Chapter 1551: Yellow Springs

This place was not very close to the Yellow Springs, but it was not too far either. It was separated by one region, which was not very big – about the size of half a world – and it contained countless factions, large and small.

Zhao Fu planned to go back and gather his forces to clear out that region. However, he needed to first choose the Yellow Springs Daughters.

It would naturally be best for them to be from the Underworld. Zhao Fu decided to choose You Qin; Yan Yan; Qing Yayuan; Li Ya; Liu Yeye; the Gui Ye Kingdom's cold Queen, Ye Changmei; the proud Concubine Mei Zhangshu; and the mature and alluring Concubine Ya Shi.

He also chose women from the two other Kingdoms, the Queen Han Shanling, Queen Ying Yuye, and the Concubine You Yueqiao.

This made 11 people in total, and with Huang Quanling, that would be all the 12 Yellow Springs Daughters.

Zhao Fu ordered people to bring the women here. The women had never expected for Zhao Fu to treat them so well right after being taken in by him and that he would give them such powerful legacies.

Han Shangling looked at Zhao Fu flirtatiously as she said, "I'll definitely serve you well later."

Zhao Fu lightly laughed, "All of you go up and accept the legacy. I still have many things to do."

Hearing this, the 12 women came before the 12 statues. The 12 statues gave off large amounts of yellow light, and a massive aura swept out. The 12 statues seemed to come to life and looked at the 12 women in front of them.

It was as if they thought for a moment before their foreheads opened up and beams of yellow light shot into the foreheads of the 12 women with immense power, causing their bodies to tremble. Large amounts of power flowed into their bodies, causing them to give off intense light.

This lasted for ten or so minutes, after which the light from the statues gradually weakened. The 12 women's looks and auras greatly changed – they were many times more beautiful than before, and they could now compare with even the Underworld's top-tier beauties.

Moreover, their auras had also become much more powerful and they now had Yellow Springs Power. They also had an evil charm about them, and they seemed like they could tempt people to death.

They also gained a pair of yellow pupils, as well as a black circle in their eyes.

Sensing the changes in their auras, the 12 women all looked delighted. Zhao Fu had given them a massive opportunity, and they would no longer be ordinary in the future and could directly walk to the center of Great Qin's power.

In the future, the 12 of them would shake the Underworld and cause countless people to feel fear and terror, and they would become the Yellow Springs 12 Empresses.

However, right now, they were taking turns to serve Zhao Fu, looking incredibly lewd. After going at it with them, Zhao Fu left to take care of other matters.

The 12 women's faces were red as they gave off alluring auras, entered the yellow spring water, and started to go through the final changes.

Zhao Fu gathered his forces and wanted to directly attack, but after finding out about a few powerful factions nearby, he decided against charging in and attacking. Instead, he sent out letters to persuade those factions to submit. This would be more diplomatic.

This would also reduce the wariness of the other factions towards Great Qin; Zhao Fu did not want them to ally together to attack.

After sending out countless letters, the people of the region became terrified. After knowing about how terrifying Great Qin was, some people chose to run while others chose to submit. However, many people gathered together to prepare to defend against Great Qin's invasion.

They could not blame Zhao Fu now – he had already tried to use peaceful measures before resorting to force, but these people were seeking their own deaths.

Zhao Fu brought large numbers of soldiers, who flooded forward like a tsunami. They broke through the defensive lines of the allied factions in just a few moments and started slaughtering.

After Great Qin's soldiers flooded into that region, countless people and animals madly escaped. Great Qin's soldiers continuously cut down enemies, dyeing the ground red and causing screams to continuously sound out.

Now, the factions that had allied together to resist Great Qin regretted their actions. With their strength, they were unable to retaliate at all. However, even if they regretted it, it was useless. Their corpses were hung on the City Walls as a warning in order to strike fear into others.

After clearing out this region, Zhao Fu saw the legendary Yellow Springs.

The Yellow Springs was incredibly long, and it was impossible to see how far it stretched. The water was yellow and it was filled with bones. There were countless vengeful spirits swimming within the water, crying and roaring.

The Yellow Springs also gave off a corrosive, yellow qi that was slightly harmful to ordinary people and things.

Those who had become part of the Yellow Springs race from being affected by the Yellow Springs power died from the corrosion and became part of the Yellow Springs race. However, such people had the lowest grade bloodline and were not very strong.

Because he could not move the Yellow Springs and Zhao Fu wanted to give the Yellow Springs Kingdom more area to develop, Zhao Fu made a bold decision and decide to dig a tributary river.

Thinking about that, Zhao Fu ordered people to start with this project. In just a few days, ten billion people had dug a massive tributary river. In order to speed up the process, Zhao Fu even used the Primogenitor Statue.

As it slashed down with its sword, an enormous gash appeared in the ground.

The tributary river was much smaller than the actual Yellow Springs, but it was still 10,000 meters wide and thousands of meters deep. It was the length of half a world and connected to the place where Zhao Fu was going to establish the Yellow Springs Kingdom.

The tributary river had been dug but it was not connected to the Yellow Springs yet, as there was a massive stone wall blocking it. Digging the tributary river would be quite difficult if there was water, so connecting the river was left until the end.

Zhao Fu held the Emperor Killing Sword and no longer used the Primogenitor Statue – digging the tributary river had used much of its power and Zhao Fu planned to let it recover a bit.

Large amounts of power entered the Emperor Killing Sword and a massive sword qi exploded out, sending out sharp gales, and Zhao Fu vigorously slashed out.

Boom!

An enormous sword light containing immense destructive power slammed into the stone wall, causing it to instantly shatter, and boundless Yellow Springs water flooded out.

“Roar!!” An enormous dragon’s cry sounded throughout the sky. Traces of yellow aura rose up from the Yellow Springs and formed a 10,000 meter long Yellow Springs Dragon.

This Yellow Springs Dragon seemed to be made from the water of the Yellow Springs and its details were not very clear. However, its yellow, crystal-like eyes and horns were especially conspicuous.

Chapter 1552: Yellow Springs Dragon

This was a river spirit, which was made from the river’s consciousness. It contained large amounts of Fate and power from the river, and only rivers that had existed for extremely long periods of time could create river spirits.

The river spirit in front of Zhao Fu was only made from a small portion of the region’s Yellow Spring, but the aura it gave off was still quite powerful.

As for the reason it had appeared, it was naturally because Zhao Fu had dug a tributary river. This went against the Yellow Springs' wishes, which was why the river spirit appeared and started to attack him.

Bang!

The Yellow Springs Dragon was extremely fast and flashed through the air as it charged towards Zhao Fu. Zhao Fu hurriedly released a defensive barrier but was still sent flying far away.

Chi, chi, chi...

As Yellow Springs water fell on the defensive barrier, it gave off yellow smoke as the Yellow Springs water had immense corrosive power. It could quickly burn through Zhao Fu's Saint Realm Domain, showing how terrifying it was.

Zhao Fu had wanted to directly act and deal with this river spirit, but he thought against it and decided to hold back.

After all, even though this river spirit was created from just a small portion of the Yellow Springs, if he truly enraged it and the entire Yellow Springs' consciousness gathered, even a higher-being would die a horrible death.

However, Zhao Fu still had a way to deal with it.

The Yellow Springs Dragon looked at Zhao Fu with a murderous aura and gave off enormous power as it once again attacked, turning into a black blur as it launched towards Zhao Fu.

Boom! Boom! Boom...

Zhao Fu's expression did not change as he watched the Yellow Springs Dragon charge over. He stretched out a hand and pushed out, and 12 bronze rays of lights shot out and surrounded the Yellow Springs Dragon. Those 12 bronze lights were Great Qin's Nation Armament.

Sensing Great Qin's Nation Armament's power, the Yellow Springs Dragon's expression fell and wanted to explode out with power to break through the Nation Armament's encirclement.

