Chapter 181: Strange Little Puppy

At this moment, Nan Yuefang could not pay any attention to the nearby Ning Cheng and Yang Honghuo, as at this moment her complete attention was focused on the Black-Silver Warship that Ning Cheng had taken out. She was already imagining how imposing her Junior Marquis Battalion would look like when they entered the Yi Xing Ocean with this warship.

Yang Honghuo seemed to have thought of somethings, and immediately spoke up, "Junior Commander, General Kong says that we also have to give ourselves a name, does Junior Commander have a good name for us?"

Nan Yuefang heard Yang Honghuo mention something about a name, this was the second matter that she had come here for, and quickly spoke up, "Yes Yes, our Junior Commander Battalion does not have a name at present, as such our name is not very spread out."

When she had come here she was very depressed in her heart, but at this time she actually wanted to immediately lead her Junior Marquis Battalion into the Yi Xing Ocean to get rich as soon as possible.

"A name?" Ning Cheng thought for a moment, and immediately spoke up, "Let's call it God Wind."

"God Wind Junior Commander Battalion, it really is a good name." Yang Honghuo immediately spoke up.

Ning Cheng spoke with a smile, "I will be leaving the barracks for some time, as for the minor affairs of the battalion, you and Junior Marquis Nan can make the appropriate decisions."

Ning Cheng did not want to waste any more time on this, he wanted to get familiarised with the Pu Bu Island, and then find a place to patiently try out his Twin Heavenly Cloud Wings in secrecy.

.....

If not for Ning Cheng knowing in advance that the Pu Bu Island was where the Jia Continent's cultivator army was stationed, he would have thought that this was a huge, prosperous and lively city.

After leaving the barracks and into the streets, he could find crisscrossing streets everywhere, along with all kinds of merchants, shops, restaurants, gambling establishments.....

It was not until this time, that Ning Cheng came to understand that for a person to occupy such a large Junior Commander's mansion was not an easy thing. It seems that, just for him, General Kong Pengpeng had invested a huge amount of capital.

Ning Cheng wandered around the different shops with fascination in his eyes, while in his heart he was lamenting that initially when he was in the Mo Ze City he had not even dared to go out on the street. Life was something that constantly changed. At this time, he was already a 5 Star Junior Commander, and could leisurely walk around in the streets.

It was a pity, that Luofei was not around. If Luofei was here, or if even Ruolan was here, then even if this place was the Pu Bu Island where the cultivator army was stationed, it would not be a bad thing.

“Yi, is that really you?” A wandering voice called out from behind Ning Cheng. Ning Cheng turned around to see that the person who spoke out really turned out to be one of his acquaintances, moreover there was not just one.

Ning Cheng was able to recognize the man who had a short stature, and had the cultivation of Early Stage Essence Building Realm. Ning Cheng had originally seen him in the Angry Axe Valley. There was a woman besides this short man, but Ning Cheng was very familiar with her, it was the Clear Heart Academy’s Yong Guyun. This woman really was able to mix around easily, initially she was from Clear Heart 3 Star Academy but then managed to merge into the Falling Star 5 Star Academy and then from the 5 Star Academy she once again blended into the Celestial Globe 7 Star Academy from the Jia Continent.

As for the short man beside her, needless to say he was also a disciple of the Celestial Globe 7 Star Academy. But at this time he was wearing a Jia Continent’s cultivator army uniform, it clearly showed that he had chosen become a cultivator soldier for the Jia Continent. Ning Cheng could see from the card on his shoulder, that he was named Lao Sheng, and was a 2 Star Second Lieutenant.

Although Ning Cheng had only recently joined the Jia Continent’s cultivator army, but he had stayed inside the cultivator army barracks for a long time, as such he was well aware of the ranking of the officers.

For an ordinary soldier, who had just joined the cultivator army, he would only have a shoulder card without any stars. Only after gaining a certain amount of military exploits, would they be qualified to be promoted to the rank of a red coloured 1 Star Soldier. After that was the orange coloured 2 Star Second Lieutenant. Then a yellow coloured 3 Star Senior Captain.

After that came the ranks of green coloured 4 Star Junior Marquis and green coloured 4 Star Senior Marquis, after which was the 5 Star Rank which was that of the Junior Commander who held a cyan coloured shoulder card. Then came the rank of 6 Star, which were for the Generals and was blue in colour, such as that worn by Kong Pengpeng.

Lao Sheng was just a 2 Star Second Lieutenant. While he was already a 5 Star Junior Commander, the distance was simply too far. Moreover, Ning Cheng could easily guess why Lao Sheng, who was a disciple from a 7 Star Academy, would join the Jia Continent’s cultivator army, this guy was definitely here for the Law’s Way.

Because of the re-distribution of the quotas of the Law’s Way, the Yi Xing Ocean had taken the spots of 400 people. Of the rest of the 600 spots, 300 of those spots were given to the 9 Continent’s cultivator army, while the rest of the 300 spots were given to the people from the High Ranked Academies of the 9 Continents. This Lao Sheng knew that he would not be able to get a spot in his own Academy, which was why he decided to join the cultivator army, his main purpose was to get one of the spots.

“You are not dead?” Lao Sheng looked quizzically at Ning Cheng for a few times, as if he himself could not believe what he was seeing. If Ning Cheng was wearing his uniform, then he could easily guess that Lao Sheng would not dare to speak to Ning Cheng in such a tone.

At this moment, there was a very strange expression on Yong Guyun’s face, as such he was not able to guess what was going on in her mind. Moreover, she could not even see Ning Cheng’s cultivation, but

she had a feeling that after each time she saw Ning Cheng, Ning Cheng's cultivation seemed to be a lot different from before.

Ning Cheng simply did not pay any mind to Lao Sheng, at this point even if was the Celestial Globe Academy's old man surnamed Kang, even if he was from a 7 Star Academy, he did not fear him, so why would he fear a trivial Lao Sheng? What he paid more attention to was that Yong Guyun.

"Ning Cheng, how dare you, when a Pu Bu Island's military officer talks to you, you should give a respectful salute. You insolent man, do you want to go to the Pu Bu Island's prison that badly?" Lao Sheng cried out in a harsh manner.

He knew that he himself was not an opponent of Ning Cheng, and as such he could only dare to use his tongue in such a manner. But he also was aware that Ning Cheng was absolutely a fearless guy that was not afraid of anything. He did not even hesitate to kill the most important disciples of the Red Heaven Academy. If in a one in a million chance, Ning Cheng disregarded the consequences and killed him, then even if Ning Cheng were to be turned into ash later, he knew that he would have already lost the chance to live.

"Shut the fuck up. If you dare to even speak out even a single word from now on, I will definitely slap you into nihility." Ning Cheng spoke up calmly as he swept a glance at Lao Sheng, then once again returned his gaze towards Yong Guyun.

Lao Sheng secretly shuddered as cold sweat poured out of him, but he did not dare to even make a single sound again.

Yong Guyun saw Ning Cheng staring at her, and even Lao Sheng did not dare to speak up in front of him, she could only give a salute to him in and speak in a trembling voice, "This one greets Senior Apprentice Brother Ning."

Ning Cheng spoke in a ridiculing way, "One must not paste gold atop one's face, when was I ever your Senior Apprentice Brother, moreover I dare not try to become friends with this kind of Bai Fu Mei. But since I have met you today, I just want to ask you something. At the time when you came out of the Angry Axe Valley, Cang Shuo along with Yue Ying and the others, what happened to them?"

Ying Guyun did not know what Ning Cheng meant when he said those words 'Bai Fu Mei', and as such quickly spoke up, "They were in the Jia Continent, but did not stay there for long before they were picked up and taken away by the people from the Wu Nian Academy."

When Ning Cheng heard that Yue Ying was alright, he felt relieved in his heart. He simply ignored the two people once again, and continued on with his window shopping.

When Lao Sheng saw that Ning Cheng did not even bother to deal with him, he immediately felt a bit relieved. But then he immediately spoke in a very uncomfortable manner, "Dares to be so arrogant in the Pu Bu Island, see how I take care of him."

Yong Guyun hesitated, and then spoke up, "Senior Apprentice Brother Lao, I think that this Ning Cheng does not seem to be very simple. It would be better to not provoke him."

Although Yong Guyun was very unhappy with Ning Cheng, but after thinking of a few things, she suddenly found that no matter how unhappy she felt because of Ning Cheng, people like him not only

lived well, but even their cultivations would also rise higher and higher. After coming out of the Angry Axe Valley, this Yong Guyun had held an unspeakable fear towards this Ning Cheng.

“Don’t mess with him? This place here is the Pu Bu Island, I’ll let him know the might of a 2 Star Second Lieutenant of the Pu Bu Island.” Lao Sheng spoke up as he felt a bitter hate well up in heart as he looked at the disappearing back of Ning Cheng.

Yong Guyun knew this Lao Sheng’s temper, as such she did not dare to speak anything more. But there was a bit of dissociation in her eyes, although she had joined the Celestial Globe 7 Star Academy, but she discovered that this was not what she had wanted for herself at all. She did not even have time to cultivate, nor did she even feel the joy of becoming a disciple of a 7 Star Academy. Now that she had arrived here, wherever Lao Sheng went, she must also follow. If not for the excuse that she had not yet achieved True Condensation, she would have perhaps already ascended this Lao Sheng.

“Yi.....” Suddenly Lao Sheng jumped up in surprise.

“How about we go and try to look for General Lao at once?” As Yong Guyun recovered, she quickly proposed a suggestion

Lao Sheng quickly waved his hands and said, “This type of minor matter is not something where we would need to ask my uncle, even if it was not a trivial matter, for my uncle to intervene in my place would not be correct for me to earn a place for myself here. I just saw Junior Marquis Duan, he is the one in front of us.”

“It really is Junior Marquis Duan.” Yong Guyun hurriedly spoke up, since she had joined the cultivator army along with Lao Sheng, their residence and everything else, was all arranged for them by this Junior Marquis Duan in front of them.

“Come on, let’s go ask Junior Marquis Duan for help. Junior Marquis Duan has a debt towards my Uncle, and has a rank that is just under the four Senior Marquis Battalions under my Uncle, moreover he is also a Profound Congealing Cultivator. If we use him to go against Ning Cheng, then wouldn’t it be as easy as pinching an ordinary ant? Haha, I’ll have to look at him as he begs for mercy on his knees.....”

.....

Ning Cheng stopped, he saw a pet beast in front of a pet beast stall that was in front of him. Rather to speak more accurately, it was a grey puppy not larger in size than two of his palms put together. Although this thin grey thing was awfully ugly to look at, but this puppy gave a very strange feeling to Ning Cheng.

This little puppy seemed to be staring at him, and truthfully his eyes really looked pitiful to look at, it was as if it’s eyes were crying out with an earnest desire and longing.

Seeing the puppy’s pitiful expression, Ning Cheng could actually understand its feeling. In this Pu Bu Island almost everyone had a pet beast, moreover some people’s pet beasts can even help them in combat. But once the pet beast fell out of favour, they would immediately be discarded or sold out. These discarded or sold pet beasts, would then soon become the cuisine of ordinary cultivators.

What Ning Cheng could not understand was that this street was full of many people that were moving about here and there, but even then this puppy just stared at him.

Ning Cheng had just made his way to this pet beast stall, when a military officer with a very robust body quickly moved past him, and immediately squatted with the intention of stroking the puppy with his hand.

The puppy immediately cried out in alarm, and subconsciously stepped back, but unfortunately it was still in a cage and tied up.

“Hey Hey, this one is really conscious, this puppy I really want to take it.” The cultivator officer gave out a loud laugh, it was apparent that he was becoming even more interested in this grey puppy.

“Yi Yi.....” This puppy’s voice was very strange. Ning Cheng thought that this was definitely not the sound of a puppy. When it heard that that burly man wanted to buy it, it caused it to bark non-stop, moreover its voice was full of anxiety and unease.

Ning Cheng noticed that even though this puppy was barking, but its eyes were still looking at him, and it even seemed that it wanted him to buy it.

Ning Cheng suddenly thought of Ruolan, if there was a chance to return to the Earth in the future, then he might as well bring this pet dog along with him for Ruolan. Thinking of this till here, he also finally came over, before this pet owner even had the time to quote his price, he immediately spoke up, “I want to buy this puppy, what is your price?”

The strong and robust cultivator officer suddenly stood up, as he stared at Ning Cheng and yelled at Ning Cheng in an angry voice, “Are you really blind ah, didn’t you see that this Junior Marquis wants to.....”

Chapter 182: Ning Cheng’s

This Junior Marquis was already a Profound Congealing Cultivator, but at this moment his words suddenly stopped as if they were a flowing water source that was cut off. When he saw Ning Cheng, he immediately recognized who Ning Cheng was.

Lao Sheng, since he had just arrived at the Pu Bu Island, was not familiar with Ning Cheng’s accomplishments, but for the top level cultivator officers of the Pu Bu Island, many of them had already come to learn of accomplishments performed by Ning Cheng. Ning Cheng had killed a noble from the Yi Xing Ocean, and had robbed his Black-Silver Warship. And then again made his way to the Hua Continent on this very same Black-Silver Warship, and successfully killed eight Profound Core Cultivators. Moreover, he had even successfully completely annihilated the Yi Xing Ocean’s cultivator forces that had invaded the Hua Continent.

With regards to Ning Cheng not personally killing the eight Profound Core Cultivators, it was already not important, what was more important was that Ning Cheng had made his way back to the Pu Bu Island all by himself, and was now already a 5 Star Junior Commander of the Yi Zheng Battalion.

In terms of official position, or anything else, a Profound Congealing Cultivator with the title of Junior Marquis simply had no background in front of Ning Cheng and could only behave as a grandchild in front of their strict grandparents.

“Am I the one blind, or are you the one who is blind?” Ning Cheng coldly stared at this Profound Congealing Cultivator and asked just a single sentence. He had previously intended to make this

purchase from this Profound Congealing Cultivator but he had never thought that this guy would jump three feet high like an animal.

This Profound Congealing Cultivator's back immediately broke out in cold sweat, at this moment he really believed that the stories he had heard of Ning Cheng were not at all false at all. To say nothing about the true or false about Ning Cheng killing Profound Core Cultivators, Ning Cheng killing a Profound Congealing Cultivator from the Yi Xing Ocean was already witnessed by a lot of people, and as such he knew that all of those people would not be speaking lies about such a matter. Even if all these things were false, General Kong Pengpeng's appreciation of this Junior Commander Ning was definitely not false.

"It turned out to be Junior Commander Ning, I was blind, I really was blind. Junior Commander wants to buy this pet beast, ah, Junior Commander must have come to pick it up." Although this Profound Congealing Cultivator looked robust, but since he knew about Ning Cheng's background, he immediately took the appearance of a grandchild currying favour from their grandparents.

Ning Cheng simply did not pay any attention to this guy. Such kinds of people were aplenty in the Pu Bu Island. He picked up the cage with the small grey puppy and asked again, "What's the price?"

"10 Low Grade Spirit Stones." The owner spoke with some fear. He could see that this 4 Star Junior Marquis Officer in front of him was speaking as if he was the grandson of Ning Cheng, so when he replied to Ning Cheng, he was somewhat nervous and afraid.

Lao Sheng who was hurrying over, when he saw a scene like this in front of him, was immediately dumbstruck like a wooden chicken. He was already prepared to use this Junior Marquis Duan to vent his own anger, but he had not expected that this Junior Marquis Duan would act like a scared grandchild in front of all the people. Moreover, he had even heard the words of this Junior Marquis Duan, and came to know that this Ning Cheng was already a Junior Commander. Since they had come out of the Angry Axe Valley, how much time had even passed? How did this guy jump through ranks this quickly?

Yong Guyun's complexion once again changed by quite a bit. Even if she regarded herself to be slick and smooth, she did not think that a man like Ning Cheng would ever become a Junior Commander in the cultivator army. Her feelings were sure enough right, every time she saw Ning Cheng who she thought was just about to be trampled under their foot, but in the end, the one's being trampled were in fact they themselves.

