

The Lord 1421

Chapter 1421: Treasury

Hearing these six terrifying roars, everyone was certain that this was the same Nether Emperor Star as before. They had never expected that this person who already had such a terrifying Emperor Star would have four in total.

No one could imagine such a thing, and no one would believe that this was true without seeing it for themselves. It seemed that they had unintentionally stumbled across a massive secret.

Within Zhao Fu's body, the elder was incredibly shocked as he looked at the four Emperor Stars in the sky. Emperor Stars had massive amounts of Fate, so if he tried to take over Zhao Fu's body, he would suffer a terrifying Fate backlash. What's more, there were four Emperor Stars.

Even if the elder used to be a higher-being, he cried out in fear, "Boy! Wait, maybe we can resolve things peacefully."

Zhao Fu's heart was cold and his eyes were filled with killing intent, as he did not trust this elder, nor did he have the ability to control him. If he did not kill him now, there would be endless trouble in the future.

Boom!

The four Emperor Stars gave off intense starlight, forming four pillars of starlight that gave off immense power and terrifying sounds as they landed on Zhao Fu's body.

Massive amounts of Emperor Star power flowed into Zhao Fu's body, and under the assault from this power, the elder screamed before going silent. The green ball of flames dissipated, and Zhao Fu quickly devoured that power.

A while later, Zhao Fu once again opened his eyes, and his eyes shot out a ray of green light. Zhao Fu smiled – his cultivation had reached the Earth Realm and he had preserved a trace of the higher-being's source energy.

This trace of the source energy was very weak and much of it had been used up by the elder and also been weakened by the Emperor Stars' Fate. However, a benefit was that Zhao Fu obtained some of the elder's memories, as well as some of the skills he had used.

Hearing the sounds of fighting outside, Zhao Fu called out, "All of you stop!"

Both sides immediately stopped fighting and looked at Zhao Fu. Shang Long and the others did not know what had happened, and since Zhao Fu had told them to stop, they stopped fighting. The other side was not certain if the one speaking was Zhao Fu or their master.

However, because there was a possibility that it was their master, they still stopped and looked at Zhao Fu with suspicion. After all, the process of the elder trying to take over Zhao Fu's body had not gone smoothly and might have failed.

Facing their suspicious gazes, because Zhao Fu had absorbed some of the elder's power and memories, he acted like the elder and gave off his aura, saying, "I am Ming You!"

Hearing this, they were at ease because the aura Zhao Fu gave off, the way he spoke, and his demeanor belonged to their master.

Shang Long did not panic because the restrictions left within his body were still present. This meant that Zhao Fu was fine, and because he did not know what had happened, he gave off a confused expression.

The cold and beautiful woman walked to Zhao Fu's side and coolly called out, "Father!"

Zhao Fu now knew what this woman was called. She was called Ming Lengxuan and had once been the Crown Princess of the Nether Spirit Empire. Hearing her call out, Zhao Fu smiled and nodded.

Five extremely beautiful women also came to Zhao Fu's side and called out flirtatiously, "Your Majesty!"

There was one who had a voluptuous figure and had a graceful and sumptuous aura; she was the Empress of the Nether Spirit Empire, You Yue. There was also a tall and slim woman who gave off a seductive aura, and she was a Senior Concubine called Yin Huaye. There was also a fiery-figured, lewd-looking Concubine called Gong Danduo.

The remaining two were also Concubines. One was quite slim and gave off a noble and virtuous aura, and she was called Hua Xuan. The other had a mature figure and gave off a gentle aura, and she was called Ye Fang.

Because Zhao Fu had obtained some of the elder's memories, he knew some things about the Nether Spirit Empire. The Nether Spirit Empire had been a real Empire but had been destroyed, and it had been by a few of the most terrifying factions in the Underworld.

Back then, only a small portion of people from the Nether Spirit Empire had hid into the historical remnant and turned into Nether Spirits, allowing them to live until now.

The Emperor of the Nether Spirit Empire, that elder, had only left behind a very weak trace of his remnant soul, as the large factions definitely would not have spared him. Keeping this trace of his soul was already a miracle.

That was why there were so few Concubines and soldiers. Moreover, in the fight before, many of them had been injured or killed. This was because in order to keep living, their power had greatly declined, or else they would not have been able to live for so long.

On Zhao Fu's side, Gui Ji was now an Emperor Heaven Realm expert and You Qinglan was also extremely powerful, while the others weren't weak either.

Right now, they could only hope that their master had taken over Zhao Fu's body, or they would all die; they were not a match for Zhao Fu's side at all.

"Your Majesty, now that you have a real body, you need to properly show us love," the fiery-figured Gong Danduo hugged Zhao Fu as she said thirstily.

As the Emperor of the Nether Spirit Empire, the elder was quite licentious and originally had over 1,000 Concubines, but he had only kept five of them. Before, they used to do it with the elder every day and had great needs that needed to be satisfied.

Even the dignified Empress You Yue's eyes looked quite hazy as she looked at Zhao Fu with her beautiful face.

The Passion Desire Flowers on the fourth level were nurtured by the elder, and he had used many Passion Desire Pearls to take many women.

Zhao Fu looked at the beautiful women and did not mind. He brought them into a room and called over Ming Lengxuan as well.

Under Zhao Fu's body, the five women became incredibly lewd, and Zhao Fu then started to ravage Ming Lengxuan without showing any mercy at all. Zhao Fu did not hold back because this woman had tried to harm him, so she had to be punished.

"Father, I was wrong!" In the end, Ming Lengxuan cried out and begged for mercy; only then did Zhao Fu let her off.

Even despite Zhao Fu ravaging her, she did not realize Zhao Fu's identity because her father had violated her in the past, which was why she was cold and showed such repulsion towards men.

After doing it with them, Zhao Fu went to find his own group of women.

Only then did You Yue and the other women realize Zhao Fu's identity. Their man had not taken over Zhao Fu's body, and he had instead been killed by Zhao Fu.

They looked quite sad but did not do anything, as Zhao Fu had set down restrictions in their bodies. Moreover, they had felt great pleasure from doing it with Zhao Fu.

"Get up and take me to the Nether Spirit Empire's treasury," Zhao Fu put on his clothes and said coldly as he looked at the sobbing Ming Lengxuan. The Nether Spirit Empire had preserved a small portion of its treasures, but they would still be quite useful to Great Qin.

Because Zhao Fu had only obtained a portion of the elder's memories, he did not know the exact location of the treasury or how to open it, so he asked Ming Lengxuan.

Chapter 1422: Sealing Heaven Suppressing Earth Formation

Ming Lengxuan's face was covered with tears because she had just been ravaged by Zhao Fu and felt completely strengthless. She looked incredibly weak and pitiful, and she found it quite hard to put on her clothes. After getting off the bed, she took a few steps before almost falling to the ground.

Zhao Fu stretched out a hand and caught her; he felt that he had been a bit too rough on her. Seeing how pitiful she looked, he asked caringly, "Are you alright? If you're not feeling well enough, just stay here and tell me where the treasury is and how to open it."

Ming Lengxuan looked at the man who had just ravaged her showing care to her, and she could not help but burst into tears. It was because Zhao Fu had just ravaged her and because her father had violated her in the past, so she felt quite wronged and upset.

Now, she no longer had to fear Zhao Fu, and she hugged Zhao Fu as she wailed, her tears soaking Zhao Fu's clothes.

Zhao Fu did not understand why she was crying, nor did he know how to comfort her as he had never really comforted women before. All he could do was lightly hug her.

Only after a while did Ming Lengxuan stop crying. She looked at Zhao Fu with her red, puffy eyes and said, "I'm sorry, it was me who tried to harm you, so I deserved that. You don't need to treat me well."

Zhao Fu understood what she meant, but he knew what had happened. It was the elder who had forced her to do that, and he had used her as a material for casting a forbidden art.

轰隆隆...

He had only treated her like that because he had been quite angry and had vented his anger out on her. However, Zhao Fu did not have time for this right now. He picked up Ming Lengxuan and flew into the sky, and he had her tell him where the treasury was.

