

The Lord 1031

Chapter 1031: Unifying the Northern Continent

Beside her, a blonde woman quickly blocked in front of her and knelt down to plead for mercy, “Please let my daughter off; do whatever you want to me.”

The blonde woman was extremely beautiful, and her body was quite mature. Her breasts were mesmerizing, and as many people looked at this woman, they could not help but marvel. It was as if she had once been a famous idol.

A trace of a smile appeared on the young man’s face, and he said, “Bring her back as well. Even though she does not have much Phoenix Qi, perhaps His Majesty will like her more. If we’re able to bring women who can please His Majesty, we’ll be rewarded greatly.”

Hearing this, the soldiers all looked delighted, and a few soldiers went up to bring the mother and daughter out. The woman had never thought that not only would she not be able to save her daughter but also be dragged in as well. Seeing the smiles on Great Qin’s soldiers’ faces, she could only kneel on the ground and weep as she pleaded.

The young man walked over and cut them off in English, saying, “We’re going to take you to serve Great Qin’s Majesty. This is good for you so don’t cry.”

Hearing this, the women all let out a sigh of relief, and their grief turned into joy. They were quite willing to serve peak-level figures like him because there were unimaginable benefits. As such, they were willing to give their bodies.

The Northern Continent was now quite empty, with only 20% of its forces left; how could they resist Great Qin? After all, even when they were at the peak of their strength, they could not stop Great Qin.

Great Qin continuously conquered regions, while on the frontlines, the Northern Continent army withdrew as well. Seeing Geoffrey retreat, Ye Cang did not give chase and started to conquer regions on the boundary.

Great Qin had already occupied the region that the Church was in, and Great Qin was a step away from conquering the City Heart. Zhao Fu was waiting here for Geoffrey to return.

The Church could also be called the Protestant Church, and it had split off from the Vatican. Its roots could be traced back to the Renaissance, and the birth of America was also a big reason for the creation of the Protestant Church.

Great Qin now had rough control over the Northern Continent. Because of their alliance in the past, Zhao Fu decided to at least give Geoffrey a chance to surrender. As one of the eight Legatees, Geoffrey was naturally incredibly powerful and would be a great help to Great Qin.

Otherwise, Zhao Fu would have directly taken over the Protestant Church's City and had Ye Cang kill him.

A while later, Geoffrey led his people back to the City. Seeing the scene in front of him, his heart plummeted, and his face became pale as he looked at Zhao Fu waiting for him. In that instant, he immediately understood Zhao Fu's intentions.

"What's your decision?" Zhao Fu did not beat around the bush and directly asked Geoffrey.

Geoffrey felt quite angry – the Dark Demon world was invading, yet Great Qin was stabbing them in the back, causing the frontlines to collapse. The Dark Demon people had already entered the human world.

He had personally witnessed the power of the Dark Demon people, and he knew that the human world was facing a terrifying crisis. He could tell that this was not even the Dark Demon world's full strength, while the Northern Continent was already finding it very difficult to defend.

Great Qin had essentially let the Dark Demon people into the human world, and billions of people would be doomed. Even Geoffrey, who had such a good personality, felt incredibly angry.

"Sir, we must never submit to Great Qin. We suffered heavy losses all because of the shameless things Great Qin did!"

"Sir! We mustn't submit. It's better for the Church to be destroyed than to submit to Great Qin!"

“Sir! The light will be with us. Let us use the last of our lives to purify Great Qin’s evil!”

Twenty-four Caucasian women wearing white robes and giving off powerful Light-attribute auras appeared around Geoffrey. These women were all incredibly beautiful and had graceful figures. They were all one in a million beauties.

After they appeared, they immediately started to try to persuade Geoffrey that it was better to die than submit to Great Qin. They also talked about how dark and evil, as well as shameless, Great Qin was.

If they had said this in private, it would not have been a great deal, but they dared to say it in front of Zhao Fu himself. No one had such guts.

Clang, clang, clang...

The sounds of chains rang out, causing Geoffrey’s expression to fall. Before he could react, countless chains shot out from the air towards the women with immense force. Just as the women’s bodies were about to be pierced, Geoffrey cried out, “Wait, don’t kill them!”

Zhao Fu was expressionless as he waved his hand, causing the chains to change their trajectory and bind the women up. Facing Zhao Fu’s terrifying power, they could not resist at all. No matter how they struggled, they could not break free.

“What do you think? We have treated you well already and have even waited for you. Ordinarily, We would have killed you already. This is your last chance,” Zhao Fu said as he looked at Geoffrey with his terrifying eyes.

If Geoffrey did not agree, Zhao Fu would immediately give the order to stamp out the Church and kill everyone.

Geoffrey sighed, “Great Qin’s Legatee, if I submit, will you have the strength to defend against this invasion?”

Zhao Fu inwardly laughed. This invasion had been started by him, so he could naturally do as he wished. There was no need to even defend.

Of course, Zhao Fu would not tell this to him, so he just nodded. “Since We did such a thing, We naturally have the power to defeat the Dark Demon race. There is no need for you to worry.”

Hearing this, Geoffrey was able to relax. He had guessed this already but wanted to make sure.

“Alright, I’ll submit to Great Qin! However, please respect our values – we won’t help Great Qin kill as it pleases, but we will do our best to serve Great Qin.”

The women bound up by chains hurriedly cried out, “Sir, don’t submit to Great Qin!”

“Ahhhh...” Many pained cries sounded out as the chains around them suddenly tightened, making them feel immense pain.

Geoffrey hurriedly said, “Great Qin’s Majesty, I’ve already decided to submit and won’t change my mind.”

A trace of a smile appeared on Zhao Fu’s face as he waved his hand, causing the chains to release the women. Now that Geoffrey had submitted, he could face the other two Continents. Much time had passed, and they had most likely broken through the Void Zones by now.

Geoffrey looked at the sad-looking women and comforted them, saying, “Even though Great Qin is cold and bloodthirsty to outsiders, the inside of Great Qin is not as you think. The residents live happily and lead peaceful lives. The environment there is suitable for spreading our beliefs. Only a Kingdom like Great Qin can unify the human world. We should go with this; it’s better than the Church being destroyed, at least.”

Chapter 1032: Faith

The women still looked quite sorrowful, but they gradually recovered. After all, Geoffrey was their leader, and everything was in his hands. Since he had made this decision, they could only comply and submit as well.

However, they could not accept how bloodthirsty and murderous Great Qin was to outsiders. It was in direct opposition to the light and kindness they worshipped. Now, they could only hope that the inside of Great Qin was better.

However, the words Geoffrey said next caused their faces to pale, “Your Majesty, would you like them to serve you? They were all holy daughters of the Church and were consecrated to God. Now, they should serve the ruler of Great Qin.”

After saying this, Geoffrey could not help but inwardly sigh. Every time Great Qin took over a faction, they would take all of the women, so it was better to give them rather than have them taken by force.

Moreover, it was likely that Great Qin’s Legatee would treat them well and not punish them because of the disrespect they had just shown.

Everyone knew clearly what Great Qin’s Legatee was like as a person. Perhaps other things were slander, but he was definitely a licentious person.

Moreover, Geoffrey understood Great Qin’s philosophy. He understood that the ruler was supreme while all other faiths and ideologies came behind.

Zhao Fu was quite startled; he had never thought that Geoffrey would say such a thing. However, the situation was quite urgent and he did not have time to mind this, so he simply refused, saying, “No need.”

Geoffrey felt quite surprised and asked, “Why is that, Your Majesty? They’re all one in a million, and whether it is their looks, figures, or education, they are incredibly exceptional. They also have divine constitutions.”

The women’s faces were pale, and they looked slightly unwilling as they looked at Zhao Fu. They had not expected that they would have to serve Great Qin’s demon-like Legatee in the future.

Zhao Fu calmly replied, “We understand; we can discuss this matter later. Come with Us to the coastal regions to defend against the people from the two other Continents.”

Geoffrey looked quite confused as he asked, “Your Majesty, shouldn’t you be defending against the Dark Demon race? Why are you defending against humans?”

Zhao Fu gave a mysterious smile and said, “You’ll understand later.”

