Chapter 1251: Ghostly Hand

Boom!

The instant that Bai Shengjun was sent flying, he stretched out a hand and grabbed towards Zhao Fu, causing a massive flaming hand giving off immense heat to fly towards him.

Zhao Fu was startled and he immediately released his Emperor's Domain. The massive flaming hand crashed against the Emperor's Domain, and Zhao Fu was also sent flying back.

Bai Shengjun stopped his body and slashed out a five-colored crescent, tearing through space as it flew towards Zhao Fu.

Zhao Fu also slashed out a blood-red crescent, which gave off ferocious power as it slashed towards Bai Shengjun.

Bang!

The two crescents collided, resulting in another massive explosion. The shockwave turned into wild wind that blew in all directions, causing boulders to roll and trees to tremble.

By the side, Syndra watched the battle between the two people in shock. This was the first time she had seen such a terrifying battle, and even though Bai Shengjun was undoubtedly powerful, luckily the person she had submitted to was quite good as well. Otherwise, she would have been killed by Bai Shengjun.

The terrifying aura coming from here caused everyone on the fourth level to look quite shocked and afraid. They could not help but gather here, wanting to know what was going on.

However, as they came closer, those terrifying ripples became more and more intense, and the destructive aura grew greater and greater. Everyone felt as if they had fallen into an icy cavern, and their bodies uncontrollably trembled.

Boom! Boom! Boom...

Explosions blasted out in the sky as the five massive beasts gave loud roars and exploded out with terrifying power. The five swords also gave off even more intense sword light, and the two sides vehemently clashed together, sending the world into chaos.

“Five Elements Sword!” Bai Shengjun pointed his Five Elements Sword at the sky and a massive sword light shot into the sky. The sky seemed to explode, and a shockwave blasted out, dissipating all clouds and the black aura, causing the blue sky to appear.

Shing! Shing! Shing...

Five sword hums tore through the sky as five sword lights descended from the sky. They were gold, green, blue, red, and yellow, and the descent of the five sword lights caused the world to violently tremble as the power of the five elements madly gathered.

Five massive swords of light giving off apocalyptic power hung in the sky, causing the world to fall into terror.

Zhao Fu’s expression became grim as he equipped the Death Race Sword, and Zhao Fu sent his own power and the Six Paths Demon Images’ power into it.

Boom!

In that moment, the Death Race Sword gave off a massive sword hum, and countless traces of deathly aura exploded out like a volcanic eruption. The deathly aura instantly covered the surrounding 10,000 meters, and Zhao Fu’s figure was also covered by the dense deathly aura.

Suddenly, the deathly aura started to spin, forming a vortex of deathly aura. Zhao Fu held the Death Race Sword as he stood at the center of the vortex, and a massive amount of Heaven and Earth Energy was absorbed, causing a boundless deathly intent to cause the world to seem to freeze.

That eerie and cold aura seemed to make the world feel dead, and everything turned a deathly grey color. There were no traces of life, and the surrounding darkness aura was pushed out as well.

Zhao Fu’s gaze was cold as he looked at Zhao Fu, and his five-colored sword descended.

Boom! Boom! Boom...

The five massive swords of light hanging in the sky pointed down towards Zhao Fu and shot out incredibly quickly, bringing with them five massive air currents. They gave off thunderous sounds as they shot towards Zhao Fu, and five sword gashes seemed to appear in the sky.

At that moment, Zhao Fu raised his sword flat, and countless traces of deathly aura flowed out. The vortex of deathly aura gave off boundless deathly intent as it quickly spun, giving off a massive might.

Bang! Bang! Bang...

The five swords of light brought with them terrifying power as they shot into the vortex of deathly aura. The incredibly sharp sword light gradually pierced through the vortex of deathly aura, causing the vortex to start to become five-colored.

However, the vortex of deathly aura continued to spin, and the boundless deathly intent continuously reduced the power of the five swords of light.

“Arghhh!” Bai Shengjun roared as he stabbed forwards with his five-colored sword, causing the five swords of light within the vortex of deathly aura to explode out with even more intense sword light. They pierced through the vortex of deathly aura, causing the vortex to dissipate.

The five swords gave off resplendent light and unstoppable power as they blasted towards Zhao Fu.

Bang!

A heaven-shaking explosion sounded out as the countless traces of deathly aura were instantly absorbed by the Death Race Sword, causing it to give off an incredibly terrifying deathly intent. Zhao Fu vigorously slashed out, sending out a massive gray sword light that cut against the five swords of light.

The five swords of light exploded, and the shockwave blasted Zhao Fu back, causing him to cough up a mouthful of blood. The webbing between his thumb and index finger was also torn.

Clang!

The instant Zhao Fu was blasted back, the golden pupil in his left eye quickly spun, causing countless chains to shoot out from the air, each of them containing immense power as they shot at Bai Shengjun.

Bai Shengjun was given a big fright and a five-colored barrier spread out. The chains heavily slammed against the barrier, causing it to violently tremble, and it was soon pierced by the countless chains.

However, much of the power of the chains had been dispelled, and Bai Shengjun sent out a few sharp sword lights, destroying the incoming chains and causing them to fall like rain.

“Roar!!” However, at that moment, a massive wave of eerie ghostly qi appeared around Bai Shengjun. It formed a 300 meter tall ghost with two horns, and it heavily smashed its fists towards Bai Shengjun. Bai Shengjun’s body plummeted like a sandbag and smashed open a crater on the ground.

Zhao Fu appeared above the crater and raised the Death Race Sword. Countless traces of sword light spilled out, and Zhao Fu prepared to slash down.

Bai Shengjun lay within the crater, a trace of blood leaking out of his lips. Looking up at Zhao Fu, who was about to attack, he slammed his palm onto the ground.

Bang! Bang! Bang...

Muffled explosions sounded out as hundreds of mud pillars shot out of the ground, slamming towards Zhao Fu.

Zhao Fu’s gaze was cold as he continuously slashed out with his sword, sending out sword lights to destroy the mud pillars, causing mud to fly everywhere.

Bai Shengjun took this opportunity to climb up and a powerful aura spread out as he gripped his five-colored sword with both hands and forcefully stabbed it into the ground.

Boom!

A pillar of lava that was six meters wide shot out of the ground with immense force. Its immense heat caused the surrounding temperature to sharply rise, and Zhao Fu was sent flying by that sudden burst of lava, causing his clothes to be burned.

Standing in the sky, Zhao Fu felt a slight sense of fury and he gathered a large amount of ghostly qi at his hand. Zhao Fu vigorously grabbed out, causing a ghostly hand that was hundreds of meters wide to give off boundless ghostly power as it slammed towards Bai Shengjun, wanting to turn him into meat paste.

Bai Shengjun's expression did not change as he gripped the five-colored sword that was stabbed into the ground. The pillar of lava formed a massive hand of lava that was hundreds of meters wide, and it gave off a searing and ferocious power as it swatted towards Zhao Fu.

Chapter 1252: Five Elements World

Boom!

A massive sound exploded out as the two massive hands clashed together and released an enormous shockwave. A searing heatwave rippled out, causing the surrounding water vapor to disappear, and countless plants withered.

“Ghost Devour!” Seeing that he was unable to hit Bai Shengjun, Zhao Fu roared and the six gray dots in his right eye quickly spun as countless traces of ghostly qi flowed out and savage ghosts sprang towards Bai Shengjun like a flood.

Bai Shengjun's gaze became slightly serious and he let go of the five-colored sword and started to perform hand seals with his hands, causing them to give off green light.

Boom!

Bai Shengjun pressed a hand against the ground, causing a powerful green light wave to spread out. Green vines burst out of the ground, bringing with them immense power as they shot towards the ghosts. In just an instant, countless ghosts were bound by the vines.

Zhao Fu coldly laughed as he cried out, “Ghostgod Soldiers!”

The bound ghosts turned into tufts of ghostly qi and formed various weapons. There were sabers, swords, staffs, axes, and the like, and they broke free from the vines in an instant and gave off sharp auras as they shot towards Bai Shengjun.

Bai Shengjun was startled and immediately released his five-colored energy barrier.

Bang!

A massive sound rang out as the over 10,000 ghostly weapons slammed against the five-colored energy barrier. The five-colored energy barrier instantly shattered and the countless ghostly weapons shot forwards, looking like they were about to pierce through Bai Shengjun’s body.

However, Bai Shengjun turned into a ray of light and shot into the ground and disappeared. The ghostly weapons stabbed into the ground, giving off muffled explosions and opening up a ten meter wide crater in the ground.

