

The Lord 1431

Chapter 1431: Desolate Crow

After conquering this Hummingbird race, the Devil Horn Empire's power rose to a new level. It now also had five worlds and was the same as Great Qin. Moreover, because it had obtained the Hummingbird Race, Yao Ming had been able to create a powerful air force.

That was why the Devil Horn Empire's power had risen to a new level; its aerial power had been greatly increased.

Having an air force was quite a great advantage, because only Stage 3 or Stage 4 soldiers gained the ability to fly. Moreover, they would sometimes be suppressed by magic formations, and they were not as nimble.

Because the Wind God Empire blocked in the middle, the Devil Horn Empire did not try to make any trouble for Great Qin and focused on raising its own strength.

There was now a world that was surrounded on all sides and was in a difficult position, and it had already been split in two.

That world was the Desolate Crow World. The worlds above it and to its left had been conquered by the Devil Horn Empire. The world to its right belonged to the Wind God Empire, while the world below it had been conquered by Great Qin.

If it wasn't for Great Qin, the Desolate Crow World would have been destroyed by the Devil Horn Empire already. Si Ji did not have the ability to stop Yao Ming.

Si Ji knew this clearly; without Great Qin, Yao Ming would not allow him to remain. Si Ji did not want to submit to anyone, or else he would not have escaped from Great Qin back then.

As for the surrounding worlds, they were all of different minds and were not united. Great Qin and the Devil Horn Empire had signed Contracts with many of them, and because most of them just wanted to stay safe, they did not form an alliance to resist Great Qin or the Devil Horn Empire.

Otherwise, the Devil Horn Empire's ferocious attacks would have caused many worlds to ally together and attack it. However, this was no longer possible. As such, this area was split into three main sides: the Devil Horn Empire, the Wind God Empire, and Great Qin.

"Husband, things over at the Desolate Crow World are quite complicated; you should go and take a look." Xueru, the voluptuous and enticing woman, walked in and bowed as she spoke.

Zhao Fu had already expected this, so he smiled and nodded.

Seeing Zhao Fu agree, Xueru came up and hugged Zhao Fu as she said happily, "Husband, can you bring me there as well? I haven't gone back in a long time and missed that place; I hear there have been some big changes."

Zhao Fu thought about it and saw no reason to refuse, so he agreed.

Xueru was incredibly happy, and she gave a flirtatious smile as she said, "Thank you husband; I'll serve husband well."

After saying this, Xueru squatted down and started to service Zhao Fu. Zhao Fu could not refuse such an enticing woman, and they had a few intense rounds before going to the Desolate Crow World.

The Desolate Crow Kingdom was under immense pressure. It was now surrounded on all sides and had no chance to escape. Moreover, the three factions surrounding them were all ones that they could not afford to offend, so they could only ask Great Qin for help.

There had been big changes in the Desolate Crow Kingdom. They had built their own City and Palace, and they no longer used tents. They also had armor and good weapons, and this was all because of Great Qin.

At a banquet in the palace, Zhao Fu sat with Moke, the King of the Desolate Crow Kingdom and Xueru's ex-husband. With Zhao Fu's status, it was impossible that he sat below Moke.

Next to Moke sat a woman who looked somewhat similar to Xueru. However, she did not seem as lewd and flirtatious as Xueru, and she instead had a pure and beautiful aura.

Xueru looked at Moke dissatisfiedly and explained to Zhao Fu, “Husband, that’s my little sister. She was already married but Moke brought her into the palace and made her a Concubine. Before, I wanted to serve you together with my little sister.”

Because Moke loved Xueru so much and she had become someone else’s woman, he could only bring her little sister Xueli in and use her to replace Xueru.

He had gradually fallen for her, and because Xueli did not have her older sister’s perverted constitution, he could properly satisfy her and had time to enjoy other women as well. He was living well, and his cheeks were rosy and his aura was powerful.

Sitting below, Moyue looked at his mother, Xueru, leaning against Zhao Fu with a red face. He had naturally thought about Zhao Fu and Xueru before, and he could not help but feel excited.

“Moyue, you bastard, what are you thinking about,” a fiery-figured and beautiful woman sitting next to Moyue angrily pinched him and said in a hushed tone.

She was Moyue’s woman and was called Heni. She was the daughter of one of the Desolate Crow Kingdom’s important Ministers, and in order to stabilize the Desolate Crow Kingdom, Moke had Moyue marry her.

Seeing Moyue, who did not like touching her, gazing at his mother with such an excited expression, Heni felt quite angry. She had heard of some rumors before, and it seemed that they were true. This was quite humiliating, so she could only use a hushed tone.

Feeling the pain in his body, Moyue came back to his senses and looked at Heni quite angrily. Looking at his beautiful wife, Moyue suddenly thought of an evil thing.

“Great Qin’s Majesty, the situation is becoming quite tense; please lend us your assistance.” Moke raised his wine cup and smiled as he toasted Zhao Fu.

Zhao Fu did not reply; he was not very invested in the Desolate Crow Kingdom’s affairs right now. Great Qin was already quite powerful, and even if Si Ji or the Devil Horn Empire obtained the Desolate Crow World, Great Qin would not lose too much.

Right now, Great Qin could send people and resources to support the Desolate Crow Kingdom. This would at most only reduce the danger that Great Qin faced and they would not gain much from it.

The situation in this area had become quite complicated, and Zhao Fu was worried that the Wind God Empire would do something, which was why he hesitated.

Seeing that Zhao Fu did not respond, Moke's smile stiffened and he could not help but feel anxious, as did everyone else. Right now, they could only rely on Great Qin.

Moke looked at Xueru, who was lying in Zhao Fu's embrace, and she naturally could tell what he was thinking. She looked slightly displeased as she said coquettishly, "Husband, just help the Desolate Crow Kingdom; I'll properly serve you tonight."

Zhao Fu lightly laughed and raised his cup as he said, "There's no problem; Great Qin will help you."

Hearing this, everyone else relaxed and smiled, and the atmosphere became lively again. Zhao Fu decided that maintaining the status quo would be enough; he would not help the Desolate Crow Kingdom unless it was necessary.

After the banquet concluded, Zhao Fu received some general information about the Desolate Crow Kingdom and he prepared to return to Great Qin.

"Great Qin's Majesty, please wait. This lowly one has a matter to discuss with you!" Moyue called out to Zhao Fu, bringing along Heni.

Zhao Fu looked at Moyue and asked, "What is it?"

Xueru looked at her son in confusion. Why had he not brought this up earlier? Why was he bringing it up as they were leaving?

Chapter 1432: Prepare for Battle

Moyue first looked around, and seeing that there was no one, he smiled as he pointed at Heni and said, "Great Qin's Majesty, this is my Concubine; I'm willing to give her to Your Majesty to use. I've already prepared the room; all that's left is for Your Majesty to go."

Heni had never thought that Moyue had brought her here to give her to Zhao Fu. She angrily cursed, “Moyue, you bastard!”

As she cursed, she raised her fist and prepared to hit Moyue. However, she realized that she was in the presence of Zhao Fu, so she could only endure it and angrily glare at Moyue.

Xueru looked at Moyue condemningly and said, “Yue’Er, how could you be like your father? She’s your wife, and yet you’re treating her like this. I’m going to be angry.”

Moyue looked worried as he sighed, “In actuality, I know that Your Majesty won’t help our Desolate Crow Kingdom, and I’m doing this for the sake of the Desolate Crow Kingdom. Such a beautiful woman like Heni should not remain by my side; she has a better place to go, can live a better life, and doesn’t need to be so afraid.”

Heni looked quite startled and felt quite touched as she looked at Moyue. So it turned out that Moyue had her best interests in mind, and it was also for the Desolate Crow Kingdom. It seemed that she had misjudged him.

Xueru looked at Moyue and felt an ache in her heart. She turned to look at Zhao Fu and asked, “Husband, are you really planning on not helping the Desolate Crow Kingdom?”

Zhao Fu laughed; how could he say this explicitly? He replied, “You’re all thinking too much. Also, I won’t take her.”

