#### Chapter 391: Meeting an Enemy

“I was almost killed the last time I came here.” Ning Cheng pointed to the Spiritual Treasure House and explained to Ning Ruolan.

Ning Ruolan looked all around at the various garbs of people and felt somewhat anxious in her heart. Now that she heard her big brother saying that he ended up almost killed in the Spiritual Treasure House, she immediately began to worry.

“You don’t have to worry anymore, although my current strength is not as good as others, I do not need to fear them any more.....” Ning Cheng’s words suddenly paused.

“What’s wrong? Big brother.” Ning Ruolan could feel her elder brother’s aura suddenly change.

“Ruolan, I just saw the person who wanted to kill me back then.” Ning Cheng spoke quietly as he looked towards the tall and pale looking man who had also perceived Ning Cheng. Soon, his eyes fell onto Ning Cheng.

Ning Ruolan spoke up with horror, “Then let’s leave immediately.”

“Can’t leave anyway, he has already seen me. Don’t worry though; I can see that this person is just at the 1st Level of the Sea Opening Realm, I believe I would be able to kill him.” Ning Cheng spoke out calmly.

He had already promised Elder Sister Shu, that once his strength increases in the future, he would definitely kill this devil. That was because this devil had killed all the people at the Homeless Academy just because a ten-year-old girl had called him ugly. Moreover, he had even harvested the blood of all those female cultivators and humiliated the bodies of the female cultivators that he had killed. He had let that same ten-year-old girl watch the entire process as he massacred everyone inside the Academy before he eventually killed the little girl and threw her down the cliff.

Initially, because his strength was still insufficient, so he was not able to do anything. Now that he was currently at the 5th Level of Soul Sculpting Realm, wanting to deal with just a single cultivator at the 1st Level of Sea Opening Realm, Ning Cheng believed that he would definitely be able to accomplish it. Even if the opposite party cultivated in a Cultivation Method as heaven-defying as he did, he still had many treasures on him to use and had already achieved an Imperial Body in regards to Body-Forging.

“Kid, so it really is you. For you to be able to progress this fast, I estimate that even if I put together all the premier geniuses in the Le Continent, even their combined cultivation speed would be inferior to your own?” The pale complexioned man arrived in front of Ning Cheng.

After he gave a sneer, he then glanced at Ning Ruolan and spoke, “This woman is also not bad.”

“What do you want?” Ning Cheng asked calmly. He was well aware that this person did not dare to attack him openly in the Dragon and Phoenix City; similarly, he also did not want to start a fight inside the Dragon and Phoenix City. If the strength difference were too vast, the opposite party could have

taken him away conveniently. However, now that he was already at the 5th Level of Soul Sculpting Realm, it would be impossible for the opposite party to take him away casually.

“What do I want? Haha, it’s straightforward, just obediently walk with me out of the city. Otherwise, I will not only extract your soul but also refine your soul for myself. If you obediently follow me out of the city, then if I am in a happy mood, I might just take you in as my disciple. One must know that I, Duan Zhang, do not easily accept disciples. So taking you in as my disciple is your luck.” This man gave a smile, but his heart was actually on the treasures of Ning Cheng’s body.

Ning Cheng also did not speak any nonsense, “Then lead the way.”

Duan Zhang actually doubtfully looked at Ning Cheng, but then spoke out with a very appreciable tone, “The ones who understand the changing times are the ones who are wise. Since you were able to see it, then I will also ensure that I will not kill you.”

“Is that Ning Cheng?” Jia Lingwei had just come out of the Spiritual Treasure House and was shocked to see the three people in the Dragon and Phoenix City, out of which she had already identified one of them as Ning Cheng. After coming out of the Law’s Way, she had heard all kinds of rumours. Afterwards, she had also heard that Ning Cheng managed to kill Gui Yuhai, but she had never thought that she would actually see Ning Cheng today.

Something is not right; the person leading Ning Cheng towards the exit gates seemed to have malicious intentions towards Ning Cheng. Jia Lingwei had very sensitive senses and was immediately able to perceive that something was not right. No matter what kind of rumour was it, she had always been grateful towards Ning Cheng. Now that she saw Ning Cheng appear once again after a long time, and seemed forced to leave the Dragon and Phoenix City, her immediate thought was to quickly find someone to help Ning Cheng.

If she had to look for someone, then she would only seek out her master Na Xinlan. Her master had just advanced to the 1st Level of the Sea Opening Realm; as such, she should not be afraid of this person. Thinking of this, Jia Lingwei immediately sent out a message to her master; at the same time, carefully followed them.

Ning Cheng’s Spiritual Consciousness was much more powerful than his current cultivation, so when Jia Lingwei followed them out of the Dragon and Phoenix City, he was able to sense it easily. With Ning Cheng’s present life experiences, he was instantly able to understand Jia Lingwei’s idea. Although he was very grateful towards Jia Lingwei in his heart; however, he did not believe Jia Lingwei would be able to help him in any way. In any case, he did not fear this Duan Zhang.

In the years that he had not seen her, Jia Lingwei’s cultivation had already progressed to the Great Circle of the Profound Core Realm, compared to her previous cultivation in the Profound Congealing Realm. If she wanted to help him with this level of cultivation, then it would already be too much of a stretch.

Duan Zhang already possessed the cultivation of 1st Level of Sea Opening Realm, so when Jia Lingwei followed them out, he was also able to discover her quickly. He sneered in his heart. What did it matter to him if she was a disciple of the Dragon and Phoenix Academy? If she did not take the initiative to provoke him, then he would also not care about it. If she did poke her head in his business, then she should not blame him as he turned her into his furnace. He did not believe that this disciple of the

Dragon and Phoenix Academy would inform anyone of her reason before following them out of the Dragon and Phoenix City

.....

After walking around for half an hour, Duan Zhang finally stopped, he then coldly looked back at Ning Cheng and spoke, "Give me your ring and seal up your Meridians by yourself. Don't let me do it..."

After coming to this place, Duan Zhang casually spoke out and was too lazy to say anything else.

Ning Cheng did not wait for Duan Zhang to finish the conversation, as 36 Small Axes emerged while layers upon layers of Axe Waves blasted out. At this moment, it was not only the 36 Small Axes but also the shadow of the Everlasting Blue Thunder City manifested with a bang. Although Duan Zhang's cultivation was higher than his own was, Ning Cheng was not afraid of Duan Zhang even then. However, Ning Cheng still decided to use his full strength from the get-go.

Seeing her big brother ready to begin, Ning Ruolan did not need any reminders from her big brother and had long since retreated to a safe distance. She was very clear that her current cultivation was still very lacking; as such, she immediately fled to a faraway place so that her big brother did not have to split his attention over to her during his battle.

"Why..." Seeing the 36 Small Axes rumble towards them, Duan Zhang immediately screamed, before he cried out in shock, "All of them are Best Quality True Artefacts..."

At this time, his eyes had gone completely red. These were 36 Best Quality True Artefacts; even if it were a dream, he would not be able to obtain these many of them, yet they had actually appeared right in front of him.

Duan Zhang had slaughtered innumerable people, so he was able to restrain his surprise quickly; he knew that he must kill this person as soon as possible. Only by doing such a thing would these items belong to him in the most real sense. In the Le Continent, although he was a cultivator in the Sea Opening Realm, he was still a 'nobody'. The Le Continent even contained Crucible Transformation Cultivators, so how could it lack Sea Opening Cultivators?

With such surging emotions, Duan Zhang lifted his hands and brought out his own Magical Weapon, a scissor crafted out of pure white bones. As this pair of scissors opened, its edges released a dense chill that caused the surrounding air to turn stagnant under the influence of this icy chill.

The two edges of the scissors were like two giant doors as they closed up. It felt as if it wanted to trap Ning Cheng's 36 Small Axes within it, and at the same time wanted to slice through Ning Cheng's 36 Small Axes.

Ning Cheng couldn't help but feel a slight disdain for such actions, he honestly did not know as to where this Duan Zhang was basing his confidence on. Not to mention that he was only at the 1st Level of Sea Opening Realm, even if a cultivator at the intermediate stages of Crucible Transformation Realm arrived, they would not dare to say that they would be able to trap his 36 Axes, let alone cut through them.

"Bang... KaKa....." The shadow of the scissors made from white bones and Ning Cheng's 36 Axes immediately collided with each other, causing an explosion of True Essence to spread out.

Everything within the range of Ning Cheng and Duan Zhang's fight completely disintegrated due to this True Essence Explosion. Even Ning Ruolan, who was standing at a short distance, was not able to make out anything clearly, not to mention that she was still unable to sweep out with Spiritual Consciousness.

Ning Cheng felt a sharp pain through his Spiritual Consciousness; it felt as if his 36 Small Axes had temporarily lost contact with his consciousness. In just a breath, Ning Cheng understood what was going on.

No wonder Duan Zhang dared to have such an idea, he wanted to use his bone scissors to sever his connection to the 36 Axes. It turned out that the scissors actually had such an effect. It could actually sever the link between his Spiritual Consciousness and his Magical Weapon. This was definitely a powerful Magical Weapon, something along the same lines as the Extreme Earth Gold Binding Cables, which he had previously obtained from Gui Yuhai. However, these scissors were significantly more potent than the Extreme Earth Gold Binding Cable, a testament to the fact that Ning Cheng could feel that his Spiritual Consciousness was about to lose contact with his 36 Axes.

However, Ning Cheng did not forcibly recall his Axes; if he did so, it would only be helping Duan Zhang. It would just cause him to waste more of his Spiritual Consciousness and energy, not bringing him any advantages.

Ning Cheng chose to ignore the 36 Axes for the time being, as he used the most fundamental attack from the Everlasting Blue Thunder City's shadow. He smashed down with it. Ning Cheng had always used the Everlasting Blue Thunder City as a Defensive Magical Weapon, so this was the first time for him to use the Everlasting Blue Thunder City's shadow to attack. In his Sea of Consciousness, the Everlasting Blue Thunder City automatically blasted out a Lightning Arc. Currently, however, Ning Cheng had no way to bring out and control even a single Lightning Arc from the Blue Thunder City's shadow. Therefore, he could only smash it down with it.

With such a formidable Imposing Aura and such heavy pressure bearing down on him, Duan Zhang then immediately noticed the Thunder Light lingering over the Blue Thunder City's shadow. He couldn't help but feel a massive shock in his heart, what kind of Magical Weapon was this?

He no longer could afford to trap Ning Cheng's 36 Small Axes as he used the Ten Thousand Bone Scissors to snip shut once again. He believed that no matter what kind of Magical Weapon was it, in front of his Ten Thousand Bone Scissors, it would all be in vain.

"Bang....." The Everlasting Blue Thunder City's shadow descended onto Duan Zhang's Ten Thousand Bone Scissors, instantly bursting open. Even the Blue Thunder City's shadow had unexpectedly disappeared without a trace.

Even if the Blue Thunder City's shadow ended up extinguished by the collision from the Ten Thousand Bone Scissors, but the formidable backlash was unavoidable, causing Duan Zhang to fly out upside down, while his True Essence turned chaotic. However, he was also delighted in his heart; after all, he had managed to shear the opponent's formidably powerful attack into nihility.

However, not waiting for him to come to a stop, another incomparably huge Blue Thunder City's shadow smashed down on him. Shit, Duan Zhang breaking the city's shadow just had no use at all; his opponent could still continuously keep manifesting it. After Duan Zhang understood this point, he no longer

wanted to clash with Ning Cheng's Everlasting Blue Thunder City's shadow; instead, he tried to evade the incoming Thunder City's shadow.

However, just as he was about to evade it, the surrounding space immediately turned heavy. Although Duan Zhang's speed was still fast, his current movement speed was still far from being comparable to the descending Blue Thunder City's shadow.

The other party was definitely not at the intermediate stages of Soul Sculpting Realm; Duan Zhang understood this truth in a flash. With this kind of powerful Spiritual Consciousness, he realised that he would not be able to emerge victoriously. The greed in heart immediately cooled down. No matter what kind of treasures were there on him, but he still needed to be alive to enjoy them.

"Stop... I did not know that you also had the cultivation of Sea Opening Realm. Although I offended you. I'll immediately leave, let bygones be bygones..." Duan Zhang shrieked out, while simultaneously striking out with his Ten Thousand Bone Scissors, at the same time bringing out seven red beads.

Ning Cheng acted as if he did not hear Duan Zhang's words, the 36 Small Axes once again gathered up and released powerful Axe Winds, while the Everlasting Blue Thunder City's shadow completely sealed up space all around it under its suppression. Although Duan Zhang desperately wanted to leave the range of the Everlasting Blue Thunder City's shadow, he was still a step too late.

The seven red beads immediately exploded onto several of the Small Axe whirlwinds above, "Bang-Bang-Bang-Bang-Bang-Bang-Bang....." Seven consecutive explosions rang out. Although these explosions rang down on Ning Cheng, Ning Cheng behaved as if he did not feel anything in general.

However, Duan Zhang's Ten Thousand Bone Scissors managed to use five of those explosions to block the Blue Thunder City's shadow and did not let the Blue Thunder City's shadow to hit him.

Unfortunately, Ning Cheng possessed 36 of those small axes, not seven of them. The rest of the Small Axes rolled up into a giant whirlpool as they seamlessly integrated with each other. It looked like a giant funnel flying through the air before striking the body of Duan Zhang.

"Bang." Duan Zhang's entire lower body was completely disintegrated by the strike from the formidable whirlpool, while the rest of him was smashed flying.

Although Duan Zhang's cultivation was on a much higher level compared to Ning Cheng, in the fight against Duan Zhang, Ning Cheng did not feel much pressure at all. He did not even feel the need to use his long spear.

### **Chapter 392: Dealing with the Gui Clan**

Duan Zhang's Life Essence did not have the time to flee when Ning Cheng caught it and threw it into a fireball to annihilate it completely.

It was only at this moment that Duan Zhang came to understand that Ning Cheng had followed him out of the city not because Ning Cheng felt afraid of him but because Ning Cheng already wanted to kill him from a long time. Unfortunately, this understanding came to him too late, if Duan Zhang had understood this earlier, then maybe he might have had an opportunity to escape.

While the flaming fireball surrounded the Life Essence of Duan Zhang, Ning Cheng sent out a punch to completely destroy the remaining half of Duan Zhang's body. He just left behind a few words before parting, "I killed you today to help Elder Sister Shu get her revenge for the Homeless Academy."

Duan Zhang had finally realised this only at the point just before his death as to why Ning Cheng was this ruthless towards killing him. It was for getting revenge for the Homeless Academy.

As a ring descended to the ground, Duan Zhang's corporeal body and soul turned into nihility.

"You actually managed to kill Duan Zhang?" An astonished voice arrived, as Ning Cheng saw a middle-aged cultivator descend.

"Master..." Jia Lingwei also quickly came out from the somewhat distant place where she hid herself. She had personally seen Ning Cheng killing this tall cultivator, but she was not aware of the full strength of Duan Zhang.

Ning Cheng instantly understood that Jia Lingwei had asked her master to help. However, her master had arrived somewhat late, when her master had finally managed to come over, he had already killed Duan Zhang.

Ning Ruolan quickly ran towards Ning Cheng and quietly stood behind him as she vigilantly stared at Jia Lingwei and her master. She had heard from her big brother that in this place there would often be people who would kill others for no rhyme or reason to snatch their things. With her big brother's exhibition of Spiritual Might in killing that pale-faced person, who knows if some covetous person might show up.

"Long time no see, Senior Apprentice Sister Lingwei." Ning Cheng gave a smile before cupping his fists. He did not know Jia Lingwei's Master, so even if she had the cultivation of 1st Level of Sea Opening Realm, he did not care much about it.

Jia Lingwei quickly spoke out, "No, no, Senior Apprentice Brother Ning, your cultivation is much higher than me, and you also saved me that time. Just address me as Junior Apprentice Sister Lingwei."

The middle-aged female cultivator gave a smile and spoke, "Lingwei, is he that Ning Cheng?"

Jia Lingwei had addressed him as Senior Apprentice Brother Ning, while also stating that he had 'saved her life at that time'. It immediately allowed Jia Lingwei's Master to realise that he should be the same, Ning Cheng.

"This junior is indeed Ning Cheng. Many thanks for this senior to come to help." Ning Cheng quickly cupped his fist and thanked her.

The middle-aged female cultivator waved her hand and spoke, "I did not help you with anything, while you were able to kill that Duan Zhang by yourself. It means that your strength is far above me. I am Na Xinlan, Lingwei's Master. I'm afraid I don't deserve those two characters 'Senior' from you."

Jia Lingwei couldn't help but stare at Ning Cheng in shock. She couldn't help but ask her master, "Master, is Senior Apprentice Brother Ning's strength even higher than yours?"

