

The Lord 1061

Chapter 1061: Ancient Stem Rankings

“Interesting!” The young man in white suddenly laughed and made to get up and go over to Zhao Fu’s table.

Beside him, the cold-looking young man could not help but say, “Young Master, it’s best not to go; that person is not someone who can be offended lightly. His comprehension of the way of the sword is above mine, and he is extremely dangerous. There’s no need to try to establish relations.”

His words were targeted to Ge Nia, because he could sense the formless sword aura from Ge Nia. As someone who also walked the way of the sword, he knew clearly how terrifying someone like this was.

“I know!” the young man in white replied simply. However, his attention was not on Ge Nia but Zhao Fu because he could tell that Zhao Fu was much more dangerous.

The woman in black, who had not paid much attention to this, was now also interested. She looked over and could sense that those two people were not simple.

“Brother, my name is Bing Qixue; I wonder if you would mind becoming friends.” The young man in white stood up, came before Zhao Fu, and cupped his hands.

Zhao Fu lightly shook his head, directly refusing. He had travelled a long distance and had important matters at hand. Moreover, this was the inner region and there were many people more powerful than him. Zhao Fu did not want to make any trouble, nor did he want to do anything unnecessary; he just wanted to keep a low profile.

Bing Qixue looked quite awkward; he had never thought that Zhao Fu would be so discourteous

The woman in black coldly harrumphed, and just as she was about to say something, Bing Qixue glared at her, so she could only hold it back.

“Sorry for disturbing you then.” Bing Qixue was not very angry and could only awkwardly smile as he once again cupped his hands.

Zhao Fu felt quite surprised towards Bing Qixue’s attitude; ordinary people would get angry and simply ignore him, but Bing Qixue had apologized. As such, Zhao Fu’s impression of him became better.

“No worries,” Zhao Fu could not continue to ignore him and replied simply seeing that the other person was so courteous. He did not speak Chinese but one of the Ancient Stem Domain’s most common languages; this was something that Zhao Fu had been prepared for.

Bing Qixue could only lightly laugh and return to his table. At that moment, the waiter came back with the dishes.

“This Young Master is reserving this entire place; everyone else piss off!” an arrogant voice sounded out from outside. A young man in violet brought seven peerlessly beautiful women and walked in.

Zhao Fu looked over and felt that these people’s auras were somewhat familiar. He seemed to have met them somewhere before, but he could not recall where.

This voice made everyone else feel quite dissatisfied, and they looked towards that young man. No one would be happy about being chased out.

Seeing this, the manager walked over and gave an apologetic smile. “Young sir, we are not full; there’s no need to do this.”

The young man in violet looked around and coldly harrumphed before throwing a bag of money at the manager. “Do you think this Young Master lacks money? This Young Master is reserving this whole place; I don’t want to stay together with all these people and lower my reputation.”

The manager caught the bag and looked quite troubled because this would lower the reputation of his hotel and no one would want to come to a place that chased out its customers, so he pleaded, “Young sir, that wasn’t my intention. It’s just that this hotel already has people residing in it; look, there are still many of them eating here. It’s simply not convenient.”

The violet-clothed young man's gaze became cold, and he gave off a terrifying aura, causing the atmosphere in the hotel to freeze as he said, "This Young Master is the Eight Dragons Essence Sect's Young Sect Master Long Yang; be tactful and scram!"

"What? He's Long Yang? The nineteenth-ranked person on the Ancient Stem Rankings?" Everyone felt quite shocked; they had never thought that this violet-clothed young man would have such an illustrious identity. The Ancient Stem Rankings was a ranking of all of the Ancient Stem Domain's geniuses, and it was made by the top-tier factions. Other Domains had similar rankings as well.

The rankings represented a Domain's image. Only by having more geniuses did a Domain have more hope and potential.

The people on the Ancient Stem Rankings were the topic of discussion for many people, and almost everyone knew about them. Everyone present had heard of Long Yang before.

Feeling that terrifying aura, many people felt scared; this sort of person was not someone they could afford to offend. As such, many of them got up and prepared to leave. The manager was also quite shocked, and looking at everyone preparing to leave, he could only ask the waiters and attendants to help them.

"Hmph! What arrogance, you're only nineteenth-ranked on the Ancient Stem Rankings. Do you know who our Young Master is? Our Young Master is the Ice Origin Kingdom's Crown Prince, the ninth-ranked Bing Qixue!" the woman in black coldly harrumphed, stood up, and loudly said. She could not bear to see their Crown Prince being chased out like this.

"What? Bing Qixue? The ninth-ranked on the Ancient Stem Rankings, Bing Qixue?" Everyone was once again sent into an uproar; they had never thought that such a major figure, who was even more prominent than Long Yang, would appear here. There were ten rankings between them, and the Ice Origin Kingdom was one of the Ancient Stem Domain's 20 Royal Kingdoms.

After the woman in black finished speaking, she gave a trace of a pleased smile. She looked at Zhao Fu and thought to herself, "Now you know who our Young Master is. Let's see if you dare to keep acting like that. We'll be waiting for you to come over and curry favor!"

By now, after hearing Long Yang speak more, Zhao Fu realized that it was the person who had gone to the Lelai Kingdom and triggered the Kingdom-Protecting Formation.

Back then, he had been leaving just as Zhao Fu had arrived, so Zhao Fu had only glanced at them. Only after hearing about the Eight Dragons Essence Sect did Zhao Fu connect them.

At the same time, Zhao Fu was indeed quite surprised about Bing Qixue's identity. He had never thought that he would so easily meet someone from a Royal Kingdom, who was a major figure in the Ancient Stem Domain. In the future, he could become a true King.

"Xiao Ni, don't be so impudent." Bing Qixue slightly frowned and warned her in a gentle tone, seeming like a well-educated scholar.

The woman in black lightly harrumphed and sat back down. Seeing how surprised Zhao Fu was, she felt quite pleased and thought to herself, "I knew things would turn out like this; now you're scared after knowing our Young Master's identity."

Long Yang's expression became quite unsightly; he had never thought that he would meet someone like Bing Qixue here. The other person was more powerful than him, and the faction supporting him was more powerful than his as well, so he naturally could not say anything. He could only coldly harrumph and say, "Bing Qixue, after this Young Master finishes Cultivating the Eight Dragons Divine Art, I'll definitely challenge you."

Following this, Long Yang and his women left awkwardly.

Bing Qixue sighed and did not say anything. Everyone else in the hotel looked at Bing Qixue with looks of respect; they had never thought that someone with such a prestigious identity wouldn't mind sharing a hotel with them. They were quite shocked when they saw how amicable he was.

Zhao Fu looked away. He had important matters at hand and did not want to make any trouble, nor did he want to tangle himself with Bing Qixue.

Chapter 1062: Corpses

The woman in black waited for a while and was surprised to see that Zhao Fu and Ge Nia did not hurry over to curry favor with Bing Qixue. Bing Qixue was the Crown Prince of the Ice Origin Kingdom, and he was ranked ninth in the Ancient Stem Rankings. His identity was simply terrifying.

There were very few people in the Ancient Stem Domain who could rival their Young Master, and with how prestigious his identity was, just meeting him was an incredible stroke of fortune.

If anyone could curry favor with their Young Master, they would be forming connections with one of the most talented geniuses in the Ancient Stem Domain. Behind him was the Ice Origin Kingdom, which meant massive benefits.

What's more, their Young Master had been the one who had taken the initiative, yet the other side wasn't trying to salvage the situation. Were these people stupid to miss out on such a good opportunity?

Bing Qixue was also slightly surprised. After hearing about his identity, the other person was somewhat surprised, but that was it.

It was possible that this person was not simple at all! Bing Qixue suddenly thought about his reason for coming here. He thought about it before speaking to Zhao Fu again, "Brother, are you also here for a Cosmos Medallion?"

Zhao Fu felt a bit startled and did not even know what a Cosmos Medallion was. Bing Qixue had most likely come here for one, so he replied simply, "No, I'm not."

Bing Qixue felt even more curious; this person's identity was not simple, but he was not here for a Cosmos Medallion, so just what was he here for? It was impossible for Bing Qixue to guess Zhao Fu's goal or his identity.

However, seeing that the other person was so cool and taciturn, Bing Qixue felt quite awkward. It was the first time someone had treated him like this, and if it was an ordinary person, he would have just ignored him.

"What is a Cosmos Medallion?" Zhao Fu suddenly asked.

