

## The Lord 1531

### Chapter 1531: Ultimate Forbidden Art

“Lord Holy Son, this is the terrifying thing that I told you about, a crystal left behind by my master. It has its own consciousness and needs you to go up and receive its acknowledgement,” Zhu Ji smiled as she explained.

After sensing that terrifying aura, Zhao Fu naturally did not dare to be careless and he asked, “Just who was your master?”

Zhu Ji spoke with a sense of pride, “Our master was the most brilliant genius in the Outer World and created an Ultimate Forbidden Art. Despite having the lowest quality of constitution and bloodline, our master reigned above countless Emperors and became one of the most terrifying people in this world.”

Hearing this, Zhao Fu felt even more curious and asked, “What was that Ultimate Forbidden Art? And since your master was so powerful, how did he or she die?”

Zhu Ji smiled and pointed at the octagonal jade and said, “That is the Ultimate Forbidden Art. As for how master died, we don’t know either. We were too weak and were only responsible for looking after our home, so we don’t know too much.”

Advertisement

Zhao Fu nodded and stretched out his hand to touch that jade. Suddenly, the jade gave off an intense eight-colored light and a powerful aura burst forth.

Zhu Ji, Feng Ji, and Dia Ji looked delighted as they said excitedly, “Lord Holy Son, as expected you were able to receive its acknowledgement. This proves that we were right to submit to you.”

Hearing this, Zhao Fu smiled.

Boom!

The octagonal jade exploded out with an even more terrifying aura which created a wild gale. Everyone was forced back, and only Zhao Fu remained unaffected.

The octagonal jade gave off an intense eight-colored light to the point that it looked like an eight-colored orb of light. It then gave off a powerful aura and floated towards Zhao Fu.

Zhao Fu felt quite hesitant, not knowing if he should accept this octagonal jade. After all, this jade was a forbidden item from the Outer World, while he was a Heaven Awaken World person; could he accept this jade?

Advertisement

Zhao Fu was not sure about any of that, but what he did know was that this jade could cause himself to become stronger. In this world where the strong preyed on the weak, strength was key, so Zhao Fu did not have any reason to refuse.

Zhao Fu spread out his hands and the eight-colored orb of light gave off intense light and aura as it slowly fused into Zhao Fu's chest.

Immediately, Zhao Fu felt an unimaginably massive power flowing into his chest, causing his body and spirit to tremble. Traces of blood leaked out from Zhao Fu's mouth and eyes.

The eight-colored orb of light fused slowly, and only a bit of it had fused into Zhao Fu's body. Zhao Fu's body seemed to naturally resist this power, as Zhao Fu was from the Heaven Awaken World.

Zhao Fu could only suppress his bloodline and try to accept the eight-colored orb of light as much as he could.

As the eight-colored orb of light gradually fused into Zhao Fu, an even more intense gale sprang up, forcing everyone else away. Even Di Moji and Yuan Ziyuan were affected, as they felt a bloodline suppression.

At that moment, Zhao Fu's bloodline started to go through changes due to fusing with the eight-colored orb of light.

Advertisement

Boom!

A shocking explosion sounded out as the eight-colored orb of light was fully absorbed into Zhao Fu's body. Zhao Fu exploded out with a terrifying aura which spread out like a corporeal shockwave, causing the ground to crack.

An eight-colored aura flame ignited around Zhao Fu's body as a pillar of eight-colored light ferociously shot into the sky, causing the sky to tremble.

Originally, the sky in the Outer World had been completely cloudless and the eight searing suns gave off boundless light as they scorched the ground.

Suddenly, the eight suns seemed to be affected by some kind of power and gradually turned blood-red as if they were bleeding. A massive aura quickly spread out, causing the sky to become blood-red and the world to become dark.

Within the Outer World, many people who were talking, eating, cultivating, walking, or fighting all stopped. The ripples not only affected the surrounding few regions but the entire Outer World. Everyone in the Outer World looked quite confused as they looked at the eight blood-red suns in the sky.

The Heaven Awaken World people fighting in the Outer World Battlefield also looked incredibly shocked as they looked at the eight blood-red suns in the sky, wondering what had happened for such terrifying abnormal signs to appear in the Outer World.

Advertisement

These abnormal signs covered the entire Outer World, and this was no small matter at all and was definitely a massive event. After all, as the Outer World's eight Origin Stars, very few things could affect them.

Ordinary King Stars and Emperor Stars could not compare to Origin Stars, as they could compare to even moons and suns.

As Origin Stars, not just the main worlds could see them; other smaller worlds could see them as well. That was how terrifying the Origin Stars were – no matter where one was, one would be affected by them.

Ordinarily, there were only two types of Origin Stars: Suns and Moons, which represented Yin and Yang.

Seeing the eight suns become blood-red, the Heaven Awaken World people became incredibly shocked and reported this news to their factions. The Heaven Awaken World factions' leaders' expressions became grim and quickly sent experts to have a look as well in order to make preparations to retreat to avoid being caught up.

Many Heaven Awaken World higher-beings looked at the eight blood-red suns in the sky. They did not know if these massive abnormal signs in the Outer World was good news or bad news for the Heaven Awaken World, but they could not help but feel a trace of worry.

As for the Outer World's sovereigns, their expressions became somewhat unsightly. The Ultimate Forbidden Art that had once caused unprecedented destruction, innumerable deaths, and created worlds of corpses and seas of blood had once again appeared.

The person who obtained this Forbidden Art would become that person's legatee. That person had once caused the greatest catastrophe in the history of the Outer World, and that person was called the first Evil Celestial.

Advertisement

Now that the Forbidden Art had once again appeared, who knew what kind of terrifying things would happen. The Outer World's witches and astrologers tried to make divinations about this matter, but they all failed and some people even suffered a backlash.

This Forbidden Art belonged to something that was extremely heaven-defying and was reinforced by massive amounts of Heaven's Secrets, and almost no one could divine anything about it.

This meant that the person who had obtained it was a terrifying person who had a massive amount of Fate.

Chapter 1532: Eyes

The eight blood-red suns not only caused countless people from the Heaven Awaken World to feel worry, but the people from the Outer World also felt terrified. No one knew who had caused this or where that person was.

The only thing that they knew was that the Outer World would go through troubled times. This was a warning, telling everyone to make preparations for the disasters to come in the future.

A while later, everyone looked away before they once again looked up at the sky in confusion. Why were the abnormal signs still there after such a long time?

Within the historical remnant, an eight-colored aura flame burst forth around Zhao Fu's body, giving off a terrifying aura as wild gales swept out.

Currently, Zhao Fu's face was masked with pain, as his bloodline was fusing with an extremely terrifying thing that was showing great resistance. It made Zhao Fu feel as if he was going to be split apart into dust.

Advertisement

Zhao Fu was unable to bear this pain; the clashing between the two powers was simply too excruciating. Even though Zhao Fu had an Orthodox Divine Bloodline, it was useless and could not immediately fuse with the eight-colored orb of light.

“Arghhh!” Zhao Fu could not bear it anymore and his expression became savage as his widened. His eyes bulged and were completely bloodshot as his hands became claws and he roared towards the sky.

Seeing how much pain Zhao Fu was in, Di Moji and the other women looked quite worried.

Within a boundless void, five massive stars seemed to sense something and suddenly exploded out with five heaven-toppling auras and gave off fathomless starlight as they shined within the boundless void.

The dark void was filled with the five lights, and the surrounding stars seemed to show their subservience, not daring to resist at all. The five Emperor Stars gave off enormous auras of suppression as they spun in the air, and their Emperor Star Power started to spread out.

