, but all the entrances are either in the other Intermediate Class Continents or the High Class Continents. The closest entrance near the Hua Continent is in the Jia Continent, though strictly speaking, the distance between the Jia Continent and the Hua Continent is actually much shorter than the distance between the Hua Continent and the entrance to the Angry Axe Valley, this is simply because they are separated because of the Lost Mountain Range. After we cross the Lost Mountain Range, then flying for a couple of days more, we would arrive at the entrance to the Angry Axe Valley in the Jia Continent."

Listening to the answer from the dignified looking man, Ning Cheng quickly said, "Many thanks to Senior for dispelling this doubt, this Junior does not have any other questions."

Not having any questions was simply not possible, Ning Cheng wanted to inquire about the 10th Continent. And even more so wanted to inquire about some of the things related to the Yi Xing Ocean. But he knew that it was simply ridiculous, since the opposite party had called him, and although he did not necessarily suspect him, but there surely would have been some doubts about his Axe and Spear Intent. Of course, not asking even a single question was just as bad, as this was something that Ning Cheng had read early on in Psychology. If one asked questions as a student, then it would lower the other person's guard towards yourself imperceptibly.

"Well then, why don't you get back to your room. The rest of the distance should not be much dangerous, and you can even take a walk outside on the deck if you want." The dignified looking man finished speaking to Ning Cheng as he reached for the cup of Spiritual Grass Tea that was placed on the white jade table.

Ning Cheng hurriedly said his goodbyes and returned to his room in a hurry.

.....

Back again in the room, Ning Cheng was in no mood to talk. He wanted to inquire more about the things pertaining to Lian Hao Yan, but he first took out the Alchemy Jade Piece that the old woman had given

him before. As for the rest of the three people, seeing Ning Cheng was not in a mood to talk, tactfully got the message and quietly concentrated on their cultivation.

After a few days passed by, Ning Cheng and the several others on the airship felt their centre of gravity drop, they all knew that the airship was now finally descending.

Ning Cheng quickly put away the Jade Piece that contained the information about Alchemy, and said to Cang Shuo and the others, "Get ready to disembark. After we enter the Angry Axe Valley, everybody try your best to not get separated from each other. I have heard that it is very dangerous inside, each time the Angry Axe Valley opened, it resulted in the deaths of many people."

"I know, Senior Apprentice Brother Xiao Cheng." Ruimu Danqin spoke in a crisp voice, although she had the cultivation of Middle Stage True Condensation Realm, but because she was protected as a baby in the God Wind Academy, she had practically no opportunity to exercise her strength. Compared to the rest of the girls of the same age, she was well below and far from being equal to them in terms of experience or strength. She only knew that she had to do everything and listen to her Senior Apprentice Brother Ning Cheng's words.

That Yue Ying, when compared to Ruimu Danqin, was not much older, yet her mentality was so mature which was totally like a person who had ventured the Jiang Hu for a long time.

After the airship came down. Ning Cheng followed the crowd off the airship. This time Ning Cheng especially paid attention to that man he had seen on the airship, the one who had a close resemblance to that King Xiu Xiu. At this time, she had her head lowered and moreover was wearing a veil scarf over her face, this time even her build seemed to have changed slightly, but Ning Cheng could still tell with a single glance that that woman was definitely King Xiu Xiu.

Yue Ying saw Ning Cheng looking in her direction. And deliberately smiled at Ning Cheng. She was doing this just for the sake of her elder brother, moreover her view towards Ning Cheng had also had changed somewhat.

Ning Cheng also gave a slight nod to Yue Ying, he was not at all interested to pay any kind of attention to a little girl like her, although she was brought to the Celestial Globe 7 Star Academy it was not entirely for a good thing, and moreover he also did not have any kind of ability to take care of such a matter. As at the moment Ning Cheng was completely blown away by the current scene in front of him. This was simply not how he had pictured the entrance to the Angry Axe Valley as, what entrance, it was simply a huge market.

Ning Cheng estimated that there were roughly at least a hundred thousand people, all over the hills and plains. Moreover, there were a variety of stalls, with various kinds of temporary stores, and was simply very noisy.

Over the noise of the crowd, a white mist was shrouding the entire valley, and there was a lot of rumbling like sounds resounding in that valley, it made people wonder that it might simply explode at any time.

"The inside of the white mist is the Angry Axe Valley, at the moment we can't get in, anyone who tries to approach it, would be pushed away by a powerful force. The Angry Axe Valley has still not fully opened yet, after opening, everyone would be given a Jade Card, with the Jade Card in hand you can go in." The

Cultivator with the cultivation of Essence Building Realm who was standing at the exit of the airship, spoke to Ning Cheng and the others.

At this time, the dignified looking man with the surname Kang walked out of the airship. He glanced at Ning Cheng and the 22 other people, and then deliberately turned to Yue Ying as he nodded and said, "You will come with me, as for the rest of the people, you will wait here till the Angry Axe Valley opens...."

Speaking till here, he suddenly stopped, he looked at Yong Gu Yun in the crowd and asked, "With your cultivation of a trivial Qi Gathering 9th Level, how were you elected to come to the Angry Axe Valley?"

Yong Gu Yun hastily replied with respect in her voice, "This Junior is a cultivator from the Ping Continent, because I had much to contribute to the Falling Star Academy, therefore I obtained a quota."

"Oh, isn't that Ning Cheng also from the Ping Continent like you?" The man nodded and spoke.

Yong Gu Yun immediately replied, "Reporting to Senior, Ning Cheng was just in the Daan Forest six months ago, before he entered the Daan Forest, at that time he also had the cultivation of Qi Gathering Realm, but his progress is actually much greater than mine."

Ning Cheng when he heard this, he immediately yelled in his mind 'SHIT!!'.

[The Gate Of Good Fortune](#)

Chapter 125: Accident

A cultivator who had cultivated to the level of Soul Essence Realm would no doubt be prudent and meticulous in their thought process, before he had not suspected Ning Cheng of anything, and as such did not find anything strange with Ning Cheng's answer at that time. Moreover, he also believed that an Early Stage True Condensation Realm Cultivator like Ning Cheng would not even think to dare to cheat him.

But now, when he heard the words from Yong Gu Yun, that Ning Cheng came out from the Daan Forest in less than a year, he immediately had some doubts. A person with a 4 Line Hybrid Spiritual Root, even if they soaked themselves in the Spiritual Essence Pool, would be unable to cultivate from Qi Gathering Realm to the True Condensation 3rd Level in a short time of even one year.

"Ning Cheng, how old are you?" The dignified looking old man suddenly turned towards Ning Cheng and asked.

Ning Cheng did not have the time to answer, when he heard a loud explosion, immediately causing the entire ground to tremble violently. Behind the Essence Building Cultivator who was standing at the entrance of the Angry Axe Valley, a huge mushroom cloud rose up into the sky.

This dignified looking man did not wait for Ning Cheng to reply, as he immediately took one step forward disappearing from their view. He had gone to examine the situation, but just as he stepped towards the place that was covered with white mist, he was immediately thrown back flying with an extremely strong force. And in just an instant flew across the heads of Ning Cheng and the others, it was obvious that the repulsive force that he had suffered was extremely strong.

At this time the scene in front of them was completely chaotic, as everything had become a mess.

Ning Cheng was burning with anxiousness, he knew that if at this time he could not find a solution, and waited for that dignified looking man to come, he would surely die.

At this time, he suddenly saw two Essence Building Cultivators go into the mist, but they were not pushed away like the dignified looking man, Ning Cheng immediately began to work his mind. He anxiously turned around to Cang Shuo and the others, and said, "Hurry up and follow me inside, if we end up separating, then find an opportunity to get together in the Angry Axe Valley quickly."

With that, Ning Cheng loudly shouted out, "The Angry Axe Valley is now open. Because the entrance was opened because of an explosion, one does not need the Jade Card to go in, don't wait for anything else...."

The scene in front of them was already chaotic, but fuelled with Ning Cheng's words it was equivalent to throwing sparks at an exceedingly dry packet of gunpowder. Just as these words came out, countless people rushed towards the entrance to the Angry Axe Valley in the mist. To Ning Cheng's astonishment, the majority of the people flocking through the entrance of the Angry Axe Valley were not repelled, only an extremely few people were sent flying out.

Ning Cheng immediately swept out with his Spiritual Sense at the people who were repelled by the mist from the Angry Axe Valley, and immediately affirmed that there was some sort of accident in the Angry Axe Valley. The people who were pushed out, their cultivations had already surpassed the Essence Building Realm. In other words, all the cultivators at the level of Essence Building Realm and below the level of Essence Building Realm, now had access, instead of only those cultivators below Essence Building Realm who could go in before.

Ning Cheng crazily moved forward, it was not only Ning Cheng who discovered this issue, but rather all the cultivators in front of the entrance of the Angry Axe Valley discovered this issue. At this moment more than 100,000 people were moving in like a human wave, and were precisely flowing in the direction of the Angry Axe Valley.

As for people like Ning Cheng and Cang Shuo and the others, since they were already mixed into the crowd with the others, they could only move forward, in fact, he himself could not attend to other people, he knew that if he was stopped by that dignified looking man, he would die without a doubt. As for Cang Shuo and the rest of the people, even if they did not have enough time to go in, at least they did not have any danger to their life.

At this time Ning Cheng did not go all out to push towards the Angry Axe Valley, as he simply allowed himself to flow along with the tide of human cultivators as he quickly entered it. As for cultivators with poor cultivation like Yue Ying and Yong Gu Yun, they simply could not even resist the tide for even half a moment, other than walking along with the tide of people at its edges, they did not have any other choice. If they tried to force themselves into or out of the flow of people, with their cultivation, it was simply courting death.

"Hurry up and get in there, if we go in late, the Spiritual Grasses and rare Treasures everywhere could...." Ning Cheng at this time was proceeding forward, shouting like a maniac as he entered the valley, if he did not use this situation to his advantage, then he really was an idiot.

