

The Lord 1351

Chapter 1351: Corpse Pall World

This was primarily for the sake of War God's Fury. Creating the core of War God's Fury required a very powerful spirit plant in order to solidify the ground and add defensive power, giving it greater life force.

Back then, Zhao Fu did not know if the Celestial Peach pit would grow; if it could become one of the core items of War God's Fury, it would be able to create a War God's Fury ten times more powerful than ordinary ones. After all, it was a Celestial Peach.

Zhao Fu chose a region which would become War God's Fury in the future, and he carefully transplanted the Celestial Peach Tree over.

Right now, the Celestial Peach Tree was only a small green sprout, and it would take a long time for it to grow into a large tree. If it could become the core of War God's Fury, it could gather even more power and cause it to grow even faster.

War God's Fury required three core items: the Ten Thousand Gravity Origin Stone, the God Race Stone, and a powerful spirit plant. With those, Zhao Fu would be able to create the basic shape of a War God's Fury.

Zhao Fu gathered all of Great Qin's Talisman Masters and had them set up a magic formation that covered the entire region. Luckily, with Great Qin's massive population, they had many Talisman Masters. Otherwise, who knew how long it would take to set up such a large magic formation.

A few days later, the massive magic formation was completed. Zhao Fu went to the center of the magic formation, where there was a stone stage and 24 talisman pillars surrounding the core of the magic formation. They were there to help with the control of the magic formation while also protecting it.

The first step was to set up the all-important Ten Thousand Gravity Origin Stone. Zhao Fu carefully took it out and put it into the magic formation.

Boom!

An enormous explosion sounded out, and the magic formation started to give off light. A formless energy sank into the ground, and the ground started to violently tremble.

The birds, beasts, and insects all sensed an impending disaster descending, and they became incredibly terrified. They ran about, forming small beast tides that gave off powerful auras.

Rumble...

The region started to rise up, and the ground at the borders collapsed. A massive sound could be heard as the ground surrounding the region cracked, and the ground continuously rose up majestically, shaking the surroundings.

The region gradually rose up and left the ground, hovering in mid-air. The people in the surrounding regions watched on in shock as they looked at the enormous object in the sky. Even in the distance, one could feel its pressure and might.

Now, an island in the sky had appeared, and it was 100,000 kilometers wide and tens of thousands of meters thick. If it slammed into something, billions of people would be crushed into meat paste; it felt incredibly powerful.

The Ten Thousand Gravity Origin Stone's function was to allow the ground to rise and fly in the sky.

However, right now, the region was made up of ordinary dirt, so after being attacked, it would fall apart easily. Even though a region was quite big, it could not take many hits, especially attackers from a Nation Armament.

This was why a God Race Stone and a spirit plant was required. Next, Zhao Fu set down the God Race Stone.

Boom!

A white pillar of light shot into the sky, causing the weather to change. Countless waves of white light rippled out from the pillar of light, and the white light spread through the entire region, causing the region in the air to give off a white light.

Now, each part of the region was reinforced with godly power, and it was more than ten times more powerful than before. It also had the ability to move, and its ability to fly was greatly increased.

Finally, Zhao Fu carefully transplanted the Celestial Peach Tree over. It deserved its renowned status, because right after it was planted, a powerful wave of life energy spread out, making it seem like the region had a life of its own. Not only did its defenses become stronger, but it also became more agile and various stats were increased. It gave off a massive, formless aura.

Zhao Fu looked at the early stages of War God's Fury, feeling quite pleased, and he could not help but smile. However, because it still lacked a few things, it could not yet be used in battle.

However, the moment it could be used, it definitely would not disappoint Zhao Fu. Zhao Fu greatly looked forward to that day.

Right now, the benefit of War God's Fury was that it could gather large amounts of Heaven and Earth Spirit Qi, which could speed up the growth of the Celestial Peach Tree. The faster the Celestial Peach Tree grew, the more life force it would provide, making War God's Fury stronger.

After returning to Great Qin, what Zhao Fu was most worried about was that he could be discovered by the Ancient Sword Sect at any moment and that there would be a lot of danger in the future. Zhao Fu wanted to quickly rise to a Royal Kingdom, and he still lacked six worlds.

Zhao Fu planned to take a look at the Charm Devil World because he had a faction developing there, or else it would be a waste of the Gurao Kingdom. If it was developing well, perhaps he would be able to easily devour the Charm Devil World.

Even though the Charm Devil race was quite lewd, they were quite powerful, and if Great Qin could conquer it, it would become much more powerful.

At the same time, Zhao Fu heard that the Devil Horn Empire had conquered the two worlds on its left and right and was considering attacking the Mermen World next to the Lantong World.

The Mermen were part of the Water Race, and with the water protecting them, it seemed like they would be safe. However, if the Devil Horn Empire could deal with the problem of water, the Mermen World would be in danger because the Mermen's battle power was only average.

If the Devil Horn Empire devoured the Mermen World, it would be easier for it to take over the Elf World.

If it wasn't for Great Qin defending three Continents in three worlds, the Devil Horn Empire would have long since obtained those three worlds. None of the other worlds dared to contest it, and if it obtained those three worlds, it would have six worlds.

Apart from the Charm Devil World, Zhao Fu had two other choices. One was to expand to the left; to the left of the Spirit Light World was the Corpse Pall World, which was a Death Race.

Back then, in order to take the Primogenitor Statue, Zhao Fu had fought with the Corpse Pall World's Legatee. Zhao Fu did not have too much information about the Corpse Pall World right now.

The second choice was to attack the world next to the Fish Scale World. Zhao Fu had not investigated it either and did not know anything about it.

Zhao Fu thought about it and decided to gather some information about the worlds on its left and right first. They were all new worlds and would be quite easy to deal with, so they were Great Qin's main targets.

Zhao Fu first selected the Corpse Pall World because there was enmity between them, so Zhao Fu naturally wanted to destroy it first. However, the Death Race was not easy to deal with, as they had special attributes and were more powerful than Humans.

Within the Eight Major Races, the Death Race was only weaker than the God, Demon, and Devil races. They were difficult to deal with, so it was best to investigate them first.

Chapter 1352: Death Race World

Zhao Fu did not use the golden doors, as they would cause too much of a disturbance. Instead, Zhao Fu used the Trans-Boundary Magic Formations to go to the Corpse Pall World.

As a Death Race World, there was Yin Qi everywhere, and the plants all looked quite strange. The sky was hazy and gray, and the world was filled with an icy coldness. There did not seem to be any noise, only a deathly silence.

After coming to a world like this, most people would feel quite afraid due to the eeriness, which could make their hair stand on end.

Zhao Fu was on the boundary, and he only saw a few wild beasts, which looked quite strange.

At the center of every wild beast's head was a gray-white clump of mud, and after killing a few of them, he picked some of it up.

He found that it was incredibly cold and gave off a powerful Yin Qi. It was quite soft and could be molded into different shapes. It could not be torn apart, nor was it easily destroyed. Zhao Fu did not know what it could be used for.

Zhao Fu soon found a village and discovered the use of these clumps of mud. They could be dissolved into water, which the Corpse Pall people would soak bandages in.

After soaking in the water, the bandages would start to give off Yin Qi. The normal bandages would become Yin Weapons; not only did they become as tough as metal, but they could also be freely and nimbly wielded.

The residents here all had bandages wrapped around their bodies, and there were many of them. The more bandages they could control, the more powerful they would be. No wonder why when he had first met Shi Xiao she had been covered with bandages.

Because this was a small village in the wilderness, Zhao Fu did not bother being too careful. He went to the village and unleashed his massive aura, causing the village to fall into a deathly silence.

Countless people looked terrified; they had never sensed such a massive aura before, and they did not have any thoughts of resistance.

“All of you come out and gather at the center of the village, or I'll kill you all.” Right after Zhao Fu's cold voice sounded out, countless people hurriedly ran out, not daring to hesitate. That power was too terrifying, and none of them had the courage to resist that person's commands.

Zhao Fu stood in the air at the center of the village and looked at the people gathering in front of him. They all knelt in fear and lowered their heads as their bodies trembled. Having immense power was great because one would be able to reign above others. Those who were weak could only live servilely in terror.

