

The Lord 1631

Chapter 1631 Peerless Genius

Standing on the stage, Zhao Fu came before the mirror. He felt quite curious as to how much of his power the mirror would be able to reproduce.

The magic formation on the stage was enlivened and countless rays of light spread out. The magic formation slowly spun and the spirit qi in the surroundings quickly flowed into the stage as the mirror gave off a light and shined on Zhao Fu's body.

Zhao Fu felt a wave of power enter his body, which was most likely the mirror copying his power.

However, when the mirror sensed various terrifying powers within Zhao Fu's body that were unreplicable, the light gradually faded and the magic formation stopped.

This made everyone look quite surprised and they did not understand what had happened. It seemed that the mirror was unable to reproduce Zhao Fu's power – the mirror could reproduce everyone else's power, so why could it not do so for Zhao Fu?

However, thinking about what had just happened, they could all make a guess; didn't this prove that Zhao Fu was no ordinary person?

The supervisor looked quite surprised and went up to check on the mirror. He found that there was nothing wrong with the mirror, and that it simply could not reproduce Zhao Fu's power.

However, the supervisor soon took out a four meter tall oval mirror and placed it in front of Zhao Fu and said, "Try this."

Hearing this, Zhao Fu came in front of the mirror and the magic formation was once again activated and gave off boundless light. Countless traces of spirit qi flowed into the stage, and the mirror gave off intense light that was twice as intense as the one from before.

The light covered Zhao Fu and the mirror's power entered Zhao Fu. After sensing Zhao Fu's Divine Bloodline and his other terrifying powers, this light also faded.

Even this mirror was unable to reproduce Zhao Fu's power!

The supervisor now looked quite shocked. He looked at Zhao Fu and thought to himself before taking out a nine meter tall oval mirror. This mirror's sides were made from extremely precious Spirit Wood, and its abilities were incomparable to the two meter tall mirror from before.

“Try this one!” the supervisor said to Zhao Fu.

Zhao Fu felt even more curious as to whether this mirror would be able to reproduce his Divine Bloodline and various powers.

Boom!

The magic formation once again came to life and gave off an intense light. Its aura was evidently many times greater than before, and countless traces of spirit qi gathered as a terrifying wave of power entered the mirror.

The nine meter tall mirror gave off a shocking aura and gave off a fathomless light. Everyone else on other stages looked over, not knowing what had happened.

The light from the mirror covered Zhao Fu's body and gave off immense power as it continuously flowed into Zhao Fu's body.

This mirror was evidently greatly different to the two from before. Not only was it more powerful, but when it detected Zhao Fu's Divine Bloodline and various powers, it did not shrink back and instead tried to reproduce them.

Boom!

An explosion sounded out as the magic formation on the stage spun even faster and even more spirit qi poured into it, and the stage sent this power into the mirror.

The mirror gave off even greater aura and light, and it continuously tried to reproduce Zhao Fu's power.

Crack!

A clear sound rang out as a crack appeared on the mirror, which grew bigger and bigger before the mirror shattered and the pieces fell to the ground.

Seeing this, the supervisor was completely dumbfounded. This was an extremely high-grade mirror and was especially made for special existences. It could even reproduce peak Imperial Bloodlines, and yet this mirror could not reproduce Zhao Fu's power before shattering.

Everyone watching could not help but cry out; they had never thought that something like this would happen. Just when that mirror had given off an incredibly powerful might, everyone had thought that the nine meter tall mirror would be able to reproduce Zhao Fu's power, but it had actually shattered.

This was the first time everyone had seen or heard of such a thing. There was only one possibility, which was that Zhao Fu possessed something terrifying that could not be reproduced.

Just how terrifying was Zhao Fu? Even the highest grade of mirror could not reproduce his power. Everyone felt that he was simply too shocking, and he now seemed even more mysterious.

Zhao Fu was wearing a black cloak and no one could see what he looked like. Everyone tried to guess at Zhao Fu's identity and where he came from, and countless people were filled with curiosity.

The supervisor secretly reported this to Outlander Ten College's higher-ups so they would take attention of him. Perhaps he was the peerless genius hiding within the crowd.

The supervisor understood that not everyone liked to act showily and have the whole world know about them; some truly terrifying geniuses liked to keep a low profile and mix in with crowds. It was these kinds of people who were the most terrifying.

Many similar geniuses had appeared in the past; the second-ranked person in the previous examination had been such a person. That person had seemed incredibly ordinary at the start, but he had revealed terrifying power at the end and defeated the top ten or so geniuses and shaken everyone.

"You don't have to do any more exams, you pass," the supervisor said as he courteously smiled. In his eyes, Zhao Fu would become a major figure in Outlander Ten College in the future.

Zhao Fu nodded and started to walk off before turning and saying to Gou Yan, “Don’t take too long!”

Gou Yan looked delighted; Zhao Fu had acknowledged him as a friend. After seeing Zhao Fu’s terrifying power, Gou Yan felt that the gap between him and Zhao Fu was too great, so he had planned on not bothering Zhao Fu anymore.

However, he was now pleasantly surprised. Gou Yan grinned as he went up on the stage and stood in front of the mirror. This time, nothing out of the ordinary happened and a person who looked exactly the same as him came out of the mirror.

After the doppelganger came out, it drew a long saber and hacked at Gou Yan. Apart from reproducing the person, the mirror would also reproduce all equipment. Of course, the reproduced equipment were not as strong as the originals and could only last for a short while.

Even though the doppelgangers were at a disadvantage, they were familiar with how the real versions acted and thought, so they were always prepared for attacks.

This made the real versions fall into a disadvantage. After fighting with the doppelganger for a while, Gou Yan had received many injuries and was in a tough spot.

Chapter 1632 Secret Realm

Chi!

Gou Yan hacked at the doppelganger, but the doppelganger easily evaded and instead struck Gou Yan with its saber, opening up a gash on Gou Yan’s abdomen. Blood flowed out from the wound, dyeing Gou Yan’s clothes red.

Gou Yan held his hand against the wound and looked at the doppelganger with an unsightly expression, while the doppelganger expressionlessly attacked again. It slashed towards Gou Yan, while Gou Yan shouted and charged up.

Clang, clang, clang...

The two sabers continuously clashed, causing sparks to fly and sending out shockwaves. It seemed that the doppelganger held a bit of an advantage.

At that moment, the doppelganger slashed out, sending out a saber light towards Gou Yan. Gou Yan dodged to the side, but the doppelganger seemed like it had expected this and kicked Gou Yan flying, causing him to cough up a large mouthful of blood.

After falling to the ground, Gou Yan's expression became savage. He remembered all of the times he had been bullied in the past, the glares he had received in the palace, and the mocking laughter.

“Arghh!” Gou Yan roared and exploded out with a powerful aura as he rushed at the doppelganger.

Gou Yan gripped his saber with both hands and sent massive amounts of power into it, causing it to give off sharp saber light. He charged up and ferociously attacked the doppelganger, continuously slashing out as he looked completely berserk.

Zhao Fu felt quite startled; Gou Yan looked like quite a bright and friendly person, and he had never expected that he would have this kind of side.

Bang!

Under the onslaught of unpredictable attacks, the doppelganger was unable to predict Gou Yan's next attack and was put at a disadvantage. In the end, it was cut apart and turned into motes of light as it disappeared.

