

The Lord 1361

Chapter 1361: 13 Goddesses

Bang! Bang! Bang...

Tens of thousands of rays of white light shot out incredibly quickly, flashing by in an instant and causing massive explosions. Devil beasts' bodies were blown apart, causing blood to fly everywhere, and terrifying shockwaves blasted out.

These countless rays of white light were incredibly terrifying, and they were able to cut down the devil beasts' ferocious momentum. However, there were too many devil beasts, and after the white light blasted open some space, it would immediately be filled up by other devil beasts, who continued to ferociously leap over.

When the White God Race wanted to use the white crystal pillars again, hundreds of blue eyes giving off terrifying auras appeared. A ray of blue light shot out, tearing through the sky and hitting the white crystal pillars on the defensive walls.

Bang! Bang! Bang...

Massive explosions sounded out as the blue rays of light hit the white crystal pillars, and hundreds of gaps were blasted open on the defensive walls. There were blood and limbs everywhere.

Swish, swish, swish...

The White God Race vigorously retaliated, and soldiers drew their bows and shot out arrows containing enormous power. The arrows shot out like waves of rain, killing many devil beasts.

However, many devil beasts leapt onto the defensive walls and started to slaughter, using their bodies to smash into the White God soldiers or their teeth and claws to rip them apart.

Bang! Bang! Bang...

Rays of blue light containing incredibly destructive power shot out, hitting the defensive walls. Blue light shot everywhere as enormous explosions once again sounded out, and countless White God soldiers were blasted to death.

Swish, swish, swish...

Arrows shot up from below as the Devil Horn soldiers shot at the White God soldiers on the defensive walls. In just a few moments, many soldiers were killed by arrows while others howled in pain.

Some devil beasts rammed at the defensive walls while others climbed up. Countless Devil Horn soldiers also warmed up, and both sides started to clash.

Some White God soldiers used heavy objects to smash at the enemies climbing up, while others used arrows to shoot at the enemies. Others poured down corrosive liquids, causing the enemies' bodies to be corroded, and they howled in pain.

However, the White God Race was still in a disadvantageous position. The defensive walls were in chaos, and devil beasts attacked from various sides as Devil Horn soldiers also rushed up the walls.

A Devil Horn soldier rushed up with a ferocious expression, killing a White God soldier with one blow from his saber. Another Devil Horn soldier ferociously stabbed forwards with his spear, piercing through two White God soldiers. The devil beasts pounced on the White God soldiers, using their sharp teeth to tear their throats out and devour their blood.

The sounds of killing could be heard everywhere and blood flew all over the place. Corpses littered the ground and the battle was incredibly intense. The White God soldiers continuously died and the Devil Horn soldiers ferociously killed, looking like bloodstained demons.

The experts of the two sides started to clash in the sky. However, the White God Race's side was at a great disadvantage, as the Devil Horn Empire's experts outnumbered them by many times.

Shing!

Yao Ming disdainfully slashed out and a massive purple saber light containing immense power flashed out, cutting a white-clothed middle-aged man in half. His broken corpse, blood and organs fell from the sky.

That white-clothed middle-aged man had been the most powerful expert in the White God World, yet he had not been able to put up a fight at all. He had been easily killed by Yao Ming before he had even taken a few blows. Now, who could stop Yao Ming?

The White God Race was finished; it did not have any hope of stopping the Devil Horn army, and looks of despair appeared on the faces of countless White God people. Some people started to retreat and some planned to surrender.

There was no Heaven Domain Boundary here, so they could escape to other worlds. As such, many people planned to run to another world. Perhaps they would not have to be oppressed and humiliated by the Devil Horn Empire.

After all, the Devil Horn Empire did not treat those who surrendered well. The White God Race had heard of the various brutal things that the Devil Horn Empire had done; in comparison, Great Qin was much better.

Even though Great Qin was incredibly frightening in battles, causing countless people to feel terrified, it treated those who surrendered quite well.

However, how could the Devil Horn Empire allow them to escape? Yao Ming coldly laughed and planned to start a massive massacre. He had not forgotten how the White God people had cursed at him, and only by slaughtering them would he quench his anger.

"Kill!" Yao Ming gave the order and the Devil Horn army charged at the White God people even more ferociously. The sounds they gave off were terrifying and they were simply unstoppable. Facing this kind of attack, the White God Race could not resist at all and started to retreat.

Boom! Boom! Boom...

Thirteen white pillars of light shot into the sky, causing the blue sky to be filled with white light. White light shone in all directions as a powerful aura spread out, and a holy power covered the battlefield.

“Hurry and escape!” A touching and attractive voice sounded out in the sky. Everyone looked up and saw thirteen beautiful women with snow-white hair and wearing white robes, giving off gentle white light, appear.

Everyone felt quite touched, because they were the White God Race’s Thirteen Goddesses. They were responsible for offering sacrifices and did not have much power themselves, but they could give great blessings.

Under the white light, the White God people’s blood quickly flowed. They became more powerful and their bodies became lighter. Everyone felt delighted and quickly ran.

“Goddesses, please hold on for as long as possible so that we can escape, or else you’ll be sinners of our race!”

“That’s right! Goddesses, you have the duty to protect us. Hurry up and use your techniques to stall them. I don’t want to die, and if I die, it’ll be your fault.”

“You Goddess bitches, why didn’t you use this before? If we had these buffs, I would have run long ago.”

Surprisingly, no one showed any gratitude and instead many people criticized the Goddesses. There was a reason for others calling the White God Race hypocritical and ungrateful.

The thirteen Goddesses stood within the white pillars of light with cold and calm expressions, ignoring those words. They used their full power to maintain the pillars of light to buff the White God people and weaken the Devil Horn Empire’s soldiers. During times of crisis for the White God Race, their mission was to sacrifice themselves.

“You’re seeking death!” Yao Ming hacked at the thirteen Goddesses and a massive purple sword light containing enough power to slash through everything flashed out. An enormous explosion sounded out, causing everyone to feel a wave of terror.

Standing in the air, the leader of the thirteen Goddesses’ expression became cold because the strongest expert of the White God Race was her father.

Facing this terrifying saber light, the thirteen Goddesses each stretched out a hand and a massive white energy barrier blocked in front of them.

Boom!

An explosion rocked the sky and because of how terrifying the saber light was, the white energy barrier was instantly split open. The thirteen Goddesses were sent flying backwards and they coughed up a mouthful of blood, and the thirteen pillars of light disappeared.

Chapter 1362: Fate God Race

The White God people's expressions fell as the thirteen pillars of light disappeared, the buffs on their bodies, and the debuffs on the Devil Horn Empire also disappeared. Countless people looked at the Devil Horn army behind them and gave cries of despair as they desperately ran.

Yao Ming looked at the thirteen beautiful women in front of him and coldly harrumphed as he said, "You thirteen sluts, after This Emperor catches you, I'll screw you to death."

The thirteen Goddesses' faces were pale and blood leaked out from their lips. They were unable to defend against Yao Ming at all, and thinking about what would happen if they were captured by Yao Ming, some of them considered ending themselves.

Boom!

An explosion sounded out and Yao Ming's expression fell as he sensed a massive sword light accompanied by a ferocious sword wind coming at him from behind. He slashed backwards, and a massive saber light flew out, slamming against the incoming saber light.

A figure appeared behind Yao Ming; it was Zhao Fu. Seeing Zhao Fu arrive, Yao Ming looked furious. Every time something was going well for him, Zhao Fu would interfere, such as the woman being stolen from him last time. This caused Yao Ming to roar, and he gripped his sabre with both hands as he rushed at Zhao Fu.

Zhao Fu's expression was calm as he held the Sadistic Killing Sword. A black aura flame appeared around him, and he exploded out with a powerful aura as he went to meet Yao Ming.

Boom! Boom! Boom...

The battle between these two experts caused the heavens and earth to fall dim and massive shockwaves spread out, causing enormous gales and making countless people feel afraid.

