

The Lord 321

Chapter 321: Heavens Beyond Heavens

Zhao Fu had never expected to catch a gold divine fish so quickly, and the next few fish he caught were all silver divine fish. There was even another gold divine fish.

Even though Zhao Fu was away from most people, this was still seen by many people. When everyone they saw that a mysterious, black-cloaked figure was sitting on a small boat and using a branch-like fishing rod to continuously fish up silver and gold divine fish, everyone was amazed.

The people around him were already quite happy if they could even catch ordinary divine fish, and they couldn't even dream of catching silver and gold divine fish like Zhao Fu. Many people thought that it was because the area he was in was quite good, so they all started to move towards Zhao Fu.

Soon, more and more boats appeared around Zhao Fu. As expected, most of them had better gains here. Even though they didn't catch any rare divine fish, catching ordinary divine fish already made them overjoyed.

All of these ordinary divine fish were essentially attracted over by Zhao Fu's bait, so these people also benefited. At first, Zhao Fu didn't mind because these slight gains didn't amount to much.

However, as more and more boats gathered, it became noisier and noisier, affecting Zhao Fu's fishing. The number of gold divine fish gradually decreased until he ended up catching a blue divine fish.

As such, Zhao Fu used his King's Power to move his boat elsewhere. To the other people, a black aura covered the boat, moving it along. This shocked many people – they had never thought that the black-cloaked figure would be a powerful expert.

They knew that a person like Zhao Fu couldn't be easily angered. As long as they had divine fish to catch, they would be happy.

However, after Zhao Fu left, they started to catch less and less divine fish until they altogether stopped appearing, and many people started to move away.

Some sharp-eyed people spotted Zhao Fu at another section of the lake and saw him catching silver and gold divine fish, so they all went over and found that there were divine fish over here.

Soon, many boats gathered again, causing Zhao Fu to frown because they had once again started to affect his fishing.

As such, Zhao Fu could only move his boat towards an even more remote place. After Zhao Fu left, the number of divine fish in that area once again decreased.

Those who were smart realized that something was going on and started to follow Zhao Fu around. This annoyed Zhao Fu – if they didn't affect his fishing, he wouldn't care if they indirectly benefited, but they were greatly interfering with his fishing!

"If you continue following me around, I'll kill all of you!" A massive aura burst forth, seeming to freeze the surrounding space as a cold voice sounded out, causing countless people to burst out in cold sweat.

Nevertheless, a loud voice called out, "What right do you have? This lake isn't owned by you; we can go where we want. Who are you to tell us where we can and can't go?"

Zhao Fu didn't bother replying to him, and a sword light flashed out, splitting that person and his boat in half. A bloody and gory smell immediately spread out, sending a chill through everyone else's hearts.

Zhao Fu continued moving away, and no one else dared to follow along, allowing Zhao Fu to fish in peace again.

After every two or three silver divine fish, Zhao Fu would catch a gold divine fish, and this was many times greater than his gains from the previous night. However, before Zhao Fu could start to feel happy, a few large boats started to move towards him.

Many people had told the large families about Zhao Fu, so they started to move towards him.

There was a ferocious-looking big man standing on the boat in the lead, and seeing Zhao Fu continuously catch silver and gold divine fish, he felt quite surprised and said in an amicable tone, "Brother, the Azure Tiger Gang is willing to buy your secret for \$5 million in the real world. The Azure Tiger Gang will definitely treat you well in the future."

How could Zhao Fu be tempted by \$5 million? No matter how much money they offered, he wouldn't hand over his secret, so Zhao Fu ignored that person and continued fishing.

When he saw that he had been ignored, the big man felt quite angry – his attitude had been quite good, and he had planned to use a carrot and stick approach. He had never expected this person to be so discourteous, and no one in this region dared to treat him so disrespectfully. The big man's face immediately darkened.

"Haha..." another boat came over, on which a well-built man with a beard stood and laughed loudly.

"You want to buy such a secret with just \$5 million? What a joke! Brother, I'll buy your secret for \$50 million." The middle-aged man's laugh had a sense of heroism to it.

When he heard this, the ferocious-looking big man felt quite angry, and just as he was about to say something, another boat came over.

There was a beautiful woman who gave off a cold aura, and she said, "Friend, the Zhao family is willing to pay the same amount of money to buy your secret."

This made the ferocious-looking big man's expression even uglier.

"How lively! Who would have thought that all of you would be here; the Zhu family also wants to join in." a frivolous looking man said in a carefree tone while standing on another large boat.

The four boats all gave off powerful auras, and none of them were willing to back down. However, the main character, Zhao Fu, completely ignored all of them.

Suddenly, he felt a massive tug on the fishing line, causing it to immediately go taught. Zhao Fu felt that something big had bitten the bait, and it was very strong as it struggled in the water, resulting in massive splashes, trying to drag Zhao Fu away with it.

If it was a normal fishing rod, the line would've long since broken. Zhao Fu gripped the fishing rod with both hands and used all of his strength to raise the fishing rod.

A large fish broke through the water, and it looked a lot like whitebait. It was one meter long and 15 centimeters wide, and it shined with a faint violet light.

The appearance of this violet divine fish shocked everyone present, and those around had never expected Zhao Fu to be able to catch a violet divine fish.

After being raised by Zhao Fu out of the water, the violet divine fish turned into countless motes of light that entered Zhao Fu's body, and the violet divine fish gave him a Fish Jewel.

"System announcement! Congratulations, you have caught a violet divine fish. You have received 800 Divine Fish Points."

Anyone who could catch a violet divine fish would definitely make massive gains in this festival, and the muscular bearded man immediately said, "Friend, I'm willing to pay \$100 million to buy your secret. I sincerely invite you to join the Jin family."

The ferocious-looking big man also yelled, "Brother, the Azure Tiger Gang also sincerely invites you to join."

The cold-looking woman also looked quite shocked and said, "Friend, if you're willing to join the Zhao family, we'll be willing to satisfy you completely."

The man from the Zhu family also extended a similar invitation.

Chapter 322: Lord Water Goddess

"How is this possible?" Zhao Fu could never have fathomed that the first-ranked reward, Heavenly Sword City, would have been claimed already. Only a single day had passed, and Zhao Fu simply couldn't believe that this had happened.

In the previous two events, Zhao Fu had always obtained the top prize. However, whether it was the Ten Thousand Flower Festival or the Ghost Festival, it had taken him two to three days to gather enough points to claim the first-ranked reward. He had no idea who it was that had spent only one day to claim the first-ranked reward, which was many times faster than him.

Before, Zhao Fu had wanted to obtain the first-ranked reward, but now, it seemed that this was impossible. He had overestimated himself and underestimated others.

"Ai!" Zhao Fu heavily sighed and felt quite dispirited. What could he do now?

After thinking about it, Zhao Fu had no good ideas. What had happened was simply too unexpected, and now, he wasn't sure if he could even obtain the second-ranked reward, the Universal Den.

“Your Majesty!” An elderly man walked over and paid his respects.

Zhao Fu remembered who this elderly man was – after building the Water Goddess Temple, he had placed this elderly man in charge of the temple.

“What is it?” Zhao Fu asked, feeling quite curious.

The elderly man immediately replied, “Lord Water Goddess said that she wanted to see Your Majesty!”

When he heard the elderly man, Zhao Fu felt quite confused – what did the Water Goddess want to see him for?

However, in the end, Zhao Fu decided to go over to take a look.

Soon, he arrived at the Water Goddess Temple. It was the same size as the City God Temple, and it had a main hall and front hall. After being established, many residents had gone to burn incense and pray.

When Zhao Fu entered the main hall, the Water Goddess Statue shined with a faint light as an image appeared before Zhao Fu. It was a woman wearing an ancient-style dress, and she had decent looks. She had a watery-aura about her and looked exactly like the Water Goddess Statue.

After receiving a lot of faith and being supported by Great Qin’s Fate, it had become much more powerful than before.

“This lowly one pays her respects to Your Majesty!” After the Water Goddess’s image appeared, it gently smiled and paid its respects to Zhao Fu.