Looking at Lao Shao who had spoken something in a low voice before he turned around and was slinking away in a state of dejection, Yong Guyun had a strong impulse, even though Ning Cheng had a Hybrid Spiritual Root, to go up and make friends with him. She knew that she could no longer look down upon Ning Cheng. She also knew that he did not have any relationship with that Su Zhu who slept around, but as long as she could help her, then it would only to be her advantage, and would be more than worthy for her to become friends with him.

But she was more than aware that Ning Cheng would definitely not have her. Finally, after giving out a long dejected sigh, she also turned away to leave.

Ning Cheng already had known that Lao Sheng had been following him. But he simply did not care about him who was just a red coloured 2 Star Second Lieutenant. He simply took out the 10 Low Grade Spirit

Stones paid for the puppy. This was the first time for him to buy a puppy, so as soon as he bought it, he immediately removed the puppy's cage.

"Although this pet beast looks gentle, but it is actually very fierce, do not remove the cage....." When the owner saw Ning Cheng readily opening the cage, he hastily went ahead to put in a word to remind Ning Cheng. But just as he found that the pet beast was now without a cage, it immediately ran around Ning Cheng's feet. The following words that he wanted to speak up simply could not be justified.

Ning Cheng just smiled and left, while the grey puppy closely followed behind him. Even if it was flitting left and right all around him, it had a very proud expression on its face showing that it was very satisfied.

They even strolled along for quite a while, and Ning Cheng, other than buying a Spirit Beast Bag, did not buy any other thing. As for a flight type magic weapon, he had simply selected a Low Grade Spiritual Artefact from the spoils of war of the cultivator army. As for the other things, there was basically no need to purchase.

As for the purchase of the Spirit Beast Bag, it was entirely in order to hold the small grey puppy.

Ning Cheng had planned to buy some food for the small grey puppy to eat, but he did not expect that this small grey puppy would not eat solid food, moreover it even did not eat meat. So he took out one of the Returning Qi Pill that he had refined as an experiment, which it immediately swallowed down in excitement.

Did this puppy already know that he was a Tier 1 Ordinary Pill Master? So it wanted to follow him? In any case, Ning Cheng had already come to know that this puppy only knew to eat pills, as such it was definitely no ordinary puppy.

Ning Cheng had originally come out to try out his Twin Heavenly Cloud Wings, but seeing the alertness around the Pu Bu Island, he immediately dismissed this idea.

The Twin Heavenly Cloud Wings were completely different and unlike from the other things of similar nature, once it was discovered by a person, then they could immediately make a move to take them away. Moreover, Ning Cheng also did not dare to go deep into the Yi Xing Ocean to try them out, he knew that the depths of the Yi Xing Ocean were a place that contained high ranked monstrous beasts everywhere. Once he met a high ranked monstrous beast, then not to mention testing the Twin Heavenly Cloud Wings, he would just end up becoming a meal for that high ranked monstrous beast.

.....

Coming back to his Junior Commander's Mansion, Ning Cheng did not go look for Nan Yuefang and Yang Honghuo. He immediately went into closed door cultivation in order to study Alchemy. Moreover, for Ning Cheng to go into seclusion to study Alchemy, it was more of a last-ditch action.

This Island of Pu Bi was a place where the Jia Continent's cultivators were stationed, moreover this island also contained too many experts. As such he did not dare to cultivate heartily. Once he started to cultivate here, even if he did not arrange a Spiritual Gathering Array, some of the people here would quickly take note of him.

After going into seclusion Ning Cheng refined Level 1 and Level 2 Pills continuously for 3 months. After 3 months, he was already able to refine Level 2 Pills. Moreover, now whenever Ning Cheng wanted to refine Level 1 and Level 2 Pills, he did not need to use any kind of Pill Art.

During these three months, the most comfortable was the small grey puppy, who was freely eating all kinds of pills. This fellow has eaten so many pills, but for some reason was still so small, but his eyes were getting brighter and brighter, and his belly getting rounder and rounder. Ning Cheng decided to give it a name, and called him Grey Toot Toot.

Ning Cheng knew that there was still some time for the Law's Way to open, as such he was prepared to continue his secluded cultivation and study till he could refine Level 3 Pills without any Pill Arts.

But at this time, Yang Honghuo sent a message to him.

Yang Honghuo knew that he had went into closed door training, if not for a particularly important matter, he absolutely would not take the initiative to call out to him.

After Ning Cheng came out, he came to know that Nan Yuefang was injured. Not only was she injured, but her injury was also very serious, moreover even the Black-Silver Warship was also snatched away from her.

"Did the Yi Xing Ocean's cultivator army attack again?" This was the first response of Ning Cheng. Nan Yuefang was a person from the Pu Bu Island, moreover was a person from the Jia Continent's cultivator army, so when he heard that she was injured, he immediately thought that it was because of the Yi Xing Ocean's cultivators, and did not think of any other person.

"No, she was fighting in a challenge issued to her by Chang Battle Battalion's Junior Marquis Wei Peng. Not only was she wounded, but he also won Junior Marquis Nan's Black-Silver Warship." Yang Honghuo quickly spoke from the side.

Ning Cheng raised his eyebrows a bit, as he frowned and asked, "There are only soldiers from the Jia Continent's cultivator army stationed here at the Pu Bu Island, but they can even challenge others to rob their things? Moreover, even severely wound the people?"

Yang Honghuo hastily spoke up, "Yes, this is not only true in the Pu Bu Island, but it is the same throughout all the 9 Continent's cultivator army, all of them can bet something in the form of ordinary duelling challenges. But there is also a requirement, that is, the cultivators that are higher up in rankings cannot challenge those that have lower cultivations. Only cultivators having a lower cultivation level can challenge cultivators of a higher cultivation level, moreover the challenges would be such that, as long as it would not affect the foundations and life of the opposite party, it would not be against the rules. Moreover, the high level cultivators also have the option to refuse the challenge."

"Then when Nan Yuefang was challenged by the Chang Battle Battalion's Wei Peng, was it because he wanted our Black-Silver Warship?"

"That's right, because we had the Black-Silver Warship, our harvests from the sea had surged during these three months, moreover during these three months our God Wind Battalion's income had been the highest among the rest of the Junior Commander Battalions, which resulted in arousing the interest of the other battalions. Moreover, that Wei Peng's origin is also unusual, as he is a Junior Marquis that

fighters under the banner of Chang Battle Battalion, which is one of the three major Battle Battalions stationed here. The status of a Battle Battalion is also much higher than that of the Yi Battalions, as such the people in the other battalions do not dare to mess with them.”

“Three big Battle Battalions?” Ning Cheng had yet to fully understand in detail about the Jia Continent’s cultivator army, so now when he heard Yang Honghuo speak about the three big Battle battalions, it was something that he did not know.

Yang Honghuo patiently explained, “There are ten enormous battalions of the cultivator army stationed here in the Pu Bu Island, and the number one battalion among them, is the Kong Hui Battalion. It is then followed by the three major Battle Battalions, Zhi Battle Battalion, Chang Battle Battalion and Kai Battle Battalion. Followed by the six big Yi Battalions, Yi Zheng Battalion, Yi Hai Battalion, Yi Ming Battalion, Yi Fei Battalion, Yi An Battalion and Yi Cheng Battalion.”

“If that is the case, then why did Yuefang accept the challenge?”

“Wei Peng said that the reason Junior Marquis Nan had obtained the Black-Silver Warship, was because she had slept with you. This accusation directly inflamed Junior Marquis Nan, and she immediately agreed to the challenge.”

Ning Cheng nodded and spoke in a calm voice, “I know now, you go to the Chang Battle Battalion and issue a challenge to Wei Peng, saying that I, Junior Commander Ning of the Yi Zheng Battalion wishes to challenge him. My cultivation level is only at the Essence Building Level, which is far less than his own, as such this challenge should be well within the rules.”

“Junior Commander, you wish to challenge Wei Peng? Wei Peng has the cultivation of Profound Congealing 5th Level.” Yang Honghuo asked, no one here was more familiar with Ning Cheng than he was. As since the beginning of the war, he had been with Ning Cheng. Although he knew that Ning Cheng can unexpectedly overcome and defeat Early Stage Profound Congealing Cultivators, but Wei Peng was at Profound Congealing 5th Level, how was this even a challenge?

Although there were rumours circulating outside that Ning Cheng had killed 7-8 Profound Core Cultivators, but Yang Honghuo who was in the middle of it, clearly knew what had transpired. Rather, it was five Profound Core Cultivators that were killed under the joint ambush by Ning Cheng using his Hidden Serial Killing Array and the remaining three Profound Core Cultivators on their side. Even though Ning Cheng had not attacked from the front, he was also injured several times during the process.

From his point of view, his Junior Commander should not even be an opponent of a Profound Congealing 5th Level Cultivator.

Ning Cheng simply patted Yang Honghuo’s shoulder and said, “You don’t have to worry, I will soon be leaving for the Le Continent’s Law’s Way. Once this battle finishes, you will hold the position of a 3 Star Senior Captain in our God Wind Junior Commander Battalion.”

As Yang Honghuo heard Ning Cheng’s promise, he was somewhat excited in his heart, but was also filled with some worry. His exciting time in following behind Ning Cheng was not long, but his rank just like the speed of the Black-Silver Warship was soaring daily. What he was worried about most was, although Ning Cheng wanted to challenge the Profound Congealing 5th Level Wei Peng, once he lost, not only would Ning Cheng be ruined, but even the entire God Wind Battalion, and even the Yi Zheng Battalion

might end up getting destroyed. Because of this there was a full possibility that Yang Honghuo may return to his past once more.

Although he was worried in his heart, that Yang Honghuo still hurriedly proceeded to help Ning Cheng with his letter of challenge. For a cultivator in the cultivator army, obeying orders was the first and foremost military command.

The Yi Zheng Battalion's newly promoted Junior Commander Ning Cheng who is at the Essence Building 4th Level, wants to challenge one of the three major Battle Battalions, the Chang Battle Battalion's Junior Marquis Wei Peng, who is at Profound Congealing 5th level. This news immediately spread like the wind, and within a short period of time, spread throughout the entire Pu Bu Island. Almost every cultivator residing there received the message, and immediately rushed towards the Duelling Platform of the cultivator army in the Pu Bu Island.

Chapter 183: Life and Death Duel

"WHAT? You said that new Junior Commander Ning really dares to challenge me?" In a Junior Commander Mansion of the Chang Battle Battalion, a middle aged man wearing flowery clothes could not believe what he was hearing, as he immediately stood up, and spoke with a slightly excited voice.

This middle aged man with blue hair, thick lips and small ears, was one of the three major Battle Battalion's Chang Battle Battalion's 4 Star Junior Marquis Wei Peng, who was at Profound Congealing 5th Level, who had initially found an excuse to challenge Nan Yuefang, and then rob the Black-Silver Warship from her.

"Yes, Junior Marquis, it is even scheduled this afternoon." A big breasted female cultivator had taken the letter of challenge from Yang Honghuo, before respectfully handing it to Wei Peng.

Wei Peng had first ripped open the letter of challenge, and just swept a glance at it, then threw the letter of challenge to one side, and immediately laughed as he spoke, "He really has the guts that covers the heavens, first he deceives everyone with the matters of the Hua Continent, and then actually does not even give face to this Wei Peng. Initially I had seen the fight between him and the Yi Xing Ocean's Profound Congealing Cultivator, and knows that the only reason he was able to win was because he could easily suppress the other party's magic weapon, otherwise with that person's cultivation of Early Stage Profound Congealing Realm, he would not be even able to take a single hit. Even so, he unexpectedly dares to challenge me, Wei Peng. Moreover, he also dares to issue only a general challenge, it seems this one is just unaware of the fact that he is simply a so-called domestic animal."

Wei Peng simply laughed and said, "Go and call that Lao Sheng."

"Second Lieutenant Lao and his friend have been waiting outside, and are ready to come in." The big breasted woman hurriedly added.

"En, that's good too, the more you work to my satisfaction, the more you will be rewarded with food and drink in the evening." Wei Peng smiled, and leisurely walked towards this big breasted woman. Once he reached behind her, he put his hand on her ass as he caressed it for a short while before giving it a hard squeeze and saying, "Go and call them to come here."

“Yes.” That big breasted female cultivator backed out without the slightest expression, it was as if Wei Peng squeezing her ass a moment ago was simply an ordinary gesture to her.

A moment later, Lao Sheng came in along with Yong Guyun. When Lao Sheng saw Wei Peng, he hurriedly gave a respectful bow to him, “Yi Hai Battalion’s Lao Sheng greets Junior Marquis Wei.”

“Second Lieutenant Lao you don’t have to stand on ceremony like this, this is?” Wei Peng’s two eyes were continuously staring at Yong Guyun who was at the side of Lao Sheng.

There really were not many beautiful women on the Pu Bu Island. Even that Nan Yuefang, although she was not stunning but he had coveted her for a long time, moreover the only thing that was intolerable and unbearable to his heart was that Nan Yuefang’s body was simply too exquisite and wonderful, but he assured himself that sooner or later she would just become a thing in his arms. But when at present he saw the woman who had arrived with Lao Sheng, his eyes couldn’t just help but light up.

How could Lao Sheng not know the meaning behind the words spoken by Wei Peng, although he was not afraid of Wei Peng, but this time he had wanted to kill that Ning Cheng using Wei Peng, because of which he had to act submissive so as to ask help from the others.

When Yong Guyun heard Wei Peng ask about her, she immediately bowed and spoke, “This humble person is Yong Guyun, a disciple of the Celestial Globe 7 Star Academy.”

Hearing that Yong Guyun was from a 7 Star Academy, Wei Peng immediately became somewhat uncertain, if behind this Guyun was a Soul Essence Elder, then he absolutely cannot make a move on her. Moreover, if she was the woman of Lao Sheng, and Lao Sheng was not willing to cede her to him. Then also he had no other alternative. As this Lao Sheng’s backer was not small at all, and it was definitely not worse than his own.

Moreover, if they talked about relationships, then this Lao Sheng in front of him was the nephew of the Yi Hai Battalion’s General Lao Yu. Moreover, he also is favoured by the Chang Battle Battalion’s General Ni Gang.

Strongly repressing the restlessness in his heart towards Yong Guyun, Wei Peng simply smiled and spoke, “Second Lieutenant Lao please sit down. For Second Lieutenant Lao to come personally to me must be because Second Lieutenant Lao wants to confirm something from me right. By the way, you should have also known that Ning Cheng had challenged me, right?”

Lao Sheng obviously knew about this thing, he had already planned on making his move in this matter, so when Ning Cheng had taken action, how could he not know about it? He swallowed his excitement, and spoke with a sonorous voice, “That Ning Cheng simply over reaches himself. With a trivial Intermediate Stage Essence Building Cultivation, he dares to challenge Junior Marquis Wei.”

Wei Peng smiled, “That cannot be said for certain. This Ning Cheng had somehow managed to kill a Profound Congealing Cultivator, moreover this was seen by a lot of people. Although I accepted the challenge given out by this Ning Cheng, but it also has its own risks.”

Lao Sheng spoke up in a hurried manner, “Although Ning Cheng has cultivated from the Qi Gathering Realm to the Intermediate Stage Essence Building Realm, but it had not even taken him a full three years to achieve that, this person really must have a huge secret on his body.”

Wei Peng also spoke without showing any approval or disapproval, “Advancing from Qi Gathering Realm to Essence Building Realm in 3 to 5 years, this is something that I have seen before.”

“But that Ning Cheng’s qualification is dirt poor, Guyun here knows about this even more clearly than me, moreover when he had met her for the first time in the Ping Continent, his cultivation was not even as good as Guyun’s. Guyun is still at the Qi Gathering Realm, but that Ning Cheng is already at Essence Building Realm, which is completely abnormal.” Lao Sheng eagerly spoke out.