Hearing this, Bing Qixue could not help but laugh; it seemed that the other side was interested, so he explained, "Cosmos Medallions are items necessary for one to get into the Cosmos Historical Remnant. The Cosmos Historical Remnant is the largest and most ancient historical remnant in the surrounding ten or so Domains. There are countless treasures inside, so naturally countless people want to enter.

“Legends say that the Cosmos Historical Remnant belonged to an ancient higher-being and that it already existed before the Ancient Stem Domain existed. It opens every ten years, and before opening, Cosmos Medallions will fly out. Anyone who can obtain a Cosmos Medallion will be able to enter.

“It is currently the eighth year, and there are two more years until the historical remnant will open. I forgot to mention, only those below Stage 9 will be able to enter the Cosmos Medallion, and inside it, all City Lord Seals and other Seals will be useless; one will only be able to rely on one’s cultivation power.

“This time, the Ten Thousand Dragon Financial Group is selling 362 Cosmos Medallions. Brother, if you’re interested, you should buy one too.”

After hearing about the Cosmos Historical Remnant, it was impossible for Zhao Fu not to be interested. He noted down this information and thanked Bing Qixue.

Bing Qixue smiled and nodded. He wanted to talk with Zhao Fu some more in order to guess at Zhao Fu’s identity. However, Zhao Fu once again became cold, and after eating, he directly went to his room, so Bing Qixue could only bitterly laugh.

“Young Master, that person didn’t put you in his eyes at all. Should we teach him a lesson? With Young Master’s strength, you can definitely suppress those impudent fellows,” the woman in black said angrily after seeing Zhao Fu leave. No one had ever treated their Young Master like this before.

Bing Qixue felt quite startled before replying somewhat seriously, “That’s not necessarily the case; that person is incredibly dangerous, and even I don’t have much confidence in defeating him unless I use the World Seal. Moreover, that person’s identity is not simple at all.

“From when I met his gaze, those eyes were the most terrifying eyes I’ve ever seen in my whole life; they’re not something that an ordinary race can have. Those eyes caused my bloodline to grow cold, and I felt the chill down to my bones.”

The woman in black looked quite shocked as she said, “Young Master, your bloodline is a Royal Bloodline and contains immense King’s Power, yet it felt such fear? Just what sort of person in the Ancient Stem Domain could do such a thing?”

Bing Qixue breathed out and lightly laughed as he said, “This world is very big, and the Ancient Stem Domain is just a small boundary Domain. There are many people more powerful than me; this isn’t surprising at all.”

Following this, the three of them finished eating and left the hotel.

The next day, Zhao Fu went to the Ten Thousand Dragon Financial Group. The one receiving him was a middle-aged man in gray robes, and Zhao Fu directly cut to the chase, saying, “I need a large number of corpses that are Stage 2 and above. I wonder if the financial group can provide them.”

The man in grey was quite surprised because very few people bought corpses and in such large numbers as well.

As one of the largest financial groups in the Ancient Stem Domain, they had all sorts of items, and they could sell corpses too. He thought for a moment before smiling and replying, “Of course, I wonder how many Sir needs? The Ten Thousand Dragon Financial Group will do its best to fulfill all of our customers’ requests.”

Zhao Fu nodded and replied, “How many can the Ten Thousand Dragon Financial Group provide?”

After hearing this, the man in gray understood that Zhao Fu would be a big client. His smile became brighter and his tone became even more courteous as he replied, “The financial group does not have many corpses stocked up. We do not have many ordinary Stage 2 corpses in stock and can only provide Sir with one million Stage 2 corpses, 100,000 Stage 3 corpses, and 10,000 Stage 4 corpses.

“As for the price, the Stage 2 corpses are ten gold coins each, Stage 3 corpses are 100 gold coins each, and Stage 4 corpses are 1,000 gold coins each.”

After hearing this, Zhao Fu thought about it and nodded; this price was quite cheap. Back when Zhao Fu was buying from the Kershi Kingdom, Stage 1 corpses were 20 gold coins, Stage 2 corpses were 100 gold coins, and Stage 3 corpses were 500 gold coins.

However, Zhao Fu could understand that the higher grade the corpses were, the more expensive they would be. Stage 4 corpses were 1,000 gold coins each, so ten would be 10,000 gold coins, 100 would be 100,000 gold coins, 1,000 would be one million gold coins, and 10,000 would be ten million gold coins.

Of course, Great Qin needed as many gold coins as possible; only then would they be able to create a large number of Blood God Pills.

In the future, most of Great Qin's wealth would be spent on corpses and Talisman Stones.

Thinking about how Great Qin already had over one billion soldiers, if they bought a large number of corpses and Talisman Stones, it would use up all of Great Qin's money. As such, Zhao Fu could only focus on corpses for now and buy fewer Talisman Stones.

This was because Blood God Pills increased one's personal strength, whereas Talisman Stones gave external strength. Personal strength was much more important,

One million Stage 2 corpses, 100,000 Stage 3 corpses, and 10,000 Stage 4 corpses came to 30 million gold coins in total. This was not much to Zhao Fu, so he immediately took out the money, gave it to the man in gray, and received the corpses.

"I will come back from time to time; I hope the financial group will be able to consistently provide corpses. I will be very grateful."

After settling this transaction, the man in gray happily agreed and promised to help Zhao Fu obtain more high-grade corpses.

Chapter 1063: Ten Thousand Dragon Stage

Following this, Zhao Fu asked, "I wonder how much the Cosmos Medallions are; I would like to buy one."

Hearing this, the man in grey could only say apologetically, "The Cosmos Medallions are only for auction. Sir, if you would like to purchase one, the auction has already begun. This is the financial group's VIP card; sir should go quickly or else they might all be taken by others."

Zhao Fu felt quite surprised and had never thought that this would be the case. He received the silver dragon inscription card from the man in gray and quickly left to go to the auction hall.

Seeing that Zhao Fu was in such a hurry, the man in gray said, "Sir, since you're in such a rush, I'll have someone take you there. That way, you won't have to look for the auction hall yourself."

Following this, the man in gray called over a decent-looking youth who led Zhao Fu to the auction hall.

However, by the time they arrived, the auction had already concluded, making Zhao Fu feel quite disappointed. He had wanted to obtain a Cosmos Medallion to go to that Cosmos Historical Remnant and see what he could obtain. That historical remnant was not simple at all, but it seemed that he would not have the chance anymore.

Zhao Fu could only sigh and prepared to leave with Ge Nia.

At that moment, a light laugh sounded out from behind Zhao Fu, "Brother, you were just a bit late. The auction has concluded and all of the items have been sold."

Zhao Fu turned and saw that it was Bing Qixue, and he could only helplessly nod. Zhao Fu had never thought that after hearing about the Cosmos Medallions yesterday, they would already be gone today. It was simply too fast.

"I was fortunate enough to buy two; I wonder if brother would like one. I can gift you one," Bing Qixue said as he looked at Zhao Fu with a smile.

Zhao Fu did not reply, even though all it would take him was a single sentence. However, Zhao Fu did not want to owe anyone because he would have to repay the favor in the future. Moreover, he would feel quite bad about it.

"Hmph! This Young Master bought three; do you want one? If you come over and curry favor with me, I'll reward you with one," Long Yang said arrogantly as he walked over with his seven women.

Long Yang was quite wary of Bing Qixue, but he did not care too much about others. He remembered the humiliation from the previous day, and he had been in a bad mood since then. Seeing that there was some sort of relationship between Zhao Fu and Bing Qixue, he had found an outlet for his anger.

The Eight Dragons Essence Sect had existed for a long time and was quite powerful, having six worlds. As such, he was not very afraid of a Royal Kingdom, only somewhat wary.

He knew most major figures in the Ancient Stem Domain, but he had never seen Zhao Fu before. As such, he did not place Zhao Fu in his eyes.

Zhao Fu's expression became quite discontent, but he did not say anything.

Bing Qixue slightly frowned; he was quite fed up with Long Yang, but he was also quite wary.

"That's right, our Young Master is the Young Sect Master of the Eight Dragons Essence Sect. If you curry favor with him, you'll obtain great benefits," a peerlessly beautiful woman in red hugged Long Yang as she said proudly.

She did not hear Bing Qixue's words just then, that he said that he would simply gift Zhao Fu a Cosmos Medallion if he wanted one. Why would he go over and curry favor with Long Yang?

The people around them started to gather, wanting to see a good scene. During the auction, they knew how prestigious both people were; neither of them were people who they could afford to offend. As such, they felt quite curious about what was happening and came over to watch.

