

The Lord 791

Chapter 791: Mysterious Faction

Because the dust had not yet settled, Zhao Fu did not dare to act yet. He would do so after everything had settled down.

The one who felt the most regret was the Demon Path Sect. The Sect Master and the Ancestors' expressions were all quite unsightly. They had never thought that Ye Cang would be able to control such a terrifying faction. He would be able to sweep across the whole world and was simply invincible.

In front of the Night Dynasty, the Demon Path Sect was completely defenseless. Thinking about the things they had done in the past, they had undoubtedly angered the Night Dynasty. They now had ample reason to destroy the Demon Path Sect, and this caused the entire Demon Path Sect to fall into terror.

The Sect Master and Ancestors could not help but think about Mo Yao'Er. For the safety of the Demon Path Sect, they could only thicken their faces and admit that they were wrong. They hoped that Mo Yao'Er would go and help restore relations between them.

Originally, Mo Yao'Er did not want to go, as she had desperately tried to convince them to help the Night Dynasty, but they had adamantly refused. They had even said that she was infatuated with Ye Cang and could not see the situation for what it was.

She had felt quite angry, as there was already someone she was thinking about day and night; she felt nothing towards Ye Cang at all.

However, in the end, Mo Yao'Er agreed to go to the Night Dynasty. The scenes of the Ancestors weeping bitterly was simply too pitiful, and her father, who loved her dearly, had also squeezed out a few tears. As such, Mo Yao'Er could only agree.

Mo Yao'Er also wondered how Ye Cang could have such a powerful faction under his control. After thinking about it, Mo Yao'Er could not help but think of that man.

Now, Ye Cang had his people collect the spoils. There was a massive amount of equipment, money, and resources. They did not lose many people either, only four million or so.

Within the real world, Ye Cang ordered his subordinates to be wary as it was possible for them to be attacked in the real world. However, he did not worry too much about the Vile Dynasty.

Even though it was possible to teleport from continent to continent in the Dark Demon world's real world, it was incredibly expensive, and teleporting a few people was already quite difficult. It would be impossible for them to send a large army to attack the Night Dynasty. If this wasn't the case, the Vile Dynasty might have already started to attack the Night Dynasty in the real world.

If that had happened, things would have been very bad for the Night Dynasty, as Zhao Fu could not go to their real world to help. The only thing he could do was bring all of the Night Dynasty's subjects into the Heaven Awaken World, but the downside was that they would die true deaths if they died again.

Also, after the Vile Dynasty's Ancestors and important figures had died in the Heaven Awaken World, various cliques started to fight for power within the Vile Dynasty, making them not as much of a threat anymore.

Of course, Ye Cang accepted the goodwill that the various factions showed, and the Night Dynasty now stood at the peak of the Dark Demon world. It was incredibly lively and jubilant at the Night Dynasty, but the world's Legatees all looked quite grim.

They realized that the faction that had helped Ye Cang definitely was not from the Dark Demon world. Even though they had tried to cover it up, they could not fool the Legatees. After all, there was not such a powerful faction in the Dark Demon world.

Also, another thing was that the most important person, Ughr, was missing. However, he was not dead – as one of the Legatees, they could sense this.

Afterward, they heard from people who had died and returned to the real world that Ughr had been sealed underground using chains by an incredibly terrifying existence.

That terrifying existence was incredibly powerful and seemed like a god. No one had been able to see his appearance clearly, but his shocking eyes could be clearly seen and made one feel as if they had fallen into hell. Even after using his Nation Armament, Ughr had been easily taken down by that figure.

This definitely was not something that an ordinary person could do. Ughr ranked third out of the Legatees, and now that he had been defeated so easily, the other Legatees felt incredibly unsettled.

After his battle with the Spirit Light world's World Protector, Mo Qi was still in closed-door training to recuperate. They could not count on him to help.

That unknown existence made it difficult for all of them to eat or sleep. All of the Legatees were afraid that the terrifying existence would suddenly appear before them. When that happened, none of them would be able to escape.

At that moment, an elegant-looking young man, the Legatee of the Nether King Dynasty, received some news and said, "I know where Ughr is; he was forcefully sealed and should be where the Vile Dynasty and the Night Dynasty fought!"

Hearing this, everyone felt quite delighted. If they could find Ughr, they could find more information about that terrifying faction. Following this, the Legatees went to the place of the battle and immediately found the sealed area.

Seeing the seal, the bald-headed elder said, "Let this old man give it a try!"

After saying this, the elder took out a staff that was covered with runes and gave off a strange light. He came down to the ground and found the center of the seal and stabbed the staff into the ground, causing the runes to seem to come to life.

Instantly, a black mark appeared on the ground, and just as the bald-headed elder was about to move onto the next step, the enchanting woman seemed to detect something and cried out, "Hurry and leave!"

Clang, clang, clang...

The sounds of countless chains rang out as the Legatees an immense danger. All of their heads stood on end, and none of them hesitated to turn into rays of light to shoot into the sky.

At that moment, thousands of chains burst out of the ground, giving off shocking sounds. However, the Legatees reacted fast enough and were barely able to escape the chains.

“Hahaha...” Light laughter sounded out, and the Legatees were startled to see Ye Cang appear.

“You’re a traitor to the Dark Demon race; you actually allied with someone from another world to harm our race!” the bald-headed elder said furiously.

Ye Cang’s smile disappeared as he said, “Should I have just let the Vile Dynasty destroy the Night Dynasty then? Who cares if we’re the same race? The Vile Dynasty wanted to destroy the Night Dynasty, so of course I can use another faction to destroy the Vile Dynasty!

“Also, I advise that you don’t anger that faction. I’m sure you’ve realized how small and pitiful you are in front of them. Let me tell you now that that faction spans across 50 or so factions and that they are not someone you can afford to offend. The people who entered the Dark Demon world are but a small team from that faction, and there are tens of thousands of such small teams.

“Now, do you understand how terrifying they are? They’re not a faction that a new world like ours can resist. I advise you all to be careful; otherwise, you won’t even know how you died.”

Of course, Zhao Fu said these things to make the Night Dynasty seem even more mysterious and have others fear it more. He made up this mysterious faction to make it impossible for them to guess that they were actually the humans who they looked down on so much.

Just as expected, Zhao Fu’s words caused the Legatees’ expressions to become incredibly serious and for them to feel greatly shocked.

Chapter 792: Great Qin Demon Saber

The reason why they believed Ye Cang’s words was because he seemed to know a lot about the outside world – more than them, at least – making it likely for him to actually have a relationship with a faction outside.

If what Ye Cang was true, that faction would be incredibly terrifying. Just a small team had such immense strength, and if they sent over a few teams, the Dark Demon world would never know peace again.

Even though they still had some doubts, it was best to take what Ye Cang was saying seriously. If that faction really did exist and they stupidly opposed him, that faction might send out a few teams to destroy them like the Vile Dynasty had been destroyed.

The chains from just then had nearly sealed them, and everyone could tell how terrifying they were. Naturally, none of them wanted to try to undo the seal again.

However, facing Ye Cang, who had borrowed power from a faction from a different world, their expressions were quite unsightly. There were traces of fear, disgust, and fury.

Suddenly, an enchanting woman said, “Was that faction how you were able to take control of the Night Dynasty in a single night?”

Hearing this, everyone realized how Ye Cang had been able to take over the Night Dynasty. If he had the support of that faction, it would make complete sense.

Ye Cang lightly laughed but did not reply.

The enchanting woman coldly harrumphed, “I hope you look clearly at your identity and your race. If you do anything that harms the Dark Demon world, we’ll kill you even if it costs us our own lives!”

After saying this, the woman turned into a ray of light and shot into the horizon. The other people also left, as there was not much more they could do. They mainly feared that faction standing behind Ye Cang, and since it was the Vile Dynasty who had attacked first, they could not say much about this matter.

They could only give Ye Cang a warning, remind him about his identity, and tell him not to be a traitor to the Dark Demon world.

