

## The Gate 381

### The Gate Of Good Fortune

#### Chapter 381: The Last Time

“You can go back and tell that Xing Liang that I can’t wait for him to come here personally to deliver those ‘serious consequences’.” Ning Cheng swept a glance at Yi Lei and spoke out in a light tone.

Yi Lei bit her ruddy lips until they actually turned white, but she still did not leave the room. After a short while, she finally spoke up, “I am not someone sent by Xing Liang, nor do I have any relationship with him.”

Ning Cheng was too lazy to answer Yi Lei, as he took out a pill and handed it to Dhulandi and spoke, “This pill will make you healthy again. After your injuries heal, you can decide for yourself if you wish to stay or want to go back. You’ll have to decide that for yourself.”

Finished speaking, Ning Cheng then once again entered his own room. He wanted to increase his cultivation as soon as possible. From the looks of it, that person, Xing Liang, killed a few insects and was now starting to think of himself as someone very great. He was just too lazy to take care of these things right now. After he recovered his cultivation, he would then wholly eradicate the insects and just walk away from this place.

Yi Lei on seeing that Ning Cheng had already gone back into his room, although did not follow up after that, but also did not leave that place.

.....

At this time, in the wilderness a few dozen miles away from the Hundred Bay Point, Tian Muwan had a pale and dishevelled look on her face as she stared at a man standing in front of her wearing a red hooded coat. The soft sword in her hand was already broken into two, but it was not broken because of a fierce exchange with the enemy; instead, the other party had gently snapped it with two fingers. That’s right; she had seen it with her eyes clearly. The other party had only used two fingers to catch and break her soft sword in half.

No matter how she attacked the opposite party, her opponent was able to catch the soft sword in her hand with just two fingers with extreme ease.

“Who are you?” Tian Muwan did not continue attacking him. She realised that the strength of this person was already out of the scope of her imagination. His cleverness also exceeded her, to the point that she was just not a match for him at all.

She had seen the world’s Five Major Experts before, although she was still not a match for Dhulandi and the others. However, her strength was quickly catching up to them. Although she might not be comparable to that Xing Liang, at least she would not turn out to be much worse than Dhulandi.

However, in front of this person, she did not feel anything but despair.

“Who am I is not important, if I had wanted to you to die, then you would have already turned to ashes by now.” The scarlet hooded man spoke out in a hushed voice.

Tian Muwan, on realising that he had intentionally spared her, forced herself to calm down. Although she still held a deep fear in her heart, she knew that she couldn't show it on the surface.

The red hooded man looked at Tian Muwan, before giving a nod of appreciation before speaking, "If not for this insect tide, a woman like you would definitely be sitting in a boudoir fixing your eyebrows."

"What do you want from me?" Tian Muwan's hand gripping the soft sword's handle had turned somewhat white. She did not want to wait for how her fate would turn out.

"You are a True Cultivator, so I can help you build a foundation, as long as you become my disciple. Of course, there are certain responsibilities that you would have to undertake as a disciple of mine, for example, serving me in the bedroom." The red hooded man spoke out calmly.

He needed such a woman so that he could Dual Cultivate. This woman had one of the rarest Cultivation Method, which was completely opposite to his own Cultivation Method; as such, it could mutually complement each other. In this place, finding a female cultivator that could not only satisfy himself but also be up for Dual Cultivation was just too hard.

"In your dreams." Tian Muwan's tone turned icy cold in an instant.

The scarlet-robed man still spoke without any care, "I'm not asking you, you know. To deal with someone like you, I would not even need to use my hands. You anyway would not be able to break free from the oppression of my Imposing Aura. Moreover, you also seem to have quite the peppery disposition, so only someone as strong as me will be the most suitable. The others simply would never suit you at all."

"I already knew when you started cultivation, but I had no idea that in just a short period of time, you would be able to progress this much. Believe me, if you follow me, it would only be the right thing for you. When I am able to take a step further, then I'll go get that Insect Queen. For you to become my female disciple, it is really your good fortune."

Tian Muwan was shocked, a peppery disposition? Her disposition? Although she never thought herself similar to other more lady-like and gentle natured women, Muwan knew that she definitely did not have such a 'peppery' self-disposition.

"Just kill me already." Tian Muwan spoke up coldly; to perform Dual Cultivation with such a vile person was no different from being a pleasure tool for him in the bedroom. As such, she might as well die rather than let it happen.

The scarlet-robed man gave a sneer and spoke, "Do you really want to refuse a toast only to be forced to drink a forfeit? After I kill you, I can still strip you naked and rob you of your Yin Essence. To a person like me, whether you live or die, I am fully capable of robbing you of your Yin Essence. After that, I will slowly refine your body into my personal bedroom puppet, with that, ahem....."

Tian Muwan found herself hit by a bucket of cold water. If that were the case, then whether she was dead or alive, she would still be humiliated.

At this moment, she suddenly regretted her own increase in cultivation. If she had not started cultivating, then such things would have never birthed in her body.

However, what would happen if she did not cultivate? At this moment, she suddenly thought of Ning Cheng. If she did not choose the path of cultivation, would she also turn into something like Ning Cheng?

Ning Cheng had not appeared for three years, it caused her to feel angry, very angry, but that did not mean that she had turned entirely unfeeling towards him. Because she had started cultivating, she couldn't help but think that the two people were not of the same world. Because of this, Muwan began to believe that her thoughts were already set in stone...

If she did not start cultivating, would she have left behind that card for Ning Cheng? If she did not begin walking on the path of cultivation, would she have told Zeng Jiyun, who had brought harm to her, to go see Ning Cheng? At that moment, when she had initially conveyed to Zeng Jiyun about Ning Cheng's arrival, she actually wanted Zeng Jiyun and Ning Cheng to start a life together.

However, why did she want this? At this moment, in Tian Muwan's mind once again reappeared the scene from three years ago. She was standing in front of Ning Cheng while she had passed on the Pearl Hair Clip given to her by Ning Cheng to Zha Ziyi. Although she knew that Zha Ziyi had deliberately thrown the Pearl Hair Clip into the sewers, she even went ahead and said it to Ning Cheng on his face that Zha Ziyi could help her buy her a new one as a replacement.

What kind of person was Ning Cheng? What type of disposition did he have? She was already very clear about it. Her actions were tantamount to repeatedly stabbing him in the heart and then rubbing salt all over it. It was equivalent to making out with another man right in front of him. No, this thing for him was more of an insult to all that he had done rather than to his face.

Because she had felt continuous guilt because of that matter, therefore she was not willing to face it and was even more unwilling to acknowledge it. Although she had chosen to push Zeng Jiyun towards Ning Cheng, to allow Ning Cheng to have a cosy home to return to, it was also because she subconsciously was not willing to face her guilty conscience. Otherwise, how could she tell that Zeng Jiyun, who had deeply hurt her, that Ning Cheng had returned?

She had always thought that Ning Cheng should have apologised to her after coming back. Especially since, he had not contacted her for three years, let alone meeting face to face to talk. If he had done that, then she might have explained to him as to what had happened. She could have taken the chance to state it explicitly that the two of them were no longer fit to be with each other, but at least they could remain as friends.

Perhaps it might not have been a parting on good terms, but at least it would have never turned into this.

"Do I really have such a disposition?" Contrary to the scarlet-robed man's expectations, after Tian Muwan was silent for a moment, she unexpectedly asked such an irrelevant question in such a tranquil manner.

The scarlet-robed man gave a laugh before continuing, "What's wrong with having such a disposition? To move forward on the grand path of cultivation, obliteration of all obstacles is the norm. Only by having a formidable heart that fights for one's self, would you be able to walk till the end."

"I understand." Tian Muwan grasped the Pearl Hair Clip on her chest before she muttered to herself.

Even though she had arrived at the Hundred Bay Point a month ago, she quickly realised that Ning Cheng had pushed his own younger sister Ning Ruolan to Dhulandi to curry for favours. Although others reported it to her, she had never thought if these matters were the truth or were false, nor did she even chose to investigate this issue.

Not to mention a month ago, she even had preconceived notions of her own. Since Zeng Jiyun plotted against them, it caused the two of them to break apart because of instigated misunderstandings. Unfortunately, regardless of whether Zeng Jiyun did this to get close to Ning Cheng or for something else; all of it was definitely a plan with a goal in mind.

It was not until that day when her soft sword stabbed into Ning Cheng, did she want to see him once again. However, he already did not want to meet her after that.

"I beg you leave us brother and sister alone." Ning Ruolan's words were still ringing in her ears. It was also after she heard Ning Ruolan's words did she choose to give up on that thought. Why appear now? Why disappear again? She and Ning Cheng would never meet again in the future anyway.

"I do not have the patience to wait for you, whether you follow me or not willingly, I will directly carry you off." The patience of the scarlet-robed man was gradually wearing down.

Tian Muwan took a long and deep breath, before slowly speaking out the words, "I am willing to...."

The scarlet-robed man did not feel too surprised about it. He merely gave the nod and spoke, "You are quite clever. However, I also like smart people like you. Such being the case, let's leave now. I will help you in building a solid foundation as soon as possible."

"I have a condition before we leave. I must meet a person. Otherwise, even if you want to refine me into a puppet, I will never obey you." Tian Muwan once again spoke out with an incomparably resolute tone, showing that there was just no room for leeway.

The scarlet-robed man's eyes flashed with a hint of coldness, before he spoke in a cold voice, "Very well, I will be waiting for you right here. I believe that you will soon come back; after all, you are not an idiot. Keep in mind that I already know that you are someone from the Tian Family."

Tian Muwan shuddered, she suddenly felt like she wanted to see Ning Cheng one last time before death came knocking for her. This idea was the most idiotic one, but it still had popped up in her head. Since she had already made it clear to the opposite party, then the opposing party might just end up killing Ning Cheng.

However, after saying those words, she just did not have the means to take it back. She quickly sighed in her heart, even if she did not see Ning Cheng, this scarlet-robed man already seemed to have investigated her, so why would he not know about who Tian Muwan's ex-boyfriend was?

She definitely cannot die, once she died, then not only would Ning Cheng die because of her, but even all the people of the Tian Family would perish alongside her.

.....

One day later, Ning Cheng came out from the Miniature World, at this moment his cultivation recovered to the Soul Essence 7th Level. He thought that he should now go to the Jabbes Line of Defence to look.

He cannot wait for the Line of Defence to crack apart; otherwise, he would not even be able to find that Yan Rui's corpse.

Ning Cheng had not swept out with his Spiritual Consciousness when the door directly opened. This was a suite room complex where his younger sister Ruolan was staying along with Dai Xin, so it would genuinely be an inconvenience for him to sweep out with this Spiritual Consciousness.

"Big Brother, she came once again, and is saying that she must see you and is not willing to leave....."  
Ning Ruolan was the one who opened the door to Ning Cheng's room before she spoke out.

Needless of what Ning Ruolan spoke; Ning Cheng had already seen the somewhat pale-faced Tian Muwan standing at the entrance. This time when he saw Tian Muwan, Ning Cheng couldn't help but feel that there was something different about her.

"Come in." Ning Cheng spoke out calmly. Since everything was already over between them, he could not understand it; why would a proud person like Tian Muwan still come to see him? Was it because he killed Tian Yan? However, this kind of a matter involving the execution of Tian Yan, Ning Cheng just did not care about it at all.

### [The Gate Of Good Fortune](#)

#### **Chapter 382: Can Only Seek Ning Cheng**

Ning Cheng closed the door, while calmly looking at Tian Muwan. He did not ask about anything. Ning Cheng was currently at Soul Essence 7th Level, but to recover back to the peak of 4th Level of Soul Sculpting Realm, it would still take him a week or two more. After a week or two more, he would then be able to leave this place. As such speaking to Tian Muwan did not have any significance to him now.

Tian Muwan on seeing that Ning Cheng was only looking at her but not speaking also did not ask anything. Her lips trembled a few times before she finally was able to mouth three words, "I'm sorry....."

These three words came out in a very soft tone, and even with Ning Cheng's cultivation, he was only barely able to hear the three words. Ning Cheng couldn't help but feel his chest tighten up, he had not known for Tian Muwan for just a day or two. He knew Tian Muwan reasonably well, something that was apparent; however, even with all of his vast knowledge and memories, he had never heard Tian Muwan utter these three words ever before.

Ning Cheng couldn't help but stare at her stupidly. He could see that the twinkle in Tian Muwan's eyes that had always been there had all of a sudden disappeared without even a trace, replaced by deep sorrow. This kind of sadness would also induce depression in anyone who looked into her eyes, letting them feel like their chests were tightening up.

"You... Did you want something from me?" Ning Cheng felt his own throat turning a bit dry; he really did not want to see that kind of look in Tian Muwan's eyes.

"I have some regrets....." Tian Muwan was staring straight at Ning Cheng; her demeanour was as if she could not wait to carry away Ning Cheng with her own eyes.

"What do you regret?" Ning Cheng subconsciously asked, even he did not know why he asked those words.

He couldn't help but wonder, did Tian Muwan was also having the same thoughts as Zeng Jiyun? Since she was aware of her abilities, was she maybe regretting because of it?

However, in his mind, Tian Muwan was radically not such a person. Moreover, he was a cultivator at the 4th Level of Soul Sculpting Realm. If even Eldest Brother Cang Wei, who was one of the powerhouses of the vast starry sky, took his place, even then it would be impossible for Tian Muwan to say those two words 'regret' and 'sorry'. In that regards, he understood Tian Muwan too well.

Tian Muwan did not reply, she turned around and walked to the door. Opening the door, she slowly walked out of the room. As to what she regretted, only she knew. What she regretted was undoubtedly not Ning Cheng's exceptional abilities; in fact, she did not even know that Ning Cheng was a True Cultivator like her.

What she regretted was that she had not given her body to Ning Cheng for the 2-3 years she was still in love with him. If she had given herself to Ning Cheng, then she would not have to face today's matter.

Ning Cheng froze as he looked at Tian Muwan's receding back, not because of her but because a Spiritual Consciousness fluctuation had swept over his body causing Ning Cheng to feel startled. He had almost unleashed his own Spiritual Consciousness in response.

Was there another True Cultivator here? Moreover, this True Cultivator also did not have low cultivation; otherwise, how could their Spiritual Consciousness sweep into his room? Ning Cheng's senses immediately chased after this Spiritual Consciousness and soon found that this Spiritual Consciousness completely encased Tian Muwan.

Ning Cheng shortly swept out with his Spiritual Consciousness within hundred miles of the Hundred Bay Point; the next moment he saw a scarlet-clothed cultivator with a hood over his face standing just a few dozen miles away from the Hundred Bay Point.

The peak of Profound Congealing Realm? How did this peak level Profound Congealing Cultivator appear on this Earth? Ning Cheng sucked in a mouthful of cold air, while secretly rejoicing in his heart. Fortunately, he had not hurried out to kill those insects, instead remained here, and restored his cultivation to the 7th Level of Soul Essence Realm. Otherwise, with his Essence Building Realm Cultivation, Ning Cheng would not be much of a match against someone at the peak level Profound Congealing Realm. If this was the case currently, could he still kill the Insect Queen?