After saying this, Zhao Fu turned into a ray of light and disappeared over the horizon. Even though Geoffrey did not understand what was going on, he still followed Zhao Fu and headed towards the coastal regions.

The people from the other Continents had broken through the Void Zones by now, and seeing countless people escaping from the Northern Continent, their expressions fell. They understood that the Northern Continent might have been conquered by the Dark Demon race already.

“We were too late.” Everyone cursed to themselves and hated the person who had set up the Void Zones even more. That had doomed the entire human world, and just thinking about the Dark Demon race rampaging through the human world, everyone felt terrified.

They definitely would not be able to keep the Northern Continent now, and even if they headed over, they would not be able to change much.

Now, only Great Qin had the power to change all of this, and they wondered if Great Qin had arrived yet. With Great Qin, the human race still had a trace of hope.

That was what everyone was thinking. However, after asking those who were escaping what was happening, they became incredibly shocked.

It was not that the Dark Demon race that had conquered the Northern Continent but Great Qin, which had taken advantage of the situation to take over the Northern Continent. The frontlines defending against the Dark Demon race had already collapsed, and the Dark Demon race had entered the human race. The Northern Continent was now in chaos, and no one knew what was happening now.

At that moment, everyone understood that the Void Zones had been set up by Great Qin, and they could not help but curse at Great Qin for being shameless.

Great Qin had actually attacked the Northern Continent while the Dark Demon people were invading; could it be that they were not worried about the Dark Demon race? Great Qin was not stupid; they definitely had some way to deal with the Dark Demon race to be able to do such a thing.

In that case, what should they do now? Should they still go to reinforce them? Or should they stab Great Qin in the back and fight to the death with the Dark Demon race?

The various leaders gathered together and hurriedly discussed what to do. Now, they could not go and reinforce Great Qin. Because Great Qin had done such a shameless thing, if they went over, they might be destroyed by Great Qin as well.

However, it would be quite good to stab Great Qin in the back and use the Dark Demon race to heavily wound Great Qin. That way, they would be much safer. The problem was that what if Great Qin could defend against the Dark Demon race?

After some detailed discussions, everyone still decided to go and attack Great Qin. After all, Great Qin had brought a large number of soldiers, so they believed that Great Qin would be able to hold out against the Dark Demon race. As such, this would be a good chance to heavily wound Great Qin.

Moreover, since Great Qin had done this themselves, they were simply letting them have a taste of their own medicine.

In the end, those who had been planning to reinforce the Northern Continent decided to ally together and attack Great Qin from behind.

After seeing this, Tina Pendragon could only shake her head and sigh, and she decided not to participate. She could already guess what was going to happen, and she ordered people to reinforce the defenses against the Western Continent and take in those escaping from the Northern Continent.

Now that Great Qin had taken over the Northern Continent, its strength would once again greatly increase. Great Qin was the only faction that could cause Tina Pendragon to feel fear.

Everyone looked quite excited as they imagined Great Qin and the Dark Demon race fighting while they stabbed Great Qin from behind.

However, when they arrived, they were shocked to find that Great Qin had sent a large number of soldiers, who were waiting for them.

What was going on? Wasn't Great Qin defending against the Dark Demon race? They were letting the Dark Demon people into the human world, but they were not harming Great Qin.

No one understood what was happening, but they all instinctively wanted to run. Now that Great Qin was waiting for them, they would not be able to launch a sneak attack. If they did not run, when Great Qin attacked, they would receive countless casualties.

The clamorous gathering of people instantly scattered in all directions.

Seeing this scene, Zhao Fu grinned but did not chase after them. After all, defending the Northern Continent was the most important thing right now.

Geoffrey still did not know what was going on, and he had been worried this entire time about the Dark Demon race. After fighting with the Dark Demon people, he knew just how powerful they were. The Dark Demon world was a cultivation world; not only were they incredibly strong, but they also had many more tricks at their disposal.

“Your Majesty, are you not going to defend against the Dark Demon race?” Geoffrey could not help but ask.

Zhao Fu turned to look at him and lightly laughed but did not say anything. He took Geoffrey to the boundary of the Northern Continent, where they saw the Dark Demon race withdrawing to their own world. Seeing this, Geoffrey felt incredibly shocked.

Why had the Dark Demon race retreated of its own accord? They had paid a great price to break through the Northern Continent’s defenses, but they were now retreating back to their own world. Was their aim not to invade the human world? But why had they attacked then?

Chapter 1033: Empire

Geoffrey felt that his mind was in a mess, and he could not understand what was going on. Only after a while did he think back to how calm Zhao Fu had been this whole time, not caring about the Dark Demon world’s invasion at all. He could finally take a guess as to what was happening.

Zhao Fu had the ability to go between worlds, so he had definitely made some kind of deal with the Dark Demon race. They had put on a show together, with the Dark Demon people pretending to invade; the rest of them had all been fooled.

When he thought of this, Geoffrey felt his heart take a heavy blow. His worries had been completely been for nought, and he was completely speechless as to Great Qin's methods. In the future, he just wanted to stay within the Church and expand the Church.

Of course, now that the Church had joined Great Qin, Great Qin was in control of everything. Just like the Hundred Schools of Thought, the ideologies that were beneficial would be promoted, and the clashes between them would cause them to continuously improve.

However, at the core, they had to love the nation, or else Great Qin would not allow things that did not benefit it to exist.

A few days later, Great Qin had taken complete control over the Northern Continent and had set up a defensive line. No one could escape from the Northern Continent now; those who were still here either died or submitted to Great Qin. There was no option of neutrality.

Following this, news spread of Great Qin and the Dark Demon world signing a ten year peace treaty. The human world once again welcomed in a time of peace, and the crisis was resolved.

The ordinary people were all quite happy about this because they no longer had to fear the Dark Demon race invading. They were now safe, which made them quite happy. Now that the crisis with the Fish Scale world and Dark Demon world had been resolved, they were no longer at risk of being invaded by the worlds next to them.

Now, the only thing that they had to worry about was that the Eastern Archipelagos would have to face the previous world. However, that was something that would only happen after the Heavenly Domain Boundary completely disappeared.

The two remaining Continents felt quite surprised; they had never thought that Great Qin would be able to resolve the Dark Demon world's invasion so easily. They wondered just what kind of deal they had struck for the Dark Demon world to have invaded and then retreated so easily.

Some people suspected that there was a conspiracy afoot, saying that there was some kind of deal between Great Qin and the Dark Demon race. They claimed that the Heavenly Domain Boundary

had been opened up by Great Qin, allowing the Dark Demon race to attack and for Great Qin to take over the Northern Continent.

Otherwise, there would be no way to explain this – how could Great Qin have dealt with the Dark Demon race so easily? The mastermind behind all of this must have been Great Qin. Now that Great Qin had taken over the Northern Continent, it was evident how great its ambition was. Many people demanded to take back the Northern Continent.

Great Qin had not fully cleared out the Northern Continent yet, so people still had a chance. Otherwise, after Great Qin completely stabilized the Northern Continent, they would not have any chances anymore. When that time came, Great Qin would have conquered three Continents, one of them being the Midland Continent, which was the largest. Those three Continents' area vastly surpassed what they had, and when the time came, Great Qin's strength would be something that the remaining two Continents could not defend against.

As such, the two other Continents launched a few attacks to probe out the Northern Continent. However, Zhao Fu did not seem to mind, and he used the Northern Continent's existing defenses, which had originally been prepared for Great Qin. All of the attackers were blocked outside while Great Qin quickly digested the Northern Continent.

Seeing that they could not accomplish anything, those people naturally left. However, they also launched probing attacks towards the Midland Continent and the Southern Continent. However, they suffered great losses and could only retreat in the end.

Now, their expressions were all quite unsightly. The human world no longer had any strength to defend against Great Qin. Great Qin already had the strength to unify an entire world, and the remaining two Continents did not have the power to change this. They could only struggle as they barely held on.

The Dark Demon world was quite surprised about this as well. They had been waiting for a big battle between both sides so that they could reap the benefits at the end, but they had never expected them to stop fighting and sign a treaty.