Yong Guyun darkly sighed in her heart at this dullard called Lao Sheng, it really was regrettable that she could only climb up by relying on this dullard. She immediately spoke up, “Whether Ning Cheng was hiding his cultivation or not at that time I am not very clear about this, but I heard that he has a very powerful Concealment Cultivation Method, perhaps he was already at the Essence Building Realm when I had met him in the Ping Continent. But because he might have been hiding his cultivation using that method, as such I could not see it.”

Wei Peng smiled and spoke, “Even if he concealed his cultivation level, he is still only an Intermediate Stage Essence Building Realm, he is simply akin to a dish of vegetable in front of my eyes.”

Saying that, he looked at Lao Sheng and spoke, “Second Lieutenant Lao do not worry, even if I have to take some risks, I will definitely kill that Ning Cheng. As for that Ning Cheng’s things.....”

Lao Sheng spoke to himself in his heart, hadn’t they already reached an agreement before? If Ning Cheng had some things, then he would take 10% of it, while the rest of the 90% would belong to Wei Peng. If there was Cultivation Method among them, then it would be shared between the two men, then why would Wei Peng once again bring up this matter?

But Lao Sheng soon understood what was going on, he could see that Wei Peng’s eyes would, from time to time, sweep at Yong Guyun. Compared to Ning Cheng’s Cultivation Method, what was Yong Guyun to him? How many beautiful women had he not seen, moreover Yong Guyun when compared to the some of the women who came from the Hua Continent, there was simply nothing extraordinary about her at all. Yong Guyun, when compared to that Meng Yujing, simply was miles apart, moreover there was still that Yue Ying.

He had only thought about this only for a second, before he spoke, “The Law’s Way is about to open, and I also want to go to the Law’s Way, but my accommodations of being a Second Lieutenant is very simple. I’d like to request Junior marquis of just one thing, although Guyun lives with me in my Second Lieutenant’s Mansion, once I go to the Law’s Way it would not be very safe for her in there. Can I ask Junior Marquis to provide a place for Guyun to live in your Junior Marquis’ Mansion?”

Yong Guyun’s heart immediately filled with sorrow, if she could really climb up using this Junior Marquis, then it was another thing. But she was also a smart woman, how could she not see that the eyes of this Junior Marquis Wei were just filled with naked and bare desire? In the end the only outcome for her was obviously of being played till he’s full before discarding her.

“Junior Marquis Wei will certainly also be going into the Law’s Way, if my stay in the Pu Bu Island is not very safe, then you can be assured that I can return back to the Celestial Globe Academy.....”

Yong Guyun's words did not finish, when it was interrupted by Wei Peng's laughter, "Haha, Junior Sister Guyun, you don't have to worry, my Junior Marquis Mansion is very big, even if I am not here, you can feel at ease staying here."

When Wei Peng heard Lao Sheng's words, he could clearly tell now that this Yong Guyun did not have any background, and as such immediately calmed his heart down as he spoke, "So that's how it is, after my battle with Ning Cheng, you can then come and live here with me in the evening. For now, let us both go to the Duelling Plaza, and see how I get rid of this Junior Commander Ning, haha....."

.....

Once Nan Yuefang was able to walk, she hurriedly rushed towards the Duelling Plaza of the Pu Bu Island. After she obtained the news, her first thought was to immediately stop Ning Cheng. Wei Peng was definitely not an ordinary Profound Congealing 5th Level Cultivator, if he was an ordinary Profound Congealing 5th Level Cultivator, then she would have not lost. Even if Ning Cheng must fight, she had to inform Ning Cheng about Wei Peng's killer weapon.

It was a pity that when she came to the Duelling Plaza, she was only able to see Yang Honghuo. While Ning Cheng was standing on the Duelling Platform, and was leisurely walking around on the stage as if without a care in the world.

Nan Yuefang sighed, she really did not want Ning Cheng to participate in this kind of battle. Generally during a duel, the one who came later to the duel would definitely have a bigger psychological advantage. The earlier one arrived at the stage, the more anxious would they be perceived by others, moreover they would unknowingly be slaving away a part of their fighting spirit.

At this point, Ning Cheng who was walking around the stage, clearly portrayed to her that he was anxiously waiting.

The Duelling Plaza had long since been filled with people already, but the duel was still far from starting. But Ning Cheng was already on the stage and was even walking around on it, which made some of the people very disappointed as they had come to look at the person who issued the challenge. Seeing such a scene, they felt that this Junior Commander Ning was really unworthy of his name.

As the time it took for an incense stick to burn passed, Ning Cheng still did not look like he was in a hurry, and was still leisurely walking around the Duelling Platform. Few of the people were already whispering, that if this Wei Peng did not come, then for Ning Cheng to take a leisure walk like that really made great sense. For him to take such a leisure walk was not a sign of anxiousness, but rather a sign of provocation.

But everyone's talk did not last very long, when Wei Peng's laugh arrived first before the person came into view.

Wei Peng finally came to battle at the Plaza, as he immediately dived onto the Duelling Platform, then standing up on the Duelling Platform, he cupped his fists towards all the people who came to observe the fight all around the platform.

At last he finally turned to Ning Cheng and spoke, "Junior Commander Ning, the letter of challenge that you had sent has been received by me, as such I have come here to accept your challenge. But the letter

of challenge that you wrote was just a common challenge, do you dare to challenge me in a Life or Death Duel? Of course, if you do not dare to, I will definitely leave behind your sorry excuse of a life.”

When the people all around the big Plaza heard Wei Peng’s words, each and every one immediately spoke out loudly, “The Life and Death Duelling Challenge, be sure to take up the Life and Death Challenge, ordinary challenges simply have no meaning……”

Ning Cheng had not known that there really were two kinds of challenges, Ordinary and Life and Death Challenges, as he recalled Yang Honghuo’s words, it seems that what Yang Honghuo proposed was an ordinary challenge. But this Yang Honghuo, actually did not mention to him about the Life and Death Challenges. Ning Cheng was very dissatisfied as he glanced at the now nervous Yang Honghuo from the corner of his eye, but he knew that Yang Honghuo did this in order to not want him to take such a risk, but at least he should have told him about this kind of rule.

“What is this Life and Death Challenge?” Ning Cheng already understood from the name, but even then he loudly asked the question.

Wei Peng once again laughed out loud again, “The Life and Death Challenge, that is, when two people from the cultivator army form a Life and Death Contract between each other, and also signs their name. After we sign it, when we are on this platform, regardless of the means, regardless of the time, only one person can remain alive, while the other person ends up dead and would be carried away. Certainly, if the two people perish together, then it would also be the same. The side that won will obtain all the things of the loser, while simultaneously none of the sides would bear any responsibility.”

Ning Cheng gave a light smile and spoke. “I really did not know that there was such a good thing, since there is such a good thing, then of course, I will definitely take up the Life and Death Challenge.”

“Good, Junior Commander Ning really has a threatening heroic spirit within him. If that is the case, then I will sign the contract first.” Wei Peng after speaking, immediately flew up and landed next to the white jade board that was right next to the Duelling Platform, and gathered his True Essence and wrote the words ‘Wei Peng’ on the right side.

Ning Cheng saw that the left side of the white jade board was empty, and immediately understood what was going on. So without any hesitation he also flew up and landed on the left side of the White Jade Board and wrote out the two characters ‘Ning Cheng’.

Chapter 184: Pu Bu Island’s No. 1 Junior Marquis

Seeing both Ning Cheng and Wei Peng write their names on the White Jade Board, all the people who came to watch the challenge match in the big plaza immediately became even more excited. Originally they had thought that it would only be an ordinary challenge, as everyone just wanted to see if this new Junior Commander was really as strong as the rumours portrayed him to be.

They had never expected that these two people would actually go ahead and directly issue a Life and Death Challenge. For them, what was more exciting than watching a Life and Death Duel? Moreover, it was a fight to death between a Junior Marquis and a Junior Commander, this kind of thing had not appeared on the Pu Bu Island for a long time.

“Junior Commander Ning, you really are quite brave, but you will soon realize how stupid you really are. You must not have been with that woman Nan Yuefang for enough time, but don’t worry after your death, I will definitely help you out with that regard.” Wei Peng saw that Ning Cheng had really signed his name, and as such he could not control the excitement in his voice.

Although he spoke about Nan Yuefang, but in his heart he was still thinking about Ning Cheng, if he had really advanced from the Qi Gathering Realm and cultivated all the way up to the Essence Building Realm in just a mere three years, if it really was as such, then at present, this Junior Commander Ning really had a secret on him that was not small at all. Although he had spoken to Lao Sheng that he had seen a few geniuses that had advanced to Essence Building Realm within 3-5 years, but he knew that such kinds of geniuses were extremely few in number. Moreover, he was sure that Ning Cheng was definitely not such a genius.

“Idiot.” Ning Cheng simply scolded him with disdain in his voice, he had already arranged a Hidden Killing Array that even a Profound Core Cultivator would not be able to find, let alone a single Wei Peng who was merely a single Profound Congealing 5th Level guy.

He had already asked Yang Honghuo if there were any Soul Essence Cultivators watching this duel, and found that not even a single one of them were present in the Pu Bu Island Duelling Arena. At the maximum, of the cultivators watching this duel, there was at most a Profound Core Cultivator in the midst of the crowd. With regards to the Soul Essence Cultivators that lived on the island, they would definitely have no interest in watching the fight of a trivial Essence Building Cultivator. Although he was a Junior Commander and was a wonderful figure in the eyes of the ordinary cultivator soldiers, but in the eyes of a Soul Essence Cultivator, he was as common as floating clouds.

Moreover, a Profound Core Cultivator who did not understand Array Formations would not be able to even see the layout of his Hidden Killing Array. The reason why had sent Yang Honghuo to deliver the letter of challenge, was so that he could arrive at the Duelling Platform ahead of time, so as to arrange the Hidden Killing Array.

Previously he had continuously refined Array Flags for several days, and had even plotted against several Profound Core Cultivators with several hundreds of Hidden Chain Killing Arrays, and had even faced far worse than Profound Congealing Cultivators or even Profound Core Cultivators, as such Ning Cheng could not think of a reason that he could fail this time.

Even if he took ten thousand steps back, even if his Hidden Killing Array was seen by others, he did not fear such a thing happening. As it was also within the rules. The rules for the Life and Death Duel clearly stated that regardless of means, regardless of time, as long as one of the two sides involved in a challenge is killed or ended up killing each other at that particular place it was completely fine. Therefore, as long as his Hidden Killing Array was not broken in a short time by Wei Peng, he would then be able to use it to kill Wei Peng, as such who would even care about what means he used?

He had even congratulated himself that he had continuously refined the Hidden Serial Killing Array for several days earlier, and had even arranged several hundreds of Hidden Killing Arrays back then. Otherwise he really would not have been able to lay down this Hidden Killing Array under the watchful eyes of the people present here. When his Killing Array was activated, even if there was someone who noticed it, it would simply be irrelevant at that point of time.

Even if he did not set up an Array Formation, Ning Cheng was not someone who feared death, if he did, he would not have gone and casually challenged a fellow at Profound Congealing 6th Level who, in other's eyes, could easily kill him.

Wei Peng was already impatient to take Ning Cheng's ring, so when he heard Ning Cheng calling him an idiot. How could he continue to endure? He immediately opened his hand, and a long pole overflowing with the vicissitudes of an ancient halberd appeared. When this ancient halberd appeared, just arousing it a bit, immediately faint traces of sounds that seemed to be coming from a clash between ancient armies sounded out from it, it was almost like the sounds of battle from an ancient battlefield. It would simply absorb a person's mind and soul into it.

Ning Cheng immediately realised that the opposite party had immediately brought out a Long Halberd type magic weapon. Moreover, this Wei Peng's Ancient Halberd was of a much higher grade of the already High Grade Halberd that he had seen with Meng Jingxiu.

"Go to hell." Wei Peng wielded the Ancient Halberd that was giving out an ancient aura. Originally the very faint trace of the murderous aura immediately became much stronger and formidable. Ning Cheng immediately felt as if he was in the middle of a bloody battlefield, and was surrounded on all sides by murderous halberd shadows. Moreover, these murderous halberd shadows were slowly congealing together, as each and every one of them seemed to have formed from a spirit as they took shape.

At this moment, even the air around the platform was torn apart by these kind of terrible murderous halberd shadows, letting him nowhere left to escape.

Ning Cheng's heart sank, he had planned to exchange a few moves with this Wei Peng, and then activate his Killing Array, but now it looks like his control over his True Essence was far from that of Wei Peng who had invoked such a battle scene.

Moreover, the murderous aura brought out by Wei Peng's Ancient Halberd was extremely formidable. Also because of the crushing imposing manner coming from it, it had almost suppressed him completely, to the point that if it was just a bit stronger then it was even capable of killing him, this was similar to a kind of contempt shown by a cultivator at the top.

If Ning Cheng's Spiritual Consciousness and True Essence was even a little bit worse, he basically would not even need to resist it, as under this kind of crushing imposing manner, he would have already been directly crushed.

Even now, if he could not break the opposite party's terrifying murderous aura in the shortest time possible, his mind and soul would be permanently trapped in that battle scene, which would lead to Wei Peng easily killing him.

Ning Cheng did not hesitate for even half a bit, before he took out his Golden Great Axe.

This Golden Great Axe immediately brought out a fierce Golden Axe Light, immediately blasting open a gap in the murderous aura coming from the Ancient Halberd in Wei Peng's hands.

"Boom Boom Boom....."

As the Golden Axe Trace and Wei Peng's murderous aura from the Ancient Halberd collided, the extremely formidable Axe Trace immediately tore open a hole in the murderous aura from Wei Peng's Ancient Halberd, but Ning Cheng did not try to directly burst out through the gap.

Even if that was the case, two of the formidable Ancient Halberds condensed from the murderous aura immediately caused two deep blood stains to appear on Ning Cheng's chest.

"With this kind of ability, you dare to challenge me? Do you even know that this was just my warm up?" Wei Peng stared at the Golden Great Axe held in Ning Cheng's hand and spoke out in disdain.

"Now it's time for my killer...." just as Wei Peng spoke, he once again brought up his Ancient Halberd, immediately covering the entire platform with the murderous aura that seemed to be coming from a terrifying and ancient battlefield.

But at this moment Ning Cheng's eyes became even more calm. Although at this time he clearly realized that he could not keep a Profound Core Cultivator in check all by himself, as he was facing this many difficulties when he had to facing just a single Profound Congealing Cultivator. Luckily he had arranged things in advance, moreover it was also his own insurance in such a scenario. That is, this time he had arranged a 5 Layered Hidden Killing Array Formation, otherwise without it, he knew he would end up dying without a doubt. Regardless of his cultivation or his Spiritual Consciousness, he knew that it was something that could not be compared to that of Wei Peng in front of him.

At the same time, when that Wei Peng's Ancient Halberd once again swept up, Ning Cheng had immediately thrown out his first Array Flag, instantly activating the first level of his Killing Array, while at the same time he immediately bombed out with an Axe Light from his Golden Great Axe to coordinate with his Killing Array.

Previously when Ning Cheng had just started, although Wei Peng had not put Ning Cheng in his eyes, but he still held some fear towards him. After all, Ning Cheng had killed a Profound Congealing Cultivator. But after he saw that one move from Ning Cheng, he was completely reassured. Even though Ning Cheng could use his Great Axe to tear through his murderous spirits, it proved that his strength was really far higher than a common Essence Building Cultivator, but when compared to him it was really too poor. He was confident that, he could definitely crush Ning Cheng.