“Ning Cheng, you stop for me.....” The dignified looking man with the surname Kang who was repelled by the mist at the entrance of the Angry Axe Valley finally understood what was happening, Ning Cheng unexpectedly wanted to run away, moreover he was even urging others to run together with him.

He, in the shortest possible time rushed towards the entrance of the Angry Axe Valley, but Ning Cheng had already stepped into the Angry Axe Valley, and he was once again thrown flying out by the white mist that surrounded it. If only he was a little bit faster, he would have been able to catch Ning Cheng.

.....

After a burst of dizziness, Ning Cheng was swept away by the white mist, as he let out a sigh of relief, now that he had entered the Angry Axe Valley, at least for the time being he did not have to worry about that fellow with the surname Kang.

“Crash.” Ning Cheng fell onto a piece of rough looking crushed stone from above, as his whole body felt in pain after crashing into the gravel.

If it were an ordinary person in his place, this much pain would have been more than enough to shave off more than half their life.

Ning Cheng slowly climbed up, as he carefully looked around in all 4 directions, as he had some doubts in his mind, was this place really the Angry Axe Valley? He could not even see even a trace of a valley, in all the four directions, all he saw was crushed stones, he could not even see the edge where it ended. Not only that, he had even come here along with a huge amount of people, but he did not even see a single person in sight, not even Cang Shuo, who was together with him.

But then Ning Cheng quickly became excited, as he saw a Level 4 refining material ‘Shining White Jade’. The Shining White Jade was used as a refining material to craft top level Artefacts, moreover these pieces of Shining White Jade were very beautiful, and were very much in demand by the female cultivators. This piece of Shining White Jade was lying outside, weathering the wind and rain, and as such it was incomparably bright and clean.

Ning Cheng went forward and picked up this piece of Shining White Jade, as his heart was filled with anticipation, perhaps this place would bring an unexpected pleasant surprise to him.

Ning Cheng then once again looked carefully in all the four directions, and at once found several pieces of Shining White Jade. Although he was looking carefully, he did not do a thorough check of the surrounding quarry, after all, since he was in the Angry Axe Valley, this Shining White Jade was not a very high quality thing, moreover the valley would only be open for a short three months. Since the Angry Axe Valley had so many good things inside, if he stayed inside this gravel quarry, his gains would not even be worth the candle.

This quarry of gravel was by no means a small one, since Ning Cheng was not familiar with the Angry Axe Valley, he thus did not dare to bring out a Flight Type Magic Weapon. As Ning Cheng was figuring out which direction to proceed in, a slight change in the flow of air immediately made Ning Cheng to dodge sideways, just as Ning Cheng almost leapt to the side, at the same time, together with a fishy smelling wind, a shadow swept towards Ning Cheng.

Ning Cheng immediately brought out his Spear and gripped it in his hands, as he simultaneously saw that the shadow was a Class 3 Monstrous Beast. Its entire body was grey in colour, and was similar in colour to the gravel on the ground. Moreover, its head and neck was almost the same, and it looked like a brown bear, but was somewhat smaller in size to the bear. As for what kind of Monstrous Beast was this, Ning Cheng simply did not know about it.

When Ning Cheng still had the cultivation of Qi Gathering Realm, he had met a Class 3 Monstrous Beast, although he was able to beat the Monstrous Beast, but that was in the Daan Forest, he generally did not mess with those Class 3 Monstrous Beasts. However now, although he did not mess with this Class 3 Monstrous Beast, but rather this Class 3 Monstrous Beast came to mess with him.

“Grind Grind” The Monstrous Beast called out in a few times, it was as if a rusted gate was swinging on a broken axis, which if one heard would grimace in pain, but Ning Cheng knew that it was calling out to Ning Cheng.

After seeing that Ning Cheng had taken out his Spear, this Monstrous Beast did wait for even half a moment as it started its attack on Ning Cheng.

With the Spear in his hands, Ning Cheng directly used its imposing momentum, and stabbed at the gigantic head of the Monstrous Beast. This Monstrous Beast felt that Ning Cheng and his Spear was not simple, and once again grunted, as it lifted its palm and hit the incoming Spear of Ning Cheng.

“Boom” As Ning Cheng brought the surrounding imposing manner of his Spear and collided with the thick palms of the Monstrous Beast, it immediately brought out a bloody light.

However, the huge force of the palm strike also transferred to Ning Cheng as he flew out with a bang, this Monstrous Beast did not even try to attend to its injured palm, as it once again plunged towards Ning Cheng.

Ning Cheng forcibly stood up, and without thinking, immediately turned around and ran away. He knew that he was absolutely not a match for this Monstrous Beast, although his Spear had caused a bloody hole to appear on the palm of that Monstrous Beast, but that Monstrous Beast did not even feel it at all, and once he fought all out with the Monstrous Beast, then the best result for him would only be to die together with the Monstrous Beast.

The speed at which Ning Cheng left was very quick and in just a short time, he had run out of that stone quarry. When he turned to look back, he found that the Monstrous Beast did not follow up. Ning Cheng finally understood that this stone quarry was that Monstrous Beast’s territory.

Thinking of this, Ning Cheng did not feel happy. The Monstrous Beast’s territory was divided according to their strength, that stone quarry apparently did not have much resources, moreover the Monstrous Beast that he had battled just a moment ago did not seem to have much skill. If it was just a single one of them, then he could at least think of something to beat it, but if he met another one, just what could he do?

No matter what, he first had to get out of here.

This time, Ning Cheng was extremely careful, in case he was ambushed by a Class 4 Monstrous Beast then he knew that escape, for him, would simply be impossible.

Ning Cheng lowered his body as he carefully looked around, suddenly a faint aura that was familiar to him hit him.

The reason why he felt that this aura was familiar, was because he had also felt the same kind of aura during the time he was in the Daan Forest, at the place where he saw the fissure in the ground that was created by the Great Axe, moreover he had also comprehended the Axe Intent by that fissure, and the faint aura that he was feeling at the moment was definitely the Axe Intent.

Ning Cheng forcibly suppressed his surprise, he had never thought that just as he would enter the Angry Axe Valley, he would be able to feel this kind of Axe Intent in the Angry Axe Valley. But the Axe Intent here was much purer than what he had felt back in the Daan Forest, so much so that it cannot even be compared on the same level. Not only that, there also seemed to exist a particular Axe Charm within here.

Ning Cheng came to understand that, the person who left those axe marks in the Daan Forest must have also come to the Angry Axe Valley previously. If that man had also comprehended the Axe Intent in the Angry Axe Valley, then it was no wonder that he felt a familiar feeling towards it.

Feeling the incomparably clear Axe Intent, Ning Cheng actually forgot that he was still in the Angry Axe Valley, as he unconsciously moved towards the place that contained the traces of the Axe Intent.

Along the way, he did not see the axe marks, but the Axe Charm was the thing that he was focussed on, and as such Ning Cheng gradually entered into the realm in which he simply forgot about himself. At this moment, he only knew that he had to continue to unceasingly hack out with his hand to comprehend the Axe Intent, as he walked step by step towards the place where the Axe Charm was getting even more concentrated.

At this moment, in the entire Axe Valley, no one ventured out to find Spiritual Grasses or rare treasures, not to mention seeking out ancient caves, perhaps they were afraid because of their low strengths, as such, at the moment, Ning Cheng was the only person who was actually moving about on the inside.

To the present Ning Cheng, not to speak of him about knowing about treasures, even if he knew about it, he would not pass by this kind of opportunity, as his entire person already was in the middle of a sudden enlightenment.

[The Gate Of Good Fortune](#)

Chapter 126: [Angry Axe, The 1st Trace]

Yue Ying had hidden herself in a cave hidden behind a few large rocks, and was clutching a ring in her hands, she did not dare to move at all from that spot. She was brought into the Angry Axe Valley by the flowing crowd of people, she basically could not do anything at all to resist at that time.

After Yue Ying entered the Angry Axe Valley, she knew that she immediately had to find a place to hide, as she could not roam around this place freely. Moreover, she even prayed that nobody found her here, otherwise with her cultivation of Qi Gathering 6th Level, it would be the same as reaching a dead end.

What Yue Ying did not expect was that, after she entered the cave, she would immediately find a withered skeleton, which even had a ring on one of its fingers that were in front of her. Yue Ying immediately took the ring into her hands, after all she had lived in the Clear Heart Academy and the

Falling Star Academy till now, so she knew that she really was lucky this time, as the ring that she was grasping in her hands was definitely a Storage Ring.

For the past two days, other than the few snacks that Yue Ying ate from her Storage Bag, she basically did not go out to look around, she could hear the roars of Monstrous Beasts outside which really made her heart palpitate and was afraid to even take a single step out of the cave.

After two days passed by, she finally dared to come out and take a look at the Storage Ring in her hands with the intention to study it. What made her pleasantly surprised was that the Storage Ring in her hands was unexpectedly opened very easily by her. Moreover, she found a few things inside the ring, which made her heart completely unable to quiet down for a long time.

Yue Ying then used her pitiful knowledge about Array Formations, as she once again went into hiding inside the cave, and somehow even found a large boulder to block the entrance to the cave. Once again returning to the depths of the cave, she started to carefully cultivate, while waiting for the Angry Axe Valley to close.

.....

Ning Cheng suddenly opened his eyes, he felt a shadow of a Great Axe approach him with his Spiritual Sense, at this time Ning Cheng did not think of anything, and immediately lifted his hand and threw out an Axe Fist.

The Axe Fist was in no way comparable to the substantial looking Axe Shadow before it simply exploded, but because it was filled with Axe Intent, as such because of the explosion caused by that invisible Axe Shadow, in the middle of his Sea of Consciousness, that had not yet fully formed, echoed a tremendous thunder like explosion.

After this thunder like sound, Ning Cheng was directly thrown a few dozen meters back. As he sprayed a mouthful of blood, staining a large portion of the stony cliff he was facing.

Ning Cheng immediately sat cross-legged, although he knew that the explosion of this Axe Shadow was not strong enough to kill him, but he could still feel the formidable power in that Axe Shadow.