Zhao Fu nodded before asking, “What did you want to talk to me about?”

The Water Goddess lightly smiled as it replied, “This lowly one wants to first thank Your Majesty for showing grace in taking me in. Also, this lowly one is able to help Your Majesty in the thing that is troubling Your Majesty right now.”

Zhao Fu felt quite surprised and asked what she meant. It turned out that the Water Goddess had control over all sorts of water-related matters, including aquatic animals. The Water Goddess could give him a blessing that increased his fishing rate.

Because the Water Goddess was still quite weak, Zhao Fu had to bring the statue with him for the blessing to take effect.

After he heard this, Zhao Fu didn’t hesitate, and he brought the Water Goddess Statue with him to the largest water source accessible by him.

Seeping River was one of the boundaries of the future Great Qin Empire, and the body of water here was thousands of kilometers wide. It stretched on as far as the eye could see. There were all types of fish monsters here, so ordinary people didn’t dare to come here. However, because of the festival, most of these fish monsters had been suppressed.

When Zhao Fu arrived, there were already many people fishing on the bank because most of them feared the fish monsters and didn’t dare to go into the water. Moreover, the suppression was quite weak, so it was possible for them to be attacked.

Zhao Fu didn't care much, and he took out his boat and placed it in the river. Just as he was about to enter, an elderly man saw him and tried to persuade him not to go because he would be risking his life.

Zhao Fu thanked the elderly man but had no other choice. If he didn't take some risks, he wouldn't even have a chance to obtain the Universal Den.

Zhao Fu covered the boat with his King's Power, and it quickly traveled across the water. The river was quite still and didn't have any ripples on the surface.

After traveling for some time, Zhao Fu arrived at the center of the river.

Zhao Fu took out the Water Goddess Statue, and after he took it out, it gave off a faint light that shined on the water – this was the Water Goddess casting its blessing.

Zhao Fu took out his fishing rod and bait and started to fish. After beginning, Zhao Fu felt quite impatient.

Suddenly, the fishing line was vigorously tugged, and Zhao Fu tightly gripped his fishing rod and lifted upwards. As Zhao Fu lifted the fishing rod, the fish desperately struggled, causing massive splashes. Soon, the divine fish was lifted out, and Zhao Fu saw that it was a violet divine fish.

However, this violet divine fish was different from the ones that he had caught in the past. It looked like a catfish, was the same size as the other violet divine fish, and was very strong.

Zhao Fu was quite happy that his first fish was a violet fish; this was most likely the effect of the Water Goddess's blessing. Afterward, Zhao Fu once again attached some bait and lowered the hook.

Soon, the fishing rod was once again tugged, and Zhao Fu lifted it up. This fish wasn't very heavy or powerful because it was only a gold divine fish.

Zhao Fu once again cast his line and caught a violet divine fish, delighting him. Now, Zhao Fu usually caught a gold divine fish then a violet divine fish. Sometimes, there would be three gold divine fish then four violet divine fish.

These gains were incredibly shocking, and the fish were biting even faster than at the previous lake. Zhao Fu also obtained many Fish Jewels, though they didn't drop every time.

Zhao Fu once again attached bait and cast his line, but this time, he felt quite surprised – this was because a fish hadn't tried to eat his bait after five minutes, making him wonder what was taking so long.

Zhao Fu raised his fishing rod and found that most of the bait had been eaten, surprising him. Seeing the small bite-marks, he guessed that it was a very small fish that had done this.

This time, Zhao Fu put on an extremely small fish as bait, and in half a minute, he felt a very weak and slight tug. Zhao Fu lifted his fishing rod and found that a small fish was on the other end.

The small fish was about as long as his finger and looked like a crucian carp, but it gave off an orange light. This tiny fish was actually an orange divine fish.

After the orange divine fish was lifted out of the water, it turned into countless orange motes of light and entered Zhao Fu's body.

"System announcement! Congratulations, you have caught a spirit crucian carp. You have received 1,500 Divine Fish Points."

Zhao Fu was overjoyed to have fished up an orange divine fish. However, this orange divine fish didn't give Zhao Fu a Fish Jewel, and he continued to fish.

Time quickly passed, and soon, it was the second night. Zhao Fu had stayed here for an entire day doing nothing but fishing.

After returning to the Great Qin Town, he received more chilling news!

Chapter 323: Shuten-Douji

At that moment, Zhao Fu was so angry that he almost started cursing out loud. The only thing that could make him feel like this was hearing that the Universal Den had been claimed.

Zhao Fu once again felt a heavy blow – apart from the first-ranked reward, he had greatly wanted the Universal Den because it was incredibly important to Great Qin. If he gave it to the Wyvern to conquer, it would allow him to quickly develop a flight of Wyverns.

Now, that plan had been completely destroyed. Zhao Fu had been in such a rush this entire time because of that Universal Den.

After that day at Seeping River, he had caught 4,797 divine fish and gained over 180,000 Divine Fish Points. Adding on what he had from before, he had roughly 250,000 Divine Fish Points.

Before, Zhao Fu had preserved a trace of hope that he would be able to obtain the Universal Den with the Water Goddess's help. After all, he was only 50,000 points away from being able to afford it. Who would have thought that he would hear such a thing after returning?

It seemed that he didn't have much fate with this festival. Right now, what Great Qin needed the most was the Universal Den, and now that he was unable to obtain it, Zhao Fu became dispirited.

On a grassy hill, a quiet girl lay on the grass and laughed happily as she tossed a mud-like object that kept changing shape upwards. This was the Legendary grade Universal Den, and this girl was Masanori Hano.

Masanori Hano looked at the Universal Den in her hand – she had never thought that she would obtain the second-ranked item because such items were usually claimed by the great Legatees and small figures like her never had a chance at obtaining such things.

She knew that many people most likely wanted such a thing, and she knew that if she sold it, she would obtain enough wealth for countless lifetimes.

However, Masanori Hano didn't want to sell it because she didn't lack money and no amount of money could make her sell the Universal Den. In actuality, she didn't greatly want it and had only bought it because she had happened to have enough Divine Fish Points to buy it.

She didn't quite understand the various stats and effects of the ten Legendary grade City Creation Stones, but she felt that the higher ranked ones would be better.

If Zhao Fu knew this, he would have been incredibly depressed – if Masanori Hano had chosen the third or fourth ranked reward, he would've been able to obtain the Universal Den.

However, that was how things had played out – after all, this festival was mainly for ordinary people, so luck usually favored them.

As such, even though Zhao Fu had an Epic grade fishing rod, especially valuable bait, and the help of a Water Goddess, he hadn't been able to obtain what he wanted.

Suddenly, Masanori Hano thought of something and took out a small statue that was about as big as her hand. The statue seemed to be made of jade and was black. It was a statue of an extremely handsome man dressed in ancient-style clothing who revealed his proud chest, and there was a katana at his side and two black horns on his head.

This statue looked as if it was alive, and it gave off a devilish aura. Most Japanese people would recognize it as Shuten-Douji, one of Japan's three great devils.

Masanori Hano had found this statue in a ruined temple and felt that it was quite a good statue, so she had kept it with her.

At that moment, the statue gave off a faint green light and seemed to come to life. Its eyes were filled with evil, and they seemed to look at Masanori Hano, causing her to feel a chill in her heart. Afterward, the statue gave off a formless energy, broke free from Masanori Hano's grasp, and hovered into the air.

At the same time, the Universal Den was also drawn up into the air, and the statue and the Universal Den started to slowly fuse.

The sky gradually darkened as black clouds gathered and a great wind started to blow, bringing rocks and grass into the air.

The statue gave off a bright green light, and the Universal Den gave off a bright violet light as they slowly fused together and became a green cube.

Boom! Boom! Boom!

Lightning descended as the green cube floated in the air, giving off a piercing green light. A massive devilish aura spread out, causing the air to become incredibly heavy.

Suddenly, a trace of green blood leaked out from the green cube, which was filled with an evil and devilish aura, and it fell on Masanori Hano's forehead.

Immediately, the drop of green blood entered Masanori Hano's body, and a massive wave of energy spread out as Masanori Hano's body trembled and shined with a brilliant green light.

