Chapter 131: Looting Like Crazy

At the moment, Ning Cheng did not feel even half a bit of danger from it, rather he could clearly feel that the Origin Qi that he had felt from before was actually coming from behind the half-moon shaped arch, as such he did not hesitate even for a bit before entering through this arch.

After entering through this arch, a kind of peaceful looking hall greeted their eyes that was not very big in size. Right in front of them, in the dead centre of the hall was a beautiful jade table and a single chair beside it.

On the right side of the hall, there was a door, Ning Cheng and Yue Ying went through this door on the side, and found themselves in a very elegant bedroom room. But the inside of this room was also inlaid with an Array Formation, so that, even though it was under water, it did not have the least bit of dust or grime.

But still, one could not see what kind of material was used to refine the wooden bed in front of them. Near to the wooden bed, there was a small dressing table. On the dressing table was a mirror and a comb. Other than that, there was nothing else. But the inside of the room was very cold, it was obvious that nobody had come inside for a long time.

“Big Brother Ning, this place is underwater in the Angry Axe Valley, how can a woman’s boudoir be here?” Since she was following behind Ning Cheng, Yue Ying asked in a strange tone from behind him.

“My guess is that when the Angry Axe Valley had just come into existence, a woman had ought to have come here, then for some unknown reason she didn’t leave afterwards, and just remained her.” Ning Cheng replied as he also tried to guess. Moreover, although he was much more familiar with the Angry Axe Valley than Yue Ying, even he would not know where the master of this place went afterwards.

Just as Ning Cheng replied to Yue Ying, who was beside him, they directly moved towards the mirror on the dressing table. He had already felt that the Origin Qi, was actually coming from inside the mirror.

Yue Ying also had a kind of intuition, that this mirror was some kind of treasure, so if Ning Cheng did not want to take it away, then she would definitely take it away. She did not think that a man like Ning Cheng would go as far as to take the mirror. Even if he took it, she did not know whether he would give it to the woman who she had seen beside him in the Mo Ze City.

Ning Cheng unceremoniously put the mirror away. Sure enough, he could no longer feel the Origin Qi in this room again. He finally calmed his heart down, while simultaneously determining that this mirror was the thing that he was looking for.

After he put the mirror away, Ning Cheng once again looked around, but did not find anything worthy enough to pay attention to.

He turned to look at Yue Ying and said, “Don’t you want to change your clothes?”

Yue Ying, at this time, discovered that her clothes were completely stuck to her body, moreover there were even two bulges in front of her chest, which were very conspicuous. The light clothes that she was

wearing, completely revealed her slender thighs. Moreover, as she thought of this image of her that actually appeared in front of Ning Cheng, she involuntarily let out a shrill cry before she spoke, "Big Brother Ning, you exit first, I will change my clothes here."

Ning Cheng hesitated for a moment before he said, "Yue Ying, there are some High Grade Spirit Stones in your storage ring, I suggest you cultivate here temporarily."

When she heard Ning Cheng's words, Yue Ying did not pay any more attention to her wet clothes, and stared at Ning Cheng with nervousness in her eyes, "Big Brother Ning. You want to leave me here?"

Ning Cheng smiled and said, "No, at present your cultivation is too low, I want to go grab a few things. Before we came here, I could sense that a treasure had emerged back when we heard the explosion. I don't know if I could gain something from there now, but I do want to take a look there. Once I succeed in obtaining that thing, I will come back to cultivate here."

When Yue Ying heard Ning Cheng's words, her face immediately turned gloomy, although she personally did not want to stay in this kind of place, but she knew that if she followed behind Ning Cheng, with her power, she would only be a burden to him, it would really be similar to dragging along a child with him.

"Ok, then it's alright. Big Brother Ning, you must remember to take me away after you find something, I really am scared of staying alone in this place." Although Yue Ying was a cultivator at Qi Gathering 6th Level, but it was still not enough to change the fact that she really was a young girl, who was barely even a teenager.

Ning Cheng spoke in an affirmative way, "You can rest easy, I will definitely be back soon."

He had come to the Angry Axe Valley in search for Spiritual Grasses and other materials, moreover Ning Cheng was already in the Angry Axe Valley for many days and as such did not find many things, how could he possibly hide in this place? Moreover, he would have to deal with several things a few months later, and also, he had not thought of a good way to escape from this place.

Saying that, Ning Cheng took out an Array Flag and handed it to Yue Ying and said, "This is the Array Flag that I had put down before and is actually an Echo Array Flag, you can use this to exit from here. If something happened to me, then at least you would not be detained here."

Although Ning Cheng was confident that an accident would not happen to him, but since he was in the Angry Axe Valley, for an accident to really happen or not, who can dare guarantee it?

"Big Brother Ning, can you not go out yet?" After Yue Ying heard Ning Cheng's words, she immediately became somewhat worried for him, but she knew that whatever she would speak, would be equivalent to nonsense at this moment, she knew that it was simply impossible for Ning Cheng to not go out.

.....

Ning Cheng quickly left from the bottom of the river and swimming in a straight line, quickly returned to the surface once more. It was obviously impossible for him to listen to Yue Ying's words and stay there, not to mention that Ji Luo Fei was also waiting for him to come back, moreover, there was even that old man surnamed Kang over him, pressing a knife on his head, as such he simply could not dare to be relaxed at all times.

If it was Ruo Lan or Luo Fei who had asked him to stay behind, then he would have definitely listened to them. However, Luo Fei and Ruo Lan would definitely not ask him to stay back, since they both clearly understood his way of thinking.

Thinking of this till here, Ning Cheng suddenly became surprised in his heart, as he realized that he had not thought of Tian Mu Wan in a long time. Once he had established a close relationship with Luo Fei, he hadn't even thought of Tian Mu Wan even for a single bit. Had he already gotten over her?

Ning Cheng shook his head, as he picked up his speed.

Without dragging along Yue Ying, Ning Cheng's speed was now several times much faster than before. And in just two hours, Ning Cheng arrived at the place where he had sensed the explosion from.

At this moment there were thousands of people here, moreover there were still people coming in continuously. So for Ning Cheng to arrive here was not unexpected to them, moreover, nobody paid any kind of attention to him, as all the people were literally digging holes everywhere.

That's right, all of them were digging holes.

In all the four directions, the land had turned into some kind of prohibited zone with holes all over the place, the sounds of explosions were still ringing all round non-stop, as a few of the cultivators were using Talismans to create those explosions.

There was a rich Spiritual Qi coming out from the number of already excavated holes. Ning Cheng, at once, swept out with his Spiritual Sense, and immediately understood what was going on.

This place unexpectedly turned out to be a huge Spirit Stone Mine, moreover it was not a low level one. As Ning Cheng saw that there were many cultivators excavating a lot of Medium Grade Spirit Stones, moreover there were even a lot of High Grade Spirit Stones that they were directly putting into their Storage Bags.

Moreover, if someone found a tunnel with High Grade Spirit Stones, many of the cultivators would immediately form a group and surround that person, and almost every hour, there would be a few cultivators who would manage to escape but with serious injuries, moreover there were still many Cultivators who would end up dead in those scuffles relating to the Spirit Stones.

In this place, in this time, almost all the people turned insane, and were going all out to compete for the Spirit Stones in the mine.

Ning Cheng made a sweep again, and did not discover anyone who had come with him from the Hua Continent, evidently he would have to rely on himself and his ability to farm.

"Best Quality Spirit Stone....." A crazy voice sounded out, as Ning Cheng also locked onto him. In the hand of an Early Stage Essence Building Cultivator was a Spirit Stone giving out a gentle pure milky white lustre, just as his Spiritual Sense touched the Spiritual Qi contained within it, he immediately felt an extremely comfortable sensation.

Is this the Best Quality Spirit Stone? If he could cultivate with the Best Quality Spirit Stone, then

Ning Cheng did not dare to imagine, he did not need to imagine, the fear inducing scene that, at present, erupted in front of him made him completely speechless. That Essence Building Cultivator did not think

that he would be able to dig out a Best Quality Spirit Stone, he had not yet put the Spirit Stone into his Storage Bag, when countless Cultivators swarmed towards him. All of the still sane people finally lost control of themselves, and went completely all out to fight for that Best Quality Spirit Stone.

Ning Cheng, at once, subconsciously withdrew several hundred meters back, this kind of fight was really fear inducing, and if he had to face such a thing, then he knew that trying to run away would be almost impossible for him.

There was bloody mist hanging all around the place as countless streaks of magical weapon lights wreaked havoc, it was simply too crazy to the extreme.

As for that Essence Building Cultivator who had found that Best Quality Spirit Stone, he was already submerged in the middle of the fights with countless people.

Ning Cheng simply walked off to one side, he wanted to try and see whether or not he could also feel a Spirit Stone Vein. However, although Ning Cheng changed places several times, but he could not sense any deposits of Spirit Stones, evidently his Mysterious Yellow Origin was only sensitive to Origin Qi, as for Spirit Stones or Spiritual Grasses and the like, it did not show any special reaction.

At this time, the fight for the Best Quality Spirit Stone finally came to an end, but as for who managed to rob the Best Quality Spirit Stone, no one could determine. Once again, many cultivators drifted out to search for more deposits on their own.

Ning Cheng was in a faraway place, looking for a good location. The reason why he chose this place was because there were a dense cluster of plants growing here, moreover the plants growing here seemed to be much better than the others.

The idea of Ning Cheng was very simple, if a place had a Spirit Stone Vein, then the plants or Spiritual Grasses growing in that area would definitely be better than in other areas. Even if he was wrong, it would not lead to a huge impact to him, this piece of land was definitely a mine, even if he found a spot casually, there was a good chance that he would be able to dig out a Spirit Stone. It was only related to the quantity of Spirit Stones, sometimes there would be a high concentration, sometimes there would be low.

Moreover, there were too many people digging holes within this place, so Ning Cheng coming here to mine was nothing strange, the only thing that was strange was that he was digging all by himself. So when the other people who were digging saw this, they all secretly ridiculed him as an idiot. Just who in their right mind would try and dig in this area by themselves?

After a few hours, Ning Cheng could already feel that the Spiritual Qi in the hole that he had dug was getting more and more concentrated, as such he quickened his speed. Sure enough, after the time it takes for half an incense stick to burn, Ning Cheng finally dug out a few Spirit Stones, although they were only Low Grade Spirit Stones, but this, to Ning Cheng was already good.

Thinking back to the time when he had arrived at the Cang Qin Province, Ji Luo Fei had gone all out to obtain a Qi Gathering Stone, but now he can unexpectedly dig out a Spirit Stone, how can he not be satisfied with it.

Ning Cheng believed that as long as he continued to keep digging, then perhaps he would be able to obtain Medium Grade Spirit Stones.

Although Ning Cheng's idea was good, but in this place, this kind of idea was simply not enough. Here, the people who were mining were doing so in groups of threes and fours, even then, they would fight to kill against each other, much less Ning Cheng who was just a single person mining by himself.

If Ning Cheng did not dig out anything valuable, the other people would also naturally not cause trouble for him, but now that Ning Cheng dug out a few Spirit Stones, immediately a few people came over.

This time a total of 6 people came over, and all of them were Late Stage True Condensation Realm Cultivators, moreover the worst among them had a cultivation of True Condensation 7th Level. In this place, the Essence Building Cultivators had already found their own holes, and as such, those Essence Building Cultivators would not come and grab Ning Cheng's territory.

"The Spirit Stones that you dug up, bring them out, and leave, we'll be taking over this place." The one who had called out was a cultivator of True Condensation 9th Level, when he glanced over at the tunnel dug up by Ning Cheng, his eyes flashed with joy, but he spoke calmly as if nothing significant occurred. With his experience, for Ning Cheng to mine such a tunnel was absolutely a good thing for them.

Chapter 132: One Against Six

"Are you sure?" Ning Cheng stopped his digging motion, as he turned to stare at those people who spoke just now. After all, he had already seen this kind of situation, so he already understood their intentions. If one did not want to fight and wanted to dig in a calm and steady manner, this kind of thing was simply impossible here.

"Get lost." A True Condensation 8th Level finally lost his patience and spoke up.

Ning Cheng did not bother to speak anymore nonsense, at once, grasping the Great Axe in his hands once again, he immediately swept out with it horizontally. Together with the horrifying and matchless Axe Intent, it simply wreaked havoc in the tunnel that he was digging in.

The size of the tunnel was limited, so once Ning Cheng chopped out with his axe, with its strong Killing Intent, almost the entire tunnel was completely filled with its Killing Force.

The six Late Stage True Condensation Cultivators had never thought that Ning Cheng, who was just a trifling True Condensation 4th Level Cultivator in their eyes, would dare to make a move against them. If only he was an ordinary True Condensation 4th Level Cultivator, then Ning Cheng would have definitely not taken the initiative to attack, rather they would have already resorted to their own Magic Weapons and would have already smashed Ning Cheng to a pulp.

However, Ning Cheng was not an ordinary True Condensation 4th Level Cultivator, once his [Angry Axe, The 1st Trace] came out, it contained his Great Axe's violently strong Killing Intent, as such the first reaction for these six Late Stage True Condensation Cultivators was to quickly escape that single cutting edge of the Axe, and then do something else.

"Boom...."

When this Axe Shadow, that was filled with the extremely violent Axe Type Killing Intent, collided with the hard walls of the mine, it immediately brought up two blood mists as two of the True Condensation 7th Level Cultivators were not able to avoid it in time. They were bound by the Killing Intent from Ning Cheng's Axe after which they were simultaneously blown into two halves. The falling rubble was also instantly crushed by the Killing Intent of the Axe Shadow as it smashed into them. Since Ning Cheng still had some apprehensions of the tunnel collapsing, as a result Ning Cheng did not dare erupt with his full strength.

As for the remaining four True Condensation Cultivators, because the previous two of them took the brunt of the attack, they were able to be one step ahead of them as they escaped from the mine tunnel.

Ning Cheng also did not give up, as he also similarly escaped from the mine tunnel. As he pursued the few True Condensation Cultivators that had escaped previously, he once again sent out an Axe Chop.

The Axe Intent contained in that attack was not even a single bit weaker than when he had unleashed that attack in the mine tunnel. On the contrary, this time Ning Cheng fully displayed the might of his [Angry Axe, First Trace]. Even the scope of the Killing Force increased as it became even more fierce.

One of the True Condensation 8th Level Cultivator was lagging behind, and only had enough time to resort to a conical shaped Talisman to at least block a part of Ning Cheng's Axe Shadow, however the Axe Shadow was too powerful as it slammed into his chest after it tore through it like tofu, he immediately sprayed out blood from his mouth, as he flew away tumbling, before he hit a huge stone, and no longer breathed.

There were now only three more panic stricken people left. They knew that they no longer would be able to escape, and immediately brought out their Talismans in succession as they prepared to confront Ning Cheng.

It was only until that time that the surrounding people finally came to understand what had transpired. Someone had dug out a few Spirit Stones afterwards some other people came to rob him. This kind of thing was simply too common to them in this place. Ning Cheng was already a person who dared to dig the mine tunnels by himself, this a lot of people already knew about. Moreover, as these people had seen Ning Cheng dig a mine tunnel by himself, they had all ridiculed Ning Cheng as an idiot in their hearts at that time.

So now when six Late Stage True Condensation Cultivators had arrived to grab the tunnel that Ning Cheng had just mined. But afterwards Ning Cheng had killed three people, moreover, even expelled the rest of them from the mine tunnel, this event immediately captured the attention of all the people present there. Where did this True Condensation Cultivator come from? He was only a trivial True Condensation 4th Level Cultivator, how could he be this fierce and strong?

"This friend, just now it was our fault a moment ago, this mine tunnel, we do not want to snatch it from you anymore. Can you please stop now?" The one to talk this time was also the same True Condensation 9th Level Cultivator who had spoken to him before in the mine tunnel, after he saw how strong Ning Cheng was, he simply gave up on the idea of robbing Ning Cheng's mine tunnel.