The supervisor announced that Gou Yan had passed the exam.

Gou Yan smiled with difficulty and said apologetically to Zhao Fu, “I’m so useless, I made you wait long.”

Zhao Fu nodded, and remembering how crazed Gou Yan had seemed, Zhao Fu said, “You seem to really want to pass Outlander Ten College’s examination.”

Gou Yan nodded with a resolute gaze, “I want to prove that I’m not useless and inferior to anyone else. I’ll definitely achieve things that my older brothers and sisters have not, and show everyone in the Kingdom.”

Zhao Fu looked at Gou Yan and said, “You should treat your injuries first. There’s still another exam.”

Hearing this, Gou Yan smiled, sat on the ground, and consumed a medicinal pill as he started to treat his injuries.

At that moment, Zhao Fu made a cut on his finger and sent out a drop of pure essence blood. He sent large amounts of his power into it and sent it into Gou Yan’s forehead.

Sensing this drop of blood fuse into his body, Gou Yan’s body trembled and he looked at Zhao Fu. He did not understand why Zhao Fu had fused this drop of essence blood into his body, and the speed at which he had done it did not give him a chance to refuse.

Zhao Fu only said, “It will help you in the future; focus on fusing with it.”

Only then did Gou Yan understand that Zhao Fu was helping him, and he said gratefully, “Thank you!”

Following this, Gou Yan once again closed his eyes and started to fuse the drop of blood as he also healed his injuries.

The four other people who were following Zhao Fu also passed their exams and continued to shamelessly follow behind Zhao Fu. They were determined to cling onto him.

Zhao Fu did not pay them much mind. After Gou Yan had healed from his injuries, they headed to the next exam.

They soon arrived at a path covered with dense, white fog that made it so they could only see two meters in front of them.

Many people had stopped here. This third exam was called Illusory Fog and anyone who entered it would fall into an illusion. Anyone who could break free from the illusion would pass, and this was the last exam of the basic exams.

For the third exam, anyone who caused the statues to give off a three-colored light could directly pass through.

Zhao Fu did not hesitate and walked into the dense fog.

Gou Yan and the others thought to themselves; there was nothing to hesitate about and they followed Zhao Fu into the fog.

After they entered, the fog seemed to come to life and flowed towards them. In just a moment, it seemed as if the others had disappeared.

The fog continued to flow towards Zhao Fu, continuously wearing away at his mind and trying to pull him into an illusion. However, Zhao Fu had his Divine Bloodline and the Five Celestial Senses, making the fog's effects quite weak.

However, the fog evidently would not let Zhao Fu off so easily and the fog in the surrounding ten or so kilometers swept towards Zhao Fu, encircling around him. The formless energy caused Zhao Fu to faintly see some illusions.

Zhao Fu closed his eyes and gathered power into his left eye before opening it wide. The blue pupil in his left eye spun a few times, giving off an illusory power and blue light, and the fog seemed to retreat in fear.

Zhao Fu had gained this blue pupil from an extremely powerful illusion monster, and this illusory power was much stronger than the fog. Following this, the fog around Zhao Fu quickly dissipated.

As Zhao Fu walked forwards, the fog made away and did not dare to block him, and Zhao Fu easily passed through the third exam.

Soon, Zhao Fu saw a massive golden door that was 1,000 or so meters tall. There were all sorts of races carved on it, all of them looking incredibly lifelike. The door gave off a golden light and was filled with majesty, and it gave off a powerful aura and might.

The final trial was within a secret realm, and this golden door was the passage to the secret realm.

Within the secret realm, one could kill all kinds of creatures to obtain points, and after gaining a certain number of points, they would be able to officially become a disciple of Outlander Ten College. There were also various rewards in the secret realm.

Whoever gained the most points would place first, and these points could be obtained not only through killing creatures but also defeating others. Defeating another person would result in one gaining one-third of the defeated person's points.

There were many people waiting in front of the door, including the Sun Elf and the others. They stood closest to the door and no one else dared to stay close to them; that was the intimidation given off by peerless geniuses.

Even though Zhao Fu was the fastest person to clear the third exam, he was not the first person to reach this place, so no one else paid him much mind. In fact, some people did not even bother looking at him, and Zhao Fu did not mind this and waited by the side.

Chapter 1633 - 1633 Fog

1633 Fog

"You're the shame of the royal family, and you living is equivalent to losing face for the royal family. If it wasn't for the fact that killing you would not look good, I would have long since cut you up and fed you to dogs," a golden-robed young man put his foot in Gou Yan's head as he said with contempt.

There were a few other luxuriously-dressed men and women by the side, and they also looked at Gou Yan with condescension as they mocked him.

"What was father thinking bringing this bastard back and allowing him to be a Prince. I don't acknowledge his existence."

"That's right, we have an Orthodox Royal Bloodline, so how can someone lowly like him compare to us? Being a Prince when he's a Prince is so shameful."

"Haha, he actually thinks he's a real Prince, acting all dignified; how disgusting."

“Alright, there’s no need for us to keep associating with lowly trash like him; this will only lose face for us. Maybe he’ll even complain to father like his lowly mother!”

If it was abuse directed to him, he could endure it, as he had been bullied by these people for a long time. However, hearing them insult his mother, he furiously yelled, “Don’t you dare insult my mother. You’re not worthy!”

Hearing this, those people felt quite displeased and mockingly laughed as they kicked Gou Yan a few times, “What can you do about it? Also, are we wrong in saying your mother is lowly?”

“Arghhh!” Gou Yan was infuriated and his eyes became bloodshot as he roared and wanted to get up from the ground to teach those people a lesson.

However, those people came up, punched, and kicked him without any mercy, and in the end he could only lie on the ground, covered with wounds. He did not even have the strength to get up.

Only after a while did Gou Yan recover some strength and he got up with great difficulty as he walked towards his room.

On the way, he passed by some female attendants and guards who looked at him with condescending and disdainful gazes. They naturally knew what had happened, and they did not take him seriously either.

After going back to his room, Gou Yan lay on his bed in great pain and tightly gripped his fists, his nails stabbing into his palm as he wept.

The door was soon opened and a simply-dressed beautiful woman walked in. Seeing the wounded Gou Yan, she burst into tears and brought over some medicine as she asked caringly, “Yan’Er, are you alright?”

Gou Yan hurriedly wiped away his tears as he forced a smile and said, “Mother, I’m fine. Why are you here?”

Looking at Gou Yan, the woman started to cry as she said, “Mother is useless and can’t protect you, making you go through so much hardships.”

Gou Yan comforted her, saying, “It’s not your fault mother, it’s me. If I could perform better and had greater power, they would not dare to treat me like this. I’ll definitely prove myself.”

“Prove... myself!” Gou Yan, who was standing on the spot with a dumb expression, surrounded by white fog, suddenly thought of this sentence.

Boom!

The drop of blood in Gou Yan’s mind suddenly gave off an intense black light and a massive explosion sounded out in all directions. Even people outside of the fog heard this enormous explosion.

Everyone, including Zhao Fu and the top-tier geniuses, all looked towards the fog.

At that moment, Gou Yan felt an unimaginable wave of power enter his body and spread out; this power seemed to reign above everything and gave off the dignity and majesty of an Emperor.

“Arghh!” Gou Yan could not help but tilt his head back and roar as a fathomless black light instantly pierced through the fog and dyed the white fog black, covering the entire region.

