

The Lord 1381

Chapter 1381: Heaven Awaken World People

Xu Liuyi looked at the three other women and a sultry look came to her face as she said, “Don’t you want to go in? I’ll be going in first; His Majesty hasn’t taken care of us in a month, and with how busy Great Qin is with battles, we don’t have time either. We should enjoy ourselves now.”

Sun Hanxiang lightly smiled and nodded. “Let’s go in! We’ve been missing His Majesty and we don’t have the time for this normally.”

Wei Qing also shyly nodded and looked at Bai Xihan as she asked, “Big sister Bai, His Majesty has been giving you love since the start and goes at it for the longest on your body every time; don’t you want to go in and do it with His Majesty?”

Bai Xihan’s face became completely red and she did not reply to Wei Qing’s words as she pretended to be calm. She stretched out her hand and lightly pushed open the door and walked in.

Xu Liuyi laughed and could not help but think about Zhao Fu doing her. Hearing Zhao Fu doing it with other women, she would be able to endure it once or twice, but hundreds or thousands of times was impossible.

As a young woman, Xu Liuyi had a strong sex drive but it was a pity that she had been forcefully brought to this world and could not enjoy the pleasures of doing it.

When Zhao Fu had been doing it with Daisy and hearing Daisy’s cries, she joined in and dragged the three other female Generals in with her.

Sun Hanxiang had long since known that they could not escape Zhao Fu’s hands, so she had taken the initiative to do it with Zhao Fu. Bai Xihan had not resisted either; she would accept anything that Zhao Fu did to her. Wei Qiang was the youngest and shyly participated.

“Xihan, what did you come to find me for?” Zhao Fu hugged Arasina with one arm and Bai Xihan with the other as he looked at her red face and lightly smiled.

Bai Xihan quickly regained her cold demeanor and said, “That world has far too many Insect creatures, and there are always waves of at least a few hundred thousand. It would not be surprising if even waves of 100 million or billions of Insects appeared.

“I want to construct a set of defenses every 10,000 kilometers, and these layers of defenses will guarantee the safety of the base. Also, we don’t know what this place contains; even though we’ve cleared out the Insects in the surroundings, we don’t know if anything will happen.

“When moving in such a large scale, we will attract a lot of attention. In order to avoid anything unexpected, I believe we should make small scouting parties to properly scout out the surroundings and act after we have planned appropriately.”

Zhao Fu smiled and nodded, saying, “I know; I’ve been choosing people and preparing all sorts of defensive things. Even though it is only the outer boundary of the Outer World, I understand how dangerous it is.

“When the time comes, I’ll personally lead a team. Even though that world is quite dangerous, there are many opportunities, and I want to take a look. As for the base, I’ll leave it to you to manage.”

Bai Xihan lightly nodded. “I’ll definitely protect the base well!”

Following this, Zhao Fu got up to check on the preparation process. Arasina was someone who Zhao Fu had to bring because she knew the Outer World well; without her, things would be quite troublesome.

“轰!”

Those in the scouting parties would have to be at least Stage 7 Cultivation. Even without Sunlight Gemstones, they would be able to raise barriers that could block the sunlight. It would be best for them to be Assassins so they would be able to hide easily and be safer.

Zhao Fu and Arasina formed a scouting party without anyone else because Zhao Fu planned to go deep into the Outer World; bringing anyone else would be a burden.

Boom!

Suddenly, the ground started to violently tremble, and a massive aura swept out like a heaven-toppling flood, causing countless people to feel shocked. Their hair stood on end and they felt an instinctive fear.

Zhao Fu's expression fell and he flew into the air. There was an Insect tide made up of many different types of Insects giving off an incredibly destructive aura as it charged towards Great Qin's base. However, there were only around ten million of them, allowing Zhao Fu to let out a sigh of relief.

Even though it was daytime, there were billions of Great Qin's soldiers standing guard at the base. Ten million Insects would not be a great threat at all.

“You ugly Heaven Awaken World people, let my big brother go, or I'll have you all die here.” A voice travelled into Zhao Fu's ears, and Zhao Fu found that in front of the Insect tide was an eight or nine year old boy. He looked quite similar to the man he had captured earlier, and the boy naturally spoke in the Outer World's language.

Because this little fellow was too small, Zhao Fu had not noticed him. He did not know how this little boy had managed to gather ten million Insects.

咻咻咻...

噗噗噗...

Swish, swish, swish...

Without needing orders from Zhao Fu, as soon as these Insects came near, arrows covered the sky and shot at the Insects.

Chi, chi, chi...

The countless arrows descended like rain and Insects were shot to death. Blood sprayed everywhere and hisses of pain sounded out. In just this one wave of arrows, the Insect tide lost 30% of its numbers.

The ferocious Insect tide was immediately scared into turning and running without any hesitation. There were billions of people standing on the City Walls, and even though they were Heaven Awaken World enemies who they greatly hated, the Insects still felt fear.

The little boy had somehow dodged the dense arrow rain and looked at the City Wall with a pale face. According to the information he had received, this base only had a few hundred thousand people, and with ten million Insects, he should have been able to easily kill them.

However, in just a few days, so many people had appeared. The little boy felt that the situation was off, so he rode on a large black beetle and turned to run.

“唰!”

A cloaked figure with extremely terrifying eyes soundless appeared behind him. Just as the boy turned, he saw the man, and his body violently trembled in fear.

“Didn’t you want to see your big brother? I’ll take you to see him now!” Zhao Fu coldly laughed as he looked at the boy. He understood that the man he had captured was this boy’s big brother. He had not been able to obtain any information from the man; Great Qin had experimented on him while torturing him, but the man had not said anything.

Now that he had captured this boy, it would be easier to obtain information. Zhao Fu was quite pleased that this boy had offered himself up.

Swish!

The boy activated a stone medallion that he carried on his body and his body disappeared. However, Zhao Fu disdainfully laughed and the golden pupil in his left eye spun and locked onto the little boy’s position, binding him up 10,000 meters away.

“Let me go, you despicable and hypocritical Heaven Awaken World person! Otherwise, when my clan members get here, you’ll be dead!” the boy cried out.

Zhao Fu grinned, came over, grabbed the boy, and returned to the base. He did not do more scouting because now that he had captured this boy, after extracting information out of him, scouting would become much safer in the future.

Chapter 1382: Withered Grass Domain

“Speak! Where did you come from and where is this place? What factions are around here?” Zhao Fu asked as he looked at the boy with his terrifying eyes.

Within a dark room, the boy was hung up by chains and he looked incredibly angry as he continuously struggled, trying to escape. However, he naturally could not break free from the chains.

The boy said stubbornly, “I won’t tell anything to you Heaven Awaken World people, even if I die. It’s best you kill me now, or you’ll regret it.”

Zhao Fu’s expression did not change. He let out a powerful arc of electricity which slammed into the boy; Zhao Fu would not hold back just because of the boy’s age.

“Arghhh...” As the powerful electricity hit the boy’s body, his body violently trembled and he howled. Only after a while did Zhao Fu stop, and the boy’s body was soaked with sweat. He hung strengthlessly in the air and became much more docile.

Now, he understood the consequences of being captured by the enemy; this person would not show him any mercy or sympathy and would only treat him cruelly.

“I’ll ask you one more time: Tell me everything you know, or I’ll use even more painful methods. If you tell me what I want to know, I’ll even let you see your big brother and I’ll stop tormenting your big brother. Did you know? Your brother is used for many experiments and goes through immense pain every day,” Zhao Fu said coldly to the boy.

Hearing that his big brother was being used for experiments, the boy became extremely angry and yelled, “You dared to treat my big brother like that? I won’t spare you all!”

