Chapter 141: Just Come Straight at Me

“Bang” Just like a piece of leather being torn to pieces, Shang Mou Gao’s True Essence Shield directly burst apart as flew back from the explosive force of the fist. When he finally fell to the ground, his shape was ever more miserable than that of the cultivator surnamed Qu, not to mention that he had also stopped breathing.

The surrounding people instantly quieted down and the surroundings immediately became dead silent, it was the same scene as when Ning Cheng killed that cultivator surnamed Qu, it simply made the surrounding people completely astonished.

The two men, Shang Mou Gao and that other cultivator surnamed Qu, simply did not know how serious the consequences were to cross paths against Ning Cheng. At the same time, all the surrounding people knew that Ning Cheng definitely was not a True Condensation Cultivator, no kind of True Condensation Cultivator could kill Shang Mou Gao with just three punches.

But only Ning Cheng knew, that even if he was not at the Essence Building Realm, if he really shot out at full power, then he might not even need three punches to kill that Shang Mao Gao.

Shang Mou Gao was a core disciple of the Red Heaven 7 Star Academy, as such his cultivation was not only amazing but he even had a lot of potential, and as such he was a disciple that the Red Heaven Academy focussed on cultivating. But unexpectedly such a person was simply killed by Ning Cheng’s punches, how could the Red Heaven Academy tolerate such a thing?

Not to mention the Red Heaven Academy, but even the Essence Building Realm Cultivators from the Red Heaven Academy inside the Angry Axe Valley would also not give up.

“Senior Apprentice Brother Xiao Cheng, you’re simply too great.” Ruimu Danqin called out in excitement as she rushed up towards him.

But other than Ruimu Danqin rushing towards him, all the cultivators from the Hua Continent remained silent. They were the same as the others, they never thought that Ning Cheng could easily kill Shang Mou Gao, moreover in such a relaxed manner. Moreover, they did not expect that Ning Cheng would really go ahead and kill Shang Mou Gao.

Ning Cheng had even killed that cultivator surnamed Qu, who came first. Who among them did not know who that cultivator surnamed Qu was, but now Ning Cheng even went ahead and killed Shang Mou Gao.

Similarly, although that cultivator surnamed Qu was also from the Red Heaven Academy. However, his status when compared to that of Shang Gou Mao, differed too greatly.

At this moment, there was a bit of bitterness in Situ Yu’s heart, he had given up in the third round against Ning Cheng in the Mo Ze Grand Plaza, as at that time he had thought that there was not much difference between him and Ning Cheng. But now, he found that if he had to face the same three simple punches from Ning Cheng, then he would also be unable to escape like those before. Ning Cheng, when compared to the time in the Mo Ze Grand Plaza, was several times much more powerful than before.

“Senior Apprentice Sister Jing Xiu, Senior Apprentice Brother Cang, Senior Apprentice Brother Xiao Cheng helped us take revenge, and even killed the two bad guys, shouldn’t you be celebrating and be in a happy mood?” Ruimu Danqin soon felt that the atmosphere was a bit wrong, as she quickly asked.

“Senior Apprentice Brother Ning, I am sorry, this matter had nothing to do with you, but still you got involved in it.” Cang Shuo was very restless as he spoke to Ning Cheng.

Ning Cheng had already planned to kill that cultivator surnamed Qu. Otherwise he would not have also killed that Shang Mou Gao. For him, not killing that cultivator surnamed Qu was fundamentally unrealistic, if people came to kill him, so for him to hold himself back, it was not something in this man’s nature. With regard to Shang Mou Gao, it was also the same.

Not killing Shang Mou Gao. But rather needing to explain to him that he didn’t know that the person surnamed Qu was from the 7 Star Academy. Then being insulted by everyone and finally being pursued by others. Rather than doing so, he might as well kill them in a satisfying way now. If there were any Essence Building Cultivators from the Red Heaven Academy left in the Angry Axe Valley looking for payback, then he would similarly get rid of them.

In this place the one who had respect was the one with strength. Saying the truth to others, might as well gather up his own face and let the other person beat him up.

Besides at this moment they were in the Angry Axe Valley. As such this news had no way of leaking out at this moment. For the cultivators from the Red Heaven Academy in the Angry Axe Valley, Ning Cheng really did not care much about them. The only thing that he cared about was, as long as he was in the Angry Axe Valley, was to first try and think of a way to return to the Hua Continent, and then take Ji Luo Fei away,

He did not believe that they would come from the Jia Continent to the Hua Continent, and moreover he also would not consider going back.

“Don’t worry, this has nothing to do with you. I am the one who killed these people, moreover you are just a victim, if the Red Heaven Academy dares to deal with the God Wind Academy, then in the future when my cultivation is higher, I will definitely seek them out.” Ning Cheng patted Cang Shuo’s shoulders and said.

He believed that the Red Heaven Academy would not do such a thing, even if he offended every single person of the Red Heaven Academy, for the Red Heaven Academy to go too far as to exterminate other Academies, it would simply be too unreasonable.

“Good friend, you opened this Dong Guo Xiao’s eye with your skill.” This was the bearded man that Ning Cheng had exchanged the Mysterious Frost Zoysia with, but this time his smile and manner was many more times enthusiastic than before.

Looking at Ning Cheng’s True Essence fluctuations, his cultivation was not obvious before, plus he was also not much older than Ruimu Danqin who called him as Senior Apprentice Brother Xiao Cheng, so before he really had not put him in his eyes. In his view, even if Ning Cheng defeated that man surnamed Qu, he estimated that he would fall at Shang Mou Gao’s hands.

But now that Ning Cheng had killed that man surnamed Qu and Shang Mou Gao, he simply did not need to observe Ning Cheng with his Spiritual Consciousness, to know that Ning Cheng was an Essence Building Cultivator.

Ning Cheng knew why Dong Guo Xiao had come for, so he simply smiled and spoke, "If my friend Dong Guo wants to exchange the Mysterious Frost Zoysia, then even if you offered me an enormous amount of money, I would not part with it as the Mysterious Frost Zoysia is of a great use to me."

Dong Guo Xiao was indeed there to exchange the Mysterious Frost Zoysia, he had never expected that Ning Cheng would not only kill that man named Qu but also kill Shang Mou Gao as if they were made of tofu. Feeling that Ning Cheng did not mean the words he had spoken just now, so he gave an awkward smile and spoke, "Friend please state your price, as long as it is within the scope of something that I can bear, I will definitely agree to it."

Ning Cheng revealed an apologetic look and said, "Sorry, I really do not want to sell my Mysterious Frost Zoysia."

"You will not have the opportunity to sell them." The next instance, a freezing cold sentence interrupted Ning Cheng.

Ning Cheng had already seen this person, it was a woman with phoenix like eyes, she was an Early Stage Essence Building 3rd Level Cultivator, there was a long eye browed male cultivator beside her, and judging by the True Essence fluctuations, he could tell that he was at Late Stage Essence Building 7th Level.

Dong Guo Xiao knew that these Essence Building Cultivators were from the Red Heaven Academy, as he quickly moved to one side. He was a Pill Master, under normal circumstances he rarely offended others, and as such very few people offended him.

Cang Shuo came behind Ning Cheng and whispered in a small voice, "Senior Apprentice Brother Ning, they should be the Essence Building Cultivators from the Red Heaven Academy, these Essence Building Cultivators were looting the Spiritual Grasses on the other side all alone. I think that they know that people from their Academy were killed....."

Cang Shuo did not finish speaking, when the female cultivator raised her hand and shot out a blue light. Cang Shuo felt his whole body turn cold, he did not even have the time to respond, when he saw that Ning Cheng had already taken out his Golden Great Axe, the blue light beam was blocked by the Golden Great Axe, as it gave out an ear piercing explosion, as the True Essence from the light completely scattered.

"You stay back; I have to deal with these two people." Ning Cheng spoke to Cang Shuo, he knew that he would have to face an Essence Building Cultivator, Cang Shuo by himself would not be able to provide any help, moreover let alone Cang Shuo, even Meng Jing Xiu was also seriously injured.

"It is no wonder that that you were able to kill Young Master Shang, it was because you relied on your 'fantastic' cultivation of Essence Building Realm." The male cultivator with long eyebrows spoke in a sarcastic tone.

He was observing Ning Cheng's cultivation, because Ning Cheng cultivated using the Mysterious Yellow Formless, his cultivation spill over was not obvious. If he had the cultivation of Profound Congealing Real then he naturally would be able to see that his Essence Building Cultivation could not even be remotely compared with Ning Cheng's Essence Building Cultivation, moreover even trying to observe Ning Cheng with his Spiritual Consciousness would also need some time.

Originally, he had estimated Ning Cheng to be at Essence Building Realm, but now he saw Ning Cheng in action once more, he immediately could see that Ning Cheng's use of Essence Building Realm's True Essence was not very skilled, it seemed that he had only entered the Essence Building Realm only a short while ago.

Although he was ridiculing Ning Cheng with his mouth, but in his heart he was secretly surprised. He was just a cultivator who entered the Essence Building Realm, but he still had to carefully observe him for a while to even take a glimpse at his cultivation, once he consolidated his cultivation, wouldn't it be more or less at the level of Intermediate Stage Essence Building Realm. He found that it was not possible for him to observe the other person's cultivation properly at all.

This time Ning Cheng did not take the initiative, he simply stood there as he stared at the male cultivator with long eyebrows. As for that woman with phoenix like eyes, who was at Early Stage Essence Building Realm, Ning Cheng directly went ahead and ignored her.

That male cultivator with long eyebrows was not like that woman cultivator, rather than rushing up and start fighting, he clasped his fist as he made half a turn towards the surrounding people and spoke, "I am Wu Zhen from the Red Heaven 7 Star Academy, my Red Heaven Academy's disciples, although they are strong but they never bullied the weak. This person depended on his cultivation of his Essence Building Realm and killed my Red Heaven Academy's core disciples, I, Wu Zhen, must take revenge. I think that this is definitely a good reason to begin, as this notion is reasonable even at the end of the world."

Hearing this long eye browed male cultivator called Wu Zhen speak, his words immediately echoed out with the surrounding people. But he did not expect that, even after he spoke those words there was unexpectedly an awkward silence, as nobody echoed back his words.

The people around were not fools, even though the 7 Star Academy was great, but at this moment they were all trapped in the Angry Axe Valley. Moreover, that Ning Cheng's moves were also formidable, in such circumstances where the results were not known, who would even want to offend those people at this time?

As the silence echoed all around, most of them lost the chance to win the favour from the Red Heaven Academy. Once if out of a million possibilities, if the end result was that Wu Zhen ended up losing, then they would have probably offended Ning Cheng. Beside, this incident was clear to everybody, as for Wu Zhen's reason, it was simply a joke.

Ning Cheng calmly spoke to Ruimu Danqin who was behind him, "Junior Apprentice Sister Danqin, what do you think of this reasoning, is it better to listen to a person who is strong and likes to bully weak or not."

Although Ruimu Danqin almost had no experience, but her way of talking was very clever. In just a short and few words, she clearly understood the causes and consequences of things, and finally said, "If you

do not believe, then you can ask the people here. If not for Senior Apprentice Brother Xiao Cheng coming early, then not only the thing that we three had would be snatched away by your Red Heaven Academy's people, but we would have also ended up dead by their hands."

Wu Zhen's face was at this moment difficult to look at, he would have meant the words he had spoken, but when those words echoed in the surroundings, he hoped that immediately someone would come out and kill Ning Cheng.

With regards to who did the deed, he did not care, he reasoned that since he was a person from the Red Heaven Academy, so even if his words did not make sense, there would be someone who would have like to obtain a favour from him. But he had not imagined, that there really would not be anyone who would come forward. This was because somebody else had already spoke the real reason, the reason was that it was the disciples from the Red Heaven Academy who acted as the strong bullying the weak. These words, he simply slapped his face with it.

That female cultivator with phoenix like eyes frowned, as she gave a cold snort, Wu Zhen knew that his companion liked to fight immediately, but at this time it really was not a very good moment to start fighting.

She stared and spoke with a deep voice, "We will investigate this matter thoroughly, you killed my Red Heaven Academy's disciples is a fact, moreover relying on a single person's words for it, I find it impossible to believe. Beside, my Red Heaven Academy is a 7 Star Academy, even if you had some misunderstandings with our disciples, your Essence Building Cultivator cannot kill my Academy's disciples, you can definitely tell me....."

Ning Cheng said with a sneer, "I have never heard of the man surnamed Qu being a disciple from the Red Heaven Academy, if you want to begin then begin, don't seek out a dog shit of an excuse. Just come straight at me, I'll take everything you can throw at me anytime."

Chapter 142: Fighting One Against Two

At this moment, Wu Zhen was in extreme regret, he knew that once he started then he would become a killing devil, but now at least he could still kill the four people including the ones behind Ning Cheng. However, by doing it this way, the Red Heaven Academy would really earn the reputation of strong bullying the weak. Of course, he also did not know that Ning Cheng was completely not afraid of him.

"What's there to argue about with this kind of trash. Pay your life for taking a life, pay money for your debt, these are the rules of this world, yet he still dares to reason with me....."

That woman cultivator who came with that Wu Zhen simply did not have the same level of patience as him, as she stopped him from continuing his ramblings. She finally became impatient from seeing Ning Cheng actually trying to make up a valid excuse. As she spoke till here, she immediately took out a Thousand Forms Wheel in her hand and immediately sent innumerable Wheel Shadows flying towards Ning Cheng.

As these savage Wheel Shadows rumbled towards Ning, these Wheel Shadows quickly took control of the space all around, as they started to emit colourful Wheel Lights which descended while giving out howling like noises.

But Ning Cheng still stood at the same exact place. But just as their Imposing Manner crashed onto Ning Cheng, immediately those innumerable colourful Wheel Lights scattered all around.

Although Ning Cheng was under Wheel Lights' Imposing Manner, only the sleeves of his clothes were making rustling noises, as if they were experiencing turbulent winds, but he still did not move, nor did he even resort to the Golden Great Axe in his hands.

Wu Zhen had still not thought of a good reason to try and kill Ning Cheng, but now that his companion had used the reason of paying one's life for the person he killed, it was something that hit close to his heart, but then he saw that Ning Cheng did not even move, and as a result he actually hesitated to act. He believed that Ren Wan Yu could definitely kill Ning Cheng, as even if he, who was a Late Stage Essence Building Cultivator, was in Ning Cheng's place, he would still not dare to face these savage Wheel Lights that were shot at him.

Just at this time, Ning Cheng finally moved, Ning Cheng did not resort to the Golden Great Axe, but rather in just a twinkling put the Golden Great Axe back on his back, while simultaneously blasting out with a spear.

After Ning Cheng had acquired this Golden Great Axe, this was the first time that he resorted to his broken spear.

He had already seen that this Thousand Transforming Wheel in this woman cultivator's hand was definitely not an ordinary Artefact, but rather a Spiritual Grade Artefact.

Although his Golden Giant Axe was an ordinary Artefact, however in Ning Cheng's hand it was used very conveniently. But Ning Cheng believed that his Ice Spear Shadows could definitely deal with these kinds of savage Wheel Lights. Moreover, it would be far more effective. If that Wu Zhen dared to make a move, then he would still have his Golden Great Axe waiting for him.

This time Ning Cheng did not need to hold back the freezing cold inside his Ice Spear Shadows, his True Essence and Spiritual Consciousness were more than enough this time, and as such his Ice Spear Shadows erupted with their peak power.

Ren Wan Yu was very confident in her Thousand Transforming Wheel, she was confident that even if her opponent was an Intermediate Stage Essence Building Realm Cultivator, they still would not be able to defend against her Thousand Transformation Wheel, even when they utilized all their power. If they were even a little inattentive, then they would be immediately swept away by the Wheel Lights from her Wheel Shadows. Once stuck by even one of the Wheel Lights from her Wheel Shadows, then even if they did not die, they would be at least seriously injured.

When she resorted to her Thousand Transforming Wheel, she found that Ning Cheng did not immediately resort to a magic weapon, as such she immediately sneered at him in her heart. While at the same time, she immediately mustered up even more True Essence to pour into her light wheels. She wanted to turn Ning Cheng into a pile of ash right where he was standing.