Shing!

In the next instant, Bai Shengjun appeared behind Zhao Fu and his five-colored sword gave off immense sword light as he vigorously slashed at Zhao Fu.

Zhao Fu’s heart tightened and his hairs stood on end as he swung backhanded and blocked Bai Shengjun’s attack.

“Hah!!” Bai Shengjun roared as a five-colored aura flame burst forth around him. A powerful wind blew out as Bai Shengjun slashed Zhao Fu backwards.

Zhao Fu quickly stopped his body and he coldly looked at Bai Shengjun as he raised the Death Race Sword. His Sovereign Bloodline burned as a massive Emperor’s might caused countless creatures to fall into silence.

Countless traces of deathly aura rushed forth and a figure wearing a palace dress appeared. Following this, that figure brought a wave deathly aura as it charged towards Bai Shengjun, seeming unstoppable.

The five-colored sword in Bai Shengjun's shot out countless rays of light and the five-colored aura flame around him shot up to three meters high. Bai Shengjun vigorously slashed and a five-colored sword light giving off an aura that seemed to be able to slash through anything flashed out.

Bang!

The massive five-colored sword light clashed with the tide of deathly aura and boundless sword light and deathly aura shot everywhere. In the end, the deathly aura won out, shattering the five-colored sword light and slamming Bai Shengjun down from the sky.

After falling to the ground, Bai Shengjun said with a trace of anger, "I admit that you're very strong; if it was before, I would not be able to defeat you. However, I'm not the same Bai Shengjun from the boundary regions."

Boom!

After speaking, a five-colored pendant giving off intense light floated out from within his clothes. An unimaginably powerful energy rushed forth like a fountain, and the ground and air could not withstand this energy and started to collapse.

Massive rays of five-colored light blasted down from the sky, causing the world to fall into silence in terror.

The golden dragon said, "That person used the power prepared for him by a higher-being; Zhao Fu, you need to be careful."

Hearing this, Zhao Fu nodded seriously.

"Five Elements World!" Bai Shengjun roared out as a five-colored energy barrier giving off incredibly destructive power spread out quickly. A shocking explosion sounded out as the ground collapsed and everything in the surrounding 100,000 meters were reduced to nothing.

A 100,000 meter wide and hundreds of meters deep crater appeared on the ground. Within the crater there was a 10,000 meter wide five-colored energy barrier that looked like an entire world. It had its own ground, sky, creeks, grass, and mountains.

This 10,000 meter wide five-colored energy barrier continuously devoured the source energy around it, causing the space around it to continuously collapse. The heavens and earth became dim and clouds swirled as bolts of lightning descended, and it was as if it was the end of the world.

A trace of killing intent flashed in Bai Shengjun's eyes as he looked at Zhao Fu and said, "Today is the day of your death. Do you have any last words?"

Zhao Fu coldly harrumphed and asked in response, "Is that so? Say those words after you show me you have the strength to kill me!"

Boom!

An explosion sounded out as a ghostly aura flame that was dozens of meters tall burst forth around Zhao Fu's body, and an eerie wind blew out in all directions.

Bai Shengjun did not say anything else and coldly stretched out a hand towards Zhao Fu. He forcefully pushed out, and the 10,000 meter wide five-colored energy barrier slammed towards Zhao Fu like an entire world.

It was incredibly fast and space continuously collapsed, and the pressure it gave off reduced smaller rocks to dust. Even godly spirits would feel terror and be unable to stop it.

The 10,000 meter wide five-colored energy slammed towards Zhao Fu, and it looked like Zhao Fu was about to be smashed into meat paste.

Swish!

At that moment, Zhao Fu tore off the clothes in front of his chest, and a gray pearl floated out onto his chest as six chains shot out.

Boom! Boom! Boom...

Six explosions sounded out, causing the world to tremble before falling silent. A heaven-toppling wave of ghostly qi descended, causing the world to seem to become a ghost world. Six 1,000 meter tall figures giving off world-destroying power appeared in the sky.

Those were the Six Paths Demon Images in their peak condition!

The 10,000 meter wide five-colored energy barrier gave off a world-destroying aura as it slammed towards Zhao Fu. However, the six 1,000 meter tall Demon Images raised their massive arms and swatted down towards that five-colored energy barrier.

Boom!

A shocking explosion sounded out as the 10,000 meter wide five-colored energy barrier was slammed into the ground, causing a shockwave to ripple out. The ground was blasted apart, causing boulders to be reduced to dust and countless trees were uprooted as a crater that was tens of thousands of meters wide appeared.

Bai Shengjun had a trace of shock on his face; he had never thought that Zhao Fu would have such an attack hidden. He had thought that using the Five Element Spirit Stone would be enough to kill Zhao Fu, but it seemed that he had underestimated Zhao Fu.

The Six Paths Demon Images surrounded the 10,000 meter wide five-colored energy barrier. They raised their arms and gave off incredibly destructive power as they slammed them down towards the five-colored energy barrier.

From a distance, it looked like this place was covered with dark clouds, and it flashed with terrifying lights. Incredibly destructive shockwaves continuously rippled out from there as well.

Shi Shuge, Ming Jian, You Quan, and others had already arrived at the fourth level and headed in that direction. As they came closer, they were forced to stop because they found out that one of those auras belonged to Zhao Fu.

What was going on? That Emperor was fighting with another peerless genius, and the aura from this battle was many times more terrifying than that previous battle.

Chapter 1253: Five Elements Extermination

Bai Haoran's expression was slightly grim as he looked ahead, because he knew who it was fighting against Zhao Fu. He was extremely familiar with that aura; it was his big brother, Bai Shengjun.

Before, he had thought that with his big brother's unrivalled talent, he should be able to suppress Zhao Fu. However, after witnessing Zhao Fu's power, Bai Haoran no longer thought that way. However, he never thought that the two of them would have started fighting so quickly.

Looking at the region covered with dark clouds, and seeing those shockwaves continuously blast it, it was evident that the battle was abnormally intense.

Boom! Boom! Boom...

The Six Paths Demon Images raised their massive hands and gave off terrifying as they slammed down onto the five-coloured energy barrier, resulting in explosions that created intense winds.

The five-coloured energy barrier was incredibly tough, and despite suffering so many attacks from the Six Paths Demon Images, it still had not shattered. It only trembled and did not even crack yet.

However, Bai Shengjun understood that being attacked like this by the Six Paths Demon Images, the Five Elements World would be destroyed sooner or later. He had to escape from this suppression.

Boom!

Within the five-coloured energy barrier, Bai Shengjun started to perform hand seals and five different-coloured orbs of light appeared around him. After these five orbs appeared, the five-coloured energy barrier gave off even more intense five-coloured light, and exploded out with a wave of terrifying power.

This power was extremely great and forced back the Six Paths Demon Images surrounding the five-coloured energy barrier a few steps.

The 10,00 metre wide five-coloured energy barrier gave off terrifying might as it quickly rose into the sky. From the distance, it was possible to see a five-coloured orb of light giving off a monstrous aura as it hung in the sky.

“Five Elements Extermination!” Bai Shengjun coldly looked at Zhao Fu. He had finished performing his hand seals, and the five orbs of light around him suddenly exploded.

Boom!

A shocking explosion blasted out as the five orbs of light gave off brilliant light, looking like five different-coloured suns.; at the same time, a world-destroying five elements destructive power spread out. The surrounding space, ground, trees and rocks were all reduced to dust.

Those who were heading over to see what was happening all froze on the spot. The terrifying aura coming from ahead filled the air, and seemed to be everywhere.

In that moment, their bodies could not help but tremble out of an instinctive fear. They knew that if they continued ahead, they might die.

At that moment, everyone could only stop and look towards the distance in shock. The five-coloured sun in the sky dispelled all of the darkness in the fourth level.

There was a 100,000 metre wide, 1,000 metre deep crater in the ground, and it was still collapsing. Zhao Fu and the Six Paths Demon Images stood in the air, withstanding the power of the five-coloured sun, but it was extremely painful, as if his body was being gradually torn apart.

Zhao Fu led the Six Paths Demon Images and descended to the ground. The ground was more favourable for the Six Paths Demon Images, because underground was the Underworld.

Boom!

Under Zhao Fu’s control, the Six Paths Demon Images half-knelt on the ground and pressed their hands against the ground. The ground instantly collapsed and a grey magic formation appeared. A wave of Yin Qi exploded out like a volcanic eruption.