“Arghhhh...” Zhao Fu did not speak and another powerful wave of electricity entered the boy’s body through the chains, causing him to scream in pain. The voice was quite tender and could make most people feel sympathetic.

“Do you want me to repeat yourself? If you want you and your big brother to stop suffering, tell me everything you know,” Zhao Fu said with a cold expression.

The boy tightly closed his lips and glared at Zhao Fu, not saying anything.

Zhao Fu was quite surprised; this little boy was quite courageous. Could it be that all Outer World people were like this? After thinking about it, Zhao Fu brought him back to Great Qin to look at the scarred and feeble man in prison.

Seeing his big brother in that state, the little boy cried and ran over, but he was grabbed by Zhao Fu. The dead eyes of the man on the ground regained some light.

He looked at the boy in Zhao Fu’s hands, and he was furious as he roared, “Let go of my little brother, or I won’t let you off even if I die!”

The brothers cared deeply for each other, or else they would not be so angry for each other. Zhao Fu felt like he was the villain from a movie, doing anything for his goal.

“Do you want to see your big brother continue suffering like this? Don’t you feel extreme pain? As long as you tell me what I want to know, I’ll treat both of you well. Your big brother won’t be subjected to experiments anymore and you won’t have to bear any more pain,” Zhao Fu said to the boy.

The boy cried as he hesitated and prepared to speak.

“Don’t say anything! Don’t tell anything to these contemptible Heaven Awaken World people. Our Chaos Spirit Race would rather die than submit to these people!” the man shouted.

Hearing his big brother’s words, the boy’s gaze became resolute and he closed his mouth, determined not to say anything.

Zhao Fu felt quite displeased. He raised his hand, preparing to chop off the boy’s arm and make him suffer.

“Your Majesty! There’s news from the Outer World; an Outer World person wants to meet you,” a soldier walked in and reported.

Hearing that it was another Outer World person, Zhao Fu sank into his thoughts. He decided to meet them and went to the base in the Outer World. He had given the base a name, Qin Territory.

Zhao Fu was surprised to find that this person was a woman. Her figure was quite mature and she looked quite beautiful. She had red eyes and looked quite cheerful and bright. She only wore a beast skin that covered her chest and lower body, and she had a wild aura.

“Are you here for those two people?” Zhao Fu could guess this woman’s purpose for coming here; she would not come here for no reason.

The woman lightly smiled and said, “That man is my husband, and the other is my little brother-in-law. I want to negotiate with you to release them.”

Zhao Fu could not help but lightly laugh, “You came by yourself, and you dare to try to negotiate with me? Aren’t you afraid of you being dragged into this as well?”

Zhao Fu smiled as she replied, “Sir, your faction most likely only came here recently; there were no Heaven Awaken World people here before. You should be in a hurry to find Sunlight Gemstones. I can provide them, as long as you release my husband and little brother-in-law.”

Hearing this, Zhao Fu felt quite delighted; he had never thought that the Sunlight Gemstones he had been searching for would deliver themselves up. What’s more, it was for the cost of two unimportant people; this was a very good deal.

However, Zhao Fu was not in a hurry to agree because he was still not sure where this place was or what factions were around. He had to make things clear or else everything would be unknown, and he would not be able to be at ease.

Zhao Fu was now curious about the identity of these three people, and he wanted to know who they were.

Zhao Fu looked at the woman and said, “If you can tell me where the Sunlight Gemstones are, I’ll be very happy to let the two of them go. However, you have to tell me your identities and everything about this area. Only then will I spare them.”

The woman felt quite startled and thought about it before replying, "I can only tell you that this place is called the Withered Grass Domain and is in the western area of the Primal Chaos World. As for our identities and information about this area, I can't tell you any more."

If the woman really told that information to Zhao Fu, everyone in this area would be doomed. She knew that Great Qin had gathered billions of soldiers.

Zhao Fu felt quite displeased, as he only received a rough location and still did not know the situation around him; how could he be satisfied with this?

"The location of the Sunlight Gemstones and information about the surroundings; those are things I have to know, or there'll be nothing to discuss. Also, to prevent you from contacting others, I'll need to trouble you to stay here for a few days."

The smiling woman now frowned; Zhao Fu meant to forcefully keep her here and get information out of here.

This made the woman feel quite angry; it was Great Qin who had captured their people and she was here to courteously negotiate. If they were ordinary Chaos Spirit people, they definitely would not be able to do such a thing.

However, she had come here prepared, and she smiled as she said, "Sir's faction most likely is not a Royal Kingdom, right?"

Chapter 1383: Gray Pearl

Zhao Fu was quite startled and became serious, as he could hear the threat in the woman's words. However, he replied calmly, "For us Heaven Awaken World people, only those with Royal Kingdoms can come here. Great Qin is a newly-risen Royal Kingdom."

The woman gave a slight smile as she said somewhat coldly, "A real Royal Kingdom would not have so many Stage 1 soldiers; I suppose you don't know how powerful the Outer World is, and why only Royal Kingdoms from your world can come here."

“This place has ten or so factions that can threaten Royal Kingdoms; if I leak your information to them, do you think you can defend against them without the strength of a Royal Kingdom?”

Hearing the woman’s words, Zhao Fu felt quite startled; he had never thought that there was such danger. However, Zhao Fu realized that she could have done this long ago if not for the fact that he had her husband and brother-in-law.

Thinking about that, Zhao Fu felt quite confident and said condescendingly, “Go and tell them then! Not only will your husband die, your brother-in-law will die as well. I’ll skin them alive and then chop off their meat bit by bit.

“Also, you won’t be able to escape. Your looks are not bad and I’ll definitely enjoy your body.”

The woman was incredibly angry, but she was afraid that Zhao Fu would kill the two of them, which was why she was here to negotiate.

“I can tell you about the surrounding factions that can threaten you and the location of the Sunlight Gemstone mine. However, you have to promise to spare us,” the woman said as she angrily glared.

Zhao Fu coldly laughed. After being threatened by her, how could Zhao Fu spare them? Once he let them go, he would have no power over them. Moreover, if they passed Great Qin’s information to those terrifying factions, Great Qin would definitely suffer heavy losses.

“Apologies, but I’ll have to refuse. I’ll look for the Sunlight Gemstone mine myself and I’ll look for those factions myself. As for you three, you can stay in Great Qin!”

The woman started to panic; she had never thought that Zhao Fu would refuse everything. After thinking about it, she took off her beast skin, revealing her enticing body as she said, “I’ll throw in my body as well. As long as you can let the three of us go afterwards, we definitely won’t leak your information. However, you’ll be found by them sooner or later.”

Zhao Fu felt quite startled, but he smiled and did not mind. He pulled the woman into his embrace and the woman slightly struggled, but thinking about her husband and her brother-in-law, she could only endure it.

Intense sounds sounded from within the room and the woman had never felt so excited and happy before, despite feeling that she had betrayed her husband. She felt incredibly conflicted and uncomfortable, but her body felt incredibly pleasurable.

A few hours later, Zhao Fu hugged the woman and checked to see if the Six Desires Demonic Qi had any effect on Outer World creatures. He was quite surprised; perhaps it was because the Six Desires Demonic Qi was a higher-tier power, making it so that it was only slightly weakened.

The woman's face was quite red and she powerlessly lay in Zhao Fu's embrace as she said, "Now that I've given my body to you, can you let the three of us go?"

Zhao Fu laughed, "I don't think I ever promised you that! Also, just then it seemed like it was you enjoying yourself; I didn't get much out of that."

The woman felt incredibly embarrassed and angry; she had never thought that Zhao Fu would be so shameless. She raised her hand and tried to hit Zhao Fu, but her hand was grabbed by Zhao Fu, so she tried to bite him.

At that moment, a voice sounded out from outside, "Reporting to Your Majesty, we've found that village and have successfully destroyed it."

