Chapter 221: One Hundred Years of Solitude

"Aah, Ning Cheng really did not come out?" Xiang Zhilan finally found that Ning Cheng had really not come out, rather it was only herself and Yan Ji who had managed come out.

"I'm afraid that using the Spiritual Sacrifice method will only work on two people, it seems that Senior Apprentice Brother Ning has given the opportunity to both of us." Yan Ji having said that immediately went silent. Ning Cheng had continuously saved her twice, and she had also tried to save Ning Cheng once, but instead had ultimately ended up blocking Ning Cheng's way out.

Xiang Zhilan pulled Yan Ji's hand and spoke, "It should not be so, it might be because the Spiritual Sacrifice method encountered some sort of problem. Let's first leave the Blood River Mountains, and wait for him outside."

Yan Ji suddenly asked, "Senior Apprentice Sister Lan, one can only enter the Blood River Mountains in the first three years, then shouldn't we not have arrived up here? This time, once we get out, then it should not be possible to come back here, right?"

Xiang Zhilan nodded, "That's true, only those people who have entered the Law's Way for less than three years can enter the Blood River Mountain, but once in here, they can stay for as much time as they want in here. But once you come out, you would not be able to re-enter this place. But you do not have to worry about him, Junior Brother Ning Cheng is not only a good man, but is also a genius. I have been living at the bottom of the Blood River for many years, and have seen quite a few people down there, but as to the people who were able to figure out such a way out, perhaps he is the only one to do so. If he could find a way out once, then he could definitely be able to find a way out a second time." Xiang Zhilan tried to comfort Yan Ji.

Yan Ji shook her head, "Senior Apprentice Sister Lan, just finding a single Best Quality Spirit Stone in that kind of a place is already something that can be said to be heaven defying, how could he be able to find two? Even if he has a way out, without having any Best Quality Spirit Stones it might not be possible. Moreover, he and that Feng Yushan are already on fighting terms with each other, even Grey Toottoot has come out with me, if he remained inside then he is destined to be alone....."

Seeing Yan Ji keep glancing at the Blood River Peaks, Xiang Zhilan's heart was immediately tied up in knots as she thought, Junior Apprentice Sister Yan Ji does not really want to re-enter the bottom of the Blood River, right? If she really was thinking of doing such a thing, then it was too crazy.

"Junior Apprentice Sister Ji, let's first get out of this place. With our current ability. We are simply unable to save him. Junior Apprentice Brother Ning had finally sent us out with great difficulty, we have to cherish such an opportunity." Xiang Zhilan quickly tried to persuade her with this one phrase, as her tone became even more mellow.

Yan Ji sighed, and did not speak for a long time, "Senior Apprentice Sister Lan, I always felt that I owed him. I do not like owing something to other people, let alone something as big as saving my life, but, but...."

Xiang Zhilan thought for a moment and finally spoke up, "Junior Apprentice Sister Ji, in fact, by the looks of it, it looks like it was Ning Cheng who was feeling that he owed you something, as such you don't have to think about it too much. On the path of practicing cultivation, one should avoid this kind of mentality the most."

"Senior Apprentice Sister Lan, counting the time he saved me from the hands of that Feng Yushan. Ning Cheng has saved me three times already. It is also highly possible that it was also because of me, that he did not manage to come out, how could he feel that he owed me?" Yan Ji was completely not able to understand as she stared at Xiang Zhilan.

Xiang Zhilan's face turned slightly red and spoke, "Ning Cheng, in order to check that your body did not have Feng Yushan's Spiritual Consciousness tag, should have used his Spiritual Consciousness to scour your body. This thing is only known to me and Ning Cheng, but now that Ning Cheng had not come out, at least I can say it to you, but you should not take this to heart."

In Xiang Zhilan's opinion, this girl Yan Ji had an extremely bright future ahead of her, as such for a rogue cultivator like Ning Cheng to spy on her body, it can be clearly said that Ning Cheng was the one who profited.

Yan Ji's complexion was also becoming sanguine; however, she did not feel too surprised about it.

"Junior Apprentice Sister Ji, were you already aware of this thing?" Xiang Zhilan seeing Yan Ji did not appear to be too flustered, couldn't help but suspiciously ask about it.

Yan Ji nodded and spoke, "I had guessed some of it, but was just not sure at that time, and now that you said it, I have already made sure of that possibility."

She was the genius disciple of the Blue Cloud Academy, even if at that time she was anxious and lost in her own thoughts, she simply did not think too much of this matter. It was only later that she guessed, that because Ning Cheng had looked at body, which was why he was certain that there was no other Spiritual Consciousness tag on her.

If Yan Ji had not known Ning Cheng, then she would have certainly shouted out loudly about this unjust perverted behaviour. Although she had also guessed it that he had seen Xiang Zhilan's body, but she still had a vague feeling that he not checked Yan Ji's body.

"Senior Apprentice Sister, the reason you held onto my hand is because you are afraid that I would suddenly rush towards the Blood River Peaks and then deliberately try to enter the bottom of the Blood River, right?" Yan Ji suddenly asked.

Xiang Zhilan awkwardly let go of Yan Ji's hand and spoke, "You think that I am thinking too much, but even so you must not do such a crazy thing. Even if it's you, if you once again go into there, you may not necessarily find Ning Cheng, moreover there is an even greater possibility that you will fall into the hands of that Feng Yushan."

Yan Ji spoke with a hint of sadness, "Senior Apprentice Sister Lan, do you think that I completely lack any gentleness, and that I am too blunt and not careful enough? And that I speak without care as to other's feelings?"

“Although I may seem like that sometimes, however even if all these things were taken into account, it isn’t of any concern for you. Cultivating the Dao, nevertheless is something that is to be practiced in accordance to one’s foundation and heart, it does not necessarily mean that we have to care as to what the others think about us.” Xiang Zhilan really had felt that Yan Ji was lacking a girl’s modesty, and would sometimes speak out words that did not suit a young maiden like her.

“Senior Apprentice Sister you should be aware of the Gui Yuan City, right? It has one of the Le Continent’s three 9 Star Academies, and stands side by side to the Wu Nian Academy and the Dragon and Phoenix Academy.” Yan Ji did not want to continue this topic, instead used her words in such a way as to turn it into a different direction.

“I know it.”

Yan Ji once again spoke with a sigh, “In the Le Continent there is actually a saying, the first four sentences are, ‘Twin Lotus Flowers On One Stalk, Sea Apple Blossoms, Heavenly Star, Riding Half a Cloud’.”

“What do you mean?”

“It refers to the nine genius disciples, the ‘Twin Lotus Flowers On One Stock’ refers to me from the Blue Cloud Academy and Nalan Ruxue from the Wu Nian Academy. The ‘Sea Apple Blossom’ refers to the Gui Yuan City’s trio of siblings Gui Yuhai, Gui Yutang and Gui Yuhua. ‘Heavenly Star’ refers to our Academy’s genius Senior Apprentice Brother Kui Tian and Dragon and Phoenix Academy’s Bei Xingjin, while ‘Riding Half a Cloud’ refers to Wu Nian Academy’s Cheng Yixiao and Dragon and Phoenix Academy’s Luo Banyun.”

TL Note: Hai 海 here refers to ‘Sea’, Tang 棠 here refers to ‘Apple’, well more specifically ‘cherry apple’, Hua 花 here refers to ‘Blossoms’. Tian 天 here refers to the ‘Heavens’, Xing 星 here refers to ‘Star’. Cheng 乘 here refers to ‘Riding’, Banyun 半云 here refers to ‘Half a cloud’.

Xiang Zhilan immediately understood it, as she gave a wry smile and spoke, “It looks like during the one hundred years that I have been living in solitude, a lot of geniuses have emerged in the Le Continent.”

Yan Ji continued to speak, “Senior Apprentice Sister Lan do think that these people’s origins are fixed? They are from three colossally huge 9 Nine Star Academies and our Blue Cloud Academy. Even a fool would know that our Blue Cloud Academy would soon become a 9 Star Academy.”

“Our Blue Cloud academy already had the strength and qualifications to advance to a 9 Star Academy a hundred years ago, as such for it advance to a 9 Star Academy at this time is not unusual aah.” Xiang Zhilan certainly did not feel that her Blue Cloud Academy was ineligible to advance to a 9 Star Academy.

“In fact, these three 9 Star Academies have been keeping each other in check and created a power balance in the Le Continent, but at the moment the strength of the Wu Nian Academy is declining severely. Therefore, they do not wish to see our Blue Cloud Academy become the fourth largest 9 Star Academy in the Le Continent, because of which they wish to join forces with the others to suppress our Blue Cloud Academy.”

“Moreover in the recent years, a lot of geniuses have started appearing in our Blue Cloud Academy, making it even stronger and fiercer than before. Our Blue Cloud Academy’s Senior Apprentice Brother

Kui Tian is less than 50 years old, but has already reached the Soul Essence Realm in his cultivation, other than Dragon and Phoenix Academy's Luo Banyun, there is no one else better than him. Our Blue Cloud Academy, in order to win the support of the Gui Yuan City, had even proposed a marriage between the Blue Cloud Academy and the Gui Yuan City, with the hope that Gui Yuhua and Senior Apprentice Brother Kui Tian can become Dao Companions."

After listening to Yan Ji's words, Xiang Zhilan immediately spoke up, "This is a good thing aah, so what's wrong with it?"

Yan Ji became even more depressed as she spoke, "Wu Nian Academy knows their strength is not better than our Blue Cloud Academy, as such it also wanted to draw in Gui Yuan City, and even took the initiative to voluntarily give Nalan Ruxue to Gui Yuhai. Blue Cloud Academy was afraid that the alliance between the Gui Yuan City and the Wu Nian Academy would be demerital for our Blue Cloud Academy's advancement to a 9 Star Academy, so....."

Xiang Zhilan immediately understood, it should be because the Blue Cloud Academy, in order to win over the Gui Yuan City, had also wanted to promise Yan Ji to Gui Yuhai. If this had happened to her, then she certainly would not have any means to resist it. For a genius disciple like Gui Yuhai, his qualifications would certainly be heaven defying. Presumably this man's status in the Gui Yuan City was also not low, as such for a person like her to become Dao Companions with him, there would be nothing wrong. It was just that it had to be Yan Ji. In her heart she had already come to understand Yan Ji's viewpoint.

Yan Ji also knew what Xiang Zhilan meant, as she once again spoke with a sigh, "Originally, I had trained and cultivated in the Blue Cloud Academy, and the Blue Cloud Academy has also always been good to me, although they have not yet put forward this matter. But after coming out from the Law's Way, they will certainly bring it to the front. I know that Gui Yuhai is fond of sweet tempered and gentle woman, because of which I deliberately spoke and acted in an unconventional manner, it was because I wanted him to choose Nalan Ruxue over me. And now, Ning Cheng he...."

"Junior Apprentice Sister Ji, I understand." Xiang Zhilan once again grasped Yan Ji's hand, she knew what Yan Ji wanted to say, and also understood what Ning Cheng had meant.

Ning Cheng was not yet dead at present, and yet he had also seen Yan Ji's body, moreover Yan Ji also had a heavy crush on Ning Cheng, what's more he had even saved Yan Ji several times. In such a case, for a woman like Yan Ji, to marry another man, it would indeed be unfair towards Yan Ji.

In the Yi Xing Mainland, although men can marry three wives and have four concubines, but when it came to Dao Companions there can even be more than one, however for a woman to stay virtuous, she must always fulfil her duties as a wife and stay true to her one man until her death. Ning Cheng had seen Yan Ji's body, in a sense, Yan Ji was already a person of Ning Cheng. Moreover, since she herself had took care of Ning Cheng's body, it also should be as is.

Seeing her Senior Apprentice Sister understand her meaning, Yan Ji gave a faint laugh and spoke, "Don't forget Grey Toottoot is still here with me. Senior Apprentice Sister you have experienced a hundred years of solitude in there, presumably you should know that that kind of suffering is something that I almost could not endure for even just the past three years that I was inside. Now that I have already made my decision, as such I don't want him to also go through this kind of hundred years of solitude,

that kind of feeling, for people who have not experienced it by themselves, would not realize just how frightening it would be.”

Saying that, she gave a slight pat on Grey Toottoot’s chest, as she slowly turned and once again began to walk towards one of the Blood River Peaks.

Xiang Zhilan looked at the lonely back of Yan Ji, when she suddenly felt her throat jamming, only now did she fully understand Yan Ji’s words, she realized that Yan Ji was definitely not doing anything wrong. If she had replaced her in such a situation, then perhaps she would have also made the same choice. However, with her cultivation practice at present, other than looking for a symbolic Dao Companion, she had never really went out and liked a man, let alone love a man.

But even if that was the case she understood Yan Ji’s feelings, and the reason she understood this, was because she herself had lived almost a hundred years in solitude.

Chapter 222: The Huge Talisman’s Dao Charm

Ning Cheng could feel his entire body covered in a bright light, and was thinking that the method he had deduced was a success, and that this was truly a sign of transferring out of this place. Just at this moment his Spiritual Consciousness encountered a very strange aura, moreover this aura was something that was spilling out from the area sealed within the circular region of the Blood River. Because he had brought out a million High Grade Spirit Stones, the extremely rich Spiritual Qi born from it had created an opening for this aura as it poured into his Sea of Consciousness.

Ning Cheng was already extremely sensitive towards Origin Aura, as such he was immediately able to perceive that this was definitely an Origin Aura, but one which he was unaware of. Moreover, because of the dissimilarities with the Mysterious Yellow Bead’s Origin Aura, he could also tell that it was completely different from the Origin Aura that he had felt from the bottom of the river in the Angry Axe Valley.

He had not obtained the Mysterious Yellow Bead for one or two days, as such Ning Cheng was very clear that it had a greater thirst for origins more than any other thing. As such now that he encountered the Origin Aura at this moment once again, how could he let go of it. He immediately used his Spiritual Consciousness to rush towards it.

At this time, if there was someone watching from the side, they could have clearly seen that Yan Ji and Xiang Zhilan, because of the power from the transference, were already rising up in the process of ejection, while Ning Cheng looked as if an invisible force was pulling him back down.

Ning Cheng was completely unaware that he was pulling himself down, as he simply sat down in the same place, while at the same time used his Spiritual Consciousness to cause fluctuations to form in the Spiritual Qi formed by the Spiritual Sacrifice. He originally wanted to open up a channel to communicate with the huge Talisman that he could only see with his eyes.

There was golden light spilling out from the Talisman, which was even surrounded by a Dao Charm that seem to have come from the time of the ancients, which had spilled over and had completely enveloped him. Ning Cheng felt that he had entered into a whole new world, he felt the world that he was in

previously had completely disappeared, while his entire soul and body was transfixed on that one Talisman.

Metal Wood Water Fire Earth, Heaven Earth and Man, Wind Thunder and Lightning, Space-Time Transformations, Darkness and Light.....

Ning Cheng was completely excited to such a point that one could even see his body trembling, in this Talisman he had seen everything that he had not understood before, these things were something that no one would be able to teach him, rather one could even say that there was no one who could clearly understand these things.

Together with the Dao Charm's direction Ning Cheng directly imprinted the knowledge onto his mind. Because of which it was starting to go from obscure to clear. The pale golden halo from the huge Talisman continued to circulate, giving out a sensation of possessing a vast and boundlessly Grand Dao of the highest truth.

Not knowing for how long he had been in such a state, the Spiritual Qi above the Blood River suddenly lightened up; Ning Cheng's Spiritual Consciousness connection ended up being suddenly interrupted and was being pushed back. He was no longer able to communicate with that huge pale golden Talisman.

However, Ning Cheng took it as blessing in his heart, and did not continue communicating further with this huge Talisman. He knew that he had already obtained a lot, and this was his chance. At this moment, his hands were no longer moving involuntarily while he consciously used them to bring forth various sorts and varieties of hand signs and gestures.

Immediately a Level 1 Wind Edge Talisman condensed out of pure Spiritual Qi followed by more Wind Edge Talismans, Fireball Talismans, Thunder and Lightning Talismans, Condensing Rain Talismans, Rejuvenation Talismans....