"Kill!" Elsewhere, the sounds of killing seemed to shake the sky as Great Qin's black-armored soldiers flooded forwards, giving off an aura that seemed to be able to destroy everything as they rushed at the Devil Horn army.

Countless monsters in the sky gave off ear-piercing cries, causing people's hairs to stand on end, and various massive beasts ran on the ground, causing the ground to shake. They seemed completely unstoppable and could destroy anything.

Seeing Great Qin's soldiers charging, the Devil Horn army was greatly shocked and quickly changed their target. They no longer chased down the White God people and instead defended against Great Qin.

This caused the White God people to be incredibly delighted; they had never thought that Great Qin would suddenly act. Now, they were not in danger anymore.

They had two options: The first was to watch on as the Devil Horn Empire and Great Qin fought against each other and reap the benefits, and the other was to help Great Qin and pincer the Devil Horn army.

With the White God people's natures, and for most people, they would definitely choose to escape and suddenly attack when both the Devil Horn Empire and Great Qin had suffered great losses. That way, they would be able to preserve the White God World.

The White God Race did not feel much gratitude towards Great Qin because Great Qin was not a friend and would not help the White God Race for no reason.

Just as most White God people made their decision, they were shocked to see the Devil Horn Empire withdraw, making them feel quite confused. They had never thought that the Devil Horn Empire would withdraw so easily.

Zhao Fu did not give chase, and Great Qin's soldiers stopped fighting and looked to the White God people. This made the White God people feel incredibly anxious, and some people's legs trembled.

Some people wanted to immediately run away, but they were afraid that if they moved, Great Qin would attack them.

The scene was somewhat frozen; under Great Qin's army's massive aura, the White God people did not dare to move, nor did Great Qin attack.

The leaders of the White God people did not dare to come before Zhao Fu, and they instead had the thirteen Goddesses go.

The woman in the lead had a cold expression as she said in a tone as if passing a message, "Thank you for saving our lives, Great Qin's Majesty. The White God Race is willing to gift Your Majesty the Continent that we have conquered in the Half-Beast World. Will Your Majesty allow us to leave?"

Zhao Fu looked at the Goddess and lightly laughed as he said, "Firstly, that Continent in the Half-Beast World was already Great Qin's and is not yours to gift. Secondly, when Great Qin saved you, what did you do?"

"If you joined with Great Qin to pincer the Devil Horn Empire, we could have dealt a serious blow to them. However, what did you all do? Great Qin is not here to save you but to conquer you all. Now, either surrender or die!" Zhao Fu's voice was very loud, cold, filled with killing intent, and contained an immense might.

Hearing these words, the countless White God people's expressions fell. They quickly ran, while Great Qin instantly attacked.

Swish, swish, swish...

As the countless White God people ran, arrows containing immense might tore through the sky and descended like rain.

Chi, chi, chi...

As the countless arrows descended, some White God people were instantly killed while others were injured, lay on the ground, and cried out. Some arrows landed on the ground, causing sand to fly up.

Great Qin's Cavalrymen holding spears or sabers riding on the tall, dark horses shot out like arrows, charging towards the White God people.

Spears pierced through their bodies, and their bodies were dragged along as Great Qin's Cavalrymen continued to charge and hunt down other White God people. Massive saber lights flashed from behind, killing White God people.

Some people threw out lassos that fell around White God people's necks, and they were dragged behind them as they desperately struggled. Some people were strangled or dragged to death, their bodies a bloody mess.

Zhao Fu looked at the thirteen Goddesses. Their expressions were all different: Some had cold expressions, some had expressions of sympathy, and some had sad expressions. However, none of them ran.

"Are you not running? Also, Great Qin is killing your people; don't you hate me? Shouldn't you be thinking of ways to kill me?" Zhao Fu asked.

The woman in the lead coldly replied, "Are we a match for you? Also, is there even a chance of us escaping?"

Zhao Fu lightly laughed and said, "That's true. Also, I see that your White God Race seems to be a God Race with the light attribute. I plan to have the thirteen of you become priestesses for a Light God, which will become your White God Race's Fate God."

If a godly spirit had a Fate God Race, it would be able to obtain large amounts of pure faith energy, allowing it to become much stronger. Also, a Fate God Race having a Fate God would obtain all sorts of buffs, and their bloodlines would also become purer."

Zhao Fu found that the White God Race was very suited to becoming the Light God's Fate God Race, so Zhao Fu planned to have these thirteen women become priestesses.

"How are you so confident that we'll submit to you?" the leader of the women said as she coldly looked at Zhao Fu.

Zhao Fu did not mind and lightly laughed, "Do you have the power to choose? Right now, I'm giving you the best offer; I hope you don't insist on suffering. Also, what's your name?"

The leader of the women looked quite calm and had already accepted her fate. They indeed did not have the power to choose, and she replied, "I'm called Leng Fei'E."

Zhao Fu nodded. Countless White God people had already surrendered, and after having taken over a portion of the White God World, Zhao Fu found out why the Devil Horn Empire had retreated so easily; it was because the Devil Horn Empire had taken over another portion of the White God World from another route.

Chapter 1363: Monarchical Power

Now, the Devil Horn Empire was most likely attacking the White God World from another direction, which was why they had retreated so quickly. By now, they had most likely conquered half a Continent, so Zhao Fu did not hesitate and ordered the army to attack the White God World.

The White God World's two forces were destroyed by the Devil Horn Empire and Great Qin, and they were unable to resist at all. The remaining people were almost all commoners.

The Devil Horn army had unstoppable momentum and quickly conquered region after region, while Great Qin also ferociously swept through region after region like a black flood.

Three days later, of the White God World's four Continents, two had been conquered by the Devil Horn Empire and two had been conquered by Great Qin.

Yao Ming felt incredibly angry and gathered forces, wanting to unify the White God World and chase out Great Qin.

The White God World had essentially been the Devil Horn Empire's for the taking, and the Devil Horn Empire had expended a great deal of effort to wipe out one of its armies. However, Great Qin had run over to steal its thunder and had gained even more than him.

Adding on the Continent from the Half-Beast World, Great Qin had obtained three Continents. The Devil Horn Empire had put in so much hard work, yet Great Qin had benefitted; how could Yao Ming accept this?

Because of this, a massive battle exploded out between the two sides.

The devil beasts and devils intensely fought, giving off loud roars and shaking the surroundings. Their bodies clashed against each other as they clawed and bit at each other, causing blood to fly everywhere. Death quickly followed and the aura was incredibly shocking, causing their bodies to tremble.

The two armies clashed together, and it was easy to differentiate them. The Devil Horn Empire was dressed in green armor while Great Qin was dressed in black armor. The two sides clashed together like heaven-shaking floods, and their auras seemed to be able to destroy the heavens and earth.

A Great Qin soldier kicked a Devil Horn soldier down and stabbed through his chest with a spear, killing that soldier. A Devil Horn soldier roared and leapt at a Great Qin soldier, tearing at his throat with his sharp teeth.

A Devil Horn soldier ferociously slashed with his saber, sending out a saber light that split a Great Qin soldier in half and causing blood to spurt everywhere. A Great Qin soldier cruelly swung his sword, lopping off the head of a Devil Horn soldier.

Boom!

Two groups of Cavalrymen clashed together, one side with black armor riding black horses and one side with green armor riding on scaled horses. The sounds of weapons clashing continuously sounded out, and blood flew everywhere as people crashed down from horses.

"Roar! Roar! Roar..." The ground violently trembled and massive stone golems crawled up from the ground. There were tens of thousands of them, and they suddenly attacked Great Qin's soldiers. Whenever they slammed into them, countless Great Qin soldiers were sent flying, causing many deaths.

Bang! Bang! Bang...

Countless rays of light covered the sky as tens of thousands of 100 meter tall bald giants appeared, shooting out white rays of light towards the Devil Horn army. The rays of white light blasted into the Devil Horn army, killing countless soldiers.