Ye Cang lightly chuckled and did not pay much mind to their worlds. After all, Zhao Fu was a human, so how could he betray them? Following this, Ye Cang returned to the banquet.

Back at Great Qin, Zhao Fu’s subordinates reported to him their shocking gains. They had obtained 203 Cities, including 1 Capital City, which fulfilled the requirements to level up the Great Qin City into a Royal City. The EXP they had gained now pushed the Great Qin City halfway to its next level.

After leveling up the Great Qin City another two levels, the Great Qin empire would be restored – it would not just be an empty name but would be a true empire again.

There were now three things for Zhao Fu to do: re-establish the Vile Dynasty City, refine its Nation Armament, and restore the Desolate Blood Mask.

Zhao Fu decided to put aside re-establishing the city for now; he would refine its Nation Armament first. The Dark Demon world residents and Vile Dynasty women required for refining the Nation Armament had already been gathered.

Zhao Fu just took out 100,000 people from the Night Dynasty's indigenous residents. Now that the Night Dynasty had 60 million people, having 100,000 less would not make a difference.

Also, when Zhao Fu destroyed the Vile Dynasty, his subordinates had captured 20 or so women. Within them, they included Ughr's mother, a few concubines, and a few princesses. They also captured a few concubines from branch families and a few of Ughr's women.

Zhao Fu also brought back the women who had tried to seduce him; they no longer looked flirtatious and instead looked incredibly hateful and furious.

Zhao Fu first made these people Concubines; in actuality, capturing these women was the best way of obtaining Phoenix Qi. They had captured many of them and all of them had quite a lot of Phoenix Qi. After making them Concubines, countless traces of golden Phoenix Qi rose up from their bodies and was absorbed by the Emperor Phoenix Statue.

The Emperor Phoenix Statue was now 400 meters wide and gave off a powerful aura that could almost rival a Nation Armament.

Zhao Fu brought the women into the refining building, which was the place for refining Nation Armaments. It was a three-story building that was even bigger than before and much more luxurious-looking. The ground was made using warm jade that gave off a faint warmth.

After bringing them in and a wave of moans sounded out, Zhao Fu put on his clothes again and went before the Demon King Ancestral Saber that was no longer struggling, and he took it to the Heaven and Earth Refining Formation.

Zhao Fu once again gathered Bai Qi and the other Generals; this was the second time Great Qin was refining a Nation Armament, so Zhao Fu was quite excited.

Zhao Fu placed the Demon King Ancestral Saber into the Heaven and Earth Refining Formation and looked at the Generals. The Generals all nodded, sending a massive amount of Fate into the Heaven and Earth Refining Formation. The Heaven and Earth Refining Formation started to absorb the boundless Fate and give off a faint light.

Boom!!

A massive explosion sounded out as a rainbow-colored pillar of light shot up into the clouds. Countless traces of Heaven and Earth Fate madly gathered, causing wild gales to blow and for the heavens and earth to grow dim.

As the enormous amount of Fate continuously gathered, it was gradually compressed, and an extremely terrifying aura spread out in the sky. The entire northern side of the Midland Continent once again experienced a wave of terrifying power. They immediately knew who was doing this and were not too surprised; they had long since become used to such things.

Finally, as the countless traces of Fate were condensed, they formed a 100-meter tall cauldron that gave off a rainbow-colored light. This cauldron gave off immense might and could cause anyone to tremble in its presence.

Following this, everyone continued to send Fate into the magic formation, and the massive cauldron shook as a formless flame lit up within the cauldron, starting to refine the Demon King Ancestral Saber.

As the Demon King Ancestral Saber was refined, the Vile Dynasty's aura started to leave it, and it gave off a faint demonic light and a shocking aura.

At that moment, the 100,000 Dark Demon world residents knelt on the ground, and Great Qin Fate rose up from the ground, flooding into the rainbow-colored cauldron. The formless flames absorbed Great Qin's Fate and instantly became black flames, and the Demon King Ancestral Saber also absorbed Great Qin's Fate.

Time gradually passed, and the rainbow-colored cauldron, which gave off immense might, turned into countless traces of Fate and dissipated. A saber giving off soul-devouring demonic light appeared in the sky, its terrifying power making countless people feel afraid.

At that moment, the demonic saber slowly descended and floated in mid-air above the formation. Its appearance did not change much; it was still quite long and thin and gave off eerie demonic qi, but there was now Qin script on the blade.

Apart from the demonic intent it had before, it also now had a trace of mysteriousness and nobleness. Now, it was a Nation Armament of Great Qin, and Zhao Fu named it the Great Qin Demon Saber.

The saber's root in demonic qi could not be changed, even if it became a Nation Armament of Great Qin. However, its demonic qi was reduced and had fused with Great Qin's killing aura, making it even stronger than before.

After destroying the Vile Dynasty, which had been one of the more powerful Dynasties of the Dark Demon world, Great Qin had obtained an ocean of Fate, making Zhao Fu feel quite joyful. This was especially because it was a Dynasty from an enemy world, so the human world gave him a trace of its source energy.

Chapter 793: World-Cleansing Butterfly

This trace of the world's source energy was a rainbow-colored ball as big as a bean. Even though it was incredibly small, the power it gave off was incredibly monstrous — more than over 1,000 Destruction Crystals combined. That was how terrifying the world's source energy was.

However, this trace of source energy was not for Zhao Fu to use; it was for the World-Cleansing Butterfly. After Zhao Fu had become the World Protector, he had been rewarded with his own egg. Ever since he had obtained the egg, it had shown no signs of hatching despite Zhao Fu using medicine to speed up the incubation process.

The effects were negligible or non-existent. This was because the World-Cleansing Butterfly was a World Beast created using the world's Fate. They were very rare even within the Heaven Awaken World, and ordinary medicines would naturally be useless.

Zhao Fu placed Great Qin's Demon Saber in the City Hall next to the City Heart. This allowed it to be nourished by the Great Qin's Fate. Then, he took out the egg and slowly fused the trace of the world's source energy into the egg.

Immediately, Zhao Fu felt a powerful life force from within the egg. The weather started to change as countless traces of Heaven and Earth Spirit Qi started to gather, and the egg's aura became more and more terrifying.

The world seemed to go quiet as all beasts whether tigers, lions, or wolves within China's territory all obediently lay on the ground, instinctively feeling terrified. The wind stopped blowing, and the light seemed to freeze.

At that moment, the human world's Legatees also sensed this wave of power and turned their gazes toward where Great Qin was.

The egg was now floating in the air, and a tiny figure moved about within it. Following this, a little black head poked itself out of the top of the shell and curiously looked around. After finding there was no danger, it dragged its entire body out.

The rainbow-colored shell turned into dust and disappeared, and a chubby caterpillar that was one finger length long floated in mid-air.

After sensing Zhao Fu's aura, the little caterpillar happily flew over to Zhao Fu, and Zhao Fu sensed a consciousness trying to communicate with him.

However, because the caterpillar had just been born, it did not know anything and could not express itself very well. Zhao Fu could not understand it, but he could sense it was very happy and excited, and it felt quite the affection towards him.

Zhao Fu smiled and held out a Stage 5 Spirit Pill that he had bought in the outside world. The little fellow swallowed it in one gulp before looking at Zhao Fu with its round black eyes. She seemed to want more.

Following this, Zhao Fu took out another ten or so Stage 5 Spirit Pills, and the little caterpillar gulped them all down before looking satisfied. It then lazily made its way into Zhao Fu's clothes to sleep.

Now that the World-Cleansing Butterfly had hatched, it was up to Zhao Fu to raise it. The World-Cleansing Butterfly's potential definitely surpassed the Sky Desolation Azure Dragon. After it

matured in the future, it would be more powerful than the Sky Desolation Azure Dragon, but raising it would be quite difficult.

If a Stage 1 beast devoured a Stage 5 Spirit Pill, its body would explode, killing the beast. However, the little caterpillar had eaten about ten in order to be satisfied. It seemed he would have to feed it many treasures in the future to help it grow.