But at this time, she felt a freezing cold all around her, this kind of chill was coming through the Wheel Lights, moreover she could also feel them stagnating. Moreover, even she was impacted by such a freezing cold, so much so that even her True Essence was not circulating as smoothly as before.

Does this person unexpectedly possess a different Ice Spiritual Root? Ren Wan Yu was slightly surprised, as the Ice Spear Shadows immediately connected to form into an Ice Spear Network as they bombed out towards her.

There were 30 ice cold bone piercing Spear Shadows, as they froze up the surrounding area for almost several feet in radius, moreover they were shot out by Ning Cheng at almost at the same time. As they collided with the Thousand Transforming Wheel's colourful Wheel Shadows, they immediately exploded with a tremendous force at the point of impact.

"Boom" With an overwhelming Imposing Manner, it tore through the attacks, and even the large solid rocks in the surrounding area, were turned to dust due to the explosion. Moreover, the explosion completely covered the entire area around Ning Cheng and that woman cultivator as they stood there. As to the Spiritual Consciousness of the weaker people, they simply could not extend their Spiritual Consciousness into the tornado that emerged from the fight between the two people.

"Pa Pa Pa...." The Profound Ice Spear Shadows once again formed into a Spear Shadow Network that was much more substantial looking. But the coloured Wheel Lights were all completely torn apart, as each of them blasted open while emitting intermittent 'Pa Pa' like noises.

The strong pressure from the Spear Shadows completely overwhelmed her, as Ren Wan Yu's face immediately became pale. If she could not block this dense network of the Profound Ice Spear Shadows, then she knew that even if she was not killed off by those Spear Shadows, she might still be frozen solid from the freezing cold emanating from them. It was only at this moment, that she realised that she was far from being an opponent of Ning Cheng.

Wu Zhen had already noticed that once Ning Cheng's Spear Network covered Ren Wan Yu, then Ren Wan Yu was certain to die. At this point he did not hesitate anymore, and without even waiting for even half a moment, immediately sent out a mythical Flying Fire Crow from his hands.

Two dreadful streams of flames spat out from the crow as it flew, as it burst between the Profound Ice Spear Shadows and the lights from the coloured Wheel Shadows, taking the shape of a half moon.

Some of the cultivators with a worse cultivation level quickly retreated back at once. With this kind of fearful temperature of the flame, if even a slightest bit splashed onto their bodies then their bodies would only have a single fate and that was of being consumed by that flame. As for the cultivators who were standing on the side of Ning Cheng, they were really worried about Ning Cheng, they did not know how Ning Cheng would deal against this type of flames from the flying crow.

Because of these incomparably burning hot flames, Ning Cheng's Profound Ice Spears seemed to be somewhat slightly weaker. As a result, Ren Wan Yu slightly relaxed, but just as she tried to withdraw her Thousand Transforming Wheel and then fight side by side with Wu Zhen against Ning Cheng, she felt that her entire body was being encroached upon by the bone piercingly cold Killing Intent.

This coldness was not something that was felt from inside one's body, but rather this was a cold that emerged from the depths of her soul. Together with a Golden Great Axe Trace, it was as if it was birthed from the vacuum, coming out of the void. It was almost as if she could feel an Axe Shadow descending onto the centre of her consciousness, as this Axe Shadow even attempted to pierce through to her mind.

This Axe Trace cut all the surrounding True Essence and the magical weapon's light with its Imposing Manner, as it crashed through towards her.

That Thousand Transforming Wheel's Wheel Shadows were directly split apart by the Golden Great Axe Shadow, as it immediately dimmed in just a twinkling of an eye. The Flying Fire Crow, that was spitting out the two streams of the terrible hot flames, was also split directly into two halves by the Golden Great Axe Shadow. As for the flame, that was half surrounding Ning Cheng, Ning Cheng could perceive that the Star River in his Zifu had started to move, as an invisible suction force swept out and gathered all the flames. In just an instant, the flames split apart by the Axe Trace were directly sucked in by the Star River, and disappeared without a trace.

"Such a horrifying Axe Type Killing Intent....." Ren Wan Yu was retreating back crazily, she was already trying her best to resist the mountain like Killing Intent bearing down on her for so long, so when Ning Cheng brought out his Axe Type Killing Intent, she could immediately detect it. This feeling of being cleaved apart was simply too powerful for her, she knew that she couldn't even afford to even give birth to the idea of even trying to resist it for even half a moment.

"AAaaah....." Ren Wan Yu was already in a disadvantageous position with no power to resist at all. Ning Cheng's [Angry Axe, the 1st Trace] had terrified her even more than she already was. But then the Golden Great Axe Shadow swept past her Dantian, killing her on the spot, with no signs of stopping at all.

At this moment Ning Cheng was actually a little relieved, evidently a Spiritual Grade Artefact also depended on the person who used them, as a result not all the people who held a Spiritual Grade Artefact were a threat to him.

At this time Wu Zhen could not even attend to Ren Wan Yu, when Ning Cheng's Axe Shadow descended as it went through her, he could also feel the formidable Axe Type Killing Intent that accompanied with it, he could immediately feel that it was really something bad for him.

This was the Heaven and Earth Exotic Flame that he had refined previously, it was absolutely impossible for it to miss its target for no reason at all. But in front of the powerful this Golden Great Axe Type Killing Intent, Wu Zhen simply did not have enough time before it was torn to shreds, this was even when he had completely agitated the Flying Fire Crow.

"Kacha....." The [Angry Axe, the 1st Trace] filled with an incomparably powerful Killing Intent tore through the Flying Fire Crow as it shot towards Wu Zhen. Even the True Essence contained in it exploded out with a huge explosive power, immediately forming huge craters where ever it exploded, this time the explosion was even more powerful than before.

Because of the powerful True Essence explosion and the Axe Type Killing Intent, it made Wu Zhen fly out tumbling upside down.

"Peng" Wu Zhen, who was knocked back flying upside down, crashed into a True Condensation Cultivator who stood at a very distant place.

However, although Ning Cheng's 1st Trace was more than enough to slay Ren Wan Yu, but it was only enough to injure Wu Zhen. Wu Zhen, who was sent tumbling upside down, finally managed to stabilize himself, as he once more arrived in front of Ning Cheng, with his eyes spouting flames of anger, he

immediately shouted, “You actually dare to kill an Essence Building Cultivator of my Red Heaven Academy.....”

During his talk, Wu Zhen’s boundless Killing Intent erupted in a twinkling of an eye, as the surrounded gravel disintegrated into dust by the eruption of his True Essence and was carried away by the air.

At this time, before this wave hit him, this Wu Zhen was still talking crap. Ning Cheng was simply disinclined to even speak out half a character, as he once again used the Golden Great Axe to split the air as he chopped downwards with it, bringing together an Axe Shadow that was filled with an even more horrifying Killing Intent.

Wu Zhen also once again rumbled out with his Flying Fire Crow simultaneously, but this time the Flying Fire Crow shot out four flaming wires. The terrifying hot temperatures from the flames immediately brought out ‘Chi Chi’ like noises in the surrounding air, but when these four fire wires and Ning Cheng’s Golden Axe Shadow collided with each other, he found that the Killing Intent contained in the Axe Shadow was somewhat weaker than his own.

But at this time the Star River in Ning Cheng’s Zifu once again acted up, as just at the time when the four fire wires came into contact with the Killing Intent in the Axe Shadow, it was completely sucked away by the Star River.

Wu Zhen was not a fool, he knew that his Magic Weapon happened to be completely suppressed by Ning Cheng, plus combined with Ning Cheng’s fearful Axe Type Killing Intent, at this point of time he was absolutely clear, that even if he went all out he would absolutely not be a match against Ning Cheng.

He could only walk away first.

Wu Zhen was a very decisive person, once he decided that he had to flee. He did not even wait to take back his Flying Fire Crow. His figure immediately started to fade away immediately, it seemed that he was going to use his escape technique.

But it was at this time, that the Golden Great Axe Trace’s Killing Intent already descended on him.

Wu Zhen’s fading body once again became clear under this fearful Killing Intent of the Axe Shadow, he knew that he would be unable to restart his escape technique, the only option for him was to either give it his all to block this Axe Shadow that was filled with the Axe Type Killing Intent, or somehow evade it, and once again start his escape technique.

“I am a person from the Red Heaven 7 Star Academy, if you try to kill me again, my Red Heaven Academy will certainly not let you go, if you are willing to stop in light of this, then I can write this matter off in front of everybody.....”

At this time, just where would Wu Zhen be able to think about his face, while he eagerly begged for mercy in its disguise, as he tried to think of a way to escape Ning Cheng’s Axe Type Killing Intent. To him, at present, all he wanted to do was to escape from this place as soon as possible.

If he had a head to head fight with Ning Cheng wholeheartedly, then he knew that he would only be able to support himself for a short while. So to deal with Ning Cheng, Wu Zhen used the threat behind the words ‘Red Heaven Academy’. Not to mention that Ning Cheng had now already killed three

disciples of the Red Heaven Academy, even if he had not begun, at this time he would not let off Wu Zhen.

Just after Wu Zhen finished speaking those words, he immediately felt Ning Cheng's Great Axe's Killing Intent slow down, he immediately became overjoyed that his strategy succeeded, as he crazily stirred up his True Essence.

But his happiness soon turned into despair, although the Axe's Killing Intent stagnated for a moment but it did not dissipate, instead it turned into a giant tornado. This trace of Axe Type Killing Intent completely turned into a tornado of Killing Intent, as it swept up all around him. With him in the middle of this tornado, the Killing Intent permeated into his marrow, keeping Wu Zheng from trying to run away again, he couldn't even force himself to resort to his Flying Fire Crow again.

"Aaaah urgh" After that sound, Wu Zhen no longer uttered even the slightest sound.

Chapter 143: The Different Pure White Wind Spiritual Root

"Such a strong Killing Intent, moreover it seems that this Killing Intent is somewhat similar to the Killing Intent surrounding these Spiritual Grass Hills....."

"It truly is the same, this is the Angry Axe Valley's Killing Intent, that man even uses a Golden Great Axe that actually complements it."

"Is it possible that he comprehended this Axe Type Killing Intent in the true Angry Axe Valley? It really is very strong....."

Some of the people in the surroundings that were looking for Spiritual Grasses around this piece of hill, already could feel that Ning Cheng's Axe Type Killing Intent was extremely formidable.

Under such a powerful and formidable Axe Type Killing Intent, Ning Cheng continuously killed four disciples of the Red Heaven Academy, but at this moment it was already an irrelevant thing. Every time the Angry Axe Valley opened, there were many people who entered, but the amount of people who could really comprehend the Axe Intent were actually extremely few. Each of the people who managed to comprehend even a bit the Axe Intent here, as long as they did not die, they would eventually have a very bright future ahead of them.

Even Cang Shuo was pleasantly surprised by these turn of events, when Ning Cheng killed that Shang Mou Gao and that man surnamed Qu, it was not something strange to him, Ning Cheng's fierceness was already something that he had seen before. But he had never thought that Ning Cheng would actually be able to kill the two Essence Building Cultivators from the Red Heaven Academy, if he had not seen it himself, he would have definitely not believed in such a result.

"Senior Apprentice Brother Ning, have you already advanced to the Essence Building Realm?" Cang Shuo now knew that Ning Cheng had definitely advanced to the Essence Building Realm without a doubt.

"Senior Apprentice Brother Ning, it was because of you that I received one of the places to enter the Angry Axe Valley, and now you even saved my life, thank you." Meng Jing Xiu came and spoke to Ning Cheng in a very grateful tone, but after she spoke, she hesitated for a moment and then added, "Senior Apprentice Brother Ning, I have something else to take care of...."

Ning Cheng raised his hand and stopped Meng Jing Xiu and spoke, "I know, but I will still say the same thing again."

Meng Jing Xiu had mentioned this to him in the Mo Ze Grand Plaza, that she had to enter the Angry Axe Valley to investigate something, Ning Cheng had initially suspected as to what kind of secret she had in the Angry Axe Valley. Now that Meng Jing Xiu mentioned it again, it made him even more determined that what he had thought about was definitely right. However, this kind of thing, it would be better to keep it between the two individuals.

"Ha Ha Ha...." A burst of laughter was transmitted, as a tall man landed in front of Ning Cheng along with a few people.

Around this tall and slim male cultivator, there were two men and a woman, in addition to this male cultivator who was laughing, there were altogether a total of four people.

Ning Cheng's expression was as usual, and did not seem to care about this male cultivator. He simply went ahead and calmly picked up the Storage Bags and the Magic Weapons lying on the ground. Moreover, he looked extremely calm to the surrounding people, and did not speak, giving out a mysterious air to the surrounding people. This tall and slender male cultivator already had the cultivation of Essence Building 8th Level, and was giving off a very dangerous aura from his body, he concluded that he should be stronger than that Wu Zhen by many times.

Behind him were three people, the shorter of the two male cultivators was at Essence Building 3rd Level, while the other two were at Essence Building 6th Level.

"Friend you have some good skill; I am Luan Hong from the Feng Continent's Profound Moon 7 Star Academy. I want to invite you to join our team. Everybody can mutually borrow the strength amongst us, aren't you also looking for Spiritual Grasses?" Luan Hong was not only very handsome in appearance, but even his speech, when heard by others, was similar to being washed by a spring breeze.

Ning Cheng frowned, "Seek out the Spiritual Grasses together?"

He had seen many Spiritual Grass Hills here, moreover he even saw many people trying to deal with a single hill. It was apparent that the hills here were covered in some kind of restriction. However as to the specific circumstances, he was not clear. As when he arrived here, he had immediately ended up in a fight with the cultivators of the Red Heaven Academy, and only stopped fighting just a moment ago.

When Luan Hong saw that Ning Cheng did not understand what he meant, he quickly tried to explain with the sentence, "My team had a total of six people, including Wu Zhen and Ren Wan Yu before they fell. If you don't mind, you can join our team in their place, moreover the Spiritual Grasses that we collect will also be equally distributed amongst us."

Seeing Ning Cheng still did not understand, Cang Shuo once again spoke from the side, "Senior Apprentice Brother Ning, it is like this all over here. Here there are many Spiritual Grass Hills, but these hills seem to be surrounded by an Axe Type Killing Intent from the Angry Axe Valley. If one cannot use one's Imposing Manner to break through the Axe Type Killing Intent surrounding the hill, then there is no way for them to enter the hill and collect the Spiritual Grasses. If one used only brute force attacks, they would not be able to break the layer of Killing Intent surrounding the hills. Moreover, it would only make the surrounding Killing Intent even more powerful."

“Therefore, these seniors of the Essence Building Realm formed a team together to protect each other’s back from the Killing Intent surrounding the hills, once they broke through the Axe Type Killing Intent surrounding the hills, then they could enter and collect the Spiritual Grasses. The strength of the True Condensation Cultivators is slightly poorer than them, and as such only by swarming together, and superimposing their Imposing Manner can they break open the hills. As long as the Killing Intent surrounding the hill is broken open, everybody would immediately rush together to snatch the things, as such a person with a powerful strength would be able to snatch more things when compared to others. Because Junior Apprentice Sister Danqin was following behind, she was able to pick up a fruit.....”

With the help of Cang Shuo’s explanation, Ning Cheng immediately came to understand that originally these Spiritual Grass Hills were covered in a layer of Axe Type Killing Intent. As to how to deal with the Axe Type Killing Intent, he already had some experience with it.

“Thank you, Brother Luan, for placing such importance to me, but I have no intention of teaming up with others.” Ning Cheng cupped his fists and spoke.

Luan Hong had some regrets, but he still did not lose heart and tried to persuade him once more, “Friend, the Killing Intent here is not something that a single person would be able to fight against. Previously, there were several Essence Building Cultivators with even more powerful cultivation level than our own, but when these people tried to resist the Axe Type Killing Intent by themselves, the result was that they were directly killed by the counterattack from the Killing Intent, and did not even have the ability to resist it for even half a moment.”