Within the green light, Masanori Hano's body started to change. Her pretty face became beautiful to the point that it could bring the downfall of nations, her gentle aura became incredibly alluring, and she gave off an incredibly enchanting aura. Japan's first enchantress had appeared.

After obtaining this bloodline, a devil bloodline, her body had become a semi-devil body, and she had become many times more powerful.

The green cube slowly descended into Masanori Hano's hand and turned into a special City Creation Stone, and she also seemed to have become a different person.

Devil City Stone: Grade: Legendary, Description: A special City Creation Stone. All spawned residents will have some devil bloodline.

.....

A man in white carried a zither on his back as he went to a quiet bamboo forest. He was Liu Yubai and the person who had obtained Heavenly Sword City.

Right now, Liu Yubai's eyes seemed incredibly deep, and he seemed to be able to see everything. In fact, he could see even more clearly than a normal person.

During the first night of the Divine Fish Festival, Liu Yubai's eyes had miraculously been able to see, though this didn't cause many changes to him. It was as if he had always been able to see, and he calmly accepted his new sight.

The zither music that he played was simply too moving, and it sounded like celestial music, causing countless divine fish to leap out of the waters and turn into countless motes of light that streamed towards him.

On that first night, the dozens of meters around Liu Yubai had been covered with light as he continuously played the zither, his mind and mental state frighteningly calm and steady.

Suddenly, a zither sound had come from the sky that was incredibly beautiful and contained a trace of ancientness. No one else could hear this apart from Liu Yubai.

When he had heard this sound, his movements had paused as if he had received some sort of legacy, and he found out about the terrifying fact that the Heaven Awaken World would devour the real world in the future.

Liu Yubai didn't want to be caught up in these things, but it was unavoidable. As such, he decided to create a land where those who loved zithers could reside.

He pressed the City Creation Stone against the ground, and a clear sword hum sounded out as violet light rippled out. Liu Yubai was covered by a violet sword light.

Chapter 324: Gu Fish Kingdom

Liu Yubai obtained some sort of swordsman legacy, and his body started to give off traces of sword qi, making it so that no one dared to go near him for fear of being injured by the sword qi. At the same time, the aura he gave off became more powerful, and it became as sharp as a sword.

.....

“Your Majesty, the third-ranked reward, Battle King City, has been claimed,” a soldier walked into the hall and respectfully reported.

This news caused a slight change in Zhao Fu’s depressed expression. Since the Universal Den had been obtained by someone else, he had to change his plans, and he couldn’t let Great Qin’s development come to a halt just because of this. The road to the restoration of the Great Qin Empire wouldn’t be easy, and there would be greater setbacks in the future.

Zhao Fu deeply breathed in and calmed himself down. Since he couldn’t claim the third-ranked reward, Battle King City, anymore, he decided to set his eyes on Thousand Life City, which he was only 10,000 Divine Fish Points away from.

As a Legendary grade city, Thousand Life City’s stats definitely wouldn’t be weak, and it would still be something good to claim. Now that the top three rewards had disappeared, Zhao Fu was determined to at least obtain the fourth-ranked reward. After thinking about it, Zhao Fu headed to Holy Light City.

Zhao Fu quickly went to the Exchange Stone Stele and saw that the fourth-ranked reward, Thousand Life City, was still available. However, after seeing another item, Zhao Fu decided to give up on Thousand Life City.

[City Upgrade Stone]: Can be used to upgrade Gold grade villages to Legendary grade. Price: 400,000 Divine Fish Points.

With this City Upgrade Stone, he would be able to upgrade his own Universal Den to Legendary grade. Right now, Zhao Fu’s Universal Den was Silver grade, but he could gather ten damaged City Creation Stones to upgrade it to Gold grade before using a City Upgrade Stone to upgrade it to Legendary grade.

Between the Thousand Life City City Creation Stone and a Legendary grade Universal Den, Zhao Fu didn’t hesitate to choose the Universal Den. After all, a Legendary grade Universal Den was simply too important to Great Qin, and comparatively speaking, Thousand Life City wasn’t as powerful.

However, the City Upgrade Stone was simply too expensive, and it was 50,000 Divine Fish Points more expensive than the top-ranked reward. What’s more, there was only one.

Zhao Fu didn’t waste any time, and he immediately headed to Seeping River. If he didn’t hurry, it was possible that he wouldn’t be able to even obtain the City Upgrade Stone, and Thousand Life City might also be claimed.

This time, Zhao Fu borrowed Bai Qi’s fishing rod, which was made of a 500-year-old White Willow Tree. It was a Gold grade fishing rod, and its fishing bonuses weren’t bad.

A person could only equip two fishing rods, and for their effects to take effect, they had to be held in one’s hand. Otherwise, if one simply left a fishing rod there by itself, it would be unable to catch any divine fish.

Zhao Fu went to Seeping River and held a fishing rod with each hand, feeling quite worried. He anxiously waited for divine fish to bite and wasn't in the state of mind to cultivate.

In order to save time, Zhao Fu even summoned Celia to help with attaching bait – it was clear just how rushed Zhao Fu felt.

It wasn't just Zhao Fu; the other Legatees weren't doing too well either. It was the first time that they had felt things go so poorly for them, and no matter how hard they tried, they simply couldn't obtain great gains.

If even Zhao Fu was doing so much and receiving so little, how could any of the other Legatees be doing better? The top three City Creation Stones had already disappeared, and all of them felt quite anxious as they desperately tried all sorts of methods.

All of the Legatees guessed that it was Great Qin who had obtained Heavenly Sword City – after all, apart from Great Qin, it seemed impossible that anyone could obtain it so quickly. Right now, the Fate that Great Qin's Legatee possessed was simply enormous, and the scene of the Chaos Imperial Star's descent was still etched into their minds.

Zhao Fu felt quite annoyed – he had continuously suffered setbacks during this event, and he was quite displeased with his gains.

.....

On a mountain, a handsome-looking young man wildly laughed as he yelled, "Zhang family, Li family, Qian family, everything that you've done to my Gu family will be returned a hundredfold in the future!"

This young man was named Gu Qingyang, and he was the owner of Battle King City.

The Gu family was a decent-sized family, but it couldn't be counted as a large and powerful family. After all, the Gu corporate group had primarily relied on Gu Qingyang's father, who had been decently famous in that area.

It was a pity that the good days didn't last very long. After Gu Qingyang's father died in an accident and the Gu family lost its backbone, its business was immediately torn apart by the Zhang family, the Li family, and the Qian family, causing the Gu family to instantly collapse. In an instant, they had fallen from great wealth into immense debt.

The young master lifestyle that Gu Qingyang had enjoyed completely disappeared, but this caused him to mature and see the true nature of this bloody world.

He was also someone with great Fate, and on the first night of the Divine Fish Festival, when the gigantic fish had turned into countless motes of light, a bit of light had entered his body and perfectly fused with him.

Gu Qingyang had felt as if there were fish swimming in his blood, which was a marvelous sensation. Afterward, he was shocked to find that his blood could cause countless divine fish to swarm over as if they were obsessed with his blood. Whenever he dripped even a single drop of blood into the water, all of the divine fish 100 meters of him would be lured over, and he would continuously kill these fish with

his harpoon. The amount of Divine Fish Points that he had continuously rocketed, and in two days, he had amassed enough Divine Fish Points to claim the third-ranked reward, Battle King City.

Gu Qingyang truly hadn't expected that he would have such good luck. He clearly understood the importance of this item – it could cause even the top-tier large families to go crazy for it, and now, it was in his possession.

If he sold this to a large family, he would be able to easily destroy the Zhang family, the Li family, and the Qian family. However, Gu Qingyang had greater ambitions. He didn't simply look in front of him. Instead, he looked even further. This decision was bound to change his fate and result in a glorious future for him.

In the future, he would become a King and establish the Gu Fish Kingdom!

.....

Back at Zhao Fu's side, Zhao Fu held a fishing rod with each hand and continuously fished up divine fish, leaving Celia to reattach bait to the hooks.

Celia could feel Zhao Fu's emotions, and she quickly helped him set up bait and didn't dare to say anything for fear of disturbing Zhao Fu.

