

The Growth 285

Chapter 285: End of Volume: Turning Back Time (3/3)

[Aren't you going to try again?]

Observing with great interest how Yao Xin subdued Qi Tian, Li Hao noticed the slightly unhappy expression on Maitreya's face.

It was obvious that Maitreya had long been interested in the Immortal Stone, and the Five Lucky Boys were sent by Maitreya to assist the Golden Giant Ape.

In the end, Yao Xin took the advantage, and one can imagine how he must be feeling now.

[It seems that monkey is ultimately not destined to be with my Buddha, so why insist on it?]

Shaking his head gently, Maitreya then turned his gaze to the World of Fallen Gods, still struggling to hang on.

Although with the support of the powers of both Li Hao and Maitreya, the tendency for the World of Fallen Gods to downgrade was forcibly halted.

Currently, however, the World of Fallen Gods has just barely escaped the fate of dimensional downgrade, and all internal rules and order had long since crumbled.

Unless the world renews after being destroyed, it cannot return to normal in the short term.

[Venerable One, do you think there's a need to renew the World of Fallen Gods?]

Testingly asked Li Hao, Maitreya seemed a bit worried that he might just abandon the World of Fallen Gods.

After all, taking charge of a complete world and developing a destroyed world from scratch are two entirely different levels of difficulty.

Based on Maitreya's understanding of ordinary gods, the vast majority would choose to abandon the current World of Fallen Gods.

If it weren't for all the benevolence Li Hao had shown previously, Maitreya would not have even asked this question.

[Renewal? Of course, no need for renewal.]

Upon receiving this response from Li Hao, Maitreya's face openly showed disappointment.

However, Li Hao's next sentence turned Maitreya's disappointment into astonishment in an instant.

[This world isn't beyond saving, so why renew it?]

This sentence entered Maitreya's ears, but his mind couldn't comprehend its meaning.

The world had already become so broken. Without the support of the two Supreme Elders, the World of Fallen Gods might have already collapsed to zero dimensions.

But it sounded like Li Hao had a way to make the World of Fallen Gods scale up again?

[Time, though merely a fictional concept, is the greatest power of All Heavens and Myriad Realms.]

[All events proceed in time's forward flow, so reversing the time torrent of the World of Fallen Gods should naturally restore it to normal.]

To prove he wasn't just speaking empty words, as Li Hao spoke, he operated the Celestial Tao System to initiate his amazing act of reversing time.

Remember, Li Hao, by himself, already mastered the power of time from the Candle Dragon, being a true God of Time.

Having now received the Celestial Tao System's almost all-knowing and all-powerful support, making the world's substance and energy reverse to their rightful positions had become a regular operation.

Swirl... Swirl... Swirl...

Visible chaotic vortices began forming around the center of the World of Fallen Gods.

By the time Maitreya realized it, the World of Fallen Gods' time had begun to reverse, and the two-dimensional space was scaling back to a three-dimensional world.

Maitreya could clearly feel that the World of Fallen Gods was being truly repaired.

From macroscopic matter to microscopic particles, everything in the World of Fallen Gods returned to where it was meant to be.

The energy and matter missing due to the destruction by super-massive entities were supplemented by the Cup of Hygeia.

In this process, the "Cyber Dimension" previously imprinted onto the World of Fallen Gods by the Celestial Tao System played a crucial role.

Since the Cup of Hygeia could only provide energy and matter, how to restore them to their original state depended on the information recorded in the Cyber Dimension.

In other words, the "time reversal" of the World of Fallen Rules can at most restore to after the creation of the Cyber Dimension.

For the world before the creation of the Cyber Dimension, due to some missing matter and energy, the energy and matter supplemented by the Cup of Hygeia could not perfectly reproduce their existence.

However, that was more than sufficient.

After all, Li Hao didn't need the World of Fallen Gods' time to reverse that much.

As long as it returns to before the downgrade, back to when the world's barrier was broken, it was enough.

"What just happened?"

"I... am alive again?"

"Did the two Supreme Elders act personally!?"

"Is this a world-wide time reversal phenomenon?"

...

As the timeline reversed back to before the world's barrier was broken, those Ascenders who died afterwards were also resurrected.

Unlike ordinary creatures, these Ascenders, who could alter world rules with their will, still remembered the scene of their own death.

It made them involuntarily look up at the sky, astonished by the capabilities of the two Supreme Elders.

Reversing the time of an entire world was a power that stood out even among the top echelon of the Gods of Time.

"Thank the great Creator!"

"Sure enough, the Creator is reliable!"

Alongside those resurrected Ascenders were Xiao Gu, Dororo, and Luo Yan, who were engulfed into Huang Mei Tongzi's bowl.

Especially Xiao Gu and Dororo, who almost firmly believed this was the handiwork of the Creator.

"What if it was the act of my Buddha?"

Though knowing the likelihood was slim, Luo Yan, who was gradually getting familiar with the two, instinctively retorted.

Before Xiao Gu and Dororo could say anything, Huang Mei Tongzi next to them already chuckled and tapped Luo Yan's head.

"I say, junior brother, have you forgotten something?"

With those words, the tall and sturdy Luo Yan immediately shrank his head, widened his mouth comically.

"I... uh... I'll go back and face the wall... "

"Also, didn't I help out by coming out this time? Can you shorten my wall-facing time?"

.....

At the same time, in a higher dimension beyond understanding.

After reconstructing the entire World of Fallen Gods, Li Hao also singled out the true culprit behind it all.

[So this is the Godslayer?]

The Merciless Guanyin docilely lowered her head, not daring to look directly at the majestic figures of Li Hao and Maitreya.

As for Probability Cloud?

No matter how it struggled, it could not escape the cage specifically crafted for it by the Celestial Tao System, only letting out helpless roars.

[Venerable One, how do you plan to handle this creature?]

Examining the Probability Cloud seriously for a while, Maitreya then took the initiative to ask.

[It's not my style to suffer a blow without retaliating, or can you swallow your pride over this?]

Of course, Maitreya couldn't; no god with a temper could tolerate such unilateral acts of war and destruction.

[Venerable One, though this Godslayer's life form is peculiar, it's not entirely unbreakable.]

[If you hand it over to me, I promise I can extract the relevant intelligence about the Godslayer Civilization from its mind.]

Speaking calmly, it was evident to anyone that Maitreya was harboring anger.

[No problem, I also wish to know what the Godslayer Civilization intends to do.]

Li Hao didn't doubt whether Maitreya could obtain the desired intelligence, never forgetting how Maitreya ruled the World of Fallen Gods back then.

In terms of brainwashing ability, no one in the All Heavens and Myriad Realms would dare claim the first spot above the All Buddha Gods.