Lying in Zhao Fu's embrace, Ming Lengxuan looked a bit embarrassed and pointed in a direction, and she told Zhao Fu about some key traps and they soon came to a secret room.

There was a pair of silver doors ahead, and they were ten or so meters tall. There were many ghosts carved on them and they gave off an enormous aura. There were no keyholes, but it was evident that they could not be pushed open.

“Husband, these doors can only be opened by people with our imperial bloodline. Otherwise, even ordinary higher-beings would not be able to blast them open,” Ming Lengxuan explained as she shyly lay in Zhao Fu’s embrace.

Hearing this, Zhao Fu smiled. Since the door was so difficult to open, it meant that the things inside were very precious.

Zhao Fu came to the doors and Ming Lengxuan pressed a hand against the silver doors, and a wave of power entered.

Rumble...

The massive silver doors gave off faint silver light before starting to move by themselves and opened up.

Just as the doors opened, the lights of the treasures within could be seen. Zhao Fu hugged Ming Lengxuan as he walked in and felt quite shocked as he looked at the treasures. As expected from the treasury of an Empire; even though it was just a small portion, it was still quite shocking.

Firstly, there were mountains of gold coins, and there were at least trillions of gold coins in total. There were hundreds of thousands of Legendary grade equipment, tens of thousands of Epic grade equipment, thousands of Saint Armaments, and all sorts of other precious treasures.

Moreover, those were only the ordinary treasures. There was a stone stage within the treasury, on which there were five boxes. The boxes were made of gold and socketed with all sorts of precious gems, and they looked incredibly valuable.

Zhao Fu put down Ming Lengxuan, who had regained some of her strength and could lean against Zhao Fu. He opened a treasure box and a gray jade appeared in front of him.

The gray jade was 15 centimeters long and was rectangular. There was a life-like ghost dragon engraved on it, and it gave off a faint light and felt abnormally cold.

Zhao Fu looked at its information and found that this was the Nether Spirit Empire's Art Legacy Stone. The Nether Spirit Empire's Art was Saint grade, which was a rare, top-tier Art, and it required a vessel to cultivate.

However, anyone who had this jade could learn the Saint grade Art. However, the prerequisite was that one had to have the Nether Spirit Empire's imperial bloodline and it had to be a pure bloodline.

This was incredibly important to the Nether Spirit Empire but Zhao Fu was not interested in it at all, as he did not have the Nether Spirit Empire's bloodline. Only Ming Lengxuan had the imperial bloodline.

Zhao Fu put this away for now and opened the second treasure box, revealing a silver-colored hexagonal metal. It gave off a faint silver light and contained a powerful Yin energy.

After looking at its information, Zhao Fu felt incredibly delighted because this metal was a Yin Soul Beast's heart, and a top-grade heart at that. It was something necessary for nurturing Yin Soul Beasts, and with it, Zhao Fu could nurture even more Yin Soul Beasts and cause Great Qin to have more Stage 2 soldiers.

Zhao Fu opened the third treasure box and a command medallion was revealed.

This command medallion was as big as a palm and was black and seemed to be made of wood. There was a moon carved on it and it gave off dense demonic qi.

After looking at its information, Zhao Fu found that it was a historical remnant's command medallion and could open a historical remnant.

Zhao Fu remembered the words the elder had said to him before, that there was a historical remnant in the Demon Domain. Before, he had thought that the elder was lying to him, but it turned out that this was true, and this command medallion could open it.

The item in the fourth treasure box was a small bottle that was as big as one's thumb. Zhao Fu was not sure what it was.

Looking at its information, he found that it was a Ten Thousand Year Yin Liquid that could be used to nurture flowers and cause flowers to grow faster by about 3,000 years. He could use this to nurture the Dark Night Flower.

Zhao Fu felt that these things were all incredibly useful and corresponded to the rewards from before. Could it be that the elder had never given these things out?

“轰!”

The final treasure box contained a round jade dish that was covered with runes and looked quite profound.

After looking at its information, Zhao Fu was quite shocked, because this was a magic formation that could rival the Six Great Heaven-Defying Magic Formations. If it wasn't for the fact that creating it was extremely difficult and the ingredients were all quite difficult to obtain, it would definitely be the seventh Heaven-Defying Magic Formation.

This formation was called the Sealing Heaven Suppressing Earth Formation. It could seal Fate, lock Heaven's Secrets, and separate the heavens and earth. As such, it required thousands of Nation Armaments to create, as well as refined Nation Armaments.

If this magic formation was set down, one's world would become independent of the Heaven Awaken World and would no longer be bound by the restrictions of the Heaven Awaken World. Its Fate would not decline and its Heaven's Secrets would be locked, making it impossible to divine its location.

This magic formation could allow one's world to not be restricted by the Heaven Awaken World; even Celestials could not escape from the control of the Heaven Awaken World, which showed how terrifying this magic formation was. As expected from something that could rival the Six Great Heaven-Defying Magic Formations.

Boom!

Suddenly, this space violently trembled and Zhao Fu's face fell as he sensed people on the outside attacking the historical remnant. The power was incredibly monstrous, or else there would not be such a violent reaction.

Zhao Fu did not hesitate and put away everything in the treasury, and he took the others to leave this place. Given the shaking of this space, it seemed that the historical remnant would not last for very long. Zhao Fu would not be able to resist people with this kind of strength.

However, Zhao Fu felt quite troubled because there would definitely be a big group of people guarding the entrance. How could Zhao Fu and his group escape?

“Husband, this historical remnant has two secret passage in case something like this happens,” Ming Lengxuan said in Zhao Fu’s embrace.

Zhao Fu felt delighted and looked at everyone around him as he said, “We’ll leave immediately. Remember, safety is the most important thing.”

Hearing this, everyone nodded.

Following this, Zhao Fu and his group followed Ming Lengxuan and came to a secret passage, and they stepped onto a teleportation channel.

Not long after Zhao Fu and his group left, a massive explosion sounded out as a few large cracks appeared in the space within the historical remnant. The aura from outside flowed in as the historical remnant was forced open, and ten or so people appeared in the sky.

These ten or so people gave off terrifying auras and were all undoubtedly higher-being level people. When the elder had released his source energy, the higher-beings had sensed this, and some had enmity with the Nether Spirit Empire.

However, more people were drawn over by the four Emperor Stars. They had personally seen those four Emperor Stars and were incredibly shocked. This was especially so because of the Nether Emperor Star’s relationship with the Underworld’s sovereigns, the Six Paths Demon Images.

After blasting open the historical remnant, they searched everywhere within it but did not gain anything, and they could only leave in disappointment.

News quickly spread throughout the Underworld, and everyone was shocked to hear that a person could have four Emperor Stars. Moreover, they included the Human Race's Emperor Star, the Death Race's Emperor Star, and the Devil Race's Emperor Star; was this really possible?

After hearing about this news, the Underworld's various large factions gathered together to discuss it.

Within the Yama family, many Yamas wearing dragon robes and crowns with savage expressions gathered together. The Yama family was a top-tier faction in the Underworld, and it was even stronger than the Black and White Impermanence family.

A cold-looking Yama said to the others, "What kind of person has three races' sovereign stars? Doesn't this mean he has the supreme bloodlines of three races? Moreover, his Nether Emperor Star has appeared twice and gives off a massive aura of suppression. I'm afraid that he is the Yama family's greatest enemy."

A chubby Yama frowned and said, "The Underworld has nine Nether Emperor Stars in total, and they're split across various large factions. This Nether Emperor Star does not belong to the Underworld and is connected to the Six Paths Demon Images. Each time it appears, it causes immense rage from the Six Paths Demon Images. I'm afraid that this person will cause a catastrophe in the Underworld."

Another Yama said seriously, "I agree with this. No one in history has been able to make the Six Paths Demon Images so enraged. If he can really make the Six Paths Demon Images go out of control, countless creatures in the Underworld will die."

A skinny Yama said earnestly, "We should find this person and investigate his identity. If we can use him, he can remain; if there's no use for him, we must kill him."