After learning that Ning Cheng could not even be compared to himself in strength, Wei Peng completely stimulated the Ancient Halberd, as one burst after another, he kept releasing bursts of murderous aura from the Ancient Halberd. These burst of murderous auras almost instantly turned into countless Fighting Spirits that seemed to have come from an ancient battlefield, moreover all these spirits immediately swarmed towards Ning Cheng.

At this moment, even to those looking from the outside, the entire Duelling Platform had turned into an Ancient Battlefield. The cultivators in the audience who were watching the fight were all secretly horrified, it was no wonder that Wei Peng was called as the Pu Bu Island's No. 1 Junior Marquis. The murderous aura emanating from this Junior Marquis Wei really was too frightening, others could only watch the duel by hearing the endless terrifying sounds as they rolled across the land. Perhaps it was because Wei Peng had disseminated a powerful imposing manner, because of which Junior Commander Ning, who was completely submerged in this Murderous Aura, could not even bring out a sound.

Almost 90% of the spectators watching the fight had secretly thought that this Junior Commander Ning was already dead, with this kind of cultivation gap, there was simply no way to make up for it.

Nan Yuefang and Yang Honghuo stood there with clenched fists, and the palms of their hands were full of sweat, although they did not dare to look at the platform, however they had no other choice but to look at it.

The formidable pressure and the murderous suppression had almost made Ning Cheng suffocate, and this was even when Ning Cheng had fully activated the first level of his Killing Array.

But then endless Axe Line lights suddenly appeared in the middle of this ancient battlefield that was already filled with such huge numbers of murderous spirits, it felt as if an already burning torch was suddenly plunged into a light drizzle.

The drizzle was very light, and had no way of holding back the billowing flames from passing through, but this kind of rain was continuous and was gradually becoming more intensive.

Even if the flames continued to billow, it also would not be able to stand up to the endless rain.

In the middle of Ning Cheng's Killing Array's inexhaustible Axe Line Lights that were falling like a drizzle, these Axe Lights constantly tore through those murderous spirits, as such those murderous spirits who seemed to have a mind of their own gradually began to reduce in number.

The battle spirits condensed from the murderous aura that surrounded the Ancient Halberd also weakened a lot, as such Ning Cheng immediately felt his entire body loosen up. He immediately threw out the second Array Flag immediately activating the second layer of his Serial Killing Array, while at the same time he used the Golden Great Axe in his hands to immediately create a Tornado from his Axe Intent which he immediately sent out towards his opponent.

Even if Wei Peng was stupid, he finally came to understand that Ning Cheng was an Array Formation Master. Not only was he an Array Formation Master, but he was even shameless enough to arrive early on at the Duelling Platform, and then arrange, all by himself, a Hidden Serial Killing Array.

Wei Peng could feel the terrible Angry Axe Killing Intent that was shaped like a Tornado, that was even swirling with overflowing Killing Intent which was rapidly condensing into a single point, as it bombed towards him. It was too late for him to be angry at Ning Cheng's insidiousness, as he waved his hand and immediately called out a monstrous beast that was more than ten feet high.

He thought that Ning Cheng would be similar to a toy figurine in front of him, but then now he found out that Ning Cheng actually had such a move on him. It was precisely because of this, that he did not care about Ning Cheng's counterattack. Because he thought that regardless of any method that Ning Cheng had, he first would have to block the battle spirits condensed from his murderous aura, which was something that even he would find difficult.

But unexpectedly Ning Cheng not only was able to block his battle spirits condensed from his murderous aura, moreover he did not even use his own hand to do it, and had even suddenly counterattacked, which took him completely by surprise. It was because of this reason that he had to call out his pet beast to help block Ning Cheng's axe, while he retreated and tried to first break Ning Cheng's Killing Array.

“Roar....” The Monstrous Beast knew from the moment that it was brought out that it was in mortal danger, and immediately issued a loud roar, and shot out several Wind Edges, while at the same time it also quickly retreated.

Ning Cheng did not expect at all that his attack could kill Wei Peng, if this Wei Peng could be killed this easily, then he would not have to skip ranks to fight for Nan Yuefang.

However, using just a Class 3 Monstrous Beast, to block his Tornado, it was simply looking down on him to a large extent,

“Peng” His Tornado immediately tore apart the several Wind Edges of the monstrous beast, while simultaneously landing on the head of this Class 3 Monstrous Beast.

Blood sprayed out, as the huge Class 3 Monstrous Beast’s head was directly split open by this attack from Ning Cheng’s Axe.

“Good, since you killed my pet beast, let’s see how you block my second halberd attack....” Seeing the pet beast that he had favoured the most ended up being killed by Ning Cheng, Wei Peng finally broke through Ning Cheng’s Killing Array’s first layer in his anger.

Chapter 185: Tenaciously staking it all

Although Wei Peng’s cultivation was not something that can be compared with that of a Profound Core Cultivator, but Ning Cheng was also aware that he had arranged his Serial Killing Array in a short time, as such it could not even be remotely compared to the original Hidden Serial Killing Array which had taken up a few days to set up.

Moreover, this Killing Array had no one to help him divert the attention, so when he saw Wei Peng breaking the first layer of his Killing Array in a short duration, Ning Cheng did not find it strange, rather it was even within the range of his calculation.

After Wei Peng once again resorted to use his Ancient Halberd, the surrounding murderous aura around him immediately changed. The countless battle spirits condensed from the murderous aura suddenly started bursting open, each one forming dozens of small halberds that surrounded Ning Cheng, trapping him in the centre.

Ning Cheng immediately found that even the simplest of motions were very difficult for him, it was as if he had fallen into a quagmire. Anybody looking from the outside would feel as if he was just waiting for the innumerable small halberds to crush him into a meat patty.

But almost at the same time, in just a twinkling of an eye, innumerable Axe Line’s Killing Lights suddenly appeared. Immediately those remaining battle spirits that were surrounding Ning Cheng were almost all destroyed by Ning Cheng’s Axe Line, and in just a twinkling of an eye those murderous aura spirits still remaining from the Ancient Halberd were also dispersed. However, it did nothing to influence the innumerable small halberds that still surrounded him, rather it only slightly impacted a few dozens of them, while the rest of them still continued surrounding Ning Cheng, while the pressure exuded from them also increased, as if they really wanted to crush Ning Cheng to smithereens.

“It unexpectedly is a Serial Killing Array, even if it is so, you will be giving me your life....” Wei Peng saw that Ning Cheng had already activated the second layer of the Hidden Killing Array, and as a result had already come to understand that Ning Cheng’s Array Formation Layout was definitely not an ordinary one, because of which he had already lost the patience to exchange a few more moves with Ning Cheng as he had planned.

Moreover, he also knew perfectly well that Ning Cheng was surrounded by several dozens of his small halberds, and as such would eventually die without a doubt, but even then Wei Peng still brought out his killer move, immediately using his Spiritual Consciousness to create a peculiar sound that could actually kill.

Ning Cheng was already surrounded by several dozens of those miniature halberds, and was already at a disadvantage, if not for his Killing Array that helped him break through the murderous attacks from the battle spirits, perhaps he might have already been killed at this time.

It was at this time, that Wei Peng blasted out with his Spiritual Consciousness in the form of a killing sound, immediately Ning Cheng felt stabbing pains in his Sea of Consciousness. He felt as if innumerable howling wasps had rushed into his Sea of Consciousness and were trying to tear his Sea of Consciousness apart.

Ning Cheng knew at this point that he understood far too less about too many things. But he knew that, at this time, bringing out the Five Elemental Treasure Fall Copper Coin was the best choice for him, rather it was the only thing that could help him extricate himself from this situation. But Ning Cheng knew that even if he could extricate himself, he would be unable to kill Wei Peng with the remaining layers of Killing Arrays. Moreover, he also was aware that if he gave into weakness at this moment, it would definitely allow Wei Peng to seize the opportunity.

Wei Peng’s cultivation was higher than him, he even had more methods and techniques than him, moreover he was even fully committed on taking him out. If it were not for him arranging the five layered Hidden Killing Arrays in advance, then in this fight, he was bound to lose.

But he also knew that if he did not quickly bring out the Five Elemental Treasure Fall Copper Coin, then he would only die faster. Facing the threat of his death, Ning Cheng did not think of anything else, as he immediately crazily stimulated the circulation of his True Essence and Spiritual Consciousness, as he simultaneously brought out his Five Elemental Treasure Fall Copper Coins, while simultaneously hacking out with his third Angry Axe form, [Axe Line].

Since his Sea of Consciousness was being torn apart by the Sound Attack from Wei Peng’s Sea of Consciousness. It had weakened it considerably by a full level, as such when he tried to use his Spiritual Consciousness, the pain and suffering he felt was simply matchless to the extreme. Because of which he was unable to simultaneously perfectly stimulate the movement of the Five Elemental Treasure Fall Copper Coins and the Axe Line.

Ning Cheng was really worried at this time, if he could not stimulate his magic weapon, then he can only wait for his death. As he grew more and more anxious, Ning Cheng, in the calmness of insanity, once more tried to stimulate his Sea of Consciousness. As for the backlash he would receive in doing such a thing, he directly neglected it. If he didn’t have a life, then why would he bother about the backlash?

Ning Cheng, under the crazy stimulation his Sea of Consciousness, suddenly found himself to be extremely calm. The sound attack that threatened to tear apart his Sea of Consciousness suddenly disappeared in a flash, as if it never existed, which immediately made Ning Cheng happy, but then he immediately realized that this was because he had received help from the Mysterious Yellow Origin. The Mysterious Yellow Bead was originally residing in the middle of his Zifu. But now that his Sea of Consciousness was attacked, it was equivalent to the Zifu being attacked. As such the Mysterious Yellow Origin, naturally began to nourish his injured Sea of Consciousness.

How could Ning Cheng let this opportunity go, he immediately once again crazily urged his True Essence and Spiritual Consciousness.

An incomparably huge copper coin appeared, which immediately sucked away many dozens of the miniature halberds that surrounded Ning Cheng. Ning Cheng suddenly felt his whole body loosen up, he also immediately threw out the remaining Array Flags, instantaneously activating the rest of the layers of the Killing Arrays that he had hidden using his Concealment Method, while at the same time immediately brought out his Twin Heavenly Cloud Wings.

At this time, he did not care if his Twin Heavenly Cloud Wings was discovered by others, it was not something that he could care about at the moment, after all protecting his life was the most important thing. Ning Cheng believed that under the concealment of this type of billowing murderous aura that covered the entire Duelling Platform, coupled with the Concealment Method that he used, the only person who could discover his Twin Heavenly Cloud Wings was Wei Peng. Unless there was still a Soul Essence Cultivator or a supreme Profound Core Cultivator present here.

“Five Elemental Treasure Fall Copper Coin, Twin Heavenly Cloud Wings.....” Wei Peng spoke out in excitement to the point that his entire body was shaking as he thought, Ning Cheng unexpectedly has so many good things, if he could get his hands on these, then wouldn’t his overall fighting strength increase by more than twice? But he was confident that these things would soon become his, as long as he killed this Ning Cheng.

Wei Peng’s hands kept making various kinds of profound seals one after the others, as such the dozens of miniature halberds sucked away by the Five Elemental Treasure Fall Copper Coin once again transformed into a huge Ancient Halberd. He had to get rid of Ning Cheng in the shortest possible time. His thoughts were quite similar to that of Ning Cheng, as he thought that these Twin Heavenly Cloud Wings, other than to him, would not be discovered by the others.

He cannot let Ning Cheng display the Twin Heavenly Cloud Wings once more, after killing Ning Cheng, Ning Cheng’s body would be taken away, who knows if he could even get the chance to take the Twin Heavenly Cloud Wings?

Just as Ning Cheng carefully wielded the Twin Heavenly Cloud Wings, his entire body was covered in a light, which immediately separated him from the crazy onslaught of those battle spirits generated from his opponent’s murderous aura.

But at this moment Ning Cheng was not pleased by the heaven defying characteristics of his Twin Heavenly Cloud Wings, he was very clear at this time that he had to kill this Wei Peng as quickly as possible, once he missed this opportunity then he knew that there would be no other better opportunity again.

Once the only remaining three layers of his Serial Killing Arrays were simultaneously activated by Ning Cheng. Ning Cheng immediately started to crazily burn his Essence Blood and Spiritual Consciousness. As he stimulated the Five Elemental Treasure Fall Copper Coin, although it's weakness manifested at this time, but Ning Cheng did not have any other choice.

Wei Peng had just recovered his Ancient Halberd, and was ready to give Ning Cheng a fatal blow when he felt that the Axe Line's Killing Light surrounding him were becoming more and more intensive and even more dense.

"Bastard, he definitely has a big fortune on him, even his Array Formation is so powerful. This horrifying Array Formation not only has more than two layers, they are even higher than Level 3....."

Wei Peng soundly cursed, just as he wanted to immediately break through this Array, he suddenly felt that something was wrong. This Axe Line formed from Killing Intent appeared to be different from the previous two Killing Arrays. Moreover, it was filled with an incomparably cruel and violent aura, which made even himself feel worried and confused in his mind.

In addition to this ruthlessly oppressive aura, there was even an aura of death mixed in it.

This was not good; this fellow was going to detonate the Array Formation. Wei Peng had just thought of this point, when the entire space around him was completely locked, it felt as if it was the calm before it would be completely destroyed in a moment. Then an extremely fearful sound of explosion arrived as the explosive force generated was completely concentrated around him.

A Level 3 Array Formation exploding was more than enough to seriously injure or even kill an Early Stage Profound Congealing Cultivator, but when three such Killing Arrays exploded continuously, then even if Wei Peng wanted to, he simply did not have the option to retreat.

"Boom Boom Boom Boom....." Sounds of explosions tore through the surroundings, moreover even the entire surrounding area seemed to be trembling as if experiencing an extremely violent earthquake. While at the base of the platform, one could even see fine cracks spreading out.

The Array Formations laid out by Ning Cheng were giving out such terrible explosive sounds, directly turning into ash flying in the wind, how can there still be even half a trace of a living thing existing inside?

Wei Peng could not do anything at this time, other than crazily circulating his True Essence, while simultaneously stimulating the Ancient Halberd in his hand, in order to block some of the damage from the explosion of the Killing Arrays.

The cultivators in the audience watching such a type of fight were completely shocked, even if it was a fight between two Profound Congealing Cultivators, how couldn't they know that it would not cause such a terrible situation to occur? Just what the hell was going on in there?

Ning Cheng and Wei Peng's fight right from the start was shrouded and concealed by the endless billowing battle spirits condensed from the murderous aura which was even covered by the dense and innumerable Axe Lines from the Killing Array. Following the continuous explosion sounds coming from behind these shrouds, even when the people used their Spiritual Consciousness to observe before, all

they could see were the dreadful shadows of the two people engaged in an extremely ferocious and violent fight.

But now they were completely dumbfounded, hearing such terrible explosive sounds, was this even a duel or were they using Spirit Stone Cannons?

Even if Wei Peng wanted to erupt from his anger, he knew that it was too late, although he knew that these explosions from the Killing Array might not be able to kill him, but it was inevitable for him to sustain extremely severe injuries.

He decided to escape from this Killing Array, and wait till Ning Cheng's bones turned to dust, as the threat of death started to well up in his heart. A Golden Axe Line broke out from the Killing Array and exploded on the edge, immediately creating a rift in the empty air. In a blink of an eye, it had already pierced through the distance in between them, as it arrived in front of the space between the eyebrows of Wei Peng.

Wei Peng did not need to guess; he knew that this was Ning Cheng's sneak attack. As such he did not go ahead and continue to try and block the mountain like explosions of the Killing Arrays that surrounded him, as he crazily charged up his Ancient Halberd. He knew that he had to block this axe first, no matter what.

As long as he waited for the explosions of the Killing Arrays to pass over, he would then be able to gradually recover his spirit. As soon as he recovered enough of his spirit, it would be time for Ning Cheng to die.

"Boom....."