Zhao Fu thought about it and decided to give the little caterpillar a name. He decided to base it off its actual name and call it 'Cleansing Butterfly.'

After deciding on its name, Zhao Fu took it out from his clothes and said its name a few times. The little caterpillar did not seem to understand what Zhao Fu was saying. But, because it felt very close to Zhao Fu, it quickly started to respond.

After playing with it for a bit, Zhao Fu put it back into his clothes. Because it had just hatched, the World-Cleansing Butterfly was still quite sleepy.

By now, the 20 or so women within the refining building had regained some strength, but their faces were still quite flushed. A beautiful woman said, "Empress, should we agree to what he said?"

Hearing her words, a young woman said with tears, "We'll never submit to him; and, he's a human! He's an enemy of the Dark Demon world, and our Vile Dynasty was destroyed by him. It's better for us to die than to submit to him!"

"Ai!" A more mature woman sighed before saying, "It's not easy to die. There are restrictions in our bodies that stop us from even dying. Moreover, our bodies were just taken by him, and we could not resist him at all!"

"I actually feel submitting to him would not be too bad since things are already like this, and we can't do anything about it. Moreover, he's so strong; it's the first time I've felt such pleasure before," a woman with a fairly licentious aura said.

After hearing her say this, the other women's faces became red, and they looked at her angrily. She knew there was no way for them to refute what she had said, so she lightly harrumphed and laid on the warm jade to rest.

The woman who was referred to as the Empress was a cold-looking woman. She was Ughr's mother. After thinking for a while, she finally said, "The fact stands that the Vile Dynasty has perished. We can not change that. We need to think about the future.

"If we anger him, he won't kill us, but he'll think of ways to torture us. Do you really want to live like that? Moreover, it's better for the Vile Dynasty City to be in our hands than in someone else's; that way, we'll be able to stand within Great Qin."

All of the women fell silent. None of them wanted to live a life worse than death, so they all calmly considered what they should do. In the end, they could only comply and look to the princesses. They had the purest bloodlines, so they would be the best choices for being the City Lord."

"Ling'Er, you have the best aptitude here, and your bloodline is the purest; he'll most likely let you become the City Lord. What do you think?" the Empress said to a young woman.

This young woman was one of the women who had tried to seduce Zhao Fu to buy time. Her expression was cold as she thought to herself, feeling quite complicated.

The other women did not say anything and waited for her to reply. They would be depending on her in the future, and without her help, the rest of them would be quite pitiful.

In the end, the young woman called Erling nodded and agreed, causing everyone else to sigh in relief.

After hearing they had agreed to his proposal, Zhao Fu felt quite pleased. For ordinary Cities, Zhao Fu could casually choose a Dark Demon person to be the City Lord. However, as one of Great Qin's three Capital Cities, Zhao Fu had to find a suitable City Lord to properly wield its power.

Only someone with the Vile Dynasty's bloodline could properly wield the Vile Dynasty City's power. And for Zhao Fu, it was easier to have women submit to him than men; if it was a man, he would hate Zhao Fu to death and would never submit after knowing his female relatives had been taken by Zhao Fu.

As such, Zhao Fu could not choose a man to be the City Lord of the Vile Dynasty City.

Zhao Fu returned to the refining building and looked at the young woman called Erling, feeling quite surprised. Erling's expression was quite cold, and she turned her head aside, but Zhao Fu did not care about her attitude. Zhao Fu brought her out of the Xianyang Region and went to the nearby Green Province. There, he re-established the Vile Dynasty City.

Following this, he made Erling the City Lord and planted a Six Desires Demonic Seed within her body. Since he had made her the City Lord, he had to fully control her.

After finishing this matter, Zhao Fu ordered his people to start preparing the restoration of the Desolate Blood Mask. Back when he had first obtained a Desolate Blood Mask Shard, he had thought that it had been the shard of a Nation Armament; after all, even the description described it to be a shard of a Nation Armament.

However, after Tuoba Qing had awakened her bloodline, the shard had started to change, and the golden dragon said it was not just a Nation Armament but something that surpassed Emperor Heaven Armaments.

Zhao Fu did not know what was going on, but perhaps after restoring it, he would be able to learn more about it. As such, he quickly called Tuoba Qing over.

Now, Tuoba Qing's eyes were blood-red, and she looked incredibly bewitching and beautiful. However, her personality was still quite pure and simple. After hearing they were going to repair the Desolate Blood Mask, she felt incredibly happy as she felt a great sense of familiarity toward the Desolate Blood Mask.

Repairing the Desolate Blood Mask was different from refining a Nation Armament, but it also required the Heaven and Earth Refining Formation.

First, it required the blood of at least 100,000 people, and it had to be people with bloodlines related to Tuoba Qing's bloodline. After such a long time, the various Cities, Towns, and Villages had spawned enough people.

This was because Zhao Fu had made Tuoba Qing the City Lord of a City, and he made the people it spawned the Mayors and Village Chiefs of Towns and Villages. This way, they had spawned 180,000 people already.

Zhao Fu ordered the 180,000 people to gather together and give a bit of their blood, which he collected. Even though they only needed the blood of 100,000 people, it was better to have as much as possible.

After collecting the blood, Zhao Fu took out the four Desolate Blood Mask Shards and brought Tuoba Qing to the Heaven and Earth Refining Formation. This time, they were not using Fate to perform a Great World Refinement but a Blood Refinement.

Zhao Fu first placed the four shards at the center of the formation before placing buckets of blood nearby. Zhao Fu told Tuoba Qing the way to go about the refinement and told her to repair the mask according to her own methods. This required Tuoba Qing to do it by herself, and Zhao Fu could not help much.

After hearing Zhao Fu's words, Tuoba Qing nodded earnestly and went to the Heaven and Earth Refining Formation and activated it. The energy stones around it disintegrated as the magic formation was activated, and the four shards at the center were lifted by formless energy.

At that moment, Tuoba Qing's expression became serious, and she performed hand seals as a blood-red aura continuously rose up from her body.

Following this, she stretched her snow-white hands toward the four shards and lightly cried out. The blood in the buckets seemed to be controlled by energy and flowed towards the four shards, which formed a ten-meter wide ball of blood.

Tuoba Qing took out a dagger and slit her palm, causing blood to flow out. Her blood was also controlled and entered the ball of blood.

Immediately, the ball of blood gave off an intense blood-red light, and a terrifying power spread out like a wave. The sky seemed to dim and become completely dark. Without a trace of light, everyone felt quite afraid.

Suddenly, the ball of blood gave off a monstrous aura and turned into a ray of light as it shot into the sky. It gave off blood-red light that covered as far as the eye could see, looking like a blood-red sun in the sky.

“Husband, I can’t keep controlling it!” Tuoba Qing’s expression fell as she felt the ball of blood was slipping out of her control.

Just as Zhao Fu was about to do something, a blood-red light covered Tuoba Qing and lifted her into the blood-red sun in the sky. Immediately, the blood-red sun became 1,000 meters wide, and an even brighter blood-red light spread out.

Zhao Fu’s expression became quite startled; things had spun out of control. Zhao Fu looked at the blood-red sun in the sky and wanted to stop it, but the golden dragon suddenly said, “Don’t do anything!”

Hearing this, Zhao Fu could only remain still and hurriedly ask, “What’s going on?”

The golden dragon replied, “Before, I said her identity was quite extraordinary, and even I have no idea what’s going on. However, I can sense the world’s source energy gathering; this is not the human world’s power but the actual Heaven Awaken World’s source energy. You’re unable to stop it right now with your power; if you touch it, you’ll die!”

The entire human world became so dark that it was impossible to see their hands in front of them. The blood-red sun in the sky expanded to 10,000 meters and shined down on the entire world.

Countless people looked at the blood-red sun in confusion. An indescribable might gradually descended on the world, and countless beings felt their bodies sink. It was as if their hearts were gripped by a pair of big hands and made it impossible for them to breathe.

Within the blood-red sun, Tuoba Qing seemed to have fainted. The four shards gave off intense lights and gradually moved towards each other until they formed a complete mask.

