

The Lord 1271

Chapter 1271: Reincarnation Trial

The fifth barrier was a black barrier. Its terrifying aura was equivalent to the Divine Realm. If the World Realm could rival a world's power, the Divine Realm could rival three worlds' power.

Zhao Fu did not have any confidence to destroy this barrier, but he still wanted to try with all of his power. A blood-red sword light shot to the sky as the Heavenly Punishment Sword Formation appeared in the sky and a massive sword intent spread out.

Boom!

A massive explosion sounded out as Zhao Fu's sword descended. Boundless sword lights containing destructive power slammed into the black barrier. The black barrier violently trembled and a few small cracks appeared on it.

Fortunately, this counted as destroying the barrier, allowing Zhao Fu to pass this stage. Zhao Fu watched as the fifth barrier disappeared and could not help but worry if there would be another barrier. If there was, it would be at the level of the Divine Realm, and Zhao Fu would not have even a bit of a chance at destroying the barrier.

After all, the Extreme Divine Realm could rival six worlds' power. How could Zhao Fu destroy such a thing?

“System announcement! Congratulations, you have passed the trial and obtained the World Barrier.”

After hearing this system announcement, Zhao Fu let out a sigh of relief. A glass marble that was as big as a tomato and gave off a yellow light descended into Zhao Fu's hand; this was the World Barrier.

After exiting, Zhao Fu chose his fourth trial, which was called the Emperor Trial. The reward was a Fairy Emperor Bloodline.

Fairy Emperor Bloodline was an Emperor's bloodline of the Fairy Clan. The Fairies were quite similar to Great Qin's Flower Fairies. They had pointed ears and delicate faces, and there were many different types. Most of them had humanoid bodies like humans.

Fairies were a type of Outlander, and Zhao Fu wanted to use the Fairy Emperor Bloodline's power to break through to a Divine Bloodline.

At the same time, there were many other benefits. It would be easier for Zhao Fu to obtain the Fate of Outlanders, and it would be easier for Great Qin to obtain the surrender of Outlanders. After all, Zhao Fu would also have a trace of Outlander bloodline, and it was an Emperor bloodline at that.

Because the reward for this trial was the Fairy Emperor Bloodline, it was a high level difficulty trial and would be even more difficult than the Powerful Defence trial.

However, Zhao Fu was prepared and felt quite confident as he entered the trial space.

A large stage appeared before Zhao Fu. There was nothing on it except a figure standing at the center.

He was powerfully-built and had black skin. He had purple hair that was braided together, and pointed ears, and a savage-looking face. He was a type of Fairy and gave off an intense Emperor's aura.

Zhao Fu smiled as he walked over. The reason Zhao Fu was so confident was because he read that this trial required him to endure the Emperor's might.

Zhao Fu's Sovereign Bloodline was only a trace away from breaking through to a Divine Bloodline, and it was much more powerful than ordinary Emperor's bloodlines. The Fairy Emperor Bloodline was a low-grade Emperor bloodline, and Zhao Fu would not fear its might at all.

Boom!

As Zhao Fu approached, that Fairy exploded out with an intense might, causing the surrounding atmosphere to become heavy and weigh down everything with immense weight.

Zhao Fu's body sank, but it was still quite easy to endure it. After all, Zhao Fu's bloodline was much higher than his and had great resistance towards this might. If it was an ordinary person, it would be quite difficult to defend.

Zhao Fu continued onwards, and an even more powerful Emperor's might descended. That powerful aura was enough to twist space, and it could cause anyone to feel fear.

Zhao Fu's body once again sank down, and he felt as if there was a massive hand pressing down on him, making it so that he could not move. Zhao Fu ignited his Sovereign Bloodline, and a black aura flame appeared around him, causing that might to instantly disappear.

Zhao Fu once again advanced, and the might naturally became stronger and stronger. In the end, that terrifying might could almost cause space to collapse, and under this might, ordinary people would feel like they were being crushed to death.

However, Zhao Fu used his Sovereign Bloodline's power to resist it, and he arrived before that figure. The figure disappeared, and an irregularly-shaped blood crystal remained.

Zhao Fu stretched out his hand and took the blood crystal before putting it away. The Fairy Emperor Bloodline was stored within this blood crystal, and the valuableness of bloodlines depended on purity. The most precious was the Early Stage Emperor Bloodline.

Fusing with an Emperor Bloodline would allow one to gain an Emperor Bloodline, but it would not be pure. There was a big difference between such a bloodline and an orthodox Emperor Bloodline.

If one obtained the blood crystal of an Early Stage Emperor Bloodline, the purity would be able to rival that of an orthodox bloodline. That was why Early Stage Bloodlines were so precious.

After obtaining the Fairy Emperor Bloodline, Zhao Fu returned outside. Wu Five was already there, and because he was ranked second, he could only choose three trials. He had passed all of them and was waiting for Zhao Fu to say goodbye.

"This is a token from my Wu family. If you come to the Heaven Domain in the future, you can directly enter the Wu family. Those who recognize this token will treat you with courtesy. I am going to continue to wander the world and go through trials, so it's goodbye for now. I hope we'll be able to meet again in the future, and I hope you won't disappoint me," Wu Five said as he smiled and handed a blue jade medallion to Zhao Fu.

The jade medallion was three fingers wide and had a picture of a warrior engraved on it. It had the 'Wu' character on it and gave off a powerful aura.

Zhao Fu smiled, accepted it, and said courteously, "I will go and visit in the future; let's meet again."

Following this, Wu Five turned into a ray of light and disappeared over the horizon.

Zhao Fu once again went to the stone stele, looked through the trials, and prepared to pick his final trial.

The golden dragon spoke and advised Zhao Fu to pick the hardest trial. Zhao Fu did not have even a bit of confidence because even the medium level difficulty trials were already incredibly difficult for him, let alone the hardest ones.

Moreover, the most difficult trial was something that only the person ranked first could choose; it was called the Reincarnation Trial.

If one passed this trial, one would obtain the opportunity to enter the Reincarnation Stage. The Reincarnation Stage was a supreme treasure of Reincarnation. It took countless treasures to create, and there were very few within the Heaven Awaken World.

Only extremely powerful higher-beings or half-step Celestials had such things. Perhaps only true Celestials could create them; no one else had such abilities.

As such, the golden dragon advised Zhao Fu to try it out, as such an opportunity was incredibly rare. Even if he wasted a chance at a trial, it would be worth it. After all, if he passed it, he would be able to enter the Reincarnation Stage and would have a great protection in the future.

No matter what dangers he encountered in the future, even if he was dead beyond a doubt, he could enter the Reincarnation Stage. He would be able to reincarnate and have another chance.

Moreover, not only would he keep all of his memories, but he would also keep his bloodline and other powers. It was something that countless people could only dream about. Even higher-beings would be quite tempted.

Zhao Fu thought about it and decided to listen to the golden dragon and enter the Reincarnation Trial.

Chapter 1272: Six Paths

Zhao Fu's body gradually disappeared and he was sent to a dark region. The grass, trees, and ground were all black, and his surroundings were filled with a cold and eerie aura that could cause people's hearts to feel a chill. The region was quite big and open, and it went on for as far as the eye could see.

What was key was that there were no system announcements, so Zhao Fu did not know how to pass the trial. This was the hardest trial, so Zhao Fu could not afford to be careless, as he could fail at any moment.

"Roar! Roar! Roar..." Loud roars sounded out as massive wild beasts rushed out from the side. There were all sorts of animals: tigers, oxen, snakes, chickens, dogs, ducks. All of them were ten or so meters big, were a gray-black color, and gave off a large amount of Yin Qi.

What could cause people to feel terror was that their auras were all at the Heaven Realm, which could make most people fall into despair. Facing such a large tide of Heaven Realm beasts, even a World Realm expert would die a pitiful death.

The group of beasts gave off a massive aura and charged at Zhao Fu with enough power to destroy everything. It seemed like no one would be able to stop such a thing.