After speaking this sentence, even Jia Lingwei herself was not able to believe it. The first time she had met Ning Cheng, Ning Cheng only had the cultivation of Essence Building Realm. How long has it been

since then? How could even her master not compare to him? The numbers of geniuses in the Le Continent were as numerous as the hairs on an Ox; however, she had never seen or even heard of any cultivator who was able to progress as fast as Ning Cheng's was. If one even considered Luo Banyun and Bei Xingjin of the Dragon and Phoenix Academy, even their cultivation speed combined was undoubtedly inferior to Ning Cheng's cultivation speed.

Ning Cheng quickly spoke up, "Junior Apprentice Sister Lingwei. It looks like Senior sure is modest. I only possess the cultivation of Soul Sculpting Realm. I am still far below such respect from your teacher. Today, I would really like to convey my thanks to you two, who actually come out to lend a helping hand."

Although his cultivation was higher than Jia Lingwei was, whether or not Jia Lingwei wanted to insist on addressing him as Senior Apprentice Brother, he also did not insist on it.

Jia Lingwei sucked in a breath of air, as she recalled as to why she had decided to come out. She gave a self-ridiculing smile and spoke, "What did I even help with? If I had not seen you face to face, then I would have not believed you to be Senior Apprentice Brother Ning. The change in you is really too huge. I did not expect that in just a short ten years, Senior Apprentice Brother Ning would shoot past me by such a huge margin."

She could see that Ning Cheng's looks had changed somewhat, but Jia Lingwei did not find it too strange. However, she did not think that Ning Cheng had altered his appearance to avoid his enemies. Cultivators recognised people not by their looks, but by their Aura and Spiritual Consciousness Fluctuations.

"Senior Apprentice Brother Ning, do you still remember Junior Apprentice Sister Yan Ji?" Jia Lingwei subconsciously looked at Ning Ruolan standing behind Ning Cheng. Once Yan Ji was able to restore her mind sometime in the past, she immediately stood up and spoke in favour of Ning Cheng. She said that the arrest warrant issued in the name of Ning Cheng was complete nonsense, because of which Jia Lingwei thought that there were some relations between Ning Cheng and Yan Ji. If that was the case, then why was there such a beautiful girl next to Ning Cheng? Moreover, her cultivation was also quite poor, only at Qi Gathering 5th Level.

Ning Cheng on noticing Jia Lingwei looking at Ning Ruolan, immediately spoke up, "Of course I remember Yan Ji, is she okay now? Right, this little sister Ning Ruolan. Ruolan, these two people are Senior Na Xinlan and Senior Apprentice Sister Jia Lingwei of the Dragon and Phoenix Academy."

Jia Lingwei suddenly sobered up and felt embarrassed at the same time, so she turned out to be Ning Cheng's little sister.

"Ning Cheng, are you going to the Dragon and Phoenix Academy?" Na Xinlan spoke out by her own initiative. She could see that since Ning Cheng's cultivation had progressed so fast, therefore Ning Cheng was definitely not ordinary. If he did not have a secret of his own, then his qualifications truly were heaven-defying, either that or he managed to receive an inheritance. Because Ning Cheng and her disciple Jia Lingwei seemed to be on somewhat familiar terms, so she also wanted to create some ties with Ning Cheng. At the very least, she should not offend such a person like Ning Cheng.

Ning Cheng had already wanted to ask about Elder Sister Shu's matter, now that Na Xinlan had personally requested, he also quickly spoke up, "When I returned to the Dragon and Phoenix City the

last time, I found that there was an arrest warrant issued for both Lan Shu and me. I wanted to find out is Elder Sister Lan Shu returned to the Dragon and Phoenix Academy? If not, then going there is meaningless to me.”

Na Xinlan also gave a slight nod, “After the arrest warrant made its appearance, Lan Shu had not appeared. Her residence has also not been touched at all. My Dragon and Phoenix Academy also does not fear the Gui Yuan City or the Thoughtless Academy. If you do not have anything special to do right now, then we can go back to my immortal cave to sit down and have a chat. Maybe I would be able to provide you with some news that you might need.”

[TL Note: I am changing Wu Nian Academy to Thoughtless Academy from here on out.]

Ning Cheng immediately recalled that the Gui Clan and the Thoughtless Academy had jointly plotted against him, so he spoke out, “Then I’ll have to disturb Senior.”

.....

Na Xinlan, as a cultivator at the 1st Level of Sea Opening Realm, had a particular status within the Dragon and Phoenix Academy. Ning Cheng could make out from her residence that not only did it contain a richer Spiritual Qi, but also had an independent Spiritual Medicine Mountain. The entire area of her house was ten times more beautiful than where Elder Sister Lan Shu used to live.

Although Ning Ruolan was Ning Cheng’s little sister, Ning Ruolan did not look much younger to him in age but was only at Qi Gathering 5th Level. However, Na Xinlan did not care about it. Of course, she did not know that Ning Ruolan had just been cultivating for around 2-3 months.

After Jia Lingwei served them some Spiritual Tea, she quietly sat down next to her master.

Na Xinlan also did not beat around the bush, before she directly asked, “Ning Cheng, Nalan Ruxue had made a claim in the past that you forced her into having a physical relationship with you, is this matter true or false?”

As Na Xinlan asked, she carefully observed Ning Cheng, if Ning Cheng found this line of questioning to be a taboo, then she would immediately change to a different topic.

Ning Cheng also did not care about the direct question from Na Xinlan; he just showed a faint smile and spoke, “Senior Na, although Nalan Ruxue thinks of herself as nobler than anyone else, I do not have any feelings for her in my heart. Although this Ning Cheng’s cultivation might not be comparable to the noble disciples that come out from these large academies and sects; however, I have my own feelings and sentiments. I will put this out bluntly, I hope that Senior Na would not take it to heart, even if that Nalan Ruxue willingly stripped herself naked and laid down in front of me, I would be too lazy to even get on top of her, so why would I even force myself on her?”

Ning Cheng’s words were utterly uncouth and blunt to the point; it was no different from directly cursing at Nalan Ruxue. Even knowing that he might have already died in the Law’s Way, this woman had still not forgotten to use him, saying that he had forced himself onto her.

Nalan Ruxue just did not care about her life-saving grace, if Ning Cheng had any kind of favourable impressions of her, and then it indeed would have been strange.

“Big Brother....” Ning Ruolan whispered a reminder to Ning Cheng; even she thought that her big brother’s words were quite harsh and uncouth. She was afraid that once these words leaked out, it would only bring demerits for her Big Brother.

Jia Lingwei’s complexion also turned slightly red. She was someone who was always reserved, so when she heard Ning Cheng’s blunt words, even she was not able to bear it. In her heart, she already knew that Ning Cheng could never do anything like forcing himself on Nalan Ruxue.

Na Xinlan smiled, she did not think Ning Cheng’s words were grating to the ears. Instead, she spoke with a smile, “Lingwei had already told me about it that you are someone who would never do such a thing. I think that Nalan Ruxue should really thank you, if you hadn’t killed Gui Yuhai, she might have already married into the Gui Clan. However, that Gui Yuhai is Gui Clan’s most important disciple, I’m afraid that Gui Zong would not give up on you that easily. Gui Zong already possesses the cultivation of Crucible Transformation 3rd Level so you will have to be careful.”

After saying that, Na Xinlan still kept looking at Ning Cheng. As long as Ning Cheng feared the Gui Clan, then she had the confidence to win over Ning Cheng.

Unfortunately, such fruits would never fall in Na Xinlan’s lap, Ning Cheng just gave a smile and spoke, “Even if I did not have any grudge with Gui Yuhai, I would have still killed him. As for the Gui Clan, they are also the same.”

His wife was already a Crucible Transformation Cultivator, and they had even worked together and killed a Crucible Transformation 7th Level Cultivator, so why would he fear a mere Gui Clan? What’s more, he also had a way to get the Dragon and Phoenix Academy to help him deal with the Gui Clan, unless he misread Na Xinlan.

Listening to Ning Cheng say that he would have still killed Gui Yuhai even if there were no enmity existing between Ning Cheng and Gui Yuhai, and hearing an underlying contempt for the Gui Clan in Ning Cheng’s words, she quickly asked, “Why is that?”

Ning Cheng did not speak, he merely waved his hand, and several cornelian red jade boxes appeared in front of them, “Senior Na, this is what I found in Gui Yuhai’s ring after I killed him. Senior Na seems to be someone well-informed, so you should know about this better than me.”

Na Xinlan did not know what Ning Cheng meant by taking out those jade boxes. Therefore, she quietly opened one of the jade boxes in doubt, finding that it was a box filled with undergarments.

Jia Lingwei’s complexion turned even redder, while she gave out a faint sigh in her heart, she seemed to be seeing Ning Cheng in a brand new light. At the same time, she did not know what was going on in Ning Cheng’s mind to bring out a box full of women’s undergarments in front of her master.

The first feeling that emerged when Na Xinlan on glancing those undergarments was anger, but then her face immediately changed. She then quickly grabbed one of the undergarments from the box and stared at it for quite a while.

Jia Lingwei instantly understood that something was definitely wrong. Her master had always been modest and traditional; as such, it was utterly inconceivable and impossible that she would intently

scrutinise and even study an undergarment in front of a male cultivator like Senior Apprentice Brother Ning.

“To go as far as to locking the soul to draw out hope, it truly is malicious.....” Although Na Xinlan’s face did not change colour, her hands were trembling with anger. In just a moment, she opened the remaining boxes.

Suddenly she grabbed a pink undergarment from one of the boxes, as her eyes immediately turned red, “I’ve always searched all around for Man’er, but never had I thought that she was unexpectedly harmed by the Gui Clan.....”

“Master, Senior Apprentice Sister Man.....” Jia Lingwei also instantly understood what the matter was as she stood up in shock.

Na Xinlan’s face turned gloomy, she took the few boxes from Ning Cheng and spoke, “Ning Cheng, Thank you. I’m going to meet with the Dean immediately. Lingwei, you accompany Ning Cheng. I have something important to take care.”

“En, I know master.” As Jia Lingwei finished, Na Xinlan had already disappeared from the room.

#### **Chapter 393: Returning To the Ping Continent Again**

“Junior Apprentice Sister Lingwei, what is this ‘locking the soul to draw out hope’?” After Na Xinlan left, Ning Cheng quickly asked. He had abruptly arrived in this world; moreover, he did not have any master to learn from, as such, there were many things that he did not understand. Although his cultivation was higher than Jia Lingwei’s was, he knew that he might not know more about a few things compared to Jia Lingwei.

Jia Lingwei’s eyes also turned red as she shook her head and spoke, “I also do not know about it, but from Master’s tone and expression, Senior Apprentice Sister Man was possibly killed by Gui Yuhai.”

“What about Junior Apprentice Sister Yan Ji, is she okay?” Seeing Jia Lingwei almost on the verge of crying with something related to this Senior Apprentice Sister Man, Ning Cheng quickly changed his words and once again asked about Yan Ji. He still was a bit concerned about Yan Ji. When it came to the Le Continent’s Twin Lotus Flowers on One Stock, Ning Cheng cared a lot more about Yan Ji compared to Nalan Ruxue. He had always thought that Nalan Ruxue did not deserve the same reputation as Yan Ji.

Jia Lingwei sobered up and collected her thoughts about her Senior Apprentice Sister Man, before quickly speaking up, “Looks like Senior Apprentice Brother Ning does not know about a lot of things. The Transmission Array between the Le Continent and Tian Continent opened up a few years ago. From the Ping Continent to the Le Continent, collecting all the geniuses from the nine continents, they were all then led to the Tian Continent through the Transmission Array. Yan Ji, Nalan Ruxue, Gui Yutang, Gui Yuhua, Jui Tian, Dei Xingjin, Cheng Yixiao, Luo Banyun, and several dozen others have already gone to the Tian Continent.”

“So it was originally because of this, Junior Apprentice Sister Lingwei, you should be able to go to the Tian Continent with your qualifications, right?” Ning Cheng suddenly came to an understanding.

“My master said that my strength is still insufficient, so only after I advance to the Soul Essence Realm, would I be able to go there.” Jia Lingwei replied.

Ning Cheng gave the nod, Jia Lingwei currently was at the Great Circle of the Profound Core Realm, and so it was only a matter of time before she advanced to the Soul Essence Realm.

“Senior Apprentice Brother Ning, bringing your little sister around might not be convenient for you; if you want, you can let her join my Dragon and Phoenix Academy.” Jia Lingwei knew her master’s intentions; i.e. she should want to befriend Ning Cheng.

If it were an ordinary person, presented with an opportunity to join a 9 Star Academy, they would definitely be happy to the point of not being able to sleep at all. However, Ning Cheng did not care at all about it. He anyway was not going to settle down in the Le Continent. If he did not plan to settle down in the Le Continent, then why would he place his little sister here?

“Many thanks, Junior Apprentice Sister Lingwei, but I have to take away Ruolan to accomplish a few things of my own.” Ning Cheng offered his thanks while simultaneously rejecting the offer.

Jia Lingwei on seeing that Ning Cheng had not agreed also did not say much about it and instead talked about Yan Ji, “Senior Apprentice Brother Ning, after Junior Apprentice Sister Yan Ji recovered, her cultivation speed soared to new heights. Somehow, even her qualifications had improved by a huge margin. The Blue Cloud Academy also started regarding her as their premier genius in training and attached huge importance to Junior Apprentice Sister Yan Ji. Junior Apprentice Sister Yan Ji was even able to force the Blue Cloud Academy to withdraw the arrest warrant for you and Master Shu; moreover, stood by you fiercely. Afterwards, in just a few years, Junior Apprentice Sister Yan Ji progressed to the Soul Essence Realm. I’m afraid that at this time Junior Apprentice Sister Yan Ji might have already advanced to the Soul Sculpting Realm in her cultivation.”

As Jia Lingwei finished, she attentively looked at Ning Cheng’s expression. She also wanted to know if Ning Cheng was the reason why Yan Ji’s had such a massive change in her qualifications. She knew that after Yan Ji came out of the Law’s Way, her qualifications and comprehension abilities had grown to a considerable level. At the same time, she also knew that inside the Law’s Way, Yan Ji was mostly in contact with Ning Cheng. Maybe Ning Cheng might have helped her.

Ning Cheng felt very grateful in his heart towards Yan Ji. He had already guessed that Yan Ji’s fast progress might have a relation to his Spiritual Enhancement True Nectar. However, he would not speak about these matters to Jia Lingwei.

Ning Cheng also was able to come up to date with the current matters after talking with Jia Lingwei; getting to know that another Crucible Transformation Cultivator had emerged in the Gui Clan a few years ago. Not only that, the Gui Clan and the Nine Continents Army seemed to be very close. According to Jia Lingwei’s words, Gui Clan had approached the Nine Continent’s Army after Ning Cheng had disappeared into the Yi Xing Ocean.

Hearing these things, Ning Cheng knew that even if Na Xinlan was dissatisfied with Gui Yuhai’s actions, the Dragon and Phoenix Academy can at most show their disgust towards the Gui Clan, but cannot move to destroy the Gui Clan. If he wanted to exterminate the Gui Clan, then it looks like he would have to wait for a future date.

For Na Xinlan to go impulsively look for the Dean, maybe it had something to do with the words 'Man'er' that came out of her mouth.

Just as Ning Cheng was mulling over it, Na Xinlan returned to her residence once again.

"Master...." Jia Lingwei on seeing her master return immediately stood up and called out to her in expectation.

However, Na Xinlan's complexion was somewhat gloomy; she beckoned Jia Lingwei with her hand, before speaking to Ning Cheng, "Ning Cheng, the Gui Clan is currently too powerful. I'm afraid that even with these boxes of undergarments; it would be difficult to unite the rest of the forces to fight against the Gui Clan. However, I still thank you for helping my disciple to get revenge. Because the Thoughtless Academy and the Gui Clan are associated to each other quite closely, my Dragon and Phoenix Academy might not be able to unite the rest of the people....."

Ning Cheng on hearing those words immediately understood what the matter was; he stood up, cupped his fists towards Na Xinlan, and spoke "Many thanks for all the help provided by Senior Na, I guess I will be dealing with this matter by myself in the future."

Na Xinlan separated two boxes, placed them in front of Ning Cheng, and spoke, "Out of the four boxes that I will keep two of them for the Dean, these two can be kept with you. In the future, it can then be used as evidence."

Saying until here, Na Xinlan hesitated for a moment before continuing, "I had intended to invite you to spend some time in the Dragon and Phoenix Academy, but now it doesn't look like a good idea. The Gui Clan already knows that you came to the Dragon and Phoenix Academy; however, Gui Zong is not in the Gui Yuan City. I suggest that you leave as early as possible, and come back in the future when you have sufficient strength."