The Angry Axe [1st Trace]'s fearful Golden Great Axe Trace brought out by Ning Cheng was completely filled with the violent Angry Axe Type Killing Intent, as it immediately collided with Wei Peng's Ancient Halberd.

Wei Peng clearly felt that Ning Cheng's True Essence had dropped down by a full level, as such he regretted blocking Ning Cheng's Great Axe with his full power.

Sure enough, just as this thought flashed by Wei Peng's mind, the Killing Arrays completely exploded as an extremely powerful Killing Light erupted from it, this Killing Light directly blew past his chest, forming a bloody and gory hole through his chest.

Wei Peng immediately felt waves of weakness wash over him, he knew that the explosive power of the Killing Array had already blown past him, but before he could think or do anything else, at the same time, a gigantic fist came rumbling towards him.

When Ning Cheng had brought out the Five Elements Treasure Fall Copper Coin and had stimulated the Killing Array to detonate, he was already very weak. But he knew that even if he had to destroy his foundation today, he definitely needed to get rid of Wei Peng.

When his Angry Axe, [the 1st Trace] had injured Wei Peng, Ning Cheng once again, despite his already almost destroyed foundation, once again crazily stimulated his True Essence, as he blasted out with his Axe Fist.

Wei Peng had never ever thought that Ning Cheng would have such a tough tenacity in the face of death, although it was just a single axe fist, he could obviously see that Ning Cheng was already a spent force. But although he was already a spent force, even then he could rumble out with a fearful fist at this time.

But Wei Peng knew that he himself was also similarly as weak as his opponent, and could only try to lean to one side to try and dodge it.

“Peng...” But the fist immediately collided with Wei Peng’s chin, although Wei Peng was powerful, after all he still just had the fleshy physical body of a human.

A bloody light erupted, as the big head of Wei Peng was directly blown off by Ning Cheng’s fist, which then immediately burst into a bloody mist.

Ning Cheng with a ‘plop’ immediately fell down on the ground, even if his entire body was feeling weak to the extreme, he still immediately put away the Five Elemental Treasure Fall Copper Coin and Wei Peng’s Ancient Halberd, while also taking away Wei Peng’s rings for the duelling platform once again became visible.

The entire Duelling Area was silent, after seeing the result of the fight. Initially everyone had felt that Junior Marquis Wei was the one with the advantage, but in the end, the one who ended up winning was surprisingly Junior Commander Ning.

Not only did he win, he even directly killed Junior Marquis Wei.

But this silence lasted only for a single moment, before the entire Duelling Grand Plaza simultaneously broke out in loud cheers. Even though they were soldiers from the same cultivator army, in actuality, the aggressiveness and warm bloodedness in their blood and bones towards combat was something that could not be erased. In this place there were no losers, so what if he was the No. 1 Junior Marquis in the Pu Bu Island? It did not mean that this No. 1 Junior Marquis would never die.

Seeing Ning Cheng sitting on the Duelling Platform without even stepping down, Nan Yuefang and Yang Honghuo immediately woke up from their daze, as they excitedly dashed onto the platform.

“Immediately take me back to my Junior Commander Mansion to go into seclusion, do not let other people see me.” Just as Ning Cheng had finished saying this sentence, he immediately collapsed.

Chapter 186: Broken Core Pearl

Nan Yuefang and Yang Honghuo quickly took away Ning Cheng while the Pu Bu Island’s Grand Duelling Plaza was still in clamour. All the people present there were fiercely discussing about Ning Cheng’s and Wei Peng’s fight, one of them was just a trifling Essence Building Cultivator in their eyes, but even then he unexpectedly was able to kill the Pu Bu Island’s No. 1 Junior Marquis Wei Peng, this was simply an incredible and never before seen affair.

“The sounds from these two people fighting were simply too frightful, although I was able to sense Wei Peng’s imposing manner generated from the murderous aura of his Ancient Halberd, but what in the world could have caused those terrible explosions?”

“Should be because the True Essence of the two people were very rich and vigorous, either it was caused by the agitation of their True Essence, or it was caused by the explosions from Talismans.”

“Humph, ignorant fool, it was caused by the self-detonations of the Array Formations.”

“How is it possible to arrange Array Formations on the Duelling Platform?”

“Not only did he set up many Array Formations, but that Junior Commander Ning also has something similar to a Teleportation Technique with him. Just before the Array Formation exploded, he had suddenly left the centre of the Array Formation in which he himself was trapped, if it was not for Teleportation, then what is it?”

“How can an Essence Building Cultivator even teleport? This is not something possible, right?”

“This Junior Commander Ning, although has won now, but once General Ni comes back, he will be very miserable.”

“What you even know about? Do you think General Kong is mild natured? That Junior Commander Ning was personally promoted to the rank of Junior Commander by General Kong himself, so why would he be afraid of such things.”

“If the two generals could have a duel, then it really would be wonderful?”

.....

As Ning Cheng was carried away, the discussions around the Duelling Platform became more and more fierce. Ning Cheng had arranged a Hidden Serial Killing Array just before the start, because of which some of the people went forward to take a look at what remained of them.

Under the watchful eyes and help from Yang Honghuo and Nan Yuefang escorting him, Ning Cheng finally returned to his Junior Commander Mansion.

“Junior Commander, this time this one thanks you.” It was only at this time that Nan Yuefang was able to get the chance to express her heartfelt thanks towards Ning Cheng. She clearly knew that it was because of the things that she had done, because of which Ning Cheng had gone out to clean up her mess. Moreover, Ning Cheng also had suffered some serious injuries. This Junior Commander Ning of hers definitely was not ordinary in ability, otherwise, Ning Cheng would have definitely died because of her.

Ning Cheng weakly waved his hands before saying, “At the moment, I am badly hurt, as such I will have to go into closed door seclusion. I will only come out a month later, once General Kong comes back, you can speak to him about what had transpired.”

“Yes, Junior Commander. You can rest assured that since you have won, General Kong will only support you. Although Wei Peng was under the Chang Battle Battalion’s Ni Gang. But our General Kong is most definitely not afraid of him.” Yang Honghuo spoke in a loud voice.

Before the duel he was in a very unsettled state of mind, but after the duel, he finally felt relieved in his heart. Just as Ning Cheng killed Wei Peng, if Wei Peng was the one who killed Ning Cheng, then General Kong would also similarly not be able to do anything to that Ni Gang.

While Ning Cheng went into closed door seclusion, Yang Honghuo and Nan Yuefang did not leave, rather they remained behind to protect the Junior Commander Mansion.

Ning Cheng's injuries were not light. If it was any other cultivator, their foundations would have long since been destroyed. However, he was different, his Meridians and Zifu were remoulded by the Mysterious Yellow Bead, as long as they were not completely fragmented or collapsed or completely destroyed into nothingness, the Mysterious Yellow Origin of the Mysterious Yellow Bead would always nourish and repair his Meridians and Sea of Consciousness.

As a month passed by, Ning Cheng was able to fully recover from his injuries. It was only at this moment did he finally breathe a sigh of relief. He estimated that Kong Peng Peng should have been back by now, but he did not immediately go out to meet him, rather he first took out Wei Peng's ring.

Wei Peng's ring space was huge, stacked inside were a variety of Monstrous Beast Materials, Spirit Stones, Spiritual Grasses, there was even a pile of Ordinary Grade Artefacts and even several Spiritual Grade Artefacts. As for the Black-Silver Warship, it was impressively stored in a corner.

This guy really lived by robbing others, but ultimately had no life left to enjoy them.

Ning Cheng grabbed a bunch of jade strips from inside the ring. As for the other things, although he also had many of them, but many of them were simply uncommon, but not rare. But that Wei Peng's Ancient Halberd really was very terrible, if he had not arranged a Serial Killing Array beforehand, then he knew that he would absolutely not be a match even against the battle spirits that were brought out by Wei Peng's Ancient Halberd.

He knew that it was not always possible to set up Serial Killing Arrays before a fight, so he wanted to take a look at this Battle Spirit Halberd Technique of Wei Peng. If he really did not have it, then he would have to find a way by himself to create a similar Battle Spirit Halberd Technique that could be utilised or combined with his Axe Techniques.

But Ning Cheng did not find the Battle Spirit Halberd Technique, but rather found the thing that he could use similarly, a Halberd Array.

Wei Peng's Ancient Halberd was actually a magic weapon from the ancient times, although it was only a Spiritual Grade Artefact, but it could actually be split and reconstruct itself. After the Ancient Halberd split apart, it can form dozens of miniature halberds and these miniature halberds can form a variety of Array Formations, once it locked onto his opponent, then he could easily kill them.

When Ning Cheng saw this, he immediately broke out in cold sweat.

He finally came to understand why Wei Peng's Ancient Halberd split into many miniature halberds, it was because the original Ancient Halberd could perform Array Formation Attacks.

But it was a pity that Wei Peng did not understand Array Formations, as such he was unable to fully utilize the halberd. He could only split apart the halberd into miniature halberds to trap Ning Cheng, it absolutely did not have any kind of methodicalness to it, let alone trying to create a formation with it.

Those Array Formations created without any form from the miniature halberd were already too powerful, once they formed into an actual Array Formation, then wouldn't it be more than several times more powerful than his 36 Profound Ice Spears?

Wei Peng may have not understood Array Formations, but that did not mean that he also did not understand them. His Golden Great Axe was only a Top Quality Artefact, but on the scale of toughness, it was not worse than any Spiritual Grade Artefact. However, he could not split the Great Axe into smaller axes like the halberd, at most he could break down the axe and then refine the broken down components into smaller axes, and then use it to create an Axe Array to trap his opponents.

But this kind of Axe Array would certainly need the support of a very strong Spiritual Consciousness, as such at this time Ning Cheng was actually missing the Lotus Flower Pond in the Angry Axe Valley. If he could cultivate his Spiritual Consciousness for a year in that Angry Axe Lotus Flower Pond, he knew that his Spiritual Consciousness would certainly rise up by several notches.

Ning Cheng put away the jade strips, as he straightened out his place of seclusion. He estimated that it should be around time for the Law's Way to open.

"Junior Commander, are you alright?" Yang Honghuo who was standing outside on seeing Ning Cheng come out, immediately cried out with joy.

"I am all right." Ning Cheng answered in a single sentence, and did not speak for a while. Relaxation could be seen in his eyes as he then saw Nan Yuefang and spoke, "Junior Marquis Nan, you and Yang Honghuo have been continuously waiting here?"

Nan Yuefang gave an En sound and spoke, "I and Second Lieutenant Yang, took turns in guarding this place. General Kong came back and we informed him that you would come out in a few days, as such we all stayed here."

"That's true, General Kong asked you to meet him once you come out." Yang Honghuo quickly spoke from the side.

Ning Cheng came over to the open space in front of his Junior Commander Mansion, and brought out the Black-Silver Warship, then spoke to Nan Yuefang, "Junior Marquis Nan, this Black-Silver Warship, I have already taken it back, you can take it back again if you want to."

"Thank you, Junior Commander." Although Nan Yuefang had the mind to reject it, but this Black-Silver Warship's attraction was simply too huge for her. Moreover, she also knew that this Black-Silver Warship in the hands of her Junior Commander Ning, really would be a waste.

Seeing Nan Yuefang receiving the Black-Silver Warship, Ning Cheng then took out his Junior Commander Insignia and gave it to Yang Honghuo and spoke, "You'll have to go through the formalities of being promoted to a 3 Star Senior Captain by yourself, I am going to go look for General Kong."

If this was the first time she met Ning Cheng, seeing Ning Cheng casually give out his Junior Commander Insignia to Yang Honghuo, Nan Yuefang would have definitely cursed this Junior Commander Ning Cheng to be an idiot. However, now she was fully aware of what kind of a man this Junior Commander Ning Cheng of hers was, he was a person that did not want to stay here, for a person like him the title of Junior Commander really had very little attraction.

.....

Ning Cheng had just arrived at General Kong Peng Peng's Mansion, when Kong Peng Peng's laughing voice arrived, "Ning Cheng come in, come in quickly."

Two pretty maids had already come out, and guided Ning Cheng to the living room of Kong Peng Peng's Mansion.

Kong Peng Peng sat in front of him in the living room, in front of him, there were two cups of Spiritual Tea placed on the table. The rich fragrance from the Spiritual Tea, when Ning Cheng smelled it, it immediately made him feel as if his soul was trembling.

"Quickly sit down and have a cup of this Spiritual Tea, this is a Spiritual Tea that I had just acquired and prepared, it really is very good." Kong Peng Peng spoke with enthusiasm.

Before Ning Cheng sat down, he intentionally pretended to be full of fear as he spoke, "General Kong, this time when you were not on the island, I gave a little bit of trouble to you."

"Haha, what kind of trouble. If that piece of shit Ni Gang dares to spout some bullshit, then I will spit in the past. You don't have to worry about it, he can't move even a finger on you. If you ask me, you actually helped him. Otherwise, if he let that rice bucket called Wei Peng go into the Law's Way, it would probably end up wasting a spot." Kong Peng Peng once again laughed, and in just a few words glossed over Wei Peng's matter.

Ning Cheng also felt relieved, as he sat down and picked up the Spiritual Tea and took a sip, a cool aura, in just an instant, washed over his entire body, he simply couldn't help but say, "Good tea."

"This tea, that's all I got, if you want I can send it to you. Besides, the tea leaves that I brought over here can't be considered good, they are actually the leftover tea dregs that the other people don't want. As for the complete original Spiritual Tea, even I do not have access to it." Kong Peng Peng spoke with some disappointment.

Ning Cheng immediately asked, as his expression changed slightly, "What kind of tea would be so precious?"

"This tea is called as 'One Haze', because once someone drank one full cup of this complete Spiritual Tea, it may produce an epiphany for a cultivator. If their minds are puzzled by something it would help them gain an enlightenment regarding it, because of this property, this One Haze Tea is also called as 'One Aware'." Kong Peng Peng spoke in regret; it was clear that the reason for this regret was because he could not get his hands on the complete Spiritual Tea.

"Don't say anything about this, if you had not come out today, I would have come to call on you tomorrow. The Law's Way is about to open, the Pu Bu Island has acquired an airship that would take us to the Le Continent, and we will all be going together." Kong Peng Peng put the matter of the Spiritual Tea aside and spoke.

Ning Cheng hastily spoke up, "Please rest assured General, this Ning Cheng will go all out in the Law's Way, as long as there is True Spirit Nectar Wash in there, I will certainly help the General out by finding it."

Kong Peng Peng sighed, "The True Spirit Nectar Wash is absolutely positively present inside, but not every person that enters the Law's Way can obtain such kinds of Heaven and Earth Treasures. Even if your intentions are good and your heart on the line, if you can't find it, then it doesn't matter, it would already be a miracle if you could come out of the Law's Way alive. I have nothing to give you, other than

this Broken Core Pearl that was formed when my Soul Essence condensed. Once detonated, it is equivalent to a full force strike from a Soul Essence 1st Level Cultivator, it would give you an opportunity to maintain your life and act as your life insurance.”

Ning Cheng was immediately moved in his heart, he knew what this Broken Core Pearl was, it was something created when a Profound Core Cultivator broke through and condensed their Soul Essence. When a Profound Core Cultivator wanted to advance to the Soul Essence Realm, then they had to shatter their core into pieces, and then use it to form the embryonic form of the Soul Essence, the violent True Essence resulting from the crushing of the core can then be formed into a Broken Core Pearl.

“Thank you General Kong.” Ning Cheng gratefully received the Broken Core Pearl, as he bowed deeply once more to show his thanks. A Broken Core Pearl, to him, was equivalent to another small life. Inside the Law’s Way, there would not only be Profound Congealing Cultivators, but even Profound Core Cultivators. If he was stopped by a Profound Core Cultivator, then the Broken Core Pearl would be the best method for an Essence Building Cultivator to protect his life.

Kong Peng Peng stood up and patted Ning Cheng’s shoulders and spoke, “You killed Wei Peng, it proves that I picked the right person. You go back and prepare for tomorrow, we’ll be leaving together.”