Hearing this, the woman's face became pale and her heart felt as if it fell into an abyss, and Zhao Fu gave a pleased smile.

Back when he had captured the first Outer World person, Zhao Fu had not thought much. After capturing the second, Zhao Fu had been focused on obtaining intelligence so he had not considered that too much. However, after seeing a third Outer World person, Zhao Fu realized that there was definitely an Outer World base nearby.

As such, Zhao Fu sent out scouts. Each scout was paired with a Gray Wolf and they were all specially trained and were skilled at tracking.

Hearing that it was just a Village, Zhao Fu felt a bit disappointed. After all, Great Qin already had millions of ordinary Villages.

Just as Zhao Fu was about to get up, the woman pulled Zhao Fu and pleaded with tears in her eyes, "Please, don't harm them!"

The reason that the woman did not want to give information about the surroundings was to protect her Village. She had never thought that Great Qin would find it in the end.

Looking at the pitiful woman, Zhao Fu stroked her face and smiled as he said softly, “Then you have to be more obedient in the future!”

The woman hurriedly nodded and said, “I’ll definitely listen to you in the future and won’t disobey your orders.”

Hearing this, Zhao Fu lightly smiled and said, “Put on your clothes, we’ll go together.”

The two of them put on their clothes and came to the hall. There were many people bound with ropes, and most of them had blood on their clothes; they had most likely been injured.

The woman looked at a red-haired man who looked quite aged and hurriedly ran over, asking, “Dad! Are you alright?”

The aged-looking man did not expect his daughter to be here with an evil Heaven Awaken World person. He thought of something and said angrily, “Daughter! Did you betray our Village?”

The woman cried, not knowing how to explain things. After all, the Village being destroyed indeed had to do with her. However, she definitely had not betrayed the Village.

Zhao Fu frowned as he said, “You don’t need to blame her; it was Great Qin that discovered you all, and destroying your Village was something that was bound to happen sooner or later.”

The aged-looking man shouted hatefully, “Despicable Heaven Awaken World person, I’ll definitely kill you, use your blood as a sacrifice, and take revenge for our dead villagers. You won’t have a good ending; even if I die, the other Chaos Spirit people will find you.”

Zhao Fu looked quite angry, and the woman hurriedly said, “Husband, don’t be angry. We Chaos Spirit people are naturally antagonistic towards you all, which is why we act like this.”

Hearing this, Zhao Fu felt less angry, and he gave the order for those people to be taken away. He then ordered people to give a detailed overview of what had happened.

Zhao Fu was quite surprised to find that the Village did not have even 1,000 people; it was simply too small! Also, how could a little boy from such a small Village have the ability to gather ten million Insects? Zhao Fu could not believe this.

However, the soldier would not lie to him. This meant that this Village had tens of millions of Insects protecting them. It was only after clearing those Insects that they were able to take down the Village.

The soldiers also delivered up a fist-sized gray pearl. It was very smooth and gave off a faint light. It was something they had obtained from the Village, and Zhao Fu did not know much about this item.

However, this was now easily solvable, and Zhao Fu smiled as he looked at the woman.

Chapter 1384: Powerful Outer World Factions

“Can you tell me about this area now?” Zhao Fu pulled the woman into his embrace and sat on a chair as he smiled and asked.

The woman looked at Zhao Fu with her beautiful eyes and said softly, “Then don’t hurt my father, those villagers, or my husband – no, Hong Li and Hong Dong.”

“That’s naturally not a problem. As long as you’re obedient and tell me everything, I’ll treat them all well,” Zhao Fu said as he smiled.

The woman satisfiedly nodded and lightly hugged Zhao Fu as she said coquettishly, “Husband, my name is Hong Mei. As long as you don’t harm them, I’ll be yours, and I’ll wholeheartedly serve you.”

Zhao Fu smiled and nodded and asked about the gray pearl.

Hong Mei explained, “That’s a Village Creation Pearl and can establish a Village. However, the Village attributes are quite different from the Heaven Awaken World Village attributes.

“Our Villages have three basic abilities. The first is an intimidation effect that makes it so that wild beasts don’t dare to come close. There’s also a territorial effect that makes a piece of land your territory. There’s also a class change effect.

Other attributes, such as crop production, stat bonuses, and population attraction do not exist here.

In fact, they did not even have an Origin, where villagers spawned. Without such a thing, how could they spawn new people.

Zhao Fu later found out that they relied on reproduction and could not obtain new villagers through the Villages. However, everyone had a special ability, which was to communicate with low-grade Insects and gather Insects.

The little boy had stolen a treasure of the Village and had gathered ten million Insects. That treasure was a consumable item, and after using it, it could not be reused.

This explained why a Village with less than 1,000 could summon ten million Insects.

Moreover, they could only gather Insects and most Insects would not attack them as long as they did not antagonize them. However, they could not communicate with other types of creatures.

They could not communicate with beasts, flying creatures, or aquatic creatures. These three types of creatures would also attack Outer World people.

The gray pearl was useless to Zhao Fu and could only create a Village. It was far too weak, and even if it was fused into a creature’s body, it would not have much of an effect. Zhao Fu gifted it to Hong Mei and asked her about other matters.

Zhao Fu learned that there were countless Dens of various sizes. The Outer World Villages were quite rare and there were also extremely powerful existences.

For example, on the eastern side there was a massive lake where there were at least one billion Blood-Sucking Mosquitos. The mosquitos were only one meter long and could quickly fly and had extremely sharp mouthparts. After stabbing their mouthparts into a person's body, they would quickly suck a person's blood, and very few people dared to go to such a place.

On the western side there was a large group of Fire Red Ants that numbered in the billions and similarly, no creatures dared to go near.

On the northern side, there were 700 or 800 million Horned Boars. They were three meters long and had tough skin and powerful defenses. They had sharp horns on their heads and had destructive power. They were ruled over by a Boar King, who had terrifying strength, and it had killed many World Realm experts.

The true danger was on the southern side. There was an enormous Chaos Evil City where there were tens of millions of Chaos Evil people.

If they were just ordinary people, Great Qin would be able to destroy them easily. However, the Chaos Evil people were one of the vilest races in the Outer World, and their Legacy Technique could create countless half-man half-insect monsters.

It was said that they controlled around six billion insect monsters, which was incredibly terrifying.

After hearing Hong Mei talk about ten or so factions or powers, Zhao Fu felt incredibly shocked. Only now did he realize how dangerous the Outer World was.

These factions all greatly hated Heaven Awaken World people, and if they discovered Heaven Awaken World people, they would definitely kill them and not let anyone off. If they discovered Great Qin, Great Qin would be in great danger.

Back then, Hong Mei had brought up these factions to threaten Zhao Fu, and these factions really were quite terrifying. However, Hong Mei would not have actually leaked Zhao Fu's information to those factions; once they attacked, all creatures in this area would be wiped out.

This was especially so for the Chaos Evil people. They did not spare even people of the same race and would often capture them and conduct cruel experiments on them.

For example, they would put Insects in people's bodies and use the people's blood and flesh as food for the Insects, causing the people to go through immense pain. They would also splice Insects and people together to create terrifying insect monsters, and they also transplanted Insect organs into people.

The Outer World was split into many races, and the Humanoid creatures had the smallest numbers. There were nine major races and they all had different abilities and attributes. The Chaos Spirit Race and Chaos Evil Race were among them.

Now that he knew how dangerous it was, Zhao Fu planned to make proper defenses in order to guarantee that Great Qin could defend against these terrifying creatures.

In the end, Hong Mei told Zhao Fu the location of the Sunlight Gemstone mine. Hong Mei's Village had long since discovered this mine, but it was not of any use to them. As such, they had never excavated it, and it was under a large mountain.