Seeing Na Xinlan's desolate look, how could Ning Cheng not know as to what might have transpired? Dragon and Phoenix Academy was definitely wary of the Gui Clan. Although the Gui Clan plotted against Na Xinlan's own disciple, they could only choose to show their disgust towards the Gui Clan. If he wanted to exterminate the Gui Clan, he would have to rely on himself.

At the same time, Na Xinlan was also persuading him to leave as early as possible; it was because she knew that the news of her entering the Dragon and Phoenix Academy along with him would soon leak out.

Ning Cheng secretly gave out a sigh, if one wanted revenge, then they would have to rely on their own fist eventually. Last time, he had schemed for a long time in the Tian Continent, yet the Severing Emotions Dao Sect still existed. From this, it was apparent that one's personal strength was the most fundamental requirement.

"Before leaving, I want to ask Senior, what is this 'locking the soul to draw out hope'?" Ning Cheng put away the two boxes and asked.

Na Xinlan also did not choose to conceal it from Ning Cheng and spoke, "I also didn't know about it until I went to a mystical place with people from the Gui Clan. It was there that we found that the Power of Hope was present in everyone. This 'Power of Hope' can also grow under certain circumstances, to the

point that it could even take its own form. However, harvesting this Power of Hope is extremely difficult, I heard that it was possible to collect Power of Hope by burning joss sticks; however, whether it can be done or not in this manner, I'm not too clear about it."

"At that time, we also saw another way to collect the Power of Hope from a sacrificial altar. Apart from me, there was also Gui Clan's Gui Feng and Di Xuanqing from the Thoughtless Academy who had managed to see it. It detailed the method of locking the soul of an unmatured woman, before using an inscribed Array Formation to extract the Power of Hope. This would cause the Power of Hope to adhere to the woman's undergarment, allowing for reuse elsewhere. Moreover, the Power of Hope extracted from virgins would be the most powerful type, at the same time, this method of collecting the Power of Hope did not need any burning of joss sticks."

"However, this method is also extremely vicious and evil, as it would cause the soul of the virgin from which it was extracted from to fly out before the soul ultimately disperses, to the point that it would not even leave behind some Essence Blood. All three of us agreed that it was simply too vicious. Moreover, none of us knew as to what kind of uses did this Power of Hope had. So all of us chose to destroy every hint of this kind of method, at the same time reached an agreement not to reveal this kind of a thing. I did not expect that Gui Yuhai from the Gui Clan would actually use it. Obviously, Gui Feng did not adhere to the promise."

Ning Cheng in hearing these words immediately came to understand that this mystical place was most probably also the place where the Gui Clan had obtained the True Brahma Sword, especially since Gui Yuhai already knew that this kind of object actually needed the Power of Hope to actuate. However, Gui Yuhai did not possess any Power of Hope with him. As a result, Gui Feng chose to hand down such an evil and vicious approach to him.

"Many thanks, Senior Na; this junior will now be taking his leave." Ning Cheng thanked Na Xinlan once again, before helping Ning Ruolan up and quickly leaving the place.

"Master, if Senior Apprentice Brother Ning stayed back at the Dragon and Phoenix Academy, who would even dare to lay their hands on him?" Jia Lingwei asked in doubt.

Na Xinlan shook her head but did not directly respond to Jia Lingwei's words and spoke, "Lingwei, you better get ready, once you advance to the Soul Essence Realm, we will immediately depart for the Tian Continent."

.....

"Big Brother, this flight type magical weapon seems to be a lot faster than the previous one." Ning Ruolan could feel that this airship was much faster and immediately spoke out.

Ning Cheng spoke with a smile, "Of course, this is a Low-Grade True Artefact Airship. Its speed certainly cannot be compared to a Spiritual Artefact Airship."

Ning Cheng had obtained this Low-Grade True Artefact Airship from the hands of Qi Le. Qi Le was himself a Crucible Transformation 7th Level Cultivator, so how could a flight type magical weapon obtained from a Crucible Transformation Cultivator of his level be inferior.

“So where are we going now?” Ning Ruolan knew that a True Artefact was a rank higher than a Spiritual Artefact, but because she had just arrived at the Yi Xing Mainland, she had yet to develop her intuitive concepts.

“We’ll first be going to the Angry Axe Valley to take a look, if I cannot find what I want, we will be returning to the Ping Continent.” Ning Cheng said.

The reason why he wanted to go to the Angry Axe Valley was that he wished to search for the underlying cause of the previous accident in the Angry Axe Valley. If he could go in, then with the map given to him by Meng Jingxiu, he also wanted to go look if he could find that Immortal Mansion. If he could locate the Immortal Mansion, then he would not have to worry about cultivation resources anymore. It would also not matter to him much if he could not find the Immortal Mansion, just costing him a bit of extra time. He anyways could always return to the Ping Continent by passing through the Jia Continent’s entrance of the Angry Axe Valley.

“En, wherever Big Brother goes is where I will also be going.” Ning Ruolan declared. Regardless of if it was the Earth or the Yi Xing Mainland, her big brother was her only family.

After Ning Cheng hesitated for a moment, he then decided to speak up, “Ruolan, I want to tell you something, don’t be nervous, and don’t panic.....”

“Big brother, you can go ahead and say whatever you want, how could I become anxious?” Ning Ruolan immediately cut her big brother off, with her big brother and her in the same place, what else was worth for her to get anxious about?

“Actually, I arrived at the Yi Xing Mainland because of a bead.....”

After Ning Cheng spoke about his transmigration into the body of his predecessor, Ning Ruolan couldn’t help but open her mouth in shock. She just could not even utter a single word. What could be any more shocking than this? If she had not followed Ning Cheng to come to the Yi Xing Mainland, and her big brother had spoken about it before, then she really might have not believed it at all. Although she was confident that Ning Cheng was definitely her big brother, such a matter like transmigration of the soul was just too outrageous to her.

“Big Brother, Is what you said really true?”

“It is the truth.”

“Huff.....” Ning Ruolan immediately gasped for breath, as she held onto Ning Cheng’s arm and started crying, “That Tian Muwan really had not done anything then, I had always thought that she was the reason big brother had disappeared.”

Ning Ruolan already possessed the cultivation of Qi Gathering 5h Level, if it were before when she did not have any cultivation to speak of, she would have definitely not believed the words spoken by Ning Cheng. Now, she realised that this kind of matter was quite reasonable.

Feeling that Ruolan still had the same attachment to him, Ning Cheng was feeling genuinely fortunate in his heart. He was even thanking his lucky stars that he was able to meet his little sister; otherwise, his little sister would have been lonely, being all alone on Earth.

After a while, Ning Ruolan suddenly thought of something and spoke up, “Big Brother, if Sister-in-law Luofei is in the Ping Continent, how are we going to introduce our relationship?”

Ning Cheng just wanted to say that Luofei should not be on the Ping Continent when he immediately reeled in his words from the tip of his tongue. He immediately recalled Shi Qionghua. The matters relating to Shi Qionghua, Ning Cheng still had not shared with his little sister, how was Ning Cheng going to approach it? Could he mention to Ruolan that she had another sister-in-law by the name of Shi Qionghua?

#### **Chapter 394: The Immortal Mansion Recognises Its Master**

Ning Cheng thought that he should not mention this matter to Ruolan for now, in the future, when she sees Qionghua, Ruolan might not object to it.

.....

In the past, Ning Cheng would have required 1-2 months to travel from Le Continent to the Jia Continent, that too, taking the route through the Yi Xing Ocean. However, currently, Ning Cheng did not choose the Yi Xing Ocean’s path but directly passed over the continents. With the speed of the flight type Low-Grade True Artefact, it took only half a month to reach the entrance of the Angry Axe Valley in the Jia Continent.

Although he had to pass through the vast deserts and marshes along the way, with Ning Cheng’s flight type Low-Grade True Artefact, ordinary monstrous beasts capable of flight were not able to catch up to them. Occasionally, they would encounter a few faster creatures, but Ning Cheng could easily massacre them.

As soon as Ning Cheng reached the Angry Axe Valley, he knew that the Array Formation and Restrictions, placed down by the powerhouses from the past, around the Angry Axe Valley were now useless. At this time, the entrance still appeared shrouded by a white fog, but it did not give out any thundering sounds like before. There was even a building right next to it from where cultivators were coming and going.

After Ning Ruolan entered the Miniature World Ring, Ning Cheng then arrived at the entrance. He had not yet reached the building when a not-too-big Transmission Array appeared in his Spiritual Consciousness. A yellow-robed cultivator in the Essence Building Realm stood right next to Transmission Array.

“Is this Transmission Array leading to the Angry Axe Valley?” Ning Cheng arrived in front of the cultivator and asked.

“There is a circular on that side; you can look at it by yourself.” In the face of Ning Cheng’s query, the cultivator responsible for the Transmission Array pointed towards a circular posted at a distance.

Ning Cheng looked at the circular, which stated ‘Any cultivator that wishes to enter the Angry Axe Valley need to pay 50,000 High-Grade Spirit Stones. To be sent out would also require 50,000 High-Grade Spirit Stones.’ Moreover, Ning Cheng also noted that at this time, the Angry Axe Valley did not have any cultivation limit, in other words, anyone can go in as long as one could afford it.

“Excuse me; is this the only Transmission Array, in the Jia Continent, leading to the Angry Axe Valley?” Ning Cheng asked after reading through the circular.

The male cultivator managing the Transmission Array looked at Ning Cheng as if he had lost his mind. However, he still restrained his temper and spoke, “Of course not, there are a total of two. However, other than this one, the other one is located in the Nan Continent.”

“So, if one wants to go from the Jia Continent to the Nan Continent, can they transfer from here to the Angry Axe Valley, and then chose to transfer from inside the Angry Axe Valley to the other Transmission Array on the outside?” Ning Cheng knew that travelling to an Intermediate Level Continent from an Advance Level Continent, although might be very difficult for others, was very easy for him. That was because not only did he currently have high cultivation, but at the same time, he also possessed a flight type Low-Grade True Artefact.

The male cultivator responsible for the Transmission Array was finally unable to reign in his patience as he sneered and spoke, “You can give it a try if you want to go to the Nan Continent.”

Not to mention that the distance between the Transmission Arrays of the Jia Continent and the Nan Continent inside longer compared to outside, the monstrous beasts in the Angry Axe Valley were also a lot stronger than the outside. Let alone that, it even was tough to use flight type magical weapons inside the Angry Axe Valley.

Ning Cheng did not ask any more questions, and just handed over 50,000 Spirit Stones and entered the Angry Axe Valley.

Coming out from the Transmission Array on the inside of the Angry Axe Valley, Ning Cheng finally realised that the interior was much livelier than the outside. A few people even had established some simple shops on the edges of the Transmission Array. Many cultivators could be seen coming and going every moment. By the looks of it, the Angry Axe Valley seemed to have transformed into a mystical place open for public.

However, most of the cultivators here did not have high cultivation. Therefore, Ning Cheng, with his cultivation of 5th Level of Soul Sculpting Realm, seemed to be a top-level expert in this place.

Using a flight type Magical Weapon to move around in the Angry Axe Valley was truly difficult, but to Ning Cheng, he did not need to rely on any flight type Magical Weapons. Not only were his Twin Wings of the Heavenly Clouds extremely fast, at the same time, it also provided him with a higher level of flexibility compared to other flight type Magical Weapons. Moreover, the map Meng Jingxiu had given him was very detailed; coupled with the speed of the Twin Wings of the Heavenly Clouds; Ning Cheng only had to spend around three days of time before he directly reached the location marked on Meng Jingxiu’s map.

The location marked on Meng Jingxiu’s map was in the middle of a seemingly endless forest. According to the annotations on the map, there were many lakes within the woods, and he just had to find a cross-shaped lake among them. To reach this cross-shaped lake, he would have to move according to the natural wind directions. Sometime during the day, the trees would start swaying in a particular direction, as long as he followed this direction, he would undoubtedly be able to find that cross-shaped lake.

After Ning Cheng entered the woods, he waited and observed the surrounding for one full day. As the day passed by, not to mention sensing the direction of the swaying of the trees, he was not able to perceive even the slightest wind.

Ning Cheng did not continue to wait in that location stupidly; his Spiritual Consciousness was already extremely powerful compared to ordinary cultivators. As such, in this place, he did not have to depend on the trees to find the direction, as he could search for the cross-shaped lake by himself.

This stretch of woods was indeed very huge, with a radius of nearly ten thousand miles. Even if that was the case, on the fourth day, Ning Cheng was finally able to find the cross-shaped lake.

The cross-shaped lake was much larger than what Ning Cheng had imagined, and was made of two intersecting oblong lakes; moreover, the centre of this criss-crossing lake itself was nearly twenty or thirty miles wide.

According to what the map mentioned, the Immortal Mansion was located right in the centre of the lake at its bottom. In that place, there would be a ten feet large protruding boulder, once you stood atop this boulder, you would then be able to sense the Immortal Mansion. As to how to enter the Immortal Mansion, or how to obtain the Immortal Mansion for one's self, the map did not mention it.

Up until arriving at the bottom of the lake, Meng Jingxiu had noted down everything correctly on the map, which caused Ning Cheng to become slightly excited in his heart.

However, when Ning Cheng finally stood at the bottom of the lake, he couldn't help but feel a bit of disappointment. He just was not able to see the ten feet high boulder as mentioned on the map. This lake only had sand on its lakebed. As for sensing the Immortal Mansion by standing on top of the rock, how could he do that if he could not even find the stone?

Ning Cheng carefully observed the surroundings with his Spiritual Consciousness and was quickly able to discover a Concealment Array Formation. Moreover, the level of the Array Formation was also not low; it was actually a Rank 7 Array Formation. If his proficiency in Array Formations had not already reached that degree, then even if he came here and searched carefully, he would not be able to find this at all.

As Ning Cheng threw out a few Array Flags, the Concealment Array Formation quickly revealed itself. At this point, Ning Cheng was able to make it out clearly, that this was definitely not a carefully arranged Array Formation, but something deployed from an Array Disc. This Concealment Array Disc can instantly conceal something within it, once used. If one were not proficient in Array Formations, they would not be able to even locate it.

Once opened, Ning Cheng found a storage bag placed at the centre of the Concealment Array Disc, allowing Ning Cheng to understand at a glance that someone had left this behind intentionally. Moreover, from the looks of it, it also had been quite long since the deployment of the Array Disc. It also caused Ning Cheng to realise that even if he came here before, someone had already arrived before him to take away the Immortal Mansion.

Ning Cheng used his Spiritual Consciousness to carefully open the storage bag and found that there was a not-so-small jade box inside it, which was overspilling with Spiritual Qi. It was so dense that even the jade box was not able to contain. Ning Cheng then quickly opened the storage bag and found three glittering and crystal-clear stones appear in front of him.

This... Ning Cheng almost screamed out in excitement, he was already too familiar with this kind of object. That old fogey had given him a small broken piece of this same object; it was definitely the same crystal stone and three complete ones at that. He was just too familiar with that fractured crystal stone that had helped him increase his cultivation rapidly, but now he actually obtained three such Crystal Stones, this naturally made him ecstatic.

Ning Cheng quickly stored the jade box. Then, he took out the jade strip from inside the bag and poured his Spiritual Consciousness into it.

“Big Brother Ning, I have already taken the thing from this place. When I came back inside this place to search for it, I had no intention to bind it to me. However, I had not thought that after I came here, this thing would immediately recognise me as its master. It truly is a pity that my cultivation is still limited, and can only obtain six of those crystal stones. Even if I want more, I would have to wait until my cultivation improves before I get the chance to obtain anything else from it. Originally, I wanted to leave everything inside this place to Big Brother Ning; however, I must take revenge for my parent’s blood feud.”

“After my parents were murdered, I went to look for Elder Brother, but Elder Brother had already left. My identity and status were no longer the same as those people from big academies. Therefore, I had no choice but to find my own way here. Thank you for sending me that Magical Weapon to me. Without that Magical Weapon, I would not have been able to come to this place. If my things were not obtained by my Big Brother Ning, in that case, beware of these things, it can bring disaster for the uninformed!”

Ning Cheng put away the jade strip. He felt happy for Meng Jingxiu in his heart, at the same time, also felt slightly sad. He had seen Meng Jingxiu’s mother once before, at that time, Meng Jingxiu’s father was still serving in the Jia Continent’s Cultivator Army. How many years has it been since then? It looks like Meng Jingxiu’s parents somehow met with a mishap. As for what Meng Jingxiu spoke about the ‘big academies’, it should be referring to Nalan Ruxue.

