#### Chapter 151: Instant Rise in Spiritual Consciousness

Ning Cheng suddenly looked at Meng Jing Xiu in a very strange manner as he thought of how this thing was related, but he still gave an 'En' sound and replied, "I often carry people on my back, counting you, it would be the fifth person for me to carry on my back."

When Meng Jing Xiu asked about this matter, Ning Cheng was once again reminded of Ning Ruo Lan, he had carried her on his back innumerable times, now he simply was at a loss.

But a pale and weak looking ray of light suddenly interrupted Ning Cheng's thoughts, this weak ray of light swept towards the side of Ning Cheng. But this weak ray of light gave Ning Cheng a sense of extreme danger, Ning Cheng did not think of anything else, and immediately started to descend.

Because Ning Cheng suddenly started to descend without any warning, Meng Jing Xiu involuntarily jerked her head to the side, directly looking at the endless Killing Intent emanating from the endlessly deep chasm. If she was an ordinary cultivator, then she would have already screamed and fainted on the spot. Meng Jing Xiu's face immediately turned pale, she knew that once she fell into that black hole of a chasm, then it was certain death for her.

At this point Ning Cheng's feet landed on a stone brick that was not larger than a foot wide, while his posture was ramrod straight while the stone brick made an angle of 45 degrees with the slope. But even though his feet were on the stone brick, it was as if he had stuck his feet into it, preventing him from falling into the deep ravine.

Ning Cheng had just jumped down, when that light ray just grazed past Ning Cheng's nose, it even cut a few strands of Ning Cheng's hair as they danced by him in the wind.

When this ray of light finally went past, Ning Cheng was once again standing atop the brick, but this time his forehead was covered with tiny beads of sweat.

"Senior Apprentice Brother Ning, that ray of light seemed to have been formed from a trace of Killing Intent....." Meng Jing Xiu spoke with a small voice in Ning Cheng's ear.

Ning Cheng also spoke in a sinking voice, "Just now the Killing Intent present here had formed into an Axe Trace, I think that this is something that came from the black hole like deep valley, I did not think that we had to take precautions against the Axe Traces formed from the Killing Intent. It seems that wanting to leave from this place will be very difficult."

There was still a sentence that Ning Cheng did not speak. Just now that single Axe Trace formed from Killing Intent had taken the form of a weak ray of light formed out of Killing Intent. Once he met this kind of an Axe Trace formed from the Killing Intent but without the form of the ray of light formed from the Killing Intent, then it would really be difficult for him to dodge.

"Senior Apprentice Brother Ning, I believe that even the heavens will never bar one's way, looking here this place is certainly made artificially. There definitely must be a way for a person to come out of this artificial arrangement, otherwise it would absolutely be impossible for that exceptional person to get

out. If the way out for that person was really cut out, then there really would not be this green brick for us to stop and rest.” Meng Jing Xiu consoled Ning Cheng.

Ning Cheng shook his head and said, “Here not all the things are completely man made, like these green bricks below our feet. Perhaps these are a part of a large Array Formation that was arranged out here, but as for the Killing Intent that is coming from the depths of the chasm, maybe it is something that had already existed here since before. I doubt that this person had built his Immortal Mansion here, as this chasm seems to be only a bottomless black hole.”

“Just what kind of use does this chasm even have?” Meng Jing Xiu had almost forgotten the situation that she and Ning Cheng were in.

“You can use it to cultivate Killing Intent, and it would even be more effective than trying to cultivate Killing Intent outside, but my experience is limited, as such I have yet to figure out what other uses are there for this chasm.” Ning Cheng said, as he looked at this chasm, he felt that cultivating one’s Killing Intent in this place would give the best result.

Just as Ning Cheng was speaking. Several Axe Traces condensed from Killing Intent swept towards them, moreover among them there were even one or two that did not form any rays of light.

Fortunately, Ning Cheng was extremely cautious. And as such he was able to evade these rays of Axe Traces.

Meng Jing Xiu who was strapped to Ning Cheng’s back was already very clear, that the things here were not as simple as she had made it out to be. She suddenly said, “Big Brother Ning, if you put me down, will you be able to leave this place?”

Ning Cheng laughed, “Junior Apprentice Sister Jing Xiu, you simply think too much. I am a person who will never abandon my own friends, much less a junior sister from the Academy where I am a Senior Apprentice Brother. If you want to go out, then everybody will go out together, if you cannot go out, then I will also stay together with you here. Besides, this place is filled with Axe Shadows formed with Killing Intent, even if we wanted to leave, just where can we go from here?”

Meng Jing Xiu was silent, she suddenly found that she was the one who did not understand Ning Cheng the most.

Ning Cheng also did not speak again, as he continued to stretch out his Spiritual Consciousness, and tried to resist the gloomy Killing Intent coming from within the depths of this chasm, moreover he also had to be prepared and was always on the lookout in the surroundings for the Axe Traces made from Killing Intent.

The two people finally turned silent, Meng Jing Xiu was silent because she was thinking of some other things, while Ning Cheng was silent because he was putting his entire mind at dealing with those Axe Traces condensed from Killing Intent which did not have any tell-tale signs.

After an unknown amount of time, Meng Jing Xiu once again opened her mouth and suddenly said, “Senior Apprentice Brother Ning, what would happen if we can’t get out?”

Ning Cheng was silent for a good long while and then replied, “At the moment I am not sure if we would be able to get out or not, but until the last moment, I will never give up.”

Meng Jing Xiu made an 'en' sound, and asked again, "Senior Apprentice Brother Ning, you said that you had carried five people on your back, were all of them girls?"

"That is true." Ning Cheng truthfully answered.

"Are they all your friends?" Meng Jing Xiu once again asked.

Ning Cheng said after a moment of thought, "Accurately speaking two of them cannot be regarded as my friends, and the remaining three are my friends, moreover you also know two of them."

"Who are they?" Meng Jing Xiu seemed to be insistent on questioning, as if she had repressed those question to the back of her mind for a long time.

"They are Yue Ying and Ji Luo Fei, you should have already known about them, other than them there was a little nun by the name of An Yi, a lovely and cute girl." Just as Ning Cheng was reminded of An Yi, his mind turned into a blank sheet of paper, he did not know what had become of An Yi now.

"Then who among those are not considered as your friend?"

Ning Cheng then immediately remembered Ning Ruo Lan and Ji Luo Fei, and his heart immediately started missing them, but he still casually replied, "They are my sister Ning Ruo Lan and my fiancée Ji Luo Fei, they are my family."

If one must say who were his closest family, then Ning Cheng could easily say that they were Ning Ruo Lan and Ji Luo Fei. As long as he could get out of this place, then he could go see Ji Luo Fei, but as for Ruo Lan, there was a possibility that he may never be able to see her again.

Hearing Ning Cheng mention his younger sister and fiancée, the emotions between them seemed to have some fluctuations. Meng Jing Xiu was tactful and did not continue to ask more questions, and started thinking of her own affairs.

"Yi!!....."

After a long silence, Ning Cheng suddenly gave out a surprised sound.

"What happened, Senior Apprentice Brother Ning?" Meng Jing Xiu quickly asked.

Ning Cheng was pleasantly surprised and said, "I understand, here not only one can comprehend the Axe Intent, this place can also be used to cultivate the Axe Intent, moreover it can also be helpful in cultivating one's Spiritual Consciousness, unexpectedly this world actually has such a good place."

Thinking of Meng Jing Xiu's cultivation, Ning Cheng once again said, "My Spiritual Consciousness has been in constant use, but even though my Spiritual Consciousness is getting exhausted, but I am still able to continue extending my Spiritual Consciousness. Moreover, there is a special kind of aura here, after your Spiritual Consciousness is extended to a certain extent, the aura here will actively take the initiative to nourish one's Spiritual Consciousness. In other words, it will allow you to continuously cultivate one's Spiritual Consciousness, I'm sure that my own Spiritual Consciousness has already grown a lot."

After such a long time, Ning Cheng felt his Spiritual Consciousness has definitely grown a lot, if felt that if he cultivated here for a long term, then wouldn't his Spiritual Consciousness become so strong that it

could even go against the heavens? Here this place really prevented Spiritual Consciousness to extend to a farther place, but initially he had stopped trying to extend his Spiritual Consciousness in this place, if he could extend his own Spiritual Consciousness to stretch farther, then wouldn't it not mean that his Spiritual Consciousness had increased?

Meng Jing Xiu quickly put aside her messy ideas, and learning from Ning Cheng quickly extended out her own Spiritual Sense. Sure enough, she also felt that there was a gentle aura that was nourishing her Spiritual Sense.

"This kind of aura that nourishes the Spiritual Consciousness, also contains a hint of Killing Intent, it should be a cultivator who specialized in using Spiritual Consciousness to attack, who had ended up finding this place, and used it to cultivate his Spiritual Consciousness. Junior Apprentice Sister Jing Xiu, you cultivate your own Spiritual Sense, I will cultivate my Spiritual Consciousness. If my Spiritual Consciousness can finally extend to a farther distance, then it is possible that we can even find a place to exit from." Ning Cheng spoke out his own viewpoint.

Meng Jing Xiu did not wait for the reminder from Ning Cheng and immediately extended her Spiritual Sense, and started to cultivate. Meng Jing Xiu was not a naive cultivator, of course, she knew of the powerful benefits of Spiritual Consciousness.

Time slowly passed by as Ning Cheng and Meng Jing Xiu slowly cultivated, Ning Cheng continued to avoid some of the Axe Trace formed from Killing Intent while also constantly trying to extend the scope of his Spiritual Consciousness.

After a long time, Ning Cheng's Spiritual Consciousness suddenly touched upon an invisible barrier.

"Ka" A sound of breaking was transmitted from Ning Cheng's Sea of Consciousness, Ning Cheng's Spiritual Consciousness felt as if it suddenly broke through this barrier, and extended out to a whole new world.

A similar green bricked platform appeared in the middle of Ning Cheng's Spiritual Consciousness, Ning Cheng immediately became pleased in his heart, and hurriedly spoke, "I found the nice place to stop for some rest, we'll stay there for a while."

Ning Cheng did not wait for Meng Jing Xiu to reply, and immediately took out a Flying Sword and immediately started flying on it towards the green brick platform that he had seen a moment ago.

A powerful suction force created from the Killing Intent present there almost pulled Ning Cheng along with the Flying Sword into the depths of the valley. Fortunately, Ning Cheng's Spiritual Consciousness could not be compared to before, as it had advanced by more than one grade. Under the influence of his True Essence and the superimposition of his Spiritual Consciousness, the Flying Sword quickly got rid of this powerful suction force, and in just a twinkling of an eye arrived at that place.

Ning Cheng, at this moment, was standing on the newly discovered platform, and once more found out that his Spiritual Consciousness was prevented from extending far, this made Ning Cheng more and more affirmative, that this place was definitely to purify and cultivate one's Spiritual Consciousness.

Over the past three days, Ning Cheng did not know how many times he had encountered such a brick platform, but he affirmed that once he left this place, his Spiritual Consciousness would once again double in strength.

His Spiritual Consciousness was already strong, then if it doubled once again, then just how powerful would it be?

Ning Cheng suddenly felt looking forward to clashing with that the gloomy Killing Intent in the chasm all around them, his Spiritual Consciousness was strong, but it did not mean that his real strength was also strong, what he needed at this moment most was real strength.

When Ning Cheng once again dropped atop a green square platform, that Axe Trace formed from the Killing Intent once again swept towards them. This kind of Axe Trace formed from the Killing Intent, Ning Cheng had already got accustomed to it, as in the past several days, he simply did not know how many times he had experienced this kind of Axe Trace formed from the Killing Intent, moreover although these swept towards him several times but he only received minor injuries.

But Ning Cheng soon found that there was something different, this time this particular Axe Trace formed from Killing Intent and the Axe Trace formed from the Killing Intent from earlier were completely different, this Axe Trace formed from the Killing Intent did not just brush past him like the previous times, but rather it seemed to have directly locked onto him. Ning Cheng had clearly avoided this Axe Trace formed from the Killing Intent, but that Killing Intent inside it seemed to have a will of its own as it actually circled back in an instant, and brushed past Ning Cheng's waist, leaving behind a wound that was not light.

Ning Cheng's True Essence was in constant circulation in his body, so when the wound suddenly broke open, the blood that was already rapidly circulating throughout his body instantly sputtered out. Ning Cheng did not know if he was actually hurt or not, as he stood there blankly on top of the brick platform, as if he was thinking of an extremely important affair.

#### **Chapter 152: Taking Care Of The Abandoned Soul Essence**

Meng Jing Xiu who was on Ning Cheng's back quickly stopped the bleeding wound, while simultaneously taking out a Spiritual Grass, crushing it and spreading it atop the wound evenly.

"I understand." Ning Cheng said as if he suddenly came to realize something, and started muttering to himself.

"What did you understand?" Meng Jing Xiu subconsciously asked a question.

Ning Cheng suddenly laughed and spoke, "The Killing Intent here is controlled, as long as your Spiritual Consciousness is formidable enough, then even its movement would be flexible enough. This place originally was for the cultivation of one's Spiritual Consciousness, in addition to gaining enlightenment on the Spiritual Consciousness attacks, there is also such a benefit."

He at once sent out three Axe Chops filled with Killing Intent of the Angry Axe, finally he came to the realisation that he could control their movements to a certain extent, which meant that even in the face of a more powerful opponent, he would still have some leeway to swivel about. If he really could

achieve this, then wouldn't his strength once again increase by more than double? Perhaps this increase might even be several folds.

"Moreover I also came to know about another thing." Ning Cheng suddenly remembered the Lan Yi Country's Imperial Jade Seal, he finally was able to figure out a way to refine the Imperial Jade Seal. The Restriction placed on the Imperial Jade Seal was truly of a higher level, a cultivator with a poor cultivation simply should not think of trying to refine it, but now that he was able to comprehend the Axe Type Killing Intent, then once he used it to refine the Imperial Jade Seal, then wouldn't he not succeed?

"What's the matter?" Meng Jing Xiu asked again.

This time Ning Cheng did not answer her, but simply gave a chuckle and said, "We can go out now."

Here he had finally comprehended how to control the Killing Intent, as such he could now freely fly over this chasm, moreover those Axe Traces materialised from the Killing Intent that came out towards them at random times simply had now lost their effect on him.

Indeed, Meng Jing Xiu discovered that Ning Cheng speed had increased several folds than before, and in just a short period of time, Ning Cheng finally landed on the ground. When Meng Jing Xiu turned her head to look back, she found those green brick platforms along with the rays of Axe Traces materialised from Killing Intent, all of them disappeared without a single trace as if they never existed in the first place. Moreover, the spot that they were standing in seemed to a levelled field, and although the Spiritual Qi surrounding them was rich, it was still a far cry from the feeling that they got when they had just entered the through the stone door.

"Did we really come out?" Meng Jing Xiu could not bear it in her heart and called out it a pleasantly surprised manner.

Ning Cheng put Meng Jing Xiu down and said, "If I have not guessed wrong, then this place here is the real remains of the Ancient Immortal Mansion, if you look around you will come to know....."

Meng Jing Xiu, without needing to be reminded by Ning Cheng, had already glanced around. At present there was a Spiritual Grass garden that was neither big nor small in front of them that was built around a small wooden house that was constructed from a sort of wood that they couldn't recognize.

"I can even see a stub of a Rank 7 Spiritual Grass....." Meng Jing Xiu called out in surprise.

Ning Cheng sighed and spoke, "There is not only a single Rank 7 Spiritual Grasses here, but there still are many more Rank 7 and above Spiritual Grasses in this place. But it's a pity that they all are dead....."

It was then that Meng Jing Xiu discovered that the Rank 7 Spiritual Grass that she had discovered had already withered, she immediately took a few steps forward and arrived next to the Rank 7 Spiritual Grass, but found that this stub of Rank 7 Spiritual Grass was just as Ning Cheng had said, it had long lost all of its Spiritual Nature.