They had waited for quite a long time, and this was not what they wanted to see. They had no idea what that mysterious organisation was thinking; how could they have signed a peace treaty so easily? Moreover, it was one that lasted for ten years; this made them feel quite disappointed.

However, some people started to wonder if Great Qin was so incredibly terrifying to the point that even the mysterious organisation felt a bit fearful. Otherwise, why would they compromise so easily and sign a ten year peace treaty?

They did not know about the situation in the human world, and they had no way of going there for now. Their interest in the human world did not decrease. As such, they decided to spend a few spies to see if they could obtain any information about the human world.

It was Zhao Fu who had spread information about the treaty, and of course, it was fake. Zhao Fu had just casually made up an excuse for how the crisis had been resolved. He had never thought that everyone else would think the way they were.

He absolutely could not reveal the connection between the Night Dynasty and Great Qin right now because the consequences would be dire. The Dark Demon world's remaining three Continents would no longer fear the mysterious organization and would directly attack.

On the other hand, the human world would also take this opportunity to attack Great Qin. If Great Qin was attacked by both of these sides, especially the Dark Demon world, Zhao Fu would feel quite worried.

Luckily he had signed a Contract with the Fish Scale world. Otherwise, if the Dark Demon world attacked, the human world and Fish Scale world would also attack. With Great Qin's current condition, it would be quite difficult to defend against the three sides.

Before he unified the human world, he could not reveal the connection between Great Qin and the Night Dynasty. Now that they had just devoured an entire Continent, the first thing to do was to keep a low-profile to avoid any unnecessary trouble and quickly develop.

Now, it was time for something exciting, which was calculating their gains. Great Qin had conquered the entire Northern Continent and barely suffered any losses.

The Night Dynasty had suffered some losses, as they had directly fought against the Northern Continent's forces. Because the Northern Continent had prepared many things to counter Demons, it was impossible for the Night Dynasty not to suffer some losses.

However, Zhao Fu had given the Night Dynasty a large amount of money and other resources to pacify them. After all, no one would be satisfied after having sustained so many losses for nothing, and there would be suspicions.

Great Qin had obtained 20,000 Cities and eight billion people in total. After devouring such a large piece of meat, Great Qin was incredibly full.

If they could digest the Northern Continent, Great Qin's strength would rise to a whole new level. There would only be two Continents left, and Great Qin would be able to unify the human world. The entire world would belong to Great Qin, and Zhao Fu would be the human world's only 'Emperor.'

When that time came, Great Qin would become a Level 1 Dukedom. With that sort of strength, it would have no problem protecting itself within the Ancient Stem Domain and would not have to worry about the threats outside of the Legacy Lands.

Of course, the prerequisite was that they did not offend anyone who could not be offend, such as higher-beings, Royal Kingdoms, and Empires. Great Qin could not afford to offend such powerful existences.

Chapter 1034: Golden Sun

Zhao Fu did not plan to bring back all of these people and Cities to Great Qin, and he instead kept them at the Northern Continent. On one hand, they could defend and manage the Northern Continent, and on the other hand, Great Qin would be able to quickly send reinforcements to the Dark Demon world's Southern Continent if necessary.

After dealing with the Northern Continent, Great Qin once again sank into a time of peace, and the world became calm again. Now, as long as Great Qin did not make any trouble, the world would continue on like this.

Zhao Fu returned to Great Qin, and Li Si told Zhao Fu that it was time to confer titles on more Concubines. They had brought back 18,000 women with Phoenix Qi from the Northern Continent, and they were from all sorts of races. The Northern Continent had been colonized quite early on, and there were not many indigenous people remaining.

In the recent centuries, all sorts of people had moved there, making it quite prosperous. The Heaven Awaken World and inherited this trait, so people of all sorts of races were spawned there.

Zhao Fu had never expected them to bring back so many women, and he was quite shocked at this figure. He asked, “Do all of those women really have Phoenix Qi?”

Li Si gave a mysterious smile before replying, “Don’t worry, Your Majesty. They all have Phoenix Qi. The Northern Continent is where Fate has been gathering in recent times, and its geography and culture are quite special, which is why there are so many people.

“Most of the women within the harem are of Asian descent. However, Your Majesty is going to be the ruler of the world, so Your Majesty naturally cannot only have Asian women in the harem. Otherwise, the people will think that Your Majesty despises westerners and is biased towards Asians, resulting in conflict among the people.

“As such, this subordinate ordered for all women with Phoenix Qi to be brought back. There are all sorts of them, and they come from all walks of life. They can fulfil any of Your Majesty’s desires. This subordinate has also been researching into modern culture and have prepared some clothes as well as...”

Before Li Si could finish, Zhao Fu cut him off because he was simply doing too much, making all sorts of preparations. Zhao Fu felt quite embarrassed, and he felt that he was not that licentious.

Li Si smiled as he replied, “Your Majesty is not licentious but romantic. As an Emperor, particularly of an entire world, it is only natural to be like this. This subordinate feels that Your Majesty has held back too much and does not have enough Concubines.”

After hearing this, Zhao Fu somewhat wanted to hit Li Si. However, given how loyal and dedicated Li Si was, he went against it.

“Write the Imperial Edicts for Us; We will not be going and will leave you in charge of this. In the future, there’s no need to bring women with not much Phoenix Qi back to Great Qin. Just let them go,” Zhao Fu said.

Li Si felt quite startled and had never expected Zhao Fu to say this. He thought about it before saying, “Your Majesty, Great Qin needs Phoenix Qi, and Phoenix Qi can give Great Qin various benefits. It can cause Great Qin’s Fate to grow and become more refined.

“Even though many of them cannot provide much Phoenix Qi, gathered together, it is still quite a lot. Moreover, for those women to join Great Qin’s harem, it is their fortune. Great Qin can give them various benefits, and most of them came voluntarily.

“To be able to enter Great Qin’s harem and serve Your Majesty is something that countless women can only dream of. Ordinary women do not have any Phoenix Qi, so they have no hope of entering Great Qin’s harem.”

Zhao Fu did not know how to reply, so he could only say, “We understand, but there are simply too many of them. If it continues like this, Our harem will have too many people.”

Seeing that Zhao Fu had made up his mind, Li Si did not keep going. In actuality, he wanted to make the harem many times bigger, but since the Emperor did not want to do this, he naturally did not keep on pushing in order to not enrage him.

Li Si nodded, showing that he understood, and he smiled as he handed over Imperial Edicts. Zhao Fu took out the Great Qin Seal and stamped them, causing them to receive the recognition of Great Qin’s Fate.

Following this, Li Si took the Imperial Edicts and left, while Zhao Fu remained within the hall and read through various memorials to understand what was happening in different places.

The human world was dozens of times bigger than in the real world, and even though Great Qin had not yet unified the entire world, it occupied three Continents. This was already many times bigger than the original earth, and there were millions of memorials submitted every day.

It was impossible for Zhao Fu to read through all of them, so all of the memorials actually delivered to Zhao Fu were about important matters while the less important ones were handled by Ministers.

Boom!

Suddenly, an explosion sounded out as an enormous pillar of light shot up into the sky, smashing into it. An aura spread out from the top of the pillar, forming a golden layer of clouds, and the entire world seemed to be dyed gold.

“Skreeee!!” A massive Phoenix’s cry sounded out as the Emperor Phoenix Statue turned into a golden phoenix and flew in the sky, elegantly circling around the pillar a few times and giving off a golden light. It looked incredibly beautiful as it entered the top of the pillar.

Boom!

Another explosion rang out as a massive aura spread out from the sky. Boundless golden light pierced through the clouds, covering all of Great Qin's territory, and the heavens and earth seemed to tremble.

Countless black traces of Fate floated out as some of it dissipated, but the remainder became even purer and contained a trace of gold.

Because Great Qin had only just conquered the Northern Continent, the Fate from there was not very stable and roiled like a violent ocean. However, as the golden light shined on it, the ocean of Fate gradually calmed down.

In the Northern Continent, the unrest and terror of Great Qin's new residents gradually calmed under the effects of the golden light.

As the golden light shined on all of Great Qin's residents, everyone felt a feeling of warmth from within their bodies, making them feel quite comfortable. Some sicknesses and pains slowly healed, and everyone felt their strength increase.