Facing everyone's gazes, Long Yang gave a trace of a domineering smile and threw a wooden medallion that was as big as a palm in front of Zhao Fu. He spread out his hands, hugged four of the women, and said, "Take it if you want; this Young Master will give it to you!"

This sent the surrounding crowd into an uproar; that was a Cosmos Medallion, and each of them were worth at least 20 million gold coins, yet he was giving away one just like that?

Looking at the Cosmos Medallion on the ground, everyone felt a burning desire to pick it up and put it into their own pockets. However, they were afraid of Long Yang's identity and strength, so they did not dare to do that.

"Long Yang, you're going too far!" Bing Qixue looked slightly furious. Long Yang was evidently humiliating Zhao Fu and him as well.

Seeing that Bing Qixue was angry, Long Yang felt quite pleased and understood that he could not continue, or else things would get out of hand. As such, he loudly laughed and prepared to leave.

The youth standing beside Zhao Fu, the attendant from the Ten Thousand Dragons Financial Group, felt quite nervous because he had never thought that such a thing would happen.

“Where else can I obtain a Cosmos Medallion?” Zhao Fu suddenly asked the attendant. Since the Ten Thousand Dragon Financial Group sold them, perhaps there were other places where he could obtain them as well.

The attendant immediately replied, “The Ten Thousand Dragon Financial Group still has one, but it is on the Ten Thousand Dragon Stage and requires one to step onto it.”

After saying this, the attendant felt quite regretful; no one had ever been able to step onto it before, so wasn't he just wasting his breath? In the end, it might result in Zhao Fu becoming displeased; he could not afford to offend such a person.

“Let's go! Take me to the Ten Thousand Dragon Stage,” Zhao Fu said calmly. He did not want to owe Bing Qixue, nor did he want to endure Long Yang's humiliation, so he could only go try his luck at the Ten Thousand Dragon Stage.

The attendant looked quite regretful and said, “Sir, the Ten Thousand Dragon Stage is extremely difficult to climb and has strict requirements regarding a person's bloodline and Fate. Since it was built, not a single person has been able to climb it.”

Hearing that it relied on one's bloodline and Fate, Zhao Fu could not help but smile. If it was anything else, Zhao Fu would not feel much confidence, but on those two points, he felt immense confidence.

“I understand, just take me there!” Zhao Fu replied. Seeing that there was no convincing him, the attendant could only take Zhao Fu to the Ten Thousand Dragon Stage.

Hearing that Zhao Fu wanted to try to step onto the Ten Thousand Dragon Stage, everyone in the crowd felt quite shocked and started to laugh. They felt that Zhao Fu was too simple-minded; the Ten Thousand Dragon Stage was an entertaining story within the inner regions of the Ancient Stem Domain.

There were countless treasures on top, and anyone who could step onto it could claim them all. That person would also become the Supreme VIP of the Ten Thousand Dragon Financial Group.

Countless people had dreamed of stepping onto it, but no one had ever managed before. Bing Qixue had tried before, but he was unable to at all.

Bing Qixue could not help but say, “Brother, there’s no need to go through such trouble. I just wanted to become friends with you, and this Cosmos Medallion is just a small gift. There’s no need to take it so seriously.”

“Hahaha... he wants to step onto the Ten Thousand Dragon Stage? Keep dreaming! What an arrogant and naïve fellow!” Long Yang loudly laughed, and the seven women around him also covered their mouths as they laughed.

Zhao Fu breathed out and calmed himself down before politely refusing Bing Qixue and ignoring Long Yang, heading towards the Ten Thousand Dragons Stage.

Chapter 1064: Eight Dragons Divine Art

Seeing how ungrateful Zhao Fu was, the woman in black coldly harrumphed, “Our Young Master is treating him so well, yet he doesn’t accept it; he’s unable to differentiate good from bad. Does he think any ordinary person can step onto the Ten Thousand Dragon Stage? Our Young Master has a pure Royal Bloodline but can’t do it, so how can he do it? He’s going to lose face soon.”

Bing Qixue also could not understand why Zhao Fu was so stubborn; did he really hate him that much?

As for whether or not Zhao Fu could step onto the Ten Thousand Dragon Stage, Bing Qixue was also sure that he could not do it. He had personally tried before and knew that ordinary Kings would not be able to step onto it; it would be difficult for even ordinary Emperors.

Apart from bloodline, there was also the requirement of Fate. One required a massive amount of Fate, which was not something an ordinary King could have.

No one knew why the Ten Thousand Dragon Financial Group had built this stage; rumors said that it existed when the Ten Thousand Dragon Financial Group was established, and no one knew its purpose.

“Let’s go and watch the show; there’s someone who wants to step onto the Ten Thousand Dragon Stage. He’s looking to be humiliated. Let’s go mock him and put him in his place,” people in the surrounding crowd said.

Long Yang looked quite disdainful; he had tried the Ten Thousand Dragon Stage before, and he knew how terrifying it was. Zhao Fu wanting to step onto it was simply dreaming; he wondered how Bing Qixue had met such an arrogant person.

However, that person had chosen not to pick up the Cosmos Medallion he had thrown; it seemed like he had some backbone. As such, Long Yang decided to also go and watch him be humiliated.

Thinking about that, Long Yang smiled as he said, “Let’s go! Come with this Young Master to take a look.”

A beautiful woman next to him cutely harrumphed as she said, “Hubby, you already know what the outcome is, so what is there to look at? How could he be more capable than our hubby? After hubby finds the last sister for us and cultivates the Eight Dragons Divine Art, you’ll definitely defeat Bing Qixue.”

“That’s right! We believe that hubby is the best. You’re already ranked nineteenth even without the Divine Art, and after you cultivate it, you’ll definitely be able to enter the top five!” another pretty woman said.

A dainty and beautiful woman said, “What a pity! We finally found a suitable person last time but her virginity was already taken by some bastard, such a pity. Otherwise, hubby would already be cultivating the Divine Art.”

“I’ve been waiting so long for hubby to take me and play with my body to the point that I can’t get off the bed for three days,” a seductive woman said as she licked her lips.

Long Yang smiled as he hugged this woman and passionately kissed her before comforting her, saying, “This Young Master also wants to. Later, we’ll keep looking for the Eight Princess, and then this Young Master will show you what true pleasure is.”

Zhao Fu followed the attendant and walked towards the Ten Thousand Dragon Stage with other people following behind. It was not just Long Yang who went but also Bing Qixue, wanting to see what would happen.

At the same time, Bing Qixue became more and more curious about Zhao Fu. From how Zhao Fu seemed, it was possible that he was not from the Ancient Stem Domain, as he did not know about many big matters; most of these things were known by people from the Ancient Stem Domain.

News that someone wanted to challenge the Ten Thousand Dragon Stage quickly spread throughout the whole City, and most people did not care much. Many people had attempted to step onto it in the past, but not a single one of them had succeeded.

As such, most people did not care because they already knew what was going to happen. It was most likely yet another naïve fellow giving it a shot.

After all, there were countless treasures on the Ten Thousand Dragon Stage, and anyone who could step onto it would obtain all of them. Anyone would be excited at the chance of something that cost nothing but could bring infinite benefits.

There were many people who wanted to step onto the Ten Thousand Dragon Stage, so most people disregarded this news. They couldn't go over and watch every single person who attempted it; they didn't have the time to watch another minor figure lose face.

However, when they heard that this person seemed to have some sort of connection to the ninth-ranked person on the Ancient Stem Rankings, Bing Qixue, they started to feel more interested. Moreover, after hearing that there was conflict between him and the nineteenth-ranked Long Yang, most people could not hold back anymore.

They were curious about the relationship between these people and what that person's identity was to be able to have connections to so many major figures. Was he another major figure on the Ancient Stem Rankings?

Everyone felt quite curious and started to head over, mainly to see those two major figures. Zhao Fu was just a side character, and they did not care too much about such a nameless person.

After walking for a while, everyone came before a massive stone stage. The stage was 1,000 meters tall and a few hundred meters wide, and it was circular shaped. There were massive steps going up to it, with each one being three meters wide and half a meter tall.

There were stone pillars on each of the steps, with incredibly lifelike dragons engraved on them. Each dragon seemed to be different.

Above the stone stage, there were countless restrictive barriers giving off an incredibly dangerous aura. However, within the restrictive barrier, the lights of treasures could be seen, giving off different colors, making anyone feel quite tempted.