If it was an enemy’s woman, Zhao Fu would not hesitate at all. However, Moyue was on his side and Heni looked quite reluctant, so Zhao Fu naturally would not accept her. After all, he still had his principles.

Moyue had never thought that things would turn out like this. In actuality, he had prepared monitoring devices in the room; he wanted to personally watch his mother and wife doing it with Zhao Fu.

“Your Majesty, please accept Heni. Even if you don’t want her, please use her once. She’s still a virgin and I haven’t touched her.”

Heni started to look hesitant. She looked at the seemingly-noble Moyue and then thought about her family, and she bowed to Zhao Fu and said, “Your Majesty, I’m willing to serve you. Please help the Desolate Crow Kingdom.”

Xueru looked at Zhao Fu worriedly; she did not want what happened to her to happen to Heni as well.

Zhao Fu laughed and did not say anything before hugging Xueru and leaving.

Moyue looked quite disappointed as his plan had failed. On the other hand, Heni happily hugged Moyue and felt that she liked him more.

After returning to Great Qin, Zhao Fu received news that the Wind God Empire had demanded for Great Qin to cede the Fish Scale World and the Wind God Empire would provide some compensation.

Before, the Wind God Empire’s attitude had been incredibly domineering and directly told people to scam or leave. However, after knowing Great Qin’s strength, it became slightly more courteous and did not want to lose too much in order to gain the Fish Scale World.

The Fish Scale World was next to the Wind Spirit World, and it was something that the Wind God Empire had to obtain. However, the Fish Scale World was still protected by the Heaven Domain Boundary, so the Wind God Empire could not conquer it and could only ask Great Qin for it. Otherwise, they would have to attack Great Qin in order to obtain it.

They knew that Great Qin would not give it up so easily, as the Fish Scale World was not like the three other worlds which barely had any population or Cities. Moreover, Great Qin only had a few Continents in the three other worlds as opposed to an entire world, so the Wind God Empire proposed giving some compensation.

After hearing this, Zhao Fu felt furious. Before, they had demanded for Great Qin to cede a few Continents, and he had already been incredibly angry about that. Now, they were asking for an entire world in exchange for some compensation; how could Zhao Fu agree?

Zhao Fu knew that this day would come, so he gathered Great Qin’s Ministers and discussed this. This was no small matter, as Great Qin would have to face a Royal Kingdom from the inner regions of the Ancient Stem Domain.

Boom!

A massive explosion sounded out as an incredibly powerful might spread out, causing the heavens and earth to dim. Countless creatures' bodies stiffened, feeling as if they had fallen into icy water and their bodies uncontrollably trembled.

This was power that belonged to the Emperor Heaven Realm. An Emperor Heaven Realm expert was an existence that could sweep across the outer regions; the Wind God Empire knew that Great Qin would not agree so easily, so it decided to give Great Qin some pressure and make it understand that it did not have the power to resist the Wind God Empire. It was not that they could not destroy Great Qin but that they did not want to suffer heavy losses.

They had already given the Great Qin face, or else they would have long since destroyed it. Now, it was time for Great Qin to be more tactful.

Over at the boundary of the Human World, a valiant-looking middle-aged man dressed in green clothes stood in the air. The terrifying aura came from his body – he was Feng Wulin, one of the Wind God Empire's five Emperor Heaven Realm experts.

Great Qin's soldiers were all gathered together and were ready for battle. Sensing this terrifying aura, their expressions became serious because they understood that they could not stop an Emperor Heaven Realm expert with their power, and it was very likely that they would die here.

After hearing about this, Yao Ming felt incredibly delighted. The Wind God Empire making a move against Great Qin was something he wanted to see the most, and he could only hope that the Wind God Empire would destroy Great Qin. That way, he would be able to quench his hatred and he would have one less powerful enemy.

Si Ji felt both delighted and worried. Just like Yao Ming, he had irreconcilable hatred with Great Qin, so he naturally wanted Great Qin to be destroyed. However, if Great Qin did not exist, Yao Ming would unhesitatingly destroy the Desolate Crow World, and he would die.

After hearing about this news, some other factions were happy while some were worried. They hoped that Great Qin would be destroyed, so they would not be threatened by Great Qin. Yet, they hoped that Great Qin would not be destroyed so the Wind God Empire would not turn its attention to them.

Sitting on his throne, Zhao Fu's gaze became cold and his entire body gave off a chilling intent, causing the palace to become incredibly cold, as if it was an icy cavern. All of the Ministers lowered their heads, not daring to make any noise.

Facing the Wind God Empire's arrogant threat, Zhao Fu said coldly, "Pass down Our orders: Great Qin will prepare for battle. Send a reply to the Wind God Empire: Great Qin will not cede the Fish Scale World, and if the Wind God Empire wants it, it needs to destroy Great Qin first."

"Yes, Your Majesty!" a group of soldiers replied in unison with cold gazes before leaving the palace and transmitting Zhao Fu's orders.

Great Qin's officials and commoners all looked incredibly serious and their blood seemed to boil. They were willing to live and die with Great Qin and showed no fear, and everyone started to make preparations.

The surrounding worlds were sent into an uproar. Many people thought that Great Qin would give in, and no one had expected that Great Qin would dare to face off against a Royal Kingdom from the inner regions of the Ancient Stem Domain. It had such a tough attitude and had backbone, making everyone feel awe.

Chapter 1433: Great Battle

After hearing about this, the Wind God Empire was incredibly infuriated; they had never thought that a small Kingdom on the outskirts of the Heaven Awaken World would dare to treat it like this. They had already given it face, but since it wanted to die, they could not be blamed.

The Wind God Empire immediately gathered four billion Stage 3 soldiers at the Human World and left the remainder to defend. They gave off an incredibly powerful aura that seemed to cause the weather to change, making everyone feel terror.

After hearing about this, everyone else sighed; it was likely that Great Qin was going to be destroyed. How could a Kingdom on the outskirts be a match for a Royal Kingdom from the inner regions?

This could only be blamed on Great Qin for being too unyielding and not knowing when to give in. Perhaps after taking over Great Qin, the Wind God Empire would have ten.

After hearing about this, Yao Ming arranged a celebratory banquet and waited for Great Qin to be destroyed.

Thinking about how Great Qin had five worlds, if the Wind God Empire destroyed it and obtained the five worlds, adding on the worlds it already had and the Wind Spirit World, that would be ten worlds in total. It could be said that if Great Qin was destroyed, everyone would be safe, so the surrounding worlds all wanted to see this happen.

After hearing about this, the Royal Kingdoms in the inner regions all felt quite surprised that Great Qin was so unyielding; if the Wind God Empire wanted the Fish Scale World, it would have to destroy Great Qin first.

Now, they could only sigh; even without thinking about it, they could guess at what would happen to Great Qin. It was a pity that their support of Great Qin had all been wasted. They did not plan to get involved either because the Wind God Empire was a Royal Kingdom of the inner regions.

When the Wind God army gathered, Great Qin's army also quickly gathered. The auras that the two armies gave off caused the heavens and earth to be filled with an austere aura, and both sides looked at each other seriously.

Feng Wulin also looked quite serious as he looked at Great Qin's 30 billion soldiers. Of these 30 billion soldiers, 20 billion were at Stage 2; it seemed that this battle would not be so easy.

As an Emperor Heaven Realm expert, even though he could kill everyone on the other side and no one could individually stop him, if billions of soldiers gathered their power together, they would be able to stop him or even kill him.

In such a large battle, an individual's power was limited, which was why he did not stupidly rush to the Great Qin Palace to kill Great Qin's Emperor.

Feng Wulin looked at the people on the other side standing in the air. There was a cloaked figure giving off a powerful and dignified aura; that was most likely Great Qin's Emperor.

"It's not too late to turn back. The Wind God Empire just wants the Fish Scale World and we can promise that we will not attack Great Qin. We hope that you will do what is best for you," Feng

Wulin raised his head and said with a cold voice. This was the last chance he was giving Great Qin; if it wasn't because Great Qin had such strength, he would have attacked already.