Luan Hong had seen Ning Cheng fight, Ning Cheng’s Great Axe was able to bring out a formidable Axe Type Killing Intent, if Ning Cheng were to join them, then their success probability to break through the Killing Intent surrounding the hills would definitely be increased at least by two times, if not by three. Moreover, this kind of result was definitely much better than Wu Zhen and Ren Wan Yu combined.

Ning Cheng still smiled politely and spoke, “Thank you, but I still do not have any intention to team up, moreover I have a few Junior Apprentices with me, if I had to team up, then it would be alongside them.”

Luan Hong then looked at Cang Shuo and the others with some regret, and said, “Such being the case, then let’s forget it.”

Although Ning Cheng was quite good, but because Ning Cheng wanted to bring Cang Shuo and the others to team up with them, it was simply not something that he was willing to do. If a few individuals did not work, and even had to be allocated the Spiritual Grasses, how can there be such a good thing?

“Brother Ning, congratulations on successfully entering the Essence Building Realm.” Seeing Luan Hong leave, Situ Yu immediately came over to say hello with a smile on his face.

“Senior Apprentice Brother Xiao Cheng, before when Senior Apprentice Sister Jing Xiu and Senior Apprentice Brother Cang were seriously injured, only Senior Apprentice Brother Situ came over to help. He gave us two healing pills.....” Ruimu Danqin was very grateful towards Situ Yu, now that Situ Yu came over, she quickly spoke in Ning Cheng’s ear.

Situ Yu was embarrassed as he spoke, "I really am ashamed, my strength is limited, and could only leave behind two healing pills, and then helplessly watch Senior Apprentice Brother Cang and Junior Apprentice Sister Jing Xiu get bullied."

Ning Cheng quickly said, "Thank you, Brother Situ, with Brother Situ's cultivation, already extending such a helping hand really shows your feeling towards us, this Ning Cheng has already noted it down."

Ning Cheng was very clear about the situation here, he would not blame the other people from the Hua Continent for not trying to help, because he knew that if they tried to interfere, then the only thing that they would receive would be death. Although Situ Yu came forward and gave them only two healing pills, it already showed the sentiments of extending a helping hand.

Regardless of whatever the outcome, at this time Ning Cheng looked full of power and prestige, which was more than enough to shock everyone here.

Of the cultivators who came from the Hua Continent, other than Yong Gu Yun who found a backer for herself, the rest of the people did not have any kind of backing. So now they all wanted to come and say their greetings to Ning Cheng, while also looking towards him as their powerful backer. But thinking about how the disciples from the God Wind Academy were bullied again and again, while none of them even came to help, they simply did not have the face to come up.

As to that short cultivator called Lao Sheng, who was standing alongside Yong Gu Yun, at this moment both their faces were really ugly to look at. He had thought that he could have easily killed Ning Cheng, but now he finally knew that Ning Cheng was the one who could easily kill him. He knew that he himself was not an opponent for Wu Zhen, but not only Ning Cheng easily killed Wu Zhen, but he even killed him while the two Essence Building Cultivators collaborated to kill him. With such a cultivation, why would he even care about an Early Stage Essence Building Cultivator like him.

As for Yong Gu Yun, she was staring at Ning Cheng in shock, she really had never thought even in her wildest imaginations that Ning Cheng would have already successfully enter the Essence Building Realm. Does this guy really have a Hybrid Support Spiritual Root? Wasn't his cultivation speed simply too fearful?

Others were not very intuitive about Ning Cheng's cultivation, as the other people from the Hua Continent even thought that when Ning Cheng arrived at the Tournament in Mo Ze Grand Plaza, he was already hiding his cultivation. But only she was very clear, Ning Cheng had never concealed his cultivation, not only did he not conceal his cultivation, but he also went from the cultivation level of Qi Gathering Realm to advancing to Essence Building Realm, moreover he had done this feat in just an extremely small amount of time, a measly two years.

Yong Gu Yun obviously knew a lot on how to deal with people, so when she glanced at Lao Shen, she immediately thought about the words that she had spoken before to Lao Sheng, and knew what was going on in Lao Sheng's heart. She hurriedly tried to comfort him in a loud voice, "He only has a Hybrid Spiritual Root, but he must have obtained some good opportunities in the Angry Axe valley, and as such was able to rise to his present cultivation level. Once he comes out of the Angry Axe Valley, didn't you say that he would be chased down by the Red Heaven Academy. Even if he was not chased down, with his intelligence and qualification, he simply would not be able to enter any Advanced Ranked Academies or Sects, so for him to advance any further, I think that it would be very difficult."

Lao Sheng clearly knew that Yong Gu Yun's words were meant to please him, but his complexion still eased a lot. He then nodded and spoke, "You're right, this kind of opportunity to cultivate would only come once or twice in their life, one cannot always be accompanied by good fortune. That's right, that girl beside him, are you sure that she has a Pure White Wind Spiritual Root?"

"That's right, Yue Ying definitely has a Pure Wind Spiritual Root, but in the test for the Spiritual Root it was different and had a pure white colour....." Yong Gu Yun confirmed.

A different Pure White Coloured Wind Spiritual Root? Lao Sheng was not Yong Gu Yun, as he almost cried out in shock. He knew that in the Ping Continent, as long as the Main Spiritual Root achieved a cloudy white colour, it could be called a Pure Spiritual Root. He had previously thought that Yue Ying's Pure Wind Spiritual Root was also cloudy white in colour, at most it would only be slightly whiter in colour, he had never expected that it would really be a pure white in colour.

"Whose Spiritual Root is a Pure White Wind Spiritual Root?" A cold voice resounded beside Yong Gu Yun and Lao Sheng.

Immediately a girl wearing a purple robe with a veil on her face appeared in front of the two of them, she had the cultivation of True Condensation 9th Level, and had a middle aged male cultivator by her side. Lao Sheng only knew that this middle aged cultivator was stronger than him, but he was like the other people as he could not see at what level in the Essence Building Realm he was at.

"I am Lao Sheng of the Celestial Globe 7 Star Academy....."

Lao Sheng had not finished, when the girl in purple robe wearing a veil on her face interrupted him, "I asked you who is the one who has a different Pure White Wind Spiritual Root, I did not ask who you are."

For a True Condensation 9th Level cultivator to speak to him like that, Lao Shen unexpectedly subconsciously shivered in fright, as he hurriedly spoke "Her name is Yue Ying, she...."

Yong Gu Yun immediately understood that the two people who appeared in front of them absolutely did not have any common background, and quickly spoke, "Junior Apprentice Sister Yue Ying and I are from the Hua Continent, and she indeed does have a different Pure White Wind Spiritual Root, she is over there...."

Saying that, Yong Gu Yu pointed out with her hand towards Yue Ying who was still speaking with Ruimu Danqin.

Chapter 144: Wu Nian Academy

"Are you called Yue Ying, the one who has the different Pure White Wind Spiritual Root?" The purple robed wearing woman with a veil on her face immediately came in front of Yue Ying and asked.

Yue Ying and Ruimu Danqin were almost similar in age, although she was much more mature than Ruimu Danqin, but because they were of the similar ages, so they still had a lot of things to talk about, and at this time she was happily chirping away with Ruimu Danqin. But now a strange woman suddenly arrived in front of her and immediately enquired about her Spiritual Root, it immediately made her surprised.

Although one's Spiritual Root was actually not something secret, but it still could not be casually mentioned to a complete stranger.

Although this purple robe wearing woman and the middle aged male cultivator had arrived just a moment ago, Ning Cheng had already taken note of them long before, as initially he also saw the two of them during the time he was mining.

Yue Ying's age, when compared to Ning Cheng, was only 2-3 years younger, but it looked like Yue Ying really was too small when compared to Ning Cheng's projected age. Since a few people were making inquiries, so of course he also came forward.

"Who the heck are you, to want to ask about Yue Ying's Spiritual Root?" Ning Cheng also spoke the same language, and spoke without any respect towards the purple robed woman who asked about Yue Ying.

Ning Cheng was a person who came from Earth, so he was someone who firmly believed in mutual respect, since the opposite party did not respect them, then he also did not need to respect them. Only in the face of a person whose cultivation was far above him, would he politely refer to them as 'Senior', except for that there would not be any other exceptions. The opposite party consisted of just a True Condensation 9th Level Cultivator and a Late Stage Essence Building Realm Cultivator, how can he be looked down upon by them.

Even if this Late Stage Essence Building Cultivator was not simple, Ning Cheng still did not care about him.

"Your Concealment Cultivation Method is good, I really did not realise if back when you were mining whether you had the cultivation of True Condensation 9th Level, or were already at Essence Building Realm." This purple robe wearing woman with a veil on her face spoke not because Ning Cheng was impolite in his words, but on the contrary was making a reference to Ning Cheng's Cultivation Method. She absolutely did not believe that Ning Cheng, who half a year ago, was only at True Condensation 3rd Level, but now had already advanced to the Essence Building Realm. Although a person could theoretically cultivate quickly, but it was simply impossible to be this fast.

Ning Cheng had indeed thought correctly. These two people were indeed at the place he was mining at. He simply spoke in an outright manner, "At that time when I was mining I was already at True Condensation 9th Level. At that time, in the Spirit Stone Mine, I was able to dig out two Best Quality Spirit Stones. Later, I used those two Best Quality Spirit Stones to successfully break through to the Essence Building Realm."

When she heard Ning Cheng say that he had been able to dig up two pieces of the Best Quality Spirit Stones at that time, the purple robe wearing woman with a veil on her face, had a trace of longing flash through her eyes. But when she heard that Ning Cheng used those Best Quality Spirit Stones to advance through to the Essence Building Realm, her eyes then immediately revealed a flash of irony, and spoke in a light voice, "Advancing to the Essence Building Realm with the help of Best Quality Spirit Stones, moreover with two pieces, this is the first time I heard of it, it seems that you really are very rich."

Ning Cheng did not care about the satirical way that this purple robed woman with a veil on her face spoke. He simply turned his head towards Cang Shuo and the few people with him and spoke, "Let's go, let's go in front of a hill and see if we can make a small fortune or not."

“Wait wait, Yue Ying has still not answered my question.” This purple robed woman immediately blocked the way of Ning Cheng and the others with him.

Ning Cheng frowned, and spoke in an unhappy tone, “Us few have nothing to do with you, nor have we ever seen you, why should we even tell you about our Spiritual Roots? Or do you think that you can just force someone to do something against their will?”

That middle aged male cultivator seeing Ning Cheng and the purple robed woman failing to reach an agreement, quickly stepped forward and cupped his fist and spoke, “Please do not misunderstand my friend, we are people from the Wu Nian Academy of the Le Continent. We only came here, when we heard someone say that Yue Ying had a different Pure White Wind Spiritual Root, and just wanted to inquire about it, if Yue Ying really has a different Pure White Wind Spiritual Root, then my Wu Nian Academy would be extremely happy to let her join our Academy.....”

When he spoke those three characters ‘Wu Nian Academy’ all the people suddenly turned silent, and the gaze that they used to look at the purple robed woman and the middle aged man immediately turned into a gaze filled with respect and worship. Some of people looked at Yue Ying with envy, as they very much hoped to immediately take Yue Ying’s place instead of her.

Ning Cheng and the people beside him, other than Cang Shuo, although they were all from the Hua Continent, but they were obviously country bumpkins, as such they had not even heard of this Wu Nian Academy.

Cang Shuo knew that Ning Cheng and the others did not know about such a thing, so he immediately spoke in a low voice, “I heard that the Wu Nian Academy is not only one of the three largest Academies in the Le Continent, but even in the entire Yi Xing Mainland, they are ranked among the top three Academies. Even amongst those strong Sects and Academies that are as common as the clouds in those Advanced Class Continents of the Yi Xing Mainland, they still have a much higher status. However, I heard that requirements of the disciples that the Wu Nian Academy recruits are very harsh, without some certain qualifications they would certainly not accept them. But once taken in, the vast resources of the Academy would be instantly made available to them.”

“You are wrong, after joining the Wu Nian Academy, you will not be given all the resources, as all the resources would be used to cultivate the core disciples. As for the ordinary disciples, they need to struggle for themselves, even for obtaining resources to cultivate.” The purple robed woman seemed to have heard Cang Shuo’s words, and immediately refuted his claims.

Ning Cheng was actually moved in his heart, no wonder this purple robed woman was strung on a high horse, evidently she really had the qualifications and the backing to do so. If Yue Ying could join the Wu Nian Academy, then she would be similar to the floating clouds for that old man surnamed Kang.

“Yue Ying, you can truthfully give an answer to her.” Ning Cheng looked at Yue Ying and said while nodding.

When Yue Ying saw Ning Cheng nod, she then gave a normal customary greeting to the purple robed woman and said, “Returning to Elder Sister’s words, I do have a different Pure White Wind Spiritual Root.”

At this time the purple robed woman and the middle aged man finally understood that Ning Cheng was the head of this group. But when they heard Yue Ying confirm that she indeed had a different Pure White Wind Spiritual Root, their eyes immediately flashed with excitement.

This kind of different Pure White Wind Spiritual Root, the Wu Nian Academy really did not have any one.

“Are you willing to join my Wu Nian Academy?” The purple robed woman had not even discussed this with the middle aged male cultivator beside her, as she anxiously looked at Yue Ying and asked.

Then, as if she remembered that Ning Cheng was the person who called the shots around here, she then quickly spoke to Ning Cheng, “My Wu Nian Academy is one of three strongest Academies in the Yi Xing Mainland. With Yue Ying’s Spiritual Root Qualifications, only in the Wu Nian Academy can she obtain the greatest improvement.”

In Ning Cheng’s heart, he really hoped that Yue Ying joined the Wu Nian Academy, as he knew that the trouble following Yue Ying was not small at all, moreover at present he himself did not have the strength to resist against that cultivator surnamed Kang.

Yue Ying also heard Cang Shuo’s words as he spoke them nearby to her about the introduction of the Wu Nian Academy, and in her heart she also very much wanted to join the Wu Nian Academy. However, she knew that Ning Cheng had also offended that cultivator surnamed Kang.

Thinking till here, Yue Ying hastily spoke, “Many thanks to Elder Sister to pay such attention to me, but Ning Cheng here is my Senior Apprentice Brother, I hope that he can also join the Wu Nian Academy.....”

At this time, she also remembered Cang Shuo and the others, and immediately supplemented, “A few moments before, he also offended the Red Heaven Academy, therefore I would like to ask them to join together.....”

It was as if Yue Ying also wanted to give some hope to Cang Shuo and the others to join the Wu Nian Academy, so when the purple robed woman heard the meaning behind Yu Ying’s words, she suddenly frowned. She herself knew that the recruitment of disciples for the Wu Nian Academy was very strict, and not everyone could casually join, even if she herself recommended someone. Ning Cheng had used two Best Quality Spirit Stones to advance to the Essence Building Realm, so his Spiritual Root Qualifications seemed to be barely enough, but it was still a strange affair.

The purple robed woman turned her head and glanced at the eyes of the middle aged cultivator, then looked at Ruimu Danqin and the others and spoke, “What are the Spiritual Roots of you people?”

Ruimu Danqin was the first to speak and said, “I have a Pure White Fire Spiritual Root.”

“A Pure White Fire Spiritual Root? Good, with you Spiritual Root you can definitely join my Wu Nian Academy’s Inner Court.” The purple robed woman’s eyes once again flashed with a sense of joy, if the rest of people present here had a Spiritual Root that was just as good, then she could still call in some favours to let them join the Wu Nian Academy together. In such a case, that Yue Ying would also surely be able to join the Wu Nian Academy without any worries. However, among these few people, to have such a good Spiritual Root, seemed to be very unlikely. At the very least, they should have a Spiritual Root similar to this Senior Apprentice Brother Ning of theirs, the one that called the shots among them.

"I have an Earth Type Main Spiritual Root that is cloudy white in colour, but it is also a Pure Spiritual Root." Cang Shuo also quickly added.

The purple robed woman's eyes revealed a trace of disappointment, but she immediately spoke, "Only a 'Pure White' Spiritual Root can be called a Pure Spiritual Root, even Ruimu Danqin's White Fire Spiritual Root, from a moment ago, is still something that cannot be called a 'Pure White' Spiritual Root."