A wide variety of Talismans that seemed to be endless were taking form above Ning Cheng's hands, starting from the basics of Level 1 and climbing to Level 2. However, because of the lack of Spiritual Qi Ning Cheng once again spilled out a million Spirit Stones, and then once again began to coalesce Talismans.

Although many of the Talismans coalesced from Spiritual Qi dissipated quickly, but Ning Cheng would once again coalesce them back. Then as he went forward, he directly abandoned the method of coalescing Spiritual Qi, and started using different materials to condense the Talismans.

Using other materials to condense the Talismans actually made it so that they did not dissipate, as he created Level 1 Attack Talismans, Defensive Talismans. Then moving onto Level 2 Talismans.....

Ning Cheng constantly refined a variety of Talismans; moreover, under the induction of the Dao Charm from the huge pale golden Talisman, it ingrained itself into his mind and body, while he again simultaneously started absorbing the surrounding Spiritual Qi. As such at this time he was not only condensing Talismans, he was also unconsciously practicing cultivation.

As his cultivation was constantly improving, Talismans were also continuously accumulating all around him.

By the time Ning Cheng cultivated to the Profound Congealing 6th Level, he could already condense Level 3 Talismans.

“Wow....” Ning Cheng once again spread out a million Spirit Stones.

This time around, the stream of Dao Charm had become increasingly thin. While under this Dao Charm, not only was Ning Cheng’s cultivation increasing constantly, even his refining speed of the Talismans was getting faster and faster. In this case, not only the Spirit Stones around Ning Cheng transformed into Spiritual Qi, even the Spiritual Qi from the Blood River soon started to gather around him, as it rapidly drilled into Ning Cheng’s body.

Spiritual Qi Mist, Talisman Refining...

This seemed to have become a timelessly eternal picture, with absolutely no change. There was only eternal action.

Even in the depths of Ning Cheng’s consciousness, this kind of desire continued to go on eternally. He wanted to go forward never-endingly, no matter if it was for cultivation or for his level of understandings in Talismans.

“Ka....” A faint sound emerged, breaking this eternally timeless picture. While at the same time, the Dao Charm surrounding Ning Cheng’s entire body also dissipated completely, without even leaving behind even the slightest trace.

Ning Cheng suddenly opened his eyes, he did not know whether to be pleased or be annoyed with himself.

He had unknowingly broken through from the Intermediate Stages of Profound Congealing Realm, and had advanced to the Profound Congealing 7th Level. While at the same time, his actions of refining Talismans had also ended, in the end he only managed to refine just a single Level 5 Talisman, before his cultivation advancement had ended up interrupting him.

Ning Cheng knew that it was because of that huge pale golden Talisman in front of him, which had completely drawn him into an epiphany. He did not know how long had this epiphany lasted for, but he was very clear that this epiphany had brought him a huge harvest.

Not only were his understanding towards the origins of his magical techniques and cultivation practice had deepened, it had even helped him in gaining a deeper understandings regarding Talismans. Although during his epiphany, he had practiced his cultivation all the way to the Profound Congealing 7th Level, but during the same epiphany, he who had started from a few extremely simple Level 1 Talismans, that could basically be refined by any decent cultivator, had finally ended up becoming a Tier 5 Talisman Master in just a single shot.

This epiphany had not lasted for a short time, but even still Ning Cheng felt that the time he spent in the midst of that epiphany was far too short.

If he could have obtained just a bit more time, then maybe he would have advanced to a Tier 6 Talisman Master. Unfortunately, his epiphany ended up being broken because he had advanced in his cultivation. If he wanted to become a Tier 6 Talisman Master from now on, then it was necessary for him to rely on

himself to collect the necessary experience. That would only be accumulated extremely slowly, which when compared to the time spent in the midst of an epiphany would be a long and tedious process.

But then again for him to be able to practice cultivation was already a huge opportunity for him, if there was no such opportunity then he was aware that was nothing. Moreover, he also had gotten such a huge chance to be able to get such a feedback from this huge Talisman, and had even easily become a Tier 5 Talisman Master. If it were an ordinary person, then they would not have even dared to imagine such a thing.

Moreover, this huge Talisman was also amazing; it actually turned out to contain Origin Force. Was there a possibility for it to be actually an Origin Talisman? Ning Cheng enviously looked at this huge pale golden Talisman; in his heart, he had the desire to make this Talisman his own.

However, he was also very clear, with his ability at present, there was absolutely no way to even get near that Talisman let alone make it his own. Not to mention that he was not even able to cross this Blood River in front of him, even if he was able to get past this Blood River, he could already guess that he would not be able to obtain that huge Talisman.

“In the future, when my cultivation is high enough, I must definitely come here again, I WILL take this Talisman away.” Ning Cheng was still staring at this Talisman, while his heart was full of fire and zeal to obtain it. He had only used his Spiritual Consciousness to try and communicate with this Talisman for a bit and had already obtained such an enormous opportunity, once he was able to fully obtain this Talisman, then how much progress would he be able to make?

Ning Cheng finally took back his scorchingly hot vision, as he looked at the piled of Talisman in front of him. Even he could not dare to believe that he had refined these many. Refining so many Talismans, just how much time would it have taken aah?

There were at least 10-20,000 Talismans in front of him.

Looks like Yan Ji and Xiang Zhilan have been out for a few months, Ning Cheng sighed as he thought about it.

However, his spirit soon rose up again, his strength at Profound Congealing 7th Level was several times more powerful than when he was still at the Profound Congealing 5th Level. He could even feel the fluctuations from his True Essence as it coursed through his entire body with gurgling like sounds, moreover even his Core Lake had become more powerful and thick.

“Feng Yushan, I don’t believe that I wouldn’t be able to take you on now.” Ning Cheng raised his hand and clenched it into a fist as he threw out an Axe Fist, this time it was similar to pure Axe Intent as it surged forward ripping through the air and creating loud explosions all around. The murderous aura overflowed out in all four directions, creating a circular ripple on the otherwise calm surface of the Blood River.

Even if he had to get out of this place, he had already decided on getting rid of Feng Yushan first. Ning Cheng was definitely not a Mr. Nice Guy, initially when he could not defeat that Feng Yushan, it ended up in him trying to chase him down. Now that he was sure of himself, then why would he have to worry about Feng Yushan?

Feng Yushan at best would rely on his single Soul Essence Puppet, but once he brought out a couple of thousands of Talismans and made them explode, then he did not believe that it could not stop a Soul Essence Puppet.

A puppet was after all a puppet; it was not a living person? It certainly would not be able to cast a wide range of magical techniques, as long as he could keep the puppet pinned with a dense amount of Talismans, then he alone could easily kill that Feng Yushan.

Thinking until here, the murderous intentions in Ning Cheng's heart cleared up, as he lifted his hand and immediately put away the Talismans on the ground. Throwing out a dozen Array Flags, he once again returned to the land filled with black sands.

He only had a single piece of Best Quality Spirit Stone left with him, as such after killing Feng Yushan; he could then use it to leave this place later.

Ning Cheng deliberately put the True Cosmic Devil Axe on his back, while quickly activating the Twin Heavenly Cloud Wings, as he went straight towards Feng Yushan's lair.

.....

Just as Ning Cheng was out looking for Feng Yushan, Feng Yushan was also looking for Ning Cheng. However, at this moment he was feeling very depressed, he could never have thought that the Spiritual Consciousness Tag that he himself placed on Xiang Zhilan's body would end up found out.

Because the Spiritual Consciousness Tag was something that was created with his own skill, he had a bit of confidence in it, even if Xiang Zhilan knew that there was a Spiritual Consciousness Tag on her, in order to find it, they would have to settle down and spend a very long time to find it. With such a long time, he could totally catch up Ning Cheng and the trio. However, the truth was always something different from what he had imagined, in less than half a day, he had lost track of the three of them.

After continuously looking all over the place for more than a month Feng Yushan reluctantly returned to the place he was living. He decided to use all the cultivators present there to search for them, as such at this time there were already more than thirty people looking for Ning Cheng and the trio. He did not believe that they would not be able to find them. Even if this place looked vast and boundless, it was just a huge Array in the end.

In order to find Ning Cheng trio, before he sent of all the people, he had even refined quite a number of Array Flags. Distributing one to everyone so that once the entire group ended up spreading out throughout the place, as long as even a single one of them found the place it would immediately inform every one of the location. He was confident that they would definitely be able to identify the Ning Cheng trio, regardless of where they hid themselves.

He wanted to get his hands on the Twin Heavenly Cloud Wings.

After more than two months of preparation, Feng Yushan was once again ready to go out again along with the rest of the people in order to look for Ning Cheng, but at this moment, it was Ning Cheng who had suddenly came to seek them out.

"Haha, you were actually aware of it, you knew that I was going to find you sooner or later, moreover you also cannot leave this place. Since you are so tactful, I can allow you to actually keep one....." Feng

Yushan when he saw Ning Cheng, his first thought that that Ning Cheng had come here because he was not able to survive out there. However, he immediately perceived that something was not right, as he did not see Yan Ji or Xiang Zhilan with him.

Ning Cheng glanced at the dozens of pale faced cultivators behind Feng Yushan, before his eyes once again fell upon Feng Yushan as he spoke, "If you want something from me, then just try and keep up with me."

Finished saying this, Ning Cheng did not talk any more nonsense, as he directly turned around and flew, he believed that Feng Yushan would certainly try to pursue him.

"Since he took the initiative to come here, then you can go back first." Feng Yushan finished speaking to the rest of the cultivators behind him, and immediately with flick of his body, began chasing in the direction Ning Cheng flew. This time, he would definitely not let Ning Cheng disappear from his sight.

Ning Cheng did not go far, before he stopped.

Feng Yushan glanced at the Entrapment Arrays behind Ning Cheng, as he sneered in his mind as he thought, no wonder he had the guts to come look for him, it turned out that he had arranged an Entrapment Array, wanting to use this level of Entrapment Arrays to trap his Soul Essence Puppet? Stop dreaming.

Feng Yushan simply did not even feel the worth to speak, as he raised his hand and brought out his Soul Essence Puppet, he knew that Ning Cheng was powerful, if he did not use the puppet to contain Ning Cheng, then he was really afraid that Ning Cheng would be able to escape.

[The Gate Of Good Fortune](#)

Chapter 223: The Fighting Style of a Madman

Feng Yushan wanted to get rid of Ning Cheng urgently, and Ning Cheng also was having the same thoughts about Feng Yushan, he also wanted to get rid of Feng Yushan as soon as possible.

Just as Feng Yushan brought out his Soul Essence Puppet, Ning Cheng also simultaneously brought his True Cosmic Devil Axe to the front, while at the same time; he threw out a dozen Array Flags. Although he had too many Talismans, but he was afraid that their level was too low to be able to pin down Feng Yushan, as such he had simply arranged a Level 4 Killing Array. Although Ning Cheng could have also easily arranged a Level 5 Killing Array, but the materials required for a Level 5 Killing Array were simply too precious at the moment. Even if it was Ning Cheng, he did not have so many of such precious materials and could only use pieces of clothes to arrange the Array.

Feng Yushan had stayed inside this place for many years, as such, his understandings towards Array Formations were also not bad, as such even though it was only a single Array Formation arranged from pieces of cloth, and he realized that in this area he was no weaker than Ning Cheng was. As such, he did not put the Array Formation arranged by Ning Cheng in his eyes. Ning Cheng was just a young cultivator, as such even if the Array Formation was even more powerful, it would only be powerful to a certain limit.

Because of which, when Ning Cheng turned his Entrapment Array into a Level 4 Killing Array, the corners of his mouth revealed a touch of sarcasm. Using a Level 4 Killing Array and wanting to get rid of his Level 6 Soul Essence Puppet, it was simply a dream.

Just as he brought out his Yin Yang Dual Locks, he also threw out a dozen Array Flags.

When the Yin Yang Dual Locks were brought out it immediately stirred up two distinct Yin and Yang killing auras, these two killing auras in just a twinkling of an eye burst into the sky transforming into a red and a blue dual intertwining dragons. The surrounding air immediately became heavier and heavier every passing moment, but at present Ning Cheng's cultivation was something that his previous Profound Congealing 5th Level Cultivation could even be compared to.

This time his opponent's two streams of killing auras had transformed into something entirely different than the True Essence Spheres from before, this time the two auras had transformed into two long intertwining dragons as they pounced towards Ning Cheng. At the same time, Ning Cheng's Killing Array, because of the Array Flags thrown out by Feng Yushan ended up stop functioning. While at the same time, the Soul Essence Puppet sent out a huge palm slap, which immediately descended on a corner of the Killing Array, immediately turning it into dust.

Seeing the two distinct killing aura's in the shape of dragons. Ning Cheng immediately realized that in his first battle with Feng Yushan, he truly had not shown his full strength.

He immediately released the berserk slaughtering aura of the True Cosmic Devil Axe. Using a trace of devouring power of its Devilish Nature, it immediately tore open a long distorting and twisting Axe Trace. If one looked closely, there were even extremely huge amounts of fine Axe Lines around this cleaved open Axe Trace.

Ning Cheng's True Essence and Axe Intent was continuously on the rise, while he simultaneously took out thousands of Talismans.

The distorting and twisting Axe Trace and the Yin and Yang Dual Dragons collided together, immediately resulting in the distorting and twisting Axe Trace along with the Yin and Yang Slaughtering Aura to entangle and restrain each other.

"Boom Boom Boom Boom Boom Boom Boom...."

Explosions of True Essence immediately ripped through this entire barren expanse, and the originally quiet and dead place immediately became unsteady because of the clashing between the killing intents. It was just a single exchange, but Feng Yushan's heart immediately sank, compared to Ning Cheng's cultivation when they had previously fought, it seems that he had powered up a lot.

However, this was far from being over. Those explosion sounds were not because the Axe Line weakening or the Yin and Yang Slaughtering Aura dissipating. Rather none of them was weakening at all, while the sounds of explosions were growing more and more intense. There were simply all kinds of killing lights spilling all over the place; it was as if someone had lit up a completely packed fireworks shop.

"You're crazy....." Feng Yushan also ended up being swept up in this kind of berserk murderous explosions; he soon understood what was going on. It turned out Ning Cheng had actually brought out

thousands of Talismans. Just how much wealth was required to obtain such things, it was simply too crazy.

The Level 6 Puppet under the endless explosions from the Talismans was also being unceasingly beat up. Although these Talismans were unable to actually harm the puppet. However, it was more than enough to keep the puppet busy for a short time trapped within the exploding Talismans.

Ning Cheng in his heart was slightly surprised; he did not think that even with these many Talismans he would not be able to injure this Level 6 Puppet. Although the explosions from these Talismans looked quite powerful, but the fact was that against this Level 6 Puppet, they were just like fire crackers in general, such that even when the Talismans' explosions died down, it would still be unable to harm that puppet which was after all Level 6 Puppet.

But he hardly gave much thought about it, before Ning Cheng once again threw out a few more thousand Talismans, while the rest of the nearly 10,000 Talismans, he used them against Feng Yushan.

There was no other person in this world who would use Talismans just like how Ning Cheng was using them at this moment, even if others had tens of thousands of Talismans, they would definitely not bring them all out in just an instant. However, Ning Cheng could, all these Talismans were refined by him, moreover he was ready to come back to this place and kill Feng Yushan. Because of which he had already made all the required preparations beforehand, one of which included keeping all the Talismans in an active state.

"Maniac....." Feng Yushan, seeing Ning Cheng once again bring out around 20,000 Talismans, was finally unable to contain the panic in his heart.

Even if he was in possession of the puppet, and was also a peak level Profound Core 9th Level Cultivator, even he would not be so willing as to try and resist the explosive power of so many Talismans.

The two people had just exchanged a single move till now, and he already had thoughts of escaping. If he knew Ning Cheng would use this kind of approach to deal with him, he would have tried to come up with countermeasures for it, but even in that case he would have to be at the mercy of the Talismans exploding.

Level 4 and below Talismans would not cause him much harm, at most, he would only suffer minor injuries, but if there were numerous Level 4 Talismans or even a single Level 5 Talisman, how would he be able to fight in such a case?

Countless Fireballs, Wind Edges, Thunder and Lightning, Axe Lights etc. exploded out. There were hardly even a few moments in between to even breath, before Feng Yushan was completely covered in explosions.