The eight blood-red suns in the Outer World also started to go through changes. Eight terrifying auras exploded out like an enormous tsunami, instantly flooding the heavens and earth.

Everyone felt as if they had fallen into a flood, and they felt as if they were going to be suffocated. Their bodies uncontrollably trembled as they instinctively felt a sense of fear.

Advertisement

The five blood-red suns at the center started to give off different-colored lights. One gave off a chaotic blood-red light, one gave off a noble golden light, one gave off a deathly gray light, one gave off a devilish violet light, and one gave off an evil black light.

The five lights spread out from the five suns in an instant.

Following this, the first sun became a blood-red eye filled with evil-intent, seeming to want to make the world fall into chaos and disasters to erupt everywhere.

The second sun turned into a dignified crystal eye that seemed to be looking down at ants as it looked down at all creatures. It had an extremely noble aura as if the world was going to submit to it.

The third sun turned into a gray eye filled with deathly qi, and it coldly looked down at everything with no emotions. It seemed to be able to drag people into the Underworld.

The fourth sun turned into a devilish violet eye that looked at everything with a trace of interest and a hint of wickedness as if everything was a toy in its hand.

The fifth sun turned into a black eye filled with evilness. It gave off a bloody, violent, and cruel gaze as it looked at everyone as if it wanted to kill everyone.

Advertisement

As the five eyes opened in the sky, a formless aura spread out. Facing the five eyes, everyone felt their hair stand on end and felt an extreme terror from the depths of their souls.

Countless sovereigns and higher-beings felt a trace of fear when facing the five eyes, even despite standing at the peak of the world and having confidence in their unparalleled strength.

The five terrifying eyes gave off different gazes as they looked down at all beings. Everything seemed incredibly petty and low, and everyone could only feel terror and despair.

None of the five eyes seemed to contain any benevolence, only an evilness that seemed to want to destroy the world and kill everyone.

By now, the Heaven Awaken World people's hearts sank and their expressions became quite unsightly. They knew that the matter was not simple at all, and for such terrifying power to be unleashed, it had to be someone unleashing an Ultimate Forbidden Art.

Everyone felt an immense crisis looming over their heads. It seemed that everyone from the Heaven Awaken World had to be extremely careful in the future; even though they did not know what was going on, they could not allow the Outer World's schemes to succeed.

Immediately, the Heaven Awaken World's people's expressions became quite serious and they immediately started to strengthen their defenses as they prepared to defend against attacks from the Outer World.

Advertisement

The Outer World's people also felt quite confused and had never thought that something like this would happen. Wasn't this an Ultimate Forbidden Art? However, the abnormal signs were different from the Ultimate Forbidden Art from before; what had happened?

These five eyes were simply too terrifying, and it was as if they could destroy all worlds and slaughter all beings. Even sovereigns felt a trace of pressure from them.

The level of this event surpassed that of the Ultimate Forbidden Art from back then. No one knew what was going on, but they all knew that whoever had obtained this Ultimate Forbidden Art was definitely an extraordinary person or else there would not have been such great changes.

Thinking about that, the Outer World's people looked somewhat fearful. This person would definitely cause great harm in the Outer World in the future.

Everyone started to prepare defenses to defend against the threat in the future in order to avoid being caught defenseless when the calamity approached. The Outer World's Eight Great Empires from the eight major races took this matter very seriously, and they paid a high price to try to find that person's location to kill him and steal the Ultimate Forbidden Art.

However, the heaven-defying measures they tried were completely useless, and all of them received massive backlash and were greatly injured.

Now that it was impossible to find that person's location, the Eight Great Empires gave out a kill order to hunt down that person. Various factions participated, some of which feared this person and his power, and some of which had enmity with the first Evil Celestial. They were determined to kill this person and would not allow him to harm the Outer World.

The Outer World started to become raucous as countless people discussed this matter and tried to collect as much information as they could about this person.

Advertisement

Facing those five horrifying eyes, countless ordinary people fell into despair. They also greatly supported killing that person; he could not be allowed to continue living.

Chapter 1533: Eight Forbidden Blood Art

The five eyes in the sky gradually turned back into five suns, and the blood-red color disappeared from the suns, causing them to return to their original state. The world returned to peace and everyone let out sighs of relief.

Whether it was the Outer World people or Heaven Awaken World people, no one knew who had caused this. Everyone strengthened their defenses while also trying to find information about this matter.

In the future, Zhao Fu's name would not only resound throughout the Heaven Awaken World but the Outer World as well. Everyone would ask the same question – how did such a terrifying person appear?

Back within the historical remnant, Zhao Fu had borrowed the five Emperor Stars' power to fuse with the octagonal jade. However, his body was now covered with blood and he lay strengthlessly on the ground, unconscious.

Di Moji and the women recovered from their shock; their husband already had many terrifying powers, such as his Divine Bloodline, Six Paths of Reincarnation Power, Billion Sovereign Dragon Imperial Bloodline, etc.

#### Advertisement

Now, he had gained yet another extremely terrifying power, and it came from the Outer World; just what kind of terrifying existence would this husband of theirs become?

Now, no matter how extraordinary they were, they could not lift their faces in front of Zhao Fu, and they could not compare to him at all.

At the same time, they rejoiced that they had followed such a person.

Zhu Ji and the other women were also quite delighted. Even though they knew that Zhao Fu was a Holy Son and was quite extraordinary, the power that Zhao Fu had demonstrated was far beyond what they had expected.

The more terrifying Zhao Fu's power was, the bigger their gains would be from doing it with him. This was enough to make them go crazy, and they were willing to become his female slaves to receive his love every day.

Seeing Zhao Fu lying on the ground covered with blood, Di Moji and the other women hurriedly ran up to check on his wounds, and they carried him back to the Great Qin Territory.

A few days later, Zhao Fu slowly woke up within the Great Qin Palace. After hearing about this, everyone in Great Qin heaved a sigh of relief. Zhao Fu was the pillar of Great Qin and received the concern of countless people; they could not allow anything to happen to him.

Advertisement

With the situation in Great Qin, if Zhao Fu was gone, no one would be qualified to replace him, and it was possible all of Great Qin would collapse.

The Flower Fairy and Asani stopped their healing magic and the Flower Fairy smiled as she said softly, "Husband, you're awake."

Both of them had powerful healing abilities and were Great Qin's top-tier healers. They had been continually healing Zhao Fu over the past few days and under their powerful magic, Zhao Fu was able to wake up again quite quickly.

Zhao Fu smiled and brought them both into his embrace. The Flower Fairy gave a sweet smile as she leaned against him, and even though Asani had served Zhao Fu with her mother Daisy many times before, she was still quite embarrassed and her face became red.

Zhao Fu hugged both of them as he smiled and asked them what had happened while he was unconscious. After hearing that nothing big had happened, he felt much more at ease.

Following this, Zhao Fu pressed the two women beneath him and started to do it with them, recovering his strength as he did it. After having a good taste of them, Zhao Fu recovered a lot of his strength and some color returned to his cheeks, making them not as pale as before.

"Husband, the Art that you cultivate is such a perverted Art; you can recover your strength by doing this," the Flower Fairy said teasingly as she lay in Zhao Fu's embrace and lightly laughed.

Advertisement

"As long as husband can recover his strength, I'm willing to do anything," Asani said shyly in a small voice on the other side.

Zhao Fu hugged the two strengthless women and laughed before chatting with them for a bit longer and then examining his body. He found that after fusing with that octagonal jade, his body had gone through some changes.