The Nation Armament contained Kingdom Fate which could suppress mountains and seals, as well as gods and demons. It countered their existences, which was why the Yellow Springs Dragon felt a trace of fear towards the Nation Armament.

The Yellow Springs Dragon wanted to break free from the encirclement but how could Zhao Fu allow it to do as it wished? Zhao Fu grabbed vigorously with his hand, and the Twelve Metal Colossi became thousands of meters tall and exploded out with a powerful aura of killing and conquering. The bronze light dyed the sky bronze and a cold and powerful aura swept out.

A massive power weighed down on the Yellow Springs Dragon's body, causing it to seem to be bound up in the air.

The Yellow Springs Dragon was extremely powerful and continuously struggled as it exploded out with powerful energy. It started to break free from the Nation Armament's suppression; as expected from the Yellow Springs' river spirit, it was shockingly powerful.

Clang, clang, clang...

The golden pupil in Zhao Fu's left eye quickly spun as countless chains shot out of the air and bound up the Yellow Springs Dragon, increasing the suppression power.

However, the Yellow Springs Dragon's body was made from the Yellow Spring's water, and it had immense corrosive power, weakening the chains. The Yellow Springs Dragon then struggled even more, causing the chains to start to break.

Zhao Fu's expression slightly fell, and he pointed a hand at the sky. Countless rays of violet light spread out, dyeing the sky violet as an enormous violet star giving off enormous power gradually descended.

The violet star gave off large amounts of violet light, and dragon inscriptions danced in the air as a massive Star Power heavily weighed down on that Yellow Springs Dragon's body, causing its body to sink and making it endure even more pressure.

The Violet Sky Dragon Star not only suppressed the Devil Race but all dragon-form creatures as well, including Fate Dragons.

“Roar!!” The Yellow Springs Dragon madly struggled and exploded out with terrifying power. Its yellow, crystal-like eyes shot out large amounts of light as an extremely dangerous power spread out.

Zhao Fu felt quite startled and his hairs stood on end. He did not hesitate and cut his palm as he said loudly, “We, the ruler of Great Qin, possessor of a Divine Bloodline, seal you here by the Mandate of Heaven.”

Boom!

An enormous explosion sounded out as the blood from Zhao Fu’s palm shot towards the sky and dissipated. Heaven and Earth Power madly gathered and turned into an enormous power that weighed down on the Yellow Springs Dragon.

The Yellow Springs Dragon’s body once again sank and the yellow light from its eyes dimmed. The Yellow Springs Dragon vigorously struggled but it could not break free at all, and Zhao Fu was able to successfully seal it.

Zhao Fu let out a breath and waved his hand, and the countless chains binding the Yellow Springs Dragon dragged it into the underground sealed region.

Zhao Fu had thought of a good use for this Yellow Springs Dragon.

By now, the Yellow Springs water quickly flowed into Zhao Fu’s tributary river until it reached the region where the Nether Ghost City was. The digging of the tributary river had been a success.

Zhao Fu came back to the Yellow Springs treasure trove, and by now the 12 women had finished their transformations. They were even more beautiful and had a deathly charm about them, which could make people willing to die for them.

They were within the spring water and they did not have any clothes on, completely exposing their figures.

Seeing Zhao Fu come, the women all looked quite flirtatious as they gazed at him.

Han Shanling's gaze fell on Zhao Fu as she said, "My good man, we want more. Hurry and let us feel that pleasure with you."

Zhao Fu lightly laughed as he said, "I have some matters to take care of; we can do it afterwards. Also, Ling'Er, come with me."

Huang Quanling came out of the water and put on some clothes as she smiled and asked, "What is it, husband?"

Zhao Fu smiled as he replied, "Of course it's to help you fulfil what you've always wanted to do."

Huang Quanling realized and hugged Zhao Fu's arm as she gave an intoxicating smile and said, "Thank you, husband!"

Following this, Zhao Fu came with Huang Quanling to her Legacy City. It was within a remote valley and the City was not very big, only about as big as a basic City. It seemed that without Zhao Fu's help, it really would perish.

After coming back, Huang Quanling told this news to everyone, causing them to become delirious with delight. Some even knelt on the ground and continuously thanked Zhao Fu.

Zhao Fu did not pay this much mind and nodded before coming to the City Hall and had Huang Quanling relocate it. Zhao Fu wanted to make it the Yellow Spring Kingdom's central City.

Zhao Fu brought the Legacy Stone and the countless residents to where the region where the Nether Ghost City was and officially established the Yellow Springs Kingdom.

Chapter 1553: Yellow Springs Seal

Zhao Fu transferred ownership of all of the Cities in the region to Huang Quanling; this way, all of this region's Fate would be gathered to Huang Quanling's body. The region was as big as a world, so there was a large amount of Fate.

Zhao Fu gave Huang Quanling orders to stand on a tall altar, and the Legacy Stone in her hand continuously rose up and floated into the air.

“The Yellow Springs Kingdom’s Legatee Huang Quanling has received the blessing of the Mandate of Heaven, the protection of ancestors, and support of all subjects to establish the Yellow Springs Kingdom!”

Boom!

Just as Huang Quanling finished speaking, countless traces of Fate madly gathered like a flood into the Silver grade Legacy Stone floating in the air.

The Legacy Stone exploded out with intense light and gave off a shocking aura. Under the influence of the massive amounts of Fate, the Legacy Stone’s fallen grade started to recover and the power that it had lost gradually recovered.

However, restoring it to its original power would require a lot of Fate.

Currently, the Yellow Springs Kingdom’s Legacy Stone had only half-recovered.

However, something shocking happened next. Zhao Fu stretched out a hand and grabbed at the air, and countless chains shot out and dragged out the 10,000 meter long Yellow Springs Dragon.

Zhao Fu controlled this suppressed Yellow Springs Dragon and started to send it into the Legacy Stone.

Boom!

A massive explosion once again sounded out as the Yellow Springs Dragon gradually fused into the Legacy Stone under Zhao Fu’s control. The Yellow Springs Dragon vigorously resisted, and fortunately the Legacy Stone had Yellow Springs attributes, or else it would be very difficult to absorb the Yellow Springs Dragon.

The weather changed and clouds swirled as the sun and moon went dark. Large amounts of fate quickly gathered and entered the Legacy Stone.

The Legacy Stone gave off an intense light that covered the entire heavens and earth. Its aura became stronger and stronger as its grade also changed.

In the end, the Yellow Springs Dragon was fully fused into the Legacy Stone and the abnormal signs settled down. The light coming from the Legacy Stone also weakened and it turned into a yellow, jade-like cube with a dragon engraved on it.

It gave off a faint yellow light as well as immense might and a powerful Yellow Springs Power as it slowly descended from the sky.

Huang Quanling smiled as she stretched out her hand and caught the cube.

Following this, Huang Quanling and Zhao Fu came to the center of a City and Huang Quanling placed the cube onto the ground. A massive aura exploded out and waves of yellow light continuously swept out as the cube once again gave off intense light, which turned into a pillar of light and shot into the sky.

The Yellow Springs Kingdom had officially been established!

Countless traces of Fate and Heaven and Earth Power gathered in the sky. As the two of them fused, a massive Yellow Springs Dragon was formed, and it gave off an enormous aura as it flew about in the sky.

Zhao Fu had also called over the other 11 Yellow Springs Daughters. They followed Zhao Fu's instructions, and they cut their palms, controlled their blood, and sent it towards the Yellow Springs Dragon in the sky.

After absorbing their blood, the Yellow Springs Dragon's aura became quite complicated and it flew about in the sky with an expression of pain. The surrounding Fate once again flowed into its body.

“Roar!!” The Yellow Springs Dragon roared in pain as it started to split apart into pieces.