In just a moment, Ning Cheng understood what was going on. Since this scarlet-robed cultivator was following Tian Muwan with his Spiritual Consciousness, it was clear that he wanted to use Tian Muwan as his furnace. For Tian Muwan to come see him, it was actually a farewell before her death.

Ning Cheng clenched his fists. No matter how arrogant Tian Muwan was, how could he not care about such an issue? Moreover, he would also never allow a Profound Congealing ant to exploit her. Trying to use her as his furnace, this scarlet-robed bastard was only looking for death.

"Big brother... She's already gone. You don't have to be upset about it. It would be better to put down these things." Ning Ruolan seeing Ning Cheng standing at the door with clenched fists, and a livid face, quickly came up to comfort him. She thought that it was because of Tian Muwan's matter from the past that caused Ning Cheng to be in such a state.

Ning Cheng sighed and stroked Ning Ruolan's hair before speaking, "Ruolan, I will be going out for a few days, you stay here and continue cultivating. When I come back, we will leave this place."

"En, I know." Ning Ruolan spoke up in a very well behaved tone.

With her big brother, she was always on her best behaviour, also the happiest.

.....

Ning Cheng stopped after coming out of the Hundred Bay Point before turning around and speaking in a cold voice, "How long are you going to keep following me? Just take a step back by yourself because I will not."

Ning Cheng had already planned to clean up that scarlet-robed man, before heading off to the Jabbes Line of Defence immediately; as such, he had not expected that this Yi Lei would come again. He had thought that because of his initial refusal when Yi Lei had requested for his assistance, a person like Yi Lei would immediately leave. Ning Cheng did not expect that she would choose to remain behind in the Cheng Ruolan Hotel. Now that he was out on his own, she immediately followed him out.

The day before, Ning Cheng's words had already refuted everything Yi Lei spoke. Therefore, she suddenly, with a 'Thump', knelt onto the ground in front of Ning Cheng before speaking up, "Elder Brother Ning, I beseech you to come help us out at the Jabbes Line of Defence, please do not let those insects burst into our homes."

In one day, Yi Lei had already heard too many things related to Ning Cheng in the Hundred Bay Point. One of the Five Major Experts, Homer, had suddenly disappeared, that was just after Ning Cheng had shot Quake dead. As long as any person even had a sliver of cleverness, they would be easily able to guess that this matter definitely had Ning Cheng's hand in it.

Not only that, Dhulandi, Shelley and even Monk Rui Qing, three of the five Major Experts of the world were all behaving like yes-men in front of Ning Cheng. Unlike the rumours floating outside, which stated that Ning Cheng pushed his little sister Ning Ruolan out to them to gain their favours.

As for Dhulandi's behaviour in front of Ning Cheng, it would be more appropriate to say that their relationship seemed more of a relationship between a junior and a senior.

Ning Cheng was not very much favoured towards people like Yi Lei. Such people wanted someone else to pay the price when the time came, and once the situation turned stable, they would immediately choose to ride roughshod over those people. However, contrary to his expectations, he never thought that this Yi Lei was such a sentimental person, to even go as far as calling the Earth as her home and even kneel down in front of him.

In the world of True Cultivators where people practically did everything to climb up, Ning Cheng was not someone who was utterly stonehearted, but he was also not someone soft-hearted. Moreover, it was not so easy for someone's plea to move him.

However, he was currently able to see a very compassionate heart in this Yi Lei. This woman indeed was not thinking of herself, nor did she talk about others. Instead, she sincerely wished to seek out his help. She, at this moment, was genuinely asking his help to save Earth, her home.

“Elder Brother Ning, although this Yi Lei is a bit out of style, as long as you can come up with more Essence Weapons and come to the Jabbes Line of Defence, this Yi Lei will completely belong to you. No matter what you do to me, I will not have any complaints...”

There was one thing that Yi Lei had not dared to speak out, that is, they had devised a secret plan to attack the Insect Queen. As such, as long as they were able to get rid of the Insect Queen, it would mean that the insects would definitely reduce in numbers gradually before the humans finally destroyed them.

Initially, she had thought that Ning Cheng only possessed Essence Weapons. However, after surveying around the Hundred Bay Point, only then she became vaguely aware that Ning Cheng might be a peerless expert. If they wanted to sneak attack the Insect Queen, then they had no choice but to rely on this kind of consummate expert.

Even though there was no shortage of experts at the Jabbes Line of Defence, but Yi Lei can't mobilise any of them by herself. Moreover, no one would be even willing to listen to her, Yi Lei's, words. However, when she came to know that Ning Cheng was such an expert, and found that Ning Cheng was born poor without any kind of family background to speak of, she found that other than seeking out Ning Cheng, she just did not have any other way.

Concerning what Ning Cheng said about Yan Rui since Xing Liang and the others had ordered not to act upon it, even she would not have been able to mobilise anyone at that time. Also, if she repeatedly asked others, they would just ignore her.

Ning Cheng sighed before reaching out his hand to help Yi Lei stand up before speaking out, “Yi Lei, the fact is that the reason I came out is that I already plan to go to the Jabbes Line of Defence. You don't have to worry about it; I have already made my preparations.”

Yi Lei looked at Ning Cheng in surprise; she really was not able to understand why Ning Cheng had suddenly changed so much. Didn't he ask her to 'fuck off' a day ago? However, he was now willing to make his move. Was it because she was ready to repay him with her body? However, even if that was the case, she was utterly willing to do it. She would not regret it for even half a moment.

Yi Lei, who had been staying at the Jabbes Line of Defence all year round, was clear that once these insects broke through the Line of Defence, it would only bring forth a disaster. No, annihilation rather than destruction. Moreover, complete annihilation at that. Even if the entire humanity disappeared, it would not be something impossible at that time.

According to her understanding, some of the other countries have already started to gather in the dark to prepare for preserving the exceptional seeds of humanity, in case of the worst-case scenario.

“Thank you....” Yi Lei did not care whether Ning Cheng wanted to take her now or not, as long Ning Cheng agreed to go to the Jabbes Line of Defence.

“Elder Brother Ning, the Jabbes Line of Defence is at stake. Let's go to the hotel now, and I will give you my body and then we can take my plane back to the Jabbes Line of Defence.....” As Yi Lei spoke those words, she did not show even half a bit of shyness or even half a bit of hesitation.

Ning Cheng only looked at Yi Lei and spoke, “Yi Lei, I understand your thoughts, but don't be quick to use your body in exchange for something. This is something that any woman is most prideful of; later when

you hand yourself over to the man whom you really love, at least you wouldn't regret it then. Let's go, I have to kill someone before we leave for the Jabbes Line of Defence."

Yi Lei on seeing Ning Cheng's receding back quickly followed behind him, while still ruminating over Ning Cheng's words.

.....

The scarlet-robed man's Spiritual Consciousness had been observing Tian Muwan, he was confident that Tian Muwan would not dare to turn on him at this time; otherwise, he wouldn't mind using the people close to her as a Red Pill. However, just in case, he did not let his Spiritual Consciousness leave Tian Muwan for even half a minute.

[TL Note – 'Red Pill' here means using actual people as sacrificial ingredients to make 'medicines'.]

Now that he saw Tian Muwan slowly walk back to her, his face revealed a trace of a sneer; under his threats would she still want to commit suicide? She shouldn't even dream about it. With his current cultivation, countless women were willing to be his furnace, while no one would even dare to say half a word of protest. However, using someone like Tian Muwan as his furnace, it was definitely the best of the best quality.

Would he even choose to build a foundation for a furnace? That was only empty talk Haha. Unless he had gone completely crazy, why would he devote the already limited sources for building a foundation for a furnace?

"Your speed is quite slow." As Tian Muwan walked towards him, the scarlet robbed cultivator spoke out indifferently.

Tian Muwan did not answer, nor did she display any actions, as she felt her own heart gradually dying.

"Take off all your clothes and lay down on the ground...." The scarlet-robed cultivator on seeing that Tian Muwan had turned wooden suddenly spoke out a few words.

"What?" Tian Muwan had intended to gain some time to use her cultivation to transform into the devil to escape death, in that way even if he was the Devil himself, he would not be able to use her like a furnace. However, she had never thought that this devil in front of her wanted to have possession of her right now. Letting her take off her clothes to allow this devil have his way with her, might as well kill herself right now.

"Did you not hear me? Or do you want me to do it for you?" The scarlet robbed cultivator suddenly spoke out in a cold voice.

Tian Muwan fully understood all of it; it looks like after she came back, the other party had seen through her intention of not becoming his furnace, causing him to become angry and wanting to force himself on her.

Tian Muwan crazily circulated her True Qi, tearing up her meridians. She was going to self-immolate herself.

"Bitch, you just looking for death...." The scarlet-robed cultivator exploded out in anger, causing Tian Muwan's True Qi to stagnate for a moment; however, she had already lapsed into a coma by that time.

The scarlet-robed cultivator immediately grabbed at Tian Muwan's hand; however, his hand only grasped at empty air. He then saw that Tian Muwan being held in the arms of a young man. When did this young man come? He hadn't even noticed him at all. Huh, something's wrong, wasn't this youngster the same person that this Tian Muwan had just visited?

### The Gate Of Good Fortune

#### **Chapter 383: The Secret of Scarlet Robe's Cultivation**

"It's you?"

"It's you?"

Two voices simultaneously rang out; one belonged to the scarlet-robed man in front of Ning Cheng, while the other belonged to Yi Lei, who just arrived after Ning Cheng.

Ning Cheng looked at Yi Lei in surprise and asked, "Do you know this person?"

Yi Lei nodded and spoke, "Yes, he occasionally comes to the Jabbes Line of defence. I mostly saw him together with Yan Rui, and they always looked like they were discussing something. Moreover, that Yan Rui always showed a respectful attitude towards this person. So his origins should not be simple."

The scarlet-robed man kept staring at Ning Cheng in silence. When Ning Cheng had suddenly shown up, he could not detect it at all; not only that, even when Yi Lei came following Ning Cheng, he was still not able to catch any trace of it. It was really too strange. He already knew Yi Lei, but because she was a woman without a Spiritual Root, so even though she was attractive, he did not rush to put his hands on her. Since he was going to condense his Golden Core, as such his furnace needed to be a woman with at least a decent Spiritual Roots.

"Who are you?" The scarlet-robed man did not dare to act rashly; Ning Cheng's speed in grabbing Tian Muwan was just too fast. Moreover, he was also not able to sense Ning Cheng's cultivation; therefore, without first knowing about Ning Cheng's origin and strength, he did not want to begin.

"Is it you who wants to use Muwan as a furnace?" Ning Cheng stared at the scarlet-robed man and spoke in an ice-cold voice.

The scarlet-robed man deliberately showed a frown before speaking, "It looks like you and this woman share a history, right? Since we are people from the same country of China, I will certainly not continue to have any thoughts about using her as my furnace. Let me be the first to say goodbye, we can meet later if the chance arises....."

Despite saying those words, he did not immediately leave. He wanted to test Ning Cheng's reaction. If Ning Cheng was only outwardly strong and inwardly weak, and just had a fast speed, then Ning Cheng should not blame him for being impolite. If Ning Cheng indeed turned out to be stronger than him, then he could wait for a later date to take back his furnace.

As to actually giving up such a high-quality furnace like Tian Muwan, he absolutely did not want to entertain such a thought. A 'furnace' like Tian Muwan was definitely a unique one, especially on Earth.

"You seem to have made a mistake. This will be the last time we meet....."

Just as Ning Cheng spoke those words, the scarlet-robed man immediately felt that something had gone horribly wrong, causing him to instantly retreat while simultaneously bringing out a long knife. Yi Lei, who was standing behind Ning Cheng, wasn't able to make out where this scarlet-robed man had hidden such a long knife.

Ning Cheng only raised his foot to take a step forward, with a face full of disdain. His foot looked like it was about to viciously trample down on something, while he did not even put down Tian Muwan, who was still in his embrace. Let alone bringing out a magical weapon, since he recovered his cultivation to that of a late-stage Soul Essence Cultivator, as such using a Magical Weapon to kill a Profound Congealing Ant; it would really be the joke of the town.

When Ning Cheng moved, the scarlet-robed man immediately felt the space around him turn into a quagmire-like state. He felt as if he was a turtle struggling in a marsh, causing each individual stroke of movement to be extremely difficult.

He could only watch Ning Cheng's foot enlarge in front of his eyes as it descended. Other than the horror that took root in his heart, his entire being felt as if he was forcibly plunged headfirst into an ice cold cavern.

Since making a debut, he had never felt such a terrifying feeling. That was because he was always the one who gave others this feeling. Any person who dared to oppose him, he personally subjected them to this kind of terrifying pressure before finally crushing them. He never could have imagined that this kind of situation would actually occur on him. Who was this person? How did he possess this kind of terrifying strength? This kind of power was far stronger than any cultivator who condensed their Golden Core.

"Senior... This junior had eyes but couldn't see Mt.Tai.... Senior, please show mercy....." Lian Yong had never begged for mercy in front of any human before, but today he had no choice but to ask for forgiveness. At this moment, he even hated himself for not being an expert in begging for mercy.

"Bang....." The long knife in the scarlet-robed man's hand had not fallen to the ground yet, when his entire body plunged into the ground under the stomp from Ning Cheng's foot, causing him to be unable to move even an inch. Sounds of bones breaking resounded, which he was able to hear clearly.

Ning Cheng only used a fraction of his actual power through his foot, yet it still caused bloody froth to flow out of the scarlet-robed man's mouth. The scarlet-robed man genuinely wanted to continue to beg for mercy, but unfortunately, he just was not even able to form the words in his mind let alone speak it out.

"Did you not know that this long knife was given to Yin Yihui by me? I initially did not have enough time to look for you because of some urgent matters, but it looks like you are quite the good-natured fellow that you even brought me my knife back." Hearing Ning Cheng's words, it caused the scarlet-robed man to want to vomit out blood from his heart.

When he obtained the long knife, he had ordered Yan Rui to look for Ning Cheng. Moreover, after he arrived at the Hundred Bay Point, he heard that high-grade Essence Weapons were on full display at the Hundred Bay Point. If he knew that the person with the high-grade Essence Weapons was this terrifying, even if he had to cut off his hands, he would never dare to come here.

Ning Cheng did not immediately stamp this scarlet-robed man to death; he first glanced at Tian Muwan in his embrace. Tian Muwan had forcefully imploded her meridians; however, that scarlet robbed man's Spiritual Consciousness also invaded her extremities before she could complete the process. This kind of injury, besides him, Ning Cheng estimated that no one would be able to cure it on Earth.

He then vaguely saw something familiar hanging over Tian Muwan's neck, something similar to the profile of the pearl hair clip that he had initially given her.

However, Ning Cheng suddenly felt disappointed because of it; apparently, this pearl hair clip was not the one he had given to her. The piece that he had initially given to her was pure white, but this pearl hair clip was actually pink.