"What do I do?" Zhao Fu felt a massive pressure. If it was just a few of them, he would be able to deal with them. However, there were at least one million of them, so how could he possibly stop them? As expected from the most difficult trial; it seemed simply impossible.

"Roar!" As Zhao Fu wondered what to do, a massive roar sounded out from the Animal Path Demon Image within Zhao Fu's body. It seemed incredibly excited.

Zhao Fu realized something and delightedly released the Animal Path Demon Image.

After coming out, the Animal Path Demon Image exploded out with a powerful aura and gave off a heaven-shaking roar towards the countless beasts. The unstoppable beast tide actually stopped, and they lay on the ground in fear.

The Animal Path Demon Image walked over and deeply inhaled, causing the powerful beasts to turn into countless traces of Yin Qi that were sucked into the Animal Path Demon Image's mouth. After obtaining so much Yin Qi, the Animal Path Demon Image's power greatly increased, and its body looked somewhat stronger.

Zhao Fu was pleasantly surprised. After sealing the Six Paths Demon Images, their power and bodies had never changed, and now the Animal Path Demon Image had become stronger.

This was incredibly good; not only did this help him deal with those terrifying beasts, but if the Six Paths Demon Images became stronger, Zhao Fu would be able to obtain even greater power.

After the Animal Path Demon Image devoured the Yin Qi, Zhao Fu immediately recalled it. It was quite easy for the Six Paths Demon Images to go out of control, especially now that they had become stronger.

After recalling the Animal Path Demon Image, Zhao Fu's surroundings blurred and he appeared in a different place. The sky here was blood-red and there was lava everywhere. The dense sulfuric smell assailed Zhao Fu's nostrils, and there did not seem to be any life here. It was just like what one expected hell to be like.

"Roar! Roar! Roar..." Countless demons appeared in the air, giving off powerful auras. They ferociously sprang towards Zhao Fu, giving off terrifying auras.

At that moment, the Hell Path Demon Image roared and Zhao Fu understood something. He released the Hell Path Demon Image, which roared, causing the demons to immediately lay on the ground in fear. Just like the Animal Path Demon Image had done, the Hell Path Demon Image started to devour these demons.

After recalling the Hell Path Demon Image, Zhao Fu's surroundings once again changed.

Zhao Fu was within a cluster of structures. There were all sorts of structures, and they all looked quite old and ruined. This was most likely once a large residential area, and there were many pale-white figures that aimlessly wandered about like spirits.

When Zhao Fu appeared, they immediately leapt at Zhao Fu. Zhao Fu now understood the contents of this trial, and he did not show any fear. He immediately released the Human Path Demon Image, which devoured the pale-white figures.

Zhao Fu's surroundings once again changed as he appeared at a rocky place. The rocks here were all black and gave off glossy lights. There were no plants at all, and there were some hungry ghosts continuously looking for food.

Seeing Zhao Fu appear, the ghosts' eyes gleamed and they madly rushed at Zhao Fu, and Zhao Fu released the Hungry Ghost Path Demon Image.

Of course, the Hungry Ghost Path Demon Image devoured all of the ghosts, causing it to gain a lot of power and become stronger.

Following this, Zhao Fu was sent to a cave. Countless ugly Asuras gave off killing intent as they rushed over, and they were devoured by the Asura Path Demon Image.

In the end, Zhao Fu was sent to a vast void where there was nothing. Countless sky ghosts appeared in the air, all of them giving off powerful auras, and they rushed towards Zhao Fu like an unstoppable flood.

“Roar!” A loud roar sounded out as Zhao Fu released the Heaven Path Demon Image, which devoured all of these sky ghosts.

There had been six regions and six types of ghosts, which corresponded with the Six Paths of Reincarnation. Luckily, Zhao Fu had the Six Paths Demon Images – they were born from the Six Paths of Reincarnation and had a massive amount of Six Paths Power, which these ghosts could not resist at all.

If Zhao Fu did not have the Six Paths Demon Images, he most likely would have failed and would not have been able to pass the Reincarnation Trial. He would have been powerless against the very first wave of beasts.

Suddenly, Zhao Fu's body was drawn by a massive suction force. His surroundings blurred and his body reappeared elsewhere.

There was a tall altar in front of him that was 1,000 meters tall. Zhao Fu was at the bottom of the altar and looked up at it. The ground in the surroundings was quite flat, and the space was filled with white spirit-calling banners. They covered the ground as far as the eye could see, and there was a small brick path leading towards the altar.

There was a massive gray vortex in the sky, which gave off a massive might. At the center of the vortex, there was a gray magic formation that gave off intense light.

The entire region was filled with a cold and eerie aura, and the lighting was quite dim. Anyone who stood here would feel their hair stand on end. There was also an ancient feeling here; this place had most likely existed for an extremely long time.

Zhao Fu was standing on the brick path, and after thinking about it, he decided to head towards the altar. However, just as he stepped out, a massive might descended and weighed down on him.

Zhao Fu's expression fell – the trial still wasn't over?

Even an ordinary person at the Saint Realm would not be able to endure this might; perhaps this was the true beginning of the Reincarnation Trial. This was the true final trial.

Zhao Fu exploded out with power to resist that might and walked forwards.

Soon, Zhao Fu reached the bottom of the altar, where there was a flight of steps. Zhao Fu looked at the tall altar and did not hesitate; he had to climb to the top of the altar, and he definitely would not retreat.

Boom!

After stepping out, an even greater might descended. Zhao Fu's Sovereign Bloodline instinctively sensed this danger and a black aura flame appeared around Zhao Fu.

Zhao Fu withstood this might but his expression was quite grim. This was the first time that his Sovereign Bloodline had exploded out by itself. It had only done so because it had sensed an unprecedented danger; it seemed that things would become even more dangerous continuing on.

Just as Zhao Fu expected, as he continued to advance the might became stronger and stronger. An ancient and chaotic aura flooded forwards; Zhao Fu knew clearly what aura this was – it was the aura of reincarnation.

Facing the aura of reincarnation, Zhao Fu's Sovereign Bloodline actually showed a trace of fear. After all, no matter how powerful an Emperor was, they would still die in the end.

This Reincarnation Power was one of the ultimate powers of the Heaven Awaken World. After all, nothing in this world could escape from reincarnation.

It was not just a Sovereign Bloodline that would feel fear; even a Divine Bloodline would feel fear as well. Perhaps even a higher-being would feel fear in front of this kind of Reincarnation Power. After all, without becoming a Celestial, even a higher-being would not be able to escape reincarnation.

The aura of reincarnation here was the most ancient aura of reincarnation. It was much more powerful than when Zhao Fu had fused with the Six Paths Demon Images.

The golden dragon had told Zhao Fu that building a Reincarnation Stage required a Six Paths Jade, which could only be obtained from entering the Six Paths of Reincarnation. The Six Paths of Reincarnation were defended by the Six Paths Demon Images, and the true bodies at that. The ones within Zhao Fu's body were only clones.

With them defending the Six Paths of Reincarnation, perhaps even a Celestial would not be able to enter. As such, Reincarnation Stages were incredibly rare, and only extremely powerful people could create them.

Following this, Zhao Fu continued to advance, and that might became stronger and stronger. The aura of reincarnation also became more powerful, and not only did the Sovereign Bloodline displayed signs of fear, but Zhao Fu's body also instinctively trembled. It was as if all of his cells were terrified.

Zhao Fu continued onwards, and soon, his very soul started to flicker like a candle's flame, causing him to fall into terror. He started to lose control of his mind, forcing him to stop.

This was not just because of the fear, but that massive might caused small cuts to open up all over Zhao Fu's body. In front of the world's most ancient Reincarnation Power, even Zhao Fu's powerful Sovereign Bloodline could not hold up.

Zhao Fu's expression became savage; he had to reach the top of this altar. No matter what methods he used and whatever the cost. It would be worth it even if it cost him everything.

“Roar! Roar! Roar! Roar! Roar! Roar!” Six massive roars sounded out as Zhao Fu started to fuse with the Six Paths Demon Images. A terrifying power exploded out, and a massive ghostly flame spread out, causing wild gales to blow out.