The battle was incredibly intense, and the stench of blood seemed to fill the entire world. Countless people died, and the battle was much more terrifying than when they had attacked the White God World.

The Emperors of both sides did not hold back this time, as they were far away from the Emperor Heaven Realm expert. They both unleashed the power of their Nation Armaments, causing the weather to change and the sun and moon to go dim. Terrifying shockwaves blasted out, causing the sky to explode.

After fighting for a day, both sides had suffered great losses, but the Devil Horn Empire's losses were slightly greater. Yao Ming held back his anger and stopped attacking; he had received some injuries as well.

Zhao Fu had also been slightly injured, and he ordered Great Qin's soldiers to stop attacking and recover for a while. The situation fell into a stalemate, and after suffering such losses, neither side wanted to continue on like this.

As such, the battle stopped and both sides left some soldiers here and withdrew their main forces. The White God World was split in half, and it was now owned by Great Qin and Devil Horn Empire. The White God World now ceased to be.

This caused the surrounding worlds to feel incredibly shocked; this area now belonged to these two large factions, and the other worlds were unable to do anything at all. The two factions could control the situation in any world or even destroy a world.

Now, there were essentially no worlds between the two factions. The Grassi World, Half-Beast World, Elf World, and White God World had all perished easily.

They were quite unlucky; if they had not been situated there, they might have survived for longer.

There were now nine worlds that had been destroyed in the surroundings: the Lantong, Rock Spirit, Grassi, Half-Beast, Elf, White God, Fish Scale, Dark Demon, and Spirit Light Worlds. The two factions had risen up on the corpses of other worlds.

The fighting between the two factions was not over, but the Wind God Empire had come over. It was the most terrifying one in the surroundings, and no one knew what would happen in the future.

Because the White God World was not safe, Zhao Fu planned to bring the White God people who had surrendered back to Great Qin. Their gains this time were only mediocre, gaining only 18 billion White God people.

Great Qin had taken in a portion, the Devil Horn Empire had captured a portion, and the remainder had fled to other worlds. That was why they did not gain many people.

Following this, Zhao Fu took the thirteen Goddesses to the Light God Temple. A beautiful woman with white eyes, silver-white hair, and a pure white cloak appeared before everyone.

The thirteen Goddesses were somewhat shocked. Right after this woman appeared, their bloodlines reacted. As part of the God Race, they naturally understood the reason. It was because there was a real godly spirit in front of them.

Great Qin was actually nurturing godly spirits; weren't they afraid of being bitten by the godly spirits? In actuality, there were many people nurturing godly spirits, but it was quite dangerous.

First, godly spirits required faith energy, which required the commoners to worship them. If this was not managed properly, the commoners could devote themselves to the godly spirit instead of the King or Emperor, allowing the godly spirit to seize power.

Moreover, after obtaining enough divine power and faith energy, a godly spirit could enter the Godly Spirit World.

Because the Godly Spirit World was made up of divine power, godly spirits would become more powerful very quickly. The various attributes of the Godly Spirit World were also suited to godly spirits, allowing them to develop God Races and obtain even purer faith energy. Most godly spirits would enter the Godly Spirit World.

The thirteen Goddesses did not know about Great Qin's policies. Faith was only faith, and believers did not have any authority or power, nor did the godly spirits. Only monarchical power was supreme, and even godly spirits had to bow before monarchical power.

The following scene caused the thirteen Goddesses to feel even more shocked.

Chapter 1364: Fate God Race

The godly spirit giving off a Light aura lightly leapt into Zhao Fu's embrace and said with a trace of shyness, "Husband, you haven't come in a long time. I missed you."

Zhao Fu lightly smiled and hugged her petite figure. "I've been busy with official matters so I haven't been able to come. I've come to make the White God Race your Fate God Race."

The Light God looked at the 13 Goddesses and found that their attributes were very similar to hers, so she said happily and shyly, "Thank you, husband! I'll serve you well after."

By now, the 13 Goddesses understood the relationship between Zhao Fu and the godly spirit in front of them. He actually did not even let off a godly spirit, and it seemed that the rumors of Great Qin's Emperor being licentious were not false at all. They could not help but feel shocked.

After doing it with Arasina, Zhao Fu found that the Divinity that had formed in his mind could become more powerful by doing it with godly spirits and absorbing their divine power.

In order to obtain greater divine power, Zhao Fu and the various goddesses had done it.

The Light God's name was Ruixi and she waved her hand, turning the thirteen Goddesses into her priestesses. Now, all that was left was to make the White God Race into the Light God's Fate God Race.

In actuality, not many races would do this. Even though they would obtain the blessing of divine power, but their power, bloodlines, bodies, and even thoughts could be controlled by the Fate God.

If the Fate God wanted to do something to them, they would not be able to resist and they would have to follow the Fate God's orders. As such, most God Races would not want such a thing.

Zhao Fu was not worried about the godly spirits biting him because he had complete control over them. As such, he wanted to do all he could to increase their strength.

There was a tall altar that was dozens of meters tall built on a large plot of empty land. There were four blood lakes around it, giving off a dense stench of blood. There were also countless White God people kneeling in the surroundings, about 100 million in total.

The Light God Ruixi stood at the center of the altar and the 13 Goddesses stood around her. They looked holy and reverent as they chanted, and their bodies gave off an intense light.

This light seemed to be gathered and sent into Ruixi's body, and Ruixi slowly spread out her hands as her body gave off light.

Boom!

A massive pillar of light shot into the sky and a massive holy and pure aura spread out. The blood from the blood lakes below were gathered to the altar, forming four bands of blood. The blood gathered in front of Ruixi, and it soon formed an orb of blood.

The White God people kneeling in the surroundings all chanted, "I am willing to worship Light God Ruixi, I am willing to worship Light God Ruixi, I am willing to worship Light God Ruixi..."

Traces of white aura rose up from their bodies and flew towards the altar, entering the orb of blood in front of Ruixi.

The blood and white aura continuously condensed before forming a rhombus-shaped blood crystal as big as a finger. The white aura was the White God people's faith energy, and the blood was from the White God people. The two of them formed a Faith Blood Crystal.

The Faith Blood Crystal was controlled by Ruixi and it slowly entered her body. The all-important Divinity inside of her started to absorb the Faith Blood Crystal.

The Faith Blood Crystal was gradually absorbed by Ruixi's Divinity, and a powerful aura exploded out from within Ruixi's body. An aura filled with holiness and light descended; it was a true godly spirit's might.

Boom!

An even stronger pillar of white light descended from the sky, causing the sky to give off a blinding white light. Under the light, the uneasy White God people became calm, and a warm energy entered their bodies.

Now, the White God Race had become the Light God's Fate God Race. Great Qin had taken in 18 billion White God people, and they had only gathered a small portion. However, after absorbing the Faith Blood Crystal, she was able to control the entire White God Race and received a buff from the White God Race's Fate.

The other White God people who had not come only needed to go into her Temple and worship her, and they would become part of the Fate God Race.

After absorbing the Faith Blood Crystal, Ruixi's divine power became much stronger, almost double of what it was before. After Ruixi turned all 18 billion White God people into her Fate God Race, she would most likely be almost as powerful as a World Realm expert.

This increase in strength was massive; before, the Light God only had around Stage 9 strength, and at the very start, she had almost no strength at all. She had just been a hazy image, and she had only recovered because of the faith energy.

Ruixi led the thirteen Goddesses and flew down. The White God people all had reverent and excited looks on their faces. Even for God Races, ordinary people had never seen a real god before. Even though the Light God was still quite weak, she was still a god.

After returning to the Light God Temple, Zhao Fu looked at the Light God's attributes and found that she not only had a few types of Light blessings, but she also had curse-removing, healing, and other powerful divine skills.