This mask seemed to be made out of wood and only had holes for eyes. There were two intersecting traces of blood on the mask, which gave off an ancient aura. After it repaired itself, it floated towards the unconscious Tuoba Qing and put itself on her face.

Immediately, a pair of cold blood-red eyes flew open, and a shocking explosion rang out. The blood-red sun seemed to explode, causing everyone who was staring at it to be blinded.

An extremely terrifying aura spread out, and the experts in the surrounding worlds all sensed something. Their expressions became serious as they looked towards the human world.

Meanwhile, at the distant center of the Heaven Awaken World and within ruins, there were eight crystals floating in mid-air. These crystals were gigantic and bigger than mountains; even while standing in the distance, one would not be able to see them in their entirety.

Suddenly, one of the crystals slightly trembled. It was a blood-red crystal. Instantly, the weather greatly changed at the center of the Heaven Awaken World and the lighting became dim.

Countless old monsters who had been sleeping for tens of thousands of years suddenly woke up and opened their eyes; their terrifying power caused the heavens and earth to seem to shatter. All creatures trembled under their might, and even true Emperors could not help but tremble.

At that moment, the gigantic blood-red crystal suddenly became calm again, and all abnormal signs disappeared as if nothing had happened.

Zhao Fu could not help but gulp as he looked at that familiar yet unfamiliar girl in the sky who seemed to reign above everything. The Origin Race's power was not something an ordinary person could imagine.

At that moment, Tuoba Qing's terrifying blood-red eyes slowly turned towards Zhao Fu, causing his hair to stand on end. His soul uncontrollably trembled as a wave of fear he had never felt before rushed out of his heart.

The golden dragon cried out, "Zhao Fu, hurry and run!"

Chapter 795: Finger of Death

Just as the golden dragon spoke, Zhao Fu's body instinctively reacted. Just as he was about to act, Tuoba Qing pointed out a snow-white finger towards him.

Instantly, the heavens and earth seemed to lose their color as the world's source energy madly gathered, forming into a heavenly finger. It seemed to weigh down on the world, causing the space around it to collapse.

Zhao Fu's body froze, and his heart beat wildly in fear. Cold sweat ran down Zhao Fu's face as he found that he could not use any of his power. Under that finger, Zhao Fu felt like he was just an ant, and it was the first time he had felt the aura of death so closely.

“Am I about to die?” That was the only thought in Zhao Fu's mind because there was simply no way to retaliate against this finger, and a trace of despair appeared in Zhao Fu's heart.

Boom!!

The finger's power was like a meteor descending, causing a shocking explosion. Shockwaves instantly rippled out, destroying the ground within 100 kilometers. All trees, grass, birds, and beasts were completely annihilated, causing the world to seem to fall silent.

Tuoba Qing gave off an aura that seemed to reign above all worlds as she stood in the air, looking like a god as she stared at the massive crater with her blood-red eyes.

Suddenly, a devilish, blood-red star slowly appeared in the sky, giving off boundless blood-red light and an aura of suppression. It seemed to dye everything around it blood-red, and in just an instant, the entire human world seemed to turn blood-red.

An aura of coldness, bloodthirstiness, and disaster spread out from the sky, and countless people looked up in shock. They felt as if they had been dropped into icy water and continuously trembled.

Countless birds, beasts, and insects could only lie on the ground in terror and despair, not daring to make a bit of noise. The entire world fell silent.

In fact, the terrifying aura even spread through the massive rift and entered the Fish Scale world.

Immediately, all of the Fish Scale people felt a chill that stabbed at their minds. They all came to the surface of the water and were shocked to find that the human world had become a blood-red world. That terrifying aura was coming from the human world – just what had happened over there?

Everyone in the human world looked at the descending blood-red star in shock, and the Legatees all hurried over, understanding that something big had happened at Great Qin.

Cough... cough... within the crater, a few coughs sounded out as Zhao Fu slowly climbed to his feet, a trace of blood at his lips. His body was covered with blood-red starlight, making his body look like a starry ocean – this was the power of the Chaos Imperial Star.

Tuoba Qing coldly looked down at Zhao Fu, who looked back at her. He found that the young woman in front of him seemed to have become a different person; she was no longer pure and bright. Instead, she was cold and extremely powerful.

“Hah!!” Zhao Fu roared as he released all of his power, including his Emperor’s Power, City Lord Seal, and other City Lords’ City Lord Seals.

A shocking amount of power exploded out of Zhao Fu’s body, causing berserk gales to sweep through the surrounding 10,000 kilometers.

Blood dripped out of his left eye as his golden pupil continuously spun and became blood-red colored.

“Heaven and Earth Absolute Seal!” Zhao Fu shouted as he pressed his palms against the ground. The ground instantly cracked as millions of chains exploded out towards Tuoba Qing.

There were finally some changes in Tuoba Qing’s expression. She stretched out a hand and grabbed at the air and twisted, causing the space in front of her to seem to twist and become a vortex. As the countless chains shot into the vortex, they were all shattered.

Zhao Fu’s terrifying eyes coldly looked at Tuoba Qing, and he once again pressed his hands against the ground, causing blood-red light to shoot into the ground.

Clang, clang, clang...

Suddenly, countless chains shot out from behind Tuoba Qing, bringing with them immense force as they rushed towards her.

Tuoba Qing slightly tilted her head, and her blood-red pupils constricted as an enormous wave of power rushed out, once again shattering the chains.

“Hahhhh!” Zhao Fu once again roared, his appearance becoming somewhat savage as an even stronger power flowed out. Countless blood-red arcs of lighting appeared around him as the ground beneath him started to give way.

Clang, clang, clang...

The sounds of countless chains once again rang out as countless chains stretched out around Tuoba Qing, giving off frightening power as they shot towards Tuoba Qing.

Tuoba Qing once again stretched out a hand and closed it, causing a round, blood-red crystal to come out of her palm, and a blood-red energy barrier spread out.

Clang, clang, clang...

Under Zhao Fu’s control, the chains’ target changed as they wrapped around the blood-red energy barrier and tightly bound it. More and more chains wrapped around it, forming a 100-meter wide ball of chains in the sky.

This scene was incredibly shocking and was something that ordinary people would never see. The countless chains not only bound the blood-red energy barrier but also temporarily sealed Tuoba Qing’s terrifying aura as well.

Whoosh, whoosh, whoosh...

Thousands of chains then burst out of the ground, connecting with the ball of chains in the sky before slowly dragging it towards the ground. If Zhao Fu could drag her into the underground sealed space, he would be able to successfully restrain her.

The ball of chains greatly resisted, making Zhao Fu feel quite difficult to drag it to the ground.

Suddenly, Zhao Fu felt that the ball of chains lost all resistance, but before he could feel delighted, a blood-red sword light slashed out of the ball of chains, cutting countless chains into segments.

In the next second, Tuoba Qing’s figure appeared before Zhao Fu and punched at Zhao Fu’s chest with her right hand. Zhao Fu’s body flew backward and smashed through countless rocks and trees before stopping. Many of his bones had been broken and his chest was a mess.

After suffering this strike, Zhao Fu coughed up a mouthful of blood and did not even have the strength to get up.

Tuoba Qing had already arrived before Zhao Fu again and grabbed his neck with one hand and lifted him up. Her eyes coldly looked at Zhao Fu as she started to apply pressure.

Zhao Fu felt more and more pain in his neck as if it was going to be squeezed apart. He could barely breathe anymore.

Was he going to die at the hands of his own woman? Zhao Fu felt quite bitter, and looking at Tuoba Qing in front of him, he could not help but think back to the time he had spent together with her. He felt quite regretful – if he had known repairing the Desolate Blood Mask would end up like this, he definitely would not have done it. However, now that things had come to this, there was nothing he could do about it.

Chapter 796: Human's Power

“Husband, you’re so weak.” Tuoba Qing suddenly said as she coldly looked at Zhao Fu with her blood-red eyes.