Zhao Fu's body became pale white, and muscles bulged all over his body. Violet scales also appeared on him, and a pair of demon horns grew on his head. A pale-white eye appeared on his forehead, and his mouth became filled with fangs as a pair of black wings grew on his back.

Zhao Fu now also grasped that terrifying Reincarnation Power. However, compared to the Reincarnation Power coming from the altar, it was like comparing a newly-born baby to an elderly person who had lived for a long time.

Even though it could not compare, it gave Zhao Fu the power to resist it. With the Six Paths of Reincarnation Power, the pressure that he was enduring was greatly reduced.

Now, Zhao Fu no longer felt that fear from before, and he invigorated his Sovereign Bloodline. A Six Paths of Reincarnation magic formation appeared behind him, giving off powerful light in all directions, and countless remnant spirits from the Six Paths of Reincarnation appeared behind him.

In the end, Zhao Fu was able to step onto the altar, and he coughed up a mouthful of blood. He coughed up blood not just from the massive might he had been enduring but also from the damage of fusing with the Six Paths Demon Images.

However, when Zhao Fu stepped on, he felt as if his mind was going to explode. His mind became completely blank and the ancient aura of reincarnation in the surroundings flowed into his body, and a Reincarnation Mark appeared on his forehead.

The mark was circular and had six dots as well as many lines. It was gray and looked quite mysterious and ancient.

After obtaining the Reincarnation Mark, Zhao Fu's Six Paths of Reincarnation Bloodline was greatly upgraded. In the future, the damage he took from fusing with the Six Paths Demon Images would be greatly reduced, and he would have much greater control over the Six Paths of Reincarnation Power.

At the same time, his control over the Six paths Demon Images greatly increased, and he would not have to worry too much about them trying to break free. Zhao Fu now had Reincarnation Power, which could greatly suppress them.

After coming back to his senses, Zhao Fu looked around the altar and saw stone statues. These statues were all old monks and they were all sitting cross-legged on the ground as if they were reading scriptures. They were about as tall as normal people, and there were 300 or so of them.

There was a circular jade stage that was one meter tall at the center of the altar. Sitting on it would allow one to go through reincarnation.

Zhao Fu walked over and found that there was a black, circular jade with a taichi diagram on it, on which there was a crack.

The golden dragon explained, "That's a Reincarnation Jade, and it has a crack because someone has used the Reincarnation Stage before. A Reincarnation Stage can only be used three times.

"From the looks of it, you're the first person to pass the Reincarnation Trial. The person who used the Reincarnation Stage was most likely the owner of the Cosmos Historical Remnant. He's most likely not dead and reincarnated.

"For some reason, he has not returned to the Cosmos Historical Remnant this entire time. Perhaps something unexpected happened when he was reincarnating."

Hearing the golden dragon's words, Zhao Fu felt a chill. Even without thinking about it, he knew that the owner of the Cosmos Historical Remnant was definitely incredibly terrifying. Otherwise, the Cosmos Historical Remnant and the Reincarnation Stage would not exist.

Zhao Fu looked around and prepared to leave; he was not interested in reincarnating right now. As he left, he obtained a key, which allowed him to return to this space, but he could only use it once.

After returning outside, Zhao Fu received a system announcement, “Congratulations, you have passed five trials. You are at the first level and will receive the corresponding reward. The Cosmos Historical Remnant will close in three days.”

Zhao Fu looked at the system announcement and did not pay it much mind. He had obtained massive gains from the Cosmos Historical Remnant, and he smiled as he returned to the Darkness God Palace with Arasina.

The Darkness God Palace was a type of treasure and could be made bigger or smaller, and everything in it could be preserved and did not have to be rebuilt, making it easy to take it away.

Zhao Fu made the Darkness God Palace smaller and stored it on him. He brought the Darkness God Palace’s people with him and returned to the second level. Syndra had been waiting there for quite a while, and because of the Contract between her and Zhao Fu, she knew that Zhao Fu was still alive.

Zhao Fu then returned to the fourth level and gathered his people waiting for him there. When he had first entered the Cosmos Historical Remnant, it had just been Zhao Fu and Lin Yan’Er. He had never thought that when leaving, there would be so many of them – in total, there were 20 or so people.

Everyone returned to Great Qin, and Zhao Fu’s exploration of the Cosmos Historical Remnant officially concluded.

At the same time, the many things that had happened within the Cosmos Historical Remnant quickly spread. Even though the people outside knew of the rankings, they did not know of the specifics of what had happened inside. After hearing about what had happened, they all fell into shock.

Chapter 1274: God Emissary

The most eye-catching were naturally the top five geniuses. Everyone else seemed dim under their immense light. All of the other geniuses seemed far too ordinary, and the most brilliant out of even the five geniuses was naturally that mysterious Emperor.

He had single handedly defeated four other geniuses and was undoubtedly the strongest out of all of them. Everyone felt quite curious as to his identity.

However, everyone believed that mysterious Emperor came from the Heaven Domain. After all, out of the five geniuses, the information about two of them had been revealed: One of them was from the outer Domains but was the disciple of a higher-being, while the other was the Imperial Prince of a true Empire.

Given this, the three others' identities were definitely incredibly terrifying as well, or else they would not have such power.

The most shocked were the people from the Ancient Stem Domain because they knew that mysterious Emperor. They had never thought that he would perform so shockingly at the Cosmos Historical Remnant.

The Dao Cultivation Sect's Sect Master had a look of disbelief on his face as he asked Bai Shengjun, "Jun'Er, did you really lose to that person?"

Bai Shengjun had a dispirited look as he nodded.

This caused the Dao Cultivation Sect's Sect Master's expression to become somewhat unsightly. The disciple he took the most pride in had lost to that person; that person's accomplishments would definitely be able to shock the world.

"A mistake! I made a mistake! If I had stopped them during the Ancient Stem Banquet, perhaps things would not be like this." It was the first time the Dao Cultivation Sect's Sect Master had felt so much regret.

The ones who felt the worst were naturally the three factions with enmity with Zhao Fu. Now that they saw that Zhao Fu had such power, they felt somewhat fearful. That person had enough power to threaten them, so they searched for Zhao Fu's location even more madly, wanting to get rid of this threat.

Yin Ruoshi also told everything she had seen and heard to the Heavenly Music Sect's Sect Master. The Heavenly Music Sect's Sect Master also realized that she had underestimated Zhao Fu. If she had known that Zhao Fu had such power, she would have done all she could to protect Zhao Fu. That would have been worth it because Zhao Fu would definitely be able to repay them greatly in the future.

The Heavenly Music Sect's Sect Master sighed and also regretted her decision.

Of course, Zhao Fu did not know about any of this. After returning to Great Qin, he quickly got three things done. The first was to start mining the Darkness God Iron, the second was to mass-produce Darkness Crystals, and the third was to develop Fallen Angels.

These three things were all very important to Great Qin, so they had to be completed quickly.

Zhao Fu placed the Darkness Key on a teleportation channel that was 10,000 meters wide. This teleportation channel was a very advanced teleportation channel, and it could transport 10,000 people at a time.

Now that Great Qin had roughly ten billion soldiers, if he wanted all of them to be able to have Darkness God Iron equipment, they needed an ocean of ore. This would require many people to mine.

After activating the teleportation channel, Zhao Fu transported himself first. He arrived at a very large space that was filled with Darkness God Iron, which gave off a dense darkness aura. Even the ground was made of the ore, and there was no ordinary dirt or rocks.

Looking at this massive space, Zhao Fu smiled; he could already imagine the sight of Great Qin's army dressed in black armor.

Zhao Fu quite liked the color black. In the past, even though Great Qin used black armor, that was achieved using dyes. Now that they had Darkness God Iron and Darkness Crystals, Great Qin's soldiers would all become darkness soldiers.

Together with the color black, Great Qin would sweep across the world. When people say black in the future, they would only think of Great Qin.