He recalled the words he heard from Tian Muwan's mouth from that time, when she spoke to Zha Ziyi, "If you lost it, then just buy a new one for me. Let's go."

He had honestly not expected that she would actually let him buy it.

"Big Brother Ning....." Seeing Ning Cheng in a daze, Yi Lei cautiously called out from the side.

Ning Cheng immediately sobered up; taking out a Cleansing Rain Pill, he placed it in Tian Muwan's mouth. The pill turned into Spiritual Liquid the moment it entered Tian Muwan's mouth before it slid down and dispersed into Tian Muwan's body.

The Cleansing Rain Pill was a Rank 6 Profound Pill; moreover, it even belonged to the top tier among the Profound Pills that could help in healing damaged meridians and dantian. Even in the world of True Cultivators, the Cleansing Rain Pill was precious. Tian Muwan's injuries were severe, but with the help of the Cleansing Rain Pill, she would be able to recover in like less than half a day, without even needing to unlock its medicinal nature.

Ning Cheng found an External Domain Hotel's room card in Tian Muwan's pocket. The room card with etched with the words 'Exclusive Zone, 7001'.

He then handed the card to Yi Lei and spoke, "Yi Lei, help me out this once. Deliver Tian Muwan to her room; it's the External Domain Hotel's room 7001. I believe that you would be able to deliver her quickly, given your skill."

Finished speaking, Ning Cheng then took out a talisman and handed it to Yi Lei before speaking, "This talisman is a Stealth Talisman. You don't have to ask anything about it, just hang this talisman around your body, as long as you don't bump into others, or speak with others, no one will be able to spot you let alone stop you."

This Yi Lei's skill was definitely above Yin Yihui's, so for her to deliver Tian Muwan to her hotel room, it should not take her much time.

"Aah....." Yi Lei received the Stealth Talisman with a somewhat vacant look along with Tian Muwan, from Ning Cheng's hand, and was a bit stunned for a while. Stealth Talisman? Was there such a strange thing in this world?

However, she soon put aside the Stealth Talisman and quickly spoke up, "Big Brother Ning, I must lead you to the Jabbes Line of Defence, and...."

Ning Cheng waved his hand to stop Yi Lei's words and spoke, "I know, therefore you will have to return quickly, I will be waiting for you right here. All you have to do is to put Tian Muwan to bed in her room. Tian Muwan will wake up automatically by herself later; you don't have to worry about anything else."

Hearing that Ning Cheng would wait for her in this spot, Yi Lei no longer spoke anything. She hurriedly secured Tian Muwan and quickly left the area. Although she believed that Ning Cheng would not deceive her, she still wanted to return as soon as possible.

After Yi Lei went away, Ning Cheng then loosened his foot as he looked at the red-haired man and spoke, "Answer me, the True Cultivator Cultivation Method that you cultivate, where did you get it? If you dare to even utter half a word of a lie, I will immediately extract your soul."

In fact, Ning Cheng did not know how to extract a soul, but he knew that True Cultivators were the most afraid of soul extraction and soul refinement.

"Yes, Yes, I will tell you. I was born with some sort of True Cultivator Cultivation Method inside my head. The more I cultivated, the more things emerged in my mind. I don't seem to be a person from this world; rather I seemed to have arrived from another place....." The scarlet-robed man quickly spoke up.

Ning Cheng pressed his foot down slightly again, "You're lying, even if pieces of your Spiritual Soul were reincarnated into this world, your cultivation would still not be able to increase this fast."

The Earth lacked Spiritual Qi; moreover, this fellow even regarded a High-Grade Magical Artefact as a treasure, as such, he had indeed had not seen more of the good stuff.

"I'll say it, Senior, you have to spare....." The scarlet-robed man spits out another mouthful of blood before he quickly begged for mercy.

"Then say it." Ning Cheng's foot lifted up slightly.

"Senior, you have to ensure to spare my life, only then I will say it....." The scarlet-robed man finally found an excuse to try to coerce Ning Cheng.

Ning Cheng did not answer the words of this scarlet-robed cultivator. He was currently a Soul Essence Cultivator, if a Profound Congealing Cultivator could threaten him, then he might as well smash his head into soft tofu and commit suicide.

True Essence directly rushed out from the sole of feet as it started to tear into the body of the scarlet robbed cultivator, causing the scarlet robbed cultivator's face to twist up in pain, "Senior, I'll say it, I'll say it, just please kill me quickly....."

.....

Ten minutes later, Ning Cheng cast out a fireball to ignite a flame, turning this scarlet-robed cultivator into ashes. He had already understood why this scarlet robbed cultivator's cultivation was able to rise up so quickly. Initially, this fellow possessed a Wood Spiritual Root, but at the same time, also found a cultivation spot that unusually speeded up his cultivation because it complemented the nature of Spiritual Root. As long as he cultivated in that place, his strength would continue to rise.

Ning Cheng had lived on Earth for more than 20 years, but this was still the first time for him to hear about the Feral Brook Mountains. According to the words of that scarlet-robed man, this mountain was

located in a region near to the edge of the Southern Skies. Ning Cheng decided to wait for the time being. He would head over to the Feral Brook Mountains once he had taken care of the other things. Who knows, there might even be a treasure there?

Knowing that a master was not guiding the scarlet robbed cultivator, Ning Cheng also felt somewhat relieved. There were no real True Cultivator Powerhouses on Earth. If there were such people, then if his body were not in the best condition, it would not be a good thing for him.

As for where Tian Muwan's Cultivation Method she cultivated in came from, Ning Cheng did not want to inquire about it. The Chinese Taoist Civilisation has been around for thousands of years; as such, it would still be within expectations if it had some lower-level cultivation methods that could help cultivate some Spiritual Sense. Only, if there were no cultivation resources, not to mention Earth, even if was the Tian Continent, growth would be limited. Tian Muwan would only be able to cultivate to the Qi Gathering 9th Level, and this was even if she was fortunate. He just did not need to think about it but instinctively knew it. Tian Muwan might have better qualifications than Dai Xin, but in the future, her achievements would not be higher than Dai Xin.

Yi Lei's speed was indeed fast; it was not only fast but also when she returned, she even directly drove a car to right in front of him.

"Big Brother Ning, I delivered Tian Muwan to her room, now should we make our way to the Jabbes Line of Defence?" After Yi Lei got out, her expression was even more respectful and prudent. She did not see that scarlet-robed cultivator; presumably, Ning Cheng took 'good' care of that scarlet robbed cultivator.

As for that Stealth Talisman that Ning Cheng had given her, she did not even dare to ask about it. That Stealth Talisman was just as its name implied. She wore the Stealth Talisman just as Ning Cheng had told her to before entering the External Domain Hotel. However, nobody stopped her or even seemed to have seen her. Nevertheless, after she left the hotel, that Stealth Talisman mysteriously turned to ashes.

This Big Brother Ning was definitely a capable person. Even that first ranked Major Expert, Xing Liang, at the Jabbes Line of Defence, might not be an opponent for Ning Cheng. If Ning Cheng was willing to help them, then they might have a chance at really saving the Jabbes Line of Defence.

### [The Gate Of Good Fortune](#)

#### **Chapter 384: The Bloody Battle**

Ning Cheng nodded before speaking, "It must have been hard on you, we'll take the Battle Disc though....."

Finished saying that, Ning Cheng directly took out the Rank 5 Battle Disc.

"Is that a flying saucer?" Yi Lei stared at this huge black coloured Battle Disc in front of her in complete shock, while her mind turned utterly chaotic. From where did this flying saucer suddenly pop out? Why did Ning Cheng possess a flying saucer?

Ning Cheng looked at the stunned Yi Lei before speaking, "Yi Lei, since you are accompanying me to the same place, then although you might see a few astonishing scenes, I hope that you do not inquire about it, that's the first thing that I ask. The second thing, no matter what you see, I hope that you would not publicise any of it."

Yi Lei immediately sobered up and spoke up, “Big Brother Ning, I promise to not say anything about it.”

Since the emergence of the insect swarm on Earth, Yi Lei had thought that it was already the most shocking thing and had never imagined that she would be able to see things that were even more shocking.

“Since that’s the case, then get on the Battle Disc. The Jabbes Line of Defence might not be able to hold on for long.” Ning Cheng spoke.

Hearing the words ‘Jabbes Line of Defence’, Yi Lei instantly sobered up, she quickly put aside the countless questions in her heart, as she followed Ning Cheng into the Battle Disc that she considered to be a flying saucer.

After Yi Lei entered the battle disc, she once again couldn’t help but look around with a vacant look on her face. This flying saucer was not what she had imagined being, something that contained many control panels and buttons. After she came in, she just saw a leisure room in front of her. “Go to the Jabbes Line of Defence.” Ning Cheng did not care about Yi Lei’s shock. After he sat down, he directly issued the order. The surface area of Earth was quite small and was unlike the Sifting Orchid Star. With such a small surface area, Ning Cheng did not need to supply Sifting Orchid with any directions or maps, as the Sifting Orchid would be able to use its radar to locate the required positions easily.

Yi Lei did not even feel any vibration. She just noticed the surrounding white clouds. In other words, this flying saucer had already taken flight.

She instantly understood that this was a high-tech airship. She had never imagined that flight technology would be able to evolve to such a level. What kind of technology was this? Even if they went hundred years into the future of Earth, would they ever be able to reach such a degree?

Yi Lei very much wanted to ask Ning Cheng. However, she did not dare to ask and was afraid that she would anger Ning Cheng. Moreover, Ning Cheng had also mentioned it before, ‘to not ask about anything’.

“Master, we have arrived at the Jabbes Line of Defence. This Line of Defence would soon be breached, please instruct.....”

Sifting Orchid’s voice resounded inside, immediately causing Yi Lei to go into shock once again. She quickly realised that this flying saucer also contained an AI. This flying saucer was too formidable.

She really was not able to contain the shock of Sifting Orchid this time. She was just about to ask from where Ning Cheng obtained this flying saucer when she immediately noticed people retreating in all directions outside of the airship. Even the laser wall was on the brink of dissipating, to the point that there were just no laser beams visible. The insects were tearing apart even the custom laser artillery after the flying insects caught hold of them and threw them down, causing broken parts to rain down like a rain of metal.

Yi Lei turned utterly paralysed; the words and questions that she wanted to ask Ning Cheng swallowed up. It looks like they were already too late, if not for Ning Cheng wishing to help Tian Muwan, if not for Ning Cheng delaying things for a day more, they would have definitely more time. However, could she blame Ning Cheng? She just had no right to or even qualified to accuse someone like Ning Cheng.

.....

Jabbes Line of Defence's Headquarters. An old man was clutching his phone and yelling at it in a nearly violent manner. Other than the words 'emergency', 'support', 'killing insects', 'hold on', one was just not able to hear anything else.

"Commander Zhan. Those insects have broken through the Line of Defence. We have to hurry up and retreat. Any later than now, then we would never be able to leave this place." A young looking officer arrived in front of the old man and whispered it out to him.

The old man managed to recover a bit of his sanity while staring at this young looking officer in front of him with bloodshot eyes, before he shouted, "You told me to retreat, was it you who told me to retreat? So many of the soldiers died. Too many people have died to defend this Line of Defence, how can you tell me to retreat? Fuck off. Get the fuck out of here....."

The old man shoved away the young looking officer with his palm, and once again grabbed the phone. He screamed into it to the point that his voice had reached the level of a high-pitched hissing-like sound, "Jabbes needs reinforcements, requesting for reinforcements. I will defend the Jabbes location, determined not to take a step back, Jabbes Line of Defence....."

"Boom...." A dark shadow arrived after breaking through the window glass before rushing into the command room.

It was a red-winged insect, just as the insect came in; it immediately swiped at the old man holding the phone with its claws. The young looking officer who had just advised the old man to retreat raised his assault rifle and let loose with the bullets. However, these bullets on hitting the red flying insects, behaved as if they encountered an impregnable steel plate, only giving off a few sparks.

This young looking officer enraged the red-winged insect. Giving up on the old man, it immediately grabbed the young looking officer. In just a moment, the insect picked up the officer, at the same time, its two claws tore apart that young looking officer into two halves, causing the blood to splash all around the walls.

The old man looked at the two halves of the young officer's body before throwing down the phone in his hands and drawing out the machete hanging from his waist.

"Commander Zhan, I am here, you should retreat....." A tall, agile man spoke up in a not very neat sounding Mandarin as he rushed in holding a bright looking large blade in his hand.

The one called Commander Zhan calmed down a bit before he spoke up with bloodshot eyes, "Justin, even if I have to die on the battlefield with Willis Hill, I will not retreat. Asking me to retreat is an insult to me, Zhang Yingxun. Daring to kill this father's officers, daring to rush into this father's home, this father with the end you....."

The machete in Zhang Yingxun's hand chopped down.

"Bang....." The red-winged insect easily caught the machete; however, the old man couldn't help but take a few steps back hitting the wall behind him. However, this red flying insect's claw also showed a trickle of blood. Even emptying a full magazine from an assault rifle on the flying insect was not able to damage it; yet, the machete that Zhang Yingxun used was able to cause a wound on it.

Not waiting for this red flying insect to rush towards Zhang Yingxun, that man called Justin by Zhan Yingxun simultaneously also chopped down with his knife at the insect. The long blade split the air with a buzzing sound. The insect unexpectedly knew that this long knife did not seem to be simple, so rather than resisting it, it immediately backed away to dodge the strike.

The battle at the command room was merely one of the many fights taking place all around the Jabbes Line of Defence. Other than a small number of people who managed to flee, most of the soldiers, Battle Officers and Battle Generals were battling it out with those insects with all their might. Every moment, countless soldiers ended up massacred, yet at every moment, even more of those insects would rush into the Jabbes Line of Defence.

Even Ning Cheng couldn't help turn angry at the sight of this, as his eyes also turned bloodshot. Although a few shameless fellows ran rampant at the Jabbes Line of Defence, there were even more people who were actually going all out and putting their lives on the line to protect their homeland, Earth. These people, these soldiers, were worthy of his respect. He was not as selfish and cold-blooded like those from the world of True Cultivators, as such this kind of battle where people actually put their life on the line to defend their home, shook him at a fundamental level.

The cultivation of these soldiers was shallow, but many of them still ganged up to kill an insect, completely disregarding their own life and death. While the insect would end up not just kill one or two of them before perishing.

"Sifting Orchid, use your maximum concentration attacks, do not let off even a single insect. At the same time, do not hurt any of the people....." Ning Cheng managed to call out an order.

"Spirit Stone Cannon is being prepared, the Rank 5 Attack from the Battle Disc will be commencing shortly with maximum range and maximum intensity....."

As the Sifting Orchid's voice faded, the Black Battle Disc shook gently, the next moment many densely clustered white rays of light shot out.

This attack had even shocked Ning Cheng; he finally understood the fearfulness of the Rank 5 Battle Disc. The kind of attack was omnidirectional; with the Rank 5 Battle Disc at the centre, it shot out many white rays of light. Moreover, Ning Cheng had clearly heard its words. The last time he used it to attack, it only displayed life fluctuations and was just a Rank 1 Attack, but this time it was actually a Rank 5 Attack.