Cang Shuo spoke in a puzzling manner, "But when I tested my Spiritual Root, it was the only Main Spiritual Root."

The middle aged man showed a faint smile, "That is Because the Spiritual Root Testing Artefacts in the Hua Continent contains some errors, as long as the Main Spiritual Root protrudes slightly, then the Support Spiritual Roots are not very obvious, so some of the Support Spiritual Roots would not be able to be tested out. It precisely because of this, that the people with the so called 'Pure Spiritual Roots' in the Hua Continent are as numerous as the hairs on an ox."

Cang Shuo looked at the happy expression on the corners of the mouth of the middle aged man, how could he not understand the meaning of the opposite party's words, as he immediately felt his face grow hot. He was a core disciple from the God Wind Academy, not because his father was the Dean, but because he truly did possess the qualification of having a Pure Spiritual Root. He had not thought that the Hua Continent's Pure Spiritual Root, and the Pure Spiritual Roots of the Advanced Class Continents would have such a big difference between them.

The purple robed woman spoke, "Nevertheless, you are still eligible to join my Wu Nian Academy's Outer Court, as to becoming a disciple of the Inner Court, it would only depend on the diligence and hard work you can put in yourself."

Even if it was being an Outer Disciple of the Wu Nian Academy, Cang Shuo was 100% willing to and was the happiest person in his heart, moreover he also understood most of what was to be understood of the Wu Nian Academy. However, at the moment Yue Ying has still not given her approval, so he also could not reveal his approval, and could only thank the opposite party. But he had already made up his mind, as long as he could join the Wu Nian Academy, then he could request Yue Ying to help him procure a Profound Secondary Rainbow Pill from the Wu Nian Academy.

But then Meng Jing Xiu spoke in a somewhat depressed way, "Although I have a Gold Spiritual Root as my Main Spiritual Root, it is also cloudy white in colour, but I also have a three-line Hybrid Spiritual Root....."

The purple robed woman frowned and said, "You have no way to be even qualified to join the Wu Nian Academy's Outer Court as an Outer Court Disciple, but if you do not mind, I can arrange for you to do some chores in the shops in the Wu Nian Academy."

Meng Jing Xiu had always been a proud and arrogant person, how could she accept to do odd jobs in the Wu Nian Academy? After returning a respectful salute, she said, "Thank you, Senior Apprentice Sister for your deep affection, but I have already decided to just focus on my cultivation."

Originally Meng Jing Xiu was going to return to the God Wind Academy, but now that she had experienced many strong people from different Sects and Academies in the Angry Axe Valley, as such she now did not have any intention to return to the God Wind Academy.

The purple robed woman nodded, as she took out a Healing Pill and gave it to Meng Jing Xiu saying, "This Healing Pill can restore your injured arm to its previous healthy state in the shortest amount of time, moreover it also would absolutely not affect your future cultivation."

But after hearing that, the few people surrounding Meng Jing Xiu were also somewhat worried about Meng Jing Xiu, although she would be doing odd jobs in the shops of the Wu Nian Academy, she would still be able to learn the 'average' fighting skills and cultivation methods of the Wu Nian Academy, while also making at least a few allies, and still would be able to increase her cultivation my countless times. But this stupid idiotic woman, unexpectedly refused such an offer.

Ming Jing Xiu quickly took the Healing Pill, and thanked her once again. In the face of such a good thing, she would not reject it. Once rejected, it was similar to playing a joke on her own small life.

But at this moment Ning Cheng's heart had some doubts, Meng Jing Xiu also had Hybrid Spiritual Roots, so how could she see some of the changes in that leather like parchment? Even if she only saw two changes, after all, it was still a change. According to his previous idea, having a Hybrid Spiritual Root, one would not be able to see even a single change in that leather like parchment.

"How about you?" The purple robed women interrupted Ning Cheng's thoughts and asked.

.....

TL Note – Truthfully it's kind of ironic to name an Academy as 'Wu Nian Academy' as the characters that make up the name, when translated to their English equivalent, becomes 'Studyless Academy'

Chapter 145: Detonation of the Axe Intent

Ning Cheng cupped his fists and spoke, "I have a Multi-Line Hybrid Spiritual Root, I do not want to go to the Wu Nian Academy, nor do I want to go work in any shops."

"Big Brother Ning....." When Yue Ying heard that Ning Cheng did not want to go to the Wu Nian Academy, she immediately became anxious in her heart, and called out.

Ning Cheng hinted to Yue Ying to not to worry, and spoke in a gentle manner, "Yue Ying, for you to go to the Wu Nian Academy is the best thing for you. If you went to the Wu Nian Academy, then you can speak out freely about your own affairs. Being in the Wu Nian Academy, you would even be someone who called the shots, so you do not need to conceal anything about this matter. Moreover, I also have my own things to take care off, surely you also very clear about this. Maybe in the future, when I come to the Wu Nian Academy with Luo Fei, then perhaps I can meet you two siblings."

Although Ning Cheng explained it like this, Yue Ying was still very anxious in her heart, and hastily spoke to the purple robed woman, "Elder Sister, although Big Brother Ning has Hybrid Spiritual Roots, but he is astonishingly strong. Moreover, he definitely cannot be compared to ordinary Essence Building Cultivators, moreover, moreover Big Brother Ning also....."

The purple robed woman spoke in a light voice, "The reason why my Wu Nian Academy is in such a prestigious position, is not because our people are stronger than others of the same level. What Wu Nian Academy sees is the potential of a person, if he only had at least a little potential for growth, then

at least I would be able to call in a few favours for him to join the shops in the Wu Nian Academy, this is already the maximum I could do in my capacity.”

As to Ning Cheng’s strength, she thought that she was much clearer than Yue Ying. Although she had not personally seen Ning Cheng slay the two Essence Building Cultivators from the Red Heaven Academy, but during the time when everyone was rushing towards the Spirit Stone Mine, she had definitely seen Ning Cheng fighting against the six people who came to snatch the mine from him. Initially, she also thought that Ning Cheng was at True Condensation 3rd Level, but now it looked like, Ning Cheng was not at True Condensation 3rd Level, but rather was at True Condensation 9th Level at that time. It was just that Ning Cheng was initially hiding his own cultivation.

As to why she thought that Ning Cheng could fight against six enemies, in addition to concealing his cultivation from others, she thought that it was so that the enemy would underestimate him. As to the Axe Intent that he had comprehended, she was certain that Ning Cheng had comprehended this Axe Intent in the true Angry Axe Valley.

With only the ability to comprehend, he would not have a big potential in him, and as such was not qualified to join the Wu Nian Academy. Even if his comprehension ability was astonishing to the point that no one could compare to him, or even heaven defying, if he did not have the proper qualifications, then let alone advancing to the Profound Core Realm, it would be extremely hard for him to even cultivate to the Profound Congealing Realm.

Therefore, in high ranking Academies, one’s qualification was the most important thing that they first looked at, followed by other things.

Seeing that Yue Ying wanted to say something, Ning Cheng quickly stopped Yue Ying for speaking and said, “Yue Ying, if you return to the Hua Continent, help me out by going to see Luo Fei. Later you can go to the Wu Nian Academy to cultivate.”

Ning Cheng knew that Yue Ying would definitely first go to the Hua Continent, Yue Ying had a different Pure White Wind Spiritual Root, moreover her brother’s qualifications were also not worse than hers. So the Wu Nian Academy had no reason to not want to take her elder brother along with her.

“En, I will certainly go and see Sister Luo Fei, this Pearl Hair Clip, I will certainly save it to give it to her.” Yue Ying brought out that Pearl Hair Clip. Suddenly in her heart she really did not want to part ways with him. She had been together with Ning Cheng, although they spent most of their time cultivating, however, she had grown fond of that feeling of being together with him.

“Let’s go.” The purple robed woman simply spoke.

Ruimu Danqin and Cang Shuo also came over to Ning Cheng to bid their goodbyes, all of them were very clear, that Ning Cheng was extremely powerful, moreover he also had the cultivation of Essence Building Realm. But they also knew this fact that it was very difficult for a person to come to the Le Continent by themselves.

Looking at the purple robed woman and middle aged male cultivator preparing to leave with Yue Ying and the other three people, Ning Cheng had some doubts in his heart, here there were many Spiritual Grass Hills, but unexpectedly this purple robed woman simply did not even care about them?

Meng Jing Xiu was not someone who lost much, so when she saw the doubt on Ning Cheng's face, she immediately took the initiative and spoke, "Although there are many good things here, but with the strength of the Wu Nian Academy, why would they care about these Low Ranked Spiritual Grasses?"

"Brother Ning, I also want to go seek out some Spiritual Grasses." Seeing Yue Ying and the others leave, Situ Yu immediately came over and spoke.

Ning Cheng patted Situ Yu on the shoulder and spoke, "Go ahead, if anyone tries to snatch your Spiritual Grasses, you can come look for me."

Situ Yu's heart was filled with joy, what he wanted to hear were exactly these words, Ning Cheng had already killed the two Essence Building Cultivators from the Red Heaven Academy. So he knew that from now on no one would dare to look for trouble for Situ Yu.

Seeing Situ Yu leave, Meng Jing Xiu took the initiative once more and spoke, "Senior Apprentice Brother Ning, do we go somewhere else, or do we find some other Spiritual Grass Hill?"

Ning Cheng gave a light smile, "Since we have already come here, let us try and get some Spiritual Grasses first. This place kind of suits me anyways."

Here in the Angry Axe Valley, the Spiritual Grass Hills were surrounded by the Axe Type Killing Intent on the outside. As to the Axe Type Killing Intent here, Ning Cheng believed that with the Angry Axe Type Killing Intent that he had comprehended before, he believed that he would be able to break open the Killing Intent surrounding the hill. If it really did not work, then he would simply go out and form a team with other people.

As Ning Cheng brought Meng Jing Xiu and left, the surrounding cultivators also dispersed. Each one either seeking their own Spiritual Grass Hill, or to find someone who could help them break through the Killing Intent surrounding them.

As to the matter regarding the deaths of the disciples from the Red Heaven Academy, it was obviously not a big deal to them. Even if they had to deal with Ning Cheng, they could only be able to deal with him after he left the Angry Axe Valley.

"Let's just choose this one." Ning Cheng and Meng Jing Xiu stood in front of a verdant green hill and spoke.

Meng Jing Xiu gave a simple 'En' sound, and started to reposition herself with her long halberd. She had seen many cultivators use their magic weapons, and by relying on their Killing Force of their magic weapons, they would try to break open the Spiritual Grass Hills.

Ning Cheng immediately stopped Meng Jing Xiu and said, "You just follow behind me, if you use your magical weapon to try and break through the Axe Type Killing Intent here, then even if both of us work together we definitely will not be able to break open the hill, it would be best if I was the one to give it a try."

Saying that Ning Cheng proceeded to take a few steps forward. When he approached the hill, a formidable but boundless Killing Intent came crashing down on him. If it was before, then he would have definitely been ground to dust when this formidable Killing Intent came crashing down on him suddenly.

Meng Jing Xiu was following behind Ning Cheng, but the Killing Intent was completely blocked by Ning Cheng, and as such she was not aware of what was going on with him.

But then she began to have some doubts, as she actually saw Ning Cheng's entire body trembling. But before she could even ask what was wrong, Ning Cheng unexpectedly took out his Golden Great Axe and sent out an Axe Chop.

A pale Golden Great Axe Trace flew across the sky, as if cleaving it in two, as it descended in front of Meng Jing Xiu's eyes. Meng Jing Xiu sluggishly looked at the Golden Great Axe Trace, while her heart was still in a daze. Didn't Ning Cheng say not to attack with one's magic weapon? Then why did he attack with such power?

At this time Ning Cheng had already forgotten about the words he had spoken just a few moments ago, as he returned back to scenario when he was in the true Angry Axe Valley. It was as if there were innumerable ways in which the Axe Trace was taking form from the Axe Intent as they bombarded his consciousness, if he did not resist against them, then he would also end up like that Lan Yu Chen, and would finally be killed by this formidable and powerful Killing Intent.

His reaction at that time was completely unconscious.

Because Ning Cheng had killed four disciples from the Red Heaven Academy, and a few of his companions were also taken away by the Wu Nian Academy from the Le Continent. As a result, all the people there, regarded Ning Cheng as a celebrity. As such his every move was paid attention to by the people, when they saw Ning Cheng and his companion try to break open the Killing Intent surrounding the Spiritual Grass Hill before them, they did not care much about it. When the people first started to come here, many people had tried doing the same thing, so when the Killing Intent came crashing down on them, they knew that it would be stupid to try and confront it, and would immediately take the initiative to back down, and then try to find someone to team up with them.

But those who were paying close attention to Ning Cheng did not ever think that Ning Cheng would not only not back down, but rather even resort to his own magic weapon. Some of them could not even bear to look anymore, as they thought that as long as he would back down, then at least he would not end up with nothing. But once he resorted to his magic weapon and tried to confront the boundless Killing Intent, the only fate left for him was to end up dying. Previously, several powerful Essence Building Cultivators had also tried to depend on their powerful strength, but ultimately even their bones were not left behind, just because they dared to resort to their magic weapons to resist the formidable Killing Intent here.

When Ning Cheng resorted to use his Golden Great Axe to go against the Killing Intent here, it was not something impulsive, as he had also encountered the same situation in the true Angry Axe Valley. He was vaguely aware that the Axe Intent he comprehended before and the Killing Intent here seemed to have some kind of resonance with each other, which completely separated him from the other people. If it was before, then it was highly likely that this Axe Intent that was coming from the hill was more than enough to kill him. What the Axe Intent of the Angry Axe Valley emphasized on, was to always continue forward, and never go back.

"Ka....." a slight almost inaudible sound rang out, which was not expected by the rest of the people.

Although Ning Cheng's Axe Intent was powerful, and properly speaking, his Axe Trace should have produced a loud crack created from the detonation of a large amount of True Essence, which would then be followed by Ning Cheng being killed by the explosion of the formidable Killing Intent.

But none of them could think that Ning Cheng's Great Axe would only create such a light and almost inaudible sound, if one did not concentrate, then they would not even be able to hear this fine sound.

A vague thought emerged in Ning Cheng's consciousness, but this feeling was something fleeting, Ning Cheng did not have enough time to analyse it, before it disappeared without a trace.

Ning Cheng sighed, he understood that this was definitely a new kind of Axe Intent, but it truly was a pity that this Axe Intent was something incomparable to the true Angry Axe Intent in the true Angry Axe Valley, and as such he knew that he should not take hold of it.

After this fuzzy feeling disappeared, Ning Cheng suddenly saw the result in front of him. In front of him the Killing Intent had completely disappeared and could simply not be perceived anymore, it was as if there was giant invisible hole in front of him that could not be seen by anyone else.

"The Killing Intent is gone, let's hurry up and go inside to collect the Spiritual Grasses." Ning Cheng spoke in a pleasantly surprised manner, he absolutely did not think that just with his simple axe he would be able to break open the Killing Intent Barrier around the Spiritual Grass Hill before him.

"Yi! he was not killed by the Killing Intent, and could actually even go in." Seeing Ning Cheng and Meng Jing Xiu enter the hill, it was immediately noticed by someone.

Some of the people wanted to take advantage of this, and immediately rushed out to follow behind Ning Cheng, their thinking was very simple, although Ning Cheng would snatch away the High Ranked Spiritual Grasses, but at least Ning Cheng would definitely not snatch away all the Low Ranked Spiritual Grasses.

However just when these people rushed towards the foot of the hill, they were immediately thrown back by the formidable Killing Intent that came crashing down on them.

"This damnable Killing Intent is still surrounding the hill, just how in the world did they go in?" Some of the people instantly understood this point, and immediately called out in a horror stricken voice.

Before in all of the hills, only after the Killing Intent was broken through by the unified Imposing Manner of numerous cultivators, would they be able to go through. Moreover, once they broke through, the Killing Intent would immediately dissipate. But it was absolutely not the case with Ning Cheng, although his Axe Chop was able to open the Killing Intent surrounding the hill before them, but it did not dissipate the Killing Intent surrounding it.