Zhao Fu stood at the centre of the Yin Qi, between the Six Paths Demon Images. His body absorbed the boundless Yin Qi, and his body seemed to become ghostly. His jet-black long hair became grey-white, and his eyes became filled with eeriness and coldness. At the same time, Zhao Fu's aura became extremely powerful.

Zhao Fu raised his head and looked at the five-coloured sun in the sky. The six grey dots in his right eye quickly spun and the Six Paths Demon Images roared as they once again vigorously pressed down against the ground.

Clang! Clang! Clang...

Massive sounds of chains sounded out, shaking the sky, as massive grey chains giving off cold and eerie auras shot out from the ground towards the five-coloured sun in the sky.

Clang!

The five-coloured sun giving off blinding light as bound by the hundreds of thousands of chains that shot out from the ground. This was an incredibly shocking scene, and from the distance, it looked like chains from the Underworld had bound up that five-coloured sun.

After being bound by the countless chains, the light from the five-coloured sun became dimmer and dimmer, and its destructive power was gradually sealed, causing Bai Shengjun's expression to fall.

Boom!

Bai Shengjun raised a hand and roared, and a five-coloured aura flame erupted around his body as a powerful aura spread out. The five-coloured energy barrier which had been dimming flared to life again and started to slowly spin as it fought against the binding of the chains.

Zhao Fu looked at Bai Shengjun and coldly harrumphed as the six grey dots in his right eye spun even faster, and grey blood started to flow out.

Clang, clang, clang...

More chains shot out from the ground. There were over 100,000 of them and each was 1 metre thick. They gave off massive cold and eerie power as they shot towards the five-coloured sun in the sky, once again binding the five-coloured sun in an instant.

Bai Shengjun loudly roared as he exploded out with even greater power. he controlled the five-coloured energy barrier, trying to break free of the countless chains, which gave off clanging sounds. Waves of destructive aura spread out from the sky, shaking the sky.

A savage look appeared in Zhao Fu's eyes as he raised a hand and vigorously grabbed out.

Boom!

The chains went taut and started to pull downwards as a terrifying ghostly power vigorously dragged the five-coloured sun in the sky down to the ground. It crashed onto the ground, creating a terrifying shockwave, destroying the ground and obliterating countless trees.

Within the five-coloured energy barrier, Bai Shengjun coughed up a mouthful of blood. After crashing down from the sky, he had been greatly injured.

The five-coloured energy barrier was now bound by countless chains on the ground, and the blinding five-coloured light had disappeared.

The Six Paths Demon Images stood up and grabbed at the air, causing boundless Yin Qi to flow out and form different weapons, and they once again surrounded the five-coloured energy barrier.

Boom!

The Animal Demon Image, covered with muscles, gripped its fist and punched out with incredibly destructive power, causing the air to explode. The power slammed against the five-coloured energy barrier, causing it to tremble.

Bang!

The Hungry Ghost Demon Image raised its bone knife and savagely hacked down towards the five-coloured energy barrier, bringing with it a powerful knife wind. The knife slashed against the five-coloured energy barrier, causing it to once again violently tremble.

Clang!

Another massive sound blasted out as the Hell Demon Image raised its pitchfork and gave off ferocious power as it stabbed towards the five-coloured energy barrier, causing a slight crack to appear.

The Six Paths Demon Images continuously attacked ferociously, causing powerful winds to sweep out. The five-coloured energy barrier gradually became covered with cracks, and looked like it would be shattered soon. Bai Shengjun's expression became more and more unsightly.

Chapter 1254: Blood Giant

A trace of a cold smile appeared on Zhao Fu's face as he had the Six Paths Demon Images continuously attack. The Heaven Demon Image held a spear and exploded out with a shocking aura as it prepared to give the five-colored energy barrier the final strike.

Suddenly, a figure appeared in front of Zhao Fu and punched Zhao Fu away. Zhao Fu's body flew backwards and smashed open a large crater on the ground.

As this happened, the Heaven Path Demon Image's attack stopped.

Zhao Fu crawled up from the ground and coughed out a mouthful of blood as he furiously looked at the white-haired young man in front of him.

The white-haired young man was the person who had been ranked second. He had been heading to the third level, but after sensing the terrifying shockwaves from this place, he had quickly rushed over. After seeing Zhao Fu and Bai Shengjun fighting, he had not hesitated to help Bai Shengjun.

After all, Zhao Fu being ranked first affected his plan greatly, so he had to get rid of this threat.

The white-haired young man looked at Bai Shengjun and said with a trace of an imposing tone, "Let's join together to kill this person!"

Bai Shengjun agreed without even having to think about it. After all, Zhao Fu was now his enemy, and the white-haired young man would be helping him. He had to obtain that Darkness Origin Crystal to progress the cultivation of his Art and form the Yin Yang Five Elements World.

Seeing that yet another terrifying expert had appeared, Syndra felt quite shocked and started to feel afraid. She started to retreat and planned to escape.

She had only just submitted to Zhao Fu, so she did not have much loyalty towards him. Moreover, she would not be of any help in a battle of such a level.

The golden dragon looked at the white-haired young man and said to Zhao Fu, "This person's aura is very strange; he most likely used some kind of concealing power to enter the Cosmos Historical Remnant. You must be careful; he's extremely terrifying."

Hearing this, Zhao Fu became serious. He did not understand why this white-haired young man had gotten involved; there seemed to be no grievances between them.

Swish!

The white-haired young man disappeared and appeared in front of Zhao Fu. His hand was like a sharp claw and gave off five rays of cold light as he grabbed at Zhao Fu.

Bang!

A muffled explosion sounded out as Zhao Fu dodged to the side and the white-haired young man's attack slashed out a two meter deep claw print on the ground.

Zhao Fu looked at the white-haired young man furiously. Now that he had joined in, he could only continue to fight. Following this, Zhao Fu prepared to control the Six Paths Demon Images to attack the white-haired young man.

However, how could Bai Shengjun allow Zhao Fu to do as he wished? He stretched out a hand and five-colored tentacles giving off powerful auras shot out and wrapped around the Six Paths Demon Images. He would be responsible for tying down these six monsters.

Zhao Fu's expression fell. Now that he was unable to use the Six Paths Demon Images' power, the situation had become quite dangerous. Now, he started to consider if he should run away.

However, just as Zhao Fu started to move, the white-haired young man grabbed at the air and countless traces of blood-red aura flowed out and condensed into a blood-red spear, which gave off a savage aura as it shot towards Zhao Fu.

Zhao Fu held the Death Race Sword and vigorously slashed out, sending out a gray sword light that destroyed the incoming blood-red spear.

The white-haired young man held a spear as he rushed up and pierced towards Zhao Fu's throat. The incredibly sharp aura caused Zhao Fu's hairs to stand on end.

However, Zhao Fu did not move. Countless traces of black aura gathered at his feet and a black magic formation that was dozens of meters wide appeared, and it gave off a powerful aura.

Swish, swish, swish...

Black spikes that were three fingers wide gave off ferocious power as they shot out of the black magic formation. They could easily pierce through steel; it was the King's Profoundness skill that Zhao Fu had not used in a long time.

The white-haired young man's expression slightly changed as he grabbed with his hand and countless blood-red aura formed another blood-red spear. The white-haired young man held two spears as he spun like a whirlwind, giving off blood-red arcs of light that slashed apart the black spikes.

Zhao Fu raised the Death Race Sword, which gave off an intense light. He vigorously slashed out and a massive sword light flew towards the white-haired young man.

Bang!

The massive sword light gave off ferocious power as it destroyed the whirlwind, but the white-haired young man was gone.

Zhao Fu was startled and felt a sense of danger coming from behind, and he slashed out backhanded.

Clang!

The sword light and a blood-red spear clashed together, resulting in a massive collision sound. The spear that had been stabbing towards Zhao Fu was knocked off-course.

The white-haired young man coldly harrumphed and a massive amount of blood-red aura flowed out, forming an enormous blood-red tiger behind him. The tiger gave off a massive roar and fiercely sprang towards Zhao Fu.

72 blood-red energy orbs floated out of Zhao Fu's body, forming 72 blood-red spears. They simultaneously shot out, turning into rays of light, piercing through the massive blood-red tiger's body, and causing it to dissipate into blood-red aura.

Bang!

However, the white-haired young man had appeared at Zhao Fu's side and roundhouse kicked at Zhao Fu. The immense force blasted Zhao Fu flying.