The Ten Thousand Dragon Stage gave off a grand and domineering aura as if it truly did contain the might of ten thousand dragons and could cause all creatures to submit.

After bringing Zhao Fu here, the attendant apologized before hurriedly leaving. He did not think that the situation would escalate to this, and he decided to quickly report this.

He had only been responsible for leading Zhao Fu to the auction hall, and the manager had told him that this was an important customer who he had to take care of properly. On the way, he had said all sorts of things to make Zhao Fu happy, but he had never thought that this matter would drag in two geniuses on the Ancient Stem Rankings.

This completely surpassed anything he could bear, so he immediately went to report it.

After hearing about this, the manager felt quite surprised and hadn't thought that such a thing would happen. That mysterious person was not simple at all; what was his purpose in buying so many corpses?

Since he was related to two people on the Ancient Stem Rankings, the manager started to wonder what he was going to use the corpses for. It was possible that he was from a large and powerful faction; they would have to treat him even better in the future.

"Manager, what should we do? That VIP is about to challenge the Ten Thousand Dragon Stage." The attendant looked quite worried as he looked at the manager, who was deep in thought.

Hearing this, the manager lightly laughed and waved his hand, saying, "No need to take this matter too seriously; since he wants to try, just let him try. The result will be the same anyways. Ever since

it was built, no one has ever stepped onto the Ten Thousand Dragon Stage because it's simply impossible.

“Back then, even the first President was unable to, so do you think anyone else could? Just let him do it! Just treat him well in the future, and look around to see if we can help him obtain a Cosmos Medallion as well.”

Seeing that the manager was not worried at all, the attendant also relaxed and nodded.

By now, the Ten Thousand Dragon Stage was surrounded by people, forming an ocean of people. There were at least a few million people, creating a noisy and lively scene. Their gazes were all gathered on the cloaked figure standing in front of the Ten Thousand Dragon Stage.

Chapter 1065: Ten Thousand Dragon Stage

Zhao Fu stood on the Ten Thousand Dragon Stage, calmly looking at the grand stage. He slowly breathed out and took his first step.

When Zhao Fu's foot stepped onto the first step, a massive and ferocious aura flowed at him, and that feeling was like a massive river assaulting him, making him powerless to defend.

Zhao Fu's gaze became serious and instantly released his aura, making him seem like a big mountain that split the river in half. Zhao Fu's body stood there unmoving as if he was a statue.

Following this, Zhao Fu brought his other foot onto the first step.

Immediately, everyone watching became quite excited. This first step was not so easy to step onto; just the first step's terrifying aura had stopped countless people, and ordinary people would be blasted back by that aura.

Moreover, Zhao Fu could not use his City Lord Seal's power here; he could only rely on his own strength to climb the Ten Thousand Dragon Stage.

Everyone had become more excited, but they did not expect too much. After all, Zhao Fu had only stepped onto the first step, while the Ten Thousand Dragon Stage had 240 steps, and it also had eight Danger Zones. Every 30 steps had a Danger Zone, which was incredibly difficult to get past.

What happened next greatly surprised everyone. It had taken Zhao Fu some time to step onto the first step, but after that first step, his speed increased.

The second step!

The third step!

The fourth step!

The fifth step!

Zhao Fu's speed was incredibly fast; in just a few moments, he had reached the twenty-ninth step and stood in front of the thirtieth step. This was the first Danger Zone.

Now, everyone started to feel quite curious and wondered if Zhao Fu would be able to make it. If they were the ones there, it definitely would not be possible. Bing Qixue looked at Zhao Fu seriously, while Long Yang and the seven beauties disdainfully laughed.

Zhao Fu paused here, understanding that the thirtieth step was not simple. It gave off an even stronger pressure that was many times stronger from the pressure from before.

Zhao Fu was not careless and became serious as he slowly stepped onto it.

Immediately, Zhao Fu felt a massive dragon pillar weighing down on him, and everyone else could see this as well. There was an illusory pillar that was dozens of meters long that gave off a silver light ferociously bearing down on Zhao Fu's body.

This dragon pillar's strength was extremely powerful, and it was not something that an ordinary person could withstand. In the past, there had even been people who had been squashed to death; this was the First Danger Zone.

Everyone looked at Zhao Fu seriously and wondered if he would be able to make it past. It would be quite difficult because that dragon pillar was simply too powerful. Its pressure caused Zhao Fu to slightly bend; it was evident how difficult it was.

Boom!

Suddenly, a massive aura exploded out as a black flame appeared around Zhao Fu's body. A wild gale spread out from him, and the illusory silver pillar was actually knocked back by the aura and dissipated.

The crowd cheered in shock and found that Zhao Fu had not even used his full strength. Feeling that terrifying aura, everyone felt quite shocked; this was not an aura that any ordinary person could release.

Ordinary people could forcefully bear the dragon pillar and step onto the thirtieth step. As long as they stepped onto the thirtieth step, the dragon pillar would automatically disappear.

However, this person had released that terrifying aura, knocking the dragon pillar back; very few people could do such a thing.

This person seemed to be quite powerful, and the crowd became even more interested. Bing Qixue's expression remained serious while Long Yang still looked disdainful. With his strength, he could easily reach the thirtieth step; this was nothing special.

The thirty-first step!

The thirty-second step!

The thirty-third step!

The thirty-fourth step!

After exploding out with that terrifying aura, Zhao Fu's speed once again increased. He continuously crossed 29 steps and came before the fifty-ninth step.

Everyone expectantly watched how Zhao Fu would pass the second Danger Zone.

Zhao Fu stepped out, and the Ten Thousand Dragon Stage gave off a massive aura that formed a golden dragon's claw that was over 100 meters long. It gave off an incredibly powerful might as it slammed towards Zhao Fu, creating a horrifying scene.

The dragon's claw slammed down from above, looking as if it was going to crush Zhao Fu into meat paste.

However, at that moment, Zhao Fu gripped his fist and released a fearsome aura as he punched towards the dragon's claw.

Bang!

A massive explosion sounded out as the claw and fist collided, and the dragon's claw was shattered by Zhao Fu's punch, turning into a powerful wind.

"So strong!" the crowd again cried out as everyone watched this scene in shock. Apart from marveling at how strong Zhao Fu was, there was nothing else in their minds that could describe this scene.

Bing Qixue now looked slightly startled, and the woman in black beside him looked quite shocked. Long Yang was now expressionless; Zhao Fu's strength was now enough to catch his attention.

After stepping onto the sixtieth step, Zhao Fu's speed did not slow down as he continued to move ahead.

The sixty-first step!

The sixty-second step!

The sixty-third step!

The sixty-fourth step!

Following this, Zhao Fu arrived at the eighty-ninth step with the ninetieth step before him, the third Danger Zone.

Everyone focused as they once again watched him take a step.

“Roar!!” a dragon’s roar sounded out as golden light shot out from the dragon pillars, forming a 100 meter long golden dragon that gave off a terrifying aura as it rushed towards Zhao Fu.

Nothing was useable on the Ten Thousand Dragon Stage, including Zhao Fu’s swords. All other equipment were also unusable; he could only rely on his own power.

“Roar!!” a dragon’s roar sounded out from within Zhao Fu’s body as a domineering black dragon came out of his body. It gave off a shocking aura as it rushed at the golden dragon, and the two dragons began to fight.

Soon, the black dragon ferociously ripped apart the golden dragon and savagely roared towards the sky before returning to Zhao Fu’s body.

“So ferocious! So powerful!” The crowd was incredibly excited, and some people could not help but clap and cheer.

By now, Bing Qixue’s expression became quite solemn, and the woman in black and the cold-looking young man were also quite serious as they looked at Zhao Fu on the Ten Thousand Dragon Stage.

The condescension on Long Yang’s face was now gone; back when he had faced the third Danger Zone, he had not been able to get through it so easily. The seven beautiful women also stared at Zhao Fu without speaking.

The ninety-first step!

The ninety-second step!

The ninety-third step!

The ninety-fourth step!

Zhao Fu once again passed over step after step before reaching the fourth Danger Zone, the one hundred and twentieth step.

When Zhao Fu stepped onto the step, the dragon pillars gave off a golden light that formed a golden dragon pearl that was hundreds of meters wide. It gave off a powerful aura of suppression that shook the surroundings, and everyone below could sense how terrifying this power was.