The last time he ordered it to attack, it was a red ray of light, but this time it was an attack using white light rays.

Ning Cheng's gaze fell outside the flying saucer before he sucked in a cold breath of air. Initially, he had always thought that the Rank 5 Battle Disc's power was slightly worse than his strength.

However, when he saw the power of the attack, he knew that his thoughts were completely wrong. Those innumerable and densely clustered insects, no matter if they were scuttling around on the ground or flying in the air, after being swept by this white light. Every one of them dropped dead without any exception.

Moreover, the Battle Disc was also continuously on the move, and in just then a minute, Ning Cheng saw heaps and piles of dead insects. The densely packed insects almost instantly reduced in numbers, even the dense and numerous insects in the air also vanished practically instantaneously. However, to the soldiers battling it with the insect, there just were no casualties among them. The Battle Disc's distinguishing features indeed were accurate and ruthless to the extreme.

"This....." The paralysed Yi Lei stood up in shock. She was lying on the floor next to the transparent window of the Battle Disc in dejected helplessness. When Yi Lei looked at the seemingly inexhaustible insect swarm undergoing a massacre by the Battle Disc, it caused her to go slack-jawed. She even suspected that she was dreaming.

"Puff....." In the command room, that red flying insect had managed to slice off a portion of flesh from Justin's arm, causing Justin to release his grip on the long knife in pain before the long blade fell to the ground.

Justin's eyes flashed with a glimmer of despair, he did not continue to persuade Zhan Yingxun to retreat. He was well aware of the old man's temperament, and at the same time, he knew that they were all dead.

However, at this moment, he suddenly heard a sharp cry; this cry had almost torn up his eardrums. But the next instant, this red-winged insect that was about to tear him apart, unexpectedly ran out of the command room, no longer paying any attention to him.

"What's going on?" Justin and Zhan Yingxun looked at each other in blank dismay. None of them knew as to what was going on. The two of them were well aware of the ferocity of these insects; as such, they knew that they would never back down halfway, more so when it was about to kill them.

A bloodstained soldier rushed in a while reporting in a hoarse voice, "A black flying saucer appeared outside; this flying saucer easily killed those insects outside and is very powerful. In just a few minutes, it ended up killing tens of millions of those insects; moreover, it is still killing off those insects as we speak. At this time, all of those insects have forgotten about the Alliance Army, after receiving the call from the Insect Queen, they are collectively attacking the black flying saucer....."

"What did you say? Flying Saucer? Killed millions of insects in a few moments?"

Zhang Yingxun wasn't able to understand what this soldier was spewing.

However, he quickly sobered up before immediately roaring out, "Immediately go out and look."

Between his words, those people had already run out of the command room.

### **[The Gate Of Good Fortune](#)**

#### **Chapter 385: Battling The Insect Queen**

At this point, all the people who had not deserted the Jabbes Line of Defence looked up at the battle outside of the Line of Defence. What they saw was a black flying saucer suspended in the air while countless insects were flocking towards that flying saucer. However, when that black flying saucer shot out those dense rays of white lights, the insects directly crashed to the ground in heaps.

Even if that was the case; after the Insect Queen issued its call, not only the number of insects did not diminish. Instead, they were still increasing in number.

“My god! Aliens, they came to help our planet.....”

“That flying saucer is truly terrifying, with terrifying combat efficiency.”

“This should be the new battle-type flying saucer that the alliance had been developing. With this kind of flying saucer, we’ll never have to fear these nasty insects again.”

“I thought that I was definitely going to die at the Jabbes Line of Defence. For this flying saucer to come out at the right moment, it all feels like a dream.”

“But the insects are growing more in numbers, that flying saucer is almost covered.”

.....

At this moment, all kinds of surprised voices rang out among the soldiers within the Jabbes Line of Defence. Everyone was shaking in complete awe and wonder. No one knew as to what was going on, even the few people inside the command room at the Line of Defence had come out, as they looked at the flying saucer aiding them in the battle. Even they had no idea as to what was happening.

However, when they saw the flying saucer covered with insects, they couldn’t help but feel nervous again. Once the Flying saucer ended up destroyed, these insects would be able to annexe and destroy the entire Earth easily.

.....

Ning Cheng had also heard the Insect Queen’s call and immediately understood that the situation has turned for the worst. Not being able to sit still anymore, he stood up. That Insect Queen’s cry had a terrible penetrative effect, making Ning Cheng think that its strength was even stronger compared to him.

“Big Brother Ning, thank you.....” Seeing the insects in the outside being killed off by those dense white rays of light, Yi Lei thoroughly sobered up from her shock as she quickly bowed to Ning Cheng and offered her sincere and heartfelt thanks.

“Too many Demon Insects. Will have to initiate the Super Rank 5 Attack. Spirit Stones are not enough, will require 100 million Spirit Stones.” Sifting Orchid’s crisp voice resounded inside.

Ning Cheng, without any hesitation, took out a restriction-less ring, transferred hundred million Spirit Stones into it, and then put the ring into the energy trough. Fortunately, he had obtained a massive pile of Spirit Stones on the Sifting Orchid Star; otherwise, he would not have been able to kill all these insects.

No matter what it was, once their concentrations reached a certain degree, it would undoubtedly transform into something terrifying.

The Battle Disc on receiving the Spirit Stones, no longer shot out those previous white rays of light one after another instead it sent out a circular wave one after another.

All the insects, under the power of these waves, met with death instantaneously. Because of the appearance of this wave, the mortality rate of the insect rose up exponentially. Almost every second, tens of millions of those insects ended up dying because of the white waves of light.

The number of insects sticking to the outside of the black flying saucer instantaneously reduced, revealing the flying saucer once again. Seeing the flying saucer once again, the soldiers felt relieved to see that the most desperate phase was over.

Ning Cheng's Spiritual Consciousness had already swept out towards a hundred feet tall giant insect as it rushed towards them with exceptional speed. This giant insect had a brown body covered with circular thread-shaped markings all around it. This insect had eight feet, each of which tipped with dense barbs giving off the feeling of incomparable resilience.

This was not an insect; it would be more accurate to call it a moving tower. However, what made Ning Cheng's heart sink was that this insect was definitely close to a Class 8 Monstrous Beast in power, either that or it was already a Class 8 Monstrous Beast. If his cultivation recovered to the 4th Level of the Soul Sculpting Realm, then he would still be able to put up a fight, but currently, his strength was still a bit away from this insect.

Ning Cheng guessed that this incomparably giant insect should be the Insect Queen.

At this moment, Ning Cheng immediately understood in his heart that if he did not go out to stop the insect, then the Battle Disc Sifting Orchid would not be able to contend against even a single attack from this insect. Although the Battle Disc Sifting Orchid was able to kill all these lower-level demon insects with its potent offence, in the face of this Insect Queen, all its attacks would just be useless.

At the same time, he also understood why the Jabbes Line of Defence was able to sustain to this day, it was because of the Insect Queen's intention in its entirety. This Insect Queen seemed to possess some Spiritual Wisdom, so although it ordered the insects to cause some trouble at the Jabbes Line of Defence, it did not allow them to break through it. It was all to hone the insect's battle effectiveness. Using humans as prey to sharpen the combat effectiveness of the insects, Ning Cheng couldn't help but feel his scalp tingle when he thought of it.

"Warning! Discovered the Insect Queen. Unable to eliminate. Within 10 seconds, the Insect Queen would be within the range of the Battle Disc....." Sifting Orchid's radar also apparently found the Insect Queen and immediately issued the warning.

Ning Cheng made the decision in a flash, "Sifting Orchid, you just concentrate on killing the rest of the insects, I will stop the Insect Queen. Remember, do not leave behind even a single one alive."

"Big Brother Ning....." Yi Lei also saw the colossal Insect Queen from the Battle Disc's monitoring screen, as she called out in panic. However, just as she called out the three words 'Big Brother Ning', Ning Cheng had already left the Battle Disc. Rushing towards the incoming Insect Queen, he decided that he absolutely couldn't allow the Insect Queen to reach the Battle Disc.

The Insect Queen had already seen Ning Cheng, using a few of its feet to strike at the ground; it immediately rushed into the air towards the incoming Ning Cheng.

A formidable Imposing Aura crashed down. Ning Cheng just did not think of anything else as directly brought out the shadow of his Everlasting Blue Thunder City. At this moment, he couldn't help but think that what he thought of previously was the stupidest thing he had ever imagined. The only thing that Ning Cheng was thankful for currently was about restoring his cultivation to the Soul Essence Realm. Otherwise, if he came here with the strength of Essence Building Realm, then other than coming to his death, a different outcome for him would be impossible.

"Bang.... Ka Cha....." The Everlasting Blue Thunder City's shadow under the Insect Queen's momentum, collapsed in just a twinkling of an eye, causing Thunder Lights to overflow. Ning Cheng immediately manifested the long black spear, while using it to bring out the Ice Cold Spear Lights.

Shooting out with his Profound Ice 36 Spears, the Ice Cold Spear Lights, under the control of Ning Cheng's spear, turned into an Ice Spear Network with its fastest speed, before it approached and exploded onto the Insect Queen with a bang.

Although the attack connected with the intended target, Ning Cheng still gave out a sigh in his heart. The time he had been back was too short. Although Eldest Brother Cang Wei had helped Ning Cheng refine those 36 Axes, and even gave him a few Spiritual Techniques, he just did not have the time to hone them for himself or cultivate those techniques.

He had initially thought that the Earth was the safest place, who knew that he would end up meeting this kind of thing? At this point, Ning Cheng did not blame Yi Lei at all. Even if Yi Lei had not called on him, with the power of these insects, at most, they would require just a few days to breach through and rush towards the Hundred Bay Point. In those few days, it would indeed be a massive stroke of luck if he could have reached the 1st Level of the Soul Sculpting Realm, even if his fate was not that good, he could only restore his cultivation to the peak of the Soul Essence Realm at most.

"Ka Ka....." The Profound Ice Spear Lights were just like tofu, crushed into nothingness by a stomp from the Insect Queen's foot. As Ning Cheng's attack dispersed, the Insect Queen's other foot honed in on Ning Cheng, almost as if it was his own shadow.

"Bang." A considerable force hit Ning Cheng's body, causing Ning Cheng to fly out like thunder instantaneously.

The Insect Queen didn't intend to let go of Ning Cheng, and in just two steps, it arrived at Ning Cheng's side.

Yi Lei was still looking from the inside of the Battle Disc, she was well aware that Ning Cheng was a mighty expert at this point, but this Insect Queen was even more powerful. Since she was the one to call Ning Cheng here, wasn't it similar to saying that she had also killed Ning Cheng? From the looks of it, even Ning Cheng can't defeat this Insect Queen, let alone kill it.

Not only Yi Lei, but also all of the people left at the Jabbes Line of Defence were nervously staring at the battle between Ning Cheng and the Insect Queen. When the Insect Queen was attacking Ning Cheng repeatedly and relentlessly, it caused the hearts of everyone to stop beating for a few seconds.

When they saw that black battle disc's powerful attack from before, all of them had thought that the Jabbes Line of Defence was finally safe, but none of them had ever expected that the Insect Queen would eventually appear and would even be this powerful.

The person blocking the path of the Insect Queen was definitely a top-level expert among the Martial Artists. For this high-level expert to battle it out with the Insect Queen was evidently to stop this Insect Queen from reaching the flying saucer. Which also meant that this flying saucer was unable to kill this Insect Queen. If the Insect Queen murdered this expert, it would leave a completely open path for the Insect Queen to burst into the Jabbes Line of Defence. At that time, would there even be a dog left behind in this Line of Defence?

Zhan Yingxun clenched his fists, he was well aware that he rushing forward to provide help would be equivalent to killing himself. However, if his death could be useful in any way, he would not hesitate to die; it was a pity, he was well aware that even if he chose to kill himself, his death would only be counter-productive to the cause.

If the five Major Experts were still here, he would still be able to pull in a few strings to request some favours. Unfortunately, among the Five Major Experts, Shelley and Monk Rui Qing had already perished, while Dhulandi had gone to escort Yi Lei to the 'Hundred bay Point'. Homer had just not shown up at all, while Xing Liang went missing on the battlefield.

At the same time that the Insect Queen knocked away Ning Cheng, he could immediately feel his bones breaking inch by inch. The power of this Insect Queen was beyond terrible. If he were not already a Body-Forging Cultivator, then even if he did not die by this strike, he would definitely end up with mortal injuries.

Ning Cheng had not yet stood up when the Insect Queen once again arrived right in front of him. Ning Cheng knew that his current strength was still very far from the Insect Queen, especially since he realised that the Insect Queen's power was definitely at the early stages of the Sea Opening Realm. However, this was secondary; the most important thing was the body of this Insect Queen was just too sturdy. The injuries sustained by the Insect Queen from his attack were radially inferior to what he suffered from the Insect Queen. If he went on like this, then the one to suffer a loss, in the end, would definitely be he.

Must find a solution, otherwise only death awaited him.

Seeing that the Insect Queen had once again raised one of its long serrated legs, Ning Cheng directly threw out a black coloured Magical Weapon. This black Magical Weapon, in just a blink of an eye, the net expanded to approximately a few hundred feet in size, directly encompassing the Insect Queen.

The Insect Queen did not think that Ning Cheng would also possess this kind of thing, that would solidly cover it in its entirety in such a sudden manner. The next moment, the net started contracting at its fastest speed and soon bundled the Insect Queen like a crab put on sale.

Ning Cheng felt slightly relieved at this situation, this piece of Magical Weapon was the weapon that he had snatched from Gui Yuhai's hand and called the Underworld Lock Soul Net. Its grade was also not low. Previously, because he had many other means, he had hardly used this Magical Weapon. He had never expected that he would find such incredible use of this Soul Net after he returned to Earth.

"Crack....." A clear breaking sound emerged that caused Ning Cheng's complexion to change. He knew that this Insect Queen's body would undoubtedly be sturdy, but looks like it was still stronger than the Best Quality Spiritual Artefact. He had actually not thought that this Insect Queen would be able to

struggle free from the Underworld Lock Soul Net. One must know that the Underworld Lock Soul Net was a Best Quality Spiritual Artefact. Even if it was one of the worst Best Quality Spiritual Artefacts, wasn't it still a Best Quality Spiritual Artefact?

Another 'crack' sounded out, as a foot of the Insect Queen finally was able to extend out from inside the net.

Ning Cheng knew that he could not continue to hesitate; he had to make use of this opportunity. Once the Insect Queen managed to free itself, then besides waiting for his death, he would not be able to do anything.

Ning Cheng did not care about damaging his foundation, as he crazily spat out several mouthfuls of his Essence Blood, and immediately shouted, "Explode for me."

Even if he had to blow up this Best Quality Spiritual Artefact, he could not let this Insect Queen break free.

"Bang" A terrifying explosion erupted soon after another 'crack' emerged from the Underworld Lock Soul Net. The detonation of a Best Quality Spiritual Artefact was not something casually withstood, even if Ning Cheng possessed a Rank 5 Imperial Body, he still wouldn't be able to resist the detonation of his Best Quality Spiritual Artefact.