Moreover, their group of 6 people was only a temporary set up for them, why would anyone care for the life or death of their 'fellow' companions? If they really got into a fight, they knew that they would lack the spirit of cooperation. So at this moment, each of them were attending to only themselves.

Come when you want to come, and leave when you want to leave. How can such a good thing exist? Ning Cheng simply was too lazy to even reply a few words. He once again raised the Great Axe with his hands and once again covered the sky with his Golden Great Axe Shadow, still that one Axe Shadow was together with his [Angry Axe, The 1st Trace].

Ning Cheng's display of [Angry Axe, The 1st Trace] was getting more and more fluent with each time he used it, he felt that if he unceasingly continued to display the [Angry Axe, The 1st Trace], with his continuous comprehension, he would be able to make a new breakthrough.

The True Condensation 9th Level Cultivator saw that Ning Cheng did not even want to reconcile with them even for a bit, did not speak anymore words, and immediately began fighting. Even his complexion changed, and a white wheel appeared in his hands as he smashed out with it, while simultaneously shouting to the other two, "Everyone we must fight together."

The other two people saw that Ning Cheng was not going to agree with them and let them off, basically did not need that True Condensation 9th Level Cultivator to remind them, and simultaneously brought out their Magic Weapons.

For the four True Condensation Cultivators to fight in such a way, the surrounding lights from their Magic Weapons scattered in all four directions. As such many of the cultivators could not continue digging, they immediately got out, while they simultaneously watched the four of them battle. Moreover, even the few Essence Building Realm Cultivators present there were also paying attention to the intense fight going on in that place.

The entire sky above them was covered by the Killing Intent from the Golden Great Axe Shadow as it bombed together with the lights from the various Magic Weapons. The rapid bursts of their True Essences were creating thunder like rumbles all around the place.

"Boom.....Ka Ka....."

Although the three Late Stage True Condensation Cultivators were able to block Ning Cheng's Axe, but the formidable Killing Intent of the Axe immediately made the three of them to fall back once again.

"This person's True Essence is quite vigorous, is his cultivation level really at True Condensation 4th Level?" A purple robe wearing woman, with her face covered by a veil, who was standing at a distant place observing the fight, spoke up as she simultaneously looked at the Golden Great Axe Shadow that was staggering to the extreme, with an astonished look in her eyes.

Standing beside her was a middle aged man, who already had the cultivation of Late Stage Essence Building Realm. When he heard the words of the woman in the purple robe beside him, he simply shook his head and spoke, "That's not it, his True Essence is not necessarily more powerful when compared to the three people he is fighting against. But his Axe Intent is too strong, that Axe Shadow that he exploded out with, was also filled with an Axe Intent, making the other three people unable to contend against, which was why they were blown back. For this person's Axe Intent to be so formidable, I suspect that he has comprehended his Axe Intent in the genuine Axe Valley."

Ning Cheng did not stop the attack because his Axe was blocked by them, moreover the Killing Intent released from Golden Great Axe Shadow had still not yet dissipated completely, he once again lifted the Great Axe in his hands and fired off another Golden Great Axe Trace.

“Ka....” This time, it was the True Condensation 9th Level Cultivator who had to bear the brunt, and was blasted away along with the Golden Great Axe Shadow. As for his white wheel, under the impact of the Axe Trace, immediately let out a deafening buzzing sound. At this moment, he was simply unable to take back his Magic Weapon.

This True Condensation 9th Level Cultivator’s mind was greatly shaken, he was certain that if the three of them collaborated together, then they would not be in such a sorry state, moreover that True Condensation 4th Level Cultivator in front of them would not necessarily be their match if they did. But this person was simply too ferocious, so he simply turned around and fled.

Ning Cheng finally put his Great Axe down, his True Essence was already somewhat insufficient to continue fighting, if the three people collaborated once more, then even if he could only match them step by step, he would only be able to block them.

But now that the True Condensation 9th Level Cultivator had turned tail and ran, this was really him courting death. Ning Cheng did not care about the two remaining people, and immediately rushed past them, and blasted out a punch in the air.

The Axe Fist travelled in a straight line, as it brought forth a murderous Qi as it hit the back of that True Condensation 9th Level Cultivator. As the punch exploded on the back of the True Condensation 9th Level Cultivator, he was directly sent flying by Ning Cheng’s fist. When the fist collided, he flew several meters away, and immediately fell to the ground. His body twitched a few times, before it went silent, no longer breathing.

Ning Cheng did not, at present, deal with the body of this True Condensation Cultivator. But once again grabbed the Golden Great Axe in his hands and turned towards the other two True Condensation 8th Level Cultivators.

These two True Condensation Cultivators were already scared witless, and as such did not dare to fight against Ning Cheng, they immediately took out their Storage Bags and directly threw them at Ning Cheng’s feet, as they spoke in a quivering voice, “Senior, please accept our Storage Bags, we only ask for forgiveness.....”

Ning Cheng grabbed the two storage bags, and spoke with an extremely cold tone, “Get lost.”

“Yes, yes.....” These two Cultivators of the True Condensation 8th Level did not dare to even utter half a word of idle talk, as they quickly turned around and ran away, and in just a few moments completely disappeared without a trace.

Ning Cheng had not been in the Yi Xing Mainland for a long time, but he had heard, once a Cultivator throws down their Storage Bag or their Storage Ring, then as long as they do not have a bitter hatred towards each other, then they would at least forgive the opposite party for that one time. Moreover, he really was not so bloodthirsty, he knew that if he did not talk in an imposing manner at that moment, then there would be more and more people eyeing his mine tunnels.

If there were no good things in the tunnel, then there would not be much of a problem, but once he dug up a good thing, then at that moment, it would not be good for him.

As the fight had finally come to an end, Ning Cheng picked up the few Storage Bags. As he turned to the few cultivators that he killed and turned them into ash, and then leisurely walked towards his mine tunnel.

Ning Cheng was a person who had singlehandedly fought against six Late Stage True Condensation Cultivators, moreover he had continuously killed four of them, and had even grabbed all six of their Storage Bags, as such, this kind of strength was already seen by the people clearly. Because of this, no one had any more ideas towards Ning Cheng's mine tunnel. Of course, one of the other reason was also because the mine tunnel that Ning Cheng dug up only contained Low Grade Spirit Stones.

"This Elder Brother, I am from Fu Continent's Yue Yu Sect's Yang Shu Hui. If this Elder Brother does not mind, then I am willing to help you with your mine, as long as I can obtain only 10% of what we dig out, it would be more than enough for me." An extremely pure and beautiful woman was standing at the entrance to Ning Cheng's mine tunnel, and spoke to Ning Cheng in an extremely soft voice.

Her tone was very pleasant to the ears, it even had some magnetic sincerity, which would make the person hearing this voice to have a favourable impression towards her, not to mention that she herself was an extremely beautiful woman.

"Fu Continent? Isn't that the continent that is neighbour to an Advanced Class Continent?" Ning Cheng had also heard about the Fu Continent, of the three big Intermediate Class Continents, the Jia Continent, the Zhong Continent and the Fu Continent, the Fu Continent was the closest to the Advance Level Continent, the Nan Continent. Ning Cheng wanted to bring Luo Fei and go to the Advance Level Continent in the future, therefore when he heard the words 'Fu Continent', he immediately spoke up.

"That's right, our Yue Yu Sect's outstanding disciples are frequently selected to go to the Nan Continent, Elder Brother which continent are you from?" This attractive woman called Yang Shu Hui, when she heard Ning Cheng's response, happily spoke up.

"I come from the Ping Continent." To be honest, the eyes of Yang Shu Hui were really beautiful, even her speech was also incomparably gentle, as such Ning Cheng already had a favourable impression of her. However, he has already dug up the mine by himself, so when an outsider wanted to form a partnership, then he would have to share his mine with them, which for him, was absolutely impossible at the moment. Moreover, this Yue Yu Sect's name was somewhat similar to the Hua Yu Academy's name, but Ning Cheng knew that the Hua Yu Academy couldn't even be compared to the Yue Yu Sect.

"Ping Continent?" Yang Shu Hui apparently did not react, but then, only after a good long while, did she speak in a surprised tone, "You said that you are from one of the three Lower Class Continents, the Ping Continent? For you to be from the Ping Continent....."

Apparently she felt that the words she spoke were not polite, as such Yang Shu Hui switched her tone and spoke in an embarrassing way, "Because the resources in the Ping Continent are scarce, moreover I also heard that the Cultivation Methods there are also not complete, therefore I found it somewhat strange, I hope that you don't mind it."

But then her mood became even more excited as she spoke, “This Elder Brother, with the kind of skill that you possess, you can definitely join our Yue Yu Sect. In my Yue Yu Sect, all the disciples cultivate in a man and woman pair, I feel that you really are very great, if you are willing to join our Yue Yu Sect....”

This Yang Shu Hui immediately felt even more embarrassed, and lowered her head in a sheepish manner as she spoke.

It was at this point that Ning Cheng suddenly realized, that she was actually a Dual Cultivation Sect Disciple. This Yang Shu Hui clearly looked highly attractive, but still, just as she saw him for the first time, she immediately asked him out to be her partner, was this her true personality? Or was the entire Academy, that was the Yue Yu Sect, so debauched?

“So you actually are from a Dual Cultivation Sect?” Ning Cheng subconsciously asked.

Yang Shu Hui’s embarrassment immediately vanished, as she somewhat anxiously replied, “Yes, Yes, do you want to join the Yue Yu Sect?”

“Sorry, I have no interest in Dual Cultivating with others.” Saying that, Ning Cheng simply was too lazy to reply to Yang Shu Hui, and quickly entered his own mine tunnel.

As Yang Shu Hui looked at Ning Cheng enter the mine tunnel, she did not understand why Ning Cheng did this kind of thing. It was very normal in the Yue Yu Sect to Dual Cultivate with the partner that they liked. Moreover, the Yue Yu Sect respected their genuine feelings and as such was not artificial about it, as such, people there could pursue whoever they liked, so why was the opposite party’s reaction so strange?

Chapter 133: Rushing out of the killing enclosure

“Hey, that guy unexpectedly refused Yang Shu Hui.” Several of the cultivators present there had some awareness about Yang Shu Hui and were completely surprised. In the Fu Continent’s Yue Yu Sect, Yang Shu Hui was an extremely famous existence. There were only an extremely few cultivators that would enter her eyes. This person had even taken a liking to this True Condensation 4th Level Cultivator, but was unexpectedly rejected.

“His vision really is pretty high.” At a distant place was a woman with a veil on her face, who was looking at Ning Cheng as she unconsciously spoke up.

The middle aged man next to her showed a faint smile, “He definitely has the qualifications, I estimate that he is not yet 30 years old yet, moreover with his skill, his Spiritual Root also should be quite good. I did not expect that such a cultivator would unexpectedly come from such a poor and barren place like the Ping Continent.”

The woman wearing the veil on her face chuckled, “Is it possible that uncle wants to recommend this person to the Elder, and let him join our Wu Nian Academy?”

The middle aged man laughed again, “This young man certainly is quite good, moreover he even comprehended such a formidable Axe Intent. But if this person could join the Wu Nian Academy, then the Wu Nian Academy would not be worthy to have such a big reputation. Ru Xue, you must remember,

although your intelligence is better than all the people here, however you have to be certainly careful about it. At least until you grow up, do not underestimate anyone.”

“I understand.” The woman wearing the veil nodded, then quickly turned away and departed, that middle aged man also followed behind her quickly.

Both of them simply turned a blind eye to the endless Spirit Stone Mine in front of them, moreover they did not even dig a single hole.

.....

After Ning Cheng entered his mine tunnel once more, he first took out and placed a few Array Flags, arranging them in a Shielding Array Formation. He set it up to not only shield his work from the other people’s Spiritual Sense, but also to keep the Spiritual Qi from overflowing outside. There were still some cultivators paying attention to Ning Cheng, but after knowing that Ning Cheng was also an Array Formation Master, they hurriedly shifted the focus of their Spiritual Sense.

None of them thought that Ning Cheng would actually just go ahead and set up an Array Formation, it showed that he was deliberately waiting for a person to look for him. Since he had already established his strength, he simply could do whatever he liked. Otherwise, he would have to rearrange his Array Formation again and again.

Now that his power standing had already been established, nobody dared to come into his mine tunnel any further.

After preparing the Array Formation, Ning Cheng once again picked up his mining speed, and the pieces of Low Grade Spirit Stones that he dug out were all directly put into his Storage Bag.

In the time it takes for an incense stick to burn, Ning Cheng found that the Spiritual Qi in the Spirit Stones was getting richer and richer compared the Low Grade Spirit Stones. Ning Cheng immediately became happy in his heart, he knew that these were definitely Medium Grade Spirit Stones.

He had only been digging in this mine only for a short time, and already he could find Medium Grade Spirit Stones. So he concluded that there definitely would have Spirit Stones of a higher grade behind it.

Facts showed that Ning Cheng had not thought about it mistakenly, after he dug for around 2 hours, he was able to dig up High Grade Spirit Stones. Moreover, in the Spirit Stone Mine that he was located in, the High Grade Spirit Stones actually formed a Spirit Stone Vein.

Moreover, this Spirit Stone Vein was actually surrounded by Low Grade Spirit Stones and Medium Grade Spirit Stones, but at this time Ning Cheng was not much interested in these Low Grade Spirit Stones and Medium Grade Spirit Stones, as he put all his energy into extracting the High Grade Spirit Stones from the Spirit Stone Vein.

Ning Cheng dug out the Spirit Stones for almost a full day and night, he was quite lucky that he was able to grab a few storage bags before, otherwise he would not have space to put all the Spirit Stones that he was continuously mining out.

Ning Cheng at this moment did not know for how much time he had been digging when he gently wiped away the dirt to reveal a pure milky light in front of him. Ning Cheng’s heart immediately skipped a beat.

He knew that he had also finally dug up a Best Quality Spirit Stone. Moreover, there were more than one here.

He immediately suppressed his excitement, as Ning Cheng rapidly put away the seven Best Quality Spirit Stones that had carefully dug up, immediately putting them into his Storage Bag.

After digging up and storing the seven Best Quality Spirit Stones, Ning Cheng once again returned to dig, but found that there were no more Spirit Stones present. He then immediately knew that this Spirit Stone Vein was completely dug up by him. As for the surrounding Low Grade Spirit Stones, he did not have much interest in them anymore.

Ning Cheng at once used the Dust Removal Technique on himself, and rapidly came out of the tunnel, he immediately decided to leave this place. The Spirit Stones that he obtained were already enough, he must use the rest of the time to cultivate.

Seeing that Ning Cheng finally came out, all the surrounding cultivators swarmed towards the Spirit Stone Mine that Ning Cheng had dug up.

“There are a lot of Low Grade Spirit Stones, as well as Medium Grade Spirit Stones....” Now that Ning Cheng removed the shielding that he had put as a means to restrict them, the people could now clearly see the situation inside.

He does not even want the Medium Grade Spirit Stones, everyone thought as they stared at Ning Cheng, just how many Spirit Stones did he poach, that he wouldn’t even spare a glance at these Medium Grade Spirit Stones?

“He has already poached the Best Quality Spirit Stones.....” An old Cultivator with an experienced eye already came to the conclusion that Ning Cheng had already taken away the Best Quality Spirit Stones.

Ning Cheng immediately knew that this was not something good, as he immediately agitated the True Essence in his body to its utmost as he immediately moved to leave. Previously, the situation that arose when an Essence Building Cultivator had dug out a Best Quality Spirit Stone, was something that was already seen clearly by the others, and he also knew that it was more than enough to take his life. Moreover, since his cultivation was merely at True Condensation 4th Level, if he was to end up in the same situation, how could he even try to endure?

Although he was fast, the others were even faster, as dozens of True Condensation Cultivators encircled Ning Cheng within, moreover there was even an Essence Building Cultivator present among them.