The day quickly passed, and Zhao Fu didn't relax at all as he continuously caught divine fish. His Divine Fish Points quickly increased, and soon, he had obtained 400,000 Divine Fish Points, allowing him to let out a sigh of relief.

By now, Zhao Fu had caught ten orange divine fish and obtained a 'Spirit Fish Raising Manual,' which allowed him to raise spirit fish below Stage 5. This would most likely be of great help in later stages, but Zhao Fu wasn't thinking about it at all. Currently, the only thing that he cared about was that City Upgrade Stone.

After packing up his things, Zhao Fu once again returned to the Great Qin Town and received more news!

Chapter 325: Sealing Pillar

This news was that the top eight City Creation Stones had all been claimed, which gave Zhao Fu a great fright. He hurried to Holy Light City and felt incredibly nervous, hoping that the City Upgrade Stone hadn't been claimed yet.

Very soon, Zhao Fu arrived at the Exchange Stone Stele and was relieved to find that the City Upgrade Stone was still there. He immediately exchanged his points for it, and when he looked at the square stone in his hand that gave off a violet light, he was finally able to relax.

Afterward, Zhao Fu returned to the Great Qin Town. By now, he had collected five damaged Silver grade City Hearts, and because he didn't want to wait any longer, he destroyed five of his Silver grade villages.

This caused Zhao Fu's heart to ache – after all, Silver grade villages weren't easy to obtain. He then took the ten damaged City Hearts to the Universal Den.

The Den was still a Basic Den because it had never been leveled up. Dens required the animals they spawned to go out and kill other animals – only then would they be able to gain EXP and level up, and it was impossible to divert a village's EXP to a Den.

The Gray Wolf Den and Black Forest Horse Den had both become Advanced Dens because Little Black and Little Gray often went out with the soldiers to fight, obtaining a lot of experience.

As for the Universal Den, even though the Void Beasts that they spawned were incredibly fast, they were only suited for running away and didn't have good offensive abilities, which was why the Universal Den had remained a Basic Den.

After arriving at the Universal Den, Zhao Fu chose to upgrade it. The ten cracked cubes gave off a faint silver light and slowly floated into the air as they went towards the Universal Den's lump of clay, which gave off a silver light as well.

Afterward, the lump of clay slowly fused with the ten cubes and gave off a piercing silver light as a massive pressure swept outwards.

Slowly, traces of golden light began to appear from the lump of clay, and the golden light became stronger and stronger as the silver light gradually faded.

Finally, a golden light shot into the sky – the Universal Den had become Gold grade.

Now, the Universal Den could spawn a Void Beast every two days. Zhao Fu then took out the City Upgrade Stone and chose to use it.

The City Upgrade Stone turned into a ray of violet light and shot towards the lump of clay, which gave off a gold light, and they fused together.

Following this, a violet light shot into the sky, and the Universal Den became Legendary grade.

Now, the Universal Den could spawn a Void Beast every day, and after the Wyvern egg hatched, he would be able to quickly spawn Wyverns.

Before, because the Universal Den only spawned one Void Beast every three days, that meant Great Qin could only open up a path to a new region once every three days.

Even though they were now spawning Void Beasts every day, Great Qin would still only be able to open up a path to a new region every three days.

This was because every region was as big as a province in the real world, and taking three days to make preparations for a new region was already quite rushed. Moreover, Zhao Fu decided to stock up on some Void Crystals because after the Wyvern egg hatched, the Universal Den would be used for Wyverns, and Great Qin would no longer have a supply of Void Crystals.

When that time came, they would be able to maximize the use of their Void Crystals, and the initial Void Beasts would have formed another Void Crystal as well.

Now, this matter had finally been settled. Even though Zhao Fu had suffered some setbacks on the way, he was still able to accomplish his goal. He was now able to relax, and a pleased smile appeared on his face.

In the remaining time, Zhao Fu continued fishing at Seeping River. It was only the third day right now, and there were still four whole days until the Divine Fish Festival ended.

Zhao Fu's goal was still to obtain some City Creation Stones. Even though it didn't seem that getting one of the top ten would be likely, there were still many other City Creation stones.

Zhao Fu started to leisurely fish on Seeping River, and he no longer felt any stress. He returned the fishing rod he had borrowed from Bai Qi and continued to use the One World Rod.

Zhao Fu continued to fish up divine fish after divine fish, and most of them were gold and violet, though there was occasionally an orange one.

Even though the number of divine fish that Zhao Fu caught couldn't be compared to others, no one else could compete with him when it came to the number of rare divine fish. At the same time, the number of Fish Jewels he had obtained was also quite shocking.

By now, he had 4,482 Fish Jewels from silver divine fish, 5,213 Fish Jewels from gold divine fish, 2,684 Fish Jewels from violet divine fish, and seven Fish Jewels from orange divine fish.

What excited Zhao Fu was that the Fish Jewels from the violet divine fish could give Gold grade items, and the Fish Jewels from orange divine fish could give Legendary grade items.

Now that he wasn't in as big of a rush, Zhao Fu became quite curious about the orange divine fish Fish Jewels, and he decided to open them.

After opening the first one, the Fish Jewel shined with a brilliant orange light and turned into an orb of light before revealing a long horn.

The horn was azure-colored and looked like it was made of jade. It gave off a ferocious aura and seemed to be a beast's horn. This was undoubtedly a Legendary grade material!

Zhao Fu opened the second orange divine fish Fish Jewel, and a talisman paper appeared before Zhao Fu.

This talisman paper was violet-colored, and there were many runes drawn with blood. It gave off a powerful and mysterious aura.

[Blood Unsealing Talisman]: A powerful unsealing talisman created using a Talisman Master's source blood. It can destroy all seals.

Zhao Fu looked at the talisman paper and felt that it wasn't very useful to him right now, so he put it away. He then opened the third Fish Jewel, and a large object appeared before him.

It was a wooden pillar that was three meters long and one meter wide, and it was a light red color. It gave off a powerful aura of suppression and was most likely some sort of sealing item.

[Mountain-Sealing Pillar]: A sealing pillar made from a spirit tree that was over 1,000 years old. It possesses a powerful sealing and suppressing effect. It can seal everything 10,000 meters around it.

After reading this, Zhao Fu also put this pillar away as he had no immediate use for it.

The fourth Fish Jewel gave him a material!

The fifth Fish Jewel gave him a spear!

The sixth Fish Jewel gave him a round shield!

These were all Legendary grade items, and after looking at their descriptions, he put them away and looked at the final Fish Jewel.

Zhao Fu opened the Fish Jewel, and after the light disappeared, a saber appeared. It was about three fingers wide, and its blade was only about one meter long. It was flame-red and gave off a searing aura.

[Inferno Sabre Intent]: This item contains a trace of a very powerful saber intent. It is a very dangerous item. It can only be used three times.

Zhao Fu felt that this item was quite good, and it could be used in dire situations, because –

Suddenly, Zhao Fu felt something bite on his fish line as a massive splash pounded the surface of the water. An incredible force pulled on the fishing line, and when Zhao Fu pulled back, his body and boat were dragged towards deeper waters.

Chapter 326: Epic Grade

Zhao Fu was quite shocked, and he tightly gripped his fishing rod. However, the fish's strength was enormous. Even though he used all of his strength, he was still dragged along by the fish.

Feeling the immense power of this fish, Zhao Fu guessed that it was extremely big, and he refused to back down and circulated his King's Power. He tightly gripped his fishing rod, pulling back against the fish. Under these two immense powers, the fishing line went completely taught, and the One World Rod started to bend.

Even Legendary grade rods would have been in danger of breaking at that moment.

Zhao Fu continued to hold onto his fishing rod. He had no idea what this thing was – it could be a divine fish or a fish monster that lived in Seeping River. However, it was definitely quite special, and because Zhao Fu had no intentions of letting it go, he continued to hold on.

The fish continued to drag Zhao Fu's boat forwards, but because Zhao Fu was pulling back with all of his might, the boat traveled quite slowly. Neither side wanted to lose, making the battle quite bitter.