Ning Cheng also knew that even if Meng Jingxiu had the qualifications to talk to Nalan Ruxue, she was not capable of going to the Le Continent. Fortunately, Meng Jingxiu was able to obtain the recognition of the Immortal Mansion. Ning Cheng believed that with her intelligence and qualifications, her cultivation would progress much faster compared to others.

.....

After leaving the Angry Axe Valley, Ning Cheng did not immediately return to the Ping Continent. He first made his way to the Pu Bu Island in the Yi Xing Ocean. Since Ning Cheng had arrived here, then Ning Cheng had to inquire about the ones responsible for bringing harm to Meng Jingxiu’s parents; moreover, Ning Cheng also wanted to meet Kong Pengpeng. In the past, when he was on the run, Kong Pengpeng had provided him with significant help. What’s more, he was still the Yi Zheng Battalion’s 5-Star Junior Commander.

Ning Cheng chose not to be too aggressive in his arrival, he merely used a regular airship type Spiritual Artefact; however, this airship was stopped at the periphery of the Pu Bu Island.

Ning Cheng did not know if his status as a 5-Star Junior Commander would still be valid after leaving the Yi Zheng Battalion for these many years. Therefore, when enquired by the cultivator army personnel, he

directly took out his 5-Star Junior Commander Shoulder Card and spoke, "I am Yi Zheng Battalion's Five Star Junior Commander Ning Cheng..."

"Yi Zheng Battalion?" The two cultivators who stopped Ning Cheng were somewhat surprised.

"What's the problem? I was delayed for a few years inside the Law's Way and have just returned from the inside the Law's Way." Ning Cheng explained.

The two cultivators blocking Ning Cheng's path, after verifying that the shoulder card was indeed genuine, showed a sympathetic look, before allowing Ning Cheng to enter the Pu Bu Island.

Ning Cheng then first arrived at his Junior Commander's Mansion, but could not see his most familiar subordinate, Yang Honghou. Not only that, even the black silver warship that he had gifted to Nan Yuefang was missing. There were only a few guards that he did not know standing at the gates of his Junior Commander's Mansion.

After Ning Cheng's Spiritual Consciousness swept into the Junior Commander's Mansion, he found that the Array Formations and Restrictions that he arranged in the past had all disappeared. Not only were they gone, but there were new Restrictions that took their place.

Ning Cheng was not angry because of this; after all, Kong Pengpeng was the one who initially loaned this Junior Commander's Mansion to him. Once Kong Pengpeng came to know that he had to escape, it was only reasonable for him to collect the Junior Commander's Mansion and give it to someone else. In any case, Ning Cheng was not going to stay in this place. He had only come to this place to have a look, even if there were no Junior Commander's Mansion in this place, it would not matter much to him.

Since the Junior Commander's Mansion was no longer his, Ning Cheng also did not choose to enter the Junior Commander's Mansion. He directly went to Kong Pengpeng's Mansion. However, what made Ning Cheng even more puzzled was that Kong Pengpeng's Mansion was sealed shut. Moreover, from what he observed from the traces, it was not long since it was sealed.

Ning Cheng was starting to have a bad premonition, it looks like Kong Pengpeng seemed to have involved himself in some significant matter; otherwise, with Kong Pengpeng's status, it would have never come to this.

"Are you Junior Commander Ning?" A somewhat astonished yet unsure voice sounded out from behind him.

Ning Cheng turned around and saw a soldier, an early stage True Condensation Cultivator. Ning Cheng quickly replied, "That's right, I'm the 5-Star Junior Commander Ning Cheng, from the Yi Zheng Battalion."

#### **Chapter 395: Furiously Attacking The Pu Bu Island**

The cultivator soldier on hearing that it was indeed Ning Cheng, quickly spoke, "Lord Junior Commander, please come with me."

Just a cultivator soldier with True Condensation Cultivation, someone that Ning Cheng did not need to pay much attention. Not to mention him, even if there were Crucible Transformation Experts on the Pu Bu Island, he would not fear them.

“I am called Che Yangbo, and was originally from the Yi Zheng Battalion, under Nan Yuefang, for some time. After Nan Yuefang was put on death row, I left the barracks and now work as a small businessman....” As the cultivator soldier walked, he whispered to him in a quiet voice.

Ning Cheng suddenly stopped, “Nan Yuefang on death row? Why? What about Yang Honghou?” Ning Cheng’s expression turned somewhat cold, he was one of the four Junior Commanders of the Yi Zheng Battalion, even if he left, his own Junior Commander Battalion would be absorbed into the other three Junior Commander’s Battalions, so why would they put a Senior Marquise like Nan Yuefang on death row?

“Yang Honghou was also put on death row, but I guess he should already be dead by now.” Che Yangbo carefully spoke.

Ning Cheng was really feeling worse and worse in his heart, Yang Honghou and Nan Yuefang were both from his Junior Commander’s Battalion, even if Nan Yuefang got herself involved in some matter, how was that even Yang Honghou ended up dragged into in her case?

Slowly taking in a deep breath, Ning Cheng calmed down his mood. From the day he started cultivating until now, he had already thoroughly offended a super-faction like the Severing Emotions Dao Sect, so a mere Pu Bu Island of the Cultivator Army was not something that would pose too much trouble for him. If this matter were something related to him, then he would also not mind turning the entire Pu Bu Island upside down.

“How did you know that I was coming here?” Ning Cheng asked in a sinking sound.

At this point, they had arrived outside of a small wooden building. After Che Yangbo led Ning Cheng into the wooden structure, he carefully closed the door before speaking, “One of the two guards who inspected you is a friend of mine, I had requested him before that once Junior Commander Ning comes back, he should immediately inform me. Moreover, just before Nan Yuefang and Yang Honghou were about to be arrested, Nan Yuefang came looking for me. At that time, Yang Honghou was also with her. She told me that Junior Commander Ning would definitely return.”

Ning Cheng nodded, “You better speak up, what happened that led to all this? Even Kong Pengpeng’s mansion is completely sealed up.”

Che Yangbo did not speak; instead, he took out a jade strip and handed it to Ning Cheng before speaking, “Lord Junior Commander, this was left behind with me by Nan Yuefang. She instructed me to give this to you if you returned before she perished. If you did not return by then, then I was supposed to destroy this when I left the Pu Bu Island.”

Ning Cheng received the jade strip and poured his Spiritual Consciousness into it, but soon his complexion turned ugly. Looks like this matter was indeed because of him.

This problem was caused because he killed a Profound Congealing Cultivator named Shen Tuyun from the Yi Xing Ocean, and had taken away this person’s Black Silver Warship. This Shen Tuyun’s background

was also not small, as he was one of the principal personages from the Mu Imperial Palace. Initially, the cultivators from the Yi Xing Ocean and the Nine Continent's Cultivator Army were at war with each other, so this kind of matter was utterly trivial.

However, with the Tian Continent's Heaven's Way opening again, the Nine Continents pooled all their resources into constructing a Transmission Array to reach the Tian Continent, which caused the cultivators stranded and living in the Yi Xing Ocean to also feel tempted to join in.

Theoretically speaking, something like bringing forward past grudges, especially since the two sides had temporarily made peace with each other, would never happen. However, the people who came from the Yi Xing Ocean insistently brought the matter of Ning Cheng killing Shen Tuyun to light. So they used all sorts of excuses to enlarge it out of proportion; moreover, the Le Continent's Cultivator Army choose to turn a blind eye towards their actions, they also did not care to even ask about it.

Seeing this, the people from the Yi Xing Ocean became even more unbridled and unscrupulous. Ning Cheng had obtained the Black Silver Warship when the two sides were still bitter enemies with each other. However, now that the two parties had made a temporary truce with each other, they used the excuse of Nan Yuefang wantonly killing the cultivators from the Yi Xing Ocean to not only take back the Black Silver Warship but also persecute them.

Nan Yuefang knew that it was going to be hard to escape from this predicament, so she imprinted everything she learned into the jade strip. Instead of holding onto her thought, she asked her own subordinates to deliver the jade strip. That was because other than Ning Cheng, she did not know any person who would be able to help them.

Ning Cheng finally puts down the jade strip, while killing intent started to bubble in his heart. No matter what reason, whether it was the Le Continent's Cultivator Army or not, there was undoubtedly a huge problem here. The Yi Xing Ocean's Cultivator Army was definitely not stronger than the Nine Continent's Cultivator Army, so even if they reached a temporary truce, this kind of matter was just impossible for the Nine Continent's Cultivator Army to not manage unless there was someone on the inside meddling.

Feeling Ning Cheng's ice-cold killing intent, Che Yangbo unconsciously shuddered.

"What's the matter with General Kong Pengpeng?" Nan Yuefang's jade strip did not say anything about Kong Pengpeng, but Ning Cheng had already realised that Kong Pengpeng had definitely been decommissioned.

Che Yangbo quickly spoke up, "This matter had already proliferated to entire Pu Bu Island. It was also because of this matter that General Kong Pengpeng became very angry. General Kong had even stood up and vocally shouted out against prosecuting Nan Yuefang and Yang Honghou. However, no one chose to side with him; but as a result, General Kong was attacked by the collaboration of Lao Yu, the commander of the Yi Hai Battalion and Ni Gang, the commander of the Zhang Battalion, on the pretext that Kong Pengpeng was shielding criminals."

"Is General Kong Pengpeng also put on death row?" Ning Cheng asked.

"No." Che Yangbo quickly replied, "General Kong seemed to have known that some people already wanted to deal with him, so he immediately moved to escape from the Pu Bu Island. As a result, Generals Lao Yu and Ni Gang along with Kang Cheng from the Jia Continent's Celestial Globe 7 Star

Academy collaborated with each other to try and catch him, but he managed to finally slip and disappear.”

“How do you know all this?” Ning Cheng asked.

Che Yangbo spoke with some anger, “At that time, the battle was taking place right outside of the Pu Bu Island; not to mention me, everyone in the Cultivator Army stationed in the Pu Bu Island was able to witness the exchange. However, at that time, no one dared to stop the fight because General Yu Hong, the commander of the entire Pu Bu Island at that time, was absent.”

Ning Cheng fully understood what had transpired. He already knew about Lao Yu, and he knew that he had some connections with the Celestial Globe 7 Star Academy. When Ning Cheng was still in the Pu Bu Island in the past, Ning Cheng had some conflicts with Lao Yu. That was because his nephew Lao Sheng and he shared an enmity with each other. It looks like, under Yong Guyun’s provocations, it ended up enlarging the feud between them.

As for Ni Gang, Ning Cheng had ended up killing Wei Peng, one of the most trusted subordinates under his command in the Life and Death Battle Ring. Causing Ni Gang to form an enmity with both Kong Pengpeng and Ning Cheng.

As for Kang Cheng, when he had hosted the Five Star Academies Great Meet in the Hua Continent in the past, he had almost ended up caught by this person. However, he managed to escape into the Angry Axe Valley. This person suspected that Ning Cheng had uncovered some sort of a secret from the leather scroll that he used in the competition; moreover, had even coveted his things, so it was normal for him to come here looking for him.

As he thought of the leather scroll, Ning Cheng’s mind once again flashed with countless images. However, Ning Cheng quickly suppressed these images; he had always felt that this leather scroll was definitely not typical. Only, at that time he did not have the time to deliberate on it. Since this time, Kang Cheng had delivered himself to his door; it would genuinely be impolite for him to not welcome him warmly. If he met this person once again, then he definitely would do everything in his power to get his hands on that leather scroll.

However, since Kong Pengpeng had also helped him a lot in the past, so when the opposite party implicated him, Ning Cheng couldn’t help but feel somewhat guilty in his heart.

“Currently who is in charge of the Pu Bu Island, what’s their cultivation?” When Ning Cheng spoke these words, he already decided to kick up a storm on the Pu Bu Island. Killing one’s enemy in the past, how can one say that it was wrong? Even going so far as to detain his subordinates for an enemy killed by him.

“It is Junior Commander-in-Chief Ji, full-name Ji Mincai. I heard that he has the cultivation of 2nd Level of Sea Opening Realm.” Che Yangbo replied with some worry. He could already feel that Ning Cheng’s tone had turned unfriendly.

He had not seen Ning Cheng before, but he had actually heard about the talks about this Junior Commander Ning. When he was only at the Essence Building Realm, he had not only openly challenged the Profound Congealing Cultivator Wei Peng but had also managed to kill that Wei Peng.

Ning Cheng nodded and spoke, "Why don't you tell me where the death row prisoners are held?"

Although Ning Cheng had been a Junior Commander in the Pu Bu Island, he was not someone who roamed around. Not to mention about the Death Row Prisons, even if he wanted to find the Commander-in-Chief's Mansion, he would not even know in which direction was it situated.

"Lord Junior Commander....." Che Yangbo finally panicked and cried. Ning Cheng's killing intent was too powerful, how could he not know what this Junior Commander Ning of his wanted to do?

Ning Cheng gave a slight smile, "You don't have to worry about anything. I always maintain a sense of discretion. You just need to tell me the location. Right, I also have an Essence Building Pill here; you can have it as thanks for all your troubles."

Che Yangbo was incomparably excited as he received the Essence Building Pill with both his hands. He had not thought that he would have ever gotten his hands on this kind of pill. The only reason why he chose to help Nan Yuefang was that when Nan Yuefang was his superior in the past, she had given him many benefits.

.....

After the time it took for an incense stick to burn, Ning Cheng finally came to a stop in front of a courtyard wall covered with a significant number of Array Formations and Restrictions. From Che Yangbo, he knew that this was the Pu Bu Island's Death Row Prison.

"Get out of the way; this is not someplace where you can saunter around....." Ning Cheng had just arrived outside of this courtyard when a cultivator soldier with a True Condensation Cultivation came out and barred Ning Cheng's path.

Ning Cheng also did not speak any nonsense; he merely raised his palm, causing this cultivator to instantly lapse into a coma.

This was where the Pu Bu Island detained its criminals; as such, it not only had a considerable number of Array Formations and Restrictions covering it, there were also a large number of soldiers from the Cultivator Army protecting it. Therefore, when Ning Cheng caused a cultivator in the True Condensation Realm to lose consciousness with just the lifting of a palm, the other people immediately understood that someone wanted to break into the prison to free the prisoners.

They were just about to respond when the next moment; Ning Cheng opened the Array Formation and rushed to the Death Row Prison's courtyard. In only a short time, all the cultivator soldiers guarding the prison lost consciousness with a pat from him. Ning Cheng was himself a Junior Commander of the Cultivator Army, so he did not want to indiscriminately reap the lives of others.

Although the Death Row Prison detained Nan Yuefang and Yang Honghou, it had no relation with these guards who were just doing their duties.

Even if that was the case, once Ning Cheng entered the Death Row Prison, the entire Pu Bu Island erupted with grating alarm sounds. This alarm instantly woke up the whole Pu Bu Island, as countless cultivator soldiers rushed towards the Pu Bu Island's Death Row Prison, and in just a short time, surrounded it. Although it had been many years since the last battle between the Pu Bu Island's

Cultivator Army and the cultivators from the Yi Xing Ocean, they were still able to jump into action in just a moment, showing that they had not given up their vigilance.

.....

After entering the Death Row Prison's Courtyard, Ning Cheng unscrupulously swept out with his Spiritual Consciousness in all directions, and in just a few breaths of time, immediately located Nan Yuefang.

Nan Yuefang's currently had dishevelled hair, with clothes that were not able to cover her entire body, while hunched up in the darkest corner of her prison cell. However, Ning Cheng was not able to detect any of her previous cultivation. A chain pierced through her shoulder, blocking her meridians, causing her to not able to cultivate at all.

After seeing Nan Yuefang, Ning Cheng then located Yang Honghou, causing Ning Cheng to slightly relax. Yang Honghou, also hunched up on the floor in another prison cell, had not died. There was also a similar chain passing through Yang Honghou, interrupting his meridians. Moreover, he did not know what kind of opportunities Yang Honghou had encountered, but he currently had already advanced to the Essence Building 1st Level; otherwise, Ning Cheng estimated that he would have already died by now.

Ning Cheng did not hesitate for even half a moment before blasting out with the long spear in his hand. The several Entrapment Arrays, under the impact from his long spear, cracked apart just like breaking eggshells.

It was not until Ning Cheng opened Nan Yuefang's cell did Nan Yuefang finally wake up due to the loud noise before slowly looking up.

#### **Chapter 396: Rapidly Dispatching The Generals**

"Who are you?" Nan Yuefang was somewhat absent-minded as she looked at Ning Cheng. Ning Cheng felt very familiar to her, but she was not able to recognise him. In her heart, she was still wondering as to who would dare to break into the Pu Bu Island's Death Row Prison. This kind of courage was indeed out of the ordinary.