Chapter 1066: Dragon Domain

“Can that guy pass it? That power is too frightening!” Sensing that terrifying power, the crowd felt quite anxious. They were not so confident that Zhao Fu would be able to pass.

Bing Qixue, the woman in black, and the cold-looking young man looked up seriously, wanting to know how Zhao Fu would deal with this power. Even some people on the Ancient Stem Rankings would not be able to deal with this sort of power.

Long Yang now also looked quite serious. He had made it past the fourth Danger Zone but stopped at the fifth Danger Zone. If Zhao Fu could make it past this Danger Zone, that would mean that he had power that rivaled his.

The seven beautiful women also had unsightly looks on their faces. Their husband was the Young Sect Master of the Eight Dragons Origin Sect, and he was ranked highly in the Ancient Stem Rankings. Very few people could rival him, yet such a person had suddenly appeared, having a similar level of power.

The attendant quickly went to report to the manager that the VIP had reached the fourth Danger Zone.

The manager was quite shocked. Zhao Fu had once again exceeded his expectations. However, after thinking about it, since that person wanted to challenge the Ten Thousand Dragon Stage and had connections to two people on the Ancient Stem Rankings, he definitely was not weak.

When he thought of this, the manager's expression calmed and he said, "No need to be too surprised. He'll most likely rationally back out from the fourth Danger Zone."

Hearing this, the attendant felt quite doubtful. He had seen Zhao Fu's power himself, and it was possible that Zhao Fu would be able to make it past. As such, he quickly returned to the Ten Thousand Dragon Stage.

The golden dragon pearl released a Dragon Domain that looked like a golden semicircle, with a golden dragon swimming about within it.

The Dragon Domain's power was incredibly powerful, and it gave off a massive aura of suppression. It gave off an unstoppable momentum as it rushed towards Zhao Fu, and the power seemed to be able to destroy everything; it was not something a person could withstand.

Boom!

An explosion sounded out as Zhao Fu released his Emperor's Domain. The golden domain and black domain ferociously clashed, giving off incredible shockwaves.

Even those below the Ten Thousand Dragon Stage were affected by the shockwaves, and some people retreated a few steps while some crashed to the ground. The scene became quite chaotic, and everyone was quite startled at this collision.

Bang!

The golden dragon pearl gave off an even more intense light as the Dragon Domain became many times more powerful. It continued to press against Zhao Fu's Emperor's Domain, causing it to slightly crack, and Zhao Fu's body started to lean backwards.

"Is he going to fail?" Seeing this, everyone could not help but think this. The fourth Danger Zone was too powerful.

However, in the next moment, two dragon's roars sounded out from within Zhao Fu's body, and a black flame and violet flame rose up around his body, causing his aura to soar.

Bang!

The black domain suddenly exploded out with a terrifying power, smashing towards the Dragon Domain with thunderous momentum and shattering it.

What was going on? Two dragon's roars had sounded out from that person's body, following which he had suddenly exploded out with power. There was also an Emperor's aura that had made them all want to kneel in worship.

No one understood what had happened. After shattering the Dragon Domain, Zhao Fu continued onwards.

The one hundred and twenty-first step!

The one hundred and twenty-second step!

The one hundred and twenty-third step!

The one hundred and twenty-fourth step!

Zhao Fu quickly came before the one hundred and forty-ninth step, and in front of him was the fifth Danger Zone. Everyone looked at him anxiously.

Bing Qixue's expression was now quite grave. He himself had only made it past the fifth Danger Zone and had not made it past the sixth Danger Zone. If Zhao Fu could break through the fifth Danger Zone, that would mean Zhao Fu had at least the same level of power as him.

Bing Qixue had somewhat expected this, so he was not too surprised. However, what caught his attention was that the Emperor's aura that Zhao Fu had given off was not ordinary at all.

Long Yang's expression was now quite unsightly; Zhao Fu had power that rivalled his. His condescension towards Zhao Fu was now hitting him back in the face because Zhao Fu was not weaker than him at all. The seven beauties beside him quickly comforted him, saying that Zhao Fu could at most only get past the fourth Danger Zone.

Boom!

When Zhao Fu stepped onto the one hundred fiftieth step, the Ten Thousand Dragon Stage gave off a horrifying aura, and the countless dragon pillars continuously trembled. Half-men, half-dragon images started to appear, giving off powerful auras. There were over 10,000 of them.

After these half-man, half-dragon monsters appeared, they ferociously charged at Zhao Fu. They were incredibly fast and looked like a torrential current.

Zhao Fu was expressionless as he stood his ground. He stretched out a hand and gave off a terrifying aura as the two aura flames once again appeared around his body.

The Ten Thousand Dragon Stage was instantly dyed black with Zhao Fu at the center, covering the 1,000 meters around him.

Swish, swish, swish...

As the half-man, half-dragon monsters rushed into the area, black spikes containing immense force stabbed out from the ground, piercing through their bodies. In that instant, countless black spikes erupted out, creating a shocking scene.

Zhao Fu had used the King's Profoundness skill that he had not used in a long time. All of the monsters were killed in an instant, and Zhao Fu continue onwards.

"He broke through the fifth Danger Zone!" someone cried out. The crowd had already taken back their condescension towards Zhao Fu, because with his strength, he could stand on the Ancient Stem Rankings; no one doubted this.

Bing Qixue and his bodyguards' expressions became even more serious, and Long Yang and the seven beauties' expressions were extremely grim. It seemed that Zhao Fu's power surpassed theirs.

"Manager, something shocking happened! That VIP broke through the fifth Danger Zone and is heading to the sixth Danger Zone!" The attendant could not help but rush back to report. The manager looked incredibly shocked; how could that person be so strong? It seemed that he had truly underestimated him, and the manager decided to take a look himself.

Following this, the two of them hurried to the Ten Thousand Dragon Stage.

The one hundred and fifty-first step!

The one hundred and fifty-second step!

The one hundred and fifty-third step!

The one hundred and fifty-fourth step!

By now, Zhao Fu could feel a massive pressure, and his speed decreased. He ascended step by step and arrived at the one hundred and seventy-ninth step, right in front of the sixth Danger Zone.

Everyone once again became quite nervous but also extremely excited. They hoped that Zhao Fu could once again break through – only the top three people on the Ancient Stem Rankings had broken through, and the others did not even have a trace of hope.

If Zhao Fu could break through the sixth Danger Zone, he would have the strength to enter the top three of the Ancient Stem Rankings, becoming a genius who was admired by billions of people.

Boom!

Zhao Fu once again stepped out, and the Ten Thousand Dragon Stage gave off an intense golden light. The weather started to change as clouds swirled. Under this horrifying aura, everyone felt a chill and an immense sense of terror.

A dragon's silver eyes that gave off a noble, domineering, and cold aura appeared in the sky, looking down on everything. They gave off a silver light, and the pupils looked like black holes. Under the pair of dragon's eyes, the heavens and earth seemed to be slowly destroyed.

Chapter 1067: Dragon God

Facing those terrifying eyes, everyone felt quite afraid and could not help but instinctively retreat. Their bodies slightly trembled; that was how terrifying the sixth Danger Zone was.

“These dragon eyes are called the Dragon Eyes of Obliteration and are modeled after the Obliteration Dragons, one of the most terrifying dragons in the world. Even though it is just an imitation, it can make even talented geniuses submit.” The manager’s eyes were wide as he stared at those silver dragon’s eyes. It could be seen just how shocked he was.

Bing Qixue’s expression became even more serious as he guessed at Zhao Fu’s identity. Zhao Fu’s power surpassed his, and he wondered if he would be able to make it past the sixth Danger Zone and enter the top three of the Ancient Stem Rankings.

The woman in black now looked quite worried; she had never thought that that person’s strength would surpass her Young Master’s. It was simply too shocking.

However, no matter how powerful he was, his identity could not be as prestigious as her Young Master’s. After all, her Young Master had a true Royal Bloodline that reigned above all kinds of other bloodlines; there was virtually no one in the Ancient Stem Domain who could be more noble than her Young Master.

At most, Zhao Fu was just a top-tier expert, while her Young Master was a sovereign King; they were on completely different levels.

Long Yang and his women all looked quite shocked, because not only did Zhao Fu’s power surpass his, but it had even surpassed Bing Qixue’s. This made him feel better, but he was still dumbfounded towards Zhao Fu’s terrifying power.

The pair of Dragon Eyes of Obliteration slowly turned to Zhao Fu, giving off a disdainful gaze. The space around it started to collapse, and it seemed like natural laws were being destroyed.