Firstly, he found that after the octagonal jade had fused into his body, it was no longer a jade but a mark. Its shape and color were still the same.

The biggest difference was that Zhao Fu felt as if he had a new bloodline. This bloodline came from the Outer World, but it gave an unclear feeling.

It felt quite ordinary and weak, as if it did not exist, and it seemed almost negligible. However, Zhao Fu knew that this bloodline definitely was not simple, as it came from that octagonal jade. The aura that Zhao Fu could sense from that bloodline was the first Evil Celestial's aura, which meant that the bloodline belonged to the first Evil Celestial.

According to the information that came with the octagonal jade, the first Evil Celestial who had caused a calamity in the Outer World originally had the lowest aptitude and did not have much talent. However, he was incredibly intelligent.

He knew that he was lacking, so he continuously researched how he could improve himself. This process was incredibly difficult, and he had used any means possible to him.

## Advertisement

The disgusting secret technique to create insect monsters was something created by him, and it had been created quite early on; this showed just how evil and twisted he had been.

However, only by being so evil and twisted, and using any means available to him, could he rise from an ordinary person to the first Evil Celestial who could shake the entire Outer World.

From the information, Zhao Fu saw how difficult it had been for the first Evil Celestial, and he could not help but respect him.

Zhao Fu had currently only obtained the most basic legacy and it did not increase his strength by much. Even though it was the first Evil Celestial's bloodline, it was in actuality quite weak.

The bloodline was just the core, and that was its only purpose. It was the core for the Ultimate Forbidden Art.

The Ultimate Forbidden Art was called Eight Forbidden Blood Art, and it was a forbidden art that could devour all of the Outer World's eight major race's bloodlines. The Heaven Awaken World also had eight major races, and they were split into tens of millions of bloodlines.

This Eight Forbidden Blood Art could devour as many bloodlines as there existed, and he could obtain different races' abilities. The first Evil Celestial had devoured countless bloodlines and had raised his bloodline to the peak of the Divine Bloodline, and it was only a trace away from becoming an Origin Bloodline.

Now, Zhao Fu knew why he felt some pressure from this bloodline, even though he himself had a Divine Bloodline that reigned above countless Imperial Bloodlines; the first Evil Celestial's bloodline had been quite a lot higher than his.

#### Advertisement

Moreover, the Eight Forbidden Blood Art had more abilities. Its other ability that could cause people to feel terror and shake the Outer World was that it could make the Outer World's eight suns its Fate Stars. This would be enough to make anyone go crazy.

With Zhao Fu's current abilities, Zhao Fu could not make the Heaven Awaken World's sun his Fate Star, as it was an Origin Star and contained unimaginable power.

However, the supreme Emperor Stars of the eight major races would not be that much weaker.

#### Chapter 1534: Heavenly Law

Apart from those abilities, the Eight Forbidden Blood Art had the ability to create life and devour all kinds of powers. However, the prerequisite was that one had to have devoured the same bloodline, and it was not bound by any laws.

As long as one worked on this bloodline and devoured countless other bloodlines, even the lowest-grade bloodline could become an Origin Bloodline, but it was incredibly difficult.

Moreover, there were no restrictions on what could be devoured – anything could be devoured, and at its final stage, even heavenly laws, or worlds' consciousnesses, could be devoured, allowing one to control the energy of a world.

That was how terrifying the Eight Forbidden Blood Art was, and it was because it was so terrifying that it was called an Ultimate Forbidden Art by the Outer World's sovereigns.

Not only did countless people fear its existence and the power it could unleash, but they also madly wanted to obtain the Ultimate Forbidden Art, walk to the peak of the world, and trample on countless geniuses.

## Advertisement

It was a pity that Zhao Fu's talent and bloodline were already exceptional, so the Forbidden Art was somewhat wasted on him. If it had fallen into an ordinary person's hands, that ordinary person would be able to change their life and become one of the most powerful people in the world.

Of course, the Forbidden Art was still quite useful to Zhao Fu. Realizing that he had obtained such a terrifying thing, Zhao Fu could not help but grin.

He had only obtained the Forbidden Art, and now it was up to him to develop it.

Because Zhao Fu already had a Divine Bloodline, he did not need to devour low-grade bloodlines because that would instead cause his bloodline to become impure and reduce its power.

The first Evil Celestial's own aptitude and bloodline had been too lacking, so he could only rely on devouring countless low-grade bloodlines before moving on to higher-grade bloodlines. Otherwise, he would not be able to devour those powerful bloodlines.

However, this would make one's bloodline incredibly impure. Even though a person having thousands or tens of thousands of bloodlines sounded quite powerful, the more bloodlines there were, the less pure one's bloodline and power would become, making it harder to reach higher realms.

If one could continuously refine those thousands of bloodlines and purify them, fully fusing them into a single bloodline, that would be incredibly terrifying. However, that process would be incredibly difficult, and only the first Evil Celestial had done such a thing.

Advertisement

Zhao Fu thought about it and decided that he could devour bloodlines, but only if they were at least Imperial Bloodlines or incredibly special bloodlines.

Back then, that was why the first Evil Celestial's bloodline had been stuck at the peak of the Divine Realm.

Even though Zhao Fu had an Origin Mark, making it easier for him to obtain an Origin Bloodline, Zhao Fu wanted to use the Forbidden Art to surpass Origin Bloodlines and obtain an even higher bloodline.

After looking at the Eight Forbidden Blood Art's information, Zhao Fu could not help but smile. After dealing with the matters that had piled up over the past few days, Zhao Fu fused the Insect Dens into the Wyverns.

Great Qin had now gained another few hundred Insect Den Wyverns, which were all incredibly powerful. A single Insect Den Wyvern could compare to ten or so ordinary Wyverns. It was a pity that their numbers were limited, or else they would have made a terrifying army.

Now that the Great Qin Territory had destroyed Chaos Evil City, the threat from the other danger zones was not very big. As long as they did not attack Great Qin together, there would not be any danger.

Zhao Fu once again turned to the issue of Great Qin's surroundings. Zhao Fu was having a meeting with his subordinates when a soldier came to report, "Your Majesty, an ambassador from the Fishman World has arrived and wishes to meet you."

Advertisement

Hearing this, Zhao Fu felt quite surprised. The Fishman World was to the right of the Lantong World, and it was the world above the Elf World. Why did they suddenly contact him?

Zhao Fu thought about it and could guess at the reason, and he motioned for the soldier to bring the ambassador in.

Following this, a golden-haired middle-aged woman with a seductive figure, along with three peerlessly beautiful women, walked in.

Of the three peerlessly-beautiful women, one had short, green hair, and she was quite petite and looked quite pure. One had fiery-red long hair and also had a bewitching figure, and the final one had a graceful figure, a calm smile, and gave off a dignified aura.

They were all Fishwomen and had legs right now, but they were not wearing much, revealing a lot of their skin.

Even though the Fishmen were pure and kind creatures, their appearances were incredibly seductive and could not help but make one feel tempted.

“What is it?” Zhao Fu sat on his throne as he gave a trace of a smile as he looked at the women.

#### Advertisement

The beautiful middle-aged woman smiled and waved her hand, and ten or so treasure boxes appeared in the hall. They were treasures that could only be found in the deep sea, and she said, “We have long since heard of Great Qin’s Majesty’s name and have come to visit him today. This is a small gesture of our friendship; please accept it.”

Zhao Fu naturally was not very interested in the treasures. Even though some of the pearls were as big as bowls, and many gems gave off resplendent light, Zhao Fu was the ruler of six worlds and had his own water world, so he did not lack any of these.