There was a big man with thick eyebrows in the lead, and he was most likely the Village Chief. Next to him was a woman whose clothes were in disarray, revealing some of her chest, and she was holding a baby. She had most likely just been feeding the baby.

Zhao Fu glanced at the baby, and the big man thought that Zhao Fu was looking at his wife. His wife's looks were quite good, and she was the number one beauty in the village. Some of her skin was exposed, and he had thought that she had caught that terrifying person's attention.

However, for the safety of the village, the big man could only shout out, "Hurry up and go serve that lord!"

The woman was terrified and did not resist, and she got up and started to walk towards Zhao Fu.

Zhao Fu immediately stopped her. Even though the woman was the number one beauty in the village, in Zhao Fu's eyes, she was extremely ordinary and Zhao Fu naturally did not have any interest in her.

"Tell me everything I want to know, and I'll spare you. Otherwise, I'll kill this entire village."

The terrified villagers could only nod in fear.

Following this, Zhao Fu obtained the information he wanted and flew towards the nearest City. This was only a small village, and he could not get too much information from there.

If they were a village next to a City, he would be able to get more information, but in order for his identity not to be exposed, he would have killed all of them to silence them.

Zhao Fu came to a City and used a teleportation channel to go to an even bigger City. Now, Zhao Fu started to obtain more information about the Corpse Pall World.

Zhao Fu was somewhat surprised that the Corpse Pall World's seven Continents had formed seven major factions. They were not allied factions but factions that had unified each of the Continents.

Shi Xiao occupied the Central Continent while the six other Legatees each occupied one of the other Continents, and they had all established Kingdoms.

These seven people were all quite capable and powerful, or else the situation would not be like this. Back then, the Spirit Light World's factions had all been scattered and were unable to be unified.

These seven people held the greatest power in the Corpse Pall World. They had the highest statuses and the greatest strength. They were worshipped and adored by countless people in the world, and they controlled the fate of the Corpse Pall World.

At the same time, they had interactions with the outside world and knew what had happened at the Spirit Light World. Because of this, they could only ally together, or else they would not have any hope in resisting the monstrous Great Qin.

After learning of the situation in the Corpse Pall World, Zhao Fu became quite serious, because each of the seven Continents had been unified, so they were much more powerful than if there were many factions. It would be quite difficult to deal with them.

Zhao Fu continued to gather information, and he learned of the Corpse Pall World's fighting style. Every world had its own culture, traditions, and fighting style.

Very few people in the Corpse Pall World used weapons made of ores; rather, they liked to use materials from wild beasts. Their fighting style was also quite unique, and almost every person knew how to attack at close range and from far away.

Shi Xiao and the other Legatees gathered to discuss the matter about Great Qin. Now that the Spirit Light World had been destroyed, they would be next.

They felt as if a haze had covered the Corpse Pall World; facing Great Qin's terrifying power, they could not be at ease, and they were constantly worried that Great Qin would attack.

Currently, only the major figures like them knew of this, and ordinary people did not know about it. That was why the Corpse Pall World was still so calm; they had entered a time of peace and prosperity, and the commoners had no worries.

However, if they knew of how terrifying Great Qin was, they would not be like this, and the Corpse Pall World long since would have descended into chaos. Everyone would have fallen into terror from Great Qin.

Shi Xiao had met Zhao Fu before when fighting over the Primogenitor Statue. Even though they had not met after that, there was enmity between the two sides because there had been an intense fight over the Primogenitor Statue.

Even though she knew that Great Qin was not ordinary, she had never thought that he would be so terrifying. The Legatees each unified a Continent, and given that their world was a new world, it was something they were quite proud of. Many of the outside worlds had not been able to do this.

However, they were nothing in front of Great Qin. Great Qin was also from a new world, yet it had unified four worlds and was the most powerful faction in the surroundings.

Chapter 1353: Wind God Empire

Now, the seven of them did not know what to do. Even though they had contacted the allied worlds, the allied worlds were not very reliable. With how cowardly they were, they would definitely be destroyed by the two factions sooner or later.

They would have to face Great Qin's threat by themselves, and no one would be able to help them.

However, despite facing the ferocious Great Qin, the Corpse Pall World was not without hope. They started to prepare all kinds of methods for a final fight with Great Qin.

They even decided to use some forbidden techniques and incredibly sinister methods to deal with Great Qin. As long as they could win, they would do anything. They had started to collect all kinds of Yin Beast Clay and infants born during Yin Periods.

They did this all secretly because they were worried that they were being investigated by Great Qin. Now that they had the ability to cross worlds, Great Qin definitely had some as well.

They did not know that Great Qin's Emperor was already in their world. If they had known, they would have been incredibly delighted and would have gathered all of their soldiers to kill Great Qin's Emperor.

Once Great Qin's Emperor died, the rest of Great Qin would fall apart, and the Corpse Pall World's crisis would be resolved.

They knew that Great Qin's Emperor was very powerful, and his Nation Armament could now gather the power of four worlds. However, it was only a portion of the four worlds' power, not all of their power.

If they gathered four or five billion soldiers and used various methods, they would have the confidence to kill Zhao Fu. They were not a match for him individually, but with the power of their world, they would definitely be able to defeat him.

However, gathering so many soldiers was not a simple matter. By the time they gathered so many soldiers, Zhao Fu would be long gone; after all, Zhao Fu was not stupid.

The Corpse Pall people continuously prepared to defend against Great Qin, while Zhao Fu collected information within the Corpse Pall World.

He found out about the seven major factions' Legatees and their abilities, as well as their fighting styles.

They mostly used bone-type weapons, and bandages were their subsidiary weapons. They could attack and defend with both kinds of weapons, and they could attack with both at the same time.

This made things quite difficult, and fighting them would be like fighting two people at once. Facing enemies like this, ordinary people would lose; the Corpse Pall World still had the power to resist.

Of course, fighting like this was quite tiring. Moreover, even though the bandages were Yin Weapons and were as tough as steel, they were still weak against intense flames.

This was the most important thing: Great Qin could use fire to counter the Corpse Pall World and weaken it, if not easily conquer it.

Apart from these things, Zhao Fu also found out about some secret information, but he could not ascertain if it was true or not.

It was rumored that the seven Legatees had obtained an Underworld treasure trove, which had countless Yin treasures, Yin Coins, Yin Qi materials, and even things that could allow them to enter the Underworld. It was said that it was because of this Underworld treasure trove that the seven Legatees were so powerful, or else they would not have been able to unify the Continents.

Zhao Fu did not know if this was true or not; he would find out after conquering the Corpse Pall World. Following this, Zhao Fu returned to Great Qin and ordered people to make preparations to attack the Corpse Pall World.

Now, Great Qin's primary focus was digesting the Spirit Light World. They would only make preparations to attack the Corpse Pall World before actually doing it.

After investigating the Corpse Pall World, Zhao Fu planned to go to the world next to the Fish Scale World, but something unexpected happened in the Charm Devil World.

Boom!

An explosion rang out as a massive aura ferociously spread out, causing countless people to fall into terror. Despite being a few worlds away, Zhao Fu could also sense an incredibly terrifying might descending.

This was an Emperor Heaven Realm Cultivator; why would one of the most powerful experts in the Ancient Stem Domain appear here so domineeringly? He did not place anyone in his eyes at all.

"Listen up, everyone in this world. This world belongs to my Wind God Empire, and anyone who dares to spy will be killed without mercy. Anyone who dares to bully it will have their world destroyed." Apart from the Emperor Heaven Realm expert, there were also three billion Stage 3 soldiers. They instantly conquered a Continent in the Charm Devil World, and the world below the Charm Devil World was the world next to the Fish Scale World.

That was the world the expert was referring to.

Even though it was just three billion soldiers, they were all Stage 3 soldiers, who could rival 30 billion Stage 1 soldiers.

That Continent could not resist at all and was instantly destroyed. The people from the Wind God Empire were incredibly cruel and merciless; after conquering the Continent, they slaughtered everyone, whether they were men or women, elderly or children. In just a few days, the three billion soldiers had slaughtered everyone within that Continent.