"Husband, let me serve you now!" Within the Light God Temple, Ruixi's face was quite red as her eyes became hazy, and she started to serve Zhao Fu in front of her thirteen priestesses.

The thirteen Goddesses looked incredibly shocked; even though they already knew of the relationship between Zhao Fu and Ruixi, they had never thought that the Light God who acted so purely outside would be so flirtatious and daring.

Soon, Zhao Fu started to go about it on the Light God's body, and the thirteen Goddesses' faces became red as they stood there, not knowing what to do. However, soon, they were panting under Zhao Fu's body.

"Your Majesty, please wait. I have a condition," Leng Fei'E lightly pushed Zhao Fu and said coldly as he was about to do her.

"Hm, what is it?" Zhao Fu looked at the naked beauty in his arms and smiled as he asked.

"I want you to kill Yao Ming, because he killed my father," Leng Fei'E looked at Zhao Fu with her beautiful eyes as she said calmly.

Zhao Fu lightly laughed, "Even if you didn't ask this of me, I would still do it."

Leng Fei'E no longer stopped Zhao Fu and the two of them started to do it. Now, she understood why the Light God was so lewd with Zhao Fu.

Half a day later, Zhao Fu hugged the Light God Ruixi with one arm and Leng Fei'E with the other. Leng Fei'E's face was red and she no longer seemed as cold, and she instead seemed quite attractive.

"Look at you, Great Qin's Majesty. Who would have thought that despite surrendering to you, our outcome was the same as if we surrendered to Yao Ming," Leng Fei'E lightly harrumphed as she lay in Zhao Fu's embrace.

Zhao Fu laughed as he said, “How can it be the same? Over there, you’d just be a plaything, but I see you as my woman. As long as you truly submit to me, I won’t mistreat you all.”

Chapter 1365: Primal Chaos Aura

“Also, you thirteen are most likely the most beautiful women in the White God Race, and no King would not be interested. As the sovereign Emperor of Great Qin, I naturally would not hold back. Also, do you think Yao Ming can make you feel this way?”

Leng Fei’e’s face was red and she lightly pinched Zhao Fu as she said coquettishly, “The people outside weren’t wrong about you at all!”

The Light God Ruixi also embarrassedly smiled and said, “Husband, now that they’ve become my priestesses, you should come to my Light God Temple and we can serve you together.”

Zhao Fu smiled and nodded before getting up and preparing to leave.

Boom!

Suddenly, a massive explosion sounded out and the ground violently trembled. Only after a while did it stop.

Everyone in Great Qin was shocked because the sound came from near the Great Qin Royal City. Zhao Fu’s expression slightly changed and he turned into a ray of light, shot out of the Light God Temple, and came to the site of the location. Zhao Fu’s expression was quite serious as he found that the explosion had come from the underground region.

Just as Zhao Fu was going to go down and have a look, Li Wen hurriedly brought people over. Seeing Zhao Fu, he immediately half-knelt and reported, “Your Majesty, we just opened up all of the routes in the underground and never thought there would be such a big disturbance. A massive hole has opened up and the aura coming from there is extremely dangerous, so this subordinate did not explore it.”

Hearing this, Zhao Fu nodded and had the people around temporarily withdraw far away. The underground region was one of the most important places of Great Qin, and it also contained unknown dangers.

Following this, Zhao Fu and Li Wen went down, followed a large passageway, and arrived at a massive hole. This hole was tens of thousands of meters wide and was completely pitch black inside.

Terrifying auras came out of the hole, and they could make anyone feel as if they had fallen into an icy cavern as they felt boundless cold intent. Even an ordinary Stage 9 expert would feel fear facing this aura; no wonder Li Wen had quickly retreated.

Xi, the golden dragon, said seriously, “Zhao Fu, this hole is not from the Heaven Murder Empire; you need to be careful.”

Shing!

Zhao Fu sent his power into the Emperor Killing Sword and a black and blood-red energy barrier expanded out. Now, the defensive barrier that the Emperor Killing Sword released was many times more powerful than any barrier that Zhao Fu could unleash.

Zhao Fu did not know what had happened; only by going to the bottom of the hole would he know what had happened.

Zhao Fu jumped into the hole and his body quickly fell. The terrifying aura became more and more intense as Zhao Fu descended, causing Zhao Fu's hair to stand on end.

By now, the various Ministers and Generals had arrived, looking quite serious, as they felt the aura from the hole was incredibly terrifying.

Bai Qi frowned and looked at Li Wen as he said, "Why didn't you stop His Majesty? His Majesty is the ruler of Great Qin; we can't afford for anything to happen to him."

Li Wen bitterly smiled; if Zhao Fu wanted to go down, how could he dare to stop him?

Sensing the terrifying aura, no one else went down, as they did not want to make any trouble for Zhao Fu. The aura coming from down there was not something that they could face.

Wang Jian, "Let's invite the Fallen Angel God here! She's stronger than His Majesty by a bit, and should be of help to His Majesty."

Everyone else nodded and went to invite Arasina to the hole. After arriving and sensing the aura in the hole, Arasina's expression became grave, which was quite rare. She stood there and thought for a while before spreading her 24 black wings and flying into the hole.

"Roarr!" Zhao Fu suddenly heard a massive roar while descending and saw an enormous worm open its sucker-like mouth. The inside of its mouth was filled with teeth, and it ferociously bit at Zhao Fu.

Zhao Fu's gaze was cold as he swung the Emperor Killing Sword, and a sword light flashed out and cut the worm in half, black blood spurting everywhere.

"Roar! Roar! Roar... Zhao Fu seemed to have fallen into a den of worms, and countless worms came out of the walls and savagely bit at Zhao Fu.

"Sword Path!" Facing the countless incoming worms, Zhao Fu lightly roared and sent massive amounts of power into the sword. The Emperor Killing Sword burst out with boundless sword intent and 100,000 different-shaped transparent swords giving off sharp sword auras appeared around Zhao Fu.

Chi, chi, chi...

Zhao Fu's body descended, accompanied by the countless swords. The incoming worms were instantly slashed apart and black blood flew everywhere. Bits of dissected worm flesh fell like rain.

Boom!

Zhao Fu landed on a pile of worm corpses. The ground was covered with worm corpses and blood, and no ground was left untouched.

There were cliff faces all around him, and there was nothing too special. That terrifying aura had come from below, and after clearing out a region, Zhao Fu looked at the ground and found that it seemed to be made of gray jade.

However, Zhao Fu could not tell what it was, so he could only clear out the worms' corpses, and a floor of jade that was tens of thousands meters wide appeared in front of Zhao Fu.

There was a 100 meter black circle diagram at the center. Countless black chains stretched out, gathering at the center of the black circle. The black circle had an intense barrier power, and it seemed to be a sealing formation.

What surprised Zhao Fu was that there was a crack in the black circle, from which terrifying aura continuously flowed out.

"Do you want to die?" Just as Zhao Fu was going to go up and take a look, a cold voice sounded out from above. Zhao Fu looked up and saw Arasina, and he saw quite surprised as he asked, "Why did you come?"

Arasina looked at Zhao Fu somewhat annoyed with her beautiful eyes and coldly harrumphed, "Of course it's because your Ministers were worried about your safety and asked me to come down and have a look."

Facing her annoyed gaze, Zhao Fu understood and smiled as he pulled her into his embrace and asked, "Do you know what that is?"

Even though Arasina's expression was still cold, after being hugged by Zhao Fu, her attitude changed and she said softly, "I don't know what it is, but the aura is a Primal Chaos Aura from outside. If you open it, there will be great danger.

"In fact, this seems to be a secret passageway to outside the Heaven Awaken World. If you open it, countless creatures from the Outer World will swarm in. When that time comes, not only will Great Qin perish, the surrounding tens of thousands of worlds will also perish."

Zhao Fu looked incredibly shocked; this was a secret passageway to the Outer World? Thinking about how terrifying the Outer World was, that was a battlefield that only Royal Kingdoms could participate in. If Outer World creatures really charged in, it seemed that what Arasina said would become a reality.

