Chapter 231: Storming Into The Thunder Domain City

“That’s for sure, since we are going there together to learn through experience, it’s natural to look after each other. Moreover we also have a bit of understanding of the Thunder Domain City, once inside the Thunder Domain City, if we encounter a cyan coloured Thunder Pillar then we will turn to the left, while when we encounter a white Thunder Pillar we will turn right. As long as we use this route map, we would be able to find places where the lightning does not strike, and we would be able to take rest and recover our strengths. Otherwise, no matter how strong of an ability or skill we have, we would be reduced to ashes by the lightning strikes as we get nearer to the core of the Thunder Domain City, at that time it would not be training to get experience, rather paying off with one’s life.” Lu Fei spoke with a chuckle.

Ning Cheng also smiled, showing that he was well satisfied with this arrangement. At that time when Lu Fei and Chai Chudie were speaking to each other using Sound Transmissions he was able to capture some of the fluctuations, even though he could not hear the complete conversation, but it was definitely enough for him to guess that Lu Fei truly did not have good intentions in his heart towards him. Not only was he taking him to the Thunder Domain City with the excuse of gaining experience, he was even telling him the so-called secret on how to traverse the inside of the Thunder Domain City.

Lu Fei and Chai Chudie did not ask Ning Cheng of his origins, so Ning Cheng, of course, would also not ask of their origins. Both parties were simply in a relationship that mutually exploited each other. Ning Cheng did not know as to what kind of advantage he had that Lu Fei and Chai Chudie wanted to take advantage of, but he was sure that he had his own uses to use the Lu Fei duo to help him in entering the Thunder Domain City.

“Why are the two of you not using flight type magical weapons?” Ning Cheng saw that Lu Fei and Chai Chudie were also like him, as they marched on with just a Spiritual Artefact protecting them, and asked in a somewhat strange manner.

It was not that he did not fly due to the lack of magical weapons, but rather because of these two people. If not for them, he would have long gone away with just a wave of his Twin Heavenly Cloud Wings.

“Since it is learning through experience, so of course, this kind of tempering is certainly something needed to pass through the baptism of the Thunder Tribulation. Besides, the cost of advanced level flight type magical weapons is not low in this kind of place. In the case it gets broken under the constant bombardment, it would only be us losing out big time.” Lu Fei replied in response to Ning Cheng’s question, and even his speech was getting increasingly warm and filled with enthusiasm.

While speaking, the sky above the marsh once again exploded with intermittent thunderous roars. Now that Ning Cheng had already experienced such a thing before, so he was able to react almost instantaneously as he once again brought out his Profound Beak Spear.

This time, although Ning Cheng had no time to blast out all 36 of his Spear Shadows, but dealing with these kinds of lightning strikes and dealing with cultivators were two different things. These kinds of

lightning strikes would not be influenced by one's strengths and weaknesses. There would not even be half a minute change in them because of it, only in the most appropriate time, exploding out with the most suitable spear shadows, only then would one be able to just block these lightning strikes.

This time the lightning strikes were even denser than earlier, however the only difference from the first time he encountered them was that Ning Cheng was now able to perfectly use the Profound Ice Spear Shadows to block the lightning strikes completely, and did not let even a single part of it to hit or even reach his body.

At the same time, Ning Cheng was also observing Lu Fei and Chai Chudie's way of dealing with the lightning strikes; the two people's round shield was extremely powerful. Especially after it was stimulated, it would immediately form a huge umbrella, completely covering each of them. All the lightning arcs fell on top of this round shield, without even letting the two of them experience even half an injury.

At best, it would only make them consume some of their True Essence, this made Ning Cheng to make up his heart and mind that he HAD to get himself a defensive magical weapon. Although inside his ring there were many lower levelled defensive magical weapons, but these magical weapons, to Ning Cheng, did not have any use in this kind of situation. Before when he was in the Spiritual Treasure House, he had taken a fancy to a Heaven and Earth Cauldron, but it was forcibly bought by that demon, letting him obtain nothing.

"Yi...." Seeing Ning Cheng, not even receiving half a bit of injury this time, Chai Chudie immediately called out in surprise. This kind of progress was simply too huge right?

"Elder Brother Sikong sure has some good skills. With this kind of progress of Elder Brother Sikong, combined with going to the Thunder Domain City as a form of learning through experience, in the future, the Soul Essence Thunder Tribulation would not pose the slightest problem for you. Moreover, Elder Brother Sikong's long spear is also quite unusual, and can almost be compared to a high grade Spiritual Artefact. For you to obtain this kind of spear, and display this kind of spear technique, presumably Elder Brother Sikong must have encountered an opportunity that should not have been small." Lu Fei's eyes flashed. He even praised him loudly as they continued forward.

Ning Cheng already knew that Lu Fei did not actually want to ask about his spear, but rather wanted to know about the origins of his 36 Profound Ice Spear Technique. However, he was already not in the mood for Lu Fei's hypocrisy, as he put the Profound Break Spear back on his back and spoke, "This spear is just an ordinary Medium Grade Spiritual Artefact that I had purchased from a Magical Weapons Pavilion, compared to the Elder Brother Lu's shield type magical weapon, it is far inferior. Now that I think about it, how much further are we from the Thunder Domain City? Should we increase our speed?"

"No there is no need for it; we should be there in a few hours." Lu Fei spoke as if he was without a care in the world.

After Lu Fei's constant insinuations about the origins of Ning Cheng's Profound Ice Spear Technique, combined with Ning Cheng pretending to not know about it, Lu Fei's interest in Ning Cheng's Profound Ice Spear Technique grew even more. He also became interested in the healing pills that Ning Cheng used.

Ning Cheng was just a Profound Congealing Cultivator, for him to have so many high quality healing pills, combined with such a powerful Profound Ice Spear Technique, Lu Fei was almost certain that Ning Cheng had obtained the legacy of a powerful cultivator.

As the three people proceeded further inside, the lightning around them in that part of the marsh started becoming increasingly intense. Ning Cheng simply did not have the time to be embroiled in Lu Fei's long-windedness, as he used almost all of his focus to deal with the lightning strikes falling from the sky.

Because of the increasing density of the lightning, Ning Cheng once again began to be injured, but because of Ning Cheng's Profound Ice Spear Shadow's increasing dissipation range, his injuries were getting lighter and lighter.

Because of the dense lightning strikes falling over marsh, Lu Fei and Chai Chudie could also not continue to observe the situation with Ning Cheng.

With the three people resisting the increasingly intensive lightning strikes side by side, they slowly made it into the depths of the Thunder Domain Marsh.

"Pi Pa, Katcha..." Bouts of intensive thunderous lights could be seen accompanied by sounds of exploding air. Lu Fei and Chai Chudie stopped, Ning Cheng also stopped, in front of his eyes appeared a city that was overflowing with thunder and lightning.

Countless amounts of thunder and lightning could be seen surrounding the city from all four sides, while there were still numerous quantities of thunder and lightning falling from the sky over the marsh, creating a kind of defensive shield of thunder and lightning with the city at the core of it.

Perhaps it was because this city was continuously encircled for over a long time by this kind of horrifying thunder and lightning, because of which its walls were already of the same color as of the thunder and lightning, having a pale cyan color.

"Boom, Katcha....."

A burst of intense thunder and lightning explosions could be heard unceasingly spreading out from this city.

This was the Thunder Domain City? Ning Cheng exclaimed with surprise in his heart. Just looking from the edges, at the lightning strikes falling around the Thunder Domain City, some of them were already as thick as chopsticks. Once he entered this Thunder Domain City, with this kind of intensive lightning strikes that already had enough power to kill him, would he still be able to keep his life? Moreover, the lightning strikes inside were quite dense, they were even many more times denser than the outside in the Thunder Domain Marsh. Once inside, he may not even have the chance to catch his breath.

Although Lu Fei had said that inside the Thunder Domain City, there were some places where the lightning did not strike, but he did not know how much of it was true or how much of it was false. If it really were false, then wouldn't it mean that he really would be walking towards his own death aah?

Ning Cheng's Spiritual Consciousness almost simultaneously fell on the entrance to the Thunder Domain City. He could see that the area just beneath it was already filled with countless bones that had already turned into slag under the constant bombardment. Even though the bones had turned into slag but it

could still be seen that these bones-transformed-slag were from cultivators, rather than the monstrous beast from this place.

As for the inside of the Thunder Domain City, his Spiritual Consciousness could not sweep in. Other than the light of the lightning strikes from the outside, there was only the clap of thunder that could be heard.

“What a terrifying Thunder Domain City.....” Chai Chudie subconsciously muttered a sentence. It could be seen from her face that she was somewhat timid.

Lu Fei’s face was also quite pale, it was apparent that he also did not think that the Thunder Domain City would turn out to be such a terrible place. He suddenly remembered about Ning Cheng. Since this Thunder Domain City was already such a terrible place, he estimated that this Sikong Kai absolutely would not go in. If Sikong Kai wanted to walk away from here, then he would have to get rid of the other party, only then would be able to get his hands on the Profound Grade Spear Technique.

Ning Cheng was also somewhat startled in his heart, but he soon calmed himself down. It seems that the words spoken by Lu Fei were at least partially true. If this place was not on the inside of the Law’s Way, then even if he wanted to actively take the initiative to look for a place like the Thunder Domain City on the outside, that was surrounded on all four sides with continuous lightning and thunder. It really would be impossible for him to venture into it in order to learn through experience, even if he found it.

Since he had already come here, then he would have to get in. If he did not experience this kind of thunder tribulation and not learn from this experience, then in the future when it would be time for him to actually cross the tribulation, in order to advance to the Soul Essence Realm, the only thing waiting for him would be being erased from the cycle of life and death. Since there was such a good opportunity presented to him, then why wouldn’t he try it?

If there really was no way to keep his small life, then as a last resort, he could crush the Talisman given to him by the skeleton slumbering at the bottom of the Blood River Mountain. Although it was a big deal to go back to that place once again, but that skeleton should not come out to kill him, right? If that skeleton had that kind of ability, then he would have already escaped from that place, and would have no need for his help.

As for Yan Ji in his miniature world, if he ended up dying, then she can only resign herself to her fate.

Thinking until here, Ning Cheng did not hesitate to rush towards the Thunder Domain City. He did not even say his goodbyes to Lu Fei; rather he was in no mood to do so. The only reason he had put up with Lu Fei and his nonsense was to let the other party take him to the Thunder Domain City. Now that he had already arrived at the outside of the Thunder Domain City, there was no need for him to be hypocritical now. The kind of people Lu Fei and Chai Chudie were, they definitely were not his friends, and it was impossible for them to become friends.

“Is this guy not afraid to die?” Chai Chudie seeing Ning Cheng unexpectedly rush towards the Thunder Domain City called out, as she; herself did not dare believe what she was seeing.

“At least he provided a bit of fun.” Lu Fei spoke as he laughed, “Junior Apprentice Sister Chudie, we should also go inside. Although this Thunder Domain City is a bit terrifying, but we are different from the

others. We have the Refining Array Diagram of the Thunder Domain City. We just have to find the core region, then we can work together to refine this Thunder City.”

Chai Chudie hesitated for a moment and spoke up, “The Thunder Domain City is only for one person, moreover the Array Diagram to refine the Thunder Domain City was obtained by us together, after refining the Thunder Domain City, will you really hand over the control to me?”

Lu Fei suddenly spoke in a stern voice, “Junior Apprentice Sister Chudie, inside the Thunder Domain City there are numerous Thunder Flame Stones. The value of those added up would not be lower than that of the value of the Thunder Domain City. Moreover, inside the Thunder Domain City, there is also a sub city. This sub city is actually overflowing with Thunder Flame Stones, the value of which is actually even higher than that of the Thunder Domain City. If I can obtain them, it would already be a lot for me.”

At this point, Lu Fei’s tone suddenly became incomparably soft, “Besides, Junior Apprentice Sister Chudie, my feelings towards you, do you still not understand them? You must not say such things to me, even if there was nothing in it for me, if I can be of any help in Junior Apprentice Sister’s work, I would still do it willingly.”

Chai Chudie’s face turned slightly red and spoke, “Senior Apprentice Brother Lu, I am completely focused on practicing cultivation, as for the other affairs, I don’t have anything to say about them. But now that Sikong Kai has already gone in, then should we also go in now?”

“Well then, Die’er be careful and follow closely behind me on point.” Lu Fei answered almost simultaneously, as he took the lead. Since Chai Chudie did not object to the manner he called her, it showed that he had definitely risen up a level in her heart.

Ning Cheng had already arrived at the edge of the Thunder Domain City and found that the entrance of the Thunder Domain City was actually blocked with a dense criss-crossing lightning net. Moreover, looking at the composition of the lightning arcs of this lightning net, the finest of the arcs had the thickness of chopsticks.

How can one go in? Ning Cheng only hesitated for two breaths of time, before a large number of those lightning arcs, with a thickness of chopsticks, crashed down on him. Ning Cheng no longer had time to think, as he immediately struck out with his Profound Ice Spear Shadows.

The collision of the Profound Ice Spear Shadows and the lightning arcs produced crackling like sounds. Ning Cheng surrounded himself with the Profound Ice Spear Shadows making sure to cover himself completely as he rushed into this dense lightning net that blocked the entrance to the Thunder City.

Since he had already arrived at this point, then what was the use of thinking about it? Anyways, the outside of the city already felt a bit crowded and stifling with the descending lightning arcs, so he might as well go into the city. Maybe after he went inside the city, it might really turn out like Lu Fei spoke about, that is about finding a safe place to escape to and rest up.

Chapter 232: The Terrifying Thunder Domain City

“Ka Ka Ka Ka”

Ning Cheng's Profound Ice Spear Shadows were just like thin papers in general, and in just a twinkling of an eye, were annihilated to nothingness under the constant bombardment of the bright fluorescent lightning arcs raining down in front of the entrance to the Thunder Domain City. As these berserk lightning arcs rained down, Ning Cheng who had a mind to not easily resort to his True Cosmic Devil Axe, was forced to reconsider as that thought completely disappeared from his head.

Using his True Cosmic Devil Axe, he immediately cast out an Axe Line, which in just a twinkling of an eye, wrapped around him forming a circular shield covering him up under his manipulation.

"Hong Hong Hong....."

Using the Axe Line that was casted from the True Cosmic Devil Axe, he immediately collided with the lightning net that was covering the entrance of the Thunder Domain City, causing a terrifying explosive sound to reverberate out.

"Peng" Although the Axe Line casted from the True Cosmic Devil Axe was able to block the seemingly endless lightning net, but at the same time Ning Cheng was able to borrow the powerful backlash from the lightning net and was directly thrown inside. While simultaneously spouting a mouthful of blood, before finally hitting the ground just in front of a cyan coloured stone pillar. This stone pillar seemed to contain a terrifying thunder source, because of which Ning Cheng subconsciously moved aside from it. He guessed that this should be one of the cyan coloured thunder pillars that Lu Fei had spoken of before, but because he did not believe Lu Fei, so he was not intended to follow Lu Fei's directions and instead immediately turned right.

Lightning arcs did not seem to be falling around the thunder pillar, but Ning Cheng had not even had the time to look at his injuries, when an ancient aura that seemed to be as vast as the heavens itself penetrated into Ning Cheng's Sea of Consciousness.

This somewhat powerful and extremely strong aura, completely suppressed Ning Cheng to the point that he found it extremely difficult to breathe. But even so Ning Cheng was able to forcibly suppress this oppressive feeling, then laboriously taking a breath, he slowly moved his head up to look at the sky above the Thunder City.

Over the sky above the Thunder Domain City, there were misty blue lightning arcs flashing that seemed to cover the heavens above. They looked like countless snakes formed from lightning moving about in the sky, which could fall at anytime and anywhere below.

It seems that the violent aura brought out by his True Cosmic Devil Axe seemed to have agitated the aura flow, which made these lightning snakes become even more unstable. Seeing this Ning Cheng immediately put away his True Cosmic Devil Axe. It was only at this time, did he discover that his injuries were quite terrible, and this was merely on just passing through the lightning net at the front entrance only once. It was as if his body had been battered to the point that it was now no better than a rag in general.

Although with the help of Mysterious Yellow Origin, the wounds were no longer bleeding, but because he was covered in bloodstains, combined with his clothes and skin hanging over his body in tatters, it made him look horrible to look at. Moreover looking at his back and shoulders, that had taken the brunt of the lightning strikes, one could see that it had been burnt to the bone. One could even say that if he

did not have the Mysterious Yellow Origin, then perhaps he would not be any different from a person who was tortured and hung for several days.