Zhao Fu felt a chill within his heart and looked at Tuoba Qing in confusion. He did not understand what was going on – the Tuoba Qing in front of him seemed to still have her memories but seemed to have become a different person, wanting to kill him.

Zhao Fu did not know what to say. He looked at the cold Tuoba Qing with complex feelings; he liked the happy and cheerful Tuoba Qing much more. However, the old Tuoba Qing was gone, and he was powerless to do anything about it.

If only he had more power to change everything and make it like it was at the start. However, he was too weak and was just like an ant.

Suddenly, Zhao Fu’s soul felt as if it had fallen into a deep abyss, and blood-water covered him. His consciousness became hazier and hazier before it disappeared.

Boom!!

A shocking explosion sounded out as the Chaos Imperial Star in the sky gave off an even more intense blood-red light. The star started to rotate as an extremely monstrous power exploded out of Zhao Fu's body, and black and blood-red flames rose out of his body.

Tuoba Qing's expression fell as she was pushed back a few meters by this power and was forced to let go of Zhao Fu's neck.

Zhao Fu's body floated into the air, black and blood-red flames continuously wrapping around him as a powerful aura rushed out like a wild wind.

The whites of his eyes became black while his pupils remained the same color, making him seem much eviller. Two fangs grew out of his mouth, his ears became pointed, and two horns also appeared on his head as his hands became sharp claws.

Now, Zhao Fu's aura was completely different as if he had become a different person. His aura was filled with coldness, violence, evilness, and bloodthirstiness – just like the Chaos Imperial Star.

Tuoba Qing looked at Zhao Fu, her expression becoming more and more serious. She grabbed at the air and a blood-red sword instantly formed.

Zhao Fu's head leaned back before turning to look at Tuoba Qing with his terrifying eyes. A savage, evil smile appeared on his face, causing a chill to spread through Tuoba Qing's heart.

Swish!

Zhao Fu's body disappeared and instantly reappeared before Tuoba Qing. He grabbed at the air, causing a black and blood-red sword to form as he slashed towards Tuoba Qing.

Tuoba Qing's gaze was cold as she used her full strength, causing an aura even stronger than before to burst forth as she too slashed towards Zhao Fu.

Boom!!

The two swords gave off shocking power as they collided, creating a gigantic explosion. A shockwave blasted out, destroying everything in the surrounding 1,000 meters.

Boom! Boom! Boom!

Explosions continuously sounded out as the two people began an intense battle in the air. Countless sword lights flashed out and collided, causing gusts of wild wind to fill the surroundings. Rocks were blown into the air and trees were slashed in half, as if a terrifying catastrophe had descended.

“Heheheh!” Zhao Fu laughed like a monster as his sword sent out an ocean of sword qi that rushed towards Tuoba Qing, blasting her body back hundreds of meters.

A trace of blood leaked out of Tuoba Qing’s lips, and her expression became savage. She raised her hand, causing countless traces of blood-red aura to shoot into the sky. The sky seemed to be torn as a massive, crude-looking hand, giving off boundless power, stretched out and pressed down towards Zhao Fu. Zhao Fu felt as if there were countless mountains weighing down on him, pressing him against the ground.

However, the massive hand did not disappear and continued to press Zhao Fu into the ground, causing a massive handprint to appear on the ground.

Rumble...

The ground continuously trembled as massive stone pillars stretched out of the ground, giving off a sealing power – it seemed that Tuoba Qing wanted to seal Zhao Fu.

The blood-red light coming from the Chaos Imperial Star became even brighter, making it seem like a blood-red sun. The cold, devilish aura also became more powerful, while black and blood-red arcs of lightning appeared below the gigantic hand.

Shing!

A clear sword hum sounded out as a shocking sword light slashed out, splitting the hand in half. Zhao Fu’s body was covered with black and blood-red arcs of lightning as he got up and ferociously looked at Tuoba Qing as he charged at her.

Tuoba Qing raised her blood-red sword, and countless traces of sword qi flowed out, forming a long dragon. As Tuoba Qing slashed out, the dragon roared and gave off a boundlessly sharp aura as it shot towards Zhao Fu and seemed to tear through the sky.

Zhao Fu showed no fear and instead ferociously smiled. He gripped his sword with both hands and slashed out with all his strength, sending out a massive sword light that split the dragon in half and continued on towards Tuoba Qing.

Tuoba Qing once again stretched out her hand, causing a blood-red energy barrier to appear. As the massive sword light smashed into it, a cracking sound could be heard as the barrier was massively cracked, but it still blocked Zhao Fu's attack.

However, Zhao Fu's body suddenly blurred, and he disappeared before reappearing behind Tuoba Qing. His sharp claw instantly pierced through the cracked energy barrier, startling Tuoba Qing. She tried to use all her power to defend but was still sent flying by Zhao Fu and coughed up a mouthful of blood.

After crashing to the ground, Tuoba Qing lightly smiled and got to her feet before saying, "Husband, today I'll show you what Human's Power is!"

Suddenly, the world seemed to become silent again as figures that gave off unrivaled auras appeared. They were all illusory figures and quite hazy. Their appearances and auras were all different, and there were men and women, old and young.

After these illusory figures appeared, they all entered Tuoba Qing's body, causing a shocking power to explode out. This power was more terrifying than before by hundreds of times, and even if Zhao Fu lost consciousness, he would still feel terror.

"Arghhhh..." Zhao Fu continuously shouted as he released all of his power. The blood-red light that the Chaos Imperial Star seemed to become corporeal, and it gave off a power that seemed to be able to destroy the world.

Boom!!

A brilliant pillar of starlight descended from the Chaos Imperial Star, landing on Zhao Fu's body. Countless arcs of black and blood-red lightning rampaged in his surroundings, continuously destroying the ground, and an even stronger aura rose up from Zhao Fu's body.

Suddenly, a figure appeared within the pillar of light and grabbed Zhao Fu's head and slammed it towards the ground. A massive explosion sounded out as shockwaves blasted out. After the dust dispersed, a 1,000-meter wide crater had appeared in the ground.

Tuoba Qing's hand was pressing Zhao Fu's head against the ground, and there was blood coming out of Zhao Fu's head. His aura was incredibly weak, and his body lay there without any strength.

"Husband! With your strength, you were able to force me to use Human's Power – that shows your potential. I acknowledge you."

Tuoba Qing took her hand away and lightly took off the Desolate Blood Mask. Her gaze was no longer cold, and it had some feeling within it. She lightly smiled as she took Zhao Fu into her arms as if she had returned to her normal state.

Chapter 797: Origin Mark

After pulling the barely-alive Zhao Fu into her embrace, Tuoba Qing stretched out a hand and placed it on Zhao Fu's forehead. A blood-red rune flowed out of Tuoba Qing's hand and entered Zhao Fu's forehead. Immediately, a powerful wave of life energy quickly healed Zhao Fu's wounds.

Zhao Fu's fangs, horns, and claws gradually disappeared, and the Chaos Imperial Star also receded into the sky; everything returned to normal.

Zhao Fu's consciousness gradually returned, and he feebly opened his eyes. Seeing Tuoba Qing in front of him, he was given a big fright, but seeing that there was tenderness in her eyes, he relaxed and weakly called out, "Lil Qing!"

Tuoba Qing nodded and gave her normal, warm smile and said slightly apologetically, "I'm sorry husband. I just recovered my memories and I never thought I would become your woman and do those embarrassing things with you, so I felt some killing intent and went a bit too far."

Zhao Fu could not really understand what was going on, and his mind felt quite chaotic. Tuoba Qing seemed to have returned to her normal state but understood what she had just done.

Hearing this, Zhao Fu could only bitterly laugh. The Origin Race's power was not something he could resist; he knew that the golden dragon greatly respected and feared the Origin Race as well.

"Husband, do you not forgive me?" Seeing Zhao Fu bitterly laugh, Tuoba Qing felt quite apologetic because she had not been fully in control of herself in that state. It was indeed as if she had become a different person.

