Chapter 371: Ruolan Was Injured

"I once saw the boss of the Domain Insect Materials following behind Tian Muwan with his head lowered. It led me to think that there was some sort of business dealings between the two. Later on, I received an anonymous letter stating that the Domain Insect Materials changed owners to Tian Family and that if I gave up on this path or investigation, then they would also appreciate it." As Ning Ruolan spoke until here, she was somewhat nervously looking at Ning Cheng. She was afraid that her big brother had not forgotten about Tian Muwan, as such she did not speak much.

Ning Cheng also understood Ruolan's meaning but did not expand upon it.

In the past, he had not understood why Tian Muwan had treated him that way when she spoke that the difference between them was too significant. However, Ning Cheng had always suspected that it was not the real intention of Tian Muwan, as at that time Tian Muwan had not given him the opportunity to inquire about it. Now that he had returned once again, he had no desire to know the reason behind it. Moreover, Tian Muwan had also not answered him about Ruolan's whereabouts and had not shown even the slightest hint of inquiring about him, who was missing for the past few years.

The past was the past; every individual had his or her own path to walk. When Tian Muwan had taken out the bankcard and placed it in front of him, Ning Cheng had understood that they had already become outdated. He was the clearest when it came to Tian Muwan's disposition, if he had fancied Tian Family's money, then Tian Muwan would have already left him long before that incident. Since Tian Muwan also knew about his disposition, but still choose to give him a bank card, then it meant that there was nothing else to discuss.

"Does Tian Muwan know that you were the one who founded the company?" Ning Cheng apparently was aware that he should not have asked this question, but he also couldn't help but ask it.

Ning Ruolan shook her head and spoke, "She should not know about it, my company was still small at that time, so it was simply not worth mentioning in her eyes."

Ning Cheng, on hearing those words, gave out a sigh of relief. If Tian Muwan knew it was Ruolan's company, yet still plotted and attacked it, then he would have felt quite sad about it. Even Ning Cheng would not be able to accept this. As to why he was feeling like this, he was finding it indescribable. It might be because he was unwilling to see people who were once close to him to treat Ruolan like this.

"So why are you staying in this place?" Ning Cheng already put the matter regarding Tian Muwan to the side and asked. He wanted to bring his sister out of here. As to the issues relating to Tian Muwan, after all, the paths of the two would not intersect with each other in the future anyway.

Dai Xin hinted to Ning Ruolan to take a break for a while before speaking up, "I'll say it. Ruolan and I had no intention to stay in the Hundred Bay Point for even a single night. However, the Hundred Bay Point currently is quite a chaotic area. In other words, in this place, strength replaces the law, resulting it to be quite dangerous."

"After Ruolan and I arrived here, we did not do anything radically meddlesome and were just thinking of procuring some cheap insect materials. However, because I wanted to know more about the different varieties of Insect Nuclei, we ended up entering a merchant house specifically set up in the Hundred Bay Point for Insect Nuclei. There were not many people in the merchant house when we entered. I wanted to ask Ruolan about a particular Insect Nucleus, and lifted my hand to point to it but ended up accidentally bumping into another person nearby. The man was holding a wooden box with an Insect Nucleus inside it. When my hand accidentally brushed past it, that wooden box ended up falling to the ground. The Insect Nucleus inside of it unexpectedly shattered....."

Ning Cheng hearing until here realised that Dai Xin and Ruolan were on the receiving end of blackmail. This was similar to touching porcelain only to break it. If an Insect Nucleus could be so easily broken, then it was not a Demon Nucleus.

Sure enough, Dai Xin continued with the narration, "That person immediately grabbed me and asked me to pay 20 Million Yuan. He said that his Insect Nucleus was a high-grade Insect Nucleus, and since I had destroyed his Insect Nucleus then I had to pay for it. The money on Ruolan and me combined only added up to 2 Million Yuan. Moreover, most of it belonged to my parents who saved it for my marriage, so where would we be able to bring out 20 million? Ruolan realised that the matter was not looking good, so she immediately pulled me and ran....."

Ning Ruolan interjected, "Big brother, you do not know what it means to destroy other people's things in this place or how terrifying the compensation for it is. If Dai Xin and I cannot put together the 20 million Yuan, then they can directly carry the two of us away to process us. Even if they kill us on the streets, there would be no issue about it."

Dai Xin continued with fear in her voice, "That's right Elder Brother Xiaocheng, if it was not for Ruolan pulling me into this hotel, we might have not been alive at this moment. Even if that was the case, Ruolan still ended up getting shot through the arm, but luckily no bones were hurt....."

"WHAT!" Ning Cheng suddenly stood up, while his eyes turned red. Ruolan was actually injured; moreover, it was even a bullet wound? Although it had been quite a while since he met Ruolan, he had not noticed it all.

"Big brother, I'm fine, it's just a flesh wound, it is much better now." Ning Ruolan on seeing her big brother's appearance, that crazy look on his face, quickly tried to comfort him with some words.

Ning Cheng restrained the fury in his heart and spoke, "Ruolan, let me take a look at the injury."

"En." Ning Ruolan pulled her shirt down a little.

On Ning Ruolan's white arm, there was a layer of white gauze wrapped around it tightly; however, it was dripping with blood, showing that the wound was probably not in a stable condition. From the moment he met Ruolan until now, he did not showcase any of his fears, but this injury really caused Ning Cheng to be worried.

"Those bunch of trash." Ning Cheng clenched his fists, at this moment he was completely ready to slaughter anyone that made the mistake of barring his path. This bullet, if even a bit off, it would have gone straight through Ruolan's heart. If he turned even into the highest of those golden immortals at that time, he would not be able to save Ruolan.

“Big brother, I’m much better now, you don’t have to worry about it.” Seeing Ning Cheng’s clenched fists giving out ‘Ka-Ka’ like sounds, Ning Ruolan hurriedly comforted him. Her big brother had returned, but it looks like he also obtained some unique skills. However, Ning Ruolan knew that those experts who could easily kill and dice those insects were also quite powerful

Ning Cheng forcibly calmed himself down, and then helped Ning Ruolan untie the gauze, as he spoke, “I certainly don’t have to be worried, it is they who should be worrying.”

“Elder Brother Xiaocheng. This hotel is the property of Dhulandi, one of the world’s top five Major Experts. As long as you stay in this area, then the others would be afraid to cause any trouble. However, the person who plotted against Ruolan and me also has some skill of his own. Although they do not have any means to expel us directly, they definitely have some connection to the hotel staff. The staff told us that since we intentionally came inside this place to seek protection, as such the accommodation cost would increase to 10 times. Not just that, even eating a meal would cost us a sky-high price.....” Dai Xin on seeing that Ning Cheng had calmed himself down also started to relax slowly.

Ning Cheng took out a Healing Pill and put it in Ning Ruolan’s mouth. Then gently caressing Ning Ruolan’s wounds, he simultaneously spoke up in a very calm voice, “They will be paying back things many times over.”

Ning Ruolan felt her initially very painful wound had become slightly hot, but then it immediately cooled down followed by a slight itch in that area.

“Aah, Ruolan your wound?” Dao Xin stared at Ning Ruolan’s arm in shock.

Just now Elder Brother Xiaocheng had placed his hand over Ruolan’s wound, at that time the injury was still evident, but now that Elder Brother Xiaocheng took away his hand, that scar had completely disappeared without even the slightest trace, leaving behind only white and smooth skin.

Ning Ruolan was also dumbfounded as she looked at her own arm. The wound had indeed disappeared. Moreover, she didn’t even feel the slightest bit of pain. Instead, there was only a robust refreshing feeling.

“Big brother.....”

“Elder Brother Xiaocheng.....”

Dai Xin and Ning Ruolan both looked at Ning Cheng in shock, then as if thinking about the abilities displayed by Grey Toottoot, bringing out and taking away things out of nowhere, both people’s eyes glowed with a bright, inquisitive light.

Ning Cheng had been thinking about how to explain all of this in the past. Therefore, he spoke up without much hesitation, “Let me tell you about the years I ended up disappearing. However, Ruolan and Dai Xin, you should not be too surprised when you hear about it... Even if it was me, I realised that there are many planets in the vast universe similar to Earth.....”

For two whole hours, Ning Cheng recounted most of his experiences in brief, before finally concluding, “I was still called Ning Cheng, but the name Ning Xiaocheng remained on Earth as a memory.”

Ning Cheng was not willing to think about some of the memories of the past.

Ning Ruolan was utterly shocked as she looked at Ning Cheng before she finally managed to ask, "Big Brother, you said that the reason that Highway Bridge collapsed was related to you? Then why did Tian Muwan know that you would run into an accident there? She was the one who had taken me to the bridge to look for you."

Initially, Tian Muwan had crazily rushed towards the bridge, but when Tian Muwan reached the bridge, she began to cry. Ruolan had initially thought that Tian Muwan was pretending, but now it looked like it really was not like that.

"Did you say that Tian Muwan knew that I was in an accident on the bridge?" Ning Cheng frowned and asked. Properly speaking, the Mysterious Yellow Bead already took him away by then; as such, nobody should have known about it.

"En, Muwan had said that she had pictured you standing on the bridge in her mind, and then the meteorite fell..." Ning Ruolan saw that her big brother's complexion had slightly changed, causing her to quickly speak out, "Muwan was really very sad as she sat there crying at the bridge but was later carried away by her family. However, to find you, I was running around in all directions desperately. But because I was not able to find you, I ended up coming back to the institute to once again look for you in desperation....."

"I'm sorry. Big brother." Ning Ruolan spoke with her head bowed. Without her big brother, it was the darkest time of her life. Anyone who tried to hurt her brother, she would definitely go all out.

"Ruolan, you don't have to apologise to your brother, everything that you did for this useless big brother of yours has already been taken to heart. You had done what any big brother would have done in your situation. We grew up with only each other since childhood, is there anything that could even be remotely comparable to this kind of kinship." Ning Cheng caressed Ning Ruolan's hair, while secretly deciding to himself that he would never let his sister feel worried about him.

"En." Ning Ruolan also turned very well behaved in front of Ning Cheng. She couldn't help but recall her childhood together with her big brother. Those days seemed to be so far away, yet they also seemed to be right in front of her in this present moment.

"Elder Brother Xiaocheng, can True Cultivators really fly? Can Ruolan and I also cultivate?" Dai Xin's eyes were brightly glowing; even her heart was pounding hard. If someone else had told her that she would be able to fly, then she would have probably laughed it off as a mere dream.

Ning Cheng smiled, "You should be able to cultivate, when the time comes you can give it a try, and you'll come to know. However, there is one thing you should be aware of that is, no matter what cultivation level you possess, don't ever think that you are more superior to others. Even if it is on Earth, there are still a few True Cultivators present here."

Ning Cheng then recalled Tian Muwan. He did not know how Tian Muwan was able to cultivate, but she was already at Qi Gathering 4th Level at that time. However, if she wanted to fly then her cultivation level was still inferior. Even if she wanted to fly, there were no flying swords or any flight type Magical Artefacts to rely on in this place. Since someone like Tian Muwan could cultivate, then it meant that there were definitely people stronger than Tian Muwan.

“Elder Brother Xiaocheng, are there really some True Cultivators here?” Dai Xin was shocked as she heard Ning Cheng’s words.

“There definitely must be a few True Cultivators here, but even if there were no True Cultivators here, Martial Cultivation is also quite powerful. I heard that once Martial Cultivation goes to the extreme, it would still be equally powerful. Moreover, their strength would also be not much lower than that of True Cultivators. So, even if you become True Cultivators, you will need to be careful.” Ning Cheng warned them for the second time. Although he was aware of Martial Cultivation, he did not have a deep understanding of that field. A few days ago, he had seen Yin Yihui, who was quite influential with his strength in his own regard.

The reason why he told Dai Xin about this was that Ning Cheng already intended to take away Ruolan. However, he had no way to take away Dai Xin. Moreover, Dai Xin’s parents and family were also here, as such, it was impossible for Ning Cheng to bring all of them along.

“Big Brother, we have to pay the accommodation fees, there are only two days left.....” Knowing that her big brother was a True Cultivator and had returned from the remote starry skies, and possessed extraordinary skills, Ning Ruolan felt a lot more stable when compared to before.

Ning Cheng pondered over it for a while before replying, “Let me first restore my cultivation to the Essence Building Realm. It should take about two days. Grey Toottoot will remain outside.”

Chapter 372: Ut’s Just A Regular Drink

“Where’s did your brother go?” Seeing Ning Cheng suddenly disappear Dai Xin suddenly asked in shock.

Ning Ruolan also did not know where her big brother went, but after thinking for a while, she spoke up, “I guess that big brother entered that Spacial Storage thing that he had mentioned before. Little Xin we should probably not speak about this matter.”

“I will never do that.” Dai Xin spoke out, but in her heart, she was already looking forward to becoming a True Cultivator.

.....

“Why hasn’t big brother come out yet?” Two days later, Ning Ruolan spoke out anxiously. Although her big brother had said that it was very typical for True Cultivators to go into seclusion for many years, she had never seen such a thing. After all, this kind of matter was just too outrageous for her. Moreover, when Ning Cheng had disappeared once again, it caused Ning Ruolan’s heart to start panicking once again.

Dai Xin quickly tried to comfort her, “Ruolan, you don’t need to be worried about it. Elder Brother Xiaocheng said that it was normal to go into seclusion for many days. It has only been two days...”

The crisp ringing of the doorbell interrupted Dai Xin’s words. Dai Xin and Ruolan looked at each other in the eye; both of them knew that it must be a person from the hotel who came.

“I’ll get the door.” Dai Xin opened the door and saw a 30-year-old blonde woman standing outside

The blonde haired woman glanced at Ning Ruolan and Dai Xin, as a trace of astonishment flashed through her eyes. She had initially thought that with the two girls trapped in here, without any food to eat, would undoubtedly become thin and weak. However, unexpectedly, she saw Ning Ruolan and Dai Xin were not only not weak, but even their skin was exuding a healthy glow. Especially since after Dai Xin ate, she was also sporting a bit of baby fat.

How could Grey Toottoot's vision be bad? The things that he had brought back contained the best nutrition along with the best flavour. If the two of them remained thin after eating all that, then it would indeed be a strange thing.

The young woman was surprised to see Grey Toottoot resting on the couch, and even doubted herself as to how a puppy came in here?

"What's the matter?" After knowing that Elder Brother Xiaocheng was a True Cultivator, Dai Xin no longer showed the panic from before.

The blonde woman quickly recovered before speaking up with a smile, "Two respectable guests, your prepaid room will be expiring tomorrow. If you can't pay the renewal fees, then our hotel would have to take back the room."

"Is it due right now?" Dai Xin asked.