Corpses littered the Continent and blood formed rivers. The ground was dyed red and the stench of blood was incredibly pungent. There was not a living Charm Devil left, only countless corpses.

Some Charm Devils were able to escape to other Continents, or else everyone from that Continent would have been slaughtered.

High-Stage soldiers could easily suppress low-Stage soldiers, and they were slaughtered from start to end. The entire Charm Devil World fell into terror, because facing these three billion soldiers, they were powerless to retaliate.

If the Wind God Empire's people really wanted to destroy them, the Charm Devil World would disappear from the map in the next moment.

It seemed that the Wind God Empire had its own worries, so it did not go too far, or else there would have been a storm of blood here.

The arrival of the Wind God Empire and its bloody and domineering way of doing things shook the entire region, all of the worlds were terrified; they could not even defend against a Royal Kingdom from the Ancient Stem Domain, and if a Royal Kingdom from the inner Domains came, they would be crushed like an ant.

Now, they all felt incredibly nervous and gathered their forces, worried that the Wind God Empire would do something.

After hearing about this, people from the inner regions of the Ancient Stem Domain also sent people over. Even though they were also Royal Kingdoms, they were on different levels and they feared the Wind God Empire. They wanted to know what was going on.

Moreover, the various factions wanted to know what their goal was in staying here because they were worried that the Wind God Empire would do something to them as well.

It was just a Royal Kingdom from the inner region of the Ancient Stem Domain that had moved out, yet it seemed like a storm had swept through the Ancient Stem Domain. If someone from the Heaven Domain had come, things would be unimaginable.

The Devil Horn Empire also took this matter quite seriously. Yao Ming had a grave expression on his face; before, the Devil Horn Empire and Great Qin had been the most powerful ones here, but now the Wind God Empire had come. It had immediately become the most powerful faction in the surrounding hundreds of worlds. No one dared to offend it, not even the Devil Horn Empire or Great Qin.

Chapter 1354: Barrier Vortex

Zhao Fu also looked quite serious. Now that such a massive faction had suddenly descended, Great Qin's plans had been completely ruined, and Great Qin's safety was threatened.

At the same time, Zhao Fu was curious what that world had, or what had happened, for a Royal Kingdom in the inner regions to descend.

Great Qin had not investigated that world before, and now that world became even more mysterious. Fortunately, Great Qin had conquered the Fish Scale World and the Heaven Domain Boundary was still present, and Zhao Fu could enter that world through the Fish Scale World.

The Wind God Empire's matter became a very dangerous matter. Zhao Fu immediately got up and planned to head to that world.

However, he found that he could not enter that world. The Trans-Boundary Teleportation Channel was unable to transport into his world, as there seemed to be some kind of power protecting that world, making it so that no one could go into it. Even the Trans-Boundary Teleportation Channel was useless against it.

However, Zhao Fu had other methods, which were Mosax and Yu Ling. Mosax could turn all powers into nothingness, while Yu Ling could break through barriers. The two of them should be able to break open the barrier.

The two of them soon arrived and followed Zhao Fu's orders to break open the barrier.

Mosax first cast his Nothingness Domain, which ate away at the barrier's energy. Yu Ling then stood within the Nothingness Domain and pressed his hand against the barrier. A formless wave of light spread out, and the barrier started to twist as a vortex formed.

Zhao Fu was delighted; it was indeed possible. With Mosax and Yu Ling working together, no barrier could stop them.

However, Zhao Fu was then left disappointed. The barrier recovered too quickly, and it had great restrictions against those who were powerful. Zhao Fu could not enter, and only Mosax and Yu Ling could enter.

In the end, Zhao Fu was unable to do anything and could only tell the two of them to go in and gather intelligence. He gave them the highest grade of Nothingness Cloaks to keep them safe and told them to value safety first. If there was any danger at all, they were to immediately retreat.

Yu Ling was still a child, so Mosax was in charge, and the two of them quickly entered the vortex.

Zhao Fu did not bother waiting there, as he did not know when they could come back. He hoped that they would bring back some good information.

Following this, Zhao Fu returned to Great Qin and he planned to head to the Charm Devil World. Great Qin had planned to conquer that world, but this now seemed impossible with the Wind God Empire present. It was impossible for Great Qin to defeat the Wind God Empire.

Right now, none of the people in the Charm Devil World were having a good time. All of them lived in constant fear; when the Wind God Empire acted, it did so without any warning and acted incredibly mercilessly, directly killing everyone in the way. Some Charm Devils did not dare to stay in the Charm Devil World anymore.

Great Qin had the Gurao Kingdom as a piece in the Charm Devil World, and Zhao Fu planned to go there and have a look before making detailed plans.

Zhao Fu sat on the throne as the Gurao Kingdom's Queen and Royal Concubines lewdly serviced Zhao Fu. There were also a group of seductive-looking women waiting by the side, watching enviously and thirstingly. They were the previous Charm Devil King's Concubines, as well as the wives and daughters of some Ministers.

With their licentious nature, servicing Zhao Fu was bliss, but only the Queen and Royal Concubines had this right, while they could only wait.

Zhao Fu felt quite helpless; he had just wanted to have a look at the situation, but Mei Xianggu and Xiangli had long since reached their limits.

"Husband, you've finally come. You have no idea how much we missed you." Mei Xianggu, the most vicious Queen in the Gurao Kingdom, said unhappily as she serviced Zhao Fu.

"That's right! Husband, we've been thinking about you every day and night, so you have to properly play with our bodies today," the former Queen said flirtatiously.

Zhao Fu lightly laughed, "I'll satisfy you both later. Now that the Wind God Empire has descended, what is the situation like in the Charm Devil World? What will you do?"

Xiangli was not very interested in this matter, and she wholeheartedly serviced Zhao Fu.

Mei Xianggu was more farsighted, and she sighed as she said, "Right now, with such a dangerous existence like the Wind God Empire in the Charm Devil World, many people are preparing to relocate their Kingdoms. No one knows why the Wind God Empire is here, or what their next move will be.

"Now that this place has become so dangerous, many people do not dare to stay here anymore, as they might die at any moment. If the Wind God Empire wants to destroy the Charm Devil World, I want to join you; only you can protect us. Also, husband, I have a piece of good news for you. However, you have to first satisfy me, or I won't tell you!"

Zhao Fu looked at how alluring she was and could not hold himself back, going at it. The women waiting by the side also happily crowded over; they could finally experience that intoxicating feeling.

Afterwards, Zhao Fu hugged the panting Mei Xianggu and asked, “Now you can tell me what it is, right?”

Mei Xianggu’s face was red as she said flirtatiously, “One of the rulers of a Continent in our Charm Devil World is looking for a man; a man who can conquer her and has a large faction. She wants to protect her own Continent and leave open a path for the future.

“Husband, with your strength, you can definitely conquer her. Also, it’s said that she’s still a virgin; if you can conquer her, you’ll obtain an entire Continent. Many people have headed over, so husband, you have to act quickly. Perhaps the Devil Horn Empire’s Emperor has gone as well.”

Zhao Fu glared at her and said, “Why didn’t you say so earlier?”

Mei Xianggu lightly harrumphed, “If I said it earlier, then I wouldn’t have been satisfied like now. Alright, husband, I’ll help you put on your clothes and take you there; you should still make it in time. After all, that news hasn’t been spread yet.”

Zhao Fu nodded, and the two of them headed to that Continent.

“A group of trash, you dare to challenge this Emperor?” A cold harrumph sounded out as the purple-clothed Yao Ming appeared in the sky and a massive aura spread out towards some Charm Devil men.

Sensing this terrifying aura, countless people looked terrified and hurriedly retreated, not daring to stay. They were not a match for Yao Ming at all.

A woman flew into the sky. She wore armor and had short, red hair, and a fiery figure. She looked both handsome and beautiful and gave off a valiant and heroic aura. If it wasn’t for the fact that she had such a defined figure, people would take her to be a beautiful and handsome young man.

“Are you the Emperor of the Devil Horn Empire?” That woman was the ruler of the Continent, Mei Qianggu, and she looked at Yao Ming with interest.