"What's going on?" Meng Jing Xiu turned around and subconsciously asked a question.

Ning Cheng spoke in a dejected tone, "That's because there is a shortage of Spiritual Qi here. All the Spiritual Qi had already been long since absorbed by the Spiritual Grasses here. Moreover, High Ranked

Spiritual Grasses require enormous amounts of Spiritual Qi, especially if they had just withered away, just so that they could sprout again. I don't know how many years of abandonment this place had experienced, but the Spiritual Grasses simply withered one after another. Finally, as the Spiritual Qi here got thinner and thinner, the High Ranked Spiritual Grasses were the first ones that started to wither, to the point that they would not be able to germinate again no matter what was done. If we had come at a later point of time, then there is a good chance that even the Level 6 Spiritual Grasses here would not be left."

Meng Jing Xiu also sighed, although in the Yi Xing Mainland, some Spiritual Grasses can grow for tens of thousands of years, but they can only do so under a particular environment. Moreover, the surroundings could not have any other kind of Spiritual Grasses, if the Spiritual Grasses here grew for tens of thousands of years, and they were even surrounded by other Spiritual Grasses that also grew for tens of thousands of years, this place would have definitely been a place extremely rich in Spiritual Essence.

"Although we entered this ancient ruins much later, but it seems that we are the first to reach this place." Ning Cheng looked around the abandoned and empty place, and spoke in a slightly contented manner. When they finally arrived, the end result was that they were the first to arrive at this Immortal Mansion.

Meng Jing Xiu said joyfully, "Senior Apprentice Brother Ning, let us hurry up and collect the Spiritual Grasses."

Ning Cheng shook his head and spoke, "Since this is the Immortal Mansion, then it definitely contains some good things. Let us first go into the log cabin, and afterwards we can come and collect the Spiritual Grasses here."

.....

Meng Jing Xiu also followed Ning Cheng and entered the wooden cabin. The inside of the wooden cabin was very spacious, but it only had a wooden table in the middle of it.

On the wooden table there were two rings, other than those, there were nothing else inside.

"These are two Storage Rings....." Meng Jing Xiu spoke in a surprised way.

Other than a few core disciples of some large Academies, Storage Rings were simply a luxury for Ning Cheng and Meng Jing Xiu, the attraction for them was simply too big.

Ning Cheng used his Spiritual Consciousness to sweep at those two rings, and confirmed that they indeed were two Storage Rings.

Meng Jing Xiu did not reach out towards it with her hands. But rather looked at Ning Cheng. To her, the one who called the shots between them was Ning Cheng.

Ning Cheng was staring at those two Storage Rings, and suddenly felt a bit awkward in his heart. Moreover, one of these Storage Rings gave a somewhat familiar feeling to him, but this kind of familiar feeling was difficult to state out clearly.

After Ning Cheng looked at those rings for quite a while, suddenly he grabbed one of them with his hand. And instantly a faintly discernible yet obscure aura directly seeped into the middle of Ning Cheng's Zifu, this kind of sensation, Ning Cheng felt it for the first time.

His Meridians were remoulded by the Mysterious Yellow Origin, as such this kind of faintly discernible aura, was not something that could fool his senses. He immediately realized that this aura was not a good thing, Ning Cheng subconsciously made the Star River to immediately swallow this aura.

In fact, even without the instructions from Ning Cheng, the Star River in his Zifu was already eager to have a go at it, it was as if this Star River seemed to have sensed that the flavour of this aura was something very tempting.

Now that it had got permission from Ning Cheng, the Star River suddenly shot out a strand of steaming hot Qi from inside his Zifu, immediately trying to swallow up that vague aura.

That vague aura was like a person with their butts on fire, as if it had received an electric shock, it immediately tried to escape from Ning Cheng's Zifu. But even with such a speed, the Star River still gobbled up 99% of this vague aura.

"You unexpectedly have such a terrible fire, just who in the world are you....."

A hoarse voice filled with horror resounded throughout the cabin, as a faint shadow of a person appeared in the middle of the log cabin.

"This is a Soul Essence, it almost took possession ....." Meng Jing Xiu's face immediately turned pale, as she subconsciously took several steps back. Her cultivation was not high, but that did not mean that she did not understand what possession was. Just a moment ago it had tried to possess one of them, but for some unknown reason, the possession was not successful.

But at this moment Ning Cheng was extremely calm, this Soul Essence had rushed into his Zifu for hiding, and then wanted to seek an opportunity to seize his body, but what it had not actually thought of was that when this Soul Essence entered his Zifu, it would be immediately be discovered by him.

At this point this Soul Essence was almost 99% swallowed by the Star River, as such he could easily kill this Soul Essence whenever he wanted to, because of which he was not much worried, and just asked in a slow and calm voice, "Did you just wanted to seize my body?"

"What are you looking at, this father will seize your body just by looking at you. Obediently let this father seize your body, it would only be your good fortune." Although this Soul Essence was extremely weak, but the way it talked was very arrogant.

Ning Cheng simply pointed to one of the rings on the table and asked in a cold voice, "Where is the owner of this ring?"

He already knew who this ring belonged to, the aura in this ring and the trace of aura that he had felt from the mirror that he had obtained previously was exactly the same. In other words, this ring and that mirror should have the same owner.

Since this ring was here, then where did its master go? At present, this weak and thin looking Soul Essence was the biggest suspect.

“Haha, Han Xian, that slut, she was raped and killed by this father.....” This Soul Essence was still arrogant as he shouted out, but this time without any hesitation Ning Cheng shot out a lump of flame towards him.

The Soul Essence uttered a miserable and pitiful cry, as he cursed at Ning Cheng while still being accosted by the flames.

Ning Cheng suddenly felt that something was not right, as he suddenly took back the flames.

As Ning Cheng took back the flames, the Soul Essence subconsciously asked, “Why don’t you continue and burn me?”

Hearing these words, Ning Cheng immediately felt a shiver run down his spine, this Soul Essence a moment ago was not weakened under his flame, on the contrary it was actually being strengthened. It seemed that for this Soul Essence, his true fire of Essence Building Realm was not a killing artefact, but rather it turned into a tonic that nourished him, if he hadn’t found it early on, then after the other party was unknowingly nourished by him, then perhaps he might have been able to kill him and Meng Jing Xiu. The Star River would be able to cope with this Soul Essence, but only if it entered his Zifu, but that did not mean that the Soul Essence could not deal with him with its freedom.

Hearing the other party’s subconscious words, Ning Cheng affirmed that his guess was really correct. Even if he had many questions, he did not dare to continue to ask, immediately a strong force from the Star River in his Zifu immediately rushed out, as he determined that he must kill this Soul Essence.

The Star River once again brought out a strand of terrible hot Qi, directly enveloping the Soul Essence completely inside it.

“You cannot kill me.....” This time the Soul Essence finally started to panic, Ning Cheng’s Essence Building True Fire although was hot but it was still a kind of nourishing tonic for it, but the Flame Qi from the Star River was actually a bane for him. He basically did not have the ability to resist it for even half a moment.

Regarding this Soul Essence’s begging for mercy, Ning Cheng was not soft hearted for even half a moment.

“This fellow is quite sly, I almost fell for his word.” After completely destroying this Soul Essence, Ning Cheng finally put away the Star River, as he spoke with a bit of lingering fear. From the other party’s single sentence, he could determine right away that he might have had a sort of crush on Han Xian, but because of his own infuriation’s at the beginning, it seems that he ended up being burned by his own flames from the inside.

“Who is Han Xian?” As that Soul Essence was completely destroyed by Ning Cheng, Meng Jing Xiu’s anxious mood finally calmed down.

“If I have not guessed it wrong, she should be the owner of this ring.” Ning Cheng said, as he picked up the other ring.

Meng Jing Xiu did not ask, as she believed everyone to have their own privacy.

The ring that Ning Cheng had obtained before, he gave it to Meng Jing Xiu as he spoke, "You can keep this ring, while I take the ring left behind by Han Xian, she and I have a bit of a connection."

Ning Cheng had managed to escape to the Immortal Mansion at the bottom of that river and had healed himself there, moreover he had even advanced to the Essence Building Realm there, as such he had a bit of goodwill towards Han Xian in his heart.

Meng Jing Xiu waved her hand, as she took out a ring hanging against her chest around her neck and said, "I do not want this ring, I already have my own ring, it's just that I did not dare to take it out."

Ning Cheng stared at the ring hanging from Meng Jing Xiu's neck against her chest, as he suddenly thought in his heart, why does each and every woman hide their ring in this place?

When Meng Jing Xiu saw Ning Cheng stare at her chest, she blushed, and quickly put the ring back inside against her chest.

Ning Cheng suddenly frowned, "Junior Apprentice Sister Jing Xiu, let's get out of here, someone is coming over."

When Ning Cheng and Meng Jing Xiu came out of the log cabin, two shadows of human figures who were confronting each other suddenly turned to stare at Ning Cheng and Meng Jing Xiu. From the surprise in their eyes one could tell what the two men were thinking, the two men did not believe that some people had managed to arrive at this place before them.

### [The Gate Of Good Fortune](#)

#### **Chapter 153: Genius Killer**

Meng Jing Xiu spoke to Ning Cheng in a low voice, "I know these two people, one of them is a genius from the Dragon and Phoenix 9 Star Academy, Cui Nie Ping, and the other is a genius from the Gui Yuan City, Gui Yu Tang. They were the first people to enter through the Killing Intent Restriction on the stone door."

"9 Star Academy?" Ning Cheng repeated the phrase in surprise. When he was still in the Cang Qin Province, he had read some notes on the 8 Star Academies in the Yi Xing Mainland, and now people from even the 9 Star Academy appeared before him.

Meng Jing Xiu gave an 'En' sound and continued, "Along with the 9 Star Academy, I heard that these two places, along with the Wu Nian Academy that Yue Ying entered, are the Le Continent's three major powers."

Ning Cheng then asked once again, "You say that this Gui Yuan City is also very great? Moreover, on the same level as a 9 Star Academy?"

"That I do not know, I only know about them because I heard the talks of the people around me when these two people broke through the Killing Intent Restriction placed on the stone door of the Immortal Mansion. I just heard that Gui Yuan City was not just an individual city, but rather the fact is that this Gui Yuan City is completely owned by the family clan with the surname Gui."

So that was the case, for a family clan to be on an equal footing with a 9 Star Academy, it seems that this family clan really was very remarkable. Ning Cheng then suddenly smiled and said, "This family clan

should be one of the largest family clan in the Yi Xing Mainland, however the last name is really lamentable.”

TL Note – That because the character Gui 归’s meaning is ‘to return/to go back’.

Meng Jing Xiu was stunned for a moment, but soon she understood the meaning of Ning Cheng, as she whispered again, “I heard people say that Cui Nie Ping and Gui Yu Tang are one of the ten most monstrous talents under the Profound Core Realm in the Le Continent, and as such they are the main focus of cultivation for their respective backers.”

“But if the point is just cultivation then why don’t they stay in their respective Academy and Clan to cultivate like Junior Apprentice Sister Danqin? Why would they come to the Angry Axe Valley?” Ning Cheng subconsciously returned a question. All the core disciple of the Academies that he had met till now had given him the same impression, as their natural qualifications went against the heavens, the Academies would do everything to protect them, and not let them run around in the grassroots like this aimlessly.

Meng Jing Xiu shook her head, “That is not the case, I heard that in real large Academies, the disciples with more heaven defying qualifications are encouraged to go out and experience the world while simultaneously cultivating and training. However, the trump cards that they hold in their hands are many, and as such it is very difficult for them to fall. As for them staying indoors and cultivating, although they may be able to achieve a high cultivation, but then they would lack competitiveness which is a must for all cultivators.”

The two cultivators who were confronting each other moved towards Ning Cheng and Meng Jing Xiu, at this moment they were only ten meters away from Ning Cheng before they stopped.

The man on the left was wearing a brown cultivator’s robe, had slender eyebrows, with a clean and white face, with bright eyes, and had a peaceful looking expression on his face. But his whole body was giving off a cheetah-like dangerous aura. While the person on the right had a slightly shorter figure, and had a bronze like skin, with thick lips. But what was different in him from the person on his left, was that the aura in and around him was constantly exploding out in pulses which could even be seen externally, any person who looked at him would immediately realize that this person was simply not to be trifled with.

“Who are you? I believed that as long as ..... Why have I never seen you?” The brown robe wearing cultivator on the left with a white and clean face stared at Ning Cheng and asked with a deep tone.

While simultaneously staring at Ning Cheng and Meng Jing Xiu with suspicion in his eyes. Although he had seen Meng Jing Xiu a few days ago. Back at the time when he had broken the Killing Intent Restriction on the Stone Door this woman seemed to have been around that place. But this woman only had the cultivation of True Condensation 6th Level, so how could it be possible for her to come inside?

But he soon ignored Meng Jing Xiu and had only spared a glance at her, he could guess how Meng Jing Xiu came inside, it seemed that she had some kind of relationship with Ning Cheng. He was already using his Spiritual Consciousness to carefully observe Ning Cheng, but even after a long time he only got a vague feeling that Ning Cheng only had the cultivation of Early Stage Essence Building Realm.

He had a feeling that this Ning Cheng was the one that he had to watch out against. While at the same time he also understood what was the matter, although this place did not have Rank 7 Spiritual Grasses, but there were still many Rank 6 Spiritual Grasses. These things were of much use to him, of course, whether it was a single person or a few people in front of him, it did not represent the same thing.

"I have also not seen you, what is so strange about it, the Yi Xing Mainland is very big, does one know every genius there is out there?" Ning Cheng also spoke loudly.

The person in front of him had not finished his words, when he already understood the meaning of Ning Cheng's words. That is as long as they had skill, then he would have definitely known about them, or rather he should have known about them.

"I was given a nickname, called 'Waiting for you every day, who asked you to come' killer....."

Ning Cheng had not yet finished speaking, when the fair and clean looking cultivator, frowned and mumbled to himself, "'Waiting for you every day, who asked you to come' killer ..... Is it possible that this friend has been here for a few days, and every day was waiting here for other people to break through the Angry Axe Lotus Flower Pond just to prey on them?"

"Therefore, I just shortened it out to just 'Genius Killer'...." Ning Cheng just finished his words, when the man who was mumbling to himself also just finished.

Hearing that term 'Genius Killer', this fair and clean looking cultivator understood that Ning Cheng was making fun of them. Ning Cheng definitely knew that they were one of the ten monstrous genius cultivators from the Le Continent below the Profound Core Realm.

Angry Axe Lotus Flower Pond? Ning Cheng had not thought that the place that he had rushed through that was as scary as hell itself initially, could still have such an elegant sounding name?

The reason that Ning Cheng had spoken in such a manner was because he was already prepared for a fight. These two guys were at Essence Building 7th Level. So if he had to fight, then Ning Cheng was not afraid of them, but he was worried about Meng Jing Xiu.

"Ha Ha....." This fair and clean looking cultivator laughed and suddenly said, "Genius Killer, this friend's nickname is really good, I am Dragon and Phoenix 9 Star Academy's Cui Nie Ping."

With him speaking up, the other cultivator who was slightly shorter in stature who had a similar cultivation of Essence Building Realm came forward and spoke, "Le Continent's Gui Yuan City's Gui Yu Tang."

Ning Cheng had thought that when he had seen these two people, they had initially seemed to have a bit of confrontation between them, and were almost on the verge of fighting, but now when they saw a stranger that tried to meddle in their affairs, he thought that they would immediately begin fighting with them. But he had not thought that these two people not only had not begun fighting, but rather they immediately brought out their respective Sect's name, and moreover were also looking very serious.

"God Wind Academy's Ning Cheng." Ning Cheng was already well prepared for a fight, but since the other party did not have such an intention at the moment, he would also not continue to cause trouble.

“God Wind Academy?” Cui Nie Ping and Gui Yu Tang immediately spoke out simultaneously as they looked at each other, moreover there was even doubt in their looks, as they did not have the slightest impression of the God Wind Academy.