Seeing that Zhao Fu was not too interested, the beautiful middle-aged woman expected this; they had only brought these things out of courtesy – the real gifts were the three women behind her. After all, she had long since heard that Great Qin’s Emperor liked beautiful women, so it was impossible that he would not want them.

The beautiful middle-aged woman pointed at the three women and smiled as she said, “These are the three most beautiful Princesses from our Fishman World; they are greatly interested in Your Majesty and are willing to become Your Majesty’s Concubines and serve Your Majesty.”

Zhao Fu glanced over the three women and his expression did not change much. “Get to the point, Our time is limited.”

Hearing this, the beautiful middle-aged woman could only say, “Your Majesty, we’ve received information that the Devil Horn Empire is preparing to attack our Fishman World. Please send soldiers to defend our Fishman World; we will do our best to satisfy anything Your Majesty asks for.”

Zhao Fu smiled and directly refused, “Apologies, Great Qin is unable to help you.”

This was not because Zhao Fu feared the Devil Horn Empire but because Great Qin and the Fishman World were separated by the second Wind God Empire. On the other hand, the Devil Horn Empire was close to the Fishman World and could attack incredibly quickly.

#### Advertisement

On the other hand, it would be quite difficult for Great Qin to send soldiers. They could not directly head to the Fishman World and would have to go around the second Wind God Empire, which was quite unfavorable.

Moreover, if Great Qin fought with the Devil Horn Empire at the Fishman World and the second Wind God Empire suddenly attacked and cut off Great Qin’s retreat, the army that Great Qin sent to the Fishman World might be wiped out.

#### Chapter 1535: Four Paths

Even though Zhao Fu quite liked beautiful women, he was not an incapable ruler. He was not willing to sacrifice so many soldiers to help the Fishman World in exchange for a few women.

The gifts were far from enough to motivate Zhao Fu to act; after all, Great Qin was incredibly prosperous and Zhao Fu’s harem was filled with countless beautiful women.

The beautiful middle-aged woman had never expected Zhao Fu to refuse so resolutely. However, Great Qin was the only one in the surroundings who could help them. There was also the second Wind God Empire next to them, but with how inhumane the second Wind God Empire acted, if they went as ambassadors they would most likely die.

Even though Great Qin could be cold-blooded and ruthless, it was benevolent to ambassadors and those who surrendered. That was why they were willing to come to Great Qin.

Now that Great Qin had refused, there was no one who could help the Fishman World; this caused the beautiful middle-aged woman's expression to become quite unsightly.

One of the women behind her with long blue hair and a dignified aura said, "With Great Qin's might, it definitely has the power to help us. Please send people to defend our Fishman World. We will do our best to serve you."

The two other women also pleaded, saying, "Please save the Fishman World, Your Majesty; we'll serve you with everything we have."

Zhao Fu lightly laughed as he said calmly, "There is simply too much risk. If you were close to Great Qin, things might be possible, but that is not the case. We cannot agree."

"With your position, with the Devil Horn Empire to the left and the second Wind God Empire below, and their ambition, they definitely will not spare your Fishman World. As such, your Fishman World will be destroyed sooner or later."

"As such, it's better to submit to Great Qin earlier. Great Qin can help you all relocate into Great Qin; Great Qin has a water world of its own – you Fishman people probably do not like living on land, so that place will suit you."

The beautiful middle-aged woman and the three others understood that Great Qin would not help them so easily. Their expressions were somewhat grim, but they were quite moved that Great Qin was willing to relocate them.

They understood that given that the Fishman World was between two large factions, it would not be able to survive for long. As such, right now they had four paths.

The first was to submit to the Devil Horn Empire, but the Devil Horn Empire was incredibly cruel and bloodthirsty. The second was to submit to the Wind God Empire. However, the Wind God Empire was also incredibly murderous and killed anyone they wanted to. The third was to submit to Great Qin, who treated people who submitted quite well.

The fourth path was to leave this place and go elsewhere to live. However, that might not be necessarily any better than the current situation. As such, having Great Qin, which was so terrifying, protecting them seemed quite attractive.

However, this matter related to an entire world, so they could not make the decision. Now that they knew that Great Qin would not just help them, they could only say that they would go back and consider it.

Zhao Fu did not keep them and continued to discuss the matter of attacking the Glass World with his subordinates.

The next day, Great Qin gathered an army, which gave off a grandiose and terrifying aura as they attacked the Glass World.

The Glass World had built a defensive wall and gathered eight billion soldiers to defend the world. All of their expressions were quite nervous, and the atmosphere became incredibly heavy.

The Devil Horn Empire also started to gather their army, wanting to attack Great Qin from the right. Of course, they were only gathering their forces – they were not so kindhearted as to defend the Glass World for nothing.

They wanted to wait until Great Qin attacked the Glass World before acting. That way, they would be able to reduce their losses from fighting, and they would be able to pincer Great Qin along with the Glass World. That situation would be quite advantageous for them.

If Great Qin dared to attack, they would deal a heavy blow to Great Qin and show Great Qin their might.

However, what was surprising was that Great Qin sent out two billion soldiers, which split into two armies. The first army invaded the Glass World while the second army defended against the Devil Horn Empire to the right.

Great Qin's one billion soldiers would be able to deal with a new world with no problems. However, one billion soldiers against the Devil Horn Empire evidently would not be enough.

Great Qin and the Devil Horn Empire both left behind forces to defend against the second Wind God Empire. This time, the Devil Horn Empire had mobilized two billion soldiers to attack Great Qin, which was one billion more than Great Qin.

However, Great Qin did not show any fear. Zhao Fu personally led one army while Bai Qi led the other, and they gave off a massive aura of killing and conquering as they split up.

The army that Zhao Fu led quickly faced off against the Devil Horn Empire. Both sides gave off world-shaking auras, and all of the soldiers had resolute expressions. One side was dressed in green armor while the other was dressed in black armor.

Zhao Fu had brought Gui Ji with him, and they stood in the air together, causing Yao Ming's expression to become quite unsightly. Even with his Nation Armament, he did not dare to fight them, as he would have to face two people.

Yao Ming was quite familiar with Great Qin's methods by now and had made various preparations. However, since Great Qin had dared to defend against him with just one billion soldiers, it had to mean that they were hiding something, so Yao Ming became wary.

Great Qin had finished getting into a defensive formation, and if he was too wary and did not attack, Great Qin would achieve its goal and would be able to easily destroy the Glass World.

After thinking about it, Yao Ming decided to use the long-furred Demon Race to first scout out the enemy.

Large people covered with black fur giving off dense demonic qi walked out from the army. Looking at Great Qin's army, their expressions became serious as they roared towards the sky.

Massive amounts of demonic qi flowed out of their bodies as they unleashed massive auras, causing a wild gale to blow.

Bang! Bang! Bang...

The long-furred demons punched the ground, causing the ground to crack, and demonic qi flowed out, forming humanoid demons. They had single horns and black, steel-like fur, as well as claw-like hands and feet.

There were one billion or so of them, and they gave off dark demonic qi as they shot towards Great Qin's army.

Facing the one billion incoming demons, Zhao Fu felt quite disdainful, and he raised his hand as eight golden and glittering crystals flew into the sky.

"Skree! Skree! Skree..." Massive birds' cries sounded throughout the sky as the eight massive crystals turned into eight golden birds that burned with golden flames and gave off brilliant light. Eight searing auras exploded out and boundless light filled the world as if there were eight suns razing the world.

#### Chapter 1536: One Billion Ghost Summons

Under the searing sunlight, the summoned demons gave off traces of black aura and screamed as they gradually dissipated.