The 12 pieces of the Yellow Springs Dragon's body turned into orbs of yellow light and absorbed Heaven and Earth Power before turning into 12 Dragon Seals.

These 12 Dragon Marks were yellow and seemed to be made from jade. They were about half the size of a palm and there were Yellow Springs Dragons engraved on them. The words 'Yellow Springs Kingdom' were also engraved on them, and they gave off powerful might.

Zhao Fu had told Huang Quanling to split the Royal Seal into the 12 Dragon Seals so that each of the 12 Yellow Springs Daughters could manage the Yellow Springs Kingdom. As the Legatee, Huang Quanling held the most power.

After fusing with the Yellow Springs Dragon, the Legacy Stone not only regained its original power and legacy but was also strengthened by the Yellow Springs and became even more powerful than before.

Zhao Fu looked at the Legacy Stone's information and found that it could turn countless soldiers into Yellow Springs Soldiers, which was a high-grade Profession. They would receive all kinds of buffs and would control Yellow Springs Power.

Zhao Fu also had the yellow springs and the tributary river. The yellow springs could provide large amounts of spring water for the soldiers to help them gain even greater Yellow Springs Power. These soldiers would have great potential in the future.

There was another attribute that made Zhao Fu feel quite surprised, which was that the Yellow Springs Kingdom's existence had received the acknowledgement of the Yellow Springs and received its Fate. During times of crises, it could even summon the Yellow Springs' consciousness.

Now, the Yellow Springs Kingdom's attributes seemed to be even stronger than even the Great Qin's by a bit. It would definitely become a powerful empire in future.

Of course, no matter how powerful it was, it would still be a subsidiary Kingdom of Great Qin or be fused into Great Qin.

After looking through the Legacy Stone's information, Zhao Fu gave a pleased smile and the 12 women also looked quite happy. Now that the Yellow Springs Kingdom had been established, everyone sank into cheering and delight.

The 12 women came to Zhao Fu's side and Liu Yeye said enticingly, "Husband, now that the Yellow Springs Kingdom has been established, you need to properly give us love tonight. It'll be best if you make it so that we can't get off the bed for three days."

Zhao Fu smiled and brought them into the palace, and they started to intensely go about it. He enjoyed their bodies and gave them much pleasure.

Afterwards, Mei Zhangshu, the proud-looking Concubine from the Gui Ye Kingdom – the mother of the Fourth Prince – feebly climbed on top of Zhao Fu's body and said with a reddened face, "Husband, you haven't let out my son yet."

Zhao Fu felt quite startled; he had almost forgot about this matter, and he smiled as he agreed to release him.

Within a large hall, the Fourth Prince was brought in by some people. He looked quite wan and sallow, and he seemed to have lost a lot of weight. He knew that the Gui Ye Kingdom had perished and knew that he most likely would not be able to stay alive.

However, when he came to the hall, he was shocked to see that his mother was sitting red-faced on a man's lap and was holding onto that man affectionately. That man was the one who had captured him back then.

What was going on? The Fourth Prince could not understand what had happened. However, seeing how red his mother looked, the Fourth Prince understood that his mother had definitely done it intensely with that man and that she had enjoyed it a lot, or else she would not be like this.

Chapter 1554: Outlander Ten College

The Fourth Prince felt furious, but he did not dare to do anything because he was afraid of dying. He knew that it was this person who had destroyed the Gui Ye Kingdom and unified this region, and he had established the Yellow Springs Kingdom.

Seeing that her son was fine, Mei Zhangshu gave a moving smile and said, "Zu'Er, hurry and greet your stepdad. He's a very powerful and very charming man. If you listen to him, there'll be great benefits!"

Those words almost made the Mei Zhangshu explode with anger; this person had not only injured him, destroyed the Gui Ye Kingdom, and killed his father, but his mother was also now telling him to call this person stepdad.

However, even though the Fourth Prince was very angry, thinking about the situation he was in, as well as his future, he could only endure his anger and give a trace of a flattering smile as he called out, "Stepdad!"

Zhao Fu lightly laughed and said, "You don't have to call me that. Given my relationship with your mother, I will spare you this once. If you break Great Qin's laws in the future, no one will be able to save you."

Hearing that Zhao Fu was going to let him off, the Fourth Prince said in delight, "Of course, of course!"

By now, even if Zhao Fu wanted him to call him stepdad 100 times or 1,000 times, he would be very willing. He was overjoyed that he had kept his life.

Zhao Fu looked at the beautiful woman in his arms and said, "I'm giving him a chance but what he does from now on is on him; if anything happens, don't blame me."

Zhao Fu then turned his attention back to internal affairs. Now that the Yellow Springs Kingdom had just been established, the main thing to do was to stabilize its faction and fully unify it into a proper Kingdom as opposed to a group of many factions.

This would take quite a lot of time as the Yellow Springs Kingdom had not developed yet nor did it have a foundation. This would all take time.

The most important thing was to establish a Yellow Springs army. Soon, Zhao Fu would bring Great Qin's soldiers back to the Heaven Awaken World so the Yellow Springs Kingdom needed its own army to protect itself.

Zhao Fu left three billion Yin Soldiers here and gave them to Li Wen to manage. As for the Yellow Springs army, he left that to Gui Xun. As a capable General, he would have the capabilities for this.

As for the other internal affairs and military matters, they had taken in many Ministers and Generals, so Zhao Fu did not have to worry too much.

Zhao Fu stayed in the Underworld for a few days and watched the Yellow Springs Kingdom quickly develop. Seeing this, he felt at ease and brought Great Qin's soldiers and some Generals back to Great Qin and concluded this operation.

After returning to Great Qin, Zhao Fu wondered if he should go to the Godly Spirit World to have a look. The Godly Spirit World was a very large world and was not any smaller than the Underworld. It had a lot of potential and if he developed a faction there, it would be very helpful in the future.

Moreover, Great Qin wanted to create a godly spirit army and Zhao Fu wanted to awaken a God race Emperor Star. This would require countless godly spirits, and the Godly Spirit World could fulfill Zhao Fu's requirements.

As for the way to head to the Godly Spirit World, Zhao Fu did not have one yet. However, he could ask the golden dragon.

As expected, the golden dragon was able to provide Zhao Fu with some solutions. She gave him the Twenty Four Godly Spirit Formation, which could be fused with the Spirit Light World's golden doors to create a Godly Spirit World Door.

This Godly Spirit World Door would be able to send a large number of soldiers to the Godly Spirit World, which was quite good.

However, that Godly Spirit Formation required 24 godly spirits to cast, and Great Qin did not have that many godly spirits yet.

They had the Water God, God of Life, Light God, Desolate God, Agricultural Goddess, Darkness God, Demon God, Fallen Angel God, Ocean Goddess, and Ghost God, which was ten godly spirits in total. As such, Zhao Fu could only delay his plans to head to the Godly Spirit World.

A few days later, Zhao Fu started to make preparations. He had obtained a piece of important information from the Heaven Spirit Stele about a rare divine material.

Ling Ji required rare divine materials to make a World Armament, so finding rare divine materials was very important to Great Qin.

Ling Ji was still fusing with the Human World's consciousness, and soon she would fully fuse with it. After giving her those materials, she could make a World Armament and would be able to devour other worlds' consciousnesses.

The rare divine material that Zhao Fu had received information about was one of the most important materials for the World Armament. It was called Origin God Iron, and it was a type of iron that contained large amounts of Origin Power. It was one of the earliest irons in the world and could be used to create terrifying weapons.

It was rumored that the world only had ten pieces of Origin God Iron and seven of them had already been made into weapons, and only three pieces remained.

Zhao Fu heard that this piece of Origin God Iron was the reward for ranking first at Outlander Ten College.