Zhao Fu understood that this was a battle of endurance and that whoever gave in first would lose. As such, he wasn't in a hurry and decided to wait until this fellow ran out of strength to catch it.

Ten minutes passed!

20 minutes passed!

30 minutes passed!

After a full hour passed, the fish started to weaken, and the boat started to slow down.

At that moment, Zhao Fu unleashed his full strength and lifted his fishing rod, and the fish desperately struggled, causing them to once again struggle against each other.

Another 30 minutes later, the fish finally ran out of strength, and Zhao Fu mustered up all of his strength and raised the fishing rod as a gigantic figure slowly started to appear under the surface of the water.

It was a divine fish that looked like a whale, and it was three meters long. Its body was white, but it gave off red, green, and blue lights.

Zhao Fu was quite delighted – this three-colored divine fish seemed even rarer than gold divine fish, and it was something that normal people would never be able to see.

By now, the three-colored divine fish was out of strength, so Zhao Fu raised it out of the water. It turned into countless motes of three-colored light that entered Zhao Fu's body.

"System announcement! Congratulations, you have caught a divine whale. You have received 5,000 Divine Fish Points."

Obtaining 5,000 Divine Fish Points with a single divine whale was excellent – after all, that was equivalent to 500 gray divine fish. However, Zhao Fu was disappointed to find that the divine whale didn't give him a Fish Jewel.

If this divine whale gave him a Fish Jewel, it would definitely be Epic grade, which excited even Zhao Fu. It seemed that committing so much time to this divine whale was a bit of a waste because if he had used his time catching other divine fish, he would have still been able to obtain at least 5,000 Divine Fish Points.

Even though the gains weren't great, Zhao Fu was still quite delighted to find that he would be able to fish up such creatures at this place.

By now, a trace of light appeared in the sky, and the darkness started to recede – the fourth day of the Divine Fish Festival had begun. Zhao Fu chose to continue fishing at Seeping River, hoping that he would be able to catch a few more divine whales and obtain a few Epic grade Fish Jewels.

The weather was quite good today, and the sun shined from above. However, when noon came, dark clouds covered the sky, giving off an oppressive aura. Sitting at the center of Seeping River, Zhao Fu started to feel quite parched.

However, soon, it started to drizzle, and it no longer felt as hot.

Zhao Fu suddenly thought of the One World Rod's fourth effect, which was a raincoat. It seemed that this would be a perfect time to use it, and he equipped it with a curious expression on his face.

The One World Rod gave off a faint light as a conical bamboo hat and raincoat appeared and automatically covered Zhao Fu's body. They looked quite ordinary, but Zhao Fu found that they had a recovery effect.

This recovery effect applied to everything, such as physical, mental, and cultivation fatigue, and it seemed to be quite a good effect.

It was good to fish while it rained because the divine fish would come to the surface to breathe in the fresh oxygen. He hoped that another divine whale would come.

After a few hours, Zhao Fu still hadn't caught another divine whale – it seemed that they were especially rare.

Suddenly, Zhao Fu discovered a whirlpool ahead – at first, it was only two meters wide, and because it was 100 or so meters away, Zhao Fu didn't mind too much.

However, the whirlpool suddenly expanded to 100 meters wide, and it instantly dragged Zhao Fu into it. Zhao Fu was quite shocked and immediately reacted, sending his King's Power around his boat to try to escape.

However, just as Zhao Fu's boat started to escape from the whirlpool, the whirlpool expanded to 10,000 meters wide, giving off a massive attractive force as if it was a gigantic mouth that wanted to devour everything.

Zhao Fu's boat was also swept along by the whirlpool, and Zhao Fu frowned, trying to use his King's Power to escape. However, he found that it was completely useless.

The gigantic whirlpool was simply too powerful, and if Zhao Fu didn't resist, he would be sucked to the center in less than a second. It definitely wouldn't be good for such a thing to happen.

Zhao Fu unleashed his King's Domain, and a four-meter wide black circle expanded outwards. The absolute control Zhao Fu had within his King's Domain allowed the boat to resist that attractive force and start to move towards the outside of the whirlpool.

However, before Zhao Fu could feel happy, the enormous whirlpool expanded to 100,000 meters wide, affecting more than half of the river. The sound was incredibly terrifying, and it was as if it was some sort of natural disaster.

Zhao Fu didn't hesitate anymore, and he decided to give up on the boat and use his Flight Stone. However, at that moment, Zhao Fu felt a massive sealing power blocking off the space above him, restricting him from using the Flight Stone.

Zhao Fu felt that the situation was becoming dire, and he used all of his strength to cast his King's Domain, expanding it out to 100 meters around him. This allowed him to greatly restrict the attractive force, and his boat started to move out of the whirlpool again.

Immediately, the whirlpool increased to 1 million meters wide, disturbing all of the water in Seeping River, and the ordinary people by the banks became terrified and quickly started to flee.

An even greater attractive force came from the center of the whirlpool, and even the stones and grass on the bank were sucked over. The sky seemed to darken. The scene was quite terrifying, and Zhao Fu's boat was helplessly drawn deeper and deeper into the whirlpool.

At the center of the whirlpool, Zhao Fu saw a big fish that was ten meters long!

The fish looked a bit like a carp, and its golden scales shined with rainbow-colored light. It also had a pair of horns on its head and two long whiskers.

Chapter 327: Rainbow Divine Fish

“A rainbow divine fish?” Zhao Fu looked quite surprised as he stared at the fish. He had thought that three-colored divine fish were already extremely rare, and he was ecstatic to now find a rainbow divine fish.

However, it definitely wouldn’t be easy to deal with this rainbow divine fish. After all, it was currently ferociously looking at Zhao Fu as if it was looking at prey.

This rainbow divine fish had been lured over by Zhao Fu’s bait, but it wasn’t interested in the small fish that had consumed Zhao Fu’s blood; rather, it wanted to devour Zhao Fu whole.

Zhao Fu quickly thought about what to do. He and his boat were being drawn towards the rainbow divine fish by the whirlpool, and the fish was currently opening its large mouth, preparing to eat Zhao Fu.

The whirlpool was simply too powerful, and with Zhao Fu’s strength, he wouldn’t be able to break free from it. Did he have to use his Nation Armament again?

The boat was sent spinning in circles as it came closer and closer to the rainbow divine fish, and the rainbow divine fish seemed as if it couldn’t wait any longer because it started to swim towards Zhao Fu.

Zhao Fu looked at the rainbow divine fish ahead, and its mouth that was giving off a massive suction power. It looked like the mouth of a demon, and it was about to swallow him whole!

At that moment, Zhao Fu’s eyes narrowed, and he took out a flame-red short saber. He gripped it with both hands and sent his King’s Power into it, causing it to burst forth with massive red flames. As a searing heatwave rippled out, steam and bubbles started to rise from the water around him.

“Arghhhh!!” Zhao Fu roared as he swung the short saber towards the rainbow divine fish. A ray of saber qi bringing with it a scorching aura flew out, and the entire world seemed to become a world of fire as that saber qi slashed towards the rainbow divine fish.

The rainbow divine fish was quite startled, and it formed massive water shields with the river water. However, that saber qi slashed through all of them.

“Roarrrrr!!!” the rainbow divine fish roared in pain as a sharp wound appeared on its body and golden blood continuously flowed out.

This rainbow divine fish seemed to be alive, and its golden eyes furiously glared at Zhao Fu, wanting to kill him.

Whoosh! Whoosh! Whoosh! Whoosh!

The rainbow divine fish raised up over 100 pillars of water, which started to crash downwards towards Zhao Fu.

Zhao Fu once again slashed out, and a massive fiery saber light flashed out, annihilating all of the pillars of water.

This was the power of saber intent, something that could only be controlled after one comprehended the source of the world.

Seeing that the tables had turned, the rainbow divine fish turned to flee. After all, it wasn't a real creature and wasn't truly very powerful.

The massive whirlpool lost its controller, and a massive amount of water slammed down towards Zhao Fu. Zhao Fu maintained his King's Domain, and he was determined not to let the rainbow divine fish get away.