There were many demons, but they were not very strong so they were quite easy to deal with.

The eight crystals that Zhao Fu had thrown out were Sun God Stones that had absorbed boundless sunlight from the Outer World. They were incredibly harmful to Darkness creatures, and under the eight sun's intense sunlight, they all turned into demonic qi and dissipated.

However, Yao Ming had anticipated that something like this would happen, so while the demons were charging, he had split his army of two billion soldiers into two waves that attacked from the left and right.

The two groups flooded forwards, giving off destructive auras as they rushed at Great Qin's soldiers.

"Fire!" Zhao Fu ordered, and arrows containing great strength shot out, tearing through the air and descending towards the two groups like rain.

The two groups exploded out with traces of green aura, which covered the two groups. As the arrows passed through the green aura, they seemed to lose their power and fell to the ground without dealing any damage.

“Corps Formations!” Zhao Fu once again gave an order, and countless traces of aura flooded out of Great Qin’s soldiers’ bodies, forming two massive black dragons that were hundreds of meters long, and they gave off terrifying auras as they rushed towards the Devil Horn Empire’s two groups.

The Devil Horn Empire’s two groups quickly created two enormous green dragons, which gave off ferocious auras as they rushed towards the two black dragons.

Bang! Bang! Bang...

The four dragons savagely clashed in the sky, heads against heads, claws against claws, tails against tails. Massive explosions sounded out as terrifying ripples blasted out, causing everyone to feel a chill.

The two green dragons were larger than Great Qin’s two black dragons, as they were each made from one billion soldiers’ auras, while Great Qin’s were each made of only five hundred million soldiers’ auras. However, Great Qin held an advantage in that Great Qin’s soldiers had higher cultivations.

This was quite shocking – that a new world’s cultivation was higher than a world that had been developing for dozens of years. Of course, this was mostly because of the Heaven and Earth Refining Formation.

The Heaven and Earth Refining Formation had gradually built up Great Qin’s foundation, and it was inevitable that Great Qin would surpass the Devil Horn Empire.

As the four dragons fought in the sky, the Devil Horn Empire’s two groups continued to surge forwards.

Swish, swish, swish...

The two groups also shot out countless sharp arrows, which gave off piercing auras as they flew towards Great Qin's soldiers.

On Great Qin's side, the Shieldbearers standing at the front raised their shields and gave off black lights, forming a powerful barrier that defended against the countless incoming arrows.

The two groups continued to charge over, and the distance between the two sides was now only a few thousand meters. The Devil Horn soldiers gripped their weapons, looking quite savage as they roared, and Great Qin's soldiers gripped their weapons with icy gazes, preparing to meet their attack.

Zhao Fu stood in the air and looking at the two groups charging from the left and right, he threw a scroll into the sky. The cross-shaped pupil and the six gray dots in his right eye quickly spun, and a massive wave of Yin Qi spread out. Zhao Fu then stretched out his hand and vigorously grabbed at the air.

Boom!

A massive explosion sounded out as the scroll exploded out with dense Yin Qi which spread out as fast as lightning, covering the sky in an instant. An icy gale blew, causing the temperature to fall, and the surroundings became filled with ghostly qi, as if it was the Underworld.

"Arghhh..." Howls sounded out as the ghostly qi formed ghosts with sharp teeth and claws. Their numbers were shocking, and there were about one billion of them.

These one billion ghosts all had Stage 2 or Stage 3 Cultivation, and they were much stronger than the demons that the Devil Horn Empire had summoned. The scroll was the one Zhao Fu had obtained from the Underworld Mark.

The two or three billion ghosts could rival at least six or billion Stage 1 soldiers, and this caused the Devil Horn soldiers' hearts to sink, causing their morale to fall.

Boom!

Zhao Fu's golden pupil in his left eye quickly spun as a few chains out of his body shot out of his body and into the ground. A heaven-toppling aura rushed out from beneath the ground, turning into

a black pillar of light that shot into the sky, and an incredibly massive giant gradually rose up from the ground.

An enormous aura flooded out, inundating everything, and causing all people to feel terror.

This was the Primogenitor Statue that Great Qin had used to deal with the Spirit Light World before. Yao Ming knew about it, as he had personally seen it before, but he felt quite shocked – how had it become so strong? This kind of massive creature seemed more powerful than ordinary Emperor Heaven Realm experts in large battles by dozens of times.

The countless ghosts rushed at one of the Devil Horn Empire's groups, and the two sides quickly clashed. Even though there were only one billion ghosts, they slaughtered their way into the Devil Horn Empire's army.

Blood splattered everywhere as cries sounded out. An intense battle unfolded as waves of auras continuously spread out.

Standing in the air, Zhao Fu slowly stretched out a hand and grabbed at the air. The Primogenitor Statue below also stretched out a hand and grabbed at the air, and a blood-red sword appeared in its hand.

A massive wave of energy entered the sword, causing it to give off traces of terrifying aura, seeming to twist the space around it.

Zhao Fu stood in the sky, seeming to hold a formless sword, and he vigorously slashed out.

Shing!

The Primogenitor Statue copied Zhao Fu's motion and also slashed out, and a sword hum tore through the sky as an unimaginably powerful sword light swept out.

The expressions of the incoming Devil Horn soldiers fell as they hurriedly exploded out with green aura and gathered it, trying to block that strike.

Boom!

The enormous sword light gave off terrifying power as it split the green aura blocking in front of the Devil Horn soldiers in two, and the soldiers at the front were instantly slashed into countless bits of meat, making the scene incredibly bloody.

The one billion soldiers had not been able to gather all of their aura in time, and even though they had not been able to completely block this strike, they had greatly weakened that sword light and only a few million soldiers died.

That attack from the Primogenitor Statue used up a portion of its power, but it had broken the defense of the Devil Horn soldiers. Great Qin's soldiers started to ferociously attack.

## Chapter 1537: Glass World

Swish, swish, swish...

Great Qin shot out countless arrows containing immense power that tore through the sky, and they descended like torrential rain.

Having lost their defenses, the Devil Horn soldiers were unable to defend, and many of them were hit by the arrows. Their bodies were pierced by countless arrows and blood spurted everywhere as countless people immediately died.

"Kill!" Great Qin's side started to charge as the black-armored army flooded forwards like an apocalyptic flood towards the Devil Horn army.

Boom!

A massive explosion sounded out as the flood of Great Qin's soldiers smashed into the Devil Horn army, and soldiers from both sides started to clash.

A Great Qin soldier slashed with his saber, chopping off a Devil Horn soldier's head and causing blood to splash onto his face. Another Great Qin soldier ferociously stabbed his spear into a Devil Horn soldier's mouth, piercing through the back of his neck.

The Devil Horn army desperately fought with Great Qin's soldiers, causing roars and clashing of weapons to continuously sound out. Blood dyed the ground red as more and more people fell.

Zhao Fu controlled the Primogenitor Statue to once again raise its sword and vigorously slash, and a powerful sword energy blasted out with enough power to destroy all things.

In front of that immense sword energy, the Devil Horn Empire's countless soldiers were like ants and were slashed into tiny bits of meat. Blood covered the ground and gave off a pungent smell, and the scene was quite gory.

Yao Ming's expression was quite unsightly because most of the soldiers dying were from the Devil Horn Empire. If this went on, the Devil Horn Empire would suffer heavy losses.

The Devil Horn Empire had lost this time; Yao Ming had never thought that Great Qin could summon so many ghosts and that Primogenitor Statue would be so terrifying.