Zhao Fu lightly smiled as he shook his head, saying, "I was just beaten up by you; I can accept that."

Tuoba Qing's face became slightly red, and she smiled before suddenly thinking about something and saying, "Husband, I put an Origin Mark in your body; with this mark, you'll have a chance to obtain the Origin Bloodline. Also, I need to go now, so please take care of Wu Qing and the others."

Zhao Fu had somewhat expected this, but he still said reluctantly, "Do you have to leave?"

Tuoba Qing lightly nodded and said, "My memories have returned, and thank you for repairing the Desolate Blood Mask. If I stay here, some people's attention will be attracted to this place, and they might wipe out the entire human world. I must leave."

"At the same time, there are many things I need to do. I also want to find a way to restore my power – right now, my power is less than 1% of what it was before, so I need to quickly recover."

Hearing that this massive power was not even 1% of her original power, Zhao Fu could not help but feel incredibly shocked. However, thinking about the fact that Tuoba Qing was about to leave, he could not help but sadly sigh.

Tuoba Qing somewhat shyly kissed Zhao Fu on the cheek as she comforted him, saying, "Husband, there'll still be a chance for us to meet in the future; if you're strong enough, I'll stay by your side, so make sure you work hard!"

Zhao Fu could only bitterly smile, and he said goodbye to Tuoba Qing. Following this, Tuoba Qing waved her hand, and the space in front of her seemed to be torn like a sheet of paper. Tuoba Qing stepped into the void and disappeared, leaving behind Zhao Fu standing there.

After Tuoba Qing left, the golden dragon said with great joy, “Zhao Fu, boy, you’re simply too lucky! You obtained the Origin Race’s mark! Even my Heaven Murder Empire’s imperial clan could not do such a thing.”

Zhao Fu felt quite surprised and asked, “Is the Origin Mark that important?”

The golden dragon laughed as it replied, “Of course; that’s something that countless peak-level figures can only dream of having. With this mark, it’s possible for you to obtain the Origin Bloodline. Normally, the Holy Heaven Bloodlines are the limit for most races, and they cannot be upgraded in a person’s lifetime.

“However, the Origin Mark is extremely important to the Origin Race, as they can only split off their Origin once and give the Origin Mark to another person once.

“You saw that power just now, right? Compared to the Origin Race’s power, a Holy Heaven Bloodline is just like a three-year-old, while a Sovereign Bloodline is just trash.”

Thinking about that power that made him feel immense despair, Zhao Fu could not help but sigh. Even though he had given his body to the Chaos Imperial Star and gained a massive amount of power, facing Tuoba Qing, who had Human’s Power, he had been taken down instantly.

Following this, the other Generals quickly arrived; the shockwaves from before made it so that they did not dare to come close at all. After sensing that the battle was over, they had quickly hurried over, and looking at the aftermath of the battle, they could not help but feel incredibly shocked and worried.

However, seeing that Zhao Fu was fine, they let out a sigh of relief.

Wang Jian walked up and cupped his hands as he said caringly, “Your Majesty, are you alright? Are your injuries serious? Also, Concubine Qing...”

Zhao Fu turned to look at his subordinates and lightly shook his head as he said, “I’m fine. Also, the matter about Concubine Qing is to be kept as a secret of Great Qin; anyone who discusses any information about her will be severely punished!”

Now that Zhao Fu knew of Tuoba Qing’s identity, he naturally needed to keep it a secret in order to avoid any unnecessary troubles.

At that moment, a General came to report that the Legatees wanted to meet Zhao Fu. They had felt the terrifying aura from Great Qin and thought that something had happened, so they had quickly come. However, when they were about to cross the Great Wall, they were stopped by the Generals there.

Now that things were over, they were a bit late. Zhao Fu nodded and had people bring them to the Great Qin Palace.

Seeing the majestic palace, the Legatees could not help but feel shocked. They were all far away from establishing a Kingdom, as that took a lot of time and effort. Since Great Qin already had a palace, didn't that mean that it would be establishing a Kingdom soon? Thinking about this, they felt even more shocked.

They came to a large hall and saw the slightly-pale Zhao Fu, who asked, "What is it, everyone?"

Seeing how pale and feeble Zhao Fu looked, the Legatees were sure that something big had happened at Great Qin. Tina Pendragon asked, "Great Qin's Legatee, what were those abnormal signs just then?"

Of course, Zhao Fu could not tell them the whole truth, so he smiled and just said that it was only a small matter.

The Legatees did not believe this at all. As they came closer to Great Qin, they could sense an immense aura of destruction that caused their hearts to uncontrollably tremble. If it wasn't for the fact that this aura could cause great harm to the human world, they would not even dare to come close.

However, it seemed that Great Qin had already dealt with this, and since Zhao Fu did not want to say, they could not force him to answer. As such, they could only leave.

They also took this opportunity to somewhat take a look at Great Qin's strength, and they were shocked to find that Great Qin was indeed about to establish a Kingdom. Great Qin was about to establish the human world's first Kingdom.

After sending off the Legatees, Zhao Fu started to recover from his wounds and gave the order for the Vile Dynasty's Generals' corpses to be refined.

Chapter 798: Beginning of Attack

A few days later, a warm breeze blew as sunlight fell on all sorts of green plants – it was now March, and the Legacy Land once again welcomed spring in.

Zhao Fu's wounds had fully healed, and his subordinates had refined the Vile Dynasty's Generals' bodies, obtaining a few Innate Talent Blood Crystals. Zhao Fu gave these to those who had been with him for the longest, which were Old Logue, Daisy, Zhang Dahu, and Xiao Jian.

After obtaining more corpses, Zhao Fu would give some to Saar, Doke, and Chen Man as well.

Great Qin now controlled 160 regions and had 1,112 Great Cities, 30 Cities, 240 Towns, and 22,489 Villages.

Great Qin's population had risen to 570 million, and they now had 80 million soldiers. 60 million or so of them had reached Stage 1, 22 million or so of them had reached Stage 2, 200,000 or so of them had reached Stage 3, 8,000 or so of them had reached Stage 4, and the Generals had mostly reached Stage 5.

Now, with Great Qin's strength, Zhao Fu felt that they could go out and do things. He had hesitated before because he was worried that the various system main cities allied together would be too powerful, but he felt that Great Qin's strength was sufficient now.

However, he still had to make some preparations and prepare some defenses. Once Great Qin bared its fangs, it would make many enemies, so Great Qin had to think about defense first.

The Great Qin City was already a Level 4 Capital City and still lacked two levels until it could establish a Kingdom, so Zhao Fu wanted to speed this up. He wanted to establish his Kingdom as soon as possible to allow Great Qin to sweep across everything in its way in this world.

Within the main hall, all of Zhao Fu's Generals and Ministers were lined up in two lines with a red carpet down the middle.

Zhao Fu sat above on his imperial throne, giving off a ruler's aura as he said, "Who has any suggestions for our upcoming battles?"

Wei Liao stood out and gave a slight smile as he said, "Your Majesty, this subordinate suggests that Great Qin should not target the nearby Cities and should instead target Cities further away. This will make things easier for Great Qin.

"First, Great Qin will be able to maintain friendly relations with the nearby Cities. Second, Great Qin's strength will place great pressure on countless Cities. If they realize how powerful Great Qin is, they will most likely submit. Third, those who feel threatened will come to attack Great Qin. If they know that there are Cities with friendly relations with Great Qin, they will attack those Cities first.

"The Cities who are attacked will have two options: to either submit to Great Qin or join the other side. Either scenario is beneficial to Great Qin: joining Great Qin would be for the best, but even if they join the other side, given how well Great Qin has treated them, Great Qin will be able to attack them with perfect justification."

Hearing this, Zhao Fu nodded before asking, "Who has any differing opinions to General Wei Liao?"

Many of the Generals and Ministers below nodded and agreed with Wei Liao's suggestion. At that moment, Wang Jian stepped out and cupped his hands as he said, "Your Majesty, this subordinate also has a suggestion. Great Qin's strength is not sufficient to face all of the northern regions. We do not know just how many Cities will retaliate, so we should make preparations for the worst.