The blond haired woman had initially thought that Dai Xin would timidly ask the hotel for a few more days, but she had not thought that she would ask such a rhetorical question. She froze for a moment before finally replying, "Not now."

"Since it is not due now, then please do not do as you please and disturb our stay. Otherwise, I will have to lodge a complaint." Dai Xin spoke, then with a 'Bang' shut the door on her face, leaving the blond woman outside the door with nowhere to vent her anger.

"Ruolan, that blond tart must have been sent by those people who want to blackmail us. Otherwise, it is impossible to threaten us one day in advance. This woman must have come here to gauge the situation." After Dai Xin shut the door, she spoke up in a somewhat indignantly.

.....

The External Domain Hotel was also one of the most famous hotels in the Hundred Bay Point. Besides the Hotels of the five Major Experts, the most renowned hotel was the 'External Domain Hotel'. This hotel was one of the latest acquisitions of the Tian Family's Group of Conglomerates, belonging to the super 5-Star category.

At this moment, in one of the most luxurious rooms of the hotel, a man wearing a silk nightgown was sitting on the couch, studying an Insect Nucleus in his hand. This man had a somewhat handsome appearance. Other than his slightly cold looking eyes, he also sported a slightly pale complexion.

"Master Yan, I just got the news, that Ning Ruolan and Dai Xin does not seem to show even the slightest abnormality in the hotel, not even any food deprivation symptoms. Not only that, even their speech is quite impolite. The video has just been sent back....." A young woman approached the man and whispered the words to him.

The man addressed as Master Yan slowly put down the Insect Nucleus in his hand and coldly spoke out, "Immediately call Tian Huanyu."

"Yes." After the woman gave her reply, she hurriedly retreated.

Just a few minutes later, a young man with a medium sized stature rushed in. After arriving in front of this man, he gave a bow and spoke, "Elder Brother Yan, were you looking for me?"

"Tian Huanyu, three months ago, you told me that you found the woman who had insulted Muwan. I think her name was Ning Ruolan, how are you dealing with that woman now?" Master Yan asked calmly.

Tian Huanyu hurriedly spoke up, "Elder Brother Yan, you can rest assured that although she is currently staying at the Wizbon Hotel, she is probably going to die of hunger."

"Dying of hunger?" Master Yan suddenly threw down a shot glass on the table before he sneered and spoke, "Tian Huanyu, how is she dying? Why am I hearing that she is still alive and kicking? You can't even handle such a simple matter; you're just wasting your food here, aren't you?"

Tian Huanyu's forehead immediately broke out in cold sweat, as he hurriedly spoke out with his most respectful voice, "Elder Brother Yan, Little Miss Muwan already knows about Ning Ruolan. If this matter ends up blowing out of proportion, then I fear that it would definitely reach Little Miss Muwan's ears. Moreover, I'm sure that they don't have anything to eat in the Wizbon Hotel because they simply can't afford it."

"Is this a joke? Can't afford it?" Master Yan pounded the table once more before continuing, "The hotel has already sent me the status video of the two woman. Why don't you help Young Master Tian Huanyu have a look at it, let's see what kind of cooperation he has with the Wizbon Hotel, and also take a look at how hungry have those two women have become."

"Yes." The woman standing at the side was already ready, as the projection of the video recording appeared on the snowy white wall opposite to them.

Tian Huanyu saw Dai Xin standing at the door full of vigour as she retorted back to the blonde woman, causing him to break out in even more cold sweat. He knew the strength of the person called Master Yan in front of him. If he wanted to, then he could merely pinch Tian Huanyu to death like killing an ant.

"Master Yan....." Tian Huanyu did not dare to address him as Elder Brother Yan. If this person in front of him behaved politely, then he would still call out to him as 'Elder Brother'. Although one could make jokes with him, once angry, then everyone who irritated him would all die. Moreover, he also did not understand why Ning Ruolan and Dai Xin were so energetic currently, no, they were even more active than when they first chose to stay at that place.

"Hey, wait, rewind the video... Yes, right there, stop....." Master Yan stared at Ning Ruolan in the projection, before speaking, "Is she Ning Ruolan?"

Tian Huanyu was well aware of Master Yan's nature of being a sex-fiend. Now that he laid his eyes on the beautiful looking Ning Ruolan, it was almost sure that her sight tempted him.

“Right, Master Yan, she is Ning Ruolan. I had initially wanted to bring this woman back to Master Yan but had not expected that she would run into the Wizbon Hotel.” Tian Huanyu immediately seized the opportunity.

This caused Master Yan’s anger to vanish instantaneously; he once again sat down, before nodding to Tian Huanyu and spoke, “Well, you did well. Bring her to me tonight; I definitely have to use her tonight.”

“Master Yan, they can get at most stay in the Wizbon Hotel for another day, just wait until tomorrow night, I will bring her to you then. The Wizbon Hotel is that Dhulandi’s domain, although we are not afraid of him.....” Tian Huanyu carefully explained.

Master Yan’s face changed a few times. Finally, he gave the nod before speaking, “Well, I’ll wait for another night then.”

.....

Tian Muwan was sitting in her office. In front of her were the broken pieces of a bank card. This bankcard was very familiar to her because it was her own.

No one could describe her feelings at this time. When she had just seen Ning Cheng at that time, she couldn’t help but feel a searing pain and grief well up in her. It felt as if something blunt was repeatedly battering her body.

During the last three years, it was not much of a problem when he had not shown up. Tian Muwan became used to seeing only herself. However, he turned up after all these years and once again walked away in such a nonchalant fashion, without even saying a few words. For her to let herself go and call him back again, how could Tian Muwan bear it? After all, she had her own pride.

Yet, regardless of whether she was a True Cultivator or not, the two of them being together was impossible. However, she also did not want him to see her pride. She was well aware that she was not this kind of a person in her heart; it indeed was not the case.

Tian Muwan clenched the pieces of the bank card in her hand; she knew that when they had met again, although Ning Cheng had hurt her, Ning Cheng himself was even more deeply troubled.

With his disposition, giving him the bankcard was the same as insulting him. However, at that time, when Tian Muwan saw his appearance, the kind of bastardly presentation of himself, it caused nameless anger to erupt in her heart.

This bankcard was something that she had retrieved by herself. When she had gotten out of the coffee shop and gone far away, she was finally able to calm herself down and realised that maybe she had taken it too far. She thought about it for a long while, before forcing herself to soften up and return to the coffee shop. However, after returning, she did not see Ning Cheng, just a pile of broken pieces of her bank card on the table.

.....

“Big Brother, you finally came out.” Ning Ruolan delightedly looked at the suddenly appeared Ning Cheng. Even her voice was shaking from the excitement. She was afraid that she would not be able to see her big brother once he disappeared.

Dai Xin hurriedly spoke up, “Elder Brother Xiaocheng, the people from the hotel came over saying that our accommodation deposit has been used up, if not renewed then they would drive us out.”

Ning Cheng smiled and spoke, “Don’t worry, I’ll go find that Dhulandi, and I’ll get him to get your money back with interest.”

Spending two days inside the Miniature World, Ning Cheng was able to restore his cultivation to the 1st Level of the Essence Building Realm. He did not know the strength of the experts here so he would have to go and check them out by himself. Once his cultivation reverted to the Soul Sculpting 4th Level, at that time, Ning Cheng could just shoot out once. Even if it ended up destroying the Hundred Bay Point, he would not frown.

However, after Ning Cheng recovered to the Essence Building Realm, he realised that it would take a bit longer before he could fully recover.

“Dhulandi rarely appears in the hotel, it is just one of the many properties under him. At most, he would only come once or twice in a year. And that is only because of the few good things that would appear at the Hundred Bay Point occasionally; otherwise, he might not even come here once a year.” Ning Ruolan spoke worriedly.

“I know that he is already here, so I’m just going to have some small talk with this guy first. You remain here with Grey Toottoot, after I get back, we’ll go out together.” Ning Cheng did not know anything about Dhulandi, but he was aware that Dhulandi had entered the hotel. With his Spiritual Consciousness, if a person with considerable strength came anywhere near, he would immediately be able to sense it. Even if the person who came was not Dhulandi, he was probably not someone simple.

.....

Dhulandi was very tired but in a good mood. This time, he and Shelley along with Monk Rui Qing ended up with a not-so-small harvest in the barren lands outside. The three of them had collaborated to kill a Commander Level eight feet tall Electric Silver Insect, but he was the one who was able to obtain the Insect Nucleus. This kind of Insect Nucleus was worth over several tens of billions of Yuan and impossible to purchase in the market.

It was also because of the benefits that he was able to obtain by cooperating with Shelley and Monk Rui Qing, that Dhulandi invited the two of them to his own hotel. Preparing to take out his most treasured bottle of red wine.

“Haha, I have been coveting Little Du’s bottle of red wine for a long time, today we finally get to drink it.” A black-robed monk looked at the wine bottle in Dhulandi’s hand and laughed.

“Monk, don’t call me Little Du, my name is Dhulandi, Dhulandi.....” Dhulandi muttered.

“It’s just a regular drink.” A rough voice appeared in the room, causing the three people inside the room to stand immediately up with shock reflecting in each other’s eyes.

The Gate Of Good Fortune

Chapter 373: The Five Major Experts

“Who are you? How did you get in?” Dhulandi was the first to react, as he stared at Ning Cheng and asked. Not to mention that his room had many layers of protections and monitored 24×7, just by his strength, nobody would dare to enter his room, without him knowing about it beforehand.

Moreover, of the world’s five Major Experts, there were already three inside this room.

Shelley and Monk Rui Qing were still puzzled and were wondering what was going on. After all, this was Dhulandi’s personal room. Since this person had explicitly came to Dhulandi’s room as such, they felt awkward to ask the first question. Now that Dhulandi had already spoken, the two of them immediately understood that this person had secretly broken in.

Shelley and Monk Rui Qing have been collaborating with each other for a long time, after understanding the situation, each of them just shared a glance with each other, before they suddenly struck out as they rushed forward to grab Ning Cheng. At the same time, Dhulandi also burst into action.

The speed of the three people was quite fast and had almost attacked simultaneously while they struck out Ning Cheng in unison.

Ning Cheng on seeing these three people begin immediately gleamed an estimate about the strength of the five Major Experts. This Monk Rui Qing and Dhulandi were equivalent to Late Stage True Condensation Cultivators, while this Shelley was equivalent to an Intermediate Stage True Condensation Cultivator.

However, they did not have Spiritual Consciousness; as such, they were at most similar to the most ordinary kind of True Condensation Cultivators. Even if Ning Cheng had not restored his cultivation to the Essence Building Realm, these three people would still not be his opponent, so how could they compete against him now that his strength had already recovered to the Essence Building Realm? Moreover, his Essence Building Realm was much different from ordinary Essence Building Realm. That was because when he was just at the Early Stages of Essence Building Realm, he was already able to kill Profound Congealing Cultivators.

However, in a place with a limited quantity of Spiritual Qi like the Earth, even if it was because of the Insect Nuclei, for one to be able to cultivate to the Late Stages of True Condensation Realm, it showed that these people were not simple at all. From this, the qualifications of these people were evident to be first class. These three might still be able to advance after a period under proper conditions.

Ning Cheng did not choose to make a move against them. He only stimulated his True Essence and then randomly moved one of his feet a bit, not even bringing out his Imposing Aura.

“Crash, Crash.....” It was only a slight movement of a single foot, but the three of them felt as if a mountain had crashed into them, as they fell into a pile of rubble all at once.

Ning Cheng slowly walked to the place where Dhulandi was sitting at initially. He then opened the bottle of red wine that Dhulandi had just taken out, before directly drinking a mouthful of it. He then shook his head and spoke, “It really is just a trashy drink.”

When he said this sentence, Ning Cheng suddenly wanted to laugh. He recalled Elder Brother Cang Wei's words from the time when he drank Ning Cheng's wine brewed from Spiritual Enhancement True Nectar. That statement carried the same sentiment. It looks like as a person grew stronger, their vision and tastes would also change.

"Don't....." Dhulandi suddenly called out.

However, his call was too late; Shelley had already taken out a pistol and fired several shots at Ning Cheng.

Ning Cheng only showed a faint smile. He lifted his hand and caught all the bullets with his bare hands. Even if Ning Cheng had not undergone Body Forging, Ning Cheng still would not have to fear these bullets. Now that he was already a Body-Forging Cultivator, letting these bullets strike his body, would it even matter?

If it were the laser wall, then Ning Cheng would be somewhat wary of it. After all, he had still not recovered his full strength. It also affected the power of his corporeal body partially. When it came to things like the laser wall, who knows if it might injure him or not? Before his cultivation reached the Profound Core Realm, he did not want to try out the laser wall. However, as for bullets, why would he care about them?

"....." When they saw that Ning Cheng was able to catch the bullets with his bare hands and with ease, the Dhulandi trio was utterly stunned.

Although they would also be able to dodge bullets, those were just plain bullets. Moreover, they would only be able to avoid them. However, Shelley's pistol was the latest magnetic-source pistol; as such, the shells shots out were 20 times faster than usual. Were these kind of rounds even avoidable? The answer was a big 'NO'. As to catching them with their bare hands, which expert in this world would even be able to go up against him? Even if the world's five Major Experts worked together, it would still not be enough to go up against a single palm from him.

The reason why Dhulandi had shouted 'Don't' was so that Shelley would not start shooting. He wanted Shelley to threaten Ning Cheng with his pistol first before figuring out the problem. After all, in this era, having another expert on the level of Ning Cheng would definitely be a good thing. However, he had not thought that Ning Cheng simply did not even need to fear Shelley's magnetic-source pistol bullets.

Ning Cheng raised his hand, shooting out two bullets. These two bullets directly pierced through the flesh of both of Shelley's arms, while Shelley was still in a daze. It caused his hands to loosen up, followed by the pistol automatically flowing into Ning Cheng's hands.

Seeing blood gushing out from both his arms, Dhulandi quickly spoke out in panic, "Senior, I hope that you could spare Shelley's life on account of the number of insects he worked hard to kill."

One had to say, this Dhulandi's Mandarin was quite good. Not only was his words fast, but his words did not have even half a break between them.

The two bullets pierced Shelley's both arms, causing his face to turn pale as he looked at Ning Cheng in horror. In his heart, he was already regretting his decision and was trembling uncontrollably. He had never seen or even heard of such a horrifying expert like Ning Cheng.

There was a flash from Ning Cheng's hand causing the magnetic source pistol in his hand to disappear without a trace. He then squeezed his hand, and the remaining bullets turned to metal powder that flowed down to the ground.

"This was only a warning, the next time any of you dare to bring out arms against me; I might not show this kind of patience." Ning Cheng spoke out quietly.