Within the Black and White Impermanence family, people dressed in black and people dressed in white sat within a palace, giving off powerful auras, and a group of people knelt below.

A White Impermanence sitting above said coldly, "You still haven't found that person? How useless. We ordered you all to find him last time, but even with a clear location, you could not find him."

A Black Impermanence laughed, saying, "That person isn't ordinary; how can he be found so easily? Just the fact that he has four Emperor Stars and his mysterious aura make it so that any

higher-being would be interested in him. I heard that en or so higher-beings personally went, but they could not find him.”

A Black Impermanence frowned, “I don’t know why, but I feel very unsettled. I feel that person is connected to our Black and White Impermanence family somehow. I don’t know if this is correct or not, and whether it’s fortune or disaster for us.”

A handsome White Impermanence lightly laughed and said, “You don’t have to worry so much; that person only has a lot of potential but he’s still weak and can’t pose a threat to us. If he’s good enough, he can marry into our family.”

The Meng family was another top-tier family in the Underworld, and their legacy came from Old Lady Meng. They had incredibly strange abilities, and they had a matriarchal system. The women had the purest bloodlines and had immense power, and it was rare to have male babies.

Within a hall, many women sat together, and a woman with a bewitching figure said as she smiled, “Heavens, someone with three races’ supreme bloodlines? If he marries into the Meng family, just how powerful will his children’s bloodlines be? It’s simply unimaginable.”

Another alluring woman nodded, saying, “That’s right, it’s almost impossible to have the sovereign bloodlines of three races; I wonder how that person achieved it. I feel that that person’s bloodline is at least a Divine Bloodline.”

A mature-figured woman said, “I agree, his bloodline is most likely a Divine Bloodline. If we can get him to marry into the Meng family, the daughters he has will definitely be able to become Celestials with our full support.”

A beautiful woman said, “We need to search everywhere for that person, but who knows where he ran off to? He’ll be quite difficult to find.”

Within a Buddhist hall, there were people dressed in monk clothes, but they had hair. They sat cross-legged and all gave off powerful auras; everyone here was a powerful expert.

This was another powerful faction in the Underworld and they were stronger than even the Yama family by a bit – this was the Ksitigarbha family.

A kindly-looking old man said worriedly, "This person's main star is the Chaos Star and the three races' Emperor Stars are subsidiary stars. This person will most likely cause catastrophes in the future, and he is a disaster rather than a blessing to the world."

A cold-looking and handsome young man said, "What everyone is worried about is the three races' Emperor Stars and have overlooked the Chaos Star. What they don't know is that the Chaos Star is the most dangerous thing. This person cannot be allowed to stay alive; we need to kill him at all costs for the sake of all creatures."

A bearded middle-aged man said in agreement, "Mm, I agree. Everyone, don't forget about the Six Paths Demon Images. This person's power has not matured yet, but he can still cause such disasters. If he is allowed to grow, things will become even more terrifying."

A gentle-looking man said in support, "Everyone, you all know how terrifying the Six Paths Demon Images are and know that they are furious towards this person. We absolutely cannot allow him to continue to grow and must kill him immediately."

Chapter 1424: Xie Yue

As the various factions were discussing these matters, even more information traveled to their ears. Having four Emperor Stars was unheard of, and soon they found out that the four Emperor Stars had descended in the Heaven Awaken World before.

Moreover, they had descended one by one and had caused great disturbances in the Heaven Awaken World. Many factions in the Heaven Awaken World had taken note of this and were trying to find this person as well.

After hearing about this, the Underworld factions realized that this person was not some nameless person; he had also caused great commotions in the Heaven Awaken World. No wonder he had caused such great commotions when entering the Underworld.

Now, the Underworld factions were even more curious about that person's identity. Even an idiot would understand how terrifying that person would be in the future. He would definitely become someone whose name would shake history.

Some people even wanted to keep that person in the Underworld. Since that person had the Death Race's sovereign bloodline and supreme Emperor Star, he could be counted to be part of the Underworld. It would be better for him to work for the Underworld and not return to the Heaven Awaken World.

After hearing that that person had caused many disturbances in the Heaven Awaken World as well, the Underworld factions became even more eager to find him.

By now, the Ksitigarbha family had unanimously agreed to kill that person. However, they would not stupidly reveal this because that person was already a threat. If they dumbly revealed this, they would not benefit at all and would be viewed hostilely by him.

In fact, the family might suffer losses because of him, so they would not reveal this information. They would do everything secretly and not act unless they were certain of success.

Zhao Fu did not know about any of this. The secret passageway's teleportation channel could transport a great distance, as it was specifically built to avoid higher-beings.

Everyone's bodies blurred and their surroundings disappeared before they reappeared elsewhere. Because of how far they had traveled, they felt a bit dizzy and sick.

Zhao Fu was the least affected, and looking at the people around him, he asked with concern, "Are you all alright?"

Everyone stayed where they were for a while, and soon they had recovered. They nodded to show that they were fine.

Following this, Zhao Fu planned to lead his group ahead, as he felt that this place was not safe. It was possible that some people would follow them here, so they could not stay here for long and had to leave as soon as possible to avoid anything unexpected.

"Husband, there are people there." You Qinglan, who was hugging Zhao Fu, pointed towards the right as she spoke.

Zhao Fu looked over and saw that there was a pavilion on a hill, where seven people with extraordinary bearings were talking and laughing.

Sensing their auras, Zhao Fu's expression became quite serious, as these people's cultivations were all extremely powerful. He did not know where he had been transported and he did not want to make any trouble, so he said, "Don't mind them; let's hurry and leave this place."

The others nodded and made to leave.

However, the people in the pavilion had already noticed Zhao Fu and his group, and a muscular and crude-looking young man laughed as he said, "That boy's quite lucky, bringing around so many beautiful women. Two of them are as beautiful as goddesses; I'm so envious."

A handsome young man next to him lightly laughed and said, "You must be joking, brother Yan. With your identity, you only need a single sentence and countless women will offer their bodies to you; why do you admire him?"

"Qing Ya, three of them are women from your family," an extremely beautiful woman with a mature figure said.

The woman referred to as Qing Ya was dressed in white and was also extremely pretty. Her hair was half white and half black, and she calmly glanced over as she said softly, "Mm, I don't know which branch family they're from; I don't have any impression of them."

One of them, a fair-looking young man dressed in monk clothes looked a bit serious as he said, "I feel that person is not ordinary and gives off a dangerous aura; it's also quite inauspicious and disastrous."

"How about we call him over and ask him who he is? I'm a bit curious about him, and I've never met someone like him in the Underworld before," a young man dressed in green dragon inscription robes and said as he laughed, giving off a noble aura.

"Haha, why not? With our identities, him meeting us is his glory. I'm somewhat interested in his women," a violet-clothed, somewhat evil-looking young man said as he laughed.

“唰”

Following this, he spoke in a loud and arrogant voice, “Do you people know who we are? Hurry up and kneel and pay your respects.”

Hearing this, Zhao Fu slightly frowned. He was not interested in these people and prepared to fly into the sky.

Seeing that his words had been ignored, the evil-looking young man felt quite furious and the others felt quite confused; in the Yin Domain, there was almost no one who did not recognize them, yet that person dared to ignore them. Perhaps he was someone from the Inner Domain who did not recognize them.

The evil-looking young man said coldly, “I am the Xie family’s Xie Yue. Hurry up and kneel and apologies, and have your women serve me for a night and I’ll spare your life.”

Now, Xie Yue had given out his name. Almost everyone knew of the Xie family, and ordinary people who heard his name would have already knelt in terror.

The others had calm smiles; even if that person’s family was powerful, facing a top-tier family from the Yin Domain, he still had to submit. They were waiting to see how that person would react, but they knew that no person would not prostrate themselves.

“Scram.” His reply was a single word, and it was incredibly powerful. This caused everyone else to look confused, while Xie Yue was infuriated.

Swish!

“砰”

“轰”

Xie Yue pointed out with his finger and a violet aura flowed out, turning into a violet tentacle. It contained ferocious power as it shot towards Zhao Fu incredibly quickly, reaching him in an instant.

