

The Growth 586

Chapter 586 - 56: The Heavenly Dao Is Dead, Long Live the Human Path!

[Did you really come for me?]

Witnessing the descent of Wanbian Demon Monarch An Ge, Li Hao finally confirmed his previous conjecture.

Although the Wanbian Demon Monarch descended in "Saint Form" carries the risk of falling, in terms of strength, it has undoubtedly touched the pinnacle of ordinary gods.

Even within the entire Mountain and Sea Gods system, only the true Main Gods can stably defeat this Chaos Evil God.

So the question arises, does Li Hao really want to break the tacit understanding between civilizations and let the Mountain and Sea Gods appear in the Celestial Human Realm now?

The ongoing war in the Celestial Human Realm, after all, is just a transaction between the Mountain and Sea Civilization and the Celestial Human Civilization.

Once the Mountain and Sea Gods intervene in this war, the meaning will be different.

Whether it's the ownership of the Celestial Human Realm or those world rulers on the other side of the space-time rift, they will re-examine the relationship between the Celestial Human Civilization and the Mountain and Sea Realm.

More importantly, the Third Ancestor of Chaos, who is testing with Wanbian Demon Monarch as a pawn, will truly get a glimpse of Li Hao's secrets.

[Quite bold...]

Without a moment of hesitation, Li Hao had already made his decision.

If that Third Ancestor of Chaos is coming for him, then let him know what it means to kick a steel plate.

Moreover, Li Hao is indeed very curious about that chaotic world.

[Hmm?]

Just as Li Hao was pondering whom to send into action, he suddenly showed a look of surprise and suspicion.

In the Celestial Human Realm, which was originally nearing the End of the Dharma, a powerful will is being nurtured.

That is the will of all beings!

That is the will of the world!

Moreover, it is the supreme will that surpasses all gods!

Although this will is still in its nascent state, the essence it exhibits immediately attracted the attention of all those who could perceive its presence.

Especially certain ancient Celestial Beings who had witnessed the Celestial Human Realm's most glorious era showed expressions of astonishment.

"Heavenly Dao?"

The Empress, who always maintained her composure, couldn't help but exclaim in surprise, her eyes widening abruptly.

"How is this possible? How can this era still nurture the will of Heavenly Dao?"

Clenching her fists tightly, the Empress's face was distorted with fright.

"In this world, nothing is impossible."

Silently and without any sign, the Enlightener, Yue Ying, accompanied by her small follower Liu Xiang, appeared in front of the Empress in the Celestial Human Realm.

Compared with the calm Yue Ying, Liu Xiang appeared much more flustered.

Because by practicing the Yanqin Three Generations Divination Technique, he perceived the terror of that world will more clearly than the Empress.

"That is not the Heavenly Dao!"

"That is... the Human Path..."

With a struggle, Liu Xiang sensed the dense hostility towards cultivators and Celestial Beings from that world will.

If it weren't for the presence of invaders from the Chaos World, Liu Xiang had no doubt that the world will would trigger the rules of the Celestial Tribulation to hunt down all cultivators within the Celestial Human Realm.

"Human Path?"

The Empress, her mind immediately flashing to the Taiping Taoist Soldiers composed of mortals, fell into a brief silence and self-doubt.

Fortunately, the Empress was indeed worthy of being called the Empress.

After a short silence, she quickly focused her attention on Yue Ying and Liu Xiang.

The Empress didn't know who Liu Xiang was.

But Yue Ying's identity was public knowledge, known to all Celestial Beings who joined the Godslayer Civilization.

The Empress never expected to see Yue Ying appear in human form under such circumstances.

It was known that ever since acquiring the title of the "Akasha Records," she became a supreme existence capable of mastering destiny, rarely showing herself.

She didn't even appear once during the "Celestial Return" incident she personally orchestrated.

"Why did you do this?"

When she asked this question, the Empress's voice was filled with a sense of despair.

It was obvious without needing to think that the birth of the Human Path will was inevitably related to the Enlightener before her.

"Are we just bait?"

"Bait that you can discard at any time?"

Upon hearing this, Yue Ying's face immediately bore a half-smile.

"Bait?"

"No, you do not have such high status."

"In my eyes, at most you are just the soil used to cultivate the 'Human Path'."

"The true Celestial Human Civilization has perished since the death of the 'Heavenly Dao'."

"You are nothing but residues and ants wearing the 'Celestial Human' name..."

"Without the help of 'Heavenly Dao,' you cannot even break through into the Taiyi Realm, let alone compete with the Supreme God in the Daluo Realm!"

Pausing slightly in her speech, Yue Ying suddenly changed the subject.

"Of course, if it were just a matter of ability, it wouldn't be a major issue."

"But the problem is, you don't even have the courage to resist the gods anymore, so what qualification do you have to be called 'Celestial Beings'?"

"Celestial Beings are civilizations born to resist the gods, not a group of selfish people only thinking of surviving!"

After hearing Yue Ying's words, before the Empress could express or rebut, Liu Xiang couldn't help but cover his ears.

Because he realized that these were not things a mere mortal should know.

However, in addition to covering his ears, Liu Xiang couldn't control his curiosity, secretly opening a slit to listen intently, having a sense of covering one's ears while stealing a bell.

"I see..."

"Whether searching for Heavenly Father's Treasure or rebuilding Celestial Human Civilization, they were just your rhetoric to deceive us?"

"No, you didn't deceive us, but your focus was never on us."

Silently looking at Yue Ying opposite, the Empress seemed to understand and let out a helpless sigh.

"Those mortals who are resisting the Celestial Beings are the fundamental base of the 'Celestial Human Civilization' you want to rebuild."

"They have courage, they have conviction, and now they even have a Human Path will unique to them..."

There was no need for the Empress to continue speaking.

Even the most clueless Liu Xiang understood the implication of her words.

Based on the Taiping Taoist Soldiers, Yue Ying... or the Enlightener Akasha Records would redirect the development of the Celestial Human Realm to create a new civilization.

This new civilization would once again possess the rebellious spirit of the ancient Celestial Beings and be a sub-civilization naturally belonging to the Godslayer faction.

"Only a civilization possessing the will of Heavenly Dao is qualified to be called Celestial Human Civilization."

"This world, this era has been without Celestial Human Civilization for too long..."

"The Celestial Human Civilization will be reborn once more, only this time it will be renamed the 'Taiping Civilization'!"