FLEE! Feng Yushan's immediate thought was to flee with his life, he had to recover his puppet and immediately get away.

Although Feng Yushan had such thoughts, but Ning Cheng had already detected it, since he had taken the initiative to lure Feng Yushan to this place, how could he let the other party escape?

He had the Twin Heavenly Cloud Wings, as such he was already outside the range of the exploding Talismans and had already seen that Feng Yushan was doing all that he could to try and escape this place. Seeing that, he did not hesitate to bring out the full power of the True Cosmic Devil Axe.

Angry Axe's Second Form, [Tornado].

The Axe Intent immediately burst out to form into a matchlessly huge and berserk tornado, at this moment whether it was the Angry Axe's Killing Intent, or the blade lights from the explosions of the Talisman, even the Yin and Yang slaughtering aura from the Yin Yang Dual Locks that Feng Yushan brought out, they were immediately sucked into the matchlessly berserk tornado, as it rushed towards Feng Yushan trapping him inside.

The surroundings were completely locked down by this one axe from Ning Cheng, other than trying to confront this one axe move from the outside, Feng Yushan simply had no other option.

But Feng Yushan's battle experience was quite rich, at this time how could he not realize that he would not be able to escape unscathed, but if he did not escape then wouldn't he simply end up as a target? Even his puppet was surrounded and could not be recalled back, so he simply decided to leave it and immediately disappeared from the spot.

The fearful explosions from the Talisman continued to ring out, but Feng Yushan had already disappeared. Ning Cheng's berserk axe's killing tornado unexpectedly could not find its target.

"Boom...." The huge vortex formed by the berserk Angry Axe Killing Intent, since it could not find its target, immediately exploded on the sand. The explosions from the Talismans and the True Essence had originally created an enormous gully, which was once again torn up to an even greater extent.

Ning Cheng was also subconsciously keeping tabs on the actions of the Level 6 Puppet, as such now that it could not receive Feng Yushan's commands, it immediately slowed down.

Ning Cheng did not know where Feng Yushan disappeared to, but he knew that even if he wanted to go ahead and search for Feng Yushan, he would first have to put away this puppet. He also knew that he would not always be able to take out tens of thousands of Talismans. This Level 6 Puppet can already disintegrate a Level 4 Killing Array with just a slap to one of its corners, as such he knew that he absolutely would not be able to fight against it head on.

Immediately throwing out dozens of Array Flags, Ning Cheng in the shortest possible time arranged an Entrapment Array that was similar to an iron barrel in general. Regardless of where Feng Yushan had escaped to, he would not get careless during this process.

The actions of this Level 6 Soul Essence Puppet finally stopped, even though it was an extremely powerful puppet, but in the end it was still a puppet. Ning Cheng constantly put Restrictions one after another on the body of the puppet, his idea was to first seal up this puppet, and then slowly research it when he had the free time.

A short period of time later, just as the last of the explosions from the Talismans died out, the puppet still remained safe and sound, it had already been tied up as rice dumplings under the Restrictions placed on it by Ning Cheng, and was unceremoniously thrown into his Storage Ring.

Ning Cheng felt slightly relieved, even if Feng Yushan came back, without his puppet, he was not afraid of this person.

Although in the space around them there was no fluctuations, Ning Cheng did not believe that Feng Yushan would have used Blood Escaping Talismans or other similar things to escape. After putting away the puppet, Ning Cheng used his Spiritual Consciousness to carefully search around the Entrapment Arrays that he had put down before.

At this point the explosions from the Talismans were finally coming to its end, and the large amount of dust and sand was floating around, but under Ning Cheng's mastery of his Spiritual Consciousness, there was nothing that could hide from him in its range.

After a moment, Ning Cheng's Spiritual Consciousness fell upon a ring that had fell and hidden itself in the sand, as he sneered in his heart, taking refuge inside one's own ring?

Just as Ning Cheng's Spiritual Consciousness fell onto the ring, Feng Yushan's Spiritual Consciousness also came out, "Elder Brother Cheng, there are a few words every person likes to say. I and Xiang Zhilan are also friends with each other, and I have always continued to help her. Even Junior Apprentice Sister Yan Ji, I have always been looking after of her, moreover I acknowledge that I have been coveting your Twin Heavenly Cloud Leaves, because of which I would really like to offer a sincere apology. In addition to the Level 6 Soul Essence Puppet outside that I left for you, I have prepared another tribute for you. So long as you let me go just this once, moreover everyone here is trapped in this place, as such what use is it to have unresolved grievances."

Feng Yushan at this time in his heart was feeling extremely sorry, it was because he had seriously underestimated Ning Cheng, even his Level 6 Soul Essence Puppet could not even display one tenth of its power before he was forced to flee in here leaving it behind. He realized that he should have made a move on him in the beginning, with Ning Cheng battling the puppet on one side, then perhaps at this time Ning Cheng would have already been killed off by him.

"You can live inside this ring, it in itself is quite uncommon, I really am in need of such a thing. Although I also have a Spirit Beast Bag but it's not as good as this ring, even Grey Toottoot who has been living in the Spirit Beast Bag has always been grumbling about it....." Ning Cheng replied, while speaking, he once again brought out a few Array Flags, and completely locked down this ring in the middle of it.

Feng Yushan already realized it that he was not as strong as Ning Cheng, now that he was trapped within Ning Cheng's Array Formation, other than Ning Cheng letting him out by his own, there was no other way. Even if he grinded his teeth in hate, there was nothing he could do.

"Elder Brother Cheng, this is a somewhat dilapidated miniature world, if Elder Brother Cheng wants it, then of course I can also give it to you. But if by some reason this small world ends getting destroyed, then you would not be able to get it." Feng Yushan knew that at this time he did not have any other cards to play, and could only use Ning Cheng's greed against him and see if he could escape from here unharmed.

Seeing Ning Cheng silent, Feng Yushan quickly added, "The Spiritual Qi in my small world is quite abundant, moreover there is also a Spiritual Grass Garden with quite a variety in here, the reason I was able to advance in this kind of place, is because of this miniature world. If not for this place being

unsuitable to cross the tribulation, otherwise I would have already cultivated to the Soul Essence Realm.”

Ning Cheng knew that what Feng Yushan had spoken was somewhat the truth, it was because he had seen the Heaven Opening Talisman, as such he knew that this piece of isolated space was really sturdy, it was because it was the only place that could actually fully confine the Heaven Opening Talisman. At the time when a cultivator wanted to advance to the Soul Essence Realm, they were required to cross the Thunder Tribulation, since this place is sealed and cut off, it of course would not be suitable to cross the Tribulation.

“Really? Then you will have to come out first, and give this small world to me.” Ning Cheng was a bit afraid that Feng Yushan would really blow up this small world, and that was definitely not a good thing. With such a good item in front of him, he knew that for him it simply could not be better.

Although he had been inside the Mysterious Yellow Bead once, but the inside of it was completely empty and desolate, it was only a yellow expanse of mist, not to mention about the source of vitality or even trying to plant Spiritual Grasses.

“You will have to first swear a poison oath to let me go, only then would I hand over this small world to you.” Feng Yushan spoke in a ruthless voice, he already had many experiences with the treacherousness and craftiness of people like Ning Cheng.

[The Gate Of Good Fortune](#)

Chapter 224: The Skeleton That Sat Up

“This father has not even made any vows to both the girls that I picked up at that time, while you are just a single puny Profound Core Cultivator yet you still want me to take such an oath.....” As Ning Cheng spoke, he continuously shot out various kinds of restrictions.

These restrictions, one after the other, merged into the ring that was able to support life inside it, all in order to prevent Feng Yushan from blowing up the miniature world. If it was Ning Cheng who ended up getting trapped inside, then other than threatening and trying to coerce Feng Yushan perhaps there really would not be any other way.

No matter how small the world inside was, but at the very least it was able to sustain life inside, as such he could use it to cultivate spiritual grasses, and even let Grey Toottoot to live inside it. It was not something over which Ning Cheng was unwilling to take such an oath, and although Ning Cheng did not believe in oaths, since he was already on the path of Cultivating the Dao, he did not want to have any unexpected impacts on it just because of this.

Moreover in his heart, he was already anxious to kill Feng Yushan, as such letting Feng Yushan off would obviously not be good for his heart or his conscience. Moreover even if this miniature world was good, it was absolutely not better than his Mysterious Yellow Bead.

Seeing Ning Cheng not even hesitate to seal up the ring, Feng Yushan was completely panic stricken as he clenched his fists hard, he immediately knew that Ning Cheng was bent on taking his life, he simply decided to not make any compromises with him.

After Feng Yushan understood this, a heavy surge of despair rose up in his mind, while simultaneously he initiated the self detonation of his golden core. Since he wanted his life, then even if he had to blow himself up he would not let this miniature world fall into the hands of Ning Cheng.

The now completely berserk True Essence, with an extremely terrifying aura, started tearing through the ring, but this aura was completely confined within the various restrictions that Ning Cheng had placed in this space. As this went on, Ning Cheng was using his Spiritual Consciousness to look for the original Restrictions placed on the miniature world inside.

The terrifying aura from the explosion of Feng Yushan's golden core soon was perceived by Ning Cheng, he immediately realized that Feng Yushan had chosen to blow himself up. Not only Feng Yushan wanted to die with the self detonation of his golden core, but he also wanted to use the power of the self detonation to completely destroy the miniature world inside. Otherwise with the degree of freedom at present with Feng Yushan, he could easily cause his golden core to blow up a long time back. He wouldn't even need to wait for such a long time.

Ning Cheng did not bother about Feng Yushan blowing himself up, he knew that it was something that was beyond his control. What he wanted was to protect this miniature world.

One after the other, Ning Cheng shot out various Restrictions. Ning Cheng completely sealed up this life sustaining ring with his fastest and most craziest speed, while his Spiritual Consciousness once again started to wear down the Restrictions placed outside this miniature world at a furious pace.

"Boom....."

Terrifying explosion sounds directly ripped apart the various Restrictions placed on it by Ning Cheng, so much so that even Ning Cheng's Sea of Consciousness was faintly trembling because of it.

Traces of blood started to appear at the corners of Ning Cheng's mouth because of the shaking of the miniature world. Such terrible explosive sounds soon spread around Ning Cheng's Sea of Consciousness, at this time Ning Cheng was now fully aware that Feng Yushan had deliberately waited to explode his golden core. Maybe because the miniature world was too tough, or maybe it was because of the numerous restrictions that he placed on it sealing it up, but the miniature world inside still remained relatively stable. It was just that he did not know how much damage was caused inside.

Ning Cheng did not move, as he used his Spiritual Consciousness to constantly refine this ring. While simultaneously wearing down the Restrictions placed on the outside of the ring.

Not knowing for how long he was in such a state, Ning Cheng's Spiritual Consciousness finally lightened a bit, all the Restrictions placed on the outside of the ring had been completely grinded out by him. What he saw then was an extremely desolate but immensely huge ravine, although this place initially looked like an island, but at this moment the island was in a complete mess. Not to mention a spiritual grass, there was not even a single weed to be seen inside, even that pair of Yin Yang Dual Locks had become useless scrap metal.

Ning Cheng heaved a sigh of relief. He knew because of his own shackles, the miniature world inside had become even more dilapidated because of Feng Yushan blowing himself up, but at the very least he was still able to keep it relatively preserved. As long as he slowly nurtured it in the future, then even if it was

not fully restored to the state in which Feng Yushan used it previously, it would still be more than enough for his use.

Ning Cheng did not leave and continued to refine this ring. Unconsciously a month passed by. At this time Ning Cheng had completely refined this miniature world. He immediately stood up on the place he was sitting, and wore the ring on his hand.

Since he had now killed Feng Yushan, but ended up without resources for cultivation, but since he was able to obtain the dilapidated miniature world, Ning Cheng was quite satisfied. Now he could proceed to go out of this place.

Using the Dust Removal Technique on himself a few times, Ning Cheng wielded the Twin Heavenly Cloud Wings and disappeared from that spot in an instant. There were many cultivators trapped in this place. But Ning Cheng did not know them, moreover he also knew that could not afford or even had the ability to rescue all the people trapped in here.

Although he had a Best Quality Spirit Stone remaining with him, but with the Spiritual Qi present inside it, at most he would only be able to take out 4-5 people.

“Yi Yi....” A very familiar sound made Ning Cheng question his own hearing, but even then he knew that this was absolutely Grey Toottoot’s voice.

Ning Cheng was a bit surprised in his heart, didn’t Grey Toottoot follow Yan Ji and Xiang Zhilan out? How could he still be in here? Was it because the transfer process did not work on it?

He then immediately used his Spiritual Consciousness to look for Grey Toottoot, he not only was able to find Grey Toottoot, but also ended up finding Yan Ji.

At this moment Yan Ji was complete dirty from head to foot, and was with dishevelled hair, using both her hands constantly to form gestures and symbols in conjunction to the symbols from a few cloth arrays. The only difference of this scene from his own initially, was that at that time he was trying to deduce this Array Formation, with Grey Toottoot always walking behind him, but this time Yan Ji was actually following behind Grey Toottoot.

With Grey Toottoot’s sense of smell, it was clear that it was able to smell out Ning Cheng, which was why it had called out.

Ning Cheng wielding his Twin Heavenly Cloud Wings, already had arrived in front of Yan Ji, “Junior Apprentice Sister Ji, what’s the matter with you?”

But Yan Ji ignored Ning Cheng, and was still continuously using her hands to form gestures.

Ning Cheng realized that Yan Ji should have become enchanted with this large Array Formation resulting in loosing herself in it. Before he had also met a few similar cultivators who looked almost the same. Thankfully he knew that these symptoms indicated that she had only recently submerged into the enchantment, but if she spent a few months or even a few decades like this, then he could easily guess that Yan Ji’s naked body would no longer be differentiable from those emaciated cultivators.

Grey Toottoot on seeing Ning Cheng immediately began yipping in a happy voice as it immediately rushed over towards him, it was clearly very excited on seeing him. Looking at Grey Toottoot once again

with such an emaciated appearance, Ning Cheng immediately took out several pills and handed them to Grey Toottoot, while he patted Grey Toottoot's head and spoke, "First go inside and rest inside the ring."

After putting all the things that he could eat into the miniature world inside the ring, Ning Cheng sent Grey Toottoot inside into the ring.

Just as he was going to seal up Yan Ji's five senses, and put her away, he found that Yan Ji was now going round and round around him, rather than going forward. Apparently Yan Ji had become accustomed to follow behind Grey Toottoot, now that Grey Toottoot had disappeared, she did not know what to do.

Ning Cheng directly went ahead and sealed up Yan Ji, he did not put Yan Ji into his miniature world, but rather helped Yan Ji clean herself up a bit and placed her on his back. He did not know for what reasons Yan Ji did not go out, or why would she appear in this place once again, or even why did she allow herself to be lost in the enchantment.

Regardless of whether she was lost her mind or not, he concluded that it must have been because of this large array. As long as they were able to leave the inside of this large Array, Ning Cheng believed that with Yan Ji's qualifications, she would not be retarded for a long time, and should be able to sober up. Moreover the reason he put Yan Ji on his back, was because Ning Cheng was fully aware that those people who had lost themselves were most afraid of being lonely, if they were left alone then it would only lead them to sink deeper.

.....

Once again arriving at the heart of the Array, Ning Cheng was just about to throw the required Spirit Stones into the Blood River as a Spiritual Sacrifice, when all of a sudden the huge talisman suddenly began to spew out golden light along with a stream of its Dao Charm as the skeleton under it slowly began to sit up.

Ning Cheng was genuinely still a Profound Congealing Cultivator, as such when he saw such a scene unfolding in front of him it immediately caused a scalp tingling sensation in him. He was definitely not someone who was afraid of ghosts and other such things, but he did not know what kind of a terrible existence did those bones belonged to, perhaps just a slap from its hand would be more than enough to take his life. He already knew that once someone cultivated to the Soul Essence Realm, then they would be able to form their Life Essence. As such for this skeleton to sit up, it was apparent that it still possessed its consciousness, in other words it still possessed at least a part of its Soul Essence.

"Thus junior accidentally strayed into this place, if by passing through this path, I ended up disturbing Senior in any way, then this junior asks for forgiveness." Ning Cheng quickly gave a respectful salute.