There were four powerful factions here: Great Qin, the Devil Horn Empire, the allied worlds, and the Wind God Empire.

The allied worlds were not worth considering, and the Wind God Empire was an enemy. As such, only Great Qin and the Devil Horn Empire were suitable.

Chapter 1355: Mei Qiang

She wanted to receive the support of a large faction and increase the strength of her Continent. If they could not defend against the Wind God Empire, she would be able to at least withdraw to that faction. The Devil Horn Empire was quite powerful and had three worlds and nine Continents, and it could give her massive help.

Sensing the gazes of fear and worship around him, Yao Ming proudly smiled, saying, "That's right, This Emperor is the Emperor of the Devil Horn Empire. This Emperor can make you a Concubine and give you all sorts of help."

Mei Qiang slightly smiled and cupped her hands as she said, "Thank you very much, Devil Horn Empire's Emperor."

If it was to ordinary people, Mei Qiang would not be so courteous. However, the other side was the Devil Horn Empire's Emperor, so she had to be especially polite.

Yao Ming felt quite happy to be able to obtain a Continent so easily; it was essentially free. He said, "Come back with This Emperor then! This Emperor will immediately make you a Concubine and send soldiers to defend your Continent."

Mei Qiang lightly smiled as she said, "That's naturally not a problem. However, according to the Charm Devil World's customs, you not only have to defeat me in battle but also have to conquer my body. You are definitely stronger than me in battle, so you just need to conquer my body.

"It's my first time, and to be able to give it to such a powerful and famous man like you, I'm quite happy. Let's not waste words; hurry up and do me!"

As a Charm Devil woman, she was quite daring in this regard. She did not have any shame and took off her armor, wanting Yao Ming to ferociously do her in front of everyone.

Yao Ming gave a confident smile. He was from the Devil Race and was quite capable in that regard. He naturally had confidence that he could conquer this woman.

Perhaps he would not have been willing to do Mei Qianggu in front of everyone. However, after doing those Concubines with the Prince and after eating his little brother, he had become quite twisted and did not mind anymore. In fact, he actually felt quite excited upon seeing this. Hearing that the two of them were about to do it in front of everyone, all the other Charm Devils, whether male or female, looked quite excited, and their bodies started to react.

Mei Qianggu had taken off most of her clothes, leaving only red silk clothes, and her faintly discernible figure was incredibly alluring.

Yao Ming loudly laughed and flew towards Mei Qianggu, preparing to hug her and do this woman in front of everyone.

Boom!

An even more powerful aura exploded out, and everyone sensed a massive pressure. Whether it was their bodies or bloodlines, they all felt incredibly terrified, and their bodies instinctively trembled. It was Zhao Fu arriving with Mei Qianggu, giving off a powerful aura.

Seeing Zhao Fu arrive, Yao Ming's expression soured. He prepared to grab Mei Qianggu and run so that he could obtain a Continent.

Shing!

A sword light giving off shocking power ferociously slashed towards Yao Ming. Yao Ming was given a big fright and drew his saber, blocking that sword light, but he was sent back a few steps.

This caused Yao Ming's expression to fall; Zhao Fu's power had once again increased significantly.

However, Yao Ming would not admit defeat so easily. A purple aura flame appeared around him as an enormous aura spread out. He was preparing for a big battle against Zhao Fu.

"Wait!" Mei Qianggu called out, before looking at Zhao Fu in shock. She asked, "Are you Great Qin's Emperor?"

Zhao Fu hugged the mature and lewd Mei Xianggu and smiled as he nodded.

Seeing Zhao Fu's response, Mei Qianggu looked at Yao Ming and said apologetically, "Apologies, Devil Horn Empire's Emperor, but Great Qin's Emperor is more suitable for me. Also, you're most likely not a match for him.

"Moreover, the aura he gives off is nobler than yours and he's incredibly attractive to me. My body's already reacting to him, wanting him to do me. You didn't give me this sort of feeling, so you lose."

"You slut!" Yao Ming already saw Mei Qianggu as his woman, and hearing these words, he was furious to the extreme. His face darkened and he slashed out, ferociously attacking Mei Qianggu.

Mei Qianggu's expression changed and she dodged to the side; she understood that she was not a match for Yao Ming.

Zhao Fu now entered the battle and faced off against Yao Ming. Massive words blew, causing sand and rocks to fly and countless people escaped this place in terror. In the end, Yao Ming had to run away; not only was Zhao Fu more powerful than him, this was Mei Qianggu's territory and her army was here.

Neither side dared to use their Nation Armaments, as they were wary of the Emperor Heaven Realm expert in the other Continent. If they made too big of a ruckus, it was possible that they would all be killed by the Emperor Heaven Realm expert.

"Thank you for your help, Great Qin's Emperor; I'm yours now," Mei Qianggu said with a smile. If it wasn't for Zhao Fu, it would have been very difficult for her to beat back Yao Ming. However, if Zhao Fu had not come, she would have chosen to work with Yao Ming.

Zhao Fu smiled and looked over Mei Qianggu. In actuality, as long as it was something detrimental to the Devil Horn Empire, he would do it because the Devil Horn Empire was an enemy. Mei Xianggu lightly harrumphed and said, "It was said that you're not interested in men, but looking at how wet you are, you look so lewd. However, to be with our husband, you're incredibly lucky. Most women don't have the opportunity to taste that pleasure."

Mei Qianggu was only wearing light silk clothes, and it was evident how wet she was. However, she was not embarrassed and said, “Yes! No man has ever made me react like this before. Great Qin’s Emperor, please do me well; I can’t hold back anymore.”

“Wait! Our husband isn’t going to do it with you in front of so many people. Also, do you really think you can satisfy our husband by yourself?”

Mei Xianggu knew Zhao Fu’s personality well. Even though most people had left, there were still countless soldiers gathered here. Seeing Mei Qianggu unable to hold back and about to take off her final piece of clothing, she quickly stopped her.

Mei Qianggu understood and quickly brought Zhao Fu within a tent. She could not wait anymore, leaned against Zhao Fu’s body, called in four beautiful women, and said, “They’re my four Generals: General Lihua, General Hanyue, General Baiwu, and General Fengqiu.”

General Lihua looked quite flirtatious and had a nice figure; General Hanyue had her hair in a ponytail and looked quite valiant; General Baiwu looked quite pretty and had a slim figure, but was quite flat; and General Fengqiu looked quite cold and had a mature figure.

“Emperor, can we do it now?” Mei Qianggu’s eyes were filled with lust and there was a tone of pleading in her voice.

Zhao Fu smiled, pressed her under him, and started to ravage her body.

Mei Xianggu smiled and joined in, and the four Generals who wielded immense power and authority looked at each other before taking off their armor and joining in.

Chapter 1356: Mysterious World

After a few wild rounds, Zhao Fu was quite delighted as he found that his cultivation was about to break through, so he immediately sat up and went into a cultivation state.

Zhao Fu was currently at Stage 9 and if he broke through, he would reach the Saint Realm. Zhao Fu had been very close to breaking through before, but because of his Divine Bloodline, his cultivation had declined by a bit. However, he had become stronger.

A group of panting women lay on the carpet. Mei Qianggu and the four Generals' faces were all red and were still intoxicated by the pleasure from before.

Mei Xianggu said weakly, "Now you know what it feels like! Have you fallen in love with it? Our husband's reputation for being licentious and powerful down there is not false at all."

Mei Qianggu powerlessly nodded, "I had never thought that I would feel such pleasure. Husband really is a counter to the Charm Devil Race. Big sis Xianggu, please teach me more techniques to serve husband. I want to be done by him every day."

The four Generals also said weakly, "We're also willing to follow our Queen to serve husband. Please teach us as well."

Mei Xianggu gave a sinister smile. She was older than Mei Qianggu and the Generals, and she had a lot of experience in the palace; she had no reason to talk to these people unless there was some goal.

From how she saw things, the Charm Devil World was bound to become Great Qin's sooner or later. Zhao Fu's harem had so many people, and most of them were incredibly beautiful. She needed to gather Charm Devil women to develop her faction so that she could wield more power in Great Qin.