The Killing Intent of the Axe Shadow, along with its traces were continuously being assimilated and taking shape in Ning Cheng's consciousness, moreover even the surrounding Spiritual Qi was constantly gathering around him unceasingly. As for what was happening around him, Ning Cheng was simply not aware of it, what he did realise was that he was starting to gain a better comprehension of the Axe Shadow in his consciousness. Which caused even his cultivation level to rise continuously, moreover it was rising at a fast pace.

Ning Cheng did not open his eyes, but he could still feel that the Spiritual Qi gathered around him contained extremely minute traces of an aura that he had never come in contact with before. This type of Spiritual Qi that he was feeling was actually even much higher in quality than the Spiritual Qi that he had felt initially at the bottom of the Forbidden Cold River, in front of the entrance to the Immortal Mansion, but this kind of aura was too light, it was so light that it was equivalent of it not existing at all.

But even though this kind of Spiritual Qi was light to the extent of not existing, Ning Cheng could still feel his cultivation level rising continuously under its influence.

When he had entered this place, he only had the cultivation of Early Stage True Condensation 3rd Level, but now he could feel his cultivation quickly rising to Middle Stage True Condensation 3rd Level, then Late Stage.....

Together with the Axe Shadow finally starting to take shape with the help of his Spiritual Sense, he simply could not find the words to describe the formation of this Axe, the formidable Axe Intent that was coming out of this one Axe Shadow immediately made Ning Cheng to stand up, as he immediately wanted to try this axe out. Once this axe had fully formed in his consciousness with the Axe Intent, he suddenly realized that his cultivation level had directly advanced from the Late Stage True Condensation 3rd Level, breaking through the shackles and immediately arrived at True Condensation 4th Level.

Ning Cheng suddenly issued a long and loud shout, as he immediately stood up. At this time, he could now clearly see a skeleton a few dozen meters in front of him, Ning Cheng came to realize that he had been blown back from that same spot a few moments ago.

Ning Cheng once again slowly walked towards this skeleton, before he finally discovered that there was a golden coloured Great Axe in one of its hands. The axe was almost half a meter wide, and even its body was completely golden in colour. Maybe it was because of the erosion from the Axe Intent in the Angry Axe Valley, but this Golden Great Axe did not have even a single trace of being refined by a hand, it was as if this axe was formed naturally.

The cloths on the skeleton had already turned to ash. A Storage Bag was lying near it which was already decaying, as for the things that existed in the Storage Bag, they simply did not exist anymore, there was only a golden buckle laying under one of the palms of the skeleton. Ning Cheng picked up this Great Axe, and saw that there were several characters engraved on its shaft, Lan Yu Chen's Golden Great Axe.

Ning Cheng could immediately tell, that this axe was a best quality Artefact. He had already guessed that this Lan Yu Chen must have come to this Angry Axe Valley to understand and comprehend the Axe Intent, but the difference was that Lan Yu Chen came here with his axe.

Thinking about how, just after he came here, he was almost killed by the terrible Axe Shadow that suddenly attacked his Spiritual Sense, Ning Cheng had already understood how Lan Yu Chen died.

Lan Yu Chen must have also arrived at this place like him. But he could not block that one Axe Shadow, as a result this Axe Shadow from the Angry Axe Valley exploded in his Zifu, which ultimately led to his death here.

After he understood this point, even Ning Cheng felt somewhat scared in his heart, if he had not comprehended a bit of the similar Axe Intent in the Daan Forest, then at this time, wouldn't he also have met the same fate?

Ning Cheng put Lan Yu Chen's Golden Great Axe aside, now that he obtained an axe, although the grade of the axe was very low, it would at least increase his survivability in this place. Grateful for the favour that he had received, Ning Cheng felt that, at least, he should provide a proper burial to the remains of Lan Yu Chen.

He immediately carved out a pit in that stone quarry, then carefully placed the bones of Lan Yu Chen in a Jade Box, then placed that Jade Box gently into the pit. Before he covered up the pit that was supposed to be his grave, Ning Cheng also picked up the golden buckle.

There were a few words engraved on the buckle, “To my husband Yu Cheng, hope you carefully look out for yourself outside, your wife Miao Shu will definitely wait for you day and night....”

Ning Cheng’s heart suddenly descended into gloominess, this golden yellow buckle should have been given to Lan Yu Chen by his wife Miao Shu, the meaning of the words of his wife meant that she wanted her husband to return to her side as soon as possible, so that they could cultivate together. But she did not think that even before her husband could even comprehend the Axe Intent in the Angry Axe Valley, he would unexpectedly fall here.

Ning Cheng let out a sigh, as he remembered a poem that he had learned before, those wretched white bones piled up beside the river, were still lovers longed for in a young woman’s dreams.

[TL Note – The actual Chinese poem is ‘可怜无定河边骨，犹是深闺梦里人。’ It literally translates to ‘But arisen from their crumbling bones on the banks of the river at the border, dreams of them enter, like men alive, into rooms where their loves lie sleeping.’]

Compared to Lan Yu Chen, wasn’t he also not the same? Ji Luo Fei was still waiting for him back in the God Wind Academy, he absolutely cannot be the same as Lan Yu Chen, he could not let the people who were eagerly waiting for him to lose hope.

Ning Cheng also put the buckle into the Jade Box, as he put the Jade Box back into the pit and filled it up. This buckle was the testimony of love between Lan Yu Cheng and his wife Miao Shu, there was simply no need for him to take it away, even if it was some sort of precious treasure.

Ning Cheng once again grabbed the Golden Great Axe, as a boundless Killing Intent once again poured into his mind, Ning Cheng suddenly leapt up, and swung down the huge axe in his hands.

A golden coloured Axe Shadow emerged from it out of thin air, and in just an instant it had lacerated everything that was in front of the axe, moreover without breaking its momentum, a boundless Killing Intent swept across from it that split the surroundings apart. At this moment, the Axe Shadow had such an imposing might that it felt like it could even split apart the heavens itself, this kind of imposing manner was not something that could be returned.

This kind of relentless killing potential was just like an autumn wind that sweeps away the fallen leaves, Ning Cheng thought, as the axe in his hands hit its target producing a tremendous explosion. When the Axe Shadow was thrown out, Ning Cheng realized that the traces of Axe Shadows that he felt earlier were exactly the same, after this Axe Shadow had taken shape from the surrounding influences from before, Ning Cheng found that this Axe Shadow had its own emotions and trajectory.

“Bang....” The Golden Great Axe Shadow collided with the huge stone wall in front of him, as it immediately created an astonishingly deep crack, even the surrounding rock came flying out, this Axe Shadow had left a very deep imprint of itself on the giant rock hard cliff in front of him.

This was one powerful axe, Ning Cheng felt that this Axe Intent, when compared to the Spear Intent that he had comprehended from the broken Spear before, was several times more powerful. With such a strong Killing Intent in the form of Axe Intent, it must be given a proper name.

Ning Cheng could not think of a better name, since he had found this axe in the Angry Axe Valley and even comprehended his first type of Axe Intent with it, moreover since it even had such a strong and formidable imposing manner, and also imprinted a deep mark in the Angry Axe Valley, he would simply call it '[Angry Axe, The 1st Trace]'.

[Angry Axe, The 1st Trace], this name looked very simple, but after Ning Cheng gave it that name, he actually began to like it very much. With this kind of axe in his hands, at this moment, his heart was filled with a formidable self-confidence. This Great Axe was still not refined by him, and yet it was still able to display such a formidable might, once he fully refined the Great Axe, and fired a shot with all his strength, just how scary would it be? In the future if he got his hands on an even more powerful axe, just how far would his power even rise?

Ning Cheng did not immediately refine the Great Axe in his hands, until this time, he did not have the free time to observe this place.

The place he was in was a long and deep ravine, Ning Cheng did not know when he came in, moreover he also did not know how he came in. But this ravine was filled with an incomparably formidable Axe Type Killing Intent, moreover it even was filled with Axe Charm that was everywhere in his surroundings, which made his comprehension of the Axe Intent sublimate unceasingly, and then again sublimate unceasingly.

As Ning Cheng felt the surrounding Axe Charm, he was simply delighted, he decided to refine the golden axe in his hand first and then slowly take his time to comprehend the meaning of the Axe Type Killing Intent in this Angry Axe Valley. Even if he could not obtain anything else from this Angry Axe Valley, as long as he could comprehend the meaning of the Axe Type Killing Intent here, for him, such a harvest was already extremely huge. Besides the Spiritual Qi in the Angry Axe Valley was also incomparably better than any other kind of cultivation atmosphere, although this kind of atmosphere is very thin.

Refining one of the Best Quality Artefact was not much difficult to the current Ning Cheng, but what made Ning Cheng pleasantly surprised, was that after he had refined the Golden Great Axe in his hands, he unexpectedly even obtained a new piece of information. The inside of the huge axe contained the detailed explanation about Intents.

There was an essential difference between Killing Intents and Techniques, a Killing Intent is a source of power for a Magic Weapons and Artefacts and even for the Techniques derived from the Origin. If a person had a formidable control over the Killing Intents, then he/she could simply destroy any kind of obstacles with just their Killing Intents. Whether it was Sword Intent or the Spear Intent or the Axe Intent or any other kinds of Killing Intents, they were all simply extensions of the true Killing Intent, and as such all these so called Intents were classified as Killing Intents.

Moreover, even Killing Intents have their own levels similar to cultivation levels, not only they were graded from high to low in each level, but the Killing Intents were also classified into 5 different realms.

When one initially feels the Killing Intent, and can make use of the Killing Intent for a short time, then it would mean that he/she had finally started to gain insights into the Elementary Realm. Ning Cheng naturally thought, that when he had seen the Spear marks and the Axe marks in the Daan Forest, it was at that time that he had comprehended the Axe Fist for the first time, and from then on had been able to feel Killing Intents.