He did not choose to kill this Shelley, which was because when Shelley continuously fired, he had avoided all of his vital points. He aimed two of them at his arms while targeting the other three at his legs. If it were otherwise, then even if there were ten of Shelley's, Ning Cheng would have killed each one of them. Hard work to destroy those insects? This was merely a joke to him.

These fellows rose to power by killing insects, what kind of hard work was this, at best; it would only help them get rich. Even if he chose to kill all the insects, it would just take a bit of effort on his part. However, with their abilities, if they wanted to kill off all the insects, then it was merely a dream.

"Yes, Yes....." Dhulandi quickly bowed and answered. Then he promptly took out some medicinal powder and applied it to Shelley's wounds. They were killing insects outside all year round, as such for them to carry such type of medicinal powder; it meant that its effects were also quite good.

Monk Rui Qing quickly wiped the sweat off his forehead before cautiously taking a few steps forward and bowed down to Ning Cheng while holding up his cupped fists before speaking, "Is Senior also a person from China?"

"That's right; I am truly someone from China." Ning Cheng replied with a nod.

At this moment, Dhulandi had finally finished helping Shelley with his injuries. Then he, along with Shelley, arrived at the front of Ning Cheng and gave a bow.

If someone else had seen this scene, then probably his or her jaws would be touching the ground in shock. Dhulandi, Shelley, and Monk Rui Qing were three of the five Major Experts of this world. Usually, no matter where they went, it was the others bowing down to salute them, when was it ever they offering their salutes to others?

"Senior, for you to visit my Wizbon Hotel, yet this Dhulandi not coming forward to welcome you is truly a terrible sin." Dhulandi could see that Ning Cheng was likely a bit reasonable to talk with, but he still put himself on a lower level.

Ning Cheng knocked once on the table, "My sister was put under house arrest by your hotel. I am here today to ask as to what is going on."

Hearing Ning Cheng's words, Dhulandi immediately broke out in cold sweat. His skill was genuinely inferior to the senior sitting in front of him. Although he looked very reasonable on the surface, with his sister actually imprisoned in his hotel, would he still choose to remain consistent in his behaviour?

Which bastard was it; at this moment, Dhulandi wished he could swallow that person alive, the person who dared to imprison Ning Cheng's sister.

"Senior, please let me first find out the situation." Although cold sweat was dripping onto the floor, Dhulandi did not dare to wipe it off.

Even when he was facing that Commander Level Demon Insect, Dhulandi still had not felt any kind of fear. However, standing in front of Ning Cheng, that invisible pressure coming from him had utterly terrified him to his core.

Dhulandi was not a True Cultivator but an ordinary martial artist, so of course, he did not know anything about 'imposing aura' or about 'killing force'. Ning Cheng had only slightly pressured him with his imposing aura, if he could still remain calm and steady, then it would have been a strange event.

"You can go ahead and ask, but my time is limited." After Ning Cheng finished, he took out a bottle of wine brewed from Spiritual Enhancement True Nectar and took a sip.

An indescribable scent of wine drifted out, not to mention the still standing Monk Rui Qing and Shelley who were swallowing their own saliva; even Dhulandi who was just about to leave the room was also unable to bear swallowing down a mouthful of saliva. It was no wonder this incomparably powerful senior said that his wine collection was just trash. Any other wine did not even have the qualifications of 'trash' in front of this wine. Just taking a whiff of the wine, he could feel his strength enhanced by a considerable margin.

.....

Dhulandi returned quickly, he had merely gone for a few minutes, before he returned to the room once again.

"Senior, this junior had really not thought that such a thing would happen. I took the initiative to remove the manager who had collaborated with the External Domain Insect Nucleus Merchant House and is waiting for Senior to dole out the punishment. For my Wizbon Hotel to do this kind of thing, this junior was not aware of it truly. This junior is willing to take all responsibility for it." After Dhulandi came back, he respectfully stood in front of Ning Cheng and spoke out.

Ning Cheng just gave an 'En' sound, then after slightly considering this matter, he once again spoke out, "Since you have already dealt with the hotel manager, then its ok. Although this time the people from your hotel colluded with others, I also have to thank you. If not for your hotel, my younger sister might have died. Sit down, oh right, the two of you can also take a seat."

With Dhulandi's status, it was, of course, impossible for him to participate in this kind of low-levelled managerial matters. However, if Dhulandi had even the slightest involvement in it, then Ning Cheng would not have even bothered to speak and would have already razed the Wizbon Hotel to the ground.

"Yes, thank you, Senior." The three people on hearing Ning Cheng inviting them to sit down hurriedly gave a bow to him and expressed their thanks; there was even some excitement in their voice. If they could get on good terms with an expert like Ning Cheng, then what would it mean?

"Senior, this junior intends to gift the Hundred Bay Point's Wizbon Hotel to Senior's little sister as compensation." Dhulandi thought that Ning Cheng was not that kind of ferocious person, so he chose to speak out with a natural tone after sitting down.

Ning Cheng took out a bottle of wine brewed in Spiritual Enhancement True Nectar before passing it on to Dhulandi before speaking, "Here, I don't want to be accused of being cheap. This one bottle of wine is worth more than ten thousand of such hotels."

“Thank you, Senior.” Dhulandi was pleasantly surprised as he stood up and used both his hands to receive the bottle of wine from Ning Cheng carefully. Even if Ning Cheng had casually given away a bottle of water, he would still be delighted.

Later, when he took a sip of this wine, Dhulandi finally realised the meaning behind Ning Cheng’s words. Not to mention ten thousand Wizbon Hotels, even it was a hundred thousand Wizbon Hotels; he would never be willing to exchange this bottle of wine. Even his good friends, Monk Rui Qing and Shelley, were able to gain immense profits at someone else’s expense.

Ning Cheng just waved his hand and spoke, “You don’t need to call me as Senior. My name is Ning Cheng.”

“Yes, Senior Ning. I just received some information a moment ago that the Cheng Ruolan Company comes under the name of Senior Ning’s sister. Three days later, the Hundred Bay Point will be holding a large-scale exchange. I would like to represent the Hundred Bay Point and invite the Cheng Ruolan Company to participate in it. I don’t know if Senior Ning.....” Although Dhulandi had said a ‘Yes’, he still addressed him as ‘Senior Ning’.

Ning Cheng also stood up and spoke, “Okay, three days later, I will come there to have a look.”

Dhulandi also stood up, before he personally escorted Ning Cheng to the door of the room and opened it before stepping back to let Ning Cheng pass first.

[The Gate Of Good Fortune](#)

Chapter 374: Collecting Insect Materials

Ning Cheng had just walked up to the where Ruolan and Dai Xin were staying, when he saw Ruolan and Dai Xin, with a completely shocked look on their faces, standing at the door. A tall woman also stood beside her sister with some documents in her hand.

“Big Brother, this is the head of the Wizbon Hotel. She said that you have already bought the hotel and that it now belongs to the Cheng Ruolan Company, this.....” Seeing Ning Cheng walk towards them, Ning Ruolan spoke with a voice as if she could not believe such a thing.

Dai Xin was also looking at Ning Cheng with a bewildered look on her face. Buying the Hundred Bay Point’s Wizbon Hotel, just how much money did this mean?

Ning Cheng gave a smile, “What they said is correct, I traded this hotel with other things. It now truly belongs to the Cheng Ruolan Company. You and Dai Xin can handle the industry transfer procedure; I will be going out on a trip.”

He had not thought that Dhulandi to be this quick with his service. Although he had spoken about it initially, it looks like he had already put people into motion for transferring the ownership rights of the hotel to his younger sister.

“Where are you going?” Ning Ruolan asked in a panicked tone. Whether or not the hotel was hers was unimportant. What was even more critical was where her big brother was going.

“Senior Ning, this is the Hundred Bay Point’s ID card, it would be of great assistance to you.....” Dhulandi hurriedly ran over to them. Then he took out a golden card before handing it respectfully with both hands to Ning Cheng.

“Oh, thank you very much then.” Ning Cheng was already thinking of going out, so this ID card just came in time.

As he took the ID card, Ning Cheng saw the engraved words on the ID card ‘Hundred Bay Point Super VIP’ followed by a series of honorary titles.

Ning Cheng actually did not care about it, but with the ID card, it would not be troublesome for him to come and go from this place. At least he would not always have to employ stealth tactics.

Although Dai Xin had heard Dhulandi’s name numerous times, she had never seen him. However, Ning Ruolan had actually seen Dhulandi once before. This was one of the five Major Experts of the world. Yet this kind of a powerhouse was actually referring to her big brother as ‘Senior’.

Seeing Ning Cheng receive the ID card, Dhulandi felt very pleased as he spoke up, “This junior will not disturb Senior with his matters. This hotel has several special rooms; Senior can come here at any time to stay.”

Seeing Dhulandi retreat, Ning Ruolan carefully asked, “Big Brother is that person Dhulandi? I think he looks a lot like him.”

“He is. Three days later, there will be a large-scale exchange in the Hundred Bay Point. All of the world best companies will be participating. Are you still looking for materials? Three days later, we are going there to participate.” Ning Cheng had seen many Crucible Transformation Experts, so when it came to Dhulandi’s skill as a martial artist, he really did not care much about it.

Ning Ruolan quickly spoke out, “Big brother, that is the largest Exchange Meet in the world. We are simply not eligible to go there. The ones going there are some of the world’s top companies, in other words, the top influencers of the world. Moreover, let alone the funds needed to go there, we don’t even have any materials to display.”

Ning Cheng showed a faint smile before speaking, “Who says we are not qualified to participate? That was the thing of the past. This time, the reason why I’m going out is to find some materials for us. Our Cheng Ruolan Company is going to bring out a few products that would be unmatched.”

If it were not for his younger sister Ruolan’s Company, Ning Cheng really would have been too lazy to think of even attending this kind of meeting. He was going to take away his younger sister, so he had to help in developing the Cheng Ruolan Company first. He had even thought of leaving behind the Wizbon Hotel, along with the company, to Dai Xin. Dai Xin had taken out all of her savings and had accompanied Ruolan to such a place. In any case, she would not allow Dai Xin to suffer any grievances on her behalf. As such, before leaving, he would give one of the world’s largest materials company to Dai Xin.

As for capturing the Insect Queen, Ning Cheng would not go about doing it just yet. After he caught the Insect Queen, the next and only step would be to leave Earth. As such, he had to wait until his strength recovered entirely before attempting such a thing.

“Really, Ruolan, can we really to the Hundred Bay Point’s Materials Exchange?” Dai Xin shouted out in surprise. Although she had only been in contact with Insect Materials for a short while, she was much more interested in the Insect Materials than Ning Ruolan was. For Ning Ruolan it was just a way to make some money, because of which Ruolan showed interest in establishing an Insect Materials Company. Otherwise, she would have never come to such a place like the External Domain Insect Nucleus Merchant House to look at Insect Nuclei.

“Grey Toottoot, when I’m not here if anybody dares to make a move on Ruolan or Dai Xin, then you are free to kill them. Don’t show any mercy and also don’t be polite about it.” Ning Cheng patted Grey Toottoot who was being held by Ning Ruolan in her arms.

Grey Toottoot called out a few times in a dissatisfied manner as if trying to say ‘does this mean that you look at me as if I was the kind that liked receiving disrespectful visitors?’

.....

The ID card provided by Dhulandi was truly quite effective. As no one inspected him at even one of the several checkpoints of the Hundred Bay Point. Not to mention about inspecting him, but the moment the security personnel saw Ning Cheng’s ID card, all of them even bowed in salute.

After leaving the Hundred Bay Point, Ning Cheng then took out the Rank 5 Battle Disc. After giving out the command to locate an insect-infested site, the Rank 5 Battle Disc transformed into a black line before it instantly rushed into the air.

“Found a scanning signal, belonging to a lower level radar, do you want to put up an interference shield?” Inside the Rank 5 Battle Disc, Sifting Orchid’s clear voice sounded out.

“Put the shield up.” Ning Cheng said without any hesitation. He was going to kill a few small insects, but he did not want to make a fuss about it with others.

Just a few minutes later, Ning Cheng saw endless insects from within the Rank 5 Battle Disc. This was a city abandoned a long time ago. He had indeed not guessed wrong, as many of the insects here are quite close to turning into Class 1 Monstrous Beasts. He even saw several big ones that were close to Class 2 Monstrous Beasts in power.

In this place, there were also a few different types of insects other than the Sharp Toothed Yellow Spot Insect. From what Ning Cheng saw, there were at least a dozen different species. Some of these insects were busy in killing each other while some of them were hiding in the corners waiting to ambush others.

What was shocking to Ning Cheng was that he actually found a few insects with crude wings. It was an easy guess that if this kind of insect had enough time to evolve, these winged insects would then be able to easily bypass the laser walls and attack the city.

Once this happened, it would indeed bring a catastrophe for the entire Earth.

As the Rank 5 Battle Disc descended, the nearby insects immediately discovered it, causing them to rush towards it in swarms. Some of those insects with crude wings were able to leap higher than the other insects, almost to the point of being able to touch the Rank 5 Battle Disc.

As this dense swarm of insects swarmed over in his direction, it would cause any person with fears of crowds, to feel extremely unbearable. This place was still very far from the location of the Insect Queen, once he approached nearer to the Insect Queen, wouldn't the insects there be even more powerful?

"Sifting Orchid, use the crowd killing mode of the Spirit Stone Cannons to attack them. Just kill these insects but don't vaporise them." Ning Cheng immediately issued the order to attack.

Although even if he did not use the Rank 5 Battle Disc, he would still be able to take care of these insects with ease, Ning Cheng was disinclined to fight it out with these low-levelled insects. With the Rank 5 Battle Disc's large-scale attacks, it would be able to kill these insects straightforwardly and quickly.

The Rank 5 Battle Disc sent out an intermittent buzzing sound. Then it immediately displayed all kinds of data on the giant display monitor in front of Ning Cheng. In the middle of this displayed data, there was a circular distribution map, with dense amounts of green dots displayed.

"Spirit Stone Cannons have been prepared, no differential life fluctuations for the first round of attacks." As Sifting Orchid's voice came out, the Rank 5 Battle Disc shot out several raindrop-thick red lines into the crowd.

Ning Cheng who was sitting in the Battle Disc quickly found that the insects on the ground, under this red line, ended up dead instantaneously, without even being able to put up any kind of resistance.

At the same time, the green dots displayed on the distribution map were rapidly decreasing; however, red dots were quickly replacing the disappearing green dots. Ning Cheng immediately understood that initially, these dots were representing all the insects in range. The green dots indicated that the insects were alive and had life, while the red dots represented those that have been killed.

Ning Cheng stood up and spoke, "Sifting Orchid, I'm going down to collect the materials from the insects, you follow behind me. Wherever I go, you have to follow. At the same time, kill all the nearby insects; leave not a single one alive."