These abnormal signs caused changes in the heavens and earth, and the people in the other Continents saw a golden sun rise up from the Midland Continent, giving off a brilliant golden light.

The women who had been made Concubines were covered with a golden glow, and a powerful energy seemed to enter their bodies, causing them to gradually go through changes. Their skin became whiter and softer, and they began to look younger and filled with life.

Zhao Fu looked at the golden phoenix in the sky, which was now 6,000 or so meters wide. It gave off a piercing golden light, making it look like a sun.

At the same time, Zhao Fu felt a massive amount of power flow into his body. The phoenix crystal within his body absorbed that power and continuously grew larger. Zhao Fu also felt his body go through changes; his constitution, strength, and mind were all enhanced.

Within his body, the golden dragon laughed as it said, "Congratulations, your Emperor Phoenix Statue can be counted as half a Clan Armament now. Because it is quite special, it will be even more powerful than ordinary Clan Armaments."

Hearing this, Zhao Fu lightly laughed and realized that Li Si had just gone and conferred titles on all of the women, resulting in these abnormal signs.

After hearing the golden dragon's explanation and seeing the Emperor Phoenix Statue's evolution, Zhao Fu naturally felt quite happy.

Chapter 1035: Shenwu City

Following this, the enormous golden phoenix danced in the sky for a little while before transforming back into the Emperor Phoenix Statue and landing on the Heaven Prayer Platform.

The changes in Zhao Fu's body finally finished, and the phoenix crystal within his body was now as big as a fist. Zhao Fu could sense that this phoenix crystal was going to give birth to something because there already seemed to be some kind of consciousness within it.

Apart from this, Zhao Fu felt that he had become younger and more powerful, and he also felt that his lifespan had increased. These benefits were all quite good.

Afterwards, Zhao Fu heard that the women who had been made Concubines went through changes in their bodies, increasing their lifespans. Adding on the effects of pacifying the Northern Continent, the Emperor Phoenix Statue's powerful expects completely exceeded anything Zhao Fu could imagine.

Zhao Fu felt that the Emperor Phoenix Statue's potential was not limited to just this; it seemed that he had to greatly invest in it in the future. Its power in the future definitely would not disappoint Zhao Fu.

After coming outside, Li Si had already finished conferring titles, and seeing Zhao Fu come out, he smiled and cupped his hands, saying, "Congratulations, Your Majesty!"

Zhao Fu gave a trace of a smile and nodded before looking at those women. Some of those women were quite daring, looking at him with alluring gazes and standing in seductive poses.

Their country had always been quite unconstrained in sexuality, so it was understandable.

Zhao Fu had people settle them in and did not do anything to them. He then returned to the hall and continued to read through documents.

Time passed like that for half a month, and because there was nothing to do, Zhao Fu continued to read through documents in the hall. He then dedicated a lot of time to internal affairs.

“Your Majesty, are you not bored of staying in the palace all day?” Li Muqing smiled as she brought some more documents.

Zhao Fu looked up at her and said, “There’s nothing to do right now and it is peaceful everywhere, so I can only read documents.”

Li Muqing lightly smiled as she said, “In that case, why doesn’t Your Majesty mingle with the ordinary people incognito and have a look at the Kingdom you’ve created? That way, you can see what the Great Qin Kingdom is like for yourself and understand Great Qin’s people. It’s much better than just staying here and reading documents.”

“Mingle incognito?” Zhao Fu could not help but lightly laugh. In the television shows he had watched, people seemed to enjoy going about incognito, and it often resulted in some amusing situations.

“Not a bad idea.” Zhao Fu thought about it and felt that what Li Muqing had said was correct. Personally going out to have a look for himself was better than hearing it from others. He could see Great Qin’s situation for himself and would be able to see what could be improved.

Following this, Zhao Fu disguised himself and put on some ordinary clothes. In actuality, Zhao Fu did not need to disguise himself too much because not many of Great Qin’s billions of people had actually seen him before.

Zhao Fu called Ge Nia as well, and the three of them left Great Qin’s Palace together. On the way, Zhao Fu looked at Li Muqing and asked, “Where are we going? Since you brought Us out, you must have a destination in mind.”

Li Muqing smiled as she nodded, saying, “Your Majesty, I wanted to bring you to see the sights outside of the capital, the second most prosperous place in Great Qin.”

Great Qin was situated in the northern side of the Midland Continent, and the Royal City was the capital of the Kingdom, so it was naturally the most prosperous place within Great Qin. All cultures, ideologies, and major economic enterprises were gathered there.

The second most prosperous place was the central area of the Midland Continent. There were countless Sects and Schools here, and the spirit qi was incredibly dense. It had originally belonged to the Xia Dynasty, and it was now Great Qin's territory.

The Sects and Schools there had not been relocated, so it was still quite a prosperous area, though not as prosperous as Great Qin's Royal City.

The three of them came to the central region and entered a City called Shenwu City. This City was a Level 5 Great City and was to the south of the central area. It was a relatively big City within the central area.

After coming here, Zhao Fu saw many people walking on the streets. There were many stalls along the streets, and the sound of sellers and people talking continuously could be heard, creating a lively scene.

Zhao Fu naturally felt quite curious about the empire he had created. Normally, Zhao Fu would not have cared much about these things because keeping the Kingdom stable and peaceful was enough. As such, he had never come out to see what Great Qin was like.

Now that Great Qin's territory was so vast, Zhao Fu had not been to over 90% of it. Civil Officials were managing the regions, and Zhao Fu simply awaited results from the palace.

Zhao Fu held great interest towards this first excursion, and he hoped to see things that he could not hear about from documents.

After walking for a bit, Zhao Fu smelled something delicious and turned to look. It was a peddler selling kebab skewers, and the spice covered meat gave off a delicious aroma, making people want to take a bite.

Li Muqing smiled as she said, "Sir, I'll buy you one!"

Zhao Fu nodded and did not refuse – he indeed wanted to try a kebab skewer. However, he was quite surprised at the changes Li Muqing had gone through. Before, she seemed like a cold, scholarly woman. However, after being given an official position, she had become much warmer.

On the other hand, Ge Nia was like a block of wood, warily looking around in case anything unexpected happened.

“Sir, let me feed you!” Li Muqing bought a few kebab skewers. Because Zhao Fu was travelling incognito, she could not call him ‘Your Majesty,’ so she instead addressed him as ‘Sir.’ She first blew a kebab skewer before taking a piece of meat off and lightly bringing it to Zhao Fu’s lips.

Zhao Fu did not pay much mind to this, because within the palace, according to etiquette, there would be people helping him eat and dress.

However, at that moment, a chubby child also holding a kebab skewer pointed at Zhao Fu and loudly laughed, saying, “He’s already an adult but he still needs people to feed him! Doesn’t he feel embarrassed!”

Hearing this, Zhao Fu felt quite awkward.

Beside the child, a middle-aged man smacked the child’s head and gave an apologetic smile, saying, “I’m sorry. He’s still young and rude.”

The man could tell that Zhao Fu’s bearings were quite extraordinary, and anyone who had a bodyguard and a female attendant definitely wouldn’t be an ordinary person. At the very least, he was most likely from a noble family, and he could not afford to offend such a person.

Zhao Fu smiled and shook his head, indicating that he did not take offense.

The middle-aged man smiled and inwardly let out a sigh of relief before saying, “I knew Sir would be an educated and well-mannered person. Great Qin is truly becoming better and better.”

Zhao Fu felt quite startled and asked, “Why do you say this?”

The man smiled as he replied, “Now that Great Qin is encouraging the development of academies, most people are becoming gentler and more cultured. Moreover, Great Qin’s laws also protect

commoners like us. If it was during those chaotic times from before, you might have lost your life from just a single sentence.

“All of this was because of Great Qin’s Majesty; with his matchless spirit and incomparable power, he created this prosperous and peaceful Kingdom to allow commoners like us to live good lives.”

Chapter 1036: Tiger Cow

“In the future, I want my son to also go to an academy to study so he too can be educated. Maybe he’ll be able to become a Civil Official and serve Great Qin.”