"Retreat!" Yao Ming did not hesitate to order a retreat, and the Devil Horn Empire started to withdraw.

Great Qin gave chase for a short while, but because Zhao Fu was wary about an ambush, they did not continue. Moreover, the most important thing was to defend this place and prevent the Devil Horn Empire from attacking Great Qin's other army.

As such, Zhao Fu did not leave this place and stood guard to prevent anything unexpected from happening, while he left the other battlefield to Bai Qi.

On the other battlefield, Bai Qi was currently giving orders to attack the Glass World.

Bang! Bang! Bang...

The Spirit Light Emissaries and Insect Den Wyverns shot out beams of light that smashed into the defensive walls with immense power, causing terrifying explosions. The terrifying power they contained easily broke through the defenses that the Glass World had prepared.

Swish, swish, swish...

Arrows containing terrifying power drew out arcs in the air before descending, and countless Glass people were hit. Some directly died while others fell to the ground and screamed.

“Roar! Roar! Roar...” Great Qin’s beasts ferociously attacked from the side. The enormous spiders quickly climbed up the defensive walls and used their blade-like legs to kill the Glass soldiers. The soldiers’ bodies were cut into pieces, creating a bloody and horrific scene.

Countless Wyverns unleashed flames and icy blasts from the sky towards the defensive walls, and countless Glass soldiers were either burned or frozen to death.

Over 10,000 Illusion Flower Devils opened their beautiful flowers, and massive amounts of pollen floated towards the Glass soldiers. After breathing in the pollen, countless Glass soldiers froze and fell into an illusion.

Bai Qi then gave the order to launch the main assault, and Great Qin’s army flooded forwards like a black tsunami and ferociously charged into the Glass soldiers.

The Glass soldiers desperately tried to defend and continuously roared as they rushed at Great Qin’s soldiers. They shot out countless arrows towards Great Qin’s beasts, but they were not very effective. The battle was completely one-sided, and the Glass people were not a match for Great Qin at all.

Even though Dong Yueli was quite powerful as the World Protector, he could not compare to even a Divine Extreme Realm expert. He was taken down by Long Hao’Er and the others in just a few exchanges and was no longer able to resist.

In the end, the Glass soldiers were forced back and Great Qin broke through the Glass World’s defenses, rushing out in all directions.

Countless Glass people looked terrified; in the end, their Glass World could not avoid its fate of being destroyed, even if it collaborated with the Devil Horn Empire. They had been hoping for the Devil Horn Empire to come so they could deal a heavy blow to Great Qin, but they still were not here.

Now, the Glass world was in complete chaos. Most people started to run away; without the Heaven Domain Boundary blocking them, everyone could easily leave the Glass World without any restrictions.

Some people wanted to escape to the Devil Horn Empire and receive protection there. Since they were allies, the Devil Horn Empire would most likely treat them well.

Great Qin moved quickly, surrounding the world first before gradually clearing it out and suppressing it, making it so that not many people could escape.

Countless Glass people knelt on the ground, looking terrified as they trembled in fear. Seeing Great Qin's soldiers walk into their Cities, they did not dare to resist at all because those who had resisted had been skinned, gutted, and hung on the City Walls.

Great Qin quickly gained control of the Glass World. In the end, the battle quickly concluded, and Great Qin conquered the Glass World just as it had planned.

After hearing this, Zhao Fu grinned and led his army to the Glass World, and the two armies gathered together.

Sitting on a throne, Zhao Fu smiled as he listened to Bai Qi report to him the outcome from the battle. After conquering the Glass World, they had obtained 32 billion people, 70,000 Cities, countless Towns and Villages, and various treasures and resources.

They had killed four billion Glass people, and apart from soldiers, there were also some commoners who had resisted. On the other hand, Great Qin had lost fewer than 300 million soldiers.

Great Qin's population had been at 410 billion and had 590,000 Cities, and now that they had obtained another 32 billion people and 70,000 Cities, Great Qin now had 442 billion people and 660,000 Cities.

Hearing this, Zhao Fu could not help but grin; Great Qin's strength had once again greatly increased. Now, with the Glass World, Great Qin controlled seven worlds. It was now only three worlds away from becoming a Royal Kingdom.

"Your Majesty, I captured that World Protector for you," Long Hao'Er nestled against Zhao Fu as she smiled and spoke.

Zhao Fu lightly laughed and had Dong Yueli brought in.

Dong Yueli's face was pale and he was brought over by a few guards. His clothes and hair were in disorder and contained traces of blood, and he looked quite dispirited. He no longer looked as high and mighty.

Zhao Fu looked at him and asked, "What do you have to say for yourself?"

Chapter 1538: Fishman

Dong Yueli thought to himself before kneeling on the ground and saying, "I am willing to submit to Your Majesty; please accept my surrender."

Zhao Fu felt quite pleased and smiled; Dong Yueli was quite tactful. He accepted his surrender and had people take him away.

At that moment, Bai Qi came up with a trace of a smile and said, "Your Majesty, this subordinate has prepared some beauties for you from the Glass World; please enjoy them. This subordinate will take his leave."

Zhao Fu lightly laughed and nodded, after which six women were brought up.

The first was a tall and slim woman who had an elegant aura, and she was called He Limei; she was Dong Yueli's mother. The second was a beautiful woman with a mature figure; she was Dong Yueli's married sister, Dong Zhimei.

There was also a woman with a fiery figure who had a trace of seductiveness about her, and she was called Nuo Mei. There was also a gentle and calm-looking woman called Weng Yazhi. There was also a voluptuous and simple-looking woman called Nan Min, and a relatively skinny but bold-looking woman called Bai Heli.

Zhao Fu glanced over the six women. They all had white hair and were quite beautiful, and they were indeed the top beauties from the Glass World.

He Limei smiled and said softly, “Your Majesty, are you satisfied with us? Hurry and use us; we want to know how pleasurable it is doing it with Your Majesty.”

She knew that her son had submitted and knew why she had come here. Resisting was useless, so she could only accept her circumstances. If she served Zhao Fu well, it would be of great help to her son in the future.

However, Bai Heli said coldly, “Just kill me! I won’t serve anyone.”

Zhao Fu ignored her and lightly smiled as he walked towards them and started to do it with them. Under Zhao Fu’s body, the women all cried out lewdly.

Afterwards, He Limei’s face was red as she hugged Zhao Fu. Even though she had heard how dissolute Great Qin’s Emperor was, she had never thought that doing it with him would be so wonderful, and she felt as if she had become addicted to that kind of feeling.

Dong Yueli’s older sister also lay in Zhao Fu’s embrace with a reddened face. She had originally only served Zhao Fu so her husband and little brother would not be harmed, but she had found that both her body and soul had betrayed her husband and greatly enjoyed doing it with this man.

The bold-looking Bai Heli who had wanted to resist also lay strengthless by the side.

He Limei smiled as she said, “How did we taste, Your Majesty? Did you feel that we Glass women were different from other women?”

Zhao Fu lightly laughed as he replied, “You were all very good!”

The Glass women were indeed slightly different to normal women because their bodies were slightly cold and their skin was incredibly supple. Doing it with them in the summer would be quite pleasurable.

He Limei said, “Your Majesty, since you like us, I have a few sisters with whom I have a good relationship with. Later, I’ll call them to serve you; they’ll definitely like Your Majesty as well.”

He Limei wanted to bring in some helpers so that she would have a better time in the harem.

Zhao Fu did not refuse; it was better to bring back more to enjoy.

Following this, Zhao Fu brought his army back to Great Qin and made these women Concubines. Large amounts of Phoenix Qi flowed into the Emperor Phoenix Statue.