This fellow really was terrifying, if he was not careful, then he would really turn into ash ah.

"For you to be able to find this place, you really are not a simple junior, I can also feel the Origin Aura coming from your body, could it be that the Mysterious Yellow Bead is on your body?" After this skeleton slowly finished sitting up, it even turned towards Ning Cheng and slowly began to speak to him.

This time Ning Cheng's scalp stopped tingling, rather it was his entire body that had turned numb. This was the first time that someone had spoken about the Mysterious Yellow Bead on his body. Although

Ning Cheng had the Mysterious Yellow Bead, but he also knew that he could not even display a millionth of its power or its functions. If this kind of good thing was known to other people, then even if he did not speak the truth, wouldn't they not take it away?

Seeming to understand what Ning Cheng was thinking, this skeleton still unhurriedly spoke, "The Mysterious Yellow Bead is one of the five types of 'Good Fortune' Heaven and Earth treasures that took form naturally in the universe, you can get the Mysterious Yellow Bead to acknowledge you as its master that is your good fortune, it means that it is not something fated for me, I just want to make a deal between you and me."

Ning Cheng was not able to believe what the other party was speaking, he could only stand to one side and behave like a yes-man, "This is just a single order from Senior, as long as this junior is able to accomplish it, then I would certainly not refuse."

"Since this deal is between us, then it naturally is a mutually beneficial thing, I did not expect that in this kind of trash like place, there would still appear a person with a Good Fortune Treasure, it really is quite unexpected." The skeleton paused at this moment, as it seemed to think of the wordings of what he should and should not say to Ning Cheng.

Ning Cheng did not dare to speak up, but in his heart he already was greatly disappointed. Obviously, this huge golden Talisman that was called 'Heaven Opening' already had a master, as such he already thought that he would definitely not give this to him.

"Your cultivation at present is very low, so at the moment I can't ask you to help me. I just want you to help me look for two things, the first one is the Heavenly Cusp Flower, and the second one is the Geocentric 9 Yin Essence. The Heavenly Cusp Flower might have a different name in this place, but it does not matter, as long as you know that it is something that is used to remould the fleshy body. Although this stuff is simply trash, but at least it is better than nothing. In this place, you can only find just a piddling of such lower levelled stuff." As the skeleton spoke till here, it gave a dejected sigh, it was very obvious that it was also quite helpless in this matter.

"This junior will certainly go all out in trying to find them, but after this junior is able to find them, how would I be able to bring them to Senior." Ning Cheng had already restored his calm, he knew that he could not let this skeleton doubt him. Originally, he had intentions that when he got out of this place, he still wanted to come in later, but since there was this terrible skeleton that seemed to be the master of this huge Talisman, he did not know if he could even take it and make it his own anymore. So once he got out of this place, he did not intend to come back in again.

"I know that you are somewhat scared of me, because of which you were thinking that after you got out, you would not come back in here....."

This skeleton seemed like it already knew what Ning Cheng was thinking about in general, as he once again spoke out the sentence in a puzzling manner.

Ning Cheng was quite surprised as he looked at the skeleton, even his heart shuddered a bit, in the end what kind of freak was this monster ah? It can actually pry upon his thoughts?

"You do not have to be afraid of me or even worry about me. I am not threatening you nor do I intend to scare you, moreover I am not even an opponent you can fight against at your level. Even if you possess

the Good Fortune Mysterious Yellow Bead and even have a complete mastery over it, even then you would not be an opponent against me at this moment. In order to not let you take such a hard trip in vain, I can satisfy whatever requests you desire the most.” The skeleton was talking like a big bad wolf in general, and even its tone seemed to be incomparably happy.

But even then Ning Cheng’s heart jumped with excitement, at this moment he was putting all his efforts in order to go back and see his sister, could this guy allow him to get back to Earth?

The Gate Of Good Fortune

Chapter 225: Kill That Devil Cultivator

Seeing Ning Cheng did not speak for a long while, the skeleton once again spoke up, “You can get a Good Fortune Treasure to acknowledge you as its master, because of which presumably you are also someone similar to a reincarnated person. I can give you a bit of free information, any Good Fortune Treasure has the ability to form a complete realm within it, and moreover this realm would transcend any other realm in the ordinary primal chaos universe.”

“However for any Good Fortune Treasure to form a genuine realm there has to be a certain prerequisite conditions that have to be met. The Good Fortune Gold Leaf, for example, is a treasure of the five elements; you need to look for the Qi of the five elements to shape the realm inside. While the Good Fortune Jade Plate is a Yin and Yang Heavenly Dao Dawn Treasure, as such you will need to gather together the Yin and Yang of the primal chaos and assimilate it with the Dao of Life, before one can begin to form the realm inside it.”

“As for your Good Fortune Mysterious Yellow Bead, it is an Origin Treasure, as such you would need to gather the most fundamental of the 5 origin seeds, before you can form an independent realm, and give rise to the other remaining origins. Otherwise if you throw anything into the Mysterious Yellow Bead, it would only end up being refined by the Mysterious Yellow Bead, and would disappear without a single trace, without even leaving behind even a half a trace.....”

“Senior, there is still the Good Fortune Indestructible Axe and the Good Fortune Blue Lotus....” Seeing the skeleton just speak about the three treasures, Ning Cheng could not help but supplement a few words.

The skeleton spoke in a light voice, “What you know is already a lot, moreover most of the things I told you are useless to you, because you have no relationship with those items. Now are you willing to talk about your requests, are you willing to make a deal with me?”

Ning Cheng in his heart really wanted to return to Earth, and go look for his younger sister. If it was possible, then he also wanted to bring his sister here. In this place, although respect was something given only to the strong, but even so, as long as one practiced cultivation, the main advantage would be that they would be able to live out a long and leisure life. What else did most people aspire for, more than living a long life?

“This junior is indeed someone who had arrived here from another plane, a place called Earth. It is just a planet filled with ordinary mortals, but because this junior has a younger sister there, so this junior’s biggest desire is to go back to that place. Although it is to go meet my younger sister, it would be even

better if I could also bring her here.” Ning Cheng knew that this skeleton was like a monster in general; as such, he could only honestly speak out.

The skeleton was silent for a good long while, and then spoke, “If you are not certain about its position in the plane, let alone the plane itself, then I have no way to help you. If I was able to recover my former strength, then it is possible for me to use the Heaven Opening Talisman to help you out once. But at present my strength is a long way from being recovered.....”

Ning Cheng quickly spoke, “Then Senior please wait for me to obtain the Heavenly Cusp Flower and the Geocentric 9 Yin Essence, would senior be able to recover his strength with this?”

“I can give it a try. However, I am not sure whether you would be able to come back here again. I am very tired, and am going to lay down, in the future if you find those things, then you can use this Talisman to enter this place.” The skeleton was now speaking in an increasingly slow voice, and after he finished speaking, a Talisman split from the huge Talisman and slowly floated towards Ning Cheng.

Ning Cheng carefully held this Talisman, and made sure that this Talisman was without any problems. Then he carefully placed the Talisman in a Jade Box before putting it away.

Originally, Ning Cheng also wanted to inquire about what was this world’s most formidable cultivation realm, and even about the outside of the Yi Xing Mainland, what kind of places were there. However, after this skeleton slowly laid back down, it no longer made even the slightest sound.

There was only a huge Golden Talisman still giving out streams of Dao Charm, suspended above the skeleton.

“Really powerful.” Ning Cheng calmed his mood, as he once again threw out a million Spirit Stones into the Blood River in front of him. Then once again threw in his last piece of Best Quality Spirit Stone.

As he constantly threw out Array Flags, a Spiritual Mist vortex once again formed around him. This time Ning Cheng did not dare let his Spiritual Consciousness to sweep out, before he suddenly disappeared in a twinkling of an eye along with the Spiritual Qi Vortex.

Ning Cheng fell onto the ground, and had already appeared at the underside of the Blood River Peak.

“Finally was able to come out.” Ning Cheng sighed; the transfer array seemed to be working. In his heart, he really did not understand why Yan Ji had once again fallen to the bottom of the Blood River. Did Yan Ji also wanted to collect the Blood River Red Lotus, and as a result once again fell into the river for a second time? Even if she fell in, why would she try to deduce the Array Formation? Didn’t she not know that she would only end up losing herself in it?

Ning Cheng shook his head, and put these thoughts aside. He did not immediately leave this place, but rather continued to harvest the Blood River Red Lotuses, with the experience of falling into the Blood River; Ning Cheng believed that combined with the virtue of his current cultivation and alertness, he would never fall in for the second time.

Three days later, Ning Cheng, along with dozens of Blood River Red Lotuses, left the Blood River Mountains. The next time even if he wanted to come back, he would only come here after finding the Heavenly Cusp Flower. Otherwise, even if he came here later, it would be meaningless.

There were no more people outside the Blood River Mountains, there was not even a trail left behind by the cultivators, apparently these cultivators had already entered the depths of the Second Segment of the Law's Way.

In order to avoid letting everyone know that he was Ning Cheng, Ning Cheng once again changed his appearance back to what it was originally. After all, being named as a Devil Cultivator was not nice at all; at least it would only be detrimental for him in the present situation.

Glancing at his back, that had Yan Ji on it, Ning Cheng felt a bit helpless. He did not know when Yan Ji would sober up. Before Yan Ji sobering up, he could only be together with her as he went through the Law's Way. He put Yan Ji down, while at the same time unsealed the Restrictions he placed on Yan Ji's body and spoke to Yan Ji, "Wherever I go, you just follow me, do not run around, understand?"

Contrary to what Ning Cheng expected, Yan Ji actually nodded, it was clear that she understood what Ning Cheng meant.

Ning Cheng was feeling quite happy in his heart, looking at the way Yan Ji was acting, it was clear that little by little her consciousness was finally showing signs of waking up. As long as it continued like this, then maybe in a few days she would have fully sobered up.

Ning Cheng started looking for some spiritual grasses in the Law's Way, and occasionally would go in secluded cultivation to continue with his Alchemy and Talisman refining. As for going into seclusion for practising cultivation, Ning Cheng never thought of it, although he still had around a million Spirit Stones on him, but Ning Cheng knew that even this much amount of Spirit Stones would not have much impact on his cultivation practise.

If had not encountered the Heaven Opening Talisman before, then he had no way to advance to the Profound Congealing 7th Level. After advancing to the Profound Congealing 7th Level, his Core Lake had actually become thicker, and even more substantial. However, relatively speaking, the True Essence in the Core Lake had still not yet taken a definite shape, so much so that it did not seem to have even filled up by even a half.

Ning Cheng was already a rogue cultivator from before, although he had the Mysterious Yellow Bead, but he did not have any teacher to receive guidance. In his opinion for him to form his Profound Core successfully, it was necessary to fill up the Core Lake completely. It was quite similar in process to the advancement from the Essence Building Realm to the Profound Congealing Realm, only needing True Essence to circulate through the meridians and Dantian that would then form an embryo of the Core Lake.

However, according to his current progress, even if he practiced cultivation all the way to the Profound Congealing 9th Level, he would not be able to advance to the Profound Core Realm. Ning Cheng was sure that even if he cultivated to the Profound Congealing 9th Level, completely filling up his Core Lake was still a very distant dream. As his cultivation rose constantly, his Core Lake was also increasingly congealing while at the same time becoming even larger, as such it was also becoming increasingly difficult for him to fill up his Core Lake.

If he only increased just for the sake of advancement, then what function did it even have? Ning Cheng decided to earnestly go out and search for more resources for his cultivation practice. As long as he was

able to procure enough resources to fill up his Core Lake during his cultivation practice, then he would immediately attack the realm to the Profound Core.

With Ning Cheng's cultivation, and the plenty of experience he gained inside the Second Segment of the Law's Way, in just a few months' time, he had harvested piles of Spiritual Grasses and quite a good amount of Spiritual Fruits. Although he put himself in danger several times, but he was always able to escape with his Twin Heavenly Cloud Wings. Not only that, the more he used his Twin Heavenly Cloud Wings the more skilful he became with its application. After encountering danger several times, he could already use to the Twin Heavenly Cloud Wings to such an extent that his speed could even be described as if he was teleporting.

This kind of movement was actually not a Teleportation Magical Technique, rather it was because of completely stimulating the Twin Heavenly Cloud Wings in the shortest possible time, which allowed him to disappear from the spot in a near instantaneous moment.

Yan Ji had still not completely come out of her lost state, but when compared to the time when they had just come out from the bottom of the Blood Rover, she was much better. Whether it was in the nature of female cultivators or not, but at least she used to occasionally use the Dust Removal Technique on herself and even calm down her spirits.

What made Ning Cheng even more relieved was that after they left the bottom of the Blood River, she did not seem to be under the shackles of that kind of huge array, he could affirm that at least Yan Ji was not trying to deduce the Array Formation. However, she did not speak at all, and did not practice cultivation, or even try to look for spiritual grasses.

Ning Cheng was afraid that if this went for a long time, then it would adversely affect her recovery. Because of which he deliberately called out Grey Toottoot and let her hold him.

The small world inside the ring was badly damaged, but after Ning Cheng refined this dilapidated small world, he began to organize the inside. Bringing in many Spiritual Grasses, he immediately began transplanting them into his small world. In order to make the small world even more beautiful, Ning Cheng even put in many Rank 1 Spiritual Grasses. He even moved in many plants and flowers that were not spiritual grasses into the small world.

Originally, the small world was incomparably desolate looking. Nevertheless, because of Ning Cheng's efforts, it gradually became verdant and filled with vitality.

.....

A year passed by in a fleeting instant, during this time Ning Cheng's cultivation did not increase by even a little; Yan Ji's cultivation was also the same and did not increase at all. Yan Ji and Ning Cheng formed a sort of tacit understanding with each other, when Ning Cheng went out to collect spiritual grasses, she and Grey Toottoot would stay behind and wait in a safe place. Moreover, Ning Cheng had even taken the initiative to refine a few Array Discs that could be used by just throwing them out.

When it was time for Ning Cheng to leave, she would recall the Array Discs back and once again follow behind Ning Cheng. Ning Cheng now completely did not need to call out to her.

At this point, Ning Cheng discovered that the more he moved forwards, the less spiritual grasses were available, even his Spiritual Consciousness was growing increasingly weak as if it was being suppressed by something, he guessed that it was because he coming to the end of the Second Segment of the Law's Way.

This day, his Spiritual Consciousness swept past a simple yet extremely crude kind of makeshift city. Ning Cheng was wondering in his heart, if it was that difficult to come out of the Law's Way?

Seeing this makeshift city, he immediately was able to see even more cultivators roaming about, Ning Cheng quickened his place, he wanted to go and ask another cultivator about this.

"Senior Apprentice Sister Ji....." A cry of surprise erupted from behind him. A moment later the owner of this voice seemed to have discovered Ning Cheng, and immediately once again cried out in surprise, "You are Senior Apprentice Brother Cheng?"

"So it was originally you ah, Ji Tingting." Ning Cheng immediately recognized this female cultivator. When he had just entered the Law's Way, Ji Tingting was also a part of the team he was in.

"What's wrong with Senior apprentice Sister Ji?" Ji Tingting's attention was completely focused on Yan Ji's body; apparently, her care for Yan Ji was far beyond what she cared for Ning Cheng.

After a couple of years, at this time she was already a Profound Congealing 3rd Level Cultivator.

"Junior Apprentice Sister Ji had met a small accident, but it should not be anything big. Therefore, if you can lead me to look for the rest of the people of the Blue Cloud Academy, then I would be able to explain the situation to them. By the way, what is going on here, how did you guys form a makeshift city here?" Ning Cheng and Yan Ji had been together for a long time; as such, he could feel that Yan Ji was slowly improving. Although this process was very slow, but she would definitely be able to recover.

Ji Tingting was still puzzlingly glancing at Yan Ji, she simply did not answer Ning Cheng's question, instead she quickly spoke up, "I will go find Senior Apprentice Brother Xu Ang and Senior Apprentice Brother Yan Xin to come over....."

Looking at Ji Tingting's retreating figure, Ning Cheng frowned, he immediately pulled another Intermediate Stage Profound Congealing Cultivator to the side and asked, "Friend, although there is this makeshift city in front of us, but why does it feel like it is blocking the front?"