However, Ning Cheng certainly would not choose to take a step back at this moment. Ning Cheng once again brought out the shadow of the Everlasting Blue Thunder City to block the explosive impact from the detonation of the Spiritual Artefact; at the same time, Ning Cheng also used this short gap to manifest a long spear once again and struck out. A Spear Shadow shot through the explosive ripples generated by the detonation of the Underworld Lock Soul Net, before striking the Insect Queen's body.

This spear strike was something that Ning Cheng had comprehended from that Spear-Wielding Powerhouse. As he used this move, he couldn't help but wonder how many powerful creatures ended up dying beneath this strike from that fellow with the sky-high cultivation; meanwhile, at this time, Ning Cheng was using this strike to try to deal with the Insect Queen.

### [The Gate Of Good Fortune](#)

#### **Chapter 386: Mutually Wounded**

Even if the Insect Queen had a sturdy body, under the detonation of the Underworld Lock Soul Net, it instantly ended up suffering severe injuries. The severely injured Insect Queen knew that Ning Cheng's spear was terrifying; moreover, this one spear strike even managed to let it feel an impending crisis of death.

However, at this moment, the Insect Queen erupted with extraordinary strength. Even if the Underworld Lock Soul Net's explosion caused it to suffer severe injuries, causing several of her legs to break, the Insect Queen still issued a horrifying screeching sound. Some of the sporadic insects that the Battle Disc was not able to kill, on hearing the Insect Queen's screech, immediately swarmed towards Ning Cheng's side. However, the Rank 5 Battle Disc's white lights were even faster, as it caught up with the insects that were approaching Ning Cheng before completely massacring all of them.

Although the Insect Queen had managed to recover a bit from her severe injuries, it was still a bit slow. The trajectory of Ning Cheng's long spear carried over the fearful Spear Intent as it pierced into the incomparably hard Insect Queen's body.

"Bang Bang....." Killing intent suddenly burst out from the Spear Intent, pushing the already severely injured Insect Queen back a few feet before detonating inside her body.

The Insect Queen once again issued an even more painful screech. With the only remaining intact foot, it immediately dropped the idea of wanting to resist the long spear. It then used the spear's momentum to change directions, and in just a blink of an eye, shot towards Ning Cheng's body. At the same time, a bolt of white silk-like threads spat out from the Insect Queen's mouth, which shot towards Ning Cheng's waist. Ning Cheng, other than barely being able to shift his position by a little bit, wasn't able to do anything else. The difference in strength between him and the Insect Queen was too huge at this moment. If replaced by any ordinary late stage Soul Essence Cultivator, they would have already met their makers long ago.

"Poof... Kya....."

That bolt of white silk immediately sliced into Ning Cheng's waist. Even if Ning Cheng possessed a Rank 5 Imperial Body, it still wasn't enough to stop it, causing a blood mist to spew out from his mouth. However, at the same time, Ning Cheng's Rank 5 Imperial Body also ended up saving his life; otherwise, it would not have just stopped with a spray of blood mist, but instead, he would currently be in two pieces.

While the bolt of silk sliced into Ning Cheng's waist, the only whole leg of the Insect Queen also descended onto Ning Cheng's body. Causing Ning Cheng to fly out upside down once again, while his entire skeleton issued cracking sounds.

However, although Ning Cheng flew back tumbling, he did not let go of the long spear in his hand. The long spear had managed to pierce into the body of the Insect Queen. Now that Ning Cheng was sent back tumbling, the long spear ended up being pulled out, causing a considerable amount of green liquid to spew out from the inflicted wound.

The Insect Queen also cried out pitifully, with only a single intact leg left, it realised that it would not be able to continue fighting any longer. Therefore, it decisively chose to escape from the battlefield and soon disappeared.

During this battle, the Rank 5 Battle Disc had killed billions of those insects, while the Insect Queen and Ning Cheng ended up mutually wounding each other.

As the Insect Queen fled, Ning Cheng also struggled to stand up. Ning Cheng immediately swallowed several pills, seeing many people from the Jabbes Line of Defence come over, he knew that he had to leave this place as soon as possible. Even if he had to return to this place at another time, he would have to wait until his injuries healed up fully.

This time, his injuries were not light at all. Fortunately, the Insect Queen had fled in fear; otherwise, he just did not have the power to fight back.

Seeing the Battle Disc Sifting Orchid fly over to his side and descend, Ning Cheng went all out to crawl into the Battle Disc.

Yi Lei hurriedly helped Ning Cheng, currently covered in blood, into the Battle Disc; at the same time spoke out, "Hurry into the Jabbes Line of Defence, Big Brother Ning needs help."

However, the Battle Disc did not move. To Sifting Orchid, as long as it was not Ning Cheng himself giving the instructions, it would never do anything. Other than Ning Cheng, who was the master of the Battle Disc, it would not obey anyone else's orders.

Ning Cheng struggled against Yi Lei and spoke out, "You go down... It's no longer your business."

"No, you're hurt too much; I'll take care of you. You quickly tell your flying saucer to go to the Jabbes Line of Defence. Don't stay here anymore; otherwise, you will be attacked by the insects again, your wounds also need immediate attention and treatment." Yi Lei spoke up before suddenly crying out in surprise, "Let the people inside, and allow them to help."

Ning Cheng no longer was in the mood to have long-winded conversations with Yi Lei and directly gave the order to Sifting Orchid, "Leave this place at maximum speed... Go to the Southern Heaven's Feral Brook Mountain....."

Finished saying that, Ning Cheng immediately started refining the Healing Pills in his mouth. That Insect Queen's strength was extremely formidable, that final strike from her had almost shaken his foundation. His Zifu was still shaking violently right now, while his Meridians were giving off cracking-like sounds. However, Ning Cheng believed in his Healing Pill's healing power, as long as he was able to get a few days, he would be able to recover from his injuries.

The difference in strength between him and the Insect Queen was too enormous; however, her situation was the same as him. It looks like after coming to Earth, even her strength had dropped by too many levels. Fortunately, the Earth was deficient in Spiritual Qi; otherwise, if the Insect Queen had managed to regain one-tenth or even one-hundredth of its original strength, at that moment, if his power restored to its peak, he definitely would not be a match against the Insect Queen.

An insect with such high strength, he just would not be able to domesticate it anyway, let alone carry it away from Earth. Currently, he had to restore his power to its peak, then immediately head out to look for that giant insect's lair and kill it. Otherwise, once that giant insect recovered some of its original strength, at that moment, he would be the one to die rather than the other way round. As for the rest of life on Earth, they would also turn into dust and smoke quickly.

Yi Lei on seeing that the Battle Disc was not going towards the Jabbes Line of Defence couldn't help but ask in a daze, "Big Brother Ning, with such severe wounds, why not come to the Jabbes Line of Defence to heal inside?"

Ning Cheng simply gave a sneer, entirely disinclined towards answering her.

Yi Lei on seeing Ning Cheng sneer immediately understood something. With the current Ning Cheng severely wounded, once he went back to the Jabbes Line of Defence, in case some of the people coveted his Battle Disc, then it would not bode well for him.

Yi Lei immediately turned silent; she also understood that her asking Ning Cheng to go to the Jabbes Line of Defence for healing was not a good thing. Yin Yihui had killed many insects at the Jabbes Line of Defence, but he still ended up stripped of his Essence Weapon. If not for Dhulandi carrying off Yin Yihui, then Yin Yihui would have most probably died.

Several commanders ran out of the Jabbes Line of Defence, while innumerable soldiers were looking up in the air towards the Black Battle Disc as it disappeared over the horizon. At this moment, whether it was inside or outside the Line of Defence, there was only a pin drop silence.

No one knew who had come to rescue them, or even where they came from, but all of them knew that the only reason that the Line of Defence still had humans alive was all because of the black flying saucer that saved them.

At this point, outside of the Jabbes Line of Defence, there were near-inexhaustible piles of insect materials scattered around. The value of these materials was inestimable. However, nobody came forward to collect these materials as all of them were looking in the direction where black flying saucer disappeared.

However, they only gazed in that direction for less than half a minute; after the Battle Disc disappeared, almost all of them rushed forward to collect those insect materials. This was uncountable wealth, limitless riches.

.....

Tian Muwan sat up suddenly, the first thing she did was to clutch at the fabric covering her chest. However, she soon realised that there was nothing less on her body and that she was okay. As a woman, as well as a True Cultivator, she immediately understood that nobody violated her.

What happened? Did that scarlet-robed man suddenly find his conscience?

That's not right; the place she was in was the External Domain Hotel, inside her own room. She immediately put down her hand and recalled the matter from before. That scarlet-robed man threatened her, but before she decided to end her life, she wanted to meet Ning Cheng once again. At that time, when she chose to return to the scarlet-robed man, she steeled her heart to initiate the self-destruction her meridians to commit suicide.

That's right, she had definitely severed her meridians, but then why were her Meridians completely fine right now? An aftertaste of Spiritual Grasses lingered around in her mouth, causing Tian Muwan to realise instantly that although she had indeed severed her meridians, someone seemed to have saved her with a Healing Pill.

She had once seen a Rank 1 Spiritual Grass before; however, this kind of healing power probably did not originate from refining Rank 1 Spiritual Grasses. What kind of Healing Pill was this, how could something like this appear on Earth? Moreover, on Earth, how could anyone know about Alchemy? Why would someone be willing to use such a precious medicine to save her?

It was impossible for that scarlet-robed man to find his conscience, let alone save her. That person definitely had a vicious nature, so how could he possibly give up on her?

Tian Muwan immediately dialed the phone number of her assistant, and in less than a minute, she figured out that nobody saw her coming back, or even seen anyone bringing her back.

In other words, someone had actually saved her and even brought her here without anyone else's knowledge. Who was this person?

.....

"Ruolan, I'm going to shift the company to Jiangzhou. We should leave the Hundred Bay Point by tomorrow." Dai Xin thought about this matter for a long time before finally getting her thoughts out.

Ning Ruolan already knew about Dai Xin's thoughts. Her big brother would definitely take her away from here. At that moment, the Cheng Ruolan Company would whole-solely become Dai Xin's responsibility. Dai Xin wanted to prove it to both her and her big brother that she definitely could head the Cheng Ruolan Company before the two of them left this place.

"Um, you can go for it. This company will anyway be yours in the future; you can definitely be in charge and take the responsibility of it. However, remember to keep a check on your own cultivation, in the future, my brother and I will definitely come back. You can even take in the several sisters from our dormitory into our company, especially Shiyun if they wished. Before, it was always you all who helped me, but I've never done anything for ..." Ning Ruolan also had the same mind as Ning Cheng and was a sentimental person. She had indeed wanted to thank her sisters from before, but she never had the opportunity to do so. Now that she knew that she would be leaving this place, she couldn't help but ask Dai Xin to help her complete this wish.

"You don't need to mention this matter to me since I was also there. Shiyun is still at Jiangzhou, I anyways intended to ask her if she wanted to work with me. Ruolan, I have to say it, you can also choose to come to Jiangzhou together with me....."

Dai Xin wanted to persuade Ning Ruolan to come to Jiangzhou together with her, but then Yin Yihui's voice came from the outside, "Miss Dai, Little Miss Tian Muwan came to visit."

Dai Xin frowned immediately, "Didn't she come here before? Why come again? Previously, she made Elder Brother Xiaocheng unhappy; looks like this woman's spirit is still alive."

"Little Xin, its ok. This woman was someone my big brother was in love with. Besides I had indeed misjudged her, I thought that she had killed my big brother....."

"What's it any different from? If not for her, how could Elder Brother Xiaocheng possibly leave Earth?"

.....

Tian Muwan sat for a while before Ning Ruolan walked in. She immediately stood up and did not talk any nonsense and directly spoke up, "I want to see your brother."

Ning Ruolan calmly looked at Tian Muwan and thought this woman indeed is pretty. It was no wonder that her big brother was so infatuated with her. Even if it was now, perhaps her big brother was still unable to forget about her; otherwise, he would not have felt lost at that time.

"Do you want to be my sister-in-law?" Ning Ruolan no longer felt trepidation standing in front of her. She seemed to have even forgotten what fear was when compared to one month ago. She was already

at Qi Gathering 1st Level and knew that her strength had grown quite considerably, but even then, it was still impossible for her to fathom the extent of her big brother's cultivation.

Tian Muwan also felt the change in Ning Ruolan, and couldn't help but feel slightly astonished. She had never thought that Ning Ruolan would blurt out such things. However, she didn't feel her words grating as she replied, "It's not this, and I just wanted to say two things....."

What Tian Muwan wanted to say was that she could force Dhulandi to let go of Ning Ruolan. She honestly did not know why she wanted to help Ning Cheng, or why she was reflecting on her actions, but her mind couldn't help but make arbitrary connections to Ning Cheng. Just like the words of that scarlet-robed person, she indeed had a somewhat conceited and peppery personality. Regardless of whether she had died or not at that time, but that personality of hers unquestionably perished back then. After taking care of these things, she firmly decided to leave and sever all ties with the Tian Family and go search for her own Cultivation Resources to cultivate slowly.

Yin Yihui's voice once again came from the outside, "Elder Sister Ning, Dhulandi is waiting outside. He says that he must see you."

### [The Gate Of Good Fortune](#)

#### **Chapter 387: Leaving**

Elder Sister Ning? Tian Muwan doubtfully looked at Ning Ruolan. What was the meaning of Dhulandi waiting for her outside? If Dhulandi wanted to see Ning Ruolan, why did he have to wait?

"I'll come out to see him." In Ning Ruolan's heart, Dhulandi's status was much higher than Tian Muwan. After all, after she and her brother left this place, Dhulandi would be the one supporting the Cheng Ruolan Company. Tian Muwan for her was someone she might meet on the way to buy some soy sauce.

"Elder Sister Ning, I just received a message that a flying saucer had suddenly appeared in the skies above the Jabbes Line of Defence when it was just on the verge of defeat. The flying saucer displayed a fierce combat ability and was able to kill billions of those insects. The insects killed are enough to stack up into several mountains. Now that the Insect Queen is severely injured, I must immediately depart to the Jabbes Line of Defence....." Dhulandi first gave a bow and spoke.

Ning Ruolan was Ning Cheng's little sister; moreover, she was Ning Cheng's treasured baby sister, how could he dare to show even half a shred of neglect. In his heart, he was clear that he could choose to neglect Ning Cheng himself, and it would not mean anything to Ning Cheng at all, but he utterly cannot overlook Ning Cheng's little sister.

Again Elder Sister Ning? Tian Muwan couldn't help but look at Dhulandi from the back, what's going on? She could see that Dhulandi was not ordering Ning Ruolan around, instead was asking her for permission with the utmost respect and even a hint of dread in his eyes. Didn't Ning Cheng push his little sister to Dhulandi in exchange for receiving support from the opposite party? Was the news that I obtained wrong?

At this moment, Tian Muwan suddenly suspected that the news Tian Yan sent her before dying at the hands of Ning Cheng seemed to contain a lot of falseness within it.