Chapter 1366: Outer World

The seal had cracked, meaning that the seal was damaged, which was why there was Primal Chaos Aura from the Outer World. Primal Chaos Aura was the origin energy from the beginning of the heavens and earth. It was incredibly corrosive to any object or creature.

Zhao Fu was not too concerned about the Primal Chaos Aura; he was more worried that since the seal was damaged, it was possible that countless creatures from the Outer World could invade at any moment.

Thinking about that, Zhao Fu's expression became quite serious. This hole was incredibly close to the Great Qin Royal City, and once Outer World creatures invaded, Great Qin would not have any time to escape and would be the first to perish.

Zhao Fu went up and examined the seal and found that more than half of the sealing power was still there. This allowed Zhao Fu to let out a sigh of relief; there was still hope.

"What do you plan to do?" Arasina stood beside Zhao Fu and asked Zhao Fu after he finished checking the seal.

Zhao Fu lightly smiled as he replied, "Of course re-seal it!"

Arasina slightly raised his eyebrows and said seriously, "With Great Qin's power, I don't think it's possibly to set down a powerful seal. Great Qin is just a small Kingdom, and compared to the current seal, it can't even compare to one-thousandth of that.

"If you set down a seal, it will be destroyed by the Primal Chaos Aura in just a few days. Without the power of an Empire, it will be impossible to seal this kind of crack."

Zhao Fu felt quite startled and asked in shock, "Is this seal really that powerful?"

Arasina nodded and said, "This is a seal that seals away a passageway to the Outer World; it's definitely the most powerful seal in the world. The current sealing power that you're sensing is at least something that a Half-Step Celestial personally laid down."

Hearing Arasina mention a Half-Step Celestial, Zhao Fu felt quite discouraged; he had underestimated this seal. He asked Arasina, "Now that Great Qin doesn't have the power to re-seal the passageway, what should we do?"

Arasina thought about it before saying, "Tell this to the people in the Heaven Domain; if a few higher-beings come, it will be quite easy to deal with this."

Zhao Fu wanted to refuse because this place was quite close to the Great Qin Royal City and Great Qin's all-important Heaven and Earth Refining Formation was here.

Even though Zhao Fu knew a higher-being and that higher-being treated him well, Zhao Fu did not dare to reveal all of his secrets as this concerned the life or death of Great Qin.

Zhao Fu felt like he was in a very difficult position. On one hand, he was powerless to re-seal the crack; on the other hand, he could not expose everything about Great Qin.

Arasina suddenly said, "In actuality, you don't have to be so worried. The passageway to the Outside World is just a hypothetical. Perhaps it's just that there's some kind of item here or a powerful Outer World creature. This crack seems to have been here for a long time but nothing has happened. Perhaps it is not too dangerous; This God can go in with you and have a look."

Zhao Fu smiled; what Arasina said was true. They did not even know what was sealed inside, and perhaps it was not a passageway to the Outer World. There was no need for him to be so anxious.

Hearing that Arasina say that she was willing to go in and have a look with him, Zhao Fu felt quite grateful and hugged her as he said, "Thank you, beloved Concubine."

Arasina did not refuse and said somewhat dissatisfiedly as she lightly harrumphed, “No way, that’s not This God; go find your other beloved Concubines. Don’t come to This God’s Palace in the future; don’t try and hide that you were just doing it with that Light God. You’re covered with the stuff that This God hates.”

Zhao Fu grinned and did not respond but started to take off Arasina’s clothes.

Zhao Fu gave out an order and Yu Ling and Mosax came to the seal. Seeing Zhao Fu and the red-faced, panting Arasina, they respectfully called out, “What would you like us to do, Your Majesty?”

Zhao Fu told them about the seal and told them to slowly undo the seal. They had great control over their abilities, and Zhao Fu did not want them to completely destroy the seal.

Mosax and Yu Ling obeyed the orders and stood next to the crack as they used their abilities, slowly undoing the seal. The seal’s power gradually became weaker and the crack became larger and larger as more and more Primal Chaos Aura leaked out.

However, the speed was quite slow, as Mosax and Yu Ling were not very powerful.

Zhao Fu suddenly thought of an item that might be of help. It was the Heaven-Sealing Sword, which had immense sealing power. It had previously sealed the Death Disaster Beast, and as the Death Disaster Beast was transferred to the Death Race Sword, it no longer had any use.

Perhaps he could use the Heaven-Sealing Sword to absorb the massive sealing power. Zhao Fu stabbed the sword into the ground and a massive suction force spread out, and the crack became larger and larger.

A few hours later, the crack was one meterwide and two meters long. Zhao Fu ordered Great Qin’s experts to stand guard here and also gathered large numbers of Formation Masters to prevent anything unexpected from happening.

Following this, Zhao Fu and Arasina entered the crack and their surroundings blurred as they came to another place. That crack was indeed a spatial crack, and Zhao Fu’s expression became serious.

Now, it was quite possible that the seal did not seal an Outer World creature but a passageway to the Outer World.

Zhao Fu and Arasina arrived at an underground region. The underground region was tens of thousands of meters wide and hundreds of meters tall. There were artificial cut marks all around, meaning that this massive region was man-made. Moreover, there were many powerful restrictions here.

Zhao Fu relaxed his guard a bit. This meant that people had come here through the crack. They had constructed an underground region, and this place was quite hidden. As such, it was most likely not very dangerous.

There was a passageway and the mouth of the passageway was incredibly dark.

Zhao Fu thought about it and decided to head to the passageway, while asking Arasina, “Have you gone to the Outer World Battlefield before?”

Arasina thought of some unpleasant things and said, “The Outer World is not restricted by the Heaven Awaken World’s laws, so we godly spirits can descend as we wish. Back then, This God made an enemy of the Cosmos Historical Remnant’s owner and was sealed by him in there.”

Hearing Arasina mention the Cosmos Historical Remnant’s owner, Zhao Fu asked in curiosity, “Is the Cosmos Historical Remnant’s owner incredibly powerful?”

Arasina nodded and said, “That person is incredibly terrifying and is almost a Celestial. Otherwise, This God would not have been sealed by him so easily. However, after that person reincarnated, he has never reappeared.”

Zhao Fu understood. His guess about the Reincarnation Stage had been correct – it was possible that the owner of the Cosmos Historical Remnant was still alive.

Chapter 1367: 12 Moons

Thinking about someone who was almost a Celestial keeping one’s memories and source energy and starting again, just how terrifying would that person be in the future?

However, Zhao Fu did not think too much about the Cosmos Historical Remnant; he had to think about the matter at hand. He could almost confirm that this was the Outer World Battlefield, and there was dense Primal Chaos Aura everywhere.

Arasina was quite familiar with this place and they were able to confirm that it was a sealed passageway to the Outer World. Zhao Fu could not help but feel quite unlucky.

However, he was relieved that someone had developed this place before, meaning that there was not much danger. This place also seemed to be underground.

The two of them walked along the path and they started to see countless bones. They belonged to Humans, Orcs, Demons, Angels, and all sorts of strange-shaped bones; they most likely belonged to Outer World creatures.

After seeing these bones, Zhao Fu and Arasina became wary as they continued.

Finally, the two of them came before a pair of massive metal doors. The doors were a dark silver color and were covered with countless runes. They were socketed with all kinds of precious jewels and gave off a massive amount of power.

These metal doors were most likely the final layer of protection here; once opened, he would reach the true Outer World Battlefield and encounter those terrifying Outer World creatures.

Zhao Fu felt a bit hesitant as to whether he should go on and see what the Outer World Battlefield was like or go back and try to re-seal this place.

“Let’s keep going! This place is much safer than This God thought. Even though the Outer World Battlefield is quite dangerous, there are countless opportunities to be found,” Arasina said.