"I understand, it is because he had comprehended the Axe Intent in this Angry Axe Valley, and could use this same Killing Intent to blow open this Axe Intent surrounding the hill." The cultivators here were not stupid, when they saw Ning Cheng use his axe technique before, they immediately deduced that he definitely was in possession of a formidable Axe Type Killing Intent.

Now that Ning Cheng was able to use his Axe Trace to go through the Killing Intent Barrier in front of the Spiritual Grass Hill, this was simply not a difficult conclusion to come to.

“That’s right, originally the best way to fight the Killing Intent Barrier in front of the hills, is to comprehend the Axe Intent here, rather than using the Imposing Manner of the people to break through.”

Now that someone understood how to break open the Killing Intent in front of the hills, some of the cultivators immediately sat down in front of the Killing Intent Barrier with their eyes closed, as they tried to comprehend this Axe Intent.

But at this time Ning Cheng was wantonly collecting the Spiritual Grasses with Meng Jing Xiu, here this hill was rich with Spiritual Grasses, moreover there were only two people collecting the Spiritual Grasses. This was simply the long awaited dream of Ning Cheng. He had only one thought in his mind at this time, and that was waiting to get out of this place, so that he could then finally refine these Spiritual Grasses into Pills.

Chapter 146: Presently at the Axe Valley

“Senior Apprentice Brother Ning, why are you not even sparing the Rank 1 and Rank 2 Spiritual Grasses?” As Meng Jing Xiu saw Ning Cheng, who as long as he saw a Spiritual Grass, would collect it no matter what, without even giving a thought to its rank, finally spoke up.

Although, the hill had too many good things, it had Spiritual Grasses from Rank 1 to all the way to Rank 4, there were even some Rank 5 Spiritual Grasses growing here.

Ning Cheng just simply gave a chuckle and spoke, “I am preparing to learn Alchemy, therefore these Spiritual Grasses are really useful to me.”

“You want to learn Alchemy?” Meng Jing Xiu stared at Ning Cheng, and only reacted after a long while. It was because she was conscious of the fact that Alchemy was very difficult, as a result she was really astonished when she heard those words.

Regardless of the fact that Alchemy needed innumerable Spiritual Grasses as resources, it was not something an ordinary person could afford to learn even if they wanted to, that was because Alchemy was something inborn in a person, it simply cannot be casually learned even by a competent person.

Moreover, the best Spiritual Root needed to try to learn Alchemy was the Fire Spiritual Root, with the Wood Spiritual Root as an Auxiliary Support Spiritual Root, moreover the Spiritual Roots absolutely cannot be a hybrid one. In addition to this, one must also have a strong talent and affinity towards Alchemy. Because of this, even in the entire Yi Xing Mainland, the number of Alchemists were extremely pitiful in number, even in the Advanced Class Continents, Alchemy Masters were still very uncommon.

Ning Cheng seemed to have known what Meng Jing Xiu was thinking about, so after thinking about it himself, he once again casually replied, “If you don’t want them, then you can give me your Lower Ranked Spiritual Grasses, so that I can use them in my Alchemy and give the finished Pills to you.”

Meng Jing Xiu eased up, as she smiled and said, “I do not need Spiritual Grasses, I did not come here for the sake of gathering Spiritual Grasses, if you want these Spiritual Grasses, I can give all of them to you.”

As Meng Jing Xiu said this, she looked at Ning Cheng in a somewhat sheepish manner. Although she wanted to explain a bit more, but thinking about it she simply chose to not mention it. For Meng Jing Xiu the Spiritual Grasses here truly had not much use for her.

“I have always been this kind of a person, so my personality is somewhat eccentric. As such, I don’t know how to say things in the correct way. Before in the Mo Ze Grand Plaza I had offended you openly. I hope and also request Senior Apprentice Brother Ning to not mind it.” Meng Jing Xiu had always wanted to sincerely apologise to Ning Cheng after that incident. So now that she heard Ning Cheng say that he wanted to learn Alchemy, her mood immediately relaxed, and on the contrary, finally came out and said the things that she wanted to say.

Ning Cheng simply gave a smile, “Although when I met you before, I admit that I had a bit of a poor impression of you, but after seeing that your magic weapon is a long halberd, I knew that you were a frank person, therefore I did not mind it all. In fact, you know, you should smile a lot more. The smile that was on your face a moment ago on your serious face really made you much more beautiful.”

[TL Note: In ancient times, the people who preferred and wielded the Halberd as their weapon for battles, were all generally viewed as straightforward and having a frank personality. They were the people who would generally speak their mind.]

Ning Cheng was from Earth, so for him to praise a woman to be beautiful, was a very normal matter for him, and was not necessarily like the others. Although Meng Jing Xiu had a slightly dark skin, but none the less she was truly beautiful. Before she had always put on a serious face, but now that there were more smiles on her face, her womanly charm was completely revealed, it was only normal for him to complement her.

Meng Jing Xiu’s face turned slightly red, as she lowered her head and did not speak. Although she was confident that she was not ugly, but she knew that when Ning Cheng said that she was beautiful, it was not because he felt attracted to her. This was a woman’s intuition. Something that she was completely unable to express in words. What’s more, for her, there were simply too many things that she must handle, so the matter of finding a companion, was something that was absolutely impossible for her at this moment.

“Yi! I found four mature Essence Raising Fruits.” The thing Ning Cheng just casually said, he had already put it aside. At present, the thing that he was most attracted at the moment was the stub containing four Essence Raising Fruits in a row. Generally, there would only be a single Essence Raising Fruit on one stub, moreover the branches of the Essence Raising Fruit were also very small, just like a piece of an ordinary thin grass.

The Essence Raising Fruit was one of the main Spiritual Fruits required to refine the Essence Building Pill, moreover previously because Ruimu Danqin had obtained an Essence Raising Fruit, it had almost provoked a fatal disaster for them.

With the discovery of the Essence Raising Fruit, more and more High Ranking Spiritual Grasses began to appear in front of them, Heaven Scented Precious Zoysia, Returning Boat Flower, Declivity Gathering Root, Mist Orchids and other precious Spiritual Grasses were found in abundance by Ning Cheng.

Seeing the Heaven Scented Precious Zoysia, Ning Cheng immediately was reminded of An Yi, who was currently in the Falling Star Academy. Initially she wanted to find the Heaven Scented Precious Zoysia, and even though she worked very hard to try and find it but she was not able to find a single one, but now unexpectedly he was able to obtain more than one here. As for the Returning Boat Flower, after being refined into a pill, it can then easily be used by an Essence Building Cultivator to cultivate. However, the Declivity Gathering Root and the Mist Orchids were something really precious.

Especially the Declivity Gathering Root, although its rank was not as high as the Mist Orchids, but it is one of the Best Quality Spiritual Grasses among the Rank 4 Spiritual Grasses, moreover this Spiritual Grass can be refined into a Declivity Spiritual Pill.

The Declivity Spiritual Pill was a Level 4 True Pill, once a lower level cultivator was possessed by the devil when he cultivates, then using the Declivity Spiritual Pill was the best medicinal pill that could help him/her.

[TL Note – Here the ‘devil’ refers to mental demons that a cultivator has to face.]

On the Spiritual Grass Hill, Ning Cheng had already filled two Storage Bags, of course, it also included the one that Meng Jing Xiu gave to him. Meng Jing Xiu only kept a very small part of the Spiritual Grasses that were possibly of some use to her, while she handed over the rest to Ning Cheng.

“This really is very good, Junior Apprentice Sister Jing Xiu, let us change hills and continue.” Ning Cheng rubbed his hands in glee, he was looking more and more forward to explore the rest of the Angry Axe Valley.

Meng Jing Xiu gave an ‘en’ sound, but then spoke after a bit of hesitation, “Senior Apprentice Brother Ning, do we go to that place first. Here there are innumerable Spiritual Grasses, but there are only Lower Ranked Spiritual Grasses. Because of the accident that happened in the Angry Axe Valley, I am afraid that we would not be able to go to that place before we end up being transferred out.”

Ning Cheng immediately recovered from the delusion of collecting innumerable Spiritual Grasses, as he thought about what Meng Jing Xiu said, it really was not without reason. Who knew when the Angry Axe Valley would revert to its previous state and transfer them out?

Having some thought till here, he once more cautiously asked, “Junior Apprentice Sister Jing Xiu, what is this place in the Angry Axe Valley that you keep speaking about? Moreover, how do you know about this place?”

Meng Jing Xiu did not have the time to answer, when Ning Cheng immediately sensed a berserk ripple coming from the periphery, this feeling made Ning Cheng feel extreme danger. Without any time to reflect on it, he immediately grabbed Meng Jing Xiu, and explosively increased his speed to the point that he only appeared as a vague blur, as he immediately flew out and escaped from the hill.

Meng Jing Xiu who was immediately grabbed by Ning Cheng, seeing him fleeing with full force, immediately knew that something terrible might have happened, as such she did not dare move about. Sure enough, the next moment a terrible deafening explosion rumbled through at the place the two of them were just standing about.

“Hong...” A terrible explosion resounded behind Ning Cheng’s back, causing the strong impact to directly explode on Ning Cheng’s back, the clothes on Ning Cheng’s back immediately shredded to pieces because of the explosion.

It was followed by a “Peng” sound, as Ning Cheng was immediately thrown forcefully because of the strength of the explosion, falling to the ground at a distance, forming a huge pit beneath him, while he still kept Meng Jing Xiu pressed to him to protect her. Meng Jing Xiu’s original injuries were still not fully healed, so because she was still with Ning Cheng, she immediately spouted a mouthful of blood.

Ning Cheng was already at Essence Building 1st Level, so his True Essence was extremely vigorous, so when his clothes were shredded away by the explosion, other than a minute amount of blood that trickled out, there was no other injuries on his body. He immediately held up Meng Jing Xiu and spoke in an apologetical manner, “I don’t know how, but the hill we were at exploded suddenly. I did not pay more attention to it, and ended up hurting you again.”

Meng Jing Xiu finally stood up on her feet, as she wiped off the bloodstains on her mouth and said, “I am fine, if not for you grabbing me and leaving a moment ago, then perhaps I would not have been able to come out.”

All the people looked at Ning Cheng’s hill in astonishment, at this time, that hill had already vanished and could not be seen at all, rather that hill had turned into a huge pit. Moreover, that terrible power of the explosion, even if it was a cultivator in the Essence Building Realm, it was not something that they could withstand. In other words, if they had been collecting Spiritual Grasses in there, then, at this time they would have already died.

Several of the Essence Building Cultivators were just on their way to Ning Cheng to inquire what had happened, when several fierce explosions started to resound all around them.

Two hills that were not far from them suddenly exploded with a tremendous explosive force, as a result the cultivators still inside the hill were not as lucky as Ning Cheng and Meng Jing Xiu. Other than a few cultivators that rushed away while still being on the outside, the rest of the cultivators inside and near the periphery of the hills were not able to escape, and immediately turned into ash because of the intense explosive force that exploded out from the hills.

As a result, the cultivators still seeking Spiritual Grasses, or the cultivators still collaborating to break into the hills, immediately withdrew in bulk. Sure enough, these cultivators had only walked not far away, when more hills began to explode. Finally, because of the continuous explosions, it formed into a towering Imposing Manner, as the huge explosion sounds began to rise up unceasingly.

Some of the cultivators were simply too late in escaping, and were hit by those explosions in droves, as they all finally fell from the sky dead.

“Sure enough, we really were able to escape early....” Ning Cheng spoke with a lingering fear in his voice, if he was even a little bit slow, then maybe he would have been one of the people who fell from the sky dead because of the explosion.

Although he had still not finished speaking, he knew that these explosions were not without a reason, as it was simply impossible for all the hills to continuously explode without any reason while frying those who were still collecting on those Spiritual Grass Hills before they exploded.

Smoke and rubble produced from the explosion had already completely covered this place. Ning Cheng at once swept out with his Spiritual Consciousness in the direction of Situ Yu and the others, but found nothing, and instead actually felt a bit relieved.

“The Angry Axe Valley, it’s the Angry Axe Valley.....the real Angry Axe Valley emerged.....” An incoherent voice sounded out, this voice immediately drew the attention of everyone to the sight in front of them.

And immediately even more people started calling out incoherently, as they thought that what they saw in front of them was the real Angry Axe Valley.

Ning Cheng and Meng Jing Xiu also clearly saw a huge ravine appear in front of them, moreover this huge ravine seemed to have been cleaved by an Axe and as such it’s walls were extremely neat and smooth. Moreover, the faint trace of Killing Intent that was leaking out from there, immediately made the bodies of all the people there turn cold.

But at this moment Ning Cheng could indistinctly feel that this Angry Axe Valley and the Angry Axe Valley that he had went and seen before were somewhat different, but as to what was different, he could not put his finger on.

Because the Spiritual Grass Hill had now turned into flat ground because of the explosions, the cultivators who were depressed, once more became excited. Even if those hills turned flat, there was still the real Angry Axe Valley in front of them, this was simply a true great opportunity. As long as they could comprehend even a tiny bit of the Axe Intent in the true Angry Axe Valley, their future would really end up great.

Didn’t that Early Stage Essence Building Cultivator from beforehand comprehend the Axe Intent, and easily and continuously killed the two Essence Building Masters from the Red Heaven Academy? Moreover, one of them was even at Essence Building 7th Level. What did that person rely on? It was the Axe Intent.

“Senior Apprentice Brother Ning, I seem to feel a kind of Killing Intent, my...” Meng Jing Xiu spoke while being pleasantly surprised, the Imposing Manner of her halberd technique “Raging Tides of the River” was already amazing, but she actually felt that she lacked a certain charm to it, this charm was precisely the true Killing Intent. This was the Halberd Intent, if she could comprehend the Halberd Intent here, then her battle proficiency would have more than doubled.

Ning Cheng saw that countless people were swarming towards the Angry Axe Valley, and nodded, “You’d better go in, after a while I will come look for you.”

“Senior Apprentice Brother Ning, don’t you want to go in?” Meng Jing Xiu asked as she looked at Ning Cheng in a puzzled manner.

“I can already feel the Axe Intent from here, moreover I can already feel that I can obtain it.” Ning Cheng quickly replied, before he had felt that this Axe Valley and the Axe Valley that he saw before were somewhat different, but now he could tell that they both were absolutely different. This entire Axe Valley, looking from an overall perspective looked incomparably smooth, but when he observed the surroundings with his Spiritual Consciousness this time, he found that the Axe Traces here had innumerable tiny cracks.

But Ning Cheng could actually feel something from these cracks, he could feel that this vague feeling was a third kind of Axe Intent.

The Gate Of Good Fortune

Chapter 147: Axe Line

All the people swarmed towards this Axe Valley, only Ning Cheng did not go in. He simply sat outside the Axe Valley, and had completely immersed himself in the new type of Axe Intent.

Only a small amount of time passed by, when the hustle and bustle previously all around him had already disappeared. Only Ning Cheng was sitting around the outside the Axe Valley, and was surrounded all around by the Axe Intent from the valley, it was similar to the Killing Intent that was wrapped around the hills. As the trace of Axe Intent was gradually forming in Ning Cheng's consciousness.

Ning Cheng was just about to clearly form the third type of Axe Intent of the Angry Axe, when the numerous cracked Axe Traces all around the valley continuously interrupted Ning Cheng in his consciousness, he had never seen this kind of coherence. To Ning Cheng, the more he thought about linking up with this Axe Intent, the more difficult he felt it to be.

Ning Cheng did not know how many times in the past few days that he probed the cracks in the Axe Valley with his consciousness, but was still unable to thoroughly link them up, and change it into the true Angry Axe Killing Intent. If he could not link up those cracks, then he knew that he would not be able to comprehend the third type of Axe Intent.

This way was absolutely not good, Ning Cheng thought as he subconsciously tried to forcefully link up these cracked Axe Traces, but just as he tried to gain some understanding, a huge explosion rocked through his Sea of Consciousness, and rendered him defenceless. Ning Cheng directly spouted out a mouthful of blood, as in his mind the somewhat clear Axe Intent once again vanished without a trace.