Zhao Fu coldly laughed as he said, "We will say it one more time: Great Qin absolutely will not cede the Fish Scale World. Great Qin already made concessions last time and gave your Wind God Empire four Continents, and that was the bottom line. Don't think that just because you're a Royal Kingdom from the inner regions that Great Qin will fear you."

Boom!

Feng Wulin felt furious. An Earth Realm Cultivator like Zhao Fu was someone he could kill on a whim. He exploded out with a powerful aura, stretched out a hand, and pointed at Zhao Fu. A massive formless energy blasted towards Zhao Fu.

Bang!

Just as the energy was about to hit Zhao Fu, a figure appeared beside Zhao Fu and slashed out, destroying that incoming energy.

Feng Wulin's eyes slightly widened and his expression became grave because the woman who had appeared next to Zhao Fu was also an Emperor Heaven Realm expert. However, how could an outskirts Kingdom have an Emperor Heaven Realm expert?

"Who are you and why are you helping Great Qin?" Feng Wulin said coldly. He suspected that there was some faction helping Great Qin and he was afraid of falling into a trap, so he did not give the order to attack.

Gui Ji looked towards Zhao Fu. Zhao Fu realized why Feng Wulin was so wary, so he spoke with confidence, "Who she is has nothing to do with you. I already said that Great Qin is not afraid of you all. If you want to fight, we will fight."

This made Feng Wulin feel quite angry, but he started to feel hesitant. He only had four billion soldiers here, and if there was another inner region Royal Kingdom helping Great Qin, the Wind God Empire would definitely suffer heavy losses.

Only inner region factions could have Emperor Heaven Realm experts; the highest in the outer regions were only World Realm experts, so it was impossible that it was an outer region faction helping Great Qin.

Of course, perhaps Great Qin had hired an Emperor Heaven Realm expert to deal with him, but how could an Emperor Heaven Realm expert be hired so easily?

If Great Qin was weak, he could still directly attack Great Qin, but Great Qin was not weak at all and had the power to fight. If they fought, adding on the inner region Royal Kingdom's help, his side would be at a disadvantage.

Feng Wulin decided that it would be better to be safe than to be sorry. He would first report this matter to the higher-ups in the Wind God Empire and gather more soldiers and experts here to deal with Great Qin.

"Hmph, you'll pay for the words you spoke. When the time comes, I'll fill Great Qin with corpses and rivers with blood." After saying this, Feng Wulin turned and prepared to withdraw. Today was a stain on his dignity, having been forced to retreat by a small outskirts Kingdom.

Hearing those threatening words, Zhao Fu's expression became cold. He slowly raised a hand and all of Great Qin's expressions became serious as they all readied their weapons in unison.

Feng Wulin turned and looked at Zhao Fu in confusion. Could it be that this person was going to take the initiative to attack? Did he really dare to be so arrogant?

Zhao Fu's raised hand descended and his cold voice sounded out across the entire battlefield, "Attack!"

Now, Zhao Fu was certain that the situation with the Wind God Empire was irreconcilable. Rather than allowing Feng Wulin to go back and gather more soldiers to attack Great Qin, it was better to seize the initiative and make the Wind God Empire suffer some losses.

Gui Ji exploded out with a powerful aura and held her rainbow sword as she rushed towards Feng Wulin.

Swish, swish, swish...

Arrows tore through the sky, containing immense power as they rained down on the Wind God army.

Feng Wulin was extremely furious and he started to attack to. He took out a spear and charged towards Gui Ji.

“Kill!” The Wind God army flooded towards Great Qin, giving off a terrifying aura that seemed to be able to destroy everything; nothing seemed to be able to stop them.

Facing Great Qin’s incoming arrows, the Wind God soldiers gave off faint green light and formed an enormous green energy barrier. As the arrows descended, chafing sounds could be heard.

The countless arrows were only able to cause a few cracks on the barrier and were unable to break through that powerful defense.

Chapter 1434: Wind Execution

The green barrier was like an iron wall and the countless arrows were largely ineffective. These arrows were either knocked away by the defensive barrier or were cut apart in the air.

The Wind God army continued to flood forwards like an unstoppable tide, and the green barrier was like a tank that ferociously slammed towards Great Qin’s defensive walls. If they were able to hit it, Great Qin’s defensive walls would definitely crack.

“Roar! Roar! Roar...” Countless Wyverns and other beasts rushed out with terrifying power and shot at the green barrier.

Boom! Boom! Boom...

Large sounds rang out and the impact of the countless Wyverns and beasts was extremely monstrous. The green barrier started to sway and countless cracks appeared, but it still was not broken.

Swish, swish, swish...

The Wind God army shot out arrows that contained terrifying power towards the Wyverns and beasts, and blood flew everywhere as Wyverns and beasts crashed to the ground.

As Stage 3 soldiers, they were able to deal decent damage against the various beasts. They were not helpless like Stage 1 soldiers and could kill the beasts if they concentrated their attacks.

However, Great Qin did not hold back at all and the soldiers pushed out dozens of 100 meter long upgraded Dragon-Slaying Ballistae. Bolts socketed with Destruction Crystals were loaded onto them, and 100 meter tall Spirit Light God Emissaries were summoned to draw the ballistae.

Boom! Boom! Boom...

The bolts shot out, bringing with them rays of light and seemed to cause space to explode. They were incredibly fast and tore through the sky and slammed into the green barrier.

At that moment, the Spirit Light God Emissaries raised their hands towards the green barrier and powerful rays of light shot out with ferocious power, shooting towards the green barrier.

Bang! Bang! Bang...

Massive explosions sounded out, turning into wild gales that spread out. The cracked green barrier finally shattered and dissipated.

This was a powerful defensive barrier formed by four billion Stage 3 soldiers and was incredibly tough, and now it had finally been destroyed by Great Qin with great difficulty.

At that moment, Great Qin's soldiers once again shot out arrows, which whistled through the air and descended like a torrential rain.

The Wind God army was given a big fright. Now that their green barrier had been destroyed, they could only rely on their own energy barriers. However, with their own strength, how could they stop so many powerful arrows?

Chi! Chi! Chi...

The Wind God soldiers' barriers were pierced through and blood splattered everywhere as many soldiers' bodies were pierced by all kinds of arrows, dying horrific deaths.

However, only a small portion of the Wind God army died or were injured, and the situation did not swing much to Great Qin's favor.

Boom!

Feng Wulin held his spear as he rushed at Gui Ji. The spear was surrounded by a whirlwind and gave off an incredibly sharp aura that caused the sky to become incredibly cold.

Ghost God Power rose up out of Gui Ji's body, causing her surroundings to become cold and eerie. The massive Ghost God Power dyed the rainbow sword in her hands black, and it gave off an incredibly destructive power, like an evil sword.

Feng Wulin stabbed towards Gui Ji and the whirlwind shot out, seeming like it could tear Gui Ji apart. Gui Ji slashed out a massive and ugly evil spirit that rushed out towards Feng Wulin.

Bang!

The whirlwind and evil spirit collided together with a massive sound, and a gray aura and green wind blasted out, destroying everything in their way.

Gui Ji and Feng Wulin were each forced back dozens of meters, and the instant her body stopped, Gui Ji grabbed out with her hand. An incredibly terrifying ghostly hand gave off monstrous ripples as it grabbed towards Feng Wulin.

Feng Wulin coldly laughed. He had found that even though Gui Ji was an Emperor Heaven Realm expert, she did not have sufficient control over her power.

"Wind Extermination!" Feng Wulin lightly cried out as he vigorously stabbed with his spear. A green ray of light giving off an incredibly sharp power tore through the sky incredibly quickly, flashing through the ghostly hand with extreme speed and continuing towards Gui Ji.

Gui Ji was startled and used her sword to block, but she was sent flying by the green ray of light and a trace of blood leaked out of her lips.

Shing!

A sword hum sounded out as Zhao Fu appeared next to Feng Wulin and a powerful sword light hacked towards Feng Wulin.

Sensing that Zhao Fu only had Earth Realm Cultivation, a look of condescension appeared on Feng Wulin's face. He released a green energy barrier and blocked Zhao Fu's sword.