This cultivator was just about to attack him, but then he felt that Ning Cheng's cultivation was far higher than his own, so he quickly replied, "This place here is the real entrance to the Law's Way. To enter the Law's Way you will have to enter through the front, once you pass through this Law's Way, you will then be able to enter the Third Segment, and from there you will have more than 80% chance of getting out of this place. However, if you cannot pass through the Law's Way, then you can only wait here, and look for opportunities. All the people present here are the ones who could not pass through the Law's Way....."

This cultivator had not yet finished his words, when Ning Cheng heard a burst of furious yells, "Kill that Devil Cultivator....."

[The Gate Of Good Fortune](#)

Chapter 226: The Real Devil Cultivator

"The one surnamed Cheng, Senior Apprentice Sister Ji in order to help you, had allowed you to join the team, yet you ended up being such a shameless person, that caused Senior Apprentice Sister Ji to lose her sanity....." A woman angrily cried out.

Ning Cheng recognized this woman; her name was Huo Miaoqing. In the beginning, she was also in the same team as he.

As this female cultivator's voice had just fallen, Ning Cheng immediately saw Xu Ang, who was also the person who shouted the words 'kill that Devil Cultivator'. This person was the first to speak those words, and yet he was the one walking towards him while keeping himself in the rear of the crowd.

Ning Cheng held his cupped fists and spoke, "It seems that everyone here has misunderstood me, Junior Apprentice Sister Yan Ji had met a little accident, fortunately I was able to save her, and was able to bring her to this place."

Xu Ang gave a sneer and spoke, "What kind of accident did Junior Apprentice Sister Ji meet? What could have allowed her to lose her sanity? You think we would just go ahead and believe your words. Surnamed Cheng, I have heard about you, you obviously are a Profound Core Master, yet choose to pretend to be a cultivator with a weaker cultivation, just to gain sympathy from others, and then gain advantages from it."

"I also am aware of the fact that at the time when we were just entering the Second Segment of the Law's Way, this person had plundered the wealth accumulated by dozens of Profound Core Cultivators there. However, looking back at it now it also seems that this person has a deep and scheming heart. He not only plundered everyone's things, but also made it such that the other people ended up being grateful to him. Today, we will definitely tear off his disguise to take a look." A Profound Core Cultivator stood out and spoke in a cold voice.

Ning Cheng had seen this man before, but he did not know the name of this cultivator who had just spoken, but he was definitely aware that he was one of the people he had inadvertently ended up rescuing at that time.

"Whether it is true or false, Zhangsun Yan and Nalan Ruxue would know about it. I think that they should also be in this place, why don't you call them out and verify it with them." As Ning Cheng looked, more and more cultivators were starting to appear, moreover there were even many Profound Core 9th Level Cultivators joining in. As such, he realized that today might be a bit difficult for him.

If Nalan Ruxue and Zhangsun Yan were here, then they would have already come out. Ning Cheng himself knew that he would not be able to explain how he was able to get out from the bottom of the Blood River. Besides, even if he could, he did not want to expose this matter anyways.

"You already knew that they have already passed through the Second Segment of the Law's Way, so how will they even speak?" After Xu Ang finished speaking in disdain, he immediately turned around as he faced the dozens of Profound Core Cultivators as he cupped his fists and spoke, "Fellow Senior Apprentice Brothers and Senior Apprentice Sisters, this man is very cunning and deceitful, and kills people like flies, moreover is even a Devil Cultivator. But before that, he was able to gather a huge amount of Spirit Stones, in my estimation, there should be at least 10 million or more....."

Ning Cheng had clearly seen that just before that Xu Ang spoke that he was a Devil Cultivator, those Profound Core Cultivators just exposed a hint of sneer at the corners of their mouths. However, when they heard him say that he had millions of Spirit Stones on him, a kind of insanity immediately erupted in their eyes.

“For such a shameless scum, why is there a need to stay, let’s all attack him together.” A Profound Core 9th Level Cultivator immediately uttered an insane and drunk cry, while simultaneously bringing out his magic weapon and locking onto Ning Cheng. If not for him hearing that Ning Cheng, being just a single person, was able to kill dozens of Profound Core Cultivators all by himself, he would have directly went up against him.

Just as this Profound Core Cultivator spoke, the majority of the cultivators all around him immediately brought out their magical weapons, as they slowly spread themselves out, wanting to surround Ning Cheng.

Ning Cheng’s heart sank, there were more than a hundred Profound Core Cultivators in this place, as for ones at Profound Core 9th Level there were already more than 20. If these more than twenty Profound Core 9th Level Cultivators ended up surrounding him, then even if it were he, he would not be able to escape unscathed.

For these cultivators to be in this place, it clearly showed that these cultivators originally were not able to progress any more in this Second Segment. Even if he possessed a Level 6 Puppet, he was aware that as long as several Profound Core 9th Level Cultivators were able to pin it down, the rest of the people here could easily get rid of him.

In such a battle, his lousy Level 6 Puppet would not be much use unless he had another Broken Core Pearl.

Ning Cheng seeing that dozens of Profound Core Cultivators were almost finished surrounding him, immediately made the decision that is ‘to walk the talk’.

He immediately hacked out with his True Cosmic Devil Axe, blasting out with millions of tiny Axe Lines as if it was a bolt of thunder. Even the space around him had become completely chaotic. A huge number of Profound Congealing Cultivators who were rushing towards Ning Cheng, under this Axe Line, were cut down and ground to dust. In this moment, Ning Cheng immediately activated his Twin Heavenly Cloud Wings, and instantly disappeared from there as if he had teleported.

“What kind of magic technique is this?” A Profound Core 9th Level Cultivator looked at the spot from where Ning Cheng disappeared, and spoke out in a frightened voice. Ning Cheng with the help from the True Cosmic Devil Axe coupled with his True Essence had created chaos, and then immediately used the Twin Heavenly Cloud Wings, as such only a very few cultivators were able to realize this while the rest of the people were simply not aware of this.

As for that handful of cultivators who realized that Ning Cheng had used the Twin Heavenly Cloud Wings, they were trembling with excitement; they knew that they absolutely could not leak out this secret. As long as they were able to kill this individual cultivator with the Twin Heavenly Cloud Wings, then that Twin Heavenly Cloud Wings would immediately belong to them.

Ning Cheng had not taken Yan Ji away, Yan Ji already had so many of her Senior Apprentice Brother and Senior Apprentice Sisters here, as such he did not need to be continuously worried about her at this moment. Moreover he also knew that Yan Ji would sober up naturally if given enough time, as such when she woke up she naturally would be able to realize what had happened. Moreover, he was also a bit too late in trying to take back Grey Toottoot, but he did not worry too much about it, with Yan Ji's qualifications, she absolutely would be able to enter the Third Segment of the Law's Way. At that time, he would then go find Yan Ji and ask about it.

Ning Cheng did not go far, since he knew that he would eventually have to cross this Second Segment of the Law's Way, as such he would certainly not try to escape too far.

He was already sure that these people would definitely try to get their hands on him, not because he was a Devil Cultivator, but because of the things on his body. Fortunately, he had the Twin Heavenly Cloud Wings, unless there really was a Soul Essence Cultivator pursuing him, there was definitely no one here who would be able to kill him.

Ning Cheng at this moment was calm in his heart, he had already seen this kind of thing many times before, and as such, there was no need for him to be angry about it. If he were stronger, then he himself would not hesitate to kill all of those people. In this place, although one can show kindness, but there was no need to convince other people about his methods, as this was certainly not a virtuous place.

Looking around for a bit, Ning Cheng decided to spend a few days here in waiting, and then rush over as sneakily as possible. Since not all people were able to enter the Third Segment of the Law's Way, as such as long as he was able to rush into the entrance to the Third Segment of the Law's Way, it would almost be the same.

"Who's there?" Ning Cheng was just starting to carve out an Immortal Cave, when he felt extremely faint Spiritual Consciousness fluctuations around him. Although it was extremely faint, Ning Cheng could easily detect it.

"This friend is indeed really vigilant." An unhurried voice sounded out, after which a young cultivator wearing a grey cultivator's robe appeared in Ning Cheng's Spiritual Consciousness range, and soon the same cultivator unhurriedly came and stood in front of Ning Cheng a few meters in front of him.

This was a Profound Core 7th Level Cultivator, had an average body, and was giving off a hint of sinister aura. Moreover, there was even a one of a kind but faintly discernible slaughtering fluctuations emanating from him, when Ning Cheng felt this; he could immediately tell that this person was definitely not like the others.

"This humble one's name is Si Bing, and is a rogue cultivator. Previously this one had seen this friend in front of the entrance to the Third Segment of the Law's Way when you had made your escape; it showed that you really have a matchless strength, making even this Si very much admired of it." This cultivator held up his fists towards Ning Cheng and spoke in an unhurried tone.

Ning Cheng in his heart immediately became extremely alert; this Si Bing was really somewhat peculiar. Not to mention that he was not able to detect the other party until now, but even back, when he had left the makeshift city at that time, even then he had not discovered this Si Bing. Moreover, this person's

True Essence flow was also very quirky; rather it was something that made Ning Cheng feel as if he was somewhat familiar to it.

“My name is Cheng Xiaoning. Is Elder Brother a person that treads the path of the Devil?” Ning Cheng also held up his fists, and calmly asked.

Si Bing gave a small smile, “That’s correct, I indeed am a person who treads the path of the Devil, but it does not mean that I am like those people back there who does bad things, and then claim that any random person is a Devil Cultivator. Elder Brother Ning should also be a person like I who treads the path of the Devil, if that is so then why didn’t you just go ahead and kill all those pretentious cultivators that encircled you?”

Ning Cheng spoke in a light voice, “I do not understand this so called path of the Devil, and I am more so not a Devil Cultivator, since we are people who tread different paths as such we would not be able to make plans together, as such I will have to ask Elder Brother Si to take your leave.”

Ning Cheng did not despise Devil Cultivators, as he too was in a sense considered a Devil Cultivator. However, for the moment he wanted to enter the Third Segment of the Law’s Way all by himself, and did not want to stir up any additional trouble that would definitely come if he were to associate with this Si Bing.

“Ha-ha....” Si Bing gave a light laugh and spoke, “Elder Brother Cheng might possibly not know the degree of loathing towards the ones who tread the path of the Devil in the 9 Continents, if you really did you would not have spoken to a Devil Cultivator in the same way you just did. However my coming here is not related to that, it is actually to discuss a matter with Elder Brother Cheng, and that is, I want to collaborate up with Elder Brother Cheng to break into the Third Segment of the Law’s Way together. Elder Brother Cheng has the Twin Heavenly Cloud Wings which are definitely not ordinary, and if I could have the chance to work together with you, then breaking into the Third Segment would definitely not be impossible.”

Ning Cheng’s back immediately turned cold, as he stared at Si Bing and spoke, “It looks like you know a lot about me, since you even know that I have the Twin Heavenly Cloud Wings, are you not afraid that I would silence you in order to not let this matter out? Or is it that you think you would be able to snatch my Twin Heavenly Cloud Wings.”

Si Bing once again laughed and then spoke, “Elder Brother Ning misjudges this humble Si Bing, since it was my idea to cooperate with you, I would definitely not do such a nasty thing. Of course, I also do not care about Elder Brother Ning saying that you want to silence me, I believe that Elder Brother Ning would have already realized that if I was someone who could be so easily silenced then I would not have been able to stay here for several years.”

“Moreover, it is also widely known that the only place you would find the real entrance to the Third Segment of the Law’s Way would be none other than that makeshift city. It is just because of the countless people that are unable to cross it, which had made the life of the cultivators not being able to enter the Third Segment to be very difficult, because of which they would all come to live here. Of course, here the Laws of the Heaven and Earth are much more complete, and you can definitely go into seclusion for your cultivation practice. But after a few decades, the cultivators trapped in here, would have no choice but try to break into the Third Segment to get out.”

Ning Cheng had just arrived at this place, as such he also did not understand much about the Third Segment of the Law's Way. On hearing Si Bing's words, it had moved his heart a bit, as he cupped his fist and asked, "Elder Brother Si, can you enlighten me about the situation regarding the Third Segment?"

Si Bing gave a small smile and continued, "Of course it would not be a problem, and in fact this path can actually be considered as the entrance to the real Law's Way. This segment not only tests the cultivation of the one entering, but it is more attuned to testing one's perception and qualifications. It is not that the higher cultivation you have, the higher the chances would you have in passing through it. There are also a few cases where people, with just the cultivation of Essence Building, as long as their wisdom and perception was first rate, were able to pass through this segment. The real good things of the Law's Way are inside, in other word in the Third Segment. Just take the example of the True Spirit Nectar Wash that everyone wants."

"Elder Brother Si, how do you propose we cooperate, why don't you state it out clearly?" Ning Cheng on hearing this immediately had a few ideas going through his mind. Although he had arrived at this place, but he did not have the time to understand it, but looking at this Si Bing, it was apparent that he had a much deeper understanding of the things here.

Si Bing continued, "Going from the Second Segment to the Third Segment, that's when one starts to gain some real insights into the Laws, but if you want to enter the Third Segment, then it is necessary for one to comprehend the Laws here. However, many cultivators cannot comprehend the Laws, and can only remain stuck in this place. Over time, more and more cultivators moved in here, forming a simple yet crude makeshift city. Some of the stronger ones, in order to get resources for practicing their cultivation, just before the entrance of the Third Segment had arranged an Array Formation. All one has to do is to pass through this Array Formation, but those cultivators who want to enter the Third Segment, each and every one must pay a certain amount of Spirit Stones."

Ning Cheng in heart had already come to understand what was going on, it was the same as when he had entered the Second Segment. The only difference was, the cultivators back at the entrance of the Second Segment absolutely did not have any other means. In any case, all the cultivators wanting to enter the Third Segment would be willing to pay out Spirit Stones. Otherwise, the only other option was to go into seclusion in this place until they die.

"My idea is, we will work together to break this Array Formation in the shortest possible times, and immediately rush into the entrance to the Third Segment. This Array Formation, I have already figured it out how it operated, but if I were the only person who tries to break it, it would take too much time. When the time comes I will give you the Array Flags, and we would work together to rapidly break this Array."

Si Bing did not know that Ning Cheng was an Array Formation Master, moreover an expert that was even more formidable than he himself in this field, but it was precisely because of this that he wanted to coordinate with Ning Cheng.

[The Gate Of Good Fortune](#)

Chapter 227: Rushing into the array

Ning Cheng had already understood Si Bing's idea, as Si Bing's understandings towards Array Formations was limited, because of which he wanted to find a person to work with him, and with the fastest speed,

break open the Array Formation blocking their path. The person who he wanted to cooperate with did not need to have an exceptionally high cultivation, but they had to be fast and work quickly. Moreover, since they have the Twin Heavenly Cloud Wings, their speed would simply be matchless, because of which he was clearly the best candidate.

“Ok.” Ning Cheng immediately agreed.

“Good, it really is a happy occasion.” Si Bing took out more than a dozen pieces of Array Flags, along with an Array Diagram before passing it all to Ning Cheng and spoke, “These Array Flags and Array Diagram are for you to get familiarized with. You will be responsible for the Heaven Palace, Water Palace, Mountain Palace, Thunder Palace and also dropping these Array Flags into the correct coordinates, while I am responsible for the rest of things.”

[TL Note – Here the words Heaven Palace (乾宮), Water Palace (坎宮), Mountain Palace (艮宮) and Thunder Palace (震宮) are actually the symbolic equivalent of the 4 of the 8 elements of the Bagua Diagram, also known as the Eight Trigrams Diagram. While the word Palace/Temple (宮) is actually not a reference to a building, rather it is a referent to a specific region in an Array Formation.]

Ning Cheng immediately understood that Si Bing did not care of Ning Cheng’s skill in Array Formations; he just needed to borrow his speed, so he could drop these Array Flags into their specific positions. However, going according the words of Si Bing, he really was the one who was at an advantage, he just had to drop a few Array Flags into position, as to the other things he held no responsibility for it.

In addition, from seeing the Array Diagram and the dropping points of the Array Flags, he understood that this Si Bing was truly not secretly trying to act on him.