The boy felt quite dissatisfied after being smacked on the head, and he pouted as he ate his kebab skewer and said angrily, “Dad, I don’t want to be a Civil Official! I want to be a General! I want to be like Commander Bai Qi and help His Majesty conquer more land. I want to create a bigger empire for His Majesty!”

The man smiled, ruffled the boy’s hair, and said, “That’s fine too. As long as you’re serving His Majesty as an official, dad will support you no matter what you do.”

The little boy felt quite pleased and looked up before saying, “Of course! The fortune teller said that my fate star is the Army Destroyer Star. In the future, I’ll definitely become a general for Great Qin. When His Majesty sees me, he’ll definitely be very happy and might even take me as an adopted son!”

The middle-aged man could not help but laugh and say, “First, don’t take that fortune teller too seriously; second, His Majesty is surrounded by talents. Even if you become a General, His Majesty won’t be too impressed by you unless you perform extraordinarily.

“Also, you want to be His Majesty’s adopted son? If you can even meet His Majesty, that would be incredibly lucky of you.”

The boy puffed out his cheeks and said angrily, “Hmph! Just you wait and see! In the future, His Majesty will definitely make me a General, and I’ll make countless contributions. I’ll ask His Majesty for treasures and beauties; you just wait until then.”

The man loudly laughed, saying, “Alright, alright, I’ll be waiting then!”

Zhao Fu stood there, looking at the father and son, feeling quite awkward. After all, he was the person they were referring to.

At that moment, the man looked back at Zhao Fu and felt that he was quite a kind person, so he said passionately, “Sir, your kebab skewer is going to get cold. This meat is our specialty, Tiger Cow meat; it won’t taste good once it gets cold.”

Hearing this, Zhao Fu did not have Li Muqing feed him anymore, and he ate the kebab skewer himself. He took a few large bites and found that it was incredibly delicious, and the meat was quite chewy.

Li Muqing stood by the side with a smile on her face; this was why she had brought Zhao Fu out.

Within the palace, Zhao Fu was high and mighty and sat in the seat of power. People took care of everything for him, and if he lived such an isolated life, his attitude to the common people would change, and the distance between them would grow further and further apart.

This was especially so for the matter about Zhao Fu creating a Devil World. He was already quite interested and was thinking about using bloody and cruel methods to create a large number of Devils.

Li Muqing felt that it would be good for Zhao Fu to become closer with the common people. Only then would the commoners be able to live happily, and Great Qin would be a place of joy instead of hell.

“Big sister, you’re so pretty!” the boy laughed, cutting off her thoughts.

Li Muqing looked at the boy and pinched his cute cheeks. After exchanging a few more words, the boy and his father left.

“Sir, let’s keep having a look around! We only just entered Shenwu City; there are definitely more interesting things inside,” Li Muqing said as she smiled.

Hearing this, Zhao Fu nodded. Following this, the three of them saw a place surrounded by a large crowd. Zhao Fu felt quite curious and led them over. It was a martial competition for marriage, which was quite interesting.

However, the person looking for a spouse was not a beautiful young man but a handsome and delicate-looking young man. He was dressed in green clothes and held a bamboo flute. He looked quite good, and there would most likely be women interested in him.

Zhao Fu felt quite surprised that there would be a martial competition for marriage held by a man. As such, he could not help but ask, “Men can hold martial competitions for marriage too?”

Before Li Muqing could reply, a young man wearing robes and holding a foldable fan turned over to look at Zhao Fu with a trace of condescension, saying, “Boy, you’re from the countryside, right? Your thinking is much too old-fashioned.”

A trace of coldness flashed in Ge Nia’s eyes; someone had dared to speak to His Majesty like this. However, because Zhao Fu did not seem to intend to attack, he did not do anything.

Zhao Fu felt quite startled; since when had his thinking become old-fashioned? Didn’t he sit at the center of Great Qin’s politics and authority?

“Ahem, that’s right, I’m from the countryside. There are many things I don’t understand, so please don’t take offense.” Zhao Fu cleared his throat and gave a slight smile as he cupped his hands.

Seeing how courteous Zhao Fu was, the young man’s attitude became better, and he responded in kind, saying, “My name’s Xiao Yuanchu, a scholar from Nanhu Academy.”

“Brother Xiao, do you see this kind of thing often?” Zhao Fu asked.

Xiao Yuanchu lightly nodded and said, “This sort of thing is quite common now. There are all sorts of progressive ideologies, and it can be said that the scene of the Hundred Schools of Thought in Contention has once again unfolded. Our Majesty is the one who has been pushing all of this.

“As long as it does not harm the nation or the people, everyone should maintain objective and rational views towards different cultures and ideologies, and we should not denigrate or disparage them. That’s the law of Great Qin; light offenses warrant an apology, while heavy offences warrant beating with a plank.

“As such, all sorts of ideologies have surfaced. Some people supported feminism and called for equality between men and women, and Our Majesty approved of that. As such, thinking has become quite progressive.

“Now, women are not as weak as they were before, requiring the protection of men. There are many women filled with indomitable spirits, and those women can chase after the men they want using their own methods.

“On the other hand, we men have started doing things that only women did, such as holding martial competitions for marriage. As long as it does not go against Great Qin’s laws, it’s fine.”

After hearing this explanation, Zhao Fu could not help but lightly laugh; the outside world was indeed different from what he had imagined. Things were not as simple as he had thought, and they were instead quite complicated.

He looked over at the arena and saw that two women had gone up and were competing with various techniques. In the end, a woman in red won, and she walked over to the young man and lifted up his chin, loudly laughing as she said, “You belong to me now!”

Zhao Fu was not quite used to this and he could not help but say, “Are women all so domineering now?”

Xiao Yuanchu flicked open his fan and laughed as he said, “I already said that you’re too old-fashioned. Looks like Great Qin’s culture still has not spread far enough. Tell me about the countryside you come from.

“Later, I’ll help you write a letter to the feudal office; those county officials must be quite useless; they’ve really let down Our Majesty.”

Zhao Fu felt quite awkward and said, “It’s just a small place; it’s not worth mentioning. Also, why do you say my thinking is too old-fashioned?”

Chapter 1037: Blackbird Guards

Xiao Yuanchu lightly harrumphed and said, “When you asked that, you must have thought that all women were weak and soft and that only men should be strong. Men should protect women and women should be protected by men, right? That’s classic chauvinistic thinking.

“In Great Qin, men and women are equal, and everyone can make their own choices. Women can choose to be more powerful than men, and men can choose to be weaker than women. Powerful men can choose to protect women, and powerful women can choose to protect men.

“You can’t keep thinking that men have to be powerful; everyone can make their own choices in life. It can be said that you’re living in the best period right now. Our Majesty is heroic and valiant, which is why Great Qin has such a good outlook. You should be grateful to Our Majesty.”

Zhao Fu dryly laughed, not knowing what to say. He felt that he was quite different than the Majesty Xiao Yuanchu was talking about.

“Do you think this is alright?” Zhao Fu asked Xiao Yuanchu sincerely. He wanted to know how ordinary people saw this.

Xiao Yuanchu smiled and said with a firm tone, “Of course I do, we should all support this. We all want to praise Our Majesty for how open-minded he is, allowing everyone to make their own choices so that everyone can do their best in their own lives and do their best for Great Qin’s future.”

Zhao Fu let out a breath. In the future, he had to collect more information about the rest of the Kingdom.

“In August, Great Qin’s going to conduct another imperial examination. Perhaps I’ll have a chance this time to see Our Majesty’s incomparable countenance. Also, all of us scholars admire goddess Li Muqing the most!” Xiao Yuanchu suddenly said with a smile.

Hearing this, Zhao Fu lightly laughed and looked at Li Muqing beside him and asked, “Why is Li Muqing the goddess of scholars?”

Xiao Yuanchu said with a look of respect on his face, “Of course it’s because of her talent and beauty. She’s already incredibly popular with Our Majesty, and whenever it comes to matters of culture, Lady Li is always consulted upon in the imperial court. She’s one of the famed beauties of Great Qin.”

Li Muqing's face became slightly red in embarrassment as she faced Zhao Fu's gaze.