With Zhao Fu's Earth Realm Cultivation, it was almost impossible to break an Emperor Heaven Realm expert's defensive barrier as the difference in strength was simply too great.

A trace of killing intent appeared in Feng Wulin's eyes as he prepared to kill Zhao Fu. If he could do that, destroying Great Qin would be much easier. As such, he spun his spear and prepared to stab at Zhao Fu.

Zhao Fu smirked as he gave a cold smile and lightly cried out, "Sword Master!"

Boom!

A massive sword intent burst forth, causing the heavens and earth to chill. At the same time, Zhao Fu exploded out with his Nation Armament's power and a bronze aura flame erupted around him as a terrifying power swept out.

Bang!

Zhao Fu slashed apart Feng Wulin's defensive barrier, causing Feng Wulin to look incredibly confused. He had never thought that Zhao Fu could break apart his defenses; after all, he had power equivalent to that of ten worlds, and even if Zhao Fu fully released the power of his Nation Armament, that was only five worlds.

Feng Wulin quickly reacted and dodged to the side, but a gash was still opened up on his arm, from which blood flowed out.

Boom!

Feng Wulin was infuriated and fully unleashed his Emperor Heaven Realm power. The world seemed to dim as clouds swirled, and massive world energy madly Feng WULin's body, creating a large storm.

After Zhao Fu successfully launched this attack, he quickly left and Gui Ji exploded out with power and tied down Feng Wulin again.

The Wind God army on the ground started to fight with Great Qin's soldiers. Arrows easily tore through Great Qin's soldiers' bodies, and as a few of Great Qin's soldiers rushed up, they were slashed apart by a single sword strike.

Stage 3 soldiers could completely suppress Stage 1 soldiers, and if they went up one by one, they would definitely die. Only by attacking with ten or so soldiers could they resist a Stage 3 soldier.

Great Qin's soldiers continuously died, and the Wind God soldiers died as well. Blood shot everywhere and the sounds of killing were deafening. The battle was incredibly intense, making people feel quite shocked. This region was filled with a terrifying aura and no creature dared to come close.

Zhao Fu did not mind any of this too much and flew back to Great Qin.

Zhao Fu came to an empty area and Xianru reported, "Your Majesty, everything has been prepared; we just need that Emperor Heaven Realm expert's blood."

Hearing this, Zhao Fu took out a small orb of blood. This was the blood he had obtained from attacking Feng Wulin; that attack had been for the purpose of obtaining this blood.

Chapter 1435: Ten Thousand Person Curse

There were many Insect Outer World creature eggs laid out on the ground, and there were ten million or so of them. At the center of the area was a nine meter tall altar.

Xianru took the orb of blood from Zhao Fu and came to the altar.

Zhao Fu wanted to have Xianru use the Ten Thousand Person Curse, which Zhao Fu had obtained from that Second Prince. It could be used to curse a large group of people and also curse a single person.

These Insect eggs were the best materials for unleashing the curse. There were ten million of them and together with the Ten Thousand Person Curse, the curse's effects would be incredibly shocking.

Standing on the altar, Xianru performed many hand seals and the orb of blood floated in front of her as the magic formation under her feet was activated. A formless energy spread out, covering all of the Insect eggs.

The countless Insect eggs gave off traces of gray aura, which gathered towards the center of the altar. More and more gray aura gathered, and soon, the area around the altar was covered.

The orb of blood in front of Xianru had become a rune that resembled an insect.

"Your Majesty, it is done," Xianru stopped and looked at Zhao Fu as she spoke.

Zhao Fu stood on the altar as well because curses could be dispelled using Fate and the caster might receive a Fate backlash. The more powerful the person being cursed was, the more dangerous it was. However, Zhao Fu was not worried, as he had four Emperor Stars supporting him.

Fortunately, Feng Wulin was not the Emperor of the Wind God Empire, or else Zhao Fu would not dare to curse him with the entire Royal Kingdom's Fate.

Zhao Fu walked into the magic formation and sent his power into the blood-red rune. The blood-red rune gave off a strange light and the gray aura in the surroundings started to spin.

Boom!

The blood-red rune shot into the sky and countless traces of gray aura followed it, forming an enormous gray pillar of aura. It gave off an eerie and strange aura as it spread out in the sky.

Feng Wulin, who was fighting Gui Ji, suddenly felt a chill through his body as he felt an abnormal energy rush towards him. He turned and saw that it was countless insects flooding towards him with a terrifying aura.

This caused his expression to fall. He swept out with his spear, sending out a crescent towards the insects, but that killed only a small portion of the insects.

The countless insects quickly reached Feng Wulin, causing him to start to panic. He unleashed all kinds of abilities, but the effects were quite weak against the insects.

In the end, countless insects entered Feng Wulin's body, and he felt an immense pain as if there were countless insects devouring his body, causing him to howl.

Gui Ji grasped this opportunity and knocked Feng Wulin out with a punch before sealing his power.

This caused the Wind God army's soldiers to look incredibly shocked; they had never thought that their commander would lose so easily. The other Generals all looked incredibly shocked before calming down and continuing to attack. Only that way could they save Feng Wulin.

However, a magic formation suddenly appeared on the ground. Before the soldiers could react, many of them disappeared.

The Wind God army soon found that these were teleportation channels that forced teleportations. The Generals immediately gave the order to destroy the magic formations, but in the few moments earlier, around 1.5 billion soldiers had been teleported away.

This caused the Wind God Empire's Generals to pale and they quickly gave the order to retreat. The situation was now completely unfavorable to them: not only had their strongest expert, Feng Wulin, been captured, but 1.5 billion soldiers had also disappeared. If they went on, they would definitely lose.

The remaining 2.1 billion soldiers quickly retreated. The Wind God Empire had lost around 400 million Stage 3 soldiers, while Great Qin had lost around 10,000 beasts and around one billion soldiers.

Even though Great Qin's losses were massive, to be able to take down 400 million or so Stage 3 soldiers, this was still worth it.

Zhao Fu did not order Great Qin's army to give chase because there were still one billion Wind God soldiers guarding the four worlds. In total, the Wind God Empire still had 3.1 billion soldiers and if Great Qin gave chase, they would suffer great losses.

Zhao Fu did not have the mind to care about any of this. He quickly flew to the Four Soul Devil World, as he had a very daring idea.

That idea was to convert all of the Wind God soldiers into devils and have them obey Great Qin's orders and no longer serve the Wind God Empire.

However, this would be quite difficult, as Stage 3 soldiers could unleash powerful defenses that could defend against the invasion of the devil qi. Moreover, they might be able to break through the barrier of the Four Soul Devil World, which Zhao Fu was most worried about, so he immediately headed there.

None of the devils had participated in the battle, and instead they were spread out around the Four Soul Devil World, forming a massive formation. There were now a whopping two billion devils.

Seeing the blood-red sky, black ground, and strange-looking grasses and trees, the Wind God soldiers could not figure out where they were.

Momijigari gave a sinister smile as she called out, "Activate the Devil Qi Formation!"

The countless devils obeyed and tilted their heads back as they roared and large amounts of devil qi flowed out of them, causing the Four Soul Devil World to become chaotic. Devil wind started to blow as devilish thunder sounded out.

Under the control of 100 devils, the central magic formation of the Four Soul Devil World started to spin. The devil qi seemed to be controlled by a formless energy and gave off massive power as it flowed towards the Wind God soldiers.

The soldiers did not know what the devil qi was, but they could tell that it was very dangerous so they quickly released energy barriers.

However, with their own power, how could they stop the massive and ferocious devil qi? Their energy barriers were instantly shattered by the devil qi, and countless traces of devil qi madly entered their bodies.

“Arghhh...” The soldiers cried out as the crazy power spread out in their bodies. Their eyes became red as terrifying auras exploded out from their bodies.

The remaining Wind God soldiers’ expressions fell and they hurriedly gathered together to form large energy barriers that were able to stop the devil qi.

The massive devil qi madly attacked the energy barriers and repeatedly slammed into it, causing them to crack. After many repeated assaults, the energy barriers shattered, and the devil qi rushed in and started to invade their bodies.