Such a terrifying lightning net, Ning Cheng thought as he shuddered in his heart. Although he had managed to pass through this lightning net in just an instant, but even then he could feel that the strength and intensity contained in it was far less than the memory of his Thunder Tribulation. If he had not been inside the Law's Way, then when he successfully cultivated all the way to the Profound Core Realm, and then attempted to cross the tribulation, wasn't it highly possible if even his ashes would be left behind, right?

In this place, he at least had a chance to catch his breath.

The aura from the Mysterious Yellow Origin, with its fastest speed, repaired Ning Cheng's body, and at this moment Ning Cheng was just about to bring out another robe to put on, when 7 or 8 lightning arcs that were even thicker than chopsticks fell down towards him. Ning Cheng had that thought that this place seemed to a bit safe, so then why would lightning arcs suddenly began to fall?

He could just barely bring out his Profound Break Spear, and casted out a spear shadow to resist it a bit.

With a 'crack' sound, Ning Cheng's Profound Ice Spear Shadow was directly pulverized into nothingness, Ning Cheng whose body had still not yet healed completely, was once again struck by the lightning arcs. Immediately adding another serious injury to an already seriously injured body.

Ning Cheng quickly departed from that place, he felt that at this time not changing robes was already a secondary matter, in this place, if he stopped to change his robes, those lightning arcs would once again descend on him quite quickly.

After a change of position, Ning Cheng had only enjoyed a few breadths of peace when the next moment lightning arcs once again began raining down. Moreover, this time it was even more violent than before.

After experiencing these kinds of things a few times, Ning Cheng summed up a rule about this place. One can only stop and stay at a place for no more than three to five breaths of time, otherwise they would have to deal with the lightning arcs that would fall on them. Moreover, if one continued to stay in that place to try to block the lightning arcs, then the bombardment of the lightning arcs would actually become even more intensive and more powerful than before.

Even so, Ning Cheng still felt that it was becoming more and more difficult to resist them. It seemed that as long as he took even a single step forward, he would be ground to dust under the constant bombardment of these seemingly endless lightning arcs. He had even tried to take a step back, but found that once he back traced his steps, the lightning arcs that were streaking across the sky above the Thunder City would become even scarier. Moreover, the farther he went; the interval in which the lightning arcs did not fall was getting shorter and shorter, there were some places where he only found respite for just a single breath, before he was forced to once again change places.

Ning Cheng's injuries were also getting heavier and heavier, although he was able to recover a bit by swallowing a few healing pills, but he knew that he would not be able to go on like this. If he continued on this path, then he certainly would turn into slag eventually.

As for hiding inside his ring, he more so did not want to think about it. He had already seen the remains of the bones outside the Thunder Domain City when he had just made his way in, but he was not even able to see a complete skeleton among them. Not to say mention about complete skeletons, even magical weapons, rings and the like, he was not able to see even the slightest trace of it.

One can imagine that anything in this place, as long as it was something that came from the outside, would eventually turn into slag under the constant bombardment of the lightning arcs of the Thunder Domain City. Once he hid inside the ring, then the ring would be the one subjected to the bombardment and would ultimately disintegrated into slag.

“Peng” Ning Cheng was once again sent flying by the bombardment of several lightning arcs, and hit the top of a white coloured thunder pillar. This white coloured thunder pillar had a completely white surface, but the inside of the pillar was actually filled with lingering thunder lights. It seems that in the Thunder Domain City, each piece in every place, all of them seemed to have this kind of terrifying thunder source inside of them.

This time Ning Cheng actually decided to follow according to what Lu Fei had conveyed to him, as he turned right from this white pillar. Sure enough, although he was still bombarded after a few breaths, but the lightning arc’s intensity was actually a lot lighter than before. Not only had that, but he even had more than 10 breaths of time for rest.

It appears that Lu Fei had not been lying about this at all, Ning Cheng thought during his short break. During this time, he started to organize his storage ring for defensive magical weapons. If he did not have a defensive magical weapon and just relied on the 36 Profound Ice Spear Technique, then he could very well imagine that, it would be very difficult for him to survive in the Thunder Domain City.

Inside the ring, there were quite a few of defensive magical weapons, shields, seals, copper bells, sulphur fans and so on.

However, because the level of these defensive magical weapons was not high, the highest being nothing more than a low-levelled Spiritual Artefact, Ning Cheng had not been much interested in refining them; however, at this moment he felt that these were incomparably precious and extremely useful.

After avoiding the descent of the lightning arcs and gaining additional free time, Ning Cheng immediately began refining these defensive magical weapons. No matter how lousy was the defence provided by these defensive magical weapons, he did not give up.

.....

Lu Fei and Chai Chudie, at this time, had finally arrived at the entrance of the Thunder Domain City. The two of them teamed up and brought out a round shield each covering both of them up, while simultaneously also brought out their respective attack type magical weapons.

However, what was different from Ning Cheng was that the people’s round shields and attack type magical weapons were perfectly countering the lightning net at the entrance of the Thunder Domain City.

This lightning net had just a few moments before severely injured Ning Cheng, but for these two people, they only suffered a few minor injuries, while consuming a bit of their True Essence.

“This kid really is quite tough, to actually see him run around in the depths of the Thunder Domain City. If I had not told him about the method to navigate in here, then this kid might have already perished inside the Thunder Domain City.” Lu Fei stared at Ning Cheng’s back that was far away from him with a vague sneer on his face.

Chai Chudie suddenly spoke, “I thought that he does not have defensive magical weapons, so how come he now has so many defensive type magical weapons now? Moreover, he also seems to have suffered serious injuries, but is still able to move forwards, he really is a freak.”

Seeing Ning Cheng from time to time bring out a variety of magical weapons to resist the bombardment of the lightning arcs, and then throwing them away when they were destroyed under the bombardment before bringing out another one, made Chai Chudie a bit surprised. She had also clearly seen how badly Ning Cheng was injured in the Thunder Domain Marsh, and had thought that Ning Cheng did not have any defensive magical weapon on him, but what she had not expected was that this guy would actually have so many defensive magical weapons on him.

Lu Fei grunted and spoke, “I really don’t know how many people he had killed and robbed to have this many defensive magical weapons. It should be because he was afraid of being recognized outside, and as such did not dare to use them, but now that he is inside the Thunder Domain City, if he did not bring them out, then the only result would be his death. Let him open up a path in front of us, we will wait till he reaches the centre, by that time he would finally realize what is going on. Let’s just hope that he is able to last through the two days.”

.....

With the help of many defensive type magical weapons, Ning Cheng was more or less relaxed; at least he was not the same as he was before when he had just entered, even though his injury was continuously aggravating.

However, Ning Cheng was also very clear in his heart, that this situation was only temporary. Once his stash of defensive magical weapons was finished, he would once again fall into the same situation like before. Before such a situation can occur, he must find a good way out of it.

Ning Cheng simply did not dare to use the Profound Break Spear to directly clash against the lightning arcs, and only brought out spear shadows from time to time to block the lightning, otherwise his Profound Break Spear would have long since turned to fragments.

Since he had already arrived at this place, Ning Cheng already had no way out. If he retreated even a small distance back, the lightning strikes would become even more aggravated. Because of which Ning Cheng had no other choice but to step forward, while continuously trying to come up with ways to block the lightning arcs of this Thunder Domain City in the most effortless manner.

“Katcha.....” A frail yet brittle sound immediately sounded out, Ning Cheng’s facial expression immediately turned gloomy, as this was his last defensive great seal, which was now completely torn open after being struck by the thunderbolt. Which also indicated, that from now on, he no longer had a defensive magical weapon available.

From the time he had entered the Thunder Domain City, it had already been roughly two days, Ning Cheng felt that other than gaining a slight bit of skill in resisting lightning, although there were some other areas that had improved a bit, he was actually not able to obtain anything.

Since it had already come to this point, then he now had to do everything in his power to resist the lightning in order to survive.

“Ka Ka....” Once again, two lightning arcs streaked down, this time the lightning arcs were no longer the thickness of chopsticks, but rather these lightning arcs had the thickness that was slightly thicker than one’s thumb.

Fortunately, this time there were only two lightning arcs, Ning Cheng was able to instigate his True Essence to use his Profound Break Spear to block it. The resulting backlash forced Ning Cheng directly to the side of a grey stonewall.

“Crash.....” With a loud crash sound, Ning Cheng hurriedly moved to the side, he found that a stonewall that he had knocked into turned out to actually be a door that he had accidentally broken open. Moreover, this stonewall seems to have appeared out of thin air, completely without any previous sign.

Ning Cheng stared at this door in puzzlement; he could feel a familiar sort of tugging coming from whatever was behind this door. Not waiting for Ning Cheng to continue to examine the inside, an intense explosive sound of thunder spread out from the inside, Ning Cheng even saw a lightning arc that was as thick as his arm that seemed to have jumped from the bottom of the door making its way to the top.

“Brush....” Together with a majestic looking greyish glow that caught Ning Cheng’s attention before he split away from the stone door. Almost at the same time, Ning Cheng could also feel that it was aimed right at the top of his head.

“Let you be the sacrifice for the city.....” Lu Fei’s sneering voice immediately spread out.

Because Ning Cheng had bumped into the stone door, which had caught his attention, he in turn was not able to notice the arrival of Lu Fei. Not to say that he already was a spent force at the moment, even if he would have been at his peak, if he wanted to kill Lu Fei then he would have to pay with his hand and feet to accomplish it.

“You can also go in....” Just as Lu Fei attacked Ning Cheng, almost at the same time, a red light immediately blew up behind Lu Fei.

What Lu Fei did not expect was that Chai Chudie would unexpectedly make a move on him. Looking at the change in temperament, he knew that this woman had put up a false front in front of him. If he had known about it beforehand, he would have never chosen to cooperate with Chai Chudie.

Because of Chai Chudie’s attack, Lu Fei’s attack on Ning Cheng, the grey light had already dimmed down in just a twinkling of an eye, because of a lack of strength.

“Boom.....” True Essence bursting out, Ning Cheng immediately used his Profound Break Spear to block Lu Fei’s attack. Originally, Ning Cheng had intended to bring out his Soul Essence Puppet, but was stopped by his own thoughts when he saw Chai Chudie taking the initiative to attack Lu Fei.

The Gate Of Good Fortune

Chapter 233: Cyan Stone Sphere

Ning Cheng was also surprised in his heart; in his heart the impression of Chai Chudie was that she had a nature to follow other's lead, and was not good at machinations or scheming. Although if Chai Chudie and Lu Fei cooperated, then the one who would certainly be at a loss would actually be Chai Chudie. Nevertheless, he had not thought that Chai Chudie would be the first person to actually initiate a surprise attack. This in turn gave him a wakeup call, that in this kind of a place, one must never go with the first impression of their opponents.

"Bitch, die for me..." Lu Fei immediately released a dazzling white light, which immediately flashed towards Chai Chudie; Ning Cheng who was still on the side nearby could see it clearly. Unexpectedly Lu Fei did not use this dazzling white light to block Chai Chudie's red light that was intent on splitting him. Because of which even though that red light passed through that dazzling white light, it reached Lu Fei in order to cleave him apart.

"Peng....."

That dazzling white light immediately exploded on Chai Chudie's body, but just before the explosion, Chai Chudie's robe suddenly rippled, immediately transforming into a huge round cocoon. When that dazzling white light and cocoon collided together, a terrible explosive sound erupted. Ning Cheng quickly casted out 36 Profound Ice Spear Shadows using it as a shield in front of his body.

Even though Ning Cheng was relatively far away from them, the aftermath of the explosion almost disintegrated Ning Cheng's 36 Profound Ice Spear Shield that he had put up in front of him. Fortunately, he just had to face the aftermath of the explosion. Just as Ning Cheng's 36 Profound Ice Spear Shadows finally blew open, it soon dissipated without a trace.

With another popping sound combined with a shot of white light, Ning Cheng then saw that Chai Chudie was now completely naked, exposing her pure white skin in all its glory. It looked like her clothes disintegrated into nothingness during that explosion.

Although Ning Cheng was secretly on guard, but in his heart, he was thinking that while he was on Earth, he had seen many extremely beautiful women in advertisements, but he was certain that he had never seen a woman's skin as beautiful and as mesmerizing as that of the woman in front of him.

What made Ning Cheng unable to take his eyes off her was that there was a three-inch long cyan coloured crescent moon patterned tattoo just below her belly button. This blue crescent moon pattern was even flashing with a hint of lightning, which seemed quite similar to the lightning arcs that surrounded the outside of the Thunder Domain City.

Although Ning Cheng had not seen many A-rated movies in his life, but it was also not the first time for him to see the splendour of a woman's naked body. However, what he found even more amazing was the crescent moon pattern that was faintly flashing with lightning on Chai Chudie's lower abdomen. His intuition told him that, this Crescent Moon was absolutely not something like a rune of some sorts.

After taking a looking at the cyan coloured flashing lightning on the lower abdomen of Chai Chudie, Ning Cheng was shocked to discover that all the space around them, including the lightning arcs, had unexpectedly disappeared. Not only that, even the background also suddenly disappeared. It was as if

the three people were now standing in a completely independent space that was neither too big nor too small.

Just like a prick from an ice-cold thorn, eyes filled with dense killing intent swept over him. Ning Cheng knew that it was a gaze from Chai Chudie, but even so, he did not care about it. Chai Chudie was just a Profound Core 8th Level Cultivator; as such, he was not afraid of her in the slightest.

Nevertheless, he did not continue to look at the lightning crescent moon pattern on Chai Chudie, because he found that Lu Fei was still able to block that red light, at least for the time being.

That red light was just like a slowly moving guillotine in general, as such even though it had reached the centre point between Lu Fei's eyebrows; it slowed down just at the end but actually did not stop. If anyone looked from the side, it would seem as if this red light had locked Lu Fei in place, while his face turned increasingly pale. There were even fine traces of steam coming out from the top of his head.

"Chai Chudie, you slut, if it was not for me, would you have been able to come here? You unexpectedly want to pocket everything, even if I have to die, I will not let you go, slut, go rot in hell..." Lu Fei at this time completely stirred up every ounce of True Essence in his body. At the same time, the edge of the red light that he had been resisting with all his might had finally drawn a trace of blood from between his eyebrows, as he simultaneously rained abuses and curses.

Chai Chudie spoke out in a cold tone, "Lu Fei, keep your delusions to yourself. You had deliberately taken me on a rouse to find the Central Refining Array Diagram of the Thunder Domain City, but the fact was, that diagram was something that you had brought previously for your own personal use, don't think that I am not aware of it? Just like how you wanted to sacrifice Sikong Kai, whom you considered as an ant, for obtaining the city. If not for him then I would have been the one to be offered as a sacrifice, right?"

"Elder Brother Sikong. Let us join forces and deal with this slut Chai Chudie, you can even do her, you can begin whenever you want? I promise to give you half the benefits of the Thunder Domain City. Moreover you can also take this woman as your plaything." Lu Fei on seeing Chai Chudie understand her intentions suddenly turned his vision towards Ning Cheng and spoke up.

At this point, the edge of that red light had already penetrated his eyebrows by half a centimetre, and blood was starting to pour down his face, it was clear that he was enduring quite a huge amount of pain, moreover even if he wanted to move, he was not able to.

Although Chai Chudie was completely naked, she had still not put on any clothes, but even so, one could still feel the agitated True Essence in her body. One did not even need to use their Spiritual Consciousness to scan her.

Ning Cheng could easily see that the two people were going all out in order to control that red light. Lu Fei wanted to blow away the red light to escape, while Chai Chudie wanted to use this red light to split apart Lu Fei's body.

Ning Cheng calmly took out a healing pill as he leisurely swallowed it and spoke, "Whether I help you or not will depend on one thing, you said that you have the Central Refining Array Diagram of the Thunder Domain City, would you mind if I take a look at it? Just so as to confirm your words, once I see it only then will I think of helping you."

When Lu Fei heard Ning Cheng's words, he immediately hesitated. This Central Array Diagram was not something that he had actually found in the Law's Way. Rather his father was the one who had found it somewhere else, and then passed it over to him. He was well aware that he would never be able to rest in peace once he handed it over to this Sikong Kai.