The Killing Intent's second Realm was the Realm of Minor Accomplishment, where one could stimulate their own Killing Intent and incorporate it into their own Magic Weapons to fight against their opponents, which would immediately increase their killing potential by almost a full level. Ning Cheng understood, that he had also similarly surpassed the Realm of Minor Accomplishment, at the time that he had battled against Meng Yu Jing, he had comprehended that single Spear, it showed that his Killing Intent had already advanced to the Realm of Minor Accomplishment.

The Killing Intent's third realm was the Realm of Major Accomplishment, where one could stimulate their own Killing Intent to create a kind of Killing Force, this Killing Force would not only put you in an advantageous position, it can also subject your opponent to an invisible suppression and even inhibit the opponent's fighting capabilities.

Ning Cheng heaved a sigh, before when he had comprehended the [Angry Axe, The 1st Trace], and when had blasted out with his axe for the first time, he could now already tell that he had stepped into the Realm of Major Accomplishments in Killing Intents.

The Killing Intent's fourth realm was the Realm of Partial Omniscience, reaching this realm, as one's Killing Intent rises, they can easily break free from the Killing Force, and one can conveniently use any kinds of techniques relating to Killing Intent simply with the tips of their fingers.

As for the Killing Intent's fifth realm, it was the Realm of 'Returning to the Void', the introduction for this realm was extremely vague, when a cultivator cultivates their Killing Intent to this realm, the Killing Intent would simply be everywhere and nowhere at the same time.

The Gate Of Good Fortune

Chapter 127: The Fight Over The Mysterious Frost Zoysia

Ning Cheng did not think that it was something strange, since his Meridians were remoulded by the Mysterious Yellow Origin, moreover he also had the chance to enter the Angry Axe Valley, so comprehending Killing Intents to the Realm of Major Accomplishment was quite normal. Moreover because of his monstrous comprehension towards the Killing Intents, he could vaguely feel that once his cultivation of the Killing Intents reached the ends of the Realms, it would transform into something else, as to what this something else was, he was unable to understand it at the moment.

Ning Cheng did not care much about these Realms, since he had the Mysterious Yellow Origin in his body, as such if he could not quickly comprehend the origins of these Killing Intents, then he truly would have been a disabled person.

Putting the Golden Great Axe directly onto his back, Ning Cheng once again stood up, as he began to walk towards the depths of this Angry Axe Valley.

In the Angry Axe Valley, together with the traces of Axe Charm, made Ning Cheng unable to stop his own footsteps, just when he felt that his understanding and experience had once again reached a limit, an

Axe Shadow once again appeared that split the air in front of him as it tried to make its way towards the centre of his consciousness.

Ning Cheng was ready this time, he lifted his hands and grabbed the Golden Great Axe on his back, and immediately chopped down with it.

[Angry Axe, The 1st Trace], this was the first trace of Killing Intent that he had comprehended in the Angry Axe Valley. As he chopped down with the axe in his hands, at the same time he also exploded out with his Axe Intent.

“Boom....”

The invisible Axe Trace and the Axe Trace in Ning Cheng’s mind immediately collided with each other as they exploded, which made Ning Cheng directly fly out. But because of the explosion, Ning Cheng immediately felt a stabbing pain his Zifu, as he spouted several mouthfuls of blood, as he was sent flying tumbling head over heels.

However, Ning Cheng, at present, was different from before. He once again immediately flew up, and once again chopped down with the Great Axe in his hands, this chop was based on the insights that he had gained from that single axe that had exploded in his mind.

The Golden Great Axe Shadow that the axe in his hands had brought out was no longer just a simple empty line, as just under the Golden Great Axe Shadow, a giant tornado formed.

The tornado’s Axe Intent immediately gathered all the Killing Force in the surrounding several feet of it, as it condensed it into a single point, before exploding on the wall of the Valley.

“Rumble Rumble....” An extremely fearful rumble of something akin to thunder resounded throughout the valley, which was coming from the incomparably hard stone wall of the valley, as immediately a huge crater formed at the centre because of the blast. No, rather it would be better to say that the huge stone crater was formed because of the Great Axe that had slammed into it. The crater was shaped like a funnel, moreover the inside surface was as smooth as a mirror, after being cut by the Axe Intent, there was simply not even half a shred of a jagged edge, this was the effect of using his axe along with his Axe Intent a moment ago.

Ning Cheng lifted up the axe and stood there for a while. There was surge of pride in his chest, the Killing Force of this form of his axe was even more powerful than the one from before, moreover once the Killing Force was condensed to a point, even if it was a cultivator at the Essence Building Realm, he believed that when this axe attack exploded on their bodies, then it would be extremely hard for him to even save their poor life.

“This is my Angry Axe’s second form. [Tornado].” Ning Cheng’s voice reverberated throughout the endless axe valley

At present Ning Cheng was filled with excitement, he had only been in the Angry Axe Valley for just 10 days, and not only did he advance to True Condensation 4th Level, but also had comprehended the true Killing Intent. If he continued on like this, just how much would he be able to achieve in the future in this valley before it closed?

With an extremely excited mood, Ning Cheng once again moved forwards towards the depths of the Axe Valley. However, this time, before he could even walk forward 10 meters, a formidable repulsive force descended on him, which made Ning Cheng quickly stop in his tracks. He affirmed that if he dared to disregard this formidable strength, and continued to proceed forward, then most probably he may be blown out of the valley anytime.

If he was thrown out from this place, then it was simply not worth mentioning, he could simply come back again, but if he was blown out of the Angry Axe Valley, then he would possibly have to face off against that mighty Soul Essence Realm Cultivator on exit.

Ning Cheng once again sat down, he wanted to adapt to his surrounding changes first, and only then would he continue to move forward. However, after Ning Cheng sat down, he felt that the pressure on him was getting heavier and heavier, as he subconsciously grabbed something on the ground with his hands to support himself, but then he immediately felt that the thing that he had grabbed from the ground was something icy cold.

Ning Cheng was startled, as he immediately saw that what he had grabbed was a rock, the size of a football. He immediately used his Spiritual Consciousness to swept across the rock, which made him stand up in shock. The rock that he had accidentally grabbed onto, happened to actually be an Exotic Wild Extreme Essence. Not only was it an Exotic Wild Extreme Essence. It was also of a dark silver in colour.

After passing through so many months of hard work, Ning Cheng was now not someone who did not know anything about this world. The Exotic Wild Extreme Essence in his hands was one of the top class crafting materials, moreover it was an extremely rarely seen existence.

The Exotic Wild Extreme Essence was something that originally formed in the centre of a meteorite from space, when this meteorite fell on some planet, it naturally forms under a particular environment, but only after a long time. It was clearly divided into different grades based on its colour. If it was brown in colour, then it was a Rank 8 Crafting material, if it was dark silver in colour then it was a Rank 9 Crafting Material, and if it was pure silver in colour then it was a Crafting Material that went beyond the Rank 9 Crafting Materials.

As to the crafting materials above Rank 9, Ning Cheng had only seen an introduction of them, but as to what use were they, even he did not know a single thing about it.

But now in his hands was an Exotic Wild Extreme Essence and that too dark silver in colour, it meant that he was actually holding an extremely rare Rank 9 Crafting Material in his hands, it was simply priceless.

Ning Cheng once again searched for more, and discovered four more of these Exotic Wild Extreme Essence, without any hesitation he immediately put those treasures into his Storage Bag. Including the Exotic Wild Extreme Essence in his hand, two of them were dark silver in colour, two of them were brown in colour, and unexpectedly there even was one which was pure silver in colour.

Ning Cheng did not have the time to think how these Exotic Wild Extreme Essences came to being here, when an even more powerful repulsive force descended on him that tried to send him away.

He already knew that there was an Axe Charm in the atmosphere in this Angry Axe Valley, which had made Ning Cheng to forcibly back off to some distance by himself, to avoid being entangled by the Axe Charm in the Angry Axe Valley. But facing this kind of strength, Ning Cheng had no room for resistance, before he was directly taken out of this place.

When Ning Cheng finally woke up, he discovered that he was standing atop a low hill. This was definitely not the place that he had entered the valley from, Ning Cheng thought as he looked around for a moment, and immediately became surprised that there was simply nothing in his field of view in front of him, not even the entrance to the valley.

Ning Cheng closed his eyes, and once more clearly saw the Axe Intent that he had comprehended in the Angry Axe Valley. At this point of time he understood vaguely that that valley was the genuine Angry Axe Valley, it was because it was a truly Great Axe that had actually divided the valley, and also why this valley contained the various things like the Axe Type Killing Intent and the Axe Charm.

But not all the people were able to enter this genuine Axe Valley, only when one feels a connection to the Axe Intent here, moreover only after a sudden epiphany, could they unknowingly enter this genuine Angry Axe Valley. In other words, that was the true entrance to the Angry Axe Valley, and was not known by anybody else. Only a person who was predestined to find it could go in. Since he had the Mysterious Yellow Origin, without a doubt, he was one of those predestined people.

That Lan Yu Cheng was also not a simple person, but it was a pity that his strength was slightly weaker, after entering the genuine Angry Axe valley, he could not block the first trace of the Axe Type Killing Intent.

Ning Cheng looked all around the hill, and could only find a few Rank 1 and Rank 2 Spiritual Grasses, as such Ning Cheng was not much interested in wasting time collecting these low ranked Spiritual Grasses. But then a howling sound attracted Ning Cheng's attention, as he used his Spiritual Sense to sweep past the hill, he immediately sensed several human shadows rushing towards the place from where that howling sound was originating from.

There must be some kind of good thing in that place, Ning Cheng thought as he immediately hung the Golden Great Axe on his back, while simultaneously rushing towards the place from where the howling sound was coming from. With his present strength, he was ready to fight for some good things. He knew that he could not find all the good things by himself, once people found something better, he was not the type to take the initiate and give the good things to others. In any case, since he had to fight for it, then he would not hesitate even one bit.