Fortunately, the soldiers were all split in different places and could not easily gather together, or else it would not have been so easy to destroy their barriers.

By the time Zhao Fu arrived, everything had settled down and countless Wind God soldiers were absorbing devil qi themselves and going through the process of becoming a devil. Zhao Fu could not help but feel delighted; now, Great Qin would obtain 1.5 billion Stage 3 devils.

Chapter 1436: Altar

Zhao Fu left this place to the main devils as there were many things waiting for Zhao Fu to take care of. After the battlefield was cleared, Zhao Fu gathered his subordinates because they were now enemies with the Wind God Empire, so Great Qin would soon be ferociously attacked.

News of the Wind God Empire’s great defeat spread quickly, and countless people looked incredibly shocked. No one could have imagined that Great Qin would defeat the invincible Wind God Empire.

Just how had it done this? How could an outer region Kingdom be a match for an inner region Royal Kingdom? Most Kingdoms would not dare to even offend an outer region Royal Kingdom, yet Great Qin had defeated the Wind God Empire.

Yao Ming looked incredibly shocked and furious; the Wind God Empire had actually lost. How could Great Qin have become so strong and have an Emperor Heaven Realm expert?

Now, Yao Ming felt immense pressure. Before, he had been quite pleased that he had conquered a world and was on the same level as Great Qin. However, that had only lasted for a short while; Great Qin's strength had become so monstrous and the Devil Horn Empire was not a match for it.

Also, was there an inner region Royal Kingdom helping Great Qin? He had to investigate this clearly, or else Great Qin might take this opportunity to destroy the Devil Horn Empire.

Now, the Devil Horn Empire also had to make preparations, as Great Qin might attack at any time. They could not afford to be careless.

The various Royal Kingdoms in the inner regions of the Ancient Stem Domain also looked quite surprised. They had never imagined that Great Qin could defeat the Wind God Empire.

They had indeed underestimated Great Qin this time and felt a trace of pressure upon seeing the strength that Great Qin had revealed because they did not have Emperor Heaven Realm experts.

Now, they had to take Great Qin seriously and could no longer see it as a small Kingdom that could be easily bullied. They now had to see it as an opponent that they had to take seriously; it was an empire that was rising powerfully in the outskirts.

However, this situation had only resulted because the Wind God Empire had been careless and had thought that it could do as it wished in the outskirts. It had run into a difficult opponent and had suffered losses, and the Wind God Empire would not simply endure this and would definitely mobilize troops to destroy Great Qin.

When that time came, Great Qin would have to face a real Royal Kingdom and not just four billion Stage 3 soldiers. Could Great Qin resist such a terrifying force?

Most of the Royal Kingdoms felt that this would be quite difficult. Even if it was them, they would feel immense pressure and might even be destroyed.

Just as everyone expected, the Wind God Empire was enraged and had never thought that an outskirts Kingdom would retaliate against it and cause it to lose two billion Stage 3 soldiers. This was simply unforgiveable.

The Wind God Empire immediately gathered its forces and had three of its other Emperor Heaven Realm experts lead the army. It was determined to slaughter that small Kingdom this time and show its might. It could not allow a small Kingdom to humiliate it.

Zhao Fu was also making all kinds of preparations. He came to a room and looked at the unconscious Feng Wulin and asked the golden dragon, “Great Qin is going to face a great threat; if we can make this Emperor Heaven Realm expert work for us, it will be of great help. Do you have any methods?”

The golden dragon shook her head. Emperor Heaven Realm experts were people who could control the power of ten worlds, and they were not so easy to control.

Even if they put him in the Four Soul Devil World, it would not be enough because his power was too strong and the Four Soul Devil World’s power was too weak and could not transform him into a devil. Unless the Four Soul Devil World became as big as a world, only then would it be able to convert an Emperor Heaven Realm expert.

Following this, Zhao Fu asked Gui Ji and the Flower Fairy. They were both people who had once been powerful existences, so perhaps they would know something. However, they did not know either and did not have such memories.

This made Zhao Fu feel quite disappointed; would he have to kill this Emperor Heaven Realm expert? That would be such a pity, as he was an existence that could sweep across the outer regions.

What Zhao Fu did not expect was that it was Hong Mei, the woman from the Outer World, who had a method, and it was relying on the curse that Feng Wulin had suffered.

The curse had been unleashed using ten million Insect eggs, which were very suitable materials for cursing. That was why the curse was so powerful and even Feng Wulin could not resist it.

Of course, it was to have other Emperor Heaven Realm experts present to suppress Feng Wulin if he went crazy.

The method Hong Mei provided was to continue to collect Insect eggs and curse Feng Wulin, sending countless Insect Souls into his body and causing his body to become a vessel for the Insect Curse. After fusing in a Den, perhaps he could be controlled.

It would be best for the one controlling him to be someone from the Outer World because they had natural affinity with the Insect Outer World creatures and could even control them.

Zhao Fu immediately ordered people to quickly destroy Insect Dens in the Outer World Battlefield and collect Insect eggs and Insect Dens, so they could quickly control Feng Wulin. If they succeeded, they would gain another Emperor Heaven Realm expert.

As for the person who would control Feng Wulin, it was naturally Hong Mei because she was the only Outer World person who had submitted to Great Qin. Of course, controlling an Emperor Heaven Realm expert was a big matter, and Zhao Fu did not fully trust Hong Mei.

Looking at Hong Mei's beautiful face and enticing figure, Zhao Fu went up and hugged her.

Hong Mei's face became red and she looked at Zhao Fu expectantly. She had not done it with Zhao Fu in the past while, and the position her ex-husband took in her heart was gradually decreasing, while Zhao Fu's position was increasing.

At the same time, Hong Mei could tell that Zhao Fu was somewhat wary of her, so she wrapped her arms around his neck and said flirtatiously, "Husband, I've already acknowledged you and won't betray you."

Zhao Fu lightly laughed and carried her into a room before they started going at it.

A while later, Zhao Fu looked at the heavily-breathing Hong Mei in his arms and he smiled because he had planted the Six Desires Demonic Seed within her body and could fully control her. It would also increase her strength; right now, she was still quite weak and needed to become stronger.

Following this, Zhao Fu collected 15 million Insect eggs and five Insect Dens. These were not from Great Qin's forces in the Outer World Battlefield but from exchanging in the Heaven Spirit Stele.

Now that the materials had been prepared, Zhao Fu immediately started using the curse. During this time, he felt quite anxious, as he had no idea when the Wind God Empire would attack.

They once again came to the cursing altar and the Insect eggs that had originally been there had lost all lifeforce and become husks, and they were replaced with the living eggs.

Xianru once again cast the curse. She rapidly performed hand seals and a magic formation appeared as a formless energy spread out. The countless Insect eggs gave off traces of gray aura and gathered around the altar.

Chapter 1437: Insect Curse Body

The next step did not require Zhao Fu to do anything and was performed by Hong Mei. Feng Wulin had already been placed on the magic formation.

Xianru left the magic formation and came to Zhao Fu's side.

Hong Mei walked into the magic formation, and her expression became serious as she tore open the clothes on Feng Wulin's upper body and then took out a dagger. She cut open her palm and then pressed it against Feng Wulin's chest as she started to chant a strange curse.

The gray aura in the surroundings started to roil, forming images of different insects. They were incredibly dense and looked quite terrifying.

"Insect Devour!" Hong Mei cried out and pressed down vigorously as the countless Insect Souls flooded into Feng Wulin's body.

The unconscious Feng Wulin once again started to struggle in pain as beads of sweat appeared on his body. There were countless Insect Souls devouring him and fusing with his soul.

This did not go on for too long, and after one final scream, Feng Wulin fell silent. Following this, Hong Mei took out five Insect Dens.

Under Hong Mei's control, the five Insect Dens floated in the air and gave off different-colored lights before moving towards Feng Wulin's body, fusing into his hands, feet, and heart.

Feng Wulin's body started to go through changes; his eyes became like insect eyes and antennae appeared on his head. Black claw-like things grew on his hands, making them look like black claws, and his aura became quite strange as well.

"Husband, it is done." Hong Mei stood up and smiled as she spoke to Zhao Fu.