As Ning Cheng took in his reaction, he gave a rather bright smile and spoke, "Elder Brother Lu, you seem to be covered in a lot of ink, it seems that red light would soon cleave you apart. Compared to one's small life, what is the use of keeping such a thing on you? Just look at how Chai Chudie is doing, she has even voluntarily stripped off her clothes and is just waiting for me to take care of this business, and yet here you are, the one who truly does not want to behave with integrity. While you continue with your inking, I am the one who would have to take care of people's business. Besides, I am just a Profound Congealing Cultivator, so you don't have anything to worry about."

"Pa Ta.." a sound emerged, as a jade piece fell at Lu Fei's feet, as Lu Fei also immediately spoke up in a laborious manner, "This is the jade piece you wanted, but I don't have the ability to send it over to you, you should quickly make a move, I would not be able to support myself for long....."

Ning Cheng just made a beckoning motion, and that jade piece immediately flew up and landed on his palm, but before he had the time to look the contents of the jade piece, both of them heard a cold but loud shout from Chai Chudie, "Go and die for me....."

In just an instant, the remaining True Essence in Chai Chudie's body immediately burst out, the speed of that red light also accelerated all of a sudden, and almost in just an instant submerged itself in between Lu Fei's eyebrows.

Lu Fei's eyes flashed with a trace of despair, as he roared, "Then let's die together...."

Gritting with pain, he brought out a small bead, which was oozing with an extremely violent aura, this bead had not even burst open, yet an extremely terrifying aura of destruction was crazily spreading out from it.

"Broken Core Pearl....." Ning Cheng's face immediately changed. He had previously used this kind of bead; just a single bead was more than enough to wipe out seven or eight late stage Profound Core Cultivators. Even if he had heaven defying abilities, it would be difficult even for him to escape from the range of the Broken Core Pearl's explosion. If it were any other place than the one he in, he would definitely be able to use his Twin Heavenly Cloud Wings to escape easily. However, the special space he was in was very small; he would not be able to escape in a short period.

"Broken Core Pearl." Chai Chudie also blurted out; even her voice was trembling uncontrollably as she spoke. The next moment, she unexpectedly brought out a Talisman out of thin air, clutching it tightly between her hands.

Crushing the Talisman, she disappeared with a flash of red light, while at the same time, a white ray of light that was even faster than the one before, shot out towards Ning Cheng.

What a vicious woman, not only did she use an Escape Talisman in order to escape from this place, she also did not forget to send out a killing strike against him. This was even after knowing perfectly well that, once caught up, he would undoubtedly die in the explosion of the Broken Core Pearl. With this, as to how much thinking had this woman given to killing him, was something that was quite clear.

Nevertheless, at this time, Ning Cheng did not have the time to think about it carefully, he knew that if he hesitated for even half a moment, he would not even need to think about it ever again. At this moment, apart from going through the door that he had crashed open, the stone door with crisscrossing lightning, he did not have any place to escape.

At this time, Ning Cheng did not hesitate and immediately wielded the Twin Heavenly Cloud Wings to dodge the white light from Chai Chudie as he immediately stormed through the stone door with crisscrossing lightning. If he had to go through the Stone Door, then at most he would only have to resist the lightning strikes for some time and then come out, by that time the explosive aura from the Broken Core Pearl would have already dissipated.

Just at the moment that he went in, he was able to see, with the help of his Spiritual Consciousness, Lu Fei finally torn apart into two halves by the attack from Chai Chudie, who had already escaped. In just a tiny fraction of a moment, an extremely horrifying explosion rang out, at which point he was no longer able to see anything with his Spiritual Consciousness.

Fortunately, Ning Cheng had not forgotten where he had entered, although he had not come to this place before, he knew that the lightning arcs that crisscrossed inside here were as thick as thumbs. Therefore, the first thing that Ning Cheng did as he rushed through that stone door was to cast out his 36 Profound Ice Spear. He had to try to survive until the explosion from the Broken Core Pearl had dispersed before he could go out.

But Ning Cheng immediately became shocked as he put away his own Profound Break Spear, as just now he had discovered that the thumb thick lightning arcs that were crisscrossing inside had long since disappeared, and there was only one thing remaining apart from the stone door. It was a cyan coloured stone ball with a diameter of about half a meter, moreover this stone ball did not have any support to it, and was suspended in air about 1 meter above the ground.

On the surface of this cyan coloured stone ball, there were flashes of lightning that seem to cover its entire outer surface, and with just a look, one could immediately tell that it contained a terrifying Thunder Origin Aura inside it.

Earlier when he was outside, he could only feel a somewhat familiar yet extremely vague tugging in his heart, but when Ning Cheng came inside at this time, he immediately came to realize that this tugging in his heart was actually because of a trace of resonance that seemed to be originating from the Mysterious Yellow Origin.

Did this cyan coloured stone ball really have Origin Aura contained within it? Could it be possible that it was the Thunder Attributed Origin?

Ning Cheng recalled the Water Origin Bead that he had acquired from the bottom of that seemingly ordinary river, and about the words spoken by that skeleton at the bottom of the blood river. He now knew that the Mysterious Yellow Bead needed five different kinds of Origins before it could form its own world. If this really was the Thunder Attributed Origin, then once he sent this Thunder Origin to his bead, then wouldn't he only be missing three more?

Ning Cheng immediately became excited in his heart, as he immediately sent out his spiritual sense towards this huge cyan coloured ball. He wanted to send this cyan stone ball into his Mysterious Yellow Bead.

However, what made him greatly disappointed was that even though there was a slight trace of resonance between this cyan coloured stone ball and his Mysterious Yellow Origin, he was actually not able to force it into the Mysterious Yellow Bead. Not only could he not send it in, there was even a vague sort of power seemed to reject Ning Cheng's subduing.

This Thunder Origin was not something that he can send into the Mysterious Yellow Bead; Ning Cheng immediately came to a realization.

Chapter 234: Treasure From Time Immemorial

Ning Cheng, for the first time, swept his Spiritual Consciousness into the jade strip clutched in his hand, which he had just taken out. This jade strip in all respects looked very ordinary and simple, but this was actually the ancient jade slip that had come from Lu Fei just before he died. This contained the Central Array Diagram for the Thunder Domain City's Refining Array Formation. At this moment, he wanted to study it thoroughly to find out what it actually did.

An ancient aura that seem to have originated from time immemorial and was quite similar to the aura spreading out from the Thunder Domain City immediately hit him. Ning Cheng, almost in an instant, realized that the ancient jade strip in his hand was the real thing; this kind of aura was simply that cannot be manufactured or created artificially.

However, this jade strip seemed to be incomplete, but even with such a case, Ning Cheng was still able to extrapolate a fuzzy meaning regarding the missing parts when he looked at it. The jade strip also recorded the particular method of walking around in the Thunder Domain City. The jade strip did not actually mention the method of refining the Thunder Domain City, but it did mention that at the centre of the Thunder Domain City, there was an Everlasting Blue Thunder Pearl. Only with the help of the jade strip in his hands could reach that place, otherwise, they would turn to dust by the bombardment from countless lightning bolts....

On reading this information, Ning Cheng's back immediately turned cold, as he broke out in cold sweat. He thought back to how he had ended up entering inside this place, the previous lighting arcs that criss-crossed each other at the entrance that were preventing him from entering had suddenly disappeared. As he thought back to the moment when he had entered inside this place, he recalled that just before he had entered the lightning arcs, that criss-crossed each other and were blocking the entrance had suddenly disappeared, because of which the Mysterious Yellow Bead inside his body was able to sense the Thunder Source inside this place. Unexpectedly, it was all because of the jade strip that was still in his hand when he had rushed in, fortunately he had not thrown the jade strip into his ring, rather had grabbed it tightly in his hand as he escaped to this place.

People really should not consider themselves as infallible aah, if not for Lu Fei and Chai Chudie's internal strife, even if he was in the possession of the Mysterious Yellow Origin, he would never be able to enter to this place.

Ning Cheng, only after binding the jade strip to the back of his own hand, did he start carefully looking at the cyan stone ball in front of him. Moreover, because he was still afraid of the criss-crossing lightning arcs appearing once again, he did not dare to put the jade strip back into the ring.

Although Ning Cheng was not able to make out the material used for crafting the cyan stone ball in front of him, mainly because of the lightning still lingering around its surface, but he was definitely convinced of one thing. This cyan stone ball in front of him was the Everlasting Blue Thunder Pearl that he had just read about, which was also the heart of the Thunder Domain City.

To refine the Thunder Domain City, it was necessary to refine this Everlasting Blue Thunder Pearl first.

Although Ning Cheng already had an inkling that with his cultivation level merely being at the Profound Congealing Realm, he would not be actually able to refine even a part of the Thunder City, nevertheless he still wanted to try it. Moreover, that Lu Fei and Chai Chudie were also cultivators at the Profound Core Realm; as such, their strength was not actually much higher than his was. However, since they already had this kind of an idea, it showed that there was still a slight chance to refine the Thunder Domain City in reality.

Even if in the end he was not able to refine it, it also did not matter much to him; it would not actually be a big loss for him to walk out of this place. Moreover he had also bound the ancient jade strip onto the back of his hand, as such if he wanted to come back to the Thunder City again or get out of it, he should not be bombarded with the lightning bolts right?

After making the decision, Ning Cheng immediately sat down under the Everlasting Blue Thunder Pearl, while at the same time sprayed out a mouthful of essence blood to form a canopy around him and the Everlasting Blue Thunder Pearl on top of him. Simultaneously, he also started injecting his Spiritual Consciousness along with his True Essence into this cyan coloured Thunder Sphere to start refining it quickly.

Ning Cheng had just made a connection between his mind and the Everlasting Blue Thunder Pearl, when he felt a violent tremor shaking up his entire body. The next moment, he could no longer call back his Spiritual Consciousness, the Spiritual Sense that he had sent out ended up sealed inside the cyan coloured thunder pearl. In other words, at this moment even if he wanted to walk out of that place, he would not be able to.

However, Ning Cheng did not panic, he found that as he began refining the Everlasting Blue Thunder Pearl, this cyan coloured Thunder Pearl instantly seemed to have made a connection with his Sea of Consciousness, and was even absorbing a bit of his Mysterious Yellow Origin. Nevertheless, Ning Cheng did not feel any danger from it, he believed that it would not pose too big of a problem for him.

Relaxing his mind a bit, Ning Cheng soon entered a state of profoundness; seemingly, endless Thunder Arrays surrounded the Everlasting Blue Thunder Pearl. Ning Cheng immediately chose to focus his thoughts on these Thunder Arrays and constantly branded them with his own imprint. The Mysterious Yellow Origin also continued to surround Ning Cheng's Sea of Consciousness nourishing it, co-ordinating with the pattern traces that Ning Cheng was able to gleam from the Everlasting Blue Thunder Pearl.

Time passed by slowly as he went through a seemingly infinite loop, 1 month, 2 months..... all of a sudden 6 months passed by.

In the space all around Ning Cheng, the lightning arcs criss-crossing each other once again re-emerged. The only place where there was no lightning arcs was the spot where Ning Cheng was sitting.

The outside of the Thunder Domain City restored itself to its former appearance, with lightning arcs once again surrounding it. A few cultivators would occasionally come here, but as long as they tried to enter the Thunder Domain City, without exception, the endless lightning arcs would bombard them to the point that there was not even the slightest residue left behind of them all.

One more year passed by, Ning Cheng was still refining the Everlasting Blue Thunder Pearl, at this moment; he himself did not know what was happening outside.

.....

Inside Ning Cheng's Miniature World, Grey Toottoot was munching on a plump Essence Raising Fruit that Ning Cheng had been growing inside, while Yan Ji was sitting by the side of the True Spirit Nectar Wash pond. A strange sort of Spiritual Charm surrounded her entire body, even the True Essence fluctuation coming from her felt as if it were growing increasingly restless.

The aura building up in her body was also growing more and more powerful every passing moment, to the point that it finally burst out from her body. Feeling this kind of aura, Grey Toottoot immediately stopped chewing on the Essence Raising Fruit, as he focussed his vision on Yan Ji's body.

Just at this moment, Yan Ji's entire body shook violently, as faint multi-coloured radiance started condensing on the top of her head. Finally, the multi-coloured radiance became more and more solid, before it shaped itself into a core shadow.

The Spirit Stones, which Ning Cheng had kept in his ring, seemed to have gone crazy because of something, as they turned into a Spiritual Qi Mist, rushing towards Yan Ji. This Spiritual Qi Mist tunnelled into Yan Ji's body, causing Yan Ji's True Essence to grow even more powerful.

This continued for almost an hour, before Yan Ji suddenly issued a soft cry as a ray of light shot out of Yan Ji's mouth. At the same time, a faint golden coloured spherical core also shot out of her mouth, the aura emanating from this golden spherical core was even more horrifying, it gave the feeling that as long as it burst open, then everything inside Ning Cheng's ring would turn to dust.

Fortunately, Yan Ji's Golden Core hovered over her head for only a short while, before she once again swallowed it up. Even the powerful True Essence fluctuations that surrounded her were now gradually dissipating; even the Spiritual Qi that was being absorbed was also thinning out.

After Yan Ji swallowed the Golden Core, Yan Ji's face once again was restored to her original dazed expression, it was as if the events that had happened a moment before were not her doing at all.

If Ning Cheng were here, then he would have certainly realized that Yan Ji had actually managed to form her Golden Core without using a Profound Life Pill, and had successfully stepped into the Profound Core Realm.

Without a pill to help in the formation of the Golden Core for a cultivator, it definitely showed that cultivator had top class qualifications among the top class qualifications. Even though Yan Ji was a core disciple of the Blue Cloud Academy, in the absence of a top tier cultivation method, one would not be

able to condense their Golden Core without the help one would receive from pills. Only then would they be able to advance from Profound Congealing Realm to the Profound Core Realm.

If Yan Ji still had her complete mental faculties, she would have certainly understood what had transpired. It was because the True Spirit Nectar Wash has completely washed clean the impurities from her body from the inside out, which made her advance to the Profound Core Realm in a natural manner.

Yan Ji had already been stuck at the Profound Congealing 9th Level for a long time, the reason she had not advanced to the Profound Core Realm until now, was not that she could not advance, but because she wanted to accumulate more experiences over a period, to create a more solid foundation for herself. Now that her foundations were already solid enough, combined with the True Spirit Nectar Wash scouring her body clean, it had ended up unconsciously enhancing her perception and understandings. Because of all this, advancing to the Profound Core Realm was just the natural course of action.

.....

“Pa Ta” A subtle sound resounded in Ning Cheng’s Sea of Consciousness, causing Ning Cheng to open his eyes suddenly, as a vast amount of information poured into his mind.

He finally was able to communicate with this Thunder City, although he had not actually refined the Thunder City, but he now knew that he did not need to continue stay in this place and continue with the refining. What he had actually communicated with was the first layer of restriction of the Thunder City, which made him realize that with his cultivation at present, if he wanted to refine the Thunder City in its entirety, then even if he had countless years to do so, he may not be able to succeed.

The Thunder Domain City was not its original name, and was originally called as Everlasting Blue Thunder City, but not only was he not able to determine from which era did it originate, he was also unable to determine why it had appeared here originally. However, Ning Cheng had received a vast amount of information from it, and from it, he was able to find a few clues.

In an extremely faraway place, this Everlasting Blue Thunder City was involved in terrifying war of enormous proportions. In that war, countless extremely strong powerhouses perished, countless magical weapons ended up destroyed, and even countless planets ended up annihilated.

From the vast amounts of information, Ning Cheng was able to make out a blurry outline of a person raising his hand sending out a punch that completely obliterated a planet out of existence. Seeing that scene he had almost cried out in shock, this kind of power was simply too horrifying. However, what was even more horrifying was that this kind of almighty figure actually ended up annihilated by a single purple spear....

Ning Cheng kept reminding himself that this was not a movie; this was the Everlasting Blue Thunder City’s real projection. Otherwise, he would never believe that the scenes that he had seen were actually true.

The entire Everlasting Blue Thunder City was emitting a glow of thunder and lightning, as it collided with the extremely powerful magical weapons of those experts. However, the Thunder City was simply too powerful, causing some of the magical weapons to directly shatter, while the endless lightning arcs surrounding it scattered the rest away.

This Blue Thunder City was simply too powerful, Ning Cheng had just come up with the notion, when a horrifying tearing sound could be heard from a distance. From the information that he had obtained, although incomplete, Ning Cheng was able to see the emergence of a black arrow, moreover this black arrow's target was the Blue Thunder City.