When Ning Cheng arrived at the place, there were already more than a dozen people present. A burst of incense like fragrance was transmitted to them with every gust of wind. What these more than a dozen men were gathered around was an icy lake that was sending out repeated bursts of cold air, creating howling like sounds, while there were 9 blue mushroom shaped things floating in the centre of the lake.

Ning Cheng immediately identified it as the Mysterious Frost Zoysia, this Mysterious Frost Zoysia was a Rank 5 Spiritual Grass, and can be refined into a Profound Replenishment Pill. Moreover, it was also a top quality healing elixir, even if a master in the Soul Essence Realm was physically seriously injured, using the Profound Replenishment Pill would provide them with extremely beneficial results. As long as their limbs were actually not separated from their bodies, the healing power contained within the pill

would be more than enough to completely heal the serious injuries in an extremely short time. Moreover, the Mysterious Frost Zoysia has an even more important characteristic, that was, even if it was not refined into the Profound Replenishment Pill, it still had an extremely good curative effect.

For 90 percent of the cultivators present here, this was the most important point. Because, as most of the people do not know about Alchemy, including Ning Cheng, they simply would not be able to refine such a pill by themselves.

When Ning Cheng arrived, no one paid much attention to him, here there were already more than a dozen people, so even if one more person joined the fray, it would not make much of a difference.

Not to mention that the icy lake was freezing cold, even without the presence of the freezing cold, with it still being so far from them, if their speed in rushing towards it was even a bit slow over such a long distance, then one would end up with not even soup to drink in the end.

Ning Cheng looked at the people who were preparing to rush towards the lake, other than the single Essence Building Cultivator, the rest of the people were all cultivators in the True Condensation Realm, moreover his cultivation was also not the lowest among them, nor was it the highest. This allowed Ning Cheng's heart to calm down, in the end it would be a competition of speed to reach the lake, at least he knew that he was definitely not worse than others in that respect. Since he had the experience of that Forbidden Cold River, coupled with his now richer and thicker True Essence, although he had the cultivation of only True Condensation Realm, but since he had already formed his Sea of Consciousness, how could he fear that he could not even snatch away the Mysterious Frost Zoysias?

At the moment, the Mysterious Frost Zoysias were not yet mature, as such their fragrance was very light, once the Mysterious Frost Zoysias reached maturity, their fragrance would be countless times stronger than it was now.

Ning Cheng squeezed into the tight crowd of people who were staring at the Mysterious Frost Zoysias that were in the centre of the lake, after the time it takes for half an incense stick to burn, the Mysterious Frost Zoysias completely unfolded, while simultaneously giving out a rich and thick fragrance.

Ning Cheng, almost at the same time, exploded out with his fastest speed, but although Ning Cheng was fast, the others were also not slow.

There was a strong Restriction over the icy lake, as a result those True Condensation Cultivators who could not guard against that kind of Restriction splashed into the lake. Because of the biting cold lake water, most of the True Condensation Cultivators who fell into the lake were not able to bear it, as such, those True Condensation Cultivators gave up on wanting to steal the Mysterious Frost Zoysias, as they hurriedly swam towards the shore.

But then, immediately several waves started rolling on the surface the lake, and in just a very short time several of the True Condensation Cultivators disappeared into the depths of the icy lake. It was closely followed by several streams of blood emerging and merging into the lake water, before the icy lake's surface once again turned tranquil.

Seeing that, the few cultivators still outside the lake felt their scalps tingle with dread, as they hurried to forcibly increase their altitude of flight. But then a shadow jumped from the ice lake, catching onto a

cultivator who had flown up pretty high enough over the lake, immediately dragging him down. Once again there were several streams of blood merging into the icy lake before it turned tranquil again.

Some of the cultivators immediately became terrified as they reduced their speed, as such the people competing for the Mysterious Frost Zoysias immediately became a lot fewer in number, if the rest of the people slowed down even more, then they simply would have no hope to obtain it.

At this moment, the importance of a Spiritual Sense cultivated in a body fully manifested, whether it was Spiritual Sense or Spiritual Consciousness, it definitely indicated an extremely powerful cultivator, as those people immediately brought them out in front of them to help. If one's Spiritual Sense was poor, then they could only fall behind.

Ning Cheng's speed was only second to that Essence Building Cultivator, rather when compared to him, the Essence Building Cultivator was only a tiny bit slower. When the Essence Building Cultivator saw Ning Cheng's rapid speed that was slightly higher than his own, it made him glance at Ning Cheng with some doubt in his eyes.

Their target was only a few hundred meters away, as such there was not much time to think about it, the Essence Building Cultivator arrived first, as he immediately bent down and grabbed a handful of the Mysterious Frost Zoysias, and together with it immediately rushed out of the icy lake. That Essence Building Cultivator obviously had taken some precautions beforehand, as he lifted his hand and brought out a sword and immediately flicked it, his aim was the thing that rushed out from the lake to stab him.

It was at this time that Ning Cheng arrived.

[The Gate Of Good Fortune](#)

Chapter 128: So Strong

Just as Ning Cheng arrived, he did not go after the Essence Building Cultivator to immediately rob the Mysterious Frost Zoysias from him. Rather, he simply grabbed the Golden Great Axe on his back and immediately chopped down at the surface of the icy lake. As he chopped down with his axe, he also immediately descended along the heels of his attack, while simultaneously grabbing onto several stubs of Mysterious Frost Zoysias.

"Aaaah....." An extremely pitiful scream emerged from the beneath Ning Cheng's Great Axe, as giant waves rolled unceasingly on the water surface, while bloody lines emerged from something as it dispersed into the surrounding waters. But then immediately, that something quickly swam to a distant place.

Ning Cheng, at this moment, had already grabbed four stubs of the Mysterious Frost Zoysias. As he simultaneously turned around and ran away. There were a total of nine stubs of Mysterious Frost Zoysias initially in the lake, and he knew that he wouldn't be able to grab them all, so for him, four stubs were already enough. That Essence Building Cultivator had also beaten the now heavily injured Monstrous Beast inside the water, as he picked the two stubs of the Mysterious Frost Zoysias before. As for the remaining three stubs of the Mysterious Frost Zoysias, they were each taken away by three True Condensation 9th Level Cultivators.

With the four stubs of the Mysterious Frost Zoysias in his hands, Ning Cheng finally landed at the shore of the lake with a very quick speed, while he simultaneously rejoicing in his heart. When he had chopped

down with his axe, he had no idea where the Monstrous Beast at the bottom was at, he had simply chosen a location where it was best to perform a sneak attack from, but the result proved that what he had guessed was definitely right.

Just as Ning Cheng wanted to leave, three True Condensation Cultivators blocked Ning Cheng's path. Two of them were at True Condensation 7th Level, while one of them was at True Condensation 9th Level.

"Leave behind the Mysterious Frost Zoysias that you obtained, and you can walk away." One of the True Condensation 7th Level cultivators, who was short, said as he stared at Ning Cheng in disdain.

The corners of Ning Cheng's mouth revealed a hint of sneer, he knew that he would not be able to easily walk away. He had thought that the first person to block his path would be that Essence Building Cultivator, but he actually had not thought that that Essence Building cultivator would not even look in his direction, rather it was these three True Condensation Cultivators that had found him. Not only did they want him to leave behind the Mysterious Frost Zoysia, they even wanted him to leave behind all of them.

"Does the Mysterious Frost Zoysias that I obtained belong to you?" Ning Cheng spoke with a sarcastic tone.

"No, but with your trivial cultivation of True Condensation 4th Level, a person like you is really not qualified to carry off four stubs of the Mysterious Frost Zoysias. Don't you think that your table manners are too atrocious?" That True Condensation 7th Level Cultivator said with a frown.

This was the Angry Axe Valley. So Ning Cheng did not conceal his true cultivation. Here, only the strong could talk, as such he also wished for his own cultivation to reach a high point, so he would certainly not go about hiding his cultivation. So when the opposite party saw that he had the cultivation of True Condensation 4th Level, he did not find it strange.

"If I don't want to give it?" Ning Cheng opened his hand, as his Golden Great Axe once again appeared in his hand.

The True Condensation 9th Level Cultivator who had not yet spoken, glanced at the Great Axe in Ning Cheng's hands and said with a light voice, "It seems that your axe is filled with a mercenary spirit, it seems that you are quite rich. I think that it would have taken you a lot of gold coins, to create this kind of axe."

If this True Condensation 9th Level spoke with some sarcasm in his voice, then this True Condensation 7th Level Cultivator was even more straightforward, "Today, you have to give it, if you don't give it, and only want to live for a few more moments, then don't hand over the Mysterious Frost Zoysias."

Ning Cheng simply did not bother with any more nonsense, he immediately casted out a Golden Great Axe Shadow from the Golden Great Axe in his hands, [Angry Axe, The 1st Trace]. He was eager to try out this attack against another person, and wasn't this kind of situation directly delivered to his doorstep. He would not even hesitate for even a bit.

Ning Cheng had only shot out a single Axe Shadow, but the people surrounding him actually felt a special space formed all around them because of the Golden Yellow Axe Shadow. An extremely strong

Killing Intent surged out into the surroundings along with an extremely heavy killing force. Some of the cultivators standing at the edge immediately felt terror well up in their hearts, as one after the other they continued to take a step back.

Facing such an Axe Shadow that seemed to have covered the sky, gave the public a very strange feeling, that what they were witnessing, although was just a single Axe Trace. But this Axe Trace seemed to have come from beyond the horizon, no matter what they did, it was as if they were simply locked onto by the Killing Force formed from the Axe Shadow, that was now everywhere around them.

That Essence Building Cultivator who was standing by the side, had his eyes filled with shock as he thought, if he was the one who was to face against that Axe, then even he did not know if he could resist such an attack.

But the one who had to bear the brunt of this attack was the True Condensation 7th Level Cultivator, who at this moment was extremely horrified, it was not until this moment, that he realized, that he should not have messed with him earlier. He knew that begging for mercy was now too late, as he hastily brought out his shield to protect him.

Unfortunately, the round shield was not completely charged up, when the golden coloured Axe Trace arrived at its centre.