Ning Ruolan nodded and spoke, "Dhulandi, you don't need to ask me to leave. I'll soon be leaving the Cheng Ruolan Company with my big brother. Whether my brother and I are here or not, I hope that you can continue to support the Cheng Ruolan Company, and try to help Dai Xin as much as possible. My brother has also left behind a few rewards for you that would help you in the future. Dai Xin can give them to you."

Dhulandi quickly spoke up with joy, "You and Elder Brother Ning can rest assured. I will certainly never forget your or Elder Brother Ning's instructions."

Ning Ruolan was just about to speak when she heard a burst of crashing sounds. Yin Yihui came crashing through the door he was guarding, immediately following those crashing sounds.

"Not bad, your injuries unexpectedly healed up." A sarcastic voice followed Yin Yihui's crash.

Finally managing to sit up on the ground, Yin Yihui clenched his fist. He could not wait to rush forward immediately, to kill this person repeatedly, but he knew that the difference in strength between the two of them was too vast.

"Who are you?" Ning Ruolan unconsciously stepped back a few steps, while staring at the man who was walking towards them in a leisurely manner. This man did not look very old, around 30. However, he had dark eyes and a yellow tinted face, while having a pair of white hands.

"Dhulandi, tell them who I am." The man gave a smile as he shot a look at Dhulandi.

Yin Yihui wiped the blood from the corner of his mouth, not waiting for Dhulandi to speak, he spoke out in a hateful voice, "Elder Sister Ning, this person is Yan Rui. The one who hoodwinked the public in the Jabbes Line of Defence, even the First Commander William Hill could not do anything. He also snatched my Essence Weapon....."

Dhulandi hurriedly spoke up, "Yan Rui, Yin Yihui has already left the Jabbes Line of Defence. It's overdoing it for you to come here for him."

"Dhulandi, you did not speak when given a chance. I gave you a little face back then, but you shouldn't take it too seriously." Yan Rui's face sank as he stared at Dhulandi.

After Dhulandi heard those words, his complexion changed slightly but did not dare to interfere. Although he was one of the Five Major Experts, it was only on the surface. In fact, amongst the Five Major Experts, other than the First Expert Xing Liang, Yan Rui was not afraid of anyone else. Even if Yan Rui were in front of Homer, he would never act humble. If not for Yan Rui unwilling to make a name for himself, the Five Major Experts would undoubtedly have one less of its current members, while the top two would have a spot for Yan Rui.

Seeing Dhulandi's complexion change, and not daring to speak loudly, Ning Ruolan immediately understood that this person probably did not have an ordinary background. She did not know how powerful Grey Toottoot was, and only knew the words that her big brother had told her, if someone dared to bring harm to her, then directly call for Grey Toottoot to take care of it.

"If you interrupt me once again, then I will break your dog legs. So you won't anger me, will you?" Seeing Dhulandi not speaking, Yan Rui did not let him go and leaned his body forwards towards Dhulandi, to ask him a question.

After finishing this sentence, Yan Rui's eyes then swept past Ning Ruolan and fell onto Tian Muwan's body before he spoke up, "You are luckier than me, and you'll also develop soon."

Finished saying, he raised his hand towards Ning Ruolan and spoke; "You will be servicing me."

"Grey Toottoot attack, don't be lenient....." Even if Ning Ruolan had not called out in anger, Grey Toottoot would never sit back and watch, let alone be lenient.

Yan Rui had not yet reacted when he felt a grey shadow rush towards him.

"Bang." The next moment, the grey shadow kicked his Dantian. Yan Rui instantly felt everything in front of his eyes turn black, as an unspeakable pain raged throughout his body, His entire body even flew back because of the impact.

"Clatter Dong....." Crashing sounds rang out, as Yan Rui hit the door that he had just opened before he slid down to the ground and sprayed out blood on the spot.

"You ... You....." Yan Rui stared at Grey Toottoot who had already returned to the couch, in shock. He just was not able to utter more than a single character.

Ning Ruolan had never expected that Yan Rui, who even Dhulandi dreaded, was just not even able to put up the slightest resistance in front of Grey Toottoot. Moreover, a single casual strike from Grey Toottoot was enough to push him back. She did not see that Yan Rui's Dantian breaking, and just thought that Yan Rui had suffered a small loss. Even if that was the case, she was still pleasantly surprised.

"Monstrous beast, it unexpectedly turned out to be a monstrous beast....." Yan Rui finally managed to mutter.

Tian Muwan also couldn't help but look at Grey Toottoot in shock. With her cultivation, she was able to bring out a tiny amount of Spiritual Sense; because of it, she was, of course, able to sense the fluctuations of Spiritual Power in the air. An attack infused with Spiritual Power fluctuations, it was definitely a Monstrous Beast without a doubt. Moreover, for it to use just a single kick to injure Yan Rui severely, it was at least a Class 3 Monstrous Beast. Since when did Earth contain this kind of a Monstrous Beast? Moreover, why was it acting like Ning Ruolan's pet?

Tian Muwan subconsciously looked at Ning Ruolan; she finally seemed to have understood why Dhulandi was behaving so respectful in front of Ning Ruolan. That was because this Monstrous Beast would easily be able to kill Dhulandi if she wanted.

"I'll leave, I'll leave immediately....." Yan Rui reacted immediately; he knew that staying here would mean death. He wanted to take advantage of the fact that the others did not know about his Dantian's fragmentation. Otherwise, Yin Yihui would be the first to kill him.

Grey Toottoot shot a despise-filled glance at Yan Rui, who was trying to use both his hands to support himself up. It merely raised his claw, causing a pill to appear in its paw. The next moment, that pill shot into its mouth.

"That's a Spirit Pill and is not even a low-rank one...." Tian Muwan stared at Grey Toottoot, while her heart was churning endlessly. She was vaguely coming to understand something.

Seeing the struggling appearance of Yan Rui, Dhulandi shook his head and spoke, "Mr Yan, I had advised you to keep your behaviour in check back then, but you did not listen to me. Now that your Dantian is destroyed, why bother?"

After Yan Rui heard this remark, his face immediately changed drastically. Of course, he knew what Dhulandi meant by it, it was tantamount to saying that he wanted his life.

Sure enough, when Yin Yihui heard Dhulandi's words, he wiped off the blood seeping from his mouth before leaping forward once again and stepping on Yan Rui's face.

"Katcha....." Sounds of facial bones breaking immediately emerged, while Yan Rui's heart sank to the bottom. He knew that at this moment he was completely finished. Even if master could take revenge for him eventually, he would never be able to see it.

"Bang Bang...." Yin Yihui's fists were like raindrops falling onto Yan Rui's body while he repeatedly murmured out the words, "Grabbed this father's Essence Weapon, this father had risked his life to rush to the front to kill those insects, while you shrunk your balls to play with women....."

"Bang ... Bang....." Yin Yihui's grievances completely erupted onto Yan Rui's body. At this moment, he was genuinely feeling grateful for Grey Toottoot helping him out with a kick.

Dai Xin couldn't help but speak out from the side, "He's dead."

It was only then that the crazy Yin Yihui calmed down. Yan Rui's face was full of bloody froth even spare Yan Rui's eyes were not spared. He was deadlier than dead.

"Elder Sister, I'll deal with this trash." Yin Yihui finished then grabbed Yan Rui's body and quickly left the room.

Even though Ning Ruolan had seen her brother shoot and kill Quake, but at this time when she saw Yan Rui brutally murdered by Yin Yihui, she was unable to adapt to the situation for some time.

"Elder Sister Ning, I will also be taking my leave." Dhulandi also drew back hastily. It was no wonder that Ning Cheng remained assured about his little sister staying here by herself. There was even such a heaven-defying dog here, with such an expert-level guardian, who could make a move against Ning Ruolan? Fortunately, he was able to realise this early on that day, that Ning Cheng was not an ordinary person, and now this notion had already firmly cemented into his very being.

"Ruolan, who is your brother?" Tian Muwan asked again. At this point, she found it very ridiculous about the things that she was proud of before. Ning Ruolan already had such powerful assistants, so why would she even need her help?

"When you came here last time, my brother had walked out after you and hasn't come back. If you have any words that you want to say to him, you can tell me, I will pass it on to my brother when he returns." Ning Ruolan replied with a somewhat pale face.

Tian Muwan knew the underlying meaning behind Ning Ruolan's words, that is, it would be better if she did not go looking for Ning Cheng. At this moment, she couldn't help but feel a sense of frustration. She had heard these same words from her Tian Family when they did not want to let her and Ning Cheng

meet each other. She had not expected that it would turn a full circle, to the point that Ning Cheng's little sister would use it on her.

After that, Tian Muwan once again recalled the time when someone rescued her, at that time when she had come to seek Ning Cheng. Did Ning Cheng save her back then? However, since when did Ning Cheng possess such skill? She subconsciously looked at Grey Toottoot lying on the big couch.

Can a dog even eat a Spirit Pill, who was the one who gave it a Spirit Pill? Ning Cheng had been missing for three years, was it all related to this? Was the dog who was like a Monstrous Beast something that Ning Cheng had brought back?

"Ruolan, was Grey Toottoot brought along by Ning Cheng?" Although Tian Muwan had guessed it all, she still asked about it.

Ning Ruolan also did not conceal it and spoke, "Yes, Grey Toottoot is someone big brother had left behind to protect me."

At this moment, Tian Muwan completely understood that Ning Cheng was really the one who had saved her. Ning Cheng missing for the past three years definitely meant that he had encountered an unusual spell of good fortune. Just like her, perhaps he was also a True Cultivator.

She had initially thought that she and Ning Cheng were not of the same world, which was because she was a True Cultivator. While Ning Cheng's appearance at that time was akin to someone who had gone down in the world, something that she was never able to forget. Now that everything cleared up, she felt somewhat satirised for herself. They indeed were not of the same world. It was not that Ning Cheng was too far away from her; she was the one who was too far away from Ning Cheng.

To put it bluntly, she used her status as someone coming from a True Cultivator Family to reject Ning Cheng. However, in the end, it proved to be that she possessed the pride of the poor.

Tian Muwan did not continue to ask anything else; she quietly walked out of the room. She knew it full well that he will not appear in this place again. Ning Cheng saved her but was not willing to see her, which was because he had been hurt too deep.

However, the reason for their separation this time was fundamentally different from before, it had turned a full circle only to return to the beginning. The two were not really of the same world.

'Struggling to meet in person but not being able to meet, this was the ruthlessness of those who carry love in their hearts'. When Ning Cheng came back, she was unable to stop thinking about the second part of the phrase, but the meaning at this time compared to that initial meeting was entirely different.

### [The Gate Of Good Fortune](#)

#### **Chapter 388: 36 Axes**

The speed of the Rank 5 Battle Disc was fast, and in just a short time, it had already left the Jabbes Line of Defence far behind. At the same time, Sifting Orchid's voice resounded, "Feral Brook Mountain's position is not clear, please provide a clear position."

"I know where the Feral Brook Mountain is located at, but Big Brother Ning, can I cook something for you to eat first?" Yi Lei could already feel that Ning Cheng was going to recover soon. Therefore, she

couldn't help but feel relieved, and the first thought she had was to cook something for Ning Cheng to eat. As for going to the Feral Brook Mountain, it really did not matter to her.

Ning Cheng was also aware that the Battle Disc did not know the location of the Feral Brook Mountain. That was also the reason why he had not tried to force it out of Yi Lei; at the same time, he knew that he would need Yi Lei's help eventually.

"Yi Lei, I'm not hungry right now. Just give me an estimate as to where the Feral Brook Mountain is located, I'll then find a place for you to get down. After I leave, even I don't know when I would be back. It would also not do you any good to accompany me." After eating several pills, one after another, along with the recovery abilities of his Imperial Body, Ning Cheng was already making a speedy recovery. Now that he heard Yi Lei say that she really knew the location of the Feral Brook Mountain, he couldn't help but quickly speak up.

Yi Lei remained silent, she just pulled out a map from her bosom and handed it to Ning Cheng before speaking, "The Feral Brook Mountain is marked in it, you can have a look."

Ning Cheng did not look at the map. Instead, he just placed the sheet at his side and spoke, "Sifting Orchid, find an open space to land and let Yi Lei go down."

The Battle Disc soon stopped in the suburbs of a city, but after the gate opened, Sifting Orchid did not immediately leave. Yi Lei looked at Ning Cheng for a moment before speaking, "Big Brother Ning, I'm sorry, this time, I ended up bringing harm to you. However, I am also very grateful to you, if not for you then the breach of that Line of Defence would have marked the start of the end of humanity. Whether you did it for yourself or for everyone, my heart will always remember you."

"Yi Lei, I only did it for myself; moreover, the Insect Queen is also not dead. But you can rest assured that I will definitely kill it once I recover from my injuries." Ning Cheng felt a bit touched by Yi Lei.

When he had killed those insects, he had never thought that Yi Lei would be so pure-hearted. Yi Lei was genuinely doing everything she could for the benefit of humanity. However, he had already promised himself that he would kill that severely injured insect before leaving. Moreover, it was not for them, but for himself. He knew that he would not get another better chance. He was clear that if he let those insects recover, he would not be able to leave this place.

"Thank you, Big Brother Ning." Yi Lei intently looked at Ning Cheng. She did not even blink her eyes.

Ning Cheng couldn't help but feel somewhat awkward; he really did not know what to say in this kind of situation. Yi Lei did not have any Spiritual Root to speak of, if she had a Spiritual Root, then he could have asked Yi Lei to help out Dai Xin, at the same time help her in regards to cultivation. Yi Lei's pure heart even made Ning Cheng feel a little ashamed.

After a short pause of silence, Yi Lei finally spoke up, "I have a premonition, that once Big Brother Ning killed that huge insect, you will completely disappear from our sights. We might not even meet again....."

Ning Cheng remained silent; he couldn't help but think that Yi Lei's premonition was accurate.

Seeing Ning Cheng silent, Yi Lei realised that her words were not wrong. She looked at Ning Cheng's severely wounded waist before whispering, "The fact was, I wanted to wait until you killed the Insect

Queen before giving myself to you. It was not because I want to be together with you, and not as a way of thanks. Instead, because I loved the words that you spoke before. A woman's most precious thing, it must be given to the person that they really love..."

After saying those words to herself, Yi Lei exhaled a mouthful of air, while her complexion also turned a lot more cheerful, "Big Brother Ning, I know that I don't deserve you, but after saying those words, I feel much more comfortable....."

Yi Lei after saying those words walked towards the cabin door. She really was feeling very comfortable. At least, during the entire process of Ning Cheng killing those insects, she had followed by his side. She was even able to say those words from the deepest parts of her heart.

"Yi Lei....." Ning Cheng stopped Yi Lei, "I can't say about anything else, but we might truly not meet each other again...."

Yi Lei turned around. There was a relaxed expression on her face, meaning that she already knew about it.

"I'd like to give you a suggestion. In the future, do not go back to the Jabbes Line of Defence. If you can, then also withdraw from the Alliance. As for those insects, I will take care of it. Besides, staying inside the Alliance is not something suitable for people like you." Ning Cheng slowly said.