Bang!

Zhao Fu took out the Sadistic Killing Sword and slashed out a sharp sword light. It slammed into the tentacle and caused it to explode, turn into countless traces of Yin Qi, and dissipate.

Everyone was quite surprised; they were all Divine Realm experts, and their attacks definitely could not be easily blocked by someone with Earth Realm Cultivation. Seeing this, they felt even more interested in Zhao Fu.

Xie Yue looked furious and drew a sword, releasing a massive aura as he turned into a ray of light and shot towards Zhao Fu.

Seeing Xie Yue rush over, Zhao Fu turned to the others and said, "Hurry and leave this place. Head towards the location before."

The women wanted to say something, but Zhao Fu went to meet Xie Yue. In order not to make trouble for Zhao Fu, they could only leave this place.

Boom!

Xie Yue swung his sword and a devilish violet sword light slashed out towards Zhao Fu. Zhao Fu also slashed out a sword light, and as they collided, a massive explosion resulted.

Chapter 1425: Impermanence

"Shameless. You're only my match after using your Nation Armament," Xie Yue said condescendingly as he looked at Zhao Fu mockingly.

Zhao Fu did not bother responding to him because they were on completely different levels. The World Realm only had a basic control over Heaven and Earth Power, while the Divine realm could control the power of three worlds. If Zhao Fu did not use his Nation Armament, Zhao Fu naturally would not be a match for him.

However, his goal was to escape from this place, so Zhao Fu did not focus on him.

Boom!

The six gray dots in Zhao Fu's right eye quickly spun and his cross-shaped pupil also spun. A massive wave of Yin Qi flowed out of his eye and seemed to cover the sky, and the surrounding aura became cold and chaotic.

"Roar! Roar! Roar..." Countless ghosts were formed from the Yin Qi and gave off terrifying roars as they savagely looked at Xie Yue, and they rushed towards him like a flood, wanting to devour him.

Sensing the aura that Zhao Fu gave off, the other people's bodies froze and they looked shocked as they looked at each other.

Facing this massive tide of ghosts, Xie Yue also looked quite shocked. A violet snake appeared on his arm, and Xie Yue swung his sword and the snake's body expanded, opened its massive mouth, and exploded out with a suction power and devoured the incoming ghosts.

The snake was incredibly ferocious and extremely fast, and it agilely moved about, devouring everything in its way, making it so that no ghosts could get close.

However, Zhao Fu had summoned far too many ghosts and Xie Yue was unable to get rid of them all, and Zhao Fu prepared to use this opportunity to get away.

However, just as Zhao Fu was about to move, the other people from the pavilion blocked his path.

Zhao Fu frowned and asked coldly, "What is the meaning of this? Why are you stopping me? Are you helping him?"

The crude-looking young man was the first to speak. He laughed as he said, "Don't misunderstand, that's something between the two of you and we won't interfere. However, we're quite shocked at how you have the Six Paths of Reincarnation Power. Can you please tell us? I am the Yama family's Yan San."

The next to speak was the handsome-looking young man. He smiled as he said, "I am the Tai family's Tai Liuwen. I am also extremely interested in sir's Six Paths of Reincarnation Power. If you can tell us how you obtained this power, we will be extremely grateful."

The mature-figured and beautiful woman said flirtatiously, “Sir, you should know that the Six Paths of Reincarnation Power is a supreme power in the Underworld. If you can give this kind of power to me, I can guarantee that you will be able to live your whole life free and unfettered. My name is Meng Yao.”

“Hmph, with your status, you don’t deserve to have this kind of power. Hand it over or tell us how you obtained it, and I can spare you from death.” The noble-looking young man threatened in a cold voice. He was Hades Empire’s Ming Di.

The young man dressed in monk clothes was called Di Ming. He did not say anything and looked at Zhao Fu seriously.

Last was the beautiful woman with half white and half black hair. She was from the Black and White Impermanence family and was called Bai Qingya. She smiled as she said, “I feel that you staying behind is beneficial to everyone; I advise you to stay.”

Zhao Fu coldly looked at everyone and felt a trace of fury. He put away the Sadistic Killing Sword and equipped the Emperor Killing Sword.

The instant Zhao Fu took out the Emperor Killing Sword, the expression of Di Ming, who had not said anything, suddenly fell and he said, “That sword is a sword of disaster and chaos. All of you be careful.”

Shing!

As he spoke, Zhao Fu sent his Divine Bloodline’s power into the sword and a massive sword hum could be heard, tearing through the sky. An incredibly sharp and terrifying sword intent madly flowed out, forming a sword storm.

The heavens and earth seemed to dim, and under this aura, the seven people felt a chill in their hearts, and their hair stood on end.

Boom!

At that moment, Zhao Fu slashed out and an enormous black crescent containing destructive power flew out, seeming to slash apart the heavens and earth.

The others were greatly shocked and they exploded out with their power, and they hurriedly unleashed defensive barriers.

Bang! Bang! Bang...

The massive black crescent sent the others flying back over 1,000 meters, and it caused the surroundings to become deathly silent.

The seven people now looked quite afraid, as their defensive barriers were covered with cracks. If they had not reacted in time or had been careless, they might have died from that attack.

Zhao Fu did not want to continued being tied up by them, and he turned into a ray of light and shot over the horizon.

“Earth Sealing!” Di Ming looked at Zhao Fu and put his palms together as he spoke with a Buddha-like voice.

Clang! Clang! Clang...

Black chains shot out of the ground, containing terrifying power as they shot towards Zhao Fu; there were hundreds of thousands of them.

Facing the countless chains, Zhao Fu slashed out with his sword and a sharp sword light flashed out.

Shing!

A clear sword hum sounded out as the chains shooting towards Zhao Fu were all cut apart, and they fell like rain.

However, a person now blocked in front of Zhao Fu; it was Xie Yue. He raised his sword and hacked towards Zhao Fu.

Sss!

The massive violet snake gave off an ear-piercing hiss, opened its terrifying mouth, and bit at Zhao Fu like a bolt of lightning, wanting to devour Zhao Fu.

Zhao Fu coldly harrumphed and the Emperor Killing Sword gave off an intense sword light. The moment that the snake was about to bite Zhao Fu, he slashed out.

Boom!

The air around him seemed to explode as countless traces of black sword light shot into the surroundings. The violet snake exploded under Zhao Fu's attack and turned into countless traces of violet aura that dissipated and created a violet wind.

"Impermanence!" Bai Qingya looked at Zhao Fu as she lightly cried out and she rapidly performed hand seals with her hands, and a strange aura flowed out.

Immediately, Zhao Fu felt a chill on his back as two ten meter tall figures giving off enormous eerie auras appeared behind him.

It was a Black Impermanence and a White Impermanence, and two pairs of eyes coldly looked at Zhao Fu. They raised their staffs and slammed down towards him with immense power, causing the air to explode.

Clang, clang, clang...

In that moment, the golden pupil in Zhao Fu's left eye quickly spun, and golden chains shot out from the air, binding up the Black and White Impermanences behind Zhao Fu and dragged them into the sealed space, not giving them any opportunity to resist.

"Ten Thousand Ghosts!" Ming Di waved a black flag and countless traces of ghostly qi flowed out, turning into countless ghost. They gave off ferocious auras as they sprang at Zhao Fu; there were millions of them and gave off massive sounds.

However, Zhao Fu merely turned his head and a gray vortex appeared in his right eye socket. An enormous attractive force rushed out, and the countless ghosts were sucked into Zhao Fu's eye.

Chapter 1426: Startling the Underworld

After blocking Ming Di's attacking, he did not continue wasting time with them. He turned into a ray of light and shot off because his goal was not to fight with them but to leave this place.

"Ghost Door!" Yan San roared as he held out a hand and a black rune appeared on his palm, and massive amounts of Yin Qi shot to the sky.

Boom!

An explosion sounded out as a terrifying aura flooded out, and a 1,000 meter tall stone door giving off an aura of suppression blocked in front of Zhao Fu.