Zhao Fu immediately released his Emperor’s Domain to protect his body. However, under that terrifying gaze, the Emperor’s Domain could not withstand it and started to crack and shatter.

That terrifying power started to seep through the cracks and tear apart Zhao Fu’s body. A trace of blood leaked out of Zhao Fu’s lips, causing his gaze to become cold.

“Roar! Roar! Roar” three dragon’s roars sounded out throughout the sky, causing Heaven and Earth Spirit Qi to quickly gather. A domineering black flame first erupted around Zhao Fu’s body, followed by a mysterious violet flame and an eerie gray flame.

The three auras combined together, causing Zhao Fu's power to rise to its peak. Zhao Fu first closed his eyes, gathering all of the power onto his eyes before slowly opening them.

At that moment, the space in the surrounding 10,000 meters seemed to freeze as countless people's hairs stood on end, and a wave of coldness flowed through their hearts. The sky was torn as another pair of terrifying eyes appeared in the sky.

The left eye had six pupils, each giving off different auras: They included the Demon Race's aura, a killing aura, a heavenly aura, a disaster aura, a destruction aura, and a sealing aura.

The right eye was just as terrifying; it had vertical pupils with six gray dots around them, giving off an intensely cold and gloomy aura that resembled the Six Paths of Reincarnation.

How could such a pair of terrifying eyes exist? When the Dragon Eyes of Obliteration had appeared, everyone had felt fear, but these eyes were even more terrifying, making them feel absolute despair. Even their souls trembled, and under the gaze from those eyes, they felt as if their bodies could collapse and that their souls would be decimated.

A trace of coldness flowed through Bing Qixue's body; he was familiar with this coldness, as he had felt it when he had first met Zhao Fu's gaze. That pair of terrifying eyes came from Zhao Fu.

After experiencing Zhao Fu's true power, Bing Qixue looked slightly fearful, while the woman in black now looked terrified.

Long Yang and his women also looked quite terrified; how could that mysterious cloaked figure have such monstrous strength? Now, he felt that he had offended someone who should not be offended.

The experienced manager's body trembled, and he gulped as he muttered, "Just what eyes are these? They're much more terrifying than the Dragon Eyes of Obliteration!"

The Dragon Eyes of Obliteration in the sky did not even dare to meet the gaze of those terrifying eyes. They seemed to feel fear, and automatically exploded.

Zhao Fu successfully stepped onto the one hundred and eightieth step, passing through the sixth Danger Zone. He now walked towards the seventh Danger Zone step by step.

By now, each step that Zhao Fu took put him under immense pressure, causing his speed to fall. Now, it took him a few minutes to move to the next step, and even though Zhao Fu's speed was now quite slow, everyone watched with bated breath.

This person had really been able to break through the sixth Danger Zone; his strength was unimaginably terrifying. Just from those terrifying eyes, everyone felt that this person would definitely be at least second, if not first, in the Ancient Stem Domain.

Everyone now held boundless expectations towards Zhao Fu. If he could break through the seventh Danger Zone, he would indisputably become the number one ranked person on the Ancient Stem Rankings.

No one had broken through the seventh Danger Zone in hundreds of years; could this person do it? Everyone thought about it but were not sure.

Bing Qixue, Long Yang, and the manager did not say anything and continued to closely watch Zhao Fu.

The one hundred and eighty-first step!

The one hundred and eighty-second step!

The one hundred and eighty-third step!

The one hundred and eighty-fourth step!

After much difficulty, Zhao Fu came to the two hundred and ninth step. Ahead of him was the seventh Danger Zone, and it had been hundreds of years since anyone had reached here. Zhao Fu deeply breathed in and slowly stepped onto the step.

Boom!

A shocking explosion sounded out as the Ten Thousand Dragon Stage exploded out with intense golden light, forming a golden pillar of light. It gave off an unstoppable momentum as it shot into the sky.

The heavens and earth gradually dimmed as a berserk gale blew. Countless traces of spirit qi gathered, forming a massive vortex in the sky that gave off an immense aura of suppression.

From a distance, it looked like there was a thick haze covering this place, from which shockwaves rolled out. Countless people felt their bodies grow cold.

“Is this the seventh Danger Zeon?” The countless people below the Ten Thousand Dragon Stage looked up at the sky. They had never seen the seventh Danger Zone before, because no one had reached this place in hundreds of years. Even the person ranked first on the Ancient Stem Rankings could not do so.

“Roar!” Within the center of the vortex, a massive dragon’s roar sounded out, following which boundless golden light pierced through. The vortex became gold-colored as a golden figure gradually descended.

This figure had the body of a human but the head of a dragon. His hands and feet were dragon claws, and he was covered with golden dragon scales and had a dragon tail. He was six meters tall and had a powerfully-built body, and he held a dragon halberd.

“It’s a Dragon God! The seventh Danger Zone is a Dragon God!” many people cried out after sensing that terrifying aura. Of course, this was not a true Dragon God or the clone of a godly spirit but something that the Ten Thousand Dragon Stage had created from spirit qi.

Everyone’s gaze once again fell on Zhao Fu’s body. Facing a godly spirit-level aura, could he break through?

Chapter 1068: Dragon Halberd

The Dragon God in the sky gave off an incredibly powerful aura, causing the space in the surroundings to freeze. He coldly gazed at Zhao Fu and said in the Ancient Stem Domain’s common language, “Lowly human, you are not a match for Us. If you step down, you may live!”

Everyone was quite surprised that the Dragon God could speak. However, facing such a powerful Dragon God, would that person choose to continue?

If it was them, they would definitely stop. They were already satisfied after seeing what the seventh Danger Zone was like because the Dragon God's power surpassed anything they could imagine. It was almost comparable to a true godly spirit descending.

Bing Qixue hoped that Zhao Fu would continue because he wanted to see just how strong Zhao Fu was. When he thought of this, despite his steady personality, he felt quite excited. He already admitted that he was inferior to Zhao Fu; in the future, Zhao Fu's name would ring throughout the entire Ancient Stem Domain.

The woman in black's expression was quite unsightly; she had never thought that this person who they had casually met at the hotel would have such terrifying power. Thinking about how she had spoken to Zhao Fu before, her face became quite pale.

The cold-looking young man cursed at himself for being so blind. His attention had been drawn over by Ge Nia, but it was the other person who was truly terrifying. No wonder their Young Master paid such a great deal of attention to him.

Now, Long Yang wanted to sneakily leave. Zhao Fu's power was simply too great, and he might have a distinguished identity as well. After treating Zhao Fu like that, he had completely offended him, so it was best to leave as quickly as possible.

However, he also wanted to see if Zhao Fu had the power to break through the seventh Danger Zone. He had also long since accepted that he was inferior to Zhao Fu, and he was now somewhat afraid of Zhao Fu.

The manager was now fully focused as he looked at the figure on the stone steps. If he was able to make it past the seventh Danger Zone, the matter would become incredibly big, far beyond anything he was prepared for. No one had broken through the seventh Danger Zone in hundreds of years.

"Hmph! You're just something created by a formation. Even if it's a true godly spirit, I've killed one before," a cold harrumph sounded out, followed by words that sent the crowd into an uproar. Did he just say that he had killed a godly spirit before? Was that even possible?

Zhao Fu had indeed killed two godly spirits before; one was a demon god and one was a beast god. Of course, they were only clones, but he had obtained the God-Killer Profession, which had fused into his Emperor Profession.

“Arrogant!” The Dragon God roared in the sky. The shout was so deafening that everyone felt an immense pain in their ears. The Dragon God swung his halberd, seeming to tear space apart. An extremely powerful force swept towards Zhao Fu like a super storm.

Immediately, the magic formations around the Ten Thousand Dragon Stage were activated, protecting the City. Otherwise, it was possible for the Dragon God to destroy the entire City.

Facing this terrifying storm, Zhao Fu first released his Emperor’s Domain. However, in front of this shocking storm, the Emperor’s Domain quickly shattered, and the storm quickly reached his body, making it seem as if he was going to be blown away.

Boom!!

An explosion sounded out as three aura flames appeared, giving off powerful auras. The Emperor’s Domain once again spread out, defending against that terrifying storm.

“Lowly human, you are about to suffer the wrath of god!” Seeing that Zhao Fu had blocked this attack, the Dragon God looked slightly angry and once again attacked, stabbing his halberd towards Zhao Fu.

Boom!

A sharp light tore through space, giving off an intense destructive power as it struck Zhao Fu’s Emperor’s Domain like a bolt of lightning.