Finished saying that, Ning Cheng then descended into the masses of insects that had just recently died, and began gathering their Insect Nuclei. With his Essence Building Cultivation, plus a knife type Spiritual Artefact, it was easy to collect the Insect Nuclei. As long he raised his hand, his long knife would dig out several Insect Nuclei before he stored them away in his ring.

The insects killed by the Rank 5 Battle Disc were really too many, causing Ning Cheng to have a continuously increasing collection, to the point that he was just not able to gather it all by himself. Although he had said that he was going to collect some materials, but these Insect Nuclei were in itself numerous enough to the point that it would keep him busy for quite some time.

As time passed, Ning Cheng lost interest in collecting lower level Insect Nuclei and directly started to look for high-level Insect Nuclei. However, after wasting almost a full day on it, Ning Cheng felt that this kind of approach would not necessarily be the most profitable approach.

Within the insect, an Insect Nucleus was undoubtedly the most valuable. However, it was merely one part. The reason why these insect materials were not as relevant as the Insect Nucleus was that the Insect Materials were not correctly processed.

The Insect Nucleus contained Essence Qi, it was not only useful for martial artists, but it also had some uses for True Cultivators. To a Martial Artist, Essence Qi was much more direct and more natural to absorb than Spiritual Qi. However, for True Cultivators, Spirit Stones were more precious than Insect Nuclei. However, to a Martial Artist, the Insect Nucleus that contains the worldly Essence Qi was the most valuable thing.

Once it was absorbed from the Insect Nucleus, then it was gone, but if he could refine these Insect Materials into some rudimentary Magical Artefacts, then perhaps it would become even more valuable than Insect Nuclei.

However, Ning Cheng's Artefact Crafting ability was the poorest of all his skills. Fortunately, he was also an Array Formation Grandmaster. If he could inscribe an Array Formation onto the Magical Artefact, then it would definitely be able to increase the rank of the Magical Artefact by a full grade.

These low-levelled insects almost did not have any intelligence, but that did not mean that they had no knowledge at all. They still possessed some instinctual knowledge. It was also because of this that these insects knew that they cannot approach the laser wall and that as soon as they got close to it, their only fate would be to turn into ashes. Therefore, after the indiscriminate slaughter by the Rank 5 Battle Disc, the insects realised that this broken and abandoned city would not be able to provide them with any protection, causing many of these insects to flee.

Ning Cheng found a place to sit down and began refining these Insect Materials. His refining speed was quite fast. After he extracted the valuable insect materials, he then improved them into shank-like weapons. However, it was still not a weapon comparable to even a low-grade Magical Artefact. Ning Cheng then immediately inscribed an Array Formation onto it, causing this rudimentary Magical Artefact to rise in rank to a low-grade Magical Artefact.

It was mainly because refining such things was fast that Ning Cheng was somewhat disinclined to collect more materials only to get back to refining them. Doing it this way would also save him a lot of time, and he did not have to touch these materials repeatedly.

After a day, Ning Cheng was able to refine low-grade Magical Artefacts by himself, but after he inscribed the Array Formations onto these low-grade artefacts, it had caused them to jump in rank to become a medium grade Magical Artefact.

.....

"Tian Huanyu, two days have passed since then, why have you not brought me that woman?" In the luxurious room of the External Domain Hotel, Master Yan's eyes were full of anger as he stared at Tian Huanyu standing in front of him. If not for this person in front of him still being of some use to him, he would have long since dragged him out and smashed his face.

"Master Yan, you cannot blame me for this matter. Two days ago, Wizbon Hotel's Dhulandi suddenly came back. Moreover, there was also Monk Rui Qing and Shelley who came along with him, who are currently staying in the hotel. Even if I have ten thousand times my courage, I will not dare to ask about it with them around."

[The Gate Of Good Fortune](#)

Chapter 375: Insect Material Exchange

The Wizbon Hotel or rather, now called the Cheng Ruolan Hotel. Now that the handover procedures were complete, as such even if Dhulandi were staying over, he would have to pay the room charges.

Dhulandi had been staying there since that night and chose not to walk away, while he carefully explained everything to Ning Ruolan standing before him, "Little Miss Ruolan, then one who plotted against you is Tian Family's Tian Huanyu. Tian Huanyu had received Tian Yan's instructions to take you away, so he deliberately played a trick to harm you in the External Domain Insect Nucleus Merchant House. If you want to make a move on the External Domain Insect Nucleus Merchant House or want to bring over Tian Huanyu, I'll be able to help you right away."

Ning Ruolan had already long suspected that the Tian Family was behind all this, but she did not know that it was actually Tian Yan. Ning Ruolan had already heard about this person called Tian Yan, he was the person with the most power in his generation of the Tian Family and the future Tian Family's head.

"Let's wait for big brother to come back for this one; my big brother can take the decision on this for me." Ning Ruolan was in no mood to deal with them. Until her big brother came back, she just did not have the confidence to deal with such a matter.

"Then I will take my leave first. Little Miss Ning and Little Miss Dai, if you have anything to take care of, then you can immediately inform me." Dhulandi spoke while he carefully withdrew.

"Ruolan, who is Tian Yan?" After Dai Xin saw Dhulandi walk away, she asked in a whisper. She was in a good mood, as she was now the Chief Financial Officer in the Cheng Ruolan Materials Company. One had to know that the net profits garnered by the hotel in just a day already exceeded several million.

"He is a very influential man in the Tian Family, but I also heard that he is a sex maniac. Moreover, he is cruel and completely ruthless in his ways, without a single shred of good reputation to his name." Ning Ruolan replied. The reason she knew about this was that she had spent a lot of time and energy to investigate the Tian Family; as such, she possessed more knowledge than what others knew about the matters relating to the Tian Family.

Finished saying, Ning Ruolan sighed, "I don't know when my brother would be back."

Just at the exact moment, Ning Cheng's voice sounded out, "Ruolan, you don't need to be worried. I'm back."

"Big brother." Ning Ruolan was immediately surprised. Since her big brother came back, rest everything was secondary.

Ning Cheng looked at the new luxurious room before smiling and speaking out, "It looks like this hotel is quite good, even the Presidential Suite would be quite inferior to this."

"That is without question, the net profit of this hotel on a normal day is already several million. Moreover, there are more and more people coming in every day. I think our hotel's profits would soon cross ten million." Dai Xin joyfully spoke up from the side.

Ning Cheng knew that even if the hotel brought in more than ten million in profits every day, to someone like Dhulandi, it was only a small amount of money. For him to open a hotel here was just to set up a base in this location.

“Right, Elder Brother Xiaocheng, Dhulandi had just come in a few moments ago, saying that he found out who is plotting against us.....” Dai Xing chirped in, completely spilling out the words Dhulandi had spoken to them a few moments ago.

Seeing Ning Cheng’s face turning wrathful, Dai Xin quickly spoke up, “Elder Brother Xiaocheng, Dhulandi said that he can purchase the External Domain’s Hotel and the Merchant House for us if needed.”

Ning Cheng calmed down, “I don’t need him to buy these two places, tomorrow we will attend that Global Materials Exchange. You and Ruolan would be the ones in charge. As for the External Domain Hotel, after the trades meet finishes, I will directly obliterate it. We only need one hotel, not two. As for that External Domain Merchant House, we will turn it into our own Merchant House as compensation.”

Ning Cheng did not mention anything about Tian Yan or Tian Huanyu, these two people were soon going to be dead, and so what was the use of referring them?

“Big Brother, in tomorrow’s Materials Exchange, you can be the main focus, Little Xin and I will help from the side.” Ning Ruolan on hearing her brother speak that she was the one in charge immediately spoke up.

Ning Cheng was slightly hesitant, he had initially intended to disguise himself and mix in together with Ruolan. Although he was not afraid of anything, he did not want to face Tian Muwan again. Tian Muwan was an important personage in the Tian Family; as such, it was highly unlikely that she would pass up on this Materials Exchange.

However, Ning Cheng quickly put this matter to the side, regardless of whether Tian Muwan came or not, he had already faced this kind of incident. If he was afraid to see Tian Muwan, then it showed that he was not entirely over this matter.

“No, you and Dai Xin will be the ones to call the shots; I will help you from the side.” Ning Cheng decided to put these things back in the past. As for disguising himself, he chose not to do such a thing.

“En, that’s fine too. Because we were able to get affiliated with this hotel, as such, we can also scrape out a few tens of millions to use.” Ning Ruolan finally agreed on her big brother’s view.

“We won’t be buying anything; rather we will be selling things.” Ning Cheng quickly spoke out. Although several tens of million sounded like a massive amount of money, the fact was that in such large-scale exchanges, it would only be a small fraction compared to others.

Dai Xin asked, “Elder Brother Xiaocheng, what are we going to sell?”

“These ten Insect Nuclei and these ten weapons.” Ning Cheng spoke while simultaneously taking out ten Insect Nuclei that were close to Class 2, and took out ten weapons.

In fact, these were five low-grade Magical Artefacts, four medium grade Magical Artefacts and one high-grade Magical Artefact, totalling up to ten Magical Artefacts. The high-grade Magical Artefact was not something Ning Cheng had created from the Insect Materials, but something he had taken out from his own ring.

“Big brother, this is a Commander Level Insect Nuclei.....” Ning Ruolan had handled many Insect Materials before, as such she immediately shouted out in surprise the moment she picked one up.

Ning Cheng knew that this Insect Nucleus was something that he had dug out from a Demon Insect that was close to advancing to the level of Class 2, in other words, it was a Demon Nucleus from a peak level Class 1 Demon Insect, so how could it be commander level?

“What is a Commander Level Insect Nucleus?” Ning Cheng asked.

Ning Ruolan was surprised as she grabbed the Insect Nucleus and spoke, “Big brother, we struck rich this time. This Insect Nucleus has a value of roughly a few tens of billion in Chinese currency. Simply put, there is simply no actual market price on it.”

Ning Ruolan had handled many materials; as such, she was well aware of the preciousness of the Commander Level Insect Nuclei. Commander Level Demon Insects were the highest grade, as such were very powerful. Even if it were Battle Commanders of the same rank, they were not necessarily their match. That was because the defensive abilities of this kind of insect were just too powerful.

Once one encountered the Eight Footed Electric Silver Insect whose forte was in speed, perhaps only the Five Major Experts would be able to kill it. That was because although this insect was a Commander Level Insect, its strength, and speed had surpassed the Commander Level, while its Insect Nucleus classified as Quasi-Domain Level.

However, her big brother was able to bring in such a Commander Level Insect Nucleus, how could they not flourish?

That’s not right; Ning Ruolan saw that the Insect Nuclei taken out by her big brother were all about the same rank. Ten Commander Level Insect Nuclei? Ning Ruolan felt as if her own head was not enough to compute its value.

Only after a good long while, she finally reacted, as she started explaining in excitement, “Big Brother after these insects appeared, the world started to classify the Martial Artists according to their merits and strengths into Soldiers, Battle Officers, Battle Generals and Battle Commanders. Each of these ranks split into five Star sub-ranks. As for the Insect Nuclei of these insects, according to their corresponding strengths, they also ended up split into respective sub-levels. As such Commander Level Insect Nuclei have a very high value.”

“So it was originally because of this. It looks like Dhulandi should be a Battle Commander.” Ning Cheng nodded and spoke.

However, Ning Ruolan then explained, “Big brother, Dhulandi is not a Battle Commander, that’s because the strength of the Five Major Experts is beyond the scope of Battle Commanders. He belongs to a level above the Battle Commanders, however since there is no such division, so they are collectively referred as ‘the Five Major Experts’.”

“Does that mean that there is no higher classification than the Commander Level for the Insect Nuclei?” Ning Cheng asked.

With his current strength, he was not afraid of those insects, because of which he had deliberately chased down a Class 2 Demon Insect, and once Ning Cheng disposed of it, he had then dug out its Insect Nucleus.

Ning Ruolan shook her head and spoke, "That's not it, once an Insect Nucleus surpasses Commander Level it would then be classified as a Domain Level. The Tian Family's External Domain Insect Nucleus Merchant House, Domain Insect Materials, and the External Domain Hotel have their names based on this term. If one ever had the chance to encounter Domain Level Insects, then they absolutely would never be able to capture it. It is something only theoretically accomplished by the collaboration between all the Five Major Experts. However, the value of that level Insect Nucleus might even be higher than a hundred billion."

"Well then, I do have one of those." Ning Cheng spoke as he took out a Class 2 Insect Nucleus and put it in Ning Ruolan's hands.

"This... It really is a Domain Level Insect Nucleus....." Ning Ruolan stared at the Insect Nucleus in her hand in complete shock. Although she had never seen a Class 2 Insect Nucleus before, she undoubtedly glimpsed a few peak Commander Level Insect Nuclei. However, the aura coming from it was far more potent than anything that she had sensed until now.

Seeing the surprised look on Ning Ruolan's face, Grey Toottoot jumped onto the couch to sleep out of boredom. Just one look was enough for him to determine that it was the most common Class 2 Demon Nucleus, what was there to be so surprised about it?

"You forgot that your big brother is a True Cultivator." Ning Cheng spoke with a smile.

Ning Ruolan and Dai Xin's eyes immediately shone, that's right, even Grey Toottoot was quite capable, so why wouldn't their elder brother kill Domain Level Insects?

"This Insect Nucleus will not be put on sale; rather it is only for exhibition. It will later become Cheng Ruolan Company's defining treasure for the public." Ning Cheng pointed to the Demon Nucleus in Ning Ruolan's hand and spoke.

"Elder Brother Xiaocheng, what about these weapons?" Dai Xin finally found the chance to speak, as she pointed to the pile of weapons.

Ning Cheng thought for a while before replying, "Among these weapons, the cheapest one would be around one billion Yuan while the most expensive will be about a hundred billion Yuan....."

"What?" Ning Ruolan and Dai Xin turned sluggish.

.....

The Hundred Bay Point was a prominent place, as it contained almost 90% of the entire world's insect materials. Moreover, over 80% of weapons manufactured from the Insect Materials flowed out from the Hundred Bay Point. No matter what kind of Insect Material Company was it; they just would never be able to grow without the Hundred Bay Point.

However, for the past few days, the Hundred Bay Point was livelier than usual as executives from all over the world, along with many powerhouses, kept pouring in from all directions.

The reason was that was that the world's largest Materials Exchange Meet was about to begin in this place. In this Exchange Meet, one would be able to sign large orders, at the same time people would also be able to spend a tremendous amount of money for the things that catch their eye.

Today was the first day of the Hundred Bay Point Global Materials Exchange Meet. Whether it was the most massive commercial structure of the Hundred Bay Point, or the public square outside of the Hundred Bay Point's Exchange Towers, all of it was crowded with people of all colours.