Although it was just a projection created from the incomplete information, yet the terrible power contained in it made Ning Cheng spit out a mouthful of blood. Immediately, a vague and indistinct shadow appeared around the Thunder City, as it moved to clash with that single arrow shooting towards the Everlasting Blue Thunder City.

That vague shadow ended up tearing open the void as it then disappeared into it, while simultaneously bringing along the Everlasting Blue Thunder City into the vast endless void.

Ning Cheng's palm turned clammy, as he witnessed just a mere hint of the killing aura that, if real, was more than enough to turn him into dust. With his cultivation at present, maybe as long as those powerhouses even blew a breath in his direction, it would be more than enough to turn him into dust.

That vague shadow that brought the Everlasting Blue Thunder City into the void should be the Device Spirit that resided in the fifth level of the Blue Thunder City, Ning Cheng concluded as he sucked in a mouthful of cold air. He knew that, even if it was an ordinary True Artifact, it was very difficult, almost next to impossible, for it to give a birth to a spirit. Nevertheless, the Everlasting Blue Thunder City already had a Device Spirit existing inside it, just what kind of a magical weapon was this?

It was regrettable that the Device Spirit seemed to have disappeared, leaving behind only this Thunder City in this place to assimilate the Thunder Source involuntarily.

However if it was not because of the grade less Blue Thunder City not having a Device Spirit, even if he could communicate with just one of the heavy restrictions on the Thunder City, would he be able to see even a part of the past information of the Everlasting Blue Thunder City?

This absolutely was a good thing, just as the saying goes 'how could one dream if they constantly avoided the night', Ning Cheng immediately cast out the entirety of his Spiritual Sense to deepen the communication with the Blue Thunder City, he wanted to bring this Blue Thunder City into his own ring.

In his view, since this Blue Thunder City seemed to be a treasure from time immemorial, it should have ability to shrink; with it, maybe he would then be able to take it into his miniature world. Besides, he can already communicate with one of the heavy restrictions, although he was very far from actually refining it, at least he would always be in contact with it right?

However, Ning Cheng soon realized that what he was attempting to do was futile; this Blue Thunder City remained motionless. However, at this time Ning Cheng was able to understand something, not to mention that he could only communicate with one of the heavy restrictions, but even if he completely refined the heavy restriction, he would not be able to take away the Thunder Domain City.

Those two people really were idiots, they actually wanted to refine the grade less Blue Thunder City, in the end wouldn't it only end up in them being victims? Other than bringing calamity on themselves, did they really think that they would be able to refine this Thunder Domain City? He himself had ended up taking more than a year, to the point of consuming himself, and yet the result was that he still could not

take the Thunder Domain City away, let alone refine it. If he had known this earlier, why would he have even bothered to waste his time in this place?

Ning Cheng assumed that he had already been inside the Law's Way for at least few years, as such continuing to waste his time in this place was simply unwise. Moreover, with this kind of terrifying thing, he could guess that even if he spent his entire life trying to refine this thing, he would not be able to refine it completely. Might as well leave this place, and get out first before thinking of coming back here again.

[The Gate Of Good Fortune](#)

Chapter 235: Arrest Warrant

He had already spent more than a year in this place, without anything practical to show for it, causing Ning Cheng to feel quite frustrated.

Thinking until here, Ning Cheng once again tried to communicate with the first layer of restriction that covered the Everlasting Blue Thunder City. Sending out his own thoughts towards it in order to create a communication link between the two, "If you have the ability to be carried away by me, and become my magical weapon, then in the future, as long as your device spirit is still alive, I will certainly help you in finding your device spirit."

Ning Cheng was not a crafting master, but he was aware that all the top class magical weapons had a spiritual nature of their own. Even if it lost its device spirit, the magical weapon would retain a part of its spiritual nature. If this Thunder Domain City could not understand what he meant then he could only forget about it.

Ning Cheng had just finished these words, when he heard a loud explosion of thunder, the next moment he found himself suspended in air as the surroundings all around him turned completely empty.

Before Ning Cheng could even react, he found that the Thunder Domain City had completely disappeared, and he was once again standing in the middle of the seemingly endless Thunder Domain Marsh. From time to time, there were few small lightning arcs falling down, but these lightning arcs, when compared to the ones he encountered while travelling through the Thunder Domain City, were simply not worth mentioning. He did not even need to use his Profound Break Spear, and could hold up all by himself against these small lightning arcs.

However, inside Ning Cheng's Zifu, other than the usual things, a layer of lightning from the Thunder City surrounded it. At this moment, the Thunder City had actually shrunk itself to the smallest possible limit and had made his Zifu as its home, suspended underneath the Mysterious Yellow Bead. Ning Cheng was quite surprised when he discovered that the Everlasting Blue Thunder City and the Star River, both were hovering side by side on the same level, rather than it being below the Star River.

"Let's see if it can be brought out" Ning Cheng thought as his gaze fell onto the Everlasting Blue Thunder City.

Because the battle image of the Everlasting Blue Thunder City had been imprinted in his mind, so Ning Cheng actually wanted to try to mobilize the Everlasting Blue Thunder City and have a look at it, moreover he was also quite curious on how powerful was this Blue Thunder City in the end.

However, what made Ning Cheng disappointed was that even though his thoughts definitely fell onto the Blue Thunder City, the Blue Thunder City was still motionless, without even showing half a reaction.

Ning Cheng sighed; evidently, his cultivation was too low. Wanting to control the Blue Thunder City was simply not possible for him at present.

It really was a pity, if he could control this Blue Thunder City to protect himself, then even if had to face off against a Soul Essence Cultivator, he would not be the slightest bit fearful.

However, now that he has taken away the Blue Thunder City, he could now continue with refining the Blue Thunder City at any time in the future. He did not believe that even after spending numerous years, he still would not be able to take control of the Blue Thunder City.

If he could successfully form his Profound Core and take control of this Blue Thunder City, then would the Thunder Tribulation even pose any threat to him?

With a wave of the Twin Heavenly Cloud Wings, Ning Cheng with his fastest speed rushed out of the Thunder Domain Marsh.

After coming out, the first thing, that Ning Cheng did was to bring out Yan Ji. He wanted to bring out Yan Ji so that she could follow him side by side, to try to initiate talks with her, with the hope that Yan Ji would be able to recover her sanity as early as possible.

“You have already condensed your Golden Core, finally advancing to the realm of Profound Core Cultivators?” Ning Cheng unblinkingly stared at Yan Ji, who was standing in front of him, while he asked his words in both amazement and disbelief.

Although Yan Ji, when compared to the people trapped in the bottom of the Blood River, was in a much better condition, but she still was muddle headed and confused. In such a situation, how was she able to advance to the Profound Core Realm all by herself?

Yan Ji still had that dazed and vacant look in her eyes as she looked at Ning Cheng; it was as if she did not understand what the words ‘Profound Core’ meant.

Ning Cheng scratched his head, and spoke in a somewhat helpless manner, “Junior Apprentice Sister Ji, if you are able to sense the way out, then why don’t you take the lead on the path ahead. I really do not want to stay inside this place anymore.”

Nevertheless, Yan Ji actually nodded her head in response to his words. Sensing a particular direction, she quickly started moving in that direction.

Ning Cheng also quickly followed Yan Ji. Although Yan Ji was now a full major realm higher than his own, along with her speed also not actually reaching her limits, they were able to fly for a long time. Ning Cheng also only needed a few waves from his Twin Heavenly Cloud Wings from time to time to keep up with her.

“Stop!” Seeing Yan Ji rushing towards a Natural Restrictive Mountain Peak, Ning Cheng quickly sped up and grabbed Yan Ji’s arm.

Yan Ji also immediately stopped, but still looked in a puzzling manner at Ning Cheng. Wasn't Ning Cheng the one who wanted her to find a way out of this place, she was just moving in the same direction as to what she was sensing.

Ning Cheng helplessly pointed to the Mountain Peak in front of them and spoke, "This Mountain Peak has a few restrictions covering it, and is also exuding a terrifying aura, showing that there definitely is a Class 6 monstrous beast residing in this place. If we rushed through this place, then it would surely alert that monstrous beast. So rather than going through this place, it would be better for us to go around it."

What once again surprised Ning Cheng was that Yan Ji actually understood his words. Sure enough, they circumvented the mountain peak in a short time and once again began flying towards the exit. Ning Cheng felt that as long as he and Yan Ji continued to chat with each other, maybe Yan Ji would be able to recover.

Yan Ji really was very intelligent, although she had not yet fully recovered her sanity; she was still able to understand what Ning Cheng meant. Because of which as they encountered any seemingly dangerous places in their path, they would immediately move to circumvent it before continuing to move forward.

Along the way, Ning Cheng also encountered many good spots with Spiritual Grasses, but because Ning Cheng had already obtained the Everlasting Blue Thunder City, and also found the True Spirit Nectar Wash, he was already very satisfied. At this time, he was only thinking about getting out of this place as early as possible.

A few days later, Yan Ji stopped in front of a vortex. One could simply not be able to use their Spiritual Consciousness to probe the inside of this vortex, but above the vortex, there were four characters suspended, 'Incomplete Primary Path'.

Ning Cheng could feel that the vortex was definitely the exit of the Law's Way, but he could not understand the words 'Incomplete Primary Path'. What was the meaning of these four characters? One came inside the Law's Way only for the sake of enhancing their cultivation, while at the same time pass through the Law's Way, simultaneously looking for heavenly treasures on the inside. Nevertheless, although it was extremely suitable to practice cultivation inside this place, but what put on more focus on the inside was to try to sense and cultivate the laws of Heaven and Earth. That was because inside the Law's Way, the Laws were actually more complete than the outside.

Why wait for them to want to go out after a period, only to let that person catch sight of the characters 'Incomplete Primary Path' in such a manner.

Yan Ji was standing right beside Ning Cheng, apparently whatever Ning Cheng wanted to do, she would definitely follow it to the letter.

Ning Cheng used his Spiritual Consciousness to sweep all around the characters 'Incomplete Primary Path' suspended above the vortex for a long time, but was still not able to find anything different. He grabbed Yan Ji's hand and walked a few steps forward towards the vortex.

However, immediately a powerful force pushed him back, while at the same time a powerful force latched onto Yan Ji trying to suck her in.

Ning Cheng was badly startled in his heart, as he quickly started circulating his True Essence, while at the same time forcibly pulled Yan Ji back.

It was only until the two of them were tens of meters away, did that powerful suction force finally disappear.

Ning Cheng finally realized something. He really would not be able to get out of this place through this vortex, but unlike him Yan Ji can easily get through it. It was because his level of cultivation was still not high enough, because of which this vortex could easily send Yan Ji out, but not him.

Thinking of this until here, Ning Cheng directly took off his ring on his hand, containing the miniature world inside, and put it on top of Yan Ji's palm and spoke, "I will be waiting inside the ring, while you directly jump into the vortex."

Seeing that Yan Ji really was able to understand the meaning of the words, Ning Cheng directly entered the miniature world inside.

Seeing Ning Cheng disappear inside, Yan Ji immediately rushed into the vortex. Ning Cheng also wanted to have a look outside with his Spiritual Consciousness, but he found that a formidable power seemed to be intent on completely suppressing his Spiritual Consciousness inside. Feeling a bit shocked, he quickly took back his Spiritual Consciousness, while at the same time giving up on thoughts of trying to observe the outside.

After a few breaths of time, Ning Cheng could now feel that his Spiritual Consciousness once again was able to come out, finding that there was no resistance; he immediately came out of the ring.

At this moment Yan Ji was the only person standing on a huge suspended bluestone platform not knowing where to go from here. Ning Cheng willed the ring back, and took out a flight type magical weapon and spoke, "There is a thick aura of Spiritual Qi here, so we should be at least at the edge of the Le Continent. I'll take you back to the Le Continent."

In this place, Ning Cheng could already feel a part of the familiar thick Spiritual Qi aura through his Spiritual Consciousness, so he could confirm that they had indeed come out from that place.

Looking at Yan Ji, a peerless beauty, standing by his side, Ning Cheng knew that as long as he returned to the Le Continent, then he must make Yan Ji go back to the Blue Cloud Academy. Otherwise, if Yan Ji kept following him, then it would not be a good thing for them.

Ning Cheng originally wanted to open Yan Ji's ring, to look for a scarf or a veil to cover Yan Ji's face. However, after thinking a bit, he decided that he could just use the Appearance Changing Technique to transform her into a somewhat good-looking middle-aged woman. At the same time, Ning Cheng also changed his appearance using the same technique to turn into an adventurer giving off a strong yet sturdy aura. These kinds of adventurer couples, in any continent, were synonymous to humble existences. Moreover, it was also not unusual for a man and a woman to adventure together. Just in case, Ning Cheng also deliberately sealed Yan Ji's cultivation to the Qi Gathering Realm.

Ning Cheng was afraid that someone would recognise him, and once again point him out to be a Devil Cultivator. Inside the Law's Way, there were very few people who he feared, but now that he came out, he was now an obscure yet humble existence.

.....

Dragon and Phoenix City, one of the largest cities in the Le Continent.

The reason why Ning Cheng had come back to the Dragon and Phoenix City once again, was that he had a few things that he had to accomplish in here, but first he had to deliver Yan Ji to the Blue Cloud Academy. The Dragon and Phoenix City absolutely would have a gathering point for the Blue Cloud Academy, the second task he had to accomplish was to search for Kong Pengpeng, and it was because he had promised to deliver something to Kong Pengpeng in this place. In addition, the third was that he wanted to visit Elder Sister Shu once again to give a part of the True Spirit Nectar Wash to Elder Sister Shu.

Looking like two ordinary adventurers, Ning Cheng and Yan Ji easily entered the Dragon and Phoenix City.

Ning Cheng after delivering Yan Ji wanted to go and search for a place to lie down, and then go find Elder Sister Shu. In his heart, one of the most trusted people was still Lan Shu.

However, just as a cultivator moved past him, a notice immediately caught his attention, and as his gaze fell on the content of the notice, he very nearly turned around to flee.

The words written on the notice were very clear, 'Wanted Devil Cultivator, Cheng Xiaoning. Cheng Xiaoning, formerly known as Ning Cheng, is a cultivator from the Jia Continent's cultivator army. This person inside the Law's Way let loose his berserk Devilish Nature, looting cultivators left and right. He enjoys killing people as if they were nothing more than flies, even seriously injuring Blue Cloud Academy's Core Disciple Yan Ji... After this person comes out of the Law's Way, any person that can provide any clue about him would be rewarded with a Best Quality Spiritual Artefact, along with 500,000 Spirit Stones... If he is captured, then the rewards.....'

Besides the front and side images of him, were also the emblems of the parties who had jointly issued the wanted poster, the Wu Nian Academy, the Blue Cloud Academy, the Gui Yuan City... There were also several Sects and Academies that Ning Cheng had never even heard of. In short, all the big shots including the few huge 9 Star Academies with the sole exception of the Dragon and Phoenix Academy were mentioned in there.

Ning Cheng's heart sank, the only people who knew that his real name was Ning Cheng other than Yan Ji who had come outside with him, was Jia Lingwei, Nalan Ruxue and Zhangsun Yan trio. Yan Ji has always been by his side, so obviously it was not her who leaked the information, so the only possibility was from one of the other three, in the end just who was the one who had revealed the fact that he was Ning Cheng?

Ning Cheng's gaze swept to the side at another arrest warrant pinned close to his own, but seeing that warrant flames of fury immediately exploded in his chest. 'Wanted Devil Cultivator Lan Shu, this woman and Ning Cheng are jackals from the same lair, and has been on the run from the Dragon and Phoenix Academy. She openly supports the Devil Cultivator Ning Cheng, and inside the Dragon and Phoenix City has openly killed disciples from the Gui Yuan City and Wu Nian Academy... Although this person was seriously injured in a clash with the Elders from the Gui Yuan City, but she was able to escape with her craftiness, if any person has news about her.....'

Reading the words 'Gui Yuan City' once again, Ning Cheng clenched his fists so hard that Ka Ka sounds could be heard from it, at the moment he just couldn't wait to start a killing spree in the Gui Yuan City, completely eradicate this Gui Yuan City from the face of this world. Elder Sister Shu certainly in order to defend his honour and prestige would have definitely killed those cultivators in anger, because of which an arrest warrant was issued in her name.