Zhao Fu was now completely focused on cultivating, and Saint Realm power spread through Zhao Fu's body. Zhao Fu's Stage 9 Cultivation power was currently being condensed into Saint Realm power.

The massive difference between Stage 9 and the Saint Realm was one of power and essence. Stage 1 to Stage 9 only had ordinary cultivation power, while Saint Realm power was a higher-tier power.

This higher-tier power was much more powerful than ordinary cultivation power. Saint Realm power reigned above all ordinary powers.

Without any higher-tier powers, an ordinary Stage 9 expert would have no hope in defeating a Saint Realm expert.

Now, Zhao Fu's body had gathered Saint Realm power, but the process was not yet over; what made Saint Realm experts powerful was their Saint Realm Domain.

Zhao Fu was currently comprehending his Saint Realm Domain. Heaven and Earth Power quickly gathered, and Zhao Fu's body gave off intense light as Saint Realm power shot out.

The women lying powerlessly on the carpet's expressions fell, and they felt terror on a bloodline level as Zhao Fu's Divine Bloodline power was released. Their bodies gradually became cold; in front of this might, they felt as if there was an insurmountable mountain in front of them.

"Big sis Xianggu, just what is husband's bloodline? My Royal Bloodline can't resist it at all, and it has completely surrendered under that aura." It was the first time Mei Qianggu had been so terrified before.

Mei Xianggu naturally did not know. Zhao Fu did not tell her much, and under the aura of this bloodline, her face became somewhat pale.

However, she still pretended that she was close with Zhao Fu; only then could she have Mei Qianggu and the others defer to her. As such, she said profoundly, "Our husband's bloodline is a heaven-shaking secret; it's best that you don't know, or else the consequences could be severe."

Hearing this, the other women all believed it. They put on their clothes and did not dare to stay here, or they could be caught up in the shockwaves.

Boom!

Just as they left, Zhao Fu's body erupted out with boundless Six Desires Demonic Qi. Because the Art one practised had great effects on the Saint Realm, the power one obtained from practising an Art would form a certain kind of Domain.

Zhao Fu had completed the preliminary steps in his mind in forming his Saint Realm Domain, and the Six Desires Demon Gods had appeared within the Saint Realm Domain.

In actuality, Zhao Fu had already broken into the Saint Realm, but he was not yet satisfied with his Saint Realm power. He planned to fuse the 72 Saint Realm Domains within his body into his own Saint Realm Domain.

This process was quite difficult. Zhao Fu's Six Desires Saint Realm Domain devoured the power of these Saint Realm Domains, absorbing their power and causing the Six Desires Demon Gods' bodies to become almost corporeal.

Boom!

Zhao Fu stabilized his Saint Realm Domain and a wave of Saint Realm power spread out; Zhao Fu had officially become a Saint Realm Cultivator.

Currently, whether it was body or soul, Zhao Fu felt that he had gone through immense changes. His senses towards the heavens and earth and everything within them had become much clearer, and his power had greatly increased. This was the power of the Saint Realm.

Yao Ming returned to the Devil Horn Empire, feeling incredibly humiliated, as if his woman had been stolen by Zhao Fu. What made him even angrier was that that woman had lewdly begged Zhao Fu to do her right in front of him.

If it wasn't for the fact that the Wind God Empire was in the Charm Devil World, Yao Ming would definitely take down the Charm Devil World at all costs and make the entire Charm Devil World feel his fury.

However, now that the Wind God Empire had come with ill intentions, Yao Ming hesitated whether or not to change his plans. He had planned to attack the Mermen World, but now that such a terrifying existence like the Wind God Empire was present, if he developed in that direction, he would clash with the Wind God Empire sooner or later.

With the Devil Horn Empire's power, it would definitely lose. Even other Royal Kingdoms would not want to get involved because the Wind God Empire was a Royal Kingdom from the inner regions of the Ancient Stem Domain.

After thinking about it, Yao Ming decided not to expand to the right in order to avoid facing the Wind God Empire. He would revise his plans after determining the Wind God Empire's motives. As such, he could only focus on the left for now.

Because of the Wind God Empire, Yao Ming felt a strange sense of unease and felt that there was great danger. As such, he sent out ambassadors to various Royal Kingdoms to see how they would deal with this. Only they had the power to fight against the Wind God Empire.

“What are you doing?” Zhao Fu felt quite frustrated as he looked at Mei Qiangu and the four Generals servicing him while Mei Xianggu seductively smiled and taught them.

“Husband, we want to do it with you every day, so of course we have to learn how to serve you,” Mei Qiangu said as she looked at Zhao Fu earnestly.

Zhao Fu stopped them and said, “Let’s go back to the proper matters. I want most of your faction and the Gurao Kingdom to withdraw to Great Qin. Don’t worry, your power and authority won’t be affected.

“The Charm Devil World is in danger and the Wind God Empire might attack at any time without any warning. Moreover, this Continent is the closest one to where the Wind God Empire and is in the most danger.”

Mei Qiangu stopped and also sank into her thoughts before nodding. She was afraid of the Wind God Empire suddenly attacking, and if they gathered here, they would not be able to quickly withdraw.

The Gurao Kingdom and the Charm Bone Kingdom started to relocate their factions, and Great Qin returned to Great Qin and ordered people to receive them.

A few days later, Yu Ling and Mosax returned to Great Qin and brought back information about that mysterious world.

Chapter 1357: Wind Spirit World

That mysterious world was a Spirit Race world, specifically a Wind Spirit world. The creatures living in it all had wind attribute power, and it was a relatively strong race.

The Wind Spirit World had five Continents and four Continents were still in an age of war. The Central Continent had been unified and was the most powerful faction in the Wind Spirit World.

The ruler of the faction was the World Protector, and it was said that he had the title of Wind God's Son. Rumors said that he had a pure Wind God bloodline, could control enormous storms, and was incredibly powerful.

His faction's name was the Wind God Kingdom, which was only a single word away from the Wind God Empire. Perhaps there was some kind of relationship between them.

After the Wind God's Son unified the Central Continent, his faction had become the most powerful faction. The other Continents allied together to resist it, but they did not have the ability to destroy the Wind God Kingdom, while the Wind God Kingdom could not do much to the other Continents either.

This was the information that Mosax and Yu Ling had obtained. Zhao Fu had long since expected the mysterious world to have some kind of connection to the Wind God Empire.

However, Zhao Fu did not know what that connection was. If they were enemies, the Wind God Empire was most likely waiting outside to slaughter the Wind Spirit World.

That would be best, because only one world would be doomed. After destroying the Wind Spirit World, the Wind God Empire would leave and everyone else would be safe.

It was likely that many people hoped for this. After all, the Wind Spirit World had nothing to do with them, so its being destroyed had no effect on them. As long as the Wind God Empire, that terrifying existence, would leave, everything would be well and good.

However, there was another possibility, which was that the Wind God's Son and the Wind God Empire had a friendly relationship. If that was the case, the situation would be quite dangerous.

After all, if they had a friendly relationship, the Wind God Empire definitely would not attack the Wind Spirit World. If that was the case, why did they send over such a large force?

It was possible that the Wind God Empire was helping the Wind Spirit World attack other Kingdoms to help it become a Royal Kingdom. If that were the case, the surrounding worlds would be in immense danger.

This included Great Qin because it was only one world away from the Wind Spirit World. The Devil Horn Empire was safer, as it was two worlds away, but it could also become a target of the Wind God Empire.

“Ai!” After receiving the information about the Wind Spirit World and imagining the possibilities, Zhao Fu heavily sighed and felt immense pressure.

If it was the second possibility, the people of the surrounding worlds would not have any ability to retaliate at all, and the inner regions of the Ancient Stem Domain would not care at all, as they would not suffer any losses. Moreover, the Wind God Empire was a Royal Kingdom of the inner regions, and they were not a match for it.

Zhao Fu gathered his subordinates to discuss this matter. They had to make preparations, or else when the Wind God Empire attacked, it would be too late.