In the Hundred Bay Point's Exchange Towers, there were five commercial floor levels, with each floor level being incomparably spacious and offering many booths.

The Ning Cheng trio had just arrived at the entrance of the Hundred Bay Point's Exchange Towers. They had not even managed to take out their invitation when a young woman waiting at the door immediately rushed towards them and gave a greeting before speaking, "Excuse me, are the three of you from the Cheng Ruolan Materials Company?"

"Yes, we are from Cheng Ruolan Materials." Ning Ruolan quickly replied.

This young woman then immediately turned even more respectful with her tone and posture before speaking up, "The three of you, please take the Booth No. 396 on the Second Floor. It is a 2nd Rank Booth. Because the 1st Rank Booth reserved by Lord Dhulandi was occupied by another Lord, Lord Dhulandi is still negotiating with them....."

Ning Cheng nodded and spoke, "You can go and tell Dhulandi that we don't mind using Booth No. 396. I hope that he doesn't take the trouble as we wouldn't need that 1st Rank Booth."

[The Gate Of Good Fortune](#)

Chapter 376: The Booth That Caused A Stir In The World

The location of Booth No. 396 was not very bad, although it was not located in the most conspicuous place on the second floor; it was at least located at a relatively easy to spot location.

However, Ning Cheng was not worried about whether the location was good or bad; he knew that regardless of this, the things placed in his booth would not fail.

The sentence 'the fragrance of wine fears the deep alleys' was undoubtedly correct; however, if the fragrance of his wine was strengthened to a certain extent, while the alley was also not that deep, then what else was there to be worried about?

Ning Cheng had just placed his things in the booth when Dhulandi hurriedly ran over.

"Senior Ning, this time that Homer snatched the stall that I had reserved and was just negotiating with him." Dhulandi had an ashamed face, but his eyes concealed a trace of anger, it was apparent that he was very discontented with that Homer. Although in the Hundred Bay Point, he and Homer were one of the Five Major Experts, however, his strength, compared to Homer, was a lot worse.

Ning Cheng gave a simple smile, "Dhulandi, you don't have to call me Senior in this place. As for the booth, my things would sell out anywhere. Moreover, there are only twenty things; I believe that they would soon be sold out....."

Dhulandi wanted to say 'I would have bought all of it before you brought it here', but he feared that Ning Cheng would think that he was looking down on him. Therefore, he had to rephrase his words before speaking up, "Senior.... Ning, what are the things that you want to sell? How about I help you in announcing your things in the main display monitors to get you started?"

“Announcing would be of no use, my things simply need no announcements.” Ning Cheng spoke as he took off the blue cloth covering the booth revealing ten crystal boxes containing an Insect Nucleus each. There were also ten weapons on display without any decorations. In addition to all of this, there was also a crystal sphere. With the crystal sphere placed right in the middle of the booth. There was an Insect Nucleus kept preserved inside the crystal sphere.

“This.....” Dhulandi sluggishly looked at the Insect Nuclei in the crystal boxes. Only after a long time did he spoke up with a shocked voice, “These are all Commander Level Insect Nuclei... No, this one is.....”

Dhulandi stared at the Insect Nucleus inside the crystal ball, before shouted out in shock, “This is a Domain Level Insect Nucleus, a real Domain Level Insect Nucleus.....”

Domain Level Demon Insect, even for the Five Major Experts, they were rare existences. Moreover, these existences were generally on the same level of power as the Five Major Experts. For him to be able to see such a high-level Insect Nucleus in this Materials Exchange Meet, it was merely a dream that he did not dare to believe. While he was fighting those Demon Insects, he had also encountered a Domain Level Demon Insect. However, at that time, he could only use his skills to save his pitiful life. Wanting to kill Domain Level Demon Insects to obtain their Insect Nucleus, it was merely a dream.

However, as he thought back to Ning Cheng’s terrifying abilities, Dhulandi’s rippling heart began to calm down. This Senior Ning had formidable skills, so for him to be able to obtain a Domain Level Demon Nucleus did not seem impossible.

Immediately Dhulandi thought of his previous idea of buying all of Ning Cheng’s things for himself, causing his face to turn hot immediately. If someone had said that there were still things in this world that he could not afford, he would have undoubtedly regarded it as a joke. However, he knew now that he really would not be able to buy all these things.

“Where is the Domain Level Insect Nucleus?” Dhulandi’s words immediately attracted the many onlookers.

As more and more people started to crowd around the front of Ning Cheng’s booth, it also attracted a few people with a more discerning eye. Soon someone called out, “Commander Level Insect Nuclei. They are all Commander Level Insect Nuclei, my god, there are a total of ten...”

“This crystal sphere even contains a Domain Level Insect Nucleus; I was unexpectedly able to see a Domain Level Insect Nucleus.....” Ning Cheng’s booth was getting even more crowded as countless people rushed over. The stalls next to them just were unable to display their own things and had no choice but to move their booths to the side.

“That’s an Essence Weapon.....” Finally, someone was able to recognise Ning Cheng’s Magical Artefact. These few words were even more shocking than the Commander Level Insect Nuclei.

Essence Weapons were even rarer than Commander Level Insect Nuclei. Moreover, for a Martial Artist, an Essence Weapon was much more precious than any other thing. Essence Weapons would allow Martial Artists to bring out the full power of their True Qi. The strength of these weapons, compared to ordinary weapons, was much more powerful.

If you end up meeting a powerful Demon Insect, as long as there was an Essence Weapon in hand, it will provide you with a massive boost in strength.

Dhulandi's vision, initially glued to the Domain Level Insect Nucleus, had unexpectedly not seen the Essence Weapons. Now that he heard the words of the crowd, he immediately discovered the Essence Weapons. Causing his face to burn up, these were all Essence Weapons; moreover, there were so many Essence Weapons in front of him, how could he buy all of them alone? Fortunately, he had not spoken that sentence aloud.

However, his heart immediately turned fiery, with these many Essence Weapons, if he could just get one...

Essence Weapons and Commander Level Insect Nuclei, even Domain Level Insect Nucleus had appeared; moreover, all of them in Ning Cheng's booth. The crowd it gathered was just impossible to describe.

Whether it was people on the first floor, the second floor or even the third floor, all of them flocked to Ning Cheng's booth on the second floor. At the same time, word spread all over the world that Essence Weapons and Commander Level Insect Nuclei had appeared at the Hundred Bay Point. At this moment, it caused many individual planes to fly towards the Hundred Bay Point, indicating that numerous experts were flocking towards the same location.

.....

In the luxurious dining rooms of the Hundred Bay Point's Business Tower, a fair-skinned man put down his knife and fork. A female servant came in from the side carrying a pure white towel, which this man used to wipe his hands clean after she picked up dishes.

This man was Homer, one of the Five Major Experts. However, unlike others, he ate five meals every day; moreover, each meal, for him, must be the most lavish meal that was available. For him, the most enjoyable thing in the world was food. Because of his superb taste buds, it allowed him to enjoy all kinds of food with great relish.

Combined with his formidable skills, it allowed him to taste all kinds of delicacies the world had to offer.

Just at this moment, a red-clad curly haired man hurriedly walked over to Homer's back before he bowed and spoke, "My Lord, ten Commander Level Insect Nuclei have appeared on the second floor....."

"What did you say?" Homer's hand trembled before he asked a rhetoric question in shock.

"My Lord, there are ten Commander Level Insect Nuclei, ten Essence Weapons, one Domain Level Insect Nucleus....."

When Homer heard this, he suddenly stood up, even his chair shot out behind him, while the glass of red wine on the table ended up overturning. It was as if he had not perceived it at all.

The few female servants standing on the side did not dare to make a move in this kind of atmosphere. This was the first time that they had seen Lord Homer be so shocked.

After a few seconds, Homer stared at this man with curly red hair and asked, "Are you sure that what you are saying is true?"

“My Lord, all of what I’m saying is true. Even now, the booth is completely full of people, to the point that no one can even force their way in. This video was just shared by someone.....” The curly haired man quickly answered.

Homer tried his best to suppress the trembling in his hand, but his hands really could not stop trembling because of the vast excitement. The wall in front of him projected a crystal-clear image of Ning Cheng’s booth along with the sea of people in front of it.

“Cheng Ruolan Materials Company. It is a small company not well known and had almost gone out of business. But now it appeared in this place, it should be because of Lord Dhulandi’s backing.....” The curly haired man whispered from the side. He knew about his boss’s temper, as such he had done his homework before he came in. If the boss asked a question and he was not able to answer, then he could only wait for death.

Homer did not need to hear the curly haired man’s words as he could see Dhulandi on the side in the projected video...

“Why would Dhulandi help such a little thing?” In Homer’s view, Cheng Ruolan Materials Company was just a small thing. In his eyes, it was not even equivalent to a small thing.

The man with the red-haired curls quickly spoke up, “Cheng Ruolan’s boss is Ning Ruolan, who is also a gorgeous woman. I suspect Dhulandi fancies this woman, so....”

“So it was because of this.....” Homer could also see Ning Ruolan on the display screen. Ning Ruolan was definitely beautiful which made him feel that what the man had spoken was right.

After staying silent for a full ten seconds, Homer gave a sneer and spoke, “Even if Dhulandi is lending them his support, those good things would still belong to us. Did Dhulandi think that he could pocket all the things alone? That bastard must have found a way to deal with Commander Level Demon Insects; otherwise, he would never be able to obtain these many good things.....”

Homer had also fought with Commander Level Demon Insects before; however, he could only kill those who did not excel in speed. For those Demon Insects who excelled in speed, he indeed could not deal with them. As for Dhulandi, his skills were inferior to his own. Since he was able to obtain these many Demon Insect materials, then it definitely meant that he found some way to deal with the Commander Level Demon Insects. Otherwise, how could someone like him go against a Domain Level Insect?

Plus there were also so many Essence Weapons on display, from this it can be extrapolated that the means by which Dhulandi was able to cope with the Demon Insects was somewhat related to where these Essence Weapons came from; in other words, it was either a historical site or a tomb.

Thinking until here, Homer then spoke to the curly haired man, “Call in Quake to cause some trouble for them, as long as he can muddy the waters a bit, I will succeed.”

“Yes.” After the curly haired man replied, he quickly retreated from the room.

Not to mention in the Hundred Bay Point, even if one looked in all of Europe, there was nobody who did not know about Quake. This Quake was Homer’s illegitimate son and was incredibly arrogant. Any person who offended him would never be able to see the light of the next day. That was because he had

Homer supporting him from the back. As such, nobody dared to annoy Quake, people would not even dare to criticise him behind his back.

There was a kind of saying in the Hundred Bay Point, that if you want your enemy dead, then the most straightforward means to achieve that was to tell Quake that your enemy badmouthed him. You would never have to worry about anything else since Quake would take care of it automatically.

To Homer, his illegitimate son Quake indeed would not be able to measure up to Dhulandi in strength. However, as long as Quake and Dhulandi enter into a deadlock, then Homer would be able to speak out.

.....

“Everybody, you’ve already seen everything. Yes, these are ten Commander Level Insect Nuclei and ten Essence Weapons. However, because these things are limited, therefore we can only go down the path of bidding. As long as you can put an appropriate price on it, these Commander Level Insect Nuclei can be yours; even the Essence Weapons can be yours. If anyone tries to create any kind of disturbance, then they would lose the qualifications to purchase.” Ning Cheng on seeing the crowd getting larger and larger had to stand up and speak aloud.

After Ning Cheng’s words spread out, the crowd quickly calmed down. Since they were going to bid prices, then it would mean that only those in front might not be able to purchase the Essence Weapons.

“Humph, this place is the Insect Materials Exchange Meet and not some place where you can cause trouble. How dare you change your booth here into an auction booth? Someone confiscate those things, and bring these people to me.” An incredibly arrogant sounding voice resounded in the quiet crowd. Almost at the same time, the area in front of the booth, densely packed with people, automatically parted to two sides.

“It’s Quake....” Someone carefully whispered to the one beside him or her. This Quake chose to come here and cause trouble. Although the people standing in front of the stall were very discontented, they knew that anyone who dared to speak up at this moment would genuinely be unlucky.

[The Gate Of Good Fortune](#)

Chapter 377: The Second Expert Homer

Ning Cheng doubtfully looked at this person. Many people here had already seen Dhulandi with them. Dhulandi was also currently standing right beside him. Moreover, he had seen previously that the people who knew Dhulandi would all first give their respectful salutes to Dhulandi. Even if the person in front of them were too heaven-defying, they would still not dare to order around people at Dhulandi’s side.

Who is this fellow, with Dhulandi here, how could he still dare to be so arrogant? Alternatively, was it that he was also one of those Five Major Experts?

Dhulandi quickly whispered into Ning Cheng’s ears, “This man is called Quake, and is the illegitimate son of one of the Five Major Experts, Homer. Homer is second among the Five Major Experts, and even I am far from being his opponent. Even if it is the Hundred Bay Point, he still tries to pressure me everywhere I go. For Quake to come here, it should be because of Homer’s instigation. Homer must have thought

that I must have brought all of your things to sell off, as such wants me to spit out some for him. I'm sure that as long as I stick my head into this, Homer would come out to open negotiation talks with me."

"So that is the case." Ning Cheng nodded.

In a place like the Hundred Bay Point, dragons and snakes intermingled with each other. It was a place where the Five Major Experts and people of the various countries mixed with each other. After the Insect Tide appeared on Earth, this world was also slowly turning into a world ruled by strength.

"Senior Ning, you do not have to be worried about anything, even if that Homer is even more arrogant, he still would not dare to openly rob others in this kind of place. With me, Shelley and Monk Rui Qing together, he would not dare to be unscrupulous."

"Of course I'm not worried." Ning Cheng casually replied, while simultaneously taking out that magnetic source pistol that he had previously taken from Shelley's hand. He casually lifted his hand up and shot once.

Quake's expression turned to astonishment as the powerful impact of the bullet from the magnetic source pistol directly pierced through his glabella and blew open his head. He did not even have a chance to jerk away before he fell to the ground dead.

"This....."

All the people were staring in a dumbfounded manner at Quake's dead body on the floor. Nobody even made the slightest noise. Was it really Quake from the Hundred Bay Point who died? Moreover, killed in full view of the public. Just like poking a hole in a big basket. Even Dhulandi had not thought that Ning Cheng would straightforwardly kill this fellow.

Ning Cheng then patted Dhulandi on his shoulder, "You just help me in handling this current matter here. I have something to take care of and will be back in a little bit."

"Ok, Ok..." Dhulandi quickly replied, but he really did not know as to how he should handle the situation. If Homer came, then he absolutely did not have any way to deal with him. Right, he quickly called Shelley and Monk Rui Qing. With the three people in the same place, even Homer would be quite afraid of this lineup.