“When do you want to begin?” Ning Cheng put away the Array Flags and the Array Diagram and asked.

“Let’s start tonight, I already am not able to wait anymore, if you did not come today, then I would have begun a few days from now.” Si Bing spoke with a smile.

Saying that, he added another sentence, “Elder brother Cheng, although I also do like to slaughter on a whim, but I am definitely not the type that harms people in secret. Tonight, if we go according to my approach, then we certainly would be able to enter the entrance of the Third Segment of the Law’s Way. But Elder Brother Ning, if we can’t break in, then we will be forcibly thrown out by the Restrictions of the Law’s Way, and would ultimately fall into the hands of the others, so I hope that you would not play tricks on me.”

Ning Cheng spoke in a cold but calm voice, “This kind of work is no trouble with Elder Brother Si’s help, if I ended up getting forced out then it would just prove that the skills that I cultivated were no good, it would have nothing to do with Elder Brother Si.”

Although this Si Bing looked honest and seemed to be dealing everything above board. Nevertheless, Ning Cheng did not believe him completely.

Si Bing saw that Ning Cheng did not plan to speak any more words with him, no longer talked any nonsense, as he went to find a place close by to rest for now.

The cycle of day and night still existed inside the Law's Way as it did outside, and handling such affairs at night was indeed much better than acting out in the day.

"Grey Toottoot?" Although Ning Cheng did not fear Si Bing, but his Spiritual Consciousness was always working in caution and prudence. He found that although Si Bing had indeed not moved from his spot, but rather had once again seen Grey Toottoot.

Not only did he see Grey Toottoot, but he also saw Yan Ji who was following behind Grey Toottoot, and seemed very anxious.

Grey Toottoot because of its unbeatable sense of smell directly came running towards Ning Cheng's side. Under the dim light, Yan Ji on finally seeing Ning Cheng once again immediately calmed her restless mood.

Ning Cheng on seeing that Yan Ji and Grey Toottoot had secretly ran out, did not know if it was because Yan Ji wanted to find him, and used Grey Toottoot to lead the way to this place or Grey Toottoot wanted to find him, and Yan Ji followed him.

"Oh, Elder Brother Ning really is quite an expert, a quarter of an hour hasn't even passed by when a stunning woman immediately came looking for you out as if she couldn't bear to be without you." Si Bing's voice sounded out, while his tone had a hint of strangeness to it.

Ning Cheng ignored him, he could already feel that Yan Ji had somewhat grown dependent on him. This made him feel helpless, Yan Ji was a core disciple of an 8 Star Academy, if he ended up being hunted down by an 8 Star Academy even once, it would not be a trifling matter.

"Elder Brother Ning, what I meant is should we begin at present, what do you say?" Si Bing soon got down to business and quickly did away with the previous topic of conversation.

"Ok." Ning Cheng did not hesitate and nodded while simultaneously put Grey Toottoot into the Spirit Beast Bag, while he put Yan Ji on his back once again. Si Bing's entire body was giving him strange vibes; moreover, Ning Cheng was simply unwilling to let him know that he had a miniature world on him.

.....

"Where did Senior Apprentice Sister Ji go?" Ji Tingting suddenly woke up; she did not realize when Yan Ji had left.

She was just going to rush out, and inform the few Profound Core Senior Apprentice Brothers from her Blue Cloud Academy, when the sound of a huge True Essence explosion spread out.

"Two Devil Cultivators are working together to break the Array, everyone come out aah." Painful cries immediately made Ji Tingting realize that it was Cheng Xiaoning who wanted to use the cover of the night to break into the Third Segment of the Law's Way.

Si Bing's face was very ugly; he could have never imagined that before he could even arrive at the Array Formation, other people would block off him.

"Elder Brother Si, it sure looks like this is a 'sure-fire way', but it seems to be quite bad ah." Although Ning Cheng felt a bit sour in his heart, but he was not anxious at all. He looked at the desperate look on Si Bing's face, and knew that Si Bing had definitely not thought of such thing happening.

Si Bing gnashed his teeth and spoke, "I'm sure that my approach does not have any problems with it, moreover there is absolutely no way there would be these many cultivators out at night in this place, I have observed this place and the surrounding areas for over six months...."

Ning Cheng on hearing this, immediately thought of something, and soon even his face became as ugly to look at as Si Bing's did. He finally realized what had happened, it should have been someone who was close to Yan Ji, and had placed a Spiritual Consciousness Tag on Yan Ji's body.

Because of which, when Yan Ji sneaked out at night to look for him, it was completely premeditated by someone else. As long as Yan Ji found him, they would notice it.

"Haha... Two Devil Cubs actually teamed up, everyone let's take them on together, as long as you take part in destroying these two Devil's Cub of cultivators, all of them would have shared benefits."

A Profound Core 9th Level Cultivator laughed, while he simultaneously exploded out with the sword shaped magic weapon in his hands.

It was followed by an illusionary image of splitting open the air, creating a booming sound.

The True Essence stirred up the Sword Qi seemed to have turned into endless and inexhaustible razor blades, which then locked onto Ning Cheng.

Ning Cheng at the same time utilized his True Cosmic Devil Axe to burst out with Demonic Qi, which tore open the blades formed by the Sword Qi from the inside.

"Peng Peng Peng Peng Peng...."

The killing lights generated by the Sword Qi cracked open with explosive sounds as if they were twisted pairs of wires. Ning Cheng's Axe Intent in the form of a vortex immediately rushed out and collided with this Profound Core 9th Level Cultivator creating a huge explosion, which immediately caused him to give out a soft groan, before he was pushed back tens of meters away.

So strong. Originally, he had heard that Ning Cheng had killed dozens of Profound Core Cultivators before. Nevertheless, before this clash, he who was a Profound Core 9th Level Cultivator was having a few doubts about such a thing, but at this moment he no longer held even the slightest doubt about this, and spoke up loudly, "If we do not work together, then we'll only be letting them walk away."

In fact, he did not even have to shout out, as dozens of Profound Core and Profound Congealing Cultivators immediately brought out their magic weapons and used them to attack Ning Cheng.

Not only that, Yan Ji who was on Ning Cheng's back also had to face a myriad bombardment from magic weapons, basically no one cared whether Yan Ji ended up dead or alive.

"Puff....." A bloody arrow shot out directly splashing onto Ning Cheng's neck.

Ning Cheng immediately realized that Yan Ji was hit by a blade light, and was injured.

"A bunch of fuckers." Ning Cheng immediately went into rage, initially he indeed had the thought of rushing away from this place but now he simply could not even think about it. He immediately chopped out with his True Cosmic Devil Axe, causing an Axe Intent covered with numerous fine bolt like Axe

Lights, immediately exploded out, which in just a twinkling of an eye completely spread through and filled the space all around him.

Dozens of Profound Congealing Cultivators under this berserk killing intent of the Axe Line did not even have the ability to resist before they directly turned into a bloody haze. There were even many Profound Core 1st Level and 2nd Level Cultivators who were also seriously injured, there were even a few whom Ning Cheng directly beheaded.

Ning Cheng had the mind and heart to kill them all, the True Devil Axe in his hands was bringing out more and more Angry Axe killing lines, which seemed to have filled the entire heaven and earth with a baleful and berserk Devilish Aura in just a twinkling of an eye.

Si Bing who was not far away from him was completely frightened out of his wits when he saw this, he now was completely sure that Ning Cheng was a Devil Cultivator in the truest sense, not only was he a Devil Cultivator, his cultivation was also a lot powerful than his own. Fortunately, he did not have any ideas on the other party; otherwise, even if Si Bing were able to live, he would have to find a place to heal himself for an extremely long time.

Now that he and Ning Cheng were cooperating with each other, he realized that Ning Cheng already had the power to get out of this place, he immediately felt a bit relaxed as he used the dual cymbals in his hands to carve out a path with its misty black light. Several Early Stage Profound Core Cultivators were directly cut apart by it.

Ning Cheng gradually was getting used to this kind of ruthless Axe Intent from the True Cosmic Devil Axe, as he used the Angry Axe Killing Intent to explode out more and more without caring about his life. Now he was completely oblivious and did not care that his True Essence was about to wither up.

“Puff.....”

A shadow of a blood red arrow violently tore through Ning Cheng’s berserk Angry Axe Lines, and directly shot at Ning Cheng’s chest.

The stabbing pain immediately sobered up Ning Cheng in an instant, while in his subconscious he was already shivering with fright, he discovered that his entire body was covered in scars. Although he had killed many cultivators, but his own injuries were not light.

If this continued on, even if he did not become the Devil, he was sure to die from exhaustion. Although he had killed many cultivators, but most of them were Profound Congealing or Early Stage Profound Core Cultivators, as for the true experts here, he had not even killed a few of them.

“He truly has become the Devil, as long as we can seal him, we can then let him die from exhaustion.” Xu Ang’s one arm had already disappeared, and was hideously staring at Ning Cheng, while his eyes were full with flames of anger.

Hurry up and go.

In this place, Ning Cheng without saying another word immediately used his True Cosmic Devil Axe to once again chop down bringing out numerous Axe Traces. Because of the intensive killing intent present in the Axe Traces, the cultivators in the front were immediately pushed back, then immediately

stimulating his Twin Heavenly Cloud Wings without sparing any more effort, immediately charged into the front of the large Array.

Si Bing on seeing Ning Cheng rush into the large Array, twisted his body a few times, and noiselessly entered the large Array. A part of his Array Flags were on Ning Cheng's body, as such if Ning Cheng did not go into the large Array, then just him alone going inside would not have any significance.

"Elder Brother Cheng, quickly help me break the Array....." Si Bing's voice had just fallen, when this large Array in just an instant changed from the earlier Defensive Entrapment Array, and had turned into a Killing Array. Endless Killing Light emerged from the large Array, which prompted Si Bing to immediately bring out his own defensive magic weapon, with the intent of blocking these endless and inexhaustible killing lights.

However, Ning Cheng simply ignored Si Bing, as he immediately waved both his hands, throwing out countless Array Flags.

In just a short period, the large Array whose inside was filled with near infinite killing lights weakened considerably, then the very dark and incomparably large Array immediately cleared up.

Ning Cheng once again threw out a few more Array Flags, and in just a moment, a narrow passage opened up in front of him and Si Bing.

Si Bing was really rejoicing in his heart, he also did not dare believe as he looked at Ning Cheng and said, "I really had not thought that Elder Brother Cheng was an expert in the Dao of Arrays, I actually ended up displaying my slight skill before an expert."

"Let's go." Ning Cheng was the first one to immediately step onto the narrow passage, he knew that his consumption was not light, if a person ended up being trapped in here, then it would really be hard to get away.

Si Bing also was able to see, not only Ning Cheng's injuries were not light, but even his consumption of True Essence was also too much. With this kind of consumption, if it was he, then he would at first look for a place to retreat and heal himself up.

Ning Cheng quickly got out of the Array Formation and appeared in front of a black hole, the hole in front of him was the true entrance to the Law's Way with a few words written on top of it.

Ning Cheng did not have any time to reflect on it, before he rushed into it. After taking just a dozen steps inside, a matchless and powerful force immediately descended on Ning Cheng's Sea of Consciousness, Ning Cheng was almost thrown out flying under this kind of strength. His feet staggered a little, but then he saw Si Bing slowly walking behind him, although he was also rushing in, but at least he was calmer than he was.

[The Gate Of Good Fortune](#)

Chapter 228: Destiny

Ning Cheng was very vigilant regarding Si Bing, at this time he was quite seriously injured, moreover was also with a person, if this Si Bing wanted to act against him, then this would actually be the best time.

"I suffered a small wound, you can go ahead first." Ning Cheng stopped, this passage was the entrance to the Third Segment of the Law's Way, and as such, it was quite a good guess that one could truly start comprehending the Laws in this place. He did not need to rush out of here so quickly; rather it was more accurate to say that he may not be able to rush out of this place quickly.

Si Bing stopped, he looked at Ning Cheng for a good long while, and then calmly spoke up, "Elder Brother Cheng, this is the true Law's Way, although I might be the first one amongst the two of us to walk out of here, but I will still take the liberty to share a thing or two with you. That is, throughout the ages the only people who could actually pass through the Law's Way are the ones who have at least some outstanding aspects to their comprehension ability. Moreover, not only would their qualifications would have to be excellent, they would also need to have a very good character. Moreover, I also know a secret, that is in the Law's Way, even if one was an extremely powerful genius but they would not be able to bring along a person out through the Law's Way. If you dare to do such a thing, then there would only be a single outcome."

Si Bing finished speaking, but his words directly pointed towards Yan Ji on his back, then he cupped his fists towards Ning Cheng, once again slowly walked into the depths of the Law's Way, and soon disappeared from Ning Cheng's sight.

Ning Cheng had thought that Si Bing would actually try to fight him, but unexpectedly this person did not do anything. Not only did they not begin fighting, but he also reminded him out of goodwill. However, even if he did not start a fight with him, Ning Cheng was not afraid of him, even if he himself could not fight; he still had the puppet that he could use to kill Si Bing.

Ning Cheng did not follow Si Bing down the passage; rather he sat down and began to heal himself. A moment ago, a powerful force had attacked his Sea of Consciousness, and had almost thrown him out of this place, which made him realize that this entrance to the Law's Way was not simple at all.

.....

A day later, Ning Cheng finally stood up. The greatest injury that was inflicted on him back outside was from the blood red arrow that had tried to pierce through his chest, but after a period of a mere day, although his injury had not yet fully recovered, but it was now no longer serious.

Then he turned and found an obvious Spiritual Consciousness Tag on Yan Ji's neck. After removing the Spiritual Consciousness Tag, Ning Cheng directly sent Yan Ji and Grey Toottoot inside into his miniature world.

Letting Yan Ji take the trip through the Law's Way by herself would have actually been much better for her. However, Ning Cheng knew that this was simply an unrealistic thing. Yan Ji had still not fully sobered up, as such for her to pass through the Law's Way separately on her own was impossible at this moment. Yan Ji alone by herself, in such a state, would not be able to go through the Law's Way; as such carrying her on his back was also meaningless. He might as well let her into the miniature world.

Having experienced the blow to his Sea of Consciousness the first time, Ning Cheng also started walking forward carefully. Although this passage was dimly lit, but there was an extremely obscure aura of a Dao Charm. Which made every step forward even more difficult; it was just as if he was stuck in a quagmire.

Not only that, previously Ning Cheng got a vague feeling that at the edge of this quagmire like place was a hugely spacious and clean path, as long as his feet could walk on this path, there would simply no need to wade around with such difficulty in this quagmire like place.

However, at this moment Ning Cheng's Sea of Consciousness was pure and clear, which was a result of the Mysterious Yellow Origin completely enveloping his Zifu. Because of which he was able to realize as to what was actually going on. He realized that once he dared to tread onto the spacious and clean path, he would either immediately be kicked out of the Law's Way or be killed in this Law's Way.

Although the passage he was in was getting more difficult to walk with each step, but Ning Cheng was also slowly getting himself accustomed to it. He even was increasing his pace gradually.

He did not know for how long he walked as he subconsciously began cultivated and upgrading his skills, when an obscure aura blew up Ning Cheng's thoughts. Ning Cheng suddenly stopped dead in his tracks, in his mind there were only two words constantly circulating, "Path of the Heavens....."

[TL Note: The two words actually were "Heavenly Dao/Path/Way" but I changed it to "Path to the Heavens" for a better sense.]

What kind of Heavenly Path was it? Ning Cheng suddenly became confused once again. After he came to this place, his heart was completely focussed on the practice of cultivation; in fact, he had been doing this mainly in order to return to Earth. However, now when he wanted to ask himself was Heavenly Path was it, he unexpectedly was not able to answer.

Still submerged in the confusion, an extremely frightening power once again bombarded Ning Cheng's Sea of Consciousness. Ning Cheng's entire body shook and the next moment he was immediately sent flying upside down.

However, just before that, the Mysterious Yellow Origin suddenly acted and blocked most of the power, letting Ning Cheng sober up instantly. He absolutely cannot let himself be kicked out of this place.

"The Path of the Heavens, losing more than what you need while replenishing less than what is required..."

