

The Lord 1501

Chapter 1501: Fish Person

The fourth level was a water region and the water was black-colored. It gave off dense demonic qi and there were many demonic beasts within. They were quite big and at least seven or eight meters long.

With so many creatures around, Zhao Fu once again released the 11 Evil Flower Demons to devour them. They ate all the way to the end of the fourth level and obtained large amounts blood and flesh.

There was a stone stage built on the water at the end of the fourth level, and it was protected by a barrier. There was a 10,000 meter tall fish person guarding it – it had a fish head and a humanoid body. Its body was relatively black and it held a trident, and it gave off a terrifying aura.

Zhao Fu did not feel any fear and led the 11 Eleven Flower Demons to surround this fish person.

The fish person was then encircled and attacked by the group. It swung its trident and a formless energy spread out, causing the water to gather into a massive wave that rushed towards the Evil Flower Demons.

The Evil Flower Demons became illusory and the enormous wave passed through them. They then opened their large mouths and bit towards the fish person.

The fish person was greatly startled and sent power into the trident, causing it to give off an intense light and a terrifying aura.

Boom!

The fish person vigorously stabbed with the enormous trident, causing an explosion to sound out. The trident stabbed into an Evil Flower Demon that had become illusory, causing it to roar in pain, and it grabbed onto the trident.

The other Evil Flower Demons leapt at the fish person and the fish person's expression became quite unsightly. It tried to pull back but could not withdraw the trident, so it could only face the incoming Evil Flower Demons with its fists.

The fish person gripped its fists and gave off boundless light. It swung one of its fists, which contained enormous power, sending one of the Evil Flower Demons flying. It then spun and punched out again, sending another Evil Flower Demon into the water.

However, another Evil Flower Demon sent out its arms, and its palms turned into two large mouths that bit onto the fish person's legs. Its massive teeth sank into its flesh, causing the fish person to feel immense pain and roar in pain.

The headless Evil Flower Demon with a big stomach grabbed this opportunity to leap onto the fish person's back, and the large mouth on its stomach bit at the fish person's back. Blood spurted everywhere and a large chunk of flesh was bitten off.

The dragon-shaped Evil Flower Demon flew over and opened its large mouth, vigorously biting onto the fish person's arm. The Elder Evil Flower Demon also leapt over and bit onto the other arm.

The Evil Flower Demon with five snake heads ferociously stretched out its heads as it bit towards the fish person's head.

By now, the fish person's legs, hands, and back were all being bitten by the Evil Flower Demon, so it was unable to dodge the snake heads. The five snake heads bit onto the fish person's head, causing blood to flow out.

Even more Evil Flower Demons leapt up, tearing at the fish person's body, causing it to howl. The fish person's flesh was continuously torn off, making it look incredibly bloody.

In the end, the fish person was bitten to death by the Evil Flower Demons and was devoured by them. Zhao Fu obtained a Fish Pearl, which was like a gemstone and was as big as a fist, and it gave off a faint demonic light.

The fish person also had demon attributes and the Fish Pearl contained powerful demonic energy. It could help Zhao Fu create the final Evil Flower Demon, but he did not plan on devouring it for now because he had not finished exploring the historical remnant yet.

Zhao Fu came to the stone stage and the barrier had disappeared after the fish person died. Zhao Fu went up and saw a clump of deep blue liquid that seemed to have consciousness.

Zhao Fu looked at this item's information and found that it was called Water Race Spirit Blood. It was blood left behind by a powerful Water Race creature and contained powerful spiritual attributes.

This blood had its own consciousness and formed a blood spirit. Fusing with it would bring great benefits and would allow one to breathe underwater and obtain a Water Spirit Constitution, and it would give one great affinity with water elemental essence and the power to control water.

More importantly, it would allow one's bloodline to obtain a trace of spirituality and would have great effects.

Zhao Fu did not hesitate and opened his mouth and sucked, sucking the liquid into his mouth and started to refine it.

Zhao Fu's body gave off a deep blue light, and water elemental essence quickly gathered around him before flowing into his body. The Water Race's aura soon came out from Zhao Fu's body.

A while later, Zhao Fu once again opened his eyes, which now contained some blue light. Zhao Fu's hair also became slightly blue and he looked somewhat like a Water Spirit, giving off a powerful Water Race aura.

This condition gradually disappeared and Zhao Fu soon returned to normal and gave a satisfied smile as he headed towards the fifth level.

The fifth level was a maze and there were gray, metallic walls everywhere that contained runes. They were very difficult to destroy, and even though the walls were only ten meters tall, they could not be flown over. Moreover, when Zhao Fu released the Evil Flower Demons, they were suppressed to ten meters in height.

Zhao Fu tried to have the Evil Flower Demons jump or stack together to see if they could see further away in order to avoid walking in circles.

However, this was not possible either – anything that exceeded ten meters would result in a white light flashing out and cutting off anything that exceeded ten meters.

However, this was no problem for Zhao Fu. He continued to have the Evil Flower Demons jump up and down and even though they would be cut in half each time they jumped, they could re-form themselves. After all, because Zhao Fu was the main body, as long as he was fine, the Evil Flower Demons could continuously re-form themselves.

Through this method, it became much easier for Zhao Fu to pass through the maze. There were also a type of specters in the maze, which had hazy features, wore white clothes, and floated in the air.

These specters were somewhat terrifying and had powerful illusory abilities. Anyone who they looked at would fall into an illusion.

Zhao Fu had his Divine Bloodline and Divine Sense, which could negate some of the effects of the illusions, but he could not nullify the illusions of some of the more powerful specters.

As soon as Zhao Fu had entered the fifth level, he had fallen into an illusion. The ground seemed to be covered with sharp spikes and as he stood on the ground, he felt as if his body was being pierced by countless spikes and blood continuously flowed out.

A while later, he felt as if he had fallen into a fiery sea and his body was being burned by countless flames, which was extremely painful.

Only after activating Celestial Mode did Zhao Fu nullify these illusions. After the illusions disappeared, Zhao Fu saw that he was in a vast open area and that there was a stone stage up ahead, on which there was a sword stabbed into it.

This sword was quite special and the blade was blue. It had countless traces of fog around it and the hilt was silver. At the area between the blade and hilt, there was a very lifelike carp.

Chapter 1502: Evil Flower

Just as Zhao Fu was going to go up and take a look, a white fog came out of the sword and turned into a beautiful woman with black hair wearing a white dress. She bowed to Zhao Fu and softly called out, "Owner!"

Hearing this, Zhao Fu gave a trace of a smile and lightly nodded. This sword was the reward for clearing the fifth level, and after passing through the maze and illusions, he was naturally this sword's owner.

Zhao Fu walked up and pulled the sword out of the ground. He found that this sword was called the Illusory Fish Sword, and it had powerful illusion abilities. It could drag people into illusions and cause them to take damage within the illusion. The damage would be transferred to their real bodies, which was quite a terrifying ability.

Zhao Fu asked the sword spirit about information about this place, but the sword spirit did not know much. Zhao Fu put the Illusory Fish Sword into the Sword Mark and continued on to the sixth level.

The sixth level was covered with fog, making it difficult to tell the direction. Zhao Fu could not see anything either, but for some reason, he was able to easily pass through the sixth level and reach the seventh level, the final level.

The seventh level did not have anything except a 10,000 meter tall altar that reached to the clouds. It gave off a powerful and ancient aura, as if it had existed for an unfathomably long time.

Zhao Fu walked up and a massive power weighed down on his body, causing his body to sink. However, after sensing the Divine Bloodline within Zhao Fu's body, the power dissipated and Zhao Fu easily reached the top of the altar.

At the center of the altar was a five-colored stone that was as big as an egg. It was irregularly-shaped and seemed to be made out of crystal, and it gave off a five-colored light.