Zhao Fu thought about it. The Outer World Battlefield was something that he had to face sooner or later, and hearing Arasina say that this place was relatively safe, Zhao Fu did not worry too much and planned to take a look at the Outer World Battlefield for himself.

Zhao Fu pushed open the door and Zhao Fu and Arasina walked out. It was another dark passageway, and the two of them headed forwards.

Zhao Fu lost track of how much time they spent walking, and they finally saw some light. They walked towards the light and finally arrived outside.

They were within a hidden valley, and looking at the outside world, Zhao Fu felt quite shocked. The sky was a resplendent sea of stars, and even though it was quite a wild area, it was not dark at all. A light breeze blew, and this place seemed like an ordinary world.

It was not like what Zhao Fu expected, containing mountains of corpses and rivers of blood. The aura of blood did not dye the sky red, nor was the ground filled with a chaotic and cold aura.

Arasina spoke, "This is the Star Sea Night of the Outer World. There are normally 12 moons and eight suns."

"12 moons at night and eight suns during the day?" Hearing this, Zhao Fu felt quite startled. However, it made sense that the Outer World was different than the Heaven Awaken World. Having 12 moons at night just made it a bit brighter, but having eight suns during the day would make it incredibly hot.

Arasina looked around, spread her 24 wings, and flew into the sky. Zhao Fu prepared to follow her, but Arasina had him stay where he was, as she was more familiar with the Outer World Battlefield. As such, Zhao Fu listened to her and waited.

Arasina looked around in the sky before coming back and landing in front of Zhao Fu, saying, "You can be at ease. This is a remote region in the Outer World Battlefield, and it's not very dangerous here. However, This God needs to warn you that this does not mean there's no danger; the Outer World Battlefield is a place where even Celestials can fall if they're not careful."

Zhao Fu nodded seriously before smiling, pulling Arasina into his embrace and asking, "You're quite familiar with the Outer World; what should we do next?"

Arasina affectionately hugged Zhao Fu and rested her head against her shoulder as she thought before saying, "This God should first tell you that the Outer World Battlefield is massive, and it is not smaller than the Heaven Awaken World. There were some rumors that the Outer World Battlefield is actually a world similar to the Heaven Awaken World. No one knows if this is true or not.

"However, the first thing that a faction needs to do after coming to the Outer World Battlefield is to establish one's base and construct defenses. Only after gathering a large number of soldiers and resources and stabilizing themselves can they do anything.

"If a faction doesn't even have a base, when the Outer World creatures attack, they will be like a pile of loose sand and will run about aimlessly, unable to gather together.

"Ordinarily, factions will fight by themselves and will rarely receive help from others. As such, it's impossible to fare without a base because there's no way to go to another person's base.

“Also, the Laws in the Outer World are different to those in the Heaven Awaken World; all City Lord Seals and Nation Armaments are useless here, nor can people use City Creation Stones to create Cities. All City and Kingdom stats will disappear here.

“After establishing a base, the second thing is to obtain something that can block the sunlight. The eight suns scorch the ground during the day, and ordinary soldiers are unable to withstand them. They will be scorched to death, so you need to prepare various magic formations.

“It’s almost impossible to act during the day, and only at night when the eight suns are gone can you leave the base.

“However, the Outer World creatures have long since become accustomed to the eight suns, so they often attack during the day. Of course, there are methods to deal with the suns; there’s a type of Sunlight Gemstone that can be socketed on equipment to resist damage from the suns.

” Great Qin is not a Royal Kingdom yet and is still relatively weak. However, fortunately this is in the remote region of the Outer World, so it is much safer. This God recommends that you quickly build a base here so that you’ll be prepared for the future.”

“Also, don’t hope to subdue those Outer World creatures. Of the Five Races of Outer World creatures, the Insect type creatures are almost impossible to subdue; Humanoid types are quite difficult, and the Aquatic, Beast, and Flying types have a slight chance.

“Ordinarily, if any factions capture them, they kill them for points, or else they might bite you at any time; there are many devious Outer World creatures that will pretend to submit. All ordinary restrictions are useless against them, so trying to subdue them will often cause a massive loss.

“Also, aren’t you researching Spirit Destruction Crystals? Those are very effective against Outer World creatures, but ordinary Spirit Destruction Crystals are not too useful. In fact, some Outer World creatures have already found methods to deal with ordinary Spirit Destruction Crystals.

“You should capture a few Outer World creatures and take them back to do tests on them to create more powerful Spirit Destruction Crystals. They will be useful in future battles.”

Arasina rambled on for a while about the Outer World, and Zhao Fu listened curiously as he thought to himself.

Chapter 1368: 8 Suns

“Alright, This God has talked so much already and there are two or three hours until dawn. You should take this opportunity to capture some Outer World creatures, or else large numbers of Outer World creatures will appear during the day. You won’t be able to use your Nation Armament here, so it will be quite dangerous,” Arasina said as she looked at Zhao Fu with her beautiful eyes.

Zhao Fu smiled and nodded, “Luckily I brought you, or things would be much more difficult!”

Arasina said a bit angrily and coquettishly, “Now you know how good I am to you. In the future, let’s see if you dare to neglect This God. You know that This God wants to do it with you and yet you didn’t come for a few days; This God really wanted to cut you apart.”

Zhao Fu looked quite innocent as he explained, saying, “It’s because I was busy! Also, didn’t I say I would compensate you? There’s also the fact that you’re always so cold towards me; you can’t blame me.”

Arasina still looked quite displeased, “Back then, you know how you ravaged This God. If you don’t treat This God well, This God will return to the Godly Spirit World.”

After saying this, Arasina immediately added, “This God will also treat you better in the future.”

Zhao Fu lightly laughed and said, “Alright, we don’t have much time left so let’s capture a few Outer World creatures and start preparing to build a base.”

锵锵锵...

Arasina did not continue and the two of them started to search for Outer World creatures as well as a suitable place for a base.

This place connected the Heaven Awaken World to the Outer World, so they could not build a base here. Otherwise, if it was discovered, countless Outer World creatures would charge into the Heaven Awaken World and Great Qin would be the first to suffer.

Zhao Fu did not plan to expose this hidden place, and he instead decided to find a place nearby to use as a base.

A while later, Zhao Fu discovered ten or so massive ants. These ants were all two meters long and were a fiery red color. They each had a short horn on their heads and were not very strong, having only around Stage 1 strength.

These ants were called Fire Red Ants and were the most common Insect type Outer World creatures in the Outer World. They did not have much intelligence and only knew how to destroy.

After sensing Zhao Fu, they quickly charged over, while Zhao Fu slashed half of them apart with a single sword light. Fiery red blood flew everywhere, and the remaining ants sensed danger and immediately ran away.

Clang, clang, clang...

Chains that contained ferocious power flew out of the ground and bound up the remaining Fire Red Ants, and Zhao Fu tossed them into his ring.

The more Outer World creatures he captured the better; this way, they would be able to create more Spirit Destruction Crystals to counter them and deal more damage.

噗噗噗...

砰砰砰...

At the same time, when killing the Fire Red Ants, a chain of system announcements sounded out within Zhao Fu’s mind.

“System announcement! You have killed a Fire Red Ant and obtained 1 Outer World Point.”

“System announcement! You have killed a Fire Red Ant and obtained 1 Outer World Point.”

“System announcement! You have killed a Fire Red Ant and obtained 1 Outer World Point.”

Anyone from the Heaven Awaken World who killed Outer World creatures would obtain Outer World Points, which could be exchanged for valuable treasures.

Zhao Fu did not have a place to exchange yet because he needed to kill at least 100,000 Stage 1 Outer World creatures, 10,000 Stage 2 Outer World creatures, 1,000 Stage 3 Outer World creatures, and 100 Stage 4 Outer World creatures to obtain an Exchange Stone Stele.

The main function of the Stone Stele was to exchange for items, and they also had some City Stats. However, they were quite weak, and it also contained a slight territorial intimidation effect.

Chi, chi, chi...