Ning Cheng had thought about these words for a long time. He guessed that Yi Lei might not withdraw from the Alliance, but he still could not help but say it aloud.

"I know, even if it were not you who said those words, I would not continue working for the Alliance. After you refused to go to the Jabbes Line of Defence for recuperation, I was able to understand many matters. You don't need to be worried; I'm not as stupid as you think." Yi Lei gave a reply with a smile.

Ning Cheng gave a sigh, he took out a knife and a book before handing it to Yi Lei and spoke up "You can keep this Essence Weapon with you, but do not let others see it. As for this book, it is a Cultivation Method for Martial Cultivation that I had obtained from another place. I wrote it down in it. You do not have any Spiritual Root to speak of, so I don't know if you would be able to cultivate this Martial Cultivation Method. If you can't cultivate it then just burn this book in the future. Thank you for the consideration that you showed me, but the truth is I already have a wife....."

Yi Lei collected the dagger and the book from Ning Cheng, before watching the black flying saucer disappear into the sky. She finally was not able to resist her eyes turning blurry.

She had fallen in love with this man the moment he had rushed out to stop that Insect Queen. There was just no reason for it, no process to it, just plain and simple love. When she saw this man entirely covered in blood and still fighting that Insect Queen, she could not help but wish to provide any kind of assistance. However, from the beginning to the end, she was well aware that this man never would belong to her. She really did not know what kind of woman could even be qualified to become this man's wife.

.....

The Feral Brooke Mountain was a very inconspicuous place. A ring gently drifted down towards it before burying itself into the ground, this ring was the one engraved with a Concealment Restriction to keep it hidden.

This was Ning Cheng's Miniature World Ring. Ning Cheng stayed inside the Miniature World Ring for ten days. During these ten days, Ning Cheng's injuries healed up perfectly. Although his Body-Forging was still some distance away from a Rank 6 Imperial Body, it had taken a considerable step forward compared to before, all because of the recent battle.

Ning Cheng did not come out from the Miniature World Ring; he wanted to restore his cultivation to his peak inside his Miniature World Ring. Knowing that the Earth was not as steady as he imagined, Ning Cheng knew that he had no choice but to restore his cultivation as soon as possible. By this time, he was already able to regain his strength to the Soul Essence 9th Level.

Another week later, when Ning Cheng's cultivation began to slow down, he took a long breath. At this moment, he had fully restored his strength to his previous peak of 4th Level of Soul Sculpting Realm.

Although he had restored his cultivation, Ning Cheng still did not choose to come out of his Miniature World Ring. Instead, he took out the 36 Small Axes.

These 36 Axes were those that Cang Wei had helped him refine; there were 18 Cosmic True Axes and 18 Extreme Devil True Axes. Not only that, all 36 of these Small Axes were Best Quality True Artefacts.

In the Tian Continent, just a single Best Quality True Artefact was already a priceless treasure, so what can be said about a set of 36 Best Quality True Artefacts? If Ning Cheng's Spiritual Consciousness were not strong enough, then he just would never be able to control these 36 Best Quality True Artefacts, no matter how much he wanted to.

Even though Cang Wei specifically refined these 36 Axes for Ning Cheng, Ning Cheng still took a full week to retrofit it for himself.

One week later, 18 golden coloured Axe Shadows and 18 pitch-black coloured Axe Shadows started revolving around Ning Cheng. Feeling the power feedback from these 36 Axes, Ning Cheng's confidence increased significantly.

Once these 36 Axes arranged themselves into an Axe Array, while augmenting with his Axe Intent, it would definitely turn into the most ruthless and powerful killing tool. Even if he had to battle it out with the Insect Queen once again at this moment, Ning Cheng believed that he would not need to induce the detonation of the Net Type Spiritual Artefact, yet still be able to severely injure that colossal Insect Queen.

Ning Cheng finally left the Miniature World Ring and came out. Stimulated by the several time's more powerful Spiritual Consciousness, the 36 Small Axes transformed into an intertwining line of yellow-and-black in just an instant. Causing the surrounding air to stagnate completely. The next moment this Axe Trace stuck the Feral Brook Mountain near to its summit, creating a nearly hundred feet deep chasm to emerge in front of him.

Ning Cheng couldn't help but gasp, wasn't this just the Angry Axe's First Trace? This kind of usage of the Angry Axe's First Trace, it was much more powerful compared to what it was initially.

A heroic spirit seemed to have germinated in Ning Cheng's heart once again, as the 36 Axe Shadows sliced through the air in an unobtrusive and unobservable arc, causing twisting and distorting Axe Shadows to emerge that seemed to want to tear through everything in its path. There were even indistinct cracks visible in the surrounding air; presumably, any kind of life that tried to touch these crack would not be able to survive at all.

This was the Angry Axe's Third Form, the Axe Line. Displaying the Third Form through this method caused the killing intent inside it to turn even more swift and fierce.

Under the control of Ning Cheng's Spiritual Consciousness, this Axe Line instantly curled up in itself and transformed into a massive whirlpool. Just like the howls coming from an actual tornado, the chasm formed by the First Trace, under the killing power of this hurricane, completely vanished in just a moment, before it even touched the ground. It was as if an invisible giant shovel had cleaned it out thoroughly.

"Bang...." The tornado finally gathered before striking the ground. Instantly revealing the hard rocks beneath the ground, which then transformed into a yellow mist instantly. This was the Angry Axe's Second Form, Tornado.

These 36 Best Qualify True Artefacts were continuously giving out a formidable killing power, even if he used the same moves as before, compared to the previous instances, it was more than ten times more dangerous.

Ning Cheng finally stood on the summit and gave out a loud shout; he finally had the qualifications to gain a foothold for himself in the world. As long as he was able to learn Spiritual Techniques, even if he had to face Crucible Transformation Cultivators in the future, he would still have the authority to make them actually hear his words. If he was not able to defeat them, he could still be able to walk away calmly.

### [The Gate Of Good Fortune](#)

#### **Chapter 389: Tearing The Void**

With his cultivation restored, plus the 36 Axes also retrofitted to himself, Ning Cheng finally felt a lot better than before. He swept out with his Spiritual Consciousness in a much broader range than before. He wanted to see if there truly were any good things in the Feral Brooke Mountains, or at least find the reason why that scarlet-robed man's cultivation had progressed so fast.

One had to know that the Earth was deficient in Spiritual Qi; if there genuinely were no treasures in this place then even if the qualifications of the scarlet-robed man were even higher, it would be impossible for him to reach the peak of Profound Congealing Realm with just a few decades of cultivation. After all, this place was not the Yi Xing Mainland where even someone with much lower qualifications could cultivate with relative ease.

However, two hours later, Ning Cheng felt disappointed. He had carefully scanned every single inch of the area within a hundred miles of the Feral Brooke Mountains; however, he was not able to find any trace of precious treasures. He could not even see a single Spiritual Grass.

It looks like that scarlet-robed man had lied to him. If he did not lie then the scarlet-robed man definitely had another secret to his cultivation. That is, for the scarlet-robed man to achieve this kind of cultivation speed, it was definitely not possible in the Feral Brooke Mountains.

Ning Cheng did not feel too much of a loss about it though, he already possessed many heaven-defying objects on him anyway. If he could find any treasures in this place, then it was his fortune, if he could not locate anything, then it was also another type of fortune.

With his strength restored, Ning Cheng first planned to destroy that colossal insect. The longer he dragged it, the more unfavourable it would turn out for him. That Insect Queen absolutely did not have many resources to recover from its injuries or restore its cultivation. As such, this was the perfect time to look for the Insect Queen.

Although Ning Cheng's current cultivation reached the 4th Level of Soul Sculpting Realm, he still had no way to sweep his Spiritual Consciousness over the entire Earth; as such, he could only draw support from the Rank 5 Battle Disc. The Rank 5 Battle Disc quickly found the impact site of the meteor-stone within the borders of Russia; at the same time, he also discovered that the Insect Queen had turned that area around it into its lair.

In just over half an hour, the Rank 5 Battle Disc landed in the barren desert. Ning Cheng put away the Battle Disc, while his eyes glanced towards the enormous mountain-like meteor-stone in front of him. The crater along with this meteor-stone had a honeycomb-like structure, with numerous nascent insects sticking to the outer surface of this colossal meteor-stone.

What made Ning Cheng a bit doubtful was that except for those nascent insects sticking to the meteor-stone, there were no other Demon Insects around here. It seems those Demon Insects would be driven away from this meteor-stone as long as they could stand and take independent action by themselves.

Since Ning Cheng had already come here, that colossal Insect Queen inside the meteor-stone was also able to detect his arrival. The Insect Queen immediately issued a roar, before coming out on top of the meteor-stone.

Ning Cheng waved a hand, and the 36 Axes instantly appeared and began circling around his body; at the same time, that long spear-like rod, that Ning Cheng was unable to refine, appeared in his hand. Although his own Cultivation had risen sharply, because the Insect Queen's strength had also dropped significantly, its roar just did not have any effect on him anymore.

This Insect Queen, before falling to Earth, must have been a terrifying existence; Ning Cheng feared that even if it were a host of Crucible Transformation Cultivators, in front of it, they would only be akin to ants. Since he was facing such a terrifying existence, how could Ning Cheng dare to be negligent? 'A skinny camel was still larger than a healthy horse', not to mention that the Insect Queen was not a skinny camel, while this place here also was its lair.

The Insect Queen stared at Ning Cheng before letting out an angry scream; it seemed as if it was trying to say to Ning Cheng that he should not butt into other people's business.

Ning Cheng did not care about the Insect Queen's scream, the 36 Small Axes immediately gathered and smashed through the air with tearing sounds. In just a twinkling of an eye, an Axe Line emerged with black and white intertwining with each other.

“Bang.....” But when the black and white intertwining Axe Trace stuck the enormous meteorite, it caused Ning Cheng’s 36 Small Axes to instantly scatter away, even the unprecedented killing power accompanying it disappeared without a trace.

Ning Cheng couldn’t help but stare at this meteor-stone in shock. He was well aware that even if this meteor-stone turned out to be extremely hard, it would still turn into powder under his First Trace. However, this meteor-stone did not suffer even a single scratch. Not only that but when his axes struck the outer shell, he immediately was able to determine that it was definitely not a meteor-stone at all. Instead, it was actually a Magical Weapon.

Ning Cheng had just realised that this thing was a Magical Weapon when he felt the Insect Queen’s Imposing Aura suddenly start to skyrocket, completely disintegrating his own Imposing Aura.

Facing this kind of formidable Imposing Aura, Ning Cheng’s face paled as he backed up by a dozen steps. This kind of Imposing Aura, he had never felt from even Crucible Transformation Cultivators. Instead, it was actually on the same level as the Imposing Aura that he had felt from Eldest Brother Cang Wei. This was definitely the Imposing Aura cultivated within the vast starry skies.

This was not good at all, Ning Cheng tightly held onto the long spear while staring at the Insect Queen atop the meteorite.

Facing this kind of Imposing aura, he just could not move forward. If it were any other place, then Ning Cheng would have already prepared the Talisman to head back to the Yi Xing Mainland. However, Ruolan was still here so he cannot leave this place at all.

In Ning Cheng’s mind, all sorts of crazy ideas were flashing by on how to deal with this Insect Queen, when the enormous meteor-stone suddenly started spinning. At the same time, it also brought forth an intermittent humming-like sound.

This thing really is a Magical Weapon; Ning Cheng had just thought of this when the Insect Queen’s Imposing Aura reached such formidable levels to the point that he was even feeling difficulty breathing. As this Imposing Aura washed over him, Ning Cheng immediately vomited out a mouthful of blood. He just did not think at all, and quickly activated the Twin Wings of the Heavenly Clouds and instantly moved back.

Only when he retreated by almost ten kilometres did Ning Cheng finally stop. In this place, the oppression from the Imposing Aura was much smaller. Just that terrifying Imposing Aura from before was already enough to kill him several times over, it was no wonder that this Insect Queen was this heaven-defying.

However, even though he knew that he was not a match for the Insect Queen, Ning Cheng still used his Spiritual Consciousness to watch the Insect Queen’s movements carefully, who was still standing atop the meteor-stone. He realised that this might be the Insect Queen’s secret technique that overdraw on its vitality; otherwise, it was impossible for this already severely injured Insect Queen to grow this powerful suddenly. As long as he could endure until the power of this secret technique depleted, he would definitely be able to take the upper hand.

Moreover, the Insect Queen also did not dare to leave this Meteor-stone Magical Weapon to attack him. Ning Cheng guessed that this Insect Queen was actually using this Meteor-stone Magical Weapon to activate its secret technique; otherwise, she would have already struck out.

However, the rotation speed of the meteor-stone was getting faster and faster, to the point that even Ning Cheng's Spiritual Consciousness was not able to keep up. After a few breaths, the Insect Queen erupted with a sharp cry that was powerful enough to rupture eardrums. At the same time, she outstretched her body atop the meteor-stone and opened its large mouth before biting down on the air in front of it.

A pitch-black passage was directly bitten open by the Insect Queen; Ning Cheng was also able to see it with his Spiritual Consciousness. A vast aura of the starry sky outside came pouring in from the other side. Ning Cheng couldn't help but look in shock at this pitch-black passage. Although he had never attempted to tear the Void before, he realised this chomp definitely ripped apart the Void Boundary.

The Insect Queen was actually able to tear the Void Boundary with its chomp; just what kind of terrifying existence was it? Even if the Void Boundary of the Earth was weak, it was still not something that others could tear through easily. If the Insect Queen had used this secret technique in the last battle between them, then even blessed with a hundred lives, it would still not be enough to keep his life intact.

Sporadic Spatial Wind Blades flew out from the Void, one of which descended onto Ning Cheng. Ning Cheng just did not dare to block it using the long spear, and directly brought out his Everlasting Blue Thunder City.

"Ka Cha." With a clear sound, this Spatial Wind Edge directly turned the Everlasting Blue Thunder City's shadow into nothingness. At this moment, Ning Cheng saw the meteor-stone, along with the Insect Queen and innumerable nascent insects rushing into that black hole-like tear, before disappearing in a flash.

After the meteor-stone carrying the Insect Queen vanished, the black hole-like tear also disappeared. The surroundings turned peaceful once again as if nothing had happened at all.

Ning Cheng's back was thoroughly drenched in cold sweat; he had never thought that the meteor-stone was the Insect Queen's lair or that it had the capability of tearing the Void to escape. It was indeed fortunate for him that the Insect Queen had to draw support from the meteor-stone like Magical Weapon; otherwise, he would not have come here to kill the Insect Queen, but rather to die.

With the Insect Queen gone, although there were still many insects on Earth, Ning Cheng did not continue to seek them all out to destroy them. He knew that without the Insect Queen, these insects would be unable to cause any significant harm to the Line of Defences before the Martial Artists eventually eliminated them.

.....

Ocean City Foreign Language Institute, Girls Dormitory, Apartment 7, Downstairs.