Just at this moment, two Profound Core Cultivators brushed past Ning Cheng's side, and Ning Cheng was able to hear one of them talk, "Next month, Gui Yuan City's Saint Child Yuhai and Wu Nian Academy's Nalan Ruxue are set to be betrothed, I still don't know what kind of gifts should I send....."

[The Gate Of Good Fortune](#)

Chapter 236: Crisis On Top A Crisis

These two men were Profound Core Cultivators, although Ning Cheng wanted to stop the two people and ask more about it, but with his current cultivation that he put on display was simply too far in difference when compared to a Profound Core Cultivator. If he really went out and recklessly tried to ask them about such a matter, then maybe one of them might have an idea to slap him dead.

After the two Profound Core Cultivators went into the rest stop in front of them, Ning Cheng pulled Yan Ji as he went to find a lower level Spiritual Tea Shop. Lower levelled cultivators and adventurers filled the lobby of this lower level Spiritual Tea Shop.

Although inside the hall, there were many cultivators, but most of the seats were empty.

Seeing that most of the cultivators here had a similar cultivation level, Ning Cheng finally sat down beside a Qi Gathering Cultivator who looked in a similarly worn out condition as himself. This Qi Gathering Cultivator was a female cultivator, and looked to be somewhere in the mid-thirties.

"This Senior Apprentice Sister, there are too many people here, hope you do not mind me and my companion take a bit of rest here." As Ning Cheng sat down, he spoke up while deliberately cupping his fists as he uttered those words.

"No harm in it, go ahead." The female cultivator nodded her head. It was a place where anyone can sit anywhere, so when Ning Cheng sat down and even politely called out a greeting, she was able to see his sturdy yet tiger like appearance.

As the voices of various discussions going on inside the shop were spreading around, Ning Cheng suddenly asked this female cultivator, "This Senior Apprentice Sister, me and my companion have just arrived to the Dragon and Phoenix City. On the way I heard a lot of people talking about the engagement between Saint Child Yuhai and Fairy Ruxue, is this really true?"

This female cultivator turned out to be kind in nature, so giving an 'En' sound she spoke up, "Of course it is true, Wu Nian Academy's Fairy Ruxue has recently came out from the Law's Way, because of a huge opportunity, she was able to directly advance to the Profound Core Realm in her cultivation. Moreover, Saint Child Yuhai, is one of the genius disciples of the Gui Yuan City, and has already successfully reached the peak of the Profound Core Realm. Just a single step forward and he can advance to the Soul Essence Realm. Because of which this engagement would truly cement the union of the two powerful 9 Star Academies. Once Saint Child Yuhai advances to the Soul Essence Realm, the two of them would immediately get married."

"I heard that Nalan Ruxue is one of the two people in the Le Continent, called as 'Twin Lotus Flowers On One Stock'. This Gui Yuan City's Gui Yuhai's luck sure is amazing aah." Ning Cheng spoke with a lamenting voice.

"You should really keep your voice down, Saint Child Yuhai's reputation is something that is only higher than Nalan Ruxue, and is definitely not lower than her. Have you not heard of the saying – 'Twin Lotus Flowers On One Stock, Sea Apple Blossoms, Heavenly Star, Riding Half a Cloud'? Saint Child Yuhai is a dragon amongst men, which female cultivator would not want to marry." The female cultivator replied in a whisper.

Ning Cheng nodded, "Thank you, Senior Apprentice Sister, I certainly have heard of this phrase before, it's just probably because I had seen Nalan Ruxue once before, so I really cannot understand Saint Child Yuhai's reason for waiting."

"You really saw Fairy Ruxue's appearance aah, you really are lucky." When the female cultivator heard that Ning Cheng had seen Nalan Ruxue, she immediately exclaimed out in shock.

"I just saw her from afar, at that time she was wearing a veil." Ning Cheng gave a deliberate chuckle as he spoke.

This female cultivator really seemed to very much like talking about such kinds of gossip, as such immediately spoke up, "Of course, no one has actually seen her appearance, even if it was Saint Child Yuhai. I heard that even he only had to see a portrait of her rather than her actual appearance. It really was unfortunate for Fairy Ji from the Blue Cloud Academy, if not for her being tainted by that despicable Devil Cultivator; maybe it would have been her...."

The female cultivator speaking until here felt that something was wrong, and quickly, stopped herself from continuing.

Ning Cheng seeing her actions waved his hand at a person in a distance, who was waiting over another person. Ning Cheng, with a very generous sounding voice, spoke up, "Can you help me out with 3 cups of Spiritual Tea?"

"What would you like to have?" The person hurriedly came over and asked.

Ning Cheng, using a finger and pointing to a name written over the board in front of him spoke, "We'll take the 5 Low Grade Spirit Stones per cup of Light Silk Leaf."

Hearing that Ning Cheng ordering a cup of Spiritual Tea that costed 5 low grade Spirit Stones for her, the female cultivator quickly stood up and gratefully cupped her fists towards him. Five Pieces of Low Grade Spirit Stones for a cup of Spiritual Tea; it can even be regarded as an equivalent to a medium grade Spiritual Tea. Ning Cheng also appeared to be an adventurer, and although an adventurer in the Le Continent would be able to earn 5 low grade Spirit Stones with some effort, but she had never seen a person use such an amount to drink Spiritual Tea, it showed that he absolutely was generous in his spending.

The Spiritual Tea also arrived quite soon, Ning Cheng after taking sip from it spoke up, "I know that Devil Cultivator called Ning Cheng, everywhere outside has arrest warrants with his name and face painted on."

The female cultivator's eyes showed a trace of fear as she spoke, "That's right; I heard that that Devil Cultivator is powerful beyond words. He being just a single man inside the Law's Way had killed more than 100 Profound Core Cultivators, and had even captured over dozens of female cultivators only for the purpose of ravaging them and stealing their yin essence. This Devil Cultivator is not only a demon that loves killing; he is also an extremely perverted devil. Even Fairy Ji ended up being controlled by him, to the point that he even forcibly wiped the consciousness of Fairy Ji."

"So cruel? Who was the one who brought out such kinds of news?" Ning Cheng quickly asked, while there was also a bit of regret in his heart for poking his nose into other's business so suddenly. Inside the Second Segment of the Law's Way, there definitely were people who committed robbery and murder in broad daylight. Because of which he really did not care much as they died by either his hands or others, but because of this thing, he ended up becoming a 'powerful Devil Cultivator' in the eyes of many, and even a 'perverted devil' for some. Moreover, how could he kill over 100 Profound Core Cultivators? Did they think that this story was a narration from the Classic of Mountain and Sea?

The female cultivator quickly shook her head and spoke, "Who knows if it is really true or not, but it definitely was brought out by a cultivator who came from the inside of the Law's Way. This time if that Devil Cultivator tries to come out of the Law's Way, then it can easily be guessed that the only path in front of him would be a dead end without any place to escape. Not only do the Academies from all the Advanced level and Intermediate levelled continents want to catch him, but also the people from the Yi Xing Ocean are involved in the efforts to catch him. I heard that he had also previously killed Yi Xing Ocean's Mu Imperial Palace's direct descendant, Shen Tuyun, this Devil Cultivator's courage really is quite large."

Speaking until here, this female cultivator suddenly lowered her voice to a whisper as she continued to speak with Ning Cheng, "You know what that Devil Cultivator called Ning Cheng did with Fairy Ruxue? He raped Fairy Ruxue, and....."

Ning Cheng really was shocked, this kind of talk really was something that he could have never imagined, as he quickly spoke up, "Such words really should not be spoken carelessly aah. Fairy Ruxue is a core disciple of the Wu Nian Academy, once even a word of it gets back to them; the only thing that would await us is death."

At this same time, a thought suddenly sprang up in Ning Cheng's mind; this female cultivator is the one whose courage is quite large aah, for even daring to say such kinds of words in such a place.

The female cultivator did not appear to be surprised, rather she still spoke in a whisper, "This is not something that I am cooking up, in fact, in the Dragon and Phoenix City there is hardly anyone that does not know about this, it's just that nobody dares to speak about it aloud. A few days ago, this thing was already brought to light in front of everyone. Saint Child Yuhai also issued an oath, that he would be the one who would capture that Devil Cultivator Ning Cheng to extract and refine his soul. Because he liked Fairy Ji from the Blue Cloud Academy a bit more, and just because Fairy Ji had lost herself to that Devil Cultivator Ning Cheng, allowing that Ning Cheng to take her chastity, he had to forcibly choose Nalan Ruxue. But what he had not expected was that Nalan Ruxue had also lost her chastity to that Devil Cultivator."

Ning Cheng could feel that this thing was really not as simple as it was looking on the surface, no matter who it was, the one who spread the news, not only were they plotting against him, it was also unfavourable for Nalan Ruxue. In the end who the hell was it? Moreover, why were they aiming at him?

After chatting with this female cultivator for a bit more, Ning Cheng thought that he must leave the Dragon and Phoenix Academy as soon as possible as continuing to stay here in this place was just courting death. As for sending Yan Ji to the Blue Cloud Academy, at this moment it really seemed to be an impossible affair.

.....

“Elder Sister Lingwei, these days I always feel uneasy, I don’t know why but Big Brother Ning and Senior Apprentice Sister Ji are still yet to come out from the Law’s Way. There were even a few who said that Big Brother Ning had refined Senior Apprentice Sister Ji into a puppet, but the first thought that came into mind was to not believe them.” In a brightly lit room, two women were sitting in front of each other with a frown on their faces; the one who was talking was a female cultivator wearing a red robe.

These two people were none other than Zhangsun Yan and Jia Lingwei, they had come out even earlier than Nalan Ruxue from inside the Law’s Way, but at this time, the two people had reached the Profound Core Realm in their cultivation.

Jia Lingwei sighed, she did not answer Zhangsun Yan’s words rather she really did not know how to answer her.

“Elder Sister Lingwei, didn’t you say that Big Brother Ning’s identity would not be compromised even if it was leaked by that woman Nalan Ruxue? I am still not convinced that this woman really knows the identity of Big Brother Ning, but still she is probably the only one who would be willing to say such things about him.” Zhangsun Yan spoke.

Jia Lingwei shook her head, “Ruxue definitely was not the one who spread this.”

“Why not?” Zhangsun Yan asked with confusion.

“If it was really Junior Apprentice Sister Ruxue who had made those accusations, then the intensity of the search for Ning Cheng would at least be ten times stronger than what it is now. Junior Apprentice Sister Ruxue knows that Ning Cheng and Junior Apprentice Sister Ji had fallen into the Blood River, you also know about it, moreover whoever falls into the Blood River can they even come out from it alive? Since they have not only fallen into the Blood River but have even survived it by coming out, it shows that they are aware of the hidden secrets of the Blood River.”

“The Blood River has always been one of the most mysterious existence inside the Law’s Way, and now they are the only ones who know the secret of the Blood River, just think of how many supreme existences would covet such a thing and would want to capture them? Why would so many people want to capture them? Maybe there would not actually be an arrest, but rather they would try to capture them in secret.” Jia Lingwei spoke in a sinking voice.

“Is that really true aah, I did not expect that Big Brother Ning and Senior Apprentice Sister Ji, would be able to survive and come out from inside the Blood River. This thing even if you told it to others, no one would believe it aah.” Zhangsun Yan exclaimed.

“Elder Sister Lingwei, from the notice you said that Big Brother Ning had forcibly claimed the chastity of Nalan Ruxue, do you know who was the one who deliberately spread this news? Would it not mean that it was an enemy of Nalan Ruxue who did this?” Zhangsun Yan’s mind was jumping to things a bit too fast, just a moment ago, she was lamenting about Ning Cheng, and in the next moment turned the subject around to Nalan Ruxue.

Jia Lingwei shook her head and spoke, “I’m not sure, I do have a person in mind, but I do not know if who I guessed is the one who did it.”

“Who?” Zhangsun Yan asked urgently

“Nalan Ruxue”

“Aah.....”

.....

The Gate Of Good Fortune

Chapter 237: Being Found Out

“Do you want to kill me and my elder brother?” A beautiful and slender female cultivator carrying a long sword in her hands coldly stared at a female cultivator blocking her path and spoke up.

Beside this beautiful and slender female cultivator was a simple and honest looking yet sturdy man, both of them were early stage Profound Congealing Cultivators. The female cultivator who was blocking their path was wearing a purple dress, with her face covered by a veil.

“Junior Apprentice Sister Yue Ying, you and your brother are my Wu Nian Academy’s two best disciples, with qualifications which are even better than mine own. Initially it was also me who had brought the two of you to the Wu Nian Academy, so why do the two of you want to leave the Wu Nian Academy?” The purple robed female cultivator spoke with a bit of sadness in her voice.

“Senior Apprentice Sister Nalan, thank you for bringing me and my brother to the Wu Nian Academy. If we were still in the Hua Continent, then we may never have been able to reach this point in our cultivation. But I and my elder brother are just going out to learn through experience, and never have said that we are leaving the Wu Nian Academy.” The female cultivator carrying the long sword calmly spoke up.

Obviously, this pair of elder brother and younger sister were none other than Yue Ying and Yue Yuanhua, and the one blocking them was none other than Nalan Ruxue from the Wu Nian Academy.

“I am very well aware of your thoughts, although you say that you are going outside the Academy to learn through experience, you would not be coming back to the Wu Nian Academy, and will even try to leave the Le Continent.” Nalan Ruxue suddenly sighed, and once again continued, “Junior Apprentice Sister Yue Ying, you should be blaming me for not making a move to help Ning Cheng, right?”

Until a few days back Yue Ying used to call her respectfully as ‘Senior Apprentice Sister Ruxue’, but now she directly went ahead and changed the form of address to ‘Senior Apprentice Sister Nalan’, how could Nalan Ruxue not understand the underlying meaning behind such an address?

Yue Ying spoke with a calm voice, "Big Brother Ning had bestowed me with a life saving grace, if it was not for Big Brother Ning, then I would have met a miserable death back inside the Angry Axe Valley, I will definitely not stay in the same place that has a hand in the death of my saviour. Moreover, Senior Apprentice Sister Nalan you yourself do not want to marry that Gui Yuhai, so there is no need to spread such vicious words for Big Brother Ning, right? Big Brother Ning is also not a Devil Cultivator, Senior Apprentice Sister Nalan you also are well aware of it. Big Brother Ning has also never done those kinds of things being spoken about him, you the so called Senior Sister Apprentice of ours should know it much better than anyone else."

"If Big Brother Ning had even the slightest of chance to live before this, now because of these rumours, it is as good as serving his life up on a silver platter. Senior Apprentice Sister Nalan, I have been very respectful towards you in the past, but you just for your own sake, would use such sinister means on an innocent man. Today, I and my Elder Brother are standing here, if you really want to kill us then go ahead and kill us, I and my brother will absolutely not show even a slightest frown."

"What rumours?" Nalan Ruxue asked, but she immediately understood what might have transpired from the words spoken, as she spoke in a whisper like tone, "I was not the one who spread those rumours....."

She in this moment remembered the conversation she had with her master previously, "Ruxue. I know that you have focussed your mind on cultivating the Dao. However, Gui Yuhai is one of the premier geniuses of Gui Yuan City, it certainly would not be wrong for you to be matched up with him. Besides, the Wu Nian Academy of today is not the Wu Nian Academy from back then, even some of the 8 Star Academies have caught up to our Wu Nian Academy."

"If we don't form an alliance with the Gui Yuan City, then in the future there would definitely be restructuring of the powers within the Le Continent, and at that time it would certainly pose adverse ramifications to our Wu Nian Academy. Fortunately, Yan Ji ended up wasted by Ning Cheng, or at least in words. As a result impacting the marriage between Gui Yuan City and Blue Cloud Academy, forcing us to turn even more passive."

"Master, that Yan Ji might not necessarily be willing to marry into the Gui Yuan City. Not to say about others, but I myself am reluctant to enter into Dual Cultivation this early. I still want to go to the Tian Continent, because that is the place that I have long since wanted to go."

"Humph, if she comes out safe and sound, do you think that the Blue Cloud Academy will allow her to do what she wants? You going to the Tian Continent is also something that does not matter. Now that the Yi Xing Ocean and the Nine Continents of the mainland have reached an agreement, they are in the process of jointly constructing the Transmission Array to the Tian Continent. As long as we keep the status of the Wu Nian Academy, then how can the quotas for my Wu Nian Academy to the Tian Continent be low? To put it this way, for it to happen we have to maintain our status as a 9 Nine Star Academy. If you end up offending the Gui Yuan City, then Wu Nian Academy would be immediately put at a disadvantage. In that situation it is very possible that the benefits we would receive would be much less than the others."