Zhao Fu felt that the aura that this five-colored rock gave off was quite extraordinary, and he felt quite curious as he looked at its information. He was left quite shocked because this five-colored stone was absolutely a supreme treasure.

This five-colored stone could turn the consciousness of a world into a new lifeform, and very few things could do such a thing.

Zhao Fu grinned and planned to use it on the Human World. That way, the Human World's consciousness would not just be a consciousness but would be a new lifeform that controlled a world's source energy.

Zhao Fu put the five-colored stone away and looked around and saw that there was not much around. Now, it was time to create the final Evil Flower Demon and unlock the Evil Flower Bewitching World.

Zhao Fu sat at the center of the altar and fused the Fish Pearl into his body, and a large amount of demonic qi flowed out.

The demonic qi condensed into a three meter tall fish person. This person had blood-red eyes and a mouth filled with fangs, and it had two bone horns coming out of its head. Its hands were like sharp claws and there were fish fins on its back, and it gave off a powerful aura.

After creating this Evil Flower Demon, Zhao Fu let out a breath. Now, he had created 12 Evil Flower Demons and the Evil Spirit Abyss Flower reached its final stage. Now, the most important time had come.

The fish person Evil Flower Demon turned into demonic qi and disappeared, and Zhao Fu continued to sit on the altar as he slowly closed his eyes.

Outside the historical remnant, large amounts of demonic qi suddenly gathered, causing the weather to change. Clouds swirled and the world became dim as a formless but dangerous aura flooded out, reaching even ten worlds away.

The other creatures within the radius felt as if they had fallen into icy water and their bodies froze as they instinctively felt terrified.

The women at the Liu family felt this terrifying aura and their expressions fell. They hurriedly went outside to take a look, and after seeing the abnormal signs, they remembered what Zhao Fu had told them and quickly left this place.

Yuan Ziyuan looked quite shocked as she looked at the abnormal signs caused by Zhao Fu, and she thought about how he had said he was going to awaken the Demon Race's Emperor Star. Could it be that what he had said was true? Was he really going to awaken the Demon Race's Emperor Star? He did not have any reason to lie to her.

Di Moji also looked quite shocked. With her identity, she naturally knew how difficult it was to awaken a Demon Star. Moreover, as someone from the Devil Race, could Zhao Fu really awaken the Demon Race's Emperor Star?

If he really could have the Emperor Stars of two races, she would definitely willingly become his woman. After all, this was essentially impossible, and even someone like her with a pure Demon Race bloodline could not do such a thing, so could Zhao Fu really do it?

Boom! Boom! Boom...

Loud explosions sounded out as a heaven-toppling aura burst out, sending out massive gales that blew large rocks into the sky and countless trees were uprooted.

12 monsters that each stood 10,000 meters tall appeared around this world, giving off terrifying auras and forming a circle as they encircled this world.

All of the creatures in the world felt their bodies stiffen and sink down, as if they had fallen into a boundless abyss, and their souls felt as if they had fallen into boundless darkness.

“Roar! Roar! Roar...” The 12 monsters raised their heads and gave off massive roars, and the soundwaves rippled out as if they were corporeal, traveling through hundreds of worlds. Countless clouds dissipated and many boulders rolled down mountains as the ground trembled in countless worlds.

After hearing these terrifying roars, the people in closer worlds felt their hair stand on end and felt a trace of fear in their hearts. They could sense the dangerous aura coming from the distance and knew that something big was happening.

Boom! Boom! Boom...

Countless pale-white roots grew out of the 12 monsters' bodies and stabbed into the ground. The ground cracked open and the monsters' bodies madly grew, becoming taller and taller as more and more roots grew out of them.

These roots continuously covered the ground and moved towards the escaping demon beasts and people, binding their bodies and devouring their energy, and their bodies were sucked into the roots.

Because the 12 monsters surrounded the entire world, the creatures had nowhere to run and could only howl in despair or hide as they trembled.

The demonic qi in the surrounding thousands of worlds seemed to be summoned by a formless energy and flooded towards this place, forming a massive current of demonic qi.

It was not just the major figures' whose expressions fell and sensed that something bad was happening; even ordinary people who saw the demonic qi madly flowing through the sky felt that something was wrong.

The 12 monsters madly grew and their roots covered the entire world. Their branches became millions of meters long and hundreds of thousands of meters wide, and they reached to the sky. They started to grow sword-shaped leaves and massive black flower buds appeared at the top, giving off faint demonic light.

The 12 flowers gave off an extremely evil and dark aura, shaking all creatures and making countless people's bodies feel icy as they looked over in that direction.

Chapter 1503: Nine Hell Demon College

Zhao Fu silently lay on the altar with his eyes closed and large amounts of demonic qi flowed out of him. At that moment, Zhao Fu slowly opened his eyes, and his black, rose-like pupils gradually became blood-red.

The demonic qi coming out of Zhao Fu's body also became blood-red and disappeared as if it had been sucked away by something.

The 12 massive plants gave off a terrifying suction force, creating formless streams of air that devoured all energies in the heavens and earth.

The heavens and earth seemed to die as the sky became silent and cold, and the ground quickly became a gray-white color. Countless plants wilted and the countless people in hiding became white skeletons and died in silence. There was nothing left alive.

The 12 massive flowers absorbed all life force in the heavens and earth and went through massive changes. The enormous black flower buds gradually became blood-red before starting to bloom beautifully, and a fantasy-like demonic light spread out, accompanied by a bewitching fragrance.

As the 12 Evil Spirit Abyss Flowers bloomed, the sky also became blood-red, and this spread to the surrounding 10,000 worlds. The Evil Spirit Abyss Flowers' terrifying and evil auras swept through the world, and the entire Demon Domain's demonic qi gathered in this direction.

Within a grand academy, a few people who had been calmly smiling suddenly felt this terrifying aura and their expressions fell. They came outside and saw the sky turning blood-red, and their expressions became serious.

The place they were at was the renowned Nine Hell Demon College, a holy land within the Demon Domain. These people's auras were all incredibly shocking and were all higher-beings.

A cold and handsome-looking person looked quite grave as he said, "Is this the Evil Spirit Abyss Flower's power? Wasn't the Evil Spirit Abyss Flower Ancestor already sealed? How could this power appear again? Moreover, its aura is even more terrifying than that time."

A chubby person next to him said seriously, "This is not the Evil Spirit Abyss Flower Ancestor's aura but another person's aura – he's most likely the Evil Spirit Abyss Flower Ancestor's legatee. It has found such a good legatee to be able to cause even greater waves."

A beautiful middle-aged woman said somewhat worriedly, "Since this aura is so terrifying, I'm afraid that it has unleashed the Evil Flower Bewitching World and it is even more dangerous than the Evil Spirit Abyss Flower Ancestor. We should hurry and have a look, or else once he completes it, it will be another disaster for the Demon Domain."

A slim and handsome-looking young man lightly laughed as he said, "Mm, I'm also quite curious about what the Evil Spirit Abyss Flower's legatee is like. I feel that his aura is quite familiar, but I'm not sure who it is."

The cold and handsome-looking young man who had spoken first said in agreement, "I also want to seal him in Nine Hell Demon College and research him in order to see what kind of power the Evil Spirit Abyss Flower's demon-eating power is."

Everyone else nodded and turned into rays of light that shot over the horizon.

An icy-looking middle-aged man dressed in a demon dragon robe and giving off a powerful aura stood on top of a tall and luxurious building as he looked at the blood-red sky, and he sensed the evil aura, causing him to slightly frown.

He was the Emperor of the Ten Demon Empire, which was one of the top three factions in the Demon Domain.

A few Ministers stood behind him, and a middle-aged man with a goatee bowed as he said, “Your Majesty, after such a long time, the Evil Spirit Abyss Flower Ancestor’s legatee has appeared. Perhaps this is to fulfill his promise from before, to turn the Ten Demon Empire into ashes.”