A supreme aura was like a massive heavenly hand that pressed against the ground. Everyone’s bodies sank down and their expressions fell as they looked at the fog in shock.

Even the geniuses who had caused the statues to give off three-colored or five-colored lights looked at the fog in shock. Even the powerful Sun Elf glanced over.

The black fog started to roil and give off shocking sounds as it made a path, as if it did not dare to stand in someone’s way.

Gou Yan gave off intense black light as his eyes also became black, and his feet were a few centimeters off the ground as he floated out like a god.

Countless people’s gazes were on Gou Yan’s body, because it was him who had given off that terrifying aura.

Sensing the ripples from his body, everyone felt quite shocked. With this kind of power, even an ordinary person would be able to cause a statue to give off five-colored light and would not have to participate in this exam. It was most likely someone who liked to hide their strength; many people decided to avoid offending this person and try to befriend him later.

Those who had caused statues to give five-colored light looked quite serious and felt that another powerful opponent had appeared. They had to be even more careful in this final trial.

What they did not know was that this power did not belong to Gou Yan and instead belonged to Zhao Fu.

Zhao Fu was quite surprised; that drop of essence blood was even purer than most drops of essence blood he had used, and he had sent a large amount of power into it. Zhao Fu found Gou Yan to be a decent person so he decided to help him during a critical time.

It seemed that Gou Yan had somehow caused that drop of essence blood to release its power to the extreme; this was incredibly difficult to achieve.

After coming out of the fog, the black light around Gou Yan died down and his aura weakened as he returned to his original state. He looked around him and grinned as he walked towards Zhao Fu.

“Mo Ye, thank you so much,” Gou Yan said gratefully. If it wasn’t for the drop of essence blood that Zhao Fu had given him, he would have been stuck in the illusion and would have been eliminated.”

Zhao Fu calmly replied, “It’s not a big deal, don’t worry about it.”

“I am the Red Riddle Kingdom’s Prince Zhang Lue.”

“I am the Eternal East Kingdom’s Prince Long Ya.”

“I am the Golden Bull Kingdom’s Prince Niu Liu.”

Three young men with powerful auras and extraordinary bearings walked over to Gou Yan and smiled as they respectfully cupped their hands and introduced themselves.

This made Gou Yan feel quite startled. Sensing their terrifying auras, these people normally would not even take an extra look at him, and yet they now came over to greet him so courteously and seemed to want to befriend him.

Gou Yan thought about it and could guess at the reason; it was most likely because of the power he had just exploded out with.

However, that power did not even belong to him and instead belonged to Zhao Fu. With his strength, he could not possibly have such terrifying power.

Gou Yan wanted to explain that this power did not belong to him and instead belonged to the cloaked person next to him; it should be him that these people should be trying to curry favor with.

However, just as Gou Yan was about to say this, Zhao Fu subtly shook his head, signaling for him to keep quiet.

Gou Yan understood Zhao Fu's intentions and knew that Zhao Fu wanted to keep a low-profile, or else he would have long since revealed his power. Moreover, given his terrifying power, his background definitely wasn't ordinary, so it was best not to reveal this.

As such, Gou Yan could only embarrassedly admit that that power belonged to him and he started to talk with those three people and establish a friendship.

Zhao Fu stood by the side and did not say anything, and the three people directly ignored Zhao Fu.

After a while, of the four others who were following Zhao Fu, two people successfully passed and came to Zhao Fu.

A few hours later, there were 6,000 or so people who had passed the third exam. There were still many people who were still in the third exam, but it was time for the secret realm to be opened. After all, if they had to wait for everyone, that would require a lot of time, and they could not have everyone keep waiting.

Boom!

A massive sound rang out as the 1,000 meter tall golden door exploded out with a massive aura and gave off an intense golden light. The carvings on the door seemed to come to life and started to move about.

The door gradually opened and light streamed out. After the light disappeared, another world was revealed through the door.

The Sun Elf smiled and walked through the door first, and everyone else followed through as the final trial began.

Currently, the viewing platforms were filled with people. The viewing platforms formed a circle around the trial area, and a rectangular crystal floated in front of each viewing platform. The rectangular crystals allowed the spectators to see the secret realm and the people within.

Within the secret realm, everyone's image could appear on the rectangular crystals, and everything they did would be broadcasted to countless people. Any spectator could choose to view any person or place.

There were over 10,000 viewing platforms, and each viewing platform could contain one million people. Each person who could go on a viewing platform was incredibly powerful and had prestigious identities.

Outlander Ten College was one of the seven Great colleges and the best college within the Outlander Domain. It was to be expected just how seriously everyone took it, and almost all important figures had come. In fact, there were even many higher-beings.

This was also a symbol of one's status, and a seat on a viewing platform was sold at a high price; it was impossible for ordinary people to come in and watch.

The first three exams were just to eliminate most of the unqualified people, and even though the difficulty was extremely hard for ordinary people, it was quite easy for geniuses.

The secret realm was the final trial and the true test. It was given a lot of attention and many prizes were offered. Of course, it was also much more difficult and the legendary King of Kings Mountain was within the secret realm.

The secret realm had powerful protections and even many higher-beings would not be able to blast through it. This was mainly to protect the King of Kings Mountain as well as to avoid any interference with the trial.

The people on the viewing platforms all looked at the people they were interested in.

The person who received the most attention was naturally the Sun Elf. He was someone who had awakened the Outlander supreme Emperor Star and was most likely the prophesied person who would draw out the King of Kings Sword.

After all, the Sun Elf had the power of the Outlander supreme Emperor Star, and there were very few people who possessed one. He had terrifying potential and also had immense amounts of Fate.

Only such a person could pull out the King of Kings Sword; others did not have the qualifications.

However, anything was possible, and someone else might pull out the King of Kings Sword, so the other geniuses were also given some attention.

Many people had participated in the examination, and almost everyone was here for the King of Kings Sword. Anyone who pulled out the sword would become the ruler of the Outlander Race and would unify the Outlander Race in name.

As one of the Eight Major Races, the Outlander Race had innumerable people and boundless territory. Anyone who pulled out the King of Kings Sword would have all of this belong to him or her – around one-eighth of the Heaven Awaken World's population and territory. Just thinking about this could make anyone feel excited.

However, this was all in name only and did not have any actual force. It had been many years since everyone was united under the first King of Kings, and whether the later generations wanted to be loyal to the successor was up to them.

Not just the Outlander Domain was paying close attention to this event and awaiting the results; the other Domains were also interested.

After all, this concerned the prophecy left behind by the first King of Kings. Thinking about what kind of existence the King of Kings was – someone who surpassed the world and forced Celestials back – anyone would deeply remember his name.

Under his leadership, the entire Outlander Race had reached an age of glory and other Domains had to ally together to resist it. They were simply unstoppable at that time.

It was only because of that that his name was deeply engraved on the Outlander Race and was worshipped by countless people. Thinking about his name, they all felt their blood boil and felt a sense of pride.

How could the various factions not pay attention to the prophecy left behind by such a person? As such, they all paid a great deal of attention and wanted to see if a second King of Kings would appear.

If this did happen, the people from other Domains would definitely interfere; they could not allow another of these people to appear, or else he would once again lead the Outlander Race into a golden age, making the situation dangerous for the other Domains.