When Dhulandi gave his reply, Ning Cheng had already disappeared.

Ning Ruolan and Dai Xin looked at each other with pale faces; none of them knew as to what they should do in this kind of a situation.

.....

"I'm going to cook you alive....." Homer immediately threw the wine glass in this hand into the surveillance screen out of rage. He had not thought that the script would not play out according to what he had planned.

Where did this bold bodyguard come from? Even daring to kill his, Homer's, son.

"Even if Dhulandi goes completely bankrupt, I'm going to strip him alive." Homer's eyes now no longer contained the calm that he had shown previously. He immediately rushed to the table in a few steps

before opening his drawer. From the inside, he took out a pitch-black pistol and a long yet thin knife blade.

“Did you really think that I need others to protect me?” A sharp voice rang out inside the room. As Homer slowly turned around, he immediately saw the person who had just killed his son, Quake, a few seconds ago standing right in front of him.

“You.....” Homer stepped back in horror, while his hatred had also cooled down instantly. Even the madness in his eyes was fading away. He found himself possessing a preconceived notion about the world; did the world only contain five Major Experts? Why couldn’t it have a sixth Major Expert? Did just Dhulandi gather those Commander Level Insect Nuclei? Couldn’t someone else have collected it?

However, the young man in front of him was just too terrifying, let alone being so young. Not to mention him, but nobody would regard him as an expert on the first meeting.

After all, the world’s Five Major Experts only emerged after the appearance of the Insect Tide. Otherwise, it would have taken decades for Homer to reach his present Martial Cultivation. It was also because of the Insect Nuclei from the Insect Tide that he was able to leap to this level in just a short time. It was not only Homer, even the other Major Experts, was it not the same for all of them?

Moreover, how could one become an expert without possessing a proper heritage? How could this young man, who looked about 20-30 years of age, be this powerful even if he started cultivating from inside his mother’s womb?

“Sir, me, and you do not have any quarrel with each other, why must you take an unfair advantage over me? I, Homer, have killed numerous Demon Insects, but I have never met any person who can ride over my head.” This Homer’s Mandarin was inferior to Dhulandi’s, but Ning Cheng was barely able to understand what he was saying.

Ning Cheng gave a sneer, “Ride over your head? Isn’t that Quake a bastard of yours? Presumably, you have robbed quite a few good things over the past few years in the Hundred Bay Point.....”

“Go to hell.....” Homer, with his fastest speed, raised his pistol and fired off six shots one after another, while at the same time slashed out with the slender knife in his other hand.

Towards Ning Cheng, who was able to enter his room silently, he did not dare to show even half a shred of carelessness. Whether the bullets would be able to kill Ning Cheng or not, but his knife would definitely be able to split him apart.

No one could escape his knife except for the first ranked expert, Xing Liang. That was because he could change the direction of his blade in just a blink of an eye. No matter how fast the opponent’s reaction was his knife was even quicker. It was also because of this that he earned the nickname ‘Lightning Knife Homer’.

As the knife split through the air, it gave out a sound like a hiss, causing Homer to feel very satisfied with his attack. His Martial Arts has been growing steadily every day.

However, he immediately felt that something was not right. In his opinion, Ning Cheng must dodge the bullets, but he discovered that his opponent had not moved at all.

This should have been a good thing for Homer, if his opponent did not move, that would mean that he did not need to change the direction of his knife at all. Since the blade did not have to change directions, then, of course, it would mean that it could go faster. However, Homer couldn't help but feel that there was something wrong. After going through countless tempering through slaughter, it had given birth to a very sharp intuition in him.

Whether it was wrong or not, he did not have a second choice, his knife must finish its slash.

At this moment, a formidable Imposing Aura suddenly pressed down on him. Homer was still airborne; however, he had never ever felt such a powerful Imposing Aura. Even if he had seen a few Domain Level Insects; however, even their Imposing Aura was not this strong. Moreover, this kind of formidable Imposing Aura was powerful to the point that he was not able to breathe, not to say anything about maintaining the trajectory of the long knife.

A foot's sole enlarged in front of his eyes without warning; he discovered that his long knife wouldn't be able to complete the slash in time.

"Bang...." Homer heard the sounds of the bones of his face breaking apart, while he flew back uncontrollable before hitting the opposite hard wall with a loud 'Thud'.

"Ding Dong" A crisp sound emerged. The long knife in Homer's hand fell down to the floor. He was not even able to complete the slash with his blade before it had already fallen.

Homer sat up on the floor with a blank look on his face, he had even forgotten about the pain radiating from his face. Up until now, he was not able to figure out how he had lost.

A sense of shame welled up inside of him. Homer found that he was about to be slaughtered like those insects that he had killed until now. He felt ironic that he, ranked second amongst the Five Major Experts, would have to see such a day. If it were a typical loss, then he would have grudgingly accepted it, but he had lost by a kick to his face, a single fucking foot.

"You....." Homer's pronunciation was not very clear. He stared at Ning Cheng in shock. He was not able to figure out how an expert like Ning Cheng could exist in this world.

"I don't have the time to sit and chat with you." Ning Cheng merely raised his hand and sent out a fireball at him.

Homer looked in horror at the flames that surrounded him, while his mind had completely blanked out. At the level he was at, he had heard that some beings could gather up and store fire internally, but from what he saw, these were two entirely two different matters.

.....

When Ning Cheng returned to the second floor, Dhulandi had already cleaned away Quake's corpse. Although the second floor contained even more people, the crowd was no longer as noisy as before.

Ning Cheng on seeing Shelley and Monk Rui Qing here realised that Dhulandi must have called them here. From this, he could guess that Dhulandi was quite wary of Homer.

"Senior Ning, me, Shelley and Monk Rui Qing will go and negotiate with Homer." Seeing the returning Ning Cheng, Dhulandi quickly spoke up.

Ning Cheng gave a simple smile before speaking, "There's no need for going through all that trouble. Homer has already disappeared from this world. You don't have to worry about such people anymore."

Dhulandi subconsciously shivered a bit, since Ning Cheng claimed that Homer has disappeared then it meant that Senior Ning had apparently killed him. With Ning Cheng's ability, he did not suspect even half a word of his reply. It was genuinely laughable for him thinking back to how they met. Although this Senior Ning looked quite amiable to speak with, now it seemed like the reason he had not killed Dhulandi back then was that Dhulandi did not try to cause trouble for his people. If Dhulandi dared to create even the slightest of offence, then the next moment, Dhulandi might have most likely also disappeared from the world.

At this moment, Dhulandi wholeheartedly accepted his role in front of Ning Cheng.

"Senior Ning, some of the experts have only just arrived, and some are still yet to arrive. Why don't we hold up the auction for a few more days before organising a special auction for these things?" Dhulandi whispered in Ning Cheng's ear.

Ning Cheng knew that the price of these things would definitely go a lot higher; however, he was not interested in such tedious matters so he just gave a simple reply, "It would be of no use, just sell them now."

Finished saying that, Ning Cheng then asked again, "Ruolan, did Tian Yan not arrive?"

Ning Ruolan was just about to ask her big brother to drop this matter, but when her brother asked about it, she immediately whispered, "Tian Yan did not come, but that Tian Huanyu came. When he saw Dai Xin and me together, he immediately left. I guess that he went back to report to Tian Yan. If my guess is correct, then Tian Yan should be arriving here soon."

"I got it." Ning Cheng nodded. He would not wait for Tian Yan to show up here. Instead, Ning Cheng decided to take the initiative to pay Tian Yan a personal visit. This man was genuinely blind for he dared to set his sights on Ruolan.

Thinking of this, Ning Cheng then added a few more sentences to Ning Ruolan and Dai Xin, "Ruolan, I'll be leaving to take care of something. As for the stuff put on sale here, you and Dai Xin can take care of it. However, you will primarily be helping Dai Xin as far as possible, just provide your help from the side if necessary. As to the starting price of the materials, let Dai Xin make the decision. With the Dhulandi trio here, nobody would dare to cause any trouble for you."

Dhulandi quickly spoke up, "You can rest assured. There would be absolutely no one who would dare to cause any trouble with us here."

"Elder Brother Xiaocheng, I got it." Dai Xin's eyes were red, she understood Ning Cheng's meaning behind his actions. When all of this was over, Elder Brother Xiaocheng would be leaving with Ruolan, while she would have to remain here.

Ning Cheng also sighed; this was all that he could do to help her. The Earth lacked Spiritual Qi; teaching people to fish would not guarantee that they would be able to fish. Even if Dai Xin becomes a True Cultivator, she would not be able to grow without searching for cultivation resources by herself. Whether she wanted to buy cultivation resources, or look for cultivation resources, she must have

substantial financial support backing her. Tian Muwan also seemed to have done that, and since Tian Muwan was able to do it, then Dai Xin would definitely be able to achieve such results.

Moreover, after he left, he would no longer be able to help Dai Xin. Therefore, before he departed this world with Ruolan, he wished to do something for Ruolan's fellow sisters who had taken care of her. For example, Li Shiyun could also enter the Cheng Ruolan's business group.

The Gate Of Good Fortune

Chapter 378: Conclusion

In the External Domain Hotel, Tian Yan was quietly listening to Tian Huanyu's words, while the wine glass in his hand ended up almost crushed.

After a long time, he finally took a deep breath and asked, "Are you sure that the person who shot Quake was Ning Ruolan's brother Ning Xiaocheng?"

"I'm sure about it, Little Miss Muwan had a past with that Ning Xiaocheng, and so I had seen him before a few times. Moreover, that Dhulandi also seems to care a lot about Ning Ruolan, otherwise it is simply impossible for him to take such a huge risk of offending Homer."

Tian Huanyu carefully replied.

"Homer.... Dhulandi....." Blue veins popped up on the back of Tian Yan's hands. He was well aware that he should never offend these two people. Do not look at his Tian Family having a place in the Hundred Bay Point; it was only because Little Miss Muwan knew a few experts. These experts also very much respected Little Miss Muwan. Otherwise, his Tian Family did not have the qualifications to stand on its feet in the Hundred Bay Point. However, let alone Little Miss Muwan or the entire Tian Family, none of them could ever compare to the Five Major Experts.

"Master Yan, I think that Homer will definitely make a move on Dhulandi in a short while, we would be better off as fishermen....." Tian Huanyu whispered from the side.

Tian Yan was silent for a long time before he slowly spoke up, "Even if we act like fishermen, we must have a certain strength to back it up, if we don't have enough strength then even if we want to act like a fisherman, it would only be a huge joke. Since so many good things have shown up in this Exchange Meet... When will Muwan arrive?"

Although he was the one asking with his own mouth, he was still puzzled in his heart. Properly speaking, Dhulandi was a person that could afford almost anything; how could he choose to offend Homer just for a woman? This just did not make any kind of sense to him. Although Ning Ruolan was quite attractive; but with the sort of person, like Dhulandi, what kind of woman could he not find?

Tian Huanyu seemed to have realised as to what was going on in Tian Yan's mind, so he quickly spoke up from the side once again, "Little Miss Muwan is on the way to the Hundred Bay Point and should be arriving soon. Little Miss Muwan does not cultivate normal Martial Arts. I think it would be better for Elder Brother Yan to send her..."

Tian Huanyu felt Tian Yan's mood to be a bit better compared to before, so he once again reverted to addressing him as 'Elder Brother Yan.'

Tian Yan waved his hand to interrupt Tian Huanyu's words before speaking, "I know what you want me to do, I don't need you to teach me. You just to go and arrange someone to kill a few insignificant people in the External Domain Insect Nuclei Merchant House. When Little Miss Muwan comes in, just say that it was done by Dhulandi and Ning Xiaocheng."

"I'll go right away...." Tian Huanyu knew that the Master Yan of his was someone who liked to play the dark hand behind the scenes; as such, this kind of matter was entirely typical for someone like this Master Yan.

Tian Huanyu had just turned his head, but then he unexpectedly saw Ning Cheng standing right behind him, causing him to scream aloud, "Ghost....."

However, he immediately understood that it was Ning Xiaocheng in front of him and not a ghost before speaking out, "Ning Xiaocheng, how did you come in?"

"So you are that Ning Xiaocheng?" Tian Yan also stood up in shock, but he quickly calmed down. This Ning Xiaocheng had been roaming outside like a vagabond for a few years; as such, he treated him as an unimportant person.

Ning Cheng ignored Tian Yan and looked at Tian Huanyu and spoke, "You don't have to go anywhere. I just want to ask you one question. Was it you who plotted against Ruolan's company?"

"What plot? Your sister was able to climb up using the Tian Family; you should feel lucky about it." Tian Huanyu reckoned in his heart that Ning Xiaocheng should have secretly followed him here. It looks like the hotel security at the entrance is indeed rubbish. It seems like he would have to overhaul it completely.

Ning Cheng absolutely did not have any interest in speaking a second sentence. Raising the magnetic source pistol in his hand, he pulled the trigger once.

Seeing Tian Huanyu sporting a hole in his glabella, Tian Yan stood there for a long time with his mouth open without even reacting. Only after he regained his senses did he realise that since this person even dared to kill Quake, then wanting to kill Tian Yan was merely akin to pinching an ant.

"Eldest Brother, please forgive me, I did not know anything about these matters. It was that bastard Tian Huanyu who had added inflammatory details....." Tian Yan immediately knelt on the ground.

"Ping." A light sound emerged; Ning Cheng just had no interest in hearing Tian Yan's words at all. This kind of trash was not even worth wasting his time.

Despite the room splattered with the still-warm blood flowing out from Tian Yan and Tian Huanyu, Ning Cheng did not choose to turn them to ashes using his fireball. He had come here to warn the Tian Family to stop moving against Cheng Ruolan Company.

"Sure enough, with proper backing, even a dog will be emboldened. It has only been a few days since we met, but not only were you able to get your hands on a magnetic source pistol, you even became so neat in killing people." A sarcastic yet clear voice sounded out.

Ning Cheng did not need to look; he knew that it was Tian Muwan. Since Tian Muwan was the one to come here, there was also no need for him to avoid her. If Cheng Ruolan Company had to develop and

prosper in Dai Xin's hands then eventually they would have to come face-to-face with Tian Muwan. Might as well face her right here and now. Although he had killed Tian Family's Tian Yan and Tian Huanyu, Ning Cheng did not feel even half a shred of guilt.

If he had not returned in time, then these bastards would not even leave behind his younger sister, Ruolan's, bones. If he still chose to be polite, then it would indeed be a strange event.

Ning Cheng quietly watched Tian Muwan, but refused to explain nor did he speak anything. He thought that even if Tian Wan wanted to, she would not be able to do anything to him.

"Why don't you also kill me with it? I'm also someone from the Tian Family." Tian Muwan on seeing Ning Cheng not speaking, her expression turned even colder.