"I'm your original Junior Commander Ning Cheng....." As Ning Cheng spoke, he opened the prison cell with one hand and easily pinched off the chain impaling Nan Yuefang.

Nan Yuefang finally recognised Ning Cheng, although she had left behind a jade strip before imprisonment, she was very clear that it was just a move out of desperation. She had never thought that Ning Cheng would really come here.

"Junior Commander Ning, my meridians....." The joy on Nan Yuefang's face lasted for only a few breaths when she once again descended into depression. It did not matter if Ning Cheng could save her or not, she ended up with a severed cultivation path.

Ning Cheng took out a set of robes and handed it to Nan Yuefang before speaking, "You don't have to worry about your meridians; even if your Core Lake was fragmented, I still have a way to restore it. You just change your clothes first while I rescue Yang Honghou."

The reason Ning Cheng dared to say these words was due to the fact he knew that Nan Yuefang and Yang Honghou's meridians did not completely disintegrate, instead, they only suffered some superficial damage. If their meridians disintegrated completely, then even he would not be able to do anything about it, as it would need a significant quantity of Amethyst Heaven Coloured Glaze Essence for the reconstruction. Although Ning Cheng did have some Amethyst Heaven Coloured Glaze Essence, it would not be enough to save the two of them. However, since their meridians showed only superficial fragmentation, he would be able to repair and connect them with the Profound Replenishment Pill. This kind of situation was also completely different from what he experienced from Elder Sister Shu.

Nan Yuefang was able to move on her own, but Yang Honghou was not able to move even if he wanted to, that was because his injuries were a lot more severe than Nan Yuefang.

Fortunately, Ning Cheng had many Healing Pills on him. Therefore, once he removed the chains piercing and binding Yang Honghou, he immediately inserted a pill into his mouth, causing Yang Honghou to quickly wake up.

"Are you Junior Commander Ning?" Unlike Nan Yuefang, Yang Honghou was instantly able to recognise Ning Cheng, despite Ning Cheng having undergone a few changes in his appearance.

"Junior Commander Ning, we....." Yang Honghou was immediately excited after he confirmed that Junior Commander Ning was indeed the one who rescued him.

Ning Cheng patted him on his shoulder and spoke, "Those people have already come over, and I've already been made clear as to why you and Junior Marquise Nan were put in here. You can speak what you want later. Let's go out first and greet them."

"Is Junior Marquise Nan all right, the only reason I am not dead right now is due to the help provided by Junior Marquise....." Yang Honghou on recalling Nan Yuefang's condition immediately asked in anxiety.

Nan Yuefang's voice arrived from behind, "Thank you for the concern, I'm all right. Junior Commander had just saved me."

At this moment, a loud voice filled with killing intent boomed out, "Who dares to rush into the Death Row Prison of my Pu Bu Island's Cultivator Army?"

Ning Cheng did not bother to provide an answer to this voice. Along with Nan Yuefang and Yang Honghou, he calmly walked out of the Death Row Prison before finding himself surrounded by innumerable cultivator soldiers.

Although he saw several people in front of him, he instantly deduced that Ni Gang was the one who called out to him. Ni Gang was the Zhan Battalion's Commander, and at this time, his cultivation was already at the peak of Soul Essence Realm. While, among this Cultivator Army in front of him, the highest cultivation was only at the 2nd Level of the Sea Opening Realm.

Yang Honghou also saw the enormous numbers of Jia Continent's Cultivator Army in front of him, causing his face to once again go devoid of colour. However, Nan Yuefang did not show many changes. In any event, her situation would not become worse than what it was already in the Death Row Prison's cell. She was only worried that she might have also implicated Junior Commander Ning.

That cultivator at the 2nd Level of Sea Opening Realm could vaguely perceive that Ning Cheng's cultivation was lower than his own cultivation; however, he was not very sure about it. However, seeing that Ning Cheng was so young looking, it made him relax. In case this cultivator turned out stronger compared to him then it would not be a good thing, mainly since there were currently no Crucible Transformation Cultivators residing in the Pu Bu Island.

He had not seen Ning Cheng before, so although he felt a bit relieved, he did not let the people swarm towards him. He was somewhat clear about this time's matter. Although he was aware of the unjust treatment of Nan Yuefang and Yang Honghou, he felt that it was none of his concern. Moreover, he knew that someone would stand out to deal with the sneaky thief who broke into his prison.

"No matter who you are, since you forcibly barged into the Death Row Prison of my Pu Bu Island then you are definitely the enemy of my Jia Continent's Cultivator Army. I hear that you were originally someone from the Jia Continent's Cultivator Army, so I really hope that you do not go down the wrong path. If you are willing to surrender without a fight, then I can give you the fairest of results." The cultivator at the 2nd Level of Sea Opening Realm spoke with a calm tone. He did not want to degrade his impression on the numerous cultivator soldiers on this matter; otherwise, he would have already begun.

"This person is the Pu Bu Island's new Junior Commander-in-Chief Ji Mincai. I heard that he came from the Le Continent." Yang Honghou whispered from behind Ning Cheng.

Ning Cheng did not directly answer Ji Mincai's words. Instead, he spoke out in a resonant voice, "Fellow cultivator soldiers of the Jia Continent's Cultivator army, I am Yi Zheng Battalion's 5-Star Junior Commander Ning Cheng. Since I am also a member of the Jia Continent's Cultivator Army, because of this, I did not kill anyone when I forcefully broke into the prison. It is not that I could not kill them, but only because I don't like to take innocent lives. In the past, when I went to the Law's Way, my Junior Marquise Nan Yuefang and Senior Captain Yang Honghou ended up framed; I think I don't need to elaborate on this matter since everyone already knows about this. Therefore, today I came here to demand a proper explanation..."

Ning Cheng's words immediately caused a burst of chatter to erupt in the army; the matters relating to Kong Pengpeng, almost everyone was aware of it. To please the enemies from the Yi Xing Ocean, the Pu Bu Island had actually plotted against their own people, this was a fact that almost everyone had agreed on. Since Kong Pengpeng ended up forced to escape, it was just simplicity itself for Ni Gang and Lao Yu to want to get rid of two rootless minor cultivators.

"Humph, utter nonsense." A bald-headed man stood out from the crowd and coldly spoke, "Before that Kong Pengpeng from the Yi Zheng Battalion escaped from the Jia Continent's Cultivator Army out of fear, now a trivial Junior Commander dares to break into the Pu Bu Island's Death Row Prison..."

Speaking until here, this bald-headed man seemed to have turned exceptionally angry as he turned and bowed towards the Sea Opening 2nd Level Cultivator. He then spoke with a polite but indignant voice, "Commander-in-Chief Ji, this Ni Gang request permission to capture this lawless evildoer for questioning and ask him where Kong Pengpeng had fled to. Also, why does a trivial Junior Commander dare to break into the Pu Bu Island's Death Row Prison of the Cultivator Army?"

Ji Mincai knew that Ning Cheng's arrest was a necessity before killing him; however, he was also clear that the matter related to Nan Yuefang was clear to almost all the cultivators of the Jia Continent's

Cultivator Army. He had not thought that Ning Cheng would actually announce this matter out loudly, He was really regretting that he had not killed off Nan Yuefang and Yang Honghou by now. If he had already killed these two people, then he would also not have to see such a day as today. Now that Nan Yuefang and Yang Honghou appeared again, it was equivalent to reminding the others of this matter once again. It would not be a good thing for the Jia Continent's Cultivator Army reputation if it not handled properly.

Ji Mincai was feeling very depressed in his heart since he was partially the cause of all of this mess today. During the detainment procedures of Nan Yuefang and Yang Honghou, he was still not yet a member of the Jia Continent's Cultivator Army. At that time, the one in charge was Xian Yuhong, and Xian Yuhong's cultivation was a lot higher, compared to him. At the same time, Yuhong's status was also a lot higher, compared to him. At that time, Ji Mincai really did not want to openly prosecute and kill these two unnamed people, all out of fear towards this Yuhong of the Jia Continent's Cultivator Army.

"Commander-in-chief Ji, if this matter is not dealt with severity, my Jia Continent's Cultivator Army would degrade into a state of disarray, and the people would no longer follow the military laws..." Seeing Ji Mincai hesitate, Ni Gang spoke out once again.

Ji Mincai knew that he had to take away Ning Cheng in the presence of the public. Only then would he have the chance to play down Nan Yuefang's matter from a big problem to a minor problem before turning it into something trivial.

When he was just about to speak, Ning Cheng once again spoke out in a cold voice, "I did not kill anyone till now doesn't mean that I am someone who does not kill. If you don't want to be involved with Ni Gang and Lao Yu, then please step back, or I will be treating you all as an enemy of my Yi Zheng Battalion....."

Among the cultivator soldiers, especially those who were absorbed from the Yi Zheng Battalion, on hearing Ning Cheng talk about Yi Zheng Battalion, were the first ones to take the initiative to retreat. The Cultivator Army, compared to regular armies, was only slightly different; even if it were not appropriate for the cultivator soldiers of the military, they would still choose to find a place among others to continue with their cultivation, it would not be a big deal.

Back when Kong Pengpeng ended up forced to escape, there was nobody among them who could take up the lead, but now that Ning Cheng stood out, nobody was willing to work themselves to death for Ni Gang. If a new General emerged within the Yi Zheng Battalion, they would certainly not stand up against that general.

Ji Mincai, who was just about to speak, when he saw that many of the ordinary soldiers that previously belonged to the Yi Zheng Battalion chose to retreat on their own, caused him to feel a bit moved and did not continue to speak. Since this had already occurred, so why should he bother to paint this person as evil? Coming to the Jia Continent's Cultivator Army was only to get some gold plates for a few years. In the future, he was anyway going to Heaven's Way. If Ni Gang wanted to kill this Junior Commander Ning, then he was also happy to see it.

Seeing Ji Mincai not speaking to stop him, Ni Gang took in a breath of cold air, before taking a step forward and instantly arrived in front of Ning Cheng, simultaneously bringing out a giant knife.

Ning Cheng already wanted to kill this person, but he had not thought that he would not even need to step out when Ni Gang would himself take the initiative to deliver himself to him. Bringing out the long black spear, an Ice Net immediately took form from the spear lights.

The giant knife brought out by Ni Gang was not able to break through this seemingly inexhaustible Spear Light, while the Spear Light from the long spear also did not stop for even half a moment. In just a moment, it turned into a single ice-cold Spear Shadow, which not only blew away the giant knife but also pierced through the chest of Ni Gang.

“Bang.....” An explosive sound emerged, as Ni Gang’s frozen body exploded to pieces under the impact from his spear. Ning Cheng then just gave a casual wave and grabbed a ring.

A single move, it was just one move. No, it was not even half a move, and Ning Cheng had already killed Ni Gang, an actual General from the Jia Continent’s Cultivator Army. At this moment, almost all the cultivator soldiers were looking at Ning Cheng with open mouths; did this person possess a Crucible Transformation Cultivation? Ni Gang’s strength and ferocity were already hugely famous throughout the Pu Bu Island.

Ji Mincai also vividly saw Ning Cheng killing Ni Gang in a simple manner, causing his heart to tremble violently. Even if he wanted to kill Ni Gang and even if he went all out from the start, he would not be able to massacre Ni Gang with such simplicity. This Junior Commander Ning’s cultivation, compared to him, was unquestionably higher.

After understanding this, Ji Mincai suddenly burst out in a layer of cold sweat. It was a genuinely narrow escape, if he had issued the order, or even began himself; it would have ended up as a horrible day for him. No wonder he dared to break into the Pu Bu Island’s Death Row Prison. With his cultivation, he would be easily able to sweep through the entire Pu Bu Island by himself.

“Is Lao Yu also going to come up to me?” After Ning Cheng killed Ni Gang, he felt a great deal relaxed, as his gaze once again swept through the Cultivator Army surrounding him.

A pale faced Soul Essence 9th Level Cultivator subconsciously took a few steps back, Ning Cheng immediately realised that this person was undoubtedly Lao Yu.

Two small axes shot out one after another towards Lao Yu, at the same time, Ning Cheng’s long spear once again shot through the space between him and Lao Yu.

Lao Yu had personally seen Ning Cheng’s process of killing Ni Gang. He was just about to flee when he immediately felt the space surrounding him solidifying. One black and one gold Axe Light surrounded him, without leaving a single escape route for him.

“This matter had nothing to do with me, some people wanted Kong Pengpeng’s Spiritual Enhancement True Nectar, and then find.....” Lao Yu’s words suddenly came to a halt as a long black spear pierced through his glabella.

After Ning Cheng heard the words ‘Spiritual Enhancement True Nectar’, he realised that this matter definitely had another reason. It was a certainty, to obtain resources for advancing to the Soul Sculpting Realm, Kong Pengpeng would sell a bit of the Spiritual Enhancement True Nectar, but it looks like

someone found a trace back to him. They then conveniently used the matter of him killing Shen Tuyun to plot against Kong Pengpeng.

After killing the two generals swiftly, Ning Cheng behaved as if it was just an ordinary matter. He picked up the ring and casually walked up to the front of Ji Mincai.

Ji Mincai subconsciously took several steps back, while his Spiritual Consciousness locked in on Ning Cheng's Magical Weapon. As long as Ning Cheng made a move on him, he would immediately counterattack.

### [The Gate Of Good Fortune](#)

#### **Chapter 397: Luofei Is Back**

Commander-in-Chief Ji, in the past Ni Gang and Lao Yu had wrongfully accused these two meritorious people and ended up blinded by their greed. Sealing away Nan Yuefang and Yang Honghou's meridians with those chain locks, putting them in the Death Row Prison, can Commander-in-Chief Ji mind giving an explanation for it?" Ning Cheng stared at Ji Mincai and coldly asked.

Ji Mincai on seeing Ning Cheng had not immediately started fighting felt relaxed in his heart. In front of an expert on the level of Ning Cheng, even if more soldiers from the Cultivator Army came and besieged him again, it would still only be in vain. What's more, there was still the matter that the soldiers here might not even choose to side with him. If he decided to give the order, it would be equivalent to using shady laws to go against the truth. More importantly, he did not want to fight against Ning Cheng, which was because there was nothing in it for him.

"This is indeed a regrettable incident; however, I have not been at Pu Bu Island for long. I originally intended to deal with this matter by myself but ultimately wasn't able to as the matters regarding managing the Pu Bu Island were really too many. Although this matter was not in my hand, I really felt very sorry for Junior Marquise Nan Yuefang and Senior Captain Yang Honghou. I certainly wanted to give them a fair trial." Ji Mincai not only gave a vague explanation about this matter to Ning Cheng but also said that he did not have anything to do with this matter. As to question relating to the breaking into the Pu Bu Island's Death Row Prison, he would definitely not let it go, let alone turning a blind eye towards it.

Ning Cheng also did not want to kill and stain the Pu Bu Island with rivers of blood, but since Ji Mincai had spoken it out in such a manner, he also no longer decided to talk any nonsense. He already guessed that this matter had nothing to do with Ji Mincai anyways; moreover, it would also not be worthwhile to offend the Jia Continent's Cultivator Army. Once he killed Ji Mincai, he would then be facing another chase down by the many Crucible Transformation Cultivators; in other words, it would not bring in many benefits to him.

As for killing Ni Gang and Lao Yu, Ning Cheng believed that even if the Le Continent's Cultivator Army chose to interfere, it would still take a lot of time for them to start. If nobody wanted to stand up for Ni Gang and Lao Yu, then him killing the two of them was equal to killing two chickens.

"As far as justice is concerned, I'm sure that Commander-in-Chief Ji would definitely have achieve it. But now that Nan Yuefang and Yang Honghou ended up with their meridians severed, I don't know how Commander-in-chief Ji would tend to it....." Ning Cheng stared at Ji Mincai and spoke out in a slow voice.

Ji Mincai's heart sank. He thought that Ning Cheng was trying to search for a fault to begin. However, seeing that Ning Cheng did not seem to want to start, he clenched his teeth before saying, "What happened to Nan Yuefang and Yang Honghou is indeed something to lament about. However, the strength of Pu Bu Island is limited, we would really not be able to come out with pills to help restore their meridians....."

Ji Mincai just was about to say that he would definitely send in the request to the Le Continent's Cultivator Army, when Ning Cheng interrupted his words, "Commander-in-chief Ji, I already know about this. The matter regarding the severing of meridians can be forgotten, you can just represent the Pu Bu Island to provide some compensation, what does Commander-in-chief Ji feel about it?"

As the last of his words emerged, Ning Cheng immediately erupted with an oppressive Imposing Aura. Ning Cheng had already killed the main perpetrators, but to forget the matter of severing meridians, Ning Cheng was now demanding compensation.