They immediately realized that this God Wind Academy must be a common Academy, as such Cui Nie Ping also no longer continued to inquire, and instead smiled as he spoke, “Since Brother Ning can cross the Angry Axe Lotus Flower Pond, and is also nicknamed as the Genius Killer, then presumably you are not a common person. This Cui is really ashamed of himself as a man, as I barely could scrape into the ranks of geniuses from the Le Continent, moreover I barely was able to force my way through the Angry Axe Lotus Flower Pond, thus this Cui wants to ask for advice from Brother Ning who is also renowned as the Genius Killer.”

Cui Nie Ping’s tone was very humble, which in fact implied his arrogance, it showed that he basically did not put that so called self-styled Genius Killer Ning Cheng in his eyes. But his cultivation seemed to be good, and was not pointing noses to satirize a challenge. But the words he spoke, although he himself issued the challenge, it was no different than a pointed nose challenge.

When he had issued the challenge, Ning Cheng’s face remained calm, while in his heart he slightly frowned. Cui Nie Ping finally raised his eyebrows, “Brother Ning, is it possible that you do not put Gui Yu Tang and me in your eyes, and as such disdain from having a spar with us?”

At the same time, the slightly short cultivator laughed and said, “If you want to challenge me, then first try and defeat the first hurdle called Cui Nie Ping, otherwise I have no interest to spar against losers.”

Ning Cheng did not think that these two guys would not put the Spiritual Grasses in front of them in their eyes, not to mention even try to grab the Spiritual Grasses in their path, but rather unexpectedly wanted to spar with him, without even asking him about the things in the wooden cabin behind them. Associating this incident with the purple robe wearing young girl with a veil on her face who was from the Wu Nian Academy, he silently wondered in his heart, are all the disciples from the large academies extremely rich? So rich that even with Rank 6 Spiritual Grasses in front of them, and the good things supposedly within the Immortal Mansion, were not something would faze them?

This Cui Nie Peng and Gui Yu Tang may not care about the Spiritual Grasses, but that did not mean that Ning Cheng did not care about it.

As Ning Cheng thought till here, he cupped his fists as he spoke, “Since Brother Cui wants to challenge me, then I would certainly not refuse. However, I am a person who has not yet seen the world, unlike Brother Cui and Brother Gui who come from large Sects. Here there are many Spiritual Grasses that Brother Cui and Brother Gui do not care about, as such I actually do not want us to fight here, which would end up destroying these Spiritual Grasses.”

Saying that, Ning Cheng basically did not wait for Cui Nie Ping and Gui Yu Tang to answer as he directly turned to Meng Jing Xiu and said, “Junior Apprentice Sister Jing Xiu, these two talented individuals despise these Spiritual Grasses, in order to avoid being destroyed by our spar, we will have to hurry up and first go and dig them all up.”

Meng Jing Xiu laughed inwardly, she with a cry of acknowledgement, rushed into the Spiritual Grass Garden and began to dig out the Spiritual Grasses. Ning Cheng also rushed past, but still did not forget

to turn his head towards Cui Nie Ping and he spoke, "Brother Cui, please wait for me for a short while, once I get done with these Spiritual Grasses, I will right away come to you to exchange some pointers."

Cui Nie Ping already was looking blankly at the already steadily upturning garden as he watched Ning Cheng and Meng Jing Xiu wantonly dig out the Spiritual Grasses, as he mumbled to himself, who said that they did not care about these Spiritual Grasses? Rank 4 and above Spiritual Grasses, even in sect comparable to a 9 Star Academy, is also a good thing, how can there be any reason for them to be not concerned about it?

Of course, since they were disciples of large Academies and Sects so the amount of resources provided to them was certainly quite large when compared to other disciples from other Academies, as such they had proposed a competition among them. If they won, then they would obviously receive more of the Spiritual Grasses, while the loser would receive less or almost no Spiritual Grasses from here. But they hadn't even started competing, when these people had already started to loot the Spiritual Grasses here, this Ning Cheng was simply too straightforward and petty, right?

Gui Yu Tang also almost ran behind Ning Cheng into the Medicine Garden as he spoke, "Brother Cui is from the 9 Star Academy, so of course he wouldn't care about these Spiritual Grasses here, but I need to find my own resources to cultivate, as such these things here have a great utility for me."

As he spoke, he already was simultaneously digging out the Spiritual Grasses.

Cui Nie Ping also immediately rushed inside as he knew that if Ning Cheng ended up on top, then dividing the Spiritual Grasses would simply be impossible. At this time if he acted with modesty then he really was an idiot, and as such he also did not hesitate as he rushed into the Medicine Garden, as he smiled and spoke, "Rank 4 and higher Spiritual Grasses are crucial for me, how can I let go of this opportunity. Although the Dragon and Phoenix Academy is rich, but they are the resources of the Academy, and not my Cui Nie Ping's."

Ning Cheng cursed in his heart, as he looked at those two act without constraint, now that they were digging themselves, they immediately exposed their original face.

He saw that Meng Jing Xiu's digging speed of Spiritual Grasses was simply too slow, and as such simply did not bother to dig stub by stub anymore, as he directly sent out a punch facing the front of the Spiritual Grass Garden.

The formidable Axe Fist was filled with a powerful Killing Intent as it directly seeped into the floor of the Spiritual Grass Garden, this was his Axe Line formed from Killing Intent that he had recently comprehended. This Axe Line loosened all the mud and dirt underneath the Spiritual Grasses allowing them to be freely picked under Ning Cheng's formidable control with his Spiritual Consciousness, without causing any injury to the Spiritual Grasses.

Once all the Spiritual Grasses came loose, Ning Cheng simply stretched out his hand, and the numerous Spiritual Grasses immediately flew out towards him, getting rid of the residual dirt, as they fell cleanly into Ning Cheng's hands, and in an instant were immediately stored into Ning Cheng's Storage Bag.

Ning Cheng felt a bit pleased in his heart, luckily he Spiritual Consciousness had risen sharply in that Angry Axe Lotus Flower Pond, otherwise he would not have been able to make such a move. But he did

not halt his pace at all, as he once again arrived at a new lush green place, and once again blasted out a punch.

Cui Nie Ping and Gui Yu Tang looked blankly at Ning Cheng's rogue-style looting of the Spiritual Grasses, while in their hearts they were thinking that this person was simply too shameless.

### The Gate Of Good Fortune

#### **Chapter 154: I Also Use The Fist**

The two people's reaction was very quick as they came over, while simultaneously speeding up their speed of collection of the Spiritual Grasses. Unfortunately, the two of them did not have skills like Ning Cheng, and as such they were not able to dig out the Spiritual Grasses properly from the Medicine Garden, because of which they discovered that the Spiritual Grasses that they collected in a hurry did not even contain a tenth of their efficacy.

Looking at the now already bare Spiritual Grass Garden, both of them looked at each other with blank faces, as they thought that this Ning Cheng was a little too ruthless. Not only was he ruthless, even his table manners were unsightly.

Because of this incident, the impression of Ning Cheng on the two of them changed a lot. These two guys were the geniuses of the Le Continent, and as such were always complemented and thought highly by everyone. But under such circumstances they knew perfectly well that because they had increased their speed to dig out the Spiritual Grasses improperly, as a result they had ended up destroying most of their loot. Of course, it was also possible that the two guys eat him up, and then take the Spiritual Grasses acquired by him, which would ultimately end up helping them.

"Brother Ning, you really have quick hands and feet." Cui Nie Ping saw that the Spiritual Grasses collected by Meng Jing Xiu were also given to Ning Cheng, and could not help but speak out sarcastically.

Ning Cheng gave a laugh, "I have never thought that the two geniuses who came from such prestigious backgrounds would also come to small places like these to loot from the other cultivators, fortunately the good things here have now been divided up evenly. Previously when you came here, you proposed a spar, if you want to I can spar with you now, but if you do not want to spar then I am afraid that I will have to take my leave from this place."

Cui Nie Ping sneered and spoke, "If Brother Ning can equally divide the good stuff here then it would really be good, since Brother Ning arrived here first, then I think that the things inside the log cabin were also taken away by Brother Ning, right?"

Ning Cheng did not deny it, and instead spoke in a very generous manner. "Ah yeah, the little things inside the log cabin were all taken away by me....."

"Well then, let me have a small gamble with Brother Ning, since this is better than sparing, I hope you can bring forth a few of your gains....."

Ning Cheng immediately knew what Cui Nie Ping meant, but still he very carefully nodded his head, "Brother Cui's proposition is good, since this is a gamble, then one must bring forth their respective bets. Since Brother Cui was the one to propose this contest, then the bets will be decided by me."

Cui Nie Ping had not said anything about the bets yet, since Ning Cheng on his own initiative spoke the words that he wanted to speak.

Cui Nie Ping thought that since they had no means to dispute the claim, as such he could only put forward a gamble of sorts between them. Ning Cheng said that the bets would be decided by him, this was not strange to them. Since Ning Cheng was not the one to propose the gamble, then he could definitely decide the bets.

But then he frowned, according to this way of thinking, even if Ning Cheng lost he would definitely not bring out the things that he obtained from the inside of the log cabin, rather he might only bring out the Spiritual Grasses that he obtained here. But he affirmed that he would definitely not lose, therefore he simply did not think that he should be the one to put up something first.

Thinking till here, he simply took out a few inch-tall Jade bottle and threw it out casually. That jade bottle smoothly fell to the ground several dozens of meters away on a stone, "This is my Amethyst Heaven Coloured Glaze Essence that I had obtained in the Angry Axe Valley, moreover this is a full bottle right here, I do not know if Brother Ning can come up with something similar in value to this Amethyst Heaven Coloured Glaze Essence."

When Ning Cheng heard the words 'Amethyst Heaven Coloured Glaze Essence' he was immediately surprised in his heart. He knew that the Amethyst Heaven Coloured Glaze Essence was a Rank 8 Spiritual Medicine. Moreover, its inherent nature was 'constant growth'. Even the highest bidder in the cultivation world of the Yi Xing Mainland would not be able to acquire such a thing no matter how much he bid. But at present an Essence Building Realm Cultivator had actually come up with such a good thing, it proved that there evidently really were more good things in this Angry Axe Valley, and it was not just he who had harvested such a good fortune.

Moreover, this Amethyst Heaven Coloured Glaze Essence was considered as the highest quality Spiritual Medicine that could be used to repair a cultivator's broken Meridians. If at the beginning when his Meridians were shredded in the Thunder Fall Desert, if there was no Mysterious Yellow Origin to remould his Meridians, then he could have similarly used this Amethyst Heaven Coloured Glaze Essence to repair his Meridians. But who in their right mind would come up with Amethyst Heaven Coloured Glaze Essence to give to a common cultivator to repair their meridians? The value of the Amethyst Heaven Coloured Glaze Essence was simply countless times much more precious than compared to a True Condensation Cultivator.

Ning Cheng also directly took out a ring and threw it on top of the stone. "This ring is the thing that I had just obtained from the log cabin, as to what is inside, I did not have the chance to look at them."

When Cui Nie Ping saw Ning Cheng actually throw out a ring, his eyes immediately shined and said, "Good, so you really are going to use this ring for your bet."

When they came here, Ning Cheng had not yet collected the Spiritual Grasses in the Spiritual Medicine Garden, presumably because he did not have enough time, so he assumed that Ning Cheng had also come here not much earlier than them. Moreover, since he certainly did not arrive much earlier than them, then there was a good chance that the ring had not yet been opened. Since this was a ring from an ancient cultivator, then even it only contained a Cultivation Method, he would have definitely made a huge profit. Originally he wanted to agitate Ning Cheng to the point that he would take out all the

Spiritual Grasses, but he had never thought that he would rouse Ning Cheng to such an extent that he would even take out the ring.

Not to say him, but even the one on his side, Gui Yu Tang, both his eyes were shining brightly, it was obvious that he had taken a liking to that ring that Ning Cheng brought out.

Ning Cheng gave a chuckle. "My bet is indeed more than enough, but Brother Cui, how can you use a mere bottle of Amethyst Heaven Coloured Glaze Essence to bet against my ring? One has to know that since this is the ring of an ancient cultivator, as such it is many more times incomparably precious than your Amethyst Heaven Coloured Glaze Essence. Or is it that Brother Cui wants to bully me because I come from a small place, and have not yet seen the world."

Cui Nie Ping really had such an idea, but now that he was called out by Ning Cheng, his face immediately turned red, as he quickly said, "There is no such thing. This ancient senior cultivator has been dead for so long, even if the inside of the ring contained precious pills there is a good chance that they have already turned to dust, how can they be used?"

Ning Cheng also spoke in an unhurried manner, "Brother Cui you are just guessing, as for whether or not that ancient cultivator died or not, Brother Cui I think that even you can't dare to be sure. Perhaps this belongs to somebody else who died recently? Besides even if there were no precious pills inside the ring, but what about the countless Spirit Stones, Magic Weapons, Cultivation Methods..... hey hey, do I need to say anything more? Moreover, it's not like you people do not have other good things, why don't you bring out the Best Quality Spiritual Artefact that was used as an Array Flag for the Killing Intent Restriction?"

Only now did Meng Jing Xiu realize what Ning Cheng had said was the truth, the owner of this ring really might have passed away.

Cui Nie Peng suddenly frowned, he also knew that what Ning Cheng had said was right. When he entered the Immortal Mansion, was it not just for taking out the ring that was in Ning Cheng's hands? Thinking till here, he once again threw out a jade bottle, along with two Storage Bags as he said again, "This jade bottle also contains the Amethyst Heaven Coloured Glaze Essence, I only obtained two full bottles, and all of it is out there. As for the two Storage Bags, one bag is full of Spiritual Grasses, while the other is full of Spirit Stones."

Anyways he was sure that he would not lose, so he would only have to wait for a while before taking them back with a huge profit.

Ning Cheng saw that Cui Nie Ping was really no longer going to come up with anymore of his stuff, so he could only forcefully nod his head as he spoke, "All right, since that is the case, then Brother Cui, please begin."

When Cui Nie Ping saw that Ning Cheng had agreed to the bet, he no longer spoke anymore nonsense, as he was already drunk on his assumed victory. His whole body took a flying leap, as he threw out a punch at Ning Cheng.

"Yi! Does Brother Cui likes to use his fist? Well I also like to use my fist." Ning Cheng saw that Cui Nie Ping had sent out a punch towards him, but even then he simply spoke calmly, as he also blasted out a punch.

Cui Nie Ping and Ning Cheng were only a dozen meters apart from each other, so when he had only casually taken a step forward, he had already come in front of Ning Cheng. When his punch bombed out, the space all around him instantly became steaming hot as the Spiritual Qi all around was converted into Killing Intent, which completely covered Ning Cheng. Moreover, this Killing Intent was not only fierce and vindictive, there was not even a bit spilling out. As such Meng Jing Xiu and Gui Yu Tang who were standing at the side could only feel the steaming hot wind that was blowing off from it, as for the terrible Killing Intent they simply could not feel it at all.

This was no longer a contest as it had completely turned into a brawl, once someone was trapped in this kind of Killing Intent, then they would only end up with a fatal ending.

Although Meng Jing Xiu's cultivation was extremely poor amongst them and could not feel the Killing Intent from Cui Nie Ping's fist, but that did not mean that she could not see what was happening. If Ning Cheng was to be struck with this fist, then even if Ning Cheng did not die, he would at least lose a layer of skin.

Meng Jing Xiu had seen Essence Building Cultivators fight with Ning Cheng, and although she was not as good as the two Essence Building Cultivators fighting, but even she could tell that Cui Nie Ping's fist was indeed powerful.

Compared to Cui Nie Ping's fist, Ning Cheng's fist seemed extremely unremarkable, it was like comparing a tiny boat to the vast and boundless crazily surging sea, if it was any other time then Cui Nie Ping's powerful fist's aura itself would be more than enough to strangle a person to death.