Outlander Ten College was one of the Heaven Awaken World's Seven Great Colleges, and it was for Outlanders. It was in the Outlander Domain, where many different Outlanders lived, such as Elves, Orcs, Dwarves, Giants, Goblins, Werewolves, Cat people...

The position of Outlander Ten College in the Outlander Domain was quite high and was a holy land for Outlander geniuses. It had immense power and even ordinary Empires did not dare to offend it.

They were currently recruiting but it was quite late because Emperor Path College had already started the examination for new students.

The person who ranked first would be able to obtain the piece of Origin God Iron, and it would be incredibly difficult but Zhao Fu still wanted to try. After all, this Origin God Iron was much too important to Great Qin and could influence Great Qin's life or death.

However, Zhao Fu felt quite worried about attending Outlander Ten College's recruitment exam, as he was afraid of his identity being exposed. Even Emperor Path College was unable to protect him, so Outlander Ten College would be the same. Once his identity was exposed, the consequences would be incredibly severe.

Nevertheless, Great Qin had to have that Origin God Iron, and so Zhao Fu could only ask the higher-being he knew about this.

Zhao Fu did not say that he was participating in Outlander Ten College's recruitment exam, and he only asked if his identity would be exposed in front of a higher-being.

The higher-being replied, "Now that you have five Emperor Stars, all divinations are useless against you and those who try will receive backlash. As long as you don't summon the five Emperor Stars, higher-beings won't be able to tell your identity. They will just think that you're someone with powerful Heaven's Secrets protecting him, but that will just cause them to notice you."

Hearing this, Zhao Fu let out a sigh of relief as he did not have to worry about his identity being exposed, and he could head to Outlander Ten College. As long as he did not stupidly summon the five Emperor Stars, his identity would not be exposed.

Zhao Fu thanked the higher-being and started to make preparations. Outlander Ten College's exam would be incredibly difficult, and he had to be fully prepared.

Chapter 1555: Heaven Fox Stone

The next day, Zhao Fu finished making preparations and he headed to the Outlander Domain. He did not bring anyone and went there by himself.

It was quite boring for him at first, and there was still some time before Outlander Ten College's recruitment exam began, so Zhao Fu was not in a hurry. During this time, he would see if he could find any Outlander treasures. If he could awaken an Emperor Star while obtaining the rare divine material, that would be ideal.

After reaching the Outlander Domain, Zhao Fu felt as if he had entered an Outlander world. Everyone on the streets was an Outlander, and their buildings were all built in their style. There were mostly Outlanders living here, and there were not many other races.

Zhao Fu was walking through a barren area and there happened to be a merchant group passing through. These people were from a Fox Race and had fox ears and fox tails.

This place was close to a few large Kingdoms and ordinary spatial rings were sealed by restrictions and could not be used, so most people relied on merchant groups for goods.

This merchant group was relatively big and had over 1,000 people. They mostly had Stage 1 Cultivation and their guards had Stage 2 Cultivation. Their merchandise was pulled along by large horses that were covered with fur.

Zhao Fu did not pay them much mind and continued ahead.

At that moment, one of the guards came up and said, "Sir, are you planning on passing through this boundary by yourself? Our Madam has invited you to join our merchant group so that we can look after each other."

Zhao Fu thought about it and lightly smiled as he nodded.

Following this, the guard brought Zhao Fu to a beautiful-looking carriage and said, "Madam, we have brought the person."

"Let him come in!" a lazy voice sounded out from within.

Two beautiful female attendants opened the curtains and smiled as they said, "Come in, sir!"

Zhao Fu climbed onto the carriage and looked at a beautiful and voluptuous Fox race woman with snow-white skin. She only wore clothes made of thin muslin and her face was quite red and she smiled as she looked at him.

Seeing this woman, Zhao Fu understood what was going on; it was yet another lonely woman, and he did not hold back.

Zhao Fu went up and brought the beautiful woman into his embrace, and the woman pretended to protest as she said, "Sir, what are you doing? I'm not that kind of woman."

Zhao Fu laughed as he asked, "Is that so?"

Smelling Zhao Fu's intoxicating fragrance, the woman's face became completely red, as if she was drunk, and her eyes became hazy as she said, "Of course!"

This was evidently a lie, and Zhao Fu pressed down on her and started to go at it with her.

Seeing this scene, the two female attendants' faces became red and they went outside. Hearing their Madam's lewd voice, the other people in the merchant group felt their hearts race, and they stayed away from the carriage.

However, the Madam soon started to beg for mercy and asked the two female attendants to come and serve Zhao Fu with her. The two female attendants looked at each other with reddened faces and soon the carriage sounded out with their voices.

Afterwards, Zhao Fu hugged this extremely flirtatious and beautiful woman, and the two female attendants lay beside them panting with red faces.

The beautiful woman was called Hu Shan, and she was the owner of this merchant group. The two female attendants were called Xiao Li and Xiao Qin.

Hu Shan lay in Zhao Fu's embrace and looked at him with infatuation as she said, "Sir, it's the first time I've felt such pleasure. How about you stay by my side in the future? I can give you the merchant group and everything it has will be yours."

How could Zhao Fu value such a thing? He lightly laughed and said, "After I'm done with my matters, I'll come back and make you feel a thousand times more pleasurable."

Hu Shan was not very surprised, and she gave a bewitching smile as she said, "I knew that sir wasn't simple at all. Not only do you have such an alluring aura, you have the aura of Heaven Foxes on you; sir must be an esteemed guest of the Fox Race."

Zhao Fu was quite surprised and did not understand what she meant. Only after asking did he find out the Heaven Foxes were Nine-Tailed Foxes and held a high position within the Fox Race. They had incredibly prestigious bloodlines.

There were four Nine-Tailed Foxes in Great Qin – Da Fei, Tamamo-no-Mae, Ahri, and Xiao Qi. The first three had done it with Zhao Fu and the last one also had a close relationship with Zhao Fu.

Following this, Zhao Fu found out that the merchant group's destination was the Fox Race region. He heard that they were going to conduct a large meeting, where they would be displaying the Fox Race's supreme treasure, the Heaven Fox Stone.

The Heaven Fox Stone was condensed from a Nine-Tailed Fox with the purest bloodline after they had died. It contained the Nine-Tailed Fox's essence and had powerful abilities. Anyone who fused with the Heaven Fox Stone would not only gain a Nine-Tailed Fox bloodline, but their cultivation would also be greatly boosted as well.

This Heaven Fox Stone had a very grand origin – it was condensed from an extremely powerful Nine-Tailed Fox 1,000 years ago and was much more valuable than ordinary Heaven Fox Stones.

Zhao Fu felt somewhat interested. The Nine-Tailed Foxes had many branches, and some did not count as Outlanders but were part of the devil Race. They were foxes but had immense power and could transform into human forms and had nine tails.

On the other hand, people like Hu Shan were part of the Fox Race. They were born as humanoids and had fox ears and tails, and they could not turn into foxes. They were essentially hybrids of humans and foxes.

The Heaven Fox Stone belonged to the Outlander Race and Zhao Fu wanted to fuse it into himself to make preparations to awaken the Outlander Emperor Star.

“Mm, then I'll come with you to the Fox Race region to have a look,” Zhao Fu said as he smiled.

Hu Shan looked pleasantly surprised. She was now quite worried that Zhao Fu would leave, making it so that she could not enjoy that kind of pleasure.

However, she still understood that Zhao Fu would leave sooner or later, and even though she was reluctant, she could not change his mind. She could tell that his identity was quite terrifying, so she decided that she might as well have her fill now. She said with a lewd expression, “Sir, I still want more.”

In the next two days, the carriage continuously sounded out with Hu Shan and the two female attendants' voices. They had never come out of the carriage and this made the other people feel quite shocked; if this went on, their Madam would die in there.

Swish, swish, swish...