Chapter 187: 9 Star Academy

This time, for the Law’s Way, the 9 Continent’s cultivator army were assigned 300 spots. Ning Cheng had initially thought that these 300 spots were a lot. But then he discovered that from the Pu Bu Island, there were only 20 people who were actually participating in the Law’s Way. It was only then did he realize that their island really did not have too many people to fill the spots. Because he was favoured by Kong Peng Peng, he was able to obtain one of the spots, it was purely because of luck.

Although the cultivators from the cultivator army stationed on the Pu Bu Island who were participating in the Le Continent’s Law’s Way were not many, but the people going to visit the Le Continent were a lot. Ning Cheng followed Kong Peng Peng as he boarded the airship, and saw at least 500-600 people already on board.

“Every time the Law’s Way opens, it is an event that involves the entire 9 Continents of the Yi Xing Mainland, in addition to me sending you to the Law’s Way, it is also a way for people like us to search for a few good things.” Kong Peng Peng explained in a sentence.

“Brother Kong, is this your Yi Zheng Battalion’s new Junior Commander, ah, he really is not as simple as he looks like.” A slightly queer sounding voice arrived.

Ning Cheng then saw a bald man, the True Essence Fluctuations around him were similar to that of General Kong Peng Peng, making him not able to observe him clearly. But before he could even try and guess the identity of this person, Kong Peng Peng smiled and spoke, “My Yi Zheng Battalion’s Junior Commander did you a huge favour, I don’t know what kind of a talented genius did Brother Ni select for the Law’s Way this time around?”

Ning Cheng then came to understand, it turned out that this guy was Chang Battle Battalion’s General Ni Gang, it was no wonder that his face had a fierce look on it.

“This is not something that Brother Kong has to be oversensitive about, perhaps this once, everyone inside the Law’s Way would be very warm and affectionate towards each other.” Ni Gang finished, then gave a meaningful glance at Ning Cheng before turning away.

Kong Peng Peng spoke to Ning Cheng with caution in his voice, “This General Ni is not someone easy to deal with, he will certainly arrange for some trouble for you in the Law’s Way, you will have to be more careful inside the Law’s Way.”

Saying that he looked at the group of people a short distance from them, as he patted Ning Cheng’s shoulders and spoke, “I’m going to talk to some old friends of mine. You can go to your room and have a rest. From here to the Le Continent, it will at least take about 2 months of time.”

.....

As Kong Peng Peng left, Ning Cheng directly went to his room, and just as he entered his room, he immediately gave out a sigh filled with emotion as he saw that the treatment given to the Pu Bu Island’s cultivator army was truly different. Although he was just an ordinary cultivator participating in the Law’s Way, even then he was given accommodations in one of the largest rooms available, and that too the room was completely for himself.

Ning Cheng first released Grey Toot Toot, and then arranged a simple Shielding Array Formation. Although this room already had a Spiritual Consciousness Shielding Array Formation, Ning Cheng still preferred to arrange his own Shielding Array Formation. He already knew from the mouth of Kong Peng Peng, that a lot of people had already realized that he had killed Wei Peng with the help of Array Formations. As such there was no need, at this moment, to conceal the fact that he was skilled in Array Formations.

Ning Cheng was very much aware that his cultivation level, on this ship, was probably one of the lowest, plus he still had to do a lot of things, as such if there was nothing important, he rarely got out of his room, and just shut himself inside practicing Alchemy. Once in a while would he go out to get some fresh air, and then go to the Spiritual Fruit Cabin to eat some free Spiritual Fruits.

Two months passed by in a flash, which made Ning Cheng feel the power and might of the 9 Continent’s cultivator army. The Jia Continent and the Le Continent were very far away from each other. But during his journey he did not feel even half a bump staying inside the airship. That is to say, during their journey, they were not harassed by even a single monstrous beast. Thinking back to the time when he was in the airship that had transported him from the Hua Continent to the Jia Continent, when they were passing above the Lost Mountain Range, they had to suffer through the attacks from the many monstrous beasts which had almost threatened to crash the airship into the Lost Mountain Range.

As this airship came to a stop, Ning Cheng followed the rest of the cultivators down the airship, only to discover that the airship was parked on an incomparable huge plaza.

Ning Cheng had seen the Mo Ze Grand Plaza. However, the Mo Ze Grand Plaza compared to this one, would only occupy a single corner. In front of this plaza, Ning Cheng saw a few huge golden words, ‘Dragon and Phoenix 9 Star Academy’.

Not to mention that this was just the entrance of the Dragon and Phoenix 9 Star Academy, if one just looked at the few huge golden characters, it would give the people a feeling of a passionate

restlessness, moreover the Spiritual Qi present here on the plaza was a lot many times richer and superior in quality than even General Kong Peng Peng's Mansion.

Although Ning Cheng in his mind was sighing darkly but his heart was full of praise. After all, this was just the entrance of a 9 Star Academy, this kind of mighty imposing manner created by this kind of rich atmosphere, would immediately instigate a feeling of deep admiration in any person laying their eyes on it.

Kong Peng Peng came forward and spoke to Ning Cheng, "The 9 Continent's cultivator army will gather here in a month to enter the Law's Way, during this month, you can basically do whatever you want. But you will have to pay attention to your own safety, this is not the Pu Bu Island, as such there are some things that even I wouldn't be able to help you with."

Saying that, he feared that Ning Cheng would be worried, so he also supplemented another sentence, "The Dragon and Phoenix 9 Star Academy is one of the three largest Academies of the Le Continent, as such ordinary people will not dare to make trouble here. You also have the Jade Card to participate in the Law's Way, as such you are free to access the Dragon and Phoenix Academy. Even if you want to live inside the Dragon and Phoenix Academy for the time being, they would permit it for you because of it."

"I understand, General Kong you can freely go ahead and take care of your things." Ning Cheng quickly replied. He had initially thought that the cultivators who came from the Pu Bu Island would be given a unified accommodation, but he did not expect that they would be allowed to be scattered and free.

But he also thought of another thing, that is if a cultivator participating in the Law's Way was killed before they even entered the Law's Way, then it also showed that they were not qualified for the Law's Way.

Kong Peng Peng was very assured over Ning Cheng, Ning Cheng's behaviour on the airship made it clear that he was not the kind of person who liked to make trouble wherever he went.

Kong Peng Peng along with a bunch of other Soul Essence Cultivators from the Pu Bu Island left soon, after the airship from the Pu Bu Island delivered Ning Cheng and the rest, it also departed quickly. As for the participants from the Pu Bu Island that came for the Law's Way, or even the other cultivators that had just came to see the Le Continent, each and every one dispersed in all directions filled with excitement.

Although the Pu Bu Island was mainly occupied by the Jia Continent's cultivator army, but the cultivators from there did not bring out their valiant aura, not because they were from an Intermediate Class Continent, but rather because they wanted to be low key.

Ning Cheng had not been a part of the Pu Bu Island for a long time, and he also lacked presence in the barracks, so for the Military Officers present here, he did not recognize any of them. Although these cultivator army officers can go to the Law's Way, but not even a single one of them was not without a significant strength backing them, as such no one would try to curry favour with Ning Cheng, who although was a Junior Commander, but was only an Essence Building Cultivator in the end.

After the others left, Ning Cheng planned to go look at the Dragon and Phoenix Academy. One could say that he knew a person from the Dragon and Phoenix Academy, while they may not necessarily be

friends, but they also cannot be regarded as enemies. That was because in the Angry Axe Valley, he and Cui Niepeng had a duel with each other in which he was the one who profited.

Ning Cheng of course would not go look for Cui Niepeng, he wanted to go explore the 9 Star Academy and see what made it so different from the other common Academies.

As he got closer to the entrance of the 9 Star Academy, Ning Cheng could feel the increasingly rich Spiritual Qi. Ning Cheng immediately understood that there was definitely a Grand Spiritual Gathering Array set up around it. But as to the other Array Formations surrounding the Dragon and Phoenix 9 Star Academy, even if Ning Cheng wanted to sense them, there was no way to perceive them at all, not to mention that he could not even see the markings of the Array Formations.

Small groups of cultivators, in threes and fours, walked across from Ning Cheng as they entered through the entrance of the Academy, Ning Cheng could clearly feel a faint trace of blood emanating from them along with a killing aura. These people that entered the Dragon and Phoenix Academy, definitely were the disciples of this Academy, but these people also had a bloody killing aura around them, it was obvious that they had just returned from the outside after training themselves and gaining a lot of experience.

This also showed that the people dispatched from a 9 Star Academy were clearly different from the ones from the smaller and ordinary Academies. Ning Cheng remembered that although Ruimu Danqin was a Core Disciple of the God Wind Academy but she was fiercely protected by them, while the disciples in front of them were coming in from all direction after gaining experience from the trainings outside.

Ning Cheng casually swept out with his Spiritual Consciousness, and found that a majority of the cultivators among them had the cultivation of Essence Building Realm, and only an extremely few of them were in True Condensation Realm, there were even a few Profound Congealing Cultivators mixed in them.

"Excuse me, this Senior Apprentice Brother, do you know the place of residence of Jia Lingwei of the Dragon and Phoenix Academy?" A questioning voice interrupted Ning Cheng's observation.

Ning Cheng then looked at a young girl in front of him, she had a baby face that had yet to fully mature, but combined with a pair of long eyelashes and big eyes, it made her look very cute. But at this moment Ning Cheng was really surprised, looking at this small girl in front of him, who absolutely did not even look like a teenager, he found that she was already a Profound Congealing 1st Level Cultivator, moreover there was also no one else by her side.

Seeing Ning Cheng look at her, the girl gave a sweet smile and spoke, "I am Zhangsun Yan from Feng Continent's Wu Yun Academy, and a friend of Elder Sister Lingwei. I have come here to participate in the Law's Way, and to specifically meet Elder Sister Lingwei, can you please take me to find Elder Sister Lingwei, please?"

Ning Cheng looked at that young girl who was even younger than Ruimu Danqin, and couldn't help but speak up with some uncertainty, "You are just slightly older than a child, yet still want to take part in the Law's Way?"

“This Senior Apprentice Brother, I am definitely not small at all. This Senior Apprentice Brother, if you do not have the time, just tell me where is Elder Sister Lingwei’s residence is, I will find it on my own.” Zhangsun Yan’s tone was still very sweet, it showed that she was raised in a good way.

Ning Cheng spoke in an apologetical manner, “I’m sorry, it is also the first time for me to enter the Dragon and Phoenix Academy, I simply do not know who Jia Lingwei is.”

“Yan Yan, how can you come here alone?” A surprised voice sounded out, as Ning Cheng saw three women coming over.

But when he saw the girl waking in the middle with a veil covering her face, wearing a purple robe, he almost turned around to run away. This was the same woman from the Wu Nian Academy that he had rescued before. After being seen by that woman, how could he still have good fruit to eat? This woman was someone who would not even listen to his explanation.

[The Gate Of Good Fortune](#)

Chapter 188: The Most Beautiful Woman

But this time, he really did have a bit of a guilty conscience. Ning Cheng darkly sighed on his bad luck, while also lamented the good fortune of not being a part of a large academy. When he had last seen this purple robed woman, at that time she was only at the True Condensation Realm. And now that they had met yet again, she had already advanced all the way up to Essence Building 5th Level, a full level above him, and it was all done in just less than a year.

Obviously when he had met this purple robed woman initially in the Angry Axe Valley, she was originally at the True Condensation Realm, and had not at all advanced in her cultivation, however as for the good fortunes that she accumulated inside that place, it was something that he did not know. Moreover, the imposing manner of a large Academy was simply too different from his own. For him, if he wanted to advance to the next level in the Essence Building Realm then he would have to patiently wait and seize the moment himself, who knows when the next moment would arrive, but for people like them, from the large Academies, when did they ever need to wait?

“Elder Sister Lingwei.....” Zhangsun Yan immediately became joyful as she rushed up and immediately hugged the woman in the front of the group.

“It’s you?” The purple robed woman saw Ning Cheng, and an angry flame immediately started burning in her eyes.

“Nalan Ruxue, what’s going on?” The red robed woman standing at the end found something amiss, and immediately asked.

Ning Cheng did not wait for this purple robed woman named Nalan Ruxue to speak up, and by his own initiative cupped his fists and spoke, “Jia Continent’s cultivator army’s Ning Cheng greets several Senior Apprentice Sisters.”

He first immediately stated his identity as a person from the cultivator army, generally the cultivator army of the 9 Continents held a certain respect and offered a certain security. If there was no special reason, ordinary cultivators were simply unwilling to offend the people from the cultivator army.

When the few women heard Ning Cheng say that he was from the cultivator army, they looked at him with wondering eyes, but Zhangsun Yan cried out with excitement, "Senior Apprentice Brother Ning Cheng, you are from the cultivator army, ah, did you fight against the Yi Xing Ocean's cultivator army? Since there were many people fighting together, was the great war fun? I heard that there were even Spirit Stone Cannons, and they are incomparably powerful, have you looked at those things?"

Ning Cheng quickly spoke up, "Junior Apprentice Sister Zhangsun's demand to hear about the war with the Yi Xing Ocean's cultivator army, of course, I would definitely be able to speak to you about it in detail. But before that, I would like to explain to Senior Apprentice Sister Ruxue about the reason for the last time....."

The purple robed woman's cultivation was a little higher than himself, but Ning Cheng was afraid that she would immediately call her perverted Daoist Priestess of a master, as such calling her as 'Senior Apprentice Sister' and not as 'little sister' would not decrease a piece of meat from him. But if she really called for her master, then he did not have a second Blood Escaping Talisman.

"If you dare to wag your tongue randomly, I will chop you into fine meat....." The purple robed woman's hate filled voice transmission immediately interrupted Ning Cheng's words.

"If you do not go look for your master, then I will also promise that I will not talk any nonsense about this. Even though you are so ungrateful, I will not hold it against you, but everyone here had not seen what had happened and as such I can definitely make an educated guess that they do not know about this." Ning Cheng knew why this purple robed woman did not want him to speak up, she feared a slip of tongue from his part, and thought that he would simply blather about it with his loose lips.

However, he was not so bored that he would blabber about such things to others. But what Ning Cheng found strange was that this purple robed woman's temper should not be this good. Going by the last time she got angry, she should have taken care of him the first time she laid her eyes on him, rather than stand and speak with him at present.

Ning Cheng, of course, did not know that this purple robed woman's heart was entangled at present, she had even specifically asked about such a thing from Yue Ying. Although there was no direct way to say that Ning Cheng had touched her chest, but she had vaguely hinted and said that Ning Cheng had wanted to take liberties with her.

"Senior Apprentice Sister Ruxue. You are definitely wrong about Big Brother Ning. Big Brother Ning is not that kind of a person, I and Big Brother Ning had lived together for almost a full year in the same room, as such you can even say that I know him the best amongst us. If he really was such a person, then I would have already been his"

"Senior Apprentice Sister Ru Xue, before I also had heard people say that Big Brother Ning is not a good person, and even I had badly misunderstood him initially. However, during the time that I had stayed together with him, I realized that he was definitely not such a person that the others had made him out to be, please believe in Big Brother Ning. Perhaps it was because of some other reason at that time, which had made you misunderstand Big Brother Ning."

“Big Brother Ning always says that sometimes what we see with our own eyes is not always the truth. I had never understood this truth before, but after Big Brother Ning explained it to me, I finally understood it.....”

Although Yue Ying kept tossing out whatever was going on in her mind over and over again. But she hardly understood the thoughts that Yue Ying was trying to convey to her. Yue Ying had progressed very rapidly in the Wu Nian Academy, and although she was young but her behaviour was completely rational, serene and also very mature. Moreover, from her words she could make out that she had a kind of kinship with this Ning Cheng, and as such a girl like her logically would not lie about such a thing. But no matter how hard she tried, she couldn't come up with any valid reason why Ning Cheng's hand was on her chest.