"Hong Hong Hong....." As the two fists collided together, an intermittent bone cracking sound emerged. The power contained in the fists, because of the collision with each other, immediately burst out. The wind immediately carried the Imposing Manner of the fists as the power contained in them was unleashed, it made Meng Jing Xiu feel as if she was being stabbed in her consciousness, as such she immediately subconsciously withdrew more than a dozen meters back.

Gui Yu Tang shook his head, he discovered that he had overestimated Ning Cheng. Cui Nie Ping's fist was clearly just a test punch to probe him out, just this probing punch was more than enough to break Ning Cheng's arm, as such he simply had no chance for him to fight against Ning Cheng.

Ning Cheng also flew out tumbling, while in his heart he was secretly startled. This Gui Yu Tang was not weaker than the present him. After seeing the result of the fist attack, his understanding of Gui Yu Tang immediately became a bit deep. Just know he knew that he had not given his best shot, rather it was just a casual punch without any power behind it, moreover he also knew that Cui Nie Ping had also thrown out his punch to probe him out.

Just a moment ago the sound of bones fracturing was not from Cui Nie Ping, but rather was something that came from his arms.

Cui Nie Ping spoke in a mild tone, "If you have only thing kind of ability, then I would be very sorry for you."

As he spoke, Cui Nie Ping once again jumped, and once more sent out a fist. But this punch was completely filled with a deadly aura, showing that he was obviously planning to kill Ning Cheng.

It was because when he had met Ning Cheng, he had thought him to have almost the same strength as him, as a result he had proposed a contest, but now that he discovered that he could easily kill the opposite party, then this Cui Nie Ping would absolutely not be lenient.

This time when that crazy fist shadow emerged, it actually brought out an inexhaustible amount of Fist Shadows. These Fist Shadows were almost as dazzling as Sword Lights, and were extremely eye catching. Moreover, it brought up a majestic Imposing Manner and Death Qi, which immediately enveloped Ning Cheng among these Fist Lights.

An Ice Cold Sword Intent that had the capability to seep into one's marrow was leaking out. Under the invasion from the Killing Intent in these Fist Lights, Ning Cheng's way out was already completely sealed. Ning Cheng at the moment had only one path to walk upon, and that was to enter the middle of this Ice Cold Sword Intent, and be at the mercy of the Death Qi in the Sword Intent that could tear him into pieces.

No wonder these people were able to come here, turned out this person had such a high level of comprehension towards Sword Intent, Ning Cheng finally came to understand. Moreover, he could also stir up Sword Intent through his fist, this was similar to his Axe Fist in general, which he used to stimulate the Axe Intent with his fist. Thus it could be seen that Cui Nie Ping's primary weapon of choice was not a fist but rather a sword.

The first time he had punched out with his fist was only a probe, but now that he finally discovered that he was not his opponent, he simply decided on killing Ning Cheng with his fist. Although he had used his fist, but what came out was an Ice Cold Sword Intent.

These disciples from the large academies really were very superficial, if they met someone for the first time then they would speak politely, moreover they would always reason out and be courteous everywhere. But when they really fought, then counting on them to show mercy, was simply a dream. Once they think that they can massacre you, then they absolutely would not show even a half a moment of soft heartedness or even pause for a single moment.

### [The Gate Of Good Fortune](#)

#### **Chapter 155: I Also Use The Spear**

However, using such a Sword Fist with the intention of killing him, he had grossly underestimated Ning Cheng. Ning Cheng not only did not force himself out of the scope of the Fist Shadows of Cui Nie Ping that were made from his Sword Intent, but rather took the initiative to actually allow them to surround him completely with him in the exact centre. At this moment, Ning Cheng was completely surrounded by Cui Nie Ping's Death Qi and the Killing Force of his Sword Intent, just as the Sword Intent within started to tear at Ning Cheng, Ning Cheng also blasted out a punch.

Seeing that Ning Cheng was using a punch similar to his own type of Sword Fist to go against the Killing Force of his Sword Intent, the corners of Cui Nie Ping showed a slight sneer, as he thought that he had really thought highly of Ning Cheng before. Not everyone can get through the Angry Axe Lotus Flower Pond, and like him the only other person to do so was Gui Yu Ping.

But at this time, he suddenly felt something wrong, a fearsome tornado formed from Killing Intent crashed into his Sword Intent bursting it open like a piece of paper. Ning Cheng obviously did not use

any Magic Weapon, but even then he could feel the wrathful edge of a great axe chop down at the Killing Force of his Sword Intent.

This wrathful edge of a great axe was simply too terrible, as it completely and directly blew open the Killing Force surrounding it that was made from his own Killing Intent. If it was only this, then Cui Nie Ping believed that he could still stand up to it.

But unexpectedly this was not the end, after this powerful Tornado formed from Axe Intent swallowed up the Killing Force of his Sword Intent, it once more filled the surroundings with its own Killing Force while simultaneously rolling it up and pushing it towards him while condensing it along the way to a point, before exploding onto his chest.

This was the true Axe Fist, moreover the Axe Intent in this Axe Fist was even innumerable times much denser than his Sword Intent. The two simply could not even be compared on the same level, one was like the dust on the ground while the other was as vast as the heavens themselves. Cui Nie Ping could integrate his Sword Intent with his fist, as such he could also see that Ning Cheng's Axe Fist was somewhat similar to his.

As the formidable Axe Fist filled with Killing Intent bombed over to him, Cui Nie Ping knew that if he did not find a way to shunt this fist, then this fist was more than enough to tear him into fragments, this fist was truly extremely fearful.

Cui Nie Ping immediately resorted to his left hand, as a powerful Sword Intent that was completely invisible combined with his True Essence as he condensed it into a wall.

"Ka Cha....." Ning Cheng's punch changed its aim to his left fist, immediately bursting open the True Essence Barrier. While simultaneously from the centre of the True Essence Barrier a Ka Cha sound emerged.

Cui Nie Ping knew that all the bones of his left hand had been shattered into tiny fragments. But on the contrary he felt a bit relieved. Because he had, in just the nick of time, as able to use his right hand bringing out his formidable Sword Intent's Imposing Manner to block the attacking force just a short distance away from his chest.

"Peng." But then again a loud sound emerged as the True Essence within the fist ruptured.

"Ka Cha" a sound emerged, but this time it was not the sound of Cui Nie Ping's arm breaking, but rather it was Ning Cheng's arm that broke once more, as Ning Cheng was simultaneously sent back tumbling.

Cui Nie Ping also backed away several steps, before coming to a stop. His complexion at that moment was also somewhat ugly, but he was not hurt much. Although his bones were shattered, but for him it was not a major injury.

Gui Yu Tang showed a faint smile as he looked at the ugly complexion of Cui Nie Ping. He spoke, "Brother Cui, I did not expect that the Sword Fist that you have been so proud of was really something so cheap, this Ning Cheng, I really would like to exchange some moves with him very much."

Cui Nie Ping's complexion turned really ugly, but had not replied to the words of Gui Yu Tang, as he was still in the process of recalling what had happened a moment ago in his fight with Ning Cheng.

Looking back at what happened, it looked like Ning Cheng was slightly more injured than him, but why did it feel like he was the one who was at a complete disadvantage?

“Senior Apprentice Brother Ning, is your hand all right.” Meng Jing Xiu hastily came over to Ning Cheng’s side, as she supported Ning Cheng up.

Ning Cheng took a few deep breaths and said, “Do you think that my arm is broken. Actually there is nothing wrong at all with my hand, it’s just this guy is very fierce.”

Judging from the surface, a moment ago when Cui Nie Ping fought, he had really been pushed back a few steps.

After Ning Cheng took a few more deep breaths, he once again returned to his original position as he looked at Cui Nie Ping and said, “Brother Cui, although I was the one who stepped back a slight distance more than you a moment ago. However, you have an arm broken, which is one more than when compared to mine, thus it can be seen that you are at a disadvantage. So, I think that you really have lost this challenge. What do you say?”

Meng Jing Xiu looked blankly at Ning Cheng, she had always thought that Ning Cheng’s way of handling things was very realistic. Even if she could not see what happened a moment ago, Ning Cheng looked slightly worse off than his opponent. Regardless of the conditions of the ‘spar’, this was still the result in the end. She had never thought that Ning Cheng would simply reverse the result and speak about it in such a way.

Let alone what Meng Jing Xiu was thinking, even Cui Nie Ping’s face changed continuously for a while, as he spoke, “Yes, I truly fell back a moment ago.....”

“Well then, I’ll just help myself.” Ning Cheng did not let Cui Nie Ping finish his words, as he immediately took away the things placed on the stone.

As Cui Nie Ping looked at what was happening his heart immediately started bleeding. He had just said that he had been pushed a few steps back, but he had not said that he had lost, but this guy had already swept away the things.

However carefully looking at the situation from a moment ago, he finally could not raise any objections. He could sense that these things were not as he had felt them to be. He was certainly clear about his injuries, that his arm bones had definitely been shattered to pieces. But Ning Cheng had said that he had one more broken arm than him, didn’t this imply that Ning Cheng’s arm had never broken from the beginning till the end?

If Ning Cheng’s arm was not broken, then why did he hear the sound of his arm breaking twice?

Gui Yu Tang also looked at Cui Nie Ping, as Ning Cheng put away the things, as he saw Cui Nie Ping had not even raised a single objection, this seemed really wrong to him. By rights, Cui Nie Ping should have continued to fight again.

“Brother Cui, you let him win, it looks like the things that you obtained in the Angry Axe Valley, are far more than just this.” Gui Yu Tang also found it very strange, as he knew that this Cui Nie Ping was not such a nice person.

He was still hesitant, when he once again heard Ning Cheng saying, “Junior Apprentice Sister Jing Xiu, this time I have obtained many Spiritual Grasses, moreover I even obtained a ring, it looks like we can go now.”

“Wait Wait, Brother Ning, with that fist that was brimming with Axe Intent a moment, the one that made Brother Cui to admit defeat on his own initiative, this made this Gui Yu Tang to admire you extremely. I would also like to have a spar with Brother Ning, I think that Brother Ning will also not dare to refuse it?” Gui Yu Tang saw that Ning Cheng wanted to leave, as he quickly stepped up and spoke.

Ning Cheng frowned, and only after a long time did he speak, “Just now when I sparred with Brother Cui, I’ve seen the powerful strength of such a genius, if not for being envious of Brother Cui’s Amethyst Heaven Coloured Glaze Essence, I would have definitely not sparred with him, you know, my ring comes from an ancient cultivator.....”

Gui Yu Tang laughed, as he raised his hands and threw out a block of a dark stone like object and said, “This is Yi Xing Mainland’s top Crafting Material, True Burning Star Sand.”

Ning Cheng was feeling extremely depressed in his heart at the moment, these guys really have obtained some really good things, this True Burning Star Sand was actually a Rank 9 Crafting Material, even if Ning Cheng was not in contact with those hot shots of the cultivation world, he knew that if even a word of such a stuff ever got out it would immediately lead to a large scale war.

“This True Burning Star Sand was something that I found in the depths of the Angry Axe Valley, you have to know, that if my Clan came to know that I had taken out the True Burning Star Sand for a wager, then even if I was a core member, I would inevitably have to suffer harsh punishment according to the clan rules.”

Ning Cheng showed a faint smile and spoke, “This True Burning Star Sand is truly precious, But I’m only an Essence Building Cultivator, what would I even do with such a thing? Moreover, even if your object is something even more precious, but the price that you brought out is still not enough. Perhaps inside my ring I may even find dozens of blocks of True Burning Star Sand, for you to make a bet with such a thing, do you take me to be stupid?”

Gui Yu Tang sneered but still spoke calmly, “The inside of your ring may indeed contain more than a dozen blocks of the True Burning Star Sand, but there is also a possibility that it does not contain anything, and is empty inside.”

Ning Cheng seemed to behave as if he had not heard the words of Gui Yu Tang, and simply did not give an answer.

Gui Yu Tang saw the way Ning Cheng acted, and knew that his chips were really not enough to move him. Thinking till here, he clenched his teeth as he took out a rusty and stained furnace and said, “This is also something that I had obtained in the Angry Axe Valley, even I cannot estimate its grade, it should be enough, right?”

Ning Cheng immediately used his Spiritual Consciousness to inspect this stove, and immediately his eyes lit up, and he suddenly laughed and spoke, “Since Brother Gui has said that it was enough, then I am sure that I certainly have no comment. Then, Brother Gui you can begin first.”

Gui Yu Tang was waiting for Ning Cheng to speak exactly those words, and just as Ning Cheng's voice fell, a Spear with an almost entirely blue body fell into his hands.

"Yi! Brother Gui also uses a spear, I also use the spear." Ning Cheng spoke as he raised his hands, and the broken spear appeared in Ning Cheng's hands.

When Cui Nie Ping heard Ning Cheng's words, he even more firmly believed that his choice a moment before was the right one. Ning Cheng was absolutely not similar to him in his use of his fist, so it was possible for him to not use the Spear in the same way as Gui Yu Tang. Only such kind of a person, was the most fearful. Even he felt somewhat afraid of this person, moreover the Spear in Ning Cheng's hands was not a complete one, the Spear Head and the Spear Tail even looked decrepit.

When Meng Jing Xiu heard Ning Cheng's words, she almost laughed out loud. Fortunately, there was no one with an Axe here, if there was someone with an Axe here, then she thought that Ning Cheng would certainly once more say 'Yi! You use an Axe ah; I also use the Axe.'

Gui Yu Tang seemed to have felt that there was something that was not right, but now that he had challenged Ning Cheng, he would absolutely not flinch away. He shook the blue Spear in his hand, as it immediately transformed into a spear that was more than 10 feet long.

"First eat my spear....." Gui Yu Tang was a very decisive person, so almost at the same time that Ning Cheng brought out his spear, he simultaneously thrust out with his blue spear that was in his hand.

Even a naked eye could see the blue ripples that appeared in the sky, these ripples were like the ripples formed in the water as a stone dropped into it.

Cui Nie Ping who was standing at the side was completely flabbergasted as he looked on, he could never think that Gui Yu Tang would immediately resort to his Spear Technique in such a situation. As these blue ripples condensed out of thin air, it was the sign of the culmination of his Spear Intent.

Once these ripples of Spear Intent wrapped around the opponent, then that scene would be completely directed by Gui Yu Tang.

But Ning Cheng actually did not care about this for even a single bit, as the Spear in his hand transformed into 30 Ice Cold Spear Shadows one after another, these Spear Shadows immediately formed into a Spear Network.

Gui Yu Tang's ripples of Spear Intent were still spreading into the surroundings from it as a centre, but Ning Cheng's Spear Network had already formed from the Spear Shadows that had emerged from the Spear that he had taken out.

In only a short time, the two Spear Intents collided together. After the blue ripple like Spear Intent and Ning Cheng's 36 Profound Ice Spear Shadow Technique collided, loud intermittent explosions could be heard as the Spear Shadows burst.

The blue ripple like Spear Intent when collided with Ning Cheng's Spear Network, it instantly broke apart under the explosions, but the broken down blue ripples had not dissipated, rather they turned into innumerable blue flashes of light as they immediately approached Ning Cheng.

But at this moment Ning Cheng did not even have the slightest fear, after his Spear Network shattered Gui Yu Tang's blue ripple like Spear Intent, it had also not dissipated, rather it spun around, and immediately blew apart the innumerable blue flashes of light.

But at this moment Gui Yu Tang was actually shuddering, as a terrible bone piercing chill invaded his bones from the air, which he was unable to completely block. The Spear Network that Ning Cheng shot out immediately shrunk, forming a single thick Profound Ice Spear Shadow that immediately flashed towards him.

At this moment, how did Ning Cheng even look like his True Essence had depleted and was gasping for breath? Gui Yu Tang now fully understood why in the previous fight between Ning Cheng and Cui Nie Ping, although Cui Nie Ping did not eat much of a loss, but he still threw in the towel.