But these were not the thing that Ning Cheng was worried about the most. What he worried about the most was that there were a few Essence Building Cultivators staring in his direction, as if they would join in at any time.

Ning Cheng knew that this was not the time to speak any words of idle talk, he immediately without any hesitation pulled out his Great Axe, and without restraining his True Essence even for half a bit, immediately rumbled out with a formidable Axe Type Killing Intent.

The surrounding True Condensation Cultivators knew that Ning Cheng’s Great Axe was really formidable, and immediately retreated, what they wanted most was to let Ning Cheng deplete his True Essence and then lay their hands on Ning Cheng.

But that Essence Building Cultivator did not fear him, he lifted his hands as he grabbed the handle of a steel fan. As he wielded the steel fan, an overwhelming Killing Force rolled up and he completely him pushed back. He had seen Ning Cheng make that move previously, and as such paid attention to his Great Axe, he knew that as long as he could get rid of the Great Axe's Killing Intent, he can very easily kill Ning Cheng.

The fierce True Essence and the formidable imposing manner of Ning Cheng's Axe Shadow's Killing Intent had not yet collided with his opponent, when the sky surrounding all of them immediately exploded with several traces of distinct magic lights.

The Great Axe's Killing Intent was completely wild and berserk, but this time he did not use it like before with his Golden Great Axe Shadow, but instead used it to form a gigantic whirlpool below the Axe Shadow, and in just a twinkling of an eye it transformed into a Tornado of Axe Type Killing Intent.

The Killing Force scattered in the surrounding area was completely gathered up by the Great Axe, which made people who took a look at this tornado to feel as if they would be smashed into nothingness if they were to come in contact with this kind tornado formed of the Axe Killing Intent.

This Essence Building Cultivator had misjudged Ning Cheng's Tornado, he had thought that Ning Cheng would still use his [Angry Axe, The 1st Trace], he actually did not think that Ning Cheng would suddenly bring out a second type of attack Angry Axe [Tornado]. Although his imposing manner was formidable, but he knew that he wouldn't be able to go against the formidable Killing Force from the Tornado.

"Bang...." That Tornado of Killing Intent formed by the Golden Great Axe finally connected solidly with the Essence Building Cultivator's Steel Fan's Imposing Manner, the ferocity of the collision immediately blasted away all the nearby True Condensation Cultivators.

This Essence Building Cultivator was the one to bear the full brunt of it. As he had to take the explosion of the Tornado head on, even if he had the cultivation of Middle Stage Essence Building Realm, he was also directly thrown back by the formidable tornado formed by the Axe Type Killing Intent. As he coughed out several mouthfuls of blood, even his insides spilled out.

Even if that was the case, this Essence Building Cultivator still recalled his Steel Fan Magical Weapon, although his Steel Fan was also blasted back by the Killing Force of Ning Cheng's Tornado, but it was once again recalled back by the Essence Cultivator. After this Steel Fan once again fell into the hands of the Essence Building Cultivator, he immediately flicked it once, immediately bringing out three white blades of light. These three blades of lights, in just a moment, crossed the distance between him and Ning Cheng, and immediately exploded out as they reached Ning Cheng.

Although Ning Cheng's Tornado had far exceeded the thinking capacity of the Essence Building Cultivator, but his True Essence and Spiritual Sense, when compared to an Essence Building Cultivator, was simply far too lacking. Even if he successfully executed his trick, but after being countered against by the Imposing Manner of his opponent's True Essence, moreover as it even exploded on his chest. It similarly sent him tumbling back upside down.

At this time the other party had once again sent out three more of those white blades of light from his steel fan. At this time Ning Cheng's body was in the air, and as such could only escape just one of those

blades of lights. If he had enough strength, then he definitely could have split him up with his [Angry Axe, The 1st Trace], let alone blocking the two remaining blades of lights.

Unfortunately, Ning Cheng simply did not have any more power, and all he could do at the moment was to crazily agitate the True Essence in his body, as he unwillingly used his Golden Great Axe to protect some of the vital areas of his body.

“Cha Cha.....”

The two white blades of light immediately exploded on coming in contact with the Golden Great Axe, as it sent out a terrible, unpleasant to hear, noise as the huge shockwave passed through the Golden Great Axe and once more stuck on Ning Cheng’s chest.

“Ka Ka” Sounds of several bones breaking could be heard, as Ning Cheng crazily spurted out several mouthfuls of blood, while simultaneously being injured seriously. This was a serious wound from the Essence Building Cultivator, although he once again resorted to two more of those white blades of light. But before those white blades of light reached and exploded on Ning Cheng, Ning Cheng at once retreated at full speed. He knew that if those two blades of white light from the Essence Building Cultivator reached him, moreover if he didn’t back up, then Ning Cheng guessed that he definitely would have been split into two pieces.

At present Ning Cheng was severely wounded, and as such the several True Condensation Cultivators observing the scene immediately rushed towards him, they wanted to snatch Ning Cheng’s Storage Bag and run away.

But even though Ning Cheng was seriously injured, and was also facing a Middle Stage Essence Building Cultivator and several True Condensation Realm Cultivators, they were simply not enough to stop or even block him. While still in the air, Ning Cheng once again stirred his True Essence, and shot out another [Angry Axe, The 1st Trace].

But because his breastbone was broken, Ning Cheng immediately burst out in cold sweat, as his face immediately became incomparably pale. Even in this kind of situation, his [Angry Axe, The 1st Trace] rumbled out with an overwhelmingly superior force. Just like how the autumn gale sweeps away the fallen leaves, it shredded apart four Early Stage and a Middle Stage True Condensation Cultivators, who were in front of him in half.

After Ning Cheng killed those five Cultivators, he did not dare to delay for even a single moment, he knew what consequences would fall on him once he did, as a result he crazily burnt the remaining True Essence in his body to escape this killing encirclement and rushed out.

Before facing that deadly attack from the Essence Building Cultivator, Ning Cheng had not completely used up all his True Essence reserves, and was waiting for this kind of right moment to escape.

Although Ning Cheng was surrounded on all sides, he had only exchanged a single move with that Middle Stage Essence Building Cultivator, moreover Ning Cheng even killed 5 True Condensation Cultivators while running away, and this entire thing was only done in a few breathes of time.

Several of the Early Stage Essence Building Cultivators on the side-lines moving towards him immediately began hesitating, they could see that Ning Cheng had the ability to severely injure a Middle

Stage Essence Building Cultivator, and as such were hesitant to make a move on him. While they hesitated just for a little bit, Ning Cheng had already disappeared from their view.

However more than ten True Condensation Cultivators, near the fight scene, actually knew that Ning Cheng had now fully spent his entire energy, and as such once Ning Cheng ran away, they immediately pursued. To a True Condensation Cultivator, a single Best Quality Spirit Stone was incomparably more precious than a True Condensation Pill. The True Condensation Pill was only a medicinal pill, so how could a True Condensation Cultivator compare it with the Best Quality Spirit Stones?

After hesitating for a bit, one of the Essence Building Cultivator finally made the decision to pursue in the same direction in which Ning Cheng fled. But most of the Essence Building Cultivators did not opt to pursue Ning Cheng, whether Ning Cheng really obtained the Best Quality Spirit Stone or not, they still did not know. Instead of wasting time in catching Ning Cheng, they might as well dig out some more High Grade Spirit Stones.

Chapter 134: Yue Ying's Help

Ning Cheng knew that his own injuries were too serious, he did not dare to turn around and go back directly, but rather changed directions and immediately dashed out with all the strength that he could muster. Fortunately, his True Essence and Spiritual Sense was much more formidable than an ordinary True Condensation Realm Cultivator. As such now that he was desperately burning up his True Essence, his speed was thus extremely fast. And in just a short time, he rushed out of the scope of the Spiritual Sense of the True Condensation Realm Cultivators.

But Ning Cheng knew that if he continued on like this, then sooner or later he would be caught by an Essence Building Realm Cultivator. After escaping to a certain distance, Ning Cheng directly hid himself in a gully, while simultaneously throwing out several Array Flags.

And in just a short time, Ning Cheng arranged a Level 2 Concealment Array Formation, he knew that at this time, other than setting up an Array Formation, he did not have any other way.

If it were only True Condensation Realm Cultivators pursuing him, then he could easily escape, but in case he was being pursued by an Essence Building Realm Cultivator, then he wouldn't be so lucky. Fortunately, only Essence Building Cultivators and below could enter this Valley, otherwise even if he arranged a Concealment Array Formation, it would not be of much use.

Inside the Concealment Array Formation, Ning Cheng immediately restrained his True Essence, as he carefully swallowed a single stub of Mysterious Frost Zoysia. The wounds that he had received before really were too serious, not only this, after being severely wounded, he had even forcefully burned his True Essence, and almost completely used up his True Essence to run away, it was simply one misfortune after another to him. If not for his Meridians being remoulded by the Mysterious Yellow Origin, Ning Cheng knew that his Meridians, at the moment, would have been completely destroyed. Although he was formidable at True Condensation 4th Level, and although he may be able to contend against an Early Stage Essence Building Cultivator, but how could he fight against an Essence Building Cultivator in the Middle Stages?

Ning Cheng forcibly suppressed the tearing pain in his entire body, as he burst into self-ridicule in his mind. He had thought that his [Angry Axe Tornado] would be enough to kill that Essence Building Cultivator. Although that Tornado would be enough to kill an Essence Building Cultivator, but it would only work on an Early Stage Essence Building Cultivator and that too when he used it for a sneak attack, otherwise it was absolutely not enough to kill an Essence Building Cultivator.

Previously although that Middle Stage Essence Building Cultivator was seriously injured by him, but it was only because he was taken by surprise by his attack, otherwise it definitely wouldn't be easy to even injure him.

Although the effect of the Mysterious Frost Zoysia was very good. But it was not all-powerful, after all it was not the Profound Replenishment Pill, moreover the condition of his injuries was also very severe. Now that he had taken the Mysterious Frost Zoysia, the medicinal property of the Spiritual Grass would only erupt after he used his True Essence, otherwise it would not be effective at all.

At the moment Ning Cheng did not dare to extend out his Spiritual Sense, not to mention circulating his True Essence to help in his healing. There were already so many people pursuing him, moreover he also did not manage to run away too far, so once there was a Spiritual Qi Fluctuation, he would certainly be discovered.

After an entire three hours passed, Ning Cheng felt incredibly weak, he knew that if he did not seek treatment soon, then he would once again ruin his foundations. The Mysterious Yellow Origin helped him remould his Meridians once, who knows if it would help him in remoulding them a second time? He carefully stretched out his Spiritual Sense, confirming that there was nobody in the surroundings before he rapidly jumped out and began running away from the place he was just hiding in.

.....

Yue Ying was anxiously walking back and forth in the not so big hall, she was not only anxious, but was also afraid. At the moment, she was at the bottom of the river, without anyone else for company, even the sounds from the outside were isolated from this place because of the Array Formation.

This type of loneliness and solitude, it could not let herself feel at ease, let alone trying to cultivate by herself. At the beginning, when she had hidden herself in that cave then at least she was still able to hear various sounds. Although she was still afraid at that time, but at least she did not feel lonely. But at this time, she was aware that she was in a world devoid of any sound. It really had made her feel extremely lonely.

When would Ning Cheng come back? He had already been on the outside for nearly four days.

Yue Ying, who was pacing back and forth in the hall for a long time, finally could not endure the silence and the loneliness anymore. She decided that she must go out and have a look.

As Yue Ying came out through the half-moon shaped arch, she took out the Array Flag that Ning Cheng had given to her and threw it out. It was indeed as expected, as the broken portion that Ning Cheng had temporarily sealed previously once again opened. Yue Ying hovered in the ice cold river water, but rather than feeling cold she felt peaceful, at least she could finally hear the sounds from the surroundings, showing that at least she was not the only thing in the world, even though she was only hearing the sounds of fishes and the water under the river, it was still much better for her.

After surfacing, Yue Ying just had enough time to take a single breath, when she immediately saw Ning Cheng, covered in blood, lying on the river bank. It was obvious that he was severely wounded. Yue Ying was really surprised in her heart, as she hurried and rushed out of the river, immediately embracing Ning Cheng.

Yue Ying did not understand much, but when she embraced Ning Cheng, she knew that Ning Cheng was still breathing, however his internal breathing was different from what she knew, it appeared that he was in the process of healing himself.

Yue Ying stabilized herself a bit, as she studied Ning Cheng's appearance, and in just a short moment put Ning Cheng on her back. Just when she prepared to dive into the river, she immediately saw the blood stains on the river bank. Yue Ying hurriedly washed away those bloodstains with the river water, and once again put Ning Cheng on her back as she dove into the river. Ning Cheng was severely wounded, it was obvious that he was being chased by others, if the others saw the bloodstains and came here, then they would simply be finished.

Fortunately, the things that Yue Ying worried about did not happen. As she carried Ning Cheng back to the Concealment Array Formation, she once again took back the Array Flag that she had thrown out previously. Yue Ying, who was very nervous till now, finally calmed down a bit.

Yue Ying delicately put down Ning Cheng on that fine looking wooden bed, it looked like Ning Cheng had still not woken up, but she still felt a little embarrassed.

Ning Cheng's injury was really heavy, she did not know what to do, but she knew that she could not let Ning Cheng continue to lay down with his body and clothes drenched in ice cold water.

After thinking for a long while, Yue Ying decided that she had to take off Ning Cheng's drenched clothes and decided to proceed with it. Looking at the shocking wound on Ning Cheng's chest Yue Ying was secretly shocked in her heart. Ning Cheng was injured this heavily, and even then could return to this place.

Carefully wiping off all the blood stains on Ning Cheng's body, Yue Ying finally took a look at Ning Cheng's shorts, but in the end did not have the courage to help Ning Cheng take it off. Not to mention taking it off, she even had a frightful and apprehensive look on her face.

If she was replaced by An Yu, then she would have definitely helped Ning Cheng strip completely nude without any hesitation. But she and An Yi were different, she understood things a lot more than An Yi. She did not go and open Ning Cheng's Storage Bag, rather she just used the thin silk blanket on the wooden bed to cover Ning Cheng's body.

.....

When Ning Cheng was brought back to the bedroom by Yue Ying, his body had automatically started to heal its injuries. If it was someone else who crazily burnt up his True Essence while fleeing, then even if he did not harm his foundations, they simply would not be able to recover from their injuries in just one or two days. But Ning Cheng's Meridians were remoulded by the Mysterious Yellow Bead, so although the combustion of True Essence was a serious matter, but it was still insufficient to hurt his foundations. Now that he felt some security, he subconsciously closed off his six senses.

Ever since he started to cultivate, Ning Cheng rarely ever dreamt, but this time Ning Cheng dreamt a long dream. He had brought Luo Fei and returned to Jiangzhou, as he held a grand wedding in Jiangzhou. Even his younger sister Ruo Lan was at his wedding, but when he tried to talk to his younger sister, his younger sister paid no attention to him. Constantly saying that he was really very fickle, and easily changed his mind, saying that now that he found Ji Luo Fei, he simply forgotten about Tian Mu Wan.

But at this time, he even saw Tian Mu Wan among the guests, and the person accompanying Tian Mu Wan was that man who she had driven out with in his car at that time.

Ning Cheng body was covered with a thin layer of sweat, as he immediately sat up.

“You finally woke up, it scared me to death.” Yue Ying knew that the pulses in Ning Cheng’s Meridians were getting stronger and stronger, but she was still worried about him. After all, from the time she carried Ning Cheng here on her back, he had not woken up at all.

Ning Cheng swept a glance at the several Storage Bags beside him, and knew that in his heart that it was Yue Ying who had saved him and brought him back. When he fell on the river bank, he still had some consciousness, but his body was completely battered to the extreme, as such he absolutely did not have any means to return back to the bottom of the river.

“Yue Ying, thank you for saving me.” Ning Cheng spoke in a happy tone, as he sat there, as long as he returned to this place, then even if his injury was more serious, at least he would be able to recover from it quickly.