Zhao Fu smiled as he nodded. He could not control Feng Wulin, so he had Hong Mei try to control him.

Hong Mei first had Feng Wulin stand up, fly into the sky, and unleash all kinds of powerful attacks, causing massive gusts of wind. Not only did his power not become weaker, but he had even become slightly stronger and his constitution had become stronger as well.

Zhao Fu was incredibly delighted; Great Qin had gained yet another Emperor Heaven Realm expert and had another trump card. Zhao Fu now felt much more at ease.

Boom! Boom! Boom...

Within the Desolate Crow World, nine massive bronze cauldrons gave off intense bronze light, causing clouds to swirl as they gave off a world-suppressing aura and exploded, creating incredibly destructive shockwaves.

Countless massive Desolate Crow Beasts and Desolate Crow Kingdom soldiers were dragged in and turned into fragmented corpses. The shockwaves continuously blasted out, destroying everything in their way.

Si Ji's expression was incredibly cold as he gave the order for an all-out attack on the Desolate Crow Kingdom. A countless number of Great Xia's soldiers roared as they rushed at the Desolate Crow Kingdom like an unstoppable flood.

Zhao Fu quickly received news that while the Wind God Empire had been attacking Great Qin, Si Ji had been attacking the Desolate Crow Kingdom.

At that time, Great Qin found it difficult to protect even itself, so it naturally did not help the Desolate Crow Kingdom. More than half of the soldiers who had been stationed at the Desolate Crow Kingdom had been withdrawn, and Si Ji had grasped this opportunity to attack the Desolate Crow Kingdom.

He had to grab this opportunity, because only by unifying a world could he have some strength to resist Yao Ming. Only then would he have the qualifications to speak, or else after Great Qin perished, Great Xia would be next.

This time, he did not hesitate to even cause the Great Xia's Nation Armament to self-destruct. The explosion had not only killed countless Desolate Crow Beasts and Desolate Crow soldiers, but it had also killed two incredibly important people – the Desolate Crow Kingdom's King Moke and his son Moyue.

After they died, the Desolate Crow Kingdom no longer had any leaders and fell into chaos, unable to resist Great Xia's attack.

Now, the Desolate Crow Kingdom hurriedly retreated with Great Qin's soldiers to Great Qin, and Zhao Fu soon heard about this.

Zhao Fu had never expected Si Ji to attack at that moment and with such ruthlessness too, causing Great Xia's Nation Armament to self-destruct. This was not something that an ordinary person could do.

After hearing about this, Xueru and her daughter could not help but cry; this was too much of a shock.

Only half of the Desolate Crow Kingdom's people were able to withdraw, around ten billion people. Great Qin was currently settling them down, and the remaining half had either submitted to Si Ji or had been killed.

“Your Majesty, you have to take revenge for Moyue and my father. I'll give you everything.” Heni hugged Zhao Fu as she wept.

Zhao Fu felt quite helpless, looking at the beautiful women standing by the side, which included the sad-looking Xueli, Xueru's little sister, and three other women.

One had a full figure and looked quite elegant, and she was called Ruoli. One had a wild aura and a fiery figure, and she was called Fei Xuemi. One looked incredibly charming and was called Ye Qilai. The three of them were Moke's Concubines.

Now that the Desolate Crow Kingdom was gone, they had no one to rely on. In order to prepare for the future, they could only join Zhao Fu.

Xueli also looked quite sad. Back when Moke had taken her from her husband, she had been quite angry at Moke. However, Moke treated her very well and she had gradually come to accept Moke, but she now had nothing.

She thought about her big sister Xueru. If she also became Zhao Fu's woman, she would be able to be with her big sister and she would have someone to rely on.

Zhao Fu did not reply to Heni's words, and he slightly frowned. The other women thought that Zhao Fu did not want them and took off their clothes as they pleaded, "Your Majesty, please take us in!"

"Your Majesty, please accept me, okay?" Heni tightly hugged Zhao Fu as tears danced in her eyes, looking incredibly pitiful. Right now, she could only rely on Zhao Fu to take revenge for Moyue and her father.

After saying this, Heni took the initiative to kiss Zhao Fu.

Zhao Fu slightly sighed and took off her clothes, after which the room sounded out with intense sounds that went on for a while.

"Husband!" Heni's face was red as she hugged Zhao Fu and happily called out. She had never thought that doing it with Zhao Fu would be so pleasurable; the pain from before was completely gone and she instead felt incredibly comfortable. She was quite happy that she had given her first time to Zhao Fu.

The other women all looked incredibly comfortable, and they did not look sad or pained anymore. Xueli lay in Zhao Fu's embrace and breathed raggedly; she now understood why her big sister was so infatuated with Zhao Fu.

She hugged Zhao Fu tightly, as if she was afraid of losing him like she lost her previous two husbands, and she said, "Husband, you can't leave me like they did."

Zhao Fu smiled and hugged Heni and Xueli, "Stay in Great Qin in the future; I'll take care of you all. Also, I have some things to do, so I'll need you to help me comfort Xueru and the others. They're quite upset about this."

Hearing this, the women nodded and smiled as they agreed.

Zhao Fu soon heard that the Wind God Empire had gathered 25 billion soldiers and were ferociously heading towards Great Qin.

Chapter 1438: Great Loss

25 billion soldiers were around half of the Wind God Empire's forces; a Royal Kingdom at most had around 40 billion soldiers. There had been already five billion Wind God soldiers here, and now that 3.1 billion remained, that was a total of 28.1 billion soldiers.

This time, the Wind God Empire was getting serious and had mobilized nearly 70% of its forces to destroy Great Qin. They even publicly announced that they would be slaughtering Great Qin and making Zhao Fu's harem prostitutes.

Such a massive force caused the Ancient Stem Domain's other Royal Kingdoms to look quite scared. 28.1 billion Stage 3 soldiers could rival 281 billion Stage 1 soldiers; they really could wipe out Great Qin.

Such a massive force would definitely cause a catastrophe within the Ancient Stem Domain. Thinking about that massive aura, countless people felt terror and their bodies trembled.

Zhao Fu had caused great trouble this time; how could an outskirts Kingdom defend against an inner region Royal Kingdom? It should have given in and just ceded a world.

Now that 28.1 billion Stage 3 soldiers were attacking, how would Great Qin defend?

After hearing about this, Yao Ming started to make defensive preparations as well and had no time to bother with Si Ji. If the Wind God Empire attacked, they might not just destroy Great Qin and might destroy the Devil Horn Empire as well. That would leave only the Wind God Empire in this area.

After hearing about this, Zhao Fu's expression became quite unsightly. The three Emperor Heaven Realm experts were not too big of a problem, because with Gui Ji, Feng Wulin, and himself, they could stop them. However, the 28.1 billion Stage 3 soldiers were the most terrifying thing.

He had to do something, or else Great Qin really could perish. Traveling from the inner regions of the Ancient Stem Domain to Great Qin would take quite a long time, and even with teleportation channels, it would take at least ten or so days to arrive.

What Great Qin could do was continuously harass them during this trip, dragging out the trip and reducing their forces.

Zhao Fu did not hesitate and withdrew all of Great Qin's beasts from the Outer World Battlefield. Dealing with these high-Stage soldiers, only the beasts would be effective, and the ordinary Stage 1 soldiers would just be committing suicide.

Of course, Zhao Fu also brought a small force of soldiers to set up various things. Whether or not they could stop the Wind God Empire would depend on this operation.

For the sake of this operation, Zhao Fu gathered all of the people with special abilities in order to deal with this with Great Qin's full force.

At the same time, the three Wind God Empire Emperor Heaven Realm experts led other experts and soldiers through the teleportation channels.

The soldiers gave off massive auras that shook their surroundings, causing the air to seem to freeze. Countless creatures quickly escaped, and none dared to get close.

However, they soon sensed that something was off, and just as the three Emperor Heaven Realm experts were about to give the order to be careful, the unexpected happened.

Swish, swish, swish...