He sent a powerful slash out!

A terrifying saber light that was hundreds of meters long split the water in two and sent the rainbow divine fish flying, sending it crashing against a boulder and smashing the boulder apart.

At that moment, a massive amount of water crashed against Zhao Fu's King's Domain, but there was simply too much water. Cracks appeared on the King's Domain as Zhao Fu was slightly injured.

"Roarrrrr!!!" Another gash large gash had appeared on the rainbow divine fish's body, and it gathered a great amount of water, which turned into a ferocious water dragon that rushed towards Zhao Fu.

After Zhao Fu used the short sword three times, it disintegrated into dust, and Zhao Fu took out an Evil-Crushing Spear and sent his King's Power into it. The Evil-Crushing Spear sent out waves of silver light, and arcs of lightning flickered around it as Zhao Fu vigorously threw it.

The Evil-Crushing Spear turned into a massive silver ray of light, seeming to be an unstoppable force as it collided with the water dragon.

Boom!!!

An explosion sounded out, turning into massive shockwaves as mud and stone within the river were blasted into the air, and water flew high into the sky.

Seeing that its attack had failed, the rainbow divine fish opened its mouth and devoured a massive amount of water before shooting out a gigantic water arrow. The water that it passed over was repelled by the sheer force it contained, creating a vacuum.

Zhao Fu was quite surprised and dodged to the side, narrowly dodging the water arrow. Only after it traveled hundreds of meters did it turn back into water and fall to the river.

Suddenly, the rainbow divine fish appeared beside Zhao Fu and tried to bite him.

Zhao Fu coldly harrumphed, and the One World Rod turned into a wooden sword, which he vigorously slashed out with. Immediately, a massive sword light flew toward the rainbow divine fish.

"Roarrrrr!!!" the rainbow divine fish roared in pain as its side was slashed by the sword light, which immediately tore apart its golden scales and left a deep wound.

"Black forest!" Zhao Fu roared out as he stabbed out with the Royal Wood Sword. It shined with a green light as countless black branches stretched out from the Royal Wood Sword, extending towards the rainbow divine fish. These branches were incredibly sharp, and they instantly stabbed into the rainbow divine fish's body.

This was one of the skills that came with the Royal Wood Sword, and not only were the branches incredibly sharp, but they also contained the power to steal lifeforce.

Immediately, wounds appeared all over the rainbow divine fish's body, and the light around it dimmed greatly. The rainbow divine fish struggled and broke free from the countless branches. Knowing that it wasn't a match for Zhao Fu, it once again tried to escape.

However, how could Zhao Fu allow it to leave? The Royal Wood Sword once again became a fishing rod, and Zhao Fu flicked the line out, which fell on the rainbow divine fish and wrapped around its body a few times.

Despite being caught by the fishing line, the rainbow divine fish continued to try to escape.

Zhao Fu gripped the One World Rod and tried to drag the rainbow divine fish above the water. As long as he could bring it above the surface, he would win.

The rainbow divine fish vigorously struggled, trying to go down while Zhao Fu tried to lift it up. The rainbow divine fish would be slightly lifted up by Zhao Fu, following which it would slightly bring the fishing rod downwards.

Seeing that this would last for quite a while, Zhao Fu called out, "Sky Demon! Slaughtering Ghost!"

A black sword light and a blood-red sword light shot towards the rainbow divine fish. Zhao Fu planned to use the two swords to heavily injure the rainbow divine fish, making his job much easier.

The rainbow divine fish could sense the imminent danger, and it suddenly flicked its tail. The water seemed to explode as it shot towards the side like an arrow.

Zhao Fu immediately pulled back on the fishing rod, and the fishing line became incredibly taut. Zhao Fu was horrified to find that the fishing line was on the verge of breaking, so he could only allow the rainbow divine fish to slowly drag him along and deal with it after it had run out of strength.

The Sky Demon and Slaughtering Ghost were unable to keep up with the rainbow divine fish, and they turned back into swords and returned to Zhao Fu's side.

A few hours later, the rainbow divine fish finally ran out of strength, and Zhao Fu vigorously pulled the rainbow divine fish towards the surface. The rainbow divine fish came closer and closer to the surface, but he suddenly felt that something was off because he heard many people's voices. This caused Zhao Fu to hesitate, and when he looked down at the rainbow divine fish, Zhao Fu didn't want anything unexpected to happen.

As long as he could pull the rainbow divine fish out of the water, it would be his. The rainbow divine fish was only about ten meters away from the surface now, so Zhao Fu decided to hurry and get it out of the water.

Chapter 328: Rainbow Fish Jewel

At the banks of Seeping River, an elderly man with long eyebrows caught a blue divine fish.

“Not bad, Ol’ Jiang; another blue divine fish,” another elderly man said to the elderly man with long eyebrows as he laughed.

This blue divine fish made everyone around him feel a sense of admiration.

The elderly man with long eyebrows chuckled as he replied, “It’s just a blue divine fish. Look at that young man; he’s fished up four silver divine fish already.”

Just as the elderly man finished speaking, a young man with a calm and steady aura caught another silver divine fish. The silver divine fish transformed into countless motes of light that entered his body, and a Fish Jewel appeared in his hand.

Those around him sighed in admiration, and some felt incredibly envious. Fish Jewels could be sold, and a silver Fish Jewel was worth five gold coins or \$50,000 in the real world.

The young man couldn’t help but feel incredibly happy, but he noticed the various greedy gazes around him. Right now, he had three silver Fish Jewels on him, which were worth 15 gold coins. They could make others want to kill him.

As such, the young man decided to move somewhere else or to at least sell the Fish Jewels first. He could deal with one or two people, but if there were too many of them, he wouldn’t be able to resist them.

The others around him could tell what he was thinking, so they immediately threw down their fishing rods and went over to surround him. The atmosphere became incredibly tense.

Suddenly, a massive sound of something breaking through the water sounded out, creating massive splashes. This scene drew countless gazes, and all those who looked over were completely stunned.

The person at the center of Seeping River had dragged out a big fish that was ten meters long. The fish had golden scales and a pair of dragon horns, and it gave off a rainbow light. It seemed incredibly magical, and no one could look away.

After the divine fish was dragged out, it turned into countless motes of rainbow-colored light before entering the body of the person who was now standing in the air. At the same time, a rainbow-colored Fish Jewel appeared.

Everyone who was present felt his heart jump. Violet divine fish gave Gold grade items, orange divine fish gave Legendary grade items, and three-colored divine fish could give Epic grade items, so it was very likely that this rainbow divine fish could give a Divine Armament.

Divine Armament – those two words could cause anyone to go mad with greed. Such things were completely priceless, and even godly spirits would want to steal such things.

“System announcement! Congratulations, you have caught a dragon fish. You have received 100,000 Divine Fish Points.”

That was the system announcement that Zhao Fu had received after he had caught the rainbow divine fish, and a rainbow-colored Fish Jewel appeared in his hand. This delighted Zhao Fu, but when he saw the crowd of people staring at him, he immediately put it away before turning into a black blur and speeding off.

Only after they saw the black-cloaked figure rush away did the countless people come back to their senses and feel immense regret. If they could have stolen that Fish Jewel, they would never have to worry about money ever again.

However, they didn't act because someone who could obtain a rainbow Fish Jewel definitely wouldn't be weak. Just the fact that he could fly set him greatly apart from others.

The young man with the silver Fish Jewels immediately escaped when he saw that everyone's gazes had been attracted over to the rainbow divine fish. This made everyone who had wanted to take his Fish Jewels feel regret for being distracted.

Soon, news about the rainbow divine fish quickly spread, shocking countless people and making them guess as to who that black-cloaked figure was.

Many incredible figures had continuously appeared, completely outshining the Legatees – after all, this event was for normal people.

This time, no one thought that this person would be Great Qin's Legatee. Rather, they thought that it was another incredible person who had risen up. If he could obtain a Divine Armament, he would be able to cause massive bloodshed, making many feel anxious.

On a small hill far away, Zhao Fu felt quite excited as he looked at the rainbow Fish Jewel in his hand – would it really give him a Divine Armament?