#### **Chapter 156: Leaving The Valley**

"Boom" Ning Cheng's Spear Shadows and Gui Yu Tang's Blue Spear immediately collided together, at this time Gui Yu Tang's powerful True Essence and Spiritual Consciousness was revealed beyond a doubt. But his Spear Intent was vastly inferior to Ning Cheng's Spear Intent, testament to the fact was that Ning Cheng's Spear Intent had already broken through the blue ripple like Spear Intent of his opponent. Forcing him to abruptly recall his blue spear to its original size, as he tried to block Ning Cheng's single condensed giant spear.

Gui Yu Tang immediately condensed his True Essence into a barrier, he knew that if this Spear broke through his barrier, then even if Gui Yu Tang did not die at the very least he would suffer severe injuries.

But after the two spears collided, Gui Yu Tang was directly sent flying over a dozen feet back before falling onto the ground, Ning Cheng was also pushed back but only a few feet.

This battle ended even more quickly than the battle between Ning Cheng and Cui Nie Ping, before they ended up separating.

Although Gui Yu Tang was not hurt much, but knew that he had lost to Ning Cheng in the battle between Spear Intent a moment ago, as such he also knew that he was at a huge disadvantage. However, he knew that he had definitely lost in the exchange. Even if Ning Cheng conveniently did not use his Magic Weapon, even if that was the case, he knew that he was certainly not Ning Cheng's opponent, once Ning Cheng seriously resorted to use his Magic Weapon, then he would be more so much inferior to him, unless he and Cui Nie Ping collaborated to go against Ning Cheng. But them being considered as geniuses of their generation, they both still disdained to cooperate with each other to fight against a cultivator whose cultivation was not even as high as them.

"I lost." Gui Yu Tang's complexion was calm as he put away the blue spear in his hands.

At this time how couldn't he be clear? Ning Cheng had certainly not been injured in the fight with Cui Nie Ping. If it were other people, seeing such a fearful and terrible fight, they would never ever come up to take the challenge.

"Lucky, lucky." Ning Cheng first rushed to that stone, as he swept away the things placed on the stone, pocketing everything. He had pulled back his attack at the right instant, if not, he would have killed Gui

Yu Tang, this was a fact even if Gui Yu Tang had gone all out to block his spear. In the end it was all for good.

“Elder Brother Ning, for me Gui Yu Tang, you are the fiercest Essence Building Cultivator that I have seen till now. Today for me to have a spar with Elder Brother Ning, I have benefitted greatly.” Gui Yu Tang said, as he saw Ning Cheng pocket away all the things, but he still cupped his fists and spoke to Ning Cheng in a respectful manner.

Although he was praising Ning Cheng, he felt very dark in his heart, he was a disciple from one of the greatest Clan, although he could kill without any hesitation, but he could never bear the burden of losing.

“Today’s win was by luck, if we really had fought, I may not have been able to win.” Ning Cheng was polite as he spoke, he knew that these talented disciples from such large sects as theirs were most concerned about face-saving. Since he had won the other parties things, then he did not mind giving them some face.

Besides Ning Cheng knew that these two people really had some skills, moreover these two simply could not be compared to the two Essence Building Cultivators from the Red Heaven Academy. If these two men were to act together, then with his present cultivation, he may not necessarily be able to handle them.

Cui Nie Ping also came forward and spoke, “This Angry Axe Lotus Flower Pond is the best place in the Angry Axe Valley to cultivate one’s Killing Intent and also one’s Spiritual Consciousness, but ordinary cultivators would find it very difficult to come here. For Elder Brother Ning to come here, it shows your brilliance, in fact, Elder Brother Ning you really did not let us down.”

Ning Cheng had just cultivated here, so of course he knew that what Cui Nie Ping said was right. Moreover, he knew that these disciples from such prestigious backgrounds knew more about the Angry Axe Valley than him. So he immediately cupped his fist and asked politely, “Me and my Junior Apprentice Sister just want to exit from this place. Do the two of you have any good ways out?”

Gui Yu Tang simply laughed and said, “This Ancient Immortal Mansion is.....”

Gui Yu Tang was not able to finish what he was going to say, when suddenly spatial fluctuations appeared around him, and then he immediately disappeared from their sight.

“The Angry Axe Valley is suddenly closing, Yi! why only one person, Gui Yu Tang, was transmitted out?” Cui Nie Ping had just finished his words, when the space around him immediately began to fluctuate, and then in a moment he also disappeared.

“It appears that even we two will also be transmitted out in a short while, it’s a pity that we could not go to that place that you wanted to go to.....”

Not waiting for Ning Cheng to finish, Meng Jing Xiu immediately hugged him.

Ning Cheng was surprised for a moment, but soon he understood the meaning of Meng Jing Xiu’s actions, she was afraid that both of them would be sent to different places.

Ning Cheng patted Meng Jing Xiu's shoulder and said, "Junior Apprentice Sister Jing Xiu, we would soon be sent out of this place, and would certainly get outside of the Angry Axe Valley, and although we will be together in the same place, but unfortunately we will not be able to walk together. Because that cultivator surnamed Kang thinks that something is not right with the results of my first and second round in the tournament, as a result I cannot meet with him."

"I know that, I am sorry, Senior Apprentice Brother Ning, I really could not take you to that that place." Meng Jing Xiu spoke with some regret in her voice.

"What is this place you speak about?" Ning Cheng immediately asked.

"It is an Immortal Mansion....." Meng Jing Xiu's words immediately shocked Ning Cheng, as he immediately thought about the Immortal Mansion that he had visited at the bottom of the cold river.

[TL Note – Please do not confuse these 'Immortal Mansion 仙府' with the 'Immortal Mansion 洞府' that they are in right now. Both of them are different but when translated to English, they are called Immortal Mansions.

To differentiate, this 'Immortal Mansion 仙府' that Meng Jing Xiu spoke off and the 'Immortal Mansion 仙府' at the bottom of the Cold River that Ning Cheng visited with the old woman, where he obtained his Star River, are the true Immortal Mansions as they contain the character for Immortal 仙.

Whereas the 'Immortal Mansion 洞府' that Ning Cheng and Meng Jing Xiu are right now is not a true Immortal Mansion as the characters are different, but are essentially translated to as Immortal Mansion.

Essentially the 洞 Character here is the character for 'Cave', but when combined with 府 (Character for Mansion) it is literally translated to 'Cave Mansion', but when together as 洞府 it means 'Legendary abode of Immortals' hence being called as Immortal Mansion.]

Initially the Immortal Mansion that white haired old woman had led him to at the bottom of the Cold River was actually called the 'Scorching Immortal Mansion', afterwards the Scorching Immortal Mansion had disappeared into the void, could this mean that Meng Jing Xiu had come to this Angry Axe Valley for that Scorching Immortal Mansion.

But that is not right, when that Immortal Mansion disappeared into the void, Meng Jing Xiu should not have known about it.

Meng Jing Xiu spoke with affirmation, "It definitely is an Immortal Mansion, and is called Lan Wei...."

Meng Jing Xiu had only spoke half the words, when the surrounding space all around them immediately started to fluctuate, which made Ning Cheng immediately realize that it was now their turn to be transmitted out.

He immediately grasped Meng Jing Xiu even tightly, and sure enough, an invisible force immediately swept away him and Meng Jing Xiu, and when he and Meng Jing Xiu finally fell on the ground, they realised that they had arrived at the side of a rushing river.

"Yi! Our luck sure is good, this should not be the place outside the Angry Axe Valley from where we entered, it seems we were transmitted out to a new place." Ning Cheng felt the aura and the surrounding Spiritual Qi, and immediately spoke in an affirmative manner.

Ning Cheng really felt lucky for the first time, although he and Meng Jing Xiu were sent out, luckily they were not transmitted out to the place from where they entered the Angry Axe Valley. If he and Meng Jing Xiu were transferred outside to the place from where they entered the Angry Axe Valley, then they would have already been caught by that cultivator surnamed Kang.

“Well, I tried very hard to find the Immortal Mansion in the Angry Valley, so that I could cultivate quickly, so that I could then go look for my parents, but I did not think that I would fall short of it finally. I could not even find that place, before I was sent out.” Meng Jing Xiu sighed.

Ning Cheng spoke with a little embarrassment in his voice, “I’m sorry, I should not have let you be with me for such a long time.”

Meng Jing Xiu shook her head and spoke, “You should not be, the place that we were at was extremely far away from the Immortal Mansion, it would have taken more than ten days to reach there. Coupled with the time required to find the Immortal Mansion itself, even if we did not delay even a single bit, it would already have been too late.”

Ning Cheng spoke in a comforting manner, “Junior Apprentice Sister Jing Xiu, in fact, in my opinion, since we have not found the Immortal Mansion, then it should be a good thing. Once the Immortal Mansion is opened, then I am afraid that with our cultivations we simply would not be able to live even for a single moment. Moreover, that kind of Immortal Spiritual Qi, will be immediately be brought to the attention of the others, so when the time comes, we would only be acting as cannon fodders in its opening.”

What Ning Cheng was saying was actually not unreasonable, initially that white haired old woman with such a high cultivation was also defeated in that Scorching Immortal Mansion. So just what were he and Meng Jing Xiu’s cultivation in such a case? How could they even overcome an Immortal Mansion? In the end, perhaps they really would have done the work for the others.

Meng Jing Xiu very much believed Ning Cheng’s words, now that she heard Ning Cheng speak, she also nodded and spoke, “What Big Brother Ning said is right, after our cultivation is high enough, we will come to this Angry Axe Valley again. This time the Angry Axe Valley was open for too long, I have heard that it would need a thousand more years to open once more.”

“Not necessarily, because of the accident that occurred in the Angry Axe Valley, the time that we were allowed to be inside had also lengthened. I suspect that this accident was because the seals put up on the Angry Axe Valley’s Array Formation had experienced some problems, once this Array Formation is broken, then perhaps we can later come and go through this Angry Axe Valley at any time.” Ning Cheng spoke.

Seeing Meng Jing Xiu’s puzzled look, Ning Cheng explained, “A long time ago, people could come and go as they liked in this Angry Axe Valley, but afterwards because of huge losses of lives, many of the mighty cultivators joined hands and arranged a Top Level Concealment Array Formation, where only Essence Building Cultivators and below could enter. I had also heard people speak about this.”

“Even if that is the case, even if the Array Formation of the Angry Axe Valley was destroyed, the place where the Immortal Mansion is located, I am certain that no one else knows about it.”

Meng Jing Xiu spoke, then she took out an ancient map in her hands and gave it to Ning Cheng while saying, “Senior Apprentice Brother Ning, your cultivation is much higher than me, so it would be better if

you keep this map of the Immortal Mansion on you. This map was made by my ancestor Meng when he entered the Angry Axe Valley. He had drawn it out from his memory. The ancestor had just found this Immortal Mansion, when the time was up, and he was sent out.”

Ning Cheng knew that Meng Jing Xiu had already thoroughly memorised the contents of this map, as such he did not reject it, as he received the map and directly spoke, “Where do you want to go now? I must return to the Hua Continent to take away Luo Fei, do you want to return to the Hua Continent together with me, or do you want to stay in the Jia Continent?”

Meng Jing Xiu took out a Jade Piece as she handed it to Ning Cheng and said, “Senior Apprentice Brother Ning, this Jade Piece is the map of the Jia Continent all the way to the Yi Xing Ocean. If I have not guessed wrongly, then we are at present at the Mo La River. Mo La River is near the Lost Mountain Range, Senior Apprentice Brother, if you want to return to the Hua Continent, then it is necessary to cross the Lost Mountain Range, so……”

Although Meng Jing Xiu had not completed her words, but her words were very clear, that with Ning Cheng’s cultivation it was impossible to cross the Lost Mountain Range.

Ning Cheng was silent for a moment and then spoke, “Junior Apprentice Sister Jing Xiu, although I have entrusted Yue Ying, but I am still somewhat worried about Luo Fei in my heart. Even if the Lost Mountain Range was synonymous to death, I will have to try and pass through it.”

Saying that Ning Cheng also took out a Storage Bag and handed it to Meng Jing Xiu and said, “Junior Apprentice Sister Jing Xiu, inside this Storage Bag contains 100,000 High Grade Spirit Stones, you can take these and cultivate, inside you will also find a Best Quality Spirit Stone. If at the time when you try to advance to the Essence Building Realm, if you have not procured an Essence Building Pill, then use this Best Quality Spirit Stone to breakthrough to the Essence Building Realm.”

Meng Jing Xiu shook her head as she hastily pushed those things back to Ning Cheng, “Senior Apprentice Brother Ning, you have been always helping me, how can I take so many of your Spirit Stones, it simply will not do.”

Ning Cheng showed a faint smile as he spoke, “You are looking for the Immortal Mansion, presumably in order to accelerate your cultivation speed. Moreover, you are also a rogue cultivator at the moment, if you did not have any good resources, then wanting to improve your cultivation speed, is simply not possible. Moreover, I have also recently made quite a lot of profit, you know. Moreover, the number of High Grade Spirit Stones on me all added up is almost 500,000-600,000.”

Although Ning Cheng had 500,00-600,000 High Grade Spirit Stones, he knew that the rate at which he consumed them was definitely much more than Meng Jing Xiu. Meng Jing Xiu only had the cultivation of True Condensation Realm, as such a hundred thousand High Grade Spirit Stones should be more than sufficient for her.

Meng Jing Xiu hesitated for a bit, before receiving the Storage Bag as she spoke, “Thank you, Senior Apprentice Brother Xiao Cheng.”

She also learned Ruimu Danqin’s style of calling Ning Cheng as ‘Senior Apprentice Brother Xiao Cheng’, she felt that this way of addressing was smoother to speak about, but would also make the relation between her and Ning Cheng not so estranged.

Ning Cheng did not care about it, he also wrote down his own Concealment Method and handed it to Meng Jing Xiu as he said, "This is a Concealment Cultivation Method, you can use it afterwards. I am already ready to go; we definitely will meet again."

"Wait Wait....." Seeing Ning Cheng going towards the Lost Mountain Range, Meng Jing Xiu again stopped Ning Cheng.

### [The Gate Of Good Fortune](#)

#### **Chapter 157: Going to the Yi Xing Ocean**

"Junior Apprentice Sister Jing Xiu, do you have something else to say?" Ning Cheng stopped and looked at Meng Jing Xiu with some doubt as he asked.

Meng Jing Xiu did not hesitate this time, and directly spoke, "Senior Apprentice Brother Xiao Cheng, I wanted to ask you to accompany me on a trip to the Yi Xing Ocean....."

Ning Cheng frowned, if he did not have anything else to do, then he would have definitely accepted the request of Meng Jing Xiu. Besides accompanying Meng Jing Xiu to the Yi Xing Ocean, was simply nothing to him. But at the moment he was already burning with impatience, and was anxious to fly back to the God Wind Academy in the Hua Continent.

Meng Jing Xiu carefully spoke, "Senior Apprentice Brother Xiao Cheng, my father is a cultivator in the Military Outposts in the Yi Xing Ocean, my mother had also gone to look for my father, but has not yet come back, so I am going to the Cultivator Army's Outposts in the Yi Xing Ocean to have a look. The reason I wanted you to accompany me to the Yi Xing Ocean together, is so that you can cross the Lost Mountain Range."

"No wonder you have prepared these many maps in advance, looks like you had already intended to come to the Jia Continent from early on." Ning Cheng then understood why Meng Jing Xiu was so much clearer of the matters pertaining to the Jia Continent than he himself.

Meng Jing Xiu gave an 'En' sound and spoke, "With your strength, Senior Apprentice Brother Xiao Cheng, for you to be able to pass through the Lost Mountain Range, the possibility for that to happen is less than even 2%, this itself is already an extremely high estimate. Moreover, even if you, Senior Apprentice Brother Xiao Cheng, somehow managed to pass through the Lost Mountain Range, I estimate that it would still take you at least 2 years to do so....."