But Ning Cheng did not open his eyes, he once again used his Spiritual Consciousness to time and time again explore this Axe Valley. Ning Cheng suddenly shuddered, he felt the most profound thing.

This feeling was not something he himself could believe, and he finally opened his eyes, and stubbornly stared at this Axe Valley in front of him for a long while, and then slowly gave out a pained sighed. He once again closed his eyes, and let the Axe Intent that had dissipated to once again gather together.

He finally came to understand what the matter was, this Axe Valley in front of him was false. But the numerous cracks around the Axe Valley were true cracked Axe Traces. In other words, these cracks were true, but the Axe Valley was false.

Such a contradictory thing, there could only be one interpretation, the Axe Valley in front of him simply did not exist, but the cracked Axe Traces were created from a formidable Axe Intent. Moreover, these cracks could be linked up with each other, although he did not know why, but it seems like it was created by a peerless expert who had come here before. He deliberately split these Axe Trace cracks, for forging this special Angry Axe Valley. In fact, here there were already marks of an Axe Line present here previously, before this Axe Valley had appeared. It was precisely the opposite of what many had thought.

Because Ning Cheng comprehended two types of Axe Intents, so just by sensing around for several days, he was able to understand this truth.

To Ning Cheng, as long as he understood this truth, the following matter would be much easier. He once again immersed himself in the middle of these Axe Trace cracks once more, as to the Axe Trace cracks in the middle of that false Axe Valley, he had already abandoned them. A cracked Axe Trace formed out of thin air, in Ning Cheng's Sea of Consciousness. This original cracked Axe Trace that were destroyed in the Axe Valley, once again started to connect the cracks on the two sides of the Axe Valley.

The cracked traces were gradually becoming clearer, as the Axe Intent was also slowly getting highlighted. This time the Axe Traces stimulated from the cracked traces in Ning Cheng's Sea of Consciousness were different from the original. However, the third type of Angry Axe that manifested was something that reflected Ning Cheng's heart.

When these cracked traces were getting more and more complete in Ning Cheng's consciousness, Ning Cheng's Third Form of the Angry Axe finally started to take shape.

At this time the final image of a complete Axe Intent finally formed in Ning Cheng's Sea of Consciousness, as Ning Cheng immediately leapt into the sky without warning, immediately brought out the Golden Great Axe on his back.

As he blasted out a lacerating and twisting Axe Shadow, this twisting Axe Shadow directly encompassed everything in its path into a fist sized ball before directly shattering it into a fine powder, moreover even in the air, the distortion created by the Axe Shadow trace could still be seen clearly. Around this trace, one could even see flashes of tinier cracks. Just like how thunder and lightning drops down, there would always be small arcs of thunder and lightning around the main lightning flash.

"Boom....."

But when this twisted Axe Shadow exploded on the ground, it had an appearance of a clear and smooth Axe Trace. But on the edge of this Axe Trace there were countless twisted lines, it resembled the ordinary tiny fissures around the Giant Axe Valley in front of him.

Ning Cheng once again took back his axe, as he closed his eyes to ponder for a long time, as he once again put the Golden Great Axe onto his back, he spoke to himself, "This is my Third Type of Angry Axe, Axe Line."

In the Angry Axe Valley, not even the shadow of a single person could be seen anymore. All the people in order to comprehend the Axe Intent in the Valley, had already gone deep inside the valley. But outside, there was only a single person who was precisely Ning Cheng.

Ning Cheng quickly entered the Valley, he was going to see how far Meng Jing Xiu's comprehension of the Axe Intent went along, if she had almost comprehended it fully, then they both can then get down to business. If she was not able to comprehend, then he would have to persuade her to leave. Originally this was a false Axe Valley. So there was basically no Axe Intent inside that could actually be comprehended.

Just as Ning Cheng left, suddenly an obscure human figure rose from the earth without attracting any attention. This figure quickly arrived at the place where Ning Cheng left the Axe Trace, bent its body, as

it reached down and carefully stroked the Axe Trace for a long time. Then placed its hand on its nose as if he was sniffing it.

He soon got up, with an extremely ugly look on his face, as he muttered to himself, "That person's progress is simply too frightening, not only did he reach the cultivation of Essence Building Realm, but was also able to comprehend such a formidable Axe Intent in the Angry Axe Valley. I'm afraid that I am not his match....."

He stared at the place where Ning Cheng disappeared in the Axe Valley for a long time, and then turned around and walked away. Although this was the first time that he saw the Angry Axe Valley, but he was the first cultivator who did not go in.

If Ning Cheng was here, he would have immediately surely recognised this cultivator, who was known as King Xiu Xiu.

After Ning Cheng entered the Angry Axe Valley, he did not go much further on the path, when he could see countless corpses along the way. Initially Ning Cheng did not care much about it, as he understood that trying to comprehend the Axe Intent here was a dangerous matter, so for people to fall down dead here was not strange.

However soon Ning Cheng felt that something was not right, the cultivators here mostly died from not being able to comprehend the Axe Intent, but rather seemed that they had died fighting mutually.

Ning Cheng was a bit worried in his heart, although all the people here knew his name, but in the event of if something good appeared. And no one knew who Ning Cheng was, then if there was no one in conflict with him then it would still be ok, but the prerequisite thing would be for a precious thing to not appear. Once a precious thing appeared, then who would care about him being Ning Cheng?

Ning Cheng wanted to hurry and leave this place, but this Axe Valley was unexpectedly very long, even with sweeping out with his Spiritual Consciousness he was unable to locate the end. But fortunately flying through the valley for almost half a day, Ning Cheng finally was able to see a living cultivator.

"My friend, can I ask you if you have seen my companion? Moreover, where did the rest of the people who entered here go?" Ning Cheng directly landed in front of this cultivator and asked.

This cultivator had the cultivation of True Condensation 5th Level, seeing Ning Cheng's Imposing Manner when he arrived, he knew that he was far from being an opponent to him, as immediately stared at Ning Cheng with an alert expression, as he slowly spoke, "I don't even know you, so how would I even know who your companion is?"

"Do you not recognize me?" Ning Cheng asked as he frowned.

He had killed the four disciples from the Red Heaven Academy, moreover rejected the invitation from the Wu Nian Academy, so how was it possible for the other people to not know about him?

"I do not recognize you, when the Angry Axe Valley appeared, I and several other companions of mine came here to try and comprehend the Axe Intent. My companions wanted to look for Spiritual Grasses, but I was able to sense a hint of the Axe Intent here, so I stayed behind." The True Condensation 5th Level cultivator saw Ning Cheng's face did not have the expression of pretending, so he took the

initiative to explain. At the same time, some doubts appeared in his heart, if this person was really powerful or not? But if he was then how could he have not heard of him?

“Were you not there at the Spiritual Grass Hill before coming here?” Ning Cheng asked once again.

This True Condensation Cultivator shook his head and said, “I do not know of these Spiritual Grass Hills that you speak of.”

“I see, thank you.” Saying that, Ning Cheng immediately quickened his pace, as he vanished into the depths of the Axe Valley.

This time he really understood, that the explosion accident that happened in the Angry Axe Valley was definitely not a small accident, this accident had caused this false Axe Valley to be revealed. Because so many cultivators in the Angry Axe Valley saw this Axe Valley, they all entered this Axe Valley with the intent of gaining some insight into the Axe Intent. That True Condensation Cultivator that he saw a moment ago, should have come from another entrance.

After Ning Cheng walked for another two hours, he finally saw Meng Jing Xiu. But this time Meng Jing Xiu was rapidly escaping in his direction, behind her there seemed to be a True Condensation 9th Level Cultivator chasing her.

“Senior Apprentice Brother Ning....” Meng Jing Xiu immediately saw Ning Cheng, and with great happiness, hurried towards Ning Cheng’s side.

That True Condensation 9th Level Cultivator who was pursuing Meng Jing Xiu, seeing that Ning Cheng came over, moreover knew that he was with Meng Jing Xiu, immediately became uncomfortable as he spoke some unhappy words, as he immediately turned around and walked away.

“What is the matter?” Ning Cheng didn’t pursue the cultivator who had already turned around and walked away, and immediately asked Meng Jing Xiu about how she ended up in a conflict with that person. It stood for reason that Meng Jing Xiu’s injuries were already healed, otherwise under normal circumstances she was not a person to end up in a fight with other people.

Meng Jing Xiu eagerly spoke, “Senior Apprentice Brother Ning, here we found an Ancient Immortal Mansion, moreover this Immortal Mansion appears to be of a peerless expert, and many of the people have already gone in.”

“An Immortal Mansion of a peerless expert? How do you know?” Ning Cheng asked with some doubts.

Meng Jing Xiu quickly spoke, “There was an Array Formation outside the Immortal Mansion, but suddenly for some reason it fell apart. As such some of the Array Flags of the Array Formation were revealed. Do you know what those Array Flags were made of? The lowest quality among them was a Low Level Spiritual Grade Artefact, and they were even a few that were High Level Spiritual Grade Artefacts that were made into Array Flags. But an Essence Building Cultivator from the Feng Continent, was even able to grab a Best Quality Spiritual Grade Artefact that was made into an Array Flag.”

“Best Quality Spiritual Artefact?” Ning Cheng immediately repeated those words in shock.

“It definitely was a Best Quality Spiritual Artefact, moreover this was outside of the Immortal Mansion, also the doorway to the Immortal Mansion exudes an extremely rich Spiritual Qi, so it is obvious that the

inside of the Immortal Mansion would also have better things.” Meng Jing Xiu said as her face flushed red.

“Why did that person from a moment ago chase you?” Ning Cheng pointed in the direction that the Late Stage True Condensation Cultivator retreated in and asked.

Meng Jing Xiu quickly spoke, “Many of the True Condensation Cultivators formed teams, of at least three people, that person wanted to draw me in to form a team together with him. But I did not pay attention to him, moreover when that person tried to invite me, I really was not in the mood, and directly said, to go and piss on himself.....”

The following words Meng Jing Xiu really did not need to explain, as Ning Cheng already understood, and as such Meng Jing Xiu also did not need to speak the rest. If you don’t want to go then you could have directly said so, why speak such words? Moreover, such words that could easily offend someone. Moreover, saying those words in such a fierce way.

Seeing Meng Jing Xiu embarrassed, Ning Cheng spoke, “Let us also go and have a look, we have already been here for several days, so how much of the Axe Intent here were you able to comprehend?”

Meng Jing Xiu shook her head, as she took out several Spiritual Grasses and said, “There were many Spiritual Grasses inside, I was also able to find numerous Spiritual Grasses, including the Rainbow Light Grass that Cang Shuo was looking for, but as for the progress with Axe Intent, there simply was no progress in that regard.”

Chapter 148: Killing Intent Restriction

Meng Jing Xiu also did not speak anymore nonsense, as she immediately guided Ning Cheng towards the entrance of that Immortal Mansion, but at this moment there were almost 1,000-2,000 people gathered in front of it. This doorway to the Immortal Mansion had a small plaza in front of it, but even with so many people here, it still not appeared to be crowded.

“Junior Apprentice Sister Jing Xiu, I remember that there were much more number of people who entered this place, so how is it possible that there are only these many people here?” Ning Cheng did not think that there were too many people here, on the contrary he felt that there were far too fewer people here.

Meng Jing Xiu pointed towards the front of the temporary plaza and said, “Although this stone door is not obstructing the people, but unless a person does not have a certain strength, they would not be able to enter, it is similar to the hill that we entered back then, that was blocked by a layer of Killing Intent. But some of the people present here, who understood Array Formations, said that this is not a simple Killing Intent Barrier, but rather a Killing Intent Restriction. Relying on just one’s Imposing Manner would not be enough for a person to go through, moreover the time I have been here was simply too short, and the people who were able to go in all had high cultivations, moreover they all were those who had some understanding towards Restrictions and also some of the Cultivators even displayed some comprehension towards the Axe Intent.”

Ning Cheng nodded, although this stone door was not blocking people, but there was a much more powerful Killing Intent surrounding it compared to the hills they have been at. What Meng Jing Xiu had

said was right, this Killing Intent surrounding it was not formed at will unlike the hills, but rather according to certain rules and regulations laid down during the arrangement of the Array Formation.

If it was like this for a long time, then the Killing Intent would have already dissipated, moreover the Restriction here was damaged, otherwise for an ordinary Essence Building Cultivator, even if they formed a team of four people, they wouldn't be able to go in.

"As for the rest of the people, after probing it out and finding that even by forming teams they would not be able to go in, in the end they all left. Some of them went to other places, while some of them went into the depths of this Angry Axe Valley." Meng Jing Xiu said as she pointed to the far end in which this Angry Axe Valley extended.

"Let's go take a look." Ning Cheng said, as he already started walking towards this stone door in front of him, at this moment there were four True Condensation Cultivators collaborating to break this Killing Intent Restriction.

Seeing this Ning Cheng simply stood to one side, once these four people gave up, he would then come and try it himself.

These four people were Late Stage True Condensation Cultivators. After eating failure several times, one of them finally lost his patience and resorted to directly using his Magic Weapon to directly blow past it.

"Peng" When this person's Magic Weapon collided with the open stone door, it issued a muffled 'Peng' sound, but the Magic Weapon did not go through the open front door, instead it was rebounded by the Restriction on the front door, and with an even stronger force hit the chest of this cultivator. This cultivator who was hit by his own Magic Weapon tumbled through the air as he spouted out numerous mouthfuls of blood. The cultivators observing from both the sides immediately retreated on seeing what happened to that cultivator. Moreover, more than dozens of people silently departed the square after this scene.

When the three other companions of the cultivator who flew out tumbling saw his state, they also temporarily stepped aside from this stone door.

Just as these four people left the vicinity of the open stone door, Ning Cheng quickly stepped up directly in front of the door, while simultaneously took out his Golden Great Axe.

Some of the people recognized Ning Cheng, and immediately got out of his way. As to the many people who did not know Ning Cheng, they simply secretly shook their heads, wasn't a guy recently hit with his own Magic Weapon because of the rebound from the Killing Intent as he tried to force open the door injuring him severely. Moreover, this guy also dared to resort to his Magic Weapon to do the same. With this type of Killing Intent Restriction, even a receiving a severe injury would be considered as light.

Ning Cheng did not directly attack. He felt the open door in front of him with his Spiritual Consciousness, and immediately sensed an aspect of the Axe Intent in it. While at the same time he also felt that there was some kind of confinement. This Axe Intent seemed to be bound within the range of this door.

In only a short time, Ning Cheng was already clear, there truly was a Killing Intent Restriction placed here. But because this Killing Intent Restriction was placed many years ago, so its power was not at its

full 100%. If this Killing Intent Restriction had even 1/10th of its former power, then he was sure that nobody here would be able to pass through here.

“Get out of the way, I want to go in.” A gruff voice interrupted Ning Cheng’s thoughts.

Ning Cheng turned around and saw three Essence Building Cultivators, and the one who spoke was at Essence Building 5th Level, while his face was very ugly and ferocious looking, and had a sturdy demeanour. Behind him, there was a male and a female cultivator, the male cultivator had a slender frame, with a small white face almost similar to a gigolo, and had the cultivation of Essence Building 6th Level. While that female cultivator was wearing a red dress, and unexpectedly turned out to be an extremely attractive young girl, and similarly had the cultivation of Essence Building 6th Level.

“You can go in, but you will have to wait till I go in, moreover isn’t it always first come first serve.” Ning Cheng flatly said as he saw the three people.

He also stood in line, and only came up after the four people in front of him failed, and only then did he took his turn to come to try and open this restriction. At the moment he had not even started, so since it was already his turn, so why would he even give it to others?

The people nearby seemed to know the origins of these three people, and as a result they soon started to joke among themselves, “This fellow really acts recklessly, he even dares to compete with the people from the White Moon Sword Sect and the Twin Star Academy for an early entry.”