When Yue Ying saw Ning Cheng’s “chi luo” upper body, her face immediately turned red and said, “I was a little anxious when I stayed back here, so I went out to have a look, but I really did not expect that I would see you on the river bank.”

Ning Cheng nodded, taking out a piece of clothing, he casually wrapped himself in it, and spoke in a serious tone, “I will not go out for a period of time.”

“En, after the three months’ end, we will get teleported out of this place together.” Yue Ying said once she heard that Ning Cheng would not go out, while in her heart she was extremely happy. She was really afraid of living just by herself in this place.

Ning Cheng shook his head and said, “When the three months complete, I don’t think we would be teleported out. If I have not guessed wrong, this place should have an Array Formation that I still cannot see, as such us being teleported out may not work on us. If the teleportation worked here, then the senior who lived here would have been long ago sent out, why would she create a mansion in this type of place for only a short time?”

“Why, don’t you want to go out?” Yue Ying surprisingly asked about that, when she heard Ning Cheng say that they would not be teleported out of here, she simply neglected that part.

“That old man surnamed Kang would definitely not let me off, before I gain the strength to protect myself, me going out would be the same as courting death.” Ning Cheng spoke with a sinking voice.

To Ning Cheng, if he could stay here and cultivate, then he would definitely not go out. That person with the surname Kang hasn’t still not completely dropped all the decorum, as soon as he completely dropped decorum, Ji Luo Fei might face a disaster.

Yue Ying hurriedly asked, “Senior Kang is easy to talk to, moreover the other people are also good, to me he is even more amiable. If you offended him in some way, then let me talk with him, he will definitely show that he is nothing like how you pictured him to be.”

Ning Cheng gave a slight sneer, “You said you would go talk to him, but have you ever once considered your own situation. You should be glad that you were pushed inside this Valley, otherwise you absolutely would not have a good end, please do not think that what I said was something shocking.”

“Ah....” Yue Ying had a look of shock on her face as she looked at Ning Cheng, she even forgot to inquire why Ning Cheng thought she should feel happy in entering here.

After a moment of silence Ning Cheng asked, “Yue Ying, how many changes did you see in the first round of the Tournament of the 5 Star Academies?”

“A total of 50 changes, however I felt that there were still many more changes, but it’s just that I could not see any more.” Yue Ying honestly replied.

“In that second round, what did you comprehend?” Ning Cheng asked again.

Yue Ying frowned, this time she could really feel that there was something wrong with this matter, still she did not hide anything from Ning Cheng and said, “I felt that these changes were a kind of a Cultivation Method, it was as if I saw an ancient almost mystical thing in the world, but I am not too sure what it really was.”

When Ning Cheng heard Yue Ying’s words, he was immediately stunned speechless, this Yue Ying could see 50 different changes, this itself was something that went even beyond his guess. But he did not think that Yue Ying’s comprehension of the leather like parchment was completely different than his own, what he had seen was more than 600 kinds of changes, the different changes that he saw made him guess that it some kind of Cultivation Method or a Technique. But that Yue Ying actually saw through its origin and deduced that it was a Cultivation Method, was what Yue Ying comprehended something even more thorough than what he comprehended?

Chapter 135: The Origin Cultivation Method

Ning Cheng quickly put this issue aside, and said to Yue Ying in a solemn manner, “I think that that person with the surname Kang will definitely take you to the Jia Continent, but he will not allow you to join any 7 Star Academy, rather he would want to bring you back to his mansion. If I did not guess wrong, that first and second round was something that he had intentionally created, it seems he obtained that very mysterious leather parchment from somewhere, but he could not unlock the contents of that leather parchment....”

Yue Ying was not stupid, although Ning Cheng did not finish the words that he was speaking, she could still completely understand the meaning that Ning Cheng was trying to convey, it was as if she could not believe it herself that she looked at Ning Cheng and asked, “Are you saying that he wants me to help him unlock the secrets of that leather parchment?”

Ning Cheng once again sneered and said, "If it was only this easy. Did you think that the contents of that rolled up parchment were something simple? Do you think that he would let a person who knows about the entire content of that parchment leave that easily?"

"Big Brother Ning...." Yue Ying shivered with fright, what Ning Cheng said was simply too terrifying.

It was only then that she thought back to the scene where that Senior Kang was looking at her with a scorching hot vision. Initially she had thought that it was because the opposite party had taken a liking to her excellent natural intelligence, but now that she thought about it carefully, it really wasn't anything like she had thought about.

The opposite party had always asked how her memory and comprehension ability was this powerful, whether or not did she have a fortuitous encounter? But he had never asked her how long she cultivated, or if she had any doubts about anything, or even anything about her Cultivation Methods?

Ning Cheng did not continue to say anything else, the words that he spoke, whether Yue Ying believed it or not, it was nothing to do with him.

Yue Ying's face kept changing for a while, but then she bowed to Ning Cheng and spoke, "Many thanks to Big Brother Ning to dispel these doubts, I was too naive."

Ning Cheng nodded, after hesitating for a while, he said, "Your Spiritual Root and natural talents are truly good, however at the beginning of the written exam there were still a few people with a similar kind of intelligence to you. For example, that Leng Yi Yang, he was even better than you. How did you easily get a higher score than the other people, in fact even I feel a bit strange about whether or not you had a fortuitous encounter?"

Yue Ying fell silent, Ning Cheng also asked about this matter, was this because Ning Cheng also had a similar mental disposition as that person surnamed Kang?

Ning Cheng had moved about for many years in the city while hiding and not revealing himself, and even when he arrived in the Yi Xing Mainland, he kept himself hidden within the community for long periods of time, so he was not bothered much by Yue Ying's silence. Although he wanted to know what Yue Ying was thinking, but he simply closed his eyes, and no longer bothered to inquire about this matter. He can himself remember more than 600 changes in the picture, how could he care about the few dozen changes in the picture that Yue Ying remembered? What he wanted to learn from those words originally, was if Yue Ying was able to see the picture even more clearly than him.

Seeing Ning Cheng, who was no longer inquiring about this matter, Yue Ying finally opened her mouth to say, "My Grandpa said that I was born prematurely, because my father and my mother were rushing through the Swamp of Time at that time. When they met the Heart of Time...."

"The Heart of Time?" Ning Cheng repeated the name, it was the first time that he heard about it.

Yue Ying just gave a slight h'mm before continuing, "That's right, it was because my mother wanted to grasp the Heart of Time, but no one ever thought that just when she neared the Heart of Time, she would suffer from the erosion of time. But before my mother could even come near to the Heart of Time, it quickly vanished into the deepest parts of that Swamp of Time. My father hastily carried my

mother out of the Swamp of Time, then took my elder brother and my Grandpa and immediately headed to the Ping Continent.”

Ning Cheng only knew that Yue Ying and Yue Yang Hua, that brother and sister pair, were not from the Ping Continent, so Yue Ying’s father to be able to bring Yue Ying and her brother to the Ping Continent. It was obvious that he was not a simple person.

“Where is this Swamp of Time?” Ning Cheng suddenly had an enormous interest towards this Heart of Time.

Yue Ying shook her head and said, “I don’t know. This was something that my Grandfather told me. After my father delivered us to the Ping Continent, he immediately took my mother to seek out Spiritual Grasses to cure her. My father said that he would come back very quickly, but more than 10 years passed by, even when my Grandfather passed away, even then my father and mother never came back.”

“The last time when Senior Kang asked if I had any fortuitous encounter, I did not say anything, because my Grandfather said that I could not tell this to anyone. Big Brother Ning you rescued my life, I think that there is nothing to hide from you. The reason why my memory is a lot better than my elder brother, my Grandfather once said, that it was because of the Heart of Time’s influence, but my Grandfather actually also did not know anything about this Heart of Time.....”

Although Ning Cheng was very sceptical about the relation of the Heart of Time and Yue Ying’s formidable comprehension ability, but he also did not know what this Heart of Time was. After listening to Yue Ying’s words, “What your Grandfather said was right, from here on out do not tell this matter to others.”

Yue Ying had some disagreements in her heart, can’t tell this to other people, are you not other people? Did I not just tell you this because you asked about it?

Ning Cheng’s injuries quickly healed up, this Yue Ying was after all a young girl, and Ning Cheng was more or less just a few years older than her, so after the two people exchanged a few more words, she had already thrown away the restraints that she had put on herself.

“Big Brother Ning, didn’t you say that you wanted to give these pearl hair clips to your younger sister?” As the two people became more familiar with each other, Yue Ying more or less did not regard Ning Cheng as an outsider, and even took out the pearl hair clips as she gave them to Ning Cheng.

Ning Cheng took the pearl hair clips from Yue Ying’s hands, and looked at it for a long time, “I have already given her such a pearl hair clip before, because I could not see my younger sister, therefore when I initially saw a similar pearl hair clip that I had given to my younger sister, I immediately wanted to buy it back”

“Big Brother Ning, why did you only gave her a single one? Who did you give the other too? Is your Younger Sister Ruo Lan or Mu Wan?” Yue Ying, who did not speak with him for a long time, now that she came to know a bit about Ning Cheng, she simply shot out endless questions.

Ning Cheng frowned, he guessed that he had called out his younger sister’s name when he was in coma a few moments ago.

Seeing Ning Cheng frown, Yue Ying quickly said, "Big Brother Ning, please do not misunderstand, I only wanted to ask because you kept repeating these names in your sleep. Is that Sister Luo Fei, the one that I saw in the Mo Ze Grand Plaza, the sister you keep mentioning?"

Ning Cheng sighed, "My sister is called Ning Ruo Lan, she is just like you, and is a very lovely girl. Of the pair of pearl hair clips, I gave one of them to Mu Wan, however for some reason she ended up losing it."

Speaking till here, he had a self-deprecating smile on his face, that pearl hair clip was not actually lost by Tian Mu Wan. However, to Ning Cheng, he would have rather lost it to Tian Mu Wan rather than letting others throw it away.

Seeing the somewhat self-ridiculing expression on Ning Cheng's face, Yue Ying immediately understood what might have happened, and immediately spoke up, "Big Brother Ning, I think that Sister Luo Fei is a very nice person...."

She also finally understood why Ning Cheng was so good to her, it was because he was originally thinking of his own younger sister. After saying that, she felt that her words were somewhat monotonous, as she hurriedly put the pair of pearl hair clips into Ning Cheng's hands and said, "Big Brother Ning, I think that you should give these pearl hair clips to Sister Luo Fei."

Yue Ying did not know why that person called Mu Wan would throw away Big Brother Ning's pearl hair clips, but she had seen Luo Fei, she could clearly see that she really was very much worried about Ning Cheng, she would definitely not discard Ning Cheng's pearl hair clips.

Ning Cheng smiled, "The things of the past are in the past, it's just something I think of occasionally. As for this pair of pearl hair clips, from your words I can see that you already like it very much, it would be better if you keep it for yourself. Well this matter was caused by me, since I did not gift the full pair of the pearl hair clips to my little sister at that time."

Yue Ying could not bear to part with the pair of pearl hair clips in his hands, after hesitated for a bit, she finally took one back and said, "Big Brother Ning, since you are insisting I will keep one, I will certainly not throw it away, and I am also certain that Sister Luo Fei would also not lose it."

Ning Cheng looked at his hand which, at the moment, contained an extremely ordinary pearl hair clip, as he nodded and said, "Well, so be it."

Yue Ying saw Ning Cheng finally accept one of the pearl hair clips, immediately became happy in her heart, finally putting away other pearl hair clip away, she asked, "Big Brother Ning, I think that you are very good from the bottom of my heart, then why did Lu Xue and Yong Gu Yun dislike you so much?"

"You will come to understand this later. Right, later if you don't want to cultivate with your original Cultivation Method, then have a look in your Storage Ring to look for a more suitable Cultivation Method, if you can find one, then you can change your Cultivation Method to cultivate more efficiently." Ning Cheng did not go through with the explanation of the matters of why Yong Gu Yun disliked him, this kind of thing was simply too boring to explain. As for how Yong Gu Yun looked at him, he did not care about that at all.

Yue Ying immediately thought of the words that Ning Cheng had spoken to her earlier, to judge a matter to be right or wrong, one had to rely on their own understanding rather than basing it off the half-

understanding of others. Regarding the matter of the Cultivation Method, she had already seen the contents of the Storage Ring, inside the ring she had found a non-attributed Cultivation Method Jade Piece, although she did not know the Grade of this Cultivation Method, but she planned to cultivate using that non-attributed Cultivation Method.

Seeing Ning Cheng once again close his eyes to heal himself, Yue Ying hurriedly left the room. Now that Ning Cheng came back, she was no longer afraid, and could start her cultivation with ease.

Ning Cheng was already immersed in his consciousness to focus on the more than 600 changes from that picture on the leather like parchment that he initially remembered. He wanted to very much know why his understanding of the changes he observed were different from the one's Yue Ying observed.

When Ning Cheng completely immersed himself in the changes of the pictures, he unexpectedly saw more different pictures once again. He had absolutely not seen those pictures before. Before he only saw a bit more than 600 changes in the picture, but now they were more than double as they still continued to increase.

Ning Cheng's cultivation was limited, however because he had the Mysterious Yellow Bead in his Zifu, it simply wasn't a problem anymore. Even after seeing so many changes, he did not become muddleheaded even once.

Maybe it was because of the few tips from Yue Ying, but Ning Cheng was finally now able to see the source of the Cultivation Method in the original picture. These images gradually blended together, as he for the first time after a long time entered the Mysterious Yellow Bead, he gradually became aware that the Formless and the Creation aspects of the Mysterious Yellow Bead were harmonising with each other, letting Ning Cheng unconsciously enter into a Meditative Cultivation State.

A moment later Ning Cheng opened his eyes and lifted his hands, as an innumerable High Grade Spirit Stones flew out from his Storage Bag and neatly piled up in front of him, as he once again started to cultivate.

He wanted to clearly understand what the chant "Formless Creation" meant, as this could even be treated as cultivating in a Cultivation Method that had no Cultivation Method to Cultivate. The 'Formless' did not represent any Cultivation Method, but as long as one started to cultivate, at that moment his consciousness would automatically produce the most correct way to circulate his True Essence.

It was not so much as a Cultivation Method, rather it was better to say that it was Cultivation Method that changed at every moment. This Cultivation Method changed with time, place and the degree of purity of one's Spiritual Qi. This kind of Cultivation Method was not something that could be inherited, and he was the only person in the entire world who could use it to cultivate.

Combining the information that he gleaned from the leather like parchment and the information that he obtained from the Mysterious Yellow Bead's Origin at the same place made Ning Cheng to vaguely grasp at the so called Heaven and Earth Cultivation Methods. As he had the good fortune to receive one of the five heaven defying treasures that was the Mysterious Yellow Bead, he learned that in this chaotic universe there were five kinds of Cultivation Methods that were not accepted by the Heavens and the Earth.

And as he felt his Origin Cultivation Method form in his mind, he found that this Cultivation Method was not set in stone like the others, one could change it anytime and anywhere, as it belonged to the Chaotic Origin Cultivation Methods, moreover it could only be acquired by a single person and that too if they had tremendous luck. If the Origin one obtained was more complete, the Cultivation Method generated would be even more powerful. This Cultivation Method as such was not something that was permitted by the heavens, if one did not have a great wisdom and great perseverance, then if they did not use it to cultivate their mortal bodies, then they were sure to be likely to face a terrifying tribulation lightning that would simply turn them into ash.

As for the other four types of the Cultivation Methods that were not of the Heavens or the Earth, he only came to know that they existed, but he also knew that he actually would not be able to understand anything about it.

Chapter 136: Advancing Through Levels

After changing the Cultivation Method in which she was cultivating, Yue Ying just used a few days to break through to the Qi Gathering 7th Level. She was really overjoyed, after stopping to cultivate, she began thinking that since it has already been a few days, but that Ning Cheng still did seem to have come out. Yue Ying hurriedly arrived at his room, when she arrived in the room she saw that the Spiritual Qi had already taken the form of a fog like substance, which made her immediately stunned.