With Great Qin’s current strength, it definitely would not be able to defend, because even an ordinary Royal Kingdom would not be able to stop the Wind God Empire. As such, they could only think of other methods and would not be able to rely on ordinary Royal Kingdoms.

A powerful Kingdom like the Wind God Empire definitely had opponents or enemies in the inner regions of the Ancient Stem Domain. If they spread this information to them, perhaps they would interfere.

Zhao Fu ordered people to investigate the Wind God Empire, and they found that they had an archenemy in the inner regions, called the Demon Wind Empire.

Zhao Fu did not hesitate to have people to leak this information to the Demon Wind Empire, and they waited to see what the Demon Wind Empire would do.

After hearing about the Wind God Empire’s movements, the Demon Wind Empire sent people to investigate and started to gather its forces, but they did not yet send any soldiers out.

However, this was enough for Zhao Fu to let out a sigh of relief; the Demon Wind Empire would definitely intervene, and they would not allow the Wind God Empire to do as it wished. Since that was the case, Great Qin would not face as much pressure in the future.

Moreover, Great Qin had to quickly increase its strength; only by having enough strength would they be secure. Zhao Fu gave the order to quickly digest the Spirit Light World before attacking the Corpse Pall World.

After the Wind Spirit Worlds' barrier disappeared, they would know just what the connection between the Wind God Empire and the Wind God's Son was.

In order to protect Great Qin, Zhao Fu planned to send out some ambassadors to the Royal Kingdoms in the inner regions of the Ancient Stem Domain to leak information about the Wind God Empire. Perhaps he would be able to obtain the support of some Royal Kingdoms.

Because of the arrival of the Wind God Empire, there were not as many battles anymore; the Devil Horn Empire, Great Qin, and the allied worlds all became incredibly cautious.

Since there were not any battles, Zhao Fu turned his attention to other matters. Now that the Emperor Killing Sword World had leveled up, it could convert another 10,000 people into Sword Obsession.

With how terrifying Sword Obsession was, 10,000 people who had gone into Sword Obsession were equivalent to an army of one million people. A single person in Sword Obsession could kill 100 ordinary Stage 1 soldiers.

With 10,000 people in Sword Obsession, the Emperor Killing Sword World would also become much more powerful. If it leveled up again, it could have 100,000 people in Sword Obsession, which could rival ten million soldiers.

If Zhao Fu could one day have 100 million people in Sword Obsession, they would be able to face tens of billions of soldiers. That was an incredibly terrifying thought, and the further they went into Sword Obsession, the more indestructible they would become.

The Emperor Killing Sword World had great value, so Zhao Fu naturally paid much attention to it. The 10,000 people who were to go into Sword Obsession would have to be Sword Cultivators with good potential.

Zhao Fu opened up the requirements; he no longer required sword geniuses because there were not that many geniuses. Anyone with decent talent could be chosen.

As for the candidates, Zhao Fu decided to once again set his sights on the Ancient Sword Sect. After all, their disciples were all Sword Cultivators and there were many of them, and most of them had decent talent.

Even though the Ancient Sword Sect had unknowingly provided Great Qin with some resources, that could not wipe away Zhao Fu's hatred towards it. Moreover, Zhao Fu did not even want those resources, but he had accepted them out of courtesy.

Otherwise, with how much Zhao Fu hated the Ancient Sword Sect, how could he want their resources? As such, Zhao Fu still decided to lay his hands on the Ancient Sword Sect.

Following this, Zhao Fu went to Lin Yan'Er because she was from the Ancient Sword Sect and had been one of the top-ranked geniuses. She knew a lot about the Ancient Sword Sect and had helped Zhao Fu much in the past.

"Husband, you've come!" After seeing Zhao Fu arrive, she smiled and leapt into his embrace, kissing him and starting to take off her clothes, wanting to do it with Zhao Fu.

Zhao Fu stopped her and found that Ling Feixue, the former Madam of the Ancient Sword Sect, was also here.

Ling Feixue was sitting by the side with a reddened face. Her body seemed quite taut and her head was lowered, as her body gave off an enchanting and lustful aura.

Chapter 1358: Elder

Seeing her, Zhao Fu thought of Yu Qingshui. Even though he had helped her suppress her Six Desires Demonic Qi, her body was still affected by the Six Desires Demonic Qi. It seemed that Ling Feixue was in the same boat and was trying to hold herself back.

Zhao Fu decided to use the Six Desires Demonic Qi less in the future, as it did not seem to be fully within his control.

"Husband, do you want to do our Sect's Madam? She's been wanting for a long time! Come, come."

Seeing Zhao Fu look at Ling Feixue, Lin Yan'Er dragged Zhao Fu over to Ling Feixue. Ling Feixue's face was red and she turned her face away, not daring to look at Zhao Fu. Even though she wanted it badly, she did her best to stop herself.

However, if Zhao Fu really were to do something to her, she would not be able to resist. Regardless, she would never take the initiative.

However, Lin Yan'Er's next words shattered her resolve. "Big sis Feixue, think of the Ancient Sword Sect! Our husband is a good person, but you have to behave well!"

"For the Ancient Sword Sect!" Ling Feixue thought to herself as she looked at Zhao Fu with her hazy eyes before started to serve him, and Lin Yan'Er happily joined in as well.

Following this, Zhao Fu started to go about it on their bodies, enjoying the Ancient Sword Sect's Madam's body while also taking his revenge.

Afterwards, Ling Feixue lay weakly within Zhao Fu's embrace. After suppressing her desires for so long, she had almost gone mad just then.

Zhao Fu told Lin Yan'Er why he had come, and the red-faced Lin Yan'Er happily agreed to help him, as she could finally be alone with him.

"Your Majesty, I don't hope for you to spare everyone from the Ancient Sword Sect, but can you please at least let off some people? I'm yours and I'll serve you well in the future." Ling Feixue's voice was quite weak, but she looked at Zhao Fu with hope in her eyes.

After staying in Great Qin, Ling Feixue had seen the speed at which Great Qin developed and its powerful methods. Even though the Ancient Sword Sect was strong, Great Qin would destroy the Ancient Sword Sect sooner or later; she was sure of this.

Zhao Fu stretched out his hand and raised Ling Feixue's chin and said teasingly, "Don't worry, I'll let off some people from the Ancient Sword Sect. However, I want to hear you call me husband."

Ling Feixue looked quite embarrassed and felt quite guilty to the Ancient Sword Sect's Sect Master. However, for the Ancient Sword Sect, and for herself, she needed Zhao Fu. After doing it with Zhao Fu, she did not want to have to endure like before, so she cried out shyly, "Husband!"

The Ancient Sword Sect was a faction that had existed for a long time, and its ten worlds had at least 400 billion people. How could Zhao Fu kill all 400 billion people? He would just kill the higher-ups and take in the rest.

Zhao Fu started to ask Lin Yan'Er about the Ancient Sword Sect's forces. Now, the Emperor Killing Sword World could convert people of higher cultivation, so even though Zhao Fu relaxed the requirements in terms of talent, they would make up for it with cultivation.

A Stage 2 soldier could fight against six or seven Stage 1 soldiers, a Stage 3 soldier could fight against 36 Stage 1 soldiers, a Stage 4 soldier could fight against 216 Stage 1 soldiers, and a Stage 5 soldier could fight against 600 Stage 1 soldiers.

With the Emperor Killing Sword World's power, it could now convert people up to Stage 6. Any higher would be problematic, as they could use their cultivation power to resist being converted.

Zhao Fu planned to capture 10,000 Stage 6 swordsmen from the Ancient Sword Sect. With how big the Ancient Sword Sect was, 10,000 Stage 6 swordsmen was not a big deal.

For some massive factions, they had tens of thousands of Stage 8 and Stage 9 people and even more Stage 5 and Stage 6 people. If Zhao Fu could obtain 10,000 Stage 6 swordsmen, they would be able to rival millions of Stage 1 soldiers.

In the inner regions of the Ancient Stem Domain, Stage 2 and 3 counted as lower-level cultivation, Stage 4 and 5 counted as mid-level cultivation, and Stage 6 and 7 counted as higher-level cultivation. As such, their positions in the Ancient Sword Sect would not be ordinary.