Crack!

A clear cracking sound could be heard as the sharp light collided with Zhao Fu’s Emperor’s Domain, resulting in countless cracks on the Emperor’s Domain. Much of the force passed through the Emperor’s Domain, forcing Zhao Fu five or six steps back before he stopped himself.

“The Dragon God is so terrifying!” After personally seeing the Dragon God’s horrifying power, the crowd was incredibly shocked. If it was them, they would have been turned to dust by that attack, and their souls would have been destroyed; they would not have been able to resist at all.

That person was powerful, but it seemed like he was going to lose. No wonder no one had been able to break through the seventh Danger Zone in the past hundreds of years; everyone understood now.

However, for that person to be able to stand in front of the seventh Danger Zone, he could already be incredibly proud of himself. It seemed that the number one person on the Ancient Stem Rankings was going to change. No one present had any objections.

“Is he really going to fail?” Bing Qixue looked at Zhao Fu seriously, not feeling very certain. The Dragon God was simply too powerful.

“Hurry up and give up!” Long Yang inwardly yelled. Zhao Fu was already dangerous enough, and he could already take the number one spot on the Ancient Stem Rankings. If he could break through the seventh Danger Zone, it would mean he was many times more dangerous; he did not want to offend such a monstrous person.

The manager also anxiously waited for the result because this matter was incredibly important, and it could shake even the higher-ups of the Ten Thousand Dragon Financial Group.

“Roar!!” The Dragon God once again attacked, raising its dragon halberd and causing a golden dragon that gave off a mighty aura to appear.

Boom!

The Dragon God swung his halberd, and the golden dragon gave off an incredibly destructive force, causing the space around it to tremble as it rushed towards Zhao Fu as if it could kill everything.

At that moment, Zhao Fu looked up and a golden aura flame erupted around him. This aura flame was filled with a sense of nobility, and it also possessed a destructive aura. Zhao Fu’s aura once again increased.

Everyone looked quite shocked; they had never thought that Zhao Fu still had reserve power, and it was so terrifying.

Facing the golden dragon, Zhao Fu grabbed at the air, causing the four aura flames around him to condense into a four-colored spear. Zhao Fu grabbed this spear and vigorously threw it out.

Boom!!

The spear gave off an unstoppable aura as it flashed out, directly piercing the golden dragon and continued onwards towards the Dragon God.

The Dragon God coldly harrumphed, raised his dragon halberd, and slashed out. A golden crescent split the four-colored spear in half, causing it to dissipate.

“Foolish mortal, with your power, you cannot harm Us!” the Dragon God raised its head and said with a trace of condescension.

Hearing this, Zhao Fu’s terrifying eyes looked at the Dragon God in the sky and gave a trace of a cold smile as he said, “Is that so?”

Boom!!

In that moment, Zhao Fu released the full power of his four Fate Dragons. The four aura flames around his body rose to hundreds of meters tall, and an incredibly powerful aura blasted out like an unstoppable tornado.

It was not just the crowd who was incredibly shocked at Zhao Fu’s terrifying power; even the Dragon God had a look of surprise on his face.

Zhao Fu was at the center of the storm, with wild gales blowing out. His body now hovered a few centimeters above the ground, and his black cloak fluttered in the wind.

Zhao Fu’s terrifying eyes coldly looked at the Dragon God in the sky, and he slowly raised a hand and grabbed at the air.

Clang, clang, clang...

The sounds of chains could be heard as countless chains shot out from all around. There were millions of them, and each of them contained shocking power, locking down the entire sky.

Chapter 1069: Seventh Danger Zone

The Dragon God was greatly startled and wanted to dodge, but the chains were everywhere and there was nowhere to dodge. He could only give off a powerful aura and continuously swing the dragon halberd, sending out golden crescents to destroy the incoming chains.

However, there seemed to be no end to the chains, and they rushed towards the Dragon God like a black tide. In the end, the Dragon God was unable to defend and was bound by countless chains in the sky.

Because the King's Crown had already fused into Zhao Fu's bloodline and become one of Zhao Fu's pupils, it belonged to Zhao Fu's bloodline powers, so he could use the chains here.

Everyone was completely dumbfounded; that powerful Dragon God, which was like a godly spirit, had been bound up by that person using countless chains. He had lost all face and suffered a great humiliation.

However, the scene of the chains covering the sky before was incredibly shocking.

That person's strength was simply outrageous, and only now had he used his full strength. He could actually fight against a godly spirit, making everyone feel dumbfounded. They would never have such strength in their entire lives.

Boom!

At that moment, a shocking explosion sounded out. The Dragon God looked furious as he released his full strength, causing boundless golden light to come out from his body and fall onto the ground.

From a distance, one could see that this place was now covered by a layer of golden light as if everything was made of gold. The flashing golden light caused many people to feel quite shocked.

After giving off the boundless golden light, the Dragon God now looked like a golden sun. Golden flames also appeared around him, and the aura around his body was already indescribable using words. The space around him even started to twist and crack.

Even with the magic formations protecting them, the crowd below the Ten Thousand Dragon Stage felt their bodies sink and found it harder to breathe. They could feel an aura of death approaching, and they could not help but retreat in terror.

Even Bing Qixue and the others were forced back a few steps. They looked at the Dragon God gravely; its power surpassed anything they had expected.

Long Yang stared at the Dragon God, hoping that it was powerful enough to kill this person. That way, it would be able to get rid of a threat for him. Facing the powerful Dragon God, he felt that Zhao Fu would most likely lose.

The manager could only watch in shock, unable to even speak.

Clang!

The sound of chains shattering could be heard as the countless chains binding the Dragon God started to collapse, unable to bear that terrifying power.

Boom!

Zhao Fu's expression did not change. He stretched out a hand towards the sky, causing a four-colored pillar of light to rush into the sky. The four colours started to spread throughout the sky: gold, black, gray, and violet, each taking up a portion of the sky.

“Four dragon's roars sounded throughout the sky, causing people's blood to boil. Everyone watched in shock as four Fate Dragons came out of Zhao Fu's body and flew towards the four-colored pillar of light, creating a dragon sword.

This dragon sword had four colors and there were four dragons wrapped around the hilt. The blade was three fingers wide and was covered with dragon scales, and it gave off an aura of destruction as if it could destroy worlds.

Zhao Fu raised his hand and grasped the hilt of the sword.

In that moment, everyone felt an insurmountable wave of danger flow through their hearts. All of their hair stood on end, and they felt as if they had plunged into icy water. Their bodies instinctively trembled, and they could not help but retreat in terror.

The Dragon God in the sky sensed the power from the sword, and it also looked quite afraid. It exploded out with its full power, wanting to escape from all of the chains.

Boom!

At that moment, Zhao Fu slashed out, causing a massive sword light containing unimaginable power to fly out. It seemed to cause the sun and moon to dim, and the heavens and earth seemed to split. The golden 'sun' in the sky was instantly cut in half by the sword light.

The Dragon God had a look of disbelief on his face as his body was cut in half, and he slowly disappeared into golden motes of light.

"He broke through the seventh Danger Zone!" the crowd shouted in excitement, their voices sounding out throughout the entire City. It had been hundreds of years since anyone had made it past the seventh Danger Zone, and now someone had done it.

"Just who is this person? He's simply too powerful!"

"So strong, I'm so excited just watching him. This person is definitely the most talented genius in the Ancient Stem Rankings; everyone else, make way for him!"

"Today, that person will definitely be recorded in the history of the Ancient Stem Domain. No one in the Ancient Stem Domain can compare to him and possibly even in the surrounding Domains!"

"I don't want to say anything, but how can he be such a powerful person? He's definitely a peerless genius. Any genius in front of him pales in comparison!"

Bing Qixue's expression was now one of full-blown shock, and it was the first time he had revealed this kind of expression. He could not have imagined that Zhao Fu could reveal such power; Zhao Fu had completely surpassed his expectations.

At the same time, Bing Qixue took a blow to his self-esteem because Zhao Fu was on a completely different level to him. No wonder he did not want to become friends with him; it was because he was not qualified.

The woman in black was completely flabbergasted, and she did not dare to say anything else.

One of the seven beauties next to Long Yang whispered, “Hubby, let’s quickly leave this place!”

Long Yang’s expression was quite unsightly. Zhao Fu was too powerful and dangerous. If conflict erupted later, the outcome would be too terrifying. He might have made a horrifying enemy for the Eight Dragons Essence Sect, and it was best to leave as soon as possible before the matter escalated too much.