“Clang” A shrill sound exploded out like a thunder, the round shield was directly split into two halves by Ning Cheng’s Golden Great Axe Trace, and in just a spray of blood, the True Condensation 7th Level Cultivator, who could not even fight back in the slightest, was beheaded.

As for the other two True Condensation Cultivators, when Ning Cheng casted out his Axe Shadow, under its influence, immediately spouted out several mouthfuls of blood, as they suddenly fell down on the ground.

However, although under the effect of the Axe Shadow, their injuries were not much serious, and immediately jumped up, as they stared with panic in their eyes, at Ning Cheng. Just what kind of cultivation was this? How can the cultivation of True Condensation 4th Level go against Heaven’s will?

Ning Cheng once again directly put the Golden Great Axe back on his back, and coldly stared at the two remaining men, “Fuck off, don’t let this young master see you again.”

The two True Condensation Cultivators did not dare say anything else, as they quickly turned away, and soon disappeared without a trace. Ning Cheng immediately picked up the Storage Bag on the ground, and setting fire to the corpse of the True Condensation Cultivator that he had just killed, leisurely walked out from that place in front of everyone.

After this incident, no one followed Ning Cheng, as all of them scattered in all directions completely scared, as for that Essence Building Cultivator, he simply changed his direction and rapidly disappeared in just a twinkling of an eye.

Ning Cheng was in a good mood, his ‘[Angry Axe, The 1st Trace]’ was unexpected very powerful, and could almost, in an instant, kill a True Condensation 7th Level Cultivator. Although Ning Cheng knew that this was because the True Condensation 7th Level Cultivator truly did not put him in his eyes, as such, he

was caught off guard, however he was confident that even if this was a real fight, Ning Cheng believed that he could easily destroy that True Condensation 7th Level Cultivator quickly.

Since the time that all those cultivators entered the Angry Axe Valley, Ning Cheng had almost not seen any high ranked Spiritual Grasses.

But Ning Cheng knew without a doubt, that the Angry Axe Valley contained many good things. Because, in just a short time that he came in, his harvest inside was innumerable times much more than what he could obtain outside.

Ning Cheng was just thinking whether or not to resort to a Flying Type Magical Weapon. When he heard scream, moreover this scream was also a high pitched one.

If it was just a scream, Ning Cheng would not have thought much of it, but this scream gave a somewhat familiar feel to him. He immediately swept out with his Spiritual Sense, and immediately found a familiar face appear in the midst of his Spiritual Sense.

Out of all expectations, it was Yue Ying, for Yue Ying to enter the Angry Axe Valley, Ning Cheng did not even have half a doubt as to how she was able to enter. Since at that time, she was also in the same kind of situation as the rest of them, so for her to not enter the Angry Axe Valley would definitely be a strange event. In that kind of human tide, even if it was a True Condensation Cultivator, even they would not be able to resist it, let alone a trivial person like Yue Ying?

At this time, Yue Ying did not have that initial kind of quiet and enchanting appearance, but rather was completely dishevelled, even her hair was grey in colour similar to her clothes, to the extent that they could not even be distinguished apart. But these were not important, what was important was that her clothes were directly torn away by one of the two True Condensation 6th Level Cultivators who were walking towards her, revealing her pure white skin and a touch of a pink undergarment.

It looks like the reason why Yue Ying had screamed a moment ago was because her clothes were ripped off. If this was Yue Yuan Hua here, he would certainly go all out against those two True Condensation Cultivators.

Ning Cheng quickly turned around, and jumped near to them, while simultaneously called out sarcastically, "Two Late Stage True Condensation Cultivators bullying a girl in the Qi Gathering Realm, are you even concerned about face?"

"You are Big Brother Ning....." Yue Ying called out in surprise, as she even rubbed her eyes to confirm. She had met Ning Cheng before, moreover she had also witnessed Ning Cheng's strength, so she knew that he as absolutely powerful.

After a short while, she finally woke up from her daze, and immediately ran and hid behind Ning Cheng, as her incomparably startled expression finally turned to a calm and steady one.

No matter what was Ning Cheng's character, Ning Cheng was a person that she knew, at least, he was much better compared to those despicable True Condensation 6th Level Cultivators.

"A trivial True Condensation 4th Level ant...." This True Condensation 6th Level Cultivator didn't even finish his words when Ning Cheng's Golden Great Axe chopped down towards him.

When this True Condensation 6th Level Cultivator saw the Golden Great Axe Shadow coming towards him, moreover being heavily mentally shocked by the powerful Axe Intent contained in it, he simply did not have the ability to block this axe of Ning Cheng.

“So strong....” This True Condensation 6th Level Cultivator did not even have the time to even speak more than two words when his body was split in half by the Giant Golden Great Axe.

Ning Cheng recovered the Golden Great Axe, and felt that this Axe was increasingly getting easier to wield. If this was the broken Spear, then perhaps he would have to spend twice the effort. Because of his [Angry Axe, The 1st Trace], he could now settle things at once.

“Big Brother Ning, thank you, if it weren’t for you, I, I....” Although Yue Ying did not have that extreme fearful look on her face from before, but how couldn’t she know what would have happened to her when her clothes were torn by those despicable people?

Ning Cheng looked at Yue Ying for a long time, Yue Ying suddenly realised that the front portion of her clothes were torn, and suddenly became nervous. Initially she had seen Ning Cheng and Su Zhu together, but after hearing to the words of Ying Gu Yun, she had finally looked at that scene differently. Ning Cheng wanted to sleep with Su Zhu, and it stood to reason that he also wanted to do it with her.....

Yue Ying grew more and more scared, wasn’t this driving the tiger away from the back door only to let the wolf inside through the front door. If he really wanted to do it with her, then other than killing herself, she could not do anything else. Moreover, this Ning Cheng was so fierce that even if she wanted to die, she would not be able to. A moment ago, that person was obviously a True Condensation Master, but in front of Ning Cheng, he could not even resist for even a single moment.

She hurriedly pulled on her cloths to try and cover up the exposed area, while discreetly glancing at Ning Cheng, but then she actually saw Ning Cheng frown. Her hands shook a little, as the clothes that she pulled up to cover her exposed area once again fell down, this time completely exposing her pink undergarment and more than half of her snow white skin.

Yue Ying’s entire body trembled, but she dared not to cry for the fear of making a noise.

At this time Ning Cheng spoke, “I really don’t get why, you have such a dusty face along with your dishevelled hair, you simply look like an old lady, was that person from a moment ago blind? Why did he want to tear off your clothes?”

Ning Cheng really could not figure it out, although Yue Ying was very beautiful, even as good as Meng Yu Jing, this even Ning Cheng admitted that she was even more beautiful, but Yue Ying was simply a green pepper at the moment. If a green pepper was clean, then it would even be pleasing to the eyes. However, Yue Ying was simply not an improper person, she would definitely not take off her clothes willingly in such an open area, right?

Therefore, he asked these words not because he wanted to tease Yue Ying, but because he wanted to know why that True Condensation 6th Level Cultivator wanted to tear off Yue Ying’s clothes.

“Ah....” Yue Ying was looking at Ning Cheng in an astonished way, she had never thought that when Ning Cheng stared at her for a long while, he would actually say such kinds of words.

[The Gate Of Good Fortune](#)

Chapter 129: Bringing a child to such an arrangement

Understanding Ning Cheng's words, Yue Ying was increasingly feeling discontented in her heart, she naturally was a person who knew that her looks were not worse than anyone. After she began cultivating, her appearance had got more and more refined, but wasn't Ning Cheng's words implying that her looks were so bad, that nobody would even take a glance at her?

At the moment Yue Ying's face was completely red as she forgot about the fear from just now, she just wanted to refute Ning Cheng's sentence, though she did not know how to refute him. She was only a young girl, as such she was extremely confident and pleased with her own looks, and as such was highly concerned about it. But today there was actually a person who said such a thing, that people would not even glance at her with such an appearance.

Ning Cheng was simply too lazy to even realise what Yue Ying was thinking, as he simply threw a mirror to Yue Ying and said, "Just look at yourself in the mirror, then tidy up at once."

Yue Ying took the mirror and looked in it, and immediately let out a shrill scream. At this moment how could she find even half a bit of resemblance to her original appearance? She was completely looking like a small dishevelled beggar. Aahh, she could see that other than the torn outer garment, her undergarment and a small area around it, there was not a single place that would draw the attention of people to, no wonder that Ning Cheng was speaking in such a way.

"Big Brother Ning, I..." Yue Ying no longer used her hands to cover the torn portion of her clothes, as she nervously tugged on her clothes and said those words.

Ning Cheng just waved his hands, "Why did that person wanted to tear off your clothes? After your clothes have been ripped off, you know that he could see everything. Prior to tearing off your clothes, that True Condensation 6th Level Cultivator would not be so bored right?"

After hearing once again that her clothes were ripped, she did not hear the rest of the words, as Yue Ying once again felt somewhat nervous, as she subconsciously pulled again on her already torn up clothes. But after she again heard Ning Cheng's words, her face again flushed a deep red. Can't this man be more tactful of his words?

It's not right. Yue Ying immediately remembered the matter that she was doing before. She immediately looked up and said, "Big Brother Ning, I understand how this kind of thing happened?"

Ning Cheng also nodded and said, "You can speak while I listen."

He believed that there definitely must have been a reason, if there really was no reason, then that True Condensation Cultivator was simply too nasty. Or the vision of that True Condensation Cultivator was truly good, for him to actually notice the figure of Yue Ying. For him to see that Yue Ying was an unmatured beauty.

"It is definitely because of this." Yue Ying hurriedly put her hand into her upper undergarment and took out a ring from inside it.

There were a few characters flashing upon the ring, Ning Cheng reached out and grabbed the ring, the ring still had a trace of warmth and fragrance of a little girl. But Ning Cheng did not care much about the

small green pepper like body of Yue Ying, as he immediately swept his Spiritual Sense into the ring, as his facial expression immediately changed.