A young man dressed in battle armor, giving off a valiant and extraordinary aura, said, “Your Majesty, this subordinate requests for all of the Empire’s higher-beings to move out. We must kill the Evil Spirit Abyss Flower Ancestor’s legatee and then go to the Human Domain’s Emperor Path College to kill the Evil Spirit Abyss Flower Ancestor and get rid of any future problems.”

A Minister dressed in scholarly robes suggested, “This Minister supports the General’s suggestion. Back then, the Evil Spirit Abyss Flower Ancestor had great enmity with the Empire and swore an oath to take revenge. The Evil Spirit Abyss Flower Ancestor cannot be allowed to continue to exist.”

A gloomy-looking elder lightly harrumphed, “Do you think His Majesty doesn’t know how dangerous the Evil Spirit Abyss Flower Ancestor is? If it was possible to kill it, we would have killed it long ago. Also, do you really think the Human Domain’s Emperor Path College is to be taken lightly?

“Now, this Evil Spirit Abyss Flower Ancestor’s legatee has created even greater waves than the Evil Spirit Abyss Flower Ancestor and has most likely inherited all of the Evil Spirit Abyss Flower Ancestor’s power. The Evil Spirit Abyss Flower Ancestor has become rubbish and there is no need to pay him much mind. We should be finding this legatee right now.”

Hearing this, everyone else nodded in agreement.

The icy-looking middle-aged man said coldly, “Send out eight of the Empire’s higher-beings to kill this legatee. However, try as much as possible to capture him alive. We will sacrifice his head to the late Emperor!”

“Yes, Your Majesty!” everyone replied seriously. Now that they were sending out eight higher-beings, it would be almost impossible for the Evil Spirit Abyss Flower Ancestor’s legatee to escape.

Within a tall and simple-looking pavilion, a silver-haired elder dressed in a white robe looked at the blood-red sky and sighed as he said, “Another bloody storm is about to arrive in the Demon Domain; who knows how many people will die.”

A cute-looking young girl next to him said in curiosity, “Surely not, grandpa! With the lesson from before, the various higher-beings won’t just stand by and watch this time. There are many higher-beings heading over and five have gone from our faction. They should be able to suppress the Evil Flower Bewitching World.”

The elder looked quite grave as he shook his head, “I feel that things are not as simple. For some reason, I feel quite anxious and even a bit of fear.”

The young girl felt quite surprised as she said, “Surely not! Grandpa, even with so many higher-beings, can’t they stop him?”

The elder nodded seriously, “Look at the blood-red color in the sky; it’s even more terrifying than what the Evil Spirit Abyss Flower Ancestor unleashed. The Evil Spirit Abyss Flower Ancestor’s true body was the first Evil Spirit Abyss Flower, and there’s practically nothing that can surpass his power. There’s something even more terrifying hidden in the blood-red sky.”

Hearing this, the young girl closed her eyes and sent out her senses. However, her cultivation was too low and she could not sense anything, so she felt quite confused.

The elder did not pay any attention to the young girl and sensing the ripples in the sky, he said seriously, “This time I should go and personally take a look at what’s happening.”

Just as the elder was about to leave, the young girl hurriedly pulled him, saying, “Grandpa, take me as well!”

The elder felt quite frustrated and could only bring her with him.

Chapter 1504: Demon Emperor Sect

Within the Demon Emperor Sect, a few elders and a handsome young man stood on a platform as they looked at the blood-red sky seriously.

A chubby elder said, "Sect Master, the big miss went missing there; perhaps the matters are related. I'm worried that the big miss was captured by the legatee to become an Evil Flower Emissary. With the big miss' talent and beauty, she's definitely the most suitable woman in the Demon Domain."

A relatively skinny elder nodded, saying, "I feel that this is not just a coincidence. If the big miss has become an Evil Flower Emissary, we must get involved, or else the big miss will die with the legatee."

A middle-aged man in scholarly robes said, "The Evil Flower Bewitching World is such a big matter, and no matter the motive behind the situation, we have to go, take a look, and see if we can stop it. After all, this Evil Flower Bewitching World is of such a large scale and will definitely heavily wound the Demon Domain, and our forces might fall behind the other Domains. Perhaps this is a set-up by the Human Domain."

The handsome-looking young man standing at the very front was Di Moji's father, Di Jiang. As for why he looked so young, it was because he had broken through to becoming a higher-being and increased his lifespan, making him look younger.

Hearing the various elders' words, Di Jiang said seriously, "I will take six higher-beings from the Sect; you all need not worry."

Hearing this, the elders retreated to one side and did not say any more.

The blood-red sky covered over 10,000 worlds, and the dark and evil aura was something that made the Demon Race feel quite uncomfortable, especially because it was a demon-eating aura.

Countless people looked in that direction, which seemed to be covered with blood-red light. It was like a forbidden area filled with death, and terrifying auras continuously flooded out, causing Demons and demonic beasts to run for their lives.

Powerful rays of light tore through the sky, leaving behind faint traces and causing the heavens and earth to tremble. Countless people watched on in shock because each ray of light was left behind by a higher-being.

The massive ripples from the Evil Flower Bewitching World shook the entire Demon Domain, causing countless higher-beings to come. News quickly reached other Domains, and hearing this massive news, many people hurried to the Demon Domain.

This was especially so for a few large factions in the Human Domain. After all, they knew who the Evil Spirit Abyss Flower Ancestor's legatee was – that person was the person who they had been searching for this whole time, and they had never thought that he would run to the Demon Domain and cause such a ruckus.

The higher-being who had helped Zhao Fu, Feng Qianghua, as well as those who knew him or were connected to him, all looked shocked.

Now that things had reached such a level, they could not do anything. No matter how strong they or their factions were, they could not face the entire Demon Domain. They did not know what Zhao Fu would do this time.

Feng Qianghua gave a proud smile as she said, "As expected from a man chosen by This Young Empress. He did not disappoint at all."

She then looked at her mother and pleaded, saying, "Imperial Mother, let me try to save him. If I can, I'll lock him forever in the palace. Even if I can't do this, I'll at least bring his corpse back – he has a Divine Bloodline and no one else knows about this."

Feng Qianhuang felt quite helpless; this daughter of hers was simply determined to obtain that boy. As such, she could only nod, agree, and remind her, saying, "You must be careful; this matter is incredibly dangerous, so don't be too stubborn about it."

Feng Qianghua gave a happy smile and said, "I know! Don't worry, Imperial Mother, that man is just a precious little pet; I won't give up my life for him."

Hearing this, Feng Qianhuang felt much more at ease and nodded.

Di Moji, Yuan Ziyuan, Jue Tianling, and the other women looked at the abnormal signs in the sky and felt incredibly shocked. Luckily, they had listened to Zhao Fu's words and left early, or else they might have died.

Even though they had read about how terrifying the Evil Flower Bewitching World was from books, they had never seen it for themselves before. Now that they saw the heavens and earth perish, they could not help but feel terrified.

These were the abnormal signs caused by Zhao Fu, and in front of such terrifying power, none of the women dared to have any thoughts of resistance, and they completely acknowledged Zhao Fu.

轰轰轰...

The 12 Evil Spirit Abyss Flowers fully bloomed. Blood-red was the color of mature Evil Spirit Abyss Flowers, and as the Evil Flower Emissaries, the women felt a massive wave of power enter their bodies, and terrifying ripples spread out.

Blood-red marks appeared on their foreheads. The 12 marks were all different, and soon their heads became blood-red as their eyes also became blood-red, and they seemed to contain Evil Spirit Abyss Flowers.

Traces of soul energy floated out of their foreheads and shot towards the 12 Evil Spirit Abyss Flowers.

At that moment, countless higher-beings reached this place. Looking at the 12 massive Evil Spirit Abyss Flowers that reached the sky, they looked quite shocked.