Suddenly, the sound of the air being torn could be heard as the guards immediately sensed danger and yelled, “Enemy attack!”

Arrows containing immense force descended like bolts of lightning towards those guards. The guards immediately defended, using their weapons to send the arrows flying. Some people used shields to block, while a few people were struck by the arrows and cried out.

A group of 3,000 or so jackal people appeared and ferociously surrounded the merchant group, looking like they had ill intentions.

Chapter 1556: Jackal People

These Jackal people had the heads of Jackals and bodies of humans. They lived in the barren lands and were more ferocious than wolf people, and they often killed and pillaged.

Their appearance caused the people in the carriage to stop doing it.

Before the guards came to report, Zhao Fu sensed this group of Jackal people and understood that this merchant group was not a match for them. The other side had many people and were not weak at all, and the merchant group had things to protect.

“Sir, is it dangerous outside?” Hu Shan’s face was red and she asked as she panted and lay in Zhao Fu’s embrace.

Zhao Fu nodded and put on some clothes before going outside.

Currently, the battle was about to unfold. The merchant group had formed a defensive formation and the Jackal people held their weapons as they ferociously charged over.

The merchant group’s people looked quite serious. Facing the 3,000 or so Jackal people, they knew that the situation was quite dangerous, and it was likely that many of them would die.

Shing!

A sword hum suddenly sounded out as an incredibly sharp sword light flashed out. All of the incoming Jackal people were cut in half and fell to the ground, dyeing the ground red and creating a bloody scene.

This caused the merchant group's guards to feel incredibly shocked. They looked back and saw the man who had been doing it with their Madam standing in the air – it seemed that all it took was a casual swing of the sword from him.

“So powerful!” They had thought that he was just a pretty boy, and they had never expected him to be so powerful. They could not help but fall into shock, and they could sense that Zhao Fu's cultivation was at least at the Heaven Realm.

Hu Shan had also put on some clothes and came out from within the carriage. The guards saw that their Madam seemed completely different – she was even more beautiful and alluring, making flames burn in their hearts.

Looking at the corpses in the surroundings, Hu Shan smiled; her taste had always been quite good, or else she would not have given her body to Zhao Fu so easily. She said flirtatiously, “Sir, now that you've killed these evil Jackal people, let's continue! I still haven't had enough.”

Zhao Fu laughed as he said, “It's not over yet!”

By now, Zhao Fu could sense another group of Jackal people charging over, and there were over 10,000 of them.

Soon, dust rose up from over the horizon and rumbling could be heard as the 10,000 Jackal people appeared.

The merchant group's people's hearts tightened; facing so many Jackal people, they would definitely die. However, with an expert like Zhao Fu present, they were not too frightened.

The one in the lead was a ferocious-looking woman with a fiery figure and tanned skin. She had short, grey hair and two fangs as well as a pair of Jackal ears. She gave off the aura of the Jackal people and most likely had the Jackal people bloodline.

These Jackal people would often attack merchant groups and bring back their women to use to give birth to their children. Falling into these Jackal people's hands was worse than death.

Sensing Zhao Fu's aura, the woman's expression changed, and she raised her hand, signaling for the Jackal people to stop. She said, "We don't want to attack you, we just want their corpses; they're most likely useless to you."

Zhao Fu felt quite surprised, but he understood that if it wasn't for the fact that he was powerful, they would have attacked long ago. He felt quite confused, so he asked, "What do you want the corpses for?"

Of course, the woman did not reply. She could sense a trace of ill intent from Zhao Fu's eyes and facing such an expert, it was her side that was in danger.

However, it was best not to leak information about them collecting corpses. She had been careless and thought that this was just a merchant group of 1,000 people, so she had thought that they would be able to easily destroy this merchant group.

However, they had never expected the merchant group to have such a terrifying expert, and the group of Jackal people were instantly killed without being able to resist.

Zhao Fu's gaze became cold; facing these savage Jackal people, there was no need to be courteous. He said coldly, "If you don't say, I'll kill all of you."

This made the woman feel quite startled, and she hesitated before saying, "This is a command from the leader of the Jackal people. He wants to collect 990,000 Jackal people's corpses as a sacrifice to the ancestors to obtain the purest, noblest, most powerful Jackal bloodline."

Zhao Fu was now quite interested in all kinds of powerful Outlander bloodlines, so he thought about it and decided to have a look. He said, "I can spare you all, but you have to bring me to your leader. As for everyone else, leave them here."

The woman felt quite troubled, but facing Zhao Fu's immense strength, she could only helplessly agree.

Zhao Fu took out a few command medallions and waved his hand, and a few thousand soldiers dressed in black armor and giving off terrifying auras appeared, making everyone feel quite shocked. They were Stage 6 soldiers, and only the Heaven Domain would have such forces.

This was the command medallion that Zhao Fu had obtained from the historical remnant in the Demon Domain. Zhao Fu had always kept it with him, and it was the first time he had used it.

Now, countless people started to feel curious about Zhao Fu's identity, and they guessed that he came from some powerful faction in the Heaven Domain. Hu Shan was now certain that Zhao Fu could give her a much better life, and she gave a bewitching smile.

So many Stage 6 soldiers caused the ferocious Jackal people to become docile, and they did not dare to resist. They all looked quite fearful and no longer seemed so fierce.

Zhao Fu gave control over the Stage 6 Darkness Soldiers to Hu Shan, and she softly said, "Be careful, husband, I'll be waiting here for you."

Zhao Fu smiled and nodded, and he did not mind the way Hu Shan had addressed him. He then brought that woman and headed towards the Jackal Tribe.

On the way, Zhao Fu found out that woman's name, which was Chai Mi.

A few hours later, Zhao Fu and Chai Mi arrived at the Tribe. There were about one million Jackal people in the Tribe, and they had an army of 100,000 people. There were not any buildings, only tents, as this made it easier to move around.

Chai Mi pointed at the Tribe and said, "This is the Tribe. Look at that corpse moat; that's for the ancestral sacrifice."

Zhao Fu looked at the enormous corpse moat below, which was already heaped with countless corpses. It most likely had around one million Jackal people's corpses, and Zhao Fu wanted to charge in, kill all of the Jackal people, and use the ancestral sacrifice for himself.

However, after asking Chai Mi about it, Zhao Fu found that only the Jackal people's leader could do the ancestral sacrifice. The Jackal people's leader had obtained an Ancestral Stone, which was the most important thing; only with it could he do the ancestral sacrifice.

After thinking about it, Zhao Fu decided to hide nearby and wait for the right moment before snatching it for himself.

Chapter 1557: Ancestral Stone

Hiding near the Tribe, Zhao Fu saw some unbelievably cruel scenes. Some women had ropes tied around their necks, and they were bound like livestock. They did not have any clothes on and were covered with wounds and bruises.

Their eyes were hollow and their expressions were dull, and they seemed to have suffered a lot of abuse. They were also covered with various liquids and gave off nasty smells. Any Jackal person who wanted to do it with them could come over and ravage them.

There were also some large cauldrons that were boiling soup, but they were all filled with people's flesh. There was a table nearby where a chef used a large cleaver to chop a man's body into pieces before tossing the pieces into a cauldron to boil.

There was even a Jackal person who held a little boy's head and ate it in large mouthfuls, and it seemed to be incredibly tasty to him. One of the boy's eyeballs fell out, and the Jackal person picked it up and stuffed it into his mouth.

"Ahhh, no!" At that moment, a muscular Jackal person violently pressed down a woman with a large belly. His ugly thing was about to violate that woman and the woman wept, looking extremely pitiful.

As a Jackal person, Chai Mi had seen many things like this, so her expression did not change much. In Outlander races, the strong were the sovereigns and the strong preyed on the weak. This was the outcome of being weak.

Zhao Fu did not want to see others doing women in front of him. His left eye turned into a rose-like pupil and traces of black aura shot out and entered that Jackal person's body.