Their own Domains had never had a King of Kings because it was impossible for a single person to have all other Kings and Emperors willingly submit. The existence of a King of Kings was simply a miracle, and they could not replicate it.

It was quite lively on the viewing platforms and everyone stared at the rectangular crystals. Various other Domains' people were also investigating, and some large Outlander factions were making preparations.

Zhao Fu entered the secret realm. He had only investigated matters related to the examination, and he did not yet know about the King of Kings Sword.

Chapter 1635 Ogre

There were many valuable historical remnants in this secret realm. Zhao Fu did not plan on laboriously gaining points; it would definitely be easier taking them from others. Zhao Fu already had his sights on the top few people; if he could defeat them, he would definitely take first place.

As such, Zhao Fu was not in a hurry to gather points; it was better for him to look for useful things in the historical remnants before stealing points.

Zhao Fu did not let Gou Yan follow him, as the places he would be going to could be quite dangerous. Gou Yan just had to stay in the outer region, gain some points, and wait for the

conclusion of the trial to become a disciple of Outlander Ten College. There was no need for him to take risks with Zhao Fu.

Of course, Zhao Fu could not use his Nation Armament or City Lord Seal in here, so he would have to rely on his own power.

Zhao Fu turned into a ray of light and disappeared over the horizon.

Looking at Zhao Fu disappearing, Gou Yan felt somewhat melancholic. However, thinking of the fact that he would be a disciple of Outlander Ten College after this if he worked hard, he felt quite motivated.

Zhao Fu soon encountered a secret realm creature. It was not a living creature but rather a creature made up of energy. They were all made from the secret realm and could continuously spawn.

The secret realm creature that Zhao Fu encountered was ten or so meters long and looked like a giant salamander. It gave off a blue light and a powerful aura.

This massive blue salamander flew in the air, and after seeing Zhao Fu, it immediately rushed at him and opened its mouth, wanting to devour him.

Zhao Fu's expression did not change, and facing that massive mouth, his speed did not decrease as he took out a sword.

Boom!

Zhao Fu turned into a ray of light and charged forwards, shooting into that salamander's mouth before shooting out the other side. The enormous salamander exploded and turned into countless motes of light that floated towards Zhao Fu.

“System announcement! You have killed a Level 2 Creature and obtained 500 College Points.”

An announcement sounded out in Zhao Fu's mind, but he did not pay it much mind. He was focused on looking down to see if there were any historical remnants.

Zhao Fu soon arrived at a hidden valley and discovered a ruined-looking historical remnant. A trace of a smile appeared on his face and he immediately flew over.

Not only had a ranking appeared within the secret realm, showing participants' points, but the rectangular crystals also displayed the rankings on one side of the screen.

These were the top ten people, the most powerful ten people, and the most eye-catching ten people.

Number 1, Sun Elf Sherwa, 68,000 Points

Number 2, Naga Medusa, 45,000 Points

Number 3, Treasure Dwarf Durni, 34,000 Points

Number 4, Ice Dragon Person Dussi, 31,000 Points

Number 5, Ten-Tailed Fox Race Hu Baimei, 29,000 Points

Number 6, White Lion Person Madio, 28,000 Points

Number 7, Three-Headed Ogre Bou, 27,000 Points

Number 8, Iron Mountain Orc Gudu, 25,000 Points

Number 9, Eight-Winged Feather Person Yu Luohua, 24,000 Points

Number 10, Jade Elephant Person Mei Nuoka, 22,000 Points

Countless ordinary people felt quite shocked as they looked at the top ten people on the rankings, which weighed on their hearts like ten massive mountains. They had only just entered the secret realm and yet the ten of them had gained so many points; it was simply terrifying.

Apart from the people who had already entered, there were still many people who were finishing the basic exam and starting to enter. Perhaps there would be terrifying figures hidden among them. Now, it was time for the various geniuses to clash, and one could already imagine how intense things would be.

Zhao Fu did not care about any of this. He descended to the historical remnant, which looked quite crude and primitive. There was nothing that was delicately crafted, and Zhao Fu discovered many bones.

These were all bones of animals and people, and there were teeth marks on the bones.

Seeing this, Zhao Fu became wary and entered a cave within the historical remnant.

There were many bones here, and there was a rotten smell within the cave. Zhao Fu continued onwards and soon heard some noise as something charged out from ahead.

Zhao Fu held his sword and stopped as he looked ahead seriously.

The aura coming from ahead was very powerful and surpassed Zhao Fu's Cultivation. It was at the Great Earth Realm and there were many sounds.

Soon, a group of tall Ogres with fangs appeared in front of Zhao Fu.

Seeing these Ogres, Zhao Fu was not too surprised because of the bones outside. He had guessed that the creatures inside were Ogres.

Seeing Zhao Fu, the ten or so Ogres savagely smiled and licked their lips; they evidently thought that Zhao Fu was some delicious food delivered right to their lips.

After seeing Zhao Fu, the Ogres did not hesitate and took out clubs, axes, and hammers. They gave off powerful auras as they rushed at Zhao Fu; to them, these geniuses' blood and flesh were the most delicious meal in the world.

Facing these incoming Ogres, Zhao Fu's expression was calm as he held the Sadistic Killing Sword and did not move from the spot, and the Sadistic Killing Sword gave off a faint blood-red light.

The first Ogre quickly reached Zhao Fu, raised its stone hammer, and gave off mountain-shattering power as it slammed towards Zhao Fu.

Shing!

Zhao Fu did not move as he swung out with his sword, and a blood-red crescent flashed out. The Ogre's body stiffened as its stone hammer was cut apart with a clean cut, and the Ogre's body also fell in two halves.

The other Ogres gave furious expressions as they also ferociously charged at Zhao Fu. Zhao Fu's expression was cold as he leaned forwards and also rushed out.

An Ogre raised its club and swung it at Zhao Fu, while Zhao Fu slashed out and sent out a blood-red sword light that cut off this Ogre's head. Blood sprayed everywhere and the Ogre's corpse fell to the ground.

At that moment, another Ogre rushed at Zhao Fu from his left and gripped a large axe, which it swung down towards Zhao Fu.

In response, Zhao Fu dodged to the side, causing the axe to miss and slam into the ground. The massive power behind the axe opened up a large crater, causing rocks to fly everywhere.

Zhao Fu grasped this opportunity to shoot forwards, and his sword gave off blood-red light as it stabbed out and pierced into the Ogre's heart, killing it instantly.

Another Ogre appeared behind Zhao Fu and furiously raised its club as it bashed it towards Zhao Fu.

Chapter 1636 Chief

Zhao Fu spun and slashed out a sword light, cutting the club and Ogre in half.

"Roar! Roar!" two Ogres held up their weapons and loudly roared as they rushed at Zhao Fu from his left and right.

Zhao Fu swung out with his sword, sending out a massive blood-red sword light that sent the two Ogres flying. They slammed against the walls, causing the walls to crack. There were deep gashes on their chests and their auras became incredibly weak; it seemed that they would die soon.”

“Roar!” A powerfully-built Ogre grasped this opportunity to leap forwards, and it gripped its massive axe with both hands as it hacked down at Zhao Fu, causing the axe to give off a powerful sharp light.

Bang!

Just as the massive light was about to strike Zhao Fu, a powerful black dragon inscription barrier appeared around Zhao Fu. The sharp light hit the barrier, resulting in a massive sound, and a few small cracks appeared on the barrier.