Ning Cheng stared at her foolishly, he wholeheartedly wanted to go and find Luo Fei, but had forgotten that with his strength he would not be able to cross the Lost Mountain Range by himself, and even if he could cross it, he would still need at least 1-2 years. Moreover, this was on the assumption that he did not encounter any dangerous situations, if he were to encounter any such situation, then maybe even in 2 years' time he may not be able to pass through there.

Seeing Ning Cheng finally sober up, moreover even looking a bit helpless, Meng Jing Xiu suddenly felt very sad in her heart, she simply couldn't wait to help Ning Cheng immediately cross the Lost Mountain Range, and see Ji Luo Fei. She and Ning Cheng had been together for a long time, as such she thought that she had now gained a certain understanding of Ning Cheng. Ning Cheng was a person that was firm and resolute, moreover he was a person who was also assertive in his opinions. Not only that, he always

worked systematically, and in an extremely sensible but carefree manner, it gave the feeling that he was someone who they could rely on.

But seeing his vacant and dazed expression now, in addition to this unknown Lost Mountain Range and the Jia Continent that he was not familiar with, she knew that the more important reason for such a thing to happen to him was because he was simply too worried about Ji Luo Fei.

In fact, Meng Jing Xiu's guess was right, Ning Cheng was truly worried about Ji Luo Fei. In his mind and heart, Ji Luo Fei and his younger sister Ning Ruo Lan did not have a much difference in status, and were his closest relatives. When he had arrived in this Yi Xing Mainland, it was equivalent to losing Ning Ruo Lan, as such he absolutely cannot lose even Ji Luo Fei.

If he could give the Mysterious Yellow Bead to that cultivator surnamed Kang, and if the opposite party could let him and Ji Luo Fei off, he would simply not care about the Mysterious Yellow Bead. Whether or not the Mysterious Yellow Bead was a heaven defying precious thing, he did not give a damn about it. As Ning Cheng came from Earth, there were things that were more precious to him than it. But he was very clear, that as long as that cultivator surnamed Kang knew about this thing, then he and Ji Luo Fei would have to die without a doubt. The opposite party would never allow a cultivator who knew about the existence of the Mysterious Yellow Bead to calmly and steadily live in this world.

"Senior Apprentice Brother Xiao Cheng. I actually have a way to help you get back to the Hua Continent....."

As Meng Jing Xiu just finish speaking those words, Ning Cheng joyfully held Meng Jing Xiu's shoulders as he spoke, "Junior Apprentice Sister Jing Xiu, do you really have a way? Quickly say it."

Meng Jing Xiu did not push away Ning Cheng's hand, but she tidied up her emotions and said, "Do you know about the war going on in the Yi Xing Ocean?"

"Ah yes I know about it. It's the 'War of the 3 Continents', I did not think that you would also know about it." Ning Cheng found himself to be too excited, and he immediately withdrew his hand. Fortunately, he and Meng Jing Xiu were already familiar with each other, so such a move was really not impolite. Moreover, when Ning Cheng came to the Cang Qin Province, he had come to know about the War of the 3 Continents within a few days, as for the specific situation, when he heard about it from Cang Shuo, he finally understood a few things about it.

"Senior Apprentice Brother Xiao Cheng, actually the Yi Xing Ocean's War is not just the War of the 3 Continents. The War of the 3 Continents is just something that is spoke in the Hua Continent and the other lower class continents, moreover it is just a small part of the Yi Xing Ocean's War. It's just a battle between some small fishes and shrimps. My father was in the Battlefields belonging to the Intermediate Level Continents, and as such had to deal with some of the genuine masters." Meng Jing Xiu corrected Ning Cheng's view.

Ning Cheng had listened to what Cang Shuo had spoken, he had said that Hua Continent was only the rear end of the battlefield, as such the war was not very intense there. They were there to mainly provide some menial assistance in the war. Cang Shuo's father was also there to provide some assistance when he was secretly plotted against by his own people.

“Your father’s cultivation should be very high, right?” Ning Cheng thought that since he could come to the Yi Xing Ocean’s battlefields of the Intermediate Level Continent, then his cultivation would definitely not be bad.

Meng Jing Xiu shook her head as she spoke, “That is not the case. My father’s cultivation is only at Profound Congealing Realm. Moreover, the reason why my father could advance to the Profound Congealing Realm, was mainly due to the harvests and the rewards that he had obtained on the Yi Xing Ocean’s Battlefield. When my father had just joined the Yi Xing Ocean’s War, he only had the cultivation of Late Stage True Condensation Realm. The rewards and harvest of the Yi Xing Ocean’s War were simply too generous and extremely rich, as not only my father, but even the rest of the cultivators that joined, as long as they did not die, their cultivation rapidly soared.”

“Are you a person originally from the Jia Continent?” Ning Cheng had previously guessed that Meng Jing Xiu might be a person from the Jia Continent, otherwise her father would not be able to participate in the Yi Xing Ocean’s War from the Jia Continent.

“That’s right, when I was four years old, the Yi Xing Ocean erupted in a war on an extremely large scale. I heard my mother say, that countless cultivators from the Yi Xing Ocean and the Monstrous Beast arrived at the coasts of the Yi Xing Mainland. My father was not optimistic in winning this fight, so he made me and my mother go to the Hua Continent along with a merchant caravan that went through the Yi Xing Ocean.....”

“Wait Wait.....” Ning Cheng immediately grasped the focus of Meng Jing Xiu’s words, since Meng Jing Xiu and her mother had taken a merchant caravan through the Yi Xing Ocean from the Jia Continent to the Hua Continent, then could he also not do the same?

Meng Jing Xiu looked at Ning Cheng and spoke in an affirmative way, “Senior Apprentice Brother Xiao Cheng, you should be able to understand my meaning. To get to the Hua Continent from the Jia Continent, besides passing through the Lost Mountain Range, there is another way, that is to go from the Yi Xing Ocean. However, if you want to take the Yi Xing Ocean’s merchant caravans from the Yi Xing Ocean, it would generally be difficult to infiltrate the merchant caravan, as these merchant caravans and the thousands of Cultivator Army Battalions have an extremely intricate relationship with each other. Initially the reason why my mother was able to take me on the merchant caravan to the Hua Continent, was because the power that my father wielded at that time was not small, moreover he also knew the people of the merchant caravans, and as such he could make the appropriate arrangements.”

Ning Cheng was a little disappointed and said, “Since we do not know anyone from the merchant caravan, moreover we also do not have any relation with the cultivator army, wouldn’t it be too difficult to join the merchant caravan to return to the Hua Continent?”

“That’s not it, Senior Apprentice Brother Xiao Cheng, in fact, in addition to joining to the merchant caravan, there is another way, and that is to join the cultivator army. Then find a way to enter one of the patrol squads, the airships of the patrol squad are high level ones, moreover the speed of it is also very fast. Most importantly, besides being stopped by Monstrous Beast, the patrol squad would have an unimpeded flight all across the Yi Xing Ocean. As long as Senior Apprentice Brother Xiao Cheng is able to follow the patrol squad to the Hua Continent’s territory in the Yi Xing Ocean, then you can escape from

the military service, and secretly enter the Hua Continent. Before I used to think of this way to enter the Jia Continent, but now it is simply irrelevant.”

Listening to the end of Meng Jing Xiu’s words, Ning Cheng did not reply immediately, he knew that although Meng Jing Xiu was clever, but her life experience is simply too poor.

Although Meng Jing Xiu’s approach seemed to be very good, moreover it was even workable, but Ning Cheng knew that there was loophole in there that was not small.

Not to mention that a patrol squad would not patrol such a large distance, the cultivators stationed in the Yi Xing Ocean and mainland that have already joined the military, would have certainly formed a certain system and restraint mechanisms. For a patrol squad of the cultivator army to casually go out, although it looked easy, in fact, it was not easy at all.

However, compared to passing through the Lost Mountain Range, this approach was actually much better.

Seeing Ning Cheng silent, Meng Jing Xiu once again spoke, “Senior Apprentice Brother Xiao Cheng, if you can join the cultivator army, then find an opportunity to join the patrol, you could even get to the Hua Continent in as long as six months or even less. At most it would not take more than a year, as such it is definitely much more worthwhile than crossing the Lost Mountain Range.”

“Then that’s good, Junior Apprentice Sister Jing Xiu, then this the thing that we will do. First we will go the coast of the Yi Xing Ocean, if we can join the merchant caravan then that would be the best, if we cannot join the merchant caravan then we can join the cultivator army. From here to the Yi Xing Ocean’s coast, how long would it take?” Ning Cheng spoke as he quickly made up his mind.

When Meng Jing Xiu saw that Ning Cheng had agreed, she immediately spoke with joy, “Senior Apprentice Brother Xiao Cheng, this is the Mo La River. From here we have to go to the Jia Continent’s Chang Mo City, it will take us about five days. After we reach Chang Mo City, we can then take the Transfer Array, and directly teleport to Xi Hai City that is closest to the Yi Xing Ocean. Xi Hai City has a recruitment station for recruiting cultivator soldiers, moreover there is a lot of caravan activity there, so we can try our luck in the Xi Hai City.”

“When you reach the Xi Hai City, what would you do?” Ning Cheng knew that Meng Jing Xiu wanted to seek out her parents, but just how many cultivators were there in the Jia Continent’s Garrison? It was simply innumerable; just where would she look? Besides, who knows if after all these years, her father was still in the Jia Continent’s territory of the Yi Xing Ocean?

“When I was nine years old, my mother came back alone to the Jia Continent to seek out my father. I believe that they must have stayed in Xi Hai City, I will slowly look around the Xi Hai City.” Meng Jing Xiu spoke in a resolute manner.

Seeing that Meng Jing Xiu had already decided, Ning Cheng also did not say much, but still spoke in a cushioned manner, “It is possible for us to go to the Xi Hai City, but we will have to disguise ourselves, if by chance we were discovered by that cultivator surnamed Kang, then that would be the death for us.”

.....

The Jia Continent was sparsely populated, even walking for hundreds of miles, it was normal to not meet even a single human soul.

At this time in the Jia Continent, on the edge of a narrow mountain path, there was a middle aged couple walking rapidly. The man's hair was somewhat disorderly, and there was even a faint scar on his face, while he carried a long twin bladed sword on his back that looked very heavy. The rough hands along with the knife scar on his face, made people feel a ferocious aura emanating from this middle aged man.

On the side of this middle aged man was a middle aged woman wearing a blue woman's robe, this woman's looks could not be considered ugly, but it also did not have the look of a delicate skin that indicated that she was a refined lady. It was obvious, that this couple was actually a mercenary couple.

"Senior Apprentice Brother Xiao Cheng, somehow I feel that there is something not right here, this feeling is something indescribable." The speaker was the woman in the blue robe.

These two people were none other than Ning Cheng and Meng Jing Xiu, both of them had decided to disguise themselves as a mercenary couple. Such kinds of mercenary couples, no matter which continent it was, they were innumerable numbers of them, and as such were simply unremarkable.

More importantly, Ning Cheng did not dare to fly, or even use a flight type Magic Weapon. At this time, if he took out his flying sword to fly, it would be really showing off himself as a target.

Ning Cheng spoke in an extremely low voice, "There is something truly wrong with this place, I can feel that there is not even a single sound here. Not even a tiny little voice, or even the sounds of animals and birds moving around."

"Senior Apprentice Brother Xiao Cheng, can you use your flying sword to fly now? I really do not like this place." Meng Jing Xiu asked in a low voice.

Ning Cheng shook his head, "I have already tried, there is a huge magnetic field here, that is creating a naturally occurring Spatial Restriction, one cannot simply fly high, or even fly quickly, moreover even one's Spiritual Consciousness is limited here. Once we fly, we would be completely exposed. Let's put that thought away for now, we have to pick up our speed."

### [The Gate Of Good Fortune](#)

#### **Chapter 158: The Grave Which Was Split Open**

With Jing Xiu sticking close to Ning Cheng, the two of them picked up their speed. However, this mountain path seemed to go on endlessly, moreover they had been walking for almost a full day, and the sky was already getting dark gradually, but they still had not gotten off this mountain path.

"Senior Apprentice Brother Xiao Cheng....." Meng Jing Xiu felt that something was not right, as she subconsciously called out. Even if she had to face death, she was not afraid, but this strangeness made her feel really uncomfortable to the point that she could not adapt to it.

Ning Cheng stopped, as he looked at the surrounding around him and suddenly said, "Junior Apprentice Sister Jing Xiu, I think that we do not need to go up. It's not that this mountain path is very long, it's that both of us have entered an Illusion Array."

"Illusion Array?" Meng Jing Xiu subconsciously repeated the words, she did not understand Array Formations, and as such did not know the fearful nature of an Array Formation. Once people who understood that they have entered an Illusion Array, then even if they wanted to come out, it would be extremely difficult. Even if it was not controlled manually, for a person to enter an Illusion Array, it was still quite possible that they may end up dying.

Ning Cheng hinted Meng Jing Xiu to not be anxious, "Junior Apprentice Sister Jing Xiu, we have not necessarily entered the Illusion Array, perhaps this path really is very long. I also know a thing or two about Array Formations, if it really was an Illusion Array, then I should have already perceived it. Since I have not perceived it, then it indicates that it is not necessarily an Illusion Array."

"What do we do then?" It was not until this point Meng Jing Xiu realised how difficult was it for a person in the Jia Continent to travel to the Yi Xing Ocean. If it was only her, then she really would not have known what to do.

"You don't need to worry, the sky is already dark, for the moment we will spend the night here tonight, tomorrow we will continue again. The Spiritual Qi in this place is thin, so properly speaking there won't be any cultivators with good abilities that would come in this direction. Only ordinary cultivators would most probably tread this path, as long as our opponent is not of the Profound Congealing Realm. They it would not be worth to be so cautious about." Ning Cheng spoke in an extremely stable manner.

This time Meng Jing Xiu was not assertive. It was, of course, mainly because of the things that Ning Cheng said. While partly because she simply did not know what to do.

Half an hour later, they left the winding mountain path, but on the contrary, entered into the depths of the mountain range.

"Senior Apprentice Brother Xiao Cheng, this place is so strange, why do we have to come this deep to dig out an Immortal Cave?" Meng Jing Xiu knew that Ning Cheng wanted to dig an Immortal Cave deep in the mountains, and asked in a somewhat puzzled manner.

Ning Cheng laughed and spoke, "My hometown has a few words, the more dangerous the place the safer it is. It should also apply here, but I on the contrary feel that staying overnight on the side of the road is kind of inappropriate."

At this time, a burst of clip clop like sounds were transmitted, Meng Jing Xiu's heart immediately became tight, as this was the first sound that she had heard after she entered this barren piece of hill. Unconsciously she came closer to Ning Cheng, as she thought since when did this place have footsteps? If it was a cultivator, then they would definitely not walk here in the middle of the night.

Ning Cheng patted Meng Jing Xiu and spoke, "I taught you the Concealment Method, use it to conceal your body's aura. There were two different sounds of footsteps transmitted a moment ago, and at least one of the footsteps did not have a source of vitality in them. If it is not a zombie, then it should be a puppet. I have never seen a zombie, so I guess that it is a puppet made by a nefarious cultivator. We may not be able to take care of it right away. Let's wait for this puppet to walk away."

Meng Jing Xiu gave an 'En' sound, as she immediately activated the concealment technique to conceal her body's aura.

After the two concealed their Qi's and aura's, not much time had passed, when in the miserable looking white moonlight, the shadows of two people appeared, these two people were also carrying a wooden box between them. The complexions of the two people under the pale moonlight looked incomparably pale.

"They are dead....." Meng Jing Xiu spoke in a trembling low voice, although these dead corpses were still carrying something between them, obviously they were no different from zombies.

Ning Cheng also spoke in a highly restrained manner, that was 20 times lower than her, "They should be normal dead people, it seems that a cultivator had refined these ordinary people to create a corpse puppet. This cultivator is quite evil and cruel, to abruptly refine a living person into this kind of a walking corpse."