Ji Mincai quickly spoke up, "I can represent the Jia Continent's Cultivator Army and for each of the two, put out 500,000 High-Grade Spirit Stones. A Medium Grade Spiritual Artefact in the form of a Flight Type Magical Weapon, a High-Grade Spiritual Artefact in the form of an Attack Type Magical Weapon..."

For a place like Pu Bu Island, the things taken out by Ji Mincai were indeed quite precious; it was enough to provoke the envy of even a Soul Essence Cultivator.

Ning Cheng then turned towards Nan Yuefang and Yang Honghou and asked, "Are you going to stay here or do you want to come with me?"

Nan Yuefang and Yang Honghou replied without any hesitation, "We would like to go with Junior Commander."

As long as they were not idiots, it would be impossible for them to willingly stay back at this place.

Ning Cheng then held up his cupped fists before speaking to Ji Mincai, "Let's differ the compensation according to what Commander-in-chief Ji spoke. That said, we will not be disturbing Commander-in-chief Ji anymore."

Ji Mincai immediately relaxed, at the same time took out two rings before passing it on to Ning Cheng. Ning Cheng then handed over the two rings to the two of them who were now sporting excited looks before he once again held up his cupped fists and spoke to Ji Mincai, "This time, many thanks to Commander-in-chief Ji for handling this matter fairly. Before saying our goodbyes, I just wanted to ask one last question to Commander-in-chief Ji. Where is Kang Cheng of the Celestial Globe Seven Star Academy?"

Ji Mincai immediately understood that Ning Cheng had not wholly given up; he also wanted to look for Kang Cheng. However, this was not his business, since he had already settled his matter, so whether Kang Cheng ended up dead or not, what did it matter to him anyway?

"Kang Cheng is not at the Celestial Globe Academy, he should have already gone to the Tian Continent. I heard that the Celestial Globe Academy managed to earn a few places for themselves to go to the Tian Continent." Ji Mincai replied without hiding anything.

Ning Cheng had initially planned a trip to the Jia Continent's Celestial Globe 7 Star Academy, but since Kang Cheng was not there, then he did not need to make that trip. Taking out a Low-Grade Flight Type True Artefact, he let Nan Yuefang and Yang Honghou onto the Airship before immediately departing from the Pu Bu Island.

Ji Mincai on seeing Ning Cheng bring out a Flight Type Magical Weapon that was actually a Low-Grade True Artefact, immediately started rejoicing in his heart that he did not actually start a fight with Ning Cheng. For people who could casually pull out a Flying Type Magical Weapon that was even a Low-Grade True Artefact, how could anyone of them be simple to deal with?

.....

"Junior Commander Ning....." Nan Yuefang and Yang Honghou had thought that they would undoubtedly perish without a doubt, but unexpectedly, their sorrow had suddenly transformed into joy when Ning Cheng ended up suddenly saving them. After leaving the Pu Bu Island, the two of them individually thanked Ning Cheng.

Ning Cheng just gave a smile, "Just call me Ning Cheng, that Junior Commander thing is all in the past, I never cared for it anyway. Here are two Profound Replenishment Pills; you can go inside the cabins to continue connecting your meridians. We can chat later when you are better."

"Elder Brother Ning, can I also recover my cultivation..." As Yang Honghou received the Profound Replenishment Pill with his own hands, he couldn't help but speak up in a shaky voice. He had just obtained 500,000 Spirit Stones, but he had already prepared to take it out and give it to Ning Cheng. His cultivation was already a lost cause, so these things were useless to him.

Ning Cheng gently patted him on the shoulder and spoke, "You don't need to be worried, just go for it."

"Many thanks, Senior Apprentice Brother Ning." Nan Yuefang understood a bit more than Yang Honghou; she knew that Profound Replenishment Pills were Rank 5 Profound Pills, in other words, something almost impossible to obtain for someone like him or her. She had not expected that Ning Cheng would actually give out such precious pills to them.

After they went inside to restore their cultivations, Ning Cheng called out Ning Ruolan.

"Big Brother, have we come out of the Angry Axe Valley?" After realising the disparity between herself and the other cultivators present here, Ning Ruolan cultivated diligently every day, to the point that her progress was actually visible to the naked eye. At this moment, she was already at the Qi Gathering 6th Level.

"En, this time, the harvest was definitely not small; by the way, we ended up on a detour trip to the Pu Bu Island....." Ning Cheng recounted all the things that happened on the Pu Bu Island to Ning Ruolan. At this moment, Nan Yuefang and Yang Honghou walked out with a refreshing feeling emanating from them.

"Senior Apprentice Brother Ning, she is....." Nan Yuefang and Yang Honghou doubtfully looked at Ning Ruolan standing at Ning Cheng's side and couldn't help but ask in confusion. Under the effects of the Profound Replenishment Pill, they only needed to spend half a day to reconnect their Meridians. However, in just half a day how was there another person more amongst them?

Ning Cheng had not yet spoken, when Ning Ruolan naturally stood out and spoke, "I am called Ning Ruolan, Ning Cheng is my big brother. Greetings Senior Apprentice Sister Yuefang, Senior Apprentice Brother Yang Honghou."

Hearing that she was Ning Cheng's little sister, they hurriedly came forward to return the greetings. Although Ning Ruolan only had the cultivation of Qi Gathering 6th Level, Ning Cheng had bestowed upon them a life-saving grace, so they did not dare show the slightest of negligence.

"Do you know anything about what happened to General Kong Pengpeng? Can you tell me?" Ning Cheng was still somewhat worried about Kong Pengpeng in his heart. He did not know if Kong Pengpeng was able to advance to the Soul Sculpting Realm, if he had not advanced, then being besieged by three experts in the Soul Essence Realm, who can say if he was really able to escape or not.

Nan Yuefang spoke up, "General Kong Pengpeng, because of his military exploits, was able to secure a spot for going to the Tian Continent. Therefore, when those people besieged Kong Pengpeng at that time, nobody chose to stand up to support him. After all, the quotas are already limited; with one less person, the competition would also be less."

Ning Cheng knew that Nan Yuefang should not have known about the matter relating to the Spiritual Enhancement True Nectar. For people on the level of Kong Pengpeng, besieged by others, it probably would be because of someone pulling strings behind the scenes. Initially, he had heard Jia Lingwei saying that the Gui Clan was on good terms with the Nine Continent's Cultivator Army, perhaps this matter might have something to do with the Gui Clan.

"Senior Apprentice Brother Ning, where are we going now?" Hearing Nan Yuefang calling Ning Cheng as 'Senior Apprentice Brother', Yang Honghou also changed his form of address to Senior Apprentice Brother.

Ning Cheng first took out a few jade bottles before handing them to Nan Yuefang and Yang Honghou and spoke, "These pills would be useful for your cultivation, and it also includes some Profound Life Pills....."

"Aah....." Hearing the words 'Profound Life Pills', Nan Yuefang's hand immediately shook, almost losing her grip on the jade bottle in her hands. Even if she worked laboriously for dozens of years on Pu Bu Island, she might not necessarily be able to obtain a single Profound Life Pill, but Ning Cheng had casually given a few of them to her.

"En, I have enough pills with me anyway; moreover, these pills are not particularly precious to me. This time, I'm going back to the Ping Continent to collect some debts before continuing with my cultivation. Once my cultivation rises, I then intend to go to the Tian Continent. If you want, I can take you to the Tian Continent....."

Ning Cheng had not yet finished his words, when Nan Yuefang and Yang Honghou firstly spoke out, "Senior Apprentice Brother Ning, we are willing to follow you to the end."

A quota for going to the Tian Continent, even if it was the Pu Bu Island, almost all the Soul Essence Cultivators were competing for it. Since Ning Cheng had said that he could take them there, this kind of matter, how could not be willing? As for whether Ning Cheng could go to the Tian Continent, Yang Honghou and Nan Yuefang did not have any doubt about it.

Ning Cheng could kill two Generals in just an instant, which means he unquestionably possessed formidable strength.

“Senior Apprentice Brother Ning, it is the greatest fortune in my life to be able to follow you. In the past, when you fought against the Cultivator Army from the Yi Xing Ocean, I knew that you were definitely not ordinary, I really did not misread you.....” Yang Honghou was excited to the point that even his eyes had turned red.

Nan Yuefang was not one to speak much, but in the face of such an opportunity, she was also not able to restrain herself, “Fortunately, I had joined your Junior Commander Camp; otherwise, I might have had to toil away in the Pu Bu Island for my entire life.”

Ning Cheng stood up and spoke, “Since all of us are from the same side, I will take you all to join a big Academy. If in the future, when I am not in the Academy, my little sister Ruolan would be depending on you.”

“Big brother, I’ll follow you wherever you go.” Ning Ruolan quickly spoke.

Ning Cheng smiled, “Under normal circumstances, I would definitely stay inside an academy. However, my cultivation needs large quantities of resources. If an Academy is not able to provide it then I would also have no choice but to leave the Academy to find those resources; however, I would definitely return.”

He had already planned it out, once he used up the three pieces of those crystal stones left behind by Meng Jingxiu, his cultivation would definitely be able to rise to another level. As long as he was able to compete with Crucible Transformation Cultivators, he would then be able to lead the few people with him to enter the Rainbow Fall Sword Sect without any problems. Moreover, he was also confident that Rui Baishan would definitely give him some face.

.....

“We have arrived.....” Ning Cheng’s airship finally landed outside of the Cang Le City of Cang Qing Province. He looked at the mottled walls, while unable to stop sighing in his heart. Initially, this was the place where he had to make his first escape from, to avoid being hunted down; many years later, he had come here again. The mood he was in was just too difficult to describe with words.

“Big Brother, the Spiritual Qi in this place is so thin. Big Brother Ning, what’s wrong.....” Ning Ruolan was accustomed to cultivating inside of a Spiritual Gathering Array, so after she arrived here, she felt that the Spiritual Qi was extremely thin in this place.

However, she immediately put a stop to her words; she could feel that her big brother’s expression was not right.

Ning Cheng’s Spiritual Consciousness fell onto a blue-robed woman, causing a slight bit of redness to emerge on his excited face. It was Luofei; Luofei is back.

### **Chapter 398: The Breathtakingly Beautiful Luofei**

Ning Cheng soon realised that something was wrong; at this moment, Luofei possessed the cultivation of True Condensation 9th Level. Although one could not dare say that she was invincible in the Cang Qin Province, no one would also dare to make a move against her. However, Ning Cheng actually discovered a few Array Formations around the black stone house where he had initially lived with Luofei. Ning Cheng also affirmed that Luofei did definitely not arrange these Array Formations. What's more, Luofei definitely did not possess the capability to organise these many Rank 3 Array Formations. These Array Formations not only contained Monitoring Arrays Formations but even Entrapment Arrays.

Even if Luofei did arrange these Array Formations, it just did not make any sense to arrange Entrapment Arrays around her own house.

Luofei was standing holding something in her hands coupled with a somewhat dull expression on her face, in the middle of the stone house's yard. Her eyes also held a gloomy look. Ning Cheng was able to sense her True Essence and Aura Fluctuations, and it felt as if Luofei did not have any cultivation at all.

"Ruolan, you and Yuefang come together, I'll first go and see Luofei....." Ning Cheng had already darted towards the city and instantly disappeared.

Ning Ruolan finally understood why her big brother's expression felt somewhat wrong; it was initially because her sister-in-law Luofei had really come back.

When she saw Nan Yuefang and Yang Honghou with a somewhat lost look on their faces, she quickly gave a smile and spoke up, "It would be better if we ambled around, my big brother is going to meet my sister-in-law, and so is somewhat excited. They must have a lot to say to each other. It's better to wait for a while before going in."

Nan Yuefang nodded, with her Spiritual Consciousness, she had already seen Ning Cheng entering a stone house, but she quickly pulled back her Spiritual Consciousness after those words.

.....

"Luofei....." Ning Cheng's abrupt call sobered up Ji Luofei who was still standing in the middle of the courtyard in a daze. She turned her head only to see Ning Cheng staring back at her. Why was she feeling as if she was looking at Ning Cheng who seemed to have just returned? She was looking at Ning Cheng, but why was she having difficulty in recognising him?

"Luofei, it's me, Ning Cheng. I'm back..." Ning Cheng could see that Ji Luofei showed a pleasantly surprised expression mixed in with panic and hesitation, causing him to feel somewhat pitiful in his heart. He understood something. It was undoubtedly because of the changes in his appearance after he advanced to the Soul Essence Realm, which caused Luofei to be unable to be sure of her instincts.

"Pata....." The things in Ji Luofei's hands fell to the ground while dispersing in all directions. It was some paper money and some sacrificial items.

"Ning Cheng....." Ji Luofei's lips trembled; she finally understood that her feelings were not wrong at all. Ning Cheng had really come back. This feeling was something that came from the bottom of her heart, that made her sure that this person in front of her was indeed Ning Cheng, her fiancé. The reason she had also come here, was to wait for this person.

“Woo....” Not waiting for Ning Cheng to arrive in front of her, Ji Luofei just wasn’t able to bear it any longer. She threw herself into Ning Cheng’s bosom, while her hands wrapped tightly around Ning Cheng. Other than crying her heart out, she wasn’t able to utter even a single word.

Feeling the trembling Ji Luofei in his bosom, rich feelings instantly surged into Ning Cheng’s heart. Fortunately, he chose to return to the Ping Continent; otherwise, how could he see Luofei?

The two of them did not talk, rather quietly hugged each other. Not knowing how long the two were like that, Ning Cheng finally gave a gentle pat to Luofei’s back before speaking, “Luofei, we should really be happy. I will never leave you for any kind of mystical place.”

Previously, he had ended up separated from Luofei because of his trip to the Angry Axe Valley, causing Ning Cheng to feel constantly remorseful. If not for that woman who had rescued Luofei, then perhaps he would have genuinely lost Luofei at that time.

Ji Luofei on hearing Ning Cheng’s words, could help but tremble once again as she slowly lifted her head from Ning Cheng’s bosom.

Ning Cheng could see the panic in Ji Luofei’s eyes, he slowly removed the black washcloth that Ji Luofei was wearing over her face and spoke, “Luofei, you don’t have to worry.....”

Ning Cheng’s words abruptly came to a halt, as he saw the peerless face of a woman in front of him. The cute oval face was somewhat pale. The delicate features did not even have a hint of smoke or fire flavour. In the face of such an aura, Ning Cheng couldn’t help but feel a burst of suffocation.

This face did not even have a hint of makeup on it, yet it was still exceedingly beautiful when looked at. Though Luofei was still in Ning Cheng bosom, Ning Cheng felt as if Luofei was like a fairy maiden, as if she would leave him at any moment to ride away with the wind.

That slightly anxious and worried look in her eyes, made Ning Cheng feel as if his heart would just melt away into nothingness. Whether he was the beholder or not, this kind of beauty, Ning Cheng had only seen on Shi Qionghua. However, whether it was the beauty of Luofei or Shi Qionghua, they definitely could not coincide with each other.

“Luofei, you really are beautiful.....” Other than these few tacky and cheesy words, Ning Cheng really was not able to find the words to describe Luofei who was still in her arms.

Initially, Ji Luofei still had some hesitation, but after hearing Ning Cheng’s words, the fear and uneasiness in her eyes completely disappeared. It was as if a long lost matter was finally put to rest permanently, while her eyes even showed some joy, “Aunt Gongsun saved me, and she was also the one who helped me restore my appearance. Since you like it, I am the happiest.....”

Ning Cheng was also in an excited mood, he was just about to speak when his complexion suddenly changed once again.

Feeling the change in Ning Cheng’s mood, Ji Luofei worriedly grasped Ning Cheng’s hand. She guessed that Ning Cheng had discovered something.

“Luofei, who put the Spiritual Consciousness Tag on you; or the Restriction Sealing Tags.....” Ning Cheng had not even finished his words when a monstrous, murderous aura started surging out from his body.

He was extremely familiar with this kind of Restriction Sealing Tag. He also knew from where it had come; moreover, it was the most vicious and the cruellest Spiritual Consciousness Sealing Tag.

He had looked into this matter in the Dragon and Phoenix Academy when he met Na Xinlan. Moreover, he still possessed two of the several boxes of undergarments containing the Power of Hope in his ring. Na Xinlan would definitely not do such a thing; presumably, even that person from the Thoughtless Academy would also not do such a thing. As such, there was absolutely no one other than the Gui Clan's Gui Feng.

Gui Clan, Ning Cheng couldn't help but feel a monstrous killing intent rising in his heart towards this entity. Initially, he was going to take care of this matter once his cultivation had increased to a new height, but he did not expect that the Gui Clan would take the initiative to pull a one-up on him. If he had not come back in time, then the result, Ning Cheng was just too scared to even think about it.