"Moreover these benefits not only relates to the benefits of number of people going to the Tian Continent, but also involves the benefits of the distribution of the cultivation practice resources for the

journey to the Tian Continent. Of course, if you have already steeled your heart and be unwilling, I will definitely not let my disciples be wronged.”

“Master, is there any way to let Gui Yuhai voluntarily take the initiative to give up on marrying me?”

“The fact is, it was not Gui Yuan City who were actively seeking out a marriage with us, but rather it was our own Wu Nian Academy who brought it up. How can that Gui Yuhai take a fancy to ordinary people, other than the Twin Lotus Flowers On One Stock, it would be impossible for anyone else. However, for Gui Yuhai to voluntarily give up on you, it is not something completely impossible. Although it might be a bit disadvantageous for my Wu Nian Academy, but it might turn out to be even more disadvantageous for you aah.”

“Master, what is it?”

“Using dirt. That Ning Cheng has also taken advantage of you; you will have to use him to bring out the dirt. With that being the case, and Gui Yuhai being hailed as the god’s favoured son, would absolutely not continue to mention about this matter. In addition, as long as that Ning Cheng comes out, he would certainly be killed by Gui Yuhai. Even if that Gui Yuhai does not mention about the marriage, with his pride, he would certainly not let that Ning Cheng alive. Since my Wu Nian Academy and the Gui Yuan City cannot enter into a marriage with each other, then we might as well not let that Yan Ji from the Blue Cloud Academy have a happy ending.”

“But Master, that Ning Cheng had even saved my life....”

“You are still young, how can we let you get on with that kind of Devil Cultivator? Look how good of a relationship he and Yan Ji has on the surface, but behind it, it was Yan Ji who ended up getting enchanted, it shows that this person is heavily deceitful and likes to commit adultery wherever he goes. Otherwise, why would he save you who is a complete stranger, fortunately I was able to arrive there in time.”

Thinking about that conversation, Nalan Ruxue gave out a dark sigh in her heart. Unfortunately, even though her master had deliberately helped her in releasing such scandalous rumours of losing her chastity, that Gui Yuhai still wanted to continue with the engagement with her.

“If Senior Apprentice Sister Nalan Ruxue does not want to kill me and my brother then please excuse us.” Yue Ying stared at Nalan Ruxue who seemed to be deep in her thoughts and spoke out without even a shred of humbleness in her tone.

“Take care.” Nalan Ruxue was still thinking about her own affairs, and was in no mood to persuade Yue Ying and Yue Yuanhua to stay back. At this moment, she was like a mud Buddha trying to cross the river.

.....

Ning Cheng had just made his way out of the Spiritual Tea Shop along with Yan Ji, when a low yet deep voice sounded in her ears, “Come with me.”

Once he heard this voice, Ning Cheng immediately understood that this person was none other than Kong Pengpeng. He surprisingly found that Kong Pengpeng was able to recognize him, while at the same time a thought arose in his heart, how was Kong Pengpeng able to recognize him?

Still Ning Cheng quickly followed Kong Pengpeng to a remote corner of the street, and anxiously asked, "General Kong, how were you able to recognize that it was me?"

"You kid, seem to really like playing with death don't you aah, even daring to leisurely walk inside the Dragon and Phoenix Academy, do you know how many times you would have died if you were caught? Now not just the 7 Star Academies, but even people from the 8 Star and 9 Star Academies want to kill you, the number of people who want to kill you are simply too huge to even make a count, you should escape from this place, hurry up and give it to me, and escape. The farther away you can get yourself from this place the better." Kong Pengpeng laid out a simple Isolation Restriction, and spoke in the same breath.

Ning Cheng had already realized that he was in a very dangerous situation currently, but he still calmed himself down.

Kong Pengpeng's tone also eased up a bit as he spoke, "Although you have disguised yourself as a Qi Gathering Cultivator, but are walking down the street with a Profound Core Cultivator beside you. Your concealment technique really is good, even I cannot see through it even though I am standing right in front of you. However, with this woman around you, any person with a high enough cultivation would be able to make out with just a single look that the reason why she is not able to bring out even a shred of resistance and is obediently following beside you is because her cultivation is sealed up. Compared to those old monsters, you are still too young."

Finished speaking, Kong Pengpeng took out two Talismans and handed them to Ning Cheng before speaking, "This is a Level 7 Escaping Talisman, I can occasionally get my hands on one of them, they are the ones you are holding in your hand. At this moment I can only provide you just with this much help, for those big Academies, I am still untouchable. But that Ni Gang, that son-of-a-bitch, added quite a lot of inflammatory details below the surface."

"Many Thanks to General Kong Pengpeng for helping me out this one time; I will definitely repay you back in the future."

After Ning Cheng finished speaking, he took out a large jade barrel, and handed it to Kong Pengpeng saying, "General Kong, this is the True Spirit Nectar Wash that I had obtained, you can take it."

Kong Pengpeng subconsciously took the Jade Barrel, while he still could not dare believe what he had heard, "How come there is so much? This, this, how many Spirit Stones would it fetch if it was sold....."

Ning Cheng quickly replied, "I was able to obtain a lot inside, if General Kong feels that it is not enough then I have more with me."

"Enough, enough, it's more than enough, I originally just wanted a few drops, at most a small bottle, but now I have a huge barrel of it, even if I squander it casually I still would not be able to use it all up aah." Kong Pengpeng's Spiritual Consciousness swept into the inside of the jade barrel, causing him to become even more excited. He could clearly see that the inside of the Jade Barrel was truly filled to the brim with the True Spirit Nectar Wash.

"Good, good, Ning Cheng, I really was not wrong in believing in you." Kong Pengpeng quickly put away the barrel and spoke up, "You should immediately escape from this place, by the way who is this woman? Do you want me to help arrange a few things for you?"

Ning Cheng replied, "There is no need for it, I have a Storage Ring with me, if General Kong is able to meet with Meng Jingxiu in the future, then please give this ring to her."

Yan Ji absolutely cannot be handed over to Kong Pengpeng, once he gave Yan Ji away to Kong Pengpeng's arrangement, it would only end up harming Kong Pengpeng.

"Who is Meng Jingxiu?" Kong Pengpeng asked as he took the ring.

Ning Cheng took out a jade strip with an imprinted image of her and handed it to Kong Pengpeng saying, "It is this woman, she was originally a person from the Falling Star Academy who had come out with me, her father should also be a soldier from the Jia Continent's cultivator army."

"Good, I got it; you should really make your escape now." Kong Pengpeng once again urged Ning Cheng.

Ning Cheng also nodded, bowing in ceremony to King Pengpeng; he took Yan Ji, as he sped towards the gates of the city.

Kong Pengpeng looked at the receding back of Ning Cheng, as he secretly let out a sigh. Although he had helped Ning Cheng in every way possible that he could think of, but whether or not Ning Cheng would successfully be able to escape, were two completely separate things. He really did not care whether Ning Cheng was a Devil Cultivator or not, Ning Cheng had killed countless amounts of cultivators from the Yi Xing Ocean, it was something that he had personally witnessed with his own eyes. If not for this affair going around, he would have done everything possible in his power to make Ning Cheng his right hand man.

.....

"Beast, you finally came out....." An angry sound burst out, which was accompanied with a wave of terrifying killing intent along with a claw that descended on to of Ning Cheng.

Ning Cheng suddenly found himself completely locked in place by this insane Killing Intent; he simply was not able to move even a single part of his body. This kind of cultivation level, was simply too terrifying for him. One had to know, that even though he was at the Profound Congealing 7th Level, but he was almost equivalent in strength to a late stage Profound Core Cultivator, and yet he was still locked in place by just their imposing manner.

Once this claw comes down, would he still have his freedom? A crazy yet matchlessly powerful force erupted from Ning Cheng's Dantian, as Ning Cheng burned his True Essence with popping sounds.

"Puff...." Together with spurting a few blood arrows, Ning Cheng unexpectedly was able to break free from the hold of the crazy powerful killing intent, while at the same time punched out with his fist. Even if the other party's cultivation was high, since they wanted to take his life, then he was also not a person who would give up on it without a fierce fight.

Yan Ji immediately felt that Ning Cheng was in danger, as she immediately forcibly circulated the True Essence in her body, instantly collapsing the Restriction placed on her body by Ning Cheng that was sealing her cultivation. Yan Ji without taking much time brought out her Blue Green Meteor Patterned Damask Silk, and immediately appeared in front of Ning Cheng, while at the same time stimulating every shred of True Essence in her, without any reservation, threw out a similar punch.

The Gate Of Good Fortune

Chapter 238: Touch Him and I Will Kill You

Although that powerful imposing manner had bound Ning Cheng, it did not even slow down Yan Ji; rather it did not even show the slightest threat towards Yan Ji. Otherwise, Yan Ji would not have been able to cast out such a powerful punch, let alone in a berserk manner.

“Sister.....” A shocked feminine voice immediately sounded out, as if whomever it belonged to did not expect Yan Ji to make a move against her. She immediately knew that if she did not take back or divert the flow of her True Essence, then once it even touched Yan Ji’s body, then at that moment even if it did not kill Yan Ji, it would at least shave off half her life. Because of which she had no choice but to re-route her power. Although Yan Ji had changed her appearance, but once her Spiritual Consciousness swept over her at that instant, she instantly recognize her, so how could she dare to even make a move against her own sister?

Just at this time, Ning Cheng’s fist and Yan Ji’s fist immediately rumbled out towards her.

“Peng.....” The bursts of True Essence rang out as the surroundings erupted with destroyed pieces of rubble, creating a scenario of complete confusion and disorder.

Being forced ten steps back from the power of the explosion; Ning Cheng hit a huge stone breaking it into two pieces, while at the same time he was able to borrow the counter force to stop.

Almost at the same time, Yan Ji was also forced back; however, Ning Cheng was able to catch her as he continued retreating. That single move from that cultivator allowed Ning Cheng to make a few conjectures. He was able to conjecture that it was because she had pulled back most of her strength in the last moment, because of which she ended up suffering a backlash from it, while at the same time getting punched at by the two people, Yan Ji and Ning Cheng’s True Essence, she also ended up with a few minor injuries.

At this moment, Ning Cheng was just beginning to see the hands of the cultivator who had attacked them. It turned out that it belonged to a middle-aged beauty, as for her cultivation it was something that Ning Cheng was not able to perceive; it showed that this cultivator’s cultivation was something extremely high and deep that he could not measure it. Moreover, since this middle-aged beauty called Yan Ji as ‘sister’, so did it not imply that she was Yan Ji’s elder sister? Moreover looking at her gradually emerging appearance, they really looked quite similar.

“Sister, this person is a Devil Cultivator, he even sullied you, yet why did you help him in attacking?” The middle-aged woman finally fully revealed herself, as she stretched out her hand as she tried to grab Yan Ji’s arm.

Yan Ji dodged it, and immediately hid behind Ning Cheng, as she stared at this middle-aged woman, while at the same time quietly speaking, “Touch him and I will kill you.”

Ning Cheng was pleasantly surprised as he looked at Yan Ji and spoke, “Junior Apprentice Sister Ji, you finally came back to your senses!”

Since the time Yan Ji had lost herself in the enchantment, this was the first time that he had heard Yan Ji speak. However although there were some signs of soberness and alertness in her eyes, she still was somewhat at a loss and confused. Apparently, she has still yet recover completely.

The middle-aged woman was also able to perceive that the situation was not something she even remotely similar to what she had imagined to be. She had already seen the world and had many experiences in life; with just a single glance, she was able to tell that her younger sister was still a virgin. Moreover, from the way her younger sister viewed Ning Cheng, she knew that if she dared to lay her hands on Ning Cheng, then her younger sister would immediately ignore her as her elder sister.

It appears that the things inside are not what they appear on the outside, and the rumours in circulation are not as credible as they were made out to be. On the contrary, based on what she sensed from Yan Ji's aura, she could tell that Yan Ji had finally advanced to the Profound Core Realm in her cultivation, moreover was even exuding a vibrant vitality, without even a hint of any kind of bad aura.

Thinking until this point, the middle-aged beautiful woman coldly stared at Ning Cheng and spoke, "I am Yan Ji's Elder Sister Yan Yue, you should be aware of your own circumstances by now. I will not come look for you afterwards, as long as you let me take Little Ji back to the Yan Clan. Seeing Yan Ji's appearance, there seem to be a lot of facts that were hidden, but even in that case, you know that you would not be able to protect even yourself let alone the two of you together."

Finally hearing the confirmation that this woman was Yan Ji's Elder Sister Yan Yue, he finally heaved a sigh of relief. Even if she had not spoken about this, Ning Cheng still had intended to hand over Yan Ji to the other party. Now that Yan Yue had finally spoke about it, he immediately spoke to Yan Ji, "Junior Apprentice Sister Ji, you should really return back to your place together with your elder sister. I still have many matters to take care of; if in the future I have some free time then I would definitely make my way here to see you."

Hearing Ning Cheng's words, Yan Ji unexpectedly nodded her head and walked over to Yan Yue's side.

Yan Yue stared at Ning Cheng and lightly spoke, "You really are something." Saying that, she took Yan Ji, turned around and with a powerful burst of flickering lights, the two people immediately disappeared far away.

Ning Cheng sensed that there were quite a few cultivators watching from the sidelines and once again realized that he had to leave this place immediately, otherwise once he was surrounded, it really would be bad for him.

Just as Ning Cheng finally came out of the city, he immediately brought out an airship, then injecting it with his Spiritual Qi, quickly left the Dragon and Phoenix City.

He had already felt that a Spiritual Consciousness had locked onto him, moreover this Spiritual Consciousness also held a strong killing intent which was getting stronger and stronger as he moved. According to Ning Cheng's consistent experience, he could tell that this particular cultivator who was targeting him and following behind him still had not yet advanced to the Soul Essence Realm. However, he could also determine that this cultivator was absolutely among the top Profound Core experts.

Now that his identity has been exposed, it really would have come as a surprise for him that there was no top tier Profound Core Cultivators trying to kill him. At least at this point, his Twin Heavenly Cloud

Wings had not been exposed. If his Twin Heavenly Cloud Wings were exposed, then inside the Dragon and Phoenix City, regardless of what kind of monsters filled that place, each and every one of them would try to chase him down.

Just a bit later than half an hour, Ning Cheng finally stopped. He knew that he had to kill this person off who was tailing him before he could continue further; otherwise he would be opening himself to be chased all over the place by even more people.

“You really are quite kind, to even dare to stop and wait for me.” A cold voice arrived, a handsome man wearing a gold coloured robe finally stopped in front of Ning Cheng.

“It is you who are too rude, to dare chase after your Grandfather.” It was at this point that Ning Cheng realized that this person was not chasing Ning Cheng for fun, which immediately made him tighten the strings of his heart.

The golden robe wearing man looked at Ning Cheng with ridicule, “Just an ant, yet I still have to stain my hands to kill a filthy animal like you. But don’t worry I will definitely be good to you, I will refine you into my dog, a dog that would like to and even beg to lick my boots every single day.”

Ning Cheng’s eyes at this moment were overflowing with killing intent, his opponent was just a Profound Core Cultivator, and yet still dared to talk such big words. Even he had forgotten how many Profound Core Cultivators that he had killed until now. It was just that he had never seen this person before, so why would he hate him this much?

“Remember that the person who will extract and refine your soul is known by the people as Gui Yuhai. Hope you do not forget it.” Just as this gold robe wearing man finished his words, he waved his hands causing a burst of golden light. As it dissipated, a matchlessly huge golden sword suddenly appeared in the sky above hanging down.

This huge golden sword was exuding a powerful and oppressive kind of imposing manner, which seemed to have completely locked everything around Ning Cheng. Not only that, this huge golden sword was also vaguely giving off bouts of penetrative sound waves, which made Ning Cheng feel that he should absolutely not clash against this thing, and should even hasten to lay down his weapons and prostrate himself at its feet. This huge golden sword was also giving off bouts of golden flashes, which was even bolstering the imposing manner of the opposing party,

Such a strong imposing manner, if this person really was Gui Yuhai then it was not surprising that he would hate him so much. There were many rumours of him ravaging Nalan Ruxue on the outside, so it would have been strange if the other party did not hate him. Ning Cheng stirred up the entire True Essence in his body, instantly bringing out his True Cosmic Devil Axe in just a moment, “Even though you bear the surname Gui, Gui Yuhai, the others may be afraid of you, but this Father is definitely not afraid of you.”