"No matter who, if they dared to even touch Ruolan, my sister, I would kill them. It was the same before; it is the same now and will remain the same in the future." Ning Cheng spoke out with an insipid tone.

However, he suddenly felt sad in his heart, if Tian Muwan had not come before, it would have never turned into this. Today, was there anything between him and Tian Muwan that could indicate that they were once a couple?

Some matters, even if you force yourself to forget about it, once you face them once again, you will immediately find that you were never able to ignore it altogether. If Tian Muwan really wanted to attack him, would he counter her? Ning Cheng gave out a sigh in his heart. He just was unable to tolerate anyone trying to hurt Ruolan, but if Tian Muwan did not make a move on Ruolan, and instead wanted to attack him, then he discovered that he really would not be able to strike back at Tian Muwan.

Tian Muwan turned utterly enraged by Ning Cheng's cold and flat tone. In the present insect infested era, where strength meant respect; for you to butter up to a Dhulandi, it was no different from turning indifferent. Since you care so much about your younger sister, then why did you push your sister to Dhulandi? You hypocrite, sham!

Thinking back to the time she had to face the tremendous pressure from her family, but still managed to be together with him for more than two years. Only for him to go missing for a few years conveniently, it forced her to swallow all the abuse hurled at her by others silently. They had just met once after that yet this bastard still thought himself to be great, even disinclined to say even a few words before turning around and walking away.

So what if Dhulandi was one of the Five Major Experts? She was a True Cultivator who was able to use Spiritual Sense. Even if it was Dhulandi, in her eyes, he was only a boorish fellow.

Killing her Tian Family's next generation Family Head, and only giving such an off-handed sentence for an explanation, was this Tian Muwan already dead to him?

Seeing Tian Muwan's chest heaving up and down, while her complexion turning cold to the point that it looked as if even the air would freeze up, Ning Cheng still remain silent.

"Since you are such an arrogant person, did not even take my bank card, so why did you run to Dhulandi to curry favours? Even pushing your sister to him, you must be feeling very proud of it, aren't you? It turns out that you just wanted to use that arrogance of yours on my body....." Even Tian Muwan herself

was not able to figure out from where she was channelling this much anger. After she started cultivating, her mood no longer was as impetuous as it was before; however, she was still unable to hold back her pent-up anger in front of Ning Cheng.

Ning Cheng's anger was also gradually rising, she could say whatever she wanted to say and do to him, but she should have never dragged his sister into this. He immediately lashed out, "No matter what I do, at least I would not deliberately give something given to me by my lover to an unrelated person only for it to end up in the sewers. No wonder, your families are so well matched regarding statuses....."

The sentence had not yet finished when Ning Cheng was already regretting his words. Since it was a matter of the past, then what use was it to speak about it again? Should he really lower himself to the same level as this woman? He sighed, as the anger in his heart also wholly disappeared without even a trace left behind. Even if these words ended up causing some hard-to-erase marks; however, it had already happened. In any case, it was already impossible for all of them to live in one place.

"You...." Tian Muwan's anger swelled up even more, causing her to spill out a mouthful of blood.

The next moment, her hand swiped against her waist, before she stabbed out with a soft sword. The soft sword carried a cold light over its edge as it directly stabbed towards Ning Cheng's chest.

Ning Cheng was already regretting mentioning this matter from before, so when he saw Tian Muwan vomit blood, he couldn't help feel even guiltier in his heart. As this sword arrived, he just gave out a sigh and allowed the soft sword to pierce his chest.

If he felt unwilling, then Tian Muwan would never be able to injure him even if she repeatedly stabbed at him.

Letting her stab the sword into him was a form of conclusion between the two of them. After all, he had forced Tian Muwan to vomit blood. With Tian Muwan stabbing her sword into him, none of them now owed anything to each other.

As his blood splashed about, Ning Cheng did not look stunned at all at such a sight and even let Tian Muwan release her grip on the hilt of the sword. He then slowly pulled out the soft sword from his chest, placed the soft sword on the table in the room, before gradually walking out of the room.

"Why did you come back....." Tian Muwan called out in a crying voice; however, Ning Cheng's figure had already disappeared without a trace.

The Gate Of Good Fortune

Chapter 379: The Severe Injuries of Yin Yihui

"Big brother, we just sold a Commander Level Insect Nucleus for 1.1 billion....." When Ning Cheng came back, Ning Ruolan spoke with a pleasantly surprised voice.

Ning Cheng smiled and took out two Talismans before handing out one each to Dai Xin and Ning Ruolan before speaking, "Ruolan, I will be returning to seclusion. Just keep the Talismans on you. If anyone dares to attack you, just crush the Talisman, and I'll come out immediately."

“Grey Toottoot, if someone dares to be long-winded in this place, you can directly go and bite them.” After Ning Cheng gave the Talismans to Ning Ruolan and Dai Xin, Ning Cheng then left Grey Toottoot with some special instructions.

“Elder Brother, are you not going to be with us?” Dai Xin quickly asked.

“My strength is still too bad; I will have to continue with my cultivation.”

Saying that Ning Cheng then turned to Dhulandi and spoke, “Dhulandi, I will have to trouble you to take care of things here. If you want, then the three of you, Shelley and Monk Rui Qing can pick an Essence Weapon.”

After Dhulandi heard those words, his heart immediately skipped a beat. He had already settled on that wide-backed knife, now that Ning Cheng had spoken out, he quickly spoke out with excitement, “Don’t worry about it. I will certainly help them take care of things here.”

Seeing this, both Shelley and Monk Rui Qing also quickly came up and promptly offered him their thanks with complete excitement. However, Ning Cheng just waved his hands showing that he did not need any thanks in return for it.

“Ruolan, I’m going into the room to seclude myself. It might take a long time. So unless there is an urgent matter, try not to disturb me.” After inviting the Dhulandi trio to keep a lookout, Ning Cheng then left a few words behind for Ning Ruolan.

Now that there were a few people like Dhulandi helping out, along with Grey Toottoot, he could now focus on recovering his strength as soon as possible. He had already found his younger sister, as such continuing to stay in this place would not bring any advantage to him, other than feeling a bit sad and sorrowful.

“Senior Ning, Xing Liang just sent a message that he wanted to see you.” On the side, Monk Rui Qing forcibly reigned in his excitement from obtaining an Essence Weapon, as he came forward and spoke in a low voice.

“I do not have the time.” After Ning Cheng finished, he quickly left the area.

Whoever Xing Liang was, Ning Cheng was not at all interested in him. Since there was already the Dhulandi trio along with Grey Toottoot present there, as such no one would be able to hurt even a hair on Ruolan.

Seeing Ning Cheng not even ask about who Xing Liang was, Monk Rui Qing couldn’t help but give out a deep sigh. He did not dare to mention this for the second time in front of Ning Cheng. The reason why that Xing Liang had chosen to convey a message via him was most likely that Xing Liang thought Ning Cheng would definitely wait for him. However, it only showed that Xing Liang just was not aware of the fearfulness of this Senior Ning.

Seeing Ning Cheng quickly leave, Dai Xin then whispered into Ning Ruolan’s ear, “Ruolan, I think that Elder Brother Xiaocheng’s smile was quite reluctant. It looks like something is going on in his mind. He did not even look happy.”

Ning Ruolan also pursed her lips but did not reply to Dai Xin's words. After her big brother came back, she had also noticed that he had a gloomy look on his face. However, the only thing in the entire world that would cause her big brother to show such a grim face would definitely be that Tian Muwan. It also meant that Tian Muwan has finally come to the Hundred Bay Point.

Seeing Ruolan also somewhat depressed, Dai Xin quickly spoke up, "Ruolan, forget what I said just now."

Saying that, Dai Xin loudly spoke up, "We had just sold a Commander Level Insect Nucleus a moment ago, but now we are going to sell a low-grade Essence Weapon, the minimum auction price is 1 Billion Yuan....."

Properly speaking the price of an Essence Weapon was definitely higher than that of a Commander Level Insect Nucleus, but after Dai Xin stated the amount, it met an awkward silence from the crowd. Everyone knew about the functions and uses of a Commander Level Insect Nucleus. It was ironclad that one would be able to upgrade their cultivation to an entirely new level; however, only a small number of people could use Essence Weapons. So who could say for sure if they were real or fake?

Some of the people who were aware of Essence Weapons were feeling anxious, not because the Essence Weapons were fake but because they were about to go all in with their money.

"Sister Ruolan... It really is you." A pleasantly surprised voice sounded out. Immediately, Ning Ruolan was able to make out the person displaying a shocked expression on her face.

However, she was quite puzzled looking at this woman with surprise plastered all over her face. It wasn't that she did not recognise this woman; instead, she did not know her at all.

"You certainly do not know me, but your elder brother knows me. I'm called Zeng Jiyun; I'm your elder brother's....." The woman hesitated for a moment before proceeding, "Friend....."

After speaking the two characters for 'Friend', her face turned a bit unnatural. Everybody could see that her relationship with Ning Ruolan's brother might not just have been that of an ordinary friend.

"Are you really my big brother's friend?" Ning Ruolan doubtfully looked at Zeng Jiyun. Her big brother had been away for a few years, but she had never seen any of her brother's 'friends' coming forward to help her, so why would a friend of her big brother crop up after he came back?

If the one who could have said to be regretting for the past few days, then it was definitely Zeng Jiyun without any doubt. She had hated the fact that she seemed to have grown several years old, causing her vision to worsen.

Ning Cheng had often worked at the construction sites in the past, causing her to get accustomed to it. So why did she feel that the Ning Cheng now lacked any prospects when she met him again for the first time in three years? In the past, she had already recognised that Ning Cheng was very unusual, but why did her vision change after graduation?

Could a person lacking any prospects be able to make a Five-Star Battle Officer address him as 'Eldest Brother'? Could a person lacking any hopes be able to help her sister exhibit these many Commander Level Insect Nuclei in this kind of location?

Thinking back to a few days ago, when she had just met Ning Cheng, Ning Cheng still looked quite happy. It was only because she had invited him to accompany her to lunch with someone else that Ning Cheng's joyful look had disappeared without a trace.

However, after she realised that Yin Yihui, who had addressed Ning Cheng as 'Eldest Brother,' was actually a Five-Star Battle Officer, she had immediately rushed out to look for Ning Cheng. It was not until today's Insect Materials Exchange Meet that she was able to learn, by chance, that the owner of this booth was Ning Cheng's younger sister.

"Ning Ruolan, where is Ning Xiaocheng? I want to see him." This time a cold voice sounded out.

"Oh, Muwan, you also came here. I was just about to come look for you." Zeng Jiyun looked even more delighted.

However, Tian Muwan's complexion was somewhat pale, she only shot a cold glance at Zeng Jiyun before speaking, "I can't afford to be your backstabbed friend. If what you said at back then were even the tiniest bit true, then you would not be here. You would have hit a bountiful harvest a few days ago."

Hearing Tian Muwan's blunt words, even if Zeng Jiyun played the fool, she could not help but hang her head down in shame.

She understood Tian Muwan's meaning, that is, after Ning Cheng had appeared once again, it was she, Tian Muwan, who had told her the news of Ning Cheng's emergence. If she, Zeng Jiyun, loved Ning Cheng truly, then she would have never chosen to part with Ning Cheng at that time. At that time when Jiyun had met Ning Cheng, Jiyun did not hesitate to leave Ning Cheng. In other words, her words openly ridiculed Zeng Jiyun, explicitly stating that she did not love Ning Cheng; instead, she was the type who was selfish and liked to take advantage of others.

Ning Ruolan quietly stared at Tian Muwan before replying, "Our poor family cannot afford to climb up to your wealthy family. My big brother wants to rest, I hope that Elder Sister Tian could spare us and not punish us too severely, just let us two siblings breathe."

Tian Muwan did not speak, she did not refute even half a word of what was said; instead, she slowly turned around and walked out of the crowd before she soon disappeared.

.....

After Ning Cheng returned to the hotel, he wanted to just restore his cultivation and get away from this place. In this place, other than his sister Ruolan, he really did not have any memories that he could consider as memorable.

Entering the Miniature World Ring, Ning Cheng arranged several consecutive and intertwining Spiritual Gathering Arrays and once again started absorbing Spiritual Qi.

Essence Building 1st Level, 2nd Level...

A week later, Ning Cheng managed to restore his cultivation to the 9th Level of the Essence Building Realm. Although he knew that Ning Ruolan and Dai Xin would not encounter any issues, Ning Cheng still chose to come out to look around by his own initiative.

“Big brother, has your cultivation improved?” Once Ning Cheng came out, Ning Ruolan’s surprised voice arrived.

Although she knew that her big brother was in the room, Ning Ruolan was not accustomed to it at all. Only when she saw her big brother in person did she finally feel at ease.

“En” Ning Cheng had been in closed-door cultivation for a few days, causing his strength to rise up to the 9th Level of the Essence Building Realm, letting him feel a bit better.

“Elder Brother Xiaocheng, everything was sold out. Except for the top quality Essence Weapon. I did not choose to sell it; everything else was bought up by others.” Dai Xin knew that she would soon start to cultivate; as such, keeping an Essence Weapon behind might end up beneficial for her. Moreover, it was a longsword, which she liked very much.

Ning Cheng wanted to leave behind a ring for Dai Xin, so he did not put much thought into Dai Xin’s words. After all, all the things of the company would ultimately go to Dai Xin.

“Sister Dai Xin, you can keep this ring. However, you would not be able to open it currently. When you reach the Essence Building Realm in the future, you would then be able to open it. There are a few Cultivation Resources I put inside, which would help you after you reach the Essence Building Realm. With regards to reaching Essence Building Realm, I left a few Spirit Stones and pills for you separately.” Ning Cheng passed over the ring to Dai Xin and spoke.

As Dai Xin received the ring, she couldn’t help but feel a bit uncomfortable in her heart.

Currently, the funds possessed by the Cheng Ruolan Company were sufficient. So for it to grow and develop was only a matter of time. However, unfortunately, by that time Elder Brother Xiaocheng might have already departed.

Moreover, she was also well aware that she would not be able to follow Elder Brother Xiaocheng or walk together with him, as she knew that the difference between her and Elder Brother Xiaocheng was too vast. While she did not look ugly but compared to Ruolan, she was only a medium grade at best. Compared to Ruolan, she was indeed quite far away in regards to beauty. Although she admired Elder Brother Xiaocheng sincerely and was secretly in love with him, this kind of matter, she would not be able to speak out even if she wanted to. If she chose to express it and if Elder Brother Xiaocheng decided to stay together with her, it would not be something natural.

“While I was cultivating, was there anything else that happened?” Ning Cheng casually asked.

Ning Ruolan hesitated for a moment before speaking, “Zeng Jiyun came to see you.....”