Sensing the formidable killing intent caused Ji Luofei, who was still in Ning Cheng's bosom, to shudder. She subconsciously tightened her embrace on Ning Cheng before speaking, "Since I can see you again, it made me feel very happy. It proved to me that my original choice was not wrong at all, the choice to believe that you would definitely come back."

"You knew about it already?" Ning Cheng hurriedly converged the killing intent into his body, as he affectionately caressed Ji Luofei's long hair.

"En, I was put under a Spiritual Consciousness Tag; moreover, a lot of Entrapment Arrays surround my house trapping me inside. However, in the Cang Le City, I was the only person marked with a Spiritual Consciousness Tag, the other women were brought to the Cang Qi 2 Star Academy and are all gathered there. I requested them to let me stay here alone; otherwise, I would self-immolate myself." Ji Luofei's voice was a bit shaky, she had initially clung to the idea of dying; as such, she was not much frightened about it in her heart. Now that Ning Cheng had indeed come back, she wanted to be together with Ning Cheng. It once again gave her the reason to live, causing that fear of death to amplify by infinite times.

Ning Cheng's hand gave a few casual pats on Ji Luofei's body, instantly causing his True Essence to surround the Spiritual Consciousness Tag placed on Ji Luofei's shoulder. In merely 1-2 breaths time, the Spiritual Consciousness Tag on Ji Luofei's shoulder ended up sealed up and extracted by Ning Cheng. The next moment, Ning Cheng transferred this tag into a jade box, while simultaneously putting the jade box away.

Feeling her entire body relax, Ji Luofei looked at Ning Cheng in astonishment before speaking, "Ning Cheng, did you just help me remove the Spiritual Consciousness Tag? How could it be so simple?"

Ning Cheng simply nodded and spoke, "Luofei, you need not be worried. I did not remove the Array Formations outside yet. However, from what I saw, those women gathered at the Cang Qin Academy seem to be happy, judging by their demeanour."

"That's because they do not know the reality. Those people just gave them the message that some big academies from the intermediate level continents have a need for more Outer Sect Female Disciples. Gathering them together is only for inspection, to see who among them are qualified and who are unqualified..."

Ji Luofei's words immediately allowed Ning Cheng to understand something; in this remote corner of the world that was the Cang Qin Province, who didn't want to become a disciple of a great academy from an intermediate level continent. It was equivalent to a pie falling into their hands from the sky. It was a dream to everyone; therefore, it was also quite reasonable for the women to feel happy about it.

Whether or not it was for this reason that the Gui Clan found Luofei, he had already decided to settle this matter for final.

"It was a bizarre feeling during the time that Spiritual Consciousness Tag was on me, I always felt like lighting some incense and candles....." Ji Luofei seemed to have felt the changes in her.

"I will explain this to you later." Ning Cheng spoke, then turned towards the door and spoke out in a somewhat loud voice, "Ruolan, you can also come in."

Ji Luofei immediately understood that Ning Cheng was not the only person who came, she then saw three more people walk into the house.

Ning Ruolan couldn't help but stare at Ji Luofei in shock. For her, she had already considered Tian Muwan to be the epitome of beauty. However, for the so-called concept of beauty, she genuinely did not care much about it. Nevertheless, when compared to Tian Muwan, Ruolan had initially thought that she would never see anyone more beautiful than Tian Muwan. However, at this moment, she truly believed that there would never be anyone even remotely as pretty compared to Ji Luofei. Was this woman really her sister-in-law?

Nan Yuefang and Yang Honghou on seeing Ji Luofei were also secretly surprised in their hearts; Ning Cheng's wife was unexpectedly so beautiful.

"Sister-in-law Luofei, you really are too beautiful. You are the prettiest woman I have ever seen....." Ning Ruolan immediately came forward.

Sister-in-law? Ji Luofei doubtfully looked at Ning Cheng, why was this woman addressing her as Sister-in-law.

Ning Cheng quickly spoke up, "Ruolan. Luofei and I have not yet married so it would be better to call Luofei as 'Elder Sister'."

"Luofei, it's a long story, I'll talk it out with you slowly." Ning Cheng tried to explain to Luofei; at the same time, introduced her to Nan Yuefang and Yang Honghou.

After the round of introductions, Ning Cheng then turned to Yang Honghou and spoke, "You go to the Cang Le City and look for a larger residence. We will be living in the Cang Le City for a while."

Yang Honghou immediately acknowledged it.

"I'll accompany him." Nan Yuefang, sensing that Ning Cheng and Ji Luofei along with his little sister had many words to exchange with each other, immediately felt that it would not be convenient for her to stay back.

.....

One hour later, Ning Cheng spoke out about almost everything. Ji Luofei kept staring at Ning Cheng; she recalled how Ning Cheng had changed so much after his family had perished after he barely escaped death at that time.

“I’m really sorry Luofei. I did not tell you this before.” Ning Cheng on seeing Ji Luofei staring at him, with a somewhat stupid look, stood up and apologised.

Ji Luofei could already see that Ning Ruolan and Ning Cheng’s relationship was very good; she had thought that the two of them only shared a bond of Brother-Sister in name, but it was not the case. Now that she heard Ning Cheng’s words, she realised that Ning Ruolan was really Ning Cheng’s little sister.

Hearing Ning Cheng apologising, Ji Luofei also immediately reacted. She completely disregarded the presence of Ning Ruolan as she stood up and tightly hugged Ning Cheng. She fully understood that the Ning Cheng now and the Ning Cheng from before the change were indeed two different persons and it was because of this reason. However, regardless of whether Ning Cheng had transmigrated or not, it did not matter to her at all. She only knew that she loved the person she was embracing.

Ji Luofei’s actions also was an indication of her thoughts, causing Ning Cheng to gently caress Ji Luofei’s hair and speak, “Luofei, it must have been hard on you over the past few years, talk to me, how did you come here. When was that Restriction put on your body?”

#### **Chapter 399: Attacking Sea Opening**

Ji Luofei gradually calmed down; after sitting down once again, she recounted what happened to her during the last few years, “When you went to the Angry Axe Valley that time, I just arrived at the God Wind Academy. Elder Liu took good care of me, not only did he arrange for a separate immortal cave for me, but also made sure that the immortal cave given to me had a Spiritual Grass Garden outside of it. The reason I could cultivate this fast was also due to the cultivation resources that you left behind for me.”

“But the God Wind Academy ended up besieged by unknown enemies. At that time, I thought that I would not be able to escape from that place; fortunately, Senior Gongsun arrived there in time. She said that she was your friend, and immediately attacked the people besieging the God Wind Academy, forcing them to leave. However, she did not kill anyone but only took me away.”

All these details, Ning Cheng, had already heard from the Dean Mann of the Falling Star Academy; however, at this time, when he heard the words directly from Luofei’s mouth, he once again felt grateful towards the white-haired woman. If not for that white-haired old woman, Luofei might have also disappeared just like the God Wind Academy. Because he was worried about Luofei, he wanted to immediately go to the Hua Continent; however, he decided to take a short detour to the Ping Continent before making his way towards the Hua Continent.

“Senior Gongsun had helped me a lot, and now she also helped you, I owe her a lot of favours.” Ning Cheng nodded, while firmly memorising the favours of the white-haired woman in his heart.

“En.” Ji Luofei continued, “Senior Gongsun seemed to have been injured previously, and looked like she was in the middle of healing herself. When I reached the True Condensation 9th Level in my cultivation, her injuries seemed to have mostly healed up. She said that the things she wanted were difficult to

attain, so she had to leave the Yi Xing Mainland. She asked me if I wanted to come with her to the Tian Continent. However, I said that I must return to the Cang Le City to wait for you. Therefore, she ended up personally delivering me to the Cang Le City before leaving. I guess she should have already made her way to the Tian Continent. What's more, when I came back, with my cultivation at the True Condensation 9th Level, the royal family of the Cang Qin Province did not dare to do anything to me."

"However, I ended up confined in the Cang Le City for more than a year, because of the Monitoring Array Formation placed outside of the house, and the Spiritual Consciousness Tag placed on me. This happened when I encountered an expert almost right after Senior Gongsun, and I parted ways. Even if I wanted to escape, I could not. Besides, I feared that if I left and you came back looking for me....."

"Luofei, don't worry. Now that I'm back, I'll take care of these things." Ning Cheng could feel the worry in Ji Luofei's voice and once again comforted her with a sentence.

"No....." Ji Luofei spoke with reddened eyes, "Later, someone came looking for me and asked me to move to the Cang Qin Academy. I did not want to go there, but those people let slip that it was because of the orders from a senior in the Sea Opening Realm. I, I....."

After hesitating for a moment, Luofei suddenly stood up, "My husband, the two of us can stay here. Let sister Ruolan escape from this place first."

She knew that Ning Cheng would definitely not abandon her, but she also cannot implicate Ning Cheng's little sister Ruolan into this mess. She was very clear about an existence of a cultivator in the Sea Opening Realm; someone she wouldn't be able to look up to, even if she wanted to.

Ning Cheng finally understood Ji Luofei's worry; she feared that if that Sea Opening Realm powerhouse arrived, he would not be able to escape. Luofei then changed her form of address to 'My husband', meaning she wanted to officially marry him before that cultivator in the Sea Opening Realm arrived.

"Elder Sister Luofei, is that man really so powerful?" Ning Ruolan couldn't help but ask. On Earth. Her big brother was already capable of flight, so she thought that her big brother was definitely the most powerful. However, after coming to the Yi Xing Mainland, she began to understand that there were still many cultivators who were a lot stronger compared to her big brother.

"Luofei, Ruolan, you don't have to worry about it. Even if that person in the Sea Opening Realm came to the Cang Le City, I am not afraid of him. Moreover, he definitely is in seclusion right now, so only after coming out of seclusion could he arrive here. Even with his fastest speed, it would still require a few months of time before he arrives. We can definitely stay in the Cang Le City and cultivate for those few months. As long as Luofei does not willingly walk out from this place, I believe that those people would definitely not come to find you on their own." Ning Cheng grabbed Ji Luofei's hand and confronted her.

"Do you already know who he is?" Ji Luofei quaveringly asked.

Ning Cheng nodded and spoke, "I suspect that the reason they came looking for you is probably due to me. If my guess is correct, then that person should very likely be that Gui Feng from Gui Yuan City."

"Big brother, it's that pervert...." Ning Ruolan's voice trembled a bit. Of course, she had heard about Gui Feng's matter when Na Xinlan spoke to her big brother. She had also seen those undergarments, which made her realise that those things had some relations to something called the 'Power of Hope.'

She had always thought that these things were far away from her, she honestly had never felt that she would actually encounter such a situation here.

Ji Luofei was also worried about Ning Cheng's cultivation, but she did not mention it.

"The Ning Clan's revenge can be put aside, for now, once Yuefang and Honghou return, it would mean that they should have found a place for us to live. We can then move into the new place, I anyway have to seclude myself for cultivation." Ning Cheng stood up.

Although he did not fear ordinary cultivators in the Sea Opening Realm, the Gui Clan also had a Crucible Transformation Cultivator. Now that Meng Jingxiu had given him three of those crystal stones, he was confident that his cultivation would definitely be able to advance a step further once again. The effect of the crystal stone on his cultivation, Ning Cheng was already too clear about it. It was incomparable to any pill or any kind of Spirit Stone.

"Big Brother Ning, we found a suitable residence." Yang Honghou's loud voice arrived; apparently, he was delighted with the residence he found.

After the five of them left the small stone house, no one came to look at it. However, Ning Cheng could see with his Spiritual Consciousness that a Profound Core Cultivator was staring at them from the side; however, that Profound Core Cultivator did not come forward.

Since the other party did not wish to break into a fight just yet, then Ning Cheng also did not want to start a battle on his own initiative. He knew that the opposite party somewhat dreaded him; as such, as long as they did not leave the Cang Le City, they would also not do anything until then.

Inside the Cang Le City, there were only two Profound Core Cultivators. However, in the perspective of the Cang Qin Province, a single Profound Core Cultivator could effortlessly destroy the entire province many times over, let alone two.

However, when it came to Ning Cheng, he could quickly kill these two Profound Core Cultivators without expending any effort at all. Nevertheless, he knew that the time was not ripe for reaping their lives. Even if he had no choice but to fight, he would still wait for others to find trouble with him willingly before starting anything. During this time, he must improve his cultivation.

.....

Yang Honghou and Nan Yuefang had indeed found an exquisite residence; it had a huge front yard and surrounded by more than ten independent rooms. In addition to these, there was also a backyard taking up a large area, a garden full of greenery, along with a sizable pond among other things. This kind of residence would definitely have a sky-high price in the Cang Le City; however, for Yang Honghou, who possessed several hundred thousand high-grade Spirit Stones, he would be able to buy many such courtyards.

After coming here, Ning Cheng first arranged a Spiritual Gathering Array, and then simultaneously arranged a Defensive Array and a Hidden Killing Array outside of the courtyard. These were just for contingencies. Although those two Profound Core Cultivators did not pose any threat to him, it was an entirely different matter for Nan Yuefang and the others.

Other than all these things, Ning Cheng also brought out Grey Toottoot to guard them before all the people simultaneously chose to go into seclusion.

Ji Luofei had obtained a suitable Cultivation Method for herself from the white-haired woman, while Ning Cheng had passed her a new ring containing more cultivation resources. Inside it, besides the several million Spirit Stones, there were also quite a few pills and an introduction to some of the basics of cultivation related matters.

After obtaining all these things, Ji Luofei was able to advance to the Essence Building Realm in just a single night. Now that Ning Cheng had once again come to her side, her heart no longer contained any distractions. With the help of so many resources, her cultivation also started to rapidly soar.

.....

The crystal stones left behind by Meng Jingxiu did not disappoint Ning Cheng. Initially, when Ning Cheng used Spirit Stones for his cultivation, the process was quite slow, but at this moment, his cultivation speed was akin to a 'hurricane'. His cultivation was always on the rise and was advancing exceptionally quickly. Even the Mysterious Yellow Origin from the Mysterious Yellow Bead, under such a hurricane-like absorption of Spiritual Qi, turned lively.

With Ning Cheng wholly immersed in the middle of his cultivation, he had an indistinct feeling, that what he was absorbing from the Crystal Stone was not at all Spiritual Qi. Instead, it was definitely something other than Spiritual Qi. At the very least, it was a few levels higher in quality than Spiritual Qi.

Ordinary Spiritual Qi, after absorption, would transmute into True Essence, thereby improving one's cultivation gradually. However, as he absorbed the Spiritual Qi from these crystal stones, not only was he able to quickly advance further ahead when it came to his cultivation, but at the same time, it gave him the feeling that he lacked comprehension of something. As to what kind of awareness he required, he was not able to state it out clearly.

It was as if, in addition to the advancement in cultivation, he also gained a slight comprehension into ways of better utilising Magical Techniques.

This crystal stone is absolutely a top grade cultivation treasure; Ning Cheng immediately understood this point. However, under the crazy absorption from the crystal stone for his cultivation, he placed all such thoughts to one side.

In merely six days, with the help of the Mysterious Yellow Origin and the crystal stone, Ning Cheng was able to advance to the 6th Level of the Soul Sculpting Realm. Half a month later, Ning Cheng rose to the 7th Level of the Soul Sculpting Realm. One month from then, Ning Cheng once again pushed himself to the 8th Level of Soul Sculpting Realm.....

At this moment, the Crystal Stone in Ning Cheng's hand shattered with a 'Katcha' sound, at the same time Ning Cheng's cultivation consolidated at the peak of 9th Level of Soul Sculpting Realm. Almost forty days since he went into secluded cultivation in Cang Le City, Ning Cheng decided to not continue using the rest of his Crystal Stones for his cultivation. Instead, he took an additional ten days to firmly consolidate his cultivation, before finally standing up.

Ning Cheng swept out with his Spiritual Consciousness, finding Grey Toottoot lying in the sun in the backyard.

At this moment, Ning Ruolan already reached the True Condensation 1st Level in her cultivation. While Nan Yuefang reached the Great Circle of Profound Congealing Realm and was preparing to attack the boundary to the Profound Core Realm. At the same time, Ji Luofei reached the Essence Building 2nd Level. The only person who had a comparatively slow speed was Yang Honghou. However, under Ning Cheng's Spiritual Gathering Array and the support from pills and Spirit Stones, he was about to break through the Essence Building 1st Level shortly and advance to the Essence Building 2nd Level.

It had been nearly two months since he arrived at the Cang Le City; Ning Cheng knew that if Gui Feng decided to come to the Cang Le City, then it would be quite soon. Therefore, he decided to leave Cang Le City alone to seek out a place to advance to the Sea Opening Realm.