“Skreee!” a phoenix’s cry sounded out as the Emperor Phoenix Statue gave off immense golden light and turned into a golden phoenix with a wingspan of 70,000 meters and flew into the sky. It gave off boundless golden light and dyed the entire sky golden.

By now, the Emperor Phoenix Statue had enormous power and greatly surpassed that of an ordinary Nation Armament and even Clan Armament. It was only a bit away from having the level of power similar to the Primogenitor Statue.

Now that they had conquered the Glass World, what remained was to digest it, fully control it, and have it become part of Great Qin.

A few days later, within the massive and somewhat-crude Desolate God Temple, there was not a single believer inside, but a woman’s lewd cries could be heard. A woman with a fiery body, blood-red short hair, and a wild aura was being ravaged by a handsome young man.

Zhao Fu asked somewhat displeased, “It has been so long; why have no Blood God Demons been created yet?”

The Desolate God also replied in displeasure, “It’s not like I don’t want to! Creating Blood God Demons is too difficult, and with my power before, I couldn’t make them. However, now that I’ve regained much of my power, as long as I have suitable Emissaries, I should be able to make them. I feel that the Desolate Crow Race is quite suitable; have some people bring some of them here.

Zhao Fu nodded, and the two of them continued to do it. In the end, the Desolate God lay within Zhao Fu’s embrace, and Zhao Fu ordered guards to bring a few excellent Desolate Crow women over.

Standing on a platform, the red-faced Desolate God stretched out a hand and pressed it against the forehead of a woman half-kneeling in front of her. Her palm gave off intense blood-red light which flowed into the woman’s body, causing her eyes to become a blood-red color.

A blood-red, beast-like mark appeared on the woman's forehead. This was the Desolate God's Divine Mark, which would allow her to become a God Emissary.

Following this, dozens of bound beasts were placed around the platform. The beasts did not know what was going to happen, and they struggled and howled.

The Desolate God's expression was serious as she stood at the center of the platform and took out a dagger. She casually slashed out, and a sharp arc of light flew out and cut open dozens of beasts' throats.

The beasts screamed in pain and blood flowed out from their throats, dyeing the ground red.

The Desolate God then used the dagger to cut her own palm, from which blood flowed out. Under her ground, the blood continuously condensed and formed a blood-red rune.

At that moment, the Desolate God pointed out and the blood-red rune gave off intense blood-red light and shot into the sky, giving off a formless suction power as the blood from the beasts were sucked into the air and an orb of blood appeared in the air.

The Desolate God called over the woman who had been made a God Emissary and also cut her palm and let out some blood, which entered the orb of blood. A connection seemed to be formed between the woman and the orb of blood, allowing her to control it.

The orb of blood was two meters wide and gave off a faint blood-red light, and it floated in the air.

Zhao Fu frowned as he looked at this powerless orb of blood and asked, "Is this the Blood God Demon you were talking about?"

The Desolate God had just created her own Blood God Demon and was in a good mood, and she smiled as she nodded.

Zhao Fu felt quite displeased because he had heard how terrifying these Blood God Demons were and how they were forbidden creatures. However, this orb of blood seemed completely powerless, and he asked, "Can this thing fight?"

## Chapter 1539: Blood God Demon

The Desolate God could tell what Zhao Fu was thinking and lightly harrumphed as she said, “Don’t look down on how weak it is now; after it grows, you’ll see how powerful it is. It definitely won’t disappoint you; if you don’t believe me, I’ll let you have a look.”

The Desolate God pointed and the orb of blood turned into a blood-red spear. She waved a hand and the blood-red spear contained ferocious power as it shot into a wild beast nearby – it completely pierced into the beast’s body and killed it instantly.

Following this, something surprising happened – the blood-red spear then turned into blood-red water and fused into the beast’s corpse. The beast came back to life and seemed to be filled with lifeforce, as if it had never died.

Zhao Fu felt quite shocked and asked the Desolate God, “What kind of ability is this?”

The Desolate God gave a proud smile and said, “This is just a basic ability of the Blood God Demon’s many abilities. It can permeate into a creature’s body and control that creature’s body and even soul. It’s still weak right now, but when it becomes powerful, it can control even a few hundred million people. Also, you can try attacking it!”

Hearing this, Zhao Fu waved his hand and a sword light flashed out towards the beast, slashing it in half. However, what was shocking was that the two halves of the corpse did not produce a single drop of blood.

The Desolate God smiled and explained, “This kind of attack can’t deal any damage to the Blood God Demons.”

The Desolate God grabbed with her hand and blood-red water flowed out of the corpse and re-formed an orb of blood. It was slightly bigger than before, most likely because it had just absorbed all of the blood from the wild beast, while the beast’s corpse had withered up.

At that moment, the Desolate God lightly tapped with her hand, and the orb of blood started to change and turned into a two meter tall, well-built person of blood.

Because the orb of blood had fused into the wild beast's body, it seemed to not only absorb the beast's blood but also some of its power. The orb of blood originally did not give off any ripples of power, but now it gave off slight traces of power.

The Desolate God no longer controlled the orb of blood and instead gave an order, telling it to kill the remaining beasts.

The blood person obeyed and walked over the remaining bound beasts, which instinctively felt a wave of terror. They cried out in terror, but their cries soon stopped.

The blood person's hands split into blood-red tentacles which stretched towards the beasts, and they stretched into the beasts' mouths, eyes, noses, and ears.

The beasts quickly died and their bodies withered, creating a terrifying scene.

The blood person's aura once again became slightly stronger and it retracted its tentacles. After killing the beasts, it returned to its original position.

Zhao Fu now saw the Blood God Demons' potential. Even though this Blood God Demon was still quite weak, it would become powerful after developing. Zhao Fu smiled as he asked, "How many of these Blood God Demons can you produce?"

The Desolate God replied, "With my current strength, I can produce 12 of them."

Zhao Fu felt somewhat disappointed as he felt that this was not many, and he asked, "Why only so few? Are you able to create more?"

The Desolate God rolled her eyes, "Do you think that the Blood God Demons gain their strength from numbers? They are all individually powerful, and even in the Godly Spirit World, even the most powerful Desolate Gods can create 100 or so Blood God Demons. You wanting to create an army of them is completely impossible."

Even though Zhao Fu was disappointed, he could only accept this result in frustration and wait to see how terrifying the twelve Blood God Demons would become.

At that moment, a guard came up to report, “Your Majesty, there has been a report that the Devil Horn Empire has been secretly gathering forces to attack the Fishman World.”

Hearing this, Zhao Fu immediately returned to the palace and gathered his subordinates to discuss this matter.

The Fishman World also received this information, and everyone looked quite nervous and even terrified.

Now that they had returned to the water, their bodies returned back to having the upper bodies of humans and lower bodies of fish.

There were hundreds of Fishmen within a large hall. They all had powerful and extraordinary auras, and all of them belonged to large factions. Facing the imminent attack of the Devil Horn Empire, they started an emergency meeting.

There was a blue-haired big man – he was the most powerful person in the Fishman World and his faction was the largest. He was the first to speak, “What should we do? Great Qin will not help us and it is even less likely for the Wind God Empire to help. We are not a match for the Devil Horn Empire, so should we fight to the death or surrender and keep our lives?”

A young man loudly spoke, “I feel that we Fishmen cannot show weakness; we should fight with the Devil Horn Empire. Moreover, we won’t necessarily lose. Even though Great Qin did not agree to send reinforcements, it will most likely tie down the Devil Horn Empire, so we still have a chance.”