It turned out to be a Storage Ring, moreover inside, not only did it contain some High Grade Spirit Stones, there were also a lot of Jade Pieces, Elixirs, Artefacts and so on.

When Yue Ying took out the ring, she felt a little lost, after she took out the ring, she knew that it would certainly not come back. If the ring stayed in her hands, then she knew that she would definitely be able to advance to a higher level.

At this time when she saw Ning Cheng pay close attention to that ring, she immediately supplemented, "Before when I obtained this ring, I had worn it on my hand, then I left my cave, to try and find something to eat, but then I remembered that this ring should not be worn on the outside. Therefore, I took it off and placed it down my chest, I did not think that I would be seen by that person...."

Ning Cheng then simply passed the ring back to Yue Ying and said, "You just put this ring in the place you put it before, if you wore it on your hand then it would indeed lead to something difficult."

Yue Ying hurriedly waved with her hands and said, "No, I don't want it, Big Brother Ning, you saved my life, it is better if Big Brother Ning took the ring."

Thinking for a while that her reason was not enough, she also added another sentence, "My cultivation is too low, so this ring is simply useless for me."

Ning Cheng gave a slight smile and said, "Everyone wants good things, however I just want things that belong to me, or things that are fated for me. You can keep it with you, I simply have no need of your ring."

Not to mention that Ning Cheng could see the shadow of Ruo Lan in Yue Ying, even if it was an irrelevant person, as long as they did not offend him or annoyed him, Ning Cheng would not try and rob their things. What's more, Ning Cheng also appreciated that pair of brother and sister.

For many True Condensation Cultivators, a Storage Ring was simply an extravagant luxury, which even if they fought with their lives on the line, they would still not be able to obtain it. However, to Ning Cheng, he simply did not have this kind of urgency to obtain such a thing.

He came from Earth, so he simply was not accustomed to that kind of pillaging from the people who had earned them the hard way, he had his own moral bottom line.

"Big Brother Ning...." Yue Ying took the ring back into her hands, as she looked at Ning Cheng in a puzzled way, she did not know whether what Ning Cheng said was true or false.

"Take your ring and keep it safe, I'm leaving." Ning Cheng spoke, while simultaneously swept out with his Spiritual Sense into the nearby cave. Outside the cave, there were traces of broken concealment type Restrictions, presumably this concealment Restriction on the cave was set up by Yue Ying, and when he broke it, that cultivator ended up meeting Yue Ying.

Yue Ying hesitated for a moment, before hesitatingly speaking, "Big Brother Ning, I...."

"If you have something to say, then don't hesitate. When you and I were competing for that pearl hair clip, didn't I also say that." Ning Cheng smiled and spoke.

Yue Ying's face slightly turned red, but this time she no longer hesitated and said, "Big Brother Ning, I'd like to follow behind you until the Angry Axe Valley closes."

Ning Cheng slightly frowned, bringing along a child in this kind of arrangement was not a good thing. If it was another True Condensation Cultivator, then it would have been alright, since this time in here, besides the cultivators in the True Condensation Realm, there were even cultivators in the Essence Building Realm. But he could also not reject her in his heart, if he did not listen to his heart and rejected her, then a person like Yue Ying, in the Angry Axe Valley would definitely end up dead. For her to even live till this time, was already a difficult to achieve thing.

"Big Brother Ning, I promise that I will not drag you down, as long as I survive till the Angry Axe Valley closes, I can then go to the 7 Star Academy...." Yue Wing explained eagerly.

When Ning Cheng heard Yue Ying speak excitedly about the 7 Star Academy, he simply sneered in his heart.

"OK, first you change the clothes that you are wearing, then follow behind me to a water pool, you can then clean yourself there." Ning Cheng finally agreed to Yue Ying's request.

When Yue Ying heard Ning Cheng agree to her request, moreover in a clear and crisp manner, she immediately withdrew several steps back, and went to a place from where she could see Ning Cheng, as she quickly took off her clothes. She was really afraid that Ning Cheng would simply ignore her and walk away, and as such, was once again preparing herself to hide in the cave in an event if it really happened.

In a few moments, Yue Ying changed her clothes, and straightened her hair, although it seemed to be a mess. But at least she was much better looking than before.

"Come on." Ning Cheng immediately brought out his own airship, as he spoke to Yue Ying.

As Yue Ying got on to the airship, she asked in a surprised manner, "Big Brother Ning, you even have a Flight Type Magic Weapon?"

Ning Cheng was just controlling the airship to hover in the air, and had not yet gone into the full flight mode, when a lightning fast shadow directly rushed over towards them.

Ning Cheng refused to answer Yue Ying, while at the same time punched out with his fist, while grabbing Yue Ying with his other hand.

"Bang..." A formidable force directly collided with Ning Cheng's fist, when this formidable force collided with Ning Cheng's fist, Ning Cheng was immediately thrown out from the airship. Ning Cheng hurriedly operated his True Essence, and used his Imperial Wind Technique to glide down.

When the shadow arrived, Yue Ying had not yet reacted. When she felt that she was suddenly grabbed by Ning Cheng, she was immediately startled in her heart. But she didn't struggle, she knew that in the face of Ning Cheng's formidable strength, her struggle would simply be useless.

A moment later, she knew the reason why he had done this, a shadow had arrived, and Ning Cheng was thrown out of the airship, even the Airship Artefact blew up when they were thrown out. If Ning Cheng hadn't saved her, she might have plunged to her death.

Yue Ying hurriedly used her arms and grabbed onto Ning Cheng, as her heart was thumping madly in her chest, she was not shy, but rather worried, when Ning Cheng suddenly fell to the ground. Fortunately, Ning Cheng did not disappoint her, as with the help of the Imperial Wind Technique they slowly glided to the ground.

“What a beast, even my airship was unable to hold on.” When Ning Cheng fell to the ground, he discovered that his airship did not fall down.

At this point he realized, that he could not casually fly around in this place.

Feeling an intense softness hit him, Ning Cheng looked down and said, “Yue Ying, you can let go of me now.”

“Ah....” Yue Ying quickly let go of her hands, and spoke in a somewhat embarrassing way, “I am sorry, Big Brother Ning.”

Ning Cheng smiled, “There is nothing to be sorry about, it was simply natural that I had to save you. Before, I did not know that we cannot fly in this place, if had known it before, I would not have tried to fly here.”

Yue Ying, feeling even more embarrassed said, “It’s not that, Big Brother Ning, I am sorry because I thought that when you suddenly hugged me, that you wanted to, wanted to....”

Ning Cheng suddenly thought of the matter relating to Su Zhu, for Yue Ying to think like this, it was definitely related to the influence from the incident pertaining to Su Zhu. He swept a glance at Yue Ying, this time he really was disinclined to explain it to her once again.

Yue Ying was a very simple girl, Ning Cheng had realised this when he had first met her, although she looked more astute than An Yi, but that kind of simple and honourable nature that was ingrained into her bones, was something that she could not change. Moreover, he also knew that this person was under the influence of people like Lu Xue and Yong Gu Yun.

Seeing Ning Cheng sweep a glance at her, and was even disinclined to give an explanation, Yue Ying was even more terrified in her heart. She was very much afraid that if she enraged Ning Cheng, then he would simply dump her in this place. Thinking of this, she hurriedly spoke, “Big Brother Ning likes Senior Apprentice Sister Su, I really thought too much into it.”

Yue Ying did not explain things well, and after explaining, she discovered that she was speaking something even more wrong.

Fortunately, at this time Ning Cheng finally spoke up, “Yue Ying, sometimes it is better to keep your own opinion about people and things, if someone is around you, then you have to determine their nature by yourself. People around you will not always be saints, and many ordinary people would, in most cases, come to you only if they could obtain some benefits. As to who is Su Zhu, well, that I do not know. But I know that at least her nature is far better than that Yong Gu Yun, at the very least she is not like those false people.”

“If you are living under the views of other people every day, without any room for your own judgement, it will only tire you out. Although you are much better than your elder brother and even really smart to boot, but there always will be people who will try to take advantage of you. Your brother will always

have an easy time in making intimate friends, but around you, a majority of people will only show false pretences.”

Yue Ying was absentmindedly looking at Ning Cheng, she suddenly had a feeling in her heart that this Ning Cheng was far from being the person that her Sister Yong Gu Yun had described him as, instead he was much closer to the way her elder brother had described him to be.

[The Gate Of Good Fortune](#)

Chapter 130: Sensing the Origin Again

“Come on, it seems that from now we can only walk. This time, there are far too many people who entered the Angry Axe Valley, although the Angry Axe Valley is very big, but if we go to the places that people have already been to, then it would not be advantageous for us. If we follow behind someone else’s ass, then we would not have the opportunity to even drink soup.” Ning Cheng was not much interested in continuing this kind of topic with Yue Ying, and so while he spoke, he had already sped up his pace.

Yue Ying also rushed behind Ning Cheng, she did not dare to slow down the person in front of her for even a single bit.

In the Angry Axe Valley, there were not many people who came in during the previous thousand years, as such it was full of either wilderness or stone quarries. There were also lush green hills with rivers and lakes, but unfortunately there was never a clear path to traverse them.

But this time, since there were so many people who entered the Angry Axe Valley, they could make out some vague traces of paths tread by those people.

Ning Cheng, along with Yue Ying, travelled for almost an entire day, while not even finding a single Rank 2 Spiritual Grass along the way.

“I guess everything was taken away by the people who came in first.” Yue Ying said in a somewhat timid way as she looked at Ning Cheng.

Ning Cheng stopped, he could actually feel an extremely faint Origin Qi, it wasn’t much. The reason why he thought that it was the Origin Qi, was because this Qi and the Origin Qi of his Mysterious Yellow Bead were somewhat similar, this was the feeling that he had in his heart.

Ning Cheng did not understand the meaning of the Origin, but what he did know was that it was the Mysterious Yellow Origin of the Mysterious Yellow Bead that had let him reshape his Meridians, he could vaguely feel that as long as he could feel that Origin Qi once again, it would be a great thing.