After looking around and confirming that there was no danger, Zhao Fu handed this matter to Li Si and had him organize a large number of people to come to mine the ores.

The second matter was creating Darkness Crystals. This was not as easy to deal with; they first needed a place of darkness, the bigger the better. After all, to create Darkness Crystals, they needed a large amount of Darkness elemental essence.

There were not any suitable places in the human world, and Zhao Fu thought about an abyss in the Fish Scale world. That abyss was quite big and was extremely dark; no light could reach that place, making it a suitable place to create Darkness Crystals.

Apart from this, they also had to construct many things. The first was a Darkness Gathering Magic Formation. This magic formation had to be massive; only then could it gather a massive amount of Darkness elemental essence.

Zhao Fu also had to construct a Darkness City there. This was so Syndra could reside there, as she had to maintain the magic formation with the Darkness Origin Crystal in her body. It was also so that others could reside there to help out with the various management affairs of the Darkness Crystals.

After hearing that Zhao Fu wanted her to go to that place, which was far away from the Great Qin Palace and the human world, Syndra was quite unhappy. After all, it seemed that Zhao Fu only wanted her for creating Darkness Crystals.

She did not want to be treated like this; she wanted to be the Darkness Empress and have great authority.

However, she could not change Zhao Fu's mind because that abyss was the most suitable place for creating Darkness Crystals. In the end, Syndra still agreed to do this happily because Zhao Fu promised her that if she could find a method to have the magic formation operate without her, she could do as she pleased.

Syndra was happy because she naturally had a way to deal with this. As long as she sent her Darkness Power and Darkness Blood into the magic formation every now and then, the magic formation would be able to continue to operate even without her there.

She could just go there every now and then and spend the remaining time in the Great Qin Palace.

Moreover, Syndra also asked Zhao Fu for an army to develop a Darkness Corps. Zhao Fu granted her this because he knew that she had the ability to.

Not just her, but many of the people he had brought out of the Cosmos Historical Remnant had talent as commanders or had special abilities. The most terrifying of them was most likely Mosax's Nothingness Domain, which could drain all powers.

Zhao Fu would make arrangements for them in the future and place them in suitable places.

The third matter was to develop Fallen Angels. Fallen Angels were quite powerful, and even though the ones produced would not be pure Fallen Angels, they would still not be weak.

Zhao Fu had already established the Darkness God Palace in a region, and it naturally gathered Darkness aura. After being established, it gathered large amounts of Darkness aura, causing the lighting to become dim, and the entire region became a region of darkness.

"Arasina, what are the 24 God Emissaries?" Zhao Fu stood above the place for developing Fallen Angels and asked Arasina. Developing Fallen Angels not only required a high-grade Fallen Angel godly spirit but also 24 God Emissaries.

Arasina coldly harrumphed, "God Emissaries are naturally This God's emissaries. They can use This God's divine power and can connect with This God. Those who want to become God Emissaries must have Divine Constitutions; that constitution is the most suitable for becoming a God Emissary."

Chapter 1275: Darkness Godly Spirit

"Divine Constitutions?" After hearing Arasina's words, Zhao Fu felt that they seemed quite familiar. He thought about it and remembered that when he had conquered the Church, Geoffrey had given Zhao Fu 24 women with Divine Constitutions.

However, because those women were quite reluctant and Zhao Fu had only just taken in Geoffrey and wanted to pacify the Church, he had kept them there and had not brought them to the Great Qin Palace.

Now that he needed 24 God Emissaries, those 24 women with Divine Constitutions were a perfect match.

This meant that Zhao Fu did not have to go through the trouble of searching for people with Divine Constitutions, and he could directly make them God Emissaries and then develop Fallen Angels. Zhao Fu smiled and ordered people to bring those women here.

“We greet Your Majesty!” After arriving, the women paid their respects to Zhao Fu. It had been a while since they had met, and these women wore white robes and had golden hair, jade-green eyes, and snow-white skin. They gave off a holy and pure aura.

Zhao Fu did not ban religions and promoted competition between ideologies. Under Great Qin’s development, the Church was one of the biggest religions in Great Qin, and as the Holy Daughters of the Church, they were respected and worshipped by countless people.

Their attitude towards Zhao Fu was now much more respectful, and they were no longer as resistant towards him. They now understood that following Great Qin was their only option.

Sensing the Light aura from their bodies, Arasina frowned, saying, “They’re followers of Light and can’t become This God’s God Emissaries!”

Zhao Fu felt quite startled, but he soon understood. After all, Arasina was a Fallen Angel and was of Darkness, while the Church belonged to Light. They were enemies, so these women naturally could not become Arasina’s God Emissaries.”

However, Zhao Fu did not look too disappointed and asked, “If they fall to Darkness, they can become your God Emissaries, right?”

Arasina nodded and coldly said, “They need to truly accept Darkness to become Darkness God Emissaries.”

Zhao Fu looked at the women. Without even asking, he knew their answer from their expressions – they were all determined to continue serving Light.

“Great Qin requires you to become Darkness God Emissaries. Fallen Angels will be of immense help to Great Qin,” Zhao Fu said gently.

One of the women came out and bowed before saying, “Your Majesty, we have been raised in our faith since we were young and will serve our Lord forever. I’m sorry but we must refuse your request.”

Zhao Fu's gaze became cold. He could not afford to consider their feelings because this matter was incredibly important to Great Qin. It was impossible to give up on something so beneficial to Great Qin just because of how they felt.

Zhao Fu looked at Arasina and asked, "Do you have any ways to make them fall to Darkness?"

Hearing that Zhao Fu wanted to make these followers of Light fall to Darkness, a trace of a smile appeared on her face as she said, "There are a few methods. There are two effective ones: The first is to have them kill their family and friends and have their souls go through extremely great pain; the second is to make them prostitutes and have their bodies be ravaged. Within their despair and pain, it'll be easy for them to fall."

Hearing this, Zhao Fu looked at the women and asked, "Which method do you want to choose?"

The women's faces became pale and started to feel terrified because they could not accept either of those methods. Thinking about killing their family and friends and being ravaged by countless men, some of them already started to sob.

The voluptuous woman in the lead looked at Zhao Fu and said, "Your Majesty, you are a good ruler. You can't do such a thing to us."

Zhao Fu lightly laughed, "You're wrong; during special times, for Great Qin, We can do anything."

Those words set their fate in stone. Some people sobbed while others had pale faces, and some had serious expressions while others had looks of despair in their eyes.

Some people took out daggers with resolute gazes and prepared to slit their own throats; only then would they escape this destiny. That way, they would not have to kill their family and friends or become prostitutes.

However, Zhao Fu waved his hand and locked them down. He frowned as he said, "Why must you be like this? As long as you're willing to fall to Darkness, We will not force you to do any of those things. Also, the god that you will worship is right by Our side; she is much more powerful than some ephemeral god."

Some people had already accepted their fate and nodded and accepted; willingly falling to Darkness was much better than being forced. However, there were still seven people who would rather die than fall.

Zhao Fu felt quite annoyed; developing Fallen Angels required 24 God Emissaries, no less.

In the end, Zhao Fu thought about the Darkness Crystal he had obtained from killing the Darkness Dragon King. He took it out and crushed it, causing a massive amount of Darkness Power to flow out.

Zhao Fu waved his hand and the massive amount of Darkness Power covered the women and started to invade their bodies, causing them to fall to the ground in pain.

“Arasina, start turning them into God Emissaries and see if it’s possible.”

Hearing this, Arasina coldly harrumphed, “You’re always so domineering. How despicable.”

Following this, Arasina took out a dagger and cut her palm, causing black blood to flow out. Arasina controlled the blood and sent it into the women’s foreheads, forming a Darkness Mark.

Under the invasion of the Darkness Power and Darkness God Power, the women struggled on the ground in pain. Their holy aura disappeared, and an aura of darkness spread out.

Following this, intense black light spread out from their backs and two pairs of black wings tore through their robes, giving off a darkness aura.

“Success!” Arasina said with a trace of delight. God Emissaries were of a great help to her by helping her spread her faith and absorb even more Faith Power. During important times, they could also be powerful bodyguards.