After Zhao Fu chose to use it, the rainbow Fish Jewel gave off a brilliant rainbow-colored light and rose from Zhao Fu's hand. Suddenly, a wild gale started to blow, and sand and small rocks started to fly everywhere as clouds gathered above him. The rainbow Fish Jewel gave off a powerful aura that spread all around him.

This aura was nothing to Zhao Fu. He stared at the rainbow Fish Jewel in the air, and the light became brighter and brighter until it became quite piercing. Soon, it had become a two-meter wide orb of light.

Zhao Fu started to feel more and more anticipation because the rainbow Fish Jewel was about to open. Would it really be able to give him a Divine Armament? Zhao Fu wasn't completely sure.

After the light gradually faded away, a rhombus-shaped crystal that gave off a rainbow-colored light appeared in the air and slowly floated down.

When he saw this, Zhao Fu felt slightly disappointed that it wasn't a piece of equipment, but he stretched out his hand and caught it.

[Heavenly Domain Stone]: An extremely rare stone in this world; legends say only a few exist, and it has great uses.

After looking at the information regarding the Heavenly Domain Stone in conjunction with the information that he had received from god Kerr, Zhao Fu knew what it was. He was disappointed but not too disappointed.

The Heavenly Domain Stone wasn't a material, nor was it a piece of equipment. Rather, it was a special item. Zhao Fu knew what its effects were, but because they weren't useful right now, he could only put it away.

Zhao Fu then went to Holy Light City because he now had enough Divine Fish Points for a Gold grade City Creation Stone.

There were 100 Gold grade City Creation Stones in total – this didn't seem like a small figure, but there were many people competing for them. Zhao Fu didn't want to miss out, so he hurried over to exchange his points for one.

Gold grade City Creation Stones could be exchanged for 200,000 Divine Fish Points, but all of the City Creation stones had purchase restrictions – this meant that no matter how many Divine Fish Points Zhao Fu had, he would only be able to purchase one Gold grade City Creation Stone.

After exchanging for a Gold grade City Creation Stone, Zhao Fu returned to Seeping River. Last time, he had been at a relatively downstream region, and this time, he went to a more upstream region. If he could encounter another rainbow divine fish, he wouldn't mind at all.

However, things didn't go as Zhao Fu had wanted – not only did he not see a single rainbow divine fish, but he also didn't find any more three-colored divine fish. All of the ones he fished up were violet and orange divine fish.

Just like that, the fourth day of the Divine Fish Festival slowly passed.

Now, it was the fifth day. It was completely overcast and slightly chilly, and it looked as if it would rain at any moment. This was a good day for fishing.

Chapter 329: Three-Colored Divine Fish

The last time that a rainbow divine fish had appeared, the weather had been like this. Zhao Fu wondered if he had the luck today to encounter another one. If he could, he would be quite satisfied. Hopefully, it would also drop a Fish Jewel that would give him a piece of equipment.

Soon, it started to drizzle, and Zhao Fu used the One World Rod's fourth effect, causing the conical hat and raincoat to appear on his body.

The rain continuously fell on the river and also brought with it a faint fog. Zhao Fu sat on his little boat, not moving at all. Holding his fishing rod, he seemed to have fused with the river, creating an artistic scene.

However, it was useless – not a single three-colored divine fish had appeared, much less a rainbow divine fish. Could it be that he was at the wrong place?

After thinking about it, Zhao Fu felt that this shouldn't be so – after all, the water upstream was more still than the water downstream, and such a place was suitable for fish to reside, which meant that there should be more divine fish here.

Moreover, Zhao Fu had already caught many of the rare divine fish downstream, which was why he had decided to come here.

After fishing for another two hours, Zhao Fu still hadn't made any great gains. As such, he decided to go to the middle stretch of the river and then the downstream region. In the end, he found that upstream was still better, which reaffirmed what he originally thought.

It had been a long time since he had seen a three-colored or rainbow-colored divine fish; could it be that Seeping River no longer had these divine fish? However, Seeping River was the largest water region that Zhao Fu had access to – after all, Great Qin was quite far inland, and it was quite far away from the ocean. They would have to travel at least ten or so regions to reach the ocean.

So far, they hadn't expanded so far away, and none of the water sources in other regions were as big as Seeping River. Most were only small lakes and couldn't compare to Seeping River.

Suddenly, Zhao Fu thought of something – didn't his blood greatly attract divine fish? The small fish that had devoured his blood were great bait, and even that rainbow divine fish wanted to devour him. In that case, couldn't he just use his blood to directly attract divine fish?

Zhao Fu felt that he could give this method a shot. Zhao Fu had used a lot of blood to develop bait over these few days, and it was only because he had consumed many spirit medicines that his body hadn't weakened.

As such, Zhao Fu took out a dagger and made a cut on his arm. His blood dripped into the river and spread out, bringing with it the slight smell of blood.

After letting his blood drip out for nearly three minutes, Zhao Fu used the Royal Wood Sword to heal the cut.

Suddenly, the river seemed to go deathly silent – there wasn't any noise or a sign of life, and Zhao Fu suddenly felt his hairs stand on end.

Swish, swish, swish...

Zhao Fu saw countless fish that were about as big as his hand madly swim towards him. These fish looked quite terrifying – their heads looked like skeletons, they had gray scales, and they had two rows of sharp teeth.

These were most likely the fish monsters of Seeping River. Zhao Fu had never thought that his blood would attract countless fish monsters instead of divine fish. They were simply innumerable, swarming his boat from all sides.

At that moment, Zhao Fu wasn't feeling too worried. They would be able to take down normal people, but how could they threaten Zhao Fu? By now, Zhao Fu's strength was incredibly terrifying.

The One World Rod turned into the Royal Wood Sword, and Zhao Fu stood up and sent his energy into the Royal Wood Sword, causing it to shine with a bright green light. Zhao Fu stabbed it downwards.

The Royal Wood Sword instantly pierced through the small boat, and countless black branches stretched out and split before continuing to stretch out and split continuously.

Countless fish monsters were approaching because of their attraction to Zhao Fu's blood. The sharp branches continued to grow, and they pierced the fish monsters' bodies and devoured their lifeforce.

Soon, a strange scene appeared – a 100 meter wide black crown of branches had appeared underwater. There wasn't a single leaf on those branches, and there were countless fish corpses hung on the branches.

The fish monsters continued to rush over, but they were unable to harm Zhao Fu at all. They couldn't even come within 100 meters of him without being killed by the tree branches.

At that moment, a large fish that was ten or so meters long slowly floated to the surface. This wasn't a divine fish but a Lord class fish monster.

The Lord class fish monster looked at Zhao Fu with its sinister eyes, which shined with a blue light. Water began to gather towards it, forming two fish monsters made of water that then leapt out of the water and shot towards Zhao Fu.

"Sky Demon Slash!"

Seeing the two fish made of water flying towards him, Zhao Fu drew the Sky Demon Sword, and a ten or so meter long black arc of light flashed out, giving off a sharp sword aura. It split the two fish, and they fell back into the river.

At that moment, the Lord class fish monster swept its tail, creating a large splash and leaping out of the water. It opened its mouth and revealed its sharp teeth that seemed to be able to tear apart iron.

Zhao Fu dodged to the right, and while the Lord class fish monster passed him, he raised the Sky Demon Sword and hacked down, tearing through its defenses and leaving a gash through which its bones could be seen.

In actuality, this Lord class fish monster wasn't very strong – Lord class monsters that led small groups or herds were usually more powerful, while those that had massive groups or herds were less powerful.

This Lord class fish monster's main strength came from being able to command countless ordinary fish monsters, but they had all been killed by the black crown of branches.

After suffering this attack, the Lord class fish monster immediately tried to run away after falling back into the water.

"Godly Demon Devour!"

Zhao Fu once again used a godly skill, and he raised his sword and swung it. Immediately, a massive, ugly face appeared, and it opened its large mouth and unleashed an attractive force as it moved towards the Lord class fish monster.

The Lord class fish monster was quite startled, and it suddenly gave off a large amount of blue light, forming a blue protective shield. The massive face continuously bit at the shield, and soon, countless cracks started to appear across the blue shield.

