

The Growth 156

Chapter 156 - 11: Realm of No Space-Time

All Heavens and Myriad Realms, the Secret Realm of the Faceless One.

Unlike the Brilliant Realm given to Li Hao by the Faceless One before, this is a small world woven entirely by the power of many gods.

Here, there are no mountains, no water, no land, only an endless resplendent starry river.

Amidst this starry river, each star symbolizes a god.

Every moment, gods are leaving, yet every moment, more stars appear.

Even though it was not the first time seeing such a scene, Li Hao couldn't help but admire the aesthetics of the Faceless One.

Invisible passages are woven everywhere by divine power.

And these countless passages lead to each star domain controlled by a god.

As long as Li Hao is willing, he can use these invisible passages to go to any star domain he wishes and communicate with the divine incarnations residing there.

"Still so lively!"

Watching those "streams of light" freely shuttling among the stars, Li Hao knew those were divine incarnations and messengers.

In this grand platform built by the Faceless One, only those with divine status, or messengers recognized by gods, can freely shuttle among the stars.

"Great Under the Crown of the Snake God, it's a pleasure to see you again!"

Silently, the snake-shaped Faceless One appeared in front of Li Hao.

It is Li Hao's exclusive messenger, also an incarnation of the great existence known as the [Faceless One].

Before Li Hao chose to reside here permanently, its mission was to communicate and help Li Hao with matters inconvenient for him to personally handle.

"No need to be so formal, you know I'm not that kind of stringent god."

Following the flow, Li Hao entered one of the invisible passages, then he and the Faceless One started shuttling among the stars shoulder to shoulder.

At this moment, time already had no meaning.

Surpassing the speed of light, the two gods could even see scenes from a few minutes ago.

Only upon formally entering the star domain of a certain god would this peculiar phenomenon of surpassing time, even reversing it, come to a halt.

And this is the most special aspect of this small world woven by divine power.

Space-time here does not flow linearly, the phenomenon of time itself is not irreversible.

Li Hao appearing here can completely leap through the torrent of time, going back to the inception of this world to search for those gods who have long left this world.

Given this special attribute of traversing time, only true gods can maintain a clear consciousness in this world.

Realm of No Space-Time—[Boundless]!

This is what all the gods who joined the secret congregation of the Faceless One call this world.

Thus, many gods believe the Faceless One must be a powerful God of Time, at least possessing the divine position and authority over time.

"Great Under the Crown of the Snake God!"

"This time, have you prepared to reside here permanently?"

Just like every time before coming here, the Faceless One's first topic was still persuading Li Hao to reside here permanently.

Sometimes, Li Hao even suspected that if more gods chose to permanently reside in Boundless, would it somehow benefit the Faceless One in enhancing its capabilities?

For this, the god who is always adept at guessing people's minds would risk offending him by repeatedly persuading him to establish a permanent star domain in this world.

"You know, the Brilliant Realm you gifted me has already been transferred to my subordinate clans."

"So until I find a suitable world to become the cornerstone of a 'Star Domain,' I won't consider residing here permanently."

Li Hao's words were obviously just a pretext, yet the Faceless One only nodded with a smile.

"Naturally, my master will always look forward to your joining."

.....

In the realm of Boundless, devoid of time concepts, changes around could only be acknowledged by one's sense of time.

Therefore, as the conversation between Li Hao and the Faceless One neared its end, they had already arrived at a special star domain.

This is the domain of the Faceless One in this world, also the brightest star in this infinite starry river.

Here, you can see countless peculiar races bustling around, and various apostles shuttling back and forth.

They might come from other stars or might be followers of the Faceless One themselves...

Under their embellishment, this brightest star presents an extraordinarily prosperous scene.

"I have something I actually want you to help with."

Floating slowly in the air, Li Hao did not hide anything but said quite frankly.

"To serve you is my honor!"

Slowly coiling its snake body, the Faceless One spoke with a smile and gently.

Though it failed to persuade Li Hao to permanently reside here, it did not affect the Faceless One's attitude toward him.

The gods of the All Heavens and Myriad Realms always have various concerns.

Especially ancient and powerful gods like Li Hao, his mere existence is a tremendous deterrent.

"Have you ever seen this thing?"

Seeing this situation, Li Hao casually flipped over his hand, and that bronze mask with an eye-strewn face appeared in his hand.

"Huh?"

Almost the instant Li Hao pulled out that bronze mask, the originally smiling Faceless One instantly froze.

For there was no need for Li Hao to describe further, the Faceless One immediately recognized the owner of this bronze mask.

"Totem of the Long-Eyed God?"

"Its totem also appeared in your world?"

Upon hearing this, Li Hao couldn't help raising an eyebrow.

So, the fellow named "Long-Eyed God" is a habitual offender?

Judging from the Faceless One's words, the totem of the Long-Eyed God is not exactly a rare thing, though not pervasive.

"Tell me about this Long-Eyed God, what exactly is the matter with him?"

He did not directly answer the Faceless One's question.

Because Li Hao understood that in this world, with so many abilities, there must exist divine positions related to lie detection.

Therefore, unless absolutely necessary, Li Hao would not voluntarily lie.

"The Long-Eyed God, now that's truly a contradictory fellow."

"Even though he lost his clan and faith, he became a renowned figure among the 'Lost Gods' with his extraordinary ability to create totems."

Seeing this, the Faceless One perceptively didn't inquire further and instead began introducing the owner of the totem.

"It's said that the Long-Eyed God was born even before the first Celestial Father-Haojun."

"At the pinnacle of his divine power, he once single-handedly overturned a major divine pantheon, indirectly causing the fall of hundreds or even thousands of True Gods."