Zhao Fu also smiled. He had decided to try this on a whim, and he had actually succeeded in converting them to Darkness.

Now, they had successfully become God Emissaries and received Darkness Power, so their pain naturally stopped. They returned to normal, but they were different than before because Darkness had invaded their souls.

When they got up, their demeanors were quite icy and seemed somewhat seductive and evil.

Because their robes had been torn, their white bodies were exposed. However, they did not show any intent to cover themselves up and instead looked at Zhao Fu enticingly.

Chapter 1276: God Creation

The voluptuous woman in the lead twisted her body as she seductively walked over. She hugged Zhao Fu and said, “Your Majesty, now that you’ve made us like this, make sure you take responsibility in the future! Please enjoy us to your heart’s content.”

Zhao Fu looked at them in surprise; once these Holy Daughters had fallen, they had become even more wicked than ordinary people.

The Holy Daughter servicing him below was one of the ones who had resisted the most towards falling into Darkness. And yet, she had become the lewdest one.

It seemed that this was how the world was – the kinder and more upright people were, the more terrifying they would be once they fell. They would be even madder, more perverted, and more twisted; often the vilest people were once the kindest people.

“Your Majesty, I want some as well.” The group of Holy Daughters coyly smiled as they surrounded Zhao Fu, and soon indescribable noises could be heard.

“Bastard!” Arasina’s face became red, and she pinched Zhao Fu as she cursed at him in embarrassment. She was right next to him, and she was naturally dragged in as well.

Zhao Fu lightly laughed, “Didn’t you want this as well? Also, can you be a bit more respectful when you talk to me?”

Arasina’s face became bright red and she turned her face away.

Following this, they went to the place for nurturing Fallen Angels. This was one of the most important places in the Darkness God Palace, and it was second to only the core of the Darkness God Palace. After all, this place could create a large number of Fallen Angels, and the 24 spears were all Legacy Weapons of 24 God Emissaries.

Zhao Fu had the soldiers take their clothes off and stand on a stage, while Arasina and the 24 God Emissaries flew into the sky.

Arasina stood at the center and controlled the black orb of light while the 24 God Emissaries each held a spear and spread out in a circle.

Arasina activated the orb of light in front of her, and boundless Darkness Power instantly gathered as countless runes lit up on the 24 spears.

Boom!

A massive explosion sounded out as countless traces of Darkness Power gathered into a pillar of light and descended on the soldiers' bodies. Expressions of pain appeared on the soldiers' faces, but it seemed bearable, as they all remained standing.

The black pillar of light not only contained a large amount of Darkness Power but also a trace of the Fallen Angel bloodline's power. It gradually entered the soldiers' bodies, and the soldiers did not resist, quickly devouring this power. Soon, an aura of darkness spread out from their bodies.

Two gashes appeared on their backs, from which a pair of black wings gradually stretched out before spreading. Countless rays of black light shot out as a powerful aura burst forth.

Sensing this aura, a delighted look appeared on Zhao Fu's face. Before, the soldiers had Stage 1 Cultivation, but they now had Stage 3 power. Their strength had instantly increased by two Stages.

Stage 3 soldiers were the most common standard of soldiers within the inner Domains. If Great Qin could have a large number of Stage 3 soldiers, they would be able to compare with factions in the inner Domains and surpass factions in the outer Domains.

Factions in the inner regions of the outer Domains predominantly had Stage 2 soldiers. However, it took ten or so Stage 2 soldiers to defeat a Stage 3 soldiers. Moreover, Great Qin had the Fallen

Angels, which was a high-grade profession that had powerful stats. It would take at least 20 or so ordinary Stage 2 soldiers to defeat these Stage 3 Fallen Angel soldiers.

If Great Qin's soldiers were all at Stage 3, they would no longer have to fear the Ancient Sword Sect and could directly attack. They would not even have to fear factions from the inner Domain and could sweep across the outer Domains.

However, things were not that simple. The Darkness God Palace could create 10,000 Fallen Angels per day, which was quite a shocking number, but this did not seem to be enough.

10,000 per day was 100,000 in ten days, one million in 100 days, and only three million or so per year.

Perhaps there would be a way to increase this in the future, but the Fallen Angels could not be used as Great Qin's main force for now and could only act as a subsidiary force. However, once they had a large number of Fallen Angels, they would definitely have great effects.

After all, they could fly, so they could become Great Qin's aerial forces and suppress enemies using their aerial advantage. Only after reaching Stage 4 or Stage 5 would ordinary soldiers gain the ability to fly, which gave the Fallen Angels a large advantage.

Arasina looked at the soldiers who had become Fallen Angels and flew down, saying in dissatisfaction, "These Fallen Angels are so weak! Don't you have Darkness Crystals? If they fuse with Darkness Crystals ahead of time and possess Darkness Power, they will be able to become even stronger.

"Also, most of your soldiers have human bloodlines, and human bloodlines are not suitable for becoming Fallen Angels. Outlanders and demon bloodlines are not suitable either.

"The ones that are the most suitable are those with god bloodlines; they can wield the Fallen Angel's power to the maximum. After all, Fallen Angels are a type of God Creation."

Hearing this, Zhao Fu thought about the Spirit Light race. As part of the God Race they would be quite suitable. However, it was a pity that there was the Dark Demon world between the human world and the Spirit Light world; otherwise, Zhao Fu would have considered immediately attacking the Spirit Light world. They had refined a lot of the Primogenitor Statue, which would be quite useful when they fought.

“I understand. In the future I’ll send people to take care of various matters here while you take charge of the conversion process. I’ll order people to build you temples to provide faith energy and help you regain your power.”

Hearing that Zhao Fu was going to build temples for her, Arasina’s attitude became much gentler and she nodded.

Zhao Fu looked at her strangely and laughed before leaving the Darkness God Palace. After taking care of the three most important things, there were still many matters for him to deal with.

The first was related to the Blood God Demons. Because the Cosmos Historical Remnant had opened ahead of time, the matter relating to Blood God Demons was put aside temporarily. Blood God Demons were quite terrifying, and Zhao Fu did not want to give up on them.

The Desolate God was devouring a large amount of faith energy every day and was continuously recovering, and it should be able to create Blood God Demons by now. As such, Zhao Fu ordered people to start making preparations.

He then re-established the Cosmos Beast Den and gave the blueprint of the Nothingness Cloak to his subordinates and ordered them to mass-produce them. Zhao Fu also had his scholars research into constructing a sky city and prepare to build one.

Finally, apart from the seven princesses, Zhao Fu took all of the women he had brought back into his harem and made arrangements for the others.

For example, Molaf had the ability to move through nothingness, so he was suited to joining Eternal Night and perform assassinations. Lefran was proficient at illusions, so she could join the Flower Devil Corps, and Sejuani could be a captain of some Cavalry.

Zhao Fu was pleasantly surprised to find that the Dragonblood Warrior Shyvana could use Wyvern blood to create a type of Dragonblood Warrior that had great power.

After taking care of them matters, Zhao Fu wanted to return to his palace to eat the Celestial Peach. However, he received news of something that had changed the entire situation.

Chapter 1277: Three Worlds

The current situation was that the Devil Horn Empire, Half-Beast World, Grassi World, Elf World, and Dark Demon World had joined hands to suppress Great Qin. They used to have a great advantage, but after Great Qin conquered the Fish Scale world and continuously grew stronger, they gradually lost their advantage.

With how fast Great Qin was developing, it would soon be able to devour the Dark Demon world. If they could not stop Great Qin in the past, they would not be able to stop Great Qin now.

Once Great Qin devoured the Dark Demon world, it would have the power of three worlds, putting the enemy side at a great disadvantage. In the end, they would all be destroyed by Great Qin.

They tried to drag in more worlds, but the other worlds were not stupid and did not want to get involved. They wanted to see both sides suffer heavy losses.