Even if it was to check for injuries, or to help her heal, he could have checked from anywhere else, why her chest? Other than Ning Cheng being a shameless bully in a darkroom, she really could not find a good explanation for it.

But also because of Yue Ying, she did not immediately fight it out with Ning Cheng the moment she laid her eyes on him.

The rest of the few women present there were quite smart, they had already noticed that there was something wrong between Ning Cheng and Nalan Ruxue.

The one who was called Elder Sister Lingwei by Zhangsun Yan gave a natural looking smile towards Ning Cheng and spoke, “I am called Jia Lingwei, since you and Yan Yan know each other, and she is also one of my close friends, if you don't mind it, then why don't you come with us to have a chat back at my place?”

Jia Lingwei did not know what kind of relationship Ning Cheng had with Zhangsun Yan, as when she had met him, Zhangsun Yan had spoken as if she knew Ning Cheng from a long time before, although it was like that, only after speaking to him would she come to fully understand it. So out of courtesy, she had ended up inviting Ning Cheng.

Moreover, the way Jia Lingwei spoke, it was full of gentleness, and had a mature charm to it with a touch of rationality, combined with her delicate looks, any person who heard it would feel extreme comfort well up in them.

Also this Jia Lingwei's cultivation was also not low, as she had the cultivation of Profound Congealing 7th Level, it simply exceeded Ning Cheng's by too much.

Ning Cheng had just wanted to refuse the invitation, when that girl who was similar in age to Yue Ying clapped and spoke, “Good, I also want to hear from Senior Apprentice Brother Ning about the war between the cultivator armies. After I come out from the Law's Way, I intend to go the cultivator army to have a look at it.”

Ruxue frowned slightly, she had a foreboding that Ning Cheng seem to have a special effect on little girls. For example, Wu Nian Academy's Ruimu Danqin and Yue Ying, both of them worshipped Ning Cheng, and can even be said to be somewhat dependent on him, then there was even Zhangsun Yan. Was it because of his Cultivation Method that he cultivated in? Thinking of this, Ruxue immediately used her Spiritual Consciousness to carefully scrutinize Ning Cheng.

Although Ning Cheng was not happy about this, regardless of who it was who was using their Spiritual Consciousness to scrutinize his body, he really did not feel good in his heart. Unfortunately, he also did not dare to stir up trouble with this Nalan Ruxue, as behind this Nalan Ruxue was still that old Daoist Priestess.

Just as that sentence was spoken, the red robed woman besides Nalan Ruxue saw it as slightly improper, as such she immediately spoke up, “Although Junior Apprentice Brother Ning is Yan Yan’s friend, so of course it’s only natural for us to go and chat together. Only I am afraid that if Master Lan found out about it, she would not be pleased in her heart.”

“Senior Apprentice Sister Lingwei, I heard that your master is the most beautiful female cultivator of the Dragon and Phoenix Academy, is it really true? Is she even more beautiful than you?” When Zhangsun Yan heard the red robed woman speak about Jia Lingwei’s Master, she immediately started to gossip about it.

At this time Ning Cheng thought back to the phrase, that gossiping really is not related to the age of a woman. But since at this moment, this purple robed woman was not looking for trouble with him, so he was already very satisfied, as for these gossips among these women, he did not have even half an interest in them. He was just going to speak out that he was taking his leave, when he suddenly heard Jia Lingwei speak, “I already look very ugly, how can I even be compared to my master. But the most beautiful in the Dragon and Phoenix Academy is not my master, but rather Uncle Master Miao Shu.....”

[TL Note – Please do not be confused with the term ‘Uncle Master’ here, it does not mean that the person here, Miao Shu, is a male. It is just a transliteration of the characters 师叔 (Shishu) which, going by the literal translation, means ‘Teacher’s younger brother’ which in turn is interpreted as ‘Uncle Master’.]

“Miao Shu.....” Ning Cheng spoke out aloud in surprise.

“Does Junior Apprentice Brother Ning also know Master Shu?” Jia Lingwei asked with some doubts, although she had called her Uncle Master Miao Shu, but this Uncle Master Miao’s reputation in the Dragon and Phoenix Academy was very old. It was simply because she never showed up, and moreover did not concern herself about the worldly affairs, which was the main reason she has always been called as Uncle Master.

Ning Cheng quickly replied, “Yes, this time I had specifically come here to find Master Shu. But I have been loitering around the front of the Dragon and Phoenix Academy for almost half a day, and do not know where Master Shu resides, Senior Apprentice Sister Lingwei, I don’t know if you could bring me to her?”

When Ning Cheng had heard this name ‘Miao Shu’, he immediately thought of his meeting with Lan Yuechen who had perished in the Angry Axe Valley, according to what he found, Miao Shu was Lan Yuechen’s wife. His Golden Great Axe was also obtained from Lan Yuechen, now that he came to know about Miao Shu, he felt that he needed to see her.

If this Miao Shu from the Dragon and Phoenix Academy was the same as the Miao Shu who was Lan Yuechen’s wife, he would immediately give the Golden Great Axe back to her. He had prepared almost all the materials necessary, and would go to the Dragon and Phoenix City to find someone to craft an

axe. If she really was not the Miao Shu that he was looking for, then he would simply apologize and leave.

“You came here to look for Master Shu?” Jia Lingwei repeated the sentence in disbelief.

Ning Cheng once again spoke in an affirmative manner, “Yes, that is right, is there something wrong with it? If Master Shu is unwilling to see me then also I do not mind it, as long as Senior Apprentice Sister Lingwei can help me show the way to her place, it would be more than OK for me.”

“This, this, do you not know.....”

Jia Lingwei did not even have the time to speak out her words when the purple robed woman spoke up, “Senior Apprentice Sister Lingwei, if you want I can take Junior Apprentice Brother Ning there. You had showed me Master Shu’s place once before, so I remember it.”

Jia Lingwei looked at this purple robed woman with a strange expression, and only after a moment spoke up, “But but....”

The purple robed woman gave a light smile and spoke, “Senior Apprentice Sister Lingwei, there are no buts. I am quite familiar with Ning Cheng, you can be rest assured, once I take him to Master Shu’s place, I will immediately return to you right away.”

Having said this, the purple robed woman looked at Ning Cheng and spoke, “What are you gawking about? For the sake of your acquaintances, I will do you a favour this one time, come with me.”

Watching the purple robed woman go inside, Ning Cheng felt that there was something wrong with her, but he soon cupped his fists towards the three women and spoke, “Several Senior Sister Apprentices, then I’ll be taking my leave first.”

Even though this purple robed woman gave him a weird feeling, he was not afraid of her. She was only at Essence Building 5th Level, even if she was an Essence Building 5th Level Cultivator from the Wu Nian Academy, it still did not qualify for him to be afraid of her.

Seeing Ning Cheng follow behind Nalan Ruxue, the red dressed woman spoke out in amazement, “Ruxue and this Ning Cheng seem to have a great hatred between them? Why would she lead him to see Master Shu?”

.....

As for the words spoken by the red robed woman, Ning Cheng had not heard them. He simply followed behind the purple robed woman and did not speak anything about touching her chest. Now that the other party was not investigating this matter, he also did not want to bring this matter up. He and the purple robed woman were simply two passers-by in life, so none of them expected to be appreciated by each other.

“Thank you for leading the way, I would like to ask about the two people, Younger Brother Cang Shuo and the two Junior Apprentice Sisters Danqin and Yue Ying, are they alright in the Wu Nian Academy?” Ning Cheng was still a bit worried about the three people. He did not have a good relationship with Yong Guyun, as such to the words spoken by Yong Guyun, he also had his doubts.

“They are good, now that they are people from the Wu Nian Academy, you do not need to worry about them.” The purple robed woman replied in a cold tone.

Once Ning Cheng got the answer, he also immediately stopped talking.

Chapter 189: Borrowing A Knife To Kill Another

This Master Shu’s residence did not seem to be near, as this purple robed woman in front of Ning Cheng had already walked for almost the time it took for half an incense stick to burn, and yet they still haven’t arrived. Instead because the purple robed woman wore a veil on her face, because of which all along the way, it had aroused the curiosity of many people. This place was the Dragon and Phoenix Academy, as such there were not many women here who would wear a veil to cover their face.

“Did you lift my veil to take a look beneath?” The purple robed woman who was still in front of Ning Cheng suddenly asked.

Ning Cheng spoke in an even tone, “I have seen your face, but your veil was not torn by me. It was done by that nefarious cultivator called Sikong Kai who had the cultivation of Profound Congealing Realm. Me and my Junior Apprentice Sister Meng Jingxiu, in order to rescue you, had tracked you down to that nefarious cultivator’s lair. Although I managed to kill that Sikong Kai, it was something that had to be done in order to save you, moreover I also was seriously injured in the process and had to take a few months to recover from it, but then I was suddenly attacked by your old Daoist Priestess of a Master.”

The purple robed woman suddenly stopped and glared at Ning Cheng with cold eyes, “You said that you rescued me, moreover rescued me from the hands of a nefarious Profound Congealing Cultivator? If I remember it correctly, didn’t that Junior Apprentice Sister of yours only had the cultivation of True Condensation Realm? You are just a cultivator with the cultivation of Essence Building 4th Level while the other is a cultivator with the cultivation of True Condensation Realm, yet the two of you managed to RESCUE me from the hands of a Profound Congealing Cultivator? Moreover, a nefarious cultivator at that?”

Ning Cheng also stopped walking, facing such an overbearing and sarcastic tone, he was definitely not happy about it, “You are right, but at the time when I rescued you, I was not at Essence Building 4th Level but at Essence Building 1st Level, whether you believe me or not is not of my concern. But in order to save you, not only did I lose a life preserving magic weapon, but was even almost discovered by the second Profound Congealing Cultivator after I managed to kill him. You wake up, and then let your old Daoist Priestess of a master attack me, so just saying that you are ungrateful is simply too light.”

The purple robed woman gave a nasty smile filled with anger as she spoke, “So now it’s two Profound Congealing Cultivators huh? Why don’t you say that you saved me from the hands of two Crucible Transformation Cultivators? Like this, wouldn’t I owe you even more?”

Ning Cheng simply spoke in a mild yet boring tone, “Even if I was a person who did not cultivate, or even a beggar for the matter, I would have still tried to rescue you from his hands. You owe me your life and that is an undeniable fact. I did it not because the other party’s cultivation was high, but because your life is precious for a few. A person who is unconcerned about face truly is someone invincible and you really proved it. You can choose not to believe it, and you can also choose to feel suspicious about it, yet

you did not investigate even a tiny bit of this matter properly, and only remained convinced of your own subjective conjecture, that is precisely the reason why I said that you have no sense of shame.

“To tell you the truth, I did not mean for you to owe me, I just wanted to ask about how my two Junior Apprentice Sisters and Younger Brother Cang Shuo were doing. Now that you have informed me that they are all good, it’s enough for me. From here on out, we have nothing to do with each other, you walk your own single log bridge, while I walk my sunshine path.”

[TL Note – The phrase “you walk your own single log bridge, while I walk my sunshine path” is a Chinese idiom for “Each going their separate ways”.]

At this moment the purple robed woman was angered to the extreme, she had long forgotten what Yue Ying had said to her, and spoke up, “Good, good, very good. I will definitely walk my single log bridge, but I hope that you are able to walk your sunshine path. Why don’t you also go ahead and say that the reason why you placed your hand on my was because you were trying to save me. Originally the reason why I was this tolerant was for the sake of Junior Apprentice Sister Yue Ying, at that time I had even thought for a moment that you were not that kind of a person, as such I had not planned on investigating it, but you are simply too shameless.....”

As the purple robed woman spoke back to him, her chest was heaving up and down, it was obvious that she was greatly incensed.

Ning Cheng, at this time, spoke with even more calm in his voice, “I have seen a lot of ungrateful people like you, as such I do not care a whit about you. As for my hand being on your chest, other than checking for external injuries, it truly was in order to save you. Do not ask why I did not put my hand in other places, as I already knew your six senses were already sealed.”

“If I had placed my hand on any other place, and then unsealed your Zifu and Dantian, can you imagine how many more secret places of you would be exposed? So you should thank me for my honourable gentlemanly conduct rather than barking around with no brain.”

What Ning Cheng had spoken was not wrong, if he had taken hold of the purple robed woman’s wrist to unlock her Dantian, then he would have to use his True Essence and Spiritual Consciousness to inevitably sweep through the purple robed woman’s body. And the reason why he had directly put his hand on her Dantian, other than for convenience, it was also to not do a full body check-up on this purple robed woman. For Ning Cheng, of course, convenience was the most important factor.

But the problem was, Ning Cheng had just put his hand on there, when she had woken up by herself. If the Daoist Priestess had not come in at that time, Ning Cheng would still have a chance to explain himself at that time. Who would have known that the Daoist Priestess on arriving would immediately move to kill him, as such why would Ning Cheng still dare to stay there?

“You.... you....” The purple robed woman almost immediately wanted to start fighting, how could she believe the words that Ning Cheng just spoke? How could Ning Cheng even speak those words to her? How could he even speak and attach the words ‘honourable gentleman’ to his act of touching her chest with his hand?

In her anger, she forgot to ask Ning Cheng another thing, that since he kept saying that he had saved her with the help of Meng Jingxiu, then why hadn’t she seen Meng Jingxiu at that time?

The purple robed woman was now visibly shaking from anger, she could no longer speak, but Ning Cheng was simply too lazy to even speak up. He already knew that any kind of explanation would be of no use, if not for this woman who had taken the initiative to ask him, he wouldn't have even bothered to explain this kind of thing to her. If not for the fact that the Law's Way was in the Le Continent, he and this purple robed woman would not have even crossed paths.

.....

This Dragon and Phoenix Academy was simply too big, and this purple robed woman had also speeded up a lot, and after the time it took for an incense stick to burn, she finally stopped at a corner of the Academy.

"Is this really the place?" Ning Cheng asked as he complicatedly looked at the surroundings. Although he could not see the Array Formations laid down here, he knew that there were a lot of different kinds of Array Formations set up here, but the houses here were simply too dilapidated, even the Spiritual Qi here seemed to be the thinnest in the entire Dragon and Phoenix Academy, does this Miao Shu really live in such a place?

"That's right, this is the place, this place only has a single person, that is Master Shu, living here. It was because of Yue Ying that I had brought you here, the other things that happen from here on out is not of my concern." The purple robed woman's expression by now had returned to normal.

Ning Cheng frowned, this place here was full of Restrictions and Array Formations, wouldn't he simply be trapped here right away?

The purple robed woman seeing Ning Cheng hesitate, sneered but did not speak, and turned away.

Ning Cheng knew that her Spiritual Consciousness had latched onto his body, but as to this approach of hers, Ning Cheng simply chose to ignore it. He simply thought for just a moment and entered into the middle of the Restrictions.

The Restrictions placed here were all very high levelled ones, yet Ning Cheng had a very good impression of this Master Shu in his heart, he believed that not all people were like the purple robed woman and her master.

The reason why Ning Cheng had a good impression of Master Shu was because of the message that she had left behind. A woman, who held her husband in a very high respect, would absolutely not be an unreasonable person.

When the purple robed woman saw Ning Cheng really enter the Restrictions, she actually gawked. She then stopped, and looked back at the Restrictions for a moment, then shook her head and turned back. Regardless of what Ning Cheng did, it was simply not of any more importance to her.

Moreover, she had also heard about the legends concerning Master Shu in the Dragon and Phoenix Academy. Throughout her history here, there were only three men who entered the Restrictions placed here by Master Shu herself. But the result was that although those three people appeared again, but they appeared in the form of dead bodies. Moreover, their dead bodies were still hanging at the entrance to the Dragon and Phoenix Academy.