At this time Ning Cheng was already out of bed, and was sitting in the middle of the room cultivating, while the inside of the room was completely filled with Spirit Stones. She, at the moment, could only see that the Spiritual Qi had completely turned into a whirlpool like shape around Ning Cheng, as it was being absorbed by him continuously.

Yue Ying had seen others cultivate, even she cultivated by absorbing the Spiritual Qi by herself, but she had never seen such a fearful and fast scene of Spiritual Qi absorption. She knew that at this time, Ning Cheng was seriously cultivating, and hence should not disturb him. She hastily sat down against the door and began cultivating. Here the Spiritual Qi was extremely rich, compared the Spiritual Qi in Spirit Stones that she was using to cultivate before, she could definitely tell that it was many times better.

Ning Cheng's injuries had already vanished and could no longer be seen anymore, he could only feel the rich Spiritual Qi around him that he was continuously absorbing, and then was again being transformed into True Essence. At this time Ning Cheng finally became aware of the terrifying amount of Spiritual Qi around him, but he still wanted to know just how much of this Spiritual Qi could he absorb.

He never had been able to be this carefree when he cultivated, this feeling was simply indescribable. This rich Spiritual Qi combined with the Mysterious Yellow Origin Qi, made Ning Cheng's cultivation to rise up continuously.

Previously when he used Spirit Stones to cultivate, when compared to his cultivation speed now, it basically couldn't be placed on an equal footing. Yue Ying was also standing at the door watching him, this was something that Ning Cheng was very clear about, but for now he did not pay attention to anything related to Yue Ying.

In just one month, Ning Cheng already advanced to True Condensation 5th Level, in three months Ning Cheng advanced to True Condensation 6th Level. Half a year later, Ning Cheng was already at the Peak of True Condensation 7th Level. But at this time, six months later, Ning Cheng's stash of Spirit Stones were almost exhausted.

Under the influence of the rich Spiritual Mist around Ning Cheng, Yue Ying's speed of cultivation was also much faster than when she used the High Grade Spirit Stones. Besides among this heavy Spiritual Mist, there was also a slight trace of the Mysterious Yellow Qi, which allowed Yue Ying to travel a thousand Li a day, unlike the slow progress of Ning Cheng.

With its help Yue Ying was finally able to advance to Qi Gathering 8th Level before getting up to eat for a bit as she left Ning Cheng to cultivate. When she started to cultivate after eating, she finally advanced in rank to Qi Gathering 9th Level, but even at this time Ning Cheng was still deeply immersed in his cultivation. The only difference was, Ning Cheng would occasionally unconsciously eat a few pieces of dried ration every now and then.

Fortunately, she knew that Ning Cheng was still in the middle of cultivation. Otherwise she might have gone crazy. The only thing that she could do, was to continue to eat something, and they once again continue to cultivate.

This day Yue Ying could hear all the Meridians in her body breaking out with a crackling like sound, as her Qi also began transforming into the more powerful True Essence. Yue Ying finally understood that she had finally started to advance to the True Condensation Realm.

Yue Ying did not have the True Condensation Pill, so she did not know if this kind advancement was the real True Condensation Realm was real or not as she had not taken the True Condensation Pill. But when she felt that she was quickly finishing advancing to the True Condensation Realm, she quickly set that matter aside in her heart, and put all her mind to transforming her Qi into True Essence.

In the meantime, Ning Cheng finally broke through to the True Condensation 8th Level. As for Yue Ying, with the help of the Spiritual Mist and the trace amounts of Mysterious Yellow Qi, she finally broke through the shackles and officially advanced to the True Condensation 1st Level, as True Essence surged through her body. She could not help but exclaim out in a clear and crisp sound.

Ning Cheng opened his eyes. As he stood up he felt that compared to before, his True Essence was several times stronger, resulting in him becoming pleasantly surprised in both his mind and heart while simultaneously also feeling a bit pained.

The main reason why he was surprised was that although he had advanced to the True Condensation 8th Level, his strength was still extremely powerful. The reason why he felt pained was that he had obtained so many Spirit Stones, but almost all of it were used up by him. But using even these many Spirit Stones, he was only able to advance to just True Condensation 8th Level. With such a cultivation speed, just how many Spirit Stones would he require to advance to the Profound Core Realm?

"Oh, Big Brother Ning, I'm sorry, I could not help myself and restrain my emotions, and ended up affecting your state of cultivation." Yue Ying saw Ning Cheng finally woke up, hurriedly spoke in a flustered tone.

But at the moment Ning Cheng's mood was really good, he just wanted to play a joke on her, but then with an astonished expression on his face he asked, "Yue Ying, you unexpectedly reached the True Condensation Realm? Where did you get the True Condensation Pill from?"

Yue Ying was at a loss, "I did not have a True Condensation Pill, ah, after I advanced to the Qi Gathering 9th Level, I simply naturally broke through the Qi Gathering Realm and into the True Condensation Realm. Um, now that I think of it, I should have benefitted from Big Brother Ning. When I was cultivating in this room, not only was my speed faster, but cultivating in this Spiritual Mist was also much better than cultivating with Spirit Stones."

Ning Cheng sighed darkly in his heart as he became a bit depressed, this was a true genius, with just a bit of Spiritual Mist, she could just casually advance to the True Condensation Realm, moreover she did not even need a True Condensation Pill. Thinking back to the time when he wanted to advance to the True Condensation Realm. The two people, him and Tai Shu Shi, just to obtain a True Condensation Pill, had to go through various hardships and struggles just to obtain it. This person simply cannot be compared to them.

"How long was I holed up?" Ning Cheng suddenly remembered this matter, if it was already past three months, then it was tantamount to success. Later he would try and think of a way to get out of the Angry Axe Valley and return to the Hua Continent.

"I guess that it been about 7 or 8 months." Although Yue Ying was also holed up, she was not like Ning Cheng, as she would, from time to time, wake up and take a look at Ning Cheng.

"It indeed is as expected." Ning Cheng spoke as if talking to himself.

Speaking till that point Ning Cheng asked, "Yue Ying, what plans do you have from now?"

"I do not know where I should go, if that Senior Kang is still looking for me, then even if I return to Hua Continent, I would not be able to escape from his hands, but I am really worried about my brother." Yue Ying said with a vacant expression, if this Senior Kang really was looking for her, then she truly had no place to go to.

But Ning Cheng spoke with affirmation, "The old man surnamed Kang will definitely not go to the Hua Continent, after arriving here for three months, the two of us have not come out of the Angry Axe Valley, so that man surnamed Kang will definitely think that we are in the Angry Axe Valley. So as long as we are in the Angry Axe Valley, and then secretly leave the Jia Continent, as such there would not be a possibility of such a thing to happen immediately."

"Big Brother Ning, do you want to go back to the Hua Continent?" Yue Ying immediately asked.

Ning Cheng shook his head, "With my ability, not to mention about passing through the Lost Mountain Range, even if I can pass through the Lost Mountain Range, at this time returning to the Hua Continent would not be a good thing. What's more, whether we can exit this Angry Axe Valley is itself not certain."

"That...." Yue Ying absolutely did not think of this.

Ning Cheng hesitated for a moment before saying, "Moreover I definitely don't dare to exit from here, I think that once we exit from this place we would be transferred out immediately. Unfortunate I don't

have enough Spirit Stones, if I had enough Spirit Stones, then perhaps I could cultivate to the Essence Building Realm, and then go out.”

It was really regrettable for Ning Cheng, if he had enough Spirit Stones, then he would have definitely continued to cultivate. When he finally advanced to the True Condensation 9th Level successfully, then he would have used the Best Quality Spirit Stones to tackle the boundary to the Essence Building Realm. Anyways, he already had seven pieces of Best Quality Spirit Stones, if one was not enough, then he would immediately use another one.

“Big Brother Ning, I have some Spirit Stones in here.” Yue Ying hastily took off the ring on her hand and gave it to Ning Cheng.

“Big Brother Ning, I do not have a place to go now, I can only stay with you. When your cultivation is high, I also will have a bit of safety. During my cultivation before, I ended up using a lot of your Spiritual Mist, it would be best if you can use these Spirit Stones for your own cultivation.” Yue Ying saw that Ning Cheng was hesitating a bit and hurriedly added.

Ning Cheng finally reluctantly nodded, taking the Storage Ring from Yue Ying he said, “If that really is the case, then I will use your Spirit Stones. If after we exit this place, we are not transferred out, then I have a method to return the Spirit Stones back to you.”

These words Ning Cheng spoke were not boasting, he knew the location of the Spirit Stone Mine, and it would definitely have many Spirit Stones. Now that all the people were sent away, he can now go ahead and leisurely dig out those Spirit Stones. He knew that he would definitely find many.

“I do not want that many Spirit Stones.” When Yue Ying heard Ning Cheng say that he would repay the Spirit Stones to her, she hastily waved her hand and adamantly opposed the idea.

Ning Cheng also did not explain any further, as he took out all the Spirit Stones from inside Yue Ying’s Storage Ring. Inside Yue Ying’s Storage Ring there were 10,000-20,000 High Grade Spirit Stones, after Ning Cheng took out all of them, he once again spread them evenly throughout the entire room.

Then Ning Cheng arranged a small Spiritual Gathering Array Formation, and then at last sat down in the middle of this Array Formation as he continued to attack the barrier to the True Condensation 9th Level.

When Yue Ying saw that Ning Cheng had once again began cultivating, she also at the same time sat down to consolidate her own cultivation.

Ning Cheng once again immersed himself in the absorption of Spiritual Qi. Inside the room the Spiritual Qi was being crazily absorbed by him after quickly turning into a Spiritual Mist.

Then numerous Katcha like sounds emerged, as once again several of the obstructed acupuncture points were forced open, which allowed Ning Cheng to smoothly enter the True Condensation 9th Level unhindered. In his spacious Meridians, the True Essence was getting more and more concentrated, even the sound of the True Essence flowing through them could be heard distinctly. Ning Cheng still was crazily absorbing the Spiritual Qi, he simply did not have any regards to his surrounding now.

He did not know how long he had been doing this, but now his True Essence was concentrated to such a point that it was even starting to transform into a genuine liquid, although it was still called as True Essence, however this True Essence had already started to trans mutate.

A formidable True Essence and Spiritual Sense continuously washed over Ning Cheng flowing out from his Meridians and Zifu, Ning Cheng knew that he must break through to the Essence Building Realm at this moment.

He did not hesitate and immediately brought out two pieces of the Best Quality Spirit Stones. Gripping one in each hand, the gentle but extremely pure Spiritual Qi in it almost made Ning Cheng comfortably speak out “shen yin”. This Spiritual Qi that he was absorbing was simply too rich and pure, an ordinary Spirit Stone simply couldn’t even be compared to it.

The extremely rich Spiritual Qi from the Best Quality Spirit Stones directly flowed into Ning Cheng’s Meridians and Dantian, transforming into an even more purer Spiritual Qi, as it once again washed over Ning Cheng’s body.

Even the just transformed True Essence was also flowing much more smoothly. Moreover, as Ning Cheng’s Meridians were remoulded by the Mysterious Yellow Origin, they were already thick and spacious but under its influence once again transformed. As a result of this impact, his Meridians once again expanded and strengthened themselves to a whole new level. Ning Cheng indistinctly felt the barrier to the 1st Level, he felt that as long as he could blast open this barrier to the 1st Level, he would see a whole new world, as he advanced in rank to a whole new level.

Ning Cheng continued to crazily absorb the Spiritual Qi from the Best Quality Spirit Stones to attack this barrier. He was eager to know what kind of world would he see after advancing, moreover he also had a pressing need to possess an even more formidable strength.

Truly speaking, cultivating with a Best Quality Spirit Stone was extremely rare, not only were these Spirit Stones rare to the point of being non-existent, only an extremely few people would attack the boundary to the Essence Building Realm with a Best Quality Spirit Stone, moreover he was using two of such pieces.

But to Ning Cheng, even after crazily absorbing the Best Quality Spirit Stones, he still could not break through the barrier. The Spiritual Qi that was needed to break through the barrier far exceeded the scope of his imagination.

After the two pieces of the Best Quality Spirit Stones turned to ash, Ning Cheng almost without hesitation, once again took out two more pieces of Best Quality Spirit Stones. He knew the truth, if he gave up now, then he not only wasted the two pieces of Best Quality Spirit Stones, but he would also not be able to break through in his cultivation in a short time.

The extremely pure and rich Spiritual Qi from the two pieces of the Best Quality Spirit Stones once again flowed into Ning Cheng’s Meridians. Under the circulation of the Cultivation Method of Ning Cheng, Ning Cheng once again tried to attack the barrier that was acting as a shackle to his cultivation.

Chapter 137: Formidable Essence Building

With a bang, Ning Cheng’s entire body relaxed as at this moment, that liquefied True Essence also looked for an outlet to vent. His Meridians and the Acupuncture Points throughout his body immediately issued a series of resounding sounds. As each of those resounding sounds emerged he could feel his entire body lighten up bit by bit, section by section.

Never had such a pleasurable feeling and a sense of understanding ever appeared in his heart, Ning Cheng really could not endure it any longer, and immediately gave out an endless shout of joy that made Yue Ying startled. This kind of formidable feeling of intense joy and strength simply wasn't something that Ning Cheng was unable to express fully. At this time his entire body was oozing out massive quantities of impurities, but he simply did not take any notice of it.

Ning Cheng knew that he finally succeeded in stepping into the Essence Building Realm. But this stepping into the Essence Building Realm came at the price of using up four Best Quality Spirit Stones. For a cultivator, the first real watershed point in one's cultivation was to successfully enter the Essence Building Realm, only after entering that Realm, would one be actually able to have the qualifications to call themselves as genuine Cultivators. Until that time, they would only be casting their foundations.

But this kind of joy had still not yet ended, when Ning Cheng could vaguely feel the indistinct shape of his Sea of Consciousness. Just like the breaking of an eggshell, it immediately burst and spread out.

Ning Cheng's eyes turned red with excitement, he knew that after one succeeds in stepping into the Essence Building Realm, he would form a Sea of Consciousness. He would finally no longer have to fight against other people's Spiritual Consciousness with just his Spiritual Sense, he now officially had the Sea of Consciousness. Later he could also extend out his Spiritual Consciousness. Ning Cheng heard that if one cultivates their Spiritual Consciousness to a very high level, then they can even attack using just their Spiritual Consciousness.

Forcefully stabilising his mind, Ning Cheng started consolidating his cultivation of Essence Building Realm, tidying up the fearsome True Essence, while simultaneously improving his Sea of Consciousness. Meanwhile his True Essence cleaned out the impurities still remaining in his Meridians and body. This was the Marrow Cleansing Process, as long as one stepped into the Essence Building Realm, every single cultivator would have to face such an experience.

Undergoing the Marrow Cleansing Process can make a cultivator even more formidable, as it makes the mortal body even more unobstructed and unrestrained.

Yue Ying looked at Ning Cheng with a blank expression on her face as he succeeded in stepping into Essence Building Realm. She simply was unable to feel the formidable strength of Ning Cheng, but she simply had an indistinct feeling, that Ning Cheng had finally stepped into the Essence Building Realm. She could not help but compare him to the old Essence Building Realm cultivators in the already established Falling Star Academy.

After a few more days passed by, Ning Cheng finally opened his eyes. Immediately jumping up, his eyes betrayed the joy of his innermost feelings.

"Big Brother Ning, congratulations on your success in entering the Essence Building Realm." Yue Ying spoke with genuine happiness from the bottom of her heart.