A sentence somehow emerged in Ning Cheng's Consciousness, when he heard these words; he was also able to understand a bit of the meaning behind the sentence. This thought had just emerged in his mind, when the Origin Aura that was originally surrounding the Mysterious Yellow Bead in his Zifu, suddenly dissipated. While his Sea of Consciousness suddenly expanded, while at the same time even his Core Lake, in just a twinkling of an eye, also expanded and had become even thicker.

Losing more than what you need while replenishing less than what is required? Ning Cheng felt that his Core Lake was once again expanding, while the True Essence in his Core Lake was becoming increasingly scant to look at. He pondered in his mind if this really was a good thing or a bad thing. If it went on like this, then wouldn't his cultivation not rise, rather would actually fall.

In any case, his Sea of Consciousness had enhanced, which after all, was an extremely beneficial thing.

With the expansion of his Sea of Consciousness, and so called enhancement of his Core Lake, the feeling of walking around in a quagmire that Ning Cheng had been feeling till now had completely disappeared, while the dim gloomy passage still remained in front of his eyes.

Ning Cheng sighed; this Law's Way really was too weird.

However having experienced such things several times by now, he speed also accelerated a bit.

"Ka Ka" loud yet fine sounds immediately emerged from beneath his feet, Ning Cheng then discovered that even in this place, there were many bones scattered around. The more he walked forward, the more densely packed the bones were.

Ning Cheng once again started to carefully look around as he cautiously walked forward, looking at these bones, he realized that not all people who were not able to pass through here were thrown out, rather there were actually many who ended up directly being killed in this place.

What made Ning Cheng actually wonder was that, after experiencing all these things, there did not actually seem to be any obstacle in front of him, rather it looked and felt as if he was walking in an ordinary passage. If this continued, then wouldn't he soon walk out through this Law's Way?

"Destiny...." Ning Cheng had not yet had the time to rejoice, when a voice suddenly appeared in his consciousness.

Ning Cheng immediately stopped, with his last experience, he thought he knew what he had to do, as long as he could help himself understand this word "Destiny", it would then be possible to move forward again.

At this time, Ning Cheng felt his body could not help from being swept away by a kind of a special force, as he once again returned to his childhood. Playing around in a small mountain village, going to the school in town, arriving at Jiangzhou...

These scenes were so true, then even when at that time he had dinner with Tian Muwan; he was also able to smell the faint fragrance coming from Tian Muwan's body. Soon, the scene arrived at Tian Muwan throwing away his pearl hair clip and speeding away with another person, and he ended up drifting about in Cang Qin Province...

These were his experiences in entirety, not even a trace of it was different as he once again lived through it another time.

In the Yi Xing Mainland, he desperately practiced cultivation, so that he could soon rip through the plane. Qi Gathering, True Condensation, Essence Building, Profound Congealing... Ning Cheng saw himself practicing cultivation all the way up to Profound Core Realm until the point he had completely filled his Core Lake, at this point he was free to try to advance to the Soul Essence Realm.

"Boom Boom Boom...." Endless bolts of thunder and lightning fell, as his will was completely torn to shreds and crushed, he could not even survive the first wave of the Thunder Tribulation before his body and soul dissipated without even a trace.

"Is this my destiny?" Ning Cheng mumbled, as he completely immersed himself in grief among the piles of bones. His destiny was only to live for a few more years, before the Thunder Tribulation exterminated him.

No, it is just my imagination playing tricks on me, it absolutely will not happen just because I imagined it.

Ning Cheng forced himself to sober up. Once he sobered up, his vision once again restored back to the original scene, and found that he was still in the gloomy passage.

Ning Cheng did not immediately start walking forward, as at this moment he had already forgotten 99% of the things that he had experienced just now despite him having an eidetic memory. The only thing that he could remember clearly was the terrifying thunder falling down on him along with the scene of him desperately struggling under the falling thunder.

Was the end he saw, true or false? Ning Cheng had just thought of this; when a flame suddenly rose from the depths of his Dantian, this flame seemed as if it wanted to completely burn him from the inside out. The terrible pain almost made Ning Cheng bring out his True Cosmic Devil Axe and bring down the axe on his own Dantian.

Was this fire turning him into a Devil?

Ning Cheng instantly understood what the matter was; it was definitely, because his mind and heart was subjected to such a vision, which made it filled with fear about his future, which subsequently caused the eruption of the fire that would have turned him into a Devil. Moreover, because this fire was something that could turn him into a Devil, he could easily guess that his impulse to use the True Cosmic Devil Axe on himself had some sort of relationship with it.

It was not necessary that he would perish under the bombardment of the Thunder Tribulation, even if he were to be ultimately killed by the bombardment; it was something that would happen in the future. Moreover, now he also had the Mysterious Yellow Origin, which he could definitely use to suppress it.

Ning Cheng, in just another moment, completely abandoned the scene that had played out in his mind and put it away to one side. After all those were things that might or might not happen in the future. For now, he must first cross through this Law's Way.

The infinite Origin Force started emerging from the Mysterious Yellow Bead, which immediately moved to capture the fire and completely extinguish it. Once again restoring the calm and tranquillity inside, Ning Cheng sighed, and continued to move forward.

Three days, four days.... After ten full days passed by, Ning Cheng suddenly stopped.

During these ten days, he was able to perceive all kinds of thoughts, practice cultivation Law's....

However, other than the first time when he gained insights into the Heavenly Path, which had led him to expand his Sea of Consciousness along with his Core Lake, the rest of the stuff that he perceived, Ning Cheng did not feel much effect from them. He had the Mysterious Yellow Formless with him, as such, he was always practicing cultivation with a perfect cultivation method, so why would he want to use the Law's Way to improve upon and perfect his cultivation practice?

This Law's Way to others might be an extremely important thing, but for him it was merely mediocre at best.

Ning Cheng had just thought of this idea, when he felt his entire body covered with a light, the dim Law's Way, in the next moment, had completely disappeared without a trace, as he appeared on a blue coloured mountain under his foot.

Ning Cheng could feel that the Spiritual Qi here was extremely rich and much more suitable for practicing cultivation of the Heaven and Earth, regardless of any one; they would have thought that they had already come out of the Law's Way.

However, Ning Cheng stood there silently, as his face kept transforming erratically; it even looked somewhat ugly to look at. Once again, he was vaguely reminded about the scene of his so-called destiny. Now that he had entered the Third Segment of the Law's Way, at this moment he realized that there were actually two kinds of people who could get through the Law's Way. One was to slowly go systematically forward through the passage and then arrive at the Third Segment, while the other was to comprehend their own way, after which they would suddenly be transferred out of that scenario.

Thinking back to the things that happened before, supposedly he was the second type of person. That is to say, what he had imagined would definitely come true, was he really going to end up perishing under the Thunder Tribulation in the future?

Ning Cheng stood like this for a long time, after which he gave out a long sigh. Whether it would end up coming true or not, with his currently extremely huge Core Lake if he wanted to practice cultivation to even reach the Profound Core Realm, he could easily guess that that it would not be something that would happen in the near future.

If one day he were able to find the Heavenly Cusp Flower and the Geocentric 9 Yin Essence, he would then come look for the skeleton to complete the transaction, so that he could return to Earth.

As he threw this burden aside, Ning Cheng felt his entire body lighten up suddenly, it was as if a huge pressure had suddenly disappeared, even his mind and heart had become even clearer.

Ning Cheng had just thought about bringing out Yan Ji and Grey Toottoot, when an extremely terrible sound of violent explosions of True Essence arrived. This was definitely from a battle between cultivators, Ning Cheng immediately used his Spiritual Consciousness to check it out, and immediately two Taoist shadows locked in combat appeared not too far from him.

Ning Cheng did not step aside, although he only had the cultivation of Profound Congealing 7th Level, but in retrospect, he also really was not afraid of anyone.

However, just as Ning Cheng perceived the cultivations of the two cultivators fighting, his heart almost jumped into his mouth, and the first idea that sprang into his mind was to flee as far as possible.

[The Gate Of Good Fortune](#)

Chapter 229: True Spirit Nectar Wash

It turned to be a fight between two Soul Essence Cultivators, although Ning Cheng did not fear Profound Core Cultivators, but in the face of Soul Essence Cultivators, he knew that he definitely was not their opponent.

Soul Essence Cultivators were unable to enter the Law's Way, and yet there definitely were two Soul Essence Cultivators in here, it was obviously because they had advanced to this level inside the Law's Way.

However, Ning Cheng immediately reined in his own thoughts, as he hurriedly went into hiding. In fact, he himself did not know, as to why they were fighting.

The two Soul Essence Cultivators did not seem to care about Ning Cheng's existence, as their fight was growing even more intense. The air constantly was giving out explosive noises because of the fluctuations caused by their True Essence and the deadly lights from their magic weapons, which made Ning Cheng to be secretly startled in his heart. Soul Essence Cultivators and Profound Core Cultivators naturally had a deep divide between them, as to advance to the Soul Essence Realm; one must have to pass through the Thunder Tribulation. Although Profound Core Cultivators are powerful, but it is only on the virtue of their True Essence. However, Soul Essence Cultivators, unlike them, can communicate and interact with the environment surrounding them while at the same time use it to attack their enemies.

Ning Cheng was also not a rookie when it came to the practice of cultivation. He knows that he might be able to contend against Profound Core 9th Level Cultivators with the strength of Profound Congealing 7th Level, but if he were at Profound Core 7th Level, he absolutely would not be even able to touch a Soul Essence 9th Level Cultivator let alone contend against them. Unless, he underwent another qualitative change once he reached Profound Core Realm.

The only difference between Profound Congealing and Profound Core is the formation of Core Lake; this Core Lake would then condense into a Golden Core as you kept improving. Although it was not an essential difference, but it was a difference between the intensity and quantity of True Essence. While if one wanted to advance to the Soul Essence Realm, then after going through the Thunder Tribulation, they would have to break their Cores to form their Life Essence, which was actually the embryonic form of their Soul Essence. This essential difference separated them from the Profound Core Cultivators.

Fortunately, the two Soul Essence Cultivators were just using their True Fires to fight against each other, and under its cover, Ning Cheng was quickly able to move to a new spot.

Ning Cheng breathed a sigh of relief; initially his first thought was to escape from this place.

He quickly wielded the Twin Heavenly Cloud Wings, and in just a flash left the place, he had just arrived at. However, in the next moment, he once again returned to the same place.

Before leaving, he had used his Spiritual Consciousness and found a small lake in a distance. An extremely clean aura immediately caught his attention; at that moment, he was even able to sense his understanding of his cultivation practice growing a bit deeper unconsciously.

Was it the True Spirit Nectar Wash?

Ning Cheng had not seen the True Spirit Nectar Wash before, but this kind of feeling made him certain that it truly was the True Spirit Nectar Wash. At this moment, Ning Cheng did not care one whit about the two Soul Essence Cultivators fighting outside, since he was able to find the True Spirit Nectar Wash, how could he spare it?

Simply not thinking of anything else anymore, Ning Cheng immediately rushed towards it, and soon saw a large mountain peak that had a narrow slit. Looking at it, one could say that this split on the mountain peak had only appeared recently, Ning Cheng immediately thought of those two Soul Essence Cultivators. He theorized that those two Soul Essence Cultivators should have actually split this mountain range open a few moments before.

However, he was very puzzled with this; the two Soul Essence Cultivators had opened up the hidden location of the True Spirit Nectar Wash, so why would they be fighting just outside this place.

However, no matter what the reason was, he had to hurry up and quickly take away the True Spirit Nectar Wash. With this much True Spirit Nectar Wash, it was equivalent to striking it rich.

Leaving behind a single Monitoring Array Flag, Ning Cheng with his fastest speed arrived above the small lake; he was incomparably excited just thinking about it. However, when he saw what was below him, he immediately became disappointed. This was just a very ordinary mountain lake; it was no wonder that those two Soul Essence Cultivators did not come here. The bigger one's hopes were, the greater the disappointment would be ah.

Above this small ordinary lake, there were three round stone pools; these stone pools actually seemed to have taken shape beneath a single inverted stalagmite. This stalagmite had sharp corners, at this time there was a little bit of clear liquid condensed over it. Ning Cheng immediately arrived to the side of this stalagmite and touched this clear liquid with his hand. A kind of incomparable and pure sensation struck him, it let Ning Cheng immediately realize this this was the real True Spirit Nectar Wash.

However, the stone pools in front of him were empty, the True Spirit Nectar Wash inside the stone pool should have accumulated from the drippings from the stalagmite, but at this time, someone had already cleared it all out. This time Ning Cheng finally found the reason the two Soul Essence Cultivators were fighting. Those two men were clearly fighting because one of the two had completely emptied the stone pools of the True spirit Nectar Wash, while the other person was not satisfied with it. Under the condition of snatching, these two talented geniuses ended up fighting against each other.

As for the small lake below, he could easily guess that a small portion of the True Essence Spirit Wash had spilled into it, which had caused it have a vague aura of True Spirit Nectar Wash to emanate from the lake water.

He really had rejoiced too soon, Ning Cheng thought as he looked at the small lake in front of him with some disappointment, as he also shook his head.

But then again his gaze fell on the surface of the empty stone pool, this this stone pool had soaked in the True Spirit Nectar Wash for a long time, it can be considered as a good thing. When the time comes, he could bring this stone pool to Kong Pengpeng, which would also be quite good.

Thinking until here, Ning Cheng directly pulled out the stone pool.

A hint of rich True Spirit Nectar Wash's Aura immediately leaked out, instantly Ning Cheng used his Spiritual Consciousness to sweep out at the place he had unintentionally opened up as he pulled it out, when he saw that behind it was a pond nearly filled to the brim with True Spirit Nectar Wash, he almost screamed out loud.

Strongly suppressing his wildly thumping heart, Ning Cheng knew that this time he really had struck rich.

At this time, he had almost forgotten what he should be doing, as his heart was already in his throat. So much True Spirit Nectar Wash, once those two Soul Essence Cultivators knew about it, they would immediately come dashing back. At that time, would he still be able to keep his life? Ning Cheng was sure that only after this stalagmite had formed, that it had started dripping the True Spirit Nectar Wash, while the major part of it was stored in the large pond behind it.

Nature was amazing, and filled with falsehoods, what was real might not be real and what was illusionary might not be illusionary. If he had not taken down the stone pool, then how would he have found the True Spirit Nectar Wash inside in such a place?

At this point Ning Cheng did not even consider anything else, as he immediately used his fist to blow open a crack, directly worming his way into the area.

So much True Spirit Nectar Wash, how should he go about taking it all away?

Ning Cheng first thought of the Miniature World that he had, he immediately called out Yan Ji and Grey Toottoot from inside the Miniature World, as he decided that he must first create a pond inside his Miniature World.

Once Grey Toottoot came out, he immediately began yipping in an excited manner, as he with a splash jumped right into the True Spirit Nectar Wash Pool. Yan Ji seeing Grey Toottoot jump in, unexpectedly also followed him in jumping into the pool. Ning Cheng was somewhat helpless in such a situation, the only thing he could do was to seize the time he had and arrange a simple Shielding Array Formation on the outside.

Ning Cheng was ready to carve out a pond inside his Miniature World so that he could transfer the True Spirit Nectar Wash, but then he found out that there was a black gas coming out from the top on Yan Ji's head, while a faint spiritual charm seem to be circulating around her body.

Could it be that bathing in the True Spiritual Nectar Wash had other effects? Ning Cheng, thinking about this, also jumped into the True Spirit Nectar Wash Pool.

An extremely comfortable force was washing over him, Ning Cheng could clearly feel that the True Spirit Nectar Wash was cleaning his body repeatedly; he could feel his spirit becoming cleaner each passing moment.

He could also vaguely feel that his own perception ability was rising rapidly, as a trace of black coloured gas was dissipating out from the top of his head.

This really was a good stuff ah; taking a bath in such a thing would unexpectedly bring out such an effect.

Ning Cheng did not dare to continue bathing, and quickly entered the Miniature World, and almost in an instant carved out a simple pool, this pool was where he would transfer the True Spirit Nectar Wash inside the Miniature World.

"After you go inside, you are not allowed to take a bath in it; this is something that I still need to change into Spirit Stones." Ning Cheng repeatedly stressed out this point to Yan Ji and Grey Toottoot, before he sent them both back into the Miniature World along with the pool.