She had brought Ning Cheng to let him see Master Shu, and on the way she came up with the idea to use Master Shu to kill Ning Cheng. It was because of this that she had originally asked about that matter. If Ning Cheng had admitted to his mistakes, then she for Yue Ying's sake, would have immediately let off Ning Cheng.

However, Ning Cheng still spoke incoherently, daring to say that he tracked a nefarious Profound Congealing Cultivator to his lair and even killed that nefarious Profound Congealing Cultivator and rescued her. For an Essence Building Cultivator to follow a Profound Congealing Cultivator, how could he not be found? Even if he could not be discovered, Ning Cheng at present was just an Essence Building 4th Level Cultivator and it was simply impossible for him to sneak attack a Profound Congealing Cultivator, let alone when Ning Cheng added that the him at that time was at Essence Building 1st Level.

Even if he successfully sneak attacked him, even if it was the moment just before his death, for a Profound Congealing Cultivator to kill Ning Cheng who was an Essence Building 1st Level Cultivator was simply too easy. Even if she took 10,000 steps back, even if Ning Cheng successfully tracked him, and even successfully sneak attacked this Profound Congealing Cultivator, and even killed him in the process, but what about the other one?

This guy in order to increase her debt towards him, had even said that he had rescued her from the hands of two Profound Congealing Cultivators. To use such shameless words to justify oneself, it almost made her to be driven beyond the limits of her forbearance. Just a trivial Essence Building 1st Level Cultivator, but simultaneously sneak attacking two Profound Congealing Cultivators? Does he think that he is the reincarnation of ancient masters, she thought as she sneered.

What made it even more unbearable for her was that he was still speaking calmly, if at that time, Ning Cheng had admitted that he was thinking of perverted thoughts at that time, she could still have forgiven Ning Cheng once. After all, she also knew that she was simply too beautiful, that too even with a veil covering her face. Since she was bullied in a darkroom, since she also knew that she was too attractive, she would have still been able to reconcile for Yue Ying's sake. But even at that moment, Ning Cheng still insisted that he did it because he was rescuing her and was being considerate of her, how could such a shameless person exist in the world? Such kind of people ought to die a thousand times and should not be pitied at all.

If Ning Cheng really was as noble as he claimed himself out to be, then why would he use his hands to touch her chest.

With this kind of anger in her, she had really let Ning Cheng to walk into the Restriction, but then she immediately began to doubt if she had really done the right thing. Ning Cheng was after all a friend of Yue Ying, wasn't this using a borrowed knife to kill another?

The purple robed woman subconsciously stopped, then turned to look back once again for a moment, finally sighed, and then once again went into the distance. Because of her desire for revenge, she was not feeling happy in her mind and heart, so much so that she could not even speak out the angry words that were sealed up inside her.

.....

Once Ning Cheng entered the Restrictions, he found himself to be surrounded by several Killing Arrays. But Ning Cheng knew that that if he analysed them carefully these Killing Arrays may not be able to kill him. But at this moment he had come to meet someone, as such there was no need to break the Killing Arrays. If the other side was not the person he was looking for, he could still calmly retreat. Once he came into the Array Formations he did not move to leave, the other party would not be so unreasonable as to hear out his reason first, right?

“Ning Cheng comes to meet with Master Shu.....” As Ning Cheng’s voice passed through the Killing Array, it did not echo back even after a long time.

Waiting for a while, when Ning Cheng was sure that there was no echo, Ning Cheng then cupped his fists and spoke again, “Ning Cheng comes to pay respects to Master Shu, at the same time brings Elder Brother Yuchen’s belongings to Master Shu.”

Ning Cheng estimated that Lan Yuchen only had the cultivation of True Condensation Realm, and should be almost similar to age as him when he died. As such Ning Cheng, rather than calling him Senior Lan Yuchen, he called him as Elder Brother Yuchen. If he called him as Elder Brother Yuchen, and Master Shu did not come out, then it indicated that this Master Shu was not Lan Yuchen’s wife. As such he would proceed to withdraw from this place, with his cognition towards Array Formations, if he wanted to retreat at this moment, then it would definitely not pose any issue to him.

Ning Cheng had just spoken his words, when he felt a bright light in front of him, the next instant a foot-wide path laid with blue stones appeared in front of him.

“You can come in.....” A trembling voice sounded out, which also sounded slightly hoarse.

Ning Cheng felt slightly relieved, he knew that he should not have found the wrong person, this Master Shu was definitely the person he was looking for.

The Gate Of Good Fortune

Chapter 190: True Cosmic Devil Metal

Ning Cheng walked along the blue stone path for more than 20 meters, and all through the way he could only see flowers and flower gardens, moreover there were all kinds of flowers and plants inside them. Although there were many varieties of flowers, but none of them were spiritual in nature, each and every one of them were ordinary flowers. Ning Cheng even saw several Morning Glories, which dumbfounded him.

After coming here, his memories of Earth seemed to have been buried deep inside, which were replaced by looking for Spiritual Grasses and other resources for his cultivation. But now that he saw the familiar Morning Glory from back on Earth, all of his remote memories came flooding back to his mind.

“You can come in.....” That trembling voice once again resounded in Ning Cheng’s ear, only then did Ning Cheng react, this place was where Master Shu resided, he immediately hurried up his pace and passed through the flower gardens, as he entered a bamboo house that was not very large.

There was a Clear Light Stones arranged in an Array Formation inside the bamboo house, as such Ning Cheng could clearly see the insides.

In addition to a bamboo table, that was in the middle of the room, there were only two bamboo chairs. On one of the chairs, a woman wearing light blue robes was sitting, and was somewhat excitedly staring at Ning Cheng.

When Ning Cheng's vision fell on the blue robed woman's face, he immediately became out of sorts. He finally came to understand why Jia Lingwei had said that Master Shu was the most beautiful woman in the Dragon and Phoenix Academy. Prior to this, the most beautiful woman that Ning Cheng had seen was the purple robed woman from not too long ago. But with Master Shu in front of him, other than looking slightly pale in her face, she was no less beautiful than the purple robed woman, in fact she even projected the image of a delicate beauty. This delicate beauty of hers was even more exquisite than that of the purple robed woman.

If Ning Cheng really was given the choice between this Master Shu and the purple robed woman to choose who was more attractive, then Ning Cheng would without hesitation choose this Master Shu in front of him. Moreover, this Master Shu's aura was completely retracted. And although he could not perceive her cultivation, but he could sense that Master Shu's cultivation was definitely much higher than that of Kong Peng Peng.

Master Shu seemed to have been used to the dazed expression others gave when they saw her. As such she really did not mind Ning Cheng's expression, but rather asked in a trembling voice, "Do you really know my Yuchen?"

Ning Cheng hurriedly cupped his fist with respect and spoke, "Yes, when the Angry Axe Valley was opened a year ago, this junior had also entered the Angry Axe Valley. This junior was able to enter the True Angry Axe Valley; it was where I found the remains of Elder Brother Yuchen....."

When the blue robed woman heard the word 'remains', she immediately started trembling. Her hands clenched her chair, Ning Cheng even heard the chair issue a 'Ka' sound. Two lines of tears flowed down her eyes, and it did not look as if would ever stop.

"Senior please restrain your grief....." Ning Cheng immediately took out his Golden Great Axe and holding it gently by its handle, he brought it over and spoke, "This was the Great Axe left behind by Elder Brother Yuchen, this junior brought it out from the Angry Axe Valley."

The blue robed woman tremblingly took the Great Axe handed to her by Ning Cheng and immediately began to caress it slowly, and did not speak for a long time. She had already known that Lan Yuchen had perished. But today, when she finally heard the news, she was still unable to get rid of that sadness. She had waited countless years alone, but ultimately got such a result.

Ning Cheng at this moment very much wanted to say his goodbyes and leave this place, but he knew that this was not the best time for leaving, and as such could only stand at one side.

He also did not know how much longer he had stayed standing, when the blue robed woman slowly lifted her head. Then looking at Ning Cheng she finally spoke, "Thank you for bringing back this Great Axe, can you tell me the situation at that time?"

Ning Cheng immediately spoke up, "When I got to the True Angry Axe Valley, I immediately went in. But then I immediately felt a formidable Axe Intent. This Axe Intent directly bombed onto my Spiritual Sense, but fortunately, I already had a bit of superficial knowledge relating to Axe Intent at that time.

Although I was thrown back by that Axe Chop, but I was able to block this axe in a timely manner. I fully came to understand then that this axe was actually formed from Killing Intent. It was also at that time that I saw the remains of Elder Brother Yuchen. On Elder Brother Yuchen's side, there was a golden buckle, presumably it was given to him by Master Shu."

"I put the buckle and the remains of Elder Brother Yuchen in a Jade Box and buried it in the same spot. This Golden Great Axe was then brought out by me, this has saved my life countless times."

"Thank you for burying the remains of Yuchen, but since this Golden Great Axe has saved you many times, then why are you willing to give this axe to me?" The blue robed woman's voice was increasingly getting hoarse, but at least the sorrow in her seemed to have been contained.

Ning Cheng spoke sadly, "The reason I have come here, was because of the lines left behind by Senior on the buckle. Since you are a woman who is so worried for your husband, it is something that I respect the most. To do such things for Senior, it's my pleasure. Besides as my cultivation improves, this Golden Great Axe will simply not be enough, I think that for this axe to remain by Senior's side, is the most appropriate."

"You know why the men who came here never left alive? After I started living here, there have been three men till now who came to this place, but the results were that all three men were killed by me and their bodies were hung at the entrance of the Dragon and Phoenix Academy." The blue robed woman quietly watched Ning Cheng as she calmly spoke those words.

Although Ning Cheng was satisfied with Master Shu, but he still thought did she develop a violent personality because of the disappearance of her husband? If it really was the case and he was killed here, then he would have really been treated unjustly.

"If senior finds it necessary to kill me, then I can do nothing about it." Ning Cheng spoke calmly, moreover he still did not feel any Killing Intent from this blue robed woman, this also indicated that the opposite party had no intention of killing him.

Sure enough the blue robed woman continued to speak, but this time in a softened tone, as she looked at Ning Cheng and spoke, "This Miao has cause harm to my lord husband, I am no longer the person from the Miao Family. Later on I took the name as Lan Shu. Since you referred Yuchen as your Elder Brother, then you don't need to call me as 'Senior', you can also call me as Elder Sister Shu."

"Yes, Elder Sister Shu." Ning Cheng spoke as he was secretly relieved in his heart, since she had said those words, then he should not be in any danger.

"You can sit down, first I want to ask you a few questions, how were you able to find this place?" Lan Shu gestured Ning Cheng to sit down and asked.

Ning Cheng was also not polite, and after sitting down he spoke, "This one found a woman who knew Elder Sister Shu's residence and it was she who lead me here, it seems she usually comes here."

Lan Shu nodded and said, "Ning Cheng, do you know that that person had actually brought you here because of her hatred towards you. You have to remember that the reason that person had brought you here, was to borrow my hand to kill you, as such you have to carefully watch out for her."

But she did not wait for Ning Cheng to answer and immediately spoke, "The first person to come here was a man by the name of Lan Yuxing, he was the blood brother of Yuchen. But no one knew that he was actually a beast in disguise, on the pretext of coming here to see me, the first thing he wanted to do was to rape me. But he did not know that I had already successfully broken my core, and had successfully stabilized my Soul Essence. As such his plot against me failed and was instead killed by me. Once I killed him, I hung his body at the entrance to the Dragon and Phoenix Academy."

"The second person was an Elder from the Dragon and Phoenix Academy, and was a peak Soul Essence existence, because the Yi Xing Ocean's cultivator army was about to attack the Le Continent, he wanted to come find help from me, and also to lead a few disciples from the Dragon and Phoenix Academy into the war. At that time, I had just successfully stepped into Soul Sculpting Realm, and was cleaning my body. That Elder's Array Formation level was higher than me, and without my consent, broke through my Array Formations."

"Even though I felt humiliated, I still gave him the chance to get out immediately. But after that Elder saw my body, not only did he not leave, but he was same as that Lan Yuxing, and wanted to take possession of me. If not for the fact that I was successful in sculpting my soul, I would have been ravaged by him. After I killed him, his body was hung at the entrance to the Dragon and Phoenix Academy."

Ning Cheng sighed darkly in his heart, a woman being too beautiful was also a curse. The key point in it at present was that this Lan Shu was really too beautiful, that Elder when he saw Lan Shu bathing, he should have been shocked senseless by that type of beauty, and thus ended up sprouting such an evil thought.

Lan Shu sighed and spoke, "After that, I devoted myself to the study of Array Formations, and finally improved my Killing Arrays that I placed here. The third man to come here for me was a Soul Sculpting Cultivator, his cultivation was not worse than my own. The reason he came to me was because he came to know that I had an enormous quantity of True Cosmic Devil Metal....."

"True Cosmic Devil Metal?" Ning Cheng subconsciously cried out.

He was aware of such kind of material, it can be regarded as a Top Quality material among the Top Quality materials, compared to the True Burning Star Sand that he acquired from Gui Yutang, it was still on a higher level than it. But using this material to refine a magic weapon, it would have a particular characteristic, that is it would have a hint of Devilish Nature in it, and as such would be most suitable for the path of Devil Cultivation. If an ordinary cultivator refined magic weapons with this kind of material, then after a long time, they might end up being eroded by the encroachment of the Devilish Nature, and turn into a Devil.

"Yes, True Cosmic Devil Metal." Lan Shu nodded and spoke, "This was what I had prepared for Yuchen, but that man wanted to snatch the True Cosmic Devil Metal, because of which I ended up burning by Essence Blood to use the Array Formations to kill him. Unfortunately, although I managed to kill him, in the end I also ended up paralyzed, moreover even all the Meridians in my body ended up cracked, and can only sit in this chair. Moreover, because I killed those three people, after which there was never a man that came after me, for you to come here, you would actually be the fourth man."

“Oh.....” Ning Cheng subconsciously looked at Lan Shu’s legs, and understood in his heart that no wonder she did not get up, originally it was because her Meridians were crippled. Simultaneously he also thought about that purple robed woman’s vicious nature and was secretly a bit apprehensive, he believed that even if she was an eccentric, at most she would have only tried to teach him a lesson that’s all, who would have imagined that she would still pine for his small life here?

Lan Shu softly spoke, “The reason I spoke these words to you, is because I appreciate you not only for bringing me Yuchen’s belongings, but also for you helping Yuchen by burying his remains. Therefore, this True Cosmic Devil Metal, I have already planned to give it to you, you can take it away to refine it into an Axe Type Magic Weapon.”

Ning Cheng did not react, as Lan Shu immediately brought out a two by three meter in length and breadth and one-meter-wide cuboid of light golden material.

Ning Cheng looked at the disseminating light of the True Cosmic Devil Metal, as he felt a few doubts in his mind, was this really the True Cosmic Devil Metal? He immediately asked the doubts that he felt, “Elder Sister Shu, is this really the Devil Metal?”

“Exactly, this is the True Cosmic Devil Metal, did you think that all kinds of Devil Metal are black in colour. The True Cosmic Devil Metal also has True Cosmic Metal as its component, if you use this True Cosmic Devil Metal to create an axe, then you would not need to add any other materials, it should be more than enough.” Lan Shu once again supplemented.

“But Elder Sister Shu, I heard that if one crafted the True Cosmic Devil into a magic weapon, and if it was used for a long time, they would be likely to be possessed by its Devilish Nature, and finally turn into a Devil Cultivator, so much so that there would be no distinguishing them from the natural red devil.” Ning Cheng spoke with some fear in his heart.

Lan Shu spoke in a light voice, “If you have a strong enough heart, then this True Cosmic Devil Metal is a magic weapon just for you, and it would not control you. But if you do not have a strong and firm heart then you can never control this True Cosmic Devil Metal. If you want you can even sell it, the income you would get would be more than enough for you to reach the cultivation of peak Profound Core Realm.”