The Devil Horn Empire's Yao Ming understood that they could not go on like this. Even though they had more worlds on their side, not everyone was giving it their all, and they were split up. If they could not be united, how could they have the strength to destroy Great Qin?

In the end, Yao Ming put his attention on the Half-Beast World, Grassi World, and Elf World. After many battles, these three worlds had suffered great losses and had become much weaker. Most of their forces were facing off against Great Qin, so they did not have many soldiers remaining.

Even though the Devil Horn Empire was cooperating with them on the face of things, there was nothing binding the parties. Yao Ming wanted to take this opportunity to destroy the three worlds; that way, the Devil Horn Empire would have the strength of four worlds.

When that time came, he would not fear Zhao Fu at all. With a Nation Armament supported by the Fate of four worlds, he would be able to easily defeat Zhao Fu without any problems.

Of course, devouring three worlds in one go was not a simple matter and required detailed planning.

Yao Ming first invited the three worlds' leaders for a meeting to discuss how to deal with Great Qin, which was becoming stronger and stronger. He could not make a move during the meeting because the other sides were obviously prepared. He would not be able to deal with them in one fell swoop.

Most people at the meeting wanted to fight, but there was a small portion that wanted to negotiate with Great Qin. In front of the pressure from Great Qin, they could not come to a unanimous decision, making everyone feel worried for the future.

"What should we do? Great Qin is quickly digesting the Fish Scale World, and once it's done, it will definitely attack the Dark Demon World, and we'll be powerless to stop it."

"That's right! If our forces were in peak condition, we might be able to stop Great Qin. However, after a few large battles, we've suffered heavy losses."

"I think we should consider negotiating. Re-conquering those three Continents was useless, and it's not like we dare to move people there. How about giving them to Great Qin in exchange for peace? Let's not continue fighting like this."

"What a joke! You're helping Great Qin become even stronger. Do you think with Great Qin's ambition they'll be happy with just three Continents? They want our three worlds; we have to fight."

Yao Ming inwardly grinned. He wanted to see everyone in fear of Great Qin.

Following this, he also acted outraged as he stood up and said loudly, "Now that things have come to this, my Devil Horn Empire will resist Great Qin with everything it has. This Emperor will send all of the Devil Horn Empire's soldiers to assist you all."

Hearing that the Devil Horn Empire was going to give its all in resisting Great Qin and was going to provide reinforcements, the people from the three worlds let out a sigh of relief and looked quite happy.

After all, the Devil Horn Empire was one of the most powerful factions in this place. Not only did it have its devil beast army, but its ordinary soldiers also all had devil bloodlines and were more powerful than ordinary soldiers. If the Devil Horn Empire went all-out in resisting Great Qin, the pressure on them would be greatly reduced.

Most of them did not even consider that the Devil Horn Empire would make a move against them. After all, they had a common enemy and the Devil Horn Empire also needed to defend against Great Qin. Moreover, now that they had worked together with the Devil Horn Empire a few times, they felt more at ease about it.

One week later, the Devil Horn Empire finished making preparations and split its forces into three armies and headed to the three worlds. They started to suddenly attack the three worlds, while the Devil Horn Empire's soldiers stationed at the borders started to attack Great Qin as well.

Because they suddenly attacked three worlds simultaneously, their gains were not great. After all, the Devil Horn Empire did not have many soldiers in each army after splitting its forces up.

As such, they decided to attack Great Qin. Once they started to attack Great Qin, Great Qin would definitely counterattack, and this would tie up the forces of the three worlds.

Just as expected, once the enemy side started to attack, Great Qin started to counterattack; they would not just take a beating passively.

The battle between the two sides erupted quickly, but neither side went all out. The people from the three worlds felt quite confused as to why the Devil Horn Empire had suddenly attacked Great Qin; this was not what they had agreed on.

When they heard that their worlds were being attacked by the Devil Horn Empire as well, their expressions fell and they cursed at the Devil Horn Empire for being shameless trash. They were ashamed to have trusted Yao Ming and immediately retreated to defend.

Seeing the three worlds retreat, Great Qin had wanted to give chase. However, after hearing that the three worlds were being invaded, they immediately stopped; they did not want to help the Devil Horn Empire.

“Roar! Roar! Roar...” The Devil Horn Empire's devil beast army gave off loud roars that shook the surroundings. They gave off a flood-like and unstoppable aura as they swept through the three worlds, causing the three worlds to fall into terror.

Devil Horn Empire soldiers dressed in green armor roared and gave off thunderous noises filled with battle intent as they charged towards their unprepared enemies.

Bang!

A 1,000 meter long crocodile giving off a massive aura flicked its tail, which contained immense power and created a massive gale. It easily destroyed a portion of the Great Wall, and it rushed in to create even more havoc.

Boom!

A 1,000 meter long green ant gave off explosive power as it rammed its head against the Great Wall, causing a portion to collapse. The green ant continuously charged forwards, seemingly unstoppable.

“Roar!” A 1,000 meter wide violet bird brought with it massive winds as it dived down. The wind seemed to be able to destroy everything, and it slaughtered countless commoners and destroyed countless structures, resulting in innumerable cries.

This time, the Devil Horn Empire had brought out its full force. Not only had it mobilized its entire devil beast army, but it had even brought out its King class devil beasts in order to conquer the three worlds as quickly as possible.

With the power of four worlds, the Devil Horn Empire would no longer fear Great Qin Empire and would even be able to expand even more and become a true Royal Kingdom.

Chapter 1278: Surrounded By Enemies

It was not just the devil beast army that brought about shocking results; the Devil Horn soldiers were also frighteningly powerful. The Cavalrymen rode on warhorses with two horns, and they tore through the defenses of City after City like arrows shot out of bows.

The Archers shot out arrows that seemed to cover the heavens and earth, easily reducing Cities into ghost towns. The Infantrymen also quickly took down Cities, and the Cities continuously fell.

Because most of their forces were allocated to resisting Great Qin and the three worlds had only left behind a small portion of their soldiers, the Devil Horn Empire did not face much resistance and continuously swept through the three worlds.

In just half a day, it had already conquered half a Continent in each of the three worlds.

The three worlds desperately wanted to return, but the Devil Horn Empire had set up Void Zones to stall them.

Time quickly passed, and the Devil Horn Empire had already swept through three Continents and madly attacked the other Continents like an uncontrollable beast. No one could stop it.

As the Devil Horn Empire rampaged through the three worlds, the neighboring worlds also watched with eyes of greed. This was an opportunity that they had been waiting for.

Now, the three worlds not only had to face Great Qin but were also being invaded by the Devil Horn Empire, which would greatly weaken them. Their worlds were quite empty right now, and if the neighboring worlds invaded right now, they would be able to easily conquer a few Continents.

The world before the Grassi World was the Lantong World. They had been fighting against the Grassi World since the beginning and naturally did not feel any sympathy. They sent out an army to madly attack the Grassi World; their decades of hatred might be resolved today.

The world before the Elf World was a Water Race world. Its occupants were a type of beautiful creature, which were Mermen.

Their men were extremely handsome and their women were extremely beautiful. They also had a special ability: When underwater, their lower bodies were fish tails, but on land they would become human legs. As such, they had the ability to go on land and they started to attack the Elf World.

The world next to the Elf World was a Devil Race world with a race called the Charm Devils. The men were tall and big and were incredibly lascivious, and the women had fiery figures and were also quite wanton. They had long, pointed ears and red eyes.

As part of the Devil Race, they were innately quite powerful and were not to be offended easily. They had been invading the Elf World for a long time, and they naturally would not pass on such a good opportunity and joined in on attacking the Elf World.

They had been craving those handsome and beautiful Elves for a long time. They wanted all of the men and women to take back and use for their pleasure every day.

The world before the Half-Beast World was the Devil Horn Empire, and it had a God Race world next to them, which was called the White God Race. Their hair and eyes were all white and they liked to wear white clothes.

Normally, they liked to promote unity, kindness, and peace. However, this time they proved themselves to be hypocrites and joined in on invading the Half-Beast World.