By now, the woman in red on the arena was confident that she had won and that no one would come to fight with her, and she prepared to take that handsome, delicate-looking young man away.

However, at that moment, a well-built young man walked up and shouted, "Wait, I want to challenge as well!"

Zhao Fu felt quite startled and asked, "Isn't a man holding this martial competition for marriage? Other men can participate?"

By now, Xiao Yuanchu was getting quite frustrated. He sighed as he said, "Just which remote place did you come from? Stop getting so shocked at everything. Can't men and men be together? Since ancient times, it's only been prohibited because of ethics.

"Our Majesty, as the glorious Emperor of the human world, naturally would not be restricted by such things. Moreover, these things were already quite common in our old world.

"Now that all sorts of ideologies and cultures have gathered in Great Qin, they have intensely clashed and evolved. If this is not dealt with properly, Great Qin will not be at peace, and there will be all sorts of internal conflict.

"However, even if there is internal conflict, with Great Qin's power, it will be quelled quickly. Regardless, internal conflict is not good. As such, we need to thank Our Majesty. Because Our Majesty is so brilliant and open-minded, Great Qin is able to become so prosperous.

"Think about it, who could have the broadmindedness of Our Majesty? He's indeed an Emperor among Emperors, the man who will unify the human world. If Great Han was in power, we would have been cursed to death by those Confucians. If Great Shang was in power, most of us would have been executed."

Facing these praises, Zhao Fu could only smile.

At that moment, the well-built young man on the arena ferociously punched at the red-clothed woman, bringing with him a large gust of wind. However, the red-clothed woman dodged to the side and viciously kicked out.

Bang!

A muffled bang sounded out as the well-built young man was kicked in the abdomen and flew backwards. He crashed onto the ground and coughed up a mouthful of blood.

The red-clothed woman walked up, wanting to follow up her victory.

At that moment, a man holding a saber and wearing black clothes with a black bird sewn on it said, "He's already lost. You may not continue to attack."

Hearing that man's words, the red-clothed woman could only obey, and the well-built young man sighed and walked off the arena. It was as if no one dared to disobey that black-clothed man's words.

Zhao Fu looked at that man, and Xiao Yuanchu assumed that Zhao Fu was wondering what was going on, so he started to explain. However, Zhao Fu smiled and cut him off, saying, "I know who he is."

The black-clothed man was a law enforcement agent, and his duty was to maintain the law. Such people were also responsible for solving cases and making arrests.

They were different than City Guards, as City Guards were only responsible for defending Cities and suppressing any chaos. On the other hand, law enforcement agents like this man were in charge of taking care of various matters for civilians.

Because of the black bird on their chests, they were called Blackbird Guards and were created by Great Qin. This agency was something that Zhao Fu had come up with while talking to his subordinates.

As the number of residents increased, problems also increased, so they needed a group of people to deal with the issues people had amongst themselves. That was how this agency was created.

Moreover, Great Qin prohibited personal fights. No matter who was in the right and who was in the wrong, anyone involved would be punished. However, martial competitions like this or arena fights that were approved by officials were allowed. Otherwise, as soon as the martial competition began, law enforcement agents would have dragged everyone to jail. Xiao Yuanchu was quite surprised that Zhao Fu knew who this person was, but he did not pay it much mind because every City had such people.

Following this, the red-clothed woman stood on the arena and loudly shouted, “Who else wants to fight with your granny? Get out here!”

Everyone looked at each other, but no one came out.

Xiao Yuanchu smiled as he said to Zhao Fu, “Brother, you should give it a shot. That guy looks pretty good.”

Zhao Fu felt a chill in his heart and hurriedly shook his head.

Since no one went up to the arena, the handsome, delicate-looking young man naturally belonged to the red-clothed woman. The young man seemed quite pleased with the woman, and they left together. Without anything else interesting to see, everyone dispersed.

Zhao Fu was about to leave with Ge Nia and Li Muqing, but Xiao Yuanchu stopped him and asked him to go with him for a drink to discuss national affairs. However, Zhao Fu declined.

Chapter 1038: Kingdom-Destroying Battle

Zhao Fu, Ge Nia, and Li Muqing wandered around until the afternoon. The sunset glow dyed the edges of the sky a golden-yellow color. It was now time to return.

“Your Majesty, what did you think of this excursion?” Li Muqing asked with a slight smile.

Hearing this, Zhao Fu smiled and nodded, saying, “It was quite rewarding. We saw many unexpected things and Great Qin’s true appearance. It was much more interesting than reading documents.”

Li Muqing grinned as she replied, “Then Your Majesty should come out more and personally experience what Great Qin is like.”

Zhao Fu nodded and agreed.

Following this, the three of them returned to the Great Qin Royal City, and Zhao Fu slightly rested before continuing to read through documents. He now felt differently, feeling more interested in dealing with internal affairs.

A few days later, Zhao Fu stopped reading through documents and went outside the Legacy Lands because a big thing had happened.

Something was going on within the Blue Wolf Kingdom. After its battle with the Lelai Kingdom, it had lost 70% of its soldiers and City Lords, and its remaining forces were quite weak, unable to protect the Kingdom.

Even though the Blue Wolf Kingdom had immediately activated all of its defenses and tried to expand its military, they were not very strong. Moreover, the lack of City Lords was a fatal wound.

Back then, the surrounding Kingdoms did not allow Zhao Fu to make a move because their true aim was to lay hands on the Blue Wolf Kingdom themselves. The surrounding Kingdoms planned to ally together, take it down, and split it for themselves.

Zhao Fu had come out because the other Half-Beasts were planning to attack the Blue Wolf Kingdom.

Since the beginning, Zhao Fu had wanted to devour the Blue Wolf Kingdom, but the conditions had not allowed it. The Lelai Kingdom was quite weak and could not fight against a few Kingdoms, so he could only give up.

The Blue Wolf Kingdom was a big piece of meat, and everyone wanted to take a bite. Of course, with the Lelai Kingdom’s power, it did not dare to enter the Half-Beast world by itself. If it attacked, it would be surrounded by many Half-Beast Kingdoms.

As such, Zhao Fu planned to bring a few helpers to attack the Blue Wolf Kingdom. He decided to ally with a few other Grassi Kingdoms to split the Blue Wolf Kingdom for themselves.

Now, with a few Kingdoms allied together, they had the confidence to attack the Half-Beast world together and would not have to fear an attack from multiple Half-Beast Kingdoms.

Even though the surrounding Grassi Kingdoms had refused to help the Lelai Kingdom and had even wanted to attack it, there were no eternal friends and enemies, only eternal interests. At this moment, they were all interested in the same thing.

Zhao Fu had Le Yuyu send those Kingdoms letters, and they quickly responded.

Zhao Fu read through the letters with a smile on his face, while Le Yuyu sat in his embrace and also read through them. She smiled as she said, “Little hubby, how much will the Lelai Kingdom’s territory increase by this time?”

Outside the Legacy Lands, conquering regions was not as easy as within the Legacy Lands. After all, more territory meant more Fate, and almost all regions had owners. Wanting to take regions meant attacking the faction that owned them.

Within the Legacy Lands, system City Lords often abandoned their own regions to gather together so that the unoccupied regions could be freely conquered.

Only conquering a region for the first time would give a Region Treasure Box, and now that the human world was in the late stages. The system factions were counted as ordinary factions, and they could also obtain Region Treasure Boxes.

This made it quite difficult for Great Qin to obtain Region Treasure Boxes, as they were often obtained by others first.

After hearing Le Yuyu’s words, Zhao Fu lightly smiled and said, “I’ll do my best to help the Lelai Kingdom gain as much as possible!”

Le Yuyu happily kissed Zhao Fu and said, “Thank you, little hubby. We’ve missed you so much over the past while. Can you satisfy Us before you go?”

Zhao Fu lowered his head and looked at the lustful woman in his arms and smiled as he said, "Let's wait until all of this is over. Right now, there are a few Half-Beast Kingdoms attacking the Blue Wolf Kingdom, and we need to quickly move or else we won't be able to take anything."

Le Yuyu felt quite disappointed, but she knew her priorities, so she said, "Alright, We will wait for you together with Zhiwen then."