However, Long Yang could not quite accept that the gap between him and Zhao Fu was so great. There was still a final Danger Zone on the Ten Thousand Dragon Stage, and no one had ever broken through it before. It had always been a legend within the Ancient Stem Domain, and he did not believe that Zhao Fu could make it through.

As such, he decided to stay to watch Zhao Fu fail.

The manager looked incredibly shocked and excited. His voice trembled as he watched Zhao Fu step past the seventh Danger Zone, and he said, “H-Hurry and notify the higher-ups that someone has broken through the seventh Danger Zone. We must report this at all costs; I’ll bear the consequences.”

Seeing how serious the manager was, the attendant hurriedly nodded and quickly left.

Within the headquarters of the Ten Thousand Dragon Financial Group, a group of people giving off powerful auras were talking within a meeting hall. One of them, an elegant-looking middle-aged man, lazily lifted his teacup and prepared to take a sip when suddenly someone burst in.

All of these major figures slightly frowned; they were discussing important matters and someone had rudely rushed in. They were naturally quite displeased.

The person cried out anxiously, “Reporting to seniors, someone broke through the seventh Danger Zone on the Ten Thousand Dragon Stage and is heading to the eighth Danger Zone!”

“What? Someone was able to make it past the seventh Danger Zone? This hasn’t happened in hundreds of years. Who is that person? Which faction’s genius is it?”

All of these major figures were greatly shocked. As the strongest people in the Ten Thousand Dragon Financial Group, they knew about the power and secrets of the Ten Thousand Dragon Stage. They knew how difficult and dangerous the seventh Danger Zone was, or else it wouldn’t have gone hundreds of years without anyone making it past.

Chapter 1070: Emperor’s Aura

As such, these major figures were all quite shocked and took this quite seriously. One of them asked, “Just what sort of person broke through the seventh Danger Zone? Is he the person the Ten Thousand Dragon Financial Group has been waiting for this entire time?”

The attendant nervously replied, “We don’t know who he is, but he seems to have connections with two geniuses on the Ancient Stem Rankings. We have no other information about him.”

After hearing about this, the elegant-looking middle-aged man almost dropped his teacup. He looked at the others seriously, and they understood his intentions. They all turned into powerful rays of light as they flew towards the Ten Thousand Dragon Stage.

Now that such a big thing had happened, they had to personally go and take a look. The Ten Thousand Dragon Stage was incredibly important to the Ten Thousand Dragon Financial Group.

Zhao Fu was currently walking up with great difficulty towards the last Danger Zone. Each step gave off immense pressure, and ordinary people would be directly squished into meat paste by that pressure.

Powerful auras descended as the Ten Thousand Dragon Financial Group’s higher-ups arrived. They looked at the cloaked figure on the Ten Thousand Dragon Stage, and their expressions became solemn, a look of expectation in their eyes. Zhao Fu was the only person in hundreds of years who had a chance of breaking through the eighth Danger Zone.

However, even if Zhao Fu could not break through the eighth Danger Zone, just breaking through the seventh Danger Zone was enough for them to treat him importantly.

After seeing that the Ten Thousand Dragon Financial Group's higher-ups had arrived, the crowd cried out in shock. At the same time, news of the seventh Danger Zone being broken through quickly spread, causing countless people to be shocked and rush towards the Ten Thousand Dragon Stage.

More and more people gathered, forming an ocean of people. There were now over ten million people gathered.

Everyone watched on with hope and expectation as Zhao Fu reached the eighth Danger Zone, and he stepped onto that final step.

Immediately, everything under the heavens seemed to go deathly silent, and countless people felt as if they had been bound by a massive and formless power. They could not move at all, making them feel as powerless as a grain of sand within an ocean.

The ten or so higher-ups from the Ten Thousand Dragon Financial Group were also incredibly shocked as they sensed those terrifying ripples from the Ten Thousand Dragon Stage. They too had been bound.

Boom! Boom! Boom...

The Ten Thousand Dragon Stage gave off a large amount of golden light and exploded out with pillars of light that shot into the sky. Ten thousand pillars of light rushed into the sky, giving off sounds that rocked the surroundings and causing everyone to feel great shock.

The scene was even more frightening from a distance. The 10,000 pillars of light gave off heaven-shaking auras, standing between the heavens and earth.

“Roar, roar, roar...” Dragon's roars sounded out from the pillars as the dragons engraved on them seemed to come to life. They left the pillars and turned into different dragons as they soared to the sky.

The dragons spiraled in the sky, their incredibly vast might weighing down on countless people's bodies like the sky itself. Most people could not endure this, and they felt as if their bones were going to be broken, so they quickly retreated.

Now, not a single person dared to step within 1,000 meters of the Ten Thousand Dragon Stage, including Bing Qixue and the Ten Thousand Dragon Financial Group's higher-ups.

Luckily, there were the magic formations, reducing the might by many times, but it was still incredibly terrifying. It was not something they could endure at all, yet Zhao Fu had to directly face that monstrous might.

The Ten Thousand Dragon Stage's eighth Danger Zone was ten thousand dragons, and this was the final challenge. Their strength surpassed even the Dragon God.

Zhao Fu released the four Fate Dragons' power, but he still felt incredible pressure. His knees were bent as if he was going to fall to his knees, and blood started to leak out of his body.

"Roar!!" The 10,000 dragons in the sky suddenly stopped, looking at Zhao Fu with their eyes. They then gave off a heaven-shaking roar, the soundwaves almost corporeal and seeming to be able to destroy everything.

The Emperor's Domain that Zhao Fu released instantly shattered. His body flew back ten or so meters, and he coughed up a large mouthful of blood.

"Is it over?" Everyone was quite disappointed as they watched Zhao Fu being injured so heavily. It seemed that he would not be able to break through the eighth Danger Zone.

With the power of the eighth Danger Zone, it was likely that even a godly spirit would not be able to break through it. However, for that person to break through the seventh Danger Zone, it was already quite shocking.

Bing Qixue did not say anything and continued to seriously look at Zhao Fu.

Long Yang let out a sigh of relief. The eighth Danger Zone was simply too terrifying, and that person definitely would not be able to make it.

The higher-ups of the Ten Thousand Dragon Financial Group could not help but feel disappointed. It seemed that this person would fail too; since the Ten Thousand Dragon Stage had been created, no one had been able to reach the top.

“Arghhhh!!” Under the 10,000 dragons’ might, Zhao Fu felt his blood boiling. He shouted, causing his suppressed Emperor’s aura to explode out like a volcano.

Boom!!

A shocking explosion rang out, causing the space around him to collapse. This was an Emperor’s aura that resulted from burning Zhao Fu’s blood, and it was as if a massive heavenly hand had slammed against the ground.

Everyone below the Ten Thousand Dragon Stage felt as if their heads had exploded, causing their minds to go blank. Their legs weakened, and they knelt on the ground.

Only Bing Qixue, Long Yang, and the Ten Thousand Dragon Financial Group’s higher-ups managed to resist that Emperor’s aura; everyone else was unable to resist at all.

“How is this possible?” In front of that incredibly supreme Emperor’s aura, everyone looked incredibly shocked. Their souls felt as weak as glass, crumbling under the Emperor’s aura.

That terrifying Emperor’s aura flooded out in all directions, submerging countless regions; nothing could stop it.

This Emperor’s aura, which could cause all creatures to submit, made even the 10,000 dragons’ might seem weaker in comparison. They could not rival it at all; this person was like a supreme Emperor.

Bing Qixue’s face was pale, and he could now guess at Zhao Fu’s identity. He had such pure Emperor’s blood, and he was definitely the Legatee of an Empire. His identity was incredibly prestigious, and he was not something he could compare to.

In front of Zhao Fu, a Crown Prince of a Royal Kingdom like him was nothing. No wonder he was so powerful, and it also explained why he had not wanted to become friends with him. Bing Qixue now understood it all.

Long Yang's expression was now unsightly to the extreme; how could such a terrifying existence suddenly appear? He had messed up greatly this time, and it was possible that he would be destroyed because of it. Why did he have to offend this person? Long Yang felt immense regret.

The Ten Thousand Dragon Financial Group's people also looked incredibly shocked; they had never thought that this person would be the Prince of an Empire. That Emperor's aura was incredibly monstrous, and it was possible that it was no ordinary Empire either. This person's identity was simply too shocking, shocking people to death!