At that moment, the Lord class fish monster dove into the water and started to quickly swim away.

Zhao Fu immediately unleashed his King's Domain around himself before jumping into the river. This Lord class fish monster was quite weak and would be quite easy to kill, so Zhao Fu didn't plan on letting it go.

The fish monster was quite fast, but Zhao Fu wasn't slow. He followed the fish monster the entire time. By now, its blue shield had already shattered, and its body had been torn by the large face. However, the Lord class fish monster had turned to bite the face, destroying it in return.

At that moment, Zhao Fu saw a round stage at the bottom of the river, above which there was a floating statue of a fish monster.

Zhao Fu had never thought that he would have followed the Lord class fish monster to its Den!

Chapter 330: Dragon-Sealing Well

Dens were quite rare, and fish monsters were quite ferocious. If he could obtain this Den and raise an army of fish monsters, they would definitely come in handy someday. However, in order to obtain this Den, Zhao Fu would have to kill the Lord class fish monster.

By now, the Lord class fish monster had already been heavily injured. There were many injuries all over its body, but after it returned to its Den, it would receive some buffs – this included an increase in strength and regeneration.

Zhao Fu couldn't afford to let the fish monster do as it wished, so he drew the Slaughtering Ghost Sword and slashed out with it. A barrier expanded outwards, and the Lord class fish monster that was desperately trying to return to its Den was pulled into the Slaughterfield Domain, cutting off its path.

Seeing that it had been stopped, the Lord class fish monster turned around and fiercely gazed at Zhao Fu. Now that it couldn't return to the Den, it could only choose to go all-out.

Blue light continuously streamed out from within the Lord class fish monster's body, and the water gathered towards it, forming five fish monsters that looked exactly the same as it.

Because they were underwater this time, these five fish monsters were much faster than the previous ones. They instantly vanished and jetted towards Zhao Fu as they bit at him.

Zhao Fu's pupils constricted – this sort of speed greatly surprised him, but it was still within his grasp. Zhao Fu's body burst forth with power as traces of black aura rose up from his body. The Slaughtering Ghost Sword in his hand gave off a terrifying blood-red light, and ghostly howls could be faintly heard.

Suddenly, two of the fish monsters attacked Zhao Fu from in front of him. Zhao Fu's sword brought with it a wave of blood-red light, splitting the two fish monsters in half. However, at that moment, another fish monster rushed at him from the side.

Zhao Fu quickly used his sword to block, but immediately after, another fish monster charged at him from the other side, ferociously biting towards him and trapping him between two attacks.

Zhao Fu could only quickly retreat, dodging this pincer attack. The final fish monster tried to attack from behind, but he anticipated this, spinning and slicing it in half.

The Lord class fish monster took advantage of this situation. It opened its large mouth and gulped down a large amount of water before spitting out water like a cannon towards Zhao Fu.

Zhao Fu was caught off-guard, and he was sent flying back ten or so meters. The remaining two water fish monsters took this opportunity to attack.

Seeing this, Zhao Fu coldly harrumphed and sent his power into the Slaughtering Ghost Sword, causing it to shine with a brilliant, blood-red light. Zhao Fu vigorously slashed out, creating a blood-colored crescent moon that destroyed the remaining two water fish monsters.

Suddenly, the Lord class fish monster appeared behind Zhao Fu and opened its mouth as it bit towards him. It traveled as fast as lightning and reached Zhao Fu in an instant.

However, Zhao Fu had predicted that this would happen, and in that moment of crisis, he turned and rammed his sword upwards, piercing through the Lord class fish monster's lower jaw.

The Lord class fish monster howled in pain, and Zhao Fu retreated slightly before putting the Slaughtering Ghost Sword away, drawing the Sky Demon Sword, and sending his King's Power into it. The sword gave off a massive amount of sword qi, and Zhao Fu gripped it with both hands as he slashed out with it.

A massive amount of black sword qi split the Lord class fish monster's head down the middle, causing its blood and brains to spill out continuously until it died.

It was a pity that the Lord class fish monster didn't drop a single item, which surprised Zhao Fu. It was the first time that he had been so unlucky as to not receive a single item from a Lord class monster.

In the end, Zhao Fu could only put away the Lord class fish monster's corpse – after all, its corpse contained many useful materials. Zhao Fu then headed towards the fish monster Den. After the Lord class fish monster died, the rest of the Den didn't have the strength to resist.

Zhao Fu went to the statue above the Den and touched it, and an interface jumped out.

[Den – Clown Bone Fish]: (Intermediate Den: 290,883/450,000), Grade: Gold, Description: A Clown Bone Fish Den that spawns 265-345 Clown Bone Fish per day.

It turned out those fish monsters were called Clown Bone Fish. The Den was also Intermediate level, which surprised Zhao Fu. He chose to conquer it and obtained 800 Achievement Points, and after choosing to [Relocate] it, the Great Qin Town obtained 230,000 EXP.

Zhao Fu was quite delighted to have suddenly received so much EXP. Now, Great Qin Town was less than 100,000 EXP away from leveling up into a Basic City – how could he not feel excited?

After Zhao Fu conquered the Den and chose to [Relocate] it, the Clown Bone Fish statue shined with a faint light, and the stage below Zhao Fu's feet gradually disappeared. Afterward, Zhao Fu grabbed the statue and prepared to leave.

Suddenly, an incredibly terrifying aura appeared, causing the entire region around him to freeze. The water stopped flowing, and all of the creatures within Seeping River became terrified as a figure that was nearly 1,000 meters long appeared behind Zhao Fu.

Under this immense pressure, Zhao Fu's body froze, and his hairs stood on end as he looked behind him and saw a gigantic Clown Bone Fish.

The massive Clown Bone Fish was covered with gray scales, and it had sharp teeth that jutted out of its mouth. It also had a bone horn on its head, making it look quite ferocious and savage.

“The Royal Class being here is this Clown Bone Fish?” Zhao Fu didn’t hesitate at all as he rushed away. He had just come here and destroyed a Clown Bone Fish Den, so the gigantic Clown Bone Fish was definitely here for vengeance.

The gigantic Clown Bone Fish condescendingly looked at Zhao Fu and opened its abyss-like mouth. A massive attractive force exploded out as a great amount of water was sucked into its mouth.

Zhao Fu’s body was unable to resist as he flew backward, about to be sucked into the enormous Clown Bone Fish’s mouth.

At that moment, a ray of golden light shot into the sky, breaking free from the attractive force.

The Clown Bone Fish was quite startled. Before it could react, the golden light had already vanished into the horizon.

Zhao Fu’s body was covered by a ray of golden light as he flew through the air, passing by countless things in an instant. To others, he looked like a golden meteor streaking through the sky, and after landing in front of the gates of a main city, those who saw him were completely dumbfounded.

Zhao Fu completely ignored those gazes and immediately entered the main city – he could no longer stay in Seeping River, or that Clown Bone Fish would definitely find him.

Very soon, Zhao Fu returned to the Great Qin Town and let out a sigh of relief. Royal class monsters were indeed incredibly powerful, and even a City Lord with a City Lord Seal most likely wouldn’t be able to take one down. Zhao Fu had only been able to escape by using the Ten Thousand Kilometer Teleportation Talisman.

The Ten Thousand Kilometer Teleportation Talisman’s effects were quite surprising, and if he had the opportunity, he would definitely try to obtain a few more. They were incredibly good for escaping, and if it wasn’t for this talisman, he would’ve only been able to escape by using his Nation Armament, and even then, he would’ve had to pay a great price.

However, the most ideal location for fishing was now gone; he absolutely couldn’t return there. In that case, where should he go? It was only the fifth day of the Divine Fish Festival, and he couldn’t waste the final two days.

Afterward, Zhao Fu found out from his subordinates that there was a region that had a ‘Dragon-Sealing Well!’

In the legends, the Dragon-Sealing Well was a place where evil dragons or flood dragon were locked up. In ancient times, flood dragons would often cause floods and tsunamis, so they would be locked up in the Dragon-Sealing Well to prevent them from harming the mortal realm.