Zhao Fu asked Lin Yan'Er about them, and because he found that people of Stage 6 were usually part of Management, gathering them all would be quite troublesome.

However, Zhao Fu found out that the Ancient Sword Sect had an Enforcement Department. Not only were their sword techniques powerful, their cultivation were all at least Stage 6, and there were 80,000 or so of them. If he could find a way to draw out a team, he would be able to complete his goal.

Zhao Fu soon brought Lin Yan'Er and moved out. He wanted to bring Ling Feixue, as she was the Sect's Madam and most likely knew more. However, she was unwilling to watch Zhao Fu harm the Ancient Sword Sect's people, so she did not come.

In actuality, Zhao Fu thought of a method, which was to capture one of the Elders of the Enforcement Department and take his or her command medallion. That way, he would be able to summon 10,000 members of the Enforcement Department.

The only difficult thing was that the Elders were World Realm experts and could gather power equivalent to that of a world. With Zhao Fu's Saint Realm Cultivation and various other powers, he might be able to put up a fight.

However, Zhao Fu did not plan on relying on his cultivation because he had a Nation Armament. A Nation Armament could gather the power of four worlds, which would allow him to easily defeat an Elder.

After coming to the outside of the Ancient Sword Sect, he found that because of what had happened before, the defenses here were much more powerful and there were many restrictions, making it difficult for Zhao Fu to enter. It was a pity that he did not bring Yu Ling and Mosax.

"Husband! How about we set up a trap to draw out an Elder and kill him? It's said that one of them has a beloved disciple, and if we capture that disciple, that Elder will definitely appear," Lin Yan'Er thought before suggesting.

Hearing this, Zhao Fu nodded and asked, "Do you know where that disciple is?"

Lin Yan'Er lightly laughed and said, "Husband, in actuality, my new status has not been revealed. That disciple is called Liu Nan and was once crazy about me, and he said that I'm the only person he'll ever love. He did many stupid things for me, but I did not think that he was good enough. If I send a message to him, he'll definitely run out to see me."

Zhao Fu grinned and said, "Alright, let's go with that then!"

"Then husband, after we're done, you have to properly take care of me," Lin Yan'Er said coquettishly as she hugged Zhao Fu's arm.

Zhao Fu smiled and nodded as he took off her clothes.

A while later, a green sword light descended on a plains. It was an ordinary-looking young man wearing robes. He stared at Lin Yan'Er with wide eyes and said in delight, "Yan'Er! I never thought that you were still alive!"

Lin Yan'Er's face was red and she gave off an enticing aura as she lightly replied, "Junior Apprentice Brother, of course I'm still alive. I missed you, so I invited you out."

Liu Nan looked incredibly confused. He had never thought that Lin Yan'Er would ever say that she missed him, and his heart beat wildly. He gave off an expression of wild delight because he loved Lin Yan'Er greatly and had desperately pursued her before."

Chapter 1359: Ghost Master

After not seeing Lin Yan'Er for such a long time and hearing her say that she missed him right after meeting again, Liu Nan felt as if he was dreaming. He asked, not daring to believe it, "Is that true? Yan'Er, did you really miss me?"

Lin Yan'Er acted weakly and delicately, saying, "Junior Apprentice Brother, of course I missed you. Don't you trust me?"

"No! I... I do trust you," Liu Nan said hurriedly. He was so anxious that he could not talk properly, afraid that Lin Yan'Er would misunderstand him.

"Then Junior Apprentice Brother, can you help me with a small favor? I want to meet your master; can you call him over? If you help me with this, I'll listen to any request that you have!"

Lin Yan'Er gave a flirtatious look as she looked at Liu Nan with her beautiful eyes.

Liu Nan felt as if his heart was going to leap out, and his blood flowed incredibly quickly. He almost lost the ability to think and directly agreed, saying, "Alright! I'll immediately call master."

While speaking, he took out a sword talisman which shot out.

“Senior Apprentice Sister Yan’Er, now that I’ve helped you, will you really listen to any request of mine? I want to hug you, and if possible, I would like to kiss you,” Liu Nan said as he looked at Lin Yan’Er nervously and expectantly.

However, Lin Yan’Er immediately seemed like a different person, and said condescendingly, “Junior Apprentice Brother, do you really think you’d qualify to touch me? Don’t dream! I only belong to my husband.”

Liu Nan looked incredibly confused, and looking at Lin Yan’Er, whose attitude had greatly changed, he was unable to come to terms and said, “Yan’Er... when did you have a husband? Is it Senior Apprentice Brother Xiao? That’s right, you both disappeared from the Ancient Sword Sect together.”

Lin Yan’Er said disdainfully, “He isn’t qualified either. If I told you who my husband is, it would give you a big shock. He’s the mysterious Emperor the Ancient Stem Domain has been searching for this whole time.”

Immediately, Liu Nan felt as if he had fallen into icy water, and a bone-chilling sensation spread through his body. His body instinctively trembled and he felt a wave of terror. The mysterious Emperor was just that terrifying, and he had enmity with the Ancient Sword Sect.

Thinking about what Lin Yan’Er had just asked him to do, Liu Nan did not hesitate and immediately turned to run, wanting to tell his master not to come.

Chi!

A sword pierced through his chest from behind, and he turned to look at the woman he loved. There was no hatred or anger in his eyes, only sadness.

Lin Yan’Er smiled as she lightly said into his ears, “Junior Apprentice Brother, you have such a good master and yet you’re so weak. Look, didn’t my cultivation rise quickly? I’m at the Saint Realm now, and it’s all because of my husband.

“In actuality, I was slightly touched by what you did before. Even though your status is not bad, your talent is too lacking. You can’t compare to Xiao Changfeng, nor can you compare to my husband. Even though I’m just one of his countless women, I will continue to work hard.

“If I complete this matter well, my husband will spoil me later and do me in all sorts of positions. I’ve already become addicted to that feeling. You should be happy for me, I’m living very well right now. Thank you for your help. I’ll definitely remember you!”

Blood continuously flowed out from Liu Nan’s mouth, and his aura continuously became weaker as he looked at Lin Yan’Er dumbly, saying, “I... congratulate... you!”

Lin Yan’Er gave a moving smile and lightly nodded as she withdrew the sword from Liu Nan’s chest. Liu Nan’s body powerlessly fell to the ground and became a corpse.

Lin Yan’Er casually waved her hand, put Liu Nan’s corpse away, and hid the traces of blood before smiling and flying towards the sky. She came to Zhao Fu’s side and said, “Husband, that Elder still hasn’t come? Let me serve you for a bit!”

Zhao Fu refused without even having to think about it. That was a World Realm expert, and he could not afford to be careless.

Lin Yan’Er hugged Zhao Fu’s arm and smelled his scent as she understandingly nodded. She looked into the distance and waited for that Elder to come.

Boom!

A powerful ray of light containing an enormous aura shot over. It was a somewhat ugly-looking middle-aged man.

After arriving, the middle-aged man looked around and could not find Liu Nan. He felt quite confused, but he immediately felt a bad premonition. Just as he was about to react, it was already too late.

Boom!

A hundred meter tall bronze giant appeared behind him. It raised the bronze sword in its hands, gave off a heaven-toppling killing aura, and slashed out. An incredibly destructive aura exploded out as bronze light flashed, covering everything.

The Elder did not die but coughed up a large mouthful of blood, looking heavily wounded. Despite using his Nation Armament's full power and launching a sneak attack, Zhao Fu was still unable to kill this Elder. It seemed that a World Realm expert was not simple at all.

However, after taking this attack, the Elder was deeply injured. Zhao Fu did not hesitate and continued to summon bronze soldiers, killing this Elder in a few attacks.

Zhao Fu first put the corpse away; this was a World Realm expert's corpse and was a valuable material.

After taking the Elder's command medallion, Zhao Fu directly used it and gave an order for 10,000 members of the Enforcement Department to gather. Because he did not want to draw attention, he did not call for any more than this.

The various members of the Enforcement Department heeded the orders and came. There were both men and women, and most of them were older in age and gave off powerful auras.