Zhao Fu lightly coughed up a mouthful of blood and looked quite furious as he equipped the Sadistic Killing Sword. His Sovereign Bloodline started to burn as a terrifying Emperor's aura spread out. The blood-red Sadistic Killing Sword gradually became dyed a black color and gave off an Emperor's might as if it was an Emperor among weapons.

Boom!

A massive sound rang out as the Sadistic Killing Sword within Zhao Fu's hands gave off fathomless black sword light that seemed to be able to pierce through everything. It looked as if a black sun had descended, and the entire world sank down under the terrifying Emperor's might as even space itself seemed to be twisted.

Various images appeared around Zhao Fu's body: There were headless Angels, feetless Demons, Humans with only the upper halves of their bodies, Elves with only sides of their bodies, and countless soldiers who had died in battle.

The countless broken corpses giving off black light formed a black sea of corpses, and a terrifying destructive power spread out, causing the heavens and earth to go through changes.

Seeing this attack from Zhao Fu, the white-haired young man's expression became somewhat serious, and a massive amount of blood-red aura flowed out from his body.

After flowing out, the blood-red aura did not dissipate and instead circled around the white-haired young man. The blood-red aura became denser and denser, and a massive might spread out.

Boom!

An enormous explosion rang out as the blood-red aura grew more and more until it formed a 1,000 meter tall blood giant that gave off a gigantic aura and caused the world to seem to tremble.

Zhao Fu swung his sword and the massive sea of corpses gave off a world-engulfing aura and flowed towards the blood giant.

The blood giant held a spear and raised its head, and it gave off an enormous roar as it gave off a heroic and invincible aura as it charged over.

Boom!

The enormous black sea of corpses and the blood-red giant clashed together, resulting in a shocking explosion. Countless broken corpses dissipated into black aura after colliding with the blood-red giant, while the blood-red giant's strength was also whittled away.

Chapter 1255: Emperor Killing Sword

The clashing powers created a super storm and countless boulders were blown into the sky. Trees were uprooted and the heavens and earth were ravaged by the wind.

Bang!

The blood-red giant gave off a massive roar and exploded out with an even more intense aura as it threw out the blood-red spear in its hand.

The blood-red spear gave off terrifying power as it flashed through the air, leaving behind a faint blood-red trace. Countless broken corpses were dissipated, unable to resist that power at all.

Zhao Fu was quite startled because that spear was shooting towards him. Zhao Fu raised the Sadistic Killing Sword and sent a massive amount of Emperor's Power into it, causing the Sadistic Killing Sword to give off intense sword light.

Boom!

The massive blood-red spear gave off terrifying power as it flew towards Zhao Fu. Just as it was about to hit Zhao Fu, Zhao Fu slashed down with his sword, sending out an enormous black sword light, causing a gigantic explosion to sound out.

The blood-red spear was destroyed by Zhao Fu, but Zhao Fu's body was blown back by the shockwave.

"Roar! Roar! Roar..." Roars suddenly sounded out as the Six Paths Demon Images fighting with Bai Shengjun started to resist Zhao Fu's control over them.

This caused Zhao Fu's expression to become quite unsightly. He had let them out for too long, and the Ghostworld Pearl's sealing power was quickly weakening, resulting in the Six Paths Demon Images to start to resist. Six chains shot out from the Ghostworld Pearl on Zhao Fu's chest, stabbing into the Six Paths Demon Images' bodies and sending them back into the Ghostworld Pearl.

Bai Shengjun coldly laughed as he deactivated the Five Elements World. The five-colored energy barrier disappeared and Bai Shengjun flew over to pincer Zhao Fu.

Boom! Boom!

Two massive explosions sounded out as the white-haired young man looked at Zhao Fu with eyes filled with killing intent and a blood-red aura flame exploded out around him. Bai Shengjun coldly looked at Zhao Fu as a five-colored aura flame appeared around him.

Boom!

Facing the two people, Zhao Fu's gaze was quite serious as an eerie ghostly flame appeared around his body. Now that he had taken back the Six Paths Demon Images, he could use their power.

The white-haired young man attacked first. He turned into a ray of light and arrived before Zhao Fu, stabbing his blood-red spear towards Zhao Fu's chest.

Zhao Fu dodged to the side, and Bai Shengjun's five-colored sword gave off sharp sword qi as he slashed towards Zhao Fu. Zhao Fu's Sadistic Killing Sword gave off a sword hum as a black crescent flew out.

Bang!

The two sword lights clashed together, resulting in an enormous explosion. Countless traces of sword light flew everywhere, and a powerful wind spread out.

Boom!

The white-haired young man's spear gave off boundless blood-red light and an incredibly terrifying sharp aura spread out. The white-haired young man gripped this spear and ferociously stabbed at Zhao Fu like a wild beast. Zhao Fu hurriedly turned and stabbed out with his sword.

Bang! Bang! Bang...

Explosions continuously sounded out as the three people started to battle, causing the sun and moon to go dim and for clouds to chaotically swirl. Terrifying auras continuously spread out like a flood, inundating the fourth level.

This place was covered by thick, dark clouds, and terrifying thunder could be heard from within, as if there were ferocious beasts rampaging. Wild gales blew and the surroundings were filled with killing intent, causing the atmosphere to become bone-chillingly cold.

The people in the distance all looked incredibly shocked. The battle ahead was becoming more and more intense, and it was no longer two people, but three people fighting. The person who had joined was also a peerless genius.

Now, there were three peerless geniuses intensely fighting. This was an incomparable fight, and everyone could not help but wonder why these three people were fighting.

Even though they were curious, no one dared to get close because the auras coming from there was not something they could withstand. It would be incredibly easy for them to die.

Shi Shuge, You Quan, Ming Jian, and the others still decided to go over and have a look at what was happening that had caused the fourth level to sink into terror. They also wanted to see just how strong that Emperor was.

Bai Haoran also decided to go, mainly because he was worried about his big brother.

Bang!

Zhao Fu's body heavily crashed to the ground, opening up a ten meter wide crater. Within the crater, Zhao Fu coughed up a large mouthful blood. With his current power, he was not a match for those two people.

Bai Shengjun looked at Zhao Fu and said coldly, "You've lost. Before, I was thinking of sparing you, but it's impossible now; the risk of letting you off is too great. Perhaps you could leave the Cosmos Historical Remnant to survive, but I won't give you that chance."

The white-haired young man looked at Zhao Fu with a murderous look and said to Bai Shengjun, "Don't waste any words, kill this person quickly to avoid anything unexpected."

Zhao Fu coldly looked at the two people as he powerlessly lay within the crater, looking like he was about to die. The white-haired young man and Bai Shengjun leapt forwards, wanting to end Zhao Fu.

Boom!

A shocking explosion sounded out, and the sky seemed to be unable to withstand that ferocious killing intent and started to crack. Boundless sword light descended, causing the heavens and earth to fall silent as the cold killing intent seemed to fill the world.

Lying on the ground, Zhao Fu grabbed at the air and a black and blood-red sword was grabbed into his hand. Boundless sharp sword qi exploded out, quickly spreading out and everything in its way was cut apart.

The white haired young man and Bai Shengjun's expressions fell and they quickly unleashed their defensive barriers as they retreated.

After everything settled, a 10,000 meter wide and hundreds of meters deep crater had appeared in the ground. Traces of terrifying sword qi rose up from the ground.

Zhao Fu stood in the sky holding a sword. His cloak was torn apart and his upper body was unclothed. Zhao Fu's handsome face was revealed; both of his eyes had become blood-red and a blood-red sword mark had appeared on his forehead. His blood-red head fluttered in the wind, and he gave off a killing intent that seemed to be able to freeze time.

The white-haired young man and Bai Shengjun's expressions became serious. The ordinary-looking youth in the second level also sensed this power. He stopped walking and thought for a moment before sitting down cross-legged.

"The battle has only just begun; are you two prepared to die?" Zhao Fu looked at the two people with his blood-red eyes as he said murderously.

Boom!

After speaking, Zhao Fu raised the Emperor Killing Sword. Hazy monsters with blood-red eyes holding swords appeared around him. There were over 10,000 of them, and they gave off a heaven-toppling berserk killing intent.

Swish, swish, swish...

As Zhao Fu's sword descended, these sword souls' blood-red eyes locked onto the two people and turned into black blurs as they rushed forwards.

"Five Elements World!" Bai Shengjun's expression fell as he once again unleashed the Five Elements World. The five-colored energy barrier spread out from his body, containing mountains, lakes, trees, and grass. A world-like power exploded out.