Since he had studied Array Formation, so he had also studied some simple Body Puppet Techniques, so he was aware that to refine a live person into a walking corpse was a kind of Puppet Magic Art. But these magic arts were quite cruel and evil in nature, as such Ning Cheng did not have any interest in continuing to study them.

At this time Ning Cheng's Spiritual Consciousness fell at the wooden box that was being lifted in the middle of the two walking corpses. Seeing the person inside the box, he immediately yelled out in surprise.

"What is it? Senior Apprentice Brother Xiao Cheng?" Meng Jing Xiu quickly asked.

"I know that person inside the wooden box, but how could she be in this place? This woman had gone with Yue Ying and the others, so how could she come here?" Ning Cheng replied to Meng Jing Xiu's words, but it was more like he was talking to himself.

"Who is it?" Meng Jing Xiu quickly asked.

"That woman is the woman from the Wu Nian Academy who had a veil on her face, who had taken Yue Ying, Junior Apprentice Sister Danqin and Cang Shuo, to join the Wu Nian Academy. She had the cultivation of True Condensation 9th Level, moreover she had a Late Stage Essence Building Cultivator at her side, who was extremely powerful, so how could she be captured in such a remote place, moreover it seems that her cultivation is also sealed up?" Ning Cheng replied in a confused manner.

Meng Jing Xiu also froze for a moment, and then immediately spoke out, "Isn't Wu Nian Academy in the Le Continent? Properly speaking, if she was transmitted out, then she should have transmitted to the Le Continent, so how could she be in the Hua Continent?"

After saying this, Meng Jing Xiu knew that she was focussing on the wrong things, the main point was that she was the core disciple of the Wu Nian Academy, if she was here then where did Junior Apprentice Sister Danqin and the others go to?

"Then what do we do?" Just as Meng Jing Xiu asked those words, Ning Cheng suddenly covered her mouth, while simultaneously completely restraining the aura in his body.

Meng Jing Xiu was already incomparably more intelligent than others, moreover she also had a quite an astonishing comprehension ability. As such Ning Cheng did not have to remind her again, she knew what she had to do, as she immediately also completely restrained the aura in her entire body, gradually she

and Ning Cheng integrated into the surroundings, as if they had melted into the grass patches around them.

Just as they completely restrained their auras, a tyrannical Spiritual Consciousness swept towards them. But this Spiritual Consciousness did not stop, but rather quickly swept past them, before disappearing completely in a short while.

Meng Jing Xiu's forehead immediately broke out in cold sweat, she knew that once they were caught by this Spiritual Consciousness, she and Ning Cheng were finished.

Ning Cheng had still not released Meng Jing Xiu, as he spoke in a whispering voice, "This person definitely has the cultivation of the Profound Congealing Realm, however I should be able to deal with him, as at least my Spiritual Consciousness is a lot stronger than his."

After being silent for a moment, Ning Cheng once again spoke, "The difference between Profound Congealing Realm and Essence Building Realm is not only the True Essence that is more formidable, but also the formation of an embryonic form of the Core Lake, if that is only it then it is nothing much at all, but in the unexpected case of him/her cultivating even a bit of a superior intent, then we would not even have a slight chance of winning."

"Senior Apprentice Brother Xiao Cheng, do you want to save her?" Meng Jing Xiu asked in a quivering voice, it was not that she did not want to save the woman with the veil, but Ning Cheng would have to deal with a cultivator of the Profound Congealing Realm to save her life, it was simply an egg being thrown at a rock.

Ning Cheng once again spoke in a whisper, "I must save her, Yue Ying, Danqin and Cang Shuo were together with this person, but now she is captured like this, then what happened to Yue Ying and the others? I had hoped for the God Wind Academy to protect Luo Fei, but now that the disciples of the God Wind Academy are possibly involved in some accident, how can I keep myself out of it? Besides, when I saw her, moreover once again, it can be considered as to be at least acquainted with this person, as such if I saw her in danger and did not at least do something to save her, then it would really be something not decent.

"Then we shall go together." Meng Jing Xiu saw that Ning Cheng had already decided firmly, she also simultaneously spoke from the side.

Ning Cheng nodded, "You be careful while tightly following behind me, remember, regardless of whatever place, we have to conceal our aura. This fellow has most probably just advanced to the Profound Congealing Realm, as such his cultivation is currently unstable, as a result his Core Lake has yet to fully form. As long as we are not discovered by him before we start, then there are some prospects of us succeeding."

If Meng Jing Xiu stayed here, Ning Cheng would definitely be worried about her. He confirmed that the purple robed wearing woman was being delivered to somewhere inside of the mountain, moreover she would be carried to that place by those corpse puppets, however he also confirmed that these corpse puppets did not seem to have come from the mountain.

"Good." Meng Jing Xiu also absolutely did not have any objection. Anyhow she had already decided that regardless of what Ning Cheng decided she would not oppose it.

.....

The two corpse puppets carrying the wooden box entered a more secluded gorge. Ning Cheng and Meng Jing Xiu carefully followed the two corpse puppets, but did not dare to begin yet.

Ning Cheng was clear that he could not use his Spiritual Consciousness to keep a look on the box, as such he had to use all his faculties to keep a close watch on the wooden crate. For him to kill the two corpse puppets was truly simple, but after finishing off the corpse puppets, then wanting to escape from this place would really be difficult. If he wanted to rescue this woman wearing a veil in her face, then he would have to secretly kill that Profound Congealing Realm Cultivator.

He was only an Early Stage Essence Building Realm Cultivator, so for him to kill a Profound Congealing Realm Cultivator, other than him executing a sneak attack, there was no other better way.

The two corpse puppets in front of them turned a corner, Ning Cheng and Meng Jing Xiu also picked up speed, after he neared the two corpse puppets, he suddenly took out the 7 Pleiades Ice Needle. The 7 Pleiades Ice Needle, in just a flash, disappeared in the darkness of the night, although it disappeared right in front of her, Meng Jing Xiu did not perceive Ning Cheng's actions.

After the time it takes for half an incense stick to burn, the two corpse puppets stopped in front of an overgrown grave. The two corpse puppets put down the wooden box and opened it, letting the purple robed woman to fall to the ground in front of the grave.

After completing these tasks, the two corpse puppets lifted the wooden box, as they turned around and walked once again back onto their original path they had taken, it was as if they did not know what exhaustion meant.

Ning Cheng and Meng Jing Xiu had completely concealed their aura as they hid in a thick patch of grass on the periphery of the grave, while turning completely motionless.

At this time the silence of the mountain valley was suddenly broken by some sounds, this was the sound of rustling of a shrub in the wind, but under the backdrop of the pale moonlight, it appeared even more strange.

After this mountain breeze blew past, the tombstone before the grave suddenly split open, as a gloomy aura seeped out from the inside. Then a woman wearing a green dress suddenly appeared in flash from inside the tomb, as she directly went and picked up the purple robed woman lying in front of the tomb, and then turned around before going into the tomb once again.

The grave that had split open, once again slowly closed up.

Just as Ning Cheng saw the grave starting to shut, he immediately picked up Meng Jing Xiu as he, in just a twinkling of an eye, flashed to the inside. Then they immediately hid in a corner, and once again became completely motionless. He was glad that this time that Profound Congealing Realm Cultivator had not used his Spiritual Consciousness to sweep through this passage, if he had swept through with it at this time, then he would have definitely been found out.

Meng Jing Cheng who was still being held by Ning Cheng, once again spoke in a trembling voice, "Senior Apprentice Brother Xiao Cheng, was that woman from a moment ago also a corpse puppet?"

Ning Cheng also quickly replied in a whisper, “No, she was a live person. But her whole body was filled with extremely heavy Yin Energy, I guess that she cultivates some strange Cultivation Method. Junior Apprentice Sister Jing Xiu, from now on, if it is not a particularly urgent matter, it would be better if you did not make any sound.”

Meng Jing Xiu also hurriedly nodded, as Ning Cheng once again went into hiding with her in a more secluded corner. It was not until this time, Ning Cheng finally started to carefully observe the situation inside with his Spiritual Consciousness.

### [The Gate Of Good Fortune](#)

#### **Chapter 159: Extreme Scum of the Society**

Inside the tomb, there was a slanting staircase descending down, but Ning Cheng did not sweep too far with his Spiritual Consciousness, and just extended it to the range of 10 meters. But the staircase was definitely more than 10 meters in length, because of which Ning Cheng also did not continue to search for the bottom. Since at the moment he was in the territory of a Profound Congealing Cultivator, he had to be extremely careful with his actions.

Ning Cheng carefully reviewed every inch of the stone staircase with his Spiritual Consciousness and came to the conclusion that this stone staircase was not build by this Profound Congealing Cultivator. It was very likely that this Profound Congealing Cultivator had found this place accidentally, then discovered that this place was beneficial to him, and as such took it as his own residence.

Ning Cheng, as he went down the staircase of this tomb, carefully arranged an Entrapment and Killing Array along the way, then he carefully and slowly moved down the staircase. Although he was not much dependent on this Entrapment and Killing Array, but just in case he had to escape from his opponent, this Entrapment and Killing Array could at least buy him the precious time that he needed to escape.

This stone staircase was very long, the downward they went the more humid and dark it became. Ning Cheng was really wondering why a Profound Congealing Cultivator would even choose this kind of place. Was cultivating in this kind of place that good?

However, as Ning Cheng went farther down, he slowly understood why the other party would want to cultivate here. This tomb was not only deep and humid, but it had an extremely rich and heavy Spiritual Qi. But this Spiritual Qi was filled with a very vile and evil aura, which made Ning Cheng really uncomfortable.

This was also felt by Meng Jingxiu, but because her cultivation was too low, she could only follow Ning Cheng from behind and as such did not have to bear the brunt of it.

They walked very slowly, and after the time it took for an incense stick to burn, Ning Cheng and Meng Jingxiu finally stepped onto the bottom of the staircase. There was a small stone structure that was similar to a stone hut in front of them, and at all the four corners of the stone structure, there was a burning stove.

Although this stone structure had four flaming stoves, but Ning Cheng and Meng Jingxiu still felt a chill. Even the fire in those stoves was giving out an incomparably cold feeling.

There was a corridor on both sides of the stone structure. Ning Cheng was thinking that he should pick the corridor on the left, but then the corridor on the right gave a “Shen Yin” sound. Ning Cheng hinted at Meng Jingxiu to keep following him, as the two of them carefully ducked into the corridor on the right. At the end of the corridor were two more stone structures similar to houses, that “Shen Yin” sound was coming from one of the stone structure.

[TL Note – The part “Shen Yin” in the above lines was actually written in the raws in English, so we chose to let it be like that. For those who are confused about it, ‘Shen Yin’ roughly means “To moan/To groan”. For more information, you can even google it and see.]

The stone structure did not have any doors, moreover the restrictions placed on it were also not broken in.

Ning Cheng and Meng Jingxiu hid behind the left most corner column. From this point they could clearly see the scene inside the right stone structures through the window like slits on the walls.

But when Meng Jingxiu looked at that scene, she immediately turned red in the face. Fortunately, she was aware of what kind of place they were in, as such she immediately concentrated on concealing her aura. One had to say, Ning Cheng’s Concealment Cultivation Method really went against the heavens, as to whether or not the opposite party had any idea about them, she did not know, but at least for now, Ning Cheng and Meng Jingxiu were not discovered.

In the stone structure that was across from them, there was a dishevelled man and the green robed woman Ning Cheng and Meng Jingxiu had seen earlier, pressed against each other on a wooden bed. Moreover, they seemed to be shaking their body with all their might. That green robed woman’s robe was already torn to pieces, and was lying on the wooden bed crying out “Shen Yin”, they simply did not know if she was crying out in pain or in bliss.

As for that woman from the Wu Nian Academy, the one wearing a veil on her face, she was simply left at the foot of the bed, it seems that the man did not have the time to even look at her body.

Ning Cheng had come from Earth, as such he also had seen some small movies of such things, but this man did not even have half the appeal of the men in those movies. It just made him completely despise him in his heart. But this man’s cultivation was formidable, Ning Cheng guessed that the Spiritual Consciousness that swept out before was originally from this person.

However, Meng Jingxiu was different, she had never seen such kind of thing, so just seeing this kind of thing even for just a short while made her whole body feel somewhat weak. In the beginning Ning Cheng had not minded Meng Jingxiu movements, for a while he even considered Meng Jingxiu to be a man on the outside, as such he had thought that even if she saw such a thing she would not make a fuss about it. However now that Meng Jingxiu’s blood flow had rapidly increased, wouldn’t this invite trouble for them?

The opposite party was a Profound Congealing Cultivator. But he had not yet discovered Ning Cheng and Meng Jingxiu, it was not that their cultivation was powerful, but it was because the Concealment Method employed by the two of them was simply too heaven defying. Furthermore, the two people were doing their utmost to not be noticed, otherwise they would not have been able to reach this far.

It can be said that Ning Cheng's plan was already half done, if at this time, because of Meng Jingxiu's accelerated blood flow, it implied that her heart was beating a lot faster than normal, as such it was likely that they would be found out. If they were discovered by this person then they would be completely finished.

Ning Cheng immediately grabbed Meng Jingxiu's hand. As he carefully channelled some of his True Essence into her to calm down her accelerated flow of blood. But at this time, he did not dare to use his Spirit Cleansing Technique.

Fortunately, Meng Jingxiu also knew that it was an extremely serious matter, as such she forcefully stabilised herself while borrowing the help of Ning Cheng. As her heart's restlessness finally calmed down, she once again completely hid herself in the surroundings along with him.

Ning Cheng heaved a sigh of relief, fortunately this cultivator at the Profound Congealing Realm was completely high on his enjoyment. Otherwise, it would not have been something good for them.

Meng Jingxiu thought that Ning Cheng was going to begin at this time, as according to her it was the best time to make a surprise attack. In actuality, even Ning Cheng, at that time, was taking this into consideration, but the present scene that he was seeing was not something in his calculations. Moreover, he was certain that if at this time he really started acting out his plan, then he would certainly be able to make that Profound Congealing Cultivator eat a huge loss.

As Ning Cheng hesitated whether or not he should act, an angry voice exploded from the outside. Ning Cheng also heard this cold and angry voice, and immediately suppressed his desires of acting out his plans.

That haggard looking man was almost finished, but when he heard the cold and angry voice, he immediately got down from the green robed woman. Before he could even speak, a woman wearing a blue dress immediately landed on the opposite side of the room.

When Ning Cheng saw this blue robed woman, his heart immediately sank, he did not dare to sweep this woman with his Spiritual Consciousness. However, he was sure that the cultivation of this woman, was at the very least at Profound Congealing Realm. If there was only a single Profound Congealing Cultivator, he could still dare to act, but now that there were two Profound Congealing Cultivators here, he began to consider if he really should back away.

"Sikong Kai, you son of a bitch, this old lady had painstakingly helped with all your hard work, and you even carried off this old woman's slave behind my back....." This blue robed woman's expression was extremely angry at the moment, as she even raised her hands and gave two slaps on his ears.

This man called Sikong Kai gave an awkward laugh as he spoke, "Jiao Jiao, I have waited for you for a long while, but you did not come back, moreover this was not something that you wanted to do, so I first....."

"Dog shit....." The woman called Jiao Jiao shouted angrily, as she lifted her hand. The green robed woman seeing her immediately sat up as she awkwardly tried to hide her naked body, but before she could even do anything, that green robed woman was immediately cleaved in half.

This Sikong Kai's complexion immediately became ugly, but he did not attack, but rather said, "Jiao Jiao, since you have killed that person, you should have calmed down right?"

"Sikong Kai, you shameless thing, although this old woman has just killed her today, but tomorrow you will bring a few more here, these kinds of bitches I have already killed too many....." The old woman was still extremely angry.

Sikong Kai grunted, but did not argue, as he turned to that purple robed woman. He casually picked her up from the ground, and threw her on the wooden bed and said, "I heard that this woman has a high quality Spiritual Root, and so will....."