Zhao Fu ordered people to go and have a look according to the information that Hong Mei had provided, mainly to see if there was any danger and to check how big the mine was.

"Husband! Can I go and see Hong Li and Hong Dong now? I want to see how they are and won't do anything else," Hong Mei said as she looked at Zhao Fu anxiously.

Zhao Fu had obtained a lot of information from her and he felt quite happy, so he did not refuse and agreed to let her see the brothers.

Hong Mei happily kissed Zhao Fu and ran to see the brothers. Zhao Fu had many things to take care of, and he was still waiting for the report from the people who had gone to scout.

Hong Mei came to the prison and felt quite anxious to see them; this was the whole reason why she was here.

However, in the end, the Village had been destroyed and her body became another man's. In the future, she would wholeheartedly serve that man and that man would bring her unimaginable pleasure every day. She greatly desired being done by that man.

In her heart, she still loved Hong Li, the man who Zhao Fu had captured; she did not stop loving him because of Zhao Fu. Her love towards Hong Li did not decrease, but another man had also forced his way into her heart.

Looking at the wounded Hong Li, tears flowed out of Hong Mei's eyes and she cried out in heartache, "Hong Li! Are you alright?"

Chapter 1385: Chaos Evil Race

Hong Li looked quite confused; his brother had just been captured and was subjected to abuse, and now his wife had been captured as well. His wife's face was somewhat red and gave off an intoxicating aura, and Hong Li had a bad feeling.

"I'm fine, but Mei'Er, why are you here? Were you captured by that Heaven Awaken World bastard?" Hong Li hurriedly asked.

Thinking about her current status, Hong Mei shook her head, feeling quite ashamed. Two lines of tears ran down her face as she said, "Hong Li, no one will harm you or Hong Dong now. Soon, people will take you to a better place, and I will come and visit you often."

Hong Li's body trembled; Hong Mei had not been captured. The Heaven Awaken World man treated her quite courteously and she was not locked up. Her face was also red and she gave off a charming aura.

Thinking about his beloved wife moaning under another man's body, Hong Li felt furious and he felt as if his eyes were going to split apart. He loudly roared

Seeing that Hong Li understood what was going on, in order to make him feel better, she lied, saying, "Hong Li, don't misunderstand! I just submitted to that Heaven Awaken World man and need to follow his orders in the future; nothing happened."

Hearing these words, Hong Li's anger instantly subsided. He greatly trusted his wife, and if his wife said nothing happened, then that would be it.

However, he was quite unhappy about Hong Mei submitting to a Heaven Awaken World person. After thinking about it, he realized Hong Mei most likely did it for them, and he felt quite guilty as he said, “Mei’Er, my good wife, don’t worry about us. Find an opportunity to leave and relocate our Village.”

Hong Mei looked at Hong Li and did not know what to say because the Village had already been destroyed by Great Qin and she could no longer leave. Also, she felt that her body could not leave Zhao Fu.

Thinking about how intensely she had been doing it with Zhao Fu just then, Hong Mei’s face went a bit red and she gave off a bit of a lustful aura. She started to have a reaction, and she wanted to do it with that man again.

“Mei’Er, what’s wrong?” Hong Li asked in confusion seeing Hong Mei in a daze.

Hong Mei came back to her senses, and looking at Hong Li gazing at her caringly, she felt even guiltier. She was worried that if this continued, Hong Li would work something out, and because she was afraid of Zhao Fu being angry, she said, “Hong Li, I have to go; I’ll come and see you when I can.”

Hong Li once again told Hong Mei to leave and that the Heaven Awaken World people were evil. Hong Mei could only pretend to agree before leaving.

By now, the scouts had returned and brought back a joyous piece of news: The Sunlight Gemstone mine was massive and could fulfil Great Qin’s demand.

However, there was a large ravine nearby where there were tens of millions of worms. They were the same as the worms Zhao Fu had seen when he had entered the Outer World, and they had massive bodies and sucker-like mouths that were filled with sharp teeth.

There were only tens of millions of worms, so Zhao Fu did not care much; with Great Qin’s strength, it would be quite easy to get rid of them. After hearing that there was not much danger, Zhao Fu led the army to the mine.

The ravine was over 10,000 meters wide and about 3,000 meters deep. There were countless worms on the walls and swarms on the bottom as well, which was quite a terrifying sight.

Seeing this terrain, Zhao Fu did not plan to have the soldiers directly attack; he had a better idea.

He called over 50,000 people who had Stage 4 Cultivation and could fly in the sky. Great Qin had made sufficient preparations for the Outer World, and it had all sorts of resources, such as kerosene.

The 50,000 people flew above the ravine and threw down wooden barrels containing kerosene. The barrels shattered upon impact and the black kerosene spilled out.

The worms were aggravated but only a small portion of them charged at Great Qin's soldiers. After all, 50,000 people was not a great threat to the worms. The soldiers disregarded the worms and continued to toss down barrels of kerosene.

They then threw down countless torches, which ignited the kerosene, and a large fire started to burn. Many worms were burned to death, and the high temperature caused an even greater disturbance in the horde of worms.

However, they were only able to burn a portion of the ravine, and most of the worms swarmed towards the other direction. Zhao Fu ordered people to pour even more kerosene and to ignite the kerosene while it was still falling.

Countless worms struggled in the flames, hissing before gradually slowing down and turning into charred corpses.

However, many worms charged out of the ravine and furiously attacked Great Qin's soldiers. Seeing the worms attack, Great Qin's soldiers immediately launched arrows.

The powerful arrows descended, piercing into the worms' bodies and causing gray blood to fly everywhere, and countless worms died under the volley of arrows.

Because of the raging flames within the ravine, even more worms charged out, and Great Qin's soldiers continued to use arrows to kill them. It was best to use long-range attacks against Insects, as they would suffer great losses.

Some worms charged against Great Qin's shield wall, but spears stabbed out from the gaps and pierced through their bodies, killing them instantly.

Seven or eight hours later, Great Qin had killed most of the worms, and a small portion had escaped in another direction. Zhao Fu had also picked up a gray Den.

This Den was twice as big as ordinary ones, and the aura was even stronger. Zhao Fu decided to fuse it into another Wyvern.

The Wyvern became 3,000 meters long and looked somewhat similar to an ordinary Insect Den Wyvern. It had gray scales and had pincers on the side of its mouth. However, its body became somewhat bloated and its eyes became much larger, and its strength also increased. It gave off a mountain-toppling aura – because this was a Den of tens of millions of worms, its power was naturally much stronger.

However, some wounds appeared on the Wyvern's body, from which red blood spilled out, because it was unable to entirely bear the Den's power.

This meant that the Wyverns could only fuse with Dens up to this level. Any higher level Dens would cause Wyverns to explode and die.

The Insect Dens were split into different levels. The lowest level was Level 1, which had around one million Insects protecting it. A Level 2 Den had two million Insects protecting it, and so on.

As Stage 5 creatures, Wyvern could only endure up to Level 30 Insect Dens. Only higher-tier creatures could fuse with higher-level Insect Dens.

Chapter 1386: Man-Eating Vine

Out of the various creatures that Great Qin nurtured, the Wyverns were the highest tier and were a type of dragon, so they were much stronger than other creatures of this same level. Higher-tier creatures were not so easy to obtain, and they usually required Dens.

This would rely on Zhao Fu's luck in the future; he had no way of obtaining any right now. If he obtained higher-level Dens, he could only put them away for now.

Zhao Fu came to the Sunlight Gemstone mine. It was a large, open mine. Black gemstones covered the face of the mountain and all light that came near was absorbed by the gemstones.

Zhao Fu felt quite surprised; these Sunlight Gemstones were different than what he had expected. He had thought that they would be a shining, glowing gemstone.