As he spoke, the True Cosmic Devil Axe driven by Ning Cheng’s True Essence burst out with an extremely violent Axe Intent. Ning Cheng wanted to end this fight as soon as possible. He was completely ready to kill this Gui Yuhai and quickly leave this place.

However, Ning Cheng soon felt that something was wrong, his True Cosmic Devil Axe’s devilish Axe Intent turned out to be completely restrained by the huge golden sword, that berserk Axe Intent in just

a twinkling of an eye was unexpectedly turned docile. As if, it never possessed that kind of terrible and matchlessly violent murderous aura.

“You really turned out to be a Devil Cultivator, but now that you met me, let me help you out by giving a peaceful end to you. I should let you know, that I practice Buddhist Magical Techniques. You are just a mere ant trying to compare yourself to a mountain, and yet still dare to stir up trouble in the Le Continent.....” Gui Yuhai revealed a teasing smile as he spoke; he waved his hand causing the huge golden sword to rumble down towards him. For him, Ning Cheng was just a no-name cultivator that was akin to at most a mountain of wild ants.

The huge golden sword materialized many golden blossoms, which in just a twinkling of an eye congealed into several huge golden arhats. These several arhats waved their pale golden fists, as they collided with Ning Cheng’s now docile Axe Intent.

“Hong Hong Hong.....” The True Essence contained within completely burst open, Ning Cheng’s Axe Intent had not yet actually taken form from the killing intent before it was disintegrated by the attacks from the golden arhats.

There were also bouts of fine sounding chants that could be heard, which made Ning Cheng almost give up the giant axe in his hands, and let himself be surrendered without even a fight. But Ning Cheng also possessed a strong and powerful awareness, he knew that once he even dared to put down the giant axe, then he would never be able to stand up to any sort of opportunities even if it was dangled in front of him or even served to him on a silver platter.

Fighting back against that stifling feeling that was starting to crop up in his mind, Ning Cheng once again used the True Cosmic Devil Axe in his hands to bring out a giant vortex, made up of even more berserk Axe Intent mixed with Ning Cheng’s Killing Force sending it towards the several arhats. This was his Angry Axe’s Second Form, [Tornado].

Although he resorted to the Angry Axe Second Form, Ning Cheng was well aware that the Angry Axe Killing Intent that he casted out with the True Cosmic Devil Axe had defects in it, moreover the defects were also not small. As long as he had enough time, he must make up for this kind of fatal flaw.

“It seems I really did underestimate you. Your killing intent unexpectedly turned out to be quite strong.” Gui Yuhai once again waved both of his hands, and the golden sword brought out even more golden blossoms, which instantly condensed into even more arhats, these arhats completely surrounded Ning Cheng with his True Cosmic Devil Axe, while at the same time those arhats sent out even more punches.

At this moment, Ning Cheng felt that he had lost contact with even his own True Cosmic Devil Axe. Ning Cheng immediately bit his tongue, as he directly brought out the Profound Break Spear, unleashing his 36 Profound Ice Spear Shadows towards Gui Yuhai.

“Comparing magical weapons with me, you really sought out the wrong person.” Gui Yuhai gave a sneer, while at the same time he brought out a golden coloured chain.

Once this golden chain came out, it instantly brought a burst of bright golden light that covered a wide expanse. This golden brilliance not only blocked Ning Cheng’s 36 Profound Ice Spear Shadows, but at the same time, a Class 5 monstrous beast with a completely golden body was brought out by Gui Yuhai, which pounced towards Ning Cheng.

All of his magical weapon and even the monstrous beast raised by him were golden, showing his addiction to the color gold.

"I really am not in the mood to even talk to you let alone get my hands dirty. But you can still take your time and slowly clean up." Gui Yuhai gave his instruction to the released Class 5 Monstrous Beast while at the same time gave a cold snort.

Ning Cheng was also not in the mood to continue talk and fight with this Gui Yuhai, he also gave a cold snort as he spoke, "It seems you already know that me and Nalan Ruxue have already had quite the fun in the bed. Don't tell me that it makes you jealous aah....."

Just as soon as this sentence came out, Gui Yuhai's eyes immediately turned blood-red, as a crazy killing intent started to rise inside him.

Ning Cheng was counting on this kind of effect; he did not wait for Gui Yuhai to take further action, as he directly brought out the Level 6 puppet. At the same time sent out a message to the puppet, making the puppet to first rush out and stop the Class 5 monstrous beast, and then regardless of whatever happened to the monstrous beast, immediately rush out to attack Gui Yuhai. While at the same time, Ning Cheng once again stirred up his True Essence, fully unleashing the strength of the Twin Heavenly Cloud Wings.

"Level 6 Puppet!" Gui Yuhai immediately let out a shocked cry. Not waiting for him to respond, Ning Cheng had already appeared in front of him with a flash as he unleashed a punch.

"Teleportation?" Gui Yuhai was once again shocked as he let out a stifled cry of surprise as he thought, how could a Profound Congealing Cultivator be able to teleport? But then again Ning Cheng had done the impossible in this situation, as he suddenly appeared in front of him.

This was equivalent to performing a sneak attack on him.

He and Ning Cheng had been fighting for a while, and he found that Ning Cheng was indeed more powerful than the average Profound Congealing Cultivator and much more tenacious too, but compared to him, the distance was simply too far. Just because of this, he had not put Ning Cheng in his eyes.

Then at this moment, Ning Cheng had suddenly brought out a Level 6 Puppet, and even cast a teleport, just what the hell was going on?

Wanting to bring out a magical weapon to block the punch from Ning Cheng who could teleport, it was simply impossible, but fortunately, he still had an armour that he wore.

At this moment, Gui Yuhai almost completely stirred up all the True Essence, in order to resist Ning Cheng's abrupt punch.

"Peng, Katch, Puff....."

Ning Cheng, in this one punch had focussed all of his True Essence, while at the same time pooling in all of his Angry Axe Killing Intent. This was his true Axe Fist, which he could unleash even without an axe. This fist was something that was crystallized from each and every shred of comprehension that he had gained.

Gui Yuhai's armour was not thick, in fact, because he was quite the handsome looking male cultivator; he really had not wanted to wear thick and ugly looking armours. Because of which, Ning Cheng's unparalleled punch directly broke through the defences of Gui Yuhai's armour, and exploded upon Gui Yuhai's chest.

[The Gate Of Good Fortune](#)

Chapter 239: A Single Terrible Spear

Gui Yuhai had never thought that the person whom he considered to be an ant in front of his eyes would successfully be able to execute a sneak attack on him, the indignant flamed that arose inside him almost caused his hair to burn up. In his view, he was a noble and incomparable genius bestowed with the title of Saint Child, he should not even have to lift a finger to kill an ant of no origin rather those ants should be the ones who should prostrate themselves on the ground in front of him begging to kill them. Perhaps even he himself might not be aware of it, because this kind of aloofness was something instilled in his bones since birth.

Not to mention that this ant not only dared to go against him, but also even casted out a sneak attack with the help of teleportation. However, at this moment, although Gui Yuhai's armour was broken by Ning Cheng's Axe Fist, but fortunately it was not able to reach till his bones.

Gui Yuhai immediately spurted out a mouthful of blood, and in his anger immediately took out a huge fist shaped jet-black magical weapon. However, not waiting for him to bring out and fully display the might of the magical weapon, Ning Cheng instantaneously commanded the Level 6 Puppet, which with its lightning fast speed intercepted Gui Yuhai's retreat, while at the same time sending out a palm slap towards his face.

This one palm slap contained the complete power of the Soul Essence Puppet behind it, even if it was the Gui Yuhai at his peak he would not be able to stop it, let alone at this moment where he not only was blinded by extreme anger, but also somewhat seriously injured in the previous exchange.

"Puff....." A huge mouthful of blood was ejected in the form of a blood arrow; Gui Yuhai had just been sent flying back with a sunken chest by Ning Cheng, when he was once again attacked by the puppet. However, this time not only was he pushed down once again, sounds of bones being broken resounded from his body.

Incomparable horror permeated to the deepest corners of Gui Yuhai's heart, he had never expected that a puppet would be able to grasp such precise timings and catch the breaks in between, and do so while voluntarily taking the initiative to give up on the monstrous beast attacking him. However, he immediately understood that what had happened was because the ant in front of him had commanded it.

At this moment, although he had not yet fallen from his pedestal, but with his present condition he really did not have even half a shred of ability to continue the fight.

He must escape, and escape immediately.

Gui Yuhai calmed himself down; he knew that if he wanted to get revenge and kill this ant, then he first had to escape.

The next moment, Gui Yuhai brought out a Talisman grabbing it in his hands. He had not yet stimulated the Talisman, when a bone-piercingly cold killing intent locked onto him.

Gui Yuhai started shivering uncontrollably, just what kind of killing intent was this? He could confirm that since the start of his life to this particular point in his fight, he had never felt this kind of terrifying killing intent. Moreover, his Talisman also seemed affected by this killing intent, as its activation speed also slowed down by countless times.

A black shadow that seemed to tear through the horizon, drawing a strange yet terrifying arc, slammed into his body. In front of it, he could not even bring out half a point of resistance.

Gui Yuhai looked down at the hole in his chest through which he saw the black shadow that struck him, and could finally see make out what it was. It turned out to be a long spear. He could also feel that this spear contained a power that was enough to completely decimate a planet, it was a feeling that he simply could not fathom, what he could vaguely feel was that this kind of killing intent was something that seem to have come from the world of the ancient times. Not to mention now when he was seriously injured, even if he was in his prime condition, he might not necessarily be able to even dodge this spear let alone block it.

Such a terrifying spear, Gui Yuhai thought as the corners of his mouth overflowed with blood. He sluggishly looked at Ning Cheng, before he slowly fell down.

Such a terrifying spear, even Ning Cheng did not dare to believe it as he looked at the Profound Break Spear that was still in his hand. It had, in just a moment, killed Gui Yuhai. He had only one thought in his mind, that is he MUST get rid of this Gui Yuhai. Whether it was in order for him to make his escape, or for his own peace of mind, he HAD to get rid of this Gui Yuhai.

However, at that moment, inside his mind the image of that terrifying spear from the Thunder Domain City suddenly appeared before it shot out of him, it was similar to the purple spear, the spear that had the power to completely decimate an entire planet, which seemed to have flowed out from the pit of his stomach. That spear seemed to be permeated with an abstruse track, as it tore through the endless void. Nevertheless, even though this spear had come out, he was able to catch a few traces of it as it shot out.

Even though this spear was not even a billionth in power when compared to that purple spear, but it was still more than enough to easily kill Gui Yuhai.

This was indeed a terrifying spear, Ning Cheng thought as bouts of weakness washed over him, his True Essence and Spiritual Consciousness, and even his spirit and willpower, seemed to have vanished like smoke in thin air as if that spear had sucked it all up.

However, just at this time, an extremely terrifying killing intent washed over him, this kind of killing intent was something that gave the feeling of wanting to grind Ning Cheng into powder.

Ning Cheng shivered. This was quite a terrifying killing intent, whichever character it belonged to, he instantly understood that he was not their opponent.

Ning Cheng raised his hands and with a swipe tucked away all of Gui Yuhai's magical weapons and ring, in the meantime sent out a large clump of flames turning Gui Yuhai's body into ash that scattered in the wind.

For the first time, he took out one of the Escaping Talismans that Kong Pengpeng had given him, and activated it in a twinkling of an eye, while simultaneously stowing away the puppet who was still fighting the Class 5 Monstrous Beast.

Ning Cheng performed all these actions in one go, and doing all these things did not take more than a few moments. Deploying his Spiritual Consciousness to the max during this time, he could perceive that there was no one coming towards him for the moment. However, that kind of terrifying killing intent that had still not dispersed made him feel an unprecedented sense of crisis. This sense of crisis made him first activate the Escaping Talisman before doing anything else.

Losing an Escape Talisman was not something to cry over, but he absolutely cannot let himself get caught. Once he ended up captured by even one of those experts, then he knew that death would be much more preferable than living at their mercy.

.....

Just ten breaths of time had passed since Ning Cheng left, when a Taoist's shadow descended on the spot where he and Gui Yuhai had just fought.

This man had an appearance of a 50-year-old man, with an imposing manner of a monarch facing the world. As he came to a stop there, the surrounding plants and vegetation in succession dispersed in all directions, showing his powerful cultivation along with his seemingly amiable aura.

"That little bastard, dared to kill my son, this old man vows to skin you and draw out your soul, otherwise I am not human." The man examined the circumferential circumstances and immediately spoke out in a harsh voice.

The next moment, he raised his hand and grabbed the Class 5 Monstrous Beast, as his stature flickered once before disappearing in a flash.

After consuming the Escape Talisman, Ning Cheng did not stay there for long. Immediately stimulating the Twin Heavenly Cloud Wings, he continued his escape albeit in an even crazier manner. That killing intent from before had badly frightened Ning Cheng, in the face of such a terrifying expert, he knew that he would not even have the slightest strength to fight back.

Not knowing for how long he had been fleeing, when a touch of fishy smell from the sea arrived, causing Ning Cheng to stop. He knew that he had finally reached the edge of the Yi Xing Ocean, if he continued to flee in the same direction, then he would have no choice but to rush into the Yi Xing Ocean.

What Ning Cheng wanted in his heart was not to go into the Yi Xing Ocean, but rather go to the Hua Continent. Ning Cheng turned his head back to take a look, taking into his current cultivation, wanting to go back to the Hua Continent through this route was simply impossible. Should he continue to hide in a remote corner of the Le Continent? However, Ning Cheng soon put away the idea. That brush with that terrifying killing intent made things very clear to him. He had killed Gui Yuhai, regardless of if he hid in

any corner of the Le Continent, he would eventually be found out, and then what he would face would be a fate that would be even worse than death.

Strength aah, in this kind of place, without having any real strength, everything was simply fabricated. Ning Cheng clenched his fists, gazing at endless Yi Xing Ocean in front of him, he knew that he had to hurry up and come up with countermeasures; otherwise he would never be able to get out of this place. This was a kind of feeling that came without any reason. Moreover, that kind of terrifying killing intent from before was something that he could not get it out from his head.

However, venturing into the Yi Xing Ocean, not to mention that he only had the cultivation of Profound Congealing Realm, even if he had the cultivation of Soul Essence Realm or even if there was a Sea Opening Cultivator, venturing into the Yi Xing Ocean would only result in death aah.

However, Ning Cheng hesitated only for a few breaths before coming to a decision, and without any more hesitation rushed into the Yi Xing Ocean. He was aware that this was not the time to hesitate, once the rest of the 9 Star Academies joined together with the several other Academies, it would put an enormous pressure on the cultivator army stationed in the Yi Xing Ocean, which would immediately lead to the Yi Xing Ocean to be entirely blocked. At that moment, even if he wanted to rush into the Yi Xing Ocean he would not be able to escape. He had no choice but to move out now, at least he might be able to barely escape from the blockade range of the Cultivator Army in the Yi Xing Ocean.

Ning Cheng during these few breaths of time finally sorted out the things, although he would be rushing into the Yi Xing Ocean to escape, but he would not go to the Tian Continent. Going to the Tian Continent, he was aware that with his present cultivation, it may not be possible, but if he escaped into the Yi Xing Ocean, then who can certainly say that he would not be able to escape from there? He had the Heavenly Cloud Wings, so he just had to find a small island to hide, and then slowly upgrade his cultivation.

Facts also proved that Ning Cheng's judgement did not have even half a bit of error in it. In just less than half an hour since Ning Cheng had escaped into the Yi Xing Ocean, a petite Taoist shadow descended on the place he was just at.

"This bastard escaped into the Yi Xing Ocean." A beautiful woman wearing a red women's robe with an ice-cold gaze stared at the endless Yi Xing Ocean in front of her.

Her entire body was oozing with a majestic imposing manner; unexpectedly it was not even half a bit worse compared to Gui Yuhai's old man.

"Immediately coordinate with the Le Continent's cultivator army stationed in the Yi Xing Ocean, so that they can set up a blockade around the entire Le Continent." Just as this voice arrived, another Taoist shadow descended, this voice belonged to none other than Gui Yuhai's old man. He had continued to send out messages all the way here, so that others in the front could stop Ning Cheng. He wanted Ning Cheng to be intercepted, but he did not expect that Ning Cheng would escape into the Yi Xing Ocean.