"Yue Ying, thank you, without your 10,000-20,000 High Grade Spirit Stones, I would definitely be unable to succeed in breaking into the Essence Building Realm. You have provided me with the biggest favour in my life." Ning Cheng was really grateful to Yue Ying from the deepest parts of his heart. He was even able to comprehend such kind of Cultivation Method during this time. Moreover, his own cultivation also went all the way unimpeded. At this time, he was able to break through to the Essence Building

Realm in one vigorous effort, if he had to do this again over the same period of time, then he knew that his progress won't necessarily be this smooth.

If he could increase his cultivation more and more this early, then wouldn't this be the most appropriate time?

It wasn't after advancing to the Essence Building Realm, that Ning Cheng finally gained a genuine understanding towards it, for him to seriously injure that Intermediate Stage Essence Building Cultivation was not undeserved. When he thought back to his insights on the two types of Axe Intent, he found that he really was naive to think that he could go against an Essence Building Cultivator.

It was not that his Axe Intent was not good. But the difference between his Spiritual Consciousness and True Essence was simply too big. For him to be able to run away from the pursuit of an Essence Building Cultivator, was already a stroke of good fortune.

But he also knew that now with his present cultivation, if he went out and battled against that Intermediate Stage Essence Building Realm Cultivator once again, then he wouldn't have to use much strength against him, and could definitely kill the opposite party.

Moreover, the Cultivation Method that he cultivated in was also much more powerful than the others, but although the Cultivation Method that he used to cultivate was more powerful, the cultivation resources required for him to cultivate were also much more.

Ning Cheng did not care about it. What he wanted was to become stronger and stronger and more formidable than others.

This Cultivation Method called the Mysterious Yellow Formless was simply too heaven defying. Ning Cheng could definitely attest to this fact. Even if there was another cultivator with powerful qualifications, as long as he had sufficient resources, his cultivation speed would also not be much slower than the opposite party's. He only used less than three months to rise and breakthrough to the Essence Building Realm from True Condensation 8th Level, this point in itself explained it in a very illustrative way.

"Big Brother Ning. You are the person who saved me, if you thanked me again, then I would really be embarrassed. But Big Brother Ning, you really smell extremely foul at the moment." Now that Yue Ying and Ning Cheng were already acquainted with each other, so even their speech did not have any form of apprehensions in it.

"I'll wash up, then we can exit from this place." Ning Cheng said with a smile.

After Yue Ying exited, Ning Cheng used the Dust Removal Technique on him many times. But thinking that it was really not enough to remove the stink, he once again washed his body with water a few more times, changed to a clean set of clothes, then came out of the room.

At this time Yue Ying was already eagerly waiting for him at the half-moon shaped arch, it was obvious that Yue Ying really wanted to leave this place.

Ning Cheng looked at Yue Ying, who already was bursting with anxiousness to go out and suddenly spoke, "Want me to carry you?"

Yue Ying hastily shook her head and said, "No, No, I can come up by myself, have you forgotten, that it was me who carried you back here the last time."

"You really don't want to? If you don't want to, then let's exit this place now." Ning Cheng also deliberately spoke out another sentence.

"....." This time Yue Ying hesitated, she and Ning Cheng had been together for a long time, although they used the majority of the time to cultivate, she had already become familiar with Ning Cheng. Ning Cheng was completely not the kind of person that Yong Gu Yun made him out to be, although she still had some doubts in her heart at present, mostly because of the thing that Ning Cheng did with Su Zhu. So this time when Ning Cheng asked to carry her on his back, then she thought that there might be a reason for it.

"This...." Yue Ying hesitated for a moment, and then said, "Big Brother Ning, please carry me on your back."

The reason why she finally actively spoke about Ning Cheng carrying her on his back, was because she knew that Ning Cheng was not the kind of person Yong Gu Yun made him out to be, so she trusted and believed that Ning Cheng would not do anything else to her.

This time Ning Cheng did not use a rope to securely tie Yue Ying to his back, but rather simply carried Yue Ying on his back as he went to open the Array Formation, and immediately entered the river water.

After Ning Cheng entered the river waters, Yue Ying then understood why Ning Cheng offered to carry her. At this time Ning Cheng formed a spherical shell around them with his True Essence that help them avoid the surrounding waters, moreover not even a single drop of water from the surroundings came in.

"Thank you, Big Brother Ning." Yue Ying felt relieved in her heart, and suddenly felt compassion towards being carried on Ning Cheng's back.

The two people finally then left the underwater mansion, but none of them proposed to take away the Water Avoiding Pearl. Once the Water Avoiding Pearl was taken away, then the surrounding Water Avoidance Array Formation would not be able to block the river water, and would instantly turn the underwater mansion into rubble.

Although Ning Cheng was a grateful person, but he simply did not think about it. Yue Ying had sort of expected it, but since Ning Cheng did not mention about this matter, she also did not mention about it.

"Big Brother Ning can I ask you something?" Yue Ying who was on Ning Cheng's back at present suddenly asked.

Ning Cheng absentmindedly replied, "You can ask, as long as I can answer your questions, I will and will not hide anything."

"Um, Big Brother Ning, on the day that I and Sister Yong Gu Yun and Sister Lu Xue saw you and Sister Su Zhu in the Clear Heart Academy together, did you really like Sister Su Zhu?" Once Yue Ying spoke it out she realised that she should not have done so.

Ning Cheng showed a faint smile, "If you want to really ask if I slept with Sister Su Zhu, then please go ahead and directly ask, you don't need to beat around the bush."

Hearing Ning Cheng's straightforward words, Yue Ying's face immediately felt as if it was burning, as in her mind she really had such kind of meaning. But how could she ask others about such a matter in a casual way, Big Brother Ning was simply too direct.

She added in a low voice as she put her head down as she blushed fiercely, "I wanted to say that Senior Sister Apprentice Luo Fei is really very good, I also very much like Senior Sister Apprentice Su Zhu....."

Everyone has their own idea, Ning Cheng was simply too lazy to explain such a thing to Yue Ying. He just suddenly asked, "Yue Ying, did we not live in a room together for nearly a year?"

"Yes ah....." Yue Ying answered, while she was still calculating, they truly did live together in a room for nearly a year.

"That's good." Then Ning Cheng once again spoke, "Did you also not take off my clothes, so doesn't this mean that we also slept together?"

"Ah...." Yue Ying's face immediately turned even a deeper shade of red, "Big Brother Ning, what are you saying, although I stripped off your clothes, when did I sleep with you...."

Saying that, Yue Ying felt that this was not right, although she had stripped off Ning Cheng's clothes, but other than his shorts, the rest of the clothes were taken off by her, but it was in order to save Ning Cheng. Ning Cheng couldn't be put on the bed wet right?

Ning Cheng once again spoke with a self-deprecating tone, "Yue Ying, you have stripped off my clothes, we also lived in a room together for nearly a year, but you know that we really did not sleep together. So then why did you think that me and Su Zhu slept together when you walked in and saw me and Su Zhu together? Is it because someone told you?"

"I understand, Big Brother Ning, you really were not with Su Zhu tog...." After saying to that point, Yue Ying suddenly stopped, 'sleeping together', those two words she did not speak as her face once again turned crimson red, now that she said it, it sounded even more ambiguous.

However, Yue Ying quickly changed the topics and said, "Big Brother Ning, since you have not done such a thing, then why didn't you explain it properly?"

Ning Cheng spoke in a light voice, "What are Lu Xue and Yong Gu Yun to me? Why should I explain it to them? Even if they don't believe me, I don't care and I won't waste my time to explain it. Those who believe in me, don't need my justification to believe in me. As for those who don't believe in me. They won't believe me no matter how flowery I present it to them."

"I'm sorry." Yue Ying had initially thought that Ning Cheng would not explain further even if she asked, but at this time she finally understood the few words that Ning Cheng spoke out just now.

"There are times when you have to keep your own opinions of people and things, and if someone or something tries to change your views, then you have to go out and make sure to confirm it by yourself."

Now that Yue Ying had heard Ning Cheng's words, the embarrassment of lying on Ning Cheng's back completely disappeared. Now that Ning Cheng had stated in such a clear way, it no longer needed any explanation, she also felt that she had really misunderstood Ning Cheng back then, and was even unfair

towards Ning Cheng at that time. Unconsciously, she hugged Ning Cheng even more tightly, and even tightened her legs around him.

Although Ning Cheng was carrying Yue Ying on his back, he really did not mind such a green apple. But now that Yue Ying was subconsciously hugging him even more tightly, moreover even tightened her legs around him, it instead made Ning Cheng a bit warm in his heart.

He quickly increased his speed, although he knew that Yue Ying had not done this intentionally, however such an unconscious movement was really inappropriate.

Now that Yue Ying was making such an effort, Ning Cheng felt his back become even more hot. Although Yue Ying did not understand what she had done, but she immediately knew that her subconscious movement was something improper. She was just about to loosen up, when a bright light hit her eyes, as Ning Cheng flew out of the river carrying her on his back, and landed on the shore.

“We really are not being transferred out....” Yue Ying was pleasantly surprised as she called out, what she worried the most was that they would be transferred out once they came out of the river. If after being transferred outside, that old man Kang really was still waiting for them outside, then it really would not be a good thing.

Chapter 138: Do Not Speak Here

“Ha Ha, we are rich....” Ning Cheng laughed, as he turned to look at Yue Ying and said, “Yue Ying, I’ll take you mining.”

Yue Ying did not react, as she stupidly stared at Ning Cheng and repeated his words, “Mining?”

“That’s right, we are going mining.” Just as Ning Cheng finished speaking, he took a step forward.

When Yue Ying saw this, she quickly followed behind Ning Cheng, she was now an Early Stage True Condensation Cultivator. Her cultivation now was many dozen times stronger than before, so of course, her speed would also increase.

.....

After more than two hours, Ning Cheng blankly stared at the totally messed up mining field, and it was only after a good while did he react, “How is this possible?”

This was definitely the mine that he had left from previously, moreover he had only dug up a very small part, even if there were tens of thousands of people dug here till the Angry Axe Valley closed up, it would still be unlikely to completely dig up, right? But as to the present situation in front of him, it simply did not even resemble the mine that he had left before. Not to mention a mine, there wasn’t even a complete weed on the ground that could be seen, the entire mine was completely dug up by others.

“Hey Big Brother Ning, look there, there seem to be still some people here.....” Yue Ying said as she pointed to a place in the distance.

Ning Cheng then saw that in front of them, in a distance, were figures of two True Condensation Cultivators, it seemed as if they were looking for something.

“What the hell is this? Didn’t we escape the transmission out of Angry Axe Valley, or did the transfer really did not start because of the accident that occurred in the Angry Axe Valley?” Ning Cheng said as he really could not understand what was the matter here.

Ning Cheng quickly arrived in front of these two cultivators. These two cultivators when they saw Ning Cheng and Yue Ying come over, immediately became alert and stared at the two of them in a hostile manner.

Ning Cheng cupped his fists in front of him and said, “Two friends, me and my Junior Sister Apprentice have been trapped in this place for almost a year, as such we missed the transmission time to get out of the Angry Axe Valley. How haven’t the two friends here not been transmitted out?”

The two True Condensation Cultivators saw that Ning Cheng was only inquiring about this matter, as such slightly became less alert towards them. One of them said in a distressed tone, “Don’t say that, not to mention that you have not been transferred out, rather all the people that came into the Angry Axe Valley are unable to go out. After the accident in the Angry Axe Valley that happened at the beginning, even after the three months passed by, no one was able to be transferred out.”

Ning Cheng and Yue Ying immediately became silent, since not even a single person who entered the Angry Axe Valley were transmitted out, that means that what they had considered to be a good fortune, that they had pinned most of their hopes on, fell empty.

.....

Although this was not a very good news but Ning Cheng was only a bit disappointed, as he walked away with Yue Ying. During their walk, not to mention a Spiritual Grasses, even Monstrous Beasts were hard to come by.

“This Valley is really unworthy of its name.” Yue Ying said in a somewhat depressed tone.

“No, it is because the number of people who entered the Angry Axe Valley are simply too many. When we were at the entrance to this Valley in the Jia Continent, there were already tens of thousands of people who entered from there, maybe there were even more people who entered from the other entrances. With so many people entering the Angry Axe Valley, and also going through almost a year of searching, even the best of the things would be taken away.” Ning Cheng spoke while sighing, he had been in closed door cultivation for too long. There definitely were lots of good things in this Valley, however when compared to the other people, what he obtained at this time would certainly not be something that could even be counted.

“Big Brother Ning, shall we go to the depths of the Angry Axe Valley, I heard that the Angry Axe Valley is boundless, even if several hundreds of thousands of people came, there would still be many places that they would have not gone to.” Yue Ying quickly replied.

“Good.” Ning Cheng was also thinking of this, since there were simply a lot of things in this Angry Axe Valley. It would be impossible to fully empty out the Angry Axe Valley in such a short time. His original idea was to find lots of Spiritual Grasses and lots of cultivation resources in the Angry Axe Valley, and then once again return back to the underwater mansion under the river and start studying Alchemy.

Although he was able to advance from the True Condensation Realm to the Essence Building Realm, but he really wasted a lot of energy, wasted a lot of Spirit Stones, and even used up four pieces of the Best Quality Spirit Stones. He knew that if this continued then he would require a lot more resources in the future. How couldn't he not try and learn Alchemy?

Although he was not able to go back in time to find Ji Luo Fei, but Ning Cheng believed that Ji Luo Fei would definitely be safe in the God Wind Academy. Moreover, Ji Luo Fei was also very much aware of his thoughts. Since he wanted to let Ji Luo Fei to wait for him in the God Wind Academy, then Ji Luo Fei would definitely be waiting for him in the God Wind Academy. In fact, he knew that she would remain there unless the God Wind Academy no longer existed in Hua Continent. But the fact was that the God Wind Academy was a 5 Star Academy, how could it possibly cease to exist without any reason?

.....

In the depths of the Angry Axe Valley, stretching over hundreds of miles was a mountain range, that was, at the moment, crowded with several tens of thousands of cultivators. Rather than saying that it was a mountain range that stretched for hundreds of miles, it would be better to say that it comprised of innumerable low hills. But these innumerable low hills were covered in lush and verdant greens. Moreover, there was the Qi from the Spiritual Grasses blowing through the air, as even from a distance everyone could see extremely High Ranked Spiritual Grasses that were at a distance from them.

What was strange was that, even though there were many High Ranked Spiritual Grasses, but not even one of the cultivators present there were swarming towards them.

If one looked closely, then some of these hills were already dug out of shape, while there were still many remaining that were safe and sound. Many of the Cultivators formed groups, and some of them did not disperse till the hill that they were on was completely dug up. Every single one of them present was showing a strong momentum as they all pressed forward. Together with such an imposing momentum, it looked as if they were fighting against the hills as their opponents.

Finally, someone cried out with joy, it was as if the cultivators fighting against the hills were finally winning, as the first incorporeal layer surrounding the hill finally disappeared. At once all the people swarmed towards it.

If a person was to see such a scene from the corner, he could then understand why some of the hills here were dug out of shape, and why there were still some hills that were safe and sound.

"Senior Sister Apprentice Jing Xiu, I found a good thing...." A very ugly looking girl joyfully called out.

A young male cultivator beside her quickly covered that girl's mouth, while seizing the thing in her hand and quickly putting it into his own Storage Bag, and then spoke to her in a severe tone, "Danqin, don't speak too much here, once you find something, immediately put it away and continue."

This very ugly looking girl did not have the time to answer, when they heard someone shouting from the edge, "I saw that thing first, take it out."

This young male cultivator pulled the ugly young girl behind her, and slowly spoke in a polite voice, "My friend, these things here are ownerless, moreover this thing was obtained by my Junior Sister Apprentice a moment ago, your statement is a little too off the point."

“Talk less nonsense, are you going to hand it over or not.” This man’s cultivation was obviously not low, and spoke out with some impatience.

“Why do we have to hand it over?” A beautiful female cultivator with a slightly dark skin immediately spoke out loudly with a sarcastic voice.

The male cultivator showed a fiendish grin as he spoke, “If you don’t pay up then you can only die.”