Immediately, that Jackal person's body froze and his eyes became black before he returned to normal. He was now under Zhao Fu's control, and Zhao Fu used the Evil Spirit Abyss Flower's power to have that Jackal person find a place with no one around to commit suicide.

That Jackal person was unable to resist Zhao Fu's control at all. He went to a solitary place, took out a saber, and chopped at his own neck without any hesitation. Blood spurted everywhere and the Jackal person's corpse fell to the ground.

Chai Mi felt quite shocked and was somewhat afraid of Zhao Fu's ability to take control of others. If Zhao Fu used this power on her, she would not be able to resist at all; if Zhao Fu wanted her to die, she would die.

Zhao Fu did not look at that woman, who had been ravaged, and instead looked at Chai MI's fiery figure and said, "Come over and serve me."

Chai Mi did not hesitate. As someone part of the Outlander Race, she understood the law of the jungle. To be able to serve such a powerful and prestigious person was her glory.

As such, Chai Mi squatted down and started to serve Zhao Fu, after which Zhao Fu started to do it with her. He also released a barrier to prevent any noise from leaking out.

A few hours later, Chai Mi seemed to have melted, and she powerlessly lay on Zhao Fu's body. She felt that her body and soul had been conquered by Zhao Fu, and she felt an infatuation towards him.

At that moment, another group of people dragged back ten or so carts of Jackal people's corpses. They were elderly and young people and they all wore similar clothes. They were most likely the corpses from destroying a small Tribe nearby.

Adding on these corpses, the leader would most likely start the ancestral sacrifice.

Just as expected, after obtaining those corpses, the entire Tribe went under lockdown as they prepared for the ancestral sacrifice to prevent anything unexpected from happening.

Zhao Fu hugged Chai Mi and waited by the side. He sent some power into her body to help her quickly recover.

A muscular and ferocious-looking Jackal person walked over with a group of people before flying onto an altar by himself.

The altar was built at the center of the corpse moat and was ten or so meters tall. There were many Jackal people's corpses lying around it, and they all had savage or fearful expressions on their faces. In order to fulfill his goals, the Jackal people's leader did not even spare his own people.

He then took out a pale bone, which was most likely the Ancestral Stone, and he chanted a strange chant as he sent power into that pale bone.

The pale bone exploded out with a powerful aura and a formless energy spread out, covering the countless corpses. The corpses started to melt, turning into bloody water.

The bloody water turned into a few pillars of water and flowed into the pale bone. As the pale bone absorbed the bloody water, it gave off an even more powerful aura before turning into a ray of light and shooting into the sky.

Boom!

An explosion sounded out as a 1,000 meter tall image descended from the sky with a terrifying aura, causing the surrounding air to become icy cold and causing countless people to feel terror.

This image was of a Jackal person, and it had a Jackal's head, blood-red eyes, and a human body. It had violet and metallic fur, and it gave off a ferocious aura.

This figure in front of everyone was the Jackal Ancestor.

The Jackal Ancestor's eyes fell on the kneeling leader. After confirming the leader's status and power, the image's body continuously condensed until it became a violet orb of blood and gradually descended.

The leader looked wildly delighted; after obtaining the ancestor's blood, his power and bloodline would receive massive boosts, and he would become a peerless expert. He could rely on the ancestor's bloodline to unify countless Jackal people.

However, a figure suddenly appeared in the sky, who grabbed the descending violet orb of blood. This caused the Jackal leader to feel shocked, and he was immediately enraged. Someone dared to try to steal the ancestor's blood that he had put so much effort into obtaining.

"Arghh!" the Jackal leader fell into fury and he roared as he glared at Zhao Fu with eyes filled with killing intent. He exploded out with a terrifying aura and kicked off the ground, causing the ground to crack as he turned into a black blur and shot into the sky.

Looking at the incoming Jackal leader, Zhao Fu looked quite disdainful. He took out the Sadistic Killing Sword and vigorously slashed out, sending out an enormous blood-red sword light that mercilessly covered the Jackal leader's body.

After the blood-red sword light passed through, a cut-up corpse fell from the sky. The Tribe's strongest person had died so easily.

Countless Jackal people looked terrified as they looked at Zhao Fu standing in the air. Sensing his power, they did not dare to try to take revenge and instead rationally chose to madly run away.

Chapter 1558: Minotaur

Looking at the fleeing Jackal people, Zhao Fu gave a cold smile and raised his sword and sent out a few massive sword lights.

The enormous sword lights contained ferocious power as they slashed towards the Jackal people, and they easily cut countless people's bodies apart. As the sword lights flew past, they left behind fragmented corpses, creating a bloody scene.

Seeing so many people die, the survivors became even more afraid and ran in all directions, not daring to stay for even another second.

Zhao Fu did not attack again; he was not interested in wasting his time to chase after these escaping Jackal people. Seeing that all of the Jackal people had run away, he looked at the violet orb of blood and sensed its power as he smiled.

He waved his hand and the ropes binding the women who they saw earlier broke, and Zhao Fu brought Chai Mi back to where the merchant group was.

As for those women, Zhao Fu had destroyed the ropes binding them and the Tribe had everything they could want. They could take whatever they wanted and run; Zhao Fu was not concerned about how they would do in future.

After returning to the merchant group, everyone sensed the bloody aura around Zhao Fu and understood that the Jackal Tribe was most likely doomed.

Zhao Fu recalled the Darkness Soldiers and let the group of Jackal people leave. He kept Chai Mi to serve him, and Chai Mi did not mind at all. Serving an expert like Zhao Fu was much better than staying in a barren land like this.

The merchant group tidied things up before heading out again. Zhao Fu returned to the carriage and started to fuse with this Jackal ancestor's blood.

Zhao Fu opened his mouth and sucked the orb of blood into his stomach. As the violet blood entered his stomach, it gave off an intense violet light and started to condense the Jackal ancestor's likeness.

Sensing that an outsider was trying to refine it, the ancestor's blood resisted with all of its might. Zhao Fu sensed this and coldly harrumphed, and his Divine Bloodline's power slammed against the violet blood, causing it to wail in terror and turn into violet mist.

The Jackal ancestor's bloodline was powerful, but how could it rival Zhao Fu's Divine Bloodline? It was completely suppressed and could not resist at all.

Zhao Fu started to absorb the violet mist into his body, causing his body to give off faint violet light. A fist-sized picture of a Jackal person gradually appeared on his back.

In the end, Zhao Fu successfully refined the Jackal ancestor's blood. His power and appearance did not change much, but his aura now contained a trace of the Jackal people's aura.

"Husband, have you finished refining?" Hu Shan flirtatiously smiled as she looked at Zhao Fu hazily, and the pair of female attendants also looked quite shy. Chai Mi looked at Zhao Fu longingly; she very much liked the feeling of being conquered by Zhao Fu.

Zhao Fu smiled and nodded, and he brought the women into his embrace. Soon, intense sounds started to come out of the carriage, as well as the women's lewd voices.

The guards once again stayed away and did not dare to look over; they were filled with respect for the person in the carriage.

A day later, the merchant group finally exited the barren lands and arrived at a massive forest where it stopped. The people within the carriage had just stopped doing it and were cuddling when a guard's voice sounded out from outside, "Madam, we've arrived at Minotaur Forest."

"I understand, start unloading the goods; I'll come out soon," Hu Shan's flirtatious and strengthless voice sounded out from within.

Lying within Zhao Fu's embrace, Hu Shan said flirtatiously, "Husband, our merchant group has some goods for the Minotaur people. I need to go and deliver those goods. Do you want to come with me, husband?"

"Also, there are mostly Minotaurs living in this forest. They are all well-built and powerful, but they are all simple and honest, peaceful people. Merchant groups don't have to worry when coming here."