A sharp sword light shot out, cutting apart green worms that were two meters long. Green blood spurted everywhere; these green worms were called Green Cave Worms and had around Stage 1 strength.

Bang! Bang! Bang...

锵锵锵...

A sword light shot out and brought with it a terrifying sword wind, causing countless beetles in the sky to fall down. These beetles had blue spots on their back and an antenna on their heads, and they gave off faint blue light; these beetles were called Blue Spot Beetles.

Clang, clang, clang...

Zhao Fu slashed out a sword light and the sound of metal colliding could be heard. Countless sparks flew as a three meter long centipede was cut into a few pieces. The back of the centipede seemed to be made of iron, and it was incredibly tough. This type of centipede was called Iron Wall Centipede.

Even though it was just a short two hours, Zhao Fu captured 20 or so Outer World creatures. Most of them were Insect type Outer World creatures, and only a small portion were other types. He did not encounter a Humanoid type at all.

A brilliant white light shot out from over the horizon and a searing aura swept through the originally cool world. Eight piercingly-bright suns slowly rose up, giving off boundless light.

After being hit by the sunlight, Zhao Fu immediately felt that his skin was being seared. He immediately unleashed his defenses and blocked the sunlight.

The eight suns in the Outer World slowly rose together and the scene was incredibly majestic. At the same time, the power of the sunlight could not be underestimated, as it could burn people to death.

Arasina said slightly shyly and nervously, “Husband, it’s daybreak; let’s return to Great Qin!”

Zhao Fu looked at her in surprise; it was the first time he had heard her call him this. He lightly laughed and hugged her as he flew towards the hidden region.

“轰!”

Suddenly, a man appeared before Zhao Fu; his body was well-built and he was tanned and had short, blue hair and red pupils. He held a crude-looking stone spear and had human skin wrapped around his waist, and he had some bone pendants.

“He’s a Humanoid Outer World creature!” Arasina said as she looked at that man.

Of the Five Major Races of the Outer World, the Humanoid type were the rarest. At the same time, they were the most suited to be used for research, and Zhao Fu smiled as he flew at the man.

Seeing Zhao Fu, who he could tell was from the Heaven Awaken World, the man’s eyes were filled with savageness as he gripped his stone spear and threw it out.

Boom!

A massive explosion sounded out as the stone spear gave off shocking power and shot out, seeming as if it could pierce through steel.

Facing the incoming stone spear, Zhao Fu coldly laughed in disdain. He casually slashed out with his sword and destroyed the stone spear, which turned into countless fragments. At the same time, he unleashed his terrifying aura.

The man’s expression fell; he had never thought that he would meet someone so powerful in a remote region like this. He hurriedly turned and ran, not daring to stay at all.

Zhao Fu stretched out a hand and ten or so chains shot out and bound the man. The man was furious and seemed to curse at Zhao Fu, but Zhao Fu could not understand him. The Language Stone was not effective here and was unable to translate this language for him.

However, Zhao Fu did not mind as he could guess what the man was cursing, and he brought him back to Great Qin.

Chapter 1369: Blood Spirit Crystal

After returning to Great Qin, because Zhao Fu wanted to know about the Outer World creatures’ special attributes to kill them easier in the future, he went to watch the research process.

Now, Great Qin had hundreds of thousands of Scholars responsible for research. There were not just Humans but Gnomes, Elves, and other Races. All of them were incredibly intelligent and were suited to doing research.

Because the Outer World Battlefield was quite important, Zhao Fu ordered Bai Shan to gather Great Qin’s best Scholars to research the Outer World creatures.

One of the Fire Red Ants that Zhao Fu had captured at the start was bound on a stone stage. The various Scholars started to dissect the Fire Red Ant and took apart its organs, flesh, limbs, and blood, starting to research it.

They also used various methods to experiment. They used knives and swords to stab into the Fire Red Ant's armor, and they ran its blood through all sorts of machines. They also put some of its blood into some rabbits.

They also used small blades to cut its flesh apart along the vein lines and did all sorts of experiments.

They then repeated this process with ten or so Outer World creatures and reached a conclusion.

Bai Shan brought over some documents and reported, "Your Majesty, our preliminary investigations have found that the Outer World creatures' bodies have a defensive effect against the Heaven Awaken World's spirit qi. If they are attacked with spirit qi, the damage will be reduced.

"Moreover, the Outer World creatures' defenses are stronger than those of the same level from the Heaven Awaken World. They also contain a Primal Chaos aura, and ordinary swords and sabers are unable to deal much damage to them."

Zhao Fu felt quite surprised. Because these Outer World creatures were much weaker than him, he had not noticed this. These Outer World creatures actually had attributes that made them more resilient.

Spirit qi was the basic energy of the Heaven Awaken World and made up the Heaven Awaken World. Every person in the Heaven Awaken World had spirit qi, and all demonic qi and ghostly qi was converted from the basic spirit qi.

In other words, the Outer World creatures had natural defenses against the Heaven Awaken World. Zhao Fu wondered if they had this innately or if it was developed from fighting with the Heaven Awaken World over many years.

The Outer World creatures already had resistance against spirit qi, and adding on the fact that some of them had tough armor, they would be incredibly difficult to deal with.

No wonder Spirit Destruction Crystals were incredibly important in the Outer World. Without Spirit Destruction Crystals, it would be quite difficult to kill a large number of these Outer World creatures.

Ordinary Spirit Destruction Crystals were made by modifying the Heaven Awaken World's spirit qi and making them into crystals. The Outer World creatures were naturally unable to defend against these attacks.

"噗!"

Now, they had a basic understanding of the Outer World creatures. The next step was to research special Spirit Destruction Crystals. Before, the Scholars were unable to make any progress in making Spirit Destruction Crystals, as they only had the formula but had never seen a Spirit Destruction Crystal or an Outer World creature before.

Now that the Scholars had personally seen and researched the Outer World creatures, they were able to find a way to modify the Spirit Destruction Crystals.

They prepared a Spirit Gathering Formation and gathered the spirit qi in the surroundings before adding in the Outer World creatures' blood, forming a blood crystal that would deal extra damage to Outer World creatures.

These blood crystals were oval-shaped and as big as a longan fruit. They gave off a Primal Chaos aura of the Outside World, and they could be socketed on equipment or crushed into powder and added into medicinal pills or talismans.

Of course, they had to test them first. A soldier went up and held an ordinary spear and stabbed a Green Cave Worm. The spear stabbed into the Green Cave Worms' body, but its skin and flesh had a toughness to it, and even though the spear stabbed through, its power was reduced.

The soldier then held a spear socketed with a Spirit Destruction Crystal. He sent his power into it, and the Spirit Destruction Crystal on the spear gave off a faint light, causing the spearhead to give off a blood-red light.

Chi!

The spear stabbed into the Green Cave Worm's body much easier than before. The resistance from the worm's skin and flesh disappeared; the effects were quite good.

Zhao Fu was quite pleased and ordered the Scholars to mass-produce the Spirit Destruction Crystals because Zhao Fu wanted to create a base in the Outer World.

These Spirit Destruction Crystals required the blood of Outer Creatures but not too much; they were just materials to modify the spirit qi. Zhao Fu brought back the corpses of the Outer World creatures that he had killed, which would be enough to produce a large batch of Spirit Destruction Crystals.

A while later, Zhao Fu went to a different research workshop. There was a Humanoid Outer World creature bound here; it was the man Zhao Fu had captured, and there were a few Scholars running tests on him.

They used electricity to blast the man, testing his resistance to electricity. A powerful current of electricity flowed into his body, causing his body to violently tremble. He felt immense pain, but he gritted his teeth and endured it out of pride.

Following this, the Scholars used flames to burn his arms. The pain in his arms caused the man to struggle as he cried out in pain. However, there were a few soldiers holding him down and ropes binding him, making it so that he could not break free.

