

## **The Growth 449**

Chapter 449 - 35: Four-Faced Golden Buddha

"If this is fate, then I refuse to accept it."

The Supreme ruler of the Indian Gods and the God of Creation, one of the Trinity—Brahma murmured thus.

In the next second, Brahma chose to take action against Li Hao, or rather, counterattack.

Swoosh! Swoosh! Swoosh!

Tens of thousands of Dharma Seals formed a massive golden barrier, enveloping the entire Super Space-Time Battlefield.

Fortunately, Brahma's actions were swift, and Li Hao's reaction was equally quick.

Suddenly, the twisted Dragon King transformed into countless forms, splitting into numerous fierce Evil Dragons that lunged at Brahma.

At the same time, the five Apostles under Li Hao also exerted their strength, forcibly pulling the shattered [Brahma's Dream] into this Super Space-Time Battlefield.

Through the fragments of [Brahma's Dream], a glimpse of another space-time war could faintly be seen.

Far more Hindu Gods than those on the Super Space-Time Battlefield howled and roared, engaging in a life-or-death struggle with the Gods invading [Brahma's Dream].

And behind those invading Gods, a shadow that seemed to want to devour the world continued to expand and spread.

To prevent that shadow from completely consuming [Brahma's Dream], Shiva and Vishnu of the Trinity unhesitatingly charged into the shadow, fighting fiercely with it.

At this moment, the vast shadow suddenly transformed into countless spinning wheels, slicing the already broken [Brahma's Dream] into innumerable fragments once again.

Moreover, the shadowy form of Gu A also seemed to become aware of the battle occurring on the Super Space-Time Battlefield.

Hence, some shadows followed the fragments of [Brahma's Dream], invading this Super Space-Time Battlefield to try to discern what was truly happening.

Although at the current stage, Gu A had not officially become the sole Celestial Father of all heavens.

Yet the immense oppressive aura still caused the three Supreme Gods on the Super Space-Time Battlefield to feel uneasy.

Fortunately, Brahma was well-prepared for this; that massive golden barrier was Brahma's strongest method of slicing the battlefield, a way to turn the entire Super Space-Time Battlefield into Brahma's own domain.

"Eh?"

Just when Li Hao was about to continue fighting fiercely with Brahma.

He suddenly seemed to realize something and let out a puzzled exclamation.

Because Li Hao found that his process of attacking Brahma was surprisingly smooth and unexpectedly easy.

It was as if... Brahma's target for attack was not him at all?

As this thought flashed through his mind, Li Hao suddenly had an epiphany, and the countless Evil Dragons recombined into a twisted Dragon King form once again.

"Is your target Poxun!?"

As soon as these words were spoken, Li Hao could clearly see that a familiar face had grown behind Poxun's head.

"When... did this happen!?"

As someone assimilated by Brahma, Poxun obviously understood better than Li Hao what had happened to him.

The Hindu Gods excel in the Incarnation Technique, especially in turning other lives and Gods into their incarnations.

As one of the supreme Trinity among the Indian Gods, Brahma was even more adept at this Incarnation Technique than the ordinary Hindu Gods.

The question now is, when did Brahma plant the seed of the Incarnation Technique in Poxun?

"The moment you exposed your identity."

The voice remained calm, the tone unflustered...

It was during this moment of Brahma speaking that suddenly two more faces emerged on either side of Poxun's head.

Now Poxun had become a four-faced, six-armed form, just one step away from truly becoming Brahma's incarnation.

"In the billions of years to come, you are the Supreme God, an existence on par with me."

"To make such a you become my incarnation is very difficult; almost impossible in my current state."

"But the you of billions of years ago was different; at that time, you were just a Little God under my command."

"I only interfere with you from that time..."

"Then as the timeline coalesces, the future you will naturally become my incarnation."

With such ease, Brahma explained his actions, and this certain attitude of Brahma proved his success indirectly.

If only Poxun's character were a bit more reserved...

If only Poxun didn't intend to seize this last chance recklessly...

If only Poxun hadn't previously been obsessed and crazed enough to break into this Super Space-Time Battlefield...

Brahma's escape plan would have been ineffective, ultimately forcing him to accept his fated demise under Gu A's attack.

[Wait, could this really just be a coincidence?]

Having witnessed it all, Li Hao suddenly shook his head, revealing an enigmatic expression.

Retrospectively analyzing everything, it became apparent that Brahma's initial target was actually Poxun.

That invasion of the Mountain and Sea Realm and the battle with Li Hao.

Were clearly just methods for Brahma to draw Poxun out, with Poxun being Brahma's real target for possession from the start.

Even Poxun's impulsiveness and obstinacy were likely part of the measures Brahma had set up billions of years ago.

At this moment, when the past and future converged at one point, Brahma could truly resurrect using Poxun's body and once again become the Supreme God.

[So, did Brahma foresee the current situation billions of years ago?]

[Or did Brahma intervene in the past after understanding Poxun's identity at the current moment?]

Even Li Hao, who wielded the "Power of Space-Time" as the God of Space-Time himself, found it difficult to distinguish the cause, effect, and paradoxes.

The only thing Li Hao could ascertain was that he seemed to have become a pawn for Brahma to escape his fated extinction?

"Knowing that his 'past' would inevitably end in death, he chose to reborn in the 'future', thus indirectly escaping the fate of extinction."

"Sure enough, not a single one who can become a Supreme God is simple."

At this point, Li Hao paused slightly before continuing his speech.

"However, do you think I will just watch silently?"

As if to prove his point, when Li Hao uttered these words, he once again launched an attack.

But this time, Li Hao wasn't targeting Brahma or Poxun, instead, he attacked the golden barrier separating the Super Space-Time Battlefield from the past and the future.

Roar!

In a flash, a singularity where space-time compressed to the extreme appeared out of thin air.

The golden barrier didn't last a second.

It was swallowed by the power of the singularity, exposing Brahma's whereabouts to Gu A, who existed in the past.

In front of this materialized singularity of space-time power, the already chaotic space-time was forced to return to its original place.

"You..."

Watching helplessly as the black shadow gradually devoured the Super Space-Time Battlefield.

Brahma's true form couldn't complete the full assimilation of Poxun, finding himself returning to a past rightfully his own, starting a confrontation with the ancient Gu A approaching its zenith.

As for Li Hao and his five Apostles?

They had already left the Super Space-Time Battlefield at the first opportunity, taking with them the Mountain and Sea Realm from the parallel space-time.

Ultimately, the only one remaining on the Super Space-Time Battlefield was the Demon God Poxun.

No, continuing to refer to him as Demon God Poxun might already be incorrect.

Because at this moment, Poxun had transformed into a four-faced, six-armed form and would continue to exist in this form for a considerable time into the future.

In the mythological system of the Buddhist Family, Poxun's form was known as the "Four Faced Golden Buddha."

"So, am I Poxun now... or Brahma?"