"Dark Spear!" Meng Yao cried out and performed hand seals with her hands as a massive cold aura flowed out. A gray hole appeared behind Zhao Fu from which traces of ghostly qi flowed out. A massive spear covered with ghostly inscriptions gave off terrifying power as it shot out, seeming to be able to pierce through everything.

Shing!

Zhao Fu spun and slashed out, and a black sword light bringing with it a sword wind flew towards the incoming spear.

Boom!

A massive explosion sounded out as the two attacks collided and exploded. Light burst out and a terrifying shockwave rippled out, causing the ground to crack and countless trees to be obliterated.

Zhao Fu once again spun and looked at the 1,000 meter tall stone door giving off a powerful aura. He raised his left hand and clenched his fist.

His left first became pale, without a trace of color, and the muscles on it bulged. Violet scales appeared on it and it became a claw. A wave of Reincarnation Power spread out as a might heavily landed on all nearby creatures' bodies.

Sensing this Reincarnation Power, Yan San's face became pale and he felt a chill in his body and soul, and his body froze.

Boom!

Zhao Fu punched out with his left hand, slamming into the 1,000 meter tall stone door. A massive sound rang out as the door crumbled and turned into broken rocks that shot out everywhere.

Zhao Fu's body turned into a ray of light and shot over the horizon, unstoppable by anyone.

Yan San and the others stood where they were, staring in the direction that Zhao Fu had disappeared in. The surroundings were in complete disorder, and their expressions were quite unsightly after the seven of them were unable to stop a single person.

Even though the other person had used a Nation Armament, their cultivations were far higher than his. If they had had the same cultivation as him, they most likely would have lost, and they could not accept such a thing.

After all, with their statuses, they stood at the peak of the Yin Domain. They had oceans of resources to support them, yet that person was stronger than them.

Of course, there were many things that they had not used in that fight, and they were not weak at all. It was just that the seven of them had not been able to keep that person here, making them feel like they had taken a big blow to their confidence.

A while later, they came back to their senses, and Meng Yao said, "Do none of you know who that person is? Where did such a terrifying person jump out from? He's comparable to some of our seniors."

Tai Liuwen sighed and said, "We were overconfident and thought that we could disregard everything because we come from the Underworld's top factions. Now, we know that there's someone even more powerful than us."

Hearing Tai Liuwen's words, Yan San lightly laughed as he said, "That person is indeed incredibly powerful. No wonder he can control the Six Paths of Reincarnation Power. I'm somewhat convinced by him."

"Did you all not notice his last attack? That was Reincarnation Power, and only someone with the Six Paths of Reincarnation Bloodline can use it," Di Ming said with a serious expression.

Hearing this, the others fell silent. Having Six Paths of Reincarnation Power was already unimaginable, and a Six Paths of Reincarnation Bloodline was something that they did not even dare to think about.

At the same time, they felt curious as to just who Zhao Fu was. Now that they thought about it, his identity definitely would not be below theirs.

Xie Yue's expression was the most unsightly because he had started a fight with Zhao Fu and had the greatest grievance with Zhao Fu. However, the good thing was that the others had been dragged in as well, and he would not have to bear the consequences by himself.

Boom! Boom! Boom...

Suddenly, terrifying might descended, making it seem as if the entire world had been locked down. Yan San and the others' expressions fell, and they understood that there were higher-beings descending.

With their identities, they did not have to fear higher-beings, because ordinary higher-beings would not dare to do anything to them. Moreover, they had the clones of higher-beings, and when they were in danger, they could have higher-beings descend.

The higher-beings that descended immediately discovered Yan San and the others, and they asked them, "Why are you all here? Did you see anyone nearby?"

Hearing those words, they immediately thought of Zhao Fu and his group. They felt quite confused; were these higher-beings looking for him as well? Thinking about that, they suddenly understood why Zhao Fu was in such a hurry to leave.

Yan San smiled as he cupped his hands and said, "We were just stopping here for a short while. We did see some people; what matters do Seniors have with that person?"

The higher-being looked delighted and said hurriedly, “Which direction did that person leave in? Hurry and tell This Sovereign. As for the reason, you’ll understand after you go back to your families. Most people in the Underworld know about this already.”

Hearing those words, Yan San and the others felt quite surprised; the higher-beings really were here for that person. Just what had that person done, and why did most people in the Underworld know about him?

Thinking about what had just happened, Xie Yue was still somewhat angry, and he pointed in the direction that Zhao Fu had left in and said, “Seniors, he left in that direction.”

Hearing this, the higher-beings immediately flew off in that direction.

The others looked at Xie Yue dissatisfiedly because his actions undoubtedly increased the enmity between them and that person.

Boom! Boom! Boom...

More powerful auras descended, and given how strong they were, they were most likely also higher-beings.

These higher-beings only paused here for a moment because they sensed the direction that the previous group of higher-beings had left in, so they chased after in that direction too.

Boom! Boom! Boom...

More terrifying auras descended, and Yan San and the others’ expressions became quite unsightly. This was already the third group of higher-beings. Just what had that person done for so many higher-beings to be after him?

This group of higher-beings happened to have a higher-being from the Meng family. Seeing Meng Yao here, the higher-being stopped and smiled as she asked, “Little Yao’Er, why are you here?”

Seeing this higher-being, Meng Yao happily replied, “Aunty You, I came here to have fun. Why are you here?”

The higher-being lightly laughed as she replied, “To help you catch your future husband. Alright, go back first; soon this place will become quite chaotic.”

“Ah!” Hearing this, Meng Yao cried out, looking quite perplexed; she had no idea what was going on.

Following this, Yan San and the others left for their own families, wanting to hear about what had happened.

Chapter 1427: Sudden Changes

In the end, Zhao Fu and his group made it back to Nether Ghost City without encountering any danger. Zhao Fu had used many aura-hiding methods and had changed routes many times; only then had he avoided the higher-beings.

Of course, it was also because Zhao Fu had powerful Heaven’s Secrets protecting him, or else no matter where he was, his location would be divined by higher-beings.

Seeing Zhao Fu arrive, You Qin, Liu Yeye, and the other beautiful women smiled, feeling much relief.

Nether Ghost City was the faction that Zhao Fu had taken over. Even though some people served You Qin and the other women, because Zhao Fu had not been back in a while, some people had tried to seize power. They were not enough to suppress those people, and they had been living under great pressure these days.

However, seeing Zhao Fu bring back so many people, they felt quite shocked because these people all gave off powerful auras and ordinarily such people would not be seen in the Outer Domain.

Moreover, there were 600 or so Saint Realm soldiers; this was not a force that could be seen in the Outer Domain. These 600 or so people could destroy millions of low-Stage soldiers without any problems.

What they also took in was that Zhao Fu had brought back many women, and most of them were more beautiful than they were, making them feel that they had taken a big blow.

However, they could not endure how much their bodies missed Zhao Fu, so they still took the initiative to come to Zhao Fu's room. After an intense round, they felt quite relieved because Zhao Fu was still very much interested in them. He did not neglect them just because he now had more women.

You Qin's face was red as she lay in Zhao Fu's embrace and talked about the things that had happened in Nether Ghost City recently. Zhao Fu understood and nodded, and he planned to leave 100 Saint Realm soldiers here to support You Qin and the others and help them develop.

Zhao Fu did not plan to send a large number of soldiers here because he had caught quite a bit of attention recently so he had to be careful. After this all passed, he would consider developing in the Underworld.

Now, his Underworld expedition had concluded, and he had made incredible gains – this was especially so because Great Qin had obtained an Emperor Heaven Realm expert and countless treasures from the historical remnant. Thinking about that, Zhao Fu grinned; after going back, these things would all be incredibly useful.

After hearing that Zhao Fu was going to leave, You Qin and the other women said reluctantly, "Husband, make sure you come and visit us regularly."

Zhao Fu smiled and nodded before starting to do it with them again.

The next day, Zhao Fu returned to Great Qin. He first made all of the women Concubines. These women all had large amounts of Fate and Phoenix Qi, especially Gui Ji and the Nether Spirit Empire's women. They had more Phoenix Qi than hundreds of thousands of people.