His heart was filled with hate, if Ning Cheng had dared to hide in any place inside the Le Continent, then he would be able to employ certain methods to find out where Ning Cheng was hiding. Unfortunately, Ning Cheng had fled to the Yi Xing Ocean, and the Yi Xing Ocean just happened to stretch endlessly.

There was not a single force stationed in the Yi Xing Ocean that their Gui Yuan City could forcibly command, the only thing he could do was to try and coordinate with them. Letting the cultivator army stationed in the Yi Xing Ocean to blockade the Le Continent, only in order to trap Ning Cheng, he would have no other choice but to bestow the cultivator army stationed in the Yi Xing Ocean with enough so called 'benefits', only then would those people be willing to get involved in this matter.

.....

"You want us to send out our cultivator army to blockade the entire Yi Xing Ocean just to intercept a puny Profound Congealing Cultivator? Does the Gui Yuan City thinks that it is in control of the Yi Xing Mainland. We have nothing to do with him, moreover where does my cultivator soldiers have the free time to do such a thing." In the Yi Xing Ocean, just outside the Le Continent, inside a palace on a huge island, there was a man wearing a brown coloured sea dragon printed cultivator army uniform, who spoke freely without any restraint. His tone indicated that he really did not put Gui Yuan City into his eyes.

Although this person did not have shoulder card on the shoulder of his uniform, but from his posture, one could tell that this person was the highest authority when it came to the cultivator army of the Le Continent.

"Haha, Elder Brother Jing Tian, long time no see, could you really not have recognized this old friend of yours?" A laughing voice could be heard as a 50 year of looking man walked in.

"I was wondering who it was, so it turns out to be Gui Yuan City's City Master Gui Zong who has come to grace us with a visit." That brown robed man addressed as Jing Tian also stood up with a smile. But as soon as he finished the sentence, the smile on his face converged almost instantaneously, while his face also shown a sunken expression, "Gui Yuan City's Master has no reason to ask for the Le Continent's cultivator army to rush out in a large force, or is it that the person you want us to go against has a cultivation base so profound, that none of you could do anything?"

The Gui Yuan City's Master hurriedly cupped his fists and spoke, "This kind of affair is something that has to be rushed, because the life of my child has been taken by that little beast, because of which I was somewhat impatient to get to this place, I really am quite apologetic for such a behaviour. In order to make it up and apologize for it, my Gui Yuan City has especially sent out a ring for you, I hope Elder Brother Jing Tian would be able to forgive me for such kind of a thing."

Saying that, a ring slowly floated up and fell into the hands of the brown robed cultivator.

This brown robed cultivator by the name of Jing Tian grasped the ring in the middle of his hand, using his Spiritual Conscious to sweep over the ring, he gave a slight nod and spoke, "Since that being the case, Gui Yuan City's Master please do come in and have a seat, come in, let us at least have a cup of tea with the renowned Gui Yuan City's Master."

[The Gate Of Good Fortune](#)

Chapter 240: Barricading The Yi Xing Ocean

"Elder Brother Jing Tian, I'm really distraught at the moment, if I fail to catch this bastard, I would not be able to feel at ease for even a single moment. Elder Brother Jing Tian, if in the future you have some

free time, then we can definitely have a nice chat over tea at that time.” How could Gui Zong be in a mood to drink tea at this moment? He wanted and was even anxious to catch Ning Cheng immediately.

The brown robed man gave a laugh and spoke, “City Master Gui, even though your son ended up dead, but presumably with the strength of Gui Yuan City, don’t you think you have prepared a bit too little? Not to mention the fact that with City Master Gui’s ability, you could have easily saved your son’s life.”

Gui Zong gnashed his teeth with hatred, even though he had gave those things himself, but this Jingjing Tian still was trying to refuse co-operating with all sorts of excuses, so how could he feel well about it? Although he had ‘bestowed’ things upon him before a few times, he had never seen this person decline, so why was he doing such a thing at present with all sorts of excuses?

Holding back the anger and fury in his heart, Gui Zong took out a jade bottle and threw it towards him, “Although my son had left behind a wisp of his soul back before leaving the Gui Yuan City, but resurrecting him from just the wisp of his soul is not a simple matter, even the materials required are also not simple. But before doing that, I must kill that beast who had slain my son and offer him to the soul of my son as a sacrifice. This is a bottle of True Spirit Nectar Wash that my son was able to obtain from the inside the Law’s Way in the past, but because time is of the essence here, it would be better for Elder Brother Jing Tian to have it.”

“True Spirit Nectar Wash!?” Hearing that the jade bottle that he was holding contained the True Spirit Nectar Wash, he immediately cried out in shock, this thing had an enormous use for someone like him.

Sweeping the jade bottle with his spiritual consciousness, he found out that it truly was filled with True Spirit Nectar Wash, as he immediately spoke with an overjoyed voice, “Thank you City Master Gui, I will tell this Ji Guang to immediately pass on an ordinary order, allowing my cultivator army to start blockading all the passages that leads to the depths of the Yi Xing Ocean, any person trying to venture into the depths of the Yi Xing Ocean would be stopped once it is set up.”

“Ok.” Immediately turning around, he conveyed the orders to a black faced man behind him.

Gui Zhong on hearing Jing Jingtian passing the military order cupped his fists and spoke in a somewhat satisfied manner, “Many thanks Elder Brother Jingtian, I will also be leaving for the Yi Xing Ocean to aid in the search, as such will come back in my free time to convey my thanks in a proper manner.”

“Haha, don’t mention it, if this lowly one could be of some use to the Gui Yuan City, then it really would be this Jingtian’s pleasure. Allow this lowly one to send City Master Gui on his way.” The brown robed man laughed and with an extremely polite manner led Gui Zong off his premises.

After the time it takes for half an incense stick to burn, Jing Jingtian once again returned back to his huge compound, but this time his face did not carry the kind of warm and enthusiastic look on it as it had been when he was together with Gui Zhong a few moments ago, rather it had a matchlessly gloomy look on it.

At this point of time, that black faced cultivator from before had returned and cupped his fists towards Jing Jingtian and spoke, “Supreme Commander, I have issued the Ordinary Level Orders to be passed down. I guess that from this moment till the point that the blockade is fully established, it would take at least half a day.”

“You did good, that son-of-a-bitch wants to rely on his cultivation being higher than me, and even tried to barge into my office, moreover wants this father to use his people for capturing one of our own. That person called Ning Cheng from the Jia Continent’s Army ended up killing his son. Haha, killing him was good; killing him was wonderful, killing him was excellent. Phooey, does he think that his ass is better than a woman’s pussy?” Jing Jingtian spit out a mouthful of spit, as he spat out abuse after abuse.

That black faced cultivator called Ji Guang spoke with some worry, “I heard that this person called Ning Cheng is a Junior Commander of the Jia Continent’s Cultivator Army. And has a cultivation level in the Profound Congealing Realm, with just half a day I really don’t know if he would be able to actually escape.”

“Although it is only half a day, but it is already the limit of the slowest speed with which the Le Continent’s cultivator army can seal off the waters around here, and if he still is not able to escape within that time then he definitely deserves to die. Gui Yuan City is actually a 9-Star Academy, although our division does not have people from the Gui Yuan City under us, but we still cannot tear down all the decorum. Besides, didn’t you also see that he brought out so many things for us all for the sake of helping him this one time.” Jing Jingtian once again sat down and spoke out calmly.

Ji Guang quickly echoed, “That’s true, if you had issued a Gold Order, then within just half an hour, we could have completely sealed up the waters of the Yi Xing Ocean around here.”

Gui Zhong, who had just left, did not understand the difference between Ordinary Orders and Gold Orders, rather he simply did not want to bother himself with understanding such things related to the cultivator army.

.....

At this point, Ning Cheng who had already entered the Yi Xing Ocean had been crazily burning his True Essence as he continued to madly dash forward. While at the same time wielded the Twin Heavenly Cloud Wings at full power. He speculated that Gui Yuan City would certainly try to rope in the Le Continent’s Cultivator Army, as such he wanted to escape into the depths of the Yi Xing Ocean before the Le Continent’s Cultivator Army completely blockaded the waters around the area.

As for the monstrous beasts in the Yi Xing Ocean, even if they were the more dangerous ones, he knew that he would not have the mind or even time to take them into consideration.

But an hour later, Ning Cheng felt that something was wrong, although he could sense that the cultivators from the Yi Xing Mainland had been dispatched, and were also in the process of arranging a huge Barricading Array, but their speed was actually not fast at all. In his view, this kind of speed could only be described as sluggish. With this kind of speed, he could actually leisurely take his time to rush out of the blockade and truly enter the Yi Xing Ocean.

No matter for what reason, Ning Cheng was also aware that he would not be able to wield the Twin Heavenly Cloud Wings continuously in such a desperate manner for a long period of time. It was only until he perceived the cultivator army complete the huge Blockading Array as it slowly closed behind him, did he actually feel a bit relieved in his heart. But even if that was the case, he still did not dare to stop, and still continued to fly away in order to escape as far away as possible.

.....

“WHAT! Ning Cheng not only came out of the Law’s Way with Yan Ji, but was also able to kill Gui Yuhai right after coming out? Even if he had exceptional skills, being just a Profound Congealing Cultivator, how could he be able to kill Gui Yuhai?” In a spiritual qi rich immortal cave inside the Wu Nian Academy, a Daoist Priestess could be seen holding a golden flying sword, as she stood up not daring to believe as to what she had heard.

“Master, you said that Ning Cheng not only came out, but also killed Gui Yuhai!?” Nalan Ruxue who was standing at the side could also not dare to believe it and once again asked.

The Daoist Priestess finally calmed herself down from the initial shock as she nodded and spoke, “I just received this news, Ning Cheng and Yan Ji had appeared in the Dragon and Phoenix City with their appearance changed, but were ultimately stopped by Yan Ji’s older sister Yan Yue. Yan Ji sure enough was still under the enchantment, but even so, she actually helped Ning Cheng attack Yan Yue. Unexpectedly, Yan Yue took Yan Ji away, but actually let go of Ning Cheng, which really is not like the style of Yan Yue aah. Moreover, that Gui Yuhai from the Gui Yuan City had also seen everything from the sidelines, and had even chased Ning Cheng out of the Dragon and Phoenix City. He actually wanted to secretly take care of Ning Cheng, but I would have never thought that he would end up being counter-killed by Ning Cheng.”

“Master, I doubt that Yan Ji had been put under an enchantment by Ning Cheng, maybe this so-called news is just a rumour. Ning Cheng also may not be a Devil Cultivator, however.....” Nalan Ruxue thought back to the time when she saw Ning Cheng explode out with the True Cosmic Devil Axe, but with that kind of violent and baleful Devilish Aura, she also was not sure if in the end Ning Cheng was a Devil Cultivator or not.

The Daoist Priestess waved her hand and said, “So many people had already witness it, and there is even a scryer of it too, as for that Ning Cheng not being a Devil Cultivator, there is actually no doubt about it. As for you, that Ning Cheng surely had profited from it, but since you have not lost your chastity, this kind of a small matter is not something that you should take to heart. But I really did not think that this Ning Cheng with just the cultivation of Profound Congealing Realm would actually be able to kill that Gui Yuhai...”

A short pause later, the Daoist Priestess then suddenly looked at Nalan Ruxue and asked, “Ruxue, since you witnessed the scene of Ning Cheng, just a single person, killing more than 20 Profound Core Cultivators, do you think that Ning Cheng would actually be Gui Yuhai’s opponent?”

Nalan Ruxue pondered for a while, and spoke up after a long pause, “Master, although that Ning Cheng had killed more than 20 Profound Core Cultivators, but in fact, there were only 2-3 people there who could pose a real threat to Ning Cheng. It was mainly because of Ning Cheng’s Devil Axe being too strong, that it was actually able to suppress the cultivators whose minds were not that firm, to speak more accurately, it was actually because of Ning Cheng using the Broken Core Pearl to sneak attack, that so many Profound Core Cultivators lost their lives.”

The Daoist Priestess once again nodded, “What you said is really true, the only ones who actually dare to hide and stay back in the Second Segment of the Law’s Way are the ones who are actually afraid of going to the Third Segment. It is simply because their minds are truly weak and soft, and can only continue till that point.”

"I have seen Gui Yuhai fight, but since I came out of the Law's Way later, I have no idea about the current realm which Gui Yuhai is in. Even so, I could still make an educated assumption that as long as Ning Cheng did not advance to the Profound Core Realm, then he should actually not be an opponent of Gui Yuhai. Even then I would not expect him to succeed in killing Gui Yuhai." Nalan Ruxue replied.

The Daoist Priestess was silent for a while, "Killing Gui Yuhai is impossible, Gui Yuhai is the premier genius of the Gui Clan, moreover is also the son of the City Master, it is simply impossible for the Gui Clan to have not been prepared for such a thing in advance. As long as there is just a trace of his soul left behind, the Gui Clan can help Gui Yuhai to reconstruct his body, but the price of doing such a thing is simply too terrible. Moreover, Gui Yuhai had also inherited Buddhist Magical Techniques, as such his cultivation should have been much more powerful than anyone else. Once Gui Yuhai advanced to the Soul Essence, then he would definitely be much stronger than the other ordinary Soul Essence Cultivators."

"It is just that I did not think, that Ning Cheng who is clearly a rogue cultivator, would actually possess such an ability. In the end, just what kind of cultivation method did he actually end up cultivating in? How could he actually have the capability to even resist Le Continent's Gui Yuhai?"

"Master that Ning Cheng did not perform any vile acts on me, and had also saved me and Senior Apprentice Brother Cheng, how can we let the Wu Nian Academy allow him die when we have the ability to save him?" Nalan Ruxue once again recalled the departure of Yue Ying and Yue Yuanhua, but she did not dare to reveal this at this moment.

Yue Ying and Yue Yuanhua were also the core disciples of the Wu Nian Academy, but their master was in closed door cultivation, because of which the two of them could use the excuse of learning through experience to leave the Wu Nian Academy.

The Daoist Priestess shot a glance at Nalan Ruxue and spoke, "What do you even understand? At this moment, we do not have any other choice but to join hands with the Gui Yuan City to catch Ning Cheng. Didn't you say that Ning Cheng also saved Yan Ji, a moment ago? Not only are there rumours about him taking her chastity, but she also ended up letting herself be lost in an enchantment, I really do not understand as to why that Yan Yue did not kill Ning Cheng. Ruxue, within a few years, the 9 Continents Cultivators will be teaming up with the cultivators from the Yi Xing Ocean. The Le Continent must be connected to the Tian Continent; you do not need to concern yourself with such trifling matters. Just make sure that you are able to advance to the Soul Essence Realm in time, to get one of the spots from the Le Continent."

"Yes." Nalan Ruxue hurriedly replied.

.....

Ning Cheng finally stopped on a barren reef island, he really could not continue on anymore. Moreover, he also knew that he could not go in any further from this place. With his cultivation, if he dared to continue on, then the only thing for him would be to end up buried deep inside the stomach of some monstrous beast from the ocean.

However, Ning Cheng was also aware that he was still in danger, as such, he did not dare to continue with the thought of not going into the depths of the ocean, as that seemingly supreme expert in terms of killing intent would still definitely continue look for him.

Can't stay at this reef and can't also move forward, Ning Cheng was aware that he really did not have the strength to continue forward, nor could he dare to stay here and ultimately wait for death. He also knew that he could not hide inside the Miniature World. The Miniature World was inside the ring, once the ring was lost, and ended up in the hands of a Spiritual Consciousness Master then he simply would not have any means to escape.

Ning Cheng finally decided on the least dangerous option, as he dove into the ocean in order to find a spot on the seafloor, and then bury the ring, before hiding inside. Although this was still very dangerous, but Ning Cheng at this moment really could not find a better way.

Although from above, the Yi Xing Ocean would actually not feel like a deep place, but the ocean water really was quite strange and was matchlessly deep. As he dove deeper, a powerful aura suddenly swept past Ning Cheng's body, which made Ning Cheng not dare to continue move forward. This kind of terrifying aura definitely belonged to an advanced level of monstrous beast.

Before Ning Cheng could even do anything, a powerful suction force immediately arrived, this suction force immediately latched onto Ning Cheng and the surrounding fish, seemingly wanting to suck them away. The force was so powerful that Ning Cheng felt that he could not even move a single muscle.