“Blood Spirit God!” The white-haired young man’s expression was serious as he roared out. Countless traces of blood-red light flowed out, forming a 1,000 meter tall blood-red giant that gave off an incredibly ferocious aura.

Chapter 1256: Heavenly Punishment

Boom! Boom! Boom...

The 10,000 sword souls did not look like much, but each one had extremely terrifying power. They rushed forwards towards the two people and swung their blood-red swords, sending out sharp blood-red sword lights.

Bai Shengjun unleashed the Five Elements Extermination’s power, destroying the incoming sword souls. The white-haired young man formed the blood-red giant, which spewed out blood-red flames and incinerated the sword souls.

Shing!

A sword hum sounded out, tearing through the sky, as Zhao Fu suddenly appeared in front of Bai Shengjun. The Emperor Killing Sword in his hand slashed down, giving off heaven-toppling power and blasting Bai Shengjun back 1,000 meters, destroying a small mountain in the process.

The blood-red giant that the white-haired young man had formed roared as it stabbed the blood-red spear in its hands towards Zhao Fu, seeming to be able to pierce through the world.

Bang!

Zhao Fu swung backhanded and an enormous blood-red crescent tore through space and clashed with the spear. Zhao Fu remained in place, while the blood-red giant stumbled back five or six steps.

In just that exchange, the terrifying power that Zhao Fu gave off caused Bai Shengjun and the white-haired young man to feel a trace of fear within their hearts.

Boom!

Bai Shengjun did not hesitate as the five-colored pendant hanging in front of his chest gave off an intense five-colored light. An ocean of Five Elements power entered his body, and Bai Shengjun swung his sword, causing the five-colored energy barrier to cover the surrounding 10,000 meters, giving off a world-like might.

“Roar!!” The blood-red giant raised its head and roared as a blood-red aura flame erupted around it and its body became bigger and bigger. In the end, it became a 10,000 meter tall blood-red giant that gave off a world-destroying aura.

Zhao Fu wielded the Emperor Killing Sword with all of his might, causing it to give off an intense sword light, and the surrounding space seemed to be torn apart by sword qi.

Boom!

Zhao Fu turned into a ray of light and gave off a powerful aura as he shot towards the blood-red giant. The blood-red giant gripped its spear and stabbed out, seeming to cause space itself to explode.

Bang!

Zhao Fu slashed out, and an incredibly destructive strike landed against the spearhead. An enormous explosion sounded out as a terrifying shockwave blasted out. In front of those shockwaves, even Stage 9 Cosmos Beasts would not be able to survive.

Boom!

Bai Shengjun stretched out a hand towards Zhao Fu, and the five-colored energy barrier gave off an intense light and formed a ray of light that shot towards Zhao Fu with great power.

Bang!

Zhao Fu slashed out, sending out a massive blood-red crescent. It cut the incoming five-colored ray of light in half, causing it to scatter into motes of light.

The battle between the three people was incredibly terrifying, and the resulting shockwaves seemed like they could destroy the world, causing all living creatures to sink into fear.

Some people finally reached the outer bounds of the fight, and after looking at how destructive this battle was, they fell into shock. The area ahead had been completely flattened. All mountains and rivers were gone, and there were enormous craters and cracks everywhere. All plants had disappeared, and traces of destructive aura hung above the ground.

This was the scene of the battle? How terrifying! As expected from a battle between peerless geniuses: Only those top five monsters could do such a thing.

The top five had not disappointed the crowds from the beginning. Not only were they far ahead in terms of points, but their battles were also on the level of that of godly spirits.

However, what they saw next caused them to feel even more shocked because they saw two people attacking a single person. There were two geniuses working together to defeat another. Just how powerful was that single genius to be able to withstand the combined attacks from two other geniuses?

Following this, based on his aura, they found that the person fighting against two geniuses was that Emperor from before.

Bai Haoran looked incredibly shocked; he had never thought that his big brother would have to work together with someone else to defeat a person.

Boom!

A shocking explosion sounded out as the three people gave off terrifying power and clashed together, causing an extremely destructive explosion to blast out. Space itself was torn apart as three bodies flew backwards. After such a long battle, all of them had some injuries.

“Five Elements Extermination!” Now, all three people were furious and were filled with killing intent, thinking of all the ways to kill the other side. Bai Shengjun mustered all of his strength to unleash his most terrifying attack.

The 10,000 meter wide five-colored energy barrier rose into the sky and gave off brilliant light, making it look like a five-colored sun. A world-destroying Five Elements power descended, causing the space, ground, and everything within to start to disintegrate.

“One Heavenly Snake!” The 10,000 meter tall blood-red giant roared, causing large amounts of blood-red aura to flow into its blood-red spear.

The blood-red spear seemed to gain a life of its own as it condensed into a massive blood-red snake with dozens of eyes. It also gave off a world-destroying power, and everything around it started to collapse.

Boom!

Zhao Fu pointed the Emperor Killing Sword at the sky, and a blood-red sword light shot into the sky. A black and blood-red magic formation appeared in the sky, causing Heaven and Earth power to continuously gather as countless rays of black and blood-red light flowed out from the magic formation.

A supreme sword intent poured down, covering everything. Under this sword intent, everything turned into nothingness without any resistance.

Bai Shengjun gathered the Five Elements Extermination power into a single point, and the Five Elements World's power started to weaken as Bai Shengjun pointed out.

Boom!

A five-colored ray of light shot out extremely quickly, tearing through the heavens and earth in just an instant.

Boom!

The 10,000 meter tall blood-red giant threw out its snake-like spear, which gave off power that seemed to be able to destroy everything as it shot out like a red ray of light. Explosions sounded out as the spear continuously caused the space it passed through to explode.

Facing these two attacks, Zhao Fu's expression did not change. The black and blood-red magic formation in the sky started to slowly spin as an aura of extermination was brought forth, and Zhao Fu lowered his sword.

Boom! Boom! Boom...

Shocking explosions tore through the sky as the black and blood-red magic formation suddenly shot out fathomless blood-red sword light, seeming to tear the sky into chunks. Space shattered like a mirror, and as the sword light struck the ground, the ground too was obliterated.

Bang!

A massive explosion sounded out and the world seemed to collapse as the three attacks collided. Everything in the surrounding 100 kilometers was reduced to nothingness in an instant, and the terrifying shockwave spread out with thunderous momentum.

The ground continuously collapsed and massive boulders and trees were reduced to powder. Sand and dust filled the sky, and the ground violently trembled as if it was the end of the world.

Chapter 1257: Emperor Heaven

Chi!

Within a ravine, Zhao Fu coughed up a large mouthful of blood and climbed up from the ground with great difficulty. A dark figure suddenly leapt over, and Zhao Fu grabbed out with his hand, clamping onto that person's throat, and he saw Syndra looking at him with pity.

Only after hearing that there was no noise for a while did Syndra dare to come out. Because she had a master and servant relationship with Zhao Fu, she knew that Zhao Fu was still alive.

She had wanted to escape, but Bai Shengjun had locked onto her, so she could only stay put and remain close by.

If she really ran away, Zhao Fu would think that she had betrayed him. He would not stop Bai Shengjun from killing her, and he would only try to take the Darkness Origin Crystal from Bai Shengjun after.

“Sovereign! You’re so strong.” Zhao Fu let go and Syndra smiled as she came over and hugged Zhao Fu’s arm.

Zhao Fu ignored her words and asked, “How are those two people?”

Syndra shook her head as she replied, “I don’t know! I was just concerned with Sovereign’s safety, so I hurried over. There has been no noise from the other two, and they’re most likely heavily injured. Maybe they’ve been killed by Sovereign.”

Hearing this, Zhao Fu flew into the air and his pupils spun as he searched for the two people. They were two incredibly powerful enemies, so Zhao Fu would not let them off and definitely had to kill them.

Zhao Fu flew into the air and saw that the ground was in a complete mess. There were craters and deep ravines everywhere. There were no signs of life left, and some places had become canyons while other places had become flatlands.

After searching about, Zhao Fu found a corpse that looked like rotten wood. It was an elderly man’s corpse; that elderly man was incredibly ancient and seemed like he would have died of old age soon. The aura that the corpse gave off was that of the white-haired young man’s.

Zhao Fu had never thought that he would kill the white-haired young man, and he felt quite delighted. He would now have one less opponent.

The golden dragon looked at the corpse and said, “He wasn’t killed by you; his death was because of the backlash from some sort of secret technique. It was most likely after you heavily wounded him. Also, he’s a World Realm expert, so you should put his corpse away. There are most likely many good things on his body.”