Seeing her big brother’s face not changing at all, she felt relieved and continued, “Tian Muwan also came to see you, but I said that you wanted to rest. So she left without any words.”

Finished speaking about the matters of these two women, Ning Ruolan’s tone relaxed as she continued, “Other than that, Xing Liang, the first ranked among the Five Major Experts came. However, when he did not find you, he seemed a bit unhappy. He left a message that asked you to come to Jing City to see him.”

Ning Cheng sneered; that person was just a trivial Martial Artist, yet actually daring enough to order him to go meet him.

"I see, well you don't have to worry about these things. From now on, I'll teach you the ways of the True Cultivators." Ning Cheng directly set aside the matters relating to Xing Liang while he prepared himself to teach his younger sister and Dai Xin about cultivation.

"Oh right, Big Brother, there was a person called Yin Yihui who was looking for you, he said he was your friend. He sported severe injuries when he came in. I asked Dhulandi to help him after administering basic treatment, so he is currently staying in the hotel." Ning Ruolan immediately remembered that a few days ago, a person called Yin Yihui had come in covered with scars and quickly spoke out.

"Yin Yihui got himself injured again?" Ning Cheng suddenly stood up, "I'll go check it out."

Yin Yihui was a person with a good nature. When Ning Cheng had just returned, Yin Yihui was the one who delivered him the first Insect Nucleus.

.....

"Elder Brother Ning....." Yin Yihui on seeing Ning Cheng standing at the entrance immediately called out in surprise. He had thought that he would never be able to meet Elder Brother Ning again. However, he had never imagined that just quoting Elder Brother Ning's name in the Hundred Bay Point would send him here immediately. Moreover, it was Dhulandi himself who personally helped with his recovery.

"How did you get injured this badly?" Ning Cheng could see that Yin Yihui had once again suffered substantial internal injuries. However, these injuries were entirely different from his previous internal injuries.

The Gate Of Good Fortune

Chapter 380: Jabbes Line Of Defence

"Elder Brother Ning, if not for the Cultivation Method that you passed onto me, I would be dead right now." Yin Yihui spoke with a slightly calm voice.

Ning Cheng took out a pill and handed it to Yin Yihui before speaking, "First take the pill, and then operate the Cultivation Method that I taught you to bring out its medicinal nature. It would heal your internal injuries at an even quicker rate."

Yin Yihui's injuries this time were completely different from the last time. The last time, it was purely an internal physical injury, but this time his internal injuries resulted from damage to his meridians. This kind of injury, even if one were a True Cultivator, they would not be able to recover with regular pills. However, Ning Cheng was already close to becoming a Tier 8 Grand Master, as such this kind of injuries were nothing much to him.

Taking the pill from Ning Cheng, Yin Yihui swallowed it down without any hesitation. Merely a few moments later, Yin Yihui stood up in shock as he cried out, "My injuries have completely healed....."

Ning Cheng hinted Yin Yihui to sit down then asked, "Tell me something, this time, the one who injured you should not be someone simple, right?"

Causing this kind of damage to the meridians, it was something impossible even for a Martial Artist with the same calibre as Dhulandi. Instead, it was something achievable only by using a trace of Spiritual Sense through Cultivation, even if the opposite party was not a True Cultivator, this kind of Cultivation Method was something beyond the means of a Martial Artist. However, Ning Cheng did not feel surprised by it. Since Tian Muwan can become a True Cultivator, then it would not be surprising that there would be more than one person.

Yin Yihui nodded and spoke, "Is Elder Brother Ning familiar with the Jabbes Line of Defence?"

Ning Cheng was aware that the Jabbes Line of Defence came into existence after the appearance of the Insect Tide on Earth. It was one of the five Major Lines of Defences jointly established by the entire world. This particular Line of Defence was at the outermost periphery of the Russo-Chinese border, near to the Russian Sea Area. The joint collaboration of the most influential countries of the world set up this Line of Defence. China was also one of them; moreover, it was also the main fighting force there.

These five Major Lines of Defences were responsible for resisting the insect infestation, filled with the elites from various countries. Yin Yihui possessed some excellent skills already, in addition to the Cultivation Method that Ning Cheng had taught him, his strength should have definitely improved. Let alone all this, didn't he also provide Yin Yihui with a High-Grade Magical Artefact?

"After my internal injuries healed last time, and because of the merits that I earned at the border, it allowed me to be promoted to a One-Star Battle General. However, just about a week ago, those insects lurking around seemed to have suddenly eaten some kind of stimulant. As all of them suddenly attacked the Line of Defence. The insects were endless and had almost completely shattered the laser wall around the Jabbes Line of Defence in one go. I was ordered, along with the other Battle Generals, to go to the Jabbes Line of Defence and support them....."

Speaking until here, it looked as if the blue veins on Yin Yihui would explode at any moment, as he continued, "I was already ready to put down my life to protect the Jabbes Line of Defence. Moreover, just like the other Battle Generals, I rushed to the front lines. Because I had an excellent Essence Weapon on me, it allowed me to kill innumerable insects on the battlefield..."

"Did someone amongst you covet your Essence Weapon?" Ning Cheng already knew that it was undoubtedly because of this.

Yin Yihui took a few deep breaths before speaking, "Yes, it was a man named Yan Rui. He called me and said that I had to hand over my Essence Weapon. He added that this type of weapon could only be used to its full potential if paired with a real expert. It was a complete waste of resources in my hands."

Ning Cheng gave a sneer. Such a substantial and compelling reason.

"Of course, I did not want to do as he asked, but then that Yan Rui raised his hand and sent out two palm strikes. However, I was unable to escape in time, ending up struck by those two palm strikes. He then kicked me in my chest, causing me to suddenly vomit out a few mouthfuls of blood, but at that time I was completely unable to move."

Yin Yihui couldn't help but clench his fists. "But he was not done yet. Yan Rui actually said that because of the rewards of killing more insects, I had plotted against a comrade-in-arms. He took away all of my military merits, took away my Battle General Medal and took away my Essence Weapon. If it was not for

Lord Dhulandi, one of the Five Major Experts, coming to the Jabbes Line of Defence in time, I might have not even been able to come back. Lord Dhulandi knew that I was Elder Brother Ning's friend, so was able to think of a way to send me back."

Ning Cheng frowned, for Yan Rui to kick Yin Yihui and damage his meridians; it showed that he definitely was not someone ordinary.

"Where is Dhulandi?" Ning Cheng was not too anxious to take care of Yan Rui; his first priority still was to recover his cultivation.

"After Lord Dhulandi sent me back, he immediately returned to the Jabbes Line of Defence. This was the biggest Insect Tide that we have seen in the past few years. The Line of Defence not only activated all of their laser cannons but also forced to drop a few nuclear bombs into the centre of the Insect Tide. However, even if that was the case, it not only did not reduce the numbers but on the contrary, their numbers keep increasing. I fear....." As Yin Yihui spoke until here, he had already put aside his own anger. However, he was anxious that the insect tide would break through the Jabbes Line of Defence at any moment.

Once the Jabbes Line of Defence broke apart, then the insect tide would be able to sweep across it to enter inside. At that moment, the entire country would have to face the insect tide just as they encountered it back in the Jabbes Line of Defence. At that time, it would not be only an insect tide, but rather the arrival of hell in the most real sense.

"Big Brother..." Ning Ruolan worriedly called out from one side. Once the insect tide breached the Jabbes Line of Defence, then the Hundred Bay Point would be one of the first to turn into food for those insects.

Ning Cheng hesitated once before speaking, "Yihui, we are brothers; this insect tide will eventually be exterminated. You don't have to worry about it too much. In any case, I must soon lead my sister out of this place. My sister founded the Cheng Ruolan Materials Company, which Dai Xin will take over in the future. If you want, you can join the company and help Dai Xin to share the load."

"Elder Brother Ning, I believe you. I will definitely listen to you." Even if Ning Cheng had not spoken about it, Yin Yihui did not want to go back to the Jabbes Line of Defence. When Yan Rui was openly plotting against him, there was not even a single person there who stood up in protest. If not for Dhulandi present there, he would have already been dead at this moment.

Moreover, he has also had high regard for Ning Cheng's skills. Could an ordinary person teach him a Cultivation Method that would help recovering from his internal injury completely? Can a regular person casually give away an Essence Weapon? Can they take out a pill that could restore him this quickly?

.....

Ning Cheng spent three days on the outside, after passing the most foundational level of Cultivation Methods to Ning Ruolan and Dai Xin and leaving behind a few Spirit Stones for them. Ning Cheng immediately went into seclusion to restore his cultivation once again.

Three days later, Ning Cheng was able to restore his cultivation to the Profound Congealing 2nd Level. However, Ning Cheng did not choose to go out just yet. He wanted to recover his strength back to the Soul Sculpting 4th Level in one fell swoop.

A month later, Ning Cheng restored his cultivation to Soul Essence 6th Level, but at this time, he received a message from his sister, Ning Ruolan.

Ning Cheng immediately came out of his Miniature World. His sister would not have sent him the signal if there were no problems.

After Ning Cheng came out, not only did he see the three people Ning Ruolan, Dai Xin, and Yin Yihui, he also saw Dhulandi. In addition to them, there was a woman who Ning Cheng did not know. However, Ning Cheng was also sure that he had never seen such a curvaceous woman before; just her face was enough to cause the downfall of nations and garner the envy of others. Even if compared to Tian Muwan, it was not one whit inferior.

Dhulandi no longer looked the way he appeared when Ning Cheng last saw him. Now that Ning Cheng saw him again, he looked like most of his hair had burnt off. Although he was wearing clothes over his body, Ning Cheng could make out in a glance that many wounds covered his entire body.

There was even a long bloody scar running down from his chin to the back of the neck and looked shocking. However, what made Ning Cheng feel a bit joyful was that both Ruolan and Dai Xin had progressed to become Qi Gathering 1st Level Cultivators, which also meant that both of them had good Spiritual Roots.

“What’s going on?” Ning Cheng asked Dhulandi in the puzzle, “Why are you hurt this badly? Was the Jabbes Line of Defence breached by the insects?”

Ning Cheng already reckoned that the Jabbes Line of Defence would not be able to hold for long, but it had only been a little more than a month, so the Jabbes Line of Defence should still be holding steady. Looks like it would not be able to stop the endless Demon Insects.

“Elder Brother Ning, the Jabbes Line of Defence is still standing, but it would not be able to hold on for long.” Yin Yihui quickly explained.

Ning Cheng nodded; he was not much worried about the Jabbes Line of defence. He was anyway going to destroy all these insects. However, that did not mean that he would recklessly go out without first wholly restoring his cultivation. This time the Insect Tide turned out to be more significant than the ones before. Apparently, the Insect Queen had finally started to make a move. Moreover, Ning Cheng who had returned from the World of True Cultivators knew that the Insect Queen would definitely be quite powerful. If he had a noble heart, then he would have already recklessly charged in to fight with the Insect Queen when he had restored his cultivation to the Essence Building Realm. However, it would not have been a fight; instead, he would only be going there to die.

Although the Insect Queen had not come out, it was only because the Insect Queen did not know that there was someone strong enough to pose a threat to it. Once she found out that there was indeed such a person, the Insect Queen would definitely be the first one to come out.

Moreover, that Yan Rui, the Head of the Line of Defence or whatever, had bullied Yin Yihui and had even stripped him of his merits, causing him to rise to the top of his hate-list. Considering his temperament, it already him being on best behaviour that he did not immediately rush out to kill that Yan Rui personally.

Hearing Yin Yihui address Ning Cheng as 'Elder Brother Ning', Dhulandi also used the same form of address. "Elder Brother Ning, if not for the remaining elites from the rest of the Lines of Defences coming in to support the Jabbes Line of Defence, then I'm afraid that the Jabbes Line of Defence would have long since submerged by the Insect Tide. Moreover, flying insects have started to emerge, causing the Jabbes Line of Defence to be in jeopardy. I'm afraid that this Line of Defence would not be able to hold on for more than three days."

"Mr Ning, with regards to the attack of the Insect Tide, everyone is responsible for protecting the Earth. If you really have such great abilities, then why hide inside the hotel? Alternatively, is it in line with your conscience? You have so many Essence Weapons. Moreover, are even selling them at a high price without taking out any for the Battle Generals to use at the border. In the future, when the Jabbes Line of Defence would be broken through by those insects, would you still choose to remain in hiding?" At this moment, the full-bodied beautiful woman abruptly spoke out.

Ning Cheng's face immediately turned frost-like as he spoke, "Oh. If that is the case, then why did Yin Yihui end up almost killed? Especially when he assisted you in killing numerous Demon Insects at the Line of Defence? Why did others rob his weapon? Why did no one stand up for him?"

That curvaceous woman was suddenly at a loss for words. Concerning Yin Yihui's matter in the Jabbes Line of Defence, although nobody had spoken about it consciously, everyone was aware of it in secret. However, she could not control that man at all. Not to say she, even the Commander-in-chief of the Jabbes Line of Defence cannot control him, let alone others.

Seeing this woman at a loss for words and unable to reply, Ning Cheng once again supplied a few words with a cold tone, "Wherever you are from, you better get the fuck back there. This is not a place that you can act wildly; if you want to kill those insects that badly then go nobody's stopping you."

He had sold only ten Essence Weapons, and all the people had seen them. Yin Yihui had been gifted an Essence Weapon but was robbed by others. Didn't the Hundred Bay Point sell hundreds of high-level weapons? Why did he not see anyone standing up and saying at that time that everyone was responsible for defending the Earth? Why did they not ask these companies to donate their weapons?

This beautiful looking woman on hearing Ning Cheng's words couldn't help but have a change in her expression. However, she did not choose to go out.

Dhulandi quickly spoke up from the side, "Elder Brother Ning Cheng, this is Commanding Officer Yi Lei from the Jabbes Line of Defence and is also from China. Xing Liang had called in an emergency meeting stating that we have to mobilise all our resources, he expressed that you need to come up with more Essence Weapons. So she volunteered to follow suit."

"Big Brother, yesterday, Xing Liang, the No. 1 among the Five Major Experts, sent a few words over, stating that you have to send all the Essence Weapons in Little Xin's hands and immediately come to the Jabbes Line of Defence. Otherwise, you would have to face the consequences." Ning Ruolan whispered from the side.

Because her big brother had said it earlier that she did not have to care about someone like Xing Liang, therefore after she obtained the news, she did not pass it onto her big brother. Now that Dhulandi had personally come, stating that the Jabbes Line of Defence was on the brink of collapse, which would also result in the Hundred Bay Point ceasing to exist in the future, Ning Ruolan had no choice but to call out her big brother.

Ning Cheng sneered. Consequences? Now he was actually looking forward to what these so-called 'consequences' were.