The flames stopped and the Scholars looked at how burned the man's arms were while making notes. They then applied some medicine and observed the effectiveness of medicine on Outer World creatures.

They found that medicines were not very effective on Outer World creatures. This was an important discovery and was also recorded.

Following this, the Scholars made small cuts on the Outer World creature's body to investigate his healing and regeneration abilities.

The continuous experiments were unbearable for the man. He howled and wanted to die and escape. However, he could not die even if he wanted to, and he was always kept alive at the edge of death.

The Scholars coldly researched him and Zhao Fu watched by the side. Hearing those howls, his expression did not change at all. Even if there were 100,000 Outer World creatures being experimented on, his expression would not change.

Moreover, given the human skins tied around his waist, it seemed that this man was not a good person anyways.

“Your Majesty, here are your findings,” a robed Scholar carried over a pile of documents and respectfully said to Zhao Fu.

Zhao Fu nodded and had him go over their findings. Afterwards, the Scholar took out a Language Stone and said, “Your Majesty, this is a special Language Stone. We have deconstructed their language, and after using this stone, you will be able to learn their language.”

Hearing this, Zhao Fu felt quite surprised and smiled as he took the Language Stone and learned the Outer World language.

Now, Zhao Fu would know what these Outer World creatures were saying. Zhao Fu ignored the almost-dead man as he had no intentions of taking him in.

Chapter 1370: Sunblaze Emperor Immortal Formation

Zhao Fu started to prepare the various things to build a base. Most things were quite easy to find, but the important thing to prepare was something that could withstand the sunlight. Without something to block the eight suns, no one would be able to live there.

With Great Qin’s foundation, it naturally had countless formations of all kinds. Zhao Fu chose one of the formations that he had used before – it was the Sunblaze Emperor Immortal Formation.

The Sunblaze Emperor Immortal Formation could not only absorb sunlight and turn it into energy, but it also had defensive abilities. This formation’s attributes were extremely compatible with the eight suns, and the Sunblaze Emperor Immortal Formation would definitely have a great effect in the Outer World.

Apart from the Sunblaze Emperor Immortal Formation, Zhao Fu planned to send 100,000 ordinary Corpse Soul Soldiers to the Outer World. Outer World creatures in the remote regions were not very strong, and Great Qin’s Corpse Soul Soldiers all had Stage 3 Cultivation and should be able to deal with them.

Two days later, Zhao Fu brought Arasina and 100,000 Corpse Soul Soldiers dressed in heavy armor and holding heavy weapons to the Outer World Battlefield.

When they arrived, it was daytime, and the eight suns scorched the ground. It was blindingly bright, and it felt as if one could go blind from looking around. As such, Zhao Fu could only wait until nighttime.

Zhao Fu found an empty piece of land and ordered the 100,000 Corpse Soul Soldiers to construct City Walls. Because materials could be easily transported via spatial rings, Great Qin was able to easily build City Walls and put up some preliminary defenses.

In one night, the Corpse Soul Soldiers constructed City Walls that were ten or so meters tall and five or six meters thick.

Because there were many of them, they attracted small waves of Outer World creatures during the night. However, it was not too dangerous, and they were able to easily deal with them.

At the same time, they put away the corpses of the Outer World creatures; they did not yet have many pieces of equipment with Spirit Destruction Crystals, so Great Qin needed more blood from Outer World creatures.

Moreover, the materials harvested from Outer World creatures could be used to deal extra damage to creatures in the Heaven Awaken World. Zhao Fu planned to use them to deal with his enemies in the Heaven Awaken World.

Because these materials were too low-grade and they came from Stage 1 Outer World creatures, the Royal Kingdoms who entered the Outer World Battlefield naturally were not very interested in them.

However, Great Qin was different. It had not leveled up to a Royal Kingdom and was still in the remote regions. These low-grade materials were quite useful to Great Qin, so they would not let the corpses go to waste.

Blinding white light shot out from over the horizon, destroying the night scene. Eight enormous suns giving off intense light slowly rose up, looking down on all creatures.

The blinding light caused the temperature to skyrocket. Zhao Fu immediately activated the Sunblaze Emperor Immortal Formation, and nine golden birds absorbed the boundless sunlight and joyously flew in the sky. They also gave off intense light, looking like nine suns in the sky.

Adding on to the eight suns, there seemed to be 17 suns in the sky. However, those in the City did not feel any heat at all and instead felt quite cool.

Zhao Fu did not even need to use energy stones to maintain the Sunblaze Emperor Immortal Formation, as it absorbed the intense sunlight. Not only was this enough to maintain the formation, it even had excess energy to condense Sun God Stones, a type of stone that contained massive amounts of light energy.

It seemed that using the Sunblaze Emperor Immortal Formation for the base was absolutely the right decision.

As daytime arrived, the Outer World creatures became lively. Zhao Fu planned to attract over a wave of Outer World creatures and kill them to obtain points, allowing him to unlock the Exchange Stone Stele.

“Roar! Roar! Roar...” Soon, Zhao Fu and Arasina had drawn over a group of rat-like Outer World creatures. These rats were about one meter long and had gray fur and pale-white eyes. They were called Pale Eye Rats.

There were many Outer World creatures, especially during the daytime. Zhao Fu and Arasina did not try too hard at luring Outer World creatures, and they drew over around 100,000 Pale Eye Rats. Most of them were about Stage 1 in strength and there were many Stage 2; it could be seen that the Outer World was quite dangerous.

Zhao Fu became more alert; if he drew over too many Outer World creatures, he would not be able to deal with them.

The 100,000 Pale Eye Rats gave off a ferocious aura and flooded towards Great Qin's base. The ground rumbled, and it was shocking to see so many rats. Anyone would feel fear upon seeing such a scene.

咻咻咻...

However, Zhao Fu had brought 100,000 Corpse Soul Soldiers with Stage 3 Cultivation, so it was quite easy to deal with these Pale Eye Rats.

Swish, swish, swish...

Arrows shot out containing immense power, seeming to cover the sky as they descended. Countless Pale Eye Rats were pierced by the arrows and were nailed to the ground; it was impossible to determine how many Pale Eye Rats had died in that volley.

Some Pale Eye Rats quickly rushed to the bottom of the City Walls and easily climbed up. Their eyes were filled with coldness and savagery, wanting to kill everyone on the City Walls.

However, the Corpse Soul Soldiers' expressions did not change, and they held their large swords and slashed at the approaching Pale Eye Rats.

Arcs of light shot out, splitting the Pale Eye Rats' bodies in half. Blood splashed everywhere and the Pale Eye Rats' corpses fell from the walls. The walls were dyed with blood and not a single Pale Eye Rat was able to break through.

Even though the Outer World creatures had decent defense against Heaven Awaken World attacks, in front of power that was significantly greater than theirs, they did not have much resistance. If they were of the same cultivation, Zhao Fu's side would have countless casualties.

Seeing that the battle was going fine, Zhao Fu took Arasina to find higher-Stage Outer World creatures. In order to unlock the Exchange Stone Stele, he had to kill creatures of different levels.

唰唰唰...

Zhao Fu had a General take care of the base and gather the Outer World creatures' corpses to be sent back to Great Qin.

"Skreeeee..." A group of seahorse-like Outer World creatures with red wings gave off piercing cries. There were thousands of them and all of them had Stage 3 strength, and they gave off terrifying auras.

Before Zhao Fu could act, Arasina, who was lying in his embrace, raised a hand and a black ring of light flew out and hovered in the air. It gave off an intense black light and a Darkness God energy spread out.

Swish, swish, swish...

Black rays of light shot out incredibly quickly from the black ring of light, easily piercing through those Outer World creatures' bodies. The flying seahorses cried out as they fell from the sky.

Zhao Fu felt that this was quite a pity. These seahorses could fly in the sky and had Stage 3 strength; they could rival warhorses from the inner Domains. If they could be subdued and used by Great Qin, Great Qin's battle power would greatly increase.