Following this, Zhao Fu ordered the soldiers to start to construct defensive structures. This place was a distance away from Great Qin's base, and even though they could travel to and fro using teleportation channels, they still needed some defenses to ensure the safety of the soldiers opening up the mine.

Looking at the Sunlight Gemstones, Zhao Fu smiled. With these Sunlight Gemstones, Great Qin would not have to fear those eight suns and would no longer be restricted by the sunlight. They could now travel to further places.

At the same time, Great Qin had obtained an ocean of points after killing a large number of Insects and could obtain many good items. However, Zhao Fu planned to save the points for now and spend them at key moments.

After dealing with these matters, Zhao Fu returned to Great Qin's base. The first thing he did was discuss with his subordinates about building defenses. Great Qin's position was quite dangerous, and only by building defenses would they be safe.

The people in the surroundings had not yet discovered Great Qin's base, but they would definitely discover it in the future; this was undoubtable.

Just tall City Walls could not stop a large-scale Insect tide. Zhao Fu planned to build some deep trenches outside the City Walls that were 1,000 meters wide and thousands of meters deep, preferably within attacking range.

These trenches would be able to slow down a charge, and the Insects that charged up would fall down and die. Great Qin's people could stand on the City Walls and attack, making defending quite favorable.

As for the flying Insects, Zhao Fu set up ballistae on the City Walls to defend against aerial attacks.

Because Hong Mei was an Outer World person, Zhao Fu had asked for her ideas and had benefitted greatly. Hong Mei had said that a certain type of plant would be quite useful.

The plant was called Man-Eating Vine. They would sometimes be on the ground and would sometimes be underground. When people came close, they would quickly bind up the people and their sharp teeth would stab into the people's bodies and devour their blood and flesh. They would consume the people in a matter of moments, leaving behind just the bones.

Hong Mei recommended planting a large number of Man-Eating Vines around the City Walls, and this would have a powerful effect. Also, in order to avoid the Man-Eating Vines from attacking the soldiers, they would just have to feed the vines some of the soldiers' blood from time to time.

Moreover, Hong Mei knew where they could find a large number of Man-Eating Vines. There was also an extremely terrifying Man-Eating Vine Demon – each vine that it grew was three meters thick and was tougher than steel. It had many vines and could cover hundreds of kilometers.

A single Man-Eating Vine Demon could easily devour one million Insects and was incredibly terrifying. That place had become a forbidden area and practically no one dared to go there.

Zhao Fu felt quite interested; if he could obtain that Man-Eating Vine Demon, Great Qin's defenses would be greatly improved.

Zhao Fu had Hong Mei take him to that place, and he saw a plains area made up of green vines. There were only vines, and no flowers, trees, or grass at all. There were no sounds of insects or birds, and it was incredibly silent.

There were sharp, white teeth on each vine, making these plains look incredibly terrifying and evil.

With so many Man-Eating Vines, if Zhao Fu sent soldiers to clear them, they would suffer countless casualties and injuries. Zhao Fu did not plan to have soldiers go up, and instead he used kerosene to burn them. These plants definitely feared fire.

Zhao Fu ordered people to throw out barrels of kerosene and then ignite them. The raging flames dyed half the sky red, and the temperature quickly increased.

The soldiers continuously tossed down barrels of kerosene from the sky, wanting to light up the entire plains. The only thing they had to be careful of was flying too low because many vines would be able to attack them.

Some vines twisted about like snakes and were quickly burned into ash. However, only the ordinary low-grade vines were burned to death; many vines burrowed underground and survived the flames.

Zhao Fu had already prepared a countermeasure against this – he had soldiers toss out Earth Elemental Stones, which turned the ground as hard as rock, making it impossible for the vines to dig out of the ground.

More than half of the ordinary vines had been burned to death, and the vines that had dug underground were only slightly injured. Now that the ground had been turned into rock, they could not pose much of a threat. Later on, Zhao Fu would have the soldiers excavate the ground and bring the vines back to Great Qin.

Zhao Fu first had the soldiers stay here while he brought Arasina to the center to take a look at the Man-Eating Vine Demon.

The flames had burned for a very long time, and the ground was charred black and gave off white smoke and an acrid smell. Even though the flames had been intense, it had not caused much harm to the Man-Eating Vine Demon, which covered hundreds of kilometers.

Zhao Fu was quite clear about this, so he was quite wary and flew in the sky and did not walk on the ground.

Rumble...

Sensing that Zhao Fu, the cause of all this trouble, was coming close, the ground started to violently tremble. Long cracks appeared as massive vines furiously shot at Zhao Fu; there were at least 100,000 or so vines.

“锵!”

唰唰唰...

Shing!

A held the Royal Wood Sword and vigorously slashed out. An enormous green crescent flew out, destroying the incoming vines. Green blood spurted out, and the vines that were cut immediately withered as their lifeforce was instantly absorbed by the Royal Wood Sword.

Swish, swish, swish...

Even more vines ferociously shot at Zhao Fu with incredible power. There were millions of them and seemed to cover the sky.

Zhao Fu did not look afraid at all and continuously slashed out, sending out sharp sword lights. As the sword lights shot out, the surrounding vines were slashed apart and the green blood descended like a green rain.

However, the Man-Eating Vine Demon's vitality was quite strong, and as its vines were continuously slashed apart, it continuously grew more. The vines all had teeth on them that gave off cold lights, wanting to devour Zhao Fu's blood and flesh.

Zhao Fu would not allow the Man-Eating Vine Demon to drag things out. He unleashed the Royal Wood Sword's World Tree Domain, and an enormous green energy barrier spread out, containing an immense suction power. All of the vines shooting towards Zhao Fu started to wither at a speed visible to the naked eye.

Chapter 1387: Sun God Stone

The Royal Wood Sword's Domain was the bane of all plant creatures and had shocking effects whenever Zhao Fu used it. Sensing that terrifying suction power, the vines immediately retreated below the ground and did not attack.

Zhao Fu coldly laughed; just because the vines were underground did not mean that Zhao Fu could not attack it.

A massive wave of Divine power entered the Royal Wood Sword, causing it to shine with intense green light as an enormous life aura spread out.

Boom!

Zhao Fu flicked out the Royal Wood Sword, causing it to turn into a green ray of light. It flashed through the air and landed on the ground, causing a 100 meter wide crater to appear in the ground.

The Royal Wood Sword gave off a green light and countless tree roots spread out from it and burrowed underground.

The vines underground sensed a wave of danger as the tree roots continuously spread out and dug deeper. They gave off a suction force and quickly devoured the vines' life force.

Boom! Boom! Boom...

The green vines gave off terrifying power as they lashed out underground, destroying soil and rocks. The area underground collapsed, and a massive crater appeared. The Man-Eating Vine Demon wanted to use this method to use the soil to block off the massive suction power.

Some of the Royal Wood Sword's roots were damaged, but the remaining ones still madly grew towards where the vines were.

Rumble...

A massive noise came from underground as if something was moving. It was the Man-Eating Vine Demon wanting to run, not wanting to fight with Zhao Fu anymore.

The underground area was quite large, making it difficult for Zhao Fu to find the Man-Eating Vine Demon's position. He could only look at Arasina beside him.

Arasina stepped forwards and her 24 black wings spread out as a powerful godly spirit aura spread out. She stretched out a hand and countless rays of black light fell from the sky, forming a massive hand of light that stretched into the ground.

"Roarr!" The ground violently trembled as an enormous roar sounded out from underground. Arasina looked quite startled before her expression became cold, and she vigorously grabbed with her hand before lifting it.

Bang!

The ground shattered as a 100 meter long green rhizome was pulled out of the ground. What was surprising was that at the center was a man; however, it was only the upper half of a man, and his lower body seemed to be fused into the rhizome.