Zhao Fu smiled and nodded; he was quite interested in Outlander culture, so he decided to go with Hu Shan.

The group put on clothes and got off the carriage, and by now there was a group of Minotaurs walking towards them. What surprised Zhao Fu was that while some of the Minotaurs had the heads of cows and oxen and the bodies of a human, some had human heads and cow horns but the legs and hooves of cows from the calves and below. All of them stood around two meters tall.

A middle-aged Minotaur walked over and smiled as he said, "Madam, you've become even more beautiful since the last time we've met."

Hu Shan leaned against Zhao Fu and smiled as she said, "It's all thanks to my husband. Also, please have a look over the goods; we'll be stopping here for a while."

The Minotaur felt quite surprised as he looked at Zhao Fu. He had never thought that a human could make the flirtatious and mature Hu Shan so infatuated. This was very rare because humans were not very powerful in that regard.

The Minotaurs and Hu Shan had been doing business for a while and had known each other for a long time. The Minotaurs could not help but feel moved when looking at Hu Shan; her every action and every smile could cause their bodies to heat up.

Within the Minotaur Tribe, many Minotaurs wanted to have Hu Shan, but it was a pity that this alluring woman had already been taken by someone.

However, even if she had not been taken by someone, they would not have a chance anyways. After all, Hu Shan was the owner of a merchant group, and she would not casually let any Minotaurs touch her.

The middle-aged Minotaur brought some other Minotaurs to look over the goods, and then took the merchant group deeper into the forest.

They came before a massive, crude-looking City. The City Walls were made out of massive boulders and tree trunks, and it was the same for the buildings within. Most of the Minotaurs lived inside tents.

The Minotaurs passing by on the street did not look surprised when seeing Hu Shan's merchant group because many merchant groups came here to trade with them.

Zhao Fu and the others returned to the carriage, and he looked at the Minotaur City's scenery through the windows. He felt as if he was holidaying through another world.

At that moment, a Minotaur girl saw the merchant group and happily ran over. This girl had long, wavy, green hair and delicate looks. She had a slender figure and looked quite pure.

"Aunt Shan!" The Minotaur girl happily called out.

Seeing that girl, Hu Shan smiled and introduced her to Zhao Fu, saying, "This is the City Lord's daughter. Husband, are you interested in her? I can help you. However, make sure you don't get infatuated with the new and get bored of the old."

Looking at the pure and lively Minotaur girl, Zhao Fu smiled as he nodded. The Minotaurs he had met in the past all had the heads of cows and bodies of humans, so Zhao Fu naturally was not interested. However, this girl had a human head and human bodies, and she only had the calves and hooves of a cow. Zhao Fu wondered what kind of bloodline this kind of Minotaur had.

Chapter 1559: Grove

Hearing that Zhao Fu was interested, Hu Shan smiled and walked out of the carriage and said to the girl, “Dongni, do you want to see what Auntie Shan brought for you this time?”

Niu Dongni, the Minotaur girl, laughed and came to Hu Shan’s carriage. Even though she was still young, she was 1.8 meters tall. Most Minotaurs were around two meters tall, so 1.8 meters was considered short.

“You’ll see once you come in. It’s a very interesting and rare thing!” Hu Shan said temptingly.

Hu Shan had come many times before and had a close relationship with Niu Dongni. Every time, she would bring interesting things for her, so Niu Dongni looked forward to seeing Hu Shan every time. She completely trusted Hu Shan too.

“Is that so?” Niu Dongni looked excited and expectant as she smiled and asked before getting on the carriage. As a 1.8 meter tall Minotaur, she was somewhat heavy and caused the carriage to slightly sink.

After getting onto the carriage, Niu Dongni’s face became slightly red because she saw an incredibly handsome young man smiling as he looked at her. There were also three women with red faces breathing raggedly by the side, and they were all undressed.

Zhao Fu stretched out his hand and brought Niu Dongni into his embrace. Following this, a barrier spread out to prevent any noise from leaking out, and Zhao Fu enjoyed his time with this Minotaur girl.

At first, Niu Dongni shyly resisted a bit, but she soon sank into the pleasure and Hu Shan joined in.

Afterwards, Hu Shan lightly laughed as she said, “Dongni, are you really happy? Auntie Shan didn’t lie to you, right?”

Niu Dongni’s face became completely red as she leaned against Zhao Fu and said coquettishly, “Auntie Shan, you’re so bad; you tricked me into this and now you’re making fun of me.”

Zhao Fu lightly laughed as he hugged Niu Dongni and Niu Dongni looked quite blissful. She then thought of something and asked worriedly, “Husband, will you throw me away after having my body? Are you going to marry me? I promise I’ll be a good wife and will serve you well.”

Hearing this, Zhao Fu laughed as he said gently, “Don’t worry, I’ve taken responsibility for every woman I’ve been with.”

Niu Dongni happily kissed Zhao Fu and said, “I’ll tell my father later, and then I’ll leave with you.”

Hearing this, Zhao Fu smiled and nodded.

They cuddled for a while after which Niu Dongni left. The merchant group found a place to rest, and Hu Shan went to take care of some goods. Chai Mi and the other women were completely strengthless, and they rested in the carriage.

Zhao Fu felt quite curious and strolled around the Minotaur City with great interest. There were not any thieves or crooks, and the crime rate was quite low.

Back when Great Qin only had a few hundred people, things had been like this as well. However, as they had gained more and more people, the number of evildoers had increased as well. Great Qin was not a perfect Kingdom and there were many criminals, but they were all punished by the law.

Soon, Zhao Fu arrived at a relatively secluded grove.

“Sister-in-law, stop resisting. Big bro has been injured for many years and cannot satisfy you. Also, you haven’t given birth to a boy yet; according to Minotaur traditions, I have the duty to help you.”

A well-built Minotaur had pressed a beautiful woman with a dignified and virtuous aura underneath him and was tearing at her clothes. His massive thing was already exposed.

The beautiful woman continuously struggled as she said, “You can only do such a thing after your big brother has died. Your big brother hasn’t died, so let me go; otherwise, you’ll be executed for doing something like this.”

The well-built Minotaur's eyes were bloodshot and he loudly roared as he said, "Even if I die, I want to have you now. I know you need a man; aren't you reacting down there? I'll satisfy you now."

The beautiful woman struggled while crying, pleading for the man not to do this.

However, the well-built Minotaur had already ripped apart her pants, and he prepared to ravage her.

Bang!

A massive energy sent the well-built Minotaur flying as he crashed into a tree. The tree was snapped in half and the well-built Minotaur coughed up a large mouthful of blood before fainting and falling to the ground.

Zhao Fu walked out from the side. He had just been marveling at how the Minotaurs were simple and honest, and he had never thought that he would see such a thing. It seemed that all creatures had evil within them by nature and needed laws to restrict this.

Seeing Zhao Fu walk out, the beautiful woman hurriedly tried to use her torn-up clothing to cover her important parts. However, the torn-up clothing was unable to fully cover her figure, revealing large amounts of snow-white skin.

Seeing that the well-built Minotaur was not dead, Zhao Fu planned to attack again.

The beautiful woman hurriedly cried out, "Sir, please don't kill him. He just made a mistake, and he is my husband's little brother."

Zhao Fu stopped and looked at the beautiful woman.

Sensing Zhao Fu's gaze, the beautiful woman's face became red and she lowered her head as she said gratefully, "Thank you for saving me sir and protecting my purity."

Zhao Fu lightly smiled and came to her side as he said, "You're welcome. If you'd like to thank me, you can use your body!"

This made the beautiful woman feel quite shocked; she had thought that Zhao Fu was a righteous gentleman but it seemed that he was also a licentious fellow. She had now jumped out of the frying pan into the flames and the beautiful woman did not hesitate to turn to run. However, Zhao Fu caught her and started to go about it with her.