Zhao Fu looked up at the Ogre and the black and blood-red sword pupil in his left eye shot out a few traces of sword qi that shot into the Ogre’s body.

“Arghh!” the Ogre roared as countless rays of sword light pierced out from within its body, and it fell from the air.

After dealing with this Ogre, Zhao Fu rushed at the remaining Ogres.

Soon, Zhao Fu had dealt with all of the Ogres and he continued onwards, but more Ogres rushed out.

Zhao Fu’s expression did not change and he held the Sadistic Killing Sword as he once again began to kill. After a while, Zhao Fu easily finished off these Ogres, turning them into corpses. Blood covered the ground and gave off a pungent stench.

Smelling this stench, a furious roar sounded out from within the depths of the cave, accompanied by a flood-like aura.

Soon, a three meter tall Ogre with blood-red skin and holding a club appeared in front of Zhao Fu; this Ogre had World Realm strength.

Sensing this Ogre Chief's aura, Zhao Fu's expression became somewhat serious. World Realm experts were not easy to deal with, and this Ogre was an Ogre Chief.

"You bastard, you killed so many of my people; I'll definitely eat you," the Ogre Chief looked at Zhao Fu savagely as he roared.

Zhao Fu coldly smiled as he said, "You can try and see if you can eat me."

The Ogre Chief furiously swung his club, causing a massive explosion to sound out as he attacked Zhao Fu, and the entire passageway started to crack.

Zhao Fu felt quite startled and stretched out a hand, unleashing the black dragon inscription barrier.

Bang!

As the force from the club slammed into the barrier, a loud sound rang out as the barrier trembled and became covered with cracks.

Zhao Fu's expression became serious as he sensed how powerful the Ogre Chief was.

Moreover, this passageway was not a suitable place to fight; if they were not careful, the entire cave could collapse. A single attack from the Ogre Chief had caused the walls to become covered with cracks.

The Ogre Chief gave off immense power as he quickly rushed at Zhao Fu, and Zhao Fu unleashed his own power as a black aura flame erupted around him and he shot at the Ogre Chief.

The two of them quickly closed the distance and the Ogre Chief raised his club and vigorously swung at Zhao Fu. Zhao Fu forcefully slashed out in response, sending out a massive black sword light.

Boom!

The two attacks collided, causing a massive explosion to sound out as a shockwave blasted out, causing the ground to crack.

The Ogre Chief's expression was savage as he roared and pressed down with its club towards Zhao Fu. Zhao Fu gripped his sword and tried to resist, but he was gradually pushed back.

Even though Zhao Fu had various terrifying powers, which made it quite easy for him to deal with a Great Earth Realm Cultivator, against a World Realm expert who could easily control Heaven and Earth Power, it was still somewhat difficult for him. This was especially so given that the Ogre Chief was no ordinary World Realm expert.

The main reason was because his cultivation was too low; if Zhao Fu had World Realm Cultivation, he would be able to kill this Ogre Chief in just a few blows.

"Hahaha, I'll have a good taste of your flesh," the Ogre Chief said as he savagely laughed. It exploded out with even greater power and continued pressing down with its club.

Bang!

A muffled explosion sounded out as Zhao Fu slid back ten meters before stopping, and two grooves were left on the ground.

In the next second, the Ogre Chief appeared in front of Zhao Fu and raised his club before swinging it at Zhao Fu with great power.

Zhao Fu felt quite startled and immediately unleashed a barrier.

Bang!

An explosion sounded out as the barrier was instantly shattered by the Ogre Chief, and he was sent flying back, a trace of blood leaking out of his lips.

Seeing this, the Ogre Chief loudly laughed and quickly rushed at Zhao Fu.

Zhao Fu decided to get serious and he released all of his Divine Bloodline's power, causing Divine Power to explode out. The black aura flame around him became many times bigger and he slashed out a massive blood-red sword light towards the Ogre Chief.

The Ogre Chief's expression fell, and he blocked it with his club as he also released a massive energy that formed a barrier.

Bang!

The blood-red sword light ferociously slammed into the Ogre Chief's energy barrier, completely inundating it. Following this, the Ogre Chief was sent flying back and slammed into a wall, causing a large crater to appear.

A trace of blood leaked out of the Ogre Chief's lips, and his expression became savage as his entire body gave off a blood-red light and a terrifying aura flowed out of his body.

Zhao Fu did not feel any fear and started to use various powers, causing aura flames to continuously rise around him and give off wild gales.

"Father, we're here to help you!" As the two of them were about to clash again, three tall Ogresses with mature figures, snow-white skin, and beautiful looks rushed out. One had a domineering aura, one had a playful aura, and one had a barbaric aura. Because they had fangs, they all looked quite savage, and they charged out from another passageway.

Seeing their father injured, they could not just watch, and they charged out as they attacked Zhao Fu. Their cultivations were not weak, and they all had Great Earth Realm Cultivation.

The Ogre Chief's expression fell; he knew that his three daughters were not a match for Zhao Fu and he hurriedly yelled, "Don't go over there!"

However, it was already too late. The three Ogresses were right in front of Zhao Fu and were about to attack him.

Zhao Fu had wanted to kill them, but seeing how much the Ogre Chief cared about them, an idea arose in his mind.

Chapter 1637: Crystal Screens

Zhao Fu stood there without moving and not only lowered his defenses but closed his eyes. Seeing this, the three Ogresses gave savage smiles and raised their weapons as they attacked.

They were completely certain that they could kill this person in front of them, and they would be rewarded by their father for this. They had heard that the flesh of geniuses was not only incredibly helpful to them but also extremely delicious.

However, it was very rare for them to taste such flesh because those who participated in Outlander Ten College's examination could leave the secret realm at any moment if they were in grave danger, making them directly vanish.

Moreover, they could enter again afterwards, but they would lose one-third of their points, which would be given to whoever defeated them. The secret realm creatures could also gain points.

However, the points were useless to them and were instead harmful. After all, anyone who killed them would be able to obtain one-third of the points that they possessed.

If participants left the secret realm a second time, they would lose all of their points and would not be able to enter again.

This made it so that geniuses were incredibly difficult to kill. As such, they had never eaten a genius's flesh before and had only heard of it before.

Now, if they could kill Zhao Fu, they would be able to taste his flesh. They felt quite excited and wondered what the flesh of a genius would taste like.

Right as the three Ogresses were about to hit Zhao Fu, Zhao Fu's closed eyes opened and black light shined out.

Zhao Fu's eyes had become blood-red coloured and his two pupils had become black, rose-like flowers that gave off a dark and evil feeling.

The three Ogresses' hearts trembled as they felt as if the light in the surroundings disappeared and they fell into darkness. Before they had time to be terrified, vines wrapped around their bodies and pulled them into an eternal darkness.

In reality, the three Ogresses stood transfixed as their eyes became pitch-black, and they returned to normal after a while.

Zhao Fu smiled as he looked at the Ogre Chief and said to the three Ogresses, “Kill him!”

The three Ogresses turned and gave off terrifying auras as they rushed at the Ogre Chief and started to attack him.

The Ogre Chief angrily cursed, “You shameless bastard!”

Zhao Fu did not care and lightly laughed as he said, “You think I’d talk about ethics with you? If you eat me, who am I supposed to talk about ethics with?”