"As such, this subordinate does not support General Wei's suggestion wholly; rather, we should hide our identity and gradually destroy those far away while maintaining friendly relations with those close to us. We will first need to construct a large number of teleportation channels to silently wipe away the regions one by one.

"We don't need too many, or else we will attract too much attention. At the same time, the regions we choose should be as far away as possible to reduce our risk."

Hearing Wang Jian's thoughts, Zhao Fu nodded. Even though this would take a lot of time and be quite complicated, it was the safest and most cautious method.

“Your Majesty, the two Generals’ plans will be revealed at some point, so Great Qin should focus on defenses first. Once the countless Cities attack, if Great Qin is not prepared, we will definitely be broken through,” Sun Hanxiang cupped her hands as she also stepped out and spoke.

Zhao Fu replied, “Indeed, I will have people lay down a large number of traps and construct defensive formations and restrictions. What does everyone think of the two Generals’ proposals?”

Everyone fell quiet as they considered the costs and benefits of both plans while Zhao Fu also thought to himself.

The white-clothed Bai Qi stepped forward and said seriously, “Your Majesty, this subordinate believes that you can combine both plans to make up for the shortcomings of each. General Wei’s proposal is fast and will allow Great Qin to obtain great benefits quickly, but it is too risky. General Wang’s proposal is safe, but it is too slow and may be found out by some intelligent people.

“I believe that Great Qin can attack in three directions; I will attack one direction using General Wei’s plan, while the other two directions can be attacked using General Wang’s plan.

“This way, the pressure on Great Qin will be greatly reduced, and it will reduce the suspicions towards Great Qin. After all, if Great Qin is already battling against some factions, it would naturally not have enough time and resources to attack other factions. Great Qin can also put the blame on others.

“This will allow Great Qin to obtain great benefits and allay suspicion, and it can even pretend to help the other two directions being attacked to increase goodwill. This will allow Great Qin to just focus on a single direction if it so chooses.”

Zhao Fu could not help but smile – this plan was incredibly sinister and cunning, and Zhao Fu had not expected Bai Qi to be able to come up with such a plan. However, any plan that could kill enemies and obtain victory was a good plan.

After thinking some more and asking the others, Zhao Fu decided to use Bai Qi’s plan.

After making careful preparations, Great Qin did not hide its identity and instead make it very obvious that they were attacking the eastern side. They chose the eastern side because the factions there were stronger and would be a pain to deal with in the future, so it would be better to deal with them now.

Zhao Fu did not send out his full army and only planned to send 800 City Lords. He had 20 City Lords in a team, and this operation was not a lightning battle, as they had constructed a large number of teleportation channels to prepare to move a large number of people.

This would take a lot of time, so it was best for Great Qin to let them know that it was Great Qin doing this. On one hand, it showed the strength of Great Qin; of course, this was not Great Qin's true strength, as they had not even revealed their Wyverns and Corpse Soul Commanders. On the other hand, the more high-profile they were here, the less suspicion they would attract elsewhere.

It was another moonless and starless night, and the 800 City Lords split into 40 teams and simultaneously attacked 40 or so regions. Zhao Fu also participated, moving by himself.

Chapter 799: Aggressive Conquest

Bang!!

A massive explosion sounded out as a ray of light tore across the sky and shot into a City Hall. A suffocatingly-power aura burst forth, shocking the City Lord awake. He immediately rushed out and looked at the figure in the sky.

"I am Great Qin's Legatee. Are you willing to submit to Great Qin?" the figure in the air said with might and domineeringness. The entire city could hear his voice.

An extremely powerful might weighed down on this City Lord's body, giving him a big fright. He used his City Lord Seal's power, but his body still sank downwards as if he was in front of a massive tsunami. His body trembled, and he could not help but feel powerless.

As the paths between regions had been opened up, the surrounding hundreds of regions had heard about Great Qin's name. It had risen powerfully and had immense power; ordinary people were not a match for it, causing countless factions to fear it.

However, Great Qin's foreign policies gradually reduced other people's hostility towards it and caused everyone to gradually lower their guard against it.

This person in front of him was Great Qin? He had actually come to ask for his surrender himself, and his strength was indeed monstrous; as expected from Great Qin's ruler. Under Zhao Fu's immense aura, the City Lord understood that he could not withstand even a single blow, so he did not have to think too much.

The City Lord knelt on one knee and shouted, "Luanwu City is willing to submit to Great Qin!"

Now that Zhao Fu had come, the City Lord understood that he was not a match for Zhao Fu, and he did not want to die either, so he could only submit. After all, joining Great Qin was quite good anyway.

He would not have to worry about any natural disasters or other people attacking; many people already knew the benefits of joining Great Qin due to its foreign policies. Great Qin had also invited many City Lords to go and take a look for themselves, which showed just how confident Great Qin was.

"What's your name?" Zhao Fu asked the young man as he looked at him with his terrifying eyes.

The City Lord immediately respectfully replied, "This lowly one is Zhang Quan!"

"Very well, Zhang Quan, you will come with me to convince other City Lords to surrender. There will be people from Great Qin coming later to take over the city."

After saying this, Zhao Fu turned into a ray of light and shot into the horizon. Zhang Quan looked quite excited – now that he had joined Great Qin and had an opportunity to help it, his status would be quite high in the future. As such, he also kicked off the ground and turned into a ray of light as he followed behind Zhao Fu.

They were not in a great hurry, so they would always first ask if the other side if they were willing to surrender. If they surrendered, Great Qin would be able to easily take over a city; it was much easier than killing a City Lord, as they would meet a lot of resistance.

Boom!!

Another explosion sounded out as two monstrous auras descended above a City Hall. The terrifying aura was like a gigantic rock that weighed down on everyone's hearts, causing the entire city to fall silent.

This City Lord was a man in his fifties or sixties, and he was also woken up by a shock. He hurriedly picked up his weapon and rushed out, looking at the two powerful figures in the air.

“I am Great Qin’s Legatee. Are you willing to submit to Great Qin?” Zhao Fu once again said the same words. His voice was filled with dignity and overbearingness.

Without any surprise, the City Lord chose to submit and followed Zhao Fu to the third city. They unleashed their terrifying auras and landed above the City Hall.

A cruel-looking young man holding a large saber rushed out and shouted, “Who are you all? How dare you make a ruckus in Darkroam City!”

This time, Zhao Fu did not speak; he had two followers now, so he did not have to do this himself anymore. Beside him, Zhang Quan coldly harrumphed and said, “This is Great Qin’s Legatee. You now have two choices: either submit or die!”

“Hahaha...” the cruel-looking young man loudly laughed, “I won’t submit to anyone; you can all piss off! Otherwise, don’t blame me for not holding back!”

Zhang Quan and Li Fu, the second City Lord who had surrendered, had cold expressions and wanted to attack for Zhao Fu. This was a good opportunity to show their allegiance to Zhao Fu – after all, Zhao Fu was a King and dealing with such a person was below him.

However, Zhao Fu did not care much and attacked first. The Great Qin Seal within his body slightly trembled as a massive power gathered at his fingertip. He pointed at the cruel-looking young man, causing a black ray of energy to shoot towards him.

Feeling this massive power, the cruel-looking young man’s expression fell, and he too exploded out with a powerful aura. Traces of aura flowed out and gathered into a ten or so meter long black panther that leaped as it sprang towards the black energy.

Bang!!

The black energy pierced through the black leopard, causing it to dissipate into traces of qi. However, the black ray of energy had been greatly weakened, and the cruel-looking young man swung his saber, slashing apart the black ray of energy.

After blocking this terrifying attack, the cruel-looking young man loudly laughed and looked at Zhao Fu mockingly. Zhang Quan and Li Fu felt quite complicated; this cruel-looking young man was not weak at all and was stronger than them.

Facing the cruel-looking young man's mocking, Zhao Fu smiled condescending and suddenly stretched out his hand and grabbed at the air. The cruel-looking young man felt as if he had been gripped by a massive hand and immediately roared as he struggled.