“That young girl should be the White Moon Sword Sect’s He Lian Gu Lan, right? Then beside her should definitely be the Twin Star Academy’s Wu Shu and Zuo Hong Xuan. If they really are those three people, then that person is really courting death.” Some of the nearby people echoed out.

Some of the people who immediately recognised Ning Cheng said while gloating, “Who will die and who will live, you’ll see in a bit, as the strength of the Twin Star Academy and the Red Heaven Academy are really similar.”

“What is the matter? Is this person’s background something great?”

.....

“Are you really looking to die? If so then let this father chop you up.....” That ugly and ferocious looking cultivator heard Ning Cheng’s words, and immediately flew into rage, he immediately raised his hands, while at the same time a copper gong appeared in his hands.

The red dress wearing girl frowned and said, “Hong Xuan, there is indeed the policy of first come first serve here, after he has tried, it would not be late for us to try again later. Moreover, we just arrived here, if this place was really easy to open, then many of the people would not have left this place.”

When that ugly and ferocious looking man heard the words of this young girl, the anger on his face was immediately replaced with gentleness in just a moment and he spoke, “Since Junior Apprentice Sister Gu Lan had said so, then I will listen to your words.”

Saying that, he immediately angrily called out to Ning Cheng, “It would be better if you moved quickly, we don’t want to waste a lot of time to wait on you.”

Ning Cheng simply did not bother with it and ignored him, as he spoke to Meng Jing Xiu, “Junior Apprentice Sister Meng Jing Xiu, we can go in.”

“Senior apprentice Brother Ning can you really open this?” Meng Jing Xiu asked with surprise.

Ning Cheng showed a faint smile and spoke, “Of course I can.”

Saying that, he lifted his hands as he grabbed one of the Array Flags, while also simultaneously raised the Golden Great Axe in his hand.

“Friends, please wait.....” An anxious voice immediately sounded out, which immediately made Ning Cheng’s hands stop.

“Do you have any business with me?” Ning Cheng looked over at this cultivator and asked, this cultivator already had the cultivation of Essence Building 7th Level.

When this cultivator came over, that ugly and ferocious looking cultivator, unconsciously stepped to one side. When he looked at Ning Cheng’s cultivation it appeared very vague, but when he looked at this cultivator he could say without a doubt that he was already at Essence Building 7th Level. Moreover, he himself was only at Essence Building 5th Level, and as such deferred by two levels in strength from that cultivator at Essence Building 7th Level.

In the Yi Xing Mainland, the strong were always respected, moreover this principle was applicable anywhere.

“I have seen you twice before, but you probably do not remember me. The first time was when we were mining together, but at that time I was busy mining myself, and did not have the time to come and greet you. The second time was in front of me when we were trying to seek out Spiritual Grasses on the hills, therefore I am already somewhat already familiar with you.” This Essence Building 7th Level Cultivation was very polite, and talked to Ning Cheng in kind words.

Ning Cheng nodded, the first few words that this man spoke were really polite. At the time he was mining, there was simply no time to greet anyone, moreover everyone disdained each other at that time and personal talk was simply useless between each other at that time. With regards to the former, he had killed four disciples from the Red Heaven Academy, including a cultivator at the Essence Building 7th Level. Moreover, he was also able to break open a passage for himself in the Killing Intent barrier surrounding the hill very easily, it seems that this person also certainly saw it.

Perhaps this person came here in wanting to take advantage of what he had seen in the past, as although the Killing Intent Restriction on this open door was damaged, but without understanding Axe Intent and Restrictions, even if that person was at Essence Building 9th Level, even they would not be able to go in.

The man had just finished, but did not wait for Ning Cheng to speak as he directly took out a Storage Bag as he handed it to Ning Cheng and said, “Here are some of the stones that I collected, why don’t you take a look at them my friend?”

Ning Cheng received the Storage Bag, which was filled with 1,000 High Grade Spirit Stones.

For an Essence Building Cultivator, 1,000 High Grade Spirit Stones, was not a small sum of wealth. But after Ning Cheng swept out at this Storage Bag with his Spiritual Sense, he simply returned that Storage Bag to this cultivator. He understood the meaning of the other party, they were both in the Angry Axe Valley, and for a thousand High Grade Spirit Stones, he wanted to enter an Ancient Immortal's Mansion, this kind of offer was simply too cheap. Besides this person had definitely mined in the Angry Axe Valley for a long time, so he should at least be having several hundreds of thousands of High Grade Spirit Stones on him.

With so many Spirits Stones on him, he only took out a paltry one thousand, for Ning Cheng to accept such a thing would really be a strange event. Moreover 1,000 High Grade Spirit Stones for Ning Cheng, simply would not serve any purpose.

Seeing this the man was somewhat surprised, but then Ning Cheng spoke in a light voice, "Here is an Ancient Immortal Mansion, even if you grab any of the Best Quality Spiritual Grade Artefacts here outside this Ancient Immortal Mansion, you would be easily able to get hundreds of thousands of High Grade Spirit Stones for it, so for you to come up with this kind of stuff, moreover to enter the Immortal Mansion, is simply too....."

This Essence Building Cultivator suddenly came to understand that Ning Cheng had also mined in that place, so giving a trivial 1,000 High Grade Spirit Stones to someone like him was really something not worth looking at.

Thinking till here, he put away that Storage Bag, and once again took out another Storage Bag, as he handed it over to Ning Cheng and said, "Here are the things, do you want to have a look?"

Ning Cheng received the Storage Bag and looked inside, there truly was many things inside, around 10,000 High Grade Spirit Stones, moreover there were even many Spiritual Grasses, the total value almost added up to about 30,000 High Grade Spirit Stones.

"If you can take out things more than double this value, then you can come in with us," Ning Cheng once again gave back the Storage Bag to this Essence Building Cultivator and said.

Since he was a cultivator in the Angry Axe Valley, Ning Cheng estimated that this really was a small exchange. Moreover, he had been in closed door cultivation for too long, as these people wandered about, who knows how many good things that these people collected? If he did not seize this chance to get some compensation for his own, then who knew when he would get such an opportunity? Besides, even if he asked an even higher price, after the people entered the Immortal Mansion, perhaps they would even gain more than ten times of the both the capital and interest combined.

This Essence Building Cultivator clenched his teeth, as he took out even more Spirit Stones and Spiritual Grasses as he handed them over to Ning Cheng.

This time Ning Cheng finally accepted, then he cupped his fists in front of him and spoke in a loud voice, "We are going to open the Killing Intent Restriction on this stone door, when the stone door is finally free of the restriction, then four people can go in at one time, at the moment there is still a spot left, if anyone wants to come in then please speak up."

This action from the Essence Building 7th Level Cultivator, made Ning Cheng actually think of a way to earn Spirit Stones and Spiritual Grasses in a fast manner. Because at the moment he really did not have

any Spirit Stones, moreover to breakthrough to the Essence Building Realm he had even borrowed 20,000 Spirit Stones from Yue Ying, and had still not returned them back to Yue Ying. After all he had a terrible rate of consumption for the Spirit Stones to supplement his cultivation, so he had to get these things from somewhere, right?

“This senior, I want to go in.” Another Essence Building Cultivator arrived, while he carried a bulging Storage Bag in his hands.

The Gate Of Good Fortune

Chapter 149: Expensive Admission Ticket

Ning Cheng glanced at the Storage Bag with his Spiritual Sense, although there were not many Spirit Stones in there, but it was filled to the brim with Spiritual Grasses, and most were not even low ranked ones, so he then put away the Storage Bag and said, “Good, you can take one of the spots.”

With these two Essence Building Cultivators coming at the beginning, a few of the cultivators present there who knew about Ning Cheng’s skill, one after another, immediately started coming forward, while also bringing out many things for Ning Cheng, all in order to enter the Ancient Immortal Mansion.

Many of the cultivators who did not know Ning Cheng, totally could not understand the scene happening in front of them, as they all kept thinking what the hell was going on? One person said that he can break this Killing Intent Restriction, so why the hell did so many people believe him? One must know that this was a ‘Killing Intent Restriction’ and not a ‘Killing Intent Barrier’, even if some of the Essence Building Cultivators teamed up, even they would not be able to break it? How could people be deceived with such a lie?

In just a short period of time, Ning Cheng received seven or eight Storage Bags, seeing that there were still people coming in from behind, Ning Cheng quickly said, “Wait wait, let me first open the Restriction on the stone door, and let the first batch of people go in.”

“That’s right, this should be done first.” Several of the cultivators who came first hurried up and echoed out, they were afraid that they would only be able to obtain less if they go in later.

But the red robed woman who was standing behind the ugly and ferocious looking cultivator suddenly came up to Ning Cheng and said, “You said before that you would go first, and now you get so many people to come in, should these people really jump the queue? Did you forget the words that you yourself spoke a few moments ago? If you really think that it’s easy to bully us, then do not blame us for making a move.”

While speaking till here, the expression of this young girl immediately turned ice cold.

Ning Cheng knew that if their side went all in, then that really would be wrong. He quickly held up his cupped fists as he hastily spoke, “Then I will ask this younger sister, how much time would you require to open this stone door?”

“Who is your younger sister, watch your mouth.” The red robed woman had still not answered, when the ugly and ferocious looking cultivator at Essence Building 5th Level once again came up to Ning Cheng and snapped.

The red robe wearing young female cultivator waved her hand, she immediately understood Ning Cheng's meaning, as she stared at Ning Cheng and spoke in a light voice, "For me, at most half a stick of incense is enough."

She knew that if she said that she required an hour of time, Ning Cheng would also probably say that he also required an hour of time.

The corners of Ning Cheng's mouth showed a faint smile, this young girl was simply a braggart and only liked to bluff. He had comprehended three different types of Axe Intent in the Angry Axe Valley. Moreover, his understanding towards Restrictions and Array Formations was also close to a Tier 3 Master, so he truly had the confidence to open the Killing Intent Restriction on this stone door. But for this young girl to say that she only needed the time for half an incense stick to burn, was definitely a bluff.

But he still shrugged and said, "Well, as long as I have the time of half an incense stick to burn, then during the time it takes for half an incense to burn, no matter what, I can open this stone door however many times I want. If I cannot open this even once, then I will give this position to younger sister."

The red robed wearing young girl flashed a smile, "Yes, you can attack first, while I wait here."

Saying that, she also threw an incense stick holder to one side. Then stretching out her hand, she placed an incense stick in it that she then ignited.

Aromatic smoke rose up from it in coils as it diffused into the surroundings, after the surrounding cultivators smelt this fragrance, their spirits immediately shot up. All the people who could judge the quality of goods, immediately understood that this incense that this young girl brought out was not a simple incense stick, but rather it was clear that it was a rather expensive incense stick.

She really was filthy rich, using such an expensive incense stick to measure the time.

But Ning Cheng did not care about it. As he stood in front of the stone door, he raised his hand and immediately shot out a dozens of Array Flags. When these Array Flags entirely disappeared into the surroundings of the door in front of him, Ning Cheng immediately chopped down with his great axe, sending out a Light Golden Great Axe Trace, splitting open the stone door's Restriction in a very inconspicuous place.

"Ka" A light subtle sound conveyed out, the people outside immediately felt that the Killing Intent Restriction in front of the stone door immediately stagnate, and immediately a rich Spiritual Qi hit their faces from within.

Ning Cheng then took a step forward, raising his hands to press the void in the middle of the Stone Door, he immediately turned back and said, "The first four people go in."

All the people were aware that a gap had opened up in this Killing Intent Restriction on the stone door. The four people who were already waiting for some time were all Essence Building Cultivators, and did not need to be reminded by Ning Cheng's words, as they immediately moved sideways and disappeared through the door.

The cultivator in the fifth place who had also handed over the Spirit Stones and Spiritual Grasses hesitated, but finally did not go in. He was afraid that he might violate the meaning of Ning Cheng's

words accidentally, and would be directly eliminated from his spot. In any case, he could still go in with the next batch.

But at this time all the cultivators near the front entrance were totally in shock at Ning Cheng's skill, just what kind of ability was this? Before some of the people had even formed a team, and every time that one of the teams managed to pass through, they all ended up having to struggle desperately before they were able to go in, so how could this Ning Cheng be so carefree in such a way? He only sent out a few dozen Array Flags, and then an Axe Chop to open it up, just how was this possible?

Even though there were some cultivators here who knew about Ning Cheng's ability, but even they could not believe what they saw. Although they thought that Ning Cheng would be able to go in, but it would have still costed him at least a few hands and feet.

Because of this even more people began thinking of collecting many Spiritual Grasses and Spirit Stones, so that they could enter this Ancient Immortal Mansion.

Similarly shocked was the red robe wearing young girl as she looked at Ning Cheng with an extreme shock in her eyes. She had never thought that even if they were able to break open the Killing Intent Restriction of this Immortal Mansion, moreover even if she herself was able to break it open, it would be absolutely impossible to do it as easily and as simple as it was done by Ning Cheng. Originally there was only disdain in her eyes towards him, but this time there were slight changes as she looked towards him.

After the four of them went inside, Ning Cheng once more loosened his hands, and once more resorted to his Golden Great Axe, then sending out another Axe Chop, he once again turned to the four other cultivators who paid him in Spirit Stones and spoke, "You can go in."

When these four people heard Ning Cheng's words, they with the maximum possible speed rushed through the middle of the opened stone door. Ning Cheng opened his palms, then lifted them up to take back the dozens of Array Flags that he had thrown out, and then immediately stood to one side, and he spoke to the red robe wearing young girl and said, "The following half of the incense stick is yours."

In any case at this time the incense stick that the red robed wearing young girl burnt was already a little less than a half.

On the surface Ning Cheng did not look like as if there was any change, but the fact was only known to himself, as he had consumed too much of his Spiritual Consciousness. When he had placed his hand on top of the stone door, he had to use it to resist the Killing Intent Restriction on the stone door.

"My friend, these are my Spirit Stones, next time please give me one of those places." A True Condensation 9th Level cultivator, seeing Ning Cheng easily allow eight cultivators to enter this Ancient Immortal Mansion, so he quickly took out a Storage Bag with both hands and offered it to Ning Cheng.

But Ning Cheng did not take the opposite party's Storage Bag, after he glanced at it with his Spiritual Consciousness, and spoke in a light voice, "To open this stone door, my consumption is not small. Therefore, to enter through this stone door you will have to bear the expense of at least 50,000 High Grade Spirit Stones, or Spiritual Grasses of the same value, otherwise it would only be a waste of time."

This Ancient Immortal Mansion's entrance had a Killing Intent Restriction placed on it, so once they entered inside this Ancient Immortal Mansion, it would really be strange if there were no additional

Array Formations or Restrictions inside. Ning Cheng was not in a hurry to go in, what he needed the most were Spirit Stones for his cultivation, moreover even for Alchemy he needed a lot of Spiritual Grasses, so it would be better if he first fished for these things. As for the things inside the Immortal Mansion. As long as there was a similar kind restriction placed on them, then he would be able to obtain it.

The surrounding cultivators sucked in a mouthful of cold air, who among the few people here could come up with so many High Grade Spirit Stones? Except for a few people who were able to find the Spirit Stone Mine, only a few core disciples of 7 or more Star Academy would be able to take such an opportunity. This admission ticket was a little too high, right?

This red robed young woman gave a nod, as she arrived in front of this stone door, and said to the two people with her, "I'll feel it first, and see how to open this stone door."

She believed that since Ning Cheng was able to open this stone door within the time it takes for half an incense stick to burn, then she certainly would not have any problems in doing so. Before she came here, she had also similarly heard that this stone door had a Killing Intent Restriction placed on it. The others may be worried about this Killing Intent Restriction, but she was not even worried about it for even half a moment. As a core disciple from the White Moon Sword Sect, her understanding about Sword Intent was something that could not be compared to that of an ordinary person, even in terms of her cultivation regarding Restrictions, she was also much stronger than an ordinary cultivator.

This red robed young girl closed her eyes as she stood in front of the stone door, all the people present there knew that she was looking for a gap in the Killing Intent Restriction present there.