If they could destroy these 12 Evil Spirit Abyss Flowers and find that legatee, they would be able to stop the Evil Flower Bewitching World. If they could not find the legatee, they would not be able to completely destroy these Evil Spirit Abyss Flowers, as the legatee was their main body.

The higher-beings exploded out with terrifying power, wanting to destroy the Evil Spirit Abyss Flowers. However, the traces of soul energy flowed into the Evil Spirit Abyss Flowers.

Boom! Boom! Boom...

The massive amount of demonic qi gathered from the Demon Domain flooded into the 12 Evil Spirit Abyss Flowers, sending out terrifying ripples.

This caused the higher-beings' expressions to fall. The Evil Spirit Abyss Flowers were gathering power from the entire Demon Domain and they could not attack them at all, as that would be a heaven-defying action. They would suffer a backlash from the entire Demon Domain's energy.

Facing these terrifying ripples, the countless higher-beings could only retreat and wait until the Evil Spirit Abyss Flowers officially activated the Evil Flower Bewitching World. Only when the power they were receiving from the Demon Domain decreased would they be able to act.

The 12 Evil Spirit Abyss Flowers had already fused with the 12 Evil Flower Emissaries' soul energy, and they seemed to come alive. They contained even greater lifeforce and continuously devoured the demonic qi, and an extremely dark and terrifying aura spread out from the top of the flowers.

Each of the flowers were millions of meters tall, and each petal had the picture of a demon woman dancing on it, and they seemed to contain a bewitching demonic energy.

Countless traces of terrifying demonic energy gathered at the center of the flowers, forming 12 enormous black orbs that were hundreds of thousands of meters wide. All of them gave off extreme darkness energy, and the space around them started to twist.

The higher-beings' expressions fell as their hairs stood on end. This was the power of the Evil Flower Bewitching World that had once caused a disaster in the Demon Domain. Seeing this, countless people felt incredibly shocked.

Chapter 1505: Attack

The black orbs above the 12 Evil Spirit Abyss Flowers gave off boundless black light like 12 black suns floating in the sky. They gave off an extremely powerful aura, seeming to be able to suppress the heavens and the earth.

Within the historical remnant, Zhao Fu was still lying on the altar and his eyes opened, revealing a pair of blood-red rose-like pupils.

Zhao Fu started to perform hand seals and the blood-red demonic qi around him started to spin around him, forming a large vortex, covering hundreds of meters and giving off massive sounds.

Traces of pure demonic qi flowed out from the enormous blood-red vortex and gathered at the center, forming a fist-sized black orb of demonic qi.

At that moment, Zhao Fu's eyes gave off blood-red light as his rose-like pupils became incredibly bewitching and a trace of soul energy flowed out from his forehead and fused into the black orb of demonic qi.

Boom!

An explosion sounded out as the orb of demonic qi gave off a powerful aura and an enormous suction force, sucking the blood-red vortex's demonic qi into it and forming a round, black crystal ball.

In the outside world, the black orbs above the Evil Spirit Abyss Flowers gave off massive auras as they gradually rose up and started to fuse together.

Boom!

A shocking explosion blasted out as the 12 black suns combined together, unleashing a terrifying wave of darkness energy and wild gusts of wind. Space itself was unable to withstand this and began to tear apart.

Wild gales continuously swept out and countless boulders were lifted into the sky. Countless trees were uprooted, and parts of the ground started to be lifted up. Sand filled the sky and the terrifying aura caused all of the higher-beings to retreat.

The Evil Flower Bewitching World was about to be opened and it would be the first time most of them had seen the Evil Flower Bewitching World. Sensing this power, they understood why the Evil Spirit Abyss Flower Ancestor had caused such a disaster in the Demon Domain back then.

Everyone's expression was quite serious, and they looked at the 12 suns merging together, waiting for the moment that the Evil Flower Bewitching World opened.

Boom!

A shocking sound rang out as the 12 black suns finally fused together, forming a 100,000 meter wide black orb that gave off a world-shaking aura.

The black light blasted out, passing through world after world and covering thousands of worlds.

Immediately, all living creatures within the light felt their bodies stiffen as their eyes became hollow. Their eyes became black and blood-red flowers appeared within them.

Not only did countless plants give off traces of demonic qi which flowed into the sky, but the ground also gave off traces of demonic qi, which gathered in that direction.

Countless creatures under control looked lifeless and moved stiffly as if they were zombies, gathering towards where the black sun was. Countless creatures gathered this way, creating a stunning scene.

Now, the Evil Flower Bewitching World had been opened, and the abnormal signs all calmed down – it was time to act.

The higher-beings all looked at each other and waved their hands as crescents of energy containing terrifying power slashed towards the 12 Evil Spirit Abyss Flowers.

Bang! Bang! Bang...

The 12 Evil Spirit Abyss Flowers released a massive blood-red barrier to protect themselves. Each Evil Spirit Abyss Flower had massive amounts of Heaven and Earth Power protecting them, making it so that the barrier was incredibly tough. As the attacks landed on the barrier, they were unable to harm it at all.

This made the higher-beings feel quite surprised. Their expressions became serious and they took out weapons. As the weapons of higher-beings, the auras they gave off were quite terrifying, and all of them were at least Emperor Heaven grade.

Boom! Boom! Boom...

The terrifying attacks containing immense destructive force tore through the sky and hit the massive blood-red barrier, causing it to continuously tremble as its power weakened.

It seemed that this blood-red barrier was unable to defend against so many higher-beings, so the higher-beings did not waste any time and continued to attack.

More explosions sounded out as terrifying shockwaves sounded out, and the blood-red barrier became covered with cracks, looking like it would shatter at any moment.

Bang!

A massive sound rang out as the higher-beings once again attacked. Their attacks landed on the barrier, causing it to shatter into pieces and disappear, revealing the massive Evil Spirit Abyss Flowers within.

Swish, swish, swish...

The 12 Evil Spirit Abyss Flowers started to counterattack – their countless pale-white roots continuously grew as they shot at the group of higher-beings with ferocious power.

None of the higher-beings dared to be careless. They swung their weapons and slashed apart the incoming roots, while the Evil Spirit Abyss Flowers continued to wildly attack.

The Evil Spirit Abyss Flowers' roots were all incredibly tough, but it was a pity that they were against a group of higher-beings and there were many of them, which was why they were dealt with so easily.

Zhao Fu's women watching in the distance looked quite worried. The Evil Flower Bewitching World had drawn over far too many higher-beings, 300 or so in total.

Back when the Evil Spirit Abyss Flower Ancestor had unleashed the Evil Flower Bewitching World, there had only been 100 or so higher-beings and yet it had faced such great resistance. It was very possible that the Evil Flower Bewitching World would be stopped and the higher-beings would blast open the historical remnant. When that time came, Zhao Fu would die without a doubt.

“Roar!!” A pained roar sounded out as a higher-being dodged past countless roots and chopped against an Evil Spirit Abyss Flower with his saber, opening up a long gash from which red blood continuously flew out.

The other higher-beings continued to slash apart the incoming roots and also attacked the Evil Spirit Abyss Flowers, causing them to roar. Now, injuries started to appear on the Evil Spirit Abyss Flowers' bodies, making them look quite wretched.

The higher-beings did not stop at all, and they instead had smiles on their faces as they continued to vigorously attack the Evil Spirit Abyss Flowers. Soon, it seemed that the Evil Spirit Abyss Flowers would be cut down.

Zhao Fu's women's faces paled, and they could only watch from a distance and could not get involved at all. Even though some of them had Emperor Heaven Realm Cultivation, they were still too weak and could not do anything. It seemed that the Evil Flower Bewitching World was going to be stopped.

Boom! Boom! Boom...

More powerful auras descended as higher-beings from Di Moji and Yuan Ziyuan's factions arrived.