Ning Cheng still wanted to look around to see what else there was to be found, but at that moment the he immediately perceived minor fluctuations coming from the Monitoring Array Flag that he had put outside.

Some people were coming. Knowing that there were people coming, Ning Cheng immediately wielded his Twin Heavenly Cloud Wings, and in an instant disappeared from that place. No matter who it was, he

did not want to meet them. Moreover, going by Ning Cheng's guess, the greatest possibility was that the two Soul Essence Cultivators had returned.

Sure enough, after Ning Cheng left, it did not take long before the two Soul Essence Cultivators that he had seen previously had come back again. However, at this time the two of them were not fighting with each other, it seemed that they had reached a general agreement with each other.

"Yi, it seems that when we left, someone had come in here, and took away the stone pool, no...."

The first among them to come in was a tall thin man with khaki coloured clothing; he had not yet finished his words, when his eyes immediately fell upon the space opened by Ning Cheng previously.

A huge empty pond appeared in front of the eyes of both of them, the pond inside was still wet, exuding a strong and rich aura that was from the True Spirit Nectar Wash, the faces of the two people who had just came in immediately became pale without even a hint of blood in them.

At this moment, the two of them immediately understood what had happened. They were the ones who had initially opened up the place where there was True Spirit Nectar Wash, but they had only taken away just a minor fraction of what was inside, while finally the one who arrived late took the rest of benefits away. This was a pond filled with True Spirit Nectar Wash; just how much wealth was it ah? If you gave a person Spiritual Stones equivalent to it for their cultivation practice, then maybe in this life they would not even need to worry about running out of resources for their cultivation practice.

"Wan Kuhua, if it was not for you who wanted to fight with me, how could we have others take the advantage of taking things away from here?" An incomparably handsome cultivator who was behind him ground his teeth, as he regretted heavily in his mind to the point that blood seemed to be on the verge of erupting from his heart.

The tall, thin man wearing the khaki coloured clothes also knew that saying all those things now would not bring any results, as it was already too late. However, he still spoke in a hate-filled voice, "Thinking back on it, this person should have been the Profound Congealing ant that was hiding on the side while the two of us were fighting with each other. I did not expect that that bastard would still be around, as long as he is still in this Third Segment, I will definitely find him, even if he swallowed it completely, I will have him spit it out."

Finished saying this, he turned to the handsome looking Soul Essence Cultivator behind him and spoke, "Pan Yu, do you want to cooperate with me, or do you want to try and look for him separately."

Pan Yu spoke out in a cold voice, "Of course we will cooperate, but the True Spirit Nectar Wash will have to be equally divided between us two. I, Pan Yu, have practised cultivation all the way to the Soul Essence Real inside the Law's Way, but I have never been taken advantage by others, there can never be anyone who even dares to think of taking advantage of this Pan Yu. Just wait for me to find this ant; I WILL refine him into my puppet."

[The Gate Of Good Fortune](#)

Chapter 230: Thunder Domain Marsh

In the depths of an ocean like marsh, Ning Cheng had been hiding for almost over a month inside his Miniature World. He had escaped into the depths of the marsh, and laid down a Concealment Array Formation, then hid the ring with the Miniature World within it.

Just like how it takes careful consideration to build a ship that would be able to last tens of thousands of years, after experiencing so many varied things till now, Ning Cheng was able to gradually transform himself on a fundamental level.

Whether or not there was anyone chasing him, since he was able to obtain many good things, then it would always be better off to be low-key in order to avoid being hunted down.

Inside his Miniature World, Ning Cheng started refining a few pills, while he also indulged in creating various Talismans. This Miniature World, being completely modified to his standards, he had ended up transforming it into a beautiful abode.

With the True Spirit Nectar Wash scouring their bodies, Yan Ji seemed like she had become a lot more sober than before, sometimes she would even sit down and meditate, and even occasionally absorb the Spiritual Qi inside for her cultivation practice.

As a few months passed by, Ning Cheng felt that he could now leave this place safely. If he could find the exit from this Law's Way, then he would no longer tarry in this place. Since he had already fulfilled the main purpose of coming into the Law's Way, as such continuing to stay in this place would only lead to a waste of his time.

Initially Ning Cheng had intended to entrust Yan Ji to the people from her Academy, but at the time when he rushed into the Array in order to break it, those cultivators did not even show a bit of mercy towards Yan Ji from the start, in such a case Ning Cheng had also abandoned his previous intention.

In the face of benefits, even those people whom Yan Ji regarded as experts from her own Academy, it was as plain as day that no one actually cared for her life and death. Fortunately, he had a ring that was capable of supporting a miniature world inside, as such when it was time for him to get out; he would be able to bring Yan Ji out with him in a convenient manner.

Ning Cheng changed his attire, along with also changing his appearance, transforming into a pale faced male cultivator that seemed to like indulging himself in debauchery. After checking out that there were no problems with his transformation, Ning Cheng immediately rushed out from the inside of the marsh.

"What is this place?" Ning Cheng on coming out immediately felt that there was something wrong. The place that he was in now was radically different from the time when he had entered the marsh. When he had entered the marsh, he still held a bit of fear that he would not be able to find a way out from inside there, because of which he had specifically chosen a spot on the edge of this marsh. Now that he had come out, all he could see was a marsh that seemed to go on endlessly, just where did that edge go?

So that is how it was, it should have been because of the flow of the marsh, that had brought him to this place.

Ning Cheng was just about to bring out his Twin Heavenly Cloud Wings and leave this marsh area, when suddenly his Spiritual Consciousness detected two Taoists shadows rushing towards his direction with

haste. Ning Cheng immediately became more cautious in both his mind and heart, and temporarily shelved the idea of escaping from this place.

From their speed, he knew that the cultivations of the two incoming cultivators was high. If even one of them ended up being a Soul Essence Cultivator, and if he tried to escape, then it would only be him seeking his own death.

A moment later, the two cultivators arrived in front of Ning Cheng, and one of them was a handsome looking male Profound Core Cultivator. Looking at him, Ning Cheng found that his complexion was quite similar to his own right now; rather it was somewhat paler than his own face. However, his paleness was different from Ning Cheng's paleness, as Ning Cheng, after changing his appearance, had intentionally turned into a sex-crazed male cultivator. It seemed to be because of the Cultivation Method that he cultivated in which resulted in such a situation.

The other one was a female cultivator, with a perfect figure that was not even the least bit worse than Yan Ji and Nalan Ruxue. This female cultivator had her black hair tied up in a simple bun, with a hairpin inserted at its base that was giving off weak rays of lights; her slightly pale pink lips formed a beautiful natural smile, while there was a tiny frown between her eyebrows. It seemed as if she really did not like Ning Cheng's appearance. However, her eyes flashed with a hint of slaughtering aura, which made a diametrically opposite contrast from her beautiful looks. Moreover, this female cultivator's cultivation was also a lot higher than that of Ning Cheng, which is she was at Profound Core 8th Level.

"Who are you? Why were you in the depths of the Thunder Domain Marsh?" This female cultivator immediately asked.

Since they were just two Profound Core Cultivators, Ning Cheng was naturally not afraid of them. However, he also did not want to fight at this moment, he cupped his fists and spoke; "I was looking for the exit of the Law's Way, but ended up getting lost. Can I ask if you know about the place from where to exit the Law's Way?"

"You were looking for the exit of the Law's Way in this place?" The female cultivator did not believe it and immediately asked Ning Cheng.

However, the male cultivator immediately laughed, it seemed as if he felt Ning Cheng to be extremely idiotic.

Looking at Ning Cheng, the female cultivator who was already originally unhappy with Ning Cheng, the corners of her mouth showed a slightly wider yet higher smile, apparently even she thought that what he had spoken was something funny. Even so she did not laugh like that male cultivator, rather spoke in a light voice, "You seem to have not even formed your Golden Core, so how can you even think of going out?"

"To go out you first have to form your Golden Core?" This was the first time Ning Cheng had heard of this.

That female cultivator once again spoke in a light voice, "Of course not, from the tone of your voice it seems that you're stay in the Law's Way has been very short, because of which you still do not understand a few things, but you will be able to understand it later. I will ask you just one thing, since

you are moving around here in this marsh, haven't you encountered the lightning strikes? You are just a single Profound Congealing Cultivator, yet you are still able to stay alive in this kind of place?"

"Lightning strikes?" Ning Cheng had a vacant expression as he shook his head; he had come to this marsh and had immediately moved to hide under it, so where were these lightning strikes that they spoke of?

That female cultivator was just about to speak up, when a sudden burst of explosion sounded out, which was immediately then followed by dozens of blue coloured lightning arcs falling down, which had almost enveloped the entire area where the three of them were at.

Ning Cheng was already prepared and was vigilant towards the man and woman already, and because of this preparedness, he exploded out with his Profound Break Spear as he brought it out almost at the same time, while simultaneously using it to throw out numerous Profound Ice Spear Shadows one after another.

"Pa Pa Pa Pa....."

The Profound Ice Spear Shadows instantly formed into a Spear Network, which was then bombarded by the numerous and dense lightning arcs falling from above, producing continuous cracking sounds.

"Kacha....."

Although Ning Cheng's Profound Ice Spear Network was really powerful, but it could not fully withstand the power of the lightning crashing on it, these numerous and dense lightning arcs were able to tear through Ning Cheng's Spear Network, which then exploded onto Ning Cheng's body.

"Puff Puff....." Huge number of small shallow wounds opened up resulting in large splashes of blood. Just one tiny fragment of the lightning arcs that exploded onto Ning Cheng not only caused his skin to rupture, but also even exposed his bones beneath it. Even the True Essence in his body seemed to have shredded apart as the lightning struck him. There were even traces that it might just go berserk.

Ning Cheng quickly swallowed a few pills, and immediately consolidated his True Essence, while simultaneously preparing for the next wave of similarly intensive lightning strike.

The previous wave of lightning strikes was simply too quick, it arrived too quickly, to the point that it had even caught him unprepared despite his caution.

Ning Cheng gave out a gloomy sigh, while his heart filled up with an incomparable haze.

"Yi, you were able to block those explosive lightning strikes here in the depths of the Thunder Domain Marsh?" That handsome looking male cultivator stared at Ning Cheng in amazement and spoke those words in complete shock. This kind of bombardment of lightning strikes, even for him was quite difficult to deal with, yet Ning Cheng suffered seemingly minor wounds.

That female cultivator was also looking at Ning Cheng in complete shock; he was just a Profound Congealing Cultivator, in the absence of appropriate defensive magical weapons, it was absolutely impossible to hold up against these kind of lightning strikes. Moreover, they had personally seen that Ning Cheng had not taken out any defensive magical weapons; rather he only used a spear technique to block this kind of intensive lightning bombardment.

Ning Cheng also saw that the two people had a buckler each floating above their heads surrounding the two of them, as for the lightning strikes that fell on them; the two Profound Core Cultivators did not suffer even the least bit of injuries.

Ning Cheng understood that these two people were certainly well prepared for such a situation, moreover he also did not want to continue to stay in this kind of place and be repeatedly struck by lightning, as such he cupped his fists towards the two people and spoke, "It's time for us to say our goodbyes."

Although he had been able to escape a round of those lightning strikes but there was not a shred of happiness in his mind, the lightning strike that struck him just a moment ago was very small. It just had a thickness of a single noodle; moreover, it had only appeared for a short while before disappearing like a gust of the wind. Yet such a seemingly small and harmless lightning arc almost had enough power to kill him instantly. Thinking back to the tribulation crossing scenes that he seen while crossing the Law's Way, he could feel that even the first wave of the Thunder Tribulation not only was countless times denser than what he experienced here, but even the smallest of those lightning strikes was also as thick as a thumb. With the continuous descent of such a thunder tribulation, it would indeed be strange if he were able to survive it.

"Wait, are you not looking for an exit out of the Law's Way, in fact you do not need to practice cultivation to the Profound Core Realm, since it seems that you have not entered the Law's Way for over a decade, then there is no way for you to be able to sense the exit of the Law's Way. We are now going towards the Thunder Domain City, and getting ready surpass our Thunder Tribulations in the future. I think that you are quite good, why don't we team up together to get to the Thunder Domain City?" That male cultivator with the pale complexion, in order to stop Ning Cheng from trying to leave, spoke in an extremely polite and very agreeable tone.

Ning Cheng was not able to finish in time, before his words were interrupted by the other person's words. However when he heard the last words of the male cultivator stating that he was getting ready to surpass the Thunder Tribulation, it perked him up immediately. He had seen his supposed destiny in the Law's Way, which showed his future death when he tried to surpass the Thunder Tribulation.

If he was able to somewhat prepare himself beforehand to cross the tribulation, then was it possible to escape this terrifying destiny of his?

Seeing Ning Cheng hesitate, this male cultivator gave a slight chuckle and once again spoke up, "I am called Lu Fei, and she is called Chai Chudie. We will soon be going out of the Law's Way, but at the same time also want to be prepared to survive the Soul Essence Thunder Tribulation. If you want to come out from the Law's Way, then you can come together with us as we go out. With your qualification, presumably it would not be before long before you will also be able to cross the tribulation and ascend to the Soul Essence Realm."

"The experience and training that you would find in the Thunder Domain City is not something that you would experience all the time, moreover inside the Thunder Domain City, there are a variety of treasures that one could obtain. If you are lucky, then maybe you could even be able to procure a few thunder attributed treasures that could help you prepare in crossing the tribulation yourself."

Ning Cheng in his mind had already decided to go to the Thunder Domain City to have a look, but what he did not understand was why this Lu Fei would be insistent on roping him in.

"I only have the cultivation of Profound Congealing Realm, I'm afraid that I would practically be no use for you." Ning Cheng only spoke after Lu Fei finished his words, and only then did he speak in a slow voice.

Lu Fei laughed and spoke, "In fact, we can actually help each other out. In the Thunder Domain City, not everyone there is for the experience. Once we reach the Thunder Domain City, the thunder and lightning falling would become increasingly intense and denser, because of which everyone will have to join and work together to resist it. The thunder and lightning falling on the Thunder Domain City is different from this place, which is it would not strengthen because there are more people."

Ning Cheng already was aware that this Lu Fei was not someone who was this kind to others, but when he heard Lu Fei, he really wanted to go to the Thunder Domain City to have a look.

Thinking until here, Ning Cheng said, "Well then let me come have a look along with the two of you."

"At the moment we do not know how to address this friend?" Lu Fei on hearing Ning Cheng was willing to come with them, immediately warmed up his tone.

"I am called Sikong Kai, and am just a rogue cultivator. Although I was able to enter the Law's Way, but it was because of someone else's help." Ning Cheng gave a slight chuckle as he spoke.

Chai Chudie looked at Ning Cheng, and suddenly sent a sound transmission to Lu Fei, "Senior Apprentice Brother Lu, this Sikong Kai is very strange, just a single look and one can say that he is a nefarious cultivator, so why do you want him to come with us?"

Lu Fei also gave a slight smile, as he also replied with a sound transmission, "This person has a look of indulgence of the excessive kind, although he did not look at you, but it is quite apparent that the only reason he is willing to come with us to the Thunder Domain City is because of you. Since he is a nefarious cultivator, and we are also in the process of refining the entire Thunder Domain City, as such letting him be the sacrifice for us is just for the better, it can also be considered as getting rid of a scourge for the rest of the female cultivators."

"But what if he is not a nefarious cultivator?" Chai Chudie frowned and once again sent a sound transmission to him.

Lu Fei sneered and replied, "This person must be a nefarious cultivator without a doubt, even if he is not a nefarious cultivator, I can definitely say that he is not someone good. Junior Apprentice Sister Chudie it would be better for you to not be soft hearted, otherwise you would never know about how much of a disaster he would be for the female cultivators. Moreover, Junior Apprentice Sister have you not seen him display that Ice Spear Network just a moment back? It is definitely a Profound Grade Spear Technique. Moreover this Spear Technique is just the right thing for me to use."

It was at this moment that Ning Cheng suddenly revealed a bright smile and spoke, "Elder Brother Lu, please lead the way. This is the first time for me to visit the Thunder Domain City, moreover my cultivation is also low, because of which I would like to request the two of you to please look after this humble one."