Just as the time it takes for half an incense stick to burn almost passed by, she suddenly opened her eyes. She found that the time it took for her half of the incense stick to burn was simply too short for her, she figured that she would require ten times the amount of time than the time it took for half an incense stick to burn, before she could even do something. But because she had already boasted about it, there was simply no room for her to change it.

"Junior Apprentice Sister Gu Lan, how is it?" The ugly and fierce looking man hurriedly asked in an anxious voice, while his expression was as if he also cared very much about her.

Ning Cheng who was standing to one side could clearly see what was happening, after the red robed young woman opened her eyes, she frowned slightly, it was apparent that she could not find a way to break open this stone door. But that man with a small white face who looked like a gigolo was quite sly. At this time, he did not even speak a few words.

"Let's attack this place together." When the red robed young woman heard the words of that ugly and ferocious looking man, she suddenly pointed to a spot on the stone door and said.

When Ning Cheng looked at the spot she had pointed to, he laughed inwardly, this girl simply could not find a better location, but in order to not wanting to lose face, she simply pointed towards the spot on the stone door that he himself had used to break open twice.

"Junior Apprentice Sister Gu Lan, if all three of us attack together then I am afraid that the attacking power would simply be too big. It would be better if I alone among us try and attack that spot and see

what happens.” That man cultivator who looked like a gigolo, suddenly opened his mouth, and spoke with a very gentle tone.

When the ugly and ferocious looking man heard this gigolo looking male cultivator speak, he also hurriedly spoke, “Wu Shu is right, let us first try. Wu Shu, although your cultivation is a little higher than my own. But your True Essence is not as rich as my own, so let me be the person to try it out first.”

That gigolo looking male cultivator called Wu Shu, unexpectedly nodded and said, “All right, Brother Zuo Hong Xuan is a cultivator who likes to use brute force. Perhaps there may really be some miraculous effect.”

Saying that, he pulled himself to the side, along with that red robe wearing young woman called Gu Lan and stood to one side. Ning Cheng at the moment was laughing inwardly, this person called Zuo Hong Xuan simply not only sold himself, but also needed help to count his money.

When Zuo Hong Xuan saw the two of them believe in him, he became even more confident, as he directly resorted to his copper gong, and then banged it directly at the spot that the young girl had pointed to.

The copper gong had quite the Imposing Manner and although it emitted a very powerful sound out of the blue, but that attack did not even open half a crack on the vast stone door.

“Crash.....” But the next instant a sound similar to the one that was produced by the copper gong exploded out, some of the nearby cultivators, even had to cover up their own ears, as that sound was simply too terrible.

Almost the next instant the Crash sound emerged, with an extremely fast speed, even more faster than the original, approached towards Zuo Hong Xuan. Before when Zuo Hong Xuan pounded out with his copper gong, he did not have any formidable Killing Intent in it, but this attack that approached him was filled a formidable and boundless Killing Intent, as a result this attack directly crashed onto the chest of Zuo Hong Xuan. Moreover, this Killing Intent was even felt by the cultivators who were still a bit far away from him.

Zuo Hong Xuan did not even have the ability to resist such an attack for even half a moment, as he was immediately thrown out by this powerful counter attack by the shockwave that was similar to that of the copper gong.

“Puff.....” A bloody light could be seen, there was an extremely deep bloody mark on the chest of Zuo Hong Xuan that was created by the incomparably sharp edge of the copper gong, and the blood simply shot out like a fountain from it.

The young girl was simply shocked, as she hurried over to him. She lifted her hand and selecting several Pills, simultaneously poured them into Zuo Hong Xuan’s mouth.

One had to say that the efficiency of the Pills that this young girl had was really extremely astonishing, as in only a short time, Zuo Hong Xuan’s cut chest immediately stopped bleeding, and even Zuo Hong Xuan stood up albeit in a trembling manner.

But the next instant, the people never thought that, the first thing that Zuo Hong Xuan did when he stood up, was to point at Ning Cheng and unexpectedly speak in a hate filled voice, "You son of a bitch, you dare to deceive me, Zuo Hong Xuan."

[The Gate Of Good Fortune](#)

Chapter 150: The Strange Immortal Mansion

"Idiot." Ning Cheng was speechless as he shook his head, he could understand with a single glance that this guy liked that girl who was called Gu Lan, but his IQ really was worrying, moreover this young girl apparently did not know what she meant to him.

As for this fellow who had been deceived, Ning Cheng also understood his meaning. His Axe Chop had obviously opened a hole in the Restriction, and this Zuo Hong Xuan also had attacked at the same place that he had used the Axe Chop on, but the result was he was counter attacked and suffered injuries, moreover he almost had even lost his life. This guy could obviously would not blame this red robed girl, and as such could only speak out with the artistic flair of rare and beautiful flowers saying that he was the one who had deceived him.

But Ning Cheng was simply not interested in his criticisms, since this Zuo Hong Xuan said that he had deceived him, why couldn't he even think that the red robed woman was lying to him? With this kind of worryingly low IQ, combined with that gigolo looking male cultivator called Wu Shu and the red robed young woman, Ning Cheng really felt a bit sorry for this guy.

All the people around were speechless, as they silently shook their head. This fellow had obviously been clouded over by his companion, moreover he also did not seem like a person that liked to be reminded by a woman, and as such he ended up confusing the person to direct his hate.

Fortunately, this guy knew that after the injuries that he suffered, he simply was not Ning Cheng's opponent, so after calling out, he also found that his companion had also not echoed out with him, as such he could only feel dejected as he focussed on his own healing.

This red robed young woman also looked at Ning Cheng with a bit of prestige in her eyes. She had already taken up the time it takes for half an incense stick to burn, as such she did not dare to continue forcibly occupy this stone door. Although she was sure, that if she was given enough time, then she could definitely open the Restriction on this stone door.

Ning Cheng once again stood before the stone door, and although there were many cultivators who wanted to buy tickets from him, but only an extremely few people could come up with the 50,000 High Grade Spirit Stone price to purchase an admission ticket from him. Besides the eight individuals from before, only two more cultivators were able to come up with some things worth 50,000 High Grade Spirit Stones for Ning Cheng.

Ning Cheng received the things, and then once again said to the two cultivators who had given him the Spirit Stones, "This time the four of us will go inside. Once the door is opened, you can advance first. Me and my Junior Apprentice Sister will follow behind you."

Ning Cheng already had the experience of opening this stone door twice. As a result, it was much more easy for him to break open this stone door once again. The instant the stone door opened, the two cultivators who gave him the Spirit Stones quickly rushed into the stone door, but at this moment just as

Meng Jing Xiu was preparing to rush through the stone door, when suddenly a silhouette of a person flashed by her side. Clearly this person wanted to seize this opportunity to enter this Immortal Mansion.

The Imposing Manner of this man who was rushing towards the door was extremely powerful, moreover his speed was also very fast, although Meng Jing Xiu was unable to react, but subconsciously she immediately moved towards the side.

This person's shadow almost passed by Meng Jing Xiu's side, while at the same time arrived at the entrance of the stone door.

But at this moment Ning Cheng's response was very quick, it was as if he really did not see this rushing cultivator, and just waved his palms slightly.

"Peng....." A dull thumping sound was heard, as the cultivator who was rushing towards the door was directly pushed away as if was he round ball.

But unlike what the other cultivators expected, after he was pushed away, he did not fly far away, and only a went a few feet back, before he fell to the ground.

The surrounding cultivators then came to understand, that this person wanted to cut in.

"Junior Apprentice Sister Jing Xiu, you can go in." Ning Cheng called out to Meng Jing Xiu in a deep voice.

Meng Jing Xiu immediately came to understand. As she hurriedly rushed inside through the stone door, while Ning Cheng was the fourth one to go in. But before going in, without taking any extra trouble, he simply recalled the Array Flags that he had thrown out previously.

The Killing Intent Restriction on the stone door once again was restored back to its original state, at which point they discovered that that cultivator was thrown back several feet once again by the Killing Intent Restriction on the stone door, moreover there were even a few deep gashes on that cultivator along with many nearby to him, and only until this time, did they notice that the ground beneath them was completely cracked open, and was filled with blood dripping from them.

All the people sucked in cold air, this kind of counter attack from the Killing Intent Restriction was simply extraordinary, not only did it not kill just a single person, it had brought death to many. However most of the cultivators were excited by the Killing Intent that had exploded out in a counter attack, and even created an obvious scar with the Killing Intent. At this moment the cultivator who had tried to cut in was already sliced into several pieces, such a sight was simply unprecedented to them.

That red robed young woman called Gu Lan, when she looked at this cultivator who was thrown to the ground not far from her, even her eyes flashed with a trace of fear.

However, she quickly calmed herself, she did not even turn her head towards her injured male cultivator before saying, "Senior Apprentice Brother Wu, I will use my own Sword Intent to resist the Killing Intent here, you keep notice of the Killing Intent Restriction loosening up, once it appears that it has loosened up, I will also remind you right away, and you can immediately begin."

Wu Shu spoke in a very crisp voice, "OK, Junior Sister Apprentice Gu Lan can certainly open this Stone Door's Restriction."

“Although I would not be able to support you with my full strength, but to deal with this Restriction on the Stone Door, I can at least offer some strength.” When Zuo Hong Xuan heard that Wu Shu and Junior Apprentice Sister Gu Lan were going to collaborate together, he immediately became anxious in his heart, and as such quickly spoke up.

Wu Shu was just about to speak, when he heard the red robe wearing young girl nod and speak, “You also can help us, although Hong Xuan is injured, he can still follow along and attack at the Senior Apprentice Brother’s position.”

Hearing that he can also get involved with them, Zuo Hong Xuan slapped his chest indicating that it certainly would not be a problem.

This time there was no time limit on the red robed young girl, as a result she simply stood in front of this stone door for an entire half an hour, while constantly using her Sword Intent to probe the Killing Intent Restriction on the Stone Door.

After half an hour, the red robed wearing young girl’s expression was already pale as she pointed towards a particular spot and said once more, “Right there, attack.....”

Zuo Hong Xuan and Wu Shu almost simultaneously resorted to their magic weapons as they immediately exploded out at the spot pointed out by the red robed young girl, but then a fearful Axe Intent burst out, which completely engulfed the young girl’s Sword Intent, the powerful Axe Intent immediately set the three people flying, and did not even allow them even half a moment’s lag to let them escape.

Zuo Hong Xuan was already seriously injured, so this time when he was once again blasted at by such a powerful counter attack, he was immediately thrown to the ground, as he continually vomited out blood but simply could not get up again.

The red robed young girl was also not in much better shape, as she was also thrown back by this formidable Killing Intent, as a nearly foot-long bloody gash appeared diagonally on her chest, as it directly cut through her undergarments down to the bone.

The one with the lightest injuries was Wu Shu, unexpectedly because the main brunt of the attack was bored by the other two, as a result Wu Shu suffered only a scar on his arm, moreover it was not even a major wound.

Wu Shu basically did not look at anyone else, as he quickly arrived by the side of the red robed young woman. He immediately took out a healing pill and anxiously spoke, “Junior Apprentice Sister Gu Lan, take this Healing Pill. With this your injury should not matter right?”

Seeing Wu Shu’s extremely serious demeanour, the red robed young woman took the pill and said, “I’m fine, but this time I brought trouble for you.”

Seeing Wu Shu and Junior Apprentice Sister Gu Lan console and comfort each other, although Zuo Hong Xuan was lying on the ground, he also wanted to be comforted by Junior Apprentice Sister, it was a pity that the injury that he suffered this time was simply too serious.

“Never mind me, we can try and see again.” Wu Shu waited for the red robed young woman to bind her wound and spoke.

The eyes of the red robed young girl flickered with sadness, as she shook her head and said, "It would be needless for us to try again, this Killing Intent Restriction is not something that I can break open. If I could break open this Restriction, then at this moment all three of us would be inside the Immortal Mansion. If I had known that this would happened, I might as well....."

The red robed wearing young girl did not finish the rest of her words, but even then Wu Shu could still understand her meaning. If they had known about this then, they would have definitely offered some Spirit Stones to that damned guy, and could have bought the admission ticket, but now it was simply too late.

.....

After Ning Cheng and Meng Jing Xiu entered the Stone Door through the Killing Intent Restriction, they immediately felt an extremely rich Spiritual Qi, it almost made both of them want to go into closed door cultivation then and there.

The place the two of them were standing was in the middle of a circular room, although they looked all around the room with their eyes, but they could not find any passage.

"What happened to those people who came with us?" Meng Jing Xiu glanced all around the room only to find that there was no one besides them, even the two people who entered with them were nowhere to be seen.

Ning Cheng had also simultaneously discovered this issue, but his reaction speed was much faster, so much so that Meng Jing Xiu simply could not compare to, as he immediately pulled Meng Jing Xiu back and held her to his bosom. Meng Jing Xiu had not yet reacted, when she felt her whole body covered in a light, while at the same time she immediately started feeling a bit of dizziness.

Although Meng Jing Xiu was also a True Condensation Cultivator, moreover even for a True Condensation Cultivator, her comprehension ability was also very high. So in this kind of situation how could she not know that she and Ning Cheng were being transferred away by a Transfer Array? She immediately understood that when Ning Cheng hugged her, it was to prevent them from being separated from each other.

Because of the intense dizziness that was spreading throughout her, it made Meng Jing Xiu's consciousness somewhat fuzzy, even Ning Cheng could only hold onto a shred of his consciousness, before this Space Transfer Array sent them away.

"Bang" Ning Cheng felt as is his entire body go loose in an instant, as a result he could not help but involuntarily fall down, as he appeared on top of a bulging blue rock.

Ning Cheng's body shook a few times, as he almost took a few steps forwards because of the inertia. Perhaps if he had not been aware of his position, then he might have already involuntarily taken a few steps forward.

At this moment, the place he was standing at only had a radius of less than one foot, but even with a person standing on this big rock, they simply would not be able to see the deep black chasm that was in front of them immediately.

Ning Cheng suddenly broke out in cold sweat, he knew that the place that he appeared, if he had taken even one step forward in any direction, he would have fallen into the endlessly deep black chasm that was in front of them.

Not only the black chasm was endlessly deep but even when using his Spiritual Consciousness to his maximum he still could not sweep out till the end, moreover there was even a gloomy Killing Intent emanating from it. Because of this Killing Intent, Ning Cheng felt that once he fell into this chasm, he would certainly die, moreover even his bones would not be left behind.

Ning Cheng subconsciously shivered as he thought, what the hell was this place? It resembled the description of the netherworld hell that he had read off, is this Ancient Immortal Mansion really such gloomy place? In this terrible place, if he had not hugged Meng Jing Xiu, then with Meng Jing Xiu's strength, if she were to be sent to a place like this, then she would have definitely ended up dead. Once she arrived here she really would not have been able to stabilize herself.

He once again swept out with his Spiritual Consciousness but found that his Spiritual Consciousness could only come out with great difficulty, moreover he could only sweep out to a certain extent, and no matter what he did he could not extend it any farther than that. In his sweep with his Spiritual Consciousness' range, all he found was an empty dark chasm. Not only that, from the depths of the chasm, there seemed to be a suction force pulling on them.

At this time Meng Jing Xiu finally came around, as she took in the situation around her, she asked in a trembling way, "Senior Apprentice Brother Ning, where did we end up transferred to, how could it be so fearful?"

Ning Cheng had already calmed himself down, it seems that whoever arranged this place wanted the people who entered to die, well regardless of it being so troublesome, for them to be transferred here, there should have been a special reason. He spoke as he held onto the hands of Meng Jing Xiu, "Junior Apprentice Sister Jing Xiu, with your cultivation level, you would not be able to do anything in this place. Either you can wait for me here or I carry you on my back, moreover whatever the choice, you still would have to be extremely careful here."

Meng Jing Xiu had already calmed her down, and even her expression turned gentle as she spoke, "I know, Senior Apprentice Brother Ning."

Ning Cheng, displaying extreme skill, placed Meng Jing Xiu on his back, and at the same time secured Meng Jing Xiu to him with a strap to keep her fixed in place.

Seeing with how much skill Ning Cheng was operating in, Meng Jing Xiu suddenly asked, "Senior Apprentice Brother Ning, do you often carry people on your back?"