As Sikong Kai spoke, he had already pulled the veil off the purple robed woman's face. But when he saw the appearance of this purple robed woman, he immediately became stunned, as he completely forgotten the words he wanted to say.

Not to say that Sikong Kai was completely stunned, but even the woman called Jiao Jiao was also stunned as she looked at the purple robed woman on the wooden bed. This woman was simply too beautiful, both of them could swear that they had never seen such a beauty in their entire lives.

A face so perfect that it could be said to have come from a beautiful and exquisite painting of the fairies. This simple yet unparalleled beautiful face, even with her eyes closed, would not let a person allow them to shift their eyes from it, once this woman wakes up and opened her eyes, wouldn't her beauty entrance the entire world?

Even Ning Cheng who was looking from afar, was also extremely shocked, but fortunately he knew what kind of danger he was in at the moment, as he immediately curbed the shock in his mind.

Although he had also seen a lot of beautiful woman, his former girlfriend Tian Muwan, as well as An Yi and Yue Ying, and even Meng Jingxiu and Meng Yujing, all of them were extremely beautiful girls. However, Ning Cheng believed that even these beauties were inferior to the purple robed woman before him. Before when he saw only the woman's eyes, he could tell that she was very beautiful, but now the sight in front of him was extremely stunning.

No wonder she must use the veil to cover up her face, if such a beautiful and exquisite face was revealed to the world, it was completely capable of bringing disaster to even an entire country full of people.

"So pretty....." For a moment Sikong Kai muttered those words to himself in a daze.

Jiao Jiao's eyebrows immediately pricked up, she reached out her hand to grab this purple robed woman, as she said, "Since you were saying to me to come earlier a while ago....."

Sikong Kai quickly stepped in front of her, "No, this woman, I have to take this one, after this, I guarantee to you that....."

"Dog shit....." Jiao Jiao immediately called a second time Sikong Kai as 'Dog shit', while she simultaneously raised her hand as a flying sword immediately appeared, the next moment the flying sword immediately released a sword light as it cut towards the purple woman's neck.

"Dang" an impact sound resounded inside this crypt, as it instantly reverberated into a louder sound.

This was because of Sikong Kai using his Magic Weapon to block the attack from Jiao Jiao, it was obvious that the purple robed woman's attraction on him was simply too great.

"Good, Sikong Kai, you unexpectedly dare to lay a hand on this old woman, you, you....." This effeminate woman called Jiao Jiao was really angry, but then she actually turned around and rushed out of the house, and soon disappeared.

Ning Cheng secretly relaxed, he knew that the woman had left this crypt. He only hoped that that woman never comes back during the time that he had to deal with this Sikong Kai.

When this woman left, this Sikong Kai did not care at all, as once again, his eyes fell onto the body of the purple robed woman, while his eyes simultaneously flashed with a joyful and vigorous light. At this moment, in his eyes, there was only the purple robed woman. Ning Cheng patted Meng Jingxiu's hands, as he hinted her to temporarily not move, while he himself carefully moved towards the entrance of the opposite stone structure.

Since he had to sneak attack, then he had to be closer. He knew that at this moment the only option was for the sneak attack to succeed, if it failed then it was quite possible for the three people here to die.

Sikong Kai stared at the purple robed woman for quite a long while, finally he was unable to dispel the fire in his eyes, as he raised his hands and immediately tore off his clothes. Before when he was doing the deed with the green robed woman, he had not taken off his clothes completely, but at this time he simply could not bear to completely strip himself naked.

Ning Cheng was secretly despising him in his heart, with this kind of innocent look on the face of the purple robed woman, the first feeling that cropped up in his heart was that he could not bear to let her get hurt. Moreover, this Sikong Kai simply did not even attend to the corpse of the green robed woman who he was just enjoying himself with and was just killed a moment ago. What was even more disgusting was that he was still in the mood to go on, this kind of guy was simply the most extreme scum of the society that could ever exist.

#### **Chapter 160: Serious Injury**

After Sikong Kai ripped off his clothes, he then extended his hand towards the front of the purple robed woman's clothes. But at this time, from the front piece of cloth on the purple robed woman suddenly a pale and weak light shot out. This light ray's speed was extremely fast, in addition to such a close distance between them, he still hadn't sobered up from his desire, when that light shot into his chest.

When the weak and pale looking ray of light entered his chest, Sikong Kai's True Essence immediately stagnated. He immediately came to know that he was being plotted against by someone, and his first reaction was to first wrap the thing that pierced into his chest. Despite being in a rush, he was only a bit confused, but not nervous.

As a cultivator with the cultivation of Profound Congealing Realm, when that ray of light pierced into his chest, he had immediately realized that it was merely a needle-shaped artefact. Using a needle type artefact to plot against him, it seems that they had grossly underestimated him. As long as he was given just two breaths of time, he could easily extract this needle artefact.

Ning Cheng was already controlling the 7 Pleiades Ice Needle to attack, how could he give Sikong Kai even two breathes time to rest? Even if it was half a breath of time, he would still not give it to him. Almost at the same time the 7 Pleiades Ice Needle successfully completed its sneak attack, a Golden Axe Light simultaneously swept towards Sikong Kai together with it.

This was the Angry Axe's Second Form, [Tornado].

This was not only Ning Cheng fastest attack, but it also utilised his most powerful Axe Intent to kill.

Ning Cheng fully realized that a sneak attack was the main focus in this battle, so when had to strike, then he had to strike to kill, once he entered into a deadlock with the other person, that is if the previous sneak attack failed, then it would really turn extremely perilous for him. In case he had to face him head on with the intent to kill, Ning Cheng was fully aware that he was not a match against a cultivator in the Profound Congealing Realm.

Just as the powerful Golden Axe's Killing Intent took the shape of the tornado, the next instant it directly bombed onto Sikong Kai's Dantian.

This move contained the extremely powerful Angry Axe Type Killing Intent, so when Sikong Kai felt the powerful Axe's Killing Intent, he immediately became startled in his heart. He sensed that this sneak attack was not as simple as he had thought it out to be.

He never considered that the 7 Pleiades Ice Needle was capable enough to approach his Dantian, as a result he simply ignored it and immediately brought out a pitch black Mourning Soul.

"Bang....." An explosive sound of something blasting open resounded throughout the stone chamber, which then immediately blew up the rest of the things in the entire stone chamber.

Just below the stone chamber, when the floor was actually broken open, it revealed a shiny black hole. There was a rancid smell coming from the inside this hole. Ning Cheng and Meng Jingxiu did not need to use their Spiritual Consciousness to observe it, they immediately knew that there were a lot of corpses inside there.

The Golden Great Axe's Killing Intent formed into a tornado by Ning Cheng was unexpectedly blocked by Sikong Kai, and only left a few bloody scratches on Sikong Kai's Dantian area

Meng Jingxiu who was watching from the side, immediately felt her heart sinking, she knew that this Axe Attack was probably Ning Cheng's most powerful move, but such a move could not even wound Sikong Kai, that is to say that today would definitely be fraught with grim possibilities.

Just as Meng Jingxiu understood this and was about to rush up to help, she saw Sikong Kai throw out a punch at Ning Cheng. But Ning Cheng was not in a position to even receive a single punch from this Sikong Kai, it was because the True Essence fluctuations that were coming from the opposite party really had weakened him considerably.

Ning Cheng immediately started to burn his Essence Blood, Meng Jingxiu could see it in one glance. Once the combustion of the Essence Blood was very big, Meng Jingxiu knew that there would be no turning back for Ning Cheng then.

“Peng.....” Sikong Kai’s punch immediately collided with Ning Cheng’s chest, as Ning Cheng was sent flying, while at the same time a sudden booming sound emerged from Sikong Kai’s chest.

Meng Jingxiu quickly ran out. As she immediately caught Ning Cheng, she was immediately shocked to discover that the half of Sikong Kai’s stomach had simply disappeared. Moreover, all the internal organs were completely fried, without any exceptions.

As a bout of weakness washed over him, Sikong Kai’s desire to kill had completely skyrocketed, he had not thought that the opposite party would be so resolute, that he would make the Ice Needle Artefact to explode inside his body.

He must seize the opportunity to kill Ning Cheng, but then Sikong Kai discovered that he could not muster up his True Essence at all, in addition when he saw Meng Jingxiu emerging. He knew that he was no longer in a condition to fight, so he immediately turned around to run away.

But Ning Cheng who was still a bit sluggish could not bear to let him escape as he immediately burned up even more of his Essence Blood, as he immediately wielded the Great Axe with both of his hands.

Another Golden Axe Trace rumble across, but this Golden Axe Trace did not spill out even a bit of Killing Force, as it turned in an extremely thin Axe Shadow as it descended upon Sikong Kai, splitting him apart diagonally from his shoulder down to his waist.

“Puff.....” Sikong Kai’s entire body was split into two halves because of this Axe Chop. But even if this was the case, the top half of Sikong Kai’s body could still unexpectedly move, and in just a twinkling of an eye rushed into the entrance of the stone chamber in which they were fighting and disappeared without a trace.

Ning Cheng also did not hesitate, as he immediately threw out a few pieces of Array Flags, immediately activating the Entrapment and Killing Array at the opening of the crypt entrance. Just a few breaths later, a pitiful scream transmitted to them from the entrance of the crypt before it completely turned silent.

The time it took from the sneak attack to the fight was just a measly few breaths of time, it was similar to a falcon stalking and capturing a rabbit, it was simply abnormally fast. Just as Meng Jingxiu was prepared to lend a hand to help him, the battle was already over. As for the pitiful scream that was transmitted towards them, Meng Jingxiu was very clear about it, it was Sikong Kai’s last dying scream.

Meng Jingxiu knew that Ning Cheng had arranged an Entrapment and Killing Array outside, but she did not know that Ning Cheng had prepared this Entrapment and Killing Array to help them escape if the deed was impossible. Now seeing that Sikong Kai was completely destroyed by this Entrapment and Killing Array, she immediately admired Ning Cheng’s foresight from the bottom of her heart.

But at present Ning Cheng was very weak, as the corners of his mouth were overflowing with bloody froth, but even still he was very clear, that they had to leave this place as soon as possible.

“Junior Apprentice Jingxiu, pick up Sikong Kai’s Storage Ring, we have to hurry up and escape from this place, there is a stone bead on the side of the crypt to open it.....”

Hearing Ning Cheng’s words, Meng Jingxiu immediately woke up from her daze, as she immediately took away the Sikong Kai’s Storage Ring, then moving towards the purple robed woman who was still

unconscious, she picked her up and put her on her back, then grabbing Ning Cheng she quickly rushed out of the stone chamber, quickly coming out of the crypt.

Ning Cheng's injury at the moment was very critical, and as such immediately fainted. If during his sneak attack, if he had not worn the inner armour that was given to him from the old woman, that Sikong Kai's single punch would have been more than enough to kill him a few times over.

.....

Coming out of the crypt, Meng Jingxiu did not dare to turn her head back to look, she only knew that she had to run away from this place with all her might.

The night soon passed quickly, as light started to invade the sky showing the start of dawn, as Meng Jingxiu unexpectedly found herself outside of the mountains, she immediately became joyful as she picked up her speed once again.

As an hour passed by, the sky turned bright, as Meng Jingxiu also saw the first village. She quickly arrived at the outside of the village. But then she immediately stopped herself with a 'Dang' sound, as this entire village gave her a scalp tingling sensation.

This village was incomparably deathly still, it felt even more dismal when compared to the crypt they were in.

Meng Jingxiu used her Spiritual Consciousness to sweep at this village, and could see the remains of the village people inside. The scattered pieces of bodies made Meng Jingxiu cower a bit in her heart, she did not even dare to stay even for a single moment longer, moreover she also did not dare to enter the village, she immediately bypassed the village, as she once again picked up her speed.

When Ning Cheng woke up, Meng Jingxiu was still running. But at this time her face was flushed red, and she was panting and sweating profusely, even her sweat had penetrated into Ning Cheng's clothes. Not only that, even her footsteps were not steady.

Ning Cheng immediately knew that Meng Jingxiu had excessively consumed her True Essence as he spoke, "Junior Apprentice Sister Jingxiu....."

"Senior Apprentice Brother Xiaocheng, you are awake?" Meng Jingxiu spoke in a surprised way, as she stopped.

"En, you should have travelled for a long period of time, so it's Ok to have some rest, right, how long was I unconscious for?" Ning Cheng knew that since his Meridians had been remoulded because of the nourishment from the Mysterious Yellow Origin, so although that punch was really powerful, as long as he woke up, then he could slowly recover, it was only a matter of time.

"I have been running for seven or eight hours, I was afraid that that woman would pursue us, as such I have been running continuously." Meng Jingxiu then turned her head to look at the purple robed woman on her back as she spoke, "She seems to have still not woken up, moreover I also do not know any method to wake her up."

"It should be all right, you don't need to continue and run, we first have to find a place to stay, so that I can start healing." Ning Cheng knew that if he could not recover from his injuries, then with Meng

Jingxiu's speed, even if they ran for several days and several nights, they would not be able to escape from the pursuit of a Profound Congealing Cultivator.

Only when his injuries were completely healed, could he pursue other ways to escape. Unfortunately, he had to blow up his 7 Pleiades Ice Needle, as such he had one less lifesaving defensive weapon in his future.

But after an hour, Meng Jingxiu along with Ning Cheng and the purple robed woman finally arrived in a small town, and settled down in an inn.

Because the purple robed woman was still in a coma, and Ning Cheng was also still injured, Meng Jingxiu wanted to take a large room, so that the three of them could stay in the same place. As such she took a large room, that had two smaller rooms inside, she and the purple robed woman took one of the rooms, so that she could take care of her, while Ning Cheng took the other room for himself.

Because Ning Cheng's serious injuries had not yet healed, so he could only arrange a simple Concealment Array Formation, before he started concentrating on his healing.

As a day passed by, Ning Cheng's condition finally stabilised. Because he was hurt too heavily, so in the case of having no Advance Levelled Healing Pills, he could only slowly recover.

Ning Cheng also requested Meng Jingxiu to not go out immediately, and continue to stay in the inn. As he wanted to tidy up and reorganise the things that he had obtained, especially the two rings and the mirror that he had obtained in the Angry Axe Valley.

Of these three things that he had obtained, Ning Cheng had already wanted to examine them, but he never had the time to do till now. Since for the moment he was free, so he first took out the ring in which the Soul Essence had hid himself. Compared to the mirror, Ning Cheng wanted to know if there was anything good inside the ring.

Ning Cheng was also very clear that this ring was able to accommodate a Soul Essence, as such this ring was absolutely not as simple as it looked. Ordinary Storage Bags and Rings, did not have any means to hold a Soul Essence.

Possibly because the Soul Essence had to frequently come in and out of the ring, as such the restriction placed on the ring was not very complex, and merely in just an hour, Ning Cheng had completely broken the restriction placed on the ring.

When he saw the inside of the ring, Ning Cheng was immediately shocked. He did not know whether to classify this ring as rich or poor.

Inside the ring there were only three things, the first was Pill Furnace, and the second was also a Pill Furnace. But the third thing was an enormous pile of High Grade Spirit Stones, Ning Cheng tried to count it for a bit, and found that this pile of High Grade Spirit Stones was at least several millions in number.

Other than that, it did not have any Spiritual Grasses, Pills, Jade Pieces, or even a Magic Weapon.

Ning Cheng frowned, he was sure that the log cabin would contain some other things, maybe the Soul Essence's Magic Weapon was also hidden there, but he simply had no time to check it out thoroughly. For such a formidable master, it was impossible for him to not have a Magic Weapon. But he could not

find a single one in his ring, moreover he also did not find any other things related to cultivators inside, it showed that this ring that was of that Soul Essence that he had destroyed was different from other rings.

He temporarily did not remove the contents of this ring, as Ning Cheng took out the other ring. This ring, he guessed that it should be that of Han Xian.

Although he had never met Han Xian, but Ning Cheng had a very good impression of her. If not for the Immortal Cave of Han Xian, he would not have advanced this quickly.