Zhao Fu lightly nodded before leaving the Lelai Kingdom's Palace.

There were three Kingdoms around the Lelai Kingdom, and each of them had a small portion of their territory bordering the Blue Wolf Kingdom, so they could directly attack. They could immediately take control of any regions they conquered and add them to their own territory.

None of them dared to attack the Half-Beast world alone, but with the Lelai Kingdom's suggestion, they were all too eager to agree. If a few Kingdoms invaded together, they would have much more confidence and would not worry about the threat of the Half-Beast people.

The Lelai Kingdom and the three other Kingdoms split into four paths and simultaneously invaded the Blue Wolf Kingdom's territory. Each Kingdom sent at least 20 million soldiers, 7000 City Lords, and some Generals.

Over on the Half-Beast side, there were three Half-Beast Kingdoms attacking the Blue Wolf Kingdom.

They had gathered 90 million soldiers and 2,500 City Lords to attack together, and the Blue Wolf Kingdom rushed to defend. It expanded its army as quickly as possible but only had 50 million soldiers and around 1,000 City Lords.

These City Lords and soldiers were the Blue Wolf Kingdom's last defenses, and this already included the Civil Officials and City Guards.

The place where the two armies gathered had an incredibly austere aura, and the atmosphere was incredibly heavy. The faces on the Blue Wolf Kingdom's side were quite pale, and because of the difference in their forces, they were at an incredible disadvantage.

On the other hand, the other side's people had big smiles on their faces and looked incredibly confident. They looked quite evil as they looked at the Blue Wolf Kingdom's people. They were already thinking about how to split the Blue Wolf Kingdom's territory.

In the air, both sides' City Lords gave off powerful auras as they faced off. The Blue Wolf Kingdom's City Lords were led by a woman.

This Half-Beast woman had a fiery figure and was quite beautiful. She looked quite determined and had wolf ears and a wolf tail. Her fur was snow-white, making her look gentle and beautiful.

She was the Blue Wolf Kingdom's Queen and was called Cang Xuenu.

This was essentially a Kingdom-destroying battle, and the three other Kingdoms' Kings had also come. They were all middle-aged men.

"During my father's time, our relations were quite good, and I even called you three as my uncles. Now that he's passed away, you want to destroy the Blue Wolf Kingdom; you're going too far," Cang Xuenu said as she furiously looked at the three people.

One of them lightly laughed as he said, "That's how the world is. Don't blame us. After the Blue Wolf Kingdom suffered heavy losses, if it wasn't for us, you would have been destroyed by the Grassi people. You should be thanking us."

Chapter 1039: Cang Xuenu

"With the Blue Wolf Kingdom's strength, it's difficult to guarantee your own safety. The three of us are helping the Blue Wolf Kingdom, or else you'll be destroyed by others sooner or later. Based on our relationship in the past, you should submit to us, and we will give you some benefits.

"You have no other choice right now. Either submit to us or die. You can't blame anyone except the Blue Wolf Kingdom for being too weak. You attacked the Lelai Kingdom and suffered such a heavy loss. If you hadn't attacked them, we wouldn't have made a move either."

Cang Xuenu's eyes were icy cold, but she did not regret this at all. She was the Queen of the Blue Wolf Kingdom, and because her father had been killed by the other side, she had to take revenge.

However, she had never expected the weak Lelai Kingdom to have a powerful expert helping them, instantly turning the situation around. All of their preparations had failed

If it wasn't for that expert, the Blue Wolf Kingdom would have destroyed the Lelai Kingdom and devoured its forces long ago, making them even stronger.

One of the three Kings, a slightly chubby man, said, "Xuenu, uncle watched you grow up and become pretty. Your Blue Wolf Kingdom has no hope anymore and can only surrender. You can come and serve uncle; you'll have a role to play in the Azure Wolf Kingdom."

Hearing these shameless words, Cang Xuenu could not hold it in anymore and started to attack. Her halberd ferociously swung towards that slightly chubby man.

As Cang Xuenu attacked, a big battle between both sides unfolded.

The soldiers on the ground charged, giving off shocking sounds as they flooded towards the Great Wall. Powerful auras exploded out as Corps Formations appeared, and the sound of the air being torn could be heard as countless arrows flew out.

The City Lords in the sky also gave off immense auras as they rushed out and started to fight, causing terrifying shockwaves to ripple out.

The fighting was incredibly intense, and blood flew everywhere. The sounds of fighting and dying continuously sounded out, and both sides ferociously attacked as more and more people died.

"Hahh!" In the sky, Cang Xuenu cried out as she slashed out her halberd with all her strength. Three icy flood dragons giving off cold auras roared as they flew at the three Kings, causing the surrounding temperature to fall. Ice crystals seemed to appear in the air; it could be seen how terrifying this attack was.

However, the three Kings were not so easy to deal with. They also released three terrifying attacks, easily destroying the three icy flood dragons.

One of them flew forwards, not holding back at all as he swung his saber, causing a sharp saber light surrounded by terrifying saber qi to fly towards Cang Xuenu.

Cang Xuenu's expression did not change. She gripped her halberd and vigorously stabbed forwards, causing a fierce cold light to shoot out and clash with the saber light. A large explosion resulted, causing wild winds to blast out.

However, at that moment, another person suddenly appeared behind Cang Xuenu, stabbing out with his sword towards her heart.

Cang Xuenu's expression fell, and just as she was about to respond, another person swung his axe, giving off an extremely violent power as he hacked towards Cang Xuenu's head, looking incredibly savage.

Facing both of these people's terrifying attacks, Cang Xuenu was unable to defend. However, both of these were fatal attacks, and if she could not block them, she would die here.

Boom!!

A terrifying aura exploded out from within Cang Xuenu's body. She did not hesitate to use her Nation Armament; this was a true Kingdom's Nation Armament, and it was not something that a Nation Armament without a Kingdom could compare with. This power sent both people flying back, but it was unable to harm them.

Boom! Boom! Boom!

Three massive explosions sounded out; it was not just Cang Xuenu who had a Nation Armament. The three others also exploded out with the power of their Nation Armaments, and a large battle once again unfolded.

However, the battle was extremely unfavorable to Cang Xuenu. The three others continuously suppressed her, and the situation seemed quite dire. She was now injured, and she was facing three experienced Kings whose cultivations all surpassed hers.

Apart from being at a disadvantage, the rest of the Blue Wolf Kingdom was also at a disadvantage, and they did not have as many City Lords as the other side. Each one of their City Lords had to face multiple City Lords, and they did not have enough soldiers either. Even though they were fiercely retaliating, the enemies had already started climbing up the Great Wall.

At the same time, the Corps Formations gave off terrifying shockwaves, and the Blue Wolf Kingdom did not have enough Corps Formations either, resulting in them being constantly suppressed.

This situation was quite disadvantageous, and the Blue Wolf Kingdom would definitely lose.

At that moment, Zhao Fu and the other Grassi Kingdoms took this opportunity to also attack the Blue Wolf Kingdom from the other side. Because the Blue Wolf Kingdom's main force was dealing with the three other Half-Beast Kingdoms, Zhao Fu decided to take advantage of this.

The four Kingdoms split into four armies, easily breaking through the Blue Wolf Kingdom's Great Wall. They started to unrestrainedly kill and pillage, and this was according to their agreement – anyone could take anything they could lay their hands on. As such, everyone started pillaging like bandits, taking anything they wanted.

City after City was broken through, and as the Grassi people charged into the Cities, they did not bother saying anything, directly killing and taking anything of value.

There were mostly only residents left within the Cities, and they were unable to stop the ferocious armies at all. They were one-sidedly slaughtered, creating a bloody scene.

Because the Lelai Kingdom was quite close to the Blue Wolf Kingdom, a large stretch of their borders touched. As such, Zhao Fu picked a central route and headed straight to the Blue Wolf Kingdom's Palace.

At the same time, the Half-Beast people who had surrendered were put to use. Zhao Fu told them about the situation the Blue Wolf Kingdom was in, that it would almost certainly be destroyed, and that they could bring their friends and family to the Lelai Kingdom. The Lelai Kingdom would protect them, give them the same treatment, and would not make them slaves.