Under Zhao Fu’s control, the three Ogresses ferociously attacked the Ogre Chief. The Ogre Chief could only passively defend – if he attacked, he would definitely hurt the Ogresses. Zhao Fu ordered the Ogresses to only attack and completely disregard defending.

The Ogre Chief could not bear to attack and was quickly injured. After blocking an attack from two Ogresses, he was hit by the remaining one and was sent flying.

Before the Ogre Chief could ready his defenses again, a terrifying sword light sent him flying once again.

The Ogre Chief crashed onto the ground, a deep wound on his chest from which blood continuously flowed out, and his aura weakened.

Zhao Fu held the Sadistic Killing Sword and slowly walked towards the Ogre Chief.

The Ogre Chief’s expression was quite unsightly; with his wounds, he was no longer a match for Zhao Fu and would definitely die at his hands. After he died, his three daughters would also die horrible deaths.

“Don’t kill me! I’ll submit to you,” the Ogre Chief said.

Zhao Fu coldly laughed, “I’m not interested!”

The Ogre Chief’s heart sank and he hurriedly said, “I know the locations of two God Temples that have powerful treasures. If you’re willing to spare me, I’ll tell you where they are. Moreover, the two places both need special measures to enter; without me, you definitely won’t find them.”

“Two God Temples?” Hearing this, Zhao Fu stopped and thought to himself before agreeing to spare the Ogre Chief. He waved a hand, and sent restrictions into the Ogre Chief’s body.

The Ogre Chief let out a breath of relief and sat down as he started to recover from his wounds.

Zhao Fu felt that it would take the Ogre Chief a long time to recover, so he looked at the three Ogresses and their mature figures.

A black energy barrier spread out, which prevented any outsiders from seeing anything within. Zhao Fu knew about the viewing platforms, and he brought the three Ogresses into the energy barrier.

Zhao Fu no longer controlled the three Ogresses, causing them to go back to normal. They tried to attack Zhao Fu, but Zhao Fu had long since set down restrictions within their bodies, making it so that they were unable to attack him. Zhao Fu did not hold back and took off their clothes as he started to ravage them.

The three Ogresses sank into pleasure and had never thought that they would feel so good doing it with someone who they had only seen as food.

The Ogre Chief’s expression became somewhat unsightly, as he could hear the three women’s lewd voices from within the energy barrier, but he was unable to do anything about it. Perhaps he could rely on Zhao Fu and ask him to take him and his daughters out of the secret realm so that they would no longer have to live in fear.

Thinking about that, the Ogre Chief did not care anymore and closed his eyes as he continued to recover from his injuries.

A few people on the viewing platforms could not help but curse out; they were the ones who were spectating Zhao Fu. Because there were over 10,000 viewing platforms and around one million people on each viewing platform, the crystal screens could not possibly satisfy everyone.

Some people liked watching this while others liked watching that. The crystal screens publicly showed the top-ranking people, and if people wanted to see other things, they needed to send their consciousnesses into the crystal screens so that they could choose who they wanted to see.

Those people had inadvertently started watching Zhao Fu and felt somewhat interested in his battle with the Ogre Chief, but they had never thought that things would turn out like this.

Zhao Fu then ravaged the three beautiful and savage Ogresses, but Zhao Fu did not show them. They could only hear the three Ogresses' lewd moans but could not see or touch anything, making them feel quite angry.

They felt that this was not a big deal. They just wanted to watch and not join in, and yet that person did not even show them.

They all had reactions but were given no satisfaction, and they all wanted to beat Zhao Fu up and take the three Ogress to taste for themselves.

After a while, Zhao Fu and the three red-faced Ogresses came to a blood pool.

Chapter 1638 God Temple

This blood pool was called the Ogre Blood Pool, and they would throw the corpses of Ogres into here. The blood pool would refine their corpses into blood water, and other Ogres could bathe in the blood water to absorb their power.

Zhao Fu waved his hand and a black energy barrier once again spread out; Zhao Fu did not want others to learn of his secrets. The totems on his back appeared, and they would be enough to scare anyone.

After taking off his clothes, Zhao Fu entered the Ogre Blood Pool; Zhao Fu wanted to absorb the essence from countless Ogres and obtain an Ogre totem.

Currently, Zhao Fu had 23 totems and there were 34 races within the Outlander Race. Zhao Fu still needed 11 totems, and if he could obtain all of the races' totems, he would definitely be able to awaken the Outlander supreme Emperor Star.

If Zhao Fu could awaken the Heaven Awaken World's Eight Major Race's Emperor Stars, and adding on his own Chaos Imperial Star, he would have nine Emperor Stars. Just thinking about that, anyone would be shaken.

Moreover, he also had to take care of matters in the Outer World. He couldn't just obtain something as heaven-defying as the Eight Forbidden Blood Art and not do anything with it.

When the time came, Zhao Fu would also have eight Origin Stars, the Outer World's eight suns. That would make the scene even more majestic.

Of course, this was all to come in the future. Right now, Zhao Fu bathed in the blood pool and absorbed its power.

The people viewing Zhao Fu once again felt quite displeased; now, there were even more people paying attention to Zhao Fu.

"Fudge, why did that boy release a barrier again? Don't tell me he's doing it with those three Ogresses in the blood pool. I want to beat him up for not letting us watch."

"That guy's a bastard. Even if he enjoys them himself, he should at least let us watch. If it wasn't for the fact that his adventure was quite interesting, I wouldn't bother watching him."

"I feel that this person is quite special and mysterious, and perhaps his background is not simple. I feel that it's worth continuing to watch him; we might be surprised."

"I agree. Even though we're not there, I can sense that that boy is quite powerful. Ordinary Harmony Realm experts would be completely oppressed by World Realm experts and yet he could put up a good fight. That Ogre Chief was not weak at all."

Countless traces of power entered Zhao Fu, causing his body to once again go through changes. However, the effects were quite weak because Zhao Fu's bloodline was simply too powerful. After all of the blood water disappeared, Zhao Fu once again felt a pain on his back as a blood-red Ogre totem appeared and gave off a faint blood-red light.

Looking at the dense totems from different races on Zhao Fu's back, the three Ogresses felt quite shocked and they felt immense respect for him. This kind of person would become very terrifying.

After putting on his clothes, Zhao Fu dispelled the barrier. By now, the Ogre Chief had finished recovering from his wounds and he planned to have him take him to the two God Temples.

Of the three Ogresses, the one with the domineering aura was the big sister Shi Gu, the one with the playful aura was the second sister Shi Long, and the one with the barbaric aura was the third sister Shi Ye.

Hearing that Zhao Fu was not planning on bringing them, they angrily called out, “Why aren’t you bringing us? You played with our bodies and made us get addicted and yet you want to leave us here? No way, we want to leave with you and want you to do us every day.”

Hearing this, Zhao Fu lightly smiled and said, “You’re too weak and it’ll be troublesome if I bring you with me. What I’m going to do is quite dangerous, but I’ll take you with me after.”

Shi Ye lightly harrumphed and said, “I don’t care, I want you to do me in all sorts of ways right now. Even if you don’t agree, I’ll take what I want myself.”

Zhao Fu looked at the Ogre Chief, who understood Zhao Fu’s intentions and how dangerous things would be. He said with a cold expression, “You’d best all behave yourselves and go back to the cave.”