Seeing people from their own faction, Di Moji and Yuan Ziyuan felt quite delighted. They had the others quickly leave before they flew into the sky and joined with their factions.

Seeing Di Moji, Di Jiang and the other higher-beings let out sighs of relief. They had mainly come for Di Moji.

Chapter 1506: Golden Star

However, they soon found that things were not good because Di Moji's appearance had greatly changed. She had blood-red hair and blood-red eyes, and her aura was similar to the Evil Spirit Abyss Flowers. Seeing this, their hearts sank and confirmed their worst fears – their big miss had become an Evil Flower Emissary.

Di Jiang looked furious and wanted to bring people to cut apart the 12 Evil Spirit Abyss Flowers, but Di Moji quickly stopped him and pleaded, saying, "Father, can you stop the other higher-beings from attacking the Evil Spirit Abyss Flowers?"

Hearing this, Di Jiang felt quite confused and did not understand why his daughter was asking him to help the Evil Spirit Abyss Flower Ancestor's legatee. His daughter definitely would not have wanted to become an Evil Flower Emissary, and she had definitely been forced.

However, why was his daughter now trying to help that person? Thinking about that, Di Jiang remembered something – if that legatee died, his daughter would die as well.

Di Jiang said seriously, "Don't worry, daughter; your father will do everything he can to get rid of your identity as an Evil Flower Emissary. Your father will definitely destroy that person to sate your hatred."

Di Moji hurriedly explained, saying, "Father, that's not what I mean; I just want you to stop the other higher-beings from attacking the Evil Spirit Abyss Flowers. Also, I've already acknowledged that person to be my husband. He's your son-in-law, so you can't let anything happen to him."

Di Jiang felt quite surprised and had never thought that his daughter would acknowledge that person and beg him to save that person.

However, given that the Evil Spirit Abyss Flower had the power to control one's thoughts, Di Jiang wondered if Di Moji was being controlled, which was why she said those things.

Moreover, Di Jiang could not agree to such a request. After all, there were 300 or so higher-beings present, so even if he wanted to do anything, it would not be possible.

Di Jiang said angrily, "Daughter, I know you've been controlled, but I'll do all I can to save you. The rest of you, keep the big miss under control and don't let her escape. We'll figure something out after I kill that bastard."

Di Moji felt quite frustrated and had never thought that things would turn out like this. A few higher-beings came to subdue her, and because Di Moji naturally was not a match for them, she could only threaten them with her own life.

Di Jiang's hatred towards Zhao Fu reached its peak and wanted to kill him for controlling his daughter like this.

However, Di Moji started to explain everything, causing Di Jiang to gradually become less angry until he was calm again.

“Are you sure you want to become his woman? A bastard like him is not good enough for you,” Di Jiang asked as he looked at Di Moji seriously.

Firstly, that bastard had taken advantage of his daughter’s circumstances to force himself on her, and he was so dissolute as well, having so many women by his side. How could he accept a bastard like that as her father?

Di Moji nodded earnestly, expressing that she was willing to become his woman.

Di Jiang looked at the higher-beings attacking the Evil Spirit Abyss Flowers seriously. He was unable to stop them, but he would see if he could save that bastard later. However, that would be incredibly difficult.

“Mother, can you save my husband?” Yuan Ziyuan hugged a beautiful woman as she looked at her with eyes filled with hope.

Her faction was weaker than the Demon Emperor Sect and her mother had only brought two higher-beings, so they naturally could not stop the others from destroying the Evil Spirit Abyss Flowers. They could only see if they could save Zhao Fu and preserve his life.

The beautiful woman felt quite troubled; saving someone from a few hundred higher-beings was incredibly dangerous. She could not understand why her daughter wanted to help a bastard like that.

Even though he was the Evil Spirit Abyss Flower Ancestor’s legatee and had great power, she did not like people like this. After all, he attracted too much hostility and was not dedicated to her daughter, so she was not very happy about this matter.

However, facing her daughter’s plea, she could only agree to try. At the same time, she decided to see if she could get rid of her identity as an Evil Flower Emissary.

In the distance, the cute-looking young girl watched as the Evil Spirit Abyss Flowers were being attacked, pouted unhappily, and said to the silver-haired elder, “Grandpa, the Evil Spirit Abyss Flowers are about to be destroyed and the Evil Flower Bewitching World is going to be stopped!”

The silver-haired elder did not reply to the young girl's words and stared at the massive black orb. The chill in his heart became stronger and stronger as his hairs stood on end, and his heart beat incredibly quickly.

On the altar, Zhao Fu was seized with immense pain and his expression became quite terrifying. Wounds appeared on his body as blood flowed out and gathered towards the black crystal ball in the air.

The black crystal ball absorbed Zhao Fu's blood and gave off intense demonic light as it started to quickly spin in the air.

Boom!

A massive explosion sounded out as the enormous black sun in the outside world gave off an even more intense black light and burst forth with a heaven-toppling aura that swept out.

This caused the countless higher-beings attacking the Evil Spirit Abyss Flowers to look incredibly shocked, and they looked up at the enormous black sun.

The black sun was giving off a ferocious aura as it continuously rose higher and higher before it gradually disappeared, and no one knew what was going on.

Suddenly, Heaven and Earth Power once again madly gathered, causing the world to become chaotic. Clouds quickly gathered and swirled, and wild gales blew as the lighting dimmed and demonic qi gathered from all directions.

An extremely dangerous aura spread out from the sky as it filled the entire world.

Within the Demon Domain, countless people seemed to sense something and stopped what they were doing as they came outside and looked in the direction that Zhao Fu was in.

Countless higher-beings' expressions fell and they hurriedly retreated, wanting to leave this range. No one had expected more abnormal signs to appear, and they were even more intense than the Evil Flower Bewitching World.

The young girl looked quite shocked; now, she understood what her grandpa meant. She had never thought that it would be so terrifying, and she felt as if she had fallen into icy water as her body started to tremble.

Boom!

The heavens and earth seemed to explode as an immense might blasted down. The higher-beings attacking the Evil Spirit Abyss Flowers all received a backlash from the heavens and earth and coughed up large mouthfuls of blood.

Boundless blood-red light spread out from the sky, and an aura of chaos swept out like floodwaters. A massive blood-red star giving off a terrifying aura gradually descended.

Boom!

An explosion once again sounded out as boundless golden light tore across the sky, and an aura that made the heavens and earth submit spread out, causing the entire world to tremble. A massive golden star containing an extremely terrifying might then descended.

Chapter 1507: Demon Lord Star

Boom!

Yet another explosion sounded out as boundless ghostly qi spread out across the sky and the surrounding temperature plummeted. A cold and eerie aura filled the world, and a moon-like gray star bringing with it boundless ghostly energy descended.

Boom!

The shocking explosions were not done yet. A violet, devilish light filled the sky as a massive amount of devil qi filled the world, and an enormous violet dragon star gave off an enormous might as it gradually appeared.

The four Emperor Stars each gave off their own resplendent starlight, suppressing the auras of everyone present. The scene seemed to be frozen, and the world was locked down by an unimaginably powerful energy as all creatures felt a sense of despair.

“Four Emperor Stars?” Everyone felt incredibly shocked and stared at the sky. They could not have expected four Emperor Stars to suddenly descend, and three of them were the supreme Emperor Stars of three worlds.

However, why had four Emperor Stars suddenly descended? There was only one explanation – the Evil Spirit Abyss Flower Ancestor’s legatee was the person with the four Emperor Stars the entire Heaven Domain was looking for. This was simply too shocking and sent waves through everyone’s hearts.

Now, the higher-beings who had felt that Zhao Fu’s aura was quite familiar realized that this was the same aura as the person who had four Emperor Stars.