After seeing that the Blue Wolf Kingdom really was doomed, Half-Beast people felt incredibly grateful to the Lelai Kingdom and started to convince other Half-Beast people to submit to the Lelai Kingdom.

They had taken in many Half-Beast people in the past, and they made it so that Zhao Fu's army progressed incredibly quickly. Most people surrendered, so there was barely any resistance. This also made it so that they naturally obtained greater gains as well.

The news of the Grassi Kingdoms attacking the Blue Wolf Kingdom was instantly transmitted to the frontlines on the other side. Cang Xuenu's face became incredibly pale, and she understood that the Blue Wolf Kingdom was finished.

The three Kings were furious. They had put a lot of effort in to destroy the Blue Wolf Kingdom's main force, but most of the benefits had been taken by the Grassi people.

They had long since started to view the Blue Wolf Kingdom as something that belonged to them, so the Grassi people were stealing what belonged to them. This naturally made them feel quite furious.

At that moment, Cang Xuenu thought of something, which was to have the Half-Beast Kingdoms and Grassi Kingdoms fight against each other. Perhaps the Blue Wolf Kingdom would have a trace of a chance then.

Chapter 1040: Blue Wolf Royal City

Cang Xuenu immediately called out to the three Kings, "The Blue Wolf Kingdom is about to be destroyed by the Grassi people, and you won't be able to obtain any benefits. The Blue Wolf Kingdom can surrender to you later; that will be better than being destroyed by the Grassi people at least. Don't worry, the Blue Wolf Kingdom does not have any power to defend against you; you should be defending against the Grassi people right now."

After hearing this, the three Kings thought to themselves. The Blue Wolf Kingdom indeed no longer had the power to resist them, and right now, their focus should be chasing out those shameless Grassi people and stopping them from taking what was theirs.

As such, the three of them agreed to Cang Xuenu's suggestion but also felt quite wary.

On the other side, the four Grassi Kingdoms continuously conquered regions. In just a short amount of time, they had already conquered 40% of the Blue Wolf Kingdom's regions.

Zhao Fu attacked the Blue Wolf Kingdom's Royal City with a delighted look. The Kingdom-Protecting Formation had already activated, forming an energy barrier that gave off a massive aura, protecting the Royal City.

Time was of the essence, so Zhao Fu immediately gave the order to attack the Kingdom-Protecting Barrier. There were some soldiers within the Royal City, but if the Kingdom-Protecting Barrier was not destroyed, the Half-Beast soldiers could not attack them either. As such, Zhao Fu ordered his soldiers to attack from a safe distance away.

With Zhao Fu's strength alone, it would be quite difficult to break through the Kingdom-Protecting Barrier. After all, a Kingdom-Protecting Barrier's power from the entire Kingdom, making them quite difficult to destroy.

However, things were different now. The Blue Wolf Kingdom had already been broken through and lost a large amount of Fate, making the Kingdom-Protecting Barrier much weaker. At the same time, Zhao Fu had 20 million soldiers.

Boom! Boom! Boom...

Explosions sounded out as the five Corps roared and unleashed five Corps Formations, four beasts and one object. The other soldiers also exploded out with their cultivation power, and the five Corps Formations started to devour their cultivation power, causing them to become even more powerful.

The ordinary soldiers could not directly fuse their power into the Corps Formations, as they were not part of the Corps, so they could only use this method to provide power to the Corps Formations. However, it cost them a lot of their strength.

The five Corps Formations became seven or eight hundred meters tall and gave off ferocious auras, causing the weather to change and shaking their surroundings. They charged at the Royal City and started to madly attack the Kingdom-Protecting Barrier.

Swish, swish, swish... (Boxno vel. co m)

Some soldiers drew their bows and aimed at the Kingdom-Protecting Barrier, causing countless arrows to descend on it like a torrential rain.

Even though the Kingdom had been broken through, the Kingdom-Protecting Barrier was still quite firm. Facing countless attacks, it only weakened slightly. At this rate, it would take at least a few hours to fully destroy it.

Boom!!

An enormous might descended as the Great Qin Seal within Zhao Fu's body trembled. A large amount of Great Qin's Nation Power entered Zhao Fu's body, causing black flames to erupt around his body. The space around him became distorted as violent gales blew out from him.

As this massive aura appeared, the people in the surrounding ten or so regions all sensed this. It was a power that could cause people to despair.

The 20 million soldiers, as well as the people within the Royal City, all trembled under this terrifying aura.

"Demon Sun!" A massive pillar of demonic qi shot into the sky, causing the sun in the sky to be dyed black and give off an intense demonic light. A boundless demonic intent spread out in the sky.

Zhao Fu raised the Sky Demon Sword and unleashed one of his most powerful attacks. He then slashed down, causing an enormous black sword light to slash towards the energy barrier, seeming as if it could split the heavens and earth.

Buzz....

The Kingdom-Protecting Barrier violently shook, trying to defend against that world-destroying sword light. In the end, it was able to completely dispel the attack but had used up a lot of its power.

Boom!

Yet another pillar of demonic qi shot into the sky, dyeing the sun in the sky black and giving off a demonic intent. Following this, another terrifying sword light slashed out.

The soldiers quickly attacked, and the five Corps Formations ferociously smashed against the Kingdom-Protecting Barrier, causing it to once again greatly weaken.

After four sword strikes from Zhao Fu, the incredibly tough Kingdom-Protecting Barrier was covered with cracks, and the people within the Royal City started to panic because the Kingdom-Protecting Barrier was about to be destroyed.

At that moment, Zhao Fu once again raised the Sky Demon Sword, and a massive amount of demonic qi once again dyed the sun black. A terrifying sword light descended onto the Kingdom-Protecting Barrier.

Bang!

A massive sound rang out as the Kingdom-Protecting Barrier completely shattered. Under the combined attacks of Zhao Fu and the 20 million soldiers, they had finally destroyed the Kingdom-Protecting Barrier.

The Royal City immediately fell into chaos. Some ran to the City Walls to fight to the death, while others ran in terror. A white energy barrier appeared within the City, which protected the City Hall.

Now, there were only ten or so City Lords within the Royal City, around 100,000 soldiers, and six or seven million residents. Zhao Fu did not care about them at all, and he gave the order to attack.

The 20 million soldiers ferociously charged into the Royal City. They first shot out a wave of arrows, causing the defenders' numbers to be reduced by half, before the soldiers at the front easily scaled the City Walls and entered the City.

Zhao Fu killed the ten defending City Guards with a single sword strike and arrived above the City Hall, looking down at the energy barrier.

This was the energy barrier of a Barony Kingdom, so destroying it would not be easy. However, it would be much easier than destroying the Kingdom-Protecting Barrier. Zhao Fu had just used up a lot of power, so in order to avoid any danger, he decided not to use the Great Qin Seal's power anymore. Instead, he used the Six Paths Demon Images' power.

Bang! Bang! Bang...

Massive explosions rang out as a mushroom cloud rose up, and a corporeal shockwave destroyed the area in the surrounding ten or so kilometres. Sand and dust filled the air, and the explosive power almost affected the Lelai Kingdom's soldiers as well.

After the dust settled, there was a massive crater around the City Hall. The energy barrier still had not been destroyed, but it was covered with cracks. Just then, Zhao Fu had used ten Destruction

Crystals, and the destructive power was evident. Zhao Fu smiled as he walked over and casually attacked, destroying the energy barrier, and he walked into the City Hall.

Bang!

Suddenly, a halberd containing immense power seemed to cause the air to explode as it shot towards Zhao Fu.

The Sky Demon Sword in Zhao Fu's hands gave off boundless demonic light, and Zhao Fu swung it back handed as a massive sword light slashed out, knocking the halberd away. He slightly turned, looking at Cang Xuenu.

Cang Xuenu had hurried back as quickly as possible, and she had never thought that the Kingdom-Protecting Barrier would be destroyed so easily. This had ruined all of her plans. However, something that chilled her heart had happened: The City Hall's energy barrier had been destroyed. If that person conquered the City Heart, the Blue Wolf Kingdom would be destroyed.