“Bang....” A dramatic explosion sound arrived from the opposite direction. Ning Cheng hurriedly swept out with his Spiritual Sense.

Maybe because it was simply too far, but his Spiritual Sense could not find anything during its sweep, even after a long while. But with his Spiritual Sense, he could perceive a hint of a rich Spiritual Qi.

It seems that a good thing has appeared, this was Ning Cheng’s first thought. Otherwise it was simply impossible for such a strong and rich Spiritual Qi to appear so suddenly. He withdrew his Spiritual Sense, as his heart immediately became entangled.

There were simply too many good things in the Angry Axe Valley, should he go in search of the Origin Qi, or should he go to the place of the explosion from where he had sensed the rich Spiritual Qi?

“Big Brother Ning, I feel that it would be better if we went in that direction to get better things....” Yue Ying carefully said while pointing to the direction opposite to where the explosion took place. She was worried that Ning Cheng was thinking that she was afraid, and thus only spoke those words hesitatingly.

The direction that Yue Ying had pointed to, was the same direction in which Ning Cheng had felt the faint whiff of the Origin Qi, which made Ning Cheng stare at Yue Ying in an astonished way. While thinking in his mind, does this girl Yue Ying also has an Origin in her body? Otherwise, how could she feel the direction from which the Origin Qi was coming from?

Thinking back to the Tournament of the 5 Star Academies in Mo Ze City, when Yue Ying won two consecutive rounds of the Tournament, it showed that she definitely had an extremely powerful memory and understanding capabilities, this made Ning Cheng doubt her even more.

Ning Cheng really wanted to grab Yue Ying’s wrist, then use his own Spiritual Sense to carefully inspect both the inside and the outside of her body. However, he immediately choked back his own nonsensical ideas, this kind of thing would be really terrible for Yue Ying.

This was simply tantamount to stripping Yue Ying naked. It was similar to using his own hands to do it.

“Big Brother Ning, I had a small feeling, it was similar to the feeling that I once had when I was hiding inside the cave. In fact, even I don’t know if it is right or wrong, if you want to change directions then you can, you don’t have to worry about what I think....” Yue Ying was thinking that Ning Cheng really was looking at her ominously. As she stammeringly brought out her own viewpoint.

“Yue Ying, do you know what this thing called ‘Origin’ is?” Ning Cheng was already thinking about it, so he finally decided to speak it out loud, since he had come over from Earth, his mental maturity was on a much higher level than Yue Ying’s. Moreover, Yue Ying also had a flexible mind. Therefore, she definitely was not inferior to him in getting along with people. If Yue Ying really had an Origin, she would have come to know about it as soon as possible. Otherwise she would have simply died a long time back without knowing how she died.

This time, she was brought here by the cultivator with the surname Kang, it was the best example for her situation.

Yue Ying simply shook her head in a daze and said, “I don’t know.”

Ning Cheng just gave a ‘hmm’ and did not continue to ask, and simply said, “We’ll first go in the direction that you talked about earlier.”

To Ning Cheng, the Origin Qi was infinitely much more precious than anything else. Weighing the two things, Ning Cheng finally decided to go and have a look in the direction that he had sensed the faint trace of Origin Qi from.

Since Yue Ying could feel it, then who can guarantee that other people would not be able to sense it.

Ning Cheng and Yue Ying immediately changed directions, while picking up their speed. An hour later, Ning Cheng could feel that the bursts of that vague Origin Qi was becoming less and less frequent. He once again stopped and asked Yue Ying, "Yue Ying, do you still feel it?"

Yue Ying just shook her head, "No, I only have a feeling that it whatever it is should be nearby, as to where it is, I do not know specifically."

Ning Cheng nodded, even he did not know where the source was, he only knew that it was somewhere nearby. However even when he and Yue Ying searched for another hour, they did not achieve anything.

Yue Ying had thought that Ning Cheng had come here because of her proposal, but now that Ning Cheng did not find anything even after searching for so long, she was growing even more scared in her heart, "Big Brother Ning, I may have been wrong."

"Let's look for it again, if we still cannot find it, then we will go to that place where the explosion came from, there should be some good things there." Ning Cheng replied absentmindedly, he had already scanned the surroundings with his Spiritual Sense, not even leaving a single speck of dust.

After half an hour passed by, Ning Cheng suddenly paused, he was staring at the small river that was still quite a distance from them, in his heart he had already determined that the Origin Qi was coming from the river water. They did not know where the river started from or ended at, as the river simply had no end in sight, but it was very narrow, as even the narrowest place was only 5 or 6 meters wide.

Yue Ying had already noted this river, but the reason why she took note of this river was not because she could feel that there were good stuffs in the river, but rather she wanted to enter the river to clean herself. But now that she and Ning Cheng were walking towards the same place, this made her feel a little awkward.

"I want to enter the river to have a look around it, you can lay on my back, I'll carry you as we descend." After Ning Cheng made sure that what he was thinking was right, he immediately spoke to Yue Ying.

"There's no need for it, Big Brother Ning, I can follow behind you." Yue Ying quickly replied, she was not a fool. Once she lay on Ning Cheng's back, then after they entered the river, her clothes would stick to her body, this would easily let Ning Cheng take advantage of her.

"No, I don't want to talk anymore nonsense, hurry and come up." Ning Cheng simply did not want to explain such a thing to Yue Ying. He already had a clear understanding back when he was scrambling to grab those Mysterious Frost Zoysias, he knew that the Monstrous Beast in the waters of the Angry Axe Valley could not be compared to the Monstrous Beast on the outside.

"Oh." Yue Ying did not dare to refute him, and quickly stuck herself to Ning Cheng's back.

Even if she had not experienced such a thing personally, but when her body actually grabbed onto Ning Cheng and was secured to him with a belt, she felt her face burning. Ning Cheng's Qi enveloped her in an instant, which made her utter a soft sigh. Although in her childhood, her elder brother had also carried her on his back, but she had never felt this kind of feeling.

Although Ning Cheng could feel two soft spots on his back, but he did not care much about it. Ji Luo Fei's chest was much more plentiful and bustier than Yue Ying's, moreover he had even carried Ji Luo Fei's on his back for a long time, so he could easily endure such a thing.

After securing Yue Ying to his back, Ning Cheng immediately dived into the river.

Although the river water was not ice cold, but even then, Ning Cheng could feel a cold chill seep into his bone marrows. Stirring up his True Essence, he rapidly swam down to the bottom of the river.

Yue Ying's cultivation was worse than Ning Cheng, she felt the cold invasion even more strongly, but then a burst of True Essence entered her consciousness, rapidly confronting and dissipating the chill, she could also feel a burst of heat coming from Ning Cheng's back, which scattered the chillness around her body.

So this was the meaning behind why Big Brother Ning originally wanted to carry her on his back, Yue Ying felt ashamed of her own idea. But what she did not know was that, the reason why Ning Cheng had asked her to climb onto his back was not because of this, but rather because Ning Cheng was worried about the Monstrous Beasts in the river.

If it was only the ice cold water, he wouldn't care much about it. As this kind of coldness, for Yue Ying who was at Qi Gathering 6th Level, could still block it easily.

As Ning Cheng swam in the river for the time it took for an incense stick to burn, he did not encounter any Monstrous Beasts, Ning Cheng was now doubting himself that he may have overthought things previously. This was an ordinary river, moreover there was not even a strong Spiritual Qi here, so how would it be possible for a Monstrous Beast to live here?

That icy lake, that could grow the Mysterious Frost Zoysias, was obviously rich in Spiritual Qi, so for Monstrous Beasts to exist in such a place was quite normal. But since he was carrying Yue Ying on his back, Ning Cheng did not intend to give up easily. Since Yue Ying's speed was simply too slow, he might as well carry her on his back to move a bit faster.

After the time it takes for another half an incense stick to burn, Ning Cheng came to stop at a big piece of rocky reef, and swept out with his Spiritual Sense onto these rocky reefs. He could indistinctly already make out a Concealment Array Formation, moreover this Array Formation was very strange. Rather it would be better to say that this Array Formation was a Natural Array Formation, since the rocky reefs around them were acting as the Array Flags. If this was not a Natural Array Formation, then someone went to great pains to artificially refine the Array Flags in the form of these rocky reefs.

But this Array Formation was a Level 4 one, something that Ning Cheng could not arrange at the moment, the reason why he was able to see this Concealment Array Formation was because this Concealment Array Formation was broken. If this Array Formation was not broken, then Ning Cheng suspected that this Array Formation would have been perhaps even higher than Level 7. If it really was a complete Level 7 Array Formation, he would never be able to find it.

Ning Cheng entered the Concealment Array Formation from the broken area, and unexpectedly actually found a road paved with white jade in front of him. When he saw this white jade road, Ning Cheng immediately knew that the Array Formation before definitely was man made. For someone to arrange an Array Formation that was similar to a Natural Array Formation, just how high was their comprehensions towards Array Formations?

Ning Cheng took out an Array Flag, and turned back to fill the gap in the broken Array Formation. Although his knowledge about Array Formations was still at a low level, but at least, when he used his

low level Array Flag to block the broken part in the Array Formation, this Array Formation, at least barely, advanced to that of a Level 5 Array Formation.

Knowing that there was no danger, Ning Cheng finally put down Yue Ying, while simultaneously passing this message to her, “You follow carefully behind me, I guess that there should be some good things here.”

Even if Ning Cheng did not say those words, Yue Ying would not move around without his permission.

Ning Cheng and Yue Ying walked for about a hundred meters along this white jade road, when a light suddenly fell on the two people’s bodies, the amazing discovery of the scenery in front of them made both of them stupefied. It was entirely separate from the surrounding water. In front of their eyes, hovered a humongous water repelling pearl, move over the river water was directly parted due to the combination of the water repelling pearl and the surrounding Array Formation.

Under this water repelling pearl, there was a half-moon shaped arch. And above the arch were carved two characters, Han Xiang.