Next came something incredibly important to Great Qin, which was setting up the Sealing Heaven Suppressing Earth Formation. This was incredibly important, and Zhao Fu gathered Great Qin's various Ministers to discuss it.

The Sealing Heaven Suppressing Earth Formation had massive effects and ordinary people could not cast it as it required refining many Nation Armaments. Nation Armaments were the most important item to a Kingdom, and they were condensed from large amounts of a Kingdom's Fate.

Not only did it have the effect of stabilizing a Kingdom's Fate, but it also had world-destroying power and ordinarily each Kingdom could only have one.

Countless people wanted to obtain Nation Armaments, but even if they took one by force, it would be useless; without a royal bloodline, they would not be able to use it. Ordinary people would not have the ability to refine Nation Armaments either.

Because Great Qin had the Heaven and Earth Refining Formation, and Zhao Fu had refined many nation Armaments, he had already fulfilled the conditions of the Sealing Heaven Suppressing Earth Formation.

However, Zhao Fu was quite worried because laying down this formation would make Great Qin independent of the Heaven Awaken World, and its Fate would no longer be controlled by the Heaven Awaken World. Zhao Fu was worried that there could be serious consequences, so he did not dare to be careless. Thus, he gathered his various Ministers to discuss.

Most Ministers were split into two groups: one group supported laying down the formation because Great Qin would gain a massive advantage as it would have an ability that no one else had. The other group was against laying down the formation, as they were not sure about the consequences, which could endanger Great Qin.

Hearing both groups talk about the advantages and disadvantages, Zhao Fu felt quite hesitant as this decision could change the fate of Great Qin.

Boom!

Suddenly, a shocking explosion sounded out as the world became dim and clouds swirled. The world seemed to fall into chaos as countless creatures felt a trace of terror in their hearts.

“System announcement! City Stats have been reduced.”

“System announcement! Region Power has been reduced.”

“System announcement! Kingdom Fate has been slightly affected.”

“System announcement! The Heaven Awaken World’s spirit qi has slightly decreased.”

“System announcement! The rewards from the Outer World Battlefield have increased.”

Hearing the system announcements inside his mind, Zhao Fu’s heart sank, as did those of the Ministers. Now, the Heaven Awaken World was not in a good position.

The City Stats and Region Power had once again been decreased. Even though Kingdom Fate had not reduced, it had been slightly affected and even the Heaven Awaken World’s spirit qi had slightly decreased. Spirit qi was the foundation for cultivation, and without it, no one would be able to cultivate.

Lastly was the Outer World Battlefield. Even though Great Qin had entered the Outer World Battlefield and had killed many Outer World creatures, Zhao Fu knew how terrifying the Outer World creatures were and knew that ordinary people were not a match for them.

Great Qin’s base was at the outer boundary of the Outer World Battlefield so Zhao Fu was not very familiar with the Outer World Battlefield. However, it was likely that the increase in rewards meant that the Heaven Awaken World was not doing well in the Outer World Battlefield.

Great Qin naturally could not change any of this because Great Qin was like a grain of sand that could not do anything of significance.

However, because of these system announcements, Zhao Fu decided to use the Sealing Heaven Suppressing Earth Formation. Some Ministers were still worried, but Zhao Fu stood his ground and decided to go through with this.

Great Qin had conquered five worlds and had destroyed countless Kingdoms. It now had 280 or so Nation Armaments, and Zhao Fu now ordinarily only used Great Qin’s Nation Armament. This was because it was Great Qin’s original Nation Armament, so using it was quite comfortable and it was the most powerful one.

Apart from Great Qin's Nation Armament and China's Clan Armament, Zhao Fu decided to use the rest of the Nation Armaments and Clan Armaments for the formation. Following this, Zhao Fu followed the instructions on the jade disc and ordered people to start making preparations.

The Sealing Heaven Suppressing Earth Formation was quite different than other magic formations. Firstly, it required a 99 meter tall tower, and it had to be split into 24 levels. Each level had to be covered with runes and needed other formations supporting it.

Those formations were at the bottom of the tower with the tower at the center. Apart from ordinary spirit gathering formations and defensive formations, there was also the Sealing Heaven Suppressing Earth Formation itself.

The Sealing Heaven Suppressing Earth Formation was not a single formation but a super formation made up of countless small formations. Moreover, it had to cover the Kingdom's entire territory. Finally, the Nation Armaments were placed at the top of the tower; the more Nation Armaments there were, the more area could be covered, and the more powerful the Sealing Heaven Suppressing Earth Formation would be.

Chapter 1428: Sealing Heaven Suppressing Earth Formation

Thinking about what had just happened, Zhao Fu thought of any way he could expand the range of the Sealing Heaven Suppressing Earth Formation. 280 or so Nation Armaments could at most only cover three worlds, but the effects would be relatively weak.

If Zhao Fu concentrated all of the Nation Armaments on the Human World, the Sealing Heaven Suppressing Earth Formation would be more powerful. Great Qin now had almost 400 billion people, and because a single world could not contain so many people, Zhao Fu wanted to expand the range of the formation.

Constructing the towers was no problem. Zhao Fu mobilized some manpower and resources, and they constructed 280 or so towers in just one day.

In the Great Qin Royal City, there was a 1,000 meter tall tower. This was the core of the Sealing Heaven Suppressing Earth Formation and was used to connect to and control the other towers. The Nation Armament placed here could not be any ordinary Nation Armament.

Zhao Fu planned to use the Clan Armament Book of God here. This was because this was the Human World, and no matter if it was the attributes or Fate, the Book of God was quite suitable.

In actuality, the best Armament would be China's Clan Armament, the Imperial Ruler's Seal. However, the Imperial Ruler's Seal was connected to Great Qin's bloodline, and if it was used for the formation, Great Qin's bloodline would be negatively affected.

Moreover, Zhao Fu never knew when he would need to use the Imperial Ruler's Seal, so he decided not to use it. Moreover, the Book of God was not only a Clan Armament but a Faith Armament, so it was undoubtedly better than India's Clan Armament.

After everything was prepared, Zhao Fu came to the Great Qin Royal City's tower and placed the Book of God at the top.

There was also a magic formation at the top of the tower, but it had not been activated yet. After placing the Book of God within the magic formation, Zhao Fu deeply breathed in and calmed his emotions before squatting down and pressing his hand against the magic formation.

Boom!

An explosion sounded out as Zhao Fu sent his power into the magic formation and activated it. The magic formation gave off boundless light and a terrifying aura. The Book of God floated into the air and gave off a faint light.

Immediately, the 1,000 meter tall tower flashed with countless runes and the magic formations at the bottom were activated as well and gave off light. The surrounding Heaven and Earth Power as well as Fate all quickly gathered towards the tower.

The tower absorbed a large amount of Heaven and Earth Power and Fate, and it gave off intense light. It gave off a world-shaking aura, and the aura and light became stronger and stronger, making it seem as if the space around it had been frozen.

Boom!

A shocking explosion sounded out as the tower released a pillar of light that slammed into the sky. Waves of light rippled out, bringing with them terrifying auras.

The towers in three worlds flashed with runes as their magic formations were activated. Massive amounts of Heaven and Earth Power flowed into them, and different-colored pillars of light gave off terrifying power as they rushed into the sky.

The sky was in complete chaos and was filled with all kinds of colors. Clouds swirled and massive winds blew. Countless people felt an enormous might spread out in the sky, and they could not help but feel nervous.

At the top of the Great Qin Royal City's tower, a massive image of a book gradually appeared, and images of other Nation Armaments appeared in other places. There was a massive dragon boat, a black gem, and a beautiful mirror as well as many others.

After these images appeared, an enormous magic formation formed, covering three worlds.

Everyone looked at the enormous magic formation in the sky, feeling as if they were facing a massive ocean. The other worlds also sensed the ripples from Great Qin and looked towards Great Qin in shock.

After the enormous magic formation appeared, a formless power spread out, reaching above the heavens and below the earth. All creatures seemed to be going through some unknown changes.