Zhao Fu smiled; he understood the value of this corpse. There were most likely countless treasures within his spatial ring as well.

However, Zhao Fu did not go through it for now, and he instead went to look for Bai Shengjun.

After searching for a while, Zhao Fu concluded that Bai Shengjun had escaped, and he was most likely injured heavily. Zhao Fu was quite disappointed and could only give up. He found a hidden place to start to treat his injuries, which were quite severe.

Syndra served by his side. After seeing Zhao Fu's true strength, her loyalty increased greatly.

Those in the distance were also somewhat affected by the shockwaves. They had never thought that the final attack would explode with such terrifying destructive power to the point that it would seem apocalyptic.

Now that everything had fallen silent, everyone understood that the battle had concluded and looked at the rankings. Zhao Fu remained in first place, while the white-haired young man's position had disappeared; he had most likely left the Cosmos Historical Remnant.

Bai Shengjun's name was still there, but everyone understood that it was Bai Shengjun and the white-haired young man who had lost. For two peerless geniuses to lose even after joining together, that Emperor's power was simply horrifying.

Now, out of the original top five geniuses, only the previous top-ranked genius had not fought with that Emperor before. All of the other geniuses had lost.

Elsewhere, Bai Haoran supported the heavily-wounded Bai Shengjun and quickly ran, not daring to slow down at all out of fear that Zhao Fu would catch up.

Currently, Bai Shengjun's expression was quite desolate as he said weakly, "Haoran, I lost. Not only did I use the techniques Master gave me, but I also had to join forces with someone else and still lost."

Bai Haoran lightly nodded. To him, his brother was an invincible legend, yet this legend had been destroyed by someone today. However, Bai Haoran smiled confidently and said, "Big brother, I believe that you'll defeat him one day!"

Seeing how confident his little brother was in him, Bai Shengjun forced out a smile. Only he knew how difficult that would be.

Within a grand and majestic palace, Zang Mingyue stormed in and directly ran to the Zang Empire's imperial palace and shouted at the guards, "Hurry up and report to my Imperial Father that someone has humiliated the Zang Empire, and tell him to send over a few Emperor Heaven Realm experts."

After returning to the Zang Empire, Zang Mingyue thought about the humiliation he had received from Zhao Fu, and he planned to bring a few Emperor Heaven Realm experts to sweep across the outer Domains.

The most powerful people in outer Domains were World Realm experts. With a few Emperor Heaven Realm experts, he could completely ravage the outer Domains and kill whoever he wanted. He would be able to do as he pleased; this was the strength of an Empire.

The guards naturally felt quite hesitant about Zang Mingyue's orders but still cautiously reported this.

Within the imperial palace, a scholarly-looking middle-aged man was talking with a few young men with extraordinary bearings. Those young men all gave off dense Emperor's auras that were much stronger than Zang Mingyue's; they were all Imperial Princes of the Zang Empire.

A guard came up to report what Zang Mingyue had said.

One of the young men coldly harrumphed and said, "That boy's gone to make trouble again; this time he's run into a tough person and was taught a lesson, and now he wants to get back at him. Truly an embarrassment for the Zang Empire."

Another young man said condescendingly, "Apart from playing around, all he knows is how to play around. His strength is so much weaker than ours, and even though he's also an Imperial Prince, he's trash who doesn't know how to improve. We should just drive someone like him out of the Empire."

A handsome-looking young man frowned as he said, "Don't talk like that; after all, he's our Sixth Brother!"

Hearing the young man's words, no one else said anything. Evidently, this young man's authority within the Zang Empire was quite great.

The scholarly-looking middle-aged man sitting at the main position smiled as he looked at that young man appreciatively and said, “Wuyue, go and see what’s going on. Little Sixth was most likely taught a lesson, but no matter what, anyone who humiliates an Imperial Prince of the Zang Empire must die. An Empire’s dignity is not to be trampled on.”

The handsome-looking young man, Zang Wuyue, cupped his hands and left the palace and went to Zang Mingyue’s room.

Seeing Zang Wuyue arrive, Zang Mingyue felt quite happy. Out of all of his brothers, he was the closest with Zang Wuyue. He asked, “Big brother, why did you come? Did Imperial Father agree to giving me Emperor Heaven Realm experts?”

Zang Wuyue smiled as he said, “How could he give you Emperor Heaven Realm experts so easily? Even though there are many of them within the Heaven Domain, each of them are extremely precious. Even within the inner Domains, they are incredibly powerful.

“Also, tell me the specifics of what happened; what kind of person is the person who humiliated the Zang Empire’s people? If it can be dealt with easily, I’ll deal with it myself and bring you that person’s head. However, it would be for the best if you didn’t offend someone you shouldn’t haven’t offended!”

Chapter 1258: Early Stage Emperor Bloodline

Zang Mingyue happily said, “Thank you big brother. In actuality, I know when to hold back and not offend anyone whose status is too high. I went to the outer Domains and was taught a lesson by a fake; I’m so angry I could die. That fake actually had such immense power.”

“Fake?” Zang Wuyue asked curiously.

Following this, Zang Mingyue told everything that had happened to Zang Wuyue, from how he had encountered Zhao Fu to the battle that had taken place.

Zang Wuyue’s expression was quite serious as he asked, “You said that that person’s Emperor’s aura was not only stronger than yours but many times purer as well? But he didn’t have the Fate of an Empire?”

Zang Mingyue nodded as he said, "I also felt that it was quite strange; how could a fake have such a pure Emperor's bloodline?"

Zang Wuyue explained, "As Imperial Princes, our bloodline is incredibly pure; the only thing that could be purer is an Early Stage Emperor Bloodline."

Zang Mingyue cried out in shock, "No way! How could that person have an Early Stage Emperor Bloodline? It's impossible that he has an Empire, or else I would have died long ago."

"That's what I'm curious about as well. Even if an ordinary person obtains an Emperor's bloodline by luck, that Emperor's bloodline will not be very pure and will be a mixed bloodline. However, that person has an Early Stage Emperor Bloodline," Zang Wuyue mused.

Zang Mingyue houted noisily, "What do we do then? That person dared to injure me and treated me so condescendingly. If big brother doesn't kill him, I won't be able to get over my anger."s

Zang Wuyue looked at him and said earnestly, "Alright, I'll take care of this. That person isn't simple, so we have to take this seriously."

After hearing this, Zang Mingyue gave a relaxed smile. He could already imagine Zhao Fu dying a horrible death.

Following this, Zang Wuyue returned to the imperial palace and everyone else did not take too much mind of this matter. However, after telling everyone else about it, they asked in shock, "Early Stage Emperor Bloodline?"

Zang Wuyue earnestly nodded and said, "According to what Sixth Brother said, that person most likely has an Early Stage Emperor Bloodline that is much more powerful than the Zang Empire's Emperor's bloodline. It makes sense that Sixth Brother lost like that."

"This is no small matter; we should have people capture that person and interrogate him to find out why he has an Early Stage Emperor Bloodline," one person said coldly.

Zang Wuyue shook his head, "This matter is perhaps quite difficult. Sixth Brother met that person in the Cosmos Historical Remnant in the outer Domains; it will be very difficult to find that person."

The scholarly-looking middle-aged man looked quite serious and he felt a trace of a bad premonition as he said, "Use our Empire's secret technique to divine that person's location. If he knows how to obtain an Early Stage Emperor Bloodline, he might be of great use to the Zang Empire. Moreover, he's no small threat and should be disposed of as soon as possible."

Hearing his words, none of them thought that the middle-aged man would take this matter so seriously and even use the Empire's secret technique. This completely exceeded their expectations.

One person said, "Imperial Father, are you sure? Do we really need to take this so seriously?"

The scholarly-looking young man replied earnestly, "Indeed, my instincts tell me that this matter must be dealt with seriously."

Following this, an elder wearing priest robes went to a tall altar and stood at the center of a magic formation. Zang Mingyue was also called over; he had never thought that the Empire would take such great heed of something like this and felt quite pleased. Zhao Fu was dead beyond a doubt.

A piece of clothing with blood on it was handed to the priest. The blood on the clothes belonged to Zhao Fu.

The priest started to chant as he held this piece of clothing. The temperature started quickly fell as an eerie ghostly power flowed out of the altar. Countless wandering spirits appeared, surrounding the priest like a vortex.