The sounds of the air being torn could be heard as countless arrows shot out from the side, containing ferocious power as they shot into the Wind God army. The Wind God soldiers were unable to respond in time and countless people were killed. Some people quickly unleashed defensive barriers, but the barriers were easily pierced through.

Blood splattered everywhere and the stench of blood spread out as countless cries sounded out. Many people died, and corpses littered the ground, creating a horrific scene.

Before the Wind God Empire could react, more attacks were launched.

Bang! Bang! Bang...

Blood-red orbs of light containing terrifying auras were shot over from another side, falling into the army and causing massive explosions. Incredibly destructive shockwaves rippled out, blasting soldiers out.

100 meter wide craters appeared in the ground, and the surroundings were filled with broken corpses and limbs and organs, creating a nauseating scene.

“Arghhh...” Howls sounded out as countless traces of demonic qi flowed up from the ground, turning into sharp claws that pierced through countless soldiers’ chests, digging out their hearts. Soldiers fell to the ground one after another, creating a bloody scene.

These attacks were all launched simultaneously, giving the Wind God Empire no opportunity to react. They hastily put up a large defensive barrier, allowing them to breathe, but what happened next caused their expressions to fall.

“Kill!” Three armies rushed out from different directions, giving off terrifying auras as they charged towards the Wind God Empire, looking like they could destroy everything.

One army gave off a dense demonic qi, one army gave off a bloody stench, and one army gave off the aura of humans. None of them were weak at all, and they all had Stage 3 Cultivation. Each of the incoming armies had at least 20 billion soldiers, which was 60 billion in total.

The Wind God Empire's three Emperor Heaven Realm experts' expressions fell and immediately gave the order to retreat, understanding that they had fallen into a trap. Moreover, it was a trap set up by three Royal Kingdoms.

However, it was too late – the three armies had already arrived, and they could only fight while retreating.

A soldier held a large saber and chopped another soldier's head off, one soldier pierced through another soldier's chest with his spear, and one soldier used his axe to hack another soldier in half.

One soldier's hands stretched out with blood-red tentacles, piercing through another soldier's throat, one soldier gave off a wind-like sword qi that slashed apart another soldier, and one soldier roared as he sent another soldier flying with a punch.

Nine experts appeared around the Wind God Empire's three experts. They gave off monstrous auras and were also Emperor Heaven Realm experts.

A big man giving off demonic qi laughed as he mocked, "The Wind God Empire really is trash, sending so many soldiers to deal with an outskirts Kingdom. How shameless! It seems that you lost that previous battle."

The Wind God Empire's people now understood what was happening – the Wind God Empire's enemy, the Demon Wind Empire, had allied with the Blood Spirit Empire and Clear Martial Empire to ambush them here.

The Demon Wind Empire had not acted this whole time, waiting for an opportunity to heavily wound the Wind God Empire.

"Full retreat!" The Emperor Heaven Realm expert coldly looked at the big man before leading the others and shot off. They were facing nine Emperor Heaven Realm experts who were not inferior to them at all; they had no chance at winning.

The big man coldly laughed, "You want to run? Everyone, don't miss this opportunity; kill them together!"

The other Emperor Heaven Realm experts all gave chase, and a massive battle erupted, seeming like the apocalypse.

In the end, the Wind God Empire retreated after suffering a great loss. One of the Emperor Heaven Realm experts had died and the other two had escaped with severe injuries. Of the 25 billion soldiers who had set out, 15 billion had died and only around ten billion had escaped back to the Wind God Empire.

Chapter 1439: Yin Soul Beast

For the three Royal Kingdoms who had laid the ambush, the nine Emperor Heaven Realm experts only received some injuries but none of them were life-threatening. They lost around two billion soldiers, and this could be said to have achieved a great victory.

The Wind God Empire had suffered a heavy loss; it had already lost around two billion soldiers and one Emperor Heaven Realm expert fighting Great Qin, and now it had lost another 15 billion soldiers and another Emperor Heaven Realm expert.

Adding together, they had lost 17 billion soldiers and two Emperor Heaven Realm experts. Royal Kingdoms only had around 40 billion soldiers, meaning they had lost almost half of their forces.

Moreover, those two Emperor Heaven Realm experts were not existences who could be easily nurtured. Not only did it take countless resources, but it also required people with extremely great talent. Even though it was only two people, it was a heavy loss.

Moreover, this matter was incredibly infuriating because a small outskirts Kingdom had dared to anger them and had not given them face. Only by slaughtering them would the Wind God Empire be able to quench its hatred and prove the might of its name.

However, not only had that Kingdom not been destroyed, but the Wind God Empire had also been ambushed by three Royal Kingdoms, resulting in massive losses. This made the Wind God Empire incredibly furious and humiliated.

Moreover, the Wind God Empire now needed to enter a defensive state to defend against those three Royal Kingdoms, and it was now in quite a disadvantageous position.

The Wind God Empire could only send out ambassadors, hoping to ally with other Kingdoms to resist those three Royal Kingdoms.

By the time Zhao Fu and his army arrived, they found only the aftermath of the battle. This place had been reduced to flat ground, and countless trees had been broken and broken rocks were everywhere, creating a chaotic scene. The ground was also dyed with blood and there was a dense stench of blood; even the sky seemed to be dyed blood-red by the aura of blood.

The scene was incredibly terrifying, and one could easily imagine how intense the battle had been; countless people had died here.

However, Zhao Fu could not understand what had happened to the Wind God Empire. Regardless, it seemed that Great Qin's crisis was resolved and they no longer had to worry about the Wind God Empire attacking.

What delighted Zhao Fu the most was the countless Stage 3 corpses everywhere; almost all of them belonged to the Wind God Empire. However, all of their equipment and other valuables had been stripped from the corpses. As inner region soldiers, they all had Silver grade equipment and all kinds of items, which were quite valuable.

However, Zhao Fu did not mind this too much, because just the countless corpses alone were like a massive treasure trove. Great Qin could refine all of these corpses and obtain a large number of Stage 3 Blood God Pills.

With these Blood God Pills, if they were given to Stage 2 soldiers, their cultivation would greatly progress and Zhao Fu would have his own army of Stage 3 soldiers.

If he had his own army of Stage 3 soldiers, he would no longer have to fear Royal Kingdoms. With Stage 3 soldiers, Great Qin would have the chance to retaliate.

Moreover, these countless corpses were completely free and Zhao Fu did not have to pay any price for them; all he had to do was put these corpses away.

Not only had the crisis been resolved, but he had also obtained such great benefits, causing him to loudly laugh in joy. He ordered the army he had brought to quickly collect these corpses to avoid anything unexpected.

Only after Zhao Fu returned did he hear about what had happened. The Demon Wind Empire, which he had placed no hopes in, had acted, dealing a severe blow to the Wind God Empire and unknowingly saving Great Qin. As such, Zhao Fu felt somewhat grateful.

However, Zhao Fu would not contact the Demon Wind Empire, as they were not good people because of this. They were not trying to help Great Qin and had instead benefitted from the situation because of Great Qin.

The factions in the Ancient Stem Domain and other Domains who had been paying attention to this were all shocked; they had never thought that things would be resolved like this. Great Qin had not been destroyed and had escaped this disaster.

After this event, the name of Great Qin spread throughout the surrounding few Domains. This was the first time an outskirts Kingdom had dared to resist an inner region Royal Kingdom and not be destroyed. The strength it had displayed was incredibly shocking.

In the neighboring Green Province Domain, the various Royal Kingdoms like Shi Shuge now heard about Zhao Fu's name and felt quite curious.

They did not know that they had long since known Zhao Fu, and his true identity would make them even more shocked and terrified. Of course, they would never expect that he was the ruler of a small outskirts Kingdom, as they thought that he was that mysterious Emperor.

After hearing about this, Yao Ming felt incredibly disappointed because he had thought that Great Qin would definitely be destroyed. However, it had escaped this disaster; it was simply too lucky.

Now, the Wind God Empire army stationed in this area was no longer as arrogant, and it obediently defended the four worlds, not daring to launch any attacks.

After this incident, the surrounding worlds were able to let out a sigh of relief. They had been living under the threat of the Wind God Empire and lived every day in fear and anxiety. Facing the Wind God Empire, they had no ability to resist.