Speaking till here, that male cultivator immediately took out a huge green claw, once this green claw came out, a huge overwhelming presence swept across the hill, and immediately enveloped the three people in front of them. Under such a horrifying Killing Intent emanating from the giant green claw, even breathing for them was difficult.

This trio was undoubtedly the three individuals that got separated from Ning Cheng, Cang Shuo, Meng Jing Xiu and Ruimu Danqin. If Ning Cheng had not gone into closed door cultivation for nearly a year, then during this long time, they would have already met up. Only because Ning Cheng was cultivating behind closed doors at the bottom of that river for almost a year, so even when the three of them went looking for him, they could not find Ning Cheng.

When Meng Jing Xiu saw the other party initiate the attack first, she also did not plan to endure it, as she immediately brought out her long halberd, as she immediately shot out with her [Raging Tides of the River]. She was only at True Condensation 6th Level, while the opposite party was already at True Condensation 9th Level. Although she had her own pride in her strength, but she really could not dare to look down at the strength of the True Condensation 9th Level Cultivator in front of her.

The Halberd Shadows moved just like the raging tides of a violent river and was completely overflowing with her Killing Intent as it approached the giant green claw with an overwhelming imposing manner that blotted out the sky. It felt as if Meng Jing Xiu’s attack would completely swallow up that True Condensation 9th Level cultivator and his trio. Her Halberd Shadows completely swept out the other party’s offensive, even that trio also immediately felt chills down their bodies. They had never thought that a True Condensation 6th Level Cultivator would have such a powerful halberd technique.

“Boom.... Ka Ka....” The True Condensation 9th Level Cultivator’s giant green claw and halberd’s killer move immediately collided with each other, as their respective True Essence immediately exploded out. Several Halberd Shadows were able to get past the blockade of the giant claw, and exploded on the chest of the True Condensation 9th Level Cultivator. Although the Halberd Shadows were able to get past the giant claw, but it’s power and influence was greatly reduced, as such it could only tear open the clothes of the True Condensation 9th Level Cultivator, and only give him a few bloodstains.

These bloodstains were simply superficial, but this True Condensation 9th Level Cultivator could clearly feel that he would have fallen under it if not for his giant claw blocking most of the power.

Meng Jing Xiu’s heart sank, she thought that this attack would seriously injure the other side, but she never dreamed that this attack would only produce a few superficial blood stained injuries on him. If they really had to fight all out with them, then their situation did not look optimistic at all.

“Ha Ha.... since the two of them have attacked our Senior Apprentice Brother Qu, such being the case, then don’t blame me, Shang Mou Gao, to be impolite.” As the voice fell, a man wearing a brown robe jumped in front of Meng Jing Xiu.

"Are you really not concerned about face, I was just standing here a moment ago and did not move at all, when did the two of us attack you?" Cang Shuo angrily cursed out.

That male cultivator called Shang Mou Gao simply ignored Cang Shuo, as he immediately brought out a Flying Sword as he pointed it towards Meng Jing Xiu, while he turned to the other True Condensation 9th Level Cultivation who was pushed back by Meng Jing Xiu and spoke, "Senior Apprentice Brother Qu, for you to personally go and teach them a lesson is simply not good, let me handle this black pot of a woman."

Meng Jing Xiu wanted to retort with a few words, but when she heard the rude words spoken by that brown robed cultivator, she suddenly trembled with rage, and once again shot out with the long halberd in her hands.

The continuous waves formed from the Halberd Shadows were also much more powerful than before, but these killer shadows were easily blocked by the other party's Sword Light. Meng Jing Xiu's heart sank once again. Because she now had practical experience from before, she knew that this man called Shang Mou Gao was more powerful than Fang Xin who had easily defeated her in the Mo Ze Grand Plaza, moreover he was stronger by more than a little bit. Moreover, the Sword Light that he sent out was very strange, it seemed as if it shackled her True Essence and Spiritual Sense.

But here was not the ringside, she could not admit defeat, otherwise once she did, then the only thing that awaited them was death.

Although those endless Halberd Shadows were easily broken by Shang Mou Gao, but the several Sword Lights of the other party actually easily moved to cut off their escape route and also to attack them.

Meng Jing Xiu was greatly startled in her heart, as she immediately forcefully recovered her halberd and turned it into a shield, to block these Sword Lights from penetrating through.

"Puff Puff..." Two arrows of blood shot out, as her waist and arms were still stuck by the Sword Light.

That Sword Light cut through a few centimetres of her arm as it passed through, even if that was the case, she knew that if she did not hurry up and heal it, then her arm would turn to waste.

Seeing Meng Jing Xiu seriously injured, Cang Shuo, who originally knew that he would not be an opponent against the other party, was immediately struck by the giant claw of the opposite party, and was suddenly sent flying away. At this point there were several bloody holes on his chest, moreover the injuries he suffered were no less lighter than Meng Jing Xiu.

Ruimu Danqin was really anxious, as she quickly cried out, "You don't have to kill Senior Apprentice Brother Cang and Senior Sister Apprentice Jing Xiu, we'll give you that thing...."

Speaking till there, she immediately directly grabbed the Storage Bag of Cang Shuo and threw it down at the other party. Ruimu Danqin thought that after saying this to the other party and even throwing down their own Storage Bag, there wouldn't be any more hatred between them, and would not try to kill them.

But the one called Senior Apprentice Brother Qu who was a True Condensation 9th Level Cultivator sneered and spoke, "I told you take it out sooner, but it's too late now....."

While he spoke, he once again resorted to the giant claw in his hands.

The Gate Of Good Fortune

Chapter 139: Danger May Come at Anytime

“Senior Apprentice Brother Xiao Cheng will be here soon, if you kill Senior Apprentice Brother Shuo, then Senior Apprentice Brother Xiao Cheng will not let you off....” In Ruimu Danqin’s heart, Ning Xiao Cheng was the most powerful.

She personally saw Ning Xiao Cheng take the first place in the third round of the Tournament, if he wasn’t powerful then how could he accomplish this? Moreover, Deacon Liu also entrusted the three of them to Senior Apprentice Brother Xiao Cheng, showing that Senior Apprentice Brother Xiao Cheng really had the ability and strength.

Now that Cang Shuo and Meng Jing Xiu’s life was in peril, Ruimu Danqin no longer thought about anything else and spoke out her mind, regardless of if she would be ridiculed or not.

“Ha Ha....” That Senior Apprentice Brother Qu laughed, “I am Le Continent’s Red Heaven 7 Star Academy’s Qu Tong Fu, by my side is Red Heaven Academy’s Shang Mou Gao. You can wait here in the shade for the time being, remember that when your Senior Apprentice Brother Xiao Cheng comes, tell him to meet his Grandpa Qu. Kill your Senior Apprentice Brother Cang? No, no, this Grandpa will extinguish both of them together along with you.”

At a distance Chi Zi Wen, Meng Yu Jing, Situ Yu, Ling Naixin and even Yong Gu Yun were standing in the valley, but none of them came forward to speak even a single word. They knew that if they dared to speak out, then even they would be dragged into this mess.

Meng Jing Xiu desperately glanced at the few people from the Hua Continent, she knew that to rely on these bunch of people to succeed, was really not possible. Humans are simply fickle hearted, and these people really showed it.

At this time another cry sounded out in a distance, apparently another hill was broken open, and as such numerous cultivators were swarming in.

This person called Senior Apprentice Brother Qu no longer cared about killing Cang Shuo and the trio, as he also immediately followed that brown robbed cultivator called Shang Mou Gao as he rushed past them towards the commotion.

“If you dare to run, I, your father, will rub the Bone Burning Spirit on you....” Before leaving, that True Condensation 9th Level Cultivator surnamed Qu, did not forget to leave behind a few words. Meng Jing Xiu simply did not have the chance to take back the Storage Bag, not to mention trying to kill those three people.

There were so many cultivators here. So once someone broke open a hill, it would immediately cause the others to chase and grab the things. Even Meng Jing Xiu had killed three people since the time she came here. Waiting for a person to find a Spiritual Grass, and then later killing him to obtain his spoils were all too common here. With Meng Jing Xiu were only a few low level cultivators, as such they absolutely would not be able to snatch the good things, or even rob Spiritual Grasses from others.

"I am really sorry, Senior Apprentice Brother Cang, Senior Apprentice Sister Jing Xiu, I even implicated you all....." When Ruimu Danqin, who was innocent, saw such a battle scene, she was completely at a loss of words at this time.

Cang Shuo said with a sigh, "I do not blame you, it's just that our experiences were simply too bad. You see those people from the Falling Star Academy, as well as the rest, were able to pick some Spiritual Grasses, moreover even people from the Intermediate Class and Advances Class Continents did not come to snatch from them. Since we really do not have a background, we should have stayed in the back. Plus, with Danqin obtaining an Essence Raising Fruit, it would be strange if it was not coveted."

Meng Jing Xiu was silent, as her face was getting increasingly pale, as she was seriously injured. She also understood the meaning of Cang Shuo's words, the three of them simply lacked experience. Usually in these kinds of situations, it would have been much better to quickly offer up the fruit to the person that demanded it. With this, at least they would be able to keep their lives. But because of her temper, she knew that she would never be able to submit to others, and as a result a fight would simply be inevitable. She would not only fight, but if fighting was not possible, then she would still try to at least scratch her opponent.

"If only Senior Apprentice Brother Xiao Cheng was here...." Ruimu Danqin knew that the fate of the three of them was already set in stone, so once those people finish snatching the Spiritual Grasses, the next moment they would immediately come to deal with the three of them.

Cang Shuo shook his head, "I would rather Senior Apprentice Brother Xiao Cheng not come here to fight him, you heard him say that he was from a 7 Star Academy. So they must also have an Essence Building Realm Master accompanying them, even if Senior Apprentice Brother was extremely formidable, he would not be a match for an Essence Building Master."

The three people knew that there was nowhere to run, so even as they healed each other, they remained silent.

This kind of thing in this kind of place was simply too common, so no one even spoke up to even offer their sympathies or help to those three people.

"There are a few Healing Pills in here, quickly swallow them and leave this place. I cannot help you any more than this." At this point, Situ Yu quickly came over, threw a bottle at Ruimu Danqin, and after saying those few words, immediately turned away.

Ruimu Danqin stupidly looked at the bottle in her hands, but reacted immediately, quickly opening up the bottle, she removed two Healing Pills and immediately put them in Cang Shuo's and Meng Jing Xiu's mouth.

"Do we really walk away from here?" Ruimu Danqin remembered Situ Yu's words, and quickly asked.

"I did not expect that that Situ Yu would actually come up and offer us Healing Pills." Cang Shuo looked at the departing figure of Situ Yu and spoke as he sighed, then he shook his head like Yue Ying and said, "There is no need to go, you can already see they have finished snatching up the Spiritual Grasses, I guess that that man surnamed Qu would be here soon. Moreover, with such serious injuries, where can we even go?"

.....

Ning Cheng and Yue Ying did not walk for too long, before on the third day, the two people once again met another cultivator. But this time the two people not only saw one or two cultivators, rather they saw more than tens of thousands of cultivators. When Ning Cheng was this large mass of people, he even suspected that almost all the cultivators left alive in the Angry Axe Valley were all concentrated here.

Ning Cheng casually glanced out with his Spiritual Consciousness, when he immediately saw several of his acquaintances. Chi Zi Wen, Meng Yu Jing, Situ Yu, Ling Naixin, Yong Gu Yun, but as for Fang Xin and Pu Li Xin, he could not find them.

Then Ning Cheng saw Cang Shuo and Ruimu Danqin and also Meng Jing Xiu, the trio, but at this moment Ning Cheng was furious, Cang Shuo and Meng Jing Xiu were seriously injured, only Ruimu Danqin seemed to be ok, albeit with red eyes, as she took care of the two. At this moment Meng Jing Xiu was covered in blood, and her face was very pale, as one of her arms were about to fall off, and was only held on by a small amount of flesh, if it was not treated immediately, then her arm was as good as scrap.

Cang Shuo was also looking listless and dilapidated, and was also similarly covered in blood, moreover there were several bloody holes on his chest. But the remaining few people from the Hua Continent's Academies were safe, even that Yong Gu Yun, the only Qi Gathering Cultivator among them, was also still safe and sound. However, Yong Gu Yun did not follow together with Chi Zi Wen and Meng Yu Jing, but rather she followed another group of people.

Ning Cheng was in no mood to take notice of them, as he immediately came in front of Cang Shuo, and the trio, and barked, "What the hell happened?"

"Senior Apprentice Brother Xiao Cheng...." Ruimu Danqin seeing Ning Cheng come over, called out in a whiny crying like voice.

At this time Cang Shuo and Meng Jing Xiu also saw Ning Cheng, but their eyes were filled with a trace of guilt, it was obvious that now that Ning Cheng came over, then he would also be involved in this matter.

Ning Cheng hastily said, "Before saying anything else, first heal your wounds."

Saying that Ning Cheng already took out two Mysterious Frost Zoysia and said, "This is the Mysterious Frost Zoysia, there's a stub for each of you."

"Wait Wait...." A man with a lush beard immediately stepped forward in front of Ning Cheng and the three people, the expression on his face indicated that he really wanted to reach out and snatch the Mysterious Frost Zoysias in Ning Cheng's hands.

Ning Cheng with extreme quickness, closed up his hands, hiding the Mysterious Frost Zoysias in his hands, and then coldly glared at that person as he spoke, "What's the matter?"

This bearded man was already at Late Stage Essence Building Realm, although Ning Cheng did not fear him, but he still had to be careful.

"I am Dong Guo Xiao, from the Feng Continent's 7 Rainbow Pill Sect, and am a Tier 4 Pill Master. In my hands I have a Continuous Bone Healing Pill and True Internal Organ Healing Pill. Although these Pills are

only Level 3 Pills, but I am sure that for the injuries of your two friends, the effect from these would be much better than your Mysterious Frost Zoysia. I can give both of them to you, as long as you give me the Mysterious Frost Zoysias that you have.” Although this man with a face full of beard had a cultivation higher than Ning Cheng, but he actually did not come to rob them, but rather to engage in an exchange with Ning Cheng.

In the Yin Xing Mainland, not all the people were like that cultivator with the surname Qu, there would still be a few people with a disposition like Dong Guo Xiao.

In reality Ning Cheng already knew that a True Internal Organs Pill that was even a Level 3 Pill, was the best kind of Pill that could be available in such a situation. He knew that for the injuries of Cang Shuo and Meng Jing Xiu, the True Internal Organs Pill would be much better than the Mysterious Frost Zoysia.

Meng Jing Xiu’s arm was hurt very badly, but fortunately the arm was not fully split off, so with the True Internal Organs Pill it would be possible to heal up quickly.

“Ok, my Mysterious Frost Zoysia is a Rank 4 Spiritual Grass, I’ll exchange a stub of it for your two pills.” Ning Cheng said as he handed the Mysterious Frost Zoysia to Dong Guo Xiao.

He knew that if it was outside, then in order to exchange the precious Mysterious Frost Zoysia for two True Internal Organs Pill should be possible, but here trying to exchange a Mysterious Frost Zoysia for two True Internal Organs Pill would be really difficult. However, to do a business one had to pay close attention and first ask an exorbitant price, or return back the money on the spot.

If it really was not good, then he would use two of his Mysterious Frost Zoysia, after all he only had three stubs of the plant.

Dong Guo Xiao slightly hesitated, and said, “If you and I trade like this, then I would have to eat a little loss, very well, I am urgently in need of this Mysterious Frost Zoysia. Can you sell me another stub to me?”

Ning Cheng did not expect that this Dong Guo Xiao was such an honest man, since he did not even offer a counter offer, of course he would also not take out an additional stub of the Mysterious Frost Zoysia, as he went ahead and stuffed a Mysterious Frost Zoysia in his hands and spoke, “I also have an urgent need of your pills, thank you friend Dong Guo, if I come to the Fang Continent, I will definitely consider doing a business with you.”