Seeing how cold their father’s expression was, the three Ogresses felt a bit of fear and dissatisfiedly returned to the cave.

“Apologies, sir, my three daughters are not very sensible; please don’t mind them,” the Ogre Chief said as he apologetically smiled.

Zhao Fu smiled and nodded and did not mind much.

Following this, Zhao Fu came with the Ogre Chief to a sparse area. There was nothing here except broken rocks and a ruined stage at the center, which did not look special at all.

The Ogre Chief brought Zhao Fu to the stage and took out two statues. One was a Centaur dressed in armor and holding a spear, and the other was a Pigman dressed in armor and also holding a spear. They were both made of stone and gave off powerful auras.

The Ogre Chief put the two statues next to each other and they gave off a powerful aura as they raised their spears and a white door of light appeared.

No wonder the Ogre Chief said that no one would discover these God Temples; since the keys were in his hands, how could anyone else discover them?

“Sir, this is the entrance to the God Temples,” the Ogre Chief said as he smiled.

Zhao Fu nodded and said, “Come with me!”

The Ogre Chief was quite strong and would be of some help, and he would not be a burden to him.

Hearing this, the Ogre Chief nodded and the two of them stepped through the door of light.

After entering the door of light, two God Temples appeared in front of them. They were standing on flat ground that floated in the air, and they were surrounded by a blue sky and white clouds. The two God Temples were incredibly majestic and were next to each other.

砰砰砰...

Zhao Fu looked at the Ogre Chief and asked, “Do you know what is inside?”

The Ogre Chief shook his head, “I only came here once in the past but felt that it was too dangerous so I did not continue. However, my guess is that there are two powerful godly spirits; I could sense their power.”

Zhao Fu nodded and brought the Ogre Chief to the Pigman God Temple.

There was a row of Pigman soldier statues in front of the Pigman God Temple. Their appearance and size were similar to the statues from before, but their auras were more powerful.

As Zhao Fu and the Ogre Chief came forwards, the statues seemed to come to life and rushed at them with powerful auras.

Facing the incoming statue soldiers, Zhao Fu stood where he was and did not move.

The Ogre Chief understood and exploded out with a powerful aura as he gripped his club, blocked in front of Zhao Fu, and attacked with immense destructive power.

Bang! Bang! Bang...

The statue soldiers were destroyed by the Ogre Chief, resulting in large sounds and bits of stone flying everywhere.

Chapter 1639 Pigmen Soldiers

Zhao Fu did not have to act as the Ogre Chief was able to quickly deal with the incoming statue soldiers. Zhao Fu gave a pleased smile and brought the Ogre Chief into the Pigman God Temple.

After walking in, they saw more soldiers. However, these were no longer statues but real Pigmen. They gave off powerful auras and looked at Zhao Fu and the Ogre Chief.

“Intruders must die!” the Pigmen soldiers simultaneously shouted out vigorously, shaking the surroundings.

“Sir, there are too many of them,” the Ogre Chief said as he looked around. There were at least 1,000 of them, and they all had Great Earth Realm Cultivation. As a World Realm Cultivator, the Ogre Chief felt quite intimidated.

Zhao Fu’s expression did not change and he said calmly, “Step back for now, I’ll take care of this.”

“Kill!” the 1,000 Pigmen soldiers roared as they rushed at Zhao Fu like a destructive flood.

They were incredibly fast and looked like they would soon reach Zhao Fu, making the Ogre Chief feel quite nervous.

Boom!

At that moment, Zhao Fu exploded out with a powerful aura as a ten meter tall black aura flame rose up around him, causing a wild gale to spread out.

Bang!

Zhao Fu squatted down and pressed his palm against the ground, causing a massive power to explode out. A black, rose-like magic formation appeared as black aura instantly spread out and covered the ground.

The Pigmen soldiers continued to charge and did not notice anything wrong. At that moment, Zhao Fu looked up and his eyes became blood-red colored and his pupils became rose-like flowers that gave off a devilish black demonic light.

All of the incoming Pigmen froze and the black aura covering the ground entered their bodies as if it had a life of its own.

The countless Pigmen were unable to resist as their surroundings fell into darkness and they were dragged by vines into a dark abyss. Their eyes became black, and after a while they returned to normal.

Seeing this, the Ogre Chief became greatly dismayed and had never thought that Zhao Fu's power would be so terrifying, being able to instantly take control of 1,000 Great Earth Realm Pigmen. After all, he only had Harmony Realm Cultivation.

Now, there were even more people paying attention to Zhao Fu and they all looked shocked. What kind of power could instantly take control of 1,000 people with higher cultivation than him?

Before, they had not been too surprised to see Zhao Fu take control of the three Ogresses because various strange powers could achieve such a thing. However, this was over 1,000 Great Earth Realm Pigmen, showing how terrifying this power was.

What they did not know was that when Zhao Fu summoned the Demon Lord Star and used the Evil Flower Bewitching World's power, it was even more terrifying and that he could take control of an entire world's people. Zhao Fu had used this when awakening the Demon Lord Star before, but he had not used it ever since because once he did so, his identity would definitely be exposed.

Controlling 1,000 Great Earth Realm Pigmen was not very easy for Zhao Fu, and he felt much pain in his eyes as two traces of blood ran down from his eyes.

However, paying such a price to control these 1,000 Pigmen was worth it.

The Pigmen stood fixed on the spot with dumb looks, and Zhao Fu led them into the main hall of the God Temple.

Within the hall was a tall stage on which was a throne. Upon the throne sat a beautiful and voluptuous woman with short hair and a pair of snow-white pig ears, and she was wearing armor and gave off a powerful aura.

Beside her were two guards dressed in armor. They held spears and had seductive figures and pretty looks. They had pig ears, pig tails, and two fangs in their mouths, making them look somewhat savage.

When Zhao Fu walked in, the three of them slowly opened their eyes, and seeing this scene, they looked somewhat shocked.

The Pigmen soldiers who were responsible for guarding the God Temple seemed to be standing with the intruders and no battle had happened between them. What was going on? These soldiers were the most loyal soldiers, so how could they have betrayed them so easily?

“Why have you all betrayed our god? Don’t you know this is an unforgivable crime. You should be ashamed,” a guard said coldly to the Pigmen.

However, the Pigmen expressionlessly stood by Zhao Fu’s side and did not move or make any sound, making the atmosphere quite awkward.

Seeing this, the guard looked quite angry and prepared to say something else.

Zhao Fu smiled and somewhat domineeringly cut her off, “Alright, there’s no need to say anything else. I hereby declare that you are all mine. It’s best that you show some tact and leave with me obediently, and help me clear out the God Temple next door.”

The Pigman Goddess on the throne gave a beautiful smile as she said, “Boy, you speak quite overbearing. Do you know that We are a godly spirit, someone who is worshipped by countless people? We are not an existence that can be blasphemed against by the likes of you.”

Zhao Fu did not care and smiled as he said, “Don’t give me all that. To me, godly spirits are just some powerful people. I’ve slept with many godly spirits like you.”

The Pigman Goddess’ gaze became cold, and she disappeared from the throne before reappearing in front of Zhao Fu. She took out a large saber and gave off an immense power as she slashed towards Zhao Fu.

Zhao Fu also exploded out with power as he raised his sword and blocked.

Clang!