Di Jiang felt quite shocked and had never thought that his daughter’s bastard husband would be that mysterious and terrifying person with four Emperor Stars. He had massive secrets and could be called the person with the greatest potential in the Heaven Awaken World.

If Di Moji had someone terrifying like this for a husband, he would not have to worry in the future; this person would definitely overtake him in the future.

Yuan Ziyuan’s mother was also incredibly shocked as she looked at the four grand Emperor Stars in the sky. She understood why her daughter had decided on this person; if her daughter could become the woman of such a man, she would be incredibly happy.

If she could have this person join her faction, her faction would enter a golden era and would enjoy unimaginable benefits.

The silver-haired elder and the young girl understood what kind of power that hidden power was – it was the power of Emperor Stars. The power of four Emperor Stars was incredibly terrifying and could cause people to feel despair.

Di Moji and Yuan Ziyuan were similarly shocked. Even though Zhao Fu had not told them about his identity, they could guess that it was quite terrifying. This much was obvious from what he had revealed to them.

However, they had never thought that Zhao Fu would be hiding something so terrifying. He said that he would have the whole Heaven Awaken World know his name, but he had already shaken the Heaven Awaken World and everyone in the Heaven Domain knew of his existence.

Zhao Fu did not lie to them, and they had never thought that they would end up having such a relationship with Zhao Fu.

“Wait!” The two women suddenly remembered what Zhao Fu had said to them before, that he had come to awaken the Demon Race’s Emperor Star. Back then, they had not believed him and thought that this was impossible. However, Zhao Fu already had four Emperor Stars, so what he said was definitely true.

Boom!

A massive explosion sounded out as boundless demonic qi gathered in the sky, causing the Demon Domains’ demonic qi to start to go crazy with joy, as their master was about to descend.

The countless higher-beings present all stared at the sky in shock. They were all from the Demon Race, so they could clearly sense their bloodlines trembling in excitement and fear towards the thing in the sky.

The countless creatures controlled by the Evil Spirit Abyss Flowers all knelt on the ground simultaneously as if they were worshipping their ruler.

A terrifying power gradually descended from the sky, twisting space itself. Boundless demonic light spread out from the sky, covering the heavens and earth, and all the light in the world seemed to be devoured by darkness.

A massive black star giving off heaven-toppling demonic flames appeared, giving off terrifying ripples.

Under the ripples, the heavens and earth continuously collapsed as large cracks appeared in the sky. Countless traces of chaotic aura flowed through, and the ground caved in. The area under the star was affected the greatest and a one million meter wide crater appeared.

The trees, mountains, rivers, beasts, and people there had all disappeared and turned into ash.

The black star continued to descend, and the immense might weighed like a massive boulder on everyone, making it difficult for them to even breathe. The higher-beings' expressions were all grim as they continuously retreated.

In the end, the Demon Star hovered in the sky after completing its descent. It gave off boundless black light, shaking the entire world.

The countless people present looked incredibly shocked as they gazed at the black star in the sky. This was the Demon Race's Demon Lord Star, which was their race's supreme Emperor Star. It had actually been awakened by that person.

Within the historical remnant, Zhao Fu's body was covered by black starlight and the Demon Star's power continuously entered Zhao Fu's body, raising his power and changing his constitution.

The Demon Lord Star's descent naturally caused massive waves in the Demon Domain, and the entire Demon Domain looked incredibly shocked as they stared at the five resplendent stars giving off different-colored lights.

The factions that had wanted to stop the Evil Flower Bewitching World did not think that such a thing would happen. Before they could stop the Evil Flower Bewitching World, the Demon Race's supreme Emperor Star had descended, accompanied by four other Emperor Stars.

The other factions did not know what had happened, but after seeing the five Emperor Stars, they knew that something big had happened, so they quickly gathered in that direction.

Now, the entire Heaven Domain had descended into chaos; just who was the person who had awakened five Emperor Stars? He already had the supreme Emperor Stars of three races, and now he had actually awakened the Demon Race's supreme Emperor Star. Now, he had the supreme Emperor Stars of four of the Heaven Awaken World's major races.

The awakening of each Emperor Star required large amounts of Fate, an incredibly pure bloodline, and extraordinary talent.

Awakening a single Emperor Star was already incredibly difficult, and only very few people in the Heaven Awaken World had been able to awaken them. However, this person actually had five Emperor Stars and four of them were from different races.

Back then, Zhao Fu had always been awakening Emperor Stars at the boundary of the Heaven Awaken World, so no one knew where he was. This time, he dared to awaken one in the Demon Domain, and countless higher-beings clearly sensed the ripples.

Boom! Boom! Boom...

Powerful rays of light bringing with them terrifying auras tore through the sky and disappeared, leaving behind massive streams of air. The biggest gathering of higher-beings in history was about to happen.

Chapter 1508: Human Domain

This matter naturally shook the Human Domain the most. The higher-being level teachers at Emperor Path College all looked incredibly serious as they understood what had happened.

They understood how that person had easily entered the forbidden area and obtained the Evil Spirit Abyss Flower's power; so he had such an identity. They had been blind to not discover Zhao Fu's true identity and allow him to leave.

If they could have kept him at Emperor Path College, he would have become the most terrifying student in the history of Emperor Path College. No one could compare to his potential, and just the Heaven's Secrets protecting him was dozens of times that of a higher-being's.

However, what should they do now that that person was causing a ruckus in the Demon Domain? Emperor Path College was connected to Zhao Fu by fate, and he had come to visit Emperor Path College in the past.

However, with so many higher-beings moving, it was beyond their control, and they could not stop so many higher-beings.

Only the Principal in closed-door cultivation could change the situation. It was him who had sealed the Evil Spirit Abyss Flower Ancestor in Emperor Path College, and perhaps because it was related to him, he would interfere. As such, they discussed this matter and decided to report it to him.

Within the Heaven Path Sect, an elder giving off a terrifying aura had been monitoring Zhao Fu's matter the entire time. He had never thought that Zhao Fu would appear in the Demon Domain, so he immediately hurried over; he wanted to know just what kind of existence Zhao Fu was.

The first Emperor Star that Zhao Fu had awakened was the Human Race's supreme Emperor Star, so perhaps he was from the Human Race. If the Human Race had such a terrifying genius, it would be an incredibly good thing for the Human Race.

He could not allow such a person to die in the Demon Domain, and he was also quite curious as to why he had five Emperor Stars. As such, the elder was in a great hurry to meet Zhao Fu.

As for the Holy Book Pavilion, as the largest book-publishing organization, everyone was extremely excited, as this was an incredibly big matter.

The number of higher-beings gathered was already breathtaking, and it was the first time in the recent 10,000 years that so many higher-beings had gathered. This matter would be forever recorded in history and be marveled at by later people.

The Holy Book Pavilion had been paying attention to Zhao Fu from the start and had been wondering who he was, where he came from, and what he looked like. If they could obtain this information, the books they published would be madly fought over.

After all, this matter had caught the attention of the entire Heaven Domain and there were naturally countless people who wanted to know about this person. There were most likely many people waiting for them to publish their writings about this matter.

The Heaven's Secrets Pavilion's people also gathered together, looking incredibly serious as they waited for the woman in white's orders.

"Fate Sovereign, various factions from the Heaven Domain have already headed over; we should also go and take a look at the person who has five Emperor Stars."

“That’s right! This is a rare opportunity and he’s awakening a Demon Star in the Heaven Domain. We should find his location based on the abnormal signs. If he leaves, with the amount of Heaven’s Secrets shrouding him, it will be impossible to find him in the future.”

“I agree, we’ve always been curious about that person, and only by meeting him will the fog of mystery around him be dispelled.”

“I’m just worried about what’s going to happen. That person now has five Emperor Stars, which is completely unprecedented. Countless higher-beings have gone, and it is likely that he will die there.”