Because this was an order from a World Realm Elder, no one dared to question the order. There were only ten or so World Realm experts in the Ancient Sword Sect, and all of them had great authority and prestigious identities.

After 10,000 members of the Enforcement Department gathered, Zhao Fu gave a smile and walked out.

"Who are you?" Looking at this stranger in front of them, everyone felt that something was off. Some people started to back off and planned to escape.

Zhao Fu smiled and did not answer their question; there was no point in talking to a group of dead people. Zhao Fu took out the Emperor Killing Sword and a boundless ferocious and evil aura swept out, causing countless people's bodies to freeze as they felt a terror from deep within their soul.

"Hurry and run!" Everyone now understood that this was a trap.

Boom!

At that moment, Zhao Fu stabbed the sword into the ground, and a terrifying black energy barrier quickly spread out, covering the 10,000 members of the Enforcement Department.

“Ghost Master!” Zhao Fu lightly cried out as a cold and eerie aura spread out, causing the surroundings to become icy cold. Ghostly figures dressed in white robes with ferocious expressions appeared behind the countless people.

After these ghostly figures appeared, they gave off evil laughs and grabbed the members of the Enforcement Department before disappearing, as if they were dragged into nothingness.

Those people were unable to resist at all because they were unable to hit the ghostly figures at all with their power. They were like illusions and could not be harmed.

Zhao Fu was also quite shocked. It was the first time he had used the Emperor Killing Sword after it had become a King Armament, and its power was quite extraordinary. It was powerful and strange, and there were still various abilities that he had not used.

Chapter 1360: Wind God Race

The members of the Enforcement Department who had disappeared were dragged into the Emperor Killing Sword World, and none of them were able to escape. After doing this, Zhao Fu quickly took Lin Yan’Er and left.

Even though Zhao Fu had a Nation Armament and did not fear World Realm experts, if the Ancient Sword Sect’s Sect Master arrived, Zhao Fu would not be a match for him. As such, it was best to quickly leave; after all, he had already achieved his goal.

Following this, the Ancient Sword Sect found out about this matter. Losing a World Realm Elder and 10,000 Stage 6 members of the Enforcement Department was not a small loss at all.

What angered them even more was that they did not even know who had done this. The biggest suspect was that mysterious Emperor. If it was that mysterious Emperor, things would be troublesome, as he now had the ability to kill World Realm experts. The other Elders could possibly die at his hands as well.

Because of this, the Ancient Sword Sect went into full defensive mode, banning all Elders and disciples from going out without notice. The Ancient Sword Sect did all they could to find Zhao Fu's location, and they wanted to kill him at all costs.

Back then, a World Realm expert would be able to suppress him, but he could now easily kill World Realm experts. If he was allowed to develop, the Ancient Sword Sect really would be in danger.

It was not just the Ancient Sword Sect's Sect Master who went out searching for Zhao Fu; many of the Ancient Sword Sect's Corps also prepared to go out and kill Zhao Fu.

The people from the Bear Mountain Kingdom and Nether Yin Kingdom's expressions became serious, and they also took great notice of this matter. They had never thought that the other person would be such a threat, and they started to regret the things that they had done in the past. They had not gained anything from it and had instead offended such a terrifying person.

The other large factions were also quite shocked, but the Dao Cultivation Path was not surprised at all; they had long since expected such a thing.

After returning to Great Qin, Zhao Fu fulfilled his promise to Lin Yan'Er and satisfied her and Ling Feixue.

"Husband, there's an important military report." Hearing the sounds from within the room, as well as the cries of the two women, Tina Pendragon's face became red from embarrassment and she called out lightly from outside.

"Mm, come in." Zhao Fu's voice sounded out from inside, but the sounds of lovemaking did not stop. Tina Pendragon's face was red as she gently pushed open the doors and walked in. She had lost count of how many times she had done it with Zhao Fu, and she did not hold back.

Zhao Fu went about it with Tina Pendragon as he asked her what had happened, and Tina Pendragon panted as she replied. The Devil Horn Empire was preparing to attack the White God World, and the alliance had almost fallen apart.

Hearing this, Zhao Fu felt quite shocked and he asked Tina Pendragon for the details.

The Devil Horn Empire had changed its plans, and they did not plan to expand to the right for fear of clashing with the Wind God Empire. It instead started to develop to the left.

The White God World was the best next target. The world above it, the Rock Spirit World, had already been conquered by the Devil Horn Empire, and the world below it, the Spirit Light World, had been conquered by Great Qin. The Half-Beast World to its right had fallen, and the Desolate Crow World to its left was split.

Now, the White God World was completely isolated and anyone would want to move against it. It was alone and helpless.

However, the White God World was one of the members of the allied worlds, and anyone who wanted to attack it had to consider the allied worlds. If they attacked, their power would not be weak at all.

However, the Devil Horn Empire had thought of a way to deal with this. They had established friendly relations with some worlds far away and had promised and signed Permanent Contracts that they would not attack their worlds. This caused the alliance, which was not very unified, to fall apart.

They had only allied together to resist the Devil Horn Empire, and now that they were no longer threatened by the Devil Horn Empire, they naturally would not spend effort in being part of the alliance.

There were four worlds that had signed the Contract with the Devil Horn Empire, and because they were worlds that were above, they were not worried about Great Qin below. This freed up the Devil Horn Empire to attack the worlds below.

This was because the worlds above had existed for longer and had stronger foundations, making them more difficult to deal with. The worlds below had not existed for a long time and had weaker foundations, making them easier to deal with.

Now, out of the eight allied worlds, only four remained. Out of them, the White God World was completely isolated and could not escape its fate of being destroyed.

The three remaining worlds understood that they could not defend against the Devil Horn Empire, so they took the initiative to seek peace with the Devil Horn Empire and withdrew from the alliance. Now, the alliance had completely broken down.

The Devil Horn Empire temporarily did not respond, but everyone knew that it would do. Since it would not attack the worlds above, if it did not attack the worlds below, how would it develop?

Zhao Fu understood the sequence of events; the dissolution of the alliance was a good thing for Great Qin, as he no longer had to worry about them.

Looking at the powerless Tina Pendragon below him, she had become a goddess to others, and her beauty resounded within the surrounding worlds. Her battle ability and commanding ability were also quite extraordinary, and she was loved and admired by countless people. Back then, the Charm Devil King had wanted Zhao Fu to gift Tina Pendragon to him.

“Tina, you’re becoming more and more beautiful,” Zhao Fu said teasingly as he hugged her.

Tina Pendragon’s face became red and she lightly hit Zhao Fu as she pouted playfully, saying, “You’re becoming badder and badder! Back then, I thought you were a good and righteous person!”

Thinking about how she had been done by him just then while giving a military report, Tina Pendragon felt quite embarrassed.

Zhao Fu laughed and said that he was going to deal with some official matters before leaving.

The White God World’s forces had gathered because the Devil Horn Empire was attacking them. However, the Devil Horn Empire was attacking from two routes: one from the Rock Spirit World and one from the Half-Beast World. The first to attack was from the Half-Beast Continent neighboring the White God World.

Facing the ferocious Devil Horn Empire, the White God World could only split into two defensive lines. With the power of a single world, wanting to defend against the Devil Horn Empire, which had three worlds and nine Continents, was incredibly difficult. However, they did not want to surrender, so they could only resist.

They cursed at the other worlds that had been part of the alliance for being shameless and stupid traitors. They would all be destroyed sooner or later and would not have good outcomes. They also cursed at the Devil Horn Empire for being cold-blooded animals, doing anything for power.

They knew that they could not defend, so they could only curse to vent out their anger. They could not do anything else.

“Roarr!” Massive devil qi swept through the surroundings as the devil beast army charged at the front. Countless flying beasts covered the sky, and the beasts on the ground were like a massive tide. The two of them gave off ferocious auras.

Facing the devil beast army, the White God Race did their best to resist, unleashing their most powerful methods. They threw out massive white crystal pillars that were cone-shaped and contained countless runes.

“White Spirit Light!” The White God Race activated the crystal pillars and massive rays of light containing terrifying power shot out.
