

The Growth 613

Chapter 613 23: Demigod Wizard

When the stars transformed into a meteorite and fiercely crashed towards Sky City.

The Eagle-headed Winged People had already quietly slipped into the core of the [Super Large-Imaginary Number Core] using their own authority.

Due to the chaotic nature of the battlefield, and the fact that the Eagle-headed Winged People did not want to alarm those invaders...

So, other than a few of the Mountain and Sea People, no one really noticed her actions.

Of course, it's also possible that they noticed but chose to acknowledge it.

After all, the naturally vertical-eyed Eagle-headed Winged People are considered rare Mysterious Creatures even among the renowned groups of the Mountain and Sea Civilization.

Thanks to the third Celestial Eye on her forehead, the Eagle-headed Winged People have been able to notice information that normal people can't observe since childhood.

Due to this, before officially joining Sky City, the Eagle-headed Winged People had always been a vanguard in a secret operation team.

Due to the confidentiality level of her background within the Mountain and Sea Civilization's higher-ups, even Kangtao could not fully know the experiences of the Eagle-headed Winged People.

The only thing that can be confirmed is that the name registered for the Eagle-headed Winged People is just an alias.

Even the name "Feng Xi" might not be her real name, which remains uncertain for now.

"I knew it... The civilization capable of creating a God is definitely not that easy to deceive."

When Feng Xi opened the third eye on her forehead and glanced at the void where the energy surged not far away, a familiar figure slowly walked out from the center of the energy.

It was a Cat-headed Wizard, a Cat-headed Wizard that existed in pure energy form.

Compared to its other alternate-space-time identical bodies, this Cat-headed Wizard, who could even walk in the void, was a genuine Demigod.

In fact, it was the original Cat-headed Wizard.

Not to mention those alternate-space-time identical bodies, even the initial Armored Apostle was just a summoned creature brought forth by this Cat-headed Wizard.

The current Cat-headed Wizard was the true Apostle of the God of Mechanical and Steel Trains—Maitot.

"No, you've actually fooled them."

Shaking her head gently, Feng Xi calmly corrected.

"First, you threw out an Armored Apostle to attract attention, then you had those alternate-space-time identical bodies start disputes..."

"However, even Kangtao didn't realize that your true form had always been hidden here, awaiting the birth of that New God."

Upon hearing Feng Xi's statement, the Cat-headed Wizard couldn't help but show a peculiar feline curiosity.

"What about you? How did you detect me?"

Hiding its true form within the energy storm in the void, the Cat-headed Wizard was confident that even true Gods couldn't discover its presence.

"This has something to do with my own experiences, it can only be considered an accidental coincidence."

Gently touching the Celestial Eye on her forehead, Feng Xi did not provide much explanation.

She knew full well that as an outsider, the Cat-headed Wizard couldn't understand her journey, and she had no interest in exposing her inner thoughts to outsiders.

"Time and fate!"

Sighing softly, the Cat-headed Wizard didn't pursue further.

Having done all possible preparations, instances of accidental and unpredictable circumstances can only be attributed to the whims of fate.

"In our civilization, there is no belief in fate..."

"We believe that man triumphs over heaven! We believe that my fate is mine to decide!"

With that said, Feng Xi suddenly fluttered her wings, and countless feathers transformed into a rain of arrows shooting out.

Swoosh! Swoosh! Swoosh!

Under the barrage of the arrow rain, the Cat-headed Wizard's form instantly turned into countless afterimages.

Amidst those afterimages, one by one, alternate-space-time identical bodies slowly walked out, then charged towards the soaring Feng Xi.

However, having already witnessed the Cat-headed Wizard's ability to summon alternate-space-time identical bodies, how could Feng Xi be unprepared?

"You think you're the only one who can fight en masse!"

In the astonished eyes of the Cat-headed Wizards, those missed feathers, after a brief pause, transformed into numerous Feng Xi clones attacking them.

—Divine Transformation Technique·Clone Technique!

Although lacking in wisdom, those clones transformed from feathers perfectly inherited Feng Xi's physical attributes.

So, after a brief moment of amazement, those clones fought to a standstill with the Cat-headed Wizard's alternate-space-time identical bodies.

Meanwhile, Feng Xi's true form took advantage of the opportunity to transform into Escape Light, aiming directly at the original Cat-headed Wizard.

Boom!

In an instant, a violent collision sound resonated throughout the entire Imaginary Number Core.

The Cat-headed Wizard, holding a Magic Wand, displayed formidable close-combat ability contrary to its profession and identity at that moment.

The huge magic wand in its hand was as fierce as a warhammer, as agile as a dagger, forcing Feng Xi to keep a distance.

"Freeze!"

In the blink of an eye, Feng Xi shouted loudly.

The instinctually defensive Cat-headed Wizard, sensing danger, was shocked to find its body struggling as if stuck in a quagmire.

—Divine Transformation·Fixed Body Technique!

Taking advantage of this opportunity, Feng Xi reached behind her to draw two feathers, turning them into long swords, targeting the immobilized Cat-headed Wizard.

"Is this the technique of a Qi Refiner?"

Seeing this, the Cat-headed Wizard, having recognized Feng Xi's origin, dared not hesitate, quickly spitting out a black lotus.

That black lotus, growing with the wind, conveniently blocked the path of the two long swords.

Clang!

With a crisp sound of metal clashing, the two long swords in Feng Xi's hands shattered.

The swords transformed by the Transformation Technique could not break through the black lotus's defense, let alone severely damage the true form of the Cat-headed Wizard hiding behind it.

"Since you recognized my technique, what makes you think you blocked my attack?"

Just as the Cat-headed Wizard was about to breathe a sigh of relief, it saw the ethereal Feng Xi pass through the black lotus barrier, aiming directly at its forehead as if nothing was in the way.

—Divine Transformation·Wall Penetrating Technique!

Maximizing the Divine Transformation Technique, Feng Xi merged her fingers to form a Finger Sword, letting the sharp sword aura manifest and shoot from her fingertips.

"Go to hell!"

The voice was deep and calm.

With a light thrust, Feng Xi successfully shattered the Cat-headed Wizard's head.

The opposing pure energy form showed little mystery under Feng Xi's Finger Sword aura.

Pfft!

The sharp sword aura, after piercing through the Cat-headed Wizard's head, also shredded its body to pieces.

Not until the Cat-headed Wizard was completely reduced to an unregenerable mass of energy did Feng Xi stop to glance at the other alternate-space-time identical bodies.

However, the next scene left Feng Xi astonished.

Because those alternate-space-time identical bodies did not disappear following the Cat-headed Wizard's death.

Instead, they turned towards Feng Xi one by one, with a smirk on their lips.