He did possess a few Void Cleaving Pills. The Void Cleaving Pills were Rank 7 Pills; however, this pill, unfortunately, was not entirely up to par for attacking the boundary of the Sea Opening Realm. Unfortunately, although Ning Cheng had many of such Rank 7 Pills when it came to similar Rank 8 Pills, he just had none. That was because he was still unable to refine any Rank 8 Pills. It's not that he could not do it; instead, it would be too late to start now.

This was indeed not the time to practice Alchemy. This really caused Ning Cheng to feel somewhat depressed, as his Alchemy level had always been a step behind his cultivation.

Whenever he needed a higher rank pill, his Alchemy level was not able to cope up with it.

.....

For Ning Cheng, the best place to undergo the Thunder Tribulation was the Daan Forest.

Ning Cheng had been inside the Daan Forest once before, but his cultivation was quite low at that time. However, with his present cultivation, the Daan Forest was almost as safe as his own backyard.

Ning Cheng found an empty and spacious place to arrange a Spiritual Gathering Array before getting to ready to cross the tribulation.

Even though Ning Cheng was currently at the Great Circle of the Soul Sculpting Realm, and had also arranged about a hundred million Spirit Stones at the critical locations of the Spiritual Gathering Array, Ning Cheng still felt that it would be challenging to attack the cultivation barrier to the Sea Opening Realm. He thought that he would only be able to touch that thin veil of cultivation barrier; as for actually attacking it, Ning Cheng still felt that he lacked the necessary strength.

Nevertheless, taking out several Void Cleaving Pills, Ning Cheng swallowed them all at once. Almost instantaneously, the formidable Spiritual Power contained in the Void Cleaving Pills fired into Ning Cheng's body just like a flood of Spiritual Power after the dam broke. Ning Cheng forcibly suppressed the discomfort caused by the raging Spiritual Power, gathering up all the Spiritual Power, he then used it to immediately attack the veil of the cultivation barrier to the Sea Opening Realm.

"Boom....." An extremely powerful tremor shook throughout his body, to the point that Ning Cheng's mind ended up somewhat dizzy from the powerful impact. However, the cultivation barrier still held fast, just like an insurmountable wall that he could never surpass.

Ning Cheng sighed darkly in his heart, his foundational heritage was just too weak; instead, it could be said that he just did not have any proper legacy to actually learn from, only mindlessly progressing rapidly. If it was not for the Mysterious Yellow Origin and his formidable Body-Forging body, perhaps he might not be able to withstand this kind of rapid progress in his cultivation.

Regardless of whether he would be able to break through this bottleneck and advance to the Sea Opening Realm, Ning Cheng had already set a firm resolve for himself that in the future he would definitely spend enough time to properly consolidate and solidify his cultivation. As for advancing to the Crucible Transformation Realm, it could only be put aside for now.

### [The Gate Of Good Fortune](#)

#### **Chapter 400: Spiritual Root Derivative**

The impact created by the Void Cleaving Pills was significantly smaller than what he had previously thought; allowing Ning Cheng to immediately realise that depending on the Void Cleaving Pills to attack the boundary of the Sea Opening Realm was a delusional idea. He did not hesitate and took out the remaining two crystal stones.

If he did not use the two crystal stones to attack the bottleneck but rather kept slowly attacking it using up massive amounts of Spirit Stones, Ning Cheng had the confidence that he would definitely reach the late stages of the Sea Opening Realm in his cultivation using the two crystal stones after breaking through. Even breaking through to the Crucible Transformation Realm would not be impossible. Unfortunately, he did not have any high-grade pills, nor did he have any heavenly treasure materials saved up for that. He could only depend upon these two crystal stones to break through to the Sea Opening Realm.

Although he could definitely use the energy inside the crystal stones for attacking the boundary, with Ning Cheng's experience with cultivation, he was still a bit reluctant to use the crystal stone to break through to the Sea Opening Realm.

Finally making up his mind, he held the two crystal stones to the skin nearest to the Dantian, then operating the Mysterious Yellow Formless Cultivation Method, he gathered up the raging spiritual power pouring into him to attack the cultivation barrier to the Sea Opening Realm.

The spiritual power from the crystal stone, under the effects of the formidable Cultivation Method, did not move around and dissipate slowly as during Ning Cheng's general cultivation.

"Bang....." The spiritual power from the two crystal stones rumbled out, even if Ning Cheng possessed a Rank 5 Imperial Body, this kind of sensation felt unbearable to him as cracks started to appear on his body, oozing blood. The incomparably wild and berserk spiritual power then poured into his Dantian; it felt as if, if it could find an escape point, the next moment, it would end up tearing apart his body from the inside out.

Ning Cheng spurted out a mouthful of blood the same moment when the raging spiritual power, from the crazy absorption from the crystal stone, struck the cultivation barrier. He was sure that no one would attack the cultivation barrier with the same craziness as him. However, Ning Cheng was also convinced that only by absorbing horrifying quantities of spiritual power would someone like him be

able to gain a sliver of hope to break into the Sea Opening Realm; otherwise, the only thing that awaited him if he failed was death.

The spiritual power from the crystal stone was incomparably berserk, at the same time, it did not contain even a little bit of that 'harmonious and reconciliatory intent'. He did not have any pills that could be helpful to him at this moment; moreover, pill creation involved paying particular attention to bringing out this harmonious and reconciliatory intent; as such, pills only posed a slight danger to one's life. For Ning Cheng to use this crystal stone to attack the cultivation barrier, it was tantamount to steamrolling through the wall. Moreover, it also did not involve much on insights; instead, it relied more on brute force.

Attacking the cultivation barrier to the Sea Opening Realm, even if one possessed a Rank 5 Imperial Body, it would not be an impossible scenario if the body ended up torn asunder. However, Ning Cheng had already steeled his heart to break through this cultivation barrier in one swoop, even if it meant that he would have to gather extreme quantities of spiritual power in his body. If it were not enough, then he would still crazily absorb the Spiritual Qi available from outside to attack the barrier repeatedly.

One time, two times.....

As Ning Cheng unceasingly attacked, his cultivation barrier, although was loosened slightly, the spiritual power inside his body was also growing at a terrifying rate. A dripping layer of thick blood covered the surface of his body, it was as if the next moment, his body would no longer be able to contain the spiritual power and end up exploding.

Fortunately, Ning Cheng already experienced undergoing Body Forging in the Sifting Orchid Star; as such, this kind of experience was akin to a slightly elevated level of pain, something still within the scope of his endurance. As long as he could endure such levels of torture, his body would definitely not fall apart.

"Boom-Boom-Boom-Boom....." The entire sky turned cloudy while Ning Cheng was still crazily attacking the barrier to the Sea Opening Realm. He realised that the Thunder Tribulation was about to descend. The reason that Ning Cheng was still struggling to break into the Sea Opening Realm was not due to his inferior qualifications, but because his heritage was still too shallow. All this time, he majorly depended on the Mysterious Yellow Bead to forcefully advance, without any kind of proper legacy. Otherwise, to proceed to the Sea Opening Realm, it would have never been possible in just less than two years.

"Ka-Ka...." Nine powerful Lightning Arcs fell, followed by a Thunder Waterfall, but Ning Cheng chose to not bring out the Everlasting Blue Thunder City.

He wanted to continue with his Body Forging Cultivation to improve upon his Imperial Body. As such, in the face of this kind of Lightning Arcs, he wanted to see how long he could resist them. His body, filled to the brim with spiritual power, anyway could not move much. He believed that the vast reservoir of spiritual energy in his body would be able to support him in blocking the Thunder Tribulation.

"Bang-Bang... Puff-Puff..." The nine Lightning Arcs almost immediately struck Ning Cheng's body, causing a burst of blood mist to arise.

"Kacha....." Sounds of bones breaking immediately resounded throughout his body, causing Ning Cheng's heart to sink. He found that he had definitely made a mistake in his assumption, the spiritual

power in his body and the external Thunder Tribulation were two entirely different things. The spiritual power inside was fundamentally not his own strength; as such, wanting to use it to block the Thunder Tribulation would be impossible.

Although he would be able to reduce his injuries inflicted on him with the help of the Body Forging Cultivation Method, and can even use it to quickly strengthen and temper his corporeal body, the speed and intensity of this Thunder Tribulation were too frightening. He was not able to activate the Body Forging Cultivation Method to repair his physical body when the Thunder Tribulation had already descended on him in its entirety.

Seeing that a broad swath of the Thunder Waterfall was about to descend, Ning Cheng immediately realised that he would not be able to resist it. If he did, he would die without a doubt.

However, at this time, Ning Cheng suddenly felt a trace of cyan coloured spiritual source flowing into his meridians. His meridians automatically absorbed this incoming spiritual source in a flash. Moreover, his cultivation instantly took a significant leap forward after he absorbed this spiritual source.

“Kacha.....” Unexpectedly, at this moment, the Sea Opening Realm’s cultivation barrier started cracking apart.

Ning Cheng’s mind immediately blacked out for a moment in this instant due to the intense pain; however, by the time he sobered up, it was unexpectedly too late to bring out the Everlasting Blue Thunder City.

The next moment, the broad swath of Thunder Waterfall fell onto Ning Cheng’s body. Ning Cheng’s entire body shook, not waiting for him to activate his Cultivation Method, the Mysterious Yellow Formless automatically kicked into operation.

Nevertheless, just as this Thunder Waterfall exploded onto his body, it immediately caused large swaths of blood and flesh to evaporate from his body. However, unexpectedly, the Thunder Waterfall ended up entirely absorbed by him, which then turned into a cyan coloured spiritual source, allowing his cultivation to take another significant leap forward.

A most strange sensation started to well up in Ning Cheng; at this moment, he almost could not believe his senses. This was the first time that he was actively able to sense his own Spiritual Roots. He discovered that he actually felt the fire, water, wood, ice, along with wind and thunder, i.e. six different types of Spiritual Roots. It caused Ning Cheng to forcibly check his Sea of Consciousness. Finding that it really was the case; he really did have a fire, water, wood, ice, wind and thunder; six completely different Auras of their respective Spiritual Natures in his Sea of Consciousness.

The aura of the Thunder Spiritual Nature was the weakest, but as he continued to absorb that cyan coloured spiritual source, the Thunder-type Spiritual Qi was gradually expanding, allowing his cultivation to increase progressively. Ning Cheng almost instantaneously understood that the cyan coloured spiritual source was actually the Thunder Source. Since he had the Thunder Spiritual Root, he was now able to absorb this Thunder Source.

His Spiritual Roots were continuously improving and evolving; moreover, he was now even able to perceive and see it, causing Ning Cheng to feel pleasantly surprised in his heart. He was sure that not

many people would be able to sense their own Spiritual Roots, let alone see them, yet he was able to unexpectedly achieve this.

“Boom-Boom-Boom.....” A massive piece of Lightning Arc once again fell down, causing Ning Cheng to sober up and realise that he was still in the middle of crossing his tribulation.

As his cultivation rose, Ning Cheng also felt that the berserk spiritual power in his body has become a lot milder. Once again, a large piece of Lightning Arc followed by a broad swath of Thunder Waterfall fell onto Ning Cheng’s body. However, Ning Cheng was still not willing to bring out his Everlasting Blue Thunder City.

Even if his body arrived at the brink of collapse, he must absorb this Thunder Source. At this moment, only by incorporating that Thunder Source, would he be able to increase his cultivation, allowing him to once again grasp the opportunity to advance to the Sea Opening Realm. Otherwise, once his corporeal body collapsed under the impacts from the energy of the two crystal stones, he would definitely be finished. It was not just a matter of his physical body collapsing but actually involved his small, pitiful life.

The spiritual power he absorbed from the two crystal stones was akin to overturned oceans, which were cooperating with an endless Thunder Source to affect the Sea Opening Realm’s cultivation barrier.

“Bang.....” The cultivation barrier was already heavily cracked, but under this kind of repeated impacts, it finally blew open. It was like a brand new door that appeared in front of Ning Cheng.

Formidable strength penetrated his entire body, causing the spiritual power flowing throughout his meridians to suddenly explode, turning into True Essence for his cultivation in just an instant.

The Thunder Tribulation in the sky continued, but Ning Cheng knew that he now did not have to fear this Thunder Tribulation. Therefore, he did not even move to dodge it, while at the same time crazily absorbed the remnant energies from the crystal stones to consolidate his own cultivation. At the same time, he also crazily incorporated the Thunder Source to grow his Thunder Spiritual Root.

If there were anyone who could afford to feel the ecstasy of cultivation while crossing his or her tribulation, then it would definitely be Ning Cheng. Currently, although the Tribulation Thunder Arcs were exploding on his body, he was still continually absorbing massive amounts of Spiritual Qi, and the Thunder Source contained in it, to improve and solidify his cultivation. Even the Mysterious Yellow Origin was fully active at this moment, filling up the meridians in Ning Cheng’s body while Ning Cheng continually operated his Cultivation Method to improve upon his cultivation.

Although, he had a completely broken down corporeal body before; however, it was healing with speed visible to the naked eye. Although his body currently looked scary, it was just a layer of bloody froth covering it, giving him an extremely injured look.

Not knowing how long this state lasted for, the two crystal stones had now completely turned into powder. Ning Cheng also suddenly opened his eyes. At this moment, the Thunder Tribulation had already vanished without even a trace left behind. However, the hundreds of square meters of the area around him had turned to nihility while he was crossing his tribulation.

Feeling the formidable strength coursing through his body, Ning Cheng finally was not able to bear it and shouted out in joy. He finally had the qualifications to contend against Crucible Transformation Cultivators. He had finally completed crossing his tribulation; at the same time, he was already at the peak of 1st Level of Sea Opening Realm.

“Who?” Ning Cheng suddenly paused as he stared deep into the Daan Forest.

“Crossing a puny tribulation, yet making others feel that you seem to have broken through the shackles of the universe. This is the first time that I saw such a boring person.” A voice transmitted over along with the ringing of a bell. The next moment, a scarlet-robe wearing young girl appeared in front of Ning Cheng.

Ning Cheng’s heart immediately tightened, this young girl gave the impression that her age was definitely not low. However, she had a porcelain doll-like face, which made others feel that she was definitely not old at all.

Not only did she have a porcelain doll-like face, but her skin was also completely smooth and white. As if a touch could disintegrate it. She had a pair of large and bright eyes, as she tightly stared at Ning Cheng, sizing him up from top to bottom.

Ning Cheng only then discovered that the rampage from the Thunder Tribulation and the spiritual power from the two crystal stones ended up shredding all his clothes. Currently, he looked as if rags were the only thing covering him, just like the loose clothes on a beggar’s body.

Ning Cheng knew that he should clean himself and change into a set of clean clothes, but he did not dare to do such a thing right now. The scarlet-robed young girl, who looked like a porcelain doll, was giving him a very dangerous feeling. He even suspected that he was not her opponent.

“I want to change my clothes, can you look the other way.” Ning Cheng stared at this scarlet-robed young girl and spoke out quietly. However, he did not feel any shyness. Not to mention that he still had some rags covering him, even if he not covered at all, there was nothing for him to feel shy about.

In the face of his intuition that was screaming to him that she was a very dangerous woman, Ning Cheng did not dare to do anything reckless. He was even prepared to bring out all of his 36 Cosmic True Devil Axes in a moment.

“Is Daan Forest your home? Even if I wanted to look at you, would your changing clothes have any impact on me?” The scarlet-robed young girl carelessly spoke from the side. While at the same time, her eyes roamed around over Ning Cheng’s body.

Ning Cheng slowly moved back. However, he soon found that no matter how far he retreated, this woman would always move forward the same distance; at the same time, this woman gave him a somewhat different feeling that she meant no harm.

Ning Cheng swept out with his Spiritual Consciousness. He guessed that if this young girl wanted to attack him, then it would definitely be when he started to dress. As such, he wished to take advantage of the terrain to escape first.

“Luofei.....” Ning Cheng was shocked, how did Luofei come here? After he swept out with his Spiritual Consciousness, Ning Cheng immediately spotted Luofei. Ning Cheng did not choose to keep an eye on this young girl when he suddenly rushed to the front of Luofei.

Luofei’s cultivation was too weak. He could not let that scarlet-robed young girl bring even half an injury to Luofei.

“So it was true, Wu Wu....” Ji Luofei on seeing Ning Cheng covered in blood and clothed in rags that barely covered his body, could not help but cry out after embracing Ning Cheng.

Ning Cheng felt his heart clench, he speculated that this had something to do with the scarlet-robed young girl. However, he actually discovered that scarlet-robed young girl had disappeared from the range of his Spiritual Consciousness. Where did that scarlet-robed young girl go?