The man looked at Zhao Fu and Arasina hatefully. He was most likely the Man-Eating Vine Demon, and he had decent intelligence.

Swish, swish, swish...

After being dragged out by Arasina, the Man-Eating Vine Demon did not hold back and attacked with its full strength. Its vines contained terrifying power and seemed to cover the sky as they shot towards Zhao Fu and Arasina, and it was as if nothing could stop them.

Zhao Fu's expression did not change as he took out the Emperor Killing Sword and he lightly cried out, "Sword Master!"

Shing!

A sword hum sounded out in the surroundings as boundless sword intent swept out. Space seemed to collapse as the creatures in the surrounding 10,000 kilometers felt a chill and looked terrified.

Boom!

Zhao Fu slashed as a formless sword energy instantly spread out. The heavens and earth trembled as the vines were slashed into tiny bits, causing green blood to fly everywhere. In just an instant, all of the vines disappeared.

The Emperor Killing Sword's power was extraordinarily fearsome. If it was not for the fact that he was afraid of being exposed, it would be the main sword he carried around.

After the Man-Eating Vine Demon's vines were all cut apart, he looked at Zhao Fu and Arasina in terror. Now that his vines had all been destroyed, he had nowhere to run.

Zhao Fu came to his side and pointed his sword at him as he said, “What will you choose? Submit or die.”

The Man-Eating Vine Demon did not hesitate and directly agreed. However, the Heaven Awaken World’s restrictions were ineffective against it, so Zhao Fu could not control it. As such, Zhao Fu could only use his Divine Bloodline as a blood restriction within the Man-Eating Vine Demon’s body.

Sensing Zhao Fu’s bloodline’s aura, the Man-Eating Vine Demon became much more respectful. He did not know that Zhao Fu had a Divine Bloodline and felt quite afraid of Zhao Fu’s bloodline’s power.

After taking in the Man-Eating Vine Demon, Zhao Fu smiled and pulled Arasina into his embrace as he said, “Thanks for just then!”

Arasina leaned against Zhao Fu’s chest and glared at Zhao Fu as she said, “Use your actions to thank This God later!”

Following this, Zhao Fu took the Man-Eating Vine Demon and a large number of ordinary Man-Eating Vines back to Great Qin’s base and planted them outside. Zhao Fu planted the Man-Eating Vine Demon within the base itself as they would be relying on its vines to attack.

The ordinary vines had not been hurt much, but the Man-Eating Vine Demon had been greatly injured. It would take a long time for him to return to its peak.

Zhao Fu planned to give him a large number of Insect corpses to devour because the Heaven Awaken World’s recovery items had very weak effects on Outer World creatures. He could only rely on this method, or he would have to use up a large amount of Great Qin’s recovery items.

Now, they had tall City Walls, a few deep trenches, and this Man-Eating Vine Demon; Great Qin’s base now had powerful defenses, and Zhao Fu could be more at ease.

At the same time, they were now mining Sunlight Gemstones and continuously sending them back to Great Qin to be socketed onto equipment.

“Skreee...” Suddenly, nine massive cries sounded out in the sky as a massive aura swept out, causing the sky to tremble and nine 1,000 meter wide golden crows could be seen.

Because the territory had expanded, Zhao Fu had also upscaled the Sunblaze Emperor Immortal Formation. The golden crows were now 1,000 meters wide and could absorb sunlight from the surrounding 100,000 kilometers.

After the nine golden crows cried out, they spat out nine golden crystals that were about two meters long. These nine golden crystals gave off an intense light and searing heat, and they had images of golden crows within them.

Zhao Fu stretched out his hand and a formless power caught these nine golden crystals. These were Sun God Stones, items condensed from the Sunblaze Emperor Immortal Formation from absorbing sunlight.

Sensing the power within these nine crystals, Zhao Fu smiled because they could be used to dispel the Corpse Pall World's curse.

Curses contained immense Yin attributes, while the nine Sun God Crystals contained powerful Yang attributes. They could clear evil and purify all things.

With these nine Sun God Crystals, they should be able to get past the Corpse Pall World's cursed land, allowing them to once again attack the Corpse Pall World.

However, although attacking the Corpse Pall World was not difficult, the main problem was the Devil Horn Empire making trouble. Without its interference, Great Qin would not have had to retreat last time and could have continued to attack the Corpse Pall World.

They had to think of a way to keep the Devil Horn Empire at bay while attacking the Corpse Pall World. Otherwise, Great Qin would not be able to attack another world while being attacked by the Devil Horn Empire.

As for dealing with the Devil Horn Empire, Great Qin had long since started to prepare and research things.

Zhao Fu came to the Forging Pavilion and looked at the two beautiful women working. He smiled as he asked, “How is it? Have you been able to create it?”

One of the women was Gongsun Zhu. She had gone from looking like a dignified young lady to looking like a young wife. The other was Gongsun Lin; she still looked like a quiet girl but had a trace of an air of maturity about her now.

Seeing Zhao Fu arrive, Gongsun Zhu smiled and said, “We’re nearly done. We’ll show Your Majesty the completed item soon.”

The thing that Zhao Fu was having them research was how to use materials from the Insects’ bodies. Even though these materials could deal extra damage to Heaven Awaken World creatures, they could not ordinarily be used by Heaven Awaken World people.

This was because for most materials, if they were made into weapons, people would not be able to send their spirit qi into them. Even if they could send in their spirit qi, there would be great resistance and they could not be used like ordinary weapons. As such, Zhao Fu had Gongsun Zhu and Gongsun Lin research how they could use these materials.

A while later, Gongsun Zhu brought over a red sword and smiled as she said, “Husband, try this out. This was forged from materials from Fire Red Ants and combined with Talisman techniques.”

Zhao Fu took the red sword and examined it. The sword was quite warm and there was a line of runes down the middle. The blade did not feel very sharp, and the sword gave off a chaotic aura.

“Is this sword even useable?” Zhao Fu felt quite confused and sent his power into the sword. The sword immediately gave off a red light and its aura became ferocious.

“Husband, try it on this.” Gongsun Zhu brought over a slab of iron that was two fingers thick.

Zhao Fu slashed the sword onto the block of iron and sparks flew everywhere as the block of iron was slashed apart by the sword. The cut was incredibly smooth, proving how sharp the sword was.

Following this, Zhao Fu did some more tests. He used an ordinary iron sword and the Fire Red Sword to stab into a set of iron armor. It was evident that it was much easier for the Fire Red Sword to pierce through the armor because of the materials from the Fire Red Ants.

Weapons made from Outer World materials were quite effective against Heaven Awaken World equipment and could destroy them more easily. This was primarily because of the Primal Chaos aura that they contained, which had a corrosive effect on spirit qi.

However, they did not have any advantage against weapons made from Outer World materials, as they all contained Primal Chaos aura.

If they mass-produced these weapons, they would be able to deal a big strike against the Devil Horn Empire. They definitely would not expect Great Qin to have such weapons.

“You’ve worked hard, both of you!” Zhao Fu smiled and hugged the sisters.

Gongsun Zhu smiled as she replied, “Not at all! We’re very happy to be able to help out husband.”

Gongsun Lin’s face became slightly red; she still had not become used to her new relationship with Zhao Fu. A few days ago she had heard her big sister crying out and had angrily stormed in, and she had seen her sister doing it with Zhao Fu.

Gongsun Zhu did not mind much because she had expected this would happen. She was quite happy to be able to serve a man with her little sister. They could also research and forge together every day.

Within Zhao Fu’s embrace, sensing Zhao Fu’s dense aura, Gongsun Zhu’s face became red and she did not hold back as she said flirtatiously, “Husband, let us serve you.” After speaking, she squatted down and started to serve Zhao Fu.