However, Zhao Fu slightly twisted with his hand, and the cruel-looking young man screamed as his body was twisted like a pretzel. Blood flowed out from his orifices as he died horribly.

Even though Zhang Quan and Li Fu had expected Zhao Fu to be able to easily kill this cruel-looking young man, the horrifying way in which he had died made them feel incredibly fearful. If they had not submitted, that was what would have happened to them. They would have been easily killed just like an ant.

“Your Majesty, what should we do?” After the City Lord died, a large number of soldiers hurried over. Zhang Quan's attitude became even more respectful as he asked.

Zhao Fu looked at the soldiers charging over furiously and calmly replied, “Relocate the system main city; there will be people coming later to deal with them.”

It was only natural for some City Lords to resist; not all of them would choose to surrender. Zhao Fu had expected this, so he had made preparations. Soon, Stage 2 and Stage 3 soldiers would arrive to suppress them. Zhao Fu did not choose to use Stage 1 soldiers, as he wanted to use more powerful soldiers to directly suppress them.

This would make them feel despair and reduce their struggling, making it easier for them to submit.

Zhao Fu's plan went quite successfully, and he easily obtained nine system main cities. However, he did not stop and fearlessly continued.

The other teams also did quite well. As the 20 City Lords descended on various system main cities, the auras they gave off were not weaker than Zhao Fu's and had more of an oppressive aura that caused the people to feel more fear.

The system main cities either submitted or were directly destroyed. Any female City Lords who refused to surrender were suppressed and brought back to Great Qin.

Just like that, Great Qin domineeringly swept through everything in front of them without any hesitation. It aggressively took down city after city, causing the entire eastern side to feel incredibly shocked, forcing them to quickly react.

Chapter 800: Great Qin's Rebuttal

After taking over 40 regions, the 800 City Lords gathered into four teams that was each led by a General. They continued to wildly attack the regions around those they had already taken over, and soon, they had conquered 62 regions.

By now, things were getting dangerous, as news had started to spread about Great Qin's invasion. Countless City Lords quickly gathered, and soon, Great Qin would receive retaliation from countless City Lords.

The eastern factions' City Lords had never thought that Great Qin would attack so suddenly and move out 800 City Lords as well. That was equivalent to 200 regions' City Lords.

Even though many City Lords were able to react in time, some of them were incredibly close to the regions that had been taken over or were even the next target. With their strength, they would not be able to stop Great Qin's ferocious assault at all.

As such, they could only strategically retreat. For those who were too close to where Great Qin was invading, the City Lords only had time to relocate the city and leave by themselves, leaving behind the residents and soldiers.

It would be completely impossible for them to bring their residents and soldiers – each system main city had roughly 4.5 million people, so it would be impossible for such a number to be transported in such a short period of time.

Because Great Qin had only mobilized its high-grade forces, there were not many soldiers. However, they were incredibly mobile and fast – by the time many of these City Lords wanted to relocate their cities, Great Qin's people had already arrived. For others, they were only able to transport half of their residents before Great Qin arrived.

Under the immense pressure and threat of their soldiers and residents dying, most of the City Lords were forced to submit. Some of the City Lords were savage enough to abandon their residents and soldiers, running away by themselves. Whenever that happened, the soldiers' and residents' Loyalty would plummet, making it very easy for Great Qin to take them in.

Great Qin continued to unrestrainedly attack the various regions, and countless City Lords continuously arrived, hoping to join together to resist Great Qin.

By now, Great Qin had already taken over 84 regions and was forced to stop. There were too many City Lords gathered together now, and Great Qin could not continue to act so recklessly. As such, Zhao Fu decided to stop and quickly digest these regions.

Both sides gave off terrifying auras and faced off against each other, but neither side wanted to attack first.

The eastern side only had about 100 or so more City Lords than Great Qin's side. Now that Great Qin had stopped, they did not dare to attack, as they would suffer heavy casualties. No one wanted to die, so they just wanted to gather together and pressure Great Qin to back off.

On the other hand, Great Qin faced off against the eastern side City Lords without any intention of attacking, as they were quickly transporting people to Great Qin as they stalled for time.

Zhao Fu fully used his Vision sense, and seeing that more and more City Lords were gathering, Zhao Fu could only give the order to retreat. They had to give up on digesting some of the regions that they had not finished going through yet.

Otherwise, if the eastern side City Lords attacked, Great Qin would suffer a great loss. Their numbers already greatly exceeded that of Great Qin's, and there were still more City Lords hurrying over. Moreover, most of Great Qin's City Lords' strength was quite ordinary.

Without Bai Qi, Wang Jian, Wei Liao, others who had General Stars, or those who had Legacies, the only advantage that Great Qin had was their Talisman Equipment.

However, just based on the sheer numbers, if the two sides started to fight, Great Qin would definitely lose. Moreover, out of the 84 regions that Great Qin had gone through, they had quickly digested 80%, which was already enough. They could not continue on like this.

Seeing Great Qin retreat, the eastern side City Lords let out a sigh of relief. Some of the City Lords wanted to chase after Great Qin and attack, but there were not enough people. If they went over with only a few people, they would simply be delivering themselves to the enemy, so they could only give up.

Great Qin's sudden attack caused the northern side of the Midland Continent to be quite restless for the entire night. All of the factions had been startled awake at night; it seemed that Great Qin, which had been silent for so long, had suddenly sprung like a ravenous tiger, instantly devouring 80 or so regions.

This not only made the northern side factions feel at risk; all of China started to feel quite anxious. Ordinarily, most factions conquering one region, or even two or three, was already quite impressive.

However, compared to Great Qin, they were simply too weak. Great Qin had suddenly moved out 800 City Lords, which was an incredibly shocking number and made everyone feel terror.

Most of the other Chinese Legatees only had around 100 City Lords, which was eight times less than what Great Qin had. Moreover, this was only based on what Great Qin had revealed; who knew if Great Qin was hiding more of its power?

As Great Qin carried out its operation, the situation in China once again started to change. Dark currents started to flow, as the sleeping dragon once again opened its eyes and bared its fangs, showing its incredibly dangerous power.

Now that this evil dragon had awoken again, the world was bound to be sent into chaos; no one would experience peace for a long time.

There was nothing no one could do about this; the threat that Great Qin had displayed was simply too great, making countless people feel uneasy. Everyone was forced to make various decisions to defend against any possible attack Great Qin could launch.

Within the Midland Continent, after other nations heard of the recently-awoken Great Qin suddenly destroying 80 or so regions, they also paid great attention to this. They also tried to guess Great Qin's next steps and made preparations in advance.

Early the next morning, various factions from the eastern side held an emergency meeting to resist the violent Great Qin. They described Great Qin as bloodthirsty, barbaric, cruel, and evil and invited all factions to sanction Great Qin together.

In order to have as many people join as possible, anyone had the right to participate in this meeting. Regardless of whether one was an indigenous resident, player, or Outlander, anyone could gather to discuss the plan to stop Great Qin's rampage.

However, Great Qin had responded to the outcries against it – Great Qin's very own Li Si made a public announcement, showing that it was the eastern factions who had maliciously tried to harm Great Qin and had been hostile against Great Qin this entire time.

In order to ensure its own safety, Great Qin had acted in righteousness; after all, had Great Qin attacked a single city that it had good relations with? Great Qin had treated those cities with immense goodwill and given them many resources.

This did not require Great Qin to speak for itself; the cities near Great Qin were evidence of this – Great Qin was willing to live in harmony with everyone, so it hoped that people would not spread vile rumors about it.

Li Si even went so far as to say that anyone who said that Great Qin was bloodthirsty, evil, and barbaric were simply liars and gossipers. If anyone truly believed such ridiculous rumors, they would be incredibly stupid and virtueless people.

Great Qin's rebuttal, filled with righteousness and dignity, shocked all of the eastern factions. Some of them even started to wonder if they were in the wrong.