In response, the Fate Sovereign shook her head and said, “Our Heaven’s Secrets Pavilion’s focus is Heaven’s Secrets; we should not get personally involved. The higher-ups have given orders for us not to be involved with this person’s matters.”

Hearing this, everyone could only sigh, and they did not say any more. However, some people could not hold back their curiosity and went to gather information about what was happening.

The Heaven Spirit Financial Group’s powerful figures all headed to the Demon Domain. From when the Demon Star started to descend, Zhao Fu’s bloodline went through a terrifying evolution, and it went from an ordinary Divine Bloodline to an Advanced Divine Bloodline. The person in charge had been greatly shocked and quickly went to report this.

The Heaven Spirit Financial Group had been paying attention to Zhao Fu from the beginning and had been bearing the pressure of countless higher-beings wanting to kill him. They had been secretly supporting Zhao Fu and had given him a supreme level account.

Now that Zhao Fu had appeared in the Heaven Domain, they were incredibly excited and curious. They wanted to see who the terrifying person they had been monitoring was, why he was so terrifying, and why his bloodline had been continuously becoming stronger and stronger.

They were worried that Zhao Fu was in a difficult situation, so they wanted to go over and take a look. If they could help, they would help as much as possible. Moreover, they had been secretly supporting him since a long time ago, so even if they could not help him out, they would be able to at least see this matter to a conclusion.

After hearing about this matter, Feng Qianghua also looked quite shocked; nothing had ever made her feel this shocked before. She had never thought that Zhao Fu would be the person with five

Emperor Stars, but in hindsight, she understood how Zhao Fu had a Divine Bloodline and the highest grade Dragon Phoenix.

Thinking about that, Feng Qianghua loudly laughed; she finally understood why Zhao Fu attracted her so much. Her judgment was correct – Zhao Fu really was not simple at all, and now she wanted him even more.

This time, her mother would fully support her as well. If they could bring him back, it would bring unimaginable benefits to the Human Phoenix Empire. If they could not have him, they had to kill him; with such potential, this person would definitely cause a catastrophe.

At the same time, Feng Qianhuang prepared to bring her own higher-beings to see just what kind of existence Zhao Fu was, and why he had so many terrifying things. Perhaps he really was hiding some shocking secrets.

Otherwise, how could someone from the outskirts have such terrifying potential? Of course, he might be the reincarnation of a Celestial.

The various elders of the Sword Sect gathered together and the Sect Master exclaimed, “This boy’s talent is simply too shocking. Yiyue, will you really not consider him as your husband? With his identity, it’s you who might not be good enough for him.”

Another elder lightly laughed and said, “With his potential and that terrifying sword intent, if he joins our Sword Sect, he will definitely become the next Sect Master. He will be a natural pair with Yiyue and no one will be more suitable than him.”

Jian Yiyue frowned and said coldly, “Father, elders, you don’t need to worry about my matters; it’s more important to think about that person’s safety. The entire Heaven Domain’s higher-beings are gathering there, and I feel that it is a pity for that Celestial-slaying sword intent.”

Another elder sighed and said, “Even though our Sword Sect is not weak, we won’t be able to change anything. I want to save that person; such a genius should not fall like that.”

Chapter 1509: Di Jiang

Another elder nodded and said in agreement, “That’s right, for the Heaven Awaken World to give birth to such a terrifying genius is a blessing for the Heaven Awaken World. His appearance might change the state of the Heaven Awaken World.

“Also, the Outer World has been continuously corroding the Heaven Awaken World and there also seems to be another world approaching. The Heaven Awaken World is in a dangerous situation, and it is said that heroes are born during chaotic times. Perhaps he will be able to save the Heaven Awaken World.”

Another elder thought of something and said, “Did you sense that that person’s blood-red star’s aura is very similar to the evil sword’s aura from before?”

Those words caused everyone to feel quite shocked. They sensed the Chaos Imperial Star’s aura and found that it was indeed similar to that evil sword’s aura. Could it be that the terrifying evil sword was in that person’s hands as well? Thinking about that, everyone felt quite delighted.

The Sword Sect’s Sect Master brought the various powerful elders and Jian Yiyue to the Demon Domain. They had to take a look at this person.

Within the Devil Domain, countless people from the Dragon Race looked quite shocked. They had never thought that Old Ninth’s legatee would be so terrifying and would have five Emperor Stars.

A Dragon Race higher-being sighed in amazement, “Old Ninth’s choice is simply too astonishing; where did he find such a terrifying person? Old Ninth can rest in peace now, to have such an extraordinary legatee.”

Another Dragon Race higher-being said, “Even if we give him the Ten Thousand Dragon Seat and have him be the ruler of our Dragon Race, I would have no objections. With his potential, he will be able to lead the Dragon Race to a golden age.”

A crude-looking higher-being rejected this, saying, “That person’s bloodline is not pure and has four races’ Emperor Stars; who knows what race he is from? I don’t think he’s suited to be the ruler of the Dragon Race.”

This higher-being supported the current ruler of the Dragon Race, so he naturally would not accept an outsider.

An elderly higher-being frowned and said, “This is not the time to be bickering. This person is in danger and he is Old Ninth’s legatee, so we should see if we can save him. As for the position of the Dragon Lord, we can discuss that in the future.”

A cold-looking Dragon Race higher-being said seriously, “This matter is not simple and there are many higher-beings heading there; we won’t be able to protect him.”

In the end, the various Dragon Race higher-beings turned into rays of light and left, planning to go to the Demon Domain to have a look.

The Underworld was also sent into an uproar. Back when Zhao Fu had gone to the Underworld, he had caused a big ruckus, and many people knew of Zhao Fu’s existence. However, he only had four Emperor Stars at the time and now had five.

Such growth was terrifying, and it was not something that ordinary people could compare to.

Countless people in the Underworld also decided to come to the Heaven Awaken World to see what kind of person this person was to have sent waves through the Underworld and angered the Six Paths Demon Images so much.

They did not want to save Zhao Fu nor kill him; all they wanted to do was join in on the fun.

Over at the Demon Domain, there were now 500 or so higher-beings gathered, and all of them were existences that could cause countless people to feel terror.

All of the higher-beings looked shocked as they looked at the five Emperor Stars in the sky. At such a close distance, they could sense how terrifying they were.

There were still many abnormal signs, and the five Emperor Stars were being reinforced by boundless Heaven and Earth Power, so the higher-beings did not dare to do anything. Otherwise, they would suffer an extreme backlash from the Heaven and Earth Power, ranging from light injuries to severe injuries.

However, most of the higher-beings had already decided to kill Zhao Fu. When they had broken the Evil Flower Bewitching World, they had already created enmity with Zhao Fu, so they had to kill him. Otherwise, if Zhao Fu was allowed to leave, their outcome would be terrible in the future.

Now that the abnormal signs had not disappeared, the higher-beings could only use various abilities to search for where Zhao Fu was. Based on the ripples Zhao Fu was giving off, they were able to find him quite easily.

Suddenly, the Heaven and Earth Power dissipated, and the abnormal signs calmed down. The power that the five Emperor Stars gave off also became weaker and was gradually disappearing.

The higher-beings all smiled; now that the Heaven and Earth Power was disappearing, they did not have to worry about the backlash and could now act. They were going to blast open that hidden historical remnant and drag out that Evil Spirit Abyss Flower Ancestor's legatee to see just what that person with five Emperor Stars was like.

Boom! Boom! Boom...

The higher-beings gave off terrifying auras and sent out wild gales as they took out their weapons. Sharp lights containing destructive auras tore through the air, destroying the hidden space and revealing the historical remnant.

The historical remnant instinctively sensed massive danger and gave off a powerful barrier to protect itself.

Boom! Boom! Boom...

The various higher-beings once again attacked, sending terrifying power against the barrier. The barrier violently trembled and was unable to withstand the attacks of so many higher-beings and soon shattered.