More and more Yin Qi appeared, and it spread to cover the surrounding 10,000 meters. There were dozens of spirits around the priest, giving off a shocking aura.

Boom!

The priest threw the bloodied clothes into the sky, and the tens of thousands of spirits around the priest instantly swarmed towards the clothes. A powerful aura exploded out and boundless gray light shot out everywhere.

A massive image appeared in the sky. It was a ghostly Emperor with a pale face and a savage expression. It wore a gray dragon robe and a gray dragon crown. It had a gray dragon sword at its side and gave off a cold and eerie aura.

This secret technique was called the Ghost Emperor Divination. It summoned an image of a Ghost Emperor and had it enter the boundless Heaven's Secrets to find a person.

After the Ghost Emperor image appeared, the priest bowed towards it and said, "This old man would like to find this person's location. Please point in the direction, Ghost Emperor."

Hearing this, the Ghost Emperor closed its eyes and its consciousness entered the boundless Heaven's Secrets. It followed the aura of that blood and quickly found the person.

However, what it saw was a sea of fog. After sensing the Ghost Emperor's approach, it rushed at the Ghost Emperor with a massive tide of deathly aura. The Ghost Emperor's expression fell and it quickly retreated, but the tide of deathly aura was incredibly ferocious and the Ghost Emperor's consciousness was instantly inundated.

The Ghost Emperor suddenly opened its eyes and a wave of deathly aura exploded out from its body, causing it to shatter into pieces.

The deathly aura that flowed out of the Ghost Emperor's body was like a savage monster and flew about the surroundings. The Stage 5 or 6 guards in the surroundings were unable to resist at all and their life force was devoured by that deathly aura.

Boom!

Three rays of light suddenly descended from the sky; they were blood-red, gold, and gray. The sky was instantly dyed into three colors, and the three rays of light gave off an unimaginable power as they smashed into the priest's body.

The priest was blasted out like an ant and heavily crashed to the ground. He coughed up a large mouthful of blood, and many of his bones had been broken.

These sudden changes caused everyone in the surroundings to look quite shocked. The Ghost Emperor Divination was one of the Zang Empire's strongest secret techniques. Because it relied on the Ghost Emperor, it was not something that ordinary secret techniques could compare to.

However, it was evident that the secret technique had failed and the priest had suffered immense backlash. From the severity of the backlash, it seemed that that person was being protected by Heaven's Secrets.

The deathly aura continued to ferociously spread, and the scholarly-looking middle-aged man coldly harrumphed as he grabbed out with his hand. A massive Emperor's power that seemed to be able to seal the heavens and earth spread out, suppressing the deathly aura.

However, in the next moment, the scholarly-looking middle-aged man's expression changed as he found that the deathly aura seemed to especially counter Emperor's power. The Emperor's power suppressing the deathly aura was quickly devoured by the deathly aura, causing it to become even more ferocious, and it madly swirled towards the surrounding people, especially those with the Emperor's bloodline.

Seeing this scene, and sensing how terrifying that terrifying deathly aura was, the scholarly-looking middle-aged man could not help but cry out, "Emperor Killer Curse!"

Boom!

The scholarly-looking middle-aged man exploded out with a massive amount of Emperor's power and blasted it towards the deathly aura. The terrifying Emperor's power gradually reduced the deathly aura into nothingness. Even though the deathly aura was terrifying, there was not enough of it, and the scholarly-looking middle-aged man was still able to deal with it.

Chapter 1259: Definitely Not Simple

However, after acting, the middle-aged man stopped and felt incredibly shocked. He had never thought that such a terrifying thing like the Emperor Killer Curse would be drawn out. Just who was that person? There was actually someone who had paid a great price to use Emperor Killer to kill him.

From the strength of this Emperor Killer, it was most likely done by a higher-being. And yet, that person had not died despite being afflicted with Emperor Killer.

“That person definitely isn’t simple, and he might just be incredibly terrifying.” It was not just the scholarly-looking middle-aged man who thought this way – after everyone else saw the results, they all understood how terrifying that person was, or else such a terrifying thing would not have happened.

“Imperial Father!” Zang Mingyue could not help but feel anxious. He had hoped to find Zhao Fu using this method and torment him in all sorts of ways to alleviate his anger. However, he now understood that he had caused trouble.

The scholarly-looking middle-aged man coldly harrumphed and did not even look at Zang Mingyue as he ordered, “This matter is to be listed as a top secret of the Zang Empire; no information about it is to be leaked. Invite people from the Heaven’s Secrets Pavilion; we must find that person and obtain that person’s information.”

“Yes, Your Majesty!” everyone else replied seriously.

Following this, everyone went to carry out their orders. Some went to search for information about that person, and others went to contact the Heaven’s Secrets Pavilion. The Heaven’s Secrets Pavilion was the most proficient at Heaven’s Secrets matters within the entire Heaven Domain.

However, the ones who went to the Heaven’s Secrets Pavilion quickly came back and said that after sensing that person’s aura, the Heaven’s Secrets Pavilion’s people’s expressions had become ones of terror and refused the request.

This made the Zang Empire’s people feel quite confused. The Zang Empire was a true Empire, and even within the Heaven Domain, it was a top-tier faction. And yet, the Heaven’s Secrets Pavilion was not willing to give face and risked offending the Zang Empire to refuse to divine that person’s location.

After this news came, everyone’s expressions became quite unsightly. It was quite evident that that person was truly terrifying, and the Heaven’s Secrets Pavilion had long since known of him.

The scholarly-looking middle-aged man felt quite troubled; his instincts had not lied to him. If it wasn’t for this, he would have taken it to be a small matter. However, it had now become a big problem.

Those responsible for searching for that person’s information also returned, and just as everyone expected, they were not able to find anything.

“Imperial Father, what should we do now?” Zang Wuyue asked as he looked at the scholarly-looking middle-aged man.

The scholarly-looking middle-aged man slightly sighed and said, “We have to do our best to find that person’s location and information. If he’s useful to us, we can pay a price to resolve the enmity between us. However, if that’s not possible, we must kill him at all costs. That person is too dangerous.”

Hearing this, everyone else nodded. The Emperor Killer Curse, the Early Stage Emperor Bloodline, and the reaction from the Heaven’s Secrets Pavilion indeed required them to take the matter seriously.

Finally, Zang Mingyue was temporarily placed under house arrest. Hearing this, Zang Mingyue let out a sigh of relief because it was not a real punishment. However, he had never thought that that fake would have such an important identity.

Zhao Fu naturally did not know about any of these things. After recovering from his wounds, he expectantly opened up the white-haired young man’s spatial ring.

If that white-haired young man had been in his peak condition, perhaps he would not have died. After being injured by Zhao Fu, he may have been able to escape. However, he was unlucky and the technique he had used had caused him to suffer a backlash and die.

As the previously second-ranked person, his gains were quite shocking. His ring was like a treasure trove and had all sorts of treasures inside. Zhao Fu also found some information and was shocked to find out that the white-haired young man was not only a World Realm expert but also the King of a Royal Kingdom.

He had never thought that he would be able to deal with a World Realm expert, and one who was a true King of a Royal Kingdom at that.

Fortunately, they could not use Nation Armaments and the white-haired young man’s cultivation had been restricted, or else Zhao Fu would have been the one taking a beating.

After looking at the treasures in the spatial ring, Zhao Fu could not help but grin. Following this, Zhao Fu discovered a piece of Taichi Stone.

This Taichi Stone was round and had a black and white taichi diagram on it. It was as big as a small plate and seemed to be made of ordinary rock. However, it was quite heavy and gave off an intense Yin Yang aura.

The Taichi Stone had been in a corner in the spatial ring, but the Sun and Moon Devil Marks on Zhao Fu's chest gave off intense lights and reacted greatly to the Taichi Stone.

The Sun and Moon Devil Marks allowed Zhao Fu's cultivation speed to increase during both day and night, but he had not discovered any other uses for them.

However, Zhao Fu felt that he could give the Taichi Stone to the Sun and Moon Devil Marks and cause them to obtain a certain kind of power. That way, Zhao Fu would benefit greatly; as such, he took the Taichi Stone and pressed it against his chest.

The Sun and Moon Devil Marks on his chest gave off an intense sunlight and gentle moonlight, and they covered the Taichi Stone. Following this, the Taichi Stone automatically fused into Zhao Fu's body.

Zhao Fu did not know where such a big piece of stone had gone; he checked his body but could not find it, and he guessed it was most likely within the Sun and Moon Devil Marks.