The three worlds' soldiers finally made it back but soon fell into despair. Not only did they have to deal with the Devil Horn Empire madly attacking them, but they were also being attacked by the surrounding worlds. Even though they desperately defended, they were helpless in the end.

Seeing such a good opportunity, Great Qin naturally would not pass it up either and joined in. Adding on Great Qin, there were now six worlds attacking the three worlds.

A battle of such a large scale immediately shook the surrounding dozens of worlds. Such large battles happened very rarely; there were nine worlds fighting.

All of the other worlds started to pay mind to this because this battle would change the status quo in this area. There were six worlds simultaneously attacking three worlds, and there were two of the most terrifying worlds involved. Everyone could already guess the fate of the three worlds.

The conclusion was not surprising at all. The three worlds had already suffered great losses, and after being invaded while defenseless by the Devil Horn Empire and then being invaded by the other worlds, how could the three worlds successfully defend?

As the various sides continuously attacked the three worlds, Great Qin conducted a meeting. Within the palace, Wei Liao suggested, "Your Majesty, the three worlds are destined to perish and they have fallen into despair. If Great Qin takes this opportunity to make offers to them, perhaps we will be able to make great gains."

Everyone supported this suggestion. After all, the three worlds had no other option, and Great Qin had enough strength to entice them to join.

However, because they had fought many times, there was now enmity between the two sides. However, in light of the grand scheme of things, Great Qin could disregard that enmity. As such, Zhao Fu approved of this suggestion and had people go and carry out this plan.

Great Qin had previously set up a chess piece in the Elf World, which was the Killing Sword Kingdom. They had lost their usefulness, so Zhao Fu ordered them to quickly return to Great Qin.

The Half-Beast World's Cang Xuenu and the Grassi World's Le Yuyu heard that their worlds were about to be destroyed and that their people might become slaves, causing their expressions to fall and their hearts to be wracked with pain. No one wanted such a thing to happen to their race.

Because of this, Cang Xuenu and Le Yuyu went to find Zhao Fu and hoped that he would save some Half-Beast people and Grassi people. Zhao Fu didn't hesitate to agree, because even if they did not request this, he would do it, as it was beneficial to Great Qin.

Now that they were surrounded by enemies and in great despair, after hearing that Great Qin was willing to take them in and disregard their past enmity, the three worlds felt quite conflicted.

Some people angrily wanted to refuse and cursed at Great Qin. After all, the reason that the three worlds had fallen into this position was because of Great Qin. How could they submit to Great Qin?

However, some people hesitated and considered whether they should submit to Great Qin or to someone else. They understood that the three worlds were going to perish, so they had to find a good place to go to. Some were worried that after submitting to Great Qin, Great Qin would take revenge on them.

Some people were quite surprised and happy, as Great Qin had terrifying power, so they were naturally the best faction to join. In the future, they would not have to worry about any danger, so they were all too happy to join Great Qin.

Great Qin had already conquered three Continents; in actuality, it could be said that they were taking those three Continents back, as they had already conquered them in the past. They had not been faced with any opposition and had not actually fought.

Because Great Qin was behind the three worlds, retreating would be quite easy, so many people decided to join Great Qin, and Zhao Fu had people go and receive them.

Zhao Fu continued to send more people to convince the remaining factions to submit. He promised that he would not pursue past matters, and this attracted more people to join.

Chapter 1279: Dividing the Worlds

The battle lasted for another five days, and in the end, the three worlds officially perished. Countless people died and corpses littered the lands, creating a shocking scene. Anyone who saw them could not help but feel sympathetic.

Most of the corpses were naturally from the three worlds. Facing the invasion from the six worlds, they naturally did not have much power to defend.

The other worlds lost very little, and it could be said that they had seized a total victory. They had captured many Cities and regions, gaining much. Everyone looked quite excited and not a single person was disappointed.

The three worlds had been divided by the six worlds, and the one that gained the most was naturally the Devil Horn Empire: it had gained three of the Half-Beast World's five Continents, while one had been conquered by the White God World and one had been conquered by Great Qin.

Of the Grassi World's six Continents, the Devil Horn Empire gained four, while the Lantong World gained one. In actuality, they had the time and ability to continue conquering.

However, because they were next to the Devil Horn Empire and were often invaded and threatened by the Devil Horn Empire, they were somewhat fearful and did not dare to fight with the Devil Horn Empire. As such, they were cautious and only took down one Continent.

The remaining Continent was naturally taken by Great Qin.

Of the Elf World's Six Continents, the Devil Horn Empire took two, the Mermen World took one, the Charm Devil World took two, and Great Qin took one.

Just like that, the three large worlds were divided by the six worlds, making countless people sigh in pity. These three worlds' names disappeared from maps, and their names would no longer appear in the future.

Disregarding the Continents, Great Qin gained the most in terms of population and Cities, and the Devil Horn Empire gained slightly less than Great Qin. After all, Great Qin's focus had been on

taking in people, so they had only conquered three Continents and did not continue attacking. Their gains in population were naturally quite great.

The Devil Horn Empire also had massive gains; after all, it had conquered a whopping nine Continents.

However, because the Devil Horn Empire had caused the demise of the three worlds, the people from the three worlds greatly hated the Devil Horn Empire, and with Great Qin extending kindness, Great Qin naturally gained more than the Devil Horn Empire.

This time, Great Qin gained six billion people and 30,000 Cities. Because this was all gained through submission, they did not suffer much losses, making them incredibly happy.

After dividing the three worlds, the other worlds seemed to come to a common understanding and started to quickly digest the territories they had taken over, causing the situation to return back to pace.

Yao Ming was not very satisfied with his gains this time. Even though he knew that other worlds might get involved, he did not expect so many of them to join, causing the situation to become quite complicated.

Great Qin had stolen most of the population, which made Yao Ming quite angry. He had not been able to conquer all three worlds, obtaining only nine Continents and not a single complete world.

This caused Yao Ming to feel incredibly unhappy. As he sat on his throne, his Ministers did not even dare to breathe loudly and they all lowered their heads in anxiousness.

“Alright, Your Majesty, you’ve already gained a lot this time, and the Devil Horn Empire has become much stronger. Don’t be so angry.”

Next to Yao Ming, there sat a peerlessly beautiful woman who wore a purple palace dress and a stunning figure. She gave off an incredibly noble aura; she was the Devil Horn Empire’s Empress, the person Yao Ming loved the most.

Hearing her comforting words, Yao Ming felt a bit better and started to give out rewards to those who had made contributions to this battle.

Similarly, within the Great Qin Palace, Zhao Fu smiled as he gave out rewards to those who had made contributions.

Zhao Fu then summoned the people who had submitted. There were many people he was familiar with, such as the Elf King. Back when Zhao Fu had gone to an Elf Kingdom to heal a Prince, he had obtained a World Tree Seed from him.

That Elf King, who had given Zhao Fu immense pressure in the past, now stood respectfully in front of Zhao Fu, not daring to say anything.

Now, the Elf King could not give Zhao Fu much pressure. After all, Zhao Fu was much stronger than him now, and the dynamic between them had completely changed.

There was another person who Zhao Fu was relatively familiar with, a pretty Grassi woman. Her name was Roxi, and she was the big miss of the Swan Goose Group.

Back when Zhao Fu had left the Legacy Land and gone outside, the first Kingdom he had entered was the Kershi Kingdom. Zhao Fu had found the Swan Goose Group to collaborate with, buying a large number of corpses and Talisman Stones from them. Roxi was the person who he dealt with, and after so many transactions they were quite familiar with each other.

Back when the Kershi Kingdom had discovered Zhao Fu's existence, they had tried to hunt him down. Now, the Kershi Kingdom had disappeared into history.

Zhao Fu was quite surprised that he could meet Roxi again. There were also a few others who he recognized; they had all opposed Great Qin in the past and Zhao Fu naturally remembered their faces.

Seeing Zhao Fu smile at them, Roxi and the Elf King both felt incredibly shocked. They both remembered Zhao Fu, and quite clearly at that.