The higher-beings' gazes were quite cold as they prepared to charge into the historical remnant.

Di Moji looked at her father pleadingly. Facing so many higher-beings, it was impossible for Zhao Fu to survive. Only by relying on her father did Zhao Fu have a slight hope in surviving.

Di Jiang felt quite troubled, but he still brought his own higher-beings and gave off a powerful aura as he said loudly, "Everyone, this person is already my son-in-law, so please spare him this time; I

can promise that he will no longer bring harm to anyone. Please give the Demon Emperor Sect some face.”

The Demon Emperor Sect was a relatively powerful sect in the Demon Domain and had some fame, so the other higher-beings stopped for now.

A depraved and evil-looking man loudly laughed as he said, “Di Jiang, who would have thought that your daughter would also become an Evil Flower Emissary; what a pity. She’s the number one beauty in the Demon Domain and even I’ve wanted her for a long time. However, if you want us to let him off like that, you can keep dreaming.”

A bearded man laughed as he said, “That’s right, we can’t possibly spare him; who knows if he will take revenge against us in the future. Moreover, this person not only has the ability to harm the Demon Domain but also contains massive secrets, or else he would not be able to awaken five Emperor Stars.”

An ugly-looking elder said, “This Sovereign must obtain that person. If I can capture him, all of those terrifying things hidden on him will be This Sovereign’s. Even that person’s corpse is a supreme treasure.”

A young man laughed as he agreed, “Indeed, such a person definitely has many things hidden on him and has unimaginable benefits to all of us. We can’t possibly let him off.”

Chapter 1510: Holy Son

The higher-beings present not only wanted to kill Zhao Fu, who had endangered the Demon Domain, but they also wanted to obtain the heaven-defying things he had. Just his corpse alone would be a supreme treasure – this much was evident from his five Emperor Stars.

Hearing those words, Di Jiang looked slightly angry, but he only had seven higher-beings with him; how could he resist 500 or so higher-beings?

Yuan Ziyuan looked at her mother, and the beautiful woman smiled and nodded as she brought her higher-beings and flew towards Di Jiang and said, “This person is also my beloved daughter’s husband; is everyone willing to spare him?”

“Hahaha, you just want him for his talent. If he’s willing to join my faction, I’m naturally willing to spare him as well. However, how could he be willing to join me over you? As such, it’s best to kill him so that no one can have him. You think you can stop us with your numbers?” another higher-being said as he disdainfully laughed.

However, a minority of higher-beings stood out and said, “This person has our Demon Race’s bloodline and has our supreme Emperor Star; it’s quite a pity to kill him. After all, a supreme Emperor Star can have a great effect on a race.”

“That’s true, many people from other Domains are heading over and they definitely want to take him as well. How about we keep him alive for now and see just what kind of godly being he is.”

However, these people were in the minority and most of the higher-beings were not willing to wait. The things Zhao Fu had were simply too tempting and they were also worried about him getting away, so they decided that they had to kill him.

The Ten Demon Empire’s people also arrived and directly ignored all of the other higher-beings and charged into the historical remnant. The other higher-beings were unwilling to fall behind and also rushed in, wanting to obtain Zhao Fu. It was as if they were fighting over a supreme treasure.

Di Jiang and the beautiful could only helplessly bring their people and charge into the historical remnant as well. They already knew that things would end up like this – with Zhao Fu’s potential and how mysterious he was, it was impossible for the higher-beings to give up on him so easily.

They could only wait to see if they would have an opportunity to act. However, seeing how murderous the Ten Demon Empire’s people seemed, it was likely that they would not be able to save Zhao Fu.

By now, Zhao Fu had completed his transformation and he sensed the countless higher-beings flooding in. However, he could not escape at all.

The space was around locked down and teleportation channels were unusable. Even if he hid within the Emperor Killing Sword World, the higher-beings would definitely be able to blast it open. Zhao Fu would not be able to escape, and thinking about that, his expression became quite unsightly.

The higher-beings quickly reached the seventh level. Seeing the person dressed in a black cloak and only giving off an Earth Realm aura, they looked quite surprised.

They had never thought that the person who had five Emperor Stars, incredible secrets, and shaken the Heaven Awaken World countless times was the person in front of them.

If it was not for the fact that his aura was the same as those five Emperor Stars, they definitely would not believe that this pitifully weak person was the person with the five Emperor Stars.

The Emperor from the Ten Demon Empire looked at Zhao Fu coldly and said in an imposing tone, “Are you the possessor of the five Emperor Stars?”

There was not much difference between Zhao Fu acknowledging it or denying it. Even though he felt quite afraid of the higher-beings, he did not show it and replied neither overbearing nor servilely, “Yes!”

The Ten Demon Empire’s Emperor’s eyes gave off killing intent as he said, “If you weren’t the legatee of the Evil Spirit Abyss Flower Ancestor and were willing to submit to the Ten Demon Empire, I would not mind all the terrifying things hidden on you and might have protected you. However, it’s a pity that you’re his legatee. You can die now.”

Zhao Fu felt quite shocked. He was just the legate of the Evil Spirit Abyss Flower Ancestor, but it seemed that this person had immense enmity with him.

Moreover, Zhao Fu’s Evil Spirit Abyss Flower power was not something that the Evil Spirit Abyss Flower Ancestor had willingly given to him, and it had instead been taken by the magic formation and sent into Zhao Fu’s body. It was not like what others thought, that he and the Evil Spirit Abyss Flower Ancestor were master and disciple.

The Ten Demon Empire’s Emperor stretched out his hand. A low level cultivator like Zhao Fu was someone he could casually crush to death, and he felt that it was a pity that such a talented person with five Emperor Stars would die in his hands.

“He has a Divine Bloodline!” a shocked cry sounded out from a fair-looking higher-being.

Everyone felt quite shocked and went to sense Zhao Fu’s aura. They found that he indeed had a Divine Bloodline, and they all looked quite shocked.

Zhao Fu purposely did not hide this aura and at the start, the higher-beings did not notice because they were focused on his weak cultivation. If it was not for the fair-looking higher-being crying out, the others would not have realized it.

The Ten Demon Empire's Emperor stopped his attack, as did everyone else.

After all, this matter might be connected to a Holy Empire, which reigned far above ordinary Empires. If there really were Celestials, there were definitely in Holy Empires, and the higher-beings all felt immense reverence towards Holy Empires.

The fact that this person had five Emperor Stars could be explained by the fact that he was someone from a Holy Empire. No wonder his identity was so mysterious.

Of course, some people felt quite suspicious. Zhao Fu's strength was far too weak, and they felt that he was somewhat too inconspicuous. Moreover, it had been an extremely long time since someone from a Holy Empire had appeared.

However, now that Zhao Fu's identity could be connected to a Holy Empire, everyone hesitated. Even the Ten Demon Empire, which was the most powerful faction present, would not dare to directly face a Holy Empire.

Following this, Di Jiang and the beautiful woman arrived and were quite shocked. They now understood even more why their daughters had chosen this person as their husband, and they let out sighs of relief. Since Zhao Fu could be connected to a Holy Empire, which the higher-beings feared, the matter would be slightly easier to resolve.

"Are you a Holy Son? Of which Holy Empire?" the Ten Demon Empire's Emperor looked at Zhao Fu seriously and asked. After all, his decision could bring his Empire into danger.

The other higher-beings looked at Zhao Fu, and even though they wanted to obtain the heaven-defying things hidden on Zhao Fu and wanted to get rid of him, they were fearful of Holy Empires. Now, they could only wait for Zhao Fu's reply.

If he could answer about his Holy Empire and there was nothing to doubt, they naturally would not dare to act and would allow Zhao Fu to leave.

If they acted, it was possible that he would summon a Celestial. Celestials reigned above higher-beings and they definitely would not be a match, and they might all die here.