Finally, Zhao Fu felt quite hopeful as he checked over his body. His body had not reacted after fusing with the Taichi Stone, and after seeing that there were no changes, Zhao Fu felt quite disappointed and felt that he had not fully fused in the Taichi Stone.

"Sovereign!" Seeing that Zhao Fu had finished with what he was doing, Syndra leaned against Zhao Fu and gently stroked Zhao Fu's chest with her fingers as she flirtatiously called out.

Only then did Zhao Fu remember Syndra, and his previous disappointment disappeared. That battle from before was primarily because of her, and Zhao Fu immediately asked the golden dragon how to create a large number of Darkness Crystals.

After hearing the method from the golden dragon, Zhao Fu smiled; after returning to Great Qin, he would be able to mass-produce Darkness Crystals, and the gap between Great Qin and the outside world would be greatly decreased. Great Qin's overall strength would once again increase.

Zhao Fu led Syndra around the fourth level but could not find anything, so they headed to the third level.

The third level was quite similar to the fourth level, and it was also quite dim. However, the Cosmos Beasts here were much stronger than in the fourth level.

Zhao Fu's first thought was to find a Danger Zone. However, after looking around he found that someone had already conquered it. By the time Zhao Fu had arrived, it was in ruins.

Zhao Fu felt quite disappointed and looked around the third level. He found a ruins and made some decent gains, and he decided to head to the second level.

Zhao Fu had obtained a checkpoint medallion to go to the second level from killing a King class Darkness Cosmos Beast, and he also obtained a King level Darkness Crystal and Darkness Bloodline.

Zhao Fu tossed out the checkpoint medallion, which turned into a black vortex, and Zhao Fu led Syndra and walked in.

As if it was fate, right after Zhao Fu reached the second level, he saw an ordinary-looking young man sitting cross-legged on the ground, looking at him with a calm smile. It seemed that he had been waiting here for a while.

Chapter 1260: Second Level

“Were you waiting for me?” Zhao Fu looked at the ordinary-looking young man seriously. He understood that this was the person who had previously been ranked first. He understood how terrifying the aura he gave off was; it was many times more powerful than that of the white-haired young man's and Bai Shengjun's.

The ordinary-looking young man lightly laughed as he said, “That's right! I never thought that I would meet someone like you in an outer Domain. Where are you from? I'm the Heaven Domain's Wu family's Wu Five.”

Zhao Fu had covered himself with a cloak, and hearing Wu Five's self-introduction, as well as the fact that he was from the Heaven Domain, he became wary and said, “I'm just from a distant place, an unimportant and minor figure.”

Hearing those words, Wu Five loudly laughed as he said, “How can you just be a minor figure? With your strength, you’d be famous even within the Heaven Domain. That’s why I waited here; I wanted to see your power for myself.”

Zhao Fu shook his head and refused because Wu Five was definitely the most dangerous person he had encountered here. He would not be silly enough to casually fight him; there were no grievances between them nor were they fighting over anything, so there was no reason to fight.

“Is that so? Apologies, then.” Wu Five stood up and cupped his hands before gripping his fists and punching towards Zhao Fu.

Bang!

A massive fist image giving off enormous pressure shot towards Zhao Fu with enough power to crush boulders.

Shing!

A sword hum sounded out as a blood-red sword light flashed out, destroying the incoming fist image, which turned into intense wind and scattered.

Zhao Fu frowned and told Syndra to hide far away; it seemed that a battle was inevitable.

Wu Five smiled as he said, “I’m going to use my full strength now, please be careful.”

Boom!

A powerful inner force exploded out from Wu Five’s body, causing his body to give off a faint azure light. An intense wind also blew out from his body, and his surroundings were covered with azure lightning, causing the ground to gradually collapse.

Bang!

Wu Five's body instantly disappeared before reappearing in front of Zhao Fu. He roundhouse kicked at Zhao Fu with the power of a massive beast, causing the air to explode.

Zhao Fu was startled and used his sword to block in front of him, and his Emperor's Domain spread out.

Boom!

That terrifying power kicked against the Emperor's Domain, causing it to shatter like glass. Even though Zhao Fu used his sword to defend, he was still kicked away hundreds of meters and crashed through the trunk of a tree.

"This person's so powerful!" A trace of blood leaked out of Zhao Fu's lips, and the hand holding his sword became numb. He felt incredibly serious and also slightly angry, and he climbed up from the ground as he looked at Wu Five.

Wu Five was unafraid, and his smile became even brighter. He wanted to see Zhao Fu become more serious.

72 blood-red energy barriers appeared around Zhao Fu and hung in the air, forming 72 blood-red spears that pointed towards Wu Five.

Swish, swish, swish...

The sound of the air being torn could be heard as the 72 blood-red spears gave off enormous power and shot towards Wu Five. The piercing power they contained could cause anyone's hair to stand on end.

Wu Five lightly laughed and placed his fists by his waist. His fists gave off an intense azure light, and an incredibly pure energy flowed out.

Boom!

The 72 spears shot over with terrifying force, while Wu Five punched out. An azure light spread out, containing a destructive power that shattered the 72 blood-red spears, causing them to scatter into countless motes of blood-red light.

Clang, clang, clang...

A ghostly aura flame had appeared around Zhao Fu's body and he pressed a hand against the ground, causing countless traces of ghostly qi to flow out. The six grey dots in his right eye quickly spun as ghostly chains shot out from the ground.

Boom!

Wu Five grinned as he ferociously kicked out, and a massive power burst forth, bringing with it a massive wind as the chains were shattered under that force.

"Wu Eagle!" Wu Five stretched out a hand and grabbed at Zhao Fu, causing countless traces of azure aura to flow out and form an azure eagle that savagely flew towards Zhao Fu.

Shing!

The Sadistic Killing Sword in Zhao Fu's hand gave off an intense blood-red light, and he slashed out an enormous blood-red crescent towards that azure eagle. The azure eagle was cut apart, turned into countless traces of azure wind, and dissipated.

"You're still not willing to use your full power?" Suddenly, a voice sounded out next to Zhao Fu's ears, causing Zhao Fu to feel greatly startled. His hairs stood on end, and he had no idea when Wu Five had appeared behind him.

Bang!

Wu Five smashed his fist into Zhao Fu's back, and Zhao Fu was blasted forwards. He was only able to stop himself after rolling a few times.

In the distance, Syndra looked extremely shocked; Wu Five was evidently stronger than her owner, and despite her owner being so strong, he was being suppressed by Wu Five. Wu Five was simply too terrifying.

Wu Five lightly laughed as he looked at Zhao Fu crawling up from the ground, and he said, “If you don’t use that power, you won’t be able to defeat me. Even though I, Wu Five, am not extremely famed in the Heaven Domain, I’m still quite well-known.

“To date, I’ve only lost to two people, and both of them are incredibly magnificent and peerless; they are people who will become absolutely sovereigns in the future.”

Boom!

A shocking explosion rang out as the sky was dyed blood-red. Traces of terrifying aura flowed about in the sky, and the cold and incredibly sharp aura caused the world to sink into silence.

A black and blood-red aura flame appeared around Zhao Fu’s body, and an intense gale blew out from him as the ground gradually cracked.

Zhao Fu slowly stretched out his hand, and a black and blood-red sword appeared in his hand. Just as Wu Five wanted, Zhao Fu used the Emperor Killing Sword’s power.

Sensing this power, Wu Five laughed excitedly, but his eyes became incredibly serious because he understood how terrifying this power was.

Zhao Fu’s eyes became blood-red and gave off an intense blood-red light, making them seem quite attention-catching under his cloak. Zhao Fu raised the Emperor Killing Sword and sent massive amounts of power into it, causing a black and blood-red aura flame to appear around it. Following this, a massive and berserk wave of killing intent rushed forth.

Boom!

A massive explosion sounded out as Zhao Fu’s sword descended. A massive black and blood-red sword light containing enough power to split a mountain shot out, and a 10,000 meter long, hundreds of meters deep sword gash appeared in the ground.

This world-destroying power brought with it an incredibly destructive aura that instantly swept through the second level, causing all living creatures to fall into fear.

Some of the people who had just entered the second level sensed these ripples and looked extremely shocked; that Emperor was fighting with yet another genius! This Emperor was simply too terrifying, challenging so many peerless geniuses. His power was incredibly shocking.

Many people could not help but want to go over and take a look. The battles from before had destroyed everything and caused many abnormal signs, making people feel quite excited. They wanted to see this battle between two peerless geniuses.