Dong Guo Xiao also quickly gave the two pills to Ning Cheng, although he was refreshingly honest in doing business, but he really was a bit too stingy, he did not even give a Jade Bottle to Ning Cheng.

But Ning Cheng certainly did not care about that, he quickly put the pills in Cang Shuo and Meng Jing Xiu’s mouths. Then carefully picked and reattached Meng Jing Xiu’s arm with his Spiritual Consciousness, as he spoke, “Both of you quickly mobilize your True Essence, and start absorbing the medicinal properties of the pill, I have already heard of the fame of the True Internal Organs Pill, those injuries should not be of a big deal for you now.”

Meng Jing Xiu and Cang Shuo gratefully looked at Ning Cheng, but they knew that this was not the time to speak, both of them closed their eyes and quickly circulated their True Essence to heal.

Dong Guo Xiao, as if he had known that trouble would follow Ning Cheng, so after exchanging the Mysterious Frost Zoysia, he immediately left the area. In his heart he was really excited, he was in a dire need for a Mysterious Frost Zoysia, he never thought that he would obtain it this easily.

Although he was reluctant to part with the price that Ning Cheng asked, but his mental disposition was always this way, he knew that trouble would quickly find Ning Cheng. If Ning Cheng did not die by the end of it, then he would once again go and find Ning Cheng for another transaction. Of course, if Ning Cheng's Mysterious Frost Zoysias were taken away by that person surnamed Qu, then he would just trade with that person surnamed Qu.

"Senior Apprentice Brother Xiao Cheng, that person came, he and one of his junior seriously injured Senior Sister Apprentice Jing Xiu and Senior Apprentice Brother Cang. He was also the one who took away the Essence Raising Fruit and Senior Apprentice Brother Cang's Storage Bag, if not for another Spiritual Grass Hill being opened, he would have already killed all three of us." Ruimu Dan Qin saw that that cultivator surnamed Qu come over again, stood up in terror behind Ning Cheng and carefully spoke.

"Ha Ha, so there really was another person who came to die. Is this your Senior Apprentice Brother Xiao Cheng? Since you all have come together, then in the near future you all can also die together and would not have to worry about each other's company....." Before seriously injuring them and looting Cang Shuo's Storage Bag, that cultivator surnamed Qu had still not arrived, when his voice was immediately transmitted over to them.

The Gate Of Good Fortune

Chapter 140: Just Who Is Bullying Who

"Junior Apprentice Sister Danqin, is he the one who robbed your Essence Raising Fruit, then seriously wounded Junior Apprentice Sister Jing Xiu and Young Master Cang?" Ning Cheng looked at the man surnamed Qu, and asked in a slow voice.

"Screw your grandmother....." That man surnamed Qu had just been robbed of a Rank 4 Spiritual Grass, this person who had snatched the Rank 4 Spiritual Grass from him was not a small character, and as such he did not dare get involved with him, as a result he was very unhappy in his heart. Now that this Ning Cheng had made his appearance for some spanking, he simply could not help himself, and immediately took out the giant green claw in his hands.

If not for Ruimu Danqin saying that her Senior Apprentice Brother Xiao Cheng would come, he would not have even resorted to his magic weapon. Since now that Ning Cheng had brought it up, he really did not want to be at the bottom like the several others, and immediately resorted to his magic weapon.

When that man surnamed Qu resorted to his magic weapon, Ning Cheng did not even take out his Golden Great Axe, as he simply stood at the place he was standing and punched out.

Now that Ning Cheng had really entered the Essence Building Realm, he could feel the vigorous and rich True Essence flowing through him, it was something that he had not felt in a long time. At this moment the powerful strength of the Mysterious Yellow Formless Cultivation Method was completely revealed to him beyond a doubt.

This Axe Fist that was filled with a horrifying amount of Killing Intent directly transformed into an Axe Shadow as it moved towards this man surnamed Qu. This man surnamed Qu, feeling the frightening

Killing Intent in Ning Cheng's Axe Fist, felt as if he was completely shrouded by an extremely powerful death Qi, how could he still have the courage to resort to use the giant green claw in his hands?

At this time there was only one thought in his mind, he really should not have provoked them, he kicked something that should not be kicked. If he knew that this Senior Apprentice Brother Xiao Cheng was really so frightening, then at most he would have only snatched the Essence Raising Fruit.

"I am...." The man surnamed Qu rushed to speak out his origins.

Not to mention that at this point Ning Cheng would not let him off even if he did not mention from where he came from, but even if he really mentioned his origin, Ning Cheng had already made up his mind to kill him. Not letting the other party say his background, it would also be somewhat less troublesome, and as such Ning Cheng would also certainly not give up.

The formidable Axe Fist that was filled with his Killing Intent directly bombed onto that man surnamed Qu. Not even waiting for that man surnamed Qu to even finish what he was saying, Ning Cheng's Axe Fist already blasted past the body of that man surnamed Qu.

"Poof...." That man surnamed Qu did not even have the capability to even resist it for a single moment, before he turned into a bloody fog. He was directly killed by just a single punch from Ning Cheng's Axe Fist.

After Ning Cheng killed that man surnamed Qu with just a single punch, he simply calmly walked over, and picked up his Storage Bag.

All the bystanders were completely frozen at this point of time. Even some of the Essence Building Cultivators did not believe what had happened as they all looked at Ning Cheng. They all could vaguely feel that Ning Cheng was also an Essence Building Cultivator, but certainly did not have the cultivation of Intermediate Stage or Late Stage Essence Building Realm, that is to say that Ning Cheng was most likely only at Essence Building 1st Level.

For an Essence Building 1st Level Cultivator to kill a True Condensation 9th Level Cultivator was indeed very simple. However, Ning Cheng's way was simply too easy. Moreover, that Axe Fist that Ning Cheng threw out was even more shocking and amazing.

The few people from the Hua Continent were also staring stupidly at Ning Cheng, they already knew that Ning Cheng was definitely powerful, so for them to see Ning Cheng killing that man surnamed Qu, was definitely not surprising. However, what really was surprising to them was that Ning Cheng had easily killed off that man surnamed Qu, it was obvious that his cultivation had once again advanced by leaps and bounds.

The True Internal Organs Pill was really an excellent healing pill, and as such Cang Shuo was able to stand up by now, he took the Storage Bag handed to him by Ning Cheng, as he worriedly spoke, "Thank you Senior Apprentice Brother for avenging me, but I think we ended up in big trouble...."

As Ning Cheng and Cang Shuo talked to each other, that Yong Gu Yun quietly pulled over Yue Ying. As she eagerly spoke, "Yue Ying. How are you in the same place as that man surnamed Ning? Don't you know who he is? He was together with that Su Zhu in the same place, moreover do you even know how many good girls from good families that he had defiled, do you even know who he just killed? That

person was a disciple from the Le Continent's Red Heaven 7 Star Academy, quickly go and stand beside Senior Sister Apprentice Meng Yu Jing over there, these are matter you don't want to be involved in."

Yue Ying looked at Yong Gu Yun in a puzzled manner and asked, "Senior Sister Apprentice Gu Yun, why are you standing independently from the others?"

Yong Gu Yun looked at the short man beside her, as her face blushed. She grabbed Yue Ying and spoke in a somewhat coy manner, "This is Celestial Globe 7 Star Academy's Senior Apprentice Brother Lao Sheng, Senior Apprentice Brother Lao, she was the one I was talking about before. After exiting from this place, I will be joining the Celestial Globe 7 Star Academy. After you also join the Celestial Globe 7 Star Academy, we can be his fellow Junior Apprentice Sisters....."

With that, Yong Gu Yun looked shyly at the short man beside her and said, "Senior Apprentice Brother Lao, she was the one that I told you about before, she is Junior Sister Apprentice Yue Ying, she will be joining the Celestial Globe 7 Star Academy, this Junior Sister Apprentice has a Pure White Wind Type Spiritual Root...."

"A Pure White Wind Type Spiritual Root?" The Essence Building Cultivator called Lao Sheng's eyes immediately lit up, as he clasped his fists towards Yue Ying and spoke, "Since Junior Sister Apprentice Ying is coming you my Celestial Globe Academy, then surely she would be a core disciple, later maybe we can exchange some pointers."

"Thank you Senior Apprentice Brother Lao." Yue Ying also returned the greetings in the same way.

Lao Sheng and Yong Gu Yun could not help but burst into a huge smile as he spoke to her, "Junior Sister Apprentice Gu Yun, it seems that Junior Sister Apprentice Yue Ying has successfully advanced to the True Condensation Realm, I guess that you will have to call her as Senior Sister Apprentice Yue Ying from now on."

"Ah...." Yong Gu Yun looked at Yue Ying in shock, she was very clear on this fact when she entered the Angry Axe Valley, that Yue Ying was only at Qi Gathering 6th Level, how could she advanced so quickly to the True Condensation Realm? This was simply not possible. Even if she stayed in the Falling Star Academy and cultivated, it still wouldn't be possible for her to advance this fast to the True Condensation Realm.

Yue Ying smiled and said, "That's true, I really have broken through to the True Condensation Realm. And at present I am going over to Senior Apprentice Brother Ning over there, we can chat again in the future."

Yong Gu Yun immediately reacted, as she hastily cried out, "Yue Ying, how could you go over to Ning Cheng. Do you not know what kind of person he is? Besides if you go there now, you would only be courting death. The Essence Building Cultivators from the Red Heaven Academy would definitely not let go of Ning Cheng, even if Ning Cheng is powerful, how can he fight against an Essence Building Cultivator? With your qualifications, plus with how much Senior Kang values you, later when you come to Celestial Globe Academy, you would certainly have a larger scope for development. We are all from the Ping Continent, we should be helping each other out."

"That's right, Senior Sister Apprentice Gu Yun, why are you not together with Senior Apprentice Sister Meng and the others?" Yue Ying suddenly asked an irrelevant thing.

Ying Gu Yun's expression was a bit tender as she spoke, "I may not go back to the Hua Continent, being together with Senior Apprentice Brother Lao would be more convenient."

Yue Ying nodded, in her heart she had already come to understand something. She already knew that she would certainly not be joining the Celestial Globe Academy, even if that Senior Kang valued her greatly. Yong Gu Yun would certainly not say those words to her, and instead asked her to not end her life together with Ning Cheng.

"What Gu Yun said is right, if you truly go back now, it would really be the end of the road for you. That Ning Cheng had killed a disciple of the Red Heaven Academy; he has no way out. Moreover, you have already successfully advanced to the True Condensation Realm, and being together with us, it is possible that you can even enter the Celestial Globe Academy." Lao Sheng spoke up as he hastily supplemented those words with a smile.

Yue Ying also smiled and spoke, "Thank you for your concerns, but Big Brother Ning has helped me a lot. I think that it would be much better for me to be with him. Besides, I have not yet joined the Celestial Globe Academy. Even if I have to separate from Senior Apprentice Brother Ning, I will still go together with Senior Sister Apprentice Meng."

Looking at the back of Yue Ying as she left, Lao Sheng suddenly spoke, "This Junior Sister Apprentice Yue Ying that you spoke of really seems to be picky, it seems she had even given you some advice."

Yong Gu Yun bitterly stared at Ning Cheng, "That man named Ning really has a way with women, initially there was a girl named An Yi, if not for being scouted out early on by Junior Sister Apprentice Lu Xue, I guess that Yue Ying would have been like her, played with in the palm of his hands. I guess it really turned out that way."

"I hate this kind of guy who likes to play with women, fortunately there is no next time for him, if there was a next time, then with my hands, I will definitely show him." Lao Sheng sneered and said.

Yong Gu Yun looked at Lao Sheng and whispered in a soft voice, "Actually, I really appreciate such a temperament of Senior Apprentice Brother Lao. That Ning Cheng only depends on his spear technique, to bluff and bluster in front of the True Condensation Cultivators."

.....

"You dare to kill a disciple from my Red Heaven Academy?" An angry voice sounded out from a distance, then a figure dressed in brown robes dropped down in front of Ning Cheng.

"Was Brother Qu killed by you? You filthy animal....." The figure that dropped down in front of Ning Cheng also held flying sword in his hands, as he immediately spoke out while simultaneously brandishing his flying sword. He simply did not even wait for Ning Cheng to answer.

Ning Cheng saw that this cultivator was also at True Condensation 9th Level but was actually much stronger than the cultivator surnamed Qu from before, as he came towards Ning Cheng. Even if the opponent was a dozen times more powerful than the one in front of him, they would simply be akin to sending vegetables to be cut.

"Senior Apprentice Brother Xiao Cheng, he is Shang Mou Gao. Senior Apprentice Sister Jing Xiu's arm was almost split apart from her body by him, moreover the injury on Senior Apprentice Sister Jing Xiu's

lower abdomen was also his doing, the Sword Light from his Flying Sword is very powerful.” Ruimu Danqin was afraid that Ning Cheng would suffer a loss, so she hurried up and reminded Ning Cheng at the same time.

Ning Cheng simply smiled, “Even if his stuff was more powerful, it is only so so. Seeing how he like to arrogantly bully others, it is our moral responsibility and duty to teach him what bullying is all about.”

Saying that he once again did not move from his spot, he just lifted his hand and sent out three consecutive punches.

These three punches were not even Axe Fists that he had used to kill that cultivator surnamed Qu, even without the Killing Intent in his Axe Fist, truthfully speaking it really was an overkill to use it on him.

These three punches were three simple ordinary punches, moreover these three punches were not even very consistent, and were slow and easy to escape from.

Seeing that Ning Cheng did not even bring out his artefact, that Shang Mou Gao could only grind his teeth in anger. He wanted Ning Cheng to know the fearfulness of his Sword Light, he wanted to grind Ning Cheng to the ground, such that even if he wanted to die he wouldn't be able to. He wanted to let Ning Cheng watch helplessly, as he, Shang Mou Gao, slowly killed the three people behind him.

But Shang Mou Gao soon felt that something was wrong, he had sent out 6 of his strange Sword Lights, these Sword Lights would lock the surroundings with its Imposing Manner, with Ning Cheng shackled, even extending out his Spiritual Sense would be extremely difficult.

But after he casted out his Sword Lights, the six strange Sword Lights had still not yet taken form, when a strong and powerful True Essence fist collided with it.

“Cha Cha...” The six Sword Lights sent out tearing like sounds in the air, not to mention about forming the Imposing Manner of the Sword Lights, even taking a shape was proving to be difficult.

His weird Sword Light had not been formed yet, when Ning Cheng's fist crushed them with a huge explosion, turning them into nothingness. The famous strange Sword Light that Shang Mou Gao depended on to become famous, was nothing more than a joke under Ning Cheng's fist.

“You're not True Condensation....” Shang Mou Gao could not completely finish his sentence, when he felt Ning Cheng's second fist arriving towards him.

This time Shang Mou Gao was completely frightened out of his wits, although he was fierce, he knew that he could not afford to be arrogant in front of an Essence Building Cultivator. He wanted to beg for mercy very much, but Ning Cheng's second fist completely trapped him, he could not even breathe without giving it his all, let alone trying to forcibly blow out air from his mouth to create a sound.

If he could move, then this time he was even willing to get down on his knees to beg for mercy. As long as Ning Cheng would let him off, he would then be able to get the Essence Building Cultivators from the Red Heaven Academy to kill Ning Cheng off. However, he simply did not have any such opportunity now.

As he was completely sealed and suppressed where he stood, at the same time, a surge of a burning hot shadow of a fist once again rumbled towards him, Shang Mou Gao knew that he would never be able to escape this third fist.

As Shang Mao Gao desperately looked at the oncoming third fist shadow, he simply could not help but think about how proud and arrogant he had been till now, he was an outstanding person in the Red Heaven Academy, but still would die in just under three punches. But at this moment he really was humbled down to his bone, so much so that he did not even have half a shred of strength to stick his back out.

He finally came to understand what bullying really was.