The three worlds slightly trembled as grass, flowers, trees, rivers, and mountains gave off faint lights. Heaven and Earth Power madly gathered at the center of the three worlds, and three terrifying waves of power spread out, causing all creatures to tremble.

The formless energy continuously gathered, and the terrifying might became stronger and stronger. The space itself seemed unable to bear this, and finally, the formless energy formed three items.

Within the Human World, an egg-sized blue crystal orb was formed; in the Fish Scale World, a golden fish was formed; and in the Dark Demon World, a black statue of a humanoid was formed.

These three items gave off monstrous power and their auras seemed enough to suppress the heavens and earth. Countless creatures looked at the sky in terror, and at the same time, the three items gave off an origin aura; these origin auras came from their three worlds.

The massive magic formation in the sky slowly spun, and the three items disappeared and reappeared in front of Zhao Fu.

Zhao Fu looked at these three items and looked quite shocked because these three things had been condensed from the three worlds' consciousnesses.

Each world had its own consciousness, but after the Heaven Domain Boundary disappeared, they would fuse into the Heaven Awaken World and become part of the Heaven Awaken World.

Now, the Sealing Heaven Suppressing Earth Formation had withdrawn the three worlds' consciousnesses from the Heaven Awaken World and turned them into three items. Anyone who controlled these three items would truly control these three worlds without any limits.

These three items had been condensed through the Sealing Heaven Suppressing Earth Formation, so they could only be put in the towers. Moreover, the Sealing Heaven Suppressing Earth Formation had to be maintained, or else these three items would disappear.

Now, they had successfully set up the Sealing Heaven Suppressing Earth Formation. However, Zhao Fu did not plan to use it for now, nor did he plan on isolating Great Qin from the Heaven Awaken World. After all, Zhao Fu knew that there would be severe consequences.

If Zhao Fu chose to make Great Qin independent of the Heaven Awaken World, various stats from the Heaven Awaken World would disappear, and the three worlds might even enter the boundless nothingness. If that happened, Great Qin would have to face uncertain danger.

As such, Zhao Fu would not choose to isolate Great Qin for now. He hoped that nothing would happen to the Heaven Awaken World, as isolating Great Qin was a last resort.

The magic formation covering the three worlds gradually disappeared into the sky and the abnormal signs also disappeared as the world returned to normal.

The surrounding worlds set out spies, wanting to know what had happened in Great Qin. Zhao Fu smiled as he returned to the Great Qin Palace; now that this big matter had been completed, he felt much more relaxed.

Next, there were two things for him to do. One of them was to plant the Dark Night Flower – as one of the Heaven Awaken World's Seven Wondrous Flowers, the Dark Night Flower had powerful attributes and would be of great help to the Flower Fairy.

If Zhao Fu could gather all of the Wondrous Flowers, the Flower Fairy's power might recover. As someone who had once been a Celestial, she would have world-destroying power; just thinking about it was enough to make anyone feel afraid.

Chapter 1429: Dark Night Flower

The second thing was to create a place for developing Yin Soul Beasts. This had to be a place with large amounts of Yin Qi. Even though the place where the Yin Soldiers were had much Yin Qi, most of it was used for nurturing Yin Soldiers. Developing Yin Soul Beasts required large amounts of Yin Qi as well, so Zhao Fu needed to find another place.

In actuality, the best place to develop Yin Soul Beasts was in the Underworld, as there was unlimited Yin Qi there. However, Great Qin had not developed there, so it was not very safe.

Yin Soul Beasts were very important to Great Qin as they could allow Great Qin to quickly obtain large numbers of Stage 2 Yin Soldiers. Moreover, because of the Yin Soul Beasts, the Yin Soldiers would be stronger than ordinary Stage 2 soldiers.

What's more, Zhao Fu had obtained the highest grade of Yin Soul Beast heart, and it would be able to develop higher-grade Yin Soul Beasts, allowing Great Qin to obtain more powerful Yin Soldiers.

Zhao Fu decided to first take care of matters with the Dark Night Flower. Zhao Fu prepared to plant it in the Flower Domain because that place had many attributes beneficial for flowers. Adding on the fact that the Flower Fairy resided there, it had become a celestial realm for flowers.

However, the Dark Night Flower was of the Yin attribute and required Yin Qi to grow. This was quite easy to deal with – Zhao Fu planned to turn a portion of the Flower Domain into a Yin ground. It was just planting a flower and would not be too difficult.

Zhao Fu came to the palace in the Flower Domain. There were 300 or so Flower Spirits here, and they were all quite slim and bewitching. They normally stayed in the Flower Domain and would

sometimes receive orders to go and cast life magic to speed up the growth of plants. They were all under the management of the Flower Fairy.

“We greet Your Majesty.” Seeing Zhao Fu arrive, the Flower Spirits looked quite excited and called out.

Zhao Fu smiled and nodded in reply and went to find the Flower Fairy.

“Why are you here, husband?” the Flower Fairy looked at Zhao Fu with her beautiful eyes and gave a beautiful smile as she asked.

Zhao Fu smiled and brought her into his embrace as he told her about the Dark Night Flower. Hearing that Zhao Fu had obtained another Wondrous Flower, a happy smile appeared on her face; these Wondrous Flowers were very important to her.

“Husband, I have a method for growing Yin flowers, and it should be quite helpful for the Dark Night Flower,” the Flower Fairy said within Zhao Fu’s embrace.

Looking at the beautiful Flower Fairy in his arms, a wicked smile appeared on Zhao Fu’s face as he said, “Mm, tell me about it later.”

The Flower Fairy knew what Zhao Fu was going to do. She blushed as she lightly nodded, and soon loud sounds came from the room.

A while later, the Flower Fairy lay within Zhao Fu’s embrace and said with a reddened face, “Husband, you should show some love to those Flower Spirits.”

Zhao Fu felt quite startled and asked, “Why’s that?”

The Flower Fairy looked quite shy as she explained, “Because when we create Flower Spirits, those Flower Spirits are marked by your aura and won’t give birth to male Flower Spirits, and they greatly want to do it with you. Plus, I agreed to them.”

Hearing this, Zhao Fu understood – he had thought that male Flower Spirits did not exist; so it was because of this. That was why those Flower Spirits had been looking at him so bewitchingly when he had come here.

“Your Majesty, we’re coming to serve you.” Hearing the Flower Fairy’s words, the Flower Spirits who had been waiting at the door flirtatiously smiled as they pushed open the door.

Following this, a wave of indescribable sounds rang out from the room, and Zhao Fu had a good taste of each Flower Spirit. They all tasted different and all of them gave off a faint flower fragrance.

Following this, Zhao Fu returned to proper matters.

Before coming to the palace, Zhao Fu had ordered people to dig a 10,000 meter wide and hundreds of meters deep hole.

The hole was then filled with corpses. There were soldiers and commoners, men and women, and elderly and young. Their expressions were of pain, terror, pleading, and hatred.

These people were all soldiers and commoners who had died when Great Qin attacked, and Great Qin had collected their corpses. Now, Great Qin seemed to have a use for any type of corpse.

There were hundreds of thousands of corpses in the hole, creating a horrific scene. Facing such a bloody and reviling scene, any ordinary person would vomit.

Zhao Fu looked quite calm without a ripple of emotion because he had seen many scenes like this. He ordered people to bury the corpses; he needed these corpses to transform this place into a Yin ground, and the corpses would provide nutrients for the Dark Night Flower.

After burying the corpses, Zhao Fu landed on the ground and squatted down as he pressed his hand against the ground. The six gray dots in his right eye quickly spun as a massive wave of Yin Qi came out of Zhao Fu’s body and formed six gray orbs around Zhao Fu.

Swish, swish, swish...

The six gray orbs flew out under Zhao Fu’s control and sank into the ground, and a magic formation appeared.

“Arghhh...” As the massive magic formation appeared, the remnant souls of the people buried below became ghosts and gave off howls as they madly rushed out of the ground.