Seeing this scene, Gongsun Lin’s face became bright red. She had never thought that her big sister would be so daring in front of her. However, seeing how much her big sister was enjoying it, she wanted to try it too.

Zhao Fu greatly enjoyed the service of the sisters, and he soon started to do it with them.

A while later, Gongsun Lin's face was quite red as she lightly hit Zhao Fu's chest and said angrily, "Zhao Fu, can't you be gentler with us? Also, did you have these intentions from the start?"

Zhao Fu smiled and nodded. "I've known you for nine years now; of course I had some thoughts. I didn't want you to do it with another man, and I also wanted to make up for the sadness of you leaving before. I still remember that clearly. I want to keep you by my side from now on."

Hearing that Zhao Fu had feelings for her this whole time and did not just take her on the spur of the moment, Gongsun Lin's face became red with embarrassment. She could not help but feel somewhat happy and she lightly hugged Zhao Fu.

She did not want to just be a tool for Zhao Fu to use for pleasure; she wanted a man who truly liked her. Nine years ago, she had some feelings for Zhao Fu too, but that had not progressed into anything. Now that she had been taken by Zhao Fu, she felt a bit displeased but was not angry.

Following this, Gongsun Lin told the method for producing these weapons to the people responsible for producing military equipment and told them to quickly mass-produce them.

Weapons made from Outer World materials were quite destructive towards Heaven Awaken World equipment. However, Zhao Fu did not plan to equip all of Great Qin's soldiers with them because the Outer World materials had a great weakness.

After all, Spirit Destruction Crystals countered the Outer World creatures, and weapons socketed with Spirit Destruction Crystals would be able to easily counter these weapons. When that time came, this advantage would become a disadvantage.

Seven days later, Great Qin had prepared various matters and started to attack the Corpse Pall World again.

This time, they were much more secretive. Great Qin's army did not gather together and mightily storm in, and instead they went through teleportation channels that they had prepared in advance. Great Qin wanted to attack without giving any clues, and they acted at night as well.

Zhao Fu came to the area with the cursed ground by himself and took out the nine massive golden crystals. The crystals circled around Zhao Fu and gave off a faint golden light and a searing aura.

轰轰轰...

Boom! Boom! Boom...

Zhao Fu raised his hand and the nine massive golden crystals turned into rays of light that shot into the sky. Explosions then sounded out as the nine crystals gave off brilliant light and the nine golden crows within them seemed to come to life, dancing in the sky.

Nine suns appeared in the sky and intense light shined on the ground. As the strange and cold aura was hit by the light, it quickly dispersed and countless ghost babies howled as they turned into smoke and dissipated.

The light quickly spread and the night quickly receded. The people in this Continent thought that it was the next morning and felt incredibly confused; the night seemed to have passed incredibly quickly. However, looking outside, they saw that it was indeed bright.

However, when they came out, they were confused to find that there were nine suns in the sky. How was this possible? How could there be nine suns in the sky?

Before they could come to their senses, Great Qin's soldiers had arrived at the boundary through teleportation channels and started to attack. The apocalypse of the Corpse Pall World had arrived.

Chapter 1389: Mud Soldiers

Eight billion or so soldiers dressed in black armor and with determined gazes gathered at the boundary of the Corpse Pall World, giving off an enormous aura. Zhao Fu stood in the sky, a trace of a smile on his face as he gave the order to attack.

The soldiers passed through teleportation channels, bypassing the cursed ground and appearing below the Corpse Pall World's defensive walls. The cursed ground had already been dispelled, and they no longer had any way of stopping Great Qin's soldiers.

"Kill!" Great Qin's soldiers roared, their voices shaking the heavens as they surged forwards like a black flood. They gave off an aura that seemed to be able to destroy everything as they flooded towards the defensive walls.

The sky was completely dark as various devils and beasts covered it, and the evil and dark aura covered the heavens and earth.

The terrifying aura and horrifying scene made the soldiers on guard look terrified. Their legs became weak as they yelled, “Great Qin is attacking!”

Everyone in the Corpse Pall World had sensed that something was off when the nine suns had appeared. Hearing that Great Qin was attacking, their expressions fell and they quickly led soldiers over, and the two sides started to fight.

Swish, swish, swish...

The Corpse Pall soldiers vigorously shot out arrows that tore through the air. Countless devils were hit and fell down like a rain of corpses.

However, even more devils and beasts leapt onto the defensive walls and started to fight with those soldiers.

A snake with sharp teeth moved like a bolt of lightning and bit a Corpse Pall soldier. Its sharp teeth easily pierced through the soldier’s armor, and the soldier cried out as it was tossed aside by the snake.

A half-man and half-tiger devil wildly laughed as it charged into a group of soldiers. It swung out its paw and easily sent four of five soldiers flying, with deep gashes on their chests. The soldiers instantly died.

A two-headed rooster flew down from the sky, grabbed two soldiers with its claws, flew back into the air, and dropped them down. The rooster then flew down and used its beak to peck apart a soldier’s chest.

The Corpse Pall soldiers desperately retaliated, using both weapons and bandages to attack the devils.

A Corpse Pall soldier used his bandages to bind up a devil before going up and using his saber to kill it. Another soldier combined his bandages and weapon and split a devil in half. Some soldiers even used countless bandages to pierce devils’ bodies.

Blood flew everywhere and cries continuously sounded out as more and more people died. The battle was incredibly intense and caused people to feel a chill.

Momijigari, who was in charge of the devil army, landed on the defensive walls dressed in red armor. She drew two sabers and gave a wicked smile as she rushed at the soldiers. Her sabers sent out countless sabre lights, and the soldiers were unable to resist at all and fell at her hands.

轰轰轰...

The countless splotches of blood on Momijigari's face caused her smile to look even more savage. She slashed out even faster with her sabers, causing limbs and blood to fly everywhere.

Great Qin's beasts also ferociously attacked the soldiers on the defensive walls. The 100 meter tall Corpse Soul Soldiers used their hammers to smash down, turning countless soldiers into meat paste. The countless Spiders used their knife-like legs to cut countless soldiers' bodies apart.

The Wyverns spewed out icy blasts and flames from the sky, and the Giant Wolves also rushed up and used their sharp teeth and claws to attack. The Nothingness Beasts appeared from behind the soldiers and madly attacked them.

With the cover of the devils and beasts, Great Qin's soldiers quickly scaled the defensive walls and started to fight with the Corpse Pall soldiers.

In just a few moments, the situation on the defensive walls became incredibly chaotic. Blood continuously flew everywhere and howls continuously sounded out. More and more people died, but most of them were from the Corpse Pall World. It seemed like the defensive walls would be taken at any moment.

Boom! Boom! Boom...

Cold auras exploded out, causing the weather to change as everyone felt a chill on their backs. 60,000 to 70,000 soldiers made of mud that stood 100 meters tall appeared.

These soldiers were all dressed in armor and held weapons, and they looked as if they were alive. They attacked Great Qin's beasts, and the two sides quickly clashed.

Massive explosions sounded out as wild gales blew. The Corpse Soul Soldiers went to meet these mud soldiers in battle. They were also soldiers dressed in heavy armor, and the battle between the two sides was extremely shocking.

The mud soldiers were another card that the Corpse Pall World had prepared. They had collected Yin Beast Clay and made these mud soldiers to resist Great Qin's beasts and devils.

The mud soldiers were not weak and their bodies were as tough as steel. As the Corpse Soul Soldiers' swords landed on the mud soldiers' bodies, they only caused shallow wounds.

However, there were far too few of them; Great Qin's beasts and devils greatly outnumbered them. Each mud soldier was surrounded by a few beasts, and no matter how tough their bodies were, they were gradually smashed apart. Great Qin still held the advantage.