A cruel-looking young man agreed, saying, “I also feel that we should fight. I don’t want to submit to anyone, nor do I want to leave the Fishman World.”

A beautiful woman with golden hair said worriedly, “If Great Qin attacks the Devil Horn Empire with its full strength, the Devil Horn Empire naturally will not be able to attack our Fishman World. However, attacking the Devil Horn Empire with its full strength will cause Great Qin to suffer great losses, and they are not so kind to do that for us.”

An elderly Fishman sighed and said, “That is true, we can’t completely rely on Great Qin. If Great Qin does not act, what should we do?”

A gentle and quiet-looking woman thought before saying, "We should withdraw or submit to someone. If we fight, the Fishman World does not have any hope."

At that moment, the beautiful middle-aged woman who had brought the three women to Great Qin said, "Of the three largest factions in the area, Great Qin is undoubtedly the best choice. Moreover, Great Qin's Emperor personally promised that they would help us relocate."

Hearing this, some people felt quite delighted and agreed, but most people still hesitated.

They all had important positions in the Fishman World and stood above countless people. If they submitted to others, they would be beneath countless people, and they did not want such a thing to happen.

Moreover, after joining Great Qin, would their lives still remain as they wanted?

Also, with how licentious the Great Qin Emperor was, would he want their women? The Fishman World's men were quite handsome and the women were quite beautiful, and their numbers greatly surpassed those of ordinary worlds.

That was what they were worried about, and many people spoke their views. Everyone was of a different opinion and they were unable to agree on a decision.

It was at that moment that the Devil Horn Empire suddenly launched its attack towards the Fishman World, and countless soldiers flooded into the Fishman World.

Chapter 1540: War

15 billion Devil Horn soldiers flooded into the Fishman World, splitting into four armies to simultaneously four Continents. The Fishmen people did not expect the Devil Horn Empire to attack so quickly, so they hurriedly went to gather their soldiers to defend.

However, even though the Fishmen people were part of the Water Race and fighting in water was advantageous to them, the Devil Race also had fish people and had nurtured many aquatic beasts. Their ordinary soldiers were somewhat stronger than the Fishmen people, and they were more ferocious and had more experience.

Both sides ferociously clashed together and cries continuously sounded out as the water was dyed red.

A Devil Horn soldier roared as his eyes became red and he grew many fangs. He continuously attacked, biting many people to death. Another Devil Horn soldier held a spear and stabbed through a Fishman's tail before killing him.

A massive sea beast rushed forwards and opened its enormous mouth and bit down, biting ten or so people to death. Broken limbs scattered everywhere as blood billowed out.

The Fishmen people desperately resisted, but they were evidently not a match for the Devil Horn soldiers, and they were continuously forced back.

Boom! Boom! Boom...

Massive auras burst forth from the bottom of the ocean – it was the Fishman World's overlords.

One was a 10,000 meter long, black and white, ugly-looking snake, one was a monster with the upper body of a human and the lower body of a seahorse, one was a massive squid, and there was also a 10,000 meter long shark.

The four of them started to attack the Devil Horn army: The 10,000 meter long snake spat out poisonous water that dyed the water blue, killing all the Devil Horn soldiers that it touched.

The half-man, half-seahorse monster swung its spear and created massive waves that rushed towards the Devil Horn army, sending countless Devil Horn soldiers crashing back, and some were directly crushed into meat paste.

The massive squid gave off immense power as it rushed towards the Devil Horn army. Its tentacles, which were covered with spikes, ripped apart Devil Horn soldiers' bodies, causing blood to fill the water.

The shark opened its massive mouth, charging into the Devil Horn army and devouring Devil Horn soldiers. Its tail continuously sent Devil Horn soldiers flying as well, either killing them or heavily wounding them.

The four overlords led a horde of sea monsters to attack, and this slightly turned the battle in the Fishman World's favor. However, the situation was still quite grim.

Following this, some Kings from the Devil Horn Empire joined in the fight and killed the four overlords, signifying the defeat of the Fishman World.

The Fishman World's soldiers started to retreat, and countless Fishmen commoners fell into terror and quickly packed their things to run.

Countless savage Devil Horn soldiers charged into Cities, and looking at the beautiful female Fishmen and the handsome male Fishmen, they gave wicked laughs and rushed at the commoners.

As they rushed in, they cut down the elderly and children, and some of the stronger male Fishmen tried to retaliate. However, they were caught, skinned, descaled, and hung on the City Walls.

The mangled Fishmen people gave off pained howls, creating a horrifying scene.

Some soldiers directly pressed female Fishmen onto the ground and started to ferociously violate them. They disregarded their pleas for mercy and took turns playing with the women. Some of the Fishmen were unable to bear it and died, but their corpses were still ravaged by the soldiers.

Some of the weaker male Fishmen were also treated in such a way. Their teeth were knocked out and vile things violated their mouths and anuses.

In order to live, some of the male Fishmen not only did not resist but even cooperated with the ten or so people ravaging them. In the end, they were covered with various liquids and lay on the ground, half-dead.

Some of the soldiers were not interested in such things and pillaged the Fishmen people's valuables. At the same time, they dragged out the Fishmen in hiding and cut them down and tossed out their corpses. Later, some of the sea beasts would eat these corpses.

Apart from the sea beasts, some of the Devil Horn soldiers liked eating the corpses because of the power they had gained from the forbidden technique.

Most soldiers found that the tastiest ones were the women and children. After capturing the Fishmen people, they would press them to the ground and start to eat – only then would they be able to preserve the freshness and taste.

Countless women and children cried out but were eaten alive, and the soldiers' strength increased as a result.

At the same time, they could not help but marvel at how delicious the Fishmen tasted. Even though they tasted somewhat like fish, the taste was much better.

On the other side, Great Qin was attacking the Devil Horn Empire, but it did not launch an all-out assault. After all, the Devil Horn Empire had a large number of soldiers defending, so an all-out assault would result in heavy losses.

After all, the Devil Horn Empire was not the only enemy in the surroundings; there was also the second Wind God Empire and many other worlds. Great Qin could not go all-out with the Devil Horn Empire and allow someone else to gain an advantage from this.

The Devil Horn Empire made all kinds of preparations to defend against Great Qin. This made it so that Great Qin's attack was not very ideal.

At that moment, Zhao Fu heard about the Fishman World being easily conquered, and he could only sigh. He ordered Great Qin's army to retreat, as attacking no longer had any meaning.

Large numbers of Fishmen people ran in all directions, and because Yao Ming did not want to lose large numbers of people, he immediately gave the order to stop them.

However, at that moment, the second Wind God Empire, which had not done anything after conquering the Gold God World, suddenly acted, wanting to stop the Fishmen people who were trying to escape.

They were not so kindhearted as to help the Devil Horn Empire; rather, they desperately needed population, so they wanted to steal over a large number of people without suffering any losses. After all, the Fishman World's main force had been destroyed by the Devil Horn Empire.

Now, the Wind God Empire came to pick up on free advantages. Because they had been preparing this entire time, they made great gains.

After hearing about this, Yao Ming looked quite furious. After thinking about it, he decided to give up on those people, because with the Devil Horn Empire's strength, it was not able to fight against the second Wind God Empire.

Yao Ming could only give the order to surround the Fishman World, prevent people from escaping, and stop the second Wind God Empire from gaining any more.

The Fishman World had been conquered by the Devil Horn Empire and countless Fishmen had died. The ones who had escaped out had been captured by the second Wind God Empire, causing the remaining Fishmen people to look terrified.