The ghosts climbed up out of the ground and looked at Zhao Fu with their blood-red and hateful eyes. Even though Zhao Fu did not personally kill them, they had died because of his orders, so all of their wrath was gathered on him.

It seemed that all ghosts had the ability to understand the principle of causality. The more powerful a ghost was, the more powerful the ability was.

Facing these ghosts, Zhao Fu did not care at all because most of them did not have even Stage 0 strength; they just looked quite frightening. If a person's aura was relatively strong, they would not dare to get close.

However, because there were so many of them, they charged at Zhao Fu, and the massive horde of ghosts charging towards him looked quite terrifying.

“Scram!” Zhao Fu roared and his Divine Bloodline's aura exploded out, causing the incoming ghosts to dissipate without being able to resist at all.

The ground became black and the blackness continuously spread out, giving off an incredibly cold aura. The transformation of the Yin ground was successful.

Zhao Fu dug a shallow hole and placed the Dark Night Flower seed within it. He then took out a small bottle, which contained the Ten Thousand Year Yin Liquid.

Zhao Fu poured the Ten Thousand Year Yin Liquid onto the soil, and as the gray liquid fell onto the soil, it was instantly absorbed into the seed. The seed started to madly grow – it first grew roots that stabbed into the ground, after which stem and leaves started to grow.

After a while, a 3,000 meter tall flower appeared. It had a black stem, leaves that looked like ghost claws, and a flower bud that gave off a ghostly blue light.

Zhao Fu felt quite disappointed; he had thought that this Ten Thousand Year Yin Liquid would be able to cause the Dark Night Flower to grow until it bloomed. However, from how tender the bud looked, it seemed that it would still be a while before the Dark Night Flower bloomed, just like the World Flower.

Chapter 1430: Yin Vein

After planting the Dark Night Flower, Zhao Fu came to where the Yin Soldiers were converted and decided to make this also the place of nurturing Yin Soul Beasts. This was because the Underworld was not very safe and it was easy to be discovered and destroyed; if that happened, all of his efforts would be for nothing.

Zhao Fu planned to expand this area and gather more Yin Qi. As for how he would do this, he had already thought of a plan.

Back in the historical remnant, Zhao Fu had killed a rock dragon and obtained a Ghost Bloodline Pearl. This pearl could gather ghostly qi and Yin Qi, and it could create a Yin Vein.

A Yin Vein's power was quite great; the Devil Horn Empire was only so powerful because of its Devil Vein, and even though this Yin Vein could not compare to it, it would still have great effects.

Zhao Fu came to the center of the area and squatted down, pressing the Ghost Bloodline Pearl into the ground. The pearl gave off an intense light and a formless power spread out.

“Roar!!” A massive dragon's roar sounded out as an enormous wave of Yin Qi gathered and dark clouds swirled over. A cold wind blew as an icy power radiated in all directions, causing people's hairs to stand on end.

The image of a massive Yin Dragon appeared. It was covered in gray scales and had gray horns and eyes, and it spiraled around the area.

Boom!

After the Yin Dragon appeared, the area seemed to come alive and exploded out with a powerful Yin energy. The ground quickly became gray and large amounts of Yin Qi gathered.

The Ghost Bloodline Pearl continuously gave off intense light and the power that it gave off became stronger and stronger. The ground cracked and caved, and Zhao Fu moved to the side.

The Ghost Bloodline Pearl gave off light and floated into the air. A ten meter wide and five meter deep crater had opened up in the ground, and countless traces of Yin Qi gathered there, condensing into gray liquid. More and more liquid gathered, forming a gray pool.

Looking at this gray pool, Zhao Fu felt quite delighted; he had never thought that a Yin Fountain would be created. This Yin Fountain Water was a type of treasure and contained large amounts of pure Yin Qi.

Now the issue of the Yin region had been solved, so it was time to construct a place for nurturing Yin Soul Beasts, which was quite simple.

Zhao Fu ordered people to clear out a large flat area and cover it with bricks. He then had them build a three meter tall platform at the center, on which a Yin Soul magic formation was engraved, and the Yin Soul Beast heart was placed at the center of the formation.

After the silver hexagonal Yin Soul Beast heart was placed in the magic formation, the magic formation immediately gave off an intense silver light and a silver color spread out from the stage and dyed the ground silver.

Now, the area for developing Yin Soul Beasts was ready. Now, it was time for the process of developing Yin Soul Beasts, which was somewhat cruel.

They first had to use mud to make massive jars, and it was best to use mud that contained Yin Qi. They then bound people or beasts, and this had to be done or else they would struggle.

After these people or beasts were bound, they were placed in the jars, after which mud was poured in, burying them alive and causing them to produce large amounts of vengeful aura.

Because these jars were placed on the ground, they would also absorb large amounts of Yin Soul energy, and after a while, the people or beasts that had been buried alive would become Yin Soul Beasts.

Zhao Fu had long since ordered people to make the jars. All of them were three meters tall and three meters wide, and they were a black and gray color. They were placed in an orderly fashion on the silver ground.

They tied up people and beasts struggled with expressions of terror on their faces because they knew what was going to happen. However, they could not cry out because their mouths were sealed; this way, their vengeful aura would be even greater after being buried alive.

There were elderly people, children, men, and women, and there were all sorts of beasts such as goats, tigers, apes, cows, snakes, etc.

After these people or beasts were placed in the jars, soldiers quickly poured in mud, and the creatures within the jars quickly suffocated to death. Now, all that was left was to wait.

Zhao Fu wondered what these creatures would be like after becoming Yin Soul Beasts. Zhao Fu only placed 10,000 jars on the ground, as the Yin Soul Beast heart had limits and needed time to grow.

Each Yin Soul Beast that was converted would be controlled by the Yin Soul Beast heart, and the more that it converted, the more powerful it would become, allowing it to convert more Yin Soul Beasts.

After dealing with these matters, Zhao Fu returned to the Great Qin Palace and took out a command medallion giving off demonic qi. This was the Demon Domain historical remnant's command medallion.

Zhao Fu called Ming Lengxuan and asked her about this, as Zhao Fu was quite interested in this historical remnant.

Ming Lengxuan shook her head and replied, "Husband, apart from that person, no one else knows anything about this command medallion. I heard that it was something that that person found by chance.

The 'that person' Ming Lengxuan referred to was her father. She did not want to say his name, so she only referred to him as 'that person.'

Hearing this, Zhao Fu nodded in understanding. Even though Zhao Fu was interested, he had only just come back from the Underworld, so he did not want to leave for a while. Moreover, that place was the Demon Domain, so going there would take quite some time.

Zhao Fu had left for quite a while this time and a lot had happened during that time. Firstly, the Wind God Empire had sent over large amounts of manpower, building a defensive line that surrounded the Charm Devil, Elf, Grassi, and Half-Beast Worlds. There were countless restrictive barriers, and no one would be able to sneak in.

Moreover, after developing for so long here, its enemy, the Demon Wind Empire, still did not react at all and allowed the Wind God Empire to do as it wished.

Zhao Fu wondered if the two factions had reconciled, which was why the Demon Wind Empire was no longer interfering in the Wind God Empire's matters. Zhao Fu did not plan on relying on the Demon Wind Empire anyways and did not mind too much.

After this expedition, Zhao Fu had much more confidence and no longer felt as helpless and afraid.

Next was matters with the Devil Horn Empire. During this period of time, the Devil Horn Empire had developed ferociously and had conquered yet another world; it was the world under the Merman World.

This world was a Devil Race world and the inhabitants were called the Hummingbird Race. They were a type of half-human half-bird race that had the upper bodies of humans and lower bodies of birds. They had wings and claws and were incredibly savage and bloodthirsty, and they were quite primitive.

Yao Ming had easily conquered this world and had taken a woman with high status from the Hummingbird Race as a Concubine. It was said that that woman was extremely beautiful but her lower half was that of a bird, so no one was very interested.

However, it was said that Yao Ming greatly liked that woman and made love to her every night. Just the thought of that scene alone could cause someone to feel disgusted; perhaps it was because he was also part of the Devil Race that he did not mind.