Zhao Fu stood in the sky, facing off against the Corpse Pall World's seven Legatees. Their expressions were all quite unsightly because their defensive walls had nearly been breached by Great Qin. Their soldiers were not a match for Great Qin's soldiers, and their experts could not resist Great Qin's experts either.

"What do you have to say? Will you submit to Us or choose to die?" Zhao Fu said with a confident smile, his voice filled with domineeringness as he looked at the seven people.

The seven Legatees felt furious but did not dare to attack because they knew clearly that they were not a match for Zhao Fu.

“轰!”

“咔嚓!”

Seeing that they were not replying, Zhao Fu's gaze became cold and his body blurred as he suddenly appeared in front of one of the Legatees.

That person's expression fell, and before he could react, his throat was grabbed by Zhao Fu and his body was lifted. That person didn't hesitate to release his Nation Armament's power, wanting to break free from Zhao Fu.

Boom!

A massive aura spread out from that person's body, but at that moment, Zhao Fu also unleashed his Nation Armament's power and a terrifying aura exploded out from his body.

Crack!

Zhao Fu twisted with his hand and broke the Legatee's neck. A genius, the ruler of a Continent, and someone who countless people looked up to, had been killed just like that.

Seeing this scene, one of the other Legatees became terrified and quickly ran. However, Zhao Fu slashed out with his sword, slashing that person into pieces.

In front of Zhao Fu, all of them seemed incredibly powerless. Zhao Fu was using his Nation Armament, which contained the power of four worlds and three Continents. How could they defend with just the power of one Continent?

The remaining Legatees were all scared witless and remained in place, afraid that Zhao Fu would kill them in the next second.

Chapter 1390: Battlefield

Shi Xiao's face was pale. Looking at those two Legatees who had just died, her heart was filled with terror; she had never thought that Zhao Fu's power was terrifying to such a degree.

Zhao Fu's gaze now fell on her body. She was the World Protector of this world, and if she submitted, everyone else would not be able to resist anymore and would submit too. Great Qin would be able to easily obtain the Corpse Pall World.

Shi Xiao hesitated, but a Legatee next to her, a beautiful woman, flirtatiously walked over to Zhao Fu and said, "Your Majesty, I, Shi Su, am willing to submit to you. I'm also willing to become your Concubine and serve you."

She understood that even if she did not say this, Zhao Fu would do this. After all, Great Qin did not let off any women who had Phoenix Qi, and she was also the ruler of a Continent. They had long since heard of how licentious Great Qin's Emperor was.

Rather than being passive, it was better to take the initiative. Not only would she be able to protect the people from her faction, but she might also be able to obtain a decent status in Great Qin.

Zhao Fu smiled and did not refuse, and he brought her into his embrace and Shi Su charmingly leaned against him.

Seeing Shi Su surrender, the other Legatees surrendered as well because they did not want to go on like this. In the end, Shi Xiao decided to submit as well.

Now that they had all surrendered, the soldiers below did not resist anymore and also knelt and surrendered. However, some leaders of factions were not willing and ran away with their forces.

However, the Corpse Pall World had already lost and now belonged to Great Qin. Zhao Fu gave the order to start attacking the inner regions of the Corpse Pall World.

Great Qin's soldiers were like a flood that charged towards the Corpse Pall World, causing the Corpse Pall World to fall into panic.

Everyone else heard that the Legatees and World Legatee had surrendered, so most of the Corpse Pall people obediently came out and knelt on the ground, waiting for Great Qin's soldiers to take over their Cities.

Some people chose to resist Great Qin and planned to fight to the death, while others ran into the wilderness and wanted to hide from Great Qin's soldiers.

Great Qin's soldiers quickly took over region after region, and because the Legatees had already taken over entire Continents, there were not many factions. As such, it was quite easy to clear out regions and there was only some weak resistance.

Zhao Fu handed this place over to Wang Jian and headed to another battlefield because the Devil Horn Empire was currently madly attacking Great Qin.

After hearing that Great Qin was attacking the Corpse Pall World, Yao Ming had immediately attacked Great Qin. The ferocious Devil Horn Empire had split into three armies, attacking Great Qin's three Continents in the three different worlds.

Facing the ferocious Devil Horn army, Bai Qi did not feel any fear at all, and he instead coldly laughed as he yelled, "Formation!"

噗噗噗...

Large ballistae were pushed out, and countless arrows and bolts giving off cold lights aimed at the Devil Horn soldiers. The Archers drew their bows and aimed at the countless devil beasts and soldiers.

The Devil Horn soldiers were like a green tide that seemed to be able to devour anything. Yao Ming greatly wanted to take down these three Continents, so he had sent even more soldiers than last time.

Yao Ming looked at how ferocious his army was and smiled. Even if he was not able to conquer the three Continents, he would definitely be able to stop Great Qin from conquering the Corpse Pall World.

"Fire!" A cold voice sounded out as all of Great Qin's soldiers shot out arrows at Bai Qi's command. The arrows were innumerable and blocked out the sky, and the sounds they gave off made it seem as if the sky was going to be torn apart.

Swish, swish, swish...

Countless arrows tore through the sky and descended like a torrential rain. Facing this rain of arrows, the Devil Horn soldiers and devil beasts felt a terrifying chill and could not help but feel afraid.

They unleashed their abilities to defend; the Devil Horn soldiers at the front worked together to create a semi-spherical defensive barrier while the devil beasts created large winds to defend against the arrows.

However, they were left disappointed. The arrows easily pierced through their defenses and tore through their armor. The winds that the devil beasts summoned were also unable to deflect the arrows.

Chi, chi, chi...

The sounds of arrows stabbing into bodies could be continuously heard as waves of Devil Horn soldiers collapsed to the ground. Countless powerful devil beasts, whether they flew in the sky or ran on the ground, also collapsed with countless arrows sticking out of them.

Even the Devil Horn Empire's most powerful King Devil Beast, the Azure Dragon King, was hit by a 100 meter long bolt and fell to the ground, severely injured.

Corpses littered the ground and blood ran everywhere as the surroundings fell into a deathly silence. The ferocious Devil Horn army immediately stopped.

Yao Ming looked incredibly confused; he had never thought that things would turn out like this. Looking at so many dead soldiers and devil beasts, he immediately gave the order to stop attacking.

A powerfully-built General reported, "Your Majesty, their arrows seem to contain something that counter our armor. We should temporarily retreat, or else even more people will die."

After that General spoke, another soldier came to report, "The Corpse Soul World has been conquered by Great Qin!"

Yao Ming angrily cursed. They had been tricked by Great Qin's plot and Great Qin had already conquered the Corpse Pall World. As such, he could only give the order to retreat to the Devil Horn Empire.

Following this, Yao Ming immediately ordered people to research the arrows that Great Qin had used. They found out that they had Outer World materials added to them, which was why they had been so powerful. Hearing this, Yao Ming ordered people to find ways to neutralize them; they could not be continuously suppressed by Great Qin.

Zhao Fu came over and saw that nothing much had happened on this battlefield, and the Devil Horn Empire had quickly retreated, making him feel quite disappointed.

He then left things here to Bai Qi and had him deal with matters here. Having just conquered the Corpse Pall World, there were many things to take care of there, so he headed back.

Zhao Fu arrived at a Royal City, where there were many corpses hung up on the walls. There were men and women, elderly and children. Their necks were at angles and their eyes were wide. They had different expressions: anger, reluctance, and fear, looking quite wretched.

A Great Qin soldier tied a noose around a young man's neck and kicked him off. The other side of the rope was tied to the City Walls, and as the young man fell, the rope went taut, breaking his neck.

These people were all people who had resisted, and some were their family. They were all executed, no matter their gender or age.