“轰!”

Apart from the initial resistance, the beautiful woman soon became even lewder than Hu Shan, as if she had not been with a man in a long time. She madly begged Zhao Fu for more until she fainted.

Looking at the unconscious woman on the ground, Zhao Fu got up and started to put on his clothes. Even though he was not sure who this woman was, since he had been with her, he decided to bring her back to the merchant group with him. He had quite enjoyed her taste.

“You bastard, I’m going to kill you!” A two meter tall beautiful girl with a pair of cow horns and fiery-red hair appeared. She had a sexy and voluptuous figure and a shrewish aura. Looking at her mother on the ground and her unconscious uncle, she naturally understood what had happened.

It must have been that this bastard had wanted to violate her mother and her uncle had tried to protect her but had been knocked out. Her mother had been violated by this bastard, and seeing her mother like this, the girl felt incredibly furious.

Even though she knew that her strength was not as great as her uncle’s, her anger caused her to disregard everything. She only wanted to kill this person in front of her and take revenge for her poor mother.

Boom!

The Minotaur girl exploded out with a powerful aura and ferociously charged at Zhao Fu. She was not weak, and as she kicked off the ground, she left a small crater in the ground.

Chapter 1560: Darkness Command Medallion

Zhao Fu had not finished putting on his clothes yet, but seeing the Minotaur girl rush over, he did not feel any fear and instead coldly laughed. He held out a hand and a massive wave of energy turned into a formless hand that directly grabbed the Minotaur girl.

Facing Zhao Fu's terrifying power, the furious Minotaur girl felt as if she had cold water poured over her, and she instantly calmed down. She realized that even ten of her would not be a match for Zhao Fu.

The Minotaur girl could not help but feel somewhat afraid. She vigorously struggled, but it was a pity that she could not break free at all.

Bang!

Zhao Fu waved his hand and sent the Minotaur girl flying. She crashed against a tree, causing the tree's leaves to fall like rain. A few cracks appeared on the tree's trunk and the Minotaur girl crashed to the ground with a trace of blood leaking out of her lips.

The Minotaur girl immediately got up and decided to run away. Only by running away could she call others here to get justice on this evildoer who had violated her mother.

However, right as she got up, Zhao Fu arrived in front of her. He stretched out a hand, grabbed her throat, and pressed her against the tree.

The Minotaur girl was two meters tall while Zhao Fu was not even 1.8 meters tall. She was a head taller than him, and yet Zhao Fu could easily lift her off the ground.

Zhao Fu looked at her voluptuous figure, and he looked at this beautiful Minotaur girl in front of him with great interest. He started to take off her clothes and prepared to do it with her.

The Minotaur girl vigorously resisted while crying out angrily, "Don't! I haven't gotten married yet!"

She did not know that this made Zhao Fu even more interested, and in the end, Zhao Fu started doing it with her.

"Husband, I want more," the Minotaur girl lewdly cried out half an hour later, having completely lost all sense of reason. She went almost as crazy as her mother.

Hearing her daughter crying out in pleasure, the beautiful woman opened her eyes with great difficulty, and she saw her daughter being ravaged by Zhao Fu, taking her first time.

The beautiful woman naturally understood what had happened; she was right about Zhao Fu being incredibly licentious.

Afterwards, the Minotaur girl angrily hit Zhao Fu as she lay in his embrace and said, “You bastard, I already said I’m not married yet; how am I meant to get married now? I hate you to death.”

The Minotaur girl did not hit Zhao Fu very hard and she looked quite cute with her red face.

Zhao Fu hugged her and gave an overbearing smile as he said, “You’re already mine; there’s no need for you to marry anyone else.”

Hearing that Zhao Fu was going to take responsibility, the Minotaur girl lightly harrumphed and smiled as she obediently lay in Zhao Fu’s embrace.

Minotaurs were indeed quite simple and pure. Now that her body had been taken by Zhao Fu, she no longer resisted Zhao Fu and instead acknowledged him. Most Minotaur women were like Niu Dongni, afraid that Zhao Fu would throw them away after playing with their bodies.

Zhao Fu looked at the beautiful woman also in his embrace and said domineeringly, “Now, you’re also mine. We’ll leave later.”

The beautiful woman looked quite troubled, but facing Zhao Fu’s overbearing gaze, she could only lightly nod. After all, she felt that her body could not leave Zhao Fu. She could only say softly, “Sir, you have to treat us mother and daughter well in the future.”

Zhao Fu smiled and nodded.

Seeing that it had been a while, Zhao Fu felt that Hu Shan had most likely tidied up things, so the three of them got dressed.

“What do you want to do with this person?” Zhao Fu asked as he pointed at the well-built Minotaur.

The Minotaur girl angrily harrumphed, “Kill him, of course. He actually tried to violate my mother.”

The beautiful woman pleaded, “Let him off this time! He’s your father’s little brother, and we’re going to be leaving. This won’t happen again.”

Zhao Fu did not want to trouble the beautiful woman, so he did not kill the man.

However, Zhao Fu sensed something and brought the two women towards the City. By now, the Minotaur soldiers had surrounded the merchant group.

Niu Dongni had happily told the Minotaur City’s City Lord about her finding a husband, and this made the Minotaur City Lord feel quite confused. He had never thought that his daughter would suddenly find a husband, and after asking about the details, he had become incredibly furious.

Someone had actually tricked his pure and kind daughter, and not only had he taken her body, but he also wanted to take her away. The Minotaur City Lord was infuriated and led his soldiers to surround the Fox Race merchant group.

Facing the soldiers, Hu Shan quickly realized the reason behind this. She was not too afraid because Zhao Fu had given her a Darkness Command Medallion. She waved her hand and 1,000 Stage 6 soldiers giving off powerful auras appeared.

This caused the Minotaur City Lord’s expression to fall; he had never expected Hu Shan to have such luck to obtain something like this. These 1,000 Stage 6 soldiers would not fear even an army of 100,000 Stage 1 soldiers, and the two sides fell into a stalemate.

The Minotaur City Lord was a slightly chubby middle-aged man and he furiously called out, “Hu Shan, I want you to give me an explanation. Who is that man? He has to give me an explanation or else I won’t let you off even if I die.”

Hu Shan gave a beautiful smile as she said, “City Lord, our husband’s identity is something that you can’t imagine; to be able to serve our husband is your daughter’s blessing and the Minotaur City’s blessing. You should be thanking me.”

The Minotaur City Lord felt quite shocked and understood that for Hu Shan to have that command medallion and such confidence, it was definitely because of that man. Just who was he?

By now, Zhao Fu brought the two women and arrived beside Hu Shan with a cold expression.

Seeing Zhao Fu arrive, Hu Shan smiled and hugged Zhao Fu's arm as she said, "Husband, why did you only just come? I felt a bit nervous just then."

Zhao Fu hugged her as he smiled and replied, "I had some matters to take care of!"

"Wife!" "Dou'Er!" the Minotaur City Lord and a valiant-looking man with him recognized the two women and felt quite confused as they called out.

They did not understand why these two women were with Zhao Fu, and they had reddened faces and gave off mature auras. It was as if they had been doing it with someone, and they had a bad premonition.

Hu Shan noticed the two women and smiled as she said, "Husband, you're quite capable; you got the Minotaur City's Madam and the big miss as well."

The beautiful woman was the Minotaur City Lord's wife and was called Niu Liuyun. The Minotaur girl was the Minotaur City's big miss and was called Niu Doudou. Hearing this, Zhao Fu felt quite surprised.

The beautiful woman could not meet her husband's gaze and lowered her head, looking quite guilty. She also felt quite uncomfortable, but she did not regret this. The pleasure she had felt with Zhao Fu was something that her husband could not give her, and Zhao Fu had made up for her years of loneliness."