A metallic collision sound rang out as sparks flew everywhere. Zhao Fu was forced back a few steps, as the Pigman Goddess’ strength was at the peak of the World Realm.

Seeing how she had pushed Zhao Fu back, the Pigman Goddess condescendingly laughed, “Boy, you dare to be so arrogant despite being so weak?”

Zhao Fu was not angry and did not continue to fight with the Pigman Goddess as he had a way of dealing with her. He smiled, retreated within the army of Pigman soldiers, and said, “Kill her!”

The Pigmen soldiers’ gazes all fell on the Pigman Goddess, and they exploded out with powerful auras, causing the Pigman Goddess’ expression to fall. She tried to take control of the Pigman soldiers, but there was no reaction.

“Kill!” the Pigman soldiers roared as they madly attacked the Pigman Goddess. Sharp rays of light containing terrifying power shot out, too many to count.

The Pigman Goddess immediately released a white energy barrier, blocking those countless attacks. However, the attacks of over 1,000 Pigmen soldiers were incredibly terrifying, and even though they were unable to break the Pigman Goddess’ defenses, they still created countless cracks on the barrier.

Chapter 1640 Pigman Goddess

“Our God, we will help you,” the two guards cried out and gave off powerful auras as they rushed over.

Zhao Fu smiled as he looked at the Ogre chief and said, “I’ll leave them to you. You can deal with them, right?”

The Ogre Chief smiled and nodded; the two guards’ cultivations were only at the peak of the Great Earth Realm and were a trace away from breaking through to the World Realm. However, the Ogre Chief had been a World Realm Cultivator for a long time, and he was enough to deal with the two of them.

Boom!

The Ogre Chief laughed as he exploded out with a powerful aura and rushed at the two guards. They quickly started fighting and cold lights shot everywhere, resulting in shockwaves spreading out.

Chi, chi, chi...

The Pigman Goddess slashed with her large saber, sending out a massive saber light that cut ten or so Pigman soldiers in half, causing blood and organs to spill over the floor.

However, hundreds of sharp lights flew out, and the Pigman Goddess sent large amounts of power into her saber, causing it to give off intense light as she vigorously slashed out.

“Roar!!” A white boar made of saber light gave off a terrifying power as it rushed towards the countless incoming lights, destroying them. It then charged into the group of Pigmen soldiers and smashed dozens of Pigmen soldiers into mush.

However, the remaining Pigmen soldiers did not show any fear and continued to give off powerful auras as they madly rushed up.

The Pigman Goddess held her saber as she spun and a sharp saber light sent the incoming Pigmen soldiers flying back.

However, the remaining Pigmen soldiers continued to charge up. Ten or so Pigmen soldiers leapt up before hacking at the Pigman Goddess.

The Pigman Goddess could only unleash an energy barrier to block these ten or so Pigmen soldiers' attacks.

Bang! Bang! Bang...

All of the Pigmen soldiers sent a large amount of power into their weapons and slashed out cold lights that slammed against the energy barrier.

Crack!

A clear cracking sound could be heard as the energy barrier shattered after taking so many attacks. It turned into motes of white light and dissipated.

The closest Pigmen soldiers grasped this opportunity to rush up, and one of them held a spear and stabbed towards the Pigman Goddess' head.

The Pigman Goddess slashed out with her saber, sending that Pigman soldier flying back.

Another two Pigmen soldiers attacked from the left and right, sending two rays of cold lights towards the Pigman Goddess. The Pigman Goddess swung her saber, chopping those two Pigmen soldiers in half, causing blood to fly everywhere and dye the ground red.

Chi!

At that moment, another Pigman soldier held an axe and hacked towards the Pigman Goddess' back. The Pigman Goddess was unable to react in time and was hit by the axe, causing her to stumble forwards. A gash appeared on her back, from which blood continuously flowed out.

The Pigman Goddess looked pained and she slashed backhanded, cutting that Pigman soldier into pieces.

Chi!

A Pigman soldier ferociously rushed up and attacked the moment that the Pigman Goddess had just killed the previous soldier, slashing her on the shoulder.

The Pigman Goddess sent that Pigman soldier flying with a kick and slashed out with her saber, killing the other Pigmen soldiers rushing up. However, only fewer than 100 Pigmen soldiers had died, and the remaining ones continued to rush at the Pigman Goddess.

“Arghh!” After receiving a few more wounds, the Pigman Goddess furiously roared and exploded out with all of her power. The Divinity within her continuously trembled as countless rays of white light shot out of her body, causing a powerful godly aura to spread out.

However, at that moment, the Pigmen soldiers gripped their fists and terrifying auras rose up off their bodies.

Boom!

All of the Pigmen soldiers punched out and the terrifying auras coming out from their bodies instantly gathered into a massive fist that contained great power as it shot towards the Pigman Goddess, resulting in a massive explosion.

Bang!

The Pigman Goddess had just exploded out with power and was unprepared as she was sent flying by the massive fist. She flew backwards dozens of meters and crashed into a wall, causing it to crack. The Pigman Goddess coughed up a large mouthful of blood and her aura weakened as she was now heavily injured.

On the other side, the Ogre Chief had severely wounded the two guards. They were covered with blood and their auras were incredibly weak.

Zhao Fu lightly smiled as he came up to the Pigman Goddess and said somewhat mockingly, “Glorious godly spirit, it seems that you’ve been defeated by your own soldiers.”

The Pigman Goddess looked furious and said, “You’re shameless!”

Zhao Fu squatted down and lifted up the Pigman Goddess' chin. Zhao Fu kissed her, and a large amount of Six Desire Demonic Qi flowed into her body.

The Pigman Goddess struggled at first, but soon she wrapped her arms around Zhao Fu's neck and passionately responded to him.

After a while, Zhao Fu stopped and the Pigman Goddess' face was completely red as she looked at Zhao Fu with great desire, stretching out her tender tongue as she breathed raggedly.

The people on the viewing platforms now understood how Zhao Fu had made the three Ogresses become so lewd. It seemed that this fellow was a perverted bandit who practised some kind of terrifying perverted Art. Everyone could not help but curse, "Shameless and despicable!"

However, they could not help but feel admiration and wonder what kind of Art was so powerful that no woman could resist it. Even the Pigman Goddess was acting so lewdly now.

Some of the more bold and lewd women could not help but imagine how pleasurable it would be doing it with Zhao Fu.

Some more traditional women were angered; they could not allow this kind of perverted bandit to harm others. Seeing how powerful Zhao Fu's Art was, they felt quite terrified that they would be turned into lewd women like this.

As such, they spread this information and told women to be careful against this person or else the consequences would be quite severe.

It was best not to keep such a perverted bandit and was best to kill him; keeping him around would be a disaster waiting to happen.

As they spread information about him, Zhao Fu became more and more famous. More people started to pay attention to him and knew that there was a shameless and perverted bandit participating in this examination, and he was not weak at all.

"Give it to me!" The Pigman Goddess wrapped her arms around Zhao Fu's neck as she pleaded with a reddened face and hazy eyes.

Zhao Fu lightly laughed and pressed her beneath him before a black energy barrier spread out. He then started to ravage the Pigman Goddess, and he dragged in her two guards as well.

This time, even the voices were blocked off, but anyone could imagine how intense the scene within the barrier was. The many men on the viewing platform could not help but curse out.

The women looked furious and said, “Go die, you perverted scum!”