Only Great Qin had been tough, daring to resist the Wind God Empire, causing it to receive the admiration of the surrounding worlds.

Great Qin's reputation skyrocketed, and countless people looked up to Great Qin's Emperor. Many women's hearts now belonged to him; even despite knowing that he had countless women in his harem, they were still willing to follow such a famous and talented genius.

After returning to Great Qin, Zhao Fu handed the corpses to his subordinates and had them refine some of them. Great Qin had two billion Stage 2 soldiers and most of them had not used Stage 3 Blood God Pills yet.

Following this, Zhao Fu heard that the Yin Soul Beasts had been nurtured, so he brought some Yin Soldiers to have a look.

Most of the 10,000 jars placed on the ground had not developed Yin Soul Beasts yet. The ones that became Yin Soul Beasts faster would definitely be of higher quality.

The Yin Soul Beasts that were nurtured were illusory creatures that gave off Yin Qi and floated above the jars, giving off Stage 1 auras.

They looked quite different than before – Zhao Fu saw a little boy who looked four or five years old, and his body was covered with gray scales. His eyes were did not have pupils, looking quite savage.

Zhao Fu called over a Yin Soul and had him make a bond with the little boy. Two runes appeared on each of their foreheads before disappearing.

After the bond was created, the little boy fused into the Yin Soldier's body, and a powerful aura exploded out from the Yin Soldier's body. The Yin Soldier grew scales and two fangs, and he gave off a ferocious aura and Stage 2 power.

This was their fused state and the two of them could still separate. The Yin Soldier could control the little boy to fight, and the Yin Soul Beast little boy could absorb Yin Qi and grow stronger. Right now, he was lying on the Yin Soldier's back.

Chapter 1440: Mosquito Horde

"Your Majesty, there have been abnormal movements in the Outer World; please take a look," a soldier came up and respectfully reported.

Zhao Fu was looking over the Yin Soul Beasts, and after hearing about this, he quickly left to the Outer World. Most of Great Qin's beasts had been withdrawn from there, so without the beasts holding down the fort, if anything happened to Great Qin's forces there, things would be quite severe.

After coming to the Outer World, Zhao Fu looked at Arasina and asked, "What's going on?"

Arasina replied with a serious expression, "A group of Blood-Sucking Mosquitos are heading towards Great Qin's base and there are many of them, around three billion or so. Moreover, they are all flying Insects. With the base's status, if they attack, the consequences will be quite severe.

Hearing this, Zhao Fu nodded and asked, "Do we have any countermeasures? Also, what are those Blood-Sucking Mosquitos like? Do we know their weaknesses?"

"Come with me! Right now, your subordinates are doing research. The Blood-Sucking Mosquitos have only just started moving and are some distance away from the base. I just wanted to warn you in advance," Arasina said as she started to walk.

Zhao Fu followed behind her, and looking at Arasina's alluring figure, he smiled and hugged her as he said, "Good thing that the base has you looking after it; it has developed quite well."

Arasina rolled her eyes as she said, "It's not just because of me; those female Generals of yours have been quite useful as well. Later you need to properly reward us; otherwise, I definitely wouldn't want to stand guard in the Outer World without any benefits."

Zhao Fu smiled as he nodded, and Arasina leaned against him as they came to a room.

There were a few scholars dissecting a Blood-Sucking Mosquito with a few imprisoned in a cage nearby. Great Qin had been researching all sorts of Insects, and in order to make things more convenient and speed up the process, Zhao Fu had set up a research station in the Outer World.

Zhao Fu now saw what the Blood-Sucking Mosquitos were like. They were one meter long and were blood-red colored. Their proboscis, the part they used to suck blood, were incredibly sharp and were like long needles, and their abdomens gave off a faint blood-red light.

If these mosquitos sucked someone's blood, they would be able to quickly suck that person dry. They were incredibly dangerous, especially if they appeared in groups.

Seeing Zhao Fu arrive, the researching scholars immediately stopped and respectfully called out, "We greet Your Majesty!"

Zhao Fu nodded and asked them, "What have you found?"

The leader of the scholars replied, "Your Majesty, we originally planned to use fire to deal with these Blood-Sucking Mosquitos because their wings are quite thin. If we use flames, we can destroy them, and without wings, these mosquitos are almost harmless.

"However, from our experiments, we found that it is quite difficult to burn these mosquitos' wings and they have decent resistance to fire. Moreover, it's not just the Blood-Sucking Mosquitos; most creatures in the Outer World have great resistance to fire and light. This subordinate believes that it is because they have adapted to the eight suns. As such, it seems that using Darkness elemental essence can suppress them."

Hearing this, Zhao Fu felt quite delighted because this was an important discovery. Now that they had found that Darkness elemental essence could counter the Insects, Great Qin would use all kinds of items using Darkness energy.

Arasina, the Fallen Angel Goddess, was a Darkness godly spirit and she would be quite useful. Zhao Fu also thought of another person, which was the Darkness Queen Syndra. Even though she was not as powerful as Arasina, she could produce a large number of Darkness Crystals.

Moreover, she was a pure Darkness attribute character and had great comprehension about various Darkness elemental essences. If she joined in the research, she would be of great help.

Zhao Fu summoned Syndra, and she soon arrived. After receiving much love from Zhao Fu, her Queen aura became stronger and she had a trace of flirtatiousness, and her figure became even more enticing.

"Your Majesty, what have you called me for?" Syndra hugged Zhao Fu as she looked at Zhao Fu with her beautiful eyes and smiled.

As a Darkness godly spirit, Arasina gave Syndra much pressure. However, Syndra knew that Arasina was also Zhao Fu's woman and had served Zhao Fu with her before, so she did not treat her with as much reverence.

Zhao Fu told her about the matter at hand and she smiled and quickly agreed to join in the research.

At the same time, Zhao Fu ordered people to prepare other things. They needed a large number of arrows as well as all kinds of defensive barriers. Against these aerial creatures, the defensive walls were much less effective, so they could only rely on defensive barriers. Zhao Fu also ordered people to continuously monitor the movements of the mosquitos.

Three days later, the Blood-Sucking Mosquitos suddenly greatly increased their speed. It had been estimated that it would take them over a week to arrive, but it would now only take three days.

Before they could even see the mosquito horde, the buzzing seemed to shake the heavens, and everyone felt a sense of dread and felt as if their eardrums were going to burst. The buzzing gave off an incredibly dangerous aura, and hearing this sound, the surrounding creatures quickly ran for their lives.

Wherever the Blood-Sucking Mosquitos passed, no living creatures remained; all of them were sucked dry. Not a single creature did not fear them.

Following this, the people at Great Qin's base saw the mosquito horde. They seemed to cover the entire sky and were simply innumerable.

嗡嗡嗡...

Most of the Blood-Sucking Mosquitos were one meter long, but there were also some two meter long ones, even ten or so meter long ones, and over 100 meter long ones. What was shocking was that at the center, there was a 10,000 meter long Blood-Sucking Mosquito.

That was most likely the Blood-Sucking Mosquito King; such a massive mosquito horde definitely needed a King to form.

With so many Blood-Sucking Mosquitos, Zhao Fu did not dare to let out the beasts, as they would quickly be sucked dry. There were simply too many Blood-Sucking Mosquitos.

Buzz... Buzz... Buzz...

The Blood-Sucking Mosquitos entered Great Qin's attack range, and the Insect Den Wyverns and Spirit Light God Emissaries attacked.

Great Qin did not have many Inset Den Wyverns, only 100 or so. However, each of them was dozens of times more powerful than the Spirit Light God Emissaries. They shot out massive beams of light that contained terrifying power that blasted into the mosquito horde and caused massive explosions.

The Spirit Light God Emissaries also raised their hands and sent out powerful Holy Light energy, also causing explosions.

The terrifying explosive power blasted countless mosquitos into countless pieces, which fell like rain from the sky, creating a disgusting scene.

However, those attacks only killed a small portion of the mosquitos. Despite this, the mosquitos' momentum had greatly been decreased, and the Blood-Sucking Mosquitos started to spread out.