To the Elf King, Zhao Fu was the mysterious Emperor who had healed his son; to Roxi, he was the mysterious, rich ruler.

Right after they had met Zhao Fu, when they sensed Zhao Fu's aura and how familiar he felt, they were uncertain as to whether he was the person they knew. Now that Zhao Fu had admitted to it, they were able to confirm this.

That mysterious person they knew was actually Great Qin's Emperor, the most terrifying person in the surrounding ten or so worlds. He was the most legendary and glorious Emperor around.

They never would have thought that Zhao Fu's true identity would be Great Qin's Emperor, and they never would have thought that they would one day meet again under such circumstances. Now, they could only worship him in respect because he was the one sitting on that sovereign throne.

"Don't worry, as long as you earnestly serve Great Qin, We will put aside the enmities of the past and will favor you greatly," Zhao Fu said with a trace of a smile.

Hearing that Zhao Fu would not pursue old enmities and would even favor them if they performed well, everyone let out a sigh of relief. they smiled as they said in unison, "Thank you, Your Majesty! We will wholeheartedly serve Great Qin."

Following this, Zhao Fu had them leave while he discussed the current situation with his subordinates. The situation had become quite complicated with many worlds joining in, so they had to prepare an appropriate countermeasure.

These worlds were all in their peak condition and were stronger than those three worlds. They could not be underestimated and were extremely dangerous.

Chapter 1280: Purple Peach Pit

After the discussions, Great Qin decided to send out ambassadors to the surrounding worlds. The Devil Horn Empire was undoubtedly Great Qin's greatest threat, so if they could work together with other worlds, they would not have to worry anymore and could directly destroy it.

Because the Devil Horn Empire had a lot of territory across four worlds, its threat was greater than Great Qin's, so no one had decided who to support. As such, it was quite likely that they would help Great Qin destroy the Devil Horn Empire.

If they got rid of the Devil Horn Empire, their greatest threat, Great Qin's path would be very smooth in the future.

However, a few days later, Zhao Fu was disappointed. It was not just Great Qin trying to gather support to destroy the Devil Horn Empire; the Devil Horn Empire was also doing the same to destroy Great Qin. This made it so that the other worlds were unwilling to join in; they just wanted to sit by the side and pick up benefits.

However, the Charm Devil World next to the Elf World sent a message: As long as Great Qin provided a large number of beautiful men and women for them to play with, they would consider standing with Great Qin. They also wanted Zhao Fu's concubines; they were simply outrageously bold.

Zhao Fu had wanted to go to the Charm Devil World to see what it was like, but something suddenly happened.

Boom!

A massive explosion sounded out as the heavens and earth became dim and clouds swirled. The world seemed to fall into chaos, and a massive might descended from the sky, causing everyone to feel a sense of terror.

At the center of the Heaven Domain, the eight massive crystals suddenly trembled, causing countless experts' expressions to fall.

These abnormal signs lasted for a whole day, after which a system announcement sounded out in everyone's minds, "System announcement! Production stats have disappeared."

This simple announcement caused Zhao Fu's expression to become grave because the production stat determined how much food a Kingdom had.

If a Kingdom had powerful production stats, they could produce a large amount of food, and crops would mature incredibly quickly. Now, the production stats had not been decreased but directly disappeared. This meant that in the future, their crops would not receive any boosts in growing speed.

At the same time, the yield of crops was also affected. The production stats affected how much food was produced, and the same fields would no longer produce as much.

Crops that required three months to mature would now take three months to mature, and they would be affected by all sorts of variables; their yield would not be guaranteed either.

Before, food and crops were the cheapest resource in the Heaven Awaken World, to the point that they seemed worthless to some. However, now that the production stats had disappeared, food and crops became much more important.

After all, people needed food to survive, and would die without food. In the face of starvation, many people could die, and they would do anything – even if it was eating other people.

“Why did something like this happen?” Zhao Fu wondered, not knowing what had happened.

The golden dragon was quite serious and said, “Zhao Fu, this matter might not be simple at all!”

Following this, Zhao Fu decided to go and ask the higher-being he was acquainted with if he knew anything about this – perhaps he knew some secrets. That higher-being happened to be available and quickly replied.

“It’s most likely because the Heaven Awaken World is gathering its source energy to resist the outer worlds, so some stats have disappeared. It’s like how the power of the City Lord Seals disappeared. Also, it’s best for your Kingdom to become a Royal Kingdom as soon as possible. Perhaps there will be big changes in the future; only then will you have the ability to protect yourself.”

Hearing the higher-being’s words, Zhao Fu’s expression became incredibly serious. Higher-beings were people who stood at the top of the world, and they definitely knew more than Zhao Fu. This higher-being would not trick Zhao Fu; it seemed that big things were going to happen in the Heaven Awaken World.

Moreover, it would take Great Qin to become a Royal Kingdom to have the strength to protect itself – this showed just how great the danger was. Even a Dukedom Kingdom would not be able to withstand the impending danger.

Zhao Fu suddenly felt a massive amount of pressure. Great Qin only had two worlds and was still far from becoming a Royal Kingdom.

Moreover, Zhao Fu was curious about the outer worlds that the higher-being referred to, and just as he was about to ask, the golden dragon answered for him.

The golden dragon told him that outside of the Heaven Awaken World, there were undiscovered worlds, and their Heaven Murder Empire had gone into the boundless void to explore. They had made some shocking discoveries, but because the boundless void was so dangerous and had too many uncertain variables, they were forced to stop exploring.

After hearing about the outer worlds, Zhao Fu felt quite interested and started to look for information on them within the Heaven Spirit Stele. He found that there was a lot of information about the outer worlds, but one needed high authority to access them.

Some of the information was not viewable by Zhao Fu even with his Supreme level account, and some required a price. Of course, there was some information that he could access.

For example, Zhao Fu found that after rising to a Royal Kingdom, he could access the Outer World Battlefield, allowing him to fight with creatures from the outer worlds, which would give him rewards from the Heaven Awaken World.

Moreover, becoming an Imperial Kingdom or an Empire required killing creatures from outer worlds.

Even the golden dragon was quite surprised about this, because fulfilling certain developmental conditions would cause a Kingdom to automatically level up in the past; leveling up further seemed quite troublesome. It seemed that since the Heaven Murder Empire had perished, many big things had happened.

After going through the information about the outer worlds, Zhao Fu felt that this would be quite important in the future. Afterwards, Zhao Fu once again gathered his subordinates and discussed the matter relating to food.

Now, food had become the most important resources of Kingdoms. Even though Great Qin had massive stockpiles of food, Great Qin's population was now at 21 billion. With so many people, that stockpile would be used up in no time.

The reason Zhao Fu gathered his subordinates was to try to find ways to develop Great Qin's agriculture. This was something that they had to do and could not avoid. Great Qin's massive population required a large amount of food to support, or people would turn to eating each other.

Great Qin had always been primarily focused on battle, and now things had to change. Without food, they would not be able to fight battles either, so they needed a large number of people in agriculture.

After dealing with these matters, Zhao Fu finally had time to eat the Celestial Peach and fuse with the Fairy Emperor Bloodline.

After returning to his chambers, Zhao Fu refined the Celestial Peach's flesh into a pool of liquid. With how big the peach was, Zhao Fu did not want to eat it bite by bite.

After turning into a pool of liquid, all that was left of the Celestial Peach was a peach pit that was one finger long and two fingers wide. It was purple and had some cloud-like inscriptions on it, and Zhao Fu carefully put it away. This was the peach pit of a 9,000 year old Celestial Peach, and Zhao Fu wanted to see if he could plant it.

Zhao Fu swallowed the liquid before taking out the Fairy Emperor Bloodline and started to fuse with it. The two massive energies spread out within Zhao Fu's body, causing Zhao Fu's body and soul to tremble.

Zhao Fu's Sovereign bloodline roiled and absorbed the two energies. The Celestial Peach turned into a powerful wave of life force that fused into Zhao Fu's body, while the Fairy Emperor Bloodline was quickly devoured by Zhao Fu's bloodline.