A few well-dressed boys stood there filled with vibrant energies; some of them were even holding a bouquet of flowers in their hands. Apparently, these boys were standing there waiting for their girlfriends.

Ning Cheng arrived at the office of the woman in charge of the building, before speaking in a very polite tone, "Auntie, please help me call Xu Liyi from 302."

The reason why he had come looking for Xu Liyi was that Xu Liyi had helped him once. Now that he was about to leave, he wanted to meet her once to repay the debts between them.

"Are you looking for Xu Liyi?" The auntie had not yet answered when a crisp voice sounded out from Ning Cheng's side.

Ning Cheng turned his head only to see a fair-skinned girl, holding a few books in her hand and wearing a butterfly-knot bow on her head, looking very nimble and resourceful.

"That's right; I am looking for Xu Liyi." Ning Cheng quickly replied.

"Brother Xiaocheng, you really came." A pleasantly surprised voice arrived. At the same time, Ning Cheng saw Xu Liyi coming over.

The girl holding the books looked at Xu Liyi before smiling and speaking, "I was about to bring him to you, but your eyes are quite sharp. Is he your boyfriend?"

Finished saying, the girl then turned her head and began sizing up Ning Cheng. She felt that Ning Cheng did not seem to be anyone special, even his clothes were very ordinary; however, he did seem to possess a different temperament. As to what was different about his personality, she was not able to tell.

"Oh um, I will be leaving right now. You helped me a lot last time, so before I left, I specifically came here to thank you." Ning Cheng spoke.

Xu Liyi quickly spoke up, "It was just a minor matter, and you don't need to thank me for it. Since Brother Xiaocheng finally managed to come here, then let's go eat a meal together. I was not able to accompany you the last time because of a few things, but we definitely have to go this time."

"It would be of no use. Here is a Pill Bottle, you can use it for yourself, treat it as thanks from me. I'll be leaving now." Ning Cheng did not say any goodbyes; he knew that it was already indefinite if he would come back, so saying goodbye would not make any sense.

Clutching a jade bottle in her hand and looking at the spot where Ning Cheng disappeared from, Xu Liyi couldn't help but mutter to herself, "Sure enough, I really did not misread things that time"

Ning Cheng's sudden departure probably was to avoid unnecessary complications.

"Hey, where did your friend go?" The book-holding girl spoke while she stared at the place where Ning Cheng was just standing. Why was there not even a shadow of Ning Cheng?

### **The Gate Of Good Fortune**

#### **Chapter 390: Returning To The Le Continent Once Again**

"Big brother you came back." Her big brother had left for more than ten days, now that he suddenly came back again, Ning Ruolan felt pleasantly surprised.

Ning Cheng patted Grey Toottoot's head who had bounded over to him, before replying to Ning Ruolan, "Yeah, I have already taken care of things here. We are ready to leave. Where's Dai Xin?"

"Dai Xin is overseeing the shifting of the company to Jiangzhou, so she had already left to Jiangzhou." Ning Ruolan quickly replied.

Next, Ning Ruolan recounted the matter of Yan Rui along with his provocative words.

Whether Yan Rui was killed by Yin Yihui or not, Ning Cheng did not care about it. What he was worried about was Xing Liang. If he was staying in this place, then even if Xing Liang was a lot stronger, he still was not qualified for him to pay any attention to, at best he was only an ant.

However, he already knew that he had to leave this place; moreover, he had also left behind many Magical Artefacts to Dai Xin to sell off. Therefore, he could only hope that Xing Liang would not look for any trouble with Dai Xin.

"Is there any news about Xing Liang?" Ning Cheng did not feel assured about it, so he asked it straightforwardly.

"No news at all. I heard Dhulandi say that Xing Liang had gone missing in the Insect Battlefield and is most likely dead." Ning Ruolan knew that Xing Liang thought unfavourably of her brother. Only, this person really did not come knocking at their door; otherwise, he most likely would have died.

Ning Cheng was also aware that there were no means of confirming if Xing Liang was dead or alive. The Earth was also quite big, with his current level of Spiritual Consciousness; he still was unable to sweep the entire Earth.

"You better call up Dai Xin and tell her to pay special attention to any news relating to Xing Liang. We will be leaving immediately." Ning Cheng was already missing Ji Luofei and Shi Qionghua. Now that he was able to find his little sister, he really did not want to continue wasting time in this place.

Ning Ruolan was already prepared, on hearing her brother's words; she immediately gave Dai Xin a call. Although Dai Xin was somewhat sad, she was the clearest that Ning Cheng had to leave. Knowing Ning Cheng, she was well aware that staying on Earth would be a waste of his time.

An hour later, Ning Ruolan finished handing over the affairs of the hotel to the person in charge. She then entered the Miniature World Ring with Grey Toottoot, before finally leaving the Hundred Bay Point with Ning Cheng.

.....

In a warehouse-like very ordinary looking coffee shop, Yi Lei was calmly looking at Tian Muwan sitting opposite to her.

She had already left the Alliance and had returned home to cultivate calmly when Tian Muwan came to find her. She did not feel anything strange about it. With the Tian Family's strength, wanting to look for someone like her with some amount of fame to her name, it would not be a tricky matter. What she felt a bit strange, however, was why Tian Muwan was looking for her?

She had heard of this person, Tian Muwan, before. However, she did not have a perfect understanding of her. As to why Ning Cheng saved Tian Muwan at that time, she did not think much of it. In her

opinion, Ning Cheng had done that out of a kind heart. If not for his kind-natured soul, then Ning Cheng would have never gone out to fight those innumerable insects because of her request. Let alone put his own life on the line.

At this point, Yi Lei had already washed away all those different memories and was leading an ordinary everyday life. As she read the book, the Martial Arts Cultivation Method that Ning Cheng had left for her, she was also genuinely feeling very grateful towards Ning Cheng. She did not know what kind of Cultivation Method Ning Cheng had given her, but even the phrase 'ten thousand li in a day, almost every day' would not be enough to describe her current improvement speed. Her strength had already improved by a considerable margin.

It wouldn't be much of an exaggeration to say that this Cultivation Method was tailor-made for her. As she cultivated according to it, she did not encounter even a shadow of bottleneck or obstacles along the way. Instead, it would be more appropriate to say that she was merely bypassing all the bottlenecks along the way. Within just a month, she believed that her strength had already jumped from a Two Star Battle General to a One Star Battle Commander. However, there was no way for her to measure it since it was only her intuition.

Seeing Yi Lei in casual wear and not inquiring about her visit, Tian Muwan finally had to say it by her own initiative, "I came looking for you to ask about a few things....."

Yi Lei nodded and spoke, "If you want to ask about who saved you that day, then I can answer that for you. You probably already know about it by now. It was Ning Cheng who had saved you while I was the one who delivered you to your room."

Tian Muwan truly wanted to inquire about this matter. Although she already knew that Ning Cheng was the one who had rescued her, she tried to look for Yi Lei to confirm it. Because when she finally managed to get the chance to inquire about it, Ning Cheng had already left, while Yi Lei also went in the footsteps of Ning Cheng.

Now that she heard Yi Lei's confirmation, her mouth just could not close up at all. It was as if a five-flavoured perfume bottle had exploded in her heart.

After leaving Cheng Ruolan Hotel. She had repeatedly thought of finding Ning Cheng to express her thanks, but her self-esteem did not allow her to do such a thing. Although she was well aware that the reason she wanted to seek out Ning Cheng was not that Ning Cheng had become rich and powerful, but from any human point of view, she was afraid that it would definitely look like that.

"Who was the one who massacred those insects outside the Jabbes Line of Defence?" Tian Muwan once again asked dryly.

"The massacre was also done by him; even the Insect Queen was driven off by him at that time. He was the one who single-handedly saved the Jabbes Line of Defence. To not let those insects enter the domain of the humans, he ended up almost perishing while fighting against those insects." Yi Lei also did not deny it; eventually, others would come to know it naturally.

As to who was the person who took a video of Ning Cheng's battle with that insect, nobody knew about it. However, once the video was analysed by others, it wouldn't be long before it spread throughout the entire world. Stifling this news was impossible; therefore, she might as well acknowledge it.

“What happened to him?” Tian Muwan suddenly stood up; worry flashed all over her face.

Yi Lei frowned but soon relaxed. Ning Cheng saved Tian Muwan’s life, so it was not surprising if she cared about Ning Cheng’s life and death.

“He should be alright; you do not need to worry about it.” Yi Lei quickly replied.

Tian Muwan hesitated for a moment before speaking, “Where is he now?”

Yi Lei shook her head and spoke, “I’m sorry, I would not be able to tell you that since I don’t know anything about it.”

Ning Cheng was heading towards the Feral Brooke Mountains a month ago, whether or not he was still in the Feral Brook Mountains, Yi Lei honestly did not know.

Tian Muwan bit her lips before speaking, “I’m sorry, I ended up disturbing you. I only wanted to look for him to say my thanks. Moreover... I was once his girlfriend.....”

Yi Lei shot a surprised look at Tian Muwan; she indeed had never thought that Tian Muwan and Ning Cheng used to be a couple. She quickly responded as she shook her head and spoke, “Ning Cheng already has a wife, so whether what you say is true or false, I have no reason to not believe.”

“He’s married?” Tian Muwan suddenly felt a huge and sharp iron awl pierce into her heart and shatter it apart. Even though she had spoken to herself about the fact that it was impossible for the two of them to be together again over ten thousand times. However, when she heard that Ning Cheng was already married, her mind actually went haywire. However, she soon recovered, wasn’t getting married already the better option? She had initially pushed Zeng Jiyun towards Ning Cheng, wasn’t it because she wanted Ning Cheng and Zeng Jiyun to get married? Wasn’t this her means of compensation towards the guilt that was wracking her inside out?

“Thank you.” Tian Muwan stood up, while her complexion was somewhat pale.

Seeing Tian Muwan’s appearance, Yi Lei sighed. Just as Tian Muwan was about to step out of the coffee house’s front door, she called out, “He went to the Feral Brooke Mountains, as for where he is now, I don’t know.”

Tian Muwan’s footsteps paused for a moment, but without replying, she quickly walked away.

.....

“Big Brother, how did you turn into this?” Ning Ruolan was cultivating inside the Miniature World Ring; however, when she saw Ning Cheng come in, she couldn’t help but ask out in horror. Her big brother’s complexion and hair both had turned greyish white; it was much more severe than when she saw him the first time after he came back to Earth.

“My strength is still too low, every time that I have to pass through Planar Positions, it would come at the expense of burning my vitality. However, you do not have to worry about it, the Spiritual Qi and Cultivation Laws are much more powerful here than on Earth. In this place, it would only take me about ten days to fully recover.” Ning Cheng spoke out without care.

He had not mentioned this to Ruolan previously; otherwise, Ruolan would definitely be upset about it.

Ning Cheng couldn't help but laugh when she saw Ruolan on the verge of crying. Ning Cheng gave a bright smile and spoke, "Don't worry, when I advance to the Sea Opening Realm, the vitality that I lost would be replenished, and it's not that big of a deal. Moreover, your progress is also not slow at all; you are already at the Qi Gathering 3rd Level."

"En, I will listen to your words, after taking a bath in the Spiritual Enhancement True Nectar, my cultivation speed increased by several times." Ning Ruolan being able to progress so fast also made her very happy in her heart. However, when she saw her brother in such a condition, she really couldn't feel happy about it.

"Your cultivation is still too low, so you should just continue cultivating inside. While I will continue to restore my cultivation on the outside. In this place, only the word of the person who is strong will be the absolute truth." Ning Cheng carefully imparted his teachings to Ning Ruolan.

Regarding the matters relating to the Yi Xing Mainland, Ning Ruolan had already heard a lot of it from her big brother. Now that Ning Cheng was imparting to her his own teachings, she indeed would not be negligent about it.

"Big Brother, is this place the Yi Xing Mainland?"

Seeing that Ning Ruolan was curious to come out and have a look, Ning Cheng gave a laugh and spoke, "You can come out and cultivate in this place if you want to since this is the bottom of the Blood River. I also met Eldest Brother Cang Wei here. The reason I was able to go back to Earth and even return to this place from Earth was due to the help provided by Eldest Brother Cang Wei. Wait until I reach the Tian Continent, I will bring you out then. But before going to the Tian Continent, I also have to meet an Elder Sister by the name of Lan Shu."

"En." Ning Ruolan always followed her big brother's words, although she really wanted to go out and have a look, but since her big brother had said no, she immediately dispelled that thought.

.....

Ning Cheng arranged a Spiritual Gathering Array in the same place where Cang Wei ended up stranded and took out tens of millions of Spirit Stones. The Heavenly Laws of this world were far more formidable than Earth; moreover, the Spiritual Qi was also much thicker than Earth. Also, with the Heaven Opening Talisman being stored in this place for who knows how long, once Ning Cheng arranged the Spiritual Gathering Array, the recovery effect it produced was even more formidable.

In just over half a month, Ning Cheng had once again restored his cultivation to the 4th Level of Soul Sculpting Realm; at the same time, his cultivation had even taken a step further. Since going to Earth to meet his little sister Ruolan, Ning Cheng had not progressed at all. Now that his cultivation was finally starting to show signs of progress, he continued to absorb the Spirit Stones to supplement his cultivation. A month later, Ning Cheng broke through to the 5th Level of Soul Sculpting Realm.

Ning Cheng's Spiritual Consciousness descended onto the Miniature World Ring, finding that Ruolan's progress was even better. At this moment, she had already reached Qi Gathering 5th Level. Although the cultivation resources that Ning Ruolan possessed were a hundred times better than what Ning Cheng owned initially, for her to be able to cultivate to the Qi Gathering 5th Level in such a short time, it showed that Ning Ruolan's qualifications were apparently quite high.

.....

Several days later, Ning Cheng finally arrived at the Le Continent along with Ning Ruolan who finally came out of the Miniature World Ring as Ning Cheng finally gave in.

“Big brother, is this the Yi Xing Mainland?” Ning Ruolan watched with wide eyes as she flew through the air, while her heart was in shock. Her big brother was already able to display flight capabilities using an airship, that itself had caused her incomparable excitement. Now that she was seeing so many people flying around, it was almost like a scene from a paradise-like fairy tale.

“This is just the Le Continent of the Yi Xing Mainland. There are ten different continents in the Yi Xing Mainland, and the Le Continent is just one of them. Do you see the city in front of us? That’s the Le Continent’s Dragon and Phoenix City. We’ll be going to the Dragon and Phoenix City now. I have to check if Elder Sister Lan Shu is back or not. If Elder Sister Lan Shu is not back, then I will take you to the Ping Continent. When I first arrived at this place, I woke up in the Ping Continent.” Ning Cheng carefully explained.

He had not chosen to disguise himself at this time, with his current cultivation being at the 5th Level of Soul Sculpting Realm, even it was a person from the Gui Clan, he was not afraid of them. If the Gui Clan still wanted to silence him, then it would only be a dream for them. As for going to the Ping Continent, Ning Cheng wanted to help the Ning Family to get their long-due revenge. In any case, this was his predecessor’s past life.
